Subject as provided in the Underlying Schedules applicable to the relevant Underlying(s), any Specified Valuation Date(s) specified in the applicable Issue Terms shall be adjusted in accordance with the following provisions:

- (i) The following sub-paragraph shall apply to Securities linked to one Underlying.

If a Specified Valuation Date is not a Scheduled Trading Day for the Underlying, then the Valuation Date shall be the first succeeding day immediately following such Specified Valuation Date which is a Scheduled Trading Day for the Underlying, unless in the opinion of the Calculation Agent such day is a Disrupted Day for the Underlying, in which case Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) below or Valuation and Settlement Condition 2(f) (*Adjustment to Valuation Dates (Disrupted Days and Underlying Levels)*) below (as applicable) or, as the case may be, the provisions relating to adjustment to Valuation Dates for Disrupted Days set out in the Underlying Schedules applicable to the relevant Underlying(s), shall apply.

(d) *Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*

Subject as provided in the Underlying Schedules applicable to the relevant Underlying(s), any Specified Valuation Date(s) (if applicable, as adjusted in accordance with the provisions of Condition 2(c) above and/or, as the case may be, the provisions of the Underlying Schedules applicable to the relevant Underlying(s)) shall be adjusted in accordance with the following provisions:

- (i) The following sub-paragraph shall apply to Securities linked to one Underlying, subject as provided in Valuation and Settlement Condition 2(d)(iv) below.

If such Specified Valuation Date for such Underlying is a Disrupted Day for such Underlying, then the Valuation Date shall be the earlier of: (I) the first succeeding day immediately following such Specified Valuation Date which is a Scheduled Trading Day and which is not a Disrupted Day for the Underlying; and (II) the Scheduled Trading Day which is the Valuation Roll number of Scheduled Trading Days immediately following such Specified Valuation Date.

If such Specified Valuation Date is a Disrupted Day for any Underlying, then such Valuation Date shall be the earlier of: (I) the first succeeding day immediately following such Specified Valuation Date which is a Scheduled Trading Day for all the Underlyings and which is not a Disrupted Day for all of the Underlyings; and (II) the Scheduled Trading Day for all the Underlyings which is the Valuation Roll number of Scheduled Trading Days for all the Underlyings immediately following such Specified Valuation Date.

- (iii) The following sub-paragraph shall apply to Securities linked to more than one Underlying if "Value What You Can" is specified in the applicable Issue Terms, subject as provided in Valuation and Settlement Condition 2(d)(iv) below.

If such Specified Valuation Date is a Disrupted Day for any Underlying, then:

- (A) if such Specified Valuation Date is not a Disrupted Day for an Underlying, then the Valuation Date for such Underlying shall be such Specified Valuation Date; and
- (B) if such Specified Valuation Date is a Disrupted Day for an Underlying, then the Valuation Date for such Underlying shall be the earlier of: (1) the first succeeding day immediately following such Specified Valuation Date which is a

Scheduled Trading Day for such Underlying and which is not a Disrupted Day for such Underlying; and (2) the Scheduled Trading Day which is the Valuation Roll number of Scheduled Trading Days for such Underlying immediately following such Specified Valuation Date.

- (iv) If the Valuation Date for any Underlying determined as provided above would otherwise fall on a day falling after the second Scheduled Trading Day (the **Cut-off Valuation Date**) for such Underlying prior to the date on which a relevant payment or delivery, as applicable, is scheduled to be made under the Securities, such Valuation Date shall be deemed to be the Cut-off Valuation Date (notwithstanding that such date is a Disrupted Day for such Underlying) and the provisions of Valuation and Settlement Condition 2(e)(ii) below shall apply in respect thereof.
- (e) *Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*
  - (i) If the Valuation Date for any Underlying (as determined in accordance with Condition 2(d) above) is a Disrupted Day for such Underlying, then (unless otherwise specified in the Underlying Schedule applicable to such Underlying) the Calculation Agent shall determine the Underlying Closing Level of such Underlying on such Valuation Date using its good faith estimate of the Underlying Closing Level of such Underlying at the Valuation Time (where relevant) on or for such day.
  - (ii) If the Valuation Date for any Underlying (as determined in accordance with Condition 2(d)(iv) above) is determined to occur on the Cut-off Valuation Date for such Underlying, then (unless otherwise specified in the Underlying Schedule applicable to such Underlying) the Calculation Agent shall determine the Underlying Closing Level of such Underlying on such Cut-off Valuation Date using its good faith estimate of the Underlying Closing Level of such Underlying at the Valuation Time (where relevant) on or for such day.
- (f) *Adjustment to Valuation Dates (Disrupted Days and Underlying Levels)*

If the Calculation Agent determines that the Underlying Level of an Underlying cannot be determined at any time on any Valuation Date by reason of the occurrence of an event giving rise to a Disrupted Day, then the Underlying Level at such time on such day shall be disregarded for the purposes of determining any amounts payable and/or deliverable in respect of the Securities.
- (g) *Adjustment Events*

If in the determination of the Calculation Agent any Adjustment Event occurs, then (subject to the provisions of the Underlying Schedule applicable to such Underlying) the Calculation Agent shall (i) make such adjustment to the terms of the Securities as the Calculation Agent determines necessary or appropriate to account for the effect of such Adjustment Event subject to the provisions (if any) of such Underlying Schedule and (ii) determine the effective date of each such adjustment.

