| 22. | Governing law (Condition 14):   | English   |

Any payment made under such circumstances in U.S. Dollars will constitute valid payment and will not constitute a default in respect of this Note. |

Whereby:

**“Valuation Business Day”** means a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange) in Beijing, Hong Kong, London, New York City and Singapore.

**“Calculation Agent”** means Citibank N.A., London Branch, or its duly appointed successor.

**“Spot Rate”** means, in respect of the Determination Date, the USD/CNY official fixing rate, expressed as the amount of CNY per one USD, as reported by the Treasury Markets Association, Hong Kong ([www.tma.org.hk](http://www.tma.org.hk)) as its USD/CNY (HK) spot rate at approximately 11:30 a.m., Hong Kong time, on such Determination Date (**“CNY CNHHK”** or **“CNY03”**).

If it becomes impossible to obtain the USD/CNY official fixing rate on the Determination Date as outlined in the previous paragraph, the Spot Rate shall be the USD/CNY official fixing rate for such Determination Date, expressed as the amount of CNY per one USD, as authorized by the People’s Bank of China of the People’s Republic of China for reporting by the China Foreign Exchange Trade System (CFETS) ([www.chinamoney.com.cn](http://www.chinamoney.com.cn)) at approximately 9:15 a.m., Beijing time, on such Determination Date (**“CNY SAEC”** or **“CNY01”**).

If it becomes impossible to obtain the USD/CNY official fixing rate on the Determination Date as outlined in the previous paragraphs, the Spot Rate shall be the USD/CNY exchange rate for such Determination Date, expressed as the amount of CNY per one USD, as published on the website of the Singapore Foreign Exchange Market Committee (**“SFEMC”**) ([www.sfemc.org](http://www.sfemc.org)) at approximately 3:30 p.m., Singapore time, or as soon thereafter as practicable, on such Determination Date. The exchange rate will be calculated by SFEMC (or a service provider SFEMC may select in its sole discretion) pursuant to the SFEMC CNY Indicative Survey Rate Methodology (which means a methodology, dated as of 1 December 2004, as amended from time to time, for a centralized industry-wide survey of financial institutions that are active participants in the USD/CNY markets for the purpose of determining the SFEMC CNY Indicative Survey Rate) (**“SFEMC CNY INDICATIVE SURVEY RATE”** or **“CNY02”**).

If it becomes impossible to obtain the USD/CNY official fixing rate or exchange rate on the Determination Date as outlined in the previous paragraphs, the Calculation Agent will determine the Spot Rate for the Determination Date, taking into consideration all available information that in good faith it deems relevant.

If Annex A to the 1998 FX and Currency Option Definitions published by the International Swaps and Derivatives Association, Inc., the Emerging Markets Traders Association and the Foreign Exchange Committee (the **“FX Definitions”**) is amended such that CNY01, CNY02 or CNY03 is replaced by a successor price source for the USD/CNY exchange rate in such Annex A to the FX Definitions (each, a **“Successor Price Source Definition”**), the Spot Rate for the Determination Date will be determined in accordance with the relevant Successor Price Source Definition without changing the order of the Spot Rate determination described above.

The Calculation Agent shall notify the Issuer as soon as reasonably practicable that the Spot Rate is to be so determined.

24. Additional risk factors:

**An investment in the Notes is subject to the risks described below, as well as the risks described under “Risk Factors” in the accompanying Prospectus.**

***The CNY is not freely convertible; there are significant restrictions on remittance of CNY into and outside the PRC***

The CNY is not freely convertible at present. The PRC government continues to regulate conversion between the CNY and foreign currencies, including the Hong Kong dollar, despite the significant reduction over the years by the PRC government of control over routine foreign exchange transactions under current accounts.

There can be no assurance that the PRC government will continue to gradually liberalise its control over cross-border CNY remittances in the future or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of CNY into or outside the PRC. In the event that the Issuer is not able to repatriate funds outside the PRC in CNY, the Issuer will need to source CNY offshore to finance its obligations under the Notes, and its ability to do so will be subject to the overall availability of CNY outside the PRC.

***There is only limited availability of CNY outside the PRC, which may affect the liquidity of the Notes***

As a result of the restrictions imposed by the PRC government on cross-border CNY fund flows, the availability of CNY outside of the PRC is limited.

Although it is widely expected that the offshore CNY market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated in the future which will have the effect of restricting availability of CNY offshore. The limited availability of CNY outside the PRC may affect the liquidity of the Notes. To the extent the Issuer is required to source CNY in the offshore market to service the Notes, there is no assurance that the Issuer will be able to source such CNY on satisfactory terms, if at all.

***Noteholders may be exposed to exchange rate risks***

In limited circumstances set out in Condition 7(i), relating to the unavailability of CNY offshore, the Issuer is entitled to make payments in respect of the Notes in U.S. Dollars and the Noteholders will be exposed to currency exchange rate risks with respect to such currencies. Changes in exchange rates relating to any of the currencies involved may result in a decrease in the effective yield of the Notes and, in certain circumstances, could result in a loss of all or a substantial portion of the principal of the Notes. For example, if, on the Determination Date, CNY has appreciated in value against U.S. Dollars, the payment in U.S. Dollars will be higher. Conversely, a depreciation in value of CNY against U.S. Dollars will have the opposite impact.

Exchange rate movements for a particular currency are volatile and are the result of numerous factors. A

Noteholder's net exposure will depend on the extent to which U.S. Dollar strengthens or weakens against CNY.

In addition, the Noteholders whose financial activities are denominated principally in a currency (the "**Investor's Currency**") other than CNY and/or U.S. Dollars will also be exposed to currency exchange rate risk that are not associated with a similar investment in a security denominated or paid in that Investor's Currency. For more information, please see "Risk Factors—Notes are subject to exchange rate and exchange control risks if the investor's currency is different from the Specified Currency" in the accompanying Prospectus.

Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturer’s target market assessment; however, each distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels.

For the purposes of this Term 29, “manufacturer” means the Dealer.

IBRD does not fall under the scope of application of UK MiFIR. Consequently, IBRD does not qualify as an “investment firm”, “manufacturer” or “distributor” for the purposes of UK MiFIR.

Payment of principal and interest, if any, on the Notes will be made from IBRD's general funds and will not be directly linked to the performance of any Eligible Projects.
