Fiduciary Note Issuance Programme

For guidance on using this Base Prospectus and navigating between the different sections hereof, please refer to the "Base Prospectus - User Guide" section of this Base Prospectus (which is intended to assist investors in their review of this Base Prospectus but which should nevertheless be read in conjunction with the other sections of this Base Prospectus).

Under the Fiduciary Note Issuance Programme (the **Programme**), Societe Generale Luxembourg S.A. (the **Fiduciary**) may from time to time issue Notes, being either secured Notes or repack Notes (Secured Notes or Repack Notes) (as defined in the Terms and Conditions of the Notes), denominated in any currency agreed by the Fiduciary and the relevant Purchaser(s) (as defined below) on a fiduciary basis in its own name but at the sole risk and for the exclusive benefit of the holders of the Notes pursuant to the Luxembourg act dated 27 July 2003 relating to trust and fiduciary contracts, as amended.

Payments in respect of Secured Notes will be unconditionally and irrevocably guaranteed by Societe Generale (the **Guarantor**). References in this Base Prospectus to "Guarantor" and the "Guarantee" shall only apply in respect of Secured Notes and shall be ignored in respect of Repack Notes.

This Base Prospectus has been approved by the Luxembourg *Commission de Surveillance du Secteur Financier* (the **CSSF**) which is the Luxembourg competent authority for the purposes of Regulation (EU) 2017/1129, as amended (the **Prospectus Regulation**). The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation and such approval shall not be considered as an endorsement of the Fiduciary, the Guarantor and of the quality of the securities that are the subject of this Base Prospectus. The CSSF gives no undertaking as to the economic and financial soundness of the Notes issued under the Programme or the quality or solvency of the Fiduciary, in accordance with the provisions of Article 6(4) of the Luxembourg act on prospectuses for securities dated 16 July 2019, as amended. Such approval does not extend to money market instruments (as defined in the Prospectus Regulation) having a maturity of less than one year or to Notes (which are not non-exempt offer Notes) to be admitted to trading on the EuroMTF (as defined below).

The information on the websites does not form part of the prospectus (with the exception of links to the electronic addresses where information incorporated by reference is available) and has not been scrutinised or approved by the competent authority.

This Base Prospectus has been approved on 16 June 2023, it replaces the previous one dated 17 June 2022 and is valid until 16 June 2024 and must during such period and in accordance with Article 23 of the Prospectus Regulation be completed by a supplement to the Base Prospectus in the event of any new significant facts or material errors or inaccuracies. The obligation to supplement the Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when the Base Prospectus is no longer valid.

This Base Prospectus will be filed with SIX Exchange Regulation Ltd (prospectus office) as competent review body under the Swiss Financial Services Act (the **FinSA**) for automatic acceptance of this Base Prospectus as an issuance prospectus in accordance with article 54(2) of the FinSA. The CSSF has neither reviewed nor approved any information in this Base Prospectus pertaining to Notes listed on SIX Swiss Exchange.

This Base Prospectus has been drawn up in accordance with Article 8 of the Prospectus Regulation.

Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be listed on the Official List of the Luxembourg Stock Exchange and to be admitted to trading on (i) the Luxembourg Stock Exchange's regulated market and (ii) the multilateral trading facility Euro MTF of the Luxembourg Stock Exchange (the **EuroMTF**). The regulated market of the Luxembourg Stock Exchange is a regulated market for the purposes of the Markets in Financial Instruments Directive (2014/65/EU of 15 May 2014, as amended, **MiFID II**) (a **Regulated Market**).

The EuroMTF is not a Regulated Market and accordingly the CSSF is not the competent authority for the approval of this Base Prospectus in connection with Notes issued under the Programme which are admitted to trading on the EuroMTF, but the EuroMTF is subject to the supervision of the CSSF. **The CSSF has neither reviewed nor approved any information in this Base Prospectus pertaining to Notes admitted to trading on the EuroMTF.** The CSSF therefore assumes no responsibility in relation to the issues of Notes admitted to trading on the EuroMTF.

Notes issued under the Programme may also be unlisted or listed and admitted to trading on any other market, including any other Regulated Market in any Member State of the EEA and/or be the subject of a non-exempt offer in any Member State of the EEA. The applicable Final Terms in respect of the issue of any Notes will specify whether or not such Notes will be listed and admitted to trading on any market and/or be the subject of a non-exempt offer in any Member State of the EEA and, if so, the relevant market.

The Notes and any guarantee thereof have not been and will not be registered under the United States Securities Act of 1933, as amended (the **Securities Act**) or under the securities law of any state or political sub-division of the United States, and trading in the Notes has not been approved by the Commodity Futures Trading Commission (the **CFTC**) under the United States Commodity Exchange Act of 1936, as amended (the **CEA**). No person has registered and no person will register as a "commodity pool operator" of the Fiduciary under the CEA and the rules thereunder (the **CFTC Rules**) of the CFTC, and the Fiduciary has not and will not be registered as an investment company under the United States Investment Company Act of 1940, as amended, and the rules and regulations thereunder (the **Investment Company Act**). The Notes are being offered and sold in reliance on an exemption from the registration requirements of the Securities Act pursuant to Regulation S thereunder (**Regulation S**).

Accordingly, the Notes may only be offered, sold, pledged or otherwise transferred in an "offshore transaction" (as defined under Regulation S) to or for the account or benefit of a person who (a) is not (i) a U.S. person as defined in Regulation S (**Regulation S U.S. Person**) unless the applicable Final Terms specify that a U.S. person as defined in paragraph 7701(a)(30) of the Internal Revenue Code of 1986 (**IRS U.S. Person**) is also applicable, or (ii) if in the case of SGI Index Linked Notes, Advised SGI Index is applicable or if in the case of Portfolio Linked Notes, Dynamic Portfolio is applicable, a person who is either a Regulation S U.S. Person or an IRS U.S. Person unless the applicable Final Terms specify that only a Regulation S U.S. Person is applicable; and (b) is not a person who comes within any definition of U.S. person for the purposes of the CEA or any CFTC Rule, guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a "Non-United States person" defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not "Non-United States persons", shall be considered a U.S. person); and (c) is not a U.S. Person for purposes of the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended (the **U.S. Risk Retention Rules**) (a **Risk Retention U.S. Person**) (such a person or account as described herein, a **Permitted Transferee**). The Notes are available only to Permitted Transferees.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes which are applicable to each Tranche (as defined in the Terms and Conditions of the Notes) of Notes will be set out in a final terms document (the **Final Terms**) which (except in the case of Exempt Offer Notes or Notes that are offered in Switzerland under no local prospectus obligation (all as defined in the section entitled "*General Terms and Conditions*") will be filed with the CSSF. THE SECURITIES OFFERED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED WITH, OR APPROVED BY, ANY UNITED STATES FEDERAL OR STATE SECURITIES OR COMMODITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT PASSED UPON OR ENDORSED THE MERITS OF THIS OFFERING OR THE ACCURACY OR ADEQUACY OF THIS BASE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

U.S. Treasury regulations issued under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Section 871(m) Regulations**) generally impose a 30% withholding tax on dividend equivalents paid or deemed paid (within the meaning of the relevant Section 871(m) Regulations) to a non-United States holder (a **Non-U.S. Holder**) with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities (**U.S. Underlying Equities**). Specifically, and subject to special rules from 2017 through 2022 set out in Notice 2020-2 (the **Notice**), the Section 871(m) Regulations will generally apply to Notes issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. Underlying Equities as determined by the Fiduciary (or Guarantor) on the date for such Notes as of which the expected delta of the product is determined by the Fiduciary (or Guarantor) based on tests in accordance with the applicable Section 871(m) Regulations (for the purposes of the Notice, such Notes are deemed "delta-one" instruments) (the **Specified Notes**). A Note linked to U.S. Underlying Equities which the Fiduciary (or Guarantor) has determined not to be a Specified Note will not be subject to withholding tax under Section 871(m) Regulations. Investors are advised that the Fiduciary's (or Guarantor's) determination is binding on all Non-U.S. Holders of the Notes, but it is not binding on the United States Internal Revenue Service (the **IRS**) and the IRS may therefore disagree with the Fiduciary's determination.

The U.S. tax treatment of ownership of a Repack Note is unclear. Solely for U.S. tax purposes, a holder of the Repack Notes will be treated as the owner of any specified bonds that collateralised the Repack Notes. In addition, the holder will be treated as directly facing the Guarantor on any swaps or other derivatives held by the Fiduciary to hedge its exposure on the notes (the **Hedge**). As a consequence of this treatment, to the extent the specified bonds pay U.S.-source interest income, a holder must provide certain U.S. tax documentation to the Fiduciary to receive such income free from U.S. withholding tax. In addition, to the extent the Hedge substantially replicates the economic performance of one or more U.S. Underlying Equities as determined by the Fiduciary (or Guarantor), a Non-U.S. Holder may be subject to withholding tax under Section 871(m) as described above. The Fiduciary, Guarantor

and holder agree to this treatment, but investors are advised that the IRS is not bound by this treatment and may therefore disagree with it.

The applicable Final Terms will specify if the Notes are Specified Notes, and, if so, whether the Fiduciary, the Guarantor, or a withholding agent will withhold tax under Section 871(m) Regulations and the rate of the withholding tax. Investors should note that if the Fiduciary or any withholding agent determines that withholding is required, neither the Fiduciary nor the withholding agent will be required to gross up any amounts withheld in connection with a Specified Note. Investors should consult their tax adviser regarding the potential application of Section 871(m) Regulations to their investment in the Notes.

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction in which the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial instruments such as the Notes. Potential investors are advised to consult their own tax adviser on the tax impacts of the acquisition, holding, disposal and redemption of the Notes. The requirement to pay such taxes may reduce the effective yield on the Notes and may also have an adverse impact on their value. Investors should make their own assessment as to the suitability of investing in the Notes.

IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes state "Prohibition of Sales to EEA Retail Investors" as Applicable, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU, as amended (as amended or superseded, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Final Terms in respect of any Notes state "Prohibition of Sales to UK Retail Investors", as Applicable, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (**UK**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**); or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II product governance/ target market – the Final Terms in respect of any Notes will include a legend entitled "MiFID II product governance", which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger or the Dealer nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR product governance / target market – the Final Terms in respect of any Notes may include a legend entitled UK MiFIR Product Governance which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the SFA) – Unless otherwise stated in the Final Terms in respect of any Notes, in connection with Section 309B of the SFA and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the **CMP Regulations 2018**), the Fiduciary has determined, and hereby notifies all relevant persons (as defined in Section 309(A)(1) of the SFA), that the Notes are capital markets products other than prescribed capital markets products (as defined in the **CMP Regulations 2018**) and Specified

Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Alternatively, the Notes may be offered at a price as specified in the applicable Final Terms which:

(a) will be the Issue Price or the Issue Price up to a maximum of a percentage specified in the applicable Final Terms, represented by a distribution fee payable upfront by the Fiduciary to the distributors; or

Where :

OfferPriceBase means a number specified in the applicable Final Terms;

ConvergencePercentage means a percentage specified in the applicable Final Terms; and

Nb(t) means the number of calendar days between the Issue Date and the date “t” on which the value of the Notes is calculated (both dates included); or

(e) will be determined by the Dealer on a continuous basis in accordance with the market conditions then prevailing and depending on market conditions, the offer price shall be equal to, higher or lower than the Issue Price; or

6. REDEMPTION

The applicable Final Terms will indicate either that the Notes cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or for taxation reasons, regulatory reasons, an administrator/benchmark event, a force majeure event or following a Fiduciary Event or in the event of an optional outstanding Notes trigger call or following the occurrence of a Collateral Disruption Event) or that such Notes (if Physical Delivery Notes) may be settled at maturity or otherwise by receipt by the holder(s) of a cash amount and/or by delivery of the relevant Deliverable Assets or that such Notes will be redeemable at the option of the Fiduciary and/or the Noteholders upon giving not less than thirty nor more than forty five days' irrevocable notice (or such other notice period (if any) as indicated in the applicable Final Terms) to the Noteholders or the Fiduciary, as the case may be, on a date or dates specified

prior to such stated maturity and at a price or prices and on such terms as may be agreed between the Fiduciary and purchaser(s) as indicated in the applicable Final Terms.

The applicable Final Terms may provide that Notes may be redeemable in two or more instalments of such amounts and on such dates as indicated in the applicable Final Terms.

10. CERTAIN RESTRICTIONS

Each issue of Notes denominated in a currency in respect of which particular laws, guidelines, regulations, restrictions or reporting requirements apply will only be issued in circumstances which comply with such laws, guidelines, regulations, restrictions or reporting requirements in full force (see the section "Subscription, Sale and Transfer Restrictions") including the following restrictions applicable at the date of this Base Prospectus.

Notes having a maturity of less than one year

Notes having a maturity of less than one year will, if the proceeds of the issue are accepted in the United Kingdom, constitute deposits for the purposes of the prohibition on accepting deposits contained in Section 19 of the Financial Services and Markets Act 2000 unless they are issued to a limited class of professional investors and have a denomination of at least £100,000 or its equivalent, see the section "*Subscription, Sale and Transfer Restrictions*".

Under the Luxembourg act dated 16 July 2019 on prospectuses for securities (the **Luxembourg Prospectus Act**), which implements the Prospectus Regulation, prospectuses relating to money market instruments having a maturity at issue of less than twelve months and complying also with the definition of "securities" are not subject to the approval provisions stated therein.

11. TYPE OF NOTES

No securities falling under article 19 or debt securities falling under article 20 of Commission Delegated Regulation (EU) 2019/980 will be issued under this Base Prospectus.

Any benchmark to which a Note refers will be provided by an administrator included in the register referred to in Article 36 of the Regulation (EU) No. 2016/1011, as amended (the **Benchmarks Regulation**) or the FCA's register of administrators in accordance with Article 36 of Regulation (EU) 2016/1011, as amended as it forms part of UK domestic law by virtue of the EUWA, the **UK Benchmarks Regulation**).

The Fiduciary may issue either Secured Notes or Repack Notes, where:

(i) **Secured Notes** means a Note where "Type of Notes" is specified as "Secured Notes" in the applicable Final Terms. Secured Notes are Notes which are guaranteed by the Guarantor and in respect of which the payment obligations of the Fiduciary are collateralised by a Collateral Pool comprising diversified assets complying with Collateral Rules where Notes Market Value Test will apply. Secured Notes may be issued with Fixed Collateralisation or with Variable Collateralisation.

(ii) **Repack Notes** means a Note where "Type of Notes" is specified as "Repack Notes" in the applicable Final Terms. Repack Notes are Notes in respect of which the payment obligations of the Fiduciary are collateralised by one or more specific bond(s) issued by a third party complying with Collateral Rules where Notes Market Value Test or Fiduciary Securities Value Test will apply, as specified in the Final Terms.

Both such type of Notes may be issued as one of the below type of Notes.

11.1 Fixed Rate Notes

Fixed rate interest will be payable on such date(s) as indicated in the applicable Final Terms and on redemption and will be calculated on the basis of such Day Count Fraction as may be agreed between the Fiduciary and the relevant Dealer(s) as indicated in the applicable Final Terms.

11.2 Partly Paid Notes

The Issue Price of Partly Paid Notes will be payable in more than one instalment.

While any part payments of the subscription moneys due from the holder of Partly Paid Notes are overdue, no interest in a Temporary or Permanent Global Note representing such Notes may be exchanged for Definitive Bearer Notes.

If any Noteholder fails to pay any part payment due on any Partly Paid Notes within the time specified, the Fiduciary may have a right to redeem such Notes if so specified, and on the terms set out, in the applicable Final Terms.

11.3 Floating Rate Notes

Floating Rate Notes will bear interest at a rate determined (i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement evidenced by a confirmation incorporating the 2021 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series) or (ii) on the basis of a reference rate appearing on an agreed screen page of a commercial quotation service.

The margin (if any) relating to such floating rate will be agreed between the Fiduciary and the relevant Dealer(s) for each issue of Floating Rate Notes and specified in the applicable Final Terms.

Floating Rate Notes may also have either a minimum interest rate or a maximum interest rate or both.

Interest will be calculated on the basis of such Day Count Fraction as may be agreed between the Fiduciary and the relevant Dealer(s) as indicated in the applicable Final Terms.

11.4 Physical Delivery Notes

Payments in respect of Physical Delivery Notes (whether in respect of principal and/or interest and whether at maturity or otherwise) and any delivery of any Deliverable Asset(s) in respect of Physical Delivery Notes will be made in accordance with the terms of the applicable Final Terms, subject always to applicable securities laws.

11.5 Zero Coupon Notes

Zero Coupon Notes will not bear interest other than in the case of late payment.

11.6 Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the Fiduciary has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the Fiduciary may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing.

11.7 Dual Currency Notes

Payments in respect of Dual Currency Notes (whether in respect of principal and/or interest and whether at maturity or otherwise) will be made in such currency or currencies, and based on such rate or rates of exchange, as the Fiduciary and the relevant purchaser(s) may agree (as indicated in the applicable Final Terms).

11.8 Other provisions in relation to Floating Rate Notes and Structured Notes

Floating Rate Notes and Structured Notes, may also have a maximum interest rate, a minimum interest rate or both, or be subject to a rate multiplier, in each case as set forth in the applicable Final Terms.

11.9 Structured Notes

Structured Note means a Note which will provide investors with an exposure to one or more Underlyings.

Payments of principal and/or of interest in respect of Structured Notes will be calculated by reference to such Underlying. Item "Type of Structured Notes" of the Final Terms will specify the relevant type of Underlying of the Structured Notes. Any Structured Note may be exposed to more than one Underlying, in which case more than one type of Structured Note will be specified. For each such Underlying and type of Note, the relevant Additional Terms and Conditions will apply. The application of such Additional Terms and Conditions will also be specified in item "Type of Structured Notes" of the Final Terms.

General Description of the Programme

The applicable Final Terms will specify the relevant Underlying and state where information on the relevant Underlying, in particular on its past and future performance and on its volatility, can be found and whether or not the Fiduciary intends to provide further information on the Underlying.

RISK FACTORS

The discussion below is of a general nature and is intended to describe various risk factors associated with an investment in the Notes. You should carefully consider the following discussion of risks, and any risk factors included in the documents incorporated by reference herein.

The Fiduciary and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the failure of the Fiduciary or the Guarantor to pay interest (if any), principal or other amounts on or in connection with any Notes may occur or arise for other reasons which may not be considered significant risks by the Fiduciary or the Guarantor based on information currently available to them or which they may not currently be able to anticipate.

Words and expressions defined elsewhere in this Base Prospectus shall have the same meanings when used in this section.

To the best of Fiduciary's knowledge, in each category of Risk Factors, the risk factor identified by the Fiduciary as the most important appears first. For the rest of the risk factors, the order of appearance is not an indication of the importance or the likelihood of their occurrence.

1. RISKS RELATING TO THE GROUP

1.4 Operational risks (including risk of inappropriate conduct) and model risks

These risks are detailed on pages 171 to 174 of the 2023 Universal Registration Document (see Section "Documents Incorporated by Reference").

1.5 Liquidity and funding risks

These risks are detailed on page 171 of the 2023 Universal Registration Document incorporated by reference (see Section "Documents Incorporated by Reference").

1.6 Risks related to insurance activities

These risks are detailed on page 174 of the 2023 Universal Registration Document incorporated by reference (see Section "Documents Incorporated by Reference").

2. RISKS RELATING TO THE FIDUCIARY AND THE GUARANTOR

2.1 Factors that may affect the Fiduciary's ability to fulfil its obligations under the Notes

The Fiduciary's activity consists inter alia in issuing debt securities and the funds collected are systematically deposited with Societe Generale in the form of either term loans or swap contracts and pursuant to which the Fiduciary will receive from Societe Generale the amounts due under the Notes. The Fiduciary's ability to make payments under the Notes will therefore depend primarily on the performance of its obligations by Societe Generale under such hedging transactions entered into between the Fiduciary and Societe Generale.

If SG Luxembourg S.A. defaults or goes bankrupt, as a result of the limited recourse clause on SG Luxembourg S.A. as Fiduciary, included in the terms and conditions of the notes, the Noteholders of Secured Notes have no recourse against SG Luxembourg S.A. and any amount due and unpaid by SG Issuer must be claimed against Societe Generale as Guarantor.

- In respect of Repack Notes, specific factors that may affect the Fiduciary's ability to fulfil its obligations

In respect of Repack Notes, in case of a payment default by the Fiduciary (meaning other than following the delivery of a Collateral Liquidation Notice), the Noteholders have no recourse against the Fiduciary and will only have recourse under the Collateral Assets contained in the Collateral Pool of the relevant Series of Notes.

The liquidation proceeds of the Collateral Assets contained in the Collateral Pool may not be sufficient to cover the sums due under the Notes and Noteholders may lose part or all of their investment in the Notes.

- In respect of Secured Notes, specific factors that may affect the Guarantor's ability to fulfil its obligations under the Guarantee

With respect to Secured Notes, in the case of a default of the Fiduciary following the delivery of a Collateral Liquidation Notice, where the liquidation proceeds of the Collateral Assets in the Collateral Pool are not sufficient to cover the final redemption amount, Noteholders will only have recourse against the Guarantor with respect to the shortfall, therefore Noteholders are exposed to the credit risk of Societe Generale as Guarantor.

Therefore, the exposure of the Noteholders to the credit risk of the Guarantor will depend on the level of Collateralisation Percentage of such Secured Notes. The less the Secured Notes have a high Collateralisation Percentage, the more such Notes will be exposed to the creditworthiness of the Guarantor. Societe Generale's credit ratings are an assessment of its ability to honour its commitments. Consequently, any actual or anticipated downgrades of Societe Generale's credit ratings may affect the market value of the Notes. If Societe Generale is subject to measures in respect of the regulations relating to the statutory bail-in mechanism (bail-in), Noteholders' claim may be reduced to zero, converted into equity (shares) or debt securities or undergo a maturity postponement.

2.2 Information in relation to the lack of independence of the Guarantor - Conflict of interest

Societe Generale will act as the Guarantor of the Secured Notes, as Calculation Agent of the Notes and also as provider of hedging instruments to the Fiduciary. As a result, investors will be exposed not only to the credit risk of Societe Generale but also to operational risks arising from the lack of independence of Societe Generale, in assuming its duties and obligations as the Guarantor, Calculation Agent and provider of the hedging instruments. Whilst compliance procedures require effective segregation of duties and responsibilities between the relevant divisions within the Guarantor, the possibility of conflicts of interest arising cannot be wholly eliminated.

The Group provides a full array of capital market products and advisory services worldwide including the issuance of "structured notes" where interest and/or principal is/are linked to the performance of underlying assets, and may possess or acquire material and/or confidential information about the underlying assets and/or the reference entities which is not public knowledge and which are or could be important to the Notes.

Such business activities and such material and/or confidential information may cause consequences adverse to the Noteholders. Such actions and conflicts may include, without limitation, the exercise of voting power, the purchase and sale of securities, financial advisory relationships and exercise of creditor rights. The Fiduciary, the Guarantor and any other member of the Group have no obligation to disclose such information about such underlying assets or the obligors to which they relate or the reference entities. The Fiduciary, the Guarantor and any other member of the Group and their officers and directors may engage in any such activities without regard to the Notes or the effect that such activities may directly or indirectly have on any Note.

The Calculation Agent, the Arranger, the Dealers, the Paying Agents, the Registrar, the Transfer Agent and the Exchange Agent may be all part of the Group. A deterioration of Societe Generale's credit risk would have a negative impact on the obligations of each of the entities listed above in relation to the Notes. If one of these entities does not respect its obligations towards the Fiduciary and/or the Guarantor, this could have a negative impact on the value of the Notes and the Noteholders may therefore lose part or all of their investment in the Notes.

2.3 Risk relating to the Restructuring Directive

Societe Generale is a société anonyme with its corporate seat in France. In the event that Societe Generale becomes insolvent, insolvency proceedings will be generally governed by the insolvency laws of France to the extent that, where applicable, the "centre of main interests" (as construed under Regulation (EU) 2015/848, as amended) of Société Générale is located in France.

The Directive (EU) 2019/1023 on preventive restructuring frameworks, on discharge of debt and disqualifications, and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, and amending Directive (EU) 2017/1132 has been transposed into French law by the Ordonnance 2021-1193 dated 15 September 2021. Such ordonnance, applicable as from 1st October 2021, amends French insolvency laws notably with regard to the process of adoption of restructuring plans under insolvency proceedings. According to this ordonnance, "affected parties" (including notably creditors, and therefore the Noteholders) shall be treated in separate classes which reflect certain class formation criteria for the purpose of adopting a restructuring plan. Classes shall be formed in such a way that each class comprises claims or interests with rights that reflect a sufficient commonality of interest based on verifiable criteria. Noteholders will no longer deliberate on the proposed restructuring plan in a separate assembly, meaning that they will no longer benefit from a specific veto power on this plan. Instead, as any other affected parties, the Noteholders will be grouped into one or several classes (with potentially other types of creditors) and their dissenting vote may possibly be overridden by a cross-class cram down.

Both the scopes of the Directive (EU) 2019/1023 and the ordonnance do not cover financial institutions, unless the competent authority chooses to make them applicable. In such a case, the application of French insolvency law to a credit institution as Societe Generale is also subject to the prior permission of the Autorité de contrôle prudentiel et de résolution before the opening of any safeguard, judicial reorganisation or liquidation procedures. This limitation will affect the ability of the Noteholders to recover their investments in the Notes.

Should such proceedings be opened, the commencement of insolvency proceedings against Societe Generale would have a material adverse effect on the market value of Secured Notes guaranteed by Societe Generale. As a consequence, any decisions taken by a

class of affected parties could negatively and significantly impact the Noteholders and cause them to lose all or part of their investment, should they not be able to recover all or part of the amounts due to them from the Fiduciary.

3. RISKS RELATED TO THE NOTES

3.1 Risks related to the characteristics of the Notes

3.1.1 Risks linked to Notes including a risk of capital loss

For Notes which include a risk of capital loss, the redemption value of such Notes may be less than the amount initially invested. In a worst case scenario, investors may lose their entire investment. Moreover, regardless of the level of the capital protection, the investor may lose part or all of the initially invested amount, if the Notes are sold by the investor before the maturity date.

3.1.2 Risks linked to Notes offering a full capital protection at maturity date

For Notes which offer a full capital protection (100%) of the Specified Denomination at maturity date, the investor may, however, lose part or all of the initially invested amount if the Notes are sold by the investor before the maturity date (since the value of the Notes during their lifetime may be lower than the amount of the capital protection due to market fluctuations).

3.1.3 Notes subject to optional redemption by the Fiduciary

The Final Terms may specify that Notes can be subject to an early redemption which can be triggered at the Fiduciary's sole discretion either on certain predefined dates or at any time during the life of the Notes. The possibility of an early redemption of the Notes at the Fiduciary's discretion may limit the market value of such Notes. Before or during each period during which the Fiduciary may elect to redeem the Notes, their market value will not rise substantially above their redemption price and the Noteholders will not benefit from the subsequent performance of the underlying(s).

3.1.4 Notes subject to automatic redemption

The Final Terms may specify that Notes can be subject to an automatic redemption if the level of the underlying(s) becomes higher than, equal to or below one or more predefined level(s) on either predefined dates or at any time during the life of the Notes. As a result, for those Notes when the level of the underlying(s) reaches the predefined level(s), the Noteholders will not benefit from the performance of the underlying(s) subsequent to such event.

3.1.5 Early redemption at the option of the Fiduciary (following a Tax Event, Special Tax Event, Regulatory Event, Force Majeure Event, an Administrator/Benchmark Event, Fiduciary Event or Bond Event Determination Date or for a decrease in issuance size)

The Fiduciary or the Calculation Agent, as the case may be, may decide to redeem early the Notes at market value upon the occurrence of certain events (including, without limitation, a change in law or regulation, including tax law, or an event affecting a benchmark or its administrator, force majeure event affecting the Fiduciary, or following the occurrence of a Fiduciary Event or a Bond Event Determination Date, or an entity of its group, if the outstanding aggregate nominal amount of such Notes equals or falls below 10% of the initial aggregate nominal amount of such Notes). This could result in Noteholders receiving an early redemption amount which may be lower than the amount initially invested (regardless of the level of capital protection at maturity, if any) and being redeemed earlier than they had anticipated and the Noteholders will not benefit from the performance of the underlying asset(s) subsequently to such event.

3.1.6 Risks related to adjustment, substitution or cancellation of the Notes

The Terms and Conditions of the Notes give the Calculation Agent a certain discretion to determine whether any event(s) affecting the Notes or the underlying(s) has occurred in accordance with such Terms and Conditions. The Calculation Agent also has certain discretion in order to determine the consequences thereof for the Notes, the underlying(s) or the hedging transactions, including determination of the price of the underlying(s) and the choice between (a) mechanisms to adjust or substitute the underlying(s), (b) the deduction of the increase in the cost of hedging of any amount due, (c) the monetisation and, consequently, the de-indexation of the formula of the Notes for all or part of the amounts due under the Notes on the underlying(s) and (d) the early redemption of the Notes by the Fiduciary, without any obligation to take into account the interest of the Noteholders. In the absence of manifest or proven error, these adjustments, substitutions or cancellation decisions will be binding upon the Fiduciary, the Guarantor, the Agent and the Noteholders. Each of these measures imposed on the Notes may result in the total or partial loss of the amount invested, regardless of the level of capital protection of the Notes, if any.

3.1.7 Trading in the Notes and/or Underlyings may be suspended, interrupted or terminated

If the Notes are listed on one (or more) regulated or unregulated markets, the trading of such Notes may – depending on the rules applicable to such markets – be suspended or interrupted by the respective stock exchange or a competent regulatory authority upon the occurrence of a number of reasons, including violation of price limits, breach of statutory provisions, occurrence of operational problems of the stock exchange or generally if deemed required in order to secure a functioning market or to safeguard the interests of investors. Furthermore, trading in the Notes may be terminated, either upon decision of the stock exchange or a regulatory authority. Where trading in an Underlying of the Notes is suspended, interrupted or terminated, trading in the respective Notes will usually also be suspended, interrupted or terminated and existing orders for the sale or purchase of such Notes will usually be cancelled. Investors should note that the Fiduciary has no influence on trading suspension or interruptions and that investors in any event must bear the risks connected therewith. In particular, investors may not be able to sell their Notes where trading is suspended, interrupted or

terminated, and the stock exchange quotations of such Notes may not adequately reflect the price of such Notes. All these risks would, if they materialise, have a material adverse effect on the value of the Notes and investors may therefore lose part or all of their investment in the Notes.

3.1.8 Risk of leveraged exposure

The redemption formula of certain Notes may embed a leverage factor increasing the exposure to the relevant underlying and will amplify both return and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the applicable underlying moves in the anticipated direction, it will conversely magnify losses when such underlying moves against expectations of investors. Prospective investors should note that Notes will involve a higher level of risk, and that whenever there are losses such losses may be higher than those of a similar security which is not leveraged. Investors should therefore only invest in such Notes if they fully understand the effects of the leverage that may be embedded in such Notes whose market value may be significantly more volatile than the market value of Notes that do not have this feature.

3.1.9 Risks relating to the Paying Agent

Any payments to Noteholders will be made by the Paying Agent on behalf of the Fiduciary. The Fiduciary shall transfer to the Paying Agent such amount as may be due under the Notes on or before each date on which such payment in respect of the Notes becomes due.

If the Paying Agent, while holding funds for payment to Noteholders in respect of the Notes, is declared insolvent, the Noteholders may not receive all (or any part) of amounts due to them in respect of the Notes from the Paying Agent in which case Noteholders will have to claim payments directly from the Fiduciary.

3.1.10 Hedging and trading activity by the Guarantor and other members of the Group could potentially affect the value of the Notes

In the ordinary course of their business, whether or not they will engage in any secondary market making activities, the Guarantor and/or any other members of the Group may effect transactions for their own account or for the account of their customers and hold long or short positions in any underlying or reference asset(s), reference entities or obligors or related derivatives.

These transactions may affect the Fiduciary's hedging positions which could in turn impact the market value of the Notes and consequently investors may lose part or all of their investment in the Notes.

3.1.11 Exchange rate risks and exchange controls

The Fiduciary will pay principal and interest amounts on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if a Noteholder's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

The Fiduciary may issue Dual Currency Notes where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Notes are denominated. Accordingly an investment in Dual Currency Notes may bear similar market risks to a direct foreign exchange investment and prospective investors should take advice accordingly.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Noteholders may receive less interest or principal than expected, or no interest or principal.

3.1.12 Partly Paid Notes

The Fiduciary may issue Notes where the issue price is payable in more than one part payment by the investor. Failure by the investor to pay any subsequent part payment could result in an investor losing some or all of his investment. In the event that investors purchase Partly Paid Notes on the secondary market prior to all the part payments being made and these Notes being fully paid up, such investors incur the risk to be required to pay such remaining part payments in addition to the price they paid to purchase these Notes.

3.1.13 Fixed/Floating Rate Notes

Fixed/Floating Rate Notes are Notes which bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the market value of such Notes as the change of interest basis may result in a lower interest return for Noteholders. If the Fiduciary converts from a fixed rate to a floating rate in such circumstances, the spread on the floating rate may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Fiduciary converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

3.1.14 Notes issued at a substantial discount or premium

The market values of Notes issued at a substantial discount to or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. The longer the remaining term of such Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

3.1.15 Risks relating to Physical Delivery Notes

In the case of Notes which are redeemable by delivery of assets, if a Settlement Disruption Event occurs or exists on the due date for redemption of the Notes and prevents delivery of the asset, the Fiduciary shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Underlying(s) (the **Fair Market Value**) to be delivered converted into the Specified Currency at the current exchange rate, if applicable. The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period.

3.1.16 Risks relating to Notes referencing a benchmark

In accordance with the provisions of General Condition 4 of the General Terms and Condition of the Notes, the Rate of Interest in respect of the Floating Rate Notes may be determined by reference to Reference Rates that constitute "benchmarks" for the purposes of the Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable.

Interest rates and indices which are deemed to be "benchmarks" are the subject of national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark".

Regulation (EU) 2016/1011 (the Benchmarks Regulation) applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EEA. The UK Benchmarks Regulation applies to the provision of benchmarks and the use of a benchmark within the UK. Notwithstanding the provisions of General Condition 4.2.3.5 of the General Terms and Conditions of the Notes, which seek to mitigate any adverse effects for the Noteholders, the Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to or referencing a "benchmark", in particular:

- an index that is a "benchmark" may not be permitted to be used by a supervised entity (including the Fiduciary) in certain ways if its administrator does not obtain authorisation or registration or, if based in a non-EU jurisdiction, the administrator is not recognised as equivalent or recognised or endorsed and the transitional provisions do not apply; and
- if the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, such changes could, among other things, have the effect of reducing or increasing the rate or level or otherwise affecting the volatility of the published rate or level of the "benchmark" and as a consequence,

Noteholders could lose part of their investment or receive less income than would have been the case without such changes.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark" or (iii) lead to the disappearance of the "benchmark".

Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing a "benchmark".

Investors should be aware that, if a benchmark were discontinued or otherwise unavailable, the rate of interest on Notes which are linked to or which reference such benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes – please refer to the risk factor entitled "The occurrence of an Index Event could have a material adverse effect on the value of and return on any such Notes linked to or referencing such "benchmarks" below). Depending on the manner in which a benchmark rate is to be determined under the Terms and Conditions of the Notes, this may in certain circumstances (i) result in the application of a backward-looking, risk-free overnight rate, whereas the benchmark rate is expressed on the basis of a forward-looking term and includes a risk-element based on inter-bank lending or (ii) if Screen Rate Determination applies, result in the effective application of a fixed rate based on the rate which applied in the previous period when the benchmark was available. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any Notes linked to or referencing a "benchmark".

Regulation (EU) 2019/2089 of the European Parliament and of the Council of 27 November 2019 has amended the existing provisions of the Benchmarks Regulation by extending the transitional provisions applicable to material benchmarks and third-country benchmarks until the end of 2021. The existing provisions of the Benchmarks Regulation were further amended by Regulation (EU) 2021/168 of the European Parliament and of the Council of 10 February 2021 published in the Official Journal of the European Union on 12 February 2021 (the **Amending Regulation**).

The Amending Regulation introduces a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring the power to designate a statutory replacement for certain benchmarks on the European Commission, such replacement

Risk Factors

being limited to contracts and financial instruments. In addition, the transitional provisions applicable to third country benchmarks are extended until the end of 2023. The European Commission is empowered to further extend this period until the end of 2025, if necessary. The Amending Regulation applies as of 13 February 2021.

The FCA confirmed on 5 March 2021 that all LIBOR settings will either cease to be provided by any administrator or no longer be representative:

- from 31 December 2021, in the case of all sterling, euro, Swiss franc and Japanese yen settings, and the 1-week and 2-month US dollar settings; and

- immediately after 30 June 2023, in the case of the remaining U.S. dollar settings.

Regulatory authorities and central banks are strongly encouraging the transition away from IBORs, such as LIBOR and EURIBOR, and have identified 'risk free rates' to replace such IBORs as primary benchmarks. This includes (amongst others) (i) for GBP LIBOR, the Sterling Overnight Index Average ("SONIA"), so that SONIA was established as the primary sterling interest rate benchmark, (ii) for USD LIBOR, the Secured Overnight Financing Rate ("SOFR") to be eventually established as the primary U.S. dollar interest rate benchmark, and (iii) for EONIA and EURIBOR, a new Euro Short-Term Rate ("€STR" or "EuroSTR") as the new euro risk-free rate. Similar initiatives are currently underway in respect of each of the LIBOR rates in other currencies — i.e. Japanese Yen (IBOR), Hong Kong Dollar (HIBOR), Swiss franc (CHF LIBOR), Australian dollar (BBSW) and Canadian dollar (CDOR) — to transition over to identified alternative risk free rates.

Investors will not know in advance the interest amount payable on Notes which is calculated by reference to the risk free rates

The Rate of Interest or Rate in respect of the Notes may be calculated by reference to risk free rates such as SONIA, SOFR, €STR, SARON or TONA overnight funding rates with Interest Periods longer than overnight and will be calculated on the basis of (a) the arithmetic mean of such rate over the relevant Interest Period, where such rate is fixed for a certain number of days prior to the end of such Interest Period or (b) a compounded risk free rate (i) in respect of the Interest Period, provided that the risk free rate used as the basis for calculation is that which was observed a specified number of days prior or (ii) in respect of a period that starts a specified number of days prior to the relevant Interest Period and ends the same specified number of days prior to the end of such Interest Period or (c) calculated by reference to the level of the risk free rate published by its Administrator or authorized distributors. As a consequence of these calculation methods, the amount of interest payable on each interest payment date will only be known a short period of time prior to the relevant interest payment date. Investors therefore will not know in advance the interest amount which will be payable on such Notes and there is a possibility that such amount could be lower than expected.

In case of occurrence of an Index Event the applicable floating rate of interest could have a material adverse effect on the value of and return on any such Notes linked to or referencing such "benchmarks" without any requirement that the consent of Noteholders be obtained.

Pursuant to the terms and conditions of the Notes, occurrence of certain events affecting the benchmarks (each an Index Event) such as loss of any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Reference Rate or the administrator or sponsor of the Reference Rate, the permanent cessation of the Reference Rate or the loss of representativeness of the Reference Rate will trigger the application of certain fallbacks arrangements including if an inter-bank offered rate (such as EURIBOR) or other relevant reference rate (which could include, without limitation, any mid-swap rate) becomes unavailable, or if the Fiduciary, the Calculation Agent, any Paying Agent or any other party responsible for the calculation of the Rate of Interest (as specified in the applicable Final Terms) are no longer permitted lawfully to calculate interest on any Notes by reference to such benchmark under the Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable or otherwise.

Such fallback arrangements include the possibility that the rate of interest could be set by reference to a Replacement Rate with or without the application of an Adjustment Spread (which, if applied, could be positive or negative, and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of the relevant benchmark) (both as defined in General Condition 4.2.3.7 of the General Terms and Conditions of the Notes), and may include amendments to the Terms and Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by the Calculation Agent.

No consent or approval of the Noteholders shall be required in connection with effecting any successor rate or alternative rate (as applicable) or with any other related adjustments and/or amendments to the General Terms and Conditions of the Notes (or any other document) which are made in order to effect any successor rate or alternative rate (as applicable).

Investors should note that, the Rate Determination Agent or the Calculation Agent will have a certain discretion to determine the Replacement Rate and as the case may be the Adjustment Spread in the circumstances described above. Any such adjustment could have unexpected commercial consequences and, due to the particular circumstances of each Noteholder, any such adjustment may not be favourable to such Noteholder. Noteholders may therefore lose part or all of their investment in the Notes.

The reform and eventual replacement of IBORs with risk-free rates may cause the relevant IBOR to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. These risk-free rates have a different methodology and other important differences from the IBORs they will eventually replace. Any of these developments could have a material adverse effect on the value of and return on Notes linked to any such rates.

The market continues to develop in relation to risk free rates as reference rates for Floating Rate Notes.

The Terms and Conditions of the Notes allow Notes referencing inter alia SONIA, SOFR, the Euro short term rate ("€STR"), SARON, TONA to be issued. The market continues to develop in relation to risk free rates, as reference rates in the capital markets, and their adoption as alternative to the relevant interbank offered rates. The market or a significant part thereof may adopt an application of risk free rates that differs significantly from that set out in the Terms and Conditions of the Notes and used in relation to Floating Rate Notes that reference a risk free rate issued under this Base Prospectus.

The nascent development of the use of these risk free rates as interest reference rate for bond markets, as well as continued development of risk free rates-based rates for such markets and of the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of the Notes. Interest on Notes which reference a risk free rate is only capable of being determined shortly prior to the relevant Interest Payment Date.

In addition, the Fiduciary or Calculation Agent has no control over the determination, calculation or publication of these risk-free rates. There can be no guarantee that they will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of Noteholders.

The mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes.

These risk-free rates may fail to gain market acceptance and any market of the Notes indexed on these rates may be illiquid and unpredictable. Investors should not rely on indicative or historical data concerning these risk free rates. The investors are exposed to some discretion of the Calculation Agent to determine the interest rate that will replace the benchmarks that will cease to be published or used and to calculate the amount of interest needed to calculate the amounts due under the Notes on the basis of the risk-free rates.

3.1.17 Risks relating to legal, tax and regulatory changes

The Terms and Conditions of the Notes (including any non-contractual obligations arising therefrom or connected therewith) are based on relevant laws in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to such laws, or the official application or interpretation of such laws or administrative practices after the date of this Base Prospectus.

Legal, tax and regulatory changes could occur during the term of the Notes that may adversely affect the Notes, the underlying, related derivatives or the collateral assets in the case of Secured Notes. The regulatory environment is evolving, and changes in the regulation of any entities may adversely affect their value. Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The regulation of securities and derivatives transactions is an evolving area of law and is subject to modification by government and judicial action. The effect of any future regulatory change on the underlying, related derivatives or on the collateral assets could be material, including clearing and margin requirements for derivatives and consequently may adversely affect the value of the Notes. Investors may therefore lose part or all of their investment in the Notes.

3.1.18 Risks relating to Notes denominated in Renminbi (RMB)

RMB foreign exchange control risk

RMB is not completely freely convertible at present, and the conversion of RMB into other currencies is subject to exchange controls imposed by the PRC government. New PRC regulations may be promulgated or any existing RMB clearing and settlement arrangements may be terminated or amended in the future which may have the effect of restricting availability of RMB outside the PRC. The limited availability of RMB outside the PRC may affect the liquidity of Notes denominated in RMB.

The current size of RMB denominated financial assets outside the PRC is limited. The control of currency conversion and movements in RMB exchange rates may adversely affect RMB denominated assets which may in turn affect notes linked to such assets.

RMB currency risk

All payments of RMB under the Notes to the Noteholders will be made solely by transfer to a RMB bank account maintained in Hong Kong or a financial centre outside the PRC in which a bank clears and settles Renminbi (**RMB Settlement Centre**) in accordance with the prevailing rules and regulations and in accordance with the Terms and Conditions of the Notes. The Fiduciary cannot be required to make payment in relation to Notes denominated in RMB by any other means (including in any other currency or by transfer to a bank account in the PRC), unless a Renminbi Currency Event (as defined in General Condition 5.15) is specified as being applicable in the applicable Final Terms.

In addition, there can be no assurance that the access to RMB for the purposes of making payments under the Notes or generally may remain or will not become restricted. If it becomes impossible to convert RMB from/to another freely convertible currency, or transfer RMB between accounts in Hong Kong (or any other RMB Settlement Centre), or to remit RMB into or out of the PRC, or the general RMB exchange market becomes illiquid, any payment of RMB under the Notes may be delayed or the Fiduciary may make such payments in another currency selected by the Fiduciary using an exchange rate determined by the Calculation Agent, or the Fiduciary may redeem the Notes by making payment in another currency.

RMB exchange rate risk

Risk Factors

The value of RMB against other currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. As a result, the value of any payments of RMB (in any applicable foreign currencies) may vary with the prevailing exchange rates in the marketplace. If the value of RMB depreciates against other currencies, the value of an investor's investment in such other currencies will decline.

RMB interest rate risk

Where applicable, the value of payments of RMB under the Notes may be susceptible to interest rate fluctuations, including Chinese RMB Repo Rates and/or the Shanghai Interbank Offered Rate (**SHIBOR**). The PRC government has gradually liberalised the regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. Furthermore, due to the foreign exchange control imposed by the applicable PRC laws and regulations and the prevailing market conditions, the RMB interest rate in the markets outside the PRC may significantly deviate from the RMB interest rate in the PRC.

Payments with respect to Notes denominated in RMB may be made only in the manner designated in such Notes

Noteholders may be required to provide certification and other information (including RMB account information) in order to be allowed to receive payments in RMB in accordance with the RMB clearing and settlement system for participating banks in Hong Kong. All payments to investors in respect of Notes denominated in RMB will be made solely (i) for so long as Notes denominated in RMB are represented by Global Notes or Registered Global Notes held with the Common Depositary or Common Safekeeper, as the case may be, for Clearstream Banking S.A. and Euroclear Bank SA/NV or any alternative clearing system, by transfer to a RMB bank account maintained in Hong Kong or (ii) for so long as Notes denominated in RMB are in definitive form, by transfer to a RMB bank account maintained in Hong Kong in accordance with prevailing rules and regulations. Other than described in the Terms and Conditions of the Notes, the Fiduciary cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in the PRC).

3.1.19 Meetings of Noteholders

The General Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally (see General Condition 16 (*Meetings of Noteholders*)). These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting, Noteholders who did not consent to the Written Resolutions and Noteholders who voted in a manner contrary to the majority. General meetings or written consultations may deliberate on any proposal relating to the modification of the terms and conditions of the Notes. While it is not possible to assess the likelihood that the terms and conditions will need to be amended during the term of the Notes by a meeting of the Noteholders, if a decision is adopted by a majority of Noteholders and such modifications impair or limit the rights of Noteholders, this may negatively affect the market value of the Notes, although the probability of such a decision being taken by Noteholders is considered to be low.

3.2 Risks relating to the market of the Notes

3.2.1 Market value of the Notes

The trading market for the Notes may be volatile and may be adversely impacted by many events.

The market for debt securities is influenced by the economic and market conditions, interest rates, currency exchange rates and inflation rates in Europe and other industrialised countries and areas. There can be no assurance that events in France, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect.

Such factors may mean that the trading price of the Notes is below the Final Redemption Amount, and accordingly Noteholders may receive an amount or an asset with a value significantly lower than the amount that they invested to purchase the Notes.

3.2.2 Risks on secondary market of the Notes

If the Notes are subject to market making agreements, the aim is to ensure the liquidity of the Notes on the markets where they are traded, assuming normal market conditions and normally functioning IT systems. Certain exceptional market circumstances may adversely affect the liquidity of the Notes. Noteholders may not be able to sell their Notes easily or may have to sell them at a price that significantly affects the amount they earn. This may result in a partial or total loss of the amount invested.

Certain Notes have materially relevant liquidity risk. Certain exceptional market circumstances may adversely affect the liquidity of the Notes. Noteholders may not be able to sell their Notes easily or may have to sell them at a price that significantly affects the amount they earn. This may result in a partial or total loss of the amount invested.

There may be no market on which Notes may be traded, which may have a material adverse effect on the price at which such Notes could be resold and may result in the total or partial loss of the amount invested. The Notes may be completely illiquid and may not be able to be resold.

3.2.3 Reinvestment risks

The Notes may be redeemed or be subject to cancellation at a time when an investor generally would not be able to reinvest the proceeds at an expected yield as high as the return on the Notes being early redeemed or cancelled, as the case may be, and may only be able to do so at a significantly lower yield. Prospective investors should consider reinvestment risk in light of other investments available at that time.

3.2.4 The use of proceeds of the Notes identified as Positive Impact Notes in the Final Terms may not be suitable for the investment criteria of an investor

The Final Terms of the Notes with positive impact (the **Positive Impact Notes**) may provide that the Fiduciary intends to apply an amount equivalent to the net proceeds of the issue to finance or refinance (via direct expenditures, via direct investments or via loans), in part or in full, eligible activities (such activities the **Eligible Activities**), which serves to deliver a positive contribution to one or more of the three pillars of sustainable development (economic, environmental and social), once any potential negative impacts and mitigation actions have been duly identified as defined in the sustainable and positive impact bond framework, as amended and supplemented from time to time (the **Framework**) which is available on the website of Societe Generale (https://www.societegenerale.com/sites/default/files/documents/2021-11/20211104_Societe-Generale-Sustainable-and-Positive-Impact-Bond-Framework.pdf) and as specified in the Final Terms.

At the date of this Base Prospectus, the Framework inter alia (i) complies with the Green Bond Principles, Social Bond Principles and Sustainability Bond Guidelines published by the International Capital Markets Association and (ii) aligns with the Principles for Positive Impact Finance published by the United Nations Environment Programme - Finance Initiative. It being specified that (i) such definition and guidelines may evolve from time to time and/or (ii) the Fiduciary may decide to depart from such definition and guidelines, in which cases such information will be specified in the Framework.

The definition (legal, regulatory or otherwise) of, and market consensus as to what constitutes or may be classified as, a “green” or equivalently-labelled project or a loan that may finance such activity, and the requirements of any such label are currently under development. On 18 June 2020, Regulation (EU) No. 2020/852 on the establishment of a framework to facilitate sustainable investment was adopted by the Council and the European Parliament (the **Taxonomy Regulation**). The Taxonomy Regulation establishes a single EU-wide classification system, or “taxonomy”, which provides companies and investors with a common language for determining which economic activities can be considered environmentally sustainable. The Commission Delegated Regulation (EU) 2021/2139 of 4 June 2021 establishing the technical screening criteria for determining the conditions under which an economic activity qualifies as contributing substantially to climate change mitigation or climate change adaptation and for determining whether that economic activity causes no significant harm to any of the other environmental objectives entered into force on 1 January 2022. However, the Taxonomy Regulation remains subject to further developments with regard to specific economic activities and other environmental objectives.

There is currently no market consensus on what precise attributes are required for a particular project to be defined as “sustainable”.

While it is the intention of the Fiduciary to apply an amount equivalent to the net proceeds of any Positive Impact Notes in, or substantially in, the manner described in the Final Terms and the Framework, the relevant Eligible Activity or the application of the net proceeds of the Positive Impact Notes in connection therewith (as described in section “*Reasons for the Offer and Use of Proceeds*” of the relevant Final Terms), might not be implemented in or substantially in such manner and/or in accordance with any timing schedule and that accordingly such net proceeds will be totally or partially disbursed for such Eligible Activity. Nor can it be certain that such Eligible Activity will be completed within any specified period or at all or with the results or outcome (whether or not related to the “sustainable and positive impact” aspect) originally expected or anticipated by the Fiduciary. Any such event or failure by the Fiduciary to apply the net proceeds to any issue of Positive Impact Notes for any Eligible Activity or to obtain and publish any reports, assessments, second party opinions and certifications or the fact that the maturity of an Eligible Activity may not match the minimum duration of any Positive Impact Notes will not (i) constitute a default pursuant to the General Terms and Conditions of the Notes or (ii) give a right to the Noteholders to request the early redemption, acceleration of the Positive Impact Notes held by it or give rise to any other claim or right or (iii) lead to an obligation of the Fiduciary to redeem the Positive Impact Notes or be a relevant factor for the Fiduciary in determining whether or not to exercise any optional redemption rights in respect of any Notes. For the avoidance of doubt, payments of principal and interest (as the case may be) on the relevant Positive Impact Notes shall not depend on the performance of the relevant project nor have any preferred right against such assets.

Any such event or failure to apply all or part of the net proceeds of any issue of Positive Impact Notes for any Eligible Activity as aforesaid and/or withdrawal of any second party opinion or certification attesting that the Fiduciary is not complying in whole or in part with any matters for which such second party opinion or certification is opining or certifying on may have an adverse effect on the value of such Positive Impact Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose and as a result, would have to dispose of the Positive Impact Notes at their prevailing market value. For the avoidance of doubt, it is however specified that payments of principal and interest (as the case may be) on the Positive Impact Notes shall not depend on the performance of the relevant Eligible Activities.

Any:

(i) failure to hold in its books an amount in Positive Impact Finance assets equivalent to 100% of the outstanding nominal amount of the Notes or to apply an amount equivalent to the outstanding aggregate nominal amount of the Notes to finance and/or refinance, in part or in full, Eligible Activities;

(ii) withdrawal of any opinion or certification or any opinion or certification being superseded by an opinion or certification stating that Societe Generale has not complied, in whole or in part, with any matters on which the original opinion or certification had opined or certified; and/or

(iii) lack of Eligible Activities in which Societe Generale may invest; and/or

(iv) event or circumstances resulting in the *Positive Impact Notes* no longer being listed or admitted to trading on any stock exchange or securities market,

does not affect the regulatory treatment of the Positive Impact Notes and may have a material adverse effect on the value of *Positive Impact Notes* and the value of any other securities which are intended to finance Eligible Activities and could also result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. As a result, these investors may have to dispose of the Positive Impact Notes at their prevailing market value which may be less than the investors' initial investment in the Positive Impact Notes. Investors may therefore lose part or all of their investment.

3.2.5 Risk linked to a high rate of inflation

Investor's attention is drawn to the fact that in the event of a high rate of inflation between the time when they acquired the Notes and the time when they will receive any returns on the Notes, the amount (if any) payable to investors may not allow investors to purchase assets, goods or services that they would have been able to purchase at the time of their investment in the Notes. Consequently, prospective investors should consider the risk of high inflation rates before investing in the Notes.

4. RISK FACTORS RELATING TO STRUCTURED NOTES

4.1 Common risks relating to all Structured Notes

Risks relating to the Underlying(s) - gap risk

The amounts due under the Structured Notes are calculated by reference to the prices of the Underlying(s) depending on the indexing formula for these amounts, it being specified that the past performance of an Underlying does not in any way prejudice its future performance. Potential investors are exposed to the risk of losing all or a substantial part of the amount invested. The issuers or owners of assets underlying the Notes do not participate in the offer of the Notes and have no obligation to take into account the interests of the Noteholders, when they take decisions likely to affect the value of these assets.

The relevant level, value or price of one or more Underlying(s) may change suddenly and significantly during the trading day or at the opening of the market. Such change may be positive or negative and is known as the "Gap Risk". If the price of the Notes includes a premium, this will be calculated to take account of the cost to the Fiduciary or its affiliates of unwinding its hedging positions in relation to the Notes on early redemption of the Notes and the Gap Risk associated with the relevant level, value or price of the Underlying(s). Noteholders will not receive a refund of this premium if an Automatic Early Redemption Event occurs, which could significantly reduce the return a Noteholder stands to receive on its investment.

Potential limitation in the benefit of the performance of the price of the Underlying(s)

If the applicable Final Terms provide that the exposure of the Notes to one or more Underlyings is limited or capped at a certain level or amount, the relevant Notes will not benefit from any upside in the value of any such Underlying(s) beyond such limit or cap. In this case, Noteholders will not receive as much from their investment as they would have done if they had invested directly in the Underlying(s) or in alternative Notes without such features. The likelihood of this occurring is dependent on the likelihood of the Underlying(s) performing such that the limit or cap affects the Notes.

Absence of rights in respect of the Underlying(s)

The Notes do not represent a claim against any Underlying (or any issuer, sponsor, manager or other connected person in respect of an Underlying) and Noteholders will not have any right of recourse under the Notes to any such Underlying (or any issuer, sponsor, manager or other connected person in respect of an Underlying). The Notes are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an Underlying and such entities have no obligation to take into account the consequences of their actions on any Noteholders and such consequences may have a negative impact on Noteholders. Investors in Physical Delivery Notes should also refer to "Risks relating to Physical Delivery Notes" above. In addition, Societe Generale, the Fiduciary and/or any entity of the Societe Generale's group may take any action in respect of the Underlying(s) and the Noteholders will have no right or claim against Societe Generale, the Fiduciary and/or any entity of the Societe Generale's group in respect of any amount that may be recovered by Societe Generale, the Fiduciary and/or any entity of the Societe Generale's group in respect of such Underlying.

4.2 Risks relating to Structured Notes linked to an Index

The policies of the sponsor of an index as regards additions, deletions and substitutions of the assets underlying the index and the manner in which the index sponsor takes account of certain changes affecting such underlying assets may affect the value of the index.

The policies of an index sponsor with respect to the calculation of an index could also affect the value of the index. An index sponsor may discontinue or suspend calculation or dissemination of information relating to its index. Any such actions could affect the value of the Notes and Noteholders may therefore lose part or all of their investment in the Notes.

An index sponsor may at any time during the life of the Notes discontinue or suspend calculation or dissemination of information relating to its index. As a consequence investors in Index Linked Notes are exposed to the risk of discontinuance of the operational capacity and expertise of the Index Sponsor to ensure the calculation and maintenance of the index according to the methodology in force throughout the life of the Notes.

4.3 Risks relating to Structured Notes linked to an SGI Index

Risk Factors

The composition of certain indices to which the Notes are linked, and the methodologies used in relation to these indices, can be determined and selected by Societe Generale or one of its related companies. In the choice of these methodologies, it can be expected that Societe Generale or the relevant related company of Societe Generale will take into account its own objectives and interests and / or those of the Group, and no guarantee can be given that the methodologies chosen will not be less favorable for the interests of investors than the methodologies used by other index sponsors in comparable circumstances.

If the hedging activities of Societe Generale or one of its related companies are disrupted in relation to a particular index, Societe Generale or the related company concerned may decide to end the calculations of this index, sooner than would another index sponsor in comparable circumstances. This could cause adjustments, de-indexation, substitution of the Index or the early redemption of the Notes.

Conflicts of interest in connection with proprietary indices

Societe Generale acts as sponsor of proprietary indices (**SGI Indices**). These indices are calculated by an external calculation agent in accordance with rules, which describe the methodology for determining the composition and calculation of these proprietary indices (the **Rules**).

(i) With regard to proprietary indices composed on a discretionary basis by Societe Generale or an affiliate of Societe Generale to which Notes are linked, Societe Generale may face a conflict of interest between its obligations as issuer of these Notes and as a composer of these indices, given that the determination of the composition of these indices may have an impact on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

(ii) With regard to proprietary indices composed by a third party to which the Notes are linked, Societe Generale may face a conflict of interest between its obligations as issuer of these Notes and as a sponsor of these indices, insofar as it can modify or supplement the Rules, in accordance with the Rules, which may have an impact on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

(iii) With regard to proprietary indices composed by the application of a mathematical formula in a non-discretionary manner by Societe Generale or any third party, Societe Generale may face a conflict of interest between its obligations as issuer of these Notes and as a sponsor of these indices, insofar as it may modify, in accordance with the Rules, certain parameters (such as the funding spread) or provide the assessment of certain components, which may have an impact on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

4.4 Risks relating to Structured Notes linked to a Fund

4.4.1 Risks relating to underlying Funds

Some Funds may have little or no oversight and regulation, which can increase the likelihood of fraud and negligence on the part of Fund managers and / or investment advisers, their brokerage firm or the banks.

The Funds may include complex tax structures and deferrals in the distribution of important tax information.

The Funds on which Structured Notes may be indexed may not publish information on their transactions and portfolios.

The members of the Group may from time to time obtain information on specific Funds, which may not be available to the general public in the ordinary course of their business, and not in relation to the offer of Notes (including as funds which are managed by managers part of Societe Generale group). As part of the ordinary course of their business, Group members may recommend, or decide not to recommend, certain specific Funds to their customers, which may appear, currently or in the future, among the underlying funds used in the redemption formula of Structured Notes. All the positions that may be taken by the members of the Group in respect of the expected future performance of one or more funds (including in respect of funds which are managed by managers part of Societe Generale group) do not constitute an indication of the future performance of this/these funds.

4.4.2 Fund managers' investment strategies

The fund managers (including a manager that is part of Societe Generale group) do not participate in the offer of the Notes in any way and have no obligation to take into account the interest of the Noteholders in taking measures which could have an impact on the value of the shares or units of the underlying funds and therefore on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

The manager and / or investment advisor of the Underlying Fund who implements the investment strategy of the Fund may decide to invest in financial assets or instruments which themselves carry risk with a view to maximizing profits, including by borrowing amounts that may represent more than 100% of the Fund's asset value. The manager and / or investment adviser may be all the more encouraged when his remuneration is indexed to the performance of the Fund. These elements can have a significant negative impact on the share / share of the Underlying Fund and therefore on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

4.4.3 Fund managers and/or investment advisors of the underlying fund(s)

The performance of underlying Fund(s) will depend to a considerable extent on the performance of the fund's managers and/or investment advisors of the Fund(s). Investors in Fund Linked Notes are therefore exposed to the risk of fraud and misrepresentation

by unaffiliated fund managers or investment advisers. In addition, the fund managers and/or the investment advisers may be removed or replaced, the allocation of assets may vary from time to time and the various positions of the investments of the underlying Fund(s) may be economically offsetting, all of which may affect the performance of the underlying Fund(s).

The fund managers and/or the investment advisers may manage or advise other funds and/or accounts and may have financial and other incentives to favour such other funds and/or accounts over the underlying Fund(s). Also, the fund managers and/or the investment advisers may manage or advise for their own accounts and the accounts of their clients and may make recommendations or take positions similar or dissimilar to those of the underlying Fund(s) or which may compete with the underlying Fund(s).