Any adjustment pursuant to the above may include a "monetisation" of the Securities. Where the Securities are monetised, (i) the Calculation Agent will determine the value in the Specified Currency (the **Monetised Amount**) of the bond component and the embedded derivative(s) comprising the Securities on a date selected by the Calculation Agent (the **Monetisation Valuation Date**), (ii) any future amounts in respect of interest (if any) and the Final Redemption Amount will no longer be payable and (iii) the Securities will instead pay on the Maturity Date an amount equal to (a) the Monetised Amount plus (b) interest accrued on such amount at the overnight rate relating to the Specified Currency (being, in the case of Dual Currency Securities, the Denomination Currency) selected by the Calculation Agent which shall accrue during the period from (and including) the Monetisation Valuation Date to (but excluding) the Maturity Date.

If an "Increased Cost of Hedging" is specified to apply in the applicable Issue Terms and occurs, the Calculation Agent may make such adjustment to the terms of the Securities as it determines necessary or appropriate to pass onto Securityholders the relevant increased cost of hedging, which adjustment may include, but is not limited to, reducing any of the amounts which would otherwise be payable under the Securities or reducing the number of any Relevant Assets which would otherwise be deliverable under the Securities. For the avoidance of doubt, Increased Cost of Hedging does not apply to Italian Listed Certificates.

If so specified in the relevant Underlying Schedule, any adjustment(s) made by the Calculation Agent in response to an Adjustment Event may include a substitution of the relevant Underlying or other asset as specified in the Underlying Schedule applicable to the relevant Underlying and the Calculation Agent may make such other adjustments to the terms of the Securities as it deems necessary or appropriate in relation to such substitution.

(h) *Early Redemption Events*

If, in the determination of the Calculation Agent, any Early Redemption Event occurs in respect of an Underlying or the Securities (as relevant), then (subject to the provisions of the Underlying Schedule applicable to such Underlying) all (but not some only) of the Securities will or, in the case of a Hedging Disruption Early Termination Event, may be redeemed on a day selected by the Issuer, each Security being redeemed by payment of an amount equal to the Early Redemption Amount.

(i) *Mandatory Early Redemption Barrier Events and Mandatory Early Redemption Events*

If "Mandatory Early Redemption Barrier Event" is specified as applicable in the applicable Issue Terms and a Mandatory Early Redemption Barrier Event (as specified in the applicable Issue Terms) occurs, then all (but not some only) of the Securities will be redeemed, each Security being redeemed by payment of an amount determined in accordance with Condition 1 above and the applicable Issue Terms on the relevant Mandatory Early Redemption Date.

In the case of Exempt Securities only, if "Mandatory Early Redemption Event" is specified as applicable in the applicable Pricing Supplement and a Mandatory Early Redemption Event (as specified in the applicable Pricing Supplement) occurs, then all (but not some only) of the Securities will be redeemed, each Security being redeemed by payment of an amount equal to the relevant Mandatory Early Redemption Amount specified in the applicable Pricing Supplement on the relevant Mandatory Early Redemption Date. Any Mandatory Early Redemption Amount(s) and Mandatory Early Redemption Date(s) shall be as specified in the applicable Pricing Supplement.

(j) *Realisation Disruption*

If "Realisation Disruption" is specified as applicable in the applicable Issue Terms and a Realisation Disruption Event occurs, then the Issuer may either (i) direct the Calculation Agent to make such consequential adjustments to any of the terms of the Securities (including any payment or delivery obligations) as it determines appropriate in order to reflect the economic effect of the particular Realisation Disruption Event or (ii) redeem all (but not some only) of the Securities on a day selected by the Issuer, each Security being redeemed by payment of an amount equal to the Early Redemption Amount.

Any such adjustments by the Calculation Agent may include (but are not limited to) (I) payments under the Securities being made in the currency (the **Local Currency**) in which the Hedging Positions are denominated or payable rather than the Specified Currency, (II) except in the case of Italian Listed Certificates, deduction of an amount equal to the applicable tax, charge or deduction from the relevant payment otherwise due under the relevant Securities or delivery of any Entitlement being subject to payment by the relevant Securityholder of an amount equal to a pro rata portion of any such tax, charge or deduction, (III) non-payment of the relevant payment or non-delivery of the relevant Entitlement otherwise due under the relevant Securities until the relevant restrictions (including but not limited to all exchange and/or conversion and/or cross-border transfer restrictions) are lifted and/or (IV) determination of any relevant exchange rate by the Calculation Agent taking into

consideration all available information that it deems relevant and/or (V) (where legally permissible) in lieu of paying any cash amounts in respect of the Securities, procuring physical delivery of any Underlying(s), delivered in such manner as shall be notified to the Securityholders by the Issuer (or vice versa) PROVIDED THAT such Underlying(s) may be subject to transfer restrictions and additional certifications may be required from the Securityholders. Any such adjustments will be effective as of the date determined by the Calculation Agent.

(k) *Occurrence of an Underlying RMB Currency Event*

If "Underlying RMB Currency Event" is specified as applicable in the relevant Issue Terms and an Underlying RMB Currency Event occurs, then the Calculation Agent may direct the Issuer to:

- (i) postpone the Issuer's obligation to make a payment in RMB under the terms of the Securities to the 10th Business Day following the date on which the Underlying RMB Currency Event, as determined by the Issuer, ceases to exist (such date of payment by the Issuer, the **RMB Currency Settlement Cut-Off Date**); or
- (ii) pay any amount that is due to be paid in RMB under the terms of the Securities in the RMB Relevant Currency instead converted using the RMB Spot Rate for the relevant RMB Determination Date.

Alternatively, the Issuer may redeem all (but not some only) of the Securities on a day selected by the Issuer, each Security being redeemed by payment of an amount equal to its Early Redemption Amount and the Issuer shall notify the Securityholders thereof as soon as reasonably practicable in accordance with General Condition 15 (*Notices*).

