

Deutsche Bank Aktiengesellschaft

Programme for the issuance of Certificates, Warrants and Notes

This document constitutes a base prospectus (the "**Base Prospectus**" or the "**Prospectus**") according to Art. 5 (4) of the Prospectus Directive (Directive 2003/71/EC, as amended or superseded), as implemented by the relevant provisions of the EU member states, in connection with Regulation 809/2004 of the European Commission.

Under this Programme for the issuance of certificates, warrants and notes (the "**Programme**") Deutsche Bank Aktiengesellschaft (the "**Issuer**" or "**Deutsche Bank**") may from time to time issue securities ("**Securities**"). The Securities may relate to shares or other equity securities, indices, other securities, commodities, exchange rates, futures contracts, fund units or fund shares and/or interest rates (the "**Underlying**" and/or the "**Reference Item**"). The Securities may be unsecured or may be secured by a segregated pool of collateral assets. Such issuance is carried out by the Issuer as part of its general banking business (set out in article 2(1) of the Articles of Association of the Issuer). The Issuer will only issue non-equity securities under this Base Prospectus, where "non-equity securities" has the meaning given to it in Article 22 no. 6(4) of Regulation 809/2004 of the European Commission.

Application has been made to the Luxembourg Stock Exchange for Securities issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of Directive 2014/65/EU (as amended, "**MIFID II**"). Securities issued under the Programme may also be admitted to trading or listed on the Euro MTF exchange regulated market operated by the Luxembourg Stock Exchange, other or further stock exchange(s) or multilateral trading facility(ies) or may not be admitted to trading or listed.

This document has been approved as a base prospectus by the *Commission de Surveillance du Secteur Financier* (the "**CSSF**") in its capacity as competent authority under the Luxembourg Act dated 10 July 2005 as amended (the "**Law**") on prospectuses for securities which implements the Prospectus Directive (Directive 2003/71/EC, as amended) into Luxembourg law. The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuer in accordance with Article 7(7) of the Law. The Issuer has also requested the CSSF to provide the competent authorities in Belgium, Denmark, Finland, France, Italy, Norway, Portugal, Spain, Sweden and the United Kingdom with a certificate of approval (a "**Notification**") attesting that this Base Prospectus has been drawn up in accordance with the Law. The Issuer may request the CSSF to provide competent authorities in additional Member States within the European Economic Area ("**EEA**") with a Notification. Under the Law, Securities for which no prospectus is required to be published under the Prospectus Directive ("**Exempt Securities**") are not subject to the approval provisions of Part II of such law.

Prospective purchasers of the Securities should ensure that they understand fully the nature of the Securities, as well as the extent of their exposure to risks associated with an investment in the Securities and should consider the suitability of an investment in the Securities in the light of their own particular financial, fiscal and other circumstances. Prospective purchasers of the Securities should refer to the "Risk Factors" section of this Base Prospectus. The Securities (other than Securities that are secured by a segregated pool of collateral assets) will represent direct, unsecured and unsubordinated contractual obligations of the Issuer which will rank *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated obligations of the Issuer except for any statutory priority regime of the jurisdiction of the Issuer's incorporation (or, in the case of Securities issued by Deutsche Bank AG through a branch, of the jurisdiction where such branch is established) that provides certain claims will be satisfied first in a resolution or German insolvency proceeding with respect to the Issuer. The Securities will be subject to Resolution

Measures, as discussed in the "Risk Factors" section of this Base Prospectus under "Regulatory Bail-in and other Resolution Measures" below.

The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever in connection with the Securities. All payments made by the Issuer shall be made subject to any tax, duty, charge, withholding or other payment which may be required to be made, paid, withheld or deducted.

If the Final Terms in respect of any Securities includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to and, should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2002/92/EC (IMD), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. If the relevant Final Terms include the above-mentioned legend, no key information document required by Regulation (EU) No. 1286/2014 (the "**PRIIPs Regulation**") for offering or selling those Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling those Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

The securities offered on the basis of this Base Prospectus may relate to benchmarks within the meaning of the Benchmark Regulation (Regulation 2016/1011 – "**BMR**"). In such case, the issuer is subject to certain requirements as regards the use of these benchmarks and related information obligations within the framework of this Base Prospectus. However, it can be assumed that the requirements of the BMR as regards the maintenance and use of these benchmarks will not yet or not fully be applicable during a transitional period (until at least 1 January 2020). Moreover, also due to ongoing internal technical preparations, the issuer is likely to have limited or no information on such circumstances during the validity period of this Base Prospectus. Investors are therefore advised that this Base Prospectus may contain limited or no relevant information during this period.

According to Article 29(2) BMR, the Issuer is required to state in the Base Prospectus whether, for securities issued on its basis referencing a benchmark, the administrator of the respective benchmark is registered in the Register prescribed by the BMR. Due to the mentioned transitional period, the Issuer assumes that during the validity period of this Base Prospectus, the number of administrators registered in the Register will only increase relatively slowly. In line with both its internal technical preparations and the relevant external factors, where possible, the relevant Final Terms will disclose the fact that the administrator of a benchmark used for the respective securities has been registered according to the BMR. As at the date of this Base Prospectus: (i) ICE Benchmark Administration Limited (the administrator of LIBOR and the Reference CMS Rate) is included in the register of administrators and benchmarks; and (ii) the European Money Markets Institute (the administrator of EURIBOR), Financial Benchmarks Sweden AB (the administrator of STIBOR) and Norske Finansielle Referanser (NoRe) (the administrator of NIBOR) are not included in such register and, as far as the Issuer is aware, the transitional provisions in Article 51 of the BMR apply, such that such administrators are not currently required to obtain authorisation or registration. The registration status of any administrator under the BMR is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the Final Terms to reflect any change in the registration status of the administrator.

The Securities have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), or any state securities laws and trading in the Securities has not been approved by the United States Commodity Futures Trading Commission (the "**CFTC**") under the United States Commodity Exchange Act, as amended (the "**Commodity Exchange Act**"). Any offer or sale of the Securities must be made in a transaction exempt from the registration requirements of the Securities Act pursuant to Regulation S thereunder ("**Regulation S**"). The Securities may not be offered, sold or otherwise transferred in the United States or to persons who are (i) U.S. persons as defined in Regulation S, (ii) persons who do not come within the definition of a non-United States person under Rule 4.7 of the Commodity Exchange Act, (iii) U.S. persons as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45,292 (July 26, 2013) promulgated by the CFTC; or (iv) any other U.S. persons as such term may be defined in regulations or guidance adopted under the Commodity Exchange Act. For a description of certain restrictions on the sale and transfer of the Securities, please refer to the General Selling and Transfer Restrictions section of this Base Prospectus.

An investment in the Securities does not constitute a participation in a collective investment scheme for Swiss law purposes. Therefore, the Securities are not supervised or approved by the Swiss Financial Market

Supervisory Authority FINMA ("**FINMA**") and investors may not benefit from the specific investor protection provided under the Swiss Federal Act on Collective Investment Schemes.

The website addresses of certain third parties have been provided in this Base Prospectus. Except as expressly set forth in this Base Prospectus, information in such websites are for information purposes only and should not be deemed to be incorporated by reference in, or form a part of, this Base Prospectus.

This Base Prospectus will be published according to Art. 14 (2) (c) of the Prospectus Directive (Directive 2003/71/EC, as amended or superseded), as implemented by the relevant provisions of the EU member states, in electronic form on the website of the Issuer (www.xmarkets.db.com).

The date of this Base Prospectus is 8 February 2019.

I. SUMMARY

[If this Summary relates to more than one series of Securities, to the extent that any term differs for one or more series, insert for the relevant item, which is marked "to be inserted for each Series of Securities", "In respect of each series".]

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This Summary contains all the Elements required to be included in a summary for this type of securities and Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of 'not applicable'.

Element	Section A – Introduction and warnings	
A.1	Warning	<p>Warning that:</p> <ul style="list-style-type: none"> • this Summary should be read as an introduction to the Prospectus; • any decision to invest in the Securities should be based on consideration of the Prospectus as a whole by the investor; • where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the EU member states, have to bear the costs of translating the Prospectus, before the legal proceedings are initiated; and • civil liability attaches only to those persons who have tabled this Summary including any translation thereof, but only if this Summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with the other parts of the Prospectus, key information in order to aid investors when considering whether to invest in the Securities.
A.2	Consent to use of the Prospectus	<ul style="list-style-type: none"> • [[The Issuer consents to the use of the Prospectus for a later resale or final placement of the Securities by all financial intermediaries (general consent).] • [The Issuer consents to the use of the Prospectus for a later resale or final placement of the Securities by the following financial [intermediaries][intermediary] (individual consent): [insert name[s] and address[es]].] • The offer period during which the subsequent resale or final placement of Securities by financial intermediaries can be made will be [the period [from [insert offer start date] to [insert offer end date]] [as long as the Base Prospectus is valid in accordance with Article 9 of the Prospectus Directive]. • [Such consent is also subject to and given under the condition [].] [Such consent is not subject to and given under any condition.] • In case of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made.] • [Not applicable. The Issuer does not consent to the use of the Prospectus for subsequent resale or final placement of the Securities by financial intermediaries]

been created by the Issuer over certain collateral assets in favour of BNY Mellon Corporate Trustee Services Limited in its capacity as the Security Trustee for the Securityholders and certain other secured parties. Payments due under the Securities will be secured by a fixed charge over the collateral assets held in a segregated account with The Bank of New York Mellon, London Branch as Custodian. The collateral assets securing the Securities will comprise USD, EUR, JPY, GBP, CHF and/or assets which satisfy the criteria listed in one of the rows in the table below:

Eligibility Criteria	Margin Percentage
[Insert brief description]	[]

[Repeat rows as necessary]

Provision of Collateral and Collateral Monitoring

On the issue date of the Securities, the Issuer will deposit sufficient collateral assets in a segregated account such that the Collateral Test is satisfied on that date. The Issuer may be required to deliver additional collateral assets to ensure that the Collateral Test is satisfied on each subsequent specified collateral test date. On each specified collateral test date, The Bank of New York Mellon, London Branch in its capacity as the Collateral Triparty Agent will verify that the Collateral Test is satisfied and will notify the Issuer if the Collateral Test is not satisfied.

Defined terms used above:

"Collateral Test" means (and the Collateral Test will be satisfied if) the Collateral Triparty Agent determines that the Margin Value of collateral assets held in the collateral account on a specified collateral test date is greater than or equal to the Required Collateral Value in respect of such specified collateral test date.

"Margin Value" means, in respect of a collateral asset, an amount equal to the quotient of (a) the market value of such collateral asset for such collateral test date, divided by (b) the Margin Percentage specified in the table above applicable to such collateral asset, as determined by the Collateral Triparty Agent.

"Non-Inventory Collateralised Securities" means, in relation to a series of Securities and any relevant date, those Securities which are not held by the Issuer or its affiliates on such date.

"Required Collateral Value" means, in respect of a specified collateral test date, the product of (i) the [insert Collateralisation Percentage], and (ii) the market value of a Security [less the direct and indirect costs to the issuer of unwinding or adjusting any underlying related hedging arrangements], and (iii) the number of outstanding Non-Inventory Collateralised Securities of such series.

Enforcement of security

The Security Trustee will enforce the security over the collateral assets upon receipt of a notice (an **"Acceleration Instruction"**) from the relevant agent confirming that it has received acceleration notices specifying that an event of default (which has not been waived by the Securityholders or cured or objected to by the Issuer) has occurred and is continuing from Securityholder(s) of at least 33 per cent. in aggregate notional amount or by number (as applicable) of such Securities (excluding Securities held by the Issuer or its affiliates).

On enforcement of the security over the collateral assets, the Securities will be cancelled and each Securityholder will be entitled to receive an amount equal to the market value of the Securities [less the direct and indirect costs to the issuer of unwinding or adjusting any underlying related hedging arrangements], subject to there being sufficient proceeds of the collateral assets remaining after payment of certain secured parties ranking higher than the Securityholders in the order of priority. In the event that proceeds of the realised collateral assets are insufficient to satisfy the claims of a Securityholder, such Securityholder will be entitled to claim on an unsecured basis against the Issuer for the shortfall.]

Limitations to the rights attached to the Securities

Under the terms and conditions of [each Series of the] [the] Securities, the Issuer is entitled to terminate and cancel the Securities [of such Series] and to

On the Settlement Date, investors receive a Cash Amount equal to the product of (a) the Multiplier, multiplied by (b) the sum of (i) [100] *[insert amount]* per cent. plus (ii) the product of (A) the Participation Factor multiplied by (B) the Reference Basket Performance. 1. Coupon payments

[Insert coupon description from the section marked 'General coupon definitions' at the start of element C.15, if applicable, or insert the following:]

The Securities pay a Coupon Amount on each Coupon Payment Date, and such Coupon Amount will be a fixed amount of *[insert amount]* for each Security.

2. Redemption

On the Settlement Date, the investors will receive an amount equal to the product of (a) the Nominal Amount, multiplied by (b) the greater of (i) zero, and (ii) the difference between (A) one, minus (B) the product of (I) Number of Underperforming Basket Constituents [less *[insert number]*], multiplied by (II) *[insert number]* [the quotient of *[insert number]* (as numerator) and *[insert number]* (as denominator)]. [The amount will be subject to a maximum of *[insert amount]*.]

[If the Security is a Rainbow Return Certificate (product no. C60), insert:

The Rainbow Return Certificate is linked to the performance of the Basket Constituents. On the Settlement Date, investors receive a Cash Amount which is determined as follows:

- a) if the Rainbow Return is less than [or equal to] [zero] [the Barrier], the [nominal] [minimum] amount of *[insert amount]*; or
- b) if the Rainbow Return is greater than [or equal to] [zero] [the Barrier], an amount equal to the sum of (i) [the Nominal Amount] *[insert amount]*, plus (ii) the product of (A) the Multiplier, multiplied by (B) the Participation Factor, multiplied by (C) the Rainbow Return.

The Rainbow Return is the sum of:

- (a) the product of *[insert weighting 1]*% multiplied by the highest Performance; plus
- (b) the product of *[insert weighting 2]*% multiplied by the second highest Performance; plus
- (c) the product of *[insert weighting 3]*% multiplied by the lowest Performance,

in each case as determined by the Calculation Agent.

The Performance means in respect of a Basket Constituent, the difference between (a) the quotient of (i) the Final Reference Level (as numerator), divided by (ii) the Initial Reference Level (as denominator), minus (b) one.]

Conversely, investors also participate with leverage in the negative development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying [reaches or falls below] [falls below] the Barrier at any time during the Observation Period (Barrier Event).

If the price of the Underlying [reaches or falls below] [falls below] the Barrier at any point during the Observation Period, the term of the Turbo Infini BEST Call Warrants ends immediately and investors receive only the Minimum Amount.

If no Barrier Event occurs, investors receive on the Settlement Date, after exercising the Security on an Exercise Date or termination by the Issuer effective on a Redemption Date, as Cash Amount the product of the Multiplier and the amount by which the Final Reference Level is greater than the Strike.

Due to lack of a fixed maturity, the product is designed in a way that the initially applicable Strike is adjusted daily to reflect a Financing Component incurred by the Issuer based on the respective market rates for borrowing.

In addition, if the Underlying is a share or a price index, upon payment of a cash dividend by the Underlying's issuer or, as the case may be, its Index-Sponsor, the Dividend Adjustment Date is an additional Adjustment Date, and the Strike will be reduced by the respective Dividend Factor, which takes into account the dividends paid less an adjustment amount for taxes and similar charges arising thereon.

If the Underlying is a future, any day on which a Replacement Event occurs is an additional Adjustment Date, and the Strike will be adjusted by the difference between the last Reference Level of the Underlying to be replaced and the determined Successor Future, if Rolling Costs are taken into account, less the Rolling Costs.

The Barrier is ultimately equivalent to the Strike applicable on such day.]

Element	Section D – Risks	
<p>D.2</p>	<p>Key information on the key risks that are specific to the issuer.</p>	<p>Investors will be exposed to the risk of the Issuer becoming insolvent as result of being overindebted or unable to pay debts, i.e. to the risk of a temporary or permanent inability to meet interest and/or principal payments on time. The Issuer's credit ratings reflect the assessment of these risks.</p> <p>Factors that may have a negative impact on Deutsche Bank's profitability are described in the following:</p> <ul style="list-style-type: none"> • While the global economy was strong in 2017 as monetary policy remained generally accommodative, political risks, especially in Europe, did not materialize and election outcomes were broadly market-friendly, significant macroeconomic risks remain that could negatively affect the results of operations and financial condition in some of its businesses as well as Deutsche Bank's strategic plans. These include the possibility of an early recession in the United States, inflation risks, global imbalances, Brexit, the rise of Euroscepticism, and geopolitical risks, as well as the continuing low interest rate environment and competition in the financial services industry, which have compressed margins in many of Deutsche Bank's businesses. If these conditions persist or worsen, Deutsche Bank's business, results of operations or strategic plans could continue to be adversely affected. • Deutsche Bank's results of operation and financial condition, in particular those of Deutsche Bank's Corporate & Investment Bank corporate division, continue to be negatively impacted by the challenging market environment, uncertain macroeconomic and geopolitical conditions, lower levels of client activity, increased competition and regulation, and the immediate impacts resulting from Deutsche Bank's strategic decisions as Deutsche Bank continues to work on the implementation of its strategy. If Deutsche Bank is unable to improve its profitability as it continues to face these headwinds as well as persistently high litigation costs, Deutsche Bank may be unable to meet many of its strategic aspirations, and may have difficulty maintaining capital, liquidity and leverage at levels expected by market participants

		<p>and Deutsche Bank's regulators.</p> <ul style="list-style-type: none"> ● Continued elevated levels of political uncertainty could have unpredictable consequences for the financial system and the greater economy, and could contribute to an unwinding of aspects of European integration, potentially leading to declines in business levels, write-downs of assets and losses across Deutsche Bank's businesses. Deutsche Bank's ability to protect itself against these risks is limited. ● Deutsche Bank may be required to take impairments on its exposures to the sovereign debt of European or other countries if the European sovereign debt crisis reignites. The credit default swaps into which Deutsche Bank has entered to manage sovereign credit risk may not be available to offset these losses. ● Deutsche Bank's liquidity, business activities and profitability may be adversely affected by an inability to access the debt capital markets or to sell assets during periods of market-wide or firm-specific liquidity constraints. Credit rating downgrades have contributed to an increase in Deutsche Bank's funding costs, and any future downgrade could materially adversely affect its funding costs, the willingness of counterparties to continue to do business with it and significant aspects of its business model. ● Regulatory reforms enacted and proposed in response to weaknesses in the financial sector, together with increased regulatory scrutiny more generally, have created significant uncertainty for Deutsche Bank and may adversely affect its business and ability to execute its strategic plans, and competent regulators may prohibit Deutsche Bank from making dividend payments or payments on its regulatory capital instruments or take other actions if Deutsche Bank fails to comply with regulatory requirements. ● European and German legislation regarding the recovery and resolution of banks and investment firms could, if steps were taken to ensure Deutsche Bank's resolvability or resolution measures were imposed on Deutsche Bank, significantly affect Deutsche Bank's business operations, and lead to losses for its shareholders and creditors. ● Regulatory and legislative changes require Deutsche Bank to maintain increased capital, in some cases (including in the United States) applying liquidity, risk management, capital adequacy and resolution planning rules to its local operations on a standalone basis. These requirements may significantly affect Deutsche Bank's business model, financial condition and results of operations as well as the competitive environment generally. Any perceptions in the market that Deutsche Bank may be unable to meet its capital or liquidity requirements with an adequate buffer, or that Deutsche Bank should maintain capital or liquidity in excess of these requirements or another failure to meet these requirements could intensify the effect of these factors on Deutsche Bank's business and results. ● Deutsche Bank's regulatory capital and liquidity ratios and its funds available for distributions on its shares or regulatory capital instruments will be affected by Deutsche Bank's business decisions and, in making such decisions, Deutsche Bank's interests and those of the holders of such instruments may not be aligned, and Deutsche Bank may take decisions in accordance with applicable law and the terms of the relevant instruments that result in no or lower payments being made on Deutsche Bank's shares or regulatory capital instruments. ● Legislation in the United States and in Germany regarding the prohibition of proprietary trading or its separation from the deposit-taking business has required Deutsche Bank to modify its business activities to comply with applicable restrictions. This could adversely affect Deutsche Bank's business, financial condition and results of operations. ● Other regulatory reforms adopted or proposed in the wake of the financial crisis – for example, extensive new regulations governing Deutsche Bank's derivatives activities, compensation, bank levies,
--	--	---

		<p>deposit protection or a possible financial transaction tax – may materially increase Deutsche Bank's operating costs and negatively impact its business model.</p> <ul style="list-style-type: none"> ● Adverse market conditions, asset price deteriorations, volatility and cautious investor sentiment have affected and may in the future materially and adversely affect Deutsche Bank's revenues and profits, particularly in its investment banking, brokerage and other commission- and fee-based businesses. As a result, Deutsche Bank has in the past incurred and may in the future incur significant losses from its trading and investment activities. ● Deutsche Bank announced the next phase of its strategy in April 2015, gave further details on it in October 2015 and announced updates in March 2017 and April 2018. If Deutsche Bank is unable to implement its strategic plans successfully, it may be unable to achieve its financial objectives, or Deutsche Bank may incur losses or low profitability or erosions of its capital base, and Deutsche Bank's financial condition, results of operations and share price may be materially and adversely affected. ● As part of its strategic initiatives announced in March 2017, Deutsche Bank reconfigured its Global Markets, Corporate Finance and Transaction Banking businesses into a single Corporate & Investment Bank division to position itself for growth through increased cross-selling opportunities for its higher return corporate clients. Clients may choose not to expand their businesses or portfolios with Deutsche Bank, thereby negatively influencing its ability to capitalize on these opportunities. ● As part of its March 2017 updates to its strategy, Deutsche Bank announced its intention to retain and combine Deutsche Postbank AG (together with its subsidiaries, Postbank) with its existing retail and commercial operations, after earlier having announced its intention to dispose of Postbank. Deutsche Bank may face difficulties integrating Postbank into the Group following the completion of operational separability from the Group. Consequently, the cost savings and other benefits Deutsche Bank expects to realize may only come at a higher cost than anticipated, or may not be realized at all. ● As part of its March 2017 updates to its strategy, Deutsche Bank announced its intention to create an operationally segregated Asset Management division through a partial initial public offering (IPO). This IPO was consummated in March 2018. Deutsche Bank may not be able to capitalize on the expected benefits that it believes an operationally segregated Deutsche AM can offer ● Deutsche Bank may have difficulties selling companies, businesses or assets at favorable prices or at all and may experience material losses from these assets and other investments irrespective of market developments. ● A robust and effective internal control environment and adequate infrastructure (comprising people, policies and procedures, controls testing and IT systems) are necessary to ensure that Deutsche Bank conducts its business in compliance with the laws, regulations and associated supervisory expectations applicable to it. Deutsche Bank has identified the need to strengthen its internal control environment and infrastructure and has embarked on initiatives to accomplish this. If these initiatives are not successful or are delayed, Deutsche Bank's reputation, regulatory position and financial condition may be materially adversely affected, and Deutsche Bank's ability to achieve its strategic ambitions may be impaired. ● Deutsche Bank operates in a highly and increasingly regulated and litigious environment, potentially exposing Deutsche Bank to liability and other costs, the amounts of which may be substantial and difficult to estimate, as well as to legal and regulatory sanctions and reputational harm. ● Deutsche Bank is currently subject to a number of investigations by regulatory and law enforcement agencies globally as well as civil actions relating to potential misconduct. The eventual outcomes of
--	--	---

		<p>these matters are unpredictable, and may materially and adversely affect Deutsche Bank's results of operations, financial condition and reputation.</p> <ul style="list-style-type: none"> • In addition to its traditional banking businesses of deposit-taking and lending, Deutsche Bank also engages in nontraditional credit businesses in which credit is extended in transactions that include, for example, its holding of securities of third parties or its engaging in complex derivative transactions. These nontraditional credit businesses materially increase Deutsche Bank's exposure to credit risk. • A substantial proportion of the assets and liabilities on Deutsche Bank's balance sheet comprise financial instruments that it carries at fair value, with changes in fair value recognized in its income statement. As a result of such changes, Deutsche Bank has incurred losses in the past, and may incur further losses in the future. • Deutsche Bank's risk management policies, procedures and methods leave it exposed to unidentified or unanticipated risks, which could lead to material losses. • Operational risks, which may arise from errors in the performance of Deutsche Bank's processes, the conduct of Deutsche Bank's employees, instability, malfunction or outage of Deutsche Bank's IT system and infrastructure, or loss of business continuity, or comparable issues with respect to Deutsche Bank's vendors, may disrupt Deutsche Bank's businesses and lead to material losses. • Deutsche Bank utilizes a variety of vendors in support of its business and operations. Services provided by vendors pose risks to Deutsche Bank comparable to those Deutsche Bank bears when it performs the services itself, and Deutsche Bank remains ultimately responsible for the services its vendors provide. Furthermore, if a vendor does not conduct business in accordance with applicable standards or Deutsche Bank's expectations, Deutsche Bank could be exposed to material losses or regulatory action or litigation or fail to achieve the benefits it sought from the relationship. • Deutsche Bank's operational systems are subject to an increasing risk of cyber-attacks and other internet crime, which could result in material losses of client or customer information, damage Deutsche Bank's reputation and lead to regulatory penalties and financial losses. • The size of Deutsche Bank's clearing operations exposes Deutsche Bank to a heightened risk of material losses should these operations fail to function properly. • Deutsche Bank may have difficulty in identifying and executing acquisitions, and both making acquisitions and avoiding them could materially harm Deutsche Bank's results of operations and its share price. • Intense competition, in Deutsche Bank's home market of Germany as well as in international markets, could materially adversely impact Deutsche Bank's revenues and profitability. • Transactions with counterparties in countries designated by the U.S. State Department as state sponsors of terrorism or persons targeted by U.S. economic sanctions may lead potential customers and investors to avoid doing business with Deutsche Bank or investing in Deutsche Bank's securities, harm Deutsche Bank's reputation or result in regulatory or enforcement action which could materially and adversely affect Deutsche Bank's business.

	<p><i>[If Eligible Liabilities Format is specified to apply in the Terms and Conditions, insert: Risk Factors in relation to regulatory requirements of issuances with eligible liability format</i></p> <p>A new EU legislative proposal will, if adopted as proposed, prohibit all buy-backs of such Securities by the Issuer, including by way of market making, unless regulatory pre-approval has been granted for such buy-backs, starting in 2019. Such regulatory pre-approval would be expected to be restricted to a maximum transaction volume entered into by the Issuer. Where such maximum volume has been reached, further buy-backs would require a new approval to be obtained before any such transactions. If the EU proposal will be adopted as proposed, the Issuer intends to seek regulatory approval for a maximum volume of transactions which, based on past experience, it expects to allow continuous and uninterrupted market making during the term of the Securities under normal conditions.</p> <p>However, in case the volume of securities investors are seeking to sell back to the Issuer should substantially increase, due to factors such as (but not limited to) a substantial deterioration in the general perception of the Issuer's financial situation, general stress in the financial markets and/or a major change in market conditions affecting the relative attractiveness of an investment into the Securities compared to other potential investments (e. g. substantial changes in the general interest level), the maximum volume to which the regulatory approval of buy-backs is subject could be reached during the term of the Securities. There is no guarantee that the Issuer would be willing or able to seek a subsequent regulatory approval for further buy-backs, or, in case the Issuer does apply for such subsequent approval, that it will be possible to provide further market making without interruption or at all.</p> <p>Investors should note that in such cases, the market making provided by the Issuer could be interrupted or end permanently, which could substantially reduce the price investors seeking to sell securities can realise, or could prevent investors from selling securities at the time they so wish.</p> <p>Moreover, if Eligible Liabilities Format is specified to apply in the Product Terms, prospective investors should also note that their rights of redemption and set-off rights have been excluded in the Product Terms.]</p> <p><i>[If the Secured Conditions are applicable: insert:</i></p> <p>There is no guarantee that the proceeds of realisation of the collateral assets will be sufficient to satisfy the claims of a Securityholder following the occurrence of an event of default. In the event that the collateral assets are insufficient to satisfy the claims of a Securityholder following the occurrence of an event of default, such Securityholder will be entitled to claim against the Issuer for the shortfall on an unsecured basis. However, certain events or circumstances, such as an insolvency in respect of any of the relevant parties, may lead to a delay in realisation of the collateral assets and payment of any related amounts to investors.</p> <p>Following an event of default and subsequent acceleration event (as notified to the Security Trustee upon receipt of an acceleration instruction), the Security Trustee will enforce the security and liquidate or realise the collateral assets. Such inaction will not constitute a breach by it of its obligations under the Security Trust Deed, the Deed of Charge or the Secured Conditions and will not entitle Securityholders to take action directly against the Issuer, the Collateral Triparty Agent or the Custodian. Throughout the term investors receive coupon payments on the relevant Coupon Payment Date. The level of the Interest Rate corresponds to the Underlying multiplied by the Leverage. [The coupon payment on a Coupon Payment Date depends on (i) the Nominal Amount, multiplied by (ii) the Participation Factor, multiplied by (iii) the Underlying Return on the Coupon Observation Date immediately preceding such Coupon Payment Date, further multiplied by (iv) one divided by the relevant Coupon Divisor for such Coupon Observation Date. [The coupon payment [will not be less than the Minimum Amount] [and] [will not be greater than the Maximum Amount].]

The Coupon Divisor may be different for each Coupon Observation Date, and may be higher for later Coupon Observation Dates, which will result in a larger proportional reduction of coupon payments for Coupon Payment Dates falling later in time during the term of the Note.

Consequently, even if the Reference Level of the Underlying on a later Coupon Observation Date is higher than its Reference Level on the earlier Coupon Observation Date(s), an investor could receive the minimum coupon payment on the following Coupon Payment Date.

It is thus possible that the total coupon payments made throughout the term of the Note will be the aggregate of the minimum coupon payments made on each Coupon Payment Date. If this occurs, while an investor will receive on the Settlement Date 100% of the Nominal Amount of each Note (subject to the credit risk of the Issuer), the investor will not receive any return beyond this and the coupons received on and prior to the Settlement Date.]

[If the Security is a Fixed Coupon Note with Conditional Bonus Coupon (product no. N61), insert:

The coupon for the Fixed Coupon Note with Conditional Bonus Coupon is comprised of (i) a fixed component and (ii) a conditional component.

In relation to the conditional component of the coupon, the Bonus Coupon will be paid on [a] [the] Bonus Coupon Payment Date if the Underlying is [equal to or] [above] [or] [equal to] [or] [below] the Bonus Coupon Threshold. The total coupon investors receive will be affected by the performance of the Underlying and may not include a Bonus Coupon.]

[If the Security is a Simplified Digital Variable as Coupon Note with Initial Fixed Interest (product no. N62), insert:

For a set number of Coupon Payment Dates, the Coupon Amount paid on the relevant Coupon Payment Date will be a fixed Coupon. Thereafter the Coupon Amount paid on a Coupon Payment Date depends on the performance of the [Underlying] [Basket] on the Coupon Observation Date falling immediately prior to such Coupon Payment Date and whether such Coupon Observation Date falls earlier or later in the term of the Note.

The Coupon Divisor may be different for each Coupon Observation Date, and the Coupon Divisor may be higher for later Coupon Observation Dates, which will result in a larger proportional reduction of Coupon Amounts for Coupon Payment Dates falling later in time.

Consequently, even if the Reference Level of the Underlying on a later Coupon Observation Date is higher than its Reference Level on the earlier Coupon Observation Date(s), an investor could receive the minimum Coupon Amount on the following Coupon Payment Date.

I. SUMMARY

It is thus possible that the total Coupon Amounts payable throughout the term of the Note will be the aggregate of the fixed or minimum Coupon Amounts payable on each Coupon Payment Date. II. RISK FACTORS

The paragraphs A to E below describe all material risk factors as well as conflicts of interest of the Issuer associated with an investment in the Securities.

A. RISK FACTORS IN RESPECT OF THE ISSUER

An investment in Securities issued by Deutsche Bank bears the risk that Deutsche Bank is not able to fulfil its obligations created by the issuance of the Securities on the relevant due date. Thus investors may lose all or part of their investment.

Factors relating to Deutsche Bank's ability to meet its obligations as Issuer of the Securities issued under this programme

In order to assess the risk, prospective investors should consider all information provided in the section entitled "Risk Factors in respect of the Issuer" provided in the Deutsche Bank AG EUR 80 billion Debt Issuance Programme Base Prospectus dated 22 June 2018, as supplemented from time to time (the "**2018 EMTN Base Prospectus**") which is incorporated by reference in this Base Prospectus in part "III. G. Information Incorporated by Reference. Prospective investors should consult their own legal, tax, accounting and other advisers if they consider it necessary.

B. RISK FACTORS IN RESPECT OF THE SECURITIES

1. Introduction

The paragraphs below describe all risk factors that are material to the certificates, warrants and notes (collectively the "**Securities**") in order to assess the market risks associated with these Securities. No investment should be made in the Securities until after careful consideration of all those factors which are relevant in relation to the Securities. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and the applicable Final Terms and reach their own views prior to making any investment decision.

Prospective investors should also consider carefully the assets, reference items or other reference bases (referred to as the "**Underlying**" and each such item as a "**Reference Item**") to which the Securities are linked as appropriate. These are specified where applicable in the relevant Final Terms and, as the case may be, the section "Information relating to the Underlying" set out in the section "Further Information about the Offering of the Securities" in the applicable Final Terms and investors should consider further information which is available in relation to the Underlying. If the Securities are not linked to an Underlying, the following risk information does not apply where it relates to the existence of an Underlying.

This Base Prospectus is not, and does not purport to be, investment advice.

An investment in the Securities involves risks. These risks may include, among others, equity market, bond market, foreign exchange, interest rate, commodities, market volatility and economic, political and regulatory risks and any combination of these and other risks. Potential purchasers should have the necessary knowledge and experience with respect to transactions in financial instruments such as the Securities and (if applicable) the Underlying or Reference Item in order to be able to understand and appropriately assess the risks associated with investing in the Securities. They should only reach an investment decision after careful consideration, if applicable with their legal, tax, accounting and other advisers, of (a) the suitability of an investment in the Securities in the light of their own particular financial, tax and other circumstances, (b) the information set out in the Final Terms and this Base Prospectus and (c) (if applicable) the Underlying. Investors should consider in particular whether the Securities are appropriate in light of their overall investment portfolio and taking into account their exposure to each relevant asset class. Accordingly investors should consider carefully their own particular circumstances to determine whether an investment in the Securities is appropriate for them.

The Securities may decline in value and investors should note that, whatever their investment in the Securities, the cash amount or value of assets due at maturity or on exercise or periodically may only be equal to the specified minimum cash amount or minimum asset amount, if any. Where no minimum cash

amount or asset amount is specified investors may experience a total loss of their investment in the Security.

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying (if applicable), and/or in the composition or method of calculation of the Reference Items. This is because the return of any such investment will be dependent, among other things, upon such changes. More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Securities and no assurance is given that an investment in Securities will offer any greater return than other comparable or alternative investments which may be available at the time an investor acquires a Security.

Additional risk factors are set out under the headings "C. Risk Factors related to Securities Generally" and "D. Risk Factors relating to the Market Generally". In addition prospective investors should also review section "E. Conflicts of Interest".

2. Risk factors relating to certain features of the Securities

2.1 Securities where amounts payable or assets deliverable are calculated by reference to a formula

An issue of Securities may reference a formula in the applicable Final Terms as the basis upon which the interest payable and/or the amounts payable and/or assets deliverable (on redemption or settlement or periodically) is calculated. Potential investors should ensure that they understand the relevant formula and if necessary seek advice from their own adviser(s).

In addition the effects of the formula may be complex with respect to expected amounts of interest and/or amounts payable and/or assets deliverable on redemption or settlement or periodically and in certain circumstances may result in increases or decreases in these amounts.

In some cases Securities may offer a "short" exposure meaning that the economic value of Securities will increase only where the relevant price or value of the Reference Item(s) falls. Where the price or value of the Reference Item(s) rises, the value of the Securities may fall.

2.2 Leverage

Where the amount of interest payable and/or amounts payable and/or assets deliverable on redemption or settlement of Securities or periodically may be determined by reference to a ratio greater than one, prospective investors should note that the effect of changes in the price or level of the amount(s) payable or assets deliverable will be magnified. While leverage may offer the opportunity for greater investment gain, this may mean that any investment loss is greater than it would be otherwise.

2.3 Debt securities issued at a substantial discount or premium

The market value of debt securities issued at a substantial discount or premium tend to fluctuate more due to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the Securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

2.4 Securities subject to optional redemption by the Issuer

Securities which include a redemption option by the Issuer or which may be terminated on the occurrence of certain events are likely to have a lower market value than similar securities which do not contain an Issuer redemption option. An optional redemption feature or termination feature of the Securities is likely to limit their market value. During any period when the Issuer may elect to redeem the Securities or such termination may occur, the market value of those Securities generally will not rise substantially above the price at which they may be redeemed or terminated. This may also be the case prior to any redemption or termination period.

The Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities or otherwise when its costs of keeping Securities outstanding is high. At those times, an investor generally would not be able to reinvest the optional redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a

significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

The applicable Final Terms will indicate whether the Issuer has the right to redeem the Securities prior to maturity or final settlement.

2.5 Option Risk relating to Certificates and Warrants

Certificates and Warrants are derivative financial instruments which may include an option right and which, therefore, may have many characteristics in common with options. Transactions in options may involve a high level of risk. An investor who intends to trade in Certificates or Warrants including options must therefore first of all understand the functioning of the types of options involved (for example, call options and put options). An investment in Certificates or Warrants including options may constitute a highly volatile investment and there is a possibility that the option may have no value whatsoever at expiration. In such case, the investor may lose the entire amount invested in the Certificates or Warrants.

The payment due under a Certificate or Warrant on exercise or early termination will depend on the value of the Underlying at the relevant time. This means that the performance of a Certificate or Warrant which includes an option is affected by the performance of the relevant option. If the value of the option decreases, the value of the Certificate or Warrant may also decrease as a result. Similarly, the value of the Certificate or Warrant may increase if the value of the option increases.

If the Underlying is an Exchange Rate and if so specified in the applicable Final Terms, early termination of a Certificate or Warrant is possible at any time during the period specified in the Final Terms and thus may even occur outside the usual trading hours of the relevant Certificate or Warrant.

2.6 Risks at maturity in relation to Certificates, Warrants and Notes

Where the payment of coupons is conditional, or part of a memory feature, investors should note that they may not receive such coupons unless the relevant conditions are satisfied.

Certificates

Certificates, Certificates 100%, Perpetual Certificates and Index Certificates

Product No. C4: Certificate

If the Underlying falls in value, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C5: Certificate 100%

If the Underlying falls in value, the Certificate 100% involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C6: Perpetual Certificate

If the Underlying falls in value, the Perpetual Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C7: Index Certificate

If the Underlying falls in value, the Index Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C8: Performance Certificate

If the Underlying falls in value, the Performance Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result

in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Discount Certificates

Product No. C9: Discount Certificate (Physical Delivery)

If the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Cap, investors receive the Underlying based on the Multiplier or the assets specified as the Physical Delivery Amount. The market value of the Underlying or, as the case may be, of the assets specified as the Physical Delivery Amount, in each case based on the Multiplier, may be below the purchase price of the Discount Certificate. In such case investors will suffer a loss. Investors must take into account that decreases in the share price may still also occur after the Valuation Date up until the transfer of the Underlying or the assets. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Product No. C10: Discount Certificate (Cash Settlement)

If the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Cap, the Cash Amount may be lower than the purchase price of the Discount Certificate. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Bonus Certificates

Product No. C11: Bonus Certificate

If, during the Observation Period, the Relevant Reference Level Value of the Underlying falls below or equals or falls below or is above or equal or above (as specified in the applicable Final Terms) the determined Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C12: Bonus Certificate with Cap

If, during the Observation Period, the Relevant Reference Level Value of the Underlying falls below or equals or falls below or is above or equal or above (as specified in the applicable Final Terms) the determined Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C13: BonusPro Certificate

If, during the Observation Period, the Relevant Reference Level Value of the Underlying falls below or equals or falls below or is above or equal or above (as specified in the applicable Final Terms) the determined Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C14: BonusPro Certificate with Cap

If, during the Observation Period, the Relevant Reference Level Value of the Underlying falls below or equals or falls below or is above or equal or above (as specified in the applicable Final Terms) the determined Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C15: Easy Bonus Certificate

If, on the Valuation Date, the Relevant Reference Level Value of the Underlying falls below or equals or falls below or is above or equal or above (as specified in the applicable Final Terms) the determined Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the

II. RISK FACTORS

Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C16: Easy Bonus Certificate with Cap

If, on the Valuation Date, the Relevant Reference Level Value of the Underlying falls below or equals or falls below or is above or equal or above (as specified in the applicable Final Terms) the determined Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C17: Reverse Bonus Certificate

If, during the Observation Period, the Relevant Reference Level Value of the Underlying exceeds or equals or exceeds (as specified in the applicable Final Terms) the determined Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is at least double the Initial Reference Level.

Product No. C18: Reverse Bonus Certificate with Cap

If, during the Observation Period, the Relevant Reference Level Value of the Underlying exceeds or equals or exceeds (as specified in the applicable Final Terms) the determined Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is at least double the Initial Reference Level.

Product No. C19: Flex Bonus Certificate

If, during the Observation Period or on an Observation Date or on the Valuation Date, the Relevant Reference Level Value of the Underlying falls below or equals or falls below (as specified in the applicable Final Terms) the determined Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Express Certificates

Product No. C20: Express Certificate with European Barrier Observation

If the Final Reference Level is below or equal or below (as specified in the applicable Final Terms) the Barrier on the Valuation Date, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C21: Express Certificate with American Barrier Observation

If the Underlying has fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the Observation Period, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C22: PerformancePlus Certificate

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier on the Valuation Date, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C23: Reverse Express Certificate

If the Final Reference Value is greater than or greater than or equal to (as specified in the applicable Final Terms) the Barrier on the Valuation Date, the Certificate involves a risk of loss depending on the

Relevant Reference Level Value of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is double the Initial Reference Level.

Product No. C24: Currency Express Certificate

If the Final Reference Level is above or below and/or equal to (as specified in the applicable Final Terms) the Barrier (depreciation or appreciation, as is applicable, of the Foreign Currency against the Base Currency), the Certificate involves a risk of loss depending on the price of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested.

Product No. C25: Express Autocallable Certificate

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying on the valuation date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.

Product No. C26: Worst of Express Autocallable Certificate

If the Final Reference Level of any Basket Constituent is below or equal to or below (as specified in the applicable Final Terms) its Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the worst performing Basket Constituent on the valuation date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the worst performing Basket Constituent is zero and if the Protection Level is zero.

Outperformance Certificates

Product No. C27: Outperformance Certificate

If the Final Reference Level falls below or is equal to or falls below (as specified in the applicable Final Terms) the determined Strike, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C28: Reverse Outperformance Certificate

If the Final Reference Level is above or above or equal to (as specified in the applicable Final Terms) the Strike, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is at least double the Strike.

Fixed Rate of Interest Certificates and Coupon Certificates

Product No. C29: Fixed Rate of Interest Certificate with European Barrier Observation

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier on the Valuation Date, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C30: Fixed Rate of Interest Certificate with American Barrier Observation

If the Relevant Reference Level Value of the Underlying falls below or is equal to or below (as specified in the applicable Final Terms) the Barrier during the term, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C31: Inflation-Linked Fixed Rate of Interest Certificate

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier on the Valuation Date, the Certificate involves a risk of loss depending on the Relevant Reference

II. RISK FACTORS

Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C32: Currency Fixed Rate of Interest Certificate

If the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Barrier (depreciation of the Foreign Currency against the Base Currency), the Certificate involves a risk of loss depending on the price of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested.

Product No. C33: Coupon Certificate with European Barrier Observation

If the or every (as applicable) Underlying falls below or equal to or below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the Observation Period or on all occasions during the Observation Period (as specified in the applicable Final Terms), the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying or the worst performing Underlying (as applicable); in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the Underlying or worst performing Underlying (as applicable) on the Valuation Date is zero.

Product No. C34: Coupon Certificate with American Barrier Observation

If the or every (as applicable) Underlying falls below or equal to or below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the Observation Period or on all occasions during the Observation Period (as specified in the applicable Final Terms), the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying or the worst performing Underlying (as applicable); in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the Underlying or worst performing Underlying (as applicable) on the Valuation Date is zero.

Product No. C35: Currency Certificate with Fixed Coupon

If the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Barrier (depreciation of the Foreign Currency against the Base Currency), the Certificate involves a risk of loss depending on the price of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested.

Product No. C36: Extra Coupon Certificate (Cash Settlement)

If the Final Reference Level is below the Barrier, the Extra Coupon Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C37: Extra Coupon Certificate (Physical Delivery)

If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Barrier, investors receive the Underlying based on the Multiplier or the assets specified as the Physical Delivery Amount. The market value of the Underlying or the assets plus Coupon Payments may be less than the purchase price of the Extra Coupon Certificate. In such case investors will suffer a loss. Investors must take into account that decreases in the share price may still also occur after the Valuation Date up until the transfer of the Underlying or the assets. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Additional Certificates without Capital Protection

Product No. C38: Reverse Participation Corridor Certificate

If the price of the Underlying rises, the Reverse Participation Corridor Certificate involves a risk of loss depending on the level of the Underlying on the Valuation Date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Interim Reference Price is double the

II. RISK FACTORS

Initial Reference Price or higher and the Underlying is quoted above the Upper Barrier or below the Lower Barrier on the Exercise Date.

Product No. C39: Sprinter Certificate

If the Final Reference Level is below or equal to or below the determined Strike, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C40: OneStep Certificate

If the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Threshold on the Valuation Date, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C41: Certificate with Redemption Threshold and Barrier without Possibility of Early Redemption

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier on the Valuation Date, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C42: Parachute Certificate

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Parachute Threshold, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C44: Twin Win Certificate with European Barrier Observation

If, on the Valuation Date, the Relevant Reference Level Value of the Underlying falls below or equals or falls below (as specified in the Final Terms) the Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.

Product No. C45: Twin Win Certificate with European Barrier Observation with Cap

If, on the Valuation Date, the Relevant Reference Level Value of the Underlying falls below or equals or falls below (as specified in the Final Terms) the Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.

Product No. C46: Twin Win Certificate with American Barrier Observation

If, during the Observation Period, the Relevant Reference Level Value of the Underlying falls below or equals or falls below (as specified in the Final Terms) the Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.

Product No. C47: Twin Win Certificate with American Barrier Observation with Cap

If, during the Observation Period, the Relevant Reference Level Value of the Underlying falls below or equals or falls below (as specified in the Final Terms) the Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.

Product No. C48: Autocallable Twin Win Certificate with European Barrier Observation

If, on the Valuation Date, the Relevant Reference Level Value of the Underlying falls below or equals or falls below (as specified in the Final Terms) the Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.

Product No. C49: Autocallable Twin Win Certificate with American Barrier Observation

If, during the Observation Period, the Relevant Reference Level Value of the Underlying falls below or equals or falls below (as specified in the Final Terms) the Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.

Product No. C50: Bonus Worst Of Certificates with European Barrier Observation

If the Final Reference Level of any Basket Constituent falls below or equals or falls below (as specified in the applicable Final Terms) the Barrier of such Basket Constituent, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the worst performing Basket Constituent; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the worst performing Basket Constituent is zero.

Product No. C51: Bonus Worst Of Certificates with American Barrier Observation

If during the Observation Period, the Relevant Reference Level Value of any Basket Constituent falls below or equals or falls below (as specified in the applicable Final Terms) the Barrier of such Basket Constituent, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the worst performing Basket Constituent; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the worst performing Basket Constituent is zero.

Product No. C52: Autocallable Certificate (with instalment redemption)

If the Relevant Reference Level Value of each Basket Constituent is not equal to or greater than or greater than (as specified in the applicable Final Terms) the relevant Redemption Threshold on any of the Observation Date and if the Final Reference Level of any Basket Constituent is less than or less than or equal to (as specified in the applicable Final Terms) the relevant Barrier, the Cash Amount may be less than the purchase price of the Autocallable Certificate (with instalment redemption). In such case investors will suffer a loss.

Product No. C53: Autocallable Outperformance Certificate

If, on the Valuation Date, the Outperformance (being the amount that the performance of the Long Underlying is greater than the performance of the Short Underlying) is less than or equal to the Protection Barrier, the Certificate involves a risk of loss depending on the value of the Outperformance; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Outperformance on the Valuation Date is less than or equal to negative one.

Product No. C54: Range Certificate

If, on the Valuation Date, the Relevant Reference Level Value of the Underlying falls outside all of the determined Ranges, the Certificate involves a risk of loss if the Protection Amount is less than the amount invested; in the worst-case scenario, this may result in the total loss of the capital invested if the Protection Amount is zero.

Product No. C55: Autocallable Bonus Certificate

If the Final Reference Level is equal to or below or below (as specified in the applicable Final Terms) the Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying on the valuation date or the Specified Reference Level (as specified in the applicable Final Terms); in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if

the Final Reference Level or the Specified Reference Level (as specified in the applicable Final Terms) is zero.

Product No. C56: Delta One Certificate

The Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying on the valuation date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.

Product No. C57: Dual Fixed Rate Certificate (with instalment redemption)

If the Final Reference Level of the Underlying (or if a Basket, of any Basket Constituent) is less than or less than or equal to (as specified in the applicable Final Terms) the relevant Barrier, the Cash Amount may be less than the purchase price of the Dual Fixed Rate Certificate (with instalment redemption). In such case investors may suffer a loss.

Product No. C58: Currency Chooser Basket Certificate

The return on the Currency Chooser Basket Certificate depends on the arithmetic average of the performance of the highest and the second highest performing Basket Constituents, multiplied by the Participation Factor. At worst, an investor will receive back the Nominal Amount per Security where the performance of the highest and the second highest performing Basket Constituents is negative or zero.

Product No. C59: Certificate linked to a Basket

If the performance of any Basket Constituent on the Valuation Date is lower than or lower than or equal to (as specified in the applicable Final Terms) the Barrier, the Certificate involves a risk of loss depending on the number of Basket Constituents in respect of which the performance on the Valuation Date is lower than or lower than or equal to (as specified in the applicable Final Terms) Barrier; in the worst-case scenario, this will result in the total loss of the capital invested.

Product No. C60: Rainbow Return Certificate

If the sum of the weighted performance of the highest performing, second highest performing and lowest performing Basket Constituents is below or equal to or below (as specified in the applicable Final Terms) zero or the Barrier (as specified in the applicable Final Terms), an investor will receive the minimum amount or nominal amount (as specified in the applicable Final Terms) for each Certificate.

Product No. C61: Worst of Express Autocallable Certificate (no Protection Level)

If the Final Reference Level of any Basket Constituent is below or equal to or below (as specified in the applicable Final Terms) its Barrier, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the worst performing Basket Constituent on the valuation date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the worst performing Basket Constituent is zero.

Product No. C62: Worst of Phoenix Autocallable Certificate

If the Final Reference Level of any Basket Constituent is below or equal to or below (as specified in the applicable Final Terms) its Barrier, the Certificate involves a risk of loss depending on the Final Reference Level of the worst performing Basket Constituent on the valuation date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the worst performing Basket Constituent is zero.

Product No. C63: Lookback Certificate

If the Final Reference Level of the Underlying is below or equal to or below (as specified in the applicable Final Terms) the Barrier on the Valuation Date, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the Underlying on the Valuation Date is zero.

Product No. C64: Coupon Certificate with Minimum Reference Level

If the Final Reference Level of the Underlying is below or equal to or below (as specified in the applicable Final Terms) the Barrier on the Valuation Date, the Certificate involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the Underlying on the Valuation Date is zero.

Product No. C65: Simplified Digital Variable Coupon Certificate

The Coupon Amount payable on a Coupon Payment Date (excluding the Settlement Date) depends on (i) the Specified Reference Level, multiplied by (ii) the Participation Factor, multiplied by (iii) the Underlying Return on the Coupon Observation Date immediately preceding such Coupon Payment Date, further multiplied by (iv) one divided by the relevant Coupon Divisor for such Coupon Observation Date. The Coupon Amount may be subject to a minimum amount (as specified in the applicable Final Terms) and/or a maximum amount (as specified in the applicable Final Terms).

The Coupon Divisor may be different for each Coupon Observation Date, and may be higher for later Coupon Observation Dates, which will result in a larger proportional reduction of Coupon Amounts for Coupon Payment Dates falling later in time during the term of the Certificate.

Consequently, even if the Reference Level of the Underlying on a later Coupon Observation Date is higher than its Reference Level on the earlier Coupon Observation Date(s), an investor could receive the minimum Coupon Amount (if any) payable on the following Coupon Payment Date (excluding the Settlement Date).

It is thus possible that the total Coupon Amounts payable throughout the term of the Certificate will be the aggregate of the minimum Coupon Amounts payable on each Coupon Payment Date or, if no minimum Coupon Amounts are specified in the applicable Final Terms, it is possible that no Coupon Amounts will be paid throughout the term of the Certificate. If this occurs, while an investor will receive on the Settlement Date the Cash Amount, being an amount equal to the Specified Reference Level of each Certificate plus any Additional Amount (subject to the credit risk of the Issuer), the investor will not receive any return beyond this and any coupons received prior to the Settlement Date.

Product No. C66: Parachute Certificate with Cap

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Parachute Threshold, the Certificate involves a risk of loss depending on the price or level of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. C67: Hybrid Express Certificate

If on the Valuation Date any Basket Constituent comprising Underlying A closes [below] [equal to or below] the Initial Reference Level of such Basket Constituent and if the Final Reference Level of Underlying B is [equal to or below] [below] its Barrier, the Certificate involves a risk of loss depending on the level of the Underlying B on the Valuation Date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of Underlying B is zero.

Product No. W26: Top Rank Warrant

If Average Performance is equal to or below (as specified in the applicable Final Terms) zero, the investor will suffer a total loss of the capital invested or will receive only an amount equal to the Specified Reference Level or the percentage of the Specified Reference Level as specified in the applicable Final Terms (if Capital Protection is specified in the applicable Final Terms).

Notes**Reverse Convertible Notes*****Product No. N1: Reverse Convertible Note (Physical Delivery)***

If the Final Reference Level is less than or equal to or less than (as specified in the applicable Final Terms) the Strike, investors receive the Underlying based on the Multiplier or, as the case may be, the assets specified as the Physical Delivery Amount. The market value of the Underlying or the assets plus Coupon Payments may be less than the purchase price of the Reverse Convertible Note. In such case investors will suffer a loss. Investors must take into account that decreases in the share price may still also occur after the Valuation Date up until the transfer of the Underlying or the assets. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Product No. N2: Reverse Convertible Note (Cash Settlement)

If the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Underlying, the Cash Amount plus Coupon Payments may be less than the purchase price of the Reverse Convertible Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero. Any variable Coupon Payments (if specified in the applicable Final Terms) may be limited to a maximum of the Maximum Coupon (if specified in the applicable Final Terms).

Product No. N3: Barrier Reverse Convertible Note (Physical Delivery)

If the Underlying has been below or at or below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the term and the Final Reference Level is below or at or below (as specified in the applicable Final Terms) the Strike, investors receive the Underlying based on the Multiplier or the assets specified as the Physical Delivery Amount. The market value of the Underlying or the assets plus Coupon Payments may be less than the purchase price of the Barrier Reverse Convertible Note. In such case investors will suffer a loss. Investors must take into account that decreases in the share price may still also occur after the Valuation Date up until the transfer of the Underlying or the assets. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Product No. N4: Barrier Reverse Convertible Note (Cash Settlement)

If the Underlying has been below or at or below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the term and if the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Strike, the Cash Amount plus Coupon Payments may be less than the purchase price of the Barrier Reverse Convertible Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Product No. N5: Barrier Reverse Convertible Worst of Basket Note (Physical Delivery)

If at least one Basket Constituent has been below or at or below (as specified in the applicable Final Terms) its Barrier on at least one occasion during the term and if the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) its Strike, investors either receive, based on the Multiplier, the Basket Constituent which, based on its Strike at maturity of the Barrier Reverse Convertible Worst of Basket Note, has the worst performance of all Basket Constituents or receive the assets specified as the Physical Delivery Amount. The market value of the Basket Constituent with the worst performance or the assets plus Coupon Payments may be less than the purchase price of the Barrier Reverse Convertible Worst of Basket Note. In such case investors will suffer a loss. Investors must take into account that losses may still also occur after the Valuation Date up until the transfer of the Basket Constituent with the worst performance or the assets. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N6: Barrier Reverse Convertible Worst of Basket Note (Cash Settlement)

If at least one Basket Constituent has been below or at or below (as specified in the applicable Final Terms) its Barrier on at least one occasion during the term and if the Final Reference Level of at least one Basket Constituent is less than or equal to or less than its Strike, the Cash Amount plus Coupon Payments may be less than the purchase price of the Barrier Reverse Convertible Worst of Basket Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N7: Barrier Reverse Convertible Worst of Basket Note with Participation (Physical Delivery)

If at least one Basket Constituent has been below or at or below (as specified in the applicable Final Terms) its Barrier on at least one occasion during the term and if the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) its Strike, investors either receive, based on the Multiplier, the Basket Constituent which, based on its Strike, has the worst performance of all Basket Constituents or receive the assets specified as the Physical Delivery Amount. The market value of the Basket Constituent with the worst performance or the assets plus Coupon Payments may be less than the purchase price of the Barrier Reverse Convertible Worst of Basket Note with Participation. In such case investors will suffer a loss. Investors must take into account that losses may still also occur after the Valuation Date up until the transfer of the Basket Constituent with the worst performance or the assets. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N8: Barrier Reverse Convertible Worst of Basket Note with Participation (Cash Settlement)

If at least one Basket Constituent has been below or at or below (as specified in the applicable Final Terms) its Barrier on at least one occasion during the term and if the Final Reference Level of at least one Basket Constituent is less than or equal to or less than (as specified in the applicable Final Terms) its Strike, the Cash Amount plus Coupon Payments may be less than the purchase price of the Barrier Reverse Convertible Worst of Basket Note with Participation. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N9: Barrier Pro Reverse Convertible Note (Physical Delivery)

If the Underlying has been below or at or below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the Observation Period and the Final Reference Level is below or at or below (as specified in the applicable Final Terms) the Strike, investors receive the Underlying based on the Multiplier or the assets specified as the Physical Delivery Amount. The market value of the Underlying or the assets plus Coupon Payments may be less than the purchase price of the Barrier Pro Reverse Convertible Note. In such case investors will suffer a loss. Investors must take into account that decreases in the share price may still also occur after the Valuation Date up until the transfer of the Underlying or the assets. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Product No. N10: Barrier Pro Reverse Convertible Note (Cash Settlement)

If the Underlying has been below or at or below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the Observation Period and if the Final Reference Level is less than or equal to or less than (as specified in the applicable Final Terms) the Strike, the Cash Amount plus Coupon Payments may be less than the purchase price of the Barrier Pro Reverse Convertible Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Product No. N11: Barrier Pro Reverse Convertible Worst of Basket Note (Physical Delivery)

If at least one Basket Constituent has been below or at or below (as specified in the applicable Final Terms) its Barrier on at least one occasion during the Observation Period and if the Final Reference Level

II. RISK FACTORS

of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) its Strike, investors either receive, based on the Multiplier, the Basket Constituent which, based on its Strike at maturity of the Barrier Pro Reverse Convertible Worst of Basket Note, has the worst performance of all Basket Constituents or receive the assets specified as the Physical Delivery Amount. The market value of the Basket Constituent with the worst performance or the assets plus Coupon Payments may be less than the purchase price of the Barrier Pro Reverse Convertible Worst of Basket Note. In such case investors will suffer a loss. Investors must take into account that decreases in the share price may still also occur after the Valuation Date up until the transfer of the Basket Constituent with the worst performance or the assets. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N12: Barrier Pro Reverse Convertible Worst of Basket Note (Cash Settlement)

If at least one Basket Constituent has been below or at or below (as specified in the applicable Final Terms) its Barrier on at least one occasion during the Observation Period and if the Final Reference Level of at least one Basket Constituent is less than or equal to or less than (as specified in the applicable Final Terms) its Strike, the Cash Amount plus Coupon Payments may be less than the purchase price of the Barrier Pro Reverse Convertible Worst of Basket Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N13: Easy Reverse Convertible Note (Physical Delivery)

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier, investors receive the Underlying based on the Multiplier or the assets specified as the Physical Delivery Amount. The market value of the Underlying or the assets plus Coupon Payments may be less than the purchase price of the Easy Reverse Convertible Note. In such case investors will suffer a loss. Investors must take into account that decreases in the share price may still also occur after the Valuation Date up until the transfer of the Underlying or the assets. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Product No. N14: Easy Reverse Convertible Note (Cash Settlement)

If the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Barrier, the Cash Amount plus Coupon Payments may be less than the purchase price of the Easy Reverse Convertible Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero.

Product No. N15: Easy Reverse Convertible Worst of Basket Note (Physical Delivery)

If the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) its Barrier, investors either receive, based on the Multiplier, the Basket Constituent which, based on its Strike at maturity of the Easy Reverse Convertible Worst of Basket Note, has the worst performance of all Basket Constituents or receive the assets specified as the Physical Delivery Amount. The market value of the Basket Constituent with the worst performance or the assets plus Coupon Payments may be less than the purchase price of the Easy Reverse Convertible Worst of Basket Note. In such case investors will suffer a loss. Investors must take into account that losses may still also occur after the Valuation Date up until the transfer of the Basket Constituent with the worst performance or the assets. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N16: Easy Reverse Convertible Worst of Basket Note (Cash Settlement)

If the Final Reference Level of at least one Basket Constituent is lower than or equal to or lower than (as specified in the applicable Final Terms) its Barrier, the Cash Amount plus Coupon Payments may be less than the purchase price of the Barrier Easy Reverse Convertible Worst of Basket Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N17: Worst of Basket Autocallable Note

If the Final Reference Level of at least one Basket Constituent is lower than or equal to or lower than (as specified in the applicable Final Terms) its Barrier, the Cash Amount plus any Coupon Payments may be less than the purchase price of the Worst of Basket Autocallable Note. In such case investors will suffer a loss. At worst, the investor may suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N18: Worst of Basket Callable Note

If the Barrier Determination Amount of at least one Basket Constituent on any Observation Date during the Observation Period or on the Valuation Date is lower than or equal to or lower than (as specified in the applicable Final Terms) its Barrier, the Cash Amount plus any Coupon Payments may be less than the purchase price of the Worst of Basket Callable Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero. If the Issuer calls the Worst of Basket Callable Note, an investor will no longer be able to realise his expectations for a gain in the value of the Worst of Basket Callable Note and will no longer participate in the performance of the Basket Constituents. Also, in the event that prevailing interest rates on similar instruments at the time of the Issuer call have declined relative to the implied interest rate on the Worst of Basket Callable Note as of the time of initial issuance, an investor may be unable to invest the call proceeds in securities with a comparable risk-return profile as the Worst of Basket Callable Note.

Other Notes

Product No. N31: Currency Note

If the Underlying increases in value, the Currency Note involves a risk of loss depending on the Relevant Reference Level Value of the Underlying at maturity; in the worst-case scenario, this may result in the total loss of the capital invested.

Product No. N32: Autocallable Note (with instalment redemption)

If on none of the Observation Dates the Relevant Reference Level Value of all Basket Constituents is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike and if the Final Reference Level of any Basket Constituent is less than or equal to or less than (as specified in the applicable Final Terms) the relevant Barrier, the Cash Amount may be less than the purchase price of the Autocallable Note (with instalment redemption). In such case investors will suffer a loss. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N33: Stability Note

If on any Observation Date the Daily Performance Level of the Underlying is lower than a certain threshold, the Cash Amount may be less than the purchase price of the Stability Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of capital invested.

Product No. N34: Digital Variable Coupon Note

If on any Coupon Observation Date, the Reference Level of the Basket or the Relevant Reference Level Value of the Underlying or each of the Basket Constituents (as specified in the applicable Final Terms) are not (a) above, or (b) above or equal to, or (c) below, or (d) below or equal to (as specified in the applicable Final Terms) a certain threshold, no coupon will be paid on the following Coupon Payment Date. It is thus possible that no Coupon Payments are made throughout the term of the Digital Variable Coupon Note. If this occurs, while an investor will receive the Nominal Amount (or such percentage of the Nominal Amount as specified in the applicable Final Terms) of each Digital Variable Coupon Note or an amount equal to the Specified Reference Level (as specified in the applicable Final Terms), he will not receive any return beyond this.

Product No. N35: Range Accrual Note

If during a relevant Coupon Period, the Relevant Reference Level Value of the Underlying is outside of a specified range on one or more days in such Coupon Period, the Coupon Amount will be reduced for such Coupon Period; in the worst-case scenario, where this occurs on every day in each Coupon Period, this will result in no Coupon Amount being payable throughout the term of the Range Accrual Note. If this occurs, while an investor will receive the nominal amount of each Range Accrual Note, he will not receive any amount beyond this.

Product No. N36: Leveraged Floater Note

The Leveraged Floater Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date. The level of the Interest Rate corresponds to the Underlying multiplied by the Leverage specified in the applicable Final Terms. However, the interest rate determined at the respective Coupon Payment Date is limited by the Rate Cap and investors would not participate in any further increase.

Product No. N37: Altiplano Basket Note

If on any Coupon Observation Date in a Coupon Observation Period the price or level of any Basket Constituent is less than or less than or equal to (as specified in the applicable Final Terms), the Coupon Threshold, no Coupon Amount will be payable in respect of such Coupon Observation Period; in the worst-case scenario, no Coupon Amount may be payable throughout the term of the Altiplano Basket Note. If this occurs, while an investor will receive the nominal amount of each Altiplano Basket Note, an investor will not receive any amount beyond this.

Product No. N38: Individual Cap Note

If the applicable Final Terms provide that a coupon may be payable, if for any Coupon Reference Date the Performance of any Basket Constituent is less than or less than or equal to (as specified in the applicable Final Terms) the Coupon Threshold, the Coupon Amount payable will be less than the Fixed Performance multiplied by the Nominal; in the worst-case scenario, no Coupon Amount may be payable throughout the term of the Individual Cap Note. If this occurs, while an investor will receive the nominal amount of each Individual Cap Note, an investor will not receive any amount beyond this. If the Cash Amount is not 100% capital protected (as specified in the applicable Final Terms) then capital may be lost.

Product No. N39: Autocallable Note with Memory Coupon

If the Final Reference Level of the Underlying or at least one Basket Constituent (as specified in the applicable Final Terms) is lower than or equal to or lower than (as specified in the applicable Final Terms) its Barrier, the Cash Amount plus any Coupon Payments may be less than the purchase price of the Note. In such case investors will suffer a loss. At worst, the investor may suffer a total loss of capital invested if the Final Reference Level of the Underlying or the Basket Constituent with the worst performance (as specified in the applicable Final Terms) is zero and the Put Strike is equal to one.

Product No. N40: Autocallable Note with Knock Out Barrier of Down and In Put

If the Final Reference Level of at least one Basket Constituent is lower than or equal to or lower than (as specified in the applicable Final Terms) its Barrier and a Capital Protection Event has not occurred, the Cash Amount plus any Coupon Payments may be less than the purchase price of the Note. In such case investors may suffer a loss. At worst, the investor may suffer a total loss (other than any Coupon Payments) of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N41: Recovery Note

If the Final Reference Level of at least one Basket Constituent is lower than or equal to or lower than (as specified in the applicable Final Terms) its Barrier, the Cash Amount plus any Coupon Payments may be

II. RISK FACTORS

less than the purchase price of the Recovery Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N42: Single Underlying Autocallable Note

If the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Barrier, the Cash Amount plus any Coupon Payments may be less than the purchase price of the Single Underlying Autocallable Note. In such case investors will suffer a loss. At worst, the investor may suffer a total loss of capital invested if the Final Reference Level is zero.

Product No. N43: Outperformance Note

If the Final Reference Level falls below or is equal to or falls below (as specified in the applicable Final Terms) the determined Strike, the Note involves a risk of loss depending on the Relevant Reference Level Value of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level on the Valuation Date is zero.

Product No. N44: Switchable Note

If the Switch Event occurs, the return is limited to the Switch Coupons, and if specified in the applicable Final Terms, plus the Guaranteed Coupons. If the Switch Event does not occur, the return depends on the performance of the Underlying. At worst, an investor will receive back the capital invested (or a specified percentage of the capital invested) plus the Guaranteed Coupon (if specified in the applicable Final Terms) where the performance of the underlying is negative or zero.

Product No. N45: Note linked to a Basket

If the performance of any Basket Constituent on the Valuation Date is lower than or lower than or equal to (as specified in the applicable Final Terms) the Barrier, the Note involves a risk of loss depending on the number of Basket Constituents in respect of which the performance on the Valuation Date is lower than or lower than or equal to (as specified in the applicable Final Terms) Barrier; in the worst-case scenario, this will result in the total loss of the capital invested.

Product No. N46: Worst of Basket Callable Note with performance-linked coupon

If the Barrier Determination Amount of at least one Basket Constituent on the Valuation Date (or, if specified in the applicable Final Terms, on any Observation Date during the Observation Period or on the Valuation Date) is lower than or equal to or lower than (as specified in the applicable Final Terms) its Barrier, the Cash Amount plus any Coupon Payments may be less than the purchase price of the Worst of Basket Callable Note with performance-linked coupon. In such case investors will suffer a loss. At worst, the investor may suffer a total loss of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero. If the Redemption Right of the Issuer is specified to be applicable in the applicable Final Terms and the Issuer calls the Worst of Basket Callable Note, an investor will no longer be able to realise his expectations for a gain in the value of the Worst of Basket Callable Note with performance-linked coupon and will no longer participate in the performance of the Basket Constituents. Also, in the event that prevailing interest rates on similar instruments at the time of the Issuer call have declined relative to the implied interest rate on the Worst of Basket Callable Note with performance-linked coupon as of the time of initial issuance, an investor may be unable to invest the call proceeds in securities with a comparable risk-return profile as the Worst of Basket Callable Note with performance-linked coupon.

Product No. N47: Currency Chooser Basket Note

The return on the Currency Chooser Basket Note depends on the arithmetic average of the performance of the highest and the second highest performing Basket Constituents, multiplied by the Participation Factor. At worst, an investor will receive back the Nominal Amount per Security where the performance of the highest and the second highest performing Basket Constituents is negative or zero.

Product No. N48: Currency Express Note

If the Final Reference Level is above or below and/or equal to (as specified in the applicable Final Terms) the Barrier (depreciation or appreciation, as is applicable, of the Foreign Currency against the Base Currency), the Note involves a risk of loss depending on the price of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested.

Product No. N49: Rainbow Return Note

If the sum of the weighted performance of the highest performing, second highest performing and lowest performing Basket Constituents is below or equal to or below (as specified in the applicable Final Terms) zero or the Barrier (as specified in the applicable Final Terms), an investor will receive the minimum amount or nominal amount (as specified in the applicable Final Terms) for each Note.

Product No. N50: Autocallable Note with Knock Out Barrier

If the Final Reference Level of at least one Basket Constituent is lower than or equal to or lower than (as specified in the applicable Final Terms) its Barrier, the Cash Amount plus any Coupon Payments may be less than the purchase price of the Note. In such case investors may suffer a loss. At worst, the investor may suffer a total loss (other than any Coupon Payments) of capital invested if the Final Reference Level of the Basket Constituent with the worst performance is zero.

Product No. N51: Single Underlying Callable Note

If the Underlying falls in value, the Single Underlying Callable Note involves a risk of loss depending on the Final Reference Level of the Underlying at maturity. If Final Reference Level is zero, an investor will receive 100 per cent. or other specified percentage of the nominal amount of each Single Underlying Callable Note, and an investor will not receive any amount beyond this. If the Final Terms specify the Cash Amount is not 100% capital protected, then capital may be lost.

If the Issuer calls the Single Underlying Callable Note, an investor will no longer be able to realise his expectations for a gain in the value of the Single Underlying Callable Note and will no longer participate in the performance of the Underlying. Also, in the event that prevailing interest rates on similar instruments at the time of the Issuer call have declined relative to the implied interest rate on the Single Underlying Callable Note as of the time of initial issuance, an investor may be unable to invest the call proceeds in securities with a comparable risk-return profile as the Single Underlying Callable Note.

Product No. N52: Switchable Coupon Note

If the Switch Event occurs, the return is limited to the Switch Coupons, and at maturity an investor will receive 100 per cent. or other specified percentage of the nominal amount of each Switchable Coupon Note. If the Switch Event does not occur, the return depends on the Final Reference Level of the Underlying at maturity. At worst, an investor will receive back the capital invested (or such percentage of the nominal amount of each Switchable Coupon Note as specified in the applicable Final Terms) where the performance of the Underlying is negative or zero. If the Final Terms specify the Cash Amount is not 100% capital protected, then capital may be lost.

Product No. N53: Outperformance Note (Geared Put)

If the performance of the Underlying falls below or is equal to or falls below (as specified in the applicable Final Terms) the determined Strike or Strike 2 (as specified in the applicable Final Terms), the Outperformance Note (Geared Put) involves a risk of loss depending on the Final Reference Level of the Underlying; in the worst-case scenario, this may result in the loss of some or all (as specified in the applicable Final Terms) of the capital invested.

Product No. N54: Express Autocallable Note on a Basket

If the Final Reference Level of any Basket Constituent is below or equal to or below (as specified in the applicable Final Terms) its Barrier, the Note involves a risk of loss depending on the Relevant Reference Level Value of the worst performing Basket Constituent on the valuation date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of the

II. RISK FACTORS

worst performing Basket Constituent is zero and if the Minimum Amount (if specified in the applicable Final Terms) is zero.

Product No. N55: Express Autocallable Note on a Share Basket with Put on an Index

If the performance of worst performing Share in the Basket is below or equal to or below (as specified in the applicable Final Terms) the relevant Redemption Threshold, no coupon will be paid. If the performance of the Index (a) on the valuation date or (b) on any trading day during the observation period and/or the valuation date (as specified in the applicable Final Terms) is below or equal to or below (as specified in the applicable Final Terms) the Barrier, the Note involves a risk of loss depending on the performance of the Index on the valuation date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Reference Level of the Index on the valuation date is zero.

Product No. N56: Altiplano Coupon Lock In Note

If a Lock In Event has not occurred and the performance of the Underlying or any Basket Constituent (as specified in the applicable Final Terms) on the valuation date or on any trading day during the observation period or the valuation date (as specified in the applicable Final Terms) is below or equal to or below (as specified in the applicable Final Terms) the determined Barrier, the Altiplano Coupon Lock In Note involves a risk of loss depending on the performance of the Underlying or the worst performing Basket Constituent (as specified in the applicable Final Terms); in the worst-case scenario, this may result in the loss of some or all of the capital invested. At worst, an investor will receive back the capital invested (or such percentage of the Nominal Amount as specified in the applicable Final Terms). If no Lock In Event occurs, and the performance of the Underlying or any Basket Constituent (as specified in the applicable Final Terms) on every coupon observation date is below or equal to or below (as specified in the applicable Final Terms) the Coupon Threshold, no fixed Coupons will be payable.

Product No. N57: Outperformance Call Note

The Outperformance Call Note involves a risk of loss depending on the difference between the Outperformance Amount and the Strike. The Outperformance Amount is the difference between the performance of a specified Underlying in the applicable Final Terms and the performance of another specified Underlying in the applicable Final Terms; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Outperformance Amount is equal to or less than the Strike, unless the product is capital protected at 100% of the Nominal Amount per Note.

Product No. N58: Currency Autocallable Note

If the Final Reference Level is above or above and/or equal to (as specified in the applicable Final Terms) the Barrier (depreciation or appreciation, as is applicable, of the Foreign Currency against the Base Currency), the Note involves a risk of loss depending on the price of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested.

Product No. N59: Simplified Digital Variable Coupon Note

The Coupon Payment on a Coupon Payment Date depends on (i) the Nominal Amount, multiplied by (ii) the Participation Factor, multiplied by (iii) the Underlying Return on the Coupon Observation Date immediately preceding such Coupon Payment Date, further multiplied by (iv) one divided by the relevant Coupon Divisor for such Coupon Observation Date.

The Coupon Divisor may be different for each Coupon Observation Date, and may be higher for later Coupon Observation Dates, which will result in a larger proportional reduction of Coupon Payments for Coupon Payment Dates falling later in time during the term of the Note.

Consequently, even if the Reference Level of the Underlying on a later Coupon Observation Date is higher than its Reference Level on the earlier Coupon Observation Date(s), an investor could receive the minimum Coupon Payment on the following Coupon Payment Date.

It is thus possible that the total Coupon Payments made throughout the term of the Note will be the aggregate of the minimum Coupon Payments made on each Coupon Payment Date. If this occurs, while

an investor will receive on the Settlement Date 100 per cent. of the nominal amount of each Note (subject to the credit risk of the Issuer), the investor will not receive any return beyond this and the coupons received on and prior to the Settlement Date.

Product No. N60: Contingent Coupon Note

The Contingent Coupon Note has a fixed Coupon for a set number of Coupon Periods (as specified in the applicable Final Terms), and for the subsequent set number of Coupon Periods (as specified in the applicable Final Terms), the Coupon depends on the performance of a single Underlying Rate or two Underlying Rates (as specified in the applicable Final Terms).

If the Coupon depends on the performance of the Underlying Rate for the relevant Coupon Period, and if on the relevant Coupon Observation Date for such Coupon Period, the Underlying Rate is (i) above, or (ii) below, or (iii) above or equal to, or (iv) below or equal to (as specified in the applicable Final Terms) the Coupon Threshold, the Coupon for such Coupon Period will be a fixed interest rate (as specified in the applicable Final Terms). Otherwise, the Coupon for such Coupon Period will be another fixed interest rate (as specified in the applicable Final Terms).

If the Coupon depends on the performance of two Underlying Rates for the relevant Coupon Period, and if on the relevant Coupon Observation Date for such Coupon Period, the Underlying Rate 1 is (i) above, or (ii) below, or (iii) above or equal to, or (iv) below or equal to (as specified in the applicable Final Terms) the Coupon Threshold, the Coupon for such Coupon Period will be an amount calculated from (a) the product of Underlying Rate 2 on the Coupon Determination Date for such Coupon Period and the Participation Factor, plus or minus (b) the Margin (as specified in the applicable Final Terms), and if specified in the applicable Final Terms, subject to the Maximum Coupon or the Minimum Coupon (or both) (as specified in the applicable Final Terms). Otherwise, the Coupon for such Coupon Period will be a fixed interest rate (as specified in the applicable Final Terms). If this occurs, investors would not receive any return based on Underlying Rate 2 for such Coupon Period.

Product No. N61: Fixed Coupon Note with Conditional Bonus Coupon

The coupon for the Fixed Coupon Note with Conditional Bonus Coupon is comprised of (i) a fixed component (being the Coupon Amount) and (ii) a conditional component (being the Bonus Coupon) (as specified in the applicable Final Terms).

In relation to the fixed component of the coupon, the Fixed Coupon Note with Conditional Bonus Coupon pays the Coupon Amount on each Coupon Payment Date.

In relation to the conditional component of the coupon, the Bonus Coupon will be paid on the or each Bonus Coupon Payment Date (as specified in the applicable Final Terms) if the Underlying on the relevant Bonus Coupon Determination Date or Coupon Determination Date (as specified in the applicable Final Terms) is either (i) above or (ii) equal to or above or (iii) below or (iv) equal to or below (as specified in the applicable Final Terms) the Bonus Coupon Threshold. The total coupon investors receive will be affected by the performance of the Underlying and may not include a Bonus Coupon.

Product No. N62: Simplified Digital Variable as Coupon Note with Initial Fixed Interest

For a set number of Coupon Payment Dates (as specified in the applicable Final Terms), the Coupon Amount paid on the relevant Coupon Payment Date will be a fixed Coupon.

Thereafter the Coupon Amount paid on a Coupon Payment Date depends on the performance of the Underlying or Basket (as specified in the applicable Final Terms) on the Coupon Observation Date falling immediately prior to such Coupon Payment Date and whether such Coupon Observation Date falls earlier or later in the term of the Note.

The Coupon Amount payable on the subsequent Coupon Payment Dates (after the fixed Coupon Payment Dates) will be calculated as (i) the Nominal Amount, multiplied by (ii) the Participation Factor, multiplied by (iii) one divided by the Coupon Divisor, and further multiplied by (iv) the Relevant Reference Level Value of the Underlying or the Reference Level of the Basket (as specified in the applicable Final Terms) on the Coupon Observation Date falling immediately prior to such Coupon Payment Date divided by the Initial Reference Level of the Underlying or Basket (as specified in the applicable Final Terms), minus one. The Coupon Amount payable on the subsequent Coupon Payment Dates may be subject to a

II. RISK FACTORS

minimum amount (as specified in the applicable Final Terms) and/or a maximum amount (as specified in the applicable Final Terms).

The Coupon Divisor may be different for each Coupon Observation Date, and the Coupon Divisor may be higher for later Coupon Observation Dates, which will result in a larger proportional reduction of Coupon Amounts for Coupon Payment Dates falling later in time.

Consequently, even if the Reference Level of the Underlying on a later Coupon Observation Date is higher than its Reference Level on the earlier Coupon Observation Date(s), an investor could receive the minimum Coupon Amount (if any) on the following Coupon Payment Date.

It is thus possible that the total Coupon Amounts payable throughout the term of the Note will be the aggregate of the fixed or minimum Coupon Amounts payable on each Coupon Payment Date. If this occurs, while an investor will receive on the Settlement Date 100 per cent. of the nominal amount of each Note (subject to the credit risk of the Issuer), the investor will not receive any return beyond this and any coupons received on and prior to the Settlement Date.

Product No. N63: Autocallable Note on a Basket Average (with instalment redemption)

If the arithmetic average performance of all Basket Constituents is not above or equal to or above (as specified in the applicable Final Terms) the Strike on any of the Observation Dates and if the arithmetic average performance of all Basket Constituents is below or equal to or below (as specified in the applicable Final Terms) the relevant Barrier, the Cash Amount may be less than the purchase price of the Autocallable Note on a Basket Average (with instalment redemption). In such case investors will suffer a loss. At worst, the investor will suffer a total loss of the capital invested (apart from any Instalment Cash Amount received, as specified in the applicable Final Terms) if the arithmetic average performance of all Basket Constituents of the Last Observation Date is zero.

Product No. N64: Autocallable Note with Conditional Coupons

If the Performance of the Underlying is below or below or equal to (as specified in the applicable Final Terms) the Coupon Threshold on an Observation Date no Coupon Amount will be paid on the immediately following Coupon Payment Date. If the Final Performance of the Underlying is below or below or equal to (as specified in the applicable Final Terms) the Barrier, the Cash Amount plus any Coupon Amounts may be less than the purchase price of the Note. In such case investors will suffer a loss. At worst, the investor may suffer a total loss of capital invested if the Final Reference Level of the Underlying is zero.

Product No. N65: Enhanced Participation Note

If, on an Observation Date or at any time or on any day during the Observation Period (as specified in the applicable Final Terms) the Reference Level of Underlying B has not been equal to or above or above (as specified in the applicable Final Terms) the Knock-out Level and if on the Valuation Date the Reference Level of Underlying B is not equal to or above or above (as specified in the applicable Final Terms) the Knock-In Level, the Note involves a risk of loss depending on the level of Underlying B on the Valuation Date; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level of Underlying B is zero and the Final Reference Level of Underlying A is less than or less than or equal to (as specified in the applicable Final Terms) the Strike.

Product No. N66: Capital Protected Lock-In Note

The Capital Protected Lock- In Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Product No. N67: Lookback Note

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier, the Lookback Note involves a risk of loss depending on the price or level of the Underlying; in the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.

Product No. N68: Top Rank Note

If Average Performance is equal to or below (as specified in the applicable Final Terms) zero, the investor will suffer a total loss of the capital invested or will receive only the Nominal Amount or the percentage of the Nominal Amount as specified in the applicable Final Terms (if Capital Protection is specified in the applicable Final Terms).

Product No. N69: Coupon Note with performance payout

The Coupon Note with performance payout [if applicable, insert other marketing name] is 100% capital protected at maturity. Capital protection means that redemption of the Coupon Note with performance payout [if applicable, insert other marketing name] at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive a Coupon Payment on the Coupon Payment Date or on the Coupon Payment Dates.

Product No. N70: 100% Capital Guaranteed Note

The 100% Capital Guaranteed Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Product No. N71: Steepener Note with Lock In

The Steepener Note with Lock In is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Product No. N72: Worst of Basket Autocallable Note (with basket averaging)

If the arithmetic average performance of the Basket Constituents is not greater than or equal to or greater than the Strike (as specified in the applicable Final Terms) on an Observation Date and if the arithmetic average performance of the Basket Constituents is equal to or below or below the relevant Barrier (as specified in the Final Terms) on the Valuation Date, the Cash Amount may be less than the purchase price of the Worst of Basket Autocallable Note (with basket averaging). In such case investors will suffer a loss. At worst, the investor may suffer a total loss of the capital invested if the arithmetic average performance of all Basket Constituents on the Valuation Date is zero.

Product No. N73: Fixed to Floating Reverse Convertible Note

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Strike and a Knock Out Event has not occurred, the Cash Amount plus Coupon Payments may be less than the purchase price of the Fixed to Floating Reverse Convertible Note. In such case investors will suffer a loss. At worst, the investor will suffer a total loss of the capital invested if on the Valuation Date the Final Reference Level is zero. Any variable Coupon Payments (if specified in the applicable Final Terms) may be limited to a minimum of the Minimum Coupon (if specified in the applicable Final Terms) and/or a maximum of the Maximum Coupon (if specified in the applicable Final Terms).

Product No. N74: Switchable Note with performance payout

If the Switch Event occurs, the return is limited to the Switch Coupons. If the Switch Event does not occur, the return depends on the performance of the Underlying. At worst, an investor will receive back the capital invested (or a specified percentage of the capital invested) where the performance of the underlying is negative or zero.

Product No. N75: Partial Capital Protection Note

If the Final Reference Level is either below or equal to or below (as specified in the Final Terms) the Initial Reference Level, the Partial Capital Protection Note involves a risk of loss if the Cash Amount equal to the percentage of the Nominal Amount specified in the Final Terms is lower than the purchase price of the Partial Capital Protection Note.

3. Risk factors relating to the Underlying

The Reference Items comprised in the Underlying for the Securities (if applicable) may be one or more shares, indices, other securities, commodities, exchange rates, futures contracts, fund units or fund shares and/or interest rates. The Securities may relate to one or more of these Reference Items or a combination of them.

Some or all of the amounts payable or assets deliverable on exercise, redemption or periodically under the Securities will be determined by reference to the price or value of these Reference Items as set out in the applicable Final Terms. Accordingly, investors should review carefully the applicable Final Terms in order to understand the effect on the Securities of such linkage to the Underlying and the Reference Items.

The purchase of, or investment in, Securities linked to Reference Item(s) involves substantial risks. These Securities are not conventional securities and carry various unique investment risks which prospective investors should understand clearly before investing in the Securities. Each prospective investor in such Securities should be familiar with securities having characteristics similar to such Securities and should fully review all documentation for and understand the Terms and Conditions of the Securities, the applicable Final Terms and the nature and extent of its exposure to risk of loss.

The Issuer may issue Securities where the amount of interest or other amounts payable or the amount of assets deliverable is dependent upon:

- (a) the price or changes in the price of, one or more equity securities;
- (b) the level or changes in the level of one or more indices;
- (c) the price or changes in the price of one or more other securities;
- (d) the price or changes in the price of one or more commodities;
- (e) movements in currency exchange rates;
- (f) one or more futures contracts;
- (g) the price or changes in the price of units or shares in one or more funds;
- (h) the level or changes in the level of one or more interest rates; or
- (i) other underlying assets or bases of reference.

Prospective investors in any such Securities should be aware that depending on the Terms and Conditions of such Securities (i) they may receive no amount or a limited amount of interest or other amounts and/or deliverable assets, (ii) payment of interest or other amounts and/or assets delivered may occur at different times than expected or in a different currency than expected and (iii) they may lose all or a substantial portion of their investment upon redemption or settlement.

In addition, the movements in:

- (a) the price of the relevant equity securities;
- (b) the level of the relevant index or indices;
- (c) the price of the relevant other securities;
- (d) the price of the relevant commodity or commodities;
- (e) relevant currency exchange rates;
- (f) the price of the relevant futures contract(s);
- (g) the price of the relevant units or shares in one or more funds;
- (h) the level of the relevant interest rate or interest rates; or
- (i) the level of any other underlying asset or basis of reference comprising the Underlying,

may be subject to significant fluctuations that may not correlate with the development of interest rates, currencies or other economic factors or indices and the timing of changes in the relevant price or level of the Reference Item may affect the actual yield to investors, even if the average level is consistent with their

II. RISK FACTORS

expectations. In general, the earlier the change in the price or level of the Reference Item, the greater the effect on yield.

If the amount of interest or other amounts payable and/or assets deliverable is determined by reference to a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price or level of the Underlying or Reference Item will be magnified.

The market price of Securities may be volatile and may be affected by:

- (a) the time remaining to the Redemption or Settlement Date;
- (b) the volatility of the Reference Item or other underlying asset or basis of reference;
- (c) the dividend rate (if any) and the financial results and prospects of the issuer(s) of the securities comprising or relating to a Reference Item (which may include equity securities, index constituent securities or other securities);
- (d) movements in commodity markets where the Underlying comprises a Commodity;
- (e) movements in exchange rates and the volatility of currency exchange rates where the Underlying comprises an Exchange Rate;
- (f) the volatility of the price of units or shares in the fund or funds where the Underlying comprises a Fund Share; or
- (g) the movements in interest rates where the Underlying comprises an Interest Rate,

as well as economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any such other securities, commodities, fund units or fund shares may be traded.

If the Reference Item(s) relate to an emerging market or developing country, the Underlying or its constituents (if any) will be identified as an "Emerging Market Underlying" in the Final Terms. This is the case if the Reference Item(s) are, for example, listed or traded on a stock exchange in an emerging market or developing country (e.g. shares or commodity futures), or the Reference Item(s) are Exchange Rates or government bonds or bonds issued by sub-sovereign issuers from emerging markets or developing countries, equity securities issued by companies which have their registered office in an emerging market or developing country or which do a significant amount of their business in a country of this type, or Indices which track shares or other financial instruments from emerging markets or developing countries.

Emerging markets and developing countries are exposed to considerable legal, economic and political risks which may be greater than, for example, in EU member states or other industrialised countries. For this reason, investments relating to emerging markets or developing countries involve additional risk factors in addition to the general risks associated with investment in the respective Reference Item(s). These include the unstable political or economic situation, increased inflation and increased currency risks. The causes of the instability in these countries can include authoritarian governments or military participation in political and economic decision-making processes. They also include changes of government attempted or achieved by unconstitutional means, civil unrest in connection with the demand for improved political, economic and social conditions, hostile relations with neighbouring countries or conflicts arising from ethnic, religious or racist reasons. Political or economic instability can impact investor confidence, which may in turn have a negative effect on the exchange rates and the prices of securities or other assets in these countries.

Political and economic structures in emerging markets and developing countries may be subject to considerable upheaval and rapid change.

The exchange rates and the prices of securities or other assets in emerging markets and developing countries are often more volatile. Factors which cause these prices to change include interest rates, a change in supply and demand, external forces which have an impact on the market in question (particularly with regard to important trading partners), trade, tax and monetary policy programmes, government policies and international political and economic events and policies.

In addition, there is a possibility of adverse developments, for example restrictions against foreign investors, nationalisation or expropriation of assets, confiscatory taxation, confiscation or nationalisation of foreign bank deposits or other assets, the existence or establishment of foreign currency bans, foreign currency controls or restrictions on the free movement of exchange rates. If a restriction on the free development of

II. RISK FACTORS

exchange rates is lifted, it is possible that the currency of the emerging market or developing country will experience considerable exchange rate volatility within a short period of time.

The aforementioned disruptions may in some cases last for a longer period, i.e. weeks or even years.

Any of these disruptions may result in a so-called Market Disruption with regard to the Securities, resulting amongst other things in no prices being quoted for the Securities affected by the Market Disruption in this period.

The development of securities markets is mostly still at an early stage in emerging markets and developing countries. This may lead to risks and practices (such as higher volatility) which do not usually occur in more developed securities markets and which may adversely affect the value of the securities listed on the stock exchanges in these countries. In addition, exchanges in emerging markets and developing countries are frequently characterised by illiquidity in the form of low trading volumes for some of the securities listed. Many of these securities markets have settlement and payment processes which are less developed, less reliable and less efficient in comparison to more developed securities markets, which, for example, may lead to longer settlement times for securities transactions. Securities markets in emerging markets and developing countries may be subject to less governmental or regulatory supervision than more developed securities markets.

Disclosure requirements, accounting standards and regulatory requirements for equity securities may be less strict in emerging markets or developing countries than, for example, in EU member states or other industrialised countries, which may have an influence on the valuation of the Reference Item(s) if these are equity securities.

Correspondingly, less information about companies in emerging markets or developing countries may be publicly available than is the case with companies in more developed markets. The assets and liabilities and profit and loss reported in the annual or interim financial statements may give a different view of the financial position of a company or its results of operations than if the annual or interim reports were prepared in accordance with recognised accounting standards. The valuation of assets, depreciation and amortisation, deferred tax, contingent liabilities and consolidations may be treated differently than under internationally recognised accounting principles.

All the aforementioned factors may have an adverse impact on the value of the Reference Item(s).

3.1 Risks associated with Shares or other equity securities as a Reference Item

Equity linked Securities may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more equity securities (which may include American depositary receipts or global depositary receipts) and/or by the physical delivery of a given number of specified assets and/or payment of the nominal amount and interest determined by reference to the value of one or more equity securities. Accordingly, an investment in equity linked Securities may bear similar market risks to a direct equity investment and prospective investors should take advice accordingly.

Securities may be subject to adjustments or early termination under §6 of the General Conditions in the event of certain corporate actions or events occurring in respect of the issuer(s) of the equity security(ies).

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

3.2 Risks associated with indices as a Reference Item

Index linked Securities may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more indices or payment of the nominal amount and interest calculated by reference to the value of one or more indices or in certain cases by physical delivery of certain assets. Accordingly, an investment in index linked Securities may bear similar market risks to a direct investment in the components of the Index comprising such index or indices and prospective investors should take advice accordingly.

Index linked Securities may be subject to adjustment or early termination under §6 of the General Conditions in the event of certain relevant events in relation to an index. These may include:

II. RISK FACTORS

- (a) a failure to calculate and announce the relevant index by the index sponsor;
- (b) a material modification in the way that the relevant index is calculated from that originally intended;
or
- (c) a permanent cancellation of the relevant index with no successor index.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.3 *Risks associated with Other Securities as a Reference Item*

Securities linked to Other Securities may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more Other Securities and/or by the physical delivery of a given number of specified assets and/or payment of the nominal amount and interest determined by reference to the value of one or more Other Securities. Accordingly, an investment in Securities linked to Other Securities may bear similar market risks to a direct investment in the relevant Other Securities and prospective investors should take advice accordingly.

Securities linked to Other Securities may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Other Securities or the issuer(s) of the Other Securities.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.4 *Risks associated with Commodities as a Reference Item*

Securities linked to Commodities may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more Commodities (or traded contracts relating to commodities) and/or in certain cases by physical settlement. Accordingly, an investment in Securities linked to Commodities may bear similar market risks to a direct investment in the relevant Commodities and prospective investors should take advice accordingly and be familiar with commodities as an asset class as well as the relevant traded contract type and any exchange(s) or quotation system(s) for such contract.

Securities linked to Commodities may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Commodities or the exchange or contract obligors in relation to the relevant commodities contracts.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.5 *Risks associated with Exchange Rates as a Reference Item*

Securities linked to exchange rates may be redeemed or settled by the Issuer by payment of an amount determined by reference to the exchange rate between one or more currencies and/or in certain cases by physical settlement. Accordingly, an investment in Securities linked to exchange rates may bear similar market risks to a direct investment in the relevant underlying currency(ies) and prospective investors should take advice accordingly and be familiar with foreign exchange as an asset class. The above risk may be increased if the relevant underlying currency is the currency of an emerging market jurisdiction.

II. RISK FACTORS

Securities linked to exchange rates may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Exchange Rates.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.6 *Risks associated with Futures Contracts as a Reference Item*

Securities linked to Futures Contracts may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value of one or more Futures Contracts and/or in certain cases by physical settlement. Accordingly, an investment in Securities linked to Futures Contracts may bear similar market risks to a direct investment in the relevant Futures Contracts and prospective investors should take advice accordingly and be familiar with the relevant futures contract type and exchange(s) or quotation system(s) for such futures contract as well as the asset class to which the Futures Contracts relate.

Securities linked to Futures Contracts may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Futures Contracts or the issuer(s) or obligor(s) or the exchange(s) or quotation system(s) for the relevant Futures Contracts.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.7 *Other risks associated with Commodities as a Reference Item*

The yield on Securities linked to Commodities may not perfectly correlate to the trend in the price of the Commodities as the use of future commodity contracts generally involves a rolling mechanism. This means that the commodity futures contracts which expire prior to the relevant payment date under the relevant Securities are replaced with future commodity contracts that have a later expiry date. Any rise/fall in prices on such Commodities may not be fully reflected in any payment under the relevant Securities.

