Responsibility Statement

Deutsche Telekom AG ("**Deutsche Telekom AG**", the "**Issuer**" or the "**Company**" and together with its consolidated subsidiaries, "**Deutsche Telekom**", the "**Group**" or "**Deutsche Telekom Group**") with its registered office in Bonn is solely responsible for the information given in this Prospectus and for the information which will be contained in the Final Terms (as defined herein).

The Issuer hereby declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Prospectus is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

Notice

This Prospectus should be read and construed in conjunction with any supplement thereto and with any document incorporated herein by reference (the "**Reference Documents**"). Full information on the Issuer and any tranche of Notes (as hereinafter defined) is only available on the basis of this Prospectus as supplemented, together with the Reference Documents and the relevant final terms (the "**Final Terms**").

The Issuer has confirmed to the dealers specified under "*Names and Addresses*" below and any additional dealer appointed from time to time under the Programme (each a "**Dealer**" and together the "**Dealers**") that this Prospectus contains, as of the date hereof, all information with regard to the Issuer and the Notes which is material in the context of the Programme and the issue and offering of Notes thereunder; that the information contained herein with respect to the Issuer and the Notes is accurate in all material respects and is not misleading; that any opinions and intentions expressed herein are honestly held and based on reasonable assumptions; that there are no other facts, the omission of which would make any statement, whether fact or opinion, in this Prospectus misleading in any material respect; and that all reasonable enquiries have been made to ascertain all facts and to verify the accuracy of all statements contained herein.

No person has been authorised to give any information which is not contained in or not consistent with this Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as in the public domain and, if given or made, such information must not be relied upon as having been authorised by the Issuer, the Dealers or any of them.

Neither the Arranger nor any Dealer nor any other person mentioned in this Prospectus, excluding the Issuer, is responsible for the information contained in this Prospectus or any supplement thereof, or any Final Terms or any other Reference Document, and accordingly, and to the extent permitted by the laws of any relevant jurisdiction, none of these persons accepts any responsibility as to the accuracy and completeness of the information contained in any of these documents.

This Prospectus is valid until its expiration on 4 April 2025 and this Prospectus and any supplement hereto as well as any Final Terms reflect the status as of their respective dates of issue. There is no obligation to supplement this Prospectus in the event of significant new factors, material mistakes or material inaccuracies when this Prospectus is no longer valid. The delivery of this Prospectus as supplemented or any Final Terms and the offering, sale or delivery of any Notes may not be taken as an implication that the information contained in such documents is accurate and complete subsequent to their respective dates of issue or that there has been no adverse change in the financial condition of the Issuer since such date or that any other information supplied in connection with the Programme is accurate at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The Issuer has undertaken with the Dealers to supplement this Prospectus or publish a new Prospectus at any time after submission of this Prospectus for approval to the CSSF if and when the information herein should become materially inaccurate or incomplete or in the event of any significant new factor, that is capable of affecting the assessment of the Notes by potential investors.

The Notes will not be registered under the United States Securities Act of 1933, as amended, and will be represented by global notes in bearer form that are subject to United States ("**U.S.**") tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons, see "*Selling Restrictions*".

The distribution of this Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus or any Final Terms comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Prospectus or any Final Terms and other offering material relating to the Notes, see "*Selling Restrictions*".

This Prospectus is drawn up in the English language. The German versions of the English language Terms and Conditions are shown in this Prospectus for additional information. As to form and content, and all rights and obligations of the Holders and the Issuer under the Notes to be issued, German is the controlling legally binding language if so specified in the relevant Final Terms. The Issuer accepts responsibility for the information contained in this Prospectus and confirms that the non-binding translation of the Terms and Conditions, either in the German or English language, correctly and adequately reflects the respective binding language version.

The Final Terms in respect of any Notes may include a legend entitled "*EEA MiFID II Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**Distributor**") should take into consideration the target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593, as amended (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

If the Final Terms in respect of any Notes include a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "**IDD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. If the above-mentioned legend is included in the relevant Final Terms, no key information document required by Regulation (EU) 1286/2014 (as amended, the "**PRiIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRiIPs Regulation.

The Final Terms in respect of any Notes may include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any Distributor should take into consideration the target market assessment; however, a Distributor subject to the Financial Conduct Authority ("**FCA**") Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

If the Final Terms in respect of any Notes includes a legend entitled "*Prohibition of Sales to UK Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom of Great Britain and Northern Ireland ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer

within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA. If the above-mentioned legend is included in the relevant Final Terms, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

This Prospectus may only be used for the purpose for which it has been published.

Each Dealer and/or each further financial intermediary subsequently reselling or finally placing Notes issued under the Programme is entitled to use this Prospectus as set out in "*Consent to the Use of this Prospectus*" below.

This Prospectus and any Final Terms must not be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

In connection with the issue of any Tranche of Notes under the Programme, the Dealer(s) who is(are) specified in the relevant Final Terms as the stabilisation manager(s) (or persons acting on its(their) behalf) may overallocate Notes or effect transactions with a view to supporting the price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin at any time after the adequate public disclosure of the relevant Final Terms of the offer of the Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the Issue Date and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allocation must be conducted by the relevant stabilisation manager(s) (or persons acting on behalf of any stabilisation manager(s)) in accordance with all applicable laws and rules.

All terms not otherwise defined in this Prospectus shall have the meaning as set out in the "Terms and Conditions" of the Notes.

Any websites included in this Prospectus, except for the websites specified in the context of the documents incorporated by reference, are for information purposes only and do not form part of this Prospectus and have not been scrutinised or approved by the CSSF.

Interest amounts payable under Notes bearing a floating interest rate ("**Floating Rate Notes**") are calculated by reference to the Euro Interbank Offered Rate ("**EURIBOR**") which is provided by the European Money Markets Institute ("**EMMI**"). As at the date of this Prospectus, EMMI appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmarks Regulation (Regulation (EU) 2016/1011 as amended) ("**BMR**").

Forward-Looking Statements

This Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "*anticipate*", "*believe*", "*could*", "*estimate*", "*expect*", "*intend*", "*may*", "*plan*", "*predict*", "*project*", "*will*" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Prospectus containing information on future earning capacity, plans and expectations regarding Deutsche Telekom Group's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Prospectus are based on current estimates and assumptions that the Issuer makes to the best of its present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including Deutsche Telekom Group's financial condition and results of operations, to differ materially from and be worse than results

that have expressly or implicitly been assumed or described in these forward-looking statements. Deutsche Telekom Group's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the section of this Prospectus titled "*Risk Factors*" which includes more detailed descriptions of factors that might have an impact on Deutsche Telekom's business and the markets in which it operates.

In light of these risks, uncertainties, assumptions and future events described in this Prospectus may not occur. General Description of the Programme

Under this EUR 35,000,000,000 Debt Issuance Programme, Deutsche Telekom may from time to time issue notes (the "**Notes**"). The maximum aggregate principal amount of the Notes from time to time outstanding under the Programme will not exceed EUR 35,000,000,000 (or its equivalent in any other currency). The Issuer may increase the amount of the Programme in accordance with the terms of the Dealer Agreement (as defined herein) from time to time.

The Notes may be issued on a continuing basis to one or more of the Dealers and any additional Dealer appointed under the Programme from time to time by the Issuer, which appointment may be for a specific issue or on an ongoing basis. Notes may be distributed by way of offer to the public or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the relevant Final Terms. Notes may be offered to qualified and non-qualified investors, unless the applicable Final Terms include a legend entitled "*Prohibition of Sales to EEA Retail Investors*" or "*Prohibition of Sales to UK Retail Investors*".

Notes will be issued in tranches (each a "**Tranche**"), each Tranche consisting of Notes which are identical in all respects. One or more Tranches, which are expressed to be consolidated and forming a single series and identical in all respects, except for issue dates, interest commencement dates and/or issue prices may form a series ("**Series**") of Notes. Further Notes may be issued as part of existing Series.

Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, EUR 1,000 and if in any currency other than euro, in an amount in such other currency nearly equivalent to EUR 1,000 at the time of the issue of the Notes.

Notes will be issued with a maturity of twelve months or more. The Notes will be freely transferable.

Notes may be issued at an issue price which is at par or at a discount to, or premium over, par. The issue price for Notes to be issued will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine an issue price, all to correspond to the yield.

The yield for Notes with fixed interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

Unless otherwise permitted by then current laws and regulations, Notes in respect of which the issue proceeds are to be accepted by the Issuer in the UK will have a minimum redemption amount of GBP 100,000 (or its equivalent in other currencies), unless such Notes may not be redeemed until on or after the first anniversary of their date of issue.

Application has been made to list Notes issued under the Programme on the official list of and to admit such Notes to trading on the Regulated Market of the Luxembourg Stock Exchange. Under the Programme Notes may also be issued which will not be listed on any Stock Exchange.

Notes will be accepted for clearing through one or more Clearing Systems as specified in the applicable Final Terms. These systems will include those operated by Clearstream Banking AG, Frankfurt am Main ("**CBF**"), Clearstream Banking S.A. ("**CBL**") and Euroclear Bank SA/NV ("**Euroclear**"). Notes denominated in euro or, as the case may be, such other currency recognised from time to time for the purposes of eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, are intended to be held in a manner, which would allow Eurosystem eligibility. Therefore, these Notes will initially be deposited upon issue with (i) either CBL or Euroclear as common safekeeper in the case of a new global note or, (ii) CBF. It does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

Risk Factors

Potential investors should consider all information provided in this Prospectus and the Reference Documents. In addition, potential investors should be aware that the risks described may combine and thus accumulate.

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business.

Each potential investor in any Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;*
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;*
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where the currency for principal or interest payments is different from the potential investor's currency;*
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of financial markets; and*
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.*

The following is a disclosure of risk factors that are material to the Issuer and that may affect the Issuer's ability to fulfil its obligations under the Notes. Potential investors should consider these risk factors before deciding to purchase Notes issued under the Programme. Investors may lose the value of their entire investment or part of it in the event one or more of the risks regarding the Issuer described below materialises.

Risk Factors regarding the Issuer

The risk factors regarding the Issuer are presented in the following categories with the most material risk factor presented first in each category:

- Industry, Competition and Strategy
- Regulation
- Environmental, social and governance
- Operational
- Brand, Communication and Reputation
- Litigation and Anti-Trust Proceedings
- Financial

1) Industry, Competition and Strategy

Deutsche Telekom faces intense competition in all areas of its business, which could lead to reduced prices for its products and services and a decrease in market share in certain service areas, thereby adversely affecting Deutsche Telekom's revenues and net profit.

Competitive pressure is expected to continue in Germany and Europe and Deutsche Telekom is expecting market prices for mobile voice telephony and mobile data services to continually decrease. Competition is high and increasing in the US as the market saturation in the wireless industry is leading to an increased war for customers. This would adversely affect Deutsche Telekom's competitive position in the US market and its ability to grow. All segments would be affected by new market entrants such as major internet and consumer electronics industry players as well as regional network operators that

could continue to increase their market share. Smaller competitors could take unforeseen and aggressive pricing measures. Current competitors can win new customers by cutting prices and offering limited or even unlimited discounts. Deutsche Telekom Systems Solutions operating segment also faces challenges. Continued strong competition and persistent price erosion are adversely affecting traditional information and communication technology ("ICT") business. In addition, the technological shift toward cloud solutions and digitalisation in the IT sector is prompting new, strongly capitalised, competitors to enter the market. Therefore, Deutsche Telekom continues to be threatened by further losses in market share as well as decreasing margins. This in turn lead to lower revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Weaker economic prospects and political uncertainties could adversely affect Deutsche Telekom's customers' purchases of products and services in each of the operating segments, which could have a negative impact on the operating results and overall financial condition of Deutsche Telekom.

Political uncertainties and geopolitical crises fuel negative economic developments, such as high inflation, economic recession or lower income per household, and pose a risk to future economic growth. This means that any of Deutsche Telekom's footprint countries that would be affected by such actual or even possible growth slowdown as private and business customers would decrease their consumption of telecommunication services. This in turn lead to lower revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Deutsche Telekom could be directly or indirectly affected by geopolitical turmoil or confrontations, or other related effects, which could adversely affect Deutsche Telekom's reputation and financial results.

Deutsche Telekom's footprint and supply chains are intertwined on a global level. Should economic, political and/or technological tensions continue to rise between rival geopolitical powers, the risk of belligerent conflict between states could have severe global consequences including biological, chemical, cyber and/or physical attacks, military interventions, or the collapse of states. Furthermore, geopolitical incidents could be the cause of additional related effects such as higher inflation or a surge in energy prices. Such an international crisis would affect the business of Deutsche Telekom and the business of its suppliers and partners leading to lower revenues, cash flows and could worsen the overall financial condition and reputation of Deutsche Telekom.

Deutsche Telekom is exposed to the economic effects of pandemic outbreaks, which could delay or reduce cash flow or reduce the usage of its products and services. Furthermore, it could lead to delays in network upgrading and supply chains thereby adversely affecting Deutsche Telekom's revenues and net profit.

A pandemic is impossible to predict and could bring great uncertainty on the economy and the respective impacts on Deutsche Telekom's business and financial results. This could include but is not limited to a decline of roaming volumes, lower subscriber growth, increasing bad debt of business and consumer subscribers. If a pandemic outbreak should occur and quickly spread, it could cause significant negative effects on network improvements and maintenance, procurement and the supply chain. Such pandemic outbreaks could impact Deutsche Telekom at any time resulting in decreasing margins, lower revenues or delays in cash flows. This would ultimately worsen the overall financial condition and possibly even the reputation of Deutsche Telekom.

A substantive or temporal deviation from planned measures for strategic transformation and integration may reduce its benefits and this could negatively impact Deutsche Telekom's business situation, financial position and operational results.

Deutsche Telekom is in a continuous process of strategic adjustments and cost-cutting initiatives. If Deutsche Telekom is unable to implement these projects as planned, the benefits could be less than originally estimated or arrive later than expected or even not at all. Also, merger related integration of operational areas as well as fulfilment of various conditions imposed by the authorities are complex and could jeopardise the realisation of planned synergies. Each of these factors, individually or combined, could have a negative impact on revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Deutsche Telekom is using Artificial Intelligence (AI) to boost efficiency and automation. Failure to abide by ethical guidelines and lack of monitoring mechanisms could outweigh the overall benefits of AI and could negatively impact Deutsche Telekom's business situation, financial position and overall reputation.

Deutsche Telekom is leveraging Artificial Intelligence (AI) to improve customer experience, optimising decision-making processes and increasing overall efficiency. If development and oversight is not carefully managed with responsible oversight, internal and external AI applications could pose the risks of potential misuse of company or corporate data, deriving inaccurate results (leading to false conclusions), and lack of stakeholder trust if efficiency targets disregard ethical considerations or customer well-being. These AI related factors could worsen the overall financial condition, lead to more litigation and possibly even damage the reputation of Deutsche Telekom.

