

This document constitutes the base prospectus for purposes of Art. 5(4) of Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003, as amended or superseded (the "**Prospectus Directive**") of Otto (GmbH & Co KG) relating to issues of non-equity securities ("**Non-Equity Securities**") within the meaning of Art. 22 No. 6(4) of Commission Regulation (EC) No. 809/2004 of 29 April 2004, as amended (the "**Prospectus Regulation**") under the Programme (as defined below) (the "**Base Prospectus**").

otto group

OTTO (GMBH & CO KG)

(Hamburg, Federal Republic of Germany)

€ 2,000,000,000 Debt Issuance Programme

Under this Base Prospectus, Otto (GmbH & Co KG) (the "**Issuer**"), subject to compliance with all relevant laws, regulations and directives, may from time to time issue unsubordinated bearer notes in a minimum denomination of € 1,000 per Note (together the "**Notes**"). The aggregate principal amount of Notes issued under the Debt Issuance Programme described in this Base Prospectus (the "**Programme**") outstanding will not at any time exceed € 2,000,000,000 (or the equivalent in other currencies). The principal amount of the Notes, the issue currency, the interest payable in respect of the Notes, the issue price, the maturity and all other terms and conditions which are applicable to the particular Series and, if applicable, Tranche of Notes (each term as defined below, see "General description of the Programme") will be set out in the document containing the final terms (the "**Final Terms**") within the meaning of Art. 26(5) of the Prospectus Regulation.

The Commission de Surveillance du Secteur Financier (the "**CSSF**") of the Grand Duchy of Luxembourg in its capacity as competent authority (the "**Competent Authority**") under the Prospectus Directive has approved this Base Prospectus for any offers to the public of Notes under this Programme, *inter alia*, in the Grand Duchy of Luxembourg, as a base prospectus within the meaning of Art. 5(4) of the Prospectus Directive pursuant to article 7 of the Luxembourg act relating to prospectuses for securities (*loi relative aux prospectus pour valeurs mobilières*) dated 10 July 2005, as amended, which implements the Prospectus Directive into Luxembourg law (the "**Luxembourg Prospectus Law**"). In relation to the Base Prospectus, the CSSF does not act as competent authority for the approval thereof to the extent Notes to be issued under the Programme are to be admitted to trading on the Euro MTF operated by the Luxembourg Stock Exchange or are publicly offered with a denomination of at least EUR 100,000. By approving this Base Prospectus, the CSSF gives no undertaking as to the economic and financial soundness of the operation or the quality or solvency of the Issuer and it does not act as competent authority for the approval of this Base Prospectus to the extent Notes are to be admitted to trading on the Euro MTF operated by the Luxembourg Stock Exchange.

Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme for the period of twelve months from the date of the publication of this Base Prospectus to be listed on the official list of the Luxembourg Stock Exchange and to be admitted to trading on the Euro MTF operated by the Luxembourg Stock Exchange. The Luxembourg Stock Exchange's Euro MTF is a multilateral trading facility for the purposes of the Investment Services Directive 2014/65/EU (as amended, "**MiFID II**") and, therefore, not an EU-regulated market. Notes issued under the Programme may also not be listed at all.

The Notes may be offered to the public in the Grand Duchy of Luxembourg and/or the Republic of Austria and/or the Federal Republic of Germany and/or The Netherlands into which the Prospectus has been passported in accordance with the respective legal requirements. The Issuer has requested the CSSF in its capacity as Competent Authority to provide the competent authorities in Germany, Austria and The Netherlands with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Luxembourg Prospectus Law and may request the CSSF in its capacity as Competent Authority to provide competent authorities in host Member States within the European Economic Area ("**EEA**") with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Luxembourg Prospectus Law (the "**Notification**"). In the latter case a supplement to the Base Prospectus will be prepared.

Each Tranche of Notes will be represented on issue by a temporary global note (each a "**Temporary Global Note**"). Interests in a Temporary Global Note will be exchangeable, in whole or in part, for interest in a permanent global note (each a "**Permanent Global Note**") on or after the date 40 days after the later of the commencement of the offering and the relevant issue date (the "**Exchange Date**"), upon certification as to non-U.S. beneficial ownership. The Notes are intended to be held in a manner which would allow Eurosystem eligibility. Therefore, the Global Notes will be deposited on the issue date either (i) in classical global note form with Clearstream Banking AG, Frankfurt am Main ("**Clearstream, Frankfurt**") or (ii) in new global note form with a common safekeeper for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking, S.A. ("**Clearstream, Luxembourg**") and/or any other agreed clearing system. It does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria applicable from time to time.

This Base Prospectus will be published in electronic form on the website of the Luxembourg Stock Exchange (www.bourse.lu). This Base Prospectus is valid for a period of twelve months after its approval.

RESPONSIBILITY STATEMENT

Otto (GmbH & Co KG) (the "**Issuer**" and, together with its subsidiaries and affiliates taken as a whole, the "**Otto Group**" or the "**Group**"), with its registered office in Hamburg, Germany accepts responsibility for the information contained in this Base Prospectus and for the information which will be contained in the Final Terms (as defined herein).

The Issuer hereby declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus for which it is responsible is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

This Base Prospectus is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see "Documents Incorporated by Reference" below).

NOTICE

No person has been authorised to give any information or to make any representation other than those contained in this Base Prospectus in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Arranger or any Dealer. Neither the delivery of this Base Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer since the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change in the financial position of the Issuer since the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Base Prospectus and the offering or sale of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuer, the Arranger and the Dealers to inform themselves about and to observe any such restriction. The Notes have not been or will they be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States. The Notes will be issued in bearer form and are subject to certain U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons. The term "U.S. person" has the meaning ascribed to it in the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") and regulations thereunder. For a description of certain restrictions on offers and sales of Notes and on distribution of this Base Prospectus, see "Subscription and Sale".

This Base Prospectus does not constitute an offer of, or an invitation by or on behalf of the Issuer or any Dealer to subscribe for, or purchase, any Notes.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

PRIIPs / IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes include a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2016/97/EU (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified

investor as defined in the Prospectus Directive. Where such a Prohibition of Sales to EEA Retail Investors is included in the Final Terms, no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

BENCHMARK REGULATION STATEMENT IN RELATION TO ADMINISTRATOR'S REGISTRATION – Interest amounts payable under floating rate Notes issued under the Programme are calculated by reference to (i) the Euro Interbank Offered Rate ("**EURIBOR**") which is provided by the European Money Markets Institute ("**EMMI**"), or (ii) the London Interbank Offered Rate ("**LIBOR**") which is provided by ICE Benchmark Administration Limited ("**IBA**"). As at the date of this Prospectus, IBA appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmark Regulation (Regulation (EU) 2016/1011) (the "**Benchmark Regulation**"). As at the date of this Prospectus, EMMI does not appear on the register of administrators and benchmarks established and maintained by the ESMA pursuant to Article 36 of the Benchmark Regulation. As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that EMMI is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

The Arranger and the Dealers have not separately verified the information contained in this Base Prospectus. Neither the Arranger nor any of the Dealers makes any representation, expressly or implied, or accepts any responsibility, with respect to the accuracy or completeness of any information contained in this Base Prospectus. Neither this Base Prospectus nor any other financial statements are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of the Issuer, the Arranger or the Dealers that any recipient of this Base Prospectus or any other financial statements should purchase the Notes. Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Base Prospectus and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Arranger or the Dealers undertakes to review the financial condition or affairs of the Issuer during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

This Base Prospectus may only be used for the purpose for which it has been published.

Prospective investors should have regard to the factors described under the section headed "*Risk Factors*" in this Base Prospectus. This Base Prospectus identifies in general terms certain information that a prospective investor should consider prior to making an investment in the Notes. However, a prospective investor should conduct its own thorough analysis (including its own accounting, legal and tax analysis) prior to deciding whether to invest in any Notes issued under the Programme as any evaluation of the suitability for an investor of an investment in Notes issued under the Programme depends upon a prospective investor's particular financial and other circumstances, as well as on specific terms of the relevant Notes and, if it does not have experience in financial, business and investment matters sufficient to permit it to make such a determination, it should consult its financial adviser prior to deciding to make an investment on the suitability of any Notes.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) acting as stabilisation manager(s) (or a person acting on behalf of any stabilisation manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 calendar days after the issue date of the relevant Tranche of Notes and 60 calendar days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant stabilisation manager(s) (or person(s) acting on behalf of any stabilisation manager(s)) in accordance with all applicable laws and rules.

ALTERNATIVE PERFORMANCE MEASURES:

This Base Prospectus contains certain alternative performance measures ("**APMs**") which are not recognised financial measures under IFRS. Such APMs must be considered only in addition to, and not as a substitute for or superior to, financial information prepared in accordance with IFRS included elsewhere in the Base

Prospectus. Investors are cautioned not to place undue reliance on these APMs and are also advised to review them in conjunction with the financial statements of the Issuer and related notes.

This Base Prospectus contains the following APMs:

Earnings before tax ("EBT"): Reconciliation and explanation for EBT can be found in the Otto Group's Annual Report 2018/19 page 125. The EBT reported is not necessarily comparable to the performance figures published by other companies as EBT or the like.

Earnings before interest and tax ("EBIT"): Reconciliation and explanation for segment EBIT to be found in the Otto Group's Annual Report 2018/19 pages 136-137. The Issuer reports its EBIT because it believes it is a helpful figure for evaluating the Otto Group's and its segments' operating performance. The EBIT reported is not necessarily comparable to the performance figures published by other companies as EBIT or the like.

Earnings before interest, tax, depreciation and amortisation ("EBITDA"): Reconciliation and explanation for EBITDA to be found in the Otto Group's Annual Report 2018/19 page 125. The Issuer reports its EBITDA because it believes it is a helpful figure for evaluating the Otto Group's and its segments' operating performance. The EBITDA reported is not necessarily comparable to the performance figures published by other companies as EBITDA or the like.

Net financial debt: Reconciliation and explanation for net financial debt to be found in the Otto Group's Annual Report 2018/19 page 106. Element Section D – Risks

D.2 Key information on the key risks that are specific to the Issuer

Intensive competition in the retail sector could adversely impact the financial condition and results of operations of the Issuer.

A significant portion of sales is exposed to the risk of constantly changing customer tastes and fashion trends.

Weather conditions have the potential to adversely affect the Otto Group's revenues and business performance.

The Otto Group has a substantial volume of trade receivables and is exposed to the risk of non-payment under these receivables. The payment behavior of customers depends on their creditworthiness and on macroeconomic conditions.

The Otto Group has global sourcing and selling activities and a number of subsidiaries which are not located in the Euro zone. As a result, the Otto Group is affected by fluctuations in currency exchange rates.

A loss of important employees could have a negative impact on the Otto Group's financial condition and results of operations.

The market for logistics services is highly competitive and characterised by increasing cost pressure and the entrance of new competitors, which require adjustments to existing systems and processes. The strong growth of the e-commerce sector has led to unprecedented volume peaks in recent years. At the same time, personnel is increasingly scarce, especially in the tight German labour market. Due to high investments and wage pressures, the Services segment's profitability for 2018/19 remained significantly below the previous year's level and negatively affected Group profitability. The Hermes Group, which is part of the Otto Group, has reacted to the rise in operating costs by announcing price increases in financial year 2018/19. Such price

increases bear the risk of losing customers to competitors.

The Otto Group requires its subcontractors to comply with labour regulation, including minimum wage standards, as well as with the Otto Group's quality and customer service standards. However, should individual subcontractors fail to live up to these standards, this may have a negative impact on the Hermes Group's reputation. In addition, the German Federal Ministry of Labour is currently proposing new legislation for tighter regulation in the logistics sectors, which may include holding logistics firms such as Hermes liable for potential breaches of labour law at the subcontractor level. Similar initiatives arise in various other European countries. Such new regulation, if enacted, could increase the administrative burden on the Hermes Group and may make the cooperation with, and supervision of, subcontractors more costly in the future.

The Otto Group makes intensive use of information technology in critical business processes. The materialisation of IT-related risks could result in substantial reputational damage or market disadvantages, lead to turnover losses and affect the Otto Group's operating business and its customer relations.

The Otto Group allocates significant amounts of capital to areas where it has identified growth potential. Strategic errors or underperformance of business models could result in impairments of assets on the Otto Group's balance sheet and/or may otherwise have a negative impact on the Otto Group's financial condition and results of operations.

The Otto Group regularly explores opportunities by way of acquisitions and market entries. Each acquisition bears substantial risks as the underlying assumptions may not prove correct. In addition, the Otto Group co-operates with joint venture partners, where in case of a disagreement between the joint venture partners the success of the respective partnership could be jeopardized.

The Otto Group is exposed to a number of financial risks e.g. counterparty credit risks, liquidity risks, interest rate risks and market risks.

The Issuer believes that the tax returns of the Issuer and its subsidiaries are prepared in accordance with the applicable tax rules. Nevertheless, potential additional tax claims could adversely affect the Otto Group's financial condition and results of operations.

The Otto Group seeks to cover foreseeable risks through insurance coverage. Such insurance cover, however, may not fully cover the risks to which the companies are exposed.

The Otto Group is regularly faced with lawsuits and litigation in the course of its business. Even though the Issuer believes that the current pending lawsuits do not pose any material risk, material lawsuits cannot be ruled out for the future.

The Otto Group's retail companies depend on external suppliers, which might become insolvent, thus having a negative impact on the supply chain.

The Otto Group is subject to risks associated with the international procurement of goods such as economic, political or social instability in the regions in which the Otto Group sources its goods.

The Otto Group is exposed to the risk of a potential rise in procurement prices due to higher factor costs in the producing countries.

If independent manufacturers of the Otto Group do not comply with relevant labour law provisions or are in breach of

environmental or social international standards, this could be detrimental to the Otto Group's reputation and consequently have a negative impact on the Otto Group's financial condition and results of operations.

SportScheck GmbH is currently undergoing a restructuring and weighed on Group profitability in financial year 2018/19 and is likely to continue to do so in financial year 2019/20 despite the ongoing restructuring measures.

The Otto Group aims to further optimise its portfolio of companies in the coming years. This portfolio optimisation may involve further targeted disposals of subsidiaries. Depending on the individual circumstances, such disposals may weigh on the profitability and/or net financial debt position of the Otto Group as a whole. In addition, as with all M&A processes, there can be no assurance that suitable partners for disposals will be found, and that a transaction that is favourable both for the relevant subsidiary as well as for the Otto Group as a whole can be successfully concluded.

The market environment in Russia remains challenging.

In connection with the Brexit, the future relationship between the UK and the European Union is still uncertain. Should the UK exit the EU without a trade agreement ("**Hard Brexit**"), this could have a negative impact on the flow of goods between the UK and the EU, e.g. due to tariffs and customs controls. In addition, a Hard Brexit may lead to a further devaluation of the British pound, a reduction in consumer demand, and to a deterioration in the UK economy more generally. All of these factors would likely have a negative impact on the Otto Group's UK activities.

In the U.S., there is uncertainty regarding trade policies and status of imports. In addition, a rise in the global level of protectionism could negatively affect the business of the Otto Group.

The Otto Group invests steadily in innovation, infrastructure and growth-focussed businesses. Should the execution of business plans and infrastructure investments not be successful, or should the benefits that are expected from these investments not materialise, such investments may turn out to be unprofitable or, in some worst-case scenarios, might even turn out to be completely worthless. This could adversely affect the Otto Group's financial condition and results of operations.

The amount of the Otto Group's provisions for pension obligations is based on certain actuarial assumptions. If these assumptions prove wrong or change over time, this may lead to a substantial increase in the provisions for pension obligations. In addition, the Otto Group is exposed to capital markets and investment risks with regards to its funded plans.

According to a discussions paper published in 2018 by the International Accounting Standards Board (IASB), ISAB proposes a reform of the accounting standard (IAS 32) around the classification of financial instruments as liabilities or equity in the coming years. If the reform of IAS 32 as contemplated by the IASB is implemented, the accounting treatment for certain financial instruments would change. In particular, hybrid capital bonds where the issuer has no obligation to pay interest on the instrument and no obligation to pay back the notional amount of the bond, are currently accounted for as equity under IAS 32, but may be classified as liabilities in the future. The Otto Group currently has a total outstanding nominal amount of 415 million euros in such equity-accounted hybrid instruments, which may be concerned by the reform. These equity-accounted instruments include provisions allowing the Otto Group to repay them early

in case of a change in accounting standards resulting in a loss of equity accounting under IFRS. However, such early redemption would result in a decrease of the equity position in the Otto Group's financial statements.

Element	Section D – Risks
---------	-------------------

D.3	Key information on the key risks that are specific to the securities
-----	--

Notes may not be a suitable Investment

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances.

Potential Conflicts of Interest

All or some of the Dealers and their affiliates have engaged, and/or may in the future engage, in investment banking, commercial banking and other financial advisory and commercial dealings with the Issuer and its affiliates and in relation to securities issued by any entity of the Group. Each of the Issuer and the Dealers may from time to time be engaged in transactions involving an index or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

Liquidity risk

There can be no assurance that a liquid secondary market for the Notes will develop. In an illiquid market, an investor is subject to the risk that he will not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Risks related to the structure of a particular issue of the Notes

A Noteholder is exposed to the risk that due to early redemption his investment will have a lower than expected yield.

The market values of Notes issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates.

If the Issuer's financial condition were to deteriorate, the relevant Noteholders could suffer direct and materially adverse consequences and if the Issuer was liquidated, the relevant Noteholders could lose their entire investment.

Noteholders should be aware that they may only declare their Notes due and payable in the case of certain events of default by the Issuer as set forth in the Terms and Conditions including, *inter alia*, a non-payment on the Notes or a payment default (*Verzug*) under a Capital Markets Indebtedness with a minimum amount of EUR 10,000,000.

Further, the Terms and Conditions of the Notes provide that, with regard to certain events of default, receipt of termination notices from Noteholders of a minimum of 10% in principal amount of the Notes then outstanding is required for the effectiveness of a termination notice by a Noteholder. Therefore, a particular Noteholder will only be able to claim the repayment of its Notes from the Issuer if and when such quorum is met. Noteholders may decide that a request of other Noteholders holding at least one-tenth in principal amount of Notes then outstanding to declare their Notes due in the events specified in § 8(a)(ii) and/or (iii) of the Terms and Conditions shall not be valid.

Since the Final Terms provide that the terms and conditions of the Notes may be amended by the Issuer with consent of the Noteholders by way of a majority resolution by a vote not requiring a physical meeting (*Abstimmung ohne Versammlung*), a Noteholder is subject to the risk of being outvoted by a binding majority resolution of the Noteholders.

Since the terms and conditions of the Notes provide for the

appointment of a Noteholders' joint representative, a Noteholder may be deprived of its individual right to pursue and enforce a part or all of its rights under the terms and conditions of the Notes against the Issuer.

[Risks associated with the reform of LIBOR, EURIBOR and other interest rate 'benchmarks':

A Noteholder is exposed to the risks associated with the reform of LIBOR, EURIBOR and other interest rates or other types of rates and indices which are deemed "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**"). On 30 June 2016, the EU regulation ((EU) 2016/1011) on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**") entered into force and is fully applicable since 1 January 2018. The Benchmark Regulation could have a material impact on Notes linked to a Benchmark.

In addition to the aforementioned Benchmark Regulation, there are numerous other proposals, initiatives and investigations which may impact Benchmarks. Following the implementation of any such potential reforms, the manner of administration of Benchmarks may change, with the result that they may perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be other consequences which cannot be predicted.

Under the terms and conditions certain benchmark replacement provisions will apply in case a Benchmark used as a reference for calculation of amounts payable under the Notes were to be discontinued or otherwise unavailable.

If the interest rate of the Notes for any relevant period is linked to a Benchmark and such Benchmark has ceased to be calculated or administered or may no longer be used, the Issuer shall endeavour to appoint an independent adviser, which must be an independent financial institution of international repute or other independent financial adviser experienced in the international capital markets. Such independent adviser will be tasked with determining whether an officially recognized successor benchmark rate to the discontinued Benchmark exists. If that is not the case, the independent adviser will attempt to find an alternative benchmark rate which, possibly after application of adjustment spread or benchmark amendments, can replace the discontinued Benchmark rate. If the independent adviser determines a benchmark successor rate or alternative benchmark rate (the "**New Benchmark Rate**"), such (adjusted) rate will replace the original Benchmark for purposes of determining the relevant rate of interest. Such determination will be binding for the Issuer and the Noteholders.

If the Issuer fails to appoint an independent adviser or if the independent adviser fails to determine a New Benchmark Rate following a discontinuation or prohibition of a relevant Benchmark the reference rate applicable to the immediately following interest period shall be the original benchmark rate determined on the last preceding interest determination date. If the above is to be applied for the first interest period, the reference rate applicable to such interest period shall be [the original benchmark rate on the relevant screen page on the last day preceding the relevant interest determination date on which such original benchmark rate was displayed] [a fixed interest rate of [●]].

