APPENDIX

Provisions Relating to U.S. Dollar Payments

The terms referenced below shall have the following specified meanings:

“Calculation Agent” means JP Morgan Chase Bank, N.A., London Branch.

“Payment Business Day” means a day other than a Saturday or a Sunday on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in New York City and Manila.

“Fixing Business Day” means a day other than a Saturday or a Sunday on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in Manila.

“Rate Fixing Date” means the relevant Scheduled Rate Fixing Date, subject to Valuation Postponement.

“Scheduled Rate Fixing Date” means the date which is two (2) Fixing Business Days prior to the Interest Payment Date or the Maturity Date or such other date on which an amount in respect of the Notes is due and payable, as the case may be. If any Scheduled Rate Fixing Date is an Unscheduled Holiday, the relevant Rate Fixing Date shall be the next following relevant Fixing Business Day, subject to the provisions in respect of any Unscheduled Holiday set out below under Deferral Period for Unscheduled Holiday.

“Reference Rate” means the currency exchange rate used on each Rate Fixing Date, which will be the PHP/U.S.\$ morning weighted average rate for that Rate Fixing Date, expressed as the amount of Philippine Peso per one U.S. Dollar, for settlement in one (1) Fixing Business Day, sponsored by the Bankers Association of the Philippines (www.bap.org.ph) as the “BAP AM Weighted Average Rate” and which is published by Bloomberg as “PHP BAPPESO PHP06” on Bloomberg Screen FIXI and on Bloomberg Screen OTC PH (or any replacement page or replacement service as may be implemented for the purpose of displaying the PHP/U.S.\$ morning weighted average rate), at approximately 11:30 a.m., Manila time, on that Rate Fixing Date. In case of discrepancy between the PHP/U.S.\$ morning weighted average rate as published by Bloomberg and as published by the Bankers Association of the Philippines, the PHP/U.S.\$ morning weighted average rate as published by Bloomberg will prevail. The Calculation Agent shall notify the Issuer and Paying Agent on the Rate Fixing Date of the applicable Reference Rate.

If a Price Source Disruption Event occurs on any Scheduled Rate Fixing Date, then the Reference Rate for such Rate Fixing Date shall be determined by the Calculation Agent in accordance with the Price Source Disruption Fallback Provisions set out below.

“Unscheduled Holiday” means a day that is not a Fixing Business Day and the market was not aware of such fact (by means of a public announcement or by reference to other publicly

available information) until a time later than 9:00 a.m. Manila time, two (2) Fixing Business Days prior to the relevant Rate Fixing Date corresponding to the Interest Payment Date or two (2) Fixing Business Days prior to the Rate Fixing Date corresponding to the Maturity Date.

“Adjustments to Interest Payment Date and Maturity Date” means that if a Scheduled Rate Fixing Date is adjusted in accordance with the Following Business Day Convention or if Valuation Postponement applies, then the Interest Payment Date or Maturity Date relating to such Scheduled Rate Fixing Date shall be as soon as practicable, but in no event later than five (5) Payment Business Days after the date on which the Reference Rate for such Interest Payment Date is determined or five (5) Payment Business Days after the date on which the Reference Rate for the Maturity Date is determined.

If any Interest Payment Date or Maturity Date is adjusted in accordance with the preceding sentence, then such adjustment (and the corresponding payment obligations to be made on such dates) shall apply only to such Interest Payment Date or Maturity Date and no further adjustment shall apply to the amount of interest or principal payable.

Fallback Provisions:

A “Price Source Disruption Event” shall occur if it becomes impossible to obtain the Reference Rate on a Rate Fixing Date.

The Calculation Agent shall have the sole discretion to declare the occurrence of a Price Source Disruption Event on a Rate Fixing Date.

In the event of a Price Source Disruption Event, the Calculation Agent shall apply the following procedures (each a “Price Source Disruption Event Fallback”) for the determination of the Reference Rate in respect of the relevant Interest Payment Date, Maturity Date or other date on which an amount in respect of the Notes is due and payable, as the case may be, in the following order, until such Reference Rate can be determined.

1.	Valuation Postponement	(as defined below)
2.	Fallback Reference Price	SFEMC PHP Indicative Survey Rate (PHP05)
3.	Fallback Survey Valuation Postponement	(as defined below)
4.	Dealers Poll	(as defined below)
5.	Calculation Agent Determination of Reference Rate	

Cumulative Events: Except as provided below, in no event shall the total number of consecutive calendar days during which either (i) valuation is deferred due to an Unscheduled Holiday, or (ii) a Valuation Postponement shall occur (or any combination of (i) and (ii)), exceed 14 consecutive calendar days in the aggregate. Accordingly, (x), if, upon the lapse of any such 14 calendar day period, an Unscheduled Holiday shall have occurred or be continuing on the day following such period that otherwise would have been a Fixing Business Day, then such day shall be deemed to be the applicable Rate Fixing Date, and (y) if, upon the lapse of any such 14 calendar day period, a Price Source Disruption Event shall have occurred or be continuing on the day following such period on which the Reference Rate otherwise would be determined, then Valuation Postponement shall not apply and the Reference Rate shall be determined in accordance with the next Price Source Disruption Event Fallback on such day, which shall be deemed to be the applicable Rate Fixing Date.

