

LISTING PARTICULARS

\$1,000,000,000 5.500% Senior Secured Notes due 2028

€600,000,000 3.500% Senior Secured Notes due 2028

issued by, but with limited recourse to,

Telenet Finance Luxembourg Notes S.à r.l.

Telenet Finance Luxembourg Notes S.à r.l. is a private limited liability company (*société à responsabilité limitée*) incorporated under the laws of the Grand Duchy of Luxembourg, having its registered office at 2, rue Peternelchen, L-2370 Howald, Luxembourg and registered with the Luxembourg Trade and Companies Register under number B219682 (as further described and defined herein, the “**Issuer**”). All of the ordinary shares of the Issuer are owned directly by Telenet International Finance S.à r.l., a private limited liability company (*société à responsabilité limitée*), incorporated under the laws of the Grand Duchy of Luxembourg, having its registered office at 2, Rue Peternelchen, L-2370 Howald, Luxembourg and registered with the Luxembourg Trade and Companies Register under number B155066 (“**Telenet International Finance**”). The Issuer has offered €600.0 million aggregate principal amount of its 3.500% senior secured notes due 2028 (the “**Euro Notes**”) and \$1,000.0 million aggregate principal amount of its 5.500% senior secured notes due 2028 (the “**Dollar Notes**”) and together with the Euro Notes, the “**Notes**”). The Euro Notes will bear interest at a rate of 3.500% per annum and the Dollar Notes will bear interest at a rate of 5.500% per annum. The Issuer will pay interest on the Notes semi-annually in cash in arrears on each January 15 and July 15, commencing on January 15, 2018. The Notes will mature on March 1, 2028.

The proceeds from the offering of the Dollar Notes have been used by the Issuer to fund a loan in a principal amount equal to \$1,000.0 million (the “**Finco Loan AJ**”) borrowed under an additional facility (the “**Facility AJ**”) by Telenet International Finance under the Senior Credit Facility (as defined in these “**Listing Particulars**”). The proceeds from the offering of the Euro Notes will be used by the Issuer to fund a loan in a principal amount equal to €600.0 million (the “**Finco Loan AK**”) and together with the Finco Loan AJ, the “**2017 Finco Loans**”) borrowed under an additional facility (the “**Facility AK**”) by Telenet International Finance under the Senior Credit Facility. Telenet International Finance is an entity wholly owned by Telenet BVBA (formerly Telenet NV). Telenet BVBA is 99.99% owned by Telenet Group BVBA. Telenet Group BVBA is 99.99% owned by Telenet Group Holding NV (“**Telenet Group Holding**”). The obligations of Telenet International Finance under the relevant Finco Loan are guaranteed by Telenet Group BVBA. The Issuer is dependent upon payments under the relevant Finco Loan and Related Agreements (as defined herein) to make payments under the relevant Notes. The Issuer will apply all payments it receives under the relevant Finco Loan and such Related Agreements, including in respect of principal, premiums, interest and any additional amounts following certain tax events, to make corresponding payments under the relevant Notes.

The accession agreements related to each of the 2017 Finco Loans provides for the payment of certain premiums in connection with certain voluntary and mandatory prepayments of such 2017 Finco Loan that enables the Issuer to pay the premiums payable in respect of corresponding redemptions of the applicable Notes, as described in “*Description of the Notes—Optional Redemption*”. Some or all of each series of the Notes may be redeemed at any time prior to December 1, 2022, at a price equal to 100% of the principal amount of the Notes redeemed plus accrued and unpaid interest to (but excluding) the redemption date and the “make whole” premium, as described in these Listing Particulars. Each series of the Notes may be redeemed at any time on or after December 1, 2022 at the redemption prices set forth in these Listing Particulars. In addition, at any time prior to December 1, 2022 the Issuer may redeem up to 40% of each series of Notes (including Additional Notes, if any) with the net proceeds of one or more specified equity offerings at the redemption prices set forth in these Listing Particulars. Prior to December 1, 2022, during each 12-month period commencing on the Issue Date (as defined herein), the Issuer may redeem up to 10% of each series of the principal amount of the Notes (including Additional Notes, if any) at a redemption price equal to 103% of the principal amount thereof plus accrued and unpaid interest to (but excluding) the redemption date.

Following a change of control as defined in the Senior Credit Facility, Telenet International Finance will be required, at the election of the Majority Lenders under, and as defined in, the Senior Credit Facility, to prepay the relevant 2017 Finco Loan plus a payment in an amount equal to 1% of the principal amount of the relevant 2017 Finco Loan, as applicable. Following any such repayment, the Issuer will redeem all of the relevant series of Notes issued under the indenture governing the Notes (the “**Indenture**”) at a redemption price equal to 101% of the principal amount thereof plus accrued and unpaid interest to the date of redemption. See “*Description of the Notes—Redemption and Repurchase—Redemption upon a Change of Control*”. In the event of certain asset sales, Telenet International Finance may elect, at its option, to (i) offer to prepay a principal amount of the relevant 2017 Finco Loan in an aggregate amount equal to the principal amount of the Notes tendered in the related asset sale offer to be made by the Issuer (not to exceed the available proceeds from the related asset sale) or (ii) subject to the payment of certain premiums, prepay the relevant 2017 Finco Loan in an amount equal to the available proceeds from the related asset sale, and, in the case of clauses (i) and (ii) of this sentence, the Issuer will redeem a corresponding amount of the relevant Notes. See “*Description of the Notes—Redemption and Repurchase—Disposal Proceeds*”. Further, the relevant series of Notes may be redeemed at a price equal to their principal amount plus accrued and unpaid interest upon the occurrence of certain changes in tax law. See “*Description of the Notes—Redemption and Repurchase—Redemption for Changes in Withholding Taxes*”.

The Notes are limited recourse obligations of the Issuer. In each case where amounts of principal, interest and other amounts (if any) are stated to be payable in respect of the Notes, the obligation of the Issuer to make any such payment shall constitute the obligation only to account to holders of the Notes for an amount equivalent to sums of principal, interest and other amounts (if any) actually received by or for the account of the Issuer pursuant to the 2017 Finco Loans and the Related Agreements between the Issuer, Telenet International Finance and/or Telenet Group BVBA, as the case may be. Neither Telenet Group Holding nor any of its subsidiaries guarantees or provides any credit support to the Issuer with respect to its obligations under the Notes. Other than under the limited circumstances described herein, holders of the Notes will not have a direct claim on the cash flow or assets of Telenet Group Holding or any of its subsidiaries, and neither Telenet Group Holding nor any of its subsidiaries has any obligation, contingent or otherwise, to pay amounts due under the relevant Notes, or to make funds available to the Issuer for those payments, other than the obligations of Telenet International Finance to make payments to the Issuer pursuant to the relevant 2017 Finco Loan and the Related Agreements.

The Notes are senior obligations of the Issuer. The Notes are secured by, among other things, a first-ranking security interest in the bank accounts of the Issuer and a first-ranking security interest over the Issuer’s rights to and benefits in each of the Finco Loans (including all rights of the Issuer as a lender under the Finance Documents (as defined in the Senior Credit Facility) (including the 2017 Finco Accession Agreements (as defined herein) and any other Finco Accession Agreements (as defined herein)) in respect of which the Issuer has any right, title, benefit and/or interest and the Intercreditor

Agreement (as defined herein)). In addition, other than in certain limited circumstances specified herein, holders of the Notes will not have any recourse to the Issuer other than in respect of amounts received by the Issuer under the Senior Credit Facility and the Related Agreements. For a description of the terms of the Notes, see “*Description of the Notes*”.

On the Issue Date, the Issuer, the Trustee and the Security Trustee (each as defined herein) will enter into a collateral sharing agreement governing the relative rights of creditors under the Notes and Additional Debt (as defined herein) of the Issuer that will benefit from the shared Note Collateral (as defined herein) on a *pari passu* basis (the “**Collateral Sharing Agreement**”). The Collateral Sharing Agreement will set out, among other things, the relevant ranking of certain debt of the Issuer, the consent level of the senior creditors required to cast votes and exercise their rights in respect of consents, instructions and remedies under the Indenture, the Notes, the Notes Security Documents (as defined herein) and the other debt instruments or agreements sharing in the Note Collateral, in each case, when enforcement action can be taken in respect of the Note Collateral by the Security Trustee and the turnover provisions. The Collateral Sharing Agreement provides that the security interests in the Note Collateral may be enforced only upon an acceleration of the amounts due under the Notes following an Event of Default (as defined herein) under the Indenture, subject to and in accordance with the terms of the Collateral Sharing Agreement. Neither the Trustee nor the holders of the Notes may, individually or collectively, take any direct action to enforce any rights in their favor under the Notes Security Documents. The Trustee and the holders of the Notes may only take action to enforce the Notes Security Documents through the Security Trustee and the Collateral Sharing Agreement. In addition, pursuant to the Collateral Sharing Agreement, the ability of the Security Trustee to enforce the security interests in the Note Collateral will be restricted and will be at the discretion of the relevant creditors.

Upon no less than 8 business days notice from Telenet International Finance to the Issuer, Telenet International Finance may direct the implementation of the Belgian Issuer Accession (as defined herein) and, in connection therewith, a financing company incorporated under the laws of Belgium for the purpose of assuming the Issuer’s rights and obligations under the Notes, the Indenture, the relevant Finco Loan, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement (as defined herein) (the “**Belgian Issuer**”) will assume the Issuer’s obligations under the Notes, the Indenture, the Related Agreements, the Collateral Sharing Agreement and the Clearing Agreement and the Issuer will assign, novate or transfer its rights and interests in the relevant 2017 Finco Loan to the Belgian Issuer. Upon consummation of the Belgian Issuer Accession, the Belgian Issuer will succeed to, and be substituted for, and may exercise every right and power of the Issuer under the Notes, the Indenture, the relevant 2017 Finco Loan, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement and upon such substitution, the Issuer will be released from its obligations under the relevant series of Notes, the Indenture, the relevant Finco Loan, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement. In addition, following completion of the Belgian Issuer Accession, a Telenet International Finance may elect to implement the Finco Loans Borrower Exchange (as defined herein), whereby the relevant 2017 Finco Loan will, pursuant to certain transactions, be exchanged, refinanced or otherwise replaced by a new additional facility under the Senior Credit Facility borrowed by Telenet Group BVBA or another borrower under the Senior Credit Facility that is incorporated under the laws of Belgium (the “**Belgian Borrower**”). See “*Description of the Notes—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

See “*Risk Factors*” beginning on page 42 for a discussion of certain risks that you should consider in connection with an investment in any of the Notes.

The Notes have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or the securities laws of any other jurisdiction. In the United States, the Issuer sold the Notes only to persons that are (x) Qualified Institutional Buyers and also (y) Qualified Purchasers. The Issuer is offering the Notes to non-U.S. persons outside the United States in accordance with Regulation S under the U.S. Securities Act and (b) will hold the securities in an exempt securities account (an “X Account”) with the clearing system operated by the National Bank of Belgium (the “NBB”) or any successor thereto (the “X/N Clearing System”) (either directly or indirectly through a participant in the X/N Clearing System (including Euroclear Bank SA/NV (“Euroclear”) and Clearstream Banking, SA (“Clearstream”))). For a description of certain restrictions on the transfer of the Notes see “*Plan of Distribution*” and “*Transfer Restrictions*”.

Application has been made to the Luxembourg Stock Exchange in its capacity as competent body under the Luxembourg Act dated 10 July 2005 on prospectuses for securities, as amended (the “**Luxembourg Prospectus Act 2005**”), to approve these Listing Particulars as a prospectus for the purposes of article 61 of the Luxembourg Prospectus Act 2005. Application has also been made to the Luxembourg Stock Exchange for the Notes to be admitted to the official list of the Luxembourg Stock Exchange (the “**Official List**”) and to be admitted to trading on the Luxembourg Stock Exchange’s Euro MTF market (the “**Euro MTF Market**”). The Euro MTF Market is not a regulated market within the meaning of Directive 2004/39/EC on markets in financial instruments. These Listing Particulars constitute a prospectus for the purposes of Part IV of the Luxembourg law dated July 10, 2005 on prospectuses for securities as amended. These Listing Particulars shall only be used for the purposes for which it has been published.

The Notes are in registered form and will initially be represented by one or more global notes (the “**Global Notes**”), which have been deposited and immobilized with, and held by, the National Bank of Belgium (the “**NBB**”), as operator of the X/N Clearing System (as defined herein), and its participants (including Euroclear). The Global Notes were cleared through the X/N Clearing System on or about the Issue Date. Except in certain limited circumstances, definitive notes in registered form (the “**Definitive Registered Notes**”) will not be issued in exchange for beneficial interests in the global notes. The Euro Notes are in registered form in denominations of €100,000 and integral multiples of €100,000 in excess thereof. The Dollar Notes are in registered form in denominations of \$200,000 and integral multiples of \$200,000 in excess thereof. See “*Book-Entry, Delivery and Form*”.

INDEX OF FINANCIAL INFORMATION	1

NEITHER THE ISSUER NOR TELENET GROUP HOLDING, OR ANY OF ITS SUBSIDIARIES, HAS AUTHORIZED ANY DEALER, SALES PERSON OR OTHER PERSON TO GIVE ANY INFORMATION OR REPRESENT ANYTHING TO YOU OTHER THAN THE INFORMATION CONTAINED IN THESE LISTING PARTICULARS. YOU MUST NOT RELY ON UNAUTHORIZED INFORMATION OR REPRESENTATIONS.

These Listing Particulars do not offer to sell or ask for offers to buy any of the securities in any jurisdiction where it is unlawful, where the person making the offer is not qualified to do so, or to any person who cannot legally be offered the securities.

The information in these Listing Particulars is current only as of the date on the cover page, and may change after that date. For any time after the cover date of these Listing Particulars, Telenet Group Holding and its subsidiaries do not represent that their affairs are the same as described or that the information in these Listing Particulars is correct, nor does the Issuer imply those things by delivering these Listing Particulars or selling securities to you. Telenet Group Holding and its subsidiaries will not guarantee or provide any credit support to the Issuer with respect to its obligations under the Notes.

The Issuer and the Initial Purchasers offered to sell the Notes only in places where offers and sales are permitted.

IN CONNECTION WITH THIS OFFERING, DEUTSCHE BANK AG, LONDON BRANCH WITH RESPECT TO THE DOLLAR NOTES AND CREDIT SUISSE SECURITIES (EUROPE) LIMITED WITH RESPECT TO THE EURO NOTES (EACH A “STABILIZING MANAGER” AND TOGETHER THE “STABILIZING MANAGERS”) (OR PERSONS ACTING ON BEHALF OF A STABILIZING MANAGER) MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, THERE IS NO ASSURANCE THAT THE STABILIZING MANAGERS (OR PERSONS ACTING ON BEHALF OF A STABILIZING MANAGER) WILL UNDERTAKE STABILIZATION ACTION. ANY STABILIZATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE FINAL TERMS OF THE OFFER OF THE NOTES IS MADE AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NOTES.

The Issuer offered the Notes in reliance on exemptions from the registration requirements of the U.S. Securities Act. These exemptions apply to offers and sales of securities that do not involve a public offering. The Notes have not been and will not be registered with, recommended by or approved by the U.S. Securities and Exchange Commission (the “SEC”) or any other securities commission or regulatory authority, nor has the SEC or any such securities commission or authority passed upon the accuracy or adequacy of these Listing Particulars. Any representation to the contrary is a criminal offense in the United States.

These Listing Particulars are being provided for informational use solely in connection with consideration of a purchase of the Notes (i) to U.S. investors that we reasonably believe to be (x) qualified institutional buyers as defined in Rule 144A under the U.S. Securities Act, and qualified purchasers within the meaning of Section 2(a)(51) of, and Rules 2a51-1, 2a51-2 and 2a51-3 under, the 1940 Act, and (ii) to certain persons in offshore transactions complying with Rule 903 or Rule 904 of Regulation S under the U.S. Securities Act that, in each case, will hold the Notes in an X Account in the X/N Clearing System (either directly or indirectly through a participant in the X/N Clearing System (including Euroclear and Clearstream)). The use of these Listing Particulars for any other purpose is not authorized.

These Listing Particulars are for distribution only to persons who (i) are investment professionals, as such term is defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (as amended, the “**Financial Promotion Order**”), (ii) are persons falling within Article 49(2)(a) to (d) (“high net worth companies, unincorporated associations, etc.”) of the Financial

Promotion Order, (iii) are outside the United Kingdom, or (iv) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (“**FSM Act**”)) in connection with the issue or sale of any Notes may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to as “relevant persons”). These Listing Particulars are directed only at relevant persons and must not be acted on or relied on by persons who are not

relevant persons. Any investment or investment activity to which these Listing Particulars relates is available only to relevant persons and will be engaged in only with relevant persons.

These Listing Particulars have been prepared on the basis that all offers of the Notes were made pursuant to an exemption under Article 3 of Directive 2003/71/EC as amended (including amendments by Directive 2010/73/EU) (the “**Prospective Directive**”), as implemented in member states of the European Economic Area (the “**EEA**”), from the requirement to produce a prospectus for offers of the Notes. Accordingly, any person making or intending to make any offer within the EEA of the Notes should only do so in circumstances in which no obligation arises for the Issuer or any of the Initial Purchasers to produce a prospectus for such offer. None of the Issuer, Telenet Group BVBA, Telenet International Finance, or the Initial Purchasers has authorized, nor does any of them authorize, the making of any offer of the Notes through any financial intermediary, other than offers made by the Initial Purchasers, which constitute the final placement of the Notes contemplated in these Listing Particulars.

The Notes are subject to restrictions on transferability and resale and may not be transferred or resold except as permitted under the X/N Clearing System and under the U.S. Securities Act and all other applicable securities laws. See “*Transfer Restrictions*” and “*Book-Entry, Delivery and Form*”. You should be aware that you may be required to bear the financial risks of this investment for an indefinite period of time.

The Issuer, Telenet Group BVBA and Telenet International Finance have prepared these Listing Particulars solely for use in connection with this offering and for applying to the Luxembourg Stock Exchange for the Notes to be admitted to listing on the Official List and to trading on the Euro MTF Market.

You are not to construe the contents of these Listing Particulars as investment, legal or tax advice. You should consult your own counsel, accountant and other advisers as to legal, tax, business, financial and related aspects of a purchase of the Notes. You are responsible for making your own examination of Telenet Group Holding and its subsidiaries and your own assessment of the merits and risks of investing in the Notes. None of the Issuer, Telenet Group BVBA, Telenet International Finance or the Initial Purchasers is making any representation to you regarding the legality of an investment in the Notes by you.

Nothing set forth in these Listing Particulars constitutes a recommendation that any person take or refrain from taking any course of action within the meaning of U.S. Department of Labor Regulation §2510.3-21(b)(1).

The information contained in these Listing Particulars has been furnished by the Issuer, Telenet Group BVBA and Telenet International Finance and other sources the Issuer, Telenet Group BVBA and Telenet International Finance believe to be reliable. No representation or warranty, express or implied, is made by the Initial Purchasers as to the accuracy or completeness of any of the information set out in these Listing Particulars, and nothing contained in these Listing Particulars is or shall be relied upon as a promise or representation by the Initial Purchasers, whether as to the past or the future. These Listing Particulars contain summaries, believed by the Issuer, Telenet Group BVBA and Telenet International Finance to be accurate, of some of the terms of specified documents, but reference is made to the actual documents, copies of which will be made available by the Issuer and Telenet Group BVBA upon request, for the complete information contained in those documents. Copies of such documents and other information relating to the issuance of the Notes is also available for inspection at the specified offices of the Paying and Domiciliary Agent (as defined in these Listing Particulars) for so long as the Notes are Global Notes. All summaries of the documents contained herein are qualified in their entirety by this reference.

Each of the Issuer (except as noted in the following paragraph), Telenet Group BVBA and Telenet International Finance accept responsibility for the information contained in these Listing Particulars pertaining to itself, the Senior Credit Facility and the Note Collateral. Telenet Group BVBA accepts responsibility for any information pertaining to Telenet Group Holding, including the consolidated financial statements of Telenet Group Holding, and any information pertaining to its holding companies, subsidiaries or affiliates contained in these Listing Particulars. Telenet Group BVBA has made all reasonable inquiries and confirmed to the best of its knowledge, information and belief that the information contained in these Listing Particulars with regard to Telenet Group Holding, each of its subsidiaries and affiliates, and the Notes is true and accurate in all material respects, that the opinions and intentions expressed in these Listing Particulars are honestly held, and that it is not aware of any other acts the omission of which would make these Listing Particulars or any statement contained herein misleading in any material respect.

The Issuer accepts responsibility for the information contained in these Listing Particulars (except in relation to the information in respect of Telenet Group Holding, each of its subsidiaries and affiliates, for which Telenet

Group BVBA takes sole responsibility). To the best of the knowledge and belief of each of the Issuer, Telenet Group BVBA and Telenet International Finance, the information contained in these Listing Particulars for which it takes responsibility is in accordance with the facts and does not omit anything likely to affect the import of such information.

No person is authorized in connection with any offering made pursuant to these Listing Particulars to give any information or to make any representation not contained in these Listing Particulars, and, if given or made, any other information or representation must not be relied upon as having been authorized by the Issuer, Telenet Group BVBA, Telenet International Finance or the Initial Purchasers.

The Issuer reserves the right to withdraw this offering of the Notes at any time, and the Issuer and the Initial Purchasers reserve the right to reject any commitment to subscribe for the Notes in whole or in part and to allot to you less than the full amount of Notes subscribed for by you.

The distribution of these Listing Particulars and the offer and sale of the Notes may be restricted by law in some jurisdictions. Persons into whose possession these Listing Particulars or any of the Notes come must inform themselves about, and observe, any restrictions on the transfer and exchange of the Notes. See “*Plan of Distribution*” and “*Transfer Restrictions*”.

These Listing Particulars do not constitute an offer to sell or an invitation to subscribe for or purchase any of the Notes in any jurisdiction in which such offer or invitation is not authorized or to any person to whom it is unlawful to make such an offer or invitation. You must comply with all laws that apply to you in any place in which you buy, offer or sell any Notes or possess these Listing Particulars. You must also obtain any consents or approvals that you need in order to purchase any Notes. None of the Issuer, Telenet Group BVBA, Telenet International Finance, or the Initial Purchasers is responsible for your compliance with these legal requirements.

The Notes are subject to restrictions on resale and transfer as described under “*Plan of Distribution*” and “*Transfer Restrictions*”. By purchasing any Notes, you are deemed to have made certain acknowledgments, representations and agreements as described in those sections of these Listing Particulars. You may be required to bear the financial risks of investing in the Notes for an indefinite period of time.

NOTICE TO U.S. INVESTORS

Each purchaser of the Notes is deemed to have made the representations, warranties and acknowledgements that are described in these Listing Particulars under “*Transfer Restrictions*”. The Notes have not been and will not be registered under the U.S. Securities Act or the securities laws of any state of the United States and are subject to certain restrictions on transfer and resale and may not be transferred or resold except as permitted under the U.S. Securities Act or any other applicable securities laws, pursuant to registration or an exemption therefrom. Prospective purchasers are hereby notified that the seller of any Note may be relying on the exemption from the provisions of Section 5 of the U.S. Securities Act provided by Rule 144A. For a description of certain further restrictions on resale or transfer of the Notes, see “*Transfer Restrictions*.” The Notes may not be offered to the public within any jurisdiction. By accepting delivery of these Listing Particulars, you agree not to offer, sell, resell, transfer or deliver, directly or indirectly, any Note to the public.

NOTICE TO EUROPEAN ECONOMIC AREA INVESTORS

In relation to each member state of the EEA that has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Initial Purchaser has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”), it has not made and will not make an offer of Notes which are the subject of the offering contemplated by these Listing Particulars to the public in that Relevant Member State other than:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant Initial Purchaser or Initial Purchasers nominated by the Issuer for any such offer; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive; provided that no such offer of the Notes shall require the publication by the Issuer or any Initial Purchaser of a prospectus

pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospective Directive other than in reliance of Article 3(2)(b).

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive) and includes any relevant implementing measure in each Relevant Member State and the expression “2010 PD Amending Directive” means Directive 2010/73/EU.

Each subscriber for or purchaser of the Notes in the offering located within a member state of the EEA will be deemed to have represented, acknowledged and agreed that it is a “qualified investor” within the meaning of Article 2(1)(e) of the Prospectus Directive. The Issuer, the Initial Purchasers and their affiliates, and others will rely upon the trust and accuracy of the foregoing representation, acknowledgement and agreement. Notwithstanding the above, a person who is not a qualified investor and who has notified the Initial Purchasers of such fact in writing may, with the consent of the Initial Purchasers, be permitted to subscribe for or purchase the Notes in the offering.

NOTICE TO CERTAIN EUROPEAN INVESTORS

Austria These Listing Particulars have not been or will not be approved and/or published pursuant to the Austrian Capital Markets Act (*Kapitalmarktgesetz*) as amended. Neither these Listing Particulars nor any other document connected therewith constitutes a prospectus according to the Austrian Capital Markets Act and neither these Listing Particulars nor any other document connected therewith may be distributed, passed on or disclosed to any other person in Austria. No steps may be taken that would constitute a public offering of the Notes in Austria and the offering of the Notes may not be advertised in Austria. Any offer of the Notes in Austria will only be made in compliance with the provisions of the Austrian Capital Markets Act and all other laws and regulations in Austria applicable to the offer and sale of the Notes in Austria.

Belgium The Notes are not offered, directly or indirectly, to the public in Belgium. The Notes are being offered in Belgium to qualified investors only, within the meaning of Article 3, §2, (a) and 10 of the Belgian law of June 16, 2006 on the public offering of securities and admission of securities to trading on a regulated market (“**Belgian Prospectus Law**”) and/or on the basis of the other exemptions set out in Article 3, §2 of the Belgian Prospectus Law. Accordingly, these Listing Particulars have not been and will not be notified to, or approved by, the Belgian Financial Services and Markets Authority (*Autoriteit voor Financiële Diensten en Markten/Autorité des services et marchés financiers*) (the “**FSMA**”). This offering cannot be advertised and these Listing Particulars and any other information, circular, brochure or similar documents may not be distributed, directly or indirectly, in Belgium other than to said qualified investors or, as the case may be, other than on the basis of the other exemptions set out in Article 3, §2 of the Belgian Prospectus Law.

Germany The Notes may be offered and sold in Germany only in compliance with the German Securities Prospectus Act (*Wertpapierprospektgesetz*) as amended, the Commission Regulation (EC) No 809/2004 of April 29, 2004 as amended, or any other laws applicable in Germany governing the issue, offering and sale of securities. These Listing Particulars have not been approved under the German Securities Prospectus Act (*Wertpapierprospektgesetz*) or the Directive 2003/71/EC and accordingly the Notes may not be offered publicly in Germany.

France These Listing Particulars have not been prepared in the context of a public offering in France within the meaning of Article L. 411-1 of the *Code Monétaire et Financier* and Title I of Book II of the *Règlement Général of the Autorité des marchés financiers* (the “**AMF**”) and therefore has not been submitted for clearance to the AMF. Consequently, the Notes may not be, directly or indirectly, offered or sold to the public in France, and offers and sales of the Notes are only made in France to providers of investment services relating to portfolio management for the account of third parties (*personnes fournissant le service d’investissement de gestion de portefeuille pour le compte de tiers*) and/or to qualified investors (*investisseurs qualifiés*) and/or to a closed circle of investors (*cercle restreint d’investisseurs*) acting for their own accounts, as defined in and in accordance with Articles L. 411-2 and D. 411-1 of the *Code of Monétaire et Financier*. Neither these Listing Particulars nor any other offering material may be distributed to the public in France.

Italy No action has been or will be taken which could allow an offering of the Notes to the public in the Republic of Italy. Accordingly, the Notes may not be offered or sold directly or indirectly in the Republic of Italy, and neither these Listing Particulars nor any other offering circular, prospectus, form of application, advertisement, other offering material or other information relating to the Issuer or the Notes may be issued, distributed or published in the Republic of Italy, except under circumstances that will result in compliance with all applicable laws, orders, rules and regulations. The Notes cannot be offered or sold to any natural persons or to entities other than qualified investors (according to the definition provided for by the Prospectus Directive) either on the primary or on the secondary market.

Grand Duchy of Luxembourg These Listing Particulars has not been approved by and will not be submitted for approval to the Luxembourg competent authority under the Luxembourg Prospectus Act 2005, the *Commission de surveillance du secteur financier* for the purposes of a public offering or sale, in the Grand Duchy of Luxembourg. Accordingly, the Notes may not be offered or sold to the public in Luxembourg, directly or indirectly, and neither these Listing Particulars nor any other circular, prospectus, form of application, advertisement or other material may be distributed, or otherwise made available in or from, or published in, Luxembourg except in circumstances which do not constitute a public offer of securities to the public, subject to prospectus requirements, in accordance with the Luxembourg Prospectus Act 2005.

The Netherlands The Notes (including rights representing an interest in each global note that represents the Notes) have not been and shall not be, directly or indirectly, offered, sold, transferred or delivered in the Netherlands, other than to qualified investors (*gekwalficeerde beleggers*) within the meaning of article 1:1 of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*).

Spain This offering has not been registered with the Comisión Nacional del Mercado de Valores and therefore the Notes may not be offered in Spain by any means, except in circumstances which do not qualify as a public offer of securities in Spain in accordance with article 30 bis of the Securities Market Act ("*Ley 24/1988, de 28 de julio del Mercado de Valores*") as amended and restated, or pursuant to an exemption from registration in accordance with article 41 of the Royal Decree 1310/2005 ("*Real Decreto 1310/2005, de 4 de noviembre por el que se desarrolla parcialmente la Ley 24/1988, de 28 de julio, del Mercado de Valores, en materia de admisión a negociación de valores en mercados secundarios oficiales, de ofertas públicas de venta o suscripción y del folleto exigible a tales efectos*").

Switzerland The Notes offered hereby are being offered in Switzerland on the basis of a private placement only. These Listing Particulars do not constitute a prospectus within the meaning of Art. 652A of the Swiss Federal Code of Obligations.

United Kingdom These Listing Particulars are directed solely at persons who (i) are investment professionals, as such term is defined in Article 19(5) of the Financial Promotion Order (ii) are persons falling within Article 49(2)(a) to (d) ("**high net worth companies, unincorporated associations, etc.**") of the Financial Promotion Order (iii) are outside the United Kingdom, or (iv) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FMSA) in connection with the issue or sale of any Notes may otherwise be lawfully communicated or caused to be communicated (all such persons together being referred to as "**relevant persons**"). These Listing Particulars must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which these Listing Particulars relates is available only to relevant persons and will be engaged in only with relevant persons. Any person who is not a relevant person should not act or rely on these Listing Particulars or any of its contents.

THESE LISTING PARTICULARS CONTAIN IMPORTANT INFORMATION THAT YOU SHOULD READ BEFORE YOU MAKE ANY DECISION WITH RESPECT TO AN INVESTMENT IN THE NOTES.

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

Historical Financial Information

Unless otherwise indicated, the historical consolidated financial information presented herein has been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (“EU-IFRS”).

These Listing Particulars do not include the financial statements of the Issuer. The Issuer is a financing company that has no material business operations and has not engaged in any material transactions other than the transactions described herein. The Issuer has no prior operating experience other than in connection with the issuance of the Notes and the arrangements with respect thereto, and upon completion of this offering will have no material liabilities or assets, other than the 2017 Finco Loans advanced in connection with the offering of the Notes and its rights under certain related agreements.

These Listing Particulars include: (i) the unaudited condensed consolidated interim financial statements of Telenet Group Holding and its subsidiaries, as of and for the nine months ended September 30, 2017, which have been reviewed by KPMG Bedrijfsrevisoren CVBA, and (ii) the audited consolidated financial statements of Telenet Group Holding and its subsidiaries, as of and for the years ended December 31, 2016, 2015 and 2014, which have been audited by KPMG Bedrijfsrevisoren CVBA (together, the “**Telenet Group Financial Statements**”).

The historical consolidated results of Telenet Group Holding are not necessarily indicative of the consolidated results that may be expected for any future period.

Telenet Group Holding’s consolidated financial results are reported in euros. Unless otherwise indicated, convenience translations into euros have been calculated as of September 30, 2017. Certain amounts and percentages presented herein have been rounded and, accordingly, the sum of amounts presented may not equal the total.

As further described under “*General Description of Telenet’s Business, the Issuer and the Offering—The Issuer and Consolidation of the Issuer by Telenet*” below, following the issuance of the Notes and the related advance of the 2017 Finco Loans to Telenet International Finance, the Issuer is consolidated with Telenet Group Holding and its subsidiaries for the purposes of EU-IFRS.

All references in this document to EUR, euro and € refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended and all references to “U.S.\$” or “\$” are to U.S. dollars.

Other Financial Measures

These Listing Particulars contain non-EU-IFRS measures and ratios, such as Adjusted EBITDA, that are not required by, or presented in accordance with, EU-IFRS. Telenet presents non-EU-IFRS measures because it believes that they and similar measures are widely used by certain investors, securities analysts and other interested parties as supplemental measures of performance and liquidity. The non-EU-IFRS measures may not be comparable to similarly titled measures of other companies, have limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of Telenet’s operating results as reported under EU-IFRS. Non-EU-IFRS measures and ratios, such as Adjusted EBITDA, are not measurements of Telenet’s performance or liquidity under EU-IFRS or any other generally accepted accounting principles. In particular, you should not consider Adjusted EBITDA as an alternative to (a) operating profit or profit for the period (as determined in accordance with EU-IFRS) as a measure of Telenet’s operating performance, or (b) any other measures of performance under generally accepted accounting principles. Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for an analysis of Telenet’s results as reported under EU-IFRS. Some of these limitations are:

- it does not reflect Telenet’s cash expenditures or future requirements for capital expenditures or contractual commitments;
- it does not reflect changes in, or cash requirements for, Telenet’s working capital needs;
- it does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on Telenet’s debts;

- although depreciation, amortization and impairment are non-cash charges, the assets being depreciated and amortized will generally need to be replaced in the future and Adjusted EBITDA does not reflect any cash requirements that would be required for such replacements; and
- some of the exceptional items that Telenet eliminates in calculating Adjusted EBITDA reflect cash payments that were made, or will in the future be made.

In 2017, Telenet changed the way it presents the revenue generated by its fixed and mobile wholesale partners. As of January 1, 2017, this revenue is presented under other revenue, whereas prior to that date Telenet's mobile wholesale revenue was presented under mobile telephony revenue. Telenet has also applied these changes retroactively to the prior periods within "*Summary Condensed Consolidated Historical Financial and Other Data of Telenet*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Telenet*" included elsewhere within these Listing Particulars.

In 2017, Telenet changed the way it presents the expenses incurred for CPE-related truck rolls. As of January 1, 2017, such expenses are recognized under network operating expenses, whereas before that date they were presented under professional services and outsourced labor. Telenet has also applied these changes retroactively to the prior periods within "*Summary Condensed Consolidated Historical Financial and Other Data of Telenet*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Telenet*" included elsewhere within these Listing Particulars.

In 2016, Telenet changed the way it presents the billed reminder fees and carriage fees. As of January 1, 2016, carriage fees have no longer been recognized as revenue, but will be netted off against direct expenses as Telenet considers charged carriage fees and the purchase of distributable content as a single transaction going forward. In addition, reminder fees will be recognized as revenue from January 1, 2016 as these fees are considered to represent a separately identifiable revenue stream, whereas previously reminder fees were recognized net of the related costs in our indirect expense line. The two aforementioned changes in presentation favorably impacted Telenet's revenue for the year ended December 31, 2016 by €14.6 million and for the year ended December 31, 2015 by €13.4 million, but did not impact Adjusted EBITDA and cash flows. Telenet has also applied these changes retroactively to the prior periods within "*Summary Condensed Consolidated Historical Financial and Other Data of Telenet*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Telenet*" included elsewhere within these Listing Particulars.

In 2016, Telenet changed the way it presents total expenses. As a consequence, Telenet now provides more detailed disclosure of its operating expenditure, whereas the vast majority of its operating expenses were previously predominantly captured under "network operating and service costs". The representation of expenses did not impact Adjusted EBITDA and operating profit. Telenet has also applied these changes retroactively to the prior periods within "*Summary Condensed Consolidated Historical Financial and Other Data of Telenet*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Telenet*" included elsewhere within these Listing Particulars.

Definitions

Unless otherwise stated or unless the context otherwise requires:

"1940 Act" refers to the United States Investment Company Act of 1940, as amended.

"1991 Law" refers to the Belgian law of March 21, 1991 on the reform of certain public economic companies (*Wet betreffende de hervorming van sommige economische overheidsbedrijven/Loi portant réforme de certaines entreprises publiques économiques*), as amended from time to time.

“Additional Debt” has the meaning given to such term in the “*Description of the Notes*”. “Additional Dollar Notes” has the meaning given to such term in “*Description of Notes*”. “Additional Euro Notes” has the meaning given to such term in “*Description of Notes*”.

“Additional Notes” refers collectively to the Additional Euro Notes and the Additional Dollar Notes.

“BASE acquisition” means the acquisition by Telenet Group Holding NV of BASE Company NV from subsidiaries of Royal KPN N.V., which was consummated on February 11, 2016.

“BASE Company” refers, as the context may require, (i) historically, to BASE Company NV, a limited liability company (*naamloze vennootschap/société anonyme*) incorporated under the laws of Belgium; and (ii) following the consummation of the BASE acquisition and certain internal reorganizations of the Group, Telenet Group BVBA, a private limited liability company (*besloten vennootschap met beperkte aansprakelijkheid / société privée à responsabilité limitée*) incorporated under the laws of Belgium.

“Belgian Borrower” has the meaning ascribed to it under “*Description of the Notes—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

“Belgian Code of Economic Law” refers to the *Wetboek van economisch recht/Code de droit économique*.

“Belgian Issuer” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

“Belgian Issuer Accession” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

“Belgian Issuer Accession Date” refers to the date on which the Belgian Issuer Accession is consummated. “Belgium” refers to the Kingdom of Belgium.

“BIPT” refers to the Belgian Institute for Postal Services and Telecommunications (*Belgisch Instituut voor Postdiensten en Telecommunicatie/Institut belge des services postaux et des télécommunications*).

“Clearing Agreement” refers to the clearing services agreement (*overeenkomst van dienstverlening inzake de uitgifte van gedematerialiseerde effecten*) with respect to the Notes entered into between the Issuer, the NBB, and the Paying and Domiciliary Agent.

“Clearstream” refers to Clearstream Banking S.A.

“Coditel Acquisition” refers to the sale by Coditel Holding of its wholly owned subsidiary Coditel Brabant (and, indirectly, its subsidiary Coditel Lux) to Telenet Group BVBA.

“Coditel Brabant” refers to Coditel Brabant SPRL, a private limited liability (*société privée à responsabilité limitée*) incorporated under the laws of Belgium, with registered office at 26 Rue des Eglises, 1000 Brussels, registered with the Crossroad Bank for Enterprises under number 0403.107.452.

“Coditel Holding” refers to Coditel Holding II S.à r.l., a private limited liability company (*société à responsabilité limitée*) incorporated under the laws of Luxembourg.

“Coditel Lux” refers to Coditel S.à r.l., a private limited liability (*société à responsabilité limitée*) incorporated under the laws of Luxembourg, having its registered office at 283, route d’Arlon, L-8011 Strassen, Luxembourg and registered with the Luxembourg Trade and Companies Register under number B112067.

“Collateral Sharing Agreement” refers to the collateral sharing and voting instruction agreement dated on or about the Issue Date between, among others, the Issuer, the Trustee and the Security Trustee.

“Combined Network” refers to Telenet’s hybrid fiber-coaxial network in Flanders and parts of Brussels, including both the Telenet Network and the Partner Network, but excluding the cable network in parts of Brussels and parts of Luxembourg, which Telenet acquired through the acquisition of SFR Belux in June 2017.

“CRC” refers to the Belgian Conference of Regulators for the Electronic Communication Sector, which includes the BIPT, the VRM, the CSA and the Medienrat.

“De Vijver Media” refers to De Vijver Media NV, a limited liability company (*naamloze vennootschap/ société anonyme*) incorporated under the laws of Belgium, with registered office at Harensesteenweg 228, 1800 Vilvoorde, registered with the Crossroad Bank for Enterprises under number 0466.137.359.

“Dollar Notes” refers to the \$1,000.0 million aggregate principal amount 5.500% senior secured notes due 2028 offered hereby.

“Dollar Notes Initial Purchasers” refers to Deutsche Bank AG, London Branch, BNP Paribas, Coöperatieve Rabobank U.A., Credit Suisse Securities (Europe) Limited, Goldman Sachs International, J.P. Morgan Securities LLC, RBC Capital Markets, LLC, Scotia Capital (USA) Inc. and Société Générale.

“Electronic Communications Law” refers to the Belgian law of June 13, 2005 (*Wet betreffende de elektronische communicatie/Loi relative aux communications électroniques*), as amended from time to time.

“EU” refers to the European Union.

“EU-IFRS” refers to International Financial Reporting Standards as adopted by the European Union. “Euroclear” refers to Euroclear Bank SA/NV.

“Euro Notes” refers to the €600.0 million aggregate principal amount 3.500% senior secured notes due 2028 offered hereby.

“Euro Notes Initial Purchasers” refers to Credit Suisse Securities (Europe) Limited, BNP Paribas, Coöperatieve Rabobank U.A., Deutsche Bank AG, London Branch, Goldman Sachs International, J.P. Morgan Securities plc, Merrill Lynch International, RBC Europe Limited and Société Générale.

“Facility AJ” refers to the dollar denominated term loan facility AJ giving effect to the Finco Loan AJ, under the Senior Credit Facility, between the Issuer as lender and Telenet International Finance as borrower.

“Facility AK” refers to the euro denominated term loan facility AK giving effect to the Finco Loan AK, under the Senior Credit Facility, between the Issuer as lender and Telenet International Finance as borrower.

“Fifth Senior Credit Facility Amendments” means the significant amendments to the Senior Credit Facility set forth in Schedule 8 of Annexes B and C and Schedule B of Schedule 11 of Annexes B and C, in these Listing Particulars.

“Finco Accession Agreement AJ” refers to the agreement between, *inter alios* the Issuer, Telenet International Finance and the facility agent and the security agent in respect of the Senior Credit Facility, to be dated on or

about the Issue Date, pursuant to which the Issuer accedes as a lender under the Senior Credit Facility in relation to Facility AJ.

“Finco Accession Agreement AK” refers to the agreement between, inter alios the Issuer, Telenet International Finance and the facility agent and the security agent in respect of the Senior Credit Facility, to be dated on or about the Issue Date, pursuant to which the Issuer accedes as a lender under the Senior Credit Facility in relation to Facility AK.

“Finco Accession Agreements” refers, collectively, to (i) the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, and (ii) any additional accession agreement to the Senior Credit Facility, or similar instrument or agreement, pursuant to which the Issuer advances the proceeds of the Notes (including any Additional Notes) or Additional Debt into the Telenet Bank Group.

“Finco Loan AJ” refers to the \$1,000.0 million finco loan. “Finco Loan AK” refers to the €600.0 million finco loan.

“Finco Loans” refers, collectively, to (i) the 2017 Finco Loans or the New Finco Loans, as applicable, and (ii) any additional loans or advances made by the Issuer to a member of the Telenet Bank Group pursuant to a Finco Accession Agreement.

“Finco Loans Borrower Exchange” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

“First Senior Credit Facility Amendments” means the significant amendments to the Senior Credit Facility set forth in Schedule 4 of Annexes B and C, and Schedule 4 of Schedule 11 of Annexes B and C, in these Listing Particulars.

“Flanders” refers to the Flemish region of Belgium, excluding Brussels.

“Fourth Senior Credit Facility Amendments” means the significant amendments to the Senior Credit Facility set forth in Schedule 7 of Annexes B and C, and Schedule 7 of Schedule 11 of Annexes B and C, in these Listing Particulars.

“Indenture” refers to the indenture governing the Notes.

“Initial Purchasers” refers collectively to the Dollar Notes Initial Purchasers and the Euro Notes Initial Purchasers.

“Initial Telenet Borrower” refers to Telenet International Finance.

“Intercreditor Agreement” refers to the intercreditor agreement, as amended, originally entered into on October 10, 2007 among Telenet BVBA, the original intercompany creditors party thereto, the original subordinated debtors party thereto, the security providers party thereto, ABN Amro Bank N.V., BNP Paribas S.A. and J.P. Morgan plc, as mandated lead arrangers, the financial institutions party thereto as original lenders, The Bank of Nova Scotia, as facility agent, and KBC Bank NV, as security agent.

“Interkabel” refers to Interkabel Vlaanderen CVBA, a limited liability company (*coöperatieve vennootschap met beperkte aansprakelijkheid / société coopérative à responsabilité limitée*) incorporated under the laws of Belgium, with registered office at Trichterheideweg 8, 3500 Hasselt, registered with the Crossroad Bank for Enterprises under number 0458.440.014.

“Issue Date” refers to the date of first issuance of the Notes.

“Issuer” refers (i) prior to the Belgian Issuer Accession Date, to Telenet Finance Luxembourg Notes S.à r.l., a private limited liability company (*société à responsabilité limitée*), incorporated under the laws of Luxembourg, having its registered office at 2, Rue Peternelchen, L-2370 Howald, Luxembourg, registered with the Luxembourg Trade and Companies Register under number B219682 and (ii) following the Belgian Issuer Accession Date, the Belgian Issuer.

“Issuer’s Accounts” refers to one or more accounts in which payments from the 2017 Finco Loans are deposited or collected for and on behalf of the Issuer.

“July 2011 Decision” refers to the July 1, 2011 decision of the CRC concerning the analysis of the broadcasting market in Belgium.

“Liberty Global” refers to Liberty Global plc, with or without its consolidated subsidiaries, as the context requires.

“Liberty Global Europe” refers to Liberty Global Europe, LLC, with or without its consolidated subsidiaries, as the context requires.

“Liberty Global Consortium” refers to Liberty Global, Binan Investments B.V. and any other subsidiary of Liberty Global holding shares of Telenet Group Holding, from time to time.

“Liquidation Dispreference Shares” refers to the shares of Telenet Group Holding, owned by Interkabel and the Liberty Global Consortium, which are subject to a liquidation dispreferential treatment in the case of a liquidation of Telenet Group Holding, and which can be converted into ordinary shares on the basis of a 1.04-for-1 ratio.

“Luxembourg” refers to the Grand Duchy of Luxembourg.

“Luxembourg GAAP” refers to the generally accepted accounting principles of Luxembourg. “Luxembourg Listing Agent” refers to The Bank of New York Mellon SA/NV, Luxembourg Branch.

“Lycamobile” refers to Lycamobile Belgium Limited, a private company limited by shares incorporated under the laws of Ireland, with registered office at 22 Clanwilliam Square, Grand Canal Quay, Dublin 2, Ireland, with registered number 455591.

“Lycamobile MVNO” refers to the MVNO agreement entered into between Telenet Group BVBA and Lycamobile dated February, 10 2017 and with effect as of August 1, 2017.

“MEDIALAAN” refers to MEDIALAAN NV, a limited liability company (*naamloze vennootschap/société anonyme*) incorporated under the laws of Belgium, with registered office at MEDIALAAN 1, 1800 Vilvoorde, registered with the Crossroad Bank for Enterprises under number 0432.306.234.

“MICs” refers to the mixed intermunicipalities in Belgium.

“NBB” refers to the National Bank of Belgium or any successor thereto.

“Nethys” refers to Nethys SA, a limited liability company (*naamloze vennootschap/société anonyme*) incorporated under the laws of Belgium, with registered office at rue Louvrex 95, 4000 Liège, registered with the Crossroad Bank for Enterprises under number 0465.607.720, and the main cable operator in the Walloon Region of Belgium, which acquired the teledistribution business of Tecteo SCRL (operated under the name “VOO”) through a contribution of branch of activities by the latter into Nethys SA in June 2014.

“New Finco Accession Agreements” refers collectively to the New Finco Accession Agreement AJ-B and the New Finco Accession Agreement AK-B.

“New Finco Accession Agreement AJ-B” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

“New Finco Accession Agreement AK-B” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

“New Finco Loan AJ-B” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

“New Finco Loan AJ-K” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

“New Finco Loans” refers collectively to the New Finco Loan AJ-B and the New Finco Loan AK-B.

“New Telenet Service Agreement” refers to the service agreement to be entered into between the Issuer, Telenet International Finance and Telenet Group BVBA, substantially in the form of the Telenet Service Agreement, in respect of the payment of certain ongoing costs, expenses and taxes which may be incurred by the Issuer in connection with its entry into and performance of its obligations in connection with the Notes, following the Finco Loans Borrower Exchange. See “*Description of the Notes—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”.

“Nextel” refers to TeleLinQ NV and its subsidiaries Nextel NV, Nextel Telecom Solutions NV and TelelinQ Distribution & Finance NV.

“Note Collateral” has the meaning given to such term in “*Description of the Notes*”. “Noteholder” refers to a holder of the Notes.

“Notes” refers collectively to the Dollar Notes and the Euro Notes.

“Offering Memorandum” refers to the offering memorandum dated November 29, 2017, pursuant to which the Issuer offered the Notes.

“Orange Belgium” refers to Orange Belgium NV, formerly named Mobistar SA/NV, a limited liability company (*naamloze vennootschap*) incorporated under the laws of Belgium, with registered office at Avenue du Bourget 3, 1140 Evere, Belgium, and registered with the Crossroads Bank for Enterprises under number 0440.232.718 (RLP Brussels).

“Ortel Mobile” refers to Ortel Mobile NV, a limited liability company (*naamloze vennootschap*) incorporated under the laws of Belgium, with registered office at Bedrijvenlaan 4, 2800 Mechelen, Belgium, and registered with the Crossroads Bank for Enterprises under number 0880.187.304 (RLP Antwerp, division Mechelen).

“Partner Network” refers to the network owned by Interkabel and the PICs, encompassing about one third of Flanders, over which Telenet provides its services based on a long-term emphyteotical lease and long-term usage rights.

“PICs” refers to pure intermunicipalities in Belgium.

“PICs Agreement” refers to an agreement dated June 28, 2008 entered into between Telenet, Interkabel, INDI ESV and four PICs in Flanders (Intermedia, Integan, WVEM and PBE).

“Paying and Domiciliary Agent” refers to ING Belgium SA/NV acting in its capacity as the Paying Agent and the Domiciliary Agent.

“Proximus” refers to Proximus NV/SA, formerly named Belgacom NV/SA, a public limited liability company (*naamloze vennootschap van publiek recht/société anonyme de droit public*) incorporated under the laws of Belgium, with registered office at Koning Albert II-laan 27, 1030 Brussels, registered with the Crossroad Bank for Enterprises under number 0202.239.951.

“Q4-2017 Refinancing Transactions” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—The Refinancing and Other Transactions—Other Financing Transactions*”.

“Refinancing” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—The Refinancing and Other Transactions*”.

“Registrar” refers to The Bank of New York Mellon SA/NV, Luxembourg Branch acting in its capacity as registrar under the Indenture.

“Related Agreements” refers to (i) prior to the Finco Loans Borrower Exchange, the Telenet Service Agreement and the 2017 Telenet Fee Letters and (ii) following the Finco Loans Borrower Exchange, the New Telenet Service Agreement.

“SBS” refers to SBS Belgium NV, a limited liability company (*naamloze vennootschap/société anonyme*) incorporated under the laws of Belgium, with registered office at Harenssesteenweg 224, 1800 Vilvoorde, registered with the Crossroad Bank for Enterprises under number 0473.307.540.

“Second Senior Credit Facility Amendments” means the significant amendments to the Senior Credit Facility set forth in Schedule 5 of Annexes B and C, and Schedule 5 of Schedule 11 of Annexes B and C, in these Listing Particulars.

“Security Trustee” refers to The Bank of New York Mellon, London Branch acting in its capacity as security trustee with respect to the Note Collateral.

“Senior Credit Facility” refers to the Senior Secured Credit Facility Agreement dated August 1, 2007 as amended from time to time, originally between, *inter alios*, Telenet BVBA, Telenet International Finance, the obligors listed therein, The Bank of Nova Scotia as facility agent, and KBC Bank NV as security agent.

“Senior Credit Facility Amendments” means the First Senior Credit Facility Amendments, the Second Senior Credit Facility Amendments, the Third Senior Credit Facility Amendments, the Fourth Senior Credit Facility Amendments, the Fifth Senior Credit Facility Amendments, the Sixth Senior Credit Facility Amendments and the Seventh Senior Credit Facility Amendments.

“Senior Secured Notes” means, collectively, the Telenet Finance V Luxembourg Notes and the Telenet Finance VI Luxembourg Notes.

“Seventh Senior Credit Facility Amendments” means the significant amendments to the Senior Credit Facility set forth in Schedule 10 of Annexes B and C, and Schedule 10 of Schedule 11 of Annexes B and C, in these Listing Particulars.

“SFR Belux” refers to Coditel Brabant and Coditel Lux.

“Sixth Senior Credit Facility Amendments” means the significant amendments to the Senior Credit Facility set forth in Schedule 9 of Annexes B and C, and Schedule 9 of Schedule 11 of Annexes B and C, in these Listing Particulars.

“Telenet” or “Telenet Group Holding” refers to Telenet Group Holding NV, a limited liability company (*naamloze vennootschap/société anonyme*) incorporated under the laws of Belgium, with registered office at Neerveldstraat 105, 1200 Sint-Lambrechts-Woluwe, registered with the Crossroad Bank for Enterprises under number 0477.702.333, with or without its consolidated subsidiaries, as the context requires.

“Telenet Articles of Association” refers to the articles of association of Telenet Group Holding. “Telenet Bank Group” has the meaning given to the term “Group” in the Senior Credit Facility.

“Telenet Belgian Company” refers to each member of the Telenet Group that is organized under the laws of Belgium and has its center of main interests (within the meaning of the Regulation (EU) No. 2015/848 of the European Parliament and of the Council of May 20, 2015 on insolvency proceedings (recast)) in Belgium.

“Telenet Board of Directors” refers to the board of directors of Telenet Group Holding, from time to time.

“Telenet BVBA” refers to Telenet BVBA, a limited liability company (*besloten vennootschap met beperkte aansprakelijkheid/société privée à responsabilité limitée*) incorporated under the laws of Belgium, with registered office at Liersesteenweg 4, 2800 Mechelen, registered with the Crossroad Bank for Enterprises under number 0473.416.418, with or without its subsidiaries, as the context requires.

“Telenet BVBA Board of Directors” refers to the board of directors of Telenet BVBA, from time to time.

“Telenet December 31, 2016 Consolidated Financial Statements” refers to Telenet Group Holding’s audited consolidated financial statements as of December 31, 2016 and for the year ended December 31, 2016 and the notes thereto, which have been audited by KPMG Bedrijfsrevisoren CVBA, included in these Listing Particulars.

“Telenet December 31, 2015 Consolidated Financial Statements” refers to Telenet Group Holding’s audited consolidated financial statements as of December 31, 2015 and for the year ended December 31, 2015 and the notes thereto, which have been audited by KPMG Bedrijfsrevisoren CVBA, included in these Listing Particulars.

“Telenet December 31, 2014 Consolidated Financial Statements” refers to Telenet Group Holding’s audited consolidated financial statements as of December 31, 2014 and for the year ended December 31, 2014 and the notes thereto, which have been audited by KPMG Bedrijfsrevisoren CVBA, included in these Listing Particulars.

“Telenet Dollar Fee Letter” refers to the fee letter agreement to be entered into between the Issuer, Telenet International Finance and Telenet Group BVBA in respect of the payment of certain fees incurred in connection with the offering of the Notes. See “*Description of the Senior Credit Facility and the Related Agreements—Description of the Related Agreements*”.

“Telenet Euro Fee Letter” refers to the fee letter agreement to be entered into between the Issuer, Telenet International Finance and Telenet Group BVBA in respect of the payment of certain fees incurred in connection with the offering of the Notes. See “*Description of the Senior Credit Facility and the Related Agreements—Description of the Related Agreements*”.

“Telenet Facility Agent” means The Bank of Nova Scotia, acting as facility agent pursuant to the Senior Credit Facility or any successor or replacement Telenet Facility Agent, acting in such capacity.

“Telenet Fee Letters” refers, collectively, to the 2017 Telenet Fee Letters and any additional fee letter between the Issuer and a member of the Telenet Bank Group, relating to the payment of certain fees to the Issuer and pursuant to which the Issuer will allocate a portion of such fees equal to the original issue discount (if any) on Additional Notes or Additional Debt to the relevant member of the Telenet Bank Group under the relevant Finco Accession Agreement.

“Telenet Finance V Luxembourg” refers to Telenet Finance V Luxembourg S.C.A., a corporate partnership limited by shares, *société en commandite par actions*, incorporated under the laws of the Grand Duchy of Luxembourg, having its registered office at 2, Rue Peternelchen, L-2370 Howald, Luxembourg, registered with the Luxembourg Trade and Companies Register under number B164890, and the issuer of the Telenet Finance V Luxembourg Notes.

“Telenet Finance VI Luxembourg” refers to Telenet Finance VI Luxembourg S.C.A., a corporate partnership limited by shares, *société en commandite par actions*, incorporated under the laws of the Grand Duchy of Luxembourg, having its registered office at 2, Rue Peternelchen, L-2370 Howald, Luxembourg, registered with the Luxembourg Trade and Companies Register under number B171030, and the issuer of the Telenet Finance VI Luxembourg Notes.

“Telenet Finance V Luxembourg Notes” refers collectively to (i) the Telenet Finance V Luxembourg 6¹/₄% Notes and (ii) the Telenet Finance V Luxembourg 6³/₄% Notes.

“Telenet Finance V Luxembourg 6¹/₄% Notes” refers to the €450 million aggregate principal amount of 6¹/₄% senior secured notes due 2022, issued by Telenet Finance V Luxembourg and redeemed in full on June 13, 2017.

“Telenet Finance V Luxembourg 6³/₄% Notes” refers to the €250 million aggregate principal amount of 6³/₄% senior secured notes due 2024, issued by Telenet Finance V Luxembourg.

“Telenet Finance VI Luxembourg Notes” refers to the €530 million aggregate principal amount of 4⁷/₈% senior secured notes due 2027 issued by Telenet Finance VI Luxembourg.

“Telenet Financing USD” refers to Telenet Financing USD LLC, a limited liability company under the Delaware Limited Liability Company Act.

“Telenet Group” refers to Telenet Group Holding NV and its subsidiaries from time to time.

“Telenet Group BVBA” refers to Telenet Group BVBA, a private limited liability company (*besloten vennootschap met beperkte aansprakelijkheid/société privée à responsabilité limitée*) incorporated under the laws of Belgium, with registered office at Neerveldstraat 105, 1200 Sint-Lambrechts-Woluwe, registered with the Crossroad Bank for Enterprises under number 0462.925.669, with or without its subsidiaries, as the context requires.

“Telenet Group Financial Statements” refers to the Telenet September 30, 2017 Condensed Consolidated Interim Financial Statements, the Telenet December 31, 2016 Consolidated Financial Statements, the Telenet December 31, 2015 Consolidated Financial Statements and the December 31, 2014 Consolidated Financial Statements.

“Telenet International Finance” refers to Telenet International Finance S.à r.l., a private limited liability company (*société à responsabilité limitée*) established under the laws of Luxembourg, having its registered office at 2, Rue Peternelchen, L-2370 Howald, Luxembourg and registered with the Luxembourg Trade and Companies Register under number B155066.

“Telenet Lender” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—Brief Description of the Structure of the Offering.*”

“Telenet Network” refers to Telenet’s proprietary network, encompassing parts of Brussels and about two thirds of Flanders.

“Telenet September 30, 2017 Condensed Consolidated Interim Financial Statements” refers to Telenet Group Holding’s unaudited condensed consolidated interim financial statements as of September 30, 2017 and for the nine-month period then ended, which have been reviewed by KPMG Bedrijfsrevisoren CVBA, included in these Listing Particulars.

“Telenet Service Agreement” refers to the service agreement to be entered into between the Issuer, Telenet International Finance and Telenet Group BVBA in respect of the payment of certain ongoing costs, expenses and taxes which may be incurred by the Issuer in connection with its entry into and performance of its obligations in connection with the Notes. See “*Description of the Senior Credit Facility and the Related Agreements—Description of the Related Agreements.*”

“Telenet Tecteo Bidco” refers to Telenet Tecteo Bidco NV, a limited liability company (*naamloze vennootschap/société anonyme*) incorporated under the laws of Belgium, with registered office at Liersesteenweg 4, 2800 Mechelen, registered with the Crossroad Bank for Enterprises under number 0835.821.779.

“Term Loan Refinancing” has the meaning ascribed to it under “*General Description of Telenet’s Business, the Issuer and the Offering—The Refinancing and Other Transactions—Other Financing Transactions.*”

“Third Senior Credit Facility Amendments” means the significant amendments to the Senior Credit Facility set forth in Schedule 6 of Annexes B and C, and Schedule 6 of Schedule 11 of Annexes B and C, in these Listing Particulars.

“Transfer Agent” refers to The Bank of New York Mellon SA/NV, Luxembourg Branch, acting in its capacity as a transfer agent under the Indenture.

“Trustee” refers to The Bank of New York Mellon, London Branch acting in its capacity as trustee under the Indenture.

“U.S. Exchange Act” refers to the U.S. Securities Exchange Act of 1934, as amended. “U.S. GAAP” refers to generally accepted accounting principles in the United States. “U.S. Securities Act” refers to the U.S. Securities Act of 1933, as amended.

“Volcker Rule” refers to Section 13 of the U.S. Bank Holding Company Act of 1956, as amended, together with the rules, regulations and published guidance promulgated thereunder.

“X Account” refers to an exempt securities account with the X/N Clearing System. See “*Tax Considerations—X/N Clearing System of the NBB.*”

“X/N Clearing System” refers to the X/N securities settlement system operated by the NBB.

For an explanation or definition of certain other terms used in these Listing Particulars, see “*Glossary*” starting on page G-1 of these Listing Particulars.

SUBSCRIBER, MARKET AND INDUSTRY DATA

Subscriber Data

RGU is separately a basic video subscriber, enhanced video subscriber, internet subscriber or fixed-line telephony subscriber. A home, residential multiple dwelling unit, or commercial unit may contain one or more RGUs. For example, if a residential customer subscribes to Telenet's enhanced video service, fixed-line telephony service and broadband internet service, the customer would constitute three RGUs. Total RGUs is the sum of basic video, enhanced video, internet and fixed-line telephony subscribers. RGUs generally are counted on a unique premises basis such that a given premises does not count as more than one RGU for any given service. On the other hand, if an individual receives one of Telenet's services in two premises (e.g., a primary home and a vacation home), that individual will count as two RGUs for that service. Each bundled cable, internet or fixed-line telephony service is counted as a separate RGU regardless of the nature of any bundling discount or promotion. Non-paying subscribers are counted as subscribers during their free promotional service period. Some of these subscribers may choose to disconnect after their free service period. Services offered without charge on a long-term basis (e.g., VIP subscribers, free service to employees) generally are not counted as RGUs. Telenet does not include subscriptions to mobile and premium entertainment services in its externally reported RGU counts.

The subscriber data included in these Listing Particulars, including penetration rates and ARPU, are determined by management, are not part of the Telenet Group Financial Statements and have not been audited or otherwise reviewed by an outside auditor, consultant or expert. Telenet defines ARPU per customer relationship as the average monthly subscription revenue per average customer relationship and is calculated by dividing the average monthly subscription revenue (excluding mobile services, Business-to-Business ("B2B") services, interconnect, channel carriage fees, mobile handset sales and installation fees) for the indicated period, by the average of the opening and closing balances for customer relationships for the period.