Deutsche Telekom may not realise either the expected level of demand for its new/existing products and services, or the expected level and timing of revenues generated by those products and services, on account of the lack of market acceptance or technological change, which could adversely affect Deutsche Telekom's cash flows.

Deutsche Telekom may not succeed in making customers sufficiently aware of existing and future value-added services or in creating customer acceptance of these services at the prices Deutsche Telekom would want to charge. A lack of market acceptance for these new products and services could be fuelled by an unwillingness to pay for such additional features.

Furthermore, as innovation cycles continue to shrink, they confront the telecommunications sector with the challenge of bringing out new products and services at ever shorter intervals. New technologies are superseding existing technologies, products, or services in part, in some cases even completely. Failure to harness the potential of AI or other emerging technologies could dampen our ability to innovate. This would lead to lower prices and revenues in both voice and data traffic. This in turn could lead to lower revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Deutsche Telekom regularly engages in large-scale programmes to reshape the information technology ("IT") and network infrastructure to adapt to changing customer needs and organisational and accounting requirements. The implementation of any of these programmes may require substantial investments and failure to effectively plan and monitor them would lead to misallocations of resources and impaired processes with negative consequences for Deutsche Telekom's operations.

Deutsche Telekom's IT and network resources and infrastructure is the basis for innovative telecommunications products and services that Deutsche Telekom offers or plans to offer in the future. As Deutsche Telekom replaces the various architectures, access types and services with a standardised architecture, the enormous complexity of the implementation of this IT initiative, malfunctions, connectivity issues, implementation delays, inadequate planning and management and other unforeseen problems could result in costly process impairments and remediation and possible extended down-times of IT processes. These problems may hamper the attainment of Deutsche Telekom's goals in terms of cost savings and quality improvements. As Deutsche Telekom's traditional platforms has been replaced by an IP-based system, Deutsche Telekom's IT systems exposure to cyber-attacks, "spam calls" and other disruptions could increase. These risks could lead to a temporary interruption of Deutsche Telekom's IT resources and, as a result, impair the performance of Deutsche Telekom's technical infrastructure. Additionally, if Deutsche Telekom is not ready in time to exploit the benefits of technological advances (such as AI and automation), it could experience a decline in demand for its services. System failures, security breaches, data protection violations, disruption of operations and unauthorised use or impairment of Deutsche Telekom network and other systems could damage Deutsche Telekom's reputation, increase costs and negatively impact revenues, cash flows and worsen the overall financial condition of Deutsche Telekom.

2) Regulation

Deutsche Telekom operates in heavily regulated business environments. Respective decisions that regulatory authorities impose on Deutsche Telekom restrict flexibility in managing its business and can force it to offer their services to competitors or reduce their prices for products and services. This will reduce Deutsche Telekom's revenues and also market share.

Deutsche Telekom AG and its international subsidiaries are largely subject to national, European, and U.S. regulation, which is associated with extensive powers for national regulatory authorities to intervene in product design and pricing. In addition, the European Commission issues regulations and recommendations, which must be taken into account by the national regulatory authorities in Europe. Regulatory interventions are difficult to anticipate and therefore can disrupt financial forecasting. These regulatory interventions will continue to impact both fixed-network and mobile markets (including wholesale offerings) in the medium and long term. Media products are also subject to U.S., European and national regulations in respect to copyright and responsibility for published content. Regulatory bodies can enforce the regulation but also impose fines in cases of non-compliance. These regulatory risks (for example unfavourable auction rules and frequency usage requirements, international roaming, net neutrality and universal service) will in turn lead to lower revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

3) Environmental, social and governance

Climate change is increasing ecological and social awareness. Compliance with new requirements can impact Deutsche Telekom's operations, revenues and profits. Failure to comply can have a huge impact on the reputation and the brand image of Deutsche Telekom Group.

The demand to become more responsible for ensuring compliance with growing ecological and social standards is increasing. The requirements placed on the environmental compatibility of products throughout the supply chain and the entire value chain (including requirements such as the Corporate Sustainability Reporting Directive and the German Supply Chain Due Diligence Act (*Lieferkettensorgfaltspflichtengesetz*)) are complex and require a high level of effort. Additionally, the continuous reduction of resource consumption and use of renewable energy may increase over time leading to additional investments in order to modify processes and infrastructure. This could have negative direct or indirect effects on operations. The inability to understand or comply with these requirements could lead to lower revenues, cash flows and could worsen the overall enterprise value and financial condition and reputation of Deutsche Telekom.

4) Operational

Shortcomings in Deutsche Telekom's supplier selection and procurement process could negatively affect its product portfolio, revenues and profits.

As a service provider, an operator and provider of telecommunications and IT products, Deutsche Telekom cooperates with a variety of suppliers of technical components, such as software, hardware, transmission systems, switching systems, outside plant, and terminal equipment.

Supply risks cannot be entirely ruled out. The dependence on individual suppliers for example from Chinese telecommunication suppliers or from individual vendors' defaulting can increase. The overall availability and or scarcity of resources, delivery bottlenecks, price increases, changes in the prevailing economic conditions or suppliers' product strategies resulting from but not limited to geopolitical conflicts, wars or governments prohibiting the purchase, use and/or replacement of specific vendor or supplier products may have a negative impact on Deutsche Telekom's supply chain management and business processes. Additionally, recent security concerns prohibiting the partial or complete use of technology or products from critical vendors in Deutsche Telekom's networks would result in an intensive process of replacing such technology or products. These effects could increase Deutsche Telekom's costs and negatively impact revenues, cash flows and significantly worsen the overall financial condition and reputation of Deutsche Telekom.

System failures due to natural or man-made disruptions and loss of data could result in reduced user traffic and reduced revenues and could harm Deutsche Telekom's reputation and financial results.

Deutsche Telekom's information/network technology infrastructure is complex and is being constantly expanded and upgraded. Outages in the current and future technical infrastructure arising from natural disasters, such as fire, flooding, hurricanes, scarcity of energy, or man-made disruptions, such as unauthorised access, are possible and would cause interruptions to any business processes, products or services. Remediation costs could include liability for information loss or repairing infrastructure and systems. Furthermore, Deutsche Telekom's products and services are subject to data privacy and data security especially in connection with unauthorised access to customer, partner or employee data. Data privacy regulation requirements are increasing over time, but also data security is vulnerable as IT security challenges are multiplying as cyber crime and industrial espionage are on the rise. These effects could increase Deutsche Telekom's costs and negatively impact revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Failure to achieve the planned reduction and restructuring of personnel or the human resources-related cost-savings goals could negatively affect the reputation and achievement of Deutsche Telekom's financial objectives and profitability.

Deutsche Telekom continues to use socially responsible measures to restructure the workforce in the Group, essentially by means of voluntary redundancies, partial and early retirement, and employment opportunities for civil servants and employees. If the acquisition and retention of talent and staff restructuring measures are not possible or are not implemented as planned or at all, they could have a negative impact on revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

As a result of dispositions of certain non-core businesses in Germany, there is an increased risk of return of civil servants transferred out of Deutsche Telekom Group, which could have a negative impact on the staff and cost reduction objectives.

When Group entities that employ civil servants are disposed of, it is generally possible to continue to employ them at the Group entity to be sold, provided the civil servant agrees or submits an application to be employed at the respective unit in future. However, they may return to Deutsche Telekom from a sold entity or if a company is not able to offer them jobs. This would increase Deutsche Telekom's costs and negatively impact revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

5) Brand, Communication and Reputation

Potential breaches of compliance requirements (including data protection) or the identification of material weaknesses in Deutsche Telekom's internal control over financial reporting may have an adverse impact on Deutsche Telekom's corporate reputation, financial condition and the trading price of its securities.

In general, compliance requirements (including data protection) for publicly-traded companies and, in particular, the investigation of potential breaches and corporate misconduct are increasing and leading to major financial implications for the companies concerned. At the same time, the legal framework governing the monitoring of companies is becoming more comprehensive, which increases the liability for executive bodies and associated costs. These risks and their related consequences will continue to exist and measures to remediate any identified shortcomings in its internal controls over financial reporting, activities of this kind may involve significant effort and expense, and disclosure of any failures, material weakness or other conditions, may result in a deterioration of Deutsche Telekom's corporate image and negative market reactions, which in turn may negatively affect the trading price of Deutsche Telekom's securities.

An unforeseeable negative media report on products and services or corporate activities and responsibilities of Deutsche Telekom Group can have a huge impact on the reputation, the standing and the brand image of Deutsche Telekom Group.

An unforeseeable negative media report on products and services or corporate activities and responsibilities of Deutsche Telekom arising from ecological or social aspects or from the management of Deutsche Telekom can have a material impact on the reputation, the standing and the brand image of Deutsche Telekom. Expectations to disclose company positions on political and social issues (such

as diversity) are growing. Social networks have made it possible that such information and opinions can spread much faster and extensively than they could just a few years ago. Ultimately, negative reports can result in a deterioration of Deutsche Telekom's revenues or corporate image and increase negative market reactions, which in turn may negatively affect the trading price of Deutsche Telekom's securities.

Developments in the telecommunications sector have resulted, and may in the future result, in substantial write-downs of the carrying value of certain of Deutsche Telekom's assets.

The value of the assets of Deutsche Telekom AG and its subsidiaries depends on changes in the respective economic, regulatory, business or political environments. These changes could negatively affect the value of goodwill, intangible assets or property, plant and equipment, investments accounted for using the equity method, or other financial assets. Any of these impairment losses could impact to a considerable extent Deutsche Telekom's results and could worsen the overall financial condition, which in turn may negatively affect the trading price of Deutsche Telekom's securities.

Possible health risks of wireless communications devices have led to litigation affecting markets with Deutsche Telekom's mobile telecommunications operations subsidiaries, and could lead to decreased wireless communications usage or increased difficulty in obtaining sites for base stations and, as a result, adversely affect the financial condition and results of operations of Deutsche Telekom's wireless services business.

Mobile communications, or the electromagnetic fields used in mobile communications, regularly give rise to concerns among the general population about potential health risks. There is intense public, political, and scientific debate of this issue. New research on exposure effects to Electromagnetic Fields could lead to higher concern among the general public about both mobile communications networks and the use of mobile handsets. This affects the build-out of mobile networks and the use of mobile terminal devices, but also the sales of traditional IP and Digital Enhanced Cordless Telecommunications (DECT - digital cordless) phones and devices that use WiFi technology. There are also regulatory interventions, such as reduced thresholds for electromagnetic fields or the implementation of precautionary measures in mobile communications, such as amendments to building laws or labelling requirements for handsets. These effects could increase Deutsche Telekom's costs and negatively impact revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

6) Litigation and Anti-Trust Proceedings

Deutsche Telekom is continuously involved in disputes and litigation with government agencies, competition authorities, competitors and other parties. Deutsche Telekom is also subject to anti-trust laws. The ultimate outcome of such legal proceedings is generally uncertain. When finally concluded, they may have a material adverse effect on Deutsche Telekom's results of operations and financial condition.

Deutsche Telekom is subject to numerous legal and regulatory proceedings, in which Deutsche Telekom is currently a party or which could develop in the future. Litigation (including Class Action lawsuits) and regulatory proceedings, including patent infringement lawsuits, are inherently unpredictable. Deutsche Telekom and its subsidiaries are subject to proceedings under competition law or follow-on damage actions under civil law. Legal or regulatory proceedings in which Deutsche Telekom is or comes to be involved (or settlements thereof) may have a material adverse effect on Deutsche Telekom's results of operations, overall financial condition and reputation of Deutsche Telekom.

7) Financial

Liquidity, credit, currency, interest rate, rating and tax risks may continue to have an adverse effect on Deutsche Telekom's revenue and cost development.

With regard to its assets, liabilities and planned transactions, Deutsche Telekom Group is particularly exposed to liquidity risks, credit risks, and the risk of changes in exchange and interest rates.

Liquidity risk comprises the risk of the Company's inability to meet its short-term financial obligations in a timely fashion or in full. This could occur in circumstances in which an asset cannot be traded or sold or in case of an inefficient market. Deutsche Telekom primarily uses bonds, issued in a variety of currencies and jurisdictions, for medium- to long-term financing and maintains a liquidity reserve in the form of credit lines and cash as part of its liquidity management. A negative development of the capital markets could increase Deutsche Telekom's financing costs or could decrease its ability to raise funds. Hence, lack of liquidity may have a material adverse effect on Deutsche Telekom's results of operations,

overall financial condition and reputation of Deutsche Telekom.

Credit risk comprises the risk that a counterparty will not fulfil its contractual obligations. Through Deutsche Telekom's operating business and certain financing activities, Deutsche Telekom is exposed to credit risk. The failure of a counterparty to fulfil its obligations, its insolvency or its bankruptcy would lead to an interruption of cash flows, increased costs for collection or loss of assets. Hence, counterparties which are not able to fulfil their contractual obligations may have a material adverse effect on Deutsche Telekom's results of operations and overall financial condition.

Currency risk comprises the risk of a fluctuation in the value of a currency which negatively affects the value of assets, investments, and related payment streams like interest and dividend. Deutsche Telekom is exposed to currency risks from its investing, financing, and operating activities. Currency risks in the area of investments result, for example, from the acquisition and disposal of investments in foreign currencies. Currency risks in the financing area are caused by financial liabilities in foreign currency and loans in foreign currency that are issued by Group entities for financing purposes. The Group entities predominantly execute their operating activities in their respective functional currencies. Payments made in a currency other than the respective functional currency result in currency risks in the Group. Hence, changes in the value of currencies may have a material adverse effect on Deutsche Telekom's results of operations and overall financial condition.

Interest rate risk comprises the potential increase of financing costs resulting from unexpected fluctuations in interest rates. Changes in market interest rates affect the interest income or expense of variable-interest financial instruments. In addition to the interest rate risk pertaining to variable-interest debt, this also includes the issue of new liabilities. Deutsche Telekom's interest rate risk mainly results from interest-bearing liabilities and exists primarily in the euro zone and the United States. Hence fluctuations in interest rates may have a material adverse effect on Deutsche Telekom's results of operations and overall financial condition.

Rating risk relates to potential downgrades of Deutsche Telekom's credit rating by the rating agencies Fitch, Moody's or Standard & Poor's, which could have a negative impact on Deutsche Telekom's financing costs and Deutsche Telekom's ability to obtain new financing. In addition, if Deutsche Telekom's credit rating would be lowered by one notch, the interest rate rises by 0.5 per cent. for some of the issued bonds with a step-up clause. Hence the downgrade of credit ratings may have a material adverse effect on Deutsche Telekom's results of operations, overall financial condition and reputation of Deutsche Telekom.