[If Issuer call right upon occurrence of Benchmark Event is applicable, insert: If a benchmark event occurs in relation to the original benchmark rate but the Issuer fails to appoint an independent adviser or the independent adviser appointed by it fails to determine a New Benchmark Rate, the Issuer may call

and redeem the Notes (in whole but not in part) at any time.]

While the independent adviser will endeavour to select a suitable New Benchmark Rate and to mitigate any deviations to the original benchmark rate in line with the applicable benchmark replacement provisions (e.g. by applying an adjustment spread to such rate or by amending relevant provisions of the terms and conditions) there can be no guarantee that the replacement of a Benchmark will not have adverse effects for the Noteholders or impact the economic return of the Notes.]

[Sustainable Bonds:

The Final Terms relating to the Notes provide, that it will be the Issuer's intention to apply the proceeds from the issue of the Notes specifically for projects and activities that promote social and environmental purposes ("**Sustainable Projects**"). The Issuer has established a "Sustainable Finance Framework" which further specifies the eligibility criteria for such Sustainable Projects. Prospective investors should have regard to the information set out in the Final Terms and in the Sustainable Finance Framework regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular no assurance is given by the Issuer that the use of such proceeds for any Sustainable Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply.

A withdrawal of a second-party opinion issued by any sustainability rating agency or sustainability consulting firm regarding the suitability of the Notes as an investment in connection with certain environmental and sustainability projects may affect the value of such Notes and/or may have consequences for certain investors with portfolio mandates to invest in sustainable assets.]

Market risks

The trading market for debt securities may be volatile and may be adversely impacted by many events.

An active trading market for the Notes may not develop.

A Noteholder of Notes denominated in a foreign currency is exposed to the risk that changes in currency exchange rates may affect the yield of such Notes.

[A Noteholder of fixed rate Notes is exposed to the risk that the price of such Notes falls as a result of changes in the market yield.]

[A Noteholder of floating rate Notes is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of floating rate Notes in advance.]

[Floating rate Notes are volatile investments. If they are structured to include maximum or minimum interest rate their market values may be even more volatile than those for securities that do not include those features. [If the Final Terms provide that an interest rate is subject to a cap, an investor's ability to participate in any change in the value of the relevant floating rate over the life of the Notes will be limited.]]

The market value of the Notes could decrease if the creditworthiness of the Issuer and/or the Group deteriorates or the market participants' estimation of the creditworthiness of corporate debtors in general or of debtors operating in the same business as the Issuer and/or the Group adversely changes.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Therefore, each potential investor should consult its legal advisers.

Special investment risks

An actual yield on the Notes may be reduced from the stated yield by transaction costs.

If a loan is used to finance the acquisition of the Notes and the Notes subsequently go into default, or if the trading price diminishes significantly, the Noteholder not only has to face a potential loss on its investment, but it will also have to repay the loan and pay interest thereon.

Because the Global Notes are held by or on behalf of a Clearing System, investors will have to rely on their procedures for transfer, payment and communication with the Issuer.

Asset-backed securities transactions are exempted under the negative pledge of the Issuer. Accordingly, assets of the Issuer and its material subsidiaries may be used as security in future Asset-backed securities transactions of any type, without equal and rateable security being granted to the Noteholders. Any such transactions will reduce the amount recoverable by the Noteholders upon winding-up or insolvency of the Issuer.

[Notes denominated in Renminbi:

Renminbi is not freely convertible at present.

As a result of the restrictions by the People's Republic of China (the "PRC") government on cross border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. This may affect the liquidity of the Notes and the Issuer's ability to source Renminbi to service the Notes.

Under certain circumstances the Issuer is entitled to settle any payment under the Notes (in whole or in part) in U.S. dollars.

The value of the Renminbi against other foreign currencies fluctuates and is affected by changes in the PRC, by international political and economic conditions and by many other factors. The value of payments of interest and principal in Renminbi may vary with the prevailing exchange rates.

In addition, further liberalisation of interest rates by the PRC government may increase interest rate volatility and the trading price of Notes may vary with fluctuations in Renminbi interest rates.

All payments in respect of the Notes will be made solely by transfer to a Renminbi bank account maintained by the clearing system with a bank outside the PRC. The Issuer cannot be required to make payment by any other means (including in any other currency, in bank notes, by cheque or draft, or by transfer to a bank account in the PRC).]

The EU respectively (certain) EU Member States might impose a Financial Transaction Tax and the implications are not fully foreseeable at the moment.

An effective yield on the Notes may be diminished by the tax impact on an investment in the Notes.

Punkt Abschnitt D – Risiken

D.2 Zentrale Angaben zu den zentralen Risiken, die dem Emittenten eigen sind

Intensiver Wettbewerb im Einzelhandelssektor könnte sich nachteilig auf die Finanz- und Ertragslage der Emittentin auswirken.

Ein wesentlicher Anteil der Umsätze ist dem fortwährenden Risiko wechselnder Kundenwünsche und Modetrends ausgesetzt.

Witterungsbedingungen können den Umsatz und die Geschäftsentwicklung der Otto Group negativ beeinflussen.

Die Otto Group hat ein erhebliches Volumen an Forderungen aus Lieferungen und Leistungen und ist dem Risiko der Nichtzahlung unter diesen Forderungen aus Lieferungen und Leistungen ausgesetzt. Die Zahlungsmoral hängt von der Bonität der Kunden und von makroökonomischen Rahmenbedingungen ab.

Die Otto Group hat globale Beschaffungs- und Vertriebsaktivitäten sowie eine Vielzahl von Tochterunternehmen außerhalb der Euro-Zone. Die Otto Group ist daher Risiken aus Wechselkursschwankungen ausgesetzt.

Ein Verlust wichtiger Mitarbeiter könnte einen negativen Effekt auf die Finanz- und Ertragslage der Otto Group haben.

Der Markt für Logistikdienstleistungen ist wettbewerbsintensiv und gekennzeichnet von steigenden Kostendruck und den Eintritt neuer Wettbewerber, was Anpassungen bei existierenden Systemen und Prozessen erforderlich macht. Das starke Wachstum des E-Commerce-Bereichs hat in den letzten Jahren zu beispiellosen Pegelspitzen geführt. Zur gleichen Zeit wird Personal zunehmend knapp, besonders in dem angespannten deutschen Arbeitsmarkt. Aufgrund hoher Investitions- und Lohndrucks blieb die Profitabilität des Segments Services 2018/19 deutlich unter dem Vorjahresniveau und beeinträchtigte die Konzernrentabilität. Auf den Anstieg der operativen Kosten hat die Hermes Gruppe, die Teil der Otto Group ist, mit der Ankündigung von Preiserhöhungen im Geschäftsjahr 2018/19 reagiert. Solche Preiserhöhungen bergen das Risiko, Kunden an Wettbewerber zu verlieren.

Die Otto Group verpflichtet ihre Subunternehmer, die arbeitsrechtlichen Vorschriften, einschließlich Mindestlohnstandards, sowie die Qualitäts- und Servicestandards der Otto Group einzuhalten. Sollten jedoch einzelne Subunternehmer diesen Standards nicht gerecht werden, kann dies negative Auswirkungen auf die Reputation der Hermes Gruppe haben. Darüber hinaus schlägt das

Bundesarbeitsministerium derzeit neue Gesetze zur Verschärfung der Regulierung der Logistikbranche vor, der zufolge Logistikunternehmen wie Hermes für mögliche Verstöße gegen das Arbeitsrecht auf Subunternehmerebene verantwortlich gemacht werden können. Ähnliche Initiativen gibt es in verschiedenen anderen europäischen Ländern. Eine solche neue Regelung könnte, falls sie in Kraft tritt, den Verwaltungsaufwand für die Hermes Gruppe erhöhen und die Zusammenarbeit mit und die Überwachung von Subunternehmern in Zukunft verteuern.

Die Otto Group nutzt intensiv Informationstechnologie in kritischen Geschäftsprozessen. Das Eintreten von IT-nahen Risiken könnte zu erheblichen Reputationsschäden oder Marktnachteilen sowie zu Umsatzausfällen führen und das operative Geschäft der Otto Group und ihre Kundenbeziehungen beeinflussen.

Die Otto Group setzt erhebliche Kapitalbeträge in Bereichen ein, in denen sie Wachstumspotenzial sieht. Strategische Fehler oder unzureichende Leistungen der Geschäftsmodelle können zu Wertminderungen in der Bilanz der Otto Group führen und/oder können sich anderweitig negativ auf die Vermögens- und Ertragslage der Otto Group auswirken.

Die Otto Group prüft regelmäßig neue Geschäftsmöglichkeiten in Form von Akquisitionen und Markteintritten. Jede Akquisition birgt erhebliche Risiken, da sich die der Akquisition zugrundeliegenden Annahmen als falsch erweisen könnten. Ferner arbeitet die Otto Group mit Joint Venture Partnern zusammen, wobei im Falle von Uneinigigkeiten zwischen den Joint Venture Partnern der Erfolg der jeweiligen Partnerschaft gefährdet sein könnte.

Die Otto Group ist einer Reihe von finanziellen Risiken ausgesetzt, wie beispielweise Kontrahentenrisiken, Liquiditätsrisiken, Zinsänderungsrisiken und Marktrisiken.

Die Emittentin geht davon aus, dass die Steuererklärungen der Emittentin und ihrer Tochtergesellschaften den geltenden Steuervorschriften entsprechen. Dennoch könnten sich potenzielle Steuernachforderungen negativ auf die Vermögens- und Ertragslage der Otto Group auswirken.

Die Otto Group bemüht sich, vorhersehbare Risiken durch Versicherungsschutz abzudecken. Trotzdem deckt der Versicherungsschutz die Risiken, denen die Gesellschaften ausgesetzt sind, möglicherweise nicht vollständig ab.

Die Otto Group sieht sich im laufenden Geschäft regelmäßig Rechtsstreitigkeiten und Gerichtsprozessen ausgesetzt. Obwohl die Emittentin meint, dass die derzeit anhängigen Rechtsstreitigkeiten kein wesentliches Risiko darstellen, so kann in Zukunft nicht ausgeschlossen werden, dass es zu materiellen Rechtsstreitigkeiten kommt.

Die Einzelhändler der Otto Group sind von externen Zulieferern abhängig. Eine Insolvenz von Zulieferern könnte sich negativ auf die Versorgungskette auswirken.

Die Otto Group unterliegt Risiken aus der internationalen Beschaffung von Waren, wie zum Beispiel wirtschaftlicher, politischer und sozialer Instabilität in den Regionen, aus denen die Otto Group ihre Waren bezieht.

Die Otto Group ist dem Risiko höherer Einkaufspreise aufgrund von steigenden Faktorkosten in den Produktionsländern ausgesetzt.

Sollten unabhängige Produzenten der Otto Group maßgebliche arbeitsrechtliche Vorschriften nicht einhalten oder gegen internationale Umwelt- und Sozialstandards verstoßen, könnte

sich dies negativ auf die Reputation der Otto Group und ihre Finanz- und Ertragslage auswirken.

SportScheck GmbH befindet sich zurzeit in Restrukturierung und belastete die Profitabilität der Group im Geschäftsjahr 2018/19 und wird dies voraussichtlich auch weiter im Geschäftsjahr 2019/20 tun, trotz laufender Restrukturierungsmaßnahmen.

In den kommenden Jahren will die Otto Group ihr Unternehmensportfolio weiter optimieren. Diese Portfoliooptimierung kann zu weiteren gezielten Veräußerungen von Tochtergesellschaften führen. Je nach den individuellen Gegebenheiten können solche Veräußerungen die Ertrags- und/oder Nettofinanzschuldenposition der Otto Group insgesamt belasten. Darüber hinaus kann, wie bei allen M&A-Prozessen, nicht sichergestellt werden, dass geeignete Partner für Veräußerungen gefunden werden und dass eine sowohl für die jeweilige Tochtergesellschaft als auch für die Otto Group insgesamt günstige Transaktion erfolgreich abgeschlossen werden kann.

Das Marktumfeld in Russland ist weiterhin herausfordernd.

Im Zusammenhang mit dem Brexit ist die zukünftige Beziehung zwischen dem Vereinigten Königreich und der Europäischen Union noch ungewiss. Sollte das Vereinigte Königreich die EU ohne Handelsabkommen ("**harter Brexit**") verlassen, könnte dies negative Auswirkungen auf den Warenverkehr zwischen dem Vereinigten Königreich und der EU haben, z.B. aufgrund von Zöllen und Zollkontrollen. Darüber hinaus kann ein harter Brexit zu einer weiteren Abwertung des britischen Pfunds, zu einem Rückgang der Konsumnachfrage und zu einer Verschlechterung der britischen Wirtschaft im Allgemeinen führen. All diese Faktoren dürften sich wahrscheinlich negativ auf die UK-Aktivitäten der Otto Group auswirken.

In den USA besteht Unsicherheit hinsichtlich der Handelspolitik und des Status von Importen. Darüber hinaus könnte ein Anstieg des weltweiten Protektionismus sich negativ auf die Otto Group auswirken.

Die Otto Group investiert fortlaufend in Innovationen, Infrastruktur und wachstumsorientierte Geschäftsmodelle. Sollte die Umsetzung von Businessplänen und Infrastrukturinvestitionen nicht erfolgreich sein oder der erwartete Nutzen aus diesen Investitionen nicht eintreten, können sich diese Investitionen als unrentabel erweisen oder sich in einigen Worst-Case-Szenarien sogar als völlig wertlos erweisen. Dies könnte sich nachteilig auf die Finanz- und Ertragslage der Otto Group auswirken.

Die Höhe der Rückstellungen für Pensionsverpflichtungen der Otto Group basiert auf bestimmten versicherungsmathematischen Annahmen. Wenn sich diese Annahmen als falsch herausstellen oder sich im Laufe der Zeit ändern, kann dies zu einer deutlichen Erhöhung der Rückstellungen für Pensionen führen. Daneben ist die Otto Group bei ihren kapitalgedeckten Versorgungsplänen Kapitalmarkt- und Anlagerisiken ausgesetzt.

Das International Accounting Standards Board (IASB) hat in einem 2018 veröffentlichten Diskussionspapier für die nächsten Jahre eine Reform des Rechnungslegungsstandards IAS 32 vorgeschlagen, welcher die Klassifizierung von Finanzinstrumenten als Verbindlichkeiten oder Eigenkapital regelt. Bei einer Umsetzung der vom IASB geplanten Reform des IAS 32 würde sich die Bilanzierung bestimmter Finanzinstrumente ändern. Insbesondere Hybridkapitalanleihen, bei denen der Emittent nicht verpflichtet ist, Zinsen auf das Instrument zu zahlen und den Nominalbetrag der Anleihe zurückzuzahlen, werden derzeit nach IAS 32 als Eigenkapital

bilanziert, können aber in Zukunft als Verbindlichkeiten klassifiziert werden. Die Otto Group hat derzeit einen Gesamtnennbetrag von 415 Millionen Euro an solchen als Eigenkapital bilanzierten hybriden Instrumenten ausstehend, die von der Reform betroffen sein könnten. Diese Instrumente beinhalten Kündigungsrechte, die es der Otto Group ermöglichen, sie im Falle einer Änderung von Rechnungslegungsstandards, die zu einem Verlust der Eigenkapitalbilanzierung unter IFRS führt, vorzeitig zurückzuzahlen. Eine solche vorzeitige Rückzahlung würde jedoch zu einer Verringerung der Eigenkapitalposition im Jahresabschluss der Otto Group führen.

Punkt	Abschnitt D – Risiken	
D.3	Zentrale Angaben zu den zentralen Risiken, die den Wertpapieren eigen sind	<p>Schuldverschreibungen als nicht geeignetes Investment Jeder potentielle Anleger in Schuldverschreibungen muss die Geeignetheit dieser Investition unter Berücksichtigung seiner eigenen Lebensverhältnisse einschätzen.</p> <p>Potentielle Interessenkonflikte Alle oder einige der Dealer und ihrer verbundenen Unternehmen sind in der Vergangenheit Investment Banking- und Commercial Banking-Transaktionen sowie anderweitige Finanzberatungs- und Geschäftsverbindungen mit der Emittentin und ihrer verbundenen Unternehmen in Bezug auf von einer Gesellschaft der Otto Group begebene Wertpapiere eingegangen und/oder werden dies auch in Zukunft tun. Die Emittentin und die Platzeure können von Zeit zu Zeit einen Index oder verbundene Derivate umfassende Transaktionen eingehen, die sich auf den Marktpreis, die Liquidität oder den Wert der Schuldverschreibungen auswirken und den Interessen der Anleihegläubiger entgegenstehen können.</p> <p>Liquiditätsrisiko Es kann keine Zusicherung dafür abgegeben werden, dass sich ein liquider Sekundärmarkt für die Schuldverschreibungen entwickeln wird. In einem illiquiden Markt könnte es sein, dass ein Anleger seine Schuldverschreibungen nicht jederzeit zu angemessenen Marktpreisen veräußern kann. Die Möglichkeit, Schuldverschreibungen zu veräußern, kann darüber hinaus aus landesspezifischen Gründen eingeschränkt sein.</p> <p>Risiken aufgrund der Struktur einer bestimmten Begebung von Schuldverschreibungen Ein Anleihegläubiger ist dem Risiko ausgesetzt, dass seine Anlage in Folge vorzeitiger Rückzahlung eine unerwartet niedrige Rendite hat. Der Marktwert von Schuldverschreibungen, welche mit einem wesentlichen Abschlag oder Aufgeld auf ihren Nennbetrag ausgegeben werden, hat die Tendenz, im Verhältnis zu allgemeinen Zinsveränderungen stärker zu schwanken. Wenn sich die finanzielle Situation der Emittentin verschlechtert, kann dies direkte und wesentlich nachteilige Auswirkungen auf die entsprechenden Anleihegläubiger haben. Im Falle der Liquidation der Emittentin können die Anleihegläubiger ihr gesamtes investiertes Kapital verlieren. Anleihegläubiger sollten beachten, dass sie ihre Schuldverschreibungen nur im Falle des Eintritts bestimmter Kündigungsgründe seitens der Emittentin fällig stellen können, wie in den Anleihebedingungen festgelegt, einschließlich, unter anderem, im Falle der Nichtzahlung auf die Schuldverschreibungen oder eines Zahlungsverzugs unter einer Kapitalmarktverbindlichkeit mit einem Mindestbetrag von EUR</p>

10.000.000.

Zudem sehen die Anleihebedingungen der Schuldverschreibungen für bestimmte Kündigungsgründe für die Wirksamkeit einer Kündigungserklärung eines Anleihegläubigers den Eingang von Kündigungserklärungen von Anleihegläubigern in Höhe von mindestens 10% des ausstehenden Gesamtnennbetrages an Schuldverschreibungen vor. Insofern kann ein einzelner Anleihegläubiger die Rückzahlung seiner Schuldverschreibungen nur verlangen, sofern und solange dieses Quorum erfüllt ist. Die Anleihegläubiger können bestimmen, dass ein Antrag von anderen Anleihegläubigern, die mindestens 10% des ausstehenden Gesamtnennbetrages an Schuldverschreibungen halten, ihre Schuldverschreibungen in den in § 8(a)(ii) und/oder (iii) der Anleihebedingungen bestimmten Fällen fällig zu stellen, nicht wirksam sein soll.

Da die Endgültigen Bedingungen vorsehen, dass die Emittentin die Anleihebedingungen der Schuldverschreibungen ändern kann, sofern die Anleihegläubiger der Änderung im Rahmen einer Abstimmung ohne Versammlung mittels Mehrheitsbeschluss zustimmen, besteht die Möglichkeit, dass ein Anleihegläubiger durch einen bindenden Mehrheitsbeschluss der Anleihegläubiger überstimmt wird.

Da die Anleihebedingungen der Schuldverschreibungen die Bestellung eines gemeinsamen Vertreters der Anleihegläubiger vorsehen, kann einem Anleihegläubiger sein individuelles Recht der Geltendmachung eines Teils oder seiner gesamten Rechte aus den Anleihebedingungen gegenüber der Emittentin, entzogen werden.

[Risiken im Zusammenhang mit der Reform des LIBOR, des EURIBOR und anderer Zinssatz-Benchmarks

Ein Anleihegläubiger ist den Risiken im Zusammenhang mit der Reform des LIBOR, des EURIBOR und anderer Referenzzinssätze oder Indizes ausgesetzt, die als Benchmark (jeweils eine "**Benchmark**" und zusammen die "**Benchmarks**") eingestuft werden. Am 30. Juni 2016 ist die EU-Verordnung ((EU) 2016/1011) über Indizes, die als Benchmarks für Finanzinstrumente und Finanzkontrakte oder zur Messung der Wertentwicklung von Investmentfonds verwendet werden (die "**Benchmark-Verordnung**") in Kraft getreten und seit dem 1. Januar 2018 ist diese in allen Teilen anwendbar. Die Benchmark-Verordnung könnte sich wesentlich auf die Schuldverschreibungen auswirken.