(l) *Correction of published or announced prices or levels*

In the event that any level, price, rate or value (as applicable) of an Underlying for any time on any day which is published or announced by or on behalf of the person or entity responsible for such publication or announcement and which is used for any calculation or determination made in respect of the Securities is subsequently corrected, and the correction (the **Corrected Level**) is published by or on behalf of such person or entity within the relevant Correction Period after the original publication (and at least two Business Days prior to the relevant date on which a payment or delivery is scheduled to be made under the Securities) (the **Relevant Scheduled Payment Date**), then such Corrected Level shall be deemed to be the level, price, rate or value for the relevant Underlying for the relevant time on the relevant day and the Calculation Agent shall use such Corrected Level in determining any amounts payable and/or deliverable in respect of the Securities.

Corrections published after the day which is two Business Days prior to the Relevant Scheduled Payment Date shall be disregarded by the Calculation Agent for the purposes of determining any such amounts payable and/or deliverable under the Securities.

(m) *Notifications*

The Calculation Agent shall notify the Issuer and each Paying Agent of any determination made by it in accordance with this Condition and the action that it proposes to take in respect of any such determination. The Issuer shall notify the Securityholders thereof as soon as reasonably practicable thereafter in accordance with General Condition 15. Failure by the Calculation Agent to notify the Issuer or any Paying Agent or failure by the Issuer to notify the Securityholders of any such determination will not affect the validity of any such determination.

- (i) the Calculation Agent or, where a separate Determination Agent is appointed in respect of the Securities, the Determination Agent (the relevant such agent the **Relevant Agent**) may make such adjustment(s) to the terms of the Securities as the Relevant Agent determines necessary or appropriate to account for the effect of the relevant event or circumstance and, without limitation, such adjustments may (a) consist of one or more amendments and/or be made on one or more dates (b) be determined by reference to any adjustment(s) in respect of the relevant event or circumstance made in relation to any hedging arrangements in respect of the Securities and (c) include selecting a successor benchmark(s) and making related adjustments to the terms of the Securities, including where applicable to reflect any increased costs of the Issuer providing exposure to the successor benchmark(s), and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks; or
- (ii) the Issuer may (if so specified in the applicable Issue Terms and at its option) redeem the Securities on a day selected by the Issuer, in which case each Security shall be redeemed by payment of an amount equal to the Early Redemption Amount and the Issuer shall notify the Securityholders thereof as soon as reasonably practicable in accordance with General Condition 15 (*Notices*).

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Securities. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in its sole and absolute discretion.

For the purposes of the above:

**"Administrator/Benchmark Event"** means the Relevant Agent determines that (1) a Benchmark Modification or Cessation Event has occurred or will occur, or (2) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of a relevant Benchmark or the administrator or sponsor of a relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that the Issuer or the Relevant Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Benchmark to perform its or their respective obligations under the Securities, or (3) save where the relevant Issue Terms specify that "Administrator/Benchmark Event (Limb (3))" is not applicable, it is not commercially reasonable to continue the use of Benchmark in connection with the Securities as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where

#### 4. **Fixed Rate, Floating Rate, CMS Rate and Spread Rate Interest Amounts and Range Accrual (Expanded) Provisions**

##### 4.1 **Interest on Fixed Rate Securities**

- (a) If the Securities are expressed to be Fixed Rate Securities in the applicable Issue Terms and Accrual is specified as "Not Applicable" in the Issue Terms, where interest is due in accordance with this Valuation and Settlement Schedule and the applicable Issue Terms, then the Issuer will pay the Interest Amount specified for the relevant Interest Payment Date in the Specified Currency. For which purpose, the **Interest Amount** will be the amount specified in the applicable Issue Terms or, where more than one amount is so specified, the amount specified in respect of the relevant Interest Payment Date.
- (b) If the Securities are Notes and are expressed to be Fixed Rate Securities in the applicable Issue Terms and Accrual is specified to be "Applicable" in the Issue Terms, then each such Fixed Rate Security bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Interest Rate(s). Interest will be payable in arrears on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

The amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Date falling on or about such date will amount to the Interest Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Issue Terms, amount to the Broken Amount so specified.

Except where an applicable Interest Amount or Broken Amount is specified in the applicable Issue Terms in respect of an Interest Payment Date and the related Interest Period, interest shall be calculated in respect of any period by applying the relevant Interest Rate to:

- (i) in the case of Fixed Rate Securities which are represented by a Global Registered Security Certificate, the aggregate outstanding principal amount or number of the Fixed Rate Securities represented by such Global Registered Security Certificate; or
- (ii) in the case of Fixed Rate Securities in definitive form, the Calculation Amount,

and, in each case, (I) multiplying such amount by the applicable Day Count Fraction, and (II) where Valuation and Settlement Condition 4.5 (*Range Accrual (Expanded) Securities*) applies, multiplying the product calculated in (I) by the Accrual Interest Rate, and rounding the resultant figure to the nearest sub-unit of the relevant Specified

Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Security is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Fixed Rate Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

- (c) If the Securities are Certificates and are expressed to be Fixed Rate Securities in the applicable Issue Terms and Accrual is specified to be "Applicable" in the Issue Terms, then each such Fixed Rate Security bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Interest Rate(s). Interest will be payable in arrears on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

The amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Date falling on or about such date will amount to the Interest Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Issue Terms, amount to the Broken Amount so specified.