Telenet's ARPU per mobile subscriber calculation that excludes interconnect revenue refers to the average monthly mobile subscription revenue per average mobile subscribers in service and is calculated by dividing the average monthly mobile subscription revenue (excluding activation fees, handset sales and late fees) for the indicated period, by the average of the opening and closing balances of mobile subscribers in service for the period. Telenet's ARPU per mobile subscriber calculation that includes interconnect revenue increases the numerator in the above-described calculation by the amount of mobile interconnect revenue during the period.

Market and Industry Data

Telenet operates in an industry in which it is difficult to obtain precise market and industry information. Telenet has generally obtained the market and competitive position data in these Listing Particulars from industry publications and from surveys or studies conducted by third party sources that it believes to be reliable.

However, none of the Issuer, Telenet Group BVBA, Telenet International Finance, the Initial Purchasers or any of their respective advisors can verify the accuracy and completeness of such information and none of the Issuer, Telenet Group BVBA, Telenet International Finance, the Initial Purchasers or any of their respective advisors has independently verified such market and position data. Telenet Group BVBA does, however, accept responsibility for the correct reproduction of this information and, as far as it is aware and is able to ascertain from information published, no facts have been omitted that would render the reproduced information inaccurate or misleading.

In addition, in many cases Telenet has made statements in these Listing Particulars regarding its industry and Telenet's position in the industry based on its experience and its own investigation of market conditions. None of the Issuer, Telenet Group BVBA, Telenet International Finance, the Initial Purchasers or any of their respective advisors can assure you that any of these assumptions are accurate or correctly reflect its position in the industry, and none of its internal surveys or information has been verified by independent sources.

EXCHANGE RATE INFORMATION

Telenet presents its consolidated financial statements in euro. Telenet has set forth in the table below, for the periods and dates indicated, certain information regarding the exchange rates between U.S. dollars and the euro based on the market rates at 6:00 p.m. London time. Telenet has provided this exchange rate information solely for your convenience. Neither Telenet nor the Issuer makes any representation that any amount of currencies specified in the table below has been, or could be, converted into the applicable currency at the rates indicated or any other rate. The market rate at 6:00 p.m. London time of the euro on November 21, 2017 was \$1.1743 = €1.00.

	U.S.\$ per €1.00			
	Period Average⁽¹⁾	High	Low	Period End
Year				
2014.....	1.33	1.39	1.21	1.21
2015.....	1.11	1.21	1.05	1.09
2016.....	1.11	1.16	1.04	1.05
Month				
May 2017	1.11	1.13	1.08	1.12
June 2017	1.12	1.14	1.11	1.14
July 2017	1.15	1.18	1.13	1.18
August 2017	1.18	1.21	1.17	1.19
September 2017	1.19	1.21	1.17	1.18
October 2017	1.18	1.19	1.16	1.16
November 2017 (through November 21, 2017).....	1.17	1.18	1.16	1.17

(1) Period Average means the average of the market rates at 6:00 pm London time during the relevant period.

Fluctuations in the exchange rate between the euro and the U.S. dollar in the past are not necessarily indicative of fluctuations that may occur in the future.

FORWARD LOOKING STATEMENTS

These Listing Particulars contain “forward-looking statements” as that term is defined by the U.S. federal securities laws. These forward-looking statements include, but are not limited to, statements other than statements of historical facts contained in these Listing Particulars, including, but without limitation, those regarding Telenet’s future financial condition, results of operations and business, Telenet’s product, acquisition, disposition and finance strategies, Telenet’s capital expenditure priorities, regulatory or technological developments in the market, subscriber growth and retention rates, competitive and economic factors, the maturity of its markets, anticipated cost increases, liquidity, credit risk and target leverage levels. In some cases, you can identify these statements by terminology such as “aim”, “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “forecast”, “guidance”, “intend”, “may”, “plan”, “potential”, “predict”, “project”, “should”, and “will” and similar words used in these Listing Particulars.

By their nature, forward-looking statements are subject to numerous assumptions, risks and uncertainties. Many of these assumptions, risks and uncertainties are beyond the control of the Issuer or Telenet. Accordingly, actual results may differ materially from those expressed or implied by the forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding Telenet’s present and future business strategies and the environment in which it operates. The Issuer and Telenet caution readers not to place undue reliance on the statements, which speak only as of the date of these Listing Particulars, and the Issuer and Telenet expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein, to reflect any change in its expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based.

Where, in any forward-looking statement, the Issuer or Telenet expresses an expectation or belief as to future results or events, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the expectation or belief will result or be achieved or accomplished.

Risks and uncertainties that could cause actual results to vary materially from those anticipated in the forward-looking statements included in these Listing Particulars include those described under “*Risk Factors*”.

The following are some but not all of the factors affecting Telenet that could cause actual results or events to differ materially from anticipated results or events:

- economic and business conditions and industry trends;
- the competitive environment across the industries in which we operate, including competitor responses to Telenet’s products and services;
- fluctuations in currency exchange rates and interest rates;
- instability in global financial markets, including sovereign debt issues and related fiscal reforms;
- consumer disposable income and spending levels, including the availability and amount of individual consumer debt;
- changes in consumer television viewing preferences and habits;
- consumer acceptance of Telenet’s existing service offerings, including Telenet’s cable television, broadband internet, fixed-line telephony, mobile and business service offerings, and of new technology, programming alternatives and other products and services that we may offer in the future;
- Telenet’s ability to manage rapid technological changes;
- Telenet’s ability to maintain or increase the number of subscriptions to its cable television, broadband internet, fixed-line telephony and mobile service offerings and its average revenue per household;
- Telenet’s ability to provide satisfactory customer service, including support for new and evolving products and services;

- Telenet's ability to maintain or increase rates to its subscribers or to pass through increased costs to its subscribers;
- the impact of Telenet's future financial performance, or market conditions generally, on the availability, terms and deployment of capital;
- changes in, or failure or inability to comply with, government regulations and adverse outcomes from regulatory proceedings;
- government intervention that requires opening Telenet's broadband distribution networks to competitors;
- Telenet's ability to obtain regulatory approval and satisfy other conditions necessary to close acquisitions and dispositions and the impact of conditions imposed by competition and other regulatory authorities in connection with acquisitions;
- Telenet's ability to successfully acquire new businesses and to integrate, realize anticipated efficiencies from, and implement its business plan with respect to, the businesses we have acquired, such as BASE Company (now Telenet Group BVBA), Nextel and SFR Belux, or that we expect to acquire;
- changes in laws or treaties relating to taxation, or the interpretation thereof;
- changes in laws and government regulations that may impact the availability and cost of capital and the derivative instruments that hedge certain of Telenet's financial risks;
- the ability of suppliers and vendors (including Telenet's third-party wireless network providers under Telenet's mobile virtual network operator (MVNO) arrangements) to timely deliver quality products, equipment, software, services and access;
- the availability of attractive programming for Telenet's video services and the costs associated with such programming, including retransmission and copyright fees payable to public and private broadcasters;
- uncertainties inherent in the development and integration of new business lines and business strategies;
- Telenet's ability to adequately forecast and plan future network requirements;
- the availability of capital for the acquisition and/or development of telecommunications networks and services;
- problems we may discover post-closing with the operations, including the internal controls and financial reporting process, of businesses we acquire;
- the leakage of sensitive customer data;
- the outcome of any pending or threatened litigation; the loss of key employees and the availability of qualified personnel;
- changes in the nature of key strategic relationships with partners and joint ventures; and
- events that are outside of Telenet's control, such as political unrest in international markets, terrorist attacks, malicious human acts, natural disasters, pandemics and other similar events.

The broadband distribution and mobile service industries are changing rapidly and, therefore, the forward- looking statements of expectations, plans and intent in these Listing Particulars are subject to a significant degree of risk. These forward-looking statements and such risks, uncertainties and other factors speak only as of the date of these Listing Particulars, and the Issuer and Telenet expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein, to reflect any change in their expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based.

The cautionary statements set forth above should be considered in connection with any subsequent written or oral forward-looking statements that the Issuer or Telenet or persons acting on their behalf may issue. Telenet does not undertake any obligation to review or confirm analysts' expectations or estimates or to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of these Listing Particulars.

The Issuer and Telenet disclose important factors that could cause their actual results to differ materially from their expectations in these Listing Particulars. These cautionary statements qualify all forward- looking statements attributable to the Issuer or Telenet or persons acting on their behalf. When Telenet indicates that an event, condition or circumstance could or would have an adverse effect on it, it means to include effects upon business, financial and other conditions, results of operations and ability to make payments on the 2017 Finco Loans, which in turn would have an adverse effect on the Issuer's ability to make payments under the Notes.

AVAILABLE INFORMATION

For so long as any of the Notes are “restricted securities” within the meaning of Rule 144(a)(3) under the U.S. Securities Act, the Issuer will, during any period in which it is neither subject to the reporting requirements of Section 13 or 15(d) of the U.S. Exchange Act, nor exempt from the reporting requirements of the U.S. Exchange Act under Rule 12g3-2(b) thereunder, provide to the holder or beneficial owner of such restricted securities or to any prospective purchaser of such restricted securities designated by such holder or beneficial owner, in each case upon the written request of such holder, beneficial owner or prospective purchaser, the information required to be provided by Rule 144A(d)(4) under the U.S. Securities Act.

Neither the Issuer nor Telenet is currently subject to the periodic reporting and other information requirements of the U.S. Exchange Act. However, pursuant to the Indenture and so long as the Notes are outstanding, the Issuer will furnish periodic information to holders of the Notes. See “*Description of the Notes—Certain Covenants—Information*”.

TAX CONSIDERATIONS

Prospective purchasers of the Notes are advised to consult their own tax advisors as to the consequences of purchasing, holding and disposing of the Notes, including, without limitation, the application of U.S. federal tax laws to their particular situations, as well as any consequences to them under the laws of any other taxing jurisdiction, and the consequences of purchasing the Notes at a price other than the initial issue price in the offering. See “*Tax Considerations*”.

TRADEMARKS AND TRADE NAMES

Telenet owns or has rights to certain trademarks or trade names that it uses in conjunction with the operation of its businesses. Each trademark, trade name or service mark of any other company appearing in these Listing Particulars is the property of its respective holder.

GENERAL DESCRIPTION OF TELENET'S BUSINESS, THE ISSUER AND THE OFFERING

This general description of Telenet's business, the Issuer and the offering highlights selected information contained in these Listing Particulars regarding Telenet, the Issuer and the Notes. The Notes are obligations of the Issuer alone and not obligations of, or guaranteed by, Telenet Group Holding, Telenet BVBA, Telenet International Finance or any of their respective subsidiaries or affiliates. See "—The Offering". In addition, this general description does not contain all the information you should consider prior to investing in the Notes. You should read the entire Listing Particulars carefully, including the "Risk Factors", "Management's Discussion and Analysis of Financial Condition and Results of Operations of Telenet", the Telenet September 30, 2017 Condensed Consolidated Interim Financial Statements, the Telenet December 31, 2016 Consolidated Financial Statements, the Telenet December 31, 2015 Consolidated Financial Statements, the Telenet December 31, 2014 Consolidated Financial Statements and the notes to those financial statements included in these Listing Particulars. Please see page G-1 of these Listing Particulars for a glossary of technical terms used in these Listing Particulars.

Telenet's Business

Overview

Telenet is the largest provider of video services in Belgium. Telenet's hybrid fiber-coaxial ("HFC") cable network spans the Flanders region, covers approximately 69% of Belgium by homes passed and includes the metropolitan centers of Antwerp and Ghent and approximately two-thirds of Brussels following the acquisition of SFR Belux, which Telenet acquired on June 19, 2017. Telenet Group Holding's shares are listed on the Euronext Brussels Stock Exchange under the ticker symbol TNET and it is part of the BEL20 stock market index. As of 6:00 p.m. London time on November 21, 2017, Telenet Group Holding's market capitalization amounted to €7,040 million.

Telenet offers basic and enhanced video, including high definition ("HD"), pay television and video-on-demand ("VOD") services, high-speed broadband internet and fixed-line and mobile telephony services to residential subscribers who reside in Telenet's network area. Telenet also combines its services into packages, or bundles, which offer subscribers the convenience of being able to purchase video, broadband internet and telephony services from a single provider at an attractive and discounted price. Under the "BASE" brand, Telenet also offers mobile telephony services to residential and business customers across Belgium. In addition, Telenet offers voice and data services, as well as value-added services including cloud, hosting and security solutions, to small and medium-sized companies ("SMEs") and large-sized businesses throughout Belgium and parts of Luxembourg.

As of September 30, 2017, Telenet had approximately 2,201,800 customer relationships, which represented 67% of the approximately 3,307,100 homes passed by its network. As of September 30, 2017, approximately 2,046,900 customers subscribed to its video services, approximately 1,670,400 subscribed to its broadband internet services and approximately 1,302,500 subscribed to its fixed-line telephony services. Telenet also had approximately 2,258,800 mobile postpaid and approximately 623,300 mobile prepaid subscribers as of September 30, 2017. In addition, approximately 88% of its video subscribers had upgraded from basic video to enhanced video services. For the year ended December 31, 2016, Telenet's total revenue was €2,429.1 million, a 33% increase over the year ended December 31, 2015 and its Adjusted EBITDA was €1,117.1 million, an 18% increase over the year ended December 31, 2015. For the nine months ended September 30, 2017, Telenet's total revenue was €1,884.3 million, a 5% increase compared to the nine months ended September 30, 2016, and its Adjusted EBITDA was €911.2 million, a 7% increase over the nine months ended September 30, 2016.

The Combined Network is fully bi-directional and EuroDocs 3.0 enabled, and provides a spectrum bandwidth capacity of 600 MHz. In August 2014, Telenet announced a five-year €500.0 million network investment program as it plans to increase the capacity of the Combined Network to 1 GHz, enabling download speeds of at least 1 Gbps in the future, with the objective of allowing Flanders to offer some of the highest-capacity digital infrastructure in Europe. At September 30, 2017, approximately 58% of the nodes in the Combined Network had been upgraded.

Telenet is increasingly focused on offering its subscribers broadband internet and telephony subscriptions and services together with its video services in the form of attractively priced multiple-play bundles. Telenet has derived, and believes it can continue to derive, substantial benefits from the trend towards bundled subscriptions, through which it is able to sell more products to individual subscribers, resulting in significantly higher ARPU per customer relationship and, in its experience, the reduction of customer churn. For the nine months ended

September 30, 2017, Telenet's ARPU per customer relationship was €55.2, an increase of 4% compared to the nine months ended September 30, 2016 when the ARPU per customer relationship was €53.2.

See "*Description of Telenet's Business—Telenet's Network*".

Telenet provides the following products and services to its customers:

Basic Video

Cable television is the principal medium for the provision of television services in Flanders, and Telenet is the largest provider of video services in Belgium. Almost all Flemish television households are passed by the Combined Network. The high penetration of Telenet's video business has resulted in a steady source of revenue and cash flow. As of September 30, 2017, Telenet provided video services to approximately 2,046,900 subscribers, or 62% of homes passed by its network, including approximately 82,200 inorganic additions through the acquisition of SFR Belux, which was completed on June 19, 2017 (the "**SFR Belux Acquisition**"). All of Telenet's basic video subscribers have access to at least 21 basic analog television channels and an average of 26 analog radio channels. Telenet generally provides its basic cable television services under individual contracts with its subscribers, the majority of whom pay monthly. Telenet's basic video subscribers who have installed a set-top box or CI + module, and activated a smart card, have access to more than 70 digital channels, including 15 HD channels, and approximately 36 digital radio channels, for no additional fee. Telenet offers its basic video services in digital for no additional fee in order to encourage its subscribers to migrate to its enhanced video services giving them access to a more enriched TV experience, including access to electronic program guides ("**EPGs**"), additional thematic content packs, exclusive movies and sports channels and a large VOD library of both local and international programs. For the nine months ended September 30, 2017, subscribers to total basic video services decreased by 41,900 as compared to December 31, 2016 on an organic basis as a result of the increased competitive environment, including the effects from regulated cable wholesale. The aforementioned organic loss rate excludes migrations to Telenet's enhanced video service and represents customers churning to competitors' platforms, such as other digital television, Over-the-Top ("**OTT**") services and satellite providers, or customers terminating their television service or having moved out of Telenet's service footprint. Given the historical video penetration in its footprint, the limited expansion of the number of homes passed and strong competition in the domestic TV market, Telenet anticipates further churn of total video subscribers.

Enhanced video

Telenet's interactive enhanced video service includes a combination of premium sports and film channels, a range of extended thematic channels, a selection of films and broadcast content available on an on demand basis and a variety of interactive features. Telenet's enhanced video offering is available to all subscribers passed by the Combined Network. As of September 30, 2017, Telenet served approximately 1,791,200 enhanced video customers, including approximately 74,700 inorganic subscribers added through the SFR Belux Acquisition. Telenet's digitalization ratio, which measures the total base of enhanced video customers relative to Telenet's total video subscriber base, continued to grow, and reached approximately 88% as of September 30, 2017 compared to approximately 85% as of September 30, 2016. All of Telenet's enhanced video subscribers can access the "Yelo Play" app, through which they can enjoy a unique content experience on multiple connected devices in the home and out-of-home through Telenet's WiFi Homespots and hotspots. As of September 30, 2017, Telenet's subscription VOD packages "Play" and "Play More" had 393,100 customers, representing a 17% increase compared to September 30, 2016. This robust performance was driven by (i) an improvement in the linear viewing experience and the revamp of Telenet's premium entertainment platform "Play More", (ii) continued investments in promising local content through both co-productions with Telenet's co-owned commercial channels "VIER", "VIJF" and "ZES" as well as investment in certain proprietary content, and (iii) Telenet's exclusive partnership with HBO providing access to high-quality international content. In addition to the premium pay television channels, Telenet also provides the broadest sports offerings within its footprint through "Play Sports", which combines domestic and foreign football with other major sport events including golf, Formula One racing, volleyball, basketball and hockey. Telenet recently also added the ATP World Tour Masters, a major tennis event, to its sports line-up. As of September 30, 2017, approximately 232,000 customers subscribed to Telenet's sports pay television channels, an increase of 1% compared to September 30, 2016. In May 2017, Telenet extended the non-exclusive broadcasting rights for the Jupiler Pro League for three seasons until the 2019-2020 season. In the second quarter of 2017, Telenet also gained the exclusive OTT rights, while local media company De Vijver Media, in which Telenet owns a 50% shareholding, holds the exclusive rights to the match summaries.

Broadband Internet

Telenet is the leading provider of residential broadband internet services in Flanders. Today, Telenet offers consumers and businesses data download speeds of up to 200 and 500 Mbps, respectively, and upload speeds of 20 and 50 Mbps, respectively. Through Telenet's €500.0 million five-year "Grote Netwerf" investment program, which kicked off in early 2015 and is expected to be completed mid-2019, Telenet aims to boost the capacity of its network from 600 MHz (at present) to 1 GHz, enabling data download speeds of at least 1 Gbps in the future. As customers expect to enjoy seamless superfast connectivity whether at home, at work or on the move, WiFi remains one of the cornerstones of Telenet's connectivity strategy.

In March 2017, Telenet introduced "Flow Tech", a suite of smart technologies, to ensure that customers can seamlessly access both fixed and mobile networks across all of their devices. As of September 30, 2017, Telenet has deployed around 1.4 million WiFi Homespots and operated nearly 2,000 WiFi hotspots in public areas. Through partnerships with its majority shareholder Liberty Global and certain of its affiliates, as well as Walloon cable operator VOO, broadband internet customers from both cable companies can freely use the WiFi Homespots on either company's network in Wallonia and in certain other European countries where service is offered through other Liberty Global and certain affiliate networks. At the end of June 2017, Telenet boosted both the data upload and download speeds of its "Basic Internet" product. Priced at €27.8 per month (including 21% VAT) and providing a data download speed of 50 Mbps, Telenet's "Basic Internet" offer remains one of the most attractive entry packages both within a Belgian and a wider European context. As of September 30, 2017, Telenet served approximately 1,670,400 broadband internet subscribers (+5% year-on-year), including approximately 60,300 inorganic subscribers added through the SFR Belux Acquisition and equivalent to 50.5% of the homes passed by its HFC network. For the nine months ended September 30, 2017, net organic subscriber additions for Telenet's broadband internet service were approximately 9,800. Telenet's annualized churn rate was impacted by the intensely competitive environment and reached 8.9% for the nine months ended September 30, 2017 as compared to 7.7% for the nine months ended September 30, 2016.

Fixed-line telephony

Telenet offers its residential subscribers local, national and international long distance fixed-line telephony services and a variety of value-added features. In Flanders, Telenet believes it is currently the largest competitor of Proximus, the Belgian incumbent due in part to Telenet's emphasis on customer service and innovative flat-fee rate plans. Substantially all of Telenet's fixed-line telephony subscribers use voice-over- internet protocol ("VoIP") technology, which utilizes the open standards EuroDocsis protocol, and through which Telenet is able to provide both internet and fixed-line telephony services. Telenet served approximately 1,302,500 fixed-line telephony subscribers at September 30, 2017 (+4% year-on-year), including approximately 48,100 inorganic additions from the acquisition of Belux and equivalent to 39.4% of the homes passed by its network. For the nine months ended September 30, 2017, Telenet lost approximately 200 net organic fixed-line telephony subscribers as a result of the intensely competitive market environment and an overall declining market trend. Both these factors also drove a 150 basis points increase in the annualized churn rate to 10.0% for the nine months ended September 30, 2017 as compared to 8.5% for the nine months ended September 30, 2016.

Mobile telephony

In February 2016, Telenet finalized the acquisition of Belgian mobile operator BASE Company. Telenet offers its mobile telephony services under both the "Telenet" and "BASE" brand names and has entered into several wholesale partnerships. In addition to BASE Company's mobile radio access network, Telenet has historically been operating through a mobile virtual network operator ("MVNO") partnership with Orange Belgium the third largest mobile operator in Belgium (the "**MVNO Arrangement**"). Through its own BASE network and pursuant to the MVNO Arrangement, Telenet offers its cable customers mobile voice and data services, including 4G/LTE ("**Long Term Evolution**"). Through a partnership with Telenet, Nethys also uses the MVNO Arrangement to provide mobile services to its cable customers.

At the end of May 2016, Orange Belgium and Telenet reached an agreement setting the terms and conditions for the future termination of the MVNO Arrangement (the "**MVNO Termination Agreement**"). The MVNO Arrangement will run, and Telenet's mobile customers can continue to use Orange Belgium's network, until the end of 2018. Telenet committed to a minimum payment of €150.0 million (excluding VAT) over the 3-year period from 2016 to 2018. The actual amount paid by Telenet could exceed this minimum amount in the event there is higher network usage. Beyond 2018, an optional 6-month extension period has been agreed upon with a minimum amount of €15.0 million (excluding VAT) becoming payable if triggered. Through the MVNO Termination

Agreement, all outstanding legal disputes between both companies, including the judicial recovery of invoices under the MVNO Arrangement, have been settled.

The rapid modernization of Telenet's acquired mobile network is an important synergy enabler, allowing Telenet to accelerate the onboarding of its Full MVNO customers to its own mobile network. At September 30, 2017, approximately 54% of its Full MVNO customers had been onboarded on the own mobile network. Telenet now aims for full completion by the end of the three months ending March 31, 2018 versus the initial plan by the end of 2018. As the accelerated onboarding will affect the contractual commitments under the MVNO Arrangement, Telenet incurred a €29.2 million non-cash restructuring charge in the three months ended September 30, 2017.

Telenet's active mobile subscriber base, which excludes subscribers under its commercial wholesale partnerships, totaled approximately 2,882,100 SIMs as of September 30, 2017, including approximately 2,258,800 postpaid subscribers. The remaining approximately 623,300 mobile subscribers receive prepaid services under the "BASE" brand and various branded reseller contracts. Compared to September 30, 2016, Telenet recorded a 5% decrease in the total number of active mobile subscribers as a result of the sale of its direct subsidiary Ortel Mobile to Lycamobile as of March 1, 2017 and the impacts from the June 2017 mandatory prepaid registration. As such, a total of approximately 157,900 and approximately 53,300 mobile SIMs have been removed from Telenet's subscriber count in the three months ended March 31, 2017 and the three months ended June 30, 2017, respectively. For the nine months ended September 30 2017, Telenet added approximately 143,400 net postpaid subscribers driven by the continued uptake of its all-in-one converged "WIGO" bundles and improved offers. At the end of September 2017, Telenet revamped the mobile line-up under the "BASE" brand by offering more flexible bundles adjusted to customers' needs so they can use the full capacity of their package, regardless of their appetite to use either more data, minutes or text messages.

Business Services

Under the "Telenet Business" brand, Telenet offers a range of voice, data and internet products and services that are tailored to the size and needs of each customer. Telenet Business also offers its business customers an extensive range of reliable value-added services, including hosting, managed security and cloud services. Telenet provides services to business customers throughout Belgium and parts of Luxembourg. Telenet's business customers include SMEs, larger corporations, public, healthcare and educational institutions, and carrier customers that include international voice, data and internet service providers. Telenet Business generated revenue of €98.5 million for the nine months ended September 30, 2017, up 9% compared to the nine months ended September 30, 2016. B2B revenue growth was primarily driven by higher security-related revenue and higher revenue from business connectivity solutions in the SME segment.

Wholesale Services

In addition to the aforementioned revenue components, the revenue generated by Telenet's fixed and mobile wholesale partners is allocated to Telenet's other revenue. Following a decision from the Belgian regulators, cable operators (including Telenet) are currently obliged to provide regulated cable wholesale access to alternative access seekers who want to resell either analog or digital video services on a standalone basis or who want to resell a combined bundle of digital video services and broadband internet. At present, Telenet has only engaged in a contractual relationship with Orange Belgium. In addition to its regulated wholesale business, Telenet Group BVBA also offers mobile communications services on a commercial basis to external parties not owning a mobile radio access network through reseller, Light MVNO and Full MVNO partnerships. Telenet Group BVBA hosted such operators on its network prior to the BASE acquisition. Following the BASE acquisition, Telenet Group BVBA has continued to expand such MVNO wholesale activities and has entered into several new MVNO agreements, with, most recently, MEDIALAAN and Lycamobile (among others).

Telenet's Competitive Strengths

Telenet believes that it benefits from the following key strengths which will help it execute its strategy:

Telenet operates in an attractive cable market and has a large, affluent existing customer base. Telenet's cable network passes approximately 69% of the homes in Belgium and includes the metropolitan centers of Antwerp and Ghent and approximately two-thirds of Brussels following the SFR Belux Acquisition. Telenet believes that Belgium, and in particular the Flanders region in which it operates, is a notably attractive cable market due to, among other things, a relatively high population density and cable penetration rate. The population density of Belgium reached approximately 372 inhabitants per square kilometer in 2015 according to the most recent

Eurostat data. This represents one of the highest population density rates in Europe and is exceeded only by that of the Netherlands and some microstates such as Malta. The most densely inhabited area of the country is located within Flanders, along the Antwerp-Leuven-Brussels-Ghent corridors. Cable operators that operate in urban areas with high population density benefit from easier access to customers and more cost effective network upgrades and maintenance, among other benefits. Furthermore, Belgium is one of the most prosperous countries in Europe, according to the most recent Eurostat data, with a GDP per capita of approximately €34,500 for the year ended December 31, 2016 compared to a European average of approximately €27,000 for the comparable period. As of September 30, 2017, Telenet served approximately 2,201,800 subscribers, or 67% of homes passed by its network. Telenet believes that its attractive network area and large and affluent existing customer base offer significant potential for it to sell its multiple-play bundles and other services primarily to Telenet's existing video customer base.

Telenet can offer higher quality video and broadband internet services than its competitors because of its leading, highly-invested cable network. The HFC Combined Network allows Telenet to offer enhanced video and broadband internet services across its network area that are highly competitive to the offerings of any of Telenet's competitors. The Combined Network has a minimum spectrum bandwidth capacity of 600 MHz, allowing Telenet to offer high-quality, highly-reliable basic and enhanced video and sophisticated interactive television services available in Telenet's network area and uses the EuroDocsis 3.0 technology standard across Telenet's entire footprint. As part of its €500.0 million network investment program, Telenet plans to increase the capacity of the Telenet Network to 1 GHz within the next five years, enabling download speeds of at least 1 Gbps. Telenet has reduced the number of homes connected to an optical node from an average of 1,400 homes at the start of the node splitting project in 2010 to an average of 480 homes as of September 30, 2017 to further increase the quality of the Combined Network's customers. In addition, given that not all homes connected to the Combined Network subscribe to broadband internet services from Telenet, the number of active broadband households per optical node was approximately 290 as of September 30, 2017, illustrating the high quality of the Combined Network and Telenet's broadband internet services. Through targeted and carefully planned investments, including node splitting, Telenet continues to offer its broadband internet subscribers significantly higher speeds across its network area than Telenet's competitors in Telenet's network area can offer over their digital subscriber line ("DSL") network.

Telenet has a strong platform to compete in the growing market for triple- or multi-play bundles in its network area. Consumers are increasingly looking to receive all of their media and communications services from one provider at an attractive price in the form of multiple-play bundles. Given the relatively high levels of cable penetration in Telenet's network area and the higher ARPU associated with bundled offerings, Telenet believes that the increasing penetration of both triple-play and quadruple-play services within Telenet's network area will be one of the primary drivers of its future revenue growth. As of September 30, 2017, approximately 54% of Telenet's customers subscribed to a triple-play product, whereas approximately 20% subscribed to a double-play product and approximately 26% subscribed to just one product, indicating continued up-sell opportunity within the existing customer base. Furthermore, Telenet believes that it has a platform to capture further growth in the market for quad-play bundles in its network area since it can offer its large video customer base an attractive combination of interactive enhanced video, broadband internet and fixed-line and mobile telephony services.

Telenet's focus on providing a great customer service experience continues to result in relatively moderate annualized churn levels. Telenet continues to focus on providing a top-of-the-market product and customer service experience across the various touch points during the customer journey. In this respect, Telenet seeks to continue to innovate its product and service offerings, including its OTT platform "Yelo Play", its all-in-one converged quadruple-play "WIGO" bundles, and, most recently, a new innovative mobile tariff line-up. Telenet also offers an intuitive care app and started a major campaign to visit customers proactively, including both technical and product check-ups. Amidst the backdrop of an intensified competitive environment, including the launch of cable wholesale offers by Orange Belgium, Telenet continues to achieve relatively moderate annualized churn rates for substantially all of its advanced fixed services of broadband internet, enhanced video and fixed-line telephony. Telenet believes this solid performance is driven by the successful execution of its multiple-play strategy and its continued focus on providing a great customer experience. For the nine months ended September 30, 2017, annualized churn for its advanced fixed services reached 8.9%, 8.9 % and 10.0% respectively, for its video, broadband internet and fixed-line telephony services.

Robust, growing operating cash flows and significant operating leverage. Telenet's large customer base and relatively moderate churn rates provide it with greater visibility of future revenue and recurring cash flows, which have historically proven to be resilient even during periods of challenging economic conditions. Certain of Telenet's cost elements, such as a portion of its network operations, marketing, general and administrative costs,

are relatively fixed, which Telenet expects to allow it to generate incremental returns as it grows its business. Telenet's Adjusted EBITDA margin for the year ended December 31, 2016 slightly decreased to 46.0% compared to 51.8% for the year ended December 31, 2015, reflecting the impact from the BASE acquisition and a higher proportion of lower-margin mobile telephony revenue in its revenue mix. Telenet's Adjusted EBITDA increased by €173.4 million to €1,117.1 million for the year ended December 31, 2016 from €943.7 million for the year ended December 31, 2015. For the nine months ended September 30, 2017, Telenet's Adjusted EBITDA reached €911.2 million representing a margin of 48.4% as compared to 47.1% for the nine months ended September 30, 2016. The 130 basis points improvement was mainly driven by synergies from the BASE acquisition, lower integration and transformation costs compared to the previous year and Telenet's overall focus on managing its overhead expenses.

Strong brand name and customer base. Telenet and BASE are well-recognized brands in Telenet's franchise area and the whole of Belgium, given BASE Company's historical positioning as a nation-wide mobile operator. Telenet has developed its brand through extensive marketing campaigns, website promotions, customer referrals, and the use of a dedicated sales force, dealer networks and certain own retail shops. Third party research commissioned by Telenet indicates that consumers in Flanders had around 98% brand awareness of Telenet as a provider of internet, fixed and mobile telephony services and enhanced video. In addition, third party customer surveys that Telenet commissioned have indicated that customers recognize Telenet for the quality of its products. Telenet believes that the development of its brand and focus on customer service enables it to sell additional products and value-added services to its existing customers, acquire new customers and retain its existing customer base.

Strong management team with focus on operational excellence. Telenet's management team has extensive experience in managing communications and technology businesses in competitive markets. They have a track record of successfully growing Telenet's customer base and market share and introducing new products and tiered offerings to customers in a competitive environment, with a continued focus on managing costs and increasing cash flows. Management seeks to promote an environment that supports a dynamic and innovative culture. Telenet's controlling shareholder, Liberty Global plc, also brings a combination of international telecommunications experience and relationships to Telenet's operations.

Telenet's Strategy

Telenet's strategy is to be the best-in-class and preferred provider of enhanced video, broadband internet and telephony services while improving its revenue, profitability and cash flow. Telenet aims to accomplish this by continuing to improve the quality of its network and offer cutting-edge technologies and innovative services to its customers.

In 2017 and thereafter, Telenet seeks to continue to lead with respect to superior converged connectivity. Telenet's solid network infrastructure is the backbone of its services, allowing consumers to enjoy a seamless experience. Telenet's technology aims to be flawless on the go, at home and at the office, and on any device at any time. Telenet's converged fixed and mobile network is a key enabler in this context. Telenet's ambition is to provide a seamless, faster and more powerful connected experience to its customers. Having upgraded approximately 71% of its 2,800 macro sites as of the end of September 30, 2017, having completed the roll-out of over 100 new mobile sites and having upgraded approximately 50% of the nodes in its core HFC network, both Telenet's mobile network (€250.0 million) and fixed network (€500.0 million) upgrade programs are well on track to be substantially completed by the middle of 2018 and 2019, respectively.

In addition, Telenet is committed to offering compelling entertainment content to its customers. At the end of September 2017, around 41% of Telenet's enhanced video customer base had subscribed to premium entertainment packages, showing the future growth potential in this area. Not only does Telenet offer top international content, Telenet also plays an important role in local media production.

Telenet's Controlling Shareholder

Liberty Global plc

Liberty Global is Telenet Group Holding's controlling shareholder and as of October 31, 2017 held a majority ownership interest in Telenet Group Holding of 57.65%. Liberty Global is the world's largest international TV and broadband company, with operations in more than 30 countries across Europe, Latin America and the Caribbean. Liberty Global invests in the infrastructure that empowers its customers to make the most of the digital

revolution. Liberty Global's scale and commitment to innovation enable it to develop market-leading products delivered through next generation networks that connect our over 24 million customers who subscribe to over 50 million television, broadband internet and telephony services. Liberty Global also serves over 10 million mobile subscribers and offers WiFi service across 10 million access points. Liberty Global's businesses are comprised of two stocks: the Liberty Global Group (NASDAQ: LBTYA, LBTYB and LBTYK) for our European operations, and the LiLAC Group (NASDAQ: LILA and LILAK, OTC Link: LILAB), which consists of its operations in Latin America and the Caribbean. The Liberty Global Group operates in 12 European countries under the consumer brands Virgin Media, Unitymedia, Telenet and UPC. The Liberty Global Group also owns 50% of VodafoneZiggo, a Dutch joint venture, which has 4 million customers, 10 million fixed-line subscribers and 5 million mobile subscribers. The LiLAC Group operates in over 20 countries in Latin America and the Caribbean under the consumer brands VTR, Flow, Liberty, Más Móvil and BTC. In addition, the LiLAC Group operates a sub-sea fiber network throughout the region connecting over 40 markets. As of October 27, 2017, Telenet Group Holding's free float amounted to 41.22% with its shares trading on the Euronext Brussels Stock Exchange under the ticker symbol TNET.

The Issuer and Consolidation of the Issuer by Telenet

The Issuer was incorporated under the laws of the Grand Duchy of Luxembourg on November 24, 2017 as a financing company for the primary purpose of facilitating the offering of the Notes. Its share capital is €12,000 divided into 12,000 shares (the "**Shares**"), all of which have been subscribed and fully paid-up. The Shares are held by Telenet International Finance. The Noteholders will not have a direct claim against the cash flow or assets of any member of the Telenet Group except the Issuer, and no member of the Telenet Group except the Issuer will have any direct obligation to holders of the Notes to pay amounts due under the Notes. The Issuer is consolidated by Telenet Group Holding.

The Issuer has no material business operations and upon completion of this offering will have no material assets other than the 2017 Finco Loans advanced in connection with the offering of the Notes and its rights under certain related agreements. The Issuer has not engaged in any business activities or incurred any material liabilities since the date of its incorporation, other than relating to this offering and transactions related thereto. The Issuer is dependent on payments by Telenet International Finance, which payments are guaranteed by Telenet Group BVBA, under the relevant 2017 Finco Loan, in order to service its obligations under the Notes. The proceeds from the offering of the Notes were loaned by the Issuer to Telenet International Finance pursuant to the 2017 Finco Loans. See *"Risk Factors—Risks Relating to the Notes and the Structure—Holders of the Notes have limited recourse to the Issuer, as payments under the Notes are limited to the amount of certain payments received by the Issuer under the Senior Credit Facility and the Related Agreements"*.

Brief Description of the Structure of the Offering

In connection with the offering of the Dollar Notes, the Issuer entered into the Finco Accession Agreement AJ with Telenet International Finance and the Telenet Facility Agent pursuant to which the Issuer made available to Telenet International Finance additional facilities under the Senior Credit Facility in a principal amount equal to the aggregate principal amount of the Dollar Notes issued in the offering. In connection with the offering of the Euro Notes, the Issuer will enter into the Finco Accession Agreement AK with Telenet International Finance and the Telenet Facility Agent pursuant to which the Issuer will make available to Telenet International Finance additional facilities under the Senior Credit Facility in a principal amount equal to the aggregate principal amount of the Euro Notes issued in the offering. On the Issue Date, the Issuer advanced the proceeds of the issuance of the Dollar Notes and the Euro Notes to Telenet International Finance pursuant to the Finco Accession Agreement AJ and the Finco Accession Agreement AK, respectively.

The Issuer (or following the Belgian Issuer Accession (as defined below), the Belgian Issuer), as a lender under the Senior Credit Facility (a "**Telenet Lender**"), will be treated the same as all other lenders under that facility and will have benefits, rights and protections that are similar to those benefits, rights and protections afforded to other Telenet Lenders. Through the covenants in the Indenture and the security interests over the Issuer's (or the Belgian Issuer's) rights under the Finance Documents (as defined in the Senior Credit Facilities) (including under the 2017 Finco Loans or the New Finco Loans) granted to the Security Trustee on behalf of itself, the Trustee and the holders of the Notes to secure the Issuer's (or following the Belgian Issuer Accession, the Belgian Issuer's) obligations under the Notes, the holders of Notes will be provided indirectly with the benefits, rights and protections granted to the Issuer (or following the Belgian Issuer Accession, the Belgian Issuer) as a Telenet Lender, including the indirect benefit of the covenants contained in the Senior Credit Facility, the guarantees granted by the members of the Telenet Group that are guarantors under the Senior Credit Facility and the security

granted for the benefit of the Telenet Lenders. See “*Description of the Senior Credit Facility*”. Thus, in the case of the ongoing obligations of the Telenet Group and Telenet International Finance or the Belgian Borrower, as applicable, under the Senior Credit Facility, the Issuer (or following the Belgian Issuer Accession the Belgian Issuer) will be treated in the same way as the other Telenet Lenders, with the right to vote as part of the lending group at the direction of the holders of the Notes (subject to the pre-agreed Senior Credit Facility Amendments) and to receive principal and interest on the 2017 Finco Loans, or the New Finco Loans, as applicable, which it will in turn use to make payments on the Notes. For a description of procedures under the Indenture and the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, regarding voting rights of holders of the Notes with respect to decisions under the Senior Credit Facility, see below under “*Description of the Notes—Amendment, Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements*”.

Under the Senior Credit Facility, to the extent the Telenet Bank Group is in compliance with certain financial covenants, the borrowers under the Senior Credit Facility, at their discretion and without the consent of the Telenet Lenders, are permitted to incur additional pari passu indebtedness pursuant to additional facilities under the Senior Credit Facility including the 2017 Finco Loans and the New Finco Loans (the existing facilities, and any additional facilities under the Senior Credit Facility, the “**Facilities**”), which benefit from the protections provided to all Telenet Lenders, including the representations and warranties, covenants, guarantees and security provided thereunder. For a further description of the Senior Credit Facility, see “*Description of the Senior Credit Facility and the Related Amendments*”. The Senior Credit Facility is attached as Annex A to these Listing Particulars.

On the Issue Date, the Issuer, the Trustee and the Security Trustee entered into a collateral sharing agreement governing the relative rights of creditors under the Notes and Additional Debt of the Issuer that will benefit from the shared Note Collateral on a pari passu basis. The Collateral Sharing Agreement sets out, among other things, the relevant ranking of certain debt of the Issuer, the consent level of the senior creditors required to cast votes and exercise their rights in respect of consents, instructions and remedies under the Indenture, the Notes, the Notes Security Documents (as defined under “*Description of the Notes*”) and the other debt instruments or agreements sharing in the Note Collateral, in each case, when enforcement action can be taken in respect of the Note Collateral by the Security Trustee and the turnover provisions. The Collateral Sharing Agreement provides that the security interests in the Note Collateral may be enforced only upon an acceleration of the amounts due under the Notes following an Event of Default (as defined under “*Description of the Notes*”) under the Indenture, subject to and in accordance with the terms of the Collateral Sharing Agreement. Neither the Trustee nor the holders of the Notes may, individually or collectively, take any direct action to enforce any rights in their favor under the Notes Security Documents. The Trustee and the holders of the Notes may only take action to enforce the Notes Security Documents through the Security Trustee and the Collateral Sharing Agreement. In addition, pursuant to the Collateral Sharing Agreement, the ability of the Security Trustee to enforce the security interests in the Note Collateral will be restricted and will be at the discretion of the relevant creditors.

Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange

Following the issuance of the Notes, at the election of Telenet International Finance, the Notes may be assigned to a financing company (the “**Belgian Issuer**”) incorporated under the laws of Belgium for the purpose of assuming the Issuer’s rights and obligations under (among other things) the Notes, the Indenture, the 2017 Finco Loans, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement (the “**Belgian Issuer Accession**”). Upon consummation of the Belgian Issuer Accession, the Belgian Issuer will succeed to, and be substituted for, and shall assume the obligations of and may exercise every right and power of, the Issuer under the Notes, the Indenture, the 2017 Finco Loans, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement, and upon such substitution, the Issuer will be released from all of its obligations under the Notes, the Indenture, the 2017 Finco Loans, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement. Following the Belgian Issuer Accession, all references to the Issuer in the Notes, the Indenture, the Finco Loans, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement will be deemed references to the Belgian Issuer. For a complete description of the Belgian Issuer Accession and tax considerations, see “*Description of the Notes—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange—Belgian Issuer Accession*” and “*Tax Considerations—Belgium*”.

In addition, following completion of the Belgian Issuer Accession, at the election of Telenet International Finance, as the case may be, (i) Finco Loan AJ may pursuant to certain transactions be exchanged, refinanced or otherwise

replaced, on a cash or cashless basis, for a loan under a new additional facility (“**Facility AJ-B**”) under the Senior Credit Facility (the “**New Finco Loan AJ-B**”) borrowed by Telenet Group BVBA or another borrower under the Senior Credit Facility that is incorporated under the laws of Belgium (the “**Belgian Borrower**”) in an equal principal amount and having substantially identical terms (other than with respect to the borrower of such loan) as the Finco Loan AJ and (ii) Finco Loan AK may pursuant to certain transactions be exchanged, refinanced or otherwise replaced, on a cash or cashless basis, for a loan under a new additional facility (“**Facility AK-B**”) under the Senior Credit Facility (the “**New Finco Loan AK-B**”, together with New Finco Loan AJ-B, the “**New Finco Loans**”) borrowed by the Belgian Borrower in an equal principal amount and having substantially identical terms (other than with respect to the borrower of such loan) as the Finco Loan AK (the “**Finco Loans Borrower Exchange**”). The terms of the New Finco Loan AJ-B will be governed by the New Finco Accession Agreement AJ-B which is attached as Schedule 11 of Annex B to these Listing Particulars (the “**New Finco Accession Agreement AJ-B**”). The terms of the New Finco Loan AK-B will be governed by the New Finco Accession Agreement AK-B which is attached as Schedule 11 of Annex C to these Listing Particulars (the “**New Finco Accession Agreement AK-B**” and together with the New Finco Accession Agreement AJ-B, the “**New Finco Accession Agreements**”). Upon the consummation of the Finco Loans Borrower Exchange, Telenet International Finance will have no further obligations as borrowers to the Issuer or the Belgian Issuer under or with respect to the 2017 Finco Loans, the New Finco Loans, the Indenture, the Notes, the Related Agreements and the other Finance Documents (as defined in the Senior Credit Facility) and all references to Telenet International Finance in such documents will be deemed references to the Belgian Borrower. For a complete description of the Finco Loans Borrower Exchange (including, the “**New Note Collateral**” as defined under “*Description of the Notes*”), see “*Description of the Notes—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange—Finco Loans Borrower Exchange*”.

The Belgian Issuer Accession and the Finco Loans Borrower Exchange may be completed at the option of Telenet International Finance without any further consent from the Issuer or the holders of the Notes, and the Issuer or holders of the Notes shall upon receipt of the notice of the Belgian Issuer Accession and the notice of the Finco Loans Borrower Exchange, as the case may be, be deemed to have consented to any transfer of rights and obligations pursuant to the Belgian Issuer Accession and the Finco Loans Borrower Exchange. For the avoidance of doubt, Telenet International Finance may elect to complete the Belgian Issuer Accession without completing the Finco Loans Borrower Exchange.

Following completion of the Belgian Issuer Accession and/or the Finco Loans Borrower Exchange (as applicable), the holders of the Notes will continue to benefit from substantially the same rights and obligations under the Indenture and the Notes. In addition, through the covenants in the Indenture and the security interests in the New Note Collateral (as defined under “*Description of the Notes*”) granted to secure the Belgian Issuer’s obligations under the Notes, the holders of Notes will be provided indirectly with the benefits, rights and protections granted to the Belgian Issuer as a Telenet Lender, including the benefit of the covenants contained in the Senior Credit Facility and the guarantees and security granted for the benefit of the Telenet Lenders.

Recent Developments

Agreement to acquire Belgian ICT integrator Nextel

On November 6, 2017, Telenet announced that its direct subsidiary Telenet Group BVBA had entered into an agreement with the current shareholders of TelelinQ NV on October 31, 2017 concerning the acquisition of Nextel. In order to support Telenet’s growth ambitions in the Belgian B2B market, this acquisition will provide Telenet with additional in-house expertise to design, construct and manage total solutions on behalf of other companies. As a Belgian integrator, Nextel currently works for major companies, SMEs, care institutions, non-profit organizations and government authorities. Nextel has offices in Wommelgem and Zaventem and to date has 315 permanent employees, having generated revenue of approximately €47.0 million in 2016. The acquisition will be submitted to the Belgian Competition Authority for approval before it can be executed.

The Refinancing and Other Transactions

The net proceeds from the issuance of the Dollar Notes, together with fees payable to the Issuer (if any) by Telenet International Finance pursuant to the Telenet Dollar Fee Letter, were used by the Issuer to fund Facility AJ under the Senior Credit Facility (the “**Finco Loan AJ**”) to Telenet International Finance. The net proceeds from the issuance of the Euro Notes, together with fees payable to the Issuer (if any) by Telenet International Finance pursuant to the Telenet Euro Fee Letter, will be used by the Issuer to fund Facility AK under the Senior Credit

Facility (the “**Finco Loan AK**”, together with the Finco Loan AJ, the “**2017 Finco Loans**”) to Telenet International Finance.

Telenet intends to use substantially all of the net proceeds from the 2017 Finco Loans to (i) repay a portion of the outstanding amounts under Facility AH of the Senior Credit Facility, (ii) repay a portion of the outstanding amounts under Facility AI of the Senior Credit Facility, and (iii) for general corporate purposes (collectively, the “**Refinancing**”). See “*Use of Proceeds*”.

Other Financing Transactions

In addition to the offering of the Notes hereby, Telenet may enter into the following financing transactions described below.

Senior Credit Facility

Concurrently with, or on or shortly after the offering of the Notes hereby, Telenet may enter into one or more additional facilities under the Senior Credit Facility which is expected to comprise an addition dollar denominated term loan (“**Facility AL**”) in an aggregate principal amount of \$1,300.0 million under the Senior Credit Facility (the “**Facility AL Term Loan**”) and a new euro denominated term loan (“**Facility AM**”) in an aggregate principal amount of €730.0 million under the Senior Credit Facility (the “**Facility AM Term Loan**” together with the Facility AL Term Loan, the “**Additional Term Loans**”).

If Facility AL and/or Facility AM are entered into, the proceeds will be used to refinance the remaining portion (if any) of Facility AH and/or Facility AI under the Senior Credit Facility. The launch and funding of the Additional Term Loans and use of proceeds thereof are, collectively, the “**Term Loan Refinancing**”. Any incurrence of indebtedness under the Senior Credit Facility will comply with the covenants thereunder. No assurance can be given that Facility AL and/or Facility AM will be entered into, or if it is entered into, what the final terms will be, including the amount raised thereunder. Any amounts raised under Facility AL and/or Facility AM will constitute new senior secured debt.

We refer to the Refinancing and the Term Loan Refinancing collectively as the “**Q4-2017 Refinancing Transactions**”.

Potential Financing Transactions

Telenet continually evaluates different financing alternatives and may decide to enter into new credit facilities, access the debt capital markets (including through an additional term loan facility, or increase to the 2017 Finco Loans, funded with the proceeds of notes issued by the Issuer or another financing company) or incur other indebtedness from time to time, including following the pricing of this offering and prior to, or within a short time period following, the Issue Date of the Notes (the “**Potential Financing Transactions**”). The proceeds of any Potential Financing Transactions may be used by Telenet or its subsidiaries to refinance indebtedness or for general corporate purposes of the Telenet Group, which may include acquisitions or loans, distributions or other payments to Telenet’s direct or indirect shareholders or share buybacks. Any such Potential Financing Transactions would be incurred in compliance with the applicable covenants under the Senior Credit Facility. After giving effect to any such incurrence in compliance with the applicable covenants, including in connection with permitted refinancing debt, permitted acquisition debt or other exceptions to the restriction on our ability to incur indebtedness, the ratio of as adjusted net total debt to consolidated annualized EBITDA could increase above the ratio of as adjusted net total debt to consolidated annualized EBITDA, as of September 30, 2017 (each as shown under the heading “*Summary Financial and Operating Data—Certain As Adjusted Covenant Information*”), and such increase could be material. Any Potential Financing Transaction will be made at Telenet’s election or the election of its relevant subsidiaries, and if any indebtedness incurred thereunder is in the form of securities, such securities may be offered and sold pursuant to, and on the terms described in, a separate offering memorandum. See “*Risk Factors—Risks Relating to Telenet’s Financial Profile—Telenet may incur additional indebtedness prior to, or within a short time period following, the Issue Date of the Notes and the funding of the 2017 Finco Loans, which indebtedness could increase Telenet’s leverage and may have terms that are more or less favorable than the terms of the Notes and Telenet’s other existing indebtedness*”.

SUMMARY CORPORATE AND FINANCING STRUCTURE

The following diagram summarizes the corporate and financing structure of the Issuer and the Telenet Group after giving effect to the offering of the Notes and the application of the proceeds therefrom (including the Refinancing and excluding the Term Loan Refinancing). The following is provided for indicative and illustration purposes only and should be read in conjunction with the information contained in these Listing Particulars as a whole.

- (1) The Issuer is a financing company formed for the primary purpose of facilitating the offering of the Notes and is 100.0% owned by Telenet International Finance. The Issuer is not part of the senior secured restricted group for purposes of the Senior Credit Facility and is therefore not subject to the restrictive covenants therein.
- (2) The Notes are senior obligations of the Issuer. On the Issue Date and prior to the Belgian Issuer Accession, the holders of the Notes benefit directly from first-ranking security interests granted to the Security Trustee on behalf of itself, the Trustee and the holders of the Notes in the following rights, property and assets: (i) all of the Issuer's rights to and benefit in the Finco Loans (including all rights of the Issuer as a Telenet Lender under the Finance Documents (as defined in the Senior Credit Facility) (including the 2017 Finco Accession Agreements and any other Finco Accession Agreements) in respect of which the Issuer has any right, title, benefit and/or interest and the Intercreditor Agreement); (ii) all of the Issuer's rights, title and interests in the Related Agreements and any other Telenet Fee Letters; and (iii) all of the Issuer's rights, title and interests in its bank accounts, including the Issuer's Accounts. See "*Description of the Notes—Note Collateral*". The Collateral Sharing Agreement provides that the security interests in the Note Collateral may be enforced only upon an acceleration of the amounts due under the Notes following an Event of Default (as defined under "*Description of Notes*") under the Indenture, subject to and in accordance with the terms of the Collateral Sharing Agreement. Neither the Trustee nor the holders of the Notes may, individually or collectively, take any direct action to enforce any rights in their favor under the Notes Security Documents (as defined under "*Description of Notes*"). The Trustee and the holders of the Notes may only take action to enforce the Notes Security Documents through the Security Trustee and the Collateral Sharing Agreement. In addition, pursuant to the Collateral Sharing Agreement, the ability of the Security Trustee to enforce the security interests in the Note Collateral will be restricted and will be at the discretion of the relevant creditors. See "*Risk Factors—Risks Relating to the Notes and the Structure—Your ability to recover under the collateral securing the Notes may be limited*" for more information.
- (3) The proceeds from the issuance of the Notes were used by the Issuer to fund the Finco Loan AJ, denominated in U.S. dollars, under an additional facility ("**Facility AJ**") borrowed by Telenet International Finance under the Senior Credit Facility and the Finco Loan AK denominated in euros, under an additional facility ("**Facility AK**") borrowed by Telenet International Finance under the Senior Credit Facility.
- (4) Each of Telenet BVBA, Telenet Group BVBA, Telenet International Finance and Telenet Financing USD are, and will continue to be following the offering of the Notes, the funding of the 2017 Finco Loans and the application of the proceeds of the 2017 Finco Loans, borrowers and guarantors under the Senior Credit Facility. See "*Risk Factors—Risks Relating to the Notes and the*

Structure—The guarantees of the obligations under the Senior Credit Facility (including the 2017 Finco Loans) may be limited by applicable laws or subject to certain limitations or defences that may adversely affect their validity and enforceability” and “Description of the Senior Credit Facility and the Related Agreements—The Senior Credit Facility”.

- (5) The Senior Credit Facility includes Facility V and Facility AB, which consist of loans made to Telenet International Finance by Telenet Finance V Luxembourg, a special purpose financing company unaffiliated with the Telenet Group, using the proceeds from the issuance of the Telenet Finance V Luxembourg 6 ³/₄% Notes and Telenet Finance VI Luxembourg, a special purpose financing company unaffiliated with the Telenet Group, using the proceeds from the issuance of the Telenet Finance VI Luxembourg Notes, respectively. Following the issuance of the Telenet Finance V Luxembourg 6 ³/₄% Notes, the Telenet Finance VI Luxembourg Notes and the making of the loans under, Facility V and Facility AB, each of Telenet Finance V Luxembourg and Telenet Finance VI Luxembourg, as applicable, is, and will continue to be as long as Facility V and Facility AB, as applicable, remain outstanding, consolidated by Telenet Group Holding. Accordingly, the loans under Facility V and Facility AB are eliminated through the consolidation of Telenet Finance V Luxembourg, and Telenet Finance VI Luxembourg, within the Telenet Group Financial Statements. See “*Capitalization of Telenet and the Issuer*”.

Concurrently with, or on or shortly after the offering of the Notes hereby, Telenet may enter into one or more additional facilities under the Senior Credit Facility which is expected to comprise an addition dollar denominated term loan (“**Facility AL**”) in an aggregate principal amount of \$1,300.0 million under the Senior Credit Facility (the “**Facility AL Term Loan**”) and a new euro denominated term loan (“**Facility AM**”) in an aggregate principal amount of €730.0 million under the Senior Credit Facility (the “**Facility AM Term Loan**” together with the Facility AL Term Loan, the “**Additional Term Loans**”). If Facility AL and/or Facility AM are entered into, the proceeds will be used to refinance the remaining portion (if any) of Facility AH and/or Facility AI under the Senior Credit Facility. The launch and funding of the Additional Term Loans and use of proceeds thereof are, collectively, the “**Term Loan Refinancing**”. The Term Loan Refinancing is not reflected in the corporate and financing structure chart above. Any incurrence of indebtedness under the Senior Credit Facility will comply with the covenants thereunder. No assurance can be given that Facility AL and/or Facility AM will be entered into, or if it is entered into, what the final terms will be, including the amount raised thereunder. Any amounts raised under Facility AL and/or Facility AM will constitute new senior secured debt.

- (6) Subsidiaries of Telenet Group BVBA that are not borrowers or guarantors under the Senior Credit Facility include: Allo Telecom NV, Coditel Brabant BVBA, Coditel S.à r.l., Belgian Mobile ID NV, Telenet Vlaanderen NV, Telenet Retail BVBA, T-VGAS NV, Telenet Tecteo Bidco NV, Pebble Media NV, Doccle.Up NV, Doccle CVBA, Finance Center Telenet S.à r.l., Ulane Business Management Ltd., Telenet Luxembourg Finance Center S.à r.l. and Telenet Solutions Luxembourg S.A. For the nine months ended September 30, 2017, the subsidiaries that guarantee the obligations under the Senior Credit Facility generated 100% of Telenet’s Consolidated Adjusted EBITDA and held more than 96% of its consolidated total assets, respectively.
- (7) Telenet Group Holding is listed on Euronext Brussels and is included in the Eurostoxx 600, MSCI Belgium, Dow Jones Sustainability Europe, Dow Jones Sustainability World, FTSE4Good and the BEL20 indices.

THE OFFERING

The summary below describes the principal terms of the Notes and certain terms of the 2017 Finco Loans. Certain of the terms and conditions described below are subject to important limitations and exceptions. The “Description of the Notes” section of these Listing Particulars contains a more detailed description of the terms and conditions of the Notes, including the definitions of certain terms used in this summary.

Issuer	Telenet Finance Luxembourg Notes S.à r.l.
Notes offered	
Dollar Notes	\$1,000.0 million aggregate principal amount of 5.500% senior secured notes due 2028 (the “Dollar Notes”)
Euro Notes	€600.0 million aggregate principal amount of 3.500% senior secured notes due 2028 (the “Euro Notes”).
Issue Date	December 13, 2017.
Issue Price	
Dollar Notes	100.000% plus accrued interest, if any, from the Issue Date.
Euro Notes	100.000% plus accrued interest, if any, from the Issue Date.
Maturity date	
Dollar Notes	March 1, 2028.
Euro Notes	March 1, 2028.
Interest payment dates	
Dollar Notes	Semi-annually in cash in arrears on each January 15 and July 15, commencing January 15, 2018. Interest accrues from the Issue Date of the Dollar Notes.
Euro Notes	Semi-annually in cash in arrears on each January 15 and July 15, commencing January 15, 2018. Interest accrues from the Issue Date of the Euro Notes.
Denomination	
Dollar Notes	\$200,000 and integral multiples of \$200,000 in excess thereof. Dollar Notes in denominations of less than \$200,000 are not available.
Euro Notes	€100,000 and integral multiples of €100,000 in excess thereof. Euro Notes in denominations of less than €100,000 are not available.
Dollar Notes	The net proceeds from the Dollar Notes, together with the fees payable to the Issuer by Telenet International Finance pursuant to the Telenet Dollar Fee Letter, were used by the Issuer to fund Facility AJ under the Senior Credit Facility to Telenet International Finance.
Euro Notes	The net proceeds from the Euro Notes, together with the fees payable to the Issuer by Telenet International Finance pursuant to the Telenet Euro Fee Letter, were used by the Issuer to fund Facility AK under the Senior Credit Facility to Telenet International Finance.

Under the terms of the Senior Credit Facility and the related arrangements, the Issuer will benefit from, among other things, all the rights of a lender under the Senior Credit Facility.

Ranking of the Notes

The Notes:

- are general senior obligations of the Issuer;
- are secured by the Note Collateral as described under “—Note Collateral”;
- rank pari passu in right of payment to all Additional Debt of the Issuer that is not subordinated to the Notes (including any Additional Notes);
- are subject to the Limited Recourse Restrictions as described under “—Limited recourse”; and
- are effectively subordinated to all liabilities of each subsidiary of the Issuer (if any).

Limited recourse

Except under the limited circumstances specified under “*Description of the Notes—Events of Default and Remedies*”, the obligations of the Issuer under the Indenture, the Notes, the Notes Security Documents (as defined under “*Description of the Notes*”) and the Collateral Sharing Agreement will be solely to make payments of amounts in aggregate equivalent to the amounts actually received by or for the account of the Issuer from Telenet International Finance under the Senior Credit Facility and agreements related thereto. As such, the Issuer will be wholly dependent upon payments from Telenet International Finance, which payments are guaranteed by Telenet Group BVBA under each of the 2017 Finco Loans, other than certain amounts due on the Notes (such as prepayment premiums and additional amounts following certain tax events), which will be financed by Telenet International Finance pursuant to the Telenet Euro Fee Letter and/or the Telenet Dollar Fee Letter or the Telenet Service Agreement, in order to service its obligations under the notes.

In addition, other than under the limited circumstances described under “*Description of the Notes—Events of Default and Remedies*”, holders of the Notes will not have a direct claim on the cash flow or assets of Telenet and Telenet has no obligation, contingent or otherwise, to pay amounts due under the Notes, or to make funds available to the Issuer for those payments, other than the obligations of Telenet International Finance and Telenet Group BVBA to make payments to lenders under the Senior Credit Facility and agreements related thereto.

None of the members of the Telenet Group guarantee the Issuer’s obligations under the Notes.

Note Collateral

On the Issue Date and prior to the Belgian Issuer Accession, the holders of the Notes benefit directly from first-ranking security interests granted to the Security Trustee on behalf of itself, the Trustee and the holders of the Notes in the following rights, property and assets:

- (1) all of the Issuer’s rights to and benefit in the Finco Loans (including all rights of the Issuer as a Telenet Lender under the Finance Documents (as defined in the Senior Credit Facility) (including the 2017 Finco Accession Agreements and any other Finco Accession Agreements) in respect of which the Issuer has

any right, title, benefit and/or interest and the Intercreditor Agreement);

- (2) all of the Issuer's rights, title and interests in the Related Agreements and any other Telenet Fee Letters; and
- (3) all of the Issuer's rights, title and interests in its bank accounts, including the Issuer's Accounts.

See "*Description of the Notes—Note Collateral*".