Zusätzlich zu der zuvor beschriebenen Benchmark-Verordnung existieren zahlreiche weitere Vorschläge, Initiativen und Untersuchungen, welche Auswirkungen auf Benchmarks haben könnten. Jede Umsetzung einer dieser möglichen Reformvorschläge könnte dazu führen, dass sich die Art der Verwaltung von Benchmarks verändert, was dazu führen könnte, dass diese sich anders als in der Vergangenheit entwickeln. Benchmarks könnten vollkommen verschwinden oder es könnten sich Konsequenzen ergeben, die derzeit nicht vorhersagbar sind.

Wenn eine Benchmark, die als Referenz für die Berechnung von gemäß den Schuldverschreibungen zu zahlenden Beträgen verwendet wird, eingestellt wird oder aus anderem Grund nicht länger verfügbar ist, sehen die Anleihebedingungen der Schuldverschreibungen bestimmte Klauseln zur Ersetzung der Benchmark vor.

Wenn der Zinssatz der Schuldverschreibungen für eine Zeitperiode an eine Benchmark geknüpft ist und diese Benchmark nicht länger berechnet oder zur Verfügung gestellt wird oder nicht mehr verwendet werden darf, wird die Emittentin sich bemühen, einen unabhängigen Berater zu bestellen, wobei es sich um eine unabhängige Finanzinstitution von

internationalem Ansehen oder um einen kapitalmarkterfahrenen unabhängigen Finanzberater handeln muss. Dieser unabhängige Berater wird damit beauftragt werden zu ermitteln, ob es einen offiziellen Nachfolge-Benchmarksatz für den eingestellten Benchmark gibt. Ist dies nicht der Fall wird der unabhängige Berater versuchen einen Alternativ-Benchmarksatz zu ermitteln, der, gegebenenfalls nach Anwendung von Anpassungsspanne oder Benchmark-Änderungen, den eingestellten Benchmarksatz ersetzen kann. Wenn der unabhängige Berater einen Nachfolge-Benchmarksatz oder einen Alternativ-Benchmarksatz bestimmt hat (der "**Neue Benchmarksatz**") wird dieser (angepasste) Benchmarksatz den ursprünglichen Benchmarksatz für die Zwecke der Ermittlung des maßgeblichen Zinssatzes ersetzen. Eine solche Festlegung ist für die Emittentin und die Anleihegläubiger bindend.

Wenn es der Emittentin nicht gelingt einen unabhängigen Berater zu bestellen oder wenn es dem unabhängigen Berater nach Einstellung oder Verbot einer Benchmark nicht gelingt einen Neuen Benchmarksatz festzulegen, dann entspricht der Referenzsatz für die unmittelbar nachfolgende Zinsperiode dem an dem letzten zurückliegenden Zinsfestsetzungstag festgestellten ursprünglichen Benchmarksatz. Für den Fall, dass das Vorstehenden für die erste Zinsperiode Anwendung findet, entspricht der Referenzsatz für diese Zinsperiode [dem ursprünglichen Benchmarksatz auf der entsprechenden Bildschirmseite an dem letzten Tag vor dem betroffenen Zinsfeststellungsdatum, an dem dieser ursprüngliche Benchmarksatz angezeigt wurde] [einer festen Zinsrate von [●]].

[Wenn die Emittentin ein Kündigungsrecht im Fall eines Benchmark Ereignisses hat gilt folgendes: Wenn ein Benchmark Ereignis im Hinblick auf die ursprüngliche Benchmark Rate eintritt, aber es der Emittentin nicht gelingt einen unabhängigen Berater zu bestellen oder es dem bestellten unabhängigen Berater nicht gelingt, einen Neuen Benchmark Satz zu bestimmen, hat die Emittentin das Recht, die Schuldverschreibungen zu jedem Zeitpunkt (ganz und nicht nur teilweise) vorzeitig zurückzuzahlen.]

Auch wenn sich der unabhängige Berater bemühen wird, einen geeigneten Neuen Benchmark Satz auszuwählen und Abweichungen vom ursprünglichen Benchmarksatz in Übereinstimmung mit den Bestimmungen zur Ersetzung der Benchmark zu vermeiden (z.B. durch Anwendung einer Anpassungsspanne auf diesen Satz oder durch Änderung relevanter Bestimmungen in den Anleihebedingungen der Schuldverschreibungen), kann nicht garantiert werden, dass der Austausch einer Benchmark nicht nachteiligen Auswirkungen auf die Anleihegläubiger haben oder sich auf die wirtschaftliche Rendite der Schuldverschreibungen auswirken wird.]

[Nachhaltige Bonds:

Die Endgültigen Bedingungen der Schuldverschreibungen sehen vor, dass die Emittentin die Absicht hat, die Erlöse aus der Begebung der Schuldverschreibungen speziell für Projekte und Tätigkeiten zu nutzen, welche soziale und Umweltzwecke ("**Nachhaltige Projekte**") fördern. Die Emittentin hat hierfür ein "Sustainable Finance Framework" aufgesetzt, welches nähere Auswahlkriterien für Nachhaltige Projekte definiert. Potenzielle Anleger sollten die in den Endgültigen Bedingungen sowie im "Sustainable Finance Framework" enthaltenen Informationen bezüglich einer solchen Verwendung der Erlöse beachten und müssen die Relevanz einer solchen Information für den Zweck einer jeden Investition in diese Schuldverschreibungen zusammen mit jeder anderen Untersuchung, die ein solcher Investor für nötig hält, für sich selbst bestimmen. Insbesondere

wird keine Zusicherung von Seiten der Emittentin gegeben, dass die Nutzung solcher Erlöse für bestimmte Nachhaltige Projekte ganz oder teilweise die gegenwärtigen oder zukünftigen Erwartungen der Anleger oder Anforderungen bestimmter Investitionskriterien oder Richtlinien, die der Investor oder seine Anlagen einhalten müssen, erfüllen wird.

Die Rücknahme eines von einer Nachhaltigkeits-Ratingagentur oder Nachhaltigkeits-Beratungsfirma abgegebenen Gutachtens bezüglich des nachhaltigen Charakters der Schuldverschreibungen als Investition in Verbindung mit bestimmten Umwelt- und Nachhaltigkeitsprojekten kann den Wert solcher Schuldverschreibungen beeinflussen und/oder könnte Konsequenzen für bestimmte Investoren haben, deren Portfolios darauf ausgerichtet sind, in nachhaltige Vermögensgegenstände zu investieren.]

Marktrisiken

Der Markt für Schuldverschreibungen kann volatil sein und durch viele Faktoren negativ beeinflusst werden.

Ein aktiver Markt für den Handel mit den Schuldverschreibungen könnte sich nicht entwickeln.

Ein Anleihegläubiger einer auf eine Fremdwährung lautenden Schuldverschreibung ist dem Risiko ausgesetzt, dass Veränderungen der Wechselkurse die Rendite solcher Schuldverschreibungen beeinflussen.

[Ein Anleihegläubiger einer festverzinslichen Schuldverschreibung ist dem Risiko ausgesetzt, dass der Preis einer solchen Schuldverschreibung in Folge einer Veränderung der Markttrendite sinkt.]

[Der Gläubiger von variabel verzinslichen Schuldverschreibungen ist dem Risiko eines schwankenden Zinsniveaus und ungewisser Zinserträge ausgesetzt. Ein schwankendes Zinsniveau macht es unmöglich, die Rendite von variabel verzinslichen Schuldverschreibungen im Voraus zu bestimmen.]

[Variabel verzinsliche Schuldverschreibungen sind volatile Investitionen. Wenn sie so strukturiert sind, dass sie einen Höchst- und einen Mindestzinssatz enthalten, kann dies den Marktwert noch volatiler machen, als er für Wertpapiere ist, die nicht mit Höchst- und Mindestzinssatz strukturiert sind. [Wenn die Endgültigen Bedingungen einen Höchstzinssatz vorsehen, begrenzt dies die Möglichkeit eines Investors an Veränderungen im Wert des maßgeblichen variablen Zinssatzes über die Laufzeit der Schuldverschreibungen zu partizipieren.]]

Der Marktwert der Schuldverschreibungen könnte sinken, falls sich die Kreditwürdigkeit der Emittentin und/oder der Otto Group verschlechtert oder sich die Einschätzung der Marktteilnehmer hinsichtlich der Kreditwürdigkeit von Unternehmensschuldnern allgemein oder von Schuldnern, die im selben Geschäftsbereich wie die Emittentin und/oder die Otto Group tätig sind, nachteilig verändert.

Die Anlagentätigkeit bestimmter Anleger unterliegt gesetzlichen Vorschriften und Verordnungen über Anlagen oder der Überprüfung oder Regulierung durch bestimmte Behörden. Daher sollte jeder potentielle Anleger seine Rechtsberater konsultieren.

Spezielle Investitionsrisiken

Die tatsächliche Rendite der Schuldverschreibungen kann aufgrund von Transaktionskosten niedriger als die angegebene Rendite sein.

Wenn der Erwerb der Schuldverschreibungen durch ein Darlehen finanziert wird und anschließend Zahlungsverzug hinsichtlich der

Schuldverschreibungen eintritt oder sich der Handelspreis stark verringert, hat der Anleihegläubiger nicht nur einen möglichen Verlust seiner Anlage zu tragen, sondern muss auch das zur Finanzierung genutzte Darlehen zurückzahlen und Zinsen zahlen.

Da die Globalurkunden von oder für ein Clearing System gehalten werden, sind Anleihegläubiger von deren Verfahren zur Übertragung, Zahlung und Kommunikation mit der Emittentin abhängig.

Asset-backed Schuldverschreibungen sind von der Negativklärung der Emittentin in den Anleihebedingungen ausgenommen. Dementsprechend können die Vermögensgegenstände der Emittentin und ihrer wesentlichen Tochtergesellschaften als Sicherheiten in zukünftigen Transaktionen zur Begebung von Asset-backed Schuldverschreibungen jeglicher Art verwendet werden, ohne dass den Anleihegläubigern gleichrangige und gleichwertige Sicherheiten gewährt werden. Jede Begebung von Asset-backed Schuldverschreibungen reduziert den Betrag, den der Anleihegläubiger im Fall der Liquidation oder Insolvenz der Emittentin erzielen kann.

RISK FACTORS

The below description relates to risk factors that are material for the assessment of the market risk associated with the Notes and risk factors that may affect the Issuer's ability to fulfill its obligations under the Notes. Any of these risks could adversely impact the financial condition and results of operations of the Issuer. The market price of the Notes could decline due to the materialisation of any of these risks, and investors could lose all or part of their investments.

Prospective investors should consider all information provided in this Prospectus and consult with their own professional advisers (including their financial, accounting, legal and tax advisers) if they consider it necessary before making a decision to acquire the Notes. In addition, investors should be aware that the risks described may combine and thus intensify one another.

Additional risks not currently known to the Issuer that are now immaterial may result in material risks in the future. Potential investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision. The sequence in which the risk factors are presented below is not indicative of their likelihood of occurrence or the scope of their financial consequences.

Words and expressions defined in the "Terms and Conditions of the Notes" shall have the same meanings in this section "Risk Factors".

Risk factors relating to the Issuer and the Otto Group

Risk factors in respect of market and competition

Intensive competition in the retail sector could adversely impact the financial condition and results of operations of the Issuer. A decreased level of economic activity could lead to deterioration in consumer spending and therefore negatively affect the Otto Group's financial condition and result of operations.

The Issuer regularly aims to tap new markets, which could lead to high expenditures for market development, market launch and market penetration. The market objectives connected with business expansion may not be achieved.

Should competition intensify in the market segments in which the Otto Group operates, a decrease in profit margins cannot be excluded. In the worst case the Issuer and/or its subsidiaries could be forced out of the market.

In the e-commerce sector, competition is particularly intense due to low entry barriers and the fast development of the online market. In addition, numerous competitors follow a strategy of offering low prices to gain market share at the expense of profitability, especially in the market for fashion and electronic devices. Customers' price sensitivity is particularly high in the European and North American retail markets. The competitive dynamics in the retail sector in general, and in e-commerce in particular, therefore represent a noteworthy risk for the Issuer.

The Otto Group's financial services companies, which operate in the fields of receivables management and debt collection, face the risks of a stricter legal and regulatory environment as well as the risk of a deterioration in economic conditions, which in turn would negatively affect the realisation of non-performing receivables. In addition, competitive pressure in the market for debt collection has increased in recent years, driven by the current low interest rate environment. More price aggressive competitor behaviour, and/or the entry of new competitors in the field of debt collection, may have a negative impact on profitability in the sector and on the returns earned by the EOS Group. Given the strong contribution of the EOS Group to the Otto Group's overall profitability over recent years, all of these factors could have a significant negative impact on the Otto Group's financial condition and/or result of operations.

Changing customer taste and fashion trends

Although the Otto Group offers a wide range of products in its retail segment, a significant portion of sales is exposed to the risk of constantly changing customer tastes and fashion trends. Should assortments fail to appeal to customers' taste, or fail to meet their expectations of quality, this could lead to declining sales and a

write-down of inventory, which could adversely affect the Otto Group's financial condition and results of operations.

Risks from adverse weather conditions

The Otto Group's operating performance in financial year 2018/19 was adversely affected by extreme weather conditions, i.e. the particularly long and hot summer in Europe. The Otto Group is working on increasingly flexible procurement processes and on the optimisation of managing the periods in between seasons in order to address weather-related revenue fluctuations and related inventory and margin risks. However, in the future as well, unexpected weather conditions have the potential to adversely affect the Otto Group's revenues and business performance.

Risks related to the payment options proposed by the Otto Group

The Otto Group offers its customers a range of payment options, including installments and payment by invoice. The Otto Group believes that this range of payment options constitutes a competitive advantage of the Otto Group in comparison with key competitors. However, as competitors introduce similar offerings, the competitive advantage may be reduced or even disappear in the future. In addition, as a consequence of the various payment options, the Otto Group has a substantial volume of trade receivables and is exposed to the risk of non-payment under these receivables. The payment behavior of customers depends on their creditworthiness and on macroeconomic conditions. Should the Otto Group's debtor risk measurement and control systems turn out to be insufficient for any reason, this could have a negative impact on the Otto Group's financial condition and results of operations.

Fluctuations in currency exchange rates

The Otto Group has global sourcing and selling activities and a number of subsidiaries which are not located in the Euro zone. As a result, the Otto Group is affected by fluctuations in currency exchange rates. To the extent deemed appropriate and economically viable, financial instruments are used to hedge the exposure to foreign currency fluctuations. However, to the extent that such financial instruments are not sufficient or not effective, fluctuations of local currencies against the Euro could affect the Otto Group's financial condition and results of operations. In times of particular volatility in the foreign exchange markets, such as observed for the Russian rouble in recent years, entire business models may become unprofitable.

Risk factors in respect of management and employees

The Otto Group's business success depends considerably on the quality of its employees. A loss of important employees could have a negative impact on the Otto Group's financial condition and results of operations. If no qualified personnel can be found within an appropriate period for the seamless continuation of its business, this could also adversely affect the Otto Group's financial condition and results of operations.

Risks related to the Otto Group's logistics operations

The market for logistics services is highly competitive and characterised by increasing cost pressure and the entrance of new competitors. In addition, new customer requirements pose new logistical challenges. These customer demands include same-day, next-day and scheduled delivery, which require adjustments to existing systems and processes.

The strong growth of the e-commerce sector has led to unprecedented volume peaks in recent years. At the same time, personnel is increasingly scarce, especially in the tight German labour market. Therefore, in order to cope with volume peaks while maintaining high quality standards, continuous high investments into the logistics infrastructure as well as higher personnel expenses and increased use of subcontractors are required. Due to these high investments and wage pressures, the Services segment's profitability for 2018/19 remained significantly below the previous year's level and negatively affected Group profitability. The Hermes Group has reacted to the rise in operating costs by announcing price increases in financial year 2018/19. Such price increases bear the risk of losing customers to competitors.

The use of subcontractors is common practice in the logistics sector. The Otto Group requires its subcontractors to comply with labour regulation, including minimum wage standards, as well as with the Otto Group's quality and customer service standards. However, should individual subcontractors fail to live up to these standards, this may have a negative impact on the Hermes Group's reputation. In addition, the German Federal Ministry of Labour is currently proposing new legislation for tighter regulation in the logistics sectors, which may include holding logistics firms such as Hermes liable for potential breaches of labour law

at the subcontractor level. Similar initiatives arise in various other European countries. Such new regulation, if enacted, could increase the administrative burden on the Hermes Group and may make the cooperation with, and supervision of, subcontractors more costly in the future.

In addition, given increased concerns with emissions and particulate pollution, traffic regulation for conventional cars may become stricter in the future. Among other measures, such stricter regulation could include driving bans, which could negatively impact both Hermes and the subcontractors employed by it.

IT-related risks

The Otto Group makes intensive use of information technology in critical business processes. Operational risks related to the Otto Group's heavy reliance on IT systems include, inter alia, the risk of unauthorised access, data theft, fraud and sabotage, or other cybercrime attacks. Other risks include software or system failures, server breakdowns or a slow-down in transfer rates, loss of data or lack of data availability, as well as the risk of potentially false pricing information in the Otto Group's webshops. The identification and evaluation of the risks take place as part of a group-wide security risk management.

Due to a mainly decentralized IT-organization, the probability that any of these risks materialize as well as the respective impact varies per Otto Group subsidiary. Consequently, the Otto Group subsidiaries seek to minimize these IT-related risks by deploying counter measures individually. These may include organizational measures like the implementation of an Information Security Management System as well as technical measures like security monitoring or security analysis. Each Otto Group subsidiary defines the desired security level. Central group functions define mandatory frame conditions within group policies and ensure supervision.

The materialisation of any of the aforementioned IT-related risks could result in substantial reputational damage or market disadvantages for the Otto Group and/or its subsidiaries, to turnover losses as well as affect the Otto Group's operating business and/or its customer relations. All of the above could have a negative impact on the Otto Group's financial condition and results of operations.

Risk of strategic and investment errors

The Otto Group aims to achieve its growth targets by allocating significant amounts of capital to areas where it has identified growth potential. Should the assumptions on which such strategic decisions are based turn out to be wrong, or should the Otto Group fail to establish the desired market position in these growth areas, the Otto Group's investments in such areas may not achieve the expected benefits, or may even turn out to be worthless. Such strategic errors or underperformance of business models could result in impairments of assets on the Otto Group's balance sheet and/or may otherwise have a negative impact on the Otto Group's financial condition and results of operations.

Risk factors in respect of startups, mergers and acquisitions and joint ventures

The Otto Group regularly explores new opportunities by way of acquisitions and market entries. In addition, the Otto Group regularly sets up new companies in promising sectors and invests in startups via its venture capital activities. Each acquisition bears substantial risks as the assumptions on which the business rationale and the purchase price are based may turn out to be incorrect. Business plans for startups may not be achieved and startup valuations may be subject to significant volatility. It cannot be excluded that an investment will not generate the expected returns or will be a total loss. This risk increases with increasing size and/or complexity of the acquisition target or market entry.

In addition, the Otto Group co-operates with external partners in order to spread investment risk in several joint ventures, and may opt to conclude additional such partnerships in the future. With every joint venture, there is a risk of disagreement between the joint venture partners, which may jeopardise the success of the respective partnership.

Risk factors in respect of debt and other financial risks

The Otto Group's worldwide setup exposes it to a number of financial risks. Counterparty credit risk, liquidity risk, interest rate risk and market risk are of particular importance for the Otto Group.

Counterparty credit risk refers to the risk of a borrower or counterparty defaulting or partly defaulting on liabilities due to a deterioration in its financial situation. Liquidity risk refers to a situation where a company

does not have sufficient funds to meet its payment obligations, or where the liquidity required cannot be obtained on acceptable terms.

The main financing sources of the Otto Group are credit lines granted by banks and other funding instruments consisting of, amongst others, bond issues, commercial paper, asset backed securities and other instruments in the bank and capital markets. The Otto Group seeks to maintain a significant amount of undrawn credit lines at any time.

Regarding its debt financing, the Otto Group depends on the economic environment, in particular in the national and international bank and capital markets. These markets are affected by several factors, such as stock exchange trends, central bank policy, market expectations and international conflicts, which cannot be influenced by the Issuer. Even a decade after the start of the global financial crisis, the banking sector continues to undergo profound transformations. Due to regulatory requirements, strategic shifts, changes in ownership, or due to mergers in the banking sector, banks with whom the Otto Group has business relationships may pursue more restrictive lending policies in the future, or may even exit markets altogether. In addition, the gradual phase-out of extremely accommodative monetary policies by the world's central banks in general, and by the European Central Bank in particular, may lead to an increase in interest rates and a deterioration in funding conditions. This risk may particularly apply to borrowers who do not have a public credit rating, as is the case of the Otto Group.

The Otto Group's liquidity needs are monitored based on a rolling monthly liquidity forecast with a twelve-month horizon, and a daily forecast with a horizon of four weeks or more. Should the financial planning prove inadequate, this could have a significant negative impact on the financial position of the Otto Group. If, at the time of financial liabilities maturing, refinancing is not available at attractive conditions, this may lead to an increase in financing costs for the Otto Group. The Otto Group seeks to mitigate this risk by spreading the maturities of its financings over time.