Moreover, investors in Securities linked to Commodities should note that prices of commodity futures contracts may have a trend which differs significantly from that of the commodity spot markets. The trend in the price of a commodity futures contract is closely linked to the present and future level of the production of the relevant commodity or to the level of estimated natural reserves, particularly in the case of energy commodities. In addition, the prices of commodity futures contracts may not be considered an accurate prediction of a market price, since they include the so-called "carrying costs" (for example, warehouse costs, insurance and transportation etc.) which are taken into account in the determination of the prices of commodity futures contracts. As such, investors in Securities linked to Commodities should note that any return on their investment may not fully reflect the performance of the commodity spot markets as a result of the discrepancy between the prices of commodity futures contracts and the prices of commodity spot markets.

3.8 *Risks associated with Fund Shares as a Reference Item*

Securities linked to Fund Shares may be redeemed or settled by the Issuer by payment of an amount determined by reference to the value (or net asset value) of one or more shares or units in one or more funds and/or by the physical delivery of a given number of specified assets and/or payment of the nominal amount and interest determined by reference to the value of one or more Fund Shares. Accordingly, an investment in Securities linked to Fund Shares may bear similar market risks to a direct investment in the relevant Fund Shares and prospective investors should take advice accordingly and be familiar with the relevant fund type and its underlying investment asset(s) type as an asset class.

II. RISK FACTORS

Securities linked to Fund Shares may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Fund Shares or the issuer(s) or obligor(s) or other connected parties in relation to the Fund Shares.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.9 Risks associated with Interest Rates as a Reference Item

Securities linked to an Interest Rate may be redeemed or settled by the Issuer by payment of an amount determined by reference to the level of the Interest Rate and/or payment of the nominal amount.

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors. Fluctuations in short term and/or long term interest rates may affect the value of the Securities.

The Calculation Agent may make certain determinations in respect of the Interest Rate in accordance with §5 of the General Conditions in the event that it is not possible for the Calculation Agent to determine the relevant Interest Rate at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities.

3.10 Risks associated with other Reference Items

Securities may be linked to other Reference Items or a combination of one or more of the above Reference Item types. An investment in Securities linked to any Reference Items may bear similar market risks to a direct investment in the relevant Reference Items and prospective investors should take advice accordingly.

Securities linked to Reference Items may be subject to adjustment or early termination under § 6 of the General Conditions in the event of certain relevant events in relation to the Reference Items or the issuer(s) of the Reference Items.

The Calculation Agent may also determine under §5 of the General Conditions that a Market Disruption has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Securities and/or may delay payment or settlement in respect of the Securities.

Accordingly investors should review §5 and §6 of the General Conditions carefully to determine the effect these provisions may have on the Securities. See further section C below.

3.11 No Claim against any Reference Item

A Security will not represent a claim against any Reference Item to which any amount payable or amount of assets deliverable in respect of the Securities is dependent and, in the event that the amount paid by the Issuer or value of the specified assets delivered on termination of the Securities is less than the amount originally invested in the Securities, a Securityholder will not have recourse under a Security to the Issuer or any Reference Item.

An investment in Securities linked to one or more Reference Items may entail significant risks not associated with investments in conventional securities including but not limited to the risks set out above. The amount paid or value of the specified assets delivered by the Issuer on termination of such Securities may be less than the amount originally invested in the Securities and may in certain circumstances be zero.

3.12 Risks associated with a limited information base regarding the Reference Item and a possible information advantage of the Issuer

Information regarding the Reference Item may not be publicly available or only available to a certain extent. Therefore, investors may have no or only limited access to detailed information regarding the relevant

II. RISK FACTORS

Reference Item, in particular on its current price or value, on its past and future performance and on its volatility.

In contrast, the Issuer may have access to information which is not publicly available and may thereby generate an information advantage.

In addition, any publicly available information may be published with delay and may not have been published or published in full at the time the investors seeks the information or at the time the amounts payable or assets deliverable on exercise, redemption or periodically under the Securities will be determined by reference to the price or value of these Reference Items.

3.13 Risks in relation to multiple Reference Items

If the amount of any coupons or any cash amount payable or physical delivery amount due under the Securities is dependent on the performance of multiple Reference Items and in this respect the performance of the worst performing Reference Item in comparison to the performance of the other Reference Items is of relevance investors should note that the level of dependency among the Reference Items, so called correlation, may significantly impact the risk associated with an investment into the Securities. This risk will increase if the correlation among the Reference Items decreases because in this case the probability increases that at least one of the Reference Items will show an adverse performance compared to the performance of the other Reference Items.

C. RISK FACTORS RELATED TO SECURITIES GENERALLY

1. No statutory or voluntary deposit guarantee scheme

The Issuer's obligations relating to the Securities are not protected by any statutory or voluntary deposit guarantee system or compensation scheme. In the event of insolvency of the Issuer, investors may thus experience a total loss of their investment in the Securities, even if the terms of the Securities are such that, absent such insolvency, the Securities would be principal protected Securities. The insolvency of the Issuer may also result in a partial or total loss of any Par Value Redemption Amount or any Minimum Redemption Amount that may be applicable to the Securities.

2. No Payments until Settlement

Prospective investors should note that a realisation by selling the Securities in the secondary market may be the only return potentially available to the investor prior to settlement of the Securities. Unless otherwise specified in the relevant Final Terms, there may be no periodic interest payments or other distributions made during the term of the Securities.

However, investors should note the risk factors described under the headings "Market value" and "The Securities may be Illiquid" below in this regard.

3. Adjustment Events and Adjustment/Termination Events*3.1 Adjustment Events and Adjustment/Termination Events for Securities where the Belgian Conditions do not apply*

Unless Eligible Liabilities Format has been specified to apply in the Product Terms, the Issuer is entitled to make adjustments to the Terms and Conditions following the occurrence of an Adjustment Event. These may include any event which materially affects the theoretical economic value of a Reference Item or any event which materially disrupts the economic link between the value of the Reference Item and the Securities subsisting immediately prior to the occurrence of such event. However, the Calculation Agent may decide to make no adjustments to the Terms and Conditions following the occurrence of an Adjustment Event. Any such adjustment may take into account any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences) for the Issuer as a result of the Adjustment Event. If the Securities are specified in the Product Terms to be Italian Securities, and the terms of the Securities do not specify that "Minimum Redemption Amount Payable" will apply, any such adjustments will not take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of any duty, withholding, deduction or other charge whatsoever; and a change in tax consequences will not include changes resulting from Hedging Arrangements of the Issuer in relation to the Securities. If the Issuer determines that it is not able to make an appropriate adjustment it may elect to treat the Adjustment Event as an Adjustment/Termination Event.

On the occurrence of an Adjustment/Termination Event and unless Eligible Liabilities Format has been specified to apply in the Product Terms, the Issuer is also entitled to adjust the Terms and Conditions, terminate and cancel the Securities, or in certain cases, substitute the relevant Reference Item affected by such Adjustment/Termination Event or elect to pay the Nominal Amount in respect of each Security held by each Securityholder in discharge of its obligation to pay the Cash Amount or deliver the Physical Delivery Amount (or both), as applicable.

If the terms of the Securities do not specify that "Minimum Redemption Amount Payable" will apply, if the Issuer elects to pay the Nominal Amount in respect of each Security held by the holder thereof in discharge of its obligation to pay the Cash Amount or deliver the Physical Delivery Amount (or both), as applicable, in respect of the Securities, the holder of such Security will not receive the Cash Amount or the Physical Delivery Amount on the Settlement Date. In such circumstances, investors in the Securities will no longer

II. RISK FACTORS

participate in any rise or fall in value of any Underlying referenced by the Securities, and will only receive back the Nominal Amount in respect of each Security held on the relevant settlement date.

If the terms of the Securities do not specify that "Minimum Redemption Amount Payable" will apply, if the Issuer terminates early the Securities following an Adjustment/Termination Event, the Issuer will, if and to the extent permitted by applicable law, pay the holder of each such Security an amount determined by the Calculation Agent to be its fair market value taking into account the relevant event less the direct and indirect cost to the Issuer of unwinding any underlying related hedging arrangements. Such amount may be significantly less than an investor's initial investment in Securities and in certain circumstances may be zero. If the Securities are specified in the Product Terms to be Italian Securities which are Notes intended to be listed and admitted to trading on an Italian regulated market or Italian multilateral trading facility so requiring (including the Borsa Italiana MOT regulated market), such amount paid shall be at least equal to (i) if Zero Coupon Note is not specified in the Product Terms to be applicable, the Nominal Amount in respect of each Security, or (ii) if Zero Coupon Note is specified in the Product Terms to be applicable, the Accreted Value in respect of each Security.

In addition, if the terms of the Securities specify that "Minimum Redemption Amount Payable" will apply, and if the Adjustment/Termination Event is not an Illegality Event or a Force Majeure Event, then, if no such adjustment to the terms of the Securities is made by the Calculation Agent, the Issuer will pay the Minimum Redemption Amount (which will be 100 per cent. of the principal amount of the relevant Security or a greater or lesser amount, as specified in the terms of the Securities) on the original date scheduled for settlement of the Securities, but less any tax or withholding required by law. However, if the terms of the Securities do not specify that "Minimum Redemption Amount Payable" will apply, or if the Adjustment/Termination Event is an Illegality Event or a Force Majeure Event, then, if no such adjustment to the terms of the Securities is made by the Calculation Agent, the Issuer will pay, usually prior to the scheduled settlement date of the Securities, an amount which the Calculation Agent determines to be their fair market value, taking into account the relevant event, less the direct and indirect cost to the Issuer of unwinding or adjusting any underlying related hedging arrangements, and less any tax or withholding required by law. Such amount may be significantly less than an investor's initial investment in Securities and in certain circumstances may be zero.

If the terms of the Securities specify that "Minimum Redemption Amount Payable" will apply, the payments (as are applicable) described in the above paragraph will be in lieu of any obligation under the Securities to pay the Cash Amount or any coupon or other amounts, or to deliver the Physical Delivery Amount, as applicable, and will discharge the Issuer's obligations to make these other payments or deliveries.

An Adjustment/Termination Event may include an event which materially affects the method by which the Calculation Agent determines the level or price of any Reference Item or the ability of the Calculation Agent to determine the level or price of any Reference Item. In addition an Adjustment/Termination Event may occur where it is illegal or no longer practical for the Issuer to maintain its hedging arrangements for the Securities or where materially increased costs or expenses would be incurred by the Issuer in maintaining those arrangements. An Adjustment/Termination Event may also occur in a situation where certain market disruptions exist or a force majeure occurs (being an event or circumstance which prevents or materially affects the performance of the Issuer's obligation).

Such hedging arrangements refer to the arrangements the Issuer makes to ensure it will have available to it the relevant cash amounts or assets to be delivered under the Securities as these fall due. This will normally involve the Issuer investing directly or indirectly in the Underlying. An indirect investment might be made by an Affiliate or agent of the Issuer or other third party making an investment in the Underlying. Alternatively an indirect investment might involve the Issuer or an Affiliate, agent or other third party entering into a derivative contract referencing the Underlying. The Issuer will select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates. The Issuer may also adjust

hedging arrangements from time to time but it will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements.

An Adjustment Event or Adjustment/Termination Event may materially affect the cost to the Issuer of maintaining the Securities or its hedging arrangements in a way which has not been factored into the issue price of the Securities. This may therefore require adjustments or a termination of the Securities in these circumstances. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.**

Any adjustment made due to an Adjustment Event or any adjustment or termination of the Securities or replacement of a Reference Item following an Adjustment/Termination Event may have an adverse effect on the Securities and Securityholders. In particular, the value of the Securities may fall and amounts payable or assets deliverable under the Securities may be less and may be made at different times than anticipated. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.**

Prospective purchasers should review §5 and §6 of the General Conditions to ascertain how such provisions apply to the Securities and what may constitute an Adjustment Event or an Adjustment/Termination Event.

3.2 *Adjustment Events and Adjustment/Termination Events for Securities where the Belgian Conditions apply*

Unless Eligible Liabilities Format has been specified to apply in the Product Terms, the Issuer is entitled to make adjustments to the Terms and Conditions following the occurrence of an Adjustment Event. These may include any event which materially affects the theoretical economic value of a Reference Item or any event which materially disrupts the economic link between the value of the Reference Item and the Securities subsisting immediately prior to the occurrence of such event. However, the Calculation Agent may decide to make no adjustments to the Terms and Conditions following the occurrence of an Adjustment Event.

On the occurrence of an Adjustment/Termination Event and unless Eligible Liabilities Format has been specified to apply in the Product Terms, the Issuer is also entitled to adjust the Terms and Conditions or terminate and cancel the Securities or, in certain cases, substitute the relevant Reference Item affected by such Adjustment/Termination Event. Securityholders will not be charged any costs by or on behalf of the Issuer to make adjustments or modifications to the Terms and Conditions or as a result of termination and cancellation of the Securities.

In each case, if the terms of the Securities specify that Minimum Redemption Amount Payable will apply, such adjustments shall not reduce the Cash Amount paid upon redemption of the Securities on the Settlement Date to an amount less than the Minimum Redemption Amount.

If the Adjustment/Termination Event is a Force Majeure Event, then, if no such adjustment to the terms of the Securities is made by the Calculation Agent, the Issuer will pay an amount which will be equal to the Market Value of the Securities. Such payments will be in lieu of any obligation under the Securities to pay the Cash Amount or any coupon or other amounts, and will discharge the Issuer's obligations to make these other payments.

If the Adjustment/Termination Event is not a Force Majeure Event, then, if no such adjustment to the terms of the Securities is made by the Calculation Agent:

- (a) if Minimum Redemption Amount Payable is specified not to apply in the Final Terms, the Issuer will pay an amount which will be equal to the Market Value of the Securities (plus a pro-rata

II. RISK FACTORS

reimbursement of the costs of the Issuer paid by the original Securityholder as part of the Issue Price of the Security). Such payments will be in lieu of any obligation under the Securities to pay the Cash Amount or any coupon or other amounts, and will discharge the Issuer's obligations to make these other payments; or

- (b) if Minimum Redemption Amount Payable is specified to apply in the Final Terms, subject to sub-paragraph (c) below, the Issuer will pay an amount which will be equal to the Early Termination Amount (Monetisation) on the Settlement Date. However, the holder of a Security may instead choose to receive payment prior to the Settlement Date by electing to receive an amount equal to the Early Termination Amount (Put) on the Early Termination Date (Put); or
- (c) if Minimum Redemption Amount Payable is specified to apply in the Final Terms and the Adjustment/Termination Event is an Illegality Event, then the Securities may be terminated and cancelled by the Issuer in its discretion either in accordance with sub-paragraph (b) above or by payment of an amount equal to the sum of (1) the greater of (i) the Market Value of such Security, and (ii) the Minimum Redemption Amount, plus (2) a pro-rata reimbursement of the costs of the Issuer paid by the original Securityholder as part of the Issue Price of the Security.

In each case, such payments will be in lieu of any obligation under the Securities to pay the Cash Amount or any coupon or other amounts, and will discharge the Issuer's obligations to make these other payments.

An Adjustment/Termination Event may include an event which materially affects the method by which the Calculation Agent determines the level or price of any Reference Item or the ability of the Calculation Agent to determine the level or price of any Reference Item. In addition an Adjustment/Termination Event may occur where it becomes illegal for the Issuer to perform its obligations under the Securities. An Adjustment/Termination Event may also occur in a situation where certain market disruptions exist or a Force Majeure Event occurs (being an event or circumstance which definitively prevents the performance of the Issuer's obligations and for which the Issuer is not accountable).

Any adjustment made due to an Adjustment Event or any adjustment or termination of the Securities following an Adjustment/Termination Event may have an adverse effect on the Securities and Securityholders. In particular, the value of the Securities may fall and amounts payable under the Securities may be less and may be made at different times than anticipated. **This is part of the economic risk Securityholders bear when investing in the Securities.**

Prospective purchasers should review §5 and §6 of the General Conditions as revised by the Belgian Annex to ascertain how such provisions apply to the Securities and what may constitute an Adjustment Event or an Adjustment/Termination Event.

4. Taxation

Potential purchasers and sellers of the Securities should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Securities are transferred. Securityholders are subject to the provisions of §10 of the General Conditions and payment and/or delivery of any amount due in respect of the Securities will be conditional upon the payment of certain taxes, duties and/or expenses as provided in the Terms and Conditions.

Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

II. RISK FACTORS

Whilst the Securities are in global form and held within the relevant Clearing Agent, in all but the most remote circumstances, it is not expected that sections 1471 to 1474 of the US Internal Revenue Code ("**FATCA**") will affect the amount of any payment received by the Clearing Agent.

However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA), provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding.

Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA), and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligations under the Securities are discharged once it has paid the relevant Clearing Agent and the Issuer has therefore no responsibility for any amount thereafter transmitted through the relevant Clearing Agent and custodians or intermediaries.

Section 871(m) of the U.S. Internal Revenue Code and the provisions issued thereunder stipulate that for certain financial instruments (such as for Securities) a withholding tax (of up to 30% and potentially subject to the application of double taxation treaties) shall be imposed if the payment (or amount deemed a payment) on the financial instruments is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States. Pursuant to these U.S. legal provisions, certain payments (or amounts deemed payments) under certain equity-linked instruments that refer to the performance of U.S. equities or certain indices that contain U.S. equities, as an underlying or a basket component, shall be treated as "**dividend equivalents**" and shall be subject to U.S. withholding tax of 30% (or, potentially, a lower double tax treaty rate).

The aforementioned tax liability shall apply even if pursuant to the terms of the Securities no actual dividend-related amount is paid or an adjustment is made and thus investors may only be able to determine with difficulty or not at all any connection between the dividend related amount and the payments to be made in respect of the Securities.

In withholding this tax, the Issuer may apply the general tax rate of 30% to the payments subject to U.S. withholding tax (or amounts deemed payments) rather than any lower tax rate pursuant to any potentially applicable double taxation treaty. In such case, an investor's individual tax situation may therefore not be taken into account. Prospective investors should consult their tax advisors regarding the availability of refunds in respect of amounts withheld under section 871(m).

The Issuer's determination of whether the Securities are subject to this withholding tax is binding for Securityholders but not for the United States Internal Revenue Service (the "**IRS**"). The rules of section 871(m) require complex calculations in respect of the Securities that refer to U.S. equities and application of these rules to a specific Securities issue may be uncertain. Consequently the IRS may determine they are to be applied even if the Issuer initially assumed the rules would not apply. There is a risk in such case that Securityholders would be subject to tax under section 871(m) with retroactive effect.

There is also the risk that section 871(m) withholding may also be applied to Securities that were not initially subject to such withholding. This case could arise in particular if the Securities' economic parameters change such that the Securities are in fact subject to tax liability and the Issuer continues to issue and sell these Securities.

As the Issuer is not obliged to offset any withholding tax pursuant to section 871(m) on interest, capital or other payments to Securityholders by paying an additional amount, Securityholders will receive smaller payments in such case than they would have received without withholding tax imposed.

5. Changes in any applicable tax law or practice may have an adverse effect on a Securityholder

Any relevant tax law or practice applicable as at the date of this Base Prospectus and/or the date of purchase or subscription of any Securities may change at any time (including during any subscription period or the term of any Securities). Any such change may have an adverse effect on a Securityholder, including that Securities may be redeemed before their Settlement Date, their liquidity may decrease and/or the amounts payable or receivable by or to an affected Securityholder may be less than otherwise expected by such Securityholder.

6. Exercise Notices, Delivery Notices and Certifications

If the Securities are subject to provisions concerning delivery of an exercise notice or delivery notice and such notice is received by either the relevant principal agent with a copy to the clearing agent after the latest time specified in the General Conditions, it will not be deemed to be duly delivered until the next following Business Day. Such deemed delay may in the case of cash settled Securities increase or decrease the cash amount payable at settlement from what it would have been but for such deemed delivery. In the case of Securities which are exercisable on one day only or only during an exercise period, any exercise notice, if not delivered by the latest time specified in the Terms and Conditions, shall be void.

The failure to deliver any delivery notice or certifications required by the General Conditions could result in the loss or inability to receive amounts or deliveries otherwise due under the Securities. Prospective purchasers should review the General Conditions to ascertain whether and how such provisions apply to the Securities.

Securities not exercised in accordance with the General Conditions will expire worthless unless automatic exercise applies. Prospective purchasers should review the Terms and Conditions to ascertain whether the Securities are subject to automatic exercise, and when and how an exercise notice or delivery notice may be validly delivered.

7. Time Lag after Exercise

Where the Securities are to be settled by a cash payment or physical delivery, then, upon their exercise, there may be a time lag between the time exercise occurs and the time the applicable cash amount or asset amount relating to such exercise is determined. Any such delay between the time of exercise and the determination of the cash amount or asset amount will be specified in the General Conditions. However, such delay could be significantly longer, particularly in the case of a delay in exercise of such Securities arising from, as described below, any daily maximum exercise limitation or, as described below, upon the determination by the Calculation Agent that a disruption event has occurred at any relevant time. The applicable cash amount or asset amount could decrease from what it would have been but for such delay.

Prospective purchasers should review the General Conditions to ascertain whether and how such provisions apply to the Securities.

8. Physically Settled Securities

Where Securities provide for physical delivery, the Calculation Agent may determine that a Settlement Disruption Event is subsisting. A Settlement Disruption Event is an event beyond the control of the Issuer as a result of which, in the opinion of the Calculation Agent, delivery of the specified assets to be delivered by or on behalf of the Issuer is not feasible. Any such determination may affect the value of the Securities and/or may delay settlement in respect of the Securities. For so long as the Settlement Disruption Event is subsisting the Issuer may elect in its reasonable discretion to satisfy this obligation in respect of the relevant Security by payment of the Market Value of such Security taking into account any amounts already delivered or payments already made and the value of the remaining amount(s) which would otherwise be delivered or paid as shall be determined by the Issuer, less a Security's proportionate share of the direct and indirect cost to the Issuer of unwinding any underlying related hedging arrangements.

9. Settlement Systems

An investor will need to be able to hold the Securities (directly or through an intermediary). Securities may only be held directly through:

- (a) the relevant Clearing Agent; or

- (b) in the case of Italian Securities, the Italian Clearing Agent (as specified in the applicable Final Terms). In the event that the applicable Final Terms specify Monte Titoli S.p.A. as the Italian Clearing Agent, the investor should be aware that the Securities may be held only through an authorised intermediary entitled to hold securities deposit accounts with the Monte Titoli S.p.A on behalf of their customers; or
- (c) in the case of French Securities, any authorised financial intermediary institution entitled to hold securities accounts, directly or indirectly, with Euroclear France, which includes Euroclear and the depositary bank for Clearstream.

Where Securities are held indirectly, a Securityholder will depend on the relevant intermediary(ies) through which it holds the Securities for receipt of payments, notices and for all other purposes in connection with the Securities. In case of physically settled Securities an investor will need to be able to hold (directly or through an intermediary) the relevant assets deliverable on settlement of the Securities. Investors should note the Securities are not intended to be held in a manner which would allow Eurosystem eligibility and this may limit their marketability for some investors.

10. Chinese Renminbi (CNY) as the Settlement Currency

If the Settlement Currency is the Chinese renminbi ("**CNY**") according to the relevant Final Terms, prospective purchasers should be aware that CNY is not a freely convertible currency and that this can have a negative impact on the liquidity of the Securities. In addition, there is only limited availability of CNY outside the People's Republic of China, which may negatively impact the liquidity of the Securities and the Issuer's ability to purchase CNY outside the People's Republic of China to service the Securities. In the case of illiquidity, inconvertibility or non-transferability of CNY, the Issuer may decide to postpone payments due, make payments in the Relevant Currency specified in the relevant Final Terms instead of in CNY or terminate the Securities early. A payment in the Relevant Currency may lead to an additional currency risk if the Relevant Currency is not the currency of the investor's home jurisdiction.

11. Regulatory Bail-in and other Resolution Measures

On 15 May 2014, the European Parliament and the Council of the European Union adopted Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (commonly referred to as the "Bank Recovery and Resolution Directive" or the "**BRRD**") which was transposed into German law by the Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz*, or the "**SAG**") with effect from 1 January 2015. For banks established in the eurozone, such as the Issuer, which are supervised within the framework of the Single Supervisory Mechanism (the "**SSM**"), Regulation (EU) No 806/2014 of the European Parliament and of the Council (the "**SRM Regulation**") provides for a coherent application of the resolution rules across the SSM under responsibility of the European Single Resolution Board, with effect since 1 January 2016 (referred to as the "Single Resolution Mechanism" or the "**SRM**"). Under the SRM, the Single Resolution Board is responsible for adopting resolution decisions in close cooperation with the European Central Bank, the European Commission, and national resolution authorities in the event that a significant bank directly supervised by the European Central Bank, such as the Issuer, is failing or likely to fail and certain other conditions are met. National resolution authorities in the European Union member states concerned would implement such resolution decisions adopted by the Single Resolution Board in accordance with the powers conferred on them under national law transposing the BRRD.

If the competent authority determines that the Issuer is failing or likely to fail and certain other conditions are met (as set forth in the SRM Regulation, the SAG and other applicable rules and regulations), the competent resolution authority has the power to write down, including to write down to zero, claims for payment of the principal and any other claims under the Securities, interest or any other amount in respect of the Securities, to convert the Securities into ordinary shares or other instruments qualifying as common equity tier 1 capital (the write-down and conversion powers are hereinafter referred to as the "**Bail-in tool**"), or to apply any other resolution measure including (but not limited to) a transfer of the Securities to another entity, a variation of the terms and conditions of the Securities (including, but not limited to, the variation of maturity of the Securities) or a cancellation of the Securities. The Bail-in tool and each of these other resolution measures are hereinafter referred to as a "**Resolution Measure**". The competent resolution authority may apply Resolution Measures individually or in any combination.

The competent resolution authority will have to exercise the Bail-in tool in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) subsequently, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) finally, the Issuer's unsecured and unsubordinated liabilities (unless exempted by the SRM Regulation, the BRRD or the SAG) – such as those under the unsubordinated Securities – being written down on a permanent basis or converted into common equity tier 1 capital instruments.

Within the Issuer's unsecured and unsubordinated liabilities, such as unsubordinated Securities issued under this Programme, Section 46f(5)-(7) of the German Banking Act (*Kreditwesengesetz*, "KWG") determines that certain unsecured and unsubordinated debt instruments of the Issuer (hereinafter referred to as "**Non-Preferred Senior Obligations**") rank below the Issuer's other senior liabilities (hereinafter referred to as "**Preferred Senior Obligations**"). As a consequence, Non-Preferred Senior Obligations would bear losses before Preferred Senior Obligations in the event of insolvency or the application of Resolution Measures, such as the Bail-in-tool, affecting the Issuer. "Structured" senior unsecured debt instruments as defined in Section 46f(7) KWG, i.e., senior unsecured debt instruments whose terms provide that (i) the amount of the repayment depends on the occurrence or nonoccurrence of an event which is uncertain at the point in time when the senior unsecured debt instruments are issued, or settlement is effected in a way other than by monetary payment, or (ii) the amount of the interest payments depends on the occurrence or non-occurrence of an event which is uncertain at the point in time when the senior unsecured debt instruments are issued unless the amount of the interest payments solely depends on a fixed or floating reference interest rate, and settlement is effected by monetary payment always constitute Preferred Senior Obligations. "Non-structured" unsecured and unsubordinated Securities issued since 21 July 2018 under this Programme that do not meet the terms described in (i) or (ii) above, including Fixed Rate Notes and Floating Rate Notes linked to LIBOR or EURIBOR, constitute Non-Preferred Senior Obligations that would bear losses in a German insolvency proceeding or in the event of the imposition of Resolution Measures before Preferred Senior Obligations only if (i) their maturity at the time of issuance amounts to at least one year, and (ii) the terms and conditions of the relevant securities and any relevant prospectus explicitly refer to the lower ranking. Otherwise, they constitute Preferred Senior Obligations. In a German insolvency proceeding or in the event of the imposition of Resolution Measures with respect to the Issuer, the competent resolution authority or court would determine whether unsecured and unsubordinated Securities issued under the Programme qualify as Preferred Senior Obligations or as Non-Preferred Senior Obligations.

The holders of Securities are bound by any Resolution Measure. They would have no claim or any other right against the Issuer arising out of any Resolution Measure. Depending on the Resolution Measure, there would be no obligation of the Issuer to make payments under the Securities. The extent to which payment obligations under the Securities may be affected by Resolution Measures would depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, Resolution Measures will occur. The exercise of any Resolution Measure would not constitute any right to terminate the Securities. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest, if Resolution Measures are initiated, and should be aware that extraordinary public financial support for troubled banks, if any, would only potentially be used as a last resort after having assessed and exploited, to the maximum extent practicable, the Resolution Measures, including the Bail-in tool.

12. Regulation and reform of "benchmarks"

The London Interbank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**") and other interest rate, equity, commodity, foreign exchange rate and other types of rates and indices which are deemed to be "benchmarks" are the subject of ongoing national and international regulatory reform. Following any such reforms, benchmarks may perform differently than in the past or disappear entirely, or there could be other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to such a benchmark.

Key regulatory proposals and initiatives in this area include (amongst others) IOSCO's Principles for Financial Market Benchmarks (the "**IOSCO Benchmark Principles**"), the EU Regulation on indices used as

II. RISK FACTORS

benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**"), and the transition, proposed by the UK's Financial Conduct Authority (the "**FCA**"), away from LIBOR to one or more alternative benchmarks (each as discussed below).

The IOSCO Benchmark Principles aim to create an overarching framework of principles for benchmarks to be used in financial markets, specifically covering governance and accountability as well as the quality and transparency of benchmark design and methodologies. Subsequent implementation reviews have found that widespread efforts are being made to implement the IOSCO Benchmark Principles by the majority of administrators surveyed. However, the reviews also note that, as the "benchmarks industry" is in a state of flux, IOSCO may need to take further steps in the future - although it is not yet clear what these steps might be. On 16 December 2016, IOSCO published a report setting out guidance to improve the consistency and quality of reporting on compliance with IOSCO Benchmark Principles.

The Benchmark Regulation entered into force in June 2016 and became fully applicable in the EU on 1 January 2018 (save that certain provisions, including those related to "critical benchmarks", took effect on 30 June 2016), subject to certain transitional provisions. The Benchmark Regulation applies to the contribution of input data to a "benchmark", the provision or administration of a "benchmark" and the use of a "benchmark" in the EU. The Benchmark Regulation, among other things, (a) requires EU benchmark administrators to be authorised or registered and to comply with extensive requirements relating to the administration of benchmarks, (b) prohibits certain uses by EU supervised entities of benchmarks provided by EU administrators which are not authorised or registered in accordance with the Benchmark Regulation, and (c) prohibits the use in the EU of benchmarks provided by non-EU administrators which are not (i) authorised or registered and subject to supervision in a jurisdiction in respect of which an "equivalence" decision has been adopted in accordance with the Benchmark Regulation, or (ii) where such equivalence decision is pending, "recognised" by the competent authorities of the applicable EU Member State(s). An exception to this is that a benchmark provided by a non-EU administrator can itself be endorsed for use in the EU by an EU authorised or registered administrator or an EU-based supervised entity, following authorisation of the endorsement by the relevant competent authority.

The scope of the Benchmark Regulation is wide and, in addition to so-called "critical benchmark" indices such as EURIBOR and LIBOR, it applies to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices. This includes "proprietary" indices or strategies where these are used to (i) determine the amount payable under, or the value of, certain financial instruments (including securities and over-the-counter (OTC) derivatives listed on an EU regulated market, EU multilateral trading facility (MTF), EU organised trading facility (OTF) or traded via a systematic internaliser), (ii) determine the amount payable under certain financial contracts, or (iii) measure the performance of an investment fund. The requirements of the Benchmark Regulation vary depending on the category of benchmark in question. In particular, a lighter touch regime applies to benchmarks which are not interest rate or commodity benchmarks where the total average value of financial instruments, financial contracts or investment funds referencing the benchmark over a period of six months is less than €50 billion (subject to further conditions).

The Benchmark Regulation could have a material impact on Securities linked to a benchmark rate or index. For example:

- a rate or index which is a benchmark could be prohibited from being used in the EU if (subject to applicable transitional provisions) its administrator is (i) based in the EU and does not obtain authorisation or registration, or (ii) based in a non-EU jurisdiction which does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision. In such event, depending on the particular benchmark and the applicable terms of the Securities, the Securities could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted; and
- the methodology or other terms of the benchmark could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could reduce or increase the rate or level or affect the volatility of the published rate or level, and could lead to adjustments to the terms of the Securities, including the Calculation Agent determination of the rate or level in its discretion.

With regard specifically to the Interbank Offered Rates (including LIBOR and EURIBOR), amongst other developments, relevant authorities have identified "risk free rates" to eventually act as the relevant primary benchmark, including (i) with regard to sterling LIBOR, a reformed Sterling Overnight Index Average ("**SONIA**") so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021, (ii) with regard to EONIA and EURIBOR, a new Euro Short-Term Rate (ESTER) as the new euro risk-free

rate (to replace EONIA) and to create an ESTER-based term structure that may eventually be used as an alternative benchmark to EURIBOR (though the administrator of ESTER does not expect to begin publishing ESTER until October 2019), and (iii) with regard to USD LIBOR, the Secured Overnight Financing Rate (SOFR) to be eventually established as the primary US dollar interest rate benchmark. The risk free rates have a different methodology and other important differences from the Interbank Offered Rates they will eventually replace and have little, if any, historical track record. Ongoing international and/or national reform initiatives and the increased regulatory scrutiny of benchmarks generally could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any applicable regulations or requirements. Such factors may discourage market participants from continuing to administer or contribute to benchmarks, trigger changes in the rules or methodologies used in respect of benchmarks, and/or lead to the disappearance of benchmarks, including LIBOR. This could result in (i) adjustments to the terms and conditions and/or early redemption provisions and/or provisions relating to discretionary valuation by the Calculation Agent, (ii) delisting, and/or (iii) other consequences for Securities linked to any such benchmarks. Any such consequence could have a material adverse effect on the value of and return on any such Securities.

13. Risk Factors in relation to regulatory requirements of issuances with Eligible Liability Format

If Eligible Liabilities Format is specified to apply in the Product Terms, a new EU legislative proposal will, if adopted as proposed, prohibit all buy-backs of such Securities by the Issuer, including by way of market making, unless regulatory pre-approval has been granted for such buy-backs, starting 2019. Such regulatory pre-approval would be expected to be restricted to a maximum transaction volume entered into by the Issuer. Where such maximum volume has been reached, further buy-backs would require a new approval to be obtained before any such transactions. If the EU proposal will be adopted as proposed, the Issuer intends to seek regulatory approval for a maximum volume of transactions which, based on past experience, it expects to allow continuous and uninterrupted market making during the term of the Securities under normal conditions.

However, in case the volume of securities investors are seeking to sell back to the Issuer should substantially increase, due to factors such as (but not limited to) a substantial deterioration in the general perception of the Issuer's financial situation, general stress in the financial markets and/or a major change in market conditions affecting the relative attractiveness of an investment into the Securities compared to other potential investments (e. g. substantial changes in the general interest level), the maximum volume to which the regulatory approval of buy-backs is subject could be reached during the term of the Securities. There is no guarantee that the Issuer would be willing or able to seek a subsequent regulatory approval for further buy-backs, or, in case the Issuer does apply for such subsequent approval, that it will be possible to provide further market making without interruption or at all.

Investors should note that in such cases, the market making provided by the Issuer could be interrupted or end permanently, which could substantially reduce the price investors seeking to sell securities can realise, or could prevent investors from selling securities at the time they so wish.

Moreover, if Eligible Liabilities Format is specified to apply in the Product Terms, prospective investors should also note that their rights of redemption and set-off rights have been excluded in the Product Terms.

14. Risk Factors in relation to Collateralised Securities

The following risks are relevant to Collateralised Securities.

Limitations of the Security Interest under each Deed of Charge

II. RISK FACTORS

The security granted by the Issuer under each Deed of Charge is a security interest over (i) the Collateral Account in which the Collateral Assets are held (although investors should note the remaining provisions of this section relating to Collateral Assets held through a clearing system) and does not extend to any interest or distributions paid on such Collateral Assets (to the extent such amounts are not held in the relevant Collateral Account) and (ii) the Issuer's rights under the Charged Document, to the extent those rights relate to the relevant series of Collateralised Securities.

No security interest will be granted by the Issuer over any of its rights under any agreement under which it acquires any Collateral Assets (including, without limitation, any hedging agreements). This means that the Security Trustee will not have the ability to compel the Issuer to enforce its rights (or to enforce such rights on behalf of the Issuer) under any agreement against a counterparty to such agreement.

The Collateral Assets will be secured in favour of the Secured Parties pursuant to a fixed charge which is intended to create a security interest in the Collateral Assets in favour of the Secured Parties to secure the Issuer's obligations in respect of the relevant series of Collateralised Securities. However, where the Collateral Assets are held through a clearing system (either directly or through a sub-custodian), the interests which the Collateral Triparty Agent will hold and which are traded in the clearing system are not the physical Collateral Assets themselves but a series of contractual rights against such clearing system. These rights consist of (a) the Collateral Triparty Agent's rights as a participant against the clearing system, (b) the rights of the clearing system against the common depository and (c) the rights of the common depository against the issuer of the Collateral Assets. As a result, where the Collateral Assets are held in a clearing system, the security in respect of a series of Collateralised Securities may take the form of an assignment of the Issuer's rights against the Collateral Triparty Agent under the relevant Triparty Account Control Agreement rather than a charge over the Collateral Assets themselves.

Securityholders are exposed to the operational risks related to the collateral arrangements and the structure of the Collateral Accounts

The Collateral Triparty Agent may, to the extent permitted in accordance with the terms of the Custodian Agreement and the relevant Triparty Account Control Agreement entered into with the Issuer, hold certain cash and/or securities sub-accounts with other custodial entities ("**sub-custodians**"). Collateral Assets which, pursuant to the terms of the Secured Conditions, the Custodian Agreement and the relevant Triparty Account Control Agreement, are to be held with the Collateral Triparty Agent in a Collateral Account may therefore in practice be held by the Collateral Triparty Agent in sub-accounts with sub-custodians. Where the Collateral Assets are held by a sub-custodian on behalf of the Collateral Triparty Agent, they will be held pursuant to separate agreements which may vary in relation to any particular sub-custodian and which may not be governed by English law. Security interests in respect of the Collateral Assets also may be created pursuant to separate agreements which may not be governed by English law. A sub-custodian, securities depository or clearing system may have a lien or rights of set-off with respect to the Collateral Assets held with them in relation to any of their fees and/or expenses. If such fees and/or expenses are not paid, such sub-custodian, securities depository or clearing system may exercise such lien or rights of set-off and this may adversely affect the amounts that are available for distribution to Securityholders.

The Collateral Triparty Agent shall exercise reasonable care in selecting and continuing to use a sub-custodian in each relevant country in light of customary or established rules, practices and procedures then prevailing in each such country, but shall otherwise have no responsibility with respect to the performance by such sub-custodian (other than a sub-custodian that is an affiliate of the Collateral Triparty Agent) of its duties or in the event of its insolvency or dissolution. Accordingly, a Securityholder of Collateralised Securities will be exposed to, amongst other things, the risk of any potential operational disruption or any other adverse impact related to the Collateral Triparty Agent and any sub-custodian (including disruption caused by any insolvency proceedings which may be commenced in respect of the Collateral Triparty Agent and/or any such sub-custodians).

Securityholders shall not be entitled to enforce a Triparty Account Control Agreement or the Custodian Agreement or to proceed directly against the Collateral Triparty Agent or the Custodian to enforce the terms of the relevant Triparty Account Control Agreement or the Custodian Agreement, as applicable. Neither the Collateral Triparty Agent nor the Custodian has any liability to any Securityholder as to the consequence of any actions taken by the Collateral Triparty Agent or Custodian, as applicable.

The Collateral Assets may be insufficient to pay all amounts due to Securityholders of the Collateralised Securities

The security provided for a series of Collateralised Securities is limited to the Collateral Assets constituting the Collateral Pool applicable to such series. The amount of Collateral Assets constituting such Collateral Pool will depend on, amongst other things, the Collateralisation Percentage specified in the applicable Final Terms. There is no guarantee that the Collateral Assets will be sufficient to ensure that, following enforcement of a Deed of Charge, the amounts available for distribution by the Security Trustee will be sufficient to pay all amounts due to a Securityholder of Collateralised Securities in respect of the relevant series of Collateralised Securities (see "*Shortfall on Realisation of Collateral Assets and Recourse of Securityholders of Collateralised Securities*"). In particular:

- (i) The Collateral Assets may suffer a fall in value between the time at which the relevant Deed of Charge becomes enforceable and the time at which the Collateral Assets are realised in full.
- (ii) Low diversification of Collateral Assets in a Collateral Pool may increase the risk that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Securityholder of Collateralised Securities under the relevant Collateralised Securities.
- (iii) Where there is limited liquidity in the secondary market relating to Collateral Assets, in the event of enforcement the Security Trustee, or the Disposal Agent on its behalf, may not be able to readily sell such Collateral Assets to a third party or may only be able to sell such Collateral Assets at a discounted value.
- (iv) Depending on the Eligibility Criteria applicable to a series of Collateralised Securities, the Collateral Assets relating to such series could be composed of assets whose value may be positively correlated with the creditworthiness of the Issuer in that adverse economic factors which apply to one may apply to the others, or the default or decline in the creditworthiness of one may itself adversely affect the others.
- (v) In spite of the contractual restrictions on the Issuer's ability to withdraw and/or replace Collateral Assets, there are no practical restrictions on the Issuer's ability to withdraw assets from the scope of the security.
- (vi) A failure by the Security Trustee or the Disposal Agent to perform its obligations with respect to the Collateral Assets following enforcement or to perform its obligations in a timely or efficient manner may adversely affect the realisation of the Collateral Assets and the amount distributable to Securityholders of Collateralised Securities.

In addition, a Securityholder's entitlement on enforcement and realisation of the related Collateral Assets will be subordinated to and therefore rank behind claims relating to any amounts payable to Secured Parties ranking prior to the Securityholder of Non-Inventory Collateralised Securities in accordance with the Order of Priority specified in the applicable Product Terms and any rights of preference existing by operation of law.

Shortfall on Realisation of Collateral Assets and Recourse of Securityholders of Collateralised Securities

The security provided for a series of Collateralised Securities is limited to the Collateral Assets constituting the Collateral Pool applicable to such series together with the Issuer's right, benefit, interest and title, present and future, in, under and to the Charged Document (to the extent it relates to such series). The value realised for the Collateral Assets in the relevant Collateral Pool upon enforcement of the relevant Deed of Charge may be less than the amounts due to a Securityholder of Collateralised Securities in respect of the relevant series of Collateralised Securities and as a result, investors may lose all or a substantial portion of their investment.

If there is any shortfall in amounts due to a Securityholder of Collateralised Securities in accordance with the Secured Conditions then such Securityholder of Collateralised Securities shall have no further claim against the Issuer or the Security Trustee in respect of such amounts which remain unpaid following enforcement of the relevant Deed of Charge (including, for the avoidance of doubt, payments of interest in respect of the Collateralised Securities). In such a scenario, a Securityholder of the Collateralised Securities will be able to

II. RISK FACTORS

claim against the Issuer on an unsecured basis in respect of any shortfall in amounts due to it. However, the risks specified above in relation to the insolvency of the issuer would apply in relation to any such claim.

The Security Trustee may be entitled not to act following an Acceleration Event if it believes that it will be unable to recover certain amounts or is not indemnified and/or secured or pre-funded by the Securityholders

Following an Event of Default and subsequent Acceleration Event (as notified to the Security Trustee upon receipt of an Acceleration Instruction), the Security Trustee shall be under no obligation to take any action to liquidate or realise any Collateral Assets, if (a) in the event that it is directed by the requisite percentage of Securityholders of the Collateralised Securities to effect such liquidation or realisation in accordance with the exact provisions of an Acceleration Instruction (the form of which is scheduled to the Agency Agreement) it reasonably believes that it would not be able to recover Security Trustee Amounts (being amounts incurred by it in respect of exceptional duties) or would experience an unreasonable delay in doing so; or (b) in the event that it is directed by a Secured Party to effect such liquidation or realisation other than in accordance with the exact provisions of an Acceleration Instruction it has not been indemnified and/or secured and/or prefunded to its satisfaction by the Securityholders of the Collateralised Securities.

In any such event, the Security Trustee may decide not to take any action and such inaction will not constitute a breach by it of its obligations under the Security Agency Agreement, the Deed of Charge or the Secured Conditions. Consequently, if applicable, the Securityholders of the Collateralised Securities would have to either arrange for such indemnity and/or security and/or pre-funding, accept the consequences of such inaction by the Security Trustee or appoint a replacement Security Trustee. Securityholders of at least 33 per cent. in aggregate nominal amount or by number (as applicable) of Non-Inventory Collateralised Securities outstanding may remove the Security Trustee and appoint a replacement Security Trustee. Securityholders of the Collateralised Securities should be prepared to bear the costs associated with any such indemnity and/or security and/or pre-funding and/or the consequences of any such inaction by the Security Trustee and/or the replacement of the Security Trustee. Any consequential delay in the liquidation or realisation of the Collateral Assets may adversely affect the amount distributable to Securityholders of Collateralised Securities.

D. RISK FACTORS RELATING TO THE MARKET GENERALLY**1. Market Factors***1.1 Valuation of the Underlying*

Where the Securities are linked to an Underlying, an investment in the Securities may be associated with risks regarding the value of the constituents comprising the Underlying. The value of the Underlying or its constituents may vary over time and may increase or decrease by reference to a variety of factors which may include corporate actions, macroeconomic factors and speculation.

The relevant price or value of a Reference Item may be observed continuously during the life of the Securities or over certain periods or on one or more valuation dates. It should be noted, however, that the relevant time for valuation may be delayed in the case of a relevant Market Disruption under §5 of the General Conditions.

Accordingly, any positive development of a Reference Item may have no effect on the Securities if this is not a relevant valuation time. Where the Underlying comprises more than one Reference Item then the positive performance of one or more Reference Items may be outweighed by any negative performance of other Reference Item(s).

Investors should review the relevant price or value which is to be observed for each Reference Item. These may refer to published prices or values on an exchange or quotation system or other market measures. It should be noted that market data may not always be transparent or accurate and to a large extent may reflect investor sentiment at the relevant time. No assurance or representation is given that any such price or value will accurately reflect any intrinsic value of the relevant Underlying.

1.2 The Historical Performance of the Underlying or its Constituents is not an Indication of Future Performance

The historical value (if any) of the Underlying or its constituents does not indicate the future performance of the Underlying. Changes in the value of the constituents of the Underlying will affect the trading price of the Securities, but it is impossible to predict whether the value of the constituents of the Underlying will rise or fall.

1.3 The Basis of Calculating the Price or Value of the Underlying may Change Over Time

The basis of calculating the level of the Underlying (if any) or its constituents may be subject to change which may affect the Market Value of the Securities at any time and therefore the amounts payable or assets deliverable on settlement.

1.4 The Value of the Constituents or Reference Items of the Underlying will Affect its Value

The value of the Underlying (if any) on any day may reflect the value of its constituents or Reference Items on such day (depending on the Terms and Conditions of the Securities). Changes in the composition of the Underlying and factors (including those described in these Risk Factors) which either affect or may affect the value of the constituents or Reference Items will affect the value of the Securities. The historical value (if any) of the constituents or Reference Items does not indicate their future performance. Where the value of the constituents or Reference Items is determined in a different currency to the settlement currency of the Securities, investors may be exposed to exchange rate risk.

1.5 Exchange Rate Risk

Prospective investors should be aware that an investment in the Securities may involve exchange rate risks. This is the case, for instance, if the Securities are based on one or more exchange rates. For example, the settlement currency of the Securities may be different from the currency of an investor's home jurisdiction or the currency in which an investor wishes to receive funds.

An investment in the Securities may involve exchange rate risks even if the movement of the Rate of Exchange between the Reference Currency in which the Underlying is expressed or calculated and the Settlement Currency of the Securities does not have any influence during the term of the Securities on the level of the amounts to be paid under the Securities or on the number of the assets to be delivered (so-

called quanto securities). This is particularly the case where physical delivery is specified for the Securities and there is a time lag between the time the applicable amount of assets to be delivered upon the exercise of these Securities is determined and the time the assets are delivered.

Exchange rates between currencies are determined by various factors of supply and demand in the international currency markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Securities and any amounts payable in respect of the Securities. The aforementioned risk may be increased if the relevant currency is the currency of an emerging market jurisdiction.

1.6 *Interest Rate Risk*

An investment in the Securities may involve interest rate risk where there are fluctuations in the interest rates payable on deposits in the settlement currency of the Securities. This may influence the market value of the Securities.

Interest rates are determined by various factors of supply and demand in the international money markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors. Fluctuations in short term and/or long term interest rates may affect the value of the Securities.

2. **Market Value**

The Market Value of the Securities during their term depends primarily on the value and the volatility of the constituents or Reference Items of the Underlying (if any) and in some cases the level of interest rates for instruments of comparable maturities or terms.

The level of market volatility is not purely a measurement of the actual volatility, but is largely determined by the prices for instruments which offer investors protection against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivative markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, macroeconomic factors and speculation.

Interest rate changes generally may have the same impact on the value of the Securities as for fixed rate bonds: rising interest rates will under normal conditions result in a lower, falling interest rates in a higher, value of the Securities. Investors should be aware that the rise in the price of the Securities may be limited in an environment of falling interest rates if the Issuer has the right to redeem the Securities early for a fixed amount on certain predetermined dates.

The value of the Underlying on any day may reflect the value of its constituents or the Reference Items on such day. Changes in the composition of the Underlying or the Reference Items and factors (including those described above) which either affect or may affect the value of the constituents or the Reference Items, will affect the value of the Underlying and therefore may affect the return on an investment in the Securities.

Where Coupon Amounts are payable in respect of the Securities and the relevant Coupon is determined by reference to a floating rate, the market value of the Securities may decrease if the Coupon Amounts to be paid during the remaining term of the Securities are expected to decrease, whereas an increase in the expectations of the level of the Coupon Amounts to be paid in respect of the Securities may result in an increase in the market value of the Securities. The Coupon will fluctuate, among other things, as a result of any changes in the method of calculating the relevant interest rate, changes in prevailing interest rates, general economic conditions, conditions of financial markets and European and international political events.

3. **Market price determining factors**

The Securities may trade at a market value below their purchase price during the term. In particular, depending on the structure of the Securities, factors such as the rise or fall of the Underlying, the volatility of the Underlying, interest rate levels of the Settlement Currency, the difference between the interest rates of the Settlement Currency and Reference Currency, the rise or fall of dividends as well as a decrease in the remaining term of the Securities and additional relevant factors may have an impact on the value of the Securities. A deterioration of the Issuer's credit rating may, independently from the structure of the Securities, result in a decrease in the value of the product.

II. RISK FACTORS

Further, individual factors of the above mentioned factors may each have a separate impact or have a cumulative or offsetting effect.

The prices quoted in the secondary market are based on the Issuer's pricing models, which take account mainly of the value of the Underlying and any derivative components and in addition of the following circumstances:

- the bid-offer spread (the spread between the bid and offer prices on the secondary market), which is set depending on the supply of, and demand for, the securities taking into account revenue considerations
- an originally levied subscription surcharge
- fees/costs: including administrative, transaction or comparable fees, which reduce the investors' entitlement at maturity of the securities
- a margin included in the initial Issue Price
- income: dividends paid or expected or other income from the Underlying or its constituents, if the Issuer is economically entitled to them based on the structure of the securities.

As far as pricing on the secondary market is concerned, certain costs are not, in many instances, deducted from prices on a consistent basis over the term of the securities (*pro rata temporis*), but are subtracted from the mathematical fair value in full already at an earlier point in time as determined by the Issuer at its own discretion. These include in particular any administrative fees, any margin contained in the initial Issue Price and any income contained in it (as described above). The latter is often subtracted not only when the respective Underlying, or its constituents, are traded "ex dividend", but at already an earlier point during the term based on expected dividends. The rate at which such costs are subtracted depends, *inter alia*, on the net flow back of securities to the Issuer. Consequently, the prices quoted in the secondary market can differ from the mathematical fair value of the securities, or the value to be expected economically on the basis of the factors mentioned, at the relevant time. In addition, the methodology used to determine and set the quoted prices may be changed at any time, e.g. the bid-offer spread may be increased or decreased.

4. Certain Hedging Considerations

Certain risks apply to purchasers that acquire the Securities for hedging purposes.

Prospective purchasers intending to purchase the Securities for the purpose of hedging their exposure to the Underlying or its constituents or the Reference Items should recognise the risks of utilising the Securities in such manner. No assurance is or can be given that the value of the Securities will correlate with movements in the value of the Underlying or any of its constituents or the Reference Items and the composition of the Underlying or any of its constituents or the Reference Items may change over time. Furthermore, it may not be possible to liquidate the Securities at a price which directly reflects the value of the Underlying or any of its constituents or the Reference Items. Therefore, there can be no assurance as to the level of any correlation between the return on an investment in the Securities and the return on a direct investment in the Underlying or its constituents or the Reference Items.

Hedging transactions in order to limit the risks associated with the Securities might not be successful.

5. The Securities may be Illiquid

It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid. If so specified in the applicable Final Terms, application has been made to list or quote or admit to trading the Securities on the stock exchange(s) or quotation system(s) specified. If the Securities are so listed or quoted or admitted to trading, no assurance is given that any such listing or quotation or admission to trading will be maintained. The fact that the Securities may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading.

If the Securities are not listed or quoted or admitted to trading on any stock exchange or quotation system, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on offers and sales of the Securities in some jurisdictions.

II. RISK FACTORS

Even where an investor is able to realise its investment in the Securities this may be at a substantially lower value than its original investment in the Securities. Depending on the structure of the Securities the realisation value at any time may be zero. Investors should also note that in the case of physically settled warrants it will be necessary to pay a further strike price prior to receiving delivery of the relevant assets on settlement of the warrants. In addition, a transaction fee may be payable in respect of a sale of the Securities.

The Issuer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. Since the Issuer may be the only market-maker in the Securities or there may be no market-maker, the secondary market may be limited. The more limited the secondary market is, the more difficult it may be for holders of the Securities to realise value for the Securities prior to settlement of the Securities. Therefore, whether or not a market-maker is appointed and the number and identity of the market-makers appointed may have a significant effect on the price of the Securities on the secondary market.

In case of admission of the Securities to the Borsa Italiana MOT regulated market, the Issuer in its capacity as market-maker will undertake to display and reset within 5 days bid and offer prices that do not differ by more than the maximum spread (the so called "*bid/ask spread*") as indicated in the Instructions to the Listing Rules of *Borsa Italiana S.p.A.* for a quantity at least equal to the minimum trade size, as all determined by *Borsa Italiana S.p.A.*

In case of admission of the Securities to the Borsa Italiana SeDeX multilateral trading facility, the Issuer in its capacity as specialist will undertake to display and reset bid and offer prices in respect of the Securities and the maximum spread (the so called "*bid/ask spread*") in compliance with the provisions set out under sections 400 et seq. of the SeDeX Market Rules of *Borsa Italiana S.p.A.*

6. Certain considerations relating to public offers of Securities

As described in the applicable Final Terms, Securities may be distributed by means of a public offer made during an offer period specified in the applicable Final Terms. During such offer period, the Issuer and/or any other person specified in the applicable Final Terms may reserve the right to cancel such offer and/or to scale back applications for such offer in the event of over-subscription. In such circumstances, an applicant investor may not be issued any Securities or may be issued a number of Securities which is less than the amount for which such applicant investor applied. Any payments made by an applicant investor for Securities that are not issued to such applicant investor for any such reason will be refunded. However, there will be a time lag in making any reimbursement, no interest will be payable in respect of any such amounts and the applicant investor may be subject to reinvestment risk.

Further, investors should note that, in certain circumstances, Securities may not be issued on the originally designated Issue Date, for example because either the Issuer and/or any other person specified in the applicable Final Terms has reserved the right to postpone such Issue Date or, following the publication of a supplement to this Base Prospectus the Issuer has decided to postpone such Issue Date to allow investors who had made applications to subscribe for Securities before the date of publication of such supplement to exercise their right to withdraw their acceptances. In the event that the Issue Date is so delayed, no interest shall accrue (if applicable) until the Issue Date of the Securities and no compensation shall be payable.

E. CONFLICTS OF INTEREST

1. Transactions Involving the Underlying

The Issuer and its Affiliates may from time to time engage in transactions involving the Underlying for their proprietary accounts and for accounts under their management. Such transactions may have a positive or negative effect on the value of the Underlying and consequently upon the value of the Securities. As used in this section "Conflicts of Interest", references to the Underlying shall be deemed to include any of its constituents and Reference Items, if applicable.

2. Parties Acting in Other Capacities

The Issuer and its Affiliates may from time to time act in other capacities with regard to the Securities, such as calculation agent, agent and/or index sponsor. Such functions can allow the Issuer to calculate the value of the Underlying or (where the Underlying is a basket or an index) to determine the composition of the Underlying, which could raise conflicts of interest where securities or other assets issued by the Issuer itself or a group company can be chosen to be part of the Underlying, or where the Issuer maintains a business relationship with the issuer or obligor of such securities or assets. Any non-fulfilment of Deutsche Bank's obligations in one of these capacities will probably have an adverse effect on the Securities. In particular, delays may arise regarding the determinations, calculations and/or payments in relation to the Securities.

3. Issuing of Other Derivative Instruments in Respect of the Underlying

The Issuer and its Affiliates may issue other derivative instruments in respect of the Underlying (if any) and the introduction of such competing products into the marketplace may affect the value of the Securities.

4. Conducting of Hedging Transactions

The Issuer may use all or some of the proceeds received from the sale of the Securities to enter into hedging transactions. The Issuer believes that such hedging activity will under normal circumstances not have a material impact on the value of the Securities. However, it cannot be assured that the Issuer's hedging activities will not affect such value. The value of the Securities might in particular be affected by the liquidation of all or a portion of the hedging positions (a) at or about the time of the maturity or expiration of the Securities or (b), if the Securities provide for a knock-out, knock-in or a similar feature, at the time when the price or value of the Underlying approaches the relevant price or level for the knock-out, knock-in or other feature.

5. Issue Price

The issue price charged for the Securities can, in addition to subscription surcharges, management or other fees charged, comprise a premium on the original mathematical ("fair") value of the Securities which is not visible to investors. Such premium is determined by the Issuer in its discretion and can differ from premiums charged by other issuers for comparable securities. The differential amount between the issue price of the Securities and their original mathematical value comprises the expected issuer margin and any distribution fee. The expected issuer margin covers, among other things, the costs of structuring, market making and settlement of the Securities and also includes the expected profit for the Issuer.

6. Re-offer Price and Inducements

The Issuer may enter into distribution agreements with various financial institutions and other intermediaries as determined by the Issuer (collectively the "**Distributors**"). The Distributors will agree, subject to the satisfaction of certain conditions, to subscribe for the Securities at a price equivalent to or below the issue price. The Distributors have agreed to bear certain costs in connection with the issue of the Securities. A periodic fee may be payable to the Distributors in respect of all outstanding Securities up to and including the Settlement Date at a rate as determined between the Issuer and the relevant Distributor. Such rate may vary from time to time. The Distributors will agree to comply with the selling restrictions set out in this Base Prospectus as amended and supplemented by the additional selling restrictions set out in the relevant distribution agreements and Final Terms of the Securities. The Distributors act independently and not as agent for the Issuer.

II. RISK FACTORS

In particular, the Issuer may pay placement and/or trailer fees as sales-related commissions to the relevant Distributor. Placement fees are one-off payments from the proceeds of the issue; alternatively, the Issuer can grant the relevant Distributor an appropriate discount on the issue price (without subscription surcharge). Payment of trailer fees is recurring and conditional upon the volume of securities issued. If Deutsche Bank AG is both the issuer and the dealer with respect to the sale of the Securities, Deutsche Bank AG's distributing division will be credited with the relevant amounts internally. Further information on re-offer price and/or inducements or fees are included in the relevant Final Terms.

The Issuer has the right to close the offering of the Securities prior to the end of the subscription period in case of adverse market conditions, as determined by the Issuer in its reasonable discretion, including but not limited to increased equity market volatility and increased rate of exchange volatility.

In addition, potential conflicts of interest may arise where Securities are offered to the public, as the Distributors will act pursuant to a mandate granted by the Issuer.

7. Market-Making for the Securities

The Issuer, or an agent on its behalf, may but (unless otherwise stated) is not required to act as market-maker for the Securities. In such market-making, the Issuer or its agent will, to a large extent, determine the price of the Securities itself. The prices quoted by such market-maker will usually not correspond to the prices which would have formed without such market-making and in a liquid market.

Circumstances taken into account by the market-maker when setting the quoted bid-offer prices in the secondary market notably include the Securities' fair value, which, among other things, depends on the value of the Underlying, as well as a certain bid-offer spread targeted by the market-maker. The market-maker will in addition regularly take into account subscription surcharges originally levied on the Securities and any fees or costs which at maturity or settlement of the Securities are to be subtracted from any cash amount due (including management, transaction or other fees charged on the basis of the Terms and Conditions). Furthermore, the prices quoted in the secondary market will be influenced, for example, by a premium on the Securities' original value contained in their issue price (see under 5), and by dividends paid or expected for the Underlying, or its constituents, or other proceeds which, due to the Securities' design, are economically attributable to the Issuer.

The bid-offer spread for the Securities will be set by the market-maker based on supply and demand for the Securities and certain revenue considerations.

Certain costs, like for example management fees charged on the basis of the Terms and Conditions, are in many cases not taken out of the quoted prices on a consistent basis over the term of the Securities (*pro rata temporis*), but are subtracted from the Securities' fair value completely at an earlier point in time, as determined by the market-maker in its discretion. The same applies for a premium contained in the issue price of the Securities and for dividends and other proceeds of the Underlying which, due to the Securities' design, are economically attributable to the Issuer. These are often subtracted not only when the Underlying, or its constituents, are traded "ex dividend", but already at an earlier point during the term based on expected dividends for the entire term or a certain time span. The rate at which such costs are subtracted depends, *inter alia*, on the level of net flow back of Securities to the market-maker.

Accordingly, the prices quoted by the market-maker can substantially differ from the fair value of the Securities, or the value to be expected economically on the basis of the factors mentioned above, at the relevant time. In addition, the market-maker can at any time alter the methodology used to set the quoted prices, e. g. increase or decrease the bid-offer spread.

8. Market-Making for the Underlying

The Issuer may, in certain cases, act as a market-maker for the Underlying, which might in particular be the case when the Issuer has also issued the Underlying. By such market-making, the Issuer will, to a large extent, determine the price of the Underlying, and consequently influence the value of the Securities itself. The prices quoted by the Issuer in its market-making function will not always correspond to the prices which would have prevailed without such market-making and in a liquid market.

9. Acting as Underwriter or Otherwise for the issuer of Underlying

The Issuer and its Affiliates may also act as underwriter in connection with future offerings of the Underlying or may act as financial adviser to the issuer of an Underlying or in a commercial banking capacity for the

issuer of an Underlying. Such activities could present certain conflicts of interest and may affect the value of the Securities.

10. Obtaining of Non-public Information

The Issuer and/or its Affiliates may acquire non-public information with respect to the Underlying, and neither the Issuer nor any of its Affiliates undertakes to disclose any such information to any Securityholder. In addition, the Issuer or one or more of the Issuer's Affiliates may publish research reports with respect to the Underlying. Such activities could present conflicts of interest and may affect the value of the Securities.

III. GENERAL INFORMATION ON THE PROGRAMME

C. GENERAL DESCRIPTION OF THE PROGRAMME

This Base Prospectus published by the Issuer contains information on Securities which may be issued under the Programme. These are structured securities and may have a wide range of economic terms.

A base prospectus must be read with the applicable Final Terms for the relevant Securities, since the design of the respective Security will be described in the applicable Final Terms, rather than on publication of the base prospectus. The base prospectus thus presents an overview of the design possibilities for the securities which may be issued under the respective base prospectus.

No investment decision should be made until the Final Terms for the relevant Securities have been read in detail.

Description The Programme of Deutsche Bank AG (the "**Programme**") is a programme for the issuance of certificates, warrants and notes ("**Securities**").

Issuer: Deutsche Bank AG.
The Issuer may issue the Securities through its principal office in Frankfurt or through its branch office in London ("**Deutsche Bank AG, London Branch**"), Milan ("**Deutsche Bank AG, Milan Branch**"), Portugal ("**Deutsche Bank AG, Sucursal em Portugal**") or Spain ("**Deutsche Bank AG, Sucursal en España**"), as specified in the applicable Final Terms.

Distribution: Securities may be distributed by way of private or public placement. The method of distribution will be stated in the applicable Final Terms.

Approval, admission to trading and listing: Application has been made by the Issuer to the CSSF as competent authority under and in accordance with the *Loi relative aux Prospectus pour valeurs mobilières* which implements Directive 2003/71/EC of the European Parliament and the Council of 4th November 2003 into Luxembourg law (the "**Law**") to approve this document as a base prospectus. Application has also been made to the Luxembourg Stock Exchange for Securities issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange, with effect from, at the earliest, the Issue Date or such other date as specified in the Final Terms. No assurances can be given that such application for listing and admission to trading will be granted (or, if granted, will be granted by the Issue Date or such other date as specified in the Final Terms).

Application may be made for the Securities to be admitted to trading or listed, as the case may be, on other or further stock exchanges or multilateral trading facilities or markets, including, but not limited to, the Borsa Italiana MOT regulated market, the Borsa Italiana SeDeX multilateral trading facility, the Euronext Lisbon regulated market and on any or all of the Spanish Stock Exchanges, the AIAF Fixed Income Securities Market (AIAF) or other Spanish regulated markets, with effect from at the earliest, the Issue Date or such other date as specified in the Final Terms. No assurances can be given that such application for listing and admission to trading will be granted (or, if granted, will be granted by the Issue Date or such other date as specified in the Final Terms).

Securities which are neither admitted to trading nor listed on any market may also be issued.

III. GENERAL INFORMATION ON THE PROGRAMME

The applicable Final Terms will state whether or not the relevant Securities are to be admitted to trading and/or listed and, if so, on which stock exchange(s) and/or multilateral trading facility(ies) and/or markets. In addition, the applicable Final Terms will state whether or not the Securities will be publicly offered in connection with their issue.

Nominal Securities: **Amount** **of** If the Securities are specified in the applicable Final Terms to be Notes, they will be issued in such nominal amount(s) as specified in the applicable Final Terms, save that the minimum nominal amount of each Note admitted to trading on a European Economic Area exchange or offered to the public in a Member State of the European Economic Area in circumstances which require the publication of a prospectus under the Prospectus Directive will be Euro 1,000 (or, if the Securities are denominated in a currency other than Euro, the then equivalent amount in such currency) or such other higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant currency.

Terms and Conditions of the Securities: Final terms ("**Final Terms**") will be prepared in respect of the Securities which will complete and put in concrete terms the General Conditions of the Securities set out in the section entitled "*General Conditions*".

Form of Securities: Unless it is specified in the Final Terms that the Securities are Italian Securities, Portuguese Securities, Spanish Listed Securities, French Securities, Swedish Securities, Finnish Securities and Norwegian Securities (each as defined below), the Securities will be represented by a global security (the "**Global Security**").

In the case of a Global Security governed under German law, such Global Security will be in bearer form. In the case of:

- (i) Notes governed under English law, the Global Security will be in bearer form or registered form, as specified in the Product Terms;
- (ii) Notes governed under German law, the Global Security will be in bearer form; and
- (iii) all Certificates and Warrants (other than those Certificates or Warrants which are Italian Securities, Portuguese Securities or Spanish Securities), the Global Security will be in non-bearer form (save that if governed under German law and if deposited with a clearing agent in Germany, the Global Security will be in bearer form for the purposes of German law); and
- (iv) all Securities which are specified in the relevant Product Terms to be Spanish Securities (Global Security) (being Securities governed by Spanish law but not listed on a Spanish regulated market or cleared through Iberclear), the Global Security will be in bearer form.

No definitive Securities will be issued.

In the case of Securities which are specified in the Product Terms to be Italian Securities and are governed under Italian or English or German law (the "**Italian Securities**"), the Securities will be dematerialised and centralised with the Italian Clearing Agent (as specified in the applicable Final Terms), pursuant to Italian Legislative Decree dated 24 February 1998, No. 58, as subsequently amended.

In the case of Securities which are specified in the Product Terms to be Portuguese Securities (being Securities that are governed by

III. GENERAL INFORMATION ON THE PROGRAMME

Portuguese law), the Securities will be issued in dematerialised form (*forma escritural*), represented by book-entries (*registos em conta*) only and centralised through *Central de Valores Mobiliários* ("**CVM**"), a Portuguese securities centralised system, managed by Interbolsa – Sociedade Gestora de Sistemas de Liquidação e de Sistemas Centralizados de Valores Mobiliários, S.A., Avenida da Boavista, n.º 3433, 4100-138 Porto, Portugal, ("**Interbolsa**"), in accordance with Portuguese law. In accordance with article 78 of the Portuguese Securities Code (*Código dos Valores Mobiliários*) any investor holding Portuguese Securities in the accounts of authorised financial intermediaries entitled to hold securities control accounts with Interbolsa on behalf of their customers ("**Affiliate Members of Interbolsa**", which includes any custodian banks appointed by Euroclear Bank SA/NV and Clearstream Banking, société anonyme for the purpose of holding accounts on behalf of Euroclear Bank SA/NV and Clearstream Banking, société anonyme) may at any moment request that such Affiliate Member of Interbolsa provides to such investor a certificate confirming such registered holding.

In the case of Securities which are specified in the Product Terms to be Spanish Listed Securities (being Securities that are governed by Spanish law and listed on any or all of the Spanish Stock Exchanges, AIAF or any other Spanish regulated market) the Securities will be issued in uncertificated, dematerialised book-entry form ("**Book-Entry Securities**"), Book-Entry Securities which are admitted to trading on any of the Spanish regulated markets will be issued as *anotaciones en cuenta* and registered with *Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., Unipersonal*, Palacio de la Bolsa Plaza de la Lealtad, 1 ES-28014 Madrid, Spain, ("**Iberclear**") as managing entity of the central registry. Such Book-Entry Securities will be constituted as such by virtue of their entry in the corresponding accounting book or Iberclear.

In the case of Securities which are specified in the Product Terms to be Swedish Securities, the Securities (also the "**Swedish Securities**") will be cleared through Euroclear Sweden AB (formerly known as VPC AB), PO Box 191, Klarabergviadukten 63, 101 23 Stockholm, Sweden, and issued in registered form in accordance with the Swedish Financial Instruments Account Act (SFS 1998:1479); Lag (1998:1479) om kontoföring av finansiella instrument). The Securities will be issued in uncertificated book-entry form. No global security and no definitive securities will be issued in respect of the Securities.

In the case of Securities which are specified in the Product Terms to be Finnish Securities, the Securities (also the "**Finnish Securities**") will be issued in the Finnish book-entry securities system maintained by the Finnish Central Securities Depository, Euroclear Finland Ltd. (formerly known as Suomen Arvopaperikeskus Oy), PO Box 1110, FI-00101 Helsinki, Finland. No global security and no definitive securities will be issued in respect of the Securities.

In the case of Securities which are specified in the Product Terms to be *Norwegian Securities*, the Securities (also the "**Norwegian Securities**") will be registered in, and cleared through the Norwegian Central Securities Depository Verdipapirsentralen ASA, Postboks 4, 0051 Oslo, Norway, and issued in registered form in accordance with the Norwegian Securities Registry Act, 2002 (*No: Lov om registrering av finansielle instrumenter av 5. juli 2002 nr 64*). The Securities will be issued in dematerialized and uncertificated book-entry form, as more

III. GENERAL INFORMATION ON THE PROGRAMME

fully described in the Product Terms. No global security and no definitive securities will be issued in respect of the Securities.

In the case of Securities which are specified in the Product Terms to be French Securities (the "**French Securities**"), the Securities will be in dematerialised bearer form (*au porteur*) inscribed in the books of Euroclear France S.A. (acting as central depository), 115 rue Réaumur, 75081 Paris Cedex 02, France, which shall credit the accounts of the Account Holders. For the purpose of these Conditions, "**Account Holder**" means any authorised financial intermediary institution entitled to hold securities accounts, directly or indirectly, with Euroclear France, and includes Euroclear and the depository bank for Clearstream. Title to the French Securities will be evidenced in accordance with Articles L.211-3 *et seq.* and R.211-1 *et seq.* of the French Monetary and Financial Code (*Code monétaire et financier*) by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to Article R.211-7 of the French Monetary and Financial Code (*Code monétaire et financier*)) will be issued in respect of the French Securities. At least one Paris business day before the issue date of French Securities, the *Lettre comptable* relating to such French Securities shall be deposited with Euroclear France as central depository.

Status of Securities:

The Securities (other than Collateralised Securities) will constitute direct, unsecured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, subject, however, to statutory priorities conferred to certain unsecured and unsubordinated obligations in the event of resolution measures imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer.

The Collateralised Securities will constitute direct, secured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other secured and unsubordinated obligations of the Issuer, subject, however, to statutory priorities conferred to certain unsecured and unsubordinated obligations in the event of resolution measures imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer.

Regulatory bail-in and other resolution measures:

On 15 May 2014, the European Parliament and the Council of the European Union adopted Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (commonly referred to as the "Bank Recovery and Resolution Directive" or the "**BRRD**") which was transposed into German law by the Recovery and Resolution Act (Sanierungs- und Abwicklungsgesetz, or the "**SAG**") with effect from 1 January 2015. For banks established in the eurozone, such as the Issuer, which are supervised within the framework of the Single Supervisory Mechanism (the "**SSM**"), Regulation (EU) No 806/2014 of the European Parliament and of the Council (the "**SRM Regulation**") provides for a coherent application of the resolution rules across the SSM under responsibility of the European Single Resolution Board, with effect since 1 January 2016 (referred to as the "**Single Resolution Mechanism**" or "**SRM**"). Under the SRM, the Single Resolution Board is responsible for adopting resolution decisions in close cooperation with the European Central Bank, the European Commission, and national resolution authorities in the event that a significant bank directly supervised by the European

III. GENERAL INFORMATION ON THE PROGRAMME

Central Bank, such as the Issuer, is failing or likely to fail and certain other conditions are met. National resolution authorities in the European Union member states concerned would implement such resolution decisions adopted by the Single Resolution Board in accordance with the powers conferred on them under national law transposing the BRRD.

If the competent authority determines that the Issuer is failing or likely to fail and certain other conditions are met (as set forth in the SRM Regulation, the SAG and other applicable rules and regulations), the competent resolution authority has the power to write down, including to write down to zero, claims for payment of the principal and any other claims under the Securities, interest or any other amount in respect of the Securities, to convert the Securities into ordinary shares or other instruments qualifying as common equity tier 1 capital (the write-down and conversion powers are hereinafter referred to as the "**Bail-in tool**"), or to apply any other resolution measure including (but not limited to) a transfer of the Securities to another entity, a variation of the terms and conditions of the Securities (including, but not limited to, the variation of maturity of the Securities) or a cancellation of the Securities. The Bail-in tool and each of these other resolution measures are hereinafter referred to as a "**Resolution Measure**". The competent resolution authority may apply Resolution Measures individually or in any combination.

The competent resolution authority will have to exercise the Bail-in tool in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) subsequently, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) finally, eligible liabilities – such as those under the unsubordinated Securities – being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with a set order of priority.

Ranking of the Securities:

Pursuant to Section 46f(5)-(7) of the German Banking Act (*Kreditwesengesetz*, "**KWG**"), certain unsecured and unsubordinated debt instruments of the Issuer (hereinafter referred to as "**Non-Preferred Senior Obligations**") rank below the Issuer's other senior liabilities (hereinafter referred to as "**Preferred Senior Obligations**") in insolvency or in the event of the imposition of resolution measures, such as a bail-in, affecting the Issuer. Non-Preferred Senior Obligations rank above the Issuer's contractually subordinated liabilities, including Subordinated Notes issued under the Programme. This order of priority would apply in a German insolvency proceeding or in the event of the imposition of resolution measures with respect to the Issuer commenced on or after 1 January 2017, with effect for any senior unsecured debt instruments outstanding at this time. "Structured" senior unsecured debt instruments as defined in Section 46f(7) KWG, i.e. senior unsecured debt instruments whose terms provide that (i) the amount of the repayment depends on the occurrence or nonoccurrence of an event which is uncertain at the point in time when the senior unsecured debt instruments are issued, or

III. GENERAL INFORMATION ON THE PROGRAMME

settlement is effected in a way other than by monetary payment, or (ii) the amount of the interest payments depends on the occurrence or non-occurrence of an event which is uncertain at the point in time when the senior unsecured debt instruments are issued unless the amount of the interest payments solely depends on a fixed or floating reference interest rate, and settlement is effected by monetary payment always constitute Preferred Senior Obligations. "Non-structured" unsecured and unsubordinated Securities issued since 21 July 2018 under this Programme that do not meet the terms described in (i) or (ii) above, including Fixed Rate Notes and Floating Rate Notes linked to LIBOR or EURIBOR, constitute Non-Preferred Senior Obligations that would bear losses in a German insolvency proceeding or in the event of the imposition of resolution measures before Preferred Senior Obligations only if (i) their maturity at the time of issuance amounts to at least one year, and (ii) the terms and conditions of the relevant securities and any relevant prospectus explicitly refer to the lower ranking. Otherwise, they constitute Preferred Senior Obligations. In a German insolvency proceeding or in the event of the imposition of resolution measures with respect to the Issuer, the competent resolution authority or court would determine whether unsecured and unsubordinated Securities issued under the Programme qualify as Preferred Senior Obligations or as Non-Preferred Senior Obligations.

As of the date of this Base Prospectus, the following ratings were assigned to Deutsche Bank for its long-term preferred senior debt (Preferred Senior Obligations): A3 (Negative) by Moody's and BBB+ by S&P. For information on the definitions employed by the Rating Agencies, see the information in the "Ratings of the Issuer" sub-section of section "H. General Information" in Chapter "III. General Information on the Programme" (pages [287-291]).

Issue Price: The Issue Price of the Securities will be specified in the applicable Final Terms.

Taxation: The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever which may arise as a result of, or in connection with, the ownership, any transfer or other relevant events in respect of the Securities held by such Securityholder.

Portuguese Withholding Tax Exemption for Notes The general exemption from Portuguese Withholding Tax applicable to debt instruments (which is chargeable at a rate of 25 per cent. in the case of legal persons and at a rate of 28 per cent. in case of individuals) is only available to non-resident holders of Notes except when they are domiciled in blacklisted jurisdictions with no double taxation treaty in force or taxation information exchange agreement in force with Portugal.

To benefit from this exemption, holders residing in jurisdictions to which such general exemption applies must comply from time to time with the applicable certification procedures described in Decree-Law 193/2005 of 13 November 2005 as amended (please refer to Portuguese Taxation section below). The exemption available under this Decree-Law 193/2005 of 13 November 2005 does not apply to Warrants or Certificates.

III. GENERAL INFORMATION ON THE PROGRAMME

Spanish Withholding Tax Exemption for Spanish Securities:

The exemption from Spanish Withholding Tax applicable to Spanish Securities (which is generally chargeable at a rate of 19 per cent.) is only available to: (A) holders of Notes and Certificates who are Corporate Income Taxpayers or Non-Residents' Income Taxpayers acting through a Spanish permanent establishment and holding instruments that are either: (i) admitted to trading on an organised stock exchange in an OECD state provided that the Spanish Securities are placed in an OECD State other than Spain (as described in the Taxation Section) or (ii) represented in book-entry form and admitted to trading on a Spanish secondary stock exchange; (B) holders of Notes who are Personal Income Taxpayers, in respect of any income arising from the transfer or repayment of the Notes, where the relevant Notes: (i) are represented in book-entry form, (ii) are admitted to trading on a Spanish secondary stock exchange and (iii) generate explicit yield (although, under certain circumstances, this withholding tax exemption may not apply); (C) holders of Notes and Certificates who are Non-Spanish tax resident investors, acting without a permanent establishment in Spain, who are either: (i) resident for tax purposes in a Member State of the European Union (other than Spain and excluding any country or territory regarded as a tax haven pursuant to Royal Decree 1080/1991, of 5 July) and provided further that said resident complies with certain formalities, or (ii) resident in a jurisdiction which has ratified a Treaty for the avoidance of Double Taxation with Spain containing an exchange of information clause, in respect of the income arising from any transfer of the Notes and Certificates through a Spanish official secondary stock exchange; and (D) holders of Warrants.

III. GENERAL INFORMATION ON THE PROGRAMME

D. GENERAL DESCRIPTION OF THE SECURITIES

The Securities described below may be issued under the Programme:

Certificates

Certificates with capital protection

Product No. C1: Capital Protection Certificate

This Capital Protection Certificate is 100% (or such other percentage higher than 100% as specified in the applicable Final Terms) capital-protected at maturity. Capital protection means that redemption at maturity is promised at 100% (or such other percentage higher than 100% as specified in the applicable Final Terms) of the Nominal Amount. The redemption is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

On the Settlement Date, investors receive at least the Specified Reference Level (being 100% (or such other percentage higher than 100% as specified in the applicable Final Terms)).

- a) If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Strike, investors receive the Specified Reference Level on the Settlement Date.
- b) If the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike, investors participate in the positive performance of the Underlying based on the Strike at maturity, if applicable with the Participation Factor, if specified in the applicable Final Terms.

Product No. C2: Capital Protection Certificate with Maximum Amount

This Capital Protection Certificate with Maximum Amount is 100% (or such other percentage higher than 100% as specified in the applicable Final Terms) capital protected at maturity. Capital protection means that redemption at maturity is promised at 100% (or such other percentage higher than 100% as specified in the applicable Final Terms) of the Nominal Amount. The redemption is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Investors receive a minimum of the Specified Reference Level (being 100% (or such other percentage higher than 100% as specified in the applicable Final Terms)) and (if specified in the applicable Final Terms) a maximum of the Maximum Amount on the Settlement Date.

- a) If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Strike, investors receive the Specified Reference Level on the Settlement Date.
- b) If the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike, but below or equal to or below (as specified in the applicable Final Terms) the Cap, investors participate in the positive performance of the Underlying based on the Strike at maturity, if applicable with the Participation Factor, if specified in the applicable Final Terms.
- c) If the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Cap, investors either receive the Maximum Amount on the Settlement Date or participate in the positive performance of the Underlying based on the Strike at maturity, if applicable with the Participation Factor (as specified in the applicable Final Terms).

Product No. C3: Capital Protection Certificate with Participation in Average Performance and without Maximum Amount

This Capital Protection Certificate with Participation in Average Performance and without Maximum Amount is 100% (or such other percentage higher than 100% as specified in the applicable Final

III. GENERAL INFORMATION ON THE PROGRAMME

Terms) capital protected at maturity. Capital protection means that redemption at maturity is promised at 100% (or such other percentage higher than 100% as specified in the applicable Final Terms) of the Initial Issue. The redemption is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

On the Settlement Date investors receive at least the Specified Reference Level, irrespective of the performance of the Underlying.

Additionally, investors can participate in the average, positive, performance of the Underlying in percent (the "**Average Performance of the Underlying**") if it exceeds or is equal to or exceeds (as specified in the applicable Final Terms) the Minimum Return at the end of the term. The Average Performance of the Underlying is formed by building an equally weighted average of the annual movements in the value of the Underlying measured on each of the Observation Dates.

- a) If the Average Performance of the Underlying on the Valuation Date is below or equal to or below (as specified in the applicable Final Terms) the Minimum Return, investors receive the Specified Reference Level on the Settlement Date.
- b) If the Average Performance of the Underlying on the Valuation Date is above the Minimum Return, investors participate in the positive Average Performance of the Underlying based on the Initial Reference Level with the Participation Factor.

Certificates, Certificates 100%, Perpetual Certificates and Index Certificates

Product No. C4: Certificates

The Certificate enables investors to participate in the performance of the Underlying.

With this certificate, the Issuer will pay a Cash Amount at maturity, the amount of which depends on the Relevant Reference Level Value of the Underlying at maturity. The Cash Amount is equal to the Final Reference Level multiplied by the Multiplier.

Product No. C5: Certificate 100%

The Certificate 100% enables investors to participate in the performance of the Underlying.

With this certificate, the Issuer will pay a Cash Amount following exercise by the investor or termination by the Issuer, the amount of which depends on the Relevant Reference Level Value of the Underlying on the relevant Valuation Date. In the case of exercise by the investor or following termination by the Issuer, in each case on a Termination Date, the Cash Amount is equal to the Final Reference Level multiplied by the Multiplier.

Product No. C6: Perpetual Certificate

The Perpetual Certificate enables investors to participate in the performance of the Underlying, if applicable taking a Management Fee into account, if specified in the applicable Final Terms.

With this certificate, the Issuer will pay a Cash Amount following exercise by the investor or termination by the Issuer, the amount of which depends on the Relevant Reference Level Value of the Underlying on the relevant Valuation Date. In the case of exercise by the investor or following termination by the Issuer, in each case on a Termination Date, the Cash Amount is equal to the Final Reference Level multiplied by the Multiplier.

Product No. C7: Index Certificate

The Index Certificate enables investors to participate in the performance of the Underlying, if applicable taking a Management Fee into account, if specified in the applicable Final Terms.

With this certificate, the Issuer will pay a Cash Amount at maturity, the amount of which depends on the level of the index at maturity. The Cash Amount is equal to the Final Reference Level multiplied by the Multiplier.

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. C8: Performance Certificate

The Performance Certificate enables investors to participate in the performance of the Underlying whilst partially benefiting from the cash dividends distributed by the issuer of the Underlying.

With this certificate, the Issuer will pay a Cash Amount at maturity, the amount of which depends on the level of the Underlying at maturity. The Cash Amount is equal to the Final Reference Level multiplied by the Multiplier then applicable in each case.

The Multiplier is increased during the term of the Performance Certificate when a cash dividend is paid in order to partially take these cash dividends distributed (less tax, duty, withholding, deductions or other fees) into account when the Cash Amount is calculated. The adjustment to the Multiplier is in each case made with effect as of the date on which the Underlying is first traded on the Reference Source after the distribution of the dividend (ex dividend).

Discount Certificates

Product No. C9: Discount Certificate (Physical Delivery)

With the Discount Certificate, investors participate in the performance of the Underlying during the term. However, the initial Issue Price or current selling price of the Certificate is below the current market price of the Underlying or the assets specified as the Physical Delivery Amount (discount), in each case taking into account the Multiplier.

On the Settlement Date investors receive, depending on the Final Reference Level, either a Cash Amount or the Underlying based on the Multiplier or, as the case may be, the asset specified as the Physical Delivery Amount depending on the Final Reference Level.

- a) If the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Cap, the Cash Amount is equal to the Maximum Amount.
- b) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Cap, investors receive the Underlying based on the Multiplier or, as the case may be, assets specified as the Physical Delivery Amount. Fractional amounts are not delivered, but are paid out in the form of a corresponding cash payment in the Settlement Currency for each discount certificate.

In return for the discount, investors only participate in a rise in the Underlying up to the Cap.

Product No. C10: Discount Certificate (Cash Settlement)

With this Discount Certificate, investors participate in the performance of the Underlying during the term. However, the initial Issue Price or current selling price of the Certificate is below the current market price of the Underlying (discount) taking into account the Multiplier.

On the Settlement Date investors receive a Cash Amount which is calculated based on the Final Reference Level.

- a) If the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Cap, the Cash Amount is equal to the Maximum Amount.
- b) If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Cap, investors receive a Cash Amount in the amount of the Final Reference Level taking into account the Multiplier.

In return for the discount, investors only participate in a rise in the Underlying up to the Cap.

Bonus Certificates

Product No. C11: Bonus Certificate

With this Bonus Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

III. GENERAL INFORMATION ON THE PROGRAMME

- a) If the Underlying has at no point during the term fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier, the Cash Amount is equal to the Final Reference Level taking account of the Multiplier, but a minimum of the Bonus Amount.
- b) If the Underlying has on at least one occasion during the term fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier, the Cash Amount is no longer equal to a minimum of the Bonus Amount, but instead equal to the Final Reference Level taking into account the Multiplier (1:1 participation in the performance of the Underlying).

Entitlement to receive payment of the Bonus Amount requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Description of Call Product No. C12: Bonus Certificate with Cap
--

With this Bonus Certificate with Cap, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

- a) If the Underlying has at no point during the term fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier, the Cash Amount is equal to the Final Reference Level taking account of the Multiplier, but a minimum of the Bonus Amount and a maximum of the Maximum Amount.

Entitlement to receive payment of the Bonus Amount requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Product No. C13: BonusPro Certificate
--

With this Bonus Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

- a) If the Underlying has at no point during the Observation Period fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier, the Cash Amount is equal to the Final Reference Level taking account of the Multiplier, but a minimum of the Bonus Amount.
- b) If the Underlying has on at least one occasion during the Observation Period fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier, the Cash Amount is no longer equal to a minimum of the Bonus Amount, but instead equal to the Final Reference Level taking into account the Multiplier (1:1 participation in the negative performance of the Underlying).

Entitlement to receive payment of the Bonus Amount requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Product No. C14: BonusPro Certificate with Cap

With this BonusPro Certificate with Cap, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

- a) If the Underlying has at no point during the Observation Period fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier, the Cash Amount is equal to the Final Reference Level taking account of the Multiplier, but a minimum of the Bonus Amount and a maximum of the Maximum Amount.
- b) If the Underlying has on at least one occasion during the Observation Period fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier, the Cash Amount is no longer equal to a minimum of the Bonus Amount, but instead equal to the Final Reference Level taking into account the Multiplier and to a maximum of the Maximum Amount (1:1 participation in the negative performance of the Underlying).

III. GENERAL INFORMATION ON THE PROGRAMME

Entitlement to receive payment of the Bonus Amount requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Product No. C15: Easy Bonus Certificate

With this Easy Bonus Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

- a) If the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Barrier, the Cash Amount will be equal to the Final Reference Level taking into account the Multiplier, but a minimum of the Bonus Amount.
- b) If the Final Reference Level is not above or equal to or above (as specified in the applicable Final Terms) the Barrier, the Cash Amount is no longer equal to a minimum of the Bonus Amount, but instead equal to the Final Reference Level taking into account the Multiplier (1:1 participation in the negative performance of the Underlying).

Entitlement to receive payment of the Bonus Amount requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Product No. C16: Easy Bonus Certificate with Cap

With this Easy Bonus Certificate with Cap, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

- a) If the Final Reference Level is above, below or equal to the Barrier (as specified in the applicable Final Terms), the Cash Amount will be equal to the Final Reference Level taking into account the Multiplier, but a minimum of the Bonus Amount and a maximum of the Maximum Amount.
- b) If the Final Reference Level is not above, below or equal to the Barrier (as specified in the applicable Final Terms), the Cash Amount is no longer equal to a minimum of the Bonus Amount, but instead equal to the Final Reference Level taking into account the Multiplier (1:1 participation in the negative performance of the Underlying).

Entitlement to receive payment of the Bonus Amount requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Product No. C17: Reverse Bonus Certificate

With this Reverse Bonus Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying. Another special feature of the Certificate is that investors participate in the inverse performance of the Underlying.

- a) If the Underlying has at no point exceeded or reached or exceeded (as specified in the applicable Final Terms) the Barrier during the Observation Period, the Cash Amount is equal to twice the Initial Reference Level minus the Final Reference Level taking account of the Multiplier, but a minimum of the Bonus Amount.
- b) If the Underlying has on at least one occasion exceeded or reached or exceeded (as specified in the applicable Final Terms) the Barrier during the Observation Period, the Cash Amount is no longer equal to a minimum of the Bonus Amount, but is instead twice the Initial Reference Level minus the Final Reference Level taking into account the Multiplier (1:1 participation in the negative performance of the Underlying), but not less than zero.

Entitlement to receive payment of the Bonus Amount requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Product No. C18: Reverse Bonus Certificate with Cap

With this Reverse Bonus Certificate with Cap, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying. Another special feature of the Certificate is that investors participate in the inverse performance of the Underlying.

III. GENERAL INFORMATION ON THE PROGRAMME

- a) If the Underlying has at no point exceeded or reached or exceeded (as specified in the applicable Final Terms) the Barrier during the Observation Period, either, as specified in the applicable Final Terms, (i) the Cash Amount is equal to the Bonus Amount, or (ii) the Cash Amount is equal to twice the Initial Reference Level minus the Final Reference Level taking account of the Multiplier, but a minimum of the Bonus Amount and a maximum of the Maximum Amount.
- b) If the Underlying has on at least one occasion exceeded or reached or exceeded (as specified in the applicable Final Terms) the Barrier during the Observation Period, either, as specified in the applicable Final Terms, (i) the Cash Amount is equal to twice the Initial Reference Level minus the Final Reference Level taking into account the Multiplier, subject to a maximum of the Bonus Amount, or (ii) the Cash Amount is no longer equal to a minimum of the Bonus Amount, but is instead twice the Initial Reference Level minus the Final Reference Level taking into account the Multiplier, but a maximum of the Maximum Amount (1:1 participation in the negative performance of the Underlying) and a minimum of zero.

Entitlement to receive payment of the Bonus Amount requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Product No. C19: Flex Bonus Certificate
--

With this Flex Bonus Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

- a) If the Underlying has not fallen below or reached or fallen below (as specified in the applicable Final Terms) the Upper Barrier either, as specified in the applicable Final Terms, (i) at any time during the Observation Period, (ii) on any Observation Date or (iii) on the Valuation Date, the Cash Amount is equal to the First Bonus Amount or the Final Reference Level taking account of the Multiplier (1:1 participation in the negative performance of the Underlying), whichever is higher.
- b) If the Underlying has fallen below or reached or fallen below (as specified in the applicable Final Terms) the Upper Barrier, but not fallen below or reached or fallen below (as specified in the applicable Final Terms) the Lower Barrier, either, as specified in the applicable Final Terms, (i) on at least one occasion during the Observation Period, (ii) on an Observation Date or (iii) on the Valuation Date, the Cash Amount is equal to the Second Bonus Amount or the Final Reference Level taking account of the Multiplier (1:1 participation in the negative performance of the Underlying), whichever is higher.
- c) If the Underlying has fallen below or reached or fallen below (as specified in the applicable Final Terms) the Lower Barrier either, as specified in the applicable Final Terms, (i) on at least one occasion during the Observation Period, (ii) on one Observation Date or (iii) on the Valuation Date, the Cash Amount is equal to the Final Reference Level taking account of the Multiplier (1:1 participation in the negative performance of the Underlying).

Entitlement to receive payment of a Bonus Amount requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Express Certificates

Product No. C20: Express Certificate with European Barrier Observation

A check will be performed for this Express Certificate on each Observation Date (other than the Observation Date falling on the Valuation Date, if specified in the applicable Final Terms), as to whether the Underlying on such date is above or equal to or above (as specified in the applicable Final Terms) the respective Redemption Threshold. If it is, the Certificate will be redeemed early at the relevant Cash Amount, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

III. GENERAL INFORMATION ON THE PROGRAMME

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Underlying and the amount of the Barrier in comparison to the last Redemption Threshold as follows:

If the applicable Final Terms specify that the Barrier is lower than the final Redemption Threshold and

- a) the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Redemption Threshold, investors will receive the specified Cash Amount on the Settlement Date;
- b) if the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Redemption Threshold, but is equal to or above the Barrier, investors will receive a Cash Amount in the amount of the Specified Reference Level on the Settlement Date;
- c) if the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Barrier, the certificate will participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

If the applicable Final Terms specify that the Barrier is equal to the final Redemption Threshold and

- a) the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Barrier, investors will receive the specified Cash Amount on the Settlement Date;
- b) if the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Barrier, the certificate will participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

Investors limit their possible return to the Cash Amounts in return for the possibility of early redemption.

Product No. C21: Express Certificate with American Barrier Observation

A check will be performed for this Express Certificate on each Observation Date (other than the Observation Date falling on the Valuation Date, if specified in the applicable Final Terms), as to whether the Underlying on such date is above or equal to or above (as specified in the applicable Final Terms) the respective Redemption Threshold. If it is, the Certificate will be redeemed early at the relevant Cash Amount, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Underlying and the amount of the Barrier in comparison to the last Redemption Threshold as follows:

If the applicable Final Terms specify that the Barrier is lower than the final Redemption Threshold and

- a) the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Redemption Threshold, investors will receive the specified Cash Amount on the Settlement Date;
- b) if the Final Reference Level is lower than equal to or lower than (as specified in the applicable Final Terms) the Redemption Threshold, but the Underlying did not fall below or reach or fall below (as specified in the applicable Final Terms) the Barrier during the Observation Period, investors will receive a Cash Amount in the amount of the Specified Reference Level on the Settlement Date;
- c) if the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Redemption Threshold and the Underlying has on at least one occasion during the Observation Period fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier, the Certificate will participate 1:1 in the negative performance of the Underlying, based on the Initial Reference Level.

III. GENERAL INFORMATION ON THE PROGRAMME

If the applicable Final Terms specify that the Barrier is equal to the final Redemption Threshold and

- a) the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Barrier, investors will receive the specified Cash Amount on the Settlement Date;
- b) if the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Barrier, the Certificate will participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

Investors limit their possible return to the Cash Amounts in return for the possibility of early redemption.

Product No. C22: PerformancePlus Certificates

A check will be performed for this PerformancePlus Certificate on each Observation Date, as to whether the Underlying on such date is equal to or above the respective Redemption Threshold. If it is, the PerformancePlus Certificate will be redeemed early. In such case, the Cash Amount depends on the performance of the Underlying based on the Initial Reference Level. Investors will participate 1:1 in the positive performance of the Underlying, but will receive at least the Minimum Redemption Amount specified for the relevant Observation Date.