Except where an applicable Interest Amount or Broken Amount is specified in the applicable Issue Terms in respect of an Interest Payment Date and the related Interest Period, interest shall be calculated in respect of any period by multiplying the relevant Interest Rate by:

- (i) in the case of Fixed Rate Securities which are represented by a Global Registered Security Certificate, the aggregate of the Calculation Amounts in respect of the total number of Securities represented by such Global Registered Security Certificate; or
- (ii) in the case of Fixed Rate Securities in definitive form, the Calculation Amount,

and, in each case, (I) multiplying such amount by the applicable Day Count Fraction, and (II) where Valuation and Settlement Condition 4.5 (*Range Accrual (Expanded) Securities*) applies, multiplying the product calculated in (I) by the Accrual Interest Rate, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

#### 4.2 Interest on Floating Rate Securities

Each Floating Rate Security which is a Note bears interest from (and including) the Interest Commencement Date and, where interest is due in accordance with this Valuation and Settlement Schedule and the applicable Issue Terms, such interest will be payable in arrears on the Interest Payment Date(s) in each year specified in the applicable Issue Terms. Such interest will be payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Date falling on or about such Interest Payment Date

In respect of each Floating Rate Security which is a Certificate, interest shall be calculated in accordance with this Valuation and Settlement Schedule and the applicable Issue Terms and payable on the Interest Payment Date(s) falling on or around the the end of the relevant Interest Period in each year specified in the applicable Issue Terms (or as otherwise specified in the applicable Issue Terms).

- (a) *Screen Rate Determination*

Where Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Interest Rate is to be determined, the Interest Rate for each Interest Period will, subject as provided below, be either:

- (i) the offered quotation; or
- (ii) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Page as at the Specified Time on the Interest Determination Date in question plus or minus (as indicated in the applicable Issue Terms) the Margin (if any), and multiplied by the relevant Interest Participation Rate (if any), all as determined by the Calculation Agent or Determination Agent, as applicable. If five or more of such offered quotations are available on the Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent or Determination Agent, as applicable, for the purpose of determining the arithmetic mean (rounded as provided below) of such offered quotations.

If the Page is not available or if, in the case of (1), no offered quotation appears or, in the case of (2), fewer than three offered quotations appear, in each case, as at the Specified Time or by 10.30 a.m. Sydney time in the case of BBSW, the Calculation Agent or Determination Agent, as applicable, shall request each of the Reference Banks to provide the Calculation Agent or Determination Agent, as applicable, with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent or Determination Agent, as applicable, with offered quotations, the Interest Rate for the Interest Period shall be the arithmetic mean of the offered quotations plus or minus (as appropriate) the Margin (if any), and multiplied by the Interest Participation Rate (if any), all as determined by the Calculation Agent or Determination Agent, as applicable.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent or Determination Agent, as applicable, with an offered quotation as provided in the preceding paragraph, the Interest Rate for the relevant Interest Period shall be the rate per annum which the Calculation Agent or Determination Agent, as applicable, determines as being the arithmetic mean of the rates, as communicated to (and at the request of) the Calculation Agent or Determination Agent, as applicable, by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the relevant Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the London inter-bank market (if the Reference Rate is LIBOR), the Euro-zone interbank market (if the Reference Rate is EURIBOR), the Stockholm inter-bank market (if the Reference Rate is STIBOR), the Oslo inter-bank market (if the Reference Rate is NIBOR), the Copenhagen inter-bank market (if the Reference Rate is CIBOR), the Tokyo inter-bank market (if the Reference Rate is TIBOR), the Hong Kong inter-bank market (if the Reference Rate is HIBOR), the Sydney inter-bank market (if the Reference Rate is BBSW) or the New Zealand inter-bank market (if the Reference Rate is BKBM) or, in respect of any other Reference Rate, the Relevant Interbank Market for such Reference Rate in each case, plus or minus (as appropriate) the Margin (if any) and multiplied by the Interest Participation Rate (if any), or, if fewer than two of the Reference Banks provide the Calculation Agent or Determination Agent, as applicable, with such offered rates, the offered rate for deposits in the relevant Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates (rounded as provided below) for deposits in the relevant Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Calculation Agent or Determination Agent, as applicable, it is quoting to leading banks in the London interbank market (if the Reference Rate is LIBOR), the Euro-zone interbank market (if the Reference Rate is EURIBOR), the Stockholm inter-bank market (if the Reference Rate is STIBOR), the Oslo inter-bank market (if the Reference Rate is NIBOR), the

Copenhagen inter-bank market (if the Reference Rate is CIBOR), the Tokyo inter-bank market (if the Reference Rate is TIBOR), the Hong Kong inter-bank market (if the Reference Rate is HIBOR), the Sydney inter-bank market (if the Reference Rate is BBSW) or the New Zealand inter-bank market (if the Reference Rate is BKBM) in each case, plus or minus (as appropriate) the Margin (if any) and multiplied by the Interest Participation Rate (if any), PROVIDED THAT, if the Interest Rate cannot be determined in accordance with the foregoing provisions of this paragraph, the Interest Rate shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin and/or Interest Participation Rate is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Interest Participation Rate, as the case may be, relating to the relevant Interest Period in place of the Margin or Interest Participation Rate, as the case may be, relating to that last preceding Interest Period).

If the Screen Rate is determined by the Determination Agent as provided above, the Determination Agent shall notify the Calculation Agent and the Issuer of any such Screen Rate so determined as soon as reasonably practicable but, in any event, prior to the date on which any relevant Interest Rate is to be determined.

If the Reference Rate from time to time in respect of Floating Rate Securities is specified in the applicable Issue Terms as being other than LIBOR, EURIBOR, STIBOR, NIBOR, CIBOR, TIBOR, HIBOR, BBSW or BKBM, the Rate of Interest in respect of such Securities will be determined as provided above, unless otherwise specified in the applicable Pricing Supplement.