“Valuation Postponement” means that the Reference Rate will be determined on the Fixing Business Day first succeeding the day on which the Price Source Disruption Event ceases to exist, unless the Price Source Disruption Event continues to exist (measured from the date that, but for the occurrence of the Price Source Disruption Event, would have been the Rate Fixing Date) for a consecutive number of calendar days equal to the Maximum Days of Postponement. In such event, the Reference Rate will be determined on the next Fixing Business Day after the Maximum Days of Postponement (which will, subject to the provisions relating to Fallback Survey Valuation Postponement, be deemed to be the applicable Rate Fixing Date) in accordance with the next applicable Price Source Disruption Event Fallback.

Maximum Days of Postponement: means 14 calendar days.

“SFEMC PHP Indicative Survey Rate (PHP05)” means that the Reference Rate for a given Rate Fixing Date will be the PHP/U.S.\$ specified rate for U.S.\$, expressed as the amount of Philippine Pesos per one U.S.\$, for settlement in one (1) Fixing Business Day, as published on the website of the Singapore Foreign Exchange Market Committee (“SFEMC”) at approximately 3:30 p.m. (Singapore time), or as soon thereafter as practicable, on such date. The Reference Rate shall be calculated by SFEMC (or a service provider SFEMC may select in its sole discretion) pursuant to the SFEMC PHP Indicative Survey for the purpose of determining the SFEMC PHP Indicative Survey Rate (PHP05).

“SFEMC PHP Indicative Survey” means a methodology, dated as of 1 December 2004, as amended from time to time, for a centralized industry-wide survey of financial institutions that are active participants in the PHP/U.S.\$ markets for the purpose of determining the SFEMC PHP Indicative Survey Rate (PHP05).

“Fallback Survey Valuation Postponement” means that, in the event that the Fallback Reference Price is not available on or before the 3rd Fixing Business Day (or day that would have been a Fixing Business Day but for an Unscheduled Holiday) succeeding the end of any of (i) a Valuation Postponement for a Price Source Disruption Event, (ii) a Deferral Period for Unscheduled Holiday (determined as set forth below), or (iii) Cumulative Events, then the Reference Rate will be determined in accordance with the next applicable Price Source Disruption Event Fallback on such day (which will be deemed to be the applicable Rate Fixing

Date). For the avoidance of doubt, Cumulative Events, if applicable, do not preclude postponement of valuation in accordance with this provision.

“Dealers Poll” means that the Calculation Agent shall determine the Reference Rate on the basis of quotations (expressed as the number of PHP per one U.S.\$) provided by four Reference Dealers of the U.S.\$/PHP spot exchange rate for such Rate Fixing Date. The Calculation Agent will request the Specified Office of each of the Reference Dealers to determine and provide a firm quotation of the U.S.\$/PHP spot exchange rate for the applicable Rate Fixing Date by or before 4:00 p.m., Manila time, on the Rate Fixing Date. If four firm quotations are provided, the Reference Rate for the applicable Rate Fixing Date will be the arithmetic mean of the U.S.\$/PHP spot exchange rates, without regard to the U.S.\$/PHP spot exchange rates having the highest and lowest value. For this purpose, if more than one quotation has the same highest value or lowest value, the U.S.\$/PHP spot exchange rates of only one of such quotations shall be disregarded in determining the Reference Rate. If two or three firm quotations are provided, the Reference Rate for the applicable Rate Fixing Date will be the arithmetic mean of the U.S.\$/PHP spot exchange rates provided.

If fewer than two firm quotations are provided by 4:00 p.m., Manila time, then the Reference Rate will be determined in accordance with the next applicable Price Source Disruption Event Fallback on such day.

“Reference Dealers” means leading dealers, banks or banking corporations which regularly deal in the U.S.\$/PHP foreign exchange market that is not an affiliate of J.P. Morgan Securities plc, as selected by the Calculation Agent in its sole discretion, acting in good faith and in a commercially reasonable manner.

“Specified Office” means the office or branch of the Reference Dealer located in the Philippines.

Calculation Agent Determination of Reference Rate: In the event that the Reference Rate cannot be determined pursuant to and within the time periods set forth in respect of any other Price Source Disruption Event Fallback described above, then the Reference Rate shall be determined by the Calculation Agent in its sole discretion, acting in good faith and in a commercially reasonable manner, on such day (which will be deemed to be the applicable Rate Fixing Date).

Deferral Period for Unscheduled Holiday: In the event any Scheduled Rate Fixing Date is postponed due to the occurrence of an Unscheduled Holiday, and if the Rate Fixing Date in respect thereof has not occurred on or before 14 consecutive calendar days following the Scheduled Rate Fixing Date (any such period being a “Deferral Period”), then the next day after the Deferral Period that would have been a Fixing Business Day but for the Unscheduled Holiday, shall be deemed to be the Rate Fixing Date.