Tax risk relates to uncertainties and potential changes of tax rules resulting in higher tax expenses than expected. In many countries, Deutsche Telekom is subject to the applicable legal tax provisions. Changes in taxation laws or case law and different interpretations of existing provisions and uncertainties regarding the applicability or interpretation of tax rules can affect Deutsche Telekom tax expenses and benefits as well as tax receivables and liabilities. Hence uncertainties and changes of tax rules may have a material adverse effect on Deutsche Telekom's results of operations and overall financial condition.

Risk Factors regarding the Notes

The risk factors regarding the Notes are presented in the following categories with the most material risk factor presented first in each category:

- Risks related to the admission of the Notes to a Regulated Market
- Risks related to specific Terms and Conditions of the Notes

1) Risks related to the admission of the Notes to a Regulated Market

Liquidity Risk

Application has been made to list Notes to be issued under the Programme on the official list of and to admit such Notes to trading on the Regulated Market of the Luxembourg Stock Exchange. In addition, the Programme provides that Notes may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity than if they were not listed. If the Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may adversely affect the liquidity of the Notes. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Market Price Risk

The development of market prices of the Notes depends on certain factors, such as changes of market interest rate levels, the policy of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The holder of a Note is therefore exposed to the risk of an unfavourable development of market prices of its Note which materialises if the holder sells the Notes prior to the final maturity of such Notes.

2) Risks related to specific Terms and Conditions of the Notes

Risk of Early Redemption

The applicable Final Terms will indicate whether the Issuer may have the right to call the Notes prior to maturity (optional call right) on one or several dates determined beforehand or whether the Notes will be subject to early redemption upon the occurrence of an event specified in the applicable Final Terms (early redemption event). In addition, the Issuer will always have the right to redeem the Notes if the Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions. If the Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower than expected yield. The Issuer can be expected to exercise his optional call right if the yield on comparable Notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable Notes with a lower yield. On the other hand, the Issuer can be expected not to exercise his optional call right if the yield on comparable Notes in the capital market has increased. In this event an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the Issuer may exercise any optional call right irrespective of market interest rates on a call date.

Fixed Rate Notes

A holder of a Fixed Rate Note is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Note, the current interest rate on the capital market ("**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the market interest rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the market interest rate of comparable issues. If the holder of a Fixed Rate Note holds such Note until maturity, changes in the market interest rate for comparable issues are without relevance to such holder as the Note will be redeemed at the principal amount of such Note.

Floating Rate Notes

A holder of a Floating Rate Note is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance.

A Floating Rate Note may include caps or floors. In such case, their market value may be more volatile than those for Floating Rate Notes that do not include these features. The effect of a cap is that the amount of interest will never rise above and beyond the predetermined cap, so that the holder will not be able to benefit from any actual favourable development beyond the cap. The yield could therefore be considerably lower than that of similar Floating Rate Notes without a cap.

Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Specific risks linked to EURIBOR

The interest rates of Floating Rate Notes may be linked to reference rates. EURIBOR and other reference rates or other types of rates and indices which are deemed "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**") have become the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause these Benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a Benchmark.

The BMR applies to the provision of Benchmarks, the contribution of input data to a Benchmark and the use of a Benchmark within the EU. It requires, among other things, (i) Benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed), and (ii) prevents certain uses by EU supervised entities of Benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

The BMR could have a material impact on any Notes linked to or referencing EURIBOR or any other Benchmark, in particular, if the methodology or other terms of EURIBOR or such other Benchmark are changed in order to comply with the requirements of the BMR. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of EURIBOR or such other Benchmark.

More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of Benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to such Benchmark, trigger changes in the rules or methodologies used in the Benchmarks or lead to the disappearance of the Benchmark.

As regards EURIBOR, the new hybrid calculation of EURIBOR has been adapted to the requirements of the BMR. However, EURIBOR is also subject to constant review and revision. It is currently not foreseeable whether EURIBOR will continue to exist permanently and beyond 2025.

Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method for determining a Benchmark could have an effect on the value of any Notes whose interest is linked to the relevant Benchmark, investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value or liquidity of, and return on, any Notes linked to or referencing EURIBOR or any other Benchmark.

If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for Floating Rate Notes which are linked to such Benchmark will be determined for the relevant period by the fallback provisions applicable to such Notes. Under these fallback provisions, the Issuer shall endeavour to appoint an independent adviser, which must be an independent financial institution or independent financial adviser. Such independent adviser would be tasked with determining whether a recognised successor rate to the discontinued Benchmark exists (the "**Successor Benchmark Rate**"). If that is not the case, the independent adviser will attempt to find an alternative rate (the "**Alternative Benchmark**").

Rate"). Such Successor Benchmark Rate or Alternative Benchmark Rate may be subject to the application of adjustments or spreads. If the independent adviser determines a Successor Benchmark Rate or Alternative Benchmark Rate, such rate will replace the previous Benchmark for purposes of determining the relevant rate of interest. Such determination will be binding on the Issuer, the Calculation Agent, the Paying Agents and the Holders. Any adjustment pursuant to these fallback provisions will apply to the immediately following interest period and any subsequent interest period and may be subject to the subsequent operation of the fallback provisions.

If the Issuer cannot appoint an independent adviser or if the independent adviser cannot determine a Successor Benchmark Rate or Alternative Benchmark Rate following a discontinuation of a relevant Benchmark, the last determined rate of the discontinued Benchmark will continue to apply for future interest periods of the relevant Notes until a Successor Benchmark Rate or Alternative Benchmark Rate was determined in accordance with the fallback provisions.

Under the terms of the BMR, the European Commission has also been granted powers to designate a replacement for certain critical Benchmarks contained in contracts governed by the laws of an EU member state (such as the Notes), where that contract does not already contain a suitable fallback. There can be no assurance that the fallback provisions of the Notes would be considered suitable. Accordingly, there is a risk that any Notes linked or referencing a Benchmark would be transitioned to a replacement Benchmark selected by the European Commission. There is no certainty at this stage what any such replacement benchmark would be.

Currency Risk

A holder of a Note denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macroeconomic factors, speculative transactions and interventions by central banks.

A change in the value of any currency other than euro against the euro, for example, will result in a corresponding change in the euro value of a Note denominated in a currency other than euro and the euro value of interest and principal payments made in accordance with the terms of such Note. If the underlying exchange rate falls and the value of the euro correspondingly rises, the price of the Note and the value of interest payments made thereunder expressed in euro falls.

Resolutions of Holders

If the Terms and Conditions provide for meetings of Holders or the taking of votes without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As such majority resolution is binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.

Holders' Representative

If the Terms and Conditions provide for the appointment of a Holders' Representative, either in the Terms and Conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' Representative who is then exclusively responsible to claim and enforce the rights of all the Holders.

No default if payment is not effected due to any law or regulation

The Terms and Conditions provide that, to the extent legally permissible, the Issuer shall not be in default of its payment obligation under the Notes if payment to the Fiscal Agent or the Clearing System is not effected due to any law or regulation provided that the Issuer cannot effect payment to the Fiscal Agent or the Clearing System by reasonable means. In such case, a termination of the Notes pursuant to § 10(1)(a) of the Terms and Conditions shall not be possible to this extent and affected Holders may receive payment only once payment to the Fiscal Agent or the Clearing System can be effected under such law or regulation.

Historical Background

Historically, the provision of public telecommunications services in Germany was a government monopoly as formerly provided by the German Constitution (*Grundgesetz*). In 1989, Germany began to transform the postal and telecommunications services managed by the former monopoly provider Deutsche Bundespost into market-oriented fields of business, dividing the former monopoly into three separate units corresponding to its branches of business, one of which was Deutsche Bundespost Telekom. At the same time, Germany started to liberalise the German telecommunications market. Effective as of 1 January 1995, Deutsche Bundespost Telekom was transformed into a German stock corporation (*Aktiengesellschaft*), today's Deutsche Telekom AG. On 18 November 1996, the initial public offering took place.

The operation of telecommunications networks (including cable networks) in Germany for all telecommunications services except public voice telephony in fixed networks was opened up to competition on 1 August 1996. The complete liberalisation of the telecommunications sector in Germany followed as of 1 January 1998. Since then, Deutsche Telekom has been facing intense competition and is obliged to grant its competitors access to its domestic network at regulated rates.

Today, Deutsche Telekom is an integrated telecommunications provider offering a comprehensive range of cutting-edge services for its national and international customers in particular in the areas of telecommunications and IT.

Recent Events

On 6 September 2023, T-Mobile US announced a shareholder return programme of up to USD 19 billion that will run from 1 October 2023 through 31 December 2024. The programme consists of further share buy-backs totalling around USD 15.25 billion, as well as dividends totalling around USD 3.75 billion to be paid out on a quarterly basis. The amount available for share buy-backs will be reduced by the amount of any dividends approved. On 25 September 2023, the T-Mobile US Board of Directors declared an initial cash dividend of USD 0.65 per share, which was paid out on 15 December 2023 to the shareholders registered as of close of business on 1 December 2023. EUR 0.4 billion of the cash dividend was attributable to Deutsche Telekom's stake and EUR 0.3 billion to non-controlling interests in T-Mobile US. Between 1 October and 31 December 2023, T-Mobile US bought back 15.5 million shares with a total volume of USD 2.2 billion (EUR 2.0 billion) under its share buy-back programme.

On 12 September 2023, T-Mobile US agreed with U.S. cable network operator Comcast to acquire spectrum in the 600 MHz band in exchange for total cash consideration of between USD 1.2 billion and USD 3.3 billion (EUR 1.1 billion and EUR 3.0 billion). The final purchase price will be determined at the time the parties make the required transfer filings with the Federal Communications Commission ("FCC") once it is decided which spectrum Comcast intends to sell. The transaction is expected to close in the first half of 2028, pending approval from the FCC. At the same time, T-Mobile US and Comcast have agreed exclusive leasing arrangements. The leasing rights for T-Mobile US will apply for at least two years, even if Comcast elects to remove some of its licences from the purchase agreement.

On 28 December 2023, in accordance with the supplementary agreement from 20 February 2020 ("**Letter Agreement**") closed between T-Mobile US, SoftBank, and Deutsche Telekom in the course of the Sprint Merger, T-Mobile US issued 48,751,557 shares of common stock in T-Mobile US to SoftBank. The condition of the Letter Agreement that the volume-weighted price of T-Mobile US ordinary shares reach or exceed USD 149.35 (after adjusting for the first cash dividend by T-Mobile US) for 45 days was satisfied on 22 December 2023. The issue of the shares to SoftBank reduced Deutsche Telekom's ownership stake in T-Mobile US to 50.6 per cent. as of 31 December 2023. The shares issued to SoftBank are subject to the proxy agreement between SoftBank and Deutsche Telekom.

In early 2024, Deutsche Telekom began selling a portion of its T-Mobile US share portfolio on the market, without jeopardising its own majority ownership in T-Mobile US. In the period from 2 January 2024 to 28 March 2024, Deutsche Telekom sold around 11.8 million T-Mobile US shares with a total volume of EUR 1.9 billion. As of 28 March 2024, Deutsche Telekom's stake in T-Mobile US remains over 50 per cent.

Drawing on a global infrastructure of data centres and networks, Deutsche Telekom operates ICT systems for multinational corporations and public-sector institutions.

Deutsche Telekom is divided into the five operating segments Germany, United States, Europe, Systems Solutions and Group Development plus the Group Headquarters & Group Services segment.

The Germany operating segment comprises all fixed-network and mobile business activities for consumers and business customers, including separate sales entities in Germany to allow a customer-centric approach. The Germany operating segment also focuses on the wholesale business to provide telecommunications services for carriers. The bundling of customer service activities places a further focus on customer satisfaction and quality assurance. Build-out of the mobile and fixed networks is managed by the Technology business unit in this segment.

The United States operating segment combines all mobile activities in the U.S. market. T-Mobile US provides service, devices, and accessories across its flagship brands. In addition, it sells devices to dealers and other third-party distributors for resale. It provides wireless communications services through a variety of service plan options to U.S. domestic customers, including plans marketed to businesses. T-Mobile US also offers a wide selection of wireless devices, including smartphones, wearables, tablets, home broadband routers and other mobile communication devices that are manufactured by various suppliers. In addition to its wireless communications services, it offers High Speed Internet utilising its nationwide 5G network. T-Mobile US also provides products that are complementary to its wireless communications services, including device protection, high-speed internet, and wireline communication services. On 1 May 2023, T-Mobile US closed the sale of its Wireline Business.

The Europe operating segment comprises all fixed-network and mobile operations of the national companies in Greece, Hungary, Poland, the Czech Republic, Croatia, Slovakia, Austria, North Macedonia, and Montenegro. In these countries, Deutsche Telekom is an integrated provider of telecommunications services. In Romania, Deutsche Telekom is focused on mobile communications. In addition to consumer business, most of Deutsche Telekom's national companies also offer ICT solutions for business customers.

The Systems Solutions operating segment offers IT services to business customers in Western Europe under the T-Systems brand and comprises four portfolio areas: Cloud, Digital, Security (in close collaboration with Deutsche Telekom Security), and Advisory (together with Detecon as advisory partner).

The Group Development operating segment actively manages entities, subsidiaries, and equity investments to grow their value while giving them the entrepreneurial freedom they need to promote

their continued strategic development. In this context, Deutsche Telekom sold 51.0 per cent. of the shares in the cell tower business in Germany and Austria (GD tower companies) on 1 February 2023. The investment management group Deutsche Telekom Capital Partners; Comfort Charge, which is a provider of e-mobility charging infrastructure; and the Group functions of Mergers & Acquisitions and Strategic Portfolio Management are also assigned to Group Development.

Group Headquarters & Group Services comprises all Group units that cannot be allocated directly to one of the operating segments, as well as the Board of Management department Technology and Innovation, which unites the cross-segment technology, innovation, IT, and security functions of the Germany, Europe and Systems Solutions operating segments. As the organisation that sets the direction and provides impetus, it defines strategic aims for the Group, ensures they are met, and becomes directly involved in selected Group projects. Group Services provides services to the entire Group; in addition to typical services provided by Deutsche Telekom Services Europe, such as financial accounting, human resources services, and operational procurement, Group Services also includes placement services, which are provided by the personnel service provider, Vivento. Vivento is in charge of securing external employment opportunities for employees, predominantly in the public sector. Further units are Group Supply Services for the real estate management and the strategic procurement, and Telekom MobilitySolutions, which is a full-service provider for fleet management and mobility services.