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level as follows:

If the Final Reference Level of the Underlying on the Valuation Date (which is the same as the final Observation Date) is equal to or above the Redemption Threshold, the Cash Amount is equal to the Final Reference Level taking account of the Multiplier, but a minimum of the Minimum Redemption Amount.

If the Final Reference Level is lower than the Redemption Threshold, but is equal to or above the Barrier, investors will receive the Specified Reference Level on the Settlement Date.

If the Final Reference Level is lower than the Barrier, the Cash Amount is equal to the Final Reference Level taking account of the Multiplier (1:1 participation in the negative performance of the Underlying based on the Initial Reference Level).

Product No. C23: Reverse Express Certificate

A check will be performed for this Reverse Express Certificate on each Observation Date (other than the Observation Date falling on the Valuation Date, if specified in the applicable Final Terms), as to whether the Underlying on such date is below or equal to or below (as specified in the applicable Final Terms) the respective Redemption Threshold. If it is, the Certificate will be redeemed early at the relevant Cash Amount, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms). Another special feature of the Certificate is that investors participate in the inverse performance of the Underlying.

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Underlying and the amount of the Barrier in comparison to the last Redemption Threshold as follows:

If the applicable Final Terms specify that the Barrier is lower than the final Redemption Threshold and

- a) the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Redemption Threshold, investors will receive the specified Cash Amount on the Settlement Date;
- b) if the Final Reference Level is above or above or equal to (as specified in the applicable Final Terms) the Redemption Threshold, but is lower than or equal to or lower than (as specified in the applicable Final Terms) the Barrier, investors will receive a Cash Amount in the amount of the Specified Reference Level on the Settlement Date;

III. GENERAL INFORMATION ON THE PROGRAMME

- c) if the Final Reference Level is above the Barrier, the Certificate will negatively participate 1:1 in the positive performance of the Underlying based on the Initial Reference Level, subject to a maximum of the Maximum Amount if so specified in the applicable Final Terms.

If the applicable Final Terms specify that the Barrier is equal to the final Redemption Threshold and

- a) the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Barrier, investors will receive the specified Cash Amount on the Settlement Date;
- b) if the Final Reference Level is above or equal to or above the Barrier, the Certificate will participate 1:1 in the positive performance of the Underlying based on the Initial Reference Level, subject to a maximum of the Maximum Amount if so specified in the applicable Final Terms.

Investors limit their possible return to the Cash Amounts in return for the possibility of early redemption.

Product No. C24: Currency Express Certificate

A check will be performed for this Currency Express Certificate on each Observation Date (other than the Observation Date falling on the Valuation Date, if specified in the applicable Final Terms), as to whether the Underlying on such date is below or above and/or equal to (as specified in the applicable Final Terms) the respective Redemption Threshold. If it is, the Certificate will be redeemed early at the relevant Cash Amount, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

Standard market practice for presenting exchange rates is that exchange rates are shown as the inverse of the performance of the Foreign Currency, i.e., a rising Underlying means a depreciation of the Foreign Currency against the Base Currency and conversely, a falling Underlying means an appreciation of the Foreign Currency against the Base Currency. Accordingly, investors participate in the inverse performance of the Underlying.

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level as follows:

- a) If the Final Reference Level is below or above and/or equal to (as specified in the applicable Final Terms) the Redemption Threshold on the Valuation Date (which corresponds to the last Observation Date) (i.e., the Foreign Currency remains stable against the Base Currency or appreciates or depreciates against the Base Currency), investors receive the specified Cash Amount on the Settlement Date;
- b) If the Final Reference Level is above or below and/or equal to (as specified in the applicable Final Terms) the Redemption Threshold on the Valuation Date, but is lower than or above and/or equal to (as specified in the applicable Final Terms) the Barrier, investors will receive a Cash Amount in the amount of the Specified Reference Level or the specified Cash Amount (as specified in the applicable Final Terms) on the Settlement Date;
- c) If the Final Reference Level is above or below and/or equal to (as specified in the applicable Final Terms) the Barrier on the Valuation Date, the Certificate will negatively participate 1:1 in the positive or negative performance of the Underlying (depreciation or appreciation, as is applicable of the Foreign Currency against the Base Currency) based on the Initial Reference Level.

Investors limit their possible return to the Cash Amount in return for the possibility of early redemption.

Product No. C25: Express Autocallable Certificate

A check will be performed for this Express Autocallable Certificate on each Observation Date, as to whether the Underlying on such date is equal to or above or above (as specified in the applicable Final Terms) the Redemption Threshold. If it is, the Certificate will be redeemed early at the relevant Cash

III. GENERAL INFORMATION ON THE PROGRAMME

Amount corresponding to such Observation Date or the relevant percentage of the Nominal Amount corresponding to such Observation Date, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount corresponding to such Observation Date (as specified in the applicable Final Terms).

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level as follows:

- a) if the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Strike, investors will receive on the Settlement Date the specified Cash Amount, which is an amount equal to the Nominal Amount plus the Additional Amount;
- b) if the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Strike and the Final Reference Level is above or above or equal to (as specified in the applicable Final Terms) the Barrier, investors will receive on the Settlement Date the Cash Amount, which is an amount equal to the Nominal Amount; or
- c) if the Final Reference Level is at or below or below (as specified in the applicable Final Terms) the Barrier, an amount equal to the product of (i) the Multiplier and (ii) the Final Reference Level.

Product No. C26: Worst of Express Autocallable Certificate

A check will be performed for this Worst of Express Autocallable Certificate on each Observation Date (other than the Observation Date falling on the Valuation Date, if specified in the applicable Final Terms), as to whether each Basket Constituent on such date is equal to or above the Redemption Threshold for such Basket Constituent. If it is, the Certificate will be redeemed early at the relevant Cash Amount corresponding to such Observation Date or the relevant percentage of the Nominal Amount corresponding to such Observation, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount corresponding to such Observation Date (as specified in the applicable Final Terms).

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level of the Basket Constituents as follows:

- a) if the Final Reference Level of each Basket Constituent is above or above or equal to (as specified in the applicable Final Terms) the respective Strike or Barrier (as specified in the applicable Final Terms) of such Basket Constituent, investors will receive on the Settlement Date the specified Cash Amount, which is an amount equal to the Nominal Amount plus the Additional Amount;
- b) where specified in the applicable Final Terms, if the Final Reference Level of any Basket Constituent is below or equal to or below (as specified in the applicable Final Terms) its Strike and the Final Reference Level of each Basket Constituent is above or above or equal to (as specified in the applicable Final Terms) the respective Barrier of such Basket Constituent, investors will receive on the Settlement Date the Cash Amount, which is an amount equal to the Nominal Amount; or
- c) if the Final Reference Level of any Basket Constituent is below or at or below (as specified in the applicable Final Terms) its Barrier, an amount equal to the product of (i) the Nominal Amount and (ii) the greater of the Protection Level and the quotient of the Final Reference Level of the worst performing Basket Constituent divided by its Initial Reference Level.

Outperformance Certificates

Product No. C27: Outperformance Certificate
--

With this Outperformance Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the Final Reference Level. They participate disproportionately in the price gains of the Underlying above the Strike, but 1:1 in price losses below the Strike.

III. GENERAL INFORMATION ON THE PROGRAMME

- a) If the Final Reference Level is above or at or above (as specified in the applicable Final Terms) the Strike, investors participate disproportionately at maturity due to the Participation Factor, and to an unlimited extent in the positive performance of the Underlying based on the Strike.
- b) If the Final Reference Level is equal to or equal to or lower than (as specified in the applicable Final Terms) the Strike, investors receive a Cash Amount in the amount of the Final Reference Level taking into account the Multiplier. They thus participate in the negative performance of the Underlying based on the Strike.

Investors may assert no further claims in relation to the Underlying (e.g. voting rights, dividends) in return for the increased opportunity to participate in the performance of the Underlying.

Product No. C28: Reverse Outperformance Certificate

With this Reverse Outperformance Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the Final Reference Level. A special feature of the Certificate is that investors participate in the inverse performance of the Underlying.

- a) If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Strike, at maturity investors participate disproportionately in the negative performance of the Underlying based on the Strike, due to the Participation Factor.
- b) If the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Strike, investors receive the Strike, based on the Multiplier, less the amount by which the Final Reference Level is greater than the Strike. They thus participate inversely in the positive performance of the Underlying based on the Strike.

Investors may assert no further claims in relation to the Underlying (e.g. voting rights, dividends) in return for the increased opportunity to participate in the performance of the Underlying.

Fixed Rate of Interest Certificates and Coupon Certificates

Product No. C29: Fixed Rate of Interest Certificate with European Barrier Observation

The Fixed Rate of Interest Certificate is linked to the performance of the *Underlying*. The way the certificate works results from two key features:

1. Coupon payments

The Certificate pays the Coupon Amount on the Coupon Payment Date(s).

2. Redemption at maturity

- a) If the Final Reference Level is not below or at or below (as specified in the applicable Final Terms) the Barrier, investors receive payment of the Specified Reference Level for each Certificate.
- b) If the Final Reference Level is below or at or below the Barrier, the Certificate will participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

In return for the above average Coupon Payments, investors risk a possible loss of capital.

Product No. C30: Fixed Rate of Interest Certificate with American Barrier Observation

The Fixed Rate of Interest Certificate is linked to the performance of the Underlying. The way the Certificate works results from two key features:

1. Coupon payments

The Certificate pays the Coupon Amount on the Coupon Payment Date(s).

2. Redemption at maturity

III. GENERAL INFORMATION ON THE PROGRAMME

- a) If the Relevant Reference Level Value of the Underlying does not fall below or to or below (as specified in the applicable Final Terms) the Barrier during the Observation Period, investors receive payment of the Specified Reference Level for each Certificate.
- b) If the Relevant Reference Level Value of the Underlying falls below or to or below (as specified in the applicable Final Terms) the Barrier during the Observation Period, the Certificate will participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

In return for the above average Coupon Payments, investors risk a possible loss of capital.

Product No. C31: Inflation-Linked Fixed Rate of Interest Certificate

The Inflation-Linked Fixed Rate of Interest Certificate is linked to the performance of the Underlying and the annual inflation rate. The way the Certificate works results from two key features:

1. Coupon payments

As specified in the applicable Final Terms, on the Coupon Payment Dates the Certificate pays either (i) a Coupon Amount, comprising a fixed Coupon Amount (fixed rate of interest) and a variable Coupon Amount depending on the development of the annual inflation rate, or (ii) a Coupon Amount which depends on the development of the annual inflation rate, but which is a minimum of the Minimum Coupon Rate.

2. Redemption at maturity

- a) If the Final Reference Level is not below or at or below (as specified in the applicable Final Terms) the Barrier, investors receive payment of the Specified Reference Level for each Certificate on the Settlement Date.
- b) If the Final Reference Level is lower than or at or lower than (as specified in the applicable Final Terms) the Barrier, the Certificate will participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. C32: Currency Fixed Rate of Interest Certificate

The Currency Fixed Rate of Interest Certificate is linked to the performance of the Underlying. The way the Certificate works results from two key features:

1. Coupon payments

The Certificate pays the Coupon Amount on the Coupon Payment Date(s).

2. Redemption at maturity

Investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying. Standard market practice for presenting exchange rates is that exchange rates are shown as the inverse of the performance of the Foreign Currency, i.e. a rising Underlying means a depreciation of the Foreign Currency against the Base Currency and conversely, a falling Underlying means an appreciation of the Foreign Currency against the Base Currency. Accordingly, investors participate in the inverse performance of the Underlying.

- a) If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier (i.e. the Foreign Currency remains unchanged against the Base Currency or appreciates against the Base Currency), investors receive payment of the Specified Reference Level per Certificate.
- b) If the Final Reference Level is higher than the Barrier, the Certificate will participate 1:1 in the performance of the Underlying (depreciation of the Foreign Currency against the Base Currency) based on the Initial Reference Level.

In return for the above average Coupon Payments, investors risk a possible loss of capital.

Product No. C33: Coupon Certificate with European Barrier Observation
--

The Coupon Certificate is linked to the performance of the Underlying. The way the product works results from three key features:

1. Coupon payments

Coupon Payment is either (i) conditional or (ii) unconditional as set out in the applicable Final Terms.

If Coupon Payment is conditional and

- a) the Underlying or every Underlying (as applicable) closes either above or at or above (as specified in the applicable Final Terms) the relevant Coupon Threshold (i) on every day during the respective Coupon Observation Period, (ii) on at least one day during the respective Coupon Observation Period or (iii) on one of the Coupon Observation Dates (as specified in the applicable Final Terms), investors will receive the Coupon Amount (Coupon Payment) at the next Coupon Payment Date, subject to paragraph (b) below.
- b) the Underlying or every Underlying (as applicable) does not close either above or at or above (as specified in the applicable Final Terms) the relevant Coupon Threshold (i) on every day during the respective Coupon Observation Period, (ii) on at least one day during the respective Coupon Observation Period or (iii) on one of the Coupon Observation Dates (as specified in the applicable Final Terms), no Coupon Payment will be made at the next Coupon Payment Date. In this case either there will be no further Coupon Payments made (notwithstanding paragraph (a) above) or the Coupon Payment will be made at a later date or Coupon Payment Date if the or every (as applicable) Underlying closes above or at or above (as specified in the applicable Final Terms) the relevant Coupon Threshold on either at least one day or every day (as specified in the applicable Final Terms) in a later Coupon Observation Period or on one of the subsequent Coupon Observation Dates (as specified in the applicable Final Terms).

If Coupon Payment is unconditional, the Coupon Certificate pays the Coupon Amount on the Coupon Payment Dates.

2. Early redemption

Where early redemption is applicable in the Final Terms, if the Underlying closes above or at or above (as specified in the applicable Final Terms) the Redemption Threshold on one of the Observation Dates, the product will be redeemed early at the Specified Reference Level, minus, if specified in the applicable Final Terms, the relevant Coupon Payment. Coupon Payments due or, if the applicable Final Terms specify conditional Coupon Payments, any Coupon Payments, will be made additionally should the coupon conditions occur.

3. Redemption at maturity

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Underlying as follows:

- a) If the Final Reference Level of the or every (as applicable) Underlying is above or equal to or above (as specified in the applicable Final Terms) the Barrier, or (if specified in the applicable Final Terms) if the Reference Level of the or every (as applicable) Underlying is above or equal to or above (as applicable) the respective Barrier on every or any (as applicable) Observation Date investors will receive the Specified Reference Level.
- b) If the Final Reference Level of the or every (as applicable) Underlying is not above or equal to or above (as specified in the applicable Final Terms) the Barrier, or (if specified in the applicable Final Terms) if the Reference Level of the or every (as applicable) Underlying is not above or equal to or above (as applicable) the respective Barrier on every or any (as applicable) Observation Date, the Certificate will participate 1:1 in the performance (which will be negative where the Final Reference Level is applicable, or may be either positive or negative where the Reference Level is applicable) of the Underlying or Worst Performing Basket Constituent (as applicable) based on the corresponding Initial Reference Level.

III. GENERAL INFORMATION ON THE PROGRAMME

If the applicable Final Terms specify this, Coupon Payments due or, if the applicable Final Terms specify conditional Coupon Payments, any Coupon Payments, will be made additionally should the coupon conditions occur.

Investors limit their return to the Specified Reference Level and Coupon Payments in return for the possibility of early redemption.

Product No. C34: Coupon Certificate with American Barrier Observation
--

The Coupon Certificate is linked to the performance of the Underlying. The way the product works results from three key features:

1. Coupon payments

Coupon Payment is either (i) conditional or (ii) unconditional as set out in the applicable Final Terms.

If Coupon Payment is conditional and

- a) the Underlying or every Underlying (as applicable) closes either above or at or above (as specified in the applicable Final Terms) the relevant Coupon Threshold (i) on every day during the respective Coupon Observation Period, (ii) on at least one day during the respective Coupon Observation Period or (iii) on one of the Coupon Observation Dates (as specified in the applicable Final Terms), investors will receive the Coupon Amount (Coupon Payment) at the next Coupon Payment Date, subject to paragraph (b) below.
- b) the Underlying or every Underlying (as applicable) does not close either above or at or above (as specified in the applicable Final Terms) the relevant Coupon Threshold (i) on every day during the respective Coupon Observation Period, (ii) on at least one day during the respective Coupon Observation Period or (iii) on one of the Coupon Observation Dates (as specified in the applicable Final Terms), no Coupon Payment will be made at the next Coupon Payment Date. In this case either there will be no further Coupon Payments made (notwithstanding paragraph (a) above) or the Coupon Payment will be made at a later date or Coupon Payment Date if the or every (as applicable) Underlying closes above or at or above (as specified in the applicable Final Terms) the relevant Coupon Threshold on either at least one day or every day (as specified in the applicable Final Terms) in a later Coupon Observation Period or on one of the subsequent Coupon Observation Dates (as specified in the applicable Final Terms).

If Coupon Payment is unconditional, the Coupon Certificate pays the Coupon Amount on the Coupon Payment Dates.

2. Early redemption

Where early redemption is applicable in the Final Terms, if the Underlying closes above or at or above (as specified in the applicable Final Terms) the Redemption Threshold on one of the Observation Dates, the Certificate will be redeemed early at the Specified Reference Level or at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms). Coupon Payments due or, if the applicable Final Terms specify conditional Coupon Payments, any Coupon Payments, will be made additionally should the coupon conditions occur.

3. Redemption at maturity

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Underlying as follows:

- a) If the Final Reference Level of the or every (as applicable) Underlying is above or equal to or above (as specified in the applicable Final Terms) the Barrier, or (if specified in the applicable Final Terms) if the Reference Level of the or every (as applicable) Underlying is above or equal to or above (as applicable) the respective Barrier on every or any (as applicable) Observation Date investors will receive the Specified Reference Level.

III. GENERAL INFORMATION ON THE PROGRAMME

- b) If the Final Reference Level of the or every (as applicable) Underlying is not above or equal to or above (as specified in the applicable Final Terms) the Barrier, or (if specified in the applicable Final Terms) if the Reference Level of the or every (as applicable) Underlying is not above or equal to or above (as applicable) the respective Barrier on every or any (as applicable) Observation Date, the Certificate will participate 1:1 in the performance (which will be negative where the Final Reference Level is applicable, or may be either positive or negative where the Reference Level is applicable) of the Underlying or Worst Performing Basket Constituent (as applicable) based on the corresponding Initial Reference Level.

If the applicable Final Terms specify this, Coupon Payments due or, if the applicable Final Terms specify conditional Coupon Payments, any Coupon Payments, will be made additionally should the coupon conditions occur.

Investors limit their return to the Specified Reference Level and Coupon Payments in return for the possibility of early redemption.

Product No. C35: Currency Certificate with Fixed Coupon

The Currency Certificate with Fixed Coupon is linked to the performance of the Underlying. Standard market practice for presenting exchange rates is that exchange rates are shown as the inverse of the performance of the Foreign Currency, i.e. a rising Underlying means a depreciation of the Foreign Currency against the Base Currency and conversely, a falling Underlying means an appreciation of the Foreign Currency against the Base Currency. Accordingly, investors participate in the inverse performance of the Underlying.

- 1) Coupon payments

The Certificate pays the Coupon Amount on the Coupon Payment Dates.

- 2) Early redemption

A check will be performed for this Currency Certificate with Fixed Coupon on each Observation Date, as to whether the Underlying on such date is below or equal to or below (as specified in the applicable Final Terms) the respective Redemption Threshold. If it is, the Certificate will be redeemed early at the relevant Cash Amount, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

- 3) Redemption at maturity

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level as follows:

- a) If the Final Reference Level is equal to or lower than the Barrier on the Valuation Date, investors will receive a Cash Amount in the amount of the Specified Reference Level on the Settlement Date;
- b) If the Final Reference Level is lower than the Barrier on the Valuation Date, the Certificate will participate 1:1 in the performance of the Underlying (depreciation of the Foreign Currency against the Base Currency) based on the Initial Reference Level.

Investors limit their possible return to the Coupon Amounts in return for the possibility of early redemption.

Product No. C36: Extra Coupon Certificate (Cash Settlement)

The Extra Coupon Certificate is linked to the performance of the Underlying. The way the Certificate works results from two key features:

1. Coupon payments

III. GENERAL INFORMATION ON THE PROGRAMME

- a) If the Underlying closes above or at or above (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors receive a specified Coupon Amount on the next Coupon Payment Date.
- b) If the Underlying closes below or at or below (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors receive an amount equal to the Minimum Coupon on the next Coupon Payment Date.

2. Redemption at maturity

- a) If the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Barrier, investors will receive the Specified Reference Level.
- b) If the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Barrier, the Certificate will participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

In return for the possibility of above average Coupon Payments, investors risk a possible loss of capital.

Product No. C37: Extra Coupon Certificate (Physical Delivery)
--

The Extra Coupon Certificate is linked to the performance of the Underlying. The way the Certificate works results from two key features:

1. Coupon payments

- a) If the Underlying closes above or at or above (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors receive a specified Coupon Amount on the next Coupon Payment Date.
- b) If the Underlying closes below or at or below (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors receive an amount equal to the Minimum Coupon on the next Coupon Payment Date.

2. Redemption at maturity

- a) If the Final Reference Level is equal to or above the Barrier, investors will receive the Specified Reference Level.
- b) If the Final Reference Level is lower than the Barrier, investors receive the proportion of the Underlying based on the Multiplier or, as the case may be, assets specified as the Physical Delivery Amount and therefore participate 1:1 in the performance of the Underlying based on the Strike. Fractional amounts are not delivered, but are paid out in the form of a corresponding cash payment in the Settlement Currency for each Extra Coupon Certificate.

In return for the possibility of above average Coupon Payments, investors risk a possible loss of capital.

Additional Certificates without Capital Protection

Product No. C38: Reverse Participation Corridor Certificate
--

With the Reverse Participation Corridor Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying. Another special feature of the Certificate is that investors participate in the inverse and non-linear performance of the Underlying. The non-linear certificate structure results in the value of the Certificate rising or falling very quickly when small changes in the Underlying occur. The Certificate's degree of change in value increasingly declines with further changes in the Underlying. The way the product works results from two key features:

1. Bonus payments

- a) If the Underlying closes below or equal to or below (as specified in the applicable Final Terms) the Upper Barrier and equal to or above the Lower Barrier (=predefined range) on the Valuation Date, investors receive the First Bonus Amount on the Settlement Date.

III. GENERAL INFORMATION ON THE PROGRAMME

- b) If the Underlying closes below or equal to or below (as specified in the applicable Final Terms) the Upper Barrier and above or equal to or above (as specified in the applicable Final Terms) the Lower Barrier (=predefined range) on the Exercise Date, investors receive the Second Bonus Amount on the Settlement Date.
- c) If the Underlying closes outside the predefined range on the Valuation Date as well as on the Exercise Date, there will be no bonus payment.

2. Redemption at maturity

- a) If the Interim Reference Level is above or at or above (as specified in the applicable Final Terms) the Initial Reference Level on the Valuation Date, investors participate inversely at maturity, taking into account the Non-Linear Factor (NLF), in the positive performance of the Underlying based on the Initial Reference Level, subject to a minimum of the Minimum Amount.
- b) If the Interim Reference Level is below or at or below (as specified in the applicable Final Terms) the Initial Reference Level on the Valuation Date, investors participate inversely at maturity, taking into account the Non-Linear Factor (NLF), in the negative performance of the Underlying based on the Initial Reference Level, subject to a maximum of the Maximum Amount.

Entitlement to receive payment of the Bonus Amounts requires investors to waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Product No. C39: Sprinter Certificate

This Sprinter Certificate enables investors to participate in a multiple of the Underlying's price gains at a Participation Factor within a certain range (between the Strike and the Cap) at maturity; the multiple and the Participation Factor are both specified in the applicable Final Terms.

- a) If the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Strike but below or equal to or below (as specified in the applicable Final Terms) the Cap, investors receive the Strike plus the multiple of the amount by which the Final Reference Level is greater than the Strike.
- b) If the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Cap, investors receive the Maximum Amount.
- c) If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Strike, investors receive a Cash Amount equal to the Final Reference Level taking into account the Multiplier, and thus participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

Investors limit their possible return to the Maximum Amount in return for the possibility of participating in a multiple of the positive performance of the Underlying.

Product No. C40: OneStep Certificate

With this OneStep Certificate investors receive a Cash Amount on the Settlement Date, the amount of which depends on the Final Reference Level:

- a) If the Underlying is equal to or above the Threshold on the Valuation Date, investors receive the Specified Reference Level on the Settlement Date.
- b) If the Final Reference Level is lower than the Threshold on the Valuation Date, the Certificate will participate 1:1 in the performance of the Underlying based on the Initial Reference Level, subject to, if specified in the applicable Final Terms, a Maximum Amount as specified in the applicable Final Terms.

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. C41: Certificate with Redemption Threshold and Barrier without Possibility of Early Redemption

With this Certificate with Redemption Threshold and Barrier without Possibility of Early Redemption, investors receive a Cash Amount on the Settlement Date, which depends as follows on the Final Reference Level:

If the applicable Final Terms specify that the Barrier is lower than the final Redemption Threshold and

- a) the Final Reference Level is equal to or above the Redemption Threshold, investors will receive the specified Cash Amount on the Settlement Date;
- b) if the Final Reference Level is lower than the Redemption Threshold, but is equal to or above the Barrier, investors will receive a Cash Amount in the amount of the Specified Reference Level on the Settlement Date;
- c) if the Final Reference Level is lower than the Barrier, the Certificate will participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

If the applicable Final Terms specify that the Barrier is equal to the final Redemption Threshold and

- a) the Final Reference Level is equal to or above the Barrier, investors will receive the specified Cash Amount on the Settlement Date;
- b) if the Final Reference Level is lower than the Barrier, the Certificate will participate 1:1 in the negative performance of the Underlying based on the Initial Reference Level.

Product No. C42: Parachute Certificate

The Parachute Certificate is linked to the performance of the Underlying. Investors participate in the price gains of the Underlying based on the Strike, taking into account the Participation Factor. If the Participation Factor is greater than 100%, this participation is leveraged. Below the Parachute Threshold, investors participate in the price losses of the Underlying.

- a) If the Final Reference Level is equal to or greater than (as specified in the applicable Final Terms) the Strike, investors receive the Initial Issue Price multiplied by the ratio of the Final Reference Level and Initial Reference Level taking into account the Participation Factor.
- b) If the Final Reference Level is equal to or greater than (as specified in the applicable Final Terms) the Parachute Threshold, investors receive the Initial Issue Price.
- c) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Parachute Threshold, investors receive the Initial Issue Price multiplied by the ratio of the Final Reference Level to the Parachute Threshold. Investors thus participate in the negative performance of the Underlying based on the Parachute Threshold.

Investors may assert no further claims in relation to the Underlying (e.g. voting rights, dividends) in return for a hedge against limited price losses.

Product No. C43: Equity Protection Certificate

The Equity Protection Certificate has a level of protection of the amount invested in it until maturity. Such protection means, at maturity, at least the protected amount will be paid. This amount is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

The Equity Protection Certificate is linked to the performance of the Underlying or the Basket Constituents (as specified in the applicable Final Terms). Subject to the protected amount and (if specified as applicable in the Final Terms) the Maximum Amount, investors participate 1:1 or with the Participation Factor (as specified in the Final Terms) in the negative of the performance of the Underlying or the negative of the average performance of the Basket Constituents (as specified in the applicable Final Terms).

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. C44: Twin Win Certificate with European Barrier Observation

With this Twin Win Certificate with European Barrier Observation, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying:

- a) If the Final Reference Level is above or above or equal to (as specified in the applicable Final Terms) the Initial Reference Level, an amount equal to either (as specified in the applicable Final Terms) (i) the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator), or (ii) the product of the Initial Issue Price and the sum of (A) one and (B) the product of ParticipationUp multiplied by the difference between (I) the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator), and (II) one;
- b) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Initial Reference Level and greater than or greater than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the product of (i) the Initial Issue Price and (ii) the amount equal to either (as specified in the applicable Final Terms) (A) two minus the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator) or (B) the sum of one and the product of (I) ParticipationDown and (II) the difference between one minus the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator); or
- c) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the participation in the negative performance of the Underlying calculated as the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator) (1:1 participation in the negative performance of the Underlying).

Product No. C45: Twin Win Certificate with European Barrier Observation with Cap

With this Twin Win Certificate with European Barrier Observation with Cap, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying, subject to a cap.

- a) If the Final Reference Level is above or above or equal to (as specified in the applicable Final Terms) to the Initial Reference Level, an amount equal to either (i) the product of the Initial Issue Price and the lesser of (a) the Cap and (b) the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator), or (ii) an amount equal to the product of the Initial Issue Price multiplied by (A) one plus the lesser of (I) the Cap and (II) ParticipationUp multiplied by (x) the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator), minus (B) one;
- b) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Initial Reference Level and greater than or greater than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the Initial Issue Price, or, if specified in the applicable Final Terms, an amount equal to the product of (i) the Initial Issue Price and (ii) either (as specified in the applicable Final Terms) (I) the amount equal to two minus the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator)), or (II) the amount equal to the sum of one and the product of (A) ParticipationDown and (B) the difference between one minus the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator); or
- c) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the participation in the negative performance of the Underlying calculated as the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator) (1:1 participation in the negative performance of the Underlying), or, if specified in the applicable Final Terms, the product of the Initial Issue Price and the quotient of the Final Reference Level (as

III. GENERAL INFORMATION ON THE PROGRAMME

numerator) and the Initial Reference Level (as denominator) multiplied by one divided by the Gearing.

Product No. C46: Twin Win Certificate with American Barrier Observation

With this Twin Win Certificate with American Barrier Observation, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

- a) If the Final Reference Level is above (or, if stated in the Final Terms, above or equal to) to the Initial Reference Level, an amount equal to the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator),
- b) If the Final Reference Level on the Valuation Date is less than (or, if stated in the Final Terms, less than or equal to) the Initial Reference Level and on any Observation Date the price or level of the Underlying is lower than (or, if stated in the Final Terms, lower than or equal to) the Barrier (Barrier Event), an amount equal to the participation in the negative performance of the Underlying calculated as the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator) (1:1 participation in the negative performance of the Underlying),
- c) If the Final Reference Level on the Valuation Date is less than (or, if stated in the Final Terms, less than or equal to) the Initial Reference Level and a Barrier Event has not occurred, an amount equal to the participation in the absolute value (i.e. a negative is treated as a positive) of the negative performance of the Underlying calculated as the product of (i) the Initial Issue Price and (ii) the amount that 2 exceeds the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator) (1:1 participation in the absolute performance of the Underlying).

Product No. C47: Twin Win Certificate with American Barrier Observation with Cap

With this Twin Win Certificate with American Barrier Observation with Cap with Cap, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying, subject to a cap.

- a) If the Final Reference Level is above or above or equal to (as specified in the applicable Final Terms) the Initial Reference Level, an amount equal to the product of the Initial Issue Price and the lesser of (i) the Cap and (ii) the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator);
- b) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Initial Reference Level and on each Observation Date the price or level of the Underlying is greater than or greater than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the product of (i) the Initial Issue Price and (ii) the amount equal to two minus the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator); and
- c) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Initial Reference Level and on any Observation Date the price or level of the Underlying is lower than or lower than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator) (1:1 participation in the negative performance of the Underlying).

Product No. C48: Autocallable Twin Win Certificate with European Barrier Observation

A check will be performed for this Autocallable Twin Win Certificate with European Barrier Observation on each Observation Date, as to whether the Underlying on such date is equal to or above the Redemption Threshold. If it is, the Certificate will be redeemed early at the relevant Cash Amount corresponding to such Observation Date, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms),

III. GENERAL INFORMATION ON THE PROGRAMME

plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount corresponding to such Observation Date (as specified in the applicable Final Terms).

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level as follows:

- a) If the Final Reference Level is above or above or equal to (as specified in the applicable Final Terms) the Initial Reference Level, an amount equal to the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator);
- b) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Initial Reference Level and greater than or greater than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the product of (i) the Initial Issue Price and (ii) the amount equal to two minus the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator); or
- c) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the participation in the negative performance of the Underlying calculated as the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator) (1:1 participation in the negative performance of the Underlying).

Product No. C49: Autocallable Twin Win Certificate with American Barrier Observation

A check will be performed for this Autocallable Twin Win Certificate with American Barrier Observation on each Observation Date, as to whether the Underlying on such date is equal to or above the Redemption Threshold. If it is, the Certificate will be redeemed early at the relevant Cash Amount corresponding to such Observation Date, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount corresponding to such Observation Date (as specified in the applicable Final Terms).

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level as follows:

- a) If the Final Reference Level is above or above or equal to (as specified in the applicable Final Terms) to the Initial Reference Level, an amount equal to the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator);
- b) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Initial Reference Level and on each Observation Date the price or level of the Underlying is greater than or greater than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the product of (i) the Initial Issue Price and (ii) the amount equal to two minus the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator); and
- c) If the Final Reference Level is less than or less than or equal to (as specified in the applicable Final Terms) the Initial Reference Level and on any Observation Date the price or level of the Underlying is lower than or lower than or equal to (as specified in the applicable Final Terms) the Barrier, an amount equal to the product of the Initial Issue Price and the quotient of the Final Reference Level (as numerator) and the Initial Reference Level (as denominator) (1:1 participation in the negative performance of the Underlying).

Product No. C50: Bonus Worst Of Certificates with European Barrier Observation

With this Bonus Worst Of Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Basket Constituents.

III. GENERAL INFORMATION ON THE PROGRAMME

- a) If the Final Reference Level of each Basket Constituent is not below, or is not at or below (as specified in the applicable Final Terms) the Barrier of the respective Basket Constituent, the Cash Amount is equal to the Bonus Amount; or
- b) If the Final Reference Level of one or more Basket Constituents is below or at or below (as specified in the applicable Final Terms) the Barrier of the respective Basket Constituent, the Cash Amount is equal to the product of (i) the Initial Issue Price or the Nominal Amount (as specified in the applicable Final Terms) and (ii) the quotient of Final Reference Level of the worst performing Basket Constituent divided by its Initial Reference Level.

Product No. C51: Bonus Worst Of Certificates with American Barrier Observation

With this Bonus Worst Of Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Basket Constituents.

- a) If the Barrier Determination Amount of each Basket Constituent on each Observation Date has not fallen below or has not reached or fallen below (as specified in the applicable Final Terms) the Barrier of the respective Basket Constituent, the Cash Amount is equal to the Bonus Amount;
- b) If the Barrier Determination Amount of one or more Basket Constituents on any Observation Date has fallen below or has reached or fallen below (as specified in the applicable Final Terms) the Barrier of the respective Basket Constituent, the Cash Amount is equal to the product of (i) the Initial Issue Price or the Nominal Amount (as specified in the applicable Final Terms) and (ii) the quotient of Final Reference Level of the worst performing Basket Constituent divided by its Initial Reference Level.

Product No. C52: Autocallable Certificate (with instalment redemption)

The Autocallable Certificate (with instalment redemption) is linked to the performance of the Basket Constituents. The way this Certificate works results from two key features:

1. Redemption in instalments

The Certificate will be partially redeemed by payment of the Instalment Cash Amount on the Instalment Settlement Date. Additionally, investors will receive a Coupon Amount calculated on the basis of the Instalment Cash Amount due on this date.

If there is no early redemption, as specified below, investors will receive a Final Cash Amount on the Settlement Date which is determined as follows:

- a) If the Final Reference Level of all Basket Constituents is greater than or equal to or greater than (as specified in the applicable Final Terms) the relevant Strike, investors will receive the sum of the Residual Amount plus the product of the Residual Amount and the Final Cash Amount Percentage;
- b) If the Final Reference Level of one or more Basket Constituent is less than or equal to or less than (as specified in the applicable Final Terms) the relevant Strike but the Final Reference Level of all Basket Constituents is greater than or equal to or greater than (as specified in the applicable Final Terms) the relevant Barrier, investors will receive the Residual Amount; or
- c) If the Final Reference Level of any Basket Constituent is less than or less than or equal to (as specified in the applicable Final Terms) the relevant Barrier, investors will receive an amount equal to the product of the Residual Amount and the Performance of the Basket Constituent with the lowest Performance.

2. Early redemption

A check will be performed for this Autocallable Certificate (with instalment redemption) on each Observation Date, as to whether the price or level of each of the Basket Constituents is at or above or above (as specified in the applicable Final Terms) the respective Redemption Threshold. If the price or level of all of the Basket Constituents on an Observation Date at or above or above (as specified in the applicable Final Terms) the respective Redemption Threshold on an Observation Date, the Certificate

III. GENERAL INFORMATION ON THE PROGRAMME

will be redeemed early by payment of the Final Cash Amount which will be the sum of the Residual Amount plus the product of the Residual Amount and the Early Cash Amount Percentage for such Observation Date.

Product No. C53: Autocallable Outperformance Certificate

A check will be performed for this Autocallable Outperformance Certificate on each Observation Date as to whether the Outperformance (being the amount that the performance of the Long Underlying exceeds the performance of the Short Underlying) on such date is greater than or greater than or equal to (as specified in the applicable Final Terms) the Outperformance Strike Level for such Observation Date. If it is, the Certificate will be redeemed early at the relevant Cash Amount corresponding to such Observation Date, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount corresponding to such Observation Date (as specified in the applicable Final Terms).

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Outperformance on the Valuation Date as follows:

- a) If the Outperformance on the Valuation Date is greater than or equal to or greater than (as specified in the applicable Final Terms) the Threshold Percentage, the Outperformance Amount;
- b) If the Outperformance on the Valuation Date is less than or less than or equal to the (as specified in the applicable Final Terms) Threshold Percentage, and greater than or equal to or greater than (as specified in the applicable Final Terms) the Protection Barrier, the Initial Issue Price; or
- c) If the Outperformance on the Valuation Date is less than or less than or equal to the Protection Barrier (as specified in the applicable Final Terms), an amount that reflects the participation in the Outperformance calculated as the product of (i) the Initial Issue Price and (ii) one plus the Outperformance, subject to a minimum of zero.

The performance of the Long Underlying for any relevant day is the Relevant Reference Level Value of the Long Underlying for such day divided by the Initial Reference Level of the Long Underlying. The performance of the Short Underlying for any relevant day is the Relevant Reference Level Value of the Short Underlying for such day divided by the Initial Reference Level of the Short Underlying.

Product No. C54: Range Certificate

With this Range Certificate, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

- a) If the Final Reference Level is within one or more of the Ranges, the Cash Amount will be that corresponding to the lowest such Range.
- b) If the Final Reference Level is not within one or more of the Ranges, the Cash Amount will be the Protection Amount.

Investors limit their potential return in return for limited potential loss of capital.

Product No. C55: Autocallable Bonus Certificate

If specified in the applicable Final Terms, Coupon Payments may apply to this Autocallable Bonus Certificate, and such Coupon Payment may be either (i) conditional or (ii) unconditional for each Coupon Payment date, as set out in the applicable Final Terms.

If Coupon Payment is conditional and

- a) the Underlying closes either at or above or above (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors will receive the Coupon Amount on the next Coupon Payment Date.

III. GENERAL INFORMATION ON THE PROGRAMME

- b) the Underlying closes below or at or below (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, no Coupon Payment will be made at the next Coupon Payment Date.

If Coupon Payment is unconditional for a Coupon Payment Date, the Coupon Certificate pays the Coupon Amount on the Coupon Payment Dates.

A check will be performed for this Certificate on each Observation Date or during the relevant Observation Period (as specified in the applicable Final Terms), as to whether the Underlying on such date or at any time or on any day during such Observation Period (as specified in the applicable Final Terms) is equal to or above or above (as specified in the applicable Final Terms) the Redemption Threshold. If it is, the Certificate will be redeemed early at the relevant Cash Amount corresponding to such Observation Date, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount corresponding to such Observation Date (as specified in the applicable Final Terms).

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level as follows:

- a) if the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Barrier, investors will receive on the Settlement Date the specified Cash Amount, which is an amount equal to the greater of (i) the Nominal Amount or other amount as specified in the applicable Final Terms, plus the Additional Amount (if specified in the applicable Final Terms) and (ii) the product of (A) the Multiplier or other amount as specified in the applicable Final Terms, and (B) the Final Reference Level of the Underlying; or
- b) if the Final Reference Level is below or at or below (as specified in the applicable Final Terms) the Barrier, investors will receive on the Settlement Date the Cash Amount, which is in the amount of the Specified Reference Level or an amount equal to the product of (i) the Multiplier, and (ii) the Final Reference Level of the Underlying (as specified in the applicable Final Terms).

Product No. C56: Delta One Certificate

If specified in the applicable Final Terms, Coupon Payments may apply to this Delta One Certificate, and such Coupon Payment may be either (i) conditional or (ii) unconditional for each Coupon Payment date, as set out in the applicable Final Terms.

If Coupon Payment is conditional and

- a) the Underlying closes either at or above or above (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors will receive the Coupon Amount on the next Coupon Payment Date.
- b) the Underlying closes below or at or below (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, no Coupon Payment will be made at the next Coupon Payment Date.

If Coupon Payment is unconditional for a Coupon Payment Date, the Coupon Certificate pays the Coupon Amount on the Coupon Payment Dates.

Investors will receive a Cash Amount on the Settlement Date which will be the product of the Nominal Amount and the Final Reference Level divided by the Initial Reference Level.

Product No. C57: Dual Fixed Rate Certificate (with instalment redemption)

The Dual Fixed Rate Certificate (with instalment redemption) is linked to the performance of the Underlying (or, if specified in the applicable Final Terms, the Basket Constituents). The way this Certificate works results from two key features:

1. Coupons

III. GENERAL INFORMATION ON THE PROGRAMME

If specified in the applicable Final Terms, Coupon Payments will apply and the Certificate will pay the relevant Coupon Amount on the Coupon Payment Dates (as specified in the applicable Final Terms).

2. Redemption in instalments

The Certificate will be partially redeemed by payment of the Instalment Cash Amount on the Instalment Settlement Date. Additionally, investors will receive a Coupon Amount calculated on the basis of the Instalment Cash Amount due on this date.

Investors will receive a Final Cash Amount on the Settlement Date which is determined as follows:

- a) If the Final Reference Level of the Underlying or all Basket Constituents (as specified in the applicable Final Terms) is greater than or equal to or greater than (as specified in the applicable Final Terms) the relevant Barrier, investors will receive the Residual Amount;
- b) If the Final Reference Level of the Underlying or any Basket Constituent (as specified in the applicable Final Terms) is less than or less than or equal to (as specified in the applicable Final Terms) the relevant Barrier, investors will receive an amount equal to the product of the Residual Amount and the Performance of the Underlying or the Basket Constituent with the lowest Performance (as specified in the applicable Final Terms).

Product No. C58: Currency Chooser Basket Certificate

This Currency Chooser Basket Certificate is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

On the Settlement Date, investors will receive an amount equal to the greater of (a) the Nominal Amount, and (b) the product of (i) the Multiplier, and (ii) the sum of (A) 100 per cent. (or other percentage as specified in the applicable Final Terms), and (B) the product of (x) the Participation Factor, and (y) the arithmetic average of the performance of the highest performing and the second highest performing Basket Constituents, subject to a minimum of zero.

Product No. C59: Certificate linked to a Basket

The Certificate linked to a Basket are linked to the performance of the Basket Constituents. The way this Certificate works results from the following key features:

1. Coupon payments

The Securities pay a Coupon Amount on each Coupon Payment Date, and such Coupon Amount will be a fixed amount for each Security.

2. Redemption

On the Settlement Date, investors receive a Cash Amount equal to the product of (a) the Nominal Amount, multiplied by (b) the greater of (i) zero, and (ii) the difference between (A) one, minus (B) the product of (I) Number of Underperforming Basket Constituents less, if so specified in the applicable Final Terms, a specified number, multiplied by (II) either a number specified in the applicable Final Terms or the quotient of a fixed numerator and a fixed denominator as specified in the applicable Final Terms. If specified in the applicable Final Terms, the Cash Amount will be subject to a specified maximum.

Where Number of Underperforming Basket Constituents means the number of Basket Constituents for which the Performance is less than (or if specified in the applicable Final Terms, less than or equal to) the Barrier. The Performance of a Basket Constituent is determined as the quotient of (i) its Final Reference Level and (ii) its Initial Reference Level.

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. C60: Rainbow Return Certificate

The Rainbow Return Certificate is linked to the sum of the weighted performance of the highest performing, second highest performing and lowest performing Basket Constituents (i.e., the Rainbow Return).

On the Settlement Date, investors receive the Nominal Amount (or such other amount as is specified in the applicable Final Terms) if the Rainbow Return is below or equal to or below (as specified in the applicable Final Terms) zero or the Barrier (as specified in the applicable Final Terms). Otherwise, investors receive a Cash Amount equal to the sum of (a) the Nominal Amount (or such other amount as is specified in the applicable Final Terms), plus (b) the product of (i) the Multiplier, multiplied by (ii) the Participation Factor, multiplied by (iii) the Rainbow Return.

Product No. C61: Worst of Express Autocallable Certificate (no Protection Level)

A check will be performed for this Worst of Express Autocallable Certificate (no Protection Level) on each Observation Date (other than the Observation Date falling on the Valuation Date, if specified in the applicable Final Terms), as to whether each Basket Constituent on such date is equal to or above the Redemption Threshold for such Basket Constituent. If it is, the Certificate will be redeemed early at the relevant Cash Amount corresponding to such Observation, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount corresponding to such Observation Date (as specified in the applicable Final Terms).

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level of the Basket Constituents as follows:

- a) where specified in the applicable Final Terms, if Final Reference Level of each Basket Constituent is above or above or equal to (as specified in the applicable Final Terms) the respective Barrier of such Basket Constituent, investors will receive on the Settlement Date the Cash Amount, which is an amount equal to the Nominal Amount or such other amount as specified in the applicable Final Terms; or
- b) if the Final Reference Level of any Basket Constituent is below or at or below (as specified in the applicable Final Terms) its Barrier, an amount equal to the product of (i) the Nominal Amount and (ii) the quotient of the Final Reference Level of the worst performing Basket Constituent divided by its Initial Reference Level.

Product No. C62: Worst of Phoenix Autocallable Certificate

A check will be performed for this Worst of Phoenix Autocallable Certificate on each Observation Date (other than the Observation Date falling on the Valuation Date, if specified in the applicable Final Terms), as to whether each Basket Constituent on such date is above or equal to or above (as specified in the applicable Final Terms) the Redemption Threshold for such Basket Constituent. If it is, the Certificate will be redeemed early at the relevant Cash Amount corresponding to such Observation Date.

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level of the Basket Constituents as follows:

- a) if the Final Reference Level of each Basket Constituent is above or equal to or above (as specified in the applicable Final Terms) the Barrier, investors will receive on the Settlement Date the specified Cash Amount, which is an amount equal to the Nominal Amount (or such percentage of the Nominal Amount as specified in the applicable Final Terms)
- b) if the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier, an amount equal to the product of (i) the Nominal Amount and (ii) the quotient of the Final Reference Level of the worst performing Basket Constituent divided by its Initial Reference Level, provided that the Cash Amount will not exceed a maximum of the Maximum Amount if specified in the applicable Final Terms.

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. C63: Lookback Certificate

The Lookback Certificate is linked to the performance of the Underlying. The way the product works results from three key features:

1. Coupon Payments

If Coupon Payment is conditional:

- a) If the Underlying closes either (i) above or (ii) equal to or above (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors receive a Coupon Amount on the next Coupon Payment Date.
- b) If the Underlying closes either (i) below or (ii) equal to or below (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors do not receive a Coupon Amount on the next Coupon Payment Date.

If Coupon Payment is unconditional, the Coupon Certificate pays the Coupon Amount on the Coupon Payment Dates.

2. Early redemption

A check will be performed for the Lookback Certificate on each Observation Date, as to whether the Underlying on such date closes either (i) above or (ii) equal to or above (as specified in the applicable Final Terms) the respective Redemption Threshold. If it is, the Lookback Certificate will be redeemed early at the Specified Reference Level.

Coupon Payments due or, if the applicable Final Terms specify conditional Coupon Payments, any Coupon Amounts will be paid additionally should the coupon conditions occur.

3. Redemption at maturity

If there is no early redemption, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level of the Underlying as follows:

- a) If the Final Reference Level is either (i) above or (ii) equal to or above (as specified in the applicable Final Terms) the Barrier, investors will receive an amount equal to the Specified Reference Level.
- b) If the Final Reference Level is either (i) below or (ii) equal to or below (as specified in the applicable Final Terms) the Barrier, investors receive an amount equal to the product of (i) the Specified Reference Level and (ii) the quotient of the Final Reference Level (as numerator) and the Minimum Reference Level (as denominator).

If the applicable Final Terms specify this, Coupon Amounts due or, if the applicable Final Terms specify conditional Coupon Payments, any Coupon Amounts, will be paid additionally should the coupon conditions occur.

The Barrier will be determined based on the Minimum Reference Level which is the lowest official closing price or, as the case may be, closing level of the Underlying during the Lookback Period.

Investors limit their return to Coupon Amounts in return for the possibility of early redemption.

Product No. C64: Coupon Certificate with Minimum Reference Level

The Coupon Certificate with Minimum Reference Level is linked to the performance of the Underlying. The way the product works results from three key features:

1. Coupon payments

- a) If the Underlying closes either (i) above or (ii) equal to or above (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors receive a specified Coupon Amount on the next Coupon Payment Date.

III. GENERAL INFORMATION ON THE PROGRAMME

- b) If the Underlying closes either (i) below or (ii) equal to or below (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors do not receive a Coupon Amount on the next Coupon Payment Date.

2. Early redemption

A check will be performed for the Coupon Certificate with Minimum Reference Level on each Observation Date, as to whether the Underlying on such date is either (i) above or (ii) equal to or above (as specified in the applicable Final Terms) the respective Redemption Threshold or on one of the Observation Dates (as specified in the applicable Final Terms). If it is, the Certificate will be redeemed early at an amount equal to the Specified Reference Level. Coupon Amounts due or, if the applicable Final Terms specify conditional Coupon Payments, any Coupon Amounts, will be paid additionally should the coupon conditions occur.

3. Redemption at maturity

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level of the Underlying as follows:

- a) If the Final Reference Level is either (i) above or (ii) equal to or above (as specified in the applicable Final Terms) the Barrier, investors will receive an amount equal to the Specified Reference Level.
- b) If the Final Reference Level is either (i) below or (ii) equal to or below (as specified in the applicable Final Terms) the Barrier, investors receive an amount equal to the product of (i) the Specified Reference Level and (ii) the quotient of the Final Reference Level (as numerator) and the Minimum Reference Level (as denominator).

If the applicable Final Terms specify this, Coupon Amounts due or, if the applicable Final Terms specify conditional Coupon Payments, any Coupon Amounts, will be paid additionally should the coupon conditions occur.

Investors limit their return to Coupon Amounts in return for the possibility of early redemption.

Product No. C65: Simplified Digital Variable Coupon Certificate
--

The Simplified Digital Variable Coupon Certificate is 100% (or such other percentage higher than 100% as specified in the Final Terms) capital-protected at maturity. Capital protection means that redemption of the Simplified Digital Variable Coupon Certificate at maturity is promised at 100% (or such other percentage higher than 100% as specified in the Final Terms) of the Issue Price. The redemption is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

On each Coupon Observation Date, a Coupon Amount will be paid on the next following Coupon Payment Date (excluding the Settlement Date).

The amount of coupon paid on a Coupon Payment Date depends on the performance of the Underlying or Basket (as specified in the applicable Final Terms) on the Coupon Observation Date falling immediately prior to such Coupon Payment Date and whether such Coupon Observation Date falls earlier or later in the term of the Certificate.

The Coupon Amount payable on a Coupon Payment Date will be calculated as (i) the Specified Reference Level, multiplied by (ii) the Participation Factor, multiplied by (iii) one divided by the Coupon Divisor, and further multiplied by (iv) the Relevant Reference Level Value of the Underlying or the Reference Level of the Basket (as specified in the applicable Final Terms) on the Coupon Observation Date falling immediately prior to such Coupon Payment Date divided by the Initial Reference Level of the Underlying or Basket (as specified in the applicable Final Terms), minus one. The Coupon Amount may be subject to a minimum

III. GENERAL INFORMATION ON THE PROGRAMME

amount (as specified in the applicable Final Terms) and/or a maximum amount (as specified in the applicable Final Terms).

The Coupon Divisor may be different for each Coupon Observation Date, and the Coupon Divisor may be higher for later Coupon Observation Dates, which will result in a larger proportional reduction of Coupon Amounts for Coupon Payment Dates falling later in time.

On the Settlement Date, investors receive the Cash Amount, being an amount equal to the Specified Reference Level plus the Additional Amount (as specified in the applicable Final Terms). No Coupon Amount will be payable on the Settlement Date.

The Additional Amount depends on the performance of the Underlying or Basket (as specified in the applicable Final Terms) on the Valuation Date and on the number of Coupon Observation Dates.

The Additional Amount may be subject to a minimum amount (as specified in the applicable Final Terms) and/or a maximum amount (as specified in the applicable Final Terms).

Product No. C66: Parachute Certificate with Cap

The Parachute Certificate with Cap is linked to the performance of the Underlying. Investors participate in the price gains of the Underlying based on the Strike, taking into account the Participation Factor. If the Participation Factor is greater than 100 %, this participation is leveraged. Below the Parachute Threshold, investors participate in the price losses of the Underlying.

- a) If the Final Reference Level is equal to or greater than (as specified in the applicable Final Terms) the Cap, investors receive the Maximum Amount.
- b) If the Final Reference Level is less than or equal to (as specified in the applicable Final Terms) the Cap and at the same time equal to or greater than (as specified in the applicable Final Terms) the Strike, investors receive the Specified Reference Level multiplied by the difference of (i) the ratio of the Final Reference Level and Initial Reference Level and (ii) one, taking into account the Participation Factor.
- c) If the Final Reference Level is less than or equal to (as specified in the applicable Final Terms) the Strike but, greater than or equal to (as specified in the applicable Final Terms) the Parachute Threshold, investors receive the Specified Reference Level.
- d) If the Final Reference Level is less than or equal to (as specified in the applicable Final Terms) the Parachute Threshold, investors receive the Specified Reference Level multiplied by the ratio of the Final Reference Level to the Parachute Threshold. Investors thus participate in the negative performance of the Underlying based on the Parachute Threshold.

Investors limit their possible return to the Maximum Amount and may assert no further claims in relation to the Underlying (e.g. voting rights, dividends) in return for a hedge against limited price losses.

Product No. C67: Hybrid Express Certificate on Basket of Shares

A check will be performed for this Hybrid Express Certificate on each Observation Date, as to whether the Reference Level of each Basket Constituent of Underlying A on such date is above or equal to or above as specified in the Final Terms the Redemption Threshold of such Basket Constituent ("**Redemption Event**"). If so, the Certificate will be redeemed early at the relevant Cash Amount.

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the closing price of each Basket Constituent of Underlying A and on the Final Reference Level of Underlying B as follows:

- (a) if on the Valuation Date each Basket Constituent of Underlying A closes above or equal to or above its Strike, as specified in the Final Terms, investors will receive on the Settlement Date the specified Cash Amount, which is an amount equal to the Specified Reference Level plus the Additional Amount or
- (b) if on the Valuation Date at least one Basket Constituent of Underlying A closes below or equal to or below its Strike, as specified in the Final Terms and the Underlying B closes above or equal to or above its Barrier, as specified in the Final Terms, investors will receive on the Settlement Date the

III. GENERAL INFORMATION ON THE PROGRAMME

Cash Amount, which is an amount equal to the Specified Reference Level; or

- (c) if on the Valuation Date the provisions of (a) and (b) have not been satisfied and if Underlying B closes below or equal to its Barrier, as specified in the Final Terms, an amount equal to the product of (i) the Specified Reference Level and (ii) the quotient of the Final Reference Level of Underlying B divided by the Initial Reference Level of Underlying B.

Warrants

Classic Warrants

Product No. W1: Call Warrant and Discount Call Warrant

Investors can participate disproportionately (with leverage) in the positive development of the Underlying with this Call Warrant.

Conversely, investors also participate with leverage in the negative development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying is less than or equal to or less than (as specified in the applicable Final Terms) the Strike. On the Settlement Date, investors receive as the Cash Amount the product of the Multiplier and the amount by which the Final Reference Level exceeds the Strike. For a Discount Call Warrant, the Cash Amount is limited to the Maximum Amount. If the Final Reference Level is less than or equal to or less than (as specified in the applicable Final Terms) the Strike, investors will only receive the Minimum Amount.

Product No. W2: Put Warrant and Discount Put Warrant

Investors can participate disproportionately (with leverage) in the negative development of the Underlying with this Put Warrant.

Conversely, investors also participate with leverage in the positive development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike. On the Settlement Date, investors receive as the Cash Amount the product of the Multiplier and the amount by which the Final Reference Level falls below the Strike. For a Discount Put Warrant, the Cash Amount is limited to the Maximum Amount. If the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike, investors will only receive the Minimum Amount.

Turbo Knock Out Warrants

Product No. W3: Turbo (Knock Out) Call Warrant

Investors can participate disproportionately (with leverage) in the positive development of the Underlying with this Turbo Call Warrant.

Conversely, investors also participate with leverage in the negative development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period (Barrier Event). On the Settlement Date, investors receive as the Cash Amount the product of the Multiplier and the amount by which the Final Reference Level exceeds the Strike.

If the price of the Underlying falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, the term of the Knock Out Call Warrants ends immediately and investors receive only the Minimum Amount.

Product No. W4: Turbo (Knock Out) Call Warrant with Additional Barrier Determination X-DAX[®] Index

Investors can participate disproportionately (with leverage) in the positive development of the Underlying with this Turbo Call Warrant with Additional Barrier Determination X-DAX[®] Index.

Conversely, investors also participate with leverage in the negative development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying or X-DAX[®] Index falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period (Barrier Event). On the Settlement Date, investors receive as the Cash Amount the product of the Multiplier and the amount by which the Final Reference Level exceeds the Strike.

If at any time during the Observation Period, the price of the Underlying or level of the X-DAX[®] Index falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier, the term of

the Turbo Call Warrant with Additional Barrier Determination X-DAX[®] Index ends immediately and investors will only receive the Minimum Amount.

Product No. W5: Turbo (Knock Out) Put Warrant

With this Knock Out Put Warrant investors can participate disproportionately (with leverage) in the negative development of the Underlying with this Turbo Put Warrant.

Conversely, investors also participate with leverage in the positive development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period (Barrier Event). On the Settlement Date, investors receive as the Cash Amount the product of the Multiplier and the amount by which the Final Reference Level falls below the Strike.

If the Underlying exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, the term of the Knock Out Put Warrants ends immediately and investors receive only the Minimum Amount.

Product No. W6: Turbo (Knock Out) Put Warrant with Additional Barrier Determination X-DAX[®] Index

Investors can participate disproportionately (with leverage) in the negative development of the Underlying with this Turbo Put Warrant with Additional Barrier Determination X-DAX[®] Index.

Conversely, investors also participate with leverage in the positive development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying or X-DAX[®] Index exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period (Barrier Event). On the Settlement Date, investors receive as the Cash Amount the product of the Multiplier and the amount by which the Final Reference Level falls below the Strike.

If at any time during the Observation Period, the price of the Underlying or level of the X-DAX[®] Index exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier, the term of the Knock Out Put Warrant with Additional Barrier Determination X-DAX[®] Index ends immediately and investors will only receive the Minimum Amount.

Turbo Infini BEST (Knock Out Perpetual) Warrants

Product No. W7: Turbo Infini BEST (Knock Out Perpetual) Call Warrant

Investors can participate disproportionately (with leverage) in the positive development of the Underlying with this Turbo Infini BEST Call Warrant with no fixed settlement date.

Conversely, investors also participate with leverage in the negative development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period (Barrier Event).

If the price of the Underlying falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, the term of the Turbo Infini BEST Call Warrants ends immediately and investors receive only the Minimum Amount.

If no Barrier Event occurs, investors receive on the Settlement Date, after exercising the Security on an Exercise Date or termination by the Issuer effective on a Redemption Date, as Cash Amount the product of the Multiplier and the amount by which the Final Reference Level is greater than the Strike.

Due to lack of a fixed maturity, the product is designed in a way that the initially applicable Strike is adjusted daily to reflect a Financing Component incurred by the Issuer based on the respective market rates for borrowing.

In addition, if the Underlying is a share or a price index, upon payment of a cash dividend by the Underlying's issuer or, as the case may be, its Index-Sponsor, the Dividend Adjustment Date is an additional Adjustment Date, and the Strike will be reduced by the respective Dividend Factor, which

III. GENERAL INFORMATION ON THE PROGRAMME

takes into account the dividends paid less an adjustment amount for taxes and similar charges arising thereon.

If the Underlying is a future, any day on which a Replacement Event occurs is an additional Adjustment Date, and the Strike will be adjusted by the difference between the last Reference Level of the Underlying to be replaced and the determined Successor Future, if Rolling Costs are taken into account, less the Rolling Costs.

The Barrier is ultimately equivalent to the Strike applicable on such day.

<i>Product No. W8: Turbo Infini BEST (Knock Out Perpetual) Call Warrant with Additional Barrier Determination X-DAX[®] Index</i>
--

Investors can participate disproportionately (with leverage) in the positive development of the Underlying with this Turbo Infini BEST Call Warrant with Additional Barrier Determination X-DAX[®] Index and with no fixed settlement date.

Conversely, investors also participate with leverage in the negative development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying or X-DAX[®] Index falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period (Barrier Event).

If at any time during the Observation Period, the price of the Underlying or level of the X-DAX[®] Index falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier, the term of the Turbo Infini BEST Call Warrant with Additional Barrier Determination X-DAX[®] Index ends immediately and investors will only receive the Minimum Amount.

If no Barrier Event occurs, investors receive on the Settlement Date, after exercising the Security on an Exercise Date or termination by the Issuer effective on a Redemption Date, as Cash Amount the product of the Multiplier and the amount by which the Final Reference Level is greater than the Strike.

Due to lack of a fixed maturity, the product is designed in a way that the initially applicable Strike is adjusted daily to reflect a Financing Component incurred by the Issuer based on the respective market rates for borrowing.

<i>Product No. W9: Turbo Infini BEST (Knock Out Perpetual) Put Warrant</i>

Investors can participate disproportionately (with leverage) in the negative development of the Underlying with this Turbo Infini BEST Put Warrant with no fixed settlement date.

Conversely, investors also participate with leverage in the positive development of the Underlying and additionally bear the risk of receiving only the Minimum Amount if the Underlying exceeds or reaches or exceeds (as specified in the applicable Final Terms) the barrier at any time during the Observation Period (Barrier Event).

If the Underlying exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, the term of the Turbo Infini BEST Put Warrants ends immediately and investors receive only the Minimum Amount.

III. GENERAL INFORMATION ON THE PROGRAMME

If no Barrier Event occurs, investors receive on the Settlement Date, after exercising the Security on an Exercise Date or termination by the Issuer effective on a Redemption Date, as Cash Amount the product of the Multiplier and the amount by which the Final Reference Level is lower than the Strike.

Due to lack of a fixed maturity, the product is designed in a way that the initially applicable Strike is adjusted daily to reflect a Financing Component incurred by the Issuer based on the respective market rates for borrowing.

In addition, if the Underlying is a share or a price index, upon payment of a cash dividend by the Underlying's issuer or, as the case may be, its Index-Sponsor, the Dividend Adjustment Date is an additional Adjustment Date, and the Strike will be reduced by the respective Dividend Factor, which takes into account the dividends paid less an adjustment amount for taxes and similar charges arising thereon.

Turbo Infini (Knock Out Perpetual) Warrants

Product No. W11: Turbo Infini (Knock Out Perpetual) Call Warrant

Investors can participate disproportionately (with leverage) in the positive development of the Underlying with this Turbo Infini Call Warrant with no fixed settlement date.

Conversely, investors also participate with leverage in the negative development of the Underlying and additionally bear the risk of the Turbo Infini Call Warrant immediately expiring (Barrier Event) if the Underlying falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period. In such case, investors receive as the Cash Amount the product of the Multiplier and the amount by which the Stop Loss Reference Level specified by the Issuer exceeds the Strike. If, at the relevant time, the Underlying is equal to or lower than the Strike – which may be the case particularly with strong movement of the Underlying at the time of the Barrier Event – investors receive only the Minimum Amount.

If no Barrier Event occurs, investors receive on the Settlement Date, after exercising the Security on an Exercise Date or termination by the Issuer effective on a Redemption Date, as Cash Amount the product of the Multiplier and the amount by which the Final Reference Level is greater than the Strike.

Due to lack of a fixed maturity, the product is designed in a way that the initially applicable Strike is adjusted daily to reflect a Financing Component incurred by the Issuer based on the respective market rates for borrowing.

Finally, the initially applicable Barrier is also adjusted on each following Adjustment Date so that it is equal in each case to the sum of the relevant Strike and the Barrier Adjustment Amount. The Barrier Adjustment Amount on the other hand is the product of the applicable Strike and the Barrier Adjustment Factor, where the Issuer may, at its reasonable discretion, reset the latter on any Adjustment Date, with respect to its level on the Issue Date, in order to prevent the security from expiring with no value and without any payment after occurrence of a Barrier Event with the same probability as at its issue (taking into account the volatility and liquidity of the Underlying).

<i>Product No. W14: Turbo Infini (Knock Out Perpetual) Put Warrant with Additional Barrier Determination X-DAX[®] Index</i>

Investors can participate disproportionately (with leverage) in the negative development of the Underlying with this Turbo Infini Put Warrant with Additional Barrier Determination X-DAX[®] Index and with no fixed settlement date.

Conversely, investors also participate with leverage in the positive development of the Underlying and additionally bear the risk of the Turbo Infini Put Warrant with additional barrier determination X-DAX[®] Index immediately expiring (Barrier Event) if the Underlying or the X-DAX[®] Index exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period. In such case, investors receive as the Cash Amount the product of the Multiplier and the amount by which the Stop Loss Reference Level specified by the Issuer falls below the Strike. If, at the relevant time, the Underlying or X-DAX[®] Index is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike – which may be the case particularly with strong movement of the Underlying at the time of the Barrier Event – investors receive only the Minimum Amount.

If no Barrier Event occurs, investors receive on the Settlement Date, after exercising the Security on an Exercise Date or termination by the Issuer effective on a Redemption Date, as Cash Amount the product of the Multiplier and the amount by which the Final Reference Level is lower than the Strike.

Due to lack of a fixed maturity, the product is designed in a way that the initially applicable Strike is adjusted daily to reflect a Financing Component incurred by the Issuer based on the respective market rates for borrowing.

In addition, if the Underlying is a share or a price index, upon payment of a cash dividend by the Underlying's issuer or, as the case may be, its Index-Sponsor, the Dividend Adjustment Date is an additional Adjustment Date, and the Strike will be reduced by the respective Dividend Factor, which takes into account the dividends paid less an adjustment amount for taxes and similar charges arising thereon.

If the Underlying is a future, any day on which a Replacement Event occurs is an additional Adjustment Date, and the Strike will be adjusted by the difference between the last Reference Level of the Underlying to be replaced and the determined Successor Future, if Rolling Costs are taken into account, less the Rolling Costs.

Finally, the initially applicable Barrier is also adjusted on each following Adjustment Date so that it is equal in each case to the relevant Strike less the Barrier Adjustment Amount. The Barrier Adjustment Amount on the other hand is the product of the applicable Strike and the Barrier Adjustment Factor, where the Issuer may, at its reasonable discretion, reset the latter on any Adjustment Date, with respect to its level on the Issue Date, in order to prevent the security from expiring with no value and without any payment after occurrence of a Barrier Event with the same probability as at its issue (taking into account the volatility and liquidity of the Underlying).

One Touch Warrants

<i>Product No. W15: One Touch Single Barrier Call Warrant</i>
--

With this One Touch Single Barrier Call Warrant, investors receive a predetermined Cash Amount depending on the development of the Underlying during the term.

Conversely, they bear the risk of receiving only the Minimum Amount if no Knock In Event occurs.

III. GENERAL INFORMATION ON THE PROGRAMME

If the Barrier Determination Amount exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier (such event referred to as a "**Knock In Event**") at any time during the Observation Period, the One Touch Single Barrier Call Warrant will immediately expire and investors will receive the predetermined One Touch Amount.

If the Barrier Determination Amount has not exceeded or reached or exceeded (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, investors only receive the Minimum Amount.

Product No. W16: One Touch Single Barrier Put Warrant

With this One Touch Single Barrier Put Warrant, investors receive a predetermined Cash Amount depending on the development of the Underlying during the term.

Conversely, they bear the risk of receiving only the Minimum Amount if no Knock In Event occurs.

If the Barrier Determination Amount falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier (such event referred to as a "**Knock In Event**") at any time during the Observation Period, the One Touch Single Barrier Put Warrant will immediately expire and investors will receive the predetermined One Touch Amount.

If the Barrier Determination Amount has not fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, investors only receive the Minimum Amount.

Product No. W17: One Touch Dual Barrier Warrant

With this One Touch Dual Barrier Warrant, investors receive a predetermined Cash Amount depending on the development of the Underlying during the term.

Conversely, they bear the risk of receiving only the Minimum Amount if no Knock In Event occurs.

If the Barrier Determination Amount falls below or reaches or falls below (as specified in the applicable Final Terms) the Lower Barrier or exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Upper Barrier (such event referred to as a "**Knock In Event**") at any time during the Observation Period, the One Touch Dual Barrier Warrant will immediately expire and investors will receive the predetermined One Touch Amount.

If the Barrier Determination Amount does not fall below or reach or fall below (as specified in the applicable Final Terms) the Lower Barrier or exceed or reach or exceed (as specified in the applicable Final Terms) the Upper Barrier at any time during the Observation Period, investors only receive the Minimum Amount.

No Touch Warrants

Product No. W18: No Touch Single Barrier Call Warrant

With this No Touch Single Barrier Call Warrant, investors receive a predetermined Cash Amount depending on the development of the Underlying during the term.

Conversely, they bear the risk of receiving only the Minimum Amount if the Barrier Event occurs.

If the Barrier Determination Amount does not fall below or reach or fall below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, the Cash Amount is equal to the predetermined No Touch Amount.

If the Barrier Determination Amount falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier (such event referred to as a "**Barrier Event**") at any time during the Observation Period, the No Touch Single Barrier Call Warrant will immediately expire and investors will receive only the Minimum Amount.

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. W19: No Touch Single Barrier Put Warrant

With this No Touch Single Barrier Put Warrant, investors receive a predetermined Cash Amount depending on the development of the Underlying during the term.

Conversely, they bear the risk of receiving only the Minimum Amount if the Barrier Event occurs.

If the Barrier Determination Amount does not exceed or reach or exceed (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, the Cash Amount is equal to the predetermined No Touch Amount.

If the Barrier Determination Amount exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier (such event referred to as a "**Barrier Event**") at any time during the Observation Period, the No Touch Single Barrier Put Warrant will immediately expire and investors will receive only the Minimum Amount.

Product No. W20: Inline Warrant

With this Inline Warrant, investors receive a predetermined Cash Amount depending on the development of the Underlying during the term.

Conversely, they bear the risk of receiving only the Minimum Amount if the Barrier Event occurs.

If the Barrier Determination Amount does not fall below or reach or fall below (as specified in the applicable Final Terms) the predetermined Lower Barrier or exceed or reach or exceed (as specified in the applicable Final Terms) the predetermined Upper Barrier at any time during the Observation Period, the Cash Amount is equal to the predetermined No Touch Amount.

If the Barrier Determination Amount falls below or reaches or falls below (as specified in the applicable Final Terms) the predetermined Lower Barrier or exceeds or reaches or exceeds (as specified in the applicable Final Terms) the predetermined Upper Barrier (such event a "**Barrier Event**") at any time during the Observation Period, the Inline Warrant will immediately expire and investors will receive only the Minimum Amount.

Digital Warrants

Product No. W21: Digital Call Warrant

With this Digital Call Warrant, investors receive a predetermined Cash Amount depending on the development of the Underlying during the term.

Conversely, they bear the risk of receiving only the Minimum Amount.

If the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Barrier, the Cash Amount is equal to the predetermined Digital Amount.

If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier, investors will only receive the Minimum Amount.

Product No. W22: Digital Put Warrant

With this Digital Put Warrant, investors receive a predetermined Cash Amount depending on the development of the Underlying during the term.

Conversely, they bear the risk of receiving only the Minimum Amount.

If the Final Reference Level is equal to or lower than the Barrier, the Cash Amount is equal to the predetermined Digital Amount.

If the Final Reference Level is above the Barrier, investors will only receive the Minimum Amount.

Other Warrants

Product No. W23: Down and Out Put Barrier Warrant

Investors can participate disproportionately (with leverage) in the negative development of the Underlying with this Down and Out Put Barrier Warrant.

Conversely, investors bear the risk of only receiving the Minimum Amount if the Barrier Determination Amount falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period or the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike.

If the Barrier Determination Amount falls below or reaches or falls below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, the term of the Down and Out Put Barrier Warrant ends immediately and investors will only receive the Minimum Amount.

If the Barrier Determination Amount does not fall below or reach or fall below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, but the Final Reference Level is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike, investors likewise receive only the Minimum Amount.

If, on the other hand, the Barrier Determination Amount does not reach or fall below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period and the Final Reference Level is below the Strike, the Cash Amount is equal to the product of the Multiplier and the amount by which the Final Reference Level is below the Strike.

Product No. W24: Up and Out Call Barrier Warrant

Investors can participate disproportionately (with leverage) in the positive development of the Underlying with this Up and Out Call Barrier Warrant.

Conversely, investors bear the risk of only receiving the Minimum Amount if the Barrier Determination Amount exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period or the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Strike.

If the Barrier Determination Amount exceeds or reaches or exceeds (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, the term of the Up and Out Call Barrier Warrant ends immediately and investors will only receive the Minimum Amount.

If the Barrier Determination Amount does not exceed or reach or exceed (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period, but the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Strike, investors likewise receive only the Minimum Amount.

If, on the other hand, the Barrier Determination Amount does not exceed or reach or exceed (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period and the Final Reference Level is greater than the Strike, the Cash Amount is equal to the product of the Multiplier and the amount by which the Final Reference Level exceeds the Strike.

Product No. W25: Lock-In Warrant

The Lock-In Warrant is linked to the performance of the Underlying. The product works as follows:

Redemption at maturity

Investors can participate disproportionately (with leverage) in the positive development of the Underlying with this Lock-In Warrant. Conversely, investors also participate with leverage in the negative development of the Underlying and additionally bear the risk of a total loss of capital invested if the Final Reference Level is equal to or less than or less than the Strike (as specified in the applicable Final Terms).

III. GENERAL INFORMATION ON THE PROGRAMME

On each Observation Date, the performance since the Initial Valuation Date is determined. Positive performance is taken into account to an unlimited extent and is locked-in in steps - the Locked Performance is the highest step achieved by the greatest Performance Factor observed across all the Observation Dates.

On the Settlement Date, investors receive as the Cash Amount the product of (a) the Multiplier, (b) the amount by which the Final Reference Level (taking into account the Locked Performance) exceeds the Strike and (c) the Participation Factor. Due to the lock-in feature of this Warrant, the Final Reference Level may be higher than the Reference Level of the Underlying on the Valuation Date.

Product No. W26: Top Rank Warrant
--

This Top Rank Warrant is either capital protected at maturity (to the extent specified in the applicable Final Terms) or not capital protected as specified in the applicable Final Terms. Capital protection means that redemption at maturity is promised at the percentage of the Specified Reference Level specified in the applicable Final Terms. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

The Top Rank Warrant is linked to the performance of the Basket Constituents. The product works as follows:

Redemption at maturity

Investors can participate disproportionately (with leverage) in the positive development of the Underlying with this Top Rank Warrant. Conversely, investors also participate with leverage in the negative development of the Underlying and additionally bear the risk of a total loss of capital invested if Average Performance is below or equal to or below (as specified in the applicable Final Terms) zero.

Investors will receive a Cash Amount on the Settlement Date which depends on the performance of the Worst Performing Basket Constituents on the Valuation Dates (with or without capital protection as specified in the Product Terms) as follows:

Investors will receive an amount equal to the product of (i) the Specified Reference Level; (ii) the Participation Factor; and (iii) the higher of (a) the sum of the performance of a specified number of bottom ranking Basket Constituents plus a Fixed Rate of interest multiplied a Multiplier specified in the Product Terms; and (b) either zero or a percentage of the Specified Reference Level (if capital protection is specified in the Product Terms).

Notes

Reverse Convertible Notes

Product No. N1: Reverse Convertible Note (Physical Delivery)

The Reverse Convertible Note is linked to the performance of the Underlying. The way this Note works results from two key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Redemption at maturity

- a) On the Settlement Date investors receive the Nominal Amount if the Final Reference Level is equal to or above the Strike.
- b) If the Final Reference Level is lower than the Strike, investors receive the proportion of the Underlying based on the Multiplier or, as the case may be, assets specified as the Physical Delivery Amount and therefore participate 1:1 in the performance of the Underlying based on the Strike. Fractional amounts are not delivered, but are paid out in the form of a corresponding cash payment in the Settlement Currency for each Reverse Convertible Note.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N2: Reverse Convertible Note (Cash Settlement)

The Reverse Convertible Note is linked to the performance of the Underlying. The way this Note works results from two key features:

1. Coupon payments

The Note, as specified in the applicable Final Terms, (a) is fixed-rate and pays a fixed Coupon on each Coupon Payment Date; or (b) is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date; or (c) pays a fixed Coupon on each Coupon Payment Date for a set number of Coupon Periods (as specified in the applicable Final Terms) and in the subsequent Coupon Periods investors receive variable Coupon Payments on each Coupon Payment Date. The amount of any variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon and/or a maximum of the Maximum Coupon .

2. Redemption at maturity

- a) On the Settlement Date investors receive the Nominal Amount if the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Strike.
- b) If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Strike, investors receive a Cash Amount equal to the Final Reference Level taking into account the Multiplier, and participate 1:1 in the performance of the Underlying based on the Strike.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. N3: Barrier Reverse Convertible Note (Physical Delivery)

The Barrier Reverse Convertible Note is linked to the performance of the Underlying. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the price or level of the Underlying is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike. If it is, the Note will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date, investors receive the Nominal Amount if the Final Reference Level is above or at or above (as specified in the applicable Final Terms) the Strike or if the Final Reference Level is lower than or lower than or equal to (as specified in the applicable Final Terms) the Strike, but the Underlying has not fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier at any time during the term.
- b) If the Final Reference Level is lower than or lower than or equal to (as specified in the applicable Final Terms) the Strike and the Underlying has fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the term, investors receive the Underlying based on the Multiplier or, as the case may be, assets specified as the Physical Delivery Amount and therefore participate 1:1 in the performance of the Underlying based on the Strike. Fractional amounts are not delivered, but are paid out in the form of a corresponding cash payment in the Settlement Currency for each Barrier Reverse Convertible Note.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N4: Barrier Reverse Convertible Note (Cash Settlement)

The Barrier Reverse Convertible Note is linked to the performance of the Underlying. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

III. GENERAL INFORMATION ON THE PROGRAMME

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the price or level of the Underlying is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike. If it is, the Note will be redeemed early at a specified percentage of the Nominal Amount as specified in the Final Terms.

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date, investors receive the Nominal Amount if the Final Reference Level is above or at or above (as specified in the applicable Final Terms) the Strike or if the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Strike, but the Underlying has not fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier at any time during the term.
- b) If the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Strike and the Underlying has fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the term, investors receive a Cash Amount equal to the Final Reference Level taking into account the Multiplier, and thus participate 1:1 in the performance of the Underlying based on the Strike.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N5: Barrier Reverse Convertible Worst of Basket Note (Physical Delivery)

The Barrier Reverse Convertible Worst of Basket Note is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the price or level of every Basket Constituent is greater than or equal to or greater than (as specified in the applicable Final Terms) the respective Strike. If it is, the Note will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date, investors receive the Nominal Amount if the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the respective Strike or if the Final Reference Level of at least one Basket Constituent is lower than or equal to or lower (as specified in the applicable Final Terms) than the respective Strike, but no Basket Constituent has fallen below or reached or fallen below (as specified in the applicable Final Terms) the respective Barrier at any time during the term.
- b) If the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) the respective Strike and at least one Basket Constituent has traded below or at or below (as specified in the applicable Final Terms) the respective Barrier at least once during the term, investors either receive, based on the Multiplier, the Basket Constituent which, based on the respective Strike at maturity of the Note,

III. GENERAL INFORMATION ON THE PROGRAMME

has the worst performance of all Basket Constituents or receive the assets specified as the Physical Delivery Amount; thus investors participate 1:1 in the performance of this Basket Constituent based on the Strike of this Basket Constituent. Fractional amounts are not delivered, but are paid out in the form of a corresponding cash payment in the Settlement Currency for each Barrier Reverse Convertible Worst of Basket Note.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N6: Barrier Reverse Convertible Worst of Basket Note (Cash Settlement)

The Barrier Reverse Convertible Worst of Basket Note is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the price or level of every Basket Constituent is greater than or equal to or greater than (as specified in the applicable Final Terms) the respective Strike. If it is, the Note will be redeemed at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date, investors receive the Nominal Amount if the Final Reference Level of every Basket Constituent is below or at or below (as specified in the applicable Final Terms) the respective Strike or if the Final Reference Level of at least one Basket Constituent is lower than or equal to or lower than (as specified in the applicable Final Terms) the respective Strike, but no Basket Constituent has fallen below or reached or fallen below (as specified in the applicable Final Terms) the respective Barrier during the term.
- b) If the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) the respective Strike and at least one Basket Constituent has traded below or at or below (as specified in the applicable Final Terms) the respective Barrier at least once during the term, investors receive, based on the Multiplier, a Cash Amount equal to the Final Reference Level of the Basket Constituent which, based on the respective Strike at maturity of the Note, has the worst performance of all Basket Constituents and participate 1:1 in the performance of this Basket Constituent.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N7: Barrier Reverse Convertible Worst of Basket Note with Participation (Physical Delivery)

The Barrier Reverse Convertible Worst of Basket Note with Participation is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive

III. GENERAL INFORMATION ON THE PROGRAMME

variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Redemption at maturity

- a) If none of the Basket Constituents has traded below or at or below (as specified in the applicable Final Terms) the respective Barrier during the term, investors receive a Cash Amount on the Settlement Date, the level of which depends on the average performance of the Basket Constituents (1:1 participation). However investors will receive at least the Nominal Amount.
- b) If the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the respective Strike, but at least one Basket Constituent has traded below or at or below (as specified in the applicable Final Terms) the respective Barrier during the term, investors receive the Nominal Amount.
- c) If the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) the respective Strike and at least one Basket Constituent has traded below or at or below (as specified in the applicable Final Terms) the respective Barrier at least once during the term, investors either receive, based on the Multiplier, the Basket Constituent which, based on the respective Strike at maturity of the Note, has the worst performance of all Basket Constituents or receive the assets specified as the Physical Delivery Amount; thus investors participate 1:1 in the performance of this Basket Constituent based on the Strike of this Basket Constituent. Fractional amounts are not delivered, but are paid out in the form of a corresponding cash payment in the Settlement Currency for each Barrier Reverse Convertible Worst of Basket Note with Participation.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

<i>Product No. N8: Barrier Reverse Convertible Worst of Basket Note with Participation (Cash Settlement)</i>

The Barrier Reverse Convertible Worst of Basket Note with Participation is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Redemption at maturity

- a) If none of the Basket Constituents has traded below or at or below (as specified in the applicable Final Terms) the respective Barrier during the term, investors receive a Cash Amount on the Settlement Date, the level of which depends on the average performance of the Basket Constituents (1:1 participation). However investors will receive at least the Nominal Amount.
- b) If the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the respective Strike, but at least one Basket Constituent has

traded below or at or below (as specified in the applicable Final Terms) the respective Barrier during the term, investors receive the Nominal Amount.

- c) If the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) the respective Strike and at least one Basket Constituent has traded below or at or below (as specified in the applicable Final Terms) the respective Barrier at least once during the term, investors receive, based on the Multiplier, a Cash Amount equal to the Final Reference Level of the Basket Constituent which, based on the respective Strike at maturity of the Note, has the worst performance of all Basket Constituents; thus investors participate 1:1 in the performance of this Basket Constituent.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N9: Barrier Pro Reverse Convertible Note (Physical Delivery)

The Barrier Pro Reverse Convertible Note is linked to the performance of the Underlying. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the price or level of the Underlying is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike. If it is, the Note will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date, investors receive the Nominal Amount if the Final Reference Level is above or at or above (as specified in the applicable Final Terms) the Strike or if the Final Reference Level is lower than or lower than or equal to (as specified in the applicable Final Terms) the Strike, but the Underlying has not reached or reached or fallen below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period.
- b) If the Final Reference Level is lower than or lower than or equal to (as specified in the applicable Final Terms) the Strike and the Underlying has fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the Observation Period, investors receive the Underlying based on the Multiplier or, as the case may be, assets specified as the Physical Delivery Amount and therefore participate 1:1 in the performance of the Underlying based on the Strike. Fractional amounts are not delivered, but are paid out in the form of a corresponding cash payment in the Settlement Currency for each Barrier Pro Reverse Convertible Note.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N10: Barrier Pro Reverse Convertible Note (Cash Settlement)

The Barrier Pro Reverse Convertible Note is linked to the performance of the Underlying. The way this Note works results from the following key features:

III. GENERAL INFORMATION ON THE PROGRAMME

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the price or level of the Underlying is greater than or equal to or greater than the Strike (as specified in the applicable Final Terms). If it is, the Note will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date, investors receive the Nominal Amount if the Final Reference Level is above or at or above (as specified in the applicable Final Terms) the Strike or if the Final Reference Level is lower than or lower than or equal to (as specified in the applicable Final Terms) the Strike, but the Underlying has not fallen below or reached or fallen below (as specified in the applicable Final Terms) the Barrier at any time during the Observation Period.
- b) If the Final Reference Level is lower than or lower than or equal to (as specified in the applicable Final Terms) the Strike and the Underlying has reached or reached or fallen below (as specified in the applicable Final Terms) the Barrier on at least one occasion during the Observation Period, investors receive a Cash Amount equal to the Final Reference Level taking into account the Multiplier, and thus participate 1:1 in the performance of the Underlying based on the Strike.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N11: Barrier Pro Reverse Convertible Worst of Basket Note (Physical Delivery)
--

The Barrier Pro Reverse Convertible Worst of Basket Note is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this note on each Observation Date, as to whether the price or level of every Basket Constituent is greater than or equal to or greater than (as specified in the applicable Final Terms) the respective Strike. If it is, the Note will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal

Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date, investors receive the Nominal Amount if the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the respective Strike or if the Final Reference Level of at least one Basket Constituent is lower than or lower than or equal to (as specified in the applicable Final Terms) the respective Strike, but no Basket Constituent has fallen below or reached or fallen below (as specified in the applicable Final Terms) the respective Barrier at any time during the Observation Period.
- b) If the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) the respective Strike and at least one Basket Constituent has traded below or at or below (as specified in the applicable Final Terms) the respective Barrier at least once during the Observation Period, investors either receive, based on the Multiplier, the Basket Constituent which, based on the respective Strike at maturity of the Note, has the worst performance of all Basket Constituents or receive the assets specified as the Physical Delivery Amount; thus investors participate 1:1 in the performance of this Basket Constituent based on the Strike of this Basket Constituent. Fractional amounts are not delivered, but are paid out in the form of a corresponding cash payment in the Settlement Currency for each Barrier Pro Reverse Convertible Worst of Basket Note.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

The Barrier Pro Reverse Convertible Worst of Basket Note is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the price or level of every Basket Constituent is greater than or equal to or greater than (as specified in the applicable Final Terms) the respective Strike. If it is, the Note will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date, investors receive the Nominal Amount if the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the respective Strike or if the Final Reference Level of at least one Basket Constituent is lower than or lower than or equal to (as specified in the applicable Final Terms) the respective Strike, but no Basket Constituent has fallen below or reached or fallen below (as specified in the applicable Final Terms) the respective Barrier at any time during the Observation Period.
- b) If the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) the respective Strike and at least one Basket

Constituent has traded below or at or below (as specified in the applicable Final Terms) the respective Barrier at least once during the Observation Period, investors receive, based on the Multiplier, a Cash Amount equal to the Final Reference Level of the Basket Constituent which, based on the respective Strike at maturity of the Note, has the worst performance of all Basket Constituents and participate 1:1 in the performance of this Basket Constituent.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N13: Easy Reverse Convertible Note (Physical Delivery)

The Easy Reverse Convertible Note is linked to the performance of the Underlying. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the price or level of the Underlying is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike. If it is, the Note will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date investors receive the Nominal Amount if the Final Reference Level is above the Barrier.
- b) If the Final Reference Level is lower than or equal to or lower than (as specified in the applicable Final Terms) the Barrier, investors receive the Underlying based on the Multiplier or, as the case may be, assets specified as the Physical Delivery Amount and therefore participate 1:1 in the performance of the Underlying based on the Strike. Fractional amounts are not delivered, but are paid out in the form of a corresponding cash payment in the Settlement Currency for each Easy Reverse Convertible Note.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N16: Easy Reverse Convertible Worst of Basket Note (Cash Settlement)

The Easy Reverse Convertible Worst of Basket Note is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon on the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the price or level of every Basket Constituent is equal to or equal to or greater than (as specified in the applicable Final Terms) the respective Strike. If it is, the Note will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date investors receive the Nominal Amount if the Final Reference Level of every Basket Constituent is above or above or equal to (as specified in the applicable Final Terms) the respective Barrier.
- b) If the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) the respective Barrier, investors receive, based on the Multiplier, a Cash Amount equal to the Final Reference Level of the Basket Constituent which, based on the respective Strike at maturity of the Note, has the worst performance of all Basket Constituents and participate 1:1 in the performance of this Basket Constituent.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N17: Worst of Basket Autocallable Note

The Worst of Basket Autocallable Note is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Coupon Amount payable on a Coupon Payment Date depends on the Relevant Reference Level Value of the Basket Constituents on the immediately preceding Coupon Observation Date.

- a) If no Coupon Barrier Event in respect of any Basket Constituent has occurred on a Coupon Observation Date, investors will receive the Coupon Amount equal to a specified percentage of the Nominal Amount (Coupon Payment) at the next Coupon Payment Date (where, if specified in the Final Terms, such percentage may be different for each Coupon Payment Date),
- b) If a Coupon Barrier Event in respect of any Basket Constituent has occurred on a Coupon Observation Date, the Coupon Amount will be zero and no Coupon Payment will be made at the next Coupon Payment Date, or (if specified in the applicable Final Terms) investors will receive the Coupon Amount equal to a specified percentage of the Nominal Amount (Lower

III. GENERAL INFORMATION ON THE PROGRAMME

Coupon Payment) at the next Coupon Payment Date (where, if specified in the Final Terms, such percentage may be different for each Coupon Payment Date).

A Coupon Barrier Event will occur on a Coupon Observation Date if the Relevant Reference Level Value of at least one Basket Constituent on such Coupon Observation Date is below or at or below (as specified in the applicable Final Terms) the Coupon Threshold of such Basket Constituent.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the Relevant Reference Level Value of every Basket Constituent is greater than or equal to or greater than (as specified in the applicable Final Terms) the Redemption Threshold of the respective Basket Constituent. If it is, the Notes will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date investors receive the Nominal Amount if the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the Barrier of the respective Basket Constituent, or
- b) if the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) its Barrier, investors receive a Cash Amount equal to the product of (i) the Nominal Amount and (ii) the quotient of the Final Reference Level of the worst performing Basket Constituent divided by its Initial Reference Level. The Performance of a Basket Constituent is determined as the quotient of (A) the difference between its Final Reference Level and its Initial Reference Level, and (B) its Initial Reference Level.

Product No. N18: Worst of Basket Callable Note

The Worst of Basket Callable Note is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Coupon Amount payable on a Coupon Payment Date depends on the Relevant Reference Level Value of the Basket Constituents during Coupon Observation Period and on the Coupon Period Reference Date corresponding to such Coupon Observation Period.

In respect of a Coupon Observation Period and the Coupon Period Reference Date corresponding to such Coupon Observation Period:

- a) If no Coupon Barrier Event has occurred, investors will receive the Coupon Amount equal to a specified percentage of the Nominal Amount (Coupon Payment) at the next Coupon Payment Date,
- b) If a Coupon Barrier Event has occurred, the Coupon Amount will be zero and no Coupon Payment will be made at the next Coupon Payment Date.

In respect of a Basket Constituent, each Coupon Observation Date falling in a Coupon Observation Period and the Coupon Period Reference Date corresponding to such Coupon Observation Period, a Coupon Barrier Event will occur if either (i) the price, level or value of such Basket Constituent at any time on such Coupon Observation Date or at any time on such Coupon Period Reference Date, or (ii) the closing price, closing level or closing value of such Basket Constituent on such Coupon Observation Date or on such Coupon Period Reference Date, as specified in the Final Terms, is below or at or below (as specified in the applicable Final Terms) the Coupon Threshold in respect of such Basket Constituent.

2. Redemption Right of Issuer

If the applicable Final Terms specify Redemption Right of Issuer applies, the Issuer may by giving notice to holders redeem the Notes on each Coupon Payment Date. If the Issuer exercises its right to do so, the

III. GENERAL INFORMATION ON THE PROGRAMME

Notes will be redeemed early at a specified percentage of the Nominal Amount on the relevant Coupon Payment Date (Redemption Date), which shall be payable together with the Coupon Amount (if any).

If the Securities are redeemed pursuant to an exercise of the Redemption Right of the Issuer, the Coupon Amount will be payable on the Coupon Payment Date falling on the Redemption Date (and no further Coupon Amount will be payable for any Coupon Payment Dates falling after such Redemption Date).

3. Redemption at maturity, subject to redemption right of Issuer if this is specified in the applicable Final Terms

a) On the Settlement Date investors receive the Nominal Amount if the Barrier Determination Amount of every Basket Constituent on each Observation Date during the Observation Period and on the Valuation Date is above or at or above (as specified in the applicable Final Terms) the respective Barrier, or

b) if the Barrier Determination Amount of at least one Basket Constituent on any Observation Date during the Observation Period or on the Valuation Date is below or at or below (as specified in the applicable Final Terms) the respective Barrier, investors receive a Cash Amount equal to the product of (i) the Nominal Amount and (ii) the lesser of (A) one and (B) the quotient of the Final Reference Level of the worst performing Basket Constituent divided by its Initial Reference Level.

The Performance of a Basket Constituent is determined as the quotient of (i) its Final Reference Level and (ii) its Initial Reference Level.

Other Notes

Product No. N19: Conditional Coupon Note

The Conditional Coupon Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

The payment of a coupon on a Coupon Payment Date depends on the Relevant Reference Level Value of the Underlying on a Coupon Observation Date.

a) If the Relevant Reference Level Value of the Underlying or the constituents of the Underlying is above, below or equal to (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, a Coupon Payment will be made on the next Coupon Payment Date,

b) If the Relevant Reference Level Value of the Underlying or the constituents of the Underlying is not above, below or equal to (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, no Coupon Payment will be made on the next Coupon Payment Date.

Product No. N20: Step Up Note

This Step Up Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive a Coupon Payment on the Coupon Payment Date or on the Coupon Payment Dates.

Product No. N21: Fixed Rate Interest Note

The Fixed Rate Interest Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive a Coupon Payment on the Coupon Payment Date or on the Coupon Payment Dates.

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. N22: Fixed Rate Interest Plus Note

The Fixed Rate Interest Plus Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations. Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date.

The level of the Interest Rate will be at least equal to the Minimum Coupon. The Coupon can rise to the Bonus Coupon if the Underlying is above or at or above (as specified in the applicable Final Terms) the Bonus Coupon Threshold before the start of the Coupon Period. Investors would not participate in any further increase.

In return for limiting their payment to the Bonus Coupon, investors receive a coupon in the amount of the minimum coupon rate, even if the Underlying is lower than this.

Product No. N23: Fix to Floating Note

The Fix to Floating Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date. The Fix to Floating Note has a fixed Interest Rate for a set number of Coupon Periods specified in the Final Terms. In the subsequent Coupon Periods, the Interest Rate is dependent on the performance of the Underlying. The Interest Rate will be between a Minimum Coupon and a Maximum Coupon.

In return for limiting their payment to the Maximum Coupon, investors receive a Coupon in the amount of the Minimum Coupon, even if the Underlying is lower than this.

Product No. N24: Fix to Floating Pure Note

The Fix to Floating Pure Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date. The level of the Interest Rate depends on the performance of the Underlying.

Product No. N25: Fix to Floating Money Market Note

The Fix to Floating Money Market Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date. The level of the Interest Rate corresponds to the multiple of the Underlying specified in the applicable Final Terms. However, the Interest Rate determined at the respective Coupon Payment Date is limited to the Maximum Coupon. Investors would not participate in any further increase.

Product No. N26: Floater Note

The Floater Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date. The level of the Interest Rate is dependent on the Relevant Reference Level Value of the Underlying on the relevant Valuation Date and is calculated using a pre-determined multiplier. The Interest Rate will be

III. GENERAL INFORMATION ON THE PROGRAMME

between a Minimum Coupon and a Maximum Coupon. This means that participation in any positive development of the Underlying on Valuation Dates is limited to the Maximum Coupon.

Product No. N27: Inflation-Indexed Note

The Inflation-Indexed Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date. The level of the Interest Rate on the first Coupon Payment Date is determined prior to the issue and, on further Coupon Payment Dates, is dependent on the Relevant Reference Level Value of the Underlying on the relevant Coupon Determination Date and is calculated by multiplying the performance with a pre-defined Participation Factor, plus or, as the case may be, minus, a Margin of a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Interest Rate will, however, be a minimum of the Minimum Coupon.