4.4.4 Fees, deductions and charges will reduce any amounts due by the Fiduciary under the Notes

Fund fees and expenses will be deducted from the net asset value of the fund that may offset the Fund's trading profits, and hence reduce the value of the Fund units.

Accordingly, to the extent that any amount due by the Fiduciary under the Notes is linked to the net asset value of a fund, such amount payable to Noteholders will be less than it would have been absent these fees, deductions and charges.

4.4.5 The illiquidity of the underlying Fund's investments or the occurrence of certain extraordinary events may cause the payment of the Final or Early Redemption Amount and/or any Intermediary Amount or any amount due by the relevant Fiduciary under the Notes to be reduced or delayed

The intermediary amounts or final redemption amounts and other relevant amounts due to investors in Fund Linked Notes depend on the redemption proceeds of the units / shares of the Fund which will be paid by the underlying under a valid redemption order given by a hypothetical investor with effect as of the relevant valuation date. Substantial redemption orders on units/shares of an underlying Fund on a particular day (including by Societe Generale in liquidating the hedge relating to Structured Notes) could require such funds to liquidate positions more rapidly than would be otherwise desirable and have a negative impact on the market value of the Notes. Many funds have provisions whereby redemption requests are scaled back if the aggregate amount of such requests reaches a predetermined limit or where redemption orders can be delayed or suspended discretionarily.

Investments of the underlying Fund may also not be readily saleable on or shortly after a redemption order if they are illiquid.

If the proceeds from the redemption of the units or shares have not been paid by the underlying Fund on the initially Scheduled Maturity Date or on any early redemption date, the payment of the intermediate amounts or final redemption amounts or any amount due by the Fiduciary may be postponed after the maturity date up to a maximum period of two years or as specified in the Final Terms. If at the expiry of this period, the underlying Fund has not paid in full the redemption proceeds or the units or shares, the intermediate and final redemption amounts or any amount due by the Fiduciary shall be determined by the Calculation Agent on the basis of what has actually been paid by the underlying Fund. The amount received by the investors in the Notes may be as low as zero.

4.4.6 Risks relating to master-feeder structure

The underlying Fund(s) may invest as a "feeder" fund of a "master" fund, alongside present and future additional investors or feeder funds. A "feeder" fund usually refers to a fund which pools the investment capital raised from investors and invests (or "feeds") such capital in an overarching umbrella fund (usually known as a "master" fund), which will be responsible for the investments in its portfolio.

The underlying Fund(s) may be materially affected by the actions of such other investors and feeder funds investing in the master fund, particularly if they have large investments in the master fund. If such other investors or feeder funds with a large investment in the master fund redeem from the master fund, illiquidity in certain securities or markets could make it difficult for the master fund to liquidate positions on favourable terms to effect such redemption, which could result in losses or a decrease in the net asset value of the unit/share of the master fund and hence in the market value of the Notes. In addition, to satisfy such redemptions, the sub-manager may need to liquidate the master fund's most liquid investments; leaving remaining investors (including the underlying Fund(s)) invested in more illiquid instruments. Such withdrawals may also leave the master fund with a less diversified pool of investments. This may increase the overall portfolio risk of the master fund, and, ultimately, the Notes. Conversely, the sub-manager of the master-fund may refuse a redemption request if it believes that such request, if fulfilled, would have a material adverse impact on the remaining investors of the master fund. This may negatively impact the liquidity of the master fund and, therefore, the performance of the underlying Fund(s) and the value of the Notes. Consequently, depending on the performance of the underlying Fund(s), Noteholders may lose part or all of their investment in the Notes.

4.5 Risks relating to Structured Notes linked to Credit

Noteholders are exposed, from a date specified in the applicable Final Terms, which may be earlier than the date of their decision to invest in the Notes or the Issue Date, to events related to the creditworthiness of the Reference Entities. Upon the occurrence of such events, the redemption amount paid or the value of the underlying assets received at maturity of the Notes (after deduction of the costs, break funding charges, loss of funding, tax and duties) determined by reference to the value of the debt of the Reference Entity may be less than the invested amount. In addition, interest-bearing Credit Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances.

In certain circumstances the period between the date on which the existence of a Credit Event is established and valuation may be as long as 180 days. Therefore, settlement, or as the case may be, notice that no amount is due under the Credit Linked Notes, may occur several months after the relevant Credit Event on a date which may be much later than the Scheduled Maturity Date of the Notes.

4.5.1 Risk in respect of Credit Linked Notes on Tranche Notes

Tranche Notes are Notes which are exposed to the credit risk of a list of Reference Entities, starting from an attachment point and ending on a detachment point (both expressed in percentages by reference to such list of Reference Entities).

The principal and interest payable to the Noteholder will start to be impacted when the sum of losses incurred on the list of Reference Entities will have reached the attachment point, and 100% of the principal and interest payable to the Noteholder will be fully lost when the sum of losses will have reached the detachment point. The sum of such losses is expressed in percentages by reference to the list of Reference Entities.

Compared to an investment in a basket of the same list of Reference Entities, investment in Tranche Notes creates a leverage effect on the credit risk exposure of the Reference Entities. When the trigger threshold for a credit event is reached, the principal and interest payable to the Noteholder will be impacted more strongly the closer the detachment point is and the faster the detachment point is reached. The leverage effect comes from the impact of each affected Reference Entity in Tranche Notes once the attachment point has been reached. The leverage effect depends on the width of the tranche (detachment point minus attachment point) and is much higher compared to the impact the same Reference Entity has in a basket of Reference Entities which are not Tranche Notes.

4.5.2 Risk in respect of Credit Linked Notes on Basket Notes

In respect of Basket Notes, the greater the number of Reference Entities subject to a Credit Event, the lower the Cash Redemption Amount will be. Conversely, the fewer the Reference Entities, the greater the impact of a Credit Event affecting one of them will be on the Final Redemption Amount.

4.5.3 Risk in respect of Credit Linked Notes on bespoke Basket Notes

In respect of bespoke Basket Notes, the greater the number of Reference Entities subject to a Credit Event, the lower the Cash Redemption Amount will be. Conversely, the fewer the Reference Entities, the greater the impact of a Credit Event affecting one of them will be on the Final Redemption Amount.

The concentration of the Reference Entities in any one industry or geographic region would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry or geographic region.

4.5.4 Increased risk in respect of First-to-Default Notes

First-to-Default Notes are Notes where the credit risk to the Noteholder is materialised on the occurrence of the first credit event of any Reference Entity in a basket of Reference Entities. Given that the credit risk to the Noteholder can materialise on the occurrence of the first credit event of any Reference Entity in the basket, the Noteholder can lose a significant part or all of its investment in the Notes as soon as one single Reference Entity in the basket becomes subject to a credit event. In addition, the more Reference Entities there are in the basket of Reference Entities, the more likely it is that a credit event can occur, and the greater the degree of risk that the Noteholder may lose its entire principal invested in the Notes.

4.5.5 Valuation and settlement in case of Credit Event

Under the terms of the Notes, where Societe Generale acts as Calculation Agent, it may, for the purposes of determining the Cash Redemption Amount under the Quotation Dealers Method or the Physical Delivery Amount (each as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes) following one or more Credit Event(s), select obligations with the lowest price of any obligations which meet the relevant criteria. This may affect the value of the Notes and Noteholders may therefore lose part or all of their initial investment in the Notes.

4.5.6 Floating recovery

Where Floating Recovery is specified in the related Final Terms, the terms of the Credit Linked Notes provide that the Calculation Agent will, depending on the election mentioned in the related Final Terms, determine the Final Value either by obtaining quotations from Quotation Dealers in respect of Selected Obligation(s) or by reference to Transaction Auction Settlement Terms (as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes). In this regard, investors should note that: (A) the Final Value as determined by reference to Transaction Auction Settlement Terms may be lower than the Final Value determined otherwise and will typically reduce the Cash Redemption Amount; and (B) (i) if Transaction Auction Settlement Terms are not published or (ii) a Fallback Settlement Event (as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes) occurs within a certain period and if it is not possible to obtain quotations from Quotation Dealers for the Selected Obligations within a further period, the Final Value of the Selected Obligations (as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes) will be deemed to be zero and therefore the Cash Redemption Amount will be equal to zero.

4.5.7 Fixed Recovery

Where Fixed Recovery is specified in the applicable Final Terms (which can be zero), the terms of the Credit Linked Notes provide that the Final Value of a Reference Entity in respect of which a Credit Event Determination Date has occurred will be equal to the fixed percentage of the Nominal Amount specified in the applicable Final Terms (which can be zero).

This percentage may be lower than the recovery value, which would have been determined by reference to prices quoted by market participants or by using an auction valuation method in respect of such Reference Entity, or even be equal to zero.

4.5.8 Deferral of valuation and/or payments

In certain circumstances the period between the date on which the existence of a Credit Event is established and valuation may be as long as 180 days therefore, settlement, or as the case may be, notice that no amount is due under the Credit Linked Notes, may occur several months after the relevant Credit Event on a date which may be much later than the Scheduled Maturity Date of the Notes. If this occurs, this could adversely affect the value of the Notes and Noteholders may therefore lose part or all of their initial investment in the Notes. Also it is possible that no payment on the Notes may be due to the Noteholders on the Scheduled Maturity Date. If this occurs, this could adversely affect the value of the Notes and Noteholders may therefore lose part or all of their initial investment in the Notes. Also it is possible that no payment on the Notes may be due to the Noteholders on the Scheduled Maturity Date.

4.6 Risks relating to Structured Notes linked to a Foreign Exchange Rate

The performance of Foreign Exchange Rates, currency units or units of account are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, fiscal and monetary policy, government debt, currency convertibility and safety of making financial investments in the currency concerned, speculation and intervening measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates as well as the availability of a specified currency. Any such measures could have a negative impact on the performance of a Foreign Exchange Rate and consequently the value of the Notes.

Currency exchange risks can be expected to heighten in periods of financial turmoil. In periods of financial turmoil, capital can move quickly out of regions that are perceived to be more vulnerable to the effects of a crisis with sudden and severely adverse consequences to the currencies of those regions as a result. In addition, governments around the world have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. It is not possible to predict the effect of any future legal or regulatory action relating to a currency. Further interventions, other government actions or suspensions of actions, as well as other changes in government economic policy or other financial or economic events affecting the currency markets – including the replacement of entire currencies with new currencies - may cause Foreign Exchange Rates to fluctuate sharply in the future, which could have a negative impact on the value of the Notes.

4.7 Risks relating to Structured Notes linked to Preference Shares or Warrants

The market value of the Preference Shares or Warrants to which Notes are linked will fluctuate up or down depending on the performance of the relevant underlying(s) or basis of reference to which the Preference Shares or Warrants are linked (the Preference Share Underlying or Warrant Underlying) such as equity, debt or derivative securities, indices, investments, funds, exchange traded funds, commodities, credit, baskets of securities or indices, currencies and portfolios. The composition of the relevant Preference Share Underlying(s)/Warrant Underlying(s) may be designed to change over time as a result of performance or other factors.

As a result, if the performance of the Preference Share Underlying/Warrant Underlying is negative, the value of the Preference Share Linked Notes/Warrant Linked Notes will be adversely affected. Purchasers of Preference Share Linked Notes/Warrant Linked Notes risk losing all or a part of their investment if the value of the Preference Shares/Warrants falls.

The basis and rate of taxation in respect of Preference Share Linked Notes/Warrant Linked Notes and reliefs depend on each investor's individual circumstances and could change at any time. This could have a negative impact on the return of the Preference Share Linked Notes/Warrant Linked Notes. In the event that the Preference Share Linked Notes/Warrant Linked Notes pay a coupon other than on redemption (such term including early or final redemption), prospective investors should be aware that such coupon will likely be subject to income tax.

4.8 Risks relating to Structured Notes linked to Inflation

The level of an Inflation Index may lag or otherwise not track the actual level of inflation in the relevant jurisdiction.

Inflation Indices may not correlate with other indices and may not correlate perfectly with the rate of inflation observed by purchasers of the Inflation Linked Notes in such jurisdiction. The value of the Inflation Linked Notes which are linked to an Inflation Index may be based on a calculation made by reference to such Inflation Index for a month which is several months prior to the date of payment on the Inflation Linked Notes and therefore could be substantially different from the level of inflation at the time of the payment on the Inflation Linked Notes.

Upon the occurrence of certain events in relation to an Inflation Index, e.g., the Inflation Index level has not been published or is discontinued or is corrected or such Inflation Index is rebased or materially modified, then depending on the particular event, the Fiduciary may determine the level, substitute the original Inflation Index, adjust the terms and conditions of the Inflation Linked Notes or redeem the Inflation Linked Notes. Any such event and its consequences may have an adverse effect on the value of the Inflation Linked Notes.

4.9 Risks relating to Structured Notes linked to exchange traded product (ETP) and to exchange traded fund (ETF)

4.9.1 Exchange traded products and Exchange traded funds are subject to market trading risks

An ETP or an ETF faces numerous market trading risks, including but not limited to the potential lack of an active market, losses from trading in secondary markets, periods of high volatility, limited liquidity and disruption in the creation or redemption process of such ETP or such ETF. If any of these risks materialises, this may lead to the ETP or ETF shares trading at a premium or discount to its fair market value.

4.9.2 Action or non-performance by the ETP issuer, the sponsor of the ETP or the Calculation Agent or by the management company, fund administrator or sponsor of an ETF that may adversely affect the Notes

In case of an ETP Linked Notes, the ETP issuer and/or the sponsor of the ETP and in case of an ETF Linked Notes, the management company, fund administrator or sponsor of an ETF will have no involvement in the offer and sale of the Notes and will have no obligation to any purchaser of such Notes. In its day-to-day operations and its investment strategy, an ETP will rely on the ETP issuer, the sponsor of the ETP and the Calculation Agent and an ETF will rely on the fund advisor, the investment advisor, the management company and/or on third parties providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments used by such ETF to employ its investment strategy. The insolvency or non-performance of services of any such persons or institutions may expose an ETP or an ETF to lose value. Failure of procedures or systems, as well as human error or external events associated with, in case of an ETP, an ETP's issuer, sponsor or Calculation Agent and in case of an ETF, an ETF's management and/or administration, may reduce the value of the ETP or the ETF and affect the market value of the Notes.

4.9.3 Credit risk of the issuer of the ETP or the ETF

The value of the ETP Linked Notes or the ETF Linked Notes is dependent on the value of the ETPs or the ETFs, which will depend in part on the creditworthiness of the issuer of the ETPs or of the ETFs, which may vary over the term of the relevant Notes. A change in the creditworthiness of the issuer of the ETPs or of the ETFs may therefore affect the performance of the ETPs or ETFs respectively, and the value of Notes linked to ETPs or ETFs (as the case may be). Consequently, depending on the performance of such ETPs or ETFs, Noteholders may lose part or all of their investment in the ETP Linked Notes or the ETF Linked Notes.

4.9.4 Exposure to the ETP Underlying

ETPs usually aim to track the performance of an underlying financial instrument or basket thereof, which may include, without limitation, listed equities, commodities, interest rates, foreign exchange rates, debt instruments, derivatives or any index thereof (the **ETP Underlying**). In addition, when compared to exchange traded funds, exposure to ETPs may involve a higher level of leverage and/or short exposures and/or more concentrated exposures.

Prospective investors should also consider the risk factors in respect of the risks involved in investing in ETPs including, without limitation, risks relating to the ETP Underlying and to the underlying economics of the ETPs. Consequently, prospective investors should review the ETP Conditions and consult with their own professional advisers if they consider it necessary.

4.9.5 Risk that the ETP does not accurately track its underlyings' performance

Where the Notes are linked to an ETP, Noteholders are exposed to the performance of such ETP and not necessarily the performance of the ETP Underlying. Accordingly, investors who purchase Notes that are linked to an ETP may receive a different return than if such investors had directly invested into the ETP units or the ETP Underlyings.

4.9.6 Where the underlying asset is an exchange traded fund, there is a risk that such Exchange Traded Fund will not accurately track its underlying share or index

Where the Notes are linked to an exchange traded fund (an ETF) and the investment objective of such ETF is to track the performance of a share or an index, the investors of such Notes are exposed to the performance of such ETF rather than the underlying share or index such ETF tracks. For certain reasons, including to comply with certain tax and regulatory constraints, an ETF may not be able to track or replicate the constituent securities of the underlying share or index, which could give rise to a difference between the performance of the underlying share or index and such ETF. Accordingly, investors who purchase Notes that are linked to an ETF may receive a lower return than if such investors had invested in the share or the index underlying of such ETF directly.

4.9.7 Exchange traded funds not actively managed

If the investment objective of an ETF is to track the performance of an index or other asset, such ETF will invest in instruments included in, or that are representative of, the index or other asset it is tracking regardless of their investment merits. The performance of such ETF may be affected by general movements in market segments related to the index or other asset it is tracking, and such general movements in market segments may therefore affect the value of Notes linked to such ETF. Consequently, depending on the performance of such ETF, Noteholders may lose part or all of their investment in the ETF Linked Notes.

4.9.8 Exchange traded funds may engage in securities lending

Securities lending involves the risk that the ETF may lose money because the borrower of the ETF's loaned securities fails to return the securities in a timely manner or at all or that insufficient collateral has been posted in respect of such securities lending transaction. Securities lending carried out by the ETF may therefore affect its performance and the value of Notes linked to such ETF. Consequently, depending on the performance of such ETF, Noteholders may lose part or all of their investment in the ETF Linked Notes.

4.10 Risks relating to Structured Notes linked to a Reference Rate

The performance of the Reference Rates is dependent on economic factors, including inflation rates in the relevant countries, economic forecasts, international political factors, monetary and fiscal policy, government debt, speculation and actions taken by governments and central banks. Such factors could have a negative impact on the performance of the Reference Rate and consequently on the value of the Notes. These factors can be expected to intensify in periods of financial turmoil.

4.11 Risks relating to Future Linked Notes

An investment in Future Linked Notes may bear similar market risks as a direct investment in the relevant future contract(s). The value of the future contract(s) underlying the Notes may vary over time and may increase or decrease by reference to a variety of factors which include the factors affecting the Future Underlier, as defined in the Additional Terms and Conditions for Future Linked Notes.

Futures contracts have a predetermined Expiry Date as defined in the Additional Terms and Conditions for Future Linked Notes. If the applicable Final Terms specify that Roll Adjustment applies, the Notes are valued by reference to futures contracts that have an Expiry Date that does not correspond to the term of the Notes, consequently the Calculation Agent will roll the Future Contracts (the **Roll Adjustment**) which means that the future contracts that is the closest to expiration (the **Active Future Contract**) will be replaced before it expires by a future contract that has an Expiry Date later in the future (the **Next Active Future Contract**).

On each Roll Date, the price of the Active Future Contract may be lower than (respectively higher than) the price of the Next Active Future Contract if the future curve is in contango (respectively in backwardation). The Roll Adjustment may as a consequence have either a positive or negative impact on the value of the Note. This may result in a partial or total loss of the investment in the Notes.

In addition to the effects of contango and backwardation, each "roll" may generate costs that will be taken by the Calculation Agent. These costs correspond to the expenses incurred in replacing the futures contract (transaction costs) and may have an adverse effect on the return of the Notes.

Prospective purchasers of Notes should be aware that in respect of Notes on futures contract that are rolled, the potential negative impact on the value of the note induced by the roll may lead to a performance of the Notes lower than the performance that would have been generated by Notes on the Future Underlier itself.

4.12 Risks relating to Portfolio Linked Notes

The market value of Portfolio Linked Notes will fluctuate up or down depending on the performance of the relevant components of the Portfolio such as equity, debt or derivative securities, indices, investments, funds, exchange traded funds, commodities, credit, baskets of securities or indices, currencies and portfolios. Such performance may be affected by changes in the value of the different components in the Portfolio to which the relevant issue of Portfolio Linked Notes relates. This value may be affected by (i) the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any component comprising the Portfolio may be traded, (ii) risks highlighted in section 4 (*Risk factors relating to Structured Notes*) relating to individual types of underlyings which are included in the relevant Portfolio and (iii) other factors set out elsewhere in "*Risk Factors*". The composition of the Portfolio may be designed to change over time as a result of performance or other factors.

As a result, if the performance of the Portfolio is negative, the value of the Portfolio Linked Notes reference will be adversely affected. Purchasers of Portfolio Linked Notes risk losing all or a part of their investment if the value of the Portfolio falls. Consequently, prospective investors, when considering investing in Portfolio Linked Notes, should also consider the risk factors linked to the Portfolio Components.

In addition, there may be correlation between price movements of one component and the price movements of another component of the Portfolio that may have a negative impact on the value of the Portfolio. As such, the value of Portfolio Linked Notes can therefore be volatile and this may result in Noteholders losing all, or a substantial part, of their investment.

In addition, Portfolio Linked Notes may be subject to a number of costs which would negatively impact the value of the Portfolio Linked Notes.

4.13 Risks relating to Portfolio Linked Notes

- Exposure to the Dynamic Portfolio

Holders of Notes linked to a Dynamic Portfolio are exposed to the risk of changes in the market value of such Notes resulting from both changes in the prices of the assets comprising the Dynamic Portfolio and recommendations for replacement or weighting of the assets comprising the Weighting Adviser's Portfolio. Consequently, depending on the performance of such Dynamic Portfolio and the market value of Notes linked to such Dynamic Portfolio, Noteholders may lose part or all of their investment in such Notes.

- Risks relating to the Weighting Advisor

Investors in Portfolio Linked Notes are exposed to the risk of the operational capacity and expertise of the Weighting Adviser to provide recommendations for replacement or weighting of the assets comprising the Portfolio throughout the life of the Notes.

Even though the Fiduciary and the Calculation Agent have designated the Weighting Advisor, the Weighting Advisor shall act in the exclusive interest of the Noteholders. Consequently, the Weighting Advisor is exclusively responsible to the Noteholders for any recommendations for replacement or weighting of the assets comprising the Portfolio or for any fraud, negligence or misrepresentation.

In addition, in the event of termination of the Weighting Advisory Agreement, investors are exposed to the risk of de-indexation to the Dynamic Portfolio and a monetary return, replacement of the Weighting Advisor or early redemption of the Notes.

The occurrence of any of these events may impact on the market value of the Notes and may result in the total or partial loss of the amount invested in the Notes.

Noteholders should refer to the Weighting Advisory Agreement for more information.

- Risk of conflict of interests between the Fiduciary, the Guarantor, the Calculation Agent and the Weighting Advisor and the Noteholders

The Fiduciary, the Guarantor, the Calculation Agent or the Weighting Advisor, may engage in trading and other business activities relating to the Portfolio Components without regard to the Notes and that are not for the Noteholders' accounts or on behalf of the Noteholders. Such trading and other business activities could create conflicts between the interests of the Fiduciary, the Guarantor, the Calculation Agent and the Weighting Advisor on the one hand, and the interests of the Noteholders on the other hand, which could have an adverse impact on the value of and return on the Notes. Consequently, investors may lose part or all of their investment in the Notes.

4.14 Risks relating to Structured Notes Linked to Dividend

Prospective investors in Dividend Linked Notes should be aware that, depending on the specific terms and conditions of the relevant Dividend Linked Notes, (i) they might only receive a limited amount of interest or no interest at all, (ii) payment of principal or interest could occur at a time other than that stipulated and (iii) they could lose all or a substantial part of their investment.

In addition, dividend levels can be subject to significant fluctuations which bear no relation to fluctuations in interest rates, currencies or other indices, and the timing of such variations can impact the real yield realised by investors, even in cases where the average level is in accordance with expectations.

The earlier the change in the dividend amount or the amount resulting from a formula occurs, the greater the impact on yield. The market price of such Notes can be volatile and might depend on the length of the residual maturity and the volatility of the dividend amounts.

5. RISKS RELATING TO THE FIDUCIARY ASSETS AND THE FIDUCIARY STRUCTURE

5.1 Risks relating to the Fiduciary Assets

All payments to be made by the Fiduciary in respect of the Notes will only be due and payable from and to the extent of the sums received or recovered from time to time by or on behalf of the Fiduciary in respect of the Fiduciary Assets (as defined in the General Terms and Conditions).

Following the occurrence of a Collateral Liquidation Event, the claims of the Noteholders will be subordinated to certain other payment obligations owed by the Fiduciary as described in "Priority of Claims" below.

The Fiduciary Assets are limited to the claims of the Fiduciary against the Fiduciary Asset Obligors (as defined in the General Terms and Conditions) in respect of that Series of Notes.

Under the Law, Noteholders have no direct right of action against any Fiduciary Asset Obligor to enforce their rights under the Notes or to compel any Fiduciary Asset Obligor to comply with its obligations under the Collateral Assets, even in the case of the Fiduciary's failure to act or the insolvency of the Fiduciary.

Lack of diversification of the Collateral Assets

In case of low diversification of the Collateral Assets in a Collateral Pool pursuant to the Collateral Rules and the Eligibility Criteria, any depreciation in the value of such assets in the period between the most recent Collateral Test Date and the realisation of the Collateral Assets will have a proportionally larger impact on any shortfall as the amount recovered in respect of the Collateral Assets on their sale will be dependent on the then current market value of a smaller range of Collateral Assets.

"Haircut" applied to Collateral Assets

The level(s) of Haircut specified in the applicable Final Terms is intended to reflect the risk of a depreciation in the value of Collateral Assets in the period between the most recent Collateral Test Date and the date on which such Collateral Assets may be realised. Investors should note that the value of a Collateral Asset may change over time and the Haircut applied to the Collateral Assets may become outdated and may not provide suitable protection against a potential depreciation in value of the relevant Collateral Asset.

Illiquid Collateral Assets

Certain of the Collateral Assets may be illiquid and not easily or not at all realisable in certain market circumstances or can only be sold at a discounted value. In that case, investors may receive the delivery of the Collateral Assets as if Physical Delivery of Collateral Assets were applicable in relation thereto.

NOTEHOLDERS SHOULD RECOGNISE THAT NOTEHOLDERS BEAR A RISK OF A DEFAULT OF THE COLLATERAL ASSETS AS WELL AS ANY DECLINE IN VALUE OF THE COLLATERAL ASSETS.

5.2 Correlation between the value of the Collateral Assets and the creditworthiness of the Related Agreement Counterparty and the Guarantor

In the event that there is a positive correlation between the value of the Collateral Assets and the creditworthiness of the Related Agreement Counterparty and the Guarantor, the value of the Collateral Assets may vary in the same way as the creditworthiness of the Related Agreement Counterparty and the Guarantor.

A default by the Related Agreement Counterparty and/or the Guarantor in relation to their obligations under the Notes may be associated with a fall in the value of Collateral Assets.

The value of Collateral Assets required to be posted in the Collateral Pool will be based on the market value of the Secured Note which takes into account the Related Agreement Counterparty's and the Guarantor's creditworthiness whereas, following a Fiduciary Event, the market value determined by the Calculation Agent (which determines the claim that a holder of the Non-Waived Notes has on the Related Agreement Counterparty and/or the Guarantor), will not take into account the Related Agreement Counterparty's or the Guarantor's creditworthiness and will not decrease following such Fiduciary Event. As a result, the claim of the Noteholders against the Fiduciary/Guarantor may be significantly higher than the value of the Collateral Assets.

5.3 Frequency of Collateral Test Dates

The lower the frequency of the periodic Collateral Test Dates specified in the applicable Final Terms and hence the greater the period of time between each such periodic Collateral Test Date (or even in the absence of any Collateral Test Date) the more likely it is that upon liquidation of the Collateral Assets, the proceeds of such liquidation that a Noteholder will receive or, where Physical Delivery of Collateral Assets is applicable, the value of the Collateral Assets delivered, will be less than the amounts due to Noteholders in respect of the Notes.

5.4 Related Agreement Counterparty's transfer right

The Related Agreement Counterparty is entitled to transfer (the **Transfer Right**) all of its rights and obligations under the Swap Agreement and the Securities Lending Agreement to a replacement counterparty (the **Replacement Related Agreement Counterparty**).

Following exercise of the Transfer Right, Noteholders will be exposed to the credit risk of the Replacement Related Agreement Counterparty and a failure by the Replacement Related Agreement Counterparty to perform its duties and obligations with respect to a Related Agreement will adversely affect the ability of the Fiduciary to perform its obligations owed to the Noteholders under the Terms and Conditions of the Notes.

There are no restrictions on when Societe Generale is entitled to exercise the Transfer Right and Societe Generale may do so in circumstances which are adverse to the interests of Noteholders. The interests of any Replacement Related Agreement Counterparty may conflict with the interests of Noteholders. Furthermore, exercise of the Transfer Right by Societe Generale may have an adverse impact on the value of the Notes.

5.5 Potential conflicts of interest between Noteholders and the Related Agreement Counterparty

If the Related Agreement Counterparty is entitled to exercise any discretions under a Related Agreement, then the Related Agreement Counterparty will be entitled to act in its absolute discretion and will be under no obligation to, and will not assume any fiduciary duty or responsibility to, the Noteholders or any other person. In exercising any such discretion, the Related Agreement Counterparty will not be required to take the interests of the Noteholders into account and will not be liable to account to the Noteholders or any other person for any profit or other benefit to it or any of its affiliates that may result directly or indirectly from any such exercise of discretion.

5.6 Risk of a delay in the liquidation of the Collateral Assets

In the event of the insolvency of the Fiduciary, the Disposal Agent or the Collateral Custodian, the liquidation of the Collateral Assets may be delayed either by the appointment of an insolvency administrator or other insolvency official in relation to Fiduciary, the Disposal Agent or the Collateral Custodian or by measures ordered by a competent court. Such delay could adversely affect the position of the Noteholders in the event of a depreciation in the value of the Collateral Assets during such period.

The Collateral Custodian, the Disposal Agent and the Paying Agents are part of the same group and in the event of the insolvency of one entity it is possible that another entity may also be insolvent. Such circumstances may lead to a delay in the liquidation of the Collateral Assets.

6. RISK FACTORS SPECIFIC TO SECURED NOTES

6.1 Secured Notes with Variable Collateralisation

The Collateral Agent has the option to adjust the Collateralisation Percentage of Secured Notes with Variable Collateralisation during the terms of such Notes and the Collateralisation Percentage may be set as low as zero.

Investors in Secured Notes with Variable Collateralisation may be exposed partially or fully to the credit risk of the Guarantor. In particular, where the Collateralisation Percentage is at zero, investors may be fully exposed to credit risk on the Guarantor and their investment may not be collateralised by any Collateral Assets.

Investors should be aware that the secondary market value of Secured Notes with Variable Collateralisation is dependent on various factors, including the prevailing value of the implied funding spread of the Guarantor and the implied market cost of collateralisation. Investors seeking to have their Notes repurchased before maturity may be adversely affected by these factors and the repurchase price may be less than their original investment.

6.2 Risks relating to the Collateral Assets

There is no guarantee that the Collateral Assets will be sufficient to ensure that the amounts available for distribution or the value of the Collateral Assets available to be delivered will be sufficient to pay all amounts due to Noteholders in respect of the relevant Series of Secured Notes and as a result, investors may lose a substantial portion of their investment due to the fact that the market value of the Collateral Assets and the Notes may vary at any time and investors may be exposed to the difference between the Required Collateral Assets Value and the Collateral Value. In addition, Collateralisation Percentage may be lower than 100%.

The value of the assets used as collateral value can be 3 per cent lower than the required collateral asset value. This tolerance threshold amplifies most of the risks associated with the Notes described herein and in particular the risk that following enforcement of Collateral Assets, the amounts available for distribution or the value of the Collateral Assets available will not be sufficient to pay all amounts due to Noteholders in respect of the relevant Series of Notes.

7. RISKS RELATING TO THE FIDUCIARY SECURITIES THAT ARE REPACK NOTES

Holders of Repack Notes are exposed as from a date specified in the Final Terms (which may be earlier than the date of their decision to invest in the Notes or the Issue Date) to events (specified in the Final Terms) relating to the creditworthiness of the relevant Bond Issuer. In the event of the occurrence of one of these events, the redemption amount paid or the value of the Bond received at maturity of the Notes (after deduction of costs, breakage costs, loss of funding, taxes and duties) may be less than the amount invested. In addition, Repack Notes may cease to bear interest on or before the date of occurrence of such events. Investors' attention is drawn to the fact that no amount, or an amount reduced of, may be due under the Repack Notes and settlement (whether American Settlement or European Settlement is specified in the applicable Final Terms) may occur several months or years after the relevant Bond Event and on a date which may be later than the Scheduled Maturity Date of the Notes.

7.1 Concentration Risk

The concentration of the Bond Issuers in any one industry or geographic region would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry or geographic region.

7.2 Discretion to determine if a Bond Event has occurred and to decide whether to give notice or not

In addition to the general risk relating to the activity of the Calculation Agent, the Calculation Agent may decide whether to give notice or not that a Bond Event has occurred with respect to any Bond. A Noteholder may disagree with Publicly Available Information contained in the Bond Event Notice delivered by or on behalf of the Fiduciary to the relevant Clearing System for the Noteholders' information, but will nevertheless be bound by that determination under the terms of the Notes.

7.3 Floating Recovery

Where Floating Recovery is specified in the related Final Terms, the Calculation Agent will determine the Bond Final Value by obtaining quotations from Quotation Dealers in respect of the Bonds. In this regard, investors should note that: (i) the Bond Final Value as determined by the Calculation Agent may be lower than the Bonds' market value determined otherwise and will typically reduce the Cash Redemption Amount, and (ii) such Bond Final Value cannot exceed 100% (unless otherwise specified in the applicable Final Term) of the Bond Notional Amount irrespective of the Bonds market value determined otherwise.

7.4 Fixed Recovery

Where Fixed Recovery is specified in the related Final Terms, the Bond Final Value of a Bond in respect of which a Bond Event Determination Date has occurred will be equal to the fixed percentage of the Specified Denomination specified in the related Final Terms.

This percentage may be lower than the recovery value which would have been determined by reference to prices quoted by market participants or by using an auction valuation method in respect of such Bond, or may even be equal to zero.

7.5 Breakage Cost Amount

If a Bond Event Determination Date occurs in respect of a Bond, Noteholders are exposed to the mark-to-market variation between the First Bond Event Occurrence Date and the Bond Final Value Determination Date equal to the costs (if positive) or gains (if negative) of the Fiduciary in terminating the Securities Lending Agreement and, if any, in terminating the Collateral Transfer Agreement with the Related Agreement Counterparty, including the costs or gains of Societe Generale of unwinding any hedging arrangement(s) in relation to the refinancing of the Bond and/or the Collateral Assets (if any), in all cases after accounting for any related fees or expenses. As a consequence, the Cash Redemption Amount to be received by the Noteholders will be reduced, potentially to zero.

7.6 Deferral of valuation and/or payments

Investors' attention is drawn to the fact that no or a reduced Cash Redemption Amount might be due under the Repack Notes and settlement (whether American Settlement or European Settlement is specified in the applicable Final Terms), may occur several months or years after the relevant Bond Event and on a date which may be later than the scheduled Maturity Date of the Notes.

7.7 Ranking of the Bonds

Depending on the ranking of the obligations of the Bonds, such Bonds may rank junior in priority of payment to unsubordinated creditors, to holders of subordinated obligations expressed by their terms to rank in priority to the Bonds and/or to creditors preferred by mandatory and/or overriding provisions of law. In the event of incomplete payment to creditors that rank senior to the ranking of the Bonds, the obligations of the Bond Issuer and/or the Bond Guarantor, as the case may be, in connection with the Bonds may be terminated. The ranking of the Bonds may accordingly increase the credit risk on the Bond Issuer and/or the Bond Guarantor as the case may be and as a result may increase the likelihood of the occurrence of a Bond Event(s).

7.8 Market Trigger Event

If the applicable Final Terms specify that Market Trigger Event is "Applicable", if the Calculation Agent determines that the secondary mid price of the Notes has fallen below a certain level for a certain period (each as specified in the applicable Final Terms) the Notes may be early redeemed at an amount equal to the Market Trigger Event Bond Market Value (which may be as low as zero) minus the Market Trigger Event Swap Price (which may be a positive or negative amount) and minus the Market Trigger Event Unwind Costs (which may be a positive or negative amount) resulting in a redemption amount payable on the notes as low as zero, this amount being subject to a floor value equal to zero. As a consequence, the investor may lose all or part of the invested amount.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFER OF NOTES GENERALLY

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. None of the Fiduciary, the Guarantor, the Arranger or the Dealers represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering.

In particular, unless specifically indicated to the contrary in the applicable Final Terms, no action has been taken by the Fiduciary, the Guarantor, the Arranger or the Dealers which is intended to permit a non-exempt offering of any Notes outside the European Economic Area (EEA) or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Note comes must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes (see "*Subscription, Sale and Transfer Restrictions*").

Each prospective investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each prospective investor may wish to consider, either on its own or with the help of its financial and other professional advisers whether it:

Important Information

(i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained in, or incorporated by reference into, this Base Prospectus or any applicable Supplement and in the applicable Final Terms;

(ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

(iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the prospective investor's currency;

(iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant underlying and financial markets; and

(v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

INDEPENDENT REVIEW AND ADVICE

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules. Prospective investors should also conduct such independent investigation and analysis regarding the Fiduciary, the Guarantor, the Notes and all other relevant market and economic factors as they deem appropriate to evaluate the merits and risks of an investment in Notes.

A prospective investor may not rely on the Fiduciary, the Guarantor, the Arranger or the Dealer(s) or any other member of the Group in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

ASSESSMENT OF INVESTMENT SUITABILITY

Each prospective investor in the Notes must determine the suitability of that investment in light of its own financial circumstances and investment objectives, and only after careful consideration with its financial, legal, tax and other advisers. In particular, each prospective investor should:

(i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable Supplement;

(ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

(iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes;

(iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and

(v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A prospective investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the prospective investor's overall investment portfolio. Some Notes which are complex financial instruments may be redeemable at an amount below par in which case investors may lose the value of part or their entire investment.

NO LEGAL AND TAX ADVICE

Neither the Fiduciary nor the Guarantor are giving legal or tax advices to the investors. Each prospective investor should consult its own advisers as to legal, tax and related aspects relating to an investment in the Notes. A Noteholder's effective yield on the Notes may be diminished by the tax on that Noteholder of its investment in the Notes.

LEGALITY OF PURCHASE

None of the Fiduciary, the Agents or any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective purchaser with any law, regulation or regulatory policy applicable to it.

TAXATION

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available in relation to the tax treatment of financial instruments such as the Notes. **The tax legislation of the investor's Member State and of the Fiduciary's country of incorporation may have an impact on the income received from the securities.** Prospective investors are advised to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, disposal and redemption in respect of the Notes. Only such adviser is in a position to duly consider the specific situation of the prospective investor.

TAXATION IN LUXEMBOURG - JURISDICTION OF THE FIDUCIARY

The following information is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it construed to be, legal or tax advice. In particular, the below does not address any potential implication that the Luxembourg law dated 25 March 2020 implementing EU Council Directive 2018/822/EU of 25 May 2018 amending the Directive 2011/16/EU on administrative cooperation in the field of taxation as regards mandatory automatic exchange of information in the field of taxation in relation to reportable cross-border arrangements in order to disclose potentially aggressive tax planning arrangements (also commonly referred to as **DAC 6**) may have.

Prospective investors in the Notes should consult their professional advisers with respect to particular circumstances and the effects of state, local or foreign laws to which they may be subject. Holders of Notes who are in doubt as to their tax positions should consult their professional advisers. However, investors should note that under Luxembourg law the Fiduciary is not regarded as the beneficial owner of the Fiduciary Assets. Therefore it is possible that the Noteholders' tax treatment will depend on the type of income and gains arising from the Fiduciary Assets and the Noteholders' proportionate share of such income and gains. The Fiduciary has no obligation to inquire as to tax residence or status of the holder of any of the Notes or the tax treatment of such income and gains in the hands of such holders. In particular, the Fiduciary will not be obliged to make any application for double tax treaty relief or claim a refund of tax in relation to tax withheld at source in relation to such income and gains.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy, impost or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax encompasses corporate income tax (impôt sur le revenu des collectivités), municipal business tax (impôt commercial communal), an employment fund's contribution (contribution au fonds pour l'emploi) as well as personal income tax (impôt sur le revenu) generally. Investors may further be subject to net wealth tax (impôt sur la fortune) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the employment fund's contribution invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax and the employment fund's contribution. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

A. Taxation of the Holders of the Notes

WITHHOLDING TAX

a. Non-resident Noteholders

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident Noteholders, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident Noteholders.

b. Resident Noteholders

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the **RELIBI**), there is no Luxembourg withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by Luxembourg resident holders of the Notes.

Under the **RELIBI**, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 20% (the

20% Withholding Tax). Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the RELIBI would be subject to the 20% Withholding Tax.

Pursuant to the RELIBI, Luxembourg resident individuals, acting in the course of their private wealth, can opt to self-declare and pay a 20% tax levy (the **20% Self-applied Tax**) on interest payments made by paying agents (for the purposes of RELIBI) located in a EU Member State or a State of the European Economic Area other than Luxembourg. If such an option is exercised by an individual holder for a fiscal year, that option is irrevocable for that individual holder for that fiscal year, and makes that individual responsible for applying and paying the 20% Self-applied Tax in respect of interest they receive on Notes. For these purposes, the 'paying agent' under the RELIBI is the economic operator which pays interest or allocates the payment of the interest to the immediate benefit of the beneficial owner – i.e. the last person in the payment chain before the Luxembourg resident individual.

INCOME TAXATION

c. Non-resident Noteholders

Individual (acting in the course of their private wealth) Noteholders

A non-resident individual Noteholder, not having a permanent establishment or permanent representative in Luxembourg to which such Notes are attributable, is not subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Notes. A gain realised by such non-resident Noteholder on the sale or disposal, in any form whatsoever, of the Notes is further not subject to Luxembourg income tax, provided this sale or disposal took place more than six (6) months after the Notes were acquired.

Corporate / individual (acting in the course of their business) Noteholders

A non-resident corporate Noteholder or a non-resident individual Noteholder acting in the course of the management of a professional or business undertaking, who has a permanent establishment or permanent representative in Luxembourg to which such Notes are attributable, is subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Notes and on any gains realised upon the sale or disposal, in any form whatsoever, of the Notes.

d. Resident Noteholders

Noteholders who are residents of Luxembourg will not be liable for any Luxembourg income tax on repayment of principal.

Corporate Noteholders

A corporate Noteholder must include any interest accrued or received, any redemption premium or issue discount, as well as any gain realised on the sale or disposal, in any form whatsoever, of the Notes, in its taxable income for Luxembourg income tax assessment purposes.

The same inclusion applies to an individual Noteholder, acting in the course of the management of a professional or business undertaking. If applicable, the tax levied in accordance with the RELIBI will be credited against his/her final tax liability.

A Noteholder that is governed (i) by the Luxembourg law of 11 May 2007 on family estate companies, as amended; (ii) by the Luxembourg law of 17 December 2010 on undertakings for collective investment, as amended; (iii) by the Luxembourg law of 13 February 2007 on specialised investment funds, as amended; (iv) or it is a professional pension institution in the form of variable capital companies (*société d'épargne-pension à capital variable - SEPCAV*) or an association (*association d'épargne-pension - ASSEP*) governed by Luxembourg the law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations, as amended; (v) or it is a Noteholder subject to the law of 23 July 2016 on reserved alternative investment funds, as amended, which does not fall under the special tax regime set out in article 48 thereof, will not be subject to any Luxembourg income tax in respect of interest received or accrued on the Notes, any redemption premium or issue discount, or on gains realised on the sale or disposal, in any form whatsoever, of Notes.

Individual Noteholders

An individual Noteholder, acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax in respect of interest received, redemption premiums or issue discounts, under the Notes, except if (i) withholding tax has been levied on such payments in accordance with the RELIBI, or (ii) the individual Noteholder has opted for the application of a 20% tax in full discharge of income tax in accordance with the RELIBI, which applies if a payment of interest has been made or ascribed by a paying agent established in an EU Member State (other than Luxembourg), or in a Member State of the European Economic Area (other than an EU Member State).

A gain realised by an individual Noteholder, acting in the course of the management of his/her private wealth, upon the sale or disposal, in any form whatsoever, of Notes is not subject to Luxembourg income tax, provided this sale or disposal took place more than six (6) months after the Notes were acquired. However, any portion of such gain corresponding to accrued but unpaid interest income is subject to Luxembourg income tax, except if tax has been levied on such interest in accordance with the RELIBI.

Net Wealth Tax

A corporate Noteholder, whether it is resident of Luxembourg for tax purposes or, if not, it maintains a permanent establishment or a permanent representative in Luxembourg to which such Notes are attributable, is subject to Luxembourg net wealth tax on such

Notes, except if the Noteholder is governed by (i) the Luxembourg law of 11 May 2007 on family estate management companies, as amended; (ii) by the Luxembourg law of 17 December 2010 on undertakings for collective investment; (iii) by the Luxembourg law of 13 February 2007 on specialised investment funds, as amended (iv) by the Luxembourg law of 22 March 2004 on securitisation, as amended; (v) by the Luxembourg law of 15 June 2004 relating to the investment company in risk capital, as amended; (vi) or it is a professional pension institution in the form of variable capital companies (*société d'épargne-pension à capital variable - SEPCAV*) or an association (*association d'épargne-pension - ASSEP*) governed by Luxembourg law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations, as amended; or (vii) it is a Noteholder that is subject to the law of 23 July 2016 on reserved alternative investment funds, as amended.

However, (i) securitisation companies governed by the law of 22 March 2004, as amended; (ii) risk capital companies governed by the law of 15 June 2004 relating to the investment company in risk capital, as amended; (iii) professional pension institutions in the form of variable capital companies (*sociétés d'épargne-pension à capital variable - SEPCAVs*) or associations (*associations d'épargne-pension - ASSEPs*) governed by the law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations, as amended; and (iv) reserved alternative investment funds under the form of corporations fall under the special tax regime set out under article 48 thereof, subject to the law of 23 July 2016 on reserved alternative investment funds, as amended, should fall within the scope of the minimum net wealth tax, which may vary depending on the total amount and type of assets held. Such minimum net wealth tax may either amount to EUR 4,815 or range between EUR 535 and EUR 32,100.

An individual Noteholder, whether he/she is resident of Luxembourg or not, is not subject to Luxembourg net wealth tax on such Notes/Fiduciary Assets.

Inheritance Tax

Where a Noteholder is a resident of Luxembourg for tax purposes at the time of his death, the Notes/Fiduciary Assets are included in his taxable estate for inheritance tax assessment purposes.

Gift Tax

Gift tax may be due on a gift or donation of Notes/Fiduciary Assets if embodied in a Luxembourg deed passed in front of a Luxembourg notary or recorded in Luxembourg.

B. Other taxes

There is no Luxembourg registration tax, capital tax, stamp duty or any other similar tax or duty (other than nominal court fees) payable in Luxembourg in respect of or in connection with the execution, modification, delivery and enforcement by legal proceedings (including any foreign judgment in the courts of Luxembourg) of the Notes or the performance of the Fiduciary's obligations under the Notes (except in circumstances where the Fiduciary Assets comprise Luxembourg *situs* real estate, ships or airplanes). A registration duty will also be due in the case of voluntary registration of the Notes.

NO GROSS-UP RISK

If a withholding or deduction is required by the Tax Residence Jurisdiction and if the applicable Final Terms specify that the Gross-up provision is not applicable, the Fiduciary will not be required to pay such additional amounts. In this case, neither the Fiduciary nor any paying agent nor any other person will be required to pay additional amounts to cover the amounts so withheld or deducted. Consequently, investors will receive such payments net of such withholding tax. In such case, investors should note that they will take the risk of any applicable withholding tax and each Noteholder shall be responsible for supplying or filing (as applicable) in a timely manner any documentary evidence or forms as the investor may be entitled to and as may be required in order to obtain relief or reduction of taxes imposed by way of withholding or deduction on payments under the Notes.

In addition, neither the Fiduciary nor any paying agent nor any other person will be required to pay additional amounts to cover any amounts withheld or deducted on account of any United States withholding taxes, including taxes under FATCA and Section 871(m) as discussed below. Consequently, investors will receive payments net of any applicable United States withholding taxes.

DECLARATION REGARDING INCOME ON COLLATERAL ASSETS

By subscribing for Notes on the Issue Date or by purchasing Notes in the secondary market each Noteholder unconditionally and irrevocably declares to the Fiduciary and the Guarantor that all amounts of interest, coupon, dividends or other distributions of income in respect of the Collateral Assets shall be paid directly by the relevant obligor to Societe Generale Luxembourg (hereafter **SG Luxembourg**) and shall not be credited to the Fiduciary Account or constitute Fiduciary Assets in respect of the Notes. Holders of Notes will therefore have no recourse to any such distributions which have been paid to SG Luxembourg. Under a separate declaration (the **SG Luxembourg Declaration**), SG Luxembourg has unconditionally and irrevocably declared, in respect of each Series of Notes, that on the date of receipt of any such amount of interest, coupon, dividend or other distribution of income, it will pay an amount equal thereto, in the same currency, to the Related Agreement Counterparty. The Fiduciary and the Related Agreement Counterparty will agree that any such payment by SG Luxembourg to the Related Agreement Counterparty pursuant to the SG Luxembourg Declaration will automatically discharge any obligation of the Fiduciary under the terms of the Swap Agreement relating to the relevant Series of Notes to pay an equivalent distribution to the Related Agreement Counterparty.

If SG Luxembourg fails to pay a Collateral Asset distribution to the Related Agreement Counterparty in accordance with the terms of the SG Luxembourg Declaration, the Fiduciary will have insufficient funds to pay, and will default in, any obligation to pay an equivalent distribution to Related Agreement Counterparty under the terms of the relevant Swap Agreement, and such event will constitute a

Fiduciary Event and shall cause the Notes to become immediately due and payable (see *Liquidation of the Collateral Assets and Physical Delivery of Collateral Assets* below). Noteholders are therefore exposed to the risk that SG Luxembourg may fail to perform its obligations under the SG Luxembourg Declaration.

UNITED STATES IMPORTANT NOTICE

The Notes and any guarantee thereof have not been and will not be registered under the Securities Act or under the securities law of any state or political sub-division of the United States, and trading in the Notes has not been approved by the CFTC under the CEA. No person has registered and no person will register as a "commodity pool operator" of the Fiduciary under the CEA and the CFTC Rules, and the Fiduciary has not been and will not be registered as an investment company under the Investment Company Act. The Notes are being offered and sold in reliance on an exemption from the registration requirements of the Securities Act pursuant to Regulation S.

Accordingly, the Notes may only be offered, sold, pledged or otherwise transferred in an "offshore transaction" (as defined under Regulation S) to or for the account or benefit of a person who (a) is not a U.S. Person, as defined in the General Terms and Conditions; and (b) is not a person who comes within any definition of U.S. person for the purposes of the CEA or any CFTC Rule, guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a "Non-United States person" defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not "Non-United States persons", shall be considered a U.S. person) and (c) is not a "U.S. person" for purposes of the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended (the **U.S. Risk Retention Rules**) (a **Risk Retention U.S. Person**) (such a person or account, as described herein a **Permitted Transferee**). The Notes are available only to Permitted Transferees.

THE SECURITIES OFFERED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED WITH, OR APPROVED BY, ANY UNITED STATES FEDERAL OR STATE SECURITIES OR COMMODITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT PASSED UPON OR ENDORSED THE MERITS OF THIS OFFERING OR THE ACCURACY OR ADEQUACY OF THIS BASE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

This Base Prospectus is not a prospectus for the purposes of Section 12(a)(2) or any other provision of or rule under the Securities Act.

Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to United States persons, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 (the **Code**) and the U.S. Treasury regulations promulgated thereunder.

This Base Prospectus has been prepared on the basis that, except to the extent subparagraph (ii) below may apply, any offer of Notes in any Member State of the EEA (each, a **Relevant State**) will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant State of Notes which are the subject of an offering contemplated in this Base Prospectus as completed by final terms in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Fiduciary or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State and (in either case) published, all in accordance with the Prospectus Regulation, provided that any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Articles 1(4) and/or 3(2) of the Prospectus Regulation in that Relevant State, such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable and the Fiduciary has consented in writing to its use for the purpose of such offer. Except to the extent subparagraph (ii) above may apply, neither the Fiduciary nor any Dealer has authorised, nor does it authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Fiduciary or any Dealer to publish or supplement a prospectus for such offer.

SERVICE OF PROCESS AND ENFORCEMENT OF CIVIL LIABILITIES

The Fiduciary is a corporation organised under the laws of Luxembourg. All of the officers and directors named herein reside outside the United States and all or a substantial portion of the assets of the Fiduciary and of such officers and directors are located outside the United States. As a result, it may not be possible for investors to effect service of process in connection with a cause of action under the laws of a jurisdiction other than England and Wales outside Luxembourg upon the Fiduciary or such persons, or to enforce judgments against them obtained in courts outside Luxembourg predicated upon civil liabilities of the Fiduciary or such directors and officers under laws other than those of Luxembourg, including any judgment predicated upon United States federal securities laws.

IMPORTANT – EEA RETAIL INVESTORS

If the Final Terms in respect of any Notes states "Prohibition of Sales to EEA Retail Investors" as Applicable, the Notes, are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **EU PRIIPs Regulation**) for offering or selling those Notes or otherwise

making them available to retail investors in the EEA has been prepared and therefore offering or selling those Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS

If the Final Terms in respect of any Notes states "Prohibition of Sales to UK Retail Investors" as Applicable, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a "retail investor" means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

The Fiduciary maintains its financial books and records and prepares its financial statements in accordance with financial reporting standards which differ in certain important respects from generally accepted accounting principles in the United States (**U.S. GAAP**).

OTHER INFORMATION

Resignation and removal of the Fiduciary

Pursuant to General Condition 12.1, the Fiduciary may resign provided a Qualified Financial Institution is appointed as successor in accordance with such General Condition 12.1. Accordingly, no assurance can be given that Societe Generale Luxembourg will remain as the Fiduciary throughout the life of any given Series of Notes.

Priority of claims

During the term of the Notes, where the Collateral Assets are liquidated following the occurrence of a Collateral Liquidation Event and where **Standard Order of Priority** is specified as applicable in the applicable Final Terms, the claims of the Noteholders to be paid amounts due under the Notes will be subordinated to (i) payment or satisfaction of all Liabilities incurred by or payable by the Fiduciary or the Guarantor, in relation to the Notes, to the Disposal Agent and/or Paying Agent (which shall include any taxes required to be paid, the costs of any sale of any Collateral Assets (including the distribution of proceeds) and/or, where Physical Delivery of Collateral Assets is applicable, Delivery of the Collateral Assets Entitlement to the Noteholders of the related Notes and the remuneration of the Disposal Agent and/or Paying Agent); (ii) payment of any amounts due to be paid or reimbursed to the Collateral Custodian by the Fiduciary; and (iii) payment of any amounts due to be paid or reimbursed to the Collateral Monitoring Agent by the Fiduciary.

Investors in the Notes should be aware that the Final Terms of the Notes may specify a different priority of payments than that set out in "Standard Order of Priority" which may result in the claim of the Noteholder being subordinated to a greater extent than that set out in "Standard Order of Priority".

Where **Physical Delivery of Collateral Assets** is specified as applicable in the Final Terms, the Collateral Assets Entitlement in respect of each Note will be determined after a sufficient portion of the Collateral Assets has been liquidated in order to fund the payment by the Fiduciary of all amounts ranking senior to the claims of the Noteholders in accordance with the foregoing paragraph.

Credit ratings

The Fiduciary may ask one or more independent credit rating agencies (established in the EU and registered under the Regulation (EC) No 1060/2009 of the European Parliament and of the Council dated 16 September 2009, as amended (the **CRA Regulation**) and such registration has not been withdrawn or suspended) to assign credit ratings to a Series of Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors should only base their investment decision on credit ratings assigned by credit rating agencies that are on the list of registered and certified rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Eurosysteem eligibility for New Global Notes and Registered Global Notes

New Global Notes and Registered Global Notes issued under the new safekeeping structure (NSS) may be issued with the intention that such Notes be recognised as eligible collateral for Eurosysteem monetary policy and intra-day credit operations by the Eurosysteem, either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosysteem eligibility criteria as specified by the European Central Bank. However, there is no guarantee that such Notes will be recognised as eligible

collateral, or that, even if recognised, the eligibility will continue during the life of the Notes. Any other Notes are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem.

Notes where denominations involve integral multiples: Definitive Bearer Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Bearer Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a Definitive Bearer Note in respect of such holding (should Definitive Bearer Notes be printed) and would need to purchase a principal amount of Bearer Notes such that its holding amounts to a Specified Denomination.

If Definitive Bearer Notes are issued, holders should be aware that Definitive Bearer Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Structured Notes Linked to SGI Indices

The roles of the various teams involved within Societe Generale in the design, maintenance and replication of indices have been strictly defined. The replication of any index is carried out in the same way by a single team within Societe Generale, whether for hedging of a product held by external investors or for positions held by Societe Generale, acting as co-investors alongside external investors.

Use of Proceeds related to Positive Impact Notes

The Final Terms of the Notes may provide that the Fiduciary intends to apply an amount equivalent to the net proceeds of the issue to finance or refinance, in part or in full, eligible activities (such activities the **Eligible Activities**), which serve to deliver a positive contribution to one or more of the three pillars of sustainable development (economic, environmental and social), once any potential negative impacts and mitigation actions have been duly identified as defined in the sustainable and positive impact bond framework, as amended and supplemented from time to time (the **Framework**) which is available on the website of Societe Generale (https://www.societegenerale.com/sites/default/files/documents/2021-11/20211104_Societe-Generale-Sustainable-and-Positive-Impact-Bond-Framework.pdf) and as specified in the Final Terms (the **Positive Impact Notes**).

Positive Impact Notes can be either green (the **Green Positive Impact Notes**), social (the **Social Positive Impact Notes**) or sustainability (the **Sustainability Positive Impact Notes**) if an amount equivalent to the net proceeds will be applied to finance or refinance Eligible Activities in the green categories, social categories or in both categories (in case of Sustainability Positive Impact Notes) pursuant to the Framework.

Prospective investors should have regard to the information set out in the Final Terms and the Framework regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Positive Impact Notes together with any other investigation such investor deems necessary.

The definition (legal, regulatory or otherwise) of, and market consensus as to what constitutes or may be classified as, a sustainable, green or equivalently-labelled project or a loan that may finance such activity, and the requirements of any such label are currently under development. There can be no assurance by the Fiduciary, the Arranger or the Dealers that the use of proceeds of the Positive Impact Notes identified in the Final Terms will satisfy, whether in whole or in part, any future legislative or regulatory requirements, or any present or future investor expectations or requirements with respect to investment criteria or guidelines with which any investor or its investments are required to comply whether by any present or future applicable law or regulation or under its own by-laws or other governing rules or investment portfolio mandates.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any second party opinion or certification of any other third party (whether or not solicited by the Fiduciary) that may be made available in connection with the issue of any Positive Impact Notes and in particular with any activity to fulfill any environmental, social and/or other criteria. Currently, the providers of such second party opinion which is available on the website of Societe Generale (https://www.societegenerale.com/sites/default/files/documents/2021-11/20211104_Societe-Generale-SPO-update-ISS.pdf) and as specified in the Final Terms and certifications are not subject to any specific regulatory or other regime or oversight. Any such second party opinion or certification is not, nor should be deemed to be, a recommendation by the Fiduciary or any other person to buy, sell or hold any such Positive Impact Notes.

The Arranger or the Dealers do not make any representation as to the suitability of the Positive Impact Notes to fulfil "positive impact" criteria required by prospective investors. The Arranger or the Dealers have not undertaken, nor are responsible for, any assessment of the eligibility criteria, any verification of whether the Positive Impact Notes meet the eligibility criteria, or the monitoring of the use of proceeds. Investors should refer to Societe Generale's website (<https://www.societegenerale.com/en/measuring-our-performance/investors/debt-investors>) or any third party opinion.

RESPONSIBILITY STATEMENT

Each of the Fiduciary and the Guarantor (the **Responsible Persons**) accept responsibility for the information contained in, or incorporated by reference into, this Base Prospectus and for the information contained in the applicable Final Terms for each Tranche of Notes issued under the Programme. To the best of the knowledge and belief of each Fiduciary and the Guarantor (each having taken all reasonable care to ensure that such is the case) the information contained in, or incorporated by reference into, this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

REGULATORY INFORMATION

Luxembourg law and European legislation regarding the resolution of financial institutions may require the write-down or conversion to equity of the Notes or other resolution measures if the Fiduciary is deemed to meet the conditions for resolution

Directive 2014/59/EU of the European Parliament and of the Council of the European Union dated 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms, as amended (the **BRRD**) entered into force on 2 July 2014. As a directive, the BRRD was transposed into French law by the ordonnance no. 2015-1024 of 20 August 2015 and ratified by law no. 2016-1691 dated 9 December 2016 (*Loi n°2016-1691 du 9 décembre 2016 relative à la transparence, à la lutte contre la corruption et à la modernisation de la vie économique*). The BRRD has been implemented into Luxembourg law by, among others, the Luxembourg act dated 18 December 2015 on the failure of credit institutions and certain investment firms, as amended (the **BRR Act 2015**). Under the BRR Act 2015, the competent authority is Luxembourg financial sector supervisory authority (*Commission de surveillance du secteur financier*, the CSSF) and the resolution authority is the CSSF acting as resolution council (*conseil de résolution*).

The stated aim of the BRRD and Regulation (EU) no. 806/2014 of the European Parliament and of the Council of the European Union of 15 July 2014 (the **SRM Regulation**) is to provide for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms. The regime provided for by the BRRD is, among other things, stated to be needed to provide the authority designated by each EU Member State (the **Resolution Authority**) with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions while minimising the impact of an institution's failure on the economy and financial system (including taxpayers' exposure to losses).

Under the SRM Regulation a centralised power of resolution is established and entrusted to the Single Resolution Board (the **SRB**) and to the national resolution authorities.

The powers provided to the Resolution Authority in the BRRD and the SRM Regulation include write down/conversion powers to ensure that capital instruments and eligible liabilities absorb losses of the issuing institution that is subject to resolution in accordance with a set order of priority (the **Bail-in Power**) and other resolution measures such as the sale of the institution's business, the creation of a bridge institution, the separation of assets, the replacement or substitution of the institution as obligor in respect of debt instruments, modifications to the terms of debt instruments, removing management, appointing an interim administrator, and discontinuing the listing and admission to trading of financial instruments.