Considerable expenses accrue each year for the payment of interest and other costs relating to the Issuer's various sources of funding. These costs affect the liquidity and profitability of the Issuer. In case of an increase in interest rates or in the other costs of financing, or if the availability of financing is reduced, this could have a negative impact on the financial condition of the Otto Group.

Tax risk

A final tax audit report and final tax assessments for the Issuer and for the relevant German subsidiaries have been issued by the competent tax authorities for the years until 2012. The tax statements for the years 2013 to 2016 are present and subject to the reservation of reexamination. The fiscal years 2013 until and including 2016 are currently reviewed by the German tax authorities in the course of an ordinary tax audit. After the finalization of this tax audit, the tax assessment notices for these fiscal years will become final and no longer amendable. The tax returns for 2017 have been filed with the relevant tax authorities.

The Issuer believes that the tax returns of the Issuer and its subsidiaries are prepared in accordance with the relevant fiscal regulations. If the relevant tax authorities come to a different conclusion with regards to particular issues, this could lead to additional tax claims, which could adversely affect the Otto Group's financial condition and results of operations.

Existing insurance coverage may turn out to be inadequate

The Otto Group seeks to cover foreseeable risks through insurance coverage. Such insurance cover, however, may not fully cover the risks to which the companies are exposed. This can be the case with insurance covering legal and administrative claims, as well as with respect to insurance covering other risks. For certain risks, adequate insurance coverage may not be available in the market or may not be available at reasonable conditions. Consequently, any harm resulting from the materialisation of these risks could result in significant reinvestment requirements, expenses and/or liabilities, which could have a negative impact on the Otto Group's financial condition and results of operations.

Risks related to lawsuits and litigation

The Otto Group is regularly faced with lawsuits and litigation in the course of its business. The Issuer believes that none of the lawsuits that are currently pending pose a material risk to the Otto Group. However, such lawsuits cannot be ruled out completely for the future. Due to the Otto Group's worldwide activities, including

in countries such as the United States where court rulings may be particularly onerous, future litigation might have a material adverse impact on the Issuer.

Solvency of suppliers

As a retailer, the Issuer depends on its external suppliers. Insolvencies in the supply chain could lead to restrictions in the deliverability of goods.

International procurement of goods

The Otto Group purchases a considerable proportion of its goods abroad, in particular in Asia. As a result, the Otto Group is subject to risks associated with the international procurement of goods.

Economic, political or social instability in the regions in which the Otto Group sources its goods, import or export restrictions as well as adverse trade tariffs may have a detrimental effect on the Otto Group's operations.

Immediate availability for delivery, in good quality, is a key competitive factor in the retail segment. Delivery problems and quality issues may adversely affect customer trust in the reliability of the Otto Group's operations.

Any of the aforementioned events could adversely affect the Otto Group's financial condition and results of operations.

Increase in the purchase price of goods

The Otto Group is exposed to the risk of a potential rise in procurement prices. Global cotton prices are expected to continue to increase. In addition, factor costs in the producing countries - above all in Asia – are also expected to continue to increase in the long run. In addition, the Otto Group is exposed to the risk of increased transport costs and higher fuel prices. These factors may lead to a deterioration in profitability. This may have a negative impact on the Otto Group's financial condition and results of operations.

Working conditions of suppliers

The Otto Group does not have its own production facilities and purchases the products marketed by it either directly from manufacturers or from trade companies. The Otto Group has a professional purchasing management in place, with special emphasis on the selection of its suppliers. The aim is to minimise quality deficits through close collaboration with suppliers and manufacturers and through ongoing quality controls.

Many of the Otto Group's manufacturers are based in countries where working and environmental conditions as well as social standards are inconsistent with Western European or generally recognised international standards. The Otto Group has committed itself to environmentally sustainable and socially responsible practices and endeavours to commit its suppliers to comply with these policies as well. However, the Otto Group cannot guarantee that its suppliers will always comply with these standards in practice.

Should one of the independent manufacturers not comply with the relevant labour law provisions or should they be in breach of generally recognised environmental or social international standards, this could be detrimental to the Otto Group's reputation and consequently have an adverse impact on the Otto Group's financial condition and results of operations.

Ongoing restructurings and active portfolio management

The Otto Group defines itself as a group of future-proof companies with sustainably successful business models. The economic viability of each of the Otto Group's activities is constantly being monitored and adequate measures are taken where adjustments are deemed necessary.

Given the diversity of the Otto Group's portfolio of activities, the Group is regularly confronted with underperformance at one or more subsidiaries. In these cases, the Otto Group seeks to implement adequate restructuring measures. Depending on the individual situation, these restructuring measures may negatively affect Group profitability and there can be no assurance that these measures will produce the desired turnaround.

In particular, restructuring measures are currently being implemented at SportScheck, which is going through a realignment of its business model. SportScheck weighed on Group profitability in financial year 2018/19 and is likely to continue to do so in financial year 2019/20 despite the ongoing restructuring measures.

Furthermore, the Otto Group has announced that it aims to further optimise its portfolio of companies in the coming years. This portfolio optimisation may involve further targeted disposals of subsidiaries. Depending on the individual circumstances, such disposals may weigh on the profitability and/or net financial debt position of the Otto Group as a whole. In addition, as with all M&A processes, there can be no assurance that suitable partners for disposals will be found, and that a transaction that is favourable both for the relevant subsidiary as well as for the Otto Group as a whole can be successfully concluded.

Risks related to macroeconomic conditions and political uncertainty in foreign markets

The Otto Group's business prospects are closely linked to the development of macroeconomic conditions in the markets in which the Otto Group operates.

The global economic growth outlook is more muted for 2019 compared to the previous year. This applies to both the developed economies (especially Germany, the Eurozone and North America) as well as to the emerging markets in which the Otto Group is present.

In Russia, the Otto Group operates in a macroeconomic environment that remains challenging. The volatility of the Russian rouble observed in recent years presents a noteworthy risk, especially for the Otto Group's businesses that purchase goods in euros and sell them in rouble. The Otto Group has reduced its exposure to the Russian market in recent years and will concentrate on its largest business concept in Russia, i.e. Bonprix, going forward. Nevertheless, a further deterioration in economic conditions may have a negative impact on the Otto Group's Russian activities, which represented 1.7% of Group revenues as of financial year 2018/19.

In the United Kingdom, the Otto Group operates the retail companies under the umbrella of Freemans Grattan Holdings, as well as the logistics activities of Hermes Parcelnet. Following the UK's vote in 2016 to exit the European Union ("**Brexit**"), the future relationship between the UK and the European Union is still uncertain. Should the UK exit the EU without a trade agreement ("**Hard Brexit**"), this could have a negative impact on the flow of goods between the UK and the EU, e.g. due to tariffs and customs controls. In addition, a Hard Brexit may lead to a further devaluation of the British pound, a reduction in consumer demand, and to a deterioration in the UK economy more generally. All of these factors would likely have a negative impact on the Otto Group's UK activities.

In the United States, the protectionist stance taken by the U.S. presidential administration has led to greater uncertainty regarding the status of trade relations between the United States and its trade partners, as well as regarding the status of importers who sell goods manufactured outside the United States. Depending on their concrete implementation, these policies might have a negative impact on the Otto Group's US operations. In addition, they may also lead to an increase in the level of protectionism globally, which could have a detrimental effect on the global economy in general. Sectors of the economy that are highly dependent on international trade, such as the retail sector in which the Otto Group operates, might be particularly hurt by higher barriers to free trade.

Investments in innovation, infrastructure and growth-focussed businesses

The Otto Group invests steadily in innovative business models and the logistics and IT infrastructure. These measures are a burden on profitability in the short term, but are designed to secure the long-term competitiveness of the Otto Group.

In particular, at the Group company OTTO, which aims to further develop its platform strategy in the coming years, the Otto Group has decided to temporarily forego the strong positive profitability it recorded in previous years in order to accelerate revenue growth, and is allocating significant amounts of capital to the transformation of otto.de's business model.

Should the execution of business plans and infrastructure investments not be successful, or should the benefits that are expected from these investments not materialise, such investments may turn out to be unprofitable or, in some worst-case scenarios, might even turn out to be completely worthless. This could adversely affect the Otto Group's financial condition and results of operations.

Risks related to the Otto Group's pension obligations

As of 28 February 2019, the Otto Group's provisions for pension obligations amounted to EUR 1,478 million.

The Otto Group's main defined-benefit pension plans are located in Germany and the UK. Pension plans in Germany are generally unfunded, while the pension plans in the UK are mostly funded.

The Otto Group is exposed to various risks in connection with its defined-benefit pension plans. The amount of its provisions for pension obligations is based on certain actuarial assumptions, which include discount rates, salary trends, pension trends, inflation and staff fluctuation. If these assumptions prove wrong or change over time, this may lead to a substantial increase in the provisions for pension obligations recognised on the Otto Group's balance sheet.

With the revised IAS 19, which has come into force in 2013, actuarial gains and losses have an immediate impact on the Otto Group's financial statements. As a consequence, changes in actuarial assumptions may lead to considerable volatility in the Otto Group's balance sheet in the form of large shifts between equity and liabilities. In this respect, the Otto Group is particularly exposed to changes in the level of interest rates, which affect the discount factor used to determine pension provisions.

In addition to actuarial risks, the Otto Group is exposed to capital market and investment risk with regards to its funded pension plans. As of 28 February 2019, the Otto Group's pension plan assets amounted to EUR 598 million.

Change in accounting for operating leases

In 2019, the new accounting standard IFRS 16 has entered into force. As a consequence, there will no longer be a distinction between finance and operating leases for the lessee in the future. All such leasing arrangements will appear on the lessee's balance sheet in the future. The first-time application of IFRS at the Otto Group will occur in financial year 2019/20 and will lead, inter alia, to an increase in the amount of liabilities on the Otto Group's balance sheet. Details on the Otto Group's operating leases are set out in note 42 to the Otto Group's Annual Report 2018/19.

Change in accounting for equity-accounted instruments

In 2018, the International Accounting Standards Board (IASB) published a Discussion Paper entitled "Financial Instruments with Characteristics of Equity" (the "**Discussion Paper**"). The Discussion Paper sets out the IASB's proposal for a reform of IAS 32 in the coming years. IAS 32 is the accounting standard that regulates the classification of financial instruments as liabilities or equity. If the reform of IAS 32 as contemplated by the IASB is implemented, the accounting treatment for certain financial instruments would change. In particular, hybrid capital bonds where the issuer has no obligation to pay interest on the instrument and no obligation to pay back the notional amount of the bond, are currently accounted for as equity under IAS 32, but may be classified as liabilities in the future. The Otto Group currently has a total outstanding nominal amount of 415 million euros in such equity-accounted hybrid instruments, which may be concerned by the reform. These equity-accounted instruments include provisions allowing the Otto Group to repay them early in case of a change in accounting standards resulting in a loss of equity accounting under IFRS. However, such early redemption would result in a decrease of the equity position in the Otto Group's financial statements.

Risk Factors relating to the Notes

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine whether or not the Notes represent a suitable investment in light of that investor's own circumstances. The Notes are only suitable for sophisticated investors that:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and

- (v) are able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally purchase complex financial instruments as part of a wider portfolio strategy rather than as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with a measured and appropriate addition of risk to their overall portfolios, and only after performing an intensive analysis of all involved risks. A potential investor should not invest in the Notes – which are complex financial instruments – unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Potential Conflicts of Interest

All or some of the Dealers and their affiliates have engaged, and/or may in the future engage, in investment banking, commercial banking and other financial advisory and commercial dealings with the Issuer and its affiliates and in relation to securities issued by any entity of the Group. They have or may (i) engage in investment banking, trading or hedging activities including in activities that may include prime brokerage business, financing transactions or entry into derivative transactions, (ii) act as underwriters in connection with offering of shares or other securities issued by any entity of the Group or (iii) act as financial advisers to the Issuer or other companies of the Group. In the context of these transactions, some of such Dealers have or may hold shares or other securities issued by entities of the Group. Where applicable, they have or will receive customary fees and commissions for these transactions.

Each of the Issuer and the Dealers may from time to time be engaged in transactions involving an index or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders. Potential conflicts of interest may arise between the Calculation Agent, if any, for a Tranche of Notes and the Noteholders, including with respect to certain discretionary determinations and judgments that such Calculation Agent may make pursuant to the Terms and Conditions of the Notes that may influence the amount receivable upon redemption of the Notes.

Liquidity risk

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Base Prospectus to be admitted to trading on the Euro MTF of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange. In addition, the Programme provides that Notes may not be listed at all. Regardless of whether the Notes are listed or not, there is a risk that no liquid secondary market for the Notes will develop or, if it does develop, that it will not continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Notes. If Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor is subject to the risk that he will not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

Early Redemption by the Issuer

At the Issuer's option, the Notes may be redeemed prior to the Maturity Date at par plus accrued interest (i) if, as a result of a future change of the laws applicable in Germany, the Issuer will be obliged to pay Additional Amounts or (ii) a Change of Control has occurred.

If provided for in any Final Terms for a particular Series of Notes, the Notes may be redeemed at their Specified Denomination together with accrued interest (if any) or at the Early Redemption Amount prior to the Maturity Date if Notes are subject to early redemption at the option of the Issuer.

If the Notes of any Series are redeemed earlier than expected, a Noteholder is exposed to the risk that due to the early redemption his investment will have a lower than expected yield and to the risks connected with any reinvestment of the cash proceeds received as a result of the early redemption. The redemption amount may be lower than the then prevailing market price of and the purchase price for the Notes paid by the Noteholder for the Notes so that the Noteholder in such case would not receive the total amount of the capital.

Notes issued at a substantial discount or premium

The market values of Notes issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

No limitation on issuing debt

There is no restriction on the amount of liabilities which the Issuer may issue. The Issuer and its subsidiaries and affiliates may incur additional indebtedness in respect of indebtedness of third parties. If the Issuer's financial condition were to deteriorate, the relevant Noteholders could suffer direct and materially adverse consequences, including (if so specified in the relevant Final Terms) suspension, deferral or cancellation of interest and, if the Issuer was liquidated (whether voluntarily or involuntarily), loss by the relevant Noteholders of their entire investment.

Events of Default

Noteholders may declare their Notes due and payable under § 8 of the Terms and Conditions of the Notes in the event that, *inter alia*, (i) the Issuer fails to pay principal or interest within 7 days from the relevant due date, or (ii) the Issuer fails duly to perform any other material obligation arising from the Notes and such failure, continues for more than 15 days after the Fiscal Agent has received notice thereof from a Noteholder, or (iii) there is a payment default (*Verzug*) for 30 days under any Capital Market Indebtedness with a minimum amount of EUR 10,000,000, or (iv) the Issuer or a Material Subsidiary ceases to effect payments or announces its inability to meet its financial obligations, or (v) a court institutes insolvency or similar proceedings against the Issuer or a Material Subsidiary, or (vi) the Issuer or a Material Subsidiary ceases all or substantially all of its business operations or sells or otherwise disposes of all or a material part of its assets and thus (a) the Issuer materially reduces the value of its assets and (b) for this reason it becomes likely that the Issuer may not fulfil its payment obligations under the Notes; or (vii) the Issuer or a Material Subsidiary goes into liquidation.

Investors in the Notes should be aware that, in the case of the event of default under § 8(a)(iii) of the Terms and Conditions of the Notes and in the absence of a payment default (*Verzug*), the Notes can only be accelerated after the relevant Capital Market Indebtedness has been declared due and payable by a creditor of such Capital Market Indebtedness and have not been paid within 30 days. Therefore, it is likely that the respective creditor or creditors of such Capital Market Indebtedness have a due and payable claim for payment of principal and interest under such Capital Market Indebtedness before the claim for repayment of principal and interest under the Notes by a Noteholder pursuant to § 8(a)(iii) of the Terms and Conditions of the Notes becomes due and payable. Therefore, it cannot be excluded that a later due date for payments to the Noteholders caused thereby result in disadvantages of the Noteholders compared to such other creditor or creditors.

In the case of an event of default under § 8(a)(ii) and/or (iii) of the Terms and Conditions of the Notes and in the absence of any other event of default pursuant to § 8 of the Terms and Conditions of the Notes, a Noteholder declaring its Notes due and payable is subject to the fulfilment of the condition that Noteholders of at least 10% in principal amount of the Notes then outstanding have also declared their Notes due and payable. Therefore, a particular Noteholder will only be able to claim repayment under its Notes from the Issuer pursuant to § 8(a)(ii) and (iii) of the Terms and Conditions of the Notes if and when such quorum is met. As a consequence, if at any time only Noteholders representing less than 10% of the outstanding principal amount of the Notes declare their Notes due and payable pursuant to § 8(a)(ii) and/or (iii) of the Terms and Conditions, their Notes will remain outstanding until the Maturity Date. Noteholders may decide that a request of other Noteholders holding at least one-tenth in principal amount of Notes then outstanding to declare their Notes due in the events specified in § 8(a)(ii) and/or (iii) of the Terms and Conditions shall not be valid.

Amendments to the Terms and Conditions of the Notes by resolution of the Noteholders

If the Final Terms provide that the Terms and Conditions may be amended by the Issuer with consent of the Noteholders by way of a majority resolution by a vote not requiring a physical meeting (*Abstimmung ohne Versammlung*) as described in Sections 5 et seq. German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*, "**SchVG**"), the Issuer may subsequently amend the Terms and Conditions with the consent of the majority of Noteholders specified in the Final Terms, which amendment will be binding on all Noteholders of the relevant Series of Notes even if they may have voted against the change.

Therefore, a Noteholder is subject to the risk of being outvoted by a majority resolution of the Noteholders. As such majority resolution is binding on all Noteholders of a particular Series of Notes, certain rights of such Noteholder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled, which may have significant negative effects on the value of the Notes and the return from the Notes.

If the Final Terms provide for the appointment of a Noteholders' joint representative, either in the Terms and Conditions or by a majority resolution of the Noteholders, a Noteholder may be deprived of its individual right to pursue and enforce a part or all of its rights under the Terms and Conditions against the Issuer, such right passing to the Noteholders' joint representative who is then exclusively responsible to claim and enforce the rights of all the Noteholders.

Risks associated with the reform of LIBOR, EURIBOR and other interest rate 'benchmarks'

The Euro Interbank Offered Rate ("**EURIBOR**") and other interest rates or other types of rates and indices which are deemed "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**") have become the subject of regulatory scrutiny and recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such Benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to such a Benchmark.

International proposals for reform of Benchmarks include the European Council's regulation (EU) 2016/1011 of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark Regulation**") which is fully applicable since 1 January 2018.

The Benchmark Regulation could have a material impact on Notes linked to a Benchmark, including in any of the following circumstances:

- a rate or index which is a Benchmark may only be used if its administrator obtains authorisation or is registered and in case of an administrator which is based in a non-EU jurisdiction, if the administrator's legal benchmark system is considered equivalent (Art. 30 Benchmark Regulation), the administrator is recognised (Art. 32 Benchmark Regulation) or the relevant Benchmark is endorsed (Art. 33 Benchmark Regulation) (subject to applicable transitional provisions). If this is not the case, Notes linked to such Benchmarks could be impacted; and
- the methodology or other terms of the Benchmark could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could have an impact on the Notes, including determination of the rate by the Issuer, the Calculation Agent or an independent adviser, as the case may be.

In addition to the aforementioned Benchmark Regulation, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

Following the implementation of any such potential reforms, the manner of administration of Benchmarks may change, with the result that they may perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be other consequences which cannot be predicted. For example, on 27 July 2017, the UK Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the "**FCA Announcement**"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021.

Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives, could have a material adverse effect on the costs of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method of determining a Benchmark could have an effect on the value of any Notes linked to the relevant Benchmark, investors should be aware that any changes to a relevant Benchmark may have a material adverse effect on the value of any Notes linked to such Benchmark.

Under the terms and conditions certain benchmark replacement provisions will apply in case a Benchmark used as a reference for calculation of amounts payable under the Notes issued under this Programme were to be discontinued or otherwise unavailable:

If any interest rate of any series of Notes for any relevant period is linked to a Benchmark and such Benchmark has ceased to be calculated or administered or may no longer be used, the Issuer shall endeavour to appoint an independent adviser, which must be an independent financial institution of international repute or other independent financial adviser experienced in the international capital markets. Such independent adviser will be tasked with determining whether an officially recognized successor benchmark rate to the discontinued Benchmark exists. If that is not the case, the independent adviser will attempt to find an alternative benchmark rate which, possibly after application of adjustment spread or benchmark amendments, can replace the discontinued Benchmark rate. If the independent adviser determines a benchmark successor rate or alternative benchmark rate (the "**New Benchmark Rate**"), such rate will replace the original Benchmark for purposes of determining the relevant rate of interest. Such determination will be binding for the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agents and the Noteholders. Any amendments pursuant to these fallback provisions will apply with effect from the respective effective date.