Product No. N28: Coupon Lock In Note

The Coupon Lock In Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations. Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date.

The level of the Interest Rate corresponds to the multiple specified in the applicable Final Terms of a Reference Level of the Underlying determined a certain number of business days in advance of the respective Coupon Period as specified in the applicable Final Terms, but at least the Minimum Coupon. If the Interest Rate calculated for a Coupon Period is greater than or equal to or greater than (as specified in the applicable Final Terms) a percentage specified in the applicable Final Terms, the Interest Rate for this and all subsequent Coupon Periods will be equal to a percentage also specified in the applicable Final Terms. Investors would not participate in any further increase.

Product No. N29: Rolling Lock In plus Note

The Rolling Lock In plus Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

With the Rolling Lock In plus Note, investors can participate in the monthly performance of the Underlying. On each monthly Valuation Date, the performance since the immediately preceding Valuation Date is determined. Negative performance is always taken into account to an unlimited extent. Positive performance is taken into account to a maximum of a percentage specified in the Final Terms if the Reference Level was above the Initial Reference Level on the immediately preceding Valuation Date. Otherwise, positive performance is taken into account to an unlimited extent.

The performance determined in this way is multiplied by the performance from all preceding Valuation Dates. If the Relevant Performance determined in this way for a Valuation Date is above or equal to or above (as specified in the applicable Final Terms) the next Lock In Step in the series of Lock In Steps, then the Minimum Amount at maturity is equal to this Lock In Step that has been reached.

The Cash Amount at maturity is equal to:

- a) the Nominal Amount or, if higher,
- b) the Minimum Amount determined on the basis of the Lock In Step reached, or, if higher,

III. GENERAL INFORMATION ON THE PROGRAMME

- c) the amount determined on the basis of the product of the performance determined on the monthly Valuation Dates.

Product No. N30: ZinsPlus Note

The ZinsPlus Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date which are linked to the performance of the individual shares contained in a basket of shares which serves as the Underlying. The Interest Rate will be between a Minimum Coupon and a Maximum Coupon. The amount of interest is dependent on the performance of each constituent of the underlying basket of shares. The Coupon Payment is calculated as the arithmetic mean of the performance of each share in the basket, with individual share performance capped automatically at the Maximum Coupon, in the event that there has been no change or only positive development in the closing price of each share on the relevant Observation Date as against the Initial Reference Level ("**ZinsPlus**"). By contrast, for shares whose closing price has fallen below the Initial Reference Level on the relevant Observation Date, their full negative performance is taken into account in the calculation of average performance. In the event that the calculated average performance of the total share basket produces a figure below the Minimum Coupon, the Minimum Coupon is paid out.

For above average coupon payments, investors limit their opportunity to participate in the performance of the share basket to the Maximum Coupon.

Product No. N31: Currency Note

The Currency Note is linked to the performance of the Underlying. The way this note works results from two key features:

1. Coupon payments

The Currency Note is, as specified in the applicable Final Terms, either fixed-rate and pays a fixed Coupon at the Coupon Payment Date or on the Coupon Payment Dates or it is variable-rate and investors receive variable Coupon Payments at each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these Coupon Payments depends on the performance of the Underlying. The level of the Interest Rate is determined on a Coupon Observation Date by adjusting a pre-determined Interest Rate to the performance of the Underlying since the Currency Note was issued. If the Relevant Reference Level Value of the Underlying on a Coupon Observation Date is below its Initial Reference Level, the Interest Rate for the relevant Coupon Period will be greater than the pre-determined Interest Rate. By contrast, if the Relevant Reference Level Value of the Underlying is below its Initial Reference Level on a Coupon Observation Date, the Interest Rate for the relevant Coupon Period will be lower than the pre-specified Interest Rate. If the Relevant Reference Level Value of the Underlying on a Coupon Observation Date is equal to its Initial Reference Level, the Interest Rate for the relevant Coupon Period will be equal to the pre-determined Interest Rate.

2. Redemption at maturity

Investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying. If the Final Reference Level for the Underlying is lower than its Initial Reference Level, investors receive a Cash Amount for each Currency Note that is greater than the Nominal Amount. However, if the Final Reference Level for the Underlying is greater than its Initial Reference Level, the Cash Amount will be lower than the Nominal Amount. If the Final Reference Level for the Underlying is equal to its Initial Reference Level, the Cash Amount will equal the Nominal Amount.

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. N32: Autocallable Note (with instalment redemption)

The Autocallable Note (with instalment redemption) is linked to the performance of the Basket Constituents. The way this note works results from two key features:

1. Redemption in instalments

The Note will be partially redeemed in respect of a portion of the Nominal Amount by payment of the Instalment Cash Amount on the Instalment Settlement Date. Additionally, investors will receive a Coupon Amount calculated on the basis of the portion of the Nominal Amount due on this date.

Subject to an early redemption, as specified below and in the applicable Final Terms, the Notes are redeemed at maturity:

If the Final Reference Level of any Basket Constituent is less than or less than or equal to (as specified in the applicable Final Terms) the relevant Barrier, investors receive an amount equal to the product of the portion of the Nominal Amount that was not already redeemed on the Instalment Settlement Date and the Performance of the Basket Constituent with the lowest Performance. If the Final Reference Level of all Basket Constituents is greater than or equal to or greater than (as specified in the applicable Final Terms) the relevant Barrier, the investors receive the portion of the Nominal Amount that was not already redeemed on the Instalment Settlement Date.

2. Early redemption

A check will be performed for this Autocallable Note (with instalment redemption) on each Observation Date, as to whether the price or level of each of the Basket Constituents is above or at or above (as specified in the applicable Final Terms) the respective Strike. If the price or level of all of the Basket Constituents is above or at or above (as specified in the applicable Final Terms) the respective Strike the Note will be redeemed early at the Final Cash Amount.

Product No. N33: Stability Note

The Stability Note is linked to the performance of the Underlying. The way this note works results from two key features:

1. Coupon payments

The Note is variable-rate and investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of these variable Coupon Payments depends on the performance of a Reference Rate, plus, or, as the case may be, minus a Margin equal to a predetermined percentage, if specified in the applicable Final Terms. If however, on any Observation Date during any Coupon Period the Daily Performance Level of the Underlying is lower than a certain threshold, as specified in the applicable Final Terms, such Coupon Period shall end on (but exclude) such Observation Date and such Coupon Period shall be the Final Coupon Period and there shall be no further Coupon Periods.

2. Redemption at maturity

Investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying during the term of the Notes. If on any Observation Date during the term of the Notes the Daily Performance Level of the Underlying is lower than a certain threshold, as specified in the applicable Final Terms, investors receive a Cash Amount calculated in accordance with the formula mentioned in the applicable Final Terms, subject to a minimum of zero and a maximum of the Nominal Amount. Otherwise investors receive a Cash Amount equal to the Nominal Amount.

Product No. N34: Digital Variable Coupon Note

The Digital Variable Coupon Note is 100% (or such other percentage as specified in the applicable Final Terms) capital protected at maturity or, if specified in the applicable Final Terms, will pay an amount equal to equal to the Specified Reference Level on maturity, which amount may be less than the capital invested. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but

III. GENERAL INFORMATION ON THE PROGRAMME

solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Whether a coupon is paid on a Coupon Payment Date, and the amount of such coupon, depends on the Relevant Reference Level Value of the Underlying or the Basket Constituents or the Reference Level of the Basket (as specified in the applicable Final Terms), on the Coupon Observation Date falling immediately prior to such Coupon Payment Date.

- a) If the Relevant Reference Level Value of the Underlying or each Basket Constituent or the Reference Level of the Basket (as specified in the applicable Final Terms) is above, or above or equal to, or below, or below or equal to (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, a Coupon Payment will be made on the next Coupon Payment Date,
- b) If the Relevant Reference Level Value of the Underlying or one or more Basket Constituents or the Reference Level of the Basket (as specified in the applicable Final Terms) is not above, or above or equal to, or below, or below or equal to (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, no Coupon Payment will be made on the next Coupon Payment Date.

If a Coupon Payment is to be made on a Coupon Payment Date, the amount of such Coupon Payment depends on the performance of the Underlying or Basket (as specified in the applicable Final Terms) on the Coupon Observation Date falling immediately prior to such Coupon Payment Date and whether such Coupon Observation Date falls earlier or later in the term of the Digital Variable Coupon Note. The amount of the Coupon Payment on a Coupon Payment Date will be calculated as (a) the Nominal Amount, multiplied by (b) the Participation Factor, multiplied by (c) one divided by the Coupon Divisor, and further multiplied by (d) the difference between (x) the Relevant Reference Level Value of the Underlying or the Reference Level of the Basket (as specified in the applicable Final Terms) on the Coupon Observation Date falling immediately prior to such Coupon Payment Date, divided by the Initial Reference Level of the Underlying or Basket (as specified in the applicable Final Terms), minus (y) one. If specified in the applicable Final Terms, the Coupon Payment will be subject to a specified maximum and/or a specified minimum.

The Coupon Payment on a Coupon Payment Date will thus be a non-zero amount if the Relevant Reference Level Value of the Underlying or the Reference Level of the Basket (as specified in the applicable Final Terms) on the Coupon Observation Date falling immediately prior to such Coupon Payment Date is above the Initial Reference Level of the Underlying or the Basket (as specified in the applicable Final Terms), and will be zero if it is not. In addition, the Coupon Divisor may be different for each Coupon Observation Date, and the Coupon Divisor may be higher for later Coupon Observation Dates, which will result in a larger proportional reduction of Coupon Payments for Coupon Payment Dates falling later in time.

Product No. N35: Range Accrual Note

The Range Accrual Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Each Coupon Period for the Range Accrual Note is either Conditional or Fixed (as specified in the applicable Final Terms).

If a Coupon Period is Fixed the Note pays the Coupon Amount on the relevant Coupon Payment Date.

If a Coupon Period is Conditional, the Coupon Amount is equal to the product of (i) the Range Accrual Percentage multiplied by the quotient of N (as numerator) and D (as denominator), (ii) the Nominal Amount and (iii) a fraction based on the number of calendar days in the relevant Coupon Period and the number of calendar days in the relevant year.

III. GENERAL INFORMATION ON THE PROGRAMME

N means the number of calendar days in the relevant Coupon Period on which the Reference Level is greater than or greater than or equal to (as specified in the applicable Final Terms) the Lower Barrier and less than or less than or equal to the Upper Barrier (as specified in the applicable Final Terms).

D means the number of calendar days in the relevant Coupon Period.

Product No. N36: Leveraged Floater Note

The Leveraged Floater Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Each Coupon Period for the Range Accrual Note is either Conditional or Fixed (as specified in the applicable Final Terms).

If a Coupon Period is Fixed the Note pays the Coupon Amount on the Coupon Payment Date.

If a Coupon is Conditional, the Coupon Amount is equal to the product of (A) the product of (i) the level of the Underlying on the relevant Coupon Determination Date and (ii) the Leverage (provided that the product of (i) and (ii) is subject to a maximum of the Rate Cap), (B) the Nominal Amount, and (C) a fraction based on the number of calendar days in the relevant Coupon Period and the number of calendar days in the relevant year.

Product No. N37: Altiplano Basket Note

The Altiplano Basket Note is linked to the performance of the Basket Constituents. A check will be performed on each Coupon Observation Date as to whether the price or level of every Basket Constituent is greater than greater than or equal to (as specified in the applicable Final Terms) the Coupon Threshold. If this is the case for each Coupon Observation Date in the Coupon Observation Period, the Note will pay a fixed Coupon on the relevant Coupon Payment Date.

If a Coupon is Conditional, the Coupon Amount is equal to the product of (A) the product of (i) the level of the Underlying on the relevant Coupon Determination Date and (ii) the Leverage (provided that the product of (i) and (ii) is subject to a maximum of the Rate Cap), (B) the Nominal Amount, and (C) a fraction based on the number of calendar days in the relevant Coupon Period and the number of calendar days in the relevant year.

Product No. N38: Individual Cap Note

If specified in the applicable Final Terms, the Coupon Amount for each Coupon Payment Date will be product of the Nominal and the arithmetic or weighted average (as specified in the applicable Final Terms) of the Adjusted Performance for such Coupon Payment Date of each Basket Constituent. The highest that the Coupon Amount for any Coupon Payment Date can be is the product of the Nominal and the Fixed Performance, but it may be less and can be as low as zero. In the worst case scenario, no Coupon Amount may be payable throughout the term of the Individual Cap Note. If this occurs, while an investor will receive the nominal amount of each Individual Cap Note, an investor will not receive any amount beyond this.

If specified in the applicable Final Terms, the Adjusted Performance for a Coupon Payment Date of a Basket Constituent is, if the Performance of such Basket Constituent is less than or less than or equal to (as specified in the applicable Final Terms) the Coupon Threshold, an amount equal to the average of the Reference Level of such Basket Constituent for all Coupon Observation Dates for such Coupon Payment Date, or if the Performance of such Basket Constituent is greater than or greater than or equal to (as specified in the applicable Final Terms) the Coupon Threshold, the Fixed Performance.

If specified in the applicable Final Terms, the Cash Amount may be calculated as the product of the Nominal and the greater of the percentage specified in the applicable Final Terms and the sum of one plus the Basket Capped Performance.

III. GENERAL INFORMATION ON THE PROGRAMME

If specified in the applicable Final Terms, the Basket Capped Performance will be the sum, for each Basket Constituent, of the Adjusted Redemption Performance for such Basket Constituent multiplied by the weighting of such Basket Constituent. The Adjusted Redemption Performance for such Basket Constituent is, if the Redemption Performance of such Basket Constituent is less than or less than or equal to (as specified in the applicable Final Terms) the Fixed Redemption Performance, the Redemption Performance of such Basket Constituent, or if the Performance of such Basket Constituent is greater than or greater than or equal to (as specified in the applicable Final Terms) the Fixed Redemption Performance, the Fixed Redemption Performance. The Redemption Performance of such Basket Constituent is (a) the Reference Level of such Basket Constituent on the Valuation Date divided by the Reference Level of such Basket Constituent on the Initial Valuation Date, minus (b) one.

Product No. N39: Autocallable Note with Memory Coupon

The Autocallable Note with Memory Coupon is linked to the performance of the Underlying. The way this Note works results from the following key features:

1. Coupon payments

The Coupon Amount payable on a Coupon Payment Date depends on the Relevant Reference Level Value of the Underlying or at least one Basket Constituent (as specified in the applicable Final Terms) on the immediately preceding Coupon Observation Date.

- a) If no Coupon Barrier Event in respect of the Underlying or any Basket Constituent (as specified in the applicable Final Terms) has occurred on a Coupon Observation Date, investors will receive the Coupon Amount equal to Reference Amount multiplied by the Coupon Value multiplied by the number of Coupon Observation Dates preceding such Coupon Payment Date, minus the Coupon Amounts if any previously paid;
- b) If a Coupon Barrier Event in respect of the Underlying or any Basket Constituent (as specified in the applicable Final Terms) has occurred on a Coupon Observation Date, the Coupon Amount will be zero and no Coupon Payment will be made on the next Coupon Payment Date.

A Coupon Barrier Event will occur on a Coupon Observation Date if the Relevant Reference Level Value of the Underlying or at least one Basket Constituent (as specified in the applicable Final Terms) on such Coupon Observation Date is below or at or below (as specified in the applicable Final Terms) the Coupon Threshold of the Underlying or such Basket Constituent (as specified in the applicable Final Terms).

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the Relevant Reference Level Value of the Underlying or of every Basket Constituent (as specified in the applicable Final Terms) is equal to or greater than or equal to (as specified in the applicable Final Terms) the Redemption Threshold of the Underlying or the respective Basket Constituent (a Redemption Event). If a Redemption Event occurs, the Notes will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date investors receive the Nominal Amount if the Final Reference Level of the Underlying or of every Basket Constituent (as specified in the applicable Final Terms) is equal to or greater than or equal to (as specified in the applicable Final Terms) the Barrier of the Underlying or the respective Basket Constituent (as specified in the applicable Final Terms); or
- b) if the Final Reference Level of the Underlying or of at least one Basket Constituent (as specified in the applicable Final Terms) is below or equal to or below its Barrier (as specified in the applicable Final Terms), investors receive a Cash Amount equal to greater of zero and the product of (i) the Nominal Amount and (ii) one minus the greater of (I) zero, and (II) the Put Strike minus the

III. GENERAL INFORMATION ON THE PROGRAMME

Performance of the Underlying or the worst performing Basket Constituent (as specified in the applicable Final Terms).

The Performance of the Underlying or a Basket Constituent is determined as the quotient of (A) the Final Reference Level, and (B) its Initial Reference Level.

Product No. N40: Autocallable Note with Knock Out Barrier of Down and In Put

The Autocallable Note with Knock Out Barrier of Down and In Put is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

Unless a Knock Out Event has occurred on or prior to the relevant Observation Date, each Note pays a coupon amount equal to the percentage specified in the applicable Final Terms of the Nominal Amount (Coupon Payment) on the next Coupon Payment Date. For the avoidance of doubt, if a Knock Out Event has occurred on an Observation Date, a coupon amount for the Observation Date on which such Knock Out Event occurred shall not be paid on the next following Coupon Payment Date and no further coupon amounts shall be paid thereafter.

2. Early redemption

If specified in the applicable Final Terms, a check will be performed for the Notes on each Observation Date (other than the Observation Date scheduled to fall on the Valuation Date), as to whether the Reference Level of every Basket Constituent is greater than or equal to or greater than (as specified in the applicable Final Terms) the Redemption Threshold of the respective Basket Constituent (a Knock Out Event). If a Knock Out Event occurs, the Notes will be redeemed early at the relevant Cash Amount, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity

Subject to early redemption (if specified in the applicable Final Terms):

- a) On the Settlement Date investors receive the percentage of the Nominal Amount as specified in the applicable Final Terms if the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the Strike of the respective Basket Constituent, or
- b) On the Settlement Date investors receive the percentage of the Nominal Amount as specified in the applicable Final Terms if the Final Reference Level of any Basket Constituent is below or equal to or below (as specified in the applicable Final Terms) the Strike and the Final Reference Level of each Basket Constituent is and above or at or above (as specified in the applicable Final Terms) the Barrier of the respective Basket Constituent, or
- c) if the Final Reference Level of at least one Basket Constituent is below or equal to or below (as specified in the applicable Final Terms) its Barrier:
 - (i) if on any trading day for all Basket Constituents during the Observation Period the Reference Level of all Basket Constituents is above or at or above (as specified in the applicable Final Terms) the percentage as specified in the applicable Final Terms of its respective Initial Reference Level (a "Capital Protection Event"), then the relevant Securityholder will receive on the Settlement Date 100 per cent. of the Nominal Amount or such other percentage as specified in the applicable Final Terms; or
 - (ii) if a Capital Protection Event has not occurred, then the relevant Securityholder will receive on the Settlement Date an amount equal to the product of (A) the Nominal Amount and (B) the quotient of the Final Reference Level of the Basket Constituent with the lowest Performance divided by its Initial Reference Level. The Performance of a Basket Constituent is determined as the quotient of (I) its Final Reference Level, divided by (II) its Initial Reference Level.

III. GENERAL INFORMATION ON THE PROGRAMME

Product No. N41: Recovery Note

The Recovery Note is linked to the performance of the Basket Constituents.

- a) On the Settlement Date investors receive a percentage (as specified in the applicable Final Terms) of Nominal Amount if the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the Barrier of the respective Basket Constituent, or
- b) if the Final Reference Level of at least one Basket Constituent is below or at or below (as specified in the applicable Final Terms) its Barrier, investors receive a Cash Amount equal to the product of (i) the Nominal Amount and (ii) the quotient of the Final Reference Level of the worst performing Basket Constituent divided by its Initial Reference Level. The Performance of a Basket Constituent is determined as the quotient of (A) its Final Reference Level, divided by (B) its Initial Reference Level.

Product No. N42: Single Underlying Autocallable Note

The Single Underlying Autocallable Note is linked to the performance of the Underlying. The way this Note works results from the following key features:

1. Coupon payments

The Coupon Amount payable on a Coupon Payment Date depends on the Reference Level of the Underlying on the immediately preceding Coupon Observation Date.

- a) If the Reference Level of the Underlying on such Coupon Observation Date is below or at or below or above or at or above (as specified in the applicable Final Terms) the Coupon Threshold, investors will receive the Coupon Amount equal to a specified percentage of the Nominal Amount (Coupon Payment) at the next Coupon Payment Date (where, if specified in the Final Terms, such percentage may be different for each Coupon Payment Date),
- b) If the Reference Level of the Underlying on such Coupon Observation Date is above or at or above or below or at or below (as specified in the applicable Final Terms) the Coupon Threshold, the Coupon Amount will be zero and no Coupon Payment will be made at the next Coupon Payment Date.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date as to whether the Reference Level of the Underlying is greater than or equal to or greater than (as specified in the applicable Final Terms) the Redemption Threshold. If it is, the Notes will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) on the Settlement Date investors receive the Nominal Amount if the Final Reference Level of the Underlying is above or at or above (as specified in the applicable Final Terms) the Barrier, or
- b) if the Final Reference Level of the Underlying is below or at or below (as specified in the applicable Final Terms) its Barrier, investors receive a Cash Amount equal to the product of (i) the Nominal Amount and (ii) the quotient of the Final Reference Level of the Underlying divided by its Initial Reference Level.

Product No. N43: Outperformance Note

With this Outperformance Note, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the Final Reference Level. They participate disproportionately in the price gains of the Underlying above the Strike, but 1:1 in price losses below the Strike.

III. GENERAL INFORMATION ON THE PROGRAMME

- a) If the Final Reference Level is above or at or above (as specified in the applicable Final Terms) the Strike, investors participate disproportionately at maturity due to the Participation Factor, and to an unlimited extent in the positive performance of the Underlying based on the Strike.
- b) If the Final Reference Level is equal to or equal to or lower than (as specified in the applicable Final Terms) the Strike, investors receive a Cash Amount in the amount of the Final Reference Level taking into account the Multiplier. They thus participate in the negative performance of the Underlying based on the Strike.

Investors may assert no further claims in relation to the Underlying (e.g. voting rights, dividends) in return for the increased opportunity to participate in the performance of the Underlying.

Product No. N44: Switchable Note

This Switchable Note is 100% (or such other percentage as specified in the applicable Final Terms) capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms). The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

If a Switch Event does not occur on a Switch Event Date, investors participate in the positive performance of the Underlying based on the Strike at maturity.

If a Switch Event occurs on a Switch Event Date, the Switch Coupon is paid on each Coupon Payment Date following such Switch Event Date (with the Switch Coupon in respect of any prior Coupon Payment Date being added to the amount paid on the first such following Coupon Payment Date).

If specified in the applicable Final Terms, the Guaranteed Coupon is in any event paid on each Coupon Payment Date in addition to any Switch Coupon, if any.

A Switch Event occurs where the Calculation Agent determines that the fair value of a note with the same characteristics as the Switchable Note but without the switch option is greater than the fair value of a bond equal to the Switchable Note for which a Switch Event has occurred and therefore pays a coupon equal to the sum of the Guaranteed Coupon and the Switch Coupon, or where the Issuer, **in its the sole and absolute discretion**, decides to delink the payments under the Notes from the performance of the Underlying, and determines to pay a fixed coupon on each Coupon Payment Date and to pay only the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms) on redemption at maturity, each as specified in the applicable Final Terms.

Product No. N45: Note linked to a Basket

The Note linked to a Basket are linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Securities pay a Coupon Amount on each Coupon Payment Date, and such Coupon Amount will be a fixed amount for each Security.

2. Redemption

On the Settlement Date, investors receive a Cash Amount equal to the product of (a) the Nominal Amount, multiplied by (b) the greater of (i) zero, and (ii) the difference between (A) one, minus (B) the product of (I) Number of Underperforming Basket Constituents less, if so specified in the applicable Final Terms, a specified number, multiplied by (II) either a number specified in the applicable Final Terms or the quotient of a fixed numerator and a fixed denominator as specified in the applicable Final Terms. If specified in the applicable Final Terms, the Cash Amount will be subject to a specified maximum.

Where Number of Underperforming Basket Constituents means the number of Basket Constituents for which the Performance is less than (or if specified in the applicable Final Terms, less than or equal to)

III. GENERAL INFORMATION ON THE PROGRAMME

the Barrier. The Performance of a Basket Constituent is determined as the quotient of (i) its Final Reference Level and (ii) its Initial Reference Level.

Product No. N46: Worst of Basket Callable Note with performance-linked coupon

The Worst of Basket Callable Note with performance-linked coupon is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Coupon Amount payable on a Coupon Payment Date depends on the Relevant Reference Level Value of the Basket Constituents during Coupon Observation Period and on the Coupon Period Reference Date corresponding to such Coupon Observation Period.

In respect of a Coupon Observation Period and the Coupon Period Reference Date corresponding to such Coupon Observation Period:

- a) If no Coupon Barrier Event has occurred, investors will receive at the next Coupon Payment Date, the Coupon Amount equal to the Nominal Amount (or such other amount as specified in the Final Terms) multiplied by either (as specified in the applicable Final Terms) (i) the difference between the Performance of the Worst Performing Basket Constituent less one, or (ii) the difference between the arithmetic average Performance of all the Basket Constituents less one, provided that (where specified in the applicable Final Terms) such difference shall not be less than and shall not be greater than the amounts specified in the applicable Final Terms,
- b) If a Coupon Barrier Event has occurred, the Coupon Amount will be zero and no Coupon Payment will be made at the next Coupon Payment Date.

In respect of a Basket Constituent, each Coupon Observation Date falling in a Coupon Observation Period and the Coupon Period Reference Date corresponding to such Coupon Observation Period, a Coupon Barrier Event will occur if either (i) the price, level or value of such Basket Constituent at any time on such Coupon Observation Date or at any time on such Coupon Period Reference Date, or (ii) the closing price, closing level or closing value of such Basket Constituent on such Coupon Observation Date or on such Coupon Period Reference Date, as specified in the Final Terms, is below or at or below (as specified in the applicable Final Terms) the Coupon Threshold in respect of such Basket Constituent.

2. Redemption Right of Issuer

If the applicable Final Terms specify Redemption Right of Issuer applies, the Issuer may by giving notice to holders redeem the Notes on each Coupon Payment Date. If the Issuer exercises its right to do so, the Notes will be redeemed early at a specified percentage of the Nominal Amount on the relevant Coupon Payment Date (Redemption Date), which shall be payable together with the Coupon Amount (if any).

If the Securities are redeemed pursuant to an exercise of the Redemption Right of the Issuer, the Coupon Amount will be payable on the Coupon Payment Date falling on the Redemption Date (and no further Coupon Amount will be payable for any Coupon Payment Dates falling after such Redemption Date).

3. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the Relevant Reference Level Value of every Basket Constituent is greater than or equal to or greater than (as specified in the applicable Final Terms) the Redemption Threshold of the respective Basket Constituent. If it is, the Notes will be redeemed early at a specified percentage of the Nominal Amount as specified in the Final Terms.

4. Redemption at maturity, subject to redemption right of Issuer, if this is specified in the applicable Final Terms,

III. GENERAL INFORMATION ON THE PROGRAMME

- a) On the Settlement Date investors receive the Nominal Amount (or such other amount as is specified in the applicable Final Terms) if the Barrier Determination Amount of every Basket Constituent on the Valuation Date (or, if specified in the applicable Final Terms) on each Observation Date during the Observation Period and on the Valuation Date) is above or at or above (as specified in the applicable Final Terms) the respective Barrier,
- b) if a) is not satisfied, investors receive the Nominal Amount (or such other amount as is specified in the applicable Final Terms) if either (as specified in the applicable Final Terms) (i) the Barrier Determination Amount on any Observation Date during the Observation Period of the Basket Constituent with the lowest Performance is above or at or above (as specified in the applicable Final Terms) the Knock-Out Barrier, or (ii) the arithmetic average of the performance of all of the Basket Constituents on any Observation Date during the Observation Period is above or at or above (as specified in the applicable Final Terms) the Knock-Out Barrier, or
- c) otherwise, investors receive a Cash Amount equal to the product of (i) the Nominal Amount and (ii) the sum of (A) one and (B) the greater of (I) negative one and (II) the product of (x) the Participation Factor (or such other amount as specified in the Final Terms) and (y) the difference between the Performance of the Worst Performing Basket Constituent and 1.

The Performance of a Basket Constituent is determined as the quotient of (i) its Final Reference Level and (ii) its Initial Reference Level.

Product No. N47: Currency Chooser Basket Note

This Currency Chooser Basket Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

On the Settlement Date, investors will receive an amount determined by the Issuer equal to the greater of (a) the Nominal Amount, and (b) the product of (i) the Multiplier, and (ii) the sum of (A) 100 per cent. (or other percentage as specified in the applicable Final Terms), and (B) the product of (x) the Participation Factor, and (y) the arithmetic average of the performance of the highest performing and the second highest performing Basket Constituents, subject to a minimum of zero.

Product No. N48: Currency Express Note

A check will be performed for this Currency Express Note on each Observation Date (other than the Observation Date falling on the Valuation Date, if specified in the applicable Final Terms), as to whether the Underlying on such date is above or below and/or equal to (as specified in the applicable Final Terms) the respective Redemption Threshold. If it is, the Note will be redeemed early at the relevant Cash Amount.

Standard market practice for presenting exchange rates is that exchange rates are shown as the inverse of the performance of the Foreign Currency, i.e., a rising Underlying means a depreciation of the Foreign Currency against the Base Currency and conversely, a falling Underlying means an appreciation of the Foreign Currency against the Base Currency. Accordingly, investors participate in the inverse performance of the Underlying.

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level as follows:

- a) If the Final Reference Level is below or above and/or equal to (as specified in the applicable Final Terms) the Redemption Threshold on the Valuation Date (which corresponds to the last Observation Date) (i.e., the Foreign Currency remains stable against the Base Currency or appreciates against the Base Currency), investors receive the specified Cash Amount on the Settlement Date;
- b) If the Final Reference Level is above or below and/or equal to (as specified in the applicable Final Terms) the Redemption Threshold on the Valuation Date, but is lower than or above and/or equal to (as specified in the applicable Final Terms) the Barrier, investors will receive a

III. GENERAL INFORMATION ON THE PROGRAMME

Cash Amount in the amount of the Specified Reference Level or the specified Cash Amount (as specified in the applicable Final Terms) on the Settlement Date;

- c) If the Final Reference Level is above or below and/or equal to (as specified in the applicable Final Terms) the Barrier on the Valuation Date, investors will negatively participate 1:1 in the positive performance of the Underlying (depreciation or appreciation, as is applicable, of the Foreign Currency against the Base Currency) based on the Initial Reference Level.

Investors limit their possible return to the Cash Amounts in return for the possibility of early redemption.

Product No. N49: Rainbow Return Note

The Rainbow Return Note is linked to the sum of the weighted performance of the highest performing, second highest performing and lowest performing Basket Constituents (i.e., the Rainbow Return).

On the Settlement Date, investors receive the Nominal Amount (or such other amount as is specified in the applicable Final Terms) if the Rainbow Return is below or equal to or below (as specified in the applicable Final Terms) zero or the Barrier (as specified in the applicable Final Terms). Otherwise, investors receive a Cash Amount equal to the sum of (a) the Nominal Amount (or such other amount as is specified in the applicable Final Terms), plus (b) the product of (i) the Multiplier, multiplied by (ii) the Participation Factor, multiplied by (iii) the Rainbow Return.

Product No. N50: Autocallable Note with Knock Out Barrier

The Autocallable Note with Knock Out Barrier is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Coupon Amount payable on a Coupon Payment Date depends on the Reference Level of the Basket Constituents on the immediately preceding Observation Date.

If the Reference Level of every Basket Constituent is equal to or greater than (as specified in the applicable Final Terms) the Coupon Threshold of the respective Basket Constituent, each Note pays a coupon amount equal to the percentage specified in the applicable Final Terms of the Nominal Amount (Coupon Payment) on the next Coupon Payment Date. For the avoidance of doubt, if the Redemption Threshold specified in the Final Terms is greater than or equal to the Coupon Threshold specified in the Final Terms, then if a Knock Out Event has occurred on an Observation Date, a coupon amount for the Observation Date on which such Knock Out Event occurred shall be paid on the next following Coupon Payment Date and no further coupon amounts shall be paid thereafter.

2. Early redemption

If specified in the applicable Final Terms, a check will be performed for the Note on each Observation Date (other than the Observation Date scheduled to fall on the Valuation Date), as to whether the Reference Level of every Basket Constituent is greater than or equal to or greater than (as specified in the applicable Final Terms) the Redemption Threshold of the respective Basket Constituent (a Knock Out Event). If a Knock Out Event occurs, the Note will be redeemed early at the relevant Cash Amount, which is an amount equal to 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity

Subject to early redemption (if specified in the applicable Final Terms), investors receive a Cash Amount on the Settlement Date, the amount of which depends on the Final Reference Level of the Basket Constituents:

- a) if the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the Barrier of the respective Basket Constituent, an amount equal to the percentage of the Nominal Amount as specified in the applicable Final Terms, or

III. GENERAL INFORMATION ON THE PROGRAMME

- b) if the Final Reference Level of at least one Basket Constituent is below or equal to or below (as specified in the applicable Final Terms) its Barrier, an amount equal to the product of (i) the Nominal Amount and (ii) the quotient of the Final Reference Level of the Basket Constituent with the lowest Performance, divided by its Initial Reference Level. The Performance of a Basket Constituent is determined as the quotient of (A) its Final Reference Level, divided by (B) its Initial Reference Level.

Product No. N51: Single Underlying Callable Note

The Single Underlying Callable Note is linked to the performance of the Underlying. The way this Note works results from the following key features:

1. Coupon payments

If the Securities are redeemed pursuant to an exercise of the Redemption Right of the Issuer, investors will receive the Coupon Amount equal to a specified percentage of the Nominal Amount (Coupon Payment) on the Coupon Payment Date falling on the Redemption Date. Otherwise no coupon payment will be made.

2. Redemption Right of Issuer

If the applicable Final Terms specify Redemption Right of Issuer applies, the Issuer may by giving notice to holders redeem the Notes on any Redemption Date. If the Issuer exercises its right to do so, the Notes will be redeemed early at a specified percentage of the Nominal Amount on the relevant Redemption Date, which shall be payable together with the Coupon Amount.

3. Redemption at maturity, subject to Redemption Right of Issuer if this is specified in the applicable Final Terms

On the Settlement Date investors receive a Cash Amount equal to the sum of (a) a specified percentage of the Nominal Amount plus (b) the product of (i) a specified percentage of the Nominal Amount and (ii) the Participation Factor and (iii) the greater of (A) zero and (B) the difference between (I) the quotient of the Final Reference Level divided by its Initial Reference Level, minus (II) Strike.

Product No. N52: Switchable Coupon Note

If specified in the applicable Final Terms, this Switchable Coupon Note is 100% (or such other percentage as specified in the applicable Final Terms) capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms). The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

If the Switch Event does not occur on a Coupon Observation Date (a Switch Event Date), investors participate in the positive performance of the Underlying based on the Strike at maturity.

If the Switch Event occurs on a Switch Event Date, a fixed coupon is paid on each Coupon Payment Date following such Switch Event Date, and if specified in the applicable Final Terms, the fixed coupon in respect of each prior Coupon Payment Date (if any) is paid on such first following Coupon Payment Date.

A Switch Event occurs on a Switch Event Date if the Relevant Reference Level Value or Reference Level (as specified in the applicable Final Terms) of the Underlying on such Switch Event Date is (a) above, or (b) above or equal to, or (c) below, or (d) below or equal to (as specified in the applicable Final Terms) the Coupon Threshold.

Product No. N53: Outperformance Note (Geared Put)

With this Outperformance Note (Geared Put), investors receive a Cash Amount on the Settlement Date, the amount of which depends on the Performance of the Underlying. They may participate disproportionately in the price gains of the Underlying above or at or above (as specified in the applicable Final Terms) the Strike or the Strike 1 (as specified in the applicable Final Terms), and may

III. GENERAL INFORMATION ON THE PROGRAMME

also participate disproportionately in price losses below or at or below (as specified in the applicable Final Terms) the Strike or the Strike 2 (as specified in the applicable Final Terms) depending on the relevant participation factor.

- a) If the Performance of the Underlying is above or equal to or above (as specified in the applicable Final Terms) the Strike or the Strike 1 (as specified in the applicable Final Terms), investors may participate disproportionately at maturity due to the Participation Factor 1, and to an unlimited extent or subject to the Cap (as specified in the applicable Final Terms) in the positive performance of the Underlying based on the difference between Performance and the Strike or Strike 1 (as specified in the applicable Final Terms).
- b) If specified in the applicable Final Terms, if the Performance of the Underlying is both below or equal to or below (as specified in the applicable Final Terms) the Strike 1 and above or equal to or above (as specified in the applicable Final Terms) the Strike 2, investors receive a Cash Amount equal to 100 per cent. of the Nominal Amount.
- c) If the Performance of the Underlying is below or equal to or below (as specified in the applicable Final Terms) the Strike or the Strike 2 (as specified in the applicable Final Terms), investors may participate disproportionately at maturity due to the Participation Factor 2, and to an unlimited extent or subject to the Floor (as specified in the applicable Final Terms) in the negative performance of the Underlying based on the difference between the Strike or Strike 2 (as specified in the applicable Final Terms) and the Performance.

The Performance of the Underlying is determined as the quotient of its Final Reference Level and its Initial Reference Level.

Investors may assert no further claims in relation to the Underlying (e.g., voting rights, dividends) in return for the increased opportunity to participate in the performance of the Underlying.

Product No. N54: Express Autocallable Note on a Basket

The Autocallable Note on a Basket is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for the Notes on each Observation Date (other than the Observation Date scheduled to fall on the Valuation Date, if specified in the applicable Final Terms), as to whether the Reference Level of every Basket Constituent is greater than or equal to or greater than (as specified in the applicable Final Terms) the Redemption Threshold of the respective Basket Constituent for such Observation Date (a Redemption Event). If a Redemption Event occurs, the Notes will be redeemed early at the relevant Cash Amount, and if specified in the applicable Final Terms, plus a redemption coupon equal to a percentage of the Nominal Amount (as specified in the applicable Final Terms).

2. Redemption at maturity

Subject to early redemption (if specified in the applicable Final Terms), investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level of the Basket Constituents as follows:

- a) if the Final Reference Level of every Basket Constituent is above or at or above (as specified in the applicable Final Terms) the Strike of the respective Basket Constituent, investors receive a percentage of the Nominal Amount (as specified in the applicable Final Terms), and if specified in the applicable Final Terms, plus an additional amount equal to a percentage of the Nominal Amount (as specified in the applicable Final Terms), or
- b) if the Final Reference Level of any Basket Constituent is below or below or equal to (as specified in the applicable Final Terms) its Strike and the Final Reference Level of every Basket Constituent is at or above or above (as specified in the applicable Final Terms) the Barrier of

III. GENERAL INFORMATION ON THE PROGRAMME

the respective Basket Constituent, investors receive the Nominal Amount (or such percentage of the Nominal Amount as specified in the applicable Final Terms), or

- c) if the Final Reference Level of at least one Basket Constituent is below or below or equal to (as specified in the applicable Final Terms) its Barrier, investors receive an amount equal to the product of (i) the Nominal Amount and (ii) the quotient of the Final Reference Level of the Basket Constituent with the lowest Performance divided by its Initial Reference Level, provided that the Cash Amount will not be greater than any maximum amount specified in the applicable Final Terms, and will not be less than any minimum amount specified in the applicable Final Terms.

The Performance of a Basket Constituent is determined as the quotient of its Final Reference Level, divided by its Initial Reference Level.

Product No. N55: Express Autocallable Note on a Share Basket with Put on an Index
--

The Express Autocallable Note on a Share Basket with Put on an Index is linked to the performance of the Shares in the Basket (the Share Basket Constituents) and the Index in the Basket (the Index Basket Constituent). The way this Note works results from the following key features:

1. Coupon payments

The payment of a coupon on a Coupon Payment Date depends on the performance of the Underlying on a Coupon Observation Date.

- a) If a Coupon Barrier Event has occurred on a Coupon Observation Date, investors will receive the Coupon Amount on the Coupon Payment Date corresponding to the Coupon Observation Date, which will be, for each nominal amount, the Reference Amount multiplied by the Coupon Value, or
- b) if no Coupon Barrier Event has occurred on a Coupon Observation Date, the Coupon Amount will be zero and no Coupon Payment will be made on the Coupon Payment Date corresponding to the Coupon Observation Date.

A Coupon Barrier Event will occur on a Coupon Observation Date if the Reference Level of at least one Share Basket Constituent on such Coupon Observation Date is below or equal to or below (as specified in the applicable Final Terms) the relevant Coupon Threshold for such Share Basket Constituent.

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for the Notes on each Observation Date (other than the Observation Date scheduled to fall on the Valuation Date if specified in the applicable Final Terms), as to whether the Reference Level of every Share Basket Constituent is above or equal to or above (as specified in the applicable Final Terms) the Redemption Threshold of the respective Share Basket Constituent (a Redemption Event). If a Redemption Event occurs, the Notes will be redeemed early at the relevant Cash Amount, and if specified in the applicable Final Terms, plus a redemption coupon equal to a percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

Investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level of the Index Basket Constituent as follows:

- a) On the Settlement Date investors receive the Nominal Amount (or such percentage of the Nominal Amount as specified in the applicable Final Terms) if the Index Performance on the Valuation Date or on each Trading Day during the Observation Period and the Valuation Date (as specified in the applicable Final Terms) is above or equal to or above (as specified in the applicable Final Terms) the Barrier, or
- b) if the Index Performance on the Valuation Date or any Trading Day during the Observation Period and the Valuation Date (as specified in the applicable Final Terms) is below or equal to

III. GENERAL INFORMATION ON THE PROGRAMME

or below the Barrier, the product of (i) the Nominal Amount and (ii) the difference between (A) one, and (B) an amount equal to either (as specified in the applicable Final Terms):

- (I) the difference between (x) the Strike, minus (y) the Index Performance, provided that such amount shall not be less than zero; or
- (II) the quotient of (x) the difference between the Strike, minus the Index Performance, provided that such amount shall not be less than zero (as numerator) and (y) the Put Strike (as denominator).

The Index Performance is determined as the quotient of the Final Reference Level of the Index Basket Constituent and its Initial Reference Level.

Product No. N56: Altiplano Coupon Lock In Note

The Altiplano Coupon Lock In Note is linked to the performance of the Underlying. The way this Note works results from the following key features:

1. Coupon payments

The payment of a coupon on a Coupon Payment Date depends on the performance of the Underlying on a Coupon Observation Date.

- a) If a Lock In Event has occurred in respect of a Coupon Observation Date, the Coupon Amount equal to a percentage of the Nominal Amount (as specified in the applicable Final Terms) will be payable (Coupon Payment) on each Security of the Nominal Amount on the first Coupon Payment Date immediately following such Coupon Observation Date, and on each Coupon Payment Date following such Coupon Payment Date; or
- b) if no Lock In Event has occurred in respect of a Coupon Observation Date, and if:
 - (i) the Performance of the Underlying or of each Basket Constituent (as specified in the applicable Final Terms) in respect of a Coupon Observation Date is above or equal to or above (as specified in the applicable Final Terms) the Coupon Threshold, the Coupon Amount equal to a percentage of the Nominal Amount (as specified in the applicable Final Terms) will be payable (Coupon Payment) on each Security of the Nominal Amount on the first Coupon Payment Date immediately following such Coupon Observation Date, or
 - (ii) the Performance of the Underlying or of any Basket Constituent (as specified in the applicable Final Terms) in respect of a Coupon Observation Date is below or equal to or below (as specified in the applicable Final Terms) the Coupon Threshold, the Coupon Amount will be zero and no Coupon Payment will be made.

2. Redemption at maturity

Investors will receive a Cash Amount on the Settlement Date which is determined depending on the Performance of the Underlying as follows:

- a) if a Lock In Event has occurred in respect of any Coupon Observation Date, the percentage of the Nominal Amount specified in the applicable Final Terms; or
- b) if no Lock In Event has occurred in respect of any Coupon Observation Date, and:
 - (i) if the Performance of the Underlying or of each Basket Constituent (as specified in the applicable Final Terms) on the Valuation Date or each Trading Day during the Observation Period and the Valuation Date (as specified in the applicable Final Terms) is above or equal to or above (as specified in the applicable Final Terms) the Barrier, investors receive the Nominal Amount (or such percentage of the Nominal Amount as specified in the applicable Final Terms); or

III. GENERAL INFORMATION ON THE PROGRAMME

- (ii) if the Performance of the Underlying or of any Basket Constituent (as specified in the applicable Final Terms) on the Valuation Date or on any Trading Day during the Observation Period or the Valuation Date (as specified in the applicable Final Terms) is below or equal to or below the Barrier (as specified in the applicable Final Terms) the product of (A) the Nominal Amount and (B) the difference between (I) one, and (II) an amount equal to either (as specified in the applicable Final Terms):
 - (x) the difference between (1) the Strike, minus (2) the Performance of the Underlying or of the worst performing Basket Constituent (as specified in the applicable Final Terms) on the Valuation Date, provided that such amount shall not be less than zero; or
 - (y) the quotient of (1) the difference between the Strike, minus the Performance of the Underlying or of the worst performing Basket Constituent (as specified in the applicable Final Terms) on the Valuation Date, provided that such amount shall not be less than zero (as numerator), divided by (2) the Put Strike (as denominator).

The Performance in respect of the Underlying or a Basket Constituent and any relevant day is the quotient of the relevant price, level or value of the Underlying or such Basket Constituent on such day, and its Initial Reference Level.

Product No. N57: Outperformance Call Note

With this Outperformance Call Note, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the amount which a Basket Constituent specified in the applicable Final Terms (Basket Constituent 1) outperforms another Basket Constituent specified in the applicable Final Terms (Basket Constituent 2), less the Strike. They participate disproportionately in the positive outperformance of Basket Constituent 1 against Basket Constituent 2 based on the Strike.

On the Settlement Date investors receive a Cash Amount equal to the product of (a) the Nominal Amount and (b) the sum of (i) the Multiplier plus (ii) the product of (A) the Participation Factor and (B) an amount equal to the difference between (I) the Outperformance Amount, minus (II) the Strike, such amount subject to a minimum of zero.

The Outperformance Amount is the difference between the Performance of Basket Constituent 1, minus the Performance of Basket Constituent 2, where the Performance of a Basket Constituent is determined as the quotient of its Final Reference Level, divided by its Initial Reference Level.

Product No. N58: Currency Autocallable Note

A check will be performed for this Currency Autocallable Note on each relevant Observation Date (as specified in the applicable Final Terms), as to whether the Underlying on such date is above or below and/or equal to (as specified in the applicable Final Terms) the respective Redemption Threshold. If it is, the Note will be redeemed early at the relevant amount (as specified in the applicable Final Terms).

Standard market practice for presenting exchange rates is that exchange rates are shown as the inverse of the performance of the Foreign Currency, i.e., a rising Underlying means a depreciation of the Foreign Currency against the Base Currency and conversely, a falling Underlying means an appreciation of the Foreign Currency against the Base Currency. Accordingly, investors participate in the inverse performance of the Underlying.

If there is no acceleration of maturity, investors will receive a Cash Amount on the Settlement Date which is determined depending on the Final Reference Level as follows:

- a) If the Redemption Determination Amount or the Final Reference Level is above or below and/or or equal to the Redemption Threshold on the Valuation Date (as specified in the applicable Final Terms) (i.e., the Foreign Currency remains stable against the Base Currency or appreciates or depreciates (as specified in the applicable Final Terms) against the Base Currency), investors receive the specified Cash Amount on the Settlement Date;

III. GENERAL INFORMATION ON THE PROGRAMME

- b) If the Final Reference Level is above or below and/or or equal to the Redemption Threshold (as specified in the applicable Final Terms), but is above or below and/or equal to the Barrier (as specified in the applicable Final Terms), investors will receive a Cash Amount in the amount of the Specified Reference Level or the specified Cash Amount on the Settlement Date (as specified in the applicable Final Terms);
- c) If the Final Reference Level is above or above or equal to (as specified in the applicable Final Terms) the Barrier on the Valuation Date, investors will negatively participate 1:1 in the positive performance of the Underlying (depreciation or appreciation (as specified in the applicable Final Terms) of the Foreign Currency against the Base Currency) based on the Initial Reference Level.

Investors limit their possible return to the Cash Amounts in return for the possibility of early redemption.

Product No. N59: Simplified Digital Variable Coupon Note

In respect of each Coupon Observation Date, a Coupon Payment will be made on the next following Coupon Payment Date.

The amount of coupon paid on a Coupon Payment Date depends on the value, price or level of the Underlying on the Coupon Observation Date falling immediately prior to such Coupon Payment Date and whether such Coupon Observation Date falls earlier or later in the term of the Note.

The Coupon Payment on a Coupon Payment Date will be calculated as (i) the Nominal Amount, multiplied by (ii) the Participation Factor, multiplied by (iii) one divided by the Coupon Divisor, and further multiplied by (iv) the Reference Level of the Underlying on the Coupon Observation Date falling immediately prior to such Coupon Payment Date divided by the Initial Reference Level of the Underlying, minus one. The Coupon Payment may be subject to a minimum amount (as specified in the applicable Final Terms) and/or a maximum amount (as specified in the applicable Final Terms).

The Coupon Divisor may be different for each Coupon Observation Date, and the Coupon Divisor may be higher for later Coupon Observation Dates, which will result in a larger proportional reduction of Coupon Payments for Coupon Payment Dates falling later in time.

Product No. N60: Contingent Coupon Note

The Contingent Coupon Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

Throughout the term investors receive Coupon Payments on the relevant Coupon Payment Date. The Contingent Coupon Note has a fixed Coupon for a set number of Coupon Periods (as specified in the applicable Final Terms), and for the subsequent set number of Coupon Periods (as specified in the applicable Final Terms), the Coupon depends on the performance of a single Underlying Rate or two Underlying Rates (as specified in the applicable Final Terms).

If the Coupon depends on the performance of the Underlying Rate for the relevant Coupon Period, and if on the relevant Coupon Observation Date for such Coupon Period, the Underlying Rate is (i) above, or (ii) below, or (iii) above or equal to, or (iv) below or equal to (as specified in the applicable Final Terms) the Coupon Threshold, the Coupon for such Coupon Period will be a fixed interest rate. Otherwise, the Coupon for such Coupon Period will be a fixed interest rate (as specified in the applicable Final Terms).

If the Coupon depends on the performance of two Underlying Rates for the relevant Coupon Period, and if on the relevant Coupon Observation Date for such Coupon Period, the Underlying Rate 1 is (i) above, or (ii) below, or (iii) above or equal to, or (iv) below or equal to (as specified in the applicable Final Terms) the Coupon Threshold, the Coupon for such Coupon Period will be an amount calculated from (a) the product of Underlying Rate 2 on the Coupon Determination Date for such Coupon Period, and the Participation Factor, plus or minus (b) the Margin (as specified in the applicable Final Terms), and if specified in the applicable Final Terms, subject to the Maximum Coupon or the Minimum Coupon (or both) (as specified in the applicable Final Terms). Otherwise, the Coupon for such Coupon Period will be a fixed

III. GENERAL INFORMATION ON THE PROGRAMME

interest rate (as specified in the applicable Final Terms). If this occurs, investors would not receive any return based on Underlying Rate 2 for such Coupon Period.

Product No. N61: Fixed Coupon Note with Conditional Bonus Coupon

The Fixed Coupon Note with Conditional Bonus Coupon is 100% capital protected at maturity. Capital protection means that the Fixed Coupon Note with Conditional Bonus Coupon will be redeemed at maturity at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations. Throughout the term investors receive coupon payments on the relevant Coupon Payment Dates.

The coupon for the Fixed Coupon Note with Conditional Bonus Coupon is comprised of (i) a fixed component (being the Coupon Amount) and (ii) a conditional component (being the Bonus Coupon).

In relation to the fixed component of the coupon, the Fixed Coupon Note with Conditional Bonus Coupon pays the Coupon Amount on each Coupon Payment Date.

In relation to the conditional component of the coupon, the Bonus Coupon will be paid if the Underlying on the relevant Bonus Coupon Determination Date or Coupon Determination Date (as specified in the applicable Final Terms) is either (i) above or (ii) equal to or above or (iii) below or (iv) equal to or below (as specified in the applicable Final Terms) the Bonus Coupon Threshold.

Product No. N62: Simplified Digital Variable Coupon Note with Initial Fixed Interest

The Simplified Digital Variable Coupon Note with Initial Fixed Interest is 100% capital protected at maturity. Capital protection means that the Simplified Digital Variable Coupon Note with Initial Fixed Interest will be redeemed at maturity at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

A Coupon Amount will be payable on each Coupon Payment Date.

For a set number of Coupon Payment Dates (as specified in the applicable Final Terms), the Coupon Amount paid on the relevant Coupon Payment Date will be a fixed Coupon.

Thereafter the Coupon Amount paid on a Coupon Payment Date depends on the performance of the Underlying or Basket (as specified in the applicable Final Terms) on the Coupon Observation Date falling immediately prior to such Coupon Payment Date and whether such Coupon Observation Date falls earlier or later in the term of the Note.

The Coupon Amount on the subsequent Coupon Payment Dates (after the fixed Coupon Payment Dates) will be calculated as (i) the Nominal Amount, multiplied by (ii) the Participation Factor, multiplied by (iii) one divided by the Coupon Divisor, and further multiplied by (iv) the Relevant Reference Level Value of the Underlying or the Reference Level of the Basket (as specified in the applicable Final Terms) on the Coupon Observation Date falling immediately prior to such Coupon Payment Date divided by the Initial Reference Level of the Underlying or Basket (as specified in the applicable Final Terms), minus one. The Coupon Amount on the subsequent Coupon Payment Dates may be subject to a minimum amount (as specified in the applicable Final Terms) and/or a maximum amount (as specified in the applicable Final Terms).

The Coupon Divisor may be different for each Coupon Observation Date, and the Coupon Divisor may be higher for later Coupon Observation Dates, which will result in a larger proportional reduction of the Coupon Amounts for Coupon Payment Dates falling later in time.

Product No. N63: Autocallable Note on a Basket Average (with instalment redemption)

The Autocallable Note on a Basket Average (*with instalment redemption*) is linked to the performance of the Basket Constituents. The way this note works results from two key features:

1. Redemption in instalments

III. GENERAL INFORMATION ON THE PROGRAMME

The Note will be partially redeemed in respect of a portion of the Nominal Amount by payment of the Instalment Cash Amount on the Instalment Settlement Date. Additionally, investors will receive a Coupon Amount calculated on the basis of the portion of the Nominal Amount due on this date or on the Coupon Payment Date (as specified in the applicable Final Terms).

Subject to an early redemption, as specified below and in the applicable Final Terms, the Notes are redeemed at maturity:

- a) if the Performance on the Last Observation Date is below or equal to or below (as specified in the applicable Final Terms) the Barrier, investors receive on the Final Settlement Date in respect of the Last Observation Date an amount equal to the product of the portion of the Nominal Amount that was not already redeemed on the Instalment Settlement Date (i.e., the Residual Amount) and the Performance, limited to a maximum of the Residual Amount; or
- b) if the Performance on the Last Observation Date is above or equal to or above (as specified in the applicable Final Terms) the Barrier, investors receive on the Final Settlement Date in respect of the Last Observation Date an amount equal to the portion of the Nominal Amount that was not already redeemed on the Instalment Settlement Date (i.e., the Residual Amount).

2. Early redemption

A check will be performed for this Autocallable Note on a Basket Average (with instalment redemption) on each Observation Date, as to whether the Performance is above or equal to or above (as specified in the applicable Final Terms) the Strike for such Observation Date. If the Performance is above or equal to or above (as specified in the applicable Final Terms) for such Observation Date the Note will be redeemed early on the relevant Settlement Date at the Final Cash Amount for such Observation Date.

Product No. N64: Autocallable Note with Conditional Coupons
--

The Autocallable Note with Conditional Coupons is linked to the performance of the Underlying. The way this Note works results from the following key features:

1. Coupon payments

The Coupon Amount payable on a Coupon Payment Date depends on the value, price or level (as specified in the applicable Final Terms) of the Underlying on the immediately preceding Observation Date.

- (a) If the Performance of the Underlying on an Observation Date is above or above or equal to (as specified in the applicable Final Terms) the Additional Coupon Threshold, investors will receive on the immediately following Coupon Payment Date a Coupon Amount equal to the product of (i) the Nominal Amount and (ii) the sum of the Additional Coupon plus the Coupon;
- (b) If the Performance of the Underlying on an Observation Date is below or below or equal to (as specified in the applicable Final Terms) the Additional Coupon Threshold but above or above or equal to (as specified in the applicable Final Terms) the Coupon Threshold, investors will receive on the immediately following Coupon Payment Date a Coupon Amount equal to the product of (i) the Nominal Amount and (ii) the Coupon;
- (c) If the Performance of the Underlying on an Observation Date is below or below or equal to (as specified in the applicable Final Terms) the Coupon Threshold, the Coupon Amount will be zero and no Coupon Amount will be paid on the immediately following Coupon Payment Date.

The Performance of the Underlying on an Observation Date is determined as the quotient of (A) the value, price or level (as specified in the applicable Final Terms) of the Underlying on an Observation Date, and (B) its Initial Reference Level.

2. Early redemption

A check will be performed for this Note on each Observation Date other than the Valuation Date, as to whether the Performance of the Underlying is above or above or equal to (as specified in the applicable Final Terms) the Redemption Threshold for such Observation Date (a Redemption Event). If a Redemption

III. GENERAL INFORMATION ON THE PROGRAMME

Event occurs, the Notes will be redeemed early at a Cash Amount equal to the product of (a) the Nominal Amount and (b) the sum of the Autocall Redemption Level for such Observation Date and the Autocall Additional Coupon for such Observation Date.

3. Redemption at maturity, subject to early redemption.

If the Final Performance of the Underlying:

- (a) is above or above or equal to (as specified in the applicable Final Terms) the Redemption Threshold for the Observation Date falling on the Valuation Date, investors receive on the Settlement Date a Cash Amount equal to the product of (i) the Nominal Amount and (ii) the sum of (A) one plus (B) the Final Additional Coupon;
- (b) is below or equal to or below (as specified in the applicable Final Terms) the Redemption Threshold for the Observation Date falling on the Valuation Date but above or above or equal to (as specified in the applicable Final Terms) the Barrier, investors receive on the Settlement Date a Cash Amount equal to the Nominal Amount; or
- (c) is below or below or equal to (as specified in the applicable Final Terms) the Barrier, investors receive on the Settlement Date a Cash Amount equal to greater of zero and the product of (i) the Nominal Amount and (ii) one minus the greater of (A) zero, and (B) the Put Strike minus the Final Performance of the Underlying.

The Final Performance of the Underlying is determined as the quotient of (A) the Final Reference Level, and (B) its Initial Reference Level.

Product No. N65: Enhanced Participation Note

The Enhanced Participation Note is linked to the performance of Underlying A and Underlying B.

On the Settlement Date, the Notes will be redeemed and the relevant Securityholder will receive an amount determined by the Issuer equal to the sum of (a) the Nominal Amount plus (b) the lower of (i) the Participation Payoff and (ii) the Maximum Amount, plus (c) the KIKOP Payoff.

If the Final Reference Level of Underlying A is less than or less than or equal to (as specified in the applicable Final Terms) the Strike, the Participation Payoff will be zero. If the Final Reference Level of Underlying A is greater than or equal to or greater than (as specified in the applicable Final Terms) the Strike, the Participation Payoff will be an amount equal to the product of (i) the Nominal Amount, (ii) the Participation Factor and (iii) the quotient of (x) and (y) where (x) is the difference between the Final Reference Level of Underlying A and the Strike of Underlying A (as numerator); and (y) is the Strike of Underlying A (as denominator). If specified in the Final Terms, the Participation payoff will not be greater than the Maximum Amount.

If on an Observation Date or at any time or on any day during the Observation Period (as specified in the applicable Final Terms) the Reference Level of Underlying B is or has been above or equal to or above (as specified in the applicable Final Terms) the Knock-Out Level, or if the Final Reference Level of Underlying B is greater than or equal to or greater than (as specified in the applicable Final Terms) the Knock-In Level, the KIKOP Payoff will be zero. Otherwise, if on an Observation Date or at any time or on any day during the Observation Period (as specified in the applicable Final Terms) the Reference Level of Underlying B is not or has never been equal to or equal to or above (as specified in the applicable Final Terms) the Knock-Out Level and if the Final Reference Level of Underlying B is lower than or equal to or lower than (as specified in the applicable Final Terms) the Knock-In Level, the KIKOP Payoff will be the product of (x) the Nominal Amount and (y) the quotient of (A) and (B) where (A) is the difference between the Final Reference Level of Underlying B and the Initial Reference Level of Underlying B (as numerator); and (B) the Initial Reference Level of Underlying B (as denominator).

For the avoidance of doubt the KIKOP Payoff (if any) will be a negative amount.

III. GENERAL INFORMATION ON THE PROGRAMME

Investors may assert no further claims in relation to the Underlying (e.g., voting rights, dividends) in return for the increased opportunity to participate in the performance of the Underlying.

Product No. N66: Capital Protected Lock-In Note

This Capital Protected Lock-In Note is 100% capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

The Capital Protected Lock-In Note is linked to the performance of the Underlying. The product works as follows:

Redemption at maturity

Investors can participate in the positive performance of the Underlying. On each Observation Date, the performance since the Initial Valuation Date is determined. Positive performance is taken into account either to an unlimited extent or up to a maximum of a Cap (as specified in the applicable Final Terms) and is locked-in in steps - the Locked Performance is the highest step achieved by the greatest Performance Factor observed across all the Observation Dates.

On the Settlement Date, investors receive as the Cash Amount the Nominal Amount or, if higher an amount equal to the sum of (a) the Nominal Amount and (b) the product of the Nominal Amount, the Participation Factor and the performance of the Underlying since the Initial Valuation Date, subject to the Locked Performance and a maximum of a Cap (if specified in the applicable Final Terms).

Product No. N67: Lookback Note

The Lookback Note is linked to the performance of the Underlying. The way the product works results from three key features:

1. Coupon payments

- (a) If the performance of the Underlying based on the lowest official closing price or, as the case may be, closing level of the Underlying during the Lookback Period or on the Lookback Observation Dates (as specified in the applicable Final Terms) is above or equal to or above (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, investors will receive the Coupon Amount (Coupon Payment) at the next Coupon Payment Date.
- (b) If the performance of the Underlying based on the lowest official closing price or, as the case may be, closing level of the Underlying during the Lookback Period or on the Lookback Observation Dates (as specified in the applicable Final Terms) is below or equal to or below (as specified in the applicable Final Terms) the Coupon Threshold on a Coupon Observation Date, no Coupon Payment will be made at the next Coupon Payment Date.

2. Early redemption

If the performance of the Underlying based on the lowest official closing price or, as the case may be, closing level of the Underlying during the Lookback Period or on the Lookback Observation Dates (as specified in the applicable Final Terms) is above or equal to or above (as specified in the applicable Final Terms) the relevant Redemption Threshold on an Observation Date, the Lookback Note will be redeemed early at the Nominal Amount. Any Coupon Payments will be made additionally should the coupon conditions occur.

3. Redemption at maturity

If there is no early redemption, investors will receive a Cash Amount on the Settlement Date which is determined depending on the performance of the Underlying as follows:

III. GENERAL INFORMATION ON THE PROGRAMME

- (a) If the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Barrier, investors will receive the Nominal Amount on the Settlement Date.
- (b) If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Barrier, the Lookback Note will participate 1:1 in the negative performance of the Underlying based on the lowest official closing price or, as the case may be, closing level of the Underlying during the Lookback Period.

If the Final Terms specify this, any Coupon Payments, will be made additionally should the coupon conditions occur.

Investors limit their return to the Nominal Amount and Coupon Payments in return for the possibility of early redemption.

Product No. N68: Top Rank Note

This Top Rank note is either capital protected at maturity (to the extent specified in the applicable Final Terms) or not capital protected as specified in the applicable Final Terms. Capital protection means that redemption at maturity is promised at the percentage of the Nominal Amount specified in the applicable Final Terms. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

The Top Rank Note is linked to the performance of the Basket Constituents. The product works as follows:

Redemption at maturity

Investors will receive a Cash Amount on the Settlement Date which depends on the performance of the Worst Performing Basket Constituents on the Valuation Dates (with or without capital protection as specified in the Product Terms) as follows:

Investors will receive an amount equal to the product of (i) the Nominal Amount; (ii) the Participation Factor; and (iii) the higher of (a) the sum of the performance of a specified number of bottom ranking Basket Constituents plus a Fixed Rate of interest multiplied by a Multiplier specified in the Product Terms; and (b) either zero or the Nominal Amount or a percentage of the Nominal Amount (if capital protection is specified in the Product Terms)

Product No. N69: Coupon Note with performance payout

The Coupon Note with performance payout is linked to the performance of the Underlying.

1. Coupon payments

On the Coupon Payment Dates the Note pays either (i) a Coupon Amount, comprising a fixed Coupon Amount (fixed rate of interest) or (ii) a Coupon Amount which increases during the term (as specified in the Final Terms)

2. Redemption at maturity

- (a) If the Final Reference Level is equal to or above or above (as specified in the applicable Final Terms) the Barrier, investors receive payment of the Specified Reference Level for each Note on the Settlement Date.
- (b) If the Final Reference Level is lower than or lower than or equal to (as specified in the applicable Final Terms) the Barrier, investors receive payment of the Nominal Amount for each Note on the Settlement Date.

Product No. N70: 100% Capital Guaranteed Note

The 100% Capital Guaranteed Note is 100% capital protected at maturity. Capital protection means that redemption of the 100% Capital Guaranteed Note, at maturity is promised at the Nominal Amount. The

III. GENERAL INFORMATION ON THE PROGRAMME

redemption is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

On the Settlement Date, investors receive at least the Nominal Amount:

- (a) if at all times during the Observation Period the Barrier Determination Amount has been equal to or below or below the Barrier as specified in the applicable Final Terms, investors participate in the performance of the Underlying based on the Initial Reference Level, subject to a minimum of the Nominal Amount on the Settlement Date.
- (b) If at any time during the Observation Period the Barrier Determination Amount has not been equal to or below or below the Barrier, as specified in the applicable Final Terms, investors will receive an amount equal to a percentage higher than 100% of the Nominal Amount as specified in the applicable Final Terms on the Settlement Date.

Product No. N71: 100% Steepener Note With Lock In

The Steepener Note is 100% capital protected at maturity. Capital protection means that redemption of the Steepener Note at maturity is promised at the Nominal Amount. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

If the Product Terms specify that the Redemption Right of Issuer applies, the Issuer may by giving notice to holders redeem the Steepener Note on the Redemption Date without any specific conditions needing to be fulfilled. If the Issuer exercises its right to do so, the Steepener Note will be redeemed early at the Nominal Amount on the Redemption Date.

Provided that the Steepener Note has not been redeemed by the Issuer, investors will receive coupon payments on the Coupon Payment Date(s).

If specified in the Product Terms, the Steepener Note has a fixed Coupon for a set number of Coupon Periods specified in the Product Terms. In the subsequent Coupon Periods or, as the case may be, if specified in the Product Terms, in all Coupon Periods, investors receive variable Coupon Payments on each Coupon Payment Date or on each of the Coupon Payment Dates during the term. The amount of the variable Coupon Payments depends on the difference between two Reference Rates specified in the Product Terms multiplied by the Leverage Factor, if specified in the Final Terms. The Coupon is, however, limited to the Maximum Coupon. If specified in the Final Terms, the Coupon is, however, a minimum of the Minimum Coupon.

If the Coupon determined for a Coupon Period equals the Maximum Coupon, the Coupon for this and all subsequent Coupon Periods will be a fixed Coupon equal to the Maximum Coupon.

Product No. N72: Worst of Basket Autocallable Note (with basket averaging)

The Worst of Basket Autocallable Note (with basket averaging) is linked to the performance of the Basket Constituents. The way this Note works results from the following key features:

1. Coupon payments

The Coupon Amount payable on a Coupon Payment Date depends on the Average Coupon Performance of the Basket Constituents on the immediately preceding Coupon Observation Date(s)

In respect of a Coupon Observation Date(s):

- a) If a Coupon Threshold Event occurs investors will receive the Coupon Amount (Coupon Payment) at the next Coupon Payment Date
- b) If a Coupon Threshold Event does not occur the Coupon Amount will be zero and no Coupon Payment will be made at the next Coupon Payment Date, or (if specified in the applicable Final Terms) investors will receive the Coupon Amount equal to a specified percentage of the Nominal Amount (Lower Coupon Payment) at the next Coupon Payment Date (where, if specified in the Final Terms, such percentage may be different for each Coupon Payment Date).

III. GENERAL INFORMATION ON THE PROGRAMME

In respect of the performance of the Basket Constituents, a Coupon Threshold Event will occur if either (i) the arithmetic average of the price, level or value of the Basket Constituents at any time on such Coupon Observation Date(s) or (ii) the arithmetic average of the closing price, closing level or closing value of the Basket Constituents on such Coupon Observation Date(s) (the Average Coupon Performance), as specified in the Final Terms, is equal to or greater than (as specified in the applicable Final Terms) the Coupon Threshold

2. Early redemption

If the applicable Final Terms specify early redemption, a check will be performed for this Note on each Observation Date, as to whether the arithmetic average of the closing price, closing level or closing value of the Basket Constituents on such Observation is greater than or equal to (as specified in the applicable Final Terms) the Redemption Threshold. If it is, the Notes will be redeemed early at 100 per cent. of the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms), plus (if specified in the applicable Final Terms) the relevant percentage of the Nominal Amount (as specified in the applicable Final Terms).

3. Redemption at maturity, subject to early redemption if this is specified in the applicable Final Terms

- a) On the Settlement Date investors receive the Nominal Amount if the arithmetic average of the closing price, closing level or closing value of the Basket Constituents is above or at or above (as specified in the applicable Final Terms) the Barrier, or
- b) if the arithmetic average of the closing price, closing level or closing value of the Basket Constituents is below or at or below (as specified in the applicable Final Terms) the Barrier, investors receive a Cash Amount equal to the product of (i) the Nominal Amount and (ii) the quotient of the arithmetic average of the Reference Level of each Basket Constituent divided by the Initial Reference Level of each Basket Constituent.

The Performance of the Basket Constituents is determined as the quotient of (A) the Reference Level of each Basket Constituent on the relevant date (as numerator), and (B) the Initial Reference Level of each Basket Constituent (as denominator).

Product No. N73: Fixed to Floating Reverse Convertible Note
--

The Fixed to Floating Reverse Convertible Note is linked to the performance of the Underlying. The way this Note works results from two key features:

1. Coupon payments

The Note pays a fixed Coupon on each Coupon Payment Date for a set number of Coupon Periods (as specified in the applicable Final Terms) and in the subsequent Coupon Periods investors receive variable Coupon Payments on each Coupon Payment Date. The amount of any variable Coupon Payments depends on the performance of a Reference Rate, multiplied by a Participation Factor equal to a predetermined percentage, if specified in the applicable Final Terms.

If specified in the applicable Final Terms, the Coupon will, however, be a minimum of the Minimum Coupon and/or a maximum of the Maximum Coupon.

2. Redemption at maturity

- a) On the Settlement Date investors receive the Nominal Amount if:
 - (i) the Final Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Barrier; or
 - (ii) on any Observation Date the Reference Level is above or equal to or above (as specified in the applicable Final Terms) the Knock-Out Barrier (a "**Knock Out Event**")
- b) If the Final Reference Level is below or equal to or below (as specified in the applicable Final Terms) the Strike or a Knock Out Event has not occurred, investors receive a Cash Amount equal

III. GENERAL INFORMATION ON THE PROGRAMME

to the Final Reference Level taking into account the Multiplier, and participate 1:1 in the performance of the Underlying based on the Strike.

In return for the above average Coupon Payment, investors risk a possible loss of capital.

Product No. N74: Switchable Note with performance payout

This Switchable Note is 100% (or such other percentage as specified in the applicable Final Terms) capital protected at maturity. Capital protection means that redemption at maturity is promised at the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms). The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

If a Switch Event does not occur on a Switch Event Date, investors participate in the positive and negative performance of the Underlying based on the Strike at maturity.

If a Switch Event occurs on a Switch Event Date, the Switch Coupon is paid on each Coupon Payment Date following such Switch Event Date (with the Switch Coupon in respect of any prior Coupon Payment Date being added to the amount paid on the first such following Coupon Payment Date).

A Switch Event occurs where the Calculation Agent determines that the fair value of a note with the same characteristics as the Switchable Note but without the switch option is greater than the fair value of a bond equal to the Switchable Note for which a Switch Event has occurred and therefore pays a coupon equal to the sum of the Guaranteed Coupon and the Switch Coupon, or where the Issuer, **in its the sole and absolute discretion**, decides to delink the payments under the Notes from the performance of the Underlying, and determines to pay a fixed coupon on each Coupon Payment Date and to pay only the Nominal Amount (or such other percentage of the Nominal Amount as specified in the applicable Final Terms) on redemption at maturity, each as specified in the applicable Final Terms.

Product No. N75: Partial Capital Protection Note

The Partial Capital Protection Note is capital protected at maturity at a percentage of the Nominal Amount specified in the Final Terms and linked to the performance of the Underlying. This partial capital protection means that redemption of the Partial Capital Protection Note at maturity is promised at the percentage of the Nominal Amount specified in the Final Terms. The redemption, which will not take place until maturity, is not guaranteed by a third party, but solely assured by the Issuer and is therefore dependent on the Issuer's ability to meet its payment obligations.

At maturity, investors will receive the Cash Amount being the product of the Nominal Amount multiplied by the greater of (a) and (b) where

- (a) is the greater of a specified percentage or Performance; and
- (b) is 100 per cent plus the Participation Factor multiplied by Performance minus 1.

As a formula:

Nominal Amount * max {max {[%], (Performance)}, 100% + Participation Factor * (Performance – 1)}

III. GENERAL INFORMATION ON THE PROGRAMME

E. GENERAL DESCRIPTION OF THE UNDERLYING

The Securities may relate to shares or equity securities, indices, other securities, commodities, exchange rates, futures contracts, fund units or shares and/or interest rates.

If the Underlying is an index, this index is not composed by the Issuer or a legal entity belonging to Deutsche Bank Group.

The applicable Final Terms will stipulate the relevant Underlying and specify where information about the relevant Underlying can be found, particularly about its past and future performance and its volatility, and whether the Issuer intends to provide further information about the Underlying.

If the Underlying is or has as a constituent an index which is provided by a legal entity or a natural person acting in association with, or on behalf of, the Issuer, the governing rules (including the methodology of the index for the selection and the re-balancing of the components of the index and the description of market disruption events and adjustment rules) will be based on predetermined and objective criteria. In addition, the complete set of rules of the index and information on the performance of the index will be freely accessible on <https://index.db.com/>.

III. GENERAL INFORMATION ON THE PROGRAMME

F. GENERAL INFORMATION ABOUT THE OFFERING OF THE SECURITIES

1. Listing and Trading

Application may be made for admission of the Securities to trading on one or more stock exchanges or multilateral trading facilities or markets, including but not limited to the Luxembourg Stock Exchange, the Borsa Italiana MOT regulated market, the Borsa Italiana SeDeX multilateral trading facility, the Euronext Lisbon regulated market and on any or all of the Spanish Stock Exchanges, the AIAF Fixed Income Securities Market (AIAF) or other Spanish regulated markets. Securities which are neither admitted to trading nor listed on any market may also be issued.

The applicable Final Terms will state whether or not the relevant Securities are to be admitted to trading and/or listed and, if so, on which stock exchange(s) and/or multilateral trading facility(ies) and/or markets. In addition, the applicable Final Terms will state whether or not the Securities will be publicly offered in connection with their issue.

In the case of admission to trading and/or a listing, the applicable Final Terms specify the minimum trading size, if applicable, and contain an estimate of the total costs for admission to trading.

2. Offering of Securities

The applicable Final Terms will state the details regarding the terms and conditions of the offer of the Securities.

In particular, the following information, if applicable, will be presented in the applicable Final Terms to the extent applicable:

- Minimum or maximum subscription amount for investors
- Description of the Subscription Period or Offering Period and the early closing of the Subscription Period or Offering Period
- Details of the cancellation of the issuance of the Securities
- Conditions to which the offer is subject
- Description of the application process
- Description of the possibility to reduce subscriptions and manner for refunding excess amounts paid by applicants
- Details of the method and time limits for paying up and delivering the Securities
- Manner in and date on which results of the offer are to be made public
- Procedure for exercise of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised
- Process for notification to applicants of the amount allotted and the indication whether dealing may begin before notification is made
- Amount of any expenses and taxes specifically charged to the subscriber or purchaser
- Name(s) and address(es), to the extent known to the Issuer, of the placement agents in the various countries where the offer takes place

The applicable Final Terms will state whether the Securities will be offered to a category of non-qualified investors and whether the offering of individual tranches is restricted to certain countries.

3. Fees

The applicable Final Terms will state, if applicable, the type and amount of fees which the Issuer will pay or charge, which may include a Placement Fee and/or a Trailer Fee as specified in the applicable Final Terms.

III. GENERAL INFORMATION ON THE PROGRAMME

4. **Security Ratings**

Securities to be issued under the Programme may or may not be rated. A security rating is not a recommendation to buy, sell, or hold securities, and may be subject to suspension, downgrading, or withdrawal by the rating agency. The applicable Final Terms will specify whether the Securities have a rating and if they do, what rating they have.

5. **Interests of Natural and Legal Persons involved in the Issue**

The Final Terms may contain, if relevant, further information which is material to the offering about interests of natural and legal persons involved in the issue.

6. **Reasons for the Offer, Estimated Net Proceeds and Total Expenses**

The reasons for the offer are making profit and/or hedging certain risks and the net proceeds from the issue of any Securities under this Base Prospectus will be applied by the Issuer for its general corporate purposes.

If reasons for the offer differ from making a profit and/or hedging certain risks, these reasons will be specified in the Final Terms. If the net proceeds of an issue by the Issuer will not be used for its general corporate purposes or if the proceeds are to be used for several purposes, the applicable Final Terms will contain further information, including the intended principal uses and the order of priority of the uses.

In addition, the Final Terms will specify any estimated total costs.

7. **Country Specific Information**

The applicable Final Terms will contain information about any Agents in the country or countries where the Securities are offered.

8. **Yield**

In the case of fixed rate Securities, the Final Terms will specify the yield. Such yield is not an indication of future yield. The yield is calculated (i) on the basis of the Issue Price and based on the Nominal Amount taking into account the Coupon and the Day Count Fraction or (ii) according to the ISMA method, as specified in the relevant Final Terms. This is a method for calculating the yield in which the daily effective interest yield is taken into account. The interest accrued each day is thus added to the capital invested and included in the interest calculation for the following day in each case.

9. **Tradability of Securities**

After the Issue Date, the Securities could generally be purchased or sold on exchange or over the counter.

The Issuer may provide indicative bid and offer prices within a bid-offer spread (market making) on an ongoing basis for the Securities under normal market conditions, but has no legal obligation to do so. In exceptional market situations or in the event of technical problems, a purchase or sale of Securities may be temporarily impeded or impossible.

H. GENERAL INFORMATION

1. Authorisation

The establishment of the Programme and the issue of Securities thereunder have been duly authorised by the competent representatives of Deutsche Bank.

The establishment of the Programme is considered to be in the ordinary course of Deutsche Bank's business and therefore was not authorised by board resolutions.

Deutsche Bank has obtained or will obtain from time to time all necessary consents, approvals and authorisations in connection with the issue and performance of its obligations under the Securities.

2. Material Adverse Change in the Prospects of Deutsche Bank and Significant Change in Deutsche Bank's Financial or Trading Position

There has been no material adverse change in the prospects of Deutsche Bank since 31 December 2017. There has been no significant change in the financial position or the trading position of Deutsche Bank Group since 30 September 2018.

3. Any Recent Events Particular to the Issuer which are to a Material Extent Relevant to the Evaluation of the Issuer's Solvency

There are no recent events particular to the Issuer which are to a material extent relevant to the evaluation of the Issuer's solvency.

4. Legal and Arbitration Proceedings

Save as disclosed in the 2018 EMTN Base Prospectus (as supplemented from time to time), on the pages identified in items a) – e) of the Cross Reference List in section "G. Documents Incorporated by Reference" above (on page [281]) as relating to "Legal and Arbitration Proceedings", there have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the issuer is aware) during the last twelve months which may have, or have had in the recent past, significant events on the Issuer's financial position or profitability.

5. Post Issuance Information

The Issuer does not intend to provide any post-issuance information in relation to any assets underlying any issues of Securities under this programme, except if required by any applicable law or regulation or if indicated in the applicable Final Terms.

6. Use of Proceeds

The net proceeds from the issue of any Securities under this Base Prospectus will be applied by the Issuer for its general corporate purposes. A substantial portion of the proceeds from the issue of certain Securities may be used to hedge market risk with respect to such Securities.

7. Consent to Use of Prospectus

With respect to Article 3(2) of the Prospectus Directive the Issuer consents, to the extent and under the conditions, if any, indicated in the relevant Final Terms, to the use of this Base Prospectus for any of the following periods as specified in the relevant Final Terms: (i) the Offering Period specified in the relevant Final Terms, (ii) the Subscription Period specified in the relevant Final Terms; or (iii) as long as this Base Prospectus is valid in accordance with Article 9 of the Prospectus Directive, and accepts responsibility for the content of this Base Prospectus also with respect to subsequent resale or final placement of Securities, during such period, by any financial intermediary which was given consent to use the prospectus.

Such consent may be given to all (general consent) or only one or more (individual consent) specified financial intermediaries, as stated in the Final Terms, and for the following member states, where this Base Prospectus has been approved or in which this Base Prospectus has been

III. GENERAL INFORMATION ON THE PROGRAMME

passport and which will be indicated in the relevant Final Terms: Luxembourg, Belgium, Denmark, Finland, France, Italy, Norway, Portugal, Spain, Sweden and the United Kingdom.

Such consent by the Issuer is subject to each dealer and/or financial intermediaries complying with (i) the terms and conditions described in this Base Prospectus and the relevant Final Terms, (ii) the Offering Period or the Subscription Period as specified in the relevant Final Terms as well as (iii) any applicable selling restrictions. The distribution of this Base Prospectus, any supplement to this Base Prospectus, if any, and the relevant Final Terms as well as the offering, sale and delivery of Securities in certain jurisdictions may be restricted by law.

Each dealer and/or each financial intermediary, if any, and/or each person into whose possession this Base Prospectus, any supplement to this Base Prospectus, if any, and the relevant Final Terms come are required to inform themselves about and observe any such restrictions. The Issuer reserves the right to withdraw its consent to the use of this Base Prospectus in relation to certain dealers and/or each financial intermediary.

In case of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made.

If the Final Terms state that the consent to use the Prospectus is given to all financial intermediaries (general consent), any financial intermediary using the Prospectus has to state on its website that it uses the Prospectus in accordance with the consent and the conditions attached thereto.

If the Final Terms state that the consent to use the prospectus is given to one or more specified financial intermediaries (individual consent), any new information with respect to financial intermediaries unknown at the time of the approval of the Prospectus or the filing of the Final Terms will be published on the internet page www.xmarkets.db.com.

8. Ratings of the Issuer

Deutsche Bank is rated by Moody's Investors Service, Inc. ("Moody's"), Standard & Poor's Credit Market Services Europe Limited ("S&P"), Fitch Ratings Limited ("Fitch"), and DBRS, Inc. ("DBRS", together with Fitch, S&P and Moody's, the "Rating Agencies").

S&P and Fitch are established in the European Union and have been registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009, as amended, on credit rating agencies ("CRA Regulation"). With respect to Moody's, the credit ratings are endorsed by Moody's office in the UK, Moody's Investors Service Ltd., in accordance with Article 4(3) of the CRA Regulation. With respect to DBRS, the credit ratings are endorsed by DBRS Ratings Ltd in the UK in accordance with Article 4(3) of the CRA Regulation. Moody's Investors Service Ltd. and DBRS Ratings Ltd are established in the European Union and have been registered in accordance with the CRA Regulation.

As of the date of this Base Prospectus, the following long-term and short-term senior debt ratings were assigned to Deutsche Bank:

by Moody's

Long-term non-preferred senior debt: Baa3

Short-term senior debt: P-2

Moody's defines:

Baa3: Obligations rated "Baa" are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Moody's long-term obligation ratings are divided into several categories ranging from "Aaa", reflecting the highest quality, subject to the lowest level of credit risk, over

III. GENERAL INFORMATION ON THE PROGRAMME

categories "Aa", "A", "Baa", "Ba", "B", "Caa", "Ca" to category "C", reflecting the lowest rated obligations which are typically in default, with little prospect for recovery of principal or interest. Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from "Aa" through "Caa". The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

P-2: Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

Moody's short-term obligation ratings are divided into several categories ranging from "P-1", reflecting a superior ability of an issuer to repay short-term debt obligations, over categories "P-2" and "P-3" to category "NP", reflecting that an issuer does not fall within any of the Prime rating categories.

Rating
Outlook/
Review:

A rating outlook is an opinion regarding the likely rating direction over the medium term. Rating outlooks fall into four categories: Positive (POS), Negative (NEG), Stable (STA), and Developing (DEV). A designation of RUR (Rating(s) Under Review) indicates that an issuer has one or more ratings under review, which overrides the outlook designation. A stable outlook indicates a low likelihood of a rating change over the medium term. A negative, positive or developing outlook indicates a higher likelihood of a rating change over the medium term.

A review indicates that a rating is under consideration for a change in the near term. A rating can be placed on review for upgrade (UPG), downgrade (DNG), or more rarely with direction uncertain (UNC). A review may end with a rating being upgraded, downgraded, or confirmed without a change to the rating. Ratings on review are said to be on Moody's "Watchlist" or "On Watch". Ratings are placed on review when a rating action may be warranted in the near term but further information or analysis is needed to reach a decision on the need for a rating change or the magnitude of the potential change.

by S&P: Long-term senior debt: BBB-
 Short-term senior debt: A-2

S&P defines:

BBB-: An obligation rated "BBB" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

Long-term issue credit ratings by S&P are divided into several categories ranging from "AAA", reflecting an extremely strong capacity of the obligor to meet its financial commitment on the obligation, over categories "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C" to category "D", reflecting that an obligation is in default or in breach of an imputed promise. The ratings from "AA" to "CCC" may be modified by the addition of a plus ("+") or minus ("-") sign to show relative standing within the major rating categories.

A-2: An obligation rated "A-2" is somewhat more susceptible to the adverse effects of

III. GENERAL INFORMATION ON THE PROGRAMME

changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

Short-term issue credit ratings by S&P are divided into several categories ranging from "A-1", reflecting a strong capacity of the obligor to meet its financial commitment on the obligation, over categories "A-2", "A-3", "B", "C" to category "D", reflecting that an obligation is in default or in breach of an imputed promise.

Outlook / An S&P rating outlook assesses the potential direction of a long-term credit rating
Credit / over the intermediate term (typically six months to two years). In determining a
Watch: / rating outlook, consideration is given to any changes in the economic and/or
fundamental business conditions. An outlook is not necessarily a precursor of a
rating change or future CreditWatch action. Rating outlooks fall into five categories:
positive, negative, stable, developing and n.m. (not meaningful).

CreditWatch highlights S&P's opinion regarding the potential direction of a short-term or long-term rating. It focuses on identifiable events and short-term trends that cause ratings to be placed under special surveillance by S&P's analytical staff. A CreditWatch listing, however, does not mean a rating change is inevitable, and when appropriate, a range of potential alternative ratings will be shown. CreditWatch is not intended to include all ratings under review, and rating changes may occur without the ratings having first appeared on CreditWatch. The "positive" designation means that a rating may be raised; "negative" means a rating may be lowered; and "developing" means that a rating may be raised, lowered, or affirmed.

by Fitch: Long-term non-preferred senior debt: BBB+
Short-term senior debt: F2

Fitch defines:

BBB+: A rating of "BBB" denotes expectations of low credit risk. The capacity for payment of financial commitments is considered adequate. This capacity may, nevertheless, be more likely to be impaired by adverse business or economic conditions than in the case of higher ratings.

Fitch's long-term ratings are divided into several major categories ranging from "AAA", reflecting the lowest expectation of credit risk, over categories "AA", "A", "BBB", "BB", "B", "CCC", "CC" to category "C", reflecting exceptionally high levels of credit risk. Defaulted obligations typically are not assigned "RD" or "D" ratings, but are instead rated in the "B" to "C" rating categories, depending upon their recovery prospects and other relevant characteristics. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the "AAA" obligation rating category or to obligation ratings below "CCC".

The subscript "emr" is appended to a rating to denote embedded market risk which is beyond the scope of the rating. The designation is intended to make clear that the rating solely addresses the counterparty risk of the issuing bank. It is not meant to indicate any limitation in the analysis of the counterparty risk, which in all other respects follows published Fitch criteria for analysing the issuing financial institution.

F2: A rating of "F2" indicates the good intrinsic capacity for timely payment of financial commitments. It may have an added "+" to denote any exceptionally good credit feature.

III. GENERAL INFORMATION ON THE PROGRAMME

Fitch's short-term ratings are divided into several categories ranging from "F1", reflecting the strongest intrinsic capacity for timely payment of financial commitments, over categories "F2", "F3", "B", "C", "RD" to category "D" which indicates a broad-based default event for an entity, or the default of a short-term obligation.

Outlook / Rating Watch: Rating Outlooks indicate the direction a rating is likely to move over a one- to two-year period. They reflect financial or other trends that have not yet reached the level that would trigger a rating action, but which may do so if such trends continue. Positive or Negative rating Outlooks do not imply that a rating change is inevitable and, similarly, ratings with Stable Outlooks can be raised or lowered without a prior revision to the Outlook, if circumstances warrant such an action. Occasionally, where the fundamental trend has strong, conflicting elements of both positive and negative, the Rating Outlook may be described as Evolving.

Rating Watches indicate that there is a heightened probability of a rating change and the likely direction of such a change. These are designated as "Positive", indicating a potential upgrade, "Negative", for a potential downgrade, or "Evolving" if ratings may be raised, lowered or affirmed. However, ratings that are not on Rating Watch can be raised or lowered without being placed on Rating Watch first, if circumstances warrant such an action.

by DBRS:

Long-term non-preferred senior debt: BBB (high) (negative)

Short-term senior debt: R-1 (low) (stable)

DBRS defines:

BBB (high): Adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.

Long-term obligations ratings by DBRS are divided into several categories ranging from "AAA", reflecting the highest credit quality, over categories "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C" to category "D", reflecting when the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods. All rating categories other than "AAA" and "D" also contain subcategories "(high)" and "(low)". The absence of either a "(high)" or "(low)" designation indicates the rating is in the middle of the category.

R-1 (low): Good credit quality. The capacity for the payment of short-term financial obligations as they fall due is substantial. Overall strength is not as favourable as higher rating categories. May be vulnerable to future events, but qualifying negative factors are considered manageable.

DBRS's short-term debt ratings are divided into several categories ranging from "R1", reflecting the highest credit quality, over categories "R-2", "R-3", "R-4", "R-5" to category "D" reflecting when the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods. The "R-1" and "R-2" rating categories are further denoted by the subcategories "(high)", "(middle)", and "(low)".

III. GENERAL INFORMATION ON THE PROGRAMME

Stable/ Under Review - Negative: Rating trends provide guidance in respect of DBRS's opinion regarding the outlook for a rating. Rating trends have three categories: "positive", "stable" or "negative". The rating trend indicates the direction in which DBRS considers the rating may move if present circumstances continue, or in certain cases, unless challenges are addressed by the issuer.

It is often the rating trend that reflects the initial pressures or benefits of a changing environment rather than an immediate change in the rating. A positive or negative trend is not an indication that a rating change is imminent. Rather, a positive or negative trend represents an indication that there is a greater likelihood that the rating could change in the future than would be the case if a stable trend was assigned to the security.

Generally, the conditions that lead to the assignment of a negative or positive trend are resolved within a twelve month period. However, in some instances, new factors emerge which may cause the positive or negative trend to be maintained, even as the original factors become clarified or resolved.

DBRS places ratings "Under Review" in situations where a significant event occurs that directly impacts the credit quality of a particular entity or group of entities and if there is uncertainty regarding the outcome of the event and DBRS therefore is unable to provide an objective, forward-looking opinion in a timely fashion. DBRS also places ratings "Under Review" in situations where, in the opinion of DBRS, the current rating on the security may no longer be appropriate due to a change in the credit status of the issuing entity for other reasons and additional time is required for further analysis. Furthermore, DBRS may also place a rating "Under Review" if DBRS has announced that one or more of its methodologies that apply to such a rating is being revised and the announcement indicates that the outcome of the rating affected by the revision is uncertain. Using "Under Review – Positive" or "Under Review – Negative" is a more significant action than changing a rating trend to positive or negative as rating changes are considered more likely with the former than the latter.

9. Known trends affecting the Issuer and the industries in which it operates

With the exception of the effects of the macroeconomic conditions and market environment, litigation risks associated with the financial markets crisis as well as the effects of legislation and regulations applicable to financial institutions in Germany and the European Union, there are no known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the Issuer's prospects in its current financial year.

10. Administrative, management and supervisory bodies

In accordance with German law, Deutsche Bank has both a **Management Board** (*Vorstand*) and a **Supervisory Board** (*Aufsichtsrat*). 12. Trend Information – Recent Developments

On 22 March 2018, Deutsche Bank announced that the placement price for shares of DWS Group GmbH & Co. KGaA (DWS) offered in the Initial Public Offering (IPO) of DWS had been set at EUR 32.50 per share. The price range for the shares offered in the IPO was announced by Deutsche Bank on 11 March 2018. At the time of the announcement dated 22 March 2018 in total, 44,500,000 existing DWS shares had been placed with new investors, equaling a total placement volume of about EUR 1.4 billion, including 4,500,000 shares to cover over-allotments. According to the announcement of Deutsche Bank as of 11 March 2018, Nippon Life Insurance Company agreed to acquire a 5.0 per cent. stake in DWS in the IPO.

On 24 May 2018, Deutsche Bank announced that it will significantly reshape its Equities Sales & Trading business. Overall, Deutsche Bank aims to reduce headcount in this area by approximately 25 per cent. In Cash Equities, it will concentrate on electronic solutions and its most significant clients globally. In Prime Finance, Deutsche Bank will reduce leverage exposure by a quarter, equivalent to a reduction of approximately EUR 50 billion. These business reductions will contribute to a decrease in leverage exposure in the Corporate & Investment Bank of over EUR 100 billion. This is approximately 10 per cent. of the EUR 1,050 billion of leverage exposure reported at the end of the first quarter of 2018. The majority of this reduction is expected to be achieved by the end of 2018. Together with Deutsche Bank's decision to right-size the expense base in the Corporate & Investment Bank, Deutsche Bank will accelerate the pace of cost reduction across the organisation. In 2018, as announced earlier, Deutsche Bank envisages adjusted costs not to exceed EUR 23 billion. For 2019, the Management Board plans to reduce adjusted costs to EUR 22 billion with no further significant disposals currently planned. In connection with the implementation of these plans, the number of full-time equivalent positions is expected to fall from just over 97,000 currently to well below 90,000. The associated personnel reductions are underway. The Management Board reaffirms its target of a post-tax return on average tangible equity of approximately ten per cent in a normalised business environment. Deutsche Bank will seek to reach this goal from 2021 onwards. Although results in 2018 will

III. GENERAL INFORMATION ON THE PROGRAMME

reflect the impact of the aforementioned actions, including planned restructuring charges of up to EUR 800 million, Deutsche Bank aims to deliver steady growth in return on capital over the coming years.

On 1 February 2019, Deutsche Bank reported preliminary unaudited figures for the fourth quarter 2018 and the full year 2018, as follows:

Deutsche Bank reported group net income of EUR 341 million for the financial year 2018, versus a net loss of EUR 735 million in 2017. Net income attributable to Deutsche Bank shareholders was EUR 267 million, versus a negative EUR 751 million in 2017. Profit before tax¹ was EUR 1.3 billion for the financial year 2018, up 8 per cent. versus 2017. The Management Board intends to recommend to the Supervisory Board a dividend of 11 cents per share in respect of 2018.

Delivery on 2018 adjusted cost and headcount targets

Deutsche Bank delivered ahead of target on costs. Noninterest expenses were EUR 23.5 billion in the financial year 2018, down 5 per cent. year-on-year. Adjusted costs² of EUR 22.8 billion, down 5 per cent., were below Deutsche Bank's full-year 2018 target of EUR 23.0 billion.

Workforce reductions met Deutsche Bank's 2018 target. On a full-time equivalent (FTE) basis, the number of internal employees was reduced to around 91,700 at the end of 2018, meeting Deutsche Bank's year-end target of below 93,000. Reductions more than offset hiring in growth areas and control functions.

2019 targets reaffirmed or upgraded

Given the progress in 2018, management has lowered its 2019 adjusted cost target to EUR 21.8 billion, versus EUR 22 billion previously. Management reaffirmed its target to reduce the internal workforce to well below 90,000 by the end of 2019. Additionally, Deutsche Bank reaffirmed its commitment to its plans to achieve a post-tax Return on Tangible Equity (RoTE) target of above 4 per cent. in 2019.

Revenues: down 4 per cent. in a challenging environment

Full-year net revenues were EUR 25.3 billion in 2018, down 4 per cent. versus 2017. This development reflects strategic measures to focus the business, challenging financial markets, particularly in the final quarter, together with negative Deutsche Bank-specific news including a raid by state prosecutors on Deutsche Bank's premises in late November.