The Calculation Agent and Determination Agent shall not be responsible to the Issuer, the CGMHI Guarantor or the CGMFL Guarantor or to any third party as a result of the Calculation Agent or Determination Agent, as applicable, having acted on any quotation given by any Reference Bank.

**Determination Agent** means the Calculation Agent or such other entity appointed by the Issuer and specified as such in the applicable Issue Terms.

(b) *ISDA Determination*

Where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Interest Rate is to be determined, the Interest Rate for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Issue Terms) the Margin (if any) and multiplied by the Interest Participation Rate (if any). For the purposes of this sub-paragraph, ISDA Rate for an Interest Period means the rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as calculation agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Securities (the **ISDA Definitions**) and under which:

- (i) the Floating Rate Option is as specified in the applicable Issue Terms;
- (ii) the Designated Maturity is a period specified in the applicable Issue Terms; and
- (iii) the relevant Reset Date is as specified in the applicable Issue Terms.

For the purposes of this sub-paragraph, Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity and Reset Date have the meanings given to those terms in the ISDA Definitions.

(c) *Maximum/Minimum Interest Rates*

Subject as provided below, if any Maximum Interest Rate or Minimum Interest Rate is specified in the applicable Issue Terms, then any Interest Rate shall be subject to such maximum or minimum, as the case may be, and where more than one Maximum

Interest Rate and/or Minimum Interest Rate is so specified, the maximum or minimum, as the case may be, shall be that which is specified in respect of the relevant Interest Payment Date in the applicable Issue Terms.

Unless otherwise stated in the applicable Issue Terms, the Minimum Interest Rate shall be deemed to be zero.

(d) *Calculations - Notes*

In the case where the Securities are Notes, the Calculation Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Securities for the relevant Interest Period by applying the relevant Interest Rate to:

- (i) in the case of Floating Rate Securities which are represented by a Global Registered Security Certificate, the aggregate outstanding principal amount of the Securities represented by such Global Registered Security Certificate; or
- (ii) in the case of Floating Rate Securities in definitive form, the Calculation Amount,

and, in each case, (i) multiplying such amount by the applicable Day Count Fraction, and (ii) where Valuation and Settlement Condition 4.5 (*Range Accrual (Expanded) Securities*) applies, multiplying the product calculated in (i) by the Accrual Interest Rate, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Floating Rate Security is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Option, Designated Maturity and Reset Date have the meanings given to those terms in the ISDA Definitions.

(e) *Calculations - Certificates*

In the case where the Securities are Certificates, the Calculation Agent will calculate the amount of coupon (the **Coupon Amount**) payable on the Floating Rate Securities for the relevant Coupon Period by multiplying the relevant Coupon Rate by:

- (i) in the case of Floating Rate Securities which are represented by a Global Registered Security Certificate, the aggregate of the Calculation Amounts in respect of the total number of the Securities represented by such Global Registered Security Certificate; or
- (ii) in the case of Floating Rate Securities in definitive form, the Calculation Amount,

and, in each case, (i) multiplying such amount by the applicable Day Count Fraction, and (ii) where Valuation and Settlement Condition 4.5 (*Range Accrual (Expanded) Securities*) applies, multiplying the product calculated in (i) by the Accrual Interest Rate, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

(f) *Determination and Publication of Interest Rates and Interest Amounts*

As soon as practicable after each Interest Determination Date the Calculation Agent will determine the Interest Rate and calculate the Interest Amounts in respect of each Specified Denomination for the relevant Interest Period. The Interest Amounts and the

Interest Rate so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Securities become due and payable under General Condition 11, the interest (if any) and the Interest Rate payable in respect of the Securities shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Interest Rate or the Interest Amount so calculated need be made.

(g) *Notification of Interest Rate and Interest Amounts*

The Calculation Agent will cause the Interest Rate and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Fiscal Agent and any stock exchange on which the relevant Floating Rate Securities are for the time being listed and notice thereof to be published in accordance with General Condition 15 (*Notices*) as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. For the purposes of this paragraph, the expression **London Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(h) *Linear Interpolation*

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Issue Terms, the Interest Rate for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Issue Terms or in the case of CMS Rate Securities) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Issue Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period **PROVIDED HOWEVER THAT** if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

(i) *Substitute or Successor Rates*

Notwithstanding anything to the contrary in the Conditions but (if specified to be applicable in the relevant Issue Terms) subject to the USD LIBOR Fallbacks Schedule, if, on or prior to the date on which any Interest Rate is to be determined in respect of the Securities, the Calculation Agent or Determination Agent, as applicable, determines that one or more rates comprising such Interest Rate (each a **Disrupted Rate**) has been discontinued or is permanently no longer being published, the Calculation Agent or Determination Agent, as applicable, may determine the relevant Interest Rate by reference to (a) a substitute or successor rate that it has determined is the industry-accepted substitute or successor rate for the relevant Disrupted Rate or (b) if it determines there is no such industry-accepted substitute or successor rate, a substitute or successor rate that it determines is most comparable to the Disrupted Rate (in either case, the **Successor Rate**).

Upon selection of a Successor Rate, the Calculation Agent or Determination Agent, as applicable, may make such adjustments to the Conditions of the Securities as it determines necessary or appropriate to reflect any industry-accepted practices for the Successor Rate and the effective date of any such adjustment. For the avoidance of doubt, any such adjustments may include adjustments to any Day Count Fraction, any Business Day Convention, the definition of Business Day, any Interest Determination Date and any other relevant methodology or definition for calculating the relevant Interest Rate and may also include the application of any adjustment factor it determines is needed to make the Successor Rate comparable to the relevant Disrupted

Rate. Notice of the selection of any Successor Rate and any related adjustments to the Conditions shall be notified to the Issuer, the Fiscal Agent and any stock exchange on which the Securities are for the time being listed and notice thereof shall also be published in accordance with General Condition 15 (*Notices*).