The Issuer, as a lender under the Senior Credit Facility, is treated the same as all other lenders under that facility and has benefits, rights and protections that are similar to those benefits, rights and protections afforded to other Telenet Lenders. Through the covenants in the Indenture and the security interests over the 2017 Finco Loans granted to secure the Issuer's obligations under the Notes, the holders of the Notes are provided indirectly with the benefits, rights and protections granted to the Issuer as a Telenet Lender, including the indirect benefit of the covenants contained in the Senior Credit Facility and the guarantees and security granted for the benefit of the Telenet Lenders. See "*Risk Factors—Risks Relating to the Notes and the Structure—The security interest in the collateral securing the 2017 Finco Loans will not be granted directly to the holders of the Notes*" for more information.

The Collateral Sharing Agreement provides that the security interests in the Note Collateral may be enforced only upon an acceleration of the amounts due under the Notes following an Event of Default (as defined under "*Description of Notes*") under the Indenture, subject to and in accordance with the terms of the Collateral Sharing Agreement. Neither the Trustee nor the holders of the Notes may, individually or collectively, take any direct action to enforce any rights in their favor under the Notes Security Documents (as defined under "*Description of Notes*"). The Trustee and the holders of the Notes may only take action to enforce the Notes Security Documents through the Security Trustee and the Collateral Sharing Agreement. In addition, pursuant to the Collateral Sharing Agreement, the ability of the Security Trustee to enforce the security interests in the Note Collateral will be restricted and will be at the discretion of the relevant creditors. See "*Risk Factors—Risks Relating to the Notes and the Structure—Your ability to recover under the collateral securing the Notes may be limited*" for more information.

Senior Credit Facility Guarantors

As at the Issue Date, Telenet Group BVBA, Telenet BVBA, Telenet International Finance and Telenet Financing USD are the only guarantors of the obligations of the Obligors (as defined in the Senior Credit Facility) under the Senior Credit Facility (subject to certain specified guarantee limitations, including, but not limited to, the exclusion of liability to the extent that such guarantee would constitute unlawful financial assistance under applicable law). In addition, the Senior Credit Facility requires that additional members of the Telenet Bank Group become guarantors under the Senior Credit Facility, (a) in the event that they become Material Subsidiaries (as defined in the Senior Credit Facility), or (b) where necessary in order to ensure that the aggregate earnings before interest, tax, depreciation and amortization of the Obligors (on an unconsolidated basis and excluding intra-group items) equal or exceed, respectively, 80% of the consolidated EBITDA (excluding for the purposes of this calculation, any EBITDA attributable to any Joint Venture (as defined in the Senior Credit Facility)), of the Telenet Bank Group (as defined in the Senior Credit Facility). For the nine months ended and as of September 30, 2017, the subsidiaries that guarantee the obligations under the Senior Credit Facility

generated 100% of Telenet’s Consolidated Adjusted EBITDA and held more than 96% of its consolidated total assets, respectively. See “*Risk Factors—Risks Relating to the Notes and the Structure—The guarantees of the obligations under the Senior Credit Facility (including the 2017 Finco Loans) may be limited by applicable laws or subject to certain limitations or defences that may adversely affect their validity and enforceability.*”

Senior Credit Facility Collateral

Each of the 2017 Finco Loans is secured by the security interests on substantially all assets of the Telenet Bank Group granted to the security agent under the Senior Credit Facility to secure the Telenet Loans. The Telenet Loans are currently secured on a first-ranking basis by substantially all of the properties and assets of the borrowers and guarantors under the Senior Credit Facility, and certain other security providers, under the Senior Credit Facility, including:

- (a) share pledges over all the shares of Telenet Group BVBA, Telenet BVBA (and following the Finco Loans Borrower Exchange, the Belgian Borrower), Telenet Vlaanderen NV and the Initial Telenet Borrowers;
- (b) mortgages over all real property and the network assets of Telenet BVBA (and following the Finco Loans Borrower Exchange, the Belgian Borrower) and Telenet Vlaanderen NV;
- (c) floating charges (and/or floating charge mandates) over all moveable property of Telenet Group BVBA and Telenet BVBA (and following the Finco Loans Borrower Exchange, the Belgian Borrower) and Telenet Vlaanderen NV;
- (d) pledges on bank accounts and of all present and future receivables of Telenet Group Holding, Telenet Group BVBA, Telenet BVBA (and following the Finco Loans Borrower Exchange, the Belgian Borrower) and Telenet Vlaanderen NV; and
- (e) pledges on bank accounts and of all present and future intercompany receivables granted by the Initial Telenet Borrowers.

For a further description of the security with respect to the Telenet Loans and the Senior Credit Facility, see “*Description of the Senior Credit Facility and the Related Agreements—Guarantees and Security*”.

The Senior Credit Facility Amendments include amendments that would allow the release of the collateral described above, with the exception of share pledges over the shares of obligors and pledges in respect of subordinated shareholder loans. See “*Risk Factors—Risks Relating to the Notes—By investing in the Notes you will have provided consent to the Senior Credit Facility Amendments which will automatically become effective without any further consent from holders of the Notes upon Telenet obtaining the consent of the Majority Lenders (as defined in the Senior Credit Facility) (and, with respect to certain amendments, all Telenet Lenders)*”.

Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange

Following the issuance of the Notes, an Initial Telenet Borrower may direct the implementation of the Belgian Issuer Accession. Upon consummation of the Belgian Issuer Accession, the Belgian Issuer will succeed to, and be substituted for, and shall assume the obligations of and may exercise every right and power of, the Issuer under the Notes, the Indenture, the 2017 Finco Loans, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement and upon such substitution, the Issuer will be released

from all of its obligations under the Notes, the Indenture, the 2017 Finco Loans, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement. Following the Belgian Issuer Accession, all references to the Issuer in the Notes, the Indenture, the 2017 Finco Loans, the Related Agreements, the Collateral Sharing Agreement, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement will be deemed references to the Belgian Issuer. See *“Description of the Notes—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange—Belgian Issuer Accession”*.

In addition, following completion of the Belgian Issuer Accession, an Initial Telenet Borrower may direct the implementation of the Finco Loans Borrower Exchange. Upon the consummation of the Finco Loans Borrower Exchange, the relevant Initial Telenet Borrower will be released from all of its obligations under each of the 2017 Finco Loans, the Indenture, the Notes, the relevant Related Agreements, the Collateral Sharing Agreement and the other Finance Documents (as defined in the Senior Credit Facility) and all references to each of the Initial Telenet Borrowers, as applicable, in such documents will be to the Belgian Borrower. Following the Finco Loans Borrower Exchange, if any, all references to each of the 2017 Finco Loans, each of the 2017 Finco Accession Agreements and the Telenet Service Agreement in the Notes and the Indenture will be to the relevant New Finco Loan, the relevant New Finco Accession Agreement and the New Telenet Service Agreement, respectively. See *“Description of the Notes—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange—Finco Loans Borrower Exchange”*.

The Belgian Issuer Accession and the Finco Loans Borrower Exchange may be completed at the option of an Initial Telenet Borrower without any further consent from the Issuer or the holders of the Notes, and the Issuer or holders of the Notes shall upon receipt of the notice of the Belgian Issuer Accession and the notice of the Finco Loans Borrower Exchange, as the case may be, be deemed to have consented to any transfer of rights and obligations pursuant to the Belgian Issuer Accession and the Finco Loans Borrower Exchange (*provided* that, in each case, any relevant corresponding condition in the Indenture and the Finance Documents (as defined in the Senior Credit Facility) have been satisfied). For the avoidance of doubt, an Initial Telenet Borrower may elect to complete the Belgian Issuer Accession without completing the Finco Loans Borrower Exchange; however, if an Initial Telenet Borrower does not elect to complete the Finco Loans Borrower Exchange concurrently with the Belgian Issuer Accession, the Belgian Issuer will grant, or procure the grant of, security in favor of holders of the Notes of substantially the same type, scope and priority as the New Note Collateral.

Following completion of the Belgian Issuer Accession and/or the Finco Loans Borrower Exchange (as applicable), the holders of the Notes will continue to benefit from substantially the same rights and obligations under the Indenture and the Notes. In addition, through the covenants in the Indenture and the security interests in the New Note Collateral (as defined in the *“Description of the Notes”*) granted to secure the Belgian Issuer’s obligations under the Notes, the holders of Notes will be provided indirectly with the benefits, rights and protections granted to the Belgian Issuer as a Telenet Lender, including the benefit of the covenants contained in the Senior Credit Facility and the guarantees and security granted for the benefit of the Telenet Lenders.

Mandatory redemption

Following a change of control as defined under the Senior Credit Facility, Telenet International Finance will be required, at the election of the

Majority Lenders under, and as defined in, the Senior Credit Facility, to prepay the relevant 2017 Finco Loan plus a payment equal to 1% of the principal amount of such 2017 Finco Loans. Following any such repayment, the Issuer will redeem all of the Notes issued under the indenture governing the Notes at a redemption price equal to 101% of the principal amount thereof plus accrued and unpaid interest to the date of redemption.

Optional redemption

In the event that all or any portion of a 2017 Finco Loan or a New Finco Loan, as applicable, is voluntarily prepaid by Telenet BVBA, Telenet Group BVBA and/or the relevant Initial Telenet Borrower or the Belgian Borrower, as applicable, pursuant to Clause 10.5 (*Voluntary Prepayment*) of the Senior Credit Facility (an “Early Redemption Event”), subject to and in accordance with the terms of the Senior Credit Facility and the relevant 2017 Finco Accession Agreement or the relevant New Finco Accession Agreement, as applicable, the relevant 2017 Finco Accession Agreements or the relevant New Finco Accession Agreement, as applicable, will provide for the payment of certain additional payments to be made to the Issuer that correspond to the premiums payable to holders of the Notes (or the relevant series of Notes) upon early redemption, as described below.

At any time prior to December 1, 2022, upon the occurrence of an Early Redemption Event, in respect of the relevant 2017 Finco Loan or the relevant New Finco Loan, as applicable, the Issuer will redeem (i) an aggregate principal amount of Dollar Notes equal to the principal amount of Finco Loan AJ or New Finco Loan AJ-B, as applicable, prepaid in such Early Redemption Event (not to exceed 10% of the Dollar Notes (including the Additional Dollar Notes, if any) and/or (ii) an aggregate principal amount of the Euro Notes equal to the principal amount of Finco Loan AK or New Finco Loan AK-B, as applicable, prepaid in such Early Redemption Event (not to exceed 10% of the Euro Notes (including the Additional Euro Notes, if any), in each case, during each twelve month period commencing on the Issue Date), at a redemption price equal to 103% of the principal amount thereof plus accrued and unpaid interest to (but excluding) the date of redemption. See “*Description of the Notes—Redemption and Repurchase—Optional Redemption*”.

At any time prior to December 1, 2022, upon the occurrence of an Early Redemption Event in respect of the relevant 2017 Finco Loan or the relevant New Finco Loan, as applicable, the Issuer will redeem (i) an aggregate principal amount of the Dollar Notes equal to the principal amount of the Finco Loan AJ or the New Finco Loan AJ-B, as applicable, prepaid in such Early Redemption Event and/or (ii) an aggregate principal amount of the Euro Notes equal to the principal amount of Finco Loan AK or the New Finco Loan AK-B, as applicable, prepaid in such Early Redemption Event, in each case, by paying a “make whole” premium as described under “*Description of the Notes—Redemption and Repurchase—Optional Redemption*”.

On or after December 1, 2022, upon the occurrence of an Early Redemption Event in respect of the relevant 2017 Finco Loan or the relevant New Finco Loan, as applicable, the Issuer will redeem (i) an aggregate principal amount of the Dollar Notes equal to the principal amount of the Finco Loan AJ or the New Finco Loan AJ-B, as applicable, prepaid in such Early Redemption Event, and/or (ii) an aggregate principal amount of the Euro Notes equal to the principal amount of the Finco Loan AK or the New Finco AK-B, as applicable, prepaid in such Early Redemption Event, in each case, at the redemption prices as described under “*Description of the Notes—Redemption and Repurchase—Optional Redemption*”.

At any time prior to December 1, 2022, upon the occurrence of an Early Redemption Event in respect of the relevant 2017 Finco Loan or the relevant New Finco Loan, as applicable, with the net cash proceeds of one or more Equity Offerings (the “Equity Offering Early Redemption Proceeds”), the Issuer will redeem (i) up to 40% of the aggregate principal amount of the Dollar Notes (including the Additional Dollar Notes, if any) equal to the principal amount of the Finco Loan AJ prepaid with any Equity Offering Early Redemption Proceeds and/or (ii) up to 40% of the aggregate principal amount of the Euro Notes (including Additional Euro Notes, if any) equal to the principal amount of the Finco Loan AK prepaid with any Equity Offering Early Redemption Proceeds, in each case, in such Early Redemption Event, at the redemption price set forth under “*Description of the Notes—Redemption and Repurchase—Optional Redemption*”.

Optional redemption with disposal proceeds

In the event of certain asset sales, Telenet BVBA and Telenet International Finance may elect, at their option, (i) to offer to prepay a principal amount of the relevant 2017 Finco Loan equal to the aggregate principal amount of the relevant series of Notes tendered in a related asset sale offer to be made by the Issuer (not to exceed the available proceeds from the related asset sale) or (ii) subject to the payment of certain premiums, to prepay the relevant 2017 Finco Loan in an amount equal to the available proceeds from the related asset sale, and in the cases of clauses (i) and (ii) the Issuer will redeem a corresponding amount of the relevant series of Notes. See “*Description of the Notes—Redemption and Repurchase—Disposal Proceeds*”.

Additional amounts; tax redemption

All payments in respect of the Notes will be made without withholding or deduction for any taxes or other governmental charges, except to the extent required by law. See “xz”. If withholding or deduction is required by law in a Relevant Tax Jurisdiction (as defined below), subject to certain exceptions, the Issuer will pay Additional Amounts so that the net amount you receive is no less than that which you would have received in the absence of such withholding or deduction. See “*Description of the Notes—Withholding Taxes*”. Subject to certain exceptions, the Issuer may redeem the relevant series of the Notes in whole, but not in part, at any time, upon giving prior notice, in the event of an optional prepayment of a 2017 Finco Loan or New Finco Loan pursuant to Clause 10.8(a)(i) (*Right of Repayment and Cancellation of a Single Lender*) of the Senior Credit Facility or if certain changes in tax law impose certain withholding taxes on amounts payable on the relevant series of Notes and, as a result, the Payor is required to pay Additional Amounts with respect to such withholding taxes. If the Issuer decides to exercise such redemption right, it must pay holders a redemption price equal to the principal amount of the relevant series of Notes being redeemed, together with accrued and unpaid interest and Additional Amounts, if any, to the date of redemption. See “*Description of the Notes—Redemption and Repurchase—Redemption for Changes in Withholding Taxes*”.

Certain covenants

The Issuer issued the Notes under the Indenture. The Indenture contains covenants with respect to restrictions on the business activities of the Issuer; maintenance of the existence of the Issuer; listing; maintenance of rating; minimum period for consents under loan documents; payments for consent; amendments to loan documents to be applied equally to all lenders; information; and impairment of liens.

Voting in respect of the 2017 Finco Loans and the Senior Credit Facility

The Issuer will vote as a lender under the Senior Credit Facility pursuant to the 2017 Finco Loans. The voting method to be used to determine the voting position of the Issuer on any matter subject to a lender vote under the Senior Credit Facility is described under “*Description of the Notes—Amendment,*

Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements”.

Each of the 2017 Finco Accession Agreements and the New Finco Accession Agreements contains the consent of the Issuer, as a Telenet Lender, to certain significant amendments to the Senior Credit Facility (including the First Senior Credit Facility Amendments, the Second Senior Credit Facility Amendments, the Third Senior Credit Facility Amendments, the Fourth Senior Credit Facility Amendments, the Fifth Senior Credit Facility Amendments, the Sixth Senior Credit Facility Amendments and the Seventh Senior Credit Facility Amendments) set forth in schedules 4, 5, 6, 7, 8, 9 and 10 of Annexes B and C, and schedules 4, 5, 6, 7, 8, 9 and 10 of Schedule 11 of Annexes B and C in these Listing Particulars (the “**Senior Credit Facility Amendments**”). The Senior Credit Facility Amendments include material modifications to certain affirmative and negative covenants, financial maintenance covenants and related definitions, representations and warranties, events of default, mandatory prepayment provisions, administrative provisions and provisions relating to the security package. The Senior Credit Facility Amendments are generally less restrictive and provide greater flexibility to the Telenet Bank Group than the provisions currently included in the Senior Credit Facility. Specifically, the Senior Credit Facility Amendments include, but are not limited to, the following (capitalized terms used in the following description have the meanings currently provided in the Senior Credit Facility, without giving effect to the Senior Credit Facility Amendments)

- amend the definition of “80% Security Test” to provide that where a Guarantor generates negative earnings before interest, tax, depreciation and amortization, such Guarantor shall be deemed for the purpose of calculating the 80% Security Test numerator to have zero earnings before interest, tax, depreciation and amortization;
- amend the definition of “Affiliate” to include a proviso that any provision which uses such term, an Affiliate of the Company that issues notes, bonds or other securities for the purpose of on-lending proceeds of such issuance under a Facility and to a Borrower shall not be an Affiliate of the Company and such entity shall not be deemed to be managed by, or under control of, the Company or any of its Affiliates and any payments made to such entity in connection with any fees, costs, indemnity claims or expenses payable to it in connection with transactions related to the issuance of any notes, bonds or other securities will be a “Permitted Payment”;
- amend the definition of “Consolidated EBITDA” to include the amount of loss on transfer of assets in connection with an asset securitization programme, receivables factoring transaction or other receivables transaction;
- amend the definition of “Consolidated EBITDA” to add equity based compensation expenses and to remove the option for fees or other amounts charged or credited to the Company and the Guarantors related to Intra-Group Services to the extent that they are not included in the Company’s externally reported operating case flow or are deemed to be exceptional or unusual items;
- amend the definition of “Finance Document” to provide that an Increase Confirmation will be, and a Transfer Certificate won’t be, a Finance Document;

- amend the definition of “Finance Document” to provide that a Hedging Agreement is only a Finance Document, and to amend the definition of “Finance Party” to provide that a Hedge Counterparty is only a Finance Party, for the purpose of the guarantee provisions;
- amend the definition of “Financial Indebtedness” to remove any counter-indemnity obligation in respect of any guarantee, indemnity, bond, letter of credit or other instrument issued by a bank or financial institution;
- amend the definition of “Impaired Agent” to include any Facility Agent which is also a Defaulting Lender as a result of the Facility Agent being an L/C Bank which has failed to issue a Documentary Credit or failed to pay a claim;
- amend the definition of “Majority Lenders” to provide that the definition is subject to the snooze lose provision;
- amend the definition of “Measurement Period” to refer to each period of approximately six months covering two quarterly accounting periods of the Group ending on each date to which each set of financial statements required to be delivered under the Senior Credit Facility are prepared, provided that the Company may make an election to establish that “Measurement Period” means each period of approximately 12 months covering four quarterly accounting periods of the Group ending on each date to which each set of financial statements required to be delivered under Clause 19.1 (*Financial statements*) are prepared (and if such an election has been made, the Company may not elect to change the test period back);
- amend the definition of “Permitted Acquisition” to add a new limb to permit the acquisition by a member of the Group for the purposes of a solvent reorganisation of the Group where the acquisition is of share capital of a person which has not traded and does not own any assets or is a dormant subsidiary of the Ultimate Parent and which has no liabilities;
- amend the definition of “Permitted Acquisition” to add a new limb to permit the acquisition by any member of the Group of any Senior Unsecured Notes provided that an amount equal to the purchase price paid for the acquisition of any such Senior Unsecured Notes could have been used by such member of the Group to fund a Permitted Payment and provided further that to the extent any such acquisition is made in reliance on any basket amount provided for under the definition of “Permitted Payments”, such amount shall be reduced by an amount equal to the consideration paid for such acquisition;
- amend the definition of “Permitted Acquisition”, in particular limb (e), to remove the requirement to meet the ratio of Net Total Debt to Consolidated Annualised EBITDA being less than 6.00:1;
- amend the definition of “Permitted Acquisition”, in particular limb (j), to extend the time period for making the issued shares subject to Security to 60 days;
- amend the definition of “Permitted Disposal”, in particular limb (hh) of such definition, to mean disposals of real property where the aggregate fair market value does not exceed the greater of €150,000,000 and 3%

of Total Assets in any financial year (with unused amounts being carried over);

- amend the definition of “Permitted Disposal”, in particular limb (ii) of such definition, to mean disposals of assets pursuant to sale and leaseback transactions where the aggregate fair market value does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year;
- amend the definition of “Permitted Disposal”, in particular limb (t) of such definition, to mean disposals of assets where the aggregate fair market value does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year (with unused amounts being carried over);
- amend the definition of “Permitted Disposal”, in particular limb (ww) of such definition, to remove the requirement for the Company to provide a certificate certifying the re-calculated financial ratio for the purposes of a disposal under such limb;
- amend the definition of “Permitted Disposal” to add a new limb to permit the disposal of undertakings, assets, rights or revenues comprising interests in the share capital of persons not holding or engaged in the distribution business (i.e. the business of upgrading, constructing, developing, acquiring etc. cable television network for the transmission, reception and/or delivery of multi-channel television and radio programming, telephony and internet and/or data services to the residual markets) of the Group or other undertakings, assets, rights or revenues not constituting part of such distribution business of the Group;
- amend the definition of “Permitted Disposal” to add a new limb to permit new disposals which constitute the concurrent purchase and sale or exchange of related business assets or a combination of such assets, cash and Cash Equivalent Investments between any member of the Group and another person provided that the member of the Group receives consideration at least equal to fair market value for the assets;
- amend the definition of “Permitted Disposal” to permit disposals by one member of the Group to another member of the Group provided that, if such assets subject to the disposal are subject to existing security, the Borrower within 15 Business Days of such disposal ensures that the assets remain subject to security;
- amend the definition of “Permitted Disposal” to permit disposals of shares or other interests in project companies, entities excluded from the Group which are subsidiaries of the Company or joint venture companies (each as defined in recent Liberty precedent) or the assignment of any Financial Indebtedness owed to a member of the Group by any project companies, entities excluded from the Group which are subsidiaries of the Company or a joint venture company;
- amend the definition of “Permitted Financial Indebtedness” to add a new limb to permit Financial Indebtedness incurred in connection with the Hedging Agreements and other hedging arrangements permitted by the Senior Credit Facility;
- amend the definition of “Permitted Financial Indebtedness” to add a new limb to permit Financial Indebtedness of any member of the Group, in respect of which the person to whom such Financial

Indebtedness is owed has no recourse to any member of the Group for any payment or repayment in respect thereof other than recourse to such member of the Group for the purpose only of enabling amounts to be claimed in respect of such Financial Indebtedness in an enforcement of any Security Interest given by a member of the Group over Non-Distribution Assets;

- amend the definition of “Permitted Financial Indebtedness, in particular limb (r) of that definition, to provide that a Default would not be a drawstop to Financial Indebtedness arising in respect of any guarantee given by a member of the Group in respect of any issuer of Holdco Debt’s obligations under any Holdco Debt;
- amend the definition of “Permitted Joint Venture”, in particular limb (b), to remove the requirement to meet the ratio of Net Total Debt to Consolidated Annualised EBITDA being less than 6.00:1;
- amend the definition of “Permitted Joint Venture” to remove the requirement that an acquisition would not fall within such definition if an Event of Default had occurred and was continuing at the time of such acquisition;
- amend the definition of “Permitted Joint Venture” to permit Telenet BVBA to contribute freely pledged loan and guarantee receivables to the Permitted Joint Venture’s share capital without requiring a release from the Security Agent (subject to confirmation or re-taking of security over such pledged loan and guarantee receivables);
- amend clause 21.11 (*Restricted Payments*) to add an additional limb to permit payment by any member of the Group of Management Fees during such period as the applicable ratio for the purposes of clause 20.2 (*Net Total Debt to Consolidated Annualised EBITDA*) is 3.50:1 (or less);
- amend the definition of “Permitted Payment” to add an additional limb to permit any payment by way of transfer to any Restricted Person of any Non-Distribution Business Assets (to the extent they are permitted under the definition of Permitted Disposal);
- amend the definition of “Permitted Payment”, in particular limb (cc) of such definition, to mean payments in connection with a start-up financing or seed funding where the aggregate value of the payment does not exceed the greater of €50,000,000 and 1% of Total Assets;
- amend the definition of “Permitted Payment”, in particular limb (kk) of such definition, to mean payments in relation to tax losses received by a member of the Group from any member of the Wider Group that is not a member of the Group where the amount of tax losses does not exceed the greater of €200,000,000 and 3% of Total Assets in any financial year;
- amend the definition of “Permitted Payment”, in particular limb (ll) of such definition, to mean payments not covered by other parts of the definition where the amount of the payment does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year (with unused amounts being carried over);

- add a new limb to the definition of “Permitted Payment” to permit a payment in relation to any “Permitted Business Division Transaction” or any “Acceptable Joint Venture” (each as referred to above);
- add a new limb to the definition of “Permitted Security Interest” to permit any Security Interests attaching to commodity trading accounts or other commodity brokerage accounts incurred in the ordinary course of business;
- add a new limb to the definition of “Permitted Security Interest” to permit any Security Interests over Non-Distribution Business Assets, securing Financial Indebtedness in respect of such Non-Distribution Business Assets;
- amend the definition of “Permitted Security Interest” to permit the Company to secure Financial Indebtedness on a *pari passu* or junior ranking basis provided that (other than in the case of a refinancing of other secured Financial Indebtedness in the same or a lesser principal amount) the Net Total Debt to Consolidated Annualised EBITDA ratio on a pro forma basis would not be greater than 5.50:1.00 and provided that such Financial Indebtedness is subject to an intercreditor agreement on terms which are satisfactory to the Security Agent (acting on the instructions of the Majority Lenders) and where (in the case of such Financial Indebtedness being secured on a junior ranking basis) the rights of the holders of such Financial Indebtedness in respect of any payment will be contractually subordinated to the rights of the Lenders on terms comparable to the Loan Market Association’s form of intercreditor agreement at such time for mezzanine debt;
- replace the definition of “Spin Off” under the Senior Credit Facility with a new definition which refers to a transaction by which all outstanding ordinary and or equity shares of the Common Holding Company and or any Holding Company of the Common Holding Company directly or indirectly owned by the Ultimate Parent are distributed to (a) all of the Ultimate Parent’s shareholders, or (b) all of the shareholders comprising one or more group of the Ultimate Parent’s shareholders as provided by the Ultimate Parent’s articles of association, in each case, either directly or indirectly through the distribution of shares in a company holding the Common Holding Company’s shares or such Holding Company’s shares;
- add a new definition of “Sub-participation” referring to any sub-participation or sub-contract (whether written or oral) or any other agreement or arrangement having an economically substantially similar effect, including any credit default or total return swap or derivative (whether disclosed undisclosed, risk or funded) by a Lender of or in relation to any of its rights or obligations under, or its legal, beneficial or economic interest in relation to, the Facilities and/or Finance Documents to a counterparty and “sub-participate” shall be construed accordingly;
- amend the definition of “Majority Lenders” to reduce the fractions specified, from two thirds or more (for any or all purposes under the Credit Agreement or any other Finance Document (including for the purposes of any Telenet Additional Facility)) to more than 50.00% and to exclude the available commitments of defaulting lenders for the purposes of amendments or waivers;

- amend the definition of “Super Majority Lenders” so that amendments and waivers in respect of the release of any guarantee or security only requires the consent of Lenders representing 90.00% of Commitments;
- amend clause 29.3 (*Transfers by Lenders*) of the Senior Credit Facility to include a restriction on sub-participations of rights and obligations and is subject to the same consent regime as for assignments and transfers;
- add a new provision to provide that there will be no restrictions on sub-participations provided that certain conditions, which include, the Lender retaining exclusive control over all rights and obligations in relation to the participations, the relationship between the Lender and the proposed sub-participant being that of a contractual debtor and creditor and the proposed sub-participant having no proprietary interest in the benefit of the Senior Credit Facility or any of the Finance Documents or in any monies received by the relevant Lender;
- add a new provision to require any person granting a sub-participation to maintain a register on which it enters the name and address of each sub-participant in which each sub-participant has an interest or obligation;
- add a new provision which provides that no transfer of an interest in an Advance or Commitment under the Senior Credit Facility is effective unless and until it is recorded in the register referred to in the Senior Credit Facility;
- amend the additional facilities clause that each Lender under a Telenet Additional Facility shall be required to become such a party to the Senior Credit Facility and be entitled to share in the Security in accordance with the terms of the Intercreditor Agreement and the Security Documents *pari passu* with the Lenders under the other Facilities provided that the Company and the relevant Telenet Additional Facility Lenders may agree that a Telenet Additional Facility shares in the Security on a junior basis to the other Facilities or shall not be entitled to share in the Security either in accordance with the terms of the Intercreditor Agreement or pursuant to ancillary intercreditor arrangements;
- amend the Additional Facilities Cap such that (A) it includes an additional limb for the aggregate amount of any voluntary prepayments of Term Facility Advances under Revolving Facilities to the extent the relevant prepayment or cancellation is not funded or effected with any long term Financial Indebtedness and (B) the Company shall have the ability to classify such amounts of Financial Indebtedness on the date of their incurrence and shall only be required to include the amount and type of such Financial Indebtedness in more than one of the types of Financial Indebtedness described in such paragraphs, and, from time to time, may reclassify all or a portion of such Financial Indebtedness, in any manner;
- amend the definition of Consolidated EBITDA under the Senior Credit Facility to provide that any adjustments to reduce the impact of the cumulative effect of a change in accounting principles or policies and changes as a result of a the adoption or modification of accounting principles or policies can be added (at the Company’s option) to the operating income of the Group for that measurement period;

- amend the Senior Credit Facility to provide that any Affiliate of the Company may accede to the Senior Credit Facility as a Guarantor in accordance with the terms of the Senior Credit Facility (provided that Security has been granted in form and substance satisfactory to the Facility Agent (acting reasonably) in favour of the Security Agent over 100% of its shares and all rights in relations to loans from members of the Wider Group to it) and that such Affiliate shall be a member of the Group and an Additional Guarantor;
- add a new definition of “Affiliate Subsidiary” such that it means any Affiliate of the Company that accedes to the Senior Credit Facility as a Guarantor pursuant to the amendments described in the paragraph above and provided that it has not resigned as a Guarantor in accordance with the terms of the Credit Agreement;
- amend the definition of “ERISA Affiliate” to mean any person treated as a single employer with any Obligor under section 414 of the Code;
- amend the definition of “Plan” to mean an “employee benefit plan” as defined in section 3(3) of ERISA, which is subject to Title IV of ERISA (A) maintained by any Obligor or any ERISA Affiliate, or (B) to which any Obligor or any ERISA Affiliate is required to make any payment or contribution;
- amend the definition of “Reportable Event” to mean (A) an event specified as such in section 4043 of ERISA or any regulation, other than an event in relation to which the requirement to give notice of that event is waived by any regulation, or (B) a failure to meet the minimum funding standard under section 412 or 430 of the Code or section 302 of ERISA, whether or not waived;
- amend the Senior Credit Facility so that the ERISA representation only applies to an Obligor and not all members of the Group and there is no Event of Default triggered in respect of ERISA;
- amend the Senior Credit Facility to amend the undertaking relating to ERISA such that each Obligor and its ERISA Affiliates must (A) be, and remain, in compliance in all material respects with all laws and regulations relating to each of its Plans and (B) must ensure that no event or condition exists at any time in relation to a Plan which is reasonably likely to result in the imposition of a lien or other encumbrance on any of its assets or which is reasonably likely to have a Material Adverse Effect;
- amend the definition of “Limited Condition Transaction” to include any Restricted Payment;
- amend the representation at clause 18.17 (*United States Regulations*) so that the representation to be given is that no Obligor is required to be registered as an “investment company” under the United States Investment Company Act of 1940;
- amend the representation at clause 18.19 (*Margin stock*) so that the representation to be given is that no Obligor is engaged nor will it engage, principally or as one of its important activities, in the business of purchasing or carrying Margin Stock (within the meaning of Regulation U issued by the Board of Governors of the Federal Reserve System of the United States), or extending credit for the purpose of

purchasing or carrying Margin Stock, and no proceeds of any borrowings will be used for any purpose that violates Regulation U;

- add a new provision to clause 21.13 (*Loans and Guarantees*) to permit any guarantee of any Financial Indebtedness of any Parent that is given by an Affiliate Subsidiary provided that (i) on the date of incurrence of such guarantee the ratio of Net Total Debt (including any Holdco Debt) to Consolidated Annualised EBITDA on a pro forma basis would not exceed 6.00:1 (provided that outstanding Net Total Debt (including Holdco Debt) for the purpose of calculating such ratio under this paragraph shall include any Financial Indebtedness represented by guarantees by any member of the Group of Financial Indebtedness of any Parent), (ii) such guarantee is expressed to be subordinated to the liabilities of such Affiliate Subsidiary under the Finance Documents and (iii) no Event of Default is continuing or occurs as a result of such Financial Indebtedness of that Parent being raised or issued;
- amend clause 21.13 (*Loans and Guarantees*), in particular limb (bb) of such clause, to mean loans made, credit granted or guarantees given by any member of the Group where the aggregate amount does not exceed the greater of €150,000,000 and 3% of Total Assets;
- amend Clause 21.13 (*Loans and Guarantees*), in particular limb (g) of such clause, to permit guarantees by an Obligor in respect of the liabilities of any other member of the Group which is not an Obligor provided that that other member of the Group must become an Additional Guarantor in accordance with the terms of the Senior Credit Facility within 30 days of the granting of the guarantee;
- amend clause 21.13 (*Loans and Guarantees*), in particular limb (z) of such clause, to mean loans made in connection with any start-up financing or seed funding where the aggregate value does not exceed the greater of €25,000,000 and 1% of Total Assets;
- add a new provision to clause 21.13 (*Loans and Guarantees*) to permit any loans or guarantees relating to Excess Capacity Network Services provided that the price payable to any member of the Group in relation to such Excess Capacity Network Services is no less than the Cost incurred by the relevant member of the Group in providing such Excess Capacity Network Services;
- add a new provision to clause 21.13 (*Loans and Guarantees*) to permit any guarantees or similar undertakings granted by any member of the Group in favour of any tax authority in respect of any obligations of a member of the Group in respect of tax in order to facilitate the winding up of any member of the Group provided that the Facility Agent shall have first received confirmation from the Company that based on discussions with such tax authority and the Company's reasonable assumptions, the Company does not believe that the liability under such guarantee will exceed €15,000,000 (such confirmation to be supported by a letter from the Company's auditors for the time being, confirming that based on the Company's calculations of such tax liability the Company's confirmation is a reasonable assessment of such tax liability);
- amend clause 10.2(b) (*Mandatory Prepayment—Change of Control*) to provide that upon consummation of (i) the Post-Closing Reorganization, the "Controlling Company" will mean the relevant New Intermediate Holdco and its successors or (ii) a Spin-Off in which the Common Holding Company and its successors is no longer a Parent

of the Company and any Permitted Affiliate Parent, the “Controlling Company” will mean a common Parent of the Company and any Permitted Affiliate Parent designated by the Company and any successors of such Parent;

- amend the definition of “GAAP” to provide that at any date after the date of preparation of the original financial statements, the Company may make an election to establish “GAAP” to mean GAAP as in effect on a date that is on or prior to the date of such election but provided that for the purposes of clause 19.1 (*Financial Statements*) GAAP means generally accepted accounting principles in the United States as in effect from time to time;
- amend the definition of “IFRS” to provide that at any date after the date of preparation of the original financial statements, the Company may make an election to establish “IFRS” to mean IFRS as in effect on a date that is on or prior to the date of such election but provided that for the purposes of clause 19.1 (*Financial Statements*) IFRS means generally accepted accounting principles in the United States as in effect from time to time;
- amendments to the Change in Accounting Principles clause to provided that all ratios and calculations based on IFRS shall be computed in conformity with IFRS and that the audited consolidated financial statements and unaudited quarterly consolidated management accounts shall be prepared in accordance with IFRS;
- amendments to the Change in Accounting Principles clause to provide that at the time of an election from the Company to apply or all purposes of the Senior Credit Facility, in lieu of IFRS, GAAP and, upon such election, references to IFRS in the Senior Credit Facility will be construed to mean GAAP, provided that all financial statements and reports to be provided, after such election, pursuant to this Agreement shall be prepared on the basis of GAAP as in effect from time to time (including that, upon first reporting its financial year results under GAAP, the financial statements of the Reporting Entity shall be restated on the basis of GAAP for the year ending immediately prior to the first financial year for which financial statements have been prepared on the basis of GAAP) and from and after such election, all ratios, computations and other determinations based on GAAP contained in this Agreement shall, at the Company’s option (A) continue to be computed in conformity with GAAP (*provided* that, following such election, the annual and quarterly information required to be delivered under the Senior Credit Facility shall include a reconciliation, either in the footnotes thereto or in a separate report delivered therewith, of such GAAP presentation to the corresponding GAAP presentation of such financial information) or (B) be computed in conformity with GAAP with retroactive effect being given thereto assuming that such election had been made on the OFS Date, subject to any further election in accordance with the definition of GAAP. After such election, the Company may, at its option, elect to apply IFRS or GAAP and compute all ratios, computations and other determinations based on IFRS or GAAP;
- amend the definition of “Business Division Transaction” to remove the requirement for the approval of the Majority Lenders to such transactions;
- add a new definition of “Permitted Business Division Transaction” to mean a Business Division Transaction provided that after giving pro

forma effect thereto, an Obligor could incur at least €1.00 of additional Financial Indebtedness pursuant to limb (v) of the definition of Permitted Financial Indebtedness;

- add a new definition of “Acceptable Joint Venture” to mean a joint venture, partnership or similar arrangement formed by a member of the Group (a) by the contribution of some or all of the assets of the Group pursuant to a Business Division Transaction to such joint venture, partnership or similar arrangement with one or more persons and/or (b) for the purposes of network and/or infrastructure sharing with one or more Joint Ventures;
- amend the construction clause of the Senior Credit Facility to provide that the Senior Credit Facility is subject to the terms of the Intercreditor Agreement and the terms of the Intercreditor Agreement will prevail if there is a conflict between the terms of the Senior Credit Facility and the Intercreditor Agreement;
- amend the increase provisions so that, with the prior consent of a Lender, the Commitments of any Increase Lender can be increased without the drawstop of an Event of Default;
- amend the increase provisions to provide that at the election of the Company (in its sole discretion) it shall be a condition to an increase (A) that the aggregate principal amount of any proposed increase in the Commitments shall not exceed, *mutatis mutandis*, the Additional Facilities Cap on the date that such increase in the Commitments becomes effective (giving pro forma effect to the intended use of proceeds of such increased Commitment and assuming that the entire amount of that increased Commitment is drawn on such date or (B) to any Utilisation (other than a Rollover Loan or a Documentary Credit which is being renewed pursuant to clause 6.2 (*Renewal of Documentary Credits*)) of that increased Commitment that the aggregate principal amount of that increased Commitment to be drawn would not exceed, *mutatis mutandis*, the Additional Facilities Cap on the date of that Utilisation;
- amend the provisions relating to compliance certificates to provide that the Company is only required to provide a Compliance Certificate with its financial statements to the Facility Agent if, as at the last day of the Measurement Period ending on the date of such financial statements, the Financial Ratio Test Condition is met;
- amendments to the financial covenant provisions so that (a) should any net indebtedness under each Ancillary Facility exceed an amount equal to 40 per cent. of the aggregate of the Revolving Facility Commitments and each Ancillary Facility Commitment, the ratio of Net Total Debt to Consolidated Annualised EBITDA shall not exceed 6.00:1 and (b) if the financial covenant set out in paragraph (a) has been breached for a Measurement Period but is complied with when tested for the next Measurement Period, then, the prior breach of such financial covenant or any Event of Default arising therefrom shall not constitute a breach of any representation, warranty, undertaking or other term in the Finance Documents or a Default or Event of Default;
- amend the equity cure provisions to provide that the Company may cure a breach of the financial ratio by procuring that additional equity is injected into, and/or additional Subordinated Shareholder Loans is provided to, one or more members of the Group in an aggregate amount equal to or greater than the amount which if it had been (A) deducted

from Net Total Debt or (B) added to Consolidated Annualised EBITDA for the Measurement Period in respect of which the breach arose, would have avoided the breach provided that such cure would not be effective unless an amount equal to or greater than the required amount of additional equity or the proceeds of any Subordinated Shareholder Loans is received by one or more members of the Group within 30 Business Days of delivery of the financial statements which show the breach of the financial ratio and provided further that if the Company makes such election for re-calculation it shall be under no obligation to apply the amount of additional equity or the proceeds of any Subordinated Shareholder Loans that are received by one or more members of the Group in prepayment of the Facilities or for any other specific purpose and such amount will be deemed to be deducted from Net Total Debt or added to Consolidated Annualised EBITDA for the purposes of the financial ratio as at the last day of the relevant Measurement Period;

- amend the equity cure provisions to provide that the Company may cure a breach of the financial ratio by procuring that any Telenet Additional Facility Outstandings under any Revolving Facility and/or net indebtedness under any Ancillary Facility are prepaid (from any source selected by the Company in its sole discretion) in an amount which if such prepayment had occurred immediately prior to the calculation on the last day of the Measurement Period in respect of which the breach arose, the Financial Ratio Test Condition as at the last day of that Measurement Period would not have been met and therefore the financial ratio would not have been required to be tested provided that such cure would not be effective unless the amount of any Telenet Additional Facility Outstandings under any Revolving Facility and/or net indebtedness under any Ancillary Facility that are required to be prepaid are so prepaid within 30 Business Days of delivery of the financial statements which show the breach of the financial ratio and provided further that if the Company makes such election for re-calculation the amount of any Telenet Additional Facility Outstandings under any Revolving Facility and/or net indebtedness under any Ancillary Facility that are prepaid shall be deemed to be deducted in the calculation of the Financial Ratio Test Condition as at the last day of the relevant Measurement Period;
- amend the representation provision in the Senior Credit Facility to (A) delete the representation that the Senior Credit Facility does not result in the creation of any Security Interest, (B) delete the representation that a member of the Group is not in default under any law, regulation or agreement, (C) to carve Licenses out of the scope of licenses in the authorisations representation and (D) to provide that the insolvency proceeding representation only extends to Obligors or Material Subsidiaries;
- amend the increased costs provisions to include an exception for any cost attributable to a change in the Tax Liability on the overall net income of the Finance Party, attributable to any penalty having been imposed by the relevant central bank or monetary or fiscal authority upon the Finance Party or attributable to a breach of a Finance Document by the Finance Party;
- amend the stamp taxes indemnity to carve out any Tax Liabilities payable in connection with the assignment or transfer by any Lender of any of its rights and/or obligations under the Finance Documents and any registration duties relating to a registration submission or filing

which is not required to maintain or preserve the rights of that Finance Party;

- amend the tax indemnity provision to carve out any loss, liability or cost which has been compensated under the stamp taxes indemnity provisions;
- amend the undertaking relating to share capital to include an additional carve out for members of the Group in order to permit a solvent liquidation and the reduction of capital or purchase or redemption of shares to the extent it relates to the cancellation of the share capital of any member of the Group or any Obligor;
- amend the further assurance provision to provide that there will not be a breach of the 80% Security Test if the members of the Group become Obligors within 60 days of the delivery of the relevant Compliance Certificate by the Company demonstrating that the 80% Security Test has not been satisfied;
- amend the breach of other obligations event of default to provide that the breach of the undertakings relating to pari passu ranking, negative pledge, disposals, acquisitions and mergers, restricted payments, loans and guarantees and share security will not trigger an event of default if such non-compliance is capable of remedy and is remedied within 30 days of the earlier of the Facility Agent giving notice of the breach to the Company or any Obligor become aware of the non-compliance;
- amend the cross-default event of default to delete the provision which states that it will be an Event of Default to the extent that Financial Indebtedness is placed on demand and include the additional requirement that it will not be an Event of Default if the relevant Financial Indebtedness is covered by a Documentary Credit or a letter of credit, bank guarantee, indemnity or other documentary credit under an Ancillary Facility;
- amend the information undertakings to remove the requirement for the Obligors to provide copies of material reports or other notice delivered by a member of the Group whose shares are subject to a pledge to their shareholders;
- amend the change of business undertaking to provide that it will not be breached by an Obligor or any member of the Group to the extent that it is as a result of a Permitted Disposal, Permitted Acquisition or Permitted Joint Venture;
- amend the insurance undertaking to provide that the Obligors are only required to procure compliance of Material Subsidiaries;
- amend the shareholder loan undertaking to provide that the Obligor has 60 days from the date of the shareholder loan to put in place the relevant security over such shareholder loan;
- amend the share security undertaking to include carve outs to the issuance of shares where (A) the shares are to a non-member of the Group if they are made subject to security in favour of the Senior Secured Creditors (as defined in the Intercreditor Agreement) and it does not result in a Change of Control, (B) to a member of the Group or to Telenet Group BVBA if they are made subject to the security in favour of the Senior Secured Creditors (as defined in the Intercreditor Agreement), (C) the shares are issued pursuant to the exercise of

Approved Stock Options, (D) the shares are part of an Acquisition or merger and do not result in a Change of Control, (E) the shares are issued by a member of the Group to all the holders of their shares pro rata and if relevant, are made subject to security in favour of the Senior Secured Creditors (as defined in the Intercreditor Agreement), and (F) shares issued pursuant to any agreement existing before the Signing Date and it does not result in a Change of Control;

- amend the group redesignation provision to provide that the Company may deliver a notice to the Facility Agent designating any Holding Company of the Company and/or any Holding Company of any Permitted Affiliate Parent as a “New Group Topco” for the purposes of this Agreement provided that taking into account any actions to be taken by the Company for the benefit of the Lenders, it would not be materially prejudicial to the interests of the Lenders in the opinion of the Facility Agent (acting reasonably);
- amend the merger provision to permit a merger of Telenet Group Holding NV, Telenet BVBA or Telenet Vlaanderen NV or any of their intermediate holding companies;
- amend the Clean Up Period to 180 days;
- amend the acceleration provision to remove the discretion of the Facility Agent once it has been instructed to do so by the Majority Lenders;
- amend the currency indemnity and break costs provisions to provide that the relevant Finance Party must be indemnified within 10 Business Days of demand;
- amend the amendment provisions to permit the Facility Agent (without the consent of the Lenders) to make modifications to a Finance Document if such modification is not materially prejudicial to the position of any Lender, is minor or operational, relates to an increase in the principal amount of a Commitment of a Lender and such increased Commitment has been requested by the Company to fund any original issue discount required to be paid to that Lender or relates to the implementation of any alternative basis for the calculation of interest that is binding on all Parties in accordance with the terms of the Senior Credit Facility;
- amend the amendment provisions to include an additional exception for a waiver of issuance or the release of any Guarantor from any of its obligations under the guarantee provisions of the Senior Credit Facility or a release of any Security under the Security Documents, in each case, other than in accordance with the terms of any Finance Document shall require the prior written consent of affected Lenders whose share in the outstanding Utilisations and whose undrawn Commitments amount in aggregate to more than 75 per cent. of all of the outstanding Utilisations and undrawn Commitments;
- amend the non-consenting lender provisions to remove the requirement for a 21 day time period to have elapsed from the date of the request for consent;
- amend the governing law clause to include non-contractual obligations arising out of or in connection with the Senior Credit Facility;

- amend the ancillary facilities provisions to provide that (i) a date specified in a conversion notice as the effective date for an ancillary facility commitment may be a date not less than 3 Business Days after the date such conversion notice is received by the Facility Agent, (ii) any proposed increase or reduction or extension of the ancillary facility commitment shall only take effect from a date not less than 3 Business Days after the date the Facility Agent has received notice of the relevant modification or variation or extension and (iii) an ancillary facility lender may demand repayment or prepayment of any amounts under its ancillary facility if the ancillary facility outstandings under that ancillary facility can be repaid by a revolving facility advance (and not less than 7 Business Days notice (or such shorter period as agreed to by the Company) is given to the relevant Borrower before payment becomes due);
- amend the defaulting lender provisions to include the right to replace a Lender (in whole and at par) if that Lender becomes a Defaulting Lender;
- amend the assignment of the Lender provisions to provide that the consent of the Company is not required for any assignment or transfer by a Lender if a non-payment, insolvency, insolvency proceedings, creditors' process and similar proceedings Event of Default is outstanding;
- amend the assignment of the Lender provisions to clarify that the Company should have the right to withhold consent in respect of an assignment/transfer of the Revolving Facility to an entity which is not a lender under a revolving facility to the wider Liberty group (subject to no consent being required in the case of transfers to other Lenders or affiliates of Lenders or following an event of default which is continuing). There should be no unreasonableness qualifier on this right (in respect of the Revolving Facility only). Remove requirement of deemed consent within 10 Business Days in respect of each Revolving Facility;
- amend the amendments and waivers provisions to provide that amendments and waivers of clause 20.2 (*Net Total Debt to Consolidated Annualised EBITDA*) to 20.4 (*Cure provisions*) shall only be made with the consent of the Company and the Composite Revolving Facility Instructing Group and shall not require the consent of any other Finance Party;
- amend the amendment and waivers provisions to introduce a class exception, whereby any amendment or waiver that relates only to the rights or obligations of a particular Utilisation or Facility and does not materially and adversely affect the rights or interests of Lenders in respect of other Utilisations or Facilities only requires the consent of the relevant proportion of Lenders participating in such Utilisation or Facility;
- amend the amendment and waivers provisions to require the consent of affected Lenders only and not all Lenders (and make any consequential changes by amending for example, all references to matters requiring all Lender consent to only requiring affected Lender consent);
- amend the amendments and waivers provision to provide that where a request for a waiver of, or an amendment to, any provision of any Finance Document has been sent by the Facility Agent to the Lenders at the request of an Obligor, each Lender that does not respond to such

request for waiver or amendment within 10 Business Days after receipt by it of such request (or within such other period as the Facility Agent and the Company shall specify), shall be excluded from the calculation in determining whether the requisite level of consent to such waiver or amendment was granted, and delete the proviso to the definition of Majority Lenders;

- amend the non-consenting lender provisions to remove the timing window of 90 days during which the Company may exercise its rights under such non-consenting lender provision at any time;
- amend the provisions in the Senior Credit Facility to provide that, subject to certain thresholds being met no Obligor nor any other member of the Group is required to provide any Security or guarantee other than Security over the shares that it holds in any Obligor, Security required under the terms of the Credit Agreement in respect of Subordinated Shareholder Loans and a guarantee from the Obligors under the terms of the Credit Agreement and include a provision to authorise the Security Agent to release any other Security or guarantees other than the aforementioned and to release Security in respect of Permitted Disposals and to permit relevant Security to be released if a Guarantor resigns in accordance with the terms of the Senior Credit Facility) provided that the guarantor coverage test would still be met notwithstanding such release;
- amend the assignment of the Obligors provisions to provide that any Benelux Borrower may assign or transfer any of its rights and obligations under the Revolving Facility or the Term Loans to another Benelux Borrower and so that any US Borrower may do the same to another US Borrower, in each case, without the prior consent of the Lenders provided that a solvency opinion and legal opinion are provided, if requested, in accordance with recent Liberty precedents in respect of an equivalent provision;
- amend the additional borrower provisions to provide that, in addition to the existing ability for an Additional Borrower incorporated in Benelux and the US to accede (without requiring any Lender consent), to provide an ability to accede Additional Borrowers incorporated in any other jurisdictions with the consent of the Majority Lenders; and
- amend the additional borrower provisions to permit Additional Borrowers to be incorporated in the Kingdom of Belgium, Netherlands, Luxembourg or, in relation to any new Additional Facilities, in the United Kingdom.

The above description is intended to summarize certain material amendments included in the Senior Credit Facility Amendments but is not complete and does not restate the Senior Credit Facility Amendments in their entirety. Given the significant nature of these amendments, you should read the Senior Credit Facility Amendments set forth in schedules 4, 5, 6, 7, 8, 9 and 10 of the 2017 Finco Accession Agreements (in the form attached hereto as Annexes B and C) and schedules 4, 5, 6, 7, 8, 9 and 10 of the New Finco Accession Agreements (in the form attached hereto as Schedule 11 of Annexes B and C) in their entirety before investing in the Notes.

The Senior Credit Facility Amendments will generally become effective upon the approval by lenders constituting the “Majority Lenders” (as currently defined, without giving effect to the Senior Credit Facility Amendments); however, certain of the Senior Credit Facility Amendments, including those related to amending the Senior Credit Facility, extending

the date of any payment and releasing guarantors and collateral, will become effective only upon the approval of all lenders under the Senior Credit Facility. Upon the issuance of the Notes, consent has already been obtained from the requisite lenders to bring into effect the Seventh Senior Credit Facility Amendments that require Majority Lenders' consent, and each of the 2017 Finco Accession Agreements and the New Finco Accession Agreements also contain the consent of the Issuer to bring into effect such Seventh Senior Credit Facility Amendments as set out in schedule 10 of the 2017 Finco Accession Agreements or schedule 10 of the New Finco Accession Agreements, as applicable, that require the consent of the Majority Lenders. It is therefore intended that the Senior Credit Facility will be amended and restated shortly after the issuance of the Notes to bring these Senior Credit Facility Amendments into effect.

The Issuer has the same voting rights as the other Lenders under the Senior Credit Facility. In the event that the Issuer, as a Telenet Lender, is eligible or required to vote (or otherwise consent) (including with respect to any enforcement decision) with respect to any matter arising from time to time under the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, in which all Telenet Lenders are eligible or required to vote (or otherwise consent), the Issuer will solicit votes (or other consents) from holders of Notes and any other applicable series of Additional Debt with respect to such Senior Credit Facility Decision (as defined in the *"Description of the Notes"*) in accordance with the provisions of the Indenture. The holders of the Notes will under (and effective as of the date of) the Indenture provide their consent to the Senior Credit Facility Amendments. The Issuer will therefore apply Noteholder Consent (as defined in the *"Description of the Notes"*) equal to the aggregate principal amount of the Notes outstanding in respect of any of the Senior Credit Facility Amendments for the purposes of the provisions of the Indenture described under *"Description of the Notes—Amendment, Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements"*. As a result, the Issuer will not solicit votes (or other consents) from the holders of the Notes with respect to the Senior Credit Facility Amendments.

In the event Telenet solicits the consents for any or all of these amendments to the Senior Credit Facility that do not become effective upon the issuance of the Notes, the Issuer will not be entitled to receive any consent fee or similar fee that may be paid to other lenders under the Senior Credit Facility in connection with their approval of these amendments (although Telenet will generally be required to pay to the Issuer the same consent fee that it pays to other lenders with respect to other amendments). See *"Description of the Notes—2017 Finco Accession Agreements and the Senior Credit Facility"* and *"Description of the Notes—Certain Covenants—Payments for Consent"* and *"Risk Factors—Risks Relating to the Notes—By investing in the Notes you will have provided consent to the Senior Credit Facility Amendments which will automatically become effective without any further consent from holders of the Notes upon Telenet obtaining the consent of the Majority Lenders (as defined in the Senior Credit Facility) (and, with respect to certain amendments, all Telenet Lenders)"*.

Transfer restrictions

The Notes have not been, and will not be, registered under the U.S. Securities Act or the securities laws of any other jurisdiction. The Notes are subject to restrictions on transfer and may only be sold in transactions that are exempt from or not subject to the registration requirements of the U.S. Securities Act. See *"Transfer Restrictions"* and *"Plan of Distribution"*.

Absence of a public market for the Notes	The Notes will be new securities for which there is currently no market. Although the Initial Purchasers have informed the Issuer and Telenet Group BVBA that they intend to make a market in the Notes, they are not obligated to do so and they may discontinue market making at any time without notice. Accordingly, neither the Issuer nor Telenet Group BVBA can assure you that a liquid market for the Notes will develop or be maintained.
Use of proceeds	The net proceeds from the issuance of the Dollar Notes, together with fees payable to the Issuer (if any) by Telenet International Finance pursuant to the Telenet Dollar Fee Letter, were used by the Issuer to fund Facility AJ under the Senior Credit Facility to Telenet International Finance. The net proceeds from the issuance of the Euro Notes, together with fees payable to the Issuer (if any) by Telenet International Finance pursuant to the Telenet Euro Fee Letter, were used by the Issuer to fund Facility AK under the Senior Credit Facility to Telenet International Finance. Telenet intends to use substantially all of the proceeds from the 2017 Finco Loans for the Refinancing and to pay fees and expenses in connection therewith. See “ <i>Use of Proceeds</i> ”.
Listing	Application has been made for the Notes to be admitted to listing on the Official List and to trading on the Euro MTF Market. Notwithstanding the foregoing, the Issuer may at its sole option at any time, without the consent of the holders of the Notes or the Trustee de-list the Notes from any stock exchange for the purposes of moving the listing of such Notes to the Official List of the International Stock Exchange.
Trustee	The Bank of New York Mellon, London Branch
Transfer Agent	The Bank of New York Mellon SA/NV, Luxembourg Branch
Registrar	The Bank of New York Mellon SA/NV, Luxembourg Branch
Paying and Domiciliary Agent	ING Belgium SA/NV
Luxembourg Listing Agent	The Bank of New York Mellon SA/NV, Luxembourg Branch
Governing law	The Indenture and the Notes (other than the provisions relating to the meeting of holders of Notes following the Belgian Issuer Accession) are governed by, and construed in accordance with, the laws of the State of New York. Until the Belgian Issuer Accession, notwithstanding anything to the contrary, articles 84 to 94-8 of the Luxembourg law of August 10, 1915, as amended, on commercial companies shall not be applicable in respect of the Notes. The Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, the Collateral Sharing Agreement and the 2017 Telenet Fee Letters are governed by, and construed in accordance with, English law. Until the Belgian Issuer Accession, the Notes Security Documents are governed by, and construed in accordance with, Luxembourg or English law, as applicable. Following the Belgian Issuer Accession, the Notes Security Documents will be governed by, and construed in accordance with, Belgian or English law, as applicable. Following the Belgian Issuer Accession, the provisions relating to meetings of holders of Notes will be governed by, and construed in accordance with, the laws of Belgium.
Risk factors	Please see the “ <i>Risk Factors</i> ” section for a description of certain of the risks you should carefully consider before investing in the Notes.
Certain Tax Considerations	The Notes may be treated as having been issued with original issue discount for U.S. federal income tax purposes. An obligation generally is treated as

having been issued with original issue discount if its stated redemption price at maturity exceeds its issue price by at least a de minimis amount. If a Note is treated as issued with original issue discount, investors subject to U.S. federal income tax will be subject to tax on that original issue discount as it accrues, in advance of the receipt of cash payments attributable to that income (and in addition to stated interest). You are urged to consult your own tax advisors with respect to the U.S. federal, state, local and non-U.S. tax considerations related to purchasing, owning and disposing of the Notes. See “*Tax Considerations—Certain U.S. Federal Income Tax Considerations*”.

Certain ERISA considerations

The Notes and/or any interest therein may, subject to certain restrictions described herein under “*Certain Employee Benefit Plan Considerations*”, be sold and transferred to ERISA Plans (as defined in these Listing Particulars). See “*Certain Employee Benefit Plan Considerations*”.

SUMMARY CONDENSED CONSOLIDATED HISTORICAL FINANCIAL AND OTHER DATA OF TELENET

The tables below set out certain summary historical financial and operating data for Telenet Group Holding for the indicated periods. The summary condensed consolidated historical financial data as of September 30, 2017 and for the nine months ended September 30, 2017 presented below is derived from the Telenet September 30, 2017 Condensed Consolidated Interim Financial Statements included in these Listing Particulars, which have been reviewed by KPMG Bedrijfsrevisoren CVBA. The summary condensed consolidated historical financial data as of December 31, 2016, 2015 and 2014 and for the years ended December 31, 2016, 2015 and 2014 presented below is derived from the Telenet December 31, 2016 Consolidated Financial Statements, the Telenet December 31, 2015 Consolidated Financial Statements and the Telenet December 31, 2014 Consolidated Financial Statements included in these Listing Particulars, which have been audited by KPMG Bedrijfsrevisoren CVBA, as set forth in their auditors' report included elsewhere in these Listing Particulars.

The consolidated financial statements of Telenet included in these Listing Particulars have been prepared in accordance with EU-IFRS. The following information should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations of Telenet Group Holding", and the Telenet September 30, 2017 Condensed Consolidated Interim Financial Statements, the Telenet December 31, 2016 Consolidated Financial Statements, the Telenet December 31, 2015 Consolidated Financial Statements and the Telenet December 31, 2014 Consolidated Financial Statements included in these Listing Particulars. Telenet's historical results do not necessarily indicate results that may be expected for any future period.

Other financial information					
Adjusted EBITDA ⁽¹⁾⁽³⁾	911.2	847.8	1,117.1	943.7	900.0
Adjusted EBITDA margin ⁽²⁾	48.4%	47.1%	46.0%	51.8%	52.7%

- (1) As Telenet uses the term, EBITDA is defined as profit before net finance expense, the share of the result of equity accounted investees, income taxes, depreciation, amortization and impairment. Adjusted EBITDA is defined as EBITDA before stock-based compensation and restructuring charges, and before operating charges or credits related to successful or unsuccessful acquisitions or divestitures. Operating charges or credits related to acquisitions or divestitures include (i) gains and losses on the disposition of long-lived assets, (ii) due diligence, legal, advisory and other third-party costs directly related to Telenet's efforts to acquire or divest controlling interests in businesses, and (iii) other acquisition-related items, such as gains and losses on the settlement of contingent consideration. Adjusted EBITDA is an additional measure used by management to demonstrate Telenet's underlying performance and should not replace the measures in accordance with EU IFRS as an indicator of Telenet's performance, but rather should be used in conjunction with the most directly comparable EU IFRS measure.

- (2) Adjusted EBITDA margin is defined as Adjusted EBITDA as a percentage of revenue.
- (3) The following table presents a reconciliation between total profit for the period to Adjusted EBITDA for the period for the indicated periods:

	Nine months ended September 30,		Year ended December 31,		
	2017	2016	2016	2015	2014

As adjusted covenant information of Telenet Group Holding:

	As of and for the six-month period ended September 30, 2017
	€ in millions, except ratios
Consolidated Annualized EBITDA ⁽¹⁾	1,225.9
As adjusted Consolidated Annualized EBITDA ⁽²⁾	1,329.2
As adjusted Net Total Debt ⁽³⁾	4,176.5
As adjusted Net Leverage Ratio ⁽²⁾⁽³⁾⁽⁴⁾	3.14x

(1) Consolidated Annualized EBITDA is calculated by multiplying Consolidated EBITDA (as defined in the Senior Credit Facility) for the six months ended September 30, 2017 (€612.9 million) by two.

(2) As Adjusted Annualized EBITDA gives effect to €103.3 million of unrealized cost synergies. This represents (i) 50% of the estimated €215 million annual run-rate FY 2020 cost synergies with regards to the February 2016 BASE acquisition, (ii) €7.8 million annual run-rate FY 2021 cost synergies with regards to the SFR Belux acquisition, less (iii) €12.0 million cost synergies already realized on an annual run-rate basis, that are estimated to be achieved in connection with the BASE and SFR Belux acquisitions. The estimated annual run-rate operating expense savings mentioned above have been based on Telenet management's assumptions. As Adjusted Annualized EBITDA has been adjusted to exclude a €29.2 million non-cash restructuring charge linked to the accelerated onboarding of Telenet's Full MVNO customer base to our its mobile network as disclosed in the Company's Q3 2017 earnings release.