Solid capital, risk and balance sheet: a foundation for growth

The Common Equity Tier 1 (CET1) ratio was 13.6 per cent. at the end of 2018, consistent with Deutsche Bank's target of over 13 per cent. During the fourth quarter, risk weighted assets (RWA) increased by EUR 9 billion to EUR 350 billion, mainly reflecting higher market risk RWA. Management is committed to managing resources to keep the CET1 ratio above 13 per cent.

The CRR/CRD 4 leverage ratio improved from 4.1 per cent. to 4.3 per cent. during the year on a phase-in basis, close to Deutsche Bank's mid-term target of 4.5 per cent. On a fully loaded basis this ratio rose from 3.8 per cent. to 4.1 per cent., driven in part by a reduction in leverage exposure of EUR 122 billion or 9 per cent. during the year. Adjusting for fluctuations in exchange rates year-on-year, this reduction was EUR 148 billion.

Deutsche Bank's balance sheet provides a solid foundation for growth. Liquidity reserves were at EUR 259 billion. The Liquidity Coverage Ratio was 140 per cent., EUR 66 billion above the minimum requirement of 100 per cent., while the loan-to-deposit ratio remained conservative at 77 per cent. This enabled Deutsche Bank to enhance balance sheet productivity with loan growth³ of EUR 14 billion, or EUR 21 billion if adjusted for divestitures, including operations in Poland; a reduction in excess liquidity; and an increase in

¹ Profit (loss) before tax = income (loss) before income taxes under IFRS.

² Adjusted costs = noninterest expenses excluding impairment of goodwill and other intangible assets, litigation, and restructuring and severance. For a reconciliation to noninterest expenses, please see the financial summary below.

³ Loan growth includes a reduction to the reported 31 December 2017 loan balance of EUR 15 billion to reflect the transition impact of IFRS 9.

III. GENERAL INFORMATION ON THE PROGRAMME

the share of liquidity held in high-quality short-term securities to 29 per cent. in the fourth quarter of 2018, up from 21 per cent. in the prior year quarter.

Deutsche Bank estimates its payment capacity for Additional Tier 1 (AT1) instruments to be comfortably above EUR 325 million in anticipated coupon payments before considering general additional reserves.

Provision for credit losses was EUR 525 million in the financial year 2018, unchanged versus 2017.

Deutsche Bank made further progress on litigation matters in 2018. It has now wholly or partially resolved 19 of the 20 most significant matters as measured by financial risk at the beginning of 2016. No new matters with an order of magnitude or financial risk similar to those matters have arisen. Litigation provisions stood at EUR 1.2 billion at the end of the year, down 40 per cent. from EUR 2.0 billion at the end of 2017.

Performance in the fourth quarter of 2018

Deutsche Bank reported a net loss of EUR 409 million in the quarter. The net loss attributable to Deutsche Bank shareholders was EUR 425 million, compared to a net loss attributable to shareholders of EUR 2.4 billion in the prior year quarter. The loss before tax was EUR 319 million, versus a pre-tax loss of EUR 1.4 billion in the prior year quarter.

Revenues in the fourth quarter were EUR 5.6 billion, down 2 per cent. year-on-year, driven by the implementation of strategic measures, a challenging market environment and negative Deutsche Bank-specific news.

Costs were reduced by over EUR 1 billion, or 19 per cent., year-on-year. Noninterest expenses were EUR 5.6 billion, down 19 per cent., while adjusted costs fell 15 per cent. to EUR 5.4 billion. This reduction was achieved across both compensation expenses and all major categories of non-compensation expenses, driven by cost initiatives.

In the Corporate & Investment Bank, revenues were EUR 2.6 billion, down 5 per cent. Revenues in the quarter benefited from positive debt valuation adjustments of EUR 67 million and a positive change in the valuation of an investment of EUR 56 million, versus a negative debt valuation adjustment of EUR 19 million in the prior year quarter. Adjusting for these items, revenues would have declined by 10 per cent.

Global Transaction Banking revenues were EUR 996 million, up 5 per cent., driven by higher net interest income and transaction growth, notably in cash management.

Sales & Trading revenues in Fixed Income & Currencies fell 23 per cent. to EUR 786 million in challenging market conditions. Strength in Foreign Exchange trading was more than offset by revenue declines in Rates and Credit. Equity Sales & Trading revenues were essentially unchanged at EUR 379 million.

Origination & Advisory revenues were down 23 per cent. to EUR 411 million. Both Advisory and Equity Origination revenues were up 17 per cent. year-on-year, with Advisory revenues the best in any quarter for three years. This was more than offset by a significant decline in Debt Origination driven by lower market volumes.

In the Private & Commercial Bank, revenues were EUR 2.5 billion, up 6 per cent. Revenues in the quarter benefited from a gain on a property sale in Sal. Oppenheim of EUR 40 million and EUR 35 million from Sal. Oppenheim workout activities, compared to the positive impact in the prior year quarter of EUR 43 million from Sal. Oppenheim workout activities. Adjusted for these effects, revenues would have been up 5 per cent. The year-on-year growth rate was favourably impacted by revenues from exited businesses of EUR 31 million in the quarter, versus a negative EUR 91 million in the prior year quarter.

In the Private & Commercial Business (Germany), revenues were up 2 per cent. at EUR 1.6 billion, as growth in consumer and mortgage lending as well as smaller asset sale transactions offset continued deposit margin compression. Revenues in the Private & Commercial Business (International) were up 5 per cent. to EUR 349 million, while Wealth Management revenues were EUR 433 million, down 4 per cent. Growth in Wealth Management Asia-Pacific was more than offset by significantly lower revenues in Europe, the Middle East and Africa (EMEA) including Germany.

III. GENERAL INFORMATION ON THE PROGRAMME

In Asset Management (principally DWS), revenues were EUR 514 million, down 17 per cent., driven by lower management and performance fees and net outflows in the quarter of EUR 7 billion. Revenues were also impacted by the non-recurrence of revenues from sold or discontinued businesses.

Fourth-quarter provision for credit losses was higher than in earlier quarters at EUR 252 million, mainly due to increased provisions on performing loans required under IFRS 9.

Business developments in 2018

The Corporate & Investment Bank

Significant progress on strategic refocusing and evidence of excellence in many core areas: the Corporate & Investment Bank executed on its strategic adjustments in 2018, focusing around core strengths, reducing leverage exposure in US Rates and Equities and redeploying resources around key clients. This delivered adjusted cost reductions of approximately EUR 700 million and a reduction in leverage exposures of EUR 137 billion. Deutsche Bank was the No. 1 arranger of non-US dollar high-yield bonds (source: Thomson Reuters).

Landmark corporate finance transactions: Deutsche Bank played a lead role in 15 of the top 25 transactions in EMEA in 2018, as measured by fees according to Dealogic. Deutsche Bank was a top-ranked global coordinator of European IPOs, leading four of the five largest IPOs in 2018. In Germany, Deutsche Bank played a lead role on seven of 2018's top 10 transactions, including all of the three largest IPOs. It maintained top-10 positions in both the US and Asia ex-Japan (source: Dealogic).

The Private & Commercial Bank

Business growth: the Private & Commercial Bank reported net new loan growth of EUR 3 billion in 2018. Adjusted for disposals, including the partial divestiture of retail operations in Poland, loan growth was EUR 10 billion including EUR 7 billion in the Private & Commercial Business (Germany). Customer deposits grew by EUR 8 billion in the year; adjusted for disposals, deposit growth was EUR 12 billion. In Germany, the business attracted more than 3,000 new commercial (*Mittelstand*) clients during the year. The fourth quarter saw further progress in digital capabilities with the go-live of SEPA real-time transfers. The launch of Apple Pay resulted in a 7 per cent. increase in the number of Deutsche Bank-issued Mastercards within four weeks.

Significant progress on strategy execution: the Private & Commercial Bank delivered an RoTE of nearly 5 per cent. in 2018, despite a full programme of strategy execution. The legal entity merger with Postbank AG in Germany, progress in optimising the branch network and the partial sale of operations in Poland, which closed during the fourth quarter, all marked continued progress in focusing the business. Wealth Management completed the integration of the Sal. Oppenheim business, rolled out a new regional structure, closed senior hires in key areas and achieved solid growth in lending.

Asset Management

DWS maintained a strong market position despite difficult markets, which reduced demand for European active equity retail funds, and the negative impact of US tax reform on asset flows. Assets under management fell 5 per cent. in the quarter to EUR 664 billion in a challenging market environment, with outflows from active retail funds partly offset by inflows in passive managed funds. The business retained leadership in retail asset management in Germany (source: Bundesverband Investment und Asset Management e.V. (BVI)) and ranked No. 2 in European Exchange-Traded Products (exchange-traded funds and commodities), capturing 17 per cent. of all inflows in the year and 27 per cent. in the fourth quarter (source: ETFGI).

On 1 February 2019, Deutsche Bank confirmed that the annual report 2018 will be published on 22 March 2019.

Consolidated Profit Estimate of Deutsche Bank Aktiengesellschaft (the "Company") as of and for the year ended December 31, 2018

The consolidated income before income taxes (IBIT) estimate of Deutsche Bank Aktiengesellschaft as of and for the year ended on December 31, 2018 ("Profit Estimate") amounts to EUR 1.3 billion.

Explanatory Notes

The consolidated Profit Estimate is based on the following factors and assumptions:

- Based on Management's knowledge as of today the consolidated Profit Estimate of the Company has been properly compiled in accordance with IDW AcS HFA 2.003 (Compilation of profit estimates according to the special requirements of the Prospectus Regulation and profit estimates on the basis of preliminary results) on the basis of the established financial reporting process of the Company using the accounting policies of the Company as outlined in the Notes "Significant Accounting Policies and Critical Accounting Estimates" and "Recently Adopted and New Accounting Pronouncements" in the Consolidated Financial Statements 2017 as well as in the Note "Impact of Changes in Accounting Principles" in the Interim Consolidated Financial Statements as of September 30, 2018.
- As the consolidated Profit Estimate is prepared on the basis of assumptions about past events and actions, it naturally entails substantial uncertainties. Because of these uncertainties and due to the fact that future events up to the date of the approval of the consolidated financial statements as of and for the year ended December 31, 2018 by the Supervisory Board may impact the basis for the Profit Estimate it is possible that the actual consolidated IBIT of the Company for the period from January 1, 2018 to December 31, 2018 may differ materially from the estimated consolidated IBIT.
- As the consolidated Profit Estimate is prepared on the basis of unaudited financial information the results of the audit prepared by an independent auditor may impact the basis for the Profit Estimate. Furthermore, the consolidated financial information of the Company is subject to the approval of the Supervisory Board which has not been carried out yet. Therefore, it is possible that the actual consolidated IBIT of the Company for the

III. GENERAL INFORMATION ON THE PROGRAMME

period from January 1, 2018 to December 31, 2018 may differ materially from the estimated consolidated IBIT.

- The consolidated profit estimate contains among other elements loan loss provision expenses which were determined in accordance with the requirements of IFRS 9. The loan loss provision expense related to performing loans (Stage 1 and Stage 2) increased compared to the previous year and was partially compensated by effects from loan loss provisions for the non-performing loans category (Stage 3). This accounting standard became applicable for the first time as of January 1, 2018. The transition impact resulting from the first time adoption of this standard were recorded in a profit & loss neutral manner in equity as required by the transition rules of IFRS 9.

Auditor's Report on the consolidated Profit Estimate of Deutsche Bank Aktiengesellschaft, Frankfurt am Main ("Company") for the Fiscal Year 2018

To Deutsche Bank Aktiengesellschaft, Frankfurt am Main

We have examined whether the consolidated Profit Estimate, defined as the income/loss before income taxes ("IBIT"), prepared by Deutsche Bank Aktiengesellschaft ("Company"), for the period from January 1, 2018 to December 31, 2018 has been properly compiled on the basis stated in the explanatory notes to the consolidated Profit Estimate and whether this basis is consistent with the accounting policies of the Company. The consolidated Profit Estimate comprises the consolidated Profit Estimate for the period from January 1, 2018 to December 31, 2018 and explanatory notes to the consolidated Profit Estimate.

The preparation of the consolidated Profit Estimate including the factors and assumptions presented in the explanatory notes to the consolidated Profit Estimate is the responsibility of the Company's management.

Our responsibility is to express an opinion based on our examination on whether the consolidated Profit Estimate has been properly compiled on the basis stated in the explanatory notes to the consolidated Profit Estimate and whether this basis is consistent with the accounting policies of the Company. Our engagement does not include an examination of the assumptions identified by the Company and underlying the consolidated Profit Estimate.

We conducted our examination in accordance with IDW Prüfungshinweis: Prüfung von Gewinnprognosen und -schätzungen i.S.v. IDW RH HFA 2.003 (IDW PH 9.960.3) [IDW Auditing Practice Statement: The Audit of IBIT Forecasts and Estimates in accordance with IDW AcS HFA 2.003 (IDW AuS 9.960.3)] issued by the Institut der Wirtschaftsprüfer in Deutschland e.V. [Institute of Public Auditors in Germany] (IDW). Those standards require that we plan and perform the examination such that material errors in the compilation of the consolidated Profit Estimate on the basis stated in the explanatory notes to the consolidated Profit Estimate and in the compilation of this basis in accordance with the accounting policies of the Company are detected with reasonable assurance. As the consolidated Profit Estimate is prepared on the basis of assumptions about past events and actions, it naturally entails substantial uncertainties. Because of these uncertainties it is possible that the actual consolidated profit of the Company for the period from January 1, 2018 to December 31, 2018 may differ materially from the estimated consolidated profit.

We believe that our examination provides a reasonable basis for our opinion.

In our opinion, based on the findings of our examination, the consolidated Profit Estimate has been properly compiled on the basis stated in the explanatory notes to the consolidated Profit Estimate. This basis is consistent with the accounting policies of the Company.

INDEX OF DEFINITIONS	An index of defined terms

§1 Principal obligation

- (1) Each security (each a "**Security**"), belonging to a series (each a "**Series**") of Securities identified by its ISIN, where the Security is, in the Product Terms, specified to be a Certificate or Warrant, entitles its holder (each a "**Securityholder**") to receive from the Issuer, or where the Security is specified to be a Note, will be redeemed by the Issuer in respect of each Nominal Amount, as specified in the Product Terms, by:
- (a) where Settlement means Cash Settlement, payment of the Cash Amount to each relevant Securityholder; and/or
 - (b) where Settlement means Physical Delivery, delivery of the Physical Delivery Amount to each relevant Securityholder.
- (2) (a) Where Cash Settlement applies:
- The Cash Amount will be rounded to the nearest two decimal places in the Settlement Currency, 0.005 being rounded downwards or if the Settlement Currency is Japanese yen rounded down to the nearest yen.
- (b) Where Physical Delivery applies:
- For each type of Physical Delivery Unit included in a Physical Delivery Amount, the number of Physical Delivery Units to be delivered in this Physical Delivery Amount will be rounded down to the nearest whole number. Securities belonging to the same Securityholder shall, unless Aggregation is specified not to apply in the Product Terms, be aggregated for purposes of determining the relevant number of Physical Delivery Units to be delivered, provided that the aggregate number, in respect of the same Securityholder, will be rounded down to the nearest whole number. Fractional amounts are not delivered. In case of a rounding down to a whole number in accordance with the provisions above, an amount (the "**Adjustment Amount**") in the Settlement Currency will be paid which, unless otherwise specified in the Product Terms, shall be equal to the product of the remaining fraction and the relevant Final Reference Level or, if the Physical Delivery Amount refers to Basket Constituents, the sum of the products of the remaining fraction of each Physical Delivery Unit and the relevant Basket Constituent Value, in each case in respect of the relevant Valuation Date and, if Currency Exchange or Basket Currency Exchange is specified to apply in the Product Terms, each resulting amount being converted into the Settlement Currency at the Rate of Exchange in respect of the last occurring Valuation Date.
- (3) **Definitions in respect of §1 and, if applicable, other Terms and Conditions:**
- Cash Settlement*
- (a) "**Cash Amount**" means an amount calculated as provided under the heading "Cash Amount" in the Product Terms and which shall not be less than zero.
- Physical Delivery*
- (b) "**Physical Delivery Clearing System**" means, in respect of a Physical Delivery Unit, the clearing system specified as such in the Product Terms or if none is specified, the principal clearance system customarily used for settling trades in such Physical Delivery Unit on the Settlement Date, or any successor to such clearance system as determined by the Calculation Agent.
 - (c) "**Physical Delivery Amount**" is as specified in the Product Terms, or if none is specified, in respect of each type of Physical Delivery Unit, a number of the relevant Physical Delivery Units specified in the Product Terms multiplied, where applicable, by the Multiplier and, where the Physical Delivery Amount comprises Basket Constituents, the Basket Constituent Weight for the relevant Basket Constituent (as specified in the Product Terms).

- (d) **"Physical Delivery Unit"** means the number of units of the relevant asset as specified in the Product Terms.

 2. if the Underlying is specified in the Product Terms to be a Basket and "Separate Reference Item Determination" is not specified to be applicable in the Product Terms, a day which is (i) in respect of each Reference Item for which the Reference Source is an exchange, trading system or quotation system and which is not specified to be a Multi-Exchange Index, a day on which the Reference Source and Related Exchange, if any, in respect of each such Reference Item are scheduled to be open for trading during their respective regular trading session(s); (ii) in respect of each Reference Item specified to be a Multi-Exchange Index, a day on which (aa) the Index Sponsor is scheduled to publish the level of each such Reference Item and (bb) each Related Exchange, if any, for each such Reference Item is scheduled to be open for trading during its regular trading session in respect of each such Reference Item; (iii) in respect of each Reference Item which is not specified to be a Multi-Exchange Index and for which the Reference Source is not an exchange, trading system or quotation system, a day on which commercial banks and foreign exchange markets are open in the country(ies) where each Reference Source in respect of each such Reference Item is located; and (iv) in respect of each Reference Item which is a Fund Share and Fund Business Days are specified to be applicable in the Product Terms, a Business Day on which the net asset value of each such Fund Share is published and subscriptions for and redemptions of each such Fund Share may take place.

IV. GENERAL CONDITIONS

- (y) **"Underlying"** is as specified under the heading "Underlying" in the Product Terms.
- (z) **"Valuation Date"** is as defined in the Product Terms subject to adjustment in accordance with §5(1).

§2 Exercise and Redemption

(1) **General**

The obligation described in §1(1) falls due on the Settlement Date (as specified in the *Product Terms*) when the Security is duly exercised (in the case of Certificates and Warrants) or redeemed (in the case of Notes) in each case subject to §5 and §6.

(2) **Exercise of Certificates and Warrants**

If the Securities are Certificates or Warrants, this para. (2) shall apply:

(a) **Delivery of an Exercise Notice**

Each Security, unless previously redeemed or purchased and cancelled and subject as provided in the Terms and Conditions, is exercisable on any Exercise Date by delivery of an Exercise Notice at or before 10.00 a.m. Central European Time to the Principal Agent, with a copy to the relevant Clearing Agent, and, with respect to French Securities, the relevant Account Holder. An Exercise Notice delivered after such time shall become effective on the following Exercise Date, if any.

As used herein:

1. **"Exercise Date"** means

- if European Style has been specified to apply in the Product Terms, the day specified under the heading "Exercise Date" in the Product Terms or, if such day is not a Business Day, the next following Business Day;
- if American Style has been specified to apply in the Product Terms, each Business Day during the Exercise Period; and
- if Bermudan Style has been specified to apply in the Product Terms, each of the days specified under the heading "Exercise Date" in the Product Terms or, if any such day is not a Business Day, the next following Business Day.

2. **"Exercise Period"** is as defined in the Product Terms.

(b) **Automatic Exercise**

1. Unless sub-paragraph 2 applies and if Automatic Exercise is specified to apply in the Product Terms, the Securities will be exercised automatically on the last occurring Exercise Date, and a Securityholder will not be required to complete an Exercise Notice. Such automatic exercise will only occur if a Cash Amount greater than zero would be payable to the Securityholder.

However, if Automatic Exercise has not been specified to apply in the Product Terms, any exercisable Security not exercised by the last occurring Exercise Date shall expire worthless on such day and the Issuer shall have no further obligations in respect of any such Security.

2. If the Securities are specified in the Product Terms to be Portuguese Securities the Securities will be exercised automatically on the last occurring Exercise Date, and a Securityholder will not be required to complete an Exercise Notice. Such automatic exercise will only occur if a Cash Amount greater than zero would be payable to the Securityholder.

(c) **Form of Exercise Notice**

"Exercise Notice" unless otherwise provided in the Product Terms is a notice of a Securityholder substantially in the form set out in Annex 1 to the Terms and Conditions which declares the exercise of one or more Securities and:

1. specifies the number of the Securities which are the subject of such notice;
2. specifies the number of the account with the relevant Clearing Agent to be debited with such Securities and irrevocably instructs and authorises the relevant Clearing Agent to debit on or before the Settlement Date such account with such Securities, and authorises the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
3. specifies the number of the account at the relevant Clearing Agent to be credited with any cash amounts payable;
4. in the case of Physical Delivery, includes account details at each relevant Physical Delivery Clearing System ("**Delivery Details**");
5. includes an undertaking to pay all Securityholder Expenses in accordance with §2(5) and the aggregate Strike and any other cash amounts, if applicable, payable to the Issuer in connection with the exercise and settlement of the relevant Securities and irrevocably instructs the relevant Clearing Agent to deduct an amount(s) in respect thereof from any cash amounts due as referred to in sub-paragraph 3 above and/or to debit a specified account with the relevant Clearing Agent with any such amounts in each case on or after the Exercise Date, and authorises the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
6. certifies that the Securities are not being exercised, and the Exercise Notice is not being delivered, within the United States, that neither the Security holder nor any person on whose behalf the Securities are being exercised is a U.S. person, and that no cash, and in the case of a physical delivery of an Underlying, no securities or other property have been or will be transferred in the United States or to, or for the account or benefit of, a U.S. person in connection with any exercise thereof. As used herein, "U.S. person" means a U.S. person as defined in Regulation S under the United States Securities Act of 1933, as amended; and
7. authorises the production of such notice in any applicable administrative or legal proceedings.

If the Securities are specified in the Product Terms to be Portuguese Securities any reference to Clearing Agent in the sub-paragraphs 2, 3 and 5 above shall instead be read as reference to the relevant Affiliate Member of Interbolsa.

If the Securities are specified in the Product Terms to be French Securities any reference to Clearing Agent in the sub-paragraphs 2, 3 and 5 shall be read as reference to the relevant Account Holder.

(d) **Delivery Notice**

If Automatic Exercise is specified to apply in the Product Terms and if Physical Delivery applies, unless "Delivery Notice" is specified not to apply in the Product Terms or the relevant Securities are otherwise exercised by the Securityholder, in order to obtain delivery of the Physical Delivery Amount, a duly completed Delivery Notice must be delivered by the Securityholder to the Principal Agent, with a copy to the relevant Clearing Agent and, with respect to French Securities, the relevant Account Holder, at or before 10.00 a.m. Central European Time on the last occurring Exercise Date. If a Delivery Notice is delivered after such time, Physical Delivery shall occur as soon as reasonably practicable following the Settlement Date provided that if a Delivery Notice has not been so delivered and copied with respect to a Security at or prior to 10.00 a.m. Central European Time on the thirtieth

calendar day after the Settlement Date, then the holder of such Security shall have no right to receive the Physical Delivery Amount in respect of such Security and the Issuer's obligation in respect of such Security shall be cancelled. "**Delivery Notice**" means a notice of a Securityholder substantially in the form set out in Annex 2 which is as further described in para.(3) below.

(e) **Exercise of Redemption Right and Exercise following a Barrier Event or Redemption Event**

The exercise by the Issuer of the Redemption Right (if applicable) shall prevent any automatic exercise of Securities in accordance with para. (b) above but shall not prevent Securityholders from exercising Securities on any Exercise Date up to but excluding the second Business Day prior to the Redemption Date. Any delivery of an Exercise Notice on or after such Business Day shall be void. Following a Barrier Event or Redemption Event, however, the Securities may no longer be exercised either automatically or by delivery of an Exercise Notice.

(f) **Minimum or Maximum Exercise Amount**

Where a Minimum Exercise Amount has been specified to apply in the Product Terms, the number of Securities exercised on any Exercise Date by a Securityholder, as determined by the Calculation Agent, must not be less than such Minimum Exercise Amount or, if a number in excess of the Minimum Exercise Amount and if an Integral Exercise Amount has been specified in the Product Terms, an integral multiple of the Integral Exercise Amount. Any purported exercise of Securities in breach of this provision shall be void and of no effect.

Where a Maximum Exercise Amount has been specified in the Product Terms, if the Calculation Agent determines that the number of Securities being exercised on any Exercise Date by any Securityholder or a group of Securityholders (whether or not acting in concert) exceeds such Maximum Exercise Amount (a number equal to the Maximum Exercise Amount being the "**Quota**"), the Issuer may deem the Exercise Date for the first Quota of such Securities, selected on the basis of the chronological order in which the relevant Exercise Notices have been delivered, to be such day and the Exercise Date for each additional Quota of such Securities (and any remaining number thereof), selected in the same way as above, to be each of the succeeding Exercise Dates until all such Securities have been attributed with an Exercise Date, provided, however, that for any such Securities for which the Exercise Date would thereby fall after the last occurring Exercise Date, such last occurring Exercise Date shall be the Exercise Date. In any case where more than the Quota of Securities are exercised on the same day by Securityholder(s), the determination of the chronological order of settlement in respect of such Securities shall be at the reasonable discretion of the Issuer.

As used herein:

1. "**Integral Exercise Amount**" is as specified in the Product Terms.
2. "**Maximum Exercise Amount**" is as specified in the Product Terms.
3. "**Minimum Exercise Amount**" is as specified in the Product Terms.

(3) **Redemption of Notes**

If the Securities are Notes and if it is specified in the Product Terms that a Securityholder may elect either Cash Settlement or Physical Delivery, in order to obtain delivery of the Physical Delivery Amount in respect of a Security, the Securityholder must deliver to the Principal Agent, with a copy to the relevant Clearing Agent, not later than the close of business in each place of receipt on the Cut-off Date specified in the Product Terms, a duly completed Delivery Notice. If a Delivery Notice is delivered after such time, Physical Delivery shall occur as soon as reasonably practicable following the Settlement Date provided that if a Delivery Notice has not been so delivered and copied with

respect to a Security by close of business in each place of receipt on the thirtieth calendar day after the Settlement Date, then the holder of such Security shall have no right to receive the Physical Delivery Amount in respect of such Security and the Issuer's obligation in respect of such Security shall be cancelled.

As used herein:

- (a) **"Cut-off Date"** is as specified in the Product Terms.
- (b) **"Delivery Notice"** unless otherwise provided in the Final Terms is a notice of a Securityholder substantially in the form set out in Annex 2 to the Terms and Conditions which:
 - 1. specifies the number of the Securities which are the subject of such notice;
 - 2. specifies the number of the account with the relevant Clearing Agent to be debited with such Securities and irrevocably instructs and authorises the relevant Clearing Agent to debit on or before the Settlement Date such account with such Securities, and authorises the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
 - 3. includes account details at each relevant Physical Delivery Clearing System ("**Delivery Details**");
 - 4. specifies the number of the account at the relevant Clearing Agent to be credited with any cash amounts payable;
 - 5. includes an undertaking to pay all Securityholder Expenses and any other cash amounts, if applicable, in accordance with §2(5) payable to the Issuer in connection with the exercise and/or settlement of the relevant Securities and irrevocably instructs the relevant Clearing Agent to deduct an amount(s) in respect thereof from any cash amounts due as referred to in para. 4 above and/or to debit a specified account with the relevant Clearing Agent with any such amounts in each case on or after the Exercise Date (in the case of Warrants or Certificates) or the Cut-off Date (in the case of Notes), and authorises the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
 - 6. certifies that the Delivery Notice is not being delivered by a person within the United States and that neither the Securityholder nor any person on whose behalf the Securities are held or are being exercised or redeemed is a U.S. person, and that no cash, and in the case of a physical delivery of an Underlying, no securities or other property have been or will be transferred in the United States or to, or for the account or benefit of, a U.S. person in connection with any exercise or redemption thereof. As used herein, "U.S. person" means a U.S. person as defined in Regulation S under the United States Securities Act of 1933, as amended; and
 - 7. authorises the production of such notice in any applicable administrative or legal proceedings.

If the Securities are specified in the Product Terms to be Portuguese Securities any reference to Clearing Agent shall instead be read as reference to the relevant Affiliate Member of Interbolsa.

If the Securities are specified in the Product Terms to be French Securities any reference to Clearing Agent shall instead be read as reference to the relevant Account Holder.

(4) **Redemption Right of Issuer**

If Redemption Right of Issuer has been specified to apply in the Product Terms, the Issuer has the unconditional and irrevocable right (a "**Redemption Right**"), upon delivery of a Redemption Notice by the Issuer on or before the Redemption Right Notice Date, to redeem the Securities in whole, but not in part on the Redemption Date at the Cash Amount in respect of each Security. As used herein:

IV. GENERAL CONDITIONS

- (a) **"Redemption Date"** means, in respect of the redemption of the Securities pursuant to the exercise by the Issuer of the Redemption Right, the date on which the redemption of the Securities becomes effective specified in the Redemption Notice or as defined in the Product Terms, provided that if a Redemption Period is specified in the Product Terms, such date shall be within the Redemption Period, and shall not be earlier than the Redemption Notice Time Span following but excluding the date on which the Redemption Notice is deemed delivered in accordance with §16 and provided further that if such date is not a Business Day, then the Redemption Date will be the immediately succeeding Business Day.
- (b) **"Redemption Notice"** means an irrevocable notice given by the Issuer to the Securityholders in accordance with §16 that the Issuer will exercise its Redemption Right. The exercise by the Issuer of the Redemption Right shall not preclude Securityholders from selling or transferring or, if applicable, exercising the Securities which exercise, sale or transfer, as the case may be, is effective on any day up to but excluding the second Business Day immediately preceding the Redemption Date.
- (c) **"Redemption Notice Time Span"** is as defined in the Product Terms or, if not defined therein, is 12 months.
- (d) **"Redemption Period"** is as defined in the Product Terms.
- (e) **"Redemption Right Notice Date"** is as defined in the Product Terms.

(5) **Conditions to Payment or Delivery**

The obligation of the Issuer to make payment or delivery is subject to prior full payment of any amount due to be paid by the Securityholder to the Issuer pursuant to the Terms and Conditions. In particular, such due amount includes any applicable Securityholder Expenses and, if the Security is specified to be a Warrant and Physical Delivery applies, the Strike as specified in the Product Terms. Any due amount will, as far as covered by a cash amount(s) to be paid according to the Terms and Conditions, be directly subtracted from such cash amount(s). As long as a due amount has not been settled by a Securityholder, no payment or delivery shall be made by the Issuer under the Securities to such Securityholder.

As used herein:

"Securityholder Expenses" means, in respect of a Security, all taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising in connection with the exercise of such Security and/or any payment and/or delivery due following exercise or otherwise in respect of such Security.

§3 Settlement

For the avoidance of doubt, where the Securities are Certificates or Warrants, the provisions of this §3 are only applicable to the extent that the relevant Certificates or Warrants have been duly exercised in accordance with the provisions of §2(2).

(1) Taxation, other laws and regulations

All payments and/or deliveries will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and/or delivery (including, where applicable, laws requiring the deduction or withholding for, or on account of, any tax, duty or other charge whatsoever) and (ii) any deduction or withholding required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto.

(2) Settlement Currency Conversion

Unless otherwise specified in the Product Terms, any cash amount payable by the Issuer shall be paid in the Settlement Currency. If payment of any amount to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent (or, in the case of Portuguese Securities, for payments to Affiliate Members of Interbolsa or, in the case of French Securities, for payments to the relevant Account Holders), following a conversion of the relevant amount from the Settlement Currency, using a rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate for such conversion.

(3) Settlement / Payment details

(a) Unless otherwise specified in the Product Terms and unless sub-paragraphs (c), (d), (e) or (f) apply, any cash amounts payable by the Issuer shall be transferred to the relevant Clearing Agent for distribution to the Securityholders. The Issuer will be discharged of its payment and/or delivery obligations by payment and/or delivery to, or to the order of, the relevant Clearing Agent or Physical Delivery Clearing System in respect of the amount so paid or delivered.

In the case of Notes in registered form, if applicable, such payment and/or delivery shall be deemed to be made for and on behalf of any nominee for the Clearing Agent(s) shown on the Register as the holder of such Notes.

(b) If the Securities are specified in the Product Terms as Notes, the Cash Amount is payable as consideration for the use of the Nominal Amount and as compensation in recognition that the Cash Amount might otherwise have been less than the Nominal Amount.

(c) If the Securities are specified in the Product Terms to be Portuguese Securities payments will:

(i) if such payment is payable in Euro:

1. be debited from the relevant payment current account of the Principal Agent (acting on behalf of the Issuer) (such account being the payment current account that the Principal Agent has notified to, and that has been accepted by, Interbolsa to be used on the Principal Agent's behalf for payments in respect of securities held through Interbolsa) and credited to the payment current accounts of the Affiliate Members of Interbolsa, whose securities control accounts with Interbolsa are credited with such Securities all in accordance with the applicable procedures and regulations of Interbolsa; and, thereafter,

IV. GENERAL CONDITIONS

2. be debited by such Affiliate Members of Interbolsa from the aforementioned payment current accounts and credited either (x) to the cash accounts of the owners of those Securities with such Affiliate Members of Interbolsa, or (y) to the cash accounts held by Euroclear Bank SA/NV and/or Clearstream Banking, société anonyme and thereafter to the cash accounts held by the beneficial owners of those Securities with Euroclear Bank SA/NV and/or Clearstream Banking, société anonyme (as applicable), in accordance with the rules and procedures of Interbolsa, Euroclear Bank SA/NV or Clearstream Banking, société anonyme, as the case may be; or
- (ii) if such payment is payable in a currency other than Euro:
1. be transferred, on the due date for such payment (in each case in accordance with the applicable procedures and regulations of Interbolsa), from the account held by the Principal Agent in the Foreign Currency Settlement System (*Sistema de Liquidação em Moeda Estrangeira*), managed by Caixa Geral de Depósitos, S.A., to the payment current accounts of the Affiliate Members of Interbolsa whose control accounts with Interbolsa are credited with such Securities; and, thereafter
 2. be debited by such Affiliate Members of Interbolsa from the relevant payment current accounts and credited either (x) to the cash accounts of the owners of those Securities with such Affiliate Members of Interbolsa or (y) to the cash accounts held by Euroclear Bank SA/NV and/or Clearstream Banking, société anonyme and thereafter to the cash accounts held by the beneficial owners of those Securities with Euroclear Bank SA/NV and/or Clearstream Banking, société anonyme (as applicable), in accordance with the rules and procedures of Interbolsa, Euroclear Bank SA/NV or Clearstream Banking, société anonyme, as the case may be.

The holders of Portuguese Securities must rely upon the procedures of Interbolsa to receive payment in respect of Securities. The Issuer will be discharged of its payment obligations in respect of any Portuguese Securities by payment to, or to the order of, the relevant Affiliate Members of Interbolsa, the clients of whom are shown as the registered holders of such Portuguese Securities in the records of such Affiliate Members of Interbolsa. The Issuer will be discharged towards the relevant Securityholders in respect of each amount so paid.

- (d) If the Securities are specified in the Product Terms to be Spanish Listed Securities payments will be debited from the cash account held by the Principal Agent with the Bank of Spain and credited to the cash accounts held with the Bank of Spain by the members of Iberclear whose securities accounts with Iberclear are credited with such Spanish Listed Securities, all in accordance with the applicable procedures and regulations of Iberclear and the Target2-Bank of Spain system (or any successor thereto). Thereafter, each of the members of Iberclear shall credit the relevant payments to each of the accounts of the relevant Securityholders.

The holders of Spanish Listed Securities must rely upon the procedures of Iberclear to receive payment in respect of Spanish Listed Securities. The Issuer will be discharged of its payment obligations in respect of Spanish Listed Securities by payment to the relevant member of Iberclear appointed by the Issuer as paying agent which will procure payment to any of the relevant members of Iberclear, the clients of whom are shown as the registered Securityholders of such Spanish Listed Securities. The Issuer will be discharged towards the relevant Securityholders when the paying agent has paid, on behalf of the Issuer, the relevant amounts to each of the members of Iberclear, the clients of whom are shown as the registered Securityholders of such Spanish Listed Securities.

IV. GENERAL CONDITIONS

- (e) If the Securities are specified in the Product Terms to be Italian Securities any cash amounts payable by the Issuer shall be transferred to the relevant Clearing Agent for distribution to the Securityholders.

The holders of Italian Securities must rely upon the procedures of the Italian Clearing Agent to receive payments in respect of Securities. The Issuer will be discharged by payment to, or to the order of, the Italian Clearing Agent in respect of the amount so paid.

- (f) If the Securities are specified in the Product Terms to be French Securities any cash amounts payable by the Issuer shall be transferred to the relevant account denominated in the relevant currency of the relevant Account Holders for the benefit of the Securityholders. The issuer will be discharged of its payments and/or delivery obligations by payment and/or delivery validly made to such Account Holders.

(4) **Verification**

Each payment and/or delivery is subject to reasonable satisfactory evidence being provided of the relevant Securityholder's holding of the Securities.

(5) **Payment Day**

- (a) If any date for payment of any amount by the Issuer in respect of any Security is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day and shall not be entitled to any interest or other payment in respect of such delay.

- (b) As used herein, a "**Payment Day**" means a day which is (i) a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the city where the Principal Agent is located and the Payment Day Location(s), if specified in the Product Terms; (ii) a day on which each Clearing Agent is open for business; and (iii) either (1) in relation to any sum payable in a currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre of the country of such currency or (2) in relation to any sum payable in euro, a day that the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (or any successor thereto) is open.

(6) **General**

Without prejudice to para. (7) below, the purchase and/or holding of the Securities does not confer on any Securityholder any rights (whether in respect of voting, distributions or otherwise) in relation to the Underlying, any asset of any kind whatsoever by reference to which any amount due under the Securities is calculated, or (prior to delivery, if applicable) any asset to be delivered under the Securities.

(7) **Distribution**

- (a) Unless sub-paragraphs (b) or (c) apply any dividend, coupon, interest or similar payment or distribution (each, a "**Distribution**") in respect of any amount to be delivered will be payable to the party that would receive such Distribution according to market practice for a sale of the relevant amount executed for settlement on the Settlement Date, as specified in the Product Terms, and to be delivered in the same manner as such amount. Any such Distribution to be paid to a Securityholder shall be paid to the Clearing Agent for distribution to the Securityholders.
- (b) If the Securities are specified in the Product Terms to be Portuguese Securities any dividend, coupon, interest or similar payment or distribution (each, a "**Distribution**") in respect of any amount to be delivered will be payable to the party that would receive such Distribution according to market practice for a sale of the relevant amount executed for

settlement on the Settlement Date, as specified in the Product Terms, and to be delivered in the same manner as such amount. Any such Distribution shall be paid to the Principal Agent for distribution to the relevant Affiliate Members of Interbolsa for subsequent distribution to the relevant Securityholders.

- (c) If the Securities are specified in the Product Terms to be Spanish Listed Securities any dividend, coupon, interest or similar payment or distribution (each, a "**Distribution**") in respect of any amount to be delivered will be payable to the party that would receive such Distribution according to market practice for a sale of the relevant amount executed for settlement on the Settlement Date, as specified in the Product Terms, and to be delivered in the same manner as such amount. The holders of such Securities must rely upon the procedures of Iberclear to receive any such Distribution. The Issuer will be discharged of its payment obligations in respect of Spanish Listed Securities by payment to the relevant member of Iberclear appointed by the Issuer as paying agent which will procure payment to any of the relevant members of Iberclear, the clients of whom are shown as the registered Securityholders of such Spanish Listed Securities. The Issuer will be discharged towards the relevant Securityholders when the paying agent has paid, on behalf of the Issuer, the relevant amounts to each of the members of Iberclear, the clients of whom are shown as the registered Securityholders of such Spanish Listed Securities.
- (d) If the Securities are specified in the Product Terms to be French Securities any dividend, coupon, interest or similar payment or distribution (each, a "**Distribution**") in respect of any amount to be delivered will be payable to the party that would receive such Distribution according to market practice for a sale of the relevant amount executed for settlement on the Settlement Date, as specified in the Product Terms, and to be delivered in the same manner as such amount. Any such Distribution shall be paid by way of transfer to the account denominated in the relevant currency of the relevant Account Holders for the benefit of the Securityholders.

(8) **Deliveries**

Any deliveries due under the Securities shall be made at the risk of the relevant Securityholder and shall be transferred to the relevant Physical Delivery Clearing System(s) for delivery to the relevant Securityholder, provided that where the Issuer (or the Calculation Agent, in the case of Spanish Securities) determines in its reasonable discretion that the delivery by the Issuer is fully or partly impractical, illegal or unduly onerous to the Issuer, then the Issuer (or the Calculation Agent, in the case of Spanish Securities) shall have the option to determine that the Issuer will make the delivery in such other commercially reasonable manner as the Issuer (or the Calculation Agent, in the case of Spanish Securities) may determine to be appropriate for such delivery and shall notify the Securityholders in accordance with §16. The amount to be delivered shall be evidenced in such manner as the Issuer determines to be customary for the relevant amount. The Issuer shall be under no obligation to register or procure the registration of any Securityholder or any other person as the registered holder in respect of the amount to be delivered in any register of holders, including, but not limited to, a register of members of a share company.

(9) **Settlement Disruption**

If and to the extent that any delivery becomes due under a Security and (i) if the Settlement Date is not a Business Day and/or (ii) prior to such delivery an event beyond the control of the Issuer occurs as a result of which the Issuer cannot make such delivery in accordance with such market method as it has elected at the relevant time for such delivery (a "**Settlement Disruption Event**"), then the Settlement Date for such delivery shall be postponed to the first following Business Day on which no such event is subsisting. For the avoidance of doubt, the provision of this §3(9) shall apply only to Securities affected as described in (i) and/or (ii) above.

For so long as the Settlement Disruption Event is subsisting, then in lieu of the affected delivery and notwithstanding any other provision hereof the Issuer may elect in its reasonable discretion to satisfy this obligation in respect of the relevant Security by payment of the Market Value of such Security

taking into account any amounts already delivered or payments already made and the value of the remaining amount(s) which would otherwise be delivered or paid as shall be determined by the Issuer, less a Security's proportionate share of the direct and indirect cost to the Issuer of unwinding any underlying related Hedging Arrangements (such amount the "**Disruption Settlement Amount**"), not later than on the third Business Day following the date that notice of such election is given in accordance with §16. Payment of the Disruption Settlement Amount will be made in such manner as will be notified in accordance with §16. The Calculation Agent shall give notice as soon as practicable in accordance with §16 that a Settlement Disruption Event has occurred.

If the Securities are specified in the Product Terms to be Italian Securities and in respect of determination of the Disruption Settlement Amount the issuer will not take into account the direct and indirect cost to the Issuer of unwinding any underlying related Hedging Arrangements.

No Securityholder or any other person shall be entitled to any payment in respect of a Security as a result of any delay in a delivery due to the occurrence of a Settlement Disruption Event, and no liability in respect thereof shall attach to the Issuer.

As used herein, and, if applicable, other Terms and Conditions:

"Market Value", in relation to a Security, means the fair market value of such Security as determined by the Calculation Agent, by reference to such factor(s) as it determines appropriate at the relevant time and which may include the following, without limitation:

- (a) any relevant quotations or other relevant market data in the relevant market(s) which may include relevant rates, prices, yields, yield curves, volatilities, spreads, correlations and any options or other derivative pricing model;
- (b) information of the type described in (a) above from internal sources of the Issuer or any of its Affiliates if that information is of a type used by the Issuer in its regular course of business for the valuation of similar instruments as the Securities.

Where the relevant Securities provide for any minimum amount(s) of cash or assets to be payable or deliverable this shall be taken into account in determining the Market Value. However, the Calculation Agent shall reduce (i.e. discount) the value of such amounts in determining the Market Value to take into account the length of time remaining to the first possible date on which such amount(s) could otherwise first have been payable or deliverable. Such discounting may be determined by reference to information as set out in (a) and/or (b) above which may include risk free rate(s).

The Calculation Agent shall also take into account appropriate values for any other amount which would or could otherwise have been payable or deliverable under the relevant Securities. This may include the element of the return on the Securities determined by reference to the Underlying (i.e. the derivative element). The relevant value for this element of the Securities may be determined by reference to the cost at the relevant time of entering into a transaction to provide similar amounts.

Notwithstanding the foregoing, each of the above determinations will be made without taking into account the creditworthiness of the Issuer at the time of early termination. This means that no reduction shall be made in the Market Value to take account of the perceived ability of the Issuer to make any payment at the time of early termination.

(10) **Intervening Period**

With regard to any delivery that is due under the Securities, for such period of time after the Settlement Date as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of the amount to be delivered (the "**Intervening Period**"), neither the Issuer nor any other person shall (i) be under any obligation to deliver or procure delivery to the relevant Securityholder or any subsequent beneficial owner of such amount to be delivered or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such amount; (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such amount during the Intervening Period;

or (iii) be under any liability to the relevant Securityholder or any subsequent beneficial owner of such amount or any other person in respect of any loss or damage which the relevant Securityholder or subsequent beneficial owner or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other such person being the legal owner of such amount during such Intervening Period.

(11) **Liability (Settlement Risk)**

Exercise, settlement and redemption of, and any payment and/or delivery in respect of, the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

§4 Coupon

(1) Coupon Payment

- (a) Unless Coupon Payment is specified to apply in the Product Terms, the Securities bear no coupon and pay no periodic amounts.
- (b) If Coupon Payment is specified to apply in the Product Terms, the Issuer shall, on each Coupon Payment Date, pay the relevant Coupon Amount. The Coupon Amount (if any) is payable as consideration for the use of the Nominal Amount in respect of a Security and as compensation in recognition that the Coupon Amount on any or all of the Coupon Payment Dates may be equal to zero or less than a commercial rate of return on the Securities and/or that the Cash Amount and/or value of the Physical Delivery Amount may be less than the Nominal Amount. For the avoidance of doubt, in the event that the Coupon Amount for a Coupon Payment Date is zero, no amount shall be payable by the Issuer in respect of such Coupon Payment Date.
- (c) If a Coupon is specified in the Product Terms and a Coupon Amount is required to be calculated for a period ending other than on (but excluding) a Coupon Period End Date, such Coupon Amount will be calculated on the basis of the number of days in the Coupon Period, and, if specified, the Coupon applicable to such period (or if no such Coupon is specified in the Product Terms, the interest rate which the Calculation Agent determines would apply to a deposit of the respective Nominal Amount or the total outstanding nominal amount for the relevant period with a commercial bank determined by the Calculation Agent at the relevant time) and the Day Count Fraction. If Coupon Payment is specified in the Product Terms, the Coupon Amount(s) shall be the only periodic amount(s) payable for the Security, and no interest shall accrue in respect of the Securities.

(2) Accrual of Coupon

Coupon Amounts shall cease to be payable from and including the Coupon Cessation Date. Other than the Coupon Amount no periodic amount is payable for the Securities. In addition no interest shall accrue in respect of the Securities whether by reason of late payment of a Coupon Amount or otherwise.

(3) Definitions in respect of §4 and, if applicable, other Terms and Conditions:

Coupon Payment

- (a) "**Nominal Amount**" is as defined in the Product Terms.
- (b) "**Coupon Payment Date**" means each day specified to be a Coupon Payment Date in the Product Terms.
- (c) "**Coupon Cessation Date**" is as specified in the Product Terms.
- (d) "**Coupon Amount**" means, in respect of each nominal amount or in respect of the total outstanding nominal amount, the amount specified in the Product Terms or the amount determined as specified in the Product Terms or,
 - (i) if adjusted Coupon Periods are specified in the Product Terms, an amount calculated by the Calculation Agent as specified under "Coupon Amount" in the Product Terms or if not specified there, calculated as follows:
 Nominal Amount or, as the case may be, total outstanding nominal amount x Coupon x (if specified in the Product Terms) Day Count Fraction, or
 - (ii) if unadjusted Coupon Periods are specified in the Product Terms, the Coupon Amount for the respective Coupon Period specified in the Product Terms, or, if no Coupon Amount for a Coupon Period is specified in the Product Terms, the Coupon Amount payable for each Security (of the Nominal Amount) shall be calculated by

IV. GENERAL CONDITIONS

multiplying the Coupon for such Coupon Period by the Nominal Amount, and further multiplying the product by the Day Count Fraction applied to the Coupon Period ending on, but excluding, the relevant Coupon Period End Date.

Each Coupon Amount will be rounded to the nearest two decimal places in the Settlement Currency, with 0.005 being rounded downwards or if the Settlement Currency is Japanese yen, rounded down to the nearest yen.

- (e) **"Coupon"** is as defined in the Product Terms.
- (f) **"Day Count Fraction"** means a fraction being any of the following as specified in the Product Terms:
1. the actual number of days in the Coupon Period divided by 365 (or, if any portion of the Coupon Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Coupon Period falling in a leap year divided by 366; and (B) the actual number of days in that portion of the Coupon Period falling in a non-leap year divided by 365) (**Actual/Actual or Actual/Actual (ISDA)**);
 2. (a) if the number of days in the Coupon Calculation Period does not exceed the number of days in the Coupon Period in which the Coupon Calculation Period ends, the number of days in the Coupon Calculation Period divided by the product of (1) the number of days in the Coupon Period and (2) the number of days in the Coupon Period which would occur in a calendar year; and
(b) if the Coupon Calculation Period is longer than the Coupon Period in which the Coupon Calculation Period ends, the sum of:
 - (i) the number of days in the Coupon Calculation Period falling in the Coupon Period in which the Coupon Calculation Period begins divided by the product of (x) the number of days in the Coupon Period, and
 - (ii) (y) the number of days in the Coupon Period which would occur in a calendar year; and the number of days in the Coupon Calculation Period which fall in the next Coupon Period divided by the product of (x) the number of days in the Coupon Period and (y) the number of days in the Coupon Period which would occur in a calendar year. (**Actual/Actual (ICMA Rule 251)**);
 3. the actual number of days in the Coupon Period divided by 365 (**Actual/365 (Fixed)**);
 4. the actual number of days in the Coupon Period divided by 360 (**Actual/360**);
 5. the number of days in the Coupon Period divided by 360, whereby the number of days is to be calculated on the basis of a year of 360 days with 12 months each comprising 30 days (unless (A) the last day of the Coupon Period is the 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a month comprising 30 days or (B) the last day of the Coupon Period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a month comprising 30 days)) (**30/360, 360/360 or Bond Basis**);
 6. the number of days in the Coupon Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 months each comprising 30 days, without regard to the date of the first day or last day of the Coupon Period unless, in the case of a Coupon Period ending on the Settlement Date, the Settlement Date is the last day of the month of February, in which case the month of

IV. GENERAL CONDITIONS

February shall not be considered to be lengthened to a month comprising 30 days) **(30E/360 or Eurobond Basis)**; or

7. the number of days in the Coupon Period divided by 360, calculated according to the following formula:

$$\text{Coupon Rate Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"**Y1**" is the year in which the first day of the Coupon Period falls, expressed as a number,

"**Y2**" is the year in which the day immediately following the last day of the Coupon Period falls, expressed as a number,

"**M1**" is the calendar month in which the first day of the Coupon Period falls, expressed as a number,

"**M2**" is the calendar month in which the day immediately following the last day of the Coupon Period falls, expressed as a number,

"**T1**" is the first calendar day of the Coupon Period expressed as a number, where (i) if this day is the last day in February or (ii) if this number is 31, T1 is changed to 30, and

"**T2**" is the calendar day immediately following the last day of the Coupon Period expressed as number, where (i) if this day is the last day in February, but not the Settlement Date or (ii) if the number is 31, T2 is changed to 30 **(30E/360 (ISDA))**.

- (g) "**Coupon Period**" means, unless otherwise specified within the Product Terms, the period commencing on (and including) (x) the Value Date or, (y) if no Value Date is specified in the Product Terms, the Issue Date, to (but excluding) the first Coupon Period End Date, and (where there is more than one Coupon Period) each period commencing on (and including) a Coupon Period End Date to (but excluding) the next following Coupon Period End Date and, if any Coupon Amount is required to be calculated for a period ending other than on (but excluding) the relevant Coupon Period End Date, the period commencing on and including the most recent Coupon Period End Date (or if none (x) the Value Date or, (y) if no Value Date is specified in the Product Terms, the Issue Date) to but excluding the relevant payment date.

If adjusted Coupon Periods are specified in the Product Terms and in the calendar month in which a Coupon Period End Date should fall there is no numerical counterpart to this day or if a Coupon Period End Date falls on a day which is not a Business Day, the Coupon Period End Date is postponed in accordance with the Business Day Convention specified in the Product Terms and the Coupon Period is adjusted accordingly.

If unadjusted Coupon Periods are specified in the Product Terms, the Coupon Period End Date is not postponed and no corresponding adjustment is made to the Coupon Period.

- (h) "**Issue Date**" is as defined in the Product Terms being the date on which the Securities are first issued.
- (i) "**Value Date**" is as defined in the Product Terms.
- (j) "**Coupon Period End Date**" means each day specified to be a Coupon Period End Date in the Product Terms.
- (k) "**Coupon Calculation Period**" is as defined in the Product Terms.

- (l) **"Business Day Convention"** is as defined in the Product Terms.

§5 Market Disruptions and non-Trading Day**(1) Consequences of Market Disruption and non-Trading Day**

A Market Disruption or a day not being a Trading Day may affect the valuation of a Reference Item or Hedging Arrangements of the Issuer in an unintended way. It is therefore necessary when a Market Disruption occurs or a day is not a Trading Day for the valuation of the Reference Item to be adjusted as follows:

- (a) if any day in respect of which the Calculation Agent is required to determine the price or level of a Reference Item for the purposes of §1 or §4 or otherwise as set out in the Product Terms is not a Trading Day (with the meaning given above), the relevant price or level shall be determined on the first succeeding Trading Day, subject as provided below. Any such day for determination is referred to as a "**Scheduled Valuation Date**";
- (b) if, in the opinion of the Calculation Agent, on any Scheduled Valuation Date (including, if any Observation Date(s) occurring on a daily basis is specified in the Product Terms, the last occurring Observation Date but excluding any other such Observation Date(s) on which a Market Disruption exists, and for such other Observation Dates affected by a Market Disruption the relevant Observation Date determination shall not be made), a Market Disruption has occurred in relation to any Reference Item:
 - (i) subject to sub-paragraph (ii) below:
 - 1. if Separate Reference Item Determination is not specified to apply in the Product Terms, all determinations on such Scheduled Valuation Date for all the Reference Items (including the affected Reference Item) shall be deferred to the first succeeding Trading Day on which there is no Market Disruption for any Reference Items; or
 - 2. if (x) the Underlying is not specified to be a Basket or (y) the Underlying is specified to be a Basket in the Product Terms and Separate Reference Item Determination is specified to apply in the Product Terms, the determination on such Scheduled Valuation Date for any affected Reference Item only shall be deferred to the first succeeding Trading Day on which there is no Market Disruption for such Reference Item,

provided that in each case if such first succeeding Trading Day has not occurred by the Ultimate Trading Day following the Scheduled Valuation Date the Calculation Agent shall in its reasonable discretion determine the price or level of each undetermined Reference Item as of the Ultimate Trading Day following the Scheduled Valuation Date which in the case of a Reference Item for which a Market Disruption then exists shall be such price or level that it determines would have prevailed but for the occurrence of a Market Disruption, having regard to the then prevailing market conditions, the last reported, published or traded level or price of the Reference Item, if applicable in accordance with the formula for and method of calculating the price or level of the Reference Item last in effect prior to the occurrence of the Market Disruption. The Calculation Agent shall give notice of any such determination as soon as reasonably practicable in accordance with §16; and

- (ii) if Averaging is specified to apply in the Product Terms and (A) this §5(1)(b)(ii) is specified to apply in the Product Terms, the first succeeding Trading Day referred to in (a) or (b) above shall be the first succeeding Trading Day which is not itself a day on which the price or level of the relevant affected Reference Item is to be determined for the purpose of calculating an average price or level and on which a Market Disruption does not occur but in each case subject to the provisions applicable on the Ultimate Trading Day following the Scheduled Valuation Date in

IV. GENERAL CONDITIONS

the manner set out in sub-paragraph (b)(i), or (B) this §5(1)(b)(ii) is specified not to apply in the Product Terms, the determination for the relevant Scheduled Valuation Date shall be deferred to the relevant Averaging Disruption Date as provided in the Product Terms.

For the purposes of this §5(1) if the Underlying is specified to be a Basket in the Product Terms and Separate Reference Item Determination is specified to be applicable in the Product Terms, then, subject as provided below, all references to a Trading Day shall be construed as references to a day which is a Trading Day determined as if the relevant Reference Item was the only Underlying and, for the purposes of determining whether a Market Disruption has occurred on any day, §5(4) shall be applied separately in relation to each Reference Item and references therein to a Trading Day shall be construed as being a Trading Day determined as specified above in relation only to the relevant Reference Item Provided That where it is necessary to calculate a value or level for each Reference Item on any Trading Day for the purposes of the Product Terms then such Trading Day is required to be a day which is a Trading Day for all Reference Items.

If any determination(s) of the Calculation Agent in respect of any day and any Reference Item is delayed pursuant to this §5(1) then, for the avoidance of doubt, such day will itself also be deemed to be delayed in the same manner as such determination(s) and by reference to the relevant affected Reference Item(s), until the day on which each relevant delayed determination for the relevant affected Reference Item(s) has been made.

As used here in:

(a) "**Observation Date(s)**" is as specified in the Product Terms.

(2) **Rate Determination**

Where the Underlying or a Reference Item is an interest rate or if a Coupon is to be determined by reference to one or more interest rates (each an "**Interest Rate**") for the purpose of calculating an obligation due under §1 or §4, unless otherwise specified in the Product Terms, the following provisions shall apply. If on any relevant day it is not possible, for reasons beyond the reasonable control of the Calculation Agent, to determine the relevant Coupon by reference to the relevant Interest Rate(s) according to the rules or normal or accepted procedures for the determination of such Interest Rate(s) (whether due to non-publication of a price or value or otherwise), each affected Interest Rate will be determined on the basis of the rates at which deposits in the relevant currency for such rate are offered by the Reference Banks at or about the Market Relevant Time, on that day to prime banks in the Relevant Market for a period of the Designated Maturity commencing on that day and for a Representative Amount. The Calculation Agent will request the principal office in the Relevant Market of each of the Reference Banks to provide a quotation of its rate. If at least two quotations are provided as requested, the relevant Interest Rate for that day will be the arithmetic mean of the quotations. If fewer than two quotations are provided as requested, the relevant Interest Rate for such day will be the arithmetic mean of the rates quoted by major banks in the Substitute Market, selected by the Calculation Agent, at the Relevant Time on that day for loans in the relevant currency for such Interest Rate to leading European banks for a period of the Designated Maturity commencing on that day and for a Representative Amount.

(3) **Definitions in respect of §5(2) and, if applicable, other Terms and Conditions:**

Rate Determination

(a) "**Designated Maturity**" is as defined in the Product Terms or, if not defined there, is the amount of time of the loans to which the relevant Interest Rate relates.

(b) "**Euro-zone**" means the region comprised of member states of the European Union that adopt the euro in accordance with the Treaty on the Functioning of the European Union, as amended.

IV. GENERAL CONDITIONS

- (c) **"Market Relevant Time"** means, in respect of a Relevant Market or Substitute Market, approximately 11.00 a.m. local time in the location of such Relevant Market or Substitute Market, as applicable, provided that Brussels shall be deemed to be the location of the Euro-zone market.
- (d) **"Reference Banks"** means four major banks in the Relevant Market selected by the Calculation Agent, which may include the Issuer and/or any of its Affiliates.
- (e) **"Representative Amount"** means an amount that is representative for a single transaction in the respective market at the relevant time and, with regard to the Relevant Market if the relevant Interest Rate relates to loans denominated in EUR, the assumption of an Actual/360 day count basis.
- (f) **"Relevant Market"** means
 - (i) if the relevant Interest Rate relates to loans denominated in USD or any currency other than EUR: the London interbank market
 - (ii) if the relevant Interest Rate relates to loans denominated in EUR: the Euro-zone interbank market.
- (g) **"Substitute Market"** means
 - (i) if the relevant Interest Rate relates to loans denominated in USD or any currency other than EUR: New York City
 - (ii) if the relevant Interest Rate relates to loans denominated in EUR: the Euro-zone.

(4) **Events and/or situations constituting Market Disruption**

"Market Disruption" means any of the following events or situations if, in the determination of the Calculation Agent, any of these is material to the valuation of a Reference Item or any Hedging Arrangements of the Issuer in relation to the Securities provided that any Market Disruption in respect of a Relevant Reference Item shall be deemed to be a Market Disruption in respect of the related Reference Item:

- (a) if the Reference Source for a Reference Item or Relevant Reference Item is an exchange, a trading system or a quotation system as determined by the Calculation Agent:
 - (i) the failure of a relevant Related Exchange or Reference Source, to open for trading during its regular trading session on any Trading Day; or
 - (ii) (aa) the failure of the relevant Index Sponsor to publish the level of a Reference Item or Relevant Reference Item which is an index on any Trading Day or (bb) the failure of a relevant Related Exchange to open for trading during its regular trading session; or
 - (iii) the occurrence or existence on any Trading Day at the Relevant Time for a Reference Item or Relevant Reference Item or at any time during the one hour period that ends at the Relevant Time for such Reference Item or Relevant Reference Item, as applicable:
 - 1. of any suspension of or limitation imposed on trading by the relevant Reference Source or Related Exchange or otherwise (and whether by reason of movements in price exceeding limits permitted by the relevant Reference Source or any Related Exchange or otherwise):

IV. GENERAL CONDITIONS

- a. of a Reference Item or Relevant Reference Item on the relevant Reference Source; or
 - b. where the Reference Item is not, under the heading of "Underlying" in the Product Terms, specified to be a Multi-Exchange Index, on any Reference Source as a whole; or
 - c. in options contracts or futures contracts on or relating to a Reference Item on any Related Exchange; or
 - d. on any other exchange or trading system or quotation system on which a Reference Item is listed or quoted; or
2. of any event that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (i) to effect transactions in relation to or to obtain market values for, a Reference Item or Relevant Reference Item on the relevant Reference Source or (ii) to effect transactions in, or obtain market values for options contracts or futures contracts on or relating to a Reference Item or Relevant Reference Item on any relevant Related Exchange; or
- (iv) the closure on any Exchange Business Day of a relevant Reference Source(s) or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Reference Source(s) or Related Exchange(s) at least one hour prior to the earlier of (aa) the actual closing time for the regular trading session on such Reference Source(s) or Related Exchange(s) on such Exchange Business Day and (bb) the submission deadline (if applicable) for orders to be entered into the Reference Source or Related Exchange system for execution at the Relevant Time on such Exchange Business Day;
- (b) if the Reference Source for a Reference Item or Relevant Reference Item is not an exchange, a trading system or a quotation system as determined by the Calculation Agent:
it is not possible, for reasons beyond the reasonable control of the Calculation Agent, to determine the price or value (or an element of such price or value) of such Reference Item or Relevant Reference Item by reference to such Reference Source according to the rules or normal or accepted procedures for the determination of such price or value (whether due to non-publication of such price or value or otherwise);
- (c) if the Reference Item is specified to be an "Emerging Market Underlying" in the Product Terms:
- (i) where the Reference Currency for a Reference Item is different from the Settlement Currency, the occurrence at any time of an event which the Calculation Agent determines would have the effect of preventing, restricting or delaying the Issuer and/or any Hedging Party from:
 1. converting the Reference Currency into the Settlement Currency through customary legal channels or transferring within or from any Relevant Country either currency, due to the imposition by such Relevant Country of any controls restricting or prohibiting such conversion or transfer, as the case may be;
 2. converting the Reference Currency into the Settlement Currency at a rate at least as favourable as the rate for domestic institutions located in any Relevant Country;
 3. delivering the Reference Currency or Settlement Currency from accounts inside any Relevant Country to accounts outside such Relevant Country; or

- 4. transferring the Reference Currency or Settlement Currency between accounts inside any Relevant Country or to a party that is a non-resident of such Relevant Country; or
- (ii) a Relevant Country (a) imposes any controls or announces its intention to impose any controls; or (b)(i) implements or announces its intention to implement; or (ii) changes or announces its intention to change the interpretation or administration of any laws or regulations, in each case which the Calculation Agent determines is likely to affect the Issuer's ability to acquire, hold, transfer or realise or otherwise to effect transactions in relation to a Reference Item,

provided that where the Reference Item is, under the heading of "Underlying" in the Product Terms, specified to be an Exchange Rate, within (i) and (ii) references to "Reference Currency" should be read as references to "Second Currency" and references to "Settlement Currency" as references to "First Currency"; or

- (d) a general banking moratorium is declared in respect of banking activities in any Relevant Country.

(5) **Definitions in respect of §5(4) and, if applicable, other Terms and Conditions:**

- (a) **"Affiliate"** means any entity controlled, directly or indirectly, by the Issuer, any entity that controls, directly or indirectly, the Issuer, or any entity under common control with the Issuer. As used herein **"control"** means ownership of a majority of the voting power of the entity or, as the case may be, the Issuer and **"controlled by"** and **"controls"** shall be construed accordingly.
- (b) **"Exchange Business Day"** means
 - (i) where the relevant Reference Item is not, under the heading "Underlying" in the Product Terms, specified to be a Multi-Exchange Index, any Trading Day on which each Reference Source and each Related Exchange are open for trading during their respective regular trading sessions, notwithstanding any such Reference Source or Related Exchange closing prior to its Scheduled Closing Time; and
 - (ii) where the Reference Item is under the heading "Underlying" in the Product Terms, specified to be a Multi-Exchange Index, any Trading Day on which the relevant Index Sponsor publishes the level of such Reference Item and the Related Exchange is open for trading during its regular trading session, notwithstanding such Related Exchange closing prior to its Scheduled Closing Time.
- (c) **"Hedging Arrangements"** means the arrangements the Issuer makes to have available to it the relevant cash amounts or assets to be paid or delivered under the Securities as these fall due. This may involve the Issuer investing directly or indirectly in the Underlying. An indirect investment might be made by an Affiliate or agent of the Issuer or other third party making an investment in the Underlying. Alternatively an indirect investment might involve the Issuer or an Affiliate, agent or other third party entering into or acquiring a derivative contract referencing the Underlying. The Issuer will select Hedging Arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates. The Issuer may also adjust Hedging Arrangements from time to time but it will not always be able to avoid adverse costs, taxes or regulatory changes which affect its Hedging Arrangements.
- (d) **"Hedging Party"** means any Affiliate or agent of the Issuer or other third party providing the Issuer with Hedging Arrangements as described in the definition of Hedging Arrangements above.

IV. GENERAL CONDITIONS

- (e) **"Index Sponsor"** means (i) in relation to a Reference Item or Relevant Reference Item which is an index specified under the heading "Underlying" in the Product Terms, the sponsor specified therein for such index; and (ii) in relation to any other Reference Item or Relevant Reference Item which is an index, the entity determined by the Calculation Agent to be principally responsible for the determination and publication of such index provided that, in either case, references to an Index Sponsor shall include any Successor Sponsor.
- (f) **"Multi-Exchange Index"**, if applicable, means each Reference Item specified under the heading "Underlying" in the Product Terms to be a Multi-Exchange Index.
- (g) **"Reference Currency"** (i) in relation to a Reference Item, if so specified under the heading "Underlying" in the Product Terms, is the Reference Currency or (in the case of a Basket Constituent) is the Basket Constituent Currency, each as specified under such heading or, if not specified there, is the Settlement Currency; and (ii) in relation to a Relevant Reference Item, is the currency in which such asset is denominated or quoted or with which it is most closely connected, as determined by the Calculation Agent.
- (h) **"Reference Item"** means each asset or reference basis (i) specified, under the heading "Underlying" in the Product Terms, to be the Underlying or; (ii) in the case of a basket of assets or reference bases, to be included in the Underlying. For the avoidance of doubt, a Basket Constituent shall be a Reference Item.
- (i) **"Reference Source"**, in relation to a Reference Item or Relevant Reference Item, as applicable, is as specified under the heading "Underlying" in the Product Terms or any successor to any such Reference Source, acceptable to and as determined by the Calculation Agent or, if not defined there, the reference source or reference sources determined by the Calculation Agent to be applicable to the valuation of the Reference Item or Relevant Reference Item, as applicable for the purposes of determining its relevant level or value.
- (j) **"Related Exchange"** means, unless otherwise defined under the heading "Underlying" in the Product Terms, with respect to a Reference Item or Relevant Reference Item, each exchange, trading system or quotation system whose trading has an effect on the overall market for options contracts or futures contracts on the Reference Item or Relevant Reference Item, and any successor acceptable to the Calculation Agent, as determined by the Calculation Agent.
- (k) **"Relevant Country"** means, as determined by the Calculation Agent, each of:
 - (i) any country (or any political or regulatory authority thereof) in which a Reference Currency or the Settlement Currency is the legal tender or currency; and
 - (ii) any country (or any political or regulatory authority thereof) with which a Reference Item or Relevant Reference Item or, if a security, the relevant issuer has a material connection and, in determining what is material the Calculation Agent may, without limitation, refer to the country in which any such issuer is incorporated or, in relation to an index, the country or countries in which the Index or Relevant Reference Item(s) is calculated or published and/or such other factor(s) as it may deem appropriate.
- (l) **"Relevant Reference Item"** means, in respect of a Reference Item specified to be an index, any index or other constituent used for the calculation or determination of such index or any asset or reference basis constituting such Reference Item at the relevant time.
- (m) **"Relevant Time"** means, with respect to a Reference Item or Relevant Reference Item,
 - (i) where the Reference Item is not, under the heading "Underlying" in the Product Terms, specified to be a Multi-Exchange Index and in relation to each Relevant

IV. GENERAL CONDITIONS

Reference Item, the relevant time by reference to which the Calculation Agent determines the level or value of such Reference Item or Relevant Reference Item; and

- (ii) where the relevant Reference Item is an index and is under the heading "Underlying" in the Product Terms, specified to be a Multi-Exchange Index,
 - 1. for the purposes of determining whether a Market Disruption has occurred,
 - a. in respect of any Reference Item, the Scheduled Closing Time on the relevant Reference Source in respect of such Reference Item; and
 - b. in respect of any options contracts or futures contracts on or relating to such Reference Item, the close of trading on the Related Exchange; and
 - 2. in all other circumstances, the time at which the official closing level of such index is calculated and published by the relevant Index Sponsor.
- (n) **"Scheduled Closing Time"** means, in respect of a Reference Source or Related Exchange and a Trading Day, the scheduled weekday closing time of such Reference Source or Related Exchange on such Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.
- (o) **"Settlement Currency"** is as specified in the Product Terms.
- (p) **"Ultimate Trading Day"** means the eighth Trading Day unless otherwise specified in the Product Terms.

§6 Adjustment Events and Adjustment/Termination Events

If Eligible Liabilities Format is specified to be applicable in the Product Terms, the following applies:

§6 is not applicable.

In all other cases, the following applies:

(1) Adjustment Events

The occurrence of any of the following events set out under "General" or "Specific" below, in each case, in respect of a Reference Item (as specified in the Product Terms under the heading "Underlying") shall constitute an **"Adjustment Event"**:

General:

- (a) an event occurs which materially affects or may materially affect the theoretical economic value of such Reference Item or which has or may have an economic, dilutive or concentrative effect on the theoretical economic value of such Reference Item;
- (b) an event occurs that materially disrupts the economic link between the value of such Reference Item and the Securities subsisting immediately prior to the occurrence of such event; and/or
- (c) a Reference Item, or the underlying constituent(s) or reference basis(es) for any Reference Item, is materially modified; and/or

Specific:

any of the events or circumstances specified as Adjustment Events in para. (5) below.

The occurrence of any such Adjustment Event may materially affect (i) the economic equivalence of the Securities before and after the occurrence of such an event, and/or (ii) the cost of maintaining the Securities or Hedging Arrangements for the Securities, in each case in a way which has not been reflected in the pricing of the Securities.

*As a result the Issuer shall be entitled to make adjustments to the Terms and Conditions following the occurrence of any such Adjustment Event as set out in para. (2) below or if it determines that it is not able to make an appropriate adjustment pursuant to para. (2) below may elect to treat the Adjustment Event as an Adjustment/Termination Event under para. (3) below. See para. (3)(c) below. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.***

For the avoidance of doubt, an event or circumstance may at the same time qualify as an Adjustment Event under more than one of the above items (a)-(c) and each of the Adjustment Events in relation to a Reference Item set out in para. (5) below shall constitute an Adjustment Event.

(2) Consequences of an Adjustment Event

- I. If "Minimum Redemption Amount Payable" has not been specified to apply in the Product Terms:

IV. GENERAL CONDITIONS

Following the occurrence of an Adjustment Event the Calculation Agent may make such adjustments to the Terms and Conditions as it, in its reasonable discretion, determines necessary or appropriate in order to account for the effect of such Adjustment Event and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the occurrence of such Adjustment Event and the economic link between the Underlying and the Securities and/or to enable it to maintain its Hedging Arrangements (as applicable), and will determine when these adjustments become effective. This may include, without limitation, where the Underlying, or the relevant Reference Item, is an index (in each case as specified under the heading "Underlying" in the Product Terms) determining the level of that index on that date using, in lieu of a published level for that index, the level for that index as at that date as determined by the Calculation Agent in accordance with the formula for and method of calculating that index last in effect prior to the relevant Adjustment Event but using only those Relevant Reference Items that comprised that index immediately prior to the event. This may also include, without limitation, where the Underlying, or the relevant Reference Item, is a managed basket (in each case as specified under the heading "Underlying" in the Product Terms), determining that the basket becomes static and that the Securityholders are granted an additional exercise date, which shall not be earlier than six weeks following and excluding the date on which the Issuer has informed the Securityholders and the Calculation Agent of the occurrence of an Adjustment Event (an "**Additional Exercise Date**").

Such adjustments may take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of or in connection with the relevant Adjustment Event including, without limitation, any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences) for the Issuer. Such change in tax consequences may include, but is not limited to, any changes resulting from any Hedging Arrangements of the Issuer in relation to the Securities.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such event made by a Related Exchange to options or futures contracts on the relevant Reference Item traded on that Related Exchange. Any such adjustment may take into account, as the Calculation Agent deems appropriate, any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences) for the Issuer as a result of the Adjustment Event.

If the Securities are specified in the Product Terms to be Italian Securities:

- (a) such adjustments as specified in the two preceding sections will not take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of any duty, withholding, deduction or other charge whatsoever; and
- (b) a change in tax consequences will not include changes resulting from Hedging Arrangements of the Issuer in relation to the Securities.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with §16, stating the adjustment made to the Terms and Conditions and giving brief details of the relevant Adjustment Event.

II. If "Minimum Redemption Amount Payable" has been specified to apply in the Product Terms:

Following the occurrence of an Adjustment Event the Calculation Agent may, in its reasonable discretion, either (i) make no adjustments or modifications to the Terms and Conditions, or (ii) make such adjustments to the Terms and Conditions as it, in its reasonable discretion, determines necessary or appropriate in order (a) to account for the effect of such Adjustment Event, (b) to preserve as nearly as practicable the economic equivalence of the Securities before and after the occurrence of such Adjustment Event and the economic link between the Underlying and the

IV. GENERAL CONDITIONS

Securities, and (c) to enable it to maintain its Hedging Arrangements (if applicable, as determined by the Calculation Agent), and determine when these adjustments become effective. This may include, without limitation, where the Underlying, or the relevant Reference Item, is an index (in each case as specified under the heading "Underlying" in the Product Terms) determining the level of that index on that date using, in lieu of a published level for that index, the level for that index as at that date as determined by the Calculation Agent in accordance with the formula for and method of calculating that index last in effect prior to the relevant Adjustment Event but using only those Relevant Reference Items that comprised that index immediately prior to the event. This may also include, without limitation, where the Underlying, or the relevant Reference Item, is a managed basket (in each case as specified under the heading "Underlying" in the Product Terms), determining that the basket becomes static and that the Securityholders are granted an additional exercise date, which shall not be earlier than six weeks following and excluding the date on which the Issuer has informed the Securityholders and the Calculation Agent of the occurrence of an Adjustment Event (an "**Additional Exercise Date**").

Such adjustments may take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of or in connection with the relevant Adjustment Event including, without limitation, any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences) for the Issuer. Such change in tax consequences may include, but is not limited to, any changes resulting from any Hedging Arrangements of the Issuer in relation to the Securities. For the avoidance of doubt, if a Minimum Redemption Amount is specified in the Product Terms, such adjustments shall not reduce the Cash Amount paid upon redemption of the Securities on the Settlement Date to an amount less than the Minimum Redemption Amount, unless §6(4)(d) applies to the Securities.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such event made by a Related Exchange to options or futures contracts on the relevant Reference Item traded on that Related Exchange. Any such adjustment may take into account, as the Calculation Agent deems appropriate, any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences) for the Issuer as a result of the Adjustment Event.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with §16, stating the adjustment made to the Terms and Conditions and giving brief details of the relevant Adjustment Event.

(3) **Adjustment/Termination Event**

The occurrence of any of the following events set out under "General" or "Specific" below, in each case, in respect of (i) the Securities; (ii) any Hedging Arrangements in respect of the Securities, or (iii) a Reference Item (as specified in the Product Terms under the heading "Underlying") shall constitute an "**Adjustment/Termination Event**", provided that if the Securities are specified in the Product Terms to be Italian Securities which are Notes intended to be listed and admitted to trading on an Italian regulated market or Italian multilateral trading facility so requiring (including the Borsa Italiana MOT regulated market), any increased direct or indirect costs to the Issuer as a result of any costs, taxes or expenses relating to Hedging Arrangements for the Securities shall not be taken into account in determining whether an Adjustment/Termination Event has occurred:

General:

- (a) an event occurs which materially affects the method by which the Calculation Agent determines the level or price of any Reference Item or the ability of the Calculation Agent to determine the level or price of any Reference Item;

IV. GENERAL CONDITIONS

- (b) a Reference Item is materially modified or affected, whether as a result of a de-listing, merger event, tender offer, termination, redemption, insolvency, nationalisation, a material change in the formula or method for calculating such Reference Item or a material change in its Investment Guidelines, policies, strategy, management or constitutional documents or any other event which the Calculation Agent determines, in its reasonable discretion, constitutes a material modification of or materially affects a Reference Item;
- (c) an Adjustment Event has occurred in respect of which the Calculation Agent determines that it is not able to make an appropriate adjustment pursuant to §6(2), or, "Minimum Redemption Amount Payable" has been specified to apply in the Product Terms and, in the reasonable determination of the Calculation Agent, the direct and indirect costs to the Issuer to effect an appropriate adjustment in respect of such Adjustment Event and resulting from and connected with effecting such adjustment, would, if deducted (on a pro rata amount per Security) from the Cash Amount payable (disregarding such adjustment), reduce the amount payable on the Settlement Date to an amount less than the Minimum Redemption Amount;
- (d) the Issuer determines that:
 - I. if "Minimum Redemption Amount Payable" has not been specified to apply in the Product Terms:
 - (i) the performance of its obligations under the Securities has or will become illegal or not reasonably practical in whole or in part, or such performance would incur materially increased direct or indirect costs, taxes, duties or expenses (as compared to the position on the Issue Date); or
 - (ii) it is or will become illegal or not reasonably practical for the Issuer to acquire, establish, re-establish, substitute, maintain, unwind or dispose of its Hedging Arrangements with respect to the Securities, in whole or in part, or the Issuer will incur materially increased direct or indirect costs, taxes, duties or expenses or fees in acquiring, establishing, re-establishing, substituting, maintaining, unwinding or disposing of its Hedging Arrangements (as compared to the position on the Issue Date), including, without limitation, due to any increase in tax liability, decrease in tax benefits or other adverse effect on the tax position of the Issuer,

(without limitation the Issuer may determine this in circumstances where there is a change in applicable law or regulation (including without limitation, any tax law) in any relevant jurisdiction or interpretation by any court, tribunal or regulatory authority of any such relevant law or regulation (including any action taken by a taxing authority), a decline in the number of appropriate third parties with whom to contract or with whom to contract on reasonable terms in relation to any Reference Item, a material lack of liquidity in the market for any shares, options, instruments or other assets typically used for offsetting risk in relation to a Reference Item);
 - II. if "Minimum Redemption Amount Payable" has been specified to apply in the Product Terms:
 - (i) the performance of its obligations under the Securities has or will become illegal (an "**Illegality Event**");
 - (ii) the performance of its obligations under the Securities would incur materially increased direct or indirect costs, taxes, duties or expenses (as compared to the position on the Issue Date); or

IV. GENERAL CONDITIONS

- (iii) it is or will become illegal or not reasonably practical for the Issuer to acquire, establish, re-establish, substitute, maintain, unwind or dispose of its Hedging Arrangements with respect to the Securities, in whole or in part, or the Issuer will incur materially increased direct or indirect costs, taxes, duties or expenses or fees in acquiring, establishing, re-establishing, substituting, maintaining, unwinding or disposing of its Hedging Arrangements (as compared to the position on the Issue Date), including, without limitation, due to any increase in tax liability, decrease in tax benefits or other adverse effect on the tax position of the Issuer,

(without limitation the Issuer may determine this in circumstances where there is a change in applicable law or regulation (including without limitation, any tax law) in any relevant jurisdiction or interpretation by any court, tribunal or regulatory authority of any such relevant law or regulation (including any action taken by a taxing authority), a decline in the number of appropriate third parties with whom to contract or with whom to contract on reasonable terms in relation to any Reference Item, a material lack of liquidity in the market for any shares, options, instruments or other assets typically used for offsetting risk in relation to a Reference Item);

- (e) the Issuer determines that it is unable, after using commercially reasonable efforts, to realise, recover or remit the proceeds of any Hedging Arrangement(s);
- (f) the Issuer determines, at any time, that a Market Disruption exists on any Ultimate Trading Day pursuant to §5 and that any valuation methods provided in §5 for this case would not be appropriate for the purposes of making the relevant calculation, and the Issuer then elects to treat such Market Disruption as an Adjustment/Termination Event;
- (g) if:
 - I. "Minimum Redemption Amount Payable" has not been specified to apply in the Product Terms:

a force majeure event occurs. For these purposes force majeure event means an event or circumstance which prevents or materially affects the performance of the Issuer's obligations and may include a system failure, fire, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstances; and/or
 - II. "Minimum Redemption Amount Payable" has been specified to apply in the Product Terms:

a Force Majeure Event occurs. For these purposes, a "**Force Majeure Event**" means an event or circumstance which prevents or materially affects the performance of the Issuer's obligations and may include a system failure, fire, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstances; and/or
- (h) liquidity or market conditions in relation to any Reference Item (including the trading of any Reference Item) are materially adversely affected other than where this leads to a Market Disruption; and/or

Specific:

any of events or circumstances specified as Adjustment/Termination Events in para. (5) below.

IV. GENERAL CONDITIONS

*If "Minimum Redemption Amount Payable" has not been specified to apply in the Product Terms, the occurrence of any Adjustment/Termination Event may have the result that the Issuer is either not able to continue to perform its obligations under the Securities or to maintain its Hedging Arrangements or will incur increased costs, taxes, or expenses in so doing, and such impracticality or increased costs, taxes, or expenses have not been reflected in the pricing of the Securities. As a result the Issuer shall be entitled to make adjustments to the Terms and Conditions or to substitute a Reference Item or to pay the Nominal Amount in respect of each Security held by each Securityholder in discharge of its obligation to pay the Cash Amount or deliver the Physical Delivery Amount (or both), as applicable, or to cancel and terminate the Securities following the occurrence of any such Adjustment/Termination Event as set out in para. (4) below. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.***

*If "Minimum Redemption Amount Payable" has been specified to apply in the Product Terms, the occurrence of any Adjustment/Termination Event may have the result that the Issuer is not able to continue to perform its obligations under the Securities or to maintain its Hedging Arrangements or will incur increased costs, taxes, or expenses in so doing, and such impracticality or increased costs, taxes, or expenses have not been reflected in the pricing of the Securities. As a result the Issuer shall be entitled to make adjustments to the Terms and Conditions or to substitute a Reference Item or (if applicable) to pay the Minimum Redemption Amount in respect of each Security held by each Securityholder in discharge of its obligation to pay the Cash Amount or any coupons or other amounts, or deliver the Physical Delivery Amount, as applicable, or, in certain cases, to cancel and terminate the Securities following the occurrence of any such Adjustment/Termination Event as set out in para. (4) below. **This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.***

For the avoidance of doubt, an event or circumstance may at the same time qualify as an Adjustment/Termination Event under more than one of the above items (a)-(i) and each of the Adjustment/Termination Events in relation to a Reference Item set out in para. (5) below shall constitute an Adjustment/Termination Event.

(4) **Consequences of an Adjustment/Termination Event:**

- I. If "Minimum Redemption Amount Payable" has not been specified to apply in the Product Terms:

Following the occurrence of an Adjustment/Termination Event, the Calculation Agent may take any of the following actions. **In particular, it should be noted that para. (c) below allows for the payment of an amount equal to the Nominal Amount in respect of each Security held by each Securityholder in discharge of the Issuer's obligation to make payments and/or deliveries in respect of the Securities and para. (d) below allows a termination and cancellation of the Securities:**

- (a) other than in respect of an Adjustment/Termination Event in §6(3)(c), the Calculation Agent may make such adjustments to the Terms and Conditions as it, in its reasonable discretion, determines necessary or appropriate in order to account for the effect of such Adjustment/Termination Event and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the occurrence of such Adjustment/Termination Event and the economic link between the Underlying and the Securities and/or to enable it to maintain its Hedging Arrangements (as applicable) and determine when these adjustments become effective. This may include, without limitation, where the Underlying, or the relevant Reference Item, is an index (in each case as specified under the heading "Underlying" in the Product Terms) determining the level of that index on that date using, in lieu of a published level for that index, the level for that index as at that

IV. GENERAL CONDITIONS

date as determined by the Calculation Agent in accordance with the formula for and method of calculating that index last in effect prior to the relevant Adjustment/Termination Event but using only those Relevant Reference Items that comprised that index immediately prior to the event.

Such adjustments may take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of or in connection with the relevant Adjustment/Termination Event including, without limitation, any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences) for the Issuer. Such change in tax consequences may include, but is not limited to, any changes resulting from any Hedging Arrangements of the Issuer in relation to the Securities.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such event made by a Related Exchange to options or futures contracts on the relevant Reference Item traded on that Related Exchange or the adjustments that would follow from the rules and precedents set by an exchange or trading system or quotation system to account for the relevant Adjustment/Termination Event that in the determination of the Calculation Agent would have given rise to an adjustment by the exchange or trading system or quotation system if such options or futures contracts were traded thereon;

If the Securities are specified in the Product Terms to be Italian Securities:

- (i) such adjustments as specified in the preceding two sections will not take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of any duty, withholding, deduction or other charge whatsoever; and
 - (ii) a change in tax consequences will not include changes resulting from Hedging Arrangements of the Issuer in relation to the Securities.
- (b) if Underlying Replacement has been specified to apply in the Product Terms, the Calculation Agent may substitute the relevant Reference Item affected by the Adjustment/Termination Event with a Replacement Asset, as specified in the Product Terms, on or after the effective date of such Adjustment/Termination Event. However, if the relevant Adjustment/Termination Event is a Merger Event and the consideration granted for the relevant Reference Item as part of the Merger Event consists of assets other than cash that are not already included in the Underlying, as specified under the heading "Underlying" in the Product Terms, then the Calculation Agent may at its option adjust the Underlying to include the relevant quantity (determined with regard to the economic terms of the Securities) of such assets to which a holder of the Reference Item would be entitled prior to the occurrence of the Merger Event. The Calculation Agent shall make such adjustments to the Terms and Conditions as it in its reasonable discretion deems appropriate to account for such substitution or additional assets;
- (c) if "Par Value Redemption" has been specified to apply in the Product Terms, if the Calculation Agent is not able to determine or effect an appropriate adjustment pursuant to §6(4)(a) or §6(4)(b) (where Underlying Replacement has been specified to apply in the Product Terms), the Issuer may give notice to the Securityholders in accordance with §16 (such notice, the "**Par Value Redemption Notice**") that it shall discharge its obligation to pay the Cash Amount or to deliver the Physical Delivery Amount (or both), as applicable, in respect of the Securities by payment to each Securityholder in respect of each Security held by such Securityholder of an amount equal to the Nominal Amount (a "**Par Value Redemption Amount**") in respect of each Security on the Settlement Date, and the

IV. GENERAL CONDITIONS

Securityholders will not receive any Cash Amount or any Physical Delivery Amount (or both), as applicable, on the Settlement Date. The Par Value Redemption Notice shall also contain brief details of the Adjustment/Termination Event. If the Par Value Redemption Notice is given by the Issuer, the Calculation Agent may make such adjustment to any variable relevant to the settlement, redemption or payment terms of the Securities as it, in its reasonable discretion, determines necessary or appropriate to account for the payment of the Par Value Redemption Amount and the Calculation Agent shall notify the Securityholders of such adjustments (if any) in accordance with §16. Upon payment of the Par Value Redemption Amount on the Settlement Date, the Issuer shall have no obligation whatsoever under the Securities; or

- (d) **If the Calculation Agent is not able to or elects not to determine or effect an appropriate adjustment pursuant to §6(4)(a) or §6(4)(b) (where Underlying Replacement has been specified to apply in the Product Terms) or §6(4)(c) (where Par Value Redemption has been specified to apply in the Product Terms), the Securities may be terminated and cancelled by the Issuer giving notice to Securityholders as soon as practicable in accordance with §16, which notice shall contain brief details of the Adjustment/Termination Event. If the Securities are so terminated and cancelled, the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the Market Value of a Security taking into account the relevant Adjustment/Termination Event less a Security's proportionate share of the direct and indirect cost to the Issuer of unwinding any underlying related Hedging Arrangements, all as determined by the Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with §16.**

If the Securities are specified in the Product Terms to be Italian Securities which are Notes intended to be listed and admitted to trading on an Italian regulated market or Italian multilateral trading facility so requiring (including the Borsa Italiana MOT regulated market), such amount paid as a result of the Securities' termination and cancellation shall be at least equal to (i) if Zero Coupon Note is not specified in the Product Terms to be applicable, the Nominal Amount in respect of each Security, or (ii) if Zero Coupon Note is specified in the Product Terms to be applicable, the Accreted Value in respect of each Security.

The Calculation Agent shall, as soon as practicable after receipt of any written request from a Securityholder to do so, advise such Securityholder of any determination made by it pursuant to this §6 which occurs on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Securityholders copies of any such determinations.

- II. If "Minimum Redemption Amount Payable" has been specified to apply in the Product Terms:

Following the occurrence of an Adjustment/Termination Event, the Calculation Agent may take any of the following actions. **In particular, it should be noted that para. (c) below allows for the payment of an amount equal to the Minimum Redemption Amount in respect of each Security held by each Securityholder in discharge of the Issuer's obligation to make payments and/or deliveries in respect of the Securities and para. (d) below allows a termination and cancellation of the Securities:**

- (a) other than in respect of an Adjustment/Termination Event in §6(3)(c), the Calculation Agent may make such adjustments to the Terms and Conditions as it, in its reasonable discretion, determines necessary or appropriate in order (i) to account for the effect of such

IV. GENERAL CONDITIONS

Adjustment/Termination Event, (ii) to preserve as nearly as practicable the economic equivalence of the Securities before and after the occurrence of such Adjustment/Termination Event and the economic link between the Underlying and the Securities, and (iii) to enable it to maintain its Hedging Arrangements (if applicable, as determined by the Calculation Agent) and determine when these adjustments become effective. This may include, without limitation, where the Underlying, or the relevant Reference Item, is an index (in each case as specified under the heading "Underlying" in the Product Terms) determining the level of that index on that date using, in lieu of a published level for that index, the level for that index as at that date as determined by the Calculation Agent in accordance with the formula for and method of calculating that index last in effect prior to the relevant Adjustment/Termination Event but using only those Relevant Reference Items that comprised that index immediately prior to the event.

Such adjustments may take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of or in connection with the relevant Adjustment/Termination Event including, without limitation, any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences) for the Issuer. Such change in tax consequences may include, but is not limited to, any changes resulting from any Hedging Arrangements of the Issuer in relation to the Securities. For the avoidance of doubt, if a Minimum Redemption Amount is specified in the Product Terms, such adjustments shall not reduce the Cash Amount paid upon redemption of the Securities on the Settlement Date to an amount less than the Minimum Redemption Amount, unless §6(4)(d) applies to the Securities.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such event made by a Related Exchange to options or futures contracts on the relevant Reference Item traded on that Related Exchange or the adjustments that would follow from the rules and precedents set by an exchange or trading system or quotation system to account for the relevant Adjustment/Termination Event that in the determination of the Calculation Agent would have given rise to an adjustment by the exchange or trading system or quotation system if such options or futures contracts were traded thereon;

- (b) if Underlying Replacement has been specified to apply in the Product Terms, the Calculation Agent may substitute the relevant Reference Item affected by the Adjustment/Termination Event with a Replacement Asset, as specified in the Product Terms, on or after the effective date of such Adjustment/Termination Event. However, if the relevant Adjustment/Termination Event is a Merger Event and the consideration granted for the relevant Reference Item as part of the Merger Event consists of assets other than cash that are not already included in the Underlying, as specified under the heading "Underlying" in the Product Terms, then the Calculation Agent may at its option adjust the Underlying to include the relevant quantity (determined with regard to the economic terms of the Securities) of such assets to which a holder of the Reference Item would be entitled prior to the occurrence of the Merger Event. The Calculation Agent shall make such adjustments to the Terms and Conditions as it in its reasonable discretion deems appropriate to account for such substitution or additional assets;
- (c) if the Adjustment/Termination Event is other than an Illegality Event or a Force Majeure Event, if (i) the Calculation Agent is not able to determine or effect an appropriate adjustment pursuant to §6(4)(a) or §6(4)(b) (where Underlying Replacement has been specified to apply in the Product Terms), or (ii) in the reasonable determination of the Calculation Agent, the direct and indirect costs to the Issuer to effect an appropriate adjustment pursuant to §6(4)(a) or §6(4)(b) (where Underlying Replacement has been specified to apply in the Product Terms) and resulting from and connected with effecting

such adjustment, would, if deducted (on a pro rata amount per Security) from the Cash Amount payable (disregarding such adjustment), reduce the amount payable on the Settlement Date to an amount less than the Minimum Redemption Amount, the Issuer may give notice to the Securityholders in accordance with §16 (such notice, the "**Minimum Redemption Amount Notice**") that it shall discharge its obligation to pay the Cash Amount, any coupons or other amounts and/or to deliver the Physical Delivery Amount, as applicable, in respect of the Securities by payment to each Securityholder in respect of each Security held by such Securityholder of an amount equal to the "**Minimum Redemption Amount**" (which will be 100 per cent. of the Nominal Amount of the relevant Security or such other greater or lesser amount in respect of each Security, as specified in the Product Terms) in respect of each Security on the Settlement Date, and the Securityholders will not receive any Cash Amount, any coupons or other amounts or any Physical Delivery Amount, as applicable, on the Settlement Date or on any other date. The Minimum Redemption Amount Notice shall also contain brief details of the Adjustment/Termination Event. If the Minimum Redemption Amount Notice is given by the Issuer, the Calculation Agent may make such adjustment to any variable relevant to the settlement, redemption or payment terms of the Securities as it, in its reasonable discretion, determines necessary or appropriate to account for the payment of the Minimum Redemption Amount and the Calculation Agent shall notify the Securityholders of such adjustments (if any) in accordance with §16. However, if the Market Value of a Security taking into account the relevant Adjustment/Termination Event less a Security's proportionate share of the direct and indirect cost to the Issuer of unwinding or adjusting any underlying related Hedging Arrangements, all as determined by the Calculation Agent in its reasonable discretion (the "**Net Market Value**"), is greater than present value as of the date on which the Adjustment/Termination Event occurred of the Minimum Redemption Amount, then the difference between the two amounts shall be paid in respect of each Security as an additional coupon as soon as practicable after the date on which the Adjustment/Termination Event occurred. Upon payment of the Minimum Redemption Amount on the Settlement Date and the additional coupon (if any) referred to in the preceding sentence, the Issuer shall have no further obligation whatsoever under the Securities; or

- (d) **If the Adjustment/Termination Event is an Illegality Event or a Force Majeure Event, and (i) if the Calculation Agent is not able to determine or effect an appropriate adjustment pursuant to §6(4)(a) or §6(4)(b) (where Underlying Replacement has been specified to apply in the Product Terms), or (ii) if, in the reasonable determination of the Calculation Agent, the direct and indirect costs to the Issuer to effect an appropriate adjustment pursuant to §6(4)(a) or §6(4)(b) (where Underlying Replacement has been specified to apply in the Product Terms) and resulting from and connected with effecting such adjustment, would, if deducted (on a pro rata amount per Security) from the Cash Amount payable (disregarding such adjustment), reduce the amount payable on the Settlement Date to an amount less than the Minimum Redemption Amount, the Securities may be terminated and cancelled by the Issuer giving notice to Securityholders as soon as practicable in accordance with §16, which notice shall contain brief details of the Adjustment/Termination Event. If the Securities are so terminated and cancelled, the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the Net Market Value of a Security. Payment will be made in such manner as shall be notified to the Securityholders in accordance with §16.**

The Calculation Agent shall, as soon as practicable after receipt of any written request from a Securityholder to do so, advise such Securityholder of any determination made by it pursuant to this §6 which occurs on or before the date of receipt of such request. The

IV. GENERAL CONDITIONS

Calculation Agent shall make available for inspection by Securityholders copies of any such determinations.