CORPORATE TRANSACTIONS

On 13 July 2022, Deutsche Telekom agreed to sell a 51.0 per cent. stake in the cell tower business companies in Germany and Austria (GD Towers), which were assigned to the Group Development operating segment, to DigitalBridge and Brookfield. After all necessary regulatory approvals had been duly granted and all other closing conditions met, the transaction was closed on 1 February 2023. The sale price is based on an enterprise value of EUR 17.5 billion. The total gain on deconsolidation resulting from the sale amounts to EUR 15.9 billion, of which EUR 12.9 billion is included in profit/loss from discontinued operation as other operating income in the consolidated income statement as of the deconsolidation date. As Deutsche Telekom has largely leased back the sold passive network infrastructure in Germany and Austria under a sale and leaseback transaction, a further EUR 3.0 billion will be recognised pro rata in subsequent periods. Overall, right-of-use assets were recognised in the amount of EUR 2.0 billion and lease liabilities in the amount of EUR 5.0 billion. The transaction resulted in cash proceeds of EUR 10.7 billion. The stake retained by Deutsche Telekom of 49.0 per cent. has been included in the consolidated financial statements using the equity method since 1 February 2023.

On 6 September 2022, T-Mobile US reached an agreement with Cogent Infrastructure (Cogent) on the sale of T-Mobile US' fibre-optic-based wireline business. Under the agreement, Cogent will take over all shares in the entity that holds all of the assets and liabilities related to the former Sprint's fibre-optic-based wireline network. The transaction was consummated on 1 May 2023. All necessary regulatory approvals had been duly granted and all other closing conditions met. The sale price was USD 1 and was subject to customary adjustments laid down in the purchase agreement. The cash proceeds received upon completion of the transaction amounted to USD 14 million (EUR 13 million). The loss on deconsolidation resulting from the sale amounted to EUR 4 million. In addition, upon completion of the transaction, T-Mobile US undertook to enter into a separate agreement on IP transit services, according to which T-Mobile US will pay a total of USD 0.7 billion (around EUR 0.6 billion) to Cogent in agreed instalments over subsequent periods. In connection with the payment obligations entered into as part of the transaction, total liabilities of EUR 0.7 billion had already been recognised in the 2022 financial year. As a result of the concluded sales agreement, the assets and liabilities of the Wireline Business were reported in the consolidated statement of financial position as "held for sale" from 30 September 2022 up until their sale on 1 May 2023.

On 9 March 2023, T-Mobile US entered into a merger and unit purchase agreement for the acquisition of 100 per cent. of the outstanding equity of Ka'ena Corporation and its subsidiaries including, among others, Mint Mobile, for a maximum purchase price of USD 1.35 billion to be paid out of 39 per cent. cash and 61 per cent. in shares of T-Mobile US common stock. Ka'ena Corporation is one of the wholesale partners of T-Mobile US, offering wireless telecommunications services to customers. The purchase price is variable dependent upon specified performance indicators of Ka'ena during certain periods before and after closing and consists of an upfront payment at deal close, subject to certain agreed-upon adjustments, and a variable earnout payable 24 months after the close of the transaction. The upfront payment is expected to be a revised amount of around USD 1.2 billion (before working capital adjustments). The transaction is subject to approval by the authorities as well as other customary

closing conditions and is expected to close in the second quarter of 2024.

On 8 September 2022, T-Mobile US announced that its Board of Directors has authorised a share buy-back programme for up to USD 14.0 billion of the company's common stock through 30 September 2023. T-Mobile US repurchased a total of around 98.8 million shares under the 2022 share buy-back programme at a price of USD 14.0 billion (EUR 13.2 billion). The budget was therefore fully exhausted by the end of September 2023. On 6 September 2023, T-Mobile US announced a shareholder return programme of up to USD 19 billion that will run from 1 October 2023 through 31 December 2024. The programme consists of further share buy-backs totalling around USD 15.25 billion, as well as dividends totalling around USD 3.75 billion to be paid out on a quarterly basis. The amount available for share buy-backs will be reduced by the amount of any dividends approved. On 25 September 2023, the T-Mobile US Board of Directors declared an initial cash dividend of USD 0.65 per share, which was paid out on 15 December 2023 to the shareholders registered as of close of business on 1 December 2023. EUR 0.4 billion of the cash dividend was attributable to Deutsche Telekom's stake and EUR 0.3 billion to non-controlling interests in T-Mobile US. Between 1 October and 31 December 2023, T-Mobile US bought back 15.5 million shares with a total volume of USD 2.2 billion (EUR 2.0 billion) under its share buy-back programme. For further information on this transaction, please refer to section "*Recent Events*".

On 28 December 2023, in accordance with the supplementary agreement from 20 February 2020 (Letter Agreement) closed between T-Mobile US, SoftBank, and Deutsche Telekom in the course of the Sprint Merger, T-Mobile US issued 48,751,557 shares of common stock in T-Mobile US to SoftBank. The condition of the Letter Agreement that the volume-weighted price of T-Mobile US ordinary shares reach or exceed USD 149.35 (after adjusting for the first cash dividend by T-Mobile US) for 45 days was satisfied on 22 December 2023. The issue of the shares to SoftBank reduced Deutsche Telekom's ownership stake in T-Mobile US to 50.6 per cent. as of 31 December 2023. The shares issued to SoftBank are subject to the proxy agreement between SoftBank and Deutsche Telekom.

In early 2024, Deutsche Telekom began selling a portion of its T-Mobile US share portfolio on the market, without jeopardising its own majority ownership in T-Mobile US. For further information on this transaction, please refer to section "*Recent Events*".

In November 2023, Deutsche Telekom announced that shares of Deutsche Telekom AG will be bought back in 2024 up to a total purchase price of EUR 2 billion under a share buy-back programme. For further information on this transaction, please refer to section "*Recent Events*".

INVESTMENTS IN NETWORK AND SPECTRUM

On 8 August 2022, T-Mobile US entered into agreements with Channel 51 License and LB License for the acquisition of spectrum in the 600 MHz band in exchange for total cash consideration of USD 3.5 billion (EUR 3.2 billion). On 30 March 2023, the contractual parties further agreed that the transaction be divided into two separate tranches. The transfer of the licences in accordance with the agreements is subject to regulatory approvals and certain other customary closing conditions. The FCC approved the first tranche of the licence transfer on 29 December 2023. T-Mobile US expects the first tranche to be concluded in the second quarter of 2024, and the second tranche in late 2024/early 2025.

On 1 July 2020, T-Mobile US and DISH Network Corporation ("**DISH**") reached an agreement on the sale of spectrum licences, under which DISH agreed to purchase certain 800 MHz spectrum licences from T-Mobile US for USD 3.6 billion (EUR 3.3 billion). On 15 October 2023, T-Mobile US and DISH modified the agreement to include, among other changes, a non-refundable extension fee of USD 0.1 billion (EUR 0.1 billion) which DISH paid to T-Mobile US on 25 October 2023, as well as the requirement that the purchase of the spectrum licences must be finalised by 1 April 2024. DISH has not exercised its rights and finally not completed the spectrum purchase by this date. T-Mobile US is now obligated to put the licences up for sale at auction and has initiated the auction process. Should bidding not reach the defined minimum purchase price of USD 3.6 billion, T-Mobile US would be released from its obligation to sell the licences.

On 12 September 2023, T-Mobile US agreed with U.S. cable network operator Comcast to acquire spectrum in the 600 MHz band in exchange for total cash consideration of between USD 1.2 billion and USD 3.3 billion (EUR 1.1 billion and EUR 3.0 billion). For further information on this transaction, please refer to section "*Recent Events*".

At the multi-band auction in Croatia, which began with a bidding phase on 17 January 2023, Hrvatski

Telekom secured an above-average package of spectrum, comprising the largest share of spectrum (2x 105 MHz), for around EUR 135 million. In Poland, the bidding phase for the 3,400 to 3,800 MHz band award ended on 18 October 2023. T-Mobile Polska purchased 100 MHz of this spectrum for around EUR 111 million, securing one of the two spectrum blocks with the fewest technical constraints.

The Austrian regulatory authority RTR has awarded 26 GHz millimetre wave spectrum and it also awarded residual frequencies in the 3,400 to 3,800 MHz band from the 2019 auction in the same procedure. The spectrum auction ended on 26 March 2024 and T-Mobile Austria purchased spectrum for around EUR 11 million. In Poland, the award procedure for the 700 MHz band and, if applicable, for spectrum in the 26 GHz band could also potentially begin in late 2024. In the Czech Republic, the procedure to extend the 900/1,800 MHz GSM license, which expires in 2024, is ongoing and is expected to end in the second quarter of 2024. In Slovakia meanwhile, the procedure (auction) to re-award spectrum in the 900 MHz and 2,100 MHz bands announced for the end of 2023 is at stake following calls by several parties to re-examine the auction conditions and has been postponed to 2025.

In Germany, the regulatory authority Bundesnetzagentur launched a public consultation on 13 September 2023, following which it intends to extend the usage rights – which expire at the end of 2025 – for the 800 MHz, 1,800 MHz (partial), and 2,600 MHz mobile frequencies and therefore not award them by way of an auction for the time being. The extension periods under discussion are for five or eight years but no decision has been made yet.

In the United States, the U.S. regulator for the telecommunications sector, FCC, did not hold any spectrum auctions in 2023. The FCC's spectrum auction authority expired on 9 March 2023 and has yet to be reauthorised by the U.S. Congress. The U.S. Congress passed a narrow bill – the "5G Sale Act" – that gives the FCC the temporary authority to assign licences purchased in the 2022 2.5 GHz spectrum auction. The law took effect on 19 December 2023 and provides the FCC with 90 days to process the licence assignments. At Auction 108 in September 2022, T-Mobile U.S. acquired spectrum for around USD 0.3 billion (EUR 0.3 billion). The spectrum was awarded by the FCC at the beginning of March 2024 before the 90-day deadline expired.

In 2024 Deutsche Telekom expects further spectrum awards, such as auctions as well as licence extensions in Czech Republic and Poland.

In Germany and Europe, Deutsche Telekom continued to invest in the provision of broadband and fibre-optic technology and in 5G as part of its integrated network strategy. In the United States, Deutsche Telekom continued to invest in the 5G network build-out.

REGULATION AND MAJOR REGULATORY DECISIONS

The business activities of Deutsche Telekom are largely subject to national, European, and U.S. regulation, which is associated with extensive powers to intervene in its product design and pricing, particularly in Europe. Deutsche Telekom was still subject to extensive regulation in its mobile and fixed-network businesses in 2023.

On the basis of the Bundesnetzagentur's decision of 21 July 2022 on the regulation of access to Deutsche Telekom's copper and fibre-optic network, the following procedures on the reference offer for active access to FTTB/H networks and structural installations, as well as on charges for access to structural installations, were opened in 2023: In July 2023, Telekom Deutschland proposed a draft reference offer for structural installations and, in October 2023, submitted a rate application for the corresponding services. The procedure on the reference offer for active FTTB/H services is also under way. The commitment agreements for VDSL and FTTB/H agreed until the end of 2031 had already passed the extended review conducted by the Bundesnetzagentur in 2022.

Telekom Deutschland and EWE founded the joint venture Glasfaser NordWest in 2020. The aim of the joint venture is to provide up to 1.5 million households and business locations with fast internet. On 22 September 2021, Düsseldorf Higher Regional Court overturned the approval granted by the Federal Cartel Office (*Bundeskartellamt*) under merger control law. The Federal Cartel Office, EWE, and Telekom Deutschland have each lodged a complaint against the decision of the Düsseldorf Higher Regional Court to not allow an appeal. On 12 September 2023, the Federal Court of Justice admitted the appeal of the Federal Cartel Office and Telekom Deutschland. Thus, a legal review of the revocation of the merger control approval will now take place by the Federal Court of Justice. If the Düsseldorf Higher Regional Court's decision would be confirmed, the case will be referred back to the Federal Cartel Office for a new decision on approval and any further conditions. The joint venture can continue

building out FTTH until the Federal Cartel Office decides otherwise.

In order to set and achieve its strategic goals more effectively, Deutsche Telekom pursues a Group-wide, value-oriented performance management approach. The structure and content of the financial figures in this Prospectus follow this internal management approach of Deutsche Telekom where applicable. Since the third quarter of 2022, the GD Towers business entity, which operates the cell tower business in Germany and Austria, assigned to the Group Development operating segment, has been recognised in the consolidated financial statements as a discontinued operation. However, in this Prospectus Deutsche Telekom continues to include the contributions by GD Towers in the results of operations according to the management approach.

The sections "*Development of Deutsche Telekom's Business*", "*Financial Information concerning Deutsche Telekom's Assets and Liabilities*" and "*Financial Position and Profits and Losses*" contain so-called alternative performance measures, such as EBITDA AL, EBITDA AL margin, special factors, Free Cash Flow (before dividend payments and spectrum investment), Free Cash Flow AL (before dividend payments and spectrum investment), Cash Capex and Net debt. Selected Consolidated Income Statement Data and related alternative performance measures of Deutsche Telekom

On 13 July 2022, Deutsche Telekom reached an agreement with DigitalBridge and Brookfield on the sale of a 51.0 per cent. stake in GD Towers. The sale of the GD Towers business entity was consummated on 1 February 2023, and GD Towers has not been part of the Group since that date. The GD Towers business entity had been recognised in the consolidated financial statements as a discontinued operation from the third quarter of 2022 until its sale. The following table presents information concerning Deutsche Telekom's consolidated income statements for the periods indicated. In addition to the consolidated income statements prepared in accordance with IFRS, the consolidated income statements prepared in accordance with the management approach of Deutsche Telekom is presented. In the management approach, Deutsche Telekom presents the results of the GD Towers business together with results from continuing operations. The management approach figures are alternative performance measures which are non-GAAP figures not governed by IFRS. They should not be viewed in isolation as an alternative to profit or loss from operations, net profit or loss, net cash from operating activities, the liabilities reported in the consolidated statement of financial position, or other Deutsche Telekom key performance indicators presented in accordance with IFRS:

Results of Operations of the Group

Net Revenue

According to the management approach, Deutsche Telekom generated net revenue of EUR 112.0 billion in 2023, which was 2.1 per cent. or EUR 2.4 billion down on the 2022 level. In organic terms net revenue increased by 0.6 per cent. against the 2022 level, including negative net exchange rate effects of EUR 1.9 billion, with the changes in the composition of the Group having the net reducing effect of EUR 1.1 billion.

