indirectly, in connection with any advised sale of Securities]]⁴¹⁹

United States Taxation

This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the federal tax treatment of an investment in the Securities. Investors should seek their own advice based upon their particular circumstances from an independent tax adviser.

A non-U.S. investor should review carefully the section entitled "*United States Federal Taxation*" in the Base Prospectus.

⁴²⁰ [Withholding on "Other Income" Coupon Payments

The following discussion applies to Securities issued by Morgan Stanley or MSFL that pay periodic coupons and provide for a payment at maturity or upon early settlement (other than the stated coupon) that is determined by reference to the performance of a Relevant Underlying and thus may be lower or higher than their issue price. The U.S. federal tax treatment of the Securities is unclear due to the absence of statutory, judicial or administrative authorities that directly address the Securities or similar securities, and no ruling is being requested from the Internal Revenue Service ("IRS") with respect to the Securities. Significant aspects of the U.S. federal income tax consequences of an investment in the Securities are uncertain, and no assurance can be given that the IRS or a court will agree with the tax treatment described herein. Accordingly, investors should consult their tax adviser regarding the U.S. federal income tax consequences of an investment in the Securities (including possible alternative treatment thereof).

A non-U.S. investor should expect that a withholding agent will treat any coupon payments as subject to U.S. federal withholding tax at a rate of 30 per cent., unless the non-U.S. investor establishes an exemption under the "other income" provision of a Qualifying Treaty (as defined below) or, to the extent that any portion of a coupon payment is treated as interest for U.S. federal income tax purposes, an exemption under the "portfolio interest exemption" rules as described below.

An income tax treaty between a non-U.S. jurisdiction and the United States is a "Qualifying Treaty" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. Accordingly, if a non-U.S. investor is a resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, it should generally be eligible for an exemption under the "other income" provision referred to above if the non-U.S. investor complies with the certification requirement described in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Other Income Coupons*" in the Base Prospectus. However, because most income tax treaties contain complex eligibility rules and limitations, a non-U.S. investor should consult its tax adviser about its eligibility for this exemption. To demonstrate eligibility for the "other income" exemption to the Issuer or an applicable withholding agent, a non-U.S. investor generally will be required to provide a properly completed IRS Form W-8BEN or W-8BEN-E certifying that it is not a U.S. person and that it is eligible for the benefits of the "other income" article of a Qualifying Treaty (or, if the non-U.S. investor holds its Securities through certain intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate Form W-8BEN or W-8BEN-E to establish that it is not a U.S. person and that it is eligible for the benefits of the "other income" article of a Qualifying Treaty) as discussed in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Other Income Coupons*" in the Base Prospectus.

Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Securities is unclear, any coupon payments on such Securities could alternatively be treated in whole or part as payments

⁴¹⁹ Delete for Securities with a denomination per Note or Unit Value per Certificate of EUR 100,000 or more.

⁴²⁰ Insert for "other income" Securities issued by MS or MSFL that pay periodic coupons and provide for a payment at maturity or early settlement based on the value of the underlying securities (and thus it is possible that the final payment could be significantly lower than the Note's issue price), excluding Securities that pay periodic coupons at a fixed rate with no possible upside payment at maturity or upon early settlement.

Pro Forma Final Terms for Securities other than Preference Share-Linked Securities
(For Section 2 of Additional Terms and Conditions)

of interest. Nonetheless, even if the coupon payments are treated in whole or in part as interest and thus not eligible for the "other income" exemption described above, under current law and administrative practice a non-U.S. investor may qualify for the "portfolio interest exemption" with respect to the coupon payments if the investor has timely provided certifications to establish that it is not a U.S. person and certain other conditions are met, as discussed in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Interest*" in the Base Prospectus.

As described in "*United States Federal Taxation*" in the Base Prospectus, U.S. withholding may also be imposed in other circumstances, such as under FATCA, the U.S. backup withholding rules or Section 871(m) of the Internal Revenue Code.

If withholding is so required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.]

Ratings:

[The Securities to be issued have been rated:

[S & P: [●]]

[Moody's: [●]]

[Fitch: [●]]

[[Other]: [●]]

Option 1

[*Insert legal name of particular credit rating agency entity providing rating*] is established in the EEA and registered under Regulation (EU) No 1060/2009, as amended (the "**CRA Regulation**").

Option 2

[*Insert legal name of particular credit rating agency entity providing rating*] is not established in the EEA and is not registered under Regulation (EU) No 1060/2009, as amended (the "**CRA Regulation**").

Option 3

[*Insert legal name of particular credit rating agency entity providing rating*] is not established in the EEA but the rating it has given to the Securities is endorsed by [*insert legal name of credit rating agency*], which is established in the EEA and registered under Regulation (EU) No 1060/2009, as amended (the "**CRA Regulation**").

Option 4

[*Insert legal name of particular credit rating agency entity providing rating*] is not established in the EEA but is certified under Regulation (EU) No 1060/2009, as amended (the "**CRA Regulation**").]⁴²⁴

[*Need to include a brief explanation of the meaning of the ratings if this has previously been published by the rating provider.*]⁴²⁵

(The above disclosure should reflect the rating allocated to Securities of the type being issued under the Program generally or, where the issue has been specifically rated, that rating.)

Option 5

[The Securities will not be rated].]

⁴²⁴ Edit and delete options as appropriate for the relevant rating agency/agencies providing the rating(s).

⁴²⁵ Delete for Securities with a denomination per Note or Unit Value per Certificate of EUR 100,000 or more.

3. **INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE [ISSUE/OFFER]**

[Need to include a description of any interest, including conflicting ones, that is material to the issue/offer, detailing the persons involved and the nature of the interest. May be satisfied by the inclusion of the following statement:]

["So far as the Issuer is aware, no person involved in the offer of the Securities has an interest material to the offer".] OR

[Specify material Conflicts]

(When adding any other description, consideration should be given as to whether the new matters described constitute a "significant new factor" and consequently trigger the need for a supplement to the Base Prospectus under Article 23 of the Prospectus Regulation)

4. **REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES**

[(i)] Reasons for the offer:

[(ii)] Estimated net proceeds:

(If proceeds are intended for more than one use, will need to split out and present in order of priority. If proceeds insufficient to fund all proposed uses state amount and sources of other funding.)

[(iii)] Estimated total expenses:

[Include breakdown of expenses.] (If the Securities are derivative securities to which Annex 15 of Commission Delegated Regulation (EU) 2019/980 applies it is only necessary to include disclosure of net proceeds and total expenses at (ii) and (iii) above where disclosure is included at (i) above.)

Fixed Rate Securities only – YIELD

Indication of yield: /[Not Applicable]

Floating Rate Securities/Range accrual Securities/Barrier Securities only – HISTORIC INTEREST RATES

Details of historic [EURIBOR/other] rates can be obtained from [Reuters]./[Not Applicable]⁴²⁶

5. **Linked Securities only – PERFORMANCE OF UNDERLYING/[EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS]⁴²⁷ AND OTHER INFORMATION CONCERNING THE UNDERLYING**

[Not Applicable]/[Need to include details of where past and future performance and volatility of the index/equity/formula/other variable can be obtained by electronic means and whether or not it can be obtained free of charge [and a clear and comprehensive explanation of how the value of the investment is affected by the underlying and the circumstances when the risks are most evident.] [Where the underlying is a Share or ETF Interest include name of issuer of such Share or ETF Interest and ISIN or other relevant identification number of such underlying.]

⁴²⁶ Not Applicable for Securities with a denomination per Note or Unit Value per Certificate of EUR 100,000 or more.

⁴²⁷ Delete for Securities with a denomination per Note or Unit Value per Certificate of EUR 100,000 or more.

[Where the underlying is a commodity or commodity index, include name of such commodity or commodity index, including for these purposes where the commodity index is published] [Where the underlying is an Index or Inflation Index need to include the name of the Index or Inflation Index and an indication of where to obtain information about the Index or Inflation Index, including for these purposes where the Index or Inflation Index is published][Where the underlying is a Futures Contract, include details of the asset underlying such contract.]

[The value of the Securities is linked to the positive or negative performance of the [specify Underlying]. An increase in the [value]/[level] of the [specify Underlying] will have a [positive]/[negative] effect on the value of the Securities, and a decrease in the [value]/[level] of the [specify Underlying] will have a [positive]/[negative] effect on the value of the Securities.]

[The [interest] [and] [redemption] amount[s] payable on the Securities [is/are] dependent on the value or performance of the Relevant Underlying [reaching]/[not reaching] a threshold or barrier and a small increase or decrease in the value or performance of the Relevant Underlying near to the threshold or barrier may lead to a significant increase or decrease in the return of the Securities[and Securityholders] may receive no interest at all].

[The [interest] [and] [redemption] amount[s] payable on the Securities [is/are] linked to the value or performance of the Relevant Underlying as of one or more predefined dates and, irrespective of the level of the Relevant Underlying between these dates, the values or performance of the Relevant Underlying on these dates will affect the value of the Securities more than any other factor.]

[The Final Redemption Amount payable on the Securities is linked to [a specified percentage of] the performance of the Relevant Underlying and Securityholders may not receive the amount initially invested, and may receive a significantly lesser amount [/subject to the minimum amount specified].

The market price or value of the Securities at any time is expected to be affected by changes in the value of the Relevant Underlying to which the Securities are linked.

[The market price or value of the Securities could, in certain circumstances, be affected by fluctuations in the actual or anticipated rates of dividend (if any) or any other distributions on the Relevant Underlying.]

[Determinations of amounts payable under the Securities are made by reference to the arithmetic mean of the values or performances of [all]/[the selected] Basket Components. The Basket Components are given different weightings. The higher the weighting applicable to a particular Basket Component, the more Securityholders will be exposed to the value or performance of that Basket Component in comparison with the remaining Basket Components.]

(When completing this paragraph, consideration should be given as to whether such matters described constitute "significant new factors" and consequently trigger the need for a supplement to the Base Prospectus under Article 23 of the Prospectus Regulation)

Issue of [[Aggregate Nominal Amount] [Number of Units] of Tranche] [Title of Securities]

[Guaranteed by Morgan Stanley]

under the Regulation S Program for the Issuance of Notes and Certificates, Series A and Series B, and
Warrants

PART A – CONTRACTUAL TERMS

This document constitutes a Pricing Supplement relating to the issue of Securities described herein.

[Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Securities set forth in the Base Prospectus dated 14 July 2023 [and the supplement[s] dated [●],[●] ... [●]] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**"). This document must be read in conjunction with the Base Prospectus [as so supplemented]. Full information on the Issuer[, the Guarantor] and the offer of the Securities is only available on the basis of the combination of this Pricing Supplement and the Base Prospectus. [However, a summary of the Issue is annexed to this Pricing Supplement.]⁴⁴⁰ Copies of the Base Prospectus [and any supplement(s) thereto] are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [and any supplement(s) thereto] and this Pricing Supplement are available on the website of the [[Luxembourg Stock Exchange at www.luxse.com] / [●] at [●]].]

This Pricing Supplement does not constitute final terms for the purposes of Article 8 of Regulation (EU) 2017/1129 (the "**Prospectus Regulation**") or the Prospectus Regulation as it forms part of "retained EU law" as defined in the European Union (Withdrawal) Act 2018 (the "**UK Prospectus Regulation**"). The Issuer is not offering the Securities in any jurisdiction in circumstances which would require a prospectus pursuant to the Prospectus Regulation. Nor is any person authorised to make such an offer of the Securities on behalf of the Issuer nor any Dealer in any jurisdiction. In addition, no application has been made (nor is it proposed that any application will be made) for listing the Securities on a regulated market for the purposes of the Markets in Financial Instruments Directive (Directive 2014/65/EU, as may be amended or replaced from time to time) or Article 2(1)(13A) of Regulation (EU) 600/2014 as it forms part of "retained EU law" as defined in the EUWA.

(If the Securities reference a Proprietary Index then consideration should be given as to whether with any additional disclosure or risk factors are required to be included (or cross-referred to) in the Pricing Supplement.)

([Include whichever of paragraphs 1 to 54 of Part A, the sections titled "United States Taxation", "Potential Section 871(m) transaction", "Third Party Information" and paragraphs 1 to 12 of Part B of the "Pro Forma Final Terms for Securities other than Preference Share-Linked Securities" apply or specify as "Not Applicable". Note that the numbering should remain as set out therein, even if "Not Applicable" is indicated for individual paragraphs or sub-paragraphs. Italics denote guidance for completing the Pricing Supplement])

⁴³⁵ Insert if Morgan Stanley Finance LLC is the Issuer and the Securities are classified as Other Income Securities.

⁴³⁶ Insert if Morgan Stanley is the Issuer.

⁴³⁷ Insert if Morgan Stanley & Co. International plc is the Issuer.

⁴³⁸ Insert if Morgan Stanley B.V. is the Issuer.

⁴³⁹ Insert if Morgan Stanley Finance LLC is the Issuer.

⁴⁴⁰ Insert if Securities are (i) Certificates or (ii) Notes with denominations lower than EUR 100,000.

PRO FORMA FINAL TERMS FOR PREFERENCE SHARE-LINKED SECURITIES

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS:

THE SECURITIES ARE NOT INTENDED TO BE OFFERED, SOLD OR OTHERWISE MADE AVAILABLE TO AND SHOULD NOT BE OFFERED, SOLD OR OTHERWISE MADE AVAILABLE TO ANY RETAIL INVESTOR IN THE EUROPEAN ECONOMIC AREA (THE "EEA"). FOR THESE PURPOSES, A RETAIL INVESTOR MEANS A PERSON WHO IS ONE (OR MORE) OF:

International plc, directly or indirectly, in connection with any advised sale of Securities]]⁴⁶⁰

United States Taxation

This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the federal tax treatment of an investment in the Securities. Investors should seek their own advice based upon their particular circumstances from an independent tax adviser.

A non-U.S. investor should review carefully the section entitled "*United States Federal Taxation*" in the Base Prospectus.

⁴⁶¹ [Withholding on "Other Income" Coupon Payments]

The following discussion applies to Securities issued by Morgan Stanley or MSFL that pay periodic coupons and provide for a payment at maturity or upon early settlement (other than the stated coupon) that is determined by reference to the performance of a Relevant Underlying and thus may be lower or higher than their issue price. The U.S. federal tax treatment of the Securities is unclear due to the absence of statutory, judicial or administrative authorities that directly address the Securities or similar securities, and no ruling is being requested from the Internal Revenue Service ("IRS") with respect to the Securities.

⁴⁶⁰ Delete for Securities with a denomination per Note or Unit Value per Certificate of EUR 100,000 or more.

⁴⁶¹ Insert for "other income" Securities issued by MS or MSFL that pay periodic coupons and provide for a payment at maturity or early settlement based on the value of the underlying securities (and thus it is possible that the final payment could be significantly lower than the Note's issue price), excluding Securities that pay periodic coupons at a fixed rate with no possible upside payment at maturity or upon early settlement.

Pro Forma Final Terms for Preference Share-Linked Securities
(For Section 3 of Additional Terms and Conditions)

Significant aspects of the U.S. federal income tax consequences of an investment in the Securities are uncertain, and no assurance can be given that the IRS or a court will agree with the tax treatment described herein. Accordingly, investors should consult their tax adviser regarding the U.S. federal income tax consequences of an investment in the Securities (including possible alternative treatment thereof).

A non-U.S. investor should expect that a withholding agent will treat any coupon payments as subject to U.S. federal withholding tax at a rate of 30 per cent., unless the non-U.S. investor establishes an exemption under the "other income" provision of a Qualifying Treaty (as defined below) or, to the extent that any portion of a coupon payment is treated as interest for U.S. federal income tax purposes, an exemption under the "portfolio interest exemption" rules as described below.

An income tax treaty between a non-U.S. jurisdiction and the United States is a "Qualifying Treaty" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. Accordingly, if a non-U.S. investor is a resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, it should generally be eligible for an exemption under the "other income" provision referred to above if the non-U.S. investor complies with the certification requirement described in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Other Income Coupons*" in the Base Prospectus. However, because most income tax treaties contain complex eligibility rules and limitations, a non-U.S. investor should consult its tax adviser about its eligibility for this exemption. To demonstrate eligibility for the "other income" exemption to the Issuer or an applicable withholding agent, a non-U.S. investor generally will be required to provide a properly completed IRS Form W-8BEN or W-8BEN-E certifying that it is not a U.S. person and that it is eligible for the benefits of the "other income" article of a Qualifying Treaty (or, if the non-U.S. investor holds its Securities through certain intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate Form W-8BEN or W-8BEN-E to establish that it is not a U.S. person and that it is eligible for the benefits of the "other income" article of a Qualifying Treaty) as discussed in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Other Income Coupons*" in the Base Prospectus.

Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Securities is unclear, any coupon payments on such Securities could alternatively be treated in whole or part as payments of interest. Nonetheless, even if the coupon payments are treated in whole or in part as interest and thus not eligible for the "other income" exemption described above, under current law and administrative practice a non-U.S. investor may qualify for the "portfolio interest exemption" with respect to the coupon payments if the investor has timely provided certifications to establish that it is not a United States person and certain other conditions are met, as discussed in the section entitled "*United States Federal Taxation—Tax Treatment of the Securities—Interest*" in the Base Prospectus.

As described in "*United States Federal Taxation*" in the Base Prospectus, U.S. withholding may also be imposed in other circumstances, such as under FATCA, the U.S. backup withholding rules or Section 871(m) of the Internal Revenue Code.

If withholding is so required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.]

⁴⁶²[**THIRD PARTY INFORMATION**

Issue of [[Aggregate Nominal Amount][Number of Units] of Tranche] [Title of Securities]

[Guaranteed by Morgan Stanley]

under the Regulation S Program for the Issuance of Notes and Certificates, Series A and Series B, and
Warrants

PART A – CONTRACTUAL TERMS

This document constitutes a Pricing Supplement relating to the issue of Securities described herein.

[Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Securities set forth in the Base Prospectus dated 14 July 2023 [and the supplement[s] dated [●],[●] ... [●]] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**"). This document must be read in conjunction with the Base Prospectus [as so supplemented]. Full information on the Issuer[, the Guarantor] and the offer of the Securities is only available on the basis of the combination of this Pricing Supplement and the Base Prospectus. [However, a summary of the Issue is annexed to this Pricing Supplement.]⁴⁷⁷ Copies of the Base Prospectus [and any supplement(s) thereto] are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [and any supplement(s) thereto] and this Pricing Supplement are available on the website of the [[Luxembourg Stock Exchange at www.luxse.com] /[[●] at [●]].]

This Pricing Supplement does not constitute final terms for the purposes of Article 8 of Regulation (EU) 2017/1129 (the "**Prospectus Regulation**") or the Prospectus Regulation as it forms part of "retained EU law" as defined in the European Union (Withdrawal) Act 2018 (the "**EUWA**") (the "**UK Prospectus Regulation**"). The Issuer is not offering the Securities in any jurisdiction in circumstances which would require a prospectus pursuant to the Prospectus Regulation. Nor is any person authorised to make such an offer of the Securities on behalf of the Issuer nor any Dealer in any jurisdiction. In addition, no application has been made (nor is it proposed that any application will be made) for listing the Securities on a regulated market for the purposes of the Markets in Financial Instruments Directive (Directive 2014/65/EU, as may be amended or replaced from time to time) or Article 2(1)(13A) of Regulation (EU) 600/2014 as it forms part of "retained EU law" as defined in the EUWA.

[(Include whichever of paragraphs 1 to 47 of Part A, the sections titled "United States Taxation", "Third Party Information" and paragraphs 1 to 12 of Part B of the "Pro Forma Final Terms for Preference Share-Linked Securities" apply or specify as "Not Applicable". Note that the numbering should remain as set out therein, even if "Not Applicable" is indicated for individual paragraphs or sub-paragraphs. Italics denote guidance for completing the Pricing Supplement)]

⁴⁷² Insert if Morgan Stanley Finance LLC is the Issuer and the Securities are classified as Other Income Securities.

⁴⁷³ Insert if Morgan Stanley is the Issuer.

⁴⁷⁴ Insert if Morgan Stanley & Co. International plc is the Issuer.

⁴⁷⁵ Insert if Morgan Stanley B.V. is the Issuer.

⁴⁷⁶ Insert if Morgan Stanley Finance LLC is the Issuer.

⁴⁷⁷ Insert if Securities are for denominations (in the case of Notes) or a Unit Value (in the case of Certificates) lower than EUR 100,000.

ISSUE TERMS AND DRAWDOWN PROSPECTUSES

In this section the expression "necessary information" means, in relation to any Tranche of Securities, the information with regard to the Issuer and the Securities, which according to the particular nature and circumstances of the Issuer and the type of Securities, is material to investors for making an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and, if applicable, the Guarantor and of the rights attaching to the Securities and the reasons for the issuance and its impact on the Issuer. In relation to the different types of Securities which may be issued under the Program, the Issuer and the Guarantor have included in this Base Prospectus all of the necessary information except for information relating to the Securities which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Securities.

Any information relating to the Securities which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Securities will be contained in the relevant Issue Terms.

For a Tranche of Securities which is the subject of Issue Terms, those Issue Terms will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Securities which is the subject of Issue Terms are the Conditions described in the relevant Issue Terms as completed to the extent described in the relevant Issue Terms.

The terms and conditions applicable to any particular Tranche of Securities which is the subject of a Drawdown Prospectus will be the Conditions as completed, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Securities which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Issue Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the Issuer and the Guarantor and the relevant Securities or (2) by a Registration Document containing the necessary information relating to the Issuer and the Guarantor, a securities note (the "**Securities Note**") containing the necessary information relating to the relevant Securities and, if necessary, a summary note.

FORMS OF SECURITIES

Morgan Stanley, MSI plc, MSBV and MSFL may issue Securities in registered form ("**Registered Securities**"). Registered Securities may be in either individual certificate form or global certificate form. In addition (i) MSBV and MSI plc may also issue Securities in dematerialised and uncertificated book-entry form with a Nordic central securities depository ("**Nordic Securities**"), and (ii) MSBV and MSI plc may also issue Securities in uncertificated registered form ("**Uncertificated Securities**").

Registered Securities

Registered Securities will be in the form of either individual Security Certificates in registered form ("**Individual Security Certificates**") or a global Security in registered form (a "**Global Security Certificate**"), in each case as specified in the relevant Issue Terms. Each Global Security Certificate will either be: (a) in the case of a Registered Security which is not to be held under the New Safekeeping Structure (defined below), registered in the name of a common depository (or its nominee) for the Relevant Clearing System and the relevant Global Security Certificate will be deposited on or about the issue date with the common depository and will be exchangeable in accordance with its terms; or (b) in the case of a Registered Security to be held under the new safekeeping structure ("**New Safekeeping Structure**" or "**NSS**"), be registered in the name of a common safekeeper (or its nominee) for the Relevant Clearing System and the relevant Global Security Certificate will be deposited on or about the issue date with the common safekeeper for the Relevant Clearing System and will be exchangeable for Individual Security Certificates in accordance with its terms.

If the relevant Issue Terms specify the form of Securities as being "Individual Security Certificates", then the Securities will at all times be in the form of Individual Security Certificates issued to each Securityholder in respect of their respective holdings.

If the relevant Issue Terms specify the form of Registered Securities as being "**Global Security Certificate exchangeable for Individual Security Certificates**", then the Securities will initially be in the form of a Global Security Certificate which will be exchangeable in whole, but not in part, for Individual Security Certificates:

- (a) on the expiry of such period of notice as may be specified in the relevant Issue Terms; or
- (b) at any time, if so specified in the relevant Issue Terms; or
- (c) if the relevant Issue Terms specify "in the limited circumstances described in the Global Security Certificate", then if (a) the Relevant Clearing System is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 21 (*Events of Default*) occurs.

Whenever the Global Security Certificate is to be exchanged for Individual Security Certificates, the Issuer shall procure that Individual Security Certificates will be issued (i) in an aggregate principal amount equal to the principal amount of the Global Security Certificate (in the case of Notes) or (ii) for an aggregate number of Securities equal to the number of Securities represented by the Global Security Certificate (in the case of Certificates) within five business days of the delivery, by or on behalf of the registered holder of the Global Security Certificate to the Registrar of such information as is required to complete and deliver such Individual Security Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Security Certificates are to be registered and the principal amount (in the case of Notes) or the number of Securities (in the case of Certificates) of each such person's holding) against the surrender of the Global Security Certificate at the specified office of the Registrar.

Such exchange will be effected in accordance with the provisions of the Issue and Paying Agency Agreement and the regulations concerning the transfer and registration of Securities scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

Terms and Conditions applicable to the Registered Securities

The terms and conditions applicable to any Individual Security Certificate will be endorsed on that Individual Security Certificate and will consist of the terms and conditions set out under "*Terms and Conditions of the Securities*" above and the provisions of the relevant Issue Terms which complete those terms and conditions. The terms and conditions applicable to any Global Security Certificate that represents a Security will differ from those terms and conditions which would apply to the Security were it in

individual form to the extent described under "*Summary of Provisions relating to the Securities while in Global Form*" below.

Nordic Securities

Securities issued by MSBV or MSI plc and designated as "Finnish Securities" or "Swedish Securities" in the applicable Issue Terms will be issued in uncertificated and dematerialised book-entry form in accordance with the Finnish or, as applicable, Swedish legislation and all other applicable local laws, regulations and operating procedures applicable to and/or issued by the Finnish or, as applicable, Swedish central securities depository from time to time (the "**NCSD Rules**") designated as registrar for the Nordic Securities in the relevant Issue Terms (the "**NCSD**"). Payments of principal, interest (if any) or any other amounts on any Nordic Security will be made through the relevant NCSD in accordance with the NCSD Rules.

Uncertificated Securities

Uncertificated Securities will be held in uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the "**Regulations**"). The Uncertificated Securities are participating securities for the purposes of the Regulations. Title to the Uncertificated Securities is recorded on the relevant Operator register of eligible debt securities (as defined in the Regulations) and the relevant "**Operator**" (as such term is used in the Regulations) in Euroclear UK & Ireland Limited or any additional or alternative operator from time to time approved by the Issuer and the Registrar and in accordance with the Regulations. Securities in definitive registered form will not be issued (either upon issue or in exchange for Uncertificated Securities).

The Euroclear Registrar will make all payments in respect of Uncertificated Securities.

Eurosystem Eligibility

Registered Securities in global form which are to be held under the New Safekeeping Structure may be issued with the intention that such Securities be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. However, there is no guarantee that such Securities will be recognised as eligible collateral. Any other Securities are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem.

SUMMARY OF PROVISIONS RELATING TO THE SECURITIES WHILE IN GLOBAL FORM

Clearing System Accountholders

In relation to any Registered Securities (or any Tranche thereof) represented by a Global Security Certificate, references in the "*Terms and Conditions of the Securities*" above to "**Securityholder**" are references to the person in whose name such Global Security Certificate is for the time being registered in the Register which, for so long as the Global Security Certificate is held by or on behalf of a depositary or a common depositary for the Relevant Clearing System, will be that depositary or common depositary or a nominee for that depositary or common depositary.

Each of the persons shown in the records of the Relevant Clearing System as being entitled to an interest in a Global Security Certificate (each an "**Accountholder**") must look solely to the Relevant Clearing System (as the case may be) for such Accountholder's share of each payment made by the relevant Issuer to the holder of such Global Security Certificate and in relation to all other rights arising under such Global Security Certificate, including any right to exchange any exchangeable Securities or any right to require the relevant Issuer to repurchase such Securities. The respective rules and procedures of the Relevant Clearing System from time to time will determine the extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Security Certificate and the timing requirements for meeting any deadlines for the exercise of those rights. For so long as the relevant Securities are represented by a Global Security Certificate, Accountholders shall have no claim directly against the relevant Issuer in respect of payments due under the Securities and such obligations of the relevant Issuer will be discharged by payment to the holder of such Global Security Certificate.

Exchange of Global Security Certificates

Whenever a Global Security Certificate is to be exchanged for Individual Security Certificates, the Issuer shall procure that Individual Security Certificates will be issued (i) in an aggregate principal amount equal to the principal amount of the Global Security Certificate (in the case of Notes) or (ii) for an aggregate number of Securities equal to the number of Securities represented by the Global Security Certificate (in the case of Certificates) within five business days of the delivery, by or on behalf of the holder of the Global Security Certificate to the Registrar of such information as is required to complete and deliver such Individual Security Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Security Certificates are to be registered and the principal amount (in the case of Notes) or number of Securities (in the case of Certificates) of each such person's holding) against the surrender of the Global Security Certificate at the specified office of the Registrar. Such exchange will be effected in accordance with the provisions of the Issue and Paying Agency Agreement and the regulations concerning the transfer and registration of Securities scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Security Certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Security Certificate; or
- (b) any of the Securities represented by a Global Security Certificate (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Securities or the date for final redemption of the Securities has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the holder of the Global Security Certificate in accordance with the terms of the Global Security Certificate on the due date for payment,

then at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) each Accountholder shall acquire the right under the Morgan Stanley Deed of Covenant, the MSI plc Deed of Covenant, the MSBV Deed of Covenant and the MSFL Deed of Covenant (the "**Deeds of Covenant**"), as the case may be, or any Additional Deed of Covenant to enforce against the Issuer, the Issuer's obligations to the Securityholder in respect of the Securities represented by the Global Security Certificate, including the obligation of the Issuer to make all payments and deliveries when due at any time in respect of such Securities as if such Securities had been duly presented and (where required by the Conditions) surrendered on the due date in accordance with the Conditions. Each Accountholder shall acquire such right without prejudice to any other rights which the Securityholder may have under the Global Security Certificate and the Deeds of Covenant.

Notwithstanding the rights that each Accountholder may acquire under the Deeds of Covenant, payment or delivery to the Securityholder in respect of any Securities represented by the Global Security Certificate shall constitute a discharge of the Issuer's obligations to the extent of any such payment or delivery and nothing in the Deed of Covenant shall oblige the Issuer to make any payment or delivery under the Securities to or to the order of any person other than the Securityholder.

Conditions Applicable to Global Securities

Each Global Security Certificate will contain provisions which modify the terms and conditions set out in "*Terms and Conditions of the Securities*" as they apply to the Global Security Certificate. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Global Security Certificate, which, according to the Terms and Conditions of the Securities, require presentation and/or surrender of a Security Certificate will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Security Certificate at the Specified Office or to the order of any paying agent and will be effective to satisfy and discharge the corresponding liabilities of the relevant Issuer in respect of the Securities.

Exercise of Put Option: In order to exercise the Securityholder's put option set out in Condition 16.8 (*Redemption at the Option of Securityholders*) of the Terms and Conditions of the Securities, the holder of a Global Security Certificate must, within the period specified therein for the deposit of the relevant Security and put notice, give written notice of such exercise to the Fiscal Agent and/or such other person as is specified in the relevant Issue Terms specifying the principal amount (in the case of Notes) or number (in the case of Certificates) of Securities in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial Exercise of Call Option: In connection with an exercise of the option contained in Condition 16.5 (*Redemption at the Option of the Issuer*) of the Terms and Conditions of the Securities in relation to some but not all of the Securities, the Global Security Certificate may be redeemed in part in the principal amount (in the case of Notes) or number of Securities (in the case of Certificates) specified by the Issuer in accordance with the Conditions and the Securities to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and/or Clearstream, Luxembourg as either a pool factor or a reduction in principal amount (in the case of Notes) or number of Securities (in the case of Certificates), at their discretion).

Notices: Notwithstanding Condition 28 (*Notices*) of the Terms and Conditions of the Securities while all the Securities are represented by a Global Security Certificate and the Global Security Certificate is deposited with a common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system or a common safekeeper, notices to Securityholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Securityholders in accordance with Condition 28 (*Notices*) of the Terms and Conditions of the Securities, on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, except that, for so long as the Securities are listed on any stock exchange or are admitted to trading by another relevant authority, any notice to Securityholders shall be published in accordance with the rules and regulations of each such stock exchange or other relevant authority.

Payment Business Day: Notwithstanding Condition 2 (*Interpretation*), the definition of "Payment Business Day" in relation to any Global Security Certificate shall be as follows:

"**Payment Business Day**" means:

- (i) if the currency of payment is euro, any day which is a TARGET Settlement Day and a day on which dealings in foreign currencies may be carried on in each (if any) Additional Business Centre;
- (ii) if the currency of payment is CNY, any day on which banks and foreign exchange markets are open for business and settlement of CNY payments in the Relevant Financial Centre, the place of payment and each (if any) Additional Business Centre; or
- (iii) in any other case, any day which is a day on which dealings in foreign currencies may be carried on in the Principal Financial Centre of the currency of payment and in each (if any) Additional Business Centre.

Registered Securities

Notwithstanding Condition 17 (*Payments – Registered Securities*), each payment in respect of any Global Security Certificate shall be made to the person shown in the Register as the registered holder of the Securities represented by such Global Security Certificate at the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment (the "**Record Date**") where the "**Clearing System Business Day**" means a day on which each clearing system for which the Global Security Certificate is being held is open for business.

DESCRIPTION OF THE MS DYNAMIC FUND ALLOCATION INDEX FAMILY

The Issuer may from time to time issue Securities where payments of interest, principal or other amounts are linked to the performance of the Index. The following is a description of the index included for the purposes of Commission Delegated Regulation (EU) 2019/980.

This section (the "**Index Description**") summarises the essential characteristics of the full index methodology (the "**Index Methodology**" or the "**Index Rules**"), a copy of which is available at the Index Description Access Links below:

Index Name	Index Currency	Bloomberg Ticker	Index Description Access Link
MS Dynamic Fund Allocation Index	EUR	MSQTDFAA Index	https://www.morganstanley.com/indices/msqtdfaa

1. *Overview*

This Index Description sets out a description of the essential characteristics of the rules and procedures applicable to the determination of the value of the Index. Prospective investors should read the entire Index Description and Risk Factor 9.8(h) (*Securities linked to proprietary indices*) before making any investment decisions. Defined terms used in the summary are defined in sections 2, 3 and 5 below.

General Overview

The Index is a quantitative and rules-based multi-asset index, representing exposure to the performance of eight Index Components across Fixed Income, and Equities. The eight Index Components are "Ashmore SICAV - Emerging Markets Short Duration" Fund, "BlueBay Investment Grade Bond" Fund, "Allianz Strategy 50" Fund, "Morgan Stanley Investment Funds - US Advantage" Fund, "Nordea 1 SICAV - Alpha 15 MA" Fund, "PIMCO GIS US High Yield Bond" Fund, "Robeco Capital Growth Funds - Robeco Global Consumer Trends Equities" Fund, and "Merian Global Investors Series PLC - Merian Global Equity Absolute Return" Fund (each an "**Index Component**" or "**Asset**"). On each business day, the level of the Index reflects the return of the eight Index Components less fees and costs associated with the Index.

The weightings of each Index Component are rebalanced weekly with reference to performance and realised volatility of each Index Component and correlation of the Index Components. The target volatility level for the combined portfolio is 4%. The combined maximum weight of all Index Components is capped in order to limit the overall leverage when volatility has been particularly low.

Volatility refers to the degree of variance in the price level of a particular asset (in this case an Index Component) over a given time period. The greater the range of fluctuations in the price over the relevant period the higher the volatility. Realised volatility refers to the actual observed volatility of an asset (in this case an Index Component) over a given time period.

Key features of the Index

The Index provides exposure to the performance of a notional portfolio consisting of the eight Index Components. The Index allocation takes into account the diverse risk/return profiles of the eight Index Components by risk and performance-based weighting each Index Component based on the 3-month performance (the "**Performance**") and the 3-month realised volatility levels (the "**Realised Volatility**") of each Index Component and correlation between the Index Components. By risk-weighting each Index Component the Index aims to target an overall volatility of 4%. Risk and performance-based weighting means the strategy tends to reduce exposure to the more volatile and historically worse performing Index Components and increase exposure to the less volatile and historically better performing Index Components. In general, all other things being equal, this means that as an Index Component experiences a declining historical volatility and increasing historical performance with respect to the other Index Components it will tend to have an increased weight in the Index. Section 5.3 describes the Index calculation and weighting mechanism in full detail.

Index performance

The Index Level is calculated on each Index Calculation Day. The change in Index Level on each Index Calculation Day represents the return of the Index Components since the previous Index Calculation Day.

The weighting of each Index Component is rebalanced weekly based on Performance and Realised Volatility of each Index Component. Therefore an Index Component with a relatively high Realised Volatility will have a lower allocation at the Rebalance Date compared to an Index Component with a relatively low Realised Volatility if they have the same volatility target. An Index Component with a relatively low Performance will have a lower volatility target at the Rebalance Date compared to an Index Component with a relatively high Performance. However, as the levels of both Performance and Realised Volatility are subject to changes, it is expected that the allocation of the individual Index Component will also be subject to changes during the life of the Index.

The Index volatility that occurs after a Rebalancing Date may not be exactly matching the Target Volatility, since the future Realised Volatility for each Index Component and the correlation between Index Components will not necessarily exactly match the historic volatility used when determining the weights. Additionally, the level of Realised Volatility does not represent the expected return for that Index Component. As such, the weight of an Index Component could increase (decrease) since the previous weekly

rebalance, resulting from falling (rising) volatility but in either case can have a positive or negative effect on the performance of the Index.

The Index performance reflects the positive and negative performance of each Index Component. In general if an Index Component has a positive performance it will contribute to a positive Index performance, whereas negative performance of an Index Component will contribute to a negative Index performance.

Description of each Index Component

- (i) The "Ashmore SICAV - Emerging Markets Short Duration" Fund is a sub-fund of Ashmore SICAV, a UCITs SICAV incorporated under Luxembourg law. The "Ashmore SICAV - Emerging Markets Short Duration" Fund is managed by Ashmore Investment Management Limited and is an actively managed fund that primarily invests in short term emerging market transferable securities which are debt in nature. Fund shares are denominated in EUR.
- (ii) The "BlueBay Investment Grade Bond" Fund is a sub-fund of BlueBay Funds, a UCITs SICAV incorporated under Luxembourg law. The "BlueBay Investment Grade Bond" Fund is managed by BlueBay Funds Management Company S.A. and is an actively managed fund that invests at least two-thirds of its net assets in fixed income securities rated investment grade and issued by entities domiciled within European countries whose sovereign long term debt rating is investment grade. Fund shares are denominated in EUR.
- (iii) The "Allianz Strategy 50" Fund is a sub-fund of Allianz European Pension Investments SICAV, a UCITs SICAV incorporated under Luxembourg law. The "Allianz Strategy 50" Fund is managed by Allianz Global Investors GmbH and is an actively managed fund that invests in a balanced portfolio consisting of 50% global equity and 50% medium-term Euro bonds. Fund shares are denominated in EUR.
- (iv) The "Morgan Stanley Investment Funds - US Advantage" Fund is a sub-fund of Morgan Stanley Investment Funds, a UCITs SICAV incorporated under Luxembourg law. The "Morgan Stanley Investment Funds - US Advantage" Fund is managed by MSIM Fund Management (Ireland) Limited and is an actively managed fund that primarily invests in securities issued by U.S. companies and on an ancillary basis in securities issued by companies that are not from the U.S. Fund shares are denominated in EUR.
- (v) The "Nordea 1 SICAV - Alpha 15 MA Fund" Fund is a sub-fund of Nordea 1, a UCITs SICAV incorporated under Luxembourg law. The "Nordea 1 SICAV - Alpha 15 MA" Fund is managed by Nordea Investment Management AB and is an actively managed fund that primarily invests, directly or through derivatives, in various asset classes such as equities, bonds, money market instruments and currencies from anywhere in the world. Fund shares are denominated in EUR.
- (vi) The "PIMCO GIS US High Yield Bond" Fund is a sub-fund of PIMCO Funds: Global Investors Series plc, a UCITs open-ended investment company with variable capital incorporated with limited liability under the laws of Ireland. The "PIMCO GIS US High Yield Bond" Fund is managed by PIMCO Global Advisors (Ireland) Limited and is an actively managed fund that primarily invests in at least two-thirds of its total net assets in a diversified portfolio of high yield Fixed Income Instruments that are rated lower than Baa by Moody's or lower than BBB by S&P or equivalently rated by Fitch. Fund shares are denominated in EUR.
- (vii) The "Robeco Capital Growth Funds - Robeco Global Consumer Trends Equities" Fund is a sub-fund of Robeco Capital Growth Funds, a UCITs SICAV incorporated under Luxembourg law. The "Robeco Capital Growth Funds - Robeco Global Consumer Trends Equities" Fund is managed by Robeco Luxembourg S.A. and is an actively managed fund that primarily invests in international stocks of companies in consumer-related industries. Fund shares are denominated in EUR.
- (viii) The "Merian Global Investors Series PLC - Merian Global Equity Absolute Return" Fund is a sub-fund of Merian Global Investors Series plc, a UCITs investment company with variable capital incorporated with limited liability in Ireland. The "Merian Global Investors Series PLC - Merian Global Equity Absolute Return" Fund is managed by Merian Global Investors (UK) Limited and is an actively managed fund that primarily invests in a long and short portfolio of equity securities of companies located worldwide. Fund shares are denominated in EUR.

General Information

The Index has been calculated by the Index Calculation Agent since 31st July 2019 (the "**Index Live Date**"). The Index is calculated on each Index Calculation Day and was constituted by the Index Sponsor, with an Initial Index Level of 100 as of 12th January 2011 (the "**Index Base Date**"). Following the initial Index composition, the Index Sponsor has retrospectively rebalanced and calculated the Index from the Index Base Date until the Index Live Date.

Unless otherwise stated, all determinations of the Index Sponsor and Index Calculation Agent shall be made according to the terms set out herein and save for manifest error, all such determinations shall be binding on all relevant parties.

The Index is an excess return index.

The Index Currency is Euro.

2. *Index Sponsor*

The Index has been developed and is operated by MSI plc (in this Index Description, the "**Index Sponsor**" or "**Morgan Stanley**").

As at the date of publication of this document, MSI plc does not appear on the register of benchmark administrators established and maintained by the European Securities and Markets Authority pursuant to Article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Regulation**"). As far as the Issuers are aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that the Index Sponsor is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

The Index Sponsor retains the final discretion as to the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of the calculation methodology.

The Index Sponsor is not acting as a manager or an investment adviser in relation to the Index and has no fiduciary duty to any person or investor in respect of the Index.

The Index Sponsor makes no representation (implied or otherwise) as to the performance of any underlying Index Components and/or the Index.

3. *Index Calculation Agent*

The Index is calculated by MSI plc (the "**Index Calculation Agent**").

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to the Rules. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

The Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any underlying Index Component of the Index and/or the Index.

4. *Index data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the official levels for the following reference underlying assets referenced in section 5.2, as published on Bloomberg.

5. ***Index Composition and Calculation***

This section outlines the key steps in constructing and calculating the Index, including weighting, scheduled review timetable and timing of the daily Index level publication.

5.1 ***Index Calculation Days, Rebalancing and Rolling***

Index Calculation Days

The initial Index Level was set at 100 on the Index Base Date, which was also the first Rebalance Date. Following the Index Base Date, the Index Level is calculated on each Index Calculation Day. An Index Calculation Day is a weekday that is also a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London, New York, Luxembourg, Frankfurt and Dublin.

Rebalancing

The Index rebalances weekly every Wednesday. If a Wednesday is not an Index Calculation Day, then the Index rebalances on the following Index Calculation Day.

5.2 ***Inputs***

For the Index Level calculation which is described in section 5.3, several input numbers are required. This section explains and states these input numbers.

Asset Prices

The Index consists of *Assets* $i = 1, \dots, n$.

The variable $p_i(t)$ refers to the level of the relevant Index Component i at time t . For all Index Components, a daily published NAV is used, provided that the Index Calculation Agent may determine the level at a different time on such Index Calculation Day if, acting in good faith, the Index Calculation Agent determines that the daily published NAV is not indicative of the prevailing market level.

Below are the Bloomberg tickers used to obtain input data:

$p_1(t)$: Ashmore SICAV - Emerging Markets Short Duration Fund (Bloomberg Ticker: AEMSRAE LX Index)

$p_2(t)$: BlueBay Investment Grade Bond Fund (Bloomberg Ticker: BBGRABF LX Index)

$p_3(t)$: Allianz Strategy 50 Fund (Bloomberg Ticker: ALSFFCT LX Index)

$p_4(t)$: Morgan Stanley Investment Funds - US Advantage Fund (Bloomberg Ticker: MORAMAH LX Index)

$p_5(t)$: Nordea 1 SICAV - Alpha 15 MA Fund (Bloomberg Ticker: NMAPBPE LX Index)

$p_6(t)$: PIMCO GIS US High Yield Bond Fund (Bloomberg Ticker: PIMHEHD ID Index)

$p_7(t)$: Robeco Capital Growth Funds - Robeco Global Consumer Trends Equities Fund (Bloomberg Ticker: RGCCGED LX Index)

$p_8(t)$: Merian Global Investors Series PLC - Merian Global Equity Absolute Return Fund (Bloomberg Ticker: OMEAEHA ID Index)

Index Target Volatility

The Index has a Target Volatility of:

$$\text{targetVol} = 4\%$$

Target Volatility Contribution

Each Asset is targeted to contribute a certain proportion to the overall Index volatility, which is determined by its past performance. The Volatility Contributions for the Assets with performance ranked 1,...,8 are:

$$\omega_{RANK=1} = 0.30$$

$$\omega_{RANK=2} = 0.25$$

$$\omega_{RANK=3} = 0.20$$

$$\omega_{RANK=4} = 0.15$$

$$\omega_{RANK=5} = 0.10$$

$$\omega_{RANK=6} = 0.00$$

$$\omega_{RANK=7} = 0.00$$

$$\omega_{RANK=8} = 0.00$$

Index Fee

The Index includes an annualised Index Fee m which is deducted from the Index Level on a daily basis. The level of the Index Fee will be specific for each Index in the MS Dynamic Fund Index Family. The Index Fee will be specified in the applicable Issue Terms in respect of the Securities.

Overall Weight Cap

The sum of weights of all Asset is capped to prevent position sizes growing too large in low volatility environments. The cap for the sum of overall weights is:

$$\text{leverageCap} = 2.0$$

Funding Cost Adjustments

Returns of the Assets are adjusted by an interest rate plus a spread due to funding requirements. Funds typically require cash to purchase. The rate plus any spread for each Index Component are specified below, provided that the Index Calculation Agent may determine a different spread if, acting in good faith, the Index Calculation Agent determines that the levels below are not sustainable given prevailing market circumstances:

rate₁ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₂ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₃ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₄ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₅ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₆ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₇ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

rate₈ (t) : EUR 3-Month EURIBOR (Bloomberg Ticker: EUR003M Index) +65bps

5.3 **Index Level Calculation**

(a) **Definitions**

This section describes the calculation of the Index Levels in detail. For that purpose, the following variables and functions are introduced:

t : t is the current Index Calculation Day, $t - 1$ the previous Index Calculation Day, $t - 2$ two Index Calculation Days prior to the current Index Calculation Day, etc.

$Index(t)$ describes the Index level at time t .

$PRD(t)$: Rebalance Date previous to t . If it is a Rebalance Day, $PRD(t)$ is the Rebalance Date one week before, i.e. it is $t > PRD(t)$ at all times.

$EW_i(t)$: Effective Weight for Asset i

$R_i(t)$: Return since last Rebalance Date for Asset i

$IF(t)$: Index Fee since last Rebalance Date

$AR_i(t)$: Return since last Rebalance Date for Asset i (without Funding Cost adjustment)

$FC_i(t)$: Funding Cost since last Rebalance Date for Asset i

$DAR_i(t)$: Daily Return since last Rebalance Date for Asset i (without FX and Funding Cost adjustment)

$PERF_i(t)$: The performance of Asset i

$VC_i(t)$: Volatility Contribution of Asset i

$IW_i(t)$: Initial Weight for Asset i

$SF(t)$: Scale Factor that adjusts Initial Weights to reach the Index Target Volatility

$VOL21_i(t)$: Price volatility of the last 21 Index Calculation Days of Asset i

$VOL63_i(t)$: Price volatility of the last 63 Index Calculation Days of Asset i

$CORR21_{ij}(t)$: Correlation of the returns from the last 21 Index Calculation Days between Asset i and Asset j

$CORR63_{ij}(t)$: Correlation of the returns from the last 63 Index Calculation Days between Asset i and Asset j

$PVOL21(t)$: 21-day Portfolio Volatility using Initial Weights

$PVOL63(t)$: 63-day Portfolio Volatility using Initial Weights

$ROUND(p,q)$: Rounds number p to q decimal places

$ACCR(r,s)$: Number of calendar days between dates r and s

$RANK(u_i)$: Returns the rank of u_i within all u

Fund Means a mutual fund, investment company or other pooled investment vehicle issuing fund units (each a "**Fund Unit**") which is also an Index Component.

Fund Documents Means, in respect of a Fund, the constitutive and governing documents, subscription agreements and other agreements of the Fund specifying the terms and conditions relating to such Fund.

Fund Extraordinary Event The events specified as such in section 7.

Fund Service Provider Means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, for that Fund, whether or not specified in the Fund Documents, including any fund investment adviser, fund

administrator, manager, sub-manager, any person appointed in the role of discretionary investment manager or non-discretionary investment adviser (including a non-discretionary investment adviser to a discretionary manager or another non-discretionary investment adviser) for such Fund (the "**Fund Adviser**"), trustee or similar person with the primary administrative responsibilities for such Fund, operator, management company, depository, custodian, sub-custodian, prime broker, registrar and transfer agent and domiciliary agent.

Fund Unit	Means, in respect of a Fund, any share or unit of such Fund.
Fund Valuation Day	Means, in respect of each Fund observed separately, any date as defined in the Fund Documents in respect of which (i) the official net asset value of such Fund is reported in accordance with its Fund Documents; (ii) such Fund (or the primary Fund Service Provider on behalf of such Fund) is open for business and (iii) the Fund is open for market participants in general to effect subscriptions and/or redemptions of Fund Units on such day pursuant to a Valid Order submitted on such day (including there being no gate, deferral, suspension or other provisions in the Fund Documents subsisting on such day which permits such Fund to delay or refuse subscription and/or redemption orders).
Hypothetical Replicating Party	Means any party or holder (including, without limitation, Morgan Stanley and any of its affiliates) to Hypothetical Hedge Positions in such jurisdiction(s) as determined by the Index Calculation Agent.
Hypothetical Hedge Positions	Means the hypothetical purchase, sale, entry into or maintenance, by a Hypothetical Replicating Party, of one or more (i) positions or contracts in Fund Unit(s), shares, debt instruments, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (ii) securities lending/borrowing transactions, (iii) any cash deposits or cash borrowings and/or (iv) other instruments, arrangements, assets or liabilities howsoever described, for the purposes of replicating the Index or hedging products linked to the performance of the Index.

(b) **Index Level Calculation**

The Index Level on an Index Calculation Day is determined by adding the weighted returns since last Rebalance Date of each Index Component to the Index Level from the previous Rebalance Date and deducting the Index Fee. Thus, the Index Level is calculated as:

- The Index Level on the previous Rebalance Date
- *multiplied by*
1 *plus* the sum over each Assets' product of Effective Weight and Return since last Rebalance Date
- *minus* the Index Fee since last Rebalance Date
- rounded to 9 decimal places

As a formula:

$$Index(t) = ROUND \left(Index(PRD(t)) \times \left(1 + \sum_{i=1}^n EW_i(t) \times R_i(t) \right) - IF(t), 9 \right)$$

For the avoidance of doubt, 64 Index Calculation Days are required for the Effective Weights $EW_i(t)$ to be determined. As such, the Initial Index Level of 100 is determined on the Index Base Date, which is the 65th Index Calculation Date.

(c) **Calculation of Asset Returns**

For the calculation of the Index Level above, it is necessary to compute the return of each Asset since last Rebalance Date, $R_i(t)$. The return can take into account a number of factors including price movements and funding costs. The first step is to determine the Daily Asset Returns DAR_i for each Asset.

Daily Asset Return

The Daily Asset Return calculates the change in asset prices since the previous Index Calculation Day. It is calculated as:

- The current asset price *divided by* previous Index Calculation Day's asset price
- *minus* 1

As a formula:

$$DAR_i(t) = \frac{p_i(t)}{p_i(t-1)} - 1$$

Asset Return since last Rebalance Date

From the Daily Asset Return, the Asset Return since last Rebalance Date $AR_i(t)$ can be calculated. If the last Index Calculation Day was a Rebalance Date then the Asset Return since last Rebalance Date is the Daily Asset Return $DAR_i(t)$, otherwise it is calculated as:

- 1 *plus* the Asset Return since last Rebalance Date of the previous Index Calculation Day
- *multiplied by*
1 *plus* the Daily Asset Return

As a formula:

$$AR_i = \begin{cases} DAR_i(t), & \text{if } t-1 = PRD(t) \\ (1 + AR_i(t-1)) \times (1 + DAR_i(t)) - 1, & \text{otherwise} \end{cases}$$

Return since last Rebalance Date

To get to the Return since last Rebalance Date $R_i(t)$, the Asset Returns since last Rebalance Date $AR_i(t)$ may need to be adjusted by a Funding Cost. The funding cost adjustment is relevant for Fund Assets as a Fund Asset requires cash to purchase. The Return since last Rebalance Date $R_i(t)$ is calculated as:

- The Asset Return since last Rebalance Date *minus* the Funding Costs since last Rebalance Date

As a formula:

$$R_i(t) = (AR_i(t) - FC_i(t))$$

Funding Costs since last Rebalance Date

To take into account the effect of funded investments a funding cost adjustment is required. The Funding Costs are based on the interest rates stated in section 5.2 under the heading Funding Cost Adjustments. If the

last Index Calculation Day was a Rebalance Date, Funding Costs since last Rebalance Date $FC_i(t)$ are calculated as:

- The interest rate at previous Index Calculation Day
- *multiplied by* the number of accrued days between current and previous Index Calculation Day *divided by* 360

and if the last Index Calculation Day was not a Rebalance Date:

- The interest rate at previous Index Calculation Day
- *multiplied by* the number of accrued days between current and previous Index Calculation Day *divided by* 360
- *multiplied by*
 - 1 *plus* the Asset Return since last Rebalance Date on the previous Index Calculation Day
 - plus* the Funding Cost since last Rebalance Date on the previous Index Calculation Day
- *plus* the Funding Cost since last Rebalance Date on the last Index Calculation Day

As a formula:

$$FC_i(t) = \begin{cases} rate_i(t-1) \times \frac{ACCR(t, t-1)}{360}, & \text{if } t-1 = PRD(t) \\ FC_i(t-1) + (1 + AR_i(t-1) + FC_i(t-1)) \times rate_i(t-1) \times \frac{ACCR(t, t-1)}{360}, & \text{otherwise} \end{cases}$$

(d) **Calculation of Asset Weights**

Apart from the Returns since last Rebalance Date, the Effective Weights $EW_i(t)$ for each Asset is required to calculate the Index Level. The Effective Weights change on a weekly basis as part of the rebalancing process. To calculate the Effective Weights there are several steps including consideration of the performance, volatility and correlation of the Index Components. Firstly, the Volatility Contributions $VC_i(t)$ are calculated based on the past performance of Asset i .

Volatility Contributions

Each Asset is targeted to contribute a certain proportion $VC_i(t)$ to the overall Index volatility, which is determined by its performance over a fixed past observation period.

As the Returns of the Fund Assets are on a funded basis, the return from the funding rate needs to be deducted. The performance of a Fund Asset is calculated over an observation period N. The observation period N will be specific for each Index in the MS Dynamic Fund Allocation Index Family.

- The sum over the most recent N values of:
 - The Daily Asset Return
 - minus

The interest rate at previous Index Calculation Day *multiplied by* the number of accrued days between current and previous Index Calculation Day *divided by* 360

As a formula:

$$PERF_i(t) = \sum_{j=1}^N \left(DAR_i(t-j) - rate_i(t-1-j) \times \frac{ACCR(t-j, t-1-j)}{360} \right)$$

for $i = 1,2,3,4,5,6,7,8$.

The performance numbers from all assets can then be ranked. The volatility contribution $VC_i(t)$ of Asset i is then the weight according to its rank (see 4.2 under Target Volatility Contribution):

$$VC_i(t) = \omega_{RANK(PERF_i(t))}$$

Initial Weights

As a next step, the Initial Weights $IW_i(t)$ are calculated, which do not yet take into account correlations between the Assets.

- The Target Volatility of the Index
- *multiplied* by the volatility proportion of the relevant Asset w_i (see section 5.2)
- *divided* by the Asset price volatility of the last 63 Index Calculation Days

As a formula:

$$IW_i(t) = \frac{targetVol \times VC_i(t)}{VOL63_i(t)}$$

Scale Factor

If Asset Returns among the portfolio are not perfectly positively correlated, then the Portfolio Volatility calculated from the Initial Weights will be less than the Index Target Volatility. Hence, the Initial Weights are scaled by the Scale Factor $SF(t)$ in order to reach the Index Target Volatility. To constrain leverage below the desired Overall Weight Cap, the Scale Factor is constrained by the ratio of leverage cap to the sum of the Initial Weights. The Scale Factor is calculated as the minimum of:

- The Target Volatility of the Index divided by the maximum of (i) the 21-day Portfolio Volatility and (ii) the 63-day Portfolio Volatility
- *Overall Weight Cap leverageCap divided by the sum of Initial Weights*

As a formula:

$$SF(t) = \min \left(\frac{targetVol}{\max(PVOL21(t), PVOL63(t))}, \frac{leverageCap}{\sum_i^8 IW_i(t)} \right)$$

The consideration of two different lookback periods (21 and 63 days) for the Portfolio Volatility is intended to make the weight allocation more conservative and decrease the likelihood that the Index Volatility Target will be exceeded.

Effective Weights

From the Initial Weights and the Scale Factor, the Effective Weight for each Asset can be calculated. The Effective Weight is the product of Scale Factor and Initial Weight, capped if the weight exceeds the limit defined for each Index Component. If the last Index Calculation Day was a Rebalance Date, then the Effective Weight is calculated as:

- The product of the Scaling Factor at the previous Rebalance Date and the Initial Weight at previous Rebalance Date
- rounded to 3 decimal places

and if the last Index Calculation Day was not a Rebalance Date, then the Effective Weight at the current Index Calculation Day equals the Effective Weight from the previous Index Calculation Day.

As a formula:

$$EW_i(t) = \begin{cases} ROUND(SF(t-3) \times IW_i(t-3), 3), & \text{if } t-1 = PRD(t) \\ EW_i(t-1), & \text{otherwise} \end{cases}$$

Asset Volatility Calculations

This section describes the calculation of the asset volatilities that are used in the calculation of the Initial Weights and the Scaling Factor.

$VOL63_i(t)$ is the volatility of Asset i 's previous 62 daily returns $DAR_i(t)$ (which are calculated from the last 63 prices on Index Calculation Days). It is calculated as the annualised standard deviation of the previous 62 Daily Asset Returns. In the theoretical case that prices have not moved in the last 63 Index Calculation Days the volatility would be zero. As a zero volatility would cause an error in calculating the Initial Weights, the volatility is set to 0.01% in that case.

As a formula:

$$VOL63'_i(t) = \sqrt{\frac{1}{61} \sum_{j=1}^{62} (DAR_i(t-j) - \mu_{63,i})^2 \times \sqrt{252}}$$

and

$$VOL63_i(t) = \begin{cases} VOL63'_i(t), & \text{if } VOL63'_i(t) > 0 \\ 0.0001, & \text{otherwise} \end{cases}$$

where $\mu_{63,i}$ is the mean of the last 62 Daily Asset Returns, calculated as:

$$\mu_{63,i} = \frac{1}{62} \sum_{k=1}^{62} (DAR_i(t-k))$$

The 21-day volatility is defined as the annualised standard deviation of the last 20 Daily Asset Returns, similar to the 63-day volatility:

$$VOL21'_i(t) = \sqrt{\frac{1}{19} \sum_{j=1}^{20} (DAR_i(t-j) - \mu_{21,i})^2 \times \sqrt{252}}$$

and

$$VOL21_i(t) = \begin{cases} VOL21'_i(t), & \text{if } VOL21'_i(t) > 0 \\ 0.0001, & \text{otherwise} \end{cases}$$

where $\mu_{21,i}$ is the mean of the last 20 Daily Asset Returns, calculated as:

$$\mu_{21,i} = \frac{1}{20} \sum_{k=1}^{20} (DAR_i(t-k))$$

Portfolio Volatility Calculations

To calculate the volatility of the portfolio of Assets the volatility of each Asset and the correlations between the Assets are required. For the purposes of calculating the Effective Weights both the 21 day and 63 day Portfolio Volatility is required.

The mathematical rules for matrix multiplication are applied to determine the Portfolio Volatilities. The 21-day portfolio volatility is calculated as the square root of the product of vector (a), matrix (c) and vector

(b). The 63-day Portfolio Volatility is calculated as the square root of the product of vector (a), matrix (d) and vector (b), where

- (a) is a row vector that includes the Initial Weight for each Asset
- (b) is a column vector that includes the Initial Weight for each Asset
- (c) is the covariance matrix for the last 21 Index Calculation Days. The matrix has n rows and n columns, where n is the number of assets. The item in row i and column j in the matrix is the product of (i), (ii) and (iii), where:
 - (i) equals the price volatility of Asset i of the last 21 days
 - (ii) equals the price volatility of Asset j of the last 21 days
 - (iii) equals the correlation between Asset i and Asset j of the last 21 days
- (d) is the covariance matrix for the last 63 Index Calculation Days. The matrix has n rows and n columns, where n is the number of assets. The item in row i and column j in the matrix is the product of (i), (ii) and (iii), where:
 - (i) equals the price volatility of Asset i of the last 63 days
 - (ii) equals the price volatility of Asset j of the last 63 days
 - (iii) equals the correlation between Asset i and Asset j of the last 63 days

Expressed as formulas, the Portfolio Volatilities are calculated as follows:

$$PVOL21(t) = \sqrt{x'Ax}$$

and

$$PVOL63(t) = \sqrt{x'Bx}$$

where x is a $n \times 1$ vector consisting of the initial weights:

$$x = \begin{bmatrix} IW_1(t) \\ \vdots \\ IW_n(t) \end{bmatrix}$$

and x' is the transposed vector of x . A and B are the covariance matrices for 21 and 63 days respectively, with dimension $n \times n$:

$$A = \begin{bmatrix} CORR21_{11}(t) \times VOL21_1(t) \times VOL21_1(t) & \cdots & CORR21_{1n}(t) \times VOL21_1(t) \times VOL21_n(t) \\ \vdots & \ddots & \vdots \\ CORR21_{n1}(t) \times VOL21_n(t) \times VOL21_1(t) & \cdots & CORR21_{nn}(t) \times VOL21_n(t) \times VOL21_n(t) \end{bmatrix}$$

and

$$B = \begin{bmatrix} CORR63_{11}(t) \times VOL63_1(t) \times VOL63_1(t) & \cdots & CORR63_{1n}(t) \times VOL63_1(t) \times VOL63_n(t) \\ \vdots & \ddots & \vdots \\ CORR63_{n1}(t) \times VOL63_n(t) \times VOL63_1(t) & \cdots & CORR63_{nn}(t) \times VOL63_n(t) \times VOL63_n(t) \end{bmatrix}$$

Correlations between Asset i and Asset j for 21 days and 63 days are calculated as:

$$CORR21_{ij}(t) = \frac{252 \times \sum_{k=1}^{20} (DAR_i(t-k) - \mu_{21,i}) \times (DAR_j(t-k) - \mu_{21,j})}{19 \times VOL21_i(t) \times VOL21_j(t)}$$

and

$$CORR63_{ij}(t) = \frac{252 \times \sum_{k=1}^{62} (DAR_i(t-k) - \mu_{63,i}) \times (DAR_j(t-k) - \mu_{63,j})}{61 \times VOL63_i(t) \times VOL63_j(t)}$$

(e) Index Fee

An Index Fee is deducted from the Index Level on a daily basis. $IF(t)$ is the Index Fee that has accrued since last Rebalance Date. It is calculated as:

- The annual Index Fee m
- *multiplied by* the number of days accrued since last Index Calculation Day divided by 365
- *multiplied by* the Index Level on the previous Index Calculation Day
- *plus* the Index Fee at previous Index Calculation Date, if the previous Index Calculation Day was not a Rebalance Day, and 0 otherwise

As a formula:

$$IF(t) = \begin{cases} m \times \frac{ACCR(t, t-1)}{365} \times Index(t-1), & \text{if } t-1 = PRD(t) \\ m \times \frac{ACCR(t, t-1)}{365} \times Index(t-1) + IF(t-1), & \text{otherwise} \end{cases}$$

6. Calculation Time and Precision

The Index Level is typically disseminated by the Index Calculation Agent on the next Index Calculation Day. The published Index Levels are rounded to 3 decimal places.

7. Adjustment and Disruption Provisions

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index.

However, on occasions, there may be situations requiring adjustments to the Index that are outside the scheduled adjustments and rebalances. Such adjustments might be made by Index Sponsor or the Index Calculation Agent by having recourse to discretionary decisions. Any discretion will be used in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the value of the Index Components in the sole determination of the Index Sponsor.

Adjustment Events

The Index Calculation Agent will determine whether a circumstance relating to any underlying Index Component has a dilutive, concentrative or other effect on the theoretical value of the underlying Index Components and, if so, will (1) make the corresponding adjustment, if any, to the weights or Asset Price for such underlying Index Components and/or any of the other provisions hereof as the Index Calculation Agent determines appropriate to account for that dilutive, concentrative or other effect; and (2) determine the effective date of that adjustment. As a result of the foregoing adjustments, the total number of underlying Index Components may, on a given Index Calculation Day, increase or decrease.

In respect of a Fund, the occurrence of any event below will also constitute an Adjustment Event:

- (i) A subdivision, consolidation or reclassification of the relevant number of Fund Units, or a free distribution or dividend of any such Fund Units to existing holders by way of bonus, capitalisation or similar issue; or
- (ii) Any distribution, issue or dividend (other than an ordinary cash dividend) to existing holdings of Fund Units of:
 - (a) an additional amount of such Fund Units;

- (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of such Fund Units;
- (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or
- (d) any other type of securities, rights or warrants or other assets,
in any case for payment (cash or other consideration) at less than the prevailing market price (as determined by the Index Calculation Agent in its sole discretion); or
- (iii) Any extraordinary or bonus dividend or other cash distribution which is not an ordinary cash dividend of any Fund; or
- (iv) A repurchase by the Fund of relevant Fund Units whether the consideration for such repurchase is cash, securities or otherwise; or
- (v) Any other event that may have a dilutive or concentrative effect on the theoretical value of the relevant Fund Units.

In calculating the dilutive, concentrative or other effect of any Adjustment Event, the Index Calculation Agent will adjust the amount or value of the potential adjustment event by such amount as it determines appropriate to take account of any tax, duty, withholding, deduction or other charge whatsoever arising as a result of the Adjustment Event (including but not limited to any tax, duty, withholding, deduction or other charge sustained or incurred by Morgan Stanley and/or any of its affiliates as the hypothetical holder of the relevant Component(s), or which would be sustained or incurred by Morgan Stanley and/or any of its affiliates were any of them the holder of the relevant Index Component(s)).

Disruption Events

Each of the following is a "**Disruption Event**":

- (i) A **Material Change in Index Component Methodology** occurs if the Index Sponsor determines that there has been a material change to the methodology used to calculate an Index Component or there has been a material change in the constituents of an Index Component, including change of listed issuance schedule, hours of continuous market trading and publication of bid and ask prices.
- (ii) A **Termination of Data License** occurs if the Index Sponsor determines there has been a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data are supplied to compile or calculate the Index or an Index Component.
- (iii) A **Price Source Disruption** occurs if the Index Sponsor or the Index Calculation Agent determines that any of the source data required to calculate the Index (a "**Source Data**") is not available. This may include the published level of an underlying Index Component or data provided by a third party vendor. A Price Source Disruption may also include any permanent cancellation or prolonged suspension of any underlying Index Component.

For the avoidance of doubt, a Price Source Disruption will occur if:

- any person fails to announce or publish any Source Data (or the information necessary for determining any Source Data), including where previously such Source Data was published on or by more than one price source or data provider, and is not published on all such sources for such day and the Index Calculation Agent determines any such non-publication(s) material; or
- any Source Data is discontinued or becomes unavailable (whether temporarily or permanently).
- (iv) A **Disappearance of Price** occurs if the Index Sponsor or the Index Calculation Agent determines the:
 - disappearance of, or trading in, the relevant Index Component; or

- the disappearance or permanent discontinuance or unavailability of a price, notwithstanding the availability of the related price source or the status of trading in the relevant Index Component.
- (v) A **Change in Law** occurs if there has been a change in applicable law or regulation that prevents the Index Sponsor and/or the Index Calculation Agent from calculating, publishing or hedging the Index.
- (vi) A **Hedging Disruption** occurs if the Index Sponsor determines that Morgan Stanley or any of its affiliates would be unable after using commercially reasonable efforts to: a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments deemed necessary to hedge its position in relation to any relevant transactions relating to or calculated by reference to the Index; or b) realise, recover or remit the proceeds of any such transactions or instruments.
- (vii) A **Force Majeure Event** occurs if the Index Sponsor determines that an event or circumstance has occurred that is beyond the reasonable control of the Index Sponsor and, as a result of which, the Index Sponsor or the Index Calculation Agent is unable to calculate, publish or take any other necessary action in relation to the Index. Such event or circumstance may include (without limitation) a systems failure, fire, building evacuation, natural or man-made disaster, act of state, armed conflict, act of terrorism, riot or labour disruption.
- (viii) **FX Event:** (a)(i) The declaration of a banking moratorium or the suspension of payments by banks, in either case, in the country of any currency underlying the Index or (ii) the declaration of capital and/or currency control (including, without limitation, any restriction placed on assets in or transactions through any account through which a non-resident of the country of any currency used to determine the currency exchange rate may hold assets or transfer monies outside the country of that currency, and any restriction on the transfer of funds, securities or other assets of market participants from, within or outside of the country of any currency used to determine the applicable exchange rate); (b) the method of calculating the value of any currency underlying the Index is changed in a material respect, or is in any other way modified so that the conventional market quotation does not, in the opinion of the Index Sponsor, fairly represent the value of such currency; or (c) the Index Sponsor determines that there is a material difference in the exchange rate for a currency underlying the Index, as determined by reference to the rate source for the relevant currency and any other market source.

Fund Extraordinary Events:

Fund Extraordinary Events have the meaning of the events defined below:

- (i) **Fund Change in Law:** Means that (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Index Calculation Agent determines in good faith, after instruction from the Index Sponsor, that: (A) it has become illegal for a Hypothetical Replicating Party to hold, acquire or dispose of the Hypothetical Hedge Positions (including the relevant Fund Units) or it has become illegal to maintain the agreement entered into by Morgan Stanley and/or one of its affiliates with the Fund or a Fund Service Provider mentioned in item "Breach or Termination of Agreement" below or (B) Morgan Stanley and/or one of its affiliates will incur a materially increased cost in performing its obligations (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);
- (ii) **Breach or Termination of Agreement:** Means any failure by the Fund or a Fund Service Provider, as the case may be, to comply with or perform any agreement entered into by the Fund or a Fund Service Provider with Morgan Stanley and/or any of its affiliates, defining the terms and conditions at which Morgan Stanley and/or any of its affiliates may make subscriptions and/or redemptions in the Fund Units (as the case may be, different from the subscription and redemption terms then prevailing pursuant to the Fund Documents), including as the case may be the rebates of management fees to be paid to Morgan Stanley and/or one of its affiliates, the termination of such agreement by the Fund or a Fund Service Provider for reasons beyond the control of Morgan Stanley or its affiliates or the failing or ceasing of such agreement to be in full force and effect or

- the Fund or the Fund Service Provider disaffirms, disclaims, repudiates or rejects in whole or in part or challenges the validity of such agreement;
- (iii) **Closure of the Fund:** Means the liquidation, winding up or dissolution of the Fund for any reason other than those mentioned in Fund Insolvency Event or Insolvency below;
- (iv) **Fund Adviser Event:** Means that the Index Calculation Agent, after instruction from the Index Sponsor, determines that over a period of 12 months, the total value of the assets managed by the Fund Adviser (including the Fund) has decreased by 50 per cent (either due to redemptions or decrease in value of such assets);
- (v) **Fund Insolvency Event:** Means, in respect of any Fund Unit, that the related Fund
- (a) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger);
 - (b) makes a general assignment or arrangement with or for the benefit of its creditors;
 - (c) (A) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organization or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or (B) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in clause (iii) under Fund Insolvency Event above and either (I) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (II) is not dismissed, discharged, stayed or restrained in each case within fifteen days of the institution or presentation thereof;
 - (d) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets;
 - (e) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all of its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within fifteen days thereafter; or
 - (f) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (i) through (v) above;
- (vi) **Fund Modification:** Means any change or modification of the related Fund Documents prevailing on the Index Live Date, that could reasonably be expected to affect the value of such Fund Unit or the rights or remedies of any holders thereof (including, but not limited to, an open-end fund that becomes a closed-end fund), as determined by the Index Calculation Agent, after instruction from the Index Sponsor;
- (vii) **NAV Trigger / Restriction Event:** Means, in respect of any Fund, that (i) the reported NAV as of the last valuation date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the reported NAV as of the valuation date of the same month in the immediately preceding calendar year; or (ii) the Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (viii) **Fund Service Provider Event:** Means (i) a change, resignation, termination or replacement of any Fund Service Provider, (ii) a change of control or indirect control of any Fund Service Provider, (iii) any Fund Service Provider is subject to a Fund Service Provider Insolvency Event, where

"Fund Service Provider Insolvency Event" has the same meaning as Fund Insolvency Event described in above, except that references to the Fund are replaced by references to the Fund Service Provider or (iv) in the reasonable opinion of the Index Calculation Agent, after instruction from the Index Sponsor, any of the Fund Service Providers is no longer deemed able to carry out its business with the standard of care which was prevailing on the Index Live Date or the resignation, termination, replacement, or death of any person deemed to be key in the management of the Fund has occurred;

- (ix) **Holding Ratio:** Means the reduction of the Fund's aggregate Net Asset Value under an amount that, in the reasonable opinion of the Index Calculation Agent, after instruction from the Index Sponsor, has, or is likely to have, a significant effect on the management conditions of the Fund and/or its operating expenses or would increase the proportion of Fund Units held, or likely to be held, by a Hypothetical Replicating Party, to such extent that the full redemption in one single Valid Order the Fund Units notionally held by a Hypothetical Replicating Party or funds managed by the same, is likely to be impaired;
- (x) **Delisting:** Means, in respect of a Fund, where there is or was intended to be an exchange in respect of such Fund that such exchange announces that pursuant to the rules of such exchange, such Fund cease (or will cease or will never) being listed or publicly quoted on the exchange for any reason and are not immediately re listed or re quoted on an exchange or quotation system located in the same country as the exchange (or, where the exchange is within the European Union, in any Member State of the European Union);
- (xi) **Fund Increased Cost of Hedging:** Means that a Hypothetical Replicating Party would incur a materially increased (as compared with circumstances existing on the Index Live Date) amount of tax, duty, expense, fee (other than brokerage commissions) or cost to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hypothetical Hedge Positions or (ii) realize, recover or remit the proceeds of any such Hypothetical Hedge Positions, provided that, assuming the Hypothetical Replicating Party is Morgan Stanley, any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Morgan Stanley or one of its affiliates shall not be deemed a Fund Increased Cost of Hedging;
- (xii) **Fund Settlement Disruption:** Means a failure by the Fund to pay in cash the full amount of the redemption proceeds on the date by which the Fund was scheduled to have paid such amount, or the suspension or restriction of subscription orders in the Fund, and which, in the determination of the Index Calculation Agent, after instruction from the Index Sponsor, makes it impossible or impracticable to determine the Net Asset Value of such Fund, including without limitation due to (i) the transfer of all illiquid assets of such Fund to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (ii) the restriction on the amount or number of redemption orders that the Fund (or the Fund Service Provider generally in charge of accepting redemption orders) will accept in relation to a single date on which such Fund normally accepts redemption orders (a gate), (iii) the suspension or restrictions for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting subscription and redemption orders) or (iv) the postponement of the payment of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by its statutory auditors (holdback), in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Index Live Date, or are so envisaged by the Fund Documents on the Index Live Date and are wholly implemented by the Fund after such date;
- (xiii) **Fund Hedging Disruption:** Means that The Index Sponsor determines that a Hypothetical Replicating Party is unable or it is impractical for a Hypothetical Replicating Party, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hypothetical Hedge Positions or (ii) realize, recover or remit the proceeds of any such Hypothetical Hedge Positions, without limitation, where such inability or impracticality has arisen by reason of: (A) the transfer of all illiquid assets of the Fund being all or part of the Hedge Positions to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (B) the restriction on the amount or number of redemptions or subscriptions that the Fund (or the Fund Service Provider generally in charge of accepting the redemption or subscription orders) will accept in relation to a single date on which the Fund normally accepts redemption orders (a gate), (C) the suspension for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting the subscription and redemption orders), (D) the postponement of the payment

of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by the Fund's statutory auditors (holdback), or increase in charges or fees imposed by the relevant Fund or (E) any mandatory redemption, in whole or in part, of such Fund Unit imposed by the relevant Fund, in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Index Live Date, or are so envisaged by the Fund Documents on the Index Live Date and are wholly implemented by the Fund after such date;

- (xiv) **Insolvency:** Means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Fund, (i) all the Fund Units of that Fund are required to be transferred to a trustee, liquidator or other similar official or (ii) holders of the Fund Units of that Fund become legally prohibited from transferring or redeeming them;
- (xv) **Liquidity Modification:** Means that the Fund modifies the terms and conditions at which subscription and/or redemption orders can be submitted or are settled by the Fund as provided in the Fund Documents as of the Index Live Date or implements a modification of the conditions at which subscription and/or redemption orders can be submitted or are settled by the Fund, regardless as to whether the principle of such modification was already envisaged in the Fund Documents as of the Index Live Date;
- (xvi) **Merger Event:** Means the conversion of the Fund Unit into another class of fund units or securities, or the split of the Fund, its consolidation or its merger with, or its sale or its conveyance of all or substantially all its assets to, a third party;
- (xvii) **Calculation and/or Publication Disruption:** Means, the occurrence of an event, beyond the control of a Hypothetical Replicating Party (including in case of any gate, deferral, suspension or other provisions in the Fund Documents permitting the Fund or fund underlying to delay or refuse subscription and/or redemption orders) which (i) precludes the calculation and/or publication of the Net Asset Value by the Fund (or the Fund Service Provider generally in charge of calculating such official Net Asset Value) or the net asset value of such Fund or (ii) results in the publication of a Net Asset Value by the Fund that cannot be used for trading purposes (whether for reasons foreseen in the Fund Documents or otherwise) or otherwise would not constitute a valid order by or on behalf of the Hypothetical Replicating Party for the applicable amount of Fund Units scheduled to be executed in respect of the applicable Fund Valuation Day ("**Valid Order**") as provided in the definition of NAV. For such purposes and for the avoidance of doubt, it shall not be assumed that a Hypothetical Replicating Party has any control over the Fund Service Provider solely because it is in the same corporate group.
- (xviii) **NAV Determination Disruption Event:** Means the occurrence of any event, beyond the control of a Hypothetical Replicating Party, other than the events mentioned in "Calculation and/or Publication Disruption" or "Fund Settlement Disruption" affecting such Fund which, in the determination of the Index Calculation Agent, after instruction from the Index Sponsor, makes it impossible or impracticable to determine the Net Asset Value of such Fund or net asset value of such Fund underlying such Index.
- (xix) **Nationalization:** Means that all the Fund Units or all or substantially all the assets of a Fund are nationalized, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (xx) **Regulatory Action:** Means, with respect to any Fund Unit, (i) cancellation, suspension or revocation of the registration or approval of such Fund Unit or the related Fund by any governmental, legal or regulatory entity with authority over such Fund Unit or Fund, (ii) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Service Provider that is reasonably likely to have an adverse impact on the value of such Fund Unit or on any investor therein (as determined by the Index Calculation Agent, after instruction from the Index Sponsor) or (iii) the related Fund or any of its Fund Service Providers becomes subject to any investigation, proceeding or litigation by any relevant governmental, legal or regulatory authority involving the alleged violation of applicable law for any activities relating to or resulting from the operation of such Fund or Fund Service Provider;
- (xxi) **Fund Accounting Event:** Means, in respect of a Fund, any (i) change in the currency in which the Fund accounts are denominated; or (ii) material adverse change in the accounting treatment of the

Fund which does or could affect a Hypothetical Replicated Party or potential requirement to consolidate its accounts with any such entity;

- (xxii) **Reporting Disruption:** Means, in respect of any Fund Unit, any failure of the related Fund to deliver, or cause to be delivered, (i) information that such Fund has agreed to deliver, or cause to be delivered to a Hypothetical Replicating Party or (ii) information that has been previously delivered to a Hypothetical Replicating Party in accordance with such Fund's or its authorized representative's normal practice and that the Index Calculation Agent, after instruction from the Index Sponsor, deems necessary to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund Units;
- (xxiii) **Strategy Breach:** Means (i) any breach or violation of any strategy or investment guidelines stated in the related Fund Documents that is reasonably likely to affect the value of the Fund Units or the rights or remedies of any holders thereof, in each case, as determined by the Index Calculation Agent, after instruction from the Index Sponsor or (ii) any material modification, as determined by the Index Calculation Agent, after instruction from the Index Sponsor, of the risk profile of the Fund from its risk profile prevailing on the Index Live Date by reason of, but not limited to, the modification of the proportions, or reduction of diversification, of the type of assets in which the Fund invests or a reduction of the average liquidity of the assets of the Fund.
- (xxiv) **Fees or Charges Event:** Means, in respect of a Fund, (i) any charge of a transaction fee for subscription or redemption of Fund Units; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Units (whether by the Fund or a Fund Adviser in respect of holders of Fund Units generally or otherwise occurring in respect of any Hypothetical Replicating Party) and/or (iii) any material change in the applicable fee arrangement between a Fund Adviser and an Hypothetical Replicating Party (as compared with that arrangement as of the Index Live Date), including the increase to the existing level of, or introduction of any new, fees, commissions or other expenses payable to any person, in each case as determined by the Index Calculation Agent.

Potential Actions

In the event that the Index Sponsor determines that a Disruption Event or a Fund Extraordinary Event has occurred, the Index Sponsor may in its sole discretion:

- (i) Substitute the relevant underlying Index Component with a replacement instrument, provided that such replacement is similarly representative of the existing Index Component;
- (ii) Reallocate all or a portion of the Index exposure to cash or cash equivalents;
- (iii) Make such determinations or adjustments to the terms of the Index methodology or the underlying Index Components as it deems necessary including sourcing data from alternative providers;
- (iv) Defer, or direct the Index Calculation Agent to defer, the availability of the Index until the next Index Calculation Day on which there is no Disruption Event;
- (v) Provide or instruct the Index Calculation Agent to use data from alternative public sources (including Reuters, Bloomberg and/or the relevant Fund Service Provider, as the case may be) to determine the relevant price of the relevant Component;
- (vi) Determine the Index Level, the Asset Price of any Component or any Component level affected by the Disruption Event to be, in its sole and absolute discretion, either its estimate of such level or price or the last available level or price for such Component;
- (vii) Direct the Index Calculation Agent to make such determinations and/or adjustments as it considers appropriate to determine the Index Level by reference to the prevailing market conditions and the last available traded or published price of the affected Index Component;
- (viii) Postpone any day on which calculations or valuations were scheduled to be made, as the case may be, to another date as determined by the Index Calculation Agent in its sole and absolute discretion.
- (ix) Trigger an unscheduled Rebalance Date;
- (x) Instruct the Index Calculation Agent to cease to calculate and make available the Index permanently.

Increased costs

If at any time following the Index Live Date, due to the adoption of or any change in any applicable law or regulation (including without limitation any tax law relating to a common system of financial transaction tax in the European Union or otherwise), or any event outside of its control, the Index Sponsor determines in good faith that a party would incur an increased cost in effecting transactions in the underlying Index Components to reflect the notional exposure to the Index Performance, the Index Sponsor retains the right to make any adjustments to the Index methodology outlined herein so that the Index Performance takes account of such increased costs.

Adjustment procedures, notification and consultation process

If any modification or adjustment is made to the calculation of the Index and/or its description in accordance to this paragraph, the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors, as in the judgment of the Index Sponsor, are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

Wherever practicable, any adjustments to the calculation of the Index, other than a pre-determined rebalancing, will be announced to the relevant interested parties or investors. Such announcement will be made in a timely fashion and, when reasonably possible, prior to the date in which the changes are due to become effective. Based on the depth and breadth of the use of the Index as well as on the materiality of the change, the Index Sponsor will consider whether a formal or informal consultation is appropriate.

For the purposes of determining the materiality of the change, the Index Sponsor shall consider a change to be material when it may have a potentially material effect on the future level of the Index.

If the Index Sponsor determines that a consultation with the relevant interested parties or investors is appropriate, it will inform them of the procedures applicable to the consultation. The consultation procedures will be designed to ensure that such parties receive advance notice of the consultation and are offered a timeframe sufficient for them to analyse and comment on the proposal.

8. *Errors*

The Index Sponsor reserves the right to make adjustments to the Index Level to correct any erroneous calculation or publication of the Index Level. The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under 7.1 will apply.

9. *Updates*

This Index Methodology may be updated from time to time, including in accordance with the requirements of the Regulation. The most recent version will be available on request to the Index Sponsor, subject to such distribution restrictions and other requirements as may apply.

10. *Governance*

Morgan Stanley has adopted the "Principles for Financial Benchmarks" published by the International Organization of Securities Commissions ("**IOSCO**") on 17 July 2013 (the "**Principles**") on a proportionate basis.

The Index and its calculation methodology have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the "**Index Committee**").

The Index Committee will review the Index and its calculation methodology on a regular basis in accordance with Morgan Stanley internal policies applicable to the Index, to ensure that it still continues to reflect the economic interests it intends to measure.

Information on the systems and controls applied by Morgan Stanley in relation to financial benchmarks is available on request.

11. Discontinuation

The Index Sponsor may, in its sole discretion, after consultation with the Index Committee, discontinue calculating and publishing the Index at any time upon the occurrence of, but not limited to, any of the following:

- if as a result of a market disruption event, fund extraordinary event or an adjustment event, an adjustment to and/or calculation of the Index is no longer reasonably possible or practical, in the determination of the Index Sponsor; or
- the Index Sponsor or its successor terminates its Index publication business operations, is declared insolvent or is subject to winding-up proceedings; or
- the Index Sponsor or its successor determines that it is no longer in its commercial interests to continue publishing the Index; or
- any other condition occurs which makes the Index no longer representative of the economic interests it was intended to reflect.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a credible alternative Index is available for stakeholders to transfer their investment into and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition of the stakeholders' investment.

If Index Sponsor determines that a consultation with the stakeholders is appropriate based on the depth and breadth of the use of the Index, it will inform the stakeholders of the procedures applicable to the consultation. The consultation procedures will be designed to ensure that the stakeholders receive advance notice of the consultation and are offered a timeframe sufficient for them to analyse and comment on the proposal.

12. Important Information

Index Performance Data – Retrospective Index Calculation

All prospective investors should be aware that any retrospective calculation of the Strategy means that no actual investment existed at any time during the period of the retrospective calculation and as such, its performance is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance. The methodology and the Strategy used for the calculation and retrospective calculation of the Strategy have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore this past performance is purely theoretical.

Prior to making an investment decision in respect of any instrument or fund, the return on which links to the performance of the Index, prospective investors should understand fully all of the information set out in this document including the Important Information below.

Use of Historical Proxies

For AEMSRAE LX Equity (Ashmore SICAV - Emerging Markets Short Duration Fund): Before 30/09/2014 using JPEIHDEU Index, composite EUR, net of 1.30% p.a. to match Ashmore expense ratio.

For OMEAEHA ID Equity (Merian Global Investors Series PLC - Merian Global Equity Absolute Return Fund): Before 25/11/2011 using OMEIEHA ID Equity, composite EUR, net of 0.75% p.a. to match the OMEAEHA share class expense ratio.

For NMAPBPE LX Equity (Nordea 1 SICAV - Alpha 15 MA Fund): Before 11/08/2011 using NORMAPE LX Equity, composite EUR.

Proprietary Information

The MS Dynamic Fund Allocation Index Family is the exclusive property of MSI plc or its affiliates. Morgan Stanley and the MS Dynamic Fund Allocation Index Family are service marks of Morgan Stanley or its affiliates and no person or entity should refer to any of the service marks without the consent of Morgan Stanley or otherwise use any of the information herein for any purpose other than in relation to an investment linked to the MS Dynamic Fund Allocation Family.

DESCRIPTION OF THE MS 12% RISK CONTROL ER INDEX LINKED TO NORDIC MULTI-ASSET FUND

Bloomberg Page: MSFDNM12

The MS 12% Risk Control ER Index linked to Nordic Multi-Asset Fund is the exclusive property of Morgan Stanley & Co. International plc and its Affiliates (the “**Morgan Stanley Group**”). Morgan Stanley and the MS 12% Risk Control ER Index linked to Nordic Multi-Asset Fund are trade marks of the Morgan Stanley Group and no person or entity should refer to any of the trade marks without the consent of a member of the Morgan Stanley Group and should not use any of the information in this Description for any purpose other than in relation to an investment or otherwise in connection with any Financial Product (as defined below) for which such consent has been obtained. The non-exclusive right to use the MS 12% Risk Control ER Index linked to Nordic Multi-Asset Fund as an underlying reference basis or otherwise for any Financial Product is granted only upon completion of a license agreement with a member of the Morgan Stanley Group. The Index Sponsor, the Index Calculation Agent and each member of the Morgan Stanley Group disclaim any responsibility for any unauthorised use of the MS 12% Risk Control ER Index linked to Nordic Multi-Asset Fund by any third party.

No representation is made by any member of the Morgan Stanley Group with respect to the eligibility of the MS 12% Risk Control ER Index linked to Nordic Multi-Asset Fund for investment for investment (including, but not limited to, compliance with the UCITS Directive (2009/65/EC), as amended and supplemented from time to time (the “**UCITS Directive**”), or its use in connection with any Financial Product to be entered into or held, by any prospective investor. Prospective investors should make their own independent analysis of whether the MS 12% Risk Control ER Index linked to Nordic Multi-Asset Fund meets the eligibility criteria for their investment (including, but not limited to, compliance with the UCITS Directive) or use by them in relation to the relevant Financial Product and of whether the MS 12% Risk Control ER Index linked to Nordic Multi-Asset Fund responds to their criteria, needs and objectives for investment or otherwise. The term “investor” will include any counterparty, holder or contract party in relation to a Financial Product.

Nothing contained in this Description should be construed as an offer or solicitation to purchase or sell securities or to enter into any transaction or engage in investment activity of any kind. If you do invest in a Financial Product or engage in any other investment activity, you should ensure that you fully understand the nature of such investment and the risks involved and are satisfied that the investment is suitable and appropriate for your circumstances. If you are in any doubt about this you should take advice from an appropriately qualified advisor.

This Description does not constitute investment, taxation, legal, accounting or other advice, including within the meaning of Article 53 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 or investment advice within the meaning of Article 4(4) of MiFID II.

1. Introduction

This Description sets out the methodology of the MS 12% Risk Control ER Index linked to Nordic Multi-Asset Fund (the “**Index**”) and the basis on which the Index is calculated.

This Description is intended to provide the information relating to the Index required by the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 ((EU) 2016/1011)) (as amended) (the “**Benchmarks Regulation**”) as it forms part of “retained EU law” in the United Kingdom as defined in the European Union (Withdrawal) Act 2018 (as amended from time to time) (the “**UK Benchmarks Regulation**” and, together with the EU Benchmarks Regulation, the “**Benchmarks Regulation**”). This Index is a non-significant and regulated data benchmark for the purposes of the UK Benchmarks Regulation.

As at the date of publication of this Description, Morgan Stanley & Co. International plc appears on the register of benchmark administrators established and maintained by the Financial Conduct Authority pursuant to Article 36 of the Benchmarks Regulation. Morgan Stanley & Co. International plc’s benchmark statement (the “**MS Benchmark Statement**”) can be accessed via the following link:

https://www.morganstanley.com/content/dam/msdotcom/en/assets/pdfs/sales_and_trading_disclosures/M_SIP_Benchmark_Statement-Multi-Asset_Signal-based_Benchmark_Family.pdf

Subject as provided in Section 10 (*Adjustment and Disruption Provisions*), this Description is subject to change or adjustment at any time (including, without limitation, in accordance with the requirements of the UK Benchmarks Regulation) and will be superseded by any subsequent Description. A copy of the current version of the Description can be obtained following the method described in Section 8 (*Publication*).

No one may reproduce, distribute or disseminate this Description, any information contained in this Description or any Index Level (as applicable) without the prior written consent of the Index Sponsor. This Description is not intended for distribution to, or use by any person in, a jurisdiction where such distribution is prohibited by law or regulation.

ESG Disclosures pursuant to Commission Delegated Regulation (EU) 2020/1817 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards the minimum content of the explanation on how environmental, social and governance factors are reflected in the benchmark methodology, as on-shored in the United Kingdom by way of The Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019:

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Morgan Stanley & Co. International plc
Item 2. Type of benchmark or family of benchmarks.	Multi Asset
Item 3. Name of the benchmark or family of benchmarks.	Multi Asset Signal-based
Item 4. Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	No

2. *Overview*

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Summary

The Index aims to provide exposure to the Index Components and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a “notional” or synthetic exposure to the Index Component and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Component and a rules-based strategy, the performance of which is used as a reference point for calculating Index Levels.

This Section 3 (*Overview*) is subject to, and qualified by, the remainder of this Description.

3. *Index Sponsor*

The Index has been developed by Morgan Stanley & Co. International plc (“**MSIP**”). The Index is administered by the index sponsor or any successor thereto (the “**Index Sponsor**”). The initial Index Sponsor is MSIP.

The Index Sponsor controls the creation and operation of the Index administrative process, including all stages involved in the production and dissemination of the Index. The Index Sponsor also is responsible for the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of this Description. Notwithstanding that the Index relies on information from third party sources, the Index Sponsor has primary responsibility for all aspects of the Index administration and determination process.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

The Index Sponsor is not acting as a manager or an investment advisor in relation to the Index and has no relationship of agency or trust or any fiduciary duty to any person in respect of the Index and is not required to take the interests of any person into account in making any determination or calculation in relation to the Index.

The Index Sponsor makes no warranty or representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

No Financial Product is sponsored, endorsed, sold or promoted by MSIP or the Index Sponsor, and neither MSIP nor the Index Sponsor makes any express or implied representations or warranties as to (a) the advisability of purchasing or assuming any risk in connection with any Financial Product, (b) the levels at which the Index stands at any particular time on any particular date, (c) the results

to be obtained by the issuer or obligor of any Financial Product, or any Financial Product Investor, or any other person or entity from the use of the Index or any data included therein in connection with any licensed rights or for any other use or (d) any other matter. Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP/ or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP may in its sole and absolute discretion delegate and/or transfer any of its obligations and/or functions in relation to the administration and determination of the Index to one or more third parties as it deems appropriate from time to time. MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

4. *Index Calculation Agent*

The Index is calculated by MSIP (or any successor thereto) (the “**Index Calculation Agent**”).

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent’s calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. The term “manifest error” as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without (i) recourse to the underlying data or (ii) any application or re-application of any formulae. No person (whether a Financial Product Investor or otherwise) will be entitled to proceed (and shall be deemed to have agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to the Index.

For so long as the Index Calculation Agent constitutes and calculates the Index, the Index Calculation Agent does not accept any liability for loss or damage of any kind (including, without limitation, any special, punitive, indirect or consequential damages (including loss of profits)) arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index itself and disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any information in connection with it.

5. *Index Data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the Index Component Value, the Index Funding Rate and the Funding Rate in respect of each Index Component as published on the relevant Index Component Price Source in respect of such Index Component.