- (3) As adjusted Net Total Debt is equal to Net Total Debt (as defined in the Senior Credit Facility, which excludes subordinated shareholder loans, capitalized elements of indebtedness under the clientele and annuity fees and any other finance leases) adjusted to reflect the Q4-2017 Refinancing Transactions. After giving effect to any incurrence of indebtedness in connection with any Potential Financing Transaction in compliance with the applicable covenants, including in connection with permitted refinancing debt, permitted acquisition debt or other exceptions to the restriction on our ability to incur indebtedness, the as adjusted Net Leverage Ratio could increase above the as adjusted Net Leverage Ratio as of September 30, 2017 (as shown above), and such increase could be material. See “Risk Factors—Risks Relating to Telenet’s Financial Profile—Telenet may incur additional indebtedness prior to, or within a short time period following, the Issue Date of the Notes and the funding of the 2017 Finco Loans, which indebtedness could increase Telenet’s leverage and may have terms that are more or less favorable than the terms of the Notes and Telenet’s other existing indebtedness.”
- (4) As adjusted Net Leverage Ratio is equal to as adjusted Net Total Debt divided by as adjusted Consolidated Annualized EBITDA.

- (1) Homes Passed are homes, residential multiple dwelling units or commercial units that can be connected to the Combined Network without materially extending the distribution plant. Telenet’s Homes Passed counts are based on census data that can change based on either revisions to the data or from new census results.
- (2) Basic Video Subscriber is a home, residential multiple dwelling unit or commercial unit that receives Telenet’s video service over the Combined Network either via an analog video signal or via a digital video signal without subscribing to any recurring monthly service that requires the use of encryption-enabling technology. Encryption-enabling technology includes smart cards, or other integrated or virtual technologies that Telenet uses to provide its enhanced service offerings. Telenet counts RGUs on a unique premises basis. In other words, a subscriber with multiple outlets in one premises is counted as one RGU and a subscriber with two homes and a subscription to Telenet’s video service at each home is counted as two RGUs.
- (3) Enhanced Video Subscriber is a home, residential multiple dwelling unit or commercial unit that receives Telenet’s video service over the Combined Network via a digital video signal while subscribing to any recurring monthly service that requires the use of encryption-enabling technology. Enhanced Video Subscribers are counted on a unique premises basis. For example, a subscriber with one or more set-top boxes that receives Telenet’s video service in one premises is generally counted as just one subscriber. An Enhanced Video Subscriber is not counted as a Basic Video Subscriber. As Telenet migrates customers from basic to enhanced video services, Telenet reports a decrease in its Basic Video Subscribers equal to the increase in its Enhanced Video Subscribers.
- (4) Internet Subscriber is a home, residential multiple dwelling unit or commercial unit that receives internet services over the Combined Network.
- (5) Fixed-line Telephony Subscriber is a home, residential multiple dwelling unit or commercial unit that receives fixed-line voice services over the Combined Network. Fixed-line Telephony Subscribers exclude mobile telephony subscribers.
- (6) RGU is separately a Basic Video Subscriber, Enhanced Video Subscriber, Internet Subscriber or Fixed-line Telephony Subscriber. A home, residential multiple dwelling unit, or commercial unit may contain one or more RGUs. For example, if a residential customer subscribes to Telenet’s enhanced video service, fixed-line telephony service and broadband internet service, the customer would constitute three RGUs. Total RGUs is the sum of Basic Video, Enhanced Video, Internet and Fixed-line Telephony Subscribers. RGUs generally are counted on a unique premises basis such that a given premises does not count as more than one

RGU for any given service. On the other hand, if an individual receives one of Telenet's services in two premises (e.g. a primary home and a vacation home), that individual will count as two RGUs for that service. Each bundled cable, internet or fixed-line telephony service is counted as a separate RGU regardless of the nature of any bundling discount or promotion. Non-paying subscribers are counted as subscribers during their free promotional service period. Some of these subscribers may choose to disconnect after their free service period. Services offered without charge on a long-term basis (e.g., VIP subscribers, free service to employees) generally are not counted as RGUs. Telenet does not include subscriptions to mobile services in our externally reported RGU counts.

- (7) Telenet's mobile subscriber count represents the number of active subscriber identification module ("SIM") cards in service rather than services provided. For example, if a mobile subscriber has both a data and voice plan on a smartphone this would equate to one mobile subscriber. Alternatively, a subscriber who has a voice and data plan for a mobile handset and a data plan for a laptop (via a dongle) would be counted as two mobile subscribers. Customers who do not pay a recurring monthly fee are excluded from Telenet's mobile telephony subscriber counts after a 90-day inactivity period.
- (8) Customer Relationships are the number of customers who receive at least one of Telenet's video, internet or fixed-line telephony services that Telenet counts as RGUs, without regard to which or to how many services they subscribe. Customer Relationships generally are counted on a unique premises basis. Accordingly, if an individual receives Telenet's services in two premises (e.g., a primary home and a vacation home), that individual generally will count as two Customer Relationships. Telenet excludes mobile-only customers from Customer Relationships.
- (9) ARPU per RGU and ARPU per customer relationship are calculated as follows: average total monthly recurring revenue (including revenue earned from carriage fees and set-top box rentals and excluding interconnection revenue, installation fees, B2B revenue, mobile telephony revenue and set-top box sales) for the indicated period, divided by the average of the opening and closing RGU base or customer relationships, as applicable, for the period.
- (10) Number of RGUs at the end of the relevant period as a percentage of the number of homes passed by the Combined Network at the end of the relevant period.
- (11) Number of enhanced video subscribers at the end of the relevant period relative to the total number of video subscribers at the end of the relevant period.
- (12) Number of triple-play subscribers at the end of the relevant period relative to the total number of customer relationships at the end of the relevant period.

RISK FACTORS

An investment in the Notes involves risks. Before purchasing the Notes, you should consider carefully the specific risk factors set forth below, as well as the other information contained in these Listing Particulars. If any of the events described below, individually or in combination, were to occur, this could have a material adverse impact on Telenet's business, prospects, results of operations and financial condition and could therefore have a negative effect on the trading price of the Notes and Telenet's ability to pay all or part of the interest or principal on the 2017 Finco Loans, and in turn, would have an adverse effect on the Issuer's ability to make payments on the Notes. Although described below and elsewhere in this document are the risks considered to be the most material, although there may be other unknown or unpredictable economic, business, competitive, regulatory or other factors that also could have material adverse effects on Telenet's results of operations, financial condition, business or operations in the future. In addition, past financial performance may not be a reliable indicator of future performance and historical trends should not be used to anticipate results or trends in future periods.

These Listing Particulars also contain forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those anticipated in these forward looking statements as a result of various factors, including the risks described below and elsewhere in these Listing Particulars.

Risks Relating to Telenet's Financial Profile

Telenet's substantial leverage could adversely affect its business, financial condition and results of operations and prevent it from fulfilling its obligations under the 2017 Finco Loans, and in turn, prevent the Issuer from fulfilling its obligations under the Notes.

Telenet is highly leveraged. As of September 30, 2017, on an as adjusted basis after giving effect to the offering of the Notes, the funding of the 2017 Finco Loans and the application of proceeds thereof (including the Refinancing and excluding the Term Loan Refinancing), Telenet carried a total debt balance of €4,781.9 million, of which €1,876.4 million principal amount is owed under the Senior Credit Facility in each case, on an eliminated basis. Telenet's total debt balance at September 30, 2017 also included €188.8 million of short-term debt related to its vendor financing program and €23.7 million for the outstanding portion of the 3G mobile spectrum. The remainder primarily represents the capital lease obligations associated with the Interkabel acquisition.

Telenet's significant level of debt could have important consequences, for you as a holder of the Notes, including, but not limited to, the following:

- making it more difficult for Telenet International Finance to satisfy its obligations under the 2017 Finco Loans and in turn making it more difficult for the Issuer to satisfy its obligations under the Notes;
- requiring the Telenet Group to dedicate a substantial portion of Telenet's cash flows from operations to payments on its debt, thereby reducing the funds available to it to finance its operations, capital expenditures, working capital research and development and other general corporate purposes, including maintaining the quality of its network and product performance;
- placing Telenet at a competitive disadvantage compared to other broadband communications providers in its key markets that have less debt than it does;
- limiting Telenet's flexibility in planning for, or reacting to, changes in its business and the competitive and economic environment in which it operates; and
- impeding Telenet's ability to obtain additional debt or equity financing and increasing the cost of any such borrowing.

Any of these or other consequences or events could have a material adverse effect on Telenet International Finance's ability to satisfy its debt obligations, including the 2017 Finco Loans, and in turn, the Issuer's ability to satisfy its obligations under the Notes.

The terms of Telenet's Senior Credit Facility restrict, but do not prohibit, Telenet from incurring additional debt. Telenet may refinance its Senior Credit Facility and/or its other debt, and it may increase its consolidated debt for various business reasons, which might include, among other things, to finance acquisitions, or to fund the prepayment premiums, if any, on debt it refinances, to fund distributions to its shareholders or for general

corporate purposes. If new debt is added to Telenet's consolidated debt described above, the related risks that it now faces will intensify.

Telenet and the Issuer may incur additional indebtedness prior to, or within a short time period following, the Issue Date of the Notes and the funding of the 2017 Finco Loans, which indebtedness could increase Telenet's leverage and may have terms that are more or less favorable than the terms of the Notes and Telenet's other existing indebtedness.

Telenet or its subsidiaries may incur substantial additional indebtedness, including to refinance its existing indebtedness, to fund any future acquisition or for general corporate purposes of the Telenet Group, which may include loans, distributions or other payments to Telenet's direct or indirect shareholders or share buybacks. Such additional indebtedness may include the incurrence of Additional Notes issued by the Issuer under the Indenture and the upsizing of the 2017 Finco Loans. In connection with Telenet's financial strategy, it continually evaluates different financing alternatives, and it may decide to enter into new credit facilities, access the debt capital markets (including through an additional term loan facility, an increase to the 2017 Finco Loans or the entry into additional Finco Loans, funded with the proceeds of notes issued by the Issuer or another financing company) or incur other indebtedness from time to time, including following the consummation of this offering and prior to, or within a short time period following, the Issue Date of the Notes and the funding of the 2017 Finco Loans. Any such offering or incurrence of debt will be made at Telenet's election or the election of its relevant subsidiaries, and if such debt is in the form of securities (including Additional Notes under the Indenture), would be offered and sold pursuant to, and on the terms described in, a separate offering memorandum. The interest rate with respect to any such additional indebtedness will be set at the time of the pricing or incurrence of such indebtedness and, to the extent the interest rate is greater than the interest rate applicable to any indebtedness that is refinanced, or to the extent of any incremental indebtedness, such offering or incurrence would be expected to increase Telenet's cash interest expense on a pro forma basis. In addition, the maturity date of any such additional indebtedness will be set at the time of pricing of such incurrence or offering and may be earlier or later than the maturity date of the Notes. The other terms of such additional debt would be as agreed with the relevant lenders or holders thereof and could be more or less favorable than the terms of the Notes or Telenet's other existing indebtedness. There can be no assurance that Telenet or its subsidiaries will elect to raise any such additional debt or that any effort to raise such debt will be successful, and there can be no assurance as to the timing of such offering or incurrence, the amount or terms of any such additional debt. If Telenet incurs new debt in addition to its current debt, the related risks that Telenet now faces, even in a refinancing transaction, as described above and elsewhere in these "Risk Factors", could intensify.

Telenet may not be able to generate sufficient cash to meet its debt service obligations and fund its ongoing operations, and may be subject to certain tax liabilities.

Telenet's ability to service its debt and to fund its ongoing operations will depend on Telenet's ability to generate cash. Telenet cannot assure you that its businesses will generate sufficient cash flow from operations or that future debt or equity financing will be available to it in an amount sufficient to enable it to pay its debt obligations when due. Telenet's ability to generate cash flow is dependent on many factors, including:

- its future operating performance;
- the demand and price levels for its current and planned products and services;
- its ability to maintain the required level of technical capability in its network and in the subscriber equipment and other relevant equipment connected to its network;
- general economic conditions and other conditions affecting customer spending;
- competition;
- its ability to make use of its carry-forward tax losses;
- distributions to shareholders;
- the outcome of certain litigation in which Telenet is involved; and
- legal, tax and regulatory factors affecting its business.

Some of these factors are beyond Telenet's control. If Telenet is unable to generate sufficient cash flow, it may not be able to repay its debt, grow its business, respond to competitive challenges or fund its other liquidity and capital needs, including capital expenditures. If Telenet is unable to meet its debt service obligations, it may have to sell assets, attempt to restructure or refinance its existing indebtedness or seek additional funding in the form of debt or equity capital. Telenet may not be able to do so on satisfactory terms, if at all.

Belgian tax law does not currently allow for group-wide consolidation. Each group member is deemed a separate entity for tax purposes and intercompany transactions must be executed under arm's-length conditions. Mismatches between taxable income and deductible expenses (including interest on Telenet's debt) could adversely influence Telenet's ability to generate cash flow. Likewise, changes in Belgian tax law or the interpretation of permitted transactions could adversely affect Telenet's tax position and ability to utilize its carry-forward tax losses. As is standard practice in Belgium, Telenet is subject to audits of its tax returns by the Belgian tax authorities. As a result of such audits, Telenet may be presented with adverse conclusions regarding expenses it had deducted from its taxable earnings which could result in reducing its carry forward tax losses or could give rise to taxes which are due immediately. Although Telenet would retain the right to appeal any such adverse conclusions, it cannot provide assurance that these audits would not result in a reduction of its carry-forward tax losses or in the immediate payment of taxes.

The Belgian tax authorities may challenge the tax treatment of any restructuring for which Telenet or Telenet's subsidiaries did not seek an official tax ruling, including on the basis of a claim that the restructuring had tax fraud or tax evasion as one of its main aims (or under prior existing rules, that the transaction did not meet the business purpose test) or on any other grounds. If successful, such claim of the authorities could result in a reduction of Telenet's carry-forward tax losses and/or in an obligation for the immediate payment of taxes, and such reduction or obligation could be significant. Such a claim could adversely affect Telenet's business and financial position and cause a diversion of its resources and management time.

Telenet may have exposure to additional tax liabilities.

Telenet is subject to income taxes as well as non-income based taxes in Belgium, Luxembourg and Ireland. Significant judgment is required in determining Telenet's worldwide provision for income taxes and other tax liabilities. In the ordinary course of our business, there may be certain transactions and calculations where the ultimate tax determination is uncertain, however, and to a reasonable extent, Telenet covers these positions by internal or third party opinions or advanced decisions. Although Telenet believes that its tax estimates are reasonable, there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in Telenet's historical income tax provisions and accruals. Telenet is also subject to non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes in Belgium and Luxembourg. Telenet is regularly under audit by tax authorities with respect to these non-income based taxes in various jurisdictions including informative audits enabling tax authorities to determine their position e.g. in Belgium in relation to the VAT treatment of breakage fees which should not have a material impact on Telenet's results since it charges VAT on those breakage fees already. In addition, Telenet has obtained a number of tax rulings for its activities in Luxembourg in accordance with customary practice. Under the recent EU initiatives information of a general nature regarding the Luxembourg activities and the rulings obtained, has been transmitted to the European Commission. The ultimate outcome of the income tax and non-income based taxes may differ from the amounts recorded in Telenet's financial statements and may materially affect Telenet's financial results in the period or periods for which determination is made.

The agreements and instruments governing Telenet's debt contain restrictions and limitations that could adversely affect its ability to operate Telenet's business.

The terms of the Senior Credit Facility and the terms of Telenet's other outstanding debt contain a number of significant covenants or other provisions that could adversely affect its ability to operate its business. These covenants restrict Telenet's ability, and the ability of its subsidiaries, to, among other things:

- pay dividends or make other distributions;
- make certain investments or acquisitions, including participating in joint ventures;
- make capital expenditures;
- engage in transactions with affiliates and other related parties;

- dispose of assets other than in the ordinary course of business;
- merge with other companies;
- incur additional debt and grant guarantees;
- repurchase or redeem equity interests and subordinated debt or issue shares of subsidiaries;
- grant liens and pledge assets; and
- change its business plan.

Furthermore, the Senior Credit Facility requires Telenet to (in certain circumstances) maintain specified financial ratios and meet financial tests. Telenet's ability to comply with these provisions may be affected by events beyond its control. If Telenet cannot comply with these tests or is otherwise in default, the Telenet Group may not be able to borrow under the Senior Credit Facility, which could have a material adverse effect on Telenet's ability to operate its business and to make payments under its debt instruments.

In addition to limiting Telenet's flexibility in operating its business, the breach of any covenants or obligations under the agreements and instruments governing its debt will result in a default under the applicable debt agreement or instrument and could trigger acceleration of the related debt, which in turn could trigger defaults under other agreements governing Telenet's debt. In addition, the lenders under the Senior Credit Facility could foreclose on their collateral, which includes equity interests in Telenet's operating subsidiaries, exercise other rights of secured creditors and deny Telenet access to any unused amounts under the facility. A default under the Senior Credit Facility or under the agreements governing Telenet's other debt could materially adversely affect its growth, its financial condition and results of operations.

Telenet is exposed to interest rate risks. Shifts in such rates may adversely affect the debt service obligations of Telenet.

The majority of Telenet's debt, including all of its debt under the Senior Credit Facility (for the avoidance of doubt, this excludes the loans made pursuant to the Senior Credit Facility from the proceeds of the Telenet Finance V Luxembourg 6 3/4% Notes and the Telenet Finance VI Luxembourg Notes), bears interest at variable rates. An increase in the interest rates on Telenet's debt will reduce the funds available to repay its debt and to finance its operations, capital expenditures and future business opportunities and, as a result, will intensify the consequences of its leveraged capital structure. In addition, under the terms of Telenet's existing interest rate hedging arrangements, Telenet's effective interest rates may be higher than actual interest rates, resulting in increased costs for Telenet. Through Telenet's Senior Credit Facility, Telenet is exposed to changes in interest rates primarily as a result of the underlying fluctuations of the one, two, three or six-month (as applicable) EURIBOR and LIBOR rates or such other reference rate as agreed by the Facility Agent and Telenet. Although Telenet enters into various derivative transactions to manage exposure to movements in interest rates, there can be no assurance that it will be able to continue to do so at a reasonable cost.

Telenet is subject to increasing operating costs and inflation risks which may adversely affect its earnings.

While Telenet attempts to increase its subscription rates to offset increases in operating costs, there is no assurance that it will be able to do so. Telenet's ability to increase subscription rates is subject to regulatory controls. Also, Telenet's ability to increase subscription rates may be constrained by competitive pressures. Therefore, operating costs may rise faster than associated revenue, resulting in a material negative impact on Telenet's cash flow and net earnings (loss). Telenet is also impacted by inflationary increases in salaries, wages, benefits and other administrative costs in certain markets.

Currency fluctuations and hedging risks could adversely affect Telenet's earnings and cash flow.

Telenet's business is exposed to fluctuations in currency exchange rates. Telenet's functional currency is the euro. However, Telenet conducts, and will continue to conduct, transactions in currencies other than the euro, particularly the U.S. dollar. Telenet has U.S. dollar obligations with respect to the contracts it is party to for the supply of premium content. While approximately 3% of its costs of operations (including costs of network hardware equipment and software and premium cable television rights) in the year ended December 31, 2016

were denominated in U.S. dollars, the percentage of Telenet's operational costs that are denominated in U.S. dollars may increase in the future. The exchange rate between the U.S. dollar and the euro has fluctuated significantly in recent years and may continue to fluctuate significantly in the future. See "Exchange Rate Information". Telenet has historically covered a portion of its U.S. dollar cash outflows arising on anticipated and committed purchases through the use of foreign exchange derivative instruments. There can be no guarantee that Telenet's hedging strategies will adequately protect its operating results from the effects of exchange rate fluctuation, or that these hedges will not limit any benefit that it might otherwise receive from favorable movements in exchange rates.

Disruptions in the credit and equity markets could increase the risk of default by the counterparties to Telenet's derivative and other financial instruments, undrawn debt facilities and cash investments and may impact its future financial position.

Although Telenet seeks to manage the credit risks associated with its derivative and other financial instruments, cash investments and undrawn debt facilities, disruptions in credit and equity markets could increase the risk that its counterparties could default on their obligations to Telenet. Also, even though Telenet regularly reviews its credit exposure, defaults may arise from events or circumstances that are difficult to detect or foresee. As of September 30, 2017, Telenet's exposure to credit risk included (i) cash and cash equivalent balances of €37.0 million and (ii) aggregate undrawn revolving credit facilities of €400.0 million. While Telenet currently has no specific concerns about the creditworthiness of any counterparty for which it has material credit risk exposures, the current economic conditions and uncertainties in global financial markets have increased the credit risk of Telenet's counterparties, and Telenet cannot rule out the possibility that one or more of its counterparties could fail or otherwise be unable to meet its obligations to Telenet. Any such instance could have a material adverse effect on Telenet's cash flows, results of operations or financial condition. It is not possible to predict how economic conditions, sovereign debt concerns and/or adverse regulatory developments could impact the credit markets Telenet accesses and, accordingly, Telenet's future financial position or results of operations. In this regard, (i) the financial failures of any of Telenet's counterparties could reduce amounts available under committed credit facilities and adversely impact its ability to access cash deposited with any failed financial institution and (ii) sustained or further tightening of the credit markets could adversely impact Telenet's ability to access debt financing on favorable terms, or at all. In addition, sustained or increased competition, particularly in combination with weak economics, could adversely impact Telenet's cash flows and liquidity.

With respect to Telenet's derivative instruments, it is generally only the non-defaulting party that has a contractual option to exercise early termination rights upon the default of the other counterparty and to set off other liabilities against sums due upon such termination. However, in an insolvency of a derivative counterparty under the laws of certain jurisdictions, the defaulting counterparty or its insolvency representatives may be able to compel the termination of one or more derivative contracts or such termination may be mandatory following a formal insolvency proceeding of a defaulting counterparty. Any such compulsory termination may trigger early termination payment liabilities payable by Telenet reflecting any mark-to-market value of the contracts for the counterparty. Alternatively, or in addition, the insolvency laws of certain jurisdictions may require the mandatory set-off of amounts due under such derivative contracts against present and future liabilities owed to Telenet under other contracts between Telenet and the relevant counterparty. Accordingly, it is possible that Telenet may be subject to obligations to make payments, or may have present or future liabilities owed to it partially or fully discharged by set-off as a result of such obligations, in the event of the insolvency of a derivative counterparty, even though it is the counterparty that is in default and not Telenet. To the extent that Telenet is required to make such payments, its ability to do so will depend on its liquidity and capital resources at the time. In an insolvency of a defaulting counterparty, Telenet will be an unsecured creditor in respect of any amount owed to it by the defaulting counterparty, except to the extent of the value of any collateral Telenet has obtained from that counterparty.

The risks Telenet would face in the event of a default by a counterparty to one of its derivative instruments might be eliminated or substantially mitigated if Telenet is able to novate the relevant derivative contracts to a new counterparty following the default of its counterparty. While Telenet anticipates that, in the event of the insolvency of one of its derivative counterparties, Telenet would seek to effect such novations, no assurance can be given that it would obtain the necessary consents to do so or that Telenet would be able to do so on terms or pricing that would be acceptable to Telenet or that any such novation would not result in substantial costs to Telenet. If Telenet is unable or chooses not to novate to a different counterparty, it would continue to face such risks. Furthermore, the underlying risks that are the subject of the relevant derivative contracts would no longer be effectively hedged due to the insolvency of Telenet's counterparty, unless and until Telenet novates or replaces the derivative contract.

Telenet is exposed to sovereign debt and currency instability risks in Europe that could have an adverse impact on its liquidity, financial condition and cash flows.

Telenet's operations are subject to macro-economic and political risks that are outside of its control. For example, high levels of sovereign debt in the U.S. and certain European countries, combined with weak growth and high unemployment, could lead to fiscal reforms (including austerity measures), sovereign debt restructurings, currency instability, increased counterparty credit risk, high levels of volatility, and, potentially, disruptions in the credit and equity markets, as well as other outcomes that might adversely impact Telenet. With regard to currency instability issues, concerns exist in the euro zone with respect to individual macro-fundamentals on a country-by-country basis, as well as with respect to the overall stability of the European Union and the suitability of a single currency to appropriately deal with specific fiscal management and sovereign debt issues in individual euro zone countries. The realization of these concerns could lead to the exit of one or more countries from the European Union and the re-introduction of individual currencies in these countries or, in more extreme circumstances, the possible dissolution of the euro entirely, which could result in the redenomination of a portion or, in the extreme case, all of Telenet's euro denominated assets, liabilities and cash flows to the new currencies. In addition, the capital market disruption that would likely accompany any such redenomination event could have a material adverse impact on Telenet's liquidity and financial condition. Furthermore, any redenomination event would likely be accompanied by significant economic dislocation, particularly within euro zone countries such as Belgium, which in turn could have an adverse impact on demand for Telenet's services, and accordingly, on Telenet's revenue and cash flows. Moreover, any changes from the euro to a non-euro currency in Belgium would require Telenet to modify its billing and other financial systems. No assurance can be given that any required modifications could be made within a timeframe that would allow Telenet to timely bill its customers or prepare and file required financial reports. In light of the significant exposure that Telenet has to the euro through its euro-denominated borrowings, derivative instruments, cash balances and cash flows, a redenomination event could have a material adverse impact on Telenet.

Adverse decisions of tax authorities or changes in tax treaties, laws, rules or interpretations could have a material adverse effect on Telenet's results of operations and cash flow.

The tax laws and regulations in the countries in which Telenet operates may be subject to change and there may be changes in interpretation and enforcement of tax law. As a result, Telenet may face increases in taxes payable if tax rates increase, or if tax laws and regulations are modified by the competent authorities in an adverse manner. In addition, the tax authorities in the countries in which Telenet operates may disagree with the positions Telenet has taken or intends to take regarding the tax treatment or characterization of any of its transactions, including the tax treatment or characterization of its indebtedness, including the Notes, existing and future intercompany loans and guarantees or the deduction of interest expenses. As a result, Telenet may face increases in taxes payable if tax rates increase, or if tax laws and regulations are modified by the competent authorities in an adverse manner. Telenet regularly assesses the likelihood of such outcomes and has established tax allowances, which represent management's best estimate of the potential assessments. In addition, Telenet and its subsidiaries are regularly under audit by tax authorities in many of the jurisdictions in which Telenet operates. Although Telenet believes that its tax estimates are reasonable, any material differences as a result of final determinations of tax audits or tax disputes, or the resolution of any of these tax matters, could have a material adverse effect on Telenet's cash flows, business, financial condition and results of operations for any affected reporting period.

Further changes in the tax laws of the foreign jurisdictions in which Telenet operates could arise as a result of the base erosion and profit shifting ("BEPS") project being undertaken by the Organization for Economic Co-operation and Development ("OECD"). The OECD, which represents a coalition of member countries that encompass most of the jurisdictions in which Telenet operates, is undertaking studies and publishing action plans that include recommendations aimed at addressing what they believe are issues within tax systems that may lead to tax avoidance by companies. It is possible that jurisdictions in which Telenet does business could react to the BEPS initiative or their own concerns by enacting tax legislation that could adversely affect Telenet or its shareholders through increasing its tax liabilities.

Risks Relating to Telenet's Business, Technology and Competition

The Belgian internet, data and telephony industries are highly competitive and the television industry has become more competitive, which could have a material adverse effect on Telenet's business.

Telenet faces significant competition from established and new competitors who provide television, internet, data and telephony services using DSL, public switched telephone network ("PSTN") or fiber connections. In some

instances, Telenet competes against companies with easier access to external financing at more advantageous terms, more comprehensive product ranges, greater personnel resources, wider geographical coverage, relatively greater advertising, sales and marketing budgets and greater experience or longer established relationships with regulatory authorities and customers. These companies may in some cases have fewer regulatory burdens with which they are required to comply because, among other reasons, they use different technologies to provide their services, do not own their own direct access network, or are not subject to obligations applicable to operators with “significant market power” as defined in Directive 2002/21/EC of the European Parliament and of the Council of March 7, 2002 on a common regulatory framework for electronic communications networks and services (“SMP”). The EU legal framework has been updated in 2009 to reflect technological and other developments. Obligations for operators with SMP may include pricing restrictions or the obligation to provide access to the network. Other emerging technologies include OTT platforms, broadcasting “over the top” of an existing broadband network, which allows such content providers to directly reach consumers through the broadcaster’s website or online aggregators of content. The full extent to which these alternative technologies will compete effectively with Telenet’s basic and enhanced video services system may not be known for several years.

Telenet’s largest competitor is Proximus, the incumbent telephony provider in Belgium, which offers its residential and business customers a suite of products and services that is comparable to those offered by Telenet. Proximus is rolling out its own glass fibre network in Belgium, with a view to increasing infrastructure-based competition with Telenet. In addition, the Flemish Government has announced plans to roll out a third glass fibre network (in addition to those of Telenet and Proximus) in order to facilitate the provision of ultra-fast Internet connections throughout Flanders in the near future in an open wholesale model. While Telenet is currently upgrading its network to allow for the provision of ultra-fast Internet speeds of 1 Gbps or more, there can be no assurances that this increased infrastructure-based competition will not affect its results of operations.

The competition from Orange Belgium in the fixed and mobile market has also intensified, including through the launch of its own bundle offering of television and broadband using Telenet’s regulated cable access offering.

This competition can make it difficult for Telenet to attract new customers and retain existing customers, thereby increasing Telenet’s churn levels. Increased competition, tiered offerings that include lower priced entry level products, and special promotions and discounts for customers who subscribe for multiple services from Telenet may contribute to increased average revenue per unique customer, but will likely reduce Telenet’s average revenue per user on a per-service basis for each of its telephony, broadband internet and premium cable television services.

Telenet expects competition to continue to increase amid the growing exploitation of legislation in Belgium that permits certain service providers to market a combination of television, internet and telephony products and services (a “bundle”) for an aggregate price which is lower than the price of the individual products and services in the bundle. In addition, Telenet expects additional competitive pressure to result from the convergence of broadcasting and communication technologies, as a result of which other participants in the Belgian media and telecommunications industries may seek to offer a package of fixed and mobile voice, internet and video broadcast services in competition with Telenet. Separately, competitors are offering certain of their services at a substantial discount when subscribing to multiple services, thereby reducing the cost of subscribing to its individual services. These competitive forces may create further downward pressure on prices, which may result in a decrease of Telenet’s average revenue per subscriber. These forces could also increase the rate at which Telenet loses subscribers, and increase its cost of providing content for its cable television subscribers. In addition, Telenet may bear higher costs if it introduces new products or services to maintain or improve its competitive positioning and reduce subscriber churn. In combination with difficult economic environments, these competitive pressures could adversely impact Telenet’s ability to increase, or in certain cases, maintain its ARPUs, RGUs, operating cash flows and liquidity.

Video. The Belgian television market is characterized by very high penetration rates and an increasing emphasis on new technologies and platforms, in particular digital, HD, interactive television services such as VOD and premium entertainment services, requiring high-bandwidth and bi-directional distribution platforms. The DSL-networks use IP-protocol to deliver the digital television service (“IPTV”). Belgium was one of the first European countries to deploy cable networks, doing so as early as the 1970s, and, as a result, other means of television delivery such as satellite and terrestrial broadcasters are less popular in Belgium than they are in other European countries. Cable is the most commonly used transmission medium for television services in Belgium. The advent of new technology in the provision of cable television has given rise to new competitors seeking to offer varied and enhanced offerings and Telenet cannot assure you that it will be able to remain competitive.

Telenet therefore expects increasing competition in the provision of television services in the future, especially in view of the CRC decision requiring Telenet to provide access to its Combined Network. See “*Risk Factors—Telenet may become subject to more extensive regulation if it is deemed to possess significant market power in any of the markets in which it operates.*” In order to remain competitive, Telenet is focused on developing new services for its subscribers and on updating and developing its products. Such new developments may involve substantial costs and Telenet cannot be certain that it will achieve a return on such investments. Telenet introduced HD programming to its subscribers, which required investments in new set-top box technology, distribution technology and the negotiation of appropriate content contracts. Telenet began offering set-top boxes on a rental basis, whereas previously it had only sold set-top boxes. Despite these developments it is introducing, Telenet expects to face continued competition from DSL, multi-channel satellite, digital terrestrial and other means of delivering multiple programming. If demand for Telenet’s products were to shift, it might not be able to reach certain minimum requirements set out in some contracts with broadcasters and studios pursuant to which it has to pay minimum fees regardless of the number of subscribers. In addition, it is expected that other forms of television offerings will become more important in Belgium in the years ahead, such as OTT and mobile television, provided by financially strong companies, including Google, Apple, Netflix, Proximus and Orange Belgium.

Internet. Telenet’s residential high-speed broadband internet service competes with companies including Proximus, that provide high-speed broadband access over DSL, as well as companies that provide lower- cost (or even free), slower connections to the internet over traditional telephone lines. Belgium has recently seen the development of more sophisticated product and pricing tiers in the internet market, with competitors offering a range of products with different download speeds, data transfer limits and other value added services. Continued upgrades to the quality of DSL-based broadband internet service to very- high-bitrate DSL (“**VDSL**”) and potentially even faster DSL variants and the possibility of widespread fiber-to-the-home installations, while time consuming and expensive, would have a negative impact on Telenet’s competitive position in the broadband internet market. Certain fixed and mobile voice operators in Belgium offer DSL services and there can be no guarantee that others may seek to also compete with Telenet’s broadband internet services using DSL in the near future. Moreover, mobile operators are increasingly able to utilize a combination of increasingly powerful handsets and high bandwidth technologies such as universal mobile telecommunications system (“**UMTS**”) and LTE technologies. Additional competition may come from satellite technologies and operators that use WiMax technologies. As a result, Telenet expects competition, including price competition, from current providers, new startups and other companies to increase in the future. For example, Telenet is also confronted with new pricing concepts introduced by its direct competitors, such as zero-based rating. Zero-based rating is generally defined as a practice through which a telecommunications service provider applies a zero tariff rate for fixed and/or mobile data traffic associated with a specific application or a specific category of applications. The zero-based rating concept has, for example, been applied by Proximus for certain popular applications. Telenet cannot assure you that the tiered offerings and other measures that it has introduced in response to these developments will be successful in attracting and retaining customers.

Fixed-Line Telephony. Competition in providing fixed-line residential telephony service is intense, with providers introducing substantial price reductions over the years. Proximus, Telenet’s principal competitor in the Flemish residential market, has an extensive telephone network throughout Belgium, strong market knowledge, high brand recognition and substantial capital resources. As of December 31, 2016, Proximus held a market share between 50% and 60% in the Belgian residential fixed-line telephony market according to the report describing the state of affairs of the electronic communications sector in 2016 (the “**BIPT 2016 Annual Report**”) issued by the BIPT. In addition, although Proximus is Telenet’s major competitor, Telenet depends on Proximus to provide certain services to its customers, including number portability, and to connect calls made by Telenet’s customers to customers of Proximus. Potential future proceedings with Proximus or other factors may adversely affect Telenet’s relations with Proximus and negatively impact its competitive position. See “*Description of Telenet’s Business—Legal Proceedings.*” Proximus has also applied resources to “win-back” activities that can entice Telenet’s existing telephony customers, as well as prospective telephony customers, to return or remain with Proximus by offering certain economic incentives. Although Telenet’s market share in this segment is increasing, it may not have the resources of, or benefit from the economies of scale available to Proximus.

Mobile telephony services, including those offering advanced higher speeds, higher bandwidth technologies and MVNOs, contribute to the competitive pressures that Telenet faces. In the past, Belgian mobile operators have engaged in “cut the line” campaigns and used attractive mobile calling tariffs to encourage customers with both fixed-line and mobile services to retain only their mobile services. According to the European Commission’s e-communications household survey conducted in October of 2015, approximately 27% of households in Belgium had a mobile telephone line and did not have fixed telephone access, as compared to a European average of approximately 33% for the comparable period. This substitution, in addition to the increasing use of alternative

communications technologies, may negatively affect Telenet's fixed-line call usage volumes and subscriber growth.

The ongoing unbundling of the Proximus "local loop", the network element used to connect a subscriber to the nearest switch or concentrator on the network, the use of carrier preselect services that allow entities to provide telephony services over the networks of other operators and the introduction of new technologies, including variations of the VoIP standard, such as voice-over-internet ("VON"), may also increase the number of competitors, as it has done in other countries. As new competitors and new technologies enter the market and prices decrease in line with the downward pressure on telephony prices experienced elsewhere in Europe, Telenet's telephony business may become less profitable and experience a decline in revenues and market share. In addition, Telenet may be forced to respond to such developments by investing resources into its own product development initiatives, which may be costly and ultimately unsuccessful.

Mobile Telephony. Telenet's mobile telephony service, which it offers through the MVNO Arrangement with Orange Belgium and its own mobile network following the BASE acquisition in February of 2016, competes with two other principal mobile network operators in Belgium, who together represent approximately 64% of the total market for mobile telephony services in Belgium based on the BIPT 2016 Annual Report. Telenet had an estimated market share of approximately 36% at the end of 2016. Telenet's market share has increased considerably as a result of the BASE acquisition, from approximately 14% prior to the acquisition. Telenet currently commercializes its mobile services under the "Telenet" and "BASE" brands; however, it may continue to face the challenge that the brand names of its competitors ("Proximus" and "Orange Belgium") are historically better recognized as mobile telephony providers and that these competing providers are part of larger, more established companies than Telenet.

Moreover, there is an increasing number of MVNOs operating on the Belgian market, including important content providers. Content providers are increasingly looking for preferred partnerships with mobile networks to distribute their content, on a tailored basis, to such mobile network providers' customers. Such preferred partnerships may strengthen the competition by such mobile network providers with Telenet's mobile offer.

Business Services. Competition in the provision of internet, data and voice products to business customers is intense. Proximus, several local telephony operators and several international telephony operators rank among Telenet's competitors. In addition to competitive activity, Telenet continues to see challenges in this segment of the market as a result of price erosion in existing products and the need to invest in new product development to satisfy the evolving preferences of prospective customers.

Competition can make it difficult to attract new customers and retain existing customers, thereby increasing churn levels, and may lead to increased price pressure. There can be no assurance that Telenet will be able to compete successfully against its current or future competitors in any of its businesses. Telenet's failure to do so could have a material adverse effect on its business, financial condition and results of operations.

Continuing uncertainties and challenging conditions in the global economy and in the countries in which Telenet operates may adversely impact Telenet's business, financial condition and results of operations.

The current macroeconomic environment is highly volatile, and continuing instability in global markets, including the ongoing struggles in Europe related to sovereign debt issues, the risk of deflation and the stability of the euro, has contributed to a challenging global economic environment. Future developments are dependent upon a number of political and economic factors, including the effectiveness of measures by the EU Commission to address debt burdens of certain countries in Europe and the overall stability of the Eurozone. As a result, we cannot predict how long challenging conditions will exist or the extent to which the markets in which Telenet operates may deteriorate. Additional risks arising from the ongoing economic challenges in Europe are described below under "*Telenet is exposed to sovereign debt and currency instability risks in Europe that could have an adverse impact on its liquidity, financial condition and cash flows*".

Telenet's growth prospects depend on a continued demand for cable and telecommunications products and services and an increased demand for bundled offerings.

The use of internet, television and telephony services in Belgium has increased sharply in recent years. Telenet has benefited from this growth in recent years and its growth and profitability depend, in part, on a continued demand for these services in its franchise area in the coming years. In particular, if demand for multiple-play

products does not increase as expected, this could have a material adverse effect on Telenet's business, financial condition and results of operations.

Customer churn, or the threat of customer churn, may adversely affect Telenet's business.

Customer churn is a measure of the number of customers who stop subscribing for one or more of Telenet's products or services. Churn arises mainly as a result of competitive influences, relocation of subscribers, deterioration of personal financial circumstances and price increases. In addition, Telenet's customer churn rate may also increase if it is unable to deliver satisfactory services over Telenet's network. For example, any interruption of its services or the removal or unavailability of programming, which may not be under Telenet's control, could contribute to increased customer churn. Increased customer churn may have a material adverse effect on Telenet's business, financial condition and results of operation.

Moreover, the 2012 Law and subsequent amendments has inserted certain provisions in the Electronic Communications Law aimed at the protection of end users of electronic communications services, including (i) the right for customers to terminate their contracts with the relevant providers at any time, and without any compensation to the provider if such termination occurs more than six months after the entry into the agreement, (ii) duration limitations for agreements entered into with end users, (iii) a requirement for uniform presentation of tariff plans facilitating comparison between operators (and thus facilitating decisions to churn) (iv) the requirement to propose a combined offer if a customer has subscribed to two or more tariff plans and if that combined offer is less expensive, and (v) customers' right to change tariff plans once a year free of any charges. This provision, which allows subscribers to terminate contracts at any time without compensation being due as of October 1, 2012, along with other consumer protective obligations introduced by the 2012 Law (and other changes introduced by later amendments and implementing Decrees to the Electronic Communications Law), has created pressure on operators (including Telenet) and may potentially give rise to increases in Telenet's customer churn rate.

In March 2015, the BIPT published a report in which it identified a number of obstacles that make it difficult for consumers to change fixed telecom operators. These obstacles are subdivided into three classes: (i) a poor coordination and procedure for changing operators; (ii) a lack of consumer information; and (iii) financial and practical obstacles. The BIPT proposed possible solutions in its report, which it has submitted to the Minister of Digital Agenda and Telecom. The BIPT organized a public consultation with respect to drafting new royal and ministerial decrees that are aimed at ensuring that consumers are able to change from one fixed telecom operator to another without significant obstacles or costs, which may potentially give rise to increases in Telenet's customer churn rate.

Consequently, a Royal Decree of September 6, 2016 on the migration of fixed line services and bundles in the electronic communications sector was adopted, and entered into force on July 1, 2017. This Royal Decree establishes an "easy switch" procedure, defined as a process intended to simplify the change of operators by users of electronic communications, and requires telecommunications services operators to facilitate the movement of users from one operator to another and cooperate to this end (for instance, in order to avoid service interruptions and double billing, and to allow users to choose the termination date of their contract).

Adverse economic developments could reduce customer spending for Telenet's cable television, broadband, telephony and mobile services and increase churn.

Most of Telenet's revenue is derived from customers who could be impacted by adverse economic developments globally, in Europe and in the countries in which Telenet operates. Ongoing struggles in Europe related to sovereign debt issues, among other things, have contributed to a challenging economic environment. Accordingly, unfavorable economic conditions may impact a significant number of Telenet's customers, including their spending patterns, both in terms of the products they subscribe for and usage levels. As a result, it may be (1) more difficult for Telenet to attract new subscribers, (2) more likely that subscribers will downgrade or disconnect their services and (3) more difficult for Telenet to maintain ARPUs at existing levels. Countries may also seek new or increased revenue sources due to fiscal deficits. Such actions may further adversely affect the Telenet Group. Accordingly, Telenet's ability to increase, or, in certain cases, maintain, the revenue, ARPUs, RGUs, operating cash flow, operating cash flow margins and liquidity of its operations could be materially adversely affected if the economic environment in Europe remains uncertain or declines further (including as a result of the United Kingdom's recent vote to leave the EU). Negative changes in demand as a result of declining economic environment could have a material adverse effect on Telenet's revenue and operating cash flow.

Telenet's net profit may decrease, or Telenet may not report net profit.

Telenet reported net profit of €41.6 million and €175.7 million for the years ended December 31, 2016 and 2015, respectively. Net profit for the year ended December 31, 2016 decreased 76% compared to the year ended December 31, 2015. Telenet reported net profit of €106.3 million for the nine months ended September 30, 2017, compared to the net profit of €41.6 million reported for the nine months ended September 30, 2016. The improvement in Telenet's net profit for the nine months ended September 30, 2017 as compared to the nine months ended September 30, 2016 was primarily due to a €209.9 million non-cash foreign exchange gain. Without this foreign exchange rate gain, Telenet's net profit would have been lower for the period under consideration. Telenet cannot assure you that its profits will not decrease in any future period or that it will continue to report net profit in future periods.

Telenet's business is capital intensive and its capital expenditures may not generate a positive return or it may be unable or unwilling to make additional capital expenditures.

The television, broadband internet and telephony businesses in which Telenet operates are capital intensive. Significant capital expenditures are required to add customers to Telenet's networks and to upgrade Telenet's networks to enhance its service offerings and improve the customer experience, including expenditures for equipment and labor costs. No assurance can be given that Telenet's future capital expenditures will generate a positive return or that it will have adequate capital available to finance such future upgrades. If Telenet is unable to, or elects not to, pay for costs associated with adding new customers, expanding or upgrading its networks or making its other planned or unplanned capital expenditures, Telenet's growth and its competitive position could be materially adversely affected.

If Telenet fails to successfully introduce new technologies or services, or to respond to technological developments, its business and level of revenue may be adversely affected and it may not be able to recover the cost of investments that it has made.

Telenet's business is characterized by rapid technological change and the introduction of new products and services. If any new or enhanced technologies, products or services that Telenet introduces fail to achieve broad market acceptance or experience technical difficulties, its revenue growth, margins and cash flows may be adversely affected. As a result, Telenet may not recover investments that it makes in order to deploy these technologies and services. In addition, enhanced television, telephony, internet and data services provided by competing operators may be more appealing to customers, and new technologies such as voice over internet telephony may enable Telenet's competitors to offer not only new services, but to also offer existing standard services at lower prices. See “—*The Belgian internet, data and telephony industries are highly competitive and the television industry has become more competitive, which could have material adverse effects on Telenet's business*”. Telenet may not be able to fund the capital expenditures necessary to keep pace with technological developments. Telenet's inability to obtain the funding or other resources necessary to expand or further upgrade its systems and provide advanced services in a timely manner, or successfully anticipate the demands of the marketplace, could adversely affect its ability to attract and retain customers and generate revenue.

As the number of Telenet's customers and the services that it offers its customers increases, the complexity of its product offerings and network architecture also increases, as does network congestion. A failure to manage the growth and complexity of Telenet's network could lead to a degradation of service and network disruptions that could harm its reputation and result in a loss of subscribers. For example, while Telenet continues to promote a rapid take up of its iDTV service, it faces potential risks in securing the required customer set-top box equipment to maintain this roll out. Telenet currently relies on a single provider of set-top boxes to provide it equipment that is compatible with the conditional access software and related security features that have been deployed on Telenet's network. Currently, Telenet has a sufficient supply of these boxes available, but a future shortage may involve significant delays in seeking an alternative supply, may constrain its ability to meet customer demand and may result in negative customer reactions. Telenet is also dependent on other suppliers who are contributing products and services which are required for the implementation and operation of its iDTV service, and on the performance of partners with whom it expects to work. Although many of Telenet's iDTV products and services are built on standardized platforms, they have been adapted or tailored to Telenet's network and the offering it has designed, as a result of which it faces the risk of any newly implemented technology that there may be unexpected operational issues that arise. If Telenet was to experience a breakdown of equipment or technology that it cannot timely repair, it might lose subscribers. In addition, some studios or broadcasters would be entitled to terminate their content supply agreements with Telenet in case of a continuing breakdown of its equipment.

Telenet anticipates that over time, new products and services it may introduce will require upgraded or new customer premises equipment, which may therefore constrain Telenet's ability to market and distribute such new services.

Telenet has limited experience in offering mobile telephony services and problems may arise which either Telenet cannot control or which Telenet is not able to remedy for other reasons.

Telenet's mobile telephony offer was launched in August 2006 under the "Telenet" brand name. Since the acquisition of BASE Company, Telenet also offers mobile telephony services under the "BASE" brand name. Telenet currently provides its mobile telephony service through its BASE network as well as under the MVNO Arrangement, pursuant to which Telenet offers its customers mobile voice and data services over Orange Belgium's mobile telecommunications network, including 4G services.

Under the MVNO Arrangement, Telenet's ability to comply with applicable regulatory requirements for electronic communications providers may also in some cases depend on Orange Belgium's compliance. Telenet has entered into a number of long-term supply agreements in support of the MVNO Arrangement that exceed the duration of the MVNO Arrangement. Therefore, if the MVNO Arrangement is terminated early, or not extended at the expiry of its term at the end of 2018 as described below, Telenet may incur costs that are not offset by any corresponding revenue.

At the end of May 2016, Orange Belgium and Telenet reached an agreement setting the terms and conditions for the future termination of the MVNO Arrangement (the "**MVNO Termination Agreement**"). The MVNO Arrangement will run, and Telenet's mobile customers can continue to use Orange Belgium's network, until the end of 2018. Telenet committed to a minimum payment of €150.0 million (excluding VAT) over the 3-year period from 2016 to 2018. The actual amount paid by Telenet could exceed this minimum amount in the event there is higher network usage. Beyond 2018, an optional 6-month extension period has been agreed upon with a minimum amount of €15.0 million (excluding VAT) becoming payable if triggered. Through the MVNO Termination Agreement, all outstanding legal disputes between both companies, including the judicial recovery of invoices under the MVNO Arrangement, have been settled.

Telenet continued to make progress on the onboarding of its Full MVNO subscribers to the acquired mobile network with around 54% achieved at the end of September 2017. Given this progress and the continued modernization of Telenet's mobile network (with around 72% of macro sites having been upgraded at September 30, 2017) Telenet now aims to complete the onboarding by the end of the first fiscal quarter of 2018. However, there can be no assurances that Telenet will be able to successfully onboard all of its current MVNO subscribers to the BASE network or that the migration will not otherwise have material adverse effects on its results of operations.

Telenet still has limited experience in mobile network operations. Problems may arise which either Telenet cannot control or which it is not able to remedy for other reasons, which may have material adverse financial, operational and reputational effects for Telenet.

In July 2011, Telenet Tecteo Bidco, a majority-owned subsidiary of Telenet in which Nethys holds a 25% shareholding, acquired the fourth 3G mobile spectrum license in Belgium, for the minimum reserved price of €71.5 million. In total, Telenet Tecteo Bidco acquired 14.8 MHz of paired 3G spectrum in the 2.1 GHz band and confirmed to the BIPT that it would exercise the option to be awarded another 4.8 MHz of paired 2G spectrum in the 900 MHz band and 10 MHz of paired 2G spectrum in the 1800 MHz bands which both became available as of November 27, 2015, for a total consideration of €31.5 million. In December 2013, Telenet Tecteo Bidco determined, after concluding negotiations with network operators in Belgium and in the absence of regulatory alternatives, that it would not be able to utilize the spectrum rights under the 3G mobile spectrum license and, as a result, notified the BIPT on February 13, 2014 that it would return the acquired 3G mobile spectrum. This resulted in a triggering event with respect to the intangible asset related to the 3G mobile spectrum license, and, after performing an impairment analysis, Telenet recorded an impairment charge of €53.3 million during the fourth quarter of 2013 to reduce the carrying amount of this intangible asset to nil. On June 1, 2014, Telenet Tecteo Bidco returned the acquired 3G mobile spectrum to the BIPT. Furthermore, as a result of the above, Telenet Tecteo Bidco also informed the BIPT at the end of 2013 that it would not use the aforementioned 2G spectrum.

By decision of September 24, 2014, the BIPT formally accepted the return of the 3G spectrum. Telenet Tecteo Bidco is required to pay the outstanding amount of €23.7 million (as at September 30, 2017) of the €71.5 million

reserved price for the 3G spectrum. As per the agreement with the BIPT, this amount will continue to be repaid in installments until 2020, with the next installment of €7.4 million due in

December 2017 (excluding €0.6 million of interest-related charges due in December 2017). In addition to these repayments the BIPT also indicated that it expected to receive a payment of €31.5 million for the paired 2G spectrum that would have been made available in 2015. Telenet Tecteo Bidco initiated legal proceedings against the BIPT's claim. Eventually, the parties entered into a settlement agreement in January 2016, through which Telenet Tecteo Bidco paid an amount of approximately €4 million for the usage rights in the 2G spectrum, and committed to pay the BIPT the remainder of the fee for its former usage rights for the 3G spectrum, being an amount of approximately €31 million.

If Telenet is not successful in developing a high quality mobile offering, it may not be competitive compared to operators such as Proximus who are able to offer customers an integrated and fully converged suite of mobile and fixed-line telephony, internet and television services or mobile operators who could offer such a suite of services after having received access on Telenet's cable network.

Based on the limited experience Telenet has had offering mobile telephony services, Telenet cannot assure you that mobile services will have a positive financial impact on its business.

If Telenet is unable to obtain attractive programming, including from key broadcasters or necessary equipment and software on satisfactory terms for its enhanced video services, the demand for these services could be reduced, thereby lowering revenue and profitability.

Telenet relies on digital programming suppliers for the bulk of its programming content. Telenet may not be able to obtain sufficient high-quality programming for its enhanced video services on satisfactory terms or at all in order to offer compelling enhanced video services. This may also limit Telenet's ability to migrate customers from lower tier programming to higher tier programming, thereby inhibiting its ability to execute its business plans. Furthermore, Telenet may not be able to obtain attractive French language programming for video services in the parts of Brussels that its network includes. In addition, "must carry" requirements may consume channel capacity otherwise available for other services. Any or all of these factors could result in reduced demand for, and lower revenue and profitability from, Telenet's enhanced video services. Further, Telenet may not be able to obtain the equipment, software and services required for its businesses on a timely basis or on satisfactory terms. Telenet depends on third-party suppliers and licensors to supply its equipment, software and certain services. If demand exceeds these suppliers' and licensors' capacities or if they experience financial difficulties, Telenet's ability to provide some services may be materially adversely affected, which in turn could affect its ability to attract and retain customers.

The success of Telenet's basic and enhanced video services depends on access to both the content of the main local broadcasters in Belgium and an attractive selection of television programming from content providers. The ability to provide movie, sports and other programming, including soccer broadcast rights, is a major factor that attracts subscribers to television services, especially premium services. Historically, as the principal supplier of television broadcast services in Flanders, Telenet has negotiated transportation and distribution agreements with various broadcasters and other providers of content over its broadband cable network. Several of Telenet's competitors, however, including Proximus, have launched their digital television services in Belgium, which may make it more difficult for Telenet to procure content for both its premium and basic cable service on favorable terms, or which may make it more difficult for Telenet to extend such transportation and distribution agreements and other content agreements beyond their current terms.

Some of Telenet's broadcasting agreements require it to pay prices for the programming based on a guaranteed minimum number of subscribers, even if that number is larger than the number of actual subscribers. As a result, if Telenet misjudges anticipated demand for the programming, the profitability of Telenet's service may be impaired.

Failure in Telenet's technology or telecommunications systems or leakage of sensitive customer data could significantly disrupt its operations, which could reduce Telenet's customer base and result in lost revenue.

Telenet's success depends, in part, on the continued and uninterrupted performance of its information technology and network systems as well as its customer service centers. The hardware supporting a large number of critical systems for Telenet's cable network is housed in a relatively small number of locations. Telenet's systems are vulnerable to damage from a variety of sources, including telecommunications failures, power loss, malicious

human acts and natural disasters. Moreover, despite security measures, Telenet's servers are potentially vulnerable to physical or electronic break-ins, computer viruses and similar disruptive problems. Despite the precautions Telenet has taken, unanticipated problems affecting its systems could cause failures in its information technology systems or disruption in the transmission of signals over Telenet's network. Sustained or repeated system failures that interrupt Telenet's ability to provide service to its customers or otherwise meet its business obligations in a timely manner would adversely affect Telenet's reputation and result in a loss of customers and net revenue. Moreover, if Telenet does not succeed in remedying these failures, certain studios and broadcasters would be entitled to terminate their content supply agreements with Telenet.

If any part of Telenet's network, including the Telenet Group's information technology systems, is subject to a flood, fire or other natural disaster, terrorism, a computer virus, a power loss, other catastrophe or unauthorized access, Telenet's operations and customer relations could be materially adversely affected. Although Telenet's network is built in resilient rings to ensure the continuity of network availability in the event of any damage to its underground fibers, if any ring is cut twice in different locations, transmission signals will not be able to pass through, which could cause significant damage to Telenet's business. In the event of a power outage or other shortage, Telenet does not have a back-up or alternative supply source for all of its network components.

Additionally, Telenet's business is also dependent on certain sophisticated critical systems, including Telenet's switches, billing and customer service systems, which could be damaged by any of the aforementioned risks. For example, if Telenet experiences problems in the operation of its billing systems, it may be difficult to resolve the issue in a timely and cost effective manner. In addition, the hardware that supports Telenet's switches, billing and customer service systems is housed in a relatively small number of locations and if damage were to occur to any of such locations, or if those systems develop other problems, it could have a material adverse effect on Telenet's business. Moreover, Telenet may incur liabilities and reputational damages to the extent that any accident or security breach results in a loss of or damage to customers' data or applications, or inappropriate disclosure of confidential information.

Telenet is not insured against war, terrorism (except to a limited extent under its general property insurance) and cyber-risks and does not insure the coaxial portion of its network. Any catastrophe or other damage that affects Telenet's coaxial network could result in substantial uninsured losses. In addition, disaster recovery, security and service continuity protection measures that Telenet has or may in the future undertake, and its monitoring of network performance from its network operating center in Mechelen, may be insufficient to prevent losses.

In addition, although so far no incidents have occurred in numbers that are statistically significant, Telenet's technical equipment has been and may continue to be subject to occasional malfunctioning due to technical shortcomings or imperfect interfaces with equipment in private homes, the networks of other operators or Telenet's own network or with other surrounding equipment. Telenet might incur liabilities or reputational damages as a result thereof.

The Telenet Network, the Partner Network, and the related systems depend on equipment and service suppliers that may discontinue their products, provide poor services or seek to charge Telenet prices that are not competitive, all of which may adversely affect Telenet's business and profitability.

Telenet has important relationships with several suppliers of hardware and services that it uses to operate its network. Telenet is also dependent on suppliers for equipment installed at its subscribers' premises and for services it offers its customers. In many cases, Telenet has made substantial investments in the equipment or software of a particular supplier, making it difficult for it to change supply and maintenance relationships in the event that Telenet's initial supplier refuses to offer it favorable prices or ceases to produce equipment or provide the support that Telenet's network requires. For example, Telenet historically experienced delays and increased costs as a result of issues with one of its network equipment suppliers, which required it to select an alternative supplier. See *"—If Telenet fails to successfully introduce new technologies or services, or to respond to technological developments, its business and level of revenues may be adversely affected and it may not be able to recover the cost of investments that it has made"*. Telenet cannot assure you that future shortages will not arise. Several of Telenet's supply agreements contain minimum volume commitments. If Telenet fails to purchase products in accordance with these commitments it may have to pay damages to its suppliers. Furthermore, if Telenet engages in a dispute with one of these suppliers, its services could be disrupted. Most of Telenet's supply agreements, such as its supply agreement for set-top boxes, are concluded for unlimited duration, entitling its suppliers to terminate their contract with Telenet at any time with reasonable prior notice.

Telenet depends on the supplier to which it outsourced certain services, including the management and content supply of its sports, movies and series pay television channels, for the delivery of those services. This supplier is also an important partner for the “Play” and “Play More” service. The outsourcing agreement does not provide for a minimum volume commitment as such, but Telenet has to pay minimum fees to that supplier regardless of the number of services purchased by its clients. If the demand for those services were to drop, those minimum fees would still be due to the outsourcing company. Moreover, if the outsourcing agreement were to be terminated, it is likely that Telenet could not restart offering the relevant services independently without some delay, given the assets, agreements and employees transferred in the framework of the outsourcing process.

Telenet also depends on subcontractors to install a substantial majority of its iDTV, internet and telephony equipment in customer homes, and relies on sales forecasts and supply chain management processes to ensure that it has the necessary levels of equipment and staffing to meet customer demands. If Telenet subcontractors do not satisfy Telenet’s quality standards or if Telenet’s forecasting and other logistics systems prove erroneous, Telenet may have difficulty obtaining needed equipment and staffing within required periods, which could have a material adverse effect on Telenet’s ability to attract and retain customers and generate revenue.

Third parties may claim that Telenet infringes their intellectual property rights.

The fact that Telenet has received ownership of, and licenses under, certain intellectual property rights from its contract partners is no guarantee that its activities do not infringe the intellectual property rights of third parties. The various Belgian laws relating to intellectual property, the international treaties valid in Belgium, and the Belgian code of civil procedures, all contain provisions allowing the proprietor of an intellectual property right to request the Belgian courts to grant various enforcement measures. Examples include (i) measures relating to the gathering and protection of evidence (such as the unilateral appointment by the courts of an expert with a mission to (amongst others) describe the alleged infringing goods), (ii) provisional and precautionary measures (such as a court order to provisionally stop the commercialization of the alleged infringing goods, under a penalty), (iii) corrective measures (such as a recall from the channels of commerce) or (iv) damages. In addition, the Belgian laws also provide for penal sanctions (fines and even imprisonment) for certain specific infringements (e.g. malicious or fraudulent copyright infringement). If a third party claims that Telenet has infringed its intellectual property rights, this may have an adverse effect on its ability to market certain of its products or specific parts thereof. In addition, Telenet might incur liabilities or reputational damages as a result thereof.

Telenet may pursue acquisitions that, if consummated, may adversely affect its business if it cannot integrate these new operations.

Historically, Telenet’s business has grown, in part, through selective acquisitions that enabled it to take advantage of existing networks, service offerings and management expertise. Telenet expects to continue to evaluate opportunities to grow its business through acquisitions that it believes could create synergies and strengthen its market position, among other perceived benefits. Any acquisition Telenet may undertake in the future could result in the incurrence of debt and contingent liabilities and an increase in interest expense and amortization expenses related to goodwill and other intangible assets or in the use by Telenet of available cash on hand to finance any such acquisitions. Telenet may experience difficulties in integrating acquired operations into its business, incur higher than expected costs and not realize all the benefits of these acquisitions, if any. In addition, Telenet’s management may be distracted by such acquisitions and the integration of the acquired businesses. Thus, if Telenet consummates any future acquisitions, there could be a material adverse effect on its business, financial condition or results of operations. In addition, Telenet’s debt burden may increase if it borrows funds to finance any future acquisition, which could have a negative impact on its cash flows and its ability to finance its overall operations. In addition, Telenet cannot also assure you it will be successful in the integration of the businesses it acquires, including SFR Belux or Nextel. Additional risks regarding the Coditel Acquisition are described below under “*The Coditel Acquisition is subject to conditions and may not be completed or may not be completed as described*”, “*We may not be able to integrate SFR Belux effectively and realize the anticipated synergies from the Coditel Acquisition*”, “*Belux may have liabilities that are not known to us and those that are may pose certain risks*” and “*Telenet remains reliant on Belux’s selling shareholders for certain key services until full integration of Belux into the Telenet Group has been achieved*”.

Difficult economic conditions may reduce subscriber spending for Telenet’s video, internet and telephony services and reduce Telenet’s rate of growth of subscriber additions.

The current macroeconomic environment is highly volatile, and continuing instability in global markets, including the ongoing turmoil in Europe related to sovereign debt issues and the stability of the euro, has contributed to a

global economic downturn. Future developments are dependent upon a number of political and economic factors, including the effectiveness of measures by the European Commission to address debt burdens of certain countries in Europe and the overall stability of the euro zone. As a result, Telenet cannot predict how long these challenging conditions will exist or the extent to which the markets in which it operates may further deteriorate. Additional risks arising from the ongoing turmoil in Europe are described below under *“Telenet is exposed to sovereign debt and currency instability risks in Europe that could have an adverse impact on its liquidity, financial condition and cash flows”*.

Because a substantial portion of Telenet’s revenue is derived from residential subscribers who may be impacted by these conditions, it may be (i) more difficult to attract new subscribers, (ii) more likely that certain of Telenet’s subscribers will downgrade or disconnect their services and (iii) more difficult to maintain ARPUs at existing levels. Accordingly, Telenet’s ability to increase, or in certain cases, maintain the revenue, ARPU, RGUs, operating cash flow, operating cash flow margins and liquidity could be adversely affected to the extent that relevant economic environments remain weak or decline further. Telenet is currently unable to predict the extent of any of these potential adverse effects.