In the United States operating segment, net revenue decreased by 4.0 per cent. compared to the 2022 level, due in part to exchange rate effects. In organic terms, net revenue in the United States declined by 0.8 per cent. This was attributable to lower terminal equipment revenue. First of all, the migration of former Sprint customers to the T-Mobile US network is complete, such that fewer devices compatible with the T-Mobile US network were sold to these customers. Furthermore, customers use their devices longer. In addition, T-Mobile US continued its strategic withdrawal from the terminal equipment lease business. The decline in terminal equipment revenues was only partially offset by an increase in service revenue. In the Group Development operating segment, revenue development was dominated by the

loss of the value contributions of the sold entities T-Mobile Netherlands and GD Towers. In organic terms, net revenue increased by 3.2 per cent. The other operating segments recorded positive revenue trends. Net revenue in the German domestic market was up on the 2022 level, increasing by 2.8 per cent. In organic terms, net revenue in the German domestic market increased by 2.1 per cent. This was mainly driven by growth in service revenues in the fixed-network core business and in mobile communications. Build-out services for Deutsche Telekom's cooperation partners also had a positive impact on net revenue. In the Europe operating segment, net revenue increased by 5.7 per cent. in 2023 compared with 2022. In organic terms, net revenue increased by 4.8 per cent., primarily attributable to the increase in high-margin service revenues in the mobile business. Contract customer additions also had positive effects on terminal equipment revenues. Net revenue in the Systems Solutions operating segment was up 2.2 per cent. in 2023 compared with 2022; in organic terms, it was up 5.3 per cent. This positive revenue trend was mainly driven by growth in the Road Charging, Digital, Advisory, and Cloud portfolio areas.

^d The GD Towers business entity, which operated the cell tower business in Germany and Austria and was assigned to the Group Development operating segment, was recognised as a discontinued operation in the consolidated financial statements from the third quarter of 2022 until its sale on 1 February 2023. By contrast, Deutsche Telekom uses the management approach in this presentation, i.e., the results of operations include the value of contributions from GD Towers up to and including January 2023.				

At 64.7 per cent, the United States operating segment provided by far the largest contribution to net revenue of the Group in 2023, down 1.2 percentage points against the level in 2022. The proportion of net revenue generated internationally also decreased from 77.9 per cent. to 77.0 per cent.

Adjusted EBITDA AL, EBITDA AL

According to the management approach, adjusted EBITDA AL increased by EUR 0.3 billion or 0.7 per cent. to EUR 40.5 billion in 2023 compared with 2022. In organic terms, adjusted EBITDA AL increased by EUR 1.6 billion or 4.0 per cent., including negative net exchange rate effects of EUR 0.7 billion, and with changes in the composition of the Group having a net reducing effect of EUR 0.6 billion. Adjusted core EBITDA AL, i.e., adjusted EBITDA AL excluding revenue from terminal equipment leases in the United States, thereby presenting operational development undistorted by the strategic withdrawal from the terminal equipment lease business, increased by EUR 1.3 billion or 3.5 per cent. to EUR 40.2 billion.

All operating segments – with the exception of Group Development, due to the aforementioned loss of the value contributions of the sold units – made a positive contribution to the development of adjusted EBITDA AL. The Germany operating segment contributed to the increase thanks to high-value revenue growth and improved cost efficiency with 4.1 per cent. higher adjusted EBITDA AL; in organic terms, it increased by 3.0 per cent. Adjusted EBITDA AL in the United States operating segment increased by 3.1 per cent. In organic terms, adjusted EBITDA AL grew by 5.2 per cent. in 2023 compared with 2022, mainly due to lower costs. Adjusted core EBITDA AL at T-Mobile US increased by EUR 1.9 billion or 7.6

per cent. to EUR 26.1 billion. Adjusted EBITDA AL in the Europe operating segment increased by 3.8 per cent. In organic terms, it increased by 2.8 per cent, with a positive net margin more than sufficient to offset the higher indirect costs. In the Systems Solutions operating segment, adjusted EBITDA AL increased by 13.0 per cent. or, in organic terms, by 10.0 per cent., mainly due to revenue growth in the Road Charging and Digital areas.

EBITDA AL increased by EUR 15.2 billion to EUR 51.2 billion in 2023 compared with 2022, with special factors EBITDA AL increasing by EUR 14.9 billion to EUR 10.7 billion. Net income of EUR 12.2 billion was recorded as special factors under effects of deconsolidations, disposals, and acquisitions. The deconsolidation of GD Towers as of 1 February 2023 gave rise to income of EUR 12.9 billion. Another EUR 0.2 billion came from the sale of a subsidiary by Deutsche Telekom Capital Partners. Net expenses of EUR 1.0 billion, mainly in connection with integration costs as a result of the merger of T-Mobile US and Sprint, had an offsetting effect. In 2022 net expenses of EUR 2.3 billion had been recorded as special factors under deconsolidations, disposals, and acquisitions. This included expenses of EUR 5.0 billion incurred mainly in connection with integration costs arising as a result of the merger of T-Mobile US and Sprint and in connection with payment obligations relating to the agreement concluded at that time to sell the fibre-optic-based wireline business. In 2022, by contrast, these effects included income of EUR 1.7 billion from the deconsolidation of GlasfaserPlus and a further EUR 0.9 billion from the sale of T-Mobile Netherlands. Expenses incurred in connection with staff restructuring totalled EUR 1.5 billion, up EUR 0.3 billion against the 2022 level. In the third quarter of 2023, T-Mobile US implemented a workforce reduction programme. The expenses recognised as special factors in this connection amounted to EUR 0.4 billion. No significant impairment losses on right-of-use assets or other special factors affecting EBITDA AL were recognised in 2023. In 2022, the impairment losses classified as special factors amounted to EUR 0.3 billion and mainly related to right-of-use assets used in connection with the former Sprint's fibre-optic-based wireline network. Other special factors affecting EBITDA AL amounted to EUR 0.3 billion in 2022 and included expenses (including insurance compensation) of EUR 0.4 billion in connection with the proceedings pending in consequence of the cyberattack on T-Mobile US in August 2021, as well as insurance compensation of EUR 0.2 billion in connection with damage sustained in the catastrophic flooding in July 2021.

EBIT

According to the management approach, group EBIT in 2023 increased to EUR 33.8 billion, up EUR 17.6 billion against 2022. This increase is due in particular to the deconsolidation gain from the sale of GD Towers.

At EUR 24.0 billion, depreciation, amortisation and impairment losses on intangible assets, property, plant and equipment, and right-of-use assets were EUR 3.9 billion lower in 2023 than in 2022, with the decrease being mainly attributable to the United States and Group Development operating segments. Depreciation and amortisation decreased by EUR 2.9 billion. In the United States operating segment, they declined due to the ongoing strategic withdrawal from the terminal equipment lease business. Depreciation and amortisation also decreased due to the complete write-off of certain 4G network components, including assets affected by the decommissioning of the former Sprint's legacy CDMA and LTE networks in 2022. The decrease was offset by increased depreciation and amortisation in connection with the further build-out of the nationwide 5G network in the United States. In the Group Development operating segment, depreciation and amortisation were down on 2022 level in connection with the fact that GD Towers had been held for sale until it was sold and accordingly the related depreciation and amortisation had been suspended, and in connection with its subsequent sale. By contrast, a further reduction in the useful life of leased network technology for cell sites following the business combination of T-Mobile US and Sprint increased depreciation of the corresponding right-of-use assets by EUR 0.2 billion. In the Germany operating segment, depreciation and amortisation increased, partly as a result of the sale and leaseback of passive network infrastructure in Germany and Austria in connection with the sale of GD Towers and the associated recognition of retained right-of-use assets.

The impairment losses recognised in 2023 amounted to EUR 0.2 billion and largely related to the Systems Solutions operating segment and the Group Headquarters & Group Services segment. These related primarily to follow-up investments in connection with assets previously impaired in the 2020, 2021, and 2022 financial years. Furthermore, despite the business outlook remaining positive, the increase in the cost of capital in 2023 prompted further impairment losses to be recognised on non-current assets at the end of 2023. The impairment losses recorded in 2022 of EUR 1.2 billion were mainly attributable to the former Sprint's fibre-optic-based wireline assets in the United States operating segment.

Profit before income taxes

According to the Management approach, profit before income taxes increased by EUR 13.3 billion to EUR 25.0 billion. The loss from financial activities increased from EUR 4.4 billion in 2022 to EUR 8.8 billion in 2023, mainly driven by an increase in loss of associates and joint ventures included in the consolidated financial statements using the equity method from EUR 0.5 billion to EUR 2.8 billion. The main factor in this was impairment losses recognised in the reporting year of EUR 2.6 billion and EUR 0.1 billion, respectively, on the carrying amounts of the investments in GD Towers and in GlasfaserPlus. These impairment losses were due entirely to higher discount rates due to macroeconomic developments in the reporting year. By contrast, the business outlook for GD Towers improved slightly. The 2022 figure included an interest rate-based impairment loss of EUR 0.5 billion recognised on the carrying amount of the stake in GlasfaserPlus. Other financial income declined from EUR 1.4 billion to a financial expense of EUR 0.3 billion, in particular in connection with the interest component from the measurement of provisions and liabilities. This decrease was mainly attributable to the subsequent measurement using actuarial principles of the present value of the provision recognised for the Civil Service Health Insurance Fund. In 2022, the measurement was affected by the significant increase in the interest rate level in that period. Gains/losses from financial instruments also declined, partly due to less pronounced positive measurement effects from derivatives compared with 2022. Finance costs increased from EUR 5.3 billion to EUR 5.7 billion, partly due to the sale and leaseback of passive network infrastructure in Germany and Austria in connection with the sale of GD Towers, which resulted in an increase in the carrying amounts of the lease liabilities, and due to the measurement of interest rate derivatives concluded to hedge changes in market interest rates.

Net profit/loss

According to the management approach, in 2023 net profit increased by EUR 9.8 billion to EUR 17.8 billion. Tax expenses increased by EUR 0.7 billion to EUR 3.0 billion. The tax rate was significantly reduced in 2023 by the realisation of non-taxable income from the sale of GD Towers. Taxes were furthermore reduced by deferred tax effects arising in connection with the sale-and-leaseback transaction concluded. Profit attributable to non-controlling interests increased by EUR 2.7 billion to EUR 4.2 billion. This increase was almost entirely attributable to the United States operating segment. Excluding special factors, which had a positive overall effect of EUR 9.8 billion on net profit, adjusted net profit amounted to EUR 7.9 billion, compared with EUR 9.1 billion in 2022. The increase in loss from financial activities in particular had a decreasing effect.

Net debt (calculated as the Group's gross debt (sum of financial liabilities and lease liabilities minus accrued interest and miscellaneous other financial liabilities) minus certain financial assets (cash and cash equivalents, derivative financial assets and other financial assets)) decreased by EUR 10.1 billion to EUR 132.3 billion, mainly due to the strong increase in free cash flow (before dividend payments and spectrum investment) of EUR 20.9 billion and the cash proceeds of EUR 10.7 billion from the sale of GD Towers. Exchange effects of EUR 3.6 billion had a further decreasing effect on net debt. By contrast, net debt was increased mainly by the share buy-back programme at T-Mobile US (EUR 12.1 billion). Other effects increasing net debt were the addition to lease liabilities and right-of-use assets (EUR 4.2 billion), dividend payments including non-controlling interests (EUR 4.0 billion) and spectrum acquisition (EUR 1.3 billion).

Off-balance-sheet financial instruments mainly relate to the sale of receivables by means of factoring. Total receivables sold as of 31 December 2023 amounted to EUR 2.7 billion (31 December 2022: EUR 2.8 billion). At the end of 2023, this solely related to factoring agreements in the United States operating segment. The agreements are used in particular for active receivables management.

Free cash flow AL (before dividend payments and spectrum investment) increased by EUR 4.7 billion to EUR 16.1 billion in 2023 compared with 2022.

Net cash from operating activities increased by EUR 1.5 billion to EUR 37.3 billion on the back of the good business performance. Lower cash outflows in connection with the integration of Sprint in the United States also had an increasing effect. However, the trend in net cash from operating activities was negatively impacted by the sale of T-Mobile Netherlands and GD Towers, as well as by exchange rate effects. In particular, the increase in tax payments of EUR 0.4 billion and the increase in net interest payments of EUR 0.1 billion also had a reducing effect.

Cash capex (before spectrum investment) decreased by EUR 4.4 billion to EUR 16.6 billion. Cash capex in the United States operating segment decreased by EUR 4.3 billion to EUR 9.1 billion, mainly as a result of higher cash outflows in 2022 for the accelerated build-out of the 5G network and the integration of Sprint. In the Group Development operating segment, cash capex decreased, mainly due to the sales of T-Mobile Netherlands and GD Towers. In the Germany operating segment, capital expenditure totalled around EUR 4.6 billion in the reporting year, EUR 0.2 billion more than in the prior year, with much of this figure going towards the fibre-optic build-out. In the Europe operating segment, cash capex stood at EUR 1.8 billion, which was on a par with the prior-year level. We continue to invest here in the

provision of broadband and fibre-optic technology and in 5G as part of our integrated network strategy. In the Systems Solutions operating segment, our capital expenditure stood at the prior-year level of EUR 0.2 billion. Lower investments in the Cloud portfolio area were offset by higher investments in the Road Charging portfolio area, due to increased demand for on-board units.

Outlook

Market Expectations

Macroeconomic development

Following a strong start to the year, the global economy lost momentum in summer 2023. The International Monetary Fund ("IMF") puts the global growth rate in 2023 at 3.1 per cent. down from 3.5 per cent. in 2022. This slowdown is largely due to the flagging recovery from the coronavirus pandemic, Russia's war against Ukraine, and tighter monetary policy and financial framework conditions. A further adverse factor is the restrained economic development in China caused mainly by debt in the nation's real estate sector. The tighter monetary policy and declining commodity prices dampened the buoyancy of consumer prices in the United States and the Eurozone in 2023.

There were contrasting trends in the economies in Deutsche Telekom's core markets in 2023. In the United States, the economic situation developed better than had been anticipated at the start of the year. There was a marked increase in both consumer spending and capital investments, the latter most likely due in part to the recent introduction of subsidies in the semiconductor industry and in the area of transformation technologies.

By contrast, the European economy stagnated with a weak outlook. The industrial sector in particular suffered from rising interest rates, weak global demand, and diminished price competitiveness caused by the appreciation of the euro. This also resulted in more companies filing for insolvency in 2023. In the construction industry, demand for construction services has dropped markedly due to significantly worse financing conditions and sharp rises in construction costs. Consumer spending was also a weak point for the economy. Economic output declined in Deutsche Telekom's European core countries of Germany, Hungary, the Czech Republic, and Austria in 2023, while the remaining core countries of Greece, Romania, Poland, Croatia, and Slovakia posted positive economic growth, benefiting in part from the EU's Recovery and Resilience Facility. The magazine "The Economist" rated Greece the top-performing economy of 2023. The IMF also praised the Greek economy's positive development, highlighting the country's progress with the digital transformation.