(5) **Specific Adjustment Events and Adjustment/Termination Events in relation to different Reference Items**

Set out below are Adjustment Events and Adjustment/Termination Events where the Reference Item (as specified under the heading "Underlying" in the Product Terms) is any of the following: an Index, a Share, an Other Security, a Commodity, an Exchange Rate, a Futures Contract or a managed basket.

(a) **Share**

Where the Underlying, or a relevant Reference Item, is a Share, in each case as specified under the heading "Underlying" in the Product Terms:

- (i) In addition to §6(1)(a)-(c) (inclusive), the following shall each be an Adjustment Event:
1. a subdivision, consolidation or reclassification of relevant Shares (unless it has resulted in a Merger Event) or a free distribution or dividend of any such shares to existing holders by way of bonus, capitalisation or similar issue;
 2. a distribution, issue or dividend to existing holders of the relevant Shares of (1) such shares, or (2) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (3) share capital or other securities of another issuer as a result of a "spin-off" or other similar transaction, or (4) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;
 3. an extraordinary dividend;
 4. a call by the Share Company in respect of relevant Shares that are not fully paid;
 5. a repurchase by or on behalf of the Share Company or any of its subsidiaries of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
 6. in respect of a Share Company, an event that results in any shareholder rights being distributed, or becoming separated from shares of common stock or other shares of the capital stock of such Share Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent;
 7. any redemption of shareholder rights referred to under 6 above; and
 8. any other event that may have a diluting or concentrative or other effect on the theoretical value of the relevant Shares.

IV. GENERAL CONDITIONS

(ii) In addition to §6(3)(a)-(h) (inclusive) the following shall each be an Adjustment/Termination Event:

1. A "**De-Listing**" which means, for any Share for which the Reference Source is an exchange or a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, such Share ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason (other than a Merger Event or Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent;
2. an "**Insolvency**" which means by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Share Company (i) all the Shares of that Share Company are required to be transferred to a trustee, liquidator or other similar official; or (ii) holders of the shares of that Share Company become legally prohibited from transferring them;
3. "**Merger Event**" which means, in respect of any relevant Shares, any (i) reclassification or change of such Shares that results in a transfer of or an irrevocable commitment to transfer all of such Shares outstanding to another entity or person; (ii) consolidation, amalgamation, merger or binding share exchange of a Share Company with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding); (iii) takeover offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares of the Share Company that results in a transfer of or an irrevocable commitment to transfer all such Shares (other than such Shares owned or controlled by such other entity or person); or (iv) consolidation, amalgamation, merger or binding share exchange of the Share Company or its subsidiaries with or into another entity in which the Share Company is the continuing entity and which does not result in a reclassification or change of all such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event, in each case if the Merger Date is on or before the last possible date on which the Calculation Agent could be required by the Terms and Conditions to determine the price or value of the relevant Share;
4. "**Nationalisation**" which means all the relevant Shares or all or substantially all of the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof; and
5. "**Tender Offer**" which means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Share Company, as determined by the Calculation Agent, based upon the making of filings

IV. GENERAL CONDITIONS

with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

As used herein:

A "**Merger Date**" means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

"**Share Company**" means with respect to a Share, the issuer specified for such Share under the heading "Underlying" in the Product Terms.

(b) **Index**

Where the Underlying, or a relevant Reference Item, is an Index, in each case as specified under the heading "Underlying" in the Product Terms:

(i) In addition to §6(1)(a)-(c) (inclusive), the following shall each be an Adjustment Event:

1. Any Index is not calculated or announced by the Index Sponsor specified under the heading "Underlying" in the Product Terms but is calculated by a successor sponsor (the "**Successor Sponsor**") acceptable to the Calculation Agent.
2. Any such Index is replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index specified under the heading "Underlying" in the Product Terms.

The consequences of such Adjustment Event may be, in each case that the relevant Index will be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.

(ii) In addition to §6(3)(a)-(h) (inclusive) the following shall each be an Adjustment/Termination Event:

On or prior to any date with respect to which the Calculation Agent is required to determine the level of an Index, the relevant Index Sponsor or, if applicable, the Successor Sponsor (1) makes or announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index; or (2) permanently cancels that Index; or (3) fails to calculate and announce that Index and, in each case, the provisions of §6(5)(b)(i) above do not apply.

(c) **Other Security**

Where the Underlying, or a relevant Reference Item, is an Other Security, in each case as specified under the heading "Underlying" in the Product Terms:

(i) In addition to §6(1)(a)-(c) (inclusive), the following shall each be an Adjustment Event:

IV. GENERAL CONDITIONS

other than a De-Listing, an Insolvency or a Termination (a) the Reference Issuer amends the terms and conditions of the relevant Other Securities or irreversibly converts the relevant Other Securities into different securities; and/or (b) the aggregate amounts due under the Other Securities are altered (other than due to any scheduled redemption, amortisation or prepayment).

(ii) In addition §6(3)(a)-(h) (inclusive) the following shall each be an Adjustment/Termination Event:

1. a "**De-Listing**" which means, for any Other Security for which the Reference Source is an exchange, a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, such Other Security ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason and is not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent;
2. an "**Insolvency**" which means the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution, winding-up or other cessation of trading or any analogous proceeding in relation to a Reference Issuer; and
3. a "**Termination**" which means, in relation to an issue of Other Securities, such issue has been terminated, cancelled or otherwise ceased to be outstanding for any reason.

As used herein:

"**Reference Issuer**" means the entity specified as the issuer of the relevant Other Security within the Product Terms.

(d) **Commodity**

Where the Underlying, or a relevant Reference Item, is a Commodity, in each case as specified under the heading "Underlying" in the Product Terms, and which may be determined by reference to a futures contract (a "**Futures Contract**"):

(i) In addition to §6(1)(a)-(c) (inclusive), the following shall each be an Adjustment Event:

1. a relevant Commodity or relevant Futures Contract is traded on the Reference Source since the Issue Date in a different quality or another content, constitution or composition (for example in a different degree of purity or with a different point of origin);
2. any other event or measure as a result of which the Commodity or relevant Futures Contract, as traded on the Reference Source, is changed or altered; and
3. a material suspension of, or a material limitation imposed on, trading in the Futures Contract or Commodity on the Reference Source or in any other relevant futures contract, options contract or commodity on any exchange, trading system or quotation system, where such event is determined by the Calculation Agent not to be a Market Disruption.

- (ii) In addition to §6(3)(a)-(h) (inclusive) the following shall each be an Adjustment/Termination Event:
1. the permanent discontinuation of trading, in a relevant Futures Contract or Commodity on the relevant Reference Source, the disappearance of, or of trading in, the Commodity or the disappearance or permanent discontinuance or unavailability of any relevant price or value for a Commodity or Futures Contract (notwithstanding any availability of the related Reference Source or the status of trading in the relevant Futures Contract or the Commodity);
 2. the occurrence since the Issue Date of a material change in the formula for or method of calculating any relevant price or value for a Commodity or Futures Contract;
 3. the failure of the Reference Source to announce or publish any relevant price or value for a Commodity or Futures Contract (or the information necessary for determining any such price or value) or the temporary or permanent discontinuance or unavailability of the Reference Source, where such event is determined by the Calculation Agent not to be a Market Disruption; and
 4. where the Reference Source for a relevant Commodity is an exchange or a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, any material options or futures contract on or relating to such Commodity ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason.

(e) **Exchange Rate**

Where the Underlying, or a relevant Reference Item, is a foreign exchange rate (a "**Exchange Rate**") referring to two or more currencies (each a "**Relevant Currency**"), in each case as specified under the heading "Underlying" in the Product Terms:

In addition to §6(1)(a)-(c) (inclusive), the following shall each be an Adjustment Event:

- (i) a Relevant Currency is, in its function as legal tender, in the country or jurisdiction, or countries or jurisdictions, maintaining the authority, institution or other body which issues such Relevant Currency, replaced by another currency, or merged with another currency to become a common currency;
- (ii) a Relevant Currency in its function as legal tender ceases, for any reason, to be legal tender in the country or jurisdiction, or countries or jurisdictions, maintaining the authority, institution or other body which issues such Relevant Currency; and
- (iii) where the Reference Source for any Exchange Rate is an exchange or a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, the exchange rate between the relevant First Currency and Second Currency ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason and is not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent.

As used herein:

"First Currency" means the currency appearing first in the definition of the relevant Exchange Rate or, in the case of an Exchange Rate referring to more than two currencies, the currency referred to first in each constituent rate of such Exchange Rate.

"Second Currency" means the currency appearing second in the definition of the relevant Exchange Rate or, in the case of an Exchange Rate referring to more than two currencies, the currency referred to second in each constituent Exchange Rate.

(f) **Futures Contract**

Where the Underlying, or a relevant Reference Item, is a Futures Contract, in each case as specified under the heading "Underlying" in the Product Terms:

(i) In addition to §6(1)(a)-(c) (inclusive) the following shall each be an Adjustment Event:

1. the terms and conditions of the relevant Futures Contract, or its underlying concepts or reference asset or basis, are materially modified;
2. any other event or measure as a result of which the Futures Contract, as traded on the Reference Source, is changed or altered; and
3. a material suspension of, or a material limitation imposed on, trading in the Futures Contract on the Reference Source or in any other relevant futures contract or options contract on any exchange, trading system or quotation system, where such event is determined by the Calculation Agent not to be a Market Disruption.

(ii) In addition to §6(3)(a)-(h) (inclusive) the following shall each be an Adjustment/Termination Event:

1. the permanent discontinuation of trading, in a relevant Futures Contract on the relevant Reference Source, the disappearance or permanent discontinuance or unavailability of any relevant price or value for a Futures Contract (notwithstanding any availability of the related Reference Source or the status of trading in the relevant Futures Contract);
2. a material change in the formula for or method of calculating any relevant price or value for a Futures Contract;
3. the failure of the Reference Source to announce or publish any relevant price or value for a Futures Contract (or the information necessary for determining any such price or value) or the temporary or permanent discontinuance or unavailability of the Reference Source, where such event is determined by the Calculation Agent not to be a Market Disruption;
4. where the Reference Source for a Futures Contract is an exchange or a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, such Futures Contract ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason; and

5. the Futures Contract has been terminated, cancelled or otherwise ceased to be outstanding for any reason.

(g) **Fund Shares**

Where the Underlying, or relevant Reference Item, is a Fund Share, in each case as specified under the heading "Underlying" in the Product Terms:

- (i) In addition to §6(1)(a)-(c) (inclusive) the following shall each be an Adjustment Event:
 1. a subdivision, consolidation or reclassification of relevant Fund Shares (unless an Adjustment/Termination Event) or a free distribution or dividend of any such Fund Shares to existing holders by way of bonus, capitalisation or similar issue;
 2. a distribution or dividend to existing holders of relevant Fund Shares of (1) such Fund Shares, or (2) other share capital or securities granting the right to payment of dividends, redemption amounts or other amounts and/or delivery of assets and/or the proceeds of liquidation of the Fund equally or proportionately with such payments or deliveries to holders of such Fund Shares, or (3) share capital or other securities of another issuer acquired by the Fund as a result of a "spin-off" or other similar transaction, or (4) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;
 3. an extraordinary dividend;
 4. a call by the Fund in respect of relevant Fund Shares that are not fully paid;
 5. with respect to a Fund an event that results in any shareholder rights pursuant to a shareholder rights agreement or other plan or arrangement of the type commonly referred to as a "poison pill" being distributed, or becoming separated from shares of common stock or other shares of the capital stock of such Fund (provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights);
 6. the occurrence of a tender offer (a "**Tender Offer**") by any entity or person to purchase more than 10 per cent. but less than 50 per cent. of the outstanding voting shares of any class of shares of the Fund, as determined by the Calculation Agent based upon the making of filings with governmental agencies and/or the nature and term of the Tender Offer;
 7. any failure by a Fund or any Specified Party to deliver or publish or cause to be delivered or published information that such Fund or such Specified Party has agreed to deliver or publish pursuant to (a) any Fund Information Documents or (b) any agreement entered into between (i) the relevant Fund or Specified Party and (ii) the Issuer, any Hedging Party, or the Calculation Agent, such agreement providing for an obligation on the part of the relevant Fund or Specified Party to provide certain information to such party (or parties as applicable);

IV. GENERAL CONDITIONS

8. the Calculation Agent determines, that the reported net asset value of a Fund Share of a Fund is not reflective of the liquidation proceeds that a Hedging Party in such Fund Shares would receive in respect of a notional liquidation of those Fund Shares by the date described in the actual or documented liquidity terms of such Fund Shares;
 9. any material change in the formula for or the method of calculating or any change in the periodicity of the calculation or publication of the net asset value or other price or value of the relevant Fund Share, or in the composition or weighting of the prices or assets on the basis of which such net asset value or other price or value is calculated; or
 10. any other event that may have, in the opinion of the Calculation Agent, a dilutive or concentrative or other effect on the theoretical value of the Fund Shares.
- (ii) In addition to §6(3)(a)-(h) (inclusive) the following shall each be an Adjustment/Termination Event:
1. for any Fund Share for which the Reference Source is an exchange, a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, the Fund Share ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason and is not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent;
 2. the Fund repurchases, redeems or is required by any applicable regulatory authority to repurchase or redeem relevant Fund Shares (other than in accordance with the normal redemption or realisation procedures for such Fund Shares) whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
 3. in relation to a Fund Share, (A) the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution, winding-up or other cessation of trading of or any analogous proceeding in relation to (i) the relevant Fund or (ii) the relevant Master Fund or (iii) unless replaced with a successor acceptable to the Calculation Agent, the relevant Specified Party or (B) all such Fund Shares are required to be transferred to a trustee, liquidator or other similar official;
 4. the occurrence of any of the following events:
 - a. any litigation, arbitration, investigation, proceeding or regulatory or governmental action exists, is commenced or is threatened in relation to a Fund, its Master Fund or any Specified Party; or
 - b. any change in the legal, tax, accounting or regulatory treatment of a Fund and/or its Master Fund and/or Specified Party which would have an adverse impact for the Issuer and/or Hedging Party as a holder of Fund Shares in such Fund;
 5. in respect of a Fund, its Manager or its Master Fund:

IV. GENERAL CONDITIONS

- a. an irrevocable commitment to transfer all of the relevant Fund Shares or shares or units in such Master Fund outstanding; or
 - b. a consolidation, amalgamation or merger of such Fund, such Manager or such Master Fund with or into another fund or fund manager other than a consolidation, amalgamation or merger in which such Fund or its Master Fund or its Manager is the continuing Fund, Master Fund or Manager, as the case may be; or
 - c. a takeover offer for such Fund, Master Fund or Manager that results in a transfer of or an irrevocable commitment to transfer all of the relevant Fund Shares or shares or units in such Master Fund or all the shares of such Manager (other than Fund Shares or shares owned or controlled by the offeror);
6. any Specified Party of the Fund and/or any Specified Party of the Master Fund ceases to act in its relevant capacity as service provider to the Fund or the Master Fund, as the case may be, and is not immediately replaced in such capacity by a successor acceptable to the Calculation Agent;
 7. a material modification or breach of the investment objectives, investment policies, investment strategy, investment process or investment guidelines (however described) ("**Investment Guidelines**") of the Fund or the Master Fund;
 8. a material modification or breach of the conditions in place for the relevant Fund and/or the relevant Master Fund (including but not limited to a modification or breach of the Fund Information Document or the memorandum and articles of association or other constitutional documents of the Fund or any prospectus, information memorandum or similar document (including any document supplementing, amending or restating the same) or memorandum and articles of association or other constitutional documents of the Master Fund);
 9. the currency of denomination of any Fund Shares of a Fund is amended and/or the net asset value of the Fund Shares of a Fund is no longer calculated in the currency that applied on the Issue Date;
 10. interruption, breakdown or suspension of the calculation or publication of the net asset value or other value or price of the Fund and/or Master Fund;
 11. a material modification of the type of assets in which the Fund and/or the Master Fund invests or the trading practices of the Fund or the Master Fund (including but not limited to a material deviation from the Investment Guidelines set out in any Fund Information Document) which, in the determination of the Calculation Agent, has or is likely to have a material effect on the Hedging Arrangements of the Issuer in respect of the Securities;
 12. the non-execution or partial execution or delayed execution by or on behalf of the Fund for any reason of a subscription or redemption order in respect of any Fund Shares given by the Issuer and/or any Hedging Party;

IV. GENERAL CONDITIONS

13. any redemption of Fund Shares occurs in whole or in part otherwise than by payment of an amount in cash;
14. the Fund otherwise suspends subscriptions or redemptions of any Fund Shares;
15. any event or circumstance (whether or not in accordance with the constitutive documents and investment guidelines of the Fund) in respect of the Fund or Master Fund (as applicable) which mandatorily obliges the Issuer and/or any Hedging Party to sell or otherwise dispose of any Fund Shares (or the Fund to sell or otherwise dispose of any master fund shares);
16. the Fund or any party acting on its behalf imposes any restriction, charge or fee in respect of a redemption or issue of Fund Shares (other than any restriction, charge or fee in existence as at the Issue Date of the Securities);
17. the Fund (i) introduces a new redemption fee, or modifies a redemption fee, (ii) introduces a new subscription fee, or modifies a subscription fee, (iii) introduces a new management fee or modifies an existing management fee, (iv) introduces a new performance fee or modifies an existing performance fee, (v) introduces or modifies any lock-up fees, or (vi) introduces a bid/offer spread (or other charge however described) or modifies any bid/offer spread or modifies any other charge howsoever described which, in each case, the Issuer and/or any Hedging Party would have to bear in respect of any shares of the Fund;
18. the Fund, the Master Fund, any Specified Party, the manager of the Master Fund or the Manager has any relevant licence, authorisation or registration cancelled or revoked by any applicable regulatory authority and/or the Issuer and/or any Hedging Party is required by an applicable regulatory authority to dispose of any Fund Shares held in connection with any Hedging Arrangements relating to the Securities;
19. the inability of the Issuer and/or any Hedging Party to perform any hedging activities on any relevant day at such price as it determines is appropriate, and in the case of any Fund Shares, a day in respect of which the Fund would ordinarily be able to accept subscriptions or redemptions, as the case may be, (which constitutes a hedging activity), at, or at a value that equates to, the net asset value of the Fund Shares for such day;
20. the Fund or any Specified Party defaults under, modifies or terminates any rebate agreements in place with the Issuer and/or Hedging Party Provider, in each case as determined by the Calculation Agent;
21. there is a change in the liquidity in the Fund or Master Fund in respect of the frequency of subscriptions or redemptions from that described in the Fund Information Document;
22. the total assets under management of the Fund reduce to an amount which, in the determination of the Calculation Agent, would lead to the number and/or aggregate net asset value of shares held, or that would be held, by a Hedging Party, being more than the Holding Threshold of the aggregate of

IV. GENERAL CONDITIONS

- the number of shares in issue by the Fund and/or the total assets under management of the Fund;
23. there is a change in the taxation treatment in any relevant jurisdiction in respect of any payments and/or deliveries made by a Fund or any reinvested amounts held by a Fund in respect of any Fund Shares as a result of which the amounts and/or assets realised by the Issuer in connection with Hedging Arrangements relating to the Securities are materially reduced or otherwise adversely affected; or
 24. any other event occurs in relation to the relevant Fund or the relevant Fund Shares, which, in the determination of the Calculation Agent, has a material adverse effect on the value of such Fund Shares and/or the Hedging Arrangements of the Issuer in connection with the Securities and which is not an Adjustment Event.

The following definitions shall apply:

"Fund" means, with respect to a Fund Share, the issuer or obligor specified for such Fund Share in the definition of "Underlying", in the Product Terms;

"Fund Information Document" means, in relation to a Fund and a Fund Share, any prospectus, information memorandum or similar document relating to the Fund and/or the Fund Share (including any document supplementing, amending or restating the same), all as determined by the Calculation Agent;

"Fund Share" means each fund share, interest or unit held by an investor in a Fund or any other interest specified as such in the definition of "Underlying" in the Product Terms;

"Holding Threshold" means 10 per cent. unless otherwise defined in the Product Terms;

"Manager" means, in relation to a Fund, any entity described as such in relation to the Fund in any relevant Fund Information Document or which provides investment, managerial, broking or arrangement or similar services (however described) to the Fund, all as determined by the Calculation Agent; **"Master Fund"** means, in relation to a Fund, any entity described as such in relation to the Fund in any relevant Fund Information Document or which acts as a master fund or umbrella fund or similar entity (however described) in relation to the Fund, all as determined by the Calculation Agent;

"Specified Party" means, in relation to a Fund, the administrator, the investment manager, the custodian, the depository, the investment advisor, the prime broker (if any) or any other service provider of that Fund.

(h) **Managed Basket**

Where the Underlying, or relevant Reference Item, is a managed basket, in each case as specified under the heading "Underlying" in the Product Terms:

In addition to §6(1)(a)-(c) (inclusive), the following shall each be an Adjustment Event:

- (i) the investment agreement between the Issuer and the Investment Manager, which, *inter alia*, sets out the terms upon which the appointment of the Investment Manager pursuant to such agreement may be terminated (the

IV. GENERAL CONDITIONS

"Investment Management Agreement") is not executed until the first Basket Rebalancing Date;

- (ii) the Investment Management Agreement is terminated by the Issuer in its reasonable discretion on the following grounds:
 - 1. a material breach by the Investment Manager of a material obligation under the Investment Management Agreement if such breach is not remedied on or before the fifth day after notice of such breach is given to the Investment Manager;
 - 2. persistent, continual or repeated breach of the Investment Management Agreement by the Investment Manager in respect of either one or a number of different provisions of the Investment Management Agreement;
 - 3. subject to the requirements of applicable law, if the Investment Manager (A) institutes any proceedings to adjudicate itself bankrupt or insolvent or there are any such proceedings instituted against it, (B) files a petition seeking or consenting to reorganisation or relief under any applicable law relating to bankruptcy or insolvency with respect to itself, (C) consents to the appointment of a receiver, liquidator, assignee, trustee, sequestrator (or similar official) for itself or for a substantial part of its property, (D) makes any general assignment for the benefit of its creditors, (E) admits in writing its inability to pay its debts generally as they become due, or (F) takes any action in furtherance of any of the foregoing;
 - 4. it is, or becomes, unlawful for the Investment Manager to select any Reference Items to be comprised in the Underlying;
 - 5. the Investment Manager violates applicable laws and regulations when providing its services under the Investment Management Agreement;
 - 6. it is inadmissible for the Issuer from a regulatory perspective to maintain the contractual relationship with the Investment Manager; and
- (iii) any other event or measure as a result of which the rebalancing of the basket, becomes impossible.

§7 Form of Securities, Transferability, Status, Securityholders, Set-Off, Eligible Liabilities Redemption Restriction

(1) Form

(a) General

Unless sub-paragraphs (b), (c), (d), (e), (f), (g), (h) or (i) below apply, the Securities are represented by a global security (the "**Global Security**"). The Product Terms of each Series of Securities will be attached to the relevant Global Security which will be marked with the ISIN for the relevant Securities as specified in the applicable Final Terms. No definitive Securities will be issued.

Where Multi-Series is stated to be applicable in the Product Terms, each Series shall be represented by a separate Global Security. These General Conditions shall be deemed to apply to each Series separately and references to Securities and related expressions in these General Conditions shall be deemed to be references to the relevant Series.

(i) Global Security - English law governed Securities

If the Governing Law is specified in the Product Terms to be English Law the following applies:

On or prior to the issue date of the Securities, the Global Security will be deposited with a depositary (or if there is more than one Clearing Agent, a common depositary) for the Clearing Agent(s).

If the Securities are specified in the Product Terms to be Certificates or Warrants, the Global Security will be in non-bearer form.

If the Securities are specified in the Product Terms to be Notes the Global Security will be in bearer form or registered form, as specified in the Product Terms. If the Notes are in registered form, on or prior to the issue date of the Securities the Global Security will be registered in the name of the Clearing Agent or a nominee (or if there is more than one Clearing Agent, a common nominee) of the Clearing Agent(s).

(ii) Global Security - German law governed Securities

If the Governing Law is specified in the Product Terms to be German Law on or prior to the issue date of the Securities, the Global Security will be deposited with a Clearing Agent in Germany and will be in bearer form for the purposes of German law.

(b) Italian Securities

If the Securities are specified in the Product Terms to be Italian Securities, the Securities will be dematerialised and centralised with the Italian Clearing Agent, pursuant to Italian Legislative Decree dated 24 February 1998, No. 58, as amended and integrated by subsequent implementing provisions. No global security and no definitive securities will be issued in respect of such Securities.

(c) Portuguese Securities

If the Securities are specified in the Product Terms to be Portuguese Securities, the Securities will be dematerialised (*forma escritural*), represented by book entries (*registos em conta*) only and centralised through the CVM managed by Interbolsa, Avenida da Boavista, n.º 3433, 4100-138 Porto, Portugal, in accordance with Portuguese law. In respect of Portuguese Securities, certain further amendments may be made to the General Conditions. Any such further amendments will be specified in the relevant Product Terms. The Portuguese Securities will be freely transferable by way of book entries in the accounts of

authorised financial intermediaries entitled to hold securities control accounts with Interbolsa on behalf of their customers ("**Affiliate Members of Interbolsa**", which includes any custodian banks appointed by Euroclear Bank SA/NV and Clearstream Banking, société anonyme for the purpose of holding accounts on behalf of Euroclear Bank SA/NV and Clearstream Banking, société anonyme, and each an "**Affiliate Member of Interbolsa**") and each Portuguese Security having the same ISIN shall have the same denomination or unit size (as applicable) and, if admitted to trading on the Euronext Lisbon regulated market ("**Euronext Lisbon**"), such Portuguese Securities shall be transferrable in lots at least equal to such denomination or unit multiples thereof. No global security and no definitive securities will be issued in respect of the Portuguese Securities.

(d) **Spanish Securities**

(i) Spanish Securities represented by a Global Security

In the case of Securities which are specified in the Product Terms to be Spanish Securities (Global Security), the Securities will be represented by a Global Security in bearer form. On or prior to the issue date of the Securities, the Global Security will be deposited with a depository (or, if there is more than one Clearing Agent, a common depository) for the Clearing Agent(s).

(ii) Spanish Listed Securities

In the case of Securities which are specified in the Product Terms to be Spanish Listed Securities, the Securities will be issued in uncertificated, dematerialised book-entry form and registered with and cleared through Iberclear, Palacio de la Bolsa Plaza de la Lealtad, 1 ES-28014 Madrid, Spain, as managing entity of the central registry. Such book-entry securities will be constituted as such by virtue of their entry in the corresponding accounting book of Iberclear.

(e) **Swedish Securities**

If the Securities are specified in the Product Terms to be Swedish Securities, the Securities will be cleared through Euroclear Sweden AB (formerly known as VPC AB), P.O. Box 191, Klarabergviadukten 63, 101 23 Stockholm, Sweden, and issued in registered form in accordance with the Swedish Financial Instruments Account Act (SFS 1998:1479); *Lag (1998:1479) om kontoföring av finansiella instrument*). The Securities will be issued in uncertificated book-entry form, as more fully described in the Product Terms. No global security and no definitive securities will be issued in respect of the Securities.

(f) **Finnish Securities**

If the Securities are specified in the Product Terms to be Finnish Securities, the Securities will be issued in the Finnish book-entry securities system maintained by Euroclear Finland Ltd., (formerly known as Suomen Arvopaperikeskus Oy), P.O. Box 1110, FI-00101 Helsinki, Finland, as more fully described in the Product Terms. No global security and no definitive securities will be issued in respect of the Securities.

(g) **Norwegian Securities**

If the Securities are specified in the Product Terms to be Norwegian Securities, the Securities will be registered in, and cleared through the Norwegian Central Securities Depository Verdipapirsentralen ASA, P.O. Box 4, 0051 Oslo, Norway, and issued in registered form in accordance with the Norwegian Securities Registry Act, 2002 (No: Lov om registrering av finansielle instrumenter av 5. juli 2002 nr 64). The Securities will be issued in dematerialized and uncertificated book-entry form, as more fully described in the Product Terms. No global security and no definitive securities will be issued in respect of the Securities.

(h) **French Securities**

If the Securities are specified in the Product Terms to be French Securities, the Securities will be in dematerialised bearer form (*au porteur*) inscribed in the books of Euroclear France (acting as central depository), 115 rue Réaumur, 75081 Paris Cedex 02, France, which shall credit the accounts of the Account Holders. For the purpose of these Conditions, "**Account Holder**" means any authorised financial intermediary institution entitled to hold securities accounts, directly or indirectly, with Euroclear France, and includes Euroclear and the depository bank for Clearstream. Title to the French Securities will be evidenced in accordance with Articles L.211-3 *et seq.* and R.211-1 *et seq.* of the French Monetary and Financial Code (*Code monétaire et financier*) by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to Article R.211-7 of the French Monetary and Financial Code (*Code monétaire et financier*)) will be issued in respect of the French Securities.

(2) **Transferability**

(a) **General**

Unless sub-paragraphs (b) and (c) below apply, each Security is transferable in accordance with applicable law and any rules and procedures for the time being of any Clearing Agent through whose books such Security is transferred.

(b) **Italian Securities**

If the Securities are specified in the Product Terms to be Italian Securities each Security will be freely transferable by way of book entry in the accounts registered on the settlement system of the Italian Clearing Agent and:

- (i) if admitted to trading on the Borsa Italiana MOT regulated market, they shall be transferred in lots at least equal to the Minimum Trade Size (as defined by the Listing Rules of the market organised and managed by Borsa Italiana S.p.A. ("**Regolamento di Borsa**")), or multiples thereof, as determined by Borsa Italiana S.p.A. and indicated in the applicable Final Terms; or
- (ii) if admitted to trading on the Borsa Italiana SeDeX multilateral trading facility, they shall be transferred in lots at least equal to the Minimum Trade Size, or multiples thereof, as determined by Borsa Italiana S.p.A. and indicated in the applicable Final Terms.

(c) **French Securities**

Title to French Securities shall pass upon, and transfer of such French Securities may only be effected through, registration of the transfer in the accounts of the Account Holders in accordance with the French Monetary and Financial Code (*Code monétaire et financier*). Except as ordered by a court of competent jurisdiction or as required by law, the holder of any French Security shall be deemed to be and may be treated as its owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, and no person shall be liable for so treating the holder.

(3) **Status**

The obligations under the Securities constitute direct, unsecured and unsubordinated contractual obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated obligations of the Issuer except for any obligations preferred by law.

At issuance, if Eligible Liabilities Format is specified to apply in the Product Terms, the Securities constituted, in the opinion of the Issuer, non-preferred debt instruments within the meaning of Section 46f(6) sentence 1 of the German Banking Act (*Kreditwesengesetz*).

(4) **Securityholders**

(a) **Global Security - English law governed Securities**

In respect of Securities represented by a Global Security, if the Governing Law is specified, in the Product Terms, to be English Law, each person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent as the holder of a particular amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the amount of Securities standing to the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and the Agents as the holder of such amount of the Securities (and the term "**Securityholder**" and related expressions shall be construed accordingly) for all purposes other than, in the case of Notes represented by a Global Security, with respect to payments or delivery obligations in respect of such Notes, for which purpose (i) in the case of Notes in bearer form, the bearer of the Global Security and (ii) in the case of Notes in registered form, the person shown on the Register as the holder of such Notes (being the relevant Clearing Agent, or nominee or common nominee (as applicable) of the Clearing Agent(s)), in each case shall be treated by such Issuer and any Agent as the holder of such Notes in accordance with and subject to the terms of the Global Security.

(b) **Global Security - German law governed Securities**

In respect of Securities represented by a Global Security, if the Governing Law is specified, in the Product Terms, to be German Law, the terms "**Securityholders**" and "**holders of Securities**" will be construed to mean those persons recognised as the legal owner of the Securities pursuant to German law.

(c) **Italian Securities**

If the Securities are specified in the Product Terms to be Italian Securities, the person who is for the time being shown in the records of the Italian Clearing Agent as the holder of a particular amount of Securities (in which regard any certificate, record or other document issued by the Italian Clearing Agent as to the amount of Securities standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall (except as otherwise required by law) be treated for all purposes by the Issuer, the Agent in Italy and all other persons dealing with such person as the holder thereof and as the person entitled to exercise the rights represented thereby notwithstanding any notice to the contrary (and the terms "**Securityholders**" and "**holders of Securities**" and related expressions shall be construed accordingly).

(d) **Portuguese Securities**

If the Securities are specified in the Product Terms to be Portuguese Securities each person who is for the time being shown in the records (*conta de registo individualizado*) of an Affiliate Member of Interbolsa as the holder of a particular amount of Portuguese Securities (in which regard any certificate or other document issued by the relevant Affiliate Member of Interbolsa as to the amount of Securities standing to the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be deemed to be the holder of title of such Portuguese Securities and (except as otherwise required by law) be treated as its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein) and the terms "**Securityholders**" and "**holders of Securities**" and related terms shall be construed accordingly.

No Securityholder will be able to transfer Securities, or any interest therein, except in accordance with Portuguese law and regulations and through the relevant Affiliate Members of Interbolsa.

(e) **Spanish Securities**

(iii) General provisions applicable to Spanish Securities

If the Securities are specified in the Product Terms to be Spanish Securities, the person (other than another Clearing Agent) who is for the time being shown in the records of the relevant Clearing Agent, in accordance with the relevant regulations applicable to the relevant Clearing Agent, as the holder of a particular amount of the Securities (in which regard any certificate or other document issued by the relevant Clearing Agent as to the amount of Securities standing to the account of any person shall be conclusive and binding for all purposes except in the case of manifest error) shall be treated by the Issuer and the Agents as the holder of such amount of the Securities (and the terms "**Securityholder**" and "**holder of Securities**" and related expressions shall be construed accordingly).

(iv) **Specific provisions applicable to Spanish Listed Securities**

If the Securities are specified in the Product Terms to be Spanish Listed Securities, the Securities will be issued in uncertificated, dematerialised book-entry form ("**Book-Entry Securities**"). The Book-Entry Securities will be constituted as such by virtue of their entry in the corresponding accounting book of Iberclear pursuant to Article 6 of the Spanish Law 24/1988, of 28 July, on the Securities Market and related provisions. The holders of Book-Entry Securities which are admitted to trading on any of the Spanish Stock Exchanges and AIAF will be identified as such (on their own account or for the account of third parties) as appears from the accounting book maintained by Iberclear or the relevant member (*entidad adherida*) of Iberclear (each an "**Iberclear Member**"), as the case may be. Therefore, the title to the Book-Entry Securities will be evidenced by book entries and each person shown in the registries maintained by any relevant Iberclear Members as having an interest in the Book-Entry Securities shall be considered, by the Issuer and the Agents, as the holder of the principal amount of Book-Entry Securities recorded therein, and the terms "**Securityholders**" and "**holders of Securities**" and related terms shall be construed accordingly.

(f) **French Securities**

If the Securities are specified in the Product Terms to be French Securities, the terms "**Securityholder**" and "**holder of Securities**" shall mean the individual or entity whose name appears in the account of the relevant Account Holder as being entitled to such Security.

(5) Set-Off

If Eligible Liabilities Format is specified to apply in the Product Terms, no Securityholder may set off his claims arising under the Securities against any claims of the Issuer. No security or guarantee shall be provided at any time securing claims of the Securityholders under the Securities; any security or guarantee already provided or granted in the future in connection with other liabilities of the Issuer may not be used for claims under the Securities.

(6) Eligible Liabilities Redemption Restriction

If Eligible Liabilities Format is specified to apply in the Product Terms, any redemption or repurchase of the Securities prior to their scheduled maturity is subject to the prior approval of the competent authority, if legally required. In addition, an extraordinary early termination of the Securities is excluded. If the Securities are redeemed or repurchased otherwise than in such

IV. GENERAL CONDITIONS

circumstances, then the amounts paid must be returned to the Issuer irrespective of any agreement to the contrary.

§8 Agents

- (1) The Issuer reserves the right at any time to vary or terminate the appointment of any Agent and to appoint additional Agents, including Agents for specific countries which as of the Issue Date for an issue of Securities shall be specified in the section "Further Information about the Offering of the Securities" of the applicable Final Terms, provided that no termination of appointment of the Principal Agent shall become effective until a replacement Principal Agent shall have been appointed and provided that, if and to the extent that the Securities are listed on any stock exchange or publicly offered in any jurisdiction, there shall be an Agent having a specified office in each country if so required by the rules and regulations of each such stock exchange and/or the securities regulators in each such jurisdiction. Notice of any appointment, or termination of appointment, or any change in the specified office, of any Agent will be given to Securityholders in accordance with §16. Each Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by an Agent shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.
- (2) Definitions in respect of §8 and, if applicable, other Terms and Conditions:
- (a) "**Agent**" means, subject to (1), the Principal Agent and, if it is not the Principal Agent in respect of the Securities, each of Deutsche Bank AG, acting through its principal office in Frankfurt am Main, Taunusanlage 12, 60325 Frankfurt am Main, Germany, and through its branch office in London, Winchester House 1, Great Winchester Street, London EC2N 2DB, United Kingdom (Deutsche Bank AG London), and in respect of Luxembourg, Deutsche Bank Luxembourg S.A., acting through its Luxembourg branch, 2 Boulevard Konrad Adenauer, L-1115 Luxembourg, Luxembourg, in respect of Italy, Deutsche Bank AG, acting through its Milan branch, Via Filippo Turati 27, 20121 Milano, Italy, in respect of Portugal, Deutsche Bank AG, acting through its Portuguese branch, Rua Castilho, 20, 1250-069 Lisbon, Portugal, in respect of Spain, Deutsche Bank AG, acting through its Spanish branch, Paseo De La Castellana, 18, 28046 Madrid, Spain each other Agent, if any, specified in the section "Further Information about the Offering of the Securities" of the applicable Final Terms.
- (b) "**Principal Agent**" means, subject to §8(1), the Principal Agent specified in the applicable Product Terms or, if no Principal Agent is specified in the Product Terms, Deutsche Bank AG, acting through the office through which the Securities have been issued (as specified in the definition of "Issuer" in the Product Terms).
- (3) **Registrar**
- If the Securities are specified in the Product Terms to be Notes represented by a Global Security in registered form, the Issuer reserves the right at any time to vary or terminate the appointment of the Registrar or any successor as provided above, provided that no termination of appointment of the Registrar shall become effective until a replacement Registrar shall have been appointed. The Registrar will maintain a register (the "**Register**") on the terms as agreed between the Issuer and the Registrar, such terms to include that the Register shall at all times be physically located outside the United Kingdom. The Registrar acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by the Registrar shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders. The "**Registrar**" shall be such entity specified as such in the Product Terms or any successor as provided above.

§9 Calculation Agent

(1) Role of Calculation Agent, Issuer Determinations and Corrections

Unless otherwise stipulated in the Terms and Conditions, all calculations and determinations required by the Terms and Conditions shall be made by the calculation agent (the "**Calculation Agent**" which expression shall include any successor calculation agent).

The Issuer shall be the Calculation Agent in respect of the Securities, unless the Issuer decides to appoint a successor Calculation Agent in accordance with the provisions below.

If the Securities are specified in the Product Terms to be Spanish Securities, the Calculation Agent shall, in accordance with the provisions of §9(2) below, be either the Issuer or the Third Party Calculation Agent as the context requires.

The Issuer reserves the right at any time to appoint another institution as the Calculation Agent, provided that no termination of appointment of the existing Calculation Agent shall become effective until a replacement Calculation Agent shall have been appointed. Notice of any such termination or appointment will be given to the Securityholders in accordance with §16.

The Calculation Agent (except where it is the Issuer or, in the case of Spanish Securities, the Third Party Calculation Agent) acts solely as agent of the Issuer. The Calculation Agent does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders.

Any calculations or determinations in respect of the Securities made by the Issuer or the Calculation Agent shall be made in good faith and in a commercially reasonable manner and shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

Subsequent to any calculation or determination by the Calculation Agent in respect of the Securities, any subsequently published corrections in respect of any value or price of a Reference Item used by the Calculation Agent in respect of such calculation or determination shall only be taken into account by the Calculation Agent to the extent that it is published within the Correction Period specified in the Product Terms or, if earlier, on or before the second Business Day preceding the day on which a payment or delivery is to be made, the amount of which is determined in whole or in part by reference to such value or price of the Reference Item.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate, provided that, in the case of the Third Party Calculation Agent, such third party is not the Issuer.

(2) Role of the Third Party Calculation Agent

If the Securities are specified in the Product Terms to be Spanish Securities, any determination(s) in respect of such Spanish Securities which is to be made in accordance with the terms of §1, §3, §5, §6, §12, §17 and §18 or any other part of the Terms and Conditions where the Issuer or the Calculation Agent, as the case may be, is entitled to make determinations at its own option or which involve the exercise of its own discretion, in each case to amend the Terms and Conditions of the Securities, ("**Relevant Determinations**"), will be made by the Third Party Calculation Agent (being the entity (which shall not be the Issuer) specified as such in the applicable Product Terms, the "**Third Party Calculation Agent**"). All references to the Issuer or Calculation Agent making any Relevant Determinations, as the case may be, will be construed to refer to such Third Party Calculation Agent making such Relevant Determinations. The Third Party Calculation Agent shall make all such Relevant Determinations to the "best of its knowledge". In making such Relevant Determinations, the Third Party Calculation Agent shall at all times act as a third party service provider and independently of the Issuer. For the purpose of all other determinations specified to be made by the Calculation Agent in respect of Spanish Securities, the Issuer shall be the Calculation Agent. For the avoidance of doubt, Relevant Determinations will not include (i) any exercise by the Issuer of any option or right for any other purpose, including, any right to redeem, cancel or terminate such Securities, (ii) any right to vary or terminate the appointment of any Agent, Registrar

or Calculation Agent in accordance with the terms of §8 or §9, as the case may be or (iii) any right to substitute the Issuer or a Branch in accordance with the terms of §13. References to the Issuer or the Calculation Agent, as the case may be, shall be construed accordingly.

For so long as any Spanish Securities are outstanding, the Issuer will procure that a Third Party Calculation Agent is appointed in respect of such Securities and that such Third Party Calculation Agent shall not be the Issuer itself (but may be a subsidiary or Affiliate of the Issuer). The Third Party Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

(3) **Determination by the Calculation Agent**

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

§10 Taxation

In addition and without prejudice to the provisions of §2(5), the Issuer shall not be liable for or otherwise obliged to pay any tax, duty, charge, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of the Securities. All payments made by the Issuer shall be made subject to any tax, duty, charge, withholding or other payment which may be required to be made, paid, withheld or deducted.

If the Securities are specified in the Product Terms to be Notes and Portuguese Securities the Issuer shall not be liable for any failure by a non-resident holder of any such Notes that are Portuguese Securities to comply with any debt instruments withholding tax exemption certification procedures pursuant to Decree-Law 193/2005 of 13 November 2005 (as amended).

§11 Presentation Period and Limitation

In the case of Securities represented by a Global Security, any payments will, subject as provided below, be made in the manner provided in §3 and otherwise in the manner specified in the Global Security, if applicable. For all other Securities, any payments will be made in the manner provided in §3.

Where the Securities are specified in the Product Terms to be Notes represented by a Global Security in bearer form, payments of all amounts shall be made against presentation or surrender, as the case may be, of the Global Security, if applicable, at the specified office of any Agent. A record of each payment made will be made on the Global Security by the relevant Agent, if applicable and such record shall be prima facie evidence that the payment in question has been made.

Where the Securities are specified in the Product Terms to be Notes represented by a Global Security in registered form, payments of all amounts shall be made to the person shown on the Register at the close of business on the business day before the due date for payment (being the relevant Clearing Agent, or nominee or common nominee (as applicable) of the Clearing Agent(s)) as the holder of such Notes, and if no further payment falls to be made on the Notes, on surrender of the Global Security to or to the order of the Registrar. A record of each payment made will be made in the Register by the relevant Agent, if applicable and such record shall be prima facie evidence that the payment in question has been made. For the purpose of this paragraph, "**business day**" means a day on which the relevant Clearing Agent(s) is (or are, if applicable) open for business.

Each of the persons shown in the records of a Clearing Agent as the holder of a particular number or nominal amount of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the holder of the Global Security or the relevant Clearing Agent, as applicable.

(1) **English law governed Securities**

If the Governing Law is specified in the Product Terms to be English Law, any claim to receive payments under the Securities, will become void unless the Global Security has been presented or the claim otherwise made in accordance with these Terms and Conditions within a period of five years (in relation to the payment of any Coupon Amount) and ten years (in relation to the payment of any other amount), in each case, after the Relevant Date therefor. As used herein, the "**Relevant Date**" means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the relevant Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with §16.

(2) **German law governed Securities**

If the Governing Law is specified in the Product Terms to be German Law, the presentation of the Global Security, if applicable, takes place by way of surrender of the respective co-ownership units of the Global Security to the account of the Issuer at the Clearing Agent. The time limit for presentation pursuant to section 801 subsection 1 sentence 1 of the German Civil Code relating to securities being payable has been reduced to 1 year. Any claim to receive payments under the Securities, which has been presented within the period, will become time-barred after a period of two years starting at the end of the time period for presentation and four years in relation to the payment of Coupon Amounts starting at the end of the relevant time period for presentation.

(3) **Italian law governed Securities**

If the Governing Law is specified in the Product Terms to be Italian Law, the right to receive payment of interest lapses five years after the date on which such interest becomes payable. The right to receive the repayment of the principal amount lapses ten years after the date on which the

principal amount of the Securities became payable. The limitation on the right to receive the payment of interest and the repayment of the principal amount is for the benefit of the Issuer.

(4) **Spanish law governed Securities**

If the Governing Law is specified in the Product Terms to be Spanish Law, the right to receive payment of any Coupon Amounts which are payable yearly or in shorter periods lapses five years after the date on which such Coupon Amount becomes payable and the right to receive payment of any other Coupon Amounts or any amount(s) payable in respect of principal lapses fifteen years after the date on which any relevant amount becomes payable. The limitation on the right to receive such payments is for the benefit of the Issuer.

(5) **Portuguese law governed Securities**

If the Governing Law is specified in the Product Terms to be Portuguese Law, the right to receive payment of any Coupon Amount lapses five years after the date on which such Coupon Amount becomes payable. The right to receive payment of any amount(s) payable in respect of principal lapses twenty years after the date on which any relevant amount becomes payable. The limitation on the right to receive such payments is for the benefit of the Issuer.

§12 Events of Default

(1) Events of Default

Unless Eligible Liabilities Format is specified to apply in the Product Terms, if any of the events set out in (a) – (d) below occurs, each Securityholder shall be entitled to declare his Securities due:

- (a) the Issuer fails to make any payment or perform any delivery obligation in respect of the Securities within thirty (30) days of the relevant due date after the Principal Agent has received notice thereof from a Securityholder; or
- (b) the Issuer fails duly to perform any other obligation arising from the Securities, if such failure continues for more than sixty (60) days after the Principal Agent has received notice thereof from a Securityholder; or
- (c) the Issuer announces its inability to meet its financial obligations or ceases its payments; or
- (d) a court in Germany opens insolvency proceedings against the Issuer, or the Issuer applies for or institutes such proceedings or offers or makes an arrangement for the benefit of its creditors generally.

The right to declare Securities due shall terminate if the situation giving rise to it has been cured before the right is exercised.

If the Securities are declared due each Securityholder shall be entitled to demand immediate payment of an amount in respect of each Security held by such Securityholder equal to the Market Value of a Security less a Security's proportionate share of the direct and indirect cost to the Issuer of unwinding any underlying related Hedging Arrangements, all as determined by the Calculation Agent in its reasonable discretion.

If the Securities are specified in the Product Terms to be Italian Securities which are Notes intended to be listed and admitted to trading on an Italian regulated market or Italian multilateral trading facility so requiring (including the Borsa Italiana MOT regulated market), such amount paid as a result of the occurrence of an Event of Default shall be at least equal to (i) if Zero Coupon Note is not specified in the Product Terms to be applicable, the Nominal Amount in respect of each Security, or (ii) if Zero Coupon Note is specified in the Product Terms to be applicable, the Accreted Value in respect of each Security.

(2) Resolution Measures

If Eligible Liabilities Format is specified to apply in the Product Terms, each Securityholder acknowledges and accepts that under the relevant resolution laws and regulations as applicable to the Issuer from time to time, the Securities may be subject to the powers exercised by the competent resolution authority to:

- (a) write down, including write down to zero, the claims for payment of the principal amount, the interest amount or any other amount in respect of the Securities;
- (b) convert that claims into ordinary shares of (i) the Issuer or (ii) any group entity or (iii) any bridge bank or other instruments of ownership qualifying as common equity tier 1 capital (and the issue to or conferral on the counterparty of such instruments); and/or

- (c) apply any other resolution measure, including, but not limited to, (i) any transfer of the Securities to another entity, (ii) the amendment, modification or variation of the terms and conditions of the Securities or (iii) the cancellation of the Securities

(each, a "**Resolution Measure**").

The Securityholders shall be bound by any Resolution Measure. No Securityholder shall have any claim or other right against the Issuer arising out of any Resolution Measure. In particular, the exercise of any Resolution Measure shall not constitute an event of default.

By its acquisition of the Securities, each Securityholder acknowledges and accepts the measures and effects according to the preceding paragraphs and that this § 12 is exhaustive on the matters described herein to the exclusion of any other agreements, arrangements or understandings between the Securityholder and the Issuer relating to the subject matter of this terms and conditions of the Securities.

(3) **Quorum**

In the events specified in para. (1)(b) above, any notice declaring Securities due shall, unless at the time such notice is received any of the events specified in para. (1)(a), (c) or (d) entitling Securityholders to declare their Securities due has occurred, become effective only when the Issuer has received such notices from the Securityholders accounting for at least one-tenth of the total number or nominal amount of Securities of the relevant series then outstanding.

(4) **Form of Notice.**

Any notice, including any notice declaring Securities due, in accordance with para. (1) above shall be made by means of a written declaration delivered by hand or registered mail to the Principal Agent at its principal office for the time being.

§13 Substitution of Issuer and Branch

(1) Substitution of Issuer

The Issuer, or any previous substituted company, may at any time, without the consent of the Securityholders substitute for itself as principal obligor under the Securities any company (the "**Substitute**"), being any subsidiary or Affiliate of the Issuer, subject to:

- (a) the obligations of the Substitute under the Securities being irrevocably and unconditionally guaranteed by Deutsche Bank AG (unless it is the Substitute);
- (b) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect;
- (c) the Issuer shall have given at least 30 days' prior notice of the date of such substitution to the Securityholders in accordance with §16.

In the event of any substitution of the Issuer, any reference in the Terms and Conditions to the Issuer shall from the time of effective substitution be construed as a reference to the Substitute.

(2) Substitution of Branch

The Issuer shall have the right upon notice to Securityholders in accordance with §16 to change the office through which it is acting for the purpose of the Securities, the date of such change to be specified in such notice provided that no change can take place prior to the giving of such notice.

§14 Purchases of Securities

The Issuer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation.

§15 Further Issuances of Securities

The Issuer shall be at liberty from time to time without the consent of Securityholders or any of them to create and issue further securities so as to be consolidated and form a single series with the Securities.

§16 Notices

(1) Delivery/Publication

Notices to the Securityholders will be valid if:

- (a) delivered to the Clearing Agent(s) for communication by the Clearing Agent(s) to the Securityholders; and/or
- (b) subject to it not being specified otherwise in the relevant Final Terms, published on the internet page www.xmarkets.db.com, under "notices" or on any substitute page or service notified to Securityholders by publication on such internet page.

If the Securities are specified in the Product Terms to be Portuguese Securities any reference to Clearing Agent in the sub-paragraph (a) above shall instead be read as reference to the relevant Affiliate Member of Interbolsa.

(2) Effective Date

Notices above will become effective:

- (a) if delivered pursuant to para. (1)(a) above, on the Business Day after such delivery to the Clearing Agent or all the Clearing Agents (if more than one);
- (b) if published pursuant to para. (1)(b) above, on the date of such publication; or
- (c) if delivered pursuant to para. (1)(a) above and published pursuant to para. (1)(b), on the earlier of (i) the Business Day after such delivery to the Clearing Agent or all the Clearing Agents (if more than one) (as described in para. (1)(a) above, and/or, if applicable, (ii) the date of such publication as described in para. (1)(b) above.

If the Securities are specified in the Product Terms to be Portuguese Securities any reference to Clearing Agent in the sub-paragraphs (a) and (c) above shall instead be read as reference to the relevant Affiliate Member of Interbolsa. Furthermore, in the case of Portuguese Securities, no such notice shall become effective prior to it being disclosed through the website of the Portuguese Securities Market Commission (*Comissão do Mercado de Valores Mobiliários*) (www.cmvm.pt), if such disclosure is required.

(3) Luxembourg Stock Exchange publication

If and for so long as the Securities are listed on the official list of the Luxembourg Stock Exchange and the rules of the exchange so require, notices to the Securityholders will be published on the Luxembourg Stock Exchange's website, www.bourse.lu.

(4) Borsa Italiana Publication

If and for so long as the Italian Securities are listed on the Borsa Italiana MOT regulated market and the rules of the exchange so require, notices to the Securityholders will be published on the Borsa Italiana's website, www.borsaitaliana.it.

(5) Euronext Lisbon Publication

If and for so long as the Portuguese Securities are listed on the Euronext Lisbon regulated market, any notices shall be published through the website of the Portuguese Securities Market Commission (www.cmvm.pt), and comply with any additional Euronext Lisbon rules.

(6) Spanish Stock Exchanges and AIAF

If and for so long as the Spanish Securities are listed on any Spanish regulated market and the rules of the exchange or market so require, notices to the Securityholders will be published on the website of the Spanish Securities Market Commission (*Comisión Nacional del Mercado de Valores*) at www.cnmv.es and, if required, the website of the relevant regulated market.

§17 Redenomination

(1) Redenomination

Redenomination in Euro

The Issuer may, without the consent of the Securityholders, on giving notice to the Securityholders in accordance with §16, elect that, with effect from the Adjustment Date specified in the notice, the Securities shall be redenominated in euro.

The election will have effect as follows:

- (a) where the Settlement Currency is the National Currency Unit of a country which is participating in the third stage of European Economic and Monetary Union, such Settlement Currency shall be deemed to be an amount of euro converted from the original Settlement Currency into euro at the Established Rate, subject to such provisions (if any) as to rounding as the Issuer may decide and as may be specified in the notice, and after the Adjustment Date, all payments in respect of the Securities will be made solely in euro as though references in the Terms and Conditions to the Settlement Currency were to euro;
- (b) where the Terms and Conditions contain a Rate of Exchange or any of the Terms and Conditions are expressed in a currency (the "**Original Currency**") of a country which is participating in the third stage of European Economic and Monetary Union, such Rate of Exchange and/or any other terms of the Terms and Conditions shall be deemed to be expressed in or, in the case of a Rate of Exchange, converted for or, as the case may be into, euro at the Established Rate; and
- (c) such other changes shall be made to the Terms and Conditions as the Issuer may decide to conform them to conventions then applicable to instruments expressed in euro.

(2) Adjustment

The Issuer may, without the consent of the Securityholders, on giving notice to the Securityholders in accordance with §16, make such adjustments to the Terms and Conditions as the Issuer may determine to be appropriate to account for the effect on the Terms and Conditions of the third stage of European Economic and Monetary Union pursuant to the Treaty.

(3) Associated Costs

Notwithstanding the provisions of para. 1 and 2 above, none of the Issuer, the Calculation Agent and any Agent shall be liable to any Securityholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith.

(4) Definitions in respect of §17 and, if applicable, other Terms and Conditions:

Redenomination

- (a) "**Adjustment Date**" means a date specified by the Issuer in the notice given to the Securityholders pursuant to this Condition which falls, if the currency is that of a country not initially participating in the third stage of European Economic and Monetary Union pursuant to the Treaty, on or after such later date as such country does so participate.
- (b) "**Established Rate**" means the rate for the conversion of the Original Currency (including compliance with rules relating to rounding in accordance with applicable European Union regulations) into euro established by the Council of the European Union pursuant to Article 140, formerly 109 I (4) of the Treaty.
- (c) "**National Currency Unit**" means the unit of the currency of a country, as those units are defined on the day before the start of the third stage of European Economic and Monetary

IV. GENERAL CONDITIONS

Union or, in connection with the expansion of such third stage, to any country which has not initially participated in such third stage.

- (d) "**Settlement Currency**" is as defined in the Product Terms.
- (e) "**Treaty**" means the treaty on the Functioning of the European Union.

§18 Modifications

(1) German law governed Securities

If Governing Law is specified in the Product Terms to be German law the following applies:

(a) Issuer's Right of Rescission

Obvious spelling and calculation errors in the Product Terms, including those where the information provided clearly cannot be reconciled with the Issue Price or value-determining factors of the Security, give rise to a right of rescission on the part of the Issuer. Immediate notice of such rescission must be given in accordance with §16(1) as soon as the Issuer has become aware of the error concerned. The publication must make reference to §18 of this Base Prospectus and indicate the information in the Product Terms affected by the error. The term of the Securities ends with immediate effect as a result of the rescission.

(b) Issuer's Right of Correction and Securityholders' Right of Redemption

If the Issuer does not make use of its right of rescission, it may correct obvious errors within the meaning of para. (a) by correcting the Product Terms. A correction of the Product Terms is to be notified immediately in accordance with §16(1) and with reference to §18 of this Base Prospectus as soon as the Issuer becomes aware of the error concerned. In this event, however, each Securityholder is entitled to redeem his/her holdings of Securities before the correction takes effect. Such a redemption must be made by notifying the Principal Agent within four weeks of the publication of the correction. It shall take effect upon receipt by the Issuer of the notice of redemption. A redemption has the same effect as a rescission in accordance with para. (a).

The Issuer determines the content of the correction on the basis of the information that would have been provided if the error had not occurred. The correction must be reasonable for the Securityholders taking into account the economic purpose of the Securities. This is only the case if, as a result of the correction, the economic value of the Securities is adjusted to their Issue Price at the time of issue. The correction takes effect four weeks after the day of notification and the publication must make reference to this four-week deadline and the Securityholders' Redemption Right.

(c) Cash Amount in the Event of a Rescission or Redemption

In the event of a challenge by the Issuer in accordance with para. (a) or a redemption by Securityholders in accordance with para. (b), the affected Securityholders will receive an amount equal to the market price of the Securities on the next Business Day after the rescission or redemption takes effect; the resulting payment is due on the fifth Business Day after this date. If a Securityholder proves that the market price is lower than the amount he/she paid to acquire the Securities, less any payments already made by the Issuer, he/she will be entitled to the corresponding amount. This does not affect the Securityholder's right to claim damages for any loss incurred as a result of negative interest (*Vertrauensschaden*) in accordance with section 122 subsection 1 of the German Civil Code.

For Securities listed in the regulated market or for trading over-the-counter at a stock exchange (referred to in the following as "**Listing**") the market price within the meaning of para. (a) and para. (b) shall be the closing price published by the stock exchange on the relevant date. In the case of multiple stock exchanges this shall be the closing price at the stock exchange where the largest turnover of the Securities took place at last. If a closing price was not published on this date or if a Market Disruption occurred, the provisions of §5 shall apply provided that the Reference Item for the purpose of these provisions shall be the

Security itself. In the case of Securities without a Listing, the market price shall be determined by the Calculation Agent in its reasonable discretion (section 315 of the German Civil Code) and in consultation with an expert.

(d) **Contradictory or Incomplete Information**

Without prejudice to Article 16 of the Prospectus Directive and if information in the Product Terms is recognisably in contradiction with other information, or if the Product Terms are recognisably incomplete, the Issuer may correct or amend the Product Terms immediately by publication in accordance with §16. Such correction or amendment takes place either, if the interpretation of the terms alone leads to a specific content becoming applicable, on the basis of this content, and otherwise on the basis of the information that would have applied if the error on the part of the *Issuer* had not occurred.

(e) **Major Increase in Market Price Caused by Immediately Recognisable Error**

If the erroneous content of any of the terms of the Securities, and its correct content, are clearly apparent to an expert investor for the relevant Security, and if the difference between the erroneous and correct content gives rise to a market price of the Security, based on the erroneous content, which is more than 30 per cent. higher at the time of the initial issue, the correct content shall apply in place of the erroneous content. The Issuer may also invoke the unlawful application of an erroneous term against individual Securityholders where this is appropriate to the circumstances of individual cases.

(2) **Securities not governed by German law**

If Governing Law is specified in the Product Terms to be any other law except for German law the following applies:

The Issuer may, to the extent permitted by applicable law and subject as provided below, modify the Terms and Conditions and/or the applicable Final Terms without the consent of the Securityholders or any of them in any manner which the Issuer may deem reasonably necessary (i) in order to maintain or preserve the intended commercial purpose of the Terms and Conditions and/or the applicable Final Terms; or (ii) if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or intended to correct a manifest or proven error or to cure, correct or supplement any defective provision contained therein. Notice of any such modification will be given to the Securityholders in accordance with §16 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

The Issuer may exercise the above discretion for the reasons or in the circumstances described above (i.e. in order to maintain or preserve the intended commercial purpose of the Terms and Conditions and/or the applicable Final Terms or if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or is intended to correct any errors or defective provisions in the Terms and Conditions and/or the applicable Final Terms). In each of these cases the Issuer will first satisfy itself that the exercise of the discretion is reasonably necessary and it will consider if there is any reasonable alternative which would not incur additional material costs for the Issuer and/or its Affiliates. Following any modification pursuant to this §18, the Issuer may at its discretion amend and restate the applicable Final Terms.

§19 Severability

If any of the provisions of the Terms and Conditions is or becomes invalid or unenforceable in whole or in part, the validity and enforceability of the remaining provisions shall not in any way be affected or impaired thereby. The invalid or unenforceable provision shall be replaced by a valid provision, which, to the extent legally possible, serves the economic purposes of the invalid or unenforceable provision. The same applies to any gaps in the Terms and Conditions.

§20 Governing Law, Place of Jurisdiction and Place of Performance

(1) English law governed Securities

Subject as provided under (6) below, if the Governing Law is specified in the Product Terms to be English Law, the Securities and any non-contractual obligations arising out of or in connection with the Securities are governed by, and shall be construed in accordance with, English law. No person shall have any right to enforce any term or condition of the Securities under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

The courts of England shall, to the extent legally permitted, have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Securities (including a dispute relating to any non-contractual obligations arising out of or in connection with the Securities).

(2) German law governed Securities

Subject as provided under (6) below, if the Governing Law is specified in the Product Terms to be German Law, the Securities are governed by, and shall be construed in accordance with, German law. The place of jurisdiction for all proceedings arising from matters provided for in the Terms and Conditions shall, to the extent legally permitted, be Frankfurt am Main. The place of performance of any obligation of the Issuer under the Terms and Conditions is Frankfurt am Main.

(3) Italian law governed Securities

Subject as provided under (6) below, if the Governing Law is specified in the Product Terms to be Italian Law, the Securities are governed by, and shall be construed in accordance with, Italian law. The place of jurisdiction for all proceedings arising from or relating to matters provided for in the Terms and Conditions, including non-contractual matters and tort liabilities shall, to the extent legally permitted, be exclusively Milan. Obligations of Deutsche Bank AG under the Securities will be performed only through Deutsche Bank AG, Milan Branch and the place of performance of any obligation of the Issuer under the Terms and Conditions is Milan. In the event that, for reasons outside of its control, the Issuer is unable to perform any of its obligations in Milan (whether as a result of a change in law, regulation or otherwise), an investor is not entitled to require performance of such obligation(s) in any other jurisdiction or place.

(4) Portuguese law governed Securities

Subject as provided under (6) below, if the Governing Law is specified in the Product Terms to be Portuguese Law, the Securities and any non-contractual obligations in connection therewith, are governed by, and shall be construed in accordance with, Portuguese law. The exclusive place of jurisdiction for all proceedings arising from matters provided for in the Terms and Conditions shall be Portugal and within the Portuguese jurisdiction, to the extent legally permitted, any such proceedings shall be held before the courts of Lisbon. Obligations of Deutsche Bank AG under the Securities will be performed only through Deutsche Bank AG, Sucursal em Portugal and the place of performance of any obligation of the Issuer under the Terms and Conditions is Lisbon. In the event that, for reasons outside of its control, the Issuer is unable to perform any of its obligations in Lisbon (whether as a result of a change in law, regulation or otherwise), an investor is not entitled to require performance of such obligation(s) in any other jurisdiction or place.

(5) Spanish law governed Securities

Subject as provided under (6) below, if the Governing Law is specified in the Product Terms to be Spanish Law, the Securities are governed by, and shall be construed in accordance with, Spanish law. The exclusive place of jurisdiction for all proceedings arising from matters provided for in the Terms and Conditions shall, to the extent legally permitted, be, and any such legal proceedings shall

IV. GENERAL CONDITIONS

be held before the courts of, Madrid. All the obligations of the Issuer under the Terms and Conditions are to be performed exclusively from Madrid through Deutsche Bank AG, Sucursal en España and all payments are to be originated in Madrid for all purposes. As a consequence, in the event that, for reasons outside of its control, the Issuer is unable to perform its obligations from Madrid through Deutsche Bank AG, Sucursal en España or originate its payments from Deutsche Bank AG, Sucursal en España in Spain (whether as a result of a change in law, regulation, by administrative decision, force majeure or otherwise), an investor may not require that such obligations are performed from or originated by the Issuer acting through another branch or in any jurisdiction other than Spain.

The provisions of §7(1)(b), (c), (d), (e), (f), (g), or (h) apply without prejudice to the provisions of this §20.

§21 Portuguese Securities

This §21 only applies to Portuguese Securities.

(1) Meetings of Securityholders

Subject to the provisions of the applicable Product Terms, Securityholders of a given series of Portuguese Securities have the right to hold meetings to consider certain matters specified in the Portuguese Companies Code, enacted by Decree-Law 262/86, of 2 September 1986 (as amended) and article 15 of Decree-Law 172/99 of 22 May 1999 (as amended), or which otherwise affect their interests, including the modification or abrogation of any of the Terms and Conditions of the relevant series of Portuguese Securities and the appointment of a common representative as representative of their interests, under the terms of articles 355 to 359 of the Portuguese Companies Code and article 15 of Decree-Law 172/99 of 22 May 1999 (as amended). The common representative must be a firm of lawyers, a firm of certified auditors, a financial intermediary, an entity authorized to provide investors representation services in any Member State of the European Union or a natural person with full legal capacity, even if it is not a Securityholder; in any case, the common representative must be independent and not be associated with any specific group of interests or be under any circumstances which may affect its independence, as set out in the Portuguese Companies Code.

A meeting of holders of Portuguese Securities of a given series may be convened by (A) the common representative, at any time, or if (i) the common representative refuses to convene such a meeting or (ii) the meeting fails to be convened because a common representative has not been appointed, (B) the management of Deutsche Bank AG, Sucursal em Portugal. A meeting must in any case be convened by the common representative or the management of Deutsche Bank AG, Sucursal em Portugal if so requested by holders of Portuguese Securities holding not less than five per cent. of the aggregate nominal amount of the Portuguese Securities of the relevant series. Otherwise, such holders will be able to resort to court in order to obtain the convocation of the meeting. Every meeting of holders of Portuguese Securities shall be held on the date, and at the time and place, approved by the common representative or the management of Deutsche Bank AG, Sucursal em Portugal, as the case may be, as specified in the notice for such meeting of holders of Portuguese Securities. For the purposes of convening any such meeting, a convening notice shall be disseminated at least 30 calendar days prior to the date of the meeting, (i) in accordance with all laws and regulations applicable to such dissemination (including any rules and regulations of Interbolsa, the CMVM and of any stock exchange where the Portuguese Securities are admitted to trading), and (ii) through the website of the CMVM (www.cmvm.pt).

(2) Provisions of information to Interbolsa

For any series of Portuguese Securities, the Principal Agent shall provide information to Interbolsa regarding the amounts payable to the holders of such Portuguese Securities no later than the fourth Business Day prior to the date on which such amounts are to be paid to the relevant Securityholders or such later date as may be accepted by Interbolsa in respect of the relevant Securities. The Issuer will provide the Principal Agent, on request, and no later than such fourth Business Day (or, in respect of any later date acceptable to Interbolsa, no later than that later date) with any such information relating to these amounts payable as Interbolsa may require.

Annex 3

BELGIAN CONDITIONS

If "Belgian Annex" is specified to apply in the Product Terms, the terms of this annex shall apply (the "**Belgian Conditions**"). In the event of any inconsistency between these Belgian Conditions and the General Conditions, these Belgian Conditions shall prevail for the purposes of the Securities. In the event of any inconsistency between these Belgian Conditions and the Product Terms, these Belgian Conditions shall prevail for the purposes of the Securities unless expressly provided to the contrary in the Product Terms.

I. Amendment to General Condition §5 Market Disruptions and non-Trading Day

Para. (1) of §5 of the General Conditions shall be deemed to be amended by deleting "or Hedging Arrangements of the Issuer". Para. (4) of §5 of the General Conditions shall be deemed to be amended by deleting "or any Hedging Arrangements of the Issuer". Para. (4)(c) of §5 of the General Conditions shall be deemed to be deleted.

II. Amendment to General Condition §6 Adjustment Events and Adjustment/Termination Events

The whole of §6 of the General Conditions shall be deemed to be deleted and replaced with the following:

§6 Adjustment Events and Adjustment/Termination Events

(1) Adjustment Events

The occurrence of any of the following events set out under "General" or "Specific" below, in each case, in respect of a Reference Item (as specified in the Product Terms under the heading "Underlying") shall constitute an "**Adjustment Event**", provided that (1) the inability of the Issuer to acquire, establish, substitute, maintain, unwind or dispose of Hedging Arrangements for the Securities shall not be taken into account in determining whether an Adjustment Event has occurred, and (2) costs, taxes or expenses relating to Hedging Arrangements for the Securities shall not be taken into account in determining whether an Adjustment Event has occurred:

General:

- (a) an event occurs which materially affects or may materially affect the theoretical economic value of such Reference Item or which has or may have an economic, dilutive or concentrative effect on the theoretical economic value of such Reference Item;
- (b) an event occurs that materially disrupts the economic link between the value of such Reference Item and the Securities subsisting immediately prior to the occurrence of such event; and/or
- (c) a Reference Item, or the underlying constituent(s) or reference basis(es) for any Reference Item, is materially modified; and/or

Specific:

any of the events or circumstances specified as Adjustment Events in para. (5) above.

The occurrence of any such Adjustment Event may significantly alter the economics of the Securities that existed on the Issue Date.

*As a result the Issuer shall be entitled to make adjustments to the Terms and Conditions following the occurrence of any such Adjustment Event as set out in para. (2) above or if it determines that it is not able to make an appropriate adjustment pursuant to para. (2) above may elect to treat the Adjustment Event as an Adjustment/Termination Event under para. (3) above. See para. (3)(c) above. **This is part of the economic risk Securityholders bear when investing in the Securities.***

For the avoidance of doubt, an event or circumstance may at the same time qualify as an Adjustment Event under more than one of the above items (a)-(c) and each of the Adjustment Events in relation to a Reference Item set out in para. (5) below shall constitute an Adjustment Event.

(2) **Consequences of an Adjustment Event**

Following the occurrence of an Adjustment Event the Calculation Agent may, in its reasonable discretion, either (i) make no adjustments or modifications to the Terms and Conditions, or (ii) make such adjustments to the Terms and Conditions as it, in its reasonable discretion, determines necessary or appropriate in order (a) to account for the effect of such Adjustment Event, and (b) to preserve as nearly as practicable the economic equivalence of the Securities before and after the occurrence of such Adjustment Event and the economic link between the Underlying and the Securities, and determine when these adjustments become effective. This may include, without limitation, where the Underlying, or the relevant Reference Item, is an index (in each case as specified under the heading "Underlying" in the Product Terms) determining the level of that index on that date using, in lieu of a published level for that index, the level for that index as at that date as determined by the Calculation Agent in accordance with the formula for and method of calculating that index last in effect prior to the relevant Adjustment Event but using only those Relevant Reference Items that comprised that index immediately prior to the event.

If Minimum Redemption Amount Payable is specified to apply in the Product Terms, such adjustments shall not reduce the Cash Amount paid upon redemption of the Securities on the Settlement Date to an amount less than the Minimum Redemption Amount.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such event made by a Related Exchange to options or futures contracts on the relevant Reference Item traded on that Related Exchange. Any such adjustment may take into account, as the Calculation Agent deems appropriate, any tax, duty, withholding, deduction or other charge whatsoever (including but not limited to a change in tax consequences) for the Issuer as a result of the Adjustment Event.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with §16, stating the adjustment made to the Terms and Conditions and giving brief details of the relevant Adjustment Event.

Securityholders will not be charged any costs by or on behalf of the Issuer to make adjustments or modifications to the Terms and Conditions.

(3) **Adjustment/Termination Event**

The occurrence of any of the following events set out under "General" or "Specific" below, in each case, in respect of (i) the Securities, or (ii) a Reference Item (as specified in the Product Terms under the heading "Underlying") shall constitute an "**Adjustment/Termination Event**" provided that (1) the inability of the Issuer to acquire, establish, substitute, maintain, unwind or dispose of Hedging Arrangements for the Securities shall not be taken into account in determining whether an Adjustment/Termination Event has occurred, and (2) costs, taxes or expenses relating to Hedging Arrangements for the Securities shall not be taken into account in determining whether an Adjustment/Termination Event has occurred:

General:

- (a) an event occurs which materially affects the method by which the Calculation Agent determines the level or price of any Reference Item or the ability of the Calculation Agent to determine the level or price of any Reference Item;
- (b) a Reference Item is materially modified or affected, whether as a result of a de-listing, merger event, tender offer, termination, redemption, insolvency, nationalisation, a material change in the formula or method for calculating such Reference Item or a material change in its Investment Guidelines, policies, strategy, management or constitutional documents or any other event which the Calculation Agent determines, in its reasonable discretion, constitutes a material modification of or materially affects a Reference Item;
- (c) an Adjustment Event has occurred in respect of which the Calculation Agent determines that it is not able to make an appropriate adjustment pursuant to §6(2);
- (d) the Issuer determines that the performance of its obligations under the Securities has or will become illegal (an "**Illegality Event**") (without limitation the Issuer may determine this in circumstances where there is a change in applicable law or regulation (including without limitation, any tax law) in any relevant jurisdiction or interpretation by any court, tribunal or regulatory authority of any such relevant law or regulation (including any action taken by a taxing authority));
- (e) the Issuer determines, at any time, that a Market Disruption exists on any Ultimate Trading Day pursuant to §5 and that, after the Calculation Agent taking all reasonable measures and making all reasonable efforts to determine the price or level of each undetermined Reference Item in accordance with §5 and market practice, any valuation methods provided in §5 for this case would not be appropriate for the purposes of making the relevant calculation, and the Issuer then elects to treat such Market Disruption as an Adjustment/Termination Event; and/or
- (f) if a Force Majeure Event occurs. For these purposes, a "**Force Majeure Event**" means an event or circumstance which definitively prevents the performance of the Issuer's obligations and for which the Issuer is not accountable, and may include (but is not limited to) a system

IV. GENERAL CONDITIONS

failure, fire, building evacuation, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption, an Illegality Event, an Index Modification, an Index Disruption, a Fund Bankruptcy, a Strategy Breach, a Fund Modification, or any similar event or circumstance, which, in each case, definitively prevents the performance of the Issuer's obligations and for which the Issuer is not accountable; and/or

Specific:

any of events or circumstances specified as Adjustment/Termination Events in para. (5) below.

*The occurrence of any Adjustment/Termination Event may have the result that the Issuer is not able to continue to perform its obligations under the Securities or may significantly alter the economics of the Securities that existed on the Issue Date. As a result the Issuer shall be entitled to make adjustments to the Terms and Conditions or, if "Underlying Replacement" has been specified to apply, to substitute a Reference Item, or, in certain cases, to cancel and terminate the Securities following the occurrence of any such Adjustment/Termination Event as set out in para. (4) below. **This is part of the economic risk Securityholders bear when investing in the Securities.***

For the avoidance of doubt, an event or circumstance may at the same time qualify as an Adjustment/Termination Event under more than one of the above items (a)-(i) and each of the Adjustment/Termination Events in relation to a Reference Item set out in para. (5) below shall constitute an Adjustment/Termination Event.

(4) **Consequences of an Adjustment/Termination Event:**

Following the occurrence of an Adjustment/Termination Event, the Calculation Agent may take any of the following actions. **In particular, it should be noted that para. (c) below allows a termination and cancellation of the Securities and payment of an amount equal to the Market Value and para. (d) below allows a termination and cancellation of the Securities and: (i) if Minimum Redemption Amount Payable is specified not to apply in the Product Terms, payment of an amount equal to the sum of the Market Value plus the Issuer Costs Reimbursement Amount, or (ii) if Minimum Redemption Amount Payable is specified to apply in the Product Terms (subject to (iii) below), payment on the Settlement Date of an amount equal to the Early Termination Amount (Monetisation), subject to the right of the Securityholder to exercise an option to receive an amount equal to the Early Termination Amount (Put) on the Early Termination Date (Put), or (iii) if Minimum Redemption Amount Payable is specified to apply in the Product Terms and the Adjustment/Termination Event is an Illegality Event as an alternative to (ii) above, at the discretion of the Issuer, payment of an amount equal to the sum of (x) the greater of the Market Value of such Security and the Minimum Redemption Amount plus (y) the Issuer Costs Reimbursement Amount of such Security:**

- (a) other than in respect of an Adjustment/Termination Event in §6(3)(c), the Calculation Agent may make such adjustments to the Terms and Conditions as it, in its reasonable discretion, determines necessary or appropriate in order (i) to account for the effect of such Adjustment/Termination Event, and (ii) to preserve as nearly as practicable the economic equivalence of the Securities before and after the occurrence of such Adjustment/Termination Event and the economic link between the Underlying and the

IV. GENERAL CONDITIONS

Securities, and determine when these adjustments become effective. This may include, without limitation, where the Underlying, or the relevant Reference Item, is an index (in each case as specified under the heading "Underlying" in the Product Terms) determining the level of that index on that date using, in lieu of a published level for that index, the level for that index as at that date as determined by the Calculation Agent in accordance with the formula for and method of calculating that index last in effect prior to the relevant Adjustment/Termination Event but using only those Relevant Reference Items that comprised that index immediately prior to the event.

If Minimum Redemption Amount Payable is specified to apply in the Product Terms, such adjustments shall not reduce the Cash Amount paid upon redemption of the Securities on the Settlement Date to an amount less than the Minimum Redemption Amount.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such event made by a Related Exchange to options or futures contracts on the relevant Reference Item traded on that Related Exchange or the adjustments that would follow from the rules and precedents set by an exchange or trading system or quotation system to account for the relevant Adjustment/Termination Event that in the determination of the Calculation Agent would have given rise to an adjustment by the exchange or trading system or quotation system if such options or futures contracts were traded thereon.

Securityholders will not be charged any costs by or on behalf of the Issuer to make adjustments or modifications to the Terms and Conditions;

- (b) if Underlying Replacement has been specified to apply in the Product Terms, the Calculation Agent may substitute the relevant Reference Item affected by the Adjustment/Termination Event with a Replacement Asset, on or after the effective date of such Adjustment/Termination Event. The Calculation Agent shall make such adjustments to the Terms and Conditions as it in its reasonable discretion deems appropriate to account for such substitution or additional assets, provided that if Minimum Redemption Amount Payable is specified to apply in the Product Terms, such adjustments shall not reduce the Cash Amount paid upon redemption of the Securities on the Settlement Date to an amount less than the Minimum Redemption Amount. Securityholders will not be charged any costs by or on behalf of the Issuer to make adjustments or modifications to the Terms and Conditions;
- (c) **if the Adjustment/Termination Event is a Force Majeure Event, and if the Calculation Agent is not able to determine or effect an appropriate adjustment pursuant to §6(4)(a) or §6(4)(b) (where Underlying Replacement has been specified to apply in the Product Terms), the Securities may be terminated and cancelled by the Issuer giving notice to Securityholders as soon as practicable in accordance with §16, which notice shall contain brief details of the Adjustment/Termination Event. If the Securities are so terminated and cancelled, the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the Market Value of a Security. Payment will be made in such manner as shall be notified to the Securityholders in accordance with §16.**

IV. GENERAL CONDITIONS

The Calculation Agent shall, as soon as practicable after receipt of any written request from a Securityholder to do so, advise such Securityholder of any determination made by it pursuant to this §6 which occurs on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Securityholders copies of any such determinations.

(d) if the Adjustment/Termination Event is other than a Force Majeure Event, and if the Calculation Agent is not able to determine or effect an appropriate adjustment pursuant to §6(4)(a) or §6(4)(b) (where Underlying Replacement has been specified to apply in the Product Terms):

(i) If Minimum Redemption Amount Payable is specified not to apply in the Product Terms, the Securities may be terminated and cancelled by the Issuer giving notice to the Securityholders as soon as practicable in accordance with §16, which notice shall contain brief details of the Adjustment/Termination Event. If the Securities are so terminated and cancelled, the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the *sum* of (i) the Market Value of such Security, *plus* (ii) the Issuer Costs Reimbursement Amount of such Security. Payment will be made in such manner as shall be notified to the Securityholders in accordance with §16.

(ii) If Minimum Redemption Amount Payable is specified to apply in the Product Terms, subject to sub-paragraph (iii) below, the Securities may be terminated and cancelled by the Issuer giving notice to the Securityholders as soon as practicable in accordance with §16 (such notice, the "**Put Monetisation Notice**"). The Put Monetisation Notice shall contain brief details of the Adjustment/Termination Event and shall state:

1. that each Security shall be terminated and cancelled and the Issuer shall pay an amount equal to the Early Termination Amount (Monetisation) on the Settlement Date unless such Securityholder exercises its option in accordance with paragraph (A) below to receive payment of the Early Termination Amount (Put) on the Early Termination Date (Put);
2. the Early Termination Amount (Put) of each Security; and
3. a description of the procedure for a Securityholder to exercise its option, including the form of the notice that a Securityholder must complete to exercise its option (the "**Put Notice**"), the final date on which a Securityholder may exercise the option (the "**Put Option Cut-off Date**"), the date on which payment of the Early Termination Amount (Put) will be made (the "**Early Termination Date (Put)**") and the manner in which payment will be made.

If the Issuer has given a Put Monetisation Notice:

- A. a Securityholder may exercise its option to receive payment of the Early Termination Amount (Put) on the Early Termination Date (Put) in respect of

IV. GENERAL CONDITIONS

some or all of the Securities held by such Securityholder by delivery of a duly completed Put Notice to the Principal Agent, with a copy to the relevant Clearing Agent, not later than the Put Option Cut-off Date specified in the Put Monetisation Notice (a Put Notice validly delivered in accordance with this provision shall be a "**Valid Put Notice**"). In respect of each Security in respect of which a Securityholder has delivered a Valid Put Notice, the Issuer shall on the Early Termination Date (Put) pay an amount (the "**Early Termination Amount (Put)**") to the Securityholder and such amount shall be equal to the *sum* of (i) the Market Value of such Security, *plus* (ii) the Issuer Costs Reimbursement Amount of such Security; and

- B. in respect of each Security in respect of which a Securityholder has not delivered a Valid Put Notice, the Issuer shall on the Settlement Date pay an amount (the "**Early Termination Amount (Monetisation)**") and such amount shall be determined in accordance with the following formula:

$$\text{Minimum Redemption Amount} + (\text{Derivative Value} + \text{ICRA}) \times (1 + r)^n$$

- (iii) If Minimum Redemption Amount Payable is specified to apply in the Product Terms and the Adjustment/Termination Event is an Illegality Event, then the Securities may be terminated and cancelled by the Issuer in its discretion either in accordance with sub-paragraph (ii) above or by giving notice to the Securityholders as soon as practicable in accordance with §16, which notice shall contain brief details of the Adjustment/Termination Event (an "**Illegality Termination Notice**"). If the Issuer has given an Illegality Termination Notice the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be determined by the Calculation Agent to be the sum of:

1. the greater of (i) the Market Value of such Security, and (ii) the Minimum Redemption Amount; and
2. the Issuer Costs Reimbursement Amount of such Security.

Payment will be made in such manner as shall be notified to the Securityholders in accordance with §16.

Upon payment of the relevant amount pursuant to this §6, the Issuer shall have no further obligation whatsoever under the Securities.

Securityholders will not be charged any costs by or on behalf of the Issuer as a result of termination and cancellation of the Securities.

The following definitions shall apply:

"Derivative Component" means, in respect of a Security, the option component or embedded derivative(s) in respect of the nominal amount of the Security equal to the Nominal Amount which provides exposure to the Underlying, the terms of which are fixed on

IV. GENERAL CONDITIONS

the trade date of the Securities (as determined by the Calculation Agent) in order to enable the Issuer to issue such Security at the relevant price and on the relevant terms.

"Derivative Value" means, in respect of a Security, the greater of zero and the value (if any) of the Derivative Component in respect of such Security (for the avoidance of doubt, taking into account any accrued unpaid interest), as calculated by the Calculation Agent on the date the Issuer gives the Put Monetisation Notice by reference to such factor(s) as it determines appropriate at the relevant time and which may include the following, without limitation:

- (a) any relevant quotations or other relevant market data in the relevant market(s) which may include relevant rates, prices, yields, yield curves, volatilities, spreads, correlations and any options or other derivative pricing model;
- (b) information of the type described in (a) above from internal sources of the Issuer or any of its Affiliates if that information is of a type used by the Issuer in its regular course of business for the valuation of similar derivatives.

"ICRA" means the Issuer Costs Reimbursement Amount.

"Hedging Arrangements" means the arrangements the Issuer makes to have available to it the relevant cash amounts or assets to be paid under the Securities as these fall due. This may involve the Issuer investing directly or indirectly in the Underlying. An indirect investment might be made by an Affiliate or agent of the Issuer or other third party making an investment in the Underlying. Alternatively an indirect investment might involve the Issuer or an Affiliate, agent or other third party entering into or acquiring a derivative contract referencing the Underlying.

"Issuer Costs Reimbursement Amount" means, in respect of one Security, an amount equal to the *product* of:

- (a) the total costs of the Issuer (including, without limitation, structuring costs) paid by the original Securityholder as part of the Issue Price of the Security, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner; *multiplied* by
- (b) the *quotient* of:
 - (i) the number of calendar days falling in the period commencing on, but excluding, the date on which the Issuer gives the Put Monetisation Notice and ending on, and including, the Settlement Date of the Securities; *divided* by
 - (ii) the number of calendar days falling in the period commencing on, but excluding, the Issue Date of the Securities and ending on, and including, the Settlement Date of the Securities.

IV. GENERAL CONDITIONS

"Market Value", in relation to a Security, means the fair market value of such Security as determined by the Calculation Agent, by reference to such factor(s) as it determines appropriate at the relevant time and which may include the following, without limitation:

- (a) any relevant quotations or other relevant market data in the relevant market(s) which may include relevant rates, prices, yields, yield curves, volatilities, spreads, correlations and any options or other derivative pricing model;
- (b) information of the type described in (a) above from internal sources of the Issuer or any of its Affiliates if that information is of a type used by the Issuer in its regular course of business for the valuation of similar instruments as the Securities.

Where the relevant Securities provide for any minimum amount(s) of cash to be payable this shall be taken into account in determining the Market Value. However, the Calculation Agent shall reduce (i.e., discount) the value of such amounts in determining the Market Value to take into account the length of time remaining to the first possible date on which such amount(s) could otherwise first have been payable. Such discounting may be determined by reference to information as set out in (a) and/or (b) above which may include risk free rate(s).

The Calculation Agent shall also take into account appropriate values for any other amount which would or could otherwise have been payable under the relevant Securities. This may include the element of the return on the Securities determined by reference to the Underlying (i.e., the derivative element). The relevant value for this element of the Securities may be determined by reference to the cost at the relevant time of entering into a transaction to provide similar amounts.

Notwithstanding the foregoing, each of the above determinations will be made without taking into account the creditworthiness of the Issuer at the time of early termination. This means that no reduction shall be made in the Market Value to take account of the perceived ability of the Issuer to make any payment at the time of early termination.

"Minimum Redemption Amount" is as specified in the Product Terms. If Minimum Redemption Amount Payable is specified to be Applicable in the Product Terms but the Minimum Redemption Amount is not specified in the Product Terms, then the Minimum Redemption Amount shall be equal to the minimum level of the Cash Amount payable on the Settlement Date, as determined by the Calculation Agent.

"n" means the remaining term of the Securities expressed in years (or fractions thereof), calculated from (but excluding) the date the Issuer gives the Put Monetisation Notice to (and including) the Settlement Date, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

"r" means the annualised interest rate that the Issuer offers on the date that the Issuer gives the Put Monetisation Notice for a debt security with a maturity date that is the Settlement Date of the Securities, taking into account the credit risk of the Issuer, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

"Replacement Asset" means an asset or reference basis that is as similar as possible to the relevant Reference Item affected by the Adjustment/Termination Event, as determined by the Calculation Agent in a commercially reasonable manner.

(5) **Specific Adjustment Events and Adjustment/Termination Events in relation to different Reference Items**

Set out below are Adjustment Events and Adjustment/Termination Events where the Reference Item (as specified under the heading "Underlying" in the Product Terms) is any of the following: an Index or a Fund Share.

(a) **Index**

Where the Underlying, or a relevant Reference Item, is an Index, in each case as specified under the heading "Underlying" in the Product Terms:

(i) In addition to §6(1)(a)-(c) (inclusive), the following shall each be an Adjustment Event:

1. Any Index is not calculated or announced by the Index Sponsor specified under the heading "Underlying" in the Product Terms but is calculated by a successor sponsor (the **"Successor Sponsor"**) acceptable to the Calculation Agent.
2. Any such Index is replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index specified under the heading "Underlying" in the Product Terms.

The consequences of such Adjustment Event may be, in each case that the relevant Index will be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.

(ii) In addition to §6(3)(a)-(f) (inclusive) the following shall each be an Adjustment/Termination Event:

On or prior to any date with respect to which the Calculation Agent is required to determine the level of an Index, the relevant Index Sponsor or, if applicable, the Successor Sponsor (1) makes or announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (such event, an **"Index Modification"**); or (2) permanently cancels that Index; or (3) fails to calculate and announce that Index (such event, an **"Index Disruption"**) and, in each case, the provisions of §6(5)(b)(i) above do not apply.

(b) **Fund Shares**

IV. GENERAL CONDITIONS

Where the Underlying, or relevant Reference Item, is a Fund Share, in each case as specified under the heading "Underlying" in the Product Terms:

- (i) In addition to §6(1)(a)-(c) (inclusive) the following shall each be an Adjustment Event:
1. a subdivision, consolidation or reclassification of relevant Fund Shares (unless an Adjustment/Termination Event) or a free distribution or dividend of any such Fund Shares to existing holders by way of bonus, capitalisation or similar issue;
 2. a distribution or dividend to existing holders of relevant Fund Shares of (1) such Fund Shares, or (2) other share capital or securities granting the right to payment of dividends, redemption amounts or other amounts and/or delivery of assets and/or the proceeds of liquidation of the Fund equally or proportionately with such payments or deliveries to holders of such Fund Shares, or (3) share capital or other securities of another issuer acquired by the Fund as a result of a "spin-off" or other similar transaction, or (4) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;
 3. an extraordinary dividend;
 4. a call by the Fund in respect of relevant Fund Shares that are not fully paid;
 5. with respect to a Fund an event that results in any shareholder rights pursuant to a shareholder rights agreement or other plan or arrangement of the type commonly referred to as a "poison pill" being distributed, or becoming separated from shares of common stock or other shares of the capital stock of such Fund (provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights);
 6. the occurrence of a tender offer (a "**Tender Offer**") by any entity or person to purchase more than 10 per cent. but less than 50 per cent. of the outstanding voting shares of any class of shares of the Fund, as determined by the Calculation Agent based upon the making of filings with governmental agencies and/or the nature and term of the Tender Offer;
 7. any failure by a Fund or any Specified Party to deliver or publish or cause to be delivered or published information that such Fund or such Specified Party has agreed to deliver or publish pursuant to (a) any Fund Information Documents or (b) any agreement entered into between (i) the relevant Fund or Specified Party and (ii) the Issuer, such agreement providing for an obligation on the part of the relevant Fund or Specified Party to provide certain information to such party (or parties as applicable);

IV. GENERAL CONDITIONS

8. any material change in the formula for or the method of calculating or any change in the periodicity of the calculation or publication of the net asset value or other price or value of the relevant Fund Share, or in the composition or weighting of the prices or assets on the basis of which such net asset value or other price or value is calculated; or
 9. any other event that may have, in the opinion of the Calculation Agent, a dilutive or concentrative or other effect on the theoretical value of the Fund Shares.
- (ii) In addition to §6(3)(a)-(f) (inclusive) the following shall each be an Adjustment/Termination Event:
1. for any Fund Share for which the Reference Source is an exchange, a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, the Fund Share ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason and is not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent;
 2. the Fund repurchases, redeems or is required by any applicable regulatory authority to repurchase or redeem relevant Fund Shares (other than in accordance with the normal redemption or realisation procedures for such Fund Shares) whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
 3. in relation to a Fund Share, (A) the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution, winding-up or other cessation of trading of or any analogous proceeding in relation to (i) the relevant Fund or (ii) the relevant Master Fund or (iii) unless replaced with a successor acceptable to the Calculation Agent, the relevant Specified Party or (B) all such Fund Shares are required to be transferred to a trustee, liquidator or other similar official (such event being a "**Fund Bankruptcy**");
 4. any material change in the legal, tax, accounting or regulatory treatment of a Fund and/or its Master Fund and/or Specified Party which significantly alters the economics of the Securities that existed on the Issue Date;
 5. in respect of a Fund, its Manager or its Master Fund:
 - a. an irrevocable commitment to transfer all of the relevant Fund Shares or shares or units in such Master Fund outstanding; or
 - b. a consolidation, amalgamation or merger of such Fund, such Manager or such Master Fund with or into another fund or fund manager other than a consolidation,

IV. GENERAL CONDITIONS

amalgamation or merger in which such Fund or its Master Fund or its Manager is the continuing Fund, Master Fund or Manager, as the case may be; or

- c. a takeover offer for such Fund, Master Fund or Manager that results in a transfer of or an irrevocable commitment to transfer all of the relevant Fund Shares or shares or units in such Master Fund or all the shares of such Manager (other than Fund Shares or shares owned or controlled by the offeror);
6. any Specified Party of the Fund and/or any Specified Party of the Master Fund ceases to act in its relevant capacity as service provider to the Fund or the Master Fund, as the case may be, and is not immediately replaced in such capacity by a successor acceptable to the Calculation Agent;
7. a modification or breach of the investment objectives, investment policies, investment strategy, investment process or investment guidelines (however described) ("**Investment Guidelines**") of the Fund or the Master Fund (such event being a "**Strategy Breach**"); a material modification pertaining to one or more components of the Fund or the Master Fund including any fundamental change to the legal, tax, accounting or regulatory status of the Fund or the Master Fund; a change in the type of assets in which the Fund and/or the Master Fund invests or the trading practices of the Fund or the Master Fund; and/or a material change in the liquidity in the Fund or Master Fund in respect of (i) the frequency of subscriptions or redemptions as compared to the Fund Dealing Frequency, (ii) the notice period for subscriptions or redemptions as compared to the Fund Notice Period, and/or (iii) the settlement period for subscriptions or redemptions as compared to the Fund Settlement Period;
8. a material modification or breach of the conditions in place for the relevant Fund and/or the relevant Master Fund (including but not limited to a modification or breach of the Fund Information Document or the memorandum and articles of association or other constitutional documents of the Fund or any prospectus, information memorandum or similar document (including any document supplementing, amending or restating the same) or memorandum and articles of association or other constitutional documents of the Master Fund) (such event being a "**Fund Modification**");
9. the currency of denomination of any Fund Shares of a Fund is amended and/or the net asset value of the Fund Shares of a Fund is no longer calculated in the currency that applied on the Issue Date;
10. interruption, breakdown or suspension of the calculation or publication of the net asset value or other value or price of the Fund and/or Master Fund;

IV. GENERAL CONDITIONS

11. the non-execution or partial execution or delayed execution by or on behalf of the Fund for any reason of a subscription or redemption order in respect of Fund Shares as determined by the Calculation Agent with regard to (i) the frequency of such subscription or redemption as compared to the Fund Dealing Frequency, (ii) the notice period for such subscription or redemption as compared to the Fund Notice Period, and/or (iii) the settlement period for such subscription or redemption as compared to the Fund Settlement Period;
12. any redemption of Fund Shares occurs in whole or in part otherwise than by payment of an amount in cash;
13. the Fund otherwise suspends subscriptions or redemptions of any Fund Shares;
14. the Fund or any party acting on its behalf imposes any material restriction, charge or fee in respect of a redemption or issue of Fund Shares (other than any restriction, charge or fee in existence as at the Issue Date of the Securities) which significantly alters the economics of the Securities that existed on the Issue Date;
15. the Fund (i) introduces a new redemption fee, or modifies a redemption fee, (ii) introduces a new subscription fee, or modifies a subscription fee, (iii) introduces a new management fee or modifies an existing management fee, (iv) introduces a new performance fee or modifies an existing performance fee, (v) introduces or modifies any lock-up fees, or (vi) introduces a bid/offer spread (or other charge however described) or modifies any bid/offer spread or modifies any other charge howsoever described which in each case materially alters the economics of the Securities that existed on the Issue Date;
16. the Fund, the Master Fund, any Specified Party, the manager of the Master Fund or the Manager has any relevant licence, authorisation or registration cancelled or revoked by any applicable regulatory authority; or
17. the total assets under management of the Fund (i) reduce to an amount below the Fund Reference AUM or (ii) reduce by more than 25 per cent. in the period since the Issue Date of the Securities.;

The following definitions shall apply:

"Fund" means, with respect to a Fund Share, the issuer or obligor specified for such Fund Share in the definition of "Underlying", in the Product Terms;

III. Amendment to General Condition §12 Events of Default

Para. (1) of §12 of the General Conditions shall be deemed to be deleted and replaced with the following:

(1) Events of Default

If any of the events set out in (a) – (d) below occurs, each Securityholder shall be entitled to declare his Securities due:

- (a) the Issuer fails to make any payment or perform any delivery obligation in respect of the Securities within thirty (30) days of the relevant due date after the Principal Agent has received notice thereof from a Securityholder; or
- (b) the Issuer fails duly to perform any other obligation arising from the Securities, if such failure continues for more than sixty (60) days after the Principal Agent has received notice thereof from a Securityholder; or
- (c) the Issuer announces its inability to meet its financial obligations or ceases its payments; or

- (d) a court in Germany opens insolvency proceedings against the Issuer, or the Issuer applies for or institutes such proceedings or offers or makes an arrangement for the benefit of its creditors generally.