If the Issuer fails to appoint an independent adviser or if the independent adviser fails to determine a New Benchmark Rate following a discontinuation or prohibition of a relevant Benchmark, the reference rate applicable to the immediately following interest period shall be the original benchmark rate determined on the last preceding interest determination date. If this is to be applied on the first interest determination date prior to the commencement of the first interest period, the reference rate applicable to such interest period shall be as determined by the applicable Final Terms either the original benchmark rate on the screen page on the last day preceding the interest determination date on which such original benchmark rate was displayed or a fixed interest rate.

If a benchmark event occurs in relation to the original benchmark rate but the Issuer fails to appoint an independent adviser or the independent adviser appointed by it fails to determine a New Benchmark Rate, the Issuer may call and redeem the relevant Series of Notes (in whole but not in part) at any time if the applicable Final Terms for such series provide for such an option of the Issuer.

While the independent adviser will endeavour to select a suitable New Benchmark Rate and to mitigate any deviations to the original Benchmark in line with the applicable fall-back provisions (e.g. by applying an adjustment spread to such rate or by amending relevant provisions of the terms and conditions) there can be no guarantee that the replacement of a Benchmark will not have adverse effects for the Noteholders or impact the economic return of the affected series of Notes.

Notes issued with a specific use of proceeds, such as a Sustainable Bond

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer's intention to apply the proceeds from an offer of those Notes specifically for projects and activities that promote social and environmental purposes ("**Sustainable Projects**"). The Issuer has established a "Sustainable Finance Framework" which further specifies the eligibility criteria for such Sustainable Projects.

Prospective investors should refer to the information set out in the relevant Final Terms and in the Sustainable Finance Framework regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular no assurance is given by the Issuer that the use of such proceeds for any Sustainable Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any

Sustainable Projects. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green" or "sustainable" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green" or "sustainable" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any Sustainable Projects will meet any or all investor expectations regarding such "green", "social", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Sustainable Projects.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes and in particular with any Sustainable Projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Notes. Any such opinion or certification is only current as of the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight.

In the event that any such Notes are listed or admitted to trading on any dedicated "green", "environmental", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Sustainable Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

While it is the intention of the Issuer to apply the proceeds of any Notes so specified for Sustainable Projects in, or substantially in, the manner described in the relevant Final Terms, there can be no assurance that the relevant project(s) or use(s) the subject of, or related to, any Sustainable Projects will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such Sustainable Projects. Nor can there be any assurance that such Sustainable Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not give the Noteholder the right to early terminate the Notes.

Any such event or failure to apply the proceeds of any issue of Notes for any Sustainable Projects as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance Sustainable Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

Market risks

Market volatility and other factors

The trading market for debt securities may be volatile and may be adversely impacted by many events.

The market for debt securities is influenced by economic and market conditions in Germany and, to varying degrees, by market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialised countries. There can be no assurance that events in Germany, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect.

No active trading market

An active trading market for the Notes may not develop.

There can be no assurance that an active trading market for the Notes will develop or, if one does develop, that it will be maintained. If an active trading market for the Notes does not develop or is not maintained, the market or trading price and liquidity of the Notes may be adversely affected.

The Issuer or its affiliates are entitled to buy and sell the Notes for their own account or for the account of others, and to issue further Notes. Such transactions may favourably or adversely affect the price development of the Notes. If additional and competing products are introduced in the markets, this may adversely affect the value of the Notes.

Exchange rate risk and, exchange controls risk

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency equivalent value of the principal payable on the Notes and (iii) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks for fixed rate Notes

Investment in fixed rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the fixed rate Notes. Noteholders are exposed to the risk that the price of such Notes may fall because of changes in the market yield. While the nominal interest rate (i.e. the coupon) of the Notes is fixed, the market yield typically changes on a daily basis. As the market yield changes, the price of the Notes changes in the opposite direction. If the market yield increases, the price of the Notes falls. If the market yield falls, the price of the Note increases. Noteholders should be aware that movements of the market yield can adversely affect the price of the Notes and can lead to losses for the Noteholders.

Noteholders should also be aware that the market yield has two components, namely the risk free rate and the credit spread. The credit spread is reflective of the yield that investors require in addition to the yield on a risk free investment of equal tenor as a compensation for the risks inherent in the Notes. The credit spread changes over time and can decrease as well as increase for a large number of different reasons. The market yield of the Notes can change due to changes of the credit spread, the risk free rate, or both.

In addition, Noteholders are exposed to reinvestment risk with respect to proceeds from coupon payments or early redemptions by the issuer. If the market yield (or market spread respectively) declines, and if Noteholders want to invest such proceeds in comparable transactions, Noteholders will only be able to reinvest such proceeds in comparable transactions at the then prevailing lower market yields (or market spreads respectively).

Investors will not be able to calculate in advance their rate of return on floating rate Notes.

A key difference between floating rate Notes and fixed rate Notes is that interest income on floating rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of floating rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having a longer term with fixed interests.

Since the Margin, if any, is fixed at issuance of the Notes, Noteholders are subject to the risk that the Margin does not reflect the spread that investors require in addition to the relevant reference interest rate as a compensation for the risks inherent in the Notes ("**market spread**"). The market spread typically changes on a daily basis. As the market spread changes, the price of the Note changes in the opposite direction. A decrease of the market spread has a positive impact on the price of the Note, an increase of the market spread has a negative impact on the price of the Note. However, the price of the Notes is subject to changes in the market spread, changes in the reference interest rate or both. Noteholders should be aware that movements of the market spread can adversely affect the price of the Notes and can lead to losses for the Noteholders.

In addition, Noteholders are exposed to reinvestment risk with respect to proceeds from interest payments or any early redemptions by the Issuer. If the market yield (or market spread respectively) declines, and if Noteholders want to invest such proceeds in comparable transactions, Noteholders will only be able to reinvest such proceeds in comparable transactions at the then prevailing lower market yields (or market spreads respectively).

The potential for the amount of interest payable under the Notes to increase may be limited

Where the Terms and Conditions of Floating Rate Notes provide that an interest rate is subject to a cap (in which case a Maximum Rate of Interest will be specified), an investor's ability to participate in any change in the value of the relevant floating rate over the life of the Notes will be limited, no matter how much the level of the interest rate calculated by reference to the floating rate rises above the Maximum Rate of Interest over the life of the Notes. Accordingly, an investor's return on the Notes may be significantly less than if the investor had exposure to the floating rate directly.

Floating rate Notes with a maximum or minimum interest rate

The Issuer may issue Notes with floating interest rates. Such Notes can be volatile investments. If they are structured to include maximum or minimum interest rate their market values may be even more volatile than those for securities that do not include those features.

The market value of the Notes could decrease if the creditworthiness of the Otto Group deteriorates

If the likelihood that the Issuer will be in a position to fully perform all obligations under the Notes when they fall due decreases, for example, because of the materialisation of any of the risks regarding the Otto Group, the market value of the Notes will suffer. In addition, even if the likelihood that the Issuer will be in position to fully perform all obligations under the Notes when they fall due actually has not decreased, market participants could nevertheless have a different perception. In addition, the market participants' estimation of the creditworthiness of corporate debtors in general or debtors operating in the same business as the Otto Group could adversely change. If any of these risks occurs, third parties would only be willing to purchase Notes for a lower price than before the materialisation of mentioned risk. Under these circumstances, the market value of the Notes will decrease.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Special investment risks

Transaction costs

An actual yield on the Notes may be reduced from the stated yield by transaction costs.

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the current price of the security. These incidental costs may significantly reduce or even exclude the profit potential of the Notes. For instance, credit institutions as a rule charge their clients for own commissions which are either fixed minimum commissions or pro-rata commissions depending on the order value. To the extent that additional – domestic or foreign – parties are

involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Noteholders must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of Notes (direct costs), Noteholders must also take into account any follow-up costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

Noteholders must further take into account that upon sales or purchases of Notes prior to an interest payment date (depending on their type and features), respectively, no accrued interest might be paid or charged, as the case may be.

Margin lending

Margin lending, where it is permitted, can materially increase the risk to a Noteholder of non-performance of the Notes.

If a loan is used to finance the acquisition of the Notes and the Notes subsequently go into default, or if the trading price diminishes significantly, the Noteholder not only has to face a potential loss on its investment, but it will also have to repay the loan and pay interest thereon. This may significantly increase the risk of a loss. Investors should not assume that they will be able to repay the loan or pay interest thereon from the profits of a transaction. Instead, investors should assess their financial situation prior to an investment, as to whether they are able to pay interest on the loan, or to repay the loan on demand, even if they may suffer losses instead of realising gains.

Because the Global Notes are held by or on behalf of a Clearing System, investors will have to rely on their procedures for transfer, payment and communication with the Issuer

The Notes will be represented by one or more Global Notes. Such Global Notes will be deposited with a Clearing System. Investors will not be entitled to receive definitive Notes. The Clearing System will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through the Clearing System and the Issuer will discharge its payment obligations under the Notes by making payments to the Clearing System for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of the Clearing System to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of beneficial interests in the Global Notes.

Negative pledge and potential ABS transactions

§ 2(b) of the Terms and Conditions sets out the negative pledge of the Issuer under which it undertakes not to grant any security (other than a permitted security) for any existing or future capital market indebtedness (including any guarantees or indemnities in respect thereof) on the existing or future assets of the Issuer or any of its material subsidiaries without at the same time granting to the Noteholders an equal and rateable security. However, § 2 (b) of the Terms and Conditions stipulates that this provision shall not apply to any security that has been or will be granted within the scope of asset-backed securities ("ABS") transactions of the Issuer or its material subsidiaries. Accordingly, assets of the Issuer and its material subsidiaries may be used as security in future ABS transactions of any type, without equal and rateable security being granted to the Noteholders. Any such transactions will reduce the amount recoverable by the Noteholders upon winding-up or insolvency of the Issuer.

Negative pledge and borrowings not classified as Capital Market Indebtedness

Any borrowings that do not meet the definition of Capital Market Indebtedness (including but not limited to bank loans) are excluded from the negative pledge. Therefore, in any of these cases the Issuer is under no obligation to grant the Noteholders an equal and rateable security. Such transactions may reduce the amount recoverable by the Noteholders upon winding-up or insolvency of the Issuer.

European Initiative on Financial Transaction Tax

On 14 February 2013, the EU Commission adopted a proposal for a Council Directive (the "**Draft Directive**") on a common financial transaction tax ("**FTT**"). According to the Draft Directive, the FTT shall be implemented by certain EU Member States, including Germany.

The proposed FTT has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

According to the coalition agreement between the German Christ Democratic Party and the German Christian Social Union as well as with the German Social Democratic Party the current German government still has the intention to introduce a FTT. In June 2018, Germany and France agreed to further pursue the implementation of a FTT in the EU for which the current French financial transaction tax (which is mainly focused on transactions regarding shares in listed companies with a market capitalization of more than EUR 1 billion) could serve as a role model. However, no further plans or details are yet available in this respect.

The FTT and its scope remains therefore subject to discussions and it is currently uncertain if and when the proposed FTT will be enacted and when it will take effect with regard to dealings in the Notes. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Tax impact of the investment

An effective yield on the Notes may be diminished by the tax impact on an investment in the Notes.

Payments of interest on the Notes, or profits realised by the Noteholder upon the sale or repayment of the Notes, may be subject to taxation in its home jurisdiction or in other jurisdictions in which it is required to pay taxes. The tax impact on Noteholders generally in Germany is described below, see "TAXATION – Federal Republic of Germany". However, the tax impact on an individual Noteholder may differ from the situation described for Noteholders generally.

All investors are advised to contact their own tax advisors for advice on the tax impact of an investment in the Notes. Examples of taxation risk that investors should consider together with their advisors include the risk of double taxation (in Germany and their home jurisdiction) and uncertainties as to FTT.

Special investment risks referring to Notes denominated in Renminbi

Issues of Notes denominated in Renminbi

Renminbi ("**RMB**") is not freely convertible and there are significant restrictions on the remittance of RMB into and out of the People's Republic of China (the "**PRC**") which may adversely affect the liquidity of Notes denominated in Renminbi (the "**RMB Notes**").

Renminbi is not freely convertible. This may adversely affect the liquidity of the Notes. The availability of RMB funds for servicing the Notes may be subject to future limitations imposed by the PRC government.

The PRC government continues to regulate conversion between Renminbi and foreign currencies, including the Euro, despite the significant reduction over the years by the PRC government of control over routine foreign exchange transactions under current accounts. Currently participating banks in offshore Renminbi settlement centres (including Singapore, Hong Kong, Macau, Taiwan, Paris, Luxembourg, Doha, Sydney, Toronto, Kuala Lumpur, Bangkok, Seoul, London, Frankfurt, Santiago, Budapest, Johannesburg, Buenos Aires and Lusaka, together the "**RMB Settlement Centres**") have been permitted to engage in the settlement of RMB trade transactions. This represents a current account activity.

On 7 April 2011, the State Administration of Foreign Exchange of the PRC (the "**SAFE**") promulgated the Circular on Issues Concerning the Capital Account Items in connection with Cross-Border Renminbi (the "**SAFE Circular**"), which became effective on 1 May 2011. According to the SAFE Circular, in the event that foreign investors intend to use cross-border Renminbi (including offshore Renminbi and onshore Renminbi held in the accounts of non-PRC residents) to make contribution to an onshore enterprise or make payment for the transfer of equity interest of an onshore enterprise by a PRC resident, such onshore enterprise shall be required to submit the relevant prior written consent from the Ministry of Commerce of the PRC (the "**MOFCOM**") to the relevant local branches of the SAFE of such onshore enterprise and register for a foreign invested enterprise status. Further, the SAFE Circular clarifies that the foreign debts borrowed, and the

external guarantee provided, by an onshore entity (including a financial institution) in RMB shall, in principle, be regulated under the current PRC foreign debt and external guarantee regime.

On 13 October 2011, the People's Bank of China, the central bank of the PRC (the "**PBOC**") issued the Measures on Administration of the RMB Settlement in relation to Foreign Direct Investment (the "**PBOC RMB FDI Measures**"), as part of implementation of the PBOC's detailed RMB foreign direct investment ("**RMB FDI**") accounts administration system, which covers almost all aspects of RMB FDI, including capital injection, payment of purchase price in the acquisition of PRC domestic enterprises, repatriation of dividends and other distributions, as well as RMB denominated cross-border loans. Under the PBOC RMB FDI Measures, special approval for RMB FDI and shareholder loans from the PBOC, which was previously required, is no longer necessary. In some cases, however, post-event filing with the PBOC is still necessary.

On 14 June 2012, PBOC further promulgated the Notice on Clarifying the Detailed Operating Rules for RMB Settlement of Foreign Direct Investment ("**PBOC RMB FDI Notice**") to provide further guidelines for implementing the previous PBOC RMB FDI Measures. This PBOC RMB FDI Notice details the rules for opening and operating the relevant accounts and reiterates the restrictions upon the use of the funds within different RMB accounts. The PBOC RMB FDI Measures and the PBOC RMB FDI Notice were further amended on 5 June 2015.

On 5 July 2013, PBOC promulgated the Circular on Policies related to Simplifying and Improving Cross-border Renminbi Business Procedures (Yin Fa (2013) No. 168) (the "**2013 PBOC Circular**"), which, among other things, provides more flexibility for fund transfers between the Renminbi accounts held by offshore participating banks at PRC onshore banks and offshore clearing banks respectively. Various relaxations have been introduced under this circular, but the regulatory position is not entirely clear and practical uncertainties exist.

On 3 December 2013, the MOFCOM promulgated the Circular on Issues in relation to Cross-border Renminbi Foreign Direct Investment (the "**MOFCOM Circular**"), which became effective on 1 January 2014, to further facilitate RMB FDI by simplifying and streamlining the applicable regulatory framework. The MOFCOM Circular replaced the Notice on Issues in relation to Cross-border Renminbi Foreign Direct Investment promulgated by MOFCOM on 12 October 2011 (the "**2011 MOFCOM Notice**"). Pursuant to the MOFCOM Circular, written approval from the appropriate office of MOFCOM and/or its local counterparts specifying "Renminbi Foreign Direct Investment" and the amount of capital contribution is required for each RMB FDI. Compared with the 2011 MOFCOM Notice, the MOFCOM Circular no longer contains the requirements for central level MOFCOM approvals for investments of RMB 300 million or above, or in certain industries, such as financial guarantee, financial leasing, micro-credit, auction, foreign invested investment companies, venture capital and equity investment vehicles, cement, iron and steel, electrolyse aluminium, ship building and other industries under the state macro-regulation. Unlike the 2011 MOFCOM Notice, the MOFCOM Circular has also removed the approval requirement for foreign investors who intend to change the currency of their existing capital contribution from a foreign currency to RMB. In addition, the MOFCOM Circular still prohibits RMB FDI funds from being used for any investments in securities and financial derivatives (except for strategic investments in PRC listed companies) or for entrustment loans in the PRC.

On 13 February 2015, the SAFE promulgated the Notice on Further Simplifying and Improving Foreign Exchange Administration Policy of Direct Investment (Hui Fa (2015) No. 13) (the "**2015 SAFE Notice**"), which became effective on and from 1 June 2015. Under the 2015 SAFE Notice, SAFE delegates the authority of approval/registration for direct investment (inbound and outbound) related matters to commercial banks. However, this 2015 SAFE Notice only applies to direct investment activities in foreign currency, and whether and how it would affect the Renminbi direct investment regime is currently unknown.

On 26 January 2017, the SAFE issued the Notice on Further Promoting Foreign Exchange Management Reform by Improving Real Compliance Audit (the "**2017 SAFE Notice**") which seeks to further regulate the foreign exchange management in relation to trading. Domestic institutions should handle their currency conversion trade finance businesses and process export earnings timely in accordance with the principle of "who exports, who receives payment, who imports and who makes payment". The 2017 SAFE Notice is also part of the PRC foreign debt, outbound loan and cross-border security regimes applicable to foreign currencies. For instance, the 2017 SAFE Notice states that in order for a domestic institution to carry out cross-border lending, the aggregate of the balance of domestic currency loans and foreign currency denominated loans shall not exceed 30 per cent. of the owner's equity as set out in the previous years' audited

financial statements. However, there remain potential inconsistencies between these provisions and the existing PBOC rules, and it is currently unclear as to how regulators may address such inconsistencies in practice.

On 5 January 2018, the PBOC issued the Circular about Further Improving Cross-border RMB Business to Facilitate Trade and Investment (the "**2018 PBOC Circular**"), in a move to promote enterprises to use RMB for cross-border settlement and support banks to handle other cross-border RMB settlement businesses under the current account for individuals. Relevant rules of the new circular facilitate overseas investors to carry out direct investment in RMB and ensure that profits obtained by overseas investors in China can be remitted freely in accordance with the law. Meanwhile, the new circular also specifies that enterprises may remit RMB funds raised overseas to China for their use as actually needed. As the above measures and circulars are relatively new, how will they be applied in practice is subject to interpretation by the relevant PRC authorities.

As the above regulations and schemes are relatively new, they will be subject to interpretation and application by the relevant PRC authorities. The reforms which are being introduced and will be introduced in the Shanghai Free Trade Zone ("**Shanghai FTZ**") aim to upgrade cross-border trade, liberalise foreign exchange control, improve convenient cross-border use of Renminbi and promote the internationalisation of Renminbi. However, given the infancy stage of the Shanghai FTZ, how the reforms will be implemented and whether (and if so when) the reforms will be rolled out throughout China remain uncertain.

Although since 1 October 2016 RMB has been included in the basket of currencies that make up the Special Drawing Rights (SDR) created by the International Monetary Fund (IMF), there is no assurance that the PRC government will continue to gradually liberalise a control over cross-border RMB remittances in the future, that the schemes for RMB cross-border utilization will not be discontinued or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or out of the PRC. In the event that funds cannot be repatriated out of the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuer to source Renminbi to perform its obligations under Notes denominated in Renminbi.

There is only limited availability of RMB outside the PRC, which may affect the liquidity of the Notes and the Issuer's ability to source RMB outside the PRC to service the Notes.

As a result of the restrictions by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside of the PRC is limited. Currently, licensed banks in Singapore and Hong Kong may offer limited Renminbi-denominated banking services to Singapore residents, Hong Kong residents and specified business customers. The PBOC has entered into agreements on the clearing of RMB business with financial institutions in a number of financial centers and cities (each a "**RMB Clearing Bank**"), which will act as the RMB clearing bank in the applicable RMB Settlement Centre, and is in the process of establishing RMB clearing and settlement mechanisms in several other jurisdictions (the "**Settlement Arrangements**").