Before taking a resolution measure or exercising the power to write down or convert relevant capital instruments, the Resolution Authority must ensure that a fair, prudent and realistic valuation of the assets and liabilities of the institution is carried out by a person independent from any public authority.

The BRRD, the BRR Act 2015 and the SRM Regulation however also state that, under exceptional circumstances, if the bail-in instrument is applied, the SRB, in cooperation with the CSSF, may totally or partially exclude certain liabilities from the application of the impairment or conversion powers under certain conditions.

If Societe Generale as Guarantor becomes subject to resolution measures in the form of bail-in, an investor's residual claim on the Guarantor; corresponding to the shortfall between the investor's initial claim and the net proceeds of the collateral assets, may be reduced to zero, converted into equity or its maturity may be postponed. This may result in losses on the invested amount, regardless of the capital protection of the product, if any.

Moreover, if the Guarantor's financial condition deteriorates, the existence of the Bail-in Power or the exercise of write-down/conversion powers by the Resolution Authority independently of a resolution measure or in combination with a resolution measure with respect to capital instruments (including subordinated debt instruments) when it determines that the institution or its group will no longer be viable could cause the market price or value of the Notes to decline more rapidly than would be the case in the absence of such powers.

The Notes are fiduciary obligations of the Fiduciary which are segregated from the obligations of Societe Generale Luxembourg. In principle, such fiduciary obligations should not be affected by the bail-in tool and statutory write-down and conversion powers applicable to Societe Generale Luxembourg. However, in case the general bail-in tool and the statutory write-down and conversion power were to become applicable to the Fiduciary, the Notes may be subject to write-down or conversion into equity (ordinary shares or other instrument of ownership) on any application of the bail-in tool, which may result in such Notes' holders losing some or all of their investment (notably, the amount of the outstanding may be reduced, including to zero). Subject to certain conditions, the terms of the obligations owed under the Notes may also be varied by the Resolution Council (e.g. as to maturity, interest and interest payment dates). The exercise of any power under the BRR Act 2015 or any suggestion of such exercise could materially adversely affect the rights of the holders of the Notes, the price or value of their investment in any Notes and/or the ability of the Fiduciary to satisfy its obligations under any Note.

The BRRD has recently been amended by Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms (**BRRD II**) and further implemented within the BRR Act 2015 by the Luxembourg law of 20 May 2021. Article 34-1 of the BRR Act 2015, provides a new pre-resolution moratorium power for the CSSF, in its capacity as resolution authority in Luxembourg.

The regulation and reform of benchmarks

Interest rates and indices which are deemed to be "benchmarks", (including the London interbank offered rate (**LIBOR**) and the euro interbank offered rate (**EURIBOR**)) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark.

The Benchmarks Regulation was published in the Official Journal of the EU on 29 June 2016 and has mostly applied, subject to certain transitional provisions, from 1 January 2018. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as Societe Generale) of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed). The applicable Final Terms will specify whether the benchmark is provided by an administrator included in the register referred to in Article 36 of the Benchmarks Regulation.

Each benchmark specified in this Base Prospectus is listed in the table below, with the name of the relevant Administrator providing such benchmark.

As at the date of this Base Prospectus, the relevant Administrator appears/does not appear, as the case may be, on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to Article 36 of the Benchmarks Regulation, as specified in the table below.

If "Does not appear and exempted" is specified in the table below, it means that the relevant Administrator does not fall within the scope of the Benchmarks Regulation by virtue of Article 2 of that regulation.

If "Does not appear and non-exempted" is specified in the table below, it means that, as far as the Fiduciary is aware, the transitional provisions in Article 51 of the Benchmarks Regulation apply, such that the relevant Administrator is not currently required to obtain authorisation or registration.

Regulation (EU) 2019/2089 of the European Parliament and of the Council of 27 November 2019 has amended the existing provisions of the Benchmarks Regulation by extending the transitional provisions applicable to material benchmarks and third-country benchmarks until the end of 2021. The existing provisions of the Benchmarks Regulation were further amended by the Amending Regulation.

The Amending Regulation introduced a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring the power to designate a statutory replacement for certain benchmarks on the Commission, such replacement being limited to contracts and financial instruments. In addition, the transitional provisions applicable to third-country benchmarks were extended until the end of 2023. The Commission is empowered to further extend this period until the end of 2025, if necessary. The Amending Regulation applied as of 13 February 2021.

The sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. The UK Financial Conduct Authority (FCA) has subsequently confirmed that it would no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021. As such, all euro, Swiss franc and certain Japanese yen settings, all sterling LIBOR settings other than 1-, 3- and 6-month sterling LIBOR, and the 1-week and 2-month U.S. dollar settings of LIBOR were discontinued on 31 December 2021. Synthetic sterling and Japanese yen LIBOR for 1-, 3- and 6-month settings have been published since 4 January 2022, although these LIBOR settings were deemed no longer to be representative of the relevant underlying market. The continued publication of the Japanese yen LIBOR settings ceased permanently as from the end of 2022. The remaining U.S. dollar settings will cease or no longer be representative immediately after 30 June 2023.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation, or any of the international or national reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

Financial Transactions Tax (FTT)

A proposal of the European Commission (the **Commission's Proposal**) was published on 14 February 2013 for a common FTT in Belgium, Germany, Greece, Estonia, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the Commission's Proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains uncertain. Additional EU Member States may also decide to participate and/or participating Member States may decide to withdraw.

At the ECOFIN Council meeting of 14 June 2019, a state of play of the work on the FTT was presented on the basis of a note prepared by Germany on 7 June 2019 indicating a consensus among the participating Member States (excluding Estonia) to continue negotiations on the basis of a joint French-German proposal based on the French financial transactions tax model which in principle would only concern shares of listed companies whose head office is in a member state of the European Union. However, such proposal is still subject to change until a final approval.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

Foreign Account Tax Compliance Act Withholding

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) may impose a 30% withholding tax on certain payments made to certain financial institutions and other entities that do not comply with the requirements under FATCA or to investors that fail to provide their broker or custodian with any information, forms, other documentation, or consents (**FATCA Documentation**) that may be necessary for the payments to be made free of FATCA withholding.

U.S. Withholding Tax under Section 871(m)

Section 871(m) of the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder (**Section 871(m)**) generally impose a 30% withholding tax on dividend equivalent amounts paid or deemed paid to non-U.S. holders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities. Section 871(m) provides certain exceptions to this withholding regime, in particular for instruments linked to certain broad-based indices that meet requirements set forth in the applicable Treasury regulations (such as an index, a **Qualified Index**). Additionally, IRS guidance excludes from the scope of Section 871(m) instruments issued prior to January 1, 2023 that are not "delta-one" instruments with respect to underlying securities that could pay U.S.-source dividends for U.S. federal income tax purposes (each an **Underlying Security**). If the Fiduciary has

determined withholding under Section 871(m) applies, it will generally apply withholding at a 30% rate without regard to any applicable treaty rate(s) or any investor's individual tax situation.

Investors should consult their tax adviser regarding the potential application of Section 871(m) Regulations to their investment in the Notes.

The Dodd-Frank Wall Street Reform and Consumer Protection Act and the European Market Infrastructure Regulation

Passage of the Dodd-Frank Wall Street Reform and Consumer Protection Act (**Dodd-Frank Act**) in 2010 in the United States and of the European Regulation 648/2012, known as the European Market Infrastructure Regulation (**EMIR**) which entered into force on 16 August 2012 and took direct effect in the Member States of the European Union, has led to significant structural reforms affecting the financial services industry. The Dodd-Frank Act also contains prohibitions, commonly called, together with the implementing regulations, the **Volcker Rule**, which regulate the ability of banking entities to engage as principal in proprietary trading activities and sponsoring or investing in hedge, private equity or similar funds. Even though some modifications to the Volcker Rule implementing regulations took effect in 2020, the Volcker Rule continues to operate as a constraint on these activities.

Both Title VII (**Title VII**) of the Dodd-Frank Act and EMIR establish comprehensive regulatory regimes for a broad range of derivatives contracts including swaps, security-based swaps and mixed swaps (collectively referred to in this section as **Covered Swaps**).

In particular, under Title VII of the Dodd-Frank Act and under EMIR, swaps entered into by any Fiduciary may be required to be cleared through a central counterparty, executed on a trading venue, and subject to additional margin and capital, reporting and recordkeeping requirements that could result in additional regulatory burdens, costs and expenses (including extraordinary, non-recurring expenses of such Fiduciary).

In addition, the Dodd-Frank Act, amending the CEA, expanded the definition of a commodity pool to include any form of enterprise operated for the purpose of trading in commodity interests, including swaps. The Fiduciary has imposed certain restrictions on sales in order to fall outside the scope of the CEA. In addition, if Fiduciary were deemed to be a commodity pool, it would be required to register as such with the CFTC and the National Futures Association and would have to comply with a number of reporting requirements that are designed to apply to traded commodity pools. It is presently unclear how such Fiduciary could comply with certain of these reporting requirements on an ongoing basis.

Investment Company Act

The Fiduciary has not registered with the United States Securities and Exchange Commission (the **SEC**) as an investment company pursuant to the Investment Company Act. Investors in the Notes will not have the protections of the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the Fiduciary is required, but in violation of the Investment Company Act, has failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the Fiduciary could sue the Fiduciary and recover any damages caused by the violation; and (iii) any contract to which the Fiduciary is party that is made in, or whose performance involves, a violation of the Investment Company Act would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act.

Fundamental Review of the Trading Book regulation

For (A) an Index or SGI Index in respect of which the Index Components comprise, without limitation, one or more Equity Instruments that is a Fund Unit or an Underlying Index composed of Funds, ETF Share or an Underlying Index composed of ETF, (B) a Fund or (C) ETP or ETF, if from 1 January 2023, the related Fund, Fund Provider of the underlying Fund, ETF or ETF Service Provider of the underlying ETF, ETP or ETP Issuer of the underlying ETP, as the case may be, does not make publicly available information or does not provide information (either spontaneously or as required pursuant to laws and regulations or contractual arrangements) enabling Societe Generale or its affiliates to calculate its market risks as holder of Fund Units, ETF or ETP, as the case may be, to hedge the obligations of the Fiduciary under the Notes, as if it were holding directly the assets of the underlying Fund, ETF or ETP, as the case may be (the **FRTB Information**), Societe Generale or its affiliates may be subject to significantly higher capital requirements under the Fundamental Review of the Trading Book as implemented into French law.

The Beneficiaries Register

Pursuant to article 31 of Directive (EU) 2015/849 of the European Parliament and of the Council of 20 May 2015 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing, amending Regulation (EU) No 648/2012 of the European Parliament and of the Council, and repealing Directive 2005/60/EC of the European Parliament and of the Council and Commission Directive 2006/70/EC of the Commission, as amended (the **AMLD**) which has been implemented into Luxembourg by the Luxembourg law of 10 July 2020 establishing a register of fiduciaries and trusts (the **Fiduciaries Register Law**), the Fiduciary is required to maintain and file certain information in a register containing certain information on, amongst others, the beneficiaries or class of beneficiaries (the **Beneficiaries**) of the fiduciary estate (the **Beneficiaries Register**).

Failure by the Fiduciary to obtain information on the Beneficiaries or complying with its obligations in respect of the Beneficiaries Register may have an adverse effect on the Fiduciary and/or the Notes.

THE FIDUCIARY CONTRACT

The following is a description of the Fiduciary Contract which will be incorporated into each Note and will appear on any Bearer Note and Registered Note.

Each Note is one of a Series of Notes issued by the Fiduciary on a fiduciary basis, each Note evidencing the existence of a fiduciary contract on the terms and subject to the conditions described below (the **Fiduciary Contract**) between the holder of such Note and the Fiduciary as fiduciary issuer. The Fiduciary Contract is a *contrat fiduciaire* governed by the Luxembourg act dated 27 July 2003 relating to trust and fiduciary contracts, as amended (the **Law**). By subscribing to, or otherwise acquiring, the Notes, each Noteholder will be deemed to have accepted, acknowledged and agreed to all the provisions of the Fiduciary Contract. There may be one or several Series issued under the same fiduciary estate.

The Terms and Conditions form part of the Fiduciary Contract and set out the rights of each Noteholder under the Fiduciary Contract and certain duties, powers and discretions of the Fiduciary. Subject to General Condition 3.2, the Fiduciary shall and hereby undertakes to perform such duties and to exercise such powers and discretions in the best interests of the Noteholders. In connection with the exercise by the Fiduciary of its powers and discretions (including, without limitation, any modification, authorisation or waiver), the Fiduciary shall have regard to the best interest of the Noteholders as a class and, in particular, shall not consider the consequences of the exercise of its powers and discretions for individual Noteholders. As a consequence, no Noteholder shall be entitled to claim, from the Fiduciary, the Guarantor or any other person, any indemnification or payment in respect of any tax consequences of any such exercise upon individual Noteholders.

The Fiduciary undertakes to exercise its rights under the Related Agreements and/or the Fiduciary Assets (as defined in the General Terms and Conditions) and its corresponding duties, powers and discretions in the best interests of the Noteholders, Receipholders and Couponholders, and to account to the Noteholders for all payments of principal, interest or any other sums received by it thereunder, in such a manner as to give effect to the Terms and Conditions.

The Fiduciary is not obliged to account to the Noteholders in respect of any fees, expenses, commissions, premiums or other costs received and/or paid by it in respect of its appointment as Fiduciary or in connection with its operations as Fiduciary, nor for any interest earned by it on amounts held by it from time to time on behalf of the Noteholders, whether or not such payments were made through Related Agreements.

The Fiduciary makes no representation or warranty and assumes no liability for, or responsibility or obligation in respect of, the legality, validity or enforceability of the Related Agreements, the Fiduciary Assets or any of them, the performance and observance by any Fiduciary Assets Obligor (as defined in the General Terms and Conditions) of their obligations in respect of the Related Agreements or the recoverability of any monies due or to become due under the Related Agreements or the Fiduciary Assets. The Fiduciary is under no obligation to seek or maintain any insurance in respect of any Fiduciary Assets or any part of the Fiduciary Assets.

The Fiduciary does not represent the Noteholders and shall be under no obligation to the Noteholders other than that of faithful performance of its undertakings, duties, rights, powers and discretions under the Fiduciary Contract as set forth above and, in the event of a Collateral Liquidation Event, shall be under no obligation to apply the proceeds of any rights of set-off, banker's lien or counterclaim arising out of other transactions between the Fiduciary and any Fiduciary Assets Obligor in payment of the Notes. The Fiduciary shall have no obligation to monitor the performance of any Fiduciary Assets Obligor and is under no obligation to disclose information relating to the Fiduciary Assets and/or the Related Agreements.

Neither the Fiduciary nor any of its affiliates will be precluded from making any contracts or entering into any business transaction in the ordinary course of their business with any Fiduciary Assets Obligor or from owning in any capacity any Notes or transacting in any assets equivalent to those comprised in the Fiduciary Assets at any time, and neither the Fiduciary nor any of its affiliates will be accountable to the Noteholders for any profits resulting therefrom. The Fiduciary may consult on any legal matter with any legal advisers selected by it and shall incur no liability for actions taken, or suffered to be taken, with respect to such matter in good faith in reliance upon the opinion of such legal advisers, unless the Fiduciary has been grossly negligent (*faute grave*) or is guilty of wilful misconduct (*dol*).

Consistent with the Law, Noteholders have no direct right of action against any Fiduciary Assets Obligor to enforce their rights under the Notes or the Coupons or to compel any Fiduciary Assets Obligor to comply with its obligations under a Related Agreement or in relation to a Fiduciary Asset, even in the case of the Fiduciary's failure to act or the insolvency of the Fiduciary. However, if, under the Fiduciary Assets and/or Related Agreements, the Fiduciary is entitled and, furthermore, has, pursuant to the Fiduciary Contract in respect of each Note, become obliged to take legal action against a Fiduciary Assets Obligor and has failed to take such action within a reasonable time, then (if and to the extent such failure is continuing), each Noteholder is individually entitled to institute indirect legal action (*action oblique*) in accordance with the relevant provisions of the Luxembourg civil code against the Fiduciary Assets Obligor *in lieu* of the Fiduciary and on its behalf.

The rights of the Fiduciary in respect of the Related Agreements and other Fiduciary Assets are Fiduciary Assets of the Fiduciary and are held for the exclusive benefit (save as provided in the Terms and Conditions of the Notes) and at the sole risk of the Noteholders. Pursuant to the Law, the Fiduciary Assets are segregated from all other assets of the Fiduciary (including all other fiduciary assets the Fiduciary may hold pursuant to fiduciary contracts with third parties) and are not available to meet the claims of creditors of the Fiduciary other than creditors (including the Noteholders) whose rights derive from the Fiduciary Contract or exist as a result of the creation and existence of the Fiduciary Assets. In a liquidation of the Fiduciary, the Fiduciary Assets are not part of the estate of the Fiduciary. They may be attached only by persons whose rights exist as a result of the creation and existence of the Fiduciary Assets.

The Fiduciary Contract

The Noteholders waive, to the extent legally possible, the right to request the early termination of the Fiduciary Contract in accordance with article 7(6) of the Law.

Articles 470-1 to 470-19 of the amended Luxembourg act of 10 August 1915 on commercial companies, as amended are not applicable in respect of the Notes.

The Notes do not constitute personal debt obligations of Societe Generale Luxembourg, being obligations that relate to the personal estate of Societe Generale Luxembourg, but are solely fiduciary obligations of the Fiduciary in accordance with the Law and may only be satisfied out of the Fiduciary Assets. Such obligations are conditional upon the due and timely performance by each Fiduciary Assets Obligor of its obligations, including in respect of payments and deliveries, under the relevant Related Agreements and/or the relevant Fiduciary Assets.

The entitlement of Noteholders to receive payments and/or deliveries under the Notes is entirely dependent upon the receipt by the Fiduciary of payments and/or deliveries, as the case may be, in respect of the Fiduciary Assets and/or the Related Agreements. No other assets of Societe Generale Luxembourg S.A. (either in its personal capacity or as fiduciary in respect of any other series of fiduciary investments or fiduciary estate) will be available for payments of any amounts not received and/or deliveries of assets not delivered under the relevant Related Agreements or Fiduciary Assets and any shortfall will be borne exclusively by the Noteholders. All claims in respect of such shortfall shall be automatically extinguished and the Noteholders shall have no further recourse against the Fiduciary in respect of any unpaid amounts and will accordingly not be able to petition for the winding-up of the Fiduciary as a consequence of such shortfall.

IMPORTANT INFORMATION RELATING TO NON-EXEMPT OFFERS OF NOTES

Certain Tranches of Notes may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to below as a Non-exempt Offer.

If, in the context of a Non-exempt Offer, you are offered Notes by any entity, you should check that such entity has been given consent to use this Base Prospectus for the purposes of making its offer before agreeing to purchase any Notes.

The following entities have consent to use this Base Prospectus in connection with a Non-exempt Offer:

- any entity named as a Dealer in the applicable Final Terms;
- if the clause "*Type of Consent*" is stated as being "*Individual Consent*" in the applicable Final Terms:

(a) any financial intermediary specified in the applicable Final Terms as having been granted specific consent to use the Base Prospectus; or

(b) any financial intermediary named on the website of the Fiduciary (<http://prospectus.socgen.com>) as an Authorised Offeror in respect of the Non-exempt Offer (if that financial intermediary has been appointed after the date of the applicable Final Terms); and

(c) if the clause "*Type of Consent*" is stated as being "*General Consent*" in the applicable Final Terms, any financial intermediary authorised to make such offers under MiFID II who has published the Acceptance Statement (as defined below) on its website.

The consent referred to above only relates to Offer Periods (if any) occurring within 12 months from the date of this Base Prospectus.

The entities listed above have been given consent to use the Base Prospectus only during the Offer Period specified in the applicable Final Terms and only in the Non-exempt Offer Jurisdictions.

For Non-exempt Offers which will close after the validity of this Base Prospectus, investors should refer to the succeeding base prospectus which will be available on <http://prospectus.socgen.com> .

Other than as set out above, the Fiduciary has not authorised the making of any Non-exempt Offer by any person and the Fiduciary has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Notes.

The Fiduciary consents to the use of the Base Prospectus in relation to a Non-exempt Offer for a period up to 12 months from the date of this Base Prospectus.

1. CONSENT GIVEN IN ACCORDANCE WITH ARTICLE 5(1) OF THE PROSPECTUS REGULATION

In the context of any offer of Notes that is not within an exemption from the requirement to publish a prospectus under the Prospectus Regulation (a **Non-exempt Offer**), each of the Fiduciary and the Guarantor accepts responsibility, in each Relevant State (as defined below) for which it has given its consent (each a **Non-exempt Offer Jurisdiction**) as specified below, for the content of the Base Prospectus under Article 11 of the Prospectus Regulation in relation to any person (an **Investor**) to whom any offer of Notes is made by any financial intermediary to whom it has given its consent to use the Base Prospectus (an **Authorised Offeror**), where the offer is made during the period for which that consent is given in a Non-exempt Offer Jurisdiction for which that consent was given and is in compliance with all other conditions attached to the giving of the consent. The consent and conditions attached to it are set out under "*Type of Consent*" and "*Conditions to Consent*" below.

None of the Fiduciary, the Guarantor or any relevant Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of **the Fiduciary**, the Guarantor or any relevant Dealer has any responsibility or liability for the actions of that Authorised Offeror.

However, neither **the Fiduciary**, the Guarantor nor the relevant Dealer has any responsibility for any of the actions of any Authorised Offeror, including the non-compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

Neither **the Fiduciary**, the Guarantor nor the relevant Dealer authorises the use of the Base Prospectus in the case of a Non-exempt Offer of Notes in a Member State of the EEA (each, a **Relevant State**) other than a Non-exempt Offer Jurisdiction or in a Non-exempt Offer Jurisdiction but made by a financial intermediary to which **the Fiduciary** has not given its consent. FINAL TERMS OR DRAWDOWN PROSPECTUS

In this section the expression **necessary information** means, in relation to any Tranche of Notes, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Fiduciary and the Guarantor and of the rights attaching to the Notes. In relation to the different types of Notes which may be issued under the Programme, the Fiduciary and the Guarantor have endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will therefore be contained either in the applicable Final Terms or in a Drawdown Prospectus. Such information will be contained in the applicable Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Notes, will be contained in a Drawdown Prospectus.

For a Tranche of Notes which is the subject of Final Terms, those Final Terms will, for the purposes of such Tranche of Notes only, complete the Terms and Conditions of the Notes and this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Terms and Conditions of the Notes as completed to the extent described in the applicable Final Terms or Drawdown Prospectus, as the case may be. The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

The Fiduciary and, if applicable, the Guarantor, may agree with any Dealer that Notes may be issued, offered to the public, and/or admitted to trading on a regulated market in a form not contemplated by the Terms and Conditions of the Notes described in this Base Prospectus, in which event a Drawdown Prospectus will be submitted for approval to the relevant competent authority and will be made available. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise. The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Terms and Conditions of the Notes as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus.

In accordance with Article 6(3) of the Prospectus Regulation, the Drawdown Prospectus will be drawn up as a single document, incorporating by reference, if applicable, the relevant parts of the Base Prospectus.

SUPPLEMENT TO THE BASE PROSPECTUS

If at any time the Fiduciary shall be required to prepare a supplement to this Base Prospectus pursuant to Article 23 of the Prospectus Regulation, the Fiduciary will prepare and make available an appropriate supplement to this Base Prospectus or a further Base Prospectus which, in respect of any subsequent issue of Notes to be listed and admitted to trading on a regulated market shall constitute a supplement to the Base Prospectus (or a new Base Prospectus, as applicable) as required (for supplements) by Article 23 of the Prospectus Regulation and shall supply each Dealer with such number of copies of such supplement hereto or new Base Prospectus as such Dealer may reasonably request.

The Fiduciary has given an undertaking to the Dealers that if at any time during the duration of the Programme there is a significant new factor, material mistake, material inaccuracy or omission relating to information contained in this Base Prospectus which is capable of affecting the assessment of any Notes and whose inclusion in or removal from this Base Prospectus is necessary, for the purpose of allowing an investor to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Fiduciary, the Group and the rights attaching to the Notes, the Fiduciary shall prepare a supplement to this Base Prospectus or publish a replacement Base Prospectus for use in connection with any subsequent offering of the Notes, and shall supply each Dealer with such number of copies of such supplement hereto as such Dealer may reasonably request.

Following the publication of this Base Prospectus, the Fiduciary and the Guarantor will, in the event of any significant new factor, material mistake or material inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Notes, prepare a supplement to this Base Prospectus (a **Supplement**) in accordance with Article 23 of the Prospectus Regulation or publish a new prospectus for use in connection with any subsequent issue of Notes. Such Supplement as prepared will have to be approved by the CSSF. Statements contained in any such Supplement (or contained in any document incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Base Prospectus or in a document which is incorporated by reference in this Base Prospectus. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Base Prospectus provided that any such modifying or superseding statement is made by way of supplement to the Base Prospectus pursuant to article 23 of the Prospectus Regulation.

In the case of Notes subject to a Non-exempt Offer to the public, in accordance with Article 23(2a) of the Prospectus Regulation, investors who have already agreed to purchase or subscribe for Notes before any Supplement is published have the right, exercisable within two working days after the publication of this Supplement, to withdraw their acceptances, provided that the significant new factor, material mistake or material inaccuracy arose or was noted before the closing of the offer period or the delivery of the securities, whichever occurs first. That period may be extended by the Fiduciary or the offeror. The final date of the right of withdrawal shall be stated in the Supplement.

FORM OF FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Tranche of Notes issued under the Programme where:

[The following language applies if the Notes are listed on SIX Swiss Exchange or distributed in or from Switzerland:

The Notes described in these Final Terms do not constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes (CISA). Therefore, the Notes are not subject to authorisation and supervision by the Swiss Financial Market Supervisory Authority FINMA (FINMA), and investors in the Notes will not benefit from protection under the CISA or supervision by FINMA. Investors in the Notes will bear a credit risk on [the Fiduciary] [and the Guarantor].]

[Legend to be included if the Notes potentially constitute "packaged" products and no key information document will be prepared or the Fiduciary wishes to prohibit offers to EEA retail investors for any other reason, in which case the selling restriction should be specified to be "Applicable": **PROHIBITION OF SALES TO EEA RETAIL INVESTORS** – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, MiFID II); or (ii) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the Insurance Distribution Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the EU PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.]

[Legend to be included if the Notes potentially constitute "packaged" products and no key information document will be prepared or the Fiduciary wishes to prohibit offers to UK retail investors for any other reason, in which case the selling restriction should be specified to be "Applicable": **PROHIBITION OF SALES TO UK RETAIL INVESTORS** - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (UK). Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

General Terms and Conditions of the Notes

Notes issued by the Fiduciary which may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a person that is not a Permitted Transferee and any offer, sale, resale, trade, pledge, redemption, transfer or delivery of Notes made, directly or indirectly, to, or for the account or benefit of, a person that is not a Permitted Transferee will be void ab initio and of no legal effect. Legal and beneficial interests in Notes may not be held by persons that are not Permitted Transferees at any time. Accordingly, persons that are not Permitted Transferees will not be entitled to any rights as a legal or beneficial owner of such interest in such Notes.

1.3 Exchanges

1.3.1 A beneficial interest in a Global Note will, subject to Conditions 1.2.1 or 1.2.2 and compliance with all applicable legal and regulatory restrictions, be exchangeable for a Definitive Note or a beneficial interest in another Global Note (with the same Specified Denomination) only in accordance with the rules and operating procedures for the time being of Euroclear or Clearstream as the case may be, and in accordance with the terms and conditions specified in the relevant Agency Agreement.

1.3.2 Interests in a Temporary Global Note will be exchangeable (free of charge), on and after the Exchange Date, upon a request as described therein either for, as applicable, (i) interests in a Permanent Global Note or (ii) Definitive Bearer Notes of the same Series with, where applicable, Receipts, Coupons and/or Talons attached (as indicated in the applicable Final Terms and subject, in the case of Definitive Bearer Notes, to such notice period as is specified in the Permanent Global Note), in accordance with the terms of the Temporary Global Note against Certification as to non-US beneficial ownership as described above and as required by U.S. Treasury regulations unless such Certification has already been given pursuant to the provisions set forth above; provided, however, that if the relevant Global Note is issued in respect of a Tranche of Bearer Notes described as Partly Paid Notes in the applicable Final Terms, such Global Note may be exchanged for Definitive Bearer Notes and (if applicable) Coupons, Receipts and/or Talons as described above only if the final part payment on all such Partly Paid Notes then outstanding has been paid. Exchange of a Temporary Global Note for interests in a Permanent Global Note will only be made if Definitive Bearer Notes have not already been issued. If Definitive Bearer Notes have already been issued, the Temporary Global Note may only thereafter be exchanged for Definitive Bearer Notes pursuant to the terms thereof. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due Certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or, in the case of Bearer Notes, for Definitive Bearer Notes is improperly withheld or refused.

Exchange Date means the day immediately following the later of (i) 40 days after the Temporary Global Note or, as the case may be, Temporary Global Certificate, is issued and (ii) 40 days after the completion of the distribution of the relevant Tranche, as certified by the relevant Dealer (in the case of a non-syndicated issue) or the relevant lead manager (in the case of a syndicated issue).

1.3.3 The Permanent Global Note with, where applicable, Receipts, Coupons and/or Talons attached will be exchangeable (free of charge), in whole but not in part, for **Definitive Bearer Notes** in the event of the occurrence of any of the circumstances described in (i), (ii) or (iii) below (each, an **Exchange Event**) or by the Fiduciary in the event of the occurrence of the circumstances described in (iii) below:

(i) if applicable, a Fiduciary Event (as defined in Condition 6.6.1 below) has occurred and is continuing;

(ii) if the Fiduciary has been notified that both Euroclear and Clearstream have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announce an intention permanently to cease business or have in fact done so and no successor clearing system is available; or

(iii) on the occasion of the next payment in respect of any Bearer Notes, the Fiduciary would be required to pay additional amounts as referred to in Conditions 5 and 7 below and such payment would not be required were the Notes in definitive form; (provided, however, that if a relevant Global Note is issued in respect of a Tranche of Bearer Notes described as Partly Paid Notes in the applicable Final Terms, such Global Note may be exchanged for Definitive Notes and (if applicable) Coupons, Receipts and/or Talons as described above only if the final part payment on all such Partly Paid Notes then outstanding has been paid).

The Fiduciary will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream (acting on the instructions of any holder of an interest in such Global Note) may give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

1.3.4 Exchange of Talons

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon. Each Talon shall, for the purposes of these General Terms and Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

1.4 Denomination

Notes shall be issued in the specified denomination(s) as set out in the applicable Final Terms (the Specified Denomination(s)).

Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

1.5 Redenomination - Conversion of currency

The Fiduciary may (if so specified in the applicable Final Terms), without the consent of the Noteholders, by giving at least 30 days' notice in accordance with Condition 13, and on or after the date on which a Member State of the European Union whose national currency is the same as the Specified Currency, has become a participating Member State in the third stage of the European Economic and Monetary Union (as provided in the Treaty on the Functioning of the European Union (the **EU**), as amended from time to time (the **Treaty**)) or events have occurred which have substantially the same effects (in either case, **EMU**), redenominate all, but not some only of the Notes into Euro and adjust any term of the Notes as the Calculation Agent deems appropriate to give effect to such change (including, without limitation, the aggregate nominal amount of the Notes). The date on which such change becomes effective shall be referred to in these General Terms and Conditions as the **Currency Conversion Date**.

The redenomination of the Notes pursuant to the above paragraph shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 140 of the Treaty and rounding the resultant figure to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards), provided that, if the Fiduciary determines, with the agreement of the Principal Paying Agent that the then market practice in respect of the redenomination or conversion in Euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Fiduciary shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments.

If the Fiduciary so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro.

The conversion rate applicable and the amounts in Euro so determined shall be notified to Noteholders in accordance with Condition 13. Any balance remaining from the change of currency in an amount higher than 0.01 Euro shall be paid by way of cash adjustment rounded to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards). Such cash adjustment will be payable in Euros on the Currency Conversion Date.

Upon redenomination of the Notes any reference hereon to the relevant national currency shall be construed as a reference to Euro.

The Fiduciary may, with prior approval of the Principal Paying Agent, without the consent of the Noteholders in connection with any redenomination or any consolidation pursuant to Condition 14, but giving not less than 30 day prior notice to the Noteholders pursuant to Condition 13, make any changes or additions to these General Terms and Conditions which it reasonably believes to be necessary or desirable to give effect to the provisions of this Condition 1.5 or Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of the Noteholders. Any such changes or additions shall be notified to Noteholders in accordance with Condition 13 as soon as practicable thereafter.

Neither the Fiduciary nor any Paying Agent shall be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

Any such changes or additions made pursuant to this Condition 1.5 will, in the absence of manifest or proven error, be conclusive and binding on the Noteholders.

2. LIMITED RECOURSE AND STATUS OF THE NOTES AND GUARANTEE

2.1 Limited recourse and status of Notes

The Notes do not constitute personal debt obligations of Societe Generale Luxembourg S.A., being obligations that relate to the personal estate of Societe Generale Luxembourg S.A., but are solely fiduciary obligations of the Fiduciary in accordance with the Fiduciary Law and may only be satisfied out of the Fiduciary Assets. Such obligations are conditional upon the due and timely performance by each Fiduciary Assets Obligor of its obligations, including in respect of payments and deliveries, under the relevant Related Agreements and/or the relevant Fiduciary Assets.

The Notes rank *pari passu*, without any preference, among themselves.

The entitlement of Noteholders to receive payments and/or deliveries under the Notes is entirely dependent upon the receipt by the Fiduciary of payments and/or deliveries, as the case may be, in respect of the Fiduciary Assets and/or the Related Agreements.

No other assets of Societe Generale Luxembourg S.A. (either in its personal capacity or as fiduciary in respect of any other series of fiduciary investments) will be available for payments of any amounts not received and/or deliveries of assets not delivered under the relevant Related Agreements or Fiduciary Assets and any shortfall will be borne exclusively by the Noteholders.

2.2 Guarantee with respect to Secured Notes

Societe Generale (the **Guarantor**) has entered into a guarantee governed by French law dated 17 June 2022 (the **Guarantee**) in favour of the holders of each Series of Secured Notes only.

The Guarantee provides that if:

(i) other than following the delivery of a Collateral Liquidation Notice (as defined in "Part 3 - Fiduciary Assets Provisions" of the General Terms and Conditions), the Fiduciary does not for any reason pay any sum payable by it to a Noteholder in respect of any Note, or any Coupon appertaining thereto (including any premium or any other amounts of whatever nature or additional amounts which may become payable under any of the foregoing), as and when the same shall become due under the Terms and Conditions, the Guarantor will pay to such Noteholder on demand the amount payable by the Fiduciary to such Noteholder in accordance with the Terms and Conditions; and

(ii) following the delivery of a Collateral Liquidation Notice (as defined in "Part 3 - Fiduciary Assets Provisions" of the General Terms and Conditions), the Fiduciary does not pay when due the full amount payable by it to a Noteholder in respect of any Note of any Series relating to the Collateral Pool to which such Collateral Liquidation Notice relates, or Coupon appertaining thereto (including any premium or any other amount of whatever nature, or additional amounts which may become payable under any of the foregoing), the Guarantor will pay to such Noteholder, an amount equal to the greater of (a) zero and (b) such Note's *pro rata* share of the amount equal to (i) the Early Redemption Amount calculated in respect of all of the Notes of such Series less (ii) the product of (x) the Collateral Assets Liquidation Proceeds as reduced by the payments of amounts to Margined Parties ranking prior to the Related Agreement Counterparty and (y) the Collateral Ratio.

The obligations of the Guarantor under the Guarantee will constitute direct unconditional, unsecured and unsubordinated obligations of the Guarantor ranking as senior preferred obligations as provided in Article L.613-30 I 3° of the French *Code Monétaire et Financier* (the **French Code**).

Such Guarantee obligations rank and will rank equally and rateably without any preference or priority among themselves and:

(i) *pari passu* with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of the French law n°2016-1691 dated 9 December 2016 entered into force on 11 December 2016 (the **Law**);

(ii) *pari passu* with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° of the French Code) of the Guarantor issued after the date of the entry into force of the Law;

(iii) junior to all present or future claims of the Guarantor benefiting from the statutorily preferred exceptions; and

(iv) senior to all present and future senior non-preferred obligations (as provided for in Article L.613-30-3 I 4° of the French Code) and all present or future subordinated obligations and deeply subordinated obligations of the Guarantor.

Any references to sums or amounts payable by the Fiduciary which are guaranteed by the Guarantor under the Guarantee shall be to such sums and/or amounts as directly reduced, and/or in the case of conversion into equity, as reduced by the amount of such conversion, and/or otherwise modified from time to time resulting from the application of a bail-in power by any relevant authority pursuant to Directive 2014/59/EU of the European Parliament and of the Council of the European Union.

3. THE FIDUCIARY CONTRACT

Each Note is issued on a fiduciary basis, each of which evidences the existence of a fiduciary contract, which is a "contrat fiduciaire" governed by the Fiduciary Law, on the terms and subject to the conditions described below between the holder of such Note and the Fiduciary (the **Fiduciary Contract**). By subscribing to, or otherwise acquiring, the Notes, the Noteholders will accept, acknowledge and agree to all the provisions of the Fiduciary Contract.

The Terms and Conditions form part of the Fiduciary Contract and set out the rights of each Noteholder under the Fiduciary Contract and certain duties, powers and discretions of the Fiduciary. Subject to General Condition 3.2, the Fiduciary shall and hereby undertakes to perform such duties and to exercise such powers and discretions in the best interests of the Noteholders.

The Fiduciary is not obliged to account to the Noteholders in respect of any fees, expenses, commissions, premiums or other costs received and/or paid by it in respect of its appointment as Fiduciary or in connection with its operations as Fiduciary, nor for any interest earned by it on amounts held by it from time to time on behalf of the Noteholders, whether or not such payments were made through Related Agreements.

The Fiduciary makes no representation or warranty and assumes no liability for, or responsibility or obligation in respect of, the legality, validity or enforceability of the Fiduciary Assets or the Related Agreements or any of them, the performance and observance by any Fiduciary Assets Obligor of their obligations in respect of the Related Agreements or the recoverability of any monies due or to become due under the Related Agreements or the Fiduciary Assets. The Fiduciary is under no obligation to seek or maintain any insurance in respect of any Fiduciary Assets or any part of the Fiduciary Assets.

The Fiduciary shall be under no obligation to the Noteholders other than that of faithful performance of its undertakings, duties, rights, powers and discretions under the Fiduciary Contract as set forth above and, in the event of a Collateral Liquidation Event, shall be under no obligation to apply the proceeds of any rights of set-off, banker's lien or counterclaim arising out of other transactions between the Fiduciary and any Fiduciary Assets Obligor in payment of the Notes. The Fiduciary shall have no obligation to monitor the performance of any Fiduciary Assets Obligor and is under no obligation to disclose information relating to the Fiduciary Assets and/or the Related Agreements.

Neither the Fiduciary nor any of its affiliates will be precluded from making any contracts or entering into any business transaction in the ordinary course of their business with any Fiduciary Assets Obligor or from owning in any capacity any Notes or transacting in any assets equivalent to those comprised in the Fiduciary Assets at any time, and neither the Fiduciary nor any of its affiliates will be accountable to the Noteholders for any profits resulting therefrom. The Fiduciary may consult on any legal matter with any legal advisers selected by it and shall incur no liability for actions taken, or suffered to be taken, with respect to such matter in good faith in reliance upon the opinion of such legal advisers, unless the Fiduciary has been grossly negligent (*faute grave*) or is guilty of wilful misconduct (*dol*).

Consistent with the Fiduciary Law, Noteholders have no direct right of action against any Fiduciary Assets Obligor to enforce their rights under the Notes or the Coupons or to compel any Fiduciary Assets Obligor to comply with its obligations under a Related Agreement or in relation to a Fiduciary Asset, even in the case of the Fiduciary's failure to act or the insolvency of the Fiduciary. However, if, under the Fiduciary Assets and/or Related Agreements, the Fiduciary is entitled and, furthermore, has, pursuant to the Fiduciary Contract in respect of each Note, become obliged to take legal action against a Fiduciary Assets Obligor and has failed to take such action within a reasonable time, then (if and to the extent such failure is continuing), each Noteholder is individually entitled to institute indirect legal action (*action oblique*) in accordance with the relevant provisions of the Luxembourg civil code against the Fiduciary Assets Obligor *in lieu* of the Fiduciary and on its behalf.

The rights of the Fiduciary in respect of the Related Agreements and other Fiduciary Assets are Fiduciary Assets of the Fiduciary and are held for the exclusive benefit (save as provided in these General Terms and Conditions) and at the sole risk of the Noteholders. Pursuant to the Fiduciary Law, the Fiduciary Assets are segregated from all other assets of the Fiduciary (including all other fiduciary assets the Fiduciary may hold pursuant to fiduciary contracts with third parties) and are not available to meet the claims of creditors of the Fiduciary other than creditors (including the Noteholders) whose rights derive from the Fiduciary Contract or exist as a result of the creation and existence of the Fiduciary Assets. In a liquidation of the Fiduciary, the Fiduciary Assets are not part of the estate of the Fiduciary. They may be attached only by persons whose rights exist as a result of the creation and existence of the Fiduciary Assets.

The Notes do not constitute direct debt obligations of Societe Generale Luxembourg or any other entity belonging to the Group, i.e. obligations that affect the personal estate of Societe Generale Luxembourg. The ability of the Fiduciary to meet its obligations to pay principal, interest and any other sums due and perform any other obligation in respect of the Notes will be dependent and condition upon the due and timely performance by the Fiduciary Asset Obligors of their obligations in respect of the relevant Fiduciary Assets and receipt by the Fiduciary of any monies payable thereunder.

3.1 SG Luxembourg Declaration

If the applicable Final Terms specify that "SG Luxembourg Declaration" is applicable, by subscribing for Notes on the Issue Date or by purchasing Notes in the secondary market each Noteholder unconditionally and irrevocably declares to the Fiduciary and the Guarantor in case of Secured Notes that all amounts of interest, coupon, dividends or other distributions of income in respect of the Collateral Assets shall be paid directly by the relevant obligor to Societe Generale Luxembourg S.A. (on its own behalf and not as Fiduciary) (**SG Luxembourg**) and shall not be credited to the Fiduciary Account or constitute Fiduciary Assets in respect of the Notes (the **SG Luxembourg Declaration**).

Under a separate declaration, SG Luxembourg has unconditionally and irrevocably declared, in respect of each Series of Notes, that on the date of receipt of any such amount of interest, coupon, dividend or other distribution of income, it will pay an amount equal thereto, in the same currency, to Societe Generale.

Under the Swap Agreement, the Fiduciary's obligation to pay any such amount of interest, coupon, dividend or other distribution of income to the Related Agreement Counterparty shall be automatically discharged if and to the extent that payment of an equivalent distribution has been made by SG Luxembourg to the Related Agreement Counterparty pursuant to the terms of the SG Luxembourg Declaration.

3.2 Exercise of rights in respect of Fiduciary Assets and Related Agreements

The Fiduciary undertakes to exercise its rights under the Related Agreements and/or the Fiduciary Assets and its corresponding duties, powers and discretions in the best interests of the Noteholders, Receiptholders and Couponholders.

Notwithstanding the foregoing and anything to the contrary in the Terms and Conditions, the Agency Agreement or the Collateral Custody Agreement, to the extent that the Collateral Assets include any CTA Collateral Assets transferred to the Fiduciary by the Related Agreement Counterparty pursuant to the Collateral Transfer Agreement, the Fiduciary will not, for as long as a Related Agreement Counterparty Event has not occurred, exercise any voting rights in its capacity as holder of such CTA Collateral Assets unless directed to do so by the Related Agreement Counterparty and, if any such direction is given, only in accordance with such direction. In such circumstances, the Collateral Custodian has agreed to exercise such rights (at the cost of the Related Agreement Counterparty) in such manner as the Related Agreement Counterparty may direct.

4. INTEREST RELATING TO THE NOTES

This Condition 4 shall apply if the applicable Final Terms specify that the clause "*Fixed Rate Note Provisions*", "*Floating Rate Note Provisions*", "*Structured Interest Note Provisions*" and/or "*Zero Coupon Notes Provision*" is stated as being "Applicable".

For the purpose of this Condition 4, any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount or the Structured Interest Amount (each as defined below) when the context requires.

If the applicable Final Terms specify that "Type of Notes" is "Repack Notes", the provisions of General Condition 4.1 to 4.7 are subject to the provisions of General Condition 6.7 below.

4.1 Fixed Rate Note Provisions

This Condition 4.1 applies if the applicable Final Terms specify that the clause "*Fixed Rate Note Provisions*" is "Applicable".

The applicable Final Terms contain provisions applicable to the determination of fixed coupon amount (the **Fixed Coupon Amount**) and must be read in conjunction with this Condition 4.1 for full information on the manner in which interest is calculated on Fixed Rate Notes.

In particular, the applicable Final Terms will specify, if applicable, the Interest Commencement Date the Rate(s) of Interest, the Interest Payment Date(s), the Business Day Convention, the Fixed Coupon Amount(s), any applicable Broken Amount(s), Calculation Amount, Day Count Fraction and any applicable Determination Date.

Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms.

In the case of Notes which are Non-exempt Offer to the public and where the Rate(s) of Interest is/are to be determined by reference to a percentage to be published by the Fiduciary on <http://prospectus.socgen.com>, the applicable Final Terms will specify an indicative value, a minimum value and will indicate the date of publication thereof.

For the purpose of this Condition 4.1:

Fixed Rate Note means a Note which bears one or more fixed rate(s) of interest applicable to the relevant Interest Period which may be either an Adjusted Fixed Rate Note or an Unadjusted Fixed Rate Note.

Adjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date are subject to modification in accordance with the provisions of Condition 4.1.2.

Unadjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date remain, for the purposes of this Condition 4 (and without prejudice to the provisions of Condition 4.3), unchanged and are calculated in accordance with the provisions of Condition 4.1.1.

4.1.1 Unadjusted Fixed Rate Notes

Each Unadjusted Fixed Rate Note bears interest from and including the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date, as specified in the applicable Final Terms.

If the Notes are Definitive Bearer Notes, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified (the **Broken Amount**).

Except in the case of Notes which are Definitive Bearer Notes or Definitive Registered Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate(s) of Interest specified in the applicable Final Terms to:

- in the case of Fixed Rate Notes which are Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

- in the case of Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount,

and, in each case, multiplying such amount by the applicable Day Count Fraction (if any), and rounding the resultant figure to the nearest sub-unit (as defined in Condition 4.7 below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards. Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms. Where the Specified Denomination of a Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.1.2 Adjusted Fixed Rate Notes

4.1.2.1 Each Adjusted Fixed Rate Note bears interest from and including the Interest Commencement Date specified in the applicable Final Terms, and such interest will be payable in respect of each Interest Period and in arrear on the Interest Payment Date(s) in each year specified in the applicable Final Terms; provided that (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then if the applicable Final Terms specify that the clause "*Business Day Convention*" is:

"Following Business Day Convention", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

"Modified Following Business Day Convention", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

"Preceding Business Day Convention", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

and the expression "Interest Payment Date" shall be construed accordingly.

4.1.2.2 The Calculation Agent will calculate the amount of interest (the **Adjusted Fixed Rate Interest Amount**) payable on the Adjusted Fixed Rate Notes for the relevant Interest Period by applying the Rate(s) of Interest to:

(i) in the case of Adjusted Fixed Rate Notes which are Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

(ii) in the case of Adjusted Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount;

and, in each case, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of an Adjusted Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the Adjusted Fixed Rate Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.2 Floating Rate Note and Reference Rate Note Provisions

This Condition 4.2 applies if (i) the applicable Final Terms specify that the clause "*Floating Rate Note Provisions*" is "Applicable", and/or (ii) Additional Terms and Conditions for Reference Rate Linked Notes apply.

The applicable Final Terms contain provisions applicable to the determination of floating coupon amount (the **Floating Coupon Amount**) and must be read in conjunction with this Condition 4.2 for full information on the manner in which interest is calculated on Floating Rate Notes.

In particular, the applicable Final Terms will specify the Interest Commencement Date (if any), the Floating Coupon Amount(s), the Interest Payment Date(s), the Business Day Convention, the method of determination of the Rate of Interest and Interest Amount, any Margin(s)/Spread(s), any Leverage Factor, any minimum rate of interest (the **Minimum Rate of Interest**) or any maximum rate of interest (the **Maximum Rate of Interest**) (whereby these latter elements may also be specified in the formula for the calculation of the Floating Coupon Amount specified in the applicable Final Terms), and any Day Count Fraction, and any rate multiplier (the **Rate Multiplier**).

In the case of Notes which are Non-exempt Offer to the public and the Floating Coupon Amount is to be determined by reference to one or more component(s) being a percentage to be published by the Fiduciary on <http://prospectus.socgen.com>, the applicable Final Terms will specify an indicative value, a minimum value, and will indicate the date of publication thereof.

4.2.1 Specified Period(s) and Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in respect of each Interest Period on either:

(1) the Interest Payment Date(s) specified in the applicable Final Terms; or

(2) if no Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Interest Payment Date specified in the applicable Final Terms an **Interest Payment Date**) numerically corresponding to the immediately preceding Interest Payment Date and which falls the number of months or other period(s) (the **Specified Period(s)**) specified in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date (and if no Interest Commencement Date is specified, after the Issue Date).

4.2.2 Floating Coupon Amount

The Floating Coupon Amount payable on the Interest Payment Date(s) in respect of the Floating Rate Notes will be determined by applying the Rate of Interest to the Specified Denomination as specified in the applicable Final Terms.

4.2.3 Rate of Interest

The Rate of Interest in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, will be determined pursuant to the provisions below as specified in the Final Terms.

4.2.3.1 ISDA Determination

If the applicable Final Terms specify that "Method of determination of the Rate of Interest and Interest Amount" is "ISDA Determination", the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the margin(s) (the **Margin(s)**), (if any), which, for the avoidance of doubt, may be also referred to as the spread(s) (the **Spread(s)**) in the applicable Final Terms) multiplied by any leverage factor (the **Leverage Factor**).

For the purposes of this paragraph, **ISDA Rate** for an Interest Period means, subject to the provisions of 4.2.3.5 below, a rate equal to the Floating Rate that would be determined by the Calculation Agent or any other person specified in the Final Terms, under an interest rate swap transaction if the Calculation Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions (as defined below) and under which:

- (1) the Floating Rate Option is as specified in the Final Terms;
- (2) the Designated Maturity is a period specified in the Final Terms; and
- (3) the relevant Reset Date is as specified in the Final Terms;

(the "**Hypothetical Swap Transaction**")

For the purposes of this subparagraph, **Floating Rate**, **Calculation Agent**, **Floating Rate Option**, **Designated Maturity**, **Reset Date** and **Euro-zone** have the meanings given to those terms in the 2021 ISDA Interest Rate Derivatives Definitions published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche Notes (the **2021 ISDA Definitions**).

Where ISDA Determination is specified in the Final Terms as the "Method of determination of the Rate of Interest and Interest Amount", unless a higher Minimum Rate of Interest is specified in the Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

Except if the provisions of 4.2.3.3 or 4.2.3.4 apply, in the Final Terms, when the paragraph "Floating Rate Option" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available of next shorter length before the length of the relevant Interest Period, and the other of which shall be determined as if the Designated Maturity were the period of time, for which rates are available of next longer length after the length of the relevant Interest Period.

4.2.3.2 Standard Screen Rate Determination

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is "Standard Screen Rate Determination" or otherwise provide that "Standard Screen Rate Determination" applies, the Rate of Interest for each Interest Period will, subject as provided below, and in Condition 4.2.3.5 below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the specified time (**Specified Time**) or the Specified Time in the principal financial centre of the jurisdiction of the relevant Reference Rate on the interest determination date in question (the **Interest Determination Date**) as specified in the Final Terms plus or minus (as indicated in the Final Terms) the Margin or Spread (if any), multiplied by any Leverage Factor, all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if in the case of paragraph (1) above, no such offered quotation appears or, in the case of paragraph (2) above, fewer than three such offered quotations appear, in each case as at the Specified Time, the Calculation Agent shall request the principal office of each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), and multiplied by any Leverage Factor, all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the relevant inter-bank market plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor or,

if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Fiduciary and the Calculation Agent suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the relevant inter-bank market (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

Where:

Reference Rate(s) means, for the purpose of this Condition 4.2.3.2, as specified in the applicable Final Terms, the deposit rate, the interbank rate, the swap rate or bond yield, as the case may be, which appears on the Relevant Screen Page at the Specified Time on the Interest Determination Date and as determined by the Calculation Agent.

Reference Banks has the meaning given to it, for each Reference Rate, in the 2021 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series. For instance, in case of an EURIBOR rate, the Reference Banks will be the principal Euro-zone office of four major banks in the Euro-zone inter-bank market.

Euro-zone has the meaning given to such term in the 2021 ISDA Definitions.

In the applicable Final Terms, when the clause "**Reference Rate**" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the maturity were the period of time, for which rates are available, of next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the maturity were the period of time, for which rates are available, of next longer than the length of the relevant Interest Period.

4.2.3.3 Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is "Compounded RFR Screen Rate Determination" or "Averaged RFR Screen Rate Determination" or otherwise provide that "Compounded RFR Screen Rate Determination" or "Averaged RFR Screen Rate Determination" applies and the Reference Rate specified in the applicable Final Terms in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, is based on an overnight risk-free rate (such as and without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA, CORRA)(each an **Underlying Benchmark**), the Rate of Interest for each Interest Period will, subject as provided below in 4.2.3.5, be such Reference Rate which is either (i) a Published Compounded RFR or (ii) a Published Averaged RFR, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards).

For the purposes of this sub-paragraph, a **Published Compounded RFR** means the relevant Reference Rate as provided by the Administrator to authorised distributors and published at the specified time (the **Specified Time**) on the Relevant Screen Page (each as specified in the applicable Final Terms) and on a date (the **Interest Determination Date**) (specified in the applicable Final Terms or if none is specified, it shall be deemed to be on the 5th Business Day preceding the Interest Payment Date, corresponding to, the rate of return of a daily compound interest investment over a certain period of time (the **Tenor**) calculated in accordance with any one of the RFR Compounding Methods described in 4.2.3.4.1 to 4.2.3.4.4 below (each as specified in the applicable Final Terms).

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is any of "Averaging with Lookback", "Averaging with Observation Shift", "Averaging with Lockout" or "Overnight Averaging" (each an **RFR Averaging Method** and together the **RFR Averaging Methods**) the Rate of Interest for each Interest Period, will subject as provided below, be equal to (i) the Reference Rate corresponding to the arithmetic average over a certain tenor of an overnight risk-free rate (such as

(II) if such day "i" is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the immediately preceding Applicable Business Day, provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time.

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being "p") Applicable Business Days before (" - p") or following (" + p") the Reset Date (e.g. SONIA and SOFR) (with "p" = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on "+ p" or "- p" Applicable Business Day(s) before or following such Applicable Business Day "i".

4.2.3.5 Events affecting Underlying Benchmarks and Reference Rates

4.2.3.5.1 No Index Event has occurred

(i) If ISDA Determination applies pursuant to Condition 4.2.3.1, and the Floating Rate Option for the ISDA Rate in respect of the day for which it is required is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (I) the Reset Date (including any day that is deemed to be a Reset Date) and (II) the Fixing Day (both as defined in the 2021 ISDA Definitions) or (b) such other date on which the Reference Rate is required under the Hypothetical Swap Transaction, then the Calculation Agent will determine the ISDA Rate used to calculate the Rate of Interest by applying the fallback provisions of the 2021 ISDA Definitions and the ISDA Interest Rate Derivatives Definitions Floating Rate Matrix (the **ISDA Matrix**) for a Temporary Non-Publication (as defined in the 2021 ISDA Definitions).

(ii) If Standard Screen Rate Determination applies pursuant to Condition 4.2.3.2 above, for the purpose of determining the Rate of Interest, and if, on the relevant Interest Determination Date, (x) the Reference Rate cannot be determined in accordance with the provisions of 4.2.3.2, and (y) an Index Event has not occurred, then the Rate of Interest shall be determined by the Calculation Agent on the basis of the latest (1) offered quotation; or (2) arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations, (expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the Specified Time indicated in the Final Terms or the Specified Time in the principal financial centre of the jurisdiction of the relevant Reference Rate, available immediately before the Interest Determination Date, as determined by the Calculation Agent plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

(iii) If Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to Condition 4.2.3.3. above, for the purpose of determining the Rate of Interest and:

(aa) if the Underlying Benchmark is any of €STR, SARON, SOFR, SONIA and TONA (each as defined below, the **"Major Underlying Benchmarks"** and each a **"Major Underlying Benchmark"**), and such Major Underlying Benchmark, in respect of the day for which it is required to be determined is not published on the Relevant Screen Page by its Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (i) the Reset Date and (ii) the Fixing Day or (b) such other date on which the Major Underlying Benchmark is required, the level of Underlying Benchmark Level in respect of a day "i" used to determine the Reference Rate shall be determined by the Calculation Agent as the last provided or published level of that Major Underlying Benchmark as at the Fixing Day or, if no Fixing Day applies to the Major Underlying Benchmark, as at the day on which that Major Underlying Benchmark was originally required; or

(bb) if the Underlying Benchmark is other than a Major Underlying Benchmark and is not published on the Relevant Screen Page by its Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (i) the Reset Date and (ii) the Fixing Day or (b) such other date on which the Underlying Benchmark is required, then the Underlying Benchmark Level i in respect of a day "i" used to determine the Reference Rate shall be determined by the Calculation Agent (i) pursuant to the Temporary Non Publication Fallback of the 2021 ISDA Definitions and the ISDA Matrix as updated and amended as of the Issue Date of the first Tranche of the Notes when the Underlying Benchmark specified in the applicable Final Terms is also an Underlying Benchmark under the 2021 ISDA Definitions and the ISDA Matrix as if it were the Calculation Agent under an interest rate swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and using the Underlying Benchmark to determine the amounts due under such interest rate swap transaction or (ii) otherwise, as the latest available Underlying Benchmark Level provided by its Administrator and published on the Relevant Screen Pages.

If an event affecting a Reference Rate or an Underlying Benchmark occurs preventing the determination of the Rate of Interest of an Interest Period (the **Affected Interest Period**), the following provisions shall apply.

4.2.3.5.2.1 If ISDA Determination applies pursuant to Condition 4.2.3.1, then (i) if the Floating Rate Option specified in the Final Terms is a Floating Rate Option in the ISDA Matrix, the Calculation Agent of the Notes will determine the ISDA Rate used to determine the Rate of Interest as if it were the Calculation Agent of the Hypothetical Swap Transaction by applying the fallback provisions of the 2021 ISDA Definitions and the ISDA Matrix as updated and amended as of the Issue Date of the first Tranche of the Notes, for an Index Cessation or an Administrator/Benchmark Event as appropriate (as defined in the 2021 ISDA Definitions), or (ii) if the Floating

4.2.3.5.2.3

(A) This provision applies if an Index Event occurs in respect of a Reference Rate or Underlying Benchmark and:

- ISDA Determination applies pursuant to 4.2.3.1 but the Floating Rate Option specified in the Final Terms is not a Floating Rate Option of the ISDA Matrix; or
- Standard Screen Rate Determination applies pursuant to 4.2.3.2 above but the Underlying Benchmark is not a Major Underlying Benchmark; or
- Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to paragraph 4.2.3.3. above but the Underlying Benchmark is not a Major Underlying Benchmark;
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.3.5.2.2.5 above, or
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.4,

then the Fiduciary shall use its reasonable endeavours to appoint a Rate Determination Agent, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with paragraph (B) below) and, in either case, an Adjustment Spread if any (in accordance with paragraph (C) below) and any Conforming Changes (in accordance with Condition 4.2.3.6 below).

A Rate Determination Agent appointed pursuant to this Condition shall act in good faith in a commercially reasonable manner as an expert and in consultation with the Fiduciary. In the absence of bad faith or fraud, the Rate Determination Agent shall have no liability whatsoever to the Fiduciary, the Paying Agents, the Noteholders or the Couponholders for any determination made by it, pursuant to this Condition.

(B) Successor Rate or Alternative Rate

If the Rate Determination Agent determines that:

(i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3); or

(ii) there is no Successor Rate but there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3).

(C) Adjustment Spread

If an Index Cessation or an Administrator/Benchmark Event has occurred in respect of a Reference Rate or an Underlying Benchmark, and the Calculation Agent in respect of any rate determined pursuant to Condition 4.2.3.5.2.2.1. to Condition 4.2.3.5.2.2.5 or the Rate Determination Agent in respect of a Successor Rate or Alternative Rate determines (i) that an Adjustment Spread is required to be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining such Adjustment Spread, then such Adjustment Spread shall be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be).

Provided however that :

(y) if an Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, then the Reference Rate or the Underlying Benchmark for the Affected Interest Period shall be determined pursuant to the provisions that would apply to the determination of the Reference Rate or Underlying Benchmark as if no Index Event had occurred;

and

(z) if the Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, and if the Reference Rate or the Underlying Benchmark specified in the applicable Final Terms affected by the Index Event and used to determine the Rate of Interest of an Interest Period is a Term Rate determined before or at the beginning of such Interest Period and pursuant to the application of the provisions above, it will be replaced by a Successor Rate or an Alternative Rate to be determined at the end or just after the end of an Interest Period as the result of the compounding or averaging of an overnight rate, as observed on dates during a period starting on or before the beginning of the Interest Period, as the case may be plus an Adjustment Spread, then the Successor Rate or Alternative Rate shall be used as from the Affected Interest Period and determined at the end or just after such Affected Interest Period.

“Term Rate” means a benchmark that reflects the rate of return in the relevant market for one or more specified periods of time, with the relevant period of time to be specified in the Final Terms as the Designated Maturity or as part of the Floating Rate Option.