The right to declare Securities due shall terminate if the situation giving rise to it has been cured before the right is exercised.

If the Securities are declared due each Securityholder shall be entitled to demand immediate payment of an amount in respect of each Security held by such Securityholder equal to the Market Value of a Security as determined by the Calculation Agent in its reasonable discretion.

IV. Amendment to General Condition §13 Substitution of Issuer and Branch

The whole of §13 of the General Conditions shall be deemed to be deleted and replaced with the following:

§13 Substitution of Issuer and Branch

(1) Substitution of Issuer

The Issuer, or any previous substituted company, may at any time, without the consent of the Securityholders substitute for itself as principal obligor under the Securities any company (the "**Substitute**"), being any subsidiary or Affiliate of the Issuer, subject to:

- (a) the obligations of the Substitute under the Securities being irrevocably and unconditionally guaranteed by Deutsche Bank AG (unless it is the Substitute);
- (b) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect;
- (c) the Issuer shall have given at least 30 days' prior notice of the date of such substitution to the Securityholders in accordance with §16.
- (d) the Substitute shall provide an indemnity in favour of the Securityholders of the Securities in relation to any additional tax or duties or losses suffered by Securityholders due to a different regulatory regime of the Substitute from that of the Issuer and in any case which arise and become payable solely as a result of the substitution of the Issuer for the Substitute; and
- (e) the Issuer (or any previous substituted company) has not failed to make any payment in respect of the Securities on the relevant due date nor is there a substantial likelihood that the Issuer (or any previous substituted company) will fail to make any payment in respect of the Securities on the relevant due date in the immediate future.

In the event of any substitution of the Issuer, any reference in the Terms and Conditions to the Issuer shall from the time of effective substitution be construed as a reference to the Substitute.

(2) Substitution of Branch

The Issuer shall have the right upon notice to Securityholders in accordance with §16 to change the office through which it is acting for the purpose of the Securities, the date of such change to be specified in such notice provided that no change can take place prior to the giving of such notice.

V. Amendment to General Condition §18 Modifications

Para. (2) of §18 of the General Conditions shall be deemed to be deleted and replaced with the following:

(2) Securities not governed by German law

If Governing Law is specified in the Product Terms to be any other law except for German law the following applies:

The Issuer may, to the extent permitted by applicable law and subject as provided below, modify the Terms and Conditions and/or the applicable Final Terms without the consent of the Securityholders or any of them in any manner which the Issuer may deem reasonably necessary (i) in order to maintain or preserve the intended commercial purpose of the Terms and Conditions and/or the applicable Final Terms; or (ii) if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or intended to correct a manifest or proven error or to cure, correct or supplement any defective provision contained therein. Notice of any such modification will be given to the Securityholders in accordance with §16 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

The Issuer may exercise the above discretion for the reasons or in the circumstances described above (i.e. in order to maintain or preserve the intended commercial purpose of the Terms and Conditions and/or the applicable Final Terms or if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or is intended to correct any errors or defective provisions in the Terms and Conditions and/or the applicable Final Terms). In each of these cases the Issuer will first satisfy itself that the exercise of the discretion is (i) reasonably necessary and it will consider if there is any reasonable alternative which would not incur additional material costs for the Issuer and/or its Affiliates, and (ii) in accordance with any applicable provisions of the Belgian Code of Economic Law. Following any modification pursuant to this §18, the Issuer may at its discretion amend and restate the applicable Final Terms.

**ANNEX 4
SECURED CONDITIONS**

1. Interpretation

If "Secured Conditions" are specified to apply in the Product Terms and the Governing Law is specified in the Product Terms to be English law, the terms of this annex shall apply (the "**Secured Conditions**"). In the event of any inconsistency between these Secured Conditions and the General Conditions, these Secured Conditions shall prevail for the purposes of the Securities. In the event of any inconsistency between these Secured Conditions and the Product Terms, the Product Terms shall prevail.

- (a) the Issuer charges by way of first fixed charge its rights and title in the Collateral Assets contained in one or more Collateral Accounts in favour of the Security Trustee on behalf of itself and the other Secured Parties in accordance with the Security Trust Deed; and
- (b) the Issuer assigns by way of security its rights, title and interest in the Collateral Accounts (including, without limitation, any contractual rights, interests or claims relating to such Collateral Accounts) and the Charged Document in favour of the Security Trustee on behalf of itself and the other Secured Parties in accordance with the Security Trust Deed.

"Deliver" means to deliver, novate, transfer, assign or sell, as appropriate, in a manner customary for the settlement of the applicable Collateral Asset (which shall include executing all necessary documentation and taking any other necessary actions), in order to convey all right, title and interest in the Collateral Asset free and clear of any and all liens, charges, claims or encumbrances. "Delivery" and "Delivered" will be construed accordingly.

"Disposal Agent" means any agent appointed by the Security Trustee to realise and dispose of Collateral Assets in a Collateral Pool following the delivery of a Collateral Enforcement Notice and, if applicable, any sub-agent of, or any other entity appointed by the Disposal Agent.

"Eligibility Criteria" means, in relation to a series of Collateralised Securities and an Eligible Collateral Class, each of the following criteria that is specified to be applicable in the section of the Collateral Assets Table set out in the Product Terms corresponding to such Eligible Collateral Class (as the case may be):

- (a) the Collateral Asset is a debt security (including, without limitation, government and corporate bonds, asset-backed securities or convertible bonds) or an equity security (including, without limitation, American depository receipts, global depository receipts and interests in funds);
- (b) the Collateral Asset has the ISIN specified in the Product Terms;
- (c) the Collateral Asset is a constituent of an index specified in the Product Terms;
- (d) the issuer or guarantor in respect of the relevant Collateral Asset operates in any of the industry sectors specified in the Product Terms;
- (e) the issuer or guarantor in respect of that Collateral Asset is the entity, sovereign or supranational entity specified in the Product Terms or is of the type of entity, sovereign or supranational specified in the Product Terms;

IV. GENERAL CONDITIONS

- (f) the issuer or guarantor in respect of that Collateral Asset is incorporated in any of the jurisdictions specified in the Product Terms;
- (g) the issuer or guarantor in respect of the relevant Collateral Asset has, at the date specified in the Product Terms, such credit ratings as are specified in the Product Terms;
- (h) the aggregate amount outstanding in respect of the asset comprising the Collateral Asset is an amount not less than any minimum amount specified in the Product Terms an amount not greater than any maximum amount specified in the Product Terms;
- (i) the currency in which the relevant Collateral Asset is denominated is one of the currencies specified in the Product Terms;
- (j) the relevant Collateral Asset is eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem;
- (k) the relevant Collateral Asset has such ranking(s) relevant to the debt obligations of the obligor in respect of the relevant Collateral Asset as are specified in the Product Terms;
- (l) the relevant Collateral Asset is listed on one of the exchanges specified in the Product Terms;
- (m) the time remaining to maturity of the relevant Collateral Asset is, at the relevant date, not less than the minimum time to maturity specified in the Product Terms and/or not greater than the maximum time to maturity specified in the Product Terms;
- (n) when taken together with the other Collateral Assets of the applicable Eligible Collateral Class (or, if so specified in the Product Terms, Collateral Assets of any other Eligible Collateral Class) held in the relevant Collateral Account, the relevant Collateral Asset would not breach the concentration limit specified in respect of such Eligible Collateral Class; and
- (o) the issuer in respect of the relevant Collateral Asset is not a United States person (as determined for U.S. federal income tax purposes) and no payment with respect to, or in connection with, the Collateral Asset is treated as a United States source payment (as determined for U.S. federal income tax purposes) or could become a United States source payment as a result of Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended.

If any such Eligibility Criteria are not specified in the section of the Collateral Assets Table set out in the Product Terms corresponding to such Eligible Collateral Class, such criteria shall be deemed not to apply in respect of such Eligible Collateral Class, except for criteria (o) and (p) which shall apply to each Eligible Collateral Class even if not specified in the section of the Collateral Assets Table set out in the Product Terms corresponding to such Eligible Collateral Class.

Notwithstanding the Eligibility Criteria specified to be applicable in the Product Terms in respect of a series of Collateralised Securities, the Collateral Triparty Agent shall be obliged to refer only to the terms of the relevant Triparty Account Control Agreement in determining whether the Collateral Assets comply with the eligibility criteria set out in the relevant Triparty Account Control Agreement.

IV. GENERAL CONDITIONS

"Eligible Collateral Assets" means Cash and assets which satisfy all of the Eligibility Criteria applicable to an Eligible Collateral Class. Assets which satisfy all of the Eligibility Criteria that are specified to be applicable to an Eligible Collateral Class will be Eligible Collateral Assets notwithstanding that such assets do not satisfy the Eligibility Criteria applicable to another Eligible Collateral Class.

"Event of Default" has the meaning given in Secured Condition 4.7.1.

"Extraordinary Security Trustee Liabilities" means Liabilities incurred by the Security Trustee and, where applicable, the Disposal Agent, in the event that the Security Trustee determines, acting reasonably, that it is necessary or is requested by the Issuer, the Issuer or any Secured Party to undertake duties which are of an exceptional nature or otherwise outside the scope of the duties of the Security Trustee and, where applicable, the Disposal Agent, under the Security Trust Deed, the Deed of Charge and the Secured Conditions.

"Inventory Collateralised Security" means all Collateralised Securities held by the Issuer and/or its affiliates, including but not limited to, in its capacity as market maker (if applicable), and, in respect of each such Collateralised Security, the Issuer and/or its affiliates shall be deemed to have waived its rights (a) to receive the proceeds of realisation of the Collateral Assets securing such series of Collateralised Securities following the enforcement of the relevant Deed of Charge and Charged Document and (b) to give an Acceleration Notice on the occurrence of an Event of Default.

"Liability" means, for the purposes of these Secured Conditions, any loss, damage, cost, charge, claim, demand, expense, judgment, action, proceeding or other liability whatsoever (including, without limitation, in respect of taxes, duties, levies, imposts and other charges) and including any value added tax or similar tax charged or chargeable in respect thereof and legal fees and expenses on a full indemnity basis (and "Liabilities" shall be construed accordingly).

"Margin Percentage" means, in respect of a Collateral Asset, the percentage amount specified in the section of the Collateral Assets Table set out in the Product Terms corresponding to the Eligible Collateral Class of such Collateral Asset contained in a Collateral Pool. For the avoidance of doubt, the Product Terms shall specify one Margin Percentage value per Eligible Collateral Class.

"Margin Value" means, in respect of an Eligible Collateral Asset in a Collateral Pool on a Collateral Test Date, an amount equal to the quotient of (a) the Collateral Market Value of such Eligible Collateral Asset for such Collateral Test Date, divided by (b) the Margin Percentage applicable to such Eligible Collateral Asset, as determined by the Collateral Triparty Agent.

"Market Value" has the meaning given to it in General Condition §3.

"Non-Inventory Collateralised Securities" means, in relation to a series of Collateralised Securities and any relevant date, those Collateralised Securities which are not Inventory Collateralised Securities on such date.

IV. GENERAL CONDITIONS

"Notice of Exclusive Control" means a notice in writing given in accordance with (and in or substantially in the form annexed to) the relevant Triparty Account Control Agreement from the Security Trustee (acting in accordance with an Acceleration Instruction) to the Collateral Triparty Agent specifying that the Collateral Triparty Agent act solely upon the instructions of the Security Trustee with respect to the relevant Collateral Account and instructing the Collateral Triparty Agent to deliver the Collateral Assets held in such Collateral Account to the Security Trustee.

"Order of Priority" means the order specified in the Product Terms following which the Security Trustee shall apply moneys received following enforcement of the relevant Deed of Charge and the Charged Document in accordance with Secured Condition 6 below. The Order of Priority may be the Standard Order of Priority (as defined below) or any alternative order of item (c), (d) and (e) below, as specified in the Product Terms (provided that items (a) and (b) shall always be the first and second items in the Order of Priority).

- (a) Security Trustee Amounts which the Security Trustee will apply in settlement of Security Trustee Liabilities and from which the Security Trustee may apply in settlement of Extraordinary Security Trustee Liabilities;
- (b) pro rata and pari passu all Liabilities incurred by or payable by the Issuer, in relation to the relevant Collateralised Securities, to the Security Trustee and, where applicable, the Disposal Agent (which shall include any taxes required to be paid, the costs of realising any security (including the distribution of enforcement proceeds) and the remuneration of the Security Trustee and, where applicable, the Disposal Agent); such amounts together the "Security Trustee Liabilities";
- (c) any amounts due to be paid or reimbursed to the Collateral Triparty Agent by the Issuer;
- (d) any amounts due to Securityholders of Non-Inventory Collateralised Securities in accordance with Secured Condition 6 below; and
- (e) payment of the balance (if any) to the Issuer,

and the "Standard Order of Priority" means that the Order of Priority shall follow the order (a), (b), (c), (d), (e) specified above.

"Required Collateral Default" means, following receipt by the Issuer of a Collateral Triparty Agent Notice which indicates that the Collateral Test is not satisfied (or will not be satisfied after taking into account any adjustments specified in a Collateral Test Notice), the Issuer fails to instruct the Collateral Triparty Agent to transfer sufficient additional Eligible Collateral Assets into the Collateral Account to satisfy the Collateral Test and/or Deliver the additional necessary Collateral Assets or insufficient Eligible Collateral Assets are available so as to enable the Collateral Triparty Agent to give effect to any such instruction when given, and in either case the Collateral Test is not satisfied for 7 Collateral Business Days following the delivery of such Collateral Triparty Agent Notice (when determining whether the Collateral Test has been so satisfied, only Collateral Assets which have actually been transferred to the relevant Collateral Account shall be taken into account).

"Required Collateral Default Notice" means a notice (which may be given in any form agreed between the Collateral Triparty Agent and the Issuer, including but not limited to, electronic

IV. GENERAL CONDITIONS

message, exchange of electronic files or by telephone) given in accordance with the relevant Triparty Account Control Agreement by the Collateral Triparty Agent to the Issuer and the Security Trustee, specifying that a Required Collateral Default has occurred.

"Required Collateral Value" means, in respect of a Collateral Pool and a Collateral Test Date, the product of (i) the Collateralisation Percentage, and (ii) the Market Value (as determined by the Collateralised Security Valuation Agent instead of the Calculation Agent) in respect of the Collateralised Security Valuation Time for such Collateral Test Date of the relevant series of Collateralised Securities, and (iii) the number of outstanding Non-Inventory Collateralised Securities of such series of Collateralised Securities.

"Secured Parties" means the parties referred to in sub-paragraphs (a) to (e) (inclusive) of the definition of Order of Priority (each, a "Secured Party").

"Security Trustee" means BNY Mellon Corporate Trustee Services Limited (or any substitute or replacement entity appointed in respect thereof pursuant to the terms of the relevant Security Trust Deed and/or these Secured Conditions).

"Security Trust Deed" means the Security Trust Deed governed by English law between the Security Trustee and the Issuer as amended, restated and/or supplemented from time to time.

"Security Trustee Amounts" means such amounts as the Security Trustee from time to time determines, acting reasonably, that it shall require in order to satisfy any Extraordinary Security Trustee Liabilities.

"Triparty Account Control Agreement" means the agreement to be entered into between the Collateral Triparty Agent, the Issuer and the Security Trustee on each Issue Date specified in the Product Terms for a series of Collateralised Securities, as amended, restated and/or supplemented from time to time.

3. General

3.1 Security Trustee

In relation to each series of Collateralised Securities, BNY Mellon Corporate Trustee Services Limited shall be appointed as Security Trustee and shall undertake the duties of Security Trustee in respect of the Collateralised Securities as set out below and in the Product Terms, the relevant Deed of Charge and in the Security Trust Deed.

In relation to each series of Collateralised Securities, the Issuer and the Security Trustee will enter into a Deed of Charge. The Security Trustee will hold the rights granted to it under the relevant Deed of Charge for itself, the Securityholders of the Non-Inventory Collateralised Securities and the other relevant Secured Parties under the Security Trust Deed.

3.2 Collateral Triparty Agent

The Bank of New York Mellon, London Branch shall undertake the duties of Collateral Triparty Agent in respect of each series of Collateralised Securities as set out in the relevant Triparty Account Control Agreement in respect of the relevant series of Collateralised Securities.

3.3 Custodian

The Bank of New York Mellon, London Branch shall undertake the duties of Custodian to the Issuer in respect of each series of Collateralised Securities under the terms of the Custodian Agreement to the extent to which those terms relate to the Collateral Assets. The Custodian Agreement provides for the establishment of cash accounts and securities accounts in the name of the Issuer. The Issuer shall instruct the Custodian to open segregated Collateral Account(s) in respect of each series of Collateralised Securities and the relevant Collateral Account(s) shall be operated by the Collateral Triparty Agent in accordance with the terms of the relevant Triparty Account Control Agreement.

3.4 Collateralised Securities Valuation Agent

Deutsche Bank Aktiengesellschaft shall undertake the duties of Collateralised Securities Valuation Agent in respect of the Collateralised Securities as set out in these Secured Conditions and in the Product Terms.

In making determinations and calculations under these Secured Conditions, the Collateralised Securities Valuation Agent shall act in good faith and in a commercially reasonable manner. In relation to each series of Collateralised Securities, the Collateralised Securities Valuation Agent acts solely as an agent of the Issuer, and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders.

3.5 Termination and Replacement

Each of the Collateral Transaction Documents contains, or will contain, provisions for the termination of such agreement and, as the case may be, the removal or replacement of the role of the relevant Collateral Arrangement Party appointed thereunder. Any such termination, removal and/or replacement will be effected without the consent of Securityholders in accordance with the provisions of such agreements and (other than in respect of the Custodian or the Collateral Triparty Agent) these Secured Conditions. The Issuer reserves the right at any time to appoint a replacement Collateralised Securities Valuation Agent. No such termination or removal shall be effective until a replacement entity has been appointed. The Collateralised Securities Valuation Agent shall be required to give notice to Securityholders of any such termination, removal and/or replacement in accordance with General Condition §16. Any reference to a Collateral Arrangement Party in these Secured Conditions shall be deemed to include a reference to any entity appointed as a replacement thereof.

3.6 Notices

Where any provision of these Secured Conditions requires one party to deliver a notice to another party, such notice may be delivered in any form agreed between the parties thereto, including but not limited to, by post, electronic message, fax, exchange of electronic files, SWIFT messages, messages through the relevant clearing system or by telephone (provided that any notice given by

telephone must, as soon as reasonably practicable, be confirmed in writing between the parties to such telephone conversation and failure to obtain such confirmation shall not invalidate such notice).

4. Security

4.1 Deed of Charge

The obligations of the Issuer in respect of the Collateralised Securities will be secured by a Deed of Charge pursuant to which:

- (a) the Issuer charges by way of first fixed charge its rights and title in the Collateral Assets contained in one or more Collateral Accounts. The security interest granted shall be over all of the Issuer's rights in and to the Collateral Assets Delivered into and held from time to time in the relevant segregated account(s) established with the Custodian pursuant to and in accordance with the applicable terms of the relevant Triparty Account Control Agreement and the Custodian Agreement for such purpose (the "**Collateral Account(s)**"), excluding any interest or distributions paid on such Collateral Assets to the extent such amounts are not held in the relevant Collateral Account; and
- (b) the Issuer assigns by way of security its rights, title and interest in the Collateral Account(s) (including, without limitation, any contractual interests or claims relating to such Collateral Accounts) and the Charged Document,

in favour of the Security Trustee to hold for itself and on behalf of the relevant Securityholders and the other relevant Secured Parties under the Security Trust Deed.

Following the delivery of a Collateral Enforcement Notice, any interest or distributions paid in respect of the Collateral Assets held in the Collateral Account will be credited to the Collateral Account and will be subject to the fixed charge set forth in paragraph (a) above.

4.2 Collateral Pools

Each series of Collateralised Securities will be secured by a separate Collateral Pool comprising Collateral Assets held in a segregated Collateral Account.

4.3 Initial Collateral Assets

On the Issue Date of a series of Collateralised Securities, the Issuer shall deposit Collateral Assets in the relevant Collateral Account such that the Collateral Test will be satisfied on the Collateral Test Date falling on such Issue Date.

4.4 Adjustments to Collateral Assets

On the Collateralised Securities Valuation Date for each Collateral Test Date, the Collateralised Securities Valuation Agent will determine the Required Collateral Value and will send a Collateral Test Notice to the Collateral Triparty Agent prior to 4.30 p.m. London time on such Collateral Test Date, or such other time as may be agreed between the Issuer and the Collateral Triparty Agent from time to time. On the Collateralised Securities Valuation Date for each Collateral Test Date, the Collateralised Securities Valuation Agent will notify the relevant Agent, with a copy to the Security

Trustee, of the aggregate number of outstanding Non-Inventory Collateralised Securities as of such date.

On each Collateral Test Date, the Collateral Triparty Agent will calculate the Collateral Value and verify that the Collateral Test is satisfied. When determining whether the Collateral Test is satisfied on a Collateral Test Date, Collateral Assets for which instructions for the transfer to the relevant Collateral Account have been provided on or before such Collateral Test Date will be included for the purposes of such determination provided that sufficient Eligible Collateral Assets are held in the Custodian Account and Collateral Assets for which instructions for the removal from the relevant Collateral Account have been provided on or before such Collateral Test Date will be excluded for the purposes of such determination.

In determining whether the Collateral Test is satisfied, the Collateral Triparty Agent will verify that the relevant Collateral Assets comply with the eligibility criteria specified in the collateral schedule of the relevant Triparty Account Control Agreement. The Issuer shall be solely responsible for ensuring that the Eligibility Criteria specified in the Product Terms is substantively identical to the eligibility criteria specified in the collateral schedule of the Triparty Account Control Agreement and the Collateral Triparty Agent shall not be liable to the Securityholders or any party for any discrepancy therein.

If on the relevant Collateral Test Date the Collateral Triparty Agent determines that the Collateral Test is not satisfied, the Collateral Triparty Agent will promptly send the Issuer a Collateral Triparty Agent Notice. On the date such Collateral Triparty Agent Notice is given, the Issuer will instruct the Collateral Triparty Agent to transfer sufficient additional Eligible Collateral Assets into the relevant Collateral Account to satisfy the Collateral Test.

The Issuer will ensure that sufficient Eligible Collateral Assets are Delivered into the relevant Collateral Account on or before each Collateral Test Date to satisfy the Collateral Test in respect of such Collateral Test Date for the relevant series of Collateralised Securities.

4.5 Substitution or withdrawal of Collateral Assets

The Issuer may, subject to the terms of the relevant Triparty Account Control Agreement, withdraw and/or replace Collateral Assets from the relevant Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. The Issuer will send or cause to be sent a notice to the Collateral Triparty Agent specifying the adjustments to be made to the Collateral Pool (including inter alia the type and quantity of any Collateral Assets to be deposited and/or removed).

4.6 Required Collateral Default

Following the occurrence of a Required Collateral Default, the Collateral Triparty Agent shall send a Required Collateral Default Notice to the Issuer and the Security Trustee, specifying that a Required Collateral Default has occurred. The Security Trustee shall as soon as reasonably practicable after receiving a Required Collateral Default Notice give notice to the relevant Agent and the relevant Agent will as soon as reasonably practicable give notice in accordance with General Condition §16 to all relevant Securityholders of the receipt of a Required Collateral Default Notice.

4.7 Events of Default

4.7.1 The occurrence of one or more of the following events shall constitute an "**Event of Default**" with respect to any series of Collateralised Securities:

- (a) any of the events set out in paragraphs (a) to (d) of §12(1) of the General Conditions;
- (b) a Required Collateral Default has occurred; or
- (c) any of (i) a failure by the Issuer to comply with or perform any undertaking or obligation to be complied with or performed by it in accordance with the Security Trust Deed or the relevant Deed of Charge if such failure is continuing after any applicable grace period has elapsed, the expiration or termination of such Security Trust Deed or Deed of Charge, or (ii) the failing or cessation of such Security Trust Deed or Deed of Charge, or any security granted by the Issuer, to be in full force and effect prior to the satisfaction of all the obligations of such party under these Secured Conditions or (iii) the Issuer disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such Security Trust Deed or Deed of Charge (or such action is taken by any person or entity appointed or empowered to act on the Issuer's and/or Issuer's behalf).

If an Event of Default shall occur and be continuing with respect to any series of Collateralised Securities, then any Securityholder may, at its option, send an Acceleration Notice through the relevant Clearing Agent to the relevant Agent. If the Securityholder(s) of at least 33 per cent. in aggregate nominal amount or by number (as applicable) of such Non-Inventory Collateralised Securities outstanding send Acceleration Notice(s) through the relevant Clearing Agent to the relevant Agent, and if any such default is not cured by the Issuer prior to receipt by the relevant Agent of the latest of such Acceleration Notice(s) required to exceed the 33 per cent. threshold specified above, an "**Acceleration Event**" shall occur in respect of such series of Collateralised Securities and the relevant Agent shall promptly inform the Issuer of such occurrence.

Paragraph (1) of General Condition §12 shall be deemed to be amended to the extent necessary to give effect to this Secured Condition 4.7 and Secured Condition 6.1 (and, for the avoidance of doubt, a Securityholder shall not be entitled to declare its Collateralised Securities due except as specified in this Secured Condition 4.7 and Secured Condition 6.1). Paragraphs (3) and (4) of General Condition §12 shall not apply to Collateralised Securities.

4.7.2 Following the occurrence of an Acceleration Event:

- (a) if the Issuer expressly objects to the delivery of an Acceleration Instruction (as defined below) to the relevant Agent within [7] Business Days from the date of it being informed of the occurrence of the Acceleration Event and provides the relevant Agent with the reasons for its objection (an "**Issuer Acceleration Objection**") the Acceleration Event shall be deemed to have not occurred and the relevant Agent shall act as if no Acceleration Notice(s) had been received; and;
- (b) if no Issuer Acceleration Objection is received by the relevant Agent, the relevant Agent shall, on the 8th Business Day following the date of the Acceleration Event, send a notice (in or substantially in the form set out in Part 2 of the Schedule to this Annex) (an "**Acceleration Instruction**") to the Security Trustee confirming that the Securityholder(s) of at least 33 per cent. in aggregate nominal amount or by number (as applicable) of the Non-

Inventory Collateralised Securities outstanding have delivered Acceleration Notices thereby instructing the Security Trustee to:

- (i) deliver the notices specified in Secured Condition 6.1;
- (ii) enforce the security constituted by the relevant Deed of Charge and distribute the proceeds, in each case, in accordance with its terms and the provisions of these Secured Conditions and the Security Trust Deed;
- (iii) appoint a Disposal Agent, if a Disposal Agent has not already been appointed, and provide instructions to the Disposal Agent in accordance with these Secured Conditions; and
- (iv) perform any further actions of the Security Trustee specified in these Secured Conditions, the relevant Deed of Charge and the Security Trust Deed or any reasonable incidental actions.

5. Collateral Triparty Agent, Custodian, Security Trustee, Collateralised Securities Valuation Agent and relevant Agent

In relation to each series of Collateralised Securities, the Collateralised Securities Valuation Agent acts solely as an agent of the Issuer, and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. In relation to each issue of Collateralised Securities, the Collateral Triparty Agent acts solely as an agent of the Issuer, and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders or the Issuer.

For the avoidance of doubt, the Custodian does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders, the Issuer or the Security Trustee.

All calculations and determinations made in respect of the Collateralised Securities by the Issuer, Collateral Triparty Agent and Collateralised Securities Valuation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Securityholders and the Security Trustee (as applicable).

Each of the Issuer and Collateralised Securities Valuation Agent may delegate any of their obligations and functions to a third party as provided for in each Triparty Account Control Agreement, as applicable. The Collateral Triparty Agent may delegate any of its obligations and functions to a third party as provided for in the relevant Triparty Account Control Agreement.

In acting in connection with any series of Collateralised Securities, the relevant Agent shall act solely as an agent of the Issuer and will not assume any obligations towards or relationship of agency or trust for or with any of the Securityholders of such Collateralised Securities.

6. Default, Enforcement and Realisation

6.1 Acceleration and Enforcement of Collateral

If the Security Trustee receives an Acceleration Instruction, the Security Trustee shall (acting in accordance with such Acceleration Instruction), as soon as reasonably practicable:

IV. GENERAL CONDITIONS

- (a) deliver a Collateral Enforcement Notice (in or substantially in the form annexed to the relevant Deed of Charge) in respect of such series of Collateralised Securities to each of the Issuer and the relevant Agent;
- (b) deliver a Notice of Exclusive Control (in or substantially in the form annexed to the relevant Triparty Account Control Agreement) in respect of the Collateral Account of such series of Collateralised Securities to the Collateral Triparty Agent;
- (c) give notice to the relevant Agent of the occurrence of an Acceleration Event and the delivery of such Collateral Enforcement Notice and Notice of Exclusive Control and the relevant Agent will give notice of the same in accordance with General Condition §16 to all relevant Securityholders; and
- (d) appoint a Disposal Agent, if a Disposal Agent has not already been appointed, and provide instructions to the Disposal Agent in accordance with the Secured Conditions.

Upon delivery of the Collateral Enforcement Notice, all Collateralised Securities in respect of which the Collateral Enforcement Notice is served will become immediately due and repayable at the amount specified in §12(1) of the General Conditions (the "**Early Termination Amount**").

As soon as reasonably practicable following the delivery of a Collateral Enforcement Notice, the Issuer shall, and shall procure that its affiliates that hold Inventory Collateralised Securities of the series of Collateralised Securities in respect of which the Collateral Enforcement Notice is served, submit such Inventory Collateralised Securities for cancellation free of payment and, following such cancellation, the Collateralised Securities Valuation Agent shall notify the Security Trustee of the number of outstanding Non-Inventory Collateralised Securities of such series.

6.2 Enforcement and Realisation

Following delivery of a Collateral Enforcement Notice in respect of the relevant series of Collateralised Securities, the Security Trustee (acting in accordance with an Acceleration Instruction) shall enforce the security constituted by the relevant Deed of Charge relating to the relevant Collateral Pool in accordance with the terms thereof, these Secured Conditions (as completed by the Product Terms) and the terms of the Security Trust Deed and will give instructions to the Disposal Agent to effect a liquidation and realisation in accordance with Secured Condition 6.6 of all the Collateral Assets in the Collateral Pool which secures such series of Collateralised Securities and subsequently distribute the relevant Collateral Enforcement Proceeds Share to the relevant Securityholders in accordance with Secured Condition 6.5.

6.3 Liability of the Security Trustee

The Security Trust Deed contains provisions setting out the standards of liability of the Security Trustee including to the effect that:

- (a) in the event that any Secured Party directs the Security Trustee to effect the liquidation and realisation of the Collateral Assets in the Collateral Pool which secures the relevant series of Collateralised Securities in a manner that is in accordance with the exact provisions of the Acceleration Instruction, the Security Trustee shall not be under any obligation to take any

further action (without prejudice to its ability to instruct the Disposal Agent to liquidate and realise the Collateral Assets for the purpose of funding the Security Trustee Amounts) if it reasonably believes that (i) it would not be able to recover the Security Trustee Amounts that would be incurred in connection with such action from the relevant Collateral Assets or otherwise and/or (ii) it would experience an unreasonable delay in doing so; and

- (b) in the event that any Secured Party directs the Security Trustee to effect the liquidation and realisation of the Collateral Assets in the Collateral Pool which secures the relevant series of Collateralised Securities in a manner other than in accordance with the exact provisions of the Acceleration Instruction, the Security Trustee shall not be under any obligation to take any action unless it has first been indemnified and/or secured and/or pre-funded to its satisfaction

and in, each case, the Security Trustee shall have no liability for any such failure to act.

The Security Trustee will not, in the absence of its own gross negligence, fraud or wilful misconduct, have any liability in connection with its role under or for the purposes of these Secured Conditions and it will have no regard to the effect of such action on individual Securityholders. In no event shall the Security Trustee be liable for any special, indirect or consequential loss or any punitive damages including (without limitation) any lost profits.

For the avoidance of doubt, the Security Trustee shall be entitled to rely without enquiry on an Acceleration Instruction delivered by the Agent and on any notice of revocation of such Acceleration Instruction pursuant to Condition 4.7.2 and shall have no obligation to monitor or verify whether the relevant threshold has been met or to monitor or verify whether any Securityholder that has delivered an Acceleration Notice holds Inventory Collateralised Securities or Non-Inventory Collateralised Securities.

6.4 Enforcement and realisation by Securityholders

No Securityholder shall be entitled to enforce a Deed of Charge or to proceed directly against the Issuer to enforce the other provisions of a Charged Document unless the Security Trustee, having become bound to so enforce or proceed, fails so to do within a reasonable time and such failure is continuing or the Security Trustee is prevented from enforcing the Deed of Charge by any court order.

If the Security Trustee becomes bound to enforce the security constituted by a Deed of Charge and fails to do so within a reasonable time and such failure is continuing or the Security Trustee is prevented from enforcing the security constituted by a Deed of Charge by any court order, then, without prejudice to the paragraph above, Securityholder(s) of at least 33 per cent. in aggregate nominal amount or by number (as applicable) of such Non-Inventory Collateralised Securities outstanding may remove the Security Trustee and appoint a replacement Security Trustee in accordance with Secured Condition 3.5 and the terms of the Security Trust Deed.

Securityholders shall not be entitled to enforce a Triparty Account Control Agreement or the Custodian Agreement or to proceed directly against the Collateral Triparty Agent or the Custodian to enforce the terms of the relevant Triparty Account Control Agreement or the Custodian Agreement (as applicable). Neither the Collateral Triparty Agent nor the Custodian shall have any liability to the

Securityholder as to the consequence of any actions taken by the Collateral Triparty Agent or Custodian (as applicable).

6.5 Application and distribution of proceeds of enforcement

- 6.5.1** In connection with the enforcement of the security constituted by the relevant Deed of Charge, after the realisation and liquidation of the relevant Collateral Assets in accordance with Secured Condition 6.6, the Security Trustee (acting in accordance with an Acceleration Instruction) shall instruct the Disposal Agent to use the proceeds of such realisation and liquidation of the Collateral Assets to make payment of any amounts payable to the Secured Parties ranking prior to the Securityholders of Non-Inventory Collateralised Securities in accordance with the Order of Priority specified in the Product Terms and to notify the Collateralised Securities Valuation Agent of the Collateral Enforcement Proceeds. Following such payment the Collateralised Securities Valuation Agent shall determine the Collateral Enforcement Proceeds Share (if any) in respect of each Non-Inventory Collateralised Security and shall notify such amount to the Security Trustee, the Disposal Agent and to the Securityholders in accordance with General Condition §16.
- 6.5.2** Subject as provided below, the Security Trustee (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) shall apply the remaining proceeds from the realisation of the relevant Collateral Assets in a Collateral Pool in meeting the claims of Securityholders in respect of the Early Termination Amount payable under each Non-Inventory Collateralised Security which is secured by the relevant Collateral Pool pro rata to the Collateral Enforcement Proceeds Share of each such Non-Inventory Collateralised Security.
- 6.5.3** If the Collateral Enforcement Proceeds Share for a particular Non-Inventory Collateralised Security is greater than the Early Termination Amount of such Non-Inventory Collateralised Security, then the Securityholder is only entitled to receive from the Collateral Enforcement Proceeds Share an amount equal to the Early Termination Amount. Any excess amount of the Collateral Enforcement Proceeds Share over the Early Termination Amount will not be distributed to such Securityholder but will be distributed to the Secured Parties ranking after the Securityholders of Non-Inventory Collateralised Securities in accordance with the Order of Priority specified in the Product Terms.
- 6.5.4** Where the Collateral Enforcement Proceeds Share for a particular Secured Collateralised Security is less than the Early Termination Amount (such amount being a "**Collateral Enforcement Loss Amount**"), such Collateral Enforcement Loss Amount shall constitute an obligation of the Issuer as described in paragraph (3) of General Condition §7 and such Securityholder will be entitled to claim against the Issuer for such Collateral Enforcement Loss Amount.
- 6.5.5** The Security Trustee or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) shall determine the date for distribution of the remaining proceeds to Securityholders in accordance with Secured Condition 6.5.2 and shall notify such date to the relevant Agent and the relevant Agent shall notify Securityholders in accordance with General Condition §16.
- 6.5.6** Moneys held by the Security Trustee shall be deposited in its name in an account at such bank or other financial institution as the Security Trustee may, acting in good faith and in a commercially reasonable manner, think fit. Any interest paid by such bank or financial institution on such moneys shall be deemed to be Collateral Assets.

6.5.7 To the extent that any proceeds from the liquidation or realisation of the relevant Collateral Assets in a Collateral Pool are not in the Settlement Currency, then such proceeds shall be converted at such rate or rates, in accordance with such method and as at such date as may reasonably be specified by the Security Trustee or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee), having regard to then current rates of exchange. Any rate, method and date so specified shall be binding on the Issuer, the Issuer and the Securityholders.

6.6 Method of realisation of Collateral Assets

Subject as may otherwise be provided for in these Secured Conditions, in effecting the sales, the Security Trustee or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) may sell the relevant Collateral Assets in one single tranche or in smaller tranches as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. The Security Trustee or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) may effect sales of the Collateral Assets (a) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted, (b) in the over-the-counter market or (c) in transactions otherwise than on such exchanges or in the over-the counter market.

Where the Security Trustee or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) disposes of any Collateral Assets other than on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted then:

- (a) the Security Trustee or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) shall seek firm bid quotations from at least three independent dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of a designated part or proportion thereof, as it considers appropriate in order to maximise the proceeds of the sale of such Collateral Assets);
- (b) for the purposes of obtaining the quotations referred to in (a) above, the Security Trustee or the Disposal Agent or either of their respective affiliates may itself provide a bid in respect of the relevant Collateral Assets or any part or proportion thereof; and
- (c) the Security Trustee or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) shall be authorised to accept without liability to any party in respect of each relevant part or proportion of the Collateral Assets or, as applicable, the entirety of the relevant Collateral Assets the highest quotation so obtained (which may be a quotation from the Security Trustee or the Disposal Agent (when providing such quotations itself, the Security Trustee or the Disposal Agent shall act in a commercially reasonable manner)).

Notwithstanding any other provision of these Secured Conditions, following receipt by the Security Trustee of notice of an Acceleration Event, the Security Trustee shall be entitled in its sole discretion to instruct the Disposal Agent to liquidate, dispose or realise any of the Collateral Assets at any time and without regard to any of the provisions of the Secured Conditions with respect to method, price or time of such realisation, in order to satisfy any Security Trustee Amounts, and without liability to any party for any such action.

6.7 Inability to realise Collateral Assets

If the Security Trustee or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) is unable to sell the relevant Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Secured Condition 6.6, for a period of one year from the date of the relevant Acceleration Instruction (such Collateral Assets being "Non-Realised Collateral Assets"), then notwithstanding any other provision hereof, the Security Trustee or the Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) shall be entitled without liability to any party to sell such Non-Realised Collateral Assets by accepting the first available price for such Non-Realised Collateral Assets.

6.8 Replacement Collateralised Securities Valuation Agent

If, following the delivery of a Collateral Enforcement Notice, the Collateralised Securities Valuation Agent fails to make the applicable calculations and determinations specified in this Secured Condition 6, or fails to notify the Security Trustee or the Disposal Agent of the results of such calculations and determinations, within a reasonable time and in any event within 20 Collateral Business Days of receipt of a written request from the Security Trustee and/or Disposal Agent (acting on behalf of and at the instruction of the Security Trustee) that it make such calculations and determinations, then the Security Trustee shall as soon as reasonably practicable appoint a replacement Collateralised Securities Valuation Agent in accordance with Secured Condition 3.5.

7. Segregation of Collateral Pools

By acquiring and holding Collateralised Securities, Securityholders will be deemed to acknowledge and agree that no Securityholder shall be entitled to have recourse to the Collateral Assets contained in a Collateral Pool other than the Collateral Pool which secures the Collateralised Securities held by such Securityholder.

8. Collateral Disruption Events

Upon the occurrence, as determined by the Collateralised Securities Valuation Agent, of a Collateral Disruption Event, the Issuer may at its option and in its sole discretion give notice to the Securityholders in accordance with General Condition §16 and cancel all but not some only of the Collateralised Securities of the relevant series at the Early Termination Amount on the date specified by the Issuer in the notice to Securityholders, provided that such date shall be no later than two Business Days following the date of such notice.

9. Release of Security

The security constituted by the relevant Deed of Charge will be released in relation to the Collateral Assets that are withdrawn from the Collateral Account in accordance with Secured Condition 4.4 or Secured Condition 4.5 and in accordance with the provisions of the relevant Deed of Charge.

10. Call Right of the Issuer

The Issuer has the unconditional and irrevocable right (a "**Call Right**"), upon delivery of a Call Notice on or before the Call Right Cut-off Date to redeem (in the case of Notes) or settle (in the case of Certificates or Warrants) the Collateralised Securities in whole, but not in part, on the fifth

IV. GENERAL CONDITIONS

Business Day following the Call Notice Date by payment of the Collateralised Security Call Amount in respect of each Collateralised Security. As used herein:

- (a) **"Call Notice"** means an irrevocable notice given by the Issuer to the Securityholders in accordance with General Condition §16 that the Issuer will exercise its Call Right. The exercise by the Issuer of the Call Right shall not preclude Securityholders from selling or transferring or, if applicable, exercising the Securities which exercise, sale or transfer, as the case may be, is effective on any day up to but excluding the second Business Day immediately preceding the date on which the Collateralised Securities are redeemed or settled.
- (b) **"Call Notice Date"** means the date on which the Call Notice is given by the Issuer to the Securityholders in accordance with General Condition §16.
- (c) **"Call Right Cut-off Date"** means the Business Day preceding the final Valuation Date or other date on which the Calculation Agent is required to determine the price or level of a Reference Item for the purposes of General Condition §1 of such Collateralised Securities.
- (d) **"Collateralised Security Call Amount"** means the amount specified as such in the Product Terms.

V. PRODUCT TERMS

[The following "**Product Terms**" of the Securities shall, for the relevant series of Securities, complete and put in concrete terms the General Conditions for the purposes of such series of Securities. A version of these Product Terms as amended and completed for the specific issuance will be contained in the applicable Final Terms.]

[The following information describes the content of the relevant "**Product Terms**" of the Securities, which completes and puts in concrete terms the General Conditions for the relevant series of Securities for the purposes of such series of Securities. A version of the description of these Product Terms as amended and completed for the specific issuance will be contained in the applicable Final Terms.]

Product Terms and General Conditions together constitute the "**Terms and Conditions**" of the relevant Securities.

[The following Product Terms start with a general part applicable to all products, followed by general definitions for all Certificates, Warrants and Notes, each then followed by product-specific definitions which should be inserted in place of the more general prompts, if applicable, and end with an additional general part applicable to all products. The following Product Terms, hence, comprise, as applicable, the sections

- *"General Definitions applicable to the Securities",*
- *"General Definitions applicable to Certificates" supported, where applicable, by the product-specific definitions,*
- *"General Definitions applicable to Warrants" supported, where applicable, by the product-specific definitions,*
- *"General Definitions applicable to Notes" supported, where applicable, by the product-specific definitions, and*
- *"Further Definitions applicable to the Securities".]*

In the event of any inconsistency between these Product Terms and the General Conditions, these Product Terms shall prevail for the purposes of the Securities.

Final Reference Level x Multiplier

Multiplier (a) for a day in the period from the Issue Date until the first occurring Multiplier Adjustment Date (excluding this day): 1.0; and
 (b) for the first occurring Multiplier Adjustment Date and each subsequent day an amount equal to the product of (i) and (ii).

where:

(i) equals the Multiplier on the Trading Day preceding the immediately preceding Multiplier Adjustment Date or with respect to the first occurring Multiplier Adjustment Date is equal to 1, and

(ii) equals the quotient of (aa) and (bb),

where:

(aa) equals the Reference Level on the day preceding the immediately preceding Multiplier Adjustment Date (as numerator), and

(bb) equals the difference between (x) and (y) (as denominator),

where:

(x) equals the Reference Level on the day preceding the immediately preceding Multiplier Adjustment Date, and

(y) equals the Reinvested Dividend for the immediately preceding Multiplier Adjustment Date.

As a formula:

$$M_{i,t} \left[\frac{L_{i,(t-1)}}{(L_{i,(t-1)} - D_{i,t})} \right] \times M_{i,(t-1)}$$

where:

$M_{i,t}$ = Multiplier of the Underlying i on day t

t = the immediately preceding Multiplier Adjustment Date

$L_{i,(t-1)}$ = Reference Level on day t-1

t-1 = the Trading Day immediately preceding the day t

$D_{i,t}$ = Reinvested Dividend on day t.

$M_{i,(t-1)}$ = Multiplier of the Underlying i on day t -1

Reference Level of the Inflation Index	means, in respect of a certain day, subject to any adjustments in accordance with the following provisions and §6 of the General Conditions, in which

V. PRODUCT TERMS

references in §6 to "Index" are to be understood as references to "Inflation Index", the level of the Inflation Index quoted by the Reference Source of the Underlying in relation to the 3rd calendar month before the month in which the Reference Level of the Inflation Index was determined on such day by the Calculation Agent. If a Market Disruption occurs on such day, the Calculation Agent determines the Reference Level for the Inflation Index by calculating the Replacement Reference Level for the Inflation Index as defined under Replacement Reference Level of Inflation Index.

Only the first published level of the Inflation Index on the day of publication of the level is used in calculating the level of the Inflation Index in respect of a reference month (preliminary estimates are not taken into account). Later adjustments to the level of the Inflation Index are not taken into account except where they involve correction of an obvious error.

Any revision or change to the Inflation Index after its first publication has no effect on the calculation of the respective Coupon Amount payable, unless it concerns a resetting of the index reference period, i.e. the period which represents 100 in the index (**base year revision**). In such case the Inflation Index subject to a base year revision will be used to calculate the level of the Inflation Index and the Calculation Agent will adjust the level of the Inflation Index subject to base year revision in order that the level of the Inflation Index reflects the same rate of inflation as the Inflation Index before the base year revision. A base year revision does not affect any previous payments of Coupon Amounts.

If, in the determination of the Calculation Agent, the level of the Inflation Index has been corrected within 30 days of its first publication by the Sponsor, in order to correct an obvious error in the first publication, the Calculation Agent will base the calculation of the Coupon and Coupon Amount on the Inflation Index corrected in such manner. Such correction does not affect any previous payments of Coupon Amounts.

Replacement Reference
Level of the Inflation Index

if in respect of a certain day, subject to any adjustments in accordance with the following provisions and §6 of the General Conditions, in which references in §6 to "Index" are to be understood as references to "Inflation Index", the value calculated as follows:

Replacement Reference Level of the Inflation Index =

$$\text{Level of Inflation Index}_{p-15} \times \left(\frac{\text{Level of Inflation Index}_{p-4}}{\text{Level of Inflation Index}_{p-16}} \right)$$

where

Level of Underlying_{p-15}: is the level of the Inflation Index for the 15th calendar month before the month in which the Replacement Reference Level of the Inflation Index is determined.

Level of Underlying_{p-4}: is the level of the Inflation Index for the 4th calendar month before the month in which the Replacement Reference Level of the Inflation Index is determined.

Level of Underlying_{p-16}: is the level of the Inflation Index for the 16th calendar month before the month in which the Replacement Reference Level of the Inflation Index is determined.

(i) is the Participation Factor; and
(ii) is (Final Reference Level – Strike) x Multiplier
provided that the Cash Amount will not be less than zero.

Locked Performance An amount in respect of any Observation Date equal to the product of (a) and (b) where:
(a) is the greatest integer less than or equal to the ratio of:
(i) the Highest Performance Factor; and
(ii) [insert amount]; and
(b) Is [insert amount]

Lock-in Level An amount in respect of any Observation Date equal to the product of (a) the sum of (i) One; and (ii) the Locked Performance; and (b) the Initial Reference Level

Highest Performance Factor On any Observation Date, the highest Performance Factor in respect of all Observation Dates up to such Observation Date

Performance Factor In relation to an Observation Date and each Security, a percentage (which may be positive, negative or zero) calculated by the Calculation Agent in accordance with the following formula:
$$\frac{(A-B)}{B}$$

Where:
"A" is the Reference Level on such Observation Date(t); and
"B" is the Reference Level on the first Observation Date;
provided that if A and B are equal, the Performance Factor shall be zero.

[Relevant Reference Level Value The Index Closing Level as defined in the Index Description annexed to these Final Terms]

V. PRODUCT TERMS

Final Reference Level The higher of (a) the Reference Level on the Valuation Date and (b) the Lock-in Level on the Valuation Date.

Product No. W26: Top Rank Warrant

[Insert the following provisions for Top Rank Warrants:

Cash Amount	An amount equal to the product of: (A) the Specified Reference Level; (B) The Participation Factor; and (C) The greater of (i) the Average Performance and (ii) Zero [the Cash Amount will be [equal to] at least [insert percentage][% of] [the Specified Reference Level].
Average Performance	An amount equal to the quotient of: (1) the sum of (A) the product of (i) the Top Rank Multiplier and (ii) the Fixed Rate of Interest and (B) the Bottom Rank Performance; and (2) the total number of Basket Constituents. As a formula: $AP = [(SP_{\text{worst}} + X*Y)/Z]$ SPworst: Bottom Rank performance X: Top Rank Multiplier Y: Fixed Rate of Interest Z: total number of Basket Constituents
Performance	In respect of a Basket Constituent, the difference between 1) The quotient of: (a) The [arithmetic mean of the] Reference Level[s] of the relevant Basket Constituent on [all][the] Valuation Date[s]; and (b) The Initial Reference Level of the relevant Basket Constituent; and 2) One.
Bottom Rank Performance	The sum of the Performance of each of the [insert number] lowest ranking Basket Constituents (ranking determined according to the Ranking).
Fixed Rate of Interest	An amount which will be determined by the Issuer on the Initial Valuation Date][] and which will not be less than [insert number] nor more than [insert number]. The definitive value will be made available on the website of the Issuer [insert website] by [insert date].
Top Rank Multiplier	A number equal to the number of highest ranking Basket Constituents (i.e. those Basket Constituents not included in the Bottom Rank Performance) as determined according to the Ranking.
Ranking	In respect of a Basket Constituent, the unique ranking of such Basket Constituent assigned by the Calculation Agent amongst all the relevant Basket Constituents, where such ranking is assigned by reference to the Performance of each Basket Constituent sequentially from highest to lowest, such that, for the avoidance of doubt, the Basket Constituent with the highest Performance shall have the highest ranking and the Basket Constituent with the lowest Performance shall have the lowest ranking, provided that, if two or more such Basket Constituents have the same

V. PRODUCT TERMS

Performance, as determined by the Calculation Agent (all such Basket Constituents, if any, being for the purposes of this definition only, "Equal Performance Basket Constituents", and each being an "Equal Performance Basket Constituent") then:

- (a) a Basket Constituent, if any, with a higher Performance than any such Equal Performance Basket Constituent, shall have a higher Ranking than any such Equal Performance Basket Constituent;
- (b) a Basket Constituent, if any, with a lower Performance than any such Equal Performance Basket Constituent, shall have a lower Ranking than any such Equal Performance Basket Constituent; and
- (c) subject to paragraphs (a) and (b) above, as amongst themselves, all such Equal Performance Basket Constituents shall be assigned such Ranking as the Calculation Agent may determine in its sole and absolute discretion

Reference Level means, in respect of a certain day, subject to any adjustments in accordance with §6 of the General Conditions, the level of the Underlying quoted by the Reference Source of the Underlying in relation to the 3rd calendar month before the month in which the Reference Level was determined on such day by the Calculation Agent. If a Market Disruption occurs on such day, the Calculation Agent determines the Reference Level for the Underlying by calculating the Replacement Reference Level for the Underlying as defined under Replacement Reference Level.

Replacement Reference Level means, in respect of any day, subject to any adjustments in accordance with §6 of the General Conditions, the value calculated as follows:

$$\text{Replacement Reference Level} = \text{Level of Underlying}_{p-15} \times \left(\frac{\text{Level of Underlying}_{p-4}}{\text{Level of Underlying}_{p-16}} \right)$$

Product No. N33: Stability Note

[Insert following product-specific provisions for Stability Notes:

Cash Amount (a) If on any Observation Date the Daily Performance Level for such Observation Date (DPL_t) is lower than $-[10][]$ per cent. (for the avoidance of doubt, and for example, $-[11][]$ per cent. shall be considered lower than $-[10][]$ per cent), an amount determined by the Calculation Agent in accordance with the following formula:

$$\text{NominalAmount} \times \{100\% + [[10][] \times (DPL_t + [10][]\%)\}$$

subject to a minimum of zero and a maximum of the Nominal Amount.

(b) Otherwise an amount equal to the Nominal Amount

Daily Performance Level Means, in respect of any Observation Date, an amount determined by the Calculation Agent in accordance with the following formula (expressed as a percentage):

$$\left(\frac{\text{Underlying}_t}{\text{Underlying}_{\mathcal{G}(t-1)}} \right) - 1$$

Where:

"Underlying," means the Reference Level on such Observation Date; and

"Underlying_(t-1)" means the Reference Level on the Observation Date immediately preceding such Observation Date, or where there is no preceding Observation Date, the preceding Trading Day on which no Market Disruption occurred.

Coupon Payment If the Daily Performance Level is lower than $-[10][]$ per cent. on any Observation Date during any Coupon Period, such Coupon Period shall end on (but exclude) such Observation Date, and such Coupon Period shall be the Final Coupon Period and there shall be no further Coupon Periods.

[Further settlement provisions if CNY is the Settlement Currency:

- (1) If, pursuant to these Product Terms, the Settlement Currency is Chinese renminbi ("**CNY**"), subject to current tax or other laws and regulations and in deviation from §3(3) of the General Conditions, the Issuer will pay amounts due by means of a transfer to an account denominated in CNY and held by the recipient of the payment at a bank in Hong Kong.
- (2) §3(2) of the General Conditions does not apply in this case.
- (3) If the Issuer is not able to make the payments due under the Securities entirely in CNY because of a CNY Currency Event, the Issuer can (i) postpone these payments, (ii) make these payments in the Relevant Currency instead of in CNY or (iii) redeem the Securities early.
 - (i) **Postponement of Payment.** Notwithstanding any provisions to the contrary, if the Issuer is not able to make the payments due under the Securities in Hong Kong in full in CNY at maturity because of a CNY Currency Event, subject to early redemption in its reasonable discretion, it may (i) postpone the relevant payment to the [insert number] Business Day after the day on which the CNY Currency Event has ceased to exist unless the CNY Currency Event persists for [insert number] consecutive calendar days after the relevant due date or (ii) make such payments on the due date (in full or in part) in the Relevant Currency in the amount of the Relevant Currency Equivalent of the respective CNY amount.

If the Issuer decides to postpone the payment and the CNY Currency Event persists for more than [insert number] consecutive calendar days after the relevant due date, then the Issuer makes the relevant payment in the Relevant Currency in the amount of the Relevant Currency Equivalent of the respective CNY amount on the Business Day following the [insert number] calendar day after the relevant due date.

If the Existence of a CNY Currency Event is determined, then by 2 p.m. Hong Kong time on the Rate Determination Date, the Issuer will (i) inform the Calculation Agent and (ii) notify the Securityholders in accordance with §16 of the General Conditions of the occurrence of a CNY Currency Event and the decision of the Issuer to postpone the payments or to make the payments in the Relevant Currency. In these cases, the Issuer will arrange for this notice to be given to the Securityholders as soon as reasonably possible in accordance with §16.
 - (ii) **Payments in the Relevant Currency.** If the Issuer decides to make the payments in the Relevant Currency, then the payments will be made to the Securityholders in the Relevant Currency Equivalent of the relevant CNY amount. The obligations of the Issuer under the relevant Security in respect of this payment are deemed to be fulfilled by a payment made in accordance with this provision.
 - (iii) **Redemption.** If the Issuer decides to redeem the Securities, the Securities will be redeemed with a notice period of not less than 10 and not more than 30 days by an (irrevocable)

V. PRODUCT TERMS

notice to the Securityholders in accordance with §16. The Issuer may redeem all the Securities, but not some only. The Securities are redeemed immediately after the end of the notice period. In the case of redemption, each Security will be redeemed at the Relevant Currency Equivalent of the fair market price including the Relevant Currency Equivalent of any interest accrued up to (but excluding) the date of redemption.

- (4) Unavailability of the Spot Rate If (a) the Issuer decides to make the payments in the Relevant Currency and (b) it proves impossible to obtain the Spot Rate on the Rate Determination Date, the Issuer in its reasonable discretion may (i) postpone the Rate Determination Date until the next Business Day on which the Spot Rate is available, unless the unavailability of the Spot Rate persists for **[insert number]** consecutive calendar days after the day which would have been the Rate Determination Date if the Spot Rate had been available ("**Original Rate Determination Date**") or (ii) instruct the Calculation Agent to calculate the Spot Rate taking account of all the information deemed appropriate, including price information obtained from the foreign exchange market for CNY without physical delivery in Hong Kong or elsewhere and the Relevant Currency/CNY rate of exchange on the domestic foreign exchange market of the People's Republic of China.

If the Issuer decides to postpone the Rate Determination Date and the unavailability persists until the **[insert number]** consecutive calendar day after the Original Rate Determination Date, then (a) the Rate Determination Date is the first Business Day following the **[insert number]** consecutive calendar day after the Original Rate Determination Date and (b) the Calculation Agent determines the Spot Rate in accordance with the method explained under (ii) in the previous sentence. In the event of a postponement of the Rate Determination Date, the relevant settlement date for payments is postponed to the second Rate Determination Business Day after the Rate Determination Date.

After the Issuer has determined that the Spot Rate is unavailable on the Rate Determination Date, (i) it will immediately inform the Calculation Agent and (ii) notify the Securityholders in accordance with §16 of the General Conditions of the unavailability of the Spot Rate and the decision by the Issuer to postpone the Rate Determination Date or to instruct the Calculation Agent to determine the Spot Rate. In these cases, the Issuer will arrange for this notice to be given to the Securityholders as soon as reasonably possible in accordance with §16 of the General Conditions.

- (5) For the purposes of these Product Terms, the following terms have the following meanings:

"CNY Trader" means an independent, internationally recognised foreign exchange trader who is active in the CNY exchange market in Hong Kong, as determined in each case in the reasonable discretion of the Calculation Agent.

"CNY Currency Event" means Inconvertibility, Non-transferability and Illiquidity.

"Hong Kong" means the Hong Kong Special Administrative Region of the People's Republic of China.

"Illiquidity" means that the general CNY exchange market in Hong Kong becomes illiquid (without this being due to Inconvertibility or Non-transferability), as determined in each case by the Calculation

V. PRODUCT TERMS

Agent in good faith and in a commercially reasonable manner following consultation with two CNY Traders and that, despite reasonable efforts, the Issuer is consequently unable to obtain sufficient CNY in order to satisfy in full its obligation to make payments under the Securities.

"Inconvertibility" means that the Calculation Agent (in good faith and in a commercially reasonable manner) determines that it is impossible or impracticable for it despite reasonable efforts to convert any amount due under the Securities on the general CNY exchange market in Hong Kong (other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority, unless such law, rule or regulation is enacted after the relevant Issue Date of the Securities and it is impossible or impracticable despite reasonable efforts for the Issuer, due to an event beyond its control, to comply with such a law, rule or regulation).

"Non-transferability" means that the Calculation Agent (in good faith and in a commercially reasonable manner) determines that it is impossible or impracticable for it despite reasonable efforts to transfer CNY between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong (other than where such impossibility or impracticability is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority, unless such law, rule or regulation is enacted after the relevant Issue Date of the Securities and it is impossible or impracticable despite reasonable efforts for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation).

"Spot Rate" means, in respect of a Rate Determination Date, the Relevant Currency/CNY spot exchange rate for the purchase of the Relevant Currency with CNY on the over-the-counter CNY exchange market in Hong Kong, as determined in each case by the Calculation Agent at around 11.00 a.m. Hong Kong time on such date in good faith and in a commercially reasonable manner.

"Rate Determination Business Day" means a day (other than a Saturday or Sunday) on which the commercial banks in Hong Kong, Peking [and []] are open for ordinary business (including dealings in foreign exchange).

"Rate Determination Date" means the day which, subject to an adjustment, is two Rate Determination Business Days before the due date for payment of the relevant amount.

"Governmental Authority" means any de facto or de jure state body (or any agency or institution thereof), any court, any tribunal, any administrative or other governmental authority of Hong Kong or any other (private or public) entity (including the central bank) charged with the regulation of the financial markets of Hong Kong.

"Relevant Currency Equivalent" of a CNY amount means the relevant CNY amount converted into the Relevant Currency using the Spot Rate for the relevant Rate Determination Date, as determined in each case by the Calculation Agent at around 11.00 a.m. Hong Kong time on the Rate Determination Date and in each case promptly notified to the Issuer.

- (6) References. References to **"Hong Kong dollar"**, **"HKD"** and **"HK\$"** are to the legal currency of Hong Kong, and references to **"renminbi"**, **"RMB"** and **"CNY"** are to the legal currency of the People's Republic of China (mainland China) excluding Hong Kong,

6. Costs/Sales commission

Price determination by the Issuer

- Both the Initial Issue Price of the [[•] Certificate] [[•] Warrant] [[•] Note] [[•] Reverse Convertible Note] and the buy and sell prices quoted by the *Issuer* during its term are based on the *Issuer's* internal pricing models. In particular, the prices contain a margin which the Issuer sets at its absolute discretion and which covers, *inter alia*, the costs for structuring the security, the Issuer's risk protection and, where applicable, for sales (refunds / inducements).

Costs of purchase and sale

- On agreement on a fixed or determinable price (fixed price transaction), fees and expenses for the purchase or sale of the [[•] Certificate] [[•] Warrant] [[•] Note] [[•] Reverse Convertible Note], including external costs, are not billed separately; these are covered by the fixed price. Otherwise (commission transaction), a commission of routinely up to 1 per cent. of the relevant price (minimum of EUR 30) for purchase or sale through Deutsche Bank AG or Deutsche Bank Privat- und Geschäftskunden AG and any further fees and charges (e.g. stock market fees) are charged separately. When the purchase or sale is conducted through another bank, the respectively agreed fees apply.
- Subscription surcharge: [] The subscription surcharge is payable by clients to their own bank (principal bank).]

Recurring costs

- [Management fees: []]
- Custody expenses will be charged in the amount agreed with Bank.

[Reimbursement/Inducement

- [Placement fee: [] [The Issuer pays the placement fee from the issue and/or sales proceeds as a one-off, volume-based sales commission to the bank that sold the *Security* to the client (principal bank) or grants the latter a corresponding discount on the [Initial Issue Price (without a subscription surcharge)] [the current selling price]. If Deutsche Bank AG is both the Issuer and principal bank with respect to the sale of its own certificates/bonds, Deutsche Bank AG's distributing unit will be credited with the relevant amount internally.]]
- [Trailer fee (the Issuer pays this to the principal bank from the issue proceeds as recurring sales commission): []]

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

A. GENERAL TAXATION INFORMATION

1. Introduction

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of transfer of the Securities in addition to the issue price or purchase price of the Securities. The Issuer assumes no responsibility for withholding taxes at source.

Transactions involving the Securities (including purchases, transfers, exercise or non-exercise or redemption, the accrual or receipt of any interest payable on the Securities and the death of a holder of any Securities) may have tax consequences for holders and potential purchasers which may depend, amongst other things, upon the tax status of the holder or potential purchaser and may relate to – amongst other taxes and duties – stamp duty, stamp duty reserve tax, income tax, corporation tax, trade tax, capital gains tax, withholding tax, solidarity surcharge and inheritance tax.

§10 (Taxation) in the General Conditions should be considered carefully by all potential purchasers of any Securities.

Potential purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of transactions involving the Securities.

The proposed financial transactions tax (FTT)

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**").

However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation. Additional EU Member States may decide to participate. Therefore, it is currently uncertain whether and when the proposed FTT will be enacted by the participating EU Member States and when it will take effect with regard to dealings in the Securities.

Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

2. US withholding tax pursuant to section 871(m) of the U.S. Internal Revenue Code of 1986

Section 871(m) of the U.S. Internal Revenue Code of 1986 and the provisions issued thereunder stipulate that for certain financial instruments (such as for Securities) a withholding tax (of up to 30% and potentially subject to the application of double taxation treaties) shall be imposed if the payment (or amount deemed a payment) on the financial instruments is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States.

Pursuant to these U.S. provisions, certain payments (or amounts deemed payments) under certain equity-linked instruments that refer to the performance of U.S. equities or certain indices that contain U.S. equities, as an underlying or a basket component, shall be treated as "**dividend equivalents**" and shall be subject to

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

U.S. withholding tax of 30% (or, potentially, a lower double tax treaty rate). **The aforementioned tax liability shall apply even if pursuant to the terms of the Securities no actual dividend-related amount is paid or an adjustment is made and thus investors may only be able to determine with difficulty or not at all any connection between the dividend related amount and the payments to be made in respect of the securities.**

It is thus possible that withholding under Section 871(m) may apply to the Securities (making such a Security an "**871(m) Security**"), particularly if an underlying reference security makes payments of dividends from sources within the United States. In such case, U.S. withholding tax may be due, pursuant to the relevant U.S. provisions, on payments (or amounts deemed payments) made in respect of Securities issued (or whose features have changed significantly) on or after 1 January 2017 (however, the implementation rules issued for the U.S. provisions stipulate that the tax liability will be phased in, not commencing until 1 January 2019 for some securities).

With respect to Securities that provide for net dividend reinvestment in respect of either an underlying U.S. security or an index that includes U.S. securities, all payments on the Securities that reference such U.S. securities or an index that includes U.S. securities are calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the U.S. Internal Revenue Code of 1986) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The Final Terms may indicate whether the Issuer has determined that Securities are 871(m) Securities. If an amount of interest, principal or other payments on the Securities is deducted or withheld, neither the Issuer nor any paying agent or other person pursuant to the terms of the Securities would be obliged to pay additional amounts to Securityholders as a result of the deduction or withholding, in which case Securityholders would thus potentially receive less interest or principal than expected. In the worst case, the payments to be made in respect of the Security would be reduced to zero or the amount of tax due may even exceed the payments to be made in respect of the Security (for example, if the Securities were to expire worthless and no payment was made to investors).

3. Belgium

The following is a general description of certain Belgian tax considerations relating to an investment in the Securities. It does not purport to be a complete analysis of all tax considerations relating to the Securities. Prospective purchasers of the Securities should consult their tax advisers as to the consequences under the tax laws of the country of which they are resident for tax purposes and the tax laws of Belgium of acquiring, holding and disposing of the Securities. This overview is based upon the law as in effect on the date of this prospectus and is subject to any change in law that may take effect after such date.

For Belgian tax purposes, periodic interest income and amounts paid by the Issuer in excess of the issue price (whether or not on the maturity date) are qualified and taxable as "interest". In addition, if the Securities qualify as fixed income securities within the meaning of article 2, §1, 8° of the Belgian Income Tax Code of 1992, in case of a realisation of the Securities between two interest payment dates, an income equal to the pro rata of accrued interest corresponding to the holding period is also taxable as interest.

Any payment of interest (as defined by Belgian tax law) on the Securities made through a paying agent or other financial intermediary in Belgium will in principle be subject to Belgian withholding tax on the gross amount of the interest, currently at the rate of 30 per cent.

If the repurchase, redemption or exercise is in full or in part settled by means of a delivery of securities or other assets by the Issuer, interest includes any positive difference between the market value of those assets on the date of their payment or attribution and the initial issue price of the Securities. In the event interest is paid in the form of delivery of securities, the market value of those securities will be deemed at least equal to their closing stock price on a Belgian or foreign regulated market on the date prior to the date of the payment or attribution) as published in the specialised press and/or specialised electronic sources.

For Belgian tax purposes, if interest is in a foreign currency, it is converted into euro on the date of payment or attribution.

On 25 January 2013, the Belgian tax authorities issued a circular letter on the Belgian tax treatment of income from structured securities characterised by an uncertain return on investment due to the variation of

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

the coupons or the repayment terms at maturity, such as securities whose return is linked to the evolution of underlying products (the **Structured Securities**). According to the circular letter, the transfer of structured securities to a third party (other than the issuer) results in taxation as interest income of the "pro rata interest", calculated on an unclear formulae. In addition, any amount paid in excess of the initial issue price upon redemption or repayment of the structured securities is considered as interest for Belgian tax purposes. It is highly debatable whether the circular letter is in line with Belgian tax legislation. Furthermore, it is unclear whether the Belgian tax authorities will seek to apply the principles set out in the circular letter to the Securities.

It is assumed that any gains realised upon redemption or repayment of Structured Securities by the Issuer will indeed be viewed as interest by the Belgian tax authorities (and any such gains are therefore referred to as "interest" for the purposes of the following paragraphs), but that the effective taxation of the "pro rata interest" in case of a sale of Structured Securities to a third party (i.e. other than the Issuer) would not be possible, on the basis that it is currently impossible to determine the amount of the "pro rata interest".

Taxation applicable to individuals resident in Belgium

Belgian resident individuals, i.e., individuals who are subject to Belgian personal income tax, who are holding the Securities as a private investment are normally subject to the following tax treatment with regard to the Securities in Belgium. Other rules may be applicable in certain specific cases, especially when the investors hold the Securities within the framework of their professional activity, or when transactions regarding the Securities fall outside the scope of the normal management of their own private estate.

Any periodic coupon payment as well as any cash payment and/or delivery of a physical delivery amount made by the Issuer in excess of the issue price (upon full or partial redemption, whether or not at maturity, or upon purchase by the issuer) will be treated as interest for Belgian tax purposes and will be subject to a Belgian withholding tax of 30 per cent. (calculated on the interest received after deduction of any non-Belgian withholding taxes) if collected through a paying agent or other financial intermediary established in Belgium. If Belgian withholding tax has been withheld, the income will not be taxed further, and need not be reported in the personal income tax return.

Nevertheless, Belgian resident individuals may elect to declare interest on the Securities in their personal income tax return if beneficial from a tax perspective. Also, if the interest is paid outside Belgium without the intervention of a Belgian paying agent or other financial intermediary, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return. Interest income which is declared this way will in principle be taxed at a flat rate of 30 per cent. (or at the relevant progressive personal income tax rate(s), taking into account the taxpayer's other declared income, whichever is more beneficial) and no local surcharges will be due. The Belgian withholding tax levied may be credited against the income tax liability.

If Belgian resident individuals dispose of Securities (other than Structured Securities) to a third party, they are currently not liable to Belgian income tax on the capital gains (if any) realised upon such disposal provided that (i) the Securities have not been used for their professional activity and (ii) the capital gain is realised within the framework of the normal management of their private estate and (iii) the capital gain does not qualify as the *pro rata* of accrued interest (as defined above). If the capital gain qualifies as the *pro rata* of accrued interest, such interest will be taxable as set out above. Capital losses realised upon disposal of Securities (other than Structured Securities – see below) held as a non-professional investment are in principle not tax deductible.

If Belgian resident individuals dispose of Structured Securities to a third party, they are currently not liable to Belgian income tax, provided that the Structured Securities have not been used for their professional activity and that the capital gain is realised within the framework of the normal management of their private estate. Capital losses realised upon disposal of the Structured Securities held as a non-professional investment are in principle not tax deductible.

Taxation applicable to Belgian corporations

Companies that are subject to Belgian corporate tax are normally subject to the tax treatment described below with regard to the Securities.

Interest received by Belgian resident companies on the Securities will be subject to Belgian corporate income tax at the applicable corporate income tax rates (the ordinary corporate income tax rate is currently 29.58 per cent., but a lower rate of 20.40 per cent. applies to the first EUR 100,000 of taxable profits realized

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

by small companies, subject to certain strict conditions). If the income has been subject to a foreign withholding tax, a foreign tax credit will be applied on the Belgian tax due. For interest income, the foreign tax credit is generally (subject to any tax treaty provisions) equal to a fraction where the numerator is equal to the foreign tax and the denominator is equal to 100 minus the rate of the foreign tax, up to a maximum of 15/85 of the net amount received (subject to some further limitations). Capital losses are in principle tax deductible.

The income which is treated as interest for Belgian tax purposes is subject to a Belgian withholding tax of 30 per cent. if it is collected through a paying agent or other financial intermediary established in Belgium. An exemption of withholding tax may apply if certain formalities are complied with. For zero or capitalisation bonds, an exemption will only apply if the Belgian company and the Issuer are associated companies within the meaning of article 105, 6° of the Royal Decree of 27 August 1993 implementing the Belgian Income Tax Code of 1992.

Belgian withholding tax, if due, can be offset against the investor's corporate tax, but only in proportion to the period during which the company held the Securities in full legal ownership.

Capital gains realised on the sale of the Securities are taxable, irrespective of whether such Securities relate to shares or other assets or indices, while capital losses are in principle tax deductible.

Taxation applicable to entities subject to the legal entities' tax

Belgian non-profit legal entities, i.e., entities that are subject to the Belgian tax on legal entities, are subject to the following tax treatment with respect to the Securities in Belgium.

Any periodic coupon payment as well as any cash payment and/or delivery of a physical delivery amount made by the Issuer in excess of the issue price (upon full or partial redemption, whether or not at maturity, or upon purchase by the Issuer) will be subject to a Belgian withholding tax of 30 per cent. if collected through a paying agent or other financial intermediary established in Belgium. If Belgian withholding tax has been withheld, the interest will not be taxed further. Holders of the Securities who collect the payment abroad without Belgian withholding tax are required to declare this income and to pay the withholding tax on their own initiative.

Capital gains realised on the sale of the Securities to third parties on the secondary market before maturity are generally not taxable for Belgian non-profit legal entities, unless the capital gains qualify as the pro rata of accrued interest from the disposal of Securities other than Structured Securities (as defined above). If the capital gain qualifies as the pro rata of accrued interest, such interest will be taxable as set out above. Capital losses realized on a sale of the Securities are not tax deductible.

Taxation applicable to Organisations for Financing Pensions ("OFP")

Income from the Securities, including capital gains realized on a sale or settlement of the Securities, derived by Organisations for Financing Pensions will be exempt from Belgian corporate income tax. Subject to certain conditions, any Belgian withholding tax levied on the interest will be fully creditable against any corporate income tax due and any excess amount will in principle be refundable.

Taxation applicable to non-Belgian residents

Investors who are non-residents of Belgium for Belgian tax purposes and are not holding the Securities through a Belgian establishment and do not invest the Securities in the course of their Belgian professional activity will in principle not incur or become liable for any Belgian tax on income or capital gains (save as the case may be, in the form of withholding tax).

Any periodic coupon payment as well as any cash payment and/or delivery of a physical delivery amount made by the Issuer in excess of the issue price (upon full or partial redemption, whether or not at maturity, or upon purchase by the Issuer) will be subject to a Belgian withholding tax of 30 per cent. if collected through a paying agent or other financial intermediary established in Belgium, unless the investor is resident in a country with which Belgium has concluded a double taxation agreement and delivers the requested affidavit. If the income is not collected through a financial institution or other intermediary established in Belgium, no Belgian withholding tax is due.

Non-resident investors that do not hold the Securities through a Belgian establishment can also obtain an exemption of Belgian withholding tax on interest from the Securities paid through a Belgian credit institution, a Belgian stock market company or a Belgian-recognized clearing or settlement institution, provided that

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

they deliver an affidavit to such institution or company confirming (i) that the investors are non-residents of Belgium, (ii) that the Securities are held in full ownership or in usufruct and (iii) that the Securities are not used in the performance of a professional activity in Belgium.

Non-resident individuals who do not use the Securities for professional purposes and who have their fiscal residence in a country with which Belgium has not concluded a tax treaty or with which Belgium has concluded a tax treaty that confers the authority to tax capital gains on the Securities to Belgium, will be subject to tax in Belgium if the capital gains are obtained or received in Belgium and (i) are deemed to be realized outside the scope of the normal management of the individual's private estate; or (ii) qualify as the pro rata of accrued interest from the disposal of Securities other than Structured Securities (as defined above). Capital losses are generally not deductible.

Inheritance duties

No Belgian inheritance duties will be due in respect of the Securities if the deceased holder of the Securities was not a Belgian resident at the time of his or her death, even if the Securities were held in custody in Belgium.

Tax on stock exchange transactions

Secondary market trades in respect of the Securities may give rise to a tax on stock exchange transactions (*taks op beursverrichtingen / taxe sur les opérations de bourse*) of 0.12 per cent. for debt instrument or 0.35 per cent. for other securities if (i) they are carried out through a financial intermediary established in Belgium, or (ii) deemed to be carried out in Belgium, which is the case if the order is directly or indirectly made to a professional intermediary established outside of Belgium, either by private individuals with habitual residence in Belgium, or legal entities for the account of their seat or establishment in Belgium. The tax is due both on the sale and the acquisition leg of the transaction. The amount of the tax, however, is currently capped at EUR 1,300 for transactions involving debt instruments or EUR 1,600 for transactions involving other securities, per party and per transaction, and various types of investors (including credit institutions, insurance companies, pension funds and all non-residents of Belgium) are exempted from this tax. A separate tax is due by each party to the transaction, and both taxes are collected by the professional intermediary. However, if the intermediary is established outside of Belgium, the tax will in principle be due by the ordering private individual or legal entity, unless that individual or entity can demonstrate that the tax has already been paid. Professional intermediaries established outside of Belgium can, subject to certain conditions and formalities, appoint a Belgian responsible representative for tax purposes, which will be liable for the tax on stock exchange transactions in respect of the transactions executed through the professional intermediary.

The European Commission has published a proposal for a Directive for a common financial transactions tax (the "FTT"). The proposal currently stipulates that once the FTT enters into force, the participating Member States shall not maintain or introduce taxes on financial transactions other than the FTT (or VAT as provided in the Council Directive 2006/112/EC of November 28, 2006 on the common system of value added tax). For Belgium, the tax on stock exchange transactions should thus be abolished once the FTT enters into force. The proposal is still subject to negotiation between the participating Member States and therefore may be changed at any time.

Tax on Security Accounts

The tax on security accounts is in principle due by the financial intermediary established or located in Belgium if (i) the investor's share in the average value of the qualifying financial instruments held on one or more securities accounts with the intermediary amounts to EUR 500,000 or more or (ii) the investor instructed the financial intermediary to levy the tax on securities accounts due (e.g. in case such investor holds qualifying financial instruments on several securities accounts held with multiple intermediaries of which the average value of each of these accounts does not amount to EUR 500,000 or more but of which the investor's share in the total average value of these accounts exceeds EUR 500,000). If the tax is not paid by the financial intermediary, such tax on securities accounts has to be declared and is due by the investor himself, unless the investor provides evidence that the tax has already been withheld, declared and paid by an intermediary which is not established or located in Belgium. In that respect, intermediaries incorporated or established outside of Belgium could appoint a tax on securities accounts responsible representative in Belgium, subject to certain conditions and formalities. Such representative will then be liable towards the Belgian Treasury for the tax on securities accounts due and for complying with certain reporting obligations in that respect.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

4. France

The following is an overview based on the laws and regulations in full force and effect in France as at the date of this Base Prospectus, which may be subject to change in the future, potentially with retroactive effect. Investors should be aware that the comments below are of a general nature and do not constitute tax advice and should not be understood as such. Prospective investors are therefore advised to consult their own qualified advisors so as to determine, in the light of their individual situation, the tax consequences of the subscription, purchase, holding, redemption or disposal of the Securities.

Withholding taxes

The following is an overview addressing only the French compulsory withholding tax treatment of income arising from the holding of the Securities. This overview is prepared on the assumption that the Issuer is not and will not be a French resident for French tax purposes and the Securities (and any transactions in connection with the Securities) are not and will not be attributed or attributable to a French branch, permanent establishment or other fixed place of business of the Issuer in France.

All payments by the Issuer in respect of the Securities will be made free of any compulsory withholding or deduction for or on account of any income tax imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

However, pursuant to Article 125 A I of the French *Code général des impôts* and subject to certain exceptions, interest and assimilated income paid by a paying agent (*établissement payeur*) established in France and received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12,8% withholding tax (which is deductible from their personal income tax liability in respect of the year in which the payment has been made). Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding at a global rate of 17.2% on such interest and assimilated income.

Transfer tax and other taxes

The following may be relevant in connection with Securities which may be settled or redeemed by way of physical delivery of certain listed shares (or certain assimilated securities) issued by an issuer located in France or securities representing such shares (or assimilated securities).

Pursuant to Article 235 *ter* ZD of the French *Code général des impôts*, a financial transaction tax (the **French FTT**) applies to any acquisition for consideration, resulting in a transfer of ownership, of (i) an equity security (*titre de capital*) within the meaning of Article L 212-1 A of the French *Code monétaire et financier* or an assimilated equity security (*titre de capital assimilé*) within the meaning of Article L 211-41 of the French *Code monétaire et financier*, admitted to trading on a recognised stock exchange when the said security is issued by a company whose registered office is situated in France and whose market capitalisation exceeds EUR1 billion on 1 December of the year preceding the year in which the imposition occurs (the **French Shares**) or (ii) a security (*titre*) representing French Shares (irrespective of the location of the registered office of the issuer of such securities). The rate of the French FTT is 0.3% of the acquisition value of the French Shares (or securities representing the French Shares). There are a number of exemptions from the French FTT and prospective investors should revert to their counsel to identify whether they can benefit from them.

If the French FTT applies to an acquisition of shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1% to the sale of shares issued by a company whose registered office is situated in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

5. Germany

The following is a general discussion of certain German tax consequences of the acquisition, holding and disposal of Securities. It does not purport to be a comprehensive description of all German tax considerations that may be relevant to a decision to purchase Securities, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This overview is based on the tax laws of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

As each series or tranche of Securities may be subject to a different tax treatment due to the specific terms of such series or tranche as set out in the respective Final Terms, the following section only provides some

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

general information on the possible tax treatment. Tax consequences that may arise if an investor combines certain series of Securities so that he or she derives a certain return are not discussed herein.

The law as currently in effect provides for a reduced tax rate for certain investment income. Please note that the coalition agreement between the German Christdemocratic Party and the German Socialdemocratic Party for the formation of a new German federal government provides that the flat tax regime shall be partially abolished for certain capital investment income. The coalition agreement further provides that the solidarity surcharge shall be abolished in stages provided that the individual income does not exceed certain thresholds. There is however no draft bill available yet and a lot of details are hence still unclear. That means however that income received by Holders holding the Securities as non-business assets may be taxed at individual progressive income tax rates of up to 45% in the future (plus a 5.5% solidarity surcharge thereon, unless abolished or reduced in the future, and church tax, if applicable to the individual Holder). However, it is still unclear, whether, how and when the current discussion may result in any legislative change.

Prospective purchasers of the Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposal of the Securities, including the effect of any state, local or church taxes, under the tax laws of Germany and each country of which they are residents or whose tax laws apply to them for other reasons.

Tax Residents

The section "Tax Residents" refers to persons who are tax residents of Germany (*i.e.* persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany). "Individual Securityholder" means an individual that is considered the owner of a Security for German tax purposes and whose Security forms part of his or her non-business assets (*Privatvermögen*).

Withholding tax on ongoing payments and capital gains

Ongoing payments received by an Individual Securityholder will be subject to German withholding tax (*Abgeltungsteuer*) if the Securities are kept or administered in a custodial account with a German branch of a German or non-German bank or financial services institution, a German securities trading company or a German securities trading bank (each, a **Disbursing Agent**, *auszahlende Stelle*). The tax rate is 25 per cent. (plus solidarity surcharge at a rate of 5.5 per cent. thereon, the total withholding being 26.375 per cent.). If the Individual Securityholder is subject to church tax, a church tax surcharge will also be withheld unless the Individual Securityholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*) in which case the Individual Securityholder will be assessed to church tax.

The same treatment applies to capital gains from the disposal, redemption, repayment, assignment or (under certain circumstances) settlement of Securities (*i.e.* the difference between the proceeds from the disposal after deduction of expenses directly related to the disposal and the cost of acquisition) derived by an Individual Securityholder provided the Securities have been kept or administered in a custodial account with the same Disbursing Agent since the time of their acquisition. If similar Securities kept or administered in the same custodial account were acquired at different points in time, the Securities first acquired will be deemed to have been sold first for the purposes of determining the capital gains. If the Issuer exercises the right to substitute the Issuer of the Securities, the substitution might, for German tax purposes, be treated as an exchange of the Securities for new Securities issued by the Substitute. Such substitution could result in the recognition of a taxable gain or loss for the respective investors.

Where Securities are issued in a currency other than Euro any currency gains or losses are part of the capital gains. In case of a physical settlement of certain Securities which grant the Issuer or the Individual Securityholder the right to opt for a physical delivery of a predetermined number of underlying securities instead of a (re)payment of the Securities' nominal amount, generally no withholding tax has to be withheld by the Disbursing Agent as such exchange of the Securities into the predetermined number of underlying securities does not result in a taxable gain or loss for the Individual Securityholder. Under these circumstances acquisition costs of the Securities are regarded as acquisition costs of the underlying securities received by the Individual Securityholder upon physical settlement. However, withholding tax will then generally apply to any gain from the disposition of the securities received in exchange for the Securities. In other cases, e.g. where the security has no nominal amount or the Underlying is not a Security, the physical settlement may trigger withholding tax that will be payable by the Individual Securityholder to the Disbursing Agent.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

To the extent the Securities have not been kept or administered in a custodial account with the same Disbursing Agent since the time of acquisition, upon the disposal, redemption, repayment or assignment withholding tax applies at a rate of 26.375 per cent. (including solidarity surcharge, plus church tax, if applicable) to 30 per cent. of the disposal proceeds (including interest accrued on the Securities and paid separately (**Accrued Interest**, *Stückzinsen*), if any), unless the current Disbursing Agent has been notified of the actual acquisition costs of the Securities by the previous Disbursing Agent or by a statement of a bank or financial services institution within the European Economic Area or from certain other countries (e.g. Switzerland or Andorra).

In computing any German tax to be withheld, the Disbursing Agent may - subject to certain requirements and restrictions - deduct from the basis of the withholding tax negative investment income realised by the Individual Securityholder via the Disbursing Agent (e.g. losses from sale of other securities with the exception of shares). The Disbursing Agent may also deduct Accrued Interest on the Securities or other securities paid separately upon the acquisition of the respective security by the Individual Securityholder. In addition, subject to certain requirements and restrictions the Disbursing Agent may credit foreign withholding taxes levied on investment income in a given year regarding securities held in the custodial account with the Disbursing Agent to the extent such foreign withholding taxes cannot be reclaimed in the respective foreign country.

In addition, for Individual Securityholders an annual allowance (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for married couples and registered lifetime partnerships filing jointly) applies to all investment income received in a given year. Upon the Individual Securityholder filing an exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent, the Disbursing Agent will take the allowance into account when computing the amount of tax to be withheld. No withholding tax will be deducted if the Securityholder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the competent local tax office.

German withholding tax will not apply to gains from the disposal, redemption, repayment or assignment of Securities held by a corporation as Securityholder while ongoing payments, such as interest payments under a coupon, are subject to withholding tax. Losses and foreign taxes are not taken into account when calculating the withholding tax. The same rules apply where the Securities form part of a trade or business (*Betriebsvermögen*) or are related to income from letting and leasing of property subject to further requirements being met.

Taxation of current income and capital gains

The personal income tax liability of an Individual Securityholder deriving income from capital investments under the Securities is, in principle, settled by the tax withheld. To the extent withholding tax has not been levied, such as in case of Securities kept in custody abroad, the Individual Securityholder must report his or her income and capital gains derived from the Securities on his or her tax return and then will also be taxed at a rate of 25 per cent. (plus solidarity surcharge thereon and church tax, where applicable). If the withholding tax on a disposal, redemption, repayment or assignment has been calculated from 30 per cent. of the disposal proceeds (rather than from the actual gain), an Individual Securityholder may and in case the actual gain is higher than 30 per cent. of the disposal proceeds must also apply for an assessment on the basis of his or her actual acquisition costs. Further, an Individual Securityholder may request that all investment income of a given year is taxed at his or her lower individual tax rate based upon an assessment to tax with any withholding tax withheld in excess of the tax assessed being refunded. In each case, the deduction of expenses (other than transaction costs) on an itemized basis is disallowed. The utilization of losses from the disposal or redemption of Securities may be restricted. According to the tax authorities losses from a worthless expiration of financial instruments not qualifying as options or the sale at a price not covering the disposal costs may be non-deductible altogether.

Where Securities form part of a trade or business or the income from the Securities qualifies as income from the letting and leasing of property the withholding tax, if any, will not settle the personal or corporate income tax liability. Where Securities form part of the property of a trade or business, each year the part of the difference between the issue or purchase price and the redemption amount (if such amount is fixed at the time of the acquisition) attributable to such year as well as interest accrued must be taken into account as interest income. The respective Securityholder will have to report income and related (business) expenses on the tax return and the balance will be taxed at the Securityholder's applicable tax rate. Withholding tax levied, if any, will be credited against the personal or corporate income tax of the Securityholder. Where Securities form part of the property of a German trade or business the current income and the proceeds

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

from the disposal, redemption, settlement, repayment or assignment of the Securities may also be subject to German trade tax.

Where according to an applicable accounting standard Securities include an embedded derivative the Noteholder may have to account for a receivable and a derivative. The deduction of losses from derivatives may be ring-fenced as follows. Generally the deductibility of capital losses from Securities which qualify for tax purposes as forward/futures transaction is limited. These losses may only be applied against profits from other forward/futures transactions derived in the same or, subject to certain restrictions, the previous year. Otherwise these losses can be carried forward indefinitely and, within certain limitations, applied against profits from forward/futures transactions in subsequent years. This generally does not apply to forward/futures transactions hedging risks from the Securityholder's ordinary business, unless the underlying is a stock in a corporation. Further special rules apply to credit institutions, financial services institutions and finance companies within the meaning of the German Banking Act.

German Investment Tax Act

If a Security (in particular a Security which is physically settled by delivery of fund shares, fund units or similar instruments or a Security which replicates the performance of an investment fund) was considered to qualify as an investment fund unit within the meaning of the German Investment Tax Act (*Investmentsteuergesetz*), tax consequences different from those discussed above would apply. A Securityholder subject to German taxation may then be required to include into his or her taxable income unrealized gains from the appreciation in value of the Security which may be deemed to be a portion of the fair market value of the Security at the relevant time. In general, the taxed unrealized gains will be deductible in computing the capital gain derived from the disposal, redemption or termination of the Security.

Non resident

Interest, including Accrued Interest, and capital gains are not subject to German taxation, unless (i) the Securities form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the Securityholder; or (ii) the income otherwise constitutes German-source income. In cases (i) and (ii) a tax regime similar to that explained above under "*Tax Residents*" applies.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and the solidarity surcharge thereon. However, where the interest is subject to German taxation as set forth in the preceding paragraph and the Securities are kept or administered in a custodial account with a Disbursing Agent, withholding tax may be levied under certain circumstances. Where Securities are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the disposal, assignment or redemption of a Security are paid by a Disbursing Agent to a non-resident, withholding tax generally will also apply. The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Securities will arise under the laws of Germany, if, in the case of inheritance tax, neither the deceased nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Security is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

Other Taxes

No stamp, issue or registration taxes or such duties will be payable in Germany in connection with the issuance, delivery or exercise of the Securities. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

6. Italy

The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following overview does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. The following

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

overview does not analyse the tax issues that may arise from the Physical Delivery on redemption or settlement of the Securities and in case of Substitution of the Issuer (see previous §13 of the General Conditions). Prospective purchasers of the Securities are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Securities.

Tax treatment of the Securities

The Securities may be subject to different tax regimes depending on whether:

- they represent a debt instrument implying a "use of capital" (*impiego di capitale*), through which the Securityholder transfers to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the unconditional right to obtain the entire reimbursement of such amount at maturity; or
- they represent a debt instrument implying a "use of capital" (*impiego di capitale*), through which the Securityholder transfers to the Issuer a certain amount of capital, for the economic exploitation of the same, and qualifying as atypical securities according to Article 8 of Law Decree N° 512 of 30 September 1983.

Notes having 100% capital protection guaranteed by the Issuer

Capital Gains Tax

A 26 per cent. capital gains tax (*imposta sostitutiva*) is applicable on any capital gain realised on the disposal of the Securities by Securityholders included among the following categories of Italian resident persons: (i) individuals not engaged in an entrepreneurial activity to which the Securities are effectively connected, (ii) non commercial partnerships or *de facto* partnerships, (iii) private or public institutions not carrying out mainly or exclusively commercial activities, or (iv) investors exempt from Italian corporate taxation ("**IRES**").

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the *imposta sostitutiva* on payments as well as capital gains realised from the Securities if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(100-114) of Law No. 232 of 11 December 2016, as subsequently amended (the "**Finance Act 2017**").

In respect of the application of *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below:

- (a) Under the tax declaration regime (*Regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Securities are effectively connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any off-settable capital losses, realised by the Italian resident individual holding the Securities. In this instance, "capital gains" means any capital gain not connected with an entrepreneurial activity pursuant to all sales or redemptions of the Securities carried out during any given fiscal year. Italian resident individuals holding the Securities not in connection with an entrepreneurial activity must report the overall amount of the capital gains realised in any fiscal year, net of any off-settable capital losses, in the annual tax return and pay the *imposta sostitutiva* on those capital gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding fiscal years. Pursuant to Law Decree No. 66 of 24 April 2014, as converted into law with amendments by Law No.89 of 23 June 2014 (the "**Decree N°. 66**") capital losses may be carried forward to be offset against capital gains of the same nature realised after 30 June 2014 for an overall amount of 76.92 per cent. of the capital losses realised from 1 January 2012 to 30 June 2014.
- (b) As an alternative to the tax declaration regime, Italian resident individual holding the Securities not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on any capital gain realised on each sale or redemption of the Securities (*Regime del risparmio amministrato*). Such separate taxation of capital gains is allowed subject to:

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

- (i) the Securities being deposited with Italian banks, Italian investment companies (*Società di intermediazione mobiliare*) ("**SIMs**") or certain authorised financial intermediaries (including permanent establishments in Italy of foreign intermediaries); and
- (ii) an express election for *Regime del risparmio amministrato* being timely made in writing by the relevant Securityholder.

The depository must account for the *imposta sostitutiva* in respect of any capital gain realised on each sale or redemption of the Securities (as well as in respect of any capital gain realised upon the revocation of its mandate), net of any incurred capital loss. The depository must also pay the relevant amount to the Italian tax authority on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under the *Regime del risparmio amministrato*, where a sale or redemption of the Securities results in a capital loss, such capital loss may be deducted from any capital gain subsequently realised, within the same Securities management, in the same fiscal year or in the following fiscal years up to the fourth. Under the *Regime del risparmio amministrato*, the Securityholder is not required to declare the capital gains in the annual tax return. Pursuant to Decree N°. 66, capital losses realized up to 30 June 2014 may be offset against capital gains realized after the date with the following limitations for an amount equal to 76.92 per cent., for capital losses realized from 1 January 2012 to 30 June 2014.

- (c) In the *Regime del risparmio gestito*, any capital gain realised by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, to an authorised intermediary, will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year-end, and subject to the *imposta sostitutiva*, to be paid by the managing authorised intermediary. Any depreciation of the managed assets accrued at year-end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding fiscal years. The Securityholder is not required to report the capital gains realised in the annual tax return. Pursuant to Decree N°. 66, investment portfolio losses accrued up to 30 June 2014 may be set off against investment portfolio profits accrued after that date with the following limitations for an amount equal to 76.92 per cent., for investment portfolio losses accrued from 1 January 2012 to 30 June 2014.

Any capital gain deriving from the sale or redemption of the Securities and realised by Italian resident companies (including Italian permanent establishments of foreign entities to which the Securities are connected), similar commercial entity, commercial partnership or Italian resident individuals engaged in an entrepreneurial activity to which the Securities are effectively connected would not be subject to *imposta sostitutiva*, but must be included in the relevant Securityholder's income tax return and therefore subject to IRES, currently applicable at a rate of 24 per cent. (pursuant to Law N°. 208 of 28 December 2015, a 3.5 per cent. surtax for an overall IRES tax rate of 27.5 per cent. applies to Italian banks and certain financial institutions, including Italian branches of foreign banks and certain financial institutions) or to personal income taxation (as business income), as the case may be, according to the ordinary rules. In certain circumstances, depending on the "status" of the Securityholder, such proceeds may also have to be included in its taxable base for regional income tax on productive activities ("**IRAP**", currently applicable at a rate of 3.9 per cent.; the IRAP rate may be increased in certain Italian regions up to 0.92 per cent. The IRAP tax rate is increased to 4.65 per cent. and 5.90 per cent. for the categories of companies indicated, respectively, under article 6 and article 7 of Legislative Decree no. 446 of 15 December 1997.