However, the current size of Renminbi-denominated financial assets outside the PRC is limited. There are restrictions imposed by the PBOC on RMB business participating banks in respect of cross-border RMB settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC. They are only allowed to square their open positions with the relevant RMB Clearing Bank after consolidating the Renminbi trade position of banks outside the RMB Settlement Centres that are in the same bank group of the participating bank concerned with their own trade position and the relevant RMB Clearing Bank only has access to onshore liquidity support from the PBOC for the purposes of squaring open positions of participating banks for limited types of transactions, including open positions resulting from conversion services for corporations relating to cross-border trade settlement. The relevant RMB Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In such cases, the participating banks will need to source Renminbi from the offshore market to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated, or the Settlement Agreements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi offshore. The limited availability of Renminbi outside the PRC may affect the liquidity of the Issuer's RMB Notes. To the extent the Issuer is required to source Renminbi in the offshore market to service its RMB

Notes, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

If the Issuer cannot obtain Renminbi to satisfy its obligation to pay interest and principal on its RMB Notes when due, in whole or in part, in Renminbi in the relevant RMB Settlement Centre as a result of Inconvertibility, Non-transferability or Illiquidity (each, as defined in "*§ 5 (e) Payments on Notes denominated in Renminbi*" in the Terms and Conditions of the Notes), the Issuer shall be entitled to settle such payment, in whole or in part, in U.S. dollars at the USD Equivalent (as defined in "*§ 5 (e) Payments on Notes denominated in Renminbi*" in the Terms and Conditions of the Notes) of any such interest or principal amount otherwise payable in Renminbi, as the case may be.

Investment in the Notes is subject to exchange rate risks

The value of the Renminbi against the Euro and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions and by many other factors. Recently, the PBOC implemented changes to the way it calculates the RMB's daily mid-point against the U.S. dollar to take into account market-maker quotes before announcing such daily mid-point. This change, and others that may be implemented, may increase the volatility in the value of the RMB against foreign currencies. Except in the limited circumstances as described in the Terms and Conditions of the Notes, the Issuer will make all payments of interest and principal with respect to the RMB Notes in Renminbi. As a result, the value of these Renminbi payments in Euro or other applicable foreign currency terms may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against the Euro or any other applicable foreign currency, the value of a holder of Notes' investment in Euro or such other applicable foreign currency terms will decline.

Investment in the RMB Notes is subject to interest rate risks

The PRC government has gradually liberalised the regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. If the RMB Notes carry a fixed interest rate, the market price of the RMB Notes may vary with the fluctuations in the Renminbi interest rates. If an investor sells the RMB Notes before their maturity, it may receive an offer that is less than the original amount invested.

Payments in respect of the RMB Notes will only be made to investors in the manner specified in the RMB Notes

All payments to holders of interests in respect of the RMB Notes will be made solely by (i) when the RMB Notes are represented by the Global Note, transfer to a Renminbi bank account maintained in Hong Kong, in accordance with prevailing rules and procedures of the relevant Clearing System, or (ii) when the RMB Notes are in definitive registered form, transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing rules and regulations. Neither the Issuer nor the Fiscal Agent, nor the Paying Agent can be required to make payment by any other means (including in bank notes, by cheque or draft, or by transfer to a bank account in the PRC).

GENERAL DESCRIPTION OF THE PROGRAMME

Under the EUR 2,000,000,000 Debt Issuance Programme (the "**Programme**"), Otto (GmbH & Co KG) (the "**Issuer**"), subject to compliance with all relevant laws, regulations and directives, may from time to time issue notes (the "**Notes**") to one or more of the following Dealers: Bayerische Landesbank Joh. Berenberg, Gossler & Co. KG, Niederlassung Frankfurt; BNP Paribas; Commerzbank Aktiengesellschaft; Deutsche Bank Aktiengesellschaft; DZ BANK AG Deutsche Zentral-Genossenschaftsbank, Frankfurt am Main; ING Bank N.V.; UniCredit Bank AG and any additional Dealer appointed under the Programme from time to time by the Issuer, which appointment may be for a specific issue or on an ongoing basis (together, the "**Dealers**").

The aggregate principal amount of Notes outstanding will not at any time exceed EUR 2,000,000,000 (or the equivalent in other currencies) (the "**Programme Amount**"). The Issuer may increase the Programme Amount in accordance with the terms of the Dealer Agreement (as defined below) from time to time.

Notes issued under the Programme may be issued either: (1) pursuant to this Base Prospectus and associated Final Terms; or (2) in relation to Notes not publicly offered in any member state of the European Economic Area in such form as agreed between the Issuer, the relevant Dealer(s) and, if relevant for the Fiscal Agent (as defined below), the Fiscal Agent.

Deutsche Bank Aktiengesellschaft acts as arranger in respect of the Programme (the "**Arranger**").

The Notes will be issued in series (each a "**Series**"). Each Series may be issued in tranches (each a "**Tranche**") being intended to be interchangeable with all other Notes of the same Series issued on the same or different issue dates. The specific terms of each Tranche issued under this Base Prospectus (which, save in respect of the issue date, issue price, first payment of interest and principal amount of the Tranche, will be identical to the terms of all other Tranches of the same Series) will be set out in the relevant final terms for such Tranche (the "**Final Terms**").

Notes may be distributed by way of public offer or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the relevant Final Terms. The Notes may be offered to qualified and non-qualified investors.

The Commission de Surveillance du Secteur Financier (the "**CSSF**") of the Grand Duchy of Luxembourg in its capacity as competent authority (the "**Competent Authority**") under the Prospectus Directive has approved this Base Prospectus as a base prospectus within the meaning of Art. 5(4) of the Prospectus Directive pursuant to article 7 of the Luxembourg Prospectus Law. By approving this Base Prospectus, CSSF gives no undertaking as to the economic and financial soundness of the operation or the quality or solvency of the Issuer pursuant to article 7 (7) of the Luxembourg act relating to prospectuses for securities (*loi relative aux prospectus pour valeurs mobilières*).

Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme for the period of twelve months from the date of the publication of this Base Prospectus to be listed on the official list of the Luxembourg Stock Exchange and to be admitted to trading on the Euro MTF of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange's Euro MTF is a multilateral trading facility for the purposes of the Investment Services Directive 2014/16/EU (as amended) and, therefore, not a EU-regulated market. Notes issued under the Programme may also not be listed at all.

The Notes may be offered to the public in the Grand Duchy of Luxembourg ("**Luxembourg**"), the Federal Republic of Germany ("**Germany**"), the Republic of Austria ("**Austria**") and The Netherlands as indicated in the relevant Final Terms. The Issuer has requested the CSSF in its capacity as Competent Authority to provide the competent authorities in Germany, Austria and The Netherlands with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Luxembourg Prospectus Law (the "**Notification**"). The Issuer may request the CSSF in its capacity as Competent Authority to provide competent authorities in host Member States within the European Economic Area ("**EEA**") with a Notification.

The offer and distribution of any Notes of any Tranche in jurisdictions other than Luxembourg will be subject to selling restrictions, including those for the United States, the EEA, the United Kingdom and The Netherlands. See "*Subscription and Sale*" below.

Issuances of Notes under the Programme will be made pursuant to Category 1 for the purposes of Regulation S under the United States Securities Act of 1933, as amended.

The Notes will be issued in compliance with U.S. Treas. Reg. §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**").

Each Tranche of Notes will be represented on issue by a temporary global note (each a "**Temporary Global Note**"). Interests in a Temporary Global Note will be exchangeable, in whole or in part, for interest in a permanent global note (each a "**Permanent Global Note**") on or after the date 40 days after the later of the commencement of the offering and the relevant issue date (the "**Exchange Date**"), upon certification as to non-U.S. beneficial ownership. The Notes are intended to be held in a manner which would allow Eurosystem eligibility. Therefore, the Global Notes will be deposited on the issue date either (i) in classical global note form with Clearstream Banking AG, Frankfurt am Main or (ii) in new global note form with a common safekeeper for Euroclear and Clearstream, Luxembourg and/or any other agreed clearing system. It does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria applicable from time to time.

The Notes will be freely transferable in accordance with the rules and regulations of the relevant Clearing System.

Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, EUR 1,000, and, if in any currency other than euro, an amount in such other currency at least equivalent to EUR 1,000 at the time of the issue of Notes. Subject to any applicable legal or regulatory restrictions, and requirements of relevant central banks, Notes may be issued in euro or any other currency.

Notes will be issued with such maturities as may be agreed between the Issuer and the relevant Dealer(s), subject to such minimum or maximum maturities as may be allowed or required from time to time by any laws, regulations and directives applicable to the Issuer or the relevant currency. Notes will be issued with a maturity of twelve months or more.

The principal amount of the Notes, the currency, the interest payable in respect of the Notes, if any, the issue price (which may be at par or at a discount to, or premium over, par) and maturities of the Notes which are applicable to a particular Series and, if applicable, Tranche will be set out in the relevant Final Terms.

Notes of any Tranche may be issued at a price (the "**Issue Price**") equal to their principal amount or at a discount or premium to their principal amount. The Issue Price for the Notes of any Tranche issued on a syndicated basis will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum yield and may only be confirmed at or above such yield.

The Notes issued under this Base Prospectus will be issued as fixed or floating rate Notes.

The yield for Notes with fixed interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

The Final Terms in respect of any Notes will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Where such a Prohibition of Sales to EEA Retail

Investors is included in the Final Terms, no key information document required by the PRIIPs Regulation for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

ISSUE PROCEDURES

The Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Series and Tranche of Notes (the "**Conditions**"). The Conditions will be constituted by the relevant set of Terms and Conditions set forth below in the Base Prospectus as further specified by the relevant Final Terms as described below.

Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the Issuer to choose between the following Options:

- Option I – Terms and Conditions for Notes with fixed interest rates; and
- Option II – Terms and Conditions for Notes with floating interest rates.

Documentation of the Conditions

The Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall specify which of Option I or Option II, (including certain further options contained therein,) respectively, shall be applicable to the individual issue of Notes by replicating and completing the relevant provisions as set out in the Base Prospectus in the Final Terms. The replicated and completed provisions of Option I or Option II (as the case may be) alone shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be required where the Notes are publicly offered or listed, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- Alternatively, the Final Terms shall specify which of Option I or Option II (and of the respective further options contained therein) are applicable to the individual issue by referring to the relevant provisions of Option I or Option II (as the case may be) as set out in the Base Prospectus. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in the Base Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in the Base Prospectus attached.

Determination of Options / Completion of Placeholders

The Final Terms shall determine which of the Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I or Option II also contains certain further options (characterised by indicating the respective optional provision through instructions and explanatory notes set out in square brackets within the text of the relevant set of Terms and Conditions as set out in the Base Prospectus) as well as placeholders (characterised by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in the Base Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Terms and Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions, the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

All instructions and explanatory notes and text set out on the side or in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Terms and Conditions.

Language of the Conditions

As to the language of the respective Terms and Conditions the Issuer may elect to draft the Conditions either in the German language with an English translation, with German being the controlling language, or in the English language only.

§ 2 Status und Negativklärung

Die Schuldverschreibungen begründen unmittelbare, unbedingte, nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen gegenwärtigen und zukünftigen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit diesen Verbindlichkeiten nicht durch zwingende gesetzliche Bestimmungen ein Vorrang eingeräumt wird.

- (b) *Negativklärung*. Solange die Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Clearing System zur Verfügung gestellt worden sind, verpflichtet sich die Emittentin und stellt für ihre Wesentlichen Tochtergesellschaften (wie nachstehend definiert) sicher, keine Kapitalmarktverbindlichkeiten (einschließlich dafür gegebener Garantien oder Gewährleistungen) durch Belastung ihres gegenwärtigen oder zukünftigen Vermögens bzw. des Vermögens einer Wesentlichen Tochtergesellschaft zu besichern oder eine solche Besicherung bestehen zu lassen (ausgenommen Zugelassene Sicherheiten (wie nachstehend definiert)), ohne entweder die Anleihegläubiger zur gleichen Zeit und im gleichem Rang an solchen Sicherheiten teilnehmen zu lassen oder den Anleihegläubigern eine andere Sicherheit zu bestellen, die von einem unabhängigen Sachverständigen als gleichwertige Sicherheit anerkannt wird.

Nur zum Zweck dieses Absatzes gelten Verbindlichkeiten aus der Begebung von Asset-backed Schuldverschreibungen, bei denen die Rückgriffsmöglichkeit eines Gläubigers solcher Schuldverschreibungen auf bestimmte Vermögenswerte oder andere Wertpapiere, die die Schuldverschreibungen besichern, begrenzt ist, nicht als Kapitalmarktverbindlichkeiten.

- (b) *Negative pledge*. So long as any of the Notes remains outstanding, but only until all amounts of principal and interest have been made available to the Clearing System, the Issuer undertakes, and shall procure in respect of its Material Subsidiaries (as defined below) neither to create nor permit to subsist any lien or other security interest (other than any Permitted Security (as defined below)) upon any of its or any of its Material Subsidiaries' present or future assets to secure any Capital Markets Indebtedness (including any guarantees or indemnities in respect thereof), without at the same time according to the Noteholders equally and rateably the same security interest or such other security as will be recognised by an independent expert as being an equal security.

"**Capital Markets Indebtedness**" means any obligation for the payment of borrowed monies which is in the form of, or represented by, bonds, notes, debentures or similar security, which are or are capable of being listed or traded on a stock exchange or other security market (including any over-the-counter market), as well as assignable loans (*Schuldscheindarlehen*). Die Schuldverschreibungen begründen unmittelbare, unbedingte, nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen gegenwärtigen und zukünftigen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit diesen Verbindlichkeiten nicht durch zwingende gesetzliche Bestimmungen ein Vorrang eingeräumt wird.

- (b) *Negativklärung*. Solange die Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Clearing System zur Verfügung gestellt worden sind, verpflichtet sich die Emittentin und stellt für ihre Wesentlichen Tochtergesellschaften (wie nachstehend definiert) sicher, keine Kapitalmarktverbindlichkeiten (einschließlich dafür gegebener Garantien oder Gewährleistungen) durch Belastung ihres gegenwärtigen oder zukünftigen Vermögens bzw. des Vermögens einer Wesentlichen Tochtergesellschaft zu besichern oder eine solche Besicherung bestehen zu lassen (ausgenommen Zugelassene Sicherheiten (wie nachstehend definiert)), ohne entweder die Anleihegläubiger zur gleichen Zeit und im gleichem Rang an solchen Sicherheiten teilnehmen zu lassen oder den Anleihegläubigern eine andere Sicherheit zu bestellen, die von einem unabhängigen Sachverständigen als gleichwertige Sicherheit anerkannt wird.

- (b) *Negative pledge*. So long as any of the Notes remains outstanding, but only until all amounts of principal and interest have been made available to the Clearing System, the Issuer undertakes, and shall procure in respect of its Material Subsidiaries (as defined below) neither to create nor permit to subsist any lien or other security interest (other than any Permitted Security (as defined below)) upon any of its or any of its Material Subsidiaries' present or future assets to secure any Capital Markets Indebtedness (including any guarantees or indemnities in respect thereof), without at the same time according to the Noteholders equally and rateably the same security interest or such other security as will be recognised by an independent expert as being an equal security.

"Capital Markets Indebtedness" means any obligation for the payment of borrowed monies which is in the form of, or represented by, bonds, notes, debentures or similar security, which are or are capable of being listed or traded on a stock exchange or other security market (including any over-the-counter market), as well as assignable loans (*Schuldscheindarlehen*). Baur Versand (GmbH & Co KG) ("**Baur**"), based in Burgkunstadt, Germany, was founded by Dr Friedrich Baur as Germany's first mail-order shoe company in 1925. In 1997, the Otto Group acquired an equity interest of 49% in Baur, which is still the current shareholding. The remaining 51% are held by Friedrich Baur Stiftung. The Otto Group controls Baur through its 100% stake in Verwaltungsgesellschaft Baur Versand mbH, the general partner of Baur.

Baur's range of goods covers fashion, shoes, furniture, and home accessories, which are sold in Germany and a number of European countries through its subsidiaries.

3.2.8. WITT GROUP

Josef Witt GmbH ("**Witt**") is Germany's oldest mail-order company specialised in textiles. Witt targets the 50+ age group with a range of differently positioned brands using all distribution channels – catalogue business, over-the-counter retail stores and online business – and is primarily active in Germany, Austria and Switzerland. In financial year 2018/19, the Witt Group recorded revenues of 815 million euros. On a like-for-like basis⁸, revenues increased by 0.4% compared to the previous year. SportScheck focuses on sportswear, leisure wear and accessories and currently operates 19 stores in Germany. As a multi-channel retailer, the company also sells its products via catalogue and its website.

3.2.10. CRATE AND BARREL GROUP

Crate & Barrel Holdings, Inc. ("**Crate and Barrel**") was founded in 1962. The Otto Group acquired a majority stake in Crate and Barrel in 1998 and has held all voting common stock since 2011.

Crate and Barrel offers international housewares, furniture and home furnishings to demanding customers in the North American market. Crate and Barrel operates more than 100 over-the-counter retail stores, plus catalogue and online business in the USA. In addition, Crate and Barrel has expanded into Canada, as well as markets outside of North America via a franchise concept. 3.2.12. ABOUT YOU

ABOUT YOU GmbH ("**ABOUT YOU**") is a fashion and technology company that was launched by the Otto Group in 2013. ABOUT YOU seeks to distinguish itself from competitors by providing a more inspiring shopping experience based on personalisation and the integration of user- and third-party generated content into the shop. ABOUT YOU mainly targets customers between 20 and 49 years. In addition to its presence in Germany, ABOUT YOU has started to expand into selected further European countries.

In 2017, the Otto Group announced its decision to include external investors and strategic partners at ABOUT YOU in order to further promote ABOUT YOU's strong growth ambitions and international expansion plans with the support of external expertise and capital. As part of this strategy, GFH Gesellschaft für Handelsbeteiligungen m.b.H., an entity outside of the Otto Group ultimately controlled by Benjamin Otto, as well as the Danish Heartland A/S, the holding company for Bestseller A/S, one of Europe's leading fashion companies, joined ABOUT YOU as new shareholders in 2018. Following the transactions, the Otto Group remains ABOUT YOU's largest shareholder with a stake of approximately 53.7%. Given the structure of the agreements with ABOUT YOU's various shareholders, the Otto Group does not exercise control over ABOUT YOU and therefore recognizes its interest in ABOUT YOU using the equity method in its consolidated financial statements.

3.3. THE FINANCIAL SERVICES SEGMENT

3.3.1. OVERVIEW OF THE SEGMENT

The Financial Services segment covers an international portfolio of financial services. The Financial Services segment is largely characterised by the companies of the internationally operating EOS Group. In addition, the Otto Group holds minority participations in Cofidis and Hanseatic Bank, which are included in the Otto Group's financial statements using the equity method.

Third-party business with customers outside the Otto Group generates the overwhelming majority of the segment's overall business volume (97.4% as of financial year 2018/19).

3.3.2. EOS GROUP

The EOS Group originated from a spin-off of the debt collection department of the Otto Group in 1974 and is still 100% owned by the Otto Group. The EOS Group covers a broad portfolio of retail-related financial services with a focus on receivables management. These services include the purchase of non-performing receivables, fiduciary debt collection and business process outsourcing. EOS is present in 26 countries around the world via more than 60 subsidiaries.

With the help of an international network of partner companies, the EOS Group has access to resources in more than 180 countries. The main target industries are the banking sector, utilities and the telecommunications market, as well as the public sector, real estate, mail order and e-commerce.

In financial year 2018/19, the EOS Group generated revenues with customers outside the Otto Group of 797 million euros. On a like-for-like basis⁹, revenues increased by 9.6% compared to the previous year.

⁹ Adjusted for changes in the scope of consolidation, foreign exchange effects, fiscal year harmonisation and the first-time application of IFRS 15

3.3.3. ARGOSYN / COFIDIS

Argosyn SA, Villeneuve d'Ascq, France ("**Argosyn**") operates certain financial service companies that historically were part of the French 3 Suisses Group. The Otto Group's stake in Argosyn amounts to approximately 54%, with an entity controlled by the Mulliez family holding the remainder. Argosyn's main holding is a minority stake in the consumer finance company Cofidis Participations S.A. ("**Cofidis**"). The majority shareholder of Cofidis is the French cooperative bank Banque Fédérative du Crédit Mutuel, Strasbourg, France ("**Crédit Mutuel**"). Argosyn's stake in Cofidis amounts to approximately 29%. The stake in Cofidis may be further reduced in the future through the exercise of put and call options that are part of the shareholder agreement with Credit Mutuel.

3.3.4. HANSEATIC BANK

Hanseatic Bank GmbH & Co KG, Hamburg ("**Hanseatic Bank**") was established by the Otto Group in 1969 to provide consumer credits to mail-order customers. Today, Hanseatic Bank provides individual financing solutions for its customers and partners in the areas of deposit-taking, real-estate-related financing, receivables management and credit cards. The Otto Group sold 75% of the shares in Hanseatic Bank to Société Générale in 2005 and currently holds a stake of 25% in Hanseatic Bank. Hanseatic Bank is included in the Otto Group's consolidated financial statements using the equity method.

3.4. THE SERVICES SEGMENT

The companies bundled in the Services segment allow the Otto Group to offer a wide range of retail-related services. The Services segment is characterised by the Hermes brand. The companies operating under the Hermes brand ("**Hermes**") are mainly held by Hermes Europe GmbH, a 100% subsidiary of the Otto Group. They offer a broad range of services along the logistics value chain – including procurement, quality testing, transport, warehousing and delivery to both private and business customers. Distribution logistics, i.e. the delivery of parcels into people's homes, or to parcel shops operated by franchise partners, is the main growth area for Hermes and the focus of Hermes' service offering to external customers. In addition, Hermes also occupies a strong market position in the field of 2-man-handling, i.e. the delivery and mounting of heavy products such as furniture or larger household items.