If (i) the Fiduciary is unable to appoint a Rate Determination Agent or (ii) neither the Calculation Agent is able to determine a rate pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 nor the Rate Determination Agent appointed by it is able to determine a Successor Rate or an Alternative Rate prior to the relevant Interest Determination Date then the Fiduciary may decide either that (x) that no Replacement Rate will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be) or (y) to apply the provisions of Condition 6.2.2..

4.2.3.6 Conforming Changes

Following the occurrence of an Index Event, the Calculation Agent may make any technical, administrative or operational changes (including without limitation, changes to the determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction or modification of any time delay or lag between the calculation or observation period of a rate and the related payment dates, the application of a mathematical formula to the Reference Rate or Underlying Benchmark and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the change of Reference Rate or Underlying Benchmark by the Replacement Rate in a manner substantially consistent with the prevailing market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Replacement Rate exists, in such other manner as the Calculation Agent determines is reasonably necessary) and/or in order to adapt solutions provided by the 2021 ISDA Definitions and the ISDA Matrix that are designed for the OTC transactions to the context of the Notes (the **“Conforming Changes”**).

These conforming changes shall be binding upon the Noteholders.

(A) Notices

Any Replacement Rate, Adjustment Spread (if any) and Conforming Changes (if any) determined under this Condition 4.2.3. will be notified promptly by the Fiduciary, after receiving such information from the Rate Determination Agent or the Calculation Agent, to the Principal Paying Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 13, the Noteholders and the Couponholders.

Such notice shall be irrevocable and shall specify the effective date of the Conforming Changes, if any.

Any Replacement Rate, Adjustment Spread (if any) and the Conforming Changes (if any) specified in such notice, will (in the absence of manifest error or bad faith in the determination of the Replacement Rate, the Adjustment Spread (if any) and the Conforming Changes (if any) be final and binding on the Fiduciary, the Principal Paying Agent, the Calculation Agent, the Paying Agents, the Noteholders and the Couponholders.

(B) Survival of Original Reference Rate

Without prejudice to the obligations of the Fiduciary under Conditions 4.2.3.5.2.3 and 4.2.3.6, the Original Reference Rate with its Original Underlying Benchmark will continue to apply unless and until these priority fallback provisions fail to provide a means of determining the Rate of Interest.

The Calculation Agent will calculate the Interest Amount payable on the Floating Rate Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate(s) of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Floating Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination, as detailed in the applicable Final Terms.

In particular, the applicable Final Terms will specify the Interest Commencement Date, the Interest Payment Date(s), the Structured Interest Amount(s), the Business Day Convention and, if applicable, the relevant Day Count Fraction.

4.3.1 Structured Interest Amount(s)

The Structured Interest Amount payable in respect of the Structured Notes shall be determined as follows:

Structured Interest Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in the applicable Final Terms.

For the purpose of this Condition:

Product Formula and **Reference of the Product** shall have the meaning given to them, respectively, in the Additional Terms and Conditions relating to Formulae.

4.3.2 Calculation of Interest Amount in respect of Structured Notes

The Calculation Agent will at or as soon as practicable after each time at which the Interest Amount is to be calculated, calculate the Interest Amount for the relevant Interest Period. The Calculation Agent will notify the Principal Paying Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same (but in no event later than the first Business Day after such calculation).

The Calculation Agent will calculate the Interest Amount payable on the Structured Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated in accordance with the Product Formula as specified in the applicable Final Terms, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Structured Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Structured Interest Amount to the Specified Denomination, as detailed in the applicable Final Terms.

(A) the Reference Price; and

(B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and notified in accordance with Condition 13, *mutatis mutandis*.

4.6 Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if applicable) from the due date for its redemption unless payment of principal (or, in the case of any Physical Delivery Note, transfer of the Deliverable Asset(s) in respect of the Physical Delivery Amount) is improperly withheld or refused (provided that, in the case of any Physical Delivery Amount, transfer shall not be deemed to have been improperly withheld or refused where such transfer is delayed by reason of circumstances beyond the control of the relevant Fiduciary or any of its Agents). In such event, interest will continue to be calculated and to accrue until whichever is the earlier of:

(1) the date on which all amounts due in respect of such Note have been paid; and

(2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

Each of the persons shown in the records of Euroclear, or Clearstream (or Monte Titoli, in case of Certificates) as the beneficial holder of a particular nominal amount of Notes represented by a Global Note must look solely to Euroclear or Clearstream, as the case may be, (or Monte Titoli, in case of Certificates) for his share of each payment so made by the Fiduciary or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Note (unless otherwise specified in the applicable Final Terms in relation to a physical delivery). No person other than the holder of such Global Note shall have any claim against the Fiduciary or, as the case may be, the Guarantor in respect of any payments due on that Global Note.

Notwithstanding the foregoing, U.S. dollars payments in respect of Bearer Notes (if any) will be made at the specified office of a Paying Agent in the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)) if:

(1) the Fiduciary and the Guarantor have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of any relevant payment on the Bearer Notes in the manner provided above when due;

(2) payment of the full relevant amount at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment, or receipt of any relevant amount in U.S. dollars; and

(3) such payment is then permitted under United States laws without involving, in the opinion of the Fiduciary and, as the case may be, the Guarantor, adverse tax consequences for the Fiduciary or the Guarantor.

No payments may be made to accounts located in the United States or, in the case of Physical Delivery Notes, no certificates, instruments or underlying assets may be mailed or sent to addresses in the United States.

5.3 Presentation of Definitive Bearer Notes, Receipts and Coupons

Payments of principal in respect of Definitive Bearer Notes will be made (subject as provided below) in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of such Definitive Bearer Notes, and payments of interest in respect of Definitive Bearer Notes will be made (subject as provided below) as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)). Payment of the final instalment

General Terms and Conditions of the Notes

will be made in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer Note to which it appertains. Receipts presented without the Definitive Bearer Note to which they appertain do not constitute valid obligations of the Fiduciary or, if applicable, the Guarantor. Upon the date on which any Definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes (other than Dual Currency Notes, Structured Notes or Physical Delivery Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note which is a Definitive Bearer Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note which is a Definitive Bearer Note or a Definitive Registered Note becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. Where any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note which is settled by way of cash is presented for redemption without all unmatured Coupons appertaining thereto, payment of all amounts due in relation to such Note will be made only against the provision of such indemnity as the Fiduciary and, if applicable, the Guarantor may decide.

If the due date for redemption of any Definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer Note.

5.4 Payments in respect of Bearer Global Notes

Payments in respect of Notes represented by any Bearer Global Notes will be made (subject as provided below), for Definitive Bearer Notes in the manner specified above, or otherwise in the manner specified in the relevant Bearer Global Notes against presentation or surrender, as the case may be, of such Bearer Global Notes at the specified office of any Paying Agent outside the United States. A record will be made of each payment made, distinguishing, if relevant, between any payment, either on such Bearer Global Notes by the relevant Paying Agent or in the records of Euroclear or Clearstream (as applicable) which such clearing systems shall also record each related payment to holders of interests in the relevant Bearer Global Notes.

5.5 Payments in respect of Registered Notes

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form), will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the **Register**) (i) where in global form, at the close of the business day (being for this purpose a day on which the relevant clearing system in which the Notes are held is open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date. For these purposes, **Designated Account** means the account maintained by a holder with a Designated Bank and identified as such in the Register and **Designated Bank** means (in the case of payment in a Specified Currency other than euro or Renminbi) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian Dollar, shall be Sydney and, if the Specified Currency is Canadian Dollar, shall be Montreal), and in the case of payment in a Specified Currency which is (i) euro, any bank which processes payments in euro, or (ii) Renminbi, a bank in the principal financial centre of Hong Kong.

Payments of interest (other than interest due on redemption) and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by transfer on the due date to the Designated Bank of the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which the relevant clearing system in which the Notes are held is open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the relevant due date (the **Record Date**). Payments of interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal of such Registered Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments due under Registered Notes.

None of the Fiduciary, the Guarantor (if applicable) or the Paying Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

If "Renminbi Currency Event" is specified in the applicable Final Terms and a Renminbi Currency Event, as determined by the Calculation Agent, exists on a date for payment of any amount in respect of any Note, the Fiduciary may determine one or more of the following, and require the Calculation Agent to take such action or make such determination accordingly:

The method of determining the fixing of Dual Currency Exchange Rate will be specified in the applicable Final Terms and may be one of the following methods:

(1) if "Predetermined" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the Calculation Agent shall use the Predetermined Fixing as the fixing of Dual Currency Exchange Rate to convert the relevant amount(s);

(3) if "Calculation Agent Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be determined by the Calculation Agent by reference to such sources it deems appropriate, at the Dual Currency Valuation Time on the Dual Currency Valuation Date.

Notwithstanding any of the above, upon a Dual Currency Disruption Event occurring or continuing on any Dual Currency Valuation Date as determined by the Calculation Agent, the Calculation Agent shall:

(a) determine that the Dual Currency Valuation Date shall be the first succeeding Dual Currency Scheduled Trading Day that is not a Dual Currency Disrupted Day unless each of the eight Dual Currency Scheduled Trading Days immediately following the scheduled Dual Currency Valuation Date is also a Dual Currency Disrupted Day. In that case that eighth Dual Currency Scheduled Trading Day shall be deemed to be the Dual Currency Valuation Date notwithstanding the fact that such day is a Dual Currency Disrupted Day, and the Calculation Agent shall determine its good faith estimate of the fixing of the Dual Currency Exchange Rate as of the Dual Currency Valuation Time on that eighth Dual Currency Scheduled Trading Day and the good faith estimate of the fixing so calculated shall be deemed the fixing of Dual Currency Exchange Rate; and/or

(b) postpone any payment date related to such Dual Currency Valuation Date (including, if applicable, the Maturity Date) until the second Business Day following the date on which a Dual Currency Disruption Event is no longer subsisting, or the date on which the Calculation Agent determines its good faith estimate of the fixing of the Dual Currency Exchange Rate pursuant to the provisions of paragraph (a) above, as the case may be. No interest or other amount shall be paid by the Fiduciary in respect of such postponement.

provided however that, all references to the word "second" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

6.2.1 Redemption for Tax Event, Special Tax Event, Regulatory Event or Force Majeure Event

If the applicable Final Terms specify:

(a) "Early Redemption"

then, upon the occurrence of an Exceptional Event, the Calculation Agent may, on giving a Relevant Notice, apply Early Redemption of the Notes as defined above, or

(b) "Early Redemption or Monetisation until the Maturity Date",

then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, decide to apply either:

(ii) "Monetisation until the Maturity Date" in accordance with Condition 6.5,

and upon the occurrence of a Force Majeure Event and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes, or

(c) "Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event or Bond Event Determination Date",

upon the occurrence of a Force Majeure Event and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes.

If the applicable Final Terms specify that Tax Event or Special Tax Event is not applicable, then in case of occurrence of a Tax Event or Special Tax Event the Notes will remain unchanged.

6.2.2 Redemption upon the occurrence of an Administrator /Benchmark Event

This Condition applies if the applicable Final Terms specify that "EU Benchmarks Regulation - Benchmark" is "Applicable".

Upon the occurrence or likely occurrence, as determined by the Calculation Agent, of an Administrator/Benchmark Event in case of Floating Rate Notes as described in Condition 4.2.3.1 above, on or after the Issue Date and if the Calculation Agent has not been able to determine a Replacement Rate and, as the case may be, an Adjustment Spread in accordance with the provisions of Condition 4.2.3.5.2 above, then the Calculation Agent, acting in good faith, may either:

(i) consider such event as an event triggering an early redemption of the Notes (hereafter, an Early Redemption Event). In that case, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount based on the Market Value as defined in Condition 6.3 below; or

(ii) apply Monetisation until the Maturity Date (as defined in Condition 6.5 below).

6.2.3 Trigger redemption at the option of the Fiduciary

If the applicable Final Terms specify that "*Trigger redemption at the option of the Fiduciary*" is "Applicable", then in the event that at any time during the life of the Notes and for any reason whatsoever, the Aggregate Outstanding Nominal Amount of the Notes equals or falls below the Outstanding Amount Trigger Level, the Fiduciary shall have the option, subject to any applicable law and regulation, to redeem all (but not some only) of the remaining outstanding Notes at the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 upon giving not less than fifteen (15) Business Days' notice to the Noteholders (in accordance with Condition 13) specifying that the Outstanding Amount Trigger Level has been reached.

For the purposes of this Condition:

Aggregate Outstanding Nominal Amount means, at any time, the product of (a) the Specified Denomination and (b) the number of Notes outstanding held at such time by Noteholders other than Societe Generale or its affiliates for their own account as determined in good faith by the Paying Agent in consultation with the clearing institution(s) in or through which the Notes are held and transactions in such Notes are cleared.

Outstanding Amount Trigger Level means 10% of the Aggregate Nominal Amount of the Notes initially issued or, if different from 10%, the level specified as such in the applicable Final Terms.

6.2.4 Forced Redemption or Transfer Event

Any transfer or other disposition of any legal or beneficial ownership interest in a Note to a person that is not a Permitted Transferee will be void *ab initio* and of no legal effect whatsoever. Any purported transferee of any legal or beneficial ownership interest in a Note in such a transaction will not be entitled to any rights as a legal or beneficial owner of such interest in such a Note. If the Fiduciary determines at any time that a holder of a Note (i) is a person that is not a Permitted Transferee, or (ii) purchased such Note in breach of the deemed or actual representations given by such Noteholder upon the purchase of such Note, the Fiduciary may (a) redeem such Note at the Early Redemption Amount, or (b) direct such Noteholder to sell or transfer its Note to a Permitted Transferee in an offshore transaction meeting the requirements of Regulation S within 30 days following receipt of such notice, and if such Noteholder fails to sell or transfer its Note within such 30 day period, the Fiduciary may transfer or sell such Note on behalf of such Noteholder **(a Forced Redemption or Transfer Event)**.

No payments will be made on the affected Notes from the date notice of the sale requirement is sent to the date on which the affected Notes are redeemed or sold.

There can be no assurance that a Noteholder, or an interest therein, (i) who is required to sell Notes, or whose Notes are sold on his behalf (pursuant to this Condition) will not incur a significant loss as a result of the need for the relevant Fiduciary, or for the transferor, to find a qualifying transferee willing to purchase the Notes. Neither the relevant Fiduciary, the Guarantor (if applicable) nor any other party shall be liable to a Noteholder for any such loss or (ii) whose Notes are redeemed will not incur a significant loss as a result of the early redemption of such Notes at their Early Redemption Amount (as defined in Condition 6.3) .

6.2.5 Redemption following Noteholder Identification Failure

If "Redemption in part following Noteholder Identification Failure" is specified as applicable in the applicable Final Terms in respect of the relevant Series, upon the occurrence of a Noteholder Identification Failure:

(a) the Fiduciary may, in its sole and absolute discretion and in accordance with applicable law giving 2 (two) Business Days' notice to the Noteholder to which the Noteholder Identification Failure relates, to all other Noteholders, the Principal Paying Agent and, if applicable, the Registrar and (for as long as the Notes are listed on the Official List of the Luxembourg Stock Exchange) the Luxembourg Stock Exchange (a **Noteholder Identification Failure Redemption Notice**), and upon expiry of such notice the Fiduciary shall redeem in whole each Note held by the Noteholder to which the Noteholder Identification Failure relates at the Early Redemption Amount determined in accordance with Condition 6.3 (which shall be the only amount payable and there will be no separate payment of any unpaid accrued interest thereon). Failure to make any payment due in respect of such redemption under this Condition of part of the principal amount of the Notes or interest thereon shall not constitute a default pursuant to the General Terms and Conditions of the Notes; and

(b) following the giving of a Noteholder Identification Failure Redemption Notice, the Fiduciary shall forthwith give notice to the Agents of the redemption following Noteholder Identification Failure and any change or adjustment which the Fiduciary determines to be necessary or desirable to be made to the Notes and the provisions of the Transaction Documents (a **Noteholder Identification Failure Adjustment Notice**), and any such changes and adjustments shall be binding on the Noteholders.

6.2.6 Redemption following a Collateral Disruption Event

If the Fiduciary or the Collateral Agent determines that a Collateral Disruption Event (as defined in "Part 3 - Fiduciary Assets Provisions" and in accordance with Condition 11.1 thereof) has occurred, the Fiduciary may by notice to the Principal Paying Agent and to the Noteholders redeem the Notes of a Series in accordance with Condition 6.3.

For the avoidance of doubt, the occurrence of a Collateral Disruption Event (as defined in "Part 3 – Fiduciary Assets Provisions") will not constitute a Fiduciary Event or a Related Agreement Counterparty Event.

6.2.7 Redemption following a Related Agreement Termination Event

If the Fiduciary determines, or if the Related Agreement Counterparty notifies the Fiduciary, that a Related Agreement Termination Event has occurred the Fiduciary may by notice to the Principal Paying Agent and to the Noteholders redeem the Notes of a Series in accordance with Condition 6.3.

6.2.8 Early Redemption Event

Upon the occurrence of an Early Redemption Event, as such term is defined pursuant to the relevant Additional Terms and Conditions of the Notes specified as applicable in the relevant Final Terms, the Notes will be redeemed in accordance with Condition 6.3.

6.2.9 Redemption following a Non-Affiliate Fiduciary Successor Event

In the event of the Fiduciary's resignation pursuant to Condition 12.1, or the Fiduciary's removal pursuant to Condition 12.2, then in the case of Secured Notes the Guarantor may propose one or more Qualified Financial Institutions (as defined in Condition 11.1) to act as the Fiduciary for consideration by the Fiduciary of the Noteholders (as the case may be).

If the Qualified Financial Institution appointed as the successor Fiduciary pursuant to the foregoing provisions is not an affiliate of the Guarantor, the Guarantor may elect that the Notes of a Series shall become subject to redemption pursuant to Condition 6.3 (a **Non-Affiliate Fiduciary Successor Event**).

6.3 Early Redemption

Where the amount due to be paid to (or delivered to, in the case of Physical Delivery Notes) a Noteholders as a result of Condition 6.2 and Conditions 6.5 and 6.6 is expressed to be the "Early Redemption Amount", such amount will be calculated as follows :

- (1) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or
 - (2) in the case of Notes (other than Zero Coupon Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount determined and calculated pursuant the provisions of Condition 5.1; or
 - (3) in the case of Notes with an Early Redemption Amount specified as Market Value in the applicable Final Terms:
 - (i) at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Fiduciary to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; or
 - (ii) in case of Italian Certificates only, at an amount determined in good faith and in a commercially reasonable manner by the Calculation Agent to be the fair market value of the Italian Certificates immediately prior (and ignoring the circumstances leading) to such early termination; or
 - (iii) in case of EU Allowance Notes only, at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes, shall take into account the relevant Spread Value(t) and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Fiduciary to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; the Market Value may be less than the market value of a Societe Generale vanilla bond having the same coupon and maturity as these Notes; or
 - (4) in the case of Physical Delivery Notes, at the Physical Delivery Amount specified in the applicable Final Terms; or
 - (5) in the case of Zero Coupon Notes, at the Amortised Face Amount; or
 - (6) in the case of Preference Share Linked Notes and Warrant Linked Notes, at the Early Redemption Amount determined and calculated in accordance with the Additional Terms and Conditions for Preference Share Linked Notes and the Additional Terms and Conditions for Warrant Linked Notes or at an amount specified in the applicable Final Terms, as the case may be; or
 - (7) if a Bond Event Determination Date has occurred, the Early Redemption Amount shall be as set out in Condition 6.6.1; or
 - (8) if a Fiduciary Event has occurred, the Early Redemption Amount shall be as set out in Condition 6.6.1; or
 - (9) if a Related Agreement Counterparty Event has occurred, the Early Redemption Amount shall be as set out in Condition 6.6.2.
- For the avoidance of doubt, for the purpose of calculating the Market Value following a Fiduciary Event pursuant to Condition 6.6.1 or a Related Agreement Counterparty Event pursuant to Condition 6.6.2 only, no account shall be taken of the creditworthiness of:
- (i) the Fiduciary, which shall be deemed to be able to perform fully its obligations in respect of the Notes; or
 - (ii) the Guarantor, which shall be deemed to be able to perform fully its obligations under the Guarantee; or
 - (iii) the Related Agreement Counterparty, who shall be deemed to be able to perform fully its obligations in respect of the Related Agreement(s).

Except in the case of a Bond Event Determination Date, in respect of Notes bearing interest, notwithstanding anything to the contrary in these Conditions, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Fiduciary or, as the case may be, the Guarantor in respect of such redemption. Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of the Day Count Fraction, if applicable, as specified in the applicable Final Terms.

For the avoidance of doubt references in Condition 7.1 and Condition 7.2 to tax, duty or withholding include, without limitation (i) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto, (ii) any withholding or deduction imposed pursuant to the Section 871(m) of the Code (the **871(m) Regulations**) or (iii) imposed by any other law of the United States. With respect to Specified Notes that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e. a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on Notes that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Fiduciary (or the Guarantor) will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Fiduciary (or the Guarantor) will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

(v) minus any amount due and payable under the Bond in accordance with the terms and conditions of the Bond as in force and effect as of the Issue Date (expressed as a percentage of the Bond Notional Amount) which is still unpaid at the Bond Final Value Determination Date, as determined by the Calculation Agent.

3.3 Pool of Collateral Assets

3.3.1 Type of Collateral Pool

A Collateral Pool may be either a Single Series Collateral Pool or a Multiple Series Collateral Pool.

3.3.1.1 Single Series Collateral Pool

Where the applicable Final Terms in respect of a Series of Notes specify that "Single Series Collateral Pool" is applicable to the Series of Notes, such Series of Notes will be the only Series of Notes to be collateralised by the Collateral Pool (a **Single Series Collateral Pool**).

3.3.1.2 Multiple Series Collateral Pool

Where the applicable Final Terms specify that "Multiple Series Collateral Pool" is applicable to the relevant Series of Notes, such Series of Notes will be one of a number of Series of Notes to be collateralised by the same Collateral Pool (a **Multiple Series Collateral Pool**).

The Series issued first and each further Series of Notes collateralised by a Multiple Series Collateral Pool must (i) be subject to the same method of distribution of Collateral Assets following the occurrence of a Collateral Liquidation Event (i.e. exclusively either subject to "Physical Delivery of Collateral Assets" or not subject to "Physical Delivery of Collateral Assets), (ii) be subject to the same Collateral Rules, (iii) be subject to the same Haircut value(s) for each type or class of Eligible Collateral Assets, (iv) have the same Collateral Test Dates and Valuation Points, (v) have the same Order of Priority, pursuant to which amounts received by the Disposal Agent in accordance with Condition 9.4 herein should be applied and (vi) have specified in the applicable Final Terms the same basis for the Collateral Test (i.e. exclusively either subject to "Notes Market Value Test" or "Fiduciary Securities Value Test").

By acquiring and holding Notes in relation to a Multiple Series Collateral Pool the Noteholders are deemed to acknowledge, accept and agree that the Noteholders of different Series of Notes shall share rateably the rights in respect of the Collateral Assets in the Multiple Series Collateral Pool pursuant to the collateralisation percentage applicable to each Series.

Following the occurrence of a Fiduciary Event or a Related Agreement Counterparty Event (each being a **Collateral Liquidation Event**), all Series of Notes collateralised by the same Collateral Pool would share the distribution of the proceeds of realisation of the Collateral Assets held in the Fiduciary Account relating to that Collateral Pool or, where "Physical Delivery of Collateral Assets" is specified as applicable in the applicable Final Terms, the delivery of the Collateral Assets contained in such Collateral Pool.

3.3.2. Segregation of Collateral Assets and Limited recourse and non-petition

3.3.2.1 Segregation between Collateral Pools

No Noteholder shall be entitled to have recourse to the Fiduciary Assets contained in a Collateral Pool other than the Collateral Pool which collateralises the Notes held by such Noteholder.

3.3.2.2 Limited Recourse

By acquiring and holding Notes of a Series, Noteholders are deemed to acknowledge and agree that the obligations of the Fiduciary to the Noteholders are limited in recourse to the proceeds of the Fiduciary Assets. If:

- (a) there are no relevant Fiduciary Assets remaining which are capable of being realised or otherwise converted into cash;
- (b) all amounts available from the relevant Fiduciary Assets have been applied to meet or provide for the relevant obligations specified in, and in accordance with this Part 3; and

3.3.2.3 Non-petition

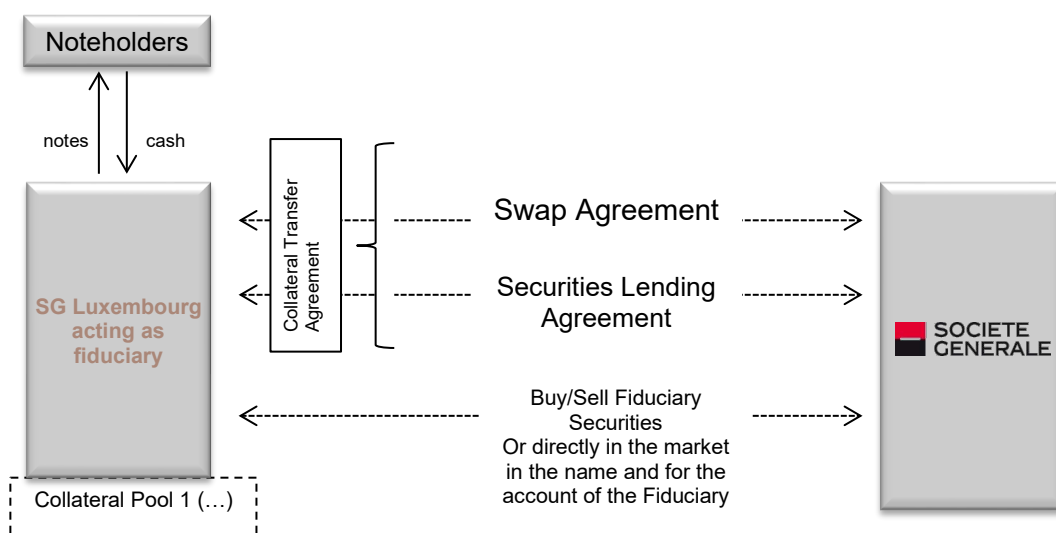

By acquiring and holding Notes, Noteholders are deemed to acknowledge and agree that no Noteholder (or any person acting on its behalf) shall be entitled to take any steps or proceedings to procure the winding-up, administration or liquidation (or any other analogous proceeding) of the Fiduciary.

3.4 Description of the Related Agreements

The following Description of the Related Agreements which the Fiduciary will enter into for each Series of Notes should be read in conjunction with the Final Terms for each Series of Notes and the applicable Description of the Cash Flows under the Related Agreements and together this description and the applicable Description of the Cash Flows under the Related Agreements and such Final Terms consist of an outline of certain cash flow provisions of such Related Agreements which is qualified in its entirety by reference to the detailed provisions of such Related Agreements for each specific Series of Notes. The following outline of the Related Agreements does not purport to be complete, and prospective investors must refer to the applicable Final Terms and the relevant Related Agreements for detailed information regarding the Related Agreements.

Each Series of Notes will, subject to Condition 3.4.7 benefit from the Securities Sale and Purchase Agreement, the Swap Agreement, the Securities Lending Agreement and the Collateral Transfer Agreement, as defined below, (referred to as the **Related Agreements**) and concluded between the Fiduciary and the Related Agreement Counterparty.

The structure of the Fiduciary Assets and the Related Agreements in respect of a Collateral Pool can be illustrated by the below diagram:

3.4.1 Securities Sale and Purchase Agreement

The Fiduciary and the Related Agreement Counterparty have entered into a master agreement relating to the sale and purchase of securities dated 7 November 2017 and amended and restated on 23 September 2019 (such agreement, as amended, supplemented, restated or otherwise modified from time to time, the **Securities Sale and Purchase Agreement**). Although the parties sign only one Master Securities Sale and Purchase Agreement for administrative convenience, they are deemed to sign separate securities sale and purchase agreements on the terms of the Master Securities Sale and Purchase Agreement (each, a **Securities Sale and Purchase Agreement**) that will apply identically but separately between the Fiduciary and the Related Agreement Counterparty in respect of each Collateral Pool.

3.4.1.1 Purchase of Fiduciary Securities on the Issue Date

General Terms and Conditions of the Notes

Pursuant to the terms of the Securities Sale and Purchase Agreement, on the Issue Date of a Tranche of Notes, with the proceeds of the issuance of the Notes the Fiduciary will purchase the Fiduciary Securities specified as such in the applicable Final Terms from the Related Agreement Counterparty, or the Related Agreement Counterparty will purchase the Fiduciary Securities directly in the market in the name and for the account of the Fiduciary at a purchase price equal to the price of such securities agreed from time to time between the Fiduciary and Societe Generale in accordance with relevant standard market practice, as determined by the Calculation Agent.

3.4.1.2 Cash flows under the Securities Sale and Purchase Agreement

On the Issue Date, the Fiduciary will apply the proceeds of the issuance of the Notes (plus or minus the Initial Swap Amount (as defined in Condition 3.4.2.1 below)) in the purchase of the initial Fiduciary Securities as vendor pursuant to the Securities Sale and Purchase Agreement for a purchase price equal to the market value of such Fiduciary Securities.

3.4.1.3 Fiduciary Securities Substitution

If "Fiduciary Securities Substitution" is specified as applicable in the applicable Final Terms, the Fiduciary Securities bought by the Fiduciary may be subject to adjustment from time to time at the option of the Fiduciary.

In the event of substitution, the Fiduciary will sell any removed Fiduciary Securities (the **Removed Fiduciary Securities**) to the Related Agreement Counterparty, pursuant to the terms of the relevant Related Agreements, or the Related Agreement Counterparty will sell the removed Fiduciary Securities directly in the market in the name and for the account of the Fiduciary, at the price of such securities as determined by the Calculation Agent.

The Collateral Agent shall ensure that any subsequent Fiduciary Securities which are added to the Collateral Assets pursuant to a substitution shall comply with the applicable Collateral Rules.

3.4.1.4 Termination of the Securities Sale and Purchase Agreement

The Securities Sale and Purchase Agreement may be terminated by either Party serving written notice on the other. Such termination will have effect immediately upon any such notice being received, or deemed to be received in accordance with this agreement.

Where any Related Agreement is terminated, the Securities Sale and Purchase Agreement shall be automatically terminated.

Upon termination, all amounts payable by Societe Generale Luxembourg in connection with the Notes to Societe Generale will become immediately due and payable including, without limitation:

- (a) outstanding fees, charges and commissions;
- (b) any expenses incurred by Societe Generale in terminating these arrangements; and
- (c) any losses and expenses realised in closing out any Transactions or settling or concluding outstanding obligations incurred by Societe Generale in connection with the Notes.

3.4.2 Swap Agreement

The Fiduciary and the Related Agreement Counterparty have entered into (i) an ISDA 2002 Master Agreement and (ii) a Schedule to the ISDA 2002 Master Agreement ((a) in respect of Repack Notes dated 7 November 2017 and (b) in respect of Secured Notes, dated 29 November 2017), each governed by English law (such agreement, as amended, supplemented, restated or otherwise modified from time to time) together the ISDA Agreement). References in Part 1 and Part 2 of the General Terms and Conditions to the ISDA Agreement should be interpreted accordingly in respect of Repack Notes and Secured Notes.

Although the parties sign only one ISDA Agreement for administrative convenience, they are deemed to sign separate ISDA master agreements on the terms of the ISDA Agreement (a **Deemed ISDA Agreement**) that will apply identically (unless otherwise specified in a Swap Confirmation as defined below) but separately between the Fiduciary and the Related Agreement Counterparty in respect of each Collateral Pool. The Fiduciary shall enter into one or more swap transactions (each a **Swap Transaction**) with Societe Generale in its capacity as the Related Agreement Counterparty by the execution of swap confirmations under the Deemed ISDA Agreement (each a **Swap Confirmation**, and all Swap Confirmations, together with the ISDA Agreement, are referred to herein as the **Swap Agreement**).

The Swap Agreement will be deemed to be entered into between the Fiduciary and the Related Agreement Counterparty on the date on which the first Series of Notes collateralised by the relevant Collateral Pool is issued.

Each Swap Transaction will be entered into in order to allow the Fiduciary to exchange certain cashflows received by, or to the order of, the Fiduciary in respect of the Collateral Assets for amounts needed by the Fiduciary to meet its obligations under each Series of Notes.

The Swap Agreement relating to a Collateral Pool will terminate on the Maturity Date of the Notes (and in case of Multiple Series Collateral Pool, it will terminate on the Maturity Date of the last Series of Notes) (the **Scheduled Swap Termination Date**) unless terminated earlier in accordance with the terms of the Swap Agreement.

3.4.2.1 Cash flows under the Swap Agreement

General Terms and Conditions of the Notes

(b) in the case of Secured Notes, an amount in respect of the Fiduciary Securities equal to 100% of the cash dividend, interest, coupon and/or any other amount (including payments of principal) that the Fiduciary would have received as holder of each such Fiduciary Security pursuant to the terms and conditions of each such Fiduciary Security as at the Issue Date or at the time of its acquisition, and after deduction of any applicable tax, duty, withholding or other deduction which is applicable as at the date of payment during the period from the Issue Date, multiplied by the Series Factor (as defined in the Swap Agreement), regardless of whether each such Fiduciary Security is held in the Fiduciary Account or has been delivered to the Related Agreement Counterparty pursuant to the Securities Lending Agreement.

(ii) the Fiduciary will pay to the Related Agreement Counterparty the excess of the number of Notes then outstanding *multiplied by* the Specified Denomination over the aggregate Final Redemption Amount payable in respect of the Notes, together with all costs and expenses incurred by the Fiduciary in connection with such redemption.

(b) in the case of Secured Notes:

General Terms and Conditions of the Notes

The exact payments due under the Swap Agreement for a particular Series will vary from Series to Series depending on the terms of those Series. The exact payments will be agreed between the Fiduciary and the Related Agreement Counterparty at the time of entry into the relevant Swap Agreement. There is no restriction upon the payments that may be agreed.

Other than in circumstances where a Fiduciary Event has occurred with respect to the Related Agreement Counterparty, all determinations and calculations (if any) required to be made by the Fiduciary pursuant to the Swap Agreement shall be made by the Related Agreement Counterparty on behalf of the Fiduciary. Upon the occurrence of a Fiduciary Event where the Related Agreement Counterparty is the Defaulting Party, calculations will be made by the Fiduciary or a third party appointed by the Fiduciary to do so.

In respect of Secured Notes and Repack Notes, the occurrence at any time of any of the following events shall constitute an event of default under the Swap Agreement:

The Early Termination Amount shall be calculated as soon as reasonably practicable after the Collateral Liquidation Notice Receipt Date and in any event not later than the Breakage Cost Valuation Date; and

- (ii) if sums received under the relevant Swap Agreement are subject to a withholding or a deduction on account of tax and such withholding or deduction arises as a result of a change in tax law or as a result of any action taken by a taxing authority or a court after the entry into the relevant Swap Agreement, being a tax event under the ISDA Agreement;
- (iii) if sums paid or received under the relevant Swap Agreement are subject to a withholding or a deduction on account of tax as a result of certain merger events with respect to the Fiduciary or the Related Agreement Counterparty, being a tax event upon merger under the ISDA Agreement; and
- (iv) the creditworthiness of the Fiduciary or the Related Agreement Counterparty is materially weaker following its merger with another entity or certain other reorganisation events, being a credit event upon merger under the ISDA Agreement.

In the case of Secured Notes, the occurrence of:

- (i) a Special Event (which includes a Related Agreement Termination Event); or
- (ii) a "Trigger redemption at the option of the Fiduciary" in accordance with General Condition 6.2.3 (a **Trigger Redemption**), may result in the termination (in whole or in part depending on the relevant General Condition in relation to such event) of the Swap Agreement. The Calculation Agent shall notify the parties of the occurrence of such event and specify a date for termination (in whole or in part depending on the relevant General Condition) of the Swap Agreement in such notice. The Early Termination Date (as defined in the Swap Agreement) shall be the date specified by the Calculation Agent in such notice. Notwithstanding anything to the contrary in the Swap Agreement, payments by the Related Agreement Counterparty and the Fiduciary of respectively, the Early Exchange Amount A (as defined above) and the Early Exchange Amount B (as defined above) on the Early Redemption Date of the Notes, pursuant to the terms of the Swap Agreement, shall discharge each of the Related Agreement Counterparty and the Fiduciary to pay any Early Termination Amount due under the ISDA Agreement.

In the case of Repack Notes, the occurrence of:

- (i) a Special Event (which includes a Related Agreement Termination Event);
- (ii) a Trigger Redemption (as defined above); or
- (iii) a Bond Event Determination Date,

may result in the termination (in whole or in part depending on the relevant General Condition in relation to such event) of the Swap Agreement. The Calculation Agent shall notify the parties of the occurrence of such event and specify a date for termination (in whole or in part depending on the relevant General Condition) of the Swap Agreement in such notice. The Early Termination Date (as defined in the Swap Agreement) shall be the date specified by the Calculation Agent in such notice. Upon such termination, the Fiduciary or the Related Agreement Counterparty may be obliged to pay an early termination amount which will be the Early Termination Amount (as defined in the Swap Agreement) pursuant to Section 6(e) of the ISDA Agreement (which will be calculated by reference to the costs that would be incurred by the party making the calculation in replacing (or providing the economic equivalent of) the rights and obligations that have been terminated, or the gain that would be made in so doing (referred to in the Swap Agreement as the "Close-out Amount")). The Early Termination Amount shall (a) in the case of a Special Event or a Trigger Redemption be calculated in accordance with the timing provisions of the Swap Agreement and (b) in the case of a Bond Event Determination Date, be calculated on the Related Agreement Price Determination Date.

3.4.2.4 Purchase and cancellation of the Notes

The Fiduciary may from time to time purchase and cancel all or some of the Notes of a Series in accordance with General Conditions 14.3 and 14.4. In a case of a partial purchase and cancellation, a pro-rata proportion of the Swap Agreement will terminate and an amount will be payable by one party to the other equal to the mark-to-market value of such portion of the Swap Agreement so terminated.

3.4.3 Securities Lending Agreement

The Fiduciary (acting as **Lender**) and the Related Agreement Counterparty (acting as **Borrower**) have entered into (i) a Global Master Securities Lending Agreement (January 2010 version) and (ii) a Schedule to the Global Master Securities Lending Agreement (January 2010 version) (in respect of (a) Repack Notes dated 7 November 2017 and amended and restated on 3 April 2019 and (b) Secured Notes dated 29 November 2017 and amended and restated on 12 December 2018) each governed by English law (such agreement as amended, supplemented, restated or otherwise modified from time to time), together the **GMSLA Agreement**. References in the General Terms and Conditions to the GMSLA Agreement should be interpreted accordingly in respect of Repack Notes and Secured Notes.

Although the parties sign only one GMSLA Agreement for administrative convenience, they are deemed to sign separate securities lending agreements on the terms of the GMSLA Agreement (a **Deemed Securities Lending Agreement** or **Securities Lending Agreement**) that will apply identically but separately between the Fiduciary and the Related Agreement Counterparty in respect of each Collateral Pool.

The Fiduciary may enter into one or more securities lending transactions with Societe Generale in its capacity as the Related Agreement Counterparty under the Deemed Securities Lending Agreement.

Each Securities Lending Agreement will be entered into in order to grant the Related Agreement Counterparty the option to borrow Fiduciary Securities from the Fiduciary from time to time during the term of the Notes. The Securities Lending Agreement will be deemed to be entered into between the Fiduciary and the Related Agreement Counterparty on the date on which the first Series of Notes collateralised by the relevant Collateral Pool is issued.

In the case of a Series of Notes collateralised by a Single Series Collateral Pool, there will be a single Securities Lending Agreement in respect of such Series.

In the case of multiple Series of Notes collateralised by the same Multiple Series Collateral Pool, there will be a single Securities Lending Agreement in respect of all such Series.

3.4.3.1 Loans of Fiduciary Securities

Pursuant to the Securities Lending Agreement, the Related Agreement Counterparty will have the right to, from (and including) the Issue Date to (but excluding) the Securities Lending Deadline, borrow (for a period ending no later than the Securities Lending End Date) some or all of the securities comprising the Fiduciary Securities held by the Fiduciary (which transaction will constitute a "Loan" as defined in and for the purposes of the Securities Lending Agreement). If the Related Agreement Counterparty borrows Fiduciary Securities from the Fiduciary, title to the relevant Loaned Securities will be transferred to the Related Agreement Counterparty free from all liens, charges and encumbrances. For the avoidance of doubt, the Related Agreement Counterparty shall not be obliged to retain legal and/or beneficial ownership of any Loaned Securities and the Related Agreement Counterparty shall be free to deal with the Loaned Securities in any manner which it thinks fit including, without limitation, disposing of all or any of such Loaned Securities or any of its rights with respect thereto, to one or more third parties.

The Related Agreement Counterparty may terminate a Loan at any time and deliver securities equivalent to the relevant Loaned Securities (**Equivalent Securities**) to the Fiduciary. For the purposes of the Securities Lending Agreement, **Equivalent** or **equivalent to** means, in relation to any Loaned Securities, securities or other property, of an identical type, nominal value, description and amount to such Loaned Securities so provided or, in the case of redemption, a sum of money equivalent to the proceeds of the redemption.

Securities Lending Deadline means the day which is two Business Days prior to the Maturity Date of the relevant Series.

Securities Lending End Date means, in respect of a Collateral Pool, either:

(i) where "Single Series Collateral Pool" is applicable, the day which is one Business Day prior to the earlier of (a) the Maturity Date of the relevant Series, and (b) the date on which all outstanding Notes are redeemed in full and no Notes remains outstanding other than following the occurrence of a Fiduciary Event or Related Agreement Counterparty Event, or

(ii) where "Multiple Series Collateral Pool" is applicable, the day which is one Business Day prior to the earlier of (a) the final Maturity Date of the Notes of each Series collateralised by the Multiple Series Collateral Pool, and (b) the date on which all outstanding Notes of each Series collateralised by the Multiple Series Collateral Pool are redeemed in full and no Notes remains outstanding, other than following the occurrence of a Fiduciary Event or Related Agreement Counterparty Event.

If a Fiduciary Securities Substitution is to be effected in respect of which any of the Removed Fiduciary Securities have been loaned by the Fiduciary to the Related Agreement Counterparty pursuant to the Securities Lending Agreement and so constitute Loaned Securities, then the date on which such Fiduciary Securities Substitution takes effect will be deemed to be the Securities Lending End Date.

The Fiduciary Securities may be loaned by the Fiduciary to the Related Agreement Counterparty pursuant to the Securities Lending Agreement and become Loaned Securities; or transferred with full title to the Related Agreement Counterparty pursuant to the Collateral Transfer Agreement and may be transferred with full title by the Related Agreement Counterparty back to the Fiduciary pursuant to the Collateral Transfer Agreement, in order to collateralise the Related Agreement Counterparty's obligation to return securities equivalent to the Fiduciary Securities borrowed from the Fiduciary.

General Terms and Conditions of the Notes

Any of such Fiduciary Securities which have been transferred to the Related Agreement Counterparty pursuant to the terms of the Securities Lending Agreement or the Collateral Transfer Agreement and are not held in the Fiduciary Account shall continue to constitute Fiduciary Securities.

3.4.3.2 Income on the Loaned Securities

Where the term of a Loan extends over an Income record date in respect of any Loaned Securities, the Related Agreement Counterparty shall, on the date such Income is paid by the obligor in respect of such Loaned Securities, pay or deliver to the Fiduciary a sum of money or property equivalent to (and in the same currency as) the type and amount of such Income that would be received by the Fiduciary in respect of such Loaned Securities assuming such Loaned Securities were not loaned to the Related Agreement Counterparty and were retained by the Fiduciary on the Income record date.

Income means any interest, coupons, dividends or other distributions of any kind whatsoever with respect to any Loaned Securities.

3.4.3.3 Exercise of voting rights

Where any voting rights fall to be exercised in relation to any Loaned Securities, the Related Agreement Counterparty shall have no obligation to arrange for such voting rights to be exercised in accordance with the instructions of the Fiduciary.

3.4.3.4 Cash flows under the Securities Lending Agreement

Where the term of a Loan extends over an income record date in respect of any Loaned Securities, the Related Agreement Counterparty shall, on the date such income is paid by the obligor in respect of such Loaned Securities, pay or deliver to the Fiduciary a sum of money or property equivalent to (and in the same currency as) the type and amount of such Income that would be received by the Fiduciary in respect of such Loaned Securities assuming such Loaned Securities were not loaned to the Related Agreement Counterparty and were retained by the Fiduciary on the income record date.

Income means any interest, coupons, dividends or other distributions of any kind whatsoever with respect to any Loaned Securities.

3.4.3.5 Events of default

The occurrence at any time of any of the following events shall constitute an event of default under the Securities Lending Agreement:

(i) failure by the Fiduciary or the Related Agreement Counterparty to make, when due, any payment (including Income) or delivery under the Securities Lending Agreement required to be made by it if not remedied within the time period specified therein;

(ii) certain bankruptcy events relating to the Fiduciary and the Related Agreement Counterparty;

(iii) warranties made by the Fiduciary or the Related Agreement Counterparty under the Securities Lending Agreement proven to be incorrect/untrue in any material respect;

(iv) the Fiduciary or the Related Agreement Counterparty unable to/intends not to perform any of its obligations under the Securities Lending Agreement or in respect of a Loan where such failure would, with the service of notice or lapse of time, constitute a Fiduciary Event;

(v) all or material part of assets of the Fiduciary or the Related Agreement Counterparty being transferred to a trustee (or a person exercising similar functions) by a regulatory authority pursuant to any legislation;

(vi) the Fiduciary or the Related Agreement Counterparty being declared in default or being suspended or expelled from membership or participation in any securities exchange or suspended or prohibited from dealing in securities by any regulatory authority, on grounds that it has failed to meet any requirements relating to financial resources or credit rating;

(vii) breach by the Fiduciary or the Related Agreement Counterparty of any of their other respective obligations under the Securities Lending Agreement if not remedied within the time period specified therein;

(viii) occurrence of a Fiduciary Event pursuant to the Terms and Conditions of the Notes (other than a Fiduciary Event constituted by the termination of the Securities Lending Agreement as a result of an event of default under the Securities Lending Agreement where the Fiduciary is the defaulting party), for the purposes of which the Fiduciary shall be the defaulting party; and

(ix) occurrence of an event of default under a Related Agreement (other than a Fiduciary Event constituted by the termination of the Securities Lending Agreement as a result of an event of default under this Agreement where the Related Agreement Counterparty is the defaulting party) for the purposes of which the Related Agreement Counterparty shall be the defaulting party.

The occurrence of any of the above mentioned events of default under the Securities Lending Agreement shall constitute:

- a Fiduciary Event if the Fiduciary is the defaulting party; or

- a Related Agreement Counterparty Event, if the Related Agreement Counterparty is the defaulting party.

If an event of default under the Securities Lending Agreement occurs:

General Terms and Conditions of the Notes

- (i) there shall be no further payments or deliveries pursuant to the terms of the Securities Lending Agreement;
- (ii) the Related Agreement Counterparty shall have no further obligation to redeliver Loaned Securities or Equivalent Securities; and
- (iii)
 - (a) in the case of Repack Notes, a termination amount (as described below) may become payable from the Fiduciary to the Related Agreement Counterparty or from the Related Agreement Counterparty to the Fiduciary; and
 - (b) in the case of Secured Notes, no termination amount shall be payable to or from either party pursuant to the Securities Lending Agreement.

All calculations in respect of the termination amount payable in respect of Repack Notes shall be made by the Calculation Agent except in the case of a Related Agreement Counterparty Event. If a Related Agreement Counterparty Event has occurred, all calculations will be made by the Fiduciary or a third party appointed by the Fiduciary to do so.

The termination amount payable in such circumstance for Repack Notes shall either be:

- (i) the excess value of the Loan Securities which have been transferred to the Related Agreement Counterparty pursuant to the Securities Lending Agreement over the value of the Eligible Collateral Assets which have been transferred to the Fiduciary pursuant to the Collateral Transfer Agreement, which shall be payable by the Related Agreement Counterparty to the Fiduciary; or
- (ii) the excess value of the Eligible Collateral Assets which have been transferred to the Fiduciary pursuant to the Collateral Transfer Agreement over the value of the Loaned Securities which have been transferred to the Related Agreement Counterparty pursuant to the Securities Lending Agreement, which shall be payable by the Fiduciary to the Related Agreement Counterparty.

3.4.3.6 Termination

The Securities Lending Agreement provides for the termination of the Securities Lending Agreement including, without limitation, upon the occurrence of the following:

- (i) the Securities Lending End Date;
- (ii) the Notes are purchased or the Notes become due and payable in full or in part (including in the case of Repack Notes upon the occurrence of a Bond Event Determination Date), other than upon termination of the Agreement as a result of the occurrence of a Collateral Liquidation Event; and
- (iii) the occurrence of a tax event.

In the case of a termination pursuant to the above events (excluding in the case of Collateral Liquidation Event and, for Repack Notes, a Bond Event Determination Date), the Related Agreement Counterparty will redeliver all Loaned Securities or Equivalent Securities or the relevant proportion thereof in the case of a partial redemption of Notes relating to Loaned Securities which had previously been delivered to it pursuant to the terms of the Securities Lending Agreement. Upon transfer of such Equivalent Securities by the Related Agreement Counterparty to the Fiduciary, such Equivalent Securities will constitute Fiduciary Securities.

In such circumstances, no termination amount shall become payable to or from either party pursuant to the Securities Lending Agreement.

In the case of Repack Notes, if there is a termination of the Securities Lending Agreement pursuant to a Bond Event Determination Date, the Related Agreement Counterparty shall redeliver all Loaned Securities or Equivalent Loaned Securities relating to the Loaned Securities which has been delivered to it pursuant to the terms of the Securities Lending Agreement. Upon such early termination, (i) the Calculation Agent shall calculate the costs or gains of the Fiduciary relating to such termination (which shall include any cash or gains incurred by the Related Agreement Counterparty of unwinding any hedging arrangement(s) in relation to the refinancing of the relevant Bond and/or Collateral Assets) and (ii) (a) the Related Agreement Counterparty shall pay an amount equal to such costs (if any) to the Fiduciary or (b) the Fiduciary will pay an amount equal to such gain to the Related Agreement Counterparty.

3.4.4 Collateral Transfer Agreement

The Fiduciary and the Related Agreement Counterparty have entered into a master collateral transfer agreement governed by English law dated 27 April 2016, as amended and restated on 7 November 2017 (such agreement, as further amended, supplemented, restated or otherwise modified from time to time, the **Master Collateral Transfer Agreement**).

Although the parties signed only one Master Collateral Transfer Agreement for administrative convenience, they are deemed to sign separate collateral transfer agreements on the terms of the Master Collateral Transfer Agreement (each, a **Deemed Collateral Transfer Agreement** or **Collateral Transfer Agreement**) that will apply identically but separately between the Fiduciary and the Related Agreement Counterparty in respect of each Collateral Pool. The Fiduciary shall enter into one or more Collateral Transfer Agreements with Societe Generale in its capacity as the Related Agreement Counterparty.

In the case of a Series of Notes collateralised by a Single Series Collateral Pool, there will be a single Collateral Transfer Agreement in respect of such Series. The Collateral Transfer Agreement will be deemed to be entered into between the Fiduciary and the Related Agreement Counterparty on the date on which the first Series of Notes collateralised by the relevant Collateral Pool is issued.

In the case of multiple Series of Notes collateralised by the same Multiple Series Collateral Pool, there will be a single Collateral Transfer Agreement in respect of all such Series.

3.4.4.1 Transfer of CTA Collateral Assets

In order to ensure that a Series of Notes relating to a Single Series Collateral Pool is collateralised in accordance with its terms or that all Series of Notes relating to a Multiple Series Collateral Pool are collateralised in each case in accordance with their terms, the Collateral Assets will be subject to adjustment on each Collateral Test Date in accordance with Condition 5 herein.

Pursuant to the terms of the Collateral Transfer Agreement, the Related Agreement Counterparty may be required to transfer Eligible Collateral Assets to the Fiduciary, and the Fiduciary may be required to transfer Fiduciary Securities to the Related Agreement Counterparty in order to collateralise the obligations of the Fiduciary and the Related Agreement Counterparty under:

(i) both the Swap Agreement and the Securities Lending Agreement in relation to Secured Notes or Repack Notes for which the applicable Collateral Test is Notes Market Value Test; and

(j) the Securities Lending Agreement only in relation to Repack Notes for which the applicable Collateral Test is Fiduciary Securities Value Test.

3.4.4.2 Income on CTA Collateral Assets

Pursuant to the terms of the Collateral Transfer Agreement, the Fiduciary will pay or deliver to the Related Agreement Counterparty amounts equal to each amount of principal, interest, coupon, dividend, income or other property distributed in respect of any CTA Collateral Assets.

The Related Agreement Counterparty will pay or deliver to the Fiduciary amounts equal to each amount of principal, interest, coupon, dividend, income or other property distributed in respect of any Fiduciary Security transferred to it by the Fiduciary pursuant to the terms of the Collateral Transfer Agreement.

3.4.4.3 Exercise of voting rights

Where any voting rights fall to be exercised in relation to any CTA Collateral Assets, the Related Agreement Counterparty and or the Fiduciary, as the case may be, shall have no obligation to arrange for such voting rights to be exercised in accordance with the instructions of the other Party.

3.4.4.4 Termination of the Collateral Transfer Agreement

This Collateral Transfer Agreement will terminate:

(i) where "Single Series Collateral Pool" is applicable, on the Maturity Date of the Notes; or

(ii) where "Multiple Series Collateral Pool" is applicable, on the final Maturity Date of the Notes of each Series collateralised by the Multiple Series Collateral Pool.

On the date of such termination, the Required Collateral Assets Value will reduce to zero and either (i) all CTA Collateral Assets held by the Fiduciary will be redelivered to the Related Agreement Counterparty, or (ii) all Fiduciary Securities transferred by the Fiduciary to the Related Agreement Counterparty pursuant to this Collateral Transfer Agreement will be redelivered to the Fiduciary.

3.4.5 Netting of Payments

The Fiduciary and the Related Agreement Counterparty have agreed that, if on any date (including any early termination date but excluding any early termination following the occurrence of a Fiduciary Event or Related Agreement Counterparty Event) amounts would otherwise be payable in the same currency or, if "Physical Delivery of Collateral Assets" is specified as applicable in the relevant Final Terms, equivalent securities would be deliverable by each of them to the other under the Related Agreements, then, on such date:

(i) subject to (ii) and (iii) below, the Fiduciary's and the Related Agreement Counterparty's respective obligations to make payment of any such amounts and/or delivery of any such securities will be automatically satisfied and discharged;

(ii) if the aggregate amount that would otherwise have been payable by the Fiduciary or the Related Agreement Counterparty exceeds the aggregate amount that would otherwise have been payable to it by the other party, the Fiduciary's and the Related Agreement Counterparty's respective payment obligations will be replaced by an obligation upon whichever of the Fiduciary and the Related Agreement Counterparty who would have been obliged to pay the larger amount, to pay to the other party, the excess of the larger aggregate amount over the smaller aggregate amount; and

(iii) if "Physical Delivery of Collateral Assets" is specified as applicable in the relevant Final Terms, securities would be deliverable; and if the number of such securities that would otherwise have been deliverable by the Fiduciary or the Related Agreement Counterparty exceeds the number of such securities that would otherwise have been deliverable to it by the other party, the Fiduciary's and the Related Agreement Counterparty's respective delivery obligations will be replaced by an obligation upon whichever of the

Fiduciary and the Related Agreement Counterparty who would have been obliged to deliver the larger number of such securities, to deliver to the other party, the excess of the larger number of such securities over the smaller number of such securities.

3.4.6 Taxation under the Related Agreements

Neither the Fiduciary nor the Related Agreement Counterparty is obliged under the Related Agreements to gross up any payment to be made under the Related Agreements if withholding taxes are imposed on or after the Issue Date of a Series of Notes.

Notwithstanding the above, if "Type of Notes" is specified as "Repack Notes" in the relevant Final Terms, in relation to the Securities Lending Agreement and the Collateral Transfer Agreement, the imposition of such withholding taxes on or after the Issue Date of a Series of Notes may lead to the early termination of the Related Agreements, which event would constitute a "Related Agreement Termination Event" for the purposes of General Condition 6.2.7 with respect to the Notes of the relevant Series, causing such Notes to become subject to early redemption at the applicable Early Redemption Amount.

3.4.7 Related Agreement Counterparty Transfer Right

The Related Agreement Counterparty is entitled to transfer (the **Transfer Right**) all of its rights and obligations under the Swap Agreement and the Securities Lending Agreement to a replacement counterparty (the **Replacement Related Agreement Counterparty**) which is a financial institution incorporated in the European Economic Area, the United States of America or Japan and which has a long term credit rating from at least two of Fitch, Moody's and Standard & Poor's which is at least equal to the long term credit rating of Societe Generale at the date on which the Transfer Right is exercised.

If the Related Agreement Counterparty exercises the Transfer Right, the Fiduciary shall be entitled to agree such modifications to (i) the Terms and Conditions of the Notes and/or (ii) any of the Transaction Documents as it considers necessary or desirable to allow the Replacement Related Agreement Counterparty to accede to, or otherwise take the benefit of, those Transaction Documents, and by subscribing for or acquiring Notes, Noteholders shall be deemed to have acknowledged such right of the Fiduciary and agreed thereto.

Following exercise of the Transfer Right, all references in the Terms and Conditions of the Notes to the "Related Agreement Counterparty" shall be construed as being references to the relevant Replacement Related Agreement Counterparty, and references to any Related Agreement shall be construed as being references to the relevant agreement as novated or otherwise transferred to the Replacement Related Agreement Counterparty.

There are no restrictions on when Societe Generale is entitled to exercise the Transfer Right and Societe Generale may do so in circumstances which are adverse to the interests of Noteholders. Noteholders shall not be entitled to veto or otherwise prohibit any exercise of the Transfer Right and none of the Fiduciary, Societe Generale or any other person shall be liable to any Noteholder which suffers any loss following exercise of the Transfer Right, and by subscribing for or acquiring Notes, Noteholders shall be deemed to have acknowledged and agreed thereto.

The Fiduciary shall notify Noteholders of any exercise of the Transfer Right as soon as reasonably practicable.

4. VALUATION AND CALCULATION RELATING TO COLLATERAL ASSETS

4.1 Valuation of Collateral Assets

In order to ensure that a Series of Notes is collateralised in accordance with its terms, on each Collateral Test Date, the Collateral Agent will verify that (i) the Collateral Assets comply with the Collateral Rules, and (ii) the Collateral Assets Value (as defined below) in relation to a Collateral Pool will be at least equal to the Required Collateral Assets Value.

If any Collateral Asset (or portion thereof) ceases to comply with the Collateral Rules at any time, such asset (or portion thereof, as applicable, the **Ineligible Asset**) may be retained in the Fiduciary Account but shall, for the avoidance of doubt, be deemed not to be a Collateral Asset (and so consequently be deemed to have zero value) for the purposes of determining the Collateral Assets Value for so long as such asset (or portion thereof) is an Ineligible Asset. Notwithstanding the foregoing, any Ineligible Assets in the Fiduciary Account at the time of a Collateral Liquidation Event shall constitute Collateral Assets for the purposes of Condition 9.2 herein.

4.2 Calculations and determinations

In relation to the Collateral Pool, on each Collateral Test Date:

- (i) the Collateral Agent will determine the Collateral Assets Value pursuant to the terms of the Collateral Agency Agreement; and
- (ii) the Collateral Monitoring Agent will verify the calculation made by the Collateral Agent of the Collateral Assets Value pursuant to the terms of the Collateral Monitoring Agency Agreement.

4.2.1 The Collateral Test

On each Collateral Test Date, the Collateral Agent will determine whether the Collateral Assets comprised in the Collateral Pool as of such Collateral Test Date:

- (i) satisfy the Collateral Rules; and

General Terms and Conditions of the Notes

(ii) have a Collateral Assets Value at least equal to 97% of the Required Collateral Assets Value.

The Required Collateral Assets Value is determined by reference to:

- the Notes Market Value Test in respect of; (i) Secured Notes and (ii) in respect of Repack Notes, for which the obligations of the Fiduciary and the Related Agreement Counterparty under the Swap Agreement and the Securities Lending Agreement are collateralised under the Collateral Transfer Agreement; or

- the Fiduciary Securities Value Test in respect of Repack Notes, for which the obligations of the Related Agreement Counterparty under the Securities Lending Agreement and Swap Agreement are not collateralised under the Collateral Transfer Agreement.

For the purpose of this Condition 4.2:

Collateral Assets Value means the aggregate market value as of the relevant Valuation Point, expressed in the Collateral Valuation Currency and discounted in each case by the applicable Haircut and the aggregate value of any Waived Notes, of all the Collateral Assets in the Collateral Pool. The Collateral Agent will determine the Collateral Assets Value, and the Collateral Monitoring Agent will verify the Collateral Assets Value on the basis of the following pricing policy:

(a) where the price of the Collateral Asset is available from Bloomberg, (i) for equities, the last price (Equities – PX –LAST), (ii) for fixed income, the mid dirty price (Bonds- PX_DIRTY_MID_BGN);

(b) where the price of the Collateral Asset is not available from Bloomberg, then the Collateral Monitoring Agent will use the price determined by the Collateral Agent acting in good faith and in a commercially reasonable manner.

For the purpose of determining the Collateral Assets Value, the value of any Collateral Asset which has ceased to comply with the Collateral Rules shall be deemed to be zero.

Where the relevant currency of denomination of any Collateral Asset is other than the Collateral Valuation Currency, the Collateral Agent shall convert the value of such Collateral Asset at the relevant Collateral Valuation Currency Exchange Rate.