Any determination made by the Calculation Agent or Determination Agent, as applicable, in accordance with this Valuation and Settlement Condition 4.2(i) shall be made in its sole and absolute discretion, after consulting any source it deems to be reasonable.

#### 4.3 **Interest on CMS Rate Securities**

##### (a) *Interest Amount*

Each CMS Rate Security bears interest from (and including) the Interest Commencement Date and at the CMS Interest Rate.

Such Interest Amount will be payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Date falling on or about such Interest Payment Date.

If an Interest Rate or a Reference Rate for any period or any relevant day (including any Interest Payment Date) is specified in any other Condition or in the applicable Issue Terms to be a "CMS Interest Rate", the relevant Interest Rate or Reference Rate will be determined in accordance with this Valuation and Settlement Condition 4.3.

A different CMS Interest Rate may apply in respect of different Interest Periods and/or Interest Payment Dates, as specified in the applicable Issue Terms.

##### (b) *Single CMS Interest Rate*

If the CMS Interest Rate is specified in the applicable Issue Terms to be "Single CMS Interest Rate", the CMS Interest Rate in respect of an Interest Period or any relevant day will be equal to the CMS Reference Rate, plus or minus (as specified in the applicable Issue Terms) the Margin (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate), and multiplied by the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate), all as determined by the Calculation Agent or Determination Agent, as applicable.

##### (c) *Worse of CMS Interest Rates*

If the CMS Interest Rate is specified in the applicable Issue Terms to be "Worse of CMS Interest Rates", the CMS Interest Rate in respect of an Interest Period or any relevant day will be equal to the lesser of: (1) CMS Reference Rate 1 plus or minus (as specified in the applicable Issue Terms) Margin 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), and multiplied by Interest Participation Rate 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), and (2) CMS Reference Rate 2, plus or minus (as specified in the applicable Issue Terms) Margin 2 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2), and multiplied by Interest Participation Rate 2 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2). Where (1) and (2) are the same value, then such value will be the relevant CMS Interest Rate.

##### (d) *CMS Spread Interest Rate*

If the CMS Interest Rate is specified in the applicable Issue Terms to be "CMS Spread Interest Rate", the CMS Interest Rate in respect of an Interest Period or any relevant day will be equal to the difference between (1) CMS Reference Rate 1, plus or minus (as specified in the applicable Issue Terms) Margin 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), and multiplied by Interest Participation Rate 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), minus (2) CMS Reference Rate 2, plus or minus (as specified in the applicable Issue Terms) Margin 2 (if

any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2), and multiplied by Interest Participation Rate 2 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2).

(e) *CMS Reference Rate Fallback Provisions*

In respect of a CMS Reference Rate and the Relevant Swap Rate (used to determine such CMS Reference Rate), if a Page for such Relevant Swap Rate is not available, the Calculation Agent or Determination Agent shall request each of the Reference Banks to provide the Calculation Agent or Determination Agent with its quotation for the Relevant Swap Rate (expressed as a percentage rate per annum) at approximately the Relevant Time on the Interest Determination Date in question. If at least three quotations are provided, the relevant CMS Reference Rate for the relevant Interest Period or day shall be the arithmetic mean of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

For the purposes of this sub-paragraph, "**Reference Banks**" means, (i) if the applicable Issue Terms specify "As specified in Valuation and Settlement Condition 4.3(e) (*CMS Reference Rate Fallback Provisions*)" and the Relevant Swap Rate specified is: (a) EUR Swap Rate, the principal office of five leading swap dealers in the Euro-zone interbank market; (b) GBP Swap Rate, the principal London office of five leading swap dealers in the London interbank market, (c) USD Swap Rate, the principal New York City office of five leading swap dealers in the New York City interbank market, or (d) Mid-Market Swap Rate, the principal Relevant Financial Centre office of five leading swap dealers in the Relevant Financial Centre interbank market, in each case as selected by the Calculation Agent or Determination Agent; or (ii) such leading swap dealers in the Relevant Financial Centre interbank market as specified in the applicable Issue Terms.

If, on any Interest Determination Date, one only or none of the Reference Banks provides the Calculation Agent or Determination Agent with such quotations of the Relevant Swap Rate (used to determine a CMS Reference Rate) as provided in the preceding paragraph, the relevant CMS Reference Rate shall be determined by the Calculation Agent or Determination Agent in accordance with standard market practice.

(f) *Calculation – Notes*

In the case where the Securities are Notes, the Calculation Agent will calculate the amount of interest (the **Interest Amount**) payable on the CMS Rate Securities for the relevant Interest Period by applying the relevant Interest Rate to:

- (i) in the case of CMS Rate Securities which are represented by a Global Registered Security Certificate, the aggregate outstanding principal amount of the CMS Rate Securities represented by such Global Registered Security Certificate; or
- (ii) in the case of CMS Rate Securities in definitive form, the Calculation Amount,

and, in each case, (i) multiplying such product by the applicable Day Count Fraction, and (ii) where Valuation and Settlement Condition 4.5 (*Range Accrual (Expanded) Securities*) applies, multiplying the product calculated in (i) by the Accrual Interest Rate. The resultant figure will be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a CMS Rate Security is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(g) *Calculation – Certificates*

No Asset Transfer Notice may be withdrawn after receipt thereof by the Relevant Clearing System (where applicable) or the Fiscal Agent or the Intermediary, as the case may be, as provided above. After delivery of an Asset Transfer Notice, the relevant Securityholder may not transfer the Securities which are the subject of such notice.