Telenet’s brands are subject to reputational risks.

Telenet and BASE are well-recognized brands in Telenet’s franchise area. Telenet has developed its brands through extensive marketing campaigns, website promotions, customer referrals, and the use of a dedicated sales force and dealer networks. Telenet’s brands represent a material and valuable asset to Telenet.

Although Telenet tries to manage its brands, it cannot guarantee that its brands will not be damaged, notably by circumstances that are outside its control or by third parties (e.g., hackers, sponsors, interfaces with its clients, such as subcontractors’ employees or sales forces, public opinion or debates) with a resulting negative impact on Telenet’s business, results of operations and financial condition.

Telenet is exposed to sovereign debt and currency instability risks in Europe that could have an adverse impact on its liquidity, financial condition and cash flows.

Telenet’s operations are subject to macroeconomic and political risks that are outside of its control. For example, high levels of sovereign debt in the U.S. and certain European countries combined with weak growth and high unemployment, could lead to fiscal reforms (including austerity measures), sovereign debt restructurings, currency instability, increased counterparty credit risk, high levels of volatility, and potentially, disruptions in the credit and equity markets, as well as other outcomes that might adversely impact Telenet. With regard to currency instability issues, concerns exist in the eurozone with respect to individual macro-fundamentals on a country-by-country basis, as well as with respect to the overall stability of the European monetary union and the suitability of a single currency to appropriately deal with specific fiscal management and sovereign debt issues in individual eurozone countries. On March 29, 2017, the U.K. formally notified the European Council of its intention to leave the European Union, under article 50 of the Treaty on European Union, following the U.K. referendum on June 23, 2016 in which voters approved, on an advisory basis, an exit from the EU, commonly referred to as “Brexit”. The British government will commence negotiations to determine the terms of the U.K.’s withdrawal from the EU. The U.K. is now scheduled to leave the EU by the end of March 2019 and until the U.K. officially exits the EU, EU laws and regulations will continue to apply, and changes to the application of these laws and regulations are unlikely to occur during negotiations. However, due to the size and importance of the U.K. economy, the uncertainty and unpredictability concerning the U.K.’s legal, political and economic relationship with Europe, there may continue to be instability in the international markets, significant currency fluctuations, and/or otherwise adverse effects on trading agreements or similar cross-border cooperation arrangements for the foreseeable future, including beyond the date of the U.K.’s withdrawal from the EU. It is also possible that members of the European monetary union could hold a similar referendum regarding their membership within the eurozone in the future. If the U.K. and the EU are unable to negotiate acceptable withdrawal terms or if other EU member states pursue withdrawal, barrier-free access between the U.K. and the other EU member states or among the European economic area overall could be diminished or eliminated. The realization of these concerns could lead to the exit of one or more countries from the European monetary union and the re-introduction of individual currencies in these countries, or, in more extreme circumstances, the possible dissolution of the euro entirely, which could result in the redenomination of a portion, or in the extreme case, all of Telenet’s euro-denominated assets, liabilities and cash flows to the new currency of the country in which they originated. This could result in a mismatch in the currencies of Telenet’s assets, liabilities and cash flows. Any such mismatch, together with the capital market disruption that would likely accompany any such redenomination event, could have a material adverse impact on Telenet’s liquidity and financial condition. Furthermore, any redenomination event would likely be accompanied

by significant economic dislocation, particularly within the eurozone countries, which in turn could have an adverse impact on demand for Telenet's products, and accordingly, on its revenue and cash flows. Moreover, any changes from euro to non-euro currencies would require Telenet to modify its billing and other financial systems. No assurance can be given that any required modifications could be made within a timeframe that would allow Telenet to timely bill its customers or prepare and file required financial reports. In light of the significant exposure that Telenet has to the euro through its euro-denominated borrowings, derivative instruments, cash balances and cash flows, a redenomination event could have a material adverse impact on Telenet.

The U.K. referendum advising for the exit of the U.K. from the E.U. could have a material adverse effect on Telenet's business, financial condition or results of operations.

On June 23, 2016, the U.K. held a referendum in which voters approved, on an advisory basis, an exit from the E.U., commonly referred to as "Brexit". The terms of any withdrawal are subject to a negotiation period that could take until March 2019. A withdrawal could, among other outcomes, disrupt the free movement of goods, services, people and capital between the U.K. and the E.U., undermine bilateral cooperation in key geographic areas and significantly disrupt trade between the U.K. and the E.U. or other nations as the U.K. pursues independent trade relations. The initial impact of the announcement of Brexit caused significant volatility in global capital markets.

The potential impacts, if any, of the uncertainty relating to Brexit or the resulting terms of the withdrawal of the U.K. from the E.U. on customer behavior, economic conditions, interest rates, currency exchange rates, availability of capital or other matters are unclear. Examples of the impact Brexit could have on Telenet's business, financial condition or results of operations include:

- (1) changes in foreign currency exchange rates and disruptions in the capital markets;
- (2) global economic uncertainty, which may cause its customers to re-evaluate what they are willing to spend on Telenet's products and services; and rules relating to data protection, consumer protection and e-commerce; and
- (3) various geopolitical forces may impact the global economy and Telenet's business, including, for example, other EU member states proposing referendums to, or electing to, exit the E.U.

Any of these effects of Brexit, and others that Telenet cannot anticipate, could adversely impact its business, results of operations and financial condition.

Risks Relating to Legislative and Regulatory Matters

Telenet is subject to significant government regulation and supervision, which could require it to make additional expenditures or limit its revenues and otherwise adversely affect its business.

Telenet's activities as a cable television and telephony operator in Flanders and part of Brussels are subject to regulation and supervision by various regulatory bodies, including local, Flemish and national authorities and the EU. These regulations may increase Telenet's administrative and operational expenses and limit its revenues. Telenet's enhanced video, internet and data business may also become subject to increasing risks and regulations. See "*Description of Telenet's Business—Regulation*".

Telenet is subject to, among other things:

- price regulation for certain services that it provides;
- rules governing the interconnection between different telephone networks and the interconnection rates that it can charge and that it pays;
- rules and remedies relating to non-discriminatory access, transparency and price control imposed on electronic communications services providers with SMP;
- risk of regulatory authorities granting third parties access to its network;

- rules, regulations and authorization requirements relating to consumer protection, including in respect of providing credit to consumers;
- requirements that, under specified circumstances, a cable system carry certain broadcast stations or obtain consent to carry a broadcast station;
- rules on identification of users and subscribers and other anti-terrorist regulations;
- rules for authorizations, licensing, acquisitions, renewals and transfers of licenses;
- rules and regulations relating to subscriber privacy;
- requirements that it provide or contribute to the provision of certain universal services, including requirements to provide certain “social” tariffs;
- taxes imposed on its public rights of way; and
- other requirements covering a variety of operational areas such as land use and environmental protection, moving the cables in its network underground, equal employment opportunity, technical standards and subscriber service requirements.

Telenet also offers new products in emerging areas, such as mobile broadband, that are not currently subject to extensive regulation. Changes in applicable law, regulations or government policy (or in the interpretation of existing laws or regulations) could greatly influence Telenet’s viability and how it operates its business and introduce new products and services. Telenet’s business could be materially and adversely affected by any changes in relevant laws or regulations (or in their interpretation) regarding, for example, licensing requirements, access and price regulation, interconnection arrangements or the imposition of universal service obligations, or any change in policy allowing more favorable conditions for other operators.

In addition, pursuant to the Electronic Communications Law as amended by the 2012 Law, all providers are required to contribute to the funding of universal services, which mainly consist of the offering of social tariffs. Contribution is made to a universal service fund managed by the BIPT and the request for such contributions will depend on a) whether the provider of social tariffs (in this case the incumbent) can demonstrate to the BIPT that offering social tariffs is generating net costs (as opposed to a profit) and b) whether such net costs are deemed by the BIPT to be an unfair burden for the relevant provider. The monetary value of potential contributions to the fund is based on the share of turnover in the overall (fixed and mobile) telephony and broadband market of a provider. No payments have yet been made to the fund with respect to social tariffs (fixed and mobile telephony), since part of the relevant Belgian legislation was successfully contested by the European Commission before the European Court of Justice and by KPN Belgium, Mobistar NV (now Orange Belgium) and others before the Belgian Constitutional Court. The Belgian Constitutional Court annulled the provisions of the law of April 25, 2007 that introduced the provisions on the methodology for calculating the net costs in the Electronic Communications Law on the basis of the European Court of Justice’s preliminary ruling that found that the Belgian legislation had failed to provide a proper methodology for calculating the net costs of providing social tariffs. The Electronic Communications Law, as amended by the 2012 Law, may require operators (including Telenet) to retroactively pay compensation for Proximus’ alleged net costs arising from the provision of the social tariff portion of the universal service for the period from mid-2005 to the present (if and to the extent these costs are deemed by the BIPT to be an unfair burden for Proximus). In a letter dated June 29, 2015, the BIPT confirmed that it had completed the analysis of the alleged unfair burden suffered by Proximus for the execution of the universal service obligations for the period from 2005 to 2012. The BIPT suspended the publication of the outcome of the analysis following the withdrawal by Proximus of its request for compensation. The relevant provisions of the Electronic Communications Law, as amended by the 2012 Law, were again disputed by KPN Group Belgium and Mobistar NV (now Orange Belgium) before the Belgian Constitutional Court, requesting annulment of the provisions relating to, a) the inclusion of social tariffs for mobile services and internet subscriptions in the universal service obligations compensation system, b) the retroactive application of the compensation mechanism and, c) the method of calculating the net costs/profits of offering social tariffs and the method of determining whether this constitutes an unfair burden. The Court rejected the second part of the claim (relating to the retroactive application of the compensation mechanism) and the third part of the claim (method of calculation). The Belgian Constitutional Court thereby confirmed the possible application of retroactive funding. If applied, Telenet may have to pay up to €1.6 million for each year beginning from mid-2005. Such exposure would amount to nearly €8.5 million for the period between mid-2005 and the end of 2010. In respect of the first

part of the claim, the Court requested on December 19, 2013 a preliminary ruling by the European Court of Justice on the compatibility of the social tariffs for mobile services and internet subscriptions with Directive 2002/22/EC (the Universal Service Directive). In its preliminary ruling of June 11, 2015, the European Court of Justice held that the Universal Service Directive only applies to internet subscription services requiring a connection to the internet at a fixed location, but not to mobile communication services, including internet subscription services provided by means of those mobile communication services. The European Court of Justice further held that Member States are free to consider mobile communication services (including internet subscription services provided by means of mobile communication services) as additional mandatory services, but in that case a financing mechanism for those services involving specific undertakings cannot be imposed on the operators. By a decision dated July 1, 2015, the Council of State partly annulled two Royal Decrees published in May 2013 fixing the reimbursement of social tariffs. The Council of State's decision applies to the period from 2007 to February 2013 and from February 2014 onwards, for which period no retroactive reimbursement of the social tariffs could be requested. However, the BIPT has not yet confirmed whether a reimbursement could be required for the period from April to December 2013. See *"Description of Telenet's Business—Regulation—Telephony Regulation—Universal Service"*.

Telenet's ability to introduce new products and services may also be affected if it cannot accurately predict how existing or future laws, regulations or policies would apply to such products or services.

Current legislation has significantly altered the regulatory regime applicable to Telenet, which could adversely affect its competitive position and profitability.

As of June 30, 2005, the Electronic Communications Law made significant changes to the regulatory regime applicable to the provision of telephony, internet and certain interactive communication features in Telenet's iDTV services. The Electronic Communications Law was adopted to implement the EU Framework Directive and the related EU Universal Service Directive, the EU Access Directive, the EU Authorization Directive, the EU Data Protection Directive on Privacy and Electronic Communications and the EU Competition Directive (collectively, the **"EU Framework"**). See *"Description of Telenet's Business—Regulation—The EU Framework"*. Under the EU Framework, as implemented in Belgium, the BIPT and the VRM may impose pricing restrictions and other requirements on entities which they deem to have SMP in any non-competitive relevant market in which those entities operate. This additional requirement could force Telenet to follow certain principles of transparency and non-discrimination, to grant others access to the networks that it uses and to apply cost allocation mechanisms and accounting separation between the different electronic communications services that Telenet provides. See *"—Telenet may become subject to more extensive regulation if it is deemed to possess significant market power in any of the markets in which Telenet operates"* and *"Description of Telenet's Business—Regulation—Broadcast Regulation—Decisions of the BIPT, the VRM, the CSA and the Medienrat"*.

The Flemish government implemented EU Directive 2007/65/EC on audiovisual media services into Flemish legislation on March 27, 2009 through the 2009 Broadcasting Decree. This directive amends the former EU Directive 89/552/EEC on television without frontiers, and this directive has since been codified in EU Directive 2010/13/EU of the European Parliament and of the Council of March 10, 2010 on the coordination of certain provisions laid down by law, regulation or administrative action in EU member states concerning the provision of audiovisual media services (codified version) (the **"AVMS Directive"**). The most relevant changes are the extension of the scope of the previous directive to all types of TV-like services, which permits a fair competition between all audiovisual media services. The AVMS Directive covers not only linear services (*i.e.*, television broadcasting) but also—with some lighter rules—non-linear services (*i.e.*, on-demand services provided for the viewing of programs at the moment chosen by the user at request and on the basis of a catalogue of programs). As VOD services were already regulated by Belgian media law, especially in Flanders, the transposition of the AVMS Directive has not caused a significant change in the regulation of VOD services in Telenet's footprint. Advertising revenues remain the main source of financing free-to-air television programs. The update of these rules allows broadcasters to operate in a more sustainable way. The AVMS Directive lifts certain advertisement restrictions such as product placement advertising. See *"Description of Telenet's Business—Regulation Broadcasting—Regulation—Overview"*.

Directive 2009/140/EC, implemented into Belgian legislation by the 2012 Law, provides that national regulators for telecommunications, such as the BIPT, are required to promote net neutrality principles. These principles provide that internet service providers may not block data transmissions traffic on the internet. The net neutrality principles are being further developed at the European level as part of the "Connected Continent" legislative package proposed by the European Commission. Regulation 2015/2120 laying down measures concerning open internet access has been in force since April 30, 2016 and establishes common rules to safeguard equal and non-

discriminatory treatment of traffic in the provision of internet access services and related end-users' rights. Net neutrality principles might have the effect of reducing Telenet's ability to manage its network's resources in an effective manner and might possibly cause congestion or prevent it from using its bandwidth in ways that would generate maximum revenue.

By way of Decree of July 19, 2013, the Flemish Parliament inserted a provision in the Broadcasting Decree requiring the consent of the broadcasters for any functionality that a service provider (such as Telenet) offers to its end users in respect of any linear broadcasts from such broadcasters that allows the end users to watch the broadcasts in a delayed, shortened or altered manner. This provision aims in particular to target the "fast forward" function on set-top box devices, which allows end users to skip advertisement during delayed viewing of broadcasts (thereby reducing certain broadcasters' advertising income). Telenet believes that this and other related legislation may impact negotiations with broadcasters for new or renewed broadcasting agreements, and may have an adverse effect on Telenet's business in terms of additional payments due to broadcasters and/or to technical adjustments to equipment to be made. The distribution agreements with VRT and MEDIALAAN entered into during the course of 2014 and which are currently in place require Telenet to distribute the broadcasters' signal in an unaltered manner. Telenet is currently in the process of negotiating a new agreement with SBS in this respect. The relevant broadcasters have given Telenet the right to offer its customers a "slightly delayed viewing" and a personal video recorder (PVR) functionality. Telenet is required to pay a higher fee for each customer using these functionalities. See *"Risk Factors—If Telenet is unable to obtain attractive programming or necessary equipment and software on satisfactory terms for its enhanced video services, the demand for these services could be reduced, thereby lowering revenue and profitability"*.

Separately, it is possible that certain amendments will be made to the Broadcasting Decree in light of Telenet's 50% strategic investment in the Flemish media company De Vijver Media. De Vijver Media owns two free-to-air commercial channels ("VIER" and "VIJF") and a content production house ("Woestijnvis"). In February 2014, the VRM, at the request of the Flemish Minister for Media, issued a note regarding the possible consequences of an acquisition by Telenet of a shareholding in De Vijver Media with respect to concentrations in the Flemish media sector. In its note, the VRM indicated that there may be potential horizontal, vertical and cross-medial concentration issues. The VRM described a number of options to remediate such media concentration, including (i) imposing limitations to shareholdings in television broadcasting companies, (ii) expanding the "must-carry" obligations for service distributors, (iii) creating a "must-offer" obligation, which would require broadcasters to offer their signal to service distributors requesting such access, and (iv) imposing additional obligations on companies with significant market power in the content delivery market. The coalition agreement that was executed by the Flemish government in 2014 indicates that the Flemish media policy in the legislative period between 2014 and 2019 will aim to guarantee, among other things, a broad and balanced media landscape and measures to combat the negative consequences of media concentrations, vertical integration and cross-medial actions. For more information on the commitments that were made by Telenet and De Vijver Media to obtain clearance from the European Commission, see *"Management's discussion and analysis of financial condition and results of operations of Telenet—Key factors affecting Telenet's business—Acquisitions and divestitures"*.

Finally, the telecom regulator in Luxembourg, the ILR (*Institut Luxembourgeois de Régulation*), is currently preparing its draft market analysis for the regulation of the broadband markets for wholesale local and central access in Luxembourg. Although the broadband market shares of Coditel Lux are limited, timing and outcome of this analysis is not known yet. With the increased focus by telecom regulators on access to cable networks, there can be no assurances that these developments will not have an impact on Coditel Lux.

Telenet may become subject to more extensive regulation if it is deemed to possess significant market power in any of the markets in which it operates.

The EU Framework, as implemented in Belgium, imposes pricing and other potential requirements on entities deemed to have SMP in non-competitive relevant markets in which they operate. Among other markets, the European Commission has identified "wholesale broadband access", "termination on individual mobile networks" and "termination on individual public telephone networks at a fixed location" as relevant markets. Although the "broadcasting transmission services to deliver broadcast content to end-users" market has been deleted from the European Commission list of relevant markets, national regulators can analyze the wholesale broadcast market subject to such market meeting certain conditions set out by the European Commission.

Following the BIPT's analysis of the broadband access market, the regulator confirmed that the relevant market is national rather than regional, and that cable networks, including the Telenet Network, are not an effective equivalent market substitute on that market. Telenet cannot assure you that any potential future market analysis

may not reach a different conclusion. See “*Description of Telenet’s Business—Regulation— Provisions Applicable to All Electronic Communications—Entities with Significant Market Power*”.

In recent decisions from the BIPT, Telenet has been held to be an entity with SMP in certain relevant markets. The designation of Telenet as an SMP provider will result in requiring Telenet to provide other service providers access to its network for purposes of providing competing broadband and broadcasting services at regulated prices, and impose other restrictions on how it operates its network and markets its services. Granting such access would limit the bandwidth available for Telenet to provide other products and services to the customers served by its network. Such regulation could:

- impair Telenet’s ability to use its bandwidth in ways that would generate maximum revenue;
- create a shortage of capacity on its network, which could limit the types and variety of services Telenet could provide its customers;
- strengthen Telenet’s competitors by granting them access to Telenet’s network and lowering their costs to offer competing products and services; and
- have a significant adverse impact on Telenet’s profitability.

Wholesale broadband access market

In December 2010, the members of the CRC (BIPT, VRM, CSA and Medienrat) published their respective draft decisions reflecting the results of their analysis of the broadcasting market in Belgium. At the same time, the BIPT published its draft decision regarding the analysis of the broadband market in Belgium. After a public consultation, the draft decisions were submitted by the CRC to the European Commission. The European Commission issued a notice on the draft decisions which criticized the analysis of the broadcasting markets on several grounds, including the fact that the CRC failed to analyze upstream wholesale markets. It also expressed doubts as to the necessity and proportionality of the various remedies.

The CRC nevertheless adopted a final decision on July 1, 2011 (the “**July 2011 Decision**”) with some minor revisions. The regulatory obligations imposed by the July 2011 Decision include (i) an obligation to make a resale offer at “retail minus” of the cable analog package available to third party operators (including Proximus), (ii) an obligation to grant third-party operators (except Proximus) access to digital television platforms (including the basic digital video package) at “retail minus,” and (iii) an obligation to make a resale offer at “retail minus” of broadband internet access available to beneficiaries of the digital television access obligation that wish to offer bundles of digital video and broadband internet services to their customers (except Proximus). A “retail-minus” method of pricing involves a wholesale tariff calculated as the retail price for the offered service by Telenet, excluding value-added taxes and copyrights, and further deducting the retail costs avoided by offering the wholesale service (such as, for example, costs for billing, franchise, consumer service, marketing, and sales).

After Telenet submitted draft reference offers in February 2012 to meet the three obligations described above in each of Flanders and Brussels, the CRC made its observations and launched a national consultation process and consulted with the European Commission. Although the European Commission expressed doubts regarding the proportionality of the analog resale obligation on August 8, 2013, the European Commission did not object to the CRC draft decision on the reference offers. On September 9, 2013, the CRC then published the final decisions on the draft reference offers (the decisions themselves are dated September 3, 2013). According to the CRC decision, the regulated wholesale services must be available within six months after a third-party operator files a letter of intent and pays an advance payment to each cable operator.

As a result of the July 2011 Decision, which imposed a retail minus pricing method, the CRC had to determine the retail minus tariffs applicable to the services referred to in the July 2011 Decision. On April 2, 2013, the CRC therefore issued a draft decision regarding the “retail minus” tariffs of minus 35% for basic TV (basic analog and digital video package) and minus 30% for the bundle of basic TV and broadband internet services. On October 8, 2013, the European Commission received a draft quantitative decision from the CRC in which they changed the “retail minus” tariffs to minus 30% for basic TV (basic analog and digital video package) and to minus 23% for the bundle of basic TV and broadband internet services. Even though the European Commission made a number of comments regarding the appropriateness of certain assumptions in the proposed costing methodology, the CRC adopted such retail minus tariffs on December 11, 2013.

The CRC soon initiated a consultative process to update the retail minus tariffs in certain respects. Between May 27, 2015, and June 16, 2015, the BIPT, VRM, CSA and Medienrat therefore started public consultations relating to their respective draft decisions reviewing the wholesale tariffs for the services for access to the cable in their respective regions. In these draft decisions, the regulators have stated that cable operators' retail offerings generally contain additional services (such as webmail, webspace, free content or content at a reduced price and access to public WiFi), which are reflected in the price of the retail offering. These additional services have been identified in the report and the regulators have aimed to identify the reference prices for these services. It was proposed that the basis for calculating the "retail minus" tariffs will be reduced accordingly, which would lead to significantly lower "retail minus" tariffs. During the public consultation process, Telenet observed that, due to the different elements taken into account by the CRC to fix the reduced wholesale tariffs, the decision was disproportionate and uncertain. A draft decision was sent by the CRC for review to the European Commission and eventually, the CRC adopted on February 19, 2016 a decision on the revision of retail minus wholesale tariffs for access services to cable networks in the Brussels Capital Region. The February 19, 2016 decision amended the December 11, 2013 decision in respect of retail minus tariffs by, among others, changing the minus determination model (excluding or taking into consideration certain elements for the determination of the retail minus tariffs) and the tariffication of decoders and modems and providing for the valuation of elements excluded from wholesale offers (WiFi access, second screen, etc.), thus reducing the applicable wholesale tariffs for access to the cable in the relevant markets (retail minus tariffs of minus 26% for basic television (basic analog and digital video package) and minus 18% for the bundle of basic television and broadband internet services during an initial two-year period. Following this two-year period, the tariffs would change to minus 15% and 7%, respectively). This February 2016 decision is addressed to Brut  l  , Numericable and Telenet.

On December 27, 2013, wireless operator Mobistar NV (now Orange Belgium) submitted a letter of intent to Telenet to obtain access to three regulated products of Telenet: (i) resale of the analog television offering; (ii) access to the digital television platform; and (iii) resale of the broadband access offering. Orange Belgium paid the advance payment on January 10, 2014. Telenet implemented the access obligations as described in its reference offers, and complied with its implementation obligation towards Orange Belgium in due time, *i.e.* within the period of six months as set forth by the regulator. Since June 23, 2014, access to the Telenet network has become operational and can be applied by Orange Belgium to offer analog television, digital television and the bundle television plus broadband internet to its clients. On November 14, 2014, Proximus also submitted a request to start access negotiations. Telenet contested this request and has asked the Belgian Regulatory Authorities to assess the reasonableness of the Proximus request. This question is addressed in the Belgian Regulatory Authorities draft market review decisions of July 7, 2017. The timing for a decision from the Belgian Regulatory Authorities on this assessment is not yet clear.

The above decisions have led to a number of proceedings and litigations. Telenet filed an appeal against the July 2011 Decision with the Brussels Court of Appeal. On November 12, 2014, the Brussels Court of Appeal rejected Telenet's appeal of the July 2011 Decision and accepted Proximus' claim that Proximus should not be systematically excluded from access to Telenet's, among other operators', digital television platform and the resale of bundles of digital video and broadband internet services. On November 30, 2015, Telenet filed an appeal of this decision with the Belgian Supreme Court. In 2014, Telenet and wireless operator Orange Belgium each filed an appeal with the Brussels Court of Appeal against the initial retail minus decision of December 11, 2013. On April 25, 2016, Telenet also filed an appeal with the Brussels Court of Appeal challenging the February 19, 2016 retail minus decision. These proceedings against the February 19, 2016 decision have been joined by the Brussels Court of Appeal with the proceedings initiated by Telenet on February 20, 2014 against the decision of the CRC of December 11, 2013. On October 25, 2017, the Court of Appeal issued a judgment annulling both the December 11, 2013 and February 19, 2016 retail minus decisions, with effect from April 30, 2018. There can be no assurances that the decision of the Brussels Court of Appeal will not be appealed before the Supreme Court.

The July 2011 Decision aims to, and in its application may, strengthen Telenet's competitors by granting them resale access to Telenet's network to offer competing products and services notwithstanding Telenet's substantial historical financial outlays in developing the infrastructure. In addition, any resale access granted to competitors could (i) limit the bandwidth available to Telenet to provide new or expanded products and services to the customers served by its network and (ii) adversely impact Telenet's ability to maintain or increase its revenue and cash flows. The extent of any such adverse impacts will be dependent on the extent to which competitors take advantage of the resale access ultimately afforded to Telenet's network and other competitive factors or market developments. Orange Belgium has since requested and obtained access to the Telenet network and has launched its television and broadband internet offer over the Telenet network. Similarly, Orange Belgium made an official request to obtain regulated access to Coditel Brabant's network in February 2016. As Orange Belgium argues that it had not been provided with effective access within the six-month implementation period, it brought a claim for

damages against Coditel Brabant on December 29, 2016 before the French-speaking Commercial Court of Brussels. Orange Belgium claimed to have suffered a loss of €8,973 per day of delay. These legal proceedings are currently ongoing. See also “*Description of Telenet’s Business—Regulation—Broadcasting Regulation—Decisions of the BIPT, the VRM, the CSA and the Medienrat*”.

On July 7, 2017, the BIPT published a draft decision regarding the analysis of the broadband and television broadcasting markets which it submitted for consultation. The public consultation ran until September 15, 2017, followed by a notification to the European Commission for advice by the end of 2017. In its draft decision, the BIPT defined retail markets (broadband over fixed network for residential customers, broadband over fixed network for non-residential customers, and provision of a television signal) as well as wholesale markets (local access, central access under ITU SG15 standardisation, central access under CableLabs standardization, and access to broadcasting over cable networks). For these markets, the BIPT concluded that Telenet, together with Proximus and other cable operators, such as Brute’le’, Nethys and SFR, have SMP, and proposed a number of regulations to ensure effective competition and user satisfaction. These measures relate to non-discrimination, transparency and price control. In respect of price control, the BIPT proposed a methodology to replace the pre-existing retail minus methodology: (i) a cost obligation over the local and central access services over the copper network, and (ii) an obligation to apply fair tariffs for the other wholesale services (over fibre and cable), and a cost orientation obligation for the ancillary services. By “fair”, the BIPT means a price which may exceed the costs while keeping a link with costs, allowing for a reasonable margin between the cost of the product and the wholesale price. Timing for a final decision is unknown. If this draft market review decision is adopted in 2018, it will replace the July 2011 Decision.

Termination on individual public telephone networks at a fixed location market

The European Commission has also identified the termination of calls “on a separate public network to a fixed location” as a market to be regulated by the BIPT. Under this defined market, whether a network operator would have SMP in terminating calls on its own network depends, among other things, on the relative market position of the operator and the other operators seeking to interconnect to its network. If an operator is found to have significant power in this market, it can be required to charge interconnection termination rates that reflect its cost of providing the service. In August 2006, the BIPT issued its decision on the fixed-line telephony termination market, imposing a linear glide path on all the alternative operators over three years towards near reciprocity of interconnection rates, starting in January 2007. In August 2010, the BIPT issued a decision aimed at correcting certain aspects of its decision of August 2006, which was partially annulled by the Brussels Court of Appeal in June 2009, particularly as regards the maximum mobile termination rates to be charged by operators having SMP from November 2006 to April 2008. From January 1, 2009 to March 31, 2012, Telenet was allowed to charge to Proximus the Proximus termination charge to Telenet plus 15%. As of April 1, 2012, this 15% surcharge has been cancelled by BIPT decision, thus reaching full reciprocity on the Belgian fixed-line telephony market. On July 14, 2015, the BIPT published a draft decision regarding the wholesale tariffs for call termination on the public telephone network provided at a fixed location. The BIPT has organized a public consultation on this draft decision which was open for reactions until September 15, 2015. On August 25, 2016, the BIPT Council published a decision on wholesale tariffs for call termination services on the public telephone network at a fixed location. The BIPT decision was later annulled by a decision of the Brussels Court of Appeal dated March 15, 2017 on the grounds of procedural irregularity, as the August 25, 2016 decision had not been notified to the Belgian Competition Authority.

Termination on individual mobile networks market

With respect to the third market on which Telenet is deemed to possess SMP (call termination on an individual mobile network), the BIPT published a new final decision on May 26, 2017 which replaces the previous decision on tariffs for call termination on an individual mobile network dated June 29, 2010. This decision designates Telenet (among other operators) as an entity having SMP and imposes a number of regulations to ensure effective competition and user satisfaction. These measures relate to non-discrimination, transparency and price control. Specifically in respect of price control, the decision imposes a bottom-up long run incremental cost model to calculate tariffs for call termination on individual mobile networks.

Telenet may be subject to conflicting regulations, inconsistent court judgments and regulatory rulings.

Telenet’s networks and related operations are subject to regulation by national, regional and local authorities. The national regulator has principal authority over regulating Telenet’s broadband internet and telephony operations, and the regional regulator has principal responsibility for regulating its broadcasting activities. Local authorities

may also pass regulations that affect Telenet's operations from time to time, including issuing orders that require Telenet to move its cables underground. Issues may arise with respect to conflicting regulations applying to the networks Telenet operates and for the services it provides. Aspects of iDTV, for example, e-mail functions, may be subject to regulation by the national regulator, whereas the broadcasting features of iDTV are regulated by the regional regulator. Decisions of the Constitutional Court resulted in cooperation agreements signed by all parties. Notwithstanding the existence of the cooperation agreements, the structure of the bodies that regulate Telenet may generate situations where progress is hindered by the requirement to coordinate among the parties to the cooperation agreements. See "*Description of Telenet's Business—Regulation—The EU Framework*," "*—Telephony Regulation—The Belgian Institute for Postal Services and Telecommunications*," and "*—Broadcasting Regulation—Overview*".

As another example, Telenet is subject to certain local regulations with respect to its networks, including network rights of way. For telecommunications networks, the 1991 Law explicitly provides that public authorities (e.g., municipalities) cannot charge network operators for the rights of way granted to them. Several municipalities have implemented a model regulation requiring payment for "the municipal services and the use of the municipal public domain as a result of works on permanent utilities on the municipal public domain". Telenet has asked the Flemish provincial governors to suspend these regulations on the grounds that they violate the 1991 Law. Several province governors have confirmed that the regulations do not apply to Telenet's networks because they are superseded by the 1991 Law. In light of the preliminary ruling by the European Court of Justice of September 4, 2014, as well as earlier judgments by the Belgian Constitutional Court of December 15, 2011 and the Belgian Supreme Court of March 30, 2012, relating to the local authorities' right to impose taxes on the economic activity of telecoms operators on their territory through cellular telephone communication masts, pylons or antennae, it cannot be excluded that local authorities may in the future also seek to impose taxes directly or indirectly related to other telecommunications networks, such as Telenet's network, on their territory. Telenet cannot give any assurances that its challenges of such taxes will be successful.

In addition, the Competition Authority has been given authority to resolve disputes between telecommunication operators regarding, among other things, interconnection. The BIPT may still intervene in such disputes on the basis of its general power to enforce relevant legislation. Belgian courts also have jurisdiction with respect to certain aspects of general competition law. These overlapping powers may result in Telenet being forced to litigate competitors' complaints in more than one forum on the same issue. There can be no assurance that the Competition Authority, the BIPT and the Belgian courts will always reach the same or consistent conclusions on identical or similar issues. Such uncertainty can lead to potentially conflicting compliance obligations being imposed on Telenet and forum shopping by potential litigants. These overlapping powers may have a material adverse effect on Telenet's financial condition.

Telenet does not have complete control over the prices that it charges or the programming that it provides, which exposes it to third-party risks and may adversely affect its business and results of operations.

The sixth Belgian state reform made pricing policy matters, including with respect to television distribution, a regional power. Telenet may not receive approval for additional cable television subscription price increases in the future, especially if it further reduces the number of channels included in its basic cable television package, which may have an adverse impact on its revenues, profitability of new products and services and ability to respond to market changes.

Telenet is also required to carry certain broadcast and other channels on its cable system that it would not necessarily carry voluntarily. Following the implementation of the EU Framework by the Flemish legislature, these "must carry" obligations apply to eight of the television channels that Telenet delivers to any specific end user. Telenet must carry the channels from the regional public broadcasters for no fee and also not charge a carriage fee to the other public broadcasters, but can charge commercial rates to other channels it is required to carry. See "*Description of Telenet's Business—Regulation—Broadcasting Regulation—Must Carry*". Telenet cannot guarantee that the remuneration that it receives for providing these required channels will cover its actual costs of broadcasting these channels, or provide the return that it would otherwise receive if Telenet was allowed to freely choose the programming Telenet offer on its system. Under the "must carry" regulations currently in force, it is possible that Telenet may be required to carry additional channels in the future. Increasing the number of channels that it must carry on its network would use valuable network capacity that it could otherwise use to deliver alternative channels or services that may be profitable.

Moreover, under the Electronic Communications Law, all providers of telephony and broadband services must offer social tariffs for specific categories of users by applying discounts and percentages as set out in the annex to

the Electronic Communications Law. See “*Description of Telenet’s Business—Regulation— Telephony Regulation—Universal Service*”. Such mandatory social tariffs may have an adverse impact on Telenet’s revenues, profitability of new products and services and ability to respond to market changes.

Telenet may incur significant costs to comply with city planning laws.

Approximately 40% of Telenet’s local loop is located above ground. Local municipal governments have the authority to require Telenet to move these network lines underground. Usually, Telenet is able to coordinate with other utility suppliers to share the costs associated with moving lines underground but it cannot assure you that it will always be able to do so. Nevertheless, the costs of complying with municipal orders can be substantial, and may require Telenet to incur significant costs in the future.

Telenet is subject to new anti-terrorist regulation

The Electronic Communications Law was amended by a law of September 1, 2016 extending existing identification obligations, in particular with respect to end users, on electronic communication services sales channels and companies providing identification services. The same law of September 1, 2016 amended the law of November 30, 1998 on information and security services, stating that such information and security services providers may, in the course of their duties, request some identification information from banks and financial institutions. A Royal Decree of November 27, 2016 implemented the modifications brought by the law of September 1, 2016 concerning the identification of prepaid cards’ users. These measures are intended to combat terrorism and human trafficking by imposing obligations on prepaid cards’ users, on companies providing such prepaid cards, on electronic communication services sales channels and on identification services providers. These obligations include, for instance, identification obligations for the users upon request of the company, limitations on the transfer of a prepaid card to a third party and an obligation to block a stolen prepaid card, among other things. Compliance with the aforementioned prepaid registration obligations requires an extensive operational and technical investment for Telenet as well as for its MVNOs and is subject to, in certain instances, criminal liability.

Article 19, § 1, 2nd indent, 2° of the Royal Decree of November 27, 2016 requires the relevant operators to opt for an identification method to be approved by the Minister of Justice. The method chosen by Telenet was approved by Ministerial Decree of December 19, 2016.

Moreover, a law of May 29, 2016 on the data collection and conservation in the field of electronic communications amended the Electronic Communications Law, requiring in particular that electronic communications operators retain data with respect to, among other things, the identification of users or subscribers, means of communications and access and connection, subject to certain exceptions. This law also requires that operators set up an internal coordination cell intended to provide the necessary identification information to public authorities.

Finally, a law of December 7, 2016, inserted a new article 106/1 in the Electronic Communications Law. The purpose of this new provision is to impose on mobile electronic communications operators an obligation to make their networks and services available for the central communication platform of the Ministry of Home Affairs in order to allow public authorities to warn the population in case of imminent danger, including terrorist threat. A public consultation was also organised by the BIPT on May 9, 2017 on the draft Ministerial Decree amending the Electronic Communications Law relating to the sending of a short text message in case of imminent danger or major disaster.

The Issuer and the 1940 Act.

The Issuer has not registered with the SEC as an investment company pursuant to the 1940 Act, in reliance on the exception contained in Section 3(c)(7) of the 1940 Act. Section 3(c)(7) of the 1940 Act provides that an entity will not be within the statutory definition of “investment company” so long as (a) such entity’s outstanding securities are beneficially owned by U.S. residents that are “qualified purchasers” or “knowledgeable employees” with respect to the Issuer at the time of acquisition of such securities and certain transferees thereof identified in Rules 3c-5 and 3c-6 under the 1940 Act and (b) such entity does not make, or propose to make, a public offering of its securities in the United States.

No opinion or no-action position has been requested of the SEC with respect to the status of the Issuer as an investment company under the 1940 Act. Because the Issuer will not be registered with the SEC as an investment company, investors in the Issuer will not be afforded the protections of the 1940 Act.

If the SEC or a court of competent jurisdiction were to find that the Issuer is required, but in violation of the 1940 Act had failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the Issuer could sue the Issuer and recover any damages caused by the violation of the registration requirement of the 1940 Act; and (iii) any contract to which the Issuer is party that is made in violation of the 1940 Act or whose performance involves such violation would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the 1940 Act. Should the Issuer be subjected to any or all of the foregoing, the Issuer would be materially and adversely affected.

If the Issuer determines that a purchaser of the Notes that is a U.S. person was not a Qualified Purchaser at the time of its acquisition of the Notes, the Issuer will have the right, at its option, to require such person to dispose of its Notes to a person or entity that is qualified to hold the Notes immediately upon receipt of a notice from the Issuer that the relevant purchaser was not a Qualified Purchaser.

Litigation Risks

Legal proceedings concerning the agreement-in-principle and PICs Agreement concluded between Telenet and *the PICs, Interkabel and INDI*.

On November 26, 2007, Telenet and the PICs announced a non-binding agreement-in-principle to transfer the analog and digital television activities of the PICs, including all existing subscribers to Telenet. Subsequently, Telenet and the PICs entered into a binding agreement (the “**PICs Agreement**”), which closed effective October 1, 2008. Beginning in December 2007, Proximus, the incumbent telecommunications operator in Belgium, instituted several proceedings seeking to block implementation of these agreements. Proximus lodged summary proceedings with the President of the Court of First Instance of Antwerp to obtain a provisional injunction preventing the PICs from effecting the agreement-in-principle and initiated a civil procedure on the merits claiming the annulment of the agreement-in-principle. In March 2008, the President of the Court of First Instance of Antwerp ruled in favor of Proximus in the summary proceedings, which ruling was overturned by the Court of Appeal of Antwerp in June 2008. Proximus brought this appeal judgment before the *Cour de Cassation* (the Belgian Supreme Court), which confirmed the appeal judgment in September 2010. On April 6, 2009, the Court of First Instance of Antwerp ruled in favor of the PICs and Telenet in the civil procedure on the merits, dismissing Proximus’ request for the rescission of the agreement-in-principle and the PICs Agreement. On June 12, 2009, Proximus appealed this judgment with the Court of Appeal of Antwerp. In this appeal, Proximus is now also seeking compensation for damages. While these proceedings were suspended indefinitely, other proceedings were initiated, which resulted in a ruling by the Belgian Council of State in May 2014 annulling (i) the decision of the PICs not to organize a public market consultation and (ii) the decision from the PICs’ board of directors to approve the PICs Agreement. In December 2015, Proximus resumed the civil proceedings pending with the Court of Appeal of Antwerp seeking to have the PICs Agreement annulled and claiming damages of €1.4 billion.

Telenet intends to defend itself vigorously in the resumed proceedings. A judgment of the Court of Appeal of Antwerp is not expected before mid-December 2017. No assurance can be given as to the outcome of these or other proceedings. However, an unfavorable outcome of existing or future proceedings could potentially lead to the annulment of the PICs Agreement and/or to an obligation of Telenet to pay compensation for damages, subject to the relevant provisions of the PICs Agreement, which stipulate that Telenet is responsible for damages in excess of €20.0 million. There can be no assurances that the ultimate resolution of this matter will not have a material adverse impact on Telenet’s results of operations, cash flows or financial position (although Telenet does not expect this to be the case). No amounts have been accrued by Telenet with respect to this matter as the likelihood of loss is not considered to be probable.

Telenet may become subject to class action suits by customers.

The law of March 28, 2014 introduced a new section in the Belgian Code of Economic Law entitled ‘actions for collective redress’, establishing a legal framework for class actions brought by groups of individual consumers. The law allows both opt-in systems (where consumers need to take action before becoming a member of the group) and opt-out systems (where consumers do not need to take such action). Although the law does not allow for class actions on the basis of general tort law, it does allow for claims brought by consumer groups against companies based on the violation of consumer protection legislation to which Telenet is subject, including general consumer protection rules in Book VI of the Belgian Code of Economic Law and specific consumer protection rules in the Electronic Communications Law and the relevant decrees thereto.

Therefore, it cannot be excluded that Telenet will be a defendant in a future class action law suit. Such class actions may have a material adverse effect on Telenet's business, reputation and financial condition.

Risks Relating to Telenet's Employees, Management, Principal Shareholders and Related Parties

The loss of certain key personnel could harm Telenet's business, and a failure to sustain a good working relationship with employee representatives could harm its business.

Telenet's key employees possess substantial knowledge of its business and operations. Telenet cannot assure you that it will be successful in retaining their services or that it would be successful in hiring and training suitable replacements without undue costs or delays. As a result, the loss of any of these key employees could cause significant disruptions in Telenet's business operations, which could materially adversely affect its results of operations.

In its business, Telenet relies on sales forces and call center employees to interface with the major part of its residential customers. Their reliability is key as is Telenet's relationship with employee representatives and unions, and Telenet's business could suffer reputational or financial harm, as a result of their strikes or other (collective) actions.

Telenet may have conflicts of interest with its principal shareholders, which could adversely affect its business and the value of its shares.

Liberty Global is Telenet's largest shareholder owning a 57.65% stake in Telenet as at October 31, 2017. When business opportunities, or risks and risk allocation arise, the interests of Liberty Global (or other Liberty Global controlled entities) may be different from, or in conflict with, Telenet's interests on a stand-alone basis. Because Telenet is indirectly controlled by the parent entity, Liberty Global may allocate certain or all of its risks to Telenet and Telenet cannot assure you that Liberty Global will permit it to pursue certain business opportunities.

Telenet may also have conflicts of interest if it engages in commercial transactions with other entities controlled by its principal shareholder, Liberty Global, or if there are business opportunities that both Telenet and another entity controlled by Telenet's principal shareholder would like to pursue. Telenet currently has management and technical service contracts with Liberty Global or its affiliates. Telenet cannot guarantee that conflicts will not in some instances arise.

In addition, Liberty Global may cause Telenet to make acquisitions that may increase the amount of Telenet's indebtedness (including secured indebtedness) or cause Telenet to sell assets. Furthermore, Liberty Global may also pursue acquisition opportunities that may be complementary to Telenet's business and, as a result, those acquisition opportunities may not be available to Telenet. So long as Liberty Global continues to own a significant amount of Telenet's capital stock, even if such amount is less than 50%, Liberty Global will continue to be able to strongly influence or effectively control Telenet's decisions. The interests of Liberty Global may not coincide with Telenet's interests.

Telenet may not be able to integrate SFR Belux effectively and realize the anticipated synergies from the Coditel Acquisition.

Realizing the benefits of the Coditel Acquisition will require the integration of some or all of the procurement, production, distribution and service, sales and marketing, finance, information technology systems and administrative operations of SFR Belux into those of the Telenet Group. If Telenet cannot successfully integrate SFR Belux within the anticipated time frame, it may not be able to realize the potential benefits anticipated from the Coditel Acquisition. Telenet will also be reliant on SFR Belux's selling shareholders for certain transitional services and on-going co-operation, as further described below. Telenet's failure to successfully integrate SFR Belux and the diversion of management attention and other resources from our existing operations could have a material adverse effect on our business, financial condition and results of operations.

Furthermore, even if Telenet is able to successfully integrate the operations of SFR Belux Telenet may not be able to realize the cost savings, synergies and revenue enhancements that Telenet anticipates from the Coditel Acquisition, either in the amount or within the time frame that Telenet currently anticipates, and the costs of achieving these benefits may be higher than, and the timing may differ from, what Telenet expects. Telenet's ability to realize anticipated cost savings, synergies and revenue enhancements may be affected by a number of factors, including the following:

- the use of more cash or other financial resources on integration and implementation activities than Telenet expects, including restructuring and other exit costs; and
- increases in other expenses related to the Coditel Acquisition, which may offset the cost savings and other synergies from the Coditel Acquisition.

For example, Telenet expects to invest an estimated €12.0 million in SFR Belux for projected one-off investments in integration costs, and Telenet cannot assure investors that such investments will achieve or realize the anticipated benefits, cost savings or synergies.

SFR Belux may have liabilities that are not known to Telenet and those that are may pose certain risks.

There may be liabilities related to SFR Belux, including tax liabilities and legal or administrative actions, that Telenet failed or was unable to discover in the course of performing due diligence investigations into SFR Belux, and, although Telenet has certain specific indemnities and other contractual recourse in the sale and purchase agreement, Telenet may not have obtained sufficient contractual recourse for all key risks that it identified and the extent of certain potential liabilities identified may not have been fully uncovered in the course of performing due diligence investigations into SFR Belux. SFR Belux is also dependent on a number of concession agreements with certain municipalities. A number of these may have expired, may not have been entirely formalized or may be retendered in the future. For certain municipalities, there may be uncertainty as to Coditel Lux's continued operations in these municipalities or of the terms of such continued operation. SFR Belux's ability to renew its existing concessions upon expiration or enter into new written agreements, either on commercially attractive terms, or at all, depends on a range of commercial, political and operational factors which may be beyond SFR Belux's control.

Any such liabilities, individually or in the aggregate, could have a material adverse effect on Telenet's business, financial condition and results of operations. As Telenet integrates SFR Belux, Telenet may learn additional information about SFR Belux that adversely affects Telenet, such as unknown or contingent liabilities and issues relating to compliance with applicable laws. Additionally, Telenet cannot guarantee that the potential liabilities that Telenet has identified and mitigated with specific indemnities and other contractual recourse in the purchase and sale agreement do not pose certain incidental risks such as reputational damage. Such liabilities, known or unknown, could have a material adverse effect on Telenet's results of operations and reputation following the Coditel Acquisition.

Telenet remains reliant on SFR Belux's selling shareholders for certain key services until full integration of SFR Belux into the Telenet Group has been achieved.

The Telenet Group has entered into certain transitional arrangements with Altice NV and certain of its subsidiaries (the "**Altice Group**") to ensure SFR Belux's business continuity for a certain period after closing of the Coditel Acquisition, during which time SFR Belux's operations will be integrated into those of the Telenet Group. SFR Belux will particularly depend on the quality and continuity of certain IT and network services provided by the Altice Group during the agreed transition period. In addition, SFR Belux has obtained an exclusive license to use the SFR trademarks in the relevant Belgian and Luxembourg territories for a certain period of time.

Furthermore, Telenet is reliant on a supply agreement, entered into with certain members of the Altice Group, for the supply of La Box set-top boxes which are provided by SFR Belux to its end-customers. In the event of any issue with the manufacturing of the set-top boxes SFR Belux would not have direct recourse against the manufacturer, but must claim against the relevant members of the Altice Group.

These and certain other challenges arising from the continuing reliance on SFR Belux's selling shareholders may affect our ability to effectively integrate SFR Belux into the Telenet Group and may have a material adverse effect on our business, financial condition and results of operations.

Risks Relating to the Notes and the Structure

The Issuer is a financing company which depends on payments under the 2017 Finco Loans to provide it with funds to meet its obligations under the Notes.

The Issuer has been formed as a financing company for the primary purpose of facilitating the offering of the Notes. The Issuer is a financing company that has no material business operations, no direct subsidiaries and no

employees, and, upon completion of the offering of the Notes, its only material assets are the 2017 Finco Loans and its rights under certain related agreements. Furthermore, the Indenture governing the Notes prohibits the Issuer from engaging in any activities other than certain limited activities permitted under the heading “*Description of the Notes—Certain Covenants—Limitations with Respect to Business Activities of the Issuer*”. As such, the Issuer is wholly dependent upon payments from Telenet International Finance which payments are guaranteed by Telenet Group BVBA under the 2017 Finco Loans, other than certain amounts due on the Notes (such as prepayment premiums and additional amounts following certain tax events), which are financed by Telenet International Finance pursuant to the 2017 Telenet Fee Letters or the Telenet Service Agreement, in order to service its obligations under the Notes.

Telenet International Finance conducts no business operations of its own. Telenet International Finance depends on payments from the other members of the Telenet Group to make payments on the 2017 Finco Loans.

Telenet International Finance conducts no business operations of its own. The ability of any of Telenet Group Holding’s direct or indirect subsidiaries to pay dividends or to make other payments or advances to Telenet International Finance depends on their individual operating results and any statutory, regulatory or contractual restrictions to which they may be or may become subject and in some cases Telenet International Finance’s receipt of such payments or advances may be subject to onerous tax consequences. Most of Telenet Group Holding’s operating subsidiaries are subject to the limitations and restrictions in the Senior Credit Facility and/or other debt facilities that restrict sales of assets and prohibit or limit the payment of dividends or the making of distributions, loans or advances to stockholders and partners, including Telenet International Finance. In addition, because these subsidiaries are separate and distinct legal entities they have no obligation to provide Telenet International Finance funds for payment obligations, whether by dividends, distributions, loans or other payments, except Telenet BVBA and Telenet Group BVBA which are guarantors under the Senior Credit Facility.

There can be no assurance that arrangements with Telenet Group Holding’s subsidiaries and the funding permitted by the agreements governing existing and future indebtedness of Telenet Group Holding’s subsidiaries will provide Telenet International Finance with sufficient dividends, distributions or loans to fund payments under the relevant 2017 Finco Loan, and in turn, fund payments by the Issuer under the Notes, when due.

The Notes are structurally subordinated to all indebtedness of the Issuer’s subsidiaries (if any) and will be effectively subordinated to any of the Issuer’s future obligations that are secured by assets or property that do not secure the Notes.

The Issuer does not currently have any subsidiaries, but may incorporate subsidiaries in future. Because none of the Issuer’s future subsidiaries, if any, will guarantee the Notes, none of the Issuer’s future subsidiaries will have any obligation, contingent or otherwise, to pay amounts due under the Notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or otherwise. The Notes will therefore be structurally subordinated to all indebtedness and other obligations of all of the Issuer’s future subsidiaries, if any, such that in the event of insolvency, liquidation, reorganization, dissolution or other winding up of any such subsidiary, all of the applicable subsidiary’s creditors would be entitled to payment in full out of such subsidiary’s assets before the Issuer would be entitled to any payment.

By investing in the Notes you have provided consent to the Senior Credit Facility Amendments which will automatically become effective without any further consent from holders of the Notes upon Telenet obtaining the consent of all Telenet Lenders.

The 2017 Finco Accession Agreements and the New Finco Accession Agreements, as applicable contain the consent of the Issuer, as a Telenet Lender, to the Senior Credit Facility Amendments. Accordingly, while the Issuer will have the same voting rights as the other Telenet Lenders in all matters under the Senior Credit Facility, the Issuer will have already provided its consent to any and all of the Senior Credit Facility Amendments at the time it enters into the 2017 Finco Accession Agreements and the New Finco Accession Agreements, as applicable and, therefore, will not be not entitled to vote on any request for consent to the Senior Credit Facility Amendments. As a result, the holders of Notes will not, directly or indirectly, be entitled to direct the vote of the Issuer on such matters and in the event Telenet solicits the consents for any or all of these amendments to the Senior Credit Facility or receive any consent fee or similar fee that may be paid to other Telenet Lenders under the Senior Credit Facility in connection with their approval of these amendments.

The Issuer has the same voting rights as the other Lenders under the Senior Credit Facility. In the event that the Issuer, as a Telenet Lender, is eligible or required to vote (or otherwise consent) (including with respect to any

enforcement decision) with respect to any matter arising from time to time under the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, in which all Telenet Lenders are eligible or required to vote (or otherwise consent), the Issuer will solicit votes (or other consents) from holders of Notes and any other applicable series of Additional Debt with respect to such Senior Credit Facility Decision (as defined in the “*Description of the Notes*”) in accordance with the provisions of the Indenture. The holders of the Notes will under (and effective as of the date of) the Indenture provide their consent to the Senior Credit Facility Amendments. The Issuer will therefore apply Noteholder Consent (as defined in the “*Description of the Notes*”) equal to the aggregate principal amount of the Notes outstanding in respect of any of the Senior Credit Facility Amendments for the purposes of the provisions of the Indenture described under “*Description of the Notes—Amendment, Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements*”. As a result, the Issuer will not solicit votes (or other consents) from the holders of the Notes with respect to the Senior Credit Facility Amendments. In addition, the Issuer will not be entitled to receive, and will expressly waive under the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, any right it may have to, any consent, waiver, amendment or other similar fee that may be paid to other Telenet Lenders in connection with their approval of the Senior Credit Facility Amendments (including the Issuer as a Telenet Lender in respect of any additional accession agreement to the Senior Credit Facility, or similar instrument or agreement, pursuant to which the Issuer advances the proceeds of the Notes (including any Additional Notes) or Additional Debt into the Telenet Bank Group).

The Senior Credit Facility Amendments include material modifications to certain affirmative and negative covenants, financial maintenance covenants and related definitions, representations and warranties, events of default, mandatory prepayment provisions, administrative provisions and provisions relating to the security package. The Senior Credit Facility Amendments are generally less restrictive and provide greater flexibility to the Telenet Bank Group than the provisions currently included in the Senior Credit Facility. For a summary of the key amendments included in the Senior Credit Facility Amendments, please see “*Description of the Senior Credit Facility and the Related Agreements—Senior Credit Facility—Changes during 2017—Proposed Amendments to the Senior Credit Facility*”. Given the significant nature of the Senior Credit Facility, you should read the Senior Credit Facility Amendments listed in schedules 4, 5, 6, 7, 8, 9 and 10 of Annexes B and C and schedules 4, 5, 6, 7, 8, 9 and 10 of Schedule 11 of Annexes B and C in these Listing Particulars in their entirety before investing in the Notes.

The effectiveness of the Senior Credit Facility Amendments is conditioned upon Telenet obtaining the consent of either the “Majority Lenders” (as defined in the Senior Credit Facility, without giving effect to the Senior Credit Facility Amendments) or with respect to certain amendments, all Telenet Lenders affected by such amendments. The commitments and loans of the Telenet Lenders under Facility V, Facility Z, Facility AB, Facility AH, Facility AG, Facility AI and Facility AI2 already represent those of the Majority Lenders outstanding under the Senior Credit Facility for the purposes of implementation of the First Senior Credit Facility Amendments. Following the issuance of the Notes offered hereby and the funding of the 2017 Finco Loans and the New Finco Loan, as applicable, the commitments and loans of the Issuer as a Telenet Lender is also included in those of the Majority Lenders outstanding under the Senior Credit Facility for the purposes of implementation of the First Senior Credit Facility Amendments. Accordingly, it is intended that the Seventh Senior Credit Facility Amendments that require consent of the Majority Lenders will become effective pursuant to an amendment and restatement of the Senior Credit Facility promptly following the issuance of the Notes. Once the requisite level of consents of Telenet Lenders under the Senior Credit Facility, which may include consents from lenders under future term loan or revolving credit facilities, has been obtained by Telenet, then the remaining Seventh Senior Credit Facility Amendments, as well as the First Senior Credit Facility Amendments, the Second Senior Credit Facility Amendments, the Third Senior Credit Facility Amendments, the Fourth Senior Credit Facility Amendments the Fifth Senior Credit Facility Amendments and the Sixth Senior Credit Facility Amendments also will become effective without any further consent by holders of the Notes.

The Senior Credit Facility Amendments include amendments that would allow the release of the collateral currently securing the 2017 Finco Loans and the Telenet Loans, other than share pledges over the shares of obligors and pledges in respect of subordinated shareholder loans (such released collateral, the “**Asset Collateral**”). These release provisions require the consent of all Telenet Lenders before they become effective. However, the Issuer will have already provided its consent to these amendments at the time it enters into the 2017 Finco Accession Agreements and, therefore, the Issuer will not be entitled to vote with respect to any future request for consent to release the Asset Collateral. Upon the effectiveness of such amendments, holders of the Notes will no longer have the indirect benefit of security in the Asset Collateral.

Certain transactions in connection with the potential Belgian Issuer Accession can be viewed as giving rise to a taxable event for holders of the Notes.

Certain transactions in connection with the potential Belgian Issuer Accession, as generally described in these Listing Particulars, can be viewed as giving rise to a significant modification of the Notes that results in a deemed exchange of the Notes for “new” Notes for U.S. federal income tax purposes. In such a case, U.S. Holders would recognize gain or loss on the amount realized with respect to the deemed exchange. Additionally, U.S. Holders may be treated as acquiring the “new” Notes with original issue discount and may be required to accrue original issue discount following the deemed exchange. For additional discussion of this matter, see “*Tax Considerations—Certain U.S. Federal Income Tax Considerations—Possible Effect of the Belgian Issuer Accession*”. Certain transactions in connection with the potential Belgian Issuer Accession may also have tax consequences in other tax jurisdictions. Holders should therefore consult their tax advisors regarding the tax consequences to them of the potential Belgian Issuer Accession in their respective tax jurisdictions.

Interest payments on the Notes may be subject to Belgian withholding tax following the Belgian Issuer Accession.

Following the Belgian Issuer Accession, payments of interest on the Notes made by the Belgian Issuer will be subject to Belgian withholding tax, currently 30% of the gross amount of the interest on the Notes, unless certain exemptions apply. One such exemption provides for payments of interest by the Belgian Issuer on the Notes without deduction or withholding tax in the event that the Notes are held by certain X/N Eligible Investors (as defined in the “*Description of the Notes*”) in an exempt security account that has been opened with a financial institution that is a direct or indirect participant in the X/N Clearing System operated by the NBB. As a result, if a holder of the Notes is not a X/N Eligible Investor or holds a Definitive Registered Note (as defined in the “*Description of the Notes*”) that can no longer be cleared through the X/N Clearing System, such holder may be subject to Belgian withholding tax. Additionally, in such circumstances, holders of the Notes will be unable to avail themselves to the withholding tax gross-up provisions under the Indenture. See “*Description of the Notes—Withholding Taxes*” and “*Tax Considerations—Belgium*”.

Your ability to recover under the collateral securing the Notes may be limited.

The holders of the Notes benefit from security interests in the Note Collateral.

According to Luxembourg conflict of laws rules, the courts in Luxembourg will generally apply the *lex rei sitae* or *lex situs* (the law of the place where the assets or subject matter of the pledge or security interest is situated) in relation to the creation, perfection and enforcement of security interests over such assets.

As a consequence, Luxembourg law will apply in relation to the creation, perfection and enforcement of security interests over assets located or deemed to be located in Luxembourg, such as registered shares in Luxembourg companies, bank accounts held with a Luxembourg bank governed by Luxembourg law, etc.

The Luxembourg law of 5 August 2005 on financial collateral arrangements, as amended (the “**Luxembourg Collateral Act 2005**”) governs the creation, validity, perfection and enforcement of pledges over shares and bank accounts located or deemed to be located in Luxembourg. Under the Luxembourg Collateral Act 2005, the perfection of security interests depends on certain registration, notification and acceptance requirements. For ranking purposes, a bank account pledge agreement must be notified to and accepted by the account bank so as to ensure that the account bank has waived any pre-existing security interests and other rights in respect of the relevant account. If (future) bank accounts are pledged, such additional notification to, acceptance and waiver by the account bank will be required. Article 11 of the Luxembourg Collateral Act 2005 sets out enforcement remedies available upon the occurrence of an enforcement event, including, but not limited:

- appropriation by the pledgee or appropriation by a third party of the pledged assets at (i) a value determined in accordance with a valuation method agreed upon by the parties or (ii) (if listed) the listing price of the pledged assets;
- sell or cause the sale of the pledged assets (i) in a private transaction at normal commercial terms (*conditions commerciales normales*), (ii) by a public sale at the stock exchange (if listed shares), or (iii) by way of a public auction;

- court allocation of the pledged assets to the pledgee in discharge of the secured obligations following a valuation made by a court-appointed expert; or
- set-off between the secured obligations and the pledged assets.

The Luxembourg Collateral Act 2005 expressly provides that financial collateral arrangements (including pledges) including enforcement measures are valid and enforceable, even if entered into during the hardening period, against third parties including supervisory, receivers, liquidators and any other similar persons or bodies irrespective of any bankruptcy, liquidation or other situation, national or foreign, of composition with creditors or reorganization affecting any one of the parties.

The Note Collateral securing the Notes is subject to any and all exceptions, defects, encumbrances, liens and other imperfections as may be set forth in the documents evidencing the security interests granted over the Note Collateral. The Initial Purchasers have neither analyzed the effect of, nor participated in any negotiations relating to, such exceptions, defects, encumbrances, liens and other imperfections. The existence of any such exceptions, defects, encumbrances, liens and other imperfections could adversely affect the value of the Note Collateral securing the Notes as well as the ability of the Trustee to realize or foreclose on such Note Collateral.

As the Luxembourg Collateral Act 2005 does not provide any specific time periods and depending on (i) the method chosen, (ii) the valuation of the pledged assets, (iii) any possible recourses, and (iv) the possible need to involve third parties, such as, e.g., courts, stock exchanges and appraisers, the enforcement of the security interests might be substantially delayed. The security interests in the Note Collateral are subject to practical problems generally associated with the realization of security interests in Note Collateral. For example, the Security Trustee may need to obtain the consent of a third party to obtain or enforce a security interest in a contract. The Issuer cannot assure you that the Security Trustee will be able to obtain any such consent. It also cannot assure you that the consents of any third parties will be given when required to facilitate a foreclosure on such assets. Accordingly, the Security Trustee may not have the ability to foreclose upon those assets and the value of the Note Collateral may significantly decrease. The Trustee is not obliged to take any action to enforce the security interests or foreclose on any assets unless directed to do so by the applicable percentage of holders of the Notes in accordance with the Indenture and indemnified and/or secured to its satisfaction.