Collateralisation Percentage means the level of collateralisation in respect of the Notes pursuant to the following:

(a) In respect of Secured Notes where the Collateralisation Percentage is specified as "Fixed Collateralisation" in the applicable Final Terms, the Collateralisation Percentage is such percentage specified in the applicable Final Terms or a percentage determined through the application of a formula specified in the applicable Final Terms and such percentage does not change during the life of the Notes; and

(b) in respect of Secured Notes where the Collateralisation Percentage is specified as "Variable Collateralisation" in the applicable Final Terms (**Secured Notes with Variable Collateralisation**), the Collateralisation Percentage at the Issue Date shall be specified in the applicable Final Terms, and subsequently the Collateralisation Percentage may be varied more than once at the option of the Collateral Agent on any Collateral Business Day following the period from the Issue Date to the Maturity Date. In the event that the Collateralisation Percentage is set to a percentage less than 100%, the Related Agreement Counterparty will, pursuant to the terms of the Securities Lending Agreement, borrow some or all of the Fiduciary Securities held by the Fiduciary and only a partial collateralisation amount of Collateral Assets will be posted in return under the Collateral Transfer Agreement, or, where the Collateralisation Percentage is set to 0%, no Collateral Assets will be posted in return. Where the Collateralisation Percentage is specified as 0% in the applicable Final Terms, it means that on the Issue Date all of the Fiduciary Securities bought by the Fiduciary have been borrowed by the Related Agreement Counterparty with no CTA Collateral Asset in return. The Collateralisation Percentage may then be varied more than once or increased to 100% at the option of the Collateral Agent on any Collateral Business Day following the period from the Issue Date to the Maturity Date. In addition, the Collateralisation Percentage may be subject to a floor, other than 0%, (**Variable Collateralisation Floor**), as specified in the applicable Final Terms; in such case Collateralisation Percentage shall not be set to a percentage less than the specified Variable Collateralisation Floor.

(c) In respect of Repack Notes, the Collateralisation Percentage shall be specified in the applicable Final Terms, or shall be determined through the application of a formula as specified in the applicable Final Terms. The applicable Final Terms may specify that the Collateralisation Percentage may vary during the terms of the Notes after a certain date following the occurrence of a trigger event, or in certain circumstances following a unanimous decision of the Noteholders; this means that the percentage level may vary from 100% from the Issue Date to (and including) the Maturity Date of the Bond to 0% from (but excluding) the Maturity Date of the Bond to (and including) the Maturity Date, provided however, that in case of a Bond Event Determination Date (or the Repack Notes Exceptional Event Date, as the case may be), the Collateralisation Percentage may be 0% from (but excluding) the Bond Event Determination Date (or the Exceptional Event Date as the case may be) to (and including) the Cash Redemption Date;

In relation to (c) above, if the applicable Final Terms specify that the Collateralisation Percentage may vary in certain circumstances following a unanimous decision of the holders of Notes collateralised by the Collateral Pool, in order to exercise such option Noteholders shall give notice of the unanimous decision of the holders of such Notes specifying the new Collateralisation Percentage in respect of such Notes collateralised by such Collateral Pool and the date of variation of the Collateralisation Percentage to the Fiduciary in accordance with General Condition 13 within the notice period specified in the applicable Final Terms.

Collateral Test Date means, in respect of a Collateral Pool, the Issue Date of each Tranche of Notes collateralised such Collateral Pool, each periodic date from and excluding the Issue Date as is specified in the applicable Final Terms and any other date deemed to be a Collateral Test Date in accordance with this Part 3.

Collateral Valuation Currency means Euro.

Collateral Valuation Currency Screen Page means, if the Collateral Valuation Currency is Euro, Bloomberg WMCO page, or if the Collateral Valuation Currency is other than Euro, the relevant screen page specified in the applicable Final Terms for the purpose of determining the relevant Collateral Valuation Currency Exchange Rate.

Collateral Valuation Currency Specified Time means, for the purpose of determining the relevant Collateral Valuation Currency Exchange Rate, if the Collateral Valuation Currency is Euro, 5.30 PM (Paris time), or if the Collateral Valuation Currency is other than Euro, the specified time specified in the applicable Final Terms.

For the purpose of determining the Collateral Assets Value in respect of a Collateral Test Date, the Haircut applicable to each type of Collateral Asset shall be determined as set forth in the table below in accordance with whichever Haircut 1, Haircut 2 or Haircut 3 is specified as being applicable in the Final Terms.

For the avoidance of doubt, the applicable Final Terms may specify one Haircut value per type or class of Collateral Asset.

Haircut 1 :

- The Haircut applicable to each Collateral Asset is 0%

Haircut 2 :

- The Haircut applicable to an equity security comprised in one of the following indices: S&P 500, EUROSTOXX 600, NIKKEI 225, HK Index, Korean Index is 0%
- The Haircut applicable to any other equity security is 25%

Haircut 3 :

- The Haircut applicable to an equity security or bond with a rating higher than B- by Standard & Poor's Rating Services, a division of S&P Global Inc. (**S&P**) (or by Moody's Investors Service (**Moody's**) is 0%
- The Haircut applicable to a mutual fund share is 10%
- The Haircut applicable to an asset backed security (ABS) or a hedge fund share is 20%

4.2.2 Required Collateral Assets Value

In relation to a Single Series Collateral Pool, the Required Collateral Assets Value will be calculated by the Collateral Agent on the Issue Date and verified by the Collateral Monitoring Agent on each Collateral Test Date as set out below.

In relation to a Multiple Series Collateral Pool, the Required Collateral Assets Value will be determined by the Collateral Agent and verified by the Collateral Monitoring Agent on each Collateral Test Date as the sum of the amounts calculated in respect of each Series of Notes collateralised by the relevant Collateral Pool (as such amounts are calculated in accordance with Condition 4.2.1 herein as applicable, as if each Series of Notes was the only Series relating to such Collateral Pool).

4.2.2.1 Notes Market Value Test

"Notes Market Value Test" is applicable:

- (i) in respect of Secured Notes, and
- (ii) in respect of Repack Notes where the obligations of the Fiduciary and the Related Agreement Counterparty under the Swap Agreement and the Securities Lending Agreement are collateralised under the Collateral Transfer Agreement.

Where Notes Market Value Test is applicable, the **Required Collateral Assets Value** in respect of the Collateral Pool collateralising the Notes will be calculated by the Collateral Agent and verified by the Collateral Monitoring Agent on the Issue Date and on each Collateral Test Date as an amount equal to the product of:

- (i) the Note Market Value for such Series of Notes;
- (ii) the Collateralisation Percentage; and
- (iii) the number of Non-Waived Notes of such Series of Notes.

Where the Notes Market Value Test is applicable, the Collateral Transfer Agreement provides for collateralisation on a net basis of (i) the Related Agreement Counterparty's obligation to return securities equivalent to the Fiduciary Securities borrowed from the Fiduciary and (ii) the Exposure (as defined in the Swap Agreement) of the Fiduciary or the Related Agreement Counterparty as the case may be under the Swap Agreement.

In case of Secured Notes with Variable Collateralisation, the cash proceeds from the issuance of such Notes will be used to purchase Fiduciary Securities. In the event that the Collateralisation Percentage is reduced after the Issue Date, the Related Agreement

General Terms and Conditions of the Notes

Counterparty will, pursuant to the terms of the Securities Lending Agreement, borrow some or all of the Fiduciary Securities held by the Fiduciary and only a partial collateralisation amount of Collateral Assets will be posted in return under the Collateral Transfer Agreement, or, where the Collateralisation Percentage is reduced to 0%, no Collateral Assets will be posted in return.

Where the specified currency of the Notes is other than the Collateral Valuation Currency, the Collateral Agent shall convert the value of such Note at the relevant Collateral Valuation Currency Exchange Rate.

The Note Market Value determined by the Note Valuation Agent as described above and the aggregate number of Waived Notes notified to the Collateral Agent and the Collateral Monitoring Agent shall bind each of the Collateral Agent and the Collateral Monitoring Agent in its determination of the Required Collateral Assets Value.

4.2.2.2 Fiduciary Securities Value Test

In case of Repack Notes where the obligations of the Related Agreement Counterparty under the Securities Lending Agreement and Swap Agreement are not collateralised under the Collateral Transfer Agreement, "Fiduciary Securities Value Test" shall be applicable and the **Required Collateral Assets Value** in respect of the Collateral Pool collateralising the Notes will be calculated by the Collateral Agent and verified by the Collateral Monitoring Agent on the Issue Date and on each Collateral Test Date as an amount equal to the product of:

- (i) the Required Fiduciary Securities Value; and
- (ii) the Collateralisation Percentage.

Where Fiduciary Securities Value Test is applicable, **Required Fiduciary Securities Value** means the aggregate market value as of the Issue Date, expressed in the Collateral Valuation Currency, of all the Fiduciary Securities (whether held in the Fiduciary Account or loaned to the Related Agreement Counterparty). The Collateral Agent will determine the Required Fiduciary Securities Value on the basis of such valuation method or methods as the Collateral Agent may, acting in good faith and in a commercially reasonable manner, determine in its discretion.

Where the relevant currency of denomination of any Fiduciary Security is other than the Collateral Valuation Currency, the Collateral Agent and the Collateral Monitoring Agent shall convert the value of such Fiduciary Securities at the relevant Collateral Valuation Currency Exchange Rate.

Where the Fiduciary Securities Value Test is specified as applicable in the Final Terms, the Collateral Transfer Agreement provides for collateralisation of the Related Agreement Counterparty's obligation to return securities equivalent to the Fiduciary Securities borrowed from the Fiduciary but not for the collateralisation of any other obligation under the Securities Lending Agreement nor any obligation under the Swap Agreement.

Unless and until a substitution to the Fiduciary Securities occurs pursuant to Condition 3.4.1.3 herein, the Fiduciary Securities Value Test will be deemed to be satisfied.

4.2.3 Waiver of Rights

If "Waiver of Rights" is specified as applicable in the applicable Final Terms, the Noteholders intending to hold such Notes (including, but not limited to, in their capacity as a market maker) may waive their rights by written notice to receive the proceeds of realisation of the Collateral Assets securing such Series of Notes (or where Physical Delivery of Collateral Assets is specified as applicable in the applicable Final Terms, delivery of the Collateral Assets) following the occurrence of a Collateral Liquidation Event (such Notes being **Waived Notes**). If "Waiver of Rights" is specified as applicable in the applicable Final Terms relating to Secured Notes, all such Notes held by Societe Generale or its affiliates in its capacity as market maker will be deemed to be Waived Notes, unless otherwise notified in writing by Societe Generale or its affiliates to the Collateral Agent.

Holders of Waived Notes are deemed to waive their rights to give written notice to the Fiduciary and the Guarantor that the Waived Notes are immediately due and repayable at their Early Redemption Amount on the occurrence of an Event of Default following the delivery of a Required Collateral Default Notice (as described below). As a consequence, when calculating the Required Collateral Assets Value in accordance with the provisions described above, the Collateral Agent and the Collateral Monitoring Agent shall only take into account the value of the Notes that have not been subject to such waiver (any such Notes being **Non-Waived Notes**).

Each holder of Waived Notes shall be required to (i) inform by written notice and, upon request from the Collateral Agent, provide evidence to, the Collateral Agent of the number of Waived Notes that he holds on the Issue Date and on each Collateral Test Date and (ii) notify the Collateral Agent following any transfer of Waived Notes. The Collateral Business Day following such notification will be deemed to be a Collateral Test Date and the Collateral Agent shall notify the Fiduciary and the Collateral Monitoring Agent of the same. Notwithstanding the above, all Notes held by Societe Generale or one or more of its affiliates, including but not limited to, in its capacity as market maker, will be deemed to be Waived Notes, unless otherwise notified in writing by Societe Generale or one or more of its affiliates to the Collateral Agent.

None of the Fiduciary, the Guarantor, the Collateral Agent or the Collateral Monitoring Agent shall be responsible for any incorrect, inaccurate or incomplete information relating to the number of Waived Notes relating to any one or more Series of Notes that may have been provided to the Collateral Agent by or on behalf of any holder of Waived Notes and none of the Fiduciary, the Guarantor, the Collateral Agent or the Collateral Monitoring Agent shall be under any duty to verify or otherwise confirm the number of Waived Notes so held.

5. ADJUSTMENTS OF THE COLLATERAL ASSETS UNDER THE COLLATERAL TRANSFER AGREEMENT AND COLLATERAL TEST NOTICE

When determining whether the Collateral Test is satisfied in respect of any Collateral Test Date, any addition of Eligible Collateral Assets, or removal of Collateral Assets (including, without limitation, in relation to any substitution to the Fiduciary Securities pursuant to Condition 3.4.1.3 herein, the termination of any of loan of Fiduciary Securities under the Securities Lending Agreement or pursuant to the Collateral Transfer Agreement) for which instructions have been provided on or before such

Collateral Test Date but which have not yet been completed will be included for the purposes of such determination as if such transactions had been completed.

If on a Collateral Test Date the Collateral Agent determines that the Collateral Test is not satisfied for the Collateral Pool, the Collateral Agent on behalf of the Fiduciary will select:

(i) the type and quantity of Fiduciary Securities previously delivered by the Fiduciary to the Related Agreement Counterparty or CTA Collateral Assets to be deposited in the Fiduciary Account by the Related Agreement Counterparty; or

(ii) existing Collateral Assets to be replaced with other Collateral Assets, pursuant to the terms of the Collateral Transfer Agreement and/or the Securities Sale and Purchase Agreement, in order that, after such adjustment or replacement, the Collateral Test will be satisfied.

Until any such adjustments to the Collateral Assets have been effected, the value of Collateral Assets held in the Fiduciary Account may be less than the revised Required Collateral Assets Value.

If on a Collateral Test Date the Collateral Agent determines that the Collateral Assets Value is greater than 100% of the Required Collateral Assets Value, the Collateral Agent on behalf of the Fiduciary may select Fiduciary Securities or any CTA Collateral Assets previously delivered by the Related Agreement Counterparty to the Fiduciary to be removed from the Fiduciary Account and delivered to the Related Agreement Counterparty pursuant to the terms of the Collateral Transfer Agreement (or shall select existing Collateral Assets to be replaced with other Collateral Assets) and, in the case of Fiduciary Securities only, to be delivered to the Related Agreement Counterparty pursuant to the terms of the Securities Sale and Purchase Agreement, provided that after such adjustment the Collateral Test shall continue to be satisfied and that the Collateral Assets shall comply with the applicable Collateral Rules.

On each Collateral Business Day, if the Collateral Agent on behalf of the Fiduciary intends to make adjustments to the Collateral Assets held in the Fiduciary Account (including, but not limited to, adjustments in order to ensure that the Collateral Test will be satisfied), the Collateral Agent will send or cause to be sent a notice (a **Collateral Test Notice**) to the Collateral Monitoring Agent specifying the adjustments to be made to the Fiduciary Account including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or Collateral Assets to be removed pursuant to the terms of the Collateral Transfer Agreement and/or the Securities Sale and Purchase Agreement.

6. VERIFICATION BY COLLATERAL MONITORING AGENT

On each Collateral Test Date, the Collateral Monitoring Agent shall, pursuant to the terms of the Collateral Monitoring Agency Agreement, verify the Collateral Assets Value and the Required Collateral Assets Value and shall verify that the applicable Collateral Test is satisfied.

If on the relevant Collateral Test Date:

(a) a Collateral Test Notice has been delivered by the Collateral Agent and the Collateral Monitoring Agent determines that the Collateral Test will not be satisfied (including after taking into account any adjustments specified in such Collateral Test Notice); or

(b) no Collateral Test Notice has been delivered by the Collateral Agent but the Collateral Monitoring Agent has determined that adjustments need to be made to the Collateral Assets so that the Collateral Test will be satisfied,

then the Collateral Monitoring Agent shall, on the Collateral Business Day immediately following the relevant Collateral Test Date, notify the Collateral Agent in writing providing details of why it considers that the Collateral Test is or will not be satisfied (such notice being hereafter referred to as a **Collateral Monitoring Agent Notice**).

Following receipt of a Collateral Monitoring Agent Notice, the Collateral Agent will determine whether it agrees with the contents of the Collateral Monitoring Agent Notice. Should the Collateral Agent agree with the contents of the Collateral Monitoring Agent Notice, the Collateral Agent shall on the Collateral Business Day immediately following receipt of the Collateral Monitoring Agent Notice send or cause to be sent a revised Collateral Test Notice (a **First Level Revised Collateral Test Notice**) to the Collateral Monitoring Agent and the Collateral Custodian specifying the agreed adjustments (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or Collateral Assets to be removed pursuant to the terms of the Collateral Transfer Agreement and/or the Securities Sale and Purchase Agreement) such that the Collateral Test will be satisfied.

If the Collateral Agent disputes the contents of a Collateral Monitoring Agent Notice, it shall on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice notify the Collateral Monitoring Agent of such dispute in writing (a **Dispute Notice**) and the Collateral Monitoring Agent and the Collateral Agent shall consult with each other in good faith in an attempt to resolve the dispute.

If the Collateral Agent and the Collateral Monitoring Agent are able to resolve the dispute following such consultation by the second Collateral Business Day following delivery of the Collateral Monitoring Agent Notice, the Collateral Agent shall send or cause to be sent a revised Collateral Test Notice (a **Second Level Revised Collateral Test Notice**) to the Collateral Monitoring Agent specifying the agreed adjustments (including *inter alia* the type and quantity of any Eligible Collateral Assets or Fiduciary Securities to be deposited and/or Collateral Assets to be removed pursuant to the terms of the Collateral Transfer Agreement and/or the Securities Sale and Purchase Agreement) such that the Collateral Test will be satisfied.

If the Collateral Agent and the Collateral Monitoring Agent fail to resolve the dispute by the second Collateral Business Day following delivery of the Collateral Monitoring Agent Notice, then the Collateral Agent (on behalf of the Fiduciary) shall notify the Collateral Monitoring Agent in writing (such notice being a **Dispute Resolution Procedure Notice**) and it will follow the collateral test dispute resolution procedure (the **Collateral Test Dispute Resolution Procedure**) to determine the adjustments to be made to the Collateral Assets:

(i) utilising any calculations, rules or criteria which the Collateral Agent and the Collateral Monitoring Agent have agreed are not in dispute;

(ii) if such dispute relates to the satisfaction of or the Collateral Rules, appointing an independent third person (acting as an expert and not as an arbitrator) selected by the Collateral Agent and approved by the Collateral Monitoring Agent (such approval not to be unreasonably withheld) to determine whether such Collateral Rules are satisfied, with the determination of any such person being final and binding upon the Collateral Agent and the Collateral Monitoring Agent; and

(iii) if such dispute relates to the valuation of the Collateral Assets, calculating the value of those Collateral Assets in dispute by using reasonable endeavours to seek four actual, firm and executable quotations for such Collateral Assets at mid-market with contract sizes approximately equal to the value of such Collateral Assets, from leading dealers in assets similar in nature to the Collateral Assets, who are committed to trade with the Fiduciary or the Related Agreement Counterparty, which may include Societe Generale, as selected by the Collateral Agent in its sole discretion acting in a commercially reasonable manner, and taking the weighted average of those obtained; provided that if four quotations are not available for a particular Collateral Asset, then fewer than four quotations may be used for that Collateral Asset, and if no quotations are available for a particular Collateral Asset, then the Collateral Agent's original calculations will be used for the Collateral Asset.

Following a recalculation pursuant to the Collateral Test Dispute Resolution Procedure, the Collateral Agent shall issue a Post Dispute Collateral Test Notice to the Fiduciary containing the Collateral Assets Value, the Required Collateral Assets Value and any adjustments to be made to the Fiduciary Account including, *inter alia*, the type and quantity of any Eligible Collateral Assets or Fiduciary Securities to be deposited and/or Collateral Assets to be removed such that the Collateral Test will be satisfied (in each case determined in accordance with the Collateral Test Dispute Resolution Procedure), as soon as possible but in any event not later than the 30th Collateral Business Day following delivery of the Collateral Monitoring Agent Notice. A Post Dispute Collateral Test Notice issued following the conclusion of a Collateral Test Dispute Resolution Procedure shall be binding on the Collateral Agent and the Collateral Monitoring Agent and shall not be subject to further verification by the Collateral Monitoring Agent. For the avoidance of doubt, the determination of the Collateral Assets Value and the Required Collateral Assets Value (and the adjustments to be made to the Fiduciary Account in accordance with the Collateral Test Dispute Resolution Procedure) will not constitute a Fiduciary Event.

7. REQUIRED SETTLEMENT PERIOD AND EARLY REDEMPTION FOLLOWING THE OCCURRENCE OF A COLLATERAL DISRUPTION EVENT

If the Fiduciary or the Collateral Agent determines that a Collateral Disruption Event has occurred, the Fiduciary may in its sole and absolute discretion redeem or cancel, as applicable, all of the relevant Notes at the Early Redemption Amount following the occurrence of a Collateral Disruption Event as specified in the applicable Final Terms. The occurrence of a Collateral Disruption Event will not constitute a Fiduciary Event or a Related Agreement Counterparty Event.

The delivery of the Collateral Assets for the adjustments to be made to the Fiduciary Account in accordance with a Collateral Test Notice, First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable, are required to be settled on or before the tenth Collateral Business Day following delivery of such Collateral Test Notice or, where such Collateral Test Notice is followed by a Collateral Monitoring Agent Notice, such delivery shall be settled on or before the tenth Collateral Business Day following delivery of the First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable (such period the **Required Settlement Period**); provided that the 10 Collateral Business Day period may be extended up to a maximum additional period of sixty (60) Collateral Business Days if (i) the adjustments to be made to the Collateral Assets (or, to the extent applicable, the relevant Collateral Pool) have not been settled as a result of an event beyond the control of the Collateral Agent, the Collateral Monitoring Agent and the Fiduciary (including, but not limited to, as a result of a failure or inability of the relevant clearing system to clear the relevant Collateral Assets) (a **Collateral Settlement Disruption**) or (ii) in relation to the Collateral Assets for which the regular settlement period is greater than 10 Collateral Business Days under normal market conditions. During the above additional sixty Collateral Business Day period, the Collateral Agent may propose the replacement of the affected Collateral Assets by other Collateral Assets complying with the Collateral Rules, or propose any other relevant measures so that the Collateral Test is satisfied.

The Collateral Custodian shall notify the Fiduciary if the settlement of any transfer of Collateral Assets is not completed within the common market practice timeframe for settlement of the Collateral Asset being so transferred. For the avoidance of doubt, such notification shall be taken into account when assessing whether settlement has occurred during the Required Settlement Period described above.

8. DEFAULT IN PROVISION OF COLLATERAL ASSETS

8.1 Related Agreement Counterparty

The Related Agreement Counterparty shall be deemed to have defaulted in relation to its obligation to provide the required level of Collateral Assets if:

(i) following receipt of a Collateral Monitoring Agent Notice which indicates that the Collateral Test is not satisfied (or will not be satisfied after taking into account any adjustments specified in a Collateral Test Notice):

(a) no First Level Revised Collateral Test Notice or Dispute Notice has been sent; or

(b) no Second Level Revised Collateral Test Notice or Dispute Resolution Procedure Notice has been sent; or

(c) no Post Dispute Collateral Test Notice has been sent,

in each case on or before the fifth Collateral Business Day following the date on which the Collateral Agent had the obligation to send such notice to the Collateral Monitoring Agent; or

(ii) except in the case of a Collateral Settlement Disruption, the Related Agreement Counterparty fails to deliver the additional necessary Collateral Assets within the Required Settlement Period and such failure results in the Collateral Test not being satisfied for 5 consecutive Collateral Business Days following the end of such Required Settlement Period (when determining whether the Collateral Test has been so satisfied, only Collateral Assets which have been actually been transferred to the Fiduciary Account shall be taken into account).

8.2 Fiduciary

The Fiduciary shall be deemed to have defaulted in relation to its obligation to provide the required level of Collateral Assets if, following a Collateral Test Notice, the Fiduciary fails to return Collateral Assets to the Related Agreement Counterparty or deliver Fiduciary Securities.

8.3 Collateral Settlement Disruption

Notwithstanding Condition 8.1(ii) and Condition 8.2 herein, in the case of a Collateral Settlement Disruption, if at the end of the 60 Collateral Business Day period the settlement has not occurred, this shall not constitute a Related Agreement Counterparty Event or a Fiduciary Event and instead shall constitute a Collateral Disruption Event.

8.4 Consequences

Subject to Condition 8.3 herein, the occurrence of an event specified in Conditions 8.1 or 8.2 herein shall constitute a Required Collateral Default. Following the occurrence of a Required Collateral Default, the Collateral Monitoring Agent will send a notice (a **Required Collateral Default Notice**) to the Fiduciary specifying that a Required Collateral Default has occurred as soon as reasonably practicable upon the occurrence thereof.

The delivery by the Collateral Monitoring Agent of a Required Collateral Default Notice shall constitute either (i) a Related Agreement Counterparty Event, if the Required Collateral Default Notice is delivered following the occurrence of an event described in Condition 8.1 herein, or (ii) a Fiduciary Event if the Required Collateral Default Notice is delivered following the occurrence of an event described in Condition 8.2 herein.

9. NOTE ACCELERATION AND REALISATION

9.1 Acceleration

The occurrence of (i) a Related Agreement Counterparty Event or (ii) a Fiduciary Event shall constitute a Collateral Liquidation Event, which shall cause the Notes to become due and repayable pursuant to the provisions of this Condition 9.1.

If a Collateral Liquidation Event occurs in relation to a Series of Notes, the Fiduciary, or failing which the Principal Paying Agent shall give notice (a **Collateral Liquidation Notice**) in accordance with General Condition 13, with a copy to the Principal Paying Agent, as soon as reasonably practicable to all Noteholders of the occurrence of such Collateral Liquidation Event relating to such Series of Notes, following which such Series of Notes will become due and repayable at their Early Redemption Amount on the Liquidation Event Redemption Date (the **Accelerated Notes**).

All Notes which are collateralised by the same Collateral Pool as the one collateralising the relevant Accelerated Note will also become immediately Accelerated Notes.

If the Fiduciary has not paid all amounts due to Noteholders, then any Noteholder will be entitled to send a notice in writing (a **Collateral Liquidation Notice**) to the BNY Disposal Agent and the Fiduciary.

The Fiduciary, or failing which the Principal Paying Agent shall, following receipt of a Collateral Liquidation Notice, give notice in accordance with General Condition 13, with a copy to the Principal Paying Agent, as soon as reasonably practicable to all relevant Noteholders of such Accelerated Notes.

The Fiduciary, or failing which the Principal Paying Agent, shall promptly give notice of the fact that a Collateral Liquidation Notice has been given to the BNY Disposal Agent.

9.2 Liquidation and Realisation of Collateral Assets

Upon the occurrence of a Collateral Liquidation Event:

- the BNY Disposal Agent shall, upon receipt of a Collateral Liquidation Notice Receipt, (i) promptly notify the Fiduciary of the Collateral Liquidation Notice Receipt Date and (ii) in accordance with Condition 9.5 herein, liquidate the Collateral Assets in the Collateral Pool as soon as reasonably practicable and in any event no later than the Breakage Cost Valuation Date Deadline.
- the Related Agreements will be terminated and the Swap Close-out Amount will be calculated as of the Breakage Cost Valuation Date by the party responsible for determining such amounts in accordance with the Swap Agreement; and
- the Calculation Agent of the Notes shall on the Collateral Business Day immediately following the Breakage Cost Valuation Date calculate the Collateral Assets Liquidation Proceeds and the Fiduciary Assets Liquidation Proceeds.

Where:

Breakage Cost Valuation Date means the earlier of (i) the date on which the BNY Disposal Agent will have liquidated all the Collateral Assets and (ii) the Breakage Cost Valuation Date Deadline.

Breakage Cost Valuation Date Deadline means the date that falls 90 calendar days following the Collateral Liquidation Notice Receipt Date of if such date is not a Collateral Business Day the immediately following Collateral Business Day.

Collateral Assets Liquidation Proceeds means, in relation to a Collateral Pool, the proceeds of liquidation of the Collateral Assets in that Collateral Pool pursuant to Condition 9.2 herein.

Collateral Liquidation Notice Receipt Date means the date on which a Collateral Liquidation Notice is received (in accordance with the provisions of the Disposal Agency Agreement) by the BNY Disposal Agent.

Fiduciary Assets Liquidation Proceeds means an amount equal to the greater of (a) zero and (b) an amount equal to the Collateral Assets Liquidation Proceeds as reduced by the amounts payable to the Margined Parties ranking above the holders of the Non-Waived Notes.

9.3 Liability of the BNY Disposal Agent

The BNY Disposal Agent will not, in the absence of negligence, fraud and wilful misconduct, have any liability as to the consequence of any enforcement or realisation action and will not have regard to the effect of such action on individual Noteholders.

9.4 Application and distribution of proceeds of realisation

Unless "Physical Delivery of Collateral Assets" is specified as applicable in the applicable Final Terms, after the realisation and liquidation in full of all the Collateral Assets in the Collateral Pool in accordance with Condition 9.2 herein, the BNY Disposal Agent shall use the Collateral Assets Liquidation Proceeds to make payment of any amounts payable to the Margined Parties ranking prior to the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms of each Series of Notes related to the Collateral Pool.

Where:

Order of Priority means the order specified in the applicable Final Terms following which the SG Disposal Agent or the BNY Disposal Agent, as the case may be, shall apply moneys received in accordance with Condition 9 herein. The Order of Priority may be the Standard Order of Priority (as defined below) or any alternative order of all or part of items (a) to (i) of the Standard Order of Priority, as specified in the applicable Final Terms.

Standard Order of Priority if specified as applicable in the applicable Final Terms, means that the Order of Priority shall follow the order (a), (b), (c), (d), (e), (f), (g), (h) and (i) specified below:

(a) first, in payment or satisfaction of all Liabilities incurred by or payable by the Fiduciary in relation to the Notes, to the BNY Disposal Agent, the SG Disposal Agent and/or Paying Agent (which shall include any taxes required to be paid, the costs of any sale of any Collateral Assets (including the distribution of proceeds) and/or, in the case of Secured Notes where Physical Delivery of Collateral Assets is applicable, Delivery of the Collateral Assets Entitlement to the Noteholders of the related Notes and the remuneration of the BNY Disposal Agent, the SG Disposal Agent and/or Paying Agent);

(b) in payment of any amounts due to be paid or reimbursed to the Collateral Custodian by the Fiduciary;

(c) in payment of any amounts due to be paid or reimbursed to the Collateral Monitoring Agent by the Fiduciary;

(d) in payment of any amounts due to be paid or reimbursed to the Related Agreement Counterparty by the Fiduciary in respect of or pursuant to any Related Agreement;

(e) in payment, *pro rata*, of any amounts due to holders of Non-Waived Notes;

(f) if the Liquidation Proceeds Series Amount pro rated to one Note is greater than the Early Redemption Amount, then such excess amount shall be distributed in the manner set forth below to the Noteholders of other Series collateralised by the same Multiple Series Collateral Pool (proportionally to the amounts still due to the Noteholders of such other Series, on a *pro rata* basis between each relevant Series of Notes and up to the Early Redemption Amount for each relevant Series), ranking *pari passu* with such Noteholder and for which the applicable Liquidation Proceeds Series Amount pro rated to one such Note is lower than the Early Redemption Amount;

(g) in payment, *pro rata*, of any amounts due, if any, to holders of Waived Notes;

(h) in payment, *pro rata*, of any amounts owed to the creditors (if any) whose claims have arisen as a result of the creation, operation or liquidation of the Collateral Assets (save to the extent that the claims of any such creditor fall within paragraphs (a) to (g) above; and

(i) in the case of Repack Notes and Secured Notes, in payment of the balance (if any) to the Related Agreement Counterparty.

Following such payment, the BNY Disposal Agent shall determine the proportion of the remaining Fiduciary Assets Liquidation Proceeds applicable to the Notes collateralised by the same Collateral Pool by applying the Collateral Ratio.

The **Collateral Ratio** means, in respect of a Series of Notes, the amount (expressed as a percentage) equal to (i) the Final Required Collateral Assets Value determined as if such Series of Notes were the only Series of Notes collateralised by the Collateral Pool divided by (ii) the Final Required Collateral Assets Value determined in respect of all Series of Notes collateralised by the Collateral Pool. For the avoidance of doubt, the Collateral Ratio for a Single Series Collateral Pool shall be 100%. In addition, if the Collateralisation Percentage, in respect of a Series of Notes, equals zero, then the Collateral Ratio for such Series of Notes shall be deemed to be zero.

Final Required Collateral Assets Value means the Required Collateral Assets Value as calculated by the Collateral Monitoring Agent at the Collateral Test Date immediately preceding the delivery of a Collateral Liquidation Notice.

The proportion in respect of each Series of Notes shall be the relevant **Liquidation Proceeds Series Amount**.

The BNY Disposal Agent shall then determine the *pro rata* share of the Liquidation Proceeds Series Amount in respect of each Note and shall notify such amount to the Noteholders in accordance with General Condition 13 with a copy to the Principal Paying Agent.

Unless "Physical Delivery of Collateral Assets" is specified as applicable in the applicable Final Terms, the Liquidation Proceeds Series Amount will, subject as provided below in the case of Secured Notes, be applied by the BNY Disposal Agent in meeting the claims of Noteholders under the Notes *pro rata* to each such Note. In the case of Secured Notes, such claim will be adjusted in accordance with the following rules:

(i) if the Liquidation Proceeds Series Amount pro rated to one Note is greater than the Early Redemption Amount, then such excess amount will not be distributed to such Noteholder but will be distributed, in the limit of the Early Redemption Amount, to the Noteholders of other Series collateralised by the same Multiple Series Collateral Pool (proportionally to the amounts still due to the Noteholders of such other Series, on a *pro rata* basis between each relevant Series of Notes), ranking *pari passu* with such Noteholder and for which the applicable Liquidation Proceeds Series Amount pro rated to one such Note is lower than the Early Redemption Amount. Following such distribution, any remaining Fiduciary Assets Liquidation Proceeds shall be distributed to the Margined Parties ranking after the holders of Non-Waived Notes in accordance with the Standard Order of Priority or Order of Priority specified in the applicable Final Terms;

(ii) otherwise, if the Liquidation Proceeds Series Amount pro rated to one Note is lower than the Early Redemption Amount and there is no excess amount to be distributed in accordance with the subparagraph (i) above then, in accordance with Condition 9.4 herein, such Noteholder shall not be entitled to any further recourse against the Fiduciary for such shortfall amount. All claims in respect of such shortfall shall be automatically extinguished and such Noteholder shall have no further recourse against the Fiduciary in respect of such shortfall amount and will accordingly not be able to petition for the winding-up of the Fiduciary as a consequence of such shortfall.

The Liquidation Proceeds Series Amount shall be paid to each Noteholder on the fifth Collateral Business Day following the Breakage Cost Valuation Date (such date the **Liquidation Event Redemption Date**).

If, following the calculation of the Swap Close-out Amount set forth in Condition 3.4.2.2, such amount is paid by the Related Agreement Counterparty to the Fiduciary, it shall be used by BNY Disposal Agent to pay any residual amount due to Margined Parties after the Collateral Liquidation Proceeds were distributed in accordance with the relevant Order of Priority.

The distribution of the Swap Close-out Amount, if any, shall be done following the same Order of Priority. If, with respect to Series of Notes related to a Collateral Pool, the Liquidation Proceeds Series Amount which has been distributed under one or more Series of Notes is not sufficient to repay the Early Redemption Amount under such Series of Notes, then the residual amount of the Swap Close-out Amount, if any, shall be distributed between such Series of Notes, proportionally to the amounts still due to the Noteholders of such Series, on a *pro rata* basis between each Series of Notes and up to the Early Redemption Amount for each relevant Series of Notes.

9.5 Method of realisation of Collateral Assets

General Terms and Conditions of the Notes

Subject as may otherwise be provided for in this Part 3, in effecting any sales, the BNY Disposal Agent may sell the Collateral Assets in one single tranche or in smaller tranches as it considers appropriate. The BNY Disposal Agent may effect sales of the Collateral Assets (i) on any securities exchange on which the Collateral Assets may be listed or quoted, (ii) in the over-the-counter market or (iii) in transactions otherwise than on such exchanges or in the over-the counter market.

Where the BNY Disposal Agent disposes of any Collateral Assets other than on any securities exchange on which the Collateral Assets may be listed or quoted then:

(a) the BNY Disposal Agent shall seek firm bid quotations from at least three independent dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of designated tranches thereof, as it considers appropriate);

(b) for the purposes of obtaining the quotations referred to in (a) above, the BNY Disposal Agent may itself provide a bid in respect of the relevant Collateral Assets or any tranche thereof; and

(c) the BNY Disposal Agent shall be authorised to accept, in respect of each relevant tranche or, as applicable, the entirety of the relevant Collateral Assets, the highest quotation so obtained (which may be a quotation from the BNY Disposal Agent (when providing such quotations the BNY Disposal Agent shall act in a commercially reasonable manner)).

9.6 Inability to realise Collateral Assets

If the BNY Disposal Agent is unable to sell the Collateral Assets on any securities exchange or on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, on or before the last possible Breakage Cost Valuation Date, any unsold Collateral Assets will be deemed to have a value of zero in calculating the Collateral Assets Liquidation Proceeds. In such a case, the BNY Disposal Agent shall give a notice to all Noteholders in accordance with General Condition 13 as soon as reasonably practicable after the last possible Breakage Cost Valuation Date.

9.7 Use of Collateral Custodian

The payment of any Fiduciary Assets Liquidation Proceeds and/or Liquidation Proceeds Amounts may, at the request of the BNY Disposal Agent, be undertaken by the Collateral Custodian pursuant to the terms of the Collateral Custody Agreement.

The Collateral Custodian is authorised and directed by the Fiduciary to make or arrange for deliveries to, and to accept deliveries from, or arrange for deliveries to be accepted by, the relevant Fiduciary Account in accordance with the instructions of the Collateral Agent, and is not responsible for ascertaining whether any such instructions are given in accordance with the Terms of the Conditions and the Swap Agreement, the Securities Lending Agreement, the Securities Sale and Purchase Agreement and/or the Collateral Transfer Agreement (as the case may be) and shall have no liability whatsoever for any loss arising if any such instructions are not so given in accordance with the Conditions and the Swap Agreement, the Securities Lending Agreement, the Securities Sale and Purchase Agreement and/or the Collateral Transfer Agreement (as the case may be).

9.8 Physical Delivery of Collateral Assets with respect to Secured Notes

If "Physical Delivery of Collateral Assets" is specified as applicable in the relevant Final Terms, following a Collateral Liquidation Event the Collateral Monitoring Agent will determine the Collateral Assets Entitlement in respect of each Note and shall notify such amounts to the Noteholders in accordance with General Condition 13, with a copy to the Principal Paying Agent and Disposal Agent.

The **Collateral Assets Entitlement** means, for each Non-Waived Note of a Series where Physical Delivery of Collateral Assets is applicable, Collateral Assets with a value (based on the market valuations of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Liquidation Notice) equal to (a) the product of (i) the Collateral Ratio applicable to such Series of Notes, and (ii) the Final Collateral Assets Value in respect of the Collateral Pool which collateralises such Series of Notes, divided by (b) the number of Non-Waived Notes of the relevant Series of Notes.

Final Collateral Assets Value means (i) the Collateral Assets Value as determined by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of a Collateral Liquidation Notice minus (ii) any amounts payable to the Margined Parties ranking prior to the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms.

Subject as provided below, the Disposal Agent will either:

(a) realise and liquidate sufficient Collateral Assets in accordance with Condition 9.2 herein, to ensure payment of any amounts payable to the Margined Parties ranking prior to the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms; or

(b) upon transfer of sufficient funds by the Noteholders, pay any such amount payable to the Margined Parties ranking prior to the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms.

Following such payment, the Disposal Agent will notify Noteholders of the date for the Delivery of the Collateral Assets Entitlement (the **Collateral Delivery Date**) in accordance with General Condition 13, with a copy to the Principal Paying Agent, and will direct the Principal Paying Agent or the Collateral Custodian to Deliver the Collateral Assets Entitlement to a nominee specified by the Noteholders of each Series of Notes collateralised by the relevant Collateral Pool:

(a) if the market value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of the market value of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Liquidation Notice) for a particular Note is greater than the Early Redemption Amount, then assets from the Collateral Assets Entitlement for a value equal to such excess amount will be liquidated and the proceeds thereof will then be distributed to the Margined Parties ranking after the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms; and

(b) otherwise, when the market value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of the market value of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Liquidation Notice) for a particular Note is lower than the Early Redemption Amount, then, in accordance with Condition 9.4 herein such Noteholder shall not be entitled to any further recourse against the Fiduciary for such shortfall amount.

9.9 Physical Delivery of Collateral Assets Disruption Event

If, in the opinion of the Disposal Agent, Delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement using the method of delivery specified in the applicable Final Terms or such other commercially reasonable manner as the Collateral Custodian or the Disposal Agent has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event, provided that the Principal Paying Agent may elect in its sole discretion to Deliver the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Collateral Custodian or the Disposal Agent deems appropriate in connection with delivery of the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner.

For the avoidance of doubt, where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Collateral Assets forming part of the Collateral Assets Entitlement due to be delivered to the nominee of the Noteholders, the Collateral Delivery Date for those Collateral Assets forming part of the Collateral Assets Entitlement which are able to be Delivered will be the Collateral Delivery Date on which such Collateral Assets are delivered.

If Delivery of any Collateral Assets forming part of the Collateral Assets Entitlement is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days (or such other period specified in the applicable Final Terms), then in lieu of physical settlement and notwithstanding any other provision hereof, the Disposal Agent shall sell or realise such undeliverable collateral assets and deliver the proceeds thereof to Noteholders in the manner set out in the Conditions 9.4 and 9.5. herein.

If either (i) the Disposal Agent is unable to sell the Collateral Assets on any securities exchange on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of the Collateral Assets, in each case pursuant to Condition 9.5 herein or (ii) the Principal Paying Agent, acting at the direction of the Disposal Agent, is unable to Deliver such Collateral Assets due to the continuation of a Physical Delivery of Collateral Assets Disruption Event, for a period of one year from the date of the relevant Collateral Liquidation Event, the Disposal Agent shall be entitled to accept the first available price for such Collateral Assets.

The Disposal Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13, with a copy to the Principal Paying Agent, that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the Notes in the event of any delay in the Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event and no liability in respect thereof shall attach to the Fiduciary or the Guarantor.

10. OTHER LIQUIDATION OF COLLATERAL ASSETS

The Fiduciary shall be entitled at any time to (a) return CTA Collateral Assets to the Related Agreement Counterparty in accordance with the Collateral Transfer Agreement and (b) liquidate, or instruct any third party (including, without limitation, the BNY Disposal Agent and the SG Disposal Agent) to liquidate on its behalf, any Collateral Assets where required to do so for the purposes of giving effect to any early or scheduled redemption of Notes, including for the purposes of making any related payments under any Related Agreement. Such liquidation shall be conducted on such terms as the Fiduciary may determine.

11. NOTICES

All notices and reports to be delivered pursuant to this Part 3 shall be copied to each of the Fiduciary, the Guarantor, the Collateral Custodian, the Collateral Agent, the Collateral Monitoring Agent and the Related Agreement Counterparty (save to the extent the notice is sent by or deliverable to any such person). In addition, all notices concerning the provisions of Condition 11 herein shall be copied to the BNY Disposal Agent.

ADDITIONAL TERMS AND CONDITIONS RELATING TO FORMULAE

The following Additional Terms and conditions relating to formulae (the **Additional Terms and Conditions relating to Formulae**) will apply to :

- any Note the applicable Final Terms of which include a clause called "**Reference of the Product**" in which appears a reference to a paragraph of the Condition 3 below.

The definitions used in the Additional Terms and Conditions relating to Formulae may also apply to a Note the applicable Final Terms of which specify that all or part of the capitalized terms used therein have the meaning as described to them in the Additional Terms and Conditions relating to Formulae.

For the purposes of these Additional Terms and Conditions relating to Formulae, a Note to which they apply is a Product.

Each Product forms part of a family of products (the **Family of Product**).

OVERVIEW

Contents and description	
Family of Product	A Family of Products is a group of Product having similar characteristics. For each Family of Product, formulae and variable data are defined in order to determine the Product Amounts (defined below).
Reference of the Product	A Reference of the Product is a three-digit reference number with the first two digits corresponding to the reference of the Family of Product to which the Product belongs and the third digit corresponding to the Product itself. The applicable Final Terms of a Product shall indicate the Reference of the Product (which corresponds to a paragraph of Condition 3 below where are listed all the formulae and variable data used to determine the Product Amounts (defined below)), and as the case may be, the Options and Add-ons necessary to determine these amounts.

Product :

a Product is a Note to which these Additional Terms and Conditions relating to Formulae apply and having one or more Structured Interest Amount(s) (if any), one or more Automatic Early Redemption Amount(s) (if any), and a Final Redemption Amount (each a **Product Amount** and together the **Product Amounts**), each determined by the Calculation Agent on the basis of a set of definitions and formulae listed in Condition 3 below in the relevant paragraph corresponding to the Reference of the Product.

Structured Interest Amount(s) (as the case may be) [as described in Condition 1.1 below]	<u>Common principles:</u> For each Product, each Product Amount (i.e. Structured Interest Amount(s), Automatic Early Redemption Amount(s) and the Final Redemption Amount) is equal to the formula (Specified Denomination x Product Formula)
Automatic Early Redemption Amount(s) (if any) [as described in Condition 1.2 below]	For each Product and each Product Amount, a Product Formula is based on and/or combines one or more specific definitions and formulae, called Variable Data and ReferenceFormula(e) .
Final Redemption Amount [as described in Condition 1.3 below]	For the avoidance of doubt, several Variable Data and ReferenceFormula(e) can be associated with a particular Product Formula. Product Formula = Function{Schedule(s) ; Specific Definition(s) ; Variable Data ; Reference Formula(e) ; Add-on(s)}

The following provisions will apply for the Structured Interest Amount(s) (if any), Automatic Early Redemption Amount(s) (if any) and the Final Redemption Amount:

Schedule [as described in Condition 2.1 below]	A Schedule means (i) either Valuation Date(s) or Relevant Valuation Date(s) or any other date(s) listed in the applicable Final Terms, or (ii) Valuation Date(s) or Relevant Valuation Date(s) or any other date(s) comprised within a period defined in the applicable Final Terms. For the avoidance of doubt, several Schedules may be used for the determination and calculation of a particular Product Amount. For ease of reading, Schedules may be renamed (e.g. Period,

Additional Terms and Conditions relating to Formulae

	<p>Corridor Period, Interest Period, European Knock-In Period, American Knock-In Period...).</p> <p>Furthermore, in respect of Product Formula and a particular Schedule, also for ease of reading, Valuation Date or Relevant Valuation Date may be renamed (for instance, for a Schedule made of daily Valuation Dates, "Valuation Date" may be renamed "Daily Valuation Date", for a Schedule with annual Relevant Valuation Dates, "Relevant Valuation Date" may be renamed "Annual Valuation Date", for another Schedule relating to a specific Underlying_A, "Valuation Date" may be renamed "Underlying_A Valuation Date",...).</p> <p>For the avoidance of doubt, all these dates whatever their names shall be considered as Valuation Dates as defined in the relevant Additional Terms and Conditions for the relevant Underlying(s), with the exception of the Averaging Date which shall keep the meaning of Averaging Date as defined in the relevant Additional Terms and Conditions for the relevant Underlying(s).</p>
General Definitions [as described in Condition 2.2 below]	Means the definitions in Condition 5 below that may apply to any Family of Product and any Product within a Family of Product.
Specific Definition(s) [as described in Condition 2.2 below]	Means, if relevant, definition(s) and formula(e) required for the determination and calculation of a Product Amount, specific to a particular Product. In Condition 3, when the determination of a Product Formula of a Product Amount needs one or several specific definitions, a paragraph "Specific Definitions" will appear in the paragraph of the corresponding Product with either (i) a specific definition contained in these Additional Terms and Conditions relating to Formulae or (ii) the reference(s) to the Conditions below where the Specific Definition(s) is/are necessary for the determination and calculation of the a Product Amount of such Product can be found.
Variable Data [as described in Condition 2.3 below]	Means, for the Product Formula of a Product Amount, the variable data used as input(s) in the Product Formula for the determination and calculation of the Product Amount and specified with the relevant (<i>inter alia</i>) amount, level, percentage or the value of the ReferenceFormula applied to the Underlying(s) of the Product in the applicable Final Terms.
Reference Formula(e) [as described in Condition 2.4 below]	<p>Means, a formula appearing among the list of Reference Formulae appearing in Conditions 4.0 to 4.29 and which serves to notice or to calculate (i) the price of an Underlying called Reference Price, (ii) the Level of an Underlying called Reference Level, (iii) the Performance of an Underlying called Reference Performance and/or (iv) the Fixing of a Reference Rate called Reference Fixing, used as the case may be, for one or several Product Formula(e) of one or several Product Amount(s).</p> <p>Any Reference Formula may be indexed to any type of Underlying which terms and conditions are governed by the relevant Additional Terms and Conditions for the relevant Underlying.</p> <p>The Reference Formulae listed in Conditions 4.0 to 4.29 are grouped by family.</p>
Add-on [as described in Condition 1.4 below]	Means the list of generic features that can be applied to any standard Product Formula(e) in order to either supplement or modify or supersede these standard Product Formula(e). The clause " <i>Reference of the Product</i> " in the applicable Final Terms will specify the Add-on(s) applicable to such Product.
Option 1, 2,...X	Means within a same Family of Product or Add-on the different variations of the Product Formula(e) used for the calculation of a Product Amount. These different Options are described in Condition 3. The clause " <i>Reference of the Product</i> " of the applicable Final Terms will indicate the Option applicable to the Product.
Scenario 1, 2,...X	Means, the fact that a Product Amount of a single Product may be determined and calculated in different ways depending on the occurrence of one or more events involving one or more Reference Formula(e) defined below.

1.3.2 Physical Delivery principles

a) Description of Physical Delivery Amount:

CASE 1: *if the Final Redemption Amount of a Product is determined and calculated on the basis of one Underlying and the currency of the Underlying is the same as the Specified Currency:*

An integer number of Deliverable Asset determined and calculated pursuant to the following formula:

$$\text{Physical Delivery Amount}(T) = \text{Specified Denomination} / \text{PhysicalDeliveryStrikePrice}$$

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Closing Price of the [Underlying][Underlying(k)] as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

CASE 2: *if the Final Redemption Amount of a Product is determined and calculated on the basis of one Underlying and the currency of the Underlying is different from the Specified Currency:*

An integer number of Deliverable Asset determined and calculated pursuant to the following formula:

$$\text{Physical Delivery Amount}(T) = \text{Specified Denomination} / (\text{PhysicalDeliveryStrikePrice} \times \text{FXRate}(T))$$

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Product of (i) the relevant Closing Price of the [Underlying][Underlying(k)] as of Valuation Date(T) and (ii) the relevant FXRate as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

CASE 3: *if the Final Redemption Amount of a Product is determined and calculated on the basis of more than one Underlying and the currency of these Underlyings is the same as the Specified Currency:*

An integer number of Deliverable Asset(k) determined and calculated pursuant to the following formula:

$$\text{Physical Delivery Amount}(T) = \text{Specified Denomination} / \text{PhysicalDeliveryStrikePrice}(k)$$

With:

(k) being the Underlying with the lowest Performance(T,k), provided that if several Underlyings achieve the same lowest Performance(T,k), the Underlying having the largest market capitalisation is retained;

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Closing Price of this Underlying(k) as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

CASE 4: *if the Final Redemption Amount of a Product is determined and calculated on the basis of more than one Underlying and the currency of at least one Underlying is different from the Specified Currency:*

An integer number of Deliverable Asset(k) determined and calculated pursuant to the following formula:

$$\text{Physical Delivery Amount}(T) = \text{Specified Denomination} / (\text{PhysicalDeliveryStrikePrice}(k) \times \text{FXRate}(T))$$

With:

(k) being the Underlying with the lowest Performance(T,k), provided that if several Underlyings achieve the same lowest Performance(T,k), the Underlying having the largest market capitalisation is retained;

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Product of (i) the relevant Closing Price of this Underlying(k) as of Valuation Date(T) and (ii) the relevant FXRate as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

Being specified that, in the case where (i) a Non-exempt Offer and (ii) the share in Societe Generale is specified as Deliverable Asset in the applicable Final Terms, the part of the Physical Delivery Amount composed by shares in Societe Generale will be replaced by a cash amount. This cash amount is calculated by multiplying (a) the number of shares in Societe Generale being in the composition of the Physical Delivery Amount by (b) the Closing Price of the share in Societe Generale as of Valuation Date(T) specified in the applicable Final Terms. This cash amount is rounded up to 4 decimals and converted, if any, in the Specified Currency.

b) Variable Data:

1.4.4 Add-on relating to Memory Coupon(s)

Any product formula defined in Condition 3 below and used to determine and calculate a Structured Interest Amount related to a Valuation Date(i) (i from 1 to T) and/or an Automatic Early Redemption Amount and/or determine an Automatic Early Redemption Event related to an Automatic Early Redemption Date(i) (i from 1 to T) and/or a Final Redemption Amount, as the case may be, can be modified as follows in order to take into account the Structured Interest Amount and/or the Automatic Early Redemption Amount crystallised by the Product on all preceding Valuation Date(s).

The memory effect applies at Memory Valuation Dates which are included in the Schedule of Valuation Dates(i) with VD(T) being the last valuation date of this Schedule. The applicable Final Terms shall specify the Valuation Dates as well as the Memory Valuation Dates. There are the two following cases for the same product:

CASE 1: Valuation Date(i) is a Memory Valuation Date:

$$[\text{Structured Interest Amount}(\text{VD}(i))] [\text{Automatic Early Redemption Amount}(\text{VD}(i))] = \text{Max}(\text{Floor}(i) ; \text{Min}(\text{Cap}(i) ; \text{Specified Denomination} \times \text{Participation_1} \times \text{ProductFormula}(\text{VD}(i)) - \text{SumCouponsCrystallised}(\text{VD}(i-1)))$$

Or applied to the relevant scenario of the Final Redemption

$$\text{Final Redemption Amount} = \text{Max}(\text{Floor_FRA} ; \text{Min}(\text{Cap_FRA} ; \text{Specified Denomination} \times \text{Participation_FRA} \times (\text{ConstantRedemptionLevel_FRA} + \text{ProductFormula_FRA}(\text{VD}(T))) - \text{SumCouponsCrystallised}(\text{VD}(T-1))))$$

Where:

$$\text{SumCouponsCrystallised}(\text{VD}(i-1)) = \text{SumCouponsCrystallised}(\text{VD}(i-2)) + [\text{Structured Interest Amount}(\text{VD}(i-1))] [+ \text{Fixed Coupon Amount}(\text{VD}(i-1))] [+ \text{Floating Coupon Amount}(\text{VD}(i-1))]$$

SumCouponsCrystallised may be an amount or the observed value of a ReferenceFormula applied to the Product Underlying(s).

With:

$$[\text{SumCouponsCrystallised}(\text{VD}(0)) = 0 \text{ (zero)}] \text{ or } [\text{SumCouponsCrystallised}(\text{VD}(t1)) = \text{SumCoupons_t1}]$$

CASE 2: Valuation Date(i) is not a Memory Valuation Date

$[Structured\ Interest\ Amount(VD(i))] [Automatic\ Early\ Redemption\ Amount(VD(i))] = \text{Max}(\text{Floor}(i); \text{Min}(\text{Cap}(i); \text{Specified Denomination} \times \text{Participation_2} \times \text{ProductFormula}(VD(i)))$

a) Application: general case

Scenario 1:

If on Valuation Date(i), Performance(VD(i)) is higher than or equal to -5% and Valuation Date(i) is a Memory Valuation Date, then:

Where:

$\text{SumCouponsCrystallised}(VD(i-1)) = \text{SumCouponCrystallised}(VD(i-2)) + [Structured\ Interest\ Amount(VD(i-1))] [+Fixed\ Coupon\ Amount\ (VD(i-1))] [+ Floating\ Coupon\ Amount\ (VD(i-1))]$

With:

$\text{SumCouponsCrystallised}(VD(0)) = 0$ or $[\text{SumCouponsCrystallised}(VD(t1)) = \text{SumCoupons_t1}]$

Scenario 2:

If on Valuation Date(i), Performance(VD(i)) is higher than or equal to -5% and Valuation Date(i) is not a Memory Valuation Date, then:

$Structured\ Interest\ Amount(VD(i)) = \text{Specified Denomination} \times 3\%$

Scenario 3:

If on Valuation Date(i), Performance(VD(i)) is lower than -5%, then:

$Structured\ Interest\ Amount(VD(i)) = 0$ (zero)

b) Specific case: each Valuation Date(i) is a Memory Valuation Date

Any product formula defined in Condition 3 below and used to determine and calculate a Structured Interest Amount related to a Valuation Date(i) (i from 1 to T) and/or an Automatic Early Redemption Amount and/or determine an Automatic Early Redemption Event related to an Automatic Early Redemption Date(i) (i from 1 to T) and/or a Final Redemption Amount, as the case may be, can be modified as follows in order to take into account the Structured Interest Amount and/or the Automatic Early Redemption Amount crystallised by the product on all preceding Valuation Date(s). In this case, the applicable Final Terms will not specify Memory Valuation Dates.

$[Structured\ Interest\ Amount(i)] [Automatic\ Early\ Redemption\ Amount(i)] = \text{Max}(\text{Floor}(i); \text{Min}(\text{Cap}(i); \text{Specified Denomination} \times \text{Participation}(i) \times \text{ProductFormula}(i) - \text{SumCouponsCrystallised}(i-1)))$

Or applied to the relevant scenario of the Final Redemption

$\text{Final Redemption Amount} = \text{Max}(\text{Floor_FRA}; \text{Min}(\text{Cap_FRA}; \text{Specified Denomination} \times \text{Participation_FRA} \times (\text{ConstantRedemptionLevel_FRA} + \text{ProductFormula_FRA}(VD(T))) - \text{SumCouponsCrystallised}(VD(T-1))))$

Where:

$\text{SumCouponsCrystallised}(i-1) = \text{SumCouponsCrystallised}(i-2) + [Structured\ Interest\ Amount(i-1)] [+Fixed\ Coupon\ Amount\ (VD(i-1))] [+ Floating\ Coupon\ Amount\ (VD(i-1))]$

SumCouponsCrystallised may be an amount or the observed value of a ReferenceFormula applied to the Product Underlying(s).

1.6 Instalment products

When the applicable Final Terms specify that “Instalment Note Provisions” is applicable, the Specified Denomination can be replaced by the Adjusted Specified Denomination (as defined the applicable Final Terms) for the purpose of calculating any Product Amount relating to the Product.

2. SCHEDULE – GENERAL DEFINITIONS AND SPECIFIC DEFINITION(S) - VARIABLE DATA - REFERENCE FORMULA(E)

2.1 Schedule

A **Schedule** designates either (A) a list of Valuation Date(s) or Relevant Valuation Date(s) or any other date(s), or (B) all Valuation Date(s) or Relevant Valuation Date(s) or any other date(s) comprised within a defined period.

For the avoidance of doubt, several Schedules may be used for the determination and calculation of a Product Amount. For ease of reading, Schedules may be renamed (e.g. Period, Corridor Period, Interest Period, European Knock-In Period, American Knock-In Period,...).

Furthermore, in respect of a Product Formula and a particular Schedule, also for ease of reading, "Valuation Date" or "Relevant Valuation Date" may be renamed (for instance, for a Schedule made of daily Valuation Dates, "Valuation Date" may be renamed "Daily Valuation Date", for a Schedule with annual Valuation Dates, "Valuation Date" may be renamed "Annual Valuation Date", for another Schedule relating to a specific Underlying_A, "Valuation Date" may be renamed "Underlying_A Valuation Date",...).

2.2 General Definitions and Specific Definition(s)

2.2.1 General Definitions: Definitions listed in Condition 5 below are applicable to all the Families of Products and to each Product within a Family of Products.

2.2.2 Specific Definition(s): Definitions used, as the case may be, to determine and calculate a Product Amount and/or the related Reference Formula. One or more specific definitions may be necessary (hereafter the Specific Definition(s)). The Specific Definitions are set out in the paragraph of Condition 5 below corresponding to the relevant Reference of the Product and called "Specific Definitions" and replicated in the applicable Final Terms. When no Specific Definition is necessary to determine and calculate a Product Amount, the paragraph "Specific Definition(s)" shall mention: "No Specific Definition is necessary to determine and calculate a Product Amount".

2.3 Variable Data

One or more variable data are necessary to determine and calculate a Product Amount of a Product (referred to as the **Variable Data**). The definition of the Variable Data that may be used for the Product Amount of a Product of any Family of Products are listed in Condition 5.4 below.

The Variable Data listed in Condition 5.4 and that may be used in respect of one or more Products of a Family of Products are set out in the sub-paragraph titled "Variable Data" of the relevant Family of Product (e.g. 3.3.0).

The Variable Data listed in Condition 5.4 necessary to a specific Product are set out in the paragraph "Variable Data" of such Product.

In the applicable Final Terms, depending on their respective definition set out in Condition 5.4 below, each Variable Data can be an amount, a level, a percentage or the observed value of a Reference Formula applied to the Underlying(s) of the Product.

A Variable Data may depend on a specific Schedule or dates as defined above in Condition 2.1.

If in respect of a Product Formula of a Product Amount of a specific Product, a Variable Data has a value of either 0 (zero) or 1 (one), or is not used or not useful or if a Variable Data is not applicable for the calculation of certain Product Amounts, then Product Formula(e) as specified in the applicable Final Terms may be simplified in the applicable Final Terms for the purpose of improving the reading and intelligibility of formula(e).

o **Illustration in respect of Notes:** for instance, if the Product Formula of a Product Amount of a particular Product is:

$\text{ConstantRedemptionLevel} + \text{Min}(\text{Cap} ; \text{Participation} \times \text{ReferenceFormula_Coupon})$

and the Variable Data "ConstantRedemptionLevel" is equal to 0, "Participation" is equal to 1, and "Cap" is not applicable, then the Product Formula of such Product Amount may be simplified in the applicable Final Terms as follows:

$\text{ReferenceFormula_Coupon}$

2.4 Reference Formula(e)

Reference Formula(e) are pre-defined basic formulae specified under Condition 4 below (referred to as individually the **Reference Formula** and collectively **Reference Formulae**) which are used, as the case may be, as inputs in respect of an Option, a Product Formula and/or one or several Specific Definitions necessary to determine and calculate a Product Amount.

For each Product described in Condition 3 below appears a paragraph called "Reference Formula(e)".

This paragraph indicates:

2.4.1 on one side, the context in which the Reference Formulae of the Product are used, by the suffix which follows the expression "Reference Formula_" e.g.