Subject as provided herein and subject to the payment of any Expenses, the Entitlement will be delivered at the risk of the relevant Securityholder, in the manner provided below on the Maturity Date (such date, subject to adjustment in accordance with this Condition, the **Delivery Date**), PROVIDED THAT the Asset Transfer Notice is duly delivered (x) in respect of Securities cleared through Euroclear or Clearstream, Luxembourg, to the relevant clearing system with a copy to the Fiscal Agent and where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary; (y) in respect of Securities cleared through DTC, to the Fiscal Agent and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary, as provided above on or prior to the Cut-off Date.

If a Securityholder fails to give an Asset Transfer Notice, as provided herein on or prior to the Cut-off Date, then the Entitlement will be delivered as soon as practicable after the Maturity Date (in which case, such date of delivery shall be the Delivery Date) at the risk of such Securityholder in the manner provided below. For the avoidance of doubt, in such circumstances such Securityholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the Maturity Date and no liability in respect thereof shall attach to the Issuer or the Intermediary (if any).

**If a Securityholder fails to give an Asset Transfer Notice as provided herein on or prior to the date falling 180 days after the Cut-off Date, then the Issuer's and any Intermediary's obligations in respect of the Securities held by such Securityholder for which no Asset Transfer Notice has been given shall be discharged and the Issuer and the Intermediary (if any) shall have no further liability in respect thereof.**

The Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) shall, at the risk of the relevant Securityholder, deliver or procure the delivery of the Entitlement for each Security, pursuant to the details specified in the Asset Transfer Notice or in such commercially reasonable manner as the Calculation Agent shall determine and notify to the person designated by the Securityholder in the relevant Asset Transfer Notice. All Expenses arising from the delivery of the Entitlement in respect of such Securities shall be for the account of the relevant Securityholder and no delivery of the Entitlement shall be made until all Expenses have been paid to the satisfaction of the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) by the relevant Securityholder. Any such Expenses shall either be:

- (1) paid to the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) by such Securityholder prior to the delivery of the Entitlement; or

- (2) deducted by the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) from any cash amount owing to such Securityholder and paid by the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) on behalf of the Securityholder or paid by the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) on behalf of such Securityholder by converting such amount of the Relevant Assets due to be delivered as necessary to pay the Expenses,

as specified by the Securityholder in the relevant Asset Transfer Notice.

If any Expenses are not paid by a Securityholder pursuant to the above, the relevant Securityholder shall be deemed to authorise the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) to convert and the Issuer or the Intermediary, as applicable, may convert such amount of the Relevant Assets due to be delivered into cash sufficient to cover the Expenses in respect of the relevant Security from which the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) shall deduct such Expenses. The Issuer's and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary's obligations in respect of each Security will be satisfied in relation to the Maturity Date by delivery of the remaining Entitlement in respect of such Security.

All deliveries will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of delivery.

(D) General

Subject as provided below, Securities held by the same Securityholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Securities, PROVIDED THAT the aggregate Entitlements in respect of the same Securityholder will be rounded down to the nearest whole Tradeable Amount of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. If the applicable Issue Terms specifies that Aggregation of Entitlements does not apply, the Entitlement in respect of each Security will be rounded down to the nearest whole multiple of the Tradeable Amount (as specified in the applicable Issue Terms) of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine.

Therefore, fractions or numbers of the Relevant Asset or of each of the Relevant Assets, as the case may be, less than the relevant Tradeable Amount (the **Fractional Entitlement**) will not be delivered and no cash or other adjustment will be made in respect thereof unless "Cash Adjustment" is specified as applicable in the applicable Issue Terms. If "Cash Adjustment" is specified as applicable in the applicable Issue Terms, the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) shall pay to the relevant Securityholder a cash amount in the Specified Currency (to be paid at the same time as delivery of the Entitlement) equal to the value (as determined by the Calculation Agent) of such Fractional Entitlement, calculated by reference to the Final Reference Level of the Entitlement Underlying (converted into the Specified Currency (being, in the case of Dual Currency Securities, the Denomination Currency) where relevant by

dividing the Final Reference Level of the Entitlement Underlying by the applicable FX).

Following the Delivery Date in respect of a Security where the Entitlement(s) includes securities, all dividends and/or other distributions on the relevant securities to be delivered will be payable to the party that would receive such dividend or distribution according to market practice for a sale of the relevant securities executed on the Delivery Date and to be delivered in the same manner as such relevant securities. Any such dividends or distributions to be paid to a Securityholder will be paid to the account specified by the Securityholder in the relevant Asset Transfer Notice as referred to above.

If any Entitlement is delivered later than the date on which delivery would otherwise have taken place as provided herein, the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) or any person acting on behalf such relevant entity shall continue to be the legal owner of the assets comprising the Entitlement (the **Intervening Period**). None of the Issuer, the CGMHI Guarantor, the CGMFL Guarantor, any Intermediary or any other person shall at any time (A) be under any obligation to deliver or procure delivery to any Securityholder any letter, certificate, notice, circular or any other document or, except as provided herein, any payment whatsoever received by that person in its capacity as the holder of such assets, (B) be under any obligation to exercise or procure exercise of any or all rights attaching to such assets or (C) be under any liability to a Securityholder in respect of any loss or damage which such Securityholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such assets.

None of the Issuer, the CGMHI Guarantor, the CGMFL Guarantor, any Intermediary, the Calculation Agent, the Paying Agents and the Agents shall under any circumstances be liable for any acts or defaults of any Relevant Clearing System in relation to the performance of its duties in relation to the Securities.