No assurance can be given that any such Index Component Values, Index Funding Rate or Funding Rate will be published on the relevant Index Component Price Source, on the Index Funding Rate Screen Page or on the Funding Rate Screen Page accurately, in a timely manner or at all and the Index Sponsor and the Index Calculation Agent have relied on, and will rely on, such Index Component Values and Funding Rate as they are published on the relevant Index Component Price Source or Funding Rate Screen Page. Neither the Index Sponsor nor the Index Calculation Agent has independently verified the information extracted from such sources and accepts no responsibility or liability in respect thereof.

6. Calculation of the Index

6.1 Total Return Index Level

The Total Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Total Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$TRIndex_t = \text{Max} \left(0, TRIndex_{t-1} \times \left[1 + \text{Effective Exposure}_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 \right) + (1 - \text{Effective Exposure}_{t-1}) \times Rate_{t-1} \times \frac{\Delta t}{DayCount} \right] - TC_t \right) \times (1 - AF_t)$$

Where:

max, followed by amounts (or values) inside brackets, means whichever is the greater of the amounts (or values) separate by a semi-colon inside such brackets;

TRIndex Level(t-1) means the Total Return Index Level in respect of the Index Business Day immediately preceding Index Business Day t;

Effective Exposure(t-1) means the Effective Exposure in respect of Index Business Day t-1, calculated as per paragraph 7.3 below;

Basket(t) means the Basket Level in respect of Index Business Day t, calculated as per paragraph 7.7 below;

Basket(t-1) means the Basket Level in respect of the Index Business Day immediately preceding Index Business Day t;

Rate(t-1) means the Index Funding Rate in respect of the Index Business Day immediately preceding Index Business Day t;

Δt means the number of calendar days from (and including) the Index Business Day immediately preceding Index Business Day t to (but excluding) Index Business Day t;

DayCount means 360;

TC(t) means the Transaction Cost in respect of Index Business Day t and is an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$TC_t = |Nb \text{ Shares Basket } (t) - Nb \text{ Shares Basket } (t - 1)| \times Basket(t) \times RC$$

Where RC is the Rebalancing Cost and has the meaning given to it in the Annex

AF(t) means, the Accrued Fee in respect of Index Business Day t, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$AF(t) = \left[\frac{\Delta t}{DayCount} \times Decrement \text{ Rate} \right]; \text{ and}$$

Decrement Rate has the meaning given to it in the Annex

6.2 Excess Return Index Level

The Excess Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Excess Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$ERIndex_t = \text{Max} \left(0, ERIndex_{t-1} \times \left[1 + \text{Effective Exposure}_{t-1} \times \left(\frac{\text{Basket}_t}{\text{Basket}_{t-1}} - 1 - \text{Rate}_{t-1} \times \frac{\Delta t}{\text{DayCount}} \right) \right] - TC_t \right) \times (1 - AF_t)$$

6.3 Calculation of the Exposure

The theoretical exposure (the “**Theoretical Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$\text{TheoreticalExposure}_t = \text{Min}[\text{maxExposure}, \text{UnconstrainedExposure}_t]$$

Where:

$$\text{UnconstrainedExposure}_t = \frac{\text{Vol Target}}{\text{Realised Volatility (t)}}$$

The exposure (the “**Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where Rebalance Rule is set as “ABSOLUTE” in the Annex:

$$\text{Exposure}_t = \begin{cases} \text{TheoreticalExposure}_t & \text{if } |\text{TheoreticalExposure}_t - \text{Exposure}_{t-1}| > \text{Threshold} \\ \text{Exposure}_{t-1}, & \text{Otherwise} \end{cases}$$
- Where Rebalance Rule is set as “RELATIVE INVERSE” in the Annex:

$$\text{Exposure}_t = \begin{cases} \text{TheoreticalExposure}_t & \text{if } \left| \frac{\text{Exposure}_{t-1}}{\text{UnconstrainedExposure}_t} - 1 \right| > \text{Threshold} \\ \text{Exposure}_{t-1}, & \text{Otherwise} \end{cases}$$

Where:

maxExposure has the meaning given to it in the Annex

VolTarget has the meaning given to it in the Annex

Threshold has the meaning given to it in the Annex

Lag means has the meaning given to it in the Annex

Realised Volatility (t-Lag) means the Realised Volatility in respect of Index Business Day (t-Lag)

6.4 Calculation of the Number of Shares Basket

The number of shares of the basket (the “**Number of Shares Basket**”) in respect of any Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

Where Index Business Day t is the Index Base Date or any of the following Lag – 1 Index Business Days:

$$\text{NbShares Basket (t)} = 0$$

Where Index Business Day t falls on any subsequent day:

- In respect of the Total Return Index:

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times TRIndex_{t-Lag}}{Basket_{t-Lag}}$$

- In respect of the Excess Return Index

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times ERIndex_{t-Lag}}{Basket_{t-Lag}}$$

6.5 Calculation of the Effective Exposure

The effective exposure (the “**Effective Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

- In respect of the Total Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{TRIndex_t}$$

- In respect of the Excess Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{ERIndex_t}$$

6.6 Calculation of the Realised Volatility

The Realised Volatility in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where the Realised Volatility Format is set as ARITHMETIC in the Annex:

$$Realised\ Volatility(t) = Max(ST\ Vol(t), LT\ Vol(t))$$

Where:

$$ST\ Vol(t) = \sqrt{\frac{252}{ST\ Tenor \times STReturn\ Size} \times \sum_{k=t-STTenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-STReturn\ Size)}\right)^2}$$

$$LT\ Vol(t) = \sqrt{\frac{252}{LT\ Tenor \times LTReturn\ Size} \times \sum_{k=t-LTTenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-LTReturn\ Size)}\right)^2}$$

- Where the Realised Volatility Format is set as GEOMETRIC in the Annex:

$$Realised\ Volatility(t) = Max(ST\ Vol(t), LT\ Vol(t))$$

Where:

ST Vol (t) means:

- Where such Index Business Day is the Index Base Date or any of the immediately following ST Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST\ Vol(t) = Initial\ Volatility$$

- (ii) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = \sqrt{\lambda_{ST} \times ST Vol (t - 1)^2 + (1 - \lambda_{ST}) \times \ln \left(\frac{Basket_t}{Basket_{t-ST Return Size}} \right)^2 \times \frac{252}{ST Return Size}}$$

LT Vol (t) means:

- (iii) Where such Index Business Day is the Index Base Date or any of the immediately following LT Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = Initial Volatility$$

- (iv) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = \sqrt{\lambda_{LT} \times LT Vol (t - 1)^2 + (1 - \lambda_{LT}) \times \ln \left(\frac{Basket_t}{Basket_{t-LT Return Size}} \right)^2 \times \frac{252}{LT Return Size}}$$

Where:

λ_{ST} has the meaning given to it in the Annex

ST Tenor has the meaning given to it in the Annex

ST Return Size has the meaning given to it in the Annex

λ_{LT} has the meaning given to it in the Annex

LT Tenor has the meaning given to it in the Annex

LT Return Size has the meaning given to it in the Annex

6.7 Calculation of the Basket

(a) Calculation of the Basket Level

The basket level (the “**Basket Level**”) in respect of the Initialisation Date shall be equal to the Initial Basket Level as defined in the Annex.

The Basket Level in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Basket_t = Basket_{t-1} + Performance_t + CashPerformance_t + FundingCost_t - AHC_t$$

Where:

$Performance_t$ is defined in section 7.7.2

$CashPerformance_t$ is defined in section 7.7.3

$FundingCost_t$ is defined in section 7.7.4

AHC_t is defined in section 7.7.5

(b) **Calculation of the Basket Performance**

The basket performance (the “**Basket Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Performance_t = \sum_{i=1}^N Units_{i,t-1} \times (CL_{i,t} - CL_{i,t-1}) \times FX_{i,t}$$

Where:

N is the number of Index Components within the Basket as defined in the Annex

$Units_{i,t-1}$ is the Number of Units of Basket Component i in respect of Index Business Day t-1 as defined in Section 7.6.5

$CL_{i,t}$ means the Index Component Value of Basket Component i in respect of Index Business Day t

$FX_{i,t}$ means the FX Rate for Basket Component i in respect of Index Business Day t

(c) **Calculation of the Cash Performance**

The cash performance (the “**Cash Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$CashPerformance_t = CashBalance_{t-1} \times Rate_{t-1} \times DCF_{t-1,t}$$

Where:

$$CashBalance_t = Basket_t - \sum_{i=1}^N Units_t^{i|Funded \cap IndexCCY} \times CL_t^{i|Funded \cap IndexCCY}$$

$i|Funded \cap IndexCCY$ means the Basket Component i, where such Basket Component is specified as

Funded in the Annex and is denominated in the same currency as the Index Currency

$DCF_{t-1,t}$ means the number of calendar days from (and including) Index Business Day t-1 to and (excluding) Index Business Day t divided by 360.

(d) **Calculation of the Funding Cost**

The funding cost (the “**Funding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$FundingCost_t = \sum_{CCY} FundingBalance_{t-1}^{CCY} \times (Rate_{t-1}^{CCY} + Spread^{CCY}) \times DCF_{t-1,t} \times FX_{CCY,t}$$

Where:

$$FundingBalance_t^{CCY} = - \sum_{i=1}^N Units_t^{i|Funded \cap CCY} \times CL_t^{i|Funded \cap CCY}$$

$i|Funded \cap CCY$ means the Basket Component i , where such Basket Component is specified as Funded in the Annex and is denominated in currency CCY provided that such currency is other than the Index Currency

$Rate_{t-1}^{CCY}$ means the Funding Rate for currency CCY as defined in the Annex

$Spread^{CCY}$ means the Funding Spread for currency CCY as defined in the Annex

(e) **Calculation of the Aggregate Holding Cost**

The aggregate holding cost (the “**Aggregate Holding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$AHC_t = \sum_{i=1}^N N_{i,t-1} \times CL_{i,t} \times FX_{i,t} \times HC_i \times DCF_{t-1,t}$$

Where:

HC_i is the Holding Cost for Basket Component i as specified in the Annex.

(f) **Calculation of the Number of Units of Basket Components**

On the Initialisation Date, the Number of Units invested in the Basket Component i per unit of the Basket is calculated by the Index Calculation Agent in accordance with the following formula:

$$N_{i,t=0} = 0$$

In respect of any Index Business Day thereafter:

- If t is a Scheduled Basket Rebalancing Day:

$$N_{i,t} = \frac{W_i \times Basket_{Max(0,t-BasketUnitLag)}}{CL_{i,Max(0,t-BasketUnitLag)} \times FX_{i,Max(0,t-BasketUnitLag)}}$$

- Otherwise

$$N_{i,t} = N_{i,t-1}$$

Where:

W_i means the Weight for Basket Component i as defined in the Annex

6.8 **Miscellaneous**

Each Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

6.9 *Index Live Date and Retrospective Calculations*

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the “**Back-test Period**”) has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

7. *Publication*

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the “**Index Publication Time**”) on the second Index Business Day immediately following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

8. Definitions

“**Adjustment Event**” means (i) an Index Component Disruption Event, (ii) a Disruption Event, (iii) a Force Majeure Event, (iv) an Index Component Adjustment Event.

“**Affiliate**” means in relation to any entity (the “**First Entity**”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes, “control” means ownership of a majority of the voting power of an entity.

“**Accrued Fee**” has the meaning given to it in Section 7.1

“**Back-test Period**” has the meaning given to in Section 7. (*Index Live Date and Retrospective Calculations*).

“**Basket Mechanism**” has the meaning given to it in Section 7.1.4.

“**Basket Unit Lag**” has the meaning given to it in the Annex

“**Benchmarks Regulation**” has the meaning given to it in Section 1 (*Introduction*).

“**Bloomberg**” means Bloomberg L.P. or any of its Affiliates, or any successor market price information provider(s).

“**Bloomberg Page**” has the meaning given to it in the Annex or any Successor Source thereto

“**Change**” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“**Change in Law**” means there has been a change in applicable law or regulation or the promulgation of or any change in the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation that prevents or will prevent the Index Sponsor and/or the Index Calculation Agent from calculating and/or publishing the Index.

“**Description**” has the meaning given to it on the second page of this Description.

“**Disappearance or Unavailability Event**” means there is (i) a permanent discontinuation of trading in an Index Component or (ii) a disappearance or permanent discontinuance or unavailability of an Index Component Value, notwithstanding the status of trading in the relevant Index Component (if applicable), or any other source data required to calculate the Index.

“**Disrupted Day**” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing in respect of such Fund.

“**Disruption Event**” means each of (i) a Change in Law, (ii) a Disappearance or Unavailability Event, (iii) a Hedging Disruption, (iv) a Price Source Disruption Event or (v) a Termination of Data Licence.

“**Financial Product**” has the meaning given to it in Section 2 (*Risk Factors and Investment Considerations*).

“**Financial Product Investor**” has the meaning given to in in Section 2 (*Risk Factors and Investment Considerations*).

“**Force Majeure Event**” means an event or circumstance has occurred beyond the reasonable control of the Index Sponsor (including, without limitation, a systems or IT failure (including, without limitation, a systems breakdown, incomplete or ineffective upgrade, malfunction, malware, virus or other similar circumstances affecting the Index Sponsor’s information technology and related processing systems), fire, flood, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) which directly or indirectly prevents or otherwise affects the determinations of the Index Sponsor and/or the Index Calculation Agent in relation to the Index.

“Frequency of Fund Interest Valuation” means, in respect of a Fund Interest, the frequency of occurrence of a Fund Business Day of such Fund Interest as determined by reference to the Fund Documents in effect on the Index Live Date.

“Fund” means, in respect of a Fund Interest, the issuer of, or other legal arrangement (including, if applicable, any class or series) giving rise to such Fund Interest as specified in Annex 1 hereto.

“Fund Administrator” means, in respect of a Fund, any fund administrator, manager, trustee or similar person responsible for the administration of such Fund and the determination and reporting of any official price or value of such Fund according to the Fund Documents or any successor acceptable to the Index Sponsor.

“Fund Advisor” means any person appointed in the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor to a discretionary investment manager or to another non-discretionary investment advisor) for such Fund and/or a Fund Administrator and/or any other person(s) designated in the Fund Documents as responsible for the oversight of the Fund, or any successor to any such person acceptable to the Index Sponsor.

“Fund Business Day” means, in respect of a Fund, each of a Scheduled Fund Valuation Date and any day on which the Fund or the primary Fund Administrator acting on behalf of the Fund is scheduled to effect subscription and redemption requests.

“Fund Documents” means, in respect of a Fund and the related Fund Interest, the constitutive and governing documents, subscription agreements and other agreements of the related Fund specifying the terms and conditions of such Fund Interest (including, without limitation, the prospectus, information memorandum or other offering document issued by such Fund in connection with such Fund Interest), in each case and unless where otherwise specified, as amended and/or supplemented from time to time.

“Fund Event” means, the occurrence or announcement by the Fund or a Fund Service Provider at any time of any of the following events:

- (i) *Nationalisation*: all the Fund Interests or all or substantially all the assets of the Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (ii) *Fund Insolvency Event*: in respect of a Fund Interest and the related Fund (a) the Fund and/or any Fund Service Provider (A) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (B) makes a general assignment or arrangement with or for the benefit of its creditors; (C)(1) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in (1) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within 15 days of the institution or presentation thereof; (D) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (E) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 15 days thereafter; or (F) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in (A) through (E) above; or (without prejudice to the foregoing) (b) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Fund, (A) all the Fund Interests are required to be transferred

to a trustee, liquidator or other similar official or (B) holders of Fund Interests become legally prohibited from transferring them;

- (iii) *NAV Trigger/Restriction Event*: in respect of a Fund Interest (A) the Reported Net Asset Value as of the last Fund Valuation Date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the Reported Net Asset Value as of the Fund Valuation Date of the same month in the immediately preceding calendar year (or, if the first year of operation of the relevant Fund Interest, as of its highest Reported Net Asset Value on the last Fund Valuation Date of any month during such first year); or (B) the related Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (iv) *Fund Advisor Event*: (a) that at any time after the Index Live Date, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) is equal to or less than 100,000,000 U.S. Dollars (or its equivalent) or (b) that over any period of twelve months, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) has decreased by fifty per cent. (whether due to redemptions or decrease in the value of such assets or otherwise);
- (v) *Changes to Fund or Fund Service Providers*: (a) any change in the organisation of the Fund or of any Fund Service Provider without the prior written consent of the Index Sponsor including, without limitation, a change of control of, or a change of the main shareholders, managing directors or individual(s) designated as fund manager(s) in the Fund Documents as at the Index Live Date (if any) of a Fund Service Provider, (b) any Fund Service Provider ceasing to act in the relevant capacity in relation to the Fund unless immediately replaced in such capacity by a successor acceptable to the Index Sponsor or (c) any delegation or transfer by the Fund Advisor of any of its powers, duties or obligations under the Fund Documents to a third party without the prior written consent of the Index Sponsor;
- (vi) *Fund Modification*: any change, modification or termination of the related Fund Documents or of any rights attaching to the related Fund Interests (including without limitation any change or modification affecting management policy, the Fund Interest Currency, the Frequency of Fund Interest Valuation, the terms relating to subscription, transfer and/or redemption of such Fund Interest including any change to the form or schedule of payment or notice period) from those prevailing on the Index Live Date and which could reasonably be expected to affect the value of such Fund Interests;
- (vii) *Strategy Breach*: any material breach of or non-compliance with any investment objective, investment restrictions or other strategy or investment guidelines or requirements, subscription and redemption provisions (including, without limitation, the days treated as Fund Business Days) or valuation provisions (including, without limitation, the method of determining the net asset value of the relevant Fund Interest), in each case as set out in the Fund Documents as in effect on the Index Live Date;
- (viii) *Breach by Fund Service Provider*: the breach by any relevant Fund Service Provider of any obligation (including, without limitation, non-compliance with any investment guidelines relating to the Fund Interest), representation or warranties concerning the relevant Fund (including, without limitation, pursuant to any agreement with the Fund), which breach, if capable of remedy, has not been remedied within ten (10) calendar days of its occurrence;
- (ix) *Regulatory Event*: (1) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Advisor that is reasonably likely to have an adverse impact on the value of the related Fund Interest or on any investor therein (as determined by the Index Sponsor) or (2) the related Fund Interest or any of its Fund Service Providers becoming subject to any investigation, proceeding, arbitration, litigation or official action by any relevant governmental, legal or regulatory authority involving the alleged violation of, or non-compliance with, applicable law or regulation in relation to any activities relating to or resulting from the operation of the Fund or another fund where, in the opinion of the Index Sponsor, such circumstances may have an adverse effect on the Fund or (B) (i) the withdrawal, cancellation, suspension or revocation of any registration, licence or approval of the Fund Interests or the Fund by any governmental, legal or regulatory entity with

authority over such Fund Interest or Fund; (ii) the withdrawal, suspension, cancellation or modification of any licence, consent, permit, authorisation or clearance required for the Fund or any one or more of its significant Fund Service Providers to carry out their activities as they are or should be carried out in compliance with applicable law or regulation; and/or (iii) the failure of the Fund and/or the Fund Interests to comply with any applicable requirements from time to time applied by any relevant listing authority, stock exchange, quotation system and/or regulator that allow it to be used to determine amounts due under the Financial Products (or, in the case of (B)(i), (ii) or (iii), any official announcement indicating that any such circumstances may occur);

- (x) *Reporting Disruption*: (A) the occurrence of any event affecting the Fund Interest that, in the determination of the Index Sponsor, would make it impossible or impracticable for the Index Sponsor to determine the value of such Fund Interest and the Index Sponsor does not expect such event to cease in the foreseeable future; (B) any failure of the Fund to deliver, or cause to be delivered, or recipients in general to receive (1) information that such Fund has agreed to deliver, or cause to be delivered to any member of the Morgan Stanley Group or (2) information that has been previously delivered to any member of the Morgan Stanley Group, in accordance with such Fund's, or its authorised representative's, normal practice and that the Index Sponsor deems necessary for it to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund; (C) the Fund ceases, for any reason whatsoever (either directly or through any Fund Service Provider acting on its behalf for this purpose) to provide, publish or make available its net asset value on any Fund Reporting Date; or (D) a Fund Service Provider informs any member of the Morgan Stanley Group that any Reported Net Asset Value of the Fund Interest should not be relied on (whether by reason of it being only a provisional or estimated net asset value or for any other reason) and/or, in the opinion of the Index Sponsor, any Reported Net Asset Value is inaccurate (which, for the avoidance of doubt, includes without limitation circumstances where any net asset value reported by a Fund Service Provider to the Index Sponsor, any member of the Morgan Stanley Group and/or investors in Fund Interests generally differs from any net asset value published on any one or more publishing service);
- (xi) *Compulsory Redemption or Assignment*: (i) the repurchase or redemption by the Fund of all or some of the Fund Interests otherwise than at the request of a holder of such Fund Interests; or (ii) any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) which would mandatorily oblige a holder of Fund Interests to redeem, sell, assign or otherwise dispose of any Fund Interests and which the Index Sponsor determines could affect a Hypothetical Investor;
- (xii) *Closure to Subscriptions; Dealing Restrictions*: (A) the closure of the related Fund to new subscriptions of Fund Interests, or (B) the imposition of any dealing restrictions (including, without limitation, material amendments to relevant documentation, delay (partial or otherwise), suspension or termination (partial or otherwise) of subscription, redemption or settlement) relating to the Fund or transactions in the Fund Interests by any Fund Service Provider, any Affiliate or agent of any Fund Service Provider;
- (xiii) *Disposals; Material Change; Merger*: (A) a disposal to any person(s) of all, or a material part, of the assets of (x) the Fund, or (y) any significant Fund Service Provider; or (B) a material change in the business of the Fund or any significant Fund Service Provider, or (C) the merger, amalgamation or consolidation of the related Fund and/or such Fund Interest with (x) any other sub-fund or compartment of the Fund or (y) any other collective investment undertaking (or sub-fund or compartment of such other collective investment undertaking, including another fund), which, in either case, may, in the determination of the Determination Agent, have an adverse effect on the Fund;
- (xiv) *Fraud*: the Fund is the object of a material fraud which may, in the determination of the Index Sponsor, have an adverse effect on the Fund or the value of Fund Interests; or any act or omission of a Fund Service Provider constitutes fraud (including, but not limited to, theft, misappropriation, mispricing of holdings or concealment of trades), bad faith, wilful misconduct or negligence, as determined by the Index Sponsor in its reasonable discretion;
- (xv) *Fund Force Majeure Event*: any Fund Service Provider fails to perform any of its obligations pursuant to the Fund Documents to the extent that such performance is prevented, hindered or delayed by a Fund Force Majeure Event, where "**Fund Force Majeure Event**" means any event

due to any cause beyond the reasonable control of the applicable Fund Service Provider, such as unavailability of communications system, failure of or interruptions in power supply or network computer systems, sabotage, fire, flood, explosion, acts of God, civil commotion, riots, insurrection or war;

- (xvi) *Delisting*: where there is or was intended to be an Underlying Fund Exchange in respect of the Fund Interests that (A) such Underlying Fund Exchange announces that pursuant to the rules of such Underlying Fund Exchange, such Fund Interests cease (or will cease) being listed or publicly quoted on the Underlying Fund Exchange for any reason and are not immediately re-listed or re quoted on an exchange or quotation system located in the same country as the Underlying Fund Exchange (or, where the Underlying Fund Exchange is within the European Union, in any Member State of the European Union), or (B) Fund Interests are never so listed or quoted as intended and disclosed in the relevant Fund Documents as at the Index Live Date;
- (xvii) *Fund Accounting Event*: any (i) change in the currency in which the Fund Interest's accounts are denominated; or (ii) material adverse change in the accounting treatment of the relevant Fund which does or could affect a Hypothetical Investor and/or any actual or potential requirement to consolidate its accounts with any such entity; and/or
- (xviii) *Fees or Charges Event*: (i) any charge of a transaction fee for subscription or redemption of Fund Interests; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Interests (whether by the Fund or a Fund Advisor in respect of holders of Fund Interests generally).

"Fund Interest" means, in respect of a Fund, a share, unit or other interest in respect of such Fund

"Fund Interest Currency" means, in respect of a Fund Interest, the currency in which such Fund Interest is denominated on the Index Live Date as set out in the Fund Documents and as indicated in CCY in the Annex.

"Fund Potential Adjustment Event" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (a) an additional amount of Fund Interests, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Fund Reporting Date" means, in respect of a Fund Interest and a Fund Valuation Date, the date on which the Reported Net Asset Value of such Fund Interest as determined as of such Fund Valuation Date is reported (as provided in the definition of Reported Net Asset Value).

“Fund Service Provider” means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, to that Fund, whether or not specified in the Fund Documents or any successor acceptable to the Index Sponsor, including without limitation any Fund Adviser, Fund Administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent or domiciliary agent.

“Fund Valuation Date” means, in respect of a Fund Interest, the date as of which such Fund Interest (or its Fund Service Provider that generally determines such value) determines the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

“Funding Rate” has the meaning given to it in the Annex

“Funding Rate Screen Page” has the meaning given to it in the Annex

“FX Rate” has the meaning given to it in Annex

“FX Rate Screen Page” has the meaning given to it in the Annex

“Hypothetical Investor” means, in respect of a Fund Interest, a hypothetical investor in such Fund Interest deemed to have (a) the benefits and obligations, as provided under the Fund Documents, of an investor holding, as of the Index Live Date, an interest in the relevant Fund in an amount equal to the relevant number of relevant amount of Fund Interests; (b) in the case of any deemed redemption of Fund Interests, to have submitted to the relevant Fund on the relevant Redemption Notice Date, a duly completed notice requesting redemption of the relevant number of such Fund Interests; and (c) in the case of any deemed investment in Fund Interests, to have submitted, on the Index Live Date, a duly completed notice to the relevant Fund, requesting subscription to the relevant number of Fund Interests;

“Hedging Disruption” occurs if the Index Sponsor determines that a hypothetical market participant would as a result of extraordinary market circumstances relating to an Index Component, be unable, after using commercially reasonable efforts, to:

- (a) Acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments it deems necessary to hedge its position in relation to any securities issue or other relevant transactions relating to or calculated by reference to the Index; or
- (b) Realize, recover or remit the proceeds of any such transactions or instruments.

“Index” has the meaning given to it in Section 1 (*Introduction*).

“Index Base Date” has the meaning given to in in the Annex

“Index Business Day” has the meaning given to it in the Annex

“Index Calculation Agent” has the meaning given to it in Section 5 (*Index Calculation Agent*).

“Index Committee” has the meaning given to it in Section 12 (*Governance*).

“Index Component” means each component specified in Annex 1 hereto.

“Index Component Adjustment Event” means a Fund Potential Adjustment Event.

“Index Component Disrupted Day” means any day which is an Underlying Fund Disrupted Day.

“Index Component Disruption Event” means the occurrence of an event that results in the occurrence of an Index Component Disrupted Day.

“Index Component Price Source” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Scheduled Trading Day” means, in respect of each Index Component where the Index Component Type in respect of such Index Component is:

- (i) Fund, a Fund Valuation Date in respect of such Fund.

“Index Component Screen Page” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Type” means, in respect of each Index Component, as specified in the Annex hereto.

“Index Component Underlying Price Source” means, in respect of an Index Component, any information service, exchange or data source used to calculate the price or level of any share, security, commodity, rate, index or other component included in such Index Component, as determined by the Index Calculation Agent.

“Index Component Value” means, in respect of an Index Component which is a Fund, the Underlying Fund Price in respect of such Fund.

“Index Currency” has the meaning given to it in the Annex.

“Index Funding Rate” has the meaning given to it in the Annex

“Index Funding Rate Screen Page” has the meaning given to it in the Annex

“Index Level” means, in respect of each Index Business Day, an amount, expressed in the Index Currency, being the level of the Index in respect of such Index Business Day, as determined in accordance with Section 7 (*Index Level*). If Return Type is set to Total Return, the Index Level is then equal to Total Return Index Level as determined in accordance with Section 7.1. If Return Type is set to Excess Return, the Index Level is then equal to Excess Return Index Level as determined in accordance with Section 7.2.

“Index Live Date” has the meaning given to it in the Annex

“Index Publication Time” has the meaning given to it in Section 8 (*Publication*).

“Index Sponsor” has the meaning given to it in Section 4 (*Index Sponsor*).

“Initial Index Level” has the meaning given to it in the Annex

“IOSCO” has the meaning given to it in Section 12 (*Governance*).

“Market Disruption Event” means, in respect of:

- (i) a Fund, an Underlying Fund Disruption Event in respect of such Fund.

“Material Change” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“MiFID II” means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as may be amended or replaced from time to time).

“Morgan Stanley Group” has the meaning given to it on the front page of this Description.

“MSIP” has the meaning given to it in Section 3 (*Overview*).

“MS Benchmark Statement” has the meaning given to it in Section 1 (*Introduction*).

“NB Shares Basket” has the meaning given to it in Section 7

“Price Source Disruption” means any Index Component Price Source, Index Component Underlying Price Source, Index Funding Rate Screen Page, Funding Rate Screen Page or other source data required to calculate the Index is insufficient, inaccurate or unreliable or not available whether due to temporary or permanent discontinuance or failure of the price source for such data or otherwise, as determined by the Index Calculation Agent.

“Potential Adjustment Event” means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (A) an additional amount of Fund Interests, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"**Principles**" has the meaning given to it in Section 12 (*Governance*).

"**Redemption Notice Date**" means, in respect of a Fund Interest, the last date on which a Hypothetical Investor in such Fund Interest would be permitted, pursuant to the Fund Documents of the related Fund, to submit a redemption notice that would be timely for a redemption as a Scheduled Redemption Valuation Date

"**Redemption Proceeds**" means, in respect of the relevant amount of Fund Interests, the redemption proceeds that in the determination of the Index Sponsor would be paid by the relevant Fund to a Hypothetical Investor who, as of the relevant Redemption Valuation Date, redeems such amount of Fund Interests and (for the avoidance of doubt after deduction of any tax, levy, charge, assessment or fee of any nature that, in the determination of the Index Sponsor, would (or would be very likely to) be withheld or deducted from such amount); provided that (i) any such proceeds that would be paid in property other than cash shall be deemed to have a value of zero and (ii) if the Hypothetical Investor would be entitled to elect payment of such redemption proceeds to be made either in the form of cash or other property, then the Hypothetical Investor shall be deemed to have elected cash payment.

"**Redemption Valuation Date**" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date as of which the relevant Fund (or its Fund Service Provider that generally determines such value) determines the net asset value of Fund Interests for purposes of calculating the redemption proceeds to be paid to a Hypothetical Investor that has submitted a valid notice for redemption on or before the related Redemption Notice Date.

"**Relevant Fund**" has the meaning given to such term in Section 10.3 (*Consequences of Fund Events*).

"**Removal Value**" means, in respect of a Relevant Fund and the Fund Interest in respect of such Relevant Fund, the value calculated by the Index Sponsor in the same manner as would be used in determining the Underlying Fund Price of Fund Interests in the related Fund. Where the Removal Value is required to be converted into the Index Currency it shall be so converted by the Index Sponsor at such time and by reference to such sources as it deems appropriate.

"**Reported Net Asset Value**" means, in respect of any Fund Interest and a Fund Reporting Date relating to such Fund Interest, the official net asset value per Fund Interest as of the related Fund Valuation Date or, if the related Fund reports only its aggregate net asset value, the portion of such Fund's aggregate net asset value relating to a Fund Interest as of the related Fund Valuation Date, in each case as reported on the Fund

Reporting Date relating to such Fund Valuation Date by the Fund Service Provider that generally reports such value on behalf of the Fund to its investors or a publishing service.

“**Return Type**” has the meaning given to it in the Annex

“**Scheduled Fund Valuation Date**” means, in respect of a Fund Interest, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

“**Scheduled Redemption Payment Date**” means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date by which the related Fund is scheduled to have paid, according to its Fund Documents, all or a specified portion of the Redemption Proceeds to an investor that has submitted a timely and valid notice requesting redemption of such Fund Interest as of such Scheduled Redemption Valuation Date.

“**Scheduled Redemption Valuation Date**” means, in respect of a Fund Interest and any relevant day, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the net asset value of such Fund Interest for the purposes of calculating the redemption proceeds to be paid to an investor that has submitted a valid and timely notice for redemption of Fund Interests based on the value determined as of the Scheduled Redemption Valuation Date for which the Scheduled Redemption Payment Date falls on or immediately prior to such day.

“**SEK**” means Swedish Krona.

“**Successor Source**” means, in relation to any display page, other published source, information vendor or provider:

- (i) the successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original page or source; or
- (ii) if the sponsor of the original page or source has not officially designated a successor display page, other published source, service or provider (as the case may be), the successor display page, other published source, service or provider, if any, designated by the relevant information vendor or provider (if different from such sponsor).

“**TARGET2 Settlement Day**” means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (TARGET2) is open.

“**Termination of Data Licence**” means the occurrence of a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data is supplied to compile or calculate the Index.

“**Theoretical Exposure**” has the meaning given to it in Section 7.1.3.

“**Underlying Fund Disrupted Day**” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing.

“**Underlying Fund Disruption Event**” means, in respect of a Fund, any of the following events:

- (i) in respect of any Fund Interest, the failure of (i) an Index Business Day to be a Fund Valuation Date or any continued postponement or suspension of such Fund Valuation Date; and/or (ii) there to be a Fund Reporting Date and/or Reported Net Asset Value relating to the relevant Fund Valuation Date;
- (ii) in respect of any Fund Interest (a) there is a failure by the Fund to pay the full amount (whether expressed as a percentage or otherwise) of the Redemption Proceeds in the Fund Interest Currency with respect to the relevant amount of such Fund Interest scheduled to have been paid on or by such day according to the Fund Documents (without giving effect to any gating, deferral, suspension or

other provisions permitting the Fund to delay or refuse redemption of such Fund Interests) or (b) a Hypothetical Investor which had submitted a valid redemption notice in respect of such Fund Interest on the last date permitted pursuant to the relevant Fund Documents would, in the reasonable opinion of the Index Sponsor, not have received in full the Redemption Proceeds in respect of such redemption(s) on or before the date it was scheduled to do so in accordance with the Fund Documents; and/or

- (iii) any closure other than for ordinary public holidays and/or any restriction or suspension in trading of foreign exchange markets or money markets in a relevant Fund Interest Currency or Index Currency that, in the opinion of the Index Sponsor, would have a material effect on the ability market participants to effect transactions in such markets,

provided that if any event would otherwise be both an Underlying Fund Disruption Event and Fund Event, such event shall be treated solely as a Fund Event.

“Underlying Fund Exchange” means, in respect of a Fund Interest, the principal exchange or quotation system for such Fund Interest, as determined by the Index Sponsor, and any successor to such exchange or quotation system or any substitute exchange or quotation system to which such Fund Interest have temporarily relocated.

“Underlying Fund Price” means, in respect of a Fund Interest and the Underlying Fund Valuation Time on any relevant day, the Reported Net Asset Value of such Fund Interest for the related Fund Valuation Date falling on such day.

“Underlying Fund Valuation Time” means, in respect of a Fund Interest, the time on or in respect of any relevant day at which the applicable Underlying Fund Price is scheduled to be determined in accordance with the relevant Fund Documents.

9. *Adjustment Provisions*

9.1 *Adjustment Events*

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may acting in good faith and a commercially reasonable manner:

- (i) substitute any Index Component or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate;
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the “**Relevant Day**”) shall be equal to the Index Component Value in respect of such Relevant Day;
- (iv) reallocate the portion of the Index exposed to any Index Component which is affected by such Adjustment Event to the cash until the next Index Business Day on which it determines that no Adjustment Event exists (and make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such reallocation;
- (v) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
- (vi) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
- (vii) cancel the Index and permanently cease to calculate the Index Level.

9.2 *Determinations made by the Index Sponsor in respect of Fund Potential Adjustment Events and Fund Events may have an adverse effect on the value of a Financial Product –*

Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (Adjustment Events) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (Adjustment Events) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

9.3 **Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or re-classification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.***Adjustment procedures, notification and consultation process*

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index. While the Index Sponsor currently employs this methodology, no assurance can be given that fiscal, market,

regulatory, juridical, financial or, without limitation, any other circumstances will not arise that would, in the view of the Index Sponsor, necessitate or make desirable a modification or change to this Description.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a “**Change**”) which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a “**Material Change**”) the Index Sponsor will give prior notice to Financial Product Investors that a Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days’ notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

9.4 *Consequences of Fund Events*

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a “**Relevant Fund**”), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such

sources as it considers appropriate including, but not limited to, the value that a third party on arms' length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

10. Errors and Corrections

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

11. Governance

Morgan Stanley has adopted the "Principles for Financial Benchmarks" published by the International Organization of Securities Commissions ("IOSCO") on 17 July 2013 (the "**Principles**") on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the "**Index Committee**").

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

12. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;
- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator,

supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;

- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

13. *Important Information*

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at [complaints ms@morganstanley.com](mailto:complaints@ms@morganstanley.com).

ANNEX OF THE MS 12% RISK CONTROL ER INDEX LINKED TO NORDIC MULTI-ASSET FUND

INDEX MAIN DEFINITIONS:

Index Currency	SEK

OVERVIEW of the MS 12% Risk Control ER Index linked to Nordic Multi-Asset Fund

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Rules. The Index is governed by the Index Rules and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to a weighted basket of one equity mutual fund, as described below (the “**Basket**”), whilst maintaining a volatility at or around 12% (the “**Target Volatility**”). To pursue this objective, the Index implements a daily “*Risk Control Mechanism*” which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Basket. When volatility increases, the Index reduces exposure to Basket and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Basket, up to a maximum exposure of 150%, and reduces its exposure to cash.

When the Index’s exposure to the Basket is higher than 100%, the Index uses a “leveraged” exposure to the underlying funds. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying funds. The maximum leverage the Index can employ is capped at 150%.

Does the Index represent a physical investment in the Basket?

The Index can be described as a “notional” investment in the Basket or as a “synthetic portfolio” as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does “Excess Return” mean?

The Index is construed as an “**Excess Return**” asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Basket. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is to be opposed to a Total Return investment which assumes that such investment is fully funded.

What does “Decrement” mean?

The Index is calculated by deducting a 1.00% per annum* percentage rate (the “**Decrement**”) applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 1.00% lower than what it would otherwise be without such deduction.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 12% by allocating exposure to the Basket based on the realised volatility of the Basket itself. The target weight assigned by the Index to the Basket on any business day is the ratio of 12% to the realised volatility of the Basket. The realised volatility of the Basket is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Fund experiences higher volatility, it means greater changes in its price. In such environment, exposure to the Fund can produce unpredictable results. Volatility can anticipate both a decline or a rebound in the Fund. A “volatility target” mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Fund. In practical terms, when exposure to the Fund is reduced, the level of the Index is less sensitive to the volatility of such Fund and therefore will suffer less from a decline in the performance of the Fund. A “volatility target” mechanism can however also hinder the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Basket is 0% even when the Basket volatility has reached a level higher than the Target Volatility. As a result, exposure to the Basket cannot be negative.

What are the Funds underlying the Index?

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Basket which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Funds. In general terms, if the Funds increase in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to such Funds as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Funds that make up the Basket. This cost is represented by the Stockholm Interbank 3-month rate. The higher the borrowing rates, the lower the performance of the Index. In an environment where borrow rates are significant, the Index may

exhibit material underperformance when compared to a direct investment in the underlying Funds.

- The Index is calculated by deducting a 1.00% per annum decrement percentage rate, which is deducted daily pro rata. This means that the Index annual performance would be on average 1.00% lower than what it would otherwise be without such decrement.

Simulated Historical Track Record of the Index

The below chart represents the simulated historical performance of the Index in comparison with the simulated historical performance of the Basket.

This is not actual historical performance and it should not be taken as an indication of future performance of the Index or the Basket.

Simulation Start Date: 04 February 2013

Simulation End Date: 19 April 2023

<i>Year</i>	<i>Simulated Basket Performance*</i>	<i>Simulated Index Performance*</i>
2014	15.6%	17.5%
2015	4.6%	3.2%
2016	12.8%	12.3%
2017	7.3%	10.6%
2018	-3.7%	-6.0%
2019	27.3%	33.4%

Description of the MS 12% Risk Control ER Index Linked to Nordic Multi-Asset Fund

2020	6.8%	8.9%
2021	20.8%	26.6%
2022	-10.2%	-12.8%

DESCRIPTION OF THE MS NORDIC EQUITY FUND 13% INDEX

Bloomberg Page: MSFDNE13 Index

The MS Nordic Equity Fund 13% Index is the exclusive property of Morgan Stanley & Co. International plc and its Affiliates (the “**Morgan Stanley Group**”). Morgan Stanley and the MS Nordic Equity Fund 13% Index are trade marks of the Morgan Stanley Group and no person or entity should refer to any of the trade marks without the consent of a member of the Morgan Stanley Group and should not use any of the information in this Description for any purpose other than in relation to an investment or otherwise in connection with any Financial Product (as defined below) for which such consent has been obtained. The non-exclusive right to use the MS Nordic Equity Fund 13% Index as an underlying reference basis or otherwise for any Financial Product is granted only upon completion of a license agreement with a member of the Morgan Stanley Group. The Index Sponsor, the Index Calculation Agent and each member of the Morgan Stanley Group disclaim any responsibility for any unauthorised use of the MS Nordic Equity Fund 13% Index by any third party.

No representation is made by any member of the Morgan Stanley Group with respect to the eligibility of the MS Nordic Equity Fund 13% Index for investment for investment (including, but not limited to, compliance with the UCITS Directive (2009/65/EC), as amended and supplemented from time to time (the “**UCITS Directive**”), or its use in connection with any Financial Product to be entered into or held, by any prospective investor. Prospective investors should make their own independent analysis of whether the MS Nordic Equity Fund 13% Index meets the eligibility criteria for their investment or use by them in relation to the relevant Financial Product and of whether the MS Nordic Equity Fund 13% Index responds to their criteria, needs and objectives for investment or otherwise. The term “investor” will include any counterparty, holder or contract party in relation to a Financial Product.

Nothing contained in this Description should be construed as an offer or solicitation to purchase or sell securities or to enter into any transaction or engage in investment activity of any kind. If you do invest in a Financial Product or engage in any other investment activity, you should ensure that you fully understand the nature of such investment and the risks involved and are satisfied that the investment is suitable and appropriate for your circumstances. If you are in any doubt about this you should take advice from an appropriately qualified advisor.

This Description does not constitute investment, taxation, legal, accounting or other advice, including within the meaning of Article 53 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 or investment advice within the meaning of Article 4(4) of MiFID II.

1. Introduction

This Description sets out the methodology of the MS Nordic Equity Fund 13% Index (the “**Index**”) and the basis on which the Index is calculated.

This Description is intended to provide the information relating to the Index required by the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 ((EU) 2016/1011)) (as amended) (the “**Benchmarks Regulation**”) as it forms part of “retained EU law” in the United Kingdom as defined in the European Union (Withdrawal) Act 2018 (as amended from time to time) (the “**UK Benchmarks Regulation**”). This Index is a non-significant and regulated data benchmark for the purposes of the UK Benchmarks Regulation.

As at the date of publication of this Description, Morgan Stanley & Co. International plc appears on the register of benchmark administrators established and maintained by the Financial Conduct Authority pursuant to Article 34 of the Benchmarks Regulation. Morgan Stanley & Co. International plc’s benchmark statement (the “**MS Benchmark Statement**”) can be accessed via the following link:

https://www.morganstanley.com/assets/pdfs/sales_and_trading_disclosures/Benchmark_Statement.pdf

Subject as provided in Section 10 (*Adjustment and Disruption Provisions*), this Description is subject to change or adjustment at any time and will be superseded by any subsequent Description. A copy of the current version of the Description can be obtained following the method described in Section 8 (*Publication*).

No one may reproduce, distribute or disseminate this Description, any information contained in this Description or any Index Level (as applicable) without the prior written consent of the Index Sponsor. This Description is not intended for distribution to, or use by any person in, a jurisdiction where such distribution is prohibited by law or regulation.

ESG Disclosures pursuant to Commission Delegated Regulation (EU) 2020/1817 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards the minimum content of the explanation on how environmental, social and governance factors are reflected in the benchmark methodology, as on-shored in the United Kingdom by way of The Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019:

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Morgan Stanley & Co. International plc
Item 2. Type of benchmark or family of benchmarks.	Multi Asset
Item 3. Name of the benchmark or family of benchmarks.	Multi Asset Signal-based
Item 4. Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	No

2. *Overview*

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Summary

The Index aims to provide exposure to the Index Component and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a “notional” or synthetic exposure to the Index Component and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Component and a rules-based strategy, the performance of which is used as a reference point for calculating Index Levels.

This Section 3 (*Overview*) is subject to, and qualified by, the remainder of this Description.

3. *Index Sponsor*

The Index has been developed by Morgan Stanley & Co. International plc (“**MSIP**”). The Index is administered by the index sponsor or any successor thereto (the “**Index Sponsor**”). The initial Index Sponsor is MSIP.

The Index Sponsor controls the creation and operation of the Index administrative process, including all stages involved in the production and dissemination of the Index. The Index Sponsor also is responsible for the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of this Description. Notwithstanding that the Index relies on information from third party sources, the Index Sponsor has primary responsibility for all aspects of the Index administration and determination process.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

The Index Sponsor is not acting as a manager or an investment advisor in relation to the Index and has no relationship of agency or trust or any fiduciary duty to any person in respect of the Index and is not required to take the interests of any person into account in making any determination or calculation in relation to the Index.

The Index Sponsor makes no warranty or representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

No Financial Product is sponsored, endorsed, sold or promoted by MSIP or the Index Sponsor, and neither MSIP nor the Index Sponsor makes any express or implied representations or warranties as to (a) the advisability of purchasing or assuming any risk in connection with any Financial Product,

(b) the levels at which the Index stands at any particular time on any particular date, (c) the results to be obtained by the issuer or obligor of any Financial Product, or any Financial Product Investor, or any other person or entity from the use of the Index or any data included therein in connection with any licensed rights or for any other use or (d) any other matter. Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP/ or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP may in its sole and absolute discretion delegate and/or transfer any of its obligations and/or functions in relation to the administration and determination of the Index to one or more third parties as it deems appropriate from time to time. MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

4. *Index Calculation Agent*

The Index is calculated by MSIP (or any successor thereto) (the “**Index Calculation Agent**”).

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent’s calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. The term “manifest error” as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without (i) recourse to the underlying data or (ii) any application or re-application of any formulae. No person (whether a Financial Product Investor or otherwise) will be entitled to proceed (and shall be deemed to have agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to the Index.

For so long as the Index Calculation Agent constitutes and calculates the Index, the Index Calculation Agent does not accept any liability for loss or damage of any kind (including, without limitation, any special, punitive, indirect or consequential damages (including loss of profits)) arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index itself and disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any information in connection with it.

5. *Index Data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the Index Component Value and the Funding Rate in respect of each Index Component as published on the relevant Index Component Price Source in respect of such Index Component.

No assurance can be given that any such Index Component Values or Funding Rate will be published on the relevant Index Component Price Source or on the Funding Rate Screen Page accurately, in a timely manner or at all and the Index Sponsor and the Index Calculation Agent have relied on, and will rely on, such Index Component Values and Funding Rate as they are published on the relevant Index Component Price Source or Funding Rate Screen Page. Neither the Index Sponsor nor the Index Calculation Agent has independently verified the information extracted from such sources and accepts no responsibility or liability in respect thereof.

6. Calculation of the Index

6.1 Index Level

The Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Index Level in respect of each Index Business Day (each an “Index Business Day t”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$\begin{aligned} \text{Index Level}(t) = & \text{Max} \left(0, \text{Index}(t-1) \right. \\ & \times \left[1 + \text{Exposure}(t-1) \times \left(\frac{\text{Basket}(t)}{\text{Basket}(t-1)} - 1 - \text{Rate}(t-1) \times \frac{\Delta t}{\text{DayCount}} \right) \right] \\ & \left. - \text{RunningCost}(t) \right) \end{aligned}$$

Where:

max, followed by amounts (or values) inside brackets, means whichever is the greater of the amounts (or values) separate by a semi-colon inside such brackets;

Index Level(t-1) means the Index Level in respect of the Index Business Day immediately preceding Index Business Day t;

Exposure(t-1) means the Exposure in respect of Index Business Day t-1;

Basket(t) means the Basket Mechanism in respect of Index Business Day t;

Basket(t-1) means the Basket Mechanism in respect of the Index Business Day immediately preceding Index Business Day t;

Rate(t-1) means the Funding Rate in respect of the Index Business Day immediately preceding Index Business Day t;

Δt means the number of calendar days from (and including) the Index Business Day immediately preceding Index Business Day t to (but excluding) Index Business Day t;

DayCount means 360; and

RunningCost(t) means, in respect of Index Business Day t, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$\text{RunningCost}(t) = \text{Index Level}(t-1) \times \left[\frac{\Delta t}{\text{DayCount}} \times \text{Running Rate} \right]; \text{ and}$$

Running Rate means 2.00 per cent

(a) Calculation of the Exposure

The exposure (the “Exposure”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$\text{TheoreticalExposure}(t) = \text{Min} \left[\text{maxExposure}, \frac{\text{Vol Target}}{\text{Realised Volatility}(t - \text{Lag})} \right]$$

IF $|\text{TheoreticalExposure}(t) - \text{Exposure}(t)| > \text{Threshold}$ THEN

$\text{Exposure}(t) = \text{Theoretical Exposure}(t)$ ELSE

$\text{Exposure}(t) = \text{Exposure}(t - 1)$

Where:

maxExposure means 150 per cent

VolTarget means 13 per cent

Threshold means 5 per cent

Lag means 2

Realised Volatility (t-Lag) means the Realised Volatility in respect of Index Business Day (t-Lag)

(b) **Calculation of the Realised Volatility**

The Realised Volatility in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$\text{Realised Volatility}(t) = \sqrt{\frac{252}{20} \times \sum_{k=t-19}^t \ln \left(\frac{\text{Basket}(k)}{\text{Basket}(k-1)} \right)^2}$$

(c) **Calculation of the Basket Mechanism**

The basket mechanism (the “**Basket Mechanism**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$\text{Basket}(t) = \text{Spot}(t)$$

Where:

Spot(t) means, in respect of an Index Business Day, the Index Component Value in respect of the Index Component in respect of such Index Business Day.

6.2 **Miscellaneous**

Each Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

6.3 **Index Live Date and Retrospective Calculations**

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the “Back-test Period”) has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

7. Publication

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the “Index Publication Time”) on the second Index Business Day immediately following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

8. Definitions

“**Adjustment Event**” means (i) an Index Component Disruption Event, (ii) a Disruption Event, (iii) a Force Majeure Event, (iv) an Index Component Adjustment Event.

“**Affiliate**” means in relation to any entity (the “**First Entity**”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes, "control" means ownership of a majority of the voting power of an entity.

“**Back-test Period**” has the meaning given to in Section 7. (*Index Live Date and Retrospective Calculations*).

“**Basket Mechanism**” has the meaning given to it in Section 7.1.4.

“**Benchmarks Regulation**” has the meaning given to it in Section 1 (*Introduction*).

“**Bloomberg**” means Bloomberg L.P. or any of its Affiliates, or any successor market price information provider(s).

“**Bloomberg Page**” means MSFDNE13 Index or any Successor Source thereto.

“**Change**” has the meaning given to it in Section 10.2 (Adjustment procedures, notification and consultation process).

“**Change in Law**” means there has been a change in applicable law or regulation or the promulgation of or any change in the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation that prevents or will prevent the Index Sponsor and/or the Index Calculation Agent from calculating and/or publishing the Index.

“**Description**” has the meaning given to it on the second page of this Description.

“**Disappearance or Unavailability Event**” means there is (i) a permanent discontinuation of trading in an Index Component or (ii) a disappearance or permanent discontinuance or unavailability of an Index Component Value, notwithstanding the status of trading in the relevant Index Component (if applicable), or any other source data required to calculate the Index.

“**Disruption Event**” means each of (i) a Change in Law, (ii) a Disappearance or Unavailability Event, (iii) a Hedging Disruption, (iv) a Price Source Disruption Event or (v) a Termination of Data Licence.

“**Exposure**” has the meaning given to it in Section 7.1.1.

“**SEK**” means Swedish Krona.

“**Financial Product**” has the meaning given to it in Section 2 (*Risk Factors and Investment Considerations*).

“**Financial Product Investor**” has the meaning given to in in Section 2 (*Risk Factors and Investment Considerations*).

“**Force Majeure Event**” means an event or circumstance has occurred beyond the reasonable control of the Index Sponsor (including, without limitation, a systems or IT failure (including, without limitation, a systems breakdown, incomplete or ineffective upgrade, malfunction, malware, virus or other similar circumstances affecting the Index Sponsor’s information technology and related processing systems), fire, flood, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) which directly or indirectly prevents or otherwise affects the determinations of the Index Sponsor and/or the Index Calculation Agent in relation to the Index.

“**Frequency of Fund Interest Valuation**” means, in respect of a Fund Interest, the frequency of occurrence of a Fund Business Day of such Fund Interest as determined by reference to the Fund Documents in effect on the Index Live Date.

“**Fund**” means, in respect of a Fund Interest, the issuer of, or other legal arrangement (including, if applicable, any class or series) giving rise to such Fund Interest as specified in Annex 1 hereto.

“**Fund Administrator**” means, in respect of a Fund, any fund administrator, manager, trustee or similar person responsible for the administration of such Fund and the determination and reporting of any official price or value of such Fund according to the Fund Documents or any successor acceptable to the Index Sponsor.

“**Fund Advisor**” means any person appointed in the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor to a discretionary investment manager or to another non-discretionary investment advisor) for such Fund and/or a Fund Administrator and/or any other person(s) designated in the Fund Documents as responsible for the oversight of the Fund, or any successor to any such person acceptable to the Index Sponsor.

“**Fund Business Day**” means, in respect of a Fund, each of a Scheduled Fund Valuation Date and any day on which the Fund or the primary Fund Administrator acting on behalf of the Fund is scheduled to effect subscription and redemption requests.

“**Fund Documents**” means, in respect of a Fund and the related Fund Interest, the constitutive and governing documents, subscription agreements and other agreements of the related Fund specifying the terms and conditions of such Fund Interest (including, without limitation, the prospectus, information memorandum or other offering document issued by such Fund in connection with such Fund Interest), in each case and unless where otherwise specified, as amended and/or supplemented from time to time.

“**Fund Event**” means, the occurrence or announcement by the Fund or a Fund Service Provider at any time of any of the following events:

- (i) *Nationalisation*: all the Fund Interests or all or substantially all the assets of the Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (ii) *Fund Insolvency Event*: in respect of a Fund Interest and the related Fund (a) the Fund and/or any Fund Service Provider (A) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a *consolidation*, amalgamation or merger); (B) makes a general assignment or arrangement with or for the benefit of its creditors; (C)(1) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in (1) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within 15 days of the institution or presentation thereof; (D) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (E) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 15 days thereafter; or (F) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in (A) through (E) above; or (without prejudice to the foregoing) (b) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Fund, (A) all the Fund Interests are required to be transferred to a trustee, liquidator or other similar official or (B) holders of Fund Interests become legally prohibited from transferring them;

- (iii) *NAV Trigger/Restriction Event*: in respect of a Fund Interest (A) the Reported Net Asset Value as of the last Fund Valuation Date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the Reported Net Asset Value as of the Fund Valuation Date of the same month in the immediately preceding calendar year (or, if the first year of operation of the relevant Fund Interest, as of its highest Reported Net Asset Value on the last Fund Valuation Date of any month during such first year); or (B) the related Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (iv) *Fund Advisor Event*: (a) that at any time after the Index Live Date, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) is equal to or less than 100,000,000 U.S. Dollars (or its equivalent) or (b) that over any period of twelve months, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) has decreased by fifty per cent. (whether due to redemptions or decrease in the value of such assets or otherwise);
- (v) *Changes to Fund or Fund Service Providers*: (a) any change in the organisation of the Fund or of any Fund Service Provider without the prior written consent of the Index Sponsor including, without limitation, a change of control of, or a change of the main shareholders, managing directors or individual(s) designated as fund manager(s) in the Fund Documents as at the Index Live Date (if any) of a Fund Service Provider, (b) any Fund Service Provider ceasing to act in the relevant capacity in relation to the Fund unless immediately replaced in such capacity by a successor acceptable to the Index Sponsor or (c) any delegation or transfer by the Fund Advisor of any of its powers, duties or obligations under the Fund Documents to a third party without the prior written consent of the Index Sponsor;
- (vi) *Fund Modification*: any change, modification or termination of the related Fund Documents or of any rights attaching to the related Fund Interests (including without limitation any change or modification affecting management policy, the Fund Interest Currency, the Frequency of Fund Interest Valuation, the terms relating to subscription, transfer and/or redemption of such Fund Interest including any change to the form or schedule of payment or notice period) from those prevailing on the Index Live Date and which could reasonably be expected to affect the value of such Fund Interests;
- (vii) *Strategy Breach*: any material breach of or non-compliance with any investment objective, investment restrictions or other strategy or investment guidelines or requirements, subscription and redemption provisions (including, without limitation, the days treated as Fund Business Days) or valuation provisions (including, without limitation, the method of determining the net asset value of the relevant Fund Interest), in each case as set out in the Fund Documents as in effect on the Index Live Date;
- (viii) *Breach by Fund Service Provider*: the breach by any relevant Fund Service Provider of any obligation (including, without limitation, non-compliance with any investment guidelines relating to the Fund Interest), representation or warranties concerning the relevant Fund (including, without limitation, pursuant to any agreement with the Fund), which breach, if capable of remedy, has not been remedied within ten (10) calendar days of its occurrence;
- (ix) *Regulatory Event*: (1) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Advisor that is reasonably likely to have an adverse impact on the value of the related Fund Interest or on any investor therein (as determined by the Index Sponsor) or (2) the related Fund Interest or any of its Fund Service Providers becoming subject to any investigation, proceeding, arbitration, litigation or official action by any relevant governmental, legal or regulatory authority involving the alleged violation of, or non-compliance with, applicable law or regulation in relation to any activities relating to or resulting from the operation of the Fund or another fund where, in the opinion of the Index Sponsor, such circumstances may have an adverse effect on the Fund or (B) (i) the withdrawal, cancellation, suspension or revocation of any registration, licence or approval of the Fund Interests or the Fund by any governmental, legal or regulatory entity with authority over such Fund Interest or Fund; (ii) the withdrawal, suspension, cancellation or modification of any licence, consent, permit, authorisation or clearance required for the Fund or any one or more of its significant Fund Service Providers to carry out their activities as they are or should

be carried out in compliance with applicable law or regulation; and/or (iii) the failure of the Fund and/or the Fund Interests to comply with any applicable requirements from time to time applied by any relevant listing authority, stock exchange, quotation system and/or regulator that allow it to be used to determine amounts due under the Financial Products (or, in the case of (B)(i), (ii) or (iii), any official announcement indicating that any such circumstances may occur);

- (x) *Reporting Disruption:* (A) the occurrence of any event affecting the Fund Interest that, in the determination of the Index Sponsor, would make it impossible or impracticable for the Index Sponsor to determine the value of such Fund Interest and the Index Sponsor does not expect such event to cease in the foreseeable future; (B) any failure of the Fund to deliver, or cause to be delivered, or recipients in general to receive (1) information that such Fund has agreed to deliver, or cause to be delivered to any member of the Morgan Stanley Group or (2) information that has been previously delivered to any member of the Morgan Stanley Group, in accordance with such Fund's, or its authorised representative's, normal practice and that the Index Sponsor deems necessary for it to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund; (C) the Fund ceases, for any reason whatsoever (either directly or through any Fund Service Provider acting on its behalf for this purpose) to provide, publish or make available its net asset value on any Fund Reporting Date; or (D) a Fund Service Provider informs any member of the Morgan Stanley Group that any Reported Net Asset Value of the Fund Interest should not be relied on (whether by reason of it being only a provisional or estimated net asset value or for any other reason) and/or, in the opinion of the Index Sponsor, any Reported Net Asset Value is inaccurate (which, for the avoidance of doubt, includes without limitation circumstances where any net asset value reported by a Fund Service Provider to the Index Sponsor, any member of the Morgan Stanley Group and/or investors in Fund Interests generally differs from any net asset value published on any one or more publishing service);
- (xi) *Compulsory Redemption or Assignment:* (i) the repurchase or redemption by the Fund of all or some of the Fund Interests otherwise than at the request of a holder of such Fund Interests; or (ii) any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) which would mandatorily oblige a holder of Fund Interests to redeem, sell, assign or otherwise dispose of any Fund Interests and which the Index Sponsor determines could affect a Hypothetical Investor;
- (xii) *Closure to Subscriptions; Dealing Restrictions:* (A) the closure of the related Fund to new subscriptions of Fund Interests, or (B) the imposition of any dealing restrictions (including, without limitation, material amendments to relevant documentation, delay (partial or otherwise), suspension or termination (partial or otherwise) of subscription, redemption or settlement) relating to the Fund or transactions in the Fund Interests by any Fund Service Provider, any Affiliate or agent of any Fund Service Provider;
- (xiii) *Disposals: Material Change: Merger:* (A) a disposal to any person(s) of all, or a material part, of the assets of (x) the Fund, or (y) any significant Fund Service Provider; or (B) a material change in the business of the Fund or any significant Fund Service Provider, or (C) the merger, amalgamation or consolidation of the related Fund and/or such Fund Interest with (x) any other sub-fund or compartment of the Fund or (y) any other collective investment undertaking (or sub-fund or compartment of such other collective investment undertaking, including another fund), which, in either case, may, in the determination of the Determination Agent, have an adverse effect on the Fund;
- (xiv) *Fraud:* the Fund is the object of a material fraud which may, in the determination of the Index Sponsor, have an adverse effect on the Fund or the value of Fund Interests; or any act or omission of a Fund Service Provider constitutes fraud (including, but not limited to, theft, misappropriation, mispricing of holdings or concealment of trades), bad faith, wilful misconduct or negligence, as determined by the Index Sponsor in its reasonable discretion;
- (xv) *Fund Force Majeure Event:* any Fund Service Provider fails to perform any of its obligations pursuant to the Fund Documents to the extent that such performance is prevented, hindered or delayed by a Fund Force Majeure Event, where "**Fund Force Majeure Event**" means any event due to any cause beyond the reasonable control of the applicable Fund Service Provider, such as unavailability of communications system, failure of or interruptions in power supply or network

computer systems, sabotage, fire, flood, explosion, acts of God, civil commotion, riots, insurrection or war;

- (xvi) *Delisting*: where there is or was intended to be an Underlying Fund Exchange in respect of the Fund Interests that (A) such Underlying Fund Exchange announces that pursuant to the rules of such Underlying Fund Exchange, such Fund Interests cease (or will cease) being listed or publicly quoted on the Underlying Fund Exchange for any reason and are not immediately re-listed or re quoted on an exchange or quotation system located in the same country as the Underlying Fund Exchange (or, where the Underlying Fund Exchange is within the European Union, in any Member State of the European Union), or (B) Fund Interests are never so listed or quoted as intended and disclosed in the relevant Fund Documents as at the Index Live Date;
- (xvii) *Fund Accounting Event*: any (i) change in the currency in which the Fund Interest's accounts are denominated; or (ii) material adverse change in the accounting treatment of the relevant Fund which does or could affect a Hypothetical Investor and/or any actual or potential requirement to consolidate its accounts with any such entity; and/or
- (xviii) *Fees or Charges Event*: (i) any charge of a transaction fee for subscription or redemption of Fund Interests; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Interests (whether by the Fund or a Fund Advisor in respect of holders of Fund Interests generally).

"Fund Interest" means, in respect of a Fund, a share, unit or other interest in respect of such Fund, as specified in Annex 1 hereto.

"Funding Rate" means, in respect of an Index Business Day, the rate for deposits in the Index Currency for a period of 3 months which appears on Bloomberg Screen STIB3M Index Page (or any Successor Source thereto) (the **"Funding Rate Screen Page"**) (or any successor rate introduced by the European Central Bank or any other competent regulator) on the day that such Index Business Day, as determined by the Index Calculation Agent.

"Fund Interest Currency" means, in respect of a Fund Interest, the currency in which such Fund Interest is denominated on the Index Live Date as set out in the Fund Documents.

"Fund Reporting Date" means, in respect of a Fund Interest and a Fund Valuation Date, the date on which the Reported Net Asset Value of such Fund Interest as determined as of such Fund Valuation Date is reported (as provided in the definition of Reported Net Asset Value).

"Fund Service Provider" means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, to that Fund, whether or not specified in the Fund Documents or any successor acceptable to the Index Sponsor, including without limitation any Fund Advisor, Fund Administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent or domiciliary agent.

"Fund Valuation Date" means, in respect of a Fund Interest, the date as of which such Fund Interest (or its Fund Service Provider that generally determines such value) determines the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Hypothetical Investor" means, in respect of a Fund Interest, a hypothetical investor in such Fund Interest deemed to have (a) the benefits and obligations, as provided under the Fund Documents, of an investor holding, as of the Index Live Date, an interest in the relevant Fund in an amount equal to the relevant number of relevant amount of Fund Interests; (b) in the case of any deemed redemption of Fund Interests, to have submitted to the relevant Fund on the relevant Redemption Notice Date, a duly completed notice requesting redemption of the relevant number of such Fund Interests; and (c) in the case of any deemed investment in Fund Interests, to have submitted, on the Index Live Date, a duly completed notice to the relevant Fund, requesting subscription to the relevant number of Fund Interests;

"Hedging Disruption" occurs if the Index Sponsor determines that a hypothetical market participant would as a result of extraordinary market circumstances relating to an Index Component, be unable, after using commercially reasonable efforts, to:

(a) Acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments it deems necessary to hedge its position in relation to any securities issue or other relevant transactions relating to or calculated by reference to the Index; or

(b) Realize, recover or remit the proceeds of any such transactions or instruments.

“**Index**” has the meaning given to it in Section 1 (*Introduction*).

“**Index Base Date**” 1st October 2018

“**Index Business Day**” means a day (i) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London and which the Nasdaq Stockholm Exchange is open for its regular trading session.

“**Index Calculation Agent**” has the meaning given to it in Section 5 (*Index Calculation Agent*).

“**Index Committee**” has the meaning given to it in Section 12 (*Governance*).

“**Index Component**” means each component specified in Annex 1 hereto.

“**Index Component Adjustment Event**” means a Potential Adjustment Event.

“**Index Component Disrupted Day**” means any day which is an Underlying Fund Disrupted Day.

“**Index Component Disruption Event**” means the occurrence of an event that results in the occurrence of an Index Component Disrupted Day.

“**Index Component Price Source**” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“**Index Component Screen Page**” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“**Index Component Underlying Price Source**” means, in respect of an Index Component, any information service, exchange or data source used to calculate the price or level of any share, security, commodity, rate, index or other component included in such Index Component, as determined by the Index Calculation Agent.

“**Index Component Value**” means, in respect of an Index Component, the Underlying Fund Price in respect of such Index Component.

“**Index Currency**” means SEK.

“**Index Level**” means, in respect of each Index Business Day, an amount, expressed in the Index Currency, being the level of the Index in respect of such Index Business Day, as determined in accordance with Section 7.1 (*Index Level*).

“**Index Live Date**” means [•].

“**Index Publication Time**” has the meaning given to it in Section 8 (*Publication*).

“**Index Sponsor**” has the meaning given to it in Section 4 (*Index Sponsor*).

“**Initial Index Level**” means 100.

“**IOSCO**” has the meaning given to it in Section 12 (*Governance*).

“**Material Change**” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“**MiFID II**” means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as may be amended or replaced from time to time).

“**Morgan Stanley Group**” has the meaning given to it on the front page of this Description.

“**MSIP**” has the meaning given to it in Section 3 (*Overview*).

“**MS Benchmark Statement**” has the meaning given to it in Section 1 (*Introduction*).

“**NB Shares Basket**” has the meaning given to it in Section 7.1.2.

“**Price Source Disruption**” means any Index Component Price Source, Index Component Underlying Price Source, Funding Rate Screen Page or other source data required to calculate the Index is insufficient, inaccurate or unreliable or not available whether due to temporary or permanent discontinuance or failure of the price source for such data or otherwise, as determined by the Index Calculation Agent.

“**Potential Adjustment Event**” means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (A) an additional amount of Fund Interests, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

“**Principles**” has the meaning given to it in Section 12 (*Governance*).

“**Redemption Notice Date**” means, in respect of a Fund Interest, the last date on which a Hypothetical Investor in such Fund Interest would be permitted, pursuant to the Fund Documents of the related Fund, to submit a redemption notice that would be timely for a redemption as a Scheduled Redemption Valuation Date

“**Redemption Proceeds**” means, in respect of the relevant amount of Fund Interests, the redemption proceeds that in the determination of the Index Sponsor would be paid by the relevant Fund to a Hypothetical Investor who, as of the relevant Redemption Valuation Date, redeems such amount of Fund Interests and (for the avoidance of doubt after deduction of any tax, levy, charge, assessment or fee of any nature that, in the determination of the Index Sponsor, would (or would be very likely to) be withheld or deducted from such amount); provided that (i) any such proceeds that would be paid in property other than cash shall be deemed to have a value of zero and (ii) if the Hypothetical Investor would be entitled to elect payment of such redemption proceeds to be made either in the form of cash or other property, then the Hypothetical Investor shall be deemed to have elected cash payment.

“**Redemption Valuation Date**” means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date as of which the relevant Fund (or its Fund Service Provider that generally determines such value) determines the net asset value of Fund Interests for purposes of calculating the

redemption proceeds to be paid to a Hypothetical Investor that has submitted a valid notice for redemption on or before the related Redemption Notice Date.

"Relevant Fund" has the meaning given to such term in Section 10.3 (*Consequences of Fund Events*).

"Removal Value" means, in respect of a Relevant Fund and the Fund Interest in respect of such Relevant Fund, the value calculated by the Index Sponsor in the same manner as would be used in determining the Underlying Fund Price of Fund Interests in the related Fund. Where the Removal Value is required to be converted into the Index Currency it shall be so converted by the Index Sponsor at such time and by reference to such sources as it deems appropriate.

"Reported Net Asset Value" means, in respect of any Fund Interest and a Fund Reporting Date relating to such Fund Interest, the official net asset value per Fund Interest as of the related Fund Valuation Date or, if the related Fund reports only its aggregate net asset value, the portion of such Fund's aggregate net asset value relating to a Fund Interest as of the related Fund Valuation Date, in each case as reported on the Fund Reporting Date relating to such Fund Valuation Date by the Fund Service Provider that generally reports such value on behalf of the Fund to its investors or a publishing service.

"Scheduled Fund Valuation Date" means, in respect of a Fund Interest, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Scheduled Redemption Payment Date" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date by which the related Fund is scheduled to have paid, according to its Fund Documents, all or a specified portion of the Redemption Proceeds to an investor that has submitted a timely and valid notice requesting redemption of such Fund Interest as of such Scheduled Redemption Valuation Date.

"Scheduled Redemption Valuation Date" means, in respect of a Fund Interest and any relevant day, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the net asset value of such Fund Interest for the purposes of calculating the redemption proceeds to be paid to an investor that has submitted a valid and timely notice for redemption of Fund Interests based on the value determined as of the Scheduled Redemption Valuation Date for which the Scheduled Redemption Payment Date falls on or immediately prior to such day.

"Successor Source" means, in relation to any display page, other published source, information vendor or provider:

- (i) the successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original page or source; or
- (ii) if the sponsor of the original page or source has not officially designated a successor display page, other published source, service or provider (as the case may be), the successor display page, other published source, service or provider, if any, designated by the relevant information vendor or provider (if different from such sponsor).

"TARGET2 Settlement Day" means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (TARGET2) is open.

"Termination of Data Licence" means the occurrence of a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data is supplied to compile or calculate the Index.

"Theoretical Exposure" has the meaning given to it in Section 7.1.3.

“Underlying Fund Disrupted Day” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing.

“Underlying Fund Disruption Event” means, in respect of a Fund, any of the following events:

- (i) in respect of any Fund Interest, the failure of (i) an Index Business Day to be a Fund Valuation Date or any continued postponement or suspension of such Fund Valuation Date; and/or (ii) there to be a Fund Reporting Date and/or Reported Net Asset Value relating to the relevant Fund Valuation Date;
- (ii) in respect of any Fund Interest (a) there is a failure by the Fund to pay the full amount (whether expressed as a percentage or otherwise) of the Redemption Proceeds in the Fund Interest Currency with respect to the relevant amount of such Fund Interest scheduled to have been paid on or by such day according to the Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of such Fund Interests) or (b) a Hypothetical Investor which had submitted a valid redemption notice in respect of such Fund Interest on the last date permitted pursuant to the relevant Fund Documents would, in the reasonable opinion of the Index Sponsor, not have received in full the Redemption Proceeds in respect of such redemption(s) on or before the date it was scheduled to do so in accordance with the Fund Documents; and/or
- (iii) any closure other than for ordinary public holidays and/or any restriction or suspension in trading of foreign exchange markets or money markets in a relevant Fund Interest Currency or Index Currency that, in the opinion of the Index Sponsor, would have a material effect on the ability market participants to effect transactions in such markets,

provided that if any event would otherwise be both an Underlying Fund Disruption Event and Fund Event, such event shall be treated solely as a Fund Event.

“Underlying Fund Exchange” means, in respect of a Fund Interest, the principal exchange or quotation system for such Fund Interest, as determined by the Index Sponsor, and any successor to such exchange or quotation system or any substitute exchange or quotation system to which such Fund Interest have temporarily relocated.

“Underlying Fund Price” means, in respect of a Fund Interest and the Underlying Fund Valuation Time on any relevant day, the Reported Net Asset Value of such Fund Interest for the related Fund Valuation Date falling on such day.

“Underlying Fund Valuation Time” means, in respect of a Fund Interest, the time on or in respect of any relevant day at which the applicable Underlying Fund Price is scheduled to be determined in accordance with the relevant Fund Documents.

9. *Adjustment Provisions*

9.1 *Adjustment Events*

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may acting in good faith and a commercially reasonable manner:

- (i) substitute any Index Component or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate;
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the “**Relevant Day**”) shall be equal to the Index Component value in respect of such Relevant Day;
- (iv) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
- (v) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
- (vi) cancel the Index and permanently cease to calculate the Index Level.

9.2 **Determinations made by the Index Sponsor in respect of Fund Potential Adjustment Events and Fund Events may have an adverse effect on the value of a Financial Product**

The Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (Adjustment Events) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (Adjustment Events) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or reclassification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.

9.3 *Adjustment procedures, notification and consultation process*

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a “**Change**”) which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a “**Material Change**”) the Index Sponsor will give prior notice to Financial Product Investors that a Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days’ notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

9.4 **Consequences of Fund Events**

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a “**Relevant Fund**”), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such sources as it considers appropriate including, but not limited to, the value that a third party on arms’ length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

10. **Errors and Corrections**

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

11. Governance

Morgan Stanley has adopted the “Principles for Financial Benchmarks” published by the International Organization of Securities Commissions (“IOSCO”) on 17 July 2013 (the “Principles”) on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the “Index Committee”).

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

12. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;
- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator, supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;
- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

13. *Important Information*

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at [complaints ms@morganstanley.com](mailto:complaints@ms@morganstanley.com).

OVERVIEW OF THE MS NORDIC EQUITY FUND 13% INDEX

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Rules. The Index is governed by the Index Rules and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to a weighted basket of one equity mutual fund, as described below (the “**Basket**”), whilst maintaining a volatility at or around 13% (the “**Target Volatility**”). To pursue this objective, the Index implements a daily “*Risk Control Mechanism*” which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Basket. When volatility increases, the Index reduces exposure to Basket and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Basket, up to a maximum exposure of 150%, and reduces its exposure to cash.

When the Index’s exposure to the Basket is higher than 100%, the Index uses a “leveraged” exposure to the underlying funds. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying funds. The maximum leverage the Index can employ is capped at 150%.

Does the Index represent a physical investment in the Basket?

The Index can be described as a “notional” investment in the Basket or as a “synthetic portfolio” as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does “Excess Return” mean?

The Index is construed as an “**Excess Return**” asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Basket. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is to be opposed to a Total Return investment which assumes that such investment is fully funded.

What does “Running Rate” mean?

The Index is calculated by deducting a 2.00% per annum* percentage rate (the “**Running Rate**”) applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 2.00% lower than what it would otherwise be without such deduction.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 13% by allocating exposure to the Basket based on the realised volatility of the Basket itself. The target weight assigned by the Index to the Basket on any business day is the ratio of 13% to the realised volatility of the Basket. The realised volatility of the Basket is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Fund experiences higher volatility, it means greater changes in its price. In such environment, exposure to the Fund can produce unpredictable results. Volatility can anticipate both a decline or a rebound in the Fund. A “volatility target” mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Fund. In practical terms, when exposure to the Fund is reduced, the level of the Index is less sensitive to the volatility of such Fund and therefore will suffer less from a decline in the performance of the Fund. A “volatility target” mechanism can however also hinder the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Basket is 0% even when the Basket volatility has reached a level higher than the Target Volatility. As a result, exposure to the Basket cannot be negative.

What are the Funds underlying the Index?

<i>Name of Reference Fund</i>	<i>Bloomberg Code</i>	<i>ISIN</i>	<i>Share Class Type</i>	<i>Investment Manager</i>	<i>Weight in the Basket</i>	<i>Web-site to obtain further information *</i>

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Basket which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Funds. In general terms, if the Funds increase in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to such Funds as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Funds that make up the Basket. This cost is represented

by the Stockholm Interbank 3-month rate. The higher the borrowing rates, the lower the performance of the Index. In an environment where borrow rates are significant, the Index may exhibit material underperformance when compared to a direct investment in the underlying Funds.

- The Index is calculated by deducting a 2.00% per annum Running Rate percentage rate, which is deducted daily pro rata. This means that the Index annual performance would be on average 2.00% lower than what it would otherwise be without such Running Rate.

Simulated Historical Track Record of the Index

The below chart represents the simulated historical performance of the Index in comparison with the simulated historical performance of the Basket.

This is not actual historical performance and it should not be taken as an indication of future performance of the Index or the Basket.

Simulation Start Date: 02 October 2018

Simulation End Date: 13 March 2023

<i>Year</i>	<i>Simulated Basket Performance*</i>	<i>Simulated Index Performance*</i>
2019	19.6%	27.7%
2020	10.9%	2.0%
2021	30.0%	37.0%
2022	-15.1%	-16.8%

***Calculation Source: Morgan Stanley. For illustrative purposes only. Simulated performance is not indicative of future performance. Simulated data prior to the live date. Approximations made in historical simulation. No representation is made that any results/returns indicated would be achieved or that all assumptions in achieving such returns have been considered or stated.**

DESCRIPTION OF THE MS 14% RISK CONTROL ER INDEX LINKED TO DIVERSIFIED BASKET OF EQUITY FUNDS

Bloomberg Page: MSFDDDB14

The MS 14% Risk Control ER Index linked to Diversified Basket of Equity Funds is the exclusive property of Morgan Stanley & Co. International plc and its Affiliates (the “**Morgan Stanley Group**”). Morgan Stanley and the MS 14% Risk Control ER Index linked to Diversified Basket of Equity Funds are trade marks of the Morgan Stanley Group and no person or entity should refer to any of the trade marks without the consent of a member of the Morgan Stanley Group and should not use any of the information in this Description for any purpose other than in relation to an investment or otherwise in connection with any Financial Product (as defined below) for which such consent has been obtained. The non-exclusive right to use the MS 14% Risk Control ER Index linked to Diversified Basket of Equity Funds as an underlying reference basis or otherwise for any Financial Product is granted only upon completion of a license agreement with a member of the Morgan Stanley Group. The Index Sponsor, the Index Calculation Agent and each member of the Morgan Stanley Group disclaim any responsibility for any unauthorised use of the MS 14% Risk Control ER Index linked to Diversified Basket of Equity Funds by any third party.

No representation is made by any member of the Morgan Stanley Group with respect to the eligibility of the MS 14% Risk Control ER Index linked to Diversified Basket of Equity Funds for investment for investment (including, but not limited to, compliance with the UCITS Directive (2009/65/EC), as amended and supplemented from time to time (the “**UCITS Directive**”), or its use in connection with any Financial Product to be entered into or held, by any prospective investor. Prospective investors should make their own independent analysis of whether the MS 14% Risk Control ER Index linked to Diversified Basket of Equity Funds meets the eligibility criteria for their investment (including, but not limited to, compliance with the UCITS Directive) or use by them in relation to the relevant Financial Product and of whether the MS 14% Risk Control ER Index linked to Diversified Basket of Equity Funds responds to their criteria, needs and objectives for investment or otherwise. The term “investor” will include any counterparty, holder or contract party in relation to a Financial Product.

Nothing contained in this Description should be construed as an offer or solicitation to purchase or sell securities or to enter into any transaction or engage in investment activity of any kind. If you do invest in a Financial Product or engage in any other investment activity, you should ensure that you fully understand the nature of such investment and the risks involved and are satisfied that the investment is suitable and appropriate for your circumstances. If you are in any doubt about this you should take advice from an appropriately qualified advisor.

This Description does not constitute investment, taxation, legal, accounting or other advice, including within the meaning of Article 53 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 or investment advice within the meaning of Article 4(4) of MiFID II.

1. Introduction

This Description sets out the methodology of the MS 14% Risk Control ER Index linked to Diversified Basket of Equity Funds (the “**Index**”) and the basis on which the Index is calculated.

This Description is intended to provide the information relating to the Index required by the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 ((EU) 2016/1011)) (as amended) (the “**Benchmarks Regulation**”) as it forms part of “retained EU law” in the United Kingdom as defined in the European Union (Withdrawal) Act 2018 (as amended from time to time) (the “**UK Benchmarks Regulation**” and, together with the EU Benchmarks Regulation, the “**Benchmarks Regulation**”). This Index is a non-significant and regulated data benchmark for the purposes of the UK Benchmarks Regulation.

As at the date of publication of this Description, Morgan Stanley & Co. International plc appears on the register of benchmark administrators established and maintained by the Financial Conduct Authority pursuant to Article 36 of the Benchmarks Regulation. Morgan Stanley & Co. International plc’s benchmark statement (the “**MS Benchmark Statement**”) can be accessed via the following link:

https://www.morganstanley.com/content/dam/msdotcom/en/assets/pdfs/sales_and_trading_disclosures/M_SIP_Benchmark_Statement-Multi-Asset_Signal-based_Benchmark_Family.pdf

Subject as provided in Section 10 (*Adjustment and Disruption Provisions*), this Description is subject to change or adjustment at any time (including, without limitation, in accordance with the requirements of the UK Benchmarks Regulation) and will be superseded by any subsequent Description. A copy of the current version of the Description can be obtained following the method described in Section 8 (*Publication*).

No one may reproduce, distribute or disseminate this Description, any information contained in this Description or any Index Level (as applicable) without the prior written consent of the Index Sponsor. This Description is not intended for distribution to, or use by any person in, a jurisdiction where such distribution is prohibited by law or regulation.

ESG Disclosures pursuant to Commission Delegated Regulation (EU) 2020/1817 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards the minimum content of the explanation on how environmental, social and governance factors are reflected in the benchmark methodology, as on-shored in the United Kingdom by way of The Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019:

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Morgan Stanley & Co. International plc
Item 2. Type of benchmark or family of benchmarks.	Multi Asset
Item 3. Name of the benchmark or family of benchmarks.	Multi Asset Signal-based
Item 4. Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	No

2. *Overview*

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Summary

The Index aims to provide exposure to the Index Components and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a “notional” or synthetic exposure to the Index Component and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Component and a rules-based strategy, the performance of which is used as a reference point for calculating Index Levels.

This Section 3 (*Overview*) is subject to, and qualified by, the remainder of this Description.

3. *Index Sponsor*

The Index has been developed by Morgan Stanley & Co. International plc (“**MSIP**”). The Index is administered by the index sponsor or any successor thereto (the “**Index Sponsor**”). The initial Index Sponsor is MSIP.

The Index Sponsor controls the creation and operation of the Index administrative process, including all stages involved in the production and dissemination of the Index. The Index Sponsor also is responsible for the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of this Description. Notwithstanding that the Index relies on information from third party sources, the Index Sponsor has primary responsibility for all aspects of the Index administration and determination process.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

The Index Sponsor is not acting as a manager or an investment advisor in relation to the Index and has no relationship of agency or trust or any fiduciary duty to any person in respect of the Index and is not required to take the interests of any person into account in making any determination or calculation in relation to the Index.

The Index Sponsor makes no warranty or representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

No Financial Product is sponsored, endorsed, sold or promoted by MSIP or the Index Sponsor, and neither MSIP nor the Index Sponsor makes any express or implied representations or warranties as to (a) the advisability of purchasing or assuming any risk in connection with any Financial Product,

(b) the levels at which the Index stands at any particular time on any particular date, (c) the results to be obtained by the issuer or obligor of any Financial Product, or any Financial Product Investor, or any other person or entity from the use of the Index or any data included therein in connection with any licensed rights or for any other use or (d) any other matter. Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP/ or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP may in its sole and absolute discretion delegate and/or transfer any of its obligations and/or functions in relation to the administration and determination of the Index to one or more third parties as it deems appropriate from time to time. MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

4. *Index Calculation Agent*

The Index is calculated by MSIP (or any successor thereto) (the “**Index Calculation Agent**”).

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent’s calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. The term “manifest error” as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without (i) recourse to the underlying data or (ii) any application or re-application of any formulae. No person (whether a Financial Product Investor or otherwise) will be entitled to proceed (and shall be deemed to have agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to the Index.

For so long as the Index Calculation Agent constitutes and calculates the Index, the Index Calculation Agent does not accept any liability for loss or damage of any kind (including, without limitation, any special, punitive, indirect or consequential damages (including loss of profits)) arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index itself and disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any information in connection with it.

5. *Index Data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the Index Component Value, the Index Funding Rate and the Funding Rate in respect of each Index

Component as published on the relevant Index Component Price Source in respect of such Index Component.

No assurance can be given that any such Index Component Values, Index Funding Rate or Funding Rate will be published on the relevant Index Component Price Source, on the Index Funding Rate Screen Page or on the Funding Rate Screen Page accurately, in a timely manner or at all and the Index Sponsor and the Index Calculation Agent have relied on, and will rely on, such Index Component Values and Funding Rate as they are published on the relevant Index Component Price Source or Funding Rate Screen Page. Neither the Index Sponsor nor the Index Calculation Agent has independently verified the information extracted from such sources and accepts no responsibility or liability in respect thereof.

6. Calculation of the Index

6.1 Total Return Index Level

The Total Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Total Return Index Level in respect of each Index Business Day (each an "Index Business Day t") from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$TRIndex_t = \text{Max} \left(0, TRIndex_{t-1} \times \left[1 + \text{Effective Exposure}_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 \right) + (1 - \text{Effective Exposure}_{t-1}) \times Rate_{t-1} \times \frac{\Delta t}{DayCount} \right] - TC_t \right) \times (1 - AF_t)$$

Where:

max, followed by amounts (or values) inside brackets, means whichever is the greater of the amounts (or values) separate by a semi-colon inside such brackets;

TRIndex Level(t-1) means the Total Return Index Level in respect of the Index Business Day immediately preceding Index Business Day t;

Effective Exposure(t-1) means the Effective Exposure in respect of Index Business Day t-1, calculated as per paragraph 7.3 below;

Basket(t) means the Basket Level in respect of Index Business Day t, calculated as per paragraph 7.7 below;

Basket(t-1) means the Basket Level in respect of the Index Business Day immediately preceding Index Business Day t;

Rate(t-1) means the Index Funding Rate in respect of the Index Business Day immediately preceding Index Business Day t;

Δt means the number of calendar days from (and including) the Index Business Day immediately preceding Index Business Day t to (but excluding) Index Business Day t;

DayCount means 360;

TC(t) means the Transaction Cost in respect of Index Business Day t and is an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$TC_t = |Nb \text{ Shares Basket } (t) - Nb \text{ Shares Basket } (t - 1)| \times Basket(t) \times RC$$

Where RC is the Rebalancing Cost and has the meaning given to it in the Annex

AF(t) means, the Accrued Fee in respect of Index Business Day t, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$AF(t) = \left[\frac{\Delta t}{DayCount} \times Decrement Rate \right]; \text{ and}$$

Decrement Rate has the meaning given to it in the Annex

6.2 Excess Return Index Level

The Excess Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Excess Return Index Level in respect of each Index Business Day (each an “Index Business Day t”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$ERIndex_t = Max \left(0, ERIndex_{t-1} \times \left[1 + Effective Exposure_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 - Rate_{t-1} \times \frac{\Delta t}{DayCount} \right) \right] - TC_t \right) \times (1 - AF_t)$$

6.3 Calculation of the Exposure

The theoretical exposure (the “Theoretical Exposure”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$TheoreticalExposure_t = Min[maxExposure, UnconstrainedExposure_t]$$

Where:

$$UnconstrainedExposure_t = \frac{Vol Target}{Realised Volatility (t)}$$

The exposure (the “**Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where Rebalance Rule is set as “ABSOLUTE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } |TheoreticalExposure_t - Exposure_{t-1}| > Threshold \\ Exposure_{t-1}, & \text{Otherwise} \end{cases}$$

- Where Rebalance Rule is set as “RELATIVE INVERSE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } \left| \frac{Exposure_{t-1}}{UnconstrainedExposure_t} - 1 \right| > Threshold \\ Exposure_{t-1}, & \text{Otherwise} \end{cases}$$

Where:

maxExposure has the meaning given to it in the Annex

VolTarget has the meaning given to it in the Annex

Threshold has the meaning given to it in the Annex

Lag means has the meaning given to it in the Annex

Realised Volatility (t-Lag) means the Realised Volatility in respect of Index Business Day (t-Lag)

6.4 Calculation of the Number of Shares Basket

The number of shares of the basket (the “Number of Shares Basket”) in respect of any Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

Where Index Business Day t is the Index Base Date or any of the following Lag – 1 Index Business Days:

$$NbShares\ Basket(t) = 0$$

Where Index Business Day t falls on any subsequent day:

- In respect of the Total Return Index:

-

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times TRIndex_{t-Lag}}{Basket_{t-Lag}}$$

- In respect of the Excess Return Index

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times ERIndex_{t-Lag}}{Basket_{t-Lag}}$$

6.5 Calculation of the Effective Exposure

The effective exposure (the “Effective Exposure”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

- In respect of the Total Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{TRIndex_t}$$

- In respect of the Excess Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{ERIndex_t}$$

6.6 Calculation of the Realised Volatility

The Realised Volatility in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where the Realised Volatility Format is set as ARITHMETIC in the Annex:

-

$$Realised\ Volatility(t) = Max(ST\ Vol(t), LT\ Vol(t))$$

Where:

$$ST\ Vol(t) = \sqrt{\frac{252}{ST\ Tenor \times STReturn\ Size} \times \sum_{k=t-STTenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-STReturn\ Size)}\right)^2}$$

$$LT Vol (t) = \sqrt{\frac{252}{LT Tenor \times LTReturn Size} \times \sum_{k=t-LT Tenor-1}^t \ln\left(\frac{Basket (k)}{Basket (k - LTReturn Size)}\right)^2}$$

- Where the Realised Volatility Format is set as GEOMETRIC in the Annex:
-

$$Realised Volatility (t) = Max (ST Vol (t), LT Vol (t))$$

Where:

ST Vol (t) means:

- (i) Where such Index Business Day is the Index Base Date or any of the immediately following ST Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = Initial Volatility$$

- (ii) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = \sqrt{\lambda_{ST} \times ST Vol (t - 1)^2 + (1 - \lambda_{ST}) \times \ln\left(\frac{Basket_t}{Basket_{t-ST Return Size}}\right)^2 \times \frac{252}{ST Return Size}}$$

LT Vol (t) means:

- (i) Where such Index Business Day is the Index Base Date or any of the immediately following LT Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = Initial Volatility$$

- (ii) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = \sqrt{\lambda_{LT} \times LT Vol (t - 1)^2 + (1 - \lambda_{LT}) \times \ln\left(\frac{Basket_t}{Basket_{t-LT Return Size}}\right)^2 \times \frac{252}{LT Return Size}}$$

Where:

λ_{ST} has the meaning given to it in the Annex

ST Tenor has the meaning given to it in the Annex

ST Return Size has the meaning given to it in the Annex

λ_{LT} has the meaning given to it in the Annex

LT Tenor has the meaning given to it in the Annex

LT Return Size has the meaning given to it in the Annex

6.7 Calculation of the Basket

7.7.1 Calculation of the Basket Level

The basket level (the “**Basket Level**”) in respect of the Initialisation Date shall be equal to the Initial Basket Level as defined in the Annex.

The Basket Level in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Basket_t = Basket_{t-1} + Performance_t + CashPerformance_t + FundingCost_t - AHC_t$$

Where:

$Performance_t$ is defined in section 7.7.2

$CashPerformance_t$ is defined in section 7.7.3

$FundingCost_t$ is defined in section 7.7.4

AHC_t is defined in section 7.7.5

7.7.2 Calculation of the Basket Performance

The basket performance (the “**Basket Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Performance_t = \sum_{i=1}^N Units_{i,t-1} \times (CL_{i,t} - CL_{i,t-1}) \times FX_{i,t}$$

Where:

N is the number of Index Components within the Basket as defined in the Annex

$Units_{i,t-1}$ is the Number of Units of Basket Component i in respect of Index Business Day t-1 as defined in Section 7.6.5

$CL_{i,t}$ means the Index Component Value of Basket Component i in respect of Index Business Day t

$FX_{i,t}$ means the FX Rate for Basket Component i in respect of Index Business Day t

7.7.3 Calculation of the Cash Performance

The cash performance (the “**Cash Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$CashPerformance_t = CashBalance_{t-1} \times Rate_{t-1} \times DCF_{t-1,t}$$

Where:

$$CashBalance_t = Basket_t - \sum_{i=1}^N Units_t^{i|Funded \cap IndexCCY} \times CL_t^{i|Funded \cap IndexCCY}$$

$i|Funded \cap IndexCCY$ means the Basket Component i , where such Basket Component is specified as Funded in the Annex and is denominated in the same currency as the Index Currency

$DCF_{t-1,t}$ means the number of calendar days from (and including) Index Business Day $t-1$ to and (excluding) Index Business Day t divided by 360.

7.7.4 Calculation of the Funding Cost

The funding cost (the “**Funding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$FundingCost_t = \sum_{CCY} FundingBalance_{t-1}^{CCY} \times (Rate_{t-1}^{CCY} + Spread^{CCY}) \times DCF_{t-1,t} \times FX_{CCY,t}$$

Where:

$$FundingBalance_t^{CCY} = - \sum_{i=1}^N Units_t^{i|Funded \cap CCY} \times CL_t^{i|Funded \cap CCY}$$

$i|Funded \cap CCY$ means the Basket Component i , where such Basket Component is specified as Funded in the Annex and is denominated in currency CCY provided that such currency is other than the Index Currency

$Rate_{t-1}^{CCY}$ means the Funding Rate for currency CCY as defined in the Annex

$Spread^{CCY}$ means the Funding Spread for currency CCY as defined in the Annex

7.7.5 Calculation of the Aggregate Holding Cost

The aggregate holding cost (the “**Aggregate Holding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$AHC_t = \sum_{i=1}^N N_{i,t-1} \times CL_{i,t} \times FX_{i,t} \times HC_i \times DCF_{t-1,t}$$

Where:

HC_i is the Holding Cost for Basket Component i as specified in the Annex.

7.7.6 Calculation of the Number of Units of Basket Components

On the Initialisation Date, the Number of Units invested in the Basket Component i per unit of the Basket is calculated by the Index Calculation Agent in accordance with the following formula:

$$N_{i,t=0} = 0$$

In respect of any Index Business Day thereafter:

- If t is a Scheduled Basket Rebalancing Day:

$$N_{i,t} = \frac{W_i \times Basket_{Max(0,t-BasketUnitLag)}}{CL_{i,Max(0,t-BasketUnitLag)} \times FX_{i,Max(0,t-BasketUnitLag)}}$$

- Otherwise

$$N_{i,t} = N_{i,t-1}$$

Where:

W_i means the Weight for Basket Component i as defined in the Annex

7.8 *Miscellaneous*

Each Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

7.9 *Index Live Date and Retrospective Calculations*

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the “Back-test Period”) has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

7. *Publication*

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the “Index Publication Time”) on the second Index Business Day immediately following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

8. *Definitions*

“**Adjustment Event**” means (i) an Index Component Disruption Event, (ii) a Disruption Event, (iii) a Force Majeure Event, (iv) an Index Component Adjustment Event.