- **"ReferenceFormula_Final"** which means that the Reference Formula of the Product is used to determine the Final Redemption Amount of the Product and the Product Formula, the Option and/or one or several Specific Definitions necessary to the determination of the Final Redemption Amount contain the instruction "Reference Formula_Final";

For example, for the product 3.5.1.1 "Resetable Accumulator", the paragraph "Reference Formula(e)" indicates "Reference Formula_Final" which means that a Reference Formula is used to determine the Final Redemption Amount and the paragraph "Final Redemption" indicates:

$\text{Final Redemption Amount} = \text{Specified Denomination} \times \text{Product Formula(T)}$

$\text{Product Formula(T)} = \text{ConstantRedemption} + \text{Max}(\text{Floor} ; \text{Min}(\text{Cap} ; \text{Participation} \times \text{Max}(0 ; \text{Reference Formula_Final(T)} - \text{Strike})))$

"ReferenceFormula_AERA" means that the Reference Formula of the Product is used to determine the Automatic Early Redemption Amount of the Product, if any.

Additional Terms and Conditions relating to Formulae

For example, for the product 3.1.2 "European Forward", the paragraph "Reference Formula(e)" indicates "ReferenceFormula_AERA" means that a Reference Formula is used to determine the Automatic Early Redemption Amount and the paragraph "Automatic Early Redemption" indicates:

Automatic Early Redemption Amount = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i) + Participation_AERA(i) x **ReferenceFormula_AERA(i)**

"ReferenceFormula_Coupon" means that the Reference Formula of the Product is used to determine the Final Redemption Amount of the Product and the Product Formula, the Option and/or one or several Specific Definitions necessary to the determination of the Final Redemption Amount contain the instruction "ReferenceFormula_Coupon";

For example, for the product 3.5.1 "Accumulator", the paragraph "Reference Formula(e)" indicates "ReferenceFormula_Coupon" means that a Reference Formula is used to determine the Structured Interest Amount and the paragraph "Structured Interest" indicates:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation(i) x **ReferenceFormula_Coupon(RVD(i))**))

2.4.2 on the other side, the name of the applicable Reference Formulae and/or the ones most likely to be applicable to the Product. The paragraph "Reference Formula(e)" will also indicate the Families of Products to which the applicable or the most likely to be applicable Reference Formula(e) belongs to. For example, if the paragraph "Reference Formula(e)" indicates "AverageTimeLevel (as defined under Condition 4.9 below of the Family of "TimeLevel")", it means that the Reference Formula "AverageTimeLevel", belonging to the "TimeLevel" Family as defined in Condition 4.9 below, is applicable or is the most likely to be applicable to the Product.

A Reference Formula will be used to determine either Reference Price(s), Reference Performance(s), Reference Level(s) or Reference Fixing(s).

For the avoidance of doubt, when Reference Formula(e) is/are not relevant for a Product, it shall not appear in the applicable Final Terms of this Product.

Any Reference Formula indicated in Condition 4 below may also, in respect of a Product Formula, be defined as a "Sum of ReferenceFormula", a "Difference of ReferenceFormula" or "ReferenceFormula – 100%" or "100%,- ReferenceFormula" or be expressed as a negative component and be preceded by the sign "-".

Where:

- o A: "Sum of ReferenceFormula" means that two or more Reference Formulae have been added together in order to determine a new Reference Formula for the purpose of determining a Product Amount.
- o B: "Difference ReferenceFormula" means that a Reference Formula have been subtracted from another Reference Formula in order to determine a new Reference Formula for the purpose of determining a Product Amount.
- o C: "ReferenceFormula – 100%" means that 100% has been subtracted from a Reference Formula in order to determine a new Reference Formula for the purpose of determining a Product Amount.
- o D: "100% - ReferenceFormula" means that a ReferenceFormula has been subtracted from 100% in order to determine the Reference Formula(e) for the purpose of determining a Product Amount.

3. FAMILIES OF PRODUCTS

Set out below the list of Families of Products and the description of each of the Families:

Reference	Family	Description of the Family
3.1	Certificate Products	This family includes Products which provide exposure to the positive or negative performance of an Underlying or a Basket or one or several Underlying(s) within a Basket.

3.2	Vanilla Products	This family includes Products which provide exposure to the positive or negative performance of an Underlying or a Basket or one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on either (a) an amount which depends on the performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket (Calls and Puts) or (b) a pre-defined fixed amount (Digital Calls/Puts) or variable amount (Range Accrual). Performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.
3.3	Barrier Products	This family includes Products which provide exposure to the positive or negative performance of an Underlying or a Basket of one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on one or several conditions (categorised in several scenarios). Typically, a condition is satisfied [or not] if the performance or level of an Underlying or Basket of one or several Underlying(s) within a Basket is higher than or equal to [or lower] a pre-defined barrier performance or level. Performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.
3.4	Reserved	
3.5	Accumulator and Cliquet Products	This family includes Products which provide exposure to the performance of an Underlying or a Basket or one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on an accumulation (either additive or multiplicative) of performances of the Underlying or Basket or one or several Underlying(s) within a Basket over several consecutive periods (performances being usually restrikted at the beginning of each period). Performances of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.
3.6	Multi-underlying Products	This family includes Products which provide exposure to the positive or negative performance of several Underlyings comprising the Basket, where the Product Amount(s) are determined based on the individual performance or level of each Underlying, provided that this individual performance or level can be weighted, leveraged, averaged, locked, floored and/or capped. Composition of the Basket can be altered over time depending on the individual performance or level of the Underlyings. Performances of the Underlyings or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.
3.7	Volatility Products	This family includes Products which provide exposure to the positive or negative performance of the historical variance or historical volatility of an Underlying or a Basket or one or several Underlying(s) within a Basket. Variance and volatility are measures of the dispersion of Underlying(s) returns. The Product Amount(s) are determined based on (a) performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket and / or (b) historical variance or historical volatility of the Underlying or Basket and / or (c) additional parameters (if relevant). Performance or level or historical variance or historical volatility of the Underlying or Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

3.8	Reserved	
3.9	Rate Products	This family includes Products commonly used to provide exposure to Reference Rate or Inflation Index, provided that other Family of Products may be indexed to Reference Rate or Inflation Index.
3.10	Credit Linked Products or Repack Notes Products	The Family "CREDIT LINKED PRODUCTS OR REPACK NOTES PRODUCTS" comprises Products which provide exposure to the credit risk of a Reference Entity or a Reference Portfolio comprising several Reference Entities (in respect of Credit Linked Notes) or a Bond or a Reference Portfolio comprising several Bonds (in respect of Repack Notes) and the financial indebtedness of any such Reference Entity or one or several Reference Entity(ies) within the Reference Portfolio (in respect of Credit Linked Notes), where the Product Amounts are determined according to the occurrence of Credit Event(s) or Bond Event(s) and in the case of the occurrence of Credit Event(s), according to the Cash Redemption Amount or the Physical Delivery Amount (with, if any, the Cash Redemption Amount per Undeliverable Obligations), as applicable, as defined in the Additional Terms and Conditions for Credit Linked Notes or of Bond Event(s), according to the Cash Redemption Amount as defined in the General Terms and Conditions of the Notes. In addition, the Autocall Credit Linked Products provide exposure to the positive or negative performance of a CDS Spread, where the Product Amount(s) are determined based on one or several conditions, one of which being typically satisfied if the level of the CDS Spread is higher (or lower) than or equal to a pre-defined barrier.
3.11	Combined Vanilla Products	This family includes Products which provide exposure to the positive or negative performance of an Underlying or a Basket or one or several Underlying(s) within a Basket, where the Product Amount(s) are determined as a floored, capped or leveraged weighted combination, either additive or multiplicative, of vanilla calls, puts, digits, fixed amounts, and combinations, either additive or multiplicative, of calls, digits and fixed amounts.

Description of how the value of the relevant Notes can be affected by the value of the Underlying(s)

The Family of Products "Barrier" comprises Products which provide exposure to the positive or negative performance of an Underlying or a Basket of one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on one or several conditions (categorized in several scenarios). Typically, a condition is satisfied [or not] if the performance or level of an Underlying or Basket of one or several Underlying(s) within a Basket is higher than or equal to [or lower] a pre-defined barrier performance or level. Performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

Option 8 with [2/3/4/5/6] Scenarios Description:

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 (or the 3, or the 4, or the 5, or the 6 depending upon the number of scenarios selected) possible:

o The occurrence of these scenarios depends upon the value(s) of the relevant ReferenceFormula(e) applied to the Underlying(s) of the Product and of its (their) position(s) compared to one (several) FinalBarrier(s) and / or whether or not a[n] [American] [European] [Low Barrier] [High Barrier] [Memory] [Target] [a Range] Knock-In Event occurs.

o The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or cap and / or with a leverage factor.

Where :

Market Value means, as per General Condition 6.3 of the General Terms and Conditions, an amount determined by the Calculation Agent, which, on the due date for the redemption of the Note, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs of unwinding any hedging arrangements entered into in respect of the Notes) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date.

Automatic Early Redemption Event is deemed to have occurred, as determined by the Calculation Agent, if on a Valuation Date(i)(i from 1 to T):

[if Single Name Notes

(i) the Reference Entity Spread on such day is higher than or equal to Barrier_Single

Current Market Value means an amount determined by the Calculation Agent, which, on the relevant Valuation Date(i) (i from 1 to T), shall represent the Market Value of the Notes that would be computed if the Notes were to be redeemed as of such Valuation Date(i) (i from 1 to T).

Dealer means any dealer (other than Societe Generale) determined by the Calculation Agent in its sole and absolute discretion as being a dealer in respect of providing quotations in respect of credit default swap transactions.

Dealer Poll Method means that, on any day, the Reference Entity Spread will be determined by the Calculation Agent as follows:

(A) the Calculation Agent will attempt to obtain offer quotations from five Dealers, whereby:

a. If three or more such quotations are obtained prior to 17.00 (London time) on such day (the "Quotation Deadline Time"), the Reference Entity Spread will be the arithmetic mean of such quotations without regard to the quotations having the highest or lowest values (and, if more than one such quotation have the same highest or lowest quotation, then one of such highest or lowest quotations (as relevant) may be disregarded); or

b. If two such quotations are obtained prior to the Quotation Deadline Time, the Reference Entity Spread will be the arithmetic mean of such quotations; or

c. If one such quotation is obtained prior to the Quotation Deadline Time, the Reference Entity Spread will be such quotation; or

(B) If it is not possible to obtain any quotations prior to the Quotation Deadline Time, the Reference Entity Spread will be a rate determined by the Calculation Agent in its sole and absolute discretion acting in good faith, having regard to the conditions prevailing in the market.

Leverage means Leverage_FRA.

[if Basket Notes and Credit Index Option is not Applicable

Average Spread means, on any Valuation Date(i), the weighted average of the Reference Entity Spread for all Reference Entities calculated as: $\text{Sum (for } k \text{ from } 1 \text{ to } N) [\text{Weight}(k) \times \text{Spread}(k)]$

The Reference Formulae of the Family of Reference Formulae in sections 4.1 to 4.29 below are used to determine or calculate either (i) a price of one or several Underlying(s) which is called a Reference Price, (ii) a level of the price of one or several Underlying(s) which is called a Reference Level, (iii) a performance of the price of one or several Underlying(s) which is called a Reference Performance and/or (iv) a fixing of one or several Reference Rate(s) and/or (v) a fixing of one or several foreign exchange rate(s).

1) Price, Level or Performance

In sections 4.1 to 4.29 below, (a) when the denomination of a Reference Formula in a Family of Reference Formulae contains the word "Price", such Reference Formula is used to determine a Reference Price, (b) when the denomination of a Reference Formula in a Family of Reference Formulae contains the word "Level", such Reference Formula is used to calculate a Reference Level, (c) when the denomination of a Reference Formula in a Family of Reference Formulae contains the word "Performance", such Reference Formula is used to calculate a Reference Performance and (d) when the denomination of the Reference Formula in a Family of Reference Formulae contains the word "Fixing", such Reference Formula is used to determine or calculate a Reference Fixing.

Notwithstanding the foregoing in respect of a Product (i) a Reference Formula used to calculate a Reference Level (a "**Base Reference Formula**"), can also be used to determine a Reference Price or to calculate a Reference Performance and in that case its denomination in the applicable Final Terms of the relevant Product shall contain the word Price or Performance (an "**Alternative Reference Formula**"), (ii) a Reference Formula used to calculate a Reference Performance (a "**Base Reference Formula**"), can also be used to determine a Reference Price or to calculate a Reference Level and in that case its denomination in the applicable Final Terms of the relevant Product shall contain the word Price or Level (an "**Alternative Reference Formula**") provided that in each case the Alternative Reference Formula shall be deemed to be part of the same Family of Reference Formulae as the Base Reference Formula.

5. GENERAL DEFINITIONS USED IN THESE ADDITIONAL TERMS AND CONDITIONS RELATING TO FORMULAE

5.1 Generic indices, enumeration, simplification and scenario conventions

5.1.1 Generic indices convention used in Product Formulae definitions

"i" or "t" or "t1" or "t2" means the reference to any date relating to a Valuation Date, Relevant Valuation Date or a date within a relevant Schedule. For ease of reading, those letters can be replaced by n, t, x, y or z, being clarified that this list is not exhaustive.

"k" or "s" means the reference to any Underlying specified in the relevant Basket.

"N" means the number of Underlyings comprised in the relevant Basket.

"SubN" means the number of Underlyings comprised in the relevant sub-basket defined as a part of the relevant Basket. SubN is strictly lower than N.

"RVD(i)" ("Relevant Valuation Date" and with the abbreviate "RVD") means, in respect of any date(i), the reference to a date (which may be different from date(i))

For illustration purposes, Valuation Date(i) may be, in respect of an Interest Payment Date(i), the Valuation Date immediately preceding such Interest Payment Date.

"t0" (or "0") means the first Valuation Date or the first date of a relevant Schedule.

"T" means the last Valuation Date or the last date of a relevant Schedule.

For the avoidance of doubt, i-1, t-1, t1-1, t2-1, or T-1 (resp. t+1, t1+1, t2+1, or T+1) means the Valuation Date immediately preceding (resp. following) i, t, t1, t2 or T.

5.1.2 Enumeration convention

Enumeration will be generally defined as follows:

The dates within the Reference Formula are defined using the following enumeration "from 0 to t" and / or "from 1 to t" and / or "from t1 to t2". The ReferenceFormula listed below can be defined with any of such three enumerations, as the case may be to determine the Product Formula.

Illustration

"MaxTimeBasketLevel(t)" means the Maximum, for i from 1 to t, of BasketLevel(i)"
could be modified in:

"MaxTimeBasketLevel(t1, t2)" means the Maximum, for i from t1 to t2, of BasketLevel(i)."

"(i from t1 to t2)" means any date(i) from and including t1 to and including t2.

"(k from 1 to N)" means any Underlying(k) within a Basket from and including Underlying(1) to and including Underlying(N).

For the avoidance of doubt, lower and upper bounds of enumerations used in Product Formulae definitions can be modified notably (but not only) to take into account specificities of Schedules relating to Products. For instance (i from 0 to T) used in a generic Product Formula can become (i from 1 to T-1) for the purpose of defining a Product Formula in respect of a particular Product.

5.1.3 Simplification convention

5.1.3.1 For ease of reading, certain conditions relating to Product Formula(e) as defined herein may be simplified as follows:

Case 1: only one barrier condition is required

For example in respect of the following conditions:

"If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] AutocallBarrier(T) and ReferenceFormula_Barrier(T) is higher than [or equal to] FinalBarrier, then:",

If the second condition "ReferenceFormula_Barrier(T) is higher than [or equal to] FinalBarrier" is not required, these conditions may be simplified as follows: "If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] AutocallBarrier(T), then".

Case 2: one of the barrier condition is redundant

For example, in respect of the following conditions:

"If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] AutocallBarrier(T) and ReferenceFormula_Barrier(T) is lower than [or equal to] FinalBarrier, then:",

If "ReferenceFormula_Autocall(T) is equal to ReferenceFormula_Barrier(T) and FinalBarrier is lower than or equal to AutocallBarrier(T)", is not required, these conditions may be simplified as follows:

"If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] FinalBarrier, then".

Case 3: addition of Variable Data and values determined based on Reference Formulae

For example, in respect of the following Product Formula:

"Product Formula(T) = ConstantRedemptionLevel_FRA + Participation x (ReferenceFormula_Final(T) – Strike)"

If ConstantRedemptionLevel_FRA is equal to 90%, Participation is equal to 100% and Strike is equal to 10%, Product Formula may be simplified as follows:

"Product Formula(T) = 80% + ReferenceFormula_Final(T)"

where:

80% = 90% - 10%

5.1.3.2 EU Allowance

For ease of reading, where the application of the formulae produces the same Product Amount in both scenarios, the Final Redemption Amount may be simplified as follows:

Final Redemption Amount = Product Amount

5.1.4 Scenario convention

The convention described hereunder is applicable to all the different Scenarios described in Condition 3.

A scenario is deemed to have occurred and therefore to pay an associated Product Formula according to the position of the relevant Reference Formula and a predefined barrier and/or according to the occurrence of an knock-in event. The position of the relevant Reference Formula and a predefined barrier can be "higher", "lower", "higher or equal to" or "lower or equal to". When the position of the relevant Reference Formula is described as being "higher" or "lower", it can be written as "strictly higher" or "strictly lower".

(i) a Benchmark Cessation;

(ii) an Administrator/Benchmark Event; or

(iii) a Benchmark which is a Reference Rate as defined in General Condition 4 of the General Terms and Conditions is, with respect to over-the-counter derivatives transactions which reference such Reference Rate, the subject of any market-wide development (which may be in the form of a protocol by ISDA) pursuant to which such Reference Rate is, on a specified date (the "Risk-Free Rate Event Date"), replaced with a risk-free rate (or near risk-free rate) established in order to comply with the recommendations in the Financial Stability Board's paper titled "Reforming Major Interest Rate Benchmarks" dated 22 July 2014.

EU BMR means the Benchmarks Regulation (Regulation (EU) 2016/1011).

Benchmark Cessation means, for a Benchmark, any of the following has occurred or will occur:

(i) a public statement or publication of information by or on behalf of the administrator of the Benchmark announcing that it has ceased or will cease to provide the Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Benchmark;

(ii) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark, the central bank for the currency of the Benchmark, an insolvency official with jurisdiction over the administrator for the Benchmark, a resolution authority with jurisdiction over the administrator for the Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark has ceased or will cease to provide the Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Benchmark;

(iii) a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark announcing that (a) the regulatory supervisor has determined that such Benchmark is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Benchmark is intended to measure and that representativeness will not be restored and (b) it is being made in the awareness that the statement or publication will engage certain contractual triggers for fallbacks activated by pre-cessation announcements by such supervisor (howsoever described) in contracts; or

(iv) any event which otherwise constitutes an index cessation event (regardless of how it is actually defined or described in the definition of the Benchmark) in relation to which a Priority Fallback (as defined in General Condition 4 of the General Terms and Conditions) is specified.

If, for a Benchmark, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes a Benchmark Cessation or (ii) a Benchmark Cessation and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute a Benchmark Cessation and will not constitute or give rise to an Administrator/Benchmark Event.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Notes. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of a Benchmark Event, the Fiduciary shall determine which terms shall apply in its sole and absolute discretion.

3. CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING, HOLDING LIMIT EVENT, INSOLVENCY FILING AND CONSEQUENCES

The following Conditions will not apply to Structured Notes that are Commodity Linked Notes, Fund Linked Notes, ETF Linked Notes, ETP Linked Notes or Portfolio Linked Notes but shall apply to any other Structured Notes.

The occurrence or likely occurrence, as determined by the Calculation Agent, of any of the following events relating to an Underlying (the **Affected Underlying**) and/or Reference Entity(ies) (the **Affected Reference Entity(ies)**) on or after the Issue Date shall constitute an **Extraordinary Event**:

3.1 Change in Law means in respect of Structured Notes that have one or more Underlying(s) and/or Reference Entity(ies), that, on or after the first to occur of (a) the Issue Date, (b) the trade date of any Hedge Position, and (c) the first Valuation Date of the Structured Notes (if applicable) (i) due to the adoption of, or any change in, any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements and, with respect to SGI Index Linked Notes only, any regulation, rule or procedure of any Exchange on which any Index Component or any component thereof is traded) (the **Applicable Law and Regulation**) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or brought in a court of competent jurisdiction), the Calculation Agent determines in good faith that (i) in respect of Underlyings or Reference Entities negotiated or located in AEJ Closed Markets, it will, or there is a substantial likelihood that it will, within the next 30 calendar days, but before the Maturity Date of the Structured Note, become, or it has become illegal and (ii) in respect of any other Underlying, it has become illegal, for Societe Generale or any of its affiliates to maintain the agreement entered into with Societe Generale or any of its affiliates by the issuer of the Notes relating to the Underlying of the Structured Notes and/or Reference Entity(ies).

Where:

AEJ Closed Markets means People's Republic of China, India, Indonesia, Korea, Malaysia, Pakistan, Philippines, Taiwan, Thailand, Vietnam.

3.2 Hedging Disruption means, unless it being specified as "Not Applicable" in the applicable Final Terms in respect of Structured Notes that have one or more Underlying(s) and/or Reference Entity(ies), that Societe Generale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind and/or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (or any other relevant price risk including, without limitation, the bond price risk, credit price risk, currency risk, equity price risk, dividend risk, interest rate risk, foreign exchange risk, warrant price risk) of entering into and performing its obligations with respect to the Structured Notes or any agreement entered into by the Fiduciary with Societe Generale or any of its affiliates in relation to the Structured Notes; or (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into by the Fiduciary with Societe Generale or any of its affiliates in relation to the Structured Notes (either between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or, as the case may be, from accounts within the Affected Jurisdiction to accounts situated outside of the Affected Jurisdiction).

3.3 Increased Cost of Hedging means, unless it being specified as "Not Applicable" in the applicable Final Terms in respect of Structured Notes that have one or more Underlying(s) and/or Reference Entity(ies), that Societe Generale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Societe Generale or any of its affiliates enters into the Hedge Positions in respect of the Structured Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (or any other relevant price risk including, without limitation, the bond price risk, credit price risk, currency risk, equity price risk, dividend risk, interest rate risk, foreign exchange risk, warrant price risk) of entering into and performing its obligations with respect to the Structured Notes or any agreement entered into by the Fiduciary with Societe Generale or any of its affiliates in relation to the Structured Notes or (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into by the Fiduciary with Societe Generale or any of its affiliates in relation to the Structured Notes.

3.4 Holding Limit Event means, except in the case of Repack Notes, assuming the Hypothetical Investor is Societe Generale and/or any of its affiliates, that Societe Generale together with its affiliates, in aggregate hold, an interest in any one restricted Underlying or Underlying component, as the case may be, constituting or likely to constitute (directly or indirectly) ownership, control or the power to vote a percentage of any class of voting securities of the Underlying, or the Underlying component or, of the issuer of such Underlying or such Underlying component, in excess of a percentage permitted or advisable, as determined by Societe Generale, for the purpose of its compliance with the Bank Holding Company Act of 1956 as amended by Section 619 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the **Volcker Rule**), including any requests, regulations, rules, guidelines or directives made by the relevant governmental authority under, or issued by the relevant governmental authority in connection with, such statutes.

3.5 In respect of any Underlying that is a Share, a Depositary Receipt, a Dividend, a Preference Share or a Warrant, **Insolvency Filing** means, in respect of Structured Notes that have one or more Underlying(s) that the Company institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Company shall not be deemed an Insolvency Filing.

In the case of occurrence of an Extraordinary Event as defined above, the Calculation Agent may:

(A) replace the Affected Underlying by a new Underlying or the Affected Reference Entity by a new reference entity, as the case may be, which is representative of the same economic or geographic sector; or

(B) in the case of Increased Cost of Hedging only, deduct:

(1) from the Interest Amount(s) (if any) due under any Structured Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Societe Generale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Fiduciary under the Structured Notes, such amount to be apportioned *pro rata* amongst the outstanding

Structured Notes (the **Reduction Amount**); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Structured Note is higher than such Interest Amount due under one Structured Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Structured Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

(2) in the absence of any Interest Amount in respect of the Structured Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Structured Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Structured Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero)¹⁰; or

(3) in the case of Structured Notes that are Physical Delivery Notes, any Physical Delivery Amount which is calculated in connection with the Structured Notes shall be reduced by the Reduction Amount (subject to a floor of zero).

If the Calculation Agent has not made a replacement in accordance with (A) above (or a deduction in accordance with (B) above in the case of Increased Cost of Hedging only), then the Calculation Agent, acting in good faith, may either:

(A) consider such event as an event triggering an early redemption of the Structured Notes (hereafter, an **Early Redemption Event**). In that case, the Fiduciary shall terminate its obligations under the Structured Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in General Condition 6.3 of the General Terms and Conditions¹¹; or

(B) apply "Monetisation until the Maturity Date" as defined in General Condition 6.5 of the General Terms and Conditions.

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively) is a Disrupted Day for an Underlying, the Calculation Agent shall determine to apply any of the following methods :

(1) determine that the Valuation Date or the Averaging Date for such Underlying shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that Underlying, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or the Scheduled Averaging Date is also a Disrupted Day. In that case:

(A) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date, for the Underlying notwithstanding the fact that such day is a Disrupted Day,

(B) the Calculation Agent shall determine, its good faith estimate of the value or level of the Underlying as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the value or level of the Underlying so calculated shall be deemed the Closing Price. In case the Underlying is an Index (or a SGI Index), such determination by the Calculation Agent shall be made in accordance with the formula for and method of calculating the level of that Index (or, as applicable, SGI Index) last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security or other component comprised in the Index (or, as applicable, SGI Index) (or if an event giving rise to a Disrupted Day has occurred in respect of the relevant security or other component on that eighth Scheduled Trading Day, its good faith estimate of the value of the relevant security or other component as of the Valuation Time on that eighth Scheduled Trading Day);

Provided that if the Underlying is included in a Basket, the above provisions shall apply only to the Underlying affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each Underlying not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date.

Provided however that,

(a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date, a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date) and the Calculation Agent shall make on that day the determinations described in (B) above, and the good faith estimate of the value or level of the Underlying so calculated shall be deemed the Closing Price;

(b) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Structured Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Structured Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value or level of the Underlying so calculated shall be deemed the Closing Price,

(2) postpone any payment date related to such Averaging Date or Valuation Date (including, if applicable, the Maturity Date) until the fourth Business Day following the date on which a Disruption Event is no longer subsisting. No interest or other amount shall be paid by the Fiduciary in respect of such postponement.

C. an extraordinary dividend as determined by the Calculation Agent;

D. a call by the Company in respect of Shares or Deposited Securities that are not fully paid;

E. a repurchase by the Company or any of its subsidiaries of Shares or Deposited Securities whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;

F. an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or

G. any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Shares or the Depositary Receipt.

Following the occurrence of any Potential Adjustment Event as defined above, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect:

(i) on the theoretical value of the Share and, if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the relevant Share used to determine any settlement or payment terms under the Notes and/or adjust any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes and (b) determine the effective date of that adjustment; or

(ii) on the Deposited Securities that affects the theoretical value of the Depositary Receipts, provided that an event that has a diluting or concentrative effect on the Deposited Securities will affect the theoretical value of the Depositary Receipts unless (and to the extent that) the Company or the Depositary, pursuant to its authority (if any) under the Deposit Agreement, elects to adjust the number of the Deposited Securities that are represented by each Depositary Receipt such that the price of the Depositary Receipts will not be affected by any such event (as determined by the Calculation Agent), in which case the Calculation Agent will make no adjustment. If the Company or the Depositary elects not to adjust the number of Deposited Securities that are represented by a Depositary Receipt or makes an adjustment that the Calculation Agent determines not to have been adequate, then the Calculation Agent may make the necessary adjustment to the elements relating to the Underlying used to determine any settlement or payment terms under the Notes and/or any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes (subject to any Local Taxes to be withheld or paid) and determine the effective date of that adjustment. The Depositary may also have the ability pursuant to the Deposit Agreement to make adjustments in respect of the Depositary Receipts for share distributions, rights distributions, cash distributions and distributions other than shares, rights and cash. Upon any such adjustment by the Depositary, the Calculation Agent may make the necessary adjustments as the Calculation Agent deems appropriate to account for such event.

In its determinations of the existence and extent of any dilutive or concentrative effect on the theoretical value of the Shares or on the Deposited Securities that affects the theoretical value of the Depositary Receipts of any Potential Adjustment Event, and any related adjustments to the terms of the Notes, the Calculation Agent shall take into account (i) any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event and, in respect of Shares traded through the China Connect Services only, (ii) any requirement, adjustment and/or limitation that may be imposed by the China Connect Service or any action or inaction by any one or more of the Exchange, SEHK, CSDCC and HKSCC in relation to such Potential Adjustment Event.

The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options on the Share or on the Deposited Securities traded on such Related Exchange.

Definitions applicable to this Condition:

Offshore Investor means a holder of Shares or Deposited Securities who is an institutional investor not resident in the country in which the Company has been incorporated or in which the Exchange, on which the Share (or the Deposited Securities) is (are) listed is located (the **Local Jurisdiction**), for the purposes of the tax laws and regulations of the Local Jurisdiction and, for the avoidance of doubt, whose jurisdiction of residence (a) shall be determined by the Calculation Agent and (b) may be the jurisdiction of Societe Generale or any of its affiliates.

3.1.2 Extraordinary events and consequences

A. Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of the opening of an Offering Period relating to a Merger Event, a De-merger Event, a Tender Offer, a De-listing Event, an Insolvency or a Nationalisation, in respect of (i) the Company or issuance of Shares by the Company, as applicable (an **Affected Share**) or (ii) a Depositary Receipt (an **Affected Depositary Receipt**), then during such Offering Period, the Calculation Agent may

decide in good faith to apply Method of Substitution with respect to the Affected Share or Affected Depositary Receipt as the case may be.

B. If the Calculation Agent decides not to apply Method of Substitution during the Offering Period with respect to the Affected Share or the Affected Depositary Receipt, then:

(a) in respect of a Merger Event (or a Tender Offer as the case may be), from the Merger Date (or the Tender Offer Date as the case may be), and/or upon consummation of the Merger Event (or the Tender Offer as the case may be), until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, shall apply, in relation to Share-for-Share, Share-for-Other and Share-for-Combined, either:

(x) Calculation Agent Adjustment and/or

(y) Method of Substitution

(b) in the case of a Merger Event affecting two Shares or two Depositary Receipts comprised in a Basket, the Calculation Agent will either:

(x) continue with the share or the Depositary Receipt resulting from the Merger Event and in order to maintain the original number of companies in the Basket, a Substitute Share or Substitute Depositary Receipt (as applicable) will be elected and included in the Basket;

(y) substitute both Shares or Depositary Receipts with two Substitute Shares or Substitute Depositary Receipt selected as described in the Method of Substitution;

(c) in respect of a De-merger Event, from the De-merger Date, and/or upon consummation of the De-merger Event, until the sixtieth Business Day thereafter, the Calculation Agent will either:

(x) replace the Affected Share or the Affected Depositary Receipt with the shares or depositary receipts of the successor companies;

(y) substitute one or more share(s) or depositary receipt(s) resulting from such De-merger Event pursuant to the Method of Substitution;

it being understood that, in the case of a Basket, the Calculation Agent shall maintain the initial number of companies in the Basket and that in the case where the Calculation Agent has elected to substitute the Affected Share or the Affected Depositary Receipt with several shares or depositary receipts resulting from such De-merger Event, such shares or depositary receipts shall be placed in a sub-basket and considered as one component of the Basket;

(d) in respect of a De-listing Event or a Nationalisation, from the effective date of such event, until the sixtieth Business Day thereafter, the Calculation Agent may apply the Method of Substitution;

(e) in respect of an Insolvency, the Calculation Agent will decide either:

(x) that the Affected Share or the Affected Depositary Receipt will be substituted pursuant to the Method of Substitution;

(y) that the value of the relevant component in the formula used to determine the amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms, representing the Affected Share or the Affected Depositary Receipt will be accounted by the Calculation Agent for its fair market value determined at any time as from the date of occurrence of such Insolvency until the last Valuation Date or the last Averaging Date. The determination of the fair market value shall depend upon the liquidity of the market and the trading conditions relating to the Share or the Depositary Receipt affected at the time of calculation;

(f) In each case as developed in (a), (b), (c), (d) and (e) above, if the Calculation Agent has not retained as the case may be, (x) or if in (y) no share or depositary receipt meets the criteria as set out in the Method of Substitution, then the Calculation Agent may either:

(x) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions; or

(y) consider such event as an event triggering an early redemption of the Notes. In that case, the Fiduciary shall terminate its obligations under the relevant Notes and pay to each Noteholder, as soon as possible after the occurrence of any of the events described in (a), (b), (c), (d) and (e) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

C. Notwithstanding anything herein to the contrary, the Calculation Agent shall use its reasonable endeavours at all times to maintain the original number of companies in the Basket as Companies hereunder.

Definitions applicable to this Condition:

Calculation Agent Adjustment means, in respect of a Merger Event (or a Tender Offer as the case may be), the Calculation Agent shall, on or after the relevant Merger Date (or the Tender Offer Date as the case may be), (A) make such adjustment to the exercise, settlement, payment or any other terms of the Note as the Calculation Agent determines appropriate to account for the economic effect on the Note of such Merger Event (or such Tender Offer as the case may be) (provided that no adjustments will be made to

account solely for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or the Depositary Receipt or to the Note), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event (or such Tender Offer as the case may be) by an options exchange to options on the relevant Shares or Depositary Receipts traded on such options exchange and (B) determine the effective date of that adjustment.

Combined Consideration means New Shares in combination with Other Consideration.

De-listing Event means, in respect of a Share or a Depositary Receipt, that such Share or Depositary Receipt (or Deposited Securities related to such Depositary Receipt): (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event or a Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant Share or Depositary Receipt (or Deposited Securities related to such Depositary Receipt)).

De-merger Event means, in respect of any Share or Depositary Receipt, that the Company relevant to such Share or Depositary Receipt is affected by a de-merger including, without limitation, a spin off, *scission* or any operation of a similar nature.

De-merger Date means the date on which a De-merger Event becomes effective.

Early Redemption means that there will be an early redemption of the Notes on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

Fixing Period means the period subject to a maximum of ten Exchange Business Days, which shall expire no later than 90 Business Days following the Merger Date, the De-merger Date, the Tender Offer Date or the effective date of the De-listing Event, Nationalisation or Insolvency during which:

A. Societe Generale or any of its affiliates sells the Affected Shares or the Affected or Depositary Receipt, the New Shares and/or the Other Consideration, (as the case may be), on the basis of the weighted average of the closing prices of the relevant assets traded by Societe Generale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period; and

B. the proceeds of such sale are re-invested in the Substitute Shares, Substitute Depositary Receipt and/or New Shares accordingly during the said Fixing Period on the basis of the weighted average of the closing prices of such Substitute Shares, Substitute Depositary Receipt and/or New Shares traded by Societe Generale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period.

Insolvency means, in respect of a Company, voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting, such Company, as determined in good faith by the Calculation Agent.

Merger Date means, in respect of a Share or a Deposited Security, the date upon which holders of the necessary number of the relevant Shares or Deposited Securities (other than, in the case of a takeover offer, Shares or Deposited Securities owned or controlled by the offeror) to constitute a Merger Event have agreed or have irrevocably become obliged to transfer their Shares or Deposited Securities.

Merger Event means, in respect of any Share or Depositary Receipt:

A. any reclassification or change of such Share or Deposited Security (including the change of currency reference of the Share or the Deposited Security) that results in a transfer of or an irrevocable commitment to transfer all of such Share or Deposited Security outstanding to another entity or person;

B. any consolidation, amalgamation, merger or binding share exchange of the relevant Company with or into another entity (other than a consolidation, amalgamation or merger in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Shares or Deposited Securities);

C. other take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares or Deposited Securities that results in a transfer of or an irrevocable commitment to transfer all or part of such Shares or Deposited Securities (other than any of such Shares or Deposited Securities owned or controlled by the offeror); or

D. any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Shares or Deposited Securities but results in the outstanding Shares or Deposited Securities (other than Shares or Deposited Securities owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares or Deposited Securities immediately following such event.

Method of Substitution means that in the case of a Merger Event, De-merger Event, Tender Offer, De-listing Event, Nationalisation or Insolvency (regardless of the consideration to be received), in respect of an Affected Share or the Affected Depositary Receipt, the Calculation Agent may consider that the Affected Share, the Affected Depositary Receipt, the New Shares and/or, all or part of the Other Consideration (as the case may be) is/are converted into cash and that the proceeds will be reinvested either (a) into a new share or a new depositary receipt of the same economic sector or into a share or a depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or the Affected Depositary Receipt

(the **Substitute Share** or the **Substitute Depositary Receipt**, as the case may be) or (b) in the case of Combined Consideration into New Shares. In the event of Other Consideration to be received in cash, in the future, the Calculation Agent may consider that the cash to be received in the future is discounted in order to immediately re-invest the proceeds then procured in accordance with (a) and (b) above.

The sale of the Affected Share, the Affected Depositary Receipt, the New Shares and/or the Other Consideration shall be deemed to take place during the Fixing Period. The Substitute Share or the Substitute Depositary Receipt, as the case may be, and the company issuing such Substituted Share or, in the case of a Depositary Receipt, the company issuing the Deposited Securities will be deemed a **Share** or a **Depositary Receipt** and the **Company** respectively, and the Calculation Agent will adjust any relevant terms of the Notes.

For information purposes, it is understood that in all cases described herein where a Share or a Depositary Receipt is substituted, on any date "t", with a Substitute Share or Substitute Depositary Receipt, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute Depositary Receipt and would mean the closing price of such Substitute Share or Substitute Depositary Receipt on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected Depositary Receipt on such date "t".

Nationalisation means that all the Shares or the Deposited Securities or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

New Shares means shares or depositary receipts (whether of the offeror or a third party) that are listed or quoted on a recognised exchange involved in the application of Method of Substitution or Calculation Agent Adjustment as determined by the Calculation Agent.

Offering Period means the period from and including the date on which the Tender Offer, the Merger Event, the De-listing Event, the De-merger Event, the Insolvency or the Nationalisation is publicly and officially announced to but excluding the Merger Date or the De-merger Date, the Tender Offer Date, the effective date of the De-listing Event, the Insolvency or the Nationalisation.

Other Consideration means cash and/or any securities (other than New Shares) or assets (whether of the offeror or a third party).

Share-for-Combined means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists of Combined Consideration.

Share-for-Other means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists solely of Other Consideration.

Share-for-Share means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists (or, at the option of the holder of such Shares or Depositary Receipts, may consist) solely of New Shares.

Tender Offer means, in respect of any Share or Depositary Receipt, a take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

Tender Offer Date means, in respect of a Share or a Deposited Security, the date on which voting shares in the amount of the applicable percentage threshold are actually purchased or otherwise obtained (as determined by the Calculation Agent).

3.1.3 Stop-Loss Event

Unless "**Stop-Loss Event**" is specified as not applicable in the applicable Final Terms, if on any Exchange Business Day between the initial Valuation Date (excluded) and the last Valuation Date (included), the Closing Price of a Share or a Depositary Receipt is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Share** or the **Affected Depositary Receipt** and the event, the **Stop-Loss Event**), then:

A. the Calculation Agent may decide to substitute the Affected Share or the Affected Depositary Receipt by a new share or depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or the Affected Depositary Receipt (the **Substitute Share** or **Substitute Depositary Receipt**, as the case may be) and will adjust any relevant terms of the Notes accordingly; or

B. the Calculation Agent may decide to continue with the Affected Share or the Affected Depositary Receipt; or

C. if the Calculation Agent has neither retained any Substitute Share or Substitute Depositary Receipt nor decided to continue with the Affected Share or the Affected Depositary Receipt, the Calculation Agent may either:

(a) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions; or

(b) consider such event as an event triggering an early redemption of the Notes. In that case, the Fiduciary shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

For information purposes, it is understood that in all cases described herein where a Share or a Depositary Receipt is substituted, on any date "t", with a Substitute Share or Substitute Depositary Receipt, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute Depositary Receipt and would mean that the closing price of such Substitute Share or Substitute Depositary Receipt on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected Depositary Receipt on such date "t".

3.1.4 Correction of the Closing Price

In the event that any price or level of a Share or a Depositary Receipt published on the Exchange which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction,

provided however that, all references to the word "four" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

3.2 Change in Law, Hedging Disruption, Holding Limit Event, Increased Cost of Hedging and Insolvency Filing and consequences - China Connect Share Disqualification, China Connect Service Termination and consequences

3.2.1 Change in Law, Hedging Disruption, Holding Limit Event, Increased Cost of Hedging and Insolvency Filing and consequences

Change in Law, Hedging Disruption, Holding Limit Event, Increased Cost of Hedging and Insolvency Filing have the meanings given to them in the Additional Terms and Conditions for Structured Notes.

In case of the occurrence of a Change in Law, a Hedging Disruption, Holding Limit Event, Increased Cost of Hedging or an Insolvency Filing relating to a Share or a Depositary Receipt (the **Affected Underlying**), the Calculation Agent may apply the adjustments as specified in the Additional Terms and Conditions for Structured Notes.

3.2.2 China Connect Share Disqualification and China Connect Service Termination and consequences

In respect of Shares traded through the China Connect Services, the following paragraphs apply:

China Connect Share Disqualification means, on or after the Issue Date, the Shares cease to be accepted as "China Connect Securities" (as defined in the rules of the exchange of SEHK) for the purpose of the China Connect Service;

China Connect Service Termination means, on or after the Issue Date, the announcement by one or more of the Exchange, SEHK, the CSDCC, HKSCC or any regulatory authority with competent jurisdiction of a suspension or termination of the China Connect Service or a part thereof for any reason which materially affects the routing of orders in respect of, or holding of, the Shares through the China Connect Service and the Calculation Agent determines that there is a reasonable likelihood that such suspension or termination is not, or will not be, temporary,

then upon the occurrence of such events, the Calculation Agent may elect, while China Connect Share Disqualification or China Connect Service Termination is continuing, to terminate the transaction(s), upon at least two Scheduled Trading Days' notice specifying the date of such termination, in which event the Calculation Agent will apply the Early Redemption.

3.3. ESG Downgrading Event

If ESG Downgrading Event is specified as "Applicable" in the Final Terms, upon the occurrence of an ESG Downgrading Event as determined by the Calculation Agent, the ESG Determination Agent may decide either :

(i) To replace the Affected Share by a new share (the "New Share") issued by a Company whose [(i)] ESG Metric by the relevant ESG Rating Agency is at least equal to the Minimum ESG Metric Level [and (ii) meets one or more of the ESG Criteria, in each case] as specified in the Final Terms; and in that case the substitution of the Affected Share by the New Share shall be made, *inter alia*, on the basis of the price at which the Affected Share can be sold and the New Share can be bought by the Calculation Agent on the relevant Exchange as soon as reasonably practicable following the occurrence of the ESG Downgrading Event and the determination by the ESG Determination Agent. The Calculation Agent may then make the necessary adjustment to the terms of the Notes used to determine any settlement or payment terms under the Notes and/or any other terms of the Notes as it determines appropriate to reflect such substitution and preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any Local Taxes to be withheld or paid) and determine the effective date of that adjustment ;

(ii) To apply Condition 6.5 "Monetisation until the Maturity Date " of the General Terms and Conditions;

(iii) To consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the ESG Downgrading Event an

amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

(iv) To keep the terms of the Notes unchanged (and in particular keep the Affected Share within the Underlying(s) of the Notes). As a consequence, the Affected Share will not be subject to ESG Downgrading Event until the maturity of the Notes.

The Calculation Agent shall notify the Noteholders of the occurrence of an ESG Downgrading Event and of the decision of the ESG Determination Agent pursuant to the above provisions pursuant to Condition 13 of the General Terms and Conditions.

Upon the occurrence of an ESG Metric Event, the ESG Determination Agent shall determine an Alternative ESG Metric. The Calculation Agent shall notify the Noteholders of the occurrence of an ESG Metric Event and of the Alternative ESG Metric and Minimum ESG Metric Level pursuant to the above provisions pursuant to Condition 13 of the General Terms and Conditions.

Where:

"Alternative ESG Metric" means the ESG Metric selected in good faith and in a commercially reasonable manner by the ESG Determination Agent, in case of occurrence of an ESG Metric Event. An Alternative ESG Metric shall be deemed the ESG Metric.

"ESG Criteria" means :

- (a) the Company of the New Share is incorporated in the same country or geographical area as the Company of the Affected Share,
- (b) the Company of the New Share operates in the same economic sector as the Company of the Affected Share,
- (c) the New Share is denominated in the same currency as the Affected Share.

"ESG Determination Agent" means the entity specified as such in the Final Terms.

"ESG Downgrading Event" means that at the latest X days/weeks/months prior to the Maturity Date, the ESG Rating assigned by an ESG Rating Agency to a Company, the Share of which is used as Underlying, including as part of a Basket (the "Affected Share"), is withdrawn or reduced below the Minimum ESG Metric Level.

"ESG Metric" means the level of the metric assigned by an ESG Rating Agency to a company measuring its exposure to long-term environmental, social, and governance risks, involving issues such as but not limited to energy efficiency, worker safety, and board independence and specified in the Final Terms. If an ESG Metric is:

- (a) not calculated and announced by the relevant ESG Rating Agency, but is calculated and announced by a relevant successor ESG rating agency (the Successor ESG Rating Agency) acceptable to the ESG Determination Agent; or
- (b) replaced by a successor index (the Successor ESG Metric) using, in the determination of the ESG Determination Agent, the same or a substantially similar formula for, and method of, determining an ESG metric as used in the determination of the ESG Metric; then the ESG Metric will be deemed to be the ESG metric so calculated and announced by the relevant Successor ESG Rating Agency or that Successor ESG Metric (as the case may be).

"ESG Metric Event" means that, in the determination of the Calculation Agent, X days/weeks/months prior to the Maturity Date, (i) the relevant ESG Rating Agency (or if applicable the Successor ESG Rating Agency) makes a material change in the formula for or the method of assigning the ESG Metric or in any other way materially modifies that ESG Metric or (ii) a public statement or publication of information by or on behalf of the ESG Rating Agency announcing that it has ceased or will cease to provide the ESG Metric permanently or indefinitely, provided that, at the time of the statement or publication, there is no Successor ESG Rating Agency, that will continue to provide the ESG Metric.

"ESG Rating Agency" means the entity specified as such in the Final Terms, or the Successor Rating Agency which shall be deemed the ESG Rating Agency.

"Minimum ESG Metric Level" means the minimum ESG Metric Level specified in the Final Terms that must be assigned by the ESG Rating Agency specified in the Final Terms to the company selected by the ESG Determination Agent so that its share can replace a Share whose Company is affected by an ESG Downgrading Event, as Underlying, including as part of a Basket.

Opening Price means:

(i) in respect of the FTSE MIB index, the value of the index calculated on the Opening Auction Prices (as defined under the Rules of the markets organised and managed by Borsa Italiana S.p.A.) recorded on a given day, provided that such day is a trading day on the Borsa Italiana S.p.A. of the financial instruments making up the Index, having the meaning ascribed thereto in the rules of the markets organised and managed by Borsa Italiana S.p.A., as such Rules must be amended by Borsa Italiana S.p.A. from time to time, and calculated following the rules of the markets organised and managed by Borsa Italiana S.p.A., as such rules must be amended by Borsa Italiana S.p.A. from time to time;

(ii) in respect of any other index, the official opening level of such index published and announced by the Index Sponsor, as adjusted (if applicable) pursuant to the provisions of Condition 3 below.

If, during the Valuation Date, the Opening Price of the Index cannot be determined for any reason whatsoever, the Calculation Agent shall determine the level of the Index on that Valuation Date in accordance with the formula for, and method of, calculating that Index last in effect prior to the occurrence of the event that prevents the determination of the Opening Price of the Index and taking into account any other objective element that may be available.

The consequences of Disrupted Days are set out in the Additional Terms and Conditions for Structured Notes.

3. ADJUSTMENTS AND EVENTS - CHANGE IN LAW, HEDGING DISRUPTION, HOLDING LIMIT EVENT, INCREASED COST OF HEDGING AND CONSEQUENCES

3.1 Adjustments and Events

3.1.1 Adjustments

A. If an Index is:

(a) not calculated and announced by the relevant Index Sponsor or the Index Calculation Agent as the case may be, but is calculated and announced by a relevant successor sponsor (the **Successor Index Sponsor**) or a successor calculation agent (the **Successor Index Calculation Agent**) acceptable to the Calculation Agent; or

(b) replaced by a successor index (the **Successor Index**) using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index;

then the Index will be deemed to be the index so calculated and announced by the relevant Successor Index Sponsor or Successor Index Calculation Agent or that Successor Index (as the case may be).

B. If, in the determination of the Calculation Agent:

(a) on or prior to a Valuation Date or an Averaging Date, the relevant Index Sponsor (or if applicable the Successor Index Sponsor) makes a material change in the formula for, or the method of calculating, that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events (an **Index Modification**). For the avoidance of doubt, the following events do not constitute "routine events": a sub-division (split) of the level of the Index or a consolidation (reverse split) of the level of the Index, or any other event linked to either the performance or the level of the Index);

(b) on or prior to any Valuation Date or Averaging Date, the relevant Index Sponsor (or, if applicable, the relevant Successor Index Sponsor) or the Index Calculation Agent (or the Successor Index Calculation Agent) as the case may be, fails to calculate and publish the level of the Index and such failure is likely to have a material impact on the hedge of Societe Generale or one of its affiliates in connection with the Notes (an **Index Disruption**);

(c) the Index Sponsor (or, if applicable, the Successor Index Sponsor) permanently cancels the Index and no Successor Index exists (an **Index Cancellation** and together with an Index Modification and an Index Disruption, each an **Index Adjustment Event**); or

(d) for an Index which comprises any Fund Unit or ETF Share, an FRTB Event has occurred;

then the Calculation Agent shall either:

(x) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, *in lieu* of a published level for the Index, the level of that Index as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that Index Adjustment Event, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event (other than those securities that have since ceased to be listed on any relevant Exchange);

(y) replace the Index by a new index provided that such index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries; or

(z) only in case of FRTB Event, substitute the Index with a Substitute Index (an **Index Substitution Event**), where **Substitute Index** means an Index determined by the Calculation Agent as being similar to the benchmark of the affected Index or, in the absence of benchmark for the affected Index, as having an investment strategy similar to the investment strategy of the affected Index.

If the Calculation Agent has not retained (x) or (z) and if in (y) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

(i) apply "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions; or

(ii) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

3.1.2 Stop-Loss Event

Unless "Stop-Loss Event" is specified as not applicable in the applicable Final Terms, if on an Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Index** and the event, the **Stop-Loss Event**), then:

A. the Calculation Agent may decide to substitute the Affected Index by a new index representative of the same economic or geographic sector (as the case may be), and to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries (the **Substitute Index**) and will adjust any relevant terms of the Notes accordingly; or

B. the Calculation Agent may decide to continue with the Affected Index; or

C. if the Calculation Agent has neither retained any Substitute Index nor decided to continue with the Affected Index, the Calculation Agent may either:

(a) apply "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions; or

(b) consider such event as an event triggering an Early Redemption Event. Where Stop-Loss Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Stop-Loss Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

3.1.3 Correction of the Closing Price

In the event that any price or level published on the Exchange or by the Index Sponsor and which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange or the Index Sponsor after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction, provided however that, all references to the word "four" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

3.2 Change in Law, Hedging Disruption, Holding Limit Event and Increased Cost of Hedging and consequences

Change in Law, Hedging Disruption, Holding Limit Event and Increased Cost of Hedging have the meaning given to them in the Additional Terms and Conditions for Structured Notes.

In case of the occurrence of Change in Law, Hedging Disruption, Holding Limit Event or Increased Cost of Hedging relating to an Index (the **Affected Underlying**), the Calculation Agent may apply the adjustments as specified in the Additional Terms and Conditions for Structured Notes.

ADDITIONAL TERMS AND CONDITIONS FOR SGI INDEX LINKED NOTES

The provisions of these Additional Terms and Conditions for SGI Index Linked Notes apply if the applicable Final Terms specify that the "Type of Structured Notes" is "SGI Index Linked Notes".

1. GENERAL DEFINITIONS

Advised SGI Index means an SGI Index for which the Index Rules indicate an Index Advisor, as specified in the applicable Final Terms.

Averaging Date means, in respect of a Valuation Date and an SGI Index, each date so specified in the applicable Final Terms for the purpose of determining an average (or if such date is not a Scheduled Trading Day, the next following Scheduled Trading Day) unless such day is a Disrupted Day, in which case it shall be postponed pursuant to the provisions of Condition 2 below.

Barrier Date means a date with respect to which the Calculation Agent determines whether a Barrier Level is reached or any other condition has occurred by reference to the level of an SGI Index which Index Rules specify that the only Basket Component "type" is "Physical Commodity" and/or "Commodity Contract", and which includes (1) each date specified as such in the applicable Final Terms (or, if such date is not a Scheduled Trading Day, the next following Scheduled Trading Day) or (2) each date where an American Knock-In Event can occur, as specified in the applicable Final Terms. If a date is specified in the applicable Final Terms as both a Barrier Date and a Valuation Date, it will be considered as a Valuation Date. Unless otherwise specified in the applicable Final Terms, if a Barrier Date falls on a date which is not a Scheduled Trading Day in respect of all SGI Indices which Index Rules specify that the only Basket Component "type" is "Physical Commodity" and/or "Commodity Contract", it shall be postponed to the next following day which is a Scheduled Trading Day with respect to all such SGI Indices.

Barrier Level means (i) the level, if any, specified as such in the applicable Final Terms, or where none is so specified (ii) the "Knock-In Threshold" if any, designated in the applicable Final Terms, or where no such level or threshold is designated (iii) the level at which an American Knock-In Event is deemed to have occurred in accordance with the applicable Final Terms.

Commodity Instrument Disruption Event means, with respect to a Commodity Instrument, any event that, in the reasonable opinion of the Calculation Agent, disrupts or impairs the determination of the price or level of such Commodity Instrument for a Valuation Date, and includes, without limitation, (a) the failure by the relevant Exchange or price source to make public the relevant price for a Valuation Date, or the temporary or permanent discontinuance or unavailability of the price source, or (b) the material suspension of trading or the material limitation imposed on trading (whether by reason of movements in price reaching the limits established by the relevant Exchange within which the price of the relevant futures contract may fluctuate or otherwise) in the relevant Commodity Instrument on the relevant Exchange, or (c) the non-opening of trading in a relevant Commodity Instrument on the relevant Exchange on a day on which such Exchange is scheduled to be open for trading provided that all trading in the Commodity Instrument is closed for the entire regular trading session on such Exchange on such day, or (d) with respect to a Commodity Instrument which is an Underlying Index, the failure by the relevant index sponsor or, as the case may be, index calculation agent, to determine or make public the closing level of that Underlying Index.

The occurrence or existence of any such event on a Barrier Date (which is not also a Valuation Date) will not constitute a Commodity Instrument Disruption Event with respect to such Barrier Date. Accordingly, such Barrier Date will not be postponed pursuant to Condition 2 below.

Debt Instrument means (i) a bond (including a structured bond), a note (including an Euro Medium Term Note), and more generally any other debt instrument representing a debt of an issuer, or (ii) any Underlying Index on the aforementioned or (iii) any other similar instrument specified in the Index Rules.

unforeseen early closure of the organised or regulated market(s) on which the relevant Debt Instrument is traded, (e) events equivalent to (c) and (d) but affecting the trading on a Related Exchange of futures, options contracts or other derivatives relating to such Debt Instrument, or (f) if the Debt Instrument is an Underlying Index, the non-publication of such Underlying Index, the announcement of a disruption event by the index sponsor or the index calculation agent for such Underlying Index, or any of the foregoing events (a) through (e) affecting such Underlying Index and/or in respect of one or more components of such Underlying Index.

SGI Global Methodology means in respect of an SGI Index: (1) the SGI Indices Global Methodology (the initial version dated 8 June 2010), (2) the SGI Indices Global Methodology (the updated version dated 1 January 2016), (3) the Global Index Methodology (the updated version dated 16 January 2017), (4) the Global Index Methodology (the updated version dated 25 November 2019) or, as the case may be, (5) the Global Index Methodology (the most recent version dated 20 July 2020), each of which describes, among other things, certain procedures for the calculation and maintenance of such SGI Index as well as important events which might affect it and the Index Components thereof, but in any case applicable to an SGI Index only where the Index Rules for such SGI Index expressly refer to such methodology. For the avoidance of doubt, the term "SGI Global Methodology" may be construed to include further versions of such methodology if any is hereafter published and incorporated by reference under the relevant Index Rules. The SGI Global Methodology is available on the SGI website at the following address: <http://sgi.sgmarkets.com>.

SGI Index means the Societe Generale index (or the SGI Indices in case of a Basket) specified as Underlying in the applicable Final Terms, subject to adjustments pursuant to the provisions of "*Adjustments, Events, Monetisation until the Maturity Date, Change in Law, Hedging Disruption, Increased Cost of Hedging and Holding Limit Event relating to SGI Indices*" below.

Share means an ordinary share of a company.

Similar Index means an index whose "main characteristics" are similar to those of the SGI Index, in the determination of the Calculation Agent. 2. CONSEQUENCES OF DISRUPTED DAYS FOR AN SGI INDEX

The consequences of Disrupted Days are set out in the Additional Terms and Conditions for Structured Notes.

3. ADJUSTMENTS, EVENTS, MONETISATION UNTIL THE MATURITY DATE, CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING AND HOLDING LIMIT EVENT RELATING TO SGI INDICES

3.1 Adjustments and Events relating to SGI Indices

3.1.1 Adjustments

A. If on any Scheduled Trading Day, an SGI Index is:

(a) not published by the relevant **Index Calculation Agent**, but is published by a successor index calculation agent (the **Successor Index Calculation Agent**), acceptable to the Calculation Agent; or

(b) advised by a successor Index Advisor appointed by the Index Sponsor following an Index Advisor Extraordinary Event (in the case of an Advised SGI Index); or

(c) replaced by a Similar Index;

then (as the case may be) that index published by the Successor Index Calculation Agent or advised by the successor Index Advisor or such Similar Index will be deemed to be the SGI Index so calculated and announced.

B. If, in the determination of the Calculation Agent:

(a) on or prior to any Valuation Date, Averaging Date or Barrier Date, the relevant Index Sponsor and/or Index Calculation Agent announce(s) that it/they will make a material change in the formula for or the method of calculating that SGI Index or in any other way materially modifies that SGI Index (other than a modification prescribed in that formula or method to maintain that SGI Index and/or any modification reasonably incidental to such maintenance, in the event of changes in Index Components and other routine events) (an **Index Modification**); or

(b) on or prior to any Valuation Date, Averaging Date or Barrier Date, the Index Sponsor permanently cancels the SGI Index and no Similar Index exists or the agreement between the Index Calculation Agent and the Index Sponsor is terminated and such Index Calculation Agent cannot practicably be replaced (an **Index Cancellation**); or

(c) on any Valuation Date or Averaging Date, the Index Calculation Agent fails to publish the Closing Price of the SGI Index other than as a result of the occurrence of a Market Disruption Event (an **Index Disruption** and together with an Index Modification and an Index Cancellation, each an **Index Adjustment Event**); or

(d) for an SGI Index in respect of which the Index Components comprise (i) one or more Equity Instruments that is a Fund Unit or an ETF Share or (ii) one or more Underlying Indices composed of one or more Fund Units or ETF Shares or (iii) any other similar instrument specified in the Index Rules, an FRTB Event has occurred;

then the Calculation Agent shall either:

(i) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, in lieu of a published level for the SGI Index, the level of that SGI Index on the relevant Valuation Date, Averaging Date or, in respect of any event described in B(a) and (b) above, Barrier Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that SGI Index last in effect prior to that Index Adjustment Event, but using only those Index Components that composed the SGI Index immediately prior to that Index Adjustment Event (other than those Index Components that have since then ceased to be listed on any relevant Exchange), and adjust, as the case may be, any of the relevant terms of the Notes; or

(ii) replace the SGI Index by a Similar Index (except for the case described in (b) above); or

(iii) consider such Index Adjustment Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay to each Noteholder as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

(iv) apply "Monetisation until the Maturity Date" (as defined in Condition 6.5 of the General Terms and Conditions); or

(v) only in case of FRTB Event, substitute the SGI Index with the Substitute Index (an **Index Substitution Event**), where **Substitute Index** means an Index determined by the Calculation Agent as being similar to the benchmark of the affected SGI Index or, in the absence of benchmark for the affected SGI Index as having an investment strategy similar to the investment strategy of the affected SGI Index. Following the occurrence of the Index Substitution Event, the Notes shall be governed by the Additional Terms and Conditions for Index Linked Notes for any aspect in relation with the Substitute Index.

provided that, for the avoidance of doubt:

in the event of the occurrence or existence, on a Barrier Date (which is not also a Valuation Date), of an Index Disruption in respect of an SGI Index which Index Rules specify that the only Basket Component "type" is "Physical Commodity" and/or "Commodity Contract", such Index Disruption will not result in the Calculation Agent taking any of the steps described in (i), (ii), (iii) and (iv) above with respect to such Barrier Date. Instead, such date will no longer be considered a Barrier Date, and accordingly the Calculation Agent will not determine whether a Barrier Level is reached, or any other condition has occurred, for such date with respect to the SGI Index affected by the Index Disruption.

3.1.2 Stop-Loss Event relating to an SGI Index

If, on any Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an SGI Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected SGI Index** and the event, the **Stop-Loss Event**), then the Calculation Agent may decide to:

A. substitute the Affected SGI Index by a Similar Index and will adjust any relevant terms of the Notes accordingly; or

B. continue with the Affected SGI Index; or

C. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay or deliver, as the case may be, to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

3.1.3 Correction of the Closing Price of an SGI Index

In the event that any price or level published by the Index Calculation Agent which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Index Calculation Agent after the original publication but no later than four Business Days prior to the Maturity Date, (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction, *provided however that*, all references to the word "four" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

3.2 Change in Law, Hedging Disruption, Increased Cost of Hedging, Holding Limit Event and consequences

Change in Law, Hedging Disruption, Increased Cost of Hedging and **Holding Limit Event** have the meanings given to them in the Additional Terms and Conditions for Structured Notes.