The perfection of the security interests created pursuant to pledge agreements does not prevent any third party creditor from seeking attachment or execution against the assets, which are subject to the security interests created under the pledge agreements, to satisfy their unpaid claims against the pledgor. Such creditor may seek the forced sale of the assets of the pledgors through court proceedings, although the beneficiaries of the pledges will in principle remain entitled to priority over the proceeds of such sale (subject to preferred rights by operation of law).

In addition, although Telenet International Finance has agreed pursuant to the Telenet Service Agreement to reimburse the Issuer for certain ongoing obligations of the Issuer, including in respect of the payment of Additional Amounts pursuant to the Indenture following certain tax events and the payment of additional interest required to be paid under the Notes on overdue principal and interest, such reimbursement obligations are limited so that the maximum amount owed at any one time does not exceed the greater of €10 million and the unused portion at that time of the basket described in paragraph (ff) of the definition of Permitted Financial Indebtedness in the Senior Credit Facility (or any corresponding basket following the implementation of the Senior Credit Facility Amendments). As a result, the amount that Telenet International Finance is obligated to pay to the Issuer in respect of such additional amounts or default interest may not be sufficient to enable the Issuer to pay the corresponding amounts due under the Notes and the Indenture. Any failure by the Issuer to pay such additional amounts or default interest will constitute a default under the Indenture.

Furthermore, on the Issue Date, the Issuer, the Trustee and the Security Trustee entered into the Collateral Sharing Agreement governing the relative rights of creditors under the Notes and Additional Debt of the Issuer that benefit from the shared Note Collateral on a *pari passu* basis. The Collateral Sharing Agreement sets out, among other things, the relevant ranking of certain debt of the Issuer, the consent level of the senior creditors required to cast votes and exercise their rights in respect of consents, instructions and remedies under the Indenture, the Notes, the Notes Security Documents (as defined under “*Description of the Notes*”) and the other debt instruments or agreements sharing in the Note Collateral, in each case, when enforcement action can be taken in respect of the Note Collateral by the Security Trustee and the turnover provisions. The Collateral Sharing Agreement provides that the security interests in the Note Collateral may be enforced only upon an acceleration of the amounts due under the Notes following an Event of Default (as defined under “*Description of the Notes*”) under the Indenture, subject to and in accordance with the terms of the Collateral Sharing Agreement. Neither the Trustee nor the

holders of the Notes may, individually or collectively, take any direct action to enforce any rights in their favor under the Notes Security Documents. The Trustee and the holders of the Notes may only take action to enforce the Notes Security Documents through the Security Trustee and the Collateral Sharing Agreement. In addition, pursuant to the Collateral Sharing Agreement, the ability of the Security Trustee to enforce the security interests in the Note Collateral will be restricted and will be at the discretion of the relevant creditors. Consequently, the ability of holders of the Notes to recover under the Note Collateral will be subject to the terms of the Collateral Sharing Agreement and may be limited.

The value of the Note Collateral securing the Notes may not be sufficient to satisfy the Issuer's obligations under the Notes and such Notes Collateral may be released, reduced or diluted under certain circumstances.

The Notes will be secured by (i) all of the Issuer's rights to and benefit in the Finco Loans (including all rights of the Issuer as a Telenet Lender under the Finance Documents (as defined in the Senior Credit Facility) (including the 2017 Finco Accession Agreements and any other Finco Accession Agreements) in respect of which the Issuer has any right, title, benefit and/or interest and the Intercreditor Agreement); (ii) all of the Issuer's rights, title and interests in the Related Agreements and any other Telenet Fee Letters; and (iii) all of the Issuer's rights, title and interests in its bank accounts, including the Issuer's Accounts. The Notes will share in the Note Collateral on a *pari passu* basis with the Issuer's Additional Debt, subject to the terms of the Collateral Sharing Agreement.

In the event of foreclosure on the Note Collateral, the proceeds from the sale of the Note Collateral may not be sufficient to satisfy the Issuer's obligations under the Notes. The value of the Note Collateral and the amount to be received upon a sale of such Note Collateral will depend upon many factors, including, among others, the ability to sell such Note Collateral in a sale in the ordinary course and the availability of buyers. In addition, the relevant Note Collateral may be illiquid and may have no readily ascertainable market value.

The security interest in the collateral securing the 2017 Finco Loans are not granted directly to the holders of the Notes.

The appointment of a foreign security agent will be recognized under Luxembourg law, (i) to the extent that the designation is valid under the law governing such appointment and (ii) subject to possible restrictions depending on the type of the security interests. Generally, according to paragraph 2(4) of the Luxembourg Collateral Act 2005, a security (financial collateral) may be provided in favor of a person acting on behalf of the collateral taker, a fiduciary or a trustee in order to secure the claims of third party beneficiaries, whether present or future, provided that these third party beneficiaries are determined or may be determined. Without prejudice to their obligations vis-à-vis third party beneficiaries of the security, persons acting on behalf of beneficiaries of the security, the fiduciary or the trustee benefit from the same rights as those of the direct beneficiaries of the security aimed at by such law.

The security interests in the collateral securing the 2017 Finco Loans are not granted directly to holders of the Notes. Instead, they are granted in favor of the security agent in respect of the Senior Credit Facility for the benefit of the lenders under the Senior Credit Facility, including the Issuer under the 2017 Finco Loans, and the Issuer's interest in the 2017 Finco Loans in turn serves as collateral for the obligations of the Issuer under the Notes.

As a result, upon the occurrence of an event of default under the Notes, the Trustee on behalf of the holders of the Notes will not have the right to enforce the collateral for the 2017 Finco Loans directly but, instead, would only have the right, through the Security Trustee (and subject to the terms of the Collateral Sharing Agreement), to enforce the security interest in the Issuer's interest in the 2017 Finco Loans (subject always to the Trustee and/or the Security Trustee, as applicable, being directed by the holders of the Notes and indemnified and/or secured to its satisfaction against any liabilities it may incur, and subject further to such enforcement being instructed in accordance with the terms of the Collateral Sharing Agreement, which provides that the holders and/or the lenders, as applicable, of the majority in the aggregate principal amount of all Notes (including any Additional Notes) and Additional Debt outstanding which share the benefit of the Note Collateral, will control any enforcement actions in respect of the Note Collateral, including the 2017 Finco Loans). In addition, subject to the terms of the Intercreditor Agreement, the security agent under the Senior Credit Facility is only obliged to take enforcement action where it is directed by the requisite amount of creditors under the Senior Credit Facility. This indirect claim over the collateral could delay or make more costly any realization of such collateral.

There are circumstances other than repayment or discharge of the Notes under which the security in the Note Collateral will be released, without your consent.

The security for the benefit of the Notes in the Note Collateral may be released under various circumstances, including following an Event of Default (as defined in the “Description of the Notes”) under the Indenture or a default under other Additional Debt of the Issuer secured by the Note Collateral, pursuant to the terms of the Collateral Sharing Agreement, acting at the direction of the relevant instructing group thereunder. The Indenture also permits amendments to any Notes Security Documents or the provisions of the Indenture dealing with Notes Security Documents, which are, taken as a whole, materially adverse to the holders of the Notes or otherwise release the Note Collateral with the consent of at least 75% of the aggregate principal amount of the Notes. In addition, in connection with any Additional Debt of the Issuer that can be incurred and secured over the same Note Collateral, the security may be released and retaken which may lead to renewed hardening periods in various jurisdictions and may limit your recovery in an enforcement proceeding.

Creditors under the Senior Credit Facility are entitled to be repaid with the proceeds of the collateral sold in any enforcement sale on a pari passu basis with the 2017 Finco Loans, and the value of the collateral may not be sufficient to satisfy the obligations of Telenet International Finance under the 2017 Finco Loans.

The security granted in favor of the 2017 Finco Loans also secures all other indebtedness existing under the Senior Credit Facility as a whole on a pari passu basis. In the event of a foreclosure on the liens securing the 2017 Finco Loans, any proceeds received by the security agent in respect of the Senior Credit Facility, as a whole, from the sale of the collateral would be distributed to repay on a pari passu basis all of the creditors under the Senior Credit Facility.

No appraisals of any collateral securing the Senior Credit Facility have been prepared in connection with this offering. The value of such collateral at any time will depend on market and other economic conditions, including the availability of suitable buyers, the jurisdiction in which the enforcement action or sale is completed and the ability to readily liquidate the collateral. Each of these factors or any challenge to the validity of any arrangements governing creditors’ rights under the Senior Credit Facility could reduce the proceeds realized upon enforcement of the collateral. Consequently, there can be no assurance that the proceeds from the sale of the collateral will be sufficient to satisfy the obligations of Telenet International Finance under the 2017 Finco Loans. In addition, there can be no assurance that the collateral could be sold in a timely manner, if at all.

The Issuer’s ability to enforce its rights under the Senior Credit Facility (including the right to accelerate payments under the 2017 Finco Loans on the occurrence of an event of default under the Senior Credit Facility) is limited.

The occurrence of an event of default under the Senior Credit Facility will not automatically result in the Notes becoming due and payable. Only the Telenet Facility Agent may take enforcement steps upon the occurrence of such an event of default. The Telenet Facility Agent may, and must if so instructed by the Majority Lenders under and as defined in the Senior Credit Facility accelerate amounts due under the Senior Credit Facility (including under the 2017 Finco Loans) following the occurrence of such an event of default. The Issuer’s share in outstanding loans and undrawn commitments under the Senior Credit Facility is likely to contribute significantly less than the threshold required for such Majority Lender definition, which is generally two thirds of the aggregate of all outstanding loans and undrawn commitments under the Senior Credit Facility, from time to time. Accordingly, there can be no assurance that the Issuer will be able to require an acceleration of its rights under the 2017 Finco Loans following the occurrence of an event of default under the Senior Credit Facility.

The guarantees of the obligations under the Senior Credit Facility (including the 2017 Finco Loans) may be limited by applicable laws or subject to certain limitations or defences that may adversely affect their validity and enforceability.

As at the date of the Offering Memorandum, Telenet BVBA, Telenet Group BVBA, Telenet International Finance and Telenet Financing USD are the only guarantors of the obligations of the Obligors (as defined in the Senior Credit Facility) under the Senior Credit Facility. In addition, the Senior Credit Facility requires that additional members of the Telenet Group become guarantors under the Senior Credit Facility under certain circumstances. Such guarantees are, or will be, subject to certain specified guarantee limitations and defenses, including, but not limited to, the exclusion of liability to the extent that such guarantee would constitute unlawful financial assistance under applicable law. If one or more of these laws and defenses are applicable, such guarantor may have no

liability, or decreased liability, under any guarantee of the Notes or the obligations under the Senior Credit Facility (including the 2017 Finco Loans) may be unenforceable.

Luxembourg law may affect the validity of security granted over certain of our assets.

The enforceability of the Telenet Loan Collateral, the Initial Telenet Fee Letters Collateral and the Telenet Service Agreement Collateral (each as defined in “*Description of the Notes*”) (collectively, the “**Assignment**”) is uncertain in light of Luxembourg insolvency provisions. In particular, while the Luxembourg Collateral Act 2005 recognizes the validity and enforceability of outright transfers of title to “assets” (which are defined as financial instruments and claims, together, the “**Collateral Act 2005 Assets**”) against third parties, administrators, insolvency receivers, liquidators and other similar persons notwithstanding the existence of a reorganization measure liquidation proceedings or the occurrence of any competing claims between creditors, whether located in Luxembourg or not, it is untested and legally questionable whether assets (other than the Collateral Act 2005 Assets) transferred by way of security (as contemplated by the Assignment) would benefit from the provisions of the Luxembourg Collateral Act 2005.

Telenet International Finance may not have the ability to raise the funds necessary to finance required prepayments of the Senior Credit Facility (including prepayment of the 2017 Finco Loans) in the event of a change of control thereunder.

Upon the occurrence of a Change of Control (as defined in the Senior Credit Facility) and if the Majority Lenders thereunder (and as defined therein) so require, Telenet BVBA and/or Telenet International Finance will be required to prepay the Senior Credit Facility (including the 2017 Finco Loans) and to make a payment to the Issuer equal to 1% of the principal amount of the relevant 2017 Finco Loans. The ability of Telenet International Finance to prepay the relevant 2017 Finco Loan upon a Change of Control would be limited by its access to funds at the time of the prepayment and the terms of its other debt agreements, which agreements could restrict or prohibit such a prepayment. Upon a Change of Control and/or illegality, Telenet BVBA and/or Telenet International Finance may be required immediately to repay the outstanding principal, any accrued interest on and any other amounts owed by either of them under one or more of its other bank facilities. The source of funds for these repayments would be their available cash or cash generated from other sources. However, there can be no assurance that Telenet BVBA and Telenet International Finance will have sufficient funds available upon a Change of Control and/or illegality to make these repayments. If Telenet BVBA and Telenet International Finance are not able to make the required prepayment of the Senior Credit Facility (including the 2017 Finco Loans), the Issuer will not be able to redeem the Notes.

Under certain circumstances, following a tender offer or offer to purchase the Notes, the Issuer may, at its option, redeem the Notes of non-tendering holders.

If, pursuant to any tender offer or other offer to purchase all of the Notes, holders of not less than 90% of the aggregate principal amount of the then outstanding Notes validly tender and do not withdraw such Notes, the Indenture permits the Issuer, at its option, to redeem the remaining outstanding Notes at a price equivalent to that paid pursuant to such purchase or tender offer. As a consequence, you may be required to surrender the Notes against your will at a price equivalent to that paid to tendering holders, including if such price is below par, and may not receive the return you expect to receive on the Notes. See “*Description of the Notes—Optional Redemption upon Certain Tender Offers*”.

Holders of the Notes have limited recourse to the Issuer, as payments under the Notes are limited to the amount of certain payments received by the Issuer under the Senior Credit Facility and the Related Agreements.

The obligations of the Issuer under the Indenture, the Notes, the Notes Security Documents (as defined under “*Description of the Notes*”) and the Collateral Sharing Agreement are limited as set forth in the Indenture. All payments to be made by the Issuer under the Indenture, the Notes and the Notes Security Documents will be made only from and to the extent of such sums received or recovered by or on behalf of the Issuer under the Senior Credit Facility, the Finco Accession Agreements, the Telenet Fee Letters and the Telenet Service Agreement, and other than under the limited circumstances described below under “*Description of the Notes—Events of Default and Remedies*”, none of the Security Trustee, the Paying and Domiciliary Agent, the Registrar or the holders of Notes will have any further recourse to the Issuer in respect thereof in the event that the amount due and payable by the Issuer under the Indenture, the Notes, the Notes Security Documents and the Collateral Sharing Agreement exceeds the amounts so received under the Senior Credit Facility, the Finco Accession Agreements, the Telenet Fee Letters and the Telenet Service Agreement.

The Trustee and the holders of the Notes are not permitted to take any action, commence any proceeding or petition a court for the liquidation of the Issuer, nor are they permitted to enter into any arrangement, reorganization or insolvency proceeding in relation to the Issuer, whether under the laws of Luxembourg or other applicable bankruptcy laws. The obligations of the Issuer are solely obligations of the Issuer, and the Trustee and the holders of the Notes do not have any recourse against any of the directors, officers or employees of the Issuer for any claims, losses, damages, liabilities, indemnities or other obligations whatsoever in connection with any transactions contemplated by the Indenture, the Notes Security Documents, the Collateral Sharing Agreement and the related documents. Having realized the collateral securing the Notes and distributed the net proceeds thereof, in each case in accordance with the Indenture and the Collateral Sharing Agreement, none of the Security Trustee, the Paying and Domiciliary Agent, the Registrar and the holders of the Notes may take any further steps to recover any sum still unpaid in respect of the Notes, the Indenture, any of the Notes Security Documents or the Collateral Sharing Agreement or otherwise and all claims against the Issuer in respect of any such sum due but still unpaid shall be extinguished.

Holders of the Notes have limited direct recourse to Telenet International Finance.

Except for the specific interests of the Issuer as a Telenet Lender under the Senior Credit Facility or as otherwise expressly provided in the terms of the Indenture, no proprietary or other direct interest in the Issuer's rights under or in respect of the Senior Credit Facility exists for the benefit of the holders of the Notes. Further, subject to the terms of the Indenture, no holder of Notes can enforce any provision of the Senior Credit Facility or have direct recourse to Telenet International Finance as borrower, or any member of the Telenet Group except through an action by the Issuer, itself acting as directed by the Trustee pursuant to the rights granted to the Trustee and/or the Security Trustee under and in accordance with the Indenture, the Notes Security Documents and the Collateral Sharing Agreement. Under the Indenture, the Trustee shall not be required to take proceedings to enforce payment under the Senior Credit Facility unless it has been indemnified or secured by the holders of the Notes to its satisfaction and subject further to such enforcement being instructed in accordance with the terms of the Collateral Sharing Agreement, which provides that the holders and/or the lenders, as applicable, of the majority in the aggregate principal amount of all Notes (including any Additional Notes) and Additional Debt outstanding which share the benefit of the Note Collateral, will control any enforcement actions in respect of the Note Collateral. In addition, none of the Issuer, the Trustee or the Security Trustee is required to monitor Telenet International Finance's or any member of the Telenet Group's, financial performance.

United States securities laws restrict the circumstances under which you can transfer the Notes.

The Issuer offered the Notes in reliance upon exemptions from registration under the U.S. Securities Act and applicable state securities laws. Therefore, the Notes may be transferred or resold only in transactions registered under, exempt from or not subject to the registration requirements of the U.S. Securities Act and all applicable state securities laws. In addition, transfer restrictions with respect to the Notes which relate to exceptions provided for under the U.S. Investment Company Act of 1940, as amended, prohibit transfer except as provided by the transfer restrictions under "Plan of Distribution" and "Transfer Restrictions". You should read the discussions under "Plan of Distribution" and "Transfer Restrictions" for further information about these and other transfer restrictions. It is your obligation to ensure that your offers and sales of Notes comply with applicable law.

There may not be an active trading market for the Notes, in which case your ability to sell the Notes will be limited.

The Notes are new securities for which there was no existing market on the Issue Date. The Issuer cannot assure you as to:

- the liquidity of any market in for the Notes;
- your ability to sell your Notes; or
- the prices at which you would be able to sell your Notes.

Future trading prices of the Notes will depend on many factors, including, among other things, prevailing interest rates, Telenet's operating results and the market for similar securities. Historically, the market for non-investment grade securities has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the Notes. The liquidity of a trading market for the Notes may be adversely affected by a general decline in the market for similar securities and is subject to disruptions that may cause volatility in prices. It is possible

that the market for the Notes will be subject to disruptions. Any such disruption may have a negative effect on you, as a holder of the Notes, regardless of Telenet Group Holding's prospects and financial performance. The Initial Purchasers of the Notes have advised the Issuer that they intend to make a market in the Notes. However, the Initial Purchasers are not obliged to do so, and they may discontinue any market making activities at any time without notice. As a result, there is no assurance that an active trading market will develop for the Notes. If no active trading market develops, you may not be able to resell your Notes at a fair value, if at all.

Although the Issuer agreed to use all reasonable efforts to have the Notes listed on the Official List and admitted to trading on the Euro MTF Market within a reasonable period after the issue date of the Notes and to maintain such listing as long as the Notes are outstanding, the Issuer cannot assure you that the Notes will remain listed. If the Issuer can no longer maintain the listing on the Luxembourg Stock Exchange or it becomes unduly burdensome to make or maintain such listing (for the avoidance of doubt, preparation of financial statements in accordance with EU-IFRS or any other accounting standard other than or any other accounting standard other than the accounting standard pursuant to which the Issuer prepares its financial statements shall be deemed unduly burdensome), the Issuer may cease to make or maintain such listing on the Luxembourg Stock Exchange, provided that the Issuer will use all reasonable efforts to obtain and maintain the listing of the Notes on another stock exchange (which may be a stock exchange that is not regulated by the European Union), although there can be no assurance that the Issuer will be able to do so. Notwithstanding anything herein to the contrary, the Issuer may cease to make or maintain a listing (whether on the Luxembourg Stock Exchange or on another recognized listing exchange for high yield issuers) if such listing is not required for the Issuer to benefit from an exemption on withholding tax on interest payments on the Notes or to otherwise prevent tax from being withheld from interest payments on the Notes.

Although no assurance is made as to the liquidity of the Notes as a result of listing on the Luxembourg Stock Exchange or another recognized listing exchange for high yield issuers in accordance with the Indenture, failure to be approved for listing or the delisting of the Notes from the Luxembourg Stock Exchange or another listing exchange in accordance with the Indenture may have a material adverse effect on a holder's ability to resell Notes in the secondary market.

Credit ratings may not reflect all risks.

Telenet currently maintains ratings with Fitch Ratings Inc., Moody's Investors Service, Inc. and Standard & Poor's Ratings Group. Any credit ratings assigned to the Notes are an assessment by the relevant rating agencies of the Issuer's ability to pay its debts when due, which is, in respect of payment obligations under the Notes, dependent upon the ability of the obligors under the Senior Credit Facility to pay their debts when due. Consequently, real or anticipated changes in Telenet's or the Notes' credit ratings may generally affect the market value of the Notes. Ratings may not reflect the potential impact of all risks relating to structure, market, additional factors discussed in these Listing Particulars, and other factors may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. An explanation of the significance of such rating may be obtained from the applicable rating agency. There is no assurance that such credit ratings will be issued or remain in effect for any given period of time or that such ratings will not be lowered, suspended or withdrawn entirely by the rating agencies, if, in the applicable rating agency's judgment, circumstances so warrant. It is also possible that such ratings may be lowered in connection with the application of the proceeds of this offering or in connection with future events, such as future acquisitions. Holders of Notes will have no recourse against Telenet or any other parties in the event of a change in or suspension or withdrawal of such ratings. Any lowering, suspension or withdrawal of such ratings may have an adverse effect on the market price or marketability of the Notes.

Volcker Rule

Section 13 of the U.S. Bank Holding Company Act of 1956, as amended, together with the rules, regulations and published guidance promulgated thereunder (known as the "**Volcker Rule**") prevents "banking entities" (a term which includes affiliates of a U.S. banking organization as well as affiliates of a foreign banking organization that has a branch or agency in the U.S., regardless where such affiliates are located) from (i) engaging in "proprietary trading", or (ii) acquiring or retaining any "ownership interest" in, or in sponsoring, a "covered fund", in each case subject to certain exclusions or exemptions.

A "covered fund" includes any issuer which would be an investment company under the Investment Company Act but is exempt from registration solely in reliance on Section 3(c)(1) or 3(c)(7) of that Act. Because the Issuer will rely on Section 3(c)(7), it will be a covered fund within the meaning of the Volcker Rule, unless it fits within

an exclusion or exemption provided in the Volcker Rule. As a covered fund, if the Issuer cannot rely on an exclusion or exemption, there would be limitations on the ability of banking entities to purchase or retain any Notes deemed to be “ownership interests”.

“Ownership interest” is defined under the Volcker Rule as “any equity, partnership, or other similar interest.” The Notes are not equity or partnership interests. The phrase “other similar interests” is defined under the Volcker Rule as an interest that:

- (A) Has the right to participate in the selection or removal of a general partner, managing member, member of the board of directors or trustees, investment manager, investment advisor, or commodity trading advisor of the covered fund (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);
- (B) Has the right under the terms of the interest to receive a share of the income, gains or profits of the covered fund;
- (C) Has the right to receive the underlying assets of the covered fund after all other interests have been redeemed and/or paid in full (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);
- (D) Has the right to receive all or a portion of excess spread (the positive difference, if any, between the aggregate interest payments received from the underlying assets of the covered fund and the aggregate interest paid to the holders of other outstanding interests);
- (E) Provides under the terms of the interest that the amounts payable by the covered fund with respect to the interest could be reduced based on losses arising from the underlying assets of the covered fund, such as allocation of losses, write-downs or charge-offs of the outstanding principal balance, or reductions in the amount of interest due and payable on the interest;
- (F) Receives income on a pass-through basis from the covered fund, or has a rate of return that is determined by reference to the performance of the underlying assets of the covered fund; or
- (G) Any synthetic right to have, receive, or be allocated any of the rights in Clauses (A) through (F) above.

On the Issue Date, pursuant to and in accordance with the Indenture, the Trustee was appointed to act as a creditor representative of the holders of the Notes and the Security Trustee was appointed to act as security trustee for the creditors (including the holders of the Notes) that benefit from the Note Collateral (the “**CSA Secured Parties**”). Subject to and in accordance with the terms of the Indenture and the Collateral Sharing Agreement, prior to the occurrence of a CSA Enforcement Event (as defined in the “*Description of the Notes*”) (following the occurrence of an Event of Default (as defined in the “*Description of the Notes*”) which is continuing and the acceleration of the Notes pursuant to the terms of the Indenture), the Issuer may continue to exercise its rights under the Note Documents (including with respect to its assets comprising the Note Collateral), and the provisions of the Indenture and the other Note Documents do not otherwise afford any holder of the Notes with the right to (i) take any corporate action or other steps or legal proceedings for the winding-up, dissolution or reorganisation or for the appointment of a receiver, administrator, administrative receiver, trustee, liquidator, sequestrator, examiner or similar officer of the Issuer or of its revenues and assets; or (ii) take any steps for the purpose of obtaining payments of amounts payable to it under the Notes or any Note Documents, or to take any steps to recover any debts whatsoever owing to it by the Issuer. See “*Description of the Notes*” included elsewhere in these Listing Particulars. These rights of the holders of the Notes to enforce the rights and remedies granted for the benefit of the holders of the Notes under the Note Documents are the types of rights that are excluded from the rights that are included in the definition of “other similar interests”.

The holders of the Notes have no rights under the Note Documents to participate in the selection or removal of any of the types of partners, members or managers of the Issuer described in Clause (A) above. The Issuer is a wholly-owned subsidiary of Telenet International Finance. The members of the board of managers of the Issuer are as set out in “*Listing and General Information—Legal Information Regarding the Issuer—Management*” included elsewhere in these Listing Particulars. The holders of the Notes have no rights to participate in the selection or removal of the Issuer’s board of managers.

The holders of the Notes have no rights under the Note Documents to receive a share of the income, gains or profits of the Issuer as described in Clause (B) above, and have no rights to receive the underlying assets of the Issuer after all other interests have been redeemed and/or paid in full (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event) as described in Clause (C) above. The Issuer is a financing company which, so long as any of the Notes are outstanding, are subject to the restrictions set out in the Indenture and the other Note Documents. The Notes are subject to the Limited Recourse Restrictions (as further described in the “*Description of the Notes*” included elsewhere in these Listing Particulars). The only assets of the Issuer available to meet claims of the holders of the Notes and the other CSA Secured Parties are the assets comprising the Note Collateral, which (as described above) cannot be enforced prior to a CSA Enforcement Event in accordance with the Collateral Sharing Agreement.

The holders of the Notes have no rights to receive any excess spread (the positive difference, if any, between the aggregate interest payments received from the underlying assets of Issuer and the aggregate interest paid to the holders of the Notes) as described in Clause (D) above.

On the Issue Date, the Issuer issued the Dollar Notes and the Euro Notes, each series of which bear interest at a fixed rate per annum as further described elsewhere in these Listing Particulars. While the Issuer, as a financing company, is wholly dependent on the payments it will receive in respect of the 2017 Finco Loans, the 2017 Finco Accession Agreements, the Initial Telenet Service Agreement, and the 2017 Telenet Fee Letters, and a failure by the Initial Telenet Borrower (or Telenet Group BVBA, as guarantor of the Initial Telenet Borrower’s obligations thereunder) to provide such funding may, in practice, negatively impact the ability of the Issuer to meet its obligations under the Note Documents (including the Notes), (subject to the Limited Recourse Restrictions) there are no contractual terms of the Notes under the Indenture or the other Note Documents which provide that the amounts payable by the Issuer (whether as principal or interest) with respect to the Notes will be reduced based on losses arising from the underlying assets of the Issuer as described in Clause (E) above. Furthermore, as each series of the Notes bear interest at a fixed rate, the rate of interest on the Notes is not determined by reference to the performance of the underlying assets of the Issuer as described in Clause (F) above. In addition, the Issuer expects that the holders of the Notes will not receive income on a pass-through basis from the Issuer as described in Clause (F) above, as the Issuer expects that the holders of the Notes will hold the Notes as debt and not as equity for U.S. federal income tax purposes. See “*Risk Factors—Risks Relating to the Notes and the Structure—The Issuer is a financing company which will depend on payments under the 2017 Finco Loans to provide it with funds to meet its obligations under the Notes*” and the “*Description of the Notes*” included elsewhere in these Listing Particulars. The Issuer is not entitled to make any modifications to the terms of the Notes which would have the effect of reducing the principal amount of the Notes or reducing the stated rate of or extend the stated time for payment of interest on the Notes, without the consent of holders of at least 90% of the aggregate principal amount of the then outstanding Notes or the relevant series of Notes, as applicable, in accordance with the terms of the Indenture. See “*Description of the Notes*” included elsewhere in these Listing Particulars.

The Indenture relating to Notes, and the other Note Documents, do not confer upon the holders of the Notes any synthetic rights to have, receive or be allocated any of the rights in Clauses (A) through (F) above.

None of the Issuer, Telenet Group Holding NV, Telenet Group BVBA, Telenet International Finance S.a`r.l., the Initial Purchasers, the Trustee, or the Security Trustee nor any of their affiliates makes any representation regarding whether the Notes are “ownership interests” in a “covered fund” for purposes of the Volcker Rule. Each investor in the Notes must make its own determination as to whether it is subject to the Volcker Rule, whether its investment in the Notes would be restricted or prohibited under the Volcker Rule, and the potential impact of the Volcker Rule on its investment, any liquidity in connection therewith and on its portfolio generally. See “*Transfer Restrictions*” in these Listing Particulars.

The Volcker Rule and any similar measures introduced in another relevant jurisdiction may impact on the price and liquidity of the Notes in the secondary market or restrict prospective investors’ ability to hold the Notes. Each purchaser is responsible for analyzing its own position under the Volcker Rule and any similar measures.

Luxembourg insolvency laws may not be as favorable as insolvency laws in other jurisdictions.

The insolvency laws of Luxembourg may not be as favorable to holders of Notes as insolvency laws of jurisdictions with which investors may be familiar. The Issuer is incorporated and has its center of main interests (*centre des intérêts principaux*) in Luxembourg for the purposes of the Regulation (EU) 2015/848 of the European Council and Parliament of May 20, 2015 on insolvency proceedings (recast) (the “**EU Insolvency Regulation**”) in Luxembourg. Accordingly, insolvency proceedings with respect to the Issuer would be governed by,

Luxembourg insolvency laws. The following is a brief description of certain aspects of insolvency laws in Luxembourg. Under Luxembourg insolvency laws, the following types of proceedings (together referred to as insolvency proceedings) may be opened against the Issuer to the extent that the Issuer has its registered office or center of main interests (*centre des intérêts principaux*) (for the purposes of the EU Insolvency Regulation) in Luxembourg:

- bankruptcy proceedings (*faillite*), the opening of which may be requested by the Issuer, by any of its creditors or by the Luxembourg public prosecutor. Following such a request, the courts having jurisdiction may open bankruptcy proceedings, if the Issuer (a) is in default of payment (*cessation de paiements*) and (b) has lost its commercial creditworthiness (*ébranlement de crédit*). If a court considers that these conditions are met, it may open bankruptcy proceedings, absent a request made by the Issuer or a creditor. The main effect of such proceedings is the suspension of all measures of enforcement against the Issuer, except, subject to certain limited exceptions, for secured creditors, and the payment of creditors in accordance with their rank upon the realization of assets;
- controlled management proceedings (*gestion contrôlée*), the opening of which may only be requested by the Issuer and not by its creditors; and
- composition proceedings (*concordat préventif de la faillite*), the opening of which may only be requested by the Issuer (having received prior consent of a majority of its creditors) and not by its creditors. The court's decision to admit a company to the composition proceedings triggers a provisional stay on enforcement of claims by unsecured creditors.

In addition to these proceedings, the ability of the holders of Notes to receive payment on the Notes may be affected by a decision of a court to grant a reprieve from payments (*sursis de paiements*) or to put the Issuer into judicial liquidation (*liquidation judiciaire*). Judicial liquidation proceedings may be opened at the request of the public prosecutor against companies pursuing an activity violating criminal laws or that are in serious violation of the commercial code or of the Law on Commercial Companies. The management of such liquidation proceedings will generally follow similar rules as those applicable to bankruptcy proceedings.

The Issuer's liabilities in respect of the Notes will, in the event of a liquidation of the Issuer following bankruptcy or judicial liquidation proceedings, rank after the cost of liquidation (including any debt incurred for the purpose of such liquidation) and those of the concerned Issuer's debts that are entitled to priority under Luxembourg law. Preferential debts under Luxembourg law for instance include, among others:

- certain amounts owed to the Luxembourg Revenue;
- value-added tax and other taxes and duties owed to the Luxembourg Customs and Excise;
- social security contributions; and
- remuneration owed to employees.

Assets over which a security interest has been granted will in principle not be available for distribution to unsecured creditors (except after enforcement and to the extent a surplus is realized).

During insolvency proceedings, all enforcement measures by unsecured creditors are suspended. The ability of secured creditors (save as provided for by the Luxembourg Collateral Act 2005) to enforce their security interest may also be limited in the event of controlled management proceedings automatically causing the rights of secured creditors to be frozen until a final decision has been taken by the court as to the petition for controlled management, and may be affected thereafter by a reorganization order given by the court. A reorganization order requires the prior approval by more than 50% of the creditors representing, via their claims which have not been challenged by the competent administrator, at least 50% of the Issuer's liabilities in order to take effect.

The Luxembourg Collateral Act 2005 expressly provides that all financial collateral arrangements (including pledges) including enforcement measures are valid and enforceable even if entered into during the pre-bankruptcy period, against all third parties including supervisors, receivers, liquidators and any other similar persons or bodies irrespective of any bankruptcy, liquidation or other situation, national or foreign, of composition with creditors or reorganization affecting anyone of the parties, save in the case of fraud.

Generally, Luxembourg insolvency laws may also affect transactions entered into or payments made by the Issuer during the pre-bankruptcy hardening period (*periode suspecte*) which is a maximum of six months and ten days preceding the judgment declaring bankruptcy, except that in certain specific situations the court may set the start of the suspect period at an earlier date. In particular:

- pursuant to article 445 of the Luxembourg code of commerce, some specific transactions (in particular, the granting of a security interest for antecedent debts, save in respect of financial collateral arrangements within the meaning of the Luxembourg Collateral Act 2005; the payment of debts which have not fallen due, whether payment is made in cash or by an assignment, sale, set-off or by any other means; the payment of debts which have fallen due by any means other than in cash or by bill of exchange; the sale of assets without consideration or with substantially inadequate consideration) entered into during the suspect period (or the ten days preceding it) must be set aside or declared null and void, if so requested by the insolvency receiver;
- pursuant to article 446 of the Luxembourg code of commerce payments made for matured debts as well as other transactions concluded for consideration during the suspect period are subject to cancellation by the court upon proceedings instituted by the insolvency receiver if they were concluded with the knowledge of the bankrupt's cessation of payments;
- pursuant to article 21 (2) of the Luxembourg Collateral Act 2005 concerning financial collateral arrangements, notwithstanding the suspect period as referred to in articles 445 and 446 of the Luxembourg code of commerce, where a financial collateral arrangement has been entered into on the date of the commencement of a reorganization measure or winding-up proceedings, but after the opening of liquidation proceedings or the coming into force of reorganization measures or the entry into force of such measures, that agreement is enforceable and binding against third parties, administrators, insolvency receivers, liquidators and other similar organs if the collateral taker proves that it ignored the fact that such proceedings had been opened or that such measures had been taken or that it could not reasonably be aware of it; and
- pursuant to article 448 of the Luxembourg code of commerce and article 1167 of the civil code (*action paulienne*) gives the insolvency receiver (acting on behalf of the creditors) has the right to challenge any fraudulent payments and transactions, including the granting of security with an intent to defraud, made prior to the bankruptcy, without any time limit.

In principle, a bankruptcy order rendered by a Luxembourg court does not result in automatic termination of contracts except for *intuitu personae* contracts, that is, contracts for which the identity of the company or its solvency were crucial. The contracts, therefore, subsist after the bankruptcy order. However, the insolvency receiver may choose to terminate certain contracts. As of the date of adjudication of bankruptcy, no interest on any unsecured claim will accrue vis-à-vis the bankruptcy estate. The bankruptcy order provides for a period of time during which creditors must file their claims with the clerk's office of the Luxembourg district court sitting in commercial matters. After having converted all available assets of the company into cash and after having determined all the company's liabilities, the insolvency receiver will distribute the proceeds of the sale, on a pro rata basis, to the creditors after deduction of the receiver fees and the bankruptcy administration costs.

If an Initial Telenet Borrower decides to implement the Belgian Issuer Accession while the Notes are still outstanding, the Belgian Issuer will succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Notes, the Indenture, the 2017 Finco Loans, the Related Agreements, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement, and upon such substitution, the Issuer will be released from its obligations under the Notes, the Indenture, the 2017 Finco Loans, the Related Agreements, the other Finance Documents (as defined in the Senior Credit Facility) and the Clearing Agreement. In addition, following the Belgian Issuer Accession, an Initial Telenet Borrower may elect to implement the Finco Loans Borrower Exchange, pursuant to which the 2017 Finco Loans would be refinanced or otherwise replaced, subject to certain procedures set forth therein being complied with, the New Finco Loans under the Senior Credit Facility, with the Belgian Borrower as a borrower thereunder. Furthermore, as the Belgian Issuer and the Belgian Borrower will be incorporated and will have their center of main interests in Belgium, insolvency proceedings with respect to the Belgian Issuer and the Belgian Borrower would be governed by Belgian insolvency laws. See “—The various insolvency and administrative laws to which Telenet is subject may not be favorable to creditors, including the Issuer as lender under the 2017 Finco Loans, and may limit the Issuer's ability to enforce its rights under the 2017 Finco Loans and, as a result, the ability of holders of Notes to enforce their rights under the Notes”

for a summary description of Belgian insolvency laws, subject to changes in the Belgian insolvency laws at the time of the Belgian Issuer Accession and the Finco Loans Borrower Exchange, as the case may be.

The various insolvency and administrative laws to which Telenet is subject may not be favorable to creditors, including the Issuer as lender under the 2017 Finco Loans, and may limit the Issuer's ability to enforce its rights under the 2017 Finco Loans and, as a result, the ability of holders of the Notes to enforce their rights under the Notes.

Each member of the Telenet Group (except for Telenet International Finance, Telenet Financing USD, Telenet Solutions Luxembourg S.A., Telenet Luxembourg Finance Center S.à r.l., Finance Center Telenet S.à r.l., Coditel S.à r.l. and Ulana Business Management Ltd.) is organized under the laws of Belgium and has its center of main interests within the meaning of the EU Insolvency Regulation in Belgium. Should the Belgian Issuer Accession and/or the Finco Loans Borrower Exchange come into force, the same would apply to the SPV Issuer and/or the Belgian Borrower.

Consequently, in the event of a bankruptcy or insolvency event with respect to any of the companies referred to above (each a “**Telenet Belgian Company**”), main insolvency proceedings would likely be initiated in Belgium while secondary proceedings could be initiated in one or more EU jurisdictions (with the exception of Denmark) in which the Telenet Belgian Companies then have an establishment. While, currently, none of the Telenet Belgian Companies has an establishment in any EU jurisdiction other than Belgium, such multi-jurisdictional proceedings would likely be complex and costly for creditors and otherwise may result in greater uncertainty and delay regarding enforcement of your rights.

Belgian insolvency laws may make it difficult or impossible to effect a restructuring. There are two primary insolvency regimes under Belgian law: the first, judicial reorganization (*gerechtelijke reorganisatie/reorganisation judiciaire*), is intended to facilitate the reorganization of a debtor's debts and enable the debtor to continue as a going concern. The second, bankruptcy (*faillissement/faillite*), is designed to liquidate and distribute the assets of a debtor to its creditors. The new Belgian insolvency legislation will enter into force on May 1, 2018 (or earlier as may be determined by Royal Decree). The summary descriptions of the judicial reorganization and bankruptcy procedures below apply to both the current legislative framework and the new legislative framework that is scheduled to enter into force on May 1, 2018.

Secured lenders with a first-ranking priority over financial collateral as defined in, and pursuant to the Belgian law of December 15, 2004 on financial collateral (including cash collateral and pledges in respect of shares and other financial instruments (“**Financial Collateral**”)) have the right to foreclose on their security despite the occurrence of a bankruptcy or, subject to certain conditions, judicial reorganization. The law of 26 September 2011 modified the Belgian law on Financial Collateral. Pursuant to this change, enforcement of a pledge on cash receivables is suspended during the period in which the debtor is in judicial reorganization unless a payment default can be invoked by the creditor seeking to enforce the pledge on cash receivables, with some limited exceptions. Enforcement of a pledge of shares remains possible however, even during judicial reorganization.

Judicial Reorganization

The judicial reorganization procedure is a voluntary procedure, for which the debtor, as a rule, can apply if its continuity is threatened, in the short or longer term. Note, however, that, in certain circumstances, the public prosecutor, a creditor or any third party interested in acquiring all or part of the debtor's assets also can apply for judicial reorganization through a court-supervised transfer. The board of the debtor, and its management, remain as a rule in charge of the company while the procedure is ongoing, subject to exceptions notably in the event of clear and gross negligence or bad faith by the management or the board. Upon accepting the debtor's request for judicial reorganization, the court will set the duration of the stay for a period of up to six months, extendable in certain circumstances of up to 18 months. During the stay, as a rule, the debtor cannot be judicially dissolved or declared bankrupt, and, generally, no enforcement measures (e.g., attachment, foreclosure) can be taken (except in certain limited circumstances). Under the new legislation, the stay does not affect the right of any creditor to benefit from any new security interest, including the conversion of any mortgage mandate). Debts, including those preceding the judicial reorganization, may however be paid to creditors on a voluntary basis insofar as the payments are necessary for the continuity of the company. In addition, while the stay affects secured and unsecured creditors alike, there is an exception for secured creditors benefiting from a receivables pledge, or from Financial Collateral, which are, subject to certain conditions, entitled to foreclose during the stay. The stay will not suspend guarantees or security granted by third parties for the debtor. Termination, suspension and acceleration clauses in agreements, such as the Senior Credit Facility, to which the debtor is a party that are

triggered by the fact of the judicial reorganization itself are null and void (with the exception of close-out netting clauses).

If a creditor continues to perform a contract despite the debtor's judicial reorganization, its claims that come to exist as a result thereof in the period following the judicial reorganization (such as, as a rule, interest payments) will not be suspended and will be enforceable. In case of a subsequent bankruptcy, such claims will, subject to certain conditions, have priority over the claims of unsecured creditors (and secured creditors, if the continuation of the contract has contributed to the preservation of the secured assets). Claims for reimbursement of principal would as a rule be suspended by the stay.

The stay can result in: (a) an in-court agreement with two or more creditors; (b) a collective agreement among the creditors on a reorganization plan; or (c) a court-organized auction leading to the transfer of part or all of the assets of the undertaking as a going concern to one or more third parties.

- (a) An in-court agreement requires unanimity among the creditors concerned. The debtor may petition the court to grant a grace period in respect of its payment obligations, e.g., in relation to interest payments, pending the negotiation of the agreement.
- (b) The reorganization plan may provide a broad range of measures, including, without limitation, (i) a rescheduling of debts, (ii) partial or total debt waivers (principal sum and/or interest), (iii) the conversion of debt into equity, and (iv) a differentiated treatment for certain categories of claims (e.g., based on nature or size). The performance period of the plan may extend to five years from the date of court approval. The plan cannot impose any of these measures to secured creditors unless they individually agree. The reorganization plan must be approved by the majority of the creditors participating in the vote (including the secured creditors) and such majority must represent at least half of the outstanding debt in principal sum. The court must also approve the plan, and can only refuse it in limited circumstances. Consequently, these majorities and consent requirements could preclude or inhibit the ability of the holders of the Notes to effect a restructuring of Telenet Group Holding and could reduce the holders' recovery in a Belgian insolvency proceeding. The court-approved reorganization plan is binding for all creditors in the stay. The plan cannot suspend the enforcement rights of secured creditors for a period in excess of 24 months (extendable with 12 months if the debtor can prove that it will be able to fully reimburse the secured creditors) from the initial filing for judicial reorganization (or, under the new legislation that is scheduled to enter into force on May 1, 2018, as from court homologation of the reorganization plan), and the debtor must continue to pay interest on the secured obligations during the period of the reorganization plan. Under the new legislation, creditors benefiting from a security interest will only benefit from their priority right up to the amount for which, on the date of opening of the reorganization procedure, the security interest is registered or, if it is not registered, the amount of the enforcement value of the underlying assets or, if the security interest relates to claims, the book value of those claims.
- (c) A debtor also has the possibility to file for a judicial reorganization with the objective to transfer part or all of the assets (but not its liabilities) to an acquirer, in which case the auction will be organized by a court-appointed expert (*gerechtsmandataris/mandataire de justice*). Under the new legislation, a new regime is introduced providing for the transfer of specific ongoing contracts (other than *intuitu personae* contracts) as selected by the candidate-transferee without the consent of the counterparty. In this case, the proceeds of the sale of the pledged assets will be paid in priority to the relevant secured creditors (under the new legislation this will be limited to the registered secured amount, the amount of the enforcement value or, if the security interest relates to claims, the book value of those claims). The judicial expert leading the auction, however, has no obligations as to minimum sales price, neither does it have to consult an expert to confirm that the sales price is reasonable. The only limitation is that a judicial expert may not take into account offers with a price lower than the expected price that would be obtained in case of a forced sale in the framework of a bankruptcy or a liquidation. Consequently, this procedure could result in the sale of certain assets for less than their going concern value. The assets will (with the exception of such assets that would be situated in an EU member state outside of Belgium in respect of which in rem rights are vested by creditors and other third parties, which is currently not the case for the Telenet Belgian Companies) be transferred free from any existing security, and the liabilities will remain with the debtor. The public prosecutor, a creditor or any third party interested in acquiring all or part of the debtor's business also can apply for a judicial reorganization with the objective of a court-supervised transfer of the debtor's assets if: (i) the conditions for bankruptcy have been fulfilled in relation to the debtor (*i.e.* the debtor has ceased to pay debts and is unable to obtain credit) and the debtor

has not initiated the judicial reorganization procedure itself; (ii) the court has refused to open the judicial reorganization; (iii) the court has ordered the early termination of the judicial reorganization; (iv) the creditors have not approved the reorganization plan; (v) the court has refused to confirm the reorganization plan; or (vi) the court has ordered the early termination of the reorganization plan.

Bankruptcy

A debtor which, on a sustained basis, ceases to make payments and whose credit is impaired, will be deemed to be in a state of bankruptcy. Within one month after the cessation of payments, the debtor must file for bankruptcy. Bankruptcy procedures may also be initiated on the request of unpaid creditors or on the initiative of the public prosecutor. A bankruptcy trustee will be appointed to assume the operation of the business and to organize a sale of the debtor's assets, the distribution of the proceeds thereof to creditors and the liquidation of the debtor.

The assets of a debtor are generally liquidated and the proceeds distributed to the debtor's creditors on a pari passu basis, and certain creditors (such as secured creditors and preferential creditors) will have special rights that may adversely affect the interests of the Issuer as a lender under the Senior Credit Facility.

The grant of collateral security for the Senior Credit Facility, or any payment of debt not yet due, may be held ineffective if entered into or granted within specified hardening periods in advance of a bankruptcy event and/or if this is found to be detrimental to the creditors.

Certain of Telenet's agreements with its suppliers, content providers or others entitle the counterparty to terminate the agreement in case of its bankruptcy. In addition, in case of Telenet's bankruptcy, the emphytheotic leases in respect of the Partner Network under the PICs Agreement may be terminated.

The Issuer is incorporated under and subject to Luxembourg law and the Belgian Issuer would be incorporated under and be subject to Belgian law.

The Issuer is a private limited liability company (*société à responsabilité limitée*) incorporated under the laws of Luxembourg. The rights of holders of Notes and the responsibilities of the Issuer to the holders of the Notes under Luxembourg law may be materially different from those with regard to equivalent instruments under the laws of the jurisdiction in which the Notes are offered. If the Belgian Issuer Accession were to be implemented the rights of holders of the Notes and the responsibilities of the Belgian Issuer to the holders of the Notes under Belgian law may be materially different from those with regard to equivalent instruments under the laws of the jurisdiction in which the Notes are offered. The Belgian Issuer will be incorporated under the laws of Belgium.

Insolvency proceedings may be brought against the Issuer and such proceedings may proceed under, and be governed by, Luxembourg insolvency laws (see "*—Luxembourg insolvency laws may not be as favorable as insolvency laws in other jurisdictions*"). If the Belgian Issuer Accession were to come into force, insolvency proceedings may be brought against the Belgian Issuer and such proceedings may be held in compliance with, and be governed by, Belgian insolvency laws (see "*—The various insolvency and administrative laws to which Telenet is subject may not be favorable to creditors, including the Issuer as lender under the 2017 Finco Loans, and may limit the Issuer's ability to enforce its rights under the 2017 Finco Loans and, as a result, the ability of holders of Notes to enforce their rights under the Notes*" for a description of Belgian insolvency laws at the date hereof (subject to such laws as having been amended at the date of the Belgian Issuer Accession)).

The Notes may be treated as issued with original issue discount for U.S. federal income tax purposes.

The Notes may be treated as having been issued with original issue discount for U.S. federal income tax purposes. An obligation generally is treated as having been issued with original issue discount if its stated redemption price at maturity exceeds its issue price by at least a de minimis amount. If a Note is treated as issued with original issue discount, investors subject to U.S. federal income tax will be subject to tax on that original issue discount as it accrues, in advance of the receipt of cash payments attributable to that income (and in addition to stated interest). See "*Tax Considerations—Certain U.S. Federal Income Tax Considerations*".

Employee benefit plan considerations.

Each acquirer and each transferee of a Note or any interest therein will be deemed to have represented, warranted and agreed at the time of its acquisition and throughout the period that it holds such Note or any interest therein that (i) either (a) it is not, and is not acting on behalf of (and for so long as such acquirer or transferee holds such

Note or any interest therein will not be, and will not be acting on behalf of), a Benefit Plan Investor (as defined under “*Certain Employee Benefit Plan Considerations*”) or a governmental, church or non-U.S. plan which is subject to any Similar Laws (as defined under “*Certain Employee Benefit Plan Considerations*”), and no part of the assets used by it to acquire or hold any Note or any interest therein constitutes the assets of any Benefit Plan Investor or any such governmental, church or non-U.S. plan, or (b)(I) its acquisition, holding and disposition of such Note, or any interest therein, does not and will not constitute or otherwise result in a non-exempt prohibited transaction under Section 406 of ERISA (as defined under “*Certain Employee Benefit Plan Considerations*”) and/or Section 4975 of the Code (or, in the case of a governmental, church or non U.S. plan, a non-exempt violation of any Similar Laws); and (ii) neither the Issuer nor any of its affiliates is a fiduciary (within the meaning of section 3(21) of ERISA or Section 4975 of the Code or, with respect to a governmental, church or non-U.S. plan, any definition of “fiduciary” under Similar Laws) and (II) if it is a plan which is subject to ERISA or Section 4975 of the Code, the decision to purchase the Notes has been made by a duly authorized fiduciary (each, a “**Plan Fiduciary**”) who is independent of the issuer and its affiliates, which Plan Fiduciary (1) is a fiduciary under ERISA or the Code, or both, with respect to the decision to purchase the Notes, (2) it is not the individual retirement account (“**IRA**”) owner (in the case of an acquirer or transferee which is an IRA), (3) is capable of evaluating investment risks independently, both in general and with regard to the prospective investment in the Notes, (4) has exercised independent judgment in evaluating whether to invest the assets of such plan in the Notes, and (5) is either a bank, an insurance carrier, a registered investment adviser, a registered broker-dealer or an independent fiduciary with at least \$50 million of assets under management or control; provided, however, that plans will not be deemed to make the representations in this Clause 1(b)(II) to the extent that the regulations under Section 3(21) of ERISA issued by the U.S. Department of Labor on April 8, 2016 are rescinded; and (ii) none of Issuer or any of its affiliates is a fiduciary with respect to the acquirer or transferee in connection with any purchase or holding of the Notes, or as a result of any exercise by the Issuer or any of its affiliates of any rights in connection with the Notes, and no advice provided by the Issuer or any of its affiliates has formed a primary basis for any investment decision by or on behalf of the acquirer or transferee in connection with the Notes and the transactions contemplated with respect to the Notes. See “*Certain Employee Benefit Plan Considerations*” herein for a more detailed discussion of certain ERISA and related considerations with respect to an investment in the Notes.

See “*Certain Employee Benefit Plan Considerations*” herein for a more detailed discussion of certain ERISA and related considerations with respect to an investment in the Notes.

Transfers of the Notes are restricted, which may adversely affect the value of the Notes.

The Notes are being offered and sold pursuant to an exemption from registration under the U.S. Securities Act and applicable state securities laws of the United States. The Notes have not been and will not be registered under the U.S. Securities Act or any U.S. state securities laws. Therefore you may not transfer or sell the Notes in the United States except pursuant to an exemption from, or a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws, or pursuant to an effective registration statement, and you may be required to bear the risk of your investment in the Notes for an indefinite period of time. The Notes and the Indenture governing the Notes contain provisions that restrict the Notes from being offered, sold or otherwise transferred except pursuant to the exemptions available pursuant to Rule 144A and Regulation S under the U.S. Securities Act, or other exemptions under the U.S. Securities Act. In addition, by acceptance of delivery of any Notes, the holder thereof agrees on its own behalf and on behalf of any investor accounts for which it has purchased the Notes that it shall not transfer the Notes in an aggregate principal amount of less than €100,000. Furthermore, the Issuer has not registered the Notes under any other country’s securities laws. It is your obligation to ensure that your offers and sales of the Notes within the United States and other countries comply with applicable securities laws. See “*Transfer Restrictions*”.

You may be unable to recover in civil proceedings for U.S. securities laws violations.

The Issuer is organized under the laws of Luxembourg and does not have any assets in the United States. It is anticipated that some or all of the directors and executive officers of the Issuer will be non-residents of the United States and that all or a majority of their assets will be located outside the United States. As a result, it may not be possible for investors to effect service of process within the United States upon the Issuer or its directors and executive officers, or to enforce any judgments obtained in U.S. courts predicated upon civil liability provisions of the U.S. securities laws. In addition, the Issuer cannot assure you that civil liabilities predicated upon the federal securities laws of the United States will be enforceable in Luxembourg. See “*Enforcement of Judgments*”.

The Notes are initially held in book-entry form, and therefore you must rely on the procedures of the relevant clearing systems to exercise any rights and remedies. The Issuer shall pay principal, premium, if any, and

interest due and payable on the Notes represented by the global notes directly, or indirectly through direct participants in the X/N Clearing System, if applicable, to the holders of such global notes, and in the event that the Paying and Domiciliary Agent recovers any amounts in respect of the Notes from the Issuer, the Paying and Domiciliary Agent will not be required to segregate the amounts received by it (if any) from the Issuer.

The Notes are represented by one or more global notes and held through financial intermediaries authorized to hold dematerialized securities on behalf of third parties in the records of the X/ N Clearing System (including Euroclear and Clearstream). For a full list of participating central securities depositories as of the date of these Listing Particulars, see <https://www.nbb.be/en/list-nbb-investor-icsds>. Interests in the global notes trade in book-entry form only, and the Notes in definitive registered form, or definitive registered notes, will be issued in exchange for book-entry interests held in Euroclear and/or Clearstream (as a direct participant in the X/N Clearing System) only in very limited circumstances. Owners of book-entry interests will not be considered owners of the Notes. NBB or its nominee will be the sole registered holder of the global notes representing the Notes.

The Issuer shall pay principal and interest due and payable on the Notes represented by global notes directly, or indirectly through direct participants in the X/N Clearing System, if applicable, to the holders of such global notes (as shown on the record of the NBB, as notified by the Paying and Domiciliary Agent to the Issuer). However, in the event the Paying and Domiciliary Agent itself receives any amounts in respect of the Notes, the Paying and Domiciliary Agent will not be required to segregate or hold in trust such amounts received by it (if any) from the Issuer or any other person, including the Trustee. In the event that the Paying and Domiciliary Agent were subject to insolvency proceedings at any time when it held such amounts, owners of the book-entry interests would not have any further claim against the Issuer or the Trustee in respect of such amounts, and would be required to claim such amounts from the Paying and Domiciliary Agent in accordance with applicable Belgian insolvency laws.

Owners of book-entry interests do not have the direct right to act upon any solicitation by the Issuer or any request by the Issuer for waivers or other actions from holders of the Notes, including enforcement of security for the Notes. Instead, each owner of a book-entry interest is reliant on the X/ N Clearing System, or any nominee or participant thereof, to act on its instructions and/or is permitted to act directly only to the extent that such owner has received appropriate proxies to do so from the X/N Clearing System, or, if applicable, from a participant. There can be no assurance that procedures implemented for the granting of such proxies will be sufficient to enable owners of book-entry interests to vote on any requested actions or to take any other action on a timely basis. See “*Book-Entry, Delivery and Form*”.

None of the Issuer, the Paying and Domiciliary Agent or any of its agents, or the Trustee or any of its agents have any responsibility, or are liable, for the proper performance by the X/N Clearing System or its participants of their obligations under their respective rules and operating procedures. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, the Notes within the X/N Clearing System. The Issuer’s obligations under the Notes are discharged once it has paid the X/N Clearing System or the participants in the X/N Clearing System, as applicable, and the Issuer has therefore no responsibility for any amount thereafter transmitted through the Notes of the X/N Clearing System and custodians or intermediaries.

Market perceptions concerning the instability of the euro, the potential re-introduction of individual currencies within the euro zone, or the potential dissolution of the euro entirely, could adversely affect the value of the Notes.

Despite the European Commission’s measures to address sovereign debt issues in Europe, concerns persist regarding the debt burden of certain euro zone countries and their ability to meet future financial obligations, the overall stability of the euro and the suitability of the euro as a single currency given the diverse economic and political circumstances in individual Member States. These and other concerns could lead to the re-introduction of individual currencies in one or more Member States, or, in more extreme circumstances, the possible dissolution of the euro entirely. Should the euro dissolve entirely, the legal and contractual consequences for holders of euro-denominated obligations would be determined by laws in effect at such time. These potential developments, or market perceptions concerning these and related issues, could adversely affect the value of the Notes.

USE OF PROCEEDS

The net proceeds from the issuance of the Euro Notes, together with fees payable to the Issuer (if any) by Telenet International Finance pursuant to the Telenet Euro Fee Letter, were €600.0 million. The net proceeds from the issuance of the Dollar Notes, together with fees payable to the Issuer (if any) by Telenet International Finance pursuant to the Telenet Dollar Fee Letter, were \$1,000.0 million.

The proceeds from the offering of the Dollar Notes were used by the Issuer to fund a loan in a principal amount equal to \$1,000.0 million (the “**Finco Loan AJ**”) borrowed under an additional facility by Telenet International Finance (“**Facility AJ**”) under the Senior Credit Facility. The proceeds from the offering of the Euro Notes were used by the Issuer to fund a loan in a principal amount equal to €600.0 million (the “**Finco Loan AK**”) borrowed under an additional facility by Telenet International Finance (“**Facility AK**”) under the Senior Credit Facility. The gross proceeds of the 2017 Finco Loans are intended to be used for the Refinancing, to pay fees and expenses in connection therewith and for general corporate purposes of the Telenet Group, which may include loans, distributions or other payments to Telenet Group BVBA and its direct or indirect parent companies. The Initial Purchasers’ commissions, if any, and certain estimated expenses incurred in connection with this offering were approximately €11.9 million (equivalent), including legal, accounting and other professional fees incurred in connection therewith. An amount equal to such expenses on the Notes, was paid by Telenet International Finance to the Issuer as part of the fees payable by Telenet International Finance to the Issuer under the Telenet Service Agreement. For a description of the 2017 Telenet Fee Letters and the Telenet Service Agreement, see “*Description of the Notes—Certain Transaction Documents*”.

CAPITALIZATION OF TELENET AND THE ISSUER

The following table sets forth, in each case as of September 30, 2017, (i) the actual consolidated cash and cash equivalents and capitalization of Telenet Group Holding, (ii) the consolidated cash and cash equivalents and capitalization of Telenet Group Holding on an as adjusted basis after giving effect to the Refinancing (including the offering of the Notes and the use of the proceeds therefrom as set forth in “*Use of Proceeds*”) and (iii) the consolidated cash and cash equivalents and capitalization of Telenet Group Holding on an as adjusted basis after giving effect to the Q4-2017 Refinancing Transactions.

This table should be read in conjunction with “*Use of Proceeds*”, “*Summary Condensed Consolidated Historical Financial and Other Data of Telenet*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations of Telenet*”, “*Description of the Notes*”, and the September 30, 2017 Condensed Consolidated Financial Statements included elsewhere in these Listing Particulars.

Any changes to the derivative instruments that Telenet Group Holding uses to manage foreign currency or interest rate risk that may occur as a result of the issuance of the Notes have not been reflected in the as adjusted data presented in this table. Except as set forth in the footnotes to this table, there have been no material changes to Telenet Group Holding’s cash and cash equivalents and third-party capitalization since September 30, 2017.

(1) The “*As Adjusted—Refinancing*” amount reflects (i) the use of the proceeds of the Notes issued hereby to complete the Refinancing and (ii) the use of existing cash and cash equivalents to pay estimated fees and expenses of €11.9 million associated with the offering of the Notes. The “*As Adjusted—Q4-2017 Refinancing Transactions*” amount reflects the “*As Adjusted—Refinancing*” amount and is further adjusted to reflect the use of the proceeds from Facility AL and Facility AM, together with existing cash and cash equivalents of Telenet Group Holding of €13.8 million to (a) complete the Term Loan Refinancing and (b) pay estimated fees and expenses of €4.6 million associated with the completion of the Additional Term Loans. The “*As Adjusted*” amounts have not been reduced for the payment of applicable accrued interest in connection with the Q4-2017 Refinancing Transactions.

(2) In the fourth quarter of 2017, revolving facility Z was repaid in full and cancelled.

(3) The “*As Adjusted—Refinancing*” amounts reflect the completion of the Refinancing. The “*As Adjusted—Q4-2017 Refinancing Transactions*” amount reflects the “*As Adjusted—Refinancing*” amount and is further adjusted to reflect the Term Loan Refinancing.

(4) The “*As Adjusted—Q4-2017 Refinancing Transactions*” amounts reflect the Additional Terms Loans assumed to be entered into by Telenet in connection with the Term Loan Refinancing.