“**Affiliate**” means in relation to any entity (the “First Entity”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes, “control” means ownership of a majority of the voting power of an entity.

“**Accrued Fee**” has the meaning given to it in Section 7.1

“**Back-test Period**” has the meaning given to in Section 7. (*Index Live Date and Retrospective Calculations*).

“**Basket Mechanism**” has the meaning given to it in Section 7.1.4.

“**Basket Unit Lag**” has the meaning given to it in the Annex

“**Benchmarks Regulation**” has the meaning given to it in Section 1 (*Introduction*).

“**Bloomberg**” means Bloomberg L.P. or any of its Affiliates, or any successor market price information provider(s).

“**Bloomberg Page**” has the meaning given to it in the Annex or any Successor Source thereto

“**Change**” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“**Change in Law**” means there has been a change in applicable law or regulation or the promulgation of or any change in the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation that prevents or will prevent the Index Sponsor and/or the Index Calculation Agent from calculating and/or publishing the Index.

“**Description**” has the meaning given to it on the second page of this Description.

“**Disappearance or Unavailability Event**” means there is (i) a permanent discontinuation of trading in an Index Component or (ii) a disappearance or permanent discontinuance or unavailability of an Index Component Value, notwithstanding the status of trading in the relevant Index Component (if applicable), or any other source data required to calculate the Index.

“**Disrupted Day**” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing in respect of such Fund.

“**Disruption Event**” means each of (i) a Change in Law, (ii) a Disappearance or Unavailability Event, (iii) a Hedging Disruption, (iv) a Price Source Disruption Event or (v) a Termination of Data Licence.

“**Financial Product**” has the meaning given to it in Section 2 (*Risk Factors and Investment Considerations*).

“**Financial Product Investor**” has the meaning given to in in Section 2 (*Risk Factors and Investment Considerations*).

“**Force Majeure Event**” means an event or circumstance has occurred beyond the reasonable control of the Index Sponsor (including, without limitation, a systems or IT failure (including, without limitation, a systems breakdown, incomplete or ineffective upgrade, malfunction, malware, virus or other similar circumstances affecting the Index Sponsor’s information technology and related processing systems), fire, flood, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) which directly or indirectly prevents or otherwise affects the determinations of the Index Sponsor and/or the Index Calculation Agent in relation to the Index.

"Frequency of Fund Interest Valuation" means, in respect of a Fund Interest, the frequency of occurrence of a Fund Business Day of such Fund Interest as determined by reference to the Fund Documents in effect on the Index Live Date.

"Fund" means, in respect of a Fund Interest, the issuer of, or other legal arrangement (including, if applicable, any class or series) giving rise to such Fund Interest as specified in Annex 1 hereto.

"Fund Administrator" means, in respect of a Fund, any fund administrator, manager, trustee or similar person responsible for the administration of such Fund and the determination and reporting of any official price or value of such Fund according to the Fund Documents or any successor acceptable to the Index Sponsor.

"Fund Advisor" means any person appointed in the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor to a discretionary investment manager or to another non-discretionary investment advisor) for such Fund and/or a Fund Administrator and/or any other person(s) designated in the Fund Documents as responsible for the oversight of the Fund, or any successor to any such person acceptable to the Index Sponsor.

"Fund Business Day" means, in respect of a Fund, each of a Scheduled Fund Valuation Date and any day on which the Fund or the primary Fund Administrator acting on behalf of the Fund is scheduled to effect subscription and redemption requests.

"Fund Documents" means, in respect of a Fund and the related Fund Interest, the constitutive and governing documents, subscription agreements and other agreements of the related Fund specifying the terms and conditions of such Fund Interest (including, without limitation, the prospectus, information memorandum or other offering document issued by such Fund in connection with such Fund Interest), in each case and unless where otherwise specified, as amended and/or supplemented from time to time.

"Fund Event" means, the occurrence or announcement by the Fund or a Fund Service Provider at any time of any of the following events:

- (i) *Nationalisation*: all the Fund Interests or all or substantially all the assets of the Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (ii) *Fund Insolvency Event*: in respect of a Fund Interest and the related Fund (a) the Fund and/or any Fund Service Provider (A) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (B) makes a general assignment or arrangement with or for the benefit of its creditors; (C)(1) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in (1) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within 15 days of the institution or presentation thereof; (D) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (E) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 15 days thereafter; or (F) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in (A) through (E) above; or (without prejudice to the foregoing) (b) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous

proceeding affecting a Fund, (A) all the Fund Interests are required to be transferred to a trustee, liquidator or other similar official or (B) holders of Fund Interests become legally prohibited from transferring them;

- (iii) *NAV Trigger/Restriction Event*: in respect of a Fund Interest (A) the Reported Net Asset Value as of the last Fund Valuation Date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the Reported Net Asset Value as of the Fund Valuation Date of the same month in the immediately preceding calendar year (or, if the first year of operation of the relevant Fund Interest, as of its highest Reported Net Asset Value on the last Fund Valuation Date of any month during such first year); or (B) the related Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (iv) *Fund Advisor Event*: (a) that at any time after the Index Live Date, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) is equal to or less than 100,000,000 U.S. Dollars (or its equivalent) or (b) that over any period of twelve months, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) has decreased by fifty per cent. (whether due to redemptions or decrease in the value of such assets or otherwise);
- (v) *Changes to Fund or Fund Service Providers*: (a) any change in the organisation of the Fund or of any Fund Service Provider without the prior written consent of the Index Sponsor including, without limitation, a change of control of, or a change of the main shareholders, managing directors or individual(s) designated as fund manager(s) in the Fund Documents as at the Index Live Date (if any) of a Fund Service Provider, (b) any Fund Service Provider ceasing to act in the relevant capacity in relation to the Fund unless immediately replaced in such capacity by a successor acceptable to the Index Sponsor or (c) any delegation or transfer by the Fund Advisor of any of its powers, duties or obligations under the Fund Documents to a third party without the prior written consent of the Index Sponsor;
- (vi) *Fund Modification*: any change, modification or termination of the related Fund Documents or of any rights attaching to the related Fund Interests (including without limitation any change or modification affecting management policy, the Fund Interest Currency, the Frequency of Fund Interest Valuation, the terms relating to subscription, transfer and/or redemption of such Fund Interest including any change to the form or schedule of payment or notice period) from those prevailing on the Index Live Date and which could reasonably be expected to affect the value of such Fund Interests;
- (vii) *Strategy Breach*: any material breach of or non-compliance with any investment objective, investment restrictions or other strategy or investment guidelines or requirements, subscription and redemption provisions (including, without limitation, the days treated as Fund Business Days) or valuation provisions (including, without limitation, the method of determining the net asset value of the relevant Fund Interest), in each case as set out in the Fund Documents as in effect on the Index Live Date;
- (viii) *Breach by Fund Service Provider*: the breach by any relevant Fund Service Provider of any obligation (including, without limitation, non-compliance with any investment guidelines relating to the Fund Interest), representation or warranties concerning the relevant Fund (including, without limitation, pursuant to any agreement with the Fund), which breach, if capable of remedy, has not been remedied within ten (10) calendar days of its occurrence;
- (ix) *Regulatory Event*: (1) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Advisor that is reasonably likely to have an adverse impact on the value of the related Fund Interest or on any investor therein (as determined by the Index Sponsor) or (2) the related Fund Interest or any of its Fund Service Providers becoming subject to any investigation, proceeding, arbitration, litigation or official action by any relevant governmental, legal or regulatory authority involving the alleged violation of, or non-compliance with, applicable law or regulation in relation to any activities relating to or resulting from the operation of the Fund

or another fund where, in the opinion of the Index Sponsor, such circumstances may have an adverse effect on the Fund or (B) (i) the withdrawal, cancellation, suspension or revocation of any registration, licence or approval of the Fund Interests or the Fund by any governmental, legal or regulatory entity with authority over such Fund Interest or Fund; (ii) the withdrawal, suspension, cancellation or modification of any licence, consent, permit, authorisation or clearance required for the Fund or any one or more of its significant Fund Service Providers to carry out their activities as they are or should be carried out in compliance with applicable law or regulation; and/or (iii) the failure of the Fund and/or the Fund Interests to comply with any applicable requirements from time to time applied by any relevant listing authority, stock exchange, quotation system and/or regulator that allow it to be used to determine amounts due under the Financial Products (or, in the case of (B)(i), (ii) or (iii), any official announcement indicating that any such circumstances may occur);

- (x) *Reporting Disruption:* (A) the occurrence of any event affecting the Fund Interest that, in the determination of the Index Sponsor, would make it impossible or impracticable for the Index Sponsor to determine the value of such Fund Interest and the Index Sponsor does not expect such event to cease in the foreseeable future; (B) any failure of the Fund to deliver, or cause to be delivered, or recipients in general to receive (1) information that such Fund has agreed to deliver, or cause to be delivered to any member of the Morgan Stanley Group or (2) information that has been previously delivered to any member of the Morgan Stanley Group, in accordance with such Fund's, or its authorised representative's, normal practice and that the Index Sponsor deems necessary for it to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund; (C) the Fund ceases, for any reason whatsoever (either directly or through any Fund Service Provider acting on its behalf for this purpose) to provide, publish or make available its net asset value on any Fund Reporting Date; or (D) a Fund Service Provider informs any member of the Morgan Stanley Group that any Reported Net Asset Value of the Fund Interest should not be relied on (whether by reason of it being only a provisional or estimated net asset value or for any other reason) and/or, in the opinion of the Index Sponsor, any Reported Net Asset Value is inaccurate (which, for the avoidance of doubt, includes without limitation circumstances where any net asset value reported by a Fund Service Provider to the Index Sponsor, any member of the Morgan Stanley Group and/or investors in Fund Interests generally differs from any net asset value published on any one or more publishing service);
- (xi) *Compulsory Redemption or Assignment:* (i) the repurchase or redemption by the Fund of all or some of the Fund Interests otherwise than at the request of a holder of such Fund Interests; or (ii) any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) which would mandatorily oblige a holder of Fund Interests to redeem, sell, assign or otherwise dispose of any Fund Interests and which the Index Sponsor determines could affect a Hypothetical Investor;
- (xii) *Closure to Subscriptions; Dealing Restrictions:* (A) the closure of the related Fund to new subscriptions of Fund Interests, or (B) the imposition of any dealing restrictions (including, without limitation, material amendments to relevant documentation, delay (partial or otherwise), suspension or termination (partial or otherwise) of subscription, redemption or settlement) relating to the Fund or transactions in the Fund Interests by any Fund Service Provider, any Affiliate or agent of any Fund Service Provider;
- (xiii) *Disposals: Material Change: Merger:* (A) a disposal to any person(s) of all, or a material part, of the assets of (x) the Fund, or (y) any significant Fund Service Provider; or (B) a material change in the business of the Fund or any significant Fund Service Provider, or (C) the merger, amalgamation or consolidation of the related Fund and/or such Fund Interest with (x) any other sub-fund or compartment of the Fund or (y) any other collective investment undertaking (or sub-fund or compartment of such other collective investment undertaking, including another fund), which, in either case, may, in the determination of the Determination Agent, have an adverse effect on the Fund;
- (xiv) *Fraud:* the Fund is the object of a material fraud which may, in the determination of the Index Sponsor, have an adverse effect on the Fund or the value of Fund Interests; or any act or omission of a Fund Service Provider constitutes fraud (including, but not limited to, theft, misappropriation,

mispricing of holdings or concealment of trades), bad faith, wilful misconduct or negligence, as determined by the Index Sponsor in its reasonable discretion;

- (xv) *Fund Force Majeure Event*: any Fund Service Provider fails to perform any of its obligations pursuant to the Fund Documents to the extent that such performance is prevented, hindered or delayed by a Fund Force Majeure Event, where "**Fund Force Majeure Event**" means any event due to any cause beyond the reasonable control of the applicable Fund Service Provider, such as unavailability of communications system, failure of or interruptions in power supply or network computer systems, sabotage, fire, flood, explosion, acts of God, civil commotion, riots, insurrection or war;
- (xvi) *Delisting*: where there is or was intended to be an Underlying Fund Exchange in respect of the Fund Interests that (A) such Underlying Fund Exchange announces that pursuant to the rules of such Underlying Fund Exchange, such Fund Interests cease (or will cease) being listed or publicly quoted on the Underlying Fund Exchange for any reason and are not immediately re-listed or re-quoted on an exchange or quotation system located in the same country as the Underlying Fund Exchange (or, where the Underlying Fund Exchange is within the European Union, in any Member State of the European Union), or (B) Fund Interests are never so listed or quoted as intended and disclosed in the relevant Fund Documents as at the Index Live Date;
- (xvii) *Fund Accounting Event*: any (i) change in the currency in which the Fund Interest's accounts are denominated; or (ii) material adverse change in the accounting treatment of the relevant Fund which does or could affect a Hypothetical Investor and/or any actual or potential requirement to consolidate its accounts with any such entity; and/or
- (xviii) *Fees or Charges Event*: (i) any charge of a transaction fee for subscription or redemption of Fund Interests; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Interests (whether by the Fund or a Fund Advisor in respect of holders of Fund Interests generally).

"**Fund Interest**" means, in respect of a Fund, a share, unit or other interest in respect of such Fund

"**Fund Interest Currency**" means, in respect of a Fund Interest, the currency in which such Fund Interest is denominated on the Index Live Date as set out in the Fund Documents and as indicated in CCY in the Annex.

"**Fund Potential Adjustment Event**" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (a) an additional amount of Fund Interests, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect

(provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Fund Reporting Date" means, in respect of a Fund Interest and a Fund Valuation Date, the date on which the Reported Net Asset Value of such Fund Interest as determined as of such Fund Valuation Date is reported (as provided in the definition of Reported Net Asset Value).

"Fund Service Provider" means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, to that Fund, whether or not specified in the Fund Documents or any successor acceptable to the Index Sponsor, including without limitation any Fund Adviser, Fund Administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent or domiciliary agent.

"Fund Valuation Date" means, in respect of a Fund Interest, the date as of which such Fund Interest (or its Fund Service Provider that generally determines such value) determines the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Funding Rate" has the meaning given to it in the Annex

"Funding Rate Screen Page" has the meaning given to it in the Annex

"FX Rate" has the meaning given to it in Annex

"FX Rate Screen Page" has the meaning given to it in the Annex

"Hypothetical Investor" means, in respect of a Fund Interest, a hypothetical investor in such Fund Interest deemed to have (a) the benefits and obligations, as provided under the Fund Documents, of an investor holding, as of the Index Live Date, an interest in the relevant Fund in an amount equal to the relevant number of relevant amount of Fund Interests; (b) in the case of any deemed redemption of Fund Interests, to have submitted to the relevant Fund on the relevant Redemption Notice Date, a duly completed notice requesting redemption of the relevant number of such Fund Interests; and (c) in the case of any deemed investment in Fund Interests, to have submitted, on the Index Live Date, a duly completed notice to the relevant Fund, requesting subscription to the relevant number of Fund Interests;

"Hedging Disruption" occurs if the Index Sponsor determines that a hypothetical market participant would as a result of extraordinary market circumstances relating to an Index Component, be unable, after using commercially reasonable efforts, to:

- a) Acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments it deems necessary to hedge its position in relation to any securities issue or other relevant transactions relating to or calculated by reference to the Index; or
- b) Realize, recover or remit the proceeds of any such transactions or instruments.

"Index" has the meaning given to it in Section 1 (*Introduction*).

"Index Base Date" has the meaning given to in in the Annex

"Index Business Day" has the meaning given to it in the Annex

"Index Calculation Agent" has the meaning given to it in Section 5 (*Index Calculation Agent*).

"Index Committee" has the meaning given to it in Section 12 (*Governance*).

"Index Component" means each component specified in Annex 1 hereto.

"Index Component Adjustment Event" means a Fund Potential Adjustment Event.

"Index Component Disrupted Day" means any day which is an Underlying Fund Disrupted Day.

"Index Component Disruption Event" means the occurrence of an event that results in the occurrence of an Index Component Disrupted Day.

“Index Component Price Source” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Scheduled Trading Day” means, in respect of each Index Component where the Index Component Type in respect of such Index Component is:

- (i) Fund, a Fund Valuation Date in respect of such Fund.

“Index Component Screen Page” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Type” means, in respect of each Index Component, as specified in the Annex hereto.

“Index Component Underlying Price Source” means, in respect of an Index Component, any information service, exchange or data source used to calculate the price or level of any share, security, commodity, rate, index or other component included in such Index Component, as determined by the Index Calculation Agent.

“Index Component Value” means, in respect of an Index Component which is a Fund, the Underlying Fund Price in respect of such Fund.

“Index Currency” has the meaning given to it in the Annex.

“Index Funding Rate” has the meaning given to it in the Annex

“Index Funding Rate Screen Page” has the meaning given to it in the Annex

“Index Level” means, in respect of each Index Business Day, an amount, expressed in the Index Currency, being the level of the Index in respect of such Index Business Day, as determined in accordance with Section 7 (*Index Level*). If Return Type is set to Total Return, the Index Level is then equal to Total Return Index Level as determined in accordance with Section 7.1. If Return Type is set to Excess Return, the Index Level is then equal to Excess Return Index Level as determined in accordance with Section 7.2.

“Index Live Date” has the meaning given to it in the Annex

“Index Publication Time” has the meaning given to it in Section 8 (*Publication*).

“Index Sponsor” has the meaning given to it in Section 4 (*Index Sponsor*).

“Initial Index Level” has the meaning given to it in the Annex

“IOSCO” has the meaning given to it in Section 12 (*Governance*).

“Market Disruption Event” means, in respect of:

- (i) a Fund, an Underlying Fund Disruption Event in respect of such Fund.

“Material Change” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“MiFID II” means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as may be amended or replaced from time to time).

“Morgan Stanley Group” has the meaning given to it on the front page of this Description.

“MSIP” has the meaning given to it in Section 3 (*Overview*).

“MS Benchmark Statement” has the meaning given to it in Section 1 (*Introduction*).

“NB Shares Basket” has the meaning given to it in Section 7

"Price Source Disruption" means any Index Component Price Source, Index Component Underlying Price Source, Index Funding Rate Screen Page, Funding Rate Screen Page or other source data required to calculate the Index is insufficient, inaccurate or unreliable or not available whether due to temporary or permanent discontinuance or failure of the price source for such data or otherwise, as determined by the Index Calculation Agent.

"Potential Adjustment Event" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (A) an additional amount of Fund Interests, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Principles" has the meaning given to it in Section 12 (*Governance*).

"Redemption Notice Date" means, in respect of a Fund Interest, the last date on which a Hypothetical Investor in such Fund Interest would be permitted, pursuant to the Fund Documents of the related Fund, to submit a redemption notice that would be timely for a redemption as a Scheduled Redemption Valuation Date

"Redemption Proceeds" means, in respect of the relevant amount of Fund Interests, the redemption proceeds that in the determination of the Index Sponsor would be paid by the relevant Fund to a Hypothetical Investor who, as of the relevant Redemption Valuation Date, redeems such amount of Fund Interests and (for the avoidance of doubt after deduction of any tax, levy, charge, assessment or fee of any nature that, in the determination of the Index Sponsor, would (or would be very likely to) be withheld or deducted from such amount); provided that (i) any such proceeds that would be paid in property other than cash shall be deemed to have a value of zero and (ii) if the Hypothetical Investor would be entitled to elect payment of such redemption proceeds to be made either in the form of cash or other property, then the Hypothetical Investor shall be deemed to have elected cash payment.

"Redemption Valuation Date" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date as of which the relevant Fund (or its Fund Service Provider that generally determines such value) determines the net asset value of Fund Interests for purposes of calculating the redemption proceeds to be paid to a Hypothetical Investor that has submitted a valid notice for redemption on or before the related Redemption Notice Date.

"Relevant Fund" has the meaning given to such term in Section 10.3 (*Consequences of Fund Events*).

"Removal Value" means, in respect of a Relevant Fund and the Fund Interest in respect of such Relevant Fund, the value calculated by the Index Sponsor in the same manner as would be used in determining the

Underlying Fund Price of Fund Interests in the related Fund. Where the Removal Value is required to be converted into the Index Currency it shall be so converted by the Index Sponsor at such time and by reference to such sources as it deems appropriate.

"Reported Net Asset Value" means, in respect of any Fund Interest and a Fund Reporting Date relating to such Fund Interest, the official net asset value per Fund Interest as of the related Fund Valuation Date or, if the related Fund reports only its aggregate net asset value, the portion of such Fund's aggregate net asset value relating to a Fund Interest as of the related Fund Valuation Date, in each case as reported on the Fund Reporting Date relating to such Fund Valuation Date by the Fund Service Provider that generally reports such value on behalf of the Fund to its investors or a publishing service.

"Return Type" has the meaning given to it in the Annex

"Scheduled Fund Valuation Date" means, in respect of a Fund Interest, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Scheduled Redemption Payment Date" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date by which the related Fund is scheduled to have paid, according to its Fund Documents, all or a specified portion of the Redemption Proceeds to an investor that has submitted a timely and valid notice requesting redemption of such Fund Interest as of such Scheduled Redemption Valuation Date.

"Scheduled Redemption Valuation Date" means, in respect of a Fund Interest and any relevant day, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the net asset value of such Fund Interest for the purposes of calculating the redemption proceeds to be paid to an investor that has submitted a valid and timely notice for redemption of Fund Interests based on the value determined as of the Scheduled Redemption Valuation Date for which the Scheduled Redemption Payment Date falls on or immediately prior to such day.

"SEK" means Swedish Krona.

"Successor Source" means, in relation to any display page, other published source, information vendor or provider:

- (i) the successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original page or source; or
- (ii) if the sponsor of the original page or source has not officially designated a successor display page, other published source, service or provider (as the case may be), the successor display page, other published source, service or provider, if any, designated by the relevant information vendor or provider (if different from such sponsor).

"TARGET2 Settlement Day" means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (TARGET2) is open.

"Termination of Data Licence" means the occurrence of a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data is supplied to compile or calculate the Index.

"Theoretical Exposure" has the meaning given to it in Section 7.1.3.

"Underlying Fund Disrupted Day" means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing.

"Underlying Fund Disruption Event" means, in respect of a Fund, any of the following events:

- (i) in respect of any Fund Interest, the failure of (i) an Index Business Day to be a Fund Valuation Date or any continued postponement or suspension of such Fund Valuation Date; and/or (ii) there to be a Fund Reporting Date and/or Reported Net Asset Value relating to the relevant Fund Valuation Date;
- (ii) in respect of any Fund Interest (a) there is a failure by the Fund to pay the full amount (whether expressed as a percentage or otherwise) of the Redemption Proceeds in the Fund Interest Currency with respect to the relevant amount of such Fund Interest scheduled to have been paid on or by such day according to the Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of such Fund Interests) or (b) a Hypothetical Investor which had submitted a valid redemption notice in respect of such Fund Interest on the last date permitted pursuant to the relevant Fund Documents would, in the reasonable opinion of the Index Sponsor, not have received in full the Redemption Proceeds in respect of such redemption(s) on or before the date it was scheduled to do so in accordance with the Fund Documents; and/or
- (iii) any closure other than for ordinary public holidays and/or any restriction or suspension in trading of foreign exchange markets or money markets in a relevant Fund Interest Currency or Index Currency that, in the opinion of the Index Sponsor, would have a material effect on the ability market participants to effect transactions in such markets,

provided that if any event would otherwise be both an Underlying Fund Disruption Event and Fund Event, such event shall be treated solely as a Fund Event.

“Underlying Fund Exchange” means, in respect of a Fund Interest, the principal exchange or quotation system for such Fund Interest, as determined by the Index Sponsor, and any successor to such exchange or quotation system or any substitute exchange or quotation system to which such Fund Interest have temporarily relocated.

“Underlying Fund Price” means, in respect of a Fund Interest and the Underlying Fund Valuation Time on any relevant day, the Reported Net Asset Value of such Fund Interest for the related Fund Valuation Date falling on such day.

“Underlying Fund Valuation Time” means, in respect of a Fund Interest, the time on or in respect of any relevant day at which the applicable Underlying Fund Price is scheduled to be determined in accordance with the relevant Fund Documents.

9. Adjustment Provisions

10.1 Adjustment Events

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may acting in good faith and a commercially reasonable manner:

- (i) substitute any Index Component or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate;
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the “**Relevant Day**”) shall be equal to the Index Component Value in respect of such Relevant Day;
- (iv) reallocate the portion of the Index exposed to any Index Component which is affected by such Adjustment Event to the cash until the next Index Business Day on which it determines that no Adjustment Event exists (and make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such reallocation;
- (v) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
- (vi) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
- (vii) cancel the Index and permanently cease to calculate the Index Level.

10.2 Determinations made by the Index Sponsor in respect of Fund Potential Adjustment Events and Fund Events may have an adverse effect on the value of a Financial Product

Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (Adjustment Events) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (Adjustment Events) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or re-classification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.

10.3 Adjustment procedures, notification and consultation process

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index. While the Index Sponsor currently employs this methodology, no assurance can be given that fiscal, market,

regulatory, juridical, financial or, without limitation, any other circumstances will not arise that would, in the view of the Index Sponsor, necessitate or make desirable a modification or change to this Description.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a “**Change**”) which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a “**Material Change**”) the Index Sponsor will give prior notice to Financial Product Investors that a Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days’ notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

10.4 Consequences of Fund Events

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a “**Relevant Fund**”), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such

sources as it considers appropriate including, but not limited to, the value that a third party on arms' length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

10. Errors and Corrections

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

11. Governance

Morgan Stanley has adopted the "Principles for Financial Benchmarks" published by the International Organization of Securities Commissions ("IOSCO") on 17 July 2013 (the "**Principles**") on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the "**Index Committee**").

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

12. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;
- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator,

supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;

- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

13. *Important Information*

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at [complaints ms@morganstanley.com](mailto:ms@morganstanley.com).

OVERVIEW OF THE MS 14% RISK CONTROL ER INDEX LINKED TO DIVERSIFIED BASKET OF EQUITY FUNDS

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Rules. The Index is governed by the Index Rules and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to an equally weighted basket of 8 equity mutual funds, as described below (the “**Basket**”), whilst maintaining a volatility at or around 14% (the “**Target Volatility**”). To pursue this objective, the Index implements a daily “*Risk Control Mechanism*” which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Basket. When volatility increases, the Index reduces exposure to Basket and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Basket, up to a maximum exposure of 150%, and reduces its exposure to cash.

When the Index’s exposure to the Basket is higher than 100%, the Index uses a “leveraged” exposure to the underlying funds. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying funds. The maximum leverage the Index can employ is capped 150%.

The Basket is invested in each of the 8 underlying Funds with equal weighting (12.5% in each Fund). As the daily performance of each Fund fluctuates, the effective weight of each Fund within the Basket will vary from the weight it was originally assigned. As a result, the Basket operates at the end of each calendar month a re-weighting of the Funds to their original weights.

Does the Index represent a physical investment in the Basket?

The Index can be described as a “notional” investment in the Basket or as a “synthetic portfolio” as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does “Excess Return” mean?

The Index is construed as an “**Excess Return**” asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Basket. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is to be opposed to a Total Return investment which assumes that such investment is fully funded.

What does “Decrement” mean?

The Index is calculated by deducting a 1.50% per annum* percentage rate (the “**Decrement**”) applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 1.50% lower than what it would otherwise be without such deduction.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 14% by allocating exposure to the Basket based on the realised volatility of the Basket itself. The target weight assigned by the Index to the Basket on any business day is the ratio of 14% to the realised volatility of the Basket. The realised volatility of the Basket is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Funds experience higher volatility, it means greater changes in their price. In such environment, exposure to the Funds can produce unpredictable results. Volatility can anticipate both a decline or a

rebound in the Funds. A “volatility target” mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Funds. In practical terms, when exposure to the Funds is reduced, the level of the Index is less sensitive to the volatility of such Funds and therefore will suffer less from a decline in the performance of the Funds. A “volatility target” mechanism can however also hinder the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Basket is 0% even when the Basket volatility has reached a level higher than the Target Volatility. As a result, exposure to the Basket cannot be negative.

What are the Funds underlying the Index?

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Basket which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Funds. In general terms, if the Funds increase in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to such Funds as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Funds that make up the Basket. This cost is represented by the Stockholm Interbank 3-month rate. The higher the borrowing rates, the lower the performance of the Index. In an environment where borrow rates are significant, the Index may exhibit material underperformance when compared to a direct investment in the underlying Funds.
- The Index is calculated by deducting a 1.50% per annum decrement percentage rate, which is deducted daily pro rata. This means that the Index annual performance would be on average 1.50% lower than what it would otherwise be without such decrement.

Simulated Historical Track Record of the Index

The below chart represents the simulated historical performance of the Index in comparison with the simulated historical performance of the Basket.

This is not actual historical performance and it should not be taken as an indication of future performance of the Index or the Basket.

Simulation Start Date: 12th May 2016

Simulation End Date: 3rd April 2023

<i>Year</i>	<i>Simulated Basket Performance*</i>	<i>Simulated Index Performance*</i>
2017	21.6%	32.1%
2018	-4.2%	-8.6%
2019	37.7%	39.5%
2020	30.6%	24.8%
2021	18.5%	15.6%
2022	-30.0%	-22.9%

**DESCRIPTION OF THE MS 16% RISK CONTROL ER INDEX LINKED TO EMERGING
MARKETS EQUITY FUND**

Bloomberg Page: MSFDEM16

The MS 16% Risk Control ER Index linked to Emerging Markets Equity Fund is the exclusive property of Morgan Stanley & Co. International plc and its Affiliates (the “**Morgan Stanley Group**”). Morgan Stanley and the MS 16% Risk Control ER Index linked to Emerging Markets Equity Fund are trade marks of the Morgan Stanley Group and no person or entity should refer to any of the trade marks without the consent of a member of the Morgan Stanley Group and should not use any of the information in this Description for any purpose other than in relation to an investment or otherwise in connection with any Financial Product (as defined below) for which such consent has been obtained. The non-exclusive right to use the MS 16% Risk Control ER Index linked to Emerging Markets Equity Fund as an underlying reference basis or otherwise for any Financial Product is granted only upon completion of a license agreement with a member of the Morgan Stanley Group. The Index Sponsor, the Index Calculation Agent and each member of the Morgan Stanley Group disclaim any responsibility for any unauthorised use of the MS 16% Risk Control ER Index linked to Emerging Markets Equity Fund by any third party.

No representation is made by any member of the Morgan Stanley Group with respect to the eligibility of the MS 16% Risk Control ER Index linked to Emerging Markets Equity Fund for investment for investment (including, but not limited to, compliance with the UCITS Directive (2009/65/EC), as amended and supplemented from time to time (the “**UCITS Directive**”), or its use in connection with any Financial Product to be entered into or held, by any prospective investor. Prospective investors should make their own independent analysis of whether the MS 16% Risk Control ER Index linked to Emerging Markets Equity Fund meets the eligibility criteria for their investment (including, but not limited to, compliance with the UCITS Directive) or use by them in relation to the relevant Financial Product and of whether the MS 16% Risk Control ER Index linked to Emerging Markets Equity Fund responds to their criteria, needs and objectives for investment or otherwise. The term “investor” will include any counterparty, holder or contract party in relation to a Financial Product.

Nothing contained in this Description should be construed as an offer or solicitation to purchase or sell securities or to enter into any transaction or engage in investment activity of any kind. If you do invest in a Financial Product or engage in any other investment activity, you should ensure that you fully understand the nature of such investment and the risks involved and are satisfied that the investment is suitable and appropriate for your circumstances. If you are in any doubt about this you should take advice from an appropriately qualified advisor.

This Description does not constitute investment, taxation, legal, accounting or other advice, including within the meaning of Article 53 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 or investment advice within the meaning of Article 4(4) of MiFID II.

1. Introduction

This Description sets out the methodology of the MS 16% Risk Control ER Index linked to Emerging Markets Equity Fund (the “**Index**”) and the basis on which the Index is calculated.

This Description is intended to provide the information relating to the Index required by the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 ((EU) 2016/1011)) (as amended) (the “**Benchmarks Regulation**”) as it forms part of “retained EU law” in the United Kingdom as defined in the European Union (Withdrawal) Act 2018 (as amended from time to time) (the “**UK Benchmarks Regulation**” and, together with the EU Benchmarks Regulation, the “**Benchmarks Regulation**”). This Index is a non-significant and regulated data benchmark for the purposes of the UK Benchmarks Regulation.

As at the date of publication of this Description, Morgan Stanley & Co. International plc appears on the register of benchmark administrators established and maintained by the Financial Conduct Authority pursuant to Article 36 of the Benchmarks Regulation. Morgan Stanley & Co. International plc’s benchmark statement (the “**MS Benchmark Statement**”) can be accessed via the following link:

https://www.morganstanley.com/content/dam/msdotcom/en/assets/pdfs/sales_and_trading_disclosures/M_SIP_Benchmark_Statement-Multi-Asset_Signal-based_Benchmark_Family.pdf

Subject as provided in Section 10 (*Adjustment and Disruption Provisions*), this Description is subject to change or adjustment at any time (including, without limitation, in accordance with the requirements of the UK Benchmarks Regulation) and will be superseded by any subsequent Description. A copy of the current version of the Description can be obtained following the method described in Section 8 (*Publication*).

No one may reproduce, distribute or disseminate this Description, any information contained in this Description or any Index Level (as applicable) without the prior written consent of the Index Sponsor. This Description is not intended for distribution to, or use by any person in, a jurisdiction where such distribution is prohibited by law or regulation.

ESG Disclosures pursuant to Commission Delegated Regulation (EU) 2020/1817 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards the minimum content of the explanation on how environmental, social and governance factors are reflected in the benchmark methodology, as on-shored in the United Kingdom by way of The Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019:

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Morgan Stanley & Co. International plc
Item 2. Type of benchmark or family of benchmarks.	Multi Asset
Item 3. Name of the benchmark or family of benchmarks.	Multi Asset Signal-based
Item 4. Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	No

2. Overview

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Summary

The Index aims to provide exposure to the Index Components and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a “notional” or synthetic exposure to the Index Component and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Component and a rules-based strategy, the performance of which is used as a reference point for calculating Index Levels.

This Section 3 (*Overview*) is subject to, and qualified by, the remainder of this Description.

3. Index Sponsor

The Index has been developed by Morgan Stanley & Co. International plc (“MSIP”). The Index is administered by the index sponsor or any successor thereto (the “Index Sponsor”). The initial Index Sponsor is MSIP.

The Index Sponsor controls the creation and operation of the Index administrative process, including all stages involved in the production and dissemination of the Index. The Index Sponsor also is responsible for the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of this Description. Notwithstanding that the Index relies on information from third party sources, the Index Sponsor has primary responsibility for all aspects of the Index administration and determination process.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

The Index Sponsor is not acting as a manager or an investment advisor in relation to the Index and has no relationship of agency or trust or any fiduciary duty to any person in respect of the Index and is not required to take the interests of any person into account in making any determination or calculation in relation to the Index.

The Index Sponsor makes no warranty or representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

No Financial Product is sponsored, endorsed, sold or promoted by MSIP or the Index Sponsor, and neither MSIP nor the Index Sponsor makes any express or implied representations or warranties as

to (a) the advisability of purchasing or assuming any risk in connection with any Financial Product, (b) the levels at which the Index stands at any particular time on any particular date, (c) the results to be obtained by the issuer or obligor of any Financial Product, or any Financial Product Investor, or any other person or entity from the use of the Index or any data included therein in connection with any licensed rights or for any other use or (d) any other matter. Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP/ or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP may in its sole and absolute discretion delegate and/or transfer any of its obligations and/or functions in relation to the administration and determination of the Index to one or more third parties as it deems appropriate from time to time. MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

4. *Index Calculation Agent*

The Index is calculated by MSIP (or any successor thereto) (the “**Index Calculation Agent**”).

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent’s calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. The term “manifest error” as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without (i) recourse to the underlying data or (ii) any application or re-application of any formulae. No person (whether a Financial Product Investor or otherwise) will be entitled to proceed (and shall be deemed to have agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to the Index.

For so long as the Index Calculation Agent constitutes and calculates the Index, the Index Calculation Agent does not accept any liability for loss or damage of any kind (including, without limitation, any special, punitive, indirect or consequential damages (including loss of profits)) arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index itself and disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any information in connection with it.

5. *Index Data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the Index Component Value, the Index Funding Rate and the Funding Rate in respect of each Index

Component as published on the relevant Index Component Price Source in respect of such Index Component.

No assurance can be given that any such Index Component Values, Index Funding Rate or Funding Rate will be published on the relevant Index Component Price Source, on the Index Funding Rate Screen Page or on the Funding Rate Screen Page accurately, in a timely manner or at all and the Index Sponsor and the Index Calculation Agent have relied on, and will rely on, such Index Component Values and Funding Rate as they are published on the relevant Index Component Price Source or Funding Rate Screen Page. Neither the Index Sponsor nor the Index Calculation Agent has independently verified the information extracted from such sources and accepts no responsibility or liability in respect thereof.

6. Calculation of the Index

6.1 Total Return Index Level

The Total Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Total Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$TRIndex_t = \text{Max} \left(0, TRIndex_{t-1} \times \left[1 + \text{Effective Exposure}_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 \right) + (1 - \text{Effective Exposure}_{t-1}) \times Rate_{t-1} \times \frac{\Delta t}{DayCount} \right] - TC_t \right) \times (1 - AF_t)$$

Where:

max, followed by amounts (or values) inside brackets, means whichever is the greater of the amounts (or values) separate by a semi-colon inside such brackets;

TRIndex Level(t-1) means the Total Return Index Level in respect of the Index Business Day immediately preceding Index Business Day t;

Effective Exposure(t-1) means the Effective Exposure in respect of Index Business Day t-1, calculated as per paragraph 7.3 below;

Basket(t) means the Basket Level in respect of Index Business Day t, calculated as per paragraph 7.7 below;

Basket(t-1) means the Basket Level in respect of the Index Business Day immediately preceding Index Business Day t;

Rate(t-1) means the Index Funding Rate in respect of the Index Business Day immediately preceding Index Business Day t;

Δt means the number of calendar days from (and including) the Index Business Day immediately preceding Index Business Day t to (but excluding) Index Business Day t;

DayCount means 360;

TC(t) means the Transaction Cost in respect of Index Business Day t and is an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$TC_t = |Nb\ Shares\ Basket(t) - Nb\ Shares\ Basket(t-1)| \times Basket(t) \times RC$$

Where RC is the Rebalancing Cost and has the meaning given to it in the Annex

$AF(t)$ means, the Accrued Fee in respect of Index Business Day t , an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$AF(t) = \left[\frac{\Delta t}{DayCount} \times Decrement Rate \right]; \text{ and}$$

Decrement Rate has the meaning given to it in the Annex

6.2 Excess Return Index Level

The Excess Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Excess Return Index Level in respect of each Index Business Day (each an “**Index Business Day** t ”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$ERIndex_t = \text{Max} \left(0, ERIndex_{t-1} \times \left[1 + Effective Exposure_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 - Rate_{t-1} \times \frac{\Delta t}{DayCount} \right) \right] - TC_t \right) \times (1 - AF_t)$$

6.3 Calculation of the Exposure

The theoretical exposure (the “**Theoretical Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$TheoreticalExposure_t = \text{Min}[maxExposure, UnconstrainedExposure_t]$$

Where:

$$UnconstrainedExposure_t = \frac{Vol Target}{Realised Volatility (t)}$$

The exposure (the “**Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

Where Rebalance Rule is set as “ABSOLUTE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } |TheoreticalExposure_t - Exposure_{t-1}| > Threshold \\ Exposure_{t-1}, & \text{Otherwise} \end{cases}$$

- Where Rebalance Rule is set as “RELATIVE INVERSE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } \left| \frac{Exposure_{t-1}}{UnconstrainedExposure_t} - 1 \right| > Threshold \\ Exposure_{t-1}, & \text{Otherwise} \end{cases}$$

Where:

maxExposure has the meaning given to it in the Annex

VolTarget has the meaning given to it in the Annex

Threshold has the meaning given to it in the Annex

Lag means has the meaning given to it in the Annex

Realised Volatility (t-Lag) means the Realised Volatility in respect of Index Business Day (t-Lag)

6.4 Calculation of the Number of Shares Basket

The number of shares of the basket (the “**Number of Shares Basket**”) in respect of any Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

Where Index Business Day t is the Index Base Date or any of the following Lag – 1 Index Business Days:

$$NbShares\ Basket(t) = 0$$

Where Index Business Day t falls on any subsequent day:

- In respect of the Total Return Index:

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times TRIndex_{t-Lag}}{Basket_{t-Lag}}$$

- In respect of the Excess Return Index

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times ERIndex_{t-Lag}}{Basket_{t-Lag}}$$

6.5 Calculation of the Effective Exposure

The effective exposure (the “**Effective Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

- In respect of the Total Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{TRIndex_t}$$

- In respect of the Excess Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{ERIndex_t}$$

6.6 Calculation of the Realised Volatility

The Realised Volatility in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where the Realised Volatility Format is set as ARITHMETIC in the Annex:

$$Realised\ Volatility(t) = Max(ST\ Vol(t), LT\ Vol(t))$$

Where:

$$ST\ Vol(t) = \sqrt{\frac{252}{ST\ Tenor \times STReturn\ Size} \times \sum_{k=t-STTenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-STReturn\ Size)}\right)^2}$$

$$LT\ Vol(t) = \sqrt{\frac{252}{LT\ Tenor \times LTReturn\ Size} \times \sum_{k=t-LTTenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-LTReturn\ Size)}\right)^2}$$

- Where the Realised Volatility Format is set as GEOMETRIC in the Annex:

$$\text{Realised Volatility } (t) = \text{Max} (ST \text{ Vol } (t), LT \text{ Vol } (t))$$

Where:

ST Vol (t) means:

- (iii) Where such Index Business Day is the Index Base Date or any of the immediately following ST Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST \text{ Vol } (t) = \text{Initial Volatility}$$

- (iv) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST \text{ Vol } (t) = \sqrt{\lambda_{ST} \times ST \text{ Vol } (t - 1)^2 + (1 - \lambda_{ST}) \times \ln \left(\frac{Basket_t}{Basket_{t-ST \text{ Return Size}}} \right)^2} \times \frac{252}{ST \text{ Return Size}}$$

LT Vol (t) means:

- (iii) Where such Index Business Day is the Index Base Date or any of the immediately following LT Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT \text{ Vol } (t) = \text{Initial Volatility}$$

- (iv) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT \text{ Vol } (t) = \sqrt{\lambda_{LT} \times LT \text{ Vol } (t - 1)^2 + (1 - \lambda_{LT}) \times \ln \left(\frac{Basket_t}{Basket_{t-LT \text{ Return Size}}} \right)^2} \times \frac{252}{LT \text{ Return Size}}$$

Where:

λ_{ST} has the meaning given to it in the Annex

ST Tenor has the meaning given to it in the Annex

ST Return Size has the meaning given to it in the Annex

λ_{LT} has the meaning given to it in the Annex

LT Tenor has the meaning given to it in the Annex

LT Return Size has the meaning given to it in the Annex

6.7 Calculation of the Basket

7.7.1 Calculation of the Basket Level

The basket level (the “**Basket Level**”) in respect of the Initialisation Date shall be equal to the Initial Basket Level as defined in the Annex.

The Basket Level in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Basket_t = Basket_{t-1} + Performance_t + CashPerformance_t + FundingCost_t - AHC_t$$

Where:

$Performance_t$ is defined in section 7.7.2

$CashPerformance_t$ is defined in section 7.7.3

$FundingCost_t$ is defined in section 7.7.4

AHC_t is defined in section 7.7.5

7.7.2 Calculation of the Basket Performance

The basket performance (the “**Basket Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Performance_t = \sum_{i=1}^N Units_{i,t-1} \times (CL_{i,t} - CL_{i,t-1}) \times FX_{i,t}$$

Where:

N is the number of Index Components within the Basket as defined in the Annex

$Units_{i,t-1}$ is the Number of Units of Basket Component i in respect of Index Business Day t-1 as defined in Section 7.6.5

$CL_{i,t}$ means the Index Component Value of Basket Component i in respect of Index Business Day t

$FX_{i,t}$ means the FX Rate for Basket Component i in respect of Index Business Day t

7.7.3 Calculation of the Cash Performance

The cash performance (the “**Cash Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$CashPerformance_t = CashBalance_{t-1} \times Rate_{t-1} \times DCF_{t-1,t}$$

Where:

$$CashBalance_t = Basket_t - \sum_{i=1}^N Units_t^{i|Funded \cap IndexCCY} \times CL_t^{i|Funded \cap IndexCCY}$$

$i|Funded \cap IndexCCY$ means the Basket Component i, where such Basket Component is specified as

Funded in the Annex and is denominated in the same currency as the Index Currency

$DCF_{t-1,t}$ means the number of calendar days from (and including) Index Business Day t-1 to and (excluding) Index Business Day t divided by 360.

7.7.4 Calculation of the Funding Cost

The funding cost (the “**Funding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$FundingCost_t = \sum_{CCY} FundingBalance_{t-1}^{CCY} \times (Rate_{t-1}^{CCY} + Spread^{CCY}) \times DCF_{t-1,t} \times FX_{CCY,t}$$

Where:

$$FundingBalance_t^{CCY} = - \sum_{i=1}^N Units_t^{i|Funded \cap CCY} \times CL_t^{i|Funded \cap CCY}$$

$i|Funded \cap CCY$ means the Basket Component i , where such Basket Component is specified as Funded in the Annex and is denominated in currency CCY provided that such currency is other than the Index Currency

$Rate_{t-1}^{CCY}$ means the Funding Rate for currency CCY as defined in the Annex

$Spread^{CCY}$ means the Funding Spread for currency CCY as defined in the Annex

7.7.5 Calculation of the Aggregate Holding Cost

The aggregate holding cost (the “**Aggregate Holding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$AHC_t = \sum_{i=1}^N N_{i,t-1} \times CL_{i,t} \times FX_{i,t} \times HC_i \times DCF_{t-1,t}$$

Where:

HC_i is the Holding Cost for Basket Component i as specified in the Annex.

7.7.6 Calculation of the Number of Units of Basket Components

On the Initialisation Date, the Number of Units invested in the Basket Component i per unit of the Basket is calculated by the Index Calculation Agent in accordance with the following formula:

$$N_{i,t=0} = 0$$

In respect of any Index Business Day thereafter:

- If t is a Scheduled Basket Rebalancing Day:

$$N_{i,t} = \frac{W_i \times Basket_{Max(0,t-BasketUnitLag)}}{CL_{i,Max(0,t-BasketUnitLag)} \times FX_{i,Max(0,t-BasketUnitLag)}}$$

- Otherwise

$$N_{i,t} = N_{i,t-1}$$

Where:

W_i means the Weight for Basket Component i as defined in the Annex

6.8 Miscellaneous

Each Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

6.9 *Index Live Date and Retrospective Calculations*

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the “**Back-test Period**”) has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

7. *Publication*

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the “**Index Publication Time**”) on the second Index Business Day immediately following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

8. Definitions

“**Adjustment Event**” means (i) an Index Component Disruption Event, (ii) a Disruption Event, (iii) a Force Majeure Event, (iv) an Index Component Adjustment Event.

“**Affiliate**” means in relation to any entity (the “**First Entity**”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes, “control” means ownership of a majority of the voting power of an entity.

“**Accrued Fee**” has the meaning given to it in Section 7.1

“**Back-test Period**” has the meaning given to in Section 7. (*Index Live Date and Retrospective Calculations*).

“**Basket Mechanism**” has the meaning given to it in Section 7.1.4.

“**Basket Unit Lag**” has the meaning given to it in the Annex

“**Benchmarks Regulation**” has the meaning given to it in Section 1 (*Introduction*).

“**Bloomberg**” means Bloomberg L.P. or any of its Affiliates, or any successor market price information provider(s).

“**Bloomberg Page**” has the meaning given to it in the Annex or any Successor Source thereto

“**Change**” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“**Change in Law**” means there has been a change in applicable law or regulation or the promulgation of or any change in the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation that prevents or will prevent the Index Sponsor and/or the Index Calculation Agent from calculating and/or publishing the Index.

“**Description**” has the meaning given to it on the second page of this Description.

“**Disappearance or Unavailability Event**” means there is (i) a permanent discontinuation of trading in an Index Component or (ii) a disappearance or permanent discontinuance or unavailability of an Index Component Value, notwithstanding the status of trading in the relevant Index Component (if applicable), or any other source data required to calculate the Index.

“**Disrupted Day**” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing in respect of such Fund.

“**Disruption Event**” means each of (i) a Change in Law, (ii) a Disappearance or Unavailability Event, (iii) a Hedging Disruption, (iv) a Price Source Disruption Event or (v) a Termination of Data Licence.

“**Financial Product**” has the meaning given to it in Section 2 (*Risk Factors and Investment Considerations*).

“**Financial Product Investor**” has the meaning given to in in Section 2 (*Risk Factors and Investment Considerations*).

“**Force Majeure Event**” means an event or circumstance has occurred beyond the reasonable control of the Index Sponsor (including, without limitation, a systems or IT failure (including, without limitation, a systems breakdown, incomplete or ineffective upgrade, malfunction, malware, virus or other similar circumstances affecting the Index Sponsor’s information technology and related processing systems), fire, flood, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) which directly or indirectly prevents or otherwise affects the determinations of the Index Sponsor and/or the Index Calculation Agent in relation to the Index.

“Frequency of Fund Interest Valuation” means, in respect of a Fund Interest, the frequency of occurrence of a Fund Business Day of such Fund Interest as determined by reference to the Fund Documents in effect on the Index Live Date.

“Fund” means, in respect of a Fund Interest, the issuer of, or other legal arrangement (including, if applicable, any class or series) giving rise to such Fund Interest as specified in Annex 1 hereto.

“Fund Administrator” means, in respect of a Fund, any fund administrator, manager, trustee or similar person responsible for the administration of such Fund and the determination and reporting of any official price or value of such Fund according to the Fund Documents or any successor acceptable to the Index Sponsor.

“Fund Advisor” means any person appointed in the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor to a discretionary investment manager or to another non-discretionary investment advisor) for such Fund and/or a Fund Administrator and/or any other person(s) designated in the Fund Documents as responsible for the oversight of the Fund, or any successor to any such person acceptable to the Index Sponsor.

“Fund Business Day” means, in respect of a Fund, each of a Scheduled Fund Valuation Date and any day on which the Fund or the primary Fund Administrator acting on behalf of the Fund is scheduled to effect subscription and redemption requests.

“Fund Documents” means, in respect of a Fund and the related Fund Interest, the constitutive and governing documents, subscription agreements and other agreements of the related Fund specifying the terms and conditions of such Fund Interest (including, without limitation, the prospectus, information memorandum or other offering document issued by such Fund in connection with such Fund Interest), in each case and unless where otherwise specified, as amended and/or supplemented from time to time.

“Fund Event” means, the occurrence or announcement by the Fund or a Fund Service Provider at any time of any of the following events:

- (i) *Nationalisation*: all the Fund Interests or all or substantially all the assets of the Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (ii) *Fund Insolvency Event*: in respect of a Fund Interest and the related Fund (a) the Fund and/or any Fund Service Provider (A) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (B) makes a general assignment or arrangement with or for the benefit of its creditors; (C)(1) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in (1) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within 15 days of the institution or presentation thereof; (D) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (E) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 15 days thereafter; or (F) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in (A) through (E) above; or (without prejudice to the foregoing) (b) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous

proceeding affecting a Fund, (A) all the Fund Interests are required to be transferred to a trustee, liquidator or other similar official or (B) holders of Fund Interests become legally prohibited from transferring them;

- (iii) *NAV Trigger/Restriction Event*: in respect of a Fund Interest (A) the Reported Net Asset Value as of the last Fund Valuation Date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the Reported Net Asset Value as of the Fund Valuation Date of the same month in the immediately preceding calendar year (or, if the first year of operation of the relevant Fund Interest, as of its highest Reported Net Asset Value on the last Fund Valuation Date of any month during such first year); or (B) the related Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (iv) *Fund Advisor Event*: (a) that at any time after the Index Live Date, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) is equal to or less than 100,000,000 U.S. Dollars (or its equivalent) or (b) that over any period of twelve months, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) has decreased by fifty per cent. (whether due to redemptions or decrease in the value of such assets or otherwise);
- (v) *Changes to Fund or Fund Service Providers*: (a) any change in the organisation of the Fund or of any Fund Service Provider without the prior written consent of the Index Sponsor including, without limitation, a change of control of, or a change of the main shareholders, managing directors or individual(s) designated as fund manager(s) in the Fund Documents as at the Index Live Date (if any) of a Fund Service Provider, (b) any Fund Service Provider ceasing to act in the relevant capacity in relation to the Fund unless immediately replaced in such capacity by a successor acceptable to the Index Sponsor or (c) any delegation or transfer by the Fund Advisor of any of its powers, duties or obligations under the Fund Documents to a third party without the prior written consent of the Index Sponsor;
- (vi) *Fund Modification*: any change, modification or termination of the related Fund Documents or of any rights attaching to the related Fund Interests (including without limitation any change or modification affecting management policy, the Fund Interest Currency, the Frequency of Fund Interest Valuation, the terms relating to subscription, transfer and/or redemption of such Fund Interest including any change to the form or schedule of payment or notice period) from those prevailing on the Index Live Date and which could reasonably be expected to affect the value of such Fund Interests;
- (vii) *Strategy Breach*: any material breach of or non-compliance with any investment objective, investment restrictions or other strategy or investment guidelines or requirements, subscription and redemption provisions (including, without limitation, the days treated as Fund Business Days) or valuation provisions (including, without limitation, the method of determining the net asset value of the relevant Fund Interest), in each case as set out in the Fund Documents as in effect on the Index Live Date;
- (viii) *Breach by Fund Service Provider*: the breach by any relevant Fund Service Provider of any obligation (including, without limitation, non-compliance with any investment guidelines relating to the Fund Interest), representation or warranties concerning the relevant Fund (including, without limitation, pursuant to any agreement with the Fund), which breach, if capable of remedy, has not been remedied within ten (10) calendar days of its occurrence;
- (ix) *Regulatory Event*: (1) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Advisor that is reasonably likely to have an adverse impact on the value of the related Fund Interest or on any investor therein (as determined by the Index Sponsor) or (2) the related Fund Interest or any of its Fund Service Providers becoming subject to any investigation, proceeding, arbitration, litigation or official action by any relevant governmental, legal or regulatory authority involving the alleged violation of, or non-compliance with, applicable law or regulation in relation to any activities relating to or resulting from the operation of the Fund

or another fund where, in the opinion of the Index Sponsor, such circumstances may have an adverse effect on the Fund or (B) (i) the withdrawal, cancellation, suspension or revocation of any registration, licence or approval of the Fund Interests or the Fund by any governmental, legal or regulatory entity with authority over such Fund Interest or Fund; (ii) the withdrawal, suspension, cancellation or modification of any licence, consent, permit, authorisation or clearance required for the Fund or any one or more of its significant Fund Service Providers to carry out their activities as they are or should be carried out in compliance with applicable law or regulation; and/or (iii) the failure of the Fund and/or the Fund Interests to comply with any applicable requirements from time to time applied by any relevant listing authority, stock exchange, quotation system and/or regulator that allow it to be used to determine amounts due under the Financial Products (or, in the case of (B)(i), (ii) or (iii), any official announcement indicating that any such circumstances may occur);

- (x) *Reporting Disruption:* (A) the occurrence of any event affecting the Fund Interest that, in the determination of the Index Sponsor, would make it impossible or impracticable for the Index Sponsor to determine the value of such Fund Interest and the Index Sponsor does not expect such event to cease in the foreseeable future; (B) any failure of the Fund to deliver, or cause to be delivered, or recipients in general to receive (1) information that such Fund has agreed to deliver, or cause to be delivered to any member of the Morgan Stanley Group or (2) information that has been previously delivered to any member of the Morgan Stanley Group, in accordance with such Fund's, or its authorised representative's, normal practice and that the Index Sponsor deems necessary for it to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund; (C) the Fund ceases, for any reason whatsoever (either directly or through any Fund Service Provider acting on its behalf for this purpose) to provide, publish or make available its net asset value on any Fund Reporting Date; or (D) a Fund Service Provider informs any member of the Morgan Stanley Group that any Reported Net Asset Value of the Fund Interest should not be relied on (whether by reason of it being only a provisional or estimated net asset value or for any other reason) and/or, in the opinion of the Index Sponsor, any Reported Net Asset Value is inaccurate (which, for the avoidance of doubt, includes without limitation circumstances where any net asset value reported by a Fund Service Provider to the Index Sponsor, any member of the Morgan Stanley Group and/or investors in Fund Interests generally differs from any net asset value published on any one or more publishing service);
- (xi) *Compulsory Redemption or Assignment:* (i) the repurchase or redemption by the Fund of all or some of the Fund Interests otherwise than at the request of a holder of such Fund Interests; or (ii) any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) which would mandatorily oblige a holder of Fund Interests to redeem, sell, assign or otherwise dispose of any Fund Interests and which the Index Sponsor determines could affect a Hypothetical Investor;
- (xii) *Closure to Subscriptions; Dealing Restrictions:* (A) the closure of the related Fund to new subscriptions of Fund Interests, or (B) the imposition of any dealing restrictions (including, without limitation, material amendments to relevant documentation, delay (partial or otherwise), suspension or termination (partial or otherwise) of subscription, redemption or settlement) relating to the Fund or transactions in the Fund Interests by any Fund Service Provider, any Affiliate or agent of any Fund Service Provider;
- (xiii) *Disposals: Material Change: Merger:* (A) a disposal to any person(s) of all, or a material part, of the assets of (x) the Fund, or (y) any significant Fund Service Provider; or (B) a material change in the business of the Fund or any significant Fund Service Provider, or (C) the merger, amalgamation or consolidation of the related Fund and/or such Fund Interest with (x) any other sub-fund or compartment of the Fund or (y) any other collective investment undertaking (or sub-fund or compartment of such other collective investment undertaking, including another fund), which, in either case, may, in the determination of the Determination Agent, have an adverse effect on the Fund;
- (xiv) *Fraud:* the Fund is the object of a material fraud which may, in the determination of the Index Sponsor, have an adverse effect on the Fund or the value of Fund Interests; or any act or omission of a Fund Service Provider constitutes fraud (including, but not limited to, theft, misappropriation,

mispricing of holdings or concealment of trades), bad faith, wilful misconduct or negligence, as determined by the Index Sponsor in its reasonable discretion;

- (xv) *Fund Force Majeure Event*: any Fund Service Provider fails to perform any of its obligations pursuant to the Fund Documents to the extent that such performance is prevented, hindered or delayed by a Fund Force Majeure Event, where "**Fund Force Majeure Event**" means any event due to any cause beyond the reasonable control of the applicable Fund Service Provider, such as unavailability of communications system, failure of or interruptions in power supply or network computer systems, sabotage, fire, flood, explosion, acts of God, civil commotion, riots, insurrection or war;
- (xvi) *Delisting*: where there is or was intended to be an Underlying Fund Exchange in respect of the Fund Interests that (A) such Underlying Fund Exchange announces that pursuant to the rules of such Underlying Fund Exchange, such Fund Interests cease (or will cease) being listed or publicly quoted on the Underlying Fund Exchange for any reason and are not immediately re-listed or re-quoted on an exchange or quotation system located in the same country as the Underlying Fund Exchange (or, where the Underlying Fund Exchange is within the European Union, in any Member State of the European Union), or (B) Fund Interests are never so listed or quoted as intended and disclosed in the relevant Fund Documents as at the Index Live Date;
- (xvii) *Fund Accounting Event*: any (i) change in the currency in which the Fund Interest's accounts are denominated; or (ii) material adverse change in the accounting treatment of the relevant Fund which does or could affect a Hypothetical Investor and/or any actual or potential requirement to consolidate its accounts with any such entity; and/or
- (xviii) *Fees or Charges Event*: (i) any charge of a transaction fee for subscription or redemption of Fund Interests; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Interests (whether by the Fund or a Fund Advisor in respect of holders of Fund Interests generally).

"**Fund Interest**" means, in respect of a Fund, a share, unit or other interest in respect of such Fund

"**Fund Interest Currency**" means, in respect of a Fund Interest, the currency in which such Fund Interest is denominated on the Index Live Date as set out in the Fund Documents and as indicated in CCY in the Annex.

"**Fund Potential Adjustment Event**" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (a) an additional amount of Fund Interests, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect

Description of the MS 16% Risk Control ER Index Linked to Emerging Markets Equity Fund

(provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Fund Reporting Date" means, in respect of a Fund Interest and a Fund Valuation Date, the date on which the Reported Net Asset Value of such Fund Interest as determined as of such Fund Valuation Date is reported (as provided in the definition of Reported Net Asset Value).

"Fund Service Provider" means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, to that Fund, whether or not specified in the Fund Documents or any successor acceptable to the Index Sponsor, including without limitation any Fund Adviser, Fund Administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent or domiciliary agent.

"Fund Valuation Date" means, in respect of a Fund Interest, the date as of which such Fund Interest (or its Fund Service Provider that generally determines such value) determines the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Funding Rate" has the meaning given to it in the Annex

"Funding Rate Screen Page" has the meaning given to it in the Annex

"FX Rate" has the meaning given to it in Annex

"FX Rate Screen Page" has the meaning given to it in the Annex

"Hypothetical Investor" means, in respect of a Fund Interest, a hypothetical investor in such Fund Interest deemed to have (a) the benefits and obligations, as provided under the Fund Documents, of an investor holding, as of the Index Live Date, an interest in the relevant Fund in an amount equal to the relevant number of relevant amount of Fund Interests; (b) in the case of any deemed redemption of Fund Interests, to have submitted to the relevant Fund on the relevant Redemption Notice Date, a duly completed notice requesting redemption of the relevant number of such Fund Interests; and (c) in the case of any deemed investment in Fund Interests, to have submitted, on the Index Live Date, a duly completed notice to the relevant Fund, requesting subscription to the relevant number of Fund Interests;

"Hedging Disruption" occurs if the Index Sponsor determines that a hypothetical market participant would as a result of extraordinary market circumstances relating to an Index Component, be unable, after using commercially reasonable efforts, to:

- a) Acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments it deems necessary to hedge its position in relation to any securities issue or other relevant transactions relating to or calculated by reference to the Index; or
- b) Realize, recover or remit the proceeds of any such transactions or instruments.

"Index" has the meaning given to it in Section 1 (*Introduction*).

"Index Base Date" has the meaning given to in in the Annex

"Index Business Day" has the meaning given to it in the Annex

"Index Calculation Agent" has the meaning given to it in Section 5 (*Index Calculation Agent*).

"Index Committee" has the meaning given to it in Section 12 (*Governance*).

"Index Component" means each component specified in Annex 1 hereto.

"Index Component Adjustment Event" means a Fund Potential Adjustment Event.

"Index Component Disrupted Day" means any day which is an Underlying Fund Disrupted Day.

"Index Component Disruption Event" means the occurrence of an event that results in the occurrence of an Index Component Disrupted Day.

“Index Component Price Source” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Scheduled Trading Day” means, in respect of each Index Component where the Index Component Type in respect of such Index Component is:

- (i) Fund, a Fund Valuation Date in respect of such Fund.

“Index Component Screen Page” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Type” means, in respect of each Index Component, as specified in the Annex hereto.

“Index Component Underlying Price Source” means, in respect of an Index Component, any information service, exchange or data source used to calculate the price or level of any share, security, commodity, rate, index or other component included in such Index Component, as determined by the Index Calculation Agent.

“Index Component Value” means, in respect of an Index Component which is a Fund, the Underlying Fund Price in respect of such Fund.

“Index Currency” has the meaning given to it in the Annex.

“Index Funding Rate” has the meaning given to it in the Annex

“Index Funding Rate Screen Page” has the meaning given to it in the Annex

“Index Level” means, in respect of each Index Business Day, an amount, expressed in the Index Currency, being the level of the Index in respect of such Index Business Day, as determined in accordance with Section 7 (*Index Level*). If Return Type is set to Total Return, the Index Level is then equal to Total Return Index Level as determined in accordance with Section 7.1. If Return Type is set to Excess Return, the Index Level is then equal to Excess Return Index Level as determined in accordance with Section 7.2.

“Index Live Date” has the meaning given to it in the Annex

“Index Publication Time” has the meaning given to it in Section 8 (*Publication*).

“Index Sponsor” has the meaning given to it in Section 4 (*Index Sponsor*).

“Initial Index Level” has the meaning given to it in the Annex

“IOSCO” has the meaning given to it in Section 12 (*Governance*).

“Market Disruption Event” means, in respect of:

- (i) a Fund, an Underlying Fund Disruption Event in respect of such Fund.

“Material Change” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“MiFID II” means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as may be amended or replaced from time to time).

“Morgan Stanley Group” has the meaning given to it on the front page of this Description.

“MSIP” has the meaning given to it in Section 3 (*Overview*).

“MS Benchmark Statement” has the meaning given to it in Section 1 (*Introduction*).

“NB Shares Basket” has the meaning given to it in Section 7

“Price Source Disruption” means any Index Component Price Source, Index Component Underlying Price Source, Index Funding Rate Screen Page, Funding Rate Screen Page or other source data required to calculate the Index is insufficient, inaccurate or unreliable or not available whether due to temporary or permanent discontinuance or failure of the price source for such data or otherwise, as determined by the Index Calculation Agent.

“Potential Adjustment Event” means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (A) an additional amount of Fund Interests, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

“Principles” has the meaning given to it in Section 12 (*Governance*).

“Redemption Notice Date” means, in respect of a Fund Interest, the last date on which a Hypothetical Investor in such Fund Interest would be permitted, pursuant to the Fund Documents of the related Fund, to submit a redemption notice that would be timely for a redemption as a Scheduled Redemption Valuation Date

“Redemption Proceeds” means, in respect of the relevant amount of Fund Interests, the redemption proceeds that in the determination of the Index Sponsor would be paid by the relevant Fund to a Hypothetical Investor who, as of the relevant Redemption Valuation Date, redeems such amount of Fund Interests and (for the avoidance of doubt after deduction of any tax, levy, charge, assessment or fee of any nature that, in the determination of the Index Sponsor, would (or would be very likely to) be withheld or deducted from such amount); provided that (i) any such proceeds that would be paid in property other than cash shall be deemed to have a value of zero and (ii) if the Hypothetical Investor would be entitled to elect payment of such redemption proceeds to be made either in the form of cash or other property, then the Hypothetical Investor shall be deemed to have elected cash payment.

“Redemption Valuation Date” means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date as of which the relevant Fund (or its Fund Service Provider that generally determines such value) determines the net asset value of Fund Interests for purposes of calculating the redemption proceeds to be paid to a Hypothetical Investor that has submitted a valid notice for redemption on or before the related Redemption Notice Date.

“Relevant Fund” has the meaning given to such term in Section 10.3 (*Consequences of Fund Events*).

“Removal Value” means, in respect of a Relevant Fund and the Fund Interest in respect of such Relevant Fund, the value calculated by the Index Sponsor in the same manner as would be used in determining the

Underlying Fund Price of Fund Interests in the related Fund. Where the Removal Value is required to be converted into the Index Currency it shall be so converted by the Index Sponsor at such time and by reference to such sources as it deems appropriate.

“Reported Net Asset Value” means, in respect of any Fund Interest and a Fund Reporting Date relating to such Fund Interest, the official net asset value per Fund Interest as of the related Fund Valuation Date or, if the related Fund reports only its aggregate net asset value, the portion of such Fund's aggregate net asset value relating to a Fund Interest as of the related Fund Valuation Date, in each case as reported on the Fund Reporting Date relating to such Fund Valuation Date by the Fund Service Provider that generally reports such value on behalf of the Fund to its investors or a publishing service.

“Return Type” has the meaning given to it in the Annex

“Scheduled Fund Valuation Date” means, in respect of a Fund Interest, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

“Scheduled Redemption Payment Date” means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date by which the related Fund is scheduled to have paid, according to its Fund Documents, all or a specified portion of the Redemption Proceeds to an investor that has submitted a timely and valid notice requesting redemption of such Fund Interest as of such Scheduled Redemption Valuation Date.

“Scheduled Redemption Valuation Date” means, in respect of a Fund Interest and any relevant day, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the net asset value of such Fund Interest for the purposes of calculating the redemption proceeds to be paid to an investor that has submitted a valid and timely notice for redemption of Fund Interests based on the value determined as of the Scheduled Redemption Valuation Date for which the Scheduled Redemption Payment Date falls on or immediately prior to such day.

“SEK” means Swedish Krona.

“Successor Source” means, in relation to any display page, other published source, information vendor or provider:

- (i) the successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original page or source; or
- (ii) if the sponsor of the original page or source has not officially designated a successor display page, other published source, service or provider (as the case may be), the successor display page, other published source, service or provider, if any, designated by the relevant information vendor or provider (if different from such sponsor).

“TARGET2 Settlement Day” means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (TARGET2) is open.

“Termination of Data Licence” means the occurrence of a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data is supplied to compile or calculate the Index.

“Theoretical Exposure” has the meaning given to it in Section 7.1.3.

“Underlying Fund Disrupted Day” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing.

“Underlying Fund Disruption Event” means, in respect of a Fund, any of the following events:

- (i) in respect of any Fund Interest, the failure of (i) an Index Business Day to be a Fund Valuation Date or any continued postponement or suspension of such Fund Valuation Date; and/or (ii) there to be a Fund Reporting Date and/or Reported Net Asset Value relating to the relevant Fund Valuation Date;
- (ii) in respect of any Fund Interest (a) there is a failure by the Fund to pay the full amount (whether expressed as a percentage or otherwise) of the Redemption Proceeds in the Fund Interest Currency with respect to the relevant amount of such Fund Interest scheduled to have been paid on or by such day according to the Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of such Fund Interests) or (b) a Hypothetical Investor which had submitted a valid redemption notice in respect of such Fund Interest on the last date permitted pursuant to the relevant Fund Documents would, in the reasonable opinion of the Index Sponsor, not have received in full the Redemption Proceeds in respect of such redemption(s) on or before the date it was scheduled to do so in accordance with the Fund Documents; and/or
- (iii) any closure other than for ordinary public holidays and/or any restriction or suspension in trading of foreign exchange markets or money markets in a relevant Fund Interest Currency or Index Currency that, in the opinion of the Index Sponsor, would have a material effect on the ability market participants to effect transactions in such markets,

provided that if any event would otherwise be both an Underlying Fund Disruption Event and Fund Event, such event shall be treated solely as a Fund Event.

“Underlying Fund Exchange” means, in respect of a Fund Interest, the principal exchange or quotation system for such Fund Interest, as determined by the Index Sponsor, and any successor to such exchange or quotation system or any substitute exchange or quotation system to which such Fund Interest have temporarily relocated.

“Underlying Fund Price” means, in respect of a Fund Interest and the Underlying Fund Valuation Time on any relevant day, the Reported Net Asset Value of such Fund Interest for the related Fund Valuation Date falling on such day.

“Underlying Fund Valuation Time” means, in respect of a Fund Interest, the time on or in respect of any relevant day at which the applicable Underlying Fund Price is scheduled to be determined in accordance with the relevant Fund Documents.

9. *Adjustment Provisions*

9.1 *Adjustment Events*

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may act in good faith and a commercially reasonable manner:

- (i) substitute any Index Component or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate;
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the “**Relevant Day**”) shall be equal to the Index Component Value in respect of such Relevant Day;
- (iv) reallocate the portion of the Index exposed to any Index Component which is affected by such Adjustment Event to the cash until the next Index Business Day on which it determines that no Adjustment Event exists (and make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such reallocation);
- (v) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
- (vi) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
- (vii) cancel the Index and permanently cease to calculate the Index Level.

9.2 *Adjustment procedures, notification and consultation process*

Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (Adjustment Events) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (Adjustment Events) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or reclassification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.

9.3 *Adjustment procedures, notification and consultation process*

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index.

While the Index Sponsor currently employs this methodology, no assurance can be given that fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances will not arise that would, in the view of the Index Sponsor, necessitate or make desirable a modification or change to this Description.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a “**Change**”) which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a “**Material Change**”) the Index Sponsor will give prior notice to Financial Product Investors that a Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days’ notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

9.4 *Consequences of Fund Events*

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a “**Relevant Fund**”), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of

the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such sources as it considers appropriate including, but not limited to, the value that a third party on arms' length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

10. Errors and Corrections

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

11. Governance

Morgan Stanley has adopted the "Principles for Financial Benchmarks" published by the International Organization of Securities Commissions ("**IOSCO**") on 17 July 2013 (the "**Principles**") on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the "**Index Committee**").

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

12. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;

- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator, supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;
- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

13. *Important Information*

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at complaints@ms@morganstanley.com.

ANNEX

INDEX MAIN DEFINITIONS:

Index Currency	SEK
Initial Index Level	100
Index Business Day	means a day (i) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London (“LNB”) (ii) for which the Nasdaq Stockholm Exchange is open for trading during its regular trading session (“STS”) (iii) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in Luxembourg (“LXB”) (iv) which is a Fund Valuation Date in respect of each Index Component
Index Base Date	18 th December 2017

OVERVIEW OF THE MS 16% RISK CONTROL ER INDEX LINKED TO EMERGING MARKETS EQUITY FUND

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Rules. The Index is governed by the Index Rules and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to a weighted basket of one equity mutual fund, as described below (the “**Basket**”), whilst maintaining a volatility at or around 16% (the “**Target Volatility**”). To pursue this objective, the Index implements a daily “*Risk Control Mechanism*” which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Basket. When volatility increases, the Index reduces exposure to Basket and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Basket, up to a maximum exposure of 150%, and reduces its exposure to cash.

When the Index’s exposure to the Basket is higher than 100%, the Index uses a “leveraged” exposure to the underlying funds. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying funds. The maximum leverage the Index can employ is capped at 150%.

Does the Index represent a physical investment in the Basket?

The Index can be described as a “notional” investment in the Basket or as a “synthetic portfolio” as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does “Excess Return” mean?

The Index is construed as an “**Excess Return**” asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Basket. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is to be opposed to a Total Return investment which assumes that such investment is fully funded.

What does “Decrement” mean?

The Index is calculated by deducting a 1.00% per annum* percentage rate (the “**Decrement**”) applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 1.00% lower than what it would otherwise be without such deduction.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 16% by allocating exposure to the Basket based on the realised volatility of the Basket itself. The target weight assigned by the Index to the Basket on any business day is the ratio of 16% to the realised volatility of the Basket. The realised volatility of the Basket is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Fund experiences higher volatility, it means greater changes in its price. In such environment, exposure to the Fund can produce unpredictable results. Volatility can anticipate both a decline or a rebound in the Fund. A “volatility target” mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Fund. In practical terms, when exposure to the Fund is reduced, the level of the Index is less sensitive to the volatility of such Fund and therefore will suffer less from a decline in the performance of the Fund. A “volatility target” mechanism can however also hinder

the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Basket is 0% even when the Basket volatility has reached a level higher than the Target Volatility. As a result, exposure to the Basket cannot be negative.

What are the Funds underlying the Index?

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Basket which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Funds. In general terms, if the Funds increase in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to such Funds as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

Description of the MS 16% Risk Control ER Index Linked to Emerging Markets Equity Fund

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Funds that make up the Basket. This cost is represented by the Stockholm Interbank 3-month rate. The higher the borrowing rates, the lower the performance of the Index. In an environment where borrow rates are significant, the Index may exhibit material underperformance when compared to a direct investment in the underlying Funds.
- The Index is calculated by deducting a 1.00% per annum decrement percentage rate, which is deducted daily pro rata. This means that the Index annual performance would be on average 1.00% lower than what it would otherwise be without such decrement.

Simulated Historical Track Record of the Index

The below chart represents the simulated historical performance of the Index in comparison with the simulated historical performance of the Basket.

This is not actual historical performance and it should not be taken as an indication of future performance of the Index or the Basket.

Simulation Start Date: 18 December 2017

Simulation End Date: 3 January 2023

<i>Year</i>	<i>Simulated Basket Performance*</i>	<i>Simulated Index Performance*</i>
2018	-6.6%	-10.5%
2019	24.6%	21.5%
2020	9.8%	10.9%
2021	2.6%	1.3%
2022	-13.4%	-13.7%

***Calculation Source: Morgan Stanley. For illustrative purposes only. Simulated performance is not indicative of future performance. Simulated data prior to the live date. Approximations made in**

historical simulation. No representation is made that any results/returns indicated would be achieved or that all assumptions in achieving such returns have been considered or stated.

DESCRIPTION OF THE MS GLOBAL EQUITY FUND 16% RISK CONTROL ER INDEX

Bloomberg Page: MSFDGE16 Index

The MS Global Equity Fund 16% Risk Control ER Index is the exclusive property of Morgan Stanley & Co. International plc and its Affiliates (the “**Morgan Stanley Group**”). Morgan Stanley and the MS Global Equity Fund 16% Risk Control ER Index are trade marks of the Morgan Stanley Group and no person or entity should refer to any of the trade marks without the consent of a member of the Morgan Stanley Group and should not use any of the information in this Description for any purpose other than in relation to an investment or otherwise in connection with any Financial Product (as defined below) for which such consent has been obtained. The non-exclusive right to use the MS Global Equity Fund 16% Risk Control ER Index as an underlying reference basis or otherwise for any Financial Product is granted only upon completion of a license agreement with a member of the Morgan Stanley Group. The Index Sponsor, the Index Calculation Agent and each member of the Morgan Stanley Group disclaim any responsibility for any unauthorised use of the MS Global Equity Fund 16% Risk Control ER Index by any third party.

No representation is made by any member of the Morgan Stanley Group with respect to the eligibility of the MS Global Equity Fund 16% Risk Control ER Index for investment for investment (including, but not limited to, compliance with the UCITS Directive (2009/65/EC), as amended and supplemented from time to time (the “**UCITS Directive**”), or its use in connection with any Financial Product to be entered into or held, by any prospective investor. Prospective investors should make their own independent analysis of whether the MS Global Equity Fund 16% Risk Control ER Index meets the eligibility criteria for their investment (including, but not limited to, compliance with the UCITS Directive) or use by them in relation to the relevant Financial Product and of whether the MS Global Equity Fund 16% Risk Control ER Index responds to their criteria, needs and objectives for investment or otherwise. The term “investor” will include any counterparty, holder or contract party in relation to a Financial Product.

Nothing contained in this Description should be construed as an offer or solicitation to purchase or sell securities or to enter into any transaction or engage in investment activity of any kind. If you do invest in a Financial Product or engage in any other investment activity, you should ensure that you fully understand the nature of such investment and the risks involved and are satisfied that the investment is suitable and appropriate for your circumstances. If you are in any doubt about this you should take advice from an appropriately qualified advisor.

This Description does not constitute investment, taxation, legal, accounting or other advice, including within the meaning of Article 53 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 or investment advice within the meaning of Article 4(4) of MiFID II.

1. Introduction

This Description sets out the methodology of the MS Global Equity Fund 16% Risk Control ER Index (the “**Index**”) and the basis on which the Index is calculated.

This Description is intended to provide the information relating to the Index required by the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 ((EU) 2016/1011)) (as amended) (the “**Benchmarks Regulation**”) as it forms part of “retained EU law” in the United Kingdom as defined in the European Union (Withdrawal) Act 2018 (as amended from time to time) (the “**UK Benchmarks Regulation**” and, together with the EU Benchmarks Regulation, the “**Benchmarks Regulation**”). This Index is a non-significant and regulated data benchmark for the purposes of the UK Benchmarks Regulation.

As at the date of publication of this Description, Morgan Stanley & Co. International plc appears on the register of benchmark administrators established and maintained by the Financial Conduct Authority pursuant to Article 36 of the Benchmarks Regulation. Morgan Stanley & Co. International plc’s benchmark statement (the “**MS Benchmark Statement**”) can be accessed via the following link:

MSIP Benchmark Statement - Multi-Asset Signal-based Benchmark Family

https://www.morganstanley.com/content/dam/msdotcom/en/assets/pdfs/sales_and_trading_disclosures/MSIP_Benchmark_Statement-Multi-Asset_Signal-based_Benchmark_Family.pdf

Subject as provided in Section 10 (*Adjustment and Disruption Provisions*), this Description is subject to change or adjustment at any time (including, without limitation, in accordance with the requirements of the UK Benchmarks Regulation) and will be superseded by any subsequent Description. A copy of the current version of the Description can be obtained following the method described in Section 8 (*Publication*).

No one may reproduce, distribute or disseminate this Description, any information contained in this Description or any Index Level (as applicable) without the prior written consent of the Index Sponsor. This Description is not intended for distribution to, or use by any person in, a jurisdiction where such distribution is prohibited by law or regulation.

ESG Disclosures pursuant to Commission Delegated Regulation (EU) 2020/1817 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards the minimum content of the explanation on how environmental, social and governance factors are reflected in the benchmark methodology, as on-shored in the United Kingdom by way of The Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019:

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Morgan Stanley & Co. International plc
Item 2. Type of benchmark or family of benchmarks.	Multi Asset
Item 3. Name of the benchmark or family of benchmarks.	Multi Asset Signal-based
Item 4. Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	No

2. Overview

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Summary

The Index aims to provide exposure to the Index Components and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a “notional” or synthetic exposure to the Index Component and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Component and a rules-based strategy, the performance of which is used as a reference point for calculating Index Levels.

This Section 3 (*Overview*) is subject to, and qualified by, the remainder of this Description.

3. Index Sponsor

The Index has been developed by Morgan Stanley & Co. International plc (“MSIP”). The Index is administered by the index sponsor or any successor thereto (the “Index Sponsor”). The initial Index Sponsor is MSIP.

The Index Sponsor controls the creation and operation of the Index administrative process, including all stages involved in the production and dissemination of the Index. The Index Sponsor also is responsible for the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of this Description. Notwithstanding that the Index relies on information from third party sources, the Index Sponsor has primary responsibility for all aspects of the Index administration and determination process.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

The Index Sponsor is not acting as a manager or an investment advisor in relation to the Index and has no relationship of agency or trust or any fiduciary duty to any person in respect of the Index and is not required to take the interests of any person into account in making any determination or calculation in relation to the Index.

The Index Sponsor makes no warranty or representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

No Financial Product is sponsored, endorsed, sold or promoted by MSIP or the Index Sponsor, and neither MSIP nor the Index Sponsor makes any express or implied representations or warranties as to (a) the advisability of purchasing or assuming any risk in connection with any Financial Product, (b) the levels at which the Index stands at any particular time on any particular date, (c) the results to be obtained by the issuer or obligor of any Financial Product, or any Financial Product Investor,

or any other person or entity from the use of the Index or any data included therein in connection with any licensed rights or for any other use or (d) any other matter. Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP/ or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP may in its sole and absolute discretion delegate and/or transfer any of its obligations and/or functions in relation to the administration and determination of the Index to one or more third parties as it deems appropriate from time to time. MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

4. *Index Calculation Agent*

The Index is calculated by MSIP (or any successor thereto) (the “**Index Calculation Agent**”).

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent’s calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. The term “manifest error” as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without (i) recourse to the underlying data or (ii) any application or re-application of any formulae. No person (whether a Financial Product Investor or otherwise) will be entitled to proceed (and shall be deemed to have agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to the Index.

For so long as the Index Calculation Agent constitutes and calculates the Index, the Index Calculation Agent does not accept any liability for loss or damage of any kind (including, without limitation, any special, punitive, indirect or consequential damages (including loss of profits)) arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index itself and disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any information in connection with it.

5. *Index Data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the Index Component Value, the Index Funding Rate and the Funding Rate in respect of each Index

Component as published on the relevant Index Component Price Source in respect of such Index Component.

No assurance can be given that any such Index Component Values, Index Funding Rate or Funding Rate will be published on the relevant Index Component Price Source, on the Index Funding Rate Screen Page or on the Funding Rate Screen Page accurately, in a timely manner or at all and the Index Sponsor and the Index Calculation Agent have relied on, and will rely on, such Index Component Values and Funding Rate as they are published on the relevant Index Component Price Source or Funding Rate Screen Page. Neither the Index Sponsor nor the Index Calculation Agent has independently verified the information extracted from such sources and accepts no responsibility or liability in respect thereof.

6. Calculation of the Index

6.1 Total Return Index Level

The Total Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Total Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$TRIndex_t = \text{Max} \left(0, TRIndex_{t-1} \times \left[1 + \text{Effective Exposure}_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 \right) + (1 - \text{Effective Exposure}_{t-1}) \times Rate_{t-1} \times \frac{\Delta t}{DayCount} \right] - TC_t \right) \times (1 - AF_t)$$

Where:

max, followed by amounts (or values) inside brackets, means whichever is the greater of the amounts (or values) separate by a semi-colon inside such brackets;

TRIndex Level(t-1) means the Total Return Index Level in respect of the Index Business Day immediately preceding Index Business Day t;

Effective Exposure(t-1) means the Effective Exposure in respect of Index Business Day t-1, calculated as per paragraph 7.3 below;

Basket(t) means the Basket Level in respect of Index Business Day t, calculated as per paragraph 7.7 below;

Basket(t-1) means the Basket Level in respect of the Index Business Day immediately preceding Index Business Day t;

Rate(t-1) means the Index Funding Rate in respect of the Index Business Day immediately preceding Index Business Day t;

Δt means the number of calendar days from (and including) the Index Business Day immediately preceding Index Business Day t to (but excluding) Index Business Day t;

DayCount means 360;

TC(t) means the Transaction Cost in respect of Index Business Day t and is an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$TC_t = |Nb\ Shares\ Basket(t) - Nb\ Shares\ Basket(t-1)| \times Basket(t) \times RC$$

Where RC is the Rebalancing Cost and has the meaning given to it in the Annex

$AF(t)$ means, the Accrued Fee in respect of Index Business Day t , an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$AF(t) = \left[\frac{\Delta t}{DayCount} \times Decrement Rate \right]; \text{ and}$$

Decrement Rate has the meaning given to it in the Annex

6.2 Excess Return Index Level

The Excess Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Excess Return Index Level in respect of each Index Business Day (each an “Index Business Day t ”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$ERIndex_t = \text{Max} \left(0, ERIndex_{t-1} \times \left[1 + Effective Exposure_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 - Rate_{t-1} \times \frac{\Delta t}{DayCount} \right) \right] - TC_t \right) \times (1 - AF_t)$$

6.3 Calculation of the Exposure

The theoretical exposure (the “**Theoretical Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$TheoreticalExposure_t = \text{Min}[maxExposure, UnconstrainedExposure_t]$$

Where:

$$UnconstrainedExposure_t = \frac{Vol Target}{Realised Volatility (t)}$$

The exposure (the “**Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where Rebalance Rule is set as “ABSOLUTE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } |TheoreticalExposure_t - Exposure_{t-1}| > Threshold \\ Exposure_{t-1} & \text{Otherwise} \end{cases}$$

- Where Rebalance Rule is set as “RELATIVE INVERSE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } \left| \frac{Exposure_{t-1}}{UnconstrainedExposure_t} - 1 \right| > Threshold \\ Exposure_{t-1} & \text{Otherwise} \end{cases}$$

Where:

maxExposure has the meaning given to it in the Annex

VolTarget has the meaning given to it in the Annex

Threshold has the meaning given to it in the Annex

Lag means has the meaning given to it in the Annex

Realised Volatility (t-Lag) means the Realised Volatility in respect of Index Business Day (t-Lag)

6.4 **Calculation of the Number of Shares Basket**

The number of shares of the basket (the “Number of Shares Basket”) in respect of any Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

Where Index Business Day t is the Index Base Date or any of the following Lag – 1 Index Business Days:

$$NbShares\ Basket(t) = 0$$

Where Index Business Day t falls on any subsequent day:

- In respect of the Total Return Index:

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times TRIndex_{t-Lag}}{Basket_{t-Lag}}$$

- In respect of the Excess Return Index

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times ERIndex_{t-Lag}}{Basket_{t-Lag}}$$

6.5 **Calculation of the Effective Exposure**

The effective exposure (the “Effective Exposure”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

- In respect of the Total Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{TRIndex_t}$$

- In respect of the Excess Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{ERIndex_t}$$

6.6 **Calculation of the Realised Volatility**

The Realised Volatility in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where the Realised Volatility Format is set as ARITHMETIC in the Annex:

$$\text{Realised Volatility } (t) = \text{Max} (ST Vol (t), LT Vol (t))$$

Where:

$$ST Vol (t) = \sqrt{\frac{252}{ST Tenor \times ST Return Size} \times \sum_{k=t-ST Tenor-1}^t \ln \left(\frac{Basket (k)}{Basket (k - ST Return Size)} \right)^2}$$

$$LT Vol (t) = \sqrt{\frac{252}{LT Tenor \times LT Return Size} \times \sum_{k=t-LT Tenor-1}^t \ln \left(\frac{Basket (k)}{Basket (k - LT Return Size)} \right)^2}$$

- Where the Realised Volatility Format is set as GEOMETRIC in the Annex:

$$\text{Realised Volatility } (t) = \text{Max} (ST Vol (t), LT Vol (t))$$

Where:

ST Vol (t) means:

- (v) Where such Index Business Day is the Index Base Date or any of the immediately following *ST Return Size* – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = \text{Initial Volatility}$$

- (vi) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = \sqrt{\lambda_{ST} \times ST Vol (t - 1)^2 + (1 - \lambda_{ST}) \times \ln \left(\frac{Basket_t}{Basket_{t-ST Return Size}} \right)^2 \times \frac{252}{ST Return Size}}$$

LT Vol (t) means:

- (v) Where such Index Business Day is the Index Base Date or any of the immediately following *LT Return Size* – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = \text{Initial Volatility}$$

- (vi) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = \sqrt{\lambda_{LT} \times LT Vol (t - 1)^2 + (1 - \lambda_{LT}) \times \ln \left(\frac{Basket_t}{Basket_{t-LT Return Size}} \right)^2 \times \frac{252}{LT Return Size}}$$

Where:

λ_{ST} has the meaning given to it in the Annex

ST Tenor has the meaning given to it in the Annex

ST Return Size has the meaning given to it in the Annex

λ_{LT} has the meaning given to it in the Annex

LT Tenor has the meaning given to it in the Annex

LT Return Size has the meaning given to it in the Annex

6.7 Calculation of the Basket

7.7.1 Calculation of the Basket Level

The basket level (the “**Basket Level**”) in respect of the Initialisation Date shall be equal to the Initial Basket Level as defined in the Annex.

The Basket Level in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Basket_t = Basket_{t-1} + Performance_t + CashPerformance_t + FundingCost_t - AHC_t$$

Where:

$Performance_t$ is defined in section 7.7.2

$CashPerformance_t$ is defined in section 7.7.3

$FundingCost_t$ is defined in section 7.7.4

AHC_t is defined in section 7.7.5

7.7.2 Calculation of the Basket Performance

The basket performance (the “**Basket Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Performance_t = \sum_{i=1}^N Units_{i,t-1} \times (CL_{i,t} - CL_{i,t-1}) \times FX_{i,t}$$

Where:

N is the number of Index Components within the Basket as defined in the Annex

$Units_{i,t-1}$ is the Number of Units of Basket Component i in respect of Index Business Day t-1 as defined in Section 7.6.5

$CL_{i,t}$ means the Index Component Value of Basket Component i in respect of Index Business Day t

$FX_{i,t}$ means the FX Rate for Basket Component i in respect of Index Business Day t

7.7.3 Calculation of the Cash Performance

The cash performance (the “**Cash Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$CashPerformance_t = CashBalance_{t-1} \times Rate_{t-1} \times DCF_{t-1,t}$$

Where:

$$CashBalance_t = Basket_t - \sum_{i=1}^N Units_t^{i|Funded \cap IndexCCY} \times CL_t^{i|Funded \cap IndexCCY}$$

$i|Funded \cap IndexCCY$ means the Basket Component i, where such Basket Component is specified as

Funded in the Annex and is denominated in the same currency as the Index Currency

$DCF_{t-1,t}$ means the number of calendar days from (and including) Index Business Day t-1 to and (excluding) Index Business Day t divided by 360.

7.7.4 Calculation of the Funding Cost

The funding cost (the “**Funding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$FundingCost_t = \sum_{CCY} FundingBalance_{t-1}^{CCY} \times (Rate_{t-1}^{CCY} + Spread^{CCY}) \times DCF_{t-1,t} \times FX_{CCY,t}$$

Where:

$$FundingBalance_t^{CCY} = - \sum_{i=1}^N Units_t^{i|Funded \cap CCY} \times CL_t^{i|Funded \cap CCY}$$

$i|Funded \cap CCY$ means the Basket Component i, where such Basket Component is specified as Funded in the Annex and is denominated in currency CCY provided that such currency is other than the Index Currency

$Rate_{t-1}^{CCY}$ means the Funding Rate for currency CCY as defined in the Annex

$Spread^{CCY}$ means the Funding Spread for currency CCY as defined in the Annex

7.7.5 Calculation of the Aggregate Holding Cost

The aggregate holding cost (the “**Aggregate Holding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$AHC_t = \sum_{i=1}^N N_{i,t-1} \times CL_{i,t} \times FX_{i,t} \times HC_i \times DCF_{t-1,t}$$

Where:

HC_i is the Holding Cost for Basket Component i as specified in the Annex.

7.7.6 Calculation of the Number of Units of Basket Components

On the Initialisation Date, the Number of Units invested in the Basket Component i per unit of the Basket is calculated by the Index Calculation Agent in accordance with the following formula:

$$N_{i,t=0} = 0$$

In respect of any Index Business Day thereafter:

- If t is a Scheduled Basket Rebalancing Day:

$$N_{i,t} = \frac{W_i \times Basket_{Max(0,t-BasketUnitLag)}}{CL_{i,Max(0,t-BasketUnitLag)} \times FX_{i,Max(0,t-BasketUnitLag)}}$$

- Otherwise

$$N_{i,t} = N_{i,t-1}$$

Where:

W_i means the Weight for Basket Component i as defined in the Annex

6.8 Miscellaneous

Each Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

6.9 Index Live Date and Retrospective Calculations

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the “**Back-test Period**”) has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

8. Publication

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the “**Index Publication Time**”) on the second Index Business Day immediately following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

9. Definitions

“**Adjustment Event**” means (i) an Index Component Disruption Event, (ii) a Disruption Event, (iii) a Force Majeure Event, (iv) an Index Component Adjustment Event.

“**Affiliate**” means in relation to any entity (the “**First Entity**”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes, “control” means ownership of a majority of the voting power of an entity.

“**Accrued Fee**” has the meaning given to it in Section 7.1

“**Back-test Period**” has the meaning given to in Section 7. (*Index Live Date and Retrospective Calculations*).

“**Basket Mechanism**” has the meaning given to it in Section 7.1.4.

“**Basket Unit Lag**” has the meaning given to it in the Annex

“**Benchmarks Regulation**” has the meaning given to it in Section 1 (*Introduction*).

“**Bloomberg**” means Bloomberg L.P. or any of its Affiliates, or any successor market price information provider(s).

“**Bloomberg Page**” has the meaning given to it in the Annex or any Successor Source thereto

“**Change**” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“**Change in Law**” means there has been a change in applicable law or regulation or the promulgation of or any change in the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation that prevents or will prevent the Index Sponsor and/or the Index Calculation Agent from calculating and/or publishing the Index.

“**Description**” has the meaning given to it on the second page of this Description.

“**Disappearance or Unavailability Event**” means there is (i) a permanent discontinuation of trading in an Index Component or (ii) a disappearance or permanent discontinuance or unavailability of an Index Component Value, notwithstanding the status of trading in the relevant Index Component (if applicable), or any other source data required to calculate the Index.

“**Disrupted Day**” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing in respect of such Fund.

“**Disruption Event**” means each of (i) a Change in Law, (ii) a Disappearance or Unavailability Event, (iii) a Hedging Disruption, (iv) a Price Source Disruption Event or (v) a Termination of Data Licence.

“**Financial Product**” has the meaning given to it in Section 2 (*Risk Factors and Investment Considerations*).