In Germany, the Bitkom-ifo-Digitalindex, calculated on the basis of the business situation and expectations, decreased over the course of 2023. The business climate in the IT and telecommunication sector stood at plus 9.8 points in December 2023. The ICT industry thus remains at a significantly higher level than the economy as a whole: the ifo-Geschäftsklima Deutschland indicator was at minus 11.2 points in December 2023.

The global economy continues to be beset by the challenges of relatively high interest rates and dampened growth prospects. In its economic forecast from January 2024, the IMF expects global economic growth in 2024 to remain at the prior-year level of 3.1 per cent. Tougher financing conditions, weak trade growth, and diminished business and consumer confidence are negatively impacting the economic outlook. Growing geopolitical tensions are further contributing to increased uncertainty about the economic outlook. Cooling inflation and falling prices on the global energy markets could lead to moderate economic recovery in 2024. Progress with the digital transformation and new trends in artificial intelligence could stimulate growth in productivity in the medium term. However, significant downside risks continue to weigh on the economic outlook. Despite these challenges, Deutsche Telekom expects moderate growth for its core markets for the full year 2024.

GERMANY

In January 2024, the industry association Bitkom estimated that total revenue in the telecommunications industry in Germany had increased by 1.7 per cent. year-on-year to EUR 72.1 billion in 2023. Revenue in the area of telecommunications equipment grew by 4.4 per cent. and in telecommunications services by 1.9 per cent. while revenues from terminal equipment were set to decline by 0.7 per cent.

The industry association VATM estimated an increase of 0.5 per cent. year-on-year in the number of broadband lines in Germany by the end of 2023 to 37.0 million lines. High-bandwidth lines are

increasingly marketed in cable and VDSL/vectoring networks. The drive to build out modern fibre-optic networks continues: in addition to established telecommunications companies, public utility companies, municipalities, and special purpose associations, as well as investor-driven network operators, are increasingly active. The growing availability of high bandwidths in Germany and the large choice of HD content and video-on-demand services are stimulating sustained customer growth in IPTV business. Providers are recording growth in broadband revenue driven by rising customer numbers in addition to higher revenues per customer for broadband products and triple-play bundles comprising telephony, a broadband line, and TV service. The trend to use convergent product bundles comprising fixed-network and mobile offerings ("**FMC**") also continued.

According to VATM, service revenue in the German mobile communications market increased slightly by 1.0 per cent. compared with 2022, driven mainly by the uninterrupted upswing in data usage, which grew by 22.1 per cent. Regulatory effects and sustained price and competitive pressure offset the additional demand for data. Mobile data usage continues to increase strongly on the back of growing use of products such as mobile video apps. Connected devices like smartwatches and fitness trackers (wearables) are growing in popularity. Alongside established apps for IP messaging and social networks, etc., new apps for tracking fitness, vital, and health data or using mobile payment services are also gaining traction and pushing up demand for high-speed mobile broadband, large data volumes, and extra SIM cards in the rate plan portfolios.

Digitalisation is continuing apace, and as a result there is also growing demand by the industry for more connectivity to allow machines and production sites to be networked and to tap efficiencies in value chains. Extensive IT and cloud solutions, as well as intelligent approaches to M2M communication are needed in order to meet these demands.

UNITED STATES

To meet the ongoing demand for faster networks in 2023, U.S. broadband providers continued to expand their network capacities with further wireless and fibre deployments. Fixed Wireless Access ("**FWA**"), providing high-speed internet to homes and businesses, remained the primary technology driving fixed broadband growth, putting the United States at the forefront of FWA development. Wireless providers have used FWA to enter the fixed broadband market, while fixed internet service providers with access to 5G spectrum use FWA to complement broadband access in locations where fibre access networks are not present. In the United States, FWA has also been used to help bridge the digital divide in rural locations where laying fibre is not economical.

Fibre-to-the-home ("**FTTH**") deployments saw a record year, with the number of FTTH homes passed and being marketed to consumers in the United States growing 13 per cent. in 2023 to 78 million homes. Fibre deployments are expected to further expand with the support of the federal Broadband Equity Access and Deployment Program ("**BEAD**"). The BEAD programme provides USD 42.45 billion to fund primarily fibre-based broadband expansion projects in unserved and underserved areas of the United States. Planning grants have been awarded to states around the country and further distributions are ahead in 2024.

Carriers in the United States are continuing to evaluate options for a shift in communications network architecture from closed proprietary interfaces toward Open Radio Access Network (Open RAN) deployment.

The U.S. regulator for the telecommunications sector, the FCC, in 2023 began a proceeding to reintroduce net neutrality regulations along the lines of the 2015 regulations. The agency is expected to issue final regulations in 2024, following a public consultation.

EUROPE

In 2023, the telecommunications markets in the Europe segment continued to feel the adverse effects of world events, and in particular geopolitical tensions. Inflation drove up energy and producer prices in early 2023, while financing conditions for private households and businesses deteriorated on the back of higher interest rates, putting overall economic demand under further pressure. The inflation-induced changes in consumer prices lost momentum in the countries of the segment over the course of 2023, but remain at a comparatively high level. This resulted in numerous telecommunications companies adapting their rate plans in agreement with the local regulatory authority to offset rising costs, leading to customers making economies in their selection of telecommunications products. Nevertheless, demand for broadband and TV services remained high. This is also reflected in Analysys

Mason's figures for the fixed-network business (excluding systems solutions) for the first half of 2023: the business grew, driven in particular by the sharp increase in broadband business, to around 4 per cent. This offsets the decline in revenues from voice telephony. TV and mobile business also performed better than in 2022.

The market players in the European footprint focused their acquisition activities in 2023 on becoming providers of convergent product bundles comprising FMC. In countries such as Greece and Poland, the integration continued to progress during 2023. In terms of the acquisition of spectrum licences, there was only limited activity on the markets in 2023. However, the activities of the cell tower businesses picked up pace.

Convergent product bundles are now established in Deutsche Telekom's markets and consistently post high growth rates. According to Analysys Mason, the number of FMC customers continued to grow year-on-year in the first half of 2023 by around 6 per cent. and revenues by around 7 per cent. Subscription-based streaming services continue to gain in relevance in the markets of the Europe segment. The appeal of this business model is evidenced by the year-on-year growth: according to Analysys Mason, revenues with streaming services in Europe and the customer base both posted further strong growth as of the end of the first half of 2023.

In 2023, the European telecommunications market was dominated by technological advances, regulatory changes, cybersecurity concerns, competition, remote working requirements, a focus on sustainability and green initiatives, supply chain challenges, and increased inflationary pressure. Over the course of 2023, the business to business operations adapted to these changing economic circumstances. Influenced by the European Commission's Green Deal, the telecommunications sector will take on a central role as strategic partner and bolster Europe's ability to build towards greater resilience. In 2023, the European markets continued their rapid adoption of technologies such as 5G, competitive broadband networks, and digital services like software defined networks, cybersecurity, and cloud computing, laying the foundation for the digital and green transformation. As 5G connectivity, edge computing, artificial intelligence, and data-driven processes become ever more reliable, businesses of all sizes are being spurred to deploy secure multi-access edge computing and secure private networks to enhance their competitiveness on the market and strengthen their strategic independence.

SYSTEMS SOLUTIONS

In the IT industry, the revenue volume that can be addressed by Deutsche Telekom's Systems Solutions operating segment in its core market of Western Europe under the T Systems brand increased by 4.6 per cent. in 2023 to EUR 187 billion. Companies continue to invest in digital solutions.

In Germany, in terms of IT services, demand has grown further for public cloud services and cybersecurity services, as has the importance of digitalisation (including Industry 4.0). The security market in Western Europe addressed by T-Systems grew by 10.4 per cent. in 2023. The health sector also developed positively, posting double-digit growth rates in areas including electronic patient files, digital health innovations, and the healthcare cloud in Germany. By contrast, growth slowed in the market segments for traditional IT infrastructure and SAP services.

Competitive and price pressure persisted in all submarkets of the Systems Solutions operating segment. This was due on the one hand to competitors from traditional IT services business and on the other to cloud providers. Prices were eroded further by providers of services that are delivered primarily offshore.

German Corporate Governance Code, Potential Conflicts of Interest and Business Address

On 30 December 2023, the Board of Management and the Supervisory Board of Deutsche Telekom AG declared that in the period since submission of the most recent declaration of conformity pursuant to § 161 of the German Stock Corporation Act (*Aktiengesetz*) on 30 December 2022, Deutsche Telekom AG has complied with the recommendations of the Government Commission on the German Corporate Governance Code announced by the Federal Ministry of Justice on 27 June 2022, in the official section of the Federal Gazette (*Bundesanzeiger*), with the exception of recommendation C.5 (maximum number of supervisory board mandates).

In addition, the Board of Management and the Supervisory Board of Deutsche Telekom AG further declared that as of 30 December 2023 Deutsche Telekom AG complies with the recommendations of the Government Commission on the German Corporate Governance Code, published by the Federal Ministry of Justice in the official section of the Federal Gazette (*Bundesanzeiger*) on 27 June 2022.

Thorsten Langheim's departmental responsibilities in the Board of Management include, amongst others, Deutsche Telekom AG's venture capital and private equity activities in the investment management groups Deutsche Telekom Capital Partners ("**DTCP**") and Digital Infrastructure Vehicle II ("**DIV II**"). Thorsten Langheim has an option to take a leading role in DTCP/DIV II after his term as member of the Board of Management. Prior to becoming a member of the Board of Management, Thorsten Langheim sold partnership interests in carried interest vehicles of funds managed by DTCP to Deutsche Telekom the purchase price of which will be independently revaluated as of 31 December 2023. A comprehensive package of measures is in place to mitigate any conflicts of interest.

With these exceptions there are no potential conflicts of interest among the members of the Board of Management and of the Supervisory Board between their obligations to Deutsche Telekom AG and their private interests or other duties.

The business address of each member of the Board of Management and the Supervisory Board is Deutsche Telekom AG, Friedrich-Ebert-Allee 140, 53113 Bonn, Federal Republic of Germany.

Deutsche Telekom Group's headcount decreased by 3.4 per cent. in 2023 compared with end of 2022. The number of employees in the Germany operating segment increased by 1.2 per cent. compared with 2022, mainly due to the transfer of employees of Multimedia Solutions ("MMS") from the Systems Solutions operating segment. The total number of employees in the United States operating segment decreased by 6.6 per cent. compared with the end of 2022, primarily due to the workforce reduction programme implemented in the third quarter of 2023. In the Europe operating segment, the headcount was down 3.4 per cent. compared with the end of 2022, in particular in Slovakia, Poland, and Greece. The headcount in the Systems Solutions operating segment was down 5.0 per cent. against the end of 2022, mainly due to the transfer of MMS into the Germany operating segment. In the Group Development operating segment, the sharp decrease in headcount of 87.0 per cent. was mainly due to the sale of GD Towers as of 1 February 2023. The headcount in the Group Headquarters & Group Services segment was down 0.9 per cent. compared with the end of 2022, mainly due to the continued staff restructuring measures at Vivento. This decrease was offset by the increase in the number of employees in the Technology and Innovation Board of Management department.

Civil Servants

Although no employees hired after 1 January 1995 have been granted civil servant status, Deutsche Telekom employs a substantial number of civil servants. Pursuant to the law governing Deutsche Telekom's privatisation, its civil servant employees retained their civil servant status. Accordingly, the terms and conditions of their employment and the benefits owed to them continue to be governed by German regulations regarding civil servants. Civil servants are tenured employees and may not be unilaterally terminated except in extraordinary, statutorily defined circumstances. Although Deutsche Telekom is authorised, pursuant to the law governing its privatisation, to exercise generally the rights and duties of Germany as the employer of civil servants, the Federal Postal and Telecommunication Agency (*Bundesanstalt für Post und Telekommunikation* or the Federal Agency) has a right of consultation in the implementation of certain aspects of the terms under which Deutsche Telekom employs civil servants.

Under the German Postal Employees Act (*Postpersonalrechtsgesetz*), which governs the legal position of civil servants at Deutsche Telekom AG, Deutsche Telekom has been given greater flexibility with respect to its relationship with its civil servants. Under certain circumstances, civil servants may also be transferred, even without their consent, to companies in which Deutsche Telekom AG has a direct or indirect majority shareholding. However, there is a risk that civil servants temporarily without civil servant status may return to Deutsche Telekom AG, for example, after the completion of their work at one of Deutsche Telekom's subsidiaries.

Civil servants employed by Deutsche Telekom are entitled to pension benefits provided by the German federal government pursuant to the German Civil Servants' Benefits Act (*Beamtenversorgungsgesetz*). Pursuant to the law governing its privatisation, Deutsche Telekom is required to make annual contributions to a special pension fund established to fund such pension obligations (*Bundes-Pensions-Service für Post und Telekommunikation e.V.*).

Pensions

Deutsche Telekom manages its pension commitments based on the Group-wide Global Pension Policy. It ensures on a worldwide basis that Group minimum standards regarding the granting and management of company pension benefits are complied with, plans are harmonised, and financial and other risks to the core business are avoided or reduced. In addition, the policy provides guidelines for the implementation and management of pension commitments and defines requirements for the launch, adjustment, and closure of corresponding plans. The regulations and provisions laid down in this Group policy take into account the national differences in state pension and other commitments under labour, tax, and social law and the common business practices in the area of pension commitments.

As of 31 December 2023, the defined benefit liability amounted to EUR 4.1 billion, compared to EUR 4.2 billion as at year end 2022. The decrease in provisions for pensions was mainly due to an increase in the fair values of plan assets. By contrast, the decline in the discount rate compared with 31 December 2022 increased the carrying amount.

MAJOR SHAREHOLDERS

The list below mentions the holders of ten per cent. or more of Deutsche Telekom's ordinary shares and their percentage of ownership, based on notifications received by Deutsche Telekom AG pursuant to Section 33 paragraph 1 of the German Securities Trading Act (*Wertpapierhandelsgesetz*).

KfW:	approx. 16.63 per cent.
Federal Republic of Germany:	approx. 13.83 per cent.

Such shareholders do not have different voting rights from any of Deutsche Telekom AG's other shareholders. In their capacities as shareholders, the Federal Republic of Germany and KfW may exercise only those rights that they have under the Stock Corporation Act and Deutsche Telekom AG's Articles of Incorporation, which are the same for all of Deutsche Telekom AG's shareholders.

At present, the Federal Republic of Germany and KfW each have one representative on Deutsche Telekom AG's Supervisory Board.