In the case of the occurrence of a Change in Law, a Hedging Disruption, a Holding Limit Event or an Increased Cost of Hedging relating to an SGI Index (the **Affected Underlying**), the Calculation Agent may apply the adjustments as specified in the Additional Terms and Conditions for Structured Notes.

2.2 Specific fallback provisions

For certain products (mainly range accrual products), one or both of the following provisions may be specified in the applicable Final Terms in addition to the generic fallback provisions:

ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE RATE LINKED NOTES

The provisions of these Additional Terms and Conditions for Foreign Exchange Rate Linked Notes apply if the applicable Final Terms specify that the clause *"Type of Structured Notes"* is stated as being *"Foreign Exchange Rate Linked Notes"*.

1. DEFINITIONS

Averaging Date means the dates specified as such in the applicable Final Terms or, if any such day is not a Scheduled Trading Day, the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

For EU Allowance Notes, Closing Price means the:

Spot FX Rate, which in respect of a Valuation Date, means the bid price ('FwdsBid') published by the Price Source (or its successor) in respect of such date; and

Fwd FX Rate, which, in respect of a Valuation Date, means the ask price ('FwdsAsk') published by the Price Source (or its successor) in respect of that date, provided that:

(a) If the exact maturity of the ask price is not available on the Price Source, the Calculation Agent will determine the Closing Price by applying linear interpolation based on the next shorter and next longer maturities available; and

(b) If it is not possible to determine the ask price based on the Price Source, the Closing Price will be a rate determined by the Calculation Agent acting in good faith and having regard to the conditions prevailing in the market.

Disrupted Day means any Scheduled Trading Day on which a Disruption Event has occurred.

Disruption Events means, in respect of a Foreign Exchange Rate, the occurrence or existence of (a) a Price Source Disruption, (b) an Illiquidity Disruption, (c) a Dual Exchange Rate or (d) any other event that, in the opinion of the Calculation Agent, is analogous to (a), (b) or (c). For the purpose hereof:

A. **Price Source Disruption** means that it becomes impossible to obtain the rate or rates from which the Closing Price is calculated.

B. **Illiquidity Disruption** means the occurrence of any event in respect of any Foreign Exchange Rate whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on the relevant Averaging Date or any Valuation Date.

C. **Dual Exchange Rate** means that the Foreign Exchange Rate splits into dual or multiple foreign exchange rates.

Substitute Price Source means the substitute published source, information vendor or provider as specified in the applicable Final Terms (if any) containing or reporting the rate or rates from which the Closing Price is calculated.

Valuation Date means each date specified as such in the applicable Final Terms or, if such day is not a Scheduled Trading Day, the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

- (a) Such date shall be the Valuation Date for the Foreign Exchange Rates for which this date is a Scheduled Trading Day.
- (b) The Valuation Date for the Foreign Exchange Rates for which such date is not a Scheduled Trading Day shall be the immediately succeeding Scheduled Trading Day for each of these Foreign Exchange Rates unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

Valuation Time means the time at which the Price Source publishes the relevant rate or rates from which the Closing Price is calculated, as specified in the applicable Final Terms.

2. CONSEQUENCES OF A DISRUPTION EVENT

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively), is a Disrupted Day for a Foreign Exchange Rate, the Calculation Agent shall :

- (a) determine to apply any of the following methods:

- (x) determine that the Valuation Date or Averaging Date for such Foreign Exchange Rate shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of such Foreign Exchange Rate, unless each of the fourteen calendar days immediately following the Scheduled Valuation Date or Scheduled Averaging Date is also a Disrupted Day. In that case, the Scheduled Trading Day immediately following such fourteen calendar day shall be deemed to be the Valuation Date or Averaging Date for the Foreign Exchange Rate notwithstanding the fact that such day is a Disrupted Day, and the Calculation Agent shall determine, its good faith estimate of the fixing of the Foreign Exchange Rate as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price.

Provided however that, if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the fourteen calendar day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then the Scheduled Trading Day immediately following such fourteen calendar day shall be deemed the Averaging Date (irrespective of whether that Scheduled Trading Day immediately following such fourteen calendar day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (x) above, and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price; or

- (y) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

- (z) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions.

- (b) postpone any payment date related to such Averaging Date or Valuation Date (including, if applicable, the Maturity Date) until the second Business Day following the date on which a Disruption Event is no longer subsisting. No interest or other amount shall be paid by the Fiduciary in respect of such postponement.

provided however that all references to the word "second" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 2, **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

3. CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING, HOLDING LIMIT EVENT AND CONSEQUENCES

Change in Law, Hedging Disruption, Increased Cost of Hedging and **Holding Limit Event** have the meanings given to them in the Additional Terms and Conditions for Structured Notes.

2.1.2 If a Barrier Date is not a Common Commodity Business Day, then such Barrier Date shall be postponed to the next day which is a Common Commodity Business Day, subject to determination deadline provisions in Condition 2.1.3 below.

2.1.3 Notwithstanding the foregoing, a Valuation Date or a Barrier Date, shall occur not later than the earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date, as the case may be. 2.2 Consequences of Market Disruption Events

2.2.1 If a Market Disruption Event occurs or is continuing with respect to a Commodity Reference Price on a Valuation Date, then the price of such Commodity with respect to such Valuation Date will be (subject to the determination deadline provision in Condition 2.2.2 below):

(a) the Commodity Reference Price for such Valuation Date published by the relevant Exchange on the next Commodity Business Day on which there is no Market Disruption Event (the **Determination Day**);

(b) if the Commodity Reference Price is not determined as per paragraph (a) above or is a Limit Price, the Commodity Reference Price published by the relevant Exchange for such Determination Day.

(ii) with respect to the Commodity or Commodities which are affected by a Market Disruption Event on the fifth Commodity Business Day, the fair market value of such Commodity or Commodities.

2.3 Consequences of extraordinary events affecting the Commodities or Commodity Reference Prices

If, any of the following extraordinary event occurs in respect of a Commodity or a Commodity Reference Price in the determination of the Calculation Agent:

A. the relevant Commodity Reference Price disappears or permanently discontinues or otherwise becomes unavailable; or

B. at any time following the first Valuation Date, a material change in the formula or the calculation method for the relevant Commodity Reference Price occurs; or

C. at any time following the first Valuation Date, a material change in the content, the composition or the constitution of the relevant Commodity occurs,

then, except in case of EU Allowance Notes, the Calculation Agent will be entitled to either:

Y. determine the fair market value of the relevant Commodity for the relevant Valuation Date or Barrier Date; or

Z. replace, to the extent possible, the affected Commodity Reference Price with a similar price.

If the Calculation Agent does not make a determination in accordance with Y above and if in the determination of the Calculation Agent, no price meets the criteria to be an appropriate replacement price in accordance with Z above, then, except in the case of EU Allowance Notes, the Calculation Agent will decide to either:

a. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

b. apply the "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions.

Subparagraph (a) shall not apply to Notes to be listed on the Italian Stock Exchange (Borsa Italiana S.p.A.).

2.4 Consequences of adjustment events affecting the Commodity Reference Price

If a Commodity Reference Price made public on the relevant Price Source's page and used in any calculation or determination made under the Notes is subsequently corrected and the correction is made available to the public on the relevant Price Source's page after the original publication but no later than the earlier of (i) the Maturity Date of a Note and (ii) four Commodity Business Days or Index Business Days, as applicable, prior to the Maturity Date of such Note or any payment date(s) (as set out in the applicable Final Terms), the Calculation Agent will determine whether adjustments to the terms of the Notes are necessary to account for such correction.

3. PROVISIONS APPLICABLE TO INDICES ON COMMODITIES

3.1 Index Business Day Adjustment

3.1.1 If a Valuation Date is not an Index Business Day with respect to a Commodity Index, then the Valuation Date for such Commodity Index shall be postponed to the next day which is an Index Business Day with respect to such Commodity Index, subject to valuation deadline provisions in Condition 3.1.3 below.

3.1.2 If a Barrier Date is not a Common Index Business Day, then such Barrier Date shall be postponed to the next day which is a Common Index Business Day, subject to determination deadline provisions in Condition 3.1.3 below.

3.1.3 Notwithstanding the foregoing, a Valuation Date or a Barrier Date shall occur not later than the earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date; as the case may be. The earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine the fair market level of the Commodity Index or Commodity Indices for which the earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) that fourth Business Day is not an Index Business Day.

3.2 Consequences of Index Disruption Events

3.2.1 If a Valuation Date specified in the applicable Final Terms is subject to an Index Disruption Event for a Commodity Index or any Underlying Index, as applicable, the level of such Commodity Index or Underlying Index shall be determined by the Calculation Agent in accordance with the formula and calculation method for that Commodity Index and Underlying Index, as applicable, then in effect (subject to determination deadline provisions in Condition 3.2.2 below), using:

(a) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which no Commodity Instrument is affected by an Index Disruption Event, its settlement price as determined and made public by the relevant Exchange for the Valuation Date; and

(b) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which one or more Commodity Instrument is affected by an Index Disruption Event:

(i) the settlement price of the Commodity Instruments related to such commodity as determined by the relevant Exchange for the Valuation Date and made public on the Valuation Date or retrospectively on the next Commodity Business Day on which there is no Index Disruption Event with respect to such Commodity Instruments;

(ii) if the settlement price of one or more Commodity Instruments related to such commodity is not determined as per (b)(i) above or is a Limit Price, the settlement price of all Commodity Instruments related to such commodity published by the relevant Exchange for

the next Commodity Business Day on which the Index Disruption Event ceases to exist with respect to all such Commodity Instruments;

(iii) the settlement price of such Commodity Instruments shall be determined within five (5) Commodity Business Days from and including the relevant Valuation Date for the purposes of paragraph (b)(i) and (b)(ii) above;

(iv) if the settlement price of one or more Commodity Instruments is not determined as per (b)(i) or (b)(ii) above,

Y. for each Commodity Instrument which is not affected by an Index Disruption Event on the fifth (5th) Commodity Business Day from and including the relevant Valuation Date and for which the relevant Exchange determines and makes public the settlement price on that day (and that settlement price is not a Limit Price), the settlement price of such Commodity Instrument(s) as determined and made public by the relevant Exchange; and

Z. for each other Commodity Instrument the fair market value of all such Commodity Instruments on that fifth Commodity Business Day, as determined by the Calculation Agent taking into consideration the latest available settlement price for such Commodity Instruments as determined and made public by the relevant Exchange and any other information that the Calculation Agent may in good faith deem relevant.

3.2.2 Notwithstanding the foregoing, the date on which the value of a Commodity comprised in the Commodity Index and the level of Commodity Index are determined shall occur not later than the earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such date.

3.3 Consequences of extraordinary events and adjustments to Indices

A. If a Commodity Index is:

(a) not calculated and made public by the relevant Index Sponsor and/or Index Calculation Agent but is calculated and made public by a relevant successor sponsor or calculation agent (the **Successor Sponsor** or **Successor Calculation Agent**, as the case may be) acceptable to the Calculation Agent, or

(b) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Commodity Index (the **Successor Index**);

then the Commodity Index will be deemed to be the index so calculated and made public by the relevant Successor Sponsor or Successor Calculation Agent or that Successor Index (as the case may be).

B. If, on or prior to a Valuation Date or a Barrier Date, in the determination of the Calculation Agent, the relevant Index Sponsor or Index Calculation Agent (as applicable) (or if applicable the Successor Sponsor or Successor Calculation Agent, as the case may be):

(a) makes a material change in the formula or calculation method of a Commodity Index or in any other way materially modifies a Commodity Index (other than a modification prescribed in that formula or method to maintain that Commodity Index in the event of changes in commodities comprised in the Commodity Index and capitalisation and other routine events). For the avoidance of doubt, and without limitation, any sub-division (split) of the Commodity Index or any consolidation (reverse split) of the level of the Commodity Index, or any other event linked to the performance or the level of the Commodity Index shall not be considered a routine event; or

(b) fails to calculate and publish the level of the Commodity Index for a continuous period of at least four (4) Commodity Business Days before and including that Valuation Date; or

(c) permanently ceases to calculate or cancels a Commodity Index and no Successor Index exists;

each of the events described in paragraphs (a), (b) and (c) above, an **Index Adjustment Event**;

then the Calculation Agent will be entitled to either:

Y. determine the level of that Commodity Index for the relevant Valuation Date or Barrier Date in accordance with the formula and calculation method for that Commodity Index last in effect prior to that Index Adjustment Event (provided that the Calculation Agent may, if required in the Calculation Agent's determination, adapt such formula or calculation method to take the Index Adjustment Event into account). The Commodity Index so calculated will be used in lieu of the Closing Price made public by the Index Sponsor or Index Calculation Agent (as applicable) for the determination of an amount to be paid under the Notes or to determine whether a condition, if any, has occurred or not, or

Z. replace the Commodity Index with a new index to the extent possible, representative of the similar type of commodities comprised in the Commodity Index and traded on one or more Exchanges.

If the Calculation Agent does not make a determination in accordance with Y above and if in the determination of the Calculation Agent, no index meets the criteria to be an appropriate replacement index in accordance with Z above, then the Calculation Agent will decide to either:

a. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid, an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

b. apply the "Monetisation until the Maturity Date", as defined in Condition 6.5 of the General Terms and Conditions.

then the Calculation Agent may:

X. (i) consider such Extraordinary Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

(ii) only in case of Liquidity Modification, (a) consider such event as an Early Redemption Event and may decide to pay, in full or in part, the Early Redemption Amount by the delivery of the Fund Units in lieu of its obligations to pay the Early Redemption Amount in cash; or (b) if Liquidity Modification is continuing on the last Valuation Date and the Calculation Agent did not consider such event as an Early Redemption Event may decide to pay, in full or in part, the Final Redemption Amount by the delivery of the Fund Units in lieu of its obligations to pay the Final Redemption Amount in cash; or

Y. in the case of (N) above only, replace the Fund Unit by the kind and number of units or other securities and property receivable on such conversion, split, consolidation, merger, sale or conveyance by a holder of Fund Units prior to such conversion, split, consolidation, merger, sale or conveyance for the purposes of determining the value of the Fund Unit and make any adjustment (if necessary) to the value of such Fund Unit; or

Z. apply any of the following methods:

(a) **Substitution** and the Calculation Agent shall (i) identify a fund (the **Substitute Fund**) having an investment strategy similar to the investment strategy of the **Fund** affected by the Extraordinary Event (the **Affected Fund**) and (ii) may adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Fiduciary under the Notes.

For information purposes, it is understood that in all cases described herein where a Fund is substituted, on any date "t", with a Substitute Fund, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Fund and would mean the closing price of such Substitute Fund on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Fund on such date "t", or

(b) Postponement to the Adjusted Payment Date (as defined below), or

(c) "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions, or

only in the case of Increased Cost of Hedging :

AA. deduct:

(i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging and that would be incurred by the Hypothetical Investor, in relation to the Intermediate Hypothetical Hedge Positions or Optional Hypothetical Hedge Positions or Hypothetical Hedge Positions hedging the payment obligation of the Fiduciary under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is or higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction

Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

(ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Provided, however, that:

If "Redemption at the option of the Noteholders" or "Redemption at the option of the Fiduciary" is specified as being applicable in the applicable Final Terms then:

(x) upon the occurrence or likely occurrence of an Extraordinary Event, any Put Notice or the exercise by the Fiduciary of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling after the date of such occurrence shall be null and void; and

(z) upon the occurrence or likely occurrence of an Extraordinary Event, with respect to Put Notices or the exercise by the Fiduciary of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling on or before the date of such occurrence, the Calculation Agent may proceed with the determinations and/or adjustments described in (X), (Y) or (Z) above.

Only in case of FRTB Event:

AB. substitute the Affected Fund with the Substitute Index (an **Index Substitution Event**), where Substitute Index means an Index determined by the Calculation Agent as being similar to the benchmark of the Affected Fund, or, in the absence of benchmark for the Affected Fund, as having an investment strategy similar to the investment strategy of the Affected Fund.

Following the occurrence of the Index Substitution Event, the Notes shall be governed by the Additional Terms and Conditions for Index Linked Notes for any aspect in relation with the Substitute Index.

Sub-paragraph (Z) shall not apply to Notes listed on the Italian Stock Exchange (Borsa Italiana S.p.A.).

2.3 Disruption Events and consequences

Upon the occurrence or, unless the applicable Final Terms specify that "Fund Linked Notes_Events2" applies, the likely occurrence, as determined by the Calculation Agent, of any of the following events (each a **Disruption Event**) in respect of a Valuation Date or an Averaging Date (the **Disrupted Day**) and a Fund or Fund Unit (the **Affected Fund**):

A. Calculation and/or Publication Disruption means the occurrence of an event, beyond the control of a Hypothetical Investor (including in case of any gate, deferral, suspension or other provisions in the Fund Documents permitting the Fund to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official net asset value per Unit of the Fund by the Fund (or the Fund Service Provider generally in charge of calculating such official net asset value); or

B. Fund Settlement Disruption means a failure by the Fund to pay in cash the full amount of the redemption proceeds on the date by which the Fund was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the transfer of all illiquid assets of such Fund to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (b) the restriction on the amount or number of redemptions orders that the Fund (or the Fund Service Provider generally in charge of accepting redemption orders) will accept in relation to a single date on which the Fund normally accepts redemption orders (a gate), (c) the suspension for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting subscription and redemption orders), or (d) the postponement of the payment of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by the Fund's statutory auditors (holdback), in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Issue Date of the Notes or are already envisaged by the Fund Documents on the Issue Date of the Notes and are solely implemented by the Fund after such date; or

C. NAV Determination Disruption Event means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in "Calculation and/or Publication Disruption" in (A) above or "Fund Settlement Disruption" in (B) above affecting such Fund which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date or the Averaging Date (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively) in respect of the Affected Fund shall be postponed to the immediately following Fund Business Day or Fund Valuation Day (as specified

in relation to such Valuation Date or Averaging Date in the applicable Final Terms) that is no longer affected by a Disruption Event for such Affected Fund.

If a Disruption Event has occurred or is continuing on each of the five scheduled Fund Business Days or Fund Valuation Days, as the case may be, following the Scheduled Valuation Date or the Scheduled Averaging Date, or if no Fund Business Day or Fund Valuation Day, as the case may be, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date or the Scheduled Averaging Date, then the Calculation Agent may either:

X. determine its good faith estimate of the net asset value per Unit of such Fund which shall be deemed to be the Closing Price in respect of such Valuation Date;

Y. (i) consider such Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

(ii) only in case of Fund Settlement Disruption, (a) consider such event as an Early Redemption Event and may decide to pay, in full or in part, the Early Redemption Amount by the delivery of the Fund Units in lieu of its obligations to pay the Early Redemption Amount in cash; or (b) if Fund Settlement Disruption is continuing on the last Valuation Date and the Calculation Agent did not consider such event as an Early Redemption Event may decide to pay, in full or in part, the Final Redemption Amount by the delivery of the Fund Units in lieu of its obligations to pay the Final Redemption Amount in cash; or

Z. apply either (i) "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions, (ii) Postponement to the Adjusted Payment Date, or (iii) Substitution.

Provided that:

(a) if "*Redemption at the option of the Noteholders*" or "*Redemption at the option of the Fiduciary*" is specified as being applicable in the applicable Final Terms then:

(i) upon the occurrence or likely occurrence of a Disruption Event, the Put Notices or the exercise by the Fiduciary of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling after the date of such occurrence shall be null and void.

(ii) upon the occurrence or likely occurrence of a Disruption Event, with respect to Put Notices or the exercise by the Fiduciary of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling on or before the date of such occurrence, the Calculation Agent may proceed with the determinations and/or adjustments described in (X), (Y) or (Z) above:

(b) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Fund Business Day or Fund Valuation Day, as the case may be, that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the earlier of (i) the fifth Fund Business Day or Fund Valuation Day, as the case may be, following the Scheduled Averaging Date and (ii) the thirty-fifth calendar day following the Scheduled Averaging Date, a Fund Business Day or Fund Valuation Day, as the case may be, that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that fifth Fund Business Day or Fund Valuation Day, or that thirty-fifth calendar day, as the case may be, shall be deemed the Averaging Date (irrespective of whether that fifth Fund Business Day or Fund Valuation Day, or that thirty-fifth calendar day, as the case may be, is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (X) above, and the good faith estimate of the net asset value per Unit of such Fund so calculated shall be deemed the Closing Price;

(c) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or the Averaging Date and the Calculation Agent shall elect to make the determinations and/or adjustments described in either (X), (Y) or (Z) above on such fourth Business Day and, in case the Calculation Agent elects to make the determinations described in (X) above, the good faith estimate of the net asset value of the Fund so calculated shall be deemed the Closing Price.

For the purposes of this Condition 2.3 :

- All references to the word "fourth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System; and

- **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

2.4 Consequences of Maturity Disruption Event

Upon the occurrence or, unless the applicable Final Terms specify that “Fund Linked Notes_Events2” applies, the likely occurrence, as determined by the Calculation Agent, of a Maturity Disruption Event, then the Calculation Agent may either:

(i) unless the applicable Final Terms specify that “Fund Linked Notes_Events2” applies (in which case only paragraph (ii) below is applicable), consider such Maturity Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

(ii) apply Postponement to the Adjusted Maturity Date (as described in Condition 3.1.3).

3. POSTPONEMENT TO THE ADJUSTED PAYMENT DATE - SUBSTITUTION

3.1 Postponement to the Adjusted Payment Date

Following the occurrence of an event giving rise to the Postponement to the Adjusted Payment Date, the Fiduciary shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.1.1 and/or 3.1.2 and/or 3.1.3 below.

Notwithstanding the above, following the occurrence or likely occurrence of a Maturity Disruption Event, the Fiduciary shall no longer be liable for the payment on the Maturity Date of the Intermediate Amount(s) and/or the Optional Redemption Amount and/or the Final Redemption Amount, but instead will, in full and final satisfaction of its obligations, pay an amount described in Condition 3.1.3 below.

3.1.1 Postponement to the Adjusted Intermediate Payment Date

3.1.1.1 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero

Pursuant to the provisions of Condition 3.1, the Fiduciary shall pay on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision).

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

3.1.1.2 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Intermediate Amount**)

Pursuant to the provisions of Condition 3.1, the Fiduciary shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(i) (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision) and

(ii) an amount equal to the Minimum Intermediate Amount;

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

3.1.2.1 In respect of the payment of any Optional Redemption Amount as defined in the applicable Final Terms which could be as low as zero

Pursuant to the provisions of Condition 3.1, the Fiduciary shall pay on the Adjusted Optional Redemption Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the

Optional Full Liquidation Date, as a result of liquidating the Optional Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a **Calculation Amount** for the purposes of this provision).

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Optional Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

3.1.2.2 *In respect of the payment of any Optional Redemption Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Optional Redemption Amount**)*

Pursuant to the provisions of Condition 3.1, the Fiduciary shall pay (1) on the Optional Redemption Date an amount per Note equal to the Minimum Optional Redemption Amount and (2) on the Adjusted Optional Redemption Date an amount per Note, determined by the Calculation Agent, equal to the positive difference between:

(i) (a) the net positive cash amount that a Hypothetical Investor would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a Calculation Amount for the purposes of this provision) and

(ii) an amount equal to the Minimum Optional Redemption Amount;

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Optional Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

3.1.3 Postponement to the Adjusted Maturity Date

3.1.3.1 *In respect of the payment of any Intermediate Amount and/or the Optional Redemption Amount and/or the Final Redemption Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3.1, the Fiduciary shall pay on the Adjusted Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date and/or the Full Liquidation Date, as a result of liquidating the Intermediate Hypothetical Hedge Positions and/or the Optional Hypothetical Hedge Positions and/or the Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions and/or Optional Hypothetical Hedge Positions and/or Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions and/or the Optional Hypothetical Hedge Positions and/or the Hypothetical Hedge Positions, as the case may be) minus (b) the Associated Costs (the result of which converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date and/or on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period, if any, (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date and/or the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Adjusted Maturity Date (excluded),

provided however that:

- all references to the word "fourth" in (y) above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 3.1.3, **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions and/or Optional Hypothetical Hedge Positions and/or Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and/or Optional Hypothetical Hedge Positions and/or Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

1. CREDIT EVENT PROVISIONS

1.1 Settlement Method

1.1.1 Physical Settlement

If the Notes are Single Name Notes or First-to-Default Notes and if the applicable Final Terms specify that the clause "Settlement Method" is "Physical Settlement":

1.1.1.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Fiduciary to the relevant Clearing System for the Noteholders' information, then (i) the Fiduciary will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will, in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note, Deliver or procure Delivery of the Physical Delivery Amount to the Noteholders during the Physical Settlement Period, subject to the next following paragraphs and the cash settlement provisions hereafter and (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.2 below.

If the Physical Delivery Amount is not equal to an authorised denomination (or integral multiple thereof) of the Specified Deliverable Obligations then (i) the Physical Delivery Amount of Specified Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or integral multiple thereof, or, if none, to zero, and (ii) in addition to the Delivery of the Physical Delivery Amount, the Fiduciary will pay or procure payment of a cash amount determined by the Calculation Agent as the market value of the Specified Deliverable Obligations that were not capable of being Delivered due to such rounding.

The Delivery of the Specified Deliverable Obligations or payment of the Cash Redemption Amount, as the case may be, is subject to the prior delivery by or on behalf of the Fiduciary to the relevant Clearing System for the Noteholders' information, of a Notice of Physical Settlement between the Credit Event Determination Date and the Latest Notification Date (both dates inclusive).

1.1.1.2 Following the occurrence of a Credit Event with respect to a Reference Entity, the Fiduciary will select the Specified Deliverable Obligations.

1.1.1.3 The Fiduciary will not necessarily Deliver all the Specified Deliverable Obligations on the same date and may Deliver Specified Deliverable Obligations to different Noteholders on different dates or to the same Noteholder on different dates.

1.1.1.4 The Fiduciary is not obliged to Deliver the same type and proportion of Deliverable Obligations to each Noteholder and a Noteholder may receive various types of Deliverable Obligations.

1.1.1.5 If any or all of the Specified Deliverable Obligations are not eligible for clearance by the relevant Clearing System, then the Fiduciary may, upon prior notice to the Noteholders, arrange:

(A) Delivery of those Specified Deliverable Obligations (if any) that are eligible for clearance by the relevant Clearing System in the relevant Clearing System and Delivery of those Specified Deliverable Obligations that are not eligible for clearance by the relevant Clearing System outside the relevant Clearing System; or

(B) Delivery of all the Specified Deliverable Obligations (whether or not those Specified Deliverable Obligations are eligible for clearance) outside the relevant Clearing System.

The relevant Clearing System will then be instructed to block and, upon confirmation by the Fiduciary that delivery has taken place, cancel the Noteholders' positions in its books and the Principal Paying Agent in turn will cancel the outstanding Notes. If Delivery is to take place outside the relevant Clearing System, the Fiduciary shall have to receive the relevant Noteholders' transfer instructions, in terms that are satisfactory to the Fiduciary, sufficiently before the Latest Permissible Physical Settlement Date to allow for physical settlement, otherwise the cash settlement provisions set out below will apply.

1.1.2 Fallback to Cash Settlement

1.1.2.1 If the Notes are Single Name Notes or First-to-Default Notes and if the applicable Final Terms specify that the clause "Settlement Method" is "Physical Settlement" but, on the Latest Permissible Physical Settlement Date, the Calculation Agent (acting on behalf of the Fiduciary) determines that it is Illegal or Impossible for the Fiduciary to Deliver all or part of the Specified Deliverable Obligations to all or some of the Noteholders or if the Fiduciary does not receive transfer instructions as described in the last sentence of Condition 1.1.1.5 above, then the Calculation Agent will calculate a Cash Redemption Amount, in respect of such part of the Specified Deliverable Obligations which are Undeliverable Obligations, and the Fiduciary will, on the Cash Redemption Date, pay or procure payment of a Cash Redemption Amount to the relevant Noteholders in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.

1.1.2.2 The Fiduciary must notify the relevant Noteholders through the relevant Clearing System that there are Undeliverable Obligations and the reasons why it is Illegal or Impossible to Deliver such Specified Deliverable Obligations.

1.1.2.3 If, before the Latest Permissible Physical Settlement Date, the Calculation Agent determines that the Delivery of all of the Specified Deliverable Obligations is Illegal or Impossible, and it deems in good faith that such Delivery is to remain Illegal or Impossible until the Latest Permissible Physical Settlement Date, then the Calculation Agent may give notice thereof to the relevant Clearing System for the attention of the Noteholders. The Credit Valuation Date will then be the date that is two Business Days after the date on which the Calculation Agent delivers such notice to the relevant Clearing System, and the Fiduciary will pay the Noteholders a Cash Redemption Amount on the Cash Redemption Date in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.

1.1.2.4 If Delivery is partially Illegal or Impossible, the Fiduciary may, for each Noteholder Deliver the Specified Deliverable Obligations and pay a Cash Redemption Amount. The Fiduciary shall not be obliged to ensure that each Noteholder receives the same type and proportion of Deliverable Obligations and the same proportion of Deliverable Obligations and Cash Redemption Amount as each other Noteholder.

1.1.2.5 If Condition 1.1.2.1 or Condition 1.1.2.3 above applies, the Fiduciary may arrange that all settlements hereunder be made outside the relevant Clearing System in the manner described in Condition 1.1.1.5 above provided that the Fiduciary receives transfer instructions in terms that are satisfactory to the Fiduciary to allow for such settlements.

1.1.2.6 The Calculation Agent will inform the Noteholders via the relevant Clearing System of the Cash Redemption Amount by sending a Final Valuation Notice.

1.1.3 Cash Settlement

If the applicable Final Terms specify that the clause "Settlement Method" is "Cash Settlement":

1.1.3.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and if a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Fiduciary to the Noteholders, then the Fiduciary will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will pay or procure payment of the Cash Redemption Amount (or a formula based on the Cash Redemption Amount, as specified in the applicable Final Terms) on the Cash Redemption Date (subject as specified in Condition 1.1.3.2 below), in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note, and (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.2 below. The Selected Obligations, the Cash Redemption Amount and the Cash Redemption Date shall be notified to the Noteholders in the Final Valuation Notice on the Final Valuation Notice Receipt Date.

1.1.3.2 In the case of Basket Notes or Tranche Notes, unless Preliminary Cash Redemption is specified as "*Not Applicable*", if an Unsettled Credit Event has occurred, a Preliminary Cash Redemption Amount will be payable on the Scheduled Maturity Date and a Residual Cash Redemption Amount will be payable on the Maturity Date.

1.1.3.3 For the avoidance of doubt, under no circumstances will the Final Value be determined later than the 180th Business Day following the corresponding Credit Event Determination Date.

(C) if no DC No Credit Event Announcement is published and no Credit Event Notice is delivered in relation to the relevant event, the date that is 100 Business Days + 10 Payment Business Days following the Credit Event Resolution Request Date (all as defined in Condition 2 below).

For the avoidance of doubt, (x) should a Credit Event Determination Date occur within an Interest Period but the relevant Credit Event Notice is delivered (i) less than four Business Days prior to the relevant Interest Payment Date and the Fiduciary's payment instructions have already been given in respect of interest payable with respect to such Interest Period, or (ii) during a subsequent Interest Period and the Fiduciary has paid an amount of interest prior to such delivery in excess of the amount due in accordance with the provisions of this Condition 1.2, then the Fiduciary may deduct the amount of overpaid interest from (i) the next interest amount(s) (if any) due under the Notes (only in respect of Basket Notes and Tranche Notes), and/or (ii) the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount (or Cash Redemption Amount or Physical Delivery Amount, as the case may be), whichever comes first (the result of such deduction being in each case floored at zero); and (y) if payment of interest is deferred following the delivery of a Notice of Pending Credit Event, no additional interest will be payable on the Suspended Amounts for the period of the deferral.

1.3 Credit Event Notice after Restructuring

Upon the occurrence of a Restructuring in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date, if M(M)R Restructuring is applicable, the following provisions apply:

1.3.1 Single Name Notes and First-to-Default Notes

If the applicable Final Terms specify that the clause "Settlement Type" is "American Settlement":

1.3.1.1 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 shall be deemed to apply to the Partial Redemption Amount , only and each such Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount) (and for the avoidance of doubt, without prejudice to the effect of the Principal Credit Factor on the redemption amount);

1.3.1.2 for the avoidance of doubt (i) the Nominal Amount of each such Note not so redeemed in part shall remain outstanding and, if applicable, interest shall accrue on the Nominal Amount outstanding of such Note as provided in the applicable Final Terms (adjusted in such manner as the Calculation Agent determines to be appropriate) and (ii) the provisions of Condition 1.1 or Condition 1.2 shall apply to such Nominal Amount outstanding of such Note in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity; and

1.3.1.3 on redemption of part of each Note, the relevant Note or, if the Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such partial redemption .

For the avoidance of doubt, the outstanding Nominal Amount of each Note in respect of which no Credit Event Notice has been delivered during the Notice Delivery Period (and, if applicable, no Potential Repudiation/Moratorium or Potential Failure to Pay has occurred on or prior to the Scheduled Last Credit Event Occurrence Date), will be redeemed on the Scheduled Maturity Date.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "European Settlement":

1.3.1.4 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 shall apply to the Partial Redemption Amount ; and

1.3.1.5 for the avoidance of doubt the provisions of Condition 1.1 or Condition 1.2 shall apply to the Nominal Amount of each Note outstanding after reduction by such Partial Redemption Amount , in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity.

1.3.2 Basket Notes and Tranche Notes

(a) The Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Restructuring Notional Amount**) that is less than the Reference Entity Notional Amount of the relevant Reference Entity immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1.3 shall apply to the Partial Restructuring Notional Amount instead of the Reference Entity Notional Amount; and

(b) For the avoidance of doubt, following such Restructuring, the provisions of these Additional Terms and Conditions for Credit Linked Notes shall apply in respect of the relevant Reference Entity with such Reference Entity's Reference Entity Weighting being reduced by the ratio of the Partial Restructuring Notional Amount divided by the Reference Portfolio Notional Amount. In the event of the occurrence of further Restructurings with respect to such Reference Entity, the relevant Reference Entity Notional Amount will be further reduced by the relevant Partial Restructuring Notional Amount.

1.4 Multiple Successors

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is "Single Name Notes" and if "Multiple Successor(s)" is "Applicable" the following provisions shall apply:

Where, pursuant to the definition of **Successor** (see Condition 2 below), more than one Successor has been identified, each such Successor (a **Multiple Successor**) shall be a Reference Entity for the purposes of these Conditions, but only in respect of a principal amount of each Note equal to the Nominal Amount divided by the number of Multiple Successors to such Reference Entity (the **Multiple Successor Notional Amount**) as determined by the Calculation Agent (for the avoidance of doubt, without prejudice to the effect of the Principal Credit Factor on the redemption amount). Where Multiple Successors to such Reference Entity (each, a **Sub-Multiple Successor**) have been identified in respect of a Reference Entity (an **Original Multiple Successor**) that is itself a Multiple Successor, each such Sub-Multiple Successor shall be a Reference Entity for the purposes of these Conditions, but the Multiple Successor Notional Amount in respect of a Sub-Multiple Successor shall be equal to the Multiple Successor Notional Amount in respect of such Original Multiple Successor divided by the number of Sub-Multiple Successors to such Original Multiple Successor. Following the delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information, in respect of a Multiple Successor, the Notes will not be redeemed, in whole but an amount shall be deliverable or, as the case may be, payable in respect of each Note (an **Instalment Amount**) which amount shall be determined in the same manner, *mutatis mutandis*, as the Physical Delivery Amount or Cash Redemption Amount that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only. The date of delivery or payment, as the case may be, of any such Instalment Amount (an **Instalment Date**) shall be determined in the same manner, *mutatis mutandis*, as the Physical Settlement Date or Cash Redemption Date, that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity.

The provisions of Condition 1.2 shall apply, *mutatis mutandis*, to determine the amount of interest that would otherwise have been determined following the occurrence of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only.

More than one Instalment Amount may be delivered or payable on the same day in respect of different Multiple Successors, but not more than one Credit Event Notice may be delivered in relation to a single Multiple Successor unless a Restructuring occurs in relation to a Multiple Successor, in which case the provisions of Condition 1.3 will apply in respect of each such Multiple Successor. Upon the determination by the Calculation Agent of the identity of Multiple Successors, the Calculation Agent shall determine the modifications required to be made to these Conditions and any other related documents, to preserve substantially the economic effect for a Noteholder of a holding of the Notes and the Fiduciary shall use its reasonable endeavours to effect such modifications.

If the applicable Final Terms specify that the clause "Settlement Type" is "American Settlement":

Following delivery or payment of an Instalment Amount in respect of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount so redeemed and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Settlement Type" is "European Settlement":

Following the occurrence of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is "Single Name Notes" and if the clause "Multiple Successor(s)" is "Not Applicable" the following provisions shall apply:

(a) In case of Secured Notes,

If "Type of Notes" is "Secured Notes" in the applicable Final Terms, should more than one Successor succeed to the Reference Entity and a Credit Event occurs in respect of any one of them, the Notes will be redeemed in whole in accordance with the "Settlement Method" specified in the applicable Final Terms, as if the Type of Credit Linked Notes was specified as "First-to-Default Notes" in the applicable Final Terms.

For the avoidance of doubt, this Condition 1.4 will not apply to First-to-Default Notes, Basket Notes and Tranche Notes.

(b) In case of Repack Notes,

If "Type of Notes" is "Repack Notes" in the applicable Final Terms,

Should (i) more than one Successor succeeds to the Reference Entity and a Credit Event Determination Date occurs in respect of one of them, or should (ii) a Credit Event Determination Date occurs in respect of a Credit Event the Credit Event Notice specifies a Partial Redemption Amount that is less than the Specified Denomination,

then, the Notes will be redeemed in whole in accordance with the applicable Settlement Method and the Fiduciary will pay an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions.

1.5 Notification of Potential Failure to Pay

In the case of the occurrence of a Potential Failure to Pay, as determined by the Calculation Agent, the Fiduciary, or any entity acting on its behalf, shall use its reasonable endeavours to notify the Noteholders as soon as reasonably practical of such occurrence, pursuant to Condition 13 of the General Terms and Conditions.

1.6 Partial Redemption and Further Issues

Following any partial redemption of the Note (pursuant to Condition 6 of the General Terms and Conditions) or any further issue (pursuant to Condition 14 of the General Terms and Conditions), each of the following amounts will be multiplied by the ratio of (i) the number of Notes in circulation after such partial redemption, or further issue divided by (ii) the number of Notes in circulation just before such partial redemption, or further issue:

(C) for Tranche Notes, (i) the Aggregate Nominal Amount , (ii) the Reference Portfolio Notional Amount, (iii) the Aggregate Loss Amount, (iv) the Tranche Notional Amount and (v) the Tranche Subordination Amount.

If "*Subordinated European Insurance Terms*" is specified as "*Applicable*" in the applicable Final Terms, if a Deliverable Obligation would otherwise satisfy the Maximum Maturity Deliverable Obligation Characteristic, the existence of any Solvency Capital Provisions in the relevant Deliverable Obligation shall not cause such Deliverable Obligation to fail to satisfy such Deliverable Obligation Characteristic.

If "*Financial Reference Entity Terms*" and "*Governmental Intervention*" are specified as applicable in the applicable Final Terms, if an obligation would otherwise satisfy a particular Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Deliverable Obligation Characteristic.

Deliverable/Selected Obligation Accrued Interest means:

(ii) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation (A) is subject to any Prohibited Action or (B) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (I) payment or (II) a Permitted Contingency) (the amount determined in (i) less any amounts subtracted in accordance with (ii), the "**Non-Contingent Amount**"); and

(iii) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance.

in each case, determined;

(A) unless otherwise specified, in accordance with the terms of the obligation in effect on the date selected by the Calculation Agent by reference to any Hedge Positions; and

(B) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

If "Fallback Discounting" is specified as applicable in the applicable Final Terms, then notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under (iii)(B) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

(x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "Original Obligation(s)") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and

(y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a Noteholder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee.

(ii) if there is a Steps Plan, the Calculation Agent shall, for purposes of the determination required to be made under paragraph (A) of the definition of Successor make the appropriate adjustments required to take account of any Obligations of the Reference Entity which fall within the Obligation Category "Bond or Loan" that are issued, incurred, redeemed, repurchased or cancelled from and including the legally effective date of the first succession to and including the Succession Date;

(iii) if "*Financial Reference Entity Terms*" is specified as "*Applicable*" in the applicable Final Terms and the Notes are a Senior Transaction, the Relevant Obligations shall only include the Senior Obligations of the Reference Entity which fall within the Obligation Category "Bond or Loan"; and

(iv) if "*Financial Reference Entity Terms*" is specified as "*Applicable*" in the applicable Final Terms, and the Notes are a Subordinated Transaction, Relevant Obligations shall exclude Senior Obligations and any Further Subordinated Obligations of the Reference Entity which fall within the Obligation Category "Bond or Loan", provided that if no such Relevant Obligations exist, "*Relevant Obligations*" shall have the same meaning as it would if the Notes were a Senior Transaction.

Relevant Proportion means the proportion which one Note bears to the total number of Notes outstanding.

Repudiation/Moratorium means the occurrence of both of the following events: (i) an authorised officer of a Reference Entity or a Governmental Authority (a) disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, one or more Obligations in an aggregate amount of not less than the Default Requirement or (b) declares or imposes a moratorium, standstill, roll over or deferral, whether *de facto* or *de jure*, with respect to one or more Obligations in an aggregate amount of not less than the Default Requirement and (ii) a Failure to Pay, determined without regard to the Payment Requirement, or a Restructuring, determined without regard to the Default Requirement, with respect to any such Obligation occurs on or prior to the Repudiation/Moratorium Evaluation Date.

Repudiation/Moratorium Evaluation Date means, if a Potential Repudiation/Moratorium occurs on or prior to the Scheduled Last Credit Event Occurrence Date, (i) if the Obligations to which such Potential Repudiation/Moratorium relates include Bonds, the date that is the later of (A) the date that is 60 days after the date of such Potential Repudiation/Moratorium and (B) the first payment date under any such Bond after the date of such Potential Repudiation/Moratorium (or, if later, the expiration date of any applicable Grace Period in respect of such payment date) and (ii) if the Obligations to which such Potential Repudiation/Moratorium relates do not include Bonds, the date that is 60 days after the date of such Potential Repudiation/Moratorium; provided that, in either case, the Repudiation/Moratorium Evaluation Date shall occur no later than the Scheduled Maturity Date unless the Repudiation/Moratorium Extension Condition is satisfied.

Repudiation/Moratorium Extension Condition means a condition that is satisfied:

(a) if the DC Secretary publicly announces, pursuant to a valid request that was delivered and effectively received on or prior to the Scheduled Maturity Date that the relevant Credit Derivatives Determinations Committee has Resolved that an event that constitutes a Potential Repudiation/Moratorium has occurred with respect to an Obligation of the relevant Reference Entity and that such event occurred on or prior to the Scheduled Last Credit Event Occurrence Date, or

(b) otherwise, by the delivery of a Repudiation/Moratorium Extension Notice and unless Notice of Publicly Available Information is specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information by or on behalf of the Fiduciary to the Noteholders that is effective on or prior to the Scheduled Maturity Date.

In all cases, the Repudiation/Moratorium Extension Condition will be deemed not to have been satisfied, or not capable of being satisfied, if, or to the extent that, the DC Secretary publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved that either (i) an event does not constitute a Potential Repudiation/Moratorium with respect to an Obligation of the relevant Reference Entity or (ii) an event that constitutes a Potential Repudiation/Moratorium has occurred with respect to an Obligation of the relevant Reference Entity but that such event occurred after the Scheduled Last Credit Event Occurrence Date.

Repudiation/Moratorium Extension Notice means an irrevocable notice delivered by or on behalf of the Fiduciary to the Noteholders that describes a Potential Repudiation/Moratorium that occurred on or prior to the Scheduled Last Credit Event Occurrence Date. A Repudiation/Moratorium Extension Notice must contain a description in reasonable detail of the facts relevant to the determination that a Potential Repudiation/Moratorium has occurred and indicate the date of the occurrence. The Potential Repudiation/Moratorium that is the subject of the Repudiation/Moratorium Extension Notice need not be continuing on the date the Repudiation/Moratorium Extension Notice is effective. Unless Notice of Publicly Available Information is specified as "*Not Applicable*" in the applicable Final Terms, if a Repudiation/Moratorium Extension Notice contains Publicly Available Information, such Repudiation/Moratorium Extension Notice will also be deemed to be a Notice of Publicly Available Information.

Residual Cash Redemption Amount means, in relation to Basket Notes and Tranche Notes with respect to which one or more Unsettled Credit Event(s) has(ve) occurred, an amount payable on the Maturity Date representing the difference between the Cash Redemption Amount and the Preliminary Cash Redemption Amount.

Restructured Bond or Loan means an Obligation which is a Bond or Loan and in respect of which the relevant Restructuring has occurred.

Restructuring means that:

(a) with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, any one or more of the following events occurs in a form that binds all holders of such Obligation, is agreed between a Reference Entity or a Governmental Authority and a sufficient number of holders of such Obligation to bind all holders of the Obligation or is announced (or otherwise decreed) by a Reference Entity or a Governmental Authority in a form that binds all holders of such Obligation (including, in each case, in respect of Bonds only, by way of an exchange) and such event is not expressly provided for under the terms of such Obligation in effect as of the later of the First Credit Event Occurrence Date (or such other date determined by the Calculation Agent by reference to any Hedge Position) and the date as of which such Obligation is issued or incurred:

(1) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals (including by way of redenomination);

(2) a reduction in the amount of principal or premium payable at redemption (including by way of redenomination);

(3) a postponement or other deferral of a date or dates for either (a) the payment or accrual of interest, or (b) the payment of principal or premium;

(4) a change in the ranking in priority of payment of any Obligation, causing the Subordination of such Obligation to any other Obligation; or

(5) any change in the currency of any payment of interest, principal or premium to any currency other than the lawful currency of Canada, Japan, Switzerland, the United Kingdom and the United States and the euro and any successor currency to any of the aforementioned currencies (which in the case of the euro, shall mean the currency which succeeds to and replaces the euro in whole).

(b) Notwithstanding the provisions of paragraph (a) above, none of the following will constitute a Restructuring:

(1) the payment in euros of interest, principal or premium in relation to an Obligation denominated in a currency of a Member State of the European Union that adopts or has adopted the single currency in accordance with the Treaty establishing the European Community, as amended by the Treaty on European Union;

(2) the redenomination from euros into another currency, if (A) the redenomination occurs as a result of action taken by a Governmental Authority of a Member State of the European Union which is of general application in the jurisdiction of such Governmental Authority and (B) a freely available market rate of conversion between euros and such other currency existed at the

time of such redenomination and there is no reduction in the rate or amount of interest, principal or premium payable, as determined by reference to such freely available market rate of conversion;

(3) the occurrence of agreement to or announcement of any of the events described in paragraphs (a)(1) to (a)(5) above, due to an administrative adjustment, accounting adjustment or tax adjustment or other technical adjustment occurring in the ordinary course of business; and

(4) the occurrence of agreement to or announcement of any of the events described in paragraphs (a)(1) to (a)(5) above in circumstances where such event does not directly or indirectly result from a deterioration in the creditworthiness or financial condition of the Reference Entity, provided that in respect of paragraph (a)(5) above only, no such deterioration in the creditworthiness or financial condition of the Reference Entity is required where the redenomination is from euros into another currency and occurs as a result of action taken by a Governmental Authority of a Member State of the European Union which is of general application in the jurisdiction of such Governmental Authority.

(c) For the purposes of paragraphs (a) and (b) above and, unless Multiple Holder Obligation is specified as "Not Applicable" in the applicable Final Terms, paragraph (e) below and the definition of Multiple Holder Obligation, the term Obligation shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Guarantee. In the case of a Guarantee and an Underlying Obligation, references to the Reference Entity in paragraph (a) above shall be deemed to refer to the Underlying Obligor and the reference to the Reference Entity in paragraph (b) above shall continue to refer to the Reference Entity.

(d) If an exchange has occurred, the determination as to whether one of the events described under paragraphs (a)(1) to (a)(5) above has occurred will be based on a comparison of the terms of the Bond immediately prior to such exchange and the terms of the resulting obligations immediately following such exchange.

(e) Unless Multiple Holder Obligation is specified as "Not Applicable" in the applicable Final Terms, then, notwithstanding anything to the contrary in paragraphs (a), (b) and (c) above, the occurrence of, agreement to or announcement of any of the events described in paragraphs (a)(1) to (a)(5) above shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

Restructuring Date means the date on which a Restructuring is legally effective in accordance with the terms of the documentation governing such Restructuring.

Restructuring Maturity Limitation Date means, with respect to a [Deliverable]** [Selected]* Obligation, the Limitation Date occurring on or immediately following the Scheduled Maturity Date. (b) Either:

(1) In respect of Basket Notes, the product of the Principal Loss Factor and the aggregate of the Loss Amounts for all the Unsettled Credit Events (assuming a Final Value of zero in respect of each Unsettled Credit Event); or

(2) In respect of Tranche Notes, the amount by which the product of the Principal Loss Factor and the Aggregate Loss Amount on the Maturity Date (assuming a Final Value of zero in respect of each Unsettled Credit Event) would exceed the product of the Principal Loss Factor and the Aggregate Loss Amount immediately prior to the Scheduled Maturity Date.

replaced by the related Asset Package, and (i) such Asset Package shall be treated as having the same currency, Outstanding Principal Balance or Due and Payable Amount, as applicable, as the Prior Deliverable Obligation or Package Observable Bond to which it corresponds had immediately prior to the Asset Package Credit Event, and (ii) if the Asset Package is zero, the Final Price of such Asset Package shall be deemed to be zero,

in each case, (i) unless it is an Excluded Selected Obligation; and (ii) provided that the obligation has an Outstanding Principal Balance or Due and Payable Amount which is greater than zero (determined for the purposes of paragraph (d) above, immediately prior to the Asset Package Credit Event).

For purposes of assessing the applicability of Selected Obligation Characteristics and the requirements specified in the definition of Mod R and Mod Mod R to a Prior Deliverable Obligation or a Package Observable Bond, any such assessment shall be made by reference to the terms of the relevant Obligation in effect immediately prior to the Asset Package Credit Event.

If "*Subordinated European Insurance Terms*" is specified as "*Applicable*" in the applicable Final Terms, if a Selected Obligation would otherwise satisfy the Maximum Maturity Selected Obligation Characteristic, the existence of any Solvency Capital Provisions in the relevant Selected Obligation shall not cause such Selected Obligation to fail to satisfy such Selected Obligation Characteristic.

Where a Selected Obligation is denominated in a currency other than the Specified Currency of the Notes, the Calculation Agent will, where required, determine the Specified Currency equivalent of the Outstanding Principal Balance or Due and Payable Amount, as the case may be, in respect of that Selected Obligation by reference to the mid-point rate of conversion published by WM/Reuters at 4:00 pm (London time), or any successor rate source selected by the Calculation Agent on the Credit Valuation Date, or on such other date as determined by the Calculation Agent as appropriate by reference to any Hedge Positions and, if such rate is not available at such time, the Calculation Agent shall determine the rate at such time and by reference to such sources as it deems appropriate.

If "*Financial Reference Entity Terms*" and "*Governmental Intervention*" are specified as applicable in the applicable Final Terms, if an obligation would otherwise satisfy a particular Selected Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Selected Obligation Characteristic.

Subordination means, with respect to an obligation (the **Second Obligation**) and another obligation of the Reference Entity to which such obligation is being compared (the **First Obligation**), a contractual, trust or similar arrangement providing that (i) upon the liquidation, dissolution, reorganisation or winding-up of the Reference Entity, claims of the holders of the First Obligation are required to be satisfied prior to the claims of the holders of the Second Obligation or (ii) the holders of the Second Obligation will not be entitled to receive or retain payments in respect of their claims against the Reference Entity at any time that the Reference Entity is in payment arrears or is otherwise in default under the First Obligation. **Subordinated** will be construed accordingly. For the purposes of determining whether Subordination exists or whether an obligation is Subordinated with respect to another obligation to which it is being compared, (x) the existence of preferred creditors arising by operation of law or of collateral, credit support or other credit enhancement or security arrangements shall not be taken into account, except that, notwithstanding the foregoing, priorities arising by operation of law shall be taken into account where the Reference Entity is a Sovereign and (y) in the case of the Reference Obligation or the Prior Reference Obligation, as applicable, the ranking in priority of payment shall be determined as of the date as of which it was issued or incurred (or in circumstances where the Reference Obligation or a Prior Reference Obligation is the Standard Reference Obligation and "Standard Reference Obligation" is applicable, then the priority of payment of the Reference Obligation or the Prior Reference Obligation, as applicable, shall be determined as of the date of selection) and, in each case, shall not reflect any change to such ranking in priority of payment after such date.

Substitute Reference Obligation(s) means, with respect to a Non-Standard Reference Obligation to which a Substitution Event has occurred, the obligation that will replace the Non-Standard Reference Obligation, determined by the Calculation Agent as follows:

(a) The Calculation Agent shall identify the Substitute Reference Obligation in accordance with paragraph (c), (d) and (e) below to replace the Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an obligation as the Substitute Reference Obligation if, at the time of determination, such obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.

(b) If any of the events set forth under paragraph (i) or (iii) of the definition of Substitution Event have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" [Selected]* [Deliverable]** Obligation Characteristic and paragraph (c)(ii) below). If the event set forth in paragraph (ii) of the definition of Substitution Event has occurred with respect to the Non-Standard Reference Obligation and no Substitute Reference Obligation is available, the Non-Standard Reference Obligation will continue to be the Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set forth under paragraphs (i) or (ii) of the definition of Substitution Event occur with respect to such Non-Standard Reference Obligation.

(c) The Substitute Reference Obligation shall be an obligation that on the Substitution Date:

(i) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee);

(ii) satisfies the Not Subordinated [Selected]* [Deliverable]** Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and

(iii) (A) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:

(1) is a [Selected]* [Deliverable]** Obligation (other than a Loan) determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as "Not Applicable" in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*; or if no such obligation is available,

(B) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:

(1) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,

(2) is a [Selected]* [Deliverable]** Obligation (other than a Loan) determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as "Not Applicable" in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*; or if no such obligation is available,

(3) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan) or, if no such obligation is available,

(4) is a Loan (other than a Private-side Loan) which constitutes a [Selected]* [Deliverable]** Obligation determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as "Not Applicable" in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*; or

(C) if the Non-Standard Reference Obligation was a Loan which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:

(1) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,

(d) If more than one potential Substitute Reference Obligation is identified pursuant to the process described in paragraph (c) above, the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and payment obligations of the Fiduciary under the Notes, as determined by the Calculation Agent. The Substitute Reference Obligation will replace the Non-Standard Reference Obligation on such date as determined by the Calculation Agent by reference to any Hedge Positions, which is expected to be as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above. Information about the occurrence of a Substitute Reference Obligation with a description in reasonable detail of the facts relevant to the determination of the Substitute Reference Obligation, including the identity thereof and the date of substitution, may be requested at any time by the Noteholders at the specified office of the Calculation Agent (subject to proof of ownership of such Notes in a form acceptable to the Calculation Agent).

(e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

- (iii) for any reason, other than due to the existence or occurrence of a Credit Event, the Non Standard Reference Obligation is no longer an obligation of the Reference Entity (either directly or as provider of a guarantee).

For purposes of identification of a Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event.

If an event described in paragraph (i) or (ii) above has occurred on or prior to the Issue Date, then a Substitution Event shall be deemed to have occurred pursuant to paragraph (i) or (ii), as the case may be, on the Issue Date.

If a Substitution Event occurs in respect of the Reference Obligation in Reference Obligation Only Notes and unless Substitution Event Early Redemption is specified as *"Not Applicable"* in the applicable Final Terms, the Calculation Agent shall consider such event as an event triggering the early redemption of the Notes and the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions. Notice shall be given by or on behalf of the Fiduciary to the Noteholders informing them of the Substitution Event and the date scheduled for early redemption .

Successor means, in respect of a Reference Entity, the entity or entities, if any, determined as follows:

(a) subject to paragraph (c) below of this definition, the entity or entities, if any determined as follows:

(1) subject to paragraph (a)(7) below, if one entity succeeds, either directly or as a provider of a Relevant Guarantee, to seventy-five per cent. or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the succession.

(2) If only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than twenty-five per cent. (but less than seventy five per cent.) of the Relevant Obligations of the Reference Entity, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than twenty-five per cent. of the Relevant Obligations will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the succession.

(3) If more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent. of the Relevant

Obligations will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successors.

(4) If one or more entities each succeeds, either directly or as a provider of a Relevant Guarantee, to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity, and more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successors.

(5) If one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the terms of the Notes will not be changed in any way as a result of such succession.

(6) If one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor) and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such Successor(s) will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successor(s).

(7) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and either (A) the Reference Entity has ceased to exist or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, that entity (the "**Universal Successor**") will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the succession or as otherwise determined by the Calculation Agent by reference to Hedge Positions.

PROVIDED THAT, in the case of Basket Notes and Tranche Notes, if the resulting Successor of a Reference Entity affected by a succession, or as the case may be, one or more of the several resulting Successors of such Reference Entity is(are) another Reference Entity comprised in the Reference Portfolio at the legally effective date of the succession, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the succession as determined in accordance with paragraphs (a)(1), (a)(2), (a)(3), (a)(4), (a)(6) or (a)(7) above and the Reference Entity Weighting of such Successor in effect prior to the succession.

PROVIDED FURTHER THAT, in the case of Basket Notes and Tranche Notes, if two or more Reference Entities are affected by a succession resulting in at least one common Successor, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the succession as determined in accordance with paragraphs (a)(1), (a)(2), (a)(3), (a)(4), (a)(6) or (a)(7) above with respect to each Reference Entity in respect of which it is a Successor.

PROVIDED FURTHER THAT (for paragraph (a) above), if the applicable Final Terms specify that the clause "*N-to-M-to-Default*" is "*Applicable*" or in respect of First-to-Default Notes, the Calculation Agent will adjust the effect of any succession as necessary so that in all cases the number of Reference Entities in the Reference Portfolio will remain unchanged and if the applicable Final Terms specify that the clause "*N-to-M-to-Default*" is "*Applicable*", so that the Reference Entity Weighting will remain the same for all Reference Entities comprised in the Reference Portfolio, in particular:

(x) if the resulting Successor of a Reference Entity (the **Legacy Reference Entity**) affected by a succession is another Reference Entity comprised in the Reference Portfolio (the **Surviving Reference Entity**) at the legally effective date of the succession, the Calculation Agent acting in good faith shall select a new entity having an equivalent Rating (as defined below) or an equivalent credit risk (if no Rating is available) to the Legacy Reference Entity immediately prior to the occurrence of the succession; such new entity shall be deemed to have replaced the Legacy Reference Entity as Reference Entity effective on and from the date of the succession and if the applicable Final Terms specify that the clause "*N-to-M-to-Default*" is "*Applicable*", the Reference Entity Weighting of the Surviving Reference Entity shall remain the Reference Entity Weighting of the Surviving Reference Entity in effect prior to the succession and the Reference Entity Weighting of the entity having replaced the Legacy Reference Entity shall be equal to the Reference Entity Weighting of the Legacy Reference Entity prior to the succession; and

(y) if a succession would result in more than one Successor (the **Potential Successors**) to a Reference Entity either directly or as provider of a Relevant Guarantee, the Calculation Agent shall select only one entity (the **Chosen Successor**) among the Potential Successors to replace the Reference Entity; the Chosen Successor shall be deemed to have replaced the Reference Entity and if the applicable Final Terms specify that the clause "*N-to-M-to-Default*" is "*Applicable*", its Reference Entity Weighting shall be equal to the Reference Entity Weighting of the Reference Entity prior to the succession.

(b) The Calculation Agent will be responsible for determining with effect from the Succession Date any Successor or Successors under paragraph (a) above; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations. Information about the occurrence of a succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) pursuant to which one or more Successors to a Reference Entity can be determined, with reasonable detail of the facts relevant to the determination, pursuant to paragraph (a) of the definition of Successor, of the identity of any Successor(s), may be requested at any time by the Noteholders at the specified office of the Calculation Agent (subject to proof of ownership of such Notes in a form acceptable to the Calculation Agent), and will be notified as part of a notice of Potential Failure to Pay or a Repudiation/Moratorium Extension Notice or a Credit Event Notice (as the case may be) in respect of the relevant Reference Entity.

The Calculation Agent will make all calculations and determinations required to be made under this definition on the basis of Eligible Information.

In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a)(1) to (7) (inclusive) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions contemplated by such Steps Plan in aggregate as if forming part of a single succession.

(c) An entity may only be a Successor if:

For the purposes of this definition, **succeeded** and **succession** shall be construed accordingly.

(e) In the case of an exchange offer, the determination required pursuant to paragraph (a) above shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

(f) If two or more entities (each, a **Joint Potential Successor**) jointly succeed to one or more Relevant Obligations (collectively, the **Joint Relevant Obligations**) either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the relevant Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

in any case, it being understood that, in case of (A) or (B) above :

(a) such replacement or substitution shall affect only the provisions related to Reference Entity Spread; and

ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

The provisions of these Additional Terms and Conditions for Inflation Linked Notes apply if the applicable Final Terms specify that the clause "*Type of Structured Notes*" is "*Inflation Linked Notes*".

1. DEFINITIONS

Closing Price means the level of the Inflation Index for a Reference Period which is relevant to the calculation of a payment under the Notes.

Fallback Bond means a bond, if any, selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays an interest or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date, if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date, if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays an interest or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged). For the avoidance of doubt, if no bond defined in (a), (b) or (c) above is selected by the Calculation Agent, there will be no Fallback Bond.

Hedge Positions has the meaning given to it in the General Terms and Conditions of the Notes.

Index Sponsor means the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index on a regular basis.

Payment Date means any date on which a payment is due and payable pursuant to the terms of the Notes.

Reference Period means the time period for which the level of the Inflation Index was calculated and to which, as a result, such level of Inflation Index refers, regardless of when this level is published or announced. The time period may be, but is not limited to, a calendar year, a semester, a quarter or a month.

Substitute Index Level means an index level, determined by the Calculation Agent in accordance with Condition 2.1(a) below.