“**Financial Product Investor**” has the meaning given to in in Section 2 (*Risk Factors and Investment Considerations*).

“**Force Majeure Event**” means an event or circumstance has occurred beyond the reasonable control of the Index Sponsor (including, without limitation, a systems or IT failure (including, without limitation, a systems breakdown, incomplete or ineffective upgrade, malfunction, malware, virus or other similar circumstances affecting the Index Sponsor’s information technology and related processing systems), fire, flood, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) which directly or indirectly prevents or otherwise affects the determinations of the Index Sponsor and/or the Index Calculation Agent in relation to the Index.

"Frequency of Fund Interest Valuation" means, in respect of a Fund Interest, the frequency of occurrence of a Fund Business Day of such Fund Interest as determined by reference to the Fund Documents in effect on the Index Live Date.

"Fund" means, in respect of a Fund Interest, the issuer of, or other legal arrangement (including, if applicable, any class or series) giving rise to such Fund Interest as specified in Annex 1 hereto.

"Fund Administrator" means, in respect of a Fund, any fund administrator, manager, trustee or similar person responsible for the administration of such Fund and the determination and reporting of any official price or value of such Fund according to the Fund Documents or any successor acceptable to the Index Sponsor.

"Fund Advisor" means any person appointed in the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor to a discretionary investment manager or to another non-discretionary investment advisor) for such Fund and/or a Fund Administrator and/or any other person(s) designated in the Fund Documents as responsible for the oversight of the Fund, or any successor to any such person acceptable to the Index Sponsor.

"Fund Business Day" means, in respect of a Fund, each of a Scheduled Fund Valuation Date and any day on which the Fund or the primary Fund Administrator acting on behalf of the Fund is scheduled to effect subscription and redemption requests.

"Fund Documents" means, in respect of a Fund and the related Fund Interest, the constitutive and governing documents, subscription agreements and other agreements of the related Fund specifying the terms and conditions of such Fund Interest (including, without limitation, the prospectus, information memorandum or other offering document issued by such Fund in connection with such Fund Interest), in each case and unless where otherwise specified, as amended and/or supplemented from time to time.

"Fund Event" means, the occurrence or announcement by the Fund or a Fund Service Provider at any time of any of the following events:

- (i) *Nationalisation*: all the Fund Interests or all or substantially all the assets of the Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (ii) *Fund Insolvency Event*: in respect of a Fund Interest and the related Fund (a) the Fund and/or any Fund Service Provider (A) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (B) makes a general assignment or arrangement with or for the benefit of its creditors; (C)(1) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in (1) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within 15 days of the institution or presentation thereof; (D) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (E) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 15 days thereafter; or (F) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in (A) through (E) above; or (without prejudice to the foregoing) (b) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous

proceeding affecting a Fund, (A) all the Fund Interests are required to be transferred to a trustee, liquidator or other similar official or (B) holders of Fund Interests become legally prohibited from transferring them;

- (iii) *NAV Trigger/Restriction Event*: in respect of a Fund Interest (A) the Reported Net Asset Value as of the last Fund Valuation Date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the Reported Net Asset Value as of the Fund Valuation Date of the same month in the immediately preceding calendar year (or, if the first year of operation of the relevant Fund Interest, as of its highest Reported Net Asset Value on the last Fund Valuation Date of any month during such first year); or (B) the related Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (iv) *Fund Advisor Event*: (a) that at any time after the Index Live Date, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) is equal to or less than 100,000,000 U.S. Dollars (or its equivalent) or (b) that over any period of twelve months, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) has decreased by fifty per cent. (whether due to redemptions or decrease in the value of such assets or otherwise);
- (v) *Changes to Fund or Fund Service Providers*: (a) any change in the organisation of the Fund or of any Fund Service Provider without the prior written consent of the Index Sponsor including, without limitation, a change of control of, or a change of the main shareholders, managing directors or individual(s) designated as fund manager(s) in the Fund Documents as at the Index Live Date (if any) of a Fund Service Provider, (b) any Fund Service Provider ceasing to act in the relevant capacity in relation to the Fund unless immediately replaced in such capacity by a successor acceptable to the Index Sponsor or (c) any delegation or transfer by the Fund Advisor of any of its powers, duties or obligations under the Fund Documents to a third party without the prior written consent of the Index Sponsor;
- (vi) *Fund Modification*: any change, modification or termination of the related Fund Documents or of any rights attaching to the related Fund Interests (including without limitation any change or modification affecting management policy, the Fund Interest Currency, the Frequency of Fund Interest Valuation, the terms relating to subscription, transfer and/or redemption of such Fund Interest including any change to the form or schedule of payment or notice period) from those prevailing on the Index Live Date and which could reasonably be expected to affect the value of such Fund Interests;
- (vii) *Strategy Breach*: any material breach of or non-compliance with any investment objective, investment restrictions or other strategy or investment guidelines or requirements, subscription and redemption provisions (including, without limitation, the days treated as Fund Business Days) or valuation provisions (including, without limitation, the method of determining the net asset value of the relevant Fund Interest), in each case as set out in the Fund Documents as in effect on the Index Live Date;
- (viii) *Breach by Fund Service Provider*: the breach by any relevant Fund Service Provider of any obligation (including, without limitation, non-compliance with any investment guidelines relating to the Fund Interest), representation or warranties concerning the relevant Fund (including, without limitation, pursuant to any agreement with the Fund), which breach, if capable of remedy, has not been remedied within ten (10) calendar days of its occurrence;
- (ix) *Regulatory Event*: (1) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Advisor that is reasonably likely to have an adverse impact on the value of the related Fund Interest or on any investor therein (as determined by the Index Sponsor) or (2) the related Fund Interest or any of its Fund Service Providers becoming subject to any investigation, proceeding, arbitration, litigation or official action by any relevant governmental, legal or regulatory authority involving the alleged violation of, or non-compliance with, applicable law or regulation in relation to any activities relating to or resulting from the operation of the Fund

or another fund where, in the opinion of the Index Sponsor, such circumstances may have an adverse effect on the Fund or (B) (i) the withdrawal, cancellation, suspension or revocation of any registration, licence or approval of the Fund Interests or the Fund by any governmental, legal or regulatory entity with authority over such Fund Interest or Fund; (ii) the withdrawal, suspension, cancellation or modification of any licence, consent, permit, authorisation or clearance required for the Fund or any one or more of its significant Fund Service Providers to carry out their activities as they are or should be carried out in compliance with applicable law or regulation; and/or (iii) the failure of the Fund and/or the Fund Interests to comply with any applicable requirements from time to time applied by any relevant listing authority, stock exchange, quotation system and/or regulator that allow it to be used to determine amounts due under the Financial Products (or, in the case of (B)(i), (ii) or (iii), any official announcement indicating that any such circumstances may occur);

- (x) *Reporting Disruption:* (A) the occurrence of any event affecting the Fund Interest that, in the determination of the Index Sponsor, would make it impossible or impracticable for the Index Sponsor to determine the value of such Fund Interest and the Index Sponsor does not expect such event to cease in the foreseeable future; (B) any failure of the Fund to deliver, or cause to be delivered, or recipients in general to receive (1) information that such Fund has agreed to deliver, or cause to be delivered to any member of the Morgan Stanley Group or (2) information that has been previously delivered to any member of the Morgan Stanley Group, in accordance with such Fund's, or its authorised representative's, normal practice and that the Index Sponsor deems necessary for it to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund; (C) the Fund ceases, for any reason whatsoever (either directly or through any Fund Service Provider acting on its behalf for this purpose) to provide, publish or make available its net asset value on any Fund Reporting Date; or (D) a Fund Service Provider informs any member of the Morgan Stanley Group that any Reported Net Asset Value of the Fund Interest should not be relied on (whether by reason of it being only a provisional or estimated net asset value or for any other reason) and/or, in the opinion of the Index Sponsor, any Reported Net Asset Value is inaccurate (which, for the avoidance of doubt, includes without limitation circumstances where any net asset value reported by a Fund Service Provider to the Index Sponsor, any member of the Morgan Stanley Group and/or investors in Fund Interests generally differs from any net asset value published on any one or more publishing service);
- (xi) *Compulsory Redemption or Assignment:* (i) the repurchase or redemption by the Fund of all or some of the Fund Interests otherwise than at the request of a holder of such Fund Interests; or (ii) any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) which would mandatorily oblige a holder of Fund Interests to redeem, sell, assign or otherwise dispose of any Fund Interests and which the Index Sponsor determines could affect a Hypothetical Investor;
- (xii) *Closure to Subscriptions; Dealing Restrictions:* (A) the closure of the related Fund to new subscriptions of Fund Interests, or (B) the imposition of any dealing restrictions (including, without limitation, material amendments to relevant documentation, delay (partial or otherwise), suspension or termination (partial or otherwise) of subscription, redemption or settlement) relating to the Fund or transactions in the Fund Interests by any Fund Service Provider, any Affiliate or agent of any Fund Service Provider;
- (xiii) *Disposals: Material Change: Merger:* (A) a disposal to any person(s) of all, or a material part, of the assets of (x) the Fund, or (y) any significant Fund Service Provider; or (B) a material change in the business of the Fund or any significant Fund Service Provider, or (C) the merger, amalgamation or consolidation of the related Fund and/or such Fund Interest with (x) any other sub-fund or compartment of the Fund or (y) any other collective investment undertaking (or sub-fund or compartment of such other collective investment undertaking, including another fund), which, in either case, may, in the determination of the Determination Agent, have an adverse effect on the Fund;
- (xiv) *Fraud:* the Fund is the object of a material fraud which may, in the determination of the Index Sponsor, have an adverse effect on the Fund or the value of Fund Interests; or any act or omission of a Fund Service Provider constitutes fraud (including, but not limited to, theft, misappropriation,

mispricing of holdings or concealment of trades), bad faith, wilful misconduct or negligence, as determined by the Index Sponsor in its reasonable discretion;

- (xv) *Fund Force Majeure Event*: any Fund Service Provider fails to perform any of its obligations pursuant to the Fund Documents to the extent that such performance is prevented, hindered or delayed by a Fund Force Majeure Event, where "**Fund Force Majeure Event**" means any event due to any cause beyond the reasonable control of the applicable Fund Service Provider, such as unavailability of communications system, failure of or interruptions in power supply or network computer systems, sabotage, fire, flood, explosion, acts of God, civil commotion, riots, insurrection or war;
- (xvi) *Delisting*: where there is or was intended to be an Underlying Fund Exchange in respect of the Fund Interests that (A) such Underlying Fund Exchange announces that pursuant to the rules of such Underlying Fund Exchange, such Fund Interests cease (or will cease) being listed or publicly quoted on the Underlying Fund Exchange for any reason and are not immediately re-listed or re-quoted on an exchange or quotation system located in the same country as the Underlying Fund Exchange (or, where the Underlying Fund Exchange is within the European Union, in any Member State of the European Union), or (B) Fund Interests are never so listed or quoted as intended and disclosed in the relevant Fund Documents as at the Index Live Date;
- (xvii) *Fund Accounting Event*: any (i) change in the currency in which the Fund Interest's accounts are denominated; or (ii) material adverse change in the accounting treatment of the relevant Fund which does or could affect a Hypothetical Investor and/or any actual or potential requirement to consolidate its accounts with any such entity; and/or
- (xviii) *Fees or Charges Event*: (i) any charge of a transaction fee for subscription or redemption of Fund Interests; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Interests (whether by the Fund or a Fund Advisor in respect of holders of Fund Interests generally).

"**Fund Interest**" means, in respect of a Fund, a share, unit or other interest in respect of such Fund

"**Fund Interest Currency**" means, in respect of a Fund Interest, the currency in which such Fund Interest is denominated on the Index Live Date as set out in the Fund Documents and as indicated in CCY in the Annex.

"**Fund Potential Adjustment Event**" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (a) an additional amount of Fund Interests, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect

(provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Fund Reporting Date" means, in respect of a Fund Interest and a Fund Valuation Date, the date on which the Reported Net Asset Value of such Fund Interest as determined as of such Fund Valuation Date is reported (as provided in the definition of Reported Net Asset Value).

"Fund Service Provider" means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, to that Fund, whether or not specified in the Fund Documents or any successor acceptable to the Index Sponsor, including without limitation any Fund Adviser, Fund Administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent or domiciliary agent.

"Fund Valuation Date" means, in respect of a Fund Interest, the date as of which such Fund Interest (or its Fund Service Provider that generally determines such value) determines the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Funding Rate" has the meaning given to it in the Annex

"Funding Rate Screen Page" has the meaning given to it in the Annex

"FX Rate" has the meaning given to it in Annex

"FX Rate Screen Page" has the meaning given to it in the Annex

"Hypothetical Investor" means, in respect of a Fund Interest, a hypothetical investor in such Fund Interest deemed to have (a) the benefits and obligations, as provided under the Fund Documents, of an investor holding, as of the Index Live Date, an interest in the relevant Fund in an amount equal to the relevant number of relevant amount of Fund Interests; (b) in the case of any deemed redemption of Fund Interests, to have submitted to the relevant Fund on the relevant Redemption Notice Date, a duly completed notice requesting redemption of the relevant number of such Fund Interests; and (c) in the case of any deemed investment in Fund Interests, to have submitted, on the Index Live Date, a duly completed notice to the relevant Fund, requesting subscription to the relevant number of Fund Interests;

"Hedging Disruption" occurs if the Index Sponsor determines that a hypothetical market participant would as a result of extraordinary market circumstances relating to an Index Component, be unable, after using commercially reasonable efforts, to:

- a) Acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments it deems necessary to hedge its position in relation to any securities issue or other relevant transactions relating to or calculated by reference to the Index; or
- b) Realize, recover or remit the proceeds of any such transactions or instruments.

"Index" has the meaning given to it in Section 1 (*Introduction*).

"Index Base Date" 14th October 2021

"Index Business Day" has the meaning given to it in the Annex

"Index Calculation Agent" has the meaning given to it in Section 5 (*Index Calculation Agent*).

"Index Committee" has the meaning given to it in Section 12 (*Governance*).

"Index Component" means each component specified in Annex 1 hereto.

"Index Component Adjustment Event" means a Fund Potential Adjustment Event.

"Index Component Disrupted Day" means any day which is an Underlying Fund Disrupted Day.

"Index Component Disruption Event" means the occurrence of an event that results in the occurrence of an Index Component Disrupted Day.

“Index Component Price Source” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Scheduled Trading Day” means, in respect of each Index Component where the Index Component Type in respect of such Index Component is:

- (i) Fund, a Fund Valuation Date in respect of such Fund.

“Index Component Screen Page” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Type” means, in respect of each Index Component, as specified in the Annex hereto.

“Index Component Underlying Price Source” means, in respect of an Index Component, any information service, exchange or data source used to calculate the price or level of any share, security, commodity, rate, index or other component included in such Index Component, as determined by the Index Calculation Agent.

“Index Component Value” means, in respect of an Index Component which is a Fund, the Underlying Fund Price in respect of such Fund.

“Index Currency” has the meaning given to it in the Annex.

“Index Funding Rate” has the meaning given to it in the Annex

“Index Funding Rate Screen Page” has the meaning given to it in the Annex

“Index Level” means, in respect of each Index Business Day, an amount, expressed in the Index Currency, being the level of the Index in respect of such Index Business Day, as determined in accordance with Section 7 (*Index Level*). If Return Type is set to Total Return, the Index Level is then equal to Total Return Index Level as determined in accordance with Section 7.1. If Return Type is set to Excess Return, the Index Level is then equal to Excess Return Index Level as determined in accordance with Section 7.2.

“Index Live Date” has the meaning given to it in the Annex

“Index Publication Time” has the meaning given to it in Section 8 (*Publication*).

“Index Sponsor” has the meaning given to it in Section 4 (*Index Sponsor*).

“Initial Index Level” has the meaning given to it in the Annex

“IOSCO” has the meaning given to it in Section 12 (*Governance*).

“Market Disruption Event” means, in respect of:

- (i) a Fund, an Underlying Fund Disruption Event in respect of such Fund.

“Material Change” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“MiFID II” means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as may be amended or replaced from time to time).

“Morgan Stanley Group” has the meaning given to it on the front page of this Description.

“MSIP” has the meaning given to it in Section 3 (*Overview*).

“MS Benchmark Statement” has the meaning given to it in Section 1 (*Introduction*).

“NB Shares Basket” has the meaning given to it in Section 7

"Price Source Disruption" means any Index Component Price Source, Index Component Underlying Price Source, Index Funding Rate Screen Page, Funding Rate Screen Page or other source data required to calculate the Index is insufficient, inaccurate or unreliable or not available whether due to temporary or permanent discontinuance or failure of the price source for such data or otherwise, as determined by the Index Calculation Agent.

"Potential Adjustment Event" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (A) an additional amount of Fund Interests, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Principles" has the meaning given to it in Section 12 (*Governance*).

"Redemption Notice Date" means, in respect of a Fund Interest, the last date on which a Hypothetical Investor in such Fund Interest would be permitted, pursuant to the Fund Documents of the related Fund, to submit a redemption notice that would be timely for a redemption as a Scheduled Redemption Valuation Date

"Redemption Proceeds" means, in respect of the relevant amount of Fund Interests, the redemption proceeds that in the determination of the Index Sponsor would be paid by the relevant Fund to a Hypothetical Investor who, as of the relevant Redemption Valuation Date, redeems such amount of Fund Interests and (for the avoidance of doubt after deduction of any tax, levy, charge, assessment or fee of any nature that, in the determination of the Index Sponsor, would (or would be very likely to) be withheld or deducted from such amount); provided that (i) any such proceeds that would be paid in property other than cash shall be deemed to have a value of zero and (ii) if the Hypothetical Investor would be entitled to elect payment of such redemption proceeds to be made either in the form of cash or other property, then the Hypothetical Investor shall be deemed to have elected cash payment.

"Redemption Valuation Date" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date as of which the relevant Fund (or its Fund Service Provider that generally determines such value) determines the net asset value of Fund Interests for purposes of calculating the redemption proceeds to be paid to a Hypothetical Investor that has submitted a valid notice for redemption on or before the related Redemption Notice Date.

"Relevant Fund" has the meaning given to such term in Section 10.3 (*Consequences of Fund Events*).

"Removal Value" means, in respect of a Relevant Fund and the Fund Interest in respect of such Relevant Fund, the value calculated by the Index Sponsor in the same manner as would be used in determining the

Underlying Fund Price of Fund Interests in the related Fund. Where the Removal Value is required to be converted into the Index Currency it shall be so converted by the Index Sponsor at such time and by reference to such sources as it deems appropriate.

"Reported Net Asset Value" means, in respect of any Fund Interest and a Fund Reporting Date relating to such Fund Interest, the official net asset value per Fund Interest as of the related Fund Valuation Date or, if the related Fund reports only its aggregate net asset value, the portion of such Fund's aggregate net asset value relating to a Fund Interest as of the related Fund Valuation Date, in each case as reported on the Fund Reporting Date relating to such Fund Valuation Date by the Fund Service Provider that generally reports such value on behalf of the Fund to its investors or a publishing service.

"Return Type" has the meaning given to it in the Annex

"Scheduled Fund Valuation Date" means, in respect of a Fund Interest, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Scheduled Redemption Payment Date" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date by which the related Fund is scheduled to have paid, according to its Fund Documents, all or a specified portion of the Redemption Proceeds to an investor that has submitted a timely and valid notice requesting redemption of such Fund Interest as of such Scheduled Redemption Valuation Date.

"Scheduled Redemption Valuation Date" means, in respect of a Fund Interest and any relevant day, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the net asset value of such Fund Interest for the purposes of calculating the redemption proceeds to be paid to an investor that has submitted a valid and timely notice for redemption of Fund Interests based on the value determined as of the Scheduled Redemption Valuation Date for which the Scheduled Redemption Payment Date falls on or immediately prior to such day.

"SEK" means Swedish Krona.

"Successor Source" means, in relation to any display page, other published source, information vendor or provider:

- (i) the successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original page or source; or
- (ii) if the sponsor of the original page or source has not officially designated a successor display page, other published source, service or provider (as the case may be), the successor display page, other published source, service or provider, if any, designated by the relevant information vendor or provider (if different from such sponsor).

"TARGET2 Settlement Day" means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (TARGET2) is open.

"Termination of Data Licence" means the occurrence of a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data is supplied to compile or calculate the Index.

"Theoretical Exposure" has the meaning given to it in Section 7.1.3.

"Underlying Fund Disrupted Day" means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing.

"Underlying Fund Disruption Event" means, in respect of a Fund, any of the following events:

Description of the MS Global Equity Fund 16% Risk Control ER Index

- (i) in respect of any Fund Interest, the failure of (i) an Index Business Day to be a Fund Valuation Date or any continued postponement or suspension of such Fund Valuation Date; and/or (ii) there to be a Fund Reporting Date and/or Reported Net Asset Value relating to the relevant Fund Valuation Date;
- (ii) in respect of any Fund Interest (a) there is a failure by the Fund to pay the full amount (whether expressed as a percentage or otherwise) of the Redemption Proceeds in the Fund Interest Currency with respect to the relevant amount of such Fund Interest scheduled to have been paid on or by such day according to the Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of such Fund Interests) or (b) a Hypothetical Investor which had submitted a valid redemption notice in respect of such Fund Interest on the last date permitted pursuant to the relevant Fund Documents would, in the reasonable opinion of the Index Sponsor, not have received in full the Redemption Proceeds in respect of such redemption(s) on or before the date it was scheduled to do so in accordance with the Fund Documents; and/or
- (iii) any closure other than for ordinary public holidays and/or any restriction or suspension in trading of foreign exchange markets or money markets in a relevant Fund Interest Currency or Index Currency that, in the opinion of the Index Sponsor, would have a material effect on the ability market participants to effect transactions in such markets,

provided that if any event would otherwise be both an Underlying Fund Disruption Event and Fund Event, such event shall be treated solely as a Fund Event.

“Underlying Fund Exchange” means, in respect of a Fund Interest, the principal exchange or quotation system for such Fund Interest, as determined by the Index Sponsor, and any successor to such exchange or quotation system or any substitute exchange or quotation system to which such Fund Interest have temporarily relocated.

“Underlying Fund Price” means, in respect of a Fund Interest and the Underlying Fund Valuation Time on any relevant day, the Reported Net Asset Value of such Fund Interest for the related Fund Valuation Date falling on such day.

“Underlying Fund Valuation Time” means, in respect of a Fund Interest, the time on or in respect of any relevant day at which the applicable Underlying Fund Price is scheduled to be determined in accordance with the relevant Fund Documents.

10. *Adjustment Provisions*

10.1 *Adjustment Events*

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may acting in good faith and a commercially reasonable manner:

- (i) substitute any Index Component or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate;
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the “**Relevant Day**”) shall be equal to the Index Component Value in respect of such Relevant Day;
- (iv) reallocate the portion of the Index exposed to any Index Component which is affected by such Adjustment Event to the cash until the next Index Business Day on which it determines that no Adjustment Event exists (and make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such reallocation);
- (v) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
- (vi) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
- (vii) cancel the Index and permanently cease to calculate the Index Level.

10.2 *Determinations made by the Index Sponsor in respect of Fund Potential Adjustment Events and Fund Events may have an adverse effect on the value of a Financial Product*

Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (*Adjustment Events*) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (*Adjustment Events*) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or re-classification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.

10.3 *Adjustment procedures, notification and consultation process*

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index.

While the Index Sponsor currently employs this methodology, no assurance can be given that fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances will not arise that would, in the view of the Index Sponsor, necessitate or make desirable a modification or change to this Description.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a “**Change**”) which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a “**Material Change**”) the Index Sponsor will give prior notice to Financial Product Investors that a Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days’ notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

10.4 *Consequences of Fund Events*

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a “**Relevant Fund**”), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of

the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such sources as it considers appropriate including, but not limited to, the value that a third party on arms' length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

11. Errors and Corrections

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

12. Governance

Morgan Stanley has adopted the "Principles for Financial Benchmarks" published by the International Organization of Securities Commissions ("**IOSCO**") on 17 July 2013 (the "**Principles**") on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the "**Index Committee**").

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

13. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;

Description of the MS Global Equity Fund 16% Risk Control ER Index

- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator, supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;
- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

14. *Important Information*

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at complaints@ms@morganstanley.com.

ANNEX

INDEX MAIN DEFINITIONS:

Index Currency	SEK
Initial Index Level	100
Index Business Day	means a day (i) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London and Oslo (“LNB” and “OSB”) (ii) for which the Nasdaq Stockholm Exchange and the NYSE are open for trading during their regular trading session (“STS” and “NYS”) and (iii) which is a Fund Valuation Date in respect of each Index Component
Index Base Date	14 th October 2021

OVERVIEW OF THE MS GLOBAL EQUITY FUND 16% RISK CONTROL ER INDEX

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Rules. The Index is governed by the Index Rules and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to an equally weighted basket of two equity mutual funds, as described below (the “**Basket**”), whilst maintaining a volatility at or around 16% (the “**Target Volatility**”). To pursue this objective, the Index implements a daily “*Risk Control Mechanism*” which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Basket. When volatility increases, the Index reduces exposure to Basket and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Basket, up to a maximum exposure of 150%, and reduces its exposure to cash.

When the Index’s exposure to the Basket is higher than 100%, the Index uses a “leveraged” exposure to the underlying funds. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying funds. The maximum leverage the Index can employ is capped at 150%.

The Basket is invested in each of the two underlying Funds with equal weighting (50%/50%). As the daily performance of each Fund fluctuates, the effective weight of each Fund within the Basket will vary from the weight it was originally assigned. As a result, the Basket operates at the end of each calendar month a re-weighting of the Funds to their original weights.

Does the Index represent a physical investment in the Basket?

The Index can be described as a “notional” investment in the Basket or as a “synthetic portfolio” as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does “Excess Return” mean?

The Index is construed as an “**Excess Return**” asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Basket. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is to be opposed to a Total Return investment which assumes that such investment is fully funded.

What does “Decrement” mean?

The Index is calculated by deducting a 2.00% per annum* percentage rate (the “**Decrement**”) applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 2.00% lower than what it would otherwise be without such deduction.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 16% by allocating exposure to the Basket based on the realised volatility of the Basket itself. The target weight assigned by the Index to the Basket on any business day is the ratio of 16% to the realised volatility of the Basket. The realised volatility of the Basket is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Funds experience higher volatility, it means greater changes in their price. In such environment, exposure to the Funds can produce unpredictable results. Volatility can anticipate both a decline or a rebound in the Funds. A “volatility target” mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Funds. In practical terms, when exposure to the Funds is reduced, the level of the Index is less sensitive to the volatility of such Funds and therefore will suffer less from a decline in the performance of the Funds. A “volatility target” mechanism can however also hinder the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Basket is 0% even when the Basket volatility has reached a level higher than the Target Volatility. As a result, exposure to the Basket cannot be negative.

What are the Funds underlying the Index?

<i>Name of Reference Fund</i>	<i>Bloomberg Code</i>	<i>ISIN</i>	<i>Share Class Type</i>	<i>Investment Manager</i>	<i>Weight in the Basket</i>	<i>Web-site to obtain further information</i> *

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Basket which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Funds. In general terms, if the Funds increase in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to such Funds as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Funds that make up the Basket. This cost is represented by the Stockholm Interbank 3-month rate. The higher the borrowing rates, the lower the performance of the Index. In an environment where borrow rates are significant, the Index may exhibit material underperformance when compared to a direct investment in the underlying Funds.
- The Index is calculated by deducting a 2.00% per annum decrement percentage rate, which is deducted daily pro rata. This means that the Index annual performance would be on average 2.00% lower than what it would otherwise be without such decrement.

Simulated Historical Track Record of the Index

The below chart represents the simulated historical performance of the Index in comparison with the simulated historical performance of the Basket.

This is not actual historical performance and it should not be taken as an indication of future performance of the Index or the Basket.

Description of the MS Global Equity Fund 16% Risk Control ER Index

DESCRIPTION OF THE MS NORDIC REAL ESTATE FUND 16% RISK CONTROL ER INDEX

Bloomberg Page: MSFDRE16

The MS Nordic Real Estate Fund 16% Risk Control ER Index is the exclusive property of Morgan Stanley & Co. International plc and its Affiliates (the “**Morgan Stanley Group**”). Morgan Stanley and the MS Nordic Real Estate Fund 16% Risk Control ER Index are trade marks of the Morgan Stanley Group and no person or entity should refer to any of the trade marks without the consent of a member of the Morgan Stanley Group and should not use any of the information in this Description for any purpose other than in relation to an investment or otherwise in connection with any Financial Product (as defined below) for which such consent has been obtained. The non-exclusive right to use the MS Nordic Real Estate Fund 16% Risk Control ER Index as an underlying reference basis or otherwise for any Financial Product is granted only upon completion of a license agreement with a member of the Morgan Stanley Group. The Index Sponsor, the Index Calculation Agent and each member of the Morgan Stanley Group disclaim any responsibility for any unauthorised use of the MS Nordic Real Estate Fund 16% Risk Control ER Index by any third party.

No representation is made by any member of the Morgan Stanley Group with respect to the eligibility of the MS Nordic Real Estate Fund 16% Risk Control ER Index for investment for investment (including, but not limited to, compliance with the UCITS Directive (2009/65/EC), as amended and supplemented from time to time (the “**UCITS Directive**”), or its use in connection with any Financial Product to be entered into or held, by any prospective investor. Prospective investors should make their own independent analysis of whether the MS Nordic Real Estate Fund 16% Risk Control ER Index meets the eligibility criteria for their investment (including, but not limited to, compliance with the UCITS Directive) or use by them in relation to the relevant Financial Product and of whether the MS Nordic Real Estate Fund 16% Risk Control ER Index responds to their criteria, needs and objectives for investment or otherwise. The term “investor” will include any counterparty, holder or contract party in relation to a Financial Product.

Nothing contained in this Description should be construed as an offer or solicitation to purchase or sell securities or to enter into any transaction or engage in investment activity of any kind. If you do invest in a Financial Product or engage in any other investment activity, you should ensure that you fully understand the nature of such investment and the risks involved and are satisfied that the investment is suitable and appropriate for your circumstances. If you are in any doubt about this you should take advice from an appropriately qualified advisor.

This Description does not constitute investment, taxation, legal, accounting or other advice, including within the meaning of Article 53 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 or investment advice within the meaning of Article 4(4) of MiFID II.

1. Introduction

This Description sets out the methodology of the MS Nordic Real Estate Fund 16% Risk Control ER Index (the “**Index**”) and the basis on which the Index is calculated.

This Description is intended to provide the information relating to the Index required by the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 ((EU) 2016/1011)) (as amended) (the “**Benchmarks Regulation**”) as it forms part of “retained EU law” in the United Kingdom as defined in the European Union (Withdrawal) Act 2018 (as amended from time to time) (the “**UK Benchmarks Regulation**” and, together with the EU Benchmarks Regulation, the “**Benchmarks Regulation**”). This Index is a non-significant and regulated data benchmark for the purposes of the UK Benchmarks Regulation.

As at the date of publication of this Description, Morgan Stanley & Co. International plc appears on the register of benchmark administrators established and maintained by the Financial Conduct Authority pursuant to Article 36 of the Benchmarks Regulation. Morgan Stanley & Co. International plc’s benchmark statement (the “**MS Benchmark Statement**”) can be accessed via the following link: https://www.morganstanley.com/content/dam/msdotcom/en/assets/pdfs/sales_and_trading_disclosures/M_SIP_Benchmark_Statement-Multi-Asset_Signal-based_Benchmark_Family.pdf

Subject as provided in Section 10 (*Adjustment and Disruption Provisions*), this Description is subject to change or adjustment at any time (including, without limitation, in accordance with the requirements of the UK Benchmarks Regulation) and will be superseded by any subsequent Description. A copy of the current version of the Description can be obtained following the method described in Section 8 (*Publication*).

No one may reproduce, distribute or disseminate this Description, any information contained in this Description or any Index Level (as applicable) without the prior written consent of the Index Sponsor. This Description is not intended for distribution to, or use by any person in, a jurisdiction where such distribution is prohibited by law or regulation.

ESG Disclosures pursuant to Commission Delegated Regulation (EU) 2020/1817 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards the minimum content of the explanation on how environmental, social and governance factors are reflected in the benchmark methodology, as on-shored in the United Kingdom by way of The Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019:

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Morgan Stanley & Co. International plc
Item 2. Type of benchmark or family of benchmarks.	Multi Asset
Item 3. Name of the benchmark or family of benchmarks.	Multi Asset Signal-based
Item 4. Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	No

2. *Overview*

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Summary

The Index aims to provide exposure to the Index Components and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a “notional” or synthetic exposure to the Index Component and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Component and a rules-based strategy, the performance of which is used as a reference point for calculating Index Levels.

This Section 3 (*Overview*) is subject to, and qualified by, the remainder of this Description.

3. *Index Sponsor*

The Index has been developed by Morgan Stanley & Co. International plc (“MSIP”). The Index is administered by the index sponsor or any successor thereto (the “**Index Sponsor**”). The initial Index Sponsor is MSIP.

The Index Sponsor controls the creation and operation of the Index administrative process, including all stages involved in the production and dissemination of the Index. The Index Sponsor also is responsible for the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of this Description. Notwithstanding that the Index relies on information from third party sources, the Index Sponsor has primary responsibility for all aspects of the Index administration and determination process.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

The Index Sponsor is not acting as a manager or an investment advisor in relation to the Index and has no relationship of agency or trust or any fiduciary duty to any person in respect of the Index and is not required to take the interests of any person into account in making any determination or calculation in relation to the Index.

The Index Sponsor makes no warranty or representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

No Financial Product is sponsored, endorsed, sold or promoted by MSIP or the Index Sponsor, and neither MSIP nor the Index Sponsor makes any express or implied representations or warranties as to (a) the advisability of purchasing or assuming any risk in connection with any Financial Product,

(b) the levels at which the Index stands at any particular time on any particular date, (c) the results to be obtained by the issuer or obligor of any Financial Product, or any Financial Product Investor, or any other person or entity from the use of the Index or any data included therein in connection with any licensed rights or for any other use or (d) any other matter. Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP/ or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP may in its sole and absolute discretion delegate and/or transfer any of its obligations and/or functions in relation to the administration and determination of the Index to one or more third parties as it deems appropriate from time to time. MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

4. *Index Calculation Agent*

The Index is calculated by MSIP (or any successor thereto) (the “**Index Calculation Agent**”).

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent’s calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. The term “manifest error” as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without (i) recourse to the underlying data or (ii) any application or re-application of any formulae. No person (whether a Financial Product Investor or otherwise) will be entitled to proceed (and shall be deemed to have agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to the Index.

For so long as the Index Calculation Agent constitutes and calculates the Index, the Index Calculation Agent does not accept any liability for loss or damage of any kind (including, without limitation, any special, punitive, indirect or consequential damages (including loss of profits)) arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index itself and disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any information in connection with it.

5. *Index Data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the Index Component Value, the Index Funding Rate and the Funding Rate in respect of each Index Component as published on the relevant Index Component Price Source in respect of such Index Component.

No assurance can be given that any such Index Component Values, Index Funding Rate or Funding Rate will be published on the relevant Index Component Price Source, on the Index Funding Rate Screen Page or on the Funding Rate Screen Page accurately, in a timely manner or at all and the Index Sponsor and the Index Calculation Agent have relied on, and will rely on, such Index Component Values and Funding Rate as they are published on the relevant Index Component Price Source or Funding Rate Screen Page. Neither the Index Sponsor nor the Index Calculation Agent has independently verified the information extracted from such sources and accepts no responsibility or liability in respect thereof.

6. Calculation of the Index

6.1 Total Return Index Level

The Total Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Total Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$TRIndex_t = \text{Max} \left(0, TRIndex_{t-1} \times \left[1 + \text{Effective Exposure}_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 \right) + (1 - \text{Effective Exposure}_{t-1}) \times Rate_{t-1} \times \frac{\Delta t}{DayCount} \right] - TC_t \right) \times (1 - AF_t)$$

Where:

max, followed by amounts (or values) inside brackets, means whichever is the greater of the amounts (or values) separate by a semi-colon inside such brackets;

TRIndex Level(t-1) means the Total Return Index Level in respect of the Index Business Day immediately preceding Index Business Day t;

Effective Exposure(t-1) means the Effective Exposure in respect of Index Business Day t-1, calculated as per paragraph 7.3 below;

Basket(t) means the Basket Level in respect of Index Business Day t, calculated as per paragraph 7.7 below;

Basket(t-1) means the Basket Level in respect of the Index Business Day immediately preceding Index Business Day t;

Rate(t-1) means the Index Funding Rate in respect of the Index Business Day immediately preceding Index Business Day t;

Δt means the number of calendar days from (and including) the Index Business Day immediately preceding Index Business Day t to (but excluding) Index Business Day t;

DayCount means 360;

TC(t) means the Transaction Cost in respect of Index Business Day t and is an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$TC_t = |Nb\ Shares\ Basket(t) - Nb\ Shares\ Basket(t-1)| \times Basket(t) \times RC$$

Where RC is the Rebalancing Cost and has the meaning given to it in the Annex

$AF(t)$ means, the Accrued Fee in respect of Index Business Day t , an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$AF(t) = \left[\frac{\Delta t}{DayCount} \times Decrement Rate \right]; \text{ and}$$

Decrement Rate has the meaning given to it in the Annex

6.2 **Excess Return Index Level**

The Excess Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Excess Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$ERIndex_t = Max \left(0, ERIndex_{t-1} \times \left[1 + Effective Exposure_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 - Rate_{t-1} \times \frac{\Delta t}{DayCount} \right) \right] - TC_t \right) \times (1 - AF_t)$$

6.3 **Calculation of the Exposure**

The theoretical exposure (the “Theoretical Exposure”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$TheoreticalExposure_t = Min[maxExposure, UnconstrainedExposure_t]$$

Where:

$$UnconstrainedExposure_t = \frac{Vol Target}{Realised Volatility (t)}$$

The exposure (the “**Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where Rebalance Rule is set as “ABSOLUTE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } |TheoreticalExposure_t - Exposure_{t-1}| > Threshold \\ Exposure_{t-1}, & \text{Otherwise} \end{cases}$$

- Where Rebalance Rule is set as “RELATIVE INVERSE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } \left| \frac{Exposure_{t-1}}{UnconstrainedExposure_t} - 1 \right| > Threshold \\ Exposure_{t-1}, & \text{Otherwise} \end{cases}$$

Where:

maxExposure has the meaning given to it in the Annex

VolTarget has the meaning given to it in the Annex

Threshold has the meaning given to it in the Annex

Lag means has the meaning given to it in the Annex

Realised Volatility (t-Lag) means the Realised Volatility in respect of Index Business Day (t-Lag)

6.4 Calculation of the Number of Shares Basket

The number of shares of the basket (the “Number of Shares Basket”) in respect of any Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

Where Index Business Day t is the Index Base Date or any of the following Lag – 1 Index Business Days:

$$NbShares\ Basket(t) = 0$$

Where Index Business Day t falls on any subsequent day:

- In respect of the Total Return Index:

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times TRIndex_{t-Lag}}{Basket_{t-Lag}}$$

- In respect of the Excess Return Index

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times ERIndex_{t-Lag}}{Basket_{t-Lag}}$$

6.5 Calculation of the Effective Exposure

The effective exposure (the “Effective Exposure”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

- In respect of the Total Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{TRIndex_t}$$

- In respect of the Excess Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{ERIndex_t}$$

6.6 Calculation of the Realised Volatility

The Realised Volatility in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where the Realised Volatility Format is set as ARITHMETIC in the Annex:

$$Realised\ Volatility(t) = Max(ST\ Vol(t), LT\ Vol(t))$$

Where:

$$ST\ Vol(t) = \sqrt{\frac{252}{ST\ Tenor \times STReturn\ Size} \times \sum_{k=t-STTenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-STReturn\ Size)}\right)^2}$$

$$LT Vol (t) = \sqrt{\frac{252}{LT Tenor \times LTReturn Size} \times \sum_{k=t-LT Tenor-1}^t \ln\left(\frac{Basket (k)}{Basket (k - LTReturn Size)}\right)^2}$$

- Where the Realised Volatility Format is set as GEOMETRIC in the Annex:

$$Realised Volatility (t) = Max (ST Vol (t), LT Vol (t))$$

Where:

ST Vol (t) means:

- (vii) Where such Index Business Day is the Index Base Date or any of the immediately following ST Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = Initial Volatility$$

- (viii) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = \sqrt{\lambda_{ST} \times ST Vol (t - 1)^2 + (1 - \lambda_{ST}) \times \ln\left(\frac{Basket_t}{Basket_{t-ST Return Size}}\right)^2 \times \frac{252}{ST Return Size}}$$

LT Vol (t) means:

- (vii) Where such Index Business Day is the Index Base Date or any of the immediately following LT Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = Initial Volatility$$

- (viii) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = \sqrt{\lambda_{LT} \times LT Vol (t - 1)^2 + (1 - \lambda_{LT}) \times \ln\left(\frac{Basket_t}{Basket_{t-LT Return Size}}\right)^2 \times \frac{252}{LT Return Size}}$$

Where:

λ_{ST} has the meaning given to it in the Annex

ST Tenor has the meaning given to it in the Annex

ST Return Size has the meaning given to it in the Annex

λ_{LT} has the meaning given to it in the Annex

LT Tenor has the meaning given to it in the Annex

LT Return Size has the meaning given to it in the Annex

6.7 Calculation of the Basket

7.7.1 Calculation of the Basket Level

The basket level (the “Basket Level”) in respect of the Initialisation Date shall be equal to the Initial Basket Level as defined in the Annex.

The Basket Level in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Basket_t = Basket_{t-1} + Performance_t + CashPerformance_t + FundingCost_t - AHC_t$$

Where:

$Performance_t$ is defined in section 7.7.2

$CashPerformance_t$ is defined in section 7.7.3

$FundingCost_t$ is defined in section 7.7.4

AHC_t is defined in section 7.7.5

7.7.2 Calculation of the Basket Performance

The basket performance (the “Basket Performance”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Performance_t = \sum_{i=1}^N Units_{i,t-1} \times (CL_{i,t} - CL_{i,t-1}) \times FX_{i,t}$$

Where:

N is the number of Index Components within the Basket as defined in the Annex

$Units_{i,t-1}$ is the Number of Units of Basket Component i in respect of Index Business Day t-1 as defined in Section 7.6.5

$CL_{i,t}$ means the Index Component Value of Basket Component i in respect of Index Business Day t

$FX_{i,t}$ means the FX Rate for Basket Component i in respect of Index Business Day t

7.7.3 Calculation of the Cash Performance

The cash performance (the “Cash Performance”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$CashPerformance_t = CashBalance_{t-1} \times Rate_{t-1} \times DCF_{t-1,t}$$

Where:

$$CashBalance_t = Basket_t - \sum_{i=1}^N Units_t^{i|Funded \cap IndexCCY} \times CL_t^{i|Funded \cap IndexCCY}$$

$i|Funded \cap IndexCCY$ means the Basket Component i, where such Basket Component is specified as Funded in the Annex and is denominated in the same currency as the Index Currency

$DCF_{t-1,t}$ means the number of calendar days from (and including) Index Business Day t-1 to and (excluding) Index Business Day t divided by 360.

7.7.4 Calculation of the Funding Cost

The funding cost (the “Funding Cost”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$FundingCost_t = \sum_{CCY} FundingBalance_{t-1}^{CCY} \times (Rate_{t-1}^{CCY} + Spread^{CCY}) \times DCF_{t-1,t} \times FX_{CCY,t}$$

Where:

$$FundingBalance_t^{CCY} = - \sum_{i=1}^N Units_t^{i|Funded \cap CCY} \times CL_t^{i|Funded \cap CCY}$$

$i|Funded \cap CCY$ means the Basket Component i, where such Basket Component is specified as Funded in the Annex and is denominated in currency CCY provided that such currency is other than the Index Currency

$Rate_{t-1}^{CCY}$ means the Funding Rate for currency CCY as defined in the Annex

$Spread^{CCY}$ means the Funding Spread for currency CCY as defined in the Annex

7.7.5 Calculation of the Aggregate Holding Cost

The aggregate holding cost (the “Aggregate Holding Cost”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$AHC_t = \sum_{i=1}^N N_{i,t-1} \times CL_{i,t} \times FX_{i,t} \times HC_i \times DCF_{t-1,t}$$

Where:

HC_i is the Holding Cost for Basket Component i as specified in the Annex.

7.7.6 Calculation of the Number of Units of Basket Components

On the Initialisation Date, the Number of Units invested in the Basket Component i per unit of the Basket is calculated by the Index Calculation Agent in accordance with the following formula:

$$N_{i,t=0} = 0$$

In respect of any Index Business Day thereafter:

- If t is a Scheduled Basket Rebalancing Day:

$$N_{i,t} = \frac{W_i \times Basket_{Max(0,t-BasketUnitLag)}}{CL_{i,Max(0,t-BasketUnitLag)} \times FX_{i,Max(0,t-BasketUnitLag)}}$$

- Otherwise

$$N_{i,t} = N_{i,t-1}$$

Where:

W_i means the Weight for Basket Component i as defined in the Annex

6.8 *Miscellaneous*

Each Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

6.9 *Index Live Date and Retrospective Calculations*

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the “**Back-test Period**”) has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

7. *Publication*

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the “**Index Publication Time**”) on the second Index Business Day immediately following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Description of the MS Nordic Real Estate Fund 16% Risk Control ER Index

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

8. Definitions

“**Adjustment Event**” means (i) an Index Component Disruption Event, (ii) a Disruption Event, (iii) a Force Majeure Event, (iv) an Index Component Adjustment Event.

“**Affiliate**” means in relation to any entity (the “**First Entity**”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes, “control” means ownership of a majority of the voting power of an entity.

“**Accrued Fee**” has the meaning given to it in Section 7.1

“**Back-test Period**” has the meaning given to in Section 7. (*Index Live Date and Retrospective Calculations*).

“**Basket Mechanism**” has the meaning given to it in Section 7.1.4.

“**Basket Unit Lag**” has the meaning given to it in the Annex

“**Benchmarks Regulation**” has the meaning given to it in Section 1 (*Introduction*).

“**Bloomberg**” means Bloomberg L.P. or any of its Affiliates, or any successor market price information provider(s).

“**Bloomberg Page**” has the meaning given to it in the Annex or any Successor Source thereto

“**Change**” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“**Change in Law**” means there has been a change in applicable law or regulation or the promulgation of or any change in the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation that prevents or will prevent the Index Sponsor and/or the Index Calculation Agent from calculating and/or publishing the Index.

“**Description**” has the meaning given to it on the second page of this Description.

“**Disappearance or Unavailability Event**” means there is (i) a permanent discontinuation of trading in an Index Component or (ii) a disappearance or permanent discontinuance or unavailability of an Index Component Value, notwithstanding the status of trading in the relevant Index Component (if applicable), or any other source data required to calculate the Index.

“**Disrupted Day**” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing in respect of such Fund.

“**Disruption Event**” means each of (i) a Change in Law, (ii) a Disappearance or Unavailability Event, (iii) a Hedging Disruption, (iv) a Price Source Disruption Event or (v) a Termination of Data Licence.

“**Financial Product**” has the meaning given to it in Section 2 (*Risk Factors and Investment Considerations*).

“**Financial Product Investor**” has the meaning given to in in Section 2 (*Risk Factors and Investment Considerations*).

“**Force Majeure Event**” means an event or circumstance has occurred beyond the reasonable control of the Index Sponsor (including, without limitation, a systems or IT failure (including, without limitation, a systems breakdown, incomplete or ineffective upgrade, malfunction, malware, virus or other similar circumstances affecting the Index Sponsor’s information technology and related processing systems), fire, flood, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) which directly or indirectly prevents or otherwise affects the determinations of the Index Sponsor and/or the Index Calculation Agent in relation to the Index.

“Frequency of Fund Interest Valuation” means, in respect of a Fund Interest, the frequency of occurrence of a Fund Business Day of such Fund Interest as determined by reference to the Fund Documents in effect on the Index Live Date.

“Fund” means, in respect of a Fund Interest, the issuer of, or other legal arrangement (including, if applicable, any class or series) giving rise to such Fund Interest as specified in Annex 1 hereto.

“Fund Administrator” means, in respect of a Fund, any fund administrator, manager, trustee or similar person responsible for the administration of such Fund and the determination and reporting of any official price or value of such Fund according to the Fund Documents or any successor acceptable to the Index Sponsor.

“Fund Advisor” means any person appointed in the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor to a discretionary investment manager or to another non-discretionary investment advisor) for such Fund and/or a Fund Administrator and/or any other person(s) designated in the Fund Documents as responsible for the oversight of the Fund, or any successor to any such person acceptable to the Index Sponsor.

“Fund Business Day” means, in respect of a Fund, each of a Scheduled Fund Valuation Date and any day on which the Fund or the primary Fund Administrator acting on behalf of the Fund is scheduled to effect subscription and redemption requests.

“Fund Documents” means, in respect of a Fund and the related Fund Interest, the constitutive and governing documents, subscription agreements and other agreements of the related Fund specifying the terms and conditions of such Fund Interest (including, without limitation, the prospectus, information memorandum or other offering document issued by such Fund in connection with such Fund Interest), in each case and unless where otherwise specified, as amended and/or supplemented from time to time.

“Fund Event” means, the occurrence or announcement by the Fund or a Fund Service Provider at any time of any of the following events:

- (i) *Nationalisation*: all the Fund Interests or all or substantially all the assets of the Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (ii) *Fund Insolvency Event*: in respect of a Fund Interest and the related Fund (a) the Fund and/or any Fund Service Provider (A) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (B) makes a general assignment or arrangement with or for the benefit of its creditors; (C)(1) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in (1) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within 15 days of the institution or presentation thereof; (D) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (E) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 15 days thereafter; or (F) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in (A) through (E) above; or (without prejudice to the foregoing) (b) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous

proceeding affecting a Fund, (A) all the Fund Interests are required to be transferred to a trustee, liquidator or other similar official or (B) holders of Fund Interests become legally prohibited from transferring them;

- (iii) *NAV Trigger/Restriction Event*: in respect of a Fund Interest (A) the Reported Net Asset Value as of the last Fund Valuation Date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the Reported Net Asset Value as of the Fund Valuation Date of the same month in the immediately preceding calendar year (or, if the first year of operation of the relevant Fund Interest, as of its highest Reported Net Asset Value on the last Fund Valuation Date of any month during such first year); or (B) the related Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (iv) *Fund Advisor Event*: (a) that at any time after the Index Live Date, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) is equal to or less than 100,000,000 U.S. Dollars (or its equivalent) or (b) that over any period of twelve months, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) has decreased by fifty per cent. (whether due to redemptions or decrease in the value of such assets or otherwise);
- (v) *Changes to Fund or Fund Service Providers*: (a) any change in the organisation of the Fund or of any Fund Service Provider without the prior written consent of the Index Sponsor including, without limitation, a change of control of, or a change of the main shareholders, managing directors or individual(s) designated as fund manager(s) in the Fund Documents as at the Index Live Date (if any) of a Fund Service Provider, (b) any Fund Service Provider ceasing to act in the relevant capacity in relation to the Fund unless immediately replaced in such capacity by a successor acceptable to the Index Sponsor or (c) any delegation or transfer by the Fund Advisor of any of its powers, duties or obligations under the Fund Documents to a third party without the prior written consent of the Index Sponsor;
- (vi) *Fund Modification*: any change, modification or termination of the related Fund Documents or of any rights attaching to the related Fund Interests (including without limitation any change or modification affecting management policy, the Fund Interest Currency, the Frequency of Fund Interest Valuation, the terms relating to subscription, transfer and/or redemption of such Fund Interest including any change to the form or schedule of payment or notice period) from those prevailing on the Index Live Date and which could reasonably be expected to affect the value of such Fund Interests;
- (vii) *Strategy Breach*: any material breach of or non-compliance with any investment objective, investment restrictions or other strategy or investment guidelines or requirements, subscription and redemption provisions (including, without limitation, the days treated as Fund Business Days) or valuation provisions (including, without limitation, the method of determining the net asset value of the relevant Fund Interest), in each case as set out in the Fund Documents as in effect on the Index Live Date;
- (viii) *Breach by Fund Service Provider*: the breach by any relevant Fund Service Provider of any obligation (including, without limitation, non-compliance with any investment guidelines relating to the Fund Interest), representation or warranties concerning the relevant Fund (including, without limitation, pursuant to any agreement with the Fund), which breach, if capable of remedy, has not been remedied within ten (10) calendar days of its occurrence;
- (ix) *Regulatory Event*: (1) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Advisor that is reasonably likely to have an adverse impact on the value of the related Fund Interest or on any investor therein (as determined by the Index Sponsor) or (2) the related Fund Interest or any of its Fund Service Providers becoming subject to any investigation, proceeding, arbitration, litigation or official action by any relevant governmental, legal or regulatory authority involving the alleged violation of, or non-compliance with, applicable law or regulation in relation to any activities relating to or resulting from the operation of the Fund

or another fund where, in the opinion of the Index Sponsor, such circumstances may have an adverse effect on the Fund or (B) (i) the withdrawal, cancellation, suspension or revocation of any registration, licence or approval of the Fund Interests or the Fund by any governmental, legal or regulatory entity with authority over such Fund Interest or Fund; (ii) the withdrawal, suspension, cancellation or modification of any licence, consent, permit, authorisation or clearance required for the Fund or any one or more of its significant Fund Service Providers to carry out their activities as they are or should be carried out in compliance with applicable law or regulation; and/or (iii) the failure of the Fund and/or the Fund Interests to comply with any applicable requirements from time to time applied by any relevant listing authority, stock exchange, quotation system and/or regulator that allow it to be used to determine amounts due under the Financial Products (or, in the case of (B)(i), (ii) or (iii), any official announcement indicating that any such circumstances may occur);

- (x) *Reporting Disruption:* (A) the occurrence of any event affecting the Fund Interest that, in the determination of the Index Sponsor, would make it impossible or impracticable for the Index Sponsor to determine the value of such Fund Interest and the Index Sponsor does not expect such event to cease in the foreseeable future; (B) any failure of the Fund to deliver, or cause to be delivered, or recipients in general to receive (1) information that such Fund has agreed to deliver, or cause to be delivered to any member of the Morgan Stanley Group or (2) information that has been previously delivered to any member of the Morgan Stanley Group, in accordance with such Fund's, or its authorised representative's, normal practice and that the Index Sponsor deems necessary for it to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund; (C) the Fund ceases, for any reason whatsoever (either directly or through any Fund Service Provider acting on its behalf for this purpose) to provide, publish or make available its net asset value on any Fund Reporting Date; or (D) a Fund Service Provider informs any member of the Morgan Stanley Group that any Reported Net Asset Value of the Fund Interest should not be relied on (whether by reason of it being only a provisional or estimated net asset value or for any other reason) and/or, in the opinion of the Index Sponsor, any Reported Net Asset Value is inaccurate (which, for the avoidance of doubt, includes without limitation circumstances where any net asset value reported by a Fund Service Provider to the Index Sponsor, any member of the Morgan Stanley Group and/or investors in Fund Interests generally differs from any net asset value published on any one or more publishing service);
- (xi) *Compulsory Redemption or Assignment:* (i) the repurchase or redemption by the Fund of all or some of the Fund Interests otherwise than at the request of a holder of such Fund Interests; or (ii) any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) which would mandatorily oblige a holder of Fund Interests to redeem, sell, assign or otherwise dispose of any Fund Interests and which the Index Sponsor determines could affect a Hypothetical Investor;
- (xii) *Closure to Subscriptions; Dealing Restrictions:* (A) the closure of the related Fund to new subscriptions of Fund Interests, or (B) the imposition of any dealing restrictions (including, without limitation, material amendments to relevant documentation, delay (partial or otherwise), suspension or termination (partial or otherwise) of subscription, redemption or settlement) relating to the Fund or transactions in the Fund Interests by any Fund Service Provider, any Affiliate or agent of any Fund Service Provider;
- (xiii) *Disposals: Material Change: Merger:* (A) a disposal to any person(s) of all, or a material part, of the assets of (x) the Fund, or (y) any significant Fund Service Provider; or (B) a material change in the business of the Fund or any significant Fund Service Provider, or (C) the merger, amalgamation or consolidation of the related Fund and/or such Fund Interest with (x) any other sub-fund or compartment of the Fund or (y) any other collective investment undertaking (or sub-fund or compartment of such other collective investment undertaking, including another fund), which, in either case, may, in the determination of the Determination Agent, have an adverse effect on the Fund;
- (xiv) *Fraud:* the Fund is the object of a material fraud which may, in the determination of the Index Sponsor, have an adverse effect on the Fund or the value of Fund Interests; or any act or omission of a Fund Service Provider constitutes fraud (including, but not limited to, theft, misappropriation,

mispricing of holdings or concealment of trades), bad faith, wilful misconduct or negligence, as determined by the Index Sponsor in its reasonable discretion;

- (xv) *Fund Force Majeure Event*: any Fund Service Provider fails to perform any of its obligations pursuant to the Fund Documents to the extent that such performance is prevented, hindered or delayed by a Fund Force Majeure Event, where "**Fund Force Majeure Event**" means any event due to any cause beyond the reasonable control of the applicable Fund Service Provider, such as unavailability of communications system, failure of or interruptions in power supply or network computer systems, sabotage, fire, flood, explosion, acts of God, civil commotion, riots, insurrection or war;
- (xvi) *Delisting*: where there is or was intended to be an Underlying Fund Exchange in respect of the Fund Interests that (A) such Underlying Fund Exchange announces that pursuant to the rules of such Underlying Fund Exchange, such Fund Interests cease (or will cease) being listed or publicly quoted on the Underlying Fund Exchange for any reason and are not immediately re-listed or re-quoted on an exchange or quotation system located in the same country as the Underlying Fund Exchange (or, where the Underlying Fund Exchange is within the European Union, in any Member State of the European Union), or (B) Fund Interests are never so listed or quoted as intended and disclosed in the relevant Fund Documents as at the Index Live Date;
- (xvii) *Fund Accounting Event*: any (i) change in the currency in which the Fund Interest's accounts are denominated; or (ii) material adverse change in the accounting treatment of the relevant Fund which does or could affect a Hypothetical Investor and/or any actual or potential requirement to consolidate its accounts with any such entity; and/or
- (xviii) *Fees or Charges Event*: (i) any charge of a transaction fee for subscription or redemption of Fund Interests; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Interests (whether by the Fund or a Fund Advisor in respect of holders of Fund Interests generally).

"**Fund Interest**" means, in respect of a Fund, a share, unit or other interest in respect of such Fund

"**Fund Interest Currency**" means, in respect of a Fund Interest, the currency in which such Fund Interest is denominated on the Index Live Date as set out in the Fund Documents and as indicated in CCY in the Annex.

"**Fund Potential Adjustment Event**" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (a) an additional amount of Fund Interests, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect

(provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Fund Reporting Date" means, in respect of a Fund Interest and a Fund Valuation Date, the date on which the Reported Net Asset Value of such Fund Interest as determined as of such Fund Valuation Date is reported (as provided in the definition of Reported Net Asset Value).

"Fund Service Provider" means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, to that Fund, whether or not specified in the Fund Documents or any successor acceptable to the Index Sponsor, including without limitation any Fund Adviser, Fund Administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent or domiciliary agent.

"Fund Valuation Date" means, in respect of a Fund Interest, the date as of which such Fund Interest (or its Fund Service Provider that generally determines such value) determines the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Funding Rate" has the meaning given to it in the Annex

"Funding Rate Screen Page" has the meaning given to it in the Annex

"FX Rate" has the meaning given to it in Annex

"FX Rate Screen Page" has the meaning given to it in the Annex

"Hypothetical Investor" means, in respect of a Fund Interest, a hypothetical investor in such Fund Interest deemed to have (a) the benefits and obligations, as provided under the Fund Documents, of an investor holding, as of the Index Live Date, an interest in the relevant Fund in an amount equal to the relevant number of relevant amount of Fund Interests; (b) in the case of any deemed redemption of Fund Interests, to have submitted to the relevant Fund on the relevant Redemption Notice Date, a duly completed notice requesting redemption of the relevant number of such Fund Interests; and (c) in the case of any deemed investment in Fund Interests, to have submitted, on the Index Live Date, a duly completed notice to the relevant Fund, requesting subscription to the relevant number of Fund Interests;

"Hedging Disruption" occurs if the Index Sponsor determines that a hypothetical market participant would as a result of extraordinary market circumstances relating to an Index Component, be unable, after using commercially reasonable efforts, to:

- a) Acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments it deems necessary to hedge its position in relation to any securities issue or other relevant transactions relating to or calculated by reference to the Index; or
- b) Realize, recover or remit the proceeds of any such transactions or instruments.

"Index" has the meaning given to it in Section 1 (*Introduction*).

"Index Base Date" has the meaning given to in in the Annex

"Index Business Day" has the meaning given to it in the Annex

"Index Calculation Agent" has the meaning given to it in Section 5 (*Index Calculation Agent*).

"Index Committee" has the meaning given to it in Section 12 (*Governance*).

"Index Component" means each component specified in Annex 1 hereto.

"Index Component Adjustment Event" means a Fund Potential Adjustment Event.

"Index Component Disrupted Day" means any day which is an Underlying Fund Disrupted Day.

"Index Component Disruption Event" means the occurrence of an event that results in the occurrence of an Index Component Disrupted Day.

“Index Component Price Source” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Scheduled Trading Day” means, in respect of each Index Component where the Index Component Type in respect of such Index Component is:

- (i) Fund, a Fund Valuation Date in respect of such Fund.

“Index Component Screen Page” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Type” means, in respect of each Index Component, as specified in the Annex hereto.

“Index Component Underlying Price Source” means, in respect of an Index Component, any information service, exchange or data source used to calculate the price or level of any share, security, commodity, rate, index or other component included in such Index Component, as determined by the Index Calculation Agent.

“Index Component Value” means, in respect of an Index Component which is a Fund, the Underlying Fund Price in respect of such Fund.

“Index Currency” has the meaning given to it in the Annex.

“Index Funding Rate” has the meaning given to it in the Annex

“Index Funding Rate Screen Page” has the meaning given to it in the Annex

“Index Level” means, in respect of each Index Business Day, an amount, expressed in the Index Currency, being the level of the Index in respect of such Index Business Day, as determined in accordance with Section 7 (*Index Level*). If Return Type is set to Total Return, the Index Level is then equal to Total Return Index Level as determined in accordance with Section 7.1. If Return Type is set to Excess Return, the Index Level is then equal to Excess Return Index Level as determined in accordance with Section 7.2.

“Index Live Date” has the meaning given to it in the Annex

“Index Publication Time” has the meaning given to it in Section 8 (*Publication*).

“Index Sponsor” has the meaning given to it in Section 4 (*Index Sponsor*).

“Initial Index Level” has the meaning given to it in the Annex

“IOSCO” has the meaning given to it in Section 12 (*Governance*).

“Market Disruption Event” means, in respect of:

- (i) a Fund, an Underlying Fund Disruption Event in respect of such Fund.

“Material Change” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“MiFID II” means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as may be amended or replaced from time to time).

“Morgan Stanley Group” has the meaning given to it on the front page of this Description.

“MSIP” has the meaning given to it in Section 3 (*Overview*).

“MS Benchmark Statement” has the meaning given to it in Section 1 (*Introduction*).

“NB Shares Basket” has the meaning given to it in Section 7

"Price Source Disruption" means any Index Component Price Source, Index Component Underlying Price Source, Index Funding Rate Screen Page, Funding Rate Screen Page or other source data required to calculate the Index is insufficient, inaccurate or unreliable or not available whether due to temporary or permanent discontinuance or failure of the price source for such data or otherwise, as determined by the Index Calculation Agent.

"Potential Adjustment Event" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (A) an additional amount of Fund Interests, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Principles" has the meaning given to it in Section 12 (*Governance*).

"Redemption Notice Date" means, in respect of a Fund Interest, the last date on which a Hypothetical Investor in such Fund Interest would be permitted, pursuant to the Fund Documents of the related Fund, to submit a redemption notice that would be timely for a redemption as a Scheduled Redemption Valuation Date

"Redemption Proceeds" means, in respect of the relevant amount of Fund Interests, the redemption proceeds that in the determination of the Index Sponsor would be paid by the relevant Fund to a Hypothetical Investor who, as of the relevant Redemption Valuation Date, redeems such amount of Fund Interests and (for the avoidance of doubt after deduction of any tax, levy, charge, assessment or fee of any nature that, in the determination of the Index Sponsor, would (or would be very likely to) be withheld or deducted from such amount); provided that (i) any such proceeds that would be paid in property other than cash shall be deemed to have a value of zero and (ii) if the Hypothetical Investor would be entitled to elect payment of such redemption proceeds to be made either in the form of cash or other property, then the Hypothetical Investor shall be deemed to have elected cash payment.

"Redemption Valuation Date" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date as of which the relevant Fund (or its Fund Service Provider that generally determines such value) determines the net asset value of Fund Interests for purposes of calculating the redemption proceeds to be paid to a Hypothetical Investor that has submitted a valid notice for redemption on or before the related Redemption Notice Date.

"Relevant Fund" has the meaning given to such term in Section 10.3 (*Consequences of Fund Events*).

"Removal Value" means, in respect of a Relevant Fund and the Fund Interest in respect of such Relevant Fund, the value calculated by the Index Sponsor in the same manner as would be used in determining the Underlying Fund Price of Fund Interests in the related Fund. Where the Removal Value is required to be converted into the Index Currency it shall be so converted by the Index Sponsor at such time and by reference to such sources as it deems appropriate.

"Reported Net Asset Value" means, in respect of any Fund Interest and a Fund Reporting Date relating to such Fund Interest, the official net asset value per Fund Interest as of the related Fund Valuation Date or, if the related Fund reports only its aggregate net asset value, the portion of such Fund's aggregate net asset value relating to a Fund Interest as of the related Fund Valuation Date, in each case as reported on the Fund Reporting Date relating to such Fund Valuation Date by the Fund Service Provider that generally reports such value on behalf of the Fund to its investors or a publishing service.

"Return Type" has the meaning given to it in the Annex

"Scheduled Fund Valuation Date" means, in respect of a Fund Interest, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Scheduled Redemption Payment Date" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date by which the related Fund is scheduled to have paid, according to its Fund Documents, all or a specified portion of the Redemption Proceeds to an investor that has submitted a timely and valid notice requesting redemption of such Fund Interest as of such Scheduled Redemption Valuation Date.

"Scheduled Redemption Valuation Date" means, in respect of a Fund Interest and any relevant day, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the net asset value of such Fund Interest for the purposes of calculating the redemption proceeds to be paid to an investor that has submitted a valid and timely notice for redemption of Fund Interests based on the value determined as of the Scheduled Redemption Valuation Date for which the Scheduled Redemption Payment Date falls on or immediately prior to such day.

"SEK" means Swedish Krona.

"Successor Source" means, in relation to any display page, other published source, information vendor or provider:

- (i) the successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original page or source; or
- (ii) if the sponsor of the original page or source has not officially designated a successor display page, other published source, service or provider (as the case may be), the successor display page, other published source, service or provider, if any, designated by the relevant information vendor or provider (if different from such sponsor).

"TARGET2 Settlement Day" means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (TARGET2) is open.

"Termination of Data Licence" means the occurrence of a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data is supplied to compile or calculate the Index.

"Theoretical Exposure" has the meaning given to it in Section 7.1.3.

"Underlying Fund Disrupted Day" means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing.

“Underlying Fund Disruption Event” means, in respect of a Fund, any of the following events:

- (i) in respect of any Fund Interest, the failure of (i) an Index Business Day to be a Fund Valuation Date or any continued postponement or suspension of such Fund Valuation Date; and/or (ii) there to be a Fund Reporting Date and/or Reported Net Asset Value relating to the relevant Fund Valuation Date;
- (ii) in respect of any Fund Interest (a) there is a failure by the Fund to pay the full amount (whether expressed as a percentage or otherwise) of the Redemption Proceeds in the Fund Interest Currency with respect to the relevant amount of such Fund Interest scheduled to have been paid on or by such day according to the Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of such Fund Interests) or (b) a Hypothetical Investor which had submitted a valid redemption notice in respect of such Fund Interest on the last date permitted pursuant to the relevant Fund Documents would, in the reasonable opinion of the Index Sponsor, not have received in full the Redemption Proceeds in respect of such redemption(s) on or before the date it was scheduled to do so in accordance with the Fund Documents; and/or
- (iii) any closure other than for ordinary public holidays and/or any restriction or suspension in trading of foreign exchange markets or money markets in a relevant Fund Interest Currency or Index Currency that, in the opinion of the Index Sponsor, would have a material effect on the ability market participants to effect transactions in such markets,

provided that if any event would otherwise be both an Underlying Fund Disruption Event and Fund Event, such event shall be treated solely as a Fund Event.

“Underlying Fund Exchange” means, in respect of a Fund Interest, the principal exchange or quotation system for such Fund Interest, as determined by the Index Sponsor, and any successor to such exchange or quotation system or any substitute exchange or quotation system to which such Fund Interest have temporarily relocated.

“Underlying Fund Price” means, in respect of a Fund Interest and the Underlying Fund Valuation Time on any relevant day, the Reported Net Asset Value of such Fund Interest for the related Fund Valuation Date falling on such day.

“Underlying Fund Valuation Time” means, in respect of a Fund Interest, the time on or in respect of any relevant day at which the applicable Underlying Fund Price is scheduled to be determined in accordance with the relevant Fund Documents.

9. *Adjustment Provisions*

9.1 *Adjustment Events*

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may acting in good faith and a commercially reasonable manner:

- (i) substitute any Index Component or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate;
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the “**Relevant Day**”) shall be equal to the Index Component Value in respect of such Relevant Day;
- (iv) reallocate the portion of the Index exposed to any Index Component which is affected by such Adjustment Event to the cash until the next Index Business Day on which it determines that no Adjustment Event exists (and make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such reallocation);
- (v) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
- (vi) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
- (vii) cancel the Index and permanently cease to calculate the Index Level.

9.2 *Adjustment procedures, notification and consultation process*

Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (*Adjustment Events*) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (*Adjustment Events*) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or reclassification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.

9.3 *Adjustment procedures, notification and consultation process*

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index. While the Index Sponsor currently employs this methodology, no assurance can be given that fiscal, market,

regulatory, juridical, financial or, without limitation, any other circumstances will not arise that would, in the view of the Index Sponsor, necessitate or make desirable a modification or change to this Description.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a “**Change**”) which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a “**Material Change**”) the Index Sponsor will give prior notice to Financial Product Investors that a Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days’ notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

9.4 *Consequences of Fund Events*

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a “**Relevant Fund**”), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such

sources as it considers appropriate including, but not limited to, the value that a third party on arms' length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

10. Errors and Corrections

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

11. Governance

Morgan Stanley has adopted the "Principles for Financial Benchmarks" published by the International Organization of Securities Commissions ("IOSCO") on 17 July 2013 (the "**Principles**") on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the "**Index Committee**").

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

12. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

Description of the MS Nordic Real Estate Fund 16% Risk Control ER Index

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;
- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator, supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;
- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

13. Important Information

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at complaints@ms@morganstanley.com.

ANNEX OF THE MS NORDIC REAL ESTATE FUND 16% RISK CONTROL ER INDEX

INDEX MAIN DEFINITIONS:

Index Currency	SEK
Initial Index Level	100
Index Business Day	means a day (i) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London (“LNB”) (ii) for which the Nasdaq Stockholm Exchange is open for trading during its regular trading session (“STS”) and (iii) which is a Fund Valuation Date in respect of each Index Component
Index Base Date	31 st January 2012
Initial Basket Level	100
Initialisation Date	21 st November 2011
Index Live Date	9 November 2022
Index Funding Rate	STIBOR 3 month

SUPPLEMENT: OVERVIEW OF THE MS NORDIC REAL ESTATE FUND 16% RISK CONTROL ER INDEX

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Rules. The Index is governed by the Index Rules and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to a weighted basket of one equity mutual fund, as described below (the “**Basket**”), whilst maintaining a volatility at or around 16% (the “**Target Volatility**”). To pursue this objective, the Index implements a daily “*Risk Control Mechanism*” which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Basket. When volatility increases, the Index reduces exposure to Basket and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Basket, up to a maximum exposure of 150%, and reduces its exposure to cash.

When the Index’s exposure to the Basket is higher than 100%, the Index uses a “leveraged” exposure to the underlying fund. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying fund. The maximum leverage the Index can employ is capped at 150%.

Does the Index represent a physical investment in the Basket?

The Index can be described as a “notional” investment in the Basket or as a “synthetic portfolio” as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does “Excess Return” mean?

The Index is construed as an “**Excess Return**” asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Basket. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is to be opposed to a Total Return investment which assumes that such investment is fully funded.

What does “Decrement” mean?

The Index is calculated by deducting a 2.0% per annum* percentage rate (the “**Decrement**”) applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 2.0% lower than what it would otherwise be without such deduction.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 16% by allocating exposure to the Basket based on the realised volatility of the Basket itself. The target weight assigned by the Index to the Basket on any business day is the ratio of 16% to the realised volatility of the Basket. The realised volatility of the Basket is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Fund experiences higher volatility, it means greater changes in its price. In such environment, exposure to the Fund can produce unpredictable results. Volatility can anticipate both a decline or a rebound in the Fund. A “volatility target” mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Fund. In practical terms, when exposure to the Fund is reduced, the level of the Index is less sensitive to the volatility of such Fund and therefore will suffer less from a decline in the performance of the Fund. A “volatility target” mechanism can however also hinder

the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Basket is 0% even when the Basket volatility has reached a level higher than the Target Volatility. As a result, exposure to the Basket cannot be negative.

What is the Fund underlying the Index?

<i>Name of Reference Fund</i>	<i>Bloomberg Code</i>	<i>ISIN</i>	<i>Share Class Type</i>	<i>Investment Manager</i>	<i>Weight in the Basket</i>	<i>Web-site to obtain further information*</i>

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Basket which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Fund. In general terms, if the Fund increase in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to such Fund as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Fund that make up the Basket. This cost is represented by the

Description of the MS Nordic Real Estate Fund 16% Risk Control ER Index

Stockholm Interbank 3-month rate. The higher the borrowing rates, the lower the performance of the Index. In an environment where borrow rates are significant, the Index may exhibit material underperformance when compared to a direct investment in the underlying Fund.

- The Index is calculated by deducting a 2.00% per annum decrement percentage rate, which is deducted daily pro rata. This means that the Index annual performance would be on average 2.00% lower than what it would otherwise be without such decrement.

Simulated Historical Track Record of the Index

The below chart represents the simulated historical performance of the Index in comparison with the simulated historical performance of the Basket.

This is not actual historical performance and it should not be taken as an indication of future performance of the Index or the Basket.

Simulation Start Date: 31st January 2012

Simulation End Date: 16th January 2023

Description of the MS Nordic Real Estate Fund 16% Risk Control ER Index

<i>Year</i>	<i>Simulated Basket Performance*</i>	<i>Simulated Index Performance*</i>
2012	6.4%	3.1%
2013	17.8%	21.8%
2014	36.7%	34.8%
2015	28.3%	24.4%
2016	9.6%	2.1%
2017	10.7%	14.3%
2018	13.7%	15.0%

DESCRIPTION OF THE MS 18% RISK CONTROL ER INDEX LINKED TO REAL ESTATE EQUITY FUND

Bloomberg Page: MSFDRE18

The MS 18% Risk Control ER Index linked to Real Estate Equity Fund is the exclusive property of Morgan Stanley & Co. International plc and its Affiliates (the “**Morgan Stanley Group**”). Morgan Stanley and the MS 18% Risk Control ER Index linked to Real Estate Equity Fund are trade marks of the Morgan Stanley Group and no person or entity should refer to any of the trade marks without the consent of a member of the Morgan Stanley Group and should not use any of the information in this Description for any purpose other than in relation to an investment or otherwise in connection with any Financial Product (as defined below) for which such consent has been obtained. The non-exclusive right to use the MS 18% Risk Control ER Index linked to Real Estate Equity Fund as an underlying reference basis or otherwise for any Financial Product is granted only upon completion of a license agreement with a member of the Morgan Stanley Group. The Index Sponsor, the Index Calculation Agent and each member of the Morgan Stanley Group disclaim any responsibility for any unauthorised use of the MS 18% Risk Control ER Index linked to Real Estate Equity Fund by any third party.

No representation is made by any member of the Morgan Stanley Group with respect to the eligibility of the MS 18% Risk Control ER Index linked to Real Estate Equity Fund for investment for investment (including, but not limited to, compliance with the UCITS Directive (2009/65/EC), as amended and supplemented from time to time (the “**UCITS Directive**”), or its use in connection with any Financial Product to be entered into or held, by any prospective investor. Prospective investors should make their own independent analysis of whether the MS 18% Risk Control ER Index linked to Real Estate Equity Fund meets the eligibility criteria for their investment (including, but not limited to, compliance with the UCITS Directive) or use by them in relation to the relevant Financial Product and of whether the MS 18% Risk Control ER Index linked to Real Estate Equity Fund responds to their criteria, needs and objectives for investment or otherwise. The term “investor” will include any counterparty, holder or contract party in relation to a Financial Product.

Nothing contained in this Description should be construed as an offer or solicitation to purchase or sell securities or to enter into any transaction or engage in investment activity of any kind. If you do invest in a Financial Product or engage in any other investment activity, you should ensure that you fully understand the nature of such investment and the risks involved and are satisfied that the investment is suitable and appropriate for your circumstances. If you are in any doubt about this you should take advice from an appropriately qualified advisor.

This Description does not constitute investment, taxation, legal, accounting or other advice, including within the meaning of Article 53 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 or investment advice within the meaning of Article 4(4) of MiFID II.

1. Introduction

This Description sets out the methodology of the MS 18% Risk Control ER Index linked to Real Estate Equity Fund (the “**Index**”) and the basis on which the Index is calculated.

This Description is intended to provide the information relating to the Index required by the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 ((EU) 2016/1011)) (as amended) (the “**Benchmarks Regulation**”) as it forms part of “retained EU law” in the United Kingdom as defined in the European Union (Withdrawal) Act 2018 (as amended from time to time) (the “**UK Benchmarks Regulation**” and, together with the EU Benchmarks Regulation, the “**Benchmarks Regulation**”). This Index is a non-significant and regulated data benchmark for the purposes of the UK Benchmarks Regulation.

As at the date of publication of this Description, Morgan Stanley & Co. International plc appears on the register of benchmark administrators established and maintained by the Financial Conduct Authority pursuant to Article 36 of the Benchmarks Regulation. Morgan Stanley & Co. International plc’s benchmark statement (the “**MS Benchmark Statement**”) can be accessed via the following link:

https://www.morganstanley.com/content/dam/msdotcom/en/assets/pdfs/sales_and_trading_disclosures/M_SIP_Benchmark_Statement-Multi-Asset_Signal-based_Benchmark_Family.pdf

Subject as provided in Section 10 (*Adjustment and Disruption Provisions*), this Description is subject to change or adjustment at any time (including, without limitation, in accordance with the requirements of the UK Benchmarks Regulation) and will be superseded by any subsequent Description. A copy of the current version of the Description can be obtained following the method described in Section 8 (*Publication*).

No one may reproduce, distribute or disseminate this Description, any information contained in this Description or any Index Level (as applicable) without the prior written consent of the Index Sponsor. This Description is not intended for distribution to, or use by any person in, a jurisdiction where such distribution is prohibited by law or regulation.

ESG Disclosures pursuant to Commission Delegated Regulation (EU) 2020/1817 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards the minimum content of the explanation on how environmental, social and governance factors are reflected in the benchmark methodology, as on-shored in the United Kingdom by way of The Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019:

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Morgan Stanley & Co. International plc
Item 2. Type of benchmark or family of benchmarks.	Multi Asset
Item 3. Name of the benchmark or family of benchmarks.	Multi Asset Signal-based
Item 4. Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	No

2. *Overview*

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Summary

The Index aims to provide exposure to the Index Components and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a “notional” or synthetic exposure to the Index Component and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Component and a rules-based strategy, the performance of which is used as a reference point for calculating Index Levels.

This Section 3 (*Overview*) is subject to, and qualified by, the remainder of this Description.

3. *Index Sponsor*

The Index has been developed by Morgan Stanley & Co. International plc (“**MSIP**”). The Index is administered by the index sponsor or any successor thereto (the “**Index Sponsor**”). The initial Index Sponsor is MSIP.

The Index Sponsor controls the creation and operation of the Index administrative process, including all stages involved in the production and dissemination of the Index. The Index Sponsor also is responsible for the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of this Description. Notwithstanding that the Index relies on information from third party sources, the Index Sponsor has primary responsibility for all aspects of the Index administration and determination process.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

The Index Sponsor is not acting as a manager or an investment advisor in relation to the Index and has no relationship of agency or trust or any fiduciary duty to any person in respect of the Index and is not required to take the interests of any person into account in making any determination or calculation in relation to the Index.

The Index Sponsor makes no warranty or representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

No Financial Product is sponsored, endorsed, sold or promoted by MSIP or the Index Sponsor, and neither MSIP nor the Index Sponsor makes any express or implied representations or warranties as to (a) the advisability of purchasing or assuming any risk in connection with any Financial Product, (b) the levels at which the Index stands at any particular time on any particular date, (c) the results to be obtained by the issuer or obligor of any Financial Product, or any Financial Product Investor,

or any other person or entity from the use of the Index or any data included therein in connection with any licensed rights or for any other use or (d) any other matter. Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP/ or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP may in its sole and absolute discretion delegate and/or transfer any of its obligations and/or functions in relation to the administration and determination of the Index to one or more third parties as it deems appropriate from time to time. MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

4. *Index Calculation Agent*

The Index is calculated by MSIP (or any successor thereto) (the “**Index Calculation Agent**”).

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent’s calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. The term “manifest error” as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without (i) recourse to the underlying data or (ii) any application or re-application of any formulae. No person (whether a Financial Product Investor or otherwise) will be entitled to proceed (and shall be deemed to have agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to the Index.

For so long as the Index Calculation Agent constitutes and calculates the Index, the Index Calculation Agent does not accept any liability for loss or damage of any kind (including, without limitation, any special, punitive, indirect or consequential damages (including loss of profits)) arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index itself and disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any information in connection with it.

5. *Index Data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the Index Component Value, the Index Funding Rate and the Funding Rate in respect of each Index Component as published on the relevant Index Component Price Source in respect of such Index Component.

No assurance can be given that any such Index Component Values, Index Funding Rate or Funding Rate will be published on the relevant Index Component Price Source, on the Index Funding Rate Screen Page or on the Funding Rate Screen Page accurately, in a timely manner or at all and the Index Sponsor and the Index Calculation Agent have relied on, and will rely on, such Index Component Values and Funding Rate as they are published on the relevant Index Component Price Source or Funding Rate Screen Page. Neither the Index Sponsor nor the Index Calculation Agent has independently verified the information extracted from such sources and accepts no responsibility or liability in respect thereof.

6. Calculation of the Index

6.1 Total Return Index Level

The Total Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Total Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$TRIndex_t = Max \left(0, TRIndex_{t-1} \right. \\ \times \left[1 + Effective\ Exposure_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 \right) \right. \\ \left. \left. + (1 - Effective\ Exposure_{t-1}) \times Rate_{t-1} \times \frac{\Delta t}{DayCount} \right] - TC_t \right) \times (1 - AF_t)$$

Where:

max, followed by amounts (or values) inside brackets, means whichever is the greater of the amounts (or values) separate by a semi-colon inside such brackets;

TRIndex Level(t-1) means the Total Return Index Level in respect of the Index Business Day immediately preceding Index Business Day t;

Effective Exposure(t-1) means the Effective Exposure in respect of Index Business Day t-1, calculated as per paragraph 7.3 below;

Basket(t) means the Basket Level in respect of Index Business Day t, calculated as per paragraph 7.7 below;

Basket(t-1) means the Basket Level in respect of the Index Business Day immediately preceding Index Business Day t;

Rate(t-1) means the Index Funding Rate in respect of the Index Business Day immediately preceding Index Business Day t;

Δt means the number of calendar days from (and including) the Index Business Day immediately preceding Index Business Day t to (but excluding) Index Business Day t;

DayCount means 360;

TC(t) means the Transaction Cost in respect of Index Business Day t and is an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$TC_t = |Nb\ Shares\ Basket(t) - Nb\ Shares\ Basket(t-1)| \times Basket(t) \times RC$$

Where RC is the Rebalancing Cost and has the meaning given to it in the Annex

AF(t) means, the Accrued Fee in respect of Index Business Day t, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$AF(t) = \left[\frac{\Delta t}{DayCount} \times Decrement Rate \right]; \text{ and}$$

Decrement Rate has the meaning given to it in the Annex

6.2 Excess Return Index Level

The Excess Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Excess Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$ERIndex_t = Max \left(0, ERIndex_{t-1} \times \left[1 + Effective Exposure_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 - Rate_{t-1} \times \frac{\Delta t}{DayCount} \right) \right] - TC_t \right) \times (1 - AF_t)$$

6.3 Calculation of the Exposure

The theoretical exposure (the “**Theoretical Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$TheoreticalExposure_t = Min[maxExposure, UnconstrainedExposure_t]$$

Where:

$$UnconstrainedExposure_t = \frac{Vol Target}{Realised Volatility (t)}$$

The exposure (the “**Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where Rebalance Rule is set as “ABSOLUTE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } |TheoreticalExposure_t - Exposure_{t-1}| > Threshold \\ Exposure_{t-1} & \text{Otherwise} \end{cases}$$

- Where Rebalance Rule is set as “RELATIVE INVERSE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } \left| \frac{Exposure_{t-1}}{UnconstrainedExposure_t} - 1 \right| > Threshold \\ Exposure_{t-1} & \text{Otherwise} \end{cases}$$

Where:

maxExposure has the meaning given to it in the Annex

VolTarget has the meaning given to it in the Annex

Threshold has the meaning given to it in the Annex

Lag means has the meaning given to it in the Annex

Realised Volatility (t-Lag) means the Realised Volatility in respect of Index Business Day (t-Lag)

6.4 **Calculation of the Number of Shares Basket**

The number of shares of the basket (the “**Number of Shares Basket**”) in respect of any Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

Where Index Business Day t is the Index Base Date or any of the following Lag – 1 Index Business Days:

$$NbShares\ Basket(t) = 0$$

Where Index Business Day t falls on any subsequent day:

- In respect of the Total Return Index:

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times TRIndex_{t-Lag}}{Basket_{t-Lag}}$$

- In respect of the Excess Return Index

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times ERIndex_{t-Lag}}{Basket_{t-Lag}}$$

6.5 **Calculation of the Effective Exposure**

The effective exposure (the “Effective Exposure”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

- In respect of the Total Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{TRIndex_t}$$

- In respect of the Excess Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{ERIndex_t}$$

6.6 **Calculation of the Realised Volatility**

The Realised Volatility in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where the Realised Volatility Format is set as ARITHMETIC in the Annex:

$$Realised\ Volatility(t) = Max(ST\ Vol(t), LT\ Vol(t))$$

Where:

$$ST Vol (t) = \sqrt{\frac{252}{ST Tenor \times ST Return Size} \times \sum_{k=t-STTenor-1}^t \ln\left(\frac{Basket (k)}{Basket (k - STReturn Size)}\right)^2}$$

$$LT Vol (t) = \sqrt{\frac{252}{LT Tenor \times LT Return Size} \times \sum_{k=t-LT Tenor-1}^t \ln\left(\frac{Basket (k)}{Basket (k - LTReturn Size)}\right)^2}$$

- Where the Realised Volatility Format is set as GEOMETRIC in the Annex:

$$Realised Volatility (t) = Max (ST Vol (t), LT Vol (t))$$

Where:

ST Vol (t) means:

- (ix) Where such Index Business Day is the Index Base Date or any of the immediately following ST Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = Initial Volatility$$

- (x) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = \sqrt{\lambda_{ST} \times ST Vol (t - 1)^2 + (1 - \lambda_{ST}) \times \ln\left(\frac{Basket_t}{Basket_{t-ST Return Size}}\right)^2 \times \frac{252}{ST Return Size}}$$

LT Vol (t) means:

- (ix) Where such Index Business Day is the Index Base Date or any of the immediately following LT Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = Initial Volatility$$

- (x) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = \sqrt{\lambda_{LT} \times LT Vol (t - 1)^2 + (1 - \lambda_{LT}) \times \ln\left(\frac{Basket_t}{Basket_{t-LT Return Size}}\right)^2 \times \frac{252}{LT Return Size}}$$

Where:

λ_{ST} has the meaning given to it in the Annex

ST Tenor has the meaning given to it in the Annex

ST Return Size has the meaning given to it in the Annex

λ_{LT} has the meaning given to it in the Annex

LT Tenor has the meaning given to it in the Annex

LT Return Size has the meaning given to it in the Annex

6.7 Calculation of the Basket

7.7.1 Calculation of the Basket Level

The basket level (the “**Basket Level**”) in respect of the Initialisation Date shall be equal to the Initial Basket Level as defined in the Annex.

The Basket Level in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Basket_t = Basket_{t-1} + Performance_t + CashPerformance_t + FundingCost_t - AHC_t$$

Where:

$Performance_t$ is defined in section 7.7.2

$CashPerformance_t$ is defined in section 7.7.3

$FundingCost_t$ is defined in section 7.7.4

AHC_t is defined in section 7.7.5

7.7.2 Calculation of the Basket Performance

The basket performance (the “**Basket Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Performance_t = \sum_{i=1}^N Units_{i,t-1} \times (CL_{i,t} - CL_{i,t-1}) \times FX_{i,t}$$

Where:

N is the number of Index Components within the Basket as defined in the Annex

$Units_{i,t-1}$ is the Number of Units of Basket Component i in respect of Index Business Day t-1 as defined in Section 7.6.5

$CL_{i,t}$ means the Index Component Value of Basket Component i in respect of Index Business Day t

$FX_{i,t}$ means the FX Rate for Basket Component i in respect of Index Business Day t

7.7.3 Calculation of the Cash Performance

The cash performance (the “**Cash Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$CashPerformance_t = CashBalance_{t-1} \times Rate_{t-1} \times DCF_{t-1,t}$$

Where:

$$CashBalance_t = Basket_t - \sum_{i=1}^N Units_t^{i|Funded \cap IndexCCY} \times CL_t^{i|Funded \cap IndexCCY}$$

$i|Funded \cap IndexCCY$ means the Basket Component i , where such Basket Component is specified as

Funded in the Annex and is denominated in the same currency as the Index Currency

$DCF_{t-1,t}$ means the number of calendar days from (and including) Index Business Day $t-1$ to and (excluding) Index Business Day t divided by 360.

7.7.4 Calculation of the Funding Cost

The funding cost (the “**Funding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$FundingCost_t = \sum_{CCY} FundingBalance_{t-1}^{CCY} \times (Rate_{t-1}^{CCY} + Spread^{CCY}) \times DCF_{t-1,t} \times FX_{CCY,t}$$

Where:

$$FundingBalance_t^{CCY} = - \sum_{i=1}^N Units_t^{i|Funded \cap CCY} \times CL_t^{i|Funded \cap CCY}$$

$i|Funded \cap CCY$ means the Basket Component i , where such Basket Component is specified as Funded in the Annex and is denominated in currency CCY provided that such currency is other than the Index Currency

$Rate_{t-1}^{CCY}$ means the Funding Rate for currency CCY as defined in the Annex

$Spread^{CCY}$ means the Funding Spread for currency CCY as defined in the Annex

7.7.5 Calculation of the Aggregate Holding Cost

The aggregate holding cost (the “**Aggregate Holding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$AHC_t = \sum_{i=1}^N N_{i,t-1} \times CL_{i,t} \times FX_{i,t} \times HC_i \times DCF_{t-1,t}$$

Where:

HC_i is the Holding Cost for Basket Component i as specified in the Annex.

7.7.6 Calculation of the Number of Units of Basket Components

On the Initialisation Date, the Number of Units invested in the Basket Component i per unit of the Basket is calculated by the Index Calculation Agent in accordance with the following formula:

$$N_{i,t=0} = 0$$

In respect of any Index Business Day thereafter:

- If t is a Scheduled Basket Rebalancing Day:

$$N_{i,t} = \frac{W_i \times Basket_{Max(0,t-BasketUnitLag)}}{CL_{i,Max(0,t-BasketUnitLag)} \times FX_{i,Max(0,t-BasketUnitLag)}}$$

- Otherwise

$$N_{i,t} = N_{i,t-1}$$

Where:

W_i means the Weight for Basket Component i as defined in the Annex

6.8 **Miscellaneous**

Each Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

6.9 **Index Live Date and Retrospective Calculations**

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the “**Back-test Period**”) has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

7. **Publication**

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the “**Index Publication Time**”) on the second Index Business Day immediately following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to

Description of the MS 18% Risk Control ER Index linked to Real Estate Equity Fund

time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

8. Definitions

“**Adjustment Event**” means (i) an Index Component Disruption Event, (ii) a Disruption Event, (iii) a Force Majeure Event, (iv) an Index Component Adjustment Event.

“**Affiliate**” means in relation to any entity (the “**First Entity**”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes, “control” means ownership of a majority of the voting power of an entity.

“**Accrued Fee**” has the meaning given to it in Section 7.1

“**Back-test Period**” has the meaning given to in Section 7. (*Index Live Date and Retrospective Calculations*).

“**Basket Mechanism**” has the meaning given to it in Section 7.1.4.

“**Basket Unit Lag**” has the meaning given to it in the Annex

“**Benchmarks Regulation**” has the meaning given to it in Section 1 (*Introduction*).

“**Bloomberg**” means Bloomberg L.P. or any of its Affiliates, or any successor market price information provider(s).

“**Bloomberg Page**” has the meaning given to it in the Annex or any Successor Source thereto

“**Change**” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“**Change in Law**” means there has been a change in applicable law or regulation or the promulgation of or any change in the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation that prevents or will prevent the Index Sponsor and/or the Index Calculation Agent from calculating and/or publishing the Index.

“**Description**” has the meaning given to it on the second page of this Description.

“**Disappearance or Unavailability Event**” means there is (i) a permanent discontinuation of trading in an Index Component or (ii) a disappearance or permanent discontinuance or unavailability of an Index Component Value, notwithstanding the status of trading in the relevant Index Component (if applicable), or any other source data required to calculate the Index.

“**Disrupted Day**” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing in respect of such Fund.

“**Disruption Event**” means each of (i) a Change in Law, (ii) a Disappearance or Unavailability Event, (iii) a Hedging Disruption, (iv) a Price Source Disruption Event or (v) a Termination of Data Licence.

“**Financial Product**” has the meaning given to it in Section 2 (*Risk Factors and Investment Considerations*).

“**Financial Product Investor**” has the meaning given to in in Section 2 (*Risk Factors and Investment Considerations*).

“**Force Majeure Event**” means an event or circumstance has occurred beyond the reasonable control of the Index Sponsor (including, without limitation, a systems or IT failure (including, without limitation, a systems breakdown, incomplete or ineffective upgrade, malfunction, malware, virus or other similar circumstances affecting the Index Sponsor’s information technology and related processing systems), fire, flood, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) which directly or indirectly prevents or otherwise affects the determinations of the Index Sponsor and/or the Index Calculation Agent in relation to the Index.

"Frequency of Fund Interest Valuation" means, in respect of a Fund Interest, the frequency of occurrence of a Fund Business Day of such Fund Interest as determined by reference to the Fund Documents in effect on the Index Live Date.

"Fund" means, in respect of a Fund Interest, the issuer of, or other legal arrangement (including, if applicable, any class or series) giving rise to such Fund Interest as specified in Annex 1 hereto.

"Fund Administrator" means, in respect of a Fund, any fund administrator, manager, trustee or similar person responsible for the administration of such Fund and the determination and reporting of any official price or value of such Fund according to the Fund Documents or any successor acceptable to the Index Sponsor.

"Fund Advisor" means any person appointed in the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor to a discretionary investment manager or to another non-discretionary investment advisor) for such Fund and/or a Fund Administrator and/or any other person(s) designated in the Fund Documents as responsible for the oversight of the Fund, or any successor to any such person acceptable to the Index Sponsor.