The Otto Group founded Hermes in 1972, initially as a logistics operator for the Otto Group's own retail companies. Over time, Hermes has firmly established itself as an independent service provider in the marketplace, serving a large number of well-known retailers across Europe. In addition to third-party business, Hermes continues to provide logistic operations for the Otto Group's companies in the Multichannel Retail segment. In financial year 2018/19, third-party business accounted for 65.4% of total revenues in the Services segment.

Hermes is among the leading parcel delivery services in Germany, the UK and France, and occupies a number two market position in all of these three key markets according to the Issuer's own estimates.

In financial year 2018/19, Hermes together with its subsidiaries and affiliates taken as a whole (the "**Hermes Group**") recorded revenues of 2,223 million euros with customers outside the Otto Group. On a like-for-like basis¹⁰, revenues increased by 7.2% compared to the previous year.

At the end of 2018, the Otto Group mandated an investment bank for a potential cooperation with external investors regarding the parcel distribution activities of the Hermes Group. The rationale for such a potential transaction, which would likely take place in financial years 2019/2020 or 2020/2021, would be to further strengthen the strong growth path of the Hermes Group's parcel distribution activities and to join forces with external partners in order to address the upcoming investment requirements. As part of any potential transaction, it is intended that the Otto Group would retain a significant stake in all three main activities in Germany, United Kingdom as well as France. Hermes' activities outside of parcel distribution, such as fulfilment and 2-man-handling, are not within the scope of the investor process.

¹⁰ Adjusted for changes in the scope of consolidation, foreign exchange effects, fiscal year harmonisation and the first-time application of IFRS 15

4. FINANCING

The Otto Group uses a variety of financial instruments to finance its business, e.g. bilateral bank loans, asset backed financings, commercial paper and bond financing. The financing portfolio is spread across a well-balanced maturity profile.

The Otto Group has access to a considerable amount of credit lines granted by several banks on a bilateral basis. The use of these credit lines fluctuates throughout the year, but the Otto Group seeks to maintain a significant undrawn amount of credit lines at any time.

5. INVESTMENTS

Between 28 February 2019 and the date of this Prospectus, the Issuer has made no new or previously unannounced investments, and its management has made no decisions or firm commitments on investments for the future, that would result in a significant change in the financial or trading position of the Otto Group.

The general investment strategy of the Otto Group is as follows: The Otto Group seeks to grow and invest across all of its three business segments. Focus areas for investment are:

Multichannel Retail

In the Multichannel Retail segment, the overarching strategic goal is to further expand the e-commerce sector across all interfaces and devices. E-commerce is by far the most important distribution channel for the Otto Group and is expected to remain the main growth driver going forward.

The Otto Group has defined two focus areas for growth and investment in the Multichannel Retail segment. On the one hand, the Otto Group aims for a strong expansion of its large retail platforms OTTO and ABOUT YOU. In addition, the Otto Group's well-established international brands Bonprix, Witt and Crate & Barrel have also been defined as focus firms for investment and further growth.

In the Multichannel Retail segment, the Otto Group also invests in startups through its participation in the venture capital company e.ventures and the early-stage fund Project A Ventures, thereby securing early access to promising new business models and entrepreneurial talents.

Financial Services

In the Financial Services segment, the Otto Group's strategic focus is on the further development of the receivables management business at the EOS Group. As part of this strategy, the EOS Group intends to expand its investments in portfolios of non-performing receivables and will also make further investments into the optimisation and digitalisation of its collection processes.

In addition, the Otto Group also invests into new digital business models in the Financial Services segment, for example in the fields of personalised dunning and fraud prevention.

Services

In the Services segment, Hermes invests into the development of its logistics network both in Germany and in its key international markets, i.e. France and the UK. Hermes' objective is to improve speed, reliability and transparency of its delivery services in order to meet its customers' steadily increasing demands. In this context, and given the significant capital investments required in order to maintain a leading position in the logistics sector, the Otto Group has decided to consider opening up the shareholder structure at Hermes for potential new external partners (please see also above under "3.4. *The Service Segment*")

IT infrastructure

Finally, in order to be competitive in the fast-paced markets in which the Otto Group operates, state-of-the art technology is a key prerequisite. For this reason, the Otto Group continuously invests significant amounts into its IT infrastructure and the development of IT competencies in fields such as business intelligence, conversational commerce and augmented reality.

6. MATERIAL CONTRACTS

The Otto Group did not enter into any contracts outside the ordinary course of business which could result in any obligation or entitlement that is material to the Issuer's ability to meet its obligations to the Noteholders in respect of the Notes.

8.3. KEY FIGURES WITH THE FINANCIAL SERVICES SEGMENT ACCOUNTED FOR AT-EQUITY

The business undertaken by Otto Group companies in the Financial Services segment differs fundamentally from the Otto Group's Multichannel Retail and Services activities. In order to provide additional insight into the Otto Group's retail and service activities, the Otto Group prepares a second set of financial information (the "FS at equity view") in addition to the IFRS consolidated financial statements. In the Issuer's opinion, this adjusted financial information allows a more valid comparison with retail companies that do not have financial service activities.

The "FS at equity view" eliminates the assets, liabilities, expenses and income of the companies in the Financial Services segment from the consolidated financial statements, and instead reports the interests in Financial Services companies using the equity method. This reporting of interests in Group companies in Financial Services using the equity method is based on the overall percentage held at the level of the parent companies concerned which are not allocated to the Financial Services segment. Hence, minority interests in the share of results or share of net assets of Group companies in the Financial Services segment are only reported if these interests are held by third-party shareholders of parent companies in other segments.

The procedure described here deviates from IFRS and does not represent IFRS figures in that it forgoes the full consolidation of companies in the Financial Services segment that would have to be consolidated pursuant to IAS 27 (and is reported in the IFRS consolidated financial statements), based on the Otto Group's ability to exercise control over such companies.

All other recognition and measurement methods are applied consistently with those used in the IFRS consolidated financial statements.

8.3.1. SELECTED BALANCE SHEET ITEMS (FS AT EQUITY VIEW)¹¹

In financial year 2018/19, net financial debt (in the "FS at equity" view) increased slightly compared to the previous year. Many of the Otto Group's large retail activities continued to generate strong positive operating cash flows. At otto.de, on the other hand, the ongoing transformation into a platform business translated into a net cash requirement, as did the investment into the IT and logistics infrastructure at Hermes.

The issuance of a 300 million EUR hybrid bond in July 2018 was the main driver behind the improved equity ratio. Dividends were mainly paid out to minority shareholders.

¹² Reconciliation for the FS at equity view to be found in the Otto Group's Annual Report 2018/19 pages 198 -207. For an explanation please see chapter 8.3 of this Prospectus.

8.4. RELATED PARTY TRANSACTIONS

Otto Group companies have concluded a number of contracts regarding the lease of property and land with subsidiaries of ECE Projektmanagement G.m.b.H. & Co. KG, Hamburg, as well as with Projektentwicklungsgesellschaft evoreal GmbH, Hamburg. Both entities are controlled by members of the Otto family, but are not part of the Otto Group. These contracts were concluded on arms' length terms.

9. RECENT DEVELOPMENTS

On 10 April 2019, the Issuer issued EUR 250 million sustainable notes under this Programme. The notes bear annual interest of 2.625 per cent and will mature in 2026. The net proceeds from this issuance of notes were employed by the Issuer in line with the Sustainable Finance Framework of Otto Group.

In financial year 2018/19, the EOS Group entered into an agreement to sell its specialist healthcare factoring business EOS Health Honorarmanagement AG. The transaction was closed on 30 April 2019.

10. OUTLOOK AND FUTURE DEVELOPMENT OF THE OTTO GROUP

The Otto Group will continue its strategic orientation as an international company covering a broad spectrum of the value chain in retailing and retail-related financial services and services. The Otto Group aims for continued growth across all three of its strategic business segments, as well as for an improvement in profitability going forward.

In the Multichannel Retail segment, e-commerce, and in particular mobile commerce, are expected to remain the major growth drivers going forward. As part of the Otto Group's focused growth strategy, the Otto Group has defined two focus areas for growth and investment in the Multichannel Retail segment. On the one hand, the Otto Group aims for a strong expansion of otto.de, which is being transformed into a platform business model. In addition, the Otto Group's well-established international brands Bonprix, Witt and Crate & Barrel will continue to be focus firms for investment and further growth.

In the Financial Services segment, the Otto Group's strategic focus will remain on the further development of the EOS Group.

In the Services segment, the Otto Group will continue to invest into the logistics network of Hermes. As described above, the Otto Group has decided to consider opening up the shareholder structure at Hermes for potential new external partners, but will continue to hold a strategic stake in Hermes going forward.

Overall, the Otto Group aims to further streamline its portfolio of activities in the coming years and may conclude additional partnerships and/or disposals as part of this strategy. Through the continued strengthening of the company portfolio and the concentration of investment in areas with strong future prospects, the Otto Group believes it is well positioned to reach its objective of sustainable growth and profitability.

TAXATION

The following comments are of a general nature and included herein solely for information purposes. They are based on the relevant laws currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive effect. These comments cannot replace legal or tax advice. No representation with respect to the consequences to any particular prospective Noteholder is made hereby. Prospective Noteholders should consult their own tax advisers in each country which they are resident and in all relevant jurisdictions.

Federal Republic of Germany

The following general overview does not consider all aspects of income taxation in the Federal Republic of Germany ("**Germany**") that may be relevant to a Noteholder in the light of its particular circumstances and income tax situation. This general overview is based on German tax laws and regulations, all as currently in effect and all subject to change at any time, possibly with retroactive effect. Prospective Noteholders should consult their own tax advisers as to the particular tax consequences to them of subscribing, purchasing, holding and disposing of the Notes, including the application and effect of state, local, foreign and other tax laws and the possible effects of changes in the tax laws of Germany.

German tax residents holding Notes as private assets

Taxation of income from the Notes

If the Notes are held as private assets (*Privatvermögen*) by an individual investor whose residence or habitual abode is in Germany, payments of interest under the Notes are taxed as investment income (*Einkünfte aus Kapitalvermögen*) generally at a 25% flat tax (*Abgeltungsteuer*) (plus a 5.5% solidarity surcharge thereon and, if applicable to the individual investor, church tax (*Kirchensteuer*)).

The same applies to capital gains from the sale or redemption of the Notes. The capital gain is generally determined as the difference between the proceeds from the sale or redemption of the Notes and the acquisition costs. Expenses directly and factually related (*unmittelbar sachlicher Zusammenhang*) to the sale or redemption are taken into account in computing the taxable gain. Otherwise the deduction of related expenses for tax purposes is not permitted.

Where the Notes are acquired and/or sold in a currency other than Euro, the acquisition costs will be converted into Euro at the time of acquisition, the sales proceeds will be converted in Euro at the time of sale, and only the difference will then be computed in Euro.

The flat tax is generally collected by way of withholding (see succeeding paragraph – *Withholding tax*) and the tax withheld shall generally satisfy the individual investor's tax liability with respect to the Notes. If, however, no or not sufficient tax was withheld other than by virtue of a withholding tax exemption request (e.g., in case there is no Domestic Paying Agent as defined in the subsequent paragraph – *Withholding Tax*), the investor will have to include the income received from its investment in the Notes in its income tax return and the flat tax will then be collected by way of tax assessment. The investor may also opt for inclusion of investment income in its income tax return if the aggregated amount of tax withheld on investment income during the year exceeded the investor's aggregated flat tax liability on investment income (e.g., because of an available loss carry forward or a foreign tax credit). If the investor's total income tax liability on all taxable income including the investment income determined by generally applicable individual progressive tax rates is lower than 25% the investor may opt to be taxed at individual progressive tax rates with respect to its investment income.

Capital losses from the sale or redemption of the Notes held as private assets are generally tax-recognised irrespective of the holding period of the Notes. The losses may, however, not be used to offset other income like employment or business income but may only be offset against investment income subject to certain limitations. Losses not utilised in one year may be carried forward into subsequent years but may not be carried back into preceding years. According to the view of German tax authorities losses suffered upon a bad debt loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*) (to the extent the waiver does not qualify as a hidden contribution) shall, in general, not be treated as a sale, so that losses suffered upon such bad debt loss or waiver shall not be deductible for tax purposes. However, the German Federal Fiscal Court decided in 2017 that a final bad debt loss with respect to a capital claim shall be deductible for tax

purposes; the question whether this also applies to a waiver of a receivable has been left open by the court. With respect to a (voluntary) waiver of receivable a lower German fiscal court confirmed the view of German tax authorities in a final decision and another lower fiscal court rejected the jurisdiction of the German Federal Fiscal Court with respect to the tax deductibility of a bad debt loss. Two further decisions in this context are currently still pending with the German Federal Fiscal Court.

While the German tax authorities previously took the position that a disposal (and, as a consequence, a tax loss resulting from such disposal) shall not be recognized if the Notes are sold at a market price, which is lower than the transaction costs or if the level of transaction costs is restricted because of a mutual agreement that the transaction costs are calculated by subtracting a certain amount from the sales price, the German tax authorities have recently concluded in an amendment from 10 May 2019 to the tax decree issued by the German Federal Ministry of Finance dated 18 January 2016 that the recognition as disposal shall not depend on the amount of any consideration or the amount of the transaction costs.

Capital losses might not be recognised by the German tax authorities if no (or only de minimis) payments are made to the individual investors on the maturity or redemption date of the Notes. However, in a recently published decision by the German Federal Tax Court with regard to losses incurred in connection with knock-out certificates due to the fact of exceeding the knock-out threshold the German Federal Tax Court took the view that such a case (i.e. no payments on the day of exceeding the knock-out threshold) shall be treated similar to a bad debt loss as a sale at the value zero, so that losses suffered shall also be deductible for tax purposes.

According to the recently published draft bill of the German federal ministry of finance (*Referentenentwurf des Bundesministeriums der Finanzen*) for an annual Tax Act 2019 (*Jahressteuergesetz 2019*) dated 8 May 2019 the view of the German tax authority on the non-deductibility of capital losses for tax purposes in the scenarios described above shall largely be codified in the German Income Tax Act.

Individual investors are entitled to a saver's lump sum tax allowance (*Sparer-Pauschbetrag*) for investment income of 801 Euro per year (1,602 Euro for jointly assessed investors). The saver's lump sum tax allowance is considered for purposes of the withholding tax (see subsequent paragraph – *Withholding tax*) if the investor has filed a withholding tax exemption request (*Freistellungsauftrag*) with the respective Domestic Paying Agent (as defined below). The deduction of related expenses for tax purposes is not possible.

The coalition agreement between the German Christ Democratic Party, the German Christian Social Union and the German Social Democratic Party for the formation of a current German federal government provides that the flat tax regime shall be partially abolished for certain capital investment income. The coalition agreement further provides that the solidarity surcharge shall be abolished in stages provided that the individual income does not exceed certain thresholds. There is however no draft bill available yet and a lot of details are hence still unclear. That means however that income received by investors holding the Notes as private assets may be taxed at individual progressive income tax rates of up to 45 per cent. in the future (plus a 5.5 per cent. solidarity surcharge thereon, unless abolished or reduced in the future, and church tax, if applicable to the individual investor).

Withholding tax

If the Notes are kept or administered in a domestic securities deposit account by a German credit or financial services institution (*Kredit- oder Finanzdienstleistungsinstitut*) (or by a German branch of a foreign credit or financial services institution), or by a German securities trading firm (*Wertpapierhandelsunternehmen*) or by a German securities trading bank (*Wertpapierhandelsbank*) (each a "**Domestic Paying Agent**") which pays or credits the interest, a 25% withholding tax, plus a 5.5% solidarity surcharge thereon, resulting in a total withholding tax charge of 26.375%, is levied on the interest payments. The applicable withholding tax rate is in excess of the aforementioned rate if church tax applies and is collected for the individual investor by way of withholding which is provided for as a standard procedure unless the Noteholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

Capital gains are also subject to the 25% withholding tax, plus a 5.5% solidarity surcharge thereon, if the Notes are kept or administered by a Domestic Paying Agent effecting the sale or redemption since their acquisition. If the Notes were sold or redeemed after being transferred to a securities deposit account with a Domestic Paying Agent, 25% withholding tax (plus solidarity surcharge thereon) would be levied on 30% of the proceeds from the sale or the redemption, as the case may be, unless the investor or the previous depository bank was able and allowed to prove evidence for the investor's actual acquisition costs to the

Domestic Paying Agent. The applicable withholding tax rate is in excess of the aforementioned rate if church tax applies and is collected for the individual investor by way of withholding which is provided for as a standard procedure unless the Noteholder has filed a blocking notice with the German Federal Central Tax Office.

German resident investors holding the Notes as business assets

Taxation of income from the Notes

If the Notes are held as business assets (*Betriebsvermögen*) by an individual or corporate investor who is tax resident in Germany (i.e., a corporation with its statutory seat or place of management in Germany), interest income and capital gains from the Notes are subject to personal income tax at individual progressive rates or corporate income tax (plus a 5.5% solidarity surcharge thereon and church tax, if applicable) and, in general, trade tax. The effective trade tax rate depends on the applicable trade tax factor (*Gewerbesteuer-Hebesatz*) of the relevant municipality where the business is located. In case of individual investors, the trade tax may, however, be partially or fully creditable against the investor's personal income tax liability depending on the applicable trade tax factor and the investor's particular circumstances. Losses from the disposal or redemption of the Notes will generally be tax-recognised and may generally be offset by income subject to certain limitations.

Withholding tax

If the Notes are kept or administered by a Domestic Paying Agent which pays or credits the interest, a 25% withholding tax, plus a 5.5% solidarity surcharge thereon, resulting in a total withholding tax charge of 26.375%, is levied on the interest payments. The applicable withholding tax rate is in excess of the aforementioned rate if church tax applies and is collected for the individual investor by way of withholding which is provided for as a standard procedure unless the Noteholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

No withholding is generally required on capital gains from the disposal or redemption of the Notes which is derived by German resident corporate investors and, upon application, by individual investors holding the Notes as business assets, subject to certain requirements. Any losses incurred from the disposal or redemption of the Notes will not be taken into account for withholding tax purposes. If withholding tax is levied, the withholding tax does not satisfy the investor's personal or corporate income tax liability with respect to the Notes. The income from the Notes will have to be included in the investor's personal or corporate income tax return. Any German withholding tax (including surcharges) is generally fully creditable against the investor's personal or corporate income tax liability or refundable, as the case may be.

Non-German resident investors

Income derived from the Notes by Noteholders who are not tax resident in Germany is in general exempt from German income taxation, and no withholding tax shall be withheld, unless (i) the Notes are held as business assets of a German permanent establishment of the investor or by a permanent German representative of the investor, (ii) the income derived from the Notes does otherwise constitute German source income (such as income from the letting and leasing of certain property located in Germany) or (iii) the income is paid by a Domestic Paying Agent against presentation of the Notes or interest coupons (so-called over-the-counter transaction, *Tafelgeschäfte*). If the income derived from the Notes is subject to German taxation according to (i) through (iii) above, the income is subject to withholding tax similar to that described above under the paragraphs *Withholding tax*. Under certain circumstances, foreign investors may benefit from tax reductions or tax exemptions under applicable double tax treaties (*Doppelbesteuerungsabkommen*) entered into with Germany.

Substitution of the Issuer

If the Issuer exercises the right to substitute the debtor of the Notes, the substitution might, for German tax purposes, be treated as an exchange of the Notes for new notes issued by the New Issuer and subject to similar taxation rules like the Notes. In particular, such a substitution could result in the recognition of a taxable gain or loss for any investor of a Note.

Inheritance tax / gift tax

The transfer of Notes to another person by way of gift or inheritance is subject to German gift or inheritance tax, respectively, if *inter alia*

- (i) the testator, the donor, the heir, the donee or any other acquirer had his residence, habitual abode or, in case of a corporation, association (*Personenvereinigung*) or estate (*Vermögensmasse*), had its seat or place of management in Germany at the time of the transfer of property,
- (ii) except as provided under (i), the testator's or donor's Notes belong to a business asset attributable to a permanent establishment or a permanent representative in Germany.

Special regulations apply to certain German expatriates.

Prospective investors are urged to consult with their tax advisor to determine the particular inheritance or gift tax consequences in light of their particular circumstances.

Other taxes

The purchase, sale or other disposal of Notes does not give rise to capital transfer tax, value added tax, stamp duties or similar taxes or charges in Germany. However, under certain circumstances entrepreneurs may choose liability to value added tax with regard to the sales of Notes which would otherwise be tax exempt. Net wealth tax (*Vermögensteuer*) is, at present, not levied in Germany.

The Netherlands

The following overview does not purport to be a comprehensive description of all Netherlands tax considerations that could be relevant to Noteholders. This overview is intended for general information only. Each prospective holder should consult a professional tax adviser with respect to the tax consequences of an investment in the Notes. This overview is based on Netherlands tax legislation and published case law in force as of the date of this document. It does not take into account any developments or amendments thereof after that date, whether or not such developments or amendments have retroactive effect. For the purposes of this section, "the Netherlands" shall mean that part of the Kingdom of the Netherlands that is in Europe.