- (5) The “As Adjusted” amounts reflect the carrying value of the Notes, issued by Telenet Finance Luxembourg Notes S.à r.l., a financing company that is consolidated by Telenet Group Holding. Facility AJ and Facility AK are eliminated within the Telenet Group Financial Statements and not reflected in this table.
- (6) The “As Adjusted—Refinancing” amount reflects (i) the write-off of €11.2 million of aggregate deferred financing costs and unamortized discount associated with Facility AH and a portion of Facility AI in connection with the Refinancing and (ii) an estimated €11.9 million of fees and expenses assumed to be paid in connection with the issuance of the Notes. The “As Adjusted—Q4-2017 Refinancing Transactions” amount reflects the “As Adjusted—Refinancing” amount and is further adjusted to reflect (a) the write-off of €14.7 million of aggregate deferred financing costs and unamortized discount associated with the remaining portion of Facility AI in connection with the Term Loan Refinancing, (b) an estimated €4.6 million of fees and expenses assumed to be paid in connection with the completion of the Additional Term Loans and (c) an aggregate original issue discount of €9.2 million associated with the Additional Term Loans. The As Adjusted amounts assume that the Q4 2017 Refinancing Transactions will be treated as debt extinguishments or substantive modifications for accounting purposes.
- (7) The “As Adjusted—Refinancing” amount reflects the write-off of €11.2 million of aggregate deferred financing costs and unamortized discount associated with Facility AH and a portion of Facility AI in connection with the Refinancing, net of an assumed tax benefit of €3.8 million. The “As Adjusted—Q4-2017 Refinancing Transactions” amount reflects the “As Adjusted—Refinancing” amount and is further adjusted to reflect the write-off of €14.7 million of aggregate deferred financing costs and unamortized discount associated with the remaining portion of Facility AI in connection with the Term Loan Refinancing, net of an assumed tax benefit of €5.0 million. The As Adjusted amounts assume that the Q4 2017 Refinancing Transactions will be treated as debt extinguishments or substantive modifications for accounting purposes.
- (8) In the event that additional indebtedness were incurred in connection with any Potential Financing Transaction, there would be an expected impact on total cash and cash equivalents, total debt, total equity and total capitalization presented above. Any actual impact would depend on the amount of additional indebtedness incurred and the use of proceeds thereof, and could be material. See “Risk Factors—Risks Relating to Telenet’s Financial Profile—Telenet and the Issuer may incur additional indebtedness prior to, or within a short time period following, the Issue Date of the Notes and the funding of the 2017 Finco Loans, which indebtedness could increase Telenet’s leverage and may have terms that are more or less favorable than the terms of the Notes and Telenet’s other existing indebtedness.”

The following table sets forth, as of November 24, 2017, the date of incorporation of the Issuer, (i) the actual cash and cash equivalents and capitalization of the Issuer and (ii) the cash and cash equivalents and capitalization of the Issuer on an as adjusted basis, after giving effect to the issuance of the Notes offered hereby.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF TELENET

The following discussion and analysis is intended to assist in providing an understanding of Telenet's financial condition, changes in financial condition and results of operations and should be read together with the September 30, 2017 Condensed Consolidated Interim Financial Statements, the Telenet December 31, 2016 Consolidated Financial Statements, the Telenet December 31, 2015 Consolidated Financial Statements and the Telenet December 31, 2014 Consolidated Financial Statements, including the accompanying notes, included elsewhere in these Listing Particulars. Some of the information in this discussion and analysis includes forward looking statements that involve risks and uncertainties. See "Forward Looking Statements" and "Risk Factors" for a discussion of important factors to be evaluated in connection with a prospective purchase of Notes. The capitalized terms used below have been defined in the notes to the Telenet December 31, 2016 Consolidated Financial Statements, the Telenet December 31, 2015 Consolidated Financial Statements and Telenet December 31, 2014 Consolidated Financial Statements. Unless otherwise indicated, convenience translations into euros are calculated as of December 31, 2016, as applicable.

Overview

Telenet is the largest provider of video services in Belgium. Telenet's HFC cable network spans the Flanders region, covers approximately 69% of Belgium by homes passed and includes the metropolitan centers of Antwerp and Ghent and approximately two-thirds of Brussels following the acquisition of Altice's former Belgian and Luxembourg cable operations ("Coditel Brabant" and "Coditel S.à r.l.", together "**SFR Belux**"), which Telenet acquired on June 19, 2017. Telenet Group Holding's shares are listed on the Euronext Brussels Stock Exchange under the ticker symbol TNET and it is part of the BEL20 stock market index. As of 6:00 p.m. London time on November 21, 2017, Telenet Group Holding's market capitalization amounted to €7,040 million.

Telenet offers basic and enhanced video, including HD, pay television and VOD services, high-speed broadband internet and fixed-line and mobile telephony services to residential subscribers who reside in Telenet's network area. Telenet also combines its services into packages, or bundles, which offer subscribers the convenience of being able to purchase video, broadband internet and telephony services from a single provider at an attractive and discounted price. In addition, Telenet offers voice and data services, as well as value-added services including cloud, hosting and security solutions, to SMEs and large-sized businesses throughout Belgium and parts of Luxembourg. Under the "BASE" brand, Telenet also offers mobile telephony services to residential and business customers across Belgium.

As of September 30, 2017, Telenet had 2,201,800 customer relationships, which represented 67% of the 3,307,100 homes passed by its network. As of September 30, 2017, 2,046,900 customers subscribed to its video services, 1,670,400 subscribed to its broadband internet services and 1,302,500 subscribed to its fixed-line telephony services. Telenet also had 2,258,800 mobile postpaid and 623,300 mobile prepaid subscribers as of September 30, 2017. In addition, approximately 88% of its video subscribers had upgraded from basic video to enhanced video services. For the year ended December 31, 2016, Telenet's total revenue was €2,429.1 million, a 33% increase over the year ended December 31, 2015 including the inorganic impact from the February 2016 BASE Company NV acquisition, and its Adjusted EBITDA was €1,117.1 million, an 18% increase over the year ended December 31, 2015. For the nine months ended September 30, 2017, Telenet's total revenue was €1,884.3 million, a 5% increase compared to the nine months ended September 30, 2016, and its Adjusted EBITDA was €911.2 million, a 7% increase over the nine months ended September 30, 2016.

The Combined Network is fully bi-directional and EuroDocs 3.0 enabled, and provides a spectrum bandwidth capacity of 600 MHz. In August 2014, Telenet announced a five-year €500.0 million network investment program as it plans to increase the capacity of the Combined Network to 1 GHz, enabling download speeds of at least 1 Gbps in the future, with the objective of allowing Flanders to offer some of the highest-capacity digital infrastructure in Europe. At September 30, 2017, approximately 58% of the nodes in the Combined Network had been upgraded.

Telenet is increasingly focused on offering its subscribers broadband internet and telephony subscriptions and services together with its video services in the form of attractively priced multiple-play bundles. Telenet has derived, and believes it can continue to derive, substantial benefits from the trend towards bundled subscriptions, through which it is able to sell more products to individual subscribers, resulting in significantly higher ARPU per customer relationship and, in its experience, the reduction of customer churn. For the nine months ended September 30, 2017, Telenet's ARPU per customer relationship was

€55.2, an increase of 4% compared to the nine months ended September 30, 2016 when the ARPU per customer relationship was €53.2.

Cable television is the principal medium for the provision of television services in Flanders, and Telenet is the largest provider of video services in Belgium. Almost all Flemish television households are passed by the Combined Network. The high penetration of Telenet's video business has resulted in a steady source of revenue and cash flow. As of September 30, 2017, Telenet provided video services to 2,046,900 subscribers, or 62% of homes passed by its network, including 82,200 inorganic additions through the June 2017 SFR Belux acquisition. All of Telenet's basic video subscribers have access to at least 21 basic analog television channels and an average of 26 analog radio channels. Telenet generally provides its basic cable television services under individual contracts with its subscribers, the majority of whom pay monthly. Telenet's basic video subscribers who have installed a set-top box or CI + module, and activated a smart card, have access to more than 70 digital channels, including 15 HD channels, and approximately 36 digital radio channels, for no additional fee. Telenet offers its basic video services in digital for no additional fee in order to encourage its subscribers to migrate to its enhanced video services giving them access to a more enriched TV experience, including access to EPGs, additional thematic content packs, exclusive movies and sports channels and a large VOD library of both local and international programs. For the nine months ended September 30, 2017, subscribers to total basic video services decreased by 41,900 as compared to December 31, 2016 on an organic basis as a result of the increased competitive environment, including the effects from regulated cable wholesale. The aforementioned organic loss rate excludes migrations to Telenet's enhanced video service and represents customers churning to competitors' platforms, such as other digital television, OTT and satellite providers, or customers terminating their television service or having moved out of Telenet's service footprint. Given the historical video penetration in its footprint, the limited expansion of the number of homes passed and strong competition in the domestic TV market, Telenet anticipates further churn of total video subscribers.

Telenet's interactive enhanced video service includes a combination of premium sports and film channels, a range of extended thematic channels, a selection of films and broadcast content available on an on demand basis and a variety of interactive features. Telenet's enhanced video offering is available to all subscribers passed by the Combined Network. At September 30, 2017, Telenet served 1,791,200 enhanced video customers, including 74,700 inorganic subscribers added through the SFR Belux acquisition. Telenet's digitalization ratio, which measures the total base of enhanced video customers relative to Telenet's total video subscriber base, continued to grow, and reached approximately 88% at September 30, 2017 compared to approximately 85% at September 30, 2016. All of Telenet's enhanced video subscribers can access the "Yelo Play" app, through which they can enjoy a unique content experience on multiple connected devices in the home and out-of-home through Telenet's WiFi Homespots and hotspots. At September 30, 2017, Telenet's subscription VOD packages "Play" and "Play More" had 393,100 customers, representing a 17% increase compared to September 30, 2016. This robust performance was driven by (i) an improvement in the linear viewing experience and the revamp of Telenet's premium entertainment platform "Play More",

(ii) continued investments in promising local content both through co-productions with Telenet's co-owned commercial channels "VIER", "VIJF" and "ZES" as well as certain proprietary content, and (iii) Telenet's exclusive partnership with HBO providing access to high-quality international content. In addition to the premium pay television channels, Telenet also provides the broadest sports offerings within its footprint through "Play Sports", which combines domestic and foreign football with other major sport events including golf, Formula One racing, volleyball, basketball and hockey. Telenet recently also added tennis with the ATP World Tour Masters, a major tennis event, to its sports line-up. At September 30, 2017, approximately 232,000 customers subscribed to Telenet's sports pay television channels, an increase of 1% compared to September 30, 2016. In May 2017, Telenet extended the non-exclusive broadcasting rights for the Jupiler Pro League for three seasons until the 2019-2020 season. In addition, we also gained the exclusive OTT rights in Q2 2017, while local media company De Vijver Media, in which we own a 50% shareholding, holds the exclusive rights on the match summaries.

Telenet is the leading provider of residential broadband internet services in Flanders. Today, Telenet offers consumers and businesses data download speeds of up to 200 and 500 Mbps, respectively, and upload speeds of 20 and 50 Mbps, respectively. Through Telenet's €500.0 million five-year "Grote Netwerf" investment program, which kicked off in early 2015 and is expected to be completed mid-2019, Telenet aims to boost the capacity of its network from 600 MHz currently to 1 GHz, enabling data download speeds of at least 1 Gbps in the future. As customers increasingly expect to enjoy seamless superfast connectivity whether at home, at work or on the move, WiFi remains one of the cornerstones of Telenet's connectivity strategy.

Mid-March 2017, Telenet introduced “Flow Tech”, a suite of smart technologies, to ensure that customers can seamlessly access both fixed and mobile networks across all of their devices. At September 30, 2017, Telenet has deployed around 1.4 million WiFi Homespots and operated nearly 2,000 WiFi hotspots in public areas. Through partnerships with its majority shareholder Liberty Global, certain of its affiliates, and Walloon cable operator VOO, broadband internet customers from both cable companies can freely use the WiFi Homespots on either company’s network in Wallonia and in certain other European countries where service is offered through other Liberty Global and certain affiliate networks. At the end of June 2017, Telenet boosted both the data upload and download speeds of its “Basic Internet” product. Priced at €27.8 per month (including 21% VAT) and providing a data download speed of 50 Mbps, Telenet’s “Basic Internet” offer remains one of the most attractive entry packages both within a Belgian and a wider European context. At September 30, 2017, Telenet served 1,670,400 broadband internet subscribers (+5% year-on-year), including 60,300 inorganic subscribers added through the SFR Belux acquisition and equivalent to 50.5% of the homes passed by its HFC network. For the nine months ended September 30, 2017, net organic subscriber additions for Telenet’s broadband internet service were 9,800. Telenet’s annualized churn rate was impacted by the intensely competitive environment and reached 8.9% for the nine months ended September 30, 2017 as compared to 7.7% for the nine months ended September 30, 2016.

Telenet offers its residential subscribers local, national and international long distance fixed-line telephony services and a variety of value-added features. In Flanders, Telenet believes it is currently the largest competitor of Proximus, the Belgian incumbent, due in part to Telenet’s emphasis on customer service and innovative flat-fee rate plans. Substantially all of Telenet’s fixed-line telephony subscribers use VoIP technology, which utilizes the open standards EuroDocsis protocol, and through which Telenet is able to provide both internet and fixed-line telephony services. Telenet served 1,302,500 fixed-line telephony subscribers at September 30, 2017 (+4% year-on-year), including 48,100 inorganic additions from the acquisition of SFR Belux and equivalent to 39.4% of the homes passed by its network. For the nine months ended September 30, 2017, Telenet lost 200 net organic fixed-line telephony subscribers as a result of the intensely competitive market environment and an overall declining market trend. Both these factors also drove a 150 basis points increase in the annualized churn rate to 10.0% for the nine months ended September 30, 2017 as compared to 8.5% for the nine months ended September 30, 2016.

In February 2016, Telenet finalized the acquisition of Belgian mobile operator BASE. Telenet offers its mobile telephony services under both the “Telenet” and “BASE” brand names and has entered into several wholesale partnerships. In addition to BASE’s mobile radio access network, Telenet has historically been operating through a MVNO partnership with Orange Belgium (the “**MVNO Arrangement**”). Pursuant to the MVNO Arrangement, Telenet offers its cable customers mobile voice and data services, including 4G/ LTE, through Orange Belgium’s mobile network. Through a partnership with Telenet, Nethys also uses the MVNO Arrangement to provide mobile services to its cable customers.

At the end of May 2016, Orange Belgium and Telenet reached an agreement setting the terms and conditions for the future termination of their MVNO Arrangement. The MVNO Arrangement will run until the end of 2018, implying Telenet’s mobile customers can continue to use Orange Belgium’s network until the end of 2018. Telenet committed to a minimum payment of €150.0 million (excluding VAT) over the 3-year period 2016-2018. The actual amount paid by Telenet could exceed this minimum amount in case of higher network usage. Beyond 2018, an optional 6-month extension period has been agreed upon with a minimum payment of €15.0 million (excluding VAT) if triggered. Through the MVNO Termination Agreement, all outstanding legal disputes between both companies, including the judicial recovery of invoices under the MVNO Arrangement, have now been settled. The rapid modernization of Telenet’s acquired mobile network is an important synergy enabler, allowing Telenet to accelerate the onboarding of its Full MVNO customers to its own mobile network. At September 30, 2017, approximately 54% of its Full MVNO customers had been onboarded on the own mobile network. Telenet now aims for full completion by the end of the three months ending March 31, 2018 versus the initial plan by end-2018. As the accelerated onboarding will affect the contractual commitments under the MVNO Arrangement, Telenet incurred a €29.2 million non-cash restructuring charge in the three months ended September 30, 2017.

Telenet’s active mobile subscriber base, which excludes subscribers under its commercial wholesale partnerships, totaled 2,882,100 SIMs at September 30, 2017, including 2,258,800 postpaid subscribers. The remaining 623,300 mobile subscribers receive prepaid services under the BASE brand and various branded reseller contracts. Compared to September 30, 2016, Telenet recorded a 5% decrease in the total number of active mobile subscribers as a result of the sale of its direct subsidiary Ortel Mobile to Lycamobile as of March 1, 2017 and the impacts from the June 2017 mandatory prepaid registration. As such, a total of 157,900 and 53,300 mobile SIMs have been removed from Telenet’s subscriber count in the three months ended March 31, 2017 and the three months ended June 30, 2017, respectively. For the nine months ended September 30 2017, Telenet added 143,400 net postpaid subscribers driven by the continued uptake of its all-in-one converged “WIGO” bundles and improved

offers. At the end of September 2017, Telenet revamped the mobile line-up under the “BASE” brand, by offering more flexible bundles adjusted to the customers’ needs so they can use the full capacity of their package, regardless of their appetite to use either more data, minutes or text messages.

Under the “Telenet Business” brand, Telenet offers a range of voice, data and internet products and services that are tailored to the size and needs of each customer. Telenet Business also offers its business customers an extensive range of reliable value-added services, including hosting, managed security and cloud services. Telenet provides services to business customers throughout Belgium and parts of Luxembourg. Telenet’s business customers include SMEs; larger corporations; public; healthcare and educational institutions; and carrier customers that include international voice, data and internet service providers. Telenet Business generated revenue of €98.5 million for the nine months ended September 30, 2017, up 9% compared to the nine months ended September 30, 2016. B2B revenue growth was primarily driven by higher security- related revenue and higher revenue from business connectivity solutions in the SME segment.

Key Factors Affecting Telenet’s Businesses

Telenet’s operations and the operating metrics discussed below have been, and may continue to be, affected by certain key factors as well as certain historical events and actions. The key factors affecting the ordinary course of Telenet’s business and its results of operations include, among others, the introduction of new products and services, including new enhanced video pay services, higher broadband internet access speeds and the introduction of new competitive mobile rate plans with the incorporation of the Base mobile network through which it seeks to enhance its mobile product offerings and market positioning, changes in its pricing, network upgrades and maintenance, its cost structure, customer churn and acquisitions and dispositions. Each of these factors is discussed in more detail below.

New products and services

Introduction of new all-in-one quad-play bundle “WIGO”

In June 2016, Telenet launched its all-in-one converged package for families and businesses, “WIGO”. All three residential “WIGO” bundles, each priced between €100.0 and €195.0 per month (including 21% VAT), include a superfast broadband connection, WiFi access, unlimited fixed and mobile calls in Belgium and a mobile data allowance to be shared among individual family members. At September 30, 2017, Telenet had 265,100 “WIGO” customers.

Launch of “The Digital Acceleration”

Telenet Business launched “The Digital Acceleration” in March 2017 to further stimulate digital entrepreneurship. Certain self-employed and SMEs can benefit from a free visit of an independent digital expert during which they get tailored advice about advertising on social media, creating a web shop, sending targeted e-mails etc.

Launch of “Flow Tech”

Mid-March 2017, Telenet introduced “Flow Tech”, a suite of smart technologies, to ensure that customers can seamlessly access both fixed and mobile networks across all of their devices. At September 30, 2017, Telenet has deployed around 1.4 million WiFi Homespots and operated nearly 2,000 WiFi hotspots in public areas. Through partnerships with its majority shareholder Liberty Global, certain of its affiliates, and Walloon cable operator VOO, broadband internet customers from both cable companies can freely use the WiFi Homespots on either company’s network in Wallonia and in certain other European countries where service is offered through other Liberty Global and certain affiliate networks.

Renewal of Belgian football broadcasting rights through the 2019-2020 season

In May 2017, Telenet extended the non-exclusive broadcasting rights for the Jupiler Pro League for three seasons until the 2019-2020 season. In addition, Telenet also gained the exclusive OTT rights, while local media company De Vijver Media, in which Telenet owns a 50% shareholding, holds the exclusive rights on the match summaries.

Telenet invests in a solution for the proliferation of programmes at work

In May 2017, Telenet invested in Antwerp-based company Spencer, a start-up active in the development of digital workplace applications.

Investment in Mobile IDF and launch of application “itsme”

At the end of May 2017, the application “itsme” was launched, a single digital identity that replaces all passwords on the web. Four major Belgian banks and all three Belgian mobile network operators have joined forces to form the Belgian Mobile ID consortium to develop a digital identity.

Revamp of all-in-converged quadruple-play bundles “WIGO”

In June 2017, Telenet boosted the mobile data allowances under its “WIGO” product, providing more value to its customers. Also for B2B-products, the data volume increased for no additional charges.

Faster “Basic Internet”

In June 2017, Telenet increased the speed of its Basic Internet, the entry level cable internet package. Going forward, both new and existing customers will enjoy data download speeds of 50 Mbps instead of 30 Mbps. The upload speed increased to 5 Mbps, while the volume remained the same, i.e., 150 GB.

Mobile rate plans “King” & “Kong” adapted

In June 2017, Telenet announced a return to the simplicity of the original “King” & “Kong” concept, i.e., 2 straightforward plans (“lots” and “ridiculous amounts”) at affordable price points. From now on, the new mobile plans will only be available to Telenet customers who also use a fixed Telenet product (broadband internet, fixed-line telephony and/or video). The new “Kong” plan costs €25 a month, with 4GB, 500 calling minutes and unlimited text messaging. The enhanced “King” plan costs €15 a month offering 50% more data with 1.5 GB, 150 calling minutes and unlimited text messaging.

Introduction of a new competitive mobile rate concept “Based on you”

Telenet launched a new competitive mobile rate concept “Based on you” under the BASE brand at the end of September 2017, offering customers a wealth of adjustable mobile data or voice minutes volumes and unlimited free text messages, to cater for almost everyone’s mobile needs. The “Based on you” concept provides the customer with flexibility, as the out-of-bundle rate equals the in-bundle rate and in which unused data or minutes are automatically transferred to the next billing period.

Telenet opens its own innovation centre in Brussels

In October 2017, Telenet opened its own innovation centre in Brussels. In this innovation centre, Telenet will not only test new technology for connectivity, entertainment, value-added services or customer experiences, but also give partners the opportunity to test their projects using Telenet technology and to appeal to the Telenet know-how. The Telenet Innovation Centre will also serve as a knowledge and innovation centre for the Liberty Global Group.

Pricing

Telenet regularly reviews its pricing policy, carefully weighing the current and future economic and competitive environment. Historically, Telenet has increased the video subscription fee in response to inflation. In February 2017, Telenet raised the subscription fee for certain fixed products, including its “Whop” and “Whoppa” bundles, broadband internet and fixed-line telephony products, by 1.99%.

Cost structure

Certain of Telenet’s total operating expenses, such as a proportion of its network operating, programming and payroll costs, are relatively fixed, while a proportion of its marketing, content, interconnect, customer care, billing and subscriber acquisition costs are relatively variable and hence directly driven by subscriber growth. Telenet’s

most significant expense items include payroll costs, programming costs, copyright costs, customer care and interconnection fees. Telenet pays interconnection fees to other network operators when it connects to its networks in order to terminate its voice and data services. Voice interconnection fees in Belgium are regulated and the amount Telenet pays in interconnection fees in any period will depend on the level of usage of its services.

Telenet's payroll costs relate to the number and salary levels of its full-time staff and external personnel. The number of full time equivalents employed by Telenet as of December 31, 2016 amounted to 3,387 compared to 2,318 as of December 31, 2015, including 859 full-time equivalents of BASE. Telenet still outsources a portion of its call center customer care and sales functions. The fees that the operators charge Telenet for external call center services generally depend on the level of its customer care call volume. The level of Telenet's customer care call volume may fluctuate during any given period as a result of, among other things, the introduction of new products and services that are unfamiliar to its customers or difficult to install, the quality and reliability of its services and the quality of its alternative customer support options, including its automated customer care functions on its website. Telenet has deliberately opted to increase the number of in-house call centers. Although this has resulted in higher employee costs, the cost increase will be offset through lower network operating and service costs in future periods, as Telenet anticipates improved efficiencies in its care and sales operations through a higher proportion of insourced call centers.

For the vast majority of programming, Telenet is dependent on broadcasters and other content providers for programming. Telenet pays copyright royalties to various copyrights societies in Belgium that represent content producers from various countries around Europe. Telenet also pays signal costs to broadcasters in order to carry their signal on its network. Telenet generally pays author copyright royalties and signal costs on a per subscriber basis. Telenet also pays royalties to its third-party content providers for its digital pay television programming. Telenet generally pays royalties on a per subscriber basis for subscription content and pays fixed amounts for on demand content that is purchased by its subscribers. As a result, Telenet expects that its content costs will increase along with increased sales of its digital pay television content. However, some of Telenet's content supply agreements require it to pay prices for the programming based on a guaranteed minimum number of subscribers, even if that number is larger than the number of actual subscribers.

Telenet also incurs costs related to the purchase of mobile handsets and its offering of subsidized handsets to existing Telenet customers subscribing to a specific mobile subscription. As a result of the 2012 Law, the typical 24-month contract duration for mobile subscriptions is no longer applied and Telenet has removed all fixed contract terms as of October 1, 2012. As a result, mobile telephony subscribers on a subsidized rate plan must pay the residual value of the handset if they wish to terminate their contract before the handset has fully depreciated and no additional termination fee is applied to terminate the mobile contract. The subscriber acquisition costs Telenet incurs are fully expensed within the relevant sales period.

Churn

Revenue growth from Telenet's residential businesses is driven primarily by ARPU and net subscriber growth, which in turn is a function of gross subscriber additions and churn. Churn is calculated as total product disconnects during a quarter (or for the full year, as appropriate), divided by the average subscriber base at the beginning of the quarter (or year) and at the end of the quarter (or year), multiplied in the case of the quarterly churn calculation by four to achieve the annualized result.

The video, broadband internet and telephony industries exhibit churn as a result of high levels of competition. Specifically for Telenet's video services, churn is also driven by the historically dense cable penetration in its footprint and customers now enjoying a wider variety of alternative television platforms. In addition to competitive alternatives, churn levels may be affected by changes in Telenet's or its competitors' prices, Telenet's level of customer satisfaction and the relocation of subscribers. Increases in churn may lead to increased costs and reduced revenue.

Telenet's churn rates have remained at moderate levels and compare favorably to most of its competitors. Despite the intensely competitive environment and the effects from the 2012 Law, making it essentially easier for consumers to switch operators, Telenet continues to achieve moderate annualized churn rates for substantially all of its advanced fixed services of broadband internet, enhanced video and fixed-line telephony. Telenet believes this strong performance is driven by the successful execution of its multiple-play strategy and its continued focus on providing a great customer experience. For the nine months ended September 30, 2017, annualized churn for advanced fixed services reached 8.9%, 8.9 % and 10.0% respectively, for Telenet's video, broadband internet and fixed-line telephony services, respectively.

Customer churn in the Belgian mobile telephony market has historically been higher relative to the fixed market as result of the intensely competitive environment, new technologies, mandatory mobile number portability and fairly low switching costs. Within the mobile telephony industry, postpaid churn rates have historically been much lower relative to the prepaid segment. As Telenet is currently active in the postpaid and prepaid market, primarily within its Flemish and Brussels footprint, annualized churn for Telenet's mobile services reached 13.3% for the nine months ended September 30, 2017, an improvement of 0.7 percentage points compared to the nine months ended September 30, 2016.

Network upgrades and maintenance

Telenet's ability to provide new high-definition and on-demand enhanced video services, broadband internet access at ever higher speeds and telephony services to additional subscribers depends in part on its ability to upgrade its network. At the end of 2009, Telenet completed the upgrade of its own network bandwidth capacity from 450 MHz to 600 MHz. Telenet has reduced the number of homes connected to an optical node from an average 1,400 at the start of the node-splitting project in 2010 to an average of approximately 480 homes as of September 30, 2017. As not all homes connected to the Combined Network subscribe to broadband internet services from Telenet, the number of active broadband households per optical node was approximately 290 at September 30, 2017. The Combined Network is an HFC upgraded network which uses EuroDocsis 3.0 technology with download speeds of up to 200 Mbps for certain of its residential customers and up to 500 Mbps for certain of its business customers. Under current offerings, all new bundled broadband internet customers enjoy download speeds of at least 100 Mbps, which exceed the base tier download speeds of Telenet's direct competitors. As part of its €500.0 million network investment program, Telenet plans to increase the capacity of its network to 1 GHz within the next five years, enabling download speeds of at least 1 Gbps in the future, with the objective of allowing Flanders to offer some of the highest-capacity digital infrastructure in Europe. At September 30, 2017, approximately 58% of the nodes in the Combined Network had been upgraded.

Acquisitions and divestitures

In June 2014, Telenet announced a strategic 50% investment in the Flemish media company De Vijver Media for €26.0 million and an additional €32.0 million capital increase. De Vijver Media owns three free-to-air commercial channels ("VIER", "VIJF" and "ZES") and a content production house ("Woestijnvis"). On February 24, 2015, the European Commission announced that the acquisition was cleared subject to several commitments made. Telenet and De Vijver Media committed to offer under fair, reasonable and non-discriminatory terms to any interested TV distributor in Belgium the following: (i) to license the channels; (ii) to license any new basic pay TV channel that De Vijver Media may launch in the future; and (iii) De Vijver Media must also license to distributors linked services such as catch-up TV and PVR. These commitments will be in place for seven years. They ensure that Telenet's competitors are able to offer the channels to their subscribers and have no competitive disadvantage vis-à-vis Telenet. Telenet and two other shareholders, Mediahuis NV and Waterman & Waterman NV, jointly control De Vijver Media. Telenet does not consolidate the activities of De Vijver Media but does account for its investment applying the equity method. Telenet believes that this investment drives innovation in local content and, together with Telenet's existing strong portfolio of channels, will continue to enable Telenet to offer Flemish viewers high quality and technologically advanced multimedia entertainment, while continuing to secure strategic access to local content.

In April 2016, Telenet acquired the Belgian nationwide mobile operator BASE Company from subsidiaries of KPN for €1,324.4 million. Through the acquisition, Telenet gained long-term mobile access to effectively compete for future growth opportunities in the mobile market. As a result of the acquisition, Telenet is well positioned to meet the rising demand from both residential and business customers for the full range of fixed and mobile services, and to continue providing a top-of-the-market customer experience. The rapid modernization of Telenet's acquired mobile network is an important synergy enabler, allowing Telenet to accelerate the onboarding of its Full MVNO customers to its own mobile network. At September 30, 2017, approximately 54% of its Full MVNO customers had been onboarded on the own mobile network. Telenet now aims for full completion by the end of the three months ending March 31, 2018 versus the initial plan by end-2018. As the accelerated onboarding will affect the contractual commitments under the MVNO Arrangement, Telenet incurred a €29.2 million non-cash restructuring charge in the three months ended September 30, 2017.

On June 19, 2017, Telenet signed a definitive agreement to acquire Coditel Brabant and its subsidiary Coditel Lux (together "SFR Belux") for €400 million on a cash and debt free basis. The acquisition values SFR Belux at 6.5x 2016E Adjusted EBITDA when adjusted for projected annual run-rate synergies of €16 million by 2021. The proposed synergies are mainly driven by (i) an extended footprint in Brussels, (ii) the introduction of competitive

and appealing quadruple-play offers (combination of video, high-speed internet, fixed and mobile telephony), (iii) B2B growth and (iv) overall cost synergies. Telenet financed the acquisition through a combination of existing cash and cash equivalents and available liquidity under its revolving credit facilities.

In November 2017, Telenet announced that its direct subsidiary Telenet Group BVBA had entered into an agreement with the current shareholders of TelelinQ NV on October 31, 2017 concerning the acquisition of Nextel. In order to support the Company's growth ambitions in the Belgian B2B market, this acquisition will provide Telenet with additional in-house expertise to design, construct and manage total solutions on behalf of other companies. As a Belgian integrator, Nextel currently works for major companies, SMEs, care institutions, non-profit organizations and government authorities. Nextel has offices in Wommelgem and Zaventem and to date has 315 permanent employees, having generated revenue of approximately €47.0 million in 2016. The acquisition will be submitted to the Belgian Competition Authority for approval, before it can be executed.

Key Operating Measures

Telenet uses several key operating measures, including RGUs and ARPU, to track the performance of its business. Neither of these terms is a measure of financial performance under EU-IFRS, nor have these measures been reviewed by an outside auditor, consultant or expert. Each of these measures is derived from management estimates. As defined by Telenet, these terms may not be comparable to similar terms used by other companies. See "Glossary".

RGUs

Telenet classifies its customers based on its main subscription based business activities. The following table summarizes Telenet's RGUs for its basic and enhanced video services, broadband internet and fixed-line and mobile telephony businesses as of and for the years ended December 31, 2016, 2015 and 2014 and as of and for the nine months ended September 30, 2017 and 2016.

	As of and for the nine months ended September 30,		As of and for the year ended December 31,		
	2017	2016	2016	2015	2014

(1) Homes Passed are homes, residential multiple dwelling units or commercial units that can be connected to the Combined Network without materially extending the distribution plant. Telenet's Homes Passed counts are based on census data that can change based on either revisions to the data or from new census results.

(2) Basic Video Subscriber is a home, residential multiple dwelling unit or commercial unit that receives Telenet's video service over the Combined Network either via an analog video signal or via a digital video signal without subscribing to any recurring monthly service that requires the use of encryption-enabling technology. Encryption-enabling technology includes smart cards, or other integrated or virtual technologies that Telenet uses to provide its enhanced service offerings. Telenet counts RGUs on a unique

premises basis. In other words, a subscriber with multiple outlets in one premises is counted as one RGU and a subscriber with two homes and a subscription to Telenet's video service at each home is counted as two RGUs.

- (3) Enhanced Video Subscriber is a home, residential multiple dwelling unit or commercial unit that receives Telenet's video service over the Combined Network via a digital video signal while subscribing to any recurring monthly service that requires the use of encryption-enabling technology. Enhanced Video Subscribers are counted on a unique premises basis. For example, a subscriber with one or more set-top boxes that receives Telenet's video service in one premises is generally counted as just one subscriber. An Enhanced Video Subscriber is not counted as a Basic Video Subscriber. As Telenet migrates customers from basic to enhanced video services, Telenet reports a decrease in its Basic Video Subscribers equal to the increase in its Enhanced Video Subscribers.
- (4) Internet Subscriber is a home, residential multiple dwelling unit or commercial unit that receives internet services over the Combined Network.
- (5) Fixed-line Telephony Subscriber is a home, residential multiple dwelling unit or commercial unit that receives fixed-line voice services over the Combined Network. Fixed-line Telephony Subscribers exclude mobile telephony subscribers.
- (6) RGU is separately a Basic Video Subscriber, Enhanced Video Subscriber, Internet Subscriber or Fixed-line Telephony Subscriber. A home, residential multiple dwelling unit, or commercial unit may contain one or more RGUs. For example, if a residential customer subscribes to Telenet's enhanced video service, fixed-line telephony service and broadband internet service, the customer would constitute three RGUs. Total RGUs is the sum of Basic Video, Enhanced Video, Internet and Fixed-line Telephony Subscribers. RGUs generally are counted on a unique premises basis such that a given premises does not count as more than one RGU for any given service. On the other hand, if an individual receives one of Telenet's services in two premises (e.g. a primary home and a vacation home), that individual will count as two RGUs for that service. Each bundled cable, internet or fixed-line telephony service is counted as a separate RGU regardless of the nature of any bundling discount or promotion. Non-paying subscribers are counted as subscribers during their free promotional service period. Some of these subscribers may choose to disconnect after their free service period. Services offered without charge on a long-term basis (e.g., VIP subscribers, free service to employees) generally are not counted as RGUs. Telenet does not include subscriptions to mobile services in our externally reported RGU counts.
- (7) Telenet's mobile subscriber count represents the number of active subscriber identification module ("SIM") cards in service rather than services provided. For example, if a mobile subscriber has both a data and voice plan on a smartphone this would equate to one mobile subscriber. Alternatively, a subscriber who has a voice and data plan for a mobile handset and a data plan for a laptop (via a dongle) would be counted as two mobile subscribers. Customers who do not pay a recurring monthly fee are excluded from Telenet's mobile telephony subscriber counts after a 90-day inactivity period.
- (8) Customer Relationships are the number of customers who receive at least one of Telenet's video, internet or fixed-line telephony services that Telenet counts as RGUs, without regard to which or to how many services they subscribe. Customer Relationships generally are counted on a unique premises basis. Accordingly, if an individual receives Telenet's services in two premises (e.g., a primary home and a vacation home), that individual generally will count as two Customer Relationships. Telenet excludes mobile-only customers from Customer Relationships.
- (9) ARPU per RGU and ARPU per customer relationship are calculated as follows: average total monthly recurring revenue (including revenue earned from carriage fees and set-top box rentals and excluding interconnection revenue, installation fees, B2B revenue, mobile telephony revenue and set-top box sales) for the indicated period, divided by the average of the opening and closing RGU base or customer relationships, as applicable, for the period.
- (10) Number of RGUs at the end of the relevant period as a percentage of the number of homes passed by the Combined Network at the end of the relevant period.
- (11) Number of enhanced video subscribers at the end of the relevant period relative to the total number of video subscribers at the end of the relevant period.
- (12) Number of triple-play subscribers at the end of the relevant period relative to the total number of customer relationships at the end of the relevant period.

At September 30, 2017, Telenet served 2,201,800 unique customer relationships subscribing to 5,019,800 fixed services across its footprint of 3,307,100 homes passed in Flanders and Brussels and including its extended footprint in Brussels, Wallonia and Luxembourg through the June 2017 SFR Belux acquisition. At September 30, 2017, Telenet's RGU count consisted of 2,046,900 video, 1,670,400 broadband internet and 1,302,500 fixed-line telephony subscriptions. In addition, around 88% of Telenet's video subscribers had upgraded to its enhanced video platform at September 30, 2017 so they can enjoy a much richer TV experience, including access to a wider range of digital, HD and pay television sports channels, a vast library of domestic and international VOD content both on a transactional and subscription basis and access to Telenet's OTT platform "Yelo Play". Telenet reached a bundling rate of 2.28 RGUs per unique customer relationship at the end of September 2017 (September 30, 2016: 2.26), which is indicative of the continued multiple play growth. At September 30, 2017, approximately 54% of Telenet's customers subscribed to a triple-play bundle, whereas approximately 20% subscribed to a double-play product and approximately 26% subscribed to just one product, indicating continued up-sell opportunity within the existing customer base. At September 30, 2017, Telenet also served 2,882,100 mobile subscribers as compared to 3,020,000 at September 30 last year. This 5% year-on-year decrease reflected both the sale of Telenet's direct

subsidiary Ortel Mobile to Lycamobile as per March 1, 2017 and the impacts from the mandatory prepaid registration as of June this year.

Net subscriber growth for Telenet's advanced fixed services of enhanced video, broadband internet and fixed line telephony for the nine months ended September 30, 2017 decreased relative to the nine months ended September 30, 2016, primarily reflecting an intensely competitive and promotional environment and a net decrease in fixed-line telephony subscribers due to a general decline in the market. Net subscriber growth for Telenet's all-in-one converged package "WIGO" for the nine months ended September 30, 2017 accelerated on the back of Telenet's improved line-up which includes higher mobile data allowances at unchanged prices. All "WIGO" bundles include a superfast broadband connection, WiFi access, unlimited fixed and mobile calls in Belgium and a mobile data allowance to be shared among individual family members. At September 30, 2017, Telenet reached 265,100 "WIGO" customers.

ARPU per customer relationship

Telenet considers the customer value, reported as ARPU per customer relationship, to be one of its key operational metrics since Telenet seeks to obtain a larger share of its customers' spending on media, entertainment and telecommunications services. ARPU per customer relationship is a measure Telenet uses to assess how effectively it is realizing potential revenue from customers. Telenet defines ARPU per customer relationship as average total recurring revenue (including revenue earned from carriage fees and rental set-top boxes and excluding interconnection revenue, installation fees, mobile telephony revenue and set-top box sales) for the indicated period, divided by the average of the opening and closing RGU base or customer relationships, as applicable, for the period.

The following table summarizes the ARPU per customer relationship for the different periods.

	As of and for the nine months ended September 30,		As of and for the year ended December 31,		
	2017	2016	2016	2015	2014
	(in € per month)				
ARPU per customer relationship	55.2	53.2	53.4	50.6	47.8

For the nine months ended September 30, 2017, the ARPU per customer relationship yielded €55.2, up €2.0 or 4%, compared to the nine months ended September 30, 2016. Relative to the nine months ended September 30, 2016, the growth in the ARPU per customer relationship was underpinned by (i) a higher proportion of multiple-play subscribers in Telenet's overall customer mix, (ii) a larger share of enhanced video customers subscribing to its premium entertainment services, (iii) the benefit from the selective price increase on certain fixed services as of mid-February 2017 and (iv) a decrease in the total number of unique customer relationships as a result of an intensified competitive environment. These impacts were offset to some extent by a growing proportion of bundle discounts and other discounts.

Results of Operations

The following table depicts, for the periods indicated, statistics relating to Telenet's results of operations"

Adjusted EBITDA margin ⁽²⁾	48.4%	47.1%	46.0%	51.8%	52.7%

- (1) As Telenet uses the term, EBITDA is defined as profit before net finance expense, the share of the result of equity accounted investees, income taxes, depreciation, amortization and impairment. Adjusted EBITDA is defined as EBITDA before stock-based compensation and restructuring charges, and before operating charges or credits related to successful or unsuccessful acquisitions or divestitures. Operating charges or credits related to acquisitions or divestitures include (i) gains and losses on the disposition of long-lived assets, (ii) due diligence, legal, advisory and other third-party costs directly related to Telenet's efforts to acquire or divest controlling interests in businesses, and (iii) other acquisition-related items, such as gains and losses on the settlement of contingent consideration. Adjusted EBITDA is an additional measure used by management to demonstrate Telenet's underlying performance and should not replace the measures in accordance with EU IFRS as an indicator of Telenet's performance, but rather should be used in conjunction with the most directly comparable EU IFRS measure.
- (2) Adjusted EBITDA margin is defined as Adjusted EBITDA as a percentage of revenue.
- (3) The following table presents a reconciliation between total profit for the period to Adjusted EBITDA for the period for the indicated periods:

	Nine months ended September 30,		Year ended December 31,

Presentation of Rebased Growth Rates

For purposes of calculating rebased growth rates on a comparable basis for the three and nine months ended September 30, 2017 and for the year ended December 31, 2016, we have adjusted our historical revenue, Adjusted EBITDA and certain expenses to (i) include the pre-acquisition revenue and Adjusted EBITDA of BASE Company (fully consolidated since February 11, 2016) and SFR Belux (fully consolidated since June 19, 2017) in our rebased amounts for the nine months ended September 30, 2016 to the same extent that the revenue and Adjusted EBITDA of such entities are included in our results for the three and nine months ended September 30, 2017 and (ii) exclude the revenue and Adjusted EBITDA of the disposals of certain legacy fixed-line products at BASE Company and Ortel Mobile made during the first quarter of 2017 to the same extent that the revenue and Adjusted EBITDA of these disposed business is excluded from our results for the three and nine months ended September 30, 2017. We have reflected the revenue and operating profit of BASE and SFR Belux in our 2016 rebased amounts based on what we believe to be the most reliable information that is currently available (generally pre-acquisition financial statements), as adjusted for the estimated effects of (i) any significant effects of acquisition accounting adjustments, (ii) any significant differences between our accounting policies and those of the acquired entities and (iii) other items we deem appropriate. We do not adjust pre-acquisition periods to eliminate non-recurring items or to give retroactive effect to any changes in estimates that might be implemented during post-acquisition periods. As we did not own or operate the acquired businesses during the pre-acquisition periods, no assurance can be given that we have identified all adjustments necessary to present the revenue and Adjusted EBITDA of these entities on a basis that is comparable to the corresponding post-acquisition amounts that are included in our historical results or that the pre-acquisition financial statements we have relied upon do not contain undetected errors. In addition, the rebased growth percentages are not necessarily indicative of the revenue and Adjusted EBITDA that would have occurred if these transactions had occurred on the dates assumed for purposes of calculating our rebased amounts or the revenue and Adjusted EBITDA that will occur in the future. The rebased growth percentages have been presented as a basis for assessing growth rates on a comparable basis, and are not presented as a measure of our pro forma financial performance.

Discussion and Analysis of Telenet's Consolidated Operating Results

Nine Months Ended September 30, 2017 compared to the Nine Months Ended September 30, 2016

Total Revenue.

For the nine months ended September 30, 2017, Telenet generated revenue of €1,884.3 million, representing a 5% increase compared to the nine months ended September 30, 2016 when Telenet recorded revenue of €1,799.9 million. Telenet's reported revenue increase was driven by inorganic movements such as a full nine-month contribution from mobile operator BASE, whereas for the nine months ended September 30, 2016 BASE was only included in Telenet's results since February 11, 2016. In addition, Telenet's results for the nine months ended September 30, 2017 reflected the acquisition of Altice's former Belgian and Luxembourg cable operations ("Coditel Brabant" and "Coditel S.à r.l.", together "**SFR Belux**"), which Telenet acquired on June 19, 2017, contributing €17.1 million to Telenet's revenue since the acquisition date. These inorganic movements were partially offset by the sale of Ortel Mobile to Lycamobile as per March 1, 2017 and the discontinuation of certain fixed legacy products at BASE. On a rebased basis, Telenet achieved 1% revenue growth for the nine months ended September 30, 2017 driven by (i) significantly higher wholesale revenue following the completion of the onboarding of the Lycamobile Full MVNO subscribers at the end of July 2017, (ii) higher cable subscription revenue and (iii) higher business services revenue. These factors were partially offset by (i) lower mobile telephony revenue, (ii) significantly lower revenue from the sale of handsets and customer premise equipment ("CPE") and (iii) lower interconnection revenue.

Video

Telenet's video revenue represents the monthly fee paid by Telenet's video subscribers for the channels they receive in the basic tier and the revenue generated by Telenet's enhanced video subscribers which primarily includes (i) recurring set-top box rental fees, (ii) fees for supplemental premium content offerings, including Telenet's subscription VOD packages "Play", "Play More" and "Play Sports" and (iii) transactional and broadcasting-on-demand services. For the nine months ended September 30, 2017, Telenet's video revenue amounted to €432.3 million, which was up 2% as compared to €424.5 million for the nine months ended September 30, 2016 and included the impacts from the SFR Belux acquisition as mentioned before. On a rebased basis, Telenet's video revenue for the nine months ended September 30, 2017 was broadly stable compared to the nine months ended September 30, 2016 as higher recurring set-top box rental fees and growth in Telenet's premium subscription VOD business were offset by a gradual decline in Telenet's total video subscriber base and slightly lower revenue from transactional VOD services.

Broadband internet

The revenue generated by Telenet's residential and small business broadband internet RGUs totalled €453.1 million for the nine months ended September 30, 2017 and was up 6% compared to the nine months ended September 30, 2016 when Telenet recorded broadband internet revenue of €425.7 million. On a rebased basis, Telenet's broadband internet revenue for the nine months ended September 30, 2017 was up 5% compared to the nine months ended September 30, 2016 driven by (i) continued growth for Telenet's "WIGO" propositions driving a favorable tier mix effect, (ii) the acquisition of SFR Belux and (iii) the benefit from the February 2017 price increase, partially offset by the increased proportion of bundle discounts.

Fixed-line telephony

Telenet's fixed-line telephony revenue includes recurring subscription-based revenue from Telenet's fixed-line telephony subscribers and variable usage-related revenue, but excludes the interconnection revenue generated by these customers which is reported under other revenue. For the nine months ended September 30, 2017, Telenet's fixed-line telephony revenue decreased 1% to €179.9 million compared to €182.5 million for the nine months ended September 30, 2016. Higher subscription revenue driven by the SFR Belux acquisition and the benefit from the aforementioned February 2017 price increase were more than offset by a growing proportion of bundle discounts and lower traffic. The same factors drove a 3% decrease in Telenet's fixed line telephony revenue on a rebased basis for the nine months ended September 30, 2017.

Mobile telephony

Telenet's mobile telephony revenue represents the subscription-based revenue generated by Telenet's direct mobile telephony subscribers and out-of-bundle revenue, but excludes (i) the interconnection revenue generated by these customers, (ii) the revenue earned from handset sales and (iii) revenue recognized under Telenet's "Choose Your Device" programs which are all recorded in other revenue. For the nine months ended September 30, 2017, Telenet generated mobile telephony revenue of €407.8 million, up €19.9 million compared to the nine months ended September 30, 2016. This 5% revenue increase compared to the nine months ended September 30, 2016 reflected the acquisition of BASE, which was effective February 11, 2016. On a rebased basis, Telenet's mobile telephony revenue decreased 2% compared to the nine months ended September 30, 2016 with continued healthy net postpaid subscriber growth being more than offset by (i) lower out-of-bundle revenue generated by Telenet's mobile subscribers in excess of their monthly bundle, (ii) higher bundle-related discounts following the success of Telenet's quad-play "WIGO" propositions and (iii) a continued decline in the number of prepaid subscribers, including the impacts of the mandatory prepaid registration as of June 2017.

Business services

The revenue reported under business services relates to (i) the revenue generated on non-coax products, including fiber and leased DSL lines, (ii) Telenet's carrier business and (iii) value-added services such as hosting and managed security. Revenue generated by Telenet's business customers on all coax-related products is allocated to Telenet's cable subscription revenue lines and is not captured within Telenet Business, Telenet's business services division. Telenet Business generated revenue of €98.5 million for the nine months ended September 30, 2017, up 9% compared to the nine months ended September 30, 2016. Telenet's B2B revenue growth was primarily driven by higher security-related revenue and higher revenue from business connectivity solutions in

the SME segment. On a rebased basis, Telenet's B2B business achieved 7% revenue growth, reflecting the same drivers as mentioned above.

Other

Other revenue primarily includes (i) interconnection revenue from both Telenet's fixed-line and mobile telephony customers, (ii) mobile handset sales, including the revenue earned under Telenet's "Choose Your Device" programs, (iii) wholesale revenue generated through both Telenet's commercial and regulated wholesale businesses, (iv) product activation and installation fees and (v) set-top box sales revenue. Other revenue reached €312.7 million for the nine months ended September 30, 2017, up 8% compared to the nine months ended September 30, 2016 driven by the BASE acquisition as per February 11, 2016 and higher wholesale revenue as mentioned above. On a rebased basis, Telenet's other revenue delivered modest growth (+1% compared to the nine months ended September 30, 2016) as lower revenue from handset sales and interconnection was offset by higher wholesale revenue.

Total Expenses.

For the nine months ended September 30, 2017, Telenet incurred total expenses of €1,542.8 million, representing an increase of 12% compared to the nine months ended September 30, 2016 when Telenet incurred total expenses of €1,383.6 million. Telenet's total expenses for the nine months ended September 30, 2016 included a €6.0 million nonrecurring benefit following the settlement of Telenet's Full- MVNO Agreement with Orange Belgium for the three months ended June 30, 2016 as well as €7.9 million of transformation costs linked to the BASE integration. Telenet's total expenses for the nine months ended September 30, 2017 included a €29.2 million non-cash restructuring charge linked to the accelerated onboarding of Telenet's Full MVNO customer base to Telenet's own mobile network. As mentioned earlier, Telenet now aims for full completion by the end of Q1 next year versus Telenet's initial plan of late 2018, hence impacting the contractual commitments under Telenet's Full MVNO Agreement with Orange Belgium. In addition, Telenet's total expenses for the nine months ended September 30, 2017 reflected (i) a full nine-month contribution from BASE, (ii) the impact of the SFR Belux acquisition as of June 19, 2017 and (iii) the sale of Ortel Mobile as mentioned above.

On a rebased basis, Telenet's total expenses increased 6% for the nine months ended September 30, 2017 as compared to the nine months ended September 30, 2016 as (i) higher depreciation and amortization charges, (ii) the impact of the aforementioned restructuring charge, (iii) higher costs related to professional services and (iv) higher network operating expenses were only partially offset by (i) lower indirect costs as a result of Telenet's continued focus on overhead expenses, (ii) lower direct costs including Telenet's MVNO- related costs and costs related to handset sales and subsidies, (iii) lower staff-related expenses and (iv) lower sales and marketing expenses due to timing variances and phasing in some of Telenet's campaigns. Telenet's total operating expenses represented approximately 82% of Telenet's revenue for the nine months ended September 30, 2017. Cost of services provided as a percentage of Telenet's revenue represented approximately 63% of Telenet's total revenue for the nine months ended September 30, 2017, while selling, general and administrative expenses represented approximately 19% of Telenet's total revenue for the nine months ended September 30, 2017.

Network operating expenses

Telenet's network operating expenses reached €135.8 million for the nine months ended September 30, 2017 compared to €119.5 million for the nine months ended September 30, 2016 (+14% compared to the nine months ended September 30, 2016) and primarily reflected the effects of the BASE and SFR Belux acquisitions as mentioned above. On a rebased basis, Telenet's network operating expenses increased 2% for the nine months ended September 30, 2017 as compared to the nine months ended September 30, 2016 as higher license and maintenance fees and higher electricity costs more than offset the decrease in site- related taxes.

Direct costs (programming and copyrights, interconnect and other)

Telenet's direct costs include all of Telenet's direct expenses such as (i) costs related to interconnection, (ii) handset sales and subsidies and (iii) programming and copyrights. For the nine months ended September 30, 2017, Telenet's direct costs were €447.2 million, which was broadly stable compared to the nine months ended September 30, 2016 despite the aforementioned inorganic impacts from the BASE and SFR Belux acquisitions and the sale of Ortel Mobile. Telenet's direct costs for the nine months ended September 30, 2016 also reflected a €6.0 million one-off favorable impact linked to the settlement of Telenet's Full-MVNO Agreement with Orange Belgium for the three months ended June 30, 2016. On a rebased basis, Telenet's direct costs decreased €11.3

million, or 2%, compared to the nine months ended September 30, 2016 driven by substantially lower costs related to handset sales and subsidies, lower MVNO-related costs and lower copyright expenses on the back of a moderate decrease in Telenet's video customer base.

Staff-related expenses

Staff-related expenses decreased €1.2 million to €186.3 million for the nine months ended September 30, 2017 and included a full nine-month consolidation of BASE and the SFR Belux acquisition. On a rebased basis, staff-related expenses showed a € 9.2 million decrease for the nine months ended September 30, 2017 driven by lower staffing levels and an increase in capitalized labor driven by the modernization of Telenet's fixed and mobile infrastructures.

Sales and marketing expenses

Sales and marketing expenses for the nine months ended September 30, 2017 decreased to €66.7 million compared to €68.9 million for the nine months ended September 30, 2016. On a rebased basis, Telenet's sales and marketing expenses substantially decreased by 5% for the nine months ended September 30, 2017 as the nine months ended September 30, 2016 was characterized by various major marketing campaigns, including handset promotions.

Outsourced labor and professional services

Costs related to outsourced labor and professional services were €30.7 million for the nine months ended September 30, 2017 compared to €20.6 million for the nine months ended September 30, 2016 which included €7.9 million integration and transformation costs related to the BASE acquisition. On a rebased basis, costs related to outsourced labor and professional services increased €7.8 million for the nine months ended September 30, 2017 on the back of higher outsourced labor costs.

Other indirect expenses

Telenet's other indirect expenses reached €106.4 million for the nine months ended September 30, 2017, representing a 4% decrease compared to the nine months ended September 30, 2016. On a rebased basis, other indirect expenses for the nine months ended September 30, 2017 decreased 12% compared to the nine months ended September 30, 2016, mainly driven by Telenet's continued focus on managing Telenet's overhead expenses.

Depreciation, amortization and impairment, including gains on disposal of property and equipment and other intangible assets

Depreciation, amortization and impairment, including gains on disposal of property and equipment and other intangible assets, reached €526.8 million for the nine months ended September 30, 2017 compared to €414.3 million for the nine months ended September 30, 2016. This increase primarily reflected the impact from the BASE acquisition and higher depreciation expenses related to the start of the mobile network upgrade project as announced in August 2016, and IT platforms and systems. In addition, Telenet incurred a €29.2 million non-cash restructuring charge for the three months ended September 30, 2017 linked to the accelerated onboarding of Telenet's Full MVNO customers as mentioned earlier.

Net finance expenses.

For the nine months ended September 30, 2017, net finance expenses totaled €196.8 million compared to €325.9 million of net finance expenses incurred for the nine months ended September 30, 2016. A €75.4 million higher non-cash loss on Telenet's derivatives and a €29.8 million higher non-cash loss on the extinguishment of debt following the early redemption of certain debt instruments during the nine months ended September 30, 2017 were more than offset by a €209.9 million non-cash foreign exchange gain on Telenet's outstanding USD-denominated debt for the nine months ended September 30, 2017. As a result, Telenet's net interest income and foreign exchange gain was €210.3 million for the nine months ended September 30, 2017 as compared to €0.3 million for the nine months ended September 30, 2016. Telenet's net interest expense, foreign exchange loss and other finance expense decreased 13% from €192.3 million for the nine months ended September 30, 2016 to €168.0 million for the nine months ended September 30, 2017 as a result of certain recent refinancings which both extended the average maturity of Telenet's debt and lowered Telenet's overall interest expenses.

Income taxes.

Telenet recorded income tax expense of €38.2 million for the nine months ended September 30, 2017 compared to income tax expense of €46.2 million for the nine months ended September 30, 2016, a decrease of 17% compared to the nine months ended September 30, 2016.

Net profit.

Telenet realized a net profit of €106.3 million for the nine months ended September 30, 2017 compared to a net profit of €41.6 million for the nine months ended September 30, 2016, resulting in a net profit margin of 5.6% compared to a net profit margin of 2.3% for the nine months ended September 30, 2016. The significant improvement in Telenet's net profit for the nine months ended September 30, 2017 versus the nine months ended September 30, 2016 was primarily caused by the aforementioned €209.9 million non-cash foreign exchange gain. Excluding this item, Telenet's net profit would have been lower.

Year Ended December 31, 2016 compared to the Year Ended December 31, 2015**Total Revenue.**

For the year ended December 31, 2016, Telenet generated revenue of €2,429.1 million, representing a 33% increase compared to the year ended December 31, 2015 when Telenet produced revenue of

€1,821.8 million. Telenet's reported revenue increase was primarily driven by the contribution from BASE, which Telenet acquired on February 11, 2016. On a rebased basis, Telenet achieved revenue growth of 3% for the year ended December 31, 2016. Telenet's cable business delivered solid mid-single-digit revenue growth for the year ended December 31, 2016 driven by a 4% increase in cable subscription revenue and higher business services revenue generated by Telenet's security, core data and mobile wholesale business lines. Growth in Telenet's cable subscription revenue was primarily driven by (i) a larger share of triple-play subscribers, (ii) continued growth for Telenet's premium entertainment propositions and (iii) the favorable impact from the February 2016 price adjustments, partially offset by a growing proportion of bundle-related discounts and a modest decline in the total number of unique customer relationships. The continued robust performance of Telenet's cable business was partly offset by continued pressure on Telenet's acquired mobile business, impacted by (i) structural challenges within Telenet's prepaid business as reflected in the declining number of prepaid subscribers, (ii) lower roaming revenue due to caps imposed by the new EU regulation and (iii) lower interconnection revenue.

Video

For the year ended December 31, 2016, Telenet's video revenue amounted to €566.4 million compared to €552.1 million for the year ended December 31, 2015. This 3% increase was driven by higher recurring set-top box rental fees and growth in Telenet's premium subscription VOD business, partly offset by a gradual decline in the total video subscriber base and slightly lower revenue from transactional VOD services.

Broadband internet

The revenue generated by Telenet's residential and small business broadband internet RGUs totalled €572.9 million for the year ended December 31, 2016 and was up 5% compared to the year ended December 31, 2015 when Telenet recorded broadband internet revenue of €546.0 million. Revenue growth was driven by 2% growth in Telenet's subscriber base and the benefit from the aforementioned February 2016 price increase, partially offset by the increased proportion of bundle discounts.

Fixed-line telephony

For the year ended December 31, 2016, fixed-line telephony revenue increased 7% to €243.0 million compared to €226.9 million for the year ended December 31, 2015. Revenue growth was driven by a 3% increase in fixed-line telephony subscribers and the benefit from the aforementioned February 2016 price increase, partly offset by a growing proportion of bundle discounts and lower traffic.

Mobile telephony

For the year ended December 31, 2016, Telenet generated mobile telephony revenue of €564.5 million, up €361.1 million compared to the year ended December 31, 2015. This 178% year-on-year revenue increase reflected the acquisition of BASE, which was effective February 11, 2016. On a rebased basis, mobile telephony revenue decreased 1% year-on-year with continued healthy net postpaid subscriber growth being offset by (i) lower usage-related revenue per user, (ii) lower roaming revenue due to changed EU Regulation, (iii) the impact of the “Choose Your Device” programs as this revenue is recognized under other revenue versus having been recorded under mobile telephony revenue for Telenet’s previous handset installment plans and (iv) higher bundle-related discounts following the success of Telenet’s quad-play “WIGO” propositions.

Business services

Telenet Business generated revenue of €122.2 million for the year ended December 31, 2016, up 9% compared to the year ended December 31, 2015 on a rebased basis. Telenet’s B2B revenue growth was primarily driven by (i) higher revenue from carrier services for mobile, (ii) higher security-related revenue and (iii) higher revenue from business connectivity solutions.

Other

Other revenue reached €360.1 million for the year ended December 31, 2016, up 1% on a rebased basis driven by higher revenue from the sale of standalone handsets versus the year ended December 31, 2015 largely attributable to the impact of Telenet’s “Choose Your Device” programs launched mid-2015, offset by lower interconnection revenue and lower installation revenue.

Total Expenses.

For the year ended December 31, 2016, Telenet incurred total expenses of €1,943.7 million, representing an increase of 52% compared to the year ended December 31, 2015 when Telenet incurred total expenses of €1,278.7 million, and reflecting the impact from the BASE acquisition since mid-February 2016. Total expenses for the year ended December 31, 2016 included a €6.0 million benefit linked to the resolution of certain operational contingencies associated with the settlement of the Full-MVNO Arrangement with Orange Belgium in Q2 2016. In addition, Telenet incurred €8.3 million integration and transformation costs for the year ended December 31, 2016 linked to the BASE acquisition. Telenet’s expenses for the year ended December 31, 2015 included a net €17.5 million favorable impact resulting from a €13.8 million favorable impact from the Q4 2015 reversal of restructuring charges as a result of a settlement with Norkring België related to the DTT spectrum license and a €7.6 million favorable impact from the resolution of a contingency associated with universal service obligations in Q2 2015, partially offset by the unfavorable impact of a €3.9 million settlement with the Belgian telecoms regulator BIPT with regards to the 2G mobile spectrum license in Q4 2015.

On a rebased basis, total expenses increased 11% for the year ended December 31, 2016 as compared to the year ended December 31, 2015. Total expenses represented 80.0% of revenue for the year ended December 31, 2016.

Network operating expenses

Network operating expenses reached €142.9 million for the year ended December 31, 2016 compared to €68.0 million for the year ended December 31, 2015 (+110% year-on-year) and primarily reflected the effects of the BASE acquisition. On a rebased basis, network operating expenses increased 15% year-on-year for the year ended December 31, 2016 as a result of (i) higher network equipment maintenance, (ii) higher electricity costs partially due to changes in local legislation and (iii) higher pole rental charges.

Direct costs (programming and copyrights, interconnect and other)

Direct costs include all of Telenet’s direct expenses such as (i) costs related to interconnection, (ii) handset sales and subsidies and (iii) programming and copyrights. For the year ended December 31, 2016, direct costs were €607.8 million, up 43% compared to the year ended December 31, 2015, mainly impacted by the BASE acquisition. On a rebased basis, direct costs remained broadly flat for the year ended December 31, 2016, which included the aforementioned benefit of €6.0 million linked to the settlement of the Full-MVNO

Agreement with Orange Belgium in Q2 2016. Excluding this favorable impact, direct costs would have increased relative to the year ended December 31, 2015, reflecting higher content-related expenses as a result of Telenet's connected entertainment strategy and higher costs related to handset sales, partially offset by substantially lower handset subsidies and lower interconnection expenses, including MVNO- related costs.

Staff-related expenses

Staff-related expenses increased €78.1 million to €258.4 million for the year ended December 31, 2016 and reflected (i) the acquisition of BASE, (ii) the effect of the mandatory wage indexation since early 2016 and (iii) modest growth in the combined employee base. On a rebased basis, Telenet's staff-related expenses for the year ended December 31, 2016 increased a moderate 2% as compared to the year ended December 31, 2015 mainly as a result of the aforementioned wage indexation and modest growth in Telenet's joint employee base.