"Fund Business Day" means, in respect of a Fund, each of a Scheduled Fund Valuation Date and any day on which the Fund or the primary Fund Administrator acting on behalf of the Fund is scheduled to effect subscription and redemption requests.

"Fund Documents" means, in respect of a Fund and the related Fund Interest, the constitutive and governing documents, subscription agreements and other agreements of the related Fund specifying the terms and conditions of such Fund Interest (including, without limitation, the prospectus, information memorandum or other offering document issued by such Fund in connection with such Fund Interest), in each case and unless where otherwise specified, as amended and/or supplemented from time to time.

"Fund Event" means, the occurrence or announcement by the Fund or a Fund Service Provider at any time of any of the following events:

- (i) *Nationalisation*: all the Fund Interests or all or substantially all the assets of the Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (ii) *Fund Insolvency Event*: in respect of a Fund Interest and the related Fund (a) the Fund and/or any Fund Service Provider (A) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (B) makes a general assignment or arrangement with or for the benefit of its creditors; (C)(1) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in (1) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within 15 days of the institution or presentation thereof; (D) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (E) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 15 days thereafter; or (F) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in (A) through (E) above; or (without prejudice to the foregoing) (b) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous

proceeding affecting a Fund, (A) all the Fund Interests are required to be transferred to a trustee, liquidator or other similar official or (B) holders of Fund Interests become legally prohibited from transferring them;

- (iii) *NAV Trigger/Restriction Event*: in respect of a Fund Interest (A) the Reported Net Asset Value as of the last Fund Valuation Date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the Reported Net Asset Value as of the Fund Valuation Date of the same month in the immediately preceding calendar year (or, if the first year of operation of the relevant Fund Interest, as of its highest Reported Net Asset Value on the last Fund Valuation Date of any month during such first year); or (B) the related Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (iv) *Fund Advisor Event*: (a) that at any time after the Index Live Date, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) is equal to or less than 100,000,000 U.S. Dollars (or its equivalent) or (b) that over any period of twelve months, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) has decreased by fifty per cent. (whether due to redemptions or decrease in the value of such assets or otherwise);
- (v) *Changes to Fund or Fund Service Providers*: (a) any change in the organisation of the Fund or of any Fund Service Provider without the prior written consent of the Index Sponsor including, without limitation, a change of control of, or a change of the main shareholders, managing directors or individual(s) designated as fund manager(s) in the Fund Documents as at the Index Live Date (if any) of a Fund Service Provider, (b) any Fund Service Provider ceasing to act in the relevant capacity in relation to the Fund unless immediately replaced in such capacity by a successor acceptable to the Index Sponsor or (c) any delegation or transfer by the Fund Advisor of any of its powers, duties or obligations under the Fund Documents to a third party without the prior written consent of the Index Sponsor;
- (vi) *Fund Modification*: any change, modification or termination of the related Fund Documents or of any rights attaching to the related Fund Interests (including without limitation any change or modification affecting management policy, the Fund Interest Currency, the Frequency of Fund Interest Valuation, the terms relating to subscription, transfer and/or redemption of such Fund Interest including any change to the form or schedule of payment or notice period) from those prevailing on the Index Live Date and which could reasonably be expected to affect the value of such Fund Interests;
- (vii) *Strategy Breach*: any material breach of or non-compliance with any investment objective, investment restrictions or other strategy or investment guidelines or requirements, subscription and redemption provisions (including, without limitation, the days treated as Fund Business Days) or valuation provisions (including, without limitation, the method of determining the net asset value of the relevant Fund Interest), in each case as set out in the Fund Documents as in effect on the Index Live Date;
- (viii) *Breach by Fund Service Provider*: the breach by any relevant Fund Service Provider of any obligation (including, without limitation, non-compliance with any investment guidelines relating to the Fund Interest), representation or warranties concerning the relevant Fund (including, without limitation, pursuant to any agreement with the Fund), which breach, if capable of remedy, has not been remedied within ten (10) calendar days of its occurrence;
- (ix) *Regulatory Event*: (1) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Advisor that is reasonably likely to have an adverse impact on the value of the related Fund Interest or on any investor therein (as determined by the Index Sponsor) or (2) the related Fund Interest or any of its Fund Service Providers becoming subject to any investigation, proceeding, arbitration, litigation or official action by any relevant governmental, legal or regulatory authority involving the alleged violation of, or non-compliance with, applicable law or regulation in relation to any activities relating to or resulting from the operation of the Fund

or another fund where, in the opinion of the Index Sponsor, such circumstances may have an adverse effect on the Fund or (B) (i) the withdrawal, cancellation, suspension or revocation of any registration, licence or approval of the Fund Interests or the Fund by any governmental, legal or regulatory entity with authority over such Fund Interest or Fund; (ii) the withdrawal, suspension, cancellation or modification of any licence, consent, permit, authorisation or clearance required for the Fund or any one or more of its significant Fund Service Providers to carry out their activities as they are or should be carried out in compliance with applicable law or regulation; and/or (iii) the failure of the Fund and/or the Fund Interests to comply with any applicable requirements from time to time applied by any relevant listing authority, stock exchange, quotation system and/or regulator that allow it to be used to determine amounts due under the Financial Products (or, in the case of (B)(i), (ii) or (iii), any official announcement indicating that any such circumstances may occur);

- (x) *Reporting Disruption:* (A) the occurrence of any event affecting the Fund Interest that, in the determination of the Index Sponsor, would make it impossible or impracticable for the Index Sponsor to determine the value of such Fund Interest and the Index Sponsor does not expect such event to cease in the foreseeable future; (B) any failure of the Fund to deliver, or cause to be delivered, or recipients in general to receive (1) information that such Fund has agreed to deliver, or cause to be delivered to any member of the Morgan Stanley Group or (2) information that has been previously delivered to any member of the Morgan Stanley Group, in accordance with such Fund's, or its authorised representative's, normal practice and that the Index Sponsor deems necessary for it to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund; (C) the Fund ceases, for any reason whatsoever (either directly or through any Fund Service Provider acting on its behalf for this purpose) to provide, publish or make available its net asset value on any Fund Reporting Date; or (D) a Fund Service Provider informs any member of the Morgan Stanley Group that any Reported Net Asset Value of the Fund Interest should not be relied on (whether by reason of it being only a provisional or estimated net asset value or for any other reason) and/or, in the opinion of the Index Sponsor, any Reported Net Asset Value is inaccurate (which, for the avoidance of doubt, includes without limitation circumstances where any net asset value reported by a Fund Service Provider to the Index Sponsor, any member of the Morgan Stanley Group and/or investors in Fund Interests generally differs from any net asset value published on any one or more publishing service);
- (xi) *Compulsory Redemption or Assignment:* (i) the repurchase or redemption by the Fund of all or some of the Fund Interests otherwise than at the request of a holder of such Fund Interests; or (ii) any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) which would mandatorily oblige a holder of Fund Interests to redeem, sell, assign or otherwise dispose of any Fund Interests and which the Index Sponsor determines could affect a Hypothetical Investor;
- (xii) *Closure to Subscriptions; Dealing Restrictions:* (A) the closure of the related Fund to new subscriptions of Fund Interests, or (B) the imposition of any dealing restrictions (including, without limitation, material amendments to relevant documentation, delay (partial or otherwise), suspension or termination (partial or otherwise) of subscription, redemption or settlement) relating to the Fund or transactions in the Fund Interests by any Fund Service Provider, any Affiliate or agent of any Fund Service Provider;
- (xiii) *Disposals: Material Change: Merger:* (A) a disposal to any person(s) of all, or a material part, of the assets of (x) the Fund, or (y) any significant Fund Service Provider; or (B) a material change in the business of the Fund or any significant Fund Service Provider, or (C) the merger, amalgamation or consolidation of the related Fund and/or such Fund Interest with (x) any other sub-fund or compartment of the Fund or (y) any other collective investment undertaking (or sub-fund or compartment of such other collective investment undertaking, including another fund), which, in either case, may, in the determination of the Determination Agent, have an adverse effect on the Fund;
- (xiv) *Fraud:* the Fund is the object of a material fraud which may, in the determination of the Index Sponsor, have an adverse effect on the Fund or the value of Fund Interests; or any act or omission of a Fund Service Provider constitutes fraud (including, but not limited to, theft, misappropriation,

Description of the MS 18% Risk Control ER Index linked to Real Estate Equity Fund

mispricing of holdings or concealment of trades), bad faith, wilful misconduct or negligence, as determined by the Index Sponsor in its reasonable discretion;

- (xv) *Fund Force Majeure Event*: any Fund Service Provider fails to perform any of its obligations pursuant to the Fund Documents to the extent that such performance is prevented, hindered or delayed by a Fund Force Majeure Event, where "**Fund Force Majeure Event**" means any event due to any cause beyond the reasonable control of the applicable Fund Service Provider, such as unavailability of communications system, failure of or interruptions in power supply or network computer systems, sabotage, fire, flood, explosion, acts of God, civil commotion, riots, insurrection or war;
- (xvi) *Delisting*: where there is or was intended to be an Underlying Fund Exchange in respect of the Fund Interests that (A) such Underlying Fund Exchange announces that pursuant to the rules of such Underlying Fund Exchange, such Fund Interests cease (or will cease) being listed or publicly quoted on the Underlying Fund Exchange for any reason and are not immediately re-listed or re-quoted on an exchange or quotation system located in the same country as the Underlying Fund Exchange (or, where the Underlying Fund Exchange is within the European Union, in any Member State of the European Union), or (B) Fund Interests are never so listed or quoted as intended and disclosed in the relevant Fund Documents as at the Index Live Date;
- (xvii) *Fund Accounting Event*: any (i) change in the currency in which the Fund Interest's accounts are denominated; or (ii) material adverse change in the accounting treatment of the relevant Fund which does or could affect a Hypothetical Investor and/or any actual or potential requirement to consolidate its accounts with any such entity; and/or
- (xviii) *Fees or Charges Event*: (i) any charge of a transaction fee for subscription or redemption of Fund Interests; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Interests (whether by the Fund or a Fund Advisor in respect of holders of Fund Interests generally).

"**Fund Interest**" means, in respect of a Fund, a share, unit or other interest in respect of such Fund

"**Fund Interest Currency**" means, in respect of a Fund Interest, the currency in which such Fund Interest is denominated on the Index Live Date as set out in the Fund Documents and as indicated in CCY in the Annex.

"**Fund Potential Adjustment Event**" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (a) an additional amount of Fund Interests, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect

Description of the MS 18% Risk Control ER Index linked to Real Estate Equity Fund

(provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Fund Reporting Date" means, in respect of a Fund Interest and a Fund Valuation Date, the date on which the Reported Net Asset Value of such Fund Interest as determined as of such Fund Valuation Date is reported (as provided in the definition of Reported Net Asset Value).

"Fund Service Provider" means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, to that Fund, whether or not specified in the Fund Documents or any successor acceptable to the Index Sponsor, including without limitation any Fund Adviser, Fund Administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent or domiciliary agent.

"Fund Valuation Date" means, in respect of a Fund Interest, the date as of which such Fund Interest (or its Fund Service Provider that generally determines such value) determines the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Funding Rate" has the meaning given to it in the Annex

"Funding Rate Screen Page" has the meaning given to it in the Annex

"FX Rate" has the meaning given to it in Annex

"FX Rate Screen Page" has the meaning given to it in the Annex

"Hypothetical Investor" means, in respect of a Fund Interest, a hypothetical investor in such Fund Interest deemed to have (a) the benefits and obligations, as provided under the Fund Documents, of an investor holding, as of the Index Live Date, an interest in the relevant Fund in an amount equal to the relevant number of relevant amount of Fund Interests; (b) in the case of any deemed redemption of Fund Interests, to have submitted to the relevant Fund on the relevant Redemption Notice Date, a duly completed notice requesting redemption of the relevant number of such Fund Interests; and (c) in the case of any deemed investment in Fund Interests, to have submitted, on the Index Live Date, a duly completed notice to the relevant Fund, requesting subscription to the relevant number of Fund Interests;

"Hedging Disruption" occurs if the Index Sponsor determines that a hypothetical market participant would as a result of extraordinary market circumstances relating to an Index Component, be unable, after using commercially reasonable efforts, to:

- a) Acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments it deems necessary to hedge its position in relation to any securities issue or other relevant transactions relating to or calculated by reference to the Index; or
- b) Realize, recover or remit the proceeds of any such transactions or instruments.

"Index" has the meaning given to it in Section 1 (*Introduction*).

"Index Base Date" has the meaning given to in in the Annex

"Index Business Day" has the meaning given to it in the Annex

"Index Calculation Agent" has the meaning given to it in Section 5 (*Index Calculation Agent*).

"Index Committee" has the meaning given to it in Section 12 (*Governance*).

"Index Component" means each component specified in Annex 1 hereto.

"Index Component Adjustment Event" means a Fund Potential Adjustment Event.

"Index Component Disrupted Day" means any day which is an Underlying Fund Disrupted Day.

"Index Component Disruption Event" means the occurrence of an event that results in the occurrence of an Index Component Disrupted Day.

“Index Component Price Source” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Scheduled Trading Day” means, in respect of each Index Component where the Index Component Type in respect of such Index Component is:

(i) Fund, a Fund Valuation Date in respect of such Fund.

“Index Component Screen Page” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Type” means, in respect of each Index Component, as specified in the Annex hereto.

“Index Component Underlying Price Source” means, in respect of an Index Component, any information service, exchange or data source used to calculate the price or level of any share, security, commodity, rate, index or other component included in such Index Component, as determined by the Index Calculation Agent.

“Index Component Value” means, in respect of an Index Component which is a Fund, the Underlying Fund Price in respect of such Fund.

“Index Currency” has the meaning given to it in the Annex.

“Index Funding Rate” has the meaning given to it in the Annex

“Index Funding Rate Screen Page” has the meaning given to it in the Annex

“Index Level” means, in respect of each Index Business Day, an amount, expressed in the Index Currency, being the level of the Index in respect of such Index Business Day, as determined in accordance with Section 7 (*Index Level*). If Return Type is set to Total Return, the Index Level is then equal to Total Return Index Level as determined in accordance with Section 7.1. If Return Type is set to Excess Return, the Index Level is then equal to Excess Return Index Level as determined in accordance with Section 7.2.

“Index Live Date” has the meaning given to it in the Annex

“Index Publication Time” has the meaning given to it in Section 8 (*Publication*).

“Index Sponsor” has the meaning given to it in Section 4 (*Index Sponsor*).

“Initial Index Level” has the meaning given to it in the Annex

“IOSCO” has the meaning given to it in Section 12 (*Governance*).

“Market Disruption Event” means, in respect of:

(i) a Fund, an Underlying Fund Disruption Event in respect of such Fund.

“Material Change” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“MiFID II” means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as may be amended or replaced from time to time).

“Morgan Stanley Group” has the meaning given to it on the front page of this Description.

“MSIP” has the meaning given to it in Section 3 (*Overview*).

“MS Benchmark Statement” has the meaning given to it in Section 1 (*Introduction*).

“NB Shares Basket” has the meaning given to it in Section 7

“Price Source Disruption” means any Index Component Price Source, Index Component Underlying Price Source, Index Funding Rate Screen Page, Funding Rate Screen Page or other source data required to calculate the Index is insufficient, inaccurate or unreliable or not available whether due to temporary or

permanent discontinuance or failure of the price source for such data or otherwise, as determined by the Index Calculation Agent.

“**Potential Adjustment Event**” means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (A) an additional amount of Fund Interests, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

“**Principles**” has the meaning given to it in Section 12 (*Governance*).

“**Redemption Notice Date**” means, in respect of a Fund Interest, the last date on which a Hypothetical Investor in such Fund Interest would be permitted, pursuant to the Fund Documents of the related Fund, to submit a redemption notice that would be timely for a redemption as a Scheduled Redemption Valuation Date

“**Redemption Proceeds**” means, in respect of the relevant amount of Fund Interests, the redemption proceeds that in the determination of the Index Sponsor would be paid by the relevant Fund to a Hypothetical Investor who, as of the relevant Redemption Valuation Date, redeems such amount of Fund Interests and (for the avoidance of doubt after deduction of any tax, levy, charge, assessment or fee of any nature that, in the determination of the Index Sponsor, would (or would be very likely to) be withheld or deducted from such amount); provided that (i) any such proceeds that would be paid in property other than cash shall be deemed to have a value of zero and (ii) if the Hypothetical Investor would be entitled to elect payment of such redemption proceeds to be made either in the form of cash or other property, then the Hypothetical Investor shall be deemed to have elected cash payment.

“**Redemption Valuation Date**” means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date as of which the relevant Fund (or its Fund Service Provider that generally determines such value) determines the net asset value of Fund Interests for purposes of calculating the redemption proceeds to be paid to a Hypothetical Investor that has submitted a valid notice for redemption on or before the related Redemption Notice Date.

“**Relevant Fund**” has the meaning given to such term in Section 10.3 (*Consequences of Fund Events*).

“**Removal Value**” means, in respect of a Relevant Fund and the Fund Interest in respect of such Relevant Fund, the value calculated by the Index Sponsor in the same manner as would be used in determining the Underlying Fund Price of Fund Interests in the related Fund. Where the Removal Value is required to be converted into the Index Currency it shall be so converted by the Index Sponsor at such time and by reference to such sources as it deems appropriate.

“Reported Net Asset Value” means, in respect of any Fund Interest and a Fund Reporting Date relating to such Fund Interest, the official net asset value per Fund Interest as of the related Fund Valuation Date or, if the related Fund reports only its aggregate net asset value, the portion of such Fund's aggregate net asset value relating to a Fund Interest as of the related Fund Valuation Date, in each case as reported on the Fund Reporting Date relating to such Fund Valuation Date by the Fund Service Provider that generally reports such value on behalf of the Fund to its investors or a publishing service.

“Return Type” has the meaning given to it in the Annex

“Scheduled Fund Valuation Date” means, in respect of a Fund Interest, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

“Scheduled Redemption Payment Date” means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date by which the related Fund is scheduled to have paid, according to its Fund Documents, all or a specified portion of the Redemption Proceeds to an investor that has submitted a timely and valid notice requesting redemption of such Fund Interest as of such Scheduled Redemption Valuation Date.

“Scheduled Redemption Valuation Date” means, in respect of a Fund Interest and any relevant day, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the net asset value of such Fund Interest for the purposes of calculating the redemption proceeds to be paid to an investor that has submitted a valid and timely notice for redemption of Fund Interests based on the value determined as of the Scheduled Redemption Valuation Date for which the Scheduled Redemption Payment Date falls on or immediately prior to such day.

“SEK” means Swedish Krona.

“Successor Source” means, in relation to any display page, other published source, information vendor or provider:

- (i) the successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original page or source; or
- (ii) if the sponsor of the original page or source has not officially designated a successor display page, other published source, service or provider (as the case may be), the successor display page, other published source, service or provider, if any, designated by the relevant information vendor or provider (if different from such sponsor).

“TARGET2 Settlement Day” means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (TARGET2) is open.

“Termination of Data Licence” means the occurrence of a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data is supplied to compile or calculate the Index.

“Theoretical Exposure” has the meaning given to it in Section 7.1.3.

“Underlying Fund Disrupted Day” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing.

“Underlying Fund Disruption Event” means, in respect of a Fund, any of the following events:

- (i) in respect of any Fund Interest, the failure of (i) an Index Business Day to be a Fund Valuation Date or any continued postponement or suspension of such Fund Valuation Date; and/or (ii) there to be a Fund Reporting Date and/or Reported Net Asset Value relating to the relevant Fund Valuation Date;

- (ii) in respect of any Fund Interest (a) there is a failure by the Fund to pay the full amount (whether expressed as a percentage or otherwise) of the Redemption Proceeds in the Fund Interest Currency with respect to the relevant amount of such Fund Interest scheduled to have been paid on or by such day according to the Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of such Fund Interests) or (b) a Hypothetical Investor which had submitted a valid redemption notice in respect of such Fund Interest on the last date permitted pursuant to the relevant Fund Documents would, in the reasonable opinion of the Index Sponsor, not have received in full the Redemption Proceeds in respect of such redemption(s) on or before the date it was scheduled to do so in accordance with the Fund Documents; and/or
- (iii) any closure other than for ordinary public holidays and/or any restriction or suspension in trading of foreign exchange markets or money markets in a relevant Fund Interest Currency or Index Currency that, in the opinion of the Index Sponsor, would have a material effect on the ability market participants to effect transactions in such markets,

provided that if any event would otherwise be both an Underlying Fund Disruption Event and Fund Event, such event shall be treated solely as a Fund Event.

“**Underlying Fund Exchange**” means, in respect of a Fund Interest, the principal exchange or quotation system for such Fund Interest, as determined by the Index Sponsor, and any successor to such exchange or quotation system or any substitute exchange or quotation system to which such Fund Interest have temporarily relocated.

“**Underlying Fund Price**” means, in respect of a Fund Interest and the Underlying Fund Valuation Time on any relevant day, the Reported Net Asset Value of such Fund Interest for the related Fund Valuation Date falling on such day.

“**Underlying Fund Valuation Time**” means, in respect of a Fund Interest, the time on or in respect of any relevant day at which the applicable Underlying Fund Price is scheduled to be determined in accordance with the relevant Fund Documents.

10. *Adjustment Provisions*

10.1 *Adjustment Events*

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may acting in good faith and a commercially reasonable manner:

- (i) substitute any Index Component or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate;
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the “**Relevant Day**”) shall be equal to the Index Component Value in respect of such Relevant Day;

- (iv) reallocate the portion of the Index exposed to any Index Component which is affected by such Adjustment Event to the cash until the next Index Business Day on which it determines that no Adjustment Event exists (and make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such reallocation;
 - (v) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
 - (vi) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
 - (vii) cancel the Index and permanently cease to calculate the Index Level.
- 10.2 ***Determinations made by the Index Sponsor in respect of Fund Potential Adjustment Events and Fund Events may have an adverse effect on the value of a Financial Product***

Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (*Adjustment Events*) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (*Adjustment Events*) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or reclassification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.

10.3 ***Adjustment procedures, notification and consultation process***

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index. While the Index Sponsor currently employs this methodology, no assurance can be given that fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances will not arise that would, in the view of the Index Sponsor, necessitate or make desirable a modification or change to this Description.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a “**Change**”) which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a “**Material Change**”) the Index Sponsor will give prior notice to Financial Product Investors that a

Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days' notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

10.4 *Consequences of Fund Events*

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a "**Relevant Fund**"), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such sources as it considers appropriate including, but not limited to, the value that a third party on arms' length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

11. *Errors and Corrections*

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

12. Governance

Morgan Stanley has adopted the “Principles for Financial Benchmarks” published by the International Organization of Securities Commissions (“IOSCO”) on 17 July 2013 (the “Principles”) on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the “Index Committee”).

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

13. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;
- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator, supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;
- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

14. Important Information

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied

Description of the MS 18% Risk Control ER Index linked to Real Estate Equity Fund

with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at complaints ms@morganstanley.com.

ANNEX

INDEX MAIN DEFINITIONS:

Index Currency	SEK
Initial Index Level	100
Index Business Day	means a day (i) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London (“LNB”) (ii) for which the Nasdaq Stockholm Exchange is open for trading during its regular trading session (“STS”) (iii) which is a Fund Valuation Date in respect of each Index Component
Index Base Date	13 th November 2013

OVERVIEW OF THE MS 18% RISK CONTROL ER INDEX LINKED TO REAL ESTATE EQUITY FUND

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Rules. The Index is governed by the Index Rules and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to a weighted basket of one equity mutual fund, as described below (the “**Basket**”), whilst maintaining a volatility at or around 18% (the “**Target Volatility**”). To pursue this objective, the Index implements a daily “*Risk Control Mechanism*” which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Basket. When volatility increases, the Index reduces exposure to Basket and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Basket, up to a maximum exposure of 150%, and reduces its exposure to cash.

When the Index’s exposure to the Basket is higher than 100%, the Index uses a “leveraged” exposure to the underlying funds. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying funds. The maximum leverage the Index can employ is capped at 150%.

Does the Index represent a physical investment in the Basket?

The Index can be described as a “notional” investment in the Basket or as a “synthetic portfolio” as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does “Excess Return” mean?

The Index is construed as an “**Excess Return**” asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Basket. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is to be opposed to a Total Return investment which assumes that such investment is fully funded.

What does “Decrement” mean?

The Index is calculated by deducting a 2.50% per annum* percentage rate (the “**Decrement**”) applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 2.50% lower than what it would otherwise be without such deduction.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 18% by allocating exposure to the Basket based on the realised volatility of the Basket itself. The target weight assigned by the Index to the Basket on any business day is the ratio of 18% to the realised volatility of the Basket. The realised volatility of the Basket is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Fund experiences higher volatility, it means greater changes in its price. In such environment, exposure to the Fund can produce unpredictable results. Volatility can anticipate both a decline or a rebound in the Fund. A “volatility target” mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Fund. In practical terms, when exposure to the Fund is reduced, the level of the Index is less sensitive to the volatility of such Fund and therefore will suffer less from a decline in the performance of the Fund. A “volatility target” mechanism can however also hinder

the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Basket is 0% even when the Basket volatility has reached a level higher than the Target Volatility. As a result, exposure to the Basket cannot be negative.

What are the Funds underlying the Index?

<i>Name of Reference Fund</i>	<i>Bloomberg Code</i>	<i>ISIN</i>	<i>Share Class Type</i>	<i>Investment Manager</i>	<i>Weight in the Basket</i>	<i>Web-site to obtain further information*</i>

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Basket which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Funds. In general terms, if the Funds increase in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to such Funds as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

Description of the MS 18% Risk Control ER Index linked to Real Estate Equity Fund

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Funds that make up the Basket. This cost is represented by the Stockholm Interbank 3-month rate. The higher the borrowing rates, the lower the performance of the Index. In an environment where borrow rates are significant, the Index may exhibit material underperformance when compared to a direct investment in the underlying Funds.
- The Index is calculated by deducting a 2.50% per annum decrement percentage rate, which is deducted daily pro rata. This means that the Index annual performance would be on average 2.50% lower than what it would otherwise be without such decrement.

Simulated Historical Track Record of the Index

The below chart represents the simulated historical performance of the Index in comparison with the simulated historical performance of the Basket.

This is not actual historical performance and it should not be taken as an indication of future performance of the Index or the Basket.

Simulation Start Date: 13 November 2013

Simulation End Date: 08 December 2022

<i>Year</i>	<i>Simulated Basket Performance*</i>	<i>Simulated Index Performance*</i>
2014	39.5%	47.6%
2015	28.2%	25.6%
2016	9.5%	0.6%
2017	11.8%	16.0%

DESCRIPTION OF THE MS 20% RISK CONTROL ER INDEX LINKED TO DIVERSIFIED SMALL CAP EQUITY FUNDS

Bloomberg Page: MSFDDC20

The MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds is the exclusive property of Morgan Stanley & Co. International plc and its Affiliates (the “**Morgan Stanley Group**”). Morgan Stanley and the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds are trade marks of the Morgan Stanley Group and no person or entity should refer to any of the trade marks without the consent of a member of the Morgan Stanley Group and should not use any of the information in this Description for any purpose other than in relation to an investment or otherwise in connection with any Financial Product (as defined below) for which such consent has been obtained. The non-exclusive right to use the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds as an underlying reference basis or otherwise for any Financial Product is granted only upon completion of a license agreement with a member of the Morgan Stanley Group. The Index Sponsor, the Index Calculation Agent and each member of the Morgan Stanley Group disclaim any responsibility for any unauthorised use of the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds by any third party.

No representation is made by any member of the Morgan Stanley Group with respect to the eligibility of the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds for investment for investment (including, but not limited to, compliance with the UCITS Directive (2009/65/EC), as amended and supplemented from time to time (the “**UCITS Directive**”), or its use in connection with any Financial Product to be entered into or held, by any prospective investor. Prospective investors should make their own independent analysis of whether the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds meets the eligibility criteria for their investment (including, but not limited to, compliance with the UCITS Directive) or use by them in relation to the relevant Financial Product and of whether the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds responds to their criteria, needs and objectives for investment or otherwise. The term “investor” will include any counterparty, holder or contract party in relation to a Financial Product.

Nothing contained in this Description should be construed as an offer or solicitation to purchase or sell securities or to enter into any transaction or engage in investment activity of any kind. If you do invest in a Financial Product or engage in any other investment activity, you should ensure that you fully understand the nature of such investment and the risks involved and are satisfied that the investment is suitable and appropriate for your circumstances. If you are in any doubt about this you should take advice from an appropriately qualified advisor.

This Description does not constitute investment, taxation, legal, accounting or other advice, including within the meaning of Article 53 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 or investment advice within the meaning of Article 4(4) of MiFID II.

1. Introduction

This Description sets out the methodology of the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds (the “**Index**”) and the basis on which the Index is calculated.

This Description is intended to provide the information relating to the Index required by the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 ((EU) 2016/1011)) (as amended) (the “**Benchmarks Regulation**”) as it forms part of “retained EU law” in the United Kingdom as defined in the European Union (Withdrawal) Act 2018 (as amended from time to time) (the “**UK Benchmarks Regulation**” and, together with the EU Benchmarks Regulation, the “**Benchmarks Regulation**”). This Index is a non-significant and regulated data benchmark for the purposes of the UK Benchmarks Regulation.

As at the date of publication of this Description, Morgan Stanley & Co. International plc appears on the register of benchmark administrators established and maintained by the Financial Conduct Authority pursuant to Article 36 of the Benchmarks Regulation. Morgan Stanley & Co. International plc’s benchmark statement (the “**MS Benchmark Statement**”) can be accessed via the following link:

https://www.morganstanley.com/content/dam/msdotcom/en/assets/pdfs/sales_and_trading_disclosures/M_SIP_Benchmark_Statement-Multi-Asset_Signal-based_Benchmark_Family.pdf

Subject as provided in Section 10 (*Adjustment and Disruption Provisions*), this Description is subject to change or adjustment at any time (including, without limitation, in accordance with the requirements of the UK Benchmarks Regulation) and will be superseded by any subsequent Description. A copy of the current version of the Description can be obtained following the method described in Section 8 (*Publication*).

No one may reproduce, distribute or disseminate this Description, any information contained in this Description or any Index Level (as applicable) without the prior written consent of the Index Sponsor. This Description is not intended for distribution to, or use by any person in, a jurisdiction where such distribution is prohibited by law or regulation.

ESG Disclosures pursuant to Commission Delegated Regulation (EU) 2020/1817 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards the minimum content of the explanation on how environmental, social and governance factors are reflected in the benchmark methodology, as on-shored in the United Kingdom by way of The Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019:

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Morgan Stanley & Co. International plc
Item 2. Type of benchmark or family of benchmarks.	Multi Asset
Item 3. Name of the benchmark or family of benchmarks.	Multi Asset Signal-based
Item 4. Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	No

2. *Overview*

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Summary

The Index aims to provide exposure to the Index Components and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a “notional” or synthetic exposure to the Index Component and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Component and a rules-based strategy, the performance of which is used as a reference point for calculating Index Levels.

This Section 3 (Overview) is subject to, and qualified by, the remainder of this Description.

3. *Index Sponsor*

The Index has been developed by Morgan Stanley & Co. International plc (“MSIP”). The Index is administered by the index sponsor or any successor thereto (the “**Index Sponsor**”). The initial Index Sponsor is MSIP.

The Index Sponsor controls the creation and operation of the Index administrative process, including all stages involved in the production and dissemination of the Index. The Index Sponsor also is responsible for the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of this Description. Notwithstanding that the Index relies on information from third party sources, the Index Sponsor has primary responsibility for all aspects of the Index administration and determination process.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

The Index Sponsor is not acting as a manager or an investment advisor in relation to the Index and has no relationship of agency or trust or any fiduciary duty to any person in respect of the Index and is not required to take the interests of any person into account in making any determination or calculation in relation to the Index.

The Index Sponsor makes no warranty or representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

No Financial Product is sponsored, endorsed, sold or promoted by MSIP or the Index Sponsor, and neither MSIP nor the Index Sponsor makes any express or implied representations or warranties as to (a) the advisability of purchasing or assuming any risk in connection with any Financial Product,

(b) the levels at which the Index stands at any particular time on any particular date, (c) the results to be obtained by the issuer or obligor of any Financial Product, or any Financial Product Investor, or any other person or entity from the use of the Index or any data included therein in connection with any licensed rights or for any other use or (d) any other matter. Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP/ or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP may in its sole and absolute discretion delegate and/or transfer any of its obligations and/or functions in relation to the administration and determination of the Index to one or more third parties as it deems appropriate from time to time. MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

4. *Index Calculation Agent*

The Index is calculated by MSIP (or any successor thereto) (the “**Index Calculation Agent**”).

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent’s calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. The term “manifest error” as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without (i) recourse to the underlying data or (ii) any application or re-application of any formulae. No person (whether a Financial Product Investor or otherwise) will be entitled to proceed (and shall be deemed to have agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to the Index.

For so long as the Index Calculation Agent constitutes and calculates the Index, the Index Calculation Agent does not accept any liability for loss or damage of any kind (including, without limitation, any special, punitive, indirect or consequential damages (including loss of profits)) arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index itself and disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any information in connection with it.

5. *Index Data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the Index Component Value, the Index Funding Rate and the Funding Rate in respect of each Index Component as published on the relevant Index Component Price Source in respect of such Index Component.

No assurance can be given that any such Index Component Values, Index Funding Rate or Funding Rate will be published on the relevant Index Component Price Source, on the Index Funding Rate Screen Page or on the Funding Rate Screen Page accurately, in a timely manner or at all and the Index Sponsor and the Index Calculation Agent have relied on, and will rely on, such Index Component Values and Funding Rate as they are published on the relevant Index Component Price Source or Funding Rate Screen Page. Neither the Index Sponsor nor the Index Calculation Agent has independently verified the information extracted from such sources and accepts no responsibility or liability in respect thereof.

6. Calculation of the Index

6.1 Total Return Index Level

The Total Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Total Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$TRIndex_t = \text{Max} \left(0, TRIndex_{t-1} \times \left[1 + \text{Effective Exposure}_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 \right) + (1 - \text{Effective Exposure}_{t-1}) \times Rate_{t-1} \times \frac{\Delta t}{DayCount} \right] - TC_t \right) \times (1 - AF_t)$$

Where:

max, followed by amounts (or values) inside brackets, means whichever is the greater of the amounts (or values) separate by a semi-colon inside such brackets;

TRIndex Level(t-1) means the Total Return Index Level in respect of the Index Business Day immediately preceding Index Business Day t;

Effective Exposure(t-1) means the Effective Exposure in respect of Index Business Day t-1, calculated as per paragraph 7.3 below;

Basket(t) means the Basket Level in respect of Index Business Day t, calculated as per paragraph 7.7 below;

Basket(t-1) means the Basket Level in respect of the Index Business Day immediately preceding Index Business Day t;

Rate(t-1) means the Index Funding Rate in respect of the Index Business Day immediately preceding Index Business Day t;

Δt means the number of calendar days from (and including) the Index Business Day immediately preceding Index Business Day t to (but excluding) Index Business Day t;

DayCount means 360;

TC(t) means the Transaction Cost in respect of Index Business Day t and is an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$TC_t = |Nb Shares Basket(t) - Nb Shares Basket(t-1)| \times Basket(t) \times RC$$

Where RC is the Rebalancing Cost and has the meaning given to it in the Annex

$AF(t)$ means, the Accrued Fee in respect of Index Business Day t , an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$AF(t) = \left[\frac{\Delta t}{DayCount} \times Decrement Rate \right]; \text{ and}$$

Decrement Rate has the meaning given to it in the Annex

6.2 Excess Return Index Level

The Excess Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Excess Return Index Level in respect of each Index Business Day (each an “**Index Business Day t** ”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$ERIndex_t = \text{Max} \left(0, ERIndex_{t-1} \times \left[1 + Effective Exposure_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 - Rate_{t-1} \times \frac{\Delta t}{DayCount} \right) \right] - TC_t \right) \times (1 - AF_t)$$

6.3 Calculation of the Exposure

The theoretical exposure (the “**Theoretical Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$TheoreticalExposure_t = \text{Min}[maxExposure, UnconstrainedExposure_t]$$

Where:

$$UnconstrainedExposure_t = \frac{Vol Target}{Realised Volatility (t)}$$

The exposure (the “**Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where Rebalance Rule is set as “ABSOLUTE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } |TheoreticalExposure_t - Exposure_{t-1}| > Threshold \\ Exposure_{t-1}, & \text{Otherwise} \end{cases}$$

- Where Rebalance Rule is set as “RELATIVE INVERSE” in the Annex:

$$Exposure_t = \begin{cases} TheoreticalExposure_t & \text{if } \left| \frac{Exposure_{t-1}}{UnconstrainedExposure_t} - 1 \right| > Threshold \\ Exposure_{t-1}, & \text{Otherwise} \end{cases}$$

Where:

maxExposure has the meaning given to it in the Annex

VolTarget has the meaning given to it in the Annex

Threshold has the meaning given to it in the Annex

Lag means has the meaning given to it in the Annex

Realised Volatility (t-Lag) means the Realised Volatility in respect of Index Business Day (t-Lag)

6.4 **Calculation of the Number of Shares Basket**

The number of shares of the basket (the “Number of Shares Basket”) in respect of any Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

Where Index Business Day *t* is the Index Base Date or any of the following Lag – 1 Index Business Days:

$$NbShares\ Basket(t) = 0$$

Where Index Business Day *t* falls on any subsequent day:

- In respect of the Total Return Index:

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times TRIndex_{t-Lag}}{Basket_{t-Lag}}$$

- In respect of the Excess Return Index

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times ERIndex_{t-Lag}}{Basket_{t-Lag}}$$

6.5 **Calculation of the Effective Exposure**

The effective exposure (the “**Effective Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

- In respect of the Total Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{TRIndex_t}$$

- In respect of the Excess Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{ERIndex_t}$$

6.6 **Calculation of the Realised Volatility**

The Realised Volatility in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where the Realised Volatility Format is set as ARITHMETIC in the Annex:

$$Realised\ Volatility(t) = Max(ST\ Vol(t), LT\ Vol(t))$$

Where:

$$ST Vol (t) = \sqrt{\frac{252}{ST Tenor \times ST Return Size} \times \sum_{k=t-STTenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-STReturn Size)}\right)^2}$$

$$LT Vol (t) = \sqrt{\frac{252}{LT Tenor \times LT Return Size} \times \sum_{k=t-LT Tenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-LT Return Size)}\right)^2}$$

- Where the Realised Volatility Format is set as GEOMETRIC in the Annex:

$$Realised Volatility (t) = Max (ST Vol (t), LT Vol (t))$$

Where:

ST Vol (t) means:

- (xi) Where such Index Business Day is the Index Base Date or any of the immediately following *ST Return Size – 1* Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = Initial Volatility$$

- (xii) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = \sqrt{\lambda_{ST} \times ST Vol (t - 1)^2 + (1 - \lambda_{ST}) \times \ln\left(\frac{Basket_t}{Basket_{t-ST Return Size}}\right)^2 \times \frac{252}{ST Return Size}}$$

LT Vol (t) means:

- (xi) Where such Index Business Day is the Index Base Date or any of the immediately following *LT Return Size – 1* Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = Initial Volatility$$

- (xii) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = \sqrt{\lambda_{LT} \times LT Vol (t - 1)^2 + (1 - \lambda_{LT}) \times \ln\left(\frac{Basket_t}{Basket_{t-LT Return Size}}\right)^2 \times \frac{252}{LT Return Size}}$$

Where:

λ_{ST} has the meaning given to it in the Annex

ST Tenor has the meaning given to it in the Annex

ST Return Size has the meaning given to it in the Annex

λ_{LT} has the meaning given to it in the Annex

LT Tenor has the meaning given to it in the Annex

LT Return Size has the meaning given to it in the Annex

6.7 Calculation of the Basket

7.7.1 Calculation of the Basket Level

The basket level (the “Basket Level”) in respect of the Initialisation Date shall be equal to the Initial Basket Level as defined in the Annex.

The Basket Level in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Basket_t = Basket_{t-1} + Performance_t + CashPerformance_t + FundingCost_t - AHC_t$$

Where:

$Performance_t$ is defined in section 7.7.2

$CashPerformance_t$ is defined in section 7.7.3

$FundingCost_t$ is defined in section 7.7.4

AHC_t is defined in section 7.7.5

7.7.2 Calculation of the Basket Performance

The basket performance (the “Basket Performance”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Performance_t = \sum_{i=1}^N Units_{i,t-1} \times (CL_{i,t} - CL_{i,t-1}) \times FX_{i,t}$$

Where:

N is the number of Index Components within the Basket as defined in the Annex

$Units_{i,t-1}$ is the Number of Units of Basket Component i in respect of Index Business Day t-1 as defined in Section 7.6.5

$CL_{i,t}$ means the Index Component Value of Basket Component i in respect of Index Business Day t

$FX_{i,t}$ means the FX Rate for Basket Component i in respect of Index Business Day t

7.7.3 Calculation of the Cash Performance

The cash performance (the “Cash Performance”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$CashPerformance_t = CashBalance_{t-1} \times Rate_{t-1} \times DCF_{t-1,t}$$

Where:

$$CashBalance_t = Basket_t - \sum_{i=1}^N Units_t^{i|Funded \cap IndexCCY} \times CL_t^{i|Funded \cap IndexCCY}$$

$i|Funded \cap IndexCCY$ means the Basket Component i , where such Basket Component is specified as

Funded in the Annex and is denominated in the same currency as the Index Currency

$DCF_{t-1,t}$ means the number of calendar days from (and including) Index Business Day $t-1$ to and (excluding) Index Business Day t divided by 360.

7.7.4 Calculation of the Funding Cost

The funding cost (the “**Funding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$FundingCost_t = \sum_{CCY} FundingBalance_{t-1}^{CCY} \times (Rate_{t-1}^{CCY} + Spread^{CCY}) \times DCF_{t-1,t} \times FX_{CCY,t}$$

Where:

$$FundingBalance_t^{CCY} = - \sum_{i=1}^N Units_t^{i|Funded \cap CCY} \times CL_t^{i|Funded \cap CCY}$$

$i|Funded \cap CCY$ means the Basket Component i , where such Basket Component is specified as Funded in the Annex and is denominated in currency CCY provided that such currency is other than the Index Currency

$Rate_{t-1}^{CCY}$ means the Funding Rate for currency CCY as defined in the Annex

$Spread^{CCY}$ means the Funding Spread for currency CCY as defined in the Annex

7.7.5 Calculation of the Aggregate Holding Cost

The aggregate holding cost (the “**Aggregate Holding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$AHC_t = \sum_{i=1}^N N_{i,t-1} \times CL_{i,t} \times FX_{i,t} \times HC_i \times DCF_{t-1,t}$$

Where:

HC_i is the Holding Cost for Basket Component i as specified in the Annex.

7.7.6 Calculation of the Number of Units of Basket Components

On the Initialisation Date, the Number of Units invested in the Basket Component i per unit of the Basket is calculated by the Index Calculation Agent in accordance with the following formula:

$$N_{i,t=0} = 0$$

In respect of any Index Business Day thereafter:

- If t is a Scheduled Basket Rebalancing Day:

$$N_{i,t} = \frac{W_i \times Basket_{Max(0,t-BasketUnitLag)}}{CL_{i,Max(0,t-BasketUnitLag)} \times FX_{i,Max(0,t-BasketUnitLag)}}$$

- Otherwise

$$N_{i,t} = N_{i,t-1}$$

Where:

W_i means the Weight for Basket Component i as defined in the Annex

6.8 **Miscellaneous**

Each Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

6.9 **Index Live Date and Retrospective Calculations**

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the “Back-test Period”) has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

7. **Publication**

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the “**Index Publication Time**”) on the second Index Business Day immediately

Description of the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds

following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

8. Definitions

“**Adjustment Event**” means (i) an Index Component Disruption Event, (ii) a Disruption Event, (iii) a Force Majeure Event, (iv) an Index Component Adjustment Event.

“**Affiliate**” means in relation to any entity (the “**First Entity**”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes, “control” means ownership of a majority of the voting power of an entity.

“**Accrued Fee**” has the meaning given to it in Section 7.1

“**Back-test Period**” has the meaning given to in Section 7. (*Index Live Date and Retrospective Calculations*).

“**Basket Mechanism**” has the meaning given to it in Section 7.1.4.

“**Basket Unit Lag**” has the meaning given to it in the Annex

“**Benchmarks Regulation**” has the meaning given to it in Section 1 (*Introduction*).

“**Bloomberg**” means Bloomberg L.P. or any of its Affiliates, or any successor market price information provider(s).

“**Bloomberg Page**” has the meaning given to it in the Annex or any Successor Source thereto

“**Change**” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“**Change in Law**” means there has been a change in applicable law or regulation or the promulgation of or any change in the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation that prevents or will prevent the Index Sponsor and/or the Index Calculation Agent from calculating and/or publishing the Index.

“**Description**” has the meaning given to it on the second page of this Description.

“**Disappearance or Unavailability Event**” means there is (i) a permanent discontinuation of trading in an Index Component or (ii) a disappearance or permanent discontinuance or unavailability of an Index Component Value, notwithstanding the status of trading in the relevant Index Component (if applicable), or any other source data required to calculate the Index.

“**Disrupted Day**” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing in respect of such Fund.

“**Disruption Event**” means each of (i) a Change in Law, (ii) a Disappearance or Unavailability Event, (iii) a Hedging Disruption, (iv) a Price Source Disruption Event or (v) a Termination of Data Licence.

“**Financial Product**” has the meaning given to it in Section 2 (*Risk Factors and Investment Considerations*).

“**Financial Product Investor**” has the meaning given to in in Section 2 (*Risk Factors and Investment Considerations*).

“**Force Majeure Event**” means an event or circumstance has occurred beyond the reasonable control of the Index Sponsor (including, without limitation, a systems or IT failure (including, without limitation, a systems breakdown, incomplete or ineffective upgrade, malfunction, malware, virus or other similar circumstances affecting the Index Sponsor’s information technology and related processing systems), fire, flood, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) which directly or indirectly prevents or otherwise affects the determinations of the Index Sponsor and/or the Index Calculation Agent in relation to the Index.

"Frequency of Fund Interest Valuation" means, in respect of a Fund Interest, the frequency of occurrence of a Fund Business Day of such Fund Interest as determined by reference to the Fund Documents in effect on the Index Live Date.

"Fund" means, in respect of a Fund Interest, the issuer of, or other legal arrangement (including, if applicable, any class or series) giving rise to such Fund Interest as specified in Annex 1 hereto.

"Fund Administrator" means, in respect of a Fund, any fund administrator, manager, trustee or similar person responsible for the administration of such Fund and the determination and reporting of any official price or value of such Fund according to the Fund Documents or any successor acceptable to the Index Sponsor.

"Fund Advisor" means any person appointed in the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor to a discretionary investment manager or to another non-discretionary investment advisor) for such Fund and/or a Fund Administrator and/or any other person(s) designated in the Fund Documents as responsible for the oversight of the Fund, or any successor to any such person acceptable to the Index Sponsor.

"Fund Business Day" means, in respect of a Fund, each of a Scheduled Fund Valuation Date and any day on which the Fund or the primary Fund Administrator acting on behalf of the Fund is scheduled to effect subscription and redemption requests.

"Fund Documents" means, in respect of a Fund and the related Fund Interest, the constitutive and governing documents, subscription agreements and other agreements of the related Fund specifying the terms and conditions of such Fund Interest (including, without limitation, the prospectus, information memorandum or other offering document issued by such Fund in connection with such Fund Interest), in each case and unless where otherwise specified, as amended and/or supplemented from time to time.

"Fund Event" means, the occurrence or announcement by the Fund or a Fund Service Provider at any time of any of the following events:

- (i) *Nationalisation*: all the Fund Interests or all or substantially all the assets of the Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (ii) *Fund Insolvency Event*: in respect of a Fund Interest and the related Fund (a) the Fund and/or any Fund Service Provider (A) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (B) makes a general assignment or arrangement with or for the benefit of its creditors; (C)(1) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in (1) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within 15 days of the institution or presentation thereof; (D) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (E) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 15 days thereafter; or (F) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in (A) through (E) above; or (without prejudice to the foregoing) (b) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous

proceeding affecting a Fund, (A) all the Fund Interests are required to be transferred to a trustee, liquidator or other similar official or (B) holders of Fund Interests become legally prohibited from transferring them;

- (iii) *NAV Trigger/Restriction Event*: in respect of a Fund Interest (A) the Reported Net Asset Value as of the last Fund Valuation Date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the Reported Net Asset Value as of the Fund Valuation Date of the same month in the immediately preceding calendar year (or, if the first year of operation of the relevant Fund Interest, as of its highest Reported Net Asset Value on the last Fund Valuation Date of any month during such first year); or (B) the related Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (iv) *Fund Advisor Event*: (a) that at any time after the Index Live Date, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) is equal to or less than 100,000,000 U.S. Dollars (or its equivalent) or (b) that over any period of twelve months, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) has decreased by fifty per cent. (whether due to redemptions or decrease in the value of such assets or otherwise);
- (v) *Changes to Fund or Fund Service Providers*: (a) any change in the organisation of the Fund or of any Fund Service Provider without the prior written consent of the Index Sponsor including, without limitation, a change of control of, or a change of the main shareholders, managing directors or individual(s) designated as fund manager(s) in the Fund Documents as at the Index Live Date (if any) of a Fund Service Provider, (b) any Fund Service Provider ceasing to act in the relevant capacity in relation to the Fund unless immediately replaced in such capacity by a successor acceptable to the Index Sponsor or (c) any delegation or transfer by the Fund Advisor of any of its powers, duties or obligations under the Fund Documents to a third party without the prior written consent of the Index Sponsor;
- (vi) *Fund Modification*: any change, modification or termination of the related Fund Documents or of any rights attaching to the related Fund Interests (including without limitation any change or modification affecting management policy, the Fund Interest Currency, the Frequency of Fund Interest Valuation, the terms relating to subscription, transfer and/or redemption of such Fund Interest including any change to the form or schedule of payment or notice period) from those prevailing on the Index Live Date and which could reasonably be expected to affect the value of such Fund Interests;
- (vii) *Strategy Breach*: any material breach of or non-compliance with any investment objective, investment restrictions or other strategy or investment guidelines or requirements, subscription and redemption provisions (including, without limitation, the days treated as Fund Business Days) or valuation provisions (including, without limitation, the method of determining the net asset value of the relevant Fund Interest), in each case as set out in the Fund Documents as in effect on the Index Live Date;
- (viii) *Breach by Fund Service Provider*: the breach by any relevant Fund Service Provider of any obligation (including, without limitation, non-compliance with any investment guidelines relating to the Fund Interest), representation or warranties concerning the relevant Fund (including, without limitation, pursuant to any agreement with the Fund), which breach, if capable of remedy, has not been remedied within ten (10) calendar days of its occurrence;
- (ix) *Regulatory Event*: (1) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Advisor that is reasonably likely to have an adverse impact on the value of the related Fund Interest or on any investor therein (as determined by the Index Sponsor) or (2) the related Fund Interest or any of its Fund Service Providers becoming subject to any investigation, proceeding, arbitration, litigation or official action by any relevant governmental, legal or regulatory authority involving the alleged violation of, or non-compliance with, applicable law or regulation in relation to any activities relating to or resulting from the operation of the Fund

or another fund where, in the opinion of the Index Sponsor, such circumstances may have an adverse effect on the Fund or (B) (i) the withdrawal, cancellation, suspension or revocation of any registration, licence or approval of the Fund Interests or the Fund by any governmental, legal or regulatory entity with authority over such Fund Interest or Fund; (ii) the withdrawal, suspension, cancellation or modification of any licence, consent, permit, authorisation or clearance required for the Fund or any one or more of its significant Fund Service Providers to carry out their activities as they are or should be carried out in compliance with applicable law or regulation; and/or (iii) the failure of the Fund and/or the Fund Interests to comply with any applicable requirements from time to time applied by any relevant listing authority, stock exchange, quotation system and/or regulator that allow it to be used to determine amounts due under the Financial Products (or, in the case of (B)(i), (ii) or (iii), any official announcement indicating that any such circumstances may occur);

- (x) *Reporting Disruption:* (A) the occurrence of any event affecting the Fund Interest that, in the determination of the Index Sponsor, would make it impossible or impracticable for the Index Sponsor to determine the value of such Fund Interest and the Index Sponsor does not expect such event to cease in the foreseeable future; (B) any failure of the Fund to deliver, or cause to be delivered, or recipients in general to receive (1) information that such Fund has agreed to deliver, or cause to be delivered to any member of the Morgan Stanley Group or (2) information that has been previously delivered to any member of the Morgan Stanley Group, in accordance with such Fund's, or its authorised representative's, normal practice and that the Index Sponsor deems necessary for it to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund; (C) the Fund ceases, for any reason whatsoever (either directly or through any Fund Service Provider acting on its behalf for this purpose) to provide, publish or make available its net asset value on any Fund Reporting Date; or (D) a Fund Service Provider informs any member of the Morgan Stanley Group that any Reported Net Asset Value of the Fund Interest should not be relied on (whether by reason of it being only a provisional or estimated net asset value or for any other reason) and/or, in the opinion of the Index Sponsor, any Reported Net Asset Value is inaccurate (which, for the avoidance of doubt, includes without limitation circumstances where any net asset value reported by a Fund Service Provider to the Index Sponsor, any member of the Morgan Stanley Group and/or investors in Fund Interests generally differs from any net asset value published on any one or more publishing service);
- (xi) *Compulsory Redemption or Assignment:* (i) the repurchase or redemption by the Fund of all or some of the Fund Interests otherwise than at the request of a holder of such Fund Interests; or (ii) any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) which would mandatorily oblige a holder of Fund Interests to redeem, sell, assign or otherwise dispose of any Fund Interests and which the Index Sponsor determines could affect a Hypothetical Investor;
- (xii) *Closure to Subscriptions; Dealing Restrictions:* (A) the closure of the related Fund to new subscriptions of Fund Interests, or (B) the imposition of any dealing restrictions (including, without limitation, material amendments to relevant documentation, delay (partial or otherwise), suspension or termination (partial or otherwise) of subscription, redemption or settlement) relating to the Fund or transactions in the Fund Interests by any Fund Service Provider, any Affiliate or agent of any Fund Service Provider;
- (xiii) *Disposals: Material Change: Merger:* (A) a disposal to any person(s) of all, or a material part, of the assets of (x) the Fund, or (y) any significant Fund Service Provider; or (B) a material change in the business of the Fund or any significant Fund Service Provider, or (C) the merger, amalgamation or consolidation of the related Fund and/or such Fund Interest with (x) any other sub-fund or compartment of the Fund or (y) any other collective investment undertaking (or sub-fund or compartment of such other collective investment undertaking, including another fund), which, in either case, may, in the determination of the Determination Agent, have an adverse effect on the Fund;
- (xiv) *Fraud:* the Fund is the object of a material fraud which may, in the determination of the Index Sponsor, have an adverse effect on the Fund or the value of Fund Interests; or any act or omission of a Fund Service Provider constitutes fraud (including, but not limited to, theft, misappropriation,

Description of the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds

mispricing of holdings or concealment of trades), bad faith, wilful misconduct or negligence, as determined by the Index Sponsor in its reasonable discretion;

- (xv) *Fund Force Majeure Event*: any Fund Service Provider fails to perform any of its obligations pursuant to the Fund Documents to the extent that such performance is prevented, hindered or delayed by a Fund Force Majeure Event, where "**Fund Force Majeure Event**" means any event due to any cause beyond the reasonable control of the applicable Fund Service Provider, such as unavailability of communications system, failure of or interruptions in power supply or network computer systems, sabotage, fire, flood, explosion, acts of God, civil commotion, riots, insurrection or war;
- (xvi) *Delisting*: where there is or was intended to be an Underlying Fund Exchange in respect of the Fund Interests that (A) such Underlying Fund Exchange announces that pursuant to the rules of such Underlying Fund Exchange, such Fund Interests cease (or will cease) being listed or publicly quoted on the Underlying Fund Exchange for any reason and are not immediately re-listed or re-quoted on an exchange or quotation system located in the same country as the Underlying Fund Exchange (or, where the Underlying Fund Exchange is within the European Union, in any Member State of the European Union), or (B) Fund Interests are never so listed or quoted as intended and disclosed in the relevant Fund Documents as at the Index Live Date;
- (xvii) *Fund Accounting Event*: any (i) change in the currency in which the Fund Interest's accounts are denominated; or (ii) material adverse change in the accounting treatment of the relevant Fund which does or could affect a Hypothetical Investor and/or any actual or potential requirement to consolidate its accounts with any such entity; and/or
- (xviii) *Fees or Charges Event*: (i) any charge of a transaction fee for subscription or redemption of Fund Interests; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Interests (whether by the Fund or a Fund Advisor in respect of holders of Fund Interests generally).

"**Fund Interest**" means, in respect of a Fund, a share, unit or other interest in respect of such Fund

"**Fund Interest Currency**" means, in respect of a Fund Interest, the currency in which such Fund Interest is denominated on the Index Live Date as set out in the Fund Documents and as indicated in CCY in the Annex.

"**Fund Potential Adjustment Event**" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (a) an additional amount of Fund Interests, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect

Description of the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds

(provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Fund Reporting Date" means, in respect of a Fund Interest and a Fund Valuation Date, the date on which the Reported Net Asset Value of such Fund Interest as determined as of such Fund Valuation Date is reported (as provided in the definition of Reported Net Asset Value).

"Fund Service Provider" means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, to that Fund, whether or not specified in the Fund Documents or any successor acceptable to the Index Sponsor, including without limitation any Fund Adviser, Fund Administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent or domiciliary agent.

"Fund Valuation Date" means, in respect of a Fund Interest, the date as of which such Fund Interest (or its Fund Service Provider that generally determines such value) determines the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Funding Rate" has the meaning given to it in the Annex

"Funding Rate Screen Page" has the meaning given to it in the Annex

"FX Rate" has the meaning given to it in Annex

"FX Rate Screen Page" has the meaning given to it in the Annex

"Hypothetical Investor" means, in respect of a Fund Interest, a hypothetical investor in such Fund Interest deemed to have (a) the benefits and obligations, as provided under the Fund Documents, of an investor holding, as of the Index Live Date, an interest in the relevant Fund in an amount equal to the relevant number of relevant amount of Fund Interests; (b) in the case of any deemed redemption of Fund Interests, to have submitted to the relevant Fund on the relevant Redemption Notice Date, a duly completed notice requesting redemption of the relevant number of such Fund Interests; and (c) in the case of any deemed investment in Fund Interests, to have submitted, on the Index Live Date, a duly completed notice to the relevant Fund, requesting subscription to the relevant number of Fund Interests;

"Hedging Disruption" occurs if the Index Sponsor determines that a hypothetical market participant would as a result of extraordinary market circumstances relating to an Index Component, be unable, after using commercially reasonable efforts, to:

- a) Acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments it deems necessary to hedge its position in relation to any securities issue or other relevant transactions relating to or calculated by reference to the Index; or
- b) Realize, recover or remit the proceeds of any such transactions or instruments.

"Index" has the meaning given to it in Section 1 (*Introduction*).

"Index Base Date" has the meaning given to in in the Annex

"Index Business Day" has the meaning given to it in the Annex

"Index Calculation Agent" has the meaning given to it in Section 5 (*Index Calculation Agent*).

"Index Committee" has the meaning given to it in Section 12 (*Governance*).

"Index Component" means each component specified in Annex 1 hereto.

"Index Component Adjustment Event" means a Fund Potential Adjustment Event.

"Index Component Disrupted Day" means any day which is an Underlying Fund Disrupted Day.

"Index Component Disruption Event" means the occurrence of an event that results in the occurrence of an Index Component Disrupted Day.

“Index Component Price Source” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Scheduled Trading Day” means, in respect of each Index Component where the Index Component Type in respect of such Index Component is:

- (i) Fund, a Fund Valuation Date in respect of such Fund.

“Index Component Screen Page” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Type” means, in respect of each Index Component, as specified in the Annex hereto.

“Index Component Underlying Price Source” means, in respect of an Index Component, any information service, exchange or data source used to calculate the price or level of any share, security, commodity, rate, index or other component included in such Index Component, as determined by the Index Calculation Agent.

“Index Component Value” means, in respect of an Index Component which is a Fund, the Underlying Fund Price in respect of such Fund.

“Index Currency” has the meaning given to it in the Annex.

“Index Funding Rate” has the meaning given to it in the Annex

“Index Funding Rate Screen Page” has the meaning given to it in the Annex

“Index Level” means, in respect of each Index Business Day, an amount, expressed in the Index Currency, being the level of the Index in respect of such Index Business Day, as determined in accordance with Section 7 (*Index Level*). If Return Type is set to Total Return, the Index Level is then equal to Total Return Index Level as determined in accordance with Section 7.1. If Return Type is set to Excess Return, the Index Level is then equal to Excess Return Index Level as determined in accordance with Section 7.2.

“Index Live Date” has the meaning given to it in the Annex

“Index Publication Time” has the meaning given to it in Section 8 (*Publication*).

“Index Sponsor” has the meaning given to it in Section 4 (*Index Sponsor*).

“Initial Index Level” has the meaning given to it in the Annex

“IOSCO” has the meaning given to it in Section 12 (*Governance*).

“Market Disruption Event” means, in respect of:

- (i) a Fund, an Underlying Fund Disruption Event in respect of such Fund.

“Material Change” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“MiFID II” means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as may be amended or replaced from time to time).

“Morgan Stanley Group” has the meaning given to it on the front page of this Description.

“MSIP” has the meaning given to it in Section 3 (*Overview*).

“MS Benchmark Statement” has the meaning given to it in Section 1 (*Introduction*).

“NB Shares Basket” has the meaning given to it in Section 7

“Price Source Disruption” means any Index Component Price Source, Index Component Underlying Price Source, Index Funding Rate Screen Page, Funding Rate Screen Page or other source data required to calculate the Index is insufficient, inaccurate or unreliable or not available whether due to temporary or permanent discontinuance or failure of the price source for such data or otherwise, as determined by the Index Calculation Agent.

“Potential Adjustment Event” means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (A) an additional amount of Fund Interests, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

“Principles” has the meaning given to it in Section 12 (*Governance*).

“Redemption Notice Date” means, in respect of a Fund Interest, the last date on which a Hypothetical Investor in such Fund Interest would be permitted, pursuant to the Fund Documents of the related Fund, to submit a redemption notice that would be timely for a redemption as a Scheduled Redemption Valuation Date

“Redemption Proceeds” means, in respect of the relevant amount of Fund Interests, the redemption proceeds that in the determination of the Index Sponsor would be paid by the relevant Fund to a Hypothetical Investor who, as of the relevant Redemption Valuation Date, redeems such amount of Fund Interests and (for the avoidance of doubt after deduction of any tax, levy, charge, assessment or fee of any nature that, in the determination of the Index Sponsor, would (or would be very likely to) be withheld or deducted from such amount); provided that (i) any such proceeds that would be paid in property other than cash shall be deemed to have a value of zero and (ii) if the Hypothetical Investor would be entitled to elect payment of such redemption proceeds to be made either in the form of cash or other property, then the Hypothetical Investor shall be deemed to have elected cash payment.

“Redemption Valuation Date” means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date as of which the relevant Fund (or its Fund Service Provider that generally determines such value) determines the net asset value of Fund Interests for purposes of calculating the redemption proceeds to be paid to a Hypothetical Investor that has submitted a valid notice for redemption on or before the related Redemption Notice Date.

“Relevant Fund” has the meaning given to such term in Section 10.3 (*Consequences of Fund Events*).

“Removal Value” means, in respect of a Relevant Fund and the Fund Interest in respect of such Relevant Fund, the value calculated by the Index Sponsor in the same manner as would be used in determining the

Underlying Fund Price of Fund Interests in the related Fund. Where the Removal Value is required to be converted into the Index Currency it shall be so converted by the Index Sponsor at such time and by reference to such sources as it deems appropriate.

“Reported Net Asset Value” means, in respect of any Fund Interest and a Fund Reporting Date relating to such Fund Interest, the official net asset value per Fund Interest as of the related Fund Valuation Date or, if the related Fund reports only its aggregate net asset value, the portion of such Fund's aggregate net asset value relating to a Fund Interest as of the related Fund Valuation Date, in each case as reported on the Fund Reporting Date relating to such Fund Valuation Date by the Fund Service Provider that generally reports such value on behalf of the Fund to its investors or a publishing service.

“Return Type” has the meaning given to it in the Annex

“Scheduled Fund Valuation Date” means, in respect of a Fund Interest, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

“Scheduled Redemption Payment Date” means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date by which the related Fund is scheduled to have paid, according to its Fund Documents, all or a specified portion of the Redemption Proceeds to an investor that has submitted a timely and valid notice requesting redemption of such Fund Interest as of such Scheduled Redemption Valuation Date.

“Scheduled Redemption Valuation Date” means, in respect of a Fund Interest and any relevant day, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the net asset value of such Fund Interest for the purposes of calculating the redemption proceeds to be paid to an investor that has submitted a valid and timely notice for redemption of Fund Interests based on the value determined as of the Scheduled Redemption Valuation Date for which the Scheduled Redemption Payment Date falls on or immediately prior to such day.

“SEK” means Swedish Krona.

“Successor Source” means, in relation to any display page, other published source, information vendor or provider:

- (i) the successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original page or source; or
- (ii) if the sponsor of the original page or source has not officially designated a successor display page, other published source, service or provider (as the case may be), the successor display page, other published source, service or provider, if any, designated by the relevant information vendor or provider (if different from such sponsor).

“TARGET2 Settlement Day” means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (TARGET2) is open.

“Termination of Data Licence” means the occurrence of a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data is supplied to compile or calculate the Index.

“Theoretical Exposure” has the meaning given to it in Section 7.1.3.

“Underlying Fund Disrupted Day” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing.

“Underlying Fund Disruption Event” means, in respect of a Fund, any of the following events:

Description of the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds

- (i) in respect of any Fund Interest, the failure of (i) an Index Business Day to be a Fund Valuation Date or any continued postponement or suspension of such Fund Valuation Date; and/or (ii) there to be a Fund Reporting Date and/or Reported Net Asset Value relating to the relevant Fund Valuation Date;
- (ii) in respect of any Fund Interest (a) there is a failure by the Fund to pay the full amount (whether expressed as a percentage or otherwise) of the Redemption Proceeds in the Fund Interest Currency with respect to the relevant amount of such Fund Interest scheduled to have been paid on or by such day according to the Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of such Fund Interests) or (b) a Hypothetical Investor which had submitted a valid redemption notice in respect of such Fund Interest on the last date permitted pursuant to the relevant Fund Documents would, in the reasonable opinion of the Index Sponsor, not have received in full the Redemption Proceeds in respect of such redemption(s) on or before the date it was scheduled to do so in accordance with the Fund Documents; and/or
- (iii) any closure other than for ordinary public holidays and/or any restriction or suspension in trading of foreign exchange markets or money markets in a relevant Fund Interest Currency or Index Currency that, in the opinion of the Index Sponsor, would have a material effect on the ability market participants to effect transactions in such markets,

provided that if any event would otherwise be both an Underlying Fund Disruption Event and Fund Event, such event shall be treated solely as a Fund Event.

“Underlying Fund Exchange” means, in respect of a Fund Interest, the principal exchange or quotation system for such Fund Interest, as determined by the Index Sponsor, and any successor to such exchange or quotation system or any substitute exchange or quotation system to which such Fund Interest have temporarily relocated.

“Underlying Fund Price” means, in respect of a Fund Interest and the Underlying Fund Valuation Time on any relevant day, the Reported Net Asset Value of such Fund Interest for the related Fund Valuation Date falling on such day.

“Underlying Fund Valuation Time” means, in respect of a Fund Interest, the time on or in respect of any relevant day at which the applicable Underlying Fund Price is scheduled to be determined in accordance with the relevant Fund Documents.

9. *Adjustment Provisions*

9.1 *Adjustment Events*

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may acting in good faith and a commercially reasonable manner:

- (i) substitute any Index Component or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate;
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the “**Relevant Day**”) shall be equal to the Index Component Value in respect of such Relevant Day;
- (iv) reallocate the portion of the Index exposed to any Index Component which is affected by such Adjustment Event to the cash until the next Index Business Day on which it determines that no Adjustment Event exists (and make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such reallocation);
- (v) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
- (vi) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
- (vii) cancel the Index and permanently cease to calculate the Index Level.

9.2 *Determinations made by the Index Sponsor in respect of Fund Potential Adjustment Events and Fund Events may have an adverse effect on the value of a Financial Product*

Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (*Adjustment Events*) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (*Adjustment Events*) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or re-classification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.

9.3 *Adjustment procedures, notification and consultation process*

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index. While the Index Sponsor currently employs this methodology, no assurance can be given that fiscal, market,

regulatory, juridical, financial or, without limitation, any other circumstances will not arise that would, in the view of the Index Sponsor, necessitate or make desirable a modification or change to this Description.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a “**Change**”) which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a “**Material Change**”) the Index Sponsor will give prior notice to Financial Product Investors that a Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days’ notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

9.4 *Consequences of Fund Events*

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a “**Relevant Fund**”), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such

sources as it considers appropriate including, but not limited to, the value that a third party on arms' length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

10. Errors and Corrections

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

11. Governance

Morgan Stanley has adopted the "Principles for Financial Benchmarks" published by the International Organization of Securities Commissions ("IOSCO") on 17 July 2013 (the "**Principles**") on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the "**Index Committee**").

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

12. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;
- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator,

supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;

- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

13. *Important Information*

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at [complaints ms@morganstanley.com](mailto:ms@morganstanley.com).

OVERVIEW OF THE MS 20% RISK CONTROL ER INDEX LINKED TO DIVERSIFIED SMALL CAP EQUITY FUNDS

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Rules. The Index is governed by the Index Rules and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to an equally weighted basket of 2 equity mutual funds, as described below (the “**Basket**”), whilst maintaining a volatility at or around 20% (the “**Target Volatility**”). To pursue this objective, the Index implements a daily “*Risk Control Mechanism*” which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Basket. When volatility increases, the Index reduces exposure to Basket and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Basket, up to a maximum exposure of 150%, and reduces its exposure to cash.

When the Index’s exposure to the Basket is higher than 100%, the Index uses a “leveraged” exposure to the underlying funds. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying funds. The maximum leverage the Index can employ is capped 150%.

The Basket is invested in each of the 2 underlying Funds with equal weighting (50%/50%). As the daily performance of each Fund fluctuates, the effective weight of each Fund within the Basket will vary from the weight it was originally assigned. As a result, the Basket operates at the end of each calendar month a re-weighting of the Funds to their original weights.

Does the Index represent a physical investment in the Basket?

The Index can be described as a “notional” investment in the Basket or as a “synthetic portfolio” as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does “Excess Return” mean?

The Index is construed as an “**Excess Return**” asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Basket. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is to be opposed to a Total Return investment which assumes that such investment is fully funded.

What does “Decrement” mean?

The Index is calculated by deducting a 2.50% per annum* percentage rate (the “**Decrement**”) applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 2.50% lower than what it would otherwise be without such deduction.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 20% by allocating exposure to the Basket based on the realised volatility of the Basket itself. The target weight assigned by the Index to the Basket on any business day is the ratio of 20% to the realised volatility of the Basket. The realised volatility of the Basket is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Funds experience higher volatility, it means greater changes in their price. In such environment, exposure to the Funds can produce unpredictable results. Volatility can anticipate both a decline or a

rebound in the Funds. A “volatility target” mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Funds. In practical terms, when exposure to the Funds is reduced, the level of the Index is less sensitive to the volatility of such Funds and therefore will suffer less from a decline in the performance of the Funds. A “volatility target” mechanism can however also hinder the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Basket is 0% even when the Basket volatility has reached a level higher than the Target Volatility. As a result, exposure to the Basket cannot be negative.

What are the Funds underlying the Index?

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Basket which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Funds. In general terms, if the Funds increase in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to such Funds as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Funds that make up the Basket. This cost is represented by the Stockholm Interbank 3-month rate. The higher the borrowing rates, the lower the performance of the Index. In an environment where borrow rates are significant, the Index may exhibit material underperformance when compared to a direct investment in the underlying Funds.
- The Index is calculated by deducting a 2.50% per annum decrement percentage rate, which is deducted daily pro rata. This means that the Index annual performance would be on average 2.50% lower than what it would otherwise be without such decrement.

Simulated Historical Track Record of the Index

The below chart represents the simulated historical performance of the Index in comparison with the simulated historical performance of the Basket.

This is not actual historical performance and it should not be taken as an indication of future performance of the Index or the Basket.

Simulation Start Date: 03 October 2018

Simulation End Date: 15 May 2023

Description of the MS 20% Risk Control ER Index linked to Diversified Small Cap Equity Funds

DESCRIPTION OF THE MS 20% RISK CONTROL ER INDEX LINKED TO TECHNOLOGY FUND

Bloomberg Page: MSFDTF20

The MS 20% Risk Control ER Index linked to Technology Fund is the exclusive property of Morgan Stanley & Co. International plc and its Affiliates (the “**Morgan Stanley Group**”). Morgan Stanley and the MS 20% Risk Control ER Index linked to Technology Fund are trade marks of the Morgan Stanley Group and no person or entity should refer to any of the trade marks without the consent of a member of the Morgan Stanley Group and should not use any of the information in this Description for any purpose other than in relation to an investment or otherwise in connection with any Financial Product (as defined below) for which such consent has been obtained. The non-exclusive right to use the MS 20% Risk Control ER Index linked to Technology Fund as an underlying reference basis or otherwise for any Financial Product is granted only upon completion of a license agreement with a member of the Morgan Stanley Group. The Index Sponsor, the Index Calculation Agent and each member of the Morgan Stanley Group disclaim any responsibility for any unauthorised use of the MS 20% Risk Control ER Index linked to Technology Fund by any third party.

No representation is made by any member of the Morgan Stanley Group with respect to the eligibility of the MS 20% Risk Control ER Index linked to Technology Fund for investment for investment (including, but not limited to, compliance with the UCITS Directive (2009/65/EC), as amended and supplemented from time to time (the “**UCITS Directive**”), or its use in connection with any Financial Product to be entered into or held, by any prospective investor. Prospective investors should make their own independent analysis of whether the MS 20% Risk Control ER Index linked to Technology Fund meets the eligibility criteria for their investment (including, but not limited to, compliance with the UCITS Directive) or use by them in relation to the relevant Financial Product and of whether the MS 20% Risk Control ER Index linked to Technology Fund responds to their criteria, needs and objectives for investment or otherwise. The term “investor” will include any counterparty, holder or contract party in relation to a Financial Product.

Nothing contained in this Description should be construed as an offer or solicitation to purchase or sell securities or to enter into any transaction or engage in investment activity of any kind. If you do invest in a Financial Product or engage in any other investment activity, you should ensure that you fully understand the nature of such investment and the risks involved and are satisfied that the investment is suitable and appropriate for your circumstances. If you are in any doubt about this you should take advice from an appropriately qualified advisor.

This Description does not constitute investment, taxation, legal, accounting or other advice, including within the meaning of Article 53 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 or investment advice within the meaning of Article 4(4) of MiFID II.

1. Introduction

This Description sets out the methodology of the MS 20% Risk Control ER Index linked to Technology Fund (the “**Index**”) and the basis on which the Index is calculated.

This Description is intended to provide the information relating to the Index required by the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 ((EU) 2016/1011)) (as amended) (the “**Benchmarks Regulation**”) as it forms part of “retained EU law” in the United Kingdom as defined in the European Union (Withdrawal) Act 2018 (as amended from time to time) (the “**UK Benchmarks Regulation**” and, together with the EU Benchmarks Regulation, the “**Benchmarks Regulation**”). This Index is a non-significant and regulated data benchmark for the purposes of the UK Benchmarks Regulation.

As at the date of publication of this Description, Morgan Stanley & Co. International plc appears on the register of benchmark administrators established and maintained by the Financial Conduct Authority pursuant to Article 36 of the Benchmarks Regulation. Morgan Stanley & Co. International plc’s benchmark statement (the “**MS Benchmark Statement**”) can be accessed via the following link:

https://www.morganstanley.com/content/dam/msdotcom/en/assets/pdfs/sales_and_trading_disclosures/M_SIP_Benchmark_Statement-Multi-Asset_Signal-based_Benchmark_Family.pdf

Subject as provided in Section 10 (*Adjustment and Disruption Provisions*), this Description is subject to change or adjustment at any time (including, without limitation, in accordance with the requirements of the UK Benchmarks Regulation) and will be superseded by any subsequent Description. A copy of the current version of the Description can be obtained following the method described in Section 8 (*Publication*).

No one may reproduce, distribute or disseminate this Description, any information contained in this Description or any Index Level (as applicable) without the prior written consent of the Index Sponsor. This Description is not intended for distribution to, or use by any person in, a jurisdiction where such distribution is prohibited by law or regulation.

ESG Disclosures pursuant to Commission Delegated Regulation (EU) 2020/1817 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards the minimum content of the explanation on how environmental, social and governance factors are reflected in the benchmark methodology, as on-shored in the United Kingdom by way of The Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019:

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Morgan Stanley & Co. International plc
Item 2. Type of benchmark or family of benchmarks.	Multi Asset
Item 3. Name of the benchmark or family of benchmarks.	Multi Asset Signal-based
Item 4. Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	No

Description of the MS 20% Risk Control ER Index linked to Technology Fund

2. *Overview*

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Summary

The Index aims to provide exposure to the Index Components and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a “notional” or synthetic exposure to the Index Component and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Component and a rules-based strategy, the performance of which is used as a reference point for calculating Index Levels.

This Section 3 (*Overview*) is subject to, and qualified by, the remainder of this Description.

3.

4. *Index Sponsor*

The Index has been developed by Morgan Stanley & Co. International plc (“**MSIP**”). The Index is administered by the index sponsor or any successor thereto (the “**Index Sponsor**”). The initial Index Sponsor is MSIP.

The Index Sponsor controls the creation and operation of the Index administrative process, including all stages involved in the production and dissemination of the Index. The Index Sponsor also is responsible for the manner in which the Index is calculated and constructed, and is the final authority on the Index and the interpretation and application of this Description. Notwithstanding that the Index relies on information from third party sources, the Index Sponsor has primary responsibility for all aspects of the Index administration and determination process.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

The Index Sponsor is not acting as a manager or an investment advisor in relation to the Index and has no relationship of agency or trust or any fiduciary duty to any person in respect of the Index and is not required to take the interests of any person into account in making any determination or calculation in relation to the Index.

The Index Sponsor makes no warranty or representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

No Financial Product is sponsored, endorsed, sold or promoted by MSIP or the Index Sponsor, and neither MSIP nor the Index Sponsor makes any express or implied representations or warranties as to (a) the advisability of purchasing or assuming any risk in connection with any Financial Product, (b) the levels at which the Index stands at any particular time on any particular date, (c) the results

to be obtained by the issuer or obligor of any Financial Product, or any Financial Product Investor, or any other person or entity from the use of the Index or any data included therein in connection with any licensed rights or for any other use or (d) any other matter. Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP/ or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP may in its sole and absolute discretion delegate and/or transfer any of its obligations and/or functions in relation to the administration and determination of the Index to one or more third parties as it deems appropriate from time to time. MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

5. Index Calculation Agent

The Index is calculated by MSIP (or any successor thereto) (the “**Index Calculation Agent**”).

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent’s calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. The term “manifest error” as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without (i) recourse to the underlying data or (ii) any application or re-application of any formulae. No person (whether a Financial Product Investor or otherwise) will be entitled to proceed (and shall be deemed to have agreed to waive proceedings) against the Index Calculation Agent in connection with any such calculations or determinations or any failure to make any calculations or determinations in relation to the Index.

For so long as the Index Calculation Agent constitutes and calculates the Index, the Index Calculation Agent does not accept any liability for loss or damage of any kind (including, without limitation, any special, punitive, indirect or consequential damages (including loss of profits)) arising from the use of such information in any such calculation or determination. The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index itself and disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any information in connection with it.

6. *Index Data*

The Index is calculated on the basis of publicly available third party data. In particular, the Index will utilise the Index Component Value, the Index Funding Rate and the Funding Rate in respect of each Index Component as published on the relevant Index Component Price Source in respect of such Index Component.

No assurance can be given that any such Index Component Values, Index Funding Rate or Funding Rate will be published on the relevant Index Component Price Source, on the Index Funding Rate Screen Page or on the Funding Rate Screen Page accurately, in a timely manner or at all and the Index Sponsor and the Index Calculation Agent have relied on, and will rely on, such Index Component Values and Funding Rate as they are published on the relevant Index Component Price Source or Funding Rate Screen Page. Neither the Index Sponsor nor the Index Calculation Agent has independently verified the information extracted from such sources and accepts no responsibility or liability in respect thereof.

7. Calculation of the Index

7.1 Total Return Index Level

The Total Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Total Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$TRIndex_t = \text{Max} \left(0, TRIndex_{t-1} \times \left[1 + \text{Effective Exposure}_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 \right) + (1 - \text{Effective Exposure}_{t-1}) \times \text{Rate}_{t-1} \times \frac{\Delta t}{\text{DayCount}} \right] - TC_t \right) \times (1 - AF_t)$$

Where:

max, followed by amounts (or values) inside brackets, means whichever is the greater of the amounts (or values) separate by a semi-colon inside such brackets;

TRIndex Level(t-1) means the Total Return Index Level in respect of the Index Business Day immediately preceding Index Business Day t;

Effective Exposure(t-1) means the Effective Exposure in respect of Index Business Day t-1, calculated as per paragraph 7.3 below;

Basket(t) means the Basket Level in respect of Index Business Day t, calculated as per paragraph 7.7 below;

Basket(t-1) means the Basket Level in respect of the Index Business Day immediately preceding Index Business Day t;

Rate(t-1) means the Index Funding Rate in respect of the Index Business Day immediately preceding Index Business Day t;

Δt means the number of calendar days from (and including) the Index Business Day immediately preceding Index Business Day t to (but excluding) Index Business Day t;

DayCount means 360;

TC(t) means the Transaction Cost in respect of Index Business Day t and is an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$TC_t = |Nb\ Shares\ Basket(t) - Nb\ Shares\ Basket(t-1)| \times Basket(t) \times RC$$

Where RC is the Rebalancing Cost and has the meaning given to it in the Annex

AF(t) means, the Accrued Fee in respect of Index Business Day t, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$AF(t) = \left[\frac{\Delta t}{\text{DayCount}} \times \text{Decrement Rate} \right]; \text{ and}$$

Decrement Rate has the meaning given to it in the Annex

7.2 Excess Return Index Level

The Excess Return Index Level in respect of the Index Base Date shall be equal to the Initial Index Level.

The Excess Return Index Level in respect of each Index Business Day (each an “**Index Business Day t**”) from (but excluding) the Index Base Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$ERIndex_t = \text{Max} \left(0, ERIndex_{t-1} \times \left[1 + \text{Effective Exposure}_{t-1} \times \left(\frac{Basket_t}{Basket_{t-1}} - 1 - Rate_{t-1} \times \frac{\Delta t}{DayCount} \right) \right] - TC_t \right) \times (1 - AF_t)$$

7.3 Calculation of the Exposure

The theoretical exposure (the “**Theoretical Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

$$\text{TheoreticalExposure}_t = \text{Min}[\text{maxExposure}, \text{UnconstrainedExposure}_t]$$

Where:

$$\text{UnconstrainedExposure}_t = \frac{\text{Vol Target}}{\text{Realised Volatility (t)}}$$

The exposure (the “**Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where Rebalance Rule is set as “ABSOLUTE” in the Annex:

$$\text{Exposure}_t = \begin{cases} \text{TheoreticalExposure}_t & \text{if } |\text{TheoreticalExposure}_t - \text{Exposure}_{t-1}| > \text{Threshold} \\ \text{Exposure}_{t-1}, & \text{Otherwise} \end{cases}$$

- Where Rebalance Rule is set as “RELATIVE INVERSE” in the Annex:

$$\text{Exposure}_t = \begin{cases} \text{TheoreticalExposure}_t & \text{if } \left| \frac{\text{Exposure}_{t-1}}{\text{UnconstrainedExposure}_t} - 1 \right| > \text{Threshold} \\ \text{Exposure}_{t-1}, & \text{Otherwise} \end{cases}$$

Where:

maxExposure has the meaning given to it in the Annex

VolTarget has the meaning given to it in the Annex

Threshold has the meaning given to it in the Annex

Lag means has the meaning given to it in the Annex

Realised Volatility (t-Lag) means the Realised Volatility in respect of Index Business Day (t-Lag)

7.4 Calculation of the Number of Shares Basket

The number of shares of the basket (the “**Number of Shares Basket**”) in respect of any Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

Where Index Business Day t is the Index Base Date or any of the following Lag – 1 Index Business Days:

$$\text{NbShares Basket (t)} = 0$$

Where Index Business Day t falls on any subsequent day:

- In respect of the Total Return Index:

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times TRIndex_{t-Lag}}{Basket_{t-Lag}}$$

- In respect of the Excess Return Index

$$NbShares\ Basket(t) = \frac{Exposure_{t-Lag} \times ERIndex_{t-Lag}}{Basket_{t-Lag}}$$

7.5 Calculation of the Effective Exposure

The effective exposure (the “**Effective Exposure**”) in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the below formulae:

- In respect of the Total Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{TRIndex_t}$$

- In respect of the Excess Return Index

$$Effective\ Exposure(t) = NbShares\ Basket(t) \times \frac{Basket(t)}{ERIndex_t}$$

7.6 Calculation of the Realised Volatility

The Realised Volatility in respect of an Index Business Day shall be an amount calculated by the Index Calculation Agent in accordance with the formula set out below:

- Where the Realised Volatility Format is set as ARITHMETIC in the Annex:

$$Realised\ Volatility(t) = Max(ST\ Vol(t), LT\ Vol(t))$$

Where:

$$ST\ Vol(t) = \sqrt{\frac{252}{ST\ Tenor \times STReturn\ Size} \times \sum_{k=t-STTenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-STReturn\ Size)}\right)^2}$$

$$LT\ Vol(t) = \sqrt{\frac{252}{LT\ Tenor \times LTReturn\ Size} \times \sum_{k=t-LTTenor-1}^t \ln\left(\frac{Basket(k)}{Basket(k-LTReturn\ Size)}\right)^2}$$

- Where the Realised Volatility Format is set as GEOMETRIC in the Annex:

$$Realised\ Volatility(t) = Max(ST\ Vol(t), LT\ Vol(t))$$

Where:

ST Vol (t) means:

- (xiii) Where such Index Business Day is the Index Base Date or any of the immediately following ST Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = Initial Volatility$$

- (xiv) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$ST Vol (t) = \sqrt{\lambda_{ST} \times ST Vol (t - 1)^2 + (1 - \lambda_{ST}) \times \ln \left(\frac{Basket_t}{Basket_{t-ST Return Size}} \right)^2 \times \frac{252}{ST Return Size}}$$

LT Vol (t) means:

- (xiii) Where such Index Business Day is the Index Base Date or any of the immediately following LT Return Size – 1 Index Business Days, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = Initial Volatility$$

- (xiv) in respect of each Index Business Day (t) from (but excluding) the Index Base Date, an amount calculated by the Index Calculation Agent in accordance with the following formula:

$$LT Vol (t) = \sqrt{\lambda_{LT} \times LT Vol (t - 1)^2 + (1 - \lambda_{LT}) \times \ln \left(\frac{Basket_t}{Basket_{t-LT Return Size}} \right)^2 \times \frac{252}{LT Return Size}}$$

Where:

λ_{ST} has the meaning given to it in the Annex

ST Tenor has the meaning given to it in the Annex

ST Return Size has the meaning given to it in the Annex

λ_{LT} has the meaning given to it in the Annex

LT Tenor has the meaning given to it in the Annex

LT Return Size has the meaning given to it in the Annex

7.7 Calculation of the Basket

7.7.1 Calculation of the Basket Level

The basket level (the “**Basket Level**”) in respect of the Initialisation Date shall be equal to the Initial Basket Level as defined in the Annex.

The Basket Level in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Basket_t = Basket_{t-1} + Performance_t + CashPerformance_t + FundingCost_t - AHC_t$$

Where:

$Performance_t$ is defined in section 7.7.2

$CashPerformance_t$ is defined in section 7.7.3

$FundingCost_t$ is defined in section 7.7.4

AHC_t is defined in section 7.7.5

7.7.2 Calculation of the Basket Performance

The basket performance (the “**Basket Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$Performance_t = \sum_{i=1}^N Units_{i,t-1} \times (CL_{i,t} - CL_{i,t-1}) \times FX_{i,t}$$

Where:

N is the number of Index Components within the Basket as defined in the Annex

$Units_{i,t-1}$ is the Number of Units of Basket Component i in respect of Index Business Day t-1 as defined in Section 7.6.5

$CL_{i,t}$ means the Index Component Value of Basket Component i in respect of Index Business Day t

$FX_{i,t}$ means the FX Rate for Basket Component i in respect of Index Business Day t

7.7.3 Calculation of the Cash Performance

The cash performance (the “**Cash Performance**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$CashPerformance_t = CashBalance_{t-1} \times Rate_{t-1} \times DCF_{t-1,t}$$

Where:

$$CashBalance_t = Basket_t - \sum_{i=1}^N Units_t^{i|Funded \cap IndexCCY} \times CL_t^{i|Funded \cap IndexCCY}$$

$i|Funded \cap IndexCCY$ means the Basket Component i, where such Basket Component is specified as Funded in the Annex and is denominated in the same currency as the Index Currency

$DCF_{t-1,t}$ means the number of calendar days from (and including) Index Business Day t-1 to and (excluding) Index Business Day t divided by 360.

7.7.4 Calculation of the Funding Cost

The funding cost (the “**Funding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$FundingCost_t = \sum_{CCY} FundingBalance_{t-1}^{CCY} \times (Rate_{t-1}^{CCY} + Spread^{CCY}) \times DCF_{t-1,t} \times FX_{CCY,t}$$

Where:

$$FundingBalance_t^{CCY} = - \sum_{i=1}^N Units_t^{i|Funded \cap CCY} \times CL_t^{i|Funded \cap CCY}$$

$i|Funded \cap CCY$ means the Basket Component i , where such Basket Component is specified as Funded in the Annex and is denominated in currency CCY provided that such currency is other than the Index Currency

$Rate_{t-1}^{CCY}$ means the Funding Rate for currency CCY as defined in the Annex

$Spread^{CCY}$ means the Funding Spread for currency CCY as defined in the Annex

7.7.5 Calculation of the Aggregate Holding Cost

The aggregate holding cost (the “**Aggregate Holding Cost**”) in respect of each Index Business Day from (but excluding) the Initialisation Date shall be an amount, expressed in the Index Currency, calculated by the Index Calculation Agent in accordance with the following formula:

$$AHC_t = \sum_{i=1}^N N_{i,t-1} \times CL_{i,t} \times FX_{i,t} \times HC_i \times DCF_{t-1,t}$$

Where:

HC_i is the Holding Cost for Basket Component i as specified in the Annex.

7.7.6 Calculation of the Number of Units of Basket Components

On the Initialisation Date, the Number of Units invested in the Basket Component i per unit of the Basket is calculated by the Index Calculation Agent in accordance with the following formula:

$$N_{i,t=0} = 0$$

In respect of any Index Business Day thereafter:

- If t is a Scheduled Basket Rebalancing Day:

$$N_{i,t} = \frac{W_i \times Basket_{Max(0,t-BasketUnitLag)}}{CL_{i,Max(0,t-BasketUnitLag)} \times FX_{i,Max(0,t-BasketUnitLag)}}$$

- Otherwise

$$N_{i,t} = N_{i,t-1}$$

Where:

W_i means the Weight for Basket Component i as defined in the Annex

7.8 Miscellaneous

Each Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

7.9 Index Live Date and Retrospective Calculations

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the “**Back-test Period**”) has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

8. Publication

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the “**Index Publication Time**”) on the second Index Business Day immediately following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

9. Definitions

“**Adjustment Event**” means (i) an Index Component Disruption Event, (ii) a Disruption Event, (iii) a Force Majeure Event, (iv) an Index Component Adjustment Event.

“**Affiliate**” means in relation to any entity (the “**First Entity**”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes, “control” means ownership of a majority of the voting power of an entity.

“**Accrued Fee**” has the meaning given to it in Section 7.1

“**Bac-test Period**” has the meaning given to in Section 7. (*Index Live Date and Retrospective Calculations*).

“**Basket Mechanism**” has the meaning given to it in Section 7.1.4.

“**Basket Unit Lag**” has the meaning given to it in the Annex

“**Benchmarks Regulation**” has the meaning given to it in Section 1 (*Introduction*).

“**Bloomberg**” means Bloomberg L.P. or any of its Affiliates, or any successor market price information provider(s).

“**Bloomberg Page**” has the meaning given to it in the Annex or any Successor Source thereto

“**Change**” has the meaning given to it in Section 10.2 (Adjustment procedures, notification and consultation process).

“**Change in Law**” means there has been a change in applicable law or regulation or the promulgation of or any change in the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation that prevents or will prevent the Index Sponsor and/or the Index Calculation Agent from calculating and/or publishing the Index.

“**Description**” has the meaning given to it on the second page of this Description.

“**Disappearance or Unavailability Event**” means there is (i) a permanent discontinuation of trading in an Index Component or (ii) a disappearance or permanent discontinuance or unavailability of an Index Component Value, notwithstanding the status of trading in the relevant Index Component (if applicable), or any other source data required to calculate the Index.

“**Disrupted Day**” means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing in respect of such Fund.

“**Disruption Event**” means each of (i) a Change in Law, (ii) a Disappearance or Unavailability Event, (iii) a Hedging Disruption, (iv) a Price Source Disruption Event or (v) a Termination of Data Licence.

“**Financial Product**” has the meaning given to it in Section 2 (*Risk Factors and Investment Considerations*).

“**Financial Product Investor**” has the meaning given to in in Section 2 (*Risk Factors and Investment Considerations*).

“**Force Majeure Event**” means an event or circumstance has occurred beyond the reasonable control of the Index Sponsor (including, without limitation, a systems or IT failure (including, without limitation, a systems breakdown, incomplete or ineffective upgrade, malfunction, malware, virus or other similar circumstances affecting the Index Sponsor’s information technology and related processing systems), fire, flood, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) which directly or indirectly prevents or otherwise affects the determinations of the Index Sponsor and/or the Index Calculation Agent in relation to the Index.

"Frequency of Fund Interest Valuation" means, in respect of a Fund Interest, the frequency of occurrence of a Fund Business Day of such Fund Interest as determined by reference to the Fund Documents in effect on the Index Live Date.

"Fund" means, in respect of a Fund Interest, the issuer of, or other legal arrangement (including, if applicable, any class or series) giving rise to such Fund Interest as specified in Annex 1 hereto.

"Fund Administrator" means, in respect of a Fund, any fund administrator, manager, trustee or similar person responsible for the administration of such Fund and the determination and reporting of any official price or value of such Fund according to the Fund Documents or any successor acceptable to the Index Sponsor.

"Fund Advisor" means any person appointed in the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor to a discretionary investment manager or to another non-discretionary investment advisor) for such Fund and/or a Fund Administrator and/or any other person(s) designated in the Fund Documents as responsible for the oversight of the Fund, or any successor to any such person acceptable to the Index Sponsor.

"Fund Business Day" means, in respect of a Fund, each of a Scheduled Fund Valuation Date and any day on which the Fund or the primary Fund Administrator acting on behalf of the Fund is scheduled to effect subscription and redemption requests.

"Fund Documents" means, in respect of a Fund and the related Fund Interest, the constitutive and governing documents, subscription agreements and other agreements of the related Fund specifying the terms and conditions of such Fund Interest (including, without limitation, the prospectus, information memorandum or other offering document issued by such Fund in connection with such Fund Interest), in each case and unless where otherwise specified, as amended and/or supplemented from time to time.