According to the participation report of the Federal Government 2022 (*Beteiligungsbericht des Bundes 2022*) dated 28 February 2023, KfW is 80 per cent. owned by the Federal Republic of Germany. Should the Federal Republic of Germany or KfW decide on a reduction in the holdings of Deutsche Telekom AG, Deutsche Telekom AG does not expect that such a reduction would have a material negative effect on Deutsche Telekom AG's governance or business.

Share Capital

As of 31 December 2023, the share capital of Deutsche Telekom AG amounted to EUR 12,765,334,005.76 divided into 4,986,458,596 registered ordinary shares without par value (*Stückaktien*). All shares have been issued and are fully paid.

Voting Rights

Each share entitles the holder to one vote. These voting rights are restricted, however, in relation to treasury shares and shares allocable to Deutsche Telekom in the same way as treasury shares (7,843,113 treasury shares were held at 31 December 2023).

Deloitte has audited Deutsche Telekom's consolidated financial statements as of

ALTERNATIVE PERFORMANCE MEASURES (APM)

Deutsche Telekom uses certain alternative performance measures, which are non-GAAP figures not governed by IFRS. They should not be viewed in isolation as an alternative to profit or loss from operations, net profit or loss, net cash from operating activities, the liabilities reported in the consolidated statement of financial position, or other Deutsche Telekom key performance indicators presented in accordance with IFRS.

You should use caution when reviewing Deutsche Telekom's APM. You should not regard them as:

- an absolute measure of the consolidated financial performance or liquidity,
- alternatives to net revenue, group profit or any other performance measures prepared in accordance with IFRS, or
- an alternative to cash flow from operating activities as a measure of our consolidated cash flows or liquidity.

In addition, other companies that present APM, whether on an adjusted basis or not, may present these figures on a basis different to those used by Deutsche Telekom. You should not regard Deutsche Telekom's APM as comparable with measures reported by other companies, even if those other measures are similarly named.

EBITDA AL corresponds to EBIT (profit/loss from operations) before depreciation, amortisation and impairment losses and adjusted for depreciation of the right-of-use assets and for interest expenses on recognised lease liabilities. EBIT and EBITDA AL measure the short-term operational performance and the success of individual business areas. Deutsche Telekom also uses **EBITDA AL margins**⁶ to show how these indicators develop in relation to net revenue. This makes it possible to compare the earnings performance of profit-oriented units of different sizes. The GD Towers business entity has been recognised in the consolidated financial statements as a discontinued operation since the third quarter of 2022. According to the management approach the financial performance indicator EBITDA AL includes the contributions by GD Towers in the Group Development operating segment.

Special factors have an impact on the presentation of operations, making it more difficult to compare performance indicators with corresponding figures for prior periods. For this reason, Deutsche Telekom additionally adjusts its performance indicators to provide transparency. Without this adjustment, statements about the future development of earnings are only possible to a limited extent. The adjusted values are calculated on the basis of the unadjusted performance indicators.

The special factors which are used to calculate some alternative performance measures comprise staff-related measures (such as early retirement compensation, severance and voluntary redundancy models), non-staff related restructuring, effects of de-consolidations, disposals and acquisitions, impairment losses and other effects that generally do not arise in conjunction within the ordinary course of business.

Free Cash Flow (before dividend payments and spectrum investment) and **Free Cash Flow AL (before dividend payments and spectrum investment)** are the main measures for providers of debt capital and equity. It measures the potential for further developing the Company, e.g. for generating organic growth and the ability to pay dividends and repay debt. **Free Cash Flow AL (before dividend payments and spectrum investment)** is determined by adjusting Free Cash Flow (before dividend payments and spectrum investment) for repayments of lease liabilities.

Cash capex relates to cash outflows for investments in intangible assets (excluding goodwill and before spectrum investment) and property, plant and equipment, which are relevant for cash outflows as a component of free cash flow.

⁶ EBITDA AL margin is calculated as EBITDA AL (adjusted for special factors) / Net revenue.

In addition, Deutsche Telekom considers **Net debt** (calculated as the Group's gross debt (sum of financial liabilities and lease liabilities minus accrued interest and miscellaneous other financial liabilities) minus certain financial assets (cash and cash equivalents, derivative financial assets and other financial assets)) to be an important performance indicator for investors, analysts, and rating agencies.

LITIGATION AND ARBITRATION PROCEEDINGS

The companies of Deutsche Telekom Group are involved in a number of legal proceedings in the ordinary course of Deutsche Telekom's business. In addition, proceedings involving alleged abuse of a market-dominant position by Deutsche Telekom and other alleged antitrust violations, as well as other regulatory controversies, are pending before competition and regulatory authorities.

Securities and Corporate Law-Related Proceedings

Prospectus liability proceedings (third public offering, or DT3)

The prospectus liability proceedings relate to initially around 2,600 ongoing lawsuits from some 16,000 alleged buyers of Deutsche Telekom AG's shares sold on the basis of the prospectus published on 26 May 2000. The plaintiffs assert that individual figures given in this prospectus were inaccurate or incomplete. The amount originally in dispute totalled approximately EUR 78 million plus interest. Some of the actions are also directed at KfW and/or the Federal Republic of Germany as well as the banks that handled the issuances. The Frankfurt/Main Regional Court had issued orders for reference to the Frankfurt/Main Higher Regional Court in accordance with the German Capital Investor Model Proceedings Act (*Kapitalanleger-Musterverfahrensgesetz – KapMuG*) and has temporarily suspended the initial proceedings. On 16 May 2012, the Frankfurt/Main Higher Regional Court had ruled that there were no material errors in Deutsche Telekom AG's prospectus. In its decision on 21 October 2014, the Federal Court of Justice partly revoked this ruling, determined that there was a mistake in the prospectus, and referred the case back to the Frankfurt/Main Higher Regional Court. On 30 November 2016, the Frankfurt/Main Higher Regional Court ruled that the mistake in the prospectus identified by the Federal Court of Justice could result in liability on the part of Deutsche Telekom AG, although the details of that liability would have to be established in the initial proceedings. Following an appeal from both parties, in February 2021, the Federal Court of Justice once again referred the proceedings back to the Frankfurt/Main Higher Regional Court for further consideration. In November 2021, Deutsche Telekom AG presented a settlement concept under which a concrete settlement offer is to be made to every eligible plaintiff. The settlement offers are made without any judicial decision and do not constitute an admission of liability on the part of Deutsche Telekom AG. Settlements have now been agreed with the majority of the eligible plaintiffs. Deutsche Telekom AG has recognised appropriate provisions for risk in the statement of financial position.

Claims relating to charges for shared use of cable ducts

In 2012, Kabel Deutschland Vertrieb und Service GmbH (today Vodafone Deutschland GmbH ("VDG")) filed a claim against Telekom Deutschland GmbH to reduce the annual charge for the rights to use cable duct capacities in the future and gain a partial refund of the payments made in this connection since 2004. In similar proceedings, Unitymedia Hessen GmbH & Co. KG, Unitymedia NRW GmbH, and Kabel BW GmbH (today all Vodafone West) filed claims against Telekom Deutschland GmbH in January 2013, demanding that it cease charging the plaintiffs more than a specific and precisely stated amount for the shared use of cable ducts, including in the future. The claims were rejected by the Frankfurt Higher Regional Court (VDG) and by the Düsseldorf Higher Regional Court (Vodafone West) and an appeal was not allowed in both cases. In response to the complaints of the plaintiffs against non-allowance of appeal, the Federal Court of Justice allowed the appeal by VDG to the extent that it relates to claims dating from 1 January 2012; the appeal by Vodafone West was allowed to the extent that it relates to claims dating from 1 January 2016. The claims were rejected with legally binding effect for the time periods prior to this, which leads to a significant reduction in current calculations of claims. In a ruling on 14 December 2021, the Federal Court of Justice referred the proceedings concerning the remaining claims back to the responsible Higher Regional Courts for a new hearing and decision. VDG has since updated its claim, which it now puts at around EUR 826 million plus interest for the period from January 2012 to December 2022. The plaintiff Vodafone West has also updated its claim, which it now puts at around EUR 418 million plus interest for the period from January 2016 to June 2022. At present the financial impact of both these proceedings cannot be assessed with sufficient certainty.

Sprint Merger class action

On 1 June 2021, a shareholder class action and derivative action was filed in the Delaware Court of Chancery against Deutsche Telekom AG, SoftBank, T-Mobile US, and all of Deutsche Telekom AG's officers and directors at that time, asserting breach of fiduciary duties relating to the purchase price amendment to the Merger Agreement, as well as SoftBank's subsequent monetisation of its T-Mobile US shares. On 29 October 2021, the action was amended. The amended action is directed at the same

defendants and the same underlying transactions as the original action, however, it includes additional factual submissions on alleged facts. At present, the financial impact of these proceedings cannot be assessed with sufficient certainty.

Proceedings against T-Mobile US as a consequence of the cyberattack on T-Mobile US

In August 2021, T-Mobile US confirmed that their systems had been subject to a criminal cyberattack that compromised data of millions of their customers, former customers, and prospective customers. With the assistance of outside cybersecurity experts, T-Mobile US located and closed the unauthorised access to their systems and identified customers whose information was impacted and notified them, consistent with state and federal requirements. As a result of the cyberattack, numerous consumer class actions including mass arbitrations were filed against T-Mobile US. The class actions brought before the federal courts were consolidated into one action in December 2021. The plaintiffs are claiming damages in an as yet unspecified amount. On 22 July 2022, T-Mobile US entered into an agreement to settle the consumer class action in the Federal Court for USD 350 million (EUR 331 million). In addition, T-Mobile US has committed to spending a total of USD 150 million in 2022 and 2023 on data security and related technologies. The settlement was approved by the court in June 2023. A member of the class action appealed against the final decision on approval and is objecting to the awarding of lawyers' fees by the court to the lawyer for the class action. This is further delaying the closure of the proceedings. T-Mobile US expects that the settlement of the consumer class action, together with further settlements already or still to be concluded with consumers, will satisfy essentially all claims asserted to date by current, former, and potential customers affected by the cyberattack in 2021. T-Mobile US has recognised corresponding provisions for risks in the statement of financial position of around USD 0.3 billion (EUR 0.3 billion). Furthermore, in November 2021, a derivative action was brought against the members of the Board of Directors of T-Mobile US and against T-Mobile US as nominal defendant. This action has since been withdrawn. In September 2022, a further purported shareholder filed a new derivative action against the members of the Board of Directors of T-Mobile US and against T-Mobile US as nominal defendant alleging claims for breach of fiduciary duties relating to the company's cybersecurity practices. It is currently not possible to estimate the resultant financial risk with sufficient certainty.

In addition, inquiries have been made by various government agencies, law enforcement and other state authorities, with which T-Mobile US is cooperating in full. At present the financial impact of these proceedings cannot be assessed with sufficient certainty.

Proceedings against T-Mobile US in consequence of the cyberattack on T-Mobile US in January 2023

On 5 January 2023 T-Mobile US identified that a bad actor was obtaining data through an application programming interface (API). Based on the company's preliminary investigation, the affected API was only able to provide a limited set of customer account data, including name, billing address, email address, telephone number, date of birth, T-Mobile account number, and information such as the number of lines on the account and plan features. The results of the investigation indicate that, in total, around 37 million current postpaid and prepaid customer accounts were affected, although many of these accounts did not include the full data set. Based on an initial assessment, T-Mobile US assumes that the attacker retrieved data via the affected API for the first time from or around 25 November 2022. The company continues to investigate the incident and, in accordance with federal and state requirements, has notified those individuals whose data was affected. In connection with this cyberattack, consumer class actions were filed against T-Mobile US and official inquiries were submitted to the company, to which it will respond and, as a result of which, it may incur substantial expenses. It is currently not possible to estimate the resultant financial risk with sufficient certainty.

Other Proceedings

Patents and Licences

Like many other large telecommunications and internet providers, Deutsche Telekom is exposed to a growing number of intellectual property rights disputes. There is a risk that Deutsche Telekom may have to pay licence fees and/or compensation; it is also exposed to a risk of cease-and-desist orders, for example relating to the sale of a product or the use of a technology.

Anti-Trust Proceedings

Like all companies, Deutsche Telekom Group is subject to anti-trust law. Deutsche Telekom AG and its subsidiaries are from time to time subject to proceedings under competition law or follow-on damage

actions under civil law. The following describes major anti-trust proceedings and the resulting claims for damages.

Claims for damages against Slovak Telekom following a European Commission decision to impose fines

The European Commission decided on 15 October 2014 that Slovak Telekom had abused its market power on the Slovak broadband market and, as a result, imposed fines on Slovak Telekom and Deutsche Telekom AG, which were paid in full in January 2015. After the Court of the European Union partially overturned the European Commission's decision in 2018 and reduced the fines by a total of EUR 13 million, the legal recourse following the ruling of the European Court of Justice on 25 March 2021 is exhausted. Following the decision of the European Commission, competitors filed damage actions against Slovak Telekom with the civil court in Bratislava, Slovakia. These claims seek compensation for alleged damages due to Slovak Telekom's abuse of a dominant market position, as determined by the European Commission. A further claim was filed with the court in 2022, such that there are now three claims pending, amounting to a total of EUR 219 million plus interest. It is currently not possible to estimate the financial impact with sufficient certainty.

Claims for damages against Deutsche Telekom AG, including due to insolvency of Phones4U

Phones4U was an independent mobile retailer in the United Kingdom, which declared insolvency in 2014. The insolvency administrator is pursuing claims before the High Court of Justice in London against the mobile providers active on the market of the United Kingdom at that time and their parent companies on the grounds of alleged collusion in violation of anti-trust law and breach of contract. Deutsche Telekom AG, which at that time held 50 per cent. of the mobile company EE Limited, has rejected the claims as unsubstantiated. The High Court of Justice in London heard testimony from several witnesses and experts in the period between mid-May and the end of July 2022 with a view to establishing the legal basis for a claim. On 10 November 2023, the High Court of Justice in London rejected all claims made by Phones4U against all defendants. In December 2023, Phones4U filed an application for leave to lodge an appeal with the High Court of Justice in London. The hearing took place on 19 December 2023. The High Court of Justice in London rejected the application by Phones4U for leave to lodge an appeal. Phones4U is pursuing the application further with the Court of Appeal. It is currently not possible to estimate the financial impact with sufficient certainty.

Antitrust class action complaint following the merger with Sprint.

