MiFID II PRODUCT GOVERNANCE – Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Instruments has led to the conclusion that: (i) the target market for the Instruments is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); and (ii) all channels for distribution of the Instruments to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Instruments (a "**distributor**") should take into consideration the manufacturers' target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Instruments (by either adopting or refining the manufacturers' target

market assessment) and determining appropriate distribution channels.

EUROFIMA does not fall under the scope of application of MiFID II. Consequently, EUROFIMA does not qualify as an "investment firm", "manufacturer" or "distributor" for the purposes of MiFID II.

Series No. 200

Tranche No. 7

Dated: 12 June 2020

EUROFIMA
European Company for the Financing of Railroad Rolling Stock

ANNEX

INSTRUMENTS BEING ISSUED AS GREEN BONDS

Use of Proceeds

The proceeds or an amount equal to the proceeds of the Instruments are to be used for financing selected loans to projects which are considered to enhance the environment and to have social or sustainability impact in EUROFIMA's member countries or in EU countries.

EUROFIMA has established a framework (the "**EUROFIMA Green Bond Framework**") that allows for funds raised through issuances of Green Bonds to be directed to its environmental lending projects and assets which qualify as eligible under the framework if they satisfy strict internal environmental sustainability criteria and are aimed at (but not limited to) reducing emissions to air by promoting energy efficiency, renewable energy, public transport solutions and recycling. Payment of principal of and interest on the Instruments is made solely on the credit standing of EUROFIMA as a single institution and is not directly linked to the performance of environmental lending projects.

Further Information

Information about EUROFIMA's Green Bonds and loans disbursed under the EUROFIMA Green Bond Framework including a list of projects supported will be found on EUROFIMA's webpage. The information is subject to continuous update.

https://www.eurofima.org/sites/default/assets/File/investor-relations/green-bonds/EUROFIMA%20-%20Green%20Bond%20Framework_final.pdf (reference to this website is made as an inactive textual reference for informational purposes only; information found at this website is not incorporated by reference in this document).

Considerations for investors seeking exposure to green assets

Neither EUROFIMA nor the Joint Lead Managers make any representation: (i) as to the suitability of the Green Bonds to fulfil environmental, social and sustainability criteria required by prospective investors; (ii) whether the net proceeds will be used for Green Bonds; or (iii) the characteristics of the Green Bonds, including their environmental, social and sustainability criteria. Each potential purchaser of the Instruments should determine for itself the relevance of the information contained or referred to in this Pricing Supplement regarding the use of proceeds and its purchase of Instruments should be based upon such investigation as it deems necessary.

EUROFIMA has agreed and committed itself in the EUROFIMA Green Bond Framework to certain management of proceeds and reporting obligations. However, it will not be an event of default under the terms and conditions of any Green Bonds if it fails to comply with such obligations. Each environmentally, social or sustainability focused potential purchaser of the Instruments should be aware that eligible projects may not deliver the environmental, social or sustainability benefits anticipated.