"Fund Event" means, the occurrence or announcement by the Fund or a Fund Service Provider at any time of any of the following events:

- (i) *Nationalisation*: all the Fund Interests or all or substantially all the assets of the Fund are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;
- (ii) *Fund Insolvency Event*: in respect of a Fund Interest and the related Fund (a) the Fund and/or any Fund Service Provider (A) is dissolved or has a resolution passed for its dissolution, winding-up, official liquidation (other than pursuant to a consolidation, amalgamation or merger); (B) makes a general assignment or arrangement with or for the benefit of its creditors; (C)(1) institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official, or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in (1) above and either (x) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (y) is not dismissed, discharged, stayed or restrained in each case within 15 days of the institution or presentation thereof; (D) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (E) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 15 days thereafter; or (F) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in (A) through (E) above; or (without prejudice to the foregoing) (b) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous

Description of the MS 20% Risk Control ER Index linked to Technology Fund

proceeding affecting a Fund, (A) all the Fund Interests are required to be transferred to a trustee, liquidator or other similar official or (B) holders of Fund Interests become legally prohibited from transferring them;

- (iii) *NAV Trigger/Restriction Event*: in respect of a Fund Interest (A) the Reported Net Asset Value as of the last Fund Valuation Date of any month has decreased by a percentage equal to, or greater than, fifty per cent. of the Reported Net Asset Value as of the Fund Valuation Date of the same month in the immediately preceding calendar year (or, if the first year of operation of the relevant Fund Interest, as of its highest Reported Net Asset Value on the last Fund Valuation Date of any month during such first year); or (B) the related Fund has violated any leverage restriction that is applicable to, or affecting, such Fund or its assets by operation of any law, any order or judgment of any court or other agency of government applicable to it or any of its assets, the Fund Documents or any contractual restriction binding on or affecting the Fund or any of its assets;
- (iv) *Fund Advisor Event*: (a) that at any time after the Index Live Date, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) is equal to or less than 100,000,000 U.S. Dollars (or its equivalent) or (b) that over any period of twelve months, the total value of the assets managed by the relevant Fund Advisor (including in relation to the Fund) has decreased by fifty per cent. (whether due to redemptions or decrease in the value of such assets or otherwise);
- (v) *Changes to Fund or Fund Service Providers*: (a) any change in the organisation of the Fund or of any Fund Service Provider without the prior written consent of the Index Sponsor including, without limitation, a change of control of, or a change of the main shareholders, managing directors or individual(s) designated as fund manager(s) in the Fund Documents as at the Index Live Date (if any) of a Fund Service Provider, (b) any Fund Service Provider ceasing to act in the relevant capacity in relation to the Fund unless immediately replaced in such capacity by a successor acceptable to the Index Sponsor or (c) any delegation or transfer by the Fund Advisor of any of its powers, duties or obligations under the Fund Documents to a third party without the prior written consent of the Index Sponsor;
- (vi) *Fund Modification*: any change, modification or termination of the related Fund Documents or of any rights attaching to the related Fund Interests (including without limitation any change or modification affecting management policy, the Fund Interest Currency, the Frequency of Fund Interest Valuation, the terms relating to subscription, transfer and/or redemption of such Fund Interest including any change to the form or schedule of payment or notice period) from those prevailing on the Index Live Date and which could reasonably be expected to affect the value of such Fund Interests;
- (vii) *Strategy Breach*: any material breach of or non-compliance with any investment objective, investment restrictions or other strategy or investment guidelines or requirements, subscription and redemption provisions (including, without limitation, the days treated as Fund Business Days) or valuation provisions (including, without limitation, the method of determining the net asset value of the relevant Fund Interest), in each case as set out in the Fund Documents as in effect on the Index Live Date;
- (viii) *Breach by Fund Service Provider*: the breach by any relevant Fund Service Provider of any obligation (including, without limitation, non-compliance with any investment guidelines relating to the Fund Interest), representation or warranties concerning the relevant Fund (including, without limitation, pursuant to any agreement with the Fund), which breach, if capable of remedy, has not been remedied within ten (10) calendar days of its occurrence;
- (ix) *Regulatory Event*: (1) any change in the legal, tax, accounting, or regulatory treatments of the relevant Fund or its Fund Advisor that is reasonably likely to have an adverse impact on the value of the related Fund Interest or on any investor therein (as determined by the Index Sponsor) or (2) the related Fund Interest or any of its Fund Service Providers becoming subject to any investigation, proceeding, arbitration, litigation or official action by any relevant governmental, legal or regulatory authority involving the alleged violation of, or non-compliance with, applicable law or regulation in relation to any activities relating to or resulting from the operation of the Fund

or another fund where, in the opinion of the Index Sponsor, such circumstances may have an adverse effect on the Fund or (B) (i) the withdrawal, cancellation, suspension or revocation of any registration, licence or approval of the Fund Interests or the Fund by any governmental, legal or regulatory entity with authority over such Fund Interest or Fund; (ii) the withdrawal, suspension, cancellation or modification of any licence, consent, permit, authorisation or clearance required for the Fund or any one or more of its significant Fund Service Providers to carry out their activities as they are or should be carried out in compliance with applicable law or regulation; and/or (iii) the failure of the Fund and/or the Fund Interests to comply with any applicable requirements from time to time applied by any relevant listing authority, stock exchange, quotation system and/or regulator that allow it to be used to determine amounts due under the Financial Products (or, in the case of (B)(i), (ii) or (iii), any official announcement indicating that any such circumstances may occur);

- (x) *Reporting Disruption:* (A) the occurrence of any event affecting the Fund Interest that, in the determination of the Index Sponsor, would make it impossible or impracticable for the Index Sponsor to determine the value of such Fund Interest and the Index Sponsor does not expect such event to cease in the foreseeable future; (B) any failure of the Fund to deliver, or cause to be delivered, or recipients in general to receive (1) information that such Fund has agreed to deliver, or cause to be delivered to any member of the Morgan Stanley Group or (2) information that has been previously delivered to any member of the Morgan Stanley Group, in accordance with such Fund's, or its authorised representative's, normal practice and that the Index Sponsor deems necessary for it to monitor such Fund's compliance with any investment guidelines, asset allocation methodologies or any other similar policies relating to such Fund; (C) the Fund ceases, for any reason whatsoever (either directly or through any Fund Service Provider acting on its behalf for this purpose) to provide, publish or make available its net asset value on any Fund Reporting Date; or (D) a Fund Service Provider informs any member of the Morgan Stanley Group that any Reported Net Asset Value of the Fund Interest should not be relied on (whether by reason of it being only a provisional or estimated net asset value or for any other reason) and/or, in the opinion of the Index Sponsor, any Reported Net Asset Value is inaccurate (which, for the avoidance of doubt, includes without limitation circumstances where any net asset value reported by a Fund Service Provider to the Index Sponsor, any member of the Morgan Stanley Group and/or investors in Fund Interests generally differs from any net asset value published on any one or more publishing service);
- (xi) *Compulsory Redemption or Assignment:* (i) the repurchase or redemption by the Fund of all or some of the Fund Interests otherwise than at the request of a holder of such Fund Interests; or (ii) any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) which would mandatorily oblige a holder of Fund Interests to redeem, sell, assign or otherwise dispose of any Fund Interests and which the Index Sponsor determines could affect a Hypothetical Investor;
- (xii) *Closure to Subscriptions; Dealing Restrictions:* (A) the closure of the related Fund to new subscriptions of Fund Interests, or (B) the imposition of any dealing restrictions (including, without limitation, material amendments to relevant documentation, delay (partial or otherwise), suspension or termination (partial or otherwise) of subscription, redemption or settlement) relating to the Fund or transactions in the Fund Interests by any Fund Service Provider, any Affiliate or agent of any Fund Service Provider;
- (xiii) *Disposals: Material Change: Merger:* (A) a disposal to any person(s) of all, or a material part, of the assets of (x) the Fund, or (y) any significant Fund Service Provider; or (B) a material change in the business of the Fund or any significant Fund Service Provider, or (C) the merger, amalgamation or consolidation of the related Fund and/or such Fund Interest with (x) any other sub-fund or compartment of the Fund or (y) any other collective investment undertaking (or sub-fund or compartment of such other collective investment undertaking, including another fund), which, in either case, may, in the determination of the Determination Agent, have an adverse effect on the Fund;
- (xiv) *Fraud:* the Fund is the object of a material fraud which may, in the determination of the Index Sponsor, have an adverse effect on the Fund or the value of Fund Interests; or any act or omission of a Fund Service Provider constitutes fraud (including, but not limited to, theft, misappropriation,

Description of the MS 20% Risk Control ER Index linked to Technology Fund

mispricing of holdings or concealment of trades), bad faith, wilful misconduct or negligence, as determined by the Index Sponsor in its reasonable discretion;

- (xv) *Fund Force Majeure Event*: any Fund Service Provider fails to perform any of its obligations pursuant to the Fund Documents to the extent that such performance is prevented, hindered or delayed by a Fund Force Majeure Event, where "**Fund Force Majeure Event**" means any event due to any cause beyond the reasonable control of the applicable Fund Service Provider, such as unavailability of communications system, failure of or interruptions in power supply or network computer systems, sabotage, fire, flood, explosion, acts of God, civil commotion, riots, insurrection or war;
- (xvi) *Delisting*: where there is or was intended to be an Underlying Fund Exchange in respect of the Fund Interests that (A) such Underlying Fund Exchange announces that pursuant to the rules of such Underlying Fund Exchange, such Fund Interests cease (or will cease) being listed or publicly quoted on the Underlying Fund Exchange for any reason and are not immediately re-listed or re-quoted on an exchange or quotation system located in the same country as the Underlying Fund Exchange (or, where the Underlying Fund Exchange is within the European Union, in any Member State of the European Union), or (B) Fund Interests are never so listed or quoted as intended and disclosed in the relevant Fund Documents as at the Index Live Date;
- (xvii) *Fund Accounting Event*: any (i) change in the currency in which the Fund Interest's accounts are denominated; or (ii) material adverse change in the accounting treatment of the relevant Fund which does or could affect a Hypothetical Investor and/or any actual or potential requirement to consolidate its accounts with any such entity; and/or
- (xviii) *Fees or Charges Event*: (i) any charge of a transaction fee for subscription or redemption of Fund Interests; (ii) any imposition of any taxes or similar charges for subscription or redemption of Fund Interests (whether by the Fund or a Fund Advisor in respect of holders of Fund Interests generally).

"**Fund Interest**" means, in respect of a Fund, a share, unit or other interest in respect of such Fund

"**Fund Interest Currency**" means, in respect of a Fund Interest, the currency in which such Fund Interest is denominated on the Index Live Date as set out in the Fund Documents and as indicated in CCY in the Annex.

"**Fund Potential Adjustment Event**" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (a) an additional amount of Fund Interests, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect

Description of the MS 20% Risk Control ER Index linked to Technology Fund

(provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Fund Reporting Date" means, in respect of a Fund Interest and a Fund Valuation Date, the date on which the Reported Net Asset Value of such Fund Interest as determined as of such Fund Valuation Date is reported (as provided in the definition of Reported Net Asset Value).

"Fund Service Provider" means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, to that Fund, whether or not specified in the Fund Documents or any successor acceptable to the Index Sponsor, including without limitation any Fund Adviser, Fund Administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent or domiciliary agent.

"Fund Valuation Date" means, in respect of a Fund Interest, the date as of which such Fund Interest (or its Fund Service Provider that generally determines such value) determines the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Funding Rate" has the meaning given to it in the Annex

"Funding Rate Screen Page" has the meaning given to it in the Annex

"FX Rate" has the meaning given to it in Annex

"FX Rate Screen Page" has the meaning given to it in the Annex

"Hypothetical Investor" means, in respect of a Fund Interest, a hypothetical investor in such Fund Interest deemed to have (a) the benefits and obligations, as provided under the Fund Documents, of an investor holding, as of the Index Live Date, an interest in the relevant Fund in an amount equal to the relevant number of relevant amount of Fund Interests; (b) in the case of any deemed redemption of Fund Interests, to have submitted to the relevant Fund on the relevant Redemption Notice Date, a duly completed notice requesting redemption of the relevant number of such Fund Interests; and (c) in the case of any deemed investment in Fund Interests, to have submitted, on the Index Live Date, a duly completed notice to the relevant Fund, requesting subscription to the relevant number of Fund Interests;

"Hedging Disruption" occurs if the Index Sponsor determines that a hypothetical market participant would as a result of extraordinary market circumstances relating to an Index Component, be unable, after using commercially reasonable efforts, to:

- a) Acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transactions or instruments it deems necessary to hedge its position in relation to any securities issue or other relevant transactions relating to or calculated by reference to the Index; or
- b) Realize, recover or remit the proceeds of any such transactions or instruments.

"Index" has the meaning given to it in Section 1 (*Introduction*).

"Index Base Date" has the meaning given to in in the Annex

"Index Business Day" has the meaning given to it in the Annex

"Index Calculation Agent" has the meaning given to it in Section 5 (*Index Calculation Agent*).

"Index Committee" has the meaning given to it in Section 12 (*Governance*).

"Index Component" means each component specified in Annex 1 hereto.

"Index Component Adjustment Event" means a Fund Potential Adjustment Event.

"Index Component Disrupted Day" means any day which is an Underlying Fund Disrupted Day.

"Index Component Disruption Event" means the occurrence of an event that results in the occurrence of an Index Component Disrupted Day.

“Index Component Price Source” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Scheduled Trading Day” means, in respect of each Index Component where the Index Component Type in respect of such Index Component is:

- (i) Fund, a Fund Valuation Date in respect of such Fund.

“Index Component Screen Page” means, in respect of an Index Component, as specified in Annex 1 hereto or, in each case, any Successor Source thereto.

“Index Component Type” means, in respect of each Index Component, as specified in the Annex hereto.

“Index Component Underlying Price Source” means, in respect of an Index Component, any information service, exchange or data source used to calculate the price or level of any share, security, commodity, rate, index or other component included in such Index Component, as determined by the Index Calculation Agent.

“Index Component Value” means, in respect of an Index Component which is a Fund, the Underlying Fund Price in respect of such Fund.

“Index Currency” has the meaning given to it in the Annex.

“Index Funding Rate” has the meaning given to it in the Annex

“Index Funding Rate Screen Page” has the meaning given to it in the Annex

“Index Level” means, in respect of each Index Business Day, an amount, expressed in the Index Currency, being the level of the Index in respect of such Index Business Day, as determined in accordance with Section 7 (*Index Level*). If Return Type is set to Total Return, the Index Level is then equal to Total Return Index Level as determined in accordance with Section 7.1. If Return Type is set to Excess Return, the Index Level is then equal to Excess Return Index Level as determined in accordance with Section 7.2.

“Index Live Date” has the meaning given to it in the Annex

“Index Publication Time” has the meaning given to it in Section 8 (*Publication*).

“Index Sponsor” has the meaning given to it in Section 4 (*Index Sponsor*).

“Initial Index Level” has the meaning given to it in the Annex

“IOSCO” has the meaning given to it in Section 12 (*Governance*).

“Market Disruption Event” means, in respect of:

- (i) a Fund, an Underlying Fund Disruption Event in respect of such Fund.

“Material Change” has the meaning given to it in Section 10.2 (*Adjustment procedures, notification and consultation process*).

“MiFID II” means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as may be amended or replaced from time to time).

“Morgan Stanley Group” has the meaning given to it on the front page of this Description.

“MSIP” has the meaning given to it in Section 3 (*Overview*).

“MS Benchmark Statement” has the meaning given to it in Section 1 (*Introduction*).

“NB Shares Basket” has the meaning given to it in Section 7

"Price Source Disruption" means any Index Component Price Source, Index Component Underlying Price Source, Index Funding Rate Screen Page, Funding Rate Screen Page or other source data required to calculate the Index is insufficient, inaccurate or unreliable or not available whether due to temporary or permanent discontinuance or failure of the price source for such data or otherwise, as determined by the Index Calculation Agent.

"Potential Adjustment Event" means, in respect of a Fund Interest where:

- (i) a subdivision, consolidation or reclassification of interests in such Fund Interest, or a free distribution or dividend of any interests in such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of Fund Interests of (A) an additional amount of Fund Interests, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Fund equally or proportionately with such payments to holders of Fund Interests, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Fund as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Index Sponsor;
- (iii) an amount per Fund Interest is determined by the Index Sponsor to be an extraordinary dividend;
- (iv) a repurchase by the Fund of Fund Interests whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption initiated by an investor in such Fund Interest; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest,

and, in each case, the determination by the Index Sponsor that (A) such event has had a diluting or concentrative effect on the theoretical value of any Fund Interest and (B) if so, that a change in the composition or calculation of the Index is required to account for such diluting or concentrative effect (provided that no adjustments shall be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to such Fund Interest).

"Principles" has the meaning given to it in Section 12 (*Governance*).

"Redemption Notice Date" means, in respect of a Fund Interest, the last date on which a Hypothetical Investor in such Fund Interest would be permitted, pursuant to the Fund Documents of the related Fund, to submit a redemption notice that would be timely for a redemption as a Scheduled Redemption Valuation Date

"Redemption Proceeds" means, in respect of the relevant amount of Fund Interests, the redemption proceeds that in the determination of the Index Sponsor would be paid by the relevant Fund to a Hypothetical Investor who, as of the relevant Redemption Valuation Date, redeems such amount of Fund Interests and (for the avoidance of doubt after deduction of any tax, levy, charge, assessment or fee of any nature that, in the determination of the Index Sponsor, would (or would be very likely to) be withheld or deducted from such amount); provided that (i) any such proceeds that would be paid in property other than cash shall be deemed to have a value of zero and (ii) if the Hypothetical Investor would be entitled to elect payment of such redemption proceeds to be made either in the form of cash or other property, then the Hypothetical Investor shall be deemed to have elected cash payment.

"Redemption Valuation Date" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date as of which the relevant Fund (or its Fund Service Provider that generally determines such value) determines the net asset value of Fund Interests for purposes of calculating the redemption proceeds to be paid to a Hypothetical Investor that has submitted a valid notice for redemption on or before the related Redemption Notice Date.

"Relevant Fund" has the meaning given to such term in Section 10.3 (*Consequences of Fund Events*).

"Removal Value" means, in respect of a Relevant Fund and the Fund Interest in respect of such Relevant Fund, the value calculated by the Index Sponsor in the same manner as would be used in determining the

Underlying Fund Price of Fund Interests in the related Fund. Where the Removal Value is required to be converted into the Index Currency it shall be so converted by the Index Sponsor at such time and by reference to such sources as it deems appropriate.

"Reported Net Asset Value" means, in respect of any Fund Interest and a Fund Reporting Date relating to such Fund Interest, the official net asset value per Fund Interest as of the related Fund Valuation Date or, if the related Fund reports only its aggregate net asset value, the portion of such Fund's aggregate net asset value relating to a Fund Interest as of the related Fund Valuation Date, in each case as reported on the Fund Reporting Date relating to such Fund Valuation Date by the Fund Service Provider that generally reports such value on behalf of the Fund to its investors or a publishing service.

"Return Type" has the meaning given to it in the Annex

"Scheduled Fund Valuation Date" means, in respect of a Fund Interest, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the value of such Fund Interest or, if the related Fund only reports its aggregate net asset value, the date as of which such Fund determines its aggregate net asset value.

"Scheduled Redemption Payment Date" means, in respect of a Fund Interest and any Scheduled Redemption Valuation Date, the date by which the related Fund is scheduled to have paid, according to its Fund Documents, all or a specified portion of the Redemption Proceeds to an investor that has submitted a timely and valid notice requesting redemption of such Fund Interest as of such Scheduled Redemption Valuation Date.

"Scheduled Redemption Valuation Date" means, in respect of a Fund Interest and any relevant day, the date as of which the related Fund (or its Fund Service Provider that generally determines such value) is scheduled, according to its Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of Fund Interests), to determine the net asset value of such Fund Interest for the purposes of calculating the redemption proceeds to be paid to an investor that has submitted a valid and timely notice for redemption of Fund Interests based on the value determined as of the Scheduled Redemption Valuation Date for which the Scheduled Redemption Payment Date falls on or immediately prior to such day.

"SEK" means Swedish Krona.

"Successor Source" means, in relation to any display page, other published source, information vendor or provider:

- (i) the successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original page or source; or
- (ii) if the sponsor of the original page or source has not officially designated a successor display page, other published source, service or provider (as the case may be), the successor display page, other published source, service or provider, if any, designated by the relevant information vendor or provider (if different from such sponsor).

"TARGET2 Settlement Day" means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer system (TARGET2) is open.

"Termination of Data Licence" means the occurrence of a termination, revocation or suspension of any third-party license agreement or permission pursuant to which data is supplied to compile or calculate the Index.

"Theoretical Exposure" has the meaning given to it in Section 7.1.3.

"Underlying Fund Disrupted Day" means, in respect of a Fund, any day on which an Underlying Fund Disruption Event has occurred or is continuing.

"Underlying Fund Disruption Event" means, in respect of a Fund, any of the following events:

Description of the MS 20% Risk Control ER Index linked to Technology Fund

- (i) in respect of any Fund Interest, the failure of (i) an Index Business Day to be a Fund Valuation Date or any continued postponement or suspension of such Fund Valuation Date; and/or (ii) there to be a Fund Reporting Date and/or Reported Net Asset Value relating to the relevant Fund Valuation Date;
- (ii) in respect of any Fund Interest (a) there is a failure by the Fund to pay the full amount (whether expressed as a percentage or otherwise) of the Redemption Proceeds in the Fund Interest Currency with respect to the relevant amount of such Fund Interest scheduled to have been paid on or by such day according to the Fund Documents (without giving effect to any gating, deferral, suspension or other provisions permitting the Fund to delay or refuse redemption of such Fund Interests) or (b) a Hypothetical Investor which had submitted a valid redemption notice in respect of such Fund Interest on the last date permitted pursuant to the relevant Fund Documents would, in the reasonable opinion of the Index Sponsor, not have received in full the Redemption Proceeds in respect of such redemption(s) on or before the date it was scheduled to do so in accordance with the Fund Documents; and/or
- (iii) any closure other than for ordinary public holidays and/or any restriction or suspension in trading of foreign exchange markets or money markets in a relevant Fund Interest Currency or Index Currency that, in the opinion of the Index Sponsor, would have a material effect on the ability market participants to effect transactions in such markets,

provided that if any event would otherwise be both an Underlying Fund Disruption Event and Fund Event, such event shall be treated solely as a Fund Event.

“Underlying Fund Exchange” means, in respect of a Fund Interest, the principal exchange or quotation system for such Fund Interest, as determined by the Index Sponsor, and any successor to such exchange or quotation system or any substitute exchange or quotation system to which such Fund Interest have temporarily relocated.

“Underlying Fund Price” means, in respect of a Fund Interest and the Underlying Fund Valuation Time on any relevant day, the Reported Net Asset Value of such Fund Interest for the related Fund Valuation Date falling on such day.

“Underlying Fund Valuation Time” means, in respect of a Fund Interest, the time on or in respect of any relevant day at which the applicable Underlying Fund Price is scheduled to be determined in accordance with the relevant Fund Documents.

10. Adjustment Provisions

10.1 Adjustment Events

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may acting in good faith and a commercially reasonable manner:

- (i) substitute any Index Component or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate;
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the “**Relevant Day**”) shall be equal to the Index Component Value in respect of such Relevant Day;
- (iv) reallocate the portion of the Index exposed to any Index Component which is affected by such Adjustment Event to the cash until the next Index Business Day on which it determines that no Adjustment Event exists (and make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such reallocation);
- (v) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
- (vi) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
- (vii) cancel the Index and permanently cease to calculate the Index Level.

10.2 Determinations made by the Index Sponsor in respect of Fund Potential Adjustment Events and Fund Events may have an adverse effect on the value of a Financial Product

Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (*Adjustment Events*) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (*Adjustment Events*) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or re-classification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.

10.3 Adjustment procedures, notification and consultation process

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index.

While the Index Sponsor currently employs this methodology, no assurance can be given that fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances will not arise that would, in the view of the Index Sponsor, necessitate or make desirable a modification or change to this Description.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a “**Change**”) which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a “**Material Change**”) the Index Sponsor will give prior notice to Financial Product Investors that a Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days’ notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

10.4 Consequences of Fund Events

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a “**Relevant Fund**”), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of

Description of the MS 20% Risk Control ER Index linked to Technology Fund

the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such sources as it considers appropriate including, but not limited to, the value that a third party on arms' length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

11. Errors and Corrections

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

12. Governance

Morgan Stanley has adopted the “Principles for Financial Benchmarks” published by the International Organization of Securities Commissions (“IOSCO”) on 17 July 2013 (the “Principles”) on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the “Index Committee”).

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

13. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;
- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator, supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;
- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

14. Important Information

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at complaints ms@morganstanley.com.

ANNEX

INDEX MAIN DEFINITIONS:

Index Currency	SEK
Initial Index Level	100
Index Business Day	means a day (i) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London (“LNB”) (ii) for which the Nasdaq Stockholm Exchange is open for trading during its regular trading session (“STS”) (iii) or which the New York Stock Exchange is open for trading during its regular trading session (“NYS”(iv) which is a Fund Valuation Date in respect of each Index Component
Index Base Date	23 rd October 2013

OVERVIEW OF THE MS 20% RISK CONTROL ER INDEX LINKED TO TECHNOLOGY FUND

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Rules. The Index is governed by the Index Rules and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to a weighted basket of one equity mutual fund, as described below (the “**Basket**”), whilst maintaining a volatility at or around 20% (the “**Target Volatility**”). To pursue this objective, the Index implements a daily “*Risk Control Mechanism*” which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Basket. When volatility increases, the Index reduces exposure to Basket and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Basket, up to a maximum exposure of 150%, and reduces its exposure to cash.

When the Index’s exposure to the Basket is higher than 100%, the Index uses a “leveraged” exposure to the underlying funds. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying funds. The maximum leverage the Index can employ is capped at 150%.

Does the Index represent a physical investment in the Basket?

The Index can be described as a “notional” investment in the Basket or as a “synthetic portfolio” as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does “Excess Return” mean?

The Index is construed as an “**Excess Return**” asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Basket. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is to be opposed to a Total Return investment which assumes that such investment is fully funded.

What does “Decrement” mean?

The Index is calculated by deducting a 2.50% per annum* percentage rate (the “**Decrement**”) applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 2.50% lower than what it would otherwise be without such deduction.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 20% by allocating exposure to the Basket based on the realised volatility of the Basket itself. The target weight assigned by the Index to the Basket on any business day is the ratio of 20% to the realised volatility of the Basket. The realised volatility of the Basket is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Fund experiences higher volatility, it means greater changes in its price. In such environment, exposure to the Fund can produce unpredictable results. Volatility can anticipate both a decline or a rebound in the Fund. A “volatility target” mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Fund. In practical terms, when exposure to the Fund is reduced, the level of the Index is less sensitive to the volatility of such Fund and therefore will suffer less from a decline in the performance of the Fund. A “volatility target” mechanism can however also hinder

the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Basket is 0% even when the Basket volatility has reached a level higher than the Target Volatility. As a result, exposure to the Basket cannot be negative.

What are the Funds underlying the Index?

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Basket which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Funds. In general terms, if the Funds increase in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to such Funds as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Funds that make up the Basket. This cost is represented by the Stockholm Interbank 3-month rate. The higher the borrowing rates, the lower the performance of

Description of the MS 20% Risk Control ER Index linked to Technology Fund

the Index. In an environment where borrow rates are significant, the Index may exhibit material underperformance when compared to a direct investment in the underlying Funds.

- The Index is calculated by deducting a 2.50% per annum decrement percentage rate, which is deducted daily pro rata. This means that the Index annual performance would be on average 2.50% lower than what it would otherwise be without such decrement.

Simulated Historical Track Record of the Index

The below chart represents the simulated historical performance of the Index in comparison with the simulated historical performance of the Basket.

This is not actual historical performance and it should not be taken as an indication of future performance of the Index or the Basket.

Simulation Start Date: 23 October 2013

Simulation End Date: 11 April 2023

<i>Year</i>	<i>Simulated Basket Performance*</i>	<i>Simulated Index Performance*</i>
2014	41.9%	51.9%

Description of the MS 20% Risk Control ER Index linked to Technology Fund

2015	30.5%	23.6%
2016	9.3%	11.0%
2017	17.2%	25.4%
2018	7.7%	0.6%
2019	39.1%	44.1%
2020	29.5%	19.2%
2021	32.7%	40.5%
2022	-22.1%	-25.0%

DESCRIPTION OF SIENNA FINANCE UK LIMITED AND THE SIENNA FINANCE UK LIMITED PREFERENCE SHARES

Preference-Share Linked Securities may be issued under the Program, where the Preference Shares are preference shares issued by Sienna Finance UK Limited ("Sienna UK"). Set out below is a description of Sienna UK. References in this section to the "Preference Shares" shall be a reference to preference shares issued by Sienna UK which are specified as being the "Preference Shares" in the applicable Issue Terms relating to the relevant Preference-Share Linked Securities.

Sienna Finance UK Limited

Sienna UK is a private company limited by shares and was incorporated under the Companies Act 2006 on 18 February 2010 (with registered number 07162508). Sienna UK is governed by the laws of England and Wales and has its registered office at 1 Bartholomew Lane, London EC2N 2AX, United Kingdom.

The sole business activity of Sienna UK is to issue redeemable preference shares. Accordingly, Sienna UK does not have any trading assets and does not generate any significant net income.

A copy of Sienna UK's constitutional documents, its non-audited, non-consolidated annual financial statements, when published, and the Terms of the Preference Shares (as defined below) are available (free of charge) from the registered office of Sienna UK.

The Preference Shares

Sienna UK will from time to time issue tranches of 100 redeemable preference shares with a par value of £0.01 each. The preference shares will be issued fully paid to Intertrust Corporate Services Limited and at a premium of £0.99, for total consideration of £1.00 each.

Sienna UK may issue redeemable preference shares of any kind (the "**Preference Shares**"), including but not limited to preference shares linked to a specified index or basket of indices, share or basket of shares, currency or basket of currencies, fund unit or share or basket of fund units or shares or to such other underlying instruments, bases of reference or factors (the "**Preference Share Underlying**") and on such terms as may be determined by Sienna UK and specified in the applicable Specific Terms and Conditions of the relevant series of preference shares (the "**Terms of the Preference Shares**").

The Terms of the Preference Shares also provide that Sienna UK may redeem the Preference Shares early if:

- (a) the calculation agent in respect of the Preference Shares (the "**Preference Shares Calculation Agent**") determines that for reasons beyond Sienna UK's control, the performance of its obligations under the Preference Shares has become illegal or impractical in whole or in part for any reason; or
- (b) any event occurs in respect of which the provisions of the Terms of the Preference Shares relating to any adjustment, delay, modification, cancellation or determination in relation to the Preference Share Underlying, the valuation procedure for the Preference Share Underlying or the Preference Shares provide that the Preference Shares may be redeemed or cancelled; or
- (c) a change in applicable law or regulation occurs that in the determination of the Preference Share Calculation Agent results, or will result, by reason of the Preference Shares being outstanding, in Sienna UK being required to be regulated by any additional regulatory authority, or being subject to any additional legal requirement or regulation or tax considered by Sienna UK to be onerous to it; or
- (d) Sienna UK is notified that the Securities have become subject to early redemption.

The performance of the Preference Shares depends on the performance of the Preference Share Underlying to which the Preference Shares are linked. In determining the value of the Preference Shares, the Determination Agent shall employ the calculation procedure and methodology set out in the applicable Terms of the Preference Shares.

BENEFIT PLAN INVESTORS

The Securities may not be acquired or held by, or acquired with the assets of, any employee benefit plan subject to Title I of the United States Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), or any individual retirement account or plan subject to Section 4975 of the Code or any entity whose underlying assets include "plan assets" within the meaning of Section 3(42) of ERISA by reason of any such employee benefit plan's account's or plan's investment therein.

The Global Security Certificates and the Individual Security Certificates will bear a legend to the following effect:

THE INVESTOR SHALL BE DEEMED TO REPRESENT BY ITS ACQUISITION AND HOLDING OF AN INTEREST HEREIN THAT IT IS NOT ACQUIRING THE SECURITY WITH THE ASSETS OF ANY EMPLOYEE BENEFIT PLAN SUBJECT TO TITLE I OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("**ERISA**"), ANY INDIVIDUAL RETIREMENT ACCOUNT OR PLAN SUBJECT TO SECTION 4975 OF THE CODE, OR ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF SECTION 3(42) OF ERISA BY REASON OF ANY SUCH EMPLOYEE BENEFIT PLAN'S ACCOUNT'S OR PLAN'S INVESTMENT THEREIN.

TAXATION

HOLDERS OF SECURITIES SHOULD BE AWARE THAT (I) THE TAX LEGISLATION OF A JURISDICTION WHERE A HOLDER IS RESIDENT OR OTHERWISE SUBJECT TO TAXATION (AS WELL AS THE JURISDICTIONS DISCUSSED BELOW) AND (II) THE TYPE OF SECURITIES HELD (BEING NOTES OR CERTIFICATES) MAY HAVE AN IMPACT ON THE TAX CONSEQUENCES OF AN INVESTMENT IN THE SECURITIES, INCLUDING IN RESPECT OF ANY INCOME RECEIVED FROM THE SECURITIES.

UNITED STATES FEDERAL TAXATION

This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the U.S. federal tax treatment of the Securities or the investors. Investors should seek their own advice based upon their particular circumstances from an independent tax adviser.

The following are certain of the U.S. federal income and estate tax consequences of ownership and disposition of the Securities to Non-U.S. Holders (as defined below). This summary is based on the Code, administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations, all as of the date hereof, changes to any of which subsequent to the date of this Base Prospectus may affect the tax consequences described herein. As used herein, the term "Non-U.S. Holder" means a beneficial owner of a Security that is for U.S. federal income tax purposes:

- an individual who is classified as a nonresident alien;
- a foreign corporation; or
- a foreign estate or trust.

The term "Non-U.S. Holder" does not include any of the following persons:

- an individual present in the United States for 183 days or more in the taxable year of disposition;
- certain former citizens or residents of the United States;
- a person for whom income or gain in respect of the Securities is effectively connected with the conduct of a trade or business in the United States; or
- a person who has a "tax home" (as defined in Section 911(d)(3) of the Code) or an office or other fixed place of business in the United States.

Special rules may also apply to corporations that for U.S. federal income tax purposes are treated as personal holding companies, controlled foreign corporations, or passive foreign investment companies, and to shareholders of such corporations. Such persons are urged to consult their own tax advisers regarding the U.S. federal income tax consequences of the ownership and disposition of a Security.

If an entity classified as a partnership holds a Security, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. Partnerships holding Securities and their partners should consult their tax advisers regarding the U.S. federal income tax consequences of owning and disposing of a Security.

Tax Treatment of the Securities

Interest

The following discussion under "*Interest*" applies to Securities treated as indebtedness of the relevant Issuer for U.S. federal income tax purposes. The Issuers intend to treat Securities for which the principal amount (in the case of Notes) or Specified Unit Value (in the case of Certificates) payable in cash at maturity or upon early settlement must equal or exceed the issue price (i.e., the first price at which a substantial amount of the Securities of the relevant series is sold to the public) as indebtedness for U.S. federal income tax purposes. There can be no assurance that the IRS or a court will agree. Except as otherwise discussed below in "*Section 897 of the Code*," "*Dividend Equivalent Amounts*," "*FATCA*" and "*Backup Withholding and Information Reporting*," or otherwise indicated in an applicable Drawdown Prospectus, a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on payments of principal or interest (including original issue discount, if any) on a Security, or on proceeds from the sale

or other disposition of a Security, **provided that**, in the case of a Security issued by Morgan Stanley or MSFL, for U.S. federal income tax purposes:

- the Non-U.S. Holder does not own (directly or by attribution) 10 per cent. or more of the total combined voting power of all classes of stock of Morgan Stanley entitled to vote;
- the Non-U.S. Holder is not a bank holding the Security in the context of an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business;
- the Non-U.S. Holder is not a controlled foreign corporation related, directly or indirectly, to Morgan Stanley through stock ownership; and
- the Non-U.S. Holder (and any holder through which the Securities are held) have complied with all applicable U.S. tax identification and certification requirements.

The certification requirements referred to in the preceding paragraphs will be fulfilled if the beneficial owner of the Security (or a financial institution holding the Security on behalf of the beneficial owner) furnishes an IRS Form W-8BEN or W-8BEN-E (or with respect to certain holders and beneficial owners, other appropriate forms), on which, among other things, the beneficial owner certifies under penalties of perjury that it is not a United States person, as defined in the Code.

Exchangeable Securities

Except as otherwise discussed below in “—Section 897 of the Code,” “—Dividend Equivalent Amounts,” “—FATCA” and “—Backup Withholding and Information Reporting,” or otherwise indicated in an applicable Drawdown Prospectus, a Non-U.S. Holder will generally not be subject to U.S. federal income or withholding tax in respect of a Security that pays at redemption or early settlement a Physical Delivery Amount of securities (or the value thereof in cash) in an amount that must equal or exceed the Security’s issue price, provided that:

- in the case of a Security issued by Morgan Stanley or MSFL, the requirements for exemption from tax listed above under “—Interest” are met; and
- in the case of a Security issued by Morgan Stanley or MSFL, the Security is exchangeable only into securities that are actively traded, a basket of securities that are actively traded or an index or indices of securities that are actively traded.

No opinion is expressed herein as to the U.S. federal income or withholding tax consequences of the ownership or disposition of the property received in exchange for the Security.

With regard to the above requirements, the Issuers intend to treat Securities for which the principal amount (in the case of Notes) or Specified Unit Value (in the case of Certificates) payable in cash must equal or exceed the issue price (i.e., the first price at which a substantial amount of the Securities is sold to the public) as indebtedness for U.S. federal income tax purposes. There can be no assurance that the IRS or a court will agree.

Linked Securities

The U.S. federal income tax consequences to a Non-U.S. Holder of the ownership and disposition of Securities that have principal or interest determined by reference to commodity prices, securities of entities not affiliated with the relevant Issuer, baskets of securities or indices, exchange traded funds or other funds, futures contracts, CMS reference rates, currencies or the credit of entities not affiliated with the relevant Issuer may vary depending upon the exact terms of the Securities and related factors. However, the Issuers intend to treat Linked Securities that pay coupons periodically at an unconditional fixed rate and provide for a payment at maturity or early settlement (other than the stated coupon) that is determined by reference to the performance of a Relevant Underlying and thus may be lower than, but cannot exceed, their issue price, as a unit consisting of (i) a put right written by you to us that, upon the occurrence of certain events, requires you to pay to us an amount equal to the deposit (as described in sub-paragraph (ii)), in exchange for a cash amount based on the value of the Relevant Underlying, and (ii) a deposit with us of a fixed amount of cash to secure your obligation under the put right. Based on this treatment, a portion of the periodic payments on the Securities will be treated as interest on the deposit, and the remainder will be attributable to the premium on the put right. Except as otherwise discussed below in “—Section 897 of the Code,” “—Dividend Equivalent Amounts,” “—FATCA” and “—Backup Withholding and Information

Reporting,” or otherwise indicated in an applicable Pricing Supplement, the Issuers do not expect payments on the Securities to be subject to any U.S. federal withholding tax, provided that, if the Securities are treated in whole or in part as indebtedness (including the deposit described above) issued by Morgan Stanley or MSFL for U.S. federal income tax purposes, the conditions (including the certification requirements) described above under “—*Interest*” are met. However, Securities of the type described in this paragraph may be subject to rules that differ from the general rules discussed above.

Other Income Coupons

The following discussion under “—*Other Income Coupons*” applies to Securities issued by Morgan Stanley or MSFL that pay periodic coupons and are not described above in “—*Interest*,” “—*Exchangeable Securities*” or “—*Linked Securities*.” The U.S. federal tax treatment of such Securities is unclear due to the absence of statutory, judicial or administrative authorities that directly address such Securities or similar securities, and no ruling is being requested from the IRS with respect to such Securities. Significant aspects of the U.S. federal income tax consequences of an investment in such Securities are uncertain, and no assurance can be given that the IRS or a court will agree with the tax treatment described herein. Accordingly, investors should consult their tax advisers regarding the U.S. federal income tax consequences of an investment in such Securities (including possible alternative treatment thereof).

A Non-U.S. Holder should expect that a withholding agent will treat any coupon payments made by or on behalf of Morgan Stanley or MSFL as subject to U.S. federal withholding tax at a rate of 30 per cent., unless the Non-U.S. Holder establishes an exemption under the “other income” provision of a Qualifying Treaty (as defined below) or, to the extent that any portion of a coupon payment is treated as interest for U.S. federal income tax purposes, an exemption under the “portfolio interest exemption” rules as described below.

An income tax treaty between a non-U.S. jurisdiction and the United States is a “Qualifying Treaty” if it provides for a 0 per cent. rate of tax on “other income” earned by a resident of the non-U.S. jurisdiction from sources within the United States. For example, under current law, the United States’ tax treaties with Japan, Germany and the United Kingdom are Qualifying Treaties. Accordingly, if the Non-U.S. Holder is a resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, the Non-U.S. Holder should generally be eligible for an exemption under the “other income” provision referred to above if such Non-U.S. Holder timely complies with the certification requirement described below. However, because most income tax treaties contain complex eligibility rules and limitations, a Non-U.S. Holder should consult its tax adviser about its eligibility for this exemption.

To demonstrate its eligibility for the “other income” exemption to the Issuer or an applicable withholding agent, a Non-U.S. Holder generally will be required to provide a properly completed appropriate IRS Form W-8BEN or W-8BEN-E certifying that it is not a United States person and that it is eligible for the benefits of the “other income” provision of the relevant Qualifying Treaty (or, if the Non-U.S. Holder holds its Securities through certain qualified intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate IRS Form W-8BEN or W-8BEN-E to establish that it is not a United States person and that it is eligible for the benefits of the “other income” provision of the relevant Qualifying Treaty). A Non-U.S. Holder providing a properly completed appropriate IRS Form W-8BEN or W-8BEN-E as discussed in this paragraph may provide its foreign taxpayer identifying number issued by its country of residence in lieu of its U.S. taxpayer identifying number.

Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Securities is unclear, any coupon payments on such Securities could alternatively be treated in whole or in part as payments of interest. Nonetheless, even if the coupon payments are treated in whole or in part as interest and thus not eligible for the “other income” exemption described above, under current law and administrative practice a Non-U.S. Holder generally will qualify for the “portfolio interest exemption” with respect to the coupon payments, provided that the conditions for the exemption set forth in “—*Interest*” above (including the certification requirement) are met.

Non-U.S. Holders should consult their tax advisers regarding their eligibility for any applicable exemption from withholding in light of their particular circumstances.

Future Withholding

It is possible that any future Treasury regulations or other guidance could materially and adversely affect the withholding tax consequences of ownership and disposition of the Securities, possibly with retroactive effect, and that in the event of a change of law or any formal or informal guidance by the IRS, the U.S. Treasury Department or Congress, we or a withholding agent may decide to withhold on a portion or the entire amount of payments made with respect to the Securities to Non-U.S. Holders and, unless specified otherwise in the applicable Issue Terms, no additional amounts will be payable with respect to any such withholding. Prospective investors should consult their tax advisers regarding all aspects of the U.S. federal income tax consequences of an investment in the Securities.

Section 897 of the Code

No opinion is expressed herein as to whether any issuer of any shares to which a Security relates (such shares hereafter referred to as "Underlying Shares") is treated as a "United States real property holding corporation" ("USRPHC") within the meaning of Section 897 of the Code. If any issuer of Underlying Shares were so treated, certain adverse U.S. federal income tax consequences might apply upon the sale, exchange or other disposition of a Security (including potential reporting obligations and U.S. withholding tax, notwithstanding the discussions above). Holders should refer to information filed with the SEC or other governmental authorities by the issuers of the Underlying Shares and consult their tax advisers regarding the possible consequences to such holders if any such issuer is or becomes a USRPHC.

Dividend Equivalent Amounts

Section 871(m) of the Code imposes a withholding tax of 30 per cent. (or lower treaty rate applicable to dividends) on certain "dividend equivalents" paid or deemed paid with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities. Subject to the discussion below concerning Securities issued before January 1, 2025, a Security linked to U.S. equities or indices that include U.S. equities (a "U.S. equity-linked Security") will be subject to the Section 871(m) withholding regime if at issuance it (i) has a "delta" of 0.80 or higher with respect to the underlying U.S. stock or (ii) substantially replicates the economic performance of the underlying U.S. stock, as determined by a "substantial equivalence" test that, among other factors, takes into account the initial number of shares of the underlying U.S. stock needed to hedge the transaction fully. The tests described above are set forth in the Treasury regulations, and the applicable test will depend on the terms of the relevant U.S. equity-linked Security. Under these rules, withholding may apply even where the relevant U.S. equity-linked Security does not provide for any payment that is explicitly linked to a dividend. The Treasury regulations provide for certain exceptions to the withholding requirements, in particular for instruments linked to certain broad-based indices (a "qualified index") that meet standards set forth in the Treasury regulations, as well as certain exchange traded funds that track a qualified index.

Pursuant to an IRS Notice, Section 871(m) will not apply to Securities issued before January 1, 2025 that do not have a "delta" of one with respect to any U.S. equity. If the terms of a U.S. equity-linked Security are significantly modified (including in the event that the Issuer substitutes another entity in place of the Issuer as principal debtor under the Security) and if such modification or substitution results in a deemed exchange of the Security for U.S. federal income tax purposes, the U.S. equity-linked Security will generally be treated as reissued at the time of the significant modification. Under applicable Treasury regulations, certain "benchmark" rate replacements would not give rise to deemed exchanges for U.S. federal income tax purposes, provided that certain conditions set forth in the Treasury regulations are met.

The calculations of "delta" are generally made on the "calculation date," which is the earlier of (i) the time of pricing of the U.S. equity-linked Security (i.e., when all material terms have been agreed on) and (ii) the issuance of the U.S. equity-linked Security. However, if the time of pricing is more than 14 calendar days before the issuance of the U.S. equity-linked Security, the calculation date is the date of the issuance of the U.S. equity-linked Security. In those circumstances, information regarding the Issuer's final determinations for purposes of Section 871(m) may be available only after the issuance of the U.S. equity-linked Security. As a result, a Non-U.S. Holder should acquire such a U.S. equity-linked Security only if it is willing to accept the risk that the U.S. equity-linked Security is treated as subject to withholding.

The amount of a "dividend equivalent" is equal to, for a "simple" contract, the product of (a) the per-share dividend amount, (b) the number of shares of the underlying U.S. equity referenced in the U.S. equity-linked Security and (c) the delta, and, for a "complex" contract, the product of (a) the per-share dividend amount and (b) the initial hedge.

The dividend equivalent amount will be determined on the earlier of (a) the record date of the dividend and (b) the day prior to the ex-dividend date. The dividend equivalent amount will include the amount of any

actual or, under certain circumstances, estimated dividend. If a U.S. equity-linked Security is subject to withholding in respect of dividend equivalents, withholding will, depending on the applicable withholding agents' circumstances, generally be required either (i) on the underlying dividend payment date or (ii) when cash payments are made on the relevant U.S. equity-linked Security or upon the date of maturity, lapse or other disposition thereof by the Non-U.S. Holder.

The relevant Issuer will determine whether a U.S. equity-linked Security is subject to withholding under Section 871(m). If the Issuer has determined, as specified in the Pricing Supplement, that a U.S. equity-linked Security should not be subject to withholding under Section 871(m), the Issuer will be deemed to instruct its agents and withholding agents that no such withholding is required, unless such agent or withholding agent knows or has reason to know otherwise. If withholding is required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.

The relevant Issuer's determination is not binding on the IRS, and the IRS may disagree with its determination. Section 871(m) is complex and its application may depend on the Non-U.S. Holder's particular circumstances. For example, the application of Section 871(m) may be affected if a Non-U.S. Holder enters into another transaction in connection with the acquisition of a U.S. equity-linked Security. Accordingly, Non-U.S. Holders should consult their tax advisers regarding the potential application of Section 871(m) to the U.S. equity-linked Securities in their particular circumstances.

FATCA

U.S. tax rules commonly referred to as "FATCA" generally imposes a withholding tax of 30 per cent. on payments to certain non-U.S. entities (including financial intermediaries) with respect to certain financial instruments, unless various U.S. information reporting and due diligence requirements have been satisfied. An intergovernmental agreement between the United States and the non-U.S. entity's jurisdiction may modify these requirements. FATCA generally applies to certain financial instruments that are treated as paying U.S.-source interest or dividends or other U.S.-source "fixed or determinable annual or periodical" income ("**FDAP income**"). Withholding (if applicable) applies to any payment of amounts treated as U.S.-source interest or dividend equivalents (as discussed above under "*—Dividend Equivalent Amounts*") on the Securities and any payment of gross proceeds of the disposition (including upon retirement) of Securities treated as providing for U.S.-source interest or dividends. However, under proposed Treasury regulations (the preamble to which specifies that taxpayers are permitted to rely on them pending finalization) no withholding will apply to payments of gross proceeds (other than amounts treated as interest or other FDAP income). Although, under current law, withholding under FATCA does not apply to payments of non-U.S. source income, such withholding could apply in the future with respect to certain payments attributable to U.S.-source income ("foreign passthru payments"). Securities that pay only non-U.S. source or foreign passthru payments, are not treated as equity for U.S. federal income tax purposes and have a stated expiration date are generally grandfathered from FATCA withholding if issued prior to the date that is six months after final Treasury regulations that define the term "foreign passthru payments" are published. However, such Securities may become subject to FATCA withholding if they are significantly modified after the grandfathering date (including in the event that the Issuer substitutes another entity in place of the Issuer as principal debtor under the Securities) if such modification or substitution results in a deemed exchange of the Securities for U.S. federal income tax purposes. Under Treasury regulations, certain "benchmark" rate replacements would not give rise to deemed exchanges for U.S. federal income tax purposes, provided that certain conditions set forth in the Treasury regulations are met. If withholding applies to the Securities, the relevant Issuer will not be required to pay any additional amounts with respect to amounts withheld under FATCA. Non-U.S. Holders should consult their tax advisers regarding the potential application of FATCA to the Securities.

Backup Withholding and Information Reporting

Information returns may be filed with the IRS in connection with payments on the Securities as well as in connection with the proceeds from a sale, exchange or other disposition. A Non-U.S. Holder may be subject to backup withholding in respect of amounts paid to the Non-U.S. Holder, unless such Non-U.S. Holder complies with applicable certification procedures to establish that it is not a United States person for U.S. federal income tax purposes or otherwise establishes an exemption. Compliance with the certification procedures described above under "*—Interest*" will satisfy the certification requirements necessary to avoid backup withholding. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder's U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

Estate Tax

Individual Non-U.S. Holders and entities the property of which is potentially includible in such an individual's gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers) should note that, absent an applicable treaty exemption, a Security that is treated as indebtedness for U.S. federal estate tax purposes will be treated as U.S. situs property subject to U.S. federal estate tax if payments on the Security, if received by the decedent at the time of death, would have been subject to U.S. federal withholding tax (even if the IRS Form W-8BEN or W-8BEN-E certification requirement described above were satisfied and not taking into account an elimination of such U.S. federal withholding tax due to the application of an income tax treaty or withholding under FATCA).

Absent an applicable treaty benefit, a Security that is not treated as indebtedness for U.S. federal estate tax purposes may be treated as U.S. situs property subject to U.S. federal estate tax. Non-U.S. Holders should consult their own tax advisers regarding the U.S. federal estate tax consequences of an investment in the Securities and the availability of benefits provided by an applicable estate tax treaty, if any.

Belgian Supplemental Conditions

If "Supplementary Provisions for Belgian Securities" is specified as applicable in the applicable Issue Terms and if an Early Redemption Event occurs and an Early Redemption Amount (Monetisation) is paid on the Maturity Date, the Securities will likely be treated as debt instruments for U.S. federal income tax purposes after the Early Redemption Date (Put). In that case, subject to the discussions in "*FATCA*" and "*Backup Withholding and Information Reporting*" above, a Non-U.S. Holder should not be subject to U.S. withholding tax on payments on the Maturity Date provided that, in the case of Securities issued by Morgan Stanley or MSFL, the conditions described in "*Interest*" above are met or the Non-U.S. Holder establishes any other exemption from U.S. withholding including under an applicable tax treaty.

UNITED KINGDOM TAXATION

The following disclosure applies only in respect of Securities (as opposed to Warrants) issued by Morgan Stanley, MSI plc, MSBV or MSFL and not in respect of Securities issued by a substitute issuer (notwithstanding that substitution may be permitted by the terms and conditions of the Securities), and references in this section on United Kingdom taxation to "Securities" and references to "Securityholders", should be construed accordingly.

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Securities. The comments do not deal with other United Kingdom tax aspects of acquiring, holding, disposing of, or abandoning Securities. Transactions involving Securities, including the issue and subscription of Securities, any purchase or disposal or settlement of Securities, may have United Kingdom tax consequences for potential purchasers (including but not limited to, transfer taxes and possible withholding or deduction for or on account of United Kingdom tax from payments made in respect of the Securities). The tax consequences may depend, amongst other things, on the status of the potential investor and the terms and conditions of a particular Security as specified in the Issue Terms. The following summary is based on current United Kingdom tax law as applied in England and Wales and published practice of HM Revenue and Customs ("HMRC") (which may not be binding on HMRC), which may be subject to change, sometimes with retrospective effect. The comments relate only to the position of persons who hold their Securities as investments and are the absolute beneficial owners thereof. Prospective holders of the Securities and Securityholders should be aware that the particular terms of issue of any series of Securities as specified in the relevant Issue Terms may affect the tax treatment of that and other series of Securities. The following is a general guide and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective purchaser. Prospective holders of the Securities and Securityholders who are in any doubt as to their tax position should consult their professional advisers about the tax implications of purchasing and holding a Security, any transaction involving a Security, and any transaction involved in the exercise and settlement of a Security. Prospective holders of the Securities and Securityholders who may be liable to taxation in jurisdictions other than the United Kingdom are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom withholding taxation aspects of payments in respect of the Securities. In particular, prospective holders of the Securities and Securityholders should be aware that the tax legislation of any jurisdiction where they are resident or otherwise subject to taxation (as well as any jurisdictions discussed herein) may have an impact on the tax consequences of an investment in the Securities (including in respect of any income received from the Securities) and, in particular, that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Securities even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

1. Securities - UK Withholding Tax on Interest Payments by the Issuers

Interest on Securities issued for a term of less than one year (and which are not issued with the intention, or under arrangements the effect of which is to render the Securities part of a borrowing with a total term of one year or more) may be paid by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax.

Interest on Securities issued for a term of one year or more (or under arrangements the effect of which is to render the Securities part of a borrowing with a total term of one year or more) may be paid by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax except in circumstances where such interest has a United Kingdom source. The location of the source of a payment is a complex matter. It is necessary to have regard to case law and HMRC practice which indicates that in determining the source of interest all relevant factors must be taken into account. HMRC has indicated that the most important factors in determining the source of a payment are those which influence where a creditor would sue for payment and has stated that the place where the Issuer does business and the place where its assets are located are relevant factors in this regard; however, HMRC has also indicated that, depending on the circumstances, other relevant factors may include the place of performance of the contract, the method of payment, the proper law of contract, the competent jurisdiction for any legal action, the location of any security for the debt and the residence of the Guarantor, although other factors may also be relevant.

Interest which has a United Kingdom source ("UK interest") may be paid by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax if the Securities in respect of

which the UK interest is paid constitute "quoted Eurobonds". Securities which carry a right to interest will constitute "quoted Eurobonds" provided they are and continue to be listed on a "recognised stock exchange" within the meaning of sections 987 and 1005 Income Tax Act 2007 or are and continue to be admitted to trading on a multilateral trading facility operated by a UK, Gibraltar or EEA regulated recognised stock exchange within the meaning of sections 987 and 1005 Income Tax Act 2007. Securities will be regarded as "listed on a recognised stock exchange" for this purpose if they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the United Kingdom's official list (within the meaning of Part 6 or the Financial Services and Markets Act 2000) or they are officially listed in a country outside the United Kingdom in which there is a recognised stock exchange in accordance with provisions corresponding to those generally applicable in European Economic Area States. The Luxembourg Stock Exchange is a recognised stock exchange for these purposes. Securities will be treated as listed on the Luxembourg Stock Exchange if they are both admitted to trading on the regulated market of the Luxembourg Stock Exchange and are officially listed in Luxembourg in accordance with provisions corresponding to those generally applicable in countries in the European Economic Area. The Euro MTF is a multilateral trading facility operated by an EEA regulated recognised stock exchange (Bourse de Luxembourg) for these purposes. Securities displayed on the Luxembourg Stock Exchange Securities Official List without admission to trading will not constitute "quoted Eurobonds" for these purposes.

If the Securities do not constitute "quoted Eurobonds", payments of interest on the Securities may still be made without withholding or deduction for or on account of United Kingdom income tax, provided that the relevant Issuer is and continues to be authorised for the purposes of the Financial Services and Markets Act 2000 and its business is and continues to consist wholly or mainly of dealing in financial instruments (within the meaning of section 885 of the Income Tax Act 2007) as principal and that such payments are made in the ordinary course of that business.

In all other cases, UK interest on the Securities may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20 per cent.) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty or to any other relief which may apply.

2. *Payments under Deed of Covenant*

Any payments made under the Deed of Covenant by the relevant Issuer may not qualify for the exemptions from UK withholding tax described above.

3. *Payments by Guarantor*

The United Kingdom withholding tax treatment of payments by the Guarantor under the terms of the Guarantee in respect of interest on the Securities (or other amounts due under the Securities other than the repayment of amounts subscribed for the Securities) is uncertain. If the Guarantor makes any payments in respect of interest on the Securities (or other amounts due under the Securities other than the repayment of amounts subscribed for the Securities) and such payments have a United Kingdom source, such payments may be subject to United Kingdom withholding tax at the basic rate (currently 20%) subject to such relief as may be available under the provisions of any applicable double taxation treaty or to any other exemption which may apply. Whether such payments made by the Guarantor have a United Kingdom source is a complex matter and is likely to be determined by reference to similar factors to those set out in paragraph 1 above. Such payments by the Guarantor may not be eligible for the exemptions described in paragraph 1. above.

4. *Other Rules Relating to United Kingdom Withholding Tax*

Securities may be issued at an issue price of less than 100 per cent. of their principal amount (in the case of Notes) or Specified Unit Value (in the case of Certificates). Whether any discount element on such Securities will be subject to any United Kingdom withholding tax pursuant to the provisions mentioned above, will depend on the precise terms of the Securities.

Where Securities are to be, or may fall to be, redeemed at a premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest. Payments of interest are subject to United Kingdom withholding tax as outlined above.

Where interest has been paid under deduction of United Kingdom income tax, Securityholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.

The references to "**interest**" above mean amounts that are treated as "interest" for the purposes of United Kingdom tax law. The statements above do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Securities or any related documentation.

5. *Special tax regimes*

In accordance with Prospectus Regulation (EU 2017/1129) as supplemented by Commission Delegated Regulation (EU) 2019/980, the Issuer notes that certain securities which may be issued under the Base Prospectus that are indexed by reference to movements in the value of shares or certain other assets during the life of the securities could fall within the excluded indexed securities rules contained in the Income Tax (Trading and Other Income) Act 2005. Any gains or losses arising on the disposal of excluded indexed securities (excluding, where a security carries a right to interest payments, any element that represents accrued interest at the date of disposal, which will be liable to income tax) would be treated as capital gains or allowable losses for capital gains tax purposes in the hands of holders who are individuals and within the charge to United Kingdom capital gains tax. Index-linked securities which fail to satisfy these conditions may be treated as deeply discounted securities and where the holder is an individual who is within the charge to United Kingdom income tax, any gains would be treated as income gains and no relief would be available for losses.

Securityholders within the charge to United Kingdom corporation tax (including non-resident Securityholders whose Securities are used, held or acquired for the purposes of a trade carried on in the United Kingdom through a permanent establishment) will be subject to tax as income on all profits and gains from such Securities broadly in accordance with their statutory accounting treatment. Such Securityholders will generally be charged in each accounting period by reference to interest and other amounts which, in accordance with generally accepted accounting practice, are recognised in determining the Securityholder's profit or loss for that period. Fluctuations in value relating to foreign exchange gains and losses in respect of the Securities will be brought into account as income.

The application of any such special tax regime to Securities and the consequences of holding such Securities will depend upon a Securityholder's individual tax status and Securityholders are strongly advised to consult their professional advisers prior to any investment in Securities linked to, or indexed by reference to shares or other assets.

NETHERLANDS TAXATION

The following disclosure applies only in respect of Securities issued by MSBV and not in respect of Securities issued by Morgan Stanley, MSI plc or MSFL. References in this section on Netherlands taxation to "Issuer" refer only to MSBV, reference to "Program Securities" refer only to Securities issued by MSBV and references to holders of Securities should be construed accordingly.

The following general description of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following general description does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of a Security, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of this general description it is assumed that no individual or entity holding a Security has or will have a substantial interest, or - in the case of a holder of a Security being an entity - a deemed substantial interest, in the Issuer and that no connected person (verbonden persoon) to the holder of a Security has or will have a substantial interest in the Issuer.

Generally speaking, an individual has a substantial interest in a company if (a) such individual, either alone or together with his partner, directly or indirectly has, or is deemed to have or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company

Generally speaking, an entity has a substantial interest in a company if such entity, directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company. An entity holding a Security has a deemed substantial interest in a company if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

This summary does not address the Netherlands tax consequences for a holder of Securities that is considered to be affiliated (gelieerd) to MSBV within the meaning of the Dutch Withholding Tax Act 2021 (Wet bronbelasting 2021). Generally, an entity is regarded as 'affiliated' for these purposes if it, either alone or as part of a collaborating group, can exercise decisive influence on the activities of MSBV (or if MSBV can, either alone or as part of a collaborating group, exercise such influence on the activities of the other entity, or if there is a third party, either alone or as part of a collaborating group, that can exercise such control over both MSBV and such other entity), which is in any event the case if one holds more than 50 per cent of the statutory voting rights.

For the purpose of this general description, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this general description refers to a holder of a Security, an individual holding a Security or an entity holding a Security, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Security or otherwise being regarded as owning a Security for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Where the general description refers to "The Netherlands" or "Dutch" it refers only to the European part of the Kingdom of the Netherlands.

This summary does not address the Netherlands tax consequences for holders of Securities that are a resident of any non-European part of the Kingdom of the Netherlands.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of a Security.

2. *Withholding Tax*

All payments under the Securities may be made free of withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein, **provided that** (i) the Securities have a maturity – legally or *de facto* - of not more than 50 years, and (ii) the Securities will not represent, be linked to (the performance of) or be convertible (in part or in whole) into, (rights to purchase) (a) shares, (b) profit certificates (*winstbewijzen*), and/or (c) debt instruments having a maturity – legally or *de facto* – of more than 50 years, issued by MSBV, the Guarantor or any other entity related to MSBV and/or the Guarantor.

3. *Taxes on Income and Capital Gains*

Residents

Resident entities

An entity holding a Security which is, or is deemed to be, resident in the Netherlands for corporate tax purposes and which is not tax exempt, will generally be subject to corporate tax in respect of income or a capital gain derived from a Security at the prevailing statutory rates.

Resident individuals

An individual holding a Security who is, or is deemed to be, resident in the Netherlands for income tax purposes will be subject to income tax in respect of income or a capital gain derived from a Security at rates up to 49.5 per cent if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If the above-mentioned conditions (i) and (ii) do not apply, a holder of Securities who is an individual, resident or deemed to be resident in the Netherlands for Netherlands tax purposes will not be subject to Dutch taxes on income actually received or gains actually realised. Instead, such individual is generally taxed at a flat rate of 32 per cent on deemed income from “savings and investments” (*“sparen en beleggen”*), which deemed income is determined on the basis of the amount included in the individual’s “yield basis” (*“rendementsgrondslag”*)(including the Securities) at the beginning of the calendar year (minus a tax-free threshold; the yield basis minus such threshold being the tax basis (*“grondslag sparen en beleggen”*)). For the 2023 tax year, the deemed income derived from savings and investments will be a percentage of the tax basis up to 6.17 per cent that is determined based on the actual allocation of (i) savings, (ii) other investments and (iii) debts/liabilities within the individual’s yield basis. The tax-free threshold for 2023 is EUR 57,000 (fifty-seven thousand Euro). The percentages to determine the deemed income will be reassessed every year. These rules are subject to litigation and may therefore change. You may need to file (protective) appeals to any assessments based on these rules to benefit from any beneficial case law.

Non-residents

A holder of a Security which is not, or is not deemed to be, resident in the Netherlands for the relevant tax purposes will not be subject to taxation on income or a capital gain derived from a Security unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands;
- (ii) the holder is entitled to a share in profits of an enterprise that is effectively managed in the Netherlands, and to which enterprise the income or capital gain is attributable, other than by way of securities; or
- (iii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in the Netherlands as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

4. Gift and Inheritance Taxes

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of a Security by way of gift by, or on the death of, a holder of a Security, unless:

- (i) the holder of a Security is, or is deemed to be, resident in the Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

5. Value Added Tax

There is no Dutch value added tax payable by a holder of a Security in respect of payments in consideration for the issue of the Securities or in respect of the payment of interest or principal under the Securities, or the transfer of the Securities.

6. Other Taxes and Duties

There is no Dutch registration tax, stamp duty or any other similar tax or duty, other than court fees, payable in the Netherlands by a holder of a Security in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgement in the courts of the Netherlands) of the Securities or the performance of the Issuer's obligations under the Securities.

7. Residence

A holder of a Security will not be and will not be deemed to be resident in the Netherlands for tax purposes and, subject to the exceptions set out above, will not otherwise be subject to Dutch taxation, by reason only of acquiring, holding or disposing of a Security or the execution, performance, delivery and/or enforcement of a Security.

AUSTRIAN TAXATION

This section on taxation contains a brief description of the Issuers' understanding with regard to certain important principles which may be of significance in connection with the purchase, holding or sale of the Securities in the Republic of Austria. This general description does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. These comments are not intended to be, nor should they be construed to be, legal or tax advice. This description furthermore only refers to investors which are subject to unlimited (corporate) income tax liability in Austria. It is based on the currently valid tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation, all of which may be amended from time to time. Such amendments may possibly also be effected with retroactive effect and may negatively impact on the tax consequences described. It is recommended that potential purchasers of the Securities consult with their legal and tax advisers as to the tax consequences of the purchase, holding or sale of the Securities. Tax risks resulting from the Securities (in particular from a potential qualification as a foreign investment fund within the meaning of sec. 188 of the Austrian Investment Funds Act 2011 (Investmentfondsgesetz 2011)) shall in any case be borne by the purchaser. For the purposes of the following it is assumed that the Securities are legally and factually offered to an indefinite number of persons. The Issuer assumes no responsibility with respect to taxes withheld at source.

General remarks

Individuals having a permanent domicile (*Wohnsitz*) and/or their habitual abode (*gewöhnlicher Aufenthalt*) in Austria are subject to income tax (*Einkommensteuer*) in Austria on their worldwide income (unlimited income tax liability; *unbeschränkte Einkommensteuerpflicht*). Individuals having neither a permanent domicile nor their habitual abode in Austria are subject to income tax only on income from certain Austrian sources (limited income tax liability; *beschränkte Einkommensteuerpflicht*).

Corporations having their place of effective management (*Ort der Geschäftsleitung*) and/or their legal seat (*Sitz*) in Austria are subject to corporate income tax (*Körperschaftsteuer*) in Austria on their worldwide income (unlimited corporate income tax liability; *unbeschränkte Körperschaftsteuerpflicht*). Corporations having neither their place of effective management nor their legal seat in Austria are subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability; *beschränkte Körperschaftsteuerpflicht*).

Both in case of unlimited and limited (corporate) income tax liability, Austria's right to tax may be restricted by double taxation treaties.

Income taxation of the Securities

Pursuant to sec. 27(1) of the Austrian Income Tax Act (*Einkommensteuergesetz*), the term investment income (*Einkünfte aus Kapitalvermögen*) comprises:

- income from the letting of capital (*Einkünfte aus der Überlassung von Kapital*) pursuant to sec. 27(2) of the Austrian Income Tax Act, including dividends and interest;
- income from realised increases in value (*Einkünfte aus realisierten Wertsteigerungen*) pursuant to sec. 27(3) of the Austrian Income Tax Act, including gains from the sale, redemption and other realisation of assets that lead to income from the letting of capital, zero coupon bonds and also broken-period interest;
- income from derivatives (*Einkünfte aus Derivaten*) pursuant to sec. 27(4) of the Austrian Income Tax Act, including cash settlements, option premiums received and income from the sale or other realisation of forward contracts like options, futures and swaps and other derivatives such as index certificates; and
- income from cryptocurrencies (*Einkünfte aus Kryptowährungen*) pursuant to sec. 27(4a) of the Austrian Income Tax Act that includes current income (*laufende Einkünfte*) as well as income from realised increases in value (*Einkünfte aus realisierten Wertsteigerungen*) from cryptocurrencies pursuant to sec. 27b of the Austrian Income Tax Act.

According to the interpretation of the Austrian Ministry of Finance, sec. 27(4) of the Austrian Income Tax Act comprises all kinds of certificates, including for example index certificates, alpha certificates, leverage certificates or so-called sport certificates (Income Tax Act Guidelines 2000, "EStR 2000", para 6173). The underlying may be shares, indices, commodities, currencies, bonds, metals, etc. In case of certificates, income from derivatives results from the difference between the acquisition costs and the sales prices or redemption value or settlement amount (all of the latter depending on the development in value of the

underlying). Indexed bonds (*indexierte Anleihen*) or bonds with index-linked yield (*Anleihen mit indexorientierter Verzinsung*) are not deemed to be derivatives for purposes of sec. 27(4) of the Austrian Income Tax Act. Interest resulting from these bonds is treated as income from the letting of capital pursuant to sec. 27(2) of the Austrian Income Tax Act; the sale or redemption of these bonds is deemed to lead to income from realized gains and other increases in value pursuant to sec. 27(3) of the Austrian Income Tax Act (EStR 2000, para 6195 et seq.). In case the Issuer may choose whether to redeem a bond either by handing out cash or by way of transferring (own or third party) shares (so-called cash or share bonds), interest paid on these bonds is deemed to be income from the letting of capital pursuant to sec. 27(2) of the Austrian Income Tax Act. The exercise of the option by the Issuer is not deemed to be an exchange of bonds for stock and does therefore not result in a sale of the bond with a subsequent acquisition of the shares (EStR 2000, para 6183 et seq.). Income from the sale or redemption of cash or share bonds constitutes income from realized increases in value.

The withdrawal of the Securities from a bank deposit (*Depotentnahme*) would generally be considered as a sale. In case certain notification requirements are met, no taxation is triggered. Furthermore, circumstances leading to a loss of Austria's taxation right regarding the Securities vis-à-vis other countries, e.g. a relocation from Austria (*Wegzug*) are in general deemed to constitute a sale (cf. sec. 27(6) of the Austrian Income Tax Act). In case of relocation of an individual to a Member State of the European Union or to Member States of the European Economic Area, a deferral of taxation may be available.

Individuals holding the Securities as non-business assets

Individuals subject to unlimited income tax liability in Austria holding the Securities as a non-business asset are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income with an Austrian nexus (*inländische Einkünfte aus Kapitalvermögen*), basically meaning income that is paid by an Austrian paying agent (*auszahlende Stelle*) or an Austrian custodian agent (*depotführende Stelle*), the income is subject to a withholding tax of 27.5%; no additional income tax is levied over and above the amount of tax withheld (final taxation pursuant to sec. 97(1) of the Austrian Income Tax Act). In case of investment income without an Austrian nexus, the income must be included in the income tax return and is subject to a flat income tax rate of 27.5%. In both cases upon application the option exists to tax all income subject to the tax rate of 27.5% at the regular progressive income tax rate, which may be lower than the flat rate of 27.5%, depending on the individual circumstances (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act).

Sec. 27(8) of the Austrian Income Tax Act, *inter alia*, provides for the following restrictions on the set-off of losses: negative income from realised increases in value and from derivatives may not be set off against interest and other claims against credit institutions as well as certain income pursuant to sec. 27(5)(7) of the Austrian Income Tax Act; income subject to the flat tax rates of 25% or 27.5% may not be set off against income subject to the progressive income tax rate (this equally applies in case of an exercise of the option to regular taxation); negative investment income not already set off against positive investment income may not be set off against other types of income.

Individuals holding the Securities as business assets

Individuals subject to unlimited income tax liability in Austria holding the Securities as a business asset are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income with an Austrian nexus (as described above), the income is subject to a withholding tax of 27.5%. While this withholding tax has the effect of final taxation for income from the letting of capital, income from realised increases in value and income from derivatives must on the other hand be included in the income tax return (nevertheless subject to the flat income tax rate of 27.5%). In case of investment income without an Austrian nexus, the income must always be included in the income tax return (subject to the flat income tax rate of 27.5%). In both cases upon application the option exists to tax all income subject to the tax rate of 27.5% at the regular progressive income tax rate, which may be lower than the flat rate of 27.5%, depending on the individual circumstances (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). Pursuant to sec. 6(2)(c) of the Austrian Income Tax Act, impairment to the lower fair market value and losses from the sale, redemption and other realisation of financial assets, derivatives and cryptocurrencies in the sense of sec. 27(3) to (4a) of the Austrian Income Tax Act, which are subject to the special tax rates of 27.5% or 25%, are primarily to be set off against income from realised increases in value of such financial assets, derivatives and cryptocurrencies and with appreciations in value of such assets within the same business unit (*Wirtschaftsgüter desselben Betriebes*); only 55% of the remaining negative difference may be set off against other types of income (and carried forward).

Corporations and Private Foundations

Corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on interest from the Securities at a rate of 24% (for 2023 and from 1 January 2024 onwards: 23%). In case of investment income with an Austrian nexus (as described above) the income is subject to a withholding tax of 27.5%, which may be reduced to 24% (for 2023 and from 1 January 2024 onwards: 23%) in case a corporation is the beneficial recipient of such income. Such withholding tax can be credited against the corporate income tax liability. However, under the conditions set forth in sec. 94(5) of the Austrian Income Tax Act, no withholding tax is levied in the first place. Income from the sale of the Securities is subject to corporate income tax of 24% (for 2023 and from 1 January 2024 onwards: 23%). Losses from the sale of the Securities can be set off against other income (and carried forward).

Private foundations pursuant to the Austrian Private Foundations Act fulfilling the prerequisites contained in sec. 13(3) and (6) of the Austrian Corporate Income Tax Act and holding the Securities as a non-business asset are subject to interim taxation at a rate of 24% (for 2023 and from 1 January 2024 onwards: 23%) on interest income, income from realised increases in value income from derivatives (*inter alia*, if the latter are in the form of securities; or in case of non-securitized derivatives if the Austrian custodian or paying agent voluntarily withholds the tax at source pursuant to sec. 27a(2)(7) of the Austrian Income Tax Act) and income from cryptocurrencies. Interim tax does not fall due insofar as distributions subject to withholding tax are made to beneficiaries in the tax period. In case of investment income with an Austrian nexus (as described above), income is in general subject to a withholding tax of 27.5%, which may be reduced to 24% (for 2023 and from 1 January 2024 onwards: 23%) in case a corporation is the beneficial recipient of such income. Such withholding tax can be credited against the tax falling due. Under the conditions set forth in sec. 94(12) of the Austrian Income Tax Act, no withholding tax is levied.

Set-off of losses by an Austrian depository agent

Pursuant to sec. 93(6) of the Austrian Income Tax Act, the Austrian custodian agent is obliged to automatically set off negative investment income against positive investment income, taking into account all of a taxpayer's bank deposits with the same custodian agent. If negative and at the same time or later in the same calendar year positive income is earned, then the negative income is to be set off against the positive income. If positive and later in the same calendar year negative income is earned, then the withholding tax on the positive income is to be credited, with such tax credit being limited to 27.5% of the negative income. In certain cases, the set-off is not permissible. The custodian agent has to issue a written confirmation on the set-off of losses for each bank deposit.

Risk of qualification as units in a non-Austrian investment fund

Pursuant to sec. 188 of the Austrian Investment Funds Act 2011 prior to its amendment by the Austrian Alternative Investment Funds Manager Act (BGBl I 135/2013), a non-Austrian investment fund was defined as any assets subject to a foreign jurisdiction which, irrespective of the legal form they are organised in, are invested according to the principle of risk diversification on the basis either of a statute, of the entity's articles or of customary exercise. Certain collective investment vehicles investing in real estate were exempted. The Austrian tax authorities commented upon the distinction between index certificates of foreign issuers on the one hand and non-Austrian investment funds on the other hand in the Investment Fund Regulations (*Investmentfondsrichtlinien*). Pursuant to these, no non-Austrian investment fund may be assumed if for the purposes of the issuance no predominant actual purchase of the underlying assets by the issuer or a trustee of the issuer, if any, is made and no actively managed assets exist. Directly held bonds shall not be considered as foreign investment funds if the performance of the bonds depends on an index, notwithstanding the fact of whether the index is a well-known one, an individually constructed "fixed" index or an index which is changeable at any time. Special rules applied to hedge-index funds.

In the course of the implementation of the Alternative Investment Funds Managers Directive (EC Directive 2011/61/EU) into domestic law, the definition of the term non-Austrian investment fund significantly changed, but the distinction between index certificates, indexed bonds and non-Austrian investment vehicles may still be important. This topic is not addressed in the current guidelines issued by the Austrian Ministry of Finance (*Investmentfondsrichtlinien* 2018, "InvFR 2018"). In this respect it should be noted that the Austrian tax authorities have stated that debt securities may be classified as an Alternative Investment Fund ("AIF") (*InvFR 2018, para 77*). According to these Investment Funds Act Guidelines, this may be so especially if (a) there is an obligation on the investor regarding the investment of the issue proceeds and (b) the possibility of influence by the issuer on the performance of the investment. Therefore, the risk of the qualification of the Securities as units in a non-Austrian investment fund must be assessed on a case-by-case basis.

Austrian inheritance and gift tax

Austria does not levy inheritance or gift tax.

However, it should be noted that certain gratuitous transfers of assets to (Austrian or foreign) private law foundations and comparable legal estates (*privatrechtliche Stiftungen und damit vergleichbare Vermögensmassen*) are subject to a foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Austrian Foundation Tax Act (*Stiftungseingangssteuergesetz*). Such tax is triggered if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat or their place of effective management in Austria. Certain exemptions apply in case of a transfer *mortis causa* of financial assets within the meaning of sec. 27(3) and (4) of the Austrian Income Tax Act (except for participations in corporations) if income from such financial assets is subject to a special tax rate. The tax basis is the fair market value of the assets transferred minus any debts, calculated at the time of transfer. The tax rate is in general 2.5%, with a higher rate of 25% applying in special cases.

In addition, a special notification obligation exists for gifts of money, receivables, shares in corporations, participations in partnerships, businesses, movable tangible assets and intangibles. The notification obligation applies if the donor and/or the donee have a domicile, their habitual abode, their legal seat or their place of effective management in Austria. Not all gifts are covered by the notification obligation: In case of gifts to certain related parties, a threshold of EUR 50,000 per year applies; in all other cases, a notification is obligatory if the value of gifts made exceeds an amount of EUR 15,000 during a period of five years. Furthermore, gratuitous transfers to foundations falling under the Austrian Foundation Tax Act described above are also exempt from the notification obligation. Intentional violation of the notification obligation may lead to the levying of fines of up to 10% of the fair market value of the assets transferred.

Further, it should be noted that gratuitous transfers of the Securities may trigger income tax on the level of the transferor pursuant to sec. 27(6) of the Austrian Income Tax Act (see above).

BELGIAN TAXATION

The following summary describes the principal Belgian tax considerations with respect to the holding of Securities obtained by an investor in Belgium. This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold or to dispose of the Securities. This summary is based on Belgian tax legislation, treaties, rules, and administrative interpretations and similar documentation, in force as of the date of the publication of this Base Prospectus, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect. This summary does not describe the tax consequences for a holder of Securities that are redeemable in exchange for, or convertible into assets, of the exercise, settlement or redemption of such Securities or any tax consequences after the moment of exercise, settlement or redemption.

Each prospective holder of Securities should consult a professional adviser with respect to the tax consequences of an investment in the Securities, taking into account the influence of each regional, local or national law.

Belgian Withholding Tax

Under Belgian tax law, "interest" income includes: (i) periodic interest income; (ii) any amount paid by the Issuer in excess of the issue price (whether or not on the maturity date); and (iii) if the Securities qualify as "fixed income securities" (in the meaning of article 2, §1, 8° Belgian Income Tax Code 1992), in the case of a realisation of the Securities between two interest payment dates, the interest accrued during the detention period. "Fixed income securities" include Securities where there is a causal link between the amount of interest income and the detention period of the Securities, on the basis of which it is possible to calculate the amount of pro rata interest income at the moment of the sale of the Securities during their lifetime. Further, on 25 January 2013, the Belgian tax authorities issued a circular letter on the tax treatment of income from structured products the return of which is linked to an underlying value (share basket, index, etc.) and the terms and conditions of which include one or more of the following features: (a) a (conditional) minimum return; (b) capital protection; (c) a periodic coupon payment; and (d) determination of income at an intermediary stage using a "ratchet" system. The circular letter takes the position that such structured products qualify as "fixed income securities" and sets out a (somewhat unclear) formula to calculate the pro rata of accrued interest. It is debatable whether the general statements made in the circular letter are in line with Belgian tax legislation.

Payments of interest on the Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes) subject to such reductions or exemptions as may be available under Belgian domestic or treaty law.

Belgian Income Tax rules applicable to natural persons resident in Belgium

For Belgian resident individuals, the 30 per cent. Belgian withholding tax constitutes the final income tax. This means that they do not have to declare any interest obtained on the Securities in their personal income tax return, provided withholding tax was levied on these interest payments. Nevertheless, Belgian resident individuals may elect to declare any interest received on Securities in their personal income tax return. Also, if no Belgian withholding tax has been withheld (e.g. because the interest is paid outside Belgium without the intervention of a Belgian paying agent or because it concerns the pro rata of accrued interest in the case of a sale of the Securities), any interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return. Interest income which is declared in this way will in principle be taxed at a flat rate of 30 per cent. (or at the relevant progressive personal income tax rate(s), taking into account the taxpayer's other declared income, if this results in lower taxation) and no local surcharges will be due. The Belgian withholding tax levied may be credited against the income tax liability.

Capital gains realised upon the sale of the Securities are in principle tax exempt, except if the capital gains are realised outside the scope of the management of one's private estate or except to the extent that the capital gains qualify as interest (as defined above in the section entitled "Belgian Withholding Tax"). Capital losses are in principle not tax deductible.

Other tax rules apply to Belgian resident individuals holding the Securities not as a private investment but in the framework of their professional activity or when the transactions with respect to the Securities fall outside the scope of the normal management of their own private estate.

Belgian resident corporations

Interest derived by Belgian corporate investors (i.e. corporations subject to Belgian Corporate Income Tax) on the Securities and capital gains realised on the disposal or settlement of the Securities will in principle be subject to Belgian corporate income tax at the rate of in principle 25 per cent.. Subject to certain conditions, small companies (as defined in Article 1:24, § 1 to § 6 of the Belgian Companies and Associations Code) are taxable at the reduced corporate income tax rate of 20% on the first tranche of taxable profits of EUR 100,000.

If non-Belgian withholding tax has been levied on the interest, a foreign tax credit may be applied against the Belgian tax due. The foreign tax credit is determined by reference to a fraction where the numerator is equal to the rate of the foreign tax with a maximum of 15 and the denominator is equal to 100 minus the amount of the numerator (with a number of additional limitations).

Capital losses on the Securities are in principle not tax deductible.

For Belgian resident corporations, interest payments on the Securities (except for Securities which are zero coupon securities or which provide for the capitalisation of interest) made through a paying agent in Belgium may under certain specific circumstances be exempt from withholding tax, provided a special attestation is delivered. The Belgian withholding tax that has been levied is creditable and refundable in accordance with the applicable legal provisions.

Other tax rules apply to investment companies within the meaning of Article 185bis of the Belgian Income Tax Code 1992.

Organisation for financing pensions

Interest derived on the Securities and capital gains realised on the Securities will not be subject to Belgian Corporate Income Tax in the hands of Belgian Organisations for Financing Pensions ("**OFPs**"). Capital losses incurred by OFPs on the Securities will not be tax deductible. Subject to certain conditions, any Belgian withholding tax that has been levied on the Securities is creditable and refundable in accordance with the applicable legal provisions.

Other Belgian legal entities

Legal entities that are Belgian residents for tax purposes, i.e. that are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/impôt des personnes morales*), are subject to the following tax treatment in Belgium with respect to the Securities.

Payments of interest (as defined in the section entitled "Belgian Withholding Tax") on the Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest. However, if no Belgian withholding tax has been withheld (e.g. because the interest is paid outside Belgium without the intervention of a Belgian paying agent or because it concerns the pro rata of accrued interest in the case of a sale of the Securities), the legal entity itself is liable to declare the interest to the Belgian tax administration and to pay the 30 per cent. withholding tax to the Belgian treasury.

Capital gains realised on the Securities are in principle tax exempt, except to the extent the capital gain qualifies as interest (as defined in the section entitled "Belgian Withholding Tax"). Capital losses on the Securities are in principle not tax deductible.

Non-residents of Belgium

The interest income (as defined in the section entitled "Belgian Withholding Tax") on the Securities paid to a Belgian non-resident outside of Belgium, i.e. without the intervention of a professional intermediary in Belgium, is not subject to Belgian withholding tax. Interest income on the Securities paid through a Belgian professional intermediary will in principle be subject to a 30 per cent. Belgian withholding tax, unless the holder is resident in a country with which Belgium has concluded a double taxation agreement and delivers

the requested affidavit. Nevertheless, interest income paid through a professional intermediary established in Belgium will be made without deduction of Belgian Withholding Tax, provided that such professional intermediary qualifies as a recognised credit institution, exchange company or clearing or settlement institution and pays such interest to certain qualifying credit institutions, financial intermediaries, clearing and settlement institutions or portfolio management companies established outside of Belgium, referred to in Article 261, para. 4 of the Belgian Income Tax Code 1992 ("**Qualifying Intermediaries**"). Payments of interest to non-Qualifying Intermediaries collected through a professional intermediary established in Belgium will also be made without deduction of Belgian Withholding Tax, provided that interest is paid through a Belgian credit institution, a Belgian stock market company or a Belgian clearing or settlement institution and provided that such non-Qualifying Intermediary delivers an affidavit to the intermediary in which it certifies that the beneficial owners (i) are non-residents for Belgian income tax purposes, (ii) have not held the Securities as part of a taxable business activity in Belgium, and (iii) are the legal owner, or hold the usufruct of the Securities.

Non-resident holders using the Securities to exercise a professional activity in Belgium through a permanent establishment are subject to the same tax rules as the Belgian resident corporations (see above).

Non-resident holders who do not allocate the Securities to a professional activity in Belgium are not subject to Belgian income tax, save, as the case may be, in the form of withholding tax.

Belgian tax on stock exchange transactions and tax on repurchase transactions

The purchase and sale of the Securities on the secondary market that is (i) either entered into or carried out in Belgium through a professional intermediary or (ii) deemed to be carried out in Belgium, which is the case if the order is directly or indirectly made to a professional intermediary established outside of Belgium, either by a private individual with habitual residence in Belgium or by a legal entity for the account of its seat or establishment in Belgium (both referred to as a "**Belgian Investor**"), will be subject to a tax on stock exchange transactions ("*taks op beursverrichtingen*" / "*taxe sur les opérations de bourse*"). The tax is generally due at a rate 0.12 per cent. for transactions in debt instruments and at a rate of 0.35 per cent. for transactions in other securities which are not capitalisation shares, with a maximum amount per transaction and per party of €1,300 for debt instruments and €1,600 for other securities which are not capitalisation shares. The tax is due separately from each of the seller/transferor and the purchaser/transferee and is collected by the professional intermediary.

If the professional intermediary is established outside Belgium, the tax on stock exchange transactions is due by the ordering private individual or legal entity (who will be responsible for the filing of a stock exchange tax return and for the timely payment of the amount of stock exchange tax due) unless that individual or entity can demonstrate that the tax on stock exchange transactions due has already been paid by the professional intermediary established outside Belgium. In the latter case, the foreign professional intermediary also has to provide each client (which gives such intermediary an order) with a qualifying order statement (*borderel/bordereau*), at the latest on the business day after the day on which the relevant transaction was realised. The qualifying order statements must be numbered in series and duplicates must be retained by the financial intermediary. A duplicate can be replaced by a qualifying agent day-today listing, numbered in series. Alternatively, professional intermediaries established outside Belgium have the possibility to appoint a stock exchange tax representative in Belgium, subject to certain conditions and formalities (a "**Stock Exchange Tax Representative**"). Such Stock Exchange Tax Representative will then be liable toward the Belgian Treasury for the tax on stock exchange transactions on behalf of clients that fall within one of the aforementioned categories (provided that these clients do not qualify as exempt persons for stock exchange tax purposes – see below) and to comply with the reporting obligations and the obligations relating to the order statement (*borderel/bordereau*) in that respect. If such a Stock Exchange Tax Representative would have paid the tax on stock exchange transactions due, the Belgian Investor will, as per the above, no longer be the debtor of the tax on stock exchange transactions.

However, tax on stock exchange transactions will not be payable by exempt persons acting for their own account, including investors who are Belgian non-residents provided they deliver an attestation to the financial intermediary in Belgium confirming their non-resident status, and certain Belgian institutional investors as defined in Article 126¹, 2° of the Code of various duties and taxes ("*Code des droits et taxes divers*" / "*Wetboek diverse rechten en taksen*").

As indicated in the section relating to the 'Proposed Financial Transactions Tax', the European Commission has published a proposal for a FTT. This proposal currently stipulates that once the FTT enters into force,

the participating Member States shall not maintain or introduce taxes on financial transactions other than the FTT (or value added tax as provided in the Council Directive 2006/112/EC of November 28, 2006 on the common system of value added tax). For Belgium, the tax on stock exchange transactions should thus be abolished once the FTT enters into force. The proposal is still subject to negotiation between the participating Member States and therefore may be changed at any time.

Annual tax on securities accounts

Pursuant to the Belgian Law of 17 February 2021 on the introduction of an annual tax on securities accounts, an annual tax is levied on securities accounts with an average value, over a period of twelve consecutive months starting on 1 October and ending on 30 September of the subsequent year, higher than EUR 1 million.

The tax is equal to 0.15 per cent. of the average value of the securities accounts during a reference period. The reference period normally runs from 1 October to 30 September of the subsequent year. The first reference period ran from 26 February 2021 to 30 September 2021. The taxable base is determined based on four reference dates: 31 December, 31 March, 30 June and 30 September. The amount of the tax is limited to 10 per cent. of the difference between the taxable base and the threshold of EUR 1 million.

The tax targets securities accounts held by resident individuals, companies and legal entities, irrespective as to whether these accounts are held with a financial intermediary which is established or located in Belgium or abroad. The tax also applies to securities accounts held by non-resident individuals, companies and legal entities with a financial intermediary established or located in Belgium. Belgian establishments from Belgian non-residents are however treated as Belgian residents for purposes of the annual tax on securities accounts so that both Belgian and foreign securities accounts fall within the scope of this tax. Note that pursuant to certain double tax treaties, Belgium has no right to tax capital. Hence, to the extent the tax on securities accounts is viewed as a tax on capital within the meaning of these double tax treaties, treaty protection may, subject to certain conditions, be claimed.

Each securities account is assessed separately. When multiple holders hold a securities account, each holder is jointly and severally liable for the payment of the tax and each holder may fulfil the declaration requirements for all holders.

There are various exemptions, such as securities accounts held by specific types of regulated entities for their own account.

A financial intermediary is defined as (i) the National Bank of Belgium, the European Central Bank and foreign central banks performing similar functions, (ii) a central securities depository included in Article 198/1, §6, 12° of the Belgian Income Tax Code, (iii) a credit institution or a stockbroking firm as defined by Article 1, §3 of the Law of 25 April 2014 on the status and supervision of credit institutions and investment companies and (iv) the investment companies as defined by Article 3, §1 of the Law of 25 October 2016 on access to the activity of investment services and on the legal status and supervision of portfolio management and investment advice companies, which are, pursuant to national law, admitted to hold financial instruments for the account of customers.

The annual tax on securities accounts is in principle due by the financial intermediary established or located in Belgium. Otherwise, the annual tax on securities accounts needs to be declared and is due by the holder of the securities accounts itself, unless the holder provides evidence that the annual tax on securities accounts has already been withheld, declared and paid by an intermediary which is not established or located in Belgium. In that respect, intermediaries located or established outside of Belgium could appoint an annual tax on securities accounts representative in Belgium. Such a representative is then liable towards the Belgian Treasury (*Trésor/Thesaurie*) for the annual tax on securities accounts due and for complying with certain reporting obligations in that respect. If the holder of the securities accounts itself is liable for reporting obligations (e.g. when a Belgian resident holds a securities account abroad with an average value higher than EUR 1 million), the deadline for filing the tax return for the annual tax on securities accounts corresponds with the deadline for filing the annual tax return for personal income tax purposes electronically, irrespective whether the Belgian resident is an individual or a legal entity. In the latter case, the annual tax on securities accounts must be paid by the taxpayer on 31 August of the year following the year on which the tax was calculated, at the latest.

Anti-abuse provisions, retroactively applying from 30 October 2020, were also introduced: a rebuttable general anti-abuse provision and two irrebuttable specific anti-abuse provisions. However, on 27 October 2022, the Belgian Constitutional Court annulled the two irrebuttable specific anti-abuse provisions and the retroactive effect of the general anti-abuse provision.

Prospective holders of Securities are advised to follow up and seek their own professional advice in relation to this new annual tax on securities accounts and the possible impact thereof on their own personal tax position.

CZECH REPUBLIC TAXATION

The information set out below is a summarised description of certain material Czech tax consequences of the purchase, holding and disposition of Securities and it does not purport to be a complete analysis of all Czech tax considerations relating to the Securities that may be relevant to a decision to purchase the Securities. This summary does not take into account or discuss the tax laws of any country other than the Czech Republic nor does it take into account specific double taxation treaties nor the individual circumstances, financial situation or investment objectives of any investor in the Securities.

This summary is based on the tax laws of the Czech Republic as in effect on the date of this Base Prospectus and their prevailing interpretations available on or before such date. All of the foregoing is subject to change, which could apply retroactively and could affect the continued validity of this summary.

As this is a general summary, holders of the Securities should consult their own tax advisors as to the consequences under the tax laws of the country in which they are resident for tax purposes and the tax laws of the Czech Republic concerning the purchase, holding and disposition of the Securities and receiving payments of interest, principal and/or other payments under the Securities, including, in particular, the application to their own situation of the tax considerations discussed below as well as the application of state, local, foreign or other tax laws.

Private investor with tax residence in the Czech Republic

A private individual investor who is a tax resident in the Czech Republic, is subject to personal income tax which is applied to any income gained from the holding, redemption, sell or any other transaction related to the Securities including interest income or any kind of gain earned from the disposal of the Securities. In general, it is taxable at progressive income tax rate at 15/23 %, while the threshold for the higher bracket amounts to 48 times the average wage, i.e., CZK 1,935,552 in 2023, and is tested against the sum of this and most other types of income.

The private investor must file a personal income tax return for a particular calendar year when income was credited to investor's account and report his worldwide taxable income and pay the final tax liability as determined in the annual tax return. Income which was taxed by Czech withholding tax should not be included in the tax return. Gains earned from the sale of Securities which were accepted for trading on the stock exchange in the Czech Republic or abroad will be exempt from income tax if the private investor holds the Securities for more than three years prior to their sale or his/her (gross) worldwide income from the sale of Securities in a given calendar year does not exceed the amount of CZK 100,000, provided, in each case, that the Securities have not been held in connection with the business activities, or if so, the Securities are sold more than three years following the termination of such business activities.

Corporate investor with tax residence in the Czech Republic

Legal entities residing in the Czech Republic will be subject to corporate income tax on any income resulting from the holding, redemption, sell or any other transaction with the Securities. Such financial income or gain from the disposal of the Securities shall form part of the general corporate income tax basis determined by accounting performed in compliance with Czech accounting principles which is additionally adjusted by non-taxable income or non-deductible expense. The applicable corporate income tax rate is 19 per cent.