Capital gains realised on Securities held by Italian investment funds, *Fondi Lussemburghesi Storici* a SICAF (an Italian investment company with fixed share capital) (a "**SICAF**") or (an investment company with variable capital (a "**SICAF**")) established in Italy (the "**Fund**") and either (i) the Fund or (ii) its manager is subject to the supervision of a regulatory authority and the relevant Securities are held by an authorised intermediary will not be subject to *imposta sostitutiva*, but will be included in the annual accrued increase of their net asset value. The net asset value will not be subject to tax with the Fund, but any distribution or any other income received upon redemption or disposal of the units or of the shares by the unitholders or shareholders may be subject to a withholding tax of 26 per cent. (the "**Collective Investment Fund Tax**").

Capital gains realized on Securities held by real estate investment funds and Italian real estate SICAFs, both qualifying as such from a legal and regulatory perspective (the "**Real Estate Funds**"), to which the provisions of Law Decree N° 351 of 25 September 2001, Law Decree N° 78 of 31 May 2010, converted into Law N° 122 of 30 July 2010 and Legislative Decree N° 44 of 4 March 2014, all as amended, apply, will neither be subject to any *imposta sostitutiva*, nor to any other income tax with the Real Estate Funds.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Capital gains on the Securities held by an Italian resident pension fund (subject to the regime provided for by Article 17 of the Italian Legislative Decree N°252 of 5 December 2005) will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax.

Capital gains realised by non-Italian resident Securityholders are not subject to Italian taxation provided that the Securities are held outside Italy or the capital gain derives from transaction executed in regulated market.

Interest taxation

Legislative Decree N°. 239 of 1 April 1996, as a subsequently amended, (the "**Decree N°. 239**") provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from securities falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by banks and by non-Italian resident issuers. For this purpose, pursuant to Article 44 of Presidential Decree N°. 917 of 22 December 1986, securities similar to bonds are securities that (i) incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value and (ii) do not grant to the relevant holders any right to directly or indirectly participate to the management of the issuer or of the business in relation to which they are issued or to control the same management.

Italian Resident Securityholders

Where the Italian resident *Securityholder* is:

- (i) an individual not engaged in an entrepreneurial activity to which the *Securities* are connected (unless the investor has opted for the application of the *risparmio gestito regime* – please refer to paragraph "*Capital Gains Tax*" below for an analysis of such regime); or
- (ii) a non-commercial partnership; or
- (iii) a non-commercial private or public institution; or
- (iv) an entity exempt from Italian corporate income taxation,

Interest, premium and other income relating to the *Securities* are subject to a substitute tax (*imposta sostitutiva*), levied at the rate of 26 per cent. In the event that the *Securityholders* described under (i) and (iii) above are engaged in an entrepreneurial activity to which the *Securities* are connected, the *imposta sostitutiva* applies as a provisional tax and may be deducted from the taxation on income due.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity to which the Notes are connected or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the *imposta sostitutiva*, on interest, premium and other income relating to the Securities if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(100-114) of the Finance Act 2017.

Where an Italian resident Securityholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Securities are effectively connected and such Securities are deposited with an Italian resident intermediary, interest, premium and other proceeds from such Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant Securityholder's income tax return and are therefore subject to IRES at the rate mentioned above (and, in certain circumstances, depending on the "status" of the Securityholder, also to IRAP at the rates mentioned above).

Pursuant to Decree N°. 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Finance (each an "**Intermediary**") resident in Italy, or permanent establishment in Italy of a non Italian resident Intermediary, which intervenes, in any way, in the collection of interest, premium and other income or in the transfer of the Securities. For the purpose of the application of the *imposta sostitutiva*, a transfer of Securities includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Securities or in a change of the Intermediary with which the Securities are deposited.

Where the Securities are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any Italian financial intermediary paying interest to a Securityholder or, absent that, by the Issuer.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Interest, premium and other proceeds relating to the Securities held by a Fund will not be subject to the *imposta sostitutiva* at the Fund level, but any distribution or any other income received upon redemption or disposal of the units or of the shares by the unitholders or shareholders may be subject to the Collective Investment Fund Tax.

Interest, premium and other income on to the Securities held by Italian Real Estate Funds are subject neither to the *imposta sostitutiva*, nor to any other income tax in the hands of the Real Estate Funds.

Where an Italian resident Securityholder is a pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Securities are deposited with an Italian resident intermediary, interest, premium and other income relating to the Securities and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax.

Non-Italian Resident Securityholders

No *imposta sostitutiva* is applied on payments made by non-Italian resident issuers to non-Italian resident Securityholders.

Pursuant to Decree N°. 239, payments made by an Italian resident issuer to non-Italian resident Securityholders are subject to a substitute tax at the rate of 26 per cent. in the Republic of Italy if made to beneficial owners who are non-Italian resident entities or individuals without a permanent establishment in Italy to which the Securities are effectively connected, which are not eligible for the exemption from substitute tax and/or do not timely and properly comply with the requirements set forth in Decree N°. 239 and the relevant application rules in order to benefit from the exemption from substitute tax. As to non-Italian resident beneficial owners, the substitute tax may apply at lower or nil rate under double taxation treaties entered into by Italy, where applicable, and in any case subject to proper compliance with subjective and procedural requirements provided for.

The 26 per cent. (or the lower rate provided for by the relevant applicable double taxation treaty) substitute tax will be generally applied by any Italian resident qualified financial intermediaries that will intervene, in any way, in the collection of interest on the Securities or in the transfer of the Securities.

Interest will not be subject to the 26 per cent. substitute tax if made to beneficial owners who are non-Italian resident beneficial owners of Securities not having a permanent establishment in Italy to which the Securities are effectively connected, provided that:

- such non-Italian resident beneficial owners are resident for tax purposes in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information, as listed in the Italian Ministerial Decree of 4 September 1996, as amended by Ministerial Decree of 23 March 2017 and possibly further amended by future decrees issued pursuant to Article 11(4)(c) of Decree 239 (as amended by Legislative Decree No.147 of 14 September 2015) (the "**White List**"); and
- all the requirements and procedures set forth in Decree N°. 239 and the relevant implementing rules in order to benefit from the exemption from the substitute tax have been promptly and properly complied with.

Decree N°. 239, as amended and restated, also provides for additional exemptions from the substitute tax for payments of interest in respect of the Securities made to:

- international bodies and organisations established in accordance with international agreements ratified in Italy;
- foreign institutional investors resident or established in countries listed in the White List even if they do not possess the "status" of taxpayer in their own country of establishment; and
- Central Banks or entities managing official State reserves.

To ensure payment of interest in respect of the Securities without the application of the substitute tax, non Italian resident "qualified" investors must:

- be the beneficial owners of payments of interest on the Securities or foreign institutional investors not subject to tax;
- timely deposit the Securities together with the coupons relating to such Securities directly or indirectly with an Italian authorised financial Intermediary or with a non-Italian resident entity participating in a centralised securities management system which is in contact, via computer, with the Italian Ministry of Economy and Finance, and

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

- promptly file with the relevant depository a self-declaration stating, *inter alia*, to be resident, for tax purposes, or established, as the case may be, in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information as listed in the White List. Such self-declaration - which is requested neither for international bodies nor for entities set up in accordance with international agreements ratified by Italy nor for foreign Central Banks or entities managing official State reserves - must comply with the requirements set forth by Italian Ministerial Decree of 12 December 2001 and is valid until withdrawn or revoked. Additional statements may be required for non-Italian resident Securityholders who are institutional investors.

Securities qualifying as atypical securities

Interest payments in respect of Notes that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) for Italian tax purposes (all together referred as "**Atypical securities**" under Article 8 of Law Decree N° 512 of 30 September 1983 ("**Decree N. 512**")) made by non-Italian resident issuers are subject to a withholding tax, levied at the rate of 26 per cent.

The 26 per cent. withholding tax is levied by any Italian resident entity which intervenes in the collection of payments on the Securities or in their repurchase or transfers. In case the payments on the Securities are not received through any aforementioned Italian resident entity, Italian resident individual Securityholders are required to report the payments in their income tax return and subject them to a final withholding tax at 26 per cent. rate. Italian resident individual Securityholders may elect instead to pay ordinary income tax at the progressive rates applicable to them in respect of the payments; if so, the Italian resident individual Securityholders should generally benefit from a tax credit for any withholding tax possible applied outside Italy.

The 26 per cent. withholding tax does not apply to payments made to a non-Italian resident Securityholder and to an Italian resident Securityholder which is (i) a company (including Italian permanent establishments of foreign entities) or similar commercial entity, (ii) a commercial partnerships or (iii) a private or public institution carrying out commercial activities.

Payments in respect of Securities which qualify as "Atypical securities" under Article 8 of Law Decree N° 512 made by Italian resident issuers are subject to a withholding tax, levied at the rate of 26 per cent. as well.

In particular, where the Securityholder is (i) an Italian resident individual engaged in an entrepreneurial activity to which the Securities are connected, (ii) an Italian resident company or a similar Italian resident commercial entity, (iii) a permanent establishment in Italy of a foreign entity to which the Securities are effectively connected, (iv) an Italian resident commercial partnership or (v) an Italian resident commercial private or public institution, the above-mentioned 26 per cent. withholding tax is a provisional withholding tax. In all other cases, including when the Securityholder is a non-Italian resident, the withholding tax is a final withholding tax. Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax in case of payments to non-Italian resident Securityholders, subject to proper compliance with relevant subjective and procedural requirements.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity to which the Notes are connected or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the withholding tax on interest, premium and other income relating to the Securities (qualifying as Atypical securities under either Article 5 or Article 8 of Decree N. 512) that are classified as atypical securities, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(100-114) of Finance Act 2017.

Inheritance and gift taxes

Pursuant to Law Decree N°. 262 of 3 October 2006, as subsequently amended, converted into Law N°. 286 of 24 November 2006, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or gift exceeding EUR 1,000,000 for each beneficiary;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or gift exceeding EUR 100,000 for each beneficiary; and

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

- (c) any other transfer is subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or gift.

If the transfer is made in favour of persons with disabilities, the tax applies on the value exceeding EUR 1,500,000 for each beneficiary.

An anti-avoidance rule is provided by Law N°383 of 18 October 2001 for any gift of assets (such as the Securities) which, if sold for consideration, would give rise to capital gains subject to the 26 per cent. capital gains tax. In particular, if the donee sells the securities for consideration within five years from the receipt thereof as a gift, the donee is required to pay the relevant *imposta sostitutiva* on capital gains as if the gift has never taken place.

Transfer tax

Contracts relating to the transfer of Securities are subject to a Euro 200.00 registration tax as follows: (i) public deeds and notarised deeds are subject to mandatory registration; (ii) private deeds are subject to registration only in the case of voluntary registration.

Tax monitoring obligations

Pursuant to Italian Law Decree No. 167 of 28 June 1990, converted by Law No. 227 of 4 August 1990, as subsequently amended, individuals, non-commercial institutions and non-commercial partnerships resident in Italy, under certain conditions, will be required to report in their yearly income tax return, for tax monitoring purposes, the amount of Securities held abroad during each tax period.

The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the actual owner of the instrument.

Furthermore, the above reporting requirement is not required to comply with respect to: (i) Securities deposited for management with qualified Italian financial intermediaries; (ii) contracts entered into through their intervention, upon condition that the items of income derived from the Securities have been subject to tax by the same intermediaries; or (iii) if the foreign investments are only composed by deposits and/or bank accounts and their aggregate value does not exceed a €15,000 threshold throughout the year.

Stamp duty

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("**Decree 201**"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries, carrying out their business activity within the Italian territory, to their clients for the Securities deposited therewith. The stamp duty applies at the current rate of 0.2 per cent.; this stamp duty is determined on the basis of the market value or — if no market value figure is available — the nominal value or redemption amount of the Securities held. If the client is not an individual, the stamp duty cannot be higher than € 14,000.00.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory. The communication is deemed to be sent to the customers at least once a year, even for instruments for which it is not mandatory.

Wealth tax

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the Securities outside the Italian territory are required to pay an additional tax at the current rate of 0.2 per cent.

This tax is calculated on the market value of the Securities at the end of the relevant year or — if no market value figure is available — the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Italian Financial Transaction Tax

Italian shares and other participating instruments, as well as depositary receipts representing those shares and participating instruments irrespective of the relevant issuer (cumulatively referred to as "**In-Scope Shares**"), received by a Securityholder upon physical settlement of the Securities may be subject to a 0.2 per cent. Italian financial transaction tax (the "**IFTT**") calculated on the value of the Securities, as determined according to Article 4 of Ministerial Decree of 21 February 2013, as amended (the "**IFTT Decree**").

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Securityholders in certain equity-linked securities or derivatives mainly having as underlying or mainly linked to In-Scope Shares are subject to IFTT at a rate ranging between € 0.01875 and € 200 per counterparty, depending on the notional value of the relevant derivative transaction or transferable securities, calculated according to Article 9 of the IFTT Decree. IFTT applies upon subscription, negotiation or modification of the derivative transactions or transferable securities. The tax rate may be reduced to a fifth if the transaction is executed on certain qualifying regulated markets or multilateral trading facilities.

7. Luxembourg

The following information is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

1.1 Non-resident Holders of Securities

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident holders of Securities.

1.2 Resident Holders of Securities

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the "**Relibi Law**"), there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Securities held by Luxembourg resident holders of Securities.

However, under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 20 per cent.

Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Securities coming within the scope of the Relibi Law will be subject to withholding tax of 20 per cent.

8. Portugal

For Portuguese Securities issued by Deutsche Bank AG acting through its Portuguese Branch and centralized in Interbolsa

The following is an overview of the current Portuguese tax treatment at the date hereof in relation to certain aspects of the Portuguese taxation of payments in respect of the Portuguese Securities that are Certificates, Warrants and Notes. The statements do not deal with other Portuguese tax aspects regarding such Portuguese Securities and relate only to the position of persons who are absolute beneficial owners of such Securities. The following is a general guide, does not constitute tax or legal advice and should be treated with appropriate caution. The holders of such Portuguese Securities who are in any doubt as to their tax position should consult their own professional advisers.

Economic benefits derived from interest, accrued interest, amortisation and reimbursement premiums and other instances of remuneration arising in respect of Notes are designated as investment income for Portuguese tax purposes. However the difference between the sales proceeds and the acquisition cost, net of interest accrued from the last interest payment date or from the date of issue, placement or endorsement if payment has not occurred, to the date of transfer, shall be classified for Portuguese tax purposes as a capital gain.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

PIT

Resident

Interest and other types of investment income obtained from Notes held by a Portuguese resident individual, or by a non-resident individual through a Portuguese permanent establishment, is subject to PIT. If payment of interest or other investment income is made available to Portuguese resident individuals, withholding tax applies at a rate of 28 per cent., which is the final tax payable on that income unless the individual elects to include such income in his taxable income (income being subject to tax at progressive rates of up to 48 per cent). An additional solidarity charge of 2.5 per cent. applies on income in excess than €80,000 up to €250,000 and at 5% on income in excess of €250,000.

Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply.

Non resident

Interest and other types of investment income obtained by non-resident individuals without a Portuguese permanent establishment to which the income is attributable, from Notes issued by Portuguese entities is subject to withholding tax at a rate of 28 per cent., which is the final tax payable on that income. A withholding tax rate of 35 per cent. applies in case of investment income payments to legal persons resident in the countries and territories included in the Portuguese "blacklist" (countries and territories listed in Ministerial Order (*Portaria*) no. 150/2004, of 13 February 2004, as amended from time to time). Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply (i.e. 28 per cent. or 35 per cent. in the case of legal persons resident in blacklisted countries or territories). Under the tax treaties entered into by Portugal, which are in full force and effect on the date of this Prospectus, the withholding tax rate may be reduced, provided that the relevant formalities (including certification of residence by the tax authorities of the jurisdiction of residence of the beneficial owners of the interest and other investment income) are met. The reduction may apply at source or by way of a refund of the excess tax.

Pursuant to the special debt securities tax regime described below, interest and capital gains deriving from Notes are PIT exempt provided certain conditions apply.

CIT

Resident

Interest and other investment income derived from Notes obtained by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the income is attributable, are included in the taxable profits of such legal persons and are subject to a 21 per cent. or at a 17 per cent. tax rate on the first €15,000 in the case of small or medium-sized enterprises, to which may be added a municipal surcharge ("*derrama municipal*") of up to 1.5 per cent. of such taxable profits. A State Surcharge ("*derrama estadual*") will be payable at the following rates: 3 per cent. on the part of a corporate taxpayer's taxable profits exceeding €1,500,000 up to €7,500,000; 5 per cent. on the part of the taxable profits exceeding €7,500,000 up to €35,000,000; and 9 per cent on the part of such taxable profits exceeding €35,000,000.

As a general rule, withholding tax at a rate of 25 per cent. applies on interest and other investment income, any amounts so withheld being deemed to be a payment on account of the final tax due. Financial institutions, pension funds, retirement and/or education savings funds, share savings funds, venture capital funds, undertaking for collective investment incorporated under the laws in Portugal and some exempt entities are not subject to Portuguese withholding tax.

Non resident

Interest and other types of investment income obtained by non-resident legal persons without a Portuguese permanent establishment to which the income is attributable, from Notes issued by Portuguese entities are subject to withholding tax at a rate of 25 per cent., which is the final tax payable on that income. A withholding tax rate of 35 per cent. applies in case of investment income payments to legal persons resident in the countries and territories included in the Portuguese "blacklist" (countries and territories listed in Ministerial Order (*Portaria*) no. 150/2004, of 13 February 2004, as amended from time to time). Investment

income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply (i.e. 25 per cent. or 35 per cent. in the case of legal persons resident in blacklisted countries or territories). Under the tax treaties entered into by Portugal, which are in full force and effect on the date of this Prospectus, the withholding tax rate may be reduced, provided that the relevant formalities (including certification of residence by the tax authorities of the jurisdiction of residence of the beneficial owners of the interest and other investment income) are met. The reduction may apply at source or by way of a refund of the excess tax.

Pursuant to the special debt securities tax regime described below, interest and capital gains deriving from Notes are CIT exempt provided certain conditions apply.

Other taxes

A 10% stamp duty applies to the acquisition through gift or inheritance of Notes by an individual except when the beneficiary is the respective spouse, *de facto* spouse parent or children. There is no wealth tax in Portugal. Legal persons are subject to CIT on the acquisition through gift or inheritance of Notes, when issued by an entity domiciled in the Portuguese territory.

Special debt securities tax regime

Pursuant to Decree-Law no. 193/2005, of 7 November, as amended from time to time (hereinafter, "Decree-Law 193/2005"), investment income paid, and capital gains realised, by Note holders not resident in Portugal in respect of debt securities registered (i) with a Portuguese centralised system of registration of securities (such as the *Central de Valores Mobiliários*, managed by Interbolsa), (ii) with an international clearing system whose managing entity has its head-office or place of effective management in an EU Member State or EEA Country (provided, in this case, that such State is bound to cooperate with Portugal under an administrative cooperation arrangement in tax matters similar to the exchange of information schemes in relation to tax matters existing within the EU Member States) or (iii) integrated in other centralised systems authorised by the Portuguese Government will be exempt from Portuguese income tax provided the following requirements are met: (i) the Noteholders are not resident in the Portuguese territory (and do not have any registered or deemed permanent establishment therein to which interest is attributable); and (ii) the Noteholders are not resident in countries or territories included in the Portuguese "blacklist" (countries and territories listed in Ministerial Order (*Portaria*) no. 150/2004, of 13 February 2004, as amended from time to time), with the exception of central banks and governmental agencies located in those blacklisted jurisdictions or of blacklisted jurisdictions that have a double taxation treaty in force or a tax information exchange agreement in force with Portugal;

Pursuant to Decree-Law 193/2005 several procedures must be met in order for the above exemptions to apply. These vary depending on whether the Notes are domestic cleared notes – held through a direct or indirect registered entity – or internationally cleared notes – held through an entity managing an international clearing system.

If the conditions for the exemption to apply are met but, due to inaccurate or insufficient information, tax was withheld, a special refund procedure is available under the special regime approved by Decree-law no. 193/2005. The refund claim is to be submitted to the direct or indirect registering entity (entity that does not perform the role of direct registering entity but is a client of the latter and provides custody, register and portfolio management, or similar services) of the Notes within six months from the date the withholding took place. A special tax form for these purposes is available to download at www.portaldasfinancas.gov.pt.

The refund of withholding tax in other circumstances, or after the six months period set out above, is to be claimed from the Portuguese tax authorities under the general procedures and within the general deadlines. The absence of evidence of non-residence in respect of any non-resident entity that benefits from the above mentioned tax exemption regime shall result in the loss of the tax exemption and consequent submission to the above applicable Portuguese general tax provisions.

Administrative Cooperation in the field of taxation

The new regime under Council Directive 2011/16/EU, as amended by Council Directive 2014/107/EU, of 9 December 2014, introduced the automatic exchange of information in the field of taxation concerning bank accounts and is in accordance with the Global Standard released by the Organization for Economic Cooperation and Development in July 2014 (the Common Reporting Standard). This regime is generally broader in scope than the Savings Directive, although it does not impose withholding taxes.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Under Council Directive 2014/107/EU, financial institutions are required to report to the Tax Authorities of their respective Member State (for the exchange of information with the State of Residence) information regarding bank accounts, including depository and custodial accounts, held by individual persons residing in a different Member State or entities which are controlled by one or more individual persons residing in a different Member State, after having applied the due diligence rules foreseen in the Council Directive. The information refers not only to personal information but also to the account balance at the end of the calendar year, and (i) in case of depository accounts, income paid or credited in the account during the calendar year; or, (ii) in the case of custodial accounts, the total gross amount of interest, dividends and any other income generated, as well as the proceeds from the sale or redemption of the financial assets paid or credited in the account during the calendar year to which the financial institution acted as custodian, broker, nominee, or otherwise as an agent for the account holder, among others.

Portugal has implemented Directive 2011/16/EU through Decree-law 61/2013, of 10 May. Also, Council Directive 2014/107/EU, of 9 December 2014, regarding the mandatory automatic exchange of information in the field of taxation was implemented into Portuguese law through Decree-Law no. 64/2016, of 11 October 2016. In addition, information regarding the registration of financial institutions, as well as the procedures to comply with the reporting obligations arising from Decree-Law no. 64/2016, of 11 October 2016, and the applicable forms were approved by Ministerial Order (Portaria) no. 302-B/2016, of 2 December 2016, Ministerial Order (Portaria) no. 302-C/2016, of 2 December 2016, Ministerial Order (Portaria) no. 302-D/2016, of 2 December 2016, amended by Ministerial Order (Portaria) no. 255/2017, of 14 August 2017, and Ministerial Order (Portaria) no. 302-E/2016, of 2 December 2016.

FATCA

Portugal has implemented, through Law 82-B/2014 of 31 December 2014 and Decree-Law 64/2016 of 11 October 2016, amended by Law 98/2017, of 24 August, the legislation based on the reciprocal exchange of information with the United States of America on financial accounts subject to disclosure (the "Financial Reporting Regime") in order to comply with Sections 1471 through 1474 of FATCA. Under such legislation the Issuer will be required to obtain information regarding certain accountholders and report such information to the Portuguese tax authorities which, in turn, will report such information to the Inland Revenue Service of the United States of America.

9. Spain

The following is an overview of current Spanish law and practice relating to the withholding tax treatment of the Securities. The statements herein regarding Spanish taxes and withholding taxes in Spain are based on the laws in force as well as administrative interpretations thereof in Spain as at the date of this Base Prospectus (without prejudice of regional tax regimes in the Historical Territories of the Basque Country and the Community of Navarre or provisions passed by Autonomous Communities which may apply to investors for certain taxes) and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following overview does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective holders or beneficial owners of the Securities are advised to consult their own tax advisers concerning the overall tax consequences of their ownership and disposition of the Securities.

Tax Treatment of Securities Issued by Entities Other Than Deutsche Bank AG, Sucursal en España

(A) WARRANTS

Following the criterion of the Spanish Directorate-General for Taxation in several rulings (amongst others, rulings dated 8 July 2003 and 27 August 2007), income earned by Spanish residents under Warrants should be considered as capital gains, in which case no withholdings on account of Personal Income Tax ("**PIT**") or Corporate Income Tax ("**CIT**") will have to be deducted.

Notwithstanding that, Spanish resident individuals recognizing capital gains will still be subject to PIT, to be declared in their annual tax returns together with any other financial income, according to the following rates: 19.5 per cent. for financial income up to EUR 6,000; 21.5 per cent. for financial income between EUR 6,000.01 and EUR 50,000; and 23.5 per cent. for financial income in excess of EUR 50,000.

However, when certain income included in the taxpayer's taxable base has already been taxed abroad, the taxpayer shall be entitled to a tax credit against the PIT taxable base for the lowest amount of the following:

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

(i) the amount effectively paid abroad; and (ii) the amount resulting from applying the average tax rate to the taxable base effectively taxed abroad.

Likewise, Spanish resident companies or Non-Resident Income Taxpayers acting through a permanent establishment in Spain earning such income will still be subject to CIT, to be declared in their annual tax returns, at a general rate of 25 per cent. as of 1 January 2016. However, when certain income included in the taxpayer's taxable base has already been taxed abroad, the taxpayer shall be entitled to a tax credit against the CIT or Non-Resident Income Tax ("**NRIT**") taxable base for the lowest amount of the following: (i) the amount effectively paid abroad; and (ii) the amount that should have been paid in Spain in the case that such income had been obtained in Spain.

(B) NOTES AND CERTIFICATES

Where Notes and Certificates are issued by an Issuer which is not a Spanish tax resident entity and does not have a permanent establishment in Spain to which the issue of the Notes and Certificates is connected, the Issuer should not be obliged to deduct withholdings on account of Spanish income taxes.

Where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depository of the Notes and Certificates or intervenes as manager on the collection of any income under the Notes and Certificates (acting in such role, a "**Relevant Financial Institution**"), such Relevant Financial Institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the Notes and Certificates, provided that such income had not been previously subject to withholding tax in Spain.

Furthermore, any such Relevant Financial Institution may become obliged to comply with the formalities set out in Spanish tax regulations when intervening in the transfer or reimbursement of the Notes and Certificates.

(i) PIT - *Individuals with tax residence in Spain*

Withholding tax will apply at the applicable rate, currently 19 per cent. in respect of interest payments made under the Notes and Certificates. In addition, income obtained upon transfer, redemption or repayment of the Notes and Certificates may also be subject to PIT withholdings, currently 19 per cent. Notwithstanding this, when the Notes (i) are represented in book-entry form, (ii) are admitted to trading on a Spanish secondary stock exchange and (iii) generate explicit yield, holders can benefit from a withholding tax exemption in respect of the income arising from the transfer or reimbursement of the Notes, exception made of income derived from accounts entered into with financial institutions, provided that such income were based on financial instruments, such as Notes and Certificates. However, under certain circumstances, when a transfer of the Notes has occurred within the 30-day period immediately preceding any relevant coupon payment date such holders may not be eligible for such withholding tax exemption.

In any event, holders who are resident for tax purposes in Spain may credit any Spanish withholding tax suffered on income obtained under the Notes and Certificates against their final PIT liability for the relevant fiscal year.

Notwithstanding the above, Spanish resident individuals earning such income will still be subject to PIT –to be declared in their annual tax returns together with any other financial income– according to the following rates: 19.5 per cent. for financial income up to EUR 6,000; 21.5 per cent. for financial income between EUR 6,000.01 and EUR 50,000; and 23.5 per cent. for financial income in excess of EUR 50,000.

However, when certain income included in the taxpayer's taxable base has already been taxed abroad, the taxpayer shall be entitled to a tax credit against the PIT taxable base for the lowest amount of the following: (i) the amount effectively paid abroad; and (ii) the amount resulting from applying the average tax rate to the taxable base effectively taxed abroad.

(ii) CIT – *Legal entities with tax residence in Spain*

The current withholding tax in Spain is 19 per cent. Amounts withheld in Spain, if any, can be credited against Spanish final CIT liability.

However, holders of the Notes and Certificates who are Corporate Income Taxpayers can benefit from a withholding tax exemption when the Notes and Certificates are admitted to trading on an organised stock exchange in an OECD state (the "**OECD Exemption**").

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Similarly, when the Notes and Certificates (i) are represented in book-entry form and (ii) are admitted to trading on a Spanish secondary stock exchange or in the Spanish Alternative Fixed Income Market ("**MARF**"), holders who are Corporate Income Taxpayers or Non-Residents' Income Taxpayers acting through a Spanish permanent establishment can benefit from a withholding tax exemption (the "**Domestic Exemption**") in respect of income arising from the Notes and Certificates.

Spanish resident companies earning such income will still be subject to CIT to be declared in their annual tax returns, at a general rate of 25 per cent. However, when certain income included in the taxpayer's taxable base has already been taxed abroad, the taxpayer shall be entitled to a tax credit against the CIT taxable base for the lowest amount of the following: (i) the amount effectively paid abroad; and (ii) the amount that should have been paid in Spain in the case that such income had been obtained in Spain.

(iii) NRIT – *Non-Resident Investors acting through a Permanent Establishment in Spain*

Ownership of the Notes and Certificates by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

If the Notes and Certificates form part of the assets of a permanent establishment in Spain of a person or legal entity who is not resident in Spain for tax purposes, the tax rules applicable to income deriving from such Notes and Certificates are, generally, the same as those previously set out for Spanish Corporate Income Taxpayers. See (ii) "CIT - *Legal Entities with tax residence in Spain*" above.

However, when certain income included in the taxpayer's taxable base has already been taxed abroad, the taxpayer shall be entitled to a tax credit against the PIT taxable base for the lowest amount of the following: (i) the amount effectively paid abroad; and (ii) the amount resulting from applying the average tax rate to the taxable base effectively taxed abroad.

Likewise, Spanish resident companies or Non-Resident Income Taxpayers acting through a permanent establishment in Spain earning such income will still be subject to CIT or NRIT, respectively, to be declared in their annual tax returns, at a general rate of 25 per cent. as of 1 January 2016. However, when certain income included in the taxpayer's taxable base has already been taxed abroad, the taxpayer shall be entitled to a tax credit against the CIT or NRIT taxable base for the lowest amount of the following: (i) the amount effectively paid abroad; and (ii) the amount that should have been paid in Spain in the case that such income had been obtained in Spain.

(B) NOTES AND CERTIFICATES

(i) PIT - *Individuals with tax residence in Spain*

Withholding tax will apply at the applicable rate, currently 19 per cent. in respect of interest payments made under the Notes and Certificates. In addition, income obtained upon transfer, redemption or repayment of the Notes and Certificates may also be subject to PIT withholdings, currently 19 per cent. VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

In any event, holders who are resident for tax purposes in Spain may credit any Spanish withholding tax suffered on income obtained under the Notes and Certificates against their final PIT liability for the relevant fiscal year.

Either (a) Deutsche Bank AG, Sucursal en España or (b) Relevant Financial Institutions (either resident in Spain or acting through a permanent establishment in Spain) acting as depositary of the Notes and Certificates or intervening as manager in the collection of any income under the Notes and Certificates, will be responsible for making the relevant withholding (if any) on account of Spanish tax on any income deriving from the Notes and Certificates, as well as may become obliged to comply with the formalities set out in the regulations developing the Law on Spanish PIT.

Notwithstanding the above, Spanish resident individuals earning such income will still be subject to PIT –to be declared in their annual tax returns together with any other financial income– according to the following rates: 19 per cent. for financial income up to EUR 6,000; 21 per cent. for financial income between EUR 6,000.01 and EUR 50,000; and 23 per cent. for financial income in excess of EUR 50,000.

(ii) CIT - *Legal Entities with tax residence in Spain*

Any income arising from the Notes and Certificates is, as a general rule, subject to withholding tax at the applicable rate, currently 19 per cent. However, in accordance with Section 61(s) of regulations developing the Law on CIT, Spanish Corporate Income Taxpayers (which for the sake of clarity, include Spanish tax resident funds and Spanish tax resident pension funds) can also benefit from the OECD Exemption.

The Spanish Directorate General of Taxes (*Dirección General de Tributos*) issued a ruling dated 27 July 2004 in which it determined that securities, such as the Notes and Certificates, issued in Spain may benefit from the OECD Exemption if the relevant securities are both admitted to trading on an organised stock exchange in an OECD state and placed in an OECD State other than Spain. Where this requirement is not met, the Issuer will be required to make the corresponding withholdings.

Additionally, in accordance with Section 61(q) of regulations developing the Law on CIT, Spanish Corporate Income Taxpayers (which for the sake of clarity, include Spanish tax resident funds and Spanish tax resident pension funds) can also benefit from the Domestic Exemption.

Notwithstanding the above, amounts withheld (if any) may be credited by the relevant holders of Notes and Certificates against their final CIT liability.

Either (a) Deutsche Bank AG, Sucursal en España or (b) Relevant Financial Institutions (either resident in Spain or acting through a permanent establishment in Spain) acting as depositary of the Notes and Certificates or intervening as manager in the collection of any income under the Notes and Certificates will be responsible for making the relevant withholding (if any) on account of Spanish tax on any income deriving from the Notes and Certificates, as well as may become obliged to comply with the formalities set out in the regulations developing the Law on Spanish PIT.

Spanish resident companies earning such income will still be subject to CIT, to be declared in their annual tax returns, at a general rate of 25 per cent.

(iii) NRIT – *Non-Resident Investors acting through a Permanent Establishment in Spain*

Ownership of the Notes and Certificates by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

If the Notes and Certificates form part of the assets of a permanent establishment in Spain of a person or legal entity who is not resident in Spain for tax purposes, the tax rules applicable to income deriving from such Notes and Certificates are, generally, the same as those previously set out for Spanish Corporate Income Taxpayers. See (ii) "CIT - Legal Entities with tax residence in Spain" above.

(iv) NRIT – *Non-Spanish Tax Resident Investors not acting through a Permanent Establishment in Spain*

Interest and other income deriving from the Notes and Certificates will be tax exempt in Spain and exempt from Spanish withholding tax when obtained by persons who are resident for tax purposes in a Member State of the European Union (other than Spain) or by a permanent establishment of such persons in another Member State of the European Union (other than Spain), provided that such income is not obtained through a country or territory regarded as a tax haven (pursuant to Royal Decree 1080/1991, of 5 July or any other regulation which may replace, amend or supplement this) and provided further that any such person

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

provides the Issuer with a certificate of tax residence issued by the competent authorities of their jurisdiction of residence prior to the date on which any relevant payment is made or becomes due. Such certificate is valid for a one-year period.

Holders of Notes and Certificates who are resident for tax purposes in a jurisdiction which has ratified a Double Tax Treaty ("**DTT**") (other than a Member State of the European Union) will be subject to NRIT and Spanish withholding tax on income obtained from the Notes and Certificates at the reduced rates (or subject to any exemption) set out in the DTT, if any. Such holders will have to evidence their tax residence by delivering to the Issuer, prior to the date on which any relevant payment is made or becomes due, a tax residence certificate within the meaning of the applicable DTT issued by the competent authorities of their jurisdiction of residence or, as the case may be, the equivalent document set out in the order which further develops the applicable DTT. Such certificate of tax residence is valid for a one-year period.

The Issuer will withhold from any interest payment and any income arising from the repayment of the Notes and Certificates at the general rate applicable from time to time, which is currently 19 per cent., or at the reduced rate set out in the applicable DTT, unless the application of a tax exemption is evidenced, as described above.

Notwithstanding the above, these holders will be tax exempt in Spain on any income arising from the transfer of the Notes and Certificates on a Spanish official secondary stock exchange, provided that they are resident in a jurisdiction which has ratified a DTT with Spain containing an exchange of information clause.

Other taxes

(A) INDIRECT TAXES

Whatever the nature and residence of the investor, the acquisition and transfer of the Securities will be exempt from indirect taxes in Spain, i.e. exempt from Transfer Tax and Stamp Duty and exempt from Value Added Tax.

(B) NET WEALTH TAX ("NWT**")**

(i) Individuals with tax residency in Spain

Only individual holders of Securities would be subject to the NWT as legal entities are not taxable persons under NWT.

Relevant taxpayers will be all those individuals who have their habitual residence in Spain regardless of the place where their assets or rights are located or could be exercised and whose net wealth is higher than EUR 700,000, as this amount is considered as exempt from NWT.

Spanish resident taxpayers should include in their NWT self-assessment the Securities for the following amounts:

- (a) if they are listed in an official market, the average negotiation value of the fourth quarter; and
- (b) in other case, its nominal value (including redemption premiums).

The value of the Securities together with the rest of the taxpayer's wealth, once reduced by the deductible in rem liens and encumbrances which reduce the rights and assets values and the personal debts of the taxpayer, shall be taxed at a tax rate between 0.2 to 2.5 per cent.

Finally, please note that the Spanish regions are entitled to modify (i) the threshold of net wealth exempt from taxation; (ii) the tax rates; and (iii) the tax benefits and exemptions to be applied in their territory.

In accordance with article 4 of Royal Decree-law 3/2016, of 2 December, a full exemption on NWT will apply in tax year 2018 unless such exemption is revoked. However, the draft bill of the General State Budget Law for 2018 (*Proyecto de Ley de Presupuestos Generales del Estado para el año 2018*), which is currently under parliament discussions, foresees the withdrawal of such exemption for 2018.

(ii) Individuals with no tax residency in Spain

Individuals resident in a jurisdiction which has ratified a DTT in relation to the NWT would generally not be subject to such tax in Spain. Otherwise, non-Spanish resident individuals whose properties and rights located in Spain, or that can be exercised within the Spanish territory exceed EUR700,000 would be subject to the NWT, the applicable general rates ranging between 0.2 and 2.5 per cent.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Non-Spanish resident individuals who are residents in the EU or in the European Economic Area can apply the legislation of the Spanish region in which the highest value of the assets and rights of the individuals are located.

However, non-Spanish resident individuals will be exempt from the NWT in respect of the Securities whose income is exempt from NRIT as described above.

Non-Spanish resident companies are not subject to NWT.

In accordance with article 4 of Royal Decree-law 3/2016, of 2 December, a full exemption on NWT will apply in tax year 2018 unless such exemption is revoked. However, the draft bill of the General State Budget Law for 2018 (*Proyecto de Ley de Presupuestos Generales del Estado para el año 2018*), which is currently under parliament discussions, foresees the withdrawal of such exemption for 2018.

(C) INHERITANCE AND GIFT TAX ("IGT")

(i) *Individuals with tax residency in Spain*

Individuals resident in Spain who acquire ownership or other rights over any Securities by inheritance, gift or legacy will be subject to IGT. The applicable effective tax rates range between 7.65 per cent. and 81.6 per cent., depending on several factors such as family relationship and pre-existing heritage. However, it is necessary to take into account that the IGT (including certain tax benefits) has been transferred to the Spanish regions. Therefore, an analysis must be made in each specific case to determine to what extent any regional legislation might be applicable, since there might be differences in respect of the final taxation under IGT depending on the region in which an investor resides.

(ii) *Companies with tax residency in Spain*

Companies resident in Spain which acquire ownership or other rights over the Securities by inheritance, gift or legacy are not subject to IGT, as income obtained will be subject to CIT.

(iii) *Individuals and companies with no tax residency in Spain*

Non-Spanish resident individuals that acquire ownership or other rights over the Securities by inheritance, gift or legacy, will not be subject to IGT provided that the Securities were not located in Spain and the rights deriving from them could not be exercised within Spanish territory. Otherwise, they may be subject to IGT, except as provided in any applicable DTT.

The acquisition of Securities by inheritance, gift or legacy by non-resident companies is not subject to the IGT, as income obtained will be subject to the NRIT, except as provided in any applicable DTT.

REPORTING OBLIGATIONS TO THE SPANISH TAX AUTHORITIES

Spanish resident holders of the Securities or non-resident holders with a permanent establishment in Spain to which the Securities are effectively connected should seek advice from their tax adviser as to whether they should include the Securities in the annual reporting (Form 720) to the Spanish Tax Authorities declaring assets and rights held outside Spain (filing in respect of the Securities held as of 31 December 2018 will be due by 31 March 2019). Failure to meet this reporting obligation may trigger significant tax penalties and other tax implications.

FATCA

Spain has implemented, through the Intergovernmental Agreement of 14 May 2013 and the Order HAP/1136/2014, of 30 June 2014, the legal framework based on reciprocal exchange of information on financial accounts subject to disclosure in order to comply with provisions of U.S. law commonly referred to "FATCA" (Foreign Account Tax Compliance Act).

10. Sweden

The following section briefly summarizes specific income taxation issues related to the Securities in Sweden. It only deals with particular aspects of the taxation issues and does not in any way represent a comprehensive analysis of all the tax consequences of the purchase, sale and redemption of the respective products. Furthermore, no account is taken of the tax regulations of countries other than Sweden and tax treaties, nor of the individual circumstances of the investor. Exceptions to the legal position presented here may apply to specific situations or to specific investors.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

The applicable legal position and its interpretation by the Swedish Tax Agency may be subject to change, which change may take place with retrospective effects. It should be noted that there is in Sweden currently very limited case law, guidelines by the Swedish Tax Agency or tax practice relating to the tax treatment of innovative structured financial products such as Warrants and Certificates et cetera. There is thus a possibility that the Swedish Tax Agency, courts or banks (paying or custody agents) may consider the tax position to be different from the position presented here.

Potential investors are strongly recommended to consult their personal tax advisers in order to obtain further information on the overall tax consequences and tax reporting obligations applicable with respect to the purchase, sale and redemption of the respective products, taking into account that there may be differences in the tax treatment of different series of Warrants, Certificates and Notes. Those advisers alone are in a position to make an adequate assessment based on the particular tax circumstances of the individual investor.

General

Any and all type of divestments (including redemptions or settlements) of Warrants, Certificates and Notes are considered to constitute a taxable event and taxed in accordance with applicable capital taxation rules. Capital gains, or losses, are normally calculated as the difference between any and all remuneration, after divestment costs have been deducted, and the tax base of the instruments including investment costs. When calculating the tax base, the so-called "average method" is normally used. The method entails that the tax base of an instrument is the average tax base for all instruments of the same class and kind held by a person or entity.

Tax consequences may vary depending on the type of underlying asset and the holders' situation. If the underlying assets are shares, share depository receipts, futures based on shares or indices, et cetera, the tax rules regarding shares are generally applicable. If the underlying assets are receivables or similar assets, the tax rules regarding these types of assets are generally applicable. If the underlying assets are commodities or futures based on commodities, et cetera, the tax rules regarding these types of assets will instead be applicable. Should the underlying assets be a mix of different type of assets (a basket of assets), it is not entirely clear how to classify the instrument for Swedish tax purposes. However, the Supreme Administrative Court held in a case, dated February 20, 2008, that the classification for tax purposes of a so-called "marked bond", based upon different type of assets, should be made at the time the bond was issued and on the basis of the weight of the different underlying assets. The case indicates that instruments with different underlying assets should be classified at that time and in accordance with the underlying asset with the greatest weight. The classification of the instrument is mostly of concern when setting off capital gains towards capital losses.

Holders resident in Sweden

Proceeds, to the extent they constitute a capital gain, interest or deemed interest, paid to a holder who is a resident in Sweden for tax purposes and an individual will be taxed as capital income and taxed at flat rate of 30 per cent. Capital losses are deductible against capital income. Capital losses incurred from the sale or redemption of listed securities can be fully offset against taxable capital gains occurring in the same year due to the sale of listed shares and listed securities (with the exception of shares in investment funds holding only Swedish receivables, known as Swedish fixed income funds). In case of excess loss, 70% of this loss is deductible against other capital income. In case of a net capital loss, such loss may be used for tax reduction on earned income tax as well as central government and municipal property taxes. Tax reduction is granted with 30% of the net capital loss up to SEK 100,000 and 21% of any loss exceeding SEK 100,000. Note that if the taxable individual has made/makes an "investment deduction" (Sw. *Investeraravdrag*) the same fiscal year, the calculation will differ. Tax losses cannot be carried forward to future income years. Specific tax consequences may, however, be applicable to certain individuals and certain ways of investing, for example, investments through endowment insurances or investment savings accounts.

Proceeds, to the extent they constitute a capital gain, interest or deemed interest, paid to a holder who is a resident in Sweden for tax purposes and a legal entity will be taxed as business income and taxed at a flat rate of 21,4 per cent (in 2021 the rate will be reduced to 20,6 per cent). Capital losses are generally

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

deductible against business income. However, losses on Notes may not be deductible in case the holder of the Notes and the issuer of the Notes are considered related parties. Tax losses may, subject to certain restrictions in case of a change of ownership or mergers, be carried forward indefinitely. Specific tax consequences may, however, be applicable to certain categories of legal entities, for example, investment companies, life insurance companies and partnerships.

For holders who are legal entities interest or deemed interest will become taxable on an annual accrual basis in accordance with Swedish GAAP, while capital gains normally will become taxable at the time of the disposal, redemption or settlement, of the instrument. A holder who is a legal entity may also become subject to corporate income tax in case of unrealized currency exchange gains on an annual basis in accordance with Swedish GAAP. Swedish GAAP may, however, have a different content for certain types of legal entities, for example, banks and insurance companies, as well as for entities of different sizes.

Tax on payment of interest, deemed interest or dividends to holders who are private individuals may be withheld at source. The Issuer does not assume any responsibility for the withholding of taxes at the source.

Holders not resident in Sweden

Individuals who are non-resident in Sweden for tax purposes (and who has not been resident in Sweden during the last ten-year period) and legal entities not incorporated, registered, and without a permanent establishment, in Sweden are normally not subject to Swedish capital income taxation on payments of capital gain, interest or deemed interest.

Sweden does not impose withholding tax on payments of interest, deemed interest or capital payments unless such payments are re-categorized as dividend distribution. In such case, a withholding tax of 30 per cent is charged, unless there is an exception in a tax treaty or EU directive. However, a Swedish legal entity or permanent establishment effecting an interest payment to an individual (or an estate of a deceased individual) will normally be required to withhold Swedish preliminary tax (Sw. *preliminärskatt*) on the payment. The preliminary tax so withheld is normally equal to the final tax on the interest income, which means that there is generally no further tax payable on the interest payments made by the issuer. The Issuer does not assume any responsibility for the withholding of taxes at the source.

Gift or Inheritance Taxes

Sweden has currently no gift or inheritance tax.

Value Added Tax

No VAT is levied in relation to the investment in the financial instruments and notes.

Tax Compliance Requirements

Under Swedish domestic tax law, a Swedish credit institution, a Swedish branch of a foreign credit institution or a Swedish broker is obliged to report any interest payments and dividends under the Securities. Capital gains and losses derived from the Securities by individuals shall also be reported to the Swedish Tax Agency under certain conditions.

Resident individuals are required to review the tax information related to the Securities contained in their pre-completed annual tax return and, if necessary, correct or complete the information in their tax return. Investors who are in any doubt as to their position should consult their professional advisers.

11. Finland

The following section briefly summarizes specific taxation issues related to the Securities in Finland. It only deals with particular aspects of the taxation issues and does not in any way represent a comprehensive analysis of all the consequences of the purchase, sale and redemption of the Securities.

This analysis is based upon the Finnish law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date, including changes with retroactive effect. It should be

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

noted that there is currently very limited case law or tax practice in Finland relating to the tax treatment of particular Securities.

The tax treatment applicable to a holder of Securities depends on the individual circumstances of such holder. Tax consequences may vary depending on the type of underlying asset and the investor's situation. Potential investors are recommended to consult their personal tax advisers as to the consequences under the laws of the country of which they are residents for tax purposes and the tax law of Finland in order to obtain further information on the overall tax consequences and tax reporting obligations applicable with respect to the purchase, sale and redemption of the Securities, taking into account that there may be differences in the tax treatment of different types of Securities. Those advisers alone are in a position to make an adequate assessment based on the particular tax circumstances of the individual investor.

Finnish residents

The following section applies to investors who are tax residents in Finland. Tax resident investors are individuals having their home or main abode in Finland or individuals staying in Finland for a continuous period of more than six months, as well as companies that are registered in Finland or otherwise established under Finnish law or under the applicable tax treaty having a permanent establishment for income tax purposes in Finland. A Finnish citizen is, however, normally deemed to be fully liable to tax in Finland until three years have elapsed from the end of the year during which the citizen left the country. Double tax treaties may restrict the authority of the Finnish state to tax foreign source income of an individual or entity deemed as resident of Finland pursuant to Finnish domestic tax law.

Individual investors

The general information below only relates to the taxation of private individuals who are residents in Finland for income tax purposes, and who hold the Securities as private assets.

The tax treatment of the Securities depends on the nature of the particular security in question. The Security representing a derivative financial instrument, where the value of the security is linked to the value of the underlying instrument is generally treated differently from the Securities that represent debt instruments.

a) Securities representing derivative instruments

Finnish tax laws do not include any specific provisions on taxation of derivative instruments such as warrants and certificates. Therefore some interpretation risks may exist related to the taxation of derivative instruments. The description below is based on interpretation of general Finnish tax provisions, a decision of the Finnish Supreme Administrative Court (KHO 2013:117) and the guidelines of the Finnish Tax Administration.

Capital gains from the sale or exercise of listed Securities (or Securities that could be listed, further referred together to as "listed Securities") are subject to taxation in Finland as capital income of the Finnish resident individual investor. The tax rate applicable to capital income is 30 per cent. and 34 per cent. for the capital income exceeding EUR 30 000 per year. Capital gains are not subject to tax withholding in Finland, and the taxes due are payable by the Finnish resident individual investor personally. Capital gains arising from a sale of assets are exempted from tax if the total amount of the sales prices of the assets sold by the Finnish resident individual investor does not exceed EUR 1 000 in a tax year.

Capital losses arising from the sale or exercise, or expiry, of listed Securities are deductible from other capital gains or capital income in the same year or during the following five years. The capital losses will not, however, be tax deductible if the total amount of the acquisition prices of the assets sold by the Finnish resident individual investor does not exceed EUR 1 000 in a tax year.

Taxable capital gains and losses are calculated as the difference between the sales or exercise proceeds and the aggregate of the actual acquisition cost of the Securities and the sales or exercise related expenses. When calculating capital gains, Finnish resident individual investors may choose to apply the so-called acquisition cost presumption instead of the actual acquisition cost. The acquisition cost presumption is normally 20 per cent. of the sales or exercise proceeds, but it is 40 per cent. of the sales or exercise proceeds for listed Securities that have been held by the Finnish resident individual investor for a period of at least ten years. If the acquisition cost presumption is applied instead of the actual acquisition cost, any sales or exercise related expenses cannot be separately deducted from the sales or exercise proceeds.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Finnish resident individual investors must include in their income tax returns information on the sale or exercise of the listed Securities taken place during the tax year.

According to case law (SAC 2013:117) and recently published Finnish Tax Administration guidelines, gains from the sale or exercise of non-listed Securities that are transferable securities and that have such qualities that they could be listed, is subject to taxation in Finland as capital gains, and loss tax deductible as capital loss. Loss arising from expiry of such Securities is also deductible as capital loss.

Gains from the sale or exercise of non-listed Securities which do not qualify for capital gains taxation are taxable as general capital income of the Finnish resident individual investor, and not as capital gains. General capital income paid to a Finnish resident individual investor by a Finnish paying agent is as a rule subject to withholding tax at a rate of 30 per cent. The taxes withheld are taken into account as credits in the final taxation of the Finnish resident individual investor. In the final taxation, the capital income is taxable at the rate of 30 or 34 per cent. as discussed above. Losses arising from the sale or exercise as well as from expiry of non-listed Securities which do not qualify for capital gains are non-deductible altogether in the taxation of a Finnish resident individual investor.

Payments under the Securities attributable to the business activity of an individual or an estate for Finnish tax purposes are included in the total business income of such individual or estate. The business income is divided according to the Finnish Income Tax Act for taxation purposes into the capital income and earned income.

b) Securities representing debt instruments

Under present Finnish domestic tax law, holders of Securities representing debt instruments (Fin. *joukkovelkakirja*), who are individuals or an estate of a deceased person and resident in Finland for tax purposes, will be subject to Finnish capital income tax on interest payments and capital gains under the Securities in accordance with Income Tax Act (1535/1992, as amended), if the Issuer is foreign resident and the Securities are not issued by Issuer's permanent establishment for income tax purposes in Finland.

Capital gains

Capital gains realized on the sale or redemption of the Securities are subject to Finnish capital income tax as capital gain based on case law (SAC 2018:170). Capital gain is taxed at a rate of 30 per cent. and to the extent the annual capital gain and income of a Finnish private person exceeds EUR 30 000 the tax rate is 34 per cent. Capital losses realized on the sale or redemption of the Securities are deductible from capital gains and from other capital income derived in the same year as the year of the relevant loss or in the five subsequent tax years. The acquisition cost presumption of 20% or 40% can be applied instead on the real acquisition cost (as described in subsection a) above).

Special tax provisions may apply to small capital gains and losses (as described above in subsection a)). If Securities are acquired in the secondary market, any secondary market compensation paid by the Security holder is deductible from the capital income or, to the extent exceeding capital income, from earned income subject to limitations of the Income Tax Act.

Interest

Interest income received under the Securities and the index compensation paid in connection with redemption of capital guaranteed Securities are subject to Finnish capital income tax in accordance with Income Tax Act, if the Issuer is a foreign resident and not acting through a permanent establishment in Finland. The capital income is taxed as described above.

According to the Finnish court practice the income received from the sale or redemption of particular Securities (such as zero coupon bonds, where the profit is paid at maturity only) is generally considered as interest income and taxed as described above in accordance with Income Tax Act.

Tax withholding

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

The Issuer is not under an obligation to perform any withholding or deduction for or on account of any income tax imposed, levied, withheld or assessed by Finnish Tax Administration in respect of any payments under the Securities.

An agent or intermediary resident in Finland shall withhold advance income tax at the rate of 30 per cent. from any interest, interest compensation (Fin. *jälkimarkkinahyvitys*) or index compensation, (Fin. *indeksihyvitys*) paid to an individual or estate residing in Finland, where such payment is made through the agent or intermediary in Finland.

However, to the extent the payments in respect of the Securities are classified as capital gain, which should be the case upon the exercise of listed Securities, they are generally not subject to advance withholding of income tax in Finland.

Finnish resident corporate investors

For holders of Securities, who are resident limited companies or other resident entities subject to corporate income tax, interest payments and capital gains under the Securities are regarded as taxable corporate income. The current tax rate for limited liability companies and other entities subject to corporate tax is 20 per cent.

Income accrued from the sale or exercises of listed Securities that are included in the business assets of corporations with unlimited tax liability in Finland are deemed income subject to corporate income tax of 20 per cent. Correspondingly, the acquisition cost of Securities is treated as a deductible expense. Thus, the profit being the difference between the sales price and the acquisition cost of the Securities is taxed as a corporate income of the legal entity. Confirmed tax losses of the business activities are deductible from taxable business income in the same tax year and the ten subsequent tax years.

In the event the listed Securities are not included in a company's business assets, income accrued from the listed Securities may be taxed as capital gains relating to the source of company's other income. Furthermore, a company may not use an acquisition cost presumption, and the capital loss arising from the sale of Securities cannot be deducted from the business profits, but is deductible only from capital gains arising in the same year and during the following five tax years.

Non-resident individual and corporate investors

In case of non-resident corporate investors, capital gains from the sale or exercise of listed Securities is not subject to taxation in Finland, unless the Securities relate to business carried out in Finland through a corporate investor's permanent establishment. Even the income from the sale or exercise of non-listed Securities should not be subject to taxation in Finland for non-resident investors unless the Securities relate to business carried out in Finland through a permanent establishment.

Non-profit organizations

An organization, which is considered as a non-profit organization in accordance with art. 22 in the Income Tax Act, is not liable to tax for the personal source income. Accordingly, the losses incurred are not deductible. The income received from the exercise of the Securities is generally considered a personal income for Finnish tax purposes. However, exercising large investment activities may lead to forfeiture of the non-profit status and thus, to the taxation of income under Securities. The business source income received from the business activities of the non-profit organization is subject to corporate tax as described above in relation to Finnish corporate investors.

Inheritance and gift taxes

In accordance with domestic tax law, transfer of Securities by way of gift or inheritance is subject to Finnish gift or inheritance tax, respectively, if either the transferor or the transferee was resident for tax purposes in Finland at the time of death or donation. Finland's right to impose gift or inheritance tax on transfer of movable property in the form of gift or inheritance received by residents and non-residents of Finland may, however, be limited by virtue of applicable tax treaties.

Transfer tax

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Securities with the meaning of this Base Prospectus are not subject to Finnish transfer taxation.

Tax Compliance Requirements

Under Finnish domestic tax law, a Finnish credit institution, a Finnish branch of a foreign credit institution or a Finnish broker is obliged to report any interest payments under the Securities and any secondary market or index compensations paid and received to the Finnish Tax Administration. Capital gains and losses derived from the Securities by individuals and estates of deceased persons shall also be reported to the Finnish tax administration under certain conditions.

Resident individuals and estates of deceased persons are required to review the tax information related to the Securities contained in their pre-completed annual tax return and, if necessary, correct or complete the information in the tax return.

Investors who are in any doubt as to their position should consult their professional advisers.

12. Norway

The following is a general overview of certain Norwegian tax matters related to of the acquisition, holding and disposal of Securities. The overview does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities and does not consider any specific facts or circumstances that may apply to a particular purchaser. This overview is based on the laws of Norway currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect. Prospective purchasers of the Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of the Securities.

As each Series of Securities may be subject to a different tax treatment due to the specific terms of such Series as set out in the respective Final Terms, the following section only provides some general information on the possible tax treatment. The taxation of income derived from the Securities will depend on underlying instrument of the Securities, e.g. income derived from underlying debt instruments and shares are taxed differently. Below we have described the tax consequences of the Securities when the underlying investments are; 1) a debt instruments, and 2) shares.

Please note that for the purpose of the overview below, a reference to a Resident or Non-resident refers to the tax residency of the Securities holder and not the nationality.

Securities which are considered as debt instruments for tax purposes

If the underlying instrument of the Securities is debt, the Securities would for Norwegian tax purposes be considered as a debt instrument. Current income, or dividends, derived from the Securities be taxed as interests.

Sale, redemption or other disposal of Securities is considered a realisation for Norwegian tax purposes, upon which tax consequences are described below. Where Securities are issued in a currency other than Norwegian kroner (NOK) any currency gains or losses are part of the capital gains.

With regard to *debt instruments* corporate Securities holders and individual Securities holders are taxed in the same way.

Non-resident Securities holder

Interest paid to a Non-resident Securities holder will not be subject to Norwegian income, unless the holder of Securities carries out a trade or business in Norway subject to taxation in Norway (including, but not limited to, individuals and legal entities having a permanent establishment in Norway) and the Securities are used in or connected with the business activity in Norway. Such tax liability may be modified through an applicable tax treaty. There is currently no withholding tax on interests in Norway.

A Non-resident holder of Securities is not taxed in Norway on *capital gains* derived from the sale, disposal or redemption of the Securities, unless the holder of Securities carries out a trade or business in Norway subject to taxation in Norway (including, but not limited to, individuals and legal entities having a permanent

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

establishment in Norway) and the Securities are used in or connected with the business activity in Norway. Such tax liability may be modified through an applicable tax treaty.

Resident Securities holder

A Resident Securities holder is subject to Norwegian income taxation on interest at the applicable tax rate, currently at a tax rate of 24% of net taxable income.

A Resident holder of Securities will be subject to Norwegian income taxation on capital gains derived from the sale, disposal or redemption of the Securities at the applicable tax rate, currently at a tax rate of 24% of net taxable income. Correspondingly, a loss derived by the sale, disposal or redemption of the Securities is deductible at the applicable tax rate, currently at a tax rate of 24%.

The taxable gain/deductible loss is calculated per security as the difference between the consideration for the security and the Resident Securities holder's cost price of the security, including costs incurred in relation to the acquisition or realisation of the security.

Securities which have shares as the underlying instrument

Securities which have shares as the underlying instrument is tax as the Securities were shares for tax purposes. For tax purposes one has to distinguish between individual Securities holders, corporate Securities holders, and whether or not the Securities holder is resident in Norway for tax purposes.

Resident Individual Securities Holders

Dividends received by Securities holders who are individuals resident in Norway for tax purposes ("**Resident Individual Securities Holders**") are taxable as ordinary income in Norway, adjusted with a factor of 1.24. Ordinary income is taxable at a rate of 24%, giving an effective tax rate of 29.76% (24% x 1.24). However, this will only apply to dividends exceeding a calculated risk-free return on the investment (tax-free allowance), which itself is tax exempt.

The allowance is calculated annually on the underlying share and pertains to the owner of the underlying share at the expiration of the relevant calendar year. The allowance for each share is equal to the cost price of the underlying share multiplied by a risk free interest rate based on the effective rate after tax of interest on treasury bills (Nw. *statskasserveksler*) with three months maturity.

Resident Individual Securities Holders who transfer Securities will thus not be entitled to deduct any calculated allowance related to the year of transfer.

Any part of the calculated allowance one year exceeding the dividend distributed on the Securities ("excess allowance") may be carried forward and set off against future dividends received on, or gains upon realisation of, the same underlying share, and will be added to the basis for the allowance calculation. Excess allowance cannot result in a deductible loss.

Sale, redemption or other disposal of Securities is considered a realisation for Norwegian tax purposes. A capital gain or loss generated by a Resident Individual Securities Holders through a disposal of Securities is taxable or tax deductible in Norway. Such capital gain or loss is included in or deducted from the Resident Individual Securities Holders' ordinary income in the year of disposal. Ordinary income is taxable at a rate of 24% adjusted with a factor of 1.24, giving an effective tax rate of 29.76% (24% x 1.24).

The taxable gain/deductible loss is calculated per underlying share as the difference between the consideration for the underlying share and the Resident Individual Securities Holders' cost price of the underlying share, including costs incurred in relation to the acquisition or realisation of the underlying share. From this capital gain, Resident Individual Securities Holders are entitled to deduct a calculated allowance provided that such allowance has not already been used to reduce taxable dividend income.

Resident Corporate Securities Holders

Dividends from such Securities distributed to resident corporate holders of Securities which are limited liability companies (and certain similar entities) resident in Norway for tax purposes ("**Resident Corporate Securities Holders**"), are effectively taxed at a rate of 0.72% (3% of dividend income from such Securities

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

is included in the calculation of ordinary income for Norwegian Corporate Securities Holders and ordinary income is subject to tax at a flat rate of 24%), provided that such shares qualifies for the exemption under the Norwegian tax act section 2-38.

Resident Corporate Securities Holders are exempt from tax on capital gains derived from the Securities with shares as the underlying instrument, provided that such shares qualifies for the exemption. Losses upon the realisation and costs incurred in connection with the purchase and realisation of such Securities are not deductible for tax purposes.

Non-Resident Individual Securities Holders

Dividends distributed from such Securities with shares as the underlying instrument to individuals who are not resident in Norway for tax purposes ("**Non-Resident Individual Securities Holders**"), are as a general rule subject to withholding tax at a rate of 25%. The withholding tax rate of 25% is normally reduced through tax treaties between Norway and the country in which the Non-Resident Individual Securities Holders is resident.

Non-Resident Individual Securities Holders resident within the EEA for tax purposes may apply individually to Norwegian tax authorities for a refund of an amount corresponding to the calculated tax-free allowance on each individual underlying share as described above for Resident Individual Securities Holders. However, the deduction for the tax-free allowance does not apply in the event that the withholding tax rate, pursuant to an applicable tax treaty, leads to a lower taxation on the dividends than the withholding tax rate of 25% less the tax-free allowance.

If a Non-Resident Individual Securities Holder is carrying on business activities in Norway and the Securities are effectively connected with such activities, the Non-Resident Individual Securities Holders will generally be subject to the same taxation of dividends as a Resident Individual Securities Holder, as described above.

Non-Resident Individual Securities Holders who have suffered a higher withholding tax than set out in an applicable tax treaty may apply to the Norwegian tax authorities for a refund of the excess withholding tax deducted.

Capital gains from the sale or other disposal of such Securities by a Non-Resident Individual Securities Holders will not be subject to taxation in Norway unless the Non-Resident Individual Securities Holders holds the Securities in connection with business activities carried out or managed from Norway or, on specific conditions, when the Securities are held by a Non-Resident Individual Securities Holders who has been a resident of Norway for tax purposes with unsettled/postponed exit tax calculated on the Securities at the time of cessation as Norwegian tax resident.

Non-Resident Corporate Securities Holders

Dividends distributed from such Securities with shares as the underlying instrument to limited liability companies (and certain other entities) not resident in Norway for tax purposes ("**Non-Resident Corporate Securities Holders**"), are as a general rule subject to withholding tax at a rate of 25%. The withholding tax rate of 25% is normally reduced through tax treaties between Norway and the country in which the Non-Resident Corporate Securities Holders is resident, provided that the Non-Resident Corporate Securities Holders is the beneficial owner of the Securities.

Dividends distributed to Non-Resident Corporate Securities Holders resident within the EEA for tax purposes are exempt from Norwegian withholding tax provided that the Non-Resident Corporate Securities Holders is genuinely established and performs genuine economic business activities within the relevant EEA jurisdiction.

If a Non-Resident Corporate Securities Holders is carrying on business activities in Norway and the Securities are effectively connected with such activities, the Non-Resident Corporate Securities Holders will

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

generally be subject to the same taxation of dividends as a Resident Corporate Securities Holders, as described above.

Non-Norwegian Corporate Share Holders who are exempt from withholding tax or have suffered a higher withholding tax than set out in an applicable tax treaty may apply to the Norwegian tax authorities for a refund of the excess withholding tax deducted.

Nominee registered Securities will be subject to withholding tax at a rate of 25% unless the nominee has obtained approval from the Norwegian tax authorities for the dividend to be subject to a lower withholding tax rate. To obtain such approval the nominee is required to file an overview to the tax authorities including all beneficial owners that are subject to withholding tax at a reduced rate.

Capital gains derived by the sale or other realisation of such Securities by Non-Resident Corporate Securities Holders are generally not subject to taxation in Norway.

Other tax matters

Net wealth tax

Securities holders which are individuals who are resident in Norway for tax purposes are subject to net wealth tax. The value of Securities is included in the basis for the computation of net wealth tax imposed on Norwegian Personal Share Holders. The marginal net wealth tax rate is currently 0.85% of the value assessed. The value for assessment purposes will depend on the underlying instrument of the Securities.

Corporate Securities holders and non-resident Securities holders are not subject to net wealth tax.

VAT and transfer taxes

There are no VAT, stamp or similar duties are currently imposed in Norway on the transfer or issuance of Securities.

Inheritance tax

A transfer of Securities through inheritance or as a gift does not give rise to inheritance or gift tax in Norway. However, the heir acquires the donor's tax input value based on principles of continuity. Thus, the heir will be taxable for any increase in value in the donor's ownership, at the time of the heir's realization.

13. Denmark

The following section briefly summarizes specific taxation issues related to the Securities in Denmark. It only deals with particular aspects of the taxation issues and does not in any way represent a comprehensive analysis of all the consequences of the purchase, sale and redemption of the Securities.

This analysis is based upon the Danish law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date, including changes with retroactive effect. The description below is based on interpretation of general Danish tax provisions, leading decisions of the courts and the guidelines of the Danish Tax Administration.

The tax treatment applicable to a holder of Securities depends on the individual circumstances of such holder. Tax consequences may vary depending on the type of underlying asset and the investor's situation. Potential investors should be recommended to consult their personal tax advisers as to the consequences under the laws of the country of which they are residents for tax purposes and the tax laws of Denmark in order to obtain further information on the overall tax consequences and tax reporting obligations applicable with respect to the purchase, sale and redemption of the Securities, taking into account that there may be differences in the tax treatment of different types of Securities. Those advisers alone are in a position to make an adequate assessment based on the particular tax circumstances of the individual investor.

Danish residents

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

The following section applies to investors who are tax residents in Denmark and thus subject to unlimited tax liability in Denmark. Tax resident investors are individuals having a permanent home in Denmark and staying in Denmark for a certain period, or without a permanent home staying in Denmark for a consecutive period of minimum 6 months. Further tax resident investors are companies that are registered in Denmark or otherwise established under Danish law or a foreign company having its seat of effective management situated in Denmark. A foreign company can also be subject to Danish tax liability if having a permanent establishment for income tax purposes in Denmark to which the Securities are attributed. Double tax treaties may restrict the authority of the Danish state to tax foreigners on Danish sourced income or capital gains.

Individual investors

The general information below only relates to the taxation of individuals who are residents in Denmark for income tax purposes, and who hold the Securities as private assets (Securities held in a pension scheme are subject to special rules not discussed here).

The tax treatment of the Securities depends on the nature of the particular security in question.

a) Securities representing derivative instruments

A Security representing a derivative financial instrument, where the value of the security is linked to the value of the underlying instrument is generally treated separately from the taxation of the underlying instrument according to Danish Financial Instruments' Act (in Danish "kursgevinstloven").

However, certain financial instruments with respect to shares may be taxed in accordance with the rules applying to shares. For example, a temporary purchase certificate which automatically will be exchanged into a share (when the Security has been listed in the permanent ISIN in VP Securities) would not for tax purposes be treated as a separate financial instrument but would be deemed as a share and taxed accordingly.

b) Securities representing an ownership stake in a company

Capital gains from the sale of Securities (whether listed or not) and dividends are taxed as share income at a rate of 27% on the first DKK 54,000 in 2019 (for cohabiting spouses, a total of DKK 108,000) and at a rate of 42% on share income exceeding DKK 54,000 (for cohabiting spouses over DKK 108,000). Such amounts are subject to annual adjustments and include all share income (i.e., all capital gains and dividends derived by the individual or cohabiting spouses, respectively).

Gains and losses on the sale of Securities are calculated as the difference between the purchase price and the sale price. The purchase price is generally determined using the average method which means that each share is considered acquired at a price equivalent to the average acquisition price of all the shareholder's shares in the issuing company.

Losses on the sale of listed Securities can only be offset against share income deriving from listed Securities (i.e., received dividends and capital gains on the sale of listed Securities). Unused losses will be offset against a cohabiting spouse's share income deriving from listed Securities. Any remaining losses after the above deduction can be carried forward indefinitely and offset against future share income deriving from listed Securities.

Losses on listed Securities may only be set off against gains and dividends on other listed Securities if the Danish Tax Authorities have received certain information concerning the ownership of the shares. This information is normally provided to the Danish Tax Authorities by the securities dealer.

Losses on unlisted Securities are deductible in the share income and if negative, the tax value is computed and deductible against other income taxes.

c) Securities representing debt instruments

Interest

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Interest income received under the Securities is taxed as capital income at a rate of 42%. If the net capital income exceeds certain thresholds, additional tax is levied.

Gains and losses

Gains and losses are as a starting point taxable/deductible as capital income, subject to a de minimis threshold of DKK 2,000. Losses on listed Securities may only be deducted if the Danish Tax Authorities have received certain information concerning the acquisition of the Securities.

Tax withholding

The Issuer of shares is under an obligation to withholding in relation to dividends. Dividends paid to individuals are generally subject to 27% withholding tax. See also below.

The issuer of derivatives and debt instruments is generally not subject to any withholding requirements.

Danish resident corporate investors

Tax on the sale of shares by companies is subject to different regimes depending on whether the shares are considered as Subsidiary Shares, Group Shares, Tax-Exempt Portfolio Shares or Taxable Portfolio Shares.

"Subsidiary Shares" are generally defined as shares owned by a shareholder holding at least 10% of the nominal share capital of the issuing company. "Group Shares" are generally defined as shares in a company in which the shareholder of the company and the issuing company are subject to Danish tax consolidation or fulfil the requirements for international tax consolidation under Danish law. "Tax-Exempt Portfolio Shares" are generally defined as shares not admitted to trading on a regulated market owned by a shareholder holding less than 10% of the nominal share capital in the issuing company. Tax-Exempt Portfolio Shares are not relevant in respect of this Base Prospectus and will not be described in further detail.

"Taxable Portfolio Shares" are shares that do not qualify as Subsidiary Shares, Group Shares or Tax-Exempt Portfolio Shares.

Gains or losses on disposal of Subsidiary Shares and Group Shares are not included in the taxable income of the shareholder. Special rules apply in order to prevent avoidance of the 10% ownership requirement through pooling of shareholdings in a holding company. These rules will not be described in further detail. Capital gains from the sale of Taxable Portfolio Shares are taxable at the corporate income tax rate of 22%. Losses on such shares are generally deductible.

Gains and losses on Taxable Portfolio Shares are, as a general rule, calculated in accordance with the mark-to-market principle. According to the mark-to-market principle, each year's taxable gain or loss is calculated as the difference between the market value of the shares at the beginning and end of the tax year. Thus, taxation will take place on an accrual basis even if no shares have been disposed of and no gains or losses have been realised. If the Taxable Portfolio Shares are sold or otherwise disposed of before the end of the income year, the taxable income of that income year equals the difference between the value of the Taxable Portfolio Shares at the beginning of the income year and the value of the Taxable Portfolio Shares at realisation. If the Taxable Portfolio Shares have been acquired and realised in the same income year, the taxable income equals the difference between the acquisition sum and the realisation sum. If the Taxable Portfolio Shares are acquired in the income year and not realised in the same income year, the taxable income equals the difference between the acquisition sum and the value of the Shares at the end of the income year.

A change of status from Subsidiary Shares/Group Shares to Taxable Portfolio Shares (or vice versa) is for tax purposes deemed to be a disposal of the shares and a reacquisition of the shares at market value at the time of change of status.

Dividends received on Taxable Portfolio Shares are subject to the standard corporate tax rate of 22% irrespective of ownership period. The withholding tax rate is 22%. If the distributing company withholds a higher amount, the shareholder can claim a refund of the excess tax. A claim for repayment must be filed within two months; otherwise the excess tax will instead be credited in the corporate income tax for the year. Dividends received on Subsidiary Shares and Group Shares will not be subject to taxation irrespective of ownership period.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Non-resident individual and corporate investors

Shareholders not resident in Denmark will normally not be subject to Danish tax on any gains realised on the sale of Securities. Where a non-resident of Denmark holds Taxable Portfolio Shares which can be attributed to a permanent establishment in Denmark, such gains are taxable pursuant to the rules applicable to Danish tax residents as described above.

Dividends—individuals

Danish withholding tax is generally levied on dividends on shares at a rate of 27%. A request for a refund of Danish withholding tax can however be made by the shareholder in the following situations:

1) Double Taxation Treaty

In the event that the dividend receiving individual is a resident of a state having a double taxation treaty with Denmark, the shareholder may claim a refund of the tax amount exceeding the treaty rate, through certain application procedures, from the Danish tax authorities. Denmark has executed double taxation treaties with approximately 80 countries, including the United States and almost all members of the EU. The double taxation treaties generally provide for a 15% tax rate. The refund is sought by completing form 06.003 and filing it with the Danish Tax Authorities. The form can be downloaded from the Danish Tax Authorities' website and filing can be made electronically.

2) Credit under Danish law

In addition, if the shareholder holds less than 10% of the nominal share capital of the company and the shareholder is a tax resident in a state which has a double taxation treaty or an international agreement, convention or other administrative agreement on assistance in tax matters according to which the competent authority in the state of the shareholder is obliged to exchange information with Denmark, dividends are taxed at a reduced rate of 15%. If the shareholder is a tax resident outside the EU, it is an additional requirement for eligibility for the 15% tax rate that the shareholder together with related shareholders holds less than 10% of the nominal share capital of the company. Note that the reduced tax rate does not affect the withholding rate.

Thus, the shareholder must also in this situation claim a refund as described above in order to benefit from the reduced rate.

Note that the Danish tax form described in this section requires a certification by the applicable local tax authority. [With respect to U.S. individuals, a properly completed IRS Form 6166 should satisfy this requirement].

Where a non-resident individual of Denmark holds Securities attributable to a permanent establishment in Denmark, dividends are taxable pursuant to the rules applicable to Danish tax residents described above.

Dividends—companies

Dividends from Subsidiary Shares are exempt from Danish withholding tax provided the taxation of the dividends is to be waived or reduced in accordance with the Parent Subsidiary Directive (2011/96/EU as amended 2015/121/EU) or in accordance with a tax treaty with the jurisdiction in which the company investor is resident.

Dividends from Group Shares are exempt from Danish withholding tax provided the company investor is a resident of the EU or the EEA and the taxation of dividends should have been waived or reduced in accordance with the Parent Subsidiary Directive (2011/96/EU as amended 2015/121/EU) or in accordance with a tax treaty with the country in which the company investor is resident had the shares been Subsidiary Shares.

Dividend payments on Taxable Portfolio Shares are subject to a Danish withholding tax rate of 27% irrespective of ownership period. A request for a refund of Danish withholding tax can however be made by the shareholder in the following situations:

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

1) All foreign corporate shareholders

All foreign corporate shareholders can claim a refund from the Danish tax authorities of the tax amount exceeding 22%.

2) Double Taxation Treaty

In the event that the dividend receiving company is a resident of a state with which Denmark has entered into a double taxation treaty, the shareholder may claim a refund from the Danish tax authorities of the tax amount exceeding the treaty rate, through certain certification procedures. Denmark has executed double taxation treaties with approximately 80 countries, including the United States and almost all members of the EU. The double taxation treaties generally provide for a 15% tax rate. The refund is sought by completing form 06.003 and filing it with the Danish Tax Authorities. The form can be downloaded from the Danish Tax Authorities' website and filing can be made electronic.

Note that the Danish tax form described in this section requires a certification by the applicable local tax authority. With respect to U.S. persons, a properly completed IRS Form 6166 should satisfy this requirement.

3) Credit under Danish law

In addition, if the shareholder holds less than 10% of the nominal share capital of the company and the shareholder is a tax resident in a state which has a double taxation treaty or an international agreement, convention or other administrative agreement on assistance in tax matters according to which the competent authority in the state of the shareholder is obliged to exchange information with Denmark, dividends are subject to tax at a reduced rate of 15%. If the shareholder is a tax resident outside the EU, it is an additional requirement for eligibility for the 15% tax rate that the shareholder together with related shareholders holds less than 10% of the nominal share capital of the company. Note that the reduced tax rate does not affect the withholding rate.

Thus, the shareholder must also in this situation claim a refund as described above in order to benefit from the reduced rate.

Where a non-resident of Denmark holds shares attributable to a permanent establishment in Denmark, dividends are taxable pursuant to the rules applicable to Danish tax residents described above.

Transfer tax

Securities with the meaning of this Base Prospectus are not subject to Danish transfer taxation.

Tax Reporting Requirements

Danish credit institutions, Danish branches of foreign credit institutions or Danish brokers are obliged to report any interest payments and dividends under the Securities. Capital gains and losses derived from the Securities by individuals shall also be reported to the Danish tax administration under certain conditions.

Resident individuals are required to review the tax information related to the Securities contained in their pre-completed annual tax return and, if necessary, correct or complete the information in the tax return. Investors who are in any doubt as to their position should consult their professional advisers.

15. United Kingdom

The following is an overview of the Issuer's understanding of current United Kingdom tax law (as applied in England and Wales) and published HM Revenue and Customs' ("HMRC") practice relating only to the United Kingdom withholding tax treatment of payments in respect of Securities. It does not deal with any other United Kingdom taxation implications of acquiring, holding, exercising, disposing or the settlement or redemption of Securities. The United Kingdom tax treatment of prospective holders of Securities depends on their individual circumstances and may be subject to change in the future. Holders of Securities who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

United Kingdom withholding taxes can apply to a number of different types of payments. Those which could be relevant to securities such as the Securities include: interest, annual payments and manufactured payments. As a general matter, the Issuer may make payments under the Securities without any deduction of or withholding on account United Kingdom income tax if the payments do not have a United Kingdom source and they are not made by the Issuer in the course of a trade carried on in the United Kingdom through a branch or agency.

Payments of interest on the Securities

Whether or not payments or any part of any payment on a Security will constitute "interest" will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which amounts payable on the Securities are calculated.

Payments of interest on the Securities that does not have a United Kingdom source may be made without deduction or withholding on account of United Kingdom income tax. If interest paid on the Securities does have a United Kingdom source, then payments may be made without deduction or withholding on account of United Kingdom income tax in any of the following circumstances.

The Issuer will be entitled to make payments of interest on the Securities without deduction of or withholding on account of United Kingdom income tax if:

- (a) the Issuer is and continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 ("ITA 2007"); and
- (b) the interest on the Securities is and continues to be paid in the ordinary course of the Issuer's business within the meaning of section 878 ITA 2007.

Payments of interest on the Securities may be made without deduction of or withholding on account of United Kingdom income tax if the Securities carry a right to interest and the Securities are and continue to be listed on a "recognised stock exchange" within the meaning of section 1005 ITA 2007. If these conditions are met, interest on the Securities will be payable without deduction of or withholding on account of United Kingdom tax whether or not the Issuer is a bank and whether or not the interest is paid in the ordinary course of its business.

In other cases, an amount must generally be withheld from payments of interest on the Securities that has a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20%), subject to any other available exemptions and reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of Securities, HMRC can issue a notice to the Issuer to pay interest to the holder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Annual Payments

If a periodic payment on a Security were not "interest", and not repayment of principal, then such payment could constitute an "annual payment". Whether or not any periodic payment were to constitute an "annual payment" for these purposes will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which it is calculated. However, if in relation to a Security the Issuer is only required to make a single payment to its holders following redemption or exercise, and there are no amounts due by way of interest or other periodic payment on that Security, payments should not generally constitute "annual payments".

Payments on a Security which constitute "annual payments" that do not have a United Kingdom source may be made without deduction or withholding on account of United Kingdom income tax.

An amount must generally be withheld from "annual payments" on Securities that have a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20%). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of Securities, HMRC can issue a notice to the Issuer to make payments on the Securities to the holder without deduction of tax (or for the relevant amounts to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Manufactured Payments

Payments on the Securities should not constitute "manufactured payments" subject to any deduction of or withholding on account of United Kingdom income tax unless:

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

- (i) the Securities will or may settle by way of physical delivery;
- (ii) the assets which will or may be delivered are shares issued by a "company UK REIT" or the "principal company" of a "group UK REIT" (all bearing the same meaning as in section 918 ITA 2007) or securities (other than shares) issued by the United Kingdom government, a local or other public authority in the United Kingdom or any other United Kingdom resident body; and
- (iii) the payments are representative of dividends on those shares, or interest paid on those securities (as the case may be).

Payments on a Security which do constitute "manufactured payments" may in any event be made without deduction of or withholding on account of United Kingdom income tax unless the Issuer makes those payments in the course of a trade carried on in the United Kingdom through a branch or agency.

If such a "manufactured payment" were paid by the Issuer in the course of a trade carried on in the United Kingdom through a branch or agency then the Issuer may (subject to reliefs and exemptions) be required to make a deduction of or withholding on account of United Kingdom income tax from such payment at the basic rate. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of Securities, HMRC may be able to issue a notice to the Issuer to make the "manufactured payment" to the holder without deduction of tax (or for the relevant amount to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

B. GENERAL SELLING AND TRANSFER RESTRICTIONS

1. Introduction

The distribution of this Base Prospectus and the offering of the Securities in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuer to inform themselves about and to observe any such restrictions.

2. United States of America

The Securities have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), or any state securities laws and trading in the Securities has not been approved by the United States Commodity Futures Trading Commission (the "**CFTC**") under the United States Commodity Exchange Act, as amended (the "**Commodity Exchange Act**"). Any offer or sale of the Securities must be made in a transaction exempt from the registration requirements of the Securities Act pursuant to Regulation S thereunder ("**Regulation S**"). No Securities, or interests therein, may at any time be offered, sold, resold, pledged, exercised, redeemed or delivered, directly or indirectly, in the United States or to, or for the account or benefit of (or on behalf of), any U.S. person or to others for offer, sale, resale, pledge, exercise, redemption or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person. No Securities may be exercised or redeemed by or on behalf of a U.S. person or a person within the United States. "**United States**" means the United States of America (including the States and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction, and "**U.S. person**" means (i) an individual who is a resident of the United States; (ii) a corporation, partnership or other entity organised in or under the laws of the United States or any political subdivision thereof or which has its principal place of business in the United States; (iii) any estate or trust which is subject to United States federal income taxation regardless of the source of its income; (iv) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and if one or more United States trustees have the authority to control all substantial decisions of the trust; (v) a pension plan for the employees, officers or principals of a corporation, partnership or other entity described in (ii) above; (vi) any entity organised principally for passive investment, 10 per cent. or more of the beneficial interests in which are held by persons described in (i) to (v) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the United States Commodity Futures Trading Commission's regulations by virtue of its participants being non-U.S. persons; or (vii) any other "U.S. person" as be defined in Regulation S under the United States Securities Act of 1933, as amended, a person who does not come within the definition of a non-United States person under Rule 4.7 of the United States Commodity Exchange Act, as amended (the "**Commodity Exchange Act**"), a U.S. person as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45,292 (July 26, 2013) promulgated by the United States Commodity Futures Trading Commission, or any other U.S. person as such term may be defined in regulations or guidance adopted under the Commodity Exchange Act.

Prior to the exercise of a Warrant or Certificate and/or a physical delivery of an Underlying in respect of a Security, the holder thereof will be required to represent that, among other things, the holder is not a U.S. person, the Security was not exercised on behalf of a U.S. person and no cash, and in the case of a physical delivery of an Underlying, no securities or other property have been or will be transferred in the United States or to, or the account or benefit of, a U.S. person in connection with any exercise or redemption thereof.

Any person purchasing Warrants or Certificates is deemed to agree with the Issuer and, if different, the seller of such Warrants or Certificates that (i) it will not at any time offer, sell, resell or deliver, directly or indirectly, any Warrants or Certificates so purchased in the United States or to, or for the account or benefit of, any U.S. person, (ii) it is not purchasing any Warrants or Certificates of such series for the account or benefit of any U.S. person and (iii) it will not make offers, sales, re-sales or deliveries of any Warrant or Certificate (otherwise acquired), directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person.

3. European Economic Area

In relation to each member state of the European Economic Area which has implemented the Prospectus Directive (each a "**Relevant Member State**"), with effect from and including the date on which the

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") the Securities have not been offered and will not be offered to the public in that Relevant Member State except, with effect from and including the Relevant Implementation Date, the Securities may be offered to the public in that Relevant Member State:

- (a) during the period beginning one weekday after the date of approval of the Base Prospectus in relation to the Securities which has been approved by the competent authority in that Relevant Member State or in another Relevant Member State and notified to the competent authority in that Relevant Member State, in accordance with the Prospectus Directive in each case, and ending on the date which is twelve months after the date of approval, provided that the Final Terms were published in relation to these Securities no later than the date of the public offer, and were communicated to the competent authority in the Relevant Member State;
- (b) to legal persons which are qualified investors within the meaning of the *Prospectus Directive* (as defined below); or
- (c) in other circumstances under Art. 3 (2) of the *Prospectus Directive* (as defined below).

For the purposes of this provision, an "offer of Securities to the public" in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, if a measure implementing the Prospectus Directive in that Member State results in deviation; "**Prospectus Directive**" means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU).

In addition and from 1 January 2018, the Securities have not been offered, sold or otherwise made available and will not be offered, sold or will be otherwise made available in relation to any retail investor in a Relevant Member State, except where a key information document ("**KID**") required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") has been prepared for offering or selling the Securities or otherwise making them available to any retail investor in that Relevant Member State, provided that the PRIIPs Regulation obligate the issuer to publish a KID for the Securities in that Relevant Member State. For the avoidance of doubt, such KID must be prepared, *inter alia*, in accordance with the language requirements of the PRIIPs Regulation.

For the purposes of this provision the expression "retail investor" means a person who is (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"), or (ii) not a qualified investor as defined in the Prospectus Directive.

The expression "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities.

4. United Kingdom

An invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 ("**FSMA**") may only be communicated or caused to be communicated in connection with the issue or sale of any Securities in circumstances in which Section 21(1) of the FSMA would not, if the Issuer was not an authorised person, apply to the Issuer.

All applicable provisions of the FSMA must be complied with in respect to anything carried out in relation to any Securities in, from or otherwise involving the United Kingdom.

5. Italy

The offering of the Securities has not been registered pursuant to Italian securities legislation and, accordingly, no Securities may be offered, sold or delivered, nor may copies of this Base Prospectus or of any other document relating to the Securities be distributed in the Republic of Italy, except:

- (a) to qualified investors (*investitori qualificati*), as defined pursuant to Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended (the "**Financial Services Act**") and Article 34-ter, first paragraph, letter b) of CONSOB Regulation No. 11971 of 14 May 1999, as amended from time to time ("**Regulation No. 11971**"); or

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

- (b) in other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Financial Services Act and Article 34-ter of Regulation No. 11971.

Any offer, sale or delivery of the Securities or distribution of copies of this Base Prospectus or any other document relating to the Securities in the Republic of Italy under (a) or (b) above must:

- (a) be made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Financial Services Act, CONSOB Regulation No. 20307 of 15 February 2018 (as amended from time to time) and Legislative Decree No. 385 of 1 September 1993, as amended (the Banking Act); and
- (b) comply with any other applicable laws and regulations or requirement imposed by CONSOB, the Bank of Italy (including, the reporting requirements, where applicable, pursuant to Article 129 of the Banking Act and the implementing guidelines of the Bank of Italy, as amended from time to time) and/or any other Italian authority

Please note that in accordance with Article 100-bis of the Financial Services Act, where no exemption from the rules on public offerings applies under (a) and (b) above, the subsequent distribution of the Securities on the secondary market in Italy must be made in compliance with the public offer and the prospectus requirement rules provided under the Financial Services Act and Regulation No. 11971.

Failure to comply with such rules may result in the sale of such Securities being declared null and void and in the liability of the intermediary transferring the financial instruments for any damages suffered by the investors.

6. Czech Republic

This Base Prospectus has not been and will not be approved by the Czech National Bank. No offers or sales of any Securities may be made in the Czech Republic through a public offering, except if in compliance with the Act of the Czech Republic No. 256/2004 Coll., on Conducting Business in the Capital Market, as amended (the "Capital Market Act"). A public offering is, subject to several exemptions set out in the Capital Market Act, any communication to a broader circle of persons containing information on the Securities being offered and the terms under which they may acquire the Securities and which are sufficient for the investor to make a decision to subscribe for, or purchase, such Securities.

No action has been taken or will be taken which would result in the Securities being deemed to have been issued in the Czech Republic or pursuant to Czech law, the issue of the Securities being classed as "accepting of deposits from the public" by the relevant Issuer in the Czech Republic under Section 2(2) of the Act of the Czech Republic No. 21/1992 Coll., on Banks, as amended (the "Banks Act"), or requiring a permit, registration, filing or notification to the Czech National Bank or other authorities in the Czech Republic in respect of the Securities in accordance with the Capital Market Act, the Banks Act or practice of the Czech National Bank.

All of the laws of the Czech Republic applicable to the conduct of business in the Czech Republic, including the laws applicable to the provision of investment services (within the meaning of the Capital Market Act) in the Czech Republic, in respect of the Securities have been complied with.

No action has been taken or will be taken which would result in the issue of the Securities being considered an intention to manage assets by acquiring funds from the public in the Czech Republic for the purposes of collective investment pursuant to defined investment policy in favour of the investors under the Act of the Czech Republic No. 240/2013 Coll., on Management Companies and Investment Funds, as amended (the "MCIFA"), which implements the Directive 2011/61/EU. Any issue, offer or sale of the Securities has been or will be carried out in strict compliance with the MCIFA.

7. France

financiers, and ending at the latest within the 12-month period after the date of the visa of this Base Prospectus;

Private placement in France: the Securities will not be offered or sold, directly or indirectly, to the public in France and this Base Prospectus, the relevant Final Terms and any other offering material relating to the Securities will not be distributed to the public in France, and such offers, sales and distributions will be made in France only to (a) providers of investment services relating to portfolio management for the account of third parties (*personnes fournissant le service d'investissement de gestion de portefeuille pour compte de tiers*), and/or (b) qualified investors (*investisseurs qualifiés*) acting for their own account but other than individuals, all as defined in, and in accordance with, articles L.411-1, L.411-2 and D.411-1 of the French Monetary and Financial Code (*Code monétaire et financier*).

8. Switzerland

The distribution of the Securities in Switzerland will comply with any laws, regulations or guidelines in Switzerland from time to time, including, but not limited to, any regulations made by the Swiss Financial Market Supervisory Authority FINMA and/or the Swiss National Bank (if any) in relation to the distribution, offer, sale, delivery or transfer of the Securities or the distribution of any offering or marketing material in Switzerland in respect of such Securities.

9. Luxembourg

In addition to the cases described in the European Economic Area selling restrictions in respect of an offer of Securities to the public in an EEA Member State (including the Grand Duchy of Luxembourg) ("**Luxembourg**"), an offer of Securities to the public can also be made in Luxembourg:

- (a) at any time, to national and regional governments, central banks, international and supranational institutions (such as the International Monetary Fund, the European Central Bank, the European Investment Bank) and other similar international organisations;
- (b) at any time, to legal entities which are authorised or regulated to operate in the financial markets (including credit institutions, investment firms, other authorised or regulated financial institutions, undertakings for collective investment and their management companies, pension and investment funds and their management companies, insurance undertakings and commodity dealers) as well as entities not so authorised or regulated whose corporate purpose is solely to invest in securities; and
- (c) at any time, to certain natural persons or small and medium-sized enterprises (as defined in the Luxembourg act dated 10th July, 2005 on prospectuses for securities implementing the Directive 2003/71/EC (the Prospectus Directive) into Luxembourg law) recorded in the register of natural persons or small and medium-sized enterprises considered as qualified investors as held by the Commission de surveillance du secteur financier as competent authority in Luxembourg in accordance with the Prospectus Directive.

10. Belgium

This Base Prospectus has not been, and it is not expected that it will be, submitted for approval to the Belgian Financial Services and Markets Authority (Autoriteit voor Financiële Diensten en Markten / Autorité des services et marchés financiers) (the Belgian FSMA) as a prospectus relating to Securities with a maturity of less than 12 months qualifying as money market instruments within the meaning of the Belgian Prospectus Act (as defined below) (and which therefore fall outside the scope of the Prospectus Directive). Accordingly no action will be taken that would be characterised as or result in a public offering of such Securities in Belgium in accordance with the Prospectus Law of 16 June 2006 on public offerings of investment instruments and the admission of investment instruments to trading on regulated markets, as amended or replaced from time to time (the **Belgian Prospectus Act**)

In the case of fund linked Securities, if the relevant underlying funds are not registered in Belgium with the Belgian FSMA in accordance with the Belgian law of 3 August 2012 on the collective investment undertakings satisfying the conditions set out in Directive 2009/65/EC and on undertakings for investment in receivables, as amended or replaced from time to time or the Belgian law of 19 April 2014 on alternative collective investment undertakings and their managers, as amended or replaced from time to time, as applicable, such fund linked Securities cannot be offered publicly in Belgium unless such Securities are cash settled.

VII. GENERAL INFORMATION ON TAXATION AND SELLING RESTRICTIONS

The Securities shall not be physically delivered in Belgium, except to a clearing system, a depository or other institution for the purpose of their immobilisation in accordance with Article 4 of the Belgian Law of 14 December 2005.

11. Portugal

The Issuer, each holder of the Securities, and each Distributor has represented and agreed and each further Distributor appointed under the Programme will be required to represent and agree, that regarding any offer or sale of Securities in Portugal or to individuals resident in Portugal or having a permanent establishment located in the Portuguese territory, it will procure that any distributor of Securities agrees that all laws and regulations in force in Portugal, including (without limitation) the Portuguese Securities Code (Código dos Valores Mobiliários), any regulations issued by the Portuguese Securities Market Commission (Comissão do Mercado de Valores Mobiliários) the Regulation (EU) no. 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (PRIIPs)), as well as Commission Regulation (EC) No. 809/2004 (as amended) implementing the Prospectus Directive (as amended) will be complied with in respect of any placement or distribution of Securities, and other than in compliance with all such laws and regulations: (i) it has not directly or indirectly taken any action or offered, advertised, marketed, invited to subscribe, gathered investment intentions, sold or delivered and will not directly or indirectly take any action, offer, advertise, market, invite to subscribe, gather investment intentions, sell, re-sell, re-offer or deliver any Securities in circumstances which could qualify as a public offer (oferta pública) of securities, pursuant to the Portuguese Securities Code and other applicable securities legislation and regulations, notably in circumstances which could qualify as a public offer, addressed to individuals or entities resident in Portugal or having a permanent establishment located in Portugal, as the case may be; (ii) all offers, sales and distributions by it of the Securities have been and will only be made in Portugal in circumstances that, pursuant to the Portuguese Securities Code, qualify only as a private placement of Securities (oferta particular); (iii) it has not distributed, made available or caused to be distributed and will not distribute, make available or cause to be distributed, the Base Prospectus, or any other offering material relating to the Securities, to the public in Portugal. Furthermore, (a) if the Securities are subject to a private placement addressed exclusively to qualified investors (investidores qualificados), such private placement will be considered as a private placement of securities pursuant to the Portuguese Securities Code; (b) private placements addressed by companies open to public investment (sociedades abertas) or by issuers of securities listed on a regulated market shall be notified to the CMVM for statistics purposes.

12. General

The Securities may only be offered or sold in compliance with all applicable securities laws and regulations in force in any jurisdiction in which any purchase, offer, sale or delivery of Securities is made or in which this Base Prospectus is distributed or held and where any consent, approval or permission required for the purchase, offer, sale or delivery of Securities under the laws and regulations in force in such jurisdiction is obtained.

With regard to each issue of Securities, certain other additional restrictions may be set out in the Final Terms.