(E) Settlement Disruption

If, in the opinion of the Calculation Agent, delivery of the Entitlement using the Delivery Method specified in this Valuation and Settlement Schedule or such other commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement Disruption Event subsisting on the Maturity Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, PROVIDED THAT the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) may elect to deliver the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) may elect, in lieu of delivering the Entitlement to pay to the relevant Securityholder the Disruption Cash Redemption Amount on the fifth Business Day following the date that notice of such election is given to the Securityholders in accordance with General Condition 15

(*Notices*). Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 15 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 15 (*Notices*) that a Settlement Disruption Event has occurred. No Securityholder shall be entitled to any payment in respect of the relevant Security in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer or any Intermediary.

For the purposes hereof:

**Disruption Cash Redemption Amount**, in respect of any relevant Security, means the fair market value of such Security on a day selected by the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less, except in the case of Italian Listed Certificates, the cost of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent;

**Settlement Business Day**, in respect of each Security, means a day which is a Business Day and a day on which the Relevant Clearing System is open; and

**Settlement Disruption Event** means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) as a result of which the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) cannot make delivery of the Relevant Asset(s) using the Delivery Method specified in this Valuation and Settlement Schedule.

(F) Failure to Deliver due to Illiquidity

If "Failure to Deliver due to Illiquidity" is specified as applicable in the applicable Issue Terms and in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the **Affected Relevant Assets**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **Failure to Deliver**), then:

- (1) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Maturity Date in accordance with this Condition; and
- (2) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) may elect, in lieu of delivering the Affected Relevant Assets, to pay to the relevant Securityholder the Failure to Deliver Redemption Amount on the fifth Business Day following the date that notice of such election is given to the Securityholders in accordance with General Condition 15 (*Notices*). Payment of the Failure to Deliver Redemption Amount will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 15 (*Notices*). The Issuer (where Settlement via Intermediary is not specified as applicable in the

applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) shall give notice as soon as practicable to the Securityholders in accordance with General Condition 15 (*Notices*) that the provisions of this Valuation and Settlement Condition apply.

For the purposes hereof, **Failure to Deliver Redemption Amount** in respect of any relevant Security shall be the fair market value of the Affected Relevant Assets on a day selected by the Calculation Agent, less, except in the case of Italian Listed Certificates, the cost of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent (acting in its sole and absolute discretion).

(b) *Issuer's or Intermediary's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount*

The Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) may, in respect of Physical Delivery Securities, if the Calculation Agent determines that the Relevant Asset or Relevant Assets, as the case may be, comprises securities which are not freely tradeable and deliverable, elect either (i) to substitute for the Entitlement (or part thereof), an equivalent value (as determined by the Calculation Agent) of such other securities which the Calculation Agent determines are freely tradeable (each a **Substitute Asset**) or (ii) not to deliver the Entitlement or any Substitute Asset, as the case may be, to the relevant Securityholders, but in lieu thereof to make payment to each relevant Securityholder on the Maturity Date of an amount equal to the fair market value of the Entitlement (or part thereof) as determined by the Calculation Agent at such time and by reference to such sources as it considers appropriate (the **Alternate Cash Redemption Amount**). Notification of any such election will be given to Securityholders in accordance with General Condition 15 (*Notices*).

For purposes hereof, a **freely tradeable** and deliverable security shall mean (i) with respect to the United States, a security which is registered under the United States Securities Act of 1933, as amended (the **Securities Act**) or not restricted under the Securities Act and which is not purchased from the issuer of such security and not purchased from an affiliate of the issuer of such security or which otherwise meets the requirements of a freely tradeable security for purposes of the Securities Act, in each case, as determined by the Calculation Agent or (ii) with respect to any jurisdiction, a security not subject to any other legal or regulatory restrictions on transfer in such jurisdiction.

(c) *Rights of Securityholders*

The purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

(d) *Issuer or Intermediary Option to Vary Settlement in respect of Physical Delivery Securities*

In respect of Physical Delivery Securities, the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) may, elect not to deliver or procure delivery of the Entitlement to the relevant Securityholders but in lieu thereof to make payment on the Maturity Date to the relevant Securityholders of an amount in respect of each Security equal to the fair market value of the Entitlement as determined by the Calculation Agent at such time and by reference to such sources as it considers appropriate. Notification of such election will be given to Securityholders in accordance with General Condition 15 (*Notices*).

## 6. **Dual Currency Security Provisions**

Where the Securities are Dual Currency Securities, then in order to determine amounts payable or assets deliverable in respect of the Securities, the Calculation Agent shall:

- (a) in respect of any payments in respect of the Securities, convert the relevant payment amount (as otherwise determined in accordance with the provisions of the General Conditions, this Valuation and Settlement Schedule and/or the applicable Issue Terms) from the Denomination Currency into the Relevant Currency by multiplying such amount by the Dual Currency Exchange Rate for the Valuation Date or, if more than one, the last occurring Valuation Date, relating to the date on which such payment is to be made; or
- (b) in order to determine any cash amounts due in respect of Physical Delivery Securities, convert any such cash amounts due from the Denomination Currency into the Relevant Currency by multiplying such amount by the Dual Currency Exchange Rate for the Valuation Date relating to the date on which such delivery is to be made.

Where:

**Denomination Currency** means the currency of the Security, as specified in the applicable Issue Terms.

**Dual Currency Exchange Rate** means any Underlying which is an FX Rate and as is designated as the Dual Currency Exchange Rate for the relevant payment and/or delivery in the applicable Issue Terms.

**Relevant Currency** means the currency in respect of payments and/or deliveries, as specified in the applicable Issue Terms.