Non-residential investors in the Czech Republic

The capital gain earned from the holding or disposal of Securities could be subject to withholding tax of 15 per cent. or alternatively 35 per cent. for black-listed countries residents, unless the bilateral tax treaty stipulates otherwise, or such gain is contributed to the permanent establishment of foreign investor situated in the Czech Republic. The withholding tax should be triggered only in case while the issuer was a tax resident or non-residential legal entity with its permanent establishment situated in the Czech Republic.

If income realized by a foreign private investor from the sale of the Securities is subject to taxation in the Czech Republic but is not subject to Czech withholding tax, the Czech holder or a permanent establishment in the Czech Republic of a foreign investor paying the income might be obliged to withhold an amount of 1% on a gross basis representing a tax security (the security does not apply in specific cases, e.g., where the seller is from EU/EEA country).

Other tax duty in the Czech Republic

In general, buy and sell transactions regarding the Securities are not within the scope of VAT. The acquisition, ownership, sell or disposal of the Securities by an investor in the Czech Republic does not trigger any stamp duty, or any registration obligation, transfer tax, gift tax or other similar tax burden.

DANISH TAXATION

The following is a general description of the taxation in Denmark of Securities according to the Danish tax laws in force at the date of this Base Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following general description does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as professional dealers in securities) may be subject to special rules. Potential investors are under all circumstances strongly recommended to contact their own tax adviser to clarify the individual consequences of their investment, holding and disposal of Securities. The Issuer makes no representations regarding the tax consequences of purchase, holding or disposal of the Securities.

Taxation at source

Under existing Danish tax laws no general withholding tax or coupon tax will apply to payments of interest or principal or other amounts due on the Securities, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to in The Danish Corporation Tax Act (in Danish "*Selskabsskatteloven*") of 22 August 2022 (as amended). This will not have any impact on Securityholders who are not in a relationship whereby they control, or are controlled by, the Issuer, or where the Securityholders and the Issuer are not controlled by the same group of shareholders.

Moreover, Danish withholding tax on payments of interest or principal or other amounts due on the Securities will not apply where the payment does not have a Danish source.

Resident Securityholders

Private individuals, including persons who are engaged in financial trade, companies and similar enterprises resident in Denmark for tax purposes or receiving interest on the Securities through their permanent establishment in Denmark are liable to pay tax on such interest.

Capital gains are taxable to individuals and corporate entities in accordance with the Danish Capital and Exchange Gains Act (in Danish "*Kursgevinstloven*") of 29 September 2022 (as amended) (the "**Act**"). Gains and losses on Securities held by corporate entities are generally taxed in accordance with a mark-to-market principle (in Danish "*lagerprincippet*"), i.e. on an unrealised basis. Gains and losses on Securities held by individuals are generally taxed on a realised basis and if the annual gains or losses do not exceed DKK 2,000, the gains or losses will be exempt from taxation. The net gains on Securities held by individuals are generally taxed as capital income at a rate of up to 42 per cent in 2023.

A variety of features regarding interest and principal may apply to the Securities. The applicable taxation of capital gains to corporate entities or individuals will depend on the features applicable to the Securities in question.

Structured securities can be designed in many ways and with many different underlying assets or in a way that the yield will depend on various index or currency flows. When structured securities are issued the following tax rules generally apply to the Securities.

Gains and losses on structured securities are generally treated as gains and losses on financial instruments in accordance with section 29(3) of the Act. However, there are exceptions – for example, securities which are adjusted in relation to developments in the consumer prices index (as computed by Statistics Denmark (in Danish "*Danmarks Statistik*")), the net consumer-price index or a similar index within the European Union or any of its member states.

The gains and losses on structured securities are calculated irrespective of the rules applying to the underlying asset.

Gains and losses on structured securities issued to both corporate entities and individuals are predominantly treated as taxable income in accordance with a mark-to-market principle (in Danish "*lagerprincippet*"), i.e. on an unrealised basis.

Corporate entities are generally able to deduct losses on structured securities, but individuals may only deduct losses on structured securities against gains on other financial instruments. However, in both cases, certain restrictions or exceptions apply.

Pension funds and other entities governed by the Danish Act on Taxation of Pension Yield (in Danish "*Pensionsafkastbeskatningsloven*") of 10 September 2020 (as amended) would, irrespective of realisation, be taxed on annual value increase or decrease of the Securities according to a mark-to-market principle (in

Danish "*lagerprincippet*") as specifically laid down in the act. The yield is taxed at a flat rate of 15.3 per cent.

Non-Resident Securityholders

Under existing Danish tax laws, payments of interest or principal amounts to any non-resident Securityholders are not subject to taxation in Denmark, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to under "*Taxation at source*" above. Thus, no Danish withholding tax will be payable with respect to such payments and any capital gain realised upon the sale, exchange or retirement of a Security will not be subject to taxation in Denmark, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to under "*Taxation at source*" above.

This tax treatment applies solely to Securityholders who are not subject to full tax liability in Denmark, nor are included in a Danish joint taxation scheme and do not carry on business in Denmark through a permanent establishment.

FINNISH TAXATION

The following is a general description of certain tax considerations relating to Securities. The following description relates only to payments by the relevant Issuer or Guarantor to beneficial owners of the Securities and may not apply to certain classes of investors, such as tax exempt entities, entities deemed as controlled foreign companies, individuals holding their Securities as business assets and general or limited partnerships. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in Finland or elsewhere. Prospective purchasers of Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Securities and receiving payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of those countries. This description is based upon the law as in effect and applied on the date of this Base Prospectus, as well as on the current tax practice, and is subject to any changes in laws and their interpretation that may take effect after such date, including changes with retroactive effect.

For the purpose of the Finnish tax consequences described herein, it is assumed that the relevant Issuer or Guarantor is neither a resident nor deemed to be a resident of Finland for Finnish tax purposes and that the relevant Issuer or Guarantor is not deemed to have a permanent establishment in Finland for Finnish tax purposes.

General

The scope of taxation in Finland is defined by the tax liability position of a taxpayer. Finnish residents for taxation purposes are subject to taxation in Finland on their worldwide income. Persons that are not resident in Finland for taxation purposes and are not deemed to have a permanent establishment in Finland for Finnish tax purposes are subject to taxation in Finland solely in respect of their Finnish source income.

Generally, an individual is deemed to be a Finnish resident for taxation purposes if the individual continuously stays in Finland for more than six consecutive months or if the permanent home and abode of the individual is in Finland. A citizen of Finland who has moved abroad is regarded as resident for Finnish taxation purposes until three years have passed after the end of the year of emigration, even if the individual would not stay in Finland for six consecutive months and the permanent home and abode would not be located in Finland, if the individual cannot prove that he/she has not had any essential ties to Finland in the tax year in question.

Legal entities established under the laws of Finland are regarded as residents of Finland in accordance with domestic tax law. In addition, as of 2021, foreign entities with their place of effective management in Finland can be deemed as Finnish tax resident corporations.

Double tax treaties may restrict the authority of Finland to tax the foreign source income of an individual or entity deemed as resident of Finland pursuant to Finnish domestic tax law.

In the hands of individuals, earned income is taxed at progressive tax rates, while capital income up to EUR 30,000 per calendar year is taxed at a rate of 30 per cent and capital income exceeding EUR 30,000 per calendar year at a rate of 34 per cent. Corporate entities regarded as residents of Finland are subject to corporate income tax on their worldwide income. The current corporate income tax rate is 20 per cent.

This summary describes the Finnish taxation of certain types of income and is general by nature. The tax treatment applicable to an investor depends on the individual circumstances of such investor. Thus, prospective investors are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Securities.

Taxation of Finnish Resident Individuals

Taxation of Capital Gains

Any income from the sale or other disposal of securities that is considered capital gains in the Finnish taxation as well as payment of accrued interest (Fi. *jälkimarkkinahyvitys*) is taxed as capital income in accordance with the Finnish Income Tax Act (Fi. *Tuloverolaki (1535/1992)*), as amended. The capital income tax rate is currently 30 per cent for capital income of up to EUR 30,000 per calendar year and 34 per cent for capital income exceeding EUR 30,000 per calendar year. However, capital gains are exempted from tax if the total amount of the consideration from the disposal of the person's disposed assets does not exceed EUR 1,000 in a tax year. Correspondingly, any loss arising from the sale or other disposal of securities that does not belong to the business activities of the individual is deductible from capital gains and generally also from other capital income arising in the same year or during the subsequent five years.

Capital losses due to disposal will not, however, be tax deductible if the total amount of the acquisition costs of the assets sold by the individual does not exceed EUR 1,000 in a tax year.

Capital gains and losses are calculated as the difference between the consideration from the disposal and the aggregate of the actual acquisition cost and sales-related expenses. Generally, individuals may alternatively choose to apply the presumptive acquisition cost instead of the actual acquisition cost for the assets. The presumptive acquisition cost of 20 per cent is deducted from the consideration from the disposal but, if the shareholder has held the assets for at least 10 years, the presumptive acquisition cost is 40 per cent of the consideration from the disposal. If the presumptive acquisition cost is applied instead of the actual acquisition cost, all expenses arising from acquiring the gains are deemed to be included in the presumptive acquisition cost and, therefore, cannot be deducted separately from the consideration from the disposal.

According to a ruling by the Finnish Supreme Administrative Court, the income from the sale or exercise of non-listed cash settled warrants that are transferable securities and that, even if non-listed, have such qualities that they could be listed, is subject to taxation in Finland as a capital gain. The same tax treatment should apply to listed warrants. It would, furthermore, seem that the income from the sale or exercise of non-listed cash settled warrants that do not fulfil the criteria discussed in the above Supreme Administrative Court ruling, would be taxable as other capital income of the Finnish resident individual investor, and not as a capital gain.

According to the above mentioned ruling, losses arising from the sale or exercise of non-listed cash settled warrants, in cases where the warrants do not qualify for capital gains taxation as discussed above, are non-deductible altogether in the taxation of a Finnish resident individual investor.

The principles of the above discussed ruling should as a starting point apply also with respect to Certificates.

Taxation of Other Capital Income and Withholding Obligations

Other capital income than income classified as capital gains (e.g. interest income, so called secondary market compensation and index compensation) paid to individuals and estates of a deceased person is subject to Finnish capital income tax in accordance with the Income Tax Act. The capital income tax rate is currently 30 per cent and 34 per cent of the capital income exceeding EUR 30,000 per calendar year (including also capital gains).

Assuming that the Issuer (or the Guarantor, as the case may be) is not a Finnish resident for tax purposes and is not deemed to have a permanent establishment in Finland for Finnish tax purposes, it is not under the obligation to perform withholding for any income tax payable in Finland in respect of payments made under the issued Securities. Instead, a paying agent or intermediary resident in Finland for tax purposes, when effecting a payment to an individual or estate of a deceased person resident in Finland, is generally under the obligation to withhold the income tax prepayment from any interest and secondary market compensation (but not from capital gains) paid to individuals and estates of a deceased person resident in Finland for tax purposes, where such payment is made through such paying agent or intermediary. However, if the paying agent or intermediary is considered as a substitute payer of the Issuer for Finnish tax purposes, such agent or intermediary is also obliged to withhold the tax prepayment for other capital income payments than interest payments or secondary market compensation. The current rate of tax prepayment is 30 per cent and the withholding shall be made in accordance with the Prepayment Act (Fi. *Ennakkoperintälaki (1118/1996)*), as amended. The Act on Source Tax on Interest Income (Fi. *Laki korkotulon lähdeverosta (1341/1990)*), as amended, is not applicable provided the Issuer does not have a branch in Finland.

Taxation of Finnish Corporate Entities

The following applies to Finnish corporate entities taxed in accordance with the Business Income Tax Act (Fi. *Laki elinkeinotulon verottamisesta (360/1968)*), as amended. As of tax year 2020, most Finnish corporate entities are taxed exclusively in accordance with the Business Income Tax Act.

Finnish corporations are subject to a national corporate income tax on their worldwide income. Corporate income is taxed according to a fixed tax rate which currently is 20 per cent. No tax prepayment is withheld from principal or interest payments made to corporate entities residing in Finland.

The capital gain (as well as the capital loss) is calculated by deducting the total sum of the actual acquisition cost and selling cost from the consideration from the disposal. Confirmed losses can generally be carried forward and deducted from the taxable income for 10 years following the loss-making year, provided that no change in ownership triggering forfeiture of tax loss carry-forwards occur. Specific limitations apply to

the deductibility of any capital losses incurred under the Income Tax Act prior to tax year 2020, as well as capital losses incurred from the transfer of assets belonging to the "other assets" asset class under the Business Income Tax Act, introduced as of tax year 2020.

Taxation of Non-Finnish Residents

Non-Finnish tax residents who do not conduct business through a permanent establishment in Finland, should not be subject to Finnish taxation either on principal or interest payments under the Securities or gains realized on the redemption, sale or other disposal of the Securities. If payment is made by a Finnish paying agent or intermediary, the recipient may be obliged to disclose their non-resident investor status to the payer.

No gross-up for Finnish withholding tax

Purchasers of the Securities should note that in accordance with the terms and conditions of the Securities the Issuer, in principle, will neither assume any liability for Finnish withholding taxes withheld from payments under the Securities, nor make any additional payments in regard of these taxes, i.e. no gross-up will apply in case a withholding tax is imposed.

Reporting and Compliance

A Finnish paying agent or intermediary is generally obliged to report to the Finnish Tax Administration any interest payments and comparable yield payments, secondary market compensations and index compensations paid to and received under the Securities by a Finnish tax resident individual or an estate of a deceased resident individual, or a non-resident recipient of such payment under the Securities, and any tax prepayment withheld from such payments. An intermediary as defined in the applicable Finnish tax regulations, also has an obligation to report to the Finnish Tax Administration any transactions in the Securities brokered or made by it, concerning both resident and non-resident holders of the Securities. A Finnish tax resident custodian, and the Finnish branch of a non-resident custodian, furthermore has an obligation to report to the Finnish Tax Administration the information necessary for the calculation of capital gains received by resident and non-resident holders of the Securities, to the extent the custodian has such information. Resident individuals and estates of a deceased person are required to review the tax information contained in their pre-completed annual tax return and, if necessary, correct or complete the information in the tax return.

Transfer Taxation and Value Added Taxation

Redemption by way of a cash settlement or a transfer of the Securities is not subject to Finnish transfer taxation or VAT. Investors should note that Finnish transfer tax considerations may arise in connection with securities that are settled or redeemed by way of a physical delivery of Finnish shares or other instruments deemed as securities or real estate under the Finnish Transfer Tax Act (*Fi. Varainsiirtoverolaki (931/1996)*), as amended and that Finnish VAT considerations may arise in connection with securities that are settled or redeemed by way of a physical delivery of commodities.

FRENCH TAXATION

The following is limited to a general description of certain French withholding tax considerations relating to the Securities. It does not purport to be a description of general French tax considerations relating to the Securities. Prospective investors are advised to consult their own professional advisers to obtain information about the tax consequences of transactions involving the Securities, including any purchase or disposal of, or other dealings in, the Securities. Only personal advisers are in a position to adequately take into account special tax aspects of the particular Securities in question as well as the investor's personal circumstances and any special tax treatment applicable to the investor. This summary is based on French law as in force when drawing up this Base Prospectus. The laws and their interpretation by the tax authorities may change and such changes may have retroactive effect.

Withholding tax

Payments of interest and principal by the Issuer (acting out of its head offices or one of its non-French branch) under the Securities will not be subject to withholding tax in France, in accordance with the applicable French law.

Individual resident Securityholders***Taxation of interest and bond redemption premium ("Prime de remboursement")***

Interest paid to an individual having its tax residence in France is subject to personal income tax at a flat tax rate of 12.8 per cent. or, upon global election of the taxpayer for all its savings income and capital gains, at the standard progressive rate, whose maximum applicable rate is currently 45 per cent..

Interest and other similar revenues received by French tax resident individuals are subject to a 12.8 per cent. non-definitive prepayment, which can be offset from their personal income tax liability in respect of the year in which the payment has been made (prepayment is refunded if in excess of the final personal income tax liability).

Taxpayers whose "reference income" of the penultimate year is less than EUR 25,000 (or EUR 50,000 for a couple taxed on a joint basis) may be exempt from this mandatory payment.

Social contributions (CSG of 9.2 per cent., the CRDS of 0.5 per cent., and the *prélèvement de solidarité* of 7.5 per cent.) are also levied by way of withholding tax at an aggregate rate of 17.2 per cent. (6.8 per cent. being deductible from the taxable income of the year of payment of these contributions where the taxpayer has elected to have its savings income and capital gains being subject to taxation at the standard progressive rate) on interest and other similar revenues paid to French tax resident individuals.

The social contributions and the income tax prepayment must be withheld and reported by the Paying Agent if such agent is established in France. If the Paying Agent is established outside of France, the taxpayer is responsible for paying the social contributions and the income tax prepayment directly to the French tax authorities no later than the 15th day of the month following the payment of interest and other similar revenues. If the Paying Agent is established in an EU or EEA member state, it can however be appointed by the taxpayer to do so.

Bond redemption premiums are treated as interest from a French tax perspective.

Taxation of capital gains

Capital gains derived from the disposal of Securities by French tax resident Securityholders should be subject to personal income tax at flat tax rate of 12.8 per cent. or, upon global election of the taxpayer for all its savings income and capital gains, at the standard progressive rate, whose maximum applicable rate is currently 45 per cent..

In addition, social contributions (as set out above) should be applicable, at a total rate of 17.2 per cent..

If the French tax resident Securityholder dispose of the Securities at a loss, such loss may be offset against capital gains of the same nature made during the year of the loss or the 10 following years, subject to filing obligations.

Exceptional contribution on high income (Contribution exceptionnelle sur les hauts revenus)

An exceptional contribution on high income may be applicable to French tax resident Securityholders where their "reference income" exceeds EUR 250,000 for a single person or EUR 500,000 for a couple taxed on a joint basis. The "reference income" for the relevant fiscal year would include income and gains realised in relation to the Securities.

This contribution is equal to 3 per cent. of the fraction of the "reference income" between EUR 250,000 and EUR 500,000 for a single person (or between EUR 500,000 and EUR 1 million for a couple) and 4 per cent. on the "reference income" over EUR 500,000 for a single person (or EUR 1 million for a couple).

Gift and inheritance taxes

Subject to the provisions of any applicable bilateral tax treaty, French gift or inheritance taxes would be levied on the transfer of the Securities by way of gift by, or on the death of, a French tax resident Securityholder, if:

- the Securityholder is a resident in France; or
- the beneficiary is resident in France at the time of the transfer and has been so resident for at least six years over the 10 preceding years; or
- if both the Securityholder and the beneficiary are non-French residents, the transferred assets are located in France.

Assets considered as located in France would include receivables over a debtor which is established in France.

The amount of tax depends, in particular, on the relationships between the individuals concerned.

Corporate resident Securityholders

Corporate income tax and additional contributions

Income or capital gains in relation to the Securities are subject to corporate income tax at the standard rate of 25 per cent. for fiscal years beginning as from 1 January 2022 (or to a reduced rate applicable to small and medium companies meeting certain requirements).

Moreover, large companies whose corporate income tax liability exceeds €763,000, are subject to a social surcharge of 3.3 per cent. levied on the part of the corporate tax which exceeds €763,000. Thus, the resulting effective rate on that part is 25.83 per cent.. Losses are generally treated as ordinary losses which may be set off against operational profits. The remaining losses may be carried forward indefinitely but limited, for a given year, to EUR 1 million plus 50 per cent. of the taxable profit exceeding this amount. Besides, an option can be made by the Securityholder in order to carry back the losses against its prior taxable result but limited to the lowest amount between the taxable profit of the previous year and EUR 1 million.

Interest payments taxed on an accruals basis

Any redemption premium would be taxed at the above-mentioned standard corporate income tax rate (or to a reduced rate applicable to small and medium companies meeting certain requirements). However, if the estimated value of the redemption premium exceeds the purchase value of the Securities by 10 per cent. and the average issue price of the Securities is less than 90 per cent. of the estimated redemption value, such premium is spread taxed until the maturity on an annual basis.

Capital gains derived from the disposal of the Securities by corporate resident Securityholders should be reduced by the amount of the fraction of interest and redemption premiums taxed under the actuarial method.

Non-resident Securityholders

Income and capital gains derived from the Securities, received by individuals who are not residents for tax purposes in France or corporate investors who have neither their corporate seat nor their effective place of management in France, are not taxable in France unless the Securities form part of the business property of a permanent establishment in France.

Financial Transaction Tax ("FTT")

Please note that the following may be relevant in connection with Securities which are settled, redeemed or otherwise repaid by way of physical delivery of certain French listed shares, or certain assimilated securities as convertible bonds.

Pursuant to article 235 ter ZD of the French tax code ("FTC"), the FTT applies to any acquisition for consideration, resulting in a transfer of ownership, of an equity security within the meaning of Article L.212-1 A of the French monetary code, or of an assimilated equity security (such as convertible bonds in equity, convertible bonds redeemable in equity, shares subscription, etc.), within the meaning of Article L.211-41 of the French monetary code, admitted to trading on a recognised regulated French or foreign

stock exchange when the said security is issued by a company whose registered office is situated in France and whose market capitalisation exceeds €1 billion on 1st December of the year preceding the year in which the acquisition occurs.

The rate of the FTT is 0.3 per cent. of the acquisition value of the securities.

There are a number of exemptions from the FTT and investors shall revert to their counsel to identify whether they can benefit from them.

Transfer Tax

No transfer tax (stamp duties, or any similar taxes) is applicable in France by reason of the subscription or transfer of the Securities.

With respect to listed shares, the French tax administrative doctrine has specified that the conversion of bonds into existing shares shall be subject to the 0.1 per cent. transfer tax under the conditions provided by Article 726 of the FTC, when evidenced by a deed (BOI-ENR-DMTOM-40-10-10 dated 12 September 2012, n°50).

According to Article 726 of the FTC, transfer tax generally applies at a rate of 0.1 per cent. to the sale of shares issued by a company whose registered office is located in France, provided that in case of shares listed on a recognised stock exchange, transfer tax is due only if the transfer is evidenced by a written deed or agreement, subject to certain exceptions and exemptions.

Please note that, if the FTT applies to an acquisition of shares or convertible bonds, this transaction is exempt from transfer tax.

GREEK TAXATION

The following summary describes the principal Greek tax consequences in relation to the subscription, holding, redemption and disposal of the Securities by tax residents in the Hellenic Republic ("Greece") or investors otherwise subject to Greek taxation (due to a permanent establishment in Greece through which the Securities are held) (for the purposes of this summary). The discussion is not exhaustive and does not purport to deal with all the tax consequences applicable to all possible categories of Securityholders, some of which may be subject to special rules, and also does not touch upon procedural requirements such as the filing of proof of residence of a tax declaration or of supporting documentation required. Further, it is not intended as tax advice to any particular investor nor does it purport to be a comprehensive description of all Greek taxation considerations thereof.

This summary is based on the tax legislation, published case law, guidance Securities and other regulatory acts of the respective Greek authorities as in force at the date of this Base Prospectus and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect. There are also certain tax issues which have not been clarified, up to this time, by the tax administration.

Individuals are assumed not to be acting in the course of business for tax purposes. "Greek tax residents" includes, as regards legal persons and legal entities, the permanent establishment in Greece of a foreign legal person or legal entity, where the Securities are held through that permanent establishment.

Tax considerations are subject to the more favourable provisions of any applicable bilateral treaty for the avoidance of double taxation.

Prospective purchasers of the Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposal of the Securities.

For the purposes of this section, it is assumed that none of Morgan Stanley, MORGAN STANLEY & CO. INTERNATIONAL PLC, MORGAN STANLEY B.V. and MORGAN STANLEY FINANCE LLC is a resident of Greece for Greek taxation purposes.

Furthermore, it is Securityd that the Greek tax legislation does not explicitly provide for specific rules for the tax treatment of combined instruments in terms of Securities, the performance of which is linked to the performance of an underlying, financial index or basket of assets. Therefore, the discussion below is limited to the payment of interest under the Securities and their corresponding treatment as debt securities.

Interest payments

(a) Individual Holders of Securities

Payments of interest under the Securities to individual holders of the Securities are subject to income tax at a flat rate of 15 per cent. If payment of interest is made through a Greek paying or other similar agent, a withholding tax of 15 per cent. shall apply. Such withholding tax exhausts the income tax liability of the respective individual recipients of such interest income.

(b) Securityholders that are Legal Persons and Legal Entities

Payments of interest under the Securities by the relevant Issuer to legal persons and legal entities that are Greek tax residents will be treated as part of their annual income. Income of legal persons and legal entities is taxed at a flat rate, which is currently 22 per cent, (with the exception of credit institutions participating in the scheme allowing for the conversion of deferred tax assets into final claims against the State under certain circumstances, which are taxed at 29 per cent). If payment is made through a Greek paying or other similar agent, a withholding of 15 per cent. applies, which will be treated as an advance payment over income tax owed for that financial year.

Capital gains realised from the disposal of the Securities

(a) *Individual Holders of Securities*

Capital gains realised from the disposal of the Securities are subject to income tax at a rate of 15 per cent. Capital gains will equal the difference between the acquisition and the transfer price of a Security, plus/minus expenses directly related to the acquisition/transfer price of the Security. Capital gains may be set off, under certain circumstances, against capital losses from securities that have been incurred in the last 5 years.

Notwithstanding the above, capital gains over bonds issued by EU, EEA and EFTA issuers are exempted from income tax over capital gains, as is the case with Greek corporate bonds. "Bonds" should be interpreted narrowly for the purposes of this exemption to include debt instruments representing a claim to receive back the entirety of an amount lent, which may be convertible to shares, may be exchangeable with other securities, may provide a right to interest and/or may provide a right to profits.

In this context, the tax authority has expressed the view that the difference between the acquisition value on the secondary market and the payment of principal received upon expiry of a corporate bond does not constitute capital gains. In this case "bonds" should again be interpreted narrowly, as above.

In the case of zero-coupon bonds, the discount over the par value at which an interest-bearing bond is sold in the primary market would be treated as income from interest. The interest payment in zero coupon bonds is deemed to be made upon maturity.

It would be reasonable to assume that payments under the Securities by a guarantor will be classified for tax purposes in the same manner as if the payment were being made by the relevant Issuer, although this point has not been addressed specifically in a general manner.

(b) *Holders of the Securities that are Legal Persons and Legal Entities*

As a rule, all income of legal persons and legal entities is classified as income from business activities and taxed at a rate of 22 per cent.

Notwithstanding the above, as regards capital gains over bonds issued by EU, EEA and EFTA issuers taxation is deferred until capitalisation or distribution, as is the case with Greek corporate bonds. Upon capitalisation or distribution, capital gains will be taxed at the then applicable income tax rate. "Bonds" should be interpreted narrowly for the purposes of this exemption to include debt instruments representing a claim to receive back the entirety of an amount lent, which may be convertible to shares, may be exchangeable with other securities, may provide a right to interest and/or may provide a right to profits.

In the case of zero-coupon bonds, the discount over the par value at which an interest-bearing bond is sold in the primary market would be treated as income from interest. The interest payment in zero coupon bonds is deemed to be made upon maturity.

Tax credit

Tax credit is in principle available in Greece for income tax paid relating to the Securities abroad, upon filing of the appropriate documentation.

Gift Tax

Greek gift taxes would be levied on the transfer of the Securities by way of gift:

- a. by a Securityholder who is a citizen of Greece, unless a) that person resides abroad for at least 10 consecutive years or did so in the past and has been residing in Greece for no more than 5 years, provided that the Securities had not been acquired in Greece in the last 12 years, or b) that person resides abroad for at least 20 consecutive years, *or*
- b. by a Securityholder who is a non-Greek national to a person resident in Greece, *or*
- c. where the Securities are located in Greece.

The amount of tax depends, in particular, on the relationships between the persons concerned and is calculated on a progressive tax scale of 0-40%. Exceptionally, non-profit legal entities, which have been legally incorporated in Greece or in another member state of the European Union or of the European Economic Area, as well as corresponding foreign entities under the condition of reciprocity, which pursue national or religious or charitable or educational or cultural or generally beneficial purposes, are taxed at a rate of 0.5%.

Inheritance Tax

Greek inheritance taxes would be levied on the transfer of the Securities on the death of:

- a. a Securityholder who is a citizen of Greece, unless he/she had been residing out of Greece for at least ten (10) consecutive years upon their time of death; *or*
- b. a Securityholder who is resident in Greece, *or*
- c. where the Securities are located in Greece.

The amount of tax depends, in particular, on the relationships between the persons concerned and is calculated on a progressive tax scale of 0-40%. Exceptionally, non-profit legal entities, which have been legally incorporated in Greece or in another member state of the European Union or of the European Economic Area, as well as corresponding foreign entities under the condition of reciprocity, which pursue national or religious or charitable or educational or cultural or generally beneficial purposes, are taxed at a rate of 0.5%.

GERMAN TAXATION

The following is a general discussion of certain German tax consequences of the acquisition, ownership and disposal of the Securities. As each Tranche of the Securities may be subject to a different tax treatment due to the specific terms of each Tranche, the following section shall only be regarded as generic description with regard to the possible tax treatment in Germany. It does not purport to be a comprehensive description of all tax considerations that may be relevant to a decision to purchase the Securities, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This general description is based on the laws of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

Prospective purchasers of Securities are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of Securities, including the effect of any state or local taxes, under the tax laws of Germany and each country of which they are residents.

German tax residents

Persons (individuals and corporate entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to income taxation (income tax or corporate income tax, as the case may be, plus solidarity surcharge (*Solidaritätszuschlag*) thereon plus church tax (*Kirchensteuer*) and/or trade tax, if applicable) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Securities) and, in general, capital gains.

Securities held as private assets

In the case of German tax-resident individual investors (*unbeschränkt Steuerpflichtige*) holding the Securities as private assets (*Privatvermögen*), the following applies:

Income

The Securities should qualify as other capital receivables (*sonstige Kapitalforderungen*) in terms of section 20 para 1 no 7 German Income Tax Act ("*ITA*" – *Einkommensteuergesetz*).

Interest paid regarding the Securities, if any, should qualify as taxable savings income (*Einkünfte aus Kapitalvermögen*) pursuant to section 20 para 1 no 7 ITA.

Capital gains/capital losses realised upon disposal of the Securities, computed as the difference between acquisition cost and sales proceeds reduced by expenses directly and factually related to the sale, should qualify as positive or negative savings income in terms of section 20 para 2 sentence 1 no 7 ITA. Where the Securities are acquired and/or sold in a currency other than Euro, the acquisition cost will be converted into Euro at the time of acquisition, the sales proceeds will be converted into Euro at the time of sale and the difference will then be computed in Euro. If the Securities are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale.

Capital losses from the sale or redemption of the Securities held as private assets should generally be tax-recognised irrespective of the holding period of the Securities. Any tax-recognised capital losses may not be used to offset other income like employment or business income but may only be offset against investment income subject to certain limitations. Capital losses not utilised in one annual assessment period may be carried forward into subsequent assessment periods but may not be carried back into preceding assessment periods. The offsetting of losses incurred by an individual investor, if the Securities are held as private assets, is however subject to several restrictions.

Capital losses of individual investors resulting from a bad debt loss (*Forderungsausfall*), a waiver of a receivable (*Forderungsverzicht*), if the Securities expire worthless or from a transfer of worthless Securities can only be set-off against investment income up to an amount of EUR 20,000 per annum. Losses exceeding that threshold can be carried forward and set-off against income derived from capital investments up to an amount of EUR 20,000 per year in subsequent years, subject to certain requirements. Based on a tax decree issued by the German Federal Ministry of Finance, losses which fall within the scope of the loss offset limitation will in principle not be recognised for withholding tax purposes but need to be claimed by tax assessment (see below).

Provided that Securities qualify as contracts for differences (*Termingeschäfte*), disposal proceeds and other benefits from such Securities qualify as (negative) savings income pursuant to section 20 para 2 sentence 1 no 3 ITA. In such a case, capital losses of private investors can be set-off against investment income from

other contracts for differences (*Termingeschäfte*) within the meaning of section 20 para 2 sentence 1 no 3 ITA and income from option premiums (*Stillhalterprämien*) within the meaning of section 20 para 1 sentence 1 no 11 ITA up to an amount of EUR 20,000 p.a. Losses exceeding this threshold can be carried forward, subject to certain requirements. Based on a tax decree issued by the German Federal Ministry of Finance losses which fall within the scope of the loss offset limitation pursuant to section 20 para 6 sentence 5 ITA will in principle not be recognised for withholding tax purposes but need to be claimed by way of tax assessment.

If the Securities provide for a physical delivery of bonds, shares, interests in funds, shares in exchange-traded-funds ("**ETF-shares**") or other interests, the Securities may qualify as convertible, exchangeable or similar instruments, subject to the relevant Issue Terms (e. g. whether the Issuers or the investor has the right to opt for a physical delivery). In such a case, the sales proceeds from the Securities and the acquisition costs of the received securities may be deemed to be equal to the initial acquisition costs of the Securities (section 20 para 4a sentence 3 ITA) so that no taxable capital gains would be realised due to the conversion. However, capital gains realised upon an on-sale of the received securities generally qualify as taxable income.

If the relevant Issuer exercises the right to substitute the debtor of the Securities, the substitution might, for German tax purposes, be treated as an exchange of the Securities for new securities issued by the new debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors.

German withholding tax (*Kapitalertragsteuer*)

With regard to savings earnings (*Kapitalerträge*), e.g. interest or capital gains, German income tax is generally levied as a flat income tax (*Abgeltungsteuer*) at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375% plus, if applicable, church tax (*Kirchensteuer*)).

If the Securities are held in a custodial account which the investor maintains with a German credit or financial services institution (*inländisches Kredit oder Finanzdienstleistungsinstitut*) or by a German branch of a foreign credit or financial services institution, or by a German securities institution (*Wertpapierinstitut*) (a "**German Disbursing Agent**") the flat income tax (including solidarity surcharge and, if applicable, church tax) will be levied by way of withholding at the aforementioned rate by the German Disbursing Agent. If no German Disbursing Agent is involved in the payment process or if no or not sufficient withholding tax is withheld by a German Disbursing Agent the investor will have to include the savings earnings, e.g. interest or capital gains, in its tax return and the flat income tax of 25% plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

The tax base is, in principle, equal to the taxable gross income as set out above (i.e. prior to withholding). However, in the case of capital gains, if the custodial account has changed since the time of acquisition of the Securities (e.g. if the Securities are transferred from an EU custodial account) and the acquisition costs of the Securities are not proven to the German Disbursing Agent in the form required by law or in the case of over-the-counter transactions, withholding tax is applied to 30% of the proceeds from the redemption or sale of the Securities. The applicable withholding tax rate is in excess of the aforementioned rate if church tax is applicable to the individual investor. In this case the collection of church tax on capital gains from the sale or redemption of the Securities is provided for as a standard procedure unless the securityholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

No German withholding tax will be levied if the investor has filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the savings income does not exceed the saver's lump sum amount (*Sparer-Pauschbetrag*) shown on the withholding tax exemption certificate. Currently, the saver's lump sum amount is EUR 1,000 (EUR 2,000 in the case of jointly assessed individual investors). Similarly, no withholding tax will be levied if the relevant investor has submitted a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office to the German Disbursing Agent.

The Issuers are, in general, not obliged to levy German withholding tax in respect of payments on the Securities.

The solidarity surcharge will only be levied for wage tax and income tax purposes, if the individual income tax of the holder exceeds the threshold of EUR 17,543 (EUR 35,086 for jointly assessed investors) in the

assessment period 2023 and EUR 18,130 (EUR 36,260 for jointly assessed investors) as of the assessment period 2024. The solidarity surcharge will however continue to be applicable for withholding tax, flat tax and corporate income tax purposes. In the case of a flat tax the income tax burden for an individual is lower than the flat tax of 25% and the holder applies for his/her capital investment income being assessed at his/her individual tariff-based income tax rate (see below) the solidarity surcharge would be refunded.

Tax assessment

The taxation of savings income shall take place mainly by way of levying withholding tax (please see above). If and to the extent German withholding tax has been levied, such withholding tax shall, in principle, become definitive and replace the investor's income taxation. If no or insufficient withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the investor is nevertheless obliged to file a tax return, and the savings income will then be taxed within the assessment procedure.

However, also in the assessment procedure, savings income is principally taxed at a separate tax rate for savings income (*gesonderter Steuertarif für Einkünfte aus Kapitalvermögen*) being identical to the withholding tax rate (26.375% - including solidarity surcharge plus, if applicable, church tax). In certain cases, the investor may apply to be assessed on the basis of its personal tax rate if such rate is lower than the above tax rate. Such application can only be filed consistently for all savings income within the assessment period. In case of jointly assessed individual investors the application can only be filed for savings income of both investors.

When computing the savings income, the saver's lump sum amount (*Sparer-Pauschbetrag*) of EUR 1,000 (EUR 2,000 in the case of jointly assessed individual investors) will be deducted. The deduction of the actual income related expenses, if any, is excluded.

Securities held as business assets

In the case of German tax-resident corporations or individual investors (*unbeschränkt Steuerpflichtige*) holding the Securities as business assets (*Betriebsvermögen*), interest payments and capital gains will be subject to corporate income tax at a rate of 15% or income tax at a rate of up to 45%, as the case may be, (in each case plus 5.5% solidarity surcharge thereon). In addition, trade tax may be levied, the rate of which depends on the municipality where the business is located (rates basically vary between 7 and approx. 18%). Further, in the case of individuals, church tax may be levied. Business expenses that are connected with the Securities are tax-deductible. Losses realised on the sale or redemption of the Securities may be offset in particular against items of positive income under the general tax rules or deducted as part of losses carried back or forward, although the minimum taxation rules (section 10d ITA) must be observed. Losses may be subject to ring-fencing rules and, if so, may only be offset against other derivative income. In case the income of the investor is determined based on accrual accounting, interest and capital gains may be taxable before actual payments are received.

If instead of a cash-settlement at maturity of the Securities, a physical delivery of bonds, shares, interests in funds or ETF-shares takes place, such delivery would be regarded as a taxable sale of the Securities and the corresponding capital gain will be taxable.

The provisions regarding German withholding tax apply, in principle, as set out above for private investors. However, investors holding the Securities as business assets cannot file a withholding tax exemption certificate with the German Disbursing Agent. Instead, no withholding tax will be levied on capital gains from the redemption, sale or assignment of the Securities if, for example, (a) the Securities are held by a company satisfying the requirements of section 43 para 2 sentence 3 no 1 ITA or (b) the proceeds from the Securities qualify as income of a domestic business and the investor notifies this to the German Disbursing Agent by use of the officially required form.

Any withholding tax levied is credited as prepayment against the German (corporate) income tax amount. If the tax withheld exceeds the respective (corporate) income tax amount, the difference will be refunded within the tax assessment procedure.

Non-residents

Persons who are not tax resident in Germany are not subject to tax with regard to income from the Securities unless (i) the Securities are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the investor or (ii) the income from the Securities qualifies for other reasons as taxable German source income (such as income from letting and leasing of certain property located in Germany) or (iii) the income is paid by a German

Disbursing Agent against presentation of the Securities or interest coupons (so-called over-the-counter transaction, *Tafelgeschäfte*). If a non-resident person is subject to tax with its income from the Securities, in principle, similar rules apply as set out above with regard to German tax resident persons (please see above).

Under certain circumstances, non-residents may benefit from tax reductions or tax exemptions under applicable double tax treaties (*Doppelbesteuerungsabkommen*) entered into with Germany.

Taxation if the Securities qualify as equity or equity-like

If the Securities qualify as equity or equity-like from a German tax perspective, in addition to the rules set out above, income and deemed income may be subject to (corporate) income taxation (including solidarity surcharge) and trade tax. Further, under certain circumstances the German Foreign Tax Act (*Außensteuergesetz*) might apply, under which deemed (taxable) income could be allocated to German tax resident investors.

Further, capital gains achieved by an investor holding the Securities as private assets might be re-qualified as business income and, thus, taxable at the investor's personal income tax rate. Capital gains might also be partly tax-exempt according to section 8b German Corporate Income Tax Act (*Körperschaftsteuergesetz*) and section 3 no 40 ITA respectively.

Particularities of Securities with a negative yield

Securityholders will only realise a taxable capital gain if they receive, upon a disposal of the Securities, an amount (after the deduction of actual expenses directly related thereto) in excess of the issue price (or the purchase price they paid for the Securities).

Contrary thereto, Holders who subscribe the Securities at a negative yield upon issue, if applicable, and hold the Securities until their final maturity will realise a loss. The tax treatment of such losses is not entirely clear:

- (a) If the Securities are held by tax residents as private assets, statements of the German tax authorities regarding "*negative interest*" incurred on bank deposits made by private investors arguably imply that such losses cannot be fully deducted. Such losses are rather treated as expenses in connection with capital investment income and, are, consequently not tax-deductible except for an annual lump-sum deduction (*Sparer-Pauschbetrag*) of EUR 1,000 (EUR 2,000 for individuals filing jointly),
- (b) If the Securities are held by tax residents as business assets, statements of the German tax authorities regarding "*negative interest*" incurred on bank deposits made by business investors arguably imply that such losses are generally tax deductible.

Inheritance and Gift Tax

Inheritance or gift taxes with respect to any Security will, in principle, arise under German law if, in the case of inheritance tax, either the decedent or the beneficiary or, in the case of gift tax, either the donor or the donee is a resident of Germany or if such Security is attributable to a German trade or business for which a permanent establishment is maintained or a permanent representative has been appointed. In addition, certain German expatriates will be subject to inheritance and gift tax.

The few existing double taxation treaties regarding inheritance and gift tax may lead to different results. Special rules apply to certain German citizens that are residing in a foreign country and German expatriates.

Other Taxes

No stamp, issue, registration or similar taxes or duties are payable in Germany in connection with the issuance, delivery or execution of the Securities. Currently, net asset tax (*Vermögensteuer*) is not levied in Germany. In principle it is intended to introduce a financial transaction tax. However, it is unclear if and in what form such tax will be actually introduced.

No gross-up for German withholding tax

Purchasers of the Securities should note that in accordance with the terms and conditions of the Securities the Issuer, in principle, will neither assume any liability for German withholding taxes withheld from payments under the Securities, nor make any additional payments in regard of these taxes, i.e. no gross-up will apply in case a withholding tax is imposed.

IRISH TAXATION

The following is a summary based on the laws and practices currently in force in Ireland of certain matters regarding the tax position of investors who are the absolute beneficial owners of the Program Securities. Particular rules not discussed below may apply to certain classes of taxpayers holding Program Securities, including dealers in securities and trusts. It is based on the laws and practice of the Revenue Commissioners currently in force in Ireland as at the date hereof and may be subject to change. The summary does not constitute tax or legal advice and the comments below are of a general nature only and it does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Program Securities. Prospective investors in the Program Securities should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Program Securities and the receipt of payments thereon under the laws of their country of residence, citizenship or domicile.

Taxation of holders of Program Securities

Withholding Tax

Tax at the standard rate of income tax (currently 20 per cent.) is required to be withheld from payments of Irish source interest. The relevant Issuer will not be obliged to withhold Irish income tax from payments of interest on the Program Securities so long as such payments do not constitute Irish source income. Interest paid on the Program Securities should not be treated as having an Irish source unless:

- (a) the relevant Issuer is resident in Ireland for tax purposes; or
- (b) the relevant Issuer has a branch or permanent establishment in Ireland, the assets or income of which is used to fund the payments on the Program Securities; or
- (c) the relevant Issuer is not resident in Ireland for tax purposes but the register for the Program Securities is maintained in Ireland or (if the Program Securities are in bearer form) the Program Securities are physically held in Ireland.

It is anticipated that (i) the Issuers are not and will not be resident in Ireland for tax purposes; (ii) the Issuers will not have a branch or permanent establishment in Ireland; (iii) bearer Program Securities will not be physically located in Ireland; and (iv) the Issuers will not maintain a register of any registered Program Securities in Ireland.

If payments of interest on the Program Securities are found to constitute Irish source interest, an Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on an Program Securities so long as the interest paid on the relevant Program Security falls within the following category and meets the relevant conditions:

Interest paid on a quoted Eurobond

A quoted Eurobond is a security which is issued by a company (such as the Issuers), is listed on a recognised stock exchange (such as the Luxembourg Stock Exchange) and carries a right to interest. Provided that the Program Securities (i) carry an amount in respect of interest and (ii) are listed on the Luxembourg Stock Exchange (or any other recognised stock exchange), interest paid on them can be paid free of withholding tax provided the person by or through whom the payment is made is not in Ireland, or if such person is in Ireland, either:

- (a) the Program Security is held in a clearing system recognised by the Irish Revenue Commissioners; (DTC, Euroclear and Clearstream, Luxembourg are, amongst others, so recognised); or
- (b) the person who is the beneficial owner of the Program Security and who is beneficially entitled to the interest payable in respect of a Program Security is not resident in Ireland and has made a declaration to a relevant person (such as a paying agent located in Ireland) in the prescribed form.

Thus, if interest payable on the Program Securities is found to have an Irish source, so long as the Program Securities are interest bearing, continue to be quoted on the Luxembourg Stock Exchange (or any other recognised stock exchange) and are held in a recognised clearing system, interest on the Program Securities can be paid by any paying agent acting on behalf of an Issuer without any withholding or deduction for or on account of Irish income tax. If the Program Securities continue to be quoted but cease to be held in a recognised clearing system, interest on the Program Securities may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a paying agent outside Ireland.

Encashment Tax

Irish tax will be required to be withheld at the rate of 25 per cent. on any interest, dividends or annual payments payable out of or in respect of the stocks, funds, shares or securities of a company not resident in Ireland, where such interest, dividends or annual payments are collected or realised by a bank or encashment agent in Ireland.

Encashment tax will not apply where the beneficial owner of a payment on the Program Securities (i) is not resident in Ireland and has made a declaration in the prescribed form to the encashment agent or bank or (ii) is a company which is within the charge to Irish corporation tax in respect of the payment.

Tax on Capital Gains

A holder of Program Securities will not be subject to Irish tax on capital gains realised on a disposal of Program Securities unless (i) such holder is either resident or ordinarily resident in Ireland; or (ii) such holder carries on a business or a trade in Ireland through a branch or agency in respect of which the Program Securities were used or held or acquired; or (iii) the Program Securities cease to be listed on a stock exchange in circumstances where such Program Securities derive their value or more than 50% of their value from Irish real estate, mineral rights or exploration rights.

Stamp Duty On Transfer Of Securities

As the Issuers are not registered in Ireland, stamp duty will not arise on a document effecting a transfer of the Program Securities so long as the instrument of transfer of the Program Securities does not relate to:

- (a) any immoveable property situated in Ireland or any right over or interest in such property; or
- (b) any stocks or marketable of a company which is registered in Ireland (other than a company which is (i) an investment undertaking within the meaning of section 739B of the Taxes Consolidation Act, 1997 ("TCA"); or (ii) a qualifying company within the meaning of section 110 of the TCA).

ITALIAN TAXATION

The following is a general description of current Italian law and practise mainly relating to the direct taxation of the Securities. The statements herein are based on the laws in force in Italy as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following general description does not purport to be a comprehensive description of all the Italian tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities) may be subject to special rules.

Prospective investors are advised to consult their own tax advisers concerning the overall tax consequences of their interest in the Securities.

Tax treatment of the Securities

The Securities may be subject to different tax regimes depending on whether:

- (a) they represent derivative financial instruments or bundles of derivative financial instruments, not entailing a "use of capital" (*impiego di capitale*), through which the Securityholders purchase indirectly underlying financial instruments (please see section 1 below); or
- (b) they represent a debt instrument implying a "use of capital" (*impiego di capitale*), through which the Securityholders transfer to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the right to obtain a (partial or entire) reimbursement of such amount at maturity. In specific, such Securities representing debt instruments implying a "use of capital" could be divided in: Securities having 100 per cent. capital protection guaranteed by the Issuer (please see section 2 below) and Securities not having 100 per cent. capital protection guaranteed by the Issuer (please see section 3 below).

1. Securities representing derivative financial instruments or bundles of derivative financial instruments

With regard to certain innovative or structured financial instruments, there is limited guidance as to the tax treatment of such financial instruments. Accordingly, it cannot be excluded that the Italian tax authorities will change their current view, as specified below, and courts will adopt a view different from that outlined below.

This description assumes that the Issuer is not a tax resident nor deemed to be a tax resident of Italy and that it has no permanent establishment within the Italian territory.

1.1 Italian resident Securityholders

Taxation of income from derivatives

Provided that the Securities qualify as derivative instruments for the purposes of Italian tax law, the following consequences apply to an Italian resident Securityholder pursuant to Article 67(1)(c-quater) and or (c-quinquies) of Italian Presidential Decree No. 917 of 22 December 1986, as subsequently amended ("**Decree No. 917**"), and according to the Italian tax authorities' Resolution no. 72/E of 12 July 2010.

According to Italian Legislative Decree No. 461 of 21 November 1997 ("**Decree No. 461**"), where an Italian resident Securityholder is (i) an individual not engaged in an entrepreneurial activity to which the Securities are connected; (ii) a non-commercial partnership; (iii) a non-commercial private or public institution; or (iv) an investor exempt from Italian corporate income taxation, derivative income realised on the sale or redemption of the Securities are subject to a 26 per cent. substitute tax ("**imposta sostitutiva**").

In this respect, the above Italian resident Securityholders may opt for three different taxation regimes (*regime della dichiarazione, regime del risparmio amministrato, regime del risparmio gestito*, in this respect please see par. 2.2 "*Italian resident Securityholders – Taxation of Capital Gains*" below). This option may result in certain impacts that the investors should consider with their tax advisers. In particular, provided that the relevant conditions are met, the depository is responsible for accounting for imposta sostitutiva and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under certain conditions, capital losses may be deducted from the above-mentioned capital gains.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals holding the Securities not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the imposta sostitutiva, on capital gains relating to the Securities, if the Securities are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of Law No. 232 of 11 December 2016, as subsequently amended and supplemented (the "**Finance Act 2017**"), in Article 1 (210-215) of Law No. 145 of 30 December 2018, as subsequently amended and supplemented (the "**Finance Act 2019**"), in Article 13-bis of Law Decree No. 124 of 26 October 2019, converted into Law No. 157 of 19 December 2019, as subsequently amended and supplemented (the "**Fiscal Decree linked to the Finance Act 2020**"), Article 136 of Law Decree No. 34 of 19 May 2020, converted into Law No. 77 of 17 July 2020, as subsequently amended and supplemented (the "**Decree No. 34**"), Article 1 (219-225) of Law No. 178 of 30 December 2020, as subsequently amended and supplemented (the "**Finance Act 2021**"), and Article 1 (26-27) Law No. 234 of 2021, as subsequently amended and supplemented (the "**Finance Act 2022**").

Where an Italian resident Securityholder is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Securities are effectively connected, capital gains arising from the Securities will not be subject to imposta sostitutiva, but must be included in the relevant Securityholder's income tax return and are therefore subject to Italian corporate income tax ("**IRES**", currently applicable at a rate of 24 per cent. with a 3,5 per cent. surcharge for banks and financial intermediaries) and, in certain cases, depending on the status of such Securityholder, may also have to be included in its taxable base for regional tax purposes ("**IRAP**", currently applicable at the general rate of 3.9 per cent., though a surcharge up to 0.92% may be applicable from region to region). The IRAP rate may be increased in certain Italian regions; IRAP rate has also been increased by article 23(5) of Italian Law Decree no. 98 of 6 July 2011 to 4.65 per cent. for banks and other financial institutions and to 5.9 per cent. for the insurance companies as indicated, respectively, under article 6 and article 7 of Italian Legislative Decree no. 446 of 15 December 1997).

Capital gains realised by a Securityholder which is an open-ended or closed-ended investment fund (subject to the tax regime provided by Law No. 77 of 23 March 1983) (the "**Investment Fund**") or an open-ended investment company (*società di investimento a capitale variabile* – "**SICAV**") or an close-ended investment company, other than a real estate investment company (*società di investimento a capitale fisso* – "**SICAF**") will not be subject to the imposta sostitutiva. The proceeds distributed by the Investment Fund or the SICAV/SICAF or received by certain categories of unitholders upon redemption or disposal of the units will be taxed in the hands of the investors who subscribe the quotas of the Funds or the shares of the SICAV/SICAF on a cash basis.

Capital gains realised by an investor which is an Italian resident real estate investment fund established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 or an Italian real estate investment company (the "**Real Estate SICAF**") are subject neither to imposta sostitutiva nor to any other income in the hands of the same real estate investment fund or Real Estate SICAF. Such gains will be taxable or exempt according to the regime applicable to the real estate fund.

Capital gains realised by a Securityholder which is an Italian pension fund (subject to the regime provided by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the value of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. ad hoc substitute tax on the portfolio's annual net accrued value. Subject to certain conditions (including a minimum holding period requirement) and limitations, capital gains may be excluded from the taxable base of the 20 per cent. substitute tax if the Securities are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of the Finance Act 2017, in Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022.

2. Securities representing debt instruments implying a "use of capital"; Securities having 100 per cent. capital protection guaranteed by the Issuer

2.1 Italian resident Securityholders

Taxation of interest

Pursuant to Article 44, paragraph 2, letter (c) of Decree No. 917, Securities qualify as "bonds" or "debentures similar to bonds" for Italian tax purposes if they incorporate an unconditional obligation to pay,

at maturity, an amount not less than their nominal value and do not give any right to directly or indirectly participate in the management of the relevant issuer or of the business in relation to which they are issued. The Italian tax authorities have clarified (please see Circular Letter No. 4/E of 18 January 2006) that bonds may have a maturity which is not scheduled at a specific date, but it is linked to the maturity of the issuing company or to the liquidation thereof, if the company has been set-up with an undetermined maturity pursuant to Article 2328 (2), No. 13, of the Italian Civil Code.

Interest and other proceeds on the Securities (including the difference between the redemption amount and the issue price) ("Interest") received by Italian resident companies, commercial partnerships or individual entrepreneurs within the context of a business enterprise are included in the taxable base for the purposes of IRES or individual income tax (*imposta sul reddito delle persone fisiche*, "IRPEF", at progressive rates), as applicable and – under certain circumstances – of IRAP.

Interest on the Securities is subject to a 26 per cent. substitute tax (*imposta sostitutiva*) if the recipient is included among the following categories of Italian residents: individuals, non-commercial partnerships, non-commercial private or public institution or entities that are exempt from IRES. The *imposta sostitutiva* may not be recovered as a deduction from the income tax due. If the Securityholders are individuals or non-profit organisations engaged in an entrepreneurial activity and the Securities are connected to such entrepreneurial activity, the 26 per cent. *imposta sostitutiva* applies on a provisional basis and may be deducted from the payable income tax.

The 26 per cent. *imposta sostitutiva* does not apply where the Securities are held in a discretionary investment portfolio managed by an Italian authorised financial intermediary and the beneficial owner thereof, where possible, has opted to be taxed at a flat rate of 26 per cent. on the year-end increase in value of the investment portfolio accrued, even if not realised (which increase in value includes any Interest accrued on the Securities), pursuant to the so-called portfolio management tax regime ("*regime del risparmio gestito*") provided for by Decree No. 461.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals holding the Securities not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income tax, including the *imposta sostitutiva*, on interest, premium and other income relating to the Securities if the Securities are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of the Finance Act 2017, in Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022.

Should the Securities be deemed to qualify as units in foreign investment funds, distributions deriving from the Securities should be included in the taxable income of the Italian resident recipient, as income from capital, and are subject to a 26 per cent. withholding tax applied by Italian resident entities, if any, which intervene in the payment of the relevant proceeds as well as in the repurchase or negotiation of Securities.

2.2 Italian resident Securityholders – Taxation of Capital Gains

Any gain obtained from the sale or redemption of the Securities would be treated as part of the taxable income (and, in certain circumstances, depending on the status of the Securityholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Securities are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Securities are connected.

A 26 per cent., *imposta sostitutiva* is applicable on capital gains realised on the disposal of Securities by Securityholders included among the following categories of Italian residents: individuals holding the Securities not in connection with an entrepreneurial activity, non-commercial partnerships, non-profit organisations, the Italian State and public entities or entities that are exempt from IRES.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals holding the Securities not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the 26 per cent. *imposta sostitutiva*, on capital gains realised upon sale or redemption of the Securities if the Securities are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of Finance Act 2017, Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the

Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022. In respect of the application of such substitute tax, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Securities are connected, the imposta sostitutiva on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual holding the Securities not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Securities carried out during any given tax year. Italian resident individuals holding the Securities not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay imposta sostitutiva on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Securityholders holding the Securities not in connection with an entrepreneurial activity may elect to pay the imposta sostitutiva separately on capital gains realised on each sale or redemption of the Securities (*regime del risparmio amministrato*). Such separate taxation of capital gains is allowed subject to (i) the Securities being deposited with Italian banks, SIMs (*società di intermediazione mobiliare*) or certain authorised financial intermediaries; and (ii) an express election for the regime del risparmio amministrato being timely made in writing by the relevant Securityholder. The depository is responsible for accounting for imposta sostitutiva in respect of capital gains realised on each sale or redemption of the Securities (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under the regime del risparmio amministrato, where a sale or redemption of the Securities results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the regime del risparmio amministrato, the Securityholder is not required to declare the capital gains in the annual tax return.

Any capital gains realised by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, to an authorised intermediary and have opted for the so-called *regime del risparmio gestito* will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the regime del risparmio gestito, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years.

Capital gains accrued on the Securities held by Italian Investment Funds, SICAVs and SICAFs are included in the annual accrued increase of the net asset value of such Investment Funds, SICAVs and SICAFs. A withholding tax of 26 per cent. will be levied on proceeds distributed by the Investment Funds, SICAV or SICAF or received by certain categories of unitholders upon redemption or disposal of the units.

Any capital gains realised through the transfer for consideration or redemption of the Securities by Pension Funds are included in the calculation of the management result of the fund, accrued in each year, subject to a 20 per cent. substitute tax.

Subject to certain conditions (including minimum holding period requirement) and limitations, capital gains realised through the transfer for consideration or redemption of the Securities may be excluded from the taxable base of the Pension Funds if the Securities are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) pursuant to Article 1 (100-114) of the Finance Act 2017, Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022. Capital gains on the Securities held by Real Estate Funds or Real Estate SICAFs to which the provisions of Decree No. 351, as subsequently amended, apply will be subject neither to substitute tax nor to any other income tax at the level of the Real Estate Fund or the Real Estate SICAF. A withholding tax may apply in certain circumstances at the rate of up to 26 per cent. on distributions made by the Real Estate Funds or Real Estate SICAFs and, in certain cases, a tax transparency regime may apply in respect of certain categories of investors in the Real Estate Funds or Real Estate SICAFs owning more than 5 per cent. of the fund's units.

3. Securities not having 100 per cent. capital protection guaranteed by the Issuer (Atypical Securities)

3.1 Italian resident Securityholders - Taxation of interest

Interest payments relating to Securities that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) may be subject to a withholding tax (final or on account depending on the "status" and tax residence of the Securityholder), levied at the rate of 26 per cent. by the Italian tax resident financial intermediary intervening in the payment of the Interest.

If the Securities are issued by a non-Italian resident Issuer, the 26 per cent. withholding tax mentioned above does not apply to Interest payments made to an Italian resident Securityholder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities to which the Securities are effectively connected); (ii) a commercial partnership; or (iii) a commercial private or public institution. According to Italian tax law, in similar cases the withholding tax qualifies as a provisional withholding tax.

Subject to certain limitations and requirements (including a minimum holding period), Interest in respect of Securities received by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the withholding tax on interest, premium and other income relating to atypical securities, if those Securities are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) pursuant to Article 1 (100–114) of the Finance Act 2017, in Article 1 (210-215) of the Finance Act 2019, in Article 13-bis of the Fiscal Decree linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022.

3.2 Italian resident Securityholders - Capital gains

Please see paragraph 2.2 above.

4. Stamp duty

The Italian Law Decree No. 201 of 6 December 2011 ("**Decree No. 201**"), converted into law with amendments by Law No. 214 of 22 December 2011, has replaced the paragraphs 2-bis and 2-ter and related Securities (3-bis and 3-ter) of Article 13 of the first part of the Tariff annexed to stamp duty Law approved with Presidential Decree No. 642 of 26 October 1972.

Pursuant to Article 13 (2-ter) of the first part of the Tariff annexed to stamp duty Law approved with Presidential Decree No. 642 of 26 October 1972, statements sent to customers, by banks and financial intermediaries and related to certain financial products and instruments are subject to stamp duty at the rate of 0.20 per cent. The maximum amount due is set at euro 14,000 for Securityholders other than individuals.

The tax is applied to each statement, on the total market value, or in its absence, on the face or repayment value of securities and financial products. The statement is considered to be sent at least once a year, even for instruments for which is not mandatory nor the deposit nor the release or the drafting of the statement. In case of reporting periods of less than 12 months, the stamp duty is payable pro rata. Based on the wording of the law and the implementing decree issued by the Italian Ministry of Finance on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012 as amended and supplemented from time to time) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

5. Wealth tax on securities deposited abroad (IVAFE)

Pursuant to Article 19, paragraphs 18 to 23, of Decree No. 201, Italian resident individuals, non-profit entities and certain partnerships including *società semplici* or similar partnerships in accordance with Article 5 of Decree No. 917 holding the Securities outside the Italian territory without the involvement of an Italian financial intermediary are required to pay a wealth tax at a rate of 0.20 per cent (the level of tax being determined in proportion to the period of ownership).

The tax is calculated on the fair market value of the Securities at the end of the relevant year or, in the case the fair market value cannot be determined, on their nominal values or redemption values or, in the case the face or redemption values cannot be determined, on the purchase value of any financial asset (including banking bonds, *obbligazioni* and capital adequacy financial instruments) held abroad by Italian resident

individuals. A tax credit is granted for any foreign property tax levied abroad on such financial assets. The wealth tax cannot exceed €14,000 per year for taxpayers which are not individuals.

6. Inheritance and Gift Tax

Pursuant to Italian Law Decree No. 262 of 3 October 2006, as converted with amendments by Law No. 286 of 24 November 2006, inheritance and gift taxes have been re-introduced in Italy, with effect as of 3 October 2006.

Inheritance and gift taxes apply according to the following rates and exclusions:

- (a) if assets (including money) pass to a spouse, as well as to any linear descendent, tax is levied at a rate of 4 per cent. The tax applies to the value of the assets (net of liabilities) left to each heir/beneficiary which exceeded euro 1,000,000;
- (b) assets (including money) pass to a relative within the fourth degree or to a linear relative-in-law, as well as to a collateral relative within the third degree, tax is levied at a rate of 6 per cent. The tax applies to the value of the assets (net of liabilities) exceeding euro 100,000 if assets are left to a brother or sister; and
- (c) 8 per cent. in all other cases.

If the transfer is made in favour of persons affected by a handicap deemed as "critical" pursuant to Law No. 104 of 5 February 1992, inheritance and gift taxes apply only on the value exceeding euro 1,500,000.

Under Article 1 (114) of the Finance Act 2017, as subsequently amended and supplemented, the mortis causa transfer of financial instruments included in a long-term savings account (piano individuale di risparmio a lungo termine) that meets the requirements set forth in Article 1(100-114) of the Finance Act 2017, Article 1 (211-215) of the Finance Act 2019 or Article 13- bis of the Fiscal Decree linked to Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021 and Article 1 (26-27) of the Finance Act 2022 are exempt from inheritance and gift taxes.

7. Tax monitoring obligations

Pursuant to Italian Law Decree No. 167 of 28 June 1990, as amended by Law No. 97 of 6 August 2013 and by Law No. 50 of 28 March 2014, individuals, non-profit entities and certain partnerships (in particular, società semplici or similar partnerships in accordance with Article 5 of Decree No. 917) resident in Italy are required to report in their yearly income tax declaration, for tax monitoring purposes, the amount of Securities held abroad during each tax year.

The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the beneficial owner of the instrument for anti-money laundering purposes. The above reporting is not required to be complied with respect to Securities deposited for management with qualified Italian intermediaries and with respect to contracts entered into through their intervention, provided that the financial flows and income derived from the Securities are subject to tax by the same intermediaries.

8. Financial Transaction Tax

Pursuant to Article 1 (491 and ff.) of Law No. 228 of 24 December 2012, an Italian financial transaction tax ("**FTT**") applies to (i) transfers of property rights in shares and other participating securities issued by Italian resident companies (together, the "**Relevant Participating Instruments**"); (ii) transfers of property rights in financial instruments representing any such Relevant Participating Instruments, whether or not such financial instruments are issued by Italian resident issuers (such financial instruments, together the Relevant Participating Instruments, the "**Relevant Instruments**"); and (iii) derivative transactions referencing Relevant Instruments (i.e. derivative transactions or derivative financial instruments and certain equity-linked securities having an underlying mainly represented by one or more of Relevant Instruments or whose value is mainly linked to the Relevant Instruments) including securitised derivatives referencing Relevant Instruments (for example warrants, covered warrants and certificates).

With respect to derivative transactions referencing Relevant Instruments including securitised derivatives the FTT applies regardless of the tax residence of both the counterparties of the transactions and/or where the transaction is executed. The FTT is levied at a fixed amount of between Euro 0.01875 and Euro 200 per transaction, which varies depending on the features and notional value of the securitised derivatives. Where a securitised derivative settled by physical settlement, the FTT is also due upon the transfer of the ownership rights in the underlying Relevant Instruments. A reduced FTT (one fifth of the standard rate) is payable in respect of transactions executed on certain qualifying regulated markets or multilateral trading facilities.

The FTT due in respect of derivative transactions referencing Relevant Instruments including securitised derivatives is payable by both counterparties to a transaction. However, the FTT does not apply where one of the parties to the transaction is the European Union, the ECB (European Central Bank), central banks of the EU Member States, foreign Central Banks or entities which manage the official reserves of a foreign State, or international bodies or entities set up in accordance with international agreements which have entered into force in Italy. Further specific exemptions exist including, *inter alia*, for (i) subjects who carry on market making activities; (ii) mandatory social security entities and pension funds set up according to Legislative Decree No. 252 of 5 December 2005; and (iii) entities merely interposed in the execution of a transaction.

The FTT is levied by the banks and other financial intermediaries (*società fiduciarie e imprese di investimento abilitate all'esercizio professionale nei confronti del pubblico dei servizi e delle attività di investimento*) ("**Intermediaries**") that are involved, in any way, in the execution of the transaction and subsequently paid to the Italian Revenue. If more than one Intermediary is involved in the execution of the transaction, the FTT is levied by the Intermediary who receives the order of execution by the purchaser of the Relevant Instruments or, in the case of a derivative transaction or securitised derivative referencing a Relevant Instrument, by the counterparty to or purchaser of such derivative. Intermediaries not resident in Italy can appoint an Italian representative for the purposes of the FTT. If no Intermediaries are involved in the execution of the transaction, the relevant FTT must be paid by each relevant party to the transaction themselves.

9. EU Directive on Administrative Cooperation in the field of Taxation

On 9 July 2015, the Italian Parliament adopted Law No. 114 delegating the Italian Government to implement in Italy certain EU Council Directives, including Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). Such Directive is aimed at broadening the scope of the operational mechanism of intra-EU automatic exchange of information in order to fight cross-border tax fraud and evasion. The Italian government implemented the above-mentioned Council Directive 2014/107/EU in the Ministerial Decree issued by the Ministry of Finance on 28 December 2015, as amended by the Ministerial Decree of 17 January 2017. Following the Ministerial Decree quoted, the Italian tax authorities may communicate to other EU Member States information about interest and other categories of financial income of Italian source, including income from the Securities.

Furthermore, the Italian Government implemented the later changes to the Council Directive 2011/16/EU, including the changes introduced by the Council Directive 2376/2015/EU on the mandatory automatic exchange of information on advance cross-border rulings and advance pricing arrangements, through the issue of the Legislative Decree 15 March 2017, no. 32, and by the Council Directive 2016/2258/EU as regards access to anti-money-laundering information by tax authorities, through the issue of the Legislative Decree 18 May 2018, no. 60.

LIECHTENSTEIN TAXATION

The following is an overview of certain material Liechtenstein tax consequences applicable to individual and corporate investors without any considerations in relation to double taxation agreements and tax information exchange agreements. The overview is based on the legislation at the date of this Base Prospectus and is intended to provide general information only, whereas it does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or sell the Securities. It is recommended and advisable that potential investors consult their own tax advisers for information with respect to his or her special tax consequences that may arise as a result of holding such Securities, including the provisions contained in double taxation agreements. The Issuers make no representations regarding the tax consequences discussed hereinafter.

Payments made via a Liechtenstein paying agent to investors having their residence or habitual abode in Austria are dealt with below under the heading "Tax Treaty between Austria and Liechtenstein".

Withholding tax

There is no Liechtenstein withholding tax applicable on payments made by the Issuers in respect of the Securities to investors having their residence or habitual abode in Liechtenstein (each such investor a "**Resident Individual**").

Income Tax and wealth tax

Capital gains and profits from the sale of the Securities earned by Resident Individuals subject to unrestricted taxation in Liechtenstein on their wealth and income are exempt from income tax if the Securities themselves are subject to wealth tax. A Resident Individual's taxable net wealth is multiplied by an interest rate annually determined anew by the Finance Act. The resulting amount is incorporated into the basis for the calculation of the income tax.

Individuals other than Resident Individuals are not subject to wealth tax in respect of the Securities nor income tax on the capital gains or profits earned from sales of the Securities.

Corporate tax

Legal entities including corporations of any kind, foundations, establishments, trust enterprises, UCITS, investment enterprises for other assets or real estate according to the Investment Undertaking Act LGBl. 2016 No. 45 in its current version, AIF according to the Act on Alternative Investment Funds (AIFA) LGBl. 2013 No. 49 in its current version and comparable undertakings constituted according to the laws of other jurisdictions are subject to ordinary corporate tax if they have their domicile or effective place of management in Liechtenstein (each a "**Resident Corporate Taxpayer**"). Resident Corporate Taxpayers are subject to corporate tax at the rate of 12.50 per cent. on their profits calculated from their corporate income reduced by allowable expenses.

However, certain important exemptions exist, namely in respect of:

- (a) capital gains as well as profits from the sale of securities and liquidation proceeds stemming from participations in domestic and foreign legal entities;
- (b) income derived from managed assets in accordance with the Act on UCITS LGBl. 2011 No. 295 in its current version, of investment enterprises for other assets or real estate according to the Investment Undertaking Act, of alternative investment funds according to the AIFA or comparable undertakings according the laws of other jurisdictions; and
- (c) qualifying assets of legal entities subject to the Pension Funds Act LGBl. 2018 No. 464 in its current version,

qualify as non-taxable income.

Since 2019 the exemptions of (a) have experienced a restriction due to Amendment of Tax Act LGBl. 2018 No. 147. Dividend income from a foreign underlying legal entity or capital gains on its sale is taxed in Liechtenstein if either the foreign entity's income is made up predominantly (more than 50 per cent.) of passive income and its applicable corporate tax rate equals to less than 6.25 per cent. or is deemed "low

taxed", i.e. equaling to less than half of the effective Liechtenstein tax charge or if the dividend paid can be tax deducted by the paying underlying company.

A Resident Corporate Taxpayer investing in the Securities will be subject to taxation on the income derived from those Securities, with a tax-exemption range applicable depending on the type of underlying asset in the Securities.

Legal entities other than Resident Corporate Taxpayers are not subject to ordinary corporate income tax, unless their profits form part of the net corporate income of a Liechtenstein permanent establishment of that legal entity. However, the same favorable exemptions in relation to capital gains as well as profits from the sale of securities and liquidation proceeds stemming from participation in domestic and foreign legal entities apply as described above in relation to the Resident Corporate Taxpayers.

Private assets structures

Legal entities subject to ordinary corporate tax in Liechtenstein that qualify as Private Assets Structures as defined in Article 64 of the Tax Act LGBL. 2010 No. 340 in its current version (formerly Offshore Companies not pursuing a commercial purpose) are subject to an annual tax of CHF 1,800 if they are acting in the interest of the private wealth of one or more natural persons. Capital gains or profits earned from the sale of the Securities are then not subject to any additional tax apart from the annual tax stated above.

Trusts

Trusts (special endowments not qualifying as a legal entity) which are either domiciled in Liechtenstein or managed there are not subject to the corporate tax at the rate of 12.50 per cent. although they are subject to an annual tax of CHF 1,800.

Stamp taxes

Based on the Customs Treaty between Liechtenstein and Switzerland LGBL. 1923 No. 24 in its current version and the respective Liechtenstein enactments thereto Swiss federal stamp tax is applicable in Liechtenstein.

See "*Swiss Federal Stamp Taxes*" below.

Gift and inheritance tax

Effective 1 January 2011, Liechtenstein gift and inheritance tax has been abolished.

Tax Treaty between Austria and Liechtenstein

If the recipient of income from the Securities is a wealth structuring vehicle, established before 31 December 2016 and deemed transparent for tax purposes with a beneficial owner resident in Austria within the meaning of the Tax Treaty between Austria and Liechtenstein dated 29 January 2013 LGBL. 2013 No. 432 ("**Tax-Treaty**"), a withholding tax of 27.50 per cent. is levied at source by the Liechtenstein paying agent. The withholding tax is final. According to the Liechtenstein Automatic Exchange of Information Ordinance LGBL. 2015 No. 358 in its current version respective accounts will be considered as so called "exempt accounts" and will not be reported. No tax is withheld if the recipient of the income has explicitly authorised the Liechtenstein paying agent to report the amount of interest paid annually to the Liechtenstein Tax Authority who will forward the information to the competent Austrian authority. Such reporting will follow the rules of the Tax Treaty, however, according to the Protocol dated 19 October 2016 LGBL. 2016 No. 522 in its current version, are considered as exchange of information according to Art. 2 of the Treaty on Automatic Exchange of Information between Liechtenstein and the member states of the European Union LGBL. 2005 No. 355 in its current version.

The following are deemed as Liechtenstein paying agents pursuant to section 2 Abs. 1 lit. e) of the Tax Treaty i) banks under Liechtenstein banking law and securities dealers, ii) natural and legal persons resident or established in Liechtenstein including partnerships and permanent establishments of foreign companies which even accept, hold, invest or transfer assets of third parties or merely pay interest or secure the payment of interest in the course of their business. Also included are natural and legal persons holding a license pursuant to the Trustee Act and pursuant to section 180a Liechtenstein Persons- and Companies Act (PGR) LGBL. 1926 No. 4 in its current version, provided they are members of a governing body of a wealth structuring vehicle.

LUXEMBOURG TAXATION

The following is a general description of certain Luxembourg tax considerations relating to the Securities. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in Luxembourg or elsewhere. Prospective purchasers of the Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of the Securities payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of Luxembourg. The following is based upon the law as in effect on the date of this Base Prospectus. Prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Securities. Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or other taxes refers to Luxembourg tax law and/or concepts only. A Securityholder may not become resident, or deemed to be resident, in Luxembourg by reason only of the holding of the Securities, or the execution, performance, delivery and/or enforcement of the Securities.

Taxation of the Securityholders

Withholding tax

1. Non-resident Securityholders

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident Securityholders, nor on accrued but unpaid interest in respect of the Securities which are not profit participating, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident Securityholders.

2. Resident Securityholders

RELIBI

Pursuant to the Luxembourg law of 23 December 2005 introducing final withholding tax on certain interest deriving from savings income, as amended (the "**RELIBI Law**"), a 20% withholding tax is levied on payments of interest or similar income made by Luxembourg paying agents to (or for the benefit of) Luxembourg resident individuals Securityholders. This withholding tax also applies on accrued interest received upon sale, disposal, redemption or repurchase of the Securities. Such withholding tax is in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth who does not hold the Securities as business assets.

Luxembourg resident individuals beneficial owners of interest payments or similar income made by a paying agent established outside Luxembourg in a Member State of the European Union or a State of the European Economic Area, may opt for a final 20% withholding tax. In such case, the 20% withholding tax is calculated on the same amounts as for the payments made by Luxembourg paying agents. The option for the 20% final withholding tax must cover all interest payments made by paying agents to the beneficial owner during the entire civil year.

Responsibility for the withholding of tax in application of the above-mentioned RELIBI Law is assumed by the Luxembourg paying agent within the meaning of the RELIBI Law.

Income Taxation

(i) Non-resident Securityholders

A non-resident Securityholder, not having a permanent establishment or permanent representative in Luxembourg to which/whom such Securities are attributable, is not subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Securities. A gain realised by such non-resident Securityholder on the sale or disposal, in any form whatsoever, of the Securities is further not subject to Luxembourg income tax.

A non-resident Securityholder acting in the course of the management of professional or business undertaking, who has a permanent establishment or permanent representative in Luxembourg to which or

to whom such Securities are attributable, is subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Securities and on any gains realised upon the sale or disposal, in any form whatsoever of the Securities.

(ii) ***Resident Securityholders***

Securityholders who/which are resident of Luxembourg will not be liable for any Luxembourg income tax on repayment of principal.

Luxembourg resident corporate Securityholder

A corporate Securityholder must include any interest accrued or received, any redemption premium or issue discount, as well as any gain realized on the sale or disposal, in any form whatsoever, of the Securities, in its taxable income for Luxembourg income tax assessment purposes.

Luxembourg Securityholders which are companies benefiting from a special tax regime such as (i) family wealth management companies subject to the Luxembourg law of 11 May 2007 on family estate management companies, as amended; (ii) undertakings for collective investment subject to the Luxembourg law of 17 December 2010 on undertakings for collective investment (replacing the law of 20 December 2002), as amended; (iii) specialised investment funds subject to the Luxembourg law of 13 February 2007 on specialised investment funds, as amended; or (iv) a company regulated by the Luxembourg law of 23 July 2016 on reserved alternative investment funds, not investing in risk capital, are not subject to any Luxembourg income tax.

Luxembourg resident individual Securityholder

An individual Securityholder, who acts in the course of the management of his private wealth and who is a resident of Luxembourg for tax purposes, has further to include the portion of the gain corresponding to accrued but unpaid interest in respect of the Securities in his taxable income, except if (i) withholding tax has been levied on such payments in accordance with the RELIBI Law; or (ii) the individual Securityholder has opted for the application of a 20% withholding tax in full discharge of income tax in accordance with the RELIBI Law, which applies if a payment of interest has been made or ascribed by a paying agent established outside Luxembourg in an EU Member State or in a State of the European Economic Area.

The above 20% withholding tax represents the final tax liability on interest received for the Luxembourg resident individuals receiving the interest payments in the course of their private wealth and can be refunded in consideration of foreign withholding tax, based on double tax treaties concluded by Luxembourg.

Under Luxembourg domestic tax law, gains realised by an individual Securityholder, who acts in the course of the management of his private wealth and who is a resident of Luxembourg for tax purposes, on the sale or disposal, in any form whatsoever, of Securities are not subject to Luxembourg income tax, provided this sale or disposal took place six months after the acquisition of the Securities and the Securities do not constitute Zero Coupon Securities.

An individual Securityholder acting in the course of the management of professional or business undertaking must include this interest in its taxable basis. In that event, such 20% withholding tax levied will be credited against their final income tax liability.

(iii) ***Net wealth tax***

A corporate Securityholder, whether it is a resident of Luxembourg for tax purposes or, if not, it maintains a permanent establishment or a permanent representative in Luxembourg to which such Securities are attributable, is subject to Luxembourg net wealth tax on such Securities, except if the Securityholder is governed by (i) the Luxembourg law of 11 May 2007 on family estate management companies, as amended; (ii) the Luxembourg law of 17 December 2010 on undertakings for collective investment (replacing the law of 20 December 2002), as amended; (iii) the Luxembourg law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations, as amended; (iv) the Luxembourg law of 13 February 2007 on specialised investment funds, as amended; (v) the Luxembourg law of 22 March 2004 on securitisation, as amended;

(vi) the Luxembourg law of 15 June 2004 on venture capital vehicles; or (vii) it is a company that is subject to the law of 23 July 2016 on reserved alternative investment funds.

Nevertheless, further to the Luxembourg law of 18 December 2015 on net wealth tax aspects, as amended, (i) securitisation companies governed by the Luxembourg law of 22 March 2004, as amended; (ii) risk capital companies governed by the Luxembourg law of 15 June 2004 relating to the investment company in risk capital, as amended; (iii) professional pension institutions in the form of variable capital companies (sociétés d'épargne-pension à capital variable - SEPCAVs) or associations (associations d'épargne-pension - ASSEPs) governed by Luxembourg the law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations, as amended; and (iv) reserved alternative investment funds under the form of corporations which invest in risk capital, subject to the Luxembourg law of 23 July 2016 on reserved alternative investment funds, should be in the scope of the minimum net wealth tax, which may vary depending on the total amount of their balance sheet as well as the type of assets held, and should range from EUR 535 to EUR 32,100.

An individual Securityholder, whether he/she is resident of Luxembourg or not, is not subject to Luxembourg net wealth tax on Securities.

(iv) ***Other taxes***

Under present Luxembourg tax law, in the case where a Securityholder is a resident for tax purposes of Luxembourg at the time of his death, the Securities are included in his taxable estate.

Gift tax may be due on a gift or donation of Securities, if the gift or donation is recorded in a Luxembourg deed.

NORWEGIAN TAXATION

The following is a description of certain Norwegian tax consequences for holders of Securities who are resident in Norway for tax purposes. Norwegian tax legislation does not currently include statutory legislation relating specifically to Securities. Instead, taxation treatment must be derived from general tax rules and principles applicable to capital income and capital gains. Norwegian tax law is based on substance over form. If the Securities after an overall assessment have characteristics more similar to those of equity instruments rather than debt, the economic reality might overrule the formalities for income tax purposes. The description below for Securities is based on the assumption that the Securities are considered as debt instruments for Norwegian tax purposes and that the holder is considered beneficial owner of the Securities for tax purposes.

The purpose of this description is to provide a high-level and general overview of the main tax consequences that may arise under Norwegian law and the description does not purport to be a comprehensive description of all tax considerations that may be relevant to a decision to purchase the Securities.

Special rules apply for holder of Securities that cease to be tax resident in Norway or that for some reason are no longer considered taxable to Norway in relation to their holding of Securities.

The description is based on legislation in Norway as it is interpreted and practised as of the date of this document, which may be amended from time to time, possibly with retroactive effect. The tax treatment of each holder partly depends on the holder's specific situation, and the specific instrument issued to the holder. Each investor should consult a tax adviser as to the tax consequences relating to their particular circumstances resulting from holding and disposition of Securities.

Taxation of return on the Securities prior to disposal

Any kind of return received on the Securities prior to the disposal is taxable as "ordinary income" at the hand of the holder of Securities subject to the ordinary income tax rate of 22 per cent.. For financial institutions covered by the Norwegian financial tax (No: "*Finansskatt*"), return of the Securities will be subject to a special tax leading to an effective tax rate of 25%.

Return on the Securities is taxed on accruals basis, i.e. regardless of when the return is actually paid.

Taxation upon disposal or redemption of the Securities

Redemption at the end of the term as well as prior disposal is treated as realization of the Securities and will trigger a capital gain or loss. Capital gains will be taxable as "ordinary income", subject to the flat rate of 22 per cent. (25% for financial institutions covered by the Norwegian financial tax, as referred to in "*Taxation of return on the Securities prior to disposal*" above).

The tax liability applies irrespective of how long the Securities have been owned and the number of Securities that have been redeemed or realised. Losses will be deductible in the Securityholder's "ordinary income", taxed at the same tax rate.

Any capital gain or loss is computed as the difference between the amount received by the Securityholder on realization and the cost price of the Securities. The cost price is equal to the price for which the Securityholder acquired the Securities. Costs incurred in connection with the acquisition and realization of the Securities may be deducted from the Securityholder's taxable income in the year of the realization.

Net wealth taxation

Corporations and companies are not subject to net wealth taxation in Norway.

Individuals tax resident in Norway are subject to net wealth taxation in Norway. The value of the Securities at the end of each income year will be included in the computation of the Securityholder's taxable net wealth for municipal and state net wealth tax purposes. Listed bonds are valued at their quoted value on 1 January in the assessment year, while non-listed bonds are valued at their estimated market value on 1 January in the assessment year. As of January 1 2023, the marginal net wealth tax rate is 0.95% on net wealth exceeding NOK 1,700,000 and up to NOK 19,999,999, and a rate of 1.1% on net wealth of NOK 20,000,000 and above.

VAT and transfer taxes

No VAT, stamp or similar duties are currently imposed in Norway on the transfer or issuance of Securities.

Inheritance tax

Norway currently does not impose inheritance or gift tax.

Under the current rules, the heir acquires the donor's tax input value based on principles of continuity. Thus, the heir will be taxable for any increase in value in the donor's ownership, at the time of the heir's realization. However, the principles of continuity only applies if the donor was taxable in Norway.

POLISH TAXATION

The following is a summary of certain Polish tax considerations with respect to the holding of Securities issued by current Issuers by an investor resident in Poland. The summary does not cover tax consequences concerning exemptions available to specific taxpayers or specific taxable items. This information is of a general nature and does not purport to be a comprehensive description of all Polish tax considerations that may be relevant to a decision to acquire, to hold or to dispose of the Securities. Prospective purchasers of the Securities are advised to consult their professional tax advisers concerning the tax consequences of acquiring, holding and disposal of the Securities under their individual circumstances.

The reference to "interest" as well as to any other terms in the paragraphs below means "interest" or any other term as understood in Polish tax law.

Income taxation of a Polish tax resident corporate income taxpayer

Under Article 3.1 of the Act on Corporate Income tax Act dated 15 February 1992 (the **CIT Act**) taxpayers, if they have their registered office or management board in Poland are subject to tax on their total income, regardless of where it is earned.

The taxpayer has a management board in Poland, inter alia, when current affairs of that taxpayer are conducted in an organized and continuous manner in Poland, based in particular on:

- a contract, decision, court ruling or other document regulating the establishment or functioning of that taxpayer, or
- powers of attorney granted, or
- connections within the meaning of transfer pricing provisions (Article 3.1a of the CIT Act).

A Polish tax resident corporate income taxpayer should be subject to income tax regarding the Securities (both on any capital gains and on interest/discount) following the same principles as those which apply to any other income received from business activity within the same source of income, called capital gains (Article 7b.1.6 of the CIT Act). In the case of insurers, banks and certain other entities, this revenue is classified as revenues from other sources than capital gains (Article 7b.2 of the CIT Act).

Interest is generally taxable on a cash basis, i.e. when it is received or capitalized and not when it has accrued. There are no regulations defining in which cases income earned (revenue) by a Polish tax resident should be considered income (revenue) earned in Poland. According to current practice and taking into account existing rules applicable to income earned by non-Polish tax residents, if the Issuer is not a Polish entity, interest on Securities should not be considered as earned in the territory of Poland. Interest may be considered as earned in the territory of Poland eg if the Securities are admitted to public trading in Poland.

Revenue from the disposal of Securities against a consideration is their value expressed in the price specified in the contract. However, if the price, without justified economic reasons, significantly differs from the market value, the tax authority determines the revenue in the amount of the market value. The cost of acquiring Securities is generally tax deductible when the corresponding revenue from disposal of Securities is earned.

The Polish tax resident corporate income taxpayer is responsible for settling any income tax on interest/discount and on the disposal of Securities against a consideration within the relevant source of income. The relevant income tax rate is in principle 19 per cent.

Any withholding tax incurred outside Poland up to an amount equal to the tax paid abroad, but not higher than the tax calculated according to the relevant domestic rate can be deducted from Polish income tax liability. The relevant conventions for the avoidance of double taxation to which Poland is a party can provide other methods for avoiding the double taxation.

Income taxation of a Polish tax resident personal income taxpayer

Under Article 3.1 of the Act on Personal Income tax Act dated 26 July 1991 (the **PIT Act**) natural persons, if they residing in Poland, are subject to tax on their total income (revenue) regardless of the location of their sources of income (unlimited tax liability).

A person residing in Poland is a person who:

- has a center of personal or economic interests in Poland (centre of vital interests) or

- stays in Poland for more than 183 days in a tax year, unless the relevant convention for the avoidance for double taxation provides otherwise (Article 3.1a of the PIT Act).

Income from disposal of Securities held as non-business asset derived by a Polish tax resident individual does not cumulate with general income taxed progressively, but is subject to flat rate tax at 19 per cent. Revenue from the disposal of Securities against a consideration is their value expressed in the price specified in the contract (Article 17.2 and Article 19.1 of the PIT Act). However, if the price, without justified economic reasons, significantly differs from the market value, the tax authority determines the revenue in the amount of the market value (Article 19.4 of the PIT Act). The cost of acquiring Securities is generally tax deductible when the corresponding revenue from disposal of Securities is earned. The Polish tax resident individual is obliged to declare and settle the tax due on the disposal of Securities against consideration himself/herself from 15 February until 30 April of the year following the year in which the income was earned (Article 45.1 of the PIT Act). No tax is withheld by the person making the payments.

Under Article 30a.1 and Article 30a.7 of the PIT Act, interest income, including discount, derived by a Polish tax resident individual does not cumulate with general income taxed progressively, but is subject to flat rate tax at 19 per cent.

Under Article 30a.9 of the PIT Act, withholding tax incurred outside Poland up to an amount equal to the tax paid abroad, but not higher than the tax calculated at 19% per cent. The relevant conventions for the avoidance of double taxation to which Poland is a party can provide other methods for avoiding the double taxation.

Under Article 41.4 of the PIT Act, the interest payer, other than an individual not acting within the scope of his/her business activity, should withhold the Polish 19% tax upon any interest payment.

Under Article. 41.4d of the PIT Act, the entities keeping securities accounts for taxpayers, acting as tax remitters, should withhold the tax on interest income if such interest has been earned in Poland and is related to securities recorded on these accounts, and the payment to the taxpayers made through these entities. This rule applies also to remitters who are corporate income taxpayers subject to limited tax liability in Poland, to the extent they conduct their business activity through a foreign establishment and it is to that establishment's operations that the securities account is related. According to an established practice only Polish tax resident entities (also entities conducting their business activity through a permanent establishment located in Poland) and individuals conducting business activity are considered entities having obligations to withhold and remit Polish income tax.

Therefore any foreign entities not conducting business active in Poland through a permanent establishment should not have any withholding tax obligations.

There are no regulations defining in which cases income earned (revenue) by a Polish tax resident should be considered income (revenue) earned in Poland. According to current practice and taking into account existing rules applicable to income earned by non-Polish tax residents, if the Issuer is not a Polish entity, interest on Securities should not be considered as earned in the territory of Poland. Interest may be considered as earned in the territory of Poland eg if the Securities are admitted to public trading in Poland.

Under Art. 45.3b of the PIT Act, if the tax is not withheld, Polish tax resident individual is obliged to declare and settle the tax himself/herself. The relevant tax return should be filed from 15 February until 30 April of the year following the year in which the income was earned.

The above rules do not apply if an individual holds the Securities as business assets. In such case, interest (discount) and income from the disposal of the Securities against a consideration should be subject to tax in the same way as other business income. The tax, at 19 per cent. flat rate or the 12 per cent. to 32 per cent. progressive tax rate depending on the individual's choice and meeting of certain conditions, should be settled by the individuals themselves.

Solidarity levy

Under Article 30h of the PIT Act, Natural persons are obliged to pay a solidarity levy in the amount of 4% of the basis for calculating this levy.

The basis for calculating the solidarity levy is the amount in excess of PLN 1,000,000 of the sum of income subject to taxation under Article 27 sec. 1, 9 and 9a, Article 30b (including income from disposal of securities against a consideration), Article 30c (including business profits subject to flat rate taxation) and Article 30f of the PIT Act after their reduction by:

- 1) the amounts of contributions referred to in Article 26 Section 1 points 2 and 2a, and the contributions referred to in Article 30c Section 2 point 2,
- 2) the amounts referred to in Art. 30f Section 5 of the PIT Act,

- deducted from this income.

When determining the basis for calculating the solidarity levy in the calendar year income and the amounts reducing this income referred to in the PIT Act should be taken into account.

Natural persons are obliged to submit to the tax office a declaration on the amount of the solidarity tax by April 30 of the calendar year and pay the solidarity tax within this period.

Tax on civil law transaction considerations

Under Article 1.1.1.a of the Tax on Civil Law Transactions Act dated 9 September 2000 (the **TCLT Act**), agreements for the sale or exchange of assets or property rights are subject to tax on civil law transactions (**TCLT**). The Securities should be recognized as property rights for TCLT purposes.

Civil law transactions are taxable if their subjects are:

- assets located in Poland or property rights exercisable in Poland;
- assets located abroad or property rights exercisable abroad if the acquirer's place of residence or registered office is located in Poland and the civil law transaction was carried out in Poland.

TCLT on the sale of the Securities is 1 per cent. and is payable by the purchaser within 14 days after the sale agreement is entered into. If the exchange agreement is concluded, the tax is payable jointly and severally by both parties to the agreement. If such agreement has been entered into in notarial form, the tax due should be withheld and remitted by the notary public. The tax base is the market value of Securities. The market value is determined on the basis of the average prices used in the trade in property rights of the same type, from the day of performing this action, without deduction of debts and weights.

Under Article 9.9 of the TCLT Act, a tax exemption applies to the sale of property rights being financial instruments (including the Securities):

- to investment firms or foreign investment firms;
- with the intermediation of investment firms or foreign investment firms;
- through organized trading; or
- outside organized trading by investment firms or foreign investment firms if the property rights were acquired by those firms through organized trading,

within the meaning of the provisions of the Act on Trading in Financial Instruments.

Tax exemption applies to sale or exchange agreements concerning Securities:

- to the extent that they are taxed with VAT in Poland or in another EU Member State or EEA; or
- when at least one of the parties to the transaction is exempt from VAT in Poland or in another EU Member State or EEA on account of that particular transaction.

Neither issue of the Securities nor their redemption should be subject to TCLT.

Inheritance and donation tax considerations

Inheritance and donation tax applies to the acquisition by natural persons of property located in or property rights exercised in Poland, by way of:

- 1) inheritance, ordinary legacy, further legacy, legacy *per vindicationem*, testamentary order;
- 2) donations, donor's order;
- 3) usucaption;
- 4) free abolition of joint ownership reserved portion, if the entitled person has not obtained it in the form of a donation made by the testator or by way of inheritance or in the form of a record;
- 5) gratuitous: pension, usufruct and easement (Article 1.1 of the Act on Inheritance and Donation Tax dated 28 July 1983).

Acquisition of property located abroad or property rights exercised abroad (such as Securities) is subject to inheritance and donation tax if at the time of opening the inheritance or concluding the donation agreement, the purchaser was a Polish citizen or had a place of permanent residence in Poland (Article 2 of the Act on Inheritance and Donation Tax).

The tax obligation rests with the purchaser of property or property rights (Article 2 of the Act on Inheritance and Donation Tax). The tax base is generally the value of the acquired property and property rights after deduction of debts and encumbrances (net value), determined at the acquisition date according to market prices on the day the tax obligation arose (Article 7.1 of the Act on Inheritance and Donation Tax).

The tax amount depends on the degree of kinship between the testator/donor and the heir/beneficiary. The tax is levied progressively from 3 per cent. to 20 per cent. of the tax base, depending on the tax group in which the recipient qualifies. There is a tax-free amount defined for each of these groups.

Unless the tax is collected by the tax remitter, taxpayers are obliged to submit with the competent tax authority, within one month from the date when the tax obligation arose, a tax return on the acquisition of property or property rights on the relevant form (Article 17 of the Act on Inheritance and Donation Tax). The tax is payable within 14 days from a date when a decision of the relevant head of the tax office assessing the amount of due tax is delivered to the taxpayer.

Securities acquired by the closest relatives (a spouse, descendants, ascendants, stepchildren, siblings, stepfather and stepmother) are tax-exempt subject to filing an appropriate information with the head of the relevant tax office in due time (Article 4a of the Act on Inheritance and Donation Tax). The exemption applies if, at the time of acquisition, the acquirer had Polish citizenship or citizenship of one of the Member States of the European Union or Member States of the European Free Trade Association (EFTA) - parties to the Agreement on the European Economic Area or had a place of residence in Poland or the territory of such a state (Article 4.4 of the Act on Inheritance and Donation Tax).