Successor Index has the meaning given to it in Condition 2.2 below.

2. ADJUSTMENTS AND EVENTS

2.1 Delay of Publication

(a) If the Closing Price is not published or announced by the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent will determine a **Substitute Index Level** (in place of such Closing Price) by using the following methodology:

(i) if applicable, the Calculation Agent shall take the same action to determine the Substitute Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond;

(ii) if (i) above does not result in a Substitute Index Level for such Payment Date for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

$$\text{Substitute Index level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

Where:

Base Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the time period which is 12 calendar months prior to the time period for which the Substitute Index Level is being determined;

Latest Level means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period in respect of which the Substitute Index Level is being calculated; and

Reference Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period that is 12 calendar months prior to the time period referred to in "Latest Level" above.

(b) If a Closing Price is published or announced at any time after the day that is five Business Days prior to the next following Payment Date under the Notes, such Closing Price will not be used in any calculations. The Substitute Index Level so determined pursuant to the paragraph (a) above will be the definitive level for that Reference Period.

If the Calculation Agent determines a Substitute Index Level in accordance with this Condition 2.1, the Calculation Agent may make any adjustment or adjustments (without limitation) to (x) the Substitute Index Level determined in accordance with this Condition 2.1 and/or (y) any amount payable under the Notes and/or any other relevant term of the Notes, in each case, as the Calculation Agent deems necessary.

Provided however that:

- all references to the word "five" in (a) and (b) above shall be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 2, **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

2.2 Cessation of Publication

If the Calculation Agent determines that the level of an Inflation Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index and/or the Index Sponsor cancels the Inflation Index, then the Calculation Agent shall determine a successor index (a **Successor Index**) (in lieu of any previously applicable Inflation Index) for the purposes of the Notes as follows:

(i) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond, such successor index shall be designated a Successor Index for the purposes of all subsequent Payment Dates in relation to the Notes, notwithstanding that any other Successor Index may previously have been determined under paragraphs (ii), (iii) or (iv) below;

(ii) if a Successor Index has not been determined under paragraph (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Notes from the date that such replacement index comes into effect;

(iii) if a Successor Index has not been determined under paragraphs (i) or (ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If fewer than three responses are received, the Calculation Agent will proceed to paragraph (iv) hereof;

(iv) if no Successor Index has been determined under paragraphs (i), (ii) and (iii) above by the fifth Business Day prior to the next following Payment Date under the Notes, the Calculation Agent will determine an appropriate alternative index for such date, acting in good faith and in a commercially reasonable manner, and such index will be deemed the "Successor Index";

Provided however that:

- all references to the word "fifth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System; and

(v) if the Calculation Agent determines that no alternative index is appropriate, the Calculation Agent shall:

(a) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay to each Noteholder an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions of the Notes; or

(b) apply "Monetisation until the Maturity Date" (as defined in Condition 6.5 of the General Terms and Conditions).

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Inflation Index for the purposes of the Notes.

If a Successor Index is determined in accordance with this Condition 2.2, the Calculation Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems necessary.

2.3 Rebasing of the Inflation Index

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the **Rebased Index**) will be used for purposes of determining the Closing Price from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Fallback Bond, if any, to the level of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as

the Inflation Index before it was rebased. If there is no Fallback Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.

2.4 Material Modification Prior to Payment Date

If, on or prior to the day that is five Business Days prior to the next following Payment Date under the Notes, the Index Sponsor announces that it will make a material change to the Inflation Index, then the Calculation Agent, acting in good faith and in a commercially reasonable manner, shall make any such adjustments to the Inflation Index consistent with adjustments made to the Fallback Bond, or, if there is no Fallback Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index.

Provided however that:

- all references to the word "five" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

2.5 Manifest Error in Publication

If, within the earlier of (i) 30 days of publication, and (ii) the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent determines that the Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may make any adjustment to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction.

Provided however that:

- all references to the word "five" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

A. Calculation and/or Publication Disruption means the occurrence of an event, beyond the control of a Hypothetical Investor (including in case of any gate, deferral, suspension or other provisions in the ETP Documents permitting the ETP Issuer to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official ETP Value by the ETP Issuer (or the ETP advisor or agent generally in charge of calculating such official ETP Value); or

B. ETP Settlement Disruption means a failure by the ETP Issuer to pay in cash the full amount of the redemption proceeds on the date by which the ETP Issuer was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the restriction on the amount or number of redemptions orders that the ETP Issuer (or the ETP advisor or agent generally in charge of accepting redemption orders) will accept in relation to a single date on which the ETP Issuer normally accepts redemption orders (a gate), (b) the suspension for any reason of the subscription or redemption orders by the ETP Issuer (or the ETP advisor or agent generally in charge of accepting subscription and redemption orders);

C. ETP Determination Disruption Event means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in "Calculation and/or Publication Disruption" in (A) above or "ETP Settlement Disruption" in (B) above affecting such ETP which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date, in respect of the ETP affected by such Disruption Event, shall be postponed to the immediately following Business Day (as specified to be applicable in relation to such Valuation Date in the applicable Final Terms) that is no longer affected by a Disruption Event for such affected ETP.

If a Disruption Event has occurred or is continuing on each of the five scheduled Business Days, following the Scheduled Valuation Date or if no Business Day, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date, then the Calculation Agent may either:

X. (a) determine its good faith estimate of the ETP Value which shall be deemed to be the Closing Price in respect of such Valuation Date provided that if the Calculation Agent decides to make such determination, the Valuation Date shall occur no later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of such determination ; or

(ii) only in case of ETP Settlement Disruption,

(a) consider such event as an Early Redemption Event and may decide to pay, in full or in part, the Early Redemption Amount by the delivery of the ETP in lieu of its obligations to pay the Early Redemption Amount in cash; or (b) if Liquidity Modification or ETP Settlement Disruption is continuing on the last Valuation Date and the Calculation Agent did not consider such event as an Early Redemption Event may decide to pay, in full or in part, the Final Redemption Amount by the delivery of the ETP in lieu of its obligations to pay the Final Redemption Amount in cash; or

Y. consider such Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis

of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value of the ETP so calculated shall be deemed the Closing Price,

provided however that:

all references to the word "fourth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 3.3, **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

3.1.1 Potential Adjustment Events

Following the occurrence of any Potential Adjustment Event, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Future and, if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the Future used to determine any settlement or payment terms under the Notes and/or adjust any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes (subject to any Local Taxes to be withheld or paid as explained below) and (b) determine the effective date of that adjustment. In its determination of the existence and extent of any dilutive or concentrative effect on the theoretical value of the Future of any Potential Adjustment Event, and any related adjustments to the terms of the Notes, the Calculation Agent shall take into account any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred in connection with such Potential Adjustment Event. If relevant, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange (if any) to options on the Future or the Future Underlier (if any) traded on such Related Exchange (if any).

Potential Adjustment Event means, in relation to a Future, any event having, in the reasonable opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of such Future and which is not anticipated in terms of such Future as at the Issue Date of the Notes or the occurrence of which is not scheduled to occur.

Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions, or

(b) substitute the Affected Future with another instrument (which shall then become a substitute Future) provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes (subject to any taxes to be withhold or paid); or

(c) apply "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions.

2. DETERMINATION OF THE PORTFOLIO LEVEL

2.1 Portfolio Level

The Portfolio Level (**PL(t)**) is, in respect of any Calculation Date (t), determined by the Calculation Agent, subject to the occurrence or existence of a Portfolio Disruption Event, in accordance with the following formula:

$$\text{PL}(t) = (\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) - \text{ReplicationFeeCost}(t) - \text{TC}(t-1,t)$$

Where:

$\text{PL}(0)$ means the initial level of the Portfolio as of Calculation Date (0), as specified in the applicable Final Terms or, if no such level is specified, the Specified Denomination.

And with

- If Crash Put Costs Calculation is specified as applicable in the applicable Final Terms:

$\text{ReplicationFeeCost}(t)$ means $(\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) \times \text{CPC}(t-1) \times \text{ACT}(t-1,t) / \text{TimeBasis}$

- Otherwise, if Crash Put Costs Calculation is not specified or is specified as not applicable in the applicable Final Terms:

ReplicationFeeCost(t) = 0

Where

If Weight Reset is specified as applicable in the applicable Final Terms and Calculation Date (t) is a Weight Reset Date:

$$TC(t-1,t) = \text{Sum}(k \text{ from } 1 \text{ to } TNPC(t-1,t)) (Abs(Q(k,t) - Q(k,t-1) \times \text{AdjustmentFactor}(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t) \times TCR(k,t))$$

2.2 Performance

The performance component is determined by the Calculation Agent in accordance with the following formula:

$$\text{Perf}(t-1,t) = \text{Perf_Component}(t-1,t) - \text{Perf_FX}(t-1,t) + \text{DivBucket}(t)$$

Where:

$$\text{Perf_Component}(t-1,t) = \text{Sum}(k \text{ from } 1 \text{ to } NPC(t-1)) (Q(k,t-1) \times (\text{AdjustmentFactor}(k,t) \times \text{PortfolioFX}(k,t) \times S(k,t) - \text{PortfolioFX}(k,t-1) \times S(k,t-1) \times (1 - \text{RepoRate}(k,t-1) \times \text{Act}(t-1,t) / \text{TimeBasis})))$$

Only if Excess Return is specified as applicable in the applicable Final Terms:

$$\text{Fin}(t-1,t) = - \text{Fin_Underlying}(t-1,t) - \text{Fin_ForexStrat}(t-1,t)$$

If Excess Return is not specified or is specified as not applicable in the applicable Final Terms:

$$\text{Fin}(t-1,t) = \text{PL}(t-1) \times \text{ERate}(t-1) \times \text{ACT}(t-1,t) / \text{TimeBasis} - \text{Fin_Underlying}(t-1,t) - \text{Fin_ForexStrat}(t-1,t)$$

In each case, where:

$$\text{Fin_Underlying}(t-1,t) = \text{Sum}(k \text{ from } 1 \text{ to } NPC(t-1)) (Q(k,t-1) \times \text{PortfolioFX}(k,t-1) \times S(k,t-1) \times \text{IsFunded}(k) \times \text{ERate}(k,t-1) \times \text{Act}(t-1,t) / \text{TimeBasis})$$

If Excess Return is not specified or is specified as not applicable in the applicable Final Terms:

If Portfolio Ccy Cash Positions Netting is not specified or is specified as not applicable in the Final Terms:

$$ERate(t-1) = RateLong(t-1)$$

If $Q(k,t-1) \geq 0$ then: $ERate(k,t-1) = RateLong(t-1)$

If $Q(k,t-1) < 0$ then:

$$ERate(k,t-1) = RateShort(t-1)$$

Only if Portfolio Ccy Cash Positions Netting is specified as applicable in the applicable Final Terms:

If:

$$PL(t-1) - \sum(k \text{ from } 1 \text{ to } NPC(t-1)) ((FXRatio(k, t-1)) \times (1 - FXHedgeInd(k)) \times IsFunded(k) \times Q(k,t-1) \times PortfolioFX(k,t-1) \times S(k,t-1)) \geq 0$$

then:

$$ERate(t-1) = RateLong(t-1) \text{ and } ERate(k, t-1) = RateLong(t-1)$$

Else:

$$ERate(t-1) = RateShort(t-1) \text{ and } ERate(k, t-1) = RateShort(t-1)$$

Only if Excess Return is specified as applicable in the applicable Final Terms

If $Q(k,t-1) \geq 0$ then

$$ERate(k,t-1) = RateLong(t-1)$$

If $Q(k,t-1) < 0$ then

$$ERate(k,t-1) = RateShort(t-1)$$

Each **Rate(k,t-1)** is determined in accordance with the following:

If $Q(k,t-1) \geq 0$ then: $Rate(k,t-1) = RateShort(k,t-1)$

If $Q(k,t-1) < 0$ then: $Rate(k,t-1) = RateLong(k,t-1)$

2.4 Computation of the quantities $Q(k,t)$

For each Calculation Date (t) and Portfolio Component (k), and subject to any adjustment determined by the Calculation Agent pursuant to a Portfolio Extraordinary Event or a Portfolio Disruption Event $Q(k,t)$ shall be determined in accordance with the following formula:

- If Weight Reset is specified as applicable and Calculation Date (t) is a Weight Reset Date :

$$Q(k,t) = PL(t-1) \times InitialWeight(k) / (S(k,t-1) \times PortfolioFX(k,t-1))$$

- Otherwise

$$Q(k,t) = Q(k,t-1) \times AdjustmentFactor(k,t) \times ReweightFactor(k,t)$$

Where:

unless specified otherwise in the applicable Final Terms:

$$Q(k,0) = PL(0) \times InitialWeight(k) / (S(k,0) \times PortfolioFX(k,0))$$

And

ReweightFactor(k,t) is determined as follows on each Calculation Date (t) and in respect of each Portfolio Component (k):

If $Q(k,t-1) \geq 0$ then

$$ReweightFactor(k,t) = ReweightFactorLong(t)$$

If $Q(k,t-1) < 0$ then

$\text{ReweightFactor}(k,t) = \text{ReweightFactorShort}(t)$

ReweightFactorLong(t) is determined as follows on each Calculation Date (t):

If:

$\text{EffectiveGearingLong}(t-\text{Lag}) > \text{GearingSupLong}$

Or if:

$\text{EffectiveGearingLong}(t-\text{Lag}) < \text{GearingInfLong}$

Or if:

t is a Restriking Date

Or if:

Simultaneous Long and Short Restrikes is specified as Applicable in the applicable Final Terms

And:

Either :

$\text{EffectiveGearingShort}(t-\text{Lag}) > \text{GearingSupShort}$

Or :

$\text{EffectiveGearingShort}(t-\text{Lag}) < \text{GearingInfShort}$

Or :

$\text{EffectiveGearingLong}(t-\text{Lag}) + \text{EffectiveGearingShort}(t-\text{Lag}) > \text{GrossGearingSup}$

Then:

$\text{ReweightFactorLong}(t) = \text{TargetGearingLong}(t) \times 2 \times (\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) / (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-1)) + Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)))$

Else:

$\text{ReweightFactorLong}(t)=1$

For the avoidance of doubt, if neither GearingInfLong nor GearingSupLong nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then $\text{ReweightFactorLong}(t)$ shall always be set to 1.

ReweightFactorShort(t) is determined as follows on each Calculation Date (t):

If:

$\text{EffectiveGearingShort}(t-\text{Lag}) > \text{GearingSupShort}$

Or if:

$\text{EffectiveGearingShort}(t-\text{Lag}) < \text{GearingInfShort}$

Or if:

t is a Restriking Date

Or if:

Simultaneous Long and Short Restrikes is specified as Applicable in the applicable Final Terms

And:

Either:

EffectiveGearingLong(t-Lag) > GearingSupLong

Or:

EffectiveGearingLong(t-Lag) < GearingInfLong

Or:

EffectiveGearingLong(t-Lag) + EffectiveGearingShort(t-Lag) > GrossGearingSup

Then:

$$\text{ReweightFactorShort}(t) = \text{TargetGearingShort}(t) \times 2 \times (\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) / (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-1)) - Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)))$$

Else:

$$\text{ReweightFactorShort}(t) = 1$$

For the avoidance of doubt, if neither GearingInfShort nor GearingSupShort nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then ReweightFactorShort(t) shall always be set to 1.

EffectiveGearingLong(t-Lag) is determined in accordance with the following

$$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-\text{Lag})) + Q(k,t-\text{Lag})) \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})) / (2 \times \text{PL}(t-\text{Lag})))$$

EffectiveGearingShort(t-Lag) is determined in accordance with the following

$$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-\text{Lag})) - Q(k,t-\text{Lag})) \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})) / (2 \times \text{PL}(t-\text{Lag})))$$

AdjustmentFactor(k,t) and **DivBucket(t)** are determined in accordance with the following on each Calculation Date (t) and in respect of each Portfolio Component (k):

If Reinvestment Method is set to Individual Components or if no Reinvestment Method is specified in the applicable Final Terms:

$$\text{AdjustmentFactor}(k,t) = 1 + (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t)) / (S(k,t-1) - \text{PortfolioDist}(k,t))$$

And DivBucket(t) = 0

If Reinvestment Method is set to Portfolio in the applicable Final Terms:

$$\text{AdjustmentFactor}(k,t) = 1 + (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 \times (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times \text{DistRate}(j,t) \times \text{PortfolioDist}(j,t))) / (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 \times (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times S(j,t-1)))$$

And DivBucket(t) = 0

If Reinvestment Method is set to Cash Bucket in the applicable Final Terms:

$$\text{AdjustmentFactor}(k,t) = 1$$

And

$$\text{DivBucket}(t) = \text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t) \times Q(k,t-1) \times \text{PortfolioFX}(k,t-1))$$

3.2 Amendments to Condition 2

The following amendments are made to Condition 2 above for the purpose of determining the Portfolio Level of the Portfolio.

3.2.1 Amendments to Condition 2.1

The formula used to determine the Portfolio Level is replaced with the following:

$$PL(t) = PL(t-1) + Perf(t-1,t) + Fin(t-1,t) - TC(t-1,t)$$

Where:

PL(0) means the initial level of the Portfolio as of Calculation Date (0), as specified in the applicable Final Terms or, if no such level is specified, the Specified Denomination.

$$TC(t-1,t) = \text{Sum}(k \text{ from } 1 \text{ to } TNPC(t-1,t)) (\text{Abs}(Q(k,t) - Q(k,t-1)) \times \text{AdjustmentFactor}(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t) \times TCR(k,t)$$

TCR(k,t) means in respect of Calculation Date (t) and Portfolio Component (k) the transaction cost of such Portfolio Component (k), as specified in the applicable Final Terms or, if no such level is specified, the transaction cost is determined in accordance with the following:

$$\text{Where } TCR(k,t) = \text{ExecCostRate}(k,t) + \text{ExecAddOnRate}(k,t)$$

And ExecCostRate(k,t) is determined in accordance with the following:

If $Q(k,t) \geq Q(k,t-1) \times \text{AdjustmentFactor}(k,t)$ then $\text{ExecCostRate}(k,t) = \text{ExecCostRateIn}(k,t)$

If $Q(k,t) < Q(k,t-1) \times \text{AdjustmentFactor}(k,t)$ then $\text{ExecCostRate}(k,t) = \text{ExecCostRateOut}(k,t)$

3.2.2 Amendments to Condition 2.4

Condition 2.4 is deleted in its entirety and replaced with the following:

For each Calculation Date (t) and Portfolio Component (k), and subject to any adjustment determined by the Calculation Agent pursuant to a Portfolio Extraordinary Event or a Portfolio Disruption Event Q(k,t) shall be determined by the Calculation Agent in accordance with the following formulae:

If there is no Modification Proposal with a Rebalancing Date on Calculation Date (t)

- If Weight Reset is specified as applicable in the applicable Final Terms and Calculation Date is a Weight Reset Date:

$$Q(k,t) = PL(t-1) \times \text{InitialWeight}(k) / (S(k,t-1) \times \text{PortfolioFX}(k,t-1))$$

- Otherwise

$$Q(k,t) = Q(k,t-1) \times \text{AdjustmentFactor}(k,t) \times \text{ReweightFactor}(k,t)$$

Where:

unless specified otherwise in the applicable Final Terms:

$$Q(k,0) = PL(0) \times \text{InitialWeight}(k) / (S(k,0) \times \text{PortfolioFX}(k,0))$$

ReweightFactor(k,t) is determined as follows on each Calculation Date (t) and in respect of each Portfolio Component (k):

If $Q(k,t-1) \geq 0$ then

$$\text{ReweightFactor}(k,t) = \text{ReweightFactorLong}(t)$$

If $Q(k,t-1) < 0$ then

$$\text{ReweightFactor}(k,t) = \text{ReweightFactorShort}(t)$$

ReweightFactorLong(t) is determined as follows on each Calculation Date (t):

If:

$$\text{EffectiveGearingLong}(t-\text{Lag}) > \text{GearingSupLong}$$

Or if:

$$\text{EffectiveGearingLong}(t-\text{Lag}) < \text{GearingInfLong}$$

Or if:

t is a Restriking Date

Or if:

Simultaneous Long and Short Restrikes is specified as Applicable in the applicable Final Terms

And:

Either:

$$\text{EffectiveGearingShort}(t-\text{Lag}) > \text{GearingSupShort}$$

Or:

$$\text{EffectiveGearingShort}(t-\text{Lag}) < \text{GearingInfShort}$$

Or:

$$\text{EffectiveGearingLong}(t-\text{Lag}) + \text{EffectiveGearingShort}(t-\text{Lag}) > \text{GrossGearingSup}$$

Then:

$$\text{ReweightFactorLong}(t) = \text{TargetGearingLong}(t) \times 2 \times (\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) / (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) ((\text{Abs}(Q(k,t-1)) + Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)))$$

Else:

$$\text{ReweightFactorLong}(t) = 1$$

For the avoidance of doubt, if neither GearingInfLong nor GearingSupLong nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then ReweightFactorLong(t) shall always be set to 1.

ReweightFactorShort(t) is determined as follows on each Calculation Date (t):

If:

$$\text{EffectiveGearingShort}(t-\text{Lag}) > \text{GearingSupShort}$$

Or if:

$$\text{EffectiveGearingShort}(t-\text{Lag}) < \text{GearingInfShort}$$

Or if:

t is a Restriking Date

Or if:

Simultaneous Long and Short Restrikes is specified as Applicable in the applicable Final Terms

And:

Either:

$$\text{EffectiveGearingLong}(t-\text{Lag}) > \text{GearingSupLong}$$

Or:

$$\text{EffectiveGearingLong}(t-\text{Lag}) < \text{GearingInfLong}$$

Or:

$\text{EffectiveGearingLong}(t-\text{Lag}) + \text{EffectiveGearingShort}(t-\text{Lag}) > \text{GrossGearingSup}$

Then:

$\text{ReweightFactorShort}(t) = \text{TargetGearingShort}(t) \times 2 \times (\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) / (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) ((\text{Abs}(Q(k,t-1)) - Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)))$

Else:

$\text{ReweightFactorShort}(t)=1$

For the avoidance of doubt, if neither GearingInfShort nor GearingSupShort nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then $\text{ReweightFactorShort}(t)$ shall always be set to 1.

EffectiveGearingLong(t-Lag) is determined in accordance with the following:

$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-\text{Lag})) + Q(k,t-\text{Lag})) \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})) / (2 \times \text{PL}(t-\text{Lag}))$

EffectiveGearingShort(t-Lag) is determined in accordance with the following:

$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-\text{Lag})) - Q(k,t-\text{Lag})) \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})) / (2 \times \text{PL}(t-\text{Lag}))$

AdjustmentFactor(k,t) and **DivBucket(t)** are determined in accordance with the following on each Calculation Date (t) and in respect of each Portfolio Component (k):

- If Reinvestment Method is set to Individual Components or if no Reinvestment Method is specified in the applicable Final Terms:

$\text{AdjustmentFactor}(k,t) = 1 + (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t)) / (S(k,t-1) - \text{PortfolioDist}(k,t))$

And $\text{DivBucket}(t) = 0$

- If Reinvestment Method is set to Portfolio in the applicable Final Terms:

$\text{AdjustmentFactor}(k,t) = 1 + (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 \times (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times \text{DistRate}(j,t) \times \text{PortfolioDist}(j,t))) / (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 \times (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times S(j,t-1)))$

And $\text{DivBucket}(t) = 0$

- If Reinvestment Method is set to Cash Bucket in the applicable Final Terms:

$\text{AdjustmentFactor}(k,t) = 1$

And $\text{DivBucket}(t) = \text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t) \times Q(k,t-1) \times \text{PortfolioFX}(k,t-1))$

If there are one or more Modification Proposal(s) affecting Portfolio Component (k) with a Rebalancing Date on Calculation Date (t):

Unless communicated by the Weighting Advisor in accordance with Condition 3.3, $Q(k,t)$ is determined according with the below formula:

$Q(k,t) = \text{PL}(t-\text{RLag}) \times \text{RebalWeight}(k) / (S(k,t-\text{RLag}) \times \text{PortfolioFX}(k,t-\text{RLag}))$

Where:

$\text{RebalWeight}(t)$ is providing by the Weighting Advisor in accordance with Condition 3.3;

RLag means the maximum between (i) 1 and (ii) the Rebalancing Lag.

3.3 Re-Weighting of Dynamic Portfolio composition

3.3.1 The Weighting Advisor may on each Review Date propose to the Calculation Agent a modification to the Portfolio, subject to the Portfolio remaining in compliance with each and every Applicable Portfolio Eligibility Criteria.

The Weighting Advisor will be entitled to make modification proposals in relation to:

(i) the quantity or the weight of any Portfolio Component (k) in the Portfolio;

(ii) the inclusion of one or several new Portfolio Component (k) in the Portfolio;

(iii) the removal of one of several Portfolio Component (k) from Portfolio;

(iv) the Reference Price of any Portfolio Component(k) in the Portfolio and

- If such Reference Price is VWAP, the Weighting Advisor will be entitled to make modification proposals in relation to the VWAP Start Time and the VWAP End Time of any Portfolio Component (k),

- If such Reference Price is TWAP, the Weighting Advisor will be entitled to make modification proposals in relation to the TWAP Start Time and the TWAP End Time of any Portfolio Component (k), or

(v) any combination thereof.

(each a **Modification Proposal**, together the **Modification Proposals**) in accordance with the procedure described in Condition 3.4 (the **Re-Weighting Procedure**). For the avoidance of doubt, any $Q(k,t)$ may be equal to 0 in which case the Portfolio Component shall be deemed to be removed from the Portfolio. It is understood that it is under the responsibility of the Weighting Advisor to ensure that any Modification Proposal complies with the Portfolio Eligibility Criteria and that, subject to Condition 3.3.2, neither the Fiduciary nor the Calculation Agent will influence a Modification Proposal.

In addition, when submitting a Modification Proposal, the Weighting Advisor shall provide (i) all necessary details required to implement such Modification Proposal and (ii) the Modification Trigger(s) applicable to such Modification Proposal.

3.3.2 Under normal market conditions, the Calculation Agent shall implement the Modification Proposals relating to the Portfolio unless the Calculation Agent determines:

(i) the proposed Modification Proposal would breach or cause a breach of any provision of the Weighting Advisory Agreement, any applicable law, regulations or risk or compliance guidelines and policy of the Fiduciary or the Calculation Agent; or in the context of Portfolio Components being equity stocks only, would not comply with SG Group Restricted List or Restricted List; or

(ii) the Weighting Advisor fails to comply with the General Terms and Conditions of the Notes, and in particular the Modification Proposal is in breach of any Applicable Portfolio Eligibility Criteria set out in the applicable Final Terms; or

(iii) the information provided by the Weighting Advisor in relation to a proposed Modification Proposal is incomplete, in particular it does not include parameters which are necessary to implement the proposed Modification Proposal, including but not limited to the applicable Modification Trigger and information necessary to identify each Portfolio Component or elements necessary to determine the quantity of each Portfolio Component; or

(iv) the Fiduciary's or any of its affiliate's ability to hedge its exposure under the Notes would be materially affected by the implementation of the Modification Proposal or such Modification Proposal would increase the cost of hedging the Notes, including but not limited to (i) as a result of a change in law or regulation, (ii) the imposition of taxes, stamp duties, financial transaction tax or any other tax or levy having a similar effect or (iii) in case the Calculation Agent determines in good faith and in a commercially reasonable manner that the liquidity of the Portfolio Component affected by such Modification Proposal is not sufficient for the Fiduciary, the Calculation Agent or any of their affiliates, to implement such Modification Proposal; or

(v) a case of Force Majeure Event affecting the Notes, the Fiduciary, the Calculation Agent or the Weighting Advisor has occurred and is continuing.

"Restricted List" means any internal policies or restricted lists determined internally whether voluntarily or mandatorily by SG or produced by a third party and used by SG for, among other purposes, determining the eligibility of Portfolio Components, and/or sanctions or other policies not otherwise included as an SG Group Policy or as part of an SG Group Restricted list.

The Weighting Advisor will be entitled to make modification proposals in relation to:

- (i) the value of TargetGearingLong;
- (ii) the value of TargetGearingShort;

(each a **Target Exposure Modification Proposal**, together the **Target Exposure Modification Proposals**) in accordance with the procedure described in Condition 3.7 (the **Change in Target Gearings Procedure**). It is understood that neither the Fiduciary nor the Calculation Agent will influence a Target Exposure Modification Proposal.

In addition, when submitting a Target Exposure Modification Proposal, the Weighting Advisor shall provide (i) all necessary details required to implement such Target Exposure Modification Proposal and (ii) the Target Exposure Modification Trigger(s) applicable to such Target Exposure Modification Proposal.

- (i) the proposed Target Exposure Modification would breach or cause a breach of any provision of the Weighting Advisory Agreement, any applicable law, regulations or risk or compliance guidelines and policy of the Fiduciary or the Calculation Agent; or
- (ii) the Weighting Advisor fails to comply with the General Terms and Conditions of the Notes; or

Any request received on a Review Date after the Communication Deadline shall be deemed to be received on the immediately subsequent Review Date.

3.8 Effect of Termination of Weighting Advisory Agreement

If the Weighting Advisory Agreement is terminated prior to the Maturity Date (or, in case of open-ended Notes, the last Optional Redemption Date), the Calculation Agent may:

(i) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid, an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Condition or

(ii) apply "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions; or

name a substitute Weighting Advisor (the "**Substitute Weighting Advisor**"), suitable to the Calculation Agent, that will take over the obligations of the existing Weighting Advisor, as soon as possible after the occurrence of the Termination of the Weighting Advisory Agreement and no later than one month after the Termination of the Weighting Advisory Agreement. If the substitute Weighting Advisory Agreement is not signed at the same time as the Weighting Advisory Agreement is terminated, the Portfolio Components will keep the same weightings as those on the date of Termination of the Weighting Advisory Agreement. If no such Substitute Weighting Advisor is named up to one month after the Termination of the Weighting Advisory Agreement, the Calculation Agent may apply either (i) or (ii) above.

4. CONSEQUENCES OF DISRUPTED DAYS FOR VALUATION DATES OR AVERAGING DATES

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date or the Scheduled Averaging Date**) is a Disrupted Day for a Portfolio, then the Valuation Date or Averaging Date for such Portfolio shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day in respect of that Portfolio, unless each of the eight Scheduled Calculation Dates immediately following the Scheduled Valuation Date or Averaging Date is a Disrupted Day. In that case:

A. the eighth Scheduled Calculation Date shall be deemed to be the Valuation Date or Averaging Date, notwithstanding the fact that such day is a Disrupted Day; and

B. the Calculation Agent shall determine the level of the Portfolio on that eighth Scheduled Calculation Date in accordance with the formula for and method of calculating that Portfolio last in effect prior to the occurrence of the first Disrupted Day;

provided that if the Portfolio is included in a Basket, the hereabove provisions shall apply only to the Portfolio affected by the occurrence of a Disrupted Day and the Valuation Date or Averaging Date for each other underlying comprised in the Basket and not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date;

provided however that:

a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Calculation Date that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Calculation Date following the Scheduled Averaging Date a Scheduled Calculation Date that is not a Disrupted Day

nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Calculation Date shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Calculation Date is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (B) above, and the good faith estimate of the level of the Portfolio so calculated shall be deemed the Closing Price; and

b) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date. If a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest on such fourth Business Day and the good faith estimate of the level of the Portfolio so calculated shall be deemed the Portfolio Level,

provided however that, all references to the word "fourth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 4, Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

5. ADJUSTMENTS, EVENTS, MONETISATION UNTIL THE MATURITY DATE, HEDGING DISRUPTION, INCREASED COST OF HEDGING, INCREASED COST OF BORROW, LOSS OF BORROW, CHANGE IN LAW CHINA CONNECT SHARE DISQUALIFICATION, CHINA CONNECT SERVICE TERMINATION, HOLDING LIMIT EVENTS AND CONSEQUENCES

5.1 Stop-Loss Event relating to a Portfolio

If, on any Calculation Date after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Portfolio Level of a Portfolio is affected by a decrease of 80 per cent. or more of its Portfolio Level on the initial Valuation Date (the **Affected Portfolio** and the event, the **Stop-Loss Event**), then the Calculation Agent may decide to:

A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions (but such paragraph A. shall not apply to Notes to be listed on the Italian Stock Exchange (Borsa Italiana S.p.A.));

B. continue the Notes according to their terms.

5.2 Hedging Disruption, Increased Cost of Hedging, Increased Cost of Borrow, Loss of Borrow and consequences

Hedging Disruption means, in respect of Notes that have one or more Portfolio(s) as Underlying(s) that Societe Generale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the price risk of entering into and performing its obligations with respect to the Notes or the agreement entered into with Societe Generale or any of its affiliates by the Fiduciary in relation to the Notes; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

In addition, for Shares traded through the China Connect Services, the definition of Hedging Disruption is completed by adding:

For the avoidance of doubt, "using commercially reasonable efforts" to hedge the risks with respect to the transaction(s) referred to in Hedging Disruption does not include the use of any quota granted to Societe Generale or its Affiliates under the Qualified Foreign Institutional Investor (QFII) and Renminbi Qualified Foreign Institutional Investor (RQFII) regimes.

Increased Cost of Hedging means, in respect of Notes that have one or more Portfolio(s) as Underlying(s), that Societe Generale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Societe Generale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) or costs specified in these Additional Terms and Conditions, and the applicable Final Terms to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Societe Generale or any of its affiliates by the Fiduciary with respect to the Notes or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

Increased Cost of Borrow means, in respect of Notes that have one or more Portfolio(s) as Underlying(s), that Societe Generale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Societe Generale or any of its affiliates enters into the Hedge Positions in respect of the Notes) rate to borrow hedging instruments in respect of the Notes.

Loss of Borrow means, in respect of Notes that have one or more Portfolio(s) as Underlying(s), that Societe Generale or any of its affiliates is unable, after using commercially reasonable efforts, to borrow (or maintain a borrowing of) hedging instruments with respect to the Notes in an amount it deems necessary to hedge the equity price risk of entering into and performing its obligations

with respect to the Notes or any agreement entered into with Societe Generale or any of its affiliates by the Fiduciary with respect to the Notes.

In case of the occurrence of a Hedging Disruption, an Increased Cost of Hedging, an Increased Cost of Borrow or a Loss of Borrow relating to a Portfolio (the **Affected Underlying**), the Calculation Agent may:

A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions ; or

B. apply the "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions, or; but only in the case of Increased Cost of Hedging; or

C. replace the Affected Underlying by a Similar Portfolio provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes (subject to any taxes to be withheld or paid). In particular, the Calculation Agent may but shall be under no obligation to remove the Portfolio Component triggering the Hedging Disruption, Increased Cost of Hedging, Increased Cost of Borrow or Loss of Borrow and reinvest its proceeds into the other Portfolio Components,

and:

deduct:

(i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Societe Generale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Fiduciary under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the **"Reduction Amount"**); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

(ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Subparagraph A shall not apply to Notes to be listed on the Italian Stock Exchange (Borsa Italiana S.p.A.).

5.3 Change in Law and consequences

Change in Law means in respect of Notes that have one or more Portfolio(s) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines that it has become illegal for Societe Generale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Societe Generale or any of its affiliates by the Fiduciary, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide to:

A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid, an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

B. replace the Affected Underlying by a Similar Portfolio provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes (subject to any taxes to be withheld or paid). In particular, the Calculation Agent may but shall be under no obligation to remove the Portfolio Component triggering the Change in Law and reinvest its proceeds into the other Portfolio Components; or

C. apply the "Monetisation until the Maturity Date " as defined in Condition 6.5 of the General Terms and Conditions.

5.4 China Connect Share Disqualification and China Connect Service Termination and consequences

In respect of Shares traded through the China Connect Services, the following paragraphs apply:

China Connect Share Disqualification means, on or after the Issue Date, the Shares cease to be accepted as "China Connect Securities" (as defined in the rules of the exchange of SEHK) for the purpose of the China Connect Service;

China Connect Service Termination means, on or after the Issue Date, the announcement by one or more of the Exchange, SEHK, the CSDCC, HKSCC or any regulatory authority with competent jurisdiction of a suspension or termination of the China Connect Service or a part thereof for any reason which materially affects the routing of orders in respect of, or holding of, the Shares through the China Connect Service and the Calculation Agent determines that there is a reasonable likelihood that such suspension or termination is not, or will not be, temporary, then upon the occurrence of such events, the Calculation Agent may elect, while China Connect Share Disqualification or China Connect Service Termination is continuing, to terminate the transaction(s), upon at least two Scheduled Trading Days' notice specifying the date of such termination, in which event the Calculation Agent will apply the Early Redemption.

5.5 Holding Limit Event

In case of the occurrence of a Holding Limit Event relating to a Portfolio Component (the **Affected Underlying**), the Calculation Agent may:

A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions ; or.

B. apply the "Monetisation until the Maturity Date " as defined in Condition 6.5 of the General Terms and Conditions; or

C. replace the Affected Underlying by a Similar Portfolio Component provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes (subject to any taxes to be withheld or paid). In particular, the Calculation Agent may but shall be under no obligation to remove the Portfolio Component triggering the Holding Limit Event and reinvest its proceeds into the other Portfolio Components.

6. PORTFOLIO DISRUPTION EVENTS

6.1 Consequences of a Portfolio Disruption Event

For the purposes of this Condition:

Portfolio Disruption Event means a Basket Component Disruption Event or a Market Data Disruption Event, both as determined by the Calculation Agent.

Basket Component Disruption Event means an Equity Instrument Disruption Event, a Commodity Instrument Disruption Event, a Debt Instrument Disruption Event or a Derivatives Instrument Disruption Event.

If a Portfolio Disruption Event occurs on a Scheduled Calculation Date (a Disrupted Day), then the Calculation Agent shall not calculate the Portfolio Level on such Disrupted Day and the next Calculation Date for all Portfolio Components shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day for any Portfolio Component as determined by the Calculation Agent, unless each of the eight Scheduled Calculation Dates immediately following the initial Disrupted Day is also a Disrupted Day for any Portfolio Component, in which case:

(i) the eighth Scheduled Calculation Date following the initial Disrupted Day, and each Scheduled Calculation Date that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a **Disrupted Calculation Date**), notwithstanding the existence of a Portfolio Disruption Event on such date and only for the purpose of determining the Portfolio Level; and

(ii) on each Disrupted Calculation Date, the Calculation Agent shall calculate the Portfolio Level in accordance with the formula for and method of calculating the Portfolio Level as set out in these Conditions provided that:

(a) if the Portfolio Disruption Event is a Basket Component Disruption Event in relation to one or more of the Basket Component(s) only (such Basket Component(s) the **Affected Basket Component(s)**):

(x) the level or price of the Affected Basket Component(s) shall be calculated using the level or price of such Affected Basket Component(s) last in effect prior to the occurrence of the relevant Basket Component Disruption Event; and

(y) the level of each of the Market Data as described in the definition of such Market Data on the relevant date(s) of determination shall be calculated as if no Portfolio Disruption Event existed;

(b) if the Portfolio Disruption Event is a Market Data Disruption Event in relation to one or more of the Market Data only (such Market Data the **Affected Market Data**):

(x) the level or price of each Basket Component as described in the definition of such Basket Component(s), on the relevant date(s) of determination shall be calculated as if no Portfolio Disruption Event existed; and

(y) the level of the Affected Market Data shall be determined in good faith using relevant market indicators on the relevant date(s) of determination; or

(c) if the Portfolio Disruption Event comprises both a Basket Component Disruption Event as well as a Market Data Disruption Event:

(x) the level or price of the Affected Basket Component(s) shall be calculated using the level or price of such Affected Basket Component last in effect prior to the occurrence of the relevant Basket Component Disruption Event; and

(y) the level of the Affected Market Data shall be determined in good faith using relevant market indicators on the relevant date(s) of determination.

For the avoidance of doubt, for the purpose of this Condition 6.1, any Portfolio Component(s) that are neither an Affected Basket Component, nor an Affected Market Data will be valued as of the Disrupted Calculation Date.

Notwithstanding the foregoing, if a Portfolio Disruption Event is continuing on any day falling on or after the first Disrupted Calculation Date, then the Calculation Agent may:

(a) apply "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions; or

(b) substitute the relevant Affected Basket Component or Affected Market Data with another instrument (which shall then become a substitute Basket Component or Market Data) provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes (subject to any taxes to be withheld or paid); or

(c) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

3.1 Adjustment Events and extraordinary events

3.1.1 Potential Adjustment Events relating to Shares or Depositary Receipts

Potential Adjustment Event means, in relation to a Share or a Depositary Receipt, any of the following:

A. a subdivision, consolidation or reclassification of such Share or Deposited Securities (unless resulting in a Merger Event), including, for the avoidance of doubt, a stock split or reverse stock split, or a free distribution or dividend of any such Shares or Deposited Securities to existing holders by way of bonus, capitalisation or similar issue;

B. a distribution, issue or dividend to existing holders of (a) such Shares or Deposited Securities, (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Shares or Deposited Securities, (c) share capital, other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;

C. an extraordinary dividend as determined by the Calculation Agent;

D. a call by the Company in respect of Shares or Deposited Securities that are not fully paid;

E. a repurchase by the Company or any of its subsidiaries of Shares or Deposited Securities whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;

F. an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or

G. any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Shares or the Depositary Receipt.

If a Potential Adjustment Event (as defined in this Condition 3.1.1) occurs affecting the Share or Depositary Receipts (the **Affected Share** or the **Affected Depositary Receipts**) the dividend of which is used to determine the amounts due under Notes indexed on Dividends, then the Calculation Agent will, subject to the provisions of the last paragraph of the definition of "Dividend" in Condition 1 above, adjust any terms of the Notes, it determines appropriate, in order to take into account the economic effect on the Notes of such event.

Subject as described in the paragraph above, following the occurrence of any Potential Adjustment Event as defined above, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect:

(i) on the theoretical value of the Share and, if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the relevant Share used to determine any settlement or payment terms under the Notes and/or adjust any other terms of

the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes and (b) determine the effective date of that adjustment; or

(ii) on the Deposited Securities that affects the theoretical value of the Depositary Receipts, provided that an event that has a diluting or concentrative effect on the Deposited Securities will affect the theoretical value of the Depositary Receipts unless (and to the extent that) the Company or the Depositary, pursuant to its authority (if any) under the Deposit Agreement, elects to adjust the number of the Deposited Securities that are represented by each Depositary Receipt such that the price of the Depositary Receipts will not be affected by any such event (as determined by the Calculation Agent), in which case the Calculation Agent will make no adjustment. If the Company or the Depositary elects not to adjust the number of Deposited Securities that are represented by a Depositary Receipt or makes an adjustment that the Calculation Agent determines not to have been adequate, then the Calculation Agent may make the necessary adjustment to the elements relating to the Depositary Receipt used to determine any settlement or payment terms under the Notes and/or any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Fiduciary under the Notes (subject to any Local Taxes to be withheld or paid) and determine the effective date of that adjustment. The Depositary may also have the ability pursuant to the Deposit Agreement to make adjustments in respect of the Depositary Receipts for share distributions, rights distributions, cash distributions and distributions other than shares, rights and cash. Upon any such adjustment by the Depositary, the Calculation Agent may make the necessary adjustments as the Calculation Agent deems appropriate to account for such event.

In its determinations of the existence and extent of any dilutive or concentrative effect on the theoretical value of the Shares or on the Deposited Securities that affects the theoretical value of the Depositary Receipts of any Potential Adjustment Event, and any related adjustments to the terms of the Notes, the Calculation Agent shall take into account (i) any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event and, in respect of Shares traded through the China Connect Services only, (ii) any requirement, adjustment and/or limitation that may be imposed by the China Connect Service or any action or inaction by any one or more of the Exchange, SEHK, CSDCC and HKSCC in relation to such Potential Adjustment Event.

The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options on the Share or on the Deposited Securities traded on such Related Exchange.

Definitions applicable to this Condition:

Offshore Investor means a holder of Shares or Deposited Securities who is an institutional investor not resident in the country in which the Company has been incorporated or in which the Exchange, on which the Share (or the Deposited Securities) is (are) listed is located (the **Local Jurisdiction**), for the purposes of the tax laws and regulations of the Local Jurisdiction and, for the avoidance of doubt, whose jurisdiction of residence (a) shall be determined by the Calculation Agent and (b) may be the jurisdiction of Societe Generale or any of its affiliates.

B. If the Calculation Agent decides not to apply Method of Substitution during the Offering Period with respect to the Affected Share or the Affected Depositary Receipt, then:

(a) in respect of a Merger Event (or a Tender Offer as the case may be), from the Merger Date (or the Tender Offer Date as the case may be), and/or upon consummation of the Merger Event (or the Tender Offer as the case may be), until the sixtieth Business Day thereafter, the Calculation Agent shall apply in relation to Share-for-Share, Share-for-Other and Share-for-Combined, either:

(y) substitute one or more share(s) or depositary receipt(s) resulting from such De-merger Event pursuant to the Method of Substitution;

it being understood that, in the case of a Basket, the Calculation Agent shall maintain the initial number of companies in the Basket and that in the case where the Calculation Agent has elected to substitute the Affected Share or the Affected Depositary Receipt with several shares or depositary receipts resulting from such De-merger Event, such shares or depositary receipts shall be placed in a sub-basket and considered as one component of the Basket;

(d) in respect of a De-listing Event or a Nationalisation, from the effective date of such event, until the sixtieth Business Day thereafter, the Calculation Agent may apply the Method of Substitution;

(e) in respect of an Insolvency, the Calculation Agent will decide either:

(x) that the Affected Share or the Affected Depositary Receipt will be substituted pursuant to the Method of Substitution;

(y) that the value of the relevant component in the formula used to determine the amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms, representing the Affected Share or the Affected Depositary Receipt will be accounted by the Calculation Agent for its fair market value determined at any time as from the date of occurrence of such Insolvency until the last Valuation Date or the last Averaging Date. The determination of the fair market value shall depend upon the liquidity of the market and the trading conditions relating to the Share or the Depositary Receipt affected at the time of calculation;

(f) In each case as developed in (a), (b), (c), (d) and (e) above, if the Calculation Agent has not retained as the case may be, (x) or if in (y) no share or depositary receipt meets the criteria as set out in the Method of Substitution, then the Calculation Agent may either:

(x) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions; or

(y) consider such event as an event triggering an early redemption of the Notes. In that case, the Fiduciary shall terminate its obligations under the relevant Notes and pay to each Noteholder, as soon as possible after the occurrence of any of the events described in (a), (b), (c), (d) and (e), an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

Calculation Agent Adjustment means that, in respect of a Merger Event (or a Tender Offer as the case may be), the Calculation Agent shall, on or after the relevant Merger Date (or the Tender Offer Date as the case may be), (A) make such adjustment to the exercise, settlement, payment or any other terms of the Note as the Calculation Agent determines appropriate to account for the economic effect on the Note of such Merger Event (or such Tender Offer as the case may be) (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or the Depositary Receipt or to the Note), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event (or such Tender Offer as the case may be) by an options exchange to options on the relevant Shares or Depositary Receipts traded on such options exchange and (B) determine the effective date of that adjustment.

Combined Consideration means New Shares in combination with Other Consideration.

De-listing Event means, in respect of a Share or a Depositary Receipt, that such Share or Depositary Receipt (or Deposited Securities related to such Depositary Receipt): (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event or a Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant Share or Depositary Receipt (or Deposited Securities related to such Depositary Receipt)).

De-merger Event means, in respect of any Share or Depositary Receipt, that the Company relevant to such Share or Depositary Receipt is affected by a de-merger including, without limitation, a spin off, *scission* or any operation of a similar nature.

De-merger Date means the date on which a De-merger Event becomes effective.

Early Redemption means that there will be an early redemption of the Notes on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

Fixing Period means the period subject to a maximum of ten Exchange Business Days, which shall expire no later than 90 Business Days following the Merger Date, the De-merger Date, the Tender Offer Date or the effective date of the De-listing Event, Nationalisation or Insolvency during which:

A. Societe Generale or any of its affiliates sells the Affected Shares or the Affected Depositary Receipt, the New Shares and/or the Other Consideration, (as the case may be), on the basis of the weighted average of the closing prices of the relevant assets traded by Societe Generale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period; and

B. the proceeds of such sale are re-invested in the Substitute Shares, Substitute Depositary Receipt and/or New Shares accordingly during the said Fixing Period on the basis of the weighted average of the closing prices of such Substitute Shares, Substitute Depositary Receipt and/or New Shares traded by Societe Generale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period.

Insolvency means, in respect of a Company, voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting, such Company, as determined by the Calculation Agent.

Merger Date means, in respect of a Share or a Deposited Security, the date upon which holders of the necessary number of the relevant Shares or Deposited Securities (other than, in the case of a takeover offer, Shares or Deposited Securities owned or controlled by the offeror) to constitute a Merger Event have agreed or have irrevocably become obliged to transfer their Shares or Deposited Securities.

Merger Event means, in respect of any Share or Depositary Receipt:

A. any reclassification or change of such Share or Deposited Security (including the change of currency reference of the Share or the Deposited Security) that results in a transfer of or an irrevocable commitment to transfer all of such Share or Deposited Security outstanding to another entity or person;

B. any consolidation, amalgamation, merger or binding share exchange of the relevant Company with or into another entity (other than a consolidation, amalgamation or merger in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Shares or Deposited Securities);

C. other take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain one hundred per cent. of the outstanding Shares or Deposited Securities that results in a transfer of or an irrevocable commitment to transfer all or part of such Shares or Deposited Securities (other than any of such Shares or Deposited Securities owned or controlled by the offeror); or

D. any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Shares or Deposited Securities but results in the outstanding Shares or Deposited Securities (other than Shares or Deposited Securities owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares or Deposited Securities immediately following such event.

Method of Substitution means that in the case of a Merger Event, De-merger Event, Tender Offer, De-listing Event, Nationalisation or Insolvency (regardless of the consideration to be received), in respect of an Affected Share or the Affected Depositary Receipt, the Calculation Agent may consider that the Affected Share, the Affected Depositary Receipt, the New Shares and/or, all or part of the Other Consideration (as the case may be) is/are converted into cash and that the proceeds will be reinvested either (a) into a new share or a new depositary receipt of the same economic sector or into a share or a depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or the Affected Depositary Receipt (the **Substitute Share** or the **Substitute Depositary Receipt**, as the case may be) or (b) in the case of Combined Consideration into New Shares. In the event of Other Consideration to be received in cash, in the future, the Calculation Agent may consider that the cash to be received in the future is discounted in order to immediately re-invest the proceeds then procured in accordance with (a) and (b) above.

The sale of the Affected Share, the Affected Depositary Receipt, the New Shares and/or the Other Consideration shall be deemed to take place during the Fixing Period. The Substitute Share or the Substitute Depositary Receipt, as the case may be, and the company issuing such Substituted Share or, in the case of a Depositary Receipt, the company issuing the Deposited Securities will be deemed a **Share** or a **Depositary Receipt** and the **Company** respectively, and the Calculation Agent will adjust any relevant terms of the Notes.

For information purposes, it is understood that in all cases described herein where a Share or a Depositary Receipt is substituted, on any date "t", with a Substitute Share or Substitute Depositary Receipt, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute Depositary Receipt and would mean the closing price of such Substitute Share or Substitute Depositary Receipt on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected Depositary Receipt on such date "t".

Nationalisation means that all the Shares or the Deposited Securities or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

New Shares means shares or depositary receipts (whether of the offeror or a third party) that are listed or quoted on a recognised exchange involved in the application of Method of Substitution or Calculation Agent Adjustment as determined by the Calculation Agent.

Offering Period means the period from and including the date on which the Tender Offer, the Merger Event, the De-listing Event, the De-merger Event, the Insolvency or the Nationalisation is publicly and officially announced to but excluding the Merger Date or the De-merger Date, the Tender Offer Date or the effective date of the De-listing Event, the Insolvency or the Nationalisation.

Other Consideration means cash and/or any securities (other than New Shares) or assets (whether of the offeror or a third party).

Share-for-Combined means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists of Combined Consideration.

Share-for-Other means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists solely of Other Consideration.

Share-for-Share means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists (or, at the option of the holder of such Shares or Depositary Receipts, may consist) solely of New Shares.

Tender Offer means, in respect of any Share or Depositary Receipt, a take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than ten per cent. and less than one hundred per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

Tender Offer Date means, in respect of a Share or a Deposited Security, the date on which voting shares in the amount of the applicable percentage threshold are actually purchased or otherwise obtained (as determined by the Calculation Agent).

3.1.3 Stop-Loss Event

Unless "**Stop-Loss Event**" is specified as "Not applicable" in the applicable Final Terms, if on any Exchange Business Day between the initial Valuation Date (excluded) and the last Valuation Date (included), the Closing Price of a Share or a Depositary Receipt is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Share** or the **Affected Depositary Receipt** and the event, the **Stop-Loss Event**), then:

A. the Calculation Agent may decide to substitute the Affected Share or the Affected Depositary Receipt by a new share or depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or the Affected Depositary Receipt (the **Substitute Share** or **Substitute Depositary Receipt**, as the case may be) and will adjust any relevant terms of the Notes accordingly; or

B. the Calculation Agent may decide to continue with the Affected Share or the Affected Depositary Receipt; or

C. if the Calculation Agent has neither retained any Substitute Share or Substitute Depositary Receipt nor decided to continue with the Affected Share or the Affected Depositary Receipt, the Calculation Agent may either:

(a) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions; or

(b) consider such event as an event triggering an early redemption of the Notes. In that case, the Fiduciary shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

For information purposes, it is understood that in all cases described herein where a Share or a Depositary Receipt is substituted, on any date "t", with a Substitute Share or Substitute Depositary Receipt, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute Depositary Receipt and would mean that the closing price of such Substitute Share or Substitute Depositary Receipt on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected Depositary Receipt on such date "t".

3.1.4 Correction of the Closing Price

In the event that any price or level of a Share or a Depositary Receipt published on the Exchange which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction, *provided however that*, all references to the word "four" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

3.2 China Connect Share Disqualification and China Connect Service Termination and consequences

In respect of Shares traded through the China Connect Services, the following paragraphs apply:

China Connect Share Disqualification means, on or after the Issue Date, the Shares cease to be accepted as "China Connect Securities" (as defined in the rules of the exchange of SEHK) for the purpose of the China Connect Service;

China Connect Service Termination means, on or after the Issue Date, the announcement by one or more of the Exchange, SEHK, the CSDCC, HKSCC or any regulatory authority with competent jurisdiction of a suspension or termination of the China Connect Service or a part thereof for any reason which materially affects the routing of orders in respect of, or holding of, the Shares through the China Connect Service and the Calculation Agent determines that there is a reasonable likelihood that such suspension or termination is not, or will not be, temporary, then upon the occurrence of such events, the Calculation Agent may elect, while China Connect Share Disqualification or China Connect Service Termination is continuing, to terminate the transaction(s) upon at least two Scheduled Trading Days' notice specifying the date of such termination, in which event the Calculation Agent will consider this event as an event triggering the early redemption of the Notes (hereafter an **"Early Redemption Event"**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

4. ADJUSTMENTS AND EVENTS IN RELATION TO AN INDEX – CHANGE IN LAW, HEDGING DISRUPTION, HOLDING LIMIT EVENT, INCREASED COST OF HEDGING, AND CONSEQUENCES

4.1 Adjustments in relation to an Index

A. If an Index is:

(a) not calculated and announced by the relevant Index Sponsor or the Index Calculation Agent as the case may be, but is calculated and announced by a successor sponsor (the **Successor Index Sponsor**) or a successor calculation agent (the **Successor Index Calculation Agent**), in each case acceptable to the Calculation Agent; or

(b) replaced by a successor index (the **Successor Index**) using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index;

then the Index will be deemed to be the index so calculated and announced by the relevant Successor Index Sponsor or Successor Index Calculation Agent or that Successor Index (as the case may be).

B. If, in the determination of the Calculation Agent:

(a) on or prior to a Valuation Date or an Averaging Date, the relevant Index Sponsor (or if applicable the Successor Index Sponsor) makes a material change in the formula for, or the method of calculating, that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events (an **Index Modification**)). For the avoidance of doubt, the following events do not constitute "routine events" : a sub-division (split) of the level of the Index or a consolidation (reverse split) of the level of the Index, or any other event linked to either the performance or the level of the Index);

(b) on or prior to any Valuation Date or Averaging Date, the relevant Index Sponsor (or, if applicable, the relevant Successor Index Sponsor) or the Index Calculation Agent (or the Successor Index Calculation Agent) as the case may be, fails to calculate and publish the level of the Index and such failure is likely to have a material impact on the hedge of Societe Generale or one of its affiliates in connection with the Notes (an **Index Disruption**); or

(c) the Index Sponsor (or, if applicable, the Successor Index Sponsor) permanently cancels the Index and no Successor Index exists (an **Index Cancellation** and together with an Index Modification and an Index Disruption, each an **Index Adjustment Event**).

then the Calculation Agent shall either:

(x) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, *in lieu* of a published level for the Index, the level of that Index as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that Index Adjustment Event, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event (other than those securities that have since ceased to be listed on any relevant Exchange); or

(y) replace the Index by a new index provided that such index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries.

If the Calculation Agent has not retained (x) and if in (y) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

(i) apply Monetisation until the Maturity Date as defined in Condition 6.5 of the General Terms and Conditions; or

(ii) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

4.2 Stop-Loss Event in relation to an Index

Unless "Stop-Loss Event" is specified as "Not applicable" in the applicable Final Terms, if on an Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Index** and the event, the **Stop-Loss Event**), then:

A. the Calculation Agent may decide to substitute the Affected Index by a new index representative of the same economic or geographic sector (as the case may be), and to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries (the **Substitute Index**) and will adjust any relevant terms of the Notes accordingly; or

B. the Calculation Agent may decide to continue with the Affected Index; or

C. if the Calculation Agent has neither retained any Substitute Index nor decided to continue with the Affected Index, the Calculation Agent may either:

(a) apply Monetisation until the Maturity Date as defined in Condition 6.5 of the General Terms and Conditions; or

(b) consider such event as an event triggering an Early Redemption Event. Where Stop-Loss Event occurs, the Fiduciary shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Stop-Loss Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

4.3 Correction of the Closing Price in relation to an Index

In the event that any price or level published on the Exchange or by the Index Sponsor and which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange or the Index Sponsor after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction, provided however that, all references to the word "four" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

5. EXTRAORDINARY EVENTS RELATING TO DIVIDENDS

5.1 Failure to Publish

5.1.1 Failure to Publish

In respect of an Index, if during the Dividend Period the Index Sponsor fails (for whatever reason including without limitation, a Market Disruption Event) to calculate and publish (i) the Official Number or (ii) the Official Index Divisor, then the Calculation Agent shall determine the Official Number or the Official Index Divisor (as the case may be).

In making any such determination, the Calculation Agent may (but shall not be obliged to) make reference to the formula for and method of calculating the Official Number or the Official Index Divisor (as the case may be) last in effect prior to the failure by the Index Sponsor to make the relevant calculation or publication.

5.1.2 Corrections

In respect of an Index, in the event that an Official Index Divisor or Official Number calculated and published by the Index Sponsor (or determined by the Calculation Agent pursuant to the provisions of Condition 5.1.1 above) and utilized for any calculation or determination made in respect of the Notes is subsequently corrected (or, where there has been a Failure to Publish, published by the Index Sponsor) and the correction is published (or, where there has been a Failure to Publish, publication is made) by the Index Sponsor within five Scheduled Trading Days after the original publication, the Calculation Agent will adjust the Dividend, as required, to take into account such correction, *provided that* such correction or subsequent publication occurs no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms),

provided however that:

- all references to the word "fourth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System, as specified in the applicable Final Terms.

5.2 Dividend Recovery

In respect of a Share or a Depositary Receipt or in respect of each Share or Depositary Receipt comprising an Index, if (a) the amount actually paid or delivered by an issuer to holders of record of the relevant Share or Depositary Receipt in respect of any Dividend declared by such issuer to holders of record of such Share or Depositary Receipt (a **Declared Dividend**) is not equal to such Declared Dividend (a **Dividend Mismatch Event**); or (b) such issuer fails to make any payment or delivery in respect of such Declared Dividend by the third Business Day following the relevant due date, then the Calculation Agent may (but shall not be obliged to) determine: (i) any appropriate adjustment or repayment to be made to account for such Dividend Mismatch Event or non-payment or non-delivery of the Declared Dividend, as the case may be, (ii) the date any such repayment should be made, and (iii) any interest on any amount subsequently due under the Notes.

2. CREDIT RATINGS

2.1 Societe Generale

At the date of this Base Prospectus, Societe Generale is rated:

"A" by Fitch Ratings Ireland Limited: A long term senior preferred debt rating at Fitch Ratings Ireland Limited provides an ordinal ranking of long term senior preferred debt rating of issuers, on a scale of 'AAA' to 'D', based on the agency's view of their relative vulnerability to default, rather than a prediction of a specific percentage likelihood of default. 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories.

"A1" by Moody's France S.A.S.: Ratings assigned on Moody's France S.A.S.'s global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by financial institutions on a scale of 'Aaa' to 'C'. Obligations rated 'A' are judged to be upper-medium grade and are subject to low credit risk. Moody's France S.A.S.'s appends numerical modifiers 1, 2, and 3 to each generic rating classification from 'Aa' through 'Caa'. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

"A" by Rating and Investment Information, Inc.: An Issuer Rating is R&I's opinion on an issuer's general capacity to fulfil its financial obligations and is, in principle, assigned to all issuers. Ratings are issued on a scale of 'AAA' to 'D', reflecting R&I's view on the creditworthiness of the Issuer. An issuer rated 'A' has a high creditworthiness supported by a few excellent factors.

"A" by S&P Global Ratings Europe Limited: A S&P Global Ratings Europe Limited issue credit rating is a forward-looking opinion on a scale of 'AAA' to 'D' about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program. The opinion reflects S&P Global Ratings Europe Limited's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default. An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

Each of Moody's France S.A.S., Fitch Ratings Ireland Limited and S&P Global Ratings Europe Limited is established in the European Union and is registered under the CRA Regulation and is included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the European Securities and Markets Authority's website (www.esma.europa.eu/supervision/credit-rating-agencies/risk).

Rating and Investment Information, Inc. is established in Japan. It has not been registered in accordance with the CRA Regulation.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.