T-Mobile US is defending against an antitrust class action complaint from 17 June 2022, in which the plaintiffs allege that the merger of T-Mobile US and Sprint violated the antitrust laws and harmed competition in the U.S. retail cell service market. Plaintiffs seek injunctive relief and trebled monetary damages on behalf of a purported class of AT&T and Verizon customers who plaintiffs allege paid artificially inflated prices due to the merger. It is currently not possible to estimate the financial impact with sufficient certainty.

Material Contracts

In the usual course of Deutsche Telekom's business, it enters into numerous contracts with various other entities. Deutsche Telekom has not entered into any material contracts outside the ordinary course of its business within the past two years.

Main Agreements that Include a Change of Control Clause

The main agreements entered into by Deutsche Telekom AG that include a clause in the event of a change of control principally relate to bilateral credit lines and several loan agreements. In the event of a change of control, the individual lenders have the right to terminate the credit line and, if necessary, serve notice or demand repayment of the loans. A change of control is assumed when a third party, which can also be a group acting jointly, acquires control over Deutsche Telekom AG.

On 2 November 2016, Deutsche Telekom AG signed a change agreement to the shareholder agreement with the Greek government from 14 May 2008 on OTE; the change agreement concerned the accession of the Hellenic Republic Asset Development Fund (HRADF) as a party to the contract. Under this agreement, the Greek government is, under certain circumstances, entitled to acquire all shares in OTE from Deutsche Telekom AG as soon as one (or more) person(s), with the exception of the Federal Republic of Germany, either directly or indirectly acquire(s) 35 per cent. of the voting rights of Deutsche Telekom AG.

In the master agreement establishing the procurement joint venture BuyIn in Belgium, Deutsche Telekom AG and Orange S.A. (formerly France Télécom S.A.)/Atlas Services Belgium S.A. (a subsidiary of Orange S.A.) agreed that if Deutsche Telekom AG or Orange comes under the controlling influence of a third party or if a third party that is not wholly owned by the Orange group of companies acquires shares in Atlas Services Belgium S.A., the respective other party (Orange and Atlas Services Belgium S.A. only jointly) may terminate the master agreement with immediate effect.

Third Party Information and Statement by Experts and Declaration of any Interest

Where information, contained in this document, has been sourced from a third party, Deutsche Telekom AG confirms that to the best of its knowledge this information has been accurately reproduced and that so far as Deutsche Telekom AG is aware and able to ascertain from information published by such third party no facts have been omitted which would render the reproduced information materially inaccurate or misleading.

In the event of an offer being made by a Dealer and/or a further financial intermediary the Dealer and/or the further financial intermediary shall provide information to investors on the terms and conditions of the Notes at the time of that offer.

Issue Procedures

The Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each Tranche of Notes (the "**Conditions**"). The Conditions will be constituted by the relevant set of Terms and Conditions set forth below as further specified by the provisions of the applicable Final Terms as provided below.

Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the Issuer to choose between the following Options:

- Option I: Terms and Conditions for Notes with fixed interest rates;
- Option II: Terms and Conditions for Notes with floating interest rates.

For the purpose of a potential increase of Notes outstanding and originally issued prior to the date of this Prospectus, additional sets of Terms and Conditions are incorporated by reference into this Prospectus from time to time, the relevant set of which shall apply with regard to increases of Notes.

Documentation of the Conditions

The Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of the Option I or Option II, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in this Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be required where the Notes are publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- Alternatively, the Final Terms shall determine which of Option I or Option II and of the respective further options contained in each of Option I and Option II are applicable to the individual issue of Notes by referring to the relevant provisions of the relevant set of Terms and Conditions as set out in this Prospectus only. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in this Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in this Prospectus attached.

Determination of Options / Completion of Placeholders

The Final Terms shall determine which of the Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I or Option II contains also certain further options (characterised by indicating the respective optional provision through instructions and explanatory notes set out either on the left of, or in square brackets within, the text of the relevant set of Terms and Conditions as set out in this Prospectus) as well as placeholders (characterised by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in this Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In the case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such

information were inserted in the placeholders of such provisions.

All instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

Controlling Language

As to the controlling language of the respective Conditions, the following applies:

- In the case of Notes (i) publicly offered, in whole or in part, in Germany or (ii) initially distributed, in whole or in part, to non-qualified investors in Germany, German will be the controlling language. If, in the event of such public offer or distribution to non-qualified investors, however, English is chosen as controlling language, a German language translation of the Conditions will be available for collection or inspection during normal business hours upon reasonable request from the respective offices of the Paying Agent in Dublin and the Issuer, specified under "*Names and Addresses*" below or may be provided by the Paying Agent and the Issuer via email in electronic format.
- In other cases the Issuer will elect either German or English to be the controlling language.

Option I comprises the set of Terms and Conditions that apply to Tranches of Notes with fixed interest rates.

Option II comprises the set of Terms and Conditions that apply to Tranches of Notes with floating interest rates.

The set of Terms and Conditions for each of these Options contains certain further options, which are characterised accordingly by indicating the respective optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the set of Terms and Conditions.

In the Final Terms the Issuer will determine, which of the Option I or Option II including certain further options contained therein, respectively, shall apply with respect to an individual issue of Notes, either by replicating the relevant provisions or by referring to the relevant options.

Soweit die Schuldverschreibungen nicht an einer Börse notiert sind, sind Kopien der Endgültigen Bedingungen allerdings ausschließlich für die Gläubiger solcher Schuldverschreibungen erhältlich nachdem ein für die Zahlstelle zufriedenstellender Eigentums- und Identitätsnachweis erbracht wurde.]

Einzelurkunden und Zinsscheine werden nicht ausgegeben.

Eine gesonderte Bescheinigung ist für jede solche Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß diesem Absatz (b) dieses § 1 Absatz 3 auszutauschen. Payment of interest on Notes represented by a Temporary Global Note will be made only after delivery of such certifications. A separate certification received on or after the 40th day after the date of issue of the Notes represented by the Temporary Global Note will be treated as a request to exchange such Temporary Global Note pursuant to this subparagraph (b) of this § 1(3). Any securities delivered in exchange for the Temporary Global Note shall be delivered only outside of the United States (as defined in subparagraph (1) of § 5). Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf den festgelegten Nennbetrag angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(6)] **Interest Amount.** The Calculation Agent will, on or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest and calculate the amount of interest (the "**Interest Amount**") payable on the Notes in respect of the Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to the Specified Denomination and rounding the resultant figure to the nearest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.

[(7)] *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der für die jeweilige Zinsperiode geltende Zinssatz, Zinsbetrag und Zinszahlungstag der Emittentin und den Gläubigern gemäß [§ 14] baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden [T2] [relevante(s) Finanzzentrum(en)] Geschäftstag (wie in § 4 Absatz 1 definiert) sowie jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert werden und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode, mitgeteilt werden. Im Falle einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. [(9)] *Auflaufende Zinsen.* Der Zinslauf der Schuldverschreibungen endet mit Ablauf des Tages, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig werden. Sollte die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlösen, endet die Verzinsung des ausstehenden Gesamtnennbetrages der Schuldverschreibungen erst mit Ablauf des Tages, der dem Tag der tatsächlichen Rückzahlung der Schuldverschreibungen vorangeht. Der jeweils geltende Zinssatz ist der gesetzlich festgelegte Satz für Verzugszinsen.⁹

Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to any stock exchange on which the Notes are for the time being listed and to the Holders in accordance with [§ 14].

[(8)] *Determinations Binding.* All certificates, communications, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this § 4 by the Calculation Agent shall (in the absence of manifest error) be binding on the Issuer, the Fiscal Agent, the Paying Agents and the Holders.

[(9)] *Accrual of Interest.* The Notes shall cease to bear interest from the expiry of the day preceding the day on which they are due for redemption. If the Issuer shall fail to redeem the Notes when due, interest shall continue to accrue on the outstanding aggregate principal amount of the Notes beyond the due date until the expiry of the day preceding the day of actual redemption of the Notes. The applicable Rate of Interest will be the default rate of interest established by law.¹⁰

[(10)] *Day Count Fraction.* "Day Count Fraction" means, in respect of the calculation of an amount of interest on any Note for any period of time (the "Calculation Period")

Any such notice of redemption shall be given in accordance with **[§ 14]**. It shall be irrevocable, must specify the date fixed for redemption and must set forth a statement in summary form of the facts constituting the basis for the right of the Issuer so to redeem.

Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluß sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

The Holders' Representative shall have the duties and powers provided by law or granted by majority resolution of the Holders. The Holders' Representative shall comply with the instructions of the Holders. To the extent that the Holders' Representative has been authorised to assert certain rights of the Holders, the Holders shall not be entitled to assert such rights themselves, unless explicitly provided for in the relevant majority resolution. The Holders' Representative shall provide reports to the Holders on its activities. The regulations of the SchVG apply with regard to the recall and the other rights and obligations of the Holders' Representative.

Taxation

THE TAX LEGISLATION OF THE STATE OF RESIDENCE OF A POTENTIAL INVESTOR IN THE NOTES OR OF A JURISDICTION WHERE A POTENTIAL INVESTOR IS SUBJECT TO TAXATION AND THE TAX LEGISLATION OF THE ISSUER'S COUNTRY OF INCORPORATION OR COUNTRY OF RESIDENCE MAY HAVE AN IMPACT ON THE INCOME RECEIVED FROM ANY NOTES.

POTENTIAL INVESTORS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISERS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS OF GERMANY AND THE NETHERLANDS AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS ON THE INCOME RECEIVED FROM THE NOTES.

General Information

General

The relevant Final Terms will specify which clearing system or systems (including CBF, CBL and Euroclear) has/have accepted the relevant Notes for clearance and provide any further appropriate information.

Interest of Natural and Legal Persons involved in the issue of Notes

Certain Dealers and their affiliates may be customers of, borrowers from or creditors of the Issuer and its affiliates. In addition, certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for the Issuer and its affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or its affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Selling Restrictions

1. General

Each Dealer has agreed that it will comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Prospectus and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer nor any other Dealer shall have any responsibility therefor.

Neither the Issuer nor any of the Dealers has represented that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

2. United States of America

- (a) The Notes have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Each Dealer has represented and agreed that it has not offered or sold, and will not offer or sell, any Note as part of its allotment within the United States except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, each Dealer has further represented and agreed that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to a Note.
- (b) From and after the time that the Issuer notifies the Dealers in writing that it is no longer able to make the representation set forth in Article 4 (1)(15)(i) of the Dealer Agreement, each Dealer (i) has acknowledged that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act; (ii) has represented and agreed that it has not offered and sold any Notes, and will not offer and sell any Notes, (x) as part of its distribution at any time and (y) otherwise until 40 days after the later of the commencement of the offering and closing date only in accordance with Rule 903 of Regulation S under the Securities Act; and (iii) accordingly has further represented and agreed that neither it, its affiliates

nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note, and it and they have complied and will comply with the offering restrictions requirements of Regulation S; and (iv) has also agreed that at or prior to confirmation of any sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Securities covered hereby have not been registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons by any person referred to in Rule 903 (b) (2) (iii) (i) as part of its distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the closing date except in either case in accordance with Regulation S under the Securities Act. Terms used above have the meanings given to them by Regulation S."

Terms used in the above paragraph have the meanings given to them by Regulation S.

- (a) Each Dealer has represented and agreed that it has not entered and will not enter into any contractual arrangement with respect to the distribution or delivery of Notes, except with its affiliates or with the prior written consent of the Issuer.
- (b) Notes will be issued in accordance with the provisions of United States Treasury Regulation Section 1.163-5(c)(2)(i)(D) (the "**D Rules**") (or any successor rules in substantially the same form as the D Rules for purposes of Section 4701 of the U.S. Internal Revenue Code) as specified in the applicable Final Terms. In addition, each Dealer has represented and agreed that:
 - (i) except to the extent permitted under the D Rules, (x) it has not offered or sold, and during the restricted period will not offer or sell, Notes to a person who is within the United States or its possessions or to a United States person, and (y) such Dealer has not delivered and will not deliver within the United States or its possessions Notes that are sold during the restricted period;
 - (ii) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
 - (iii) if such Dealer is a United States person, it has represented that it is acquiring the Notes for purposes of resale in connection with their original issuance and if such Dealer retains Notes for its own account, it will only do so in accordance with the requirements of the D Rules; and
 - (iv) with respect to each affiliate that acquires from such Dealer Notes in bearer form for the purposes of offering or selling such Notes during the restricted period, such Dealer either (x) has repeated and confirmed the representations and the agreements contained in sub-clauses (i), (ii) and (iii) on such affiliate's behalf or (y) has agreed that it will obtain from such affiliate for the benefit of the Issuer the agreements contained in sub-clauses (i), (ii) and (iii).

Terms used in this paragraph (b) have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.

3. EEA

Unless the Final Terms in respect of any Notes specify the "*Prohibition of Sales to EEA Retail Investors*" as "*Not applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (a) the term "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or

- (ii) a customer within the meaning of the IDD, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Regulation; and
- (b) the term an **"offer"** includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes specify *"Prohibition of Sales to EEA Retail Investors"* as *"Not applicable"*, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, in relation to each Member State of the EEA (each, a **"Relevant State"**) that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant State except that it may make an offer of such Notes to the public in that Relevant State:

- (a) if the Final Terms in relation to the Notes specify an offer of those Notes other than pursuant to Article 1 (4) of the Prospectus Regulation in that Relevant State (a **"Non-exempt Offer"**), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150, natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer(s) nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1 (4) of the Prospectus Regulation, provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an **"offer of Notes to the public"** in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

4. United Kingdom

Prohibition of Sales to UK Retail Investors

Unless the Final Terms in respect of any Notes specify the *"Prohibition of Sales to UK Retail Investors"* as *"Not applicable"*, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to any retail investor in the UK. For the purposes of this provision:

- (a) the expression **"retail investor"** means a person who is one (or more) of the following:
 - (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the **"EUWA"**); or
 - (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or
 - (iii) not a qualified investor as defined in the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA; and

- (b) the expression an "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the relevant Final Terms in respect of any Notes specify "*Prohibition of Sales to UK Retail Investors*" as "*Not applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the final terms in relation thereto to the public in the United Kingdom except that it may make an offer of such Notes to the public in the United Kingdom:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to section 86 of the FSMA (a "**Public Offer**"), following the date of publication of a prospectus in relation to such Notes which either (i) has been approved by the Financial Conduct Authority, or (ii) is to be treated as if it had been approved by the Financial Conduct Authority in accordance with the transitional provision in Regulation 74 of the Prospectus (Amendment etc.) (EU Exit) Regulations 2019, provided that any such prospectus has subsequently been completed by final terms contemplating such Public Offer, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Public Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA) in the United Kingdom subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA.

For the purposes of this provision, the expression "**offer of Notes to the public**" in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

Other regulatory restrictions in the United Kingdom

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and