PORTUGUESE TAXATION

The following is a general description of current law and practice in Portugal as in effect on the date of this Base Prospectus in relation to certain current relevant aspects to Portuguese taxation of the Securities and is subject to changes in such laws, including changes that could have a retroactive effect. The following description is intended as a general guide only and is not exhaustive. It is not intended to be, nor should it be considered to be, legal or tax advice to any holder of Securities. It does not take into account or discuss the tax laws of any country other than Portugal and relates only to the position of persons who are absolute beneficial owners of the Securities. Prospective investors are advised to consult their own tax advisers as to the Portuguese or other tax consequences of the purchase, ownership and disposal of Securities.

The reference to "**interest**", "**other investment income**" and "**capital gains**" in the paragraphs below means "interest", "other investment income" and "capital gains" as understood in Portuguese tax law. The statements below do not take into account any different definitions of "interest", "other investment income" or "capital gains" which may prevail under any other law or which may be created by the "Terms and Conditions" of the Securities or any related documentation.

Income generated by the holding (distributions) and disposal of Securities should be generally subject to the Portuguese tax regime for debt securities ("*obrigações*").

Interest and other investment income obtained by Portuguese resident individuals on the Securities as well as the remuneration received on the exercise of Certificates that entitle the security holder to receive from the relevant Issuer a predetermined amount higher than the subscription value is subject to individual income tax. If the payment of interest or other investment income on the Securities as well as the remuneration received on the exercise of Certificates that entitle the security holder to receive a predetermined amount higher than the subscription value is made available to Portuguese resident individuals through a Portuguese resident entity or a Portuguese branch of a non-resident entity, withholding tax applies currently at 28% which, if such income is not earned as business or professional income, is the final tax on that income unless the individual elects to include it in his taxable income, subject to tax at progressive rates of up to 48%. A surcharge will apply on the part of the taxable income exceeding €80,000 as follows: (i) 2.5% on the part of the taxable income exceeding €80,000 up to €250,000 and (ii) 5% on the remaining part (if any) of the taxable income exceeding €250,000. In this case (aggregation of income), the tax withheld is deemed a payment on account of the final tax due. If the interest on the Securities or the remuneration received on the exercise of Certificates that entitle the security holder to receive from the relevant Issuer a predetermined amount higher than the subscription value is not received through an entity located in Portugal it is not subject to Portuguese withholding tax, but an autonomous taxation currently of 28% will apply, which is the final tax on that income unless the individual elects to include it in his/her taxable income, subject to tax at the progressive rates mentioned above.

Interest and other investment income paid or made available ("*colocado à disposição*") on the Securities as well as the remuneration on the exercise of Certificates that entitle the security holder to receive from the relevant Issuer a predetermined amount higher than the subscription value, to Portuguese resident individuals, through Portuguese entities mandated by the debtors or the holders or that act on account of ones or the others, and due by non-resident entities without a permanent establishment in the Portuguese territory and that are domiciled in a country included in the "tax havens" list (Order no. 150/2004 of 13 February, as amended by Order no. 292/2011 of 8 November, Law 144/2017 of 29 December and Order no. 309-A/2020 of 31 December) are subject to a final withholding tax rate at 35%. If the interest on the Securities and the remuneration on those Certificates is not paid or made available through the above-referred entities, it is not subject to Portuguese withholding tax, but an autonomous taxation currently of 35% will apply, which is the final tax on that income.

Interest, other investment income and the remuneration on the exercise of Certificates that entitle the security holder to receive from the relevant Issuer a predetermined amount higher than the subscription value paid or made available ("*colocado à disposição*") to accounts in the name of one or more accountholders acting on behalf of undisclosed third parties is subject to a final withholding tax rate of 35%, unless the beneficial owner of the income is disclosed, in which case the general rules will apply.

Gains obtained on the disposal of Securities that entitle the security holder to receive the value of a certain underlying asset with the exception of the remuneration arising from Certificates that guarantee the holder the right to receive a minimum value in excess of the subscription value by an individual resident in Portugal for tax purposes are subject to Portuguese capital gains taxation, whereby the positive difference between such gains and gains on other securities and losses in securities is subject to tax currently at 28%, which, if such income is not earned as business or professional income, is the final tax on that income unless the

individual elects to include it in his/her taxable income, subject to tax at progressive rates of up to 48%. A surcharge will apply on the part of the taxable income exceeding €80,000 as follows: (i) 2.5% on the part of the taxable income exceeding €80,000 up to €250,000 and (ii) 5% on the remaining part (if any) of the taxable income exceeding €250,000.

Financial income (interest and other investment income) and capital gains derived from the Securities by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the income or gains are attributable are included in their taxable profits and are subject to corporate income tax at a rate of 21 per cent or 17 per cent if the taxpayer qualifies as a Small Mid Cap company, as defined in Decree-Law no. 372/2007, of 6 November, as last amended by Decree-Law no. 13/2020, of 7 April, applicable to taxable profits up to € 50,000 (the excess thereof will be subject to the standard rate of 21 per cent), to which may be added a municipal surcharge ("*derrama*") of up to 1.5% of its taxable profit. A state surcharge ("*derrama estadual*") rate currently of 3% will be due on the part of taxable profits between €1,500,000 up to € 7,500,000, a rate of 5% on the part of the taxable profits between € 7,500,000 up to €35,000,000 and a rate of 9% on the part of the profits exceeding €35,000,000.

Gratuitous transfers of the Program Securities to Portuguese resident individuals would not be liable to Portuguese Stamp Tax, as they fall outside the territorial scope of such tax (i.e., no connection with the Portuguese territory exist as the debtor of the patrimonial or credit rights has its domicile, head office, place of effective management or permanent establishment outside the Portuguese territory). Gratuitous transfers of the Program Securities (i.e., acquisition of the Securities by means of gift or inheritance) in favor of a Portuguese resident corporate entity or non-Portuguese resident corporate entity with a Portuguese permanent establishment to which such transfer is attributable shall qualify as patrimonial increases, which, although not subject to stamp tax, would be included in the taxpayer taxable income and subject to corporate income tax at a rate of 21 per cent or 17 per cent if the taxpayer qualifies as a Small Mid Cap company, as defined in Decree-Law no. 372/2007, of 6 November, as last amended by Decree-Law no. 13/2020, of 7 April, applicable to taxable profits up to € 50,000 (the excess thereof will be subject to the standard rate of 21 per cent), to which may be added a municipal surcharge ("*derrama*") of up to 1.5% of its taxable profit. A state surcharge ("*derrama estadual*") rate currently of 3% will be due on the part of taxable profits between €1,500,000 up to € 7,500,000, a rate of 5% on the part of the taxable profits between €7,500,000 up to €35,000,000 and a rate of 9% on the part of the profits exceeding €35,000,000.

There is neither wealth nor estate tax in Portugal on movable assets.

Payments made by the Issuer of interest, other investment income or principal on Securities issued by it to an individual or legal person non-resident in Portugal for tax purposes without a Portuguese permanent establishment to which income may be attributable are not subject to Portuguese tax.

Capital gains realised on Securities by a holder who is neither resident nor engaged in business through a permanent establishment in Portugal to which that gain is attributable are not subject to Portuguese tax.

SPANISH TAXATION

The information provided below does not purport to be a complete description of tax law and practice currently applicable in the Kingdom of Spain and is subject to any changes in law and the interpretation and application thereof, which could be made with retroactive effect. Furthermore, it is not a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of the Securities, and does not describe the tax consequences for certain categories of taxpayers including, but not limited to entities falling under the attribution of the income regime, financial institutions, Collective Investment Institutions or Cooperatives, which may be subject to specific rules. Prospective investors who are in any doubt as to their position should consult with their own professional advisers.

The description set out below is based upon Spanish state law in force and is subject to any changes in the laws of Spain that may take effect after such date. This description does not take into account any regional or local legislation that could be of application.

This information has been prepared in accordance with the following Spanish tax legislation:

- (i) for individuals resident for tax purposes in Spain which are subject to Personal Income Tax, Law 35/2006, of 28 November 2006, on Personal Income Tax, as amended (the "**PIT Law**"); Royal Decree 439/2007, of 30 March 2007 promulgating the Personal Income Tax Regulations, as amended (the "**PIT Regulations**"); Law 19/1991, of 6 June 1991 on Wealth Tax as amended most recently by Royal Decree Law 18/2019, of 27 December (the "**Wealth Tax Law**"); Law 38/2022, of December 27, for the establishment of temporary energy taxes and taxes on credit institutions and financial credit establishments and creating the temporary solidarity tax on large fortunes, and amending certain tax regulations (the "**Temporary Solidarity Tax On Large Fortunes Law**"); and Law 29/1987, of 18 December 1987, on Inheritance and Gift Tax, as amended (the "**Inheritance and Gift Tax Law**");
- (ii) for legal entities resident for tax purposes in Spain which are subject to Corporate Income Tax, Law 27/2014 of 27 November 2014, on Corporate Income Tax, as amended (the "**CIT Law**") and Royal Decree 634/2015, of 10 July 2015, promulgating the Corporate Income Tax Regulations, as amended (the "**CIT Regulations**");
- (iii) for individuals and entities who are not resident in Spain, Royal Legislative Decree 5/2004, of 5 March 2004, promulgating the Consolidated Text of the Non-Residents Income Tax Law, as amended (the "**NRIT Law**"); Royal Decree 1776/2004, of 30 July 2004, promulgating the Non-Residents Income Tax Regulations, as amended (the "**NRIT Regulations**"); the Wealth Tax Law; the Temporary Solidarity Tax On Large Fortunes Law; and the Inheritance and Gift Tax Law.

I. *Taxes on Income and Capital Gains*

- (i) ***Individuals with tax residency in Spain subject to Personal Income Tax (Impuesto sobre la Renta de las Personas Físicas)***

Interest from the Securities obtained by individuals subject to Spanish Personal Income Tax, and also income from the transfer, reimbursement, redemption, exchange or conversion of the Securities would be considered a return on investment obtained from the transfer of funds to third parties according to Article 25.2 of the PIT Law. Such income would be included in the savings taxable base and subject to the rules foreseen in that respect in the PIT Law.

Income included in the savings taxable base are currently taxed (i) at a rate of 19 per cent up to the first €6,000; (ii) at a rate of 21 per cent on the following up to €50,000; (iii) at a rate of 23 per cent on the following up to €200,000; (iv) at a rate of 27 per cent on the following up to €300,000; and (v) at a rate of 28 per cent on any excess over €300,000.

Any income derived from the Securities would be subject to withholding tax, currently at the rate of 19 per cent, on account of the Personal Income Tax of the holder.

On the basis that the Issuers are not resident in Spain for tax purposes and do not operate in Spain through a permanent establishment, branch or agency, all payments of principal and interest in respect of the Securities can be made free of any withholding or deduction for or on account of any taxes in Spain.

Under certain conditions, withholding taxes may apply if the Securities are deposited with a Spanish resident entity acting as depositary or custodian or such Spanish resident entity is in charge

of the collection of the income from the Securities, or in charge of the redemption of the securities, or receives from the holder the order to transfer the security, as the case may be.

(ii) ***Legal Entities with tax residency in Spain subject to Corporate Income Tax (Impuesto sobre Sociedades)***

The tax regime for Spanish-resident entity holders of Securities is included in the CIT Law and the CIT Regulations.

According to article 10.3 of the CIT Law, the taxable income derived from the interest generated under the Securities and also income from the transfer, reimbursement, redemption, exchange or conversion of the Securities will be calculated in accordance with the accounting treatment of such income by the relevant entity and generally taxed at the standard rate of 25 per cent. Please note that, as of 1 January 2022, profits obtained by legal entities with tax residency in Spain will be taxed at a minimum effective tax rate of 15% of the taxable base in case that (i) the net turnover of the entity is 20 million euros or more or (ii) the entity is taxed under the consolidated tax regime.

Any income derived from the Securities would be subject to withholding tax of 19 per cent on account of the Corporate Income Tax of the holder.

On the basis that the Issuers are not resident in Spain for tax purposes and do not operate in Spain through a permanent establishment, branch or agency, all payments of principal and interest in respect of the Securities can be made free of any withholding or deduction for or on account of any taxes in Spain.

Under certain conditions, withholding taxes may apply if the Securities are deposited with a Spanish resident entity acting as depositary or custodian or such Spanish resident entity is in charge of the collection of the income from the Securities, or in charge of the redemption of the securities, or receives from the holder the order to transfer the security, as the case may be.

In any case, income derived from the Securities obtained by Corporate Income Tax taxpayers will not be subject to withholding tax on account of Corporate Income Tax, in accordance with the provisions of Article 61.s) of the CIT Regulations **provided that** the Securities are listed on an organised market of an OECD country.

(iii) ***Individuals and Legal Entities not resident in Spain and subject to Non-Resident Income Tax (Impuesto sobre la Renta de no Residentes)***

Interest generated by the Securities or income from the transfer, reimbursement, redemption, exchange or conversion of the Securities obtained by individuals and legal entities not resident for tax purposes in Spain will be taxed pursuant to the NRIT Law.

Income obtained through a permanent establishment

If the Securities form part of the assets of a permanent establishment in Spain of a non-Spanish resident person or entity, income from the Securities will be taxed under the same rules as those previously set out for legal entities subject to Corporate Income Tax.

Income obtained without a permanent establishment

Income obtained by individuals or entities who are not resident in Spain for tax purposes and who do not act, with respect to the Securities, through a permanent establishment in Spain would not be considered as Spanish-source income and, therefore, would not be subject to taxation and withholding tax in Spain under the Non-Residents Income Tax Law.

II. ***Wealth Tax (Impuesto sobre el Patrimonio)***

Only individuals who are holders of Securities would be subject to Wealth Tax. Legal entities are not taxable persons under Spanish Wealth Tax.

(i) ***Individuals with Tax Residency in Spain***

Individuals with tax residency in Spain are subject to Wealth Tax to the extent that their net worth exceeds €700,000 (subject to any exceptions provided under relevant legislation in an autonomous region (*Comunidad Autónoma*)). Therefore, they should take into account the value of the Securities which they hold as at 31 December each year, the applicable rates ranging between 0.2 per cent. and 3.5 per cent.

(ii) ***Individuals with no Tax Residency in Spain***

Non-Spanish residents would not be subject to the Wealth Tax on the holding of the Securities, **provided that** the Securities are not located in Spain and the rights deriving from them cannot be exercised within the Spanish territory.

III. **Temporary Solidarity Tax On Large Fortunes (*Impuesto Temporal de Solidaridad de las Grandes Fortunas*)**

Only individuals who are holders of Securities would be subject to Temporary Solidarity Tax On Large Fortunes. Legal entities are not taxable persons under Spanish Temporary Solidarity Tax On Large Fortunes.

With respect to its temporal scope, it is expected to be in force for two years, so that it will be applicable in 2022 and 2023, although a review clause is introduced, in order to evaluate its results at the end of its term and assess its maintenance or elimination.

(i) **Individuals with Tax Residency in Spain**

Individuals with tax residency in Spain are subject to Temporary Solidarity Tax On Large Fortunes to the extent that their net worth exceeds €3,000,000. For individuals with tax residency in Spain, there is a minimum exemption of €700,000 euros, which applies as from €3,000,000 of net worth.

Therefore, they should take into account the value of the Securities which they hold as at 31 December each year the applicable rates ranging between 1.7 per cent. and 3.5 per cent.

The taxable base is currently taxed (i) at a rate of 1.7 per cent up to the first €5.347.998,03; (ii) at a rate of 2.1 per cent on the following up to €10.695.996,06; (iii) at a rate of 3.5 per cent on any excess over €10.695.996,06.

(ii) **Individuals with no Tax Residency in Spain**

Non-Spanish residents would not be subject to the Temporary Solidarity Tax On Large Fortunes on the holding of the Securities, **provided that** the Securities are not located in Spain and the rights deriving from them cannot be exercised within the Spanish territory.

IV. **Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)**

(i) **Individuals with Tax Residency in Spain**

Individuals resident in Spain for tax purposes who acquire ownership or other rights over any Securities by inheritance, gift or legacy will be subject to the Inheritance and Gift Tax in accordance with the applicable Spanish regional or State rules (subject to any regional tax exemptions being available to them). The applicable effective tax rates currently range between 0 per cent. and 81.6 per cent., subject to any specific regional rules, depending on relevant factors.

(ii) **Legal Entities with Tax Residency in Spain**

Legal entities resident in Spain for tax purposes which acquire ownership or other rights over the Securities by inheritance, gift or legacy are not subject to the Spanish Inheritance and Gift, income obtained will be subject to the Corporate Income Tax.

(iii) **Individuals and Legal Entities not resident in Spain**

Non-Spanish resident individuals and non-Spanish legal entities without a permanent establishment in Spain that acquire ownership or other rights over the Securities by inheritance, gift or legacy, will not be subject to Inheritance and Gift Tax **provided that** the Securities are not located in Spain and the rights deriving from them cannot be exercised within the Spanish territory.

Non-Resident entities with a permanent establishment within the Spanish territory which acquire the ownership or other rights over the Securities by inheritance, gift or legacy are not subject to the Spanish Inheritance and Gift Tax. Rather, income obtained will be subject to the Non-Residents Income Tax, subject to the application of any relevant double taxation treaty.

V. **Value Added Tax, Transfer Tax and Stamp Duty**

The issuance, acquisition and transfer of Securities is not taxable under Transfer Tax and Stamp Duty Tax, in accordance with the Consolidated Text of such tax promulgated by Royal Legislative Decree 1/1993, of 24 September, nor will it be taxable under the Value Added Tax, in accordance with Law 37/1992, of 28 December, regulating such tax.

VI. ***Disclosure obligations in connection with assets held abroad by Spanish resident natural and legal persons (Form 720)***

According to Law 7/2012, Spanish resident natural or legal persons holding certain categories of assets abroad (including inter alia all types of debt securities) may be potentially liable to report them to the Spanish tax authorities on a yearly basis (filing in respect of Securities held as of 31 December every year will be due by 31 March of the immediately following year) in certain circumstances. Accordingly, any Spanish resident individual and corporate investors using a non-Spanish resident custodian to hold the Securities may be potentially liable to comply with such reporting obligations in respect of the Securities, if certain conditions are met. Failure to meet this new reporting obligation may trigger significant tax penalties and other tax implications.

Please note that the European Court of Justice delivered a ruling on 27 January 2022 declaring illegal several aspects of the Spain's tax form 720, such as the non-expiration of the debt and the disproportionate sanctions. As a consequence of the above, Law 5/2022 of 9 March 2022 has eliminated the tax debt non-expiration rule and has amended the relevant penalties, so that failure to make the necessary disclosure (including omission, falseness and inaccuracy of the information provided) may still be sanctioned, but the penalties to be imposed will be in accordance with the general regime established in the Spanish General Tax Law.

SWEDISH TAXATION

There is no Swedish withholding tax at source (*källskatt*) applicable on payments made by the Issuer in respect of the Securities. Sweden operates a system of preliminary tax (*preliminärskatt*) to secure payment of taxes. In the context of the Securities a preliminary tax of 30 per cent. will be deducted from all payments of interest (including any compensation deemed to constitute interest for tax purposes) in respect of the Securities made to any individuals or estates that are resident in Sweden for tax purposes, provided the paying entity is subject to reporting obligations. A preliminary tax of 30 per cent. will also be deducted from any other payments in respect of the Securities not treated as capital gains, if such payments are paid out together with payments treated as interest. Depending on the relevant holder's overall tax liability for the relevant fiscal year, the preliminary tax may contribute towards, equal or exceed the holder's overall tax liability with any balance subsequently to be paid by or to the relevant holder, as applicable.

SWISS TAXATION

The following discussion is a summary of certain material Swiss tax considerations relating to (i) Program Securities issued by any of the Issuers where the Holder is tax resident in Switzerland or has a tax presence in Switzerland or (ii) Program Securities where the Paying Agent, custodian or securities dealer is located in Switzerland. The discussion is a summary based on legislation as of the date of this Base Prospectus. It does not aim to be a comprehensive description of all the Swiss tax considerations that may be relevant for a decision to invest in Program Securities. The tax treatment for each investor depends on the particular situation. All investors are advised to consult with their professional tax advisers as to the respective Swiss tax consequences of the purchase, ownership, disposition, lapse, exercise or redemption of Program Securities (or options embedded therein) in light of their particular circumstances.

Swiss Withholding Tax

Payments under the Program Securities will not be subject to Swiss federal withholding tax, provided that the Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes.

On 3 April 2020, the Swiss Federal Council proposed draft legislation and opened the consultation procedure regarding the reform of the Swiss withholding tax regime, which had previously been suspended. A main aspect of the draft legislation is the exemption of Swiss-domiciled legal entities and foreign investors from withholding tax on Swiss domestic interest-based investments. In essence, the draft legislation would replace the current debtor-based regime applicable to interest payments with a paying agent-based regime for Swiss withholding tax. Broadly, this paying agent-based regime would (i) subject all interest payments made through paying agents in Switzerland to individuals resident in Switzerland to Swiss withholding tax and (ii) exempt from Swiss withholding tax interest payments to all other persons, including to Swiss-domiciled legal entities and foreign investors (other than for indirect interest payments via foreign and domestic collective investments vehicles). If such a new paying agent-based regime were to be enacted and were to result in the deduction or withholding of Swiss withholding tax on any interest payments in respect of the Securities, the Securities would not be entitled to receive any additional amounts as a result of such deduction or withholding under the terms of the Program Securities. However, the results of the consultation, which ended on 10 July 2020, were controversial. Consequently, on 15 April 2021, the Swiss Federal Council submitted a new draft on the reform of the Swiss withholding tax system providing for the abolition of Swiss withholding tax on interest payments on bonds for submission to the Swiss Federal Parliament, which legislation was accepted by the Swiss Parliament on 17 December 2021. The entry into force of such legislation is still subject to a referendum which will be held on September 25, 2022. If the legislation will be approved in the referendum, it will enter into force on 1 January 2023. Notwithstanding the foregoing, if a new paying agent-based regime were nevertheless to be enacted as contemplated by the draft legislation published on 3 April 2020 and were to result in the deduction or withholding of Swiss withholding tax on any payment in respect of the Program Securities by any person in Switzerland other than the Issuer, the holder of such Program Securities would not be entitled to any additional amounts with respect to such Program Securities as a result of such deduction or withholding under the Terms and Conditions.

Income Taxation

Program Securities held as Private Assets by a Swiss resident Holder

Structured Securities

If a Program Security classifies as a structured security, i.e. as derivative financial instrument(s) with a bond-like prefunding component embedded therein, its income taxation depends on whether (i) the embedded bond component and the embedded derivative financial instrument(s) are reported separately from each other, or, if the Program Security is a standard product, alternatively the values of the embedded bond component and the embedded derivative financial instrument(s) can at any time be determined analytically by using standard valuation programmes, and (ii) the Program Security classifies as a structured product with or without a predominant one-time interest payment:

Non-transparent derivative financial instruments: If the embedded bond is not recorded separately from the embedded derivative financial instrument(s) and if the conditions for analytical determination of the values of the embedded bond and the embedded derivative financial instrument(s) set forth above do not apply, then the Program Security classifies as non-transparent structured security and any return over the initial investment classifies as a taxable interest payment. Non-transparent derivative financial instruments generally include a predominant one-time interest payment and are taxed in accordance with the principles

set forth below under "*Transparent derivative financial instruments with a predominant one-time interest payment*".

Transparent derivative financial instruments without a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) or if the values of the embedded bond and the embedded derivative financial instrument(s) can be determined analytically as set forth above and if the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time-interest-payment such as an original issue discount or a repayment premium (see below "*Transparent derivative financial instruments with a predominant one-time interest payment*"), then a person who is an individual resident in Switzerland holding such a Program Security as a private asset is required to include any periodic and one-time interest payments received on the Program Security, converted in each case into Swiss Francs at the exchange rate prevailing at the time of payment, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts) for the relevant tax period. Option premium received, and a gain, including in respect of interest accrued, a loss, respectively, realised on the sale of such a Program Security is a tax-free private capital gain, a non-tax-deductible private capital loss, respectively.

Transparent derivative financial instruments with a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) or if the values of the embedded bond and the embedded derivative financial instrument(s) can be determined analytically as set forth above and if the yield-to-maturity predominantly derives from a one-time-interest-payment such as an original issue discount or a repayment premium and not from periodic interest payments, then a person who is an individual resident in Switzerland holding such a Program Security as a private asset, is required to include any periodic interest payments received on the Program Security and, in addition, any amount equal to the difference between the value of the Program Security at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, and converted in each case into Swiss Francs at the exchange rate prevailing at the time of sale or redemption, issuance or purchase, respectively, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts, i.e., including, *inter alia*, any gain in respect of interest accrued or foreign exchange rate) for the relevant tax period. Any compensation received by such a holder for the embedded derivative, i.e., option premium received, and any residual gain, and a loss, respectively, realised on the sale of such a Program Security is a tax-free private capital gain, a non-tax-deductible private capital loss, respectively. However, notwithstanding the foregoing, such a holder may offset any decrease in value realised by him or her within the same taxation period on sale or redemption of such a Program Security against any gain (including periodic interest payments) realised by him or her from other securities with a predominant one-time interest payment.

Bonds

Bonds without a predominant one-time interest payment: If a Program Security classifies as a pure bond without a predominant one-time interest payment (i.e., the yield-to-maturity of which predominantly derives from periodic interest payments and not from a one-time-interest-payment such as an original issue discount or a repayment premium), then a person who is an individual resident in Switzerland holding such a Program Security as a private asset is required to include any periodic and one-time interest payments received on such Program Security, converted into Swiss Francs at the exchange rate prevailing at the time of payment, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts) for the relevant tax period. A gain, including, *inter alia*, in respect of interest accrued or foreign exchange rate, a loss, respectively, realised on the sale of such a Program Security is a tax-free private capital gain, a non-tax-deductible private capital loss, respectively.

Bonds with a predominant one-time interest payment: If a Program Security classifies as a pure bond with a predominant one-time interest payment (the yield-to-maturity of which predominantly derives from a one-time-interest-payment such as an original issue discount or a repayment premium and not from periodic interest payments), then a person who is an individual resident in Switzerland holding such a Program Security as a private asset, is required to include any periodic interest payments received on the Program Security and, in addition, any amount equal to the difference between the value of the Program Security at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, and converted in each case into Swiss Francs at the exchange rate prevailing at the time of sale or redemption, issuance or purchase, respectively, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts, i.e., including, *inter alia*, any gain in respect of interest accrued or foreign exchange rate) for the relevant tax period. Such a holder may offset any decrease in value realised by him or her within the same taxation period on sale or

redemption of such a Program Security against any gain (including periodic interest payments) realised by him or her from other securities with a predominant one-time interest payment.

Pure Derivative Financial Instruments

A capital gain realised by an individual on the sale or redemption of a Program Security which classifies as a pure derivative financial instrument (such as pure call and put options, pure futures, static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right and discount certificates with a maturity not exceeding twelve months) and which is held as part of the individual's private assets is a tax-free private capital gain. Conversely, a capital loss realised on the sale or redemption of such a Program Security cannot be set off against taxable income. Dividend equalisation payments on such a Program Security constitute taxable investment income.

Low Exercise Price Warrants

A fully pre-funded call option with a term of not more than one year classifies as pure derivative financial instrument (see taxation treatment above "Pure Derivative Financial Instruments"). If the term of a call option exceeds one year and the instrument underlying the call option is pre-financed by 50 per cent. or more at the time of issuance then the interest component embedded in such an instrument (i.e., issue discount) constitutes taxable interest income (see taxation treatment above "Structured Securities").

Fund-like Securities

A Program Security which is classified as a fund-like instrument will be considered a pass-through instrument for Swiss tax purposes if dividend and interest income (less attributable costs) from, and capital gains and losses (less costs attributable) realised on, the underlying investments, are reported and distributed separately. Under such conditions, an individual holding a fund-like Program Security as part of his or her private assets receives taxable income (which he or she must report annually) over such portion of distributions (in case the fund is distributing the income realised on the underlying investments) or earnings credits (in case the fund is reinvesting the income realised on the underlying investment) as derive from dividends and interest (less attributable costs) on the underlying instruments. Any distributions or credits deriving from capital gains realised on the underlying investments constitute a tax-free private capital gain, and any respective loss is a non-tax-deductible private capital loss. Any gain realised within a taxation period on the sale of a fund-like Program Security (including accrued dividends and interest) is exempt from income taxation as a private capital gain, and, conversely, any loss realised on such a Program Security is a non-tax-deductible capital loss.

Program Securities held as Assets of a Swiss Business

Corporate entities and individuals who hold Program Securities as part of a trade or business in Switzerland, in the case of residents abroad carried on through a permanent establishment or a fixed place of business in Switzerland, are required to recognise any payments on, and any capital gains or losses realised on the sale or redemption of, such Program Securities (irrespective of their classification) in their income statement for the respective taxation period and will be taxed on any net taxable earnings for such period.

The same taxation treatment also applies to Swiss-resident individuals who, for income tax purposes, are classified as "professional securities dealers" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities.

Capital Gains

Program Securities held as Private Assets by a Swiss resident Holder

A gain, a loss, respectively, realised by an individual resident in Switzerland for tax purposes upon the sale or other disposal of a Program Security held as part of his or her private assets is a tax-free private capital gain, or a non-tax deductible capital loss, respectively, unless such individual is classified, for income tax purposes, as a "professional securities dealer" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities. If an individual is classified as "professional securities dealer" he or she will be taxed in accordance with the principles set forth above under "*Income Taxation, —Program Securities held as Assets of a Swiss Business*". Concerning the bifurcation of a tax-exempt capital gain component, or a non-tax deductible capital loss component, respectively, from taxable income components of a Program Security see the bifurcation principles set forth above with regard to the different instruments under "*Income Taxation, —Program Securities held as Private Assets by a Swiss resident Holder*").

Program Securities held as Assets of a Swiss Business

Capital gains realised on Program Securities held as Assets of a Swiss Business are taxed in accordance with the taxation principles set forth above under "*—Income Taxation, —Program Securities held as Assets of a Swiss Business*").

Swiss Federal Stamp Taxes

The issuance of Program Securities on the Issue Date (primary market) is exempt from Swiss federal securities turnover tax (*Umsatzabgabe*), except that the issuance of Program Securities which are classified as fund-like instruments may be subject to Swiss federal securities turnover tax of up to 0.3 per cent. on the offering price, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and, additionally, if no exemption applies.

Dealings in Program Securities (secondary market) which classify as pure derivative financial instruments (such as pure call and put options, including low exercise price options with a maturity not exceeding twelve months, pure futures with a maximal pre-financing of 25 per cent., fully-funded Program Securities statically replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) are exempt from Swiss federal securities turnover tax. Dealings in other Program Securities may be subject to Swiss federal securities turnover tax of up to 0.3 per cent. on the consideration paid, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and, additionally, if no exemption applies.

The physical settlement of a security at exercise or redemption to the holder of the Program Security may be subject to Swiss federal securities turnover tax of 0.3 per cent. in case a security issued by an issuer outside Switzerland is delivered and of 0.15 per cent. in case a security issued by a Swiss domestic issuer is delivered, however, in each case, only if a Swiss domestic securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the delivery and, additionally, if no exemption applies.

Gift, Inheritance and Estate Taxes

Subject to an applicable tax treaty in an international situation, transfers of Program Securities may be subject to cantonal and/or communal inheritance tax, estate tax or gift tax if the deceased person has had his or her last domicile in Switzerland, the donor is resident in Switzerland, respectively, or in the case of a foreign deceased or resident person the transfer involves an unincorporated business in Switzerland and Program Securities are held as part of such business. No such taxes exist at the federal level. Rates depend upon the existing relationship (i.e. the relationship between the deceased and the heirs, or between the donor and the donee) and the size of the inheritance or gift. Interspousal gifts and gifts to descendants and inheritances collected by the surviving spouse and descendants are frequently exempt or taxed at low rates (up to 6 per cent.). Gifts and inheritances received from unrelated persons attract rates ranging from 20 per cent. to 40 per cent. The taxable base is usually the market value of the property transferred.

Net Worth and Capital Taxes

A holder of Program Securities who is an individual resident in Switzerland for tax purposes or is a non-Swiss resident holding Program Securities as part of a Swiss business operation or a Swiss permanent establishment is required to report Program Securities as part of private wealth or as part of Swiss business assets, as the case may be, and is subject to annual cantonal and/or communal private wealth tax on any net taxable wealth (including the Program Securities), in the case of a non-Swiss resident individual holding Program Securities as part of a Swiss business operation or a Swiss permanent establishment to the extent the aggregate taxable wealth is allocable to Switzerland. Incorporated holders of Program Securities are subject to cantonal and communal capital tax on net taxable equity, in the case of non-Swiss resident person holding Program Securities as part of a Swiss permanent establishment, to the extent the aggregate taxable equity is allocable to Switzerland. No net worth and capital taxes are levied at the federal level.

Non-Swiss resident Holders

A holder of a Program Security who is not resident in Switzerland and who during the taxation year has not engaged in a trade or business carried on through a permanent establishment or fixed place of business in Switzerland will in respect of such Program Security not be subject to income tax in Switzerland.

PROPOSED FINANCIAL TRANSACTION TAX

On 14 February 2013, the European Commission published a proposal (the “**Commission’s Original Proposal**”) for a Directive for a common financial transactions tax (“**FTT**”) in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “**Participating Member States**”). In December 2015, Estonia withdrew from the group of Participating Member States.

The Commission’s Original Proposal had a very broad scope and would, if introduced, have applied to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes would, however, have been exempt.

In 2019, the Finance Ministers of the Participating Member States indicated that they were discussing a new FTT proposal based on a French model of the tax (and the possible mutualisation of the tax as a contribution to the EU budget) (the “**2019 FTT Proposal**”). Under the 2019 FTT Proposal, the FTT would only have applied to transactions in financial instruments issued by a company, partnership or other entity whose registered office is established within one of the Participating Member States and which had a market capitalisation of at least EUR 1 billion on 1 December of the year preceding the respective transaction. The FTT under the 2019 FTT Proposal would not have applied to straight bonds.

No agreement has been reached between the Participating Member States on either the Commission’s Original Proposal or the 2019 FTT Proposal. Subsequently, the European Commission declared that, if there was no agreement between the Participating Member States by the end 2022, it would endeavour to propose a new own resource, based on a new FTT, by June 2024 with a view to its introduction by 1 January 2026, as also set out in the Council Regulation laying down the Multi-annual Financial Framework for the years 2021 to 2027.

Prospective holders of the Notes should therefore note that the scope of any FTT proposal remains uncertain and subject to negotiation between the Participating Member States. Any such proposal may also be altered prior to any implementation, the timing of which also remains unclear. Additional EU Member States may decide to participate and/or other Participating Member States may decide to withdraw. Accordingly, prospective holders of the Notes are advised to seek their own professional advice in relation to any FTT.

SUBSCRIPTION AND SALE

Each Issuer is offering the Securities on a continuing basis through MSI plc of 25 Cabot Square, Canary Wharf, London E14 4QA (which may act in whole or in part through an affiliate thereof) (Legal Entity Identifier: 4PQUHN3JPF GFNF3BB653) (the "**Distribution Agent**"), who has agreed to use reasonable efforts to solicit, directly or through an affiliate, offers to purchase the Securities. Each Issuer will have the sole right to accept offers to purchase Securities and may reject any offer in whole or in part. The Distribution Agent will have the right to reject any offer to purchase Securities solicited by it in whole or in part. Each Issuer may pay the Distribution Agent, in connection with sales of the Securities resulting from a solicitation the Distribution Agent made or an offer to purchase received by the Distribution Agent, a commission, which may be in the form of a discount from the purchase price if the Distribution Agent is purchasing the Securities for its own account.

Each Issuer may also sell Securities to the Distribution Agent as principal for its own account at a price to be agreed upon at the time of sale. The Distribution Agent may resell any Securities it purchases as principal at prevailing market prices, or at other prices, as the Distribution Agent determines.

The arrangements for the offer and sale of the Securities from time to time are set out in the Regulation S Distribution Agreement dated on or about 17 July 2013, as last modified and restated on 15 July 2022 (as modified and restated from time to time, the "**Distribution Agreement**") among Morgan Stanley, MSI plc, MSBV, MSFL and the Distribution Agent. Pursuant to the Distribution Agreement, Morgan Stanley, MSI plc, MSBV, MSFL and the Distribution Agent have agreed to indemnify each other against certain liabilities, or to contribute payments made in respect thereof. Morgan Stanley, MSI plc, MSBV and MSFL have also agreed to reimburse the Distribution Agent for certain expenses. The Distribution Agreement makes provision for the appointment of additional Distribution Agents who may agree to become bound by its terms (either in relation to the Securities generally or in relation to a particular Series of Securities) in an accession letter provided by each such additional Distribution Agent to the Issuers.

In order to facilitate the offering of the Securities, the Distribution Agent may engage in transactions that stabilise, maintain or otherwise affect the price of the Securities or any other securities the prices of which may be used to determine payments on those Securities. Specifically, the Distribution Agent may over allot in connection with any offering of the Securities, creating a short position in the Securities for their own accounts. In addition, to cover overallocments or to stabilise the price of the Securities or of any other securities, the Distribution Agent may bid for, and purchase, Securities or any other securities in the open market. Finally, in any offering of the Securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the Securities in the offering if the syndicate repurchases previously distributed Securities in transactions to cover syndicate short positions, in stabilisation transactions or otherwise. Any of these activities may stabilise or maintain the market price of the Securities above independent market levels. The Distribution Agent is not required to engage in these activities and may end any of these activities at any time.

United States of America

The Securities, any interest therein and any Guarantee in respect thereof, and the securities to be delivered on exercise or redemption of the Securities (if any), have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and are subject to U.S. tax law requirements. None of the Issuers or the Guarantor are registered or will register under the Investment Company Act of 1940, as amended. Trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission pursuant to the Commodity Exchange Act of 1936, as amended. The Securities, any interest therein and any Guarantee in respect thereof, and the securities to be delivered on exercise or redemption of the Securities (if any), may not be offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed at any time, directly or indirectly, within the United States or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S under the Securities Act ("**Regulation S**")). Each Distribution Agent (1) has acknowledged that the Securities, any interest therein and any Guarantee in respect thereof, and the securities to be delivered on exercise or redemption of the Securities (if any), have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States, and the Securities are not being offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed and may not be offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed at any time, directly or indirectly, within the United States or to, or for the account or benefit of, U.S. Persons; (2) has represented, as a condition to acquiring any interest in the Securities, that neither it nor any persons on whose behalf or for whose account or benefit the Securities are being acquired is a U.S. Person, that it is not located in the United States, and was not solicited to purchase Securities while present in the United States; (3) has agreed

not to offer, sell, pledge, assign, deliver or otherwise transfer, exercise or redeem any of the Securities at any time, directly or indirectly, within the United States or to, or for the account or benefit of, any U.S. Person and that hedging transactions involving any "equity securities" of "domestic issuers" (as such terms are defined in the Securities Act and regulations thereunder) may be conducted only in accordance with the Securities Act; (4) has agreed that any hedging transactions involving "equity securities" of "domestic issuers" (as such terms are defined in the Securities Act and regulations thereunder) will be conducted only in accordance with the Securities Act and (5) has agreed that, at or prior to confirmation of sale of any Securities (whether upon original issuance or in any secondary transaction), it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Securities from it a written notice containing language substantially the same as the foregoing. As used herein, "**United States**" means the United States of America (including the states and the District of Columbia), its territories and possessions.

In addition, the Distribution Agents have represented and agreed that they have not offered or sold Securities and any Guarantee in respect thereof and will not offer or sell Securities and any Guarantee in respect thereof *at any time* except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, the Distribution Agents have represented and agreed that neither they, their affiliates (if any) nor any person acting on behalf of any of them has engaged or will engage in any directed selling efforts with respect to Securities and any Guarantee in respect thereof, and they have all complied and will comply with the offering restrictions requirements of Regulation S. Terms used in this paragraph have the meanings given to them in Regulation S.

An offer or sale of Securities within the United States by any dealer (whether or not participating in the offering of such Securities) may violate the registration requirements of the Securities Act.

European Economic Area

In relation to each Member State of the European Economic Area (each, a "**Relevant Member State**"), the Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Distribution Agreement will be required to represent and agree, in relation to each Tranche of Securities, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Issue Terms in relation thereto (or are the subject of the offering contemplated by a Drawdown Prospectus, as the case may be) to the public in that Relevant Member State except that it may make an offer of such Securities to the public in that Relevant Member State:

- (a) if the Issue Terms or Drawdown Prospectus in relation to the Securities specify that an offer of those Securities may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, **provided that** any such prospectus which is not a Drawdown Prospectus has subsequently been completed by the Issue Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Issue Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the Distribution Agent nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Securities referred to in (b) to (d) above shall require the relevant Issuer or any Distribution Agent to publish a prospectus pursuant to Article 3 of the Prospectus Regulation, or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an "**offer of Securities to the public**" in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor

to decide to purchase or subscribe for the Securities and the expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

Prohibition of Sales to EEA Retail Investors

Unless the Issue Terms in respect of any Securities specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Program will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Issue Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (A) the expression "retail investor" means a person who is one (or more) of the following:
 - (1) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
 - (2) a customer within the meaning of the Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (3) not a qualified investor as defined in the Prospectus Regulation; and
- (B) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities.

United Kingdom

In relation to each Tranche of Securities, the Distribution Agent has represented and agreed, subscribing for or purchasing such Securities, and each further Distribution Agent appointed under the Distribution Agreement will be required to represent and agree, with, the relevant Issuer and, if the Securities are issued by MSBV or MSFL, the Guarantor that:

- (a) ***Securities with maturities of less than one year:*** in relation to any Securities which have a maturity of less than one year, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell any Securities other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Securities would otherwise constitute a contravention of Section 19 of the Financial Services and Markets Act 2000 ("**FSMA**") by the Issuer or the Guarantor, if applicable;
- (b) ***Financial promotion:*** it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Securities in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer or the Guarantor, if applicable; and
- (c) ***General compliance:*** it has complied and will comply with all applicable provisions of the FSMA and the Financial Conduct Authority Handbook with respect to anything done by it in relation to any Securities in, from or otherwise involving the United Kingdom; and
- (d) ***Commissions and fees:***
 - (i) if it is distributing Securities that are "retail investment products" (as such term is defined in the Financial Conduct Authority Handbook) into the United Kingdom and it is entitled to receive any commission or fee from the Issuer, it will not transfer any part of that commission or fee to any third party who may advise retail investors to purchase a Security that is a retail investment product; and
 - (ii) if it is authorised and regulated by the Financial Conduct Authority to provide investment advice to retail investors in the United Kingdom and it is providing advice to retail investors in respect of a Security that is a retail investment product, it undertakes not to request any commission or fee from the Issuer and to otherwise reject any such payment

offered to it other than in circumstances where the Issuer has agreed to facilitate the payment of an advisory fee and has the express consent of the retail investor to do so.

The Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Distribution Agreement will be required to represent and agree, in relation to each Tranche of Securities, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Issue Terms in relation thereto (or are the subject of the offering contemplated by a Drawdown Prospectus, as the case may be) to the public in the United Kingdom except that it may make an offer of such Securities to the public in the United Kingdom:

- (a) if the Issue Terms or Drawdown Prospectus in relation to the Securities specify that an offer of those Securities may be made other than pursuant to section 86 of the FSMA (a "**Public Offer**"), following the date of publication of a prospectus in relation to such Securities which has been approved by the Financial Conduct Authority, provided that any such prospectus which is not a Drawdown Prospectus has subsequently been completed by the Issue Terms contemplating such Public Offer, in the period beginning and ending on the dates specified in such prospectus or Issue Terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Public Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the UK Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of the UK Prospectus Regulation) in the United Kingdom subject to obtaining the prior consent of the Distribution Agent nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Securities referred to in (b) to (d) above shall require the relevant Issuer or any Distribution Agent to publish a prospectus pursuant to section 85 of the FSMA, or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision, the expression an "**offer of Securities to the public**" in relation to any Securities means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities and the expression "**UK Prospectus Regulation**" means Regulation (EU) 2017/1129 as it forms part of "retained EU law", as defined in the European Union (Withdrawal) Act 2018 (the "**EUWA**").

Prohibition of Sales to UK Retail Investors

Unless the Issue Terms in respect of any Securities specifies the "Prohibition of Sales to UK Retail Investors" as "Not Applicable", each Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Program will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Issue Terms in relation thereto to any retail investor in the United Kingdom. For the purposes of this provision:

- (A) the expression "retail investor" means a person who is one (or more) of the following:
 - (1) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of "retained EU law", as defined in the EUWA; or
 - (2) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of "retained EU law", as defined in the EUWA; or
 - (3) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of "retained EU law", as defined in the EUWA; and

- (B) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities.

Austria

In addition to the provisions of the selling restriction for European Economic Area Member States (including Austria) and subject to the section "Prohibition of Sales to EEA Retail Investors" above, in relation to each Tranche of Securities, the Distribution Agent has represented and agreed, subscribing for or purchasing such Securities, and each further Distribution Agent appointed under the Distribution Agreement will be required to represent and agree, with, the relevant Issuer and, if the Securities are issued by MSBV or MSFL, the Guarantor that it will only offer, sell or otherwise make available, directly or indirectly, any Securities which are the subject of the offering contemplated by the Base Prospectus as completed by the Issue Terms in relation thereto in the Republic of Austria and will only distribute or publish this Base Prospectus or any other offering material or advertisement relating to any Securities in Austria in compliance with all laws, regulations and guidelines applicable in or promulgated by the relevant Austrian governmental and regulatory authorities and in effect at the relevant time, including the Austrian Securities Supervision Act 2018 (*Wertpapieraufsichtsgesetz 2018*), the Austrian Capital Market Act 2019 (*Kapitalmarktgesetz 2019*) as well as the Austrian Alternative Investment Fund Managers Act 2013 (*Alternative Investmentfonds Manager-Gesetz 2013*), each as amended and supplemented from time to time.

Belgium – Prohibition of sales to consumers

Unless the relevant Issue Terms in respect of any Securities specifies the "Supplementary Provisions for Belgian Securities" as "Applicable", each Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Programme will be required to represent and agree, that it has not offered or sold or otherwise made available and it that will not offer or sell or otherwise make available the Securities to "consumers" (*consumenten/consommateurs*) within the meaning of the Belgian Code of Economic Law (*Wetboek economisch recht/Code de droit économique*).

The Securities shall not be physically delivered in Belgium, except to a clearing system, a depository or other institution for the purpose of their immobilisation in accordance with article 4 of the Belgian Law of 14 December 2005.

Czech Republic

For selling restrictions in respect of the Czech Republic, please see "*European Economic Area*" and "*Prohibition of Sales to EEA Retail Investors*" above and in addition:

The Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Distribution Agreement will be required to represent and agree that it has complied with and will comply with all the requirements of the Act of the Czech Republic No. 256/2004 Coll., on Capital Market Undertakings, as amended (the "**Czech Capital Market Act**") and has not taken, and will not take, any action which would result in the Securities being deemed to have been issued pursuant to Czech law or in the Czech Republic, the issue of the Securities being qualified as "accepting of deposits from the public" by the relevant Issuer in the Czech Republic under Section 2(2) of the Act of the Czech Republic No. 21/1992 Coll., on Banks, as amended (the "**Czech Banking Act**") or requiring a permit, registration, filing or notification to the Czech National Bank or other authorities in the Czech Republic in respect of the Securities in accordance with the Prospectus Regulation, the Czech Capital Market Act, the Czech Banking Act or the practice of the Czech National Bank.

All the laws of the Czech Republic applicable to the conduct of business in the Czech Republic (including the laws applicable to the provision of investment services (within the meaning of the Czech Capital Market Act) in the Czech Republic) in respect of the Securities have been complied with.

No action has been taken or will be taken which would result in the issue of the Securities being considered an intention to manage assets by acquiring funds from the public in the Czech Republic for the purposes of

collective investment pursuant to defined investment policy in favour of the investors under the Act of the Czech Republic No. 240/2013 Coll., on Management Companies and Investment Funds, as amended (the "MCIFA"), which implements Alternative Investment Funds Managers Directive (Directive 2011/61/EU). Any issue, offer or sale of the Securities has been or will be carried out in strict compliance with the MCIFA.

Finland

The Distribution Agent has confirmed and agreed and each further Distribution Agent appointed by the Issuers under the Program will be required to confirm and agree that it will not publicly offer the Securities or bring the Securities into general circulation in Finland other than in compliance with all applicable provisions of the laws of Finland and especially in compliance with the Finnish Securities Market Act (*arvopaperimarkkinalaki*, 746/2012) and the Prospectus Regulation, and any regulation or rule made thereunder, as supplemented and amended from time to time.

France

The Distribution Agent has represented and agreed and each further Distribution Agent appointed under the Programme will be required to represent and agree that:

- (a) Offers to the public in France not exempted from the obligation to publish a prospectus:

it has only made and will only make an offer, directly or indirectly, of Securities to the public in France in the period beginning on or after the date of notification to the *Autorité des marchés financiers* ("AMF") of the approval of a prospectus relating to those Securities by the CSSF and ending at the latest on the date which is 12 months after the date of the approval of this Base Prospectus by the CSSF, all in accordance with the Prospectus Regulation and any applicable French law and regulation; or

- (b) Offers addressed solely to qualified investors in France:

it has only offered or sold and will only offer or sell, directly or indirectly, any Securities in France to, and it has only distributed or caused to be distributed and will only distribute or cause to be distributed in France, this Base Prospectus, the relevant Issue Terms or any other offering or marketing material relating to the Securities to qualified investors as defined in Article 2(e) of the Prospectus Regulation.

Ireland

In relation to each Tranche of Securities, the Distribution Agent subscribing for or purchasing such Securities has represented to, warranted and agreed with, or will represent to, warrant and agree with, the Issuer and the Guarantor that:

- (a) it will not underwrite the issue of, or place the Securities, otherwise than in conformity with the provisions of the European Union (Markets in Financial Instruments) Regulations 2017 (as amended) (the "**MiFID II Regulations**") including, without limitation, Regulation 5 (Requirement for Authorisation (and certain provisions concerning MTFs and OTFs)) thereof, or any rules or codes of conduct made under the MiFID II Regulations and the provisions of the Investor Compensation Act 1998 (as amended);
- (b) it will not underwrite the issue of, or place, the Securities, otherwise than in conformity with the provisions of the Companies Act 2014 of Ireland (as amended, the "**Irish Companies Act**") Irish Central Bank Acts 1942 – 2018 (as amended) and any codes of conduct rules made under Section 117(1) of the Central Bank Act 1989 (as amended) or section 48 of the Central Bank (Supervision and Enforcement) Act 2013;
- (c) it will not underwrite the issue of, place or otherwise act in Ireland in respect of the Securities, otherwise than in conformity with the provisions of the Market Abuse Regulation (EU 596/2014) (as amended), the European Union (Market Abuse) Regulations 2016 (as amended) and any rules and guidance issued by the Central Bank of Ireland under Section 1370 of the Irish Companies Act;
- (d) it will not underwrite the issue of, or place, the Securities, otherwise than in conformity with the Prospectus Regulation, the European Union (Prospectus) Regulations 2019 of Ireland and any

rules and guidance issued under Section 1363 of the Irish Companies Act by the Central Bank of Ireland; and

- (e) any issue of Securities with a legal maturity of less than one year will be carried out in strict compliance with the Central Bank of Ireland's implementation notice for credit institutions BSD C 01/02 of 12 November 2002 (as may be amended, replaced or up-dated) and issued pursuant to Section 8(2) of the Irish Central Bank Act, 1971 (as amended).

Norway

In addition to the provisions of the selling restriction for European Economic Area Member States (including Norway) and subject to the section "Prohibition of Sales to EEA Retail Investors" above, the Distribution Agent represents and agrees that it will not, directly or indirectly, offer for subscription or purchase or issue invitations to subscribe for or buy or sell Securities or distribute any draft or definitive document in relation to any such offer, invitation or sale in Norway or to Norwegian residents except in compliance with Norwegian laws and regulations, including but not limited to section 16-2 of the Norwegian Financial Institutions Regulations (Norwegian: *finansforetaksforskriften*) of 9 December 2016 no. 1502, as amended, regarding sale of structured products.

Poland

In addition to the provisions of the selling restriction for European Economic Area Member States (including Poland) and subject to the section "Prohibition of Sales to EEA Retail Investors" above, in relation to each Tranche of Securities, the Distribution Agent has represented and agreed, subscribing for or purchasing such Securities, and each further Distribution Agent appointed under the Distribution Agreement will be required to represent and agree, with, the relevant Issuer and, if the Securities are issued by MSBV or MSFL, the Guarantor that it will only offer, sell or otherwise make available, directly or indirectly, any Securities which are the subject of the offering contemplated by the Base Prospectus as completed by the Issue Terms in relation thereto in Poland and will only distribute or publish this Base Prospectus or any other offering material or advertisement relating to any Securities in Poland in compliance with all laws, regulations and guidelines applicable in or promulgated by the relevant Polish governmental and regulatory authorities and in effect at the relevant time, including the Polish Act on Trading in Financial Instruments of 2005 (*Ustawa o obrocie instrumentami finansowymi*) as well as the Polish Act on Public Offering, Conditions Governing the Introduction of Financial Instruments to Organized Trading, and Public Companies of 2005 (*Ustawa o ofercie publicznej i warunkach wprowadzania instrumentów finansowych do zorganizowanego systemu obrotu oraz o spółkach publicznych*), each as amended and supplemented from time to time.

Portugal

The Distribution Agent has represented and agreed, and each and any additional distribution agent appointed under the Distribution Agreement will be required to represent and agree, that the Securities may not be and will not be offered to the public in Portugal or under circumstances which are deemed to be a public offer under the Portuguese Securities Code ("*Código dos Valores Mobiliários*") enacted by Decree-Law no. 486/99 of 13 November, 1999, as amended, unless the requirements and provisions applicable to the public offerings in Portugal are met and registration, filing, approval or recognition procedure with the Portuguese Securities Exchange Commission ("*Comissão do Mercado de Valores Mobiliários*", "CMVM") is made. In particular, the offer of new securities might be made through a private placement ("*oferta particular*"), in accordance with the relevant provisions of the Portuguese Securities Code, exclusively to professional investors ("*investidores profissionais*") within the meaning of Article 30 of the Portuguese Securities Code, and/or to 149 or fewer non-qualified investors. In addition, the Distribution Agent has represented and agreed, and each and any additional distribution agent appointed under the Distribution Agreement will be required to represent and agree, that (i) no action has been or will be taken as to directly or indirectly offer, advertise, market, invite to subscribe, gather investment intentions, sell, re-sell, re-offer or deliver any Securities in circumstances which could qualify as a public offer ("*oferta pública*") of securities pursuant to the Portuguese Securities Code, notably in circumstances which could qualify as a public offer addressed to individuals or entities resident in Portugal or having permanent establishment located in Portuguese territory, as the case may be; and (ii) no action has been or will be taken as to distribute, make available or cause to be distributed the Base Prospectus or any other offering material relating to the Securities to the public in Portugal, other than in compliance with all applicable provisions of the Portuguese Securities Code, the Commission Delegated Regulation (EU) 2019/980, any applicable CMVM regulations and all relevant Portuguese securities laws and regulations, in any such case that may

be applicable to it in respect of any offer or sale of Securities in Portugal or to individuals or entities resident in Portugal or having permanent establishment located in Portuguese territory, as the case may be, including the rules and regulations that require the publication of a prospectus, when applicable, and that any placement of the Securities shall only be authorized and performed to the extent that there is full compliance with such laws and regulations.

Republic of Italy

Unless specified in the relevant Issue Terms that a Non-exempt Offer may be made in Republic of Italy, the offering of the Securities has not been registered with the *Commissione Nazionale per le Società e la Borsa* ("**CONSOB**") pursuant to Italian securities legislation and, accordingly, the Distribution Agent has represented and agreed that, save as set out below, it has not offered or sold, and will not offer or sell, any Securities in the Republic of Italy in an offer to the public and that sales of the Securities in the Republic of Italy shall be effected in accordance with all Italian securities, tax and exchange control and other applicable laws and regulation.

Accordingly, the Distribution Agent has represented and agreed that it will not offer, sell or deliver any Securities or distribute copies of this Base Prospectus (including the applicable Issue Terms) and any other document relating to the Securities in the Republic of Italy except:

- (1) to "qualified investors", pursuant to Article 2 of the Prospectus Regulation; or
- (2) that it may offer, sell or deliver Securities or distribute copies of the Base Prospectus (including the applicable Issue Terms) in an offer to the public if the Issue Terms in relation to the Securities specify that a Non-exempt Offer may be made in the Republic of Italy, **provided that** the Base Prospectus (including the applicable Issue Terms) has been notified to CONSOB, all in accordance with the Prospectus Regulation and the applicable Italian laws, in the period beginning and ending on the dates specified in the applicable Issue Terms; or
- (3) in any other circumstances which are exempted from the rules on public offerings pursuant to Article 1 of the Prospectus Regulation, Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended (the "**Decree No. 58**"), Article 34-*ter* of CONSOB Regulation No. 11971 of 14 May 1999, as amended from time to time, and the applicable Italian laws.

Any such offer, sale or delivery of the Securities or distribution of copies of the Base Prospectus (including the applicable Issue Terms) or any other document relating to the Securities in the Republic of Italy must be:

- (a) made by investment firms, banks or financial intermediaries permitted to conduct such activities in the Republic of Italy in accordance with Legislative Decree No. 385 of 1 September 1993 as amended (the "**Banking Act**"), Decree No. 58, CONSOB Regulation No. 20307 of 15 February 2018, as amended and any other applicable laws and regulations;
- (b) in compliance with Article 129 of the Banking Act, as amended, and the implementing guidelines of the Bank of Italy, as amended from time to time, with regard, *inter alia*, to the reporting obligations required; and
- (c) in compliance with any other applicable requirement or limitation which may be imposed by CONSOB or the Bank of Italy or other Italian authority.

Provisions relating to the secondary market in Italy

Investors should also note that, in any subsequent distribution of the Securities in the Republic of Italy, Article 5 of the Prospectus Regulation and Article 100-bis of Decree No. 58 may require compliance with the law relating to public offers of securities. Furthermore, where the Securities are placed solely with "qualified investors" and are then systematically ("*sistematicamente*") resold on the secondary market at any time in the 12 months following such placing, purchasers of Securities who are acting outside of the course of their business or profession may in certain circumstances be entitled to declare such purchase void and, in addition, to claim damages from any authorised person at whose premises the Securities were purchased, unless an exemption provided for under the Prospectus Regulation and Decree No. 58 applies.

Spain

The Securities may not be listed, offered, sold or distributed in Spain nor any document or offer material be distributed in Spain or targeted at Spanish resident investors, except in accordance with the requirements set out in the Prospectus Regulation and any other related regulations that may be in force from time to time in Spain, including, among others, Law 6/2023 of 17 March of the Securities Markets and Investment Services (*Ley 6/2023, de 17 de marzo, de los Mercados de Valores y de los Servicios de Inversión*) as amended and restated and, to the extent applicable, Royal Decree 1310/2005 of 4 November on admission to trading of securities in official secondary markets, public offerings and prospectus (*Real Decreto 1310/2005 de 4 de noviembre, por el que se desarrolla parcialmente la Ley 24/1988, de 28 de julio, de Mercado de Valores, en materia de admisión a negociación de valores en mercados secundarios oficiales, de ofertas públicas de venta o suscripción y del folleto exigible a tales efectos*) as amended and restated.

Sweden

The Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Program will be required to represent and agree, that no offer will be made to the public in Sweden unless it is in compliance with the Prospectus Regulation and the Swedish Act (2019:414) with supplementary provisions to the Prospectus Regulation as amended and/or replaced.

Switzerland

The Securities must not be offered in Switzerland and each offeror of Securities represents and agrees that it has not made and will not make an offer of the Securities to the public in Switzerland, except that the Securities may be offered and an offeror may make an offer of the Securities to the public in Switzerland:

- (a) if the relevant Final Terms in respect of any Securities specifies the "Prohibition of Offer to Private Clients in Switzerland" to be "Not Applicable" and consent has been granted to its use for the purpose of such offer to the public in accordance with Article 36(4) FinSA and Article 45 Financial Services Ordinance ("**FinSO**");
- (b) in any circumstances falling within the exemptions listed in Article 36(1) of the Financial Services Act ("**FinSA**"); or
- (c) where such offer does not qualify as a public offer in Switzerland,

provided that no offer of Securities referred to in (2) and (3) above shall require the Issuer or any offeror to publish a prospectus pursuant to Article 35 FinSA. For the purposes of this provision, the expression "offer to the public" refers to the respective definitions in Article 3(g) and (h) FinSA and as further detailed in the FinSO and provided that a key information document under article 58 FinSA (Basisinformationsblatt für Finanzinstrumente) or article 59 para. 2 FinSA in respect of the Securities is published.

The Netherlands

For selling restrictions in respect of The Netherlands, see "*European Economic Area*" and "*Prohibition of Sales to EEA Retail Investors*" above and in addition:

Regulatory capacity to offer Securities in The Netherlands: The Distribution Agent, and each further Distribution Agent appointed under the Distribution Agreement, which did and does not have the requisite Dutch regulatory capacity to make offers or sales of financial instruments in The Netherlands has represented and agreed respectively will be required to represent and agree with the Issuers that it has not offered or sold and will not offer or sell any of the Securities of the relevant Issuer in The Netherlands, other than through one or more investment firms acting as principals and having the Dutch regulatory capacity to make such offers or sales.

If the Issue Terms in respect of any Securities specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Program will be required to represent and agree, that the Securities (or any interest therein) may not be offered to the public in the Netherlands in reliance on Article 1(4) of the Prospectus Regulation unless (a) such offer was or is made exclusively to persons or entities which are qualified investors as defined in the Prospectus Regulation or (b) each such Security has a minimum denomination (in the case of notes) or unit value (in the case of certificates) in excess of EUR 100,000 (or

the equivalent thereof in non-Euro currency) and subject to compliance with the relevant requirements under Regulation (EU) No 1286/2014.

Specific Dutch selling restriction for Zero Coupon Securities: Zero Coupon Securities issued by MSBV in bearer form and other Securities issued by MSBV in bearer form on which no interest is paid during their tenor may fall within the definition of savings certificates as referred to in the Dutch Savings Certificates Act (*Wet inzake spaarbewijzen*) and if so any transfer or acceptance, directly or indirectly, within, from or into The Netherlands of such Securities issued by MSBV is prohibited unless it is done through the mediation of either MSBV or a member of Euronext Amsterdam N.V., and certain identification requirements in relation to the issue, transfer of or payment on Securities issued by MSBV qualifying as savings certificates have to be complied with. The above prohibition does not apply (i) to a transfer and acceptance of such Securities issued by MSBV between individuals who do not act in the conduct of a profession or a business; (ii) to the initial issue and trading of such Securities by MSBV to the first holders thereof; and (iii) to the issue and trading of such Securities by MSBV if such Securities issued by MSBV are physically issued outside of The Netherlands and are not immediately thereafter distributed in The Netherlands or to residents of The Netherlands in the course of primary trading.

NO OWNERSHIP BY U.S. PERSONS

The Securities may not be legally or beneficially owned by U.S. Persons at any time. The term "**U.S. Person**" will have the meaning ascribed to it in Regulation S under the Securities Act.

Each purchaser of Securities, by accepting delivery of this Base Prospectus or the Securities, will be deemed to have represented, agreed and acknowledged that:

(a) it is, or at the time such Securities are purchased will be, the beneficial owner of such Securities and it is not, and is not acting for the account or benefit of, a U.S. Person and it is located outside the United States and was not solicited to purchase such Securities while present in the United States;

(b) such Securities, any interest therein and any Guarantee in respect thereof, and the securities to be delivered on exercise or redemption of the Securities (if any), have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States, are subject to U.S. tax law requirements and may not be offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed at any time, directly or indirectly, except to a person that is not a U.S. Person (within the meaning of Regulation S) in an "offshore transaction" in accordance with Rule 903 or Rule 904 of Regulation S, in each case in accordance with all applicable securities laws of any state of the United States and any other applicable jurisdiction and it will provide notice of the foregoing transfer restriction to any subsequent transferee;

(c) such Securities will bear a legend substantially to the following effect:

"THIS SECURITY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**"), OR ANY SECURITIES LAWS OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES; AND IS SUBJECT TO U.S. TAX LAW REQUIREMENTS. THIS SECURITY MAY NOT BE OFFERED, SOLD OR DELIVERED AT ANY TIME, DIRECTLY OR INDIRECTLY, WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OF, U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT)."

and

(d) the Issuers, the Guarantor, the Registrar, the Distribution Agents and their affiliates, and others will rely upon the truth and accuracy of the foregoing acknowledgments, representations and agreements.

FORM OF GUARANTEE

THIS GUARANTEE is made on [●] 2023 by MORGAN STANLEY, a corporation incorporated under the laws of the State of Delaware (the "**Guarantor**" or "**Morgan Stanley**").

WHEREAS:

- (A) The Guarantor, Morgan Stanley & Co. International plc ("**MSI plc**"), Morgan Stanley B.V. ("**MSBV**") and Morgan Stanley Finance LLC ("**MSFL**") have established a Regulation S Program (the "**Program**") for the Issuance of Notes ("**Notes**") and Certificates ("**Certificates**"), Series A and Series B ("**Securities issued under the Program**") and Warrants ("**Warrants**", together with the Securities issued under the Program, the "**Program Securities**").
- (B) Securities issued under the Program may be issued: (i) under the issue and paying agency agreement dated [●] 2023 (as from time to time further modified and/or restated, the "**Issue and Paying Agency Agreement**") between (amongst others) MSBV, MSFL, MSI plc, the Guarantor and The Bank of New York Mellon, London Branch; (ii) as securities in dematerialised and uncertificated book-entry form with a Nordic central securities depository ("**Nordic Securities**") under the issuing and paying agent agreement dated 11 April 2016 between Skandinaviska Enskilda Banken AB (publ), MSI plc and MSBV (as from time to time further modified and/or restated the "**SEB Issuing and Paying Agent Agreement**") and, in the case of either (i) or (ii), with the benefit of either a deed of covenant dated 17 July 2013 entered into by MSBV, a deed of covenant dated 17 July 2013 entered into by MSI plc, a deed of covenant dated 17 July 2013 entered into by Morgan Stanley or a deed of covenant dated 21 October 2016 entered into by MSFL, as applicable; or (iii) under the Euroclear agreement dated [●] 2023 (as from time to time further modified and/or restated, the "**Euroclear Agreement**") between (amongst others) MSBV, MSI plc, the Guarantor and Computershare Investor Services (Guernsey) Limited.
- (C) Securities issued under the Program as are issued by MSBV or MSFL (each an "**Issuer**") under the Issue and Paying Agency Agreement, the SEB Issuing and Paying Agent Agreement (in respect of MSBV only) or the Euroclear Agreement (in respect of MSBV only) (together the "**Relevant Securities**") will have the benefit of this Guarantee (subject as provided below). For the avoidance of doubt, Program Securities which are not Relevant Securities will not have the benefit of this Guarantee.

THE GUARANTOR HEREBY guarantees unconditionally and irrevocably the payment obligations under the terms of the Relevant Securities issued by MSBV and MSFL on or after the date hereof (the "**Guaranteed Securities**").

If the Guaranteed Securities are held by a common depository or common safekeeper for Euroclear Bank S.A./N.V. (the "**Euroclear Operator**"), Clearstream Banking, *société anonyme* ("**Clearstream, Luxembourg**") or such other clearing system as specified in the applicable final terms ("**Final Terms**") or pricing supplement ("**Pricing Supplement**") (or, if applicable, any relevant drawdown prospectus ("**Drawdown Prospectus**")) with respect to any series of Guaranteed Securities, the Guarantor covenants to each person who is for the time being shown in the records of the relevant clearing system or registrar as the holder of a principal amount (in the case of notes) or number (in the case of certificates) of the Guaranteed Securities (the "**Accountholders**") that it shall make such payments under this Guarantee and acknowledges that the Accountholders may take proceedings to enforce this Guarantee directly against the Guarantor. The holders of the Guaranteed Securities from time to time and the Accountholders are referred to herein as the Holders. References to the Euroclear Operator, Clearstream or any other clearing system shall include their respective successors and assigns.

The Guarantor hereby agrees that it shall not be necessary, as a condition to enforce this guarantee, that suit be first instituted against the applicable Issuer or that any rights or remedies against such Issuer be first exhausted. Rather, it is understood and agreed that the liability of the Guarantor hereunder shall be primary, direct, and in all respects, unconditional. The obligations of the Guarantor under this Guarantee constitute direct, unconditional and unsecured obligations of the Guarantor and rank without preference among themselves and, subject as aforesaid, *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Guarantor, present and future, but, in the event of insolvency, only to the extent permitted by laws affecting creditors' rights.

The Guarantor shall be fully liable as if it were the principal debtor under the Guaranteed Securities whether any time has been granted to the applicable Issuer, whether the obligations of the Issuer under

the Guaranteed Securities have ceased to exist pursuant to bankruptcy, corporate reorganization or other similar event, whether the applicable Issuer has been dissolved or liquidated or consolidated or has changed or lost its corporate identity and whether or not any other circumstances have occurred which might otherwise constitute a legal or equitable discharge of or defense to a guarantor.

If any moneys shall become payable by the Guarantor under this Guarantee, the Guarantor shall not for so long as the same remain unpaid in respect of any amount paid by it under this Guarantee exercise any right or subrogation in relation to the applicable Issuer or any other right or remedy which may accrue to it in respect of or as a result of any such payment.

The Guarantee of the Guarantor provided in respect of Guaranteed Securities of an Issuer will terminate upon the merger of such Issuer with and into the Guarantor.

All payments pursuant to this Guarantee will be made without withholding or deduction for any taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied collected, withheld or assessed by the United States of America, or any political subdivision or any authority thereof having power to tax unless such withholding or deduction is required by law. The Guarantor shall not be required to make any additional payments on account of such withholding or deduction (except with respect to any additional payments required to be made by any Issuer under the Program). If the Guarantor becomes subject at any time to any taxing jurisdiction other than the United States of America, references in the Guarantee to the United States shall be construed as references to such other jurisdiction.

This guarantee shall be governed and construed in accordance with New York law, without regard to the conflict of laws principles.

This guarantee shall expire and is no longer effective once all amounts payable on or in respect of the Guaranteed Securities has been paid in full.

Dated as of [●] 2023

IMPORTANT LEGAL INFORMATION

1. *Offering through Distribution Agent*

Each Issuer is offering the Securities on a continuing basis through MSI plc (which may act in whole or in part through an affiliate thereof) (the "**Distribution Agent**"), which has agreed to use reasonable efforts to solicit, directly or through an affiliate, offers to purchase the Securities. Each Issuer may also sell Securities to the Distribution Agent as principal for its own account at a price to be agreed upon at the time of sale. The Distribution Agent may resell any Securities it purchases as principal at prevailing market prices, or at other prices, as it determines. Each Issuer or the Distribution Agent may reject any offer to purchase Securities, in whole or in part. See section entitled "*Subscription and Sale*" above.

2. *Credit Ratings*

Securities may or may not be rated. Any credit rating applied for in relation to an issue of Securities will be specified in the applicable Issue Terms. Whether or not such credit ratings applied for will be issued by a credit rating agency established in the European Union and registered under Regulation 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (the "**CRA Regulation**") will be disclosed in the Issue Terms. In general, European regulated issuers are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Economic Area ("**EEA**") and registered under the CRA Regulation unless (1) the rating is provided by a credit rating agency operating in the EEA before 7 June 2010 which has submitted an application for registration in accordance with the CRA Regulation and such registration has not been refused, or (2) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the CRA Regulation, or (3) the rating is provided by a credit rating agency not established in the EEA which is certified under the CRA Regulation. This Base Prospectus includes details of the long-term and short-term credit ratings assigned to Morgan Stanley by DBRS, Inc. ("**DBRS**"), Fitch Ratings, Inc. ("**Fitch**"), Moody's Investors Service, Inc. ("**Moody's**"), Rating and Investment Information, Inc. ("**R&I**") and Standard & Poor's Financial Services LLC through its business unit Standard & Poor's Global Ratings ("**S&P**"). The list of credit rating agencies registered under the CRA Regulation (as updated from time to time) is published on the website of the European Securities and Markets Authority (<https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>).

None of DBRS, Fitch, Moody's and S&P is established in the EEA or has applied for registration under the CRA Regulation. However, their respective affiliates are established in the EEA and registered under the CRA Regulation. Such affiliates endorse the ratings of DBRS, Fitch, Moody's and S&P for use for regulatory purposes in the EEA.

R&I is not incorporated in the EEA and is not registered under the CRA Regulation in the EU.

Notwithstanding the sub-section "Credit Ratings" in the "Information about Morgan Stanley" section of the Registration Document (as supplemented from time to time) incorporated by reference herein, the credit rating of Morgan Stanley's short-term and long-term debt is (i) R-1 (middle) and A (high), with a stable outlook, by DBRS, (ii) F1 and A+, with a stable outlook, by Fitch, (iii) P-1 and A1, with a stable outlook, by Moody's, (iv) a-1 and A, with a positive outlook, by R&I; and (v) A-2 and A- with a stable outlook, by S&P.

Notwithstanding the sub-section "Credit Ratings" in the "Information about Morgan Stanley & Co. International plc" section of the Registration Document (as supplemented from time to time) incorporated by reference herein, the credit rating of MSI plc's short-term and long-term debt is (i) P-1 and Aa3, with a stable outlook, by Moody's and (ii) A-1 and A+, with a stable outlook, by S&P.

MSBV has not been assigned a credit rating.

Notwithstanding the sub-section "Credit Ratings" in the "Information about Morgan Stanley Finance LLC" section of the Registration Document (as supplemented from time to time) incorporated by reference herein, the credit rating of MSFL's long-term debt is (i) A1, with a stable outlook, by Moody's and (ii) A-, with a stable outlook, by S&P *Different base prospectuses*

This document comprises four base prospectuses.

(i) ***Morgan Stanley Base Prospectus***

(ii) The Morgan Stanley base prospectus (the "**Morgan Stanley Base Prospectus**") will comprise this Base Prospectus with the exception of (A) information incorporated by reference herein from the Registration Document (as defined in "Incorporation by Reference" above) entitled (i) Description of Morgan Stanley & Co. International plc at pages 55-59 of the Registration Document, (ii) Description of Morgan Stanley B.V. at pages 60-63 of the Registration Document, (iii) Description of Morgan Stanley Finance LLC at pages 64-66 of the Registration Document and (B) items 7-12 incorporated by reference herein in the section entitled "Incorporation by Reference" above. ***MSI plc Base Prospectus***

(iii) The MSI plc base prospectus (the "**MSI plc Base Prospectus**") will comprise this Base Prospectus with the exception of (A) information incorporated by reference herein from the Registration Document entitled (i) Description of Morgan Stanley at pages 33-54 of the Registration Document, (ii) Description of Morgan Stanley B.V. at pages 60-63 of the Registration Document, (iii) Description of Morgan Stanley Finance LLC at pages 64-66 of the Registration Document and (iv) Subsidiaries of Morgan Stanley as of 31 December 2021 at page 67 of the Registration Document and (B) items 3-6 and items 9-12 incorporated by reference herein in the section entitled "Incorporation by Reference" above. ***MSBV Base Prospectus***

The MSBV base prospectus (the "**MSBV Base Prospectus**") will comprise this Base Prospectus with the exception of (A) information incorporated by reference herein from the Registration Document entitled (i) Description of Morgan Stanley at pages 33-54 of the Registration Document, (ii) Description of Morgan Stanley & Co. International plc at pages 55-59 of the Registration Document, (iii) Description of Morgan Stanley Finance LLC at pages 64-66 of the Registration Document and (iv) Subsidiaries of Morgan Stanley as of 31 December 2021 at page 67 of the Registration Document and (B) items 7-8 and items 11-12 incorporated by reference herein in the section entitled "Incorporation by Reference" above.

(iv) ***MSFL Base Prospectus***

The MSFL base prospectus (the "**MSFL Base Prospectus**") will comprise this Base Prospectus with the exception of (A) information incorporated by reference herein from the Registration Document entitled (i) Description of Morgan Stanley at pages 33-54 of the Registration Document, (ii) Description of Morgan Stanley & Co. International plc at pages 55-59 of the Registration Document, (iii) Description of Morgan Stanley B.V. at pages 60-63 of the Registration Document and (iv) Subsidiaries of Morgan Stanley as at 31 December 2021 at page 67 of the Registration Document and (B) items 7-10 incorporated by reference herein in the section entitled "Incorporation by Reference" above.

3. ***Responsibility Statements***

Morgan Stanley accepts responsibility for information contained in the Morgan Stanley Base Prospectus and the information relating to itself, to its guarantee of the obligations of MSBV contained in the MSBV Base Prospectus and to its guarantee of the obligations of MSFL contained in the MSFL Base Prospectus. MSI plc accepts responsibility for information contained in the MSI plc Base Prospectus. MSBV accepts responsibility for information contained in the MSBV Base Prospectus. MSFL accepts responsibility for information contained in the MSFL Base Prospectus. To the best of the knowledge and belief of each of Morgan Stanley, MSI plc, MSBV and MSFL, the information for which it accepts responsibility as aforesaid is in accordance with the facts and does not omit anything likely to affect the import of such information.

In respect of a Non-exempt Offer, the above paragraph is subject to the conditions and disclaimer of responsibility in certain circumstances as provided in "*Consent to the Use of the Base Prospectus in Connection with Non-exempt Offers*" above.

4. ***Supplement***

This Base Prospectus must be read and construed together with any supplements hereto and with any information incorporated by reference herein and, in relation to any Tranche of Securities

which is the subject of Issue Terms, must be read and construed together with the relevant Issue Terms. In the case of a Tranche of Securities which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Issue Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

5. *No information or representatives outside offer*

No person has been authorised by any of Morgan Stanley, MSI plc, MSBV or MSFL to give any information or to make any representation not contained or incorporated by reference in this Base Prospectus, and, if given or made, that information or representation should not be relied upon as having been authorised by Morgan Stanley, MSI plc, MSBV or MSFL. Neither the delivery of this Base Prospectus nor the offering, sale or delivery of any Securities will, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change in the financial situation of any of Morgan Stanley, MSI plc, MSBV or MSFL since the date hereof or, as the case may be, the date upon which this Base Prospectus has been most recently supplemented or the balance sheet date of the most recent financial statements which have been incorporated into this Base Prospectus by way of a supplement to this Base Prospectus, or that any other information supplied from time to time is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same. Investors should review, *inter alia*, the most recent financial statements of Morgan Stanley, MSI plc, MSBV and/or MSFL (as applicable) when evaluating any Securities or an investment therein (such financial statements shall not form a part of this Base Prospectus unless they have been expressly incorporated herein, including by way of a supplement to this Base Prospectus).

The Issuers do not intend to provide post-issuance information in respect of the Securities except if required by any applicable laws or regulations.

6. *No or limited secondary market*

Potential investors should be willing to hold the Securities until maturity. The nature and extent of any secondary market in the Securities cannot be predicted and there may be little or no secondary market in the Securities. If MSI plc or other affiliate does make a market for the Securities, it may cease to do so at any time.

7. *Offering and distribution restrictions and disclaimers*

Subject to the restrictions set out in this Base Prospectus, the categories of potential investors to which the Securities are offered are retail and institutional investors.

The distribution of this Base Prospectus and the offering, sale and delivery of Securities in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by Morgan Stanley, MSI plc, MSBV and MSFL to inform themselves about and to observe those restrictions.

Neither this Base Prospectus nor any Issue Terms or Drawdown Prospectus constitutes an offer of or an invitation to subscribe for or purchase any Securities and should not be considered as a recommendation by any of Morgan Stanley, MSI plc, MSBV, MSFL or the Distribution Agent that any recipient of this Base Prospectus or any Issue Terms or Drawdown Prospectus should subscribe for or purchase any Securities. Each recipient of this Base Prospectus or any Issue Terms or Drawdown Prospectus will be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of Morgan Stanley, MSI plc, MSBV or MSFL (as applicable) and of the particular terms of any offered Securities.

Neither this Base Prospectus nor any Issue Terms or Drawdown Prospectus may be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which that offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation. For a description of certain restrictions on offer, sales and deliveries of Securities and on the

distribution of this Base Prospectus or any Issue Terms and other offering material relating to the Securities, see "*Subscription and Sale*" below.

8. Issuances under the 17 July 2013 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 17 July 2013 English Law Note Conditions apply, such Notes will be documented using the relevant July 2013 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the July 2013 Form of Final Terms shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 17 July 2013 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [[],[] ... []] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.]⁴⁷⁸ Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."*

9. Issuances under the 30 August 2013 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 30 August 2013 English Law Note Conditions apply, such Notes will be documented using the relevant August 2013 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the August 2013 Form of Final Terms shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 17 July 2013 and the supplement dated 30 August 2013 to the Base Prospectus (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [[],[] ... []] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.]⁴⁷⁹ Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any*

⁴⁷⁸ Insert if Securities are Notes with denominations lower than EUR 100,000.

⁴⁷⁹ Insert if Securities are Notes with denominations lower than EUR 100,000.

supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."

10. Issuances under the 16 December 2013 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 16 December 2013 English Law Note Conditions apply, such Notes will be documented using the relevant December 2013 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the December 2013 Form of Final Terms shall be deleted in its entirety and replaced with the following:

"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 16 December 2013 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [],[] ... [] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.]⁴⁸⁰ Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."

11. Issuances under the 16 December 2014 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 16 December 2014 English Law Note Conditions apply, such Notes will be documented using the relevant December 2014 Form of Final Terms or the relevant May 2015 Form of Final Terms (each incorporated by reference into this Base Prospectus) as applicable, save that the first paragraph under the section entitled "Contractual Terms" of the December 2014 Form of Final Terms or the May 2015 Form of Final Terms, as applicable, shall be deleted in its entirety and replaced with the following:

"This document constitutes Final Terms relating to the issue of Securities described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Securities set forth in the Base Prospectus dated 16 December 2014 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Securities described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [],[] ... [] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Securities which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.]⁴⁸¹ Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any

supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."

12. Issuances under the 15 December 2015 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 15 December 2015 English Law Note Conditions apply, such Notes will be documented using the relevant December 2015 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the December 2015 Form of Final Terms shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 15 December 2015 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [][,] ... []] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.]⁴⁸² Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."*

13. Issuances under the 21 October 2016 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 21 October 2016 English Law Note Conditions apply, such Notes will be documented using the relevant October 2016 Form of Final Terms or the relevant December 2016 Form of Final Terms (each incorporated by reference into this Base Prospectus) as applicable, save that the first paragraph under the section entitled "Contractual Terms" of the October 2016 Form of Final Terms or the December 2016 Form of Final Terms, as applicable, shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 21 October 2016 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [][,] ... []] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.]⁴⁸³ Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any*

⁴⁸³ Insert if Securities are Notes with denominations lower than EUR 100,000.

supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."

14. Issuances under the 10 October 2017 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 10 October 2017 English Law Note Conditions apply, such Notes will be documented using the relevant October 2017 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the October 2017 Form of Final Terms shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 10 October 2017 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [[],[] ... []] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.] Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."*

15. Issuances under the 9 October 2018 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 9 October 2018 English Law Note Conditions apply, such Notes will be documented using the relevant October 2018 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the October 2018 Form of Final Terms shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 9 October 2018 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [[],[] ... []] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.] Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."*

16. Issuances under the 25 January 2019 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 25 January 2019 English Law Note Conditions apply, such Notes will be documented using the

relevant January 2019 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the January 2019 Form of Final Terms shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 9 October 2018 and the supplement dated 25 January 2019 to the Base Prospectus (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [][,][... []] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.] Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."*

17. Issuances under the 21 March 2019 English Law Note Conditions

In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 21 March 2019 English Law Note Conditions apply, such Notes will be documented using the relevant January 2019 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the January 2019 Form of Final Terms shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 9 October 2018 and the supplements dated 25 January 2019 and 21 March 2019 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [][,][... []] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.] Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at <https://www.luxse.com>."*

18. Issuances under the 16 July 2019 English Law Note Conditions

- (a) In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 16 July 2019 English Law Note Conditions apply, such Notes will be documented using the relevant July 2019 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the July 2019 Form of Final Terms shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 16 July 2019 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [],[] ... [] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.] Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA [and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents>] and copies of the Base Prospectus [, any supplement(s) thereto] and the Original Base Prospectus and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.luxse.com."*

- (b) In the case of any issue of Notes in respect of which the relevant Pricing Supplement provides that the 16 July 2019 English Law Note Conditions apply, such Notes will be documented using the relevant July 2019 Form of Pricing Supplement (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the July 2019 Form of Pricing Supplement shall be deleted in its entirety and replaced with the following:

*"Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 16 July 2019 (the "**Base Prospectus**"). This document must be read in conjunction with the Base Prospectus as so supplemented. Full information on the Issuer, the Guarantor and the offer of the Notes is only available on the basis of the combination of this Pricing Supplement and the Base Prospectus. [However, a summary of the Issue is annexed to this Pricing Supplement.]⁴⁸⁴ Copies of the Base Prospectus and any supplement(s) thereto are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents> and copies of the Base Prospectus and any supplement(s) thereto and this Pricing Supplement are available on the website of the Luxembourg Stock Exchange at www.luxse.com."*

19. Issuances under the 17 October 2019 English Law Note Conditions

- (a) In the case of any issue of Notes in respect of which the relevant Final Terms provide that the 17 October 2019 English Law Note Conditions apply, such Notes will be documented using the relevant October 2019 Form of Final Terms (incorporated by reference into this Base Prospectus), save that the first paragraph under the section entitled "Contractual Terms" of the October 2019 Form of Final Terms shall be deleted in its entirety and replaced with the following:

*"This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Base Prospectus dated 16 July 2019 and the supplement dated 17 October 2019 (the "**Original Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the base prospectus dated 14 July 2023 [and the supplement[s] dated [],[] ... [] to the Base Prospectus] which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Notes which are extracted from the Original Base Prospectus and which are incorporated by reference into the Base Prospectus. [However, a summary of the Issue is annexed to these Final Terms.] Copies of the Base Prospectus [and any supplement(s) thereto] and the Original Base Prospectus are available from*

GENERAL INFORMATION

The Securities have been accepted for clearance and settlement through Euroclear and Clearstream, Luxembourg. The appropriate code for each issue allocated by Euroclear and Clearstream, Luxembourg will be contained in the applicable Issue Terms. Transactions will normally be effected for settlement not earlier than two business days after the date of the transaction.

The price and amount of Securities to be issued under the Program will be determined by the Issuer and any Distribution Agent at the time of the issue in accordance with prevailing market conditions.

In respect of any Fixed Rate Securities, the yield is calculated at the Issue Date on the basis of the Issue Price for such Securities and will be specified in the relevant Issue Terms. It is not an indication of future yield.

This Base Prospectus and any supplement thereto will be published on the websites of (a) the Luxembourg Stock Exchange (www.luxse.com) and (b) MSI plc, MSBV and MSFL (<http://sp.morganstanley.com/EU/Documents>).

- (b) copies of the SEB Issuing and Paying Agent Agreement (these shall only be available at the principal executive offices of Morgan Stanley and MSFL and the registered offices of MSI plc and MSBV);
- (c) the Certificate of Incorporation and Amended and Restated By-laws of Morgan Stanley (these shall not be available at the registered office of MSI plc);
- (d) the Certificate of Incorporation and the Articles of Association of MSI plc (these shall not be available at the registered office of Morgan Stanley, MSBV or MSFL);
- (e) the Deed of Incorporation of MSBV (this shall not be available at the registered office of MSI plc or MSFL);
- (f) the Limited Liability Company Agreement of MSFL dated 27 March 2002 (as amended and restated from time to time) (this shall not be available at the registered office of Morgan Stanley, MSBV or MSI plc);
- (g) all reports, letters and other documents, historical financial information, valuations and statements by any expert any part of which is included or referred to herein;
- (h) Morgan Stanley's Annual Report on Form 10-K for the year ended 31 December 2022, Morgan Stanley's Current Reports on Form 8-K dated 17 January 2023 and 19 April 2023, Morgan Stanley's Quarterly Report on Form 10-Q for the quarterly period ended 31 March 2023 and Morgan Stanley's Proxy Statement dated 6 April 2023;
- (i) Report and Financial Statements of MSI plc for the financial year ended 31 December 2021 and 31 December 2022 (these shall not be available at the registered office of Morgan Stanley, MSBV or MSFL);
- (j) Report and Financial Statements of MSBV for the financial years ended 31 December 2021 and 31 December 2022 (these shall not be available at the registered office of MSI plc or MSFL);
- (k) Report and Financial Statements of MSFL for the financial years ended 31 December 2021 and 31 December 2022 (these shall not be available at the registered office of MSI plc or MSBV);

- (l) a copy of this Base Prospectus and any document incorporated by reference herein which shall be available free of charge;
- (m) any supplement to this Base Prospectus which shall be available free of charge; and
- (n) any Issue Terms (save that any Issue Terms relating to a Note which is not listed will only be available for inspection by a holder of such Note and such holder must provide evidence satisfactory to the Issuer as to the identity of such holder) which shall be available free of charge.

Any statement contained in this Base Prospectus or in a document incorporated or deemed to be incorporated by reference in this Base Prospectus will be deemed to be modified or superseded for purposes of this Base Prospectus, to the extent that a statement contained in this Base Prospectus or in any subsequently filed document that also is or is deemed to be incorporated by reference in this Base Prospectus and in respect of which a supplement to this Base Prospectus has been prepared modifies or supersedes the statement. Any statement so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this Base Prospectus.

Investors should consult Morgan Stanley, MSI plc, MSBV or MSFL should they require a copy of the 2006 ISDA Definitions and/or the 2021 ISDA Definitions (each as published by the International Swaps and Derivatives Association, Inc.) which are referred to in the Conditions of the Securities.

Morgan Stanley

The Program was authorised by Morgan Stanley pursuant to resolutions adopted at a meeting of the Board of Directors of Morgan Stanley held on 25 September 1998, as amended and updated pursuant to resolutions adopted at a meeting of the Board of Directors of Morgan Stanley held on 17 June 2003, 14 December 2004, 20 September 2005, 12 December 2006, 19 June 2007, 17 September 2007 and 16 June 2008.

The consolidated financial statements of Morgan Stanley and subsidiaries as of 31 December 2021 and 31 December 2022 have been audited by Deloitte & Touche LLP of 30 Rockefeller Plaza, New York, NY 10112-015, United States of America, an independent registered public accounting firm registered with the Public Company Accounting Oversight Board (United States of America).

MSI plc

The role of MSI plc as issuer under the Program was authorised by resolutions of the Board of Directors of MSI plc on 14 June 2010, 10 June 2011 and 23 May 2012.

Deloitte LLP, Chartered Accountants and Registered Auditors (members of the Institute of Chartered Accountants of England and Wales) of 1 New Street Square, London EC4A 3HQ have audited the financial statements of MSI plc for the years ended 2021 and 2022 and unqualified audit reports have been issued thereon.

MSBV

Deloitte Accountants B.V., independent auditors and certified public accountants of Gustav Mahlerlaan 2970, 1081, LA Amsterdam, The Netherlands, a member of the Netherlands Institute of Chartered Accountants (*Nederlandse Beroepsorganisatie van Accountants*) have audited the financial statements of MSBV for the year ended 31 December 2021 and the year ended 31 December 2022 and unqualified opinions have been reported thereon.

This document does not contain any other information that has been audited by Deloitte Accountants B.V.

The financial information in respect of MSBV has been prepared in accordance with International Financial Reporting Standards as adopted by the European Union for the years ended 31 December 2021 and 31 December 2022.

The role of MSBV as issuer under the Program was authorised by resolutions of the management board of MSBV passed on 16 April 2004, 20 June 2007, 17 June 2008, 16 June 2009, 14 June 2010, 9 June 2011, 23 May 2012, 17 July 2013, 31 October 2013, 12 December 2014, 5 August 2016, 9 October 2017, 3 October 2018, 11 July 2019, 13 July 2020, 12 July 2021, 11 July 2022 and 12 July 2023.

MSFL

Deloitte & Touche LLP, 30 Rockefeller Plaza, New York, NY 10112-0015, U.S.A., independent auditors, have audited the financial statements of MSFL as of and for the year ended 31 December 2021; and as of and for the year ended 31 December 2022, and unmodified opinions have been reported thereon, which include an explanatory paragraph referring to significant transactions with affiliates. The financial

information in respect of MSFL has been prepared in accordance with U.S. Generally Accepted Accounting Principles.

The role of MSFL as issuer under the Program was authorised by resolutions of the Board of Managers of MSFL passed on 5 February 2016.

MSFL publishes audited annual financial statements and will publish unaudited half-yearly financial statements.

No material adverse change in prospects and no significant change in the financial performance and financial position

Morgan Stanley

There has been no material adverse change in the prospects of Morgan Stanley since 31 December 2022, the date of the latest published annual audited financial statements of Morgan Stanley.

There has been no significant change in the financial performance and financial position of Morgan Stanley since 31 March 2023, the date of the latest published interim (unaudited) financial statements of Morgan Stanley.

MSI plc

There has been no material adverse change in the prospects of MSI plc since 31 December 2022, the date of the last published annual audited accounts of MSI plc.

There has been no significant change in the financial performance and financial position of MSI plc since 31 December 2022, the date of the last published annual audited accounts of MSI plc.

MSBV

There has been no material adverse change in the prospects of MSBV since 31 December 2022, the date of the last published annual audited financial statements of MSBV.

There has been no significant change in the financial performance and financial position of MSBV since 31 December 2022, the date of the latest published annual audited accounts of MSBV.

MSFL

There has been no material adverse change in the prospects of MSFL since 31 December 2022, the date of the last published annual audited financial statements of MSFL.

There has been no significant change in the financial performance and financial position of MSFL since 31 December 2022, the date of the latest published annual audited financial statements of MSFL.

Legal and arbitration proceedings

Save as disclosed in:

- (a) the paragraphs under the heading “Contingencies” under the heading “Commitments, Guarantees and Contingencies” in “Notes to Consolidated Financial Statements” 118-119 and the section entitled “Legal Proceedings” on pages 145-148 of Morgan Stanley's Annual Report on Form 10-K for the year ended 31 December 2022;
- (b) the paragraphs under the heading “Contingencies” under the heading “Commitments, Guarantees and Contingencies” in “Notes to Consolidated Financial Statements (Unaudited)” at pages 56-57 and the section entitled “Legal Proceedings” at page 68 of Morgan Stanley’s Quarterly Report on Form 10-Q for the quarterly period ended 31 March 2023; and

Index of Defined Terms

- (c) the section entitled "Legal Proceeding and Contingencies" at Part 7 of the section entitled "Description of Morgan Stanley & Co. International plc" at pages 58-59 of the Registration Document (as supplemented from time to time), the section entitled "Legal Proceedings" at Part 7 of the section entitled "Description of Morgan Stanley B.V." at page 62 of the Registration Document (as supplemented from time to time) and the section entitled "Legal Proceedings" at Part 7 of the section entitled "Description of Morgan Stanley Finance LLC" at page 65 of the Registration Document (as supplemented from time to time),

other than those disclosed in the audited financial statements or the interim (unaudited) financial statements, there are no, nor have there been, any governmental, legal or arbitration proceedings involving Morgan Stanley, MSI plc, MSBV or MSFL (including any such proceedings which are pending or threatened of which Morgan Stanley, MSI plc, MSBV or MSFL is aware) during the 12-month period before the date of this Base Prospectus which may have, or have had in the recent past, a significant effect on the financial position or profitability of Morgan Stanley, MSI plc, MSBV, MSFL or the Morgan Stanley Group.

Clearing Systems

The address of Clearstream Luxembourg is 42, avenue J F Kennedy, L-1855, Luxembourg.

The address of Euroclear is 1, Boulevard du Roi Albert II, B – 1210 Brussels, Belgium.

The address of Euroclear Sweden is Klarabergsviadukten 63, 111 64 Stockholm, Sweden.