Scope

Regardless of whether or not a Noteholder is, or is treated as being, a resident of the Netherlands, with the exception of the section on withholding tax below, this overview does not address the Netherlands tax consequences for such a holder:

- (i) having a substantial interest (*aanmerkelijk belang*) or deemed substantial interest (*fictief aanmerkelijk belang*) in the Issuer and Noteholders of whom a certain related person holds a substantial interest in the Issuer. Generally speaking, a substantial interest in the Issuer arises if a person, alone or, where such person is an individual, together with his or her tax partner (statutory defined term), directly or indirectly, holds or is deemed to hold (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or of 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer;
- (ii) who is a private individual and who may be taxed in box 1 for the purposes of Netherlands income tax (*inkomstenbelasting*) as an entrepreneur (*ondernemer*) having an enterprise (*onderneming*) to which the Notes are attributable, or who may otherwise be taxed in box 1 with respect to benefits derived from the Notes;
- (iii) who is a person to whom the Notes and the income from the Notes are attributed based on the separated private assets (*afgezonderd particulier vermogen*) provisions of The Netherlands Income Tax Act 2001 (*Wet inkomstenbelasting 2001*) and the Netherlands Gift and Inheritance Tax Act 1956 (*Successiewet 1956*);
- (iv) which is a corporate entity and a taxpayer for the purposes of Netherlands corporate income tax (*vennootschapsbelasting*), having a participation (*deelname*) in the Issuer (such a participation is generally present in the case of an interest of at least 5 per cent. of the Issuer's nominal paid-in capital);

- (v) which is a corporate entity and an exempt investment institution (*vrijgestelde beleggingsinstelling*) or investment institution (*beleggingsinstelling*) for the purposes of Netherlands corporate income tax, a pension fund, or otherwise not a taxpayer or exempt for corporate income tax purposes;
- (vi) entities which are a resident of Aruba, Curaçao or Sint Maarten that have an enterprise which is carried on through a permanent establishment or a permanent representative on Bonaire, Sint Eustatius or Saba, to which permanent establishment or permanent representative the Notes are attributable; or
- (vii) which is not considered the beneficial owner (*uiteindelijk gerechtigde*) of the Notes and/or the benefits derived from the Notes.

Withholding tax

All payments made by the Issuer under the Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

Income tax

Resident holders: A holder who is a private individual and a resident, or treated as being a resident of the Netherlands for the purposes of Netherlands income tax, must record Notes as assets that are held in box 3. Taxable income with regard to the Notes is then determined on the basis of a deemed return on the holder's yield basis (*rendementsgrondslag*) at the beginning of the calendar year insofar the yield basis exceeds a €30,360 threshold (*heffingvrij vermogen*), or together with his or her tax partner (statutory defined term) exceeds a €60,720 threshold, rather than on the basis of income actually received or gains actually realised. Such yield basis is determined as the fair market value of certain qualifying assets held by the holder of the Notes, less the fair market value of certain qualifying liabilities at the beginning of the calendar year. The fair market value of the Notes will be included as an asset in the holder's yield basis. The holder's yield basis is allocated to up to three brackets for which different deemed returns apply. The first bracket includes amounts up to and including €71,650, which amount will be split into a 67% low-return part and a 33% high-return part. The second bracket includes amounts in excess of €71,650 and up to and including €989,736, which amount will be split into a 21% low-return part and a 79% high-return part. The third bracket includes amounts in excess of €989,736, which will be considered high-return in full. For 2018 the deemed return on the low-return parts is 0.13% and on the high-return parts is 5.60%. The deemed return percentages will be reassessed every year. The deemed return on the holder's yield basis is taxed at a rate of 30%.

Non-resident holders: A holder who is a private individual and neither a resident, nor treated as being a resident, of the Netherlands for the purposes of Netherlands income tax, will not be subject to such tax in respect of benefits derived from the Notes, unless such holder is entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise which is effectively managed in the Netherlands, to which enterprise the Notes are attributable.

Corporate income tax

Resident holders: A holder which is a corporate entity and, for the purposes of Netherlands corporate income tax, a resident, or treated as being a resident, of the Netherlands, is taxed in respect of benefits derived from the Notes at a rate of 25% (19% up to €200,000).

Non-resident holders: A holder which is a corporate entity and, for the purposes of Netherlands corporate income tax, is neither a resident, nor treated as being a resident, of the Netherlands, will not be subject to corporate income tax, unless such holder has an interest in an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands, a Netherlands Enterprise (*Nederlandse onderneming*), to which Netherlands Enterprise the Notes are attributable, or such holder is (other than by way of securities) entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, which is effectively managed in the Netherlands and to which enterprise the Notes are attributable. Such holder is taxed in respect of benefits derived from the Notes at a rate of 25% (19% up to €200,000).

Gift and inheritance tax

Resident holders: Netherlands gift tax or inheritance tax (*schenk- of erfbelasting*) will arise in respect of an acquisition (or deemed acquisition) of Notes by way of a gift by, or on the death of, a Noteholder who is a

resident, or treated as being a resident, of the Netherlands for the purposes of Netherlands gift and inheritance tax.

Non-resident holders: No Netherlands gift tax or inheritance tax will arise in respect of an acquisition (or deemed acquisition) of Notes by way of a gift by, or on the death of, a Noteholder who is neither a resident, nor treated as being a resident, of the Netherlands for the purposes of Netherlands gift and inheritance tax.

Other taxes

No Netherlands value added tax (*omzetbelasting*) will arise in respect of any payment in consideration for the issue of Notes, with respect to any cash settlement of Notes or with respect to the delivery of Notes. Furthermore, no Netherlands registration tax, capital tax, transfer tax or stamp duty (nor any other similar tax or duty) will be payable in the Netherlands by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of Notes.

Residency

A holder will not become a resident, or a deemed resident, of the Netherlands for Netherlands tax purposes by reason only of holding the Notes.

Austria

The following is a brief overview of certain Austrian tax aspects in connection with the Notes. It does not claim to fully describe all Austrian tax consequences of the acquisition, ownership, disposition or redemption of the Notes nor does it take into account the Noteholders' individual circumstances or any special tax treatment applicable to the Noteholder. It is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors should consult their own professional advisors as to the particular tax consequences of the acquisition, ownership, disposition or redemption of the Notes.

The Issuer does not assume responsibility for Austrian withholding tax and is not obliged to make additional payments in case of Austrian withholding tax deductions.

Austrian tax resident individual investor

Interest income and a capital gain (i.e. the difference between the sale price and the acquisition cost, which in case of private individual investors exclude incidental acquisition cost) realised from the Notes by an investor resident in Austria for tax purposes (i.e., a person that has a domicile or place of habitual abode in Austria) is subject to Austrian income tax generally at a final flat tax rate of 27,5% if the Notes are legally and factually publicly offered.

If interest is paid by an Austrian paying agent (e.g. an Austrian bank or the Austrian branch of a non-Austrian bank or investment firm) Austrian withholding tax at a rate of 27,5% is triggered. In relation to capital gains Austrian withholding tax at a rate of 27,5% is triggered if the Notes are deposited with an Austrian depository (e.g. an Austrian bank or the Austrian branch of a non-Austrian bank or investment firm) or under certain conditions if capital gains are realised and paid via an Austrian paying agent. In the absence of an Austrian paying agent or depository the investor must include interest, capital gains or income from derivatives in the income tax return and such income is taxed at a rate of 27,5%. Despite deduction of Austrian withholding tax, capital gains and income from derivatives also need to be included in the income tax return if realised as business income. An investor may apply for taxation at the progressive income tax rate. A deduction of expenses that are directly economically connected to income and capital gain from the Notes is generally not allowed.

Losses from Notes held as private assets may only be set off with other investment income subject to the special flat tax rate (excluding, *inter alia*, interest income from bank deposits and other claims against banks). The Austrian securities depositories apply an automatic set-off of losses against investment income from securities accounts at the same securities depository (subject to certain exemptions). However, a carry-forward of such losses is not permitted. Write-downs and losses derived from the sale or redemption of Notes held as business assets must primarily be set off against positive income from realized capital gains of financial instruments of the same business unit and only 55% of the remaining loss may be set off or carried forward against any other type of income.

Withdrawals and other transfers of Notes may be treated as disposals triggering a capital gain and withholding tax unless certain specific (mainly information) requirements are met. In the case of a factual relocation (*Wegzug*) of an individual into EU/EEA member states having installed a comprehensive administrative and enforcement assistance mechanism with Austria (*Amts- und Vollstreckungshilfe*) and in the case of a gratuitous transfer to other individuals, who are resident in EU/EEA member states having installed a comprehensive administrative and enforcement assistance mechanism in Austria, the individual's tax liability may be deferred upon application within the individual's private assets until the factual disposal will take place. In any other cases resulting in a restriction of taxation rights by the Republic of Austria towards other EU/EEA member states having installed a comprehensive administrative and enforcement assistance mechanism with Austria, within the individual's private assets a deferred payment of taxes payable may be applied for relating to a deferral period of seven years.

Capital outflows amounting to minimum EUR 50,000 from accounts or securities accounts of individuals are additionally subject to comprehensive reporting requirements by Austrian credit institutions or Austrian branches of CRR credit institutions, of CRR financial institutions and of EU investment service providers, particularly relating to transfers of securities without consideration within Austria or relating to transfers of securities to non-Austrian securities accounts. For details please see below "Reporting requirements on capital outflows by Austrian credit institutions".

Austrian tax resident corporate investor

Income and capital gain derived from the Notes by an Austrian resident corporation (i.e., a corporation that has its seat or place of effective management in Austria) is subject to Austrian corporate income tax at a rate of 25%. Corporate Noteholders deriving business income from the Notes may avoid the application of Austrian withholding tax by filing a declaration of exemption (*Befreiungserklärung*). Where the 25% withholding tax is triggered, it is creditable against the Austrian corporate income tax liability of the corporate investor. However, this 25% withholding tax rate option is currently not offered by all Austrian securities account keeping agents or paying agents, so that corporate Noteholders will become forced to apply for refund of the difference between the corporate tax rate and Austrian withholding tax in their corporate tax return in certain cases. For corporate noteholders the set-off related restrictions described above do not apply. Losses from the sale of the notes may in principle be set off with any other income (and may further be carried forward in accordance with the general principles on carry forwards of losses). Special rules apply to certain entities subject to corporation tax, such as private foundations and public bodies.

Non-Austrian tax resident investor

Interest and capital gains received by a non-Austrian resident investor for tax purposes under the Notes are not subject to Austrian (corporate) income tax unless attributable to an Austrian located permanent establishment. An Austrian paying agent or depository may abstain from levying Austrian withholding tax if the non-resident Noteholders evidence their non resident-status *vis-à-vis* the paying agent in accordance with the provisions of the Austrian income tax guidelines which trigger the requirement of a written confirmation ("negative declaration of residence") in specified cases. The provision of evidence that the Noteholder is not subject to Austrian withholding tax is the responsibility of the Noteholder. If any Austrian withholding tax is deducted by the securities depository or paying agent from any non-taxable payment, the tax withheld shall be refunded to the non-resident Noteholder if the Noteholder has filed a prior electronic notification with the tax office of Bruck Oberwart upon elapse of the year of withholding tax deduction at the earliest. Only thereafter the Noteholder may file an application with the competent Austrian tax authority within five calendar years following the date of the imposition of the withholding tax. Applications for refund may only be filed after the end of the calendar year when the withholding was made and must include evidence of compliance with the prior electronic notification procedure and a certificate of residence by the tax authority of the Noteholder's country of residence.

Reporting requirements on capital outflows by Austrian credit institutions and domestic branches of CRR credit institutions, CRR financial institutions and EU investment service providers

Austrian financial institutions and Austrian locations of other entities, as referred to in the header, must report to the Austrian Federal Ministry of Finance any capital outflow amounting to minimum EUR 50,000.00 from current accounts, deposit accounts and securities accounts of individuals and non-trading (asset management) partnerships. The law entered into force retroactively on 1 March 2015 and its effectiveness is limited in time by 31 December 2022. Further, connected transactions relating to amounts between EUR 10,000 and EUR 49,999 must be reported, if in sum exceeding an amount of 130,000 EUR in one and the same quarter of

a calendar year. The term "capital outflows" covers account transfers, cash withdrawals and the transfer of securities by free delivery (donation) within Austria. Transfers to own (customers') accounts are exempted from the reporting requirement.

Reporting requirements under the Common Reporting Standard Act

Pursuant to Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information on financial accounts (i.e. deposit and savings accounts, current accounts, including securities accounts and certain other accounts including redeemable insurance contracts and annuities contracts for pension schemes) in the field of taxation, which was transposed into Austrian law by the Common Reporting Standard Act (GMSG), Austrian financial institutions are required to notify the tax office competent for collecting corporate income tax from the financial institution in addition to individual-related and account-related data of interest, dividends and other income from assets linked to an account as well as account balances and income from realized increases in value from financial assets from 30 June 2017 for new accounts opened on or after 1 October 2016, from 31 December 2017 for high value accounts that already existed on 30 September 2016 and from 31 December 2018 for low value accounts that already existed on 30 September 2016. This reporting requirement resulted in an inter-authority exchange of information between Austrian and foreign tax authorities of member states participating in the OECD Global Standard for Automatic Exchange of Financial Account Information in Tax Matters (AEOI) relating to new accounts opened on or after 1 October 2016, starting with 30 September 2017. It has further resulted in a regular inter-authority exchange of information between Austria and foreign tax authorities of member states participating in the OECD Global Standard for AEOI starting with 30 September 2018. The list of states participating in the AEOI will annually be updated by regulation issued by the Austrian Ministry of Finance (the current status is reflected in the Austrian Legal Gazette II 2019/120 dated 14 May 2019). It is recommended that investors obtain information or seek advice on further developments.

Peculiarities of the U.S. FATCA's implementation in Austrian law

Austria and the U.S. have entered into an intergovernmental agreement on 29th April 2014 reflecting the FATCA model agreement type 2; however, it is envisaged to replace such model agreement type by an intergovernmental agreement of model type 1. Deviating from what is included in model type 1, Austrian financial institutions involved in payments on the Notes must under intergovernmental agreements of model type 2 individually enter into agreements with the IRS and report directly to the IRS to avoid the requirement to deduct amounts on the payments, unless such foreign financial institutions qualify as registered financial institutions with a local client base, local banks, financial institutions with only low value accounts, financial institutions regulated under specific Austrian laws, specified investment entities or investment vehicles as well as Austrian investment advisers and investment managers. If on a date which is two years after the date of publication in the Federal Register of final regulations of the IRS and of Treasury defining the term "foreign pass-thru payments" an Austrian financial institution that has not been qualified as deemed compliant under the intergovernmental agreement has not entered into an agreement with the IRS or does not report directly to the IRS, the requirement to deduct the amount referred above will also be triggered upon such non-participating Austrian financial institution becoming a payee of such payments.

If on a date which is two years after the date of publication in the Federal Register of final regulations of the IRS and of Treasury defining the term "foreign pass-thru payments" any Noteholder (including Austrian intermediaries) does not provide the Issuer, any agent of the Issuer or any other intermediary (including those located in Austria) with correct, complete and true information required to effect full FATCA compliance for the Issuer and any intermediary, the Issuer will become authorized to withhold amounts that would otherwise have to be paid out to the Noteholder. Neither the Issuer nor the paying agent nor any other person will become required to pay additional amounts to the Noteholder due to the withholding or deduction of such tax, if such amount has to be deducted or withheld arising out of such U.S. withholding or deduction tax. Hence, the noteholder and recipient of a payment who has not duly been disclosed and evidenced bears the risk of a tax deduction. Further, such noteholders may be classified as non-consenting noteholders, which initially may lead to anonymized reporting and subsequently to a disclosure following a group query by the IRS.

Luxembourg

The comments below do not relate to any form of Luxembourg taxation other than taxation withheld at source with respect to the Notes. Investors who are in doubt as to their position are advised to consult their own professional advisers.

Withholding tax

Under Luxembourg tax law currently in effect and subject to the exception below, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest) or repayments of principal.

In accordance with the law of 23 December 2005, as amended, interest payments made by Luxembourg paying agents to Luxembourg resident individual beneficial owners are currently subject to a 20% withholding tax. Responsibility for withholding such tax will be assumed by the Luxembourg paying agent.

U.S. Foreign Account Tax Compliance Withholding

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions (including Germany) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply before the date that is two years after the date of publication in the Federal Register of final regulations defining the term "*foreign passthru payment*". To date such final regulations have not yet been published. Noteholders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, the Issuer will not pay any additional amounts as a result of the withholding.

SUBSCRIPTION AND SALE

Summary of Dealer Agreement

Subject to the terms and conditions contained in an amended and restated Dealer Agreement relating to the Programme dated 7 June 2019 (the "**Dealer Agreement**") between the Issuer, the Arranger and the Dealers, the Notes will be offered by the Issuer to the relevant Dealer(s). The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Dealer Agreement also provides for Notes to be issued in syndicated Tranches that are severally but not jointly underwritten by two or more Dealers.

The Issuer will pay each relevant Dealer a commission as agreed between them in respect of Notes subscribed by it. The Issuer has agreed to reimburse the Arranger for certain of its expenses incurred in connection with the establishment of the Programme and for certain of its activities in connection with the Programme. The commissions in respect of an issue of Notes on a syndicated basis will be stated in the relevant Final Terms.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the Issuer.

Selling Restrictions

General

These selling restrictions may be modified by the agreement of the Issuer and the Dealers following a change in a relevant law, regulation or directive. Any such modification will be set out in the Final Terms issued in respect of the issue of Notes to which it relates or in a supplement to this Base Prospectus.

No action has been taken in any jurisdiction that would permit a public offering of any of the Notes, or possession or distribution of the Base Prospectus or any other offering material or any Final Terms, in any country or jurisdiction where action for that purpose is required.

Each Dealer appointed will be required to represent, warrant and agree that it will, to the best of its knowledge, comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms in all cases at its own expense, and neither the Issuer, nor any other Dealer shall have responsibility therefore.

United States

The Notes have not been and will not be registered under the Securities Act and the Notes are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes may not be offered, sold or delivered within the United States or to U.S. persons. Each Manager has agreed that it will not offer, sell or deliver any Notes within the United States or to U.S. persons, except as permitted by the Subscription Agreement.

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

European Economic Area

Unless the relevant Final Terms in respect of any Notes specify "*Prohibition of Sales to European Economic Area Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (a) the expression retail investor means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU of the European Parliament and of the Council of May 15, 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (MiFiD II); or
 - (ii) a customer within the meaning of Directive 2016/97/EU of the European Parliament and of the Council of January 20, 2016 on insurance distribution, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFiD II; or
 - (iii) not a qualified investor as defined in the Prospectus Directive; and
- (b) the expression offer includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the relevant Final Terms in respect of any Notes specify "*Prohibition of Sales to European Economic Area Retail Investors*" as "*Not Applicable*", in relation to each Member State of the EEA which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (i) if the Final Terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State ("**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (ii) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (iii) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (iv) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (ii) to (iv) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression "**Prospectus Directive**" means Directive 2003/71/EC as amended or superseded and includes any relevant implementing measure in each Relevant Member State.

United Kingdom

Each Dealer appointed will be required to represent, warrant and agree that:

1. in relation to any Notes which have a maturity of less than one year, (a) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (b) it has not offered or sold and will not offer or sell any Notes

other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of section 19 of the Financial Services and Markets Act 2000 (the "FSMA") by the Issuer,

2. it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the Issuer, and
3. it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to such Notes in, from or otherwise involving the United Kingdom.

The Netherlands

Pursuant to the Netherlands Savings Certificates Act (*Wet inzake spaarbewijzen*; the "**Savings Certificates Act**") of 21 May 1985, any direct or indirect transfer or acceptance of Notes which falls within the definition of savings certificates (*spaarbewijzen*) in the Savings Certificates Act within, from or into the Netherlands is prohibited unless the transfer and acceptance is done through the mediation of either the Issuer or a member of Euronext Amsterdam N.V. with due observance of the provisions of the Savings Certificates Act and its implementing regulations (which include registration requirements). The aforesaid prohibition does not apply to (i) a transfer and acceptance by natural persons not acting in the course of their business of profession, (ii) the issue of such Notes to the first holders thereof and (iii) the issue and trading of such Notes if they are physically issued outside the Netherlands and are not distributed in the Netherlands in the course of primary trading or immediately thereafter.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not make an offer of Notes which are outside the scope of the approval of this Base Prospectus, as completed by the Final Terms relating thereto, to the public in the Netherlands in reliance on Article 3(2) of the Prospectus Directive (as defined above under "*European Economic Area*") unless (i) such offer is made exclusively to persons or entities which are qualified investors as defined in the Dutch Financial Supervision Act or (ii) standard exemption wording and a logo are disclosed as required by Section 5:20(5) of the Dutch Financial Supervision Act, provided that no such offer of Notes shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA").