Sales and marketing expenses

Sales and marketing expenses for the year ended December 31, 2016 reached €97.7 million compared to €74.2 million for the year ended December 31, 2015. On a rebased basis, sales and marketing expenses for the year ended December 31, 2016 slightly decreased year-on-year, primarily as a result of phasing in some of Telenet's campaign and increased focus on obtaining a higher return on marketing spend.

Outsourced labor and professional services

Costs related to outsourced labor and professional services were €50.1 million for the year ended December 31, 2016 compared to €41.8 million for the year ended December 31, 2015. On a rebased basis, costs related to outsourced labor and professional services increased €3.3 million, or 7%, year-on-year for the year ended December 31, 2016, primarily including costs linked to the integration of BASE and higher legal fees.

Other indirect expenses

Other indirect expenses reached €155.1 million for the year ended December 31, 2016, up 75% compared to the year ended December 31, 2015, impacted by the BASE acquisition. Moreover, other indirect expenses for the year ended December 31, 2015 included a €7.6 million benefit linked to the resolution of a contingency associated with universal service obligations. On a rebased basis, other indirect expenses for the year ended December 31, 2016 were up 7% compared to the year ended December 31, 2015. For the year ended December 31, 2016, other indirect expenses represented 6.4% of total revenue.

Depreciation, amortization and impairment, including gains on disposal of property and equipment and other intangible assets

Depreciation and amortization, including gains on disposal of property and equipment and other intangible assets, reached €609.1 million for the year ended December 31, 2016 compared to €390.4 million for the year ended December 31, 2015. This increase primarily reflected the impact from the BASE acquisition and higher depreciation expenses related to the start of the mobile network upgrade project as announced in August 2016, set-top boxes and IT.

Net finance expenses.

For the year ended December 31, 2016, net finance expenses totaled €369.9 million compared to €263.7 million of net finance expenses incurred for the year ended December 31, 2015. For the year ended December 31, 2016, Telenet incurred a €45.7 million loss on the extinguishment of debt following the June 2016 refinancing of certain Senior Secured Notes due 2021 for an aggregate amount of €700.0 million and the November 2016 refinancing of certain Term Loans for an aggregate amount of €2,962.9 million, as compared to a €30.8 million loss on the extinguishment of debt for the year ended December 31, 2015. Net interest expense, foreign exchange loss and other finance expense increased 33% from €249.4 million for the year ended December 31, 2015 to €330.7 million for the year ended December 31, 2016, largely due to debt incurred in connection with the BASE acquisition and a higher exposure to USD-denominated debt versus 2015.

Impairment on an investment in an equity accounted investee.

For the year ended December 31, 2016, Telenet took a €31.0 million impairment charge on an investment in an equity accounted investee following the re-assessment of their strategic long-range plan in the three months ended December 31, 2016.

Income taxes.

Telenet recorded income tax expense of €43.0 million for the year ended December 31, 2016 compared to income tax expense of €99.6 million for the year ended December 31, 2015, a decrease of 57% year-on-year, reflecting a 69% decrease in pre-tax profit and the impact of the aforementioned impairment charge.

Net income.

Telenet realized net profit of €41.6 million for the year ended December 31, 2016 compared to €175.7 million for the year ended December 31, 2015 (-76% year-on-year), resulting in a net margin of 1.7% for the year ended December 31, 2016 compared to 9.6% for the year ended December 31, 2015. The decrease in net profit was primarily caused by (i) an 11% decrease in operating profit, (ii) a 40% increase in net finance expenses as a result of increased indebtedness in connection with the BASE acquisition, (iii) a €14.9 million higher loss on extinguishment of debt compared to the year ended December 31, 2015 and (iv) the aforementioned €31.0 million impairment charge for the three months ended December 31, 2016.

Year Ended December 31, 2015 compared to the Year Ended December 31, 2014

Total revenue.

For the year ended December 31, 2015, the Company generated revenue of €1,808.4 million, representing a 6% increase compared to the year ended December 31, 2014 when the Company produced revenue of €1,707.1 million. All of the Company's revenue growth for the year ended December 31, 2015 was organic and directly driven by (i) solid multiple-play growth with the number of triple-play subscribers at December 31, 2015 up 6% compared to December 31, 2014, (ii) the benefit from the selective price increase on certain fixed services in January 2015, (iii) a €22.4 million higher contribution from Telenet's mobile activities, driven by robust mobile postpaid subscriber growth, and (iv) an 8% increase in business services revenue.

Video

For the year ended December 31, 2015, video revenue amounted to €552.1 million compared to €542.9 million for the year ended December 31, 2014. This 2% increase was driven by higher recurring set-top box rental fees and growth in the premium subscription VOD business, partly offset by a gradual decline in the total video subscriber base and lower revenue from transactional VOD services.

Broadband internet

The revenue generated by Telenet's residential and small business broadband internet RGUs totalled €546.0 million for the year ended December 31, 2015 and was up 6% compared to the year ended December 31, 2014 when broadband internet revenue amounted to €510.0 million. Revenue growth was driven by 3% growth in Telenet's subscriber base and the benefit from the aforementioned price increase effective from the end of January 2015, in part offset by the increased proportion of bundle discounts.

Fixed-line telephony

For the year ended December 31, 2015, fixed-line telephony revenue increased 7% to €226.9 million compared to €211.1 million for the year ended December 31, 2014 driven by a 5% increase in fixed-line telephony subscribers and the benefit from the aforementioned January 2015 price increase, partly offset by a growing proportion of bundle discounts.

Mobile telephony

For the year ended December 31, 2015, mobile telephony revenue amounted to €203.4 million, up €22.4 million compared to the year ended December 31, 2014. This robust 12% revenue increase compared to the year ended December 31, 2014 reflected continued double-digit growth in the number of postpaid subscribers, partially offset by a decrease in usage-related revenue per user.

Business services

Telenet Business generated revenue of €118.1 million for the year ended December 31, 2015, which was up 8% compared to the year ended December 31, 2014 when business services revenue reached €109.4 million. B2B revenue growth was primarily driven by (i) higher security-related revenue, (ii) higher revenue from business connectivity solutions and (iii) higher revenue from carrier services for mobile.

Other

Other revenue reached €161.9 million for the year ended December 31, 2015, up 6% compared to the year ended December 31, 2014. Growth in 'Other' revenue was primarily driven by the introduction of a handset financing program in the three months ended September 30, 2015 and higher interconnection revenue generated by Telenet's mobile telephony subscribers, partially offset by lower set-top box sales revenue compared to the year ended December 31, 2014 when the legacy SD platform was switched off.

Total Expenses.

For the year ended December 31, 2015, Telenet incurred total operating expenses of €1,265.3 million, representing an increase of 8% compared to the year ended December 31, 2014 when total operating expenses amounted to €1,174.9 million. Operating expenses for the year ended December 31, 2015 included a €13.8 million favorable impact from the reversal of restructuring charges as a result of a settlement with Norkring België related to the DTT spectrum license and a €7.6 million favorable impact from the resolution of a contingency associated with universal service obligations, partially offset by a €3.9 million settlement with the Belgian telecoms regulator BIPT with regards to the 2G mobile spectrum license. Operating expenses for the year ended December 31, 2014 reflected a €12.5 million favorable impact from the settlement of certain operational contingencies. Excluding these nonrecurring benefits for the year ended December 31, 2015 and 2014, the underlying increase of total operating expenses would have been slightly higher and was primarily driven by (i) higher network operating and service costs including higher programming costs as a result of Telenet's connected entertainment strategy, (ii) a 10% increase in depreciation and amortization charges, (iii) €7.1 million higher advertising, sales and marketing costs, and (iv) higher direct acquisition costs and other costs primarily linked to the acquisition and integration of BASE Company.

Employee benefits

Employee benefits reached €155.8 million for the year ended December 31, 2015 and were up €2.0 million compared to the year ended December 31, 2014 as modest growth in Telenet's employee base was offset by lower bonus accruals.

Depreciation and amortization, including gains on disposal of property and equipment and other intangible assets

Depreciation and amortization, including gains on disposal of property and equipment and other intangible assets, reached €390.4 million for the year ended December 31, 2015 compared to €355.5 million for the year ended December 31, 2014. The 10% increase compared to the year ended December 31, 2014 primarily reflected higher depreciation expenses related to set-top boxes and IT.

Network operating and service costs

Compared to the year ended December 31, 2014, network operating and service costs increased €44.5 million from €524.5 million to €569.0 million for the year ended December 31, 2015. This 8% increase in network operating and service costs was primarily driven by (i) higher copyrights and content-related expenses, (ii) higher interconnection costs driven by continued growth in both Telenet's mobile and fixed-line telephony subscriber base and (iii) higher costs related to handset sales, partially offset by lower handset subsidies compared to the year ended December 31, 2014. As a reminder, network operating and service costs for the year ended December 31,

2014 reflected a nonrecurring €12.5 million favorable impact from the settlement of certain operational contingencies, without which the increase in network operating and service costs would have been lower.

Advertising, sales and marketing

Advertising, sales and marketing expenses of €74.2 million for the year ended December 31, 2015 increased by 11% compared to the year ended December 31, 2014, reflecting timing variances in some of Telenet's marketing campaigns and promotional activity around its new "Vollenbak voordelen" campaigns that highlight the monetary advantages that new and existing Telenet customers enjoy.

Other costs, including operating charges related to acquisitions or divestitures and restructuring charges

Other costs, including operating charges related to acquisitions or divestitures and restructuring charges, amounted to €61.5 million for the year ended December 31, 2015, which was broadly stable compared to €65.7 million for the year ended December 31, 2014. Other costs for the year ended December 31, 2015 included a €13.8 million favorable impact from the reversal of restructuring charges as a result of a settlement with Norkring België related to the DTT spectrum license and a €7.6 million nonrecurring benefit from the resolution of a contingency associated with universal service obligations, partially offset by a €3.9 million settlement with the Belgian telecoms regulator BIPT with regards to the 2G mobile spectrum license. Following this settlement, Telenet has no further outstanding payment obligations with regards to the 2G mobile spectrum license. Excluding these impacts, other costs would have increased compared to the year ended December 31, 2014. The underlying increase reflected higher business-supporting corporate advisory and legal fees, including those for the acquisition and integration of BASE Company.

Net finance expenses.

For the year ended December 31, 2015, net finance expenses totaled €263.7 million compared to €331.6 million of net finance expenses incurred for the year ended December 31, 2014. Despite a €30.8 million loss on the extinguishment of debt following the prepayment of the €500.0 million Senior Secured Notes due 2020 in August 2015, net finance expenses for the year ended December 31, 2015 decreased 20% compared to the year ended December 31, 2014 as the Company realized a non-cash gain on its derivatives of €13.8 million in the year ended December 31, 2015 whereas the year ended December 31, 2014 showed a loss of €67.4 million in this respect. In addition, Telenet incurred €9.8 million lower net interest expenses for the year ended December 31, 2015 following the early redemption of the remaining outstanding amounts under certain Term Loans following the April 2014 refinancing and the favorable effects of the partial unwinding of its derivatives portfolio in December 2014. These favorable impacts were partly offset by slightly higher accrued interest expenses as a result of commitment fees incurred on the undrawn financing facilities related to the BASE Company acquisition, which began to accrue in the three months ended September 30, 2015.

Income taxes.

The Company recorded income tax expenses of €99.6 million for the year ended December 31, 2015, up 9% compared to income tax expenses of €91.7 million for the year ended December 31, 2014.

Net income.

For the year ended December 31, 2015 the Company earned net income of €175.7 million, which was substantially higher compared to the €109.3 million achieved for the year ended December 31, 2014. Net income growth for the year ended December 31, 2015 was boosted by a €13.8 million net gain on derivative financial instruments whereas the year ended December 31, 2014 showed a net loss of €67.4 million in this respect.

Adjusted EBITDA

Nine Months Ended September 30, 2017 compared to the Nine Months Ended September 30, 2016

For the nine months ended September 30, 2017, Telenet realized Adjusted EBITDA of €911.2 million, up 7% compared to the nine months ended September 30, 2016 when Telenet produced Adjusted EBITDA of €847.8 million. Telenet's Adjusted EBITDA for the nine months ended September 30, 2017 included (i) the contribution of BASE from February 11, 2016, (ii) the acquisition of SFR Belux as of June 19, 2017 contributing €10.1 million to Telenet's Adjusted EBITDA since the acquisition date and (iii) reflected the sale of Ortel Mobile as of March

1, 2017, as mentioned above. Telenet's Adjusted EBITDA for the nine months ended September 30, 2016 included a €6.0 million nonrecurring favorable impact without which Telenet's underlying Adjusted EBITDA growth would have been stronger.

Compared to the nine months ended September 30, 2016, Telenet achieved robust rebased Adjusted EBITDA growth of 5% for the nine months ended September 30, 2017. Growth in Telenet's rebased Adjusted EBITDA was supported by (i) lower costs related to handset sales and subsidies relative to promotional activity in the nine months ended September 30, 2016, (ii) lower MVNO-related costs as a result of the accelerated onboarding of Telenet's Full MVNO customers, (iii) lower integration and transformation costs linked to the BASE acquisition as compared to the nine months ended September 30, 2016 and (iv) tight cost control, including an increased focus on Telenet's overhead expenses. Telenet's Adjusted EBITDA margin reached 48.4% for the nine months ended September 30, 2017 compared to 47.1% on a reported basis for the nine months ended September 30, 2016. As such, Telenet was able to fully absorb a higher proportion of lower-margin premium content revenue and mobile telephony revenue in Telenet's revenue mix, including BASE's contribution since the acquisition.

Year Ended December 31, 2016 compared to the Year Ended December 31, 2015

For the year ended December 31, 2016 Telenet realized Adjusted EBITDA of €1,117.1 million, up 18% compared to the year ended December 31, 2015 when Telenet produced Adjusted EBITDA of €943.7 million. Adjusted EBITDA for the year ended December 31, 2016 included the contribution of BASE from February 11, 2016, as mentioned above. Telenet's Adjusted EBITDA for both the year ended December 31, 2016 and for the year ended December 31, 2015 included benefits of €6.0 million and €7.6 million, respectively, as mentioned above. For the year ended December 31, 2016, Telenet achieved rebased Adjusted EBITDA growth of 3%. Growth in rebased Adjusted EBITDA was supported by a solid rebased top line growth performance of 3%, complemented by tight cost control, including an increased focus on overhead expenses, and lower interconnection and handset subsidy-related costs. Telenet's Adjusted EBITDA margin reached 46.0% for the year ended December 31, 2016 compared to 51.8% on a reported basis for the year ended December 31, 2015. This decline was mainly driven by a higher proportion of lower-margin mobile business, including BASE's contribution since the acquisition, and premium content revenue in the overall mix.

Year Ended December 31, 2015 compared to the Year Ended December 31, 2014

For the year ended December 31, 2015, the Company realized Adjusted EBITDA of €943.7 million, up 5% compared to the year ended December 31, 2014 when Telenet produced Adjusted EBITDA of €900.0 million. Adjusted EBITDA for the year ended December 31, 2015 and 2014 included favorable impacts of €7.6 million and €12.5 million, respectively, as mentioned above and was not impacted by the aforementioned reversal of restructuring charges. The solid growth in Adjusted EBITDA was primarily driven by accretive multiple-play growth, including the impact from the January 2015 price adjustments and Telenet's continued focus on cost efficiencies and operating leverage, partly offset by (i) higher content-related expenses, (ii) higher interconnection costs driven by continued growth in both Telenet's mobile and fixed-line telephony subscriber base and (iii) higher costs related to the integration of BASE Company. The Adjusted EBITDA margin reached 51.8% for the year ended December 31, 2015 compared to 52.7% for the year ended December 31, 2014. This decline was mainly driven by a higher proportion of lower-margin mobile and premium content revenue in Telenet's overall mix and higher costs associated with the integration of BASE Company which Telenet has started incurring mainly in the six months ended December 31, 2015.

Liquidity and Capital Resources

Sources and Uses of Cash

As a holding company, Telenet Group Holding's primary assets are its investments in consolidated subsidiaries. Telenet Group Holding's primary subsidiary is Telenet Group BVBA (formerly referred to as BASE Company NV), which owns all of the operating subsidiaries that are consolidated by Telenet Group Holding including Telenet BVBA, Coditel Brabant and Coditel Lux. Although Telenet's consolidated subsidiaries have generated cash from operating activities, the terms of the instruments governing the indebtedness of certain of these subsidiaries, including Telenet Group BVBA, Telenet BVBA, Coditel Brabant, Coditel Lux and Telenet International Finance, may restrict its ability to access the assets of these subsidiaries. As set forth in the table below, these subsidiaries accounted for substantially all of Telenet's consolidated cash and cash equivalents at September 30, 2017. In addition, Telenet's ability to access the liquidity of these and other subsidiaries may be limited by tax considerations and other factors.

Cash and cash equivalents

The details of the euro equivalent balances of Telenet's consolidated cash and cash equivalents at September 30, 2017 are set forth in the following table. With the exception of Telenet Group Holding, which is reported on a stand-alone basis, the amounts presented below include the cash and cash equivalents of the named entity and its subsidiaries unless otherwise noted (in millions of euro):

Cash and cash equivalents held by:

Telenet Group Holding.....	1.2
Telenet Group BVBA.....	31.9
Other Telenet companies.....	3.9
Total cash and cash equivalents.....	<u>37.0</u>

Liquidity of Telenet Group Holding

The €1.2 million of cash and cash equivalents held by Telenet Group Holding represented available liquidity at the corporate level at September 30, 2017. The remaining cash and cash equivalents of €35.8 million at September 30, 2017 were held by Telenet Group Holding's operating subsidiaries as set forth in the table above. As noted above, various factors may limit Telenet Group Holding's ability to access the cash of its consolidated operating subsidiaries.

From time to time, Telenet Group Holding may also receive (i) proceeds in the form of distributions or loan repayments from its operating subsidiaries or affiliates upon (a) the completion of recapitalizations, refinancings, asset sales or similar transactions by these entities or (b) the accumulation of excess cash from operations or other means or (ii) proceeds received in connection with Telenet's issuance of debt or equity securities.

The ongoing cash needs of Telenet Group Holding include general corporate and administrative expenses. From time to time, Telenet Group Holding may also require cash in connection with (i) dividend disbursements to its equity holders, (ii) acquisitions, (iii) the repurchase of equity and debt securities or (iv) other investment opportunities. No assurance can be given that any external funding would be available on favorable terms, or at all.

Liquidity of Subsidiaries

The cash and cash equivalents of Telenet Group Holding's significant subsidiaries are detailed in the table above. In addition to cash and cash equivalents, the primary sources of liquidity of Telenet Group Holding's subsidiaries are cash from operations and, in the case of Telenet BVBA and Telenet International Finance, borrowing availability under their respective debt instruments.

In April 2015, the Company issued two new debt facilities under the 2010 Amended Senior Credit Facility for an aggregate amount of €1,000.0 million in anticipation of the acquisition of BASE Company. Through Telenet International Finance S.à r.l., which acts as the group's financing center, a floating rate €800.0 million Term Loan ("Term Loan AA") with a maturity of June 30, 2023 and a 3.50% margin over EURIBOR was issued. In addition, the Company secured an additional €200.0 million Revolving Credit Facility ("Facility Z") with a maturity of June 30, 2018 and a margin of 2.25% over EURIBOR.

In July 2015, the Company issued €530.0 million 4.875% Senior Secured Fixed Rate Notes due 2027. The net proceeds of this issuance were used in August 2015 to prepay €500.0 million of Senior Secured Notes due 2020. In July 2015, Telenet also upsized the available commitments under its Revolving Credit Facility ("Facility X") by €85.0 million to an aggregate of €381.0 million and in September 2015, Telenet cancelled €26.9 million of short-dated available commitments under its Revolving Credit Facility ("Facility S").

In February 2016, the Company drew €1,217.0 million under the 2015 Amended Senior Credit Facility for the financing of the BASE acquisition of which €417.0 million was drawn under the revolving credit facilities. By the end of October 2016, all the outstanding amounts under the revolving credit facilities used for the BASE acquisition had been fully repaid. In May 2016, Telenet successfully tapped the US market, issuing a \$850.0 million Term Loan ("Facility AD") due June 30, 2024. The net proceeds of this transaction were used to prepay up to €700.0 million of Senior Secured Notes due 2021.

In November 2016, the Company issued a €1.6 billion Term Loan (“Facility AE”) and a \$1.5 billion Term Loan (“Facility AF”), both due January 31, 2025. Facility AE carries a margin of 3.25% over EURIBOR with a 0% floor and was issued at par. Facility AF carries a margin of 3.00% over LIBOR with a 0% floor and was issued at 99.50%. The net proceeds from these issuances were used to entirely prepay the following credit facilities under Telenet’s 2015 Amended Senior Credit Facility: (i) Facility W (€474.1 million due June 2022, EURIBOR +3.25%, 0% floor), (ii) Facility Y (€882.9 million due June 2023, EURIBOR +3.50%, 0% floor), (iii) Facility AA (€800.0 million due June 2023, EURIBOR + 3.50%, 0% floor) and (iv) Facility AD (\$850.0 million due June 2024, LIBOR + 3.50%, 0.75% floor). Through this transaction, Telenet was able to extend the average tenor of its debt maturities at attractive market conditions from 7 years to just over 8 years post-refinancing, while ensuring increased covenant flexibility going forward. In conjunction with the aforementioned refinancing, Telenet also upsized and extended the outstanding commitments under the undrawn revolving credit facility (previously under Facility X, which was cancelled and replaced with Facility AG) from €381.0 million to €400.0 million and extended the maturity to June 2023 from September 2020.

In April 2017, Telenet successfully syndicated and priced a new €1.33 billion Term Loan facility (“Facility AH”) due on March 31, 2026 and a new \$1.8 billion Term Loan facility (“Facility AI”) due on June 30, 2025. Facility AH carries a margin of 3.0% over EURIBOR with a 0% floor and was issued at 99.75% of par. Facility AI carries a margin of 2.75% over LIBOR with a 0% floor and was issued at 99.75% of par. The net proceeds of these issuances were used in May 2017 to entirely prepay the following credit facilities under Telenet’s 2015 Amended Senior Credit Facility: (i) Facility AE (€1.6 billion due January 2025, EURIBOR +3.25%, 0% floor), and (ii) Facility AF (USD 1.5 billion due January 2025, LIBOR + 3.00%, 0% floor).

In May 2017, Telenet successfully issued an additional \$500.0 million Term Loan (“Facility AI2”). Facility AI2 carries the same characteristics as the initial Facility AI which was issued on April 4, 2017. As such, Facility AI2 carries (i) a margin of 2.75% over LIBOR, (ii) a 0% floor and (iii) a maturity of June 30, 2025. Term Loan AI2 was issued at par and has been merged into the initial Facility AI. The net proceeds were used mid-June 2017 to prepay the 6.25% €450.0 million Senior Secured Notes due August 2022. Through the two aforementioned transactions, Telenet succeeded in extending the average tenor of Telenet’s debt maturities at attractive market conditions, while locking in long-term attractive interest rates.

In June 2017, Telenet drew €210.0 million under Telenet’s revolving credit facilities to partially fund the acquisition of SFR Belux of which €120.0 million under Telenet’s RCF Z and the remaining €90.0 million under Telenet’s longer-dated RCF AG. In the course of the three months ended September 30, 2017, Telenet used its excess cash balance to fully repay the drawn commitments under Telenet’s RCF AG, while Telenet repaid and cancelled €75.0 million under Telenet’s short-dated RCF Z. Early October, the last tranche of €45.0 million under RCF Z was repaid and subsequently cancelled.

Telenet Group Holding’s subsidiaries’ liquidity generally is used to fund capital expenditures and debt service requirements. From time to time, Telenet Group Holding’s subsidiaries may also require funding in connection with (i) acquisitions and other investment opportunities, (ii) loans to Telenet Group Holding and (iii) distributions to Telenet Group Holding. No assurance can be given that any external funding would be available to Telenet Group Holding’s subsidiaries on favorable terms, or at all. For a discussion of Telenet’s consolidated capital expenditures and cash provided by operating activities, see the discussion under “—Condensed Consolidated Cash Flow Statements” below.

Capitalization

Telenet remains committed to deliver attractive and sustainable shareholder value in line with the Company’s long-term Net Total Debt to Consolidated Annualized EBITDA ratio. This methodology provides for an optimal balance between growth, shareholder returns and attractive access to capital markets. The Company aims to achieve this leverage target through potential value-accretive acquisitions and/or investments to support future business growth and cash returns to shareholders, underpinned by strong Adjusted Free Cash Flow generation and a continued optimization of the financing structure.

As of September 30, 2017, the outstanding balance of Telenet’s consolidated total borrowings and total cash and cash equivalents—as defined under Telenet’s 2017 Amended Senior Credit Facility—resulted in a Net Total Debt to Consolidated Annualized EBITDA ratio of 3.1x (June 30, 2017: 3.4x). As per Telenet’s 2017 Amended Senior Credit Facility, Telenet’s Consolidated Annualized EBITDA continues to include certain unrealized synergies with regards to both the acquisition of BASE and SFR Belux, while Telenet’s Net Total Debt now excludes any lease-related liabilities versus €165.9 million reflected in Telenet’s net leverage ratio for the three months ended

June 30, 2017. Telenet's current net leverage ratio is significantly below the springing maintenance covenant of 6.0x and the incurrence test of 4.5x net senior leverage.

Telenet's ability to service or refinance its debt and to maintain compliance with its leverage covenants is dependent primarily on its ability to maintain or increase the Adjusted EBITDA of its operating subsidiaries and to achieve adequate returns on its capital expenditures and acquisitions. In this regard, if the Adjusted EBITDA of Telenet Group Holding were to decline significantly, it could be required to repay or limit its borrowings under the Senior Credit Facility in order to maintain compliance with applicable covenants.

At September 30, 2017, Telenet's outstanding consolidated third-party debt and capital lease obligations aggregated €4,804.6 million, including €45.0 million drawn under its revolving credit facilities, and

€780.0 million principal amount is related to the Senior Secured Fixed Rate Notes with maturities ranging from 2024 through 2027. Telenet's total debt balance at September 30, 2017 also included €190.1 million of short-term debt related to the Company's vendor financing program and €23.7 million for the outstanding portion of the 3G mobile spectrum including accrued interest. The remainder primarily represents the capital lease obligations associated with the Interkabel Acquisition.

Telenet believes that it has sufficient resources to repay or refinance the current portion of its debt and capital lease obligations and to fund its foreseeable liquidity requirements during the next twelve months. However, as its debt maturities grow in later years, Telenet anticipates that it will seek to refinance or otherwise extend its debt maturities. No assurance can be given that Telenet will be able to complete additional refinancing transactions or otherwise extend its debt maturities in light of current market conditions. In this regard, it is not possible to predict how the current state of the credit and equity markets and the associated difficult economic conditions will impact Telenet's future financial position. However, (i) additional financial institution failures could (a) reduce amounts available under committed credit facilities and (b) adversely impact Telenet's ability to access cash deposited with any failed financial institution and (ii) sustained or further tightening of the credit markets could adversely impact Telenet's ability to access debt financing on favorable terms, or at all.

In addition, sustained or increased competition, particularly in combination with a weak economy, could adversely impact Telenet's cash flows and liquidity. The regulatory decisions of the BIPT, VRM and CSA aim to, and in its application may, strengthen Telenet's competitors by granting them resale access to Telenet's network. The extent of any such adverse impacts ultimately will be dependent on the extent that competitors, such as Orange Belgium, take advantage of the resale access ultimately afforded to Telenet's network and other competitive factors or market developments. See *"Description of Telenet's Business— Regulation—Broadcasting Regulation— Decisions of the BIPT, the VRM, the CSA and the Medienrat"* and *"Risk Factors—Risks Relating to Legislative and Regulatory Matters—Telenet may become subject to more extensive regulation if it is deemed to possess significant market power in any of the markets in which Telenet operates"*.

Condensed Consolidated Cash Flow Statements

The table below summarizes Telenet's consolidated cash flow for the different periods.

	Nine months ended September 30,		Year ended December 31,		
	2017	2016	2016	2015	2014
	€ in millions				
Net Cash from operating activities	669.8	518.3	749.1	665.5	571.6
Net Cash used in investing activities	(737.5)	(1,527.7)	(1,660.2)	(433.1)	(318.6)
Net Cash from (used in) financing activities	5.5	755.0	733.0	(144.2)	(278.0)
Net cash generated (used)	(62.2)	(254.4)	(178.1)	88.2	(25.0)

Nine Months Ended September 30, 2017 compared to the Nine Months Ended September 30, 2016

Net cash from operating activities.

For the nine months ended September 30, 2017, Telenet's operations yielded €669.8 million of net cash compared to the €518.3 million Telenet generated during the nine months ended September 30, 2016. The net cash from Telenet's operating activities for the nine months ended September 30, 2017 reflected (i) a full nine-month contribution from BASE, (ii) the sale of Ortel Mobile as of March 1, 2017 and (iii) the impact from the June 2017

SFR Belux acquisition. The net cash generated by Telenet's operating activities increased 29% compared to the nine months ended September 30, 2016 as the nine months ended September 30, 2016 included a €23.5 million cash outflow following a favorable contract renegotiation and the payment of €18.7 million of ticking fees linked to the BASE acquisition. In addition, growth in Telenet's net cash from operating activities was driven by (i) robust underlying Adjusted EBITDA growth as mentioned above, (ii) €35.3 million lower cash interest expenses as a result of Telenet's recent refinancing transactions, partially offset by the cash interest expenses incurred on the SFR Belux acquisition financing and a growing proportion of short-term liabilities from Telenet's vendor financing platform and (iii) an improved trend in Telenet's working capital, partially offset by €22.4 million higher cash taxes paid.

Net cash used in investing activities.

Telenet used €737.5 million of net cash in investing activities for the nine months ended September 30, 2017 compared to €1,527.7 million of net cash used in investing activities for the nine months ended September 30, 2016 which reflected the acquisition of BASE as of February 11, 2016. Telenet's net cash used in investing activities for the nine months ended September 30, 2017 reflected the acquisition of SFR Belux as of June 19, 2017. The net cash used in investing activities for the nine months ended September 30, 2017 also included cash payments for Telenet's capital expenditures, including cash payments for both the Jupiler Pro League and the UK Premier League football broadcasting rights. In Q3 2016, Telenet implemented a vendor financing program through which Telenet are able to extend Telenet's payment terms for certain suppliers to 360 days at an attractive all-in cost. During the nine months ended September 30, 2017, Telenet acquired €88.7 million of assets through capital-related vendor financing, favorably impacting Telenet's net cash used in investing activities for the equivalent amount.

Net cash from financing activities.

The net cash from financing activities was €5.5 million for the nine months ended September 30, 2017 compared to €755.0 million of net cash from financing activities for the nine months ended September 30, 2016 when Telenet's net cash from financing activities was impacted by debt borrowings related to the BASE acquisition in February 2016. The net cash from financing activities for the nine months ended September 30, 2017 reflected (i) the impacts from Telenet's refinancing transactions in 2017, (ii) the draw-down of €210.0 million under Telenet's revolving credit facilities to fund a portion of the SFR Belux acquisition, partially offset by a €165.0 million repayment for the three months ended September 30, 2017 and (iii) additions to Telenet's vendor financing program. In addition, Telenet incurred €37.4 million of financing-related fees for the nine months ended September 30, 2017, notably (i) a make-whole premium of €19.1 million linked to the early redemption of Telenet's 6.25% €450.0 million Senior Secured Notes due 2022 and (ii) €18.3 million of debt issuance fees linked to the new debt issuances. In the nine months ended September 30, 2017, Telenet spent €28.9 million on share repurchases under the Share Repurchase Program 2017, net of the sale of treasury shares following the exercise of certain stock options. The remainder of the net cash from financing activities primarily consisted of capital lease repayments and other financial payments

Year Ended December 31, 2016 compared to the Year Ended December 31, 2015

Net cash from operating activities.

For the year ended December 31, 2016, Telenet's operations yielded €749.1 million of net cash compared to €665.5 million Telenet generated during the year ended December 31, 2015, and included a 10.5-month contribution of BASE. The net cash generated by Telenet's operating activities increased 13% year-on-year as a result of (i) robust underlying Adjusted EBITDA growth, (ii) the effects from the BASE acquisition and (iii) an improved trend in working capital. These improvements were only partially offset by (i) €29.5 million higher cash interest expenses relative to the year ended December 31, 2015 as a result of increased indebtedness and the payment of €18.7 million ticking fees linked to the BASE acquisition in the three months ended March 31, 2016, (ii) €14.4 million higher cash taxes paid compared to the year ended December 31, 2015 and (iii) a €23.5 million cash outflow in the three months ended March 31, 2016 following a favorable contract renegotiation.

Net cash used in investing activities.

The Company used €1,660.2 million of net cash in investing activities for the year ended December 31, 2016 compared to €433.1 million of net cash used in investing activities for the year ended December 31, 2015. The strong year-on-year increase in net cash used in investing activities was primarily driven by the acquisition of

BASE for €1,180.5 million net of cash acquired, which closed on February 11, 2016. The net cash used in investing activities for the year ended December 31, 2016 also included cash payments for capital expenditures, including annual cash payments for the Belgian and the UK Premier League football broadcasting rights. In 2016, Telenet implemented a vendor financing program through which Telenet is able to extend its payment terms for certain suppliers to 360 days at an attractive all-in cost. At December 31, 2016, Telenet had €28.5 million of assets acquired through capital-related vendor financing, favorably impacting its net cash used in investing activities for the equivalent amount.

Net cash from financing activities.

The net cash from financing activities was €733.0 million for the year ended December 31, 2016 compared to €144.2 million of net cash used in financing activities for the year ended December 31, 2015. The net cash from financing activities for the year ended December 31, 2016 mainly reflected the net impact from the BASE acquisition financing in February 2016 and the repayment of certain shorter-dated debt facilities through the issuance of new Term Loans. Furthermore, the net cash from financing activities for the year ended December 31, 2016 was adversely impacted by (i) €48.4 million of debt issuance costs related to the May and November 2016 refinancings, (ii) €47.8 million spent under the Share Repurchase Program 2016, (iii) a payment of €10.7 million for the early termination of certain derivative financial contracts linked to the €400.0 million Senior Secured Floating Rate Notes due 2022 and (iv) a €9.9 million payment reflecting the call premium for the voluntary Senior Secured Notes repayment. The remainder of the net cash used in financing activities primarily consisted of capital lease repayments and other financial payments.

Year Ended December 31, 2015 compared to the Year Ended December 31, 2014

Net cash from operating activities.

The Company's operations yielded €665.5 million of net cash for the year ended December 31, 2015 compared to €571.6 million of net cash from operating activities for the year ended December 31, 2014. Despite substantially higher cash taxes paid for the year ended December 31, 2015, the net cash from operating activities increased 16% compared to the year ended December 31, 2014 driven by (i) robust growth in Adjusted EBITDA, (ii) a €34.8 million decrease in cash interest expenses following certain refinancing operations and the partial optimization of the interest rate derivatives portfolio, and (iii) a marked improvement in the Company's working capital as a result of tighter working capital management.

Net cash used in investing activities.

The Company used €433.1 million of net cash in investing activities for the year ended December 31, 2015, representing a 36% increase compared to the year ended December 31, 2014. The net cash used in investing activities included cash payments for capital expenditures. In addition, the Company paid €15.7 million and €23.4 million in the three months ended March 31, 2015 and the three months ended September 30, 2015, respectively, for the Belgian football broadcasting rights covering the second leg of the 2014-2015 season and the first leg of the 2015-2016 season, respectively. Finally, the net cash used in investing activities for the year ended December 31, 2015 was impacted by the 50% investment in the local media company De Vijver Media for €58.0 million.

Net cash from financing activities.

Net cash used in financing activities was €144.2 million for the year ended December 31, 2015 compared to €278.0 million of net cash used for the year ended December 31, 2014 and mainly consisted of (i) €73.0 million of net cash used for the early termination of certain interest rate derivatives, (ii) €48.0 million spent on the Share Repurchase Program 2015, net from the sale of treasury shares, (iii) €29.2 million of debt issuance and prepayment costs, which included the make-whole premium paid for the early repayment of the Senior Secured Fixed Rate Notes due November 2020 and (iv) a net increase of €35.3 million in the Company's loans and borrowings. The remainder of the net cash used in financing activities primarily consisted of capital lease repayments and other financial payments.

Capital Expenditures

The table below summarizes Telenet's capital expenditures for the different periods.

	Nine months ended September 30,		Year ended December 31,		
	2017	2016	2016	2015	2014
	€ in millions				
Accrued capital expenditures	534.1	417.6	626.8	383.6	387.2
Of which rental set-top boxes	17.3	19.5	24.8	12.6	49.1
Of which customer installations	50.2	54.5	73.3	63.6	64.9
Of which network growth	210.5	147.3	250.6	142.4	98.1
Of which maintenance and other	256.1	196.3	278.1	165.0	175.1
% of revenue	28.3%	23.2%	25.8%	21.2%	22.7%

Nine Months Ended September 30, 2017 compared to the Nine Months Ended September 30, 2016

Accrued capital expenditures reached €534.1 million the nine months ended September 30, 2017, representing 28.3% of Telenet's revenue versus 23.2% for the nine months ended September 30, 2016. Telenet's accrued capital expenditures for the nine months ended September 30, 2016 reflected the recognition of the non-exclusive Jupiler Pro League broadcasting rights for the previous 2016-2017 season and the extension of the exclusive UK Premier League broadcasting rights for three seasons as of the 2016- 2017 season. Telenet's accrued capital expenditures for the nine months ended September 30, 2017 reflected the renewal of the non-exclusive Jupiler Pro League broadcasting rights for three seasons as of the current 2017-2018 season. Under EU IFRS, these broadcasting rights have been capitalized as intangible assets and will be amortized on a pro-rata basis as the season progresses. Excluding football broadcasting rights in both periods, Telenet's underlying accrued capital expenditures as a proportion of revenue represented 23.0% and 18.7% for the nine months ended September 30, 2017 and for the nine months ended September 30, 2016, respectively.

Set-top box related capital expenditures for the nine months ended September 30, 2017 represented €17.3 million, which marked an 11% decrease compared to the nine months ended September 30, 2016 driven by lower enhanced video subscriber growth on a gross basis and higher churn due to the intensely competitive environment. For the nine months ended September 30, 2017, set-top box related capital expenditures represented approximately 4% of Telenet's total accrued capital expenditures, excluding the aforementioned recognition of the Belgian football broadcasting rights.

Capital expenditures for customer installations totaled €50.2 million for the nine months ended September 30, 2017, or approximately 12% of total accrued capital expenditures excluding the recognition of the Belgian football broadcasting rights, as compared to €54.5 million for the nine months ended September 30, 2016. The 8% decrease in Telenet's customer installations capital expenditures compared to the nine months ended September 30, 2016 reflected lower gross sales for Telenet's advanced fixed services of enhanced video, broadband internet and fixed-line telephony compared to the nine months ended September 30, 2016 and increased efficiencies in Telenet's install processes.

The vast majority of Telenet's capital expenditures continue to be geared towards targeted investments in both Telenet's fixed and mobile infrastructures, aimed at boosting the customer experience and allowing Telenet to unlock MVNO-related synergies by moving Telenet's Full MVNO subscribers over to the acquired BASE network. Following the BASE acquisition in February 2016, Telenet aims to invest up to €250.0 million in the upgrade of the acquired mobile network, including (i) the upgrade of an estimated 2,800 macro sites equipped with the latest technologies, (ii) the roll-out of 800 to 1,000 new mobile sites across the whole of Belgium and (iii) targeted investments in fiber backhaul for the vast majority of Telenet's current and future macro sites. In addition, Telenet has embarked on a €500.0 million five-year network investment program "De Grote Netwerf", aimed at boosting the data capacity of Telenet's HFC network to 1 GHz, which is expected to end mid-2019.

Accrued capital expenditures for network growth and upgrades amounted to €210.5 million for the nine months ended September 30, 2017, and represented approximately 48% of total accrued capital expenditures, excluding the recognition of the Belgian football broadcasting rights. The remainder of Telenet's accrued capital expenditures included refurbishments and replacements of network equipment, sports content acquisition costs, and recurring investments in Telenet's IT platform and systems. These reached €256.1 million for the nine months ended September 30, 2017 compared to €196.3 million for the nine months ended September 30, 2016 and were impacted by the recognition of the Jupiler Pro League broadcasting rights. The above implies that approximately

64% of Telenet's accrued capital expenditures for the nine months ended September 30, 2017 were scalable and subscriber growth related. Telenet will continue to closely monitor Telenet's capital expenditures in order to make sure that they drive incremental returns.

Year Ended December 31, 2016 compared to the Year Ended December 31, 2015

Accrued capital expenditures reached €626.8 million for the year ended December 31, 2016, representing 25.8% of revenue versus 21.2% for the year ended December 31, 2015, and included €161.5 million of accrued capital expenditures for BASE. Accrued capital expenditures for both the year ended December 31, 2016 and the year ended December 31, 2015 reflected the recognition of the non-exclusive Jupiler Pro League broadcasting rights for the 2016-2017 and 2015-2016 seasons, respectively. At the end of May 2017, the Belgian football broadcasting rights will expire and the Company anticipates they will be put up for auction again in the course of the three months ending March 31, 2017. In addition, accrued capital expenditures for the year ended December 31, 2016 reflected the extension of the exclusive UK Premier League broadcasting rights for the next three seasons as of the 2016-2017 season. Under EU IFRS, these broadcasting rights have been capitalized as intangible assets and will be amortized on a pro-rata basis as the season progresses. Excluding these broadcasting rights, accrued capital expenditures represented 22.5% of revenue for the year ended December 31, 2016 and 19.6% for the year ended December 31, 2015.

Set-top box related capital expenditures increased €12.2 million from €12.6 million for the year ended December 31, 2015 to €24.8 million for the year ended December 31, 2016, reflecting the underlying growth in Telenet's enhanced video subscriber base and underlying inventory effects. For the year ended December 31, 2016, set-top box related capital expenditures represented approximately 5% of total accrued capital expenditures excluding the aforementioned football broadcasting rights.

Capital expenditures for customer installations totaled €73.3 million for the year ended December 31, 2016, or approximately 13% of total accrued capital expenditures excluding the aforementioned football broadcasting rights. The 15% year-on-year increase in customer installations capital expenditures reflected continued net subscriber growth for Telenet's advanced services of broadband internet, enhanced video and fixed-line telephony and included higher costs related to proactive customer visits.

Accrued capital expenditures for network growth and upgrades amounted to €250.6 million for the year ended December 31, 2016, and represented approximately 46% of total accrued capital expenditures excluding the aforementioned football broadcasting rights. The 76% increase versus the year ended December 31, 2015 reflected the effects from the BASE acquisition and the start of the mobile radio access network ("RAN") upgrade program at the end of the three months ended September 30, 2016. In addition, the higher spend compared to the year ended December 31, 2015 was also driven by higher investments in Telenet's HFC network as part of its €500.0 million five-year network investment program "De Grote Netwerf" which is expected to end mid-2019.

The remainder of Telenet's accrued capital expenditures included refurbishments and replacements of network equipment, sports content acquisition costs, and recurring investments in Telenet's IT platform and systems. These reached €278.1 million for the year ended December 31, 2016 compared to €165.0 million for the year ended December 31, 2015 and were impacted by the recognition of the aforementioned football broadcasting rights. The above implies that approximately 64% of Telenet's accrued capital expenditures for the year ended December 31, 2016 were scalable and subscriber growth related excluding the aforementioned football broadcasting rights. Going forward, Telenet will continue to closely monitor its capital expenditures in order to make sure that they drive incremental returns.

Year Ended December 31, 2015 compared to the Year Ended December 31, 2014

Accrued capital expenditures reached €383.6 million for the year ended December 31, 2015, representing 21.2% of revenue versus 22.7% for the year ended December 31, 2014. Compared to the year ended December 31, 2014, accrued capital expenditures decreased slightly as significantly lower set-top box related capital expenditures were partly offset by higher network-related investments relating to both Telenet's proactive customer visits and its "Grote Netwerf" investment program. Accrued capital expenditures for both the year ended December 31, 2015 and the year ended December 31, 2014 reflected the recognition of the Jupiler Pro League broadcasting rights for the 2015-2016 and 2014-2015 seasons, respectively. Under EU IFRS, these non-exclusive broadcasting rights have been capitalized as intangible assets and will be amortized on a pro-rata basis as the season progresses. Excluding these broadcasting rights, accrued capital expenditures represented 19.6% of revenue for the year ended December 31, 2015 and 21.0% for the year ended December 31, 2014.

Set-top box related capital expenditures decreased €36.5 million from €49.1 million for the year ended December 31, 2014 to €12.6 million for the year ended December 31, 2015, reflecting modest growth in Telenet's enhanced video subscriber base for the year ended December 31, 2015 while the year ended December 31, 2014 was impacted by the switch-off of Telenet's legacy SD platform. For the year ended December 31, 2015, set-top box related capital expenditures represented approximately 4% of total accrued capital expenditures excluding the Belgian football broadcasting rights for the 2015-2016 season.

Capital expenditures for customer installations totaled €63.6 million for the year ended December 31, 2015, or approximately 18% of total accrued capital expenditures excluding the Belgian football broadcasting rights for the 2015-2016 season. The 2% decline compared to the year ended December 31, 2014 in customer installations capital expenditures mirrored a lower level of net new subscriber growth for Telenet's advanced fixed services as compared to the year ended December 31, 2014 in addition to efficiencies as customers increasingly opted for self-installation, partly offset by higher costs related to proactive customer visits.

Accrued capital expenditures for network growth and upgrades increased 45% to €142.4 million for the year ended December 31, 2015, and represented approximately 40% of total accrued capital expenditures excluding the Belgian football broadcasting rights for the 2015-2016 season. The higher spending compared to the year ended December 31, 2014 was primarily driven by higher investments in Telenet's HFC network as part of its €500.0 million five-year network investment program "De Grote Netwerf".

The remainder of the Company's accrued capital expenditures included refurbishments and replacements of network equipment, sports content acquisition costs, and recurring investments in its IT platform and systems. These reached €165.0 million for the year ended December 31, 2015 compared to €175.1 million for the year ended December 31, 2014 and included the Belgian football broadcasting rights for the 2015- 2016 season and the 2014-2015 season respectively, as mentioned above. This implies that approximately 62% of the accrued capital expenditures for the year ended December 31, 2015 were scalable and subscriber growth related excluding the Belgian football broadcasting rights. Going forward, Telenet will continue to closely monitor its capital expenditures in order to make sure that they drive incremental returns.

Contractual Commitments

As of September 30, 2017, Telenet's consolidated contractual commitments were as follows:

	Payments due during:						2022 and thereafter
	Total:	2017	2018	2019	2020	2021	
				In 000 €			
Long term debt ⁽¹⁾	5,849,517	122,687	334,754	188,963	183,447	182,038	4,837,628
Finance lease obligations ⁽¹⁾⁽³⁾	507,189	32,644	63,855	56,076	53,153	51,301	250,160
Operating lease obligations	198,637	16,760	52,402	40,203	32,536	20,902	35,834
Other contractual obligations ⁽²⁾	1,403,222	171,599	238,501	153,288	73,642	38,832	727,360
Interest Rate Derivatives ⁽³⁾	49,142	1,489	7,740	6,518	6,468	6,400	20,527
Foreign Exchange Derivatives ⁽³⁾	54,356	12,243	42,113	0	0	0	0
Trade Payables	193,059	193,059	0	0	0	0	0
Accrued expenses and other current liabilities ⁽⁴⁾	502,982	502,982	0	0	0	0	0
Total	8,758,104	1,053,463	739,365	445,048	349,246	299,473	5,871,509

(1) Interest included.

(2) Represents fixed minimum commitments under certain programming and purchase agreements and amounts associated with certain operating costs resulting from the Interkabel acquisition, commitments under the operating agreement with Norkring as well as commitments related to certain programming and purchase agreements.

(3) Contractual obligations with a floating interest rate are based on the rate outstanding as at September 30, 2017.

(4) Excluding compensation and employee benefits, VAT and withholding taxes and the current portion of the Interkabel out of market component.

Critical Accounting Policies, Judgments and Estimates

In connection with the preparation of the Telenet Group Financial Statements, we make estimates and assumptions that affect the reported amounts of assets and liabilities, revenue and expenses and related disclosure of contingent assets and liabilities. Critical accounting policies are defined as those policies that are reflective of significant judgments, estimates and uncertainties, which would potentially result in materially different results under different assumptions and conditions. We believe the following accounting policies are critical in the preparation of Telenet Group Financial Statements because of the judgment necessary to account for these matters and the significant estimates involved, which are susceptible to change:

- financial instruments: fair values;
- property and equipment;
- goodwill;
- other intangible assets;
- investments in and loans to equity accounted investees;
- derivative financial instruments;
- deferred taxes;
- other non-current liabilities—asset retirement obligation;
- accrued expenses and other current liabilities—liabilities for tax on-sites; and
- acquisition of subsidiary—purchase price allocation.

For additional information concerning these policies, see note 5.1.4 to the Telenet December 31, 2016 Consolidated Financial Statements.

INDUSTRY AND MARKET OVERVIEW

Belgium

Telenet operates its residential business in Flanders and in approximately one-third of the Brussels-Capital Region. Telenet also provides certain business services across the whole of Belgium and in parts of Luxembourg. Telenet believes that Belgium, and in particular the Flanders region in which it operates, is one of Europe's most attractive cable markets due to, among other things, a relatively high population density and cable penetration rate and a highly productive work force, generating high GDP and high exports per capita. The population density of Belgium reached approximately 372 inhabitants per square kilometer for the year ended December 31, 2015 as compared to approximately 117 inhabitants per square meter in Europe on average. This represents one of the highest population densities in Europe, according to the most recent Eurostat data, and is exceeded only by that of The Netherlands and some microstates such as Malta. The most densely inhabited area of the country is located within Flanders, along the Antwerp- Leuven-Brussels-Ghent corridors. Cable operators that operate in urban areas with high population density benefit from easier access to customers and more cost effective network upgrades and maintenance, among other benefits. Furthermore, Belgium is one of the most prosperous countries in Europe, according to the latest Eurostat data, with a GDP per capita of approximately €34,500 for the year ended December 31, 2016 compared to a European average of approximately €27,000 for the comparable period.

Industry Convergence

The Belgian media and telecommunications sector has been converging as customers are increasingly seeking to receive their media and communications services from one provider at attractive prices. In response, service providers are providing video, broadband internet access and fixed-line telephony services bundled into integrated offerings referred to as "dual-play" (two of the three services provided together) or "triple-play" (all three services provided together). The addition of mobile telephony services further gives rise to "quad-play" offerings. More generally, such combinations are referred to as multiple-play bundles. At December 31, 2016, multiple-play penetration as a percentage of Belgian households represented approximately 65%, compared to approximately 63% at December 31, 2015 based on the BIPT 2016 Annual Report. Offering bundled services allows media and telecommunications service providers to meet customers' communications and entertainment requirements and, Telenet believes, increases customer loyalty and lowers customer churn rates.

In the Belgian telecommunications sector, there are two major distribution access platforms through which triple-play services are most commonly provided: (i) the cable networks of Telenet in Flanders and approximately two-thirds of the Brussels-Capital region, of Nethys in the French speaking part of Belgium and of Brut  l   in approximately one-third of the Brussels region and (ii) the DSL-based network of Proximus, which is national. Bi-directional cable networks are particularly well suited for the provision of triple-play services with high bandwidth requirements due to their network characteristics. As they were originally designed for the transmission of large amounts of data, cable networks are able to deliver consistent speeds irrespective of the distance to the customer, unlike other distribution platforms. In Europe, cable network operators have upgraded their network technology to EuroDocsis 3.0, enabling them to offer substantially faster internet access speeds than DSL operators. The EuroDocsis 3.0 technology allows broadband cable networks to offer data download speed levels that cannot currently be matched by DSL, at least not without deep fiber deployment or only at comparatively far less attractive economics.

The Belgian Market

Television

The Belgian television market is highly penetrated, with approximately 4.5 million TV connections at the end of 2016 according to the BIPT 2016 Annual Report, equivalent to approximately 92% of Belgian households based on the most recent estimates provided by the Federaal Planbureau in Belgium. Similar to other European markets, television consumer behavior in Belgium is placing more emphasis on digital, HD and interactive television services such as VOD, requiring high-bandwidth, bi-directional distribution platforms. The introduction of new services is presenting service providers with opportunities to achieve greater ARPU per customer relationship.

Television signal distribution platforms in Belgium include cable networks, DTT, satellite and DSL-networks. The DSL-network uses the IP protocol to deliver the IPTV service. Belgium was one of the first European countries to deploy cable networks, doing so as early as the 1970s, and, as a result, other means of television delivery such as satellite and terrestrial broadcasters are less popular in Belgium as they are in other European

countries. Cable is the most commonly used transmission medium for television services in Belgium. Cable network services are characterized by easy-to-use technology, efficient installation of customer equipment and reliability of a protected signal delivered directly to the home. In Belgium, there is no direct competition between the cable network operators as there is no overlap between operators' cable networks.

A competitive presence in the Belgian television market, although smaller compared to cable, is satellite television, which can be divided into two types of access: (i) "free-to-air" satellite and (ii) paid satellite television. With respect to free-to-air satellite, residential subscribers may install a satellite receiver to view a large number of foreign channels without paying subscription fees. Residential subscribers must also install a satellite receiver when they subscribe to premium, paid television via satellite. The largest premium satellite provider in Telenet's network area is TV Vlaanderen.

Other television delivery media include DTT. Analog terrestrial television was terminated in Belgium in 2008. In order to comply with the Government's analog switch-over policy, the Flemish public broadcaster VRT sold its terrestrial transmission network to Norkring België NV, an independent private operator. This operator is in charge of managing the DTT spectrum, including the designing, construction and maintenance of the transmitter networks, but is not allowed to commercialize a DTT offer. Norkring held selection procedures to sublease parts of the spectrum to other operators who will offer DTT to the residential market. Telenet reached an agreement with Norkring to broadcast wireless television channels over the DTT spectrum. In July 2012, Telenet started commercializing Teletenne, using the Digital Terrestrial TV frequencies Telenet leased from Norkring. In December 2013, however, Telenet decided to discontinue the provision of DTT services and, as a result, incurred a restructuring charge of €34.8 million for the year ended December 31, 2013.

Broadband

The broadband internet access market in Belgium is well established, with penetration rates higher than in most other major European markets. According to Europe's Digital Progress Report 2017, Belgium ranks 6th in Europe's Digital Economy and Society Index (DESI) 2017. Belgium ranks highest in connectivity (3rd) and integration of digital technology by businesses (5th), while digital public services are its biggest relative weakness. The country's key challenge is to continuously improve its mobile connectivity. The Belgian broadband internet market is characterized by the wide availability of high-speed access networks, resulting from continued infrastructure-based competition between the two leading access technologies being cable (Telenet in Flanders and approximately two-thirds of Brussels and VOO in Wallonia and parts of Brussels) and VDSL (Proximus). According to the BIPT 2016 Annual Report, approximately 81% of all broadband internet connections in Belgium at December 31, 2016 have access to effective speeds in excess of 30 Mbps versus a European average of approximately 37%. The differential becomes even larger when looking at the penetration of broadband internet households having access to effective speeds in excess of 100 Mbps standing at approximately 37% in Belgium versus a modest 15% across Europe. According to the BIPT 2016 Annual Report, Belgium had approximately 4.2 million broadband internet connections at December 31, 2016, representing a 3% increase versus 2015. Approximately 69% of broadband internet connections relate to both Flanders and Brussels, where Telenet is active.

Telenet's estimated market share in the Flemish broadband market at the end of 2016 represented between 60-70% according to the BIPT 2016 Annual Report with an estimated 30-40% market share for Proximus and the remainder held by alternative operators. As for the Brussels region, where Telenet recently successfully extended its footprint through the June 2017 acquisition of SFR Belux, Telenet (including SFR Belux) held an estimated market share between 20-30% at the end of 2016 according to the BIPT 2016 Annual Report with Proximus claiming a market share of between 60-70%.

Looking at the combined market share of cable operators across the whole of Belgium, cable continues to be the leading broadband internet access technology according to the BIPT 2016 Annual Report. Cable is able to provide greater speeds than DSL and with relatively lower capital expenditure. Telenet believes that the fact that cable has proven to be far more reliable in delivering promised speeds to subscribers than DSL has contributed to cable's recent share increase. DSL is the second leading broadband internet access technology in Belgium according to the BIPT 2016 Annual Report, as is predominantly owned and used by Proximus. DSL uses basic telephone infrastructure to access the internet. DSL technology leverages the fact that copper wires used in telephone networks have a much higher bandwidth (7 MHz) than that required for normal voice conversation (0-3.4KHz). DSL utilizes the extra bandwidth to provide broadband (high bandwidth) internet connections. The most commonly used variant of DSL is ADSL which assumes that internet users normally receive or download much

more information than they would send or upload. Hence, ADSL connections normally have three to four times more bandwidth for downloading data than uploading.

Fiber-to-the-home (“**Ftth**”) has not yet been widely deployed in Belgium. A substantial challenge facing the expansion of Ftth is the fact that such technology is both capital and time intensive, requiring significant digging and re-wiring. While Ftth is in the position of having to make heavy investments in catching up to the competition, cable operators can prioritize investment efficiently through optical node splitting.

Another possible threat to DSL and cable is the increasing download speeds offered by mobile internet technologies, such as high-speed package access (“**HSPA**”) and LTE technologies. At the end of 2016, mobile broadband penetration in Belgium reached nearly 66% of the total population based on the BIPT 2016 Annual Report versus approximately 84% for the European average. Although penetration of mobile broadband used to be rather modest in Belgium, it has been growing strongly in recent years on the back of a larger share of smartphones and tablets sold, from approximately 62% at the end of 2015 and approximately 54% at the end of 2014. Telenet believes that the majority of those consumers use mobile broadband internet to complement a fixed-line broadband internet connection, as the current effective speeds that mobile internet offers are too low to act as a replacement service.

Fixed-line telephony

The Belgian market for fixed-line telephony services is mature, and market share changes are driven by the price and quality of services provided, including the way in which telephony services are integrated into bundled offerings. In recent years, fixed-line telephony has been transformed into a commodity and has become highly dependent on a quality broadband internet offering, as telephony is increasingly bundled with broadband internet services.

Proximus, the incumbent fixed-line PSTN telephony service provider in Belgium, is the largest provider of fixed-line telephony services in the Belgian market with an estimated residential market share between 50-60% at the end of 2016, according to the BIPT 2016 Annual Report. However, the calling volume generated by fixed-line telephony customers has been steadily decreasing in recent years because of substitution from alternative access technologies like mobile telephony services, VoIP and internet telephony offered via broadband internet connections. In 2016, the calling volume in the Belgian fixed-line telephony market decreased approximately 7% year-on-year according to the BIPT 2016 Annual Report, with an approximately 7% decrease in the B2B market and an approximately 5% decline in the residential market.

Mobile Telephony

The Belgian mobile telephony market was valued at approximately €3.6 billion at December 31, 2016 based on the BIPT 2016 Annual Report.

At the end of 2016, the total number of registered active SIM cards in Belgium represented approximately 12.6 million (including MVNOs and excluding M2M) compared to 12.8 million in 2015. At present, there are three network operators in Belgium, of which Proximus is the largest with an estimated nationwide subscriber market share of approximately 40-50% at the end of 2016, followed by Telenet (including BASE) at approximately 20-30% at the end of 2016 and Orange Belgium (approximately 30% nationwide subscriber market share), according to the BIPT 2016 Annual Report. All operators own 2G, 3G and 4G spectrum licenses, covering various frequencies in the 900 MHz, 1,800 MHz, 2.1 and 2.6 GHz band, and provide mobile voice and data services to the residential and business segments.

Telenet offers its mobile telephony services under the “Telenet” and “BASE” brand names. Telenet currently provides this service partly through its own BASE network and partly through the MVNO Arrangement with Orange Belgium. Through its own BASE network and pursuant to the MVNO Arrangement, Telenet offers its customers mobile voice and data services, including 4G. Through a partnership with Telenet, the Walloon cable operator Nethys also uses this MVNO Arrangement to provide mobile services for its cable customers. The MVNO Arrangement can be terminated in case of material breach and certain events, including changes of control and regulatory events. In the event of termination, a transition period will apply during which Orange Belgium will assist Telenet to migrate its subscribers in such a manner that Telenet (or the legal entity acquiring the subscribers after termination) can continue to provide mobile services to these subscribers. Telenet intends to migrate its current and future mobile subscribers to the BASE network after termination of the MVNO Arrangement, as further described below.

At the end of May 2016, Orange Belgium and Telenet reached an agreement setting the terms and conditions for the future termination of the MVNO Arrangement (the “**MVNO Termination Agreement**”). The MVNO Arrangement will run, and Telenet’s mobile customers can continue to use Orange Belgium’s network, until the end of 2018. Telenet committed to a minimum payment of €150.0 million (excluding VAT) over the 3-year period from 2016 to 2018. The actual amount paid by Telenet could exceed this minimum amount in the event there is higher network usage. Beyond 2018, an optional 6-month extension period has been agreed upon with a minimum amount of €15.0 million (excluding VAT) becoming payable if triggered. Through the MVNO Termination Agreement, all outstanding legal disputes between both companies, including the judicial recovery of invoices under the MVNO Arrangement, have been settled.

In July 2011, Telenet Tecteo Bidco, a majority-owned subsidiary of Telenet in which Nethys holds a 25% shareholding, acquired the fourth 3G mobile spectrum license in Belgium, for the minimum reserved price of €71.5 million. In total, Telenet Tecteo Bidco acquired 14.8 MHz of paired 3G spectrum in the 2.1 GHz band and confirmed to the BIPT that it would exercise the option to be awarded another 4.8 MHz of paired 2G spectrum in the 900 MHz band and 10 MHz of paired 2G spectrum in the 1800 MHz bands, which both became available as of November 27, 2015, for a total consideration of €31.5 million. In December 2013, Telenet determined, after concluding negotiations with network operators in Belgium, and in the absence of regulatory alternatives, that it would not be able to utilize the spectrum rights under the 3G mobile spectrum license and, as a result, notified the BIPT on February 13, 2014 that it would return the acquired 3G mobile spectrum (held by Telenet Tecteo Bidco). This resulted in a triggering event with respect to the intangible asset related to the 3G mobile spectrum license, and, after performing an impairment analysis, Telenet recorded an impairment charge of €53.3 million during the fourth quarter of 2013 to reduce the carrying amount of this intangible asset to nil. On June 1, 2014, Telenet Tecteo Bidco returned the acquired 3G mobile spectrum. Furthermore, as a result of the above, Telenet Tecteo Bidco also informed the BIPT at the end of 2013 that it will not use the aforementioned 2G spectrum. By a decision of September 24, 2014, the BIPT formally accepted the return of the 3G spectrum. Telenet Tecteo Bidco is required to pay the outstanding amount of €23.7 million (as at September 30, 2017) of the €71.5 million reserved price for the 3G spectrum. As per the agreement with the BIPT, this amount will continue to be repaid in installments until 2020, with the next installment of €7.4 million due in December 2017 (excluding €0.6 million of interest-related charges due in December 2017). In addition to these repayments the BIPT also indicated that it expected to receive a payment of €31.5 million for the paired 2G spectrum that would have been made available in 2015. Telenet Tecteo Bidco initiated legal proceedings against the BIPT’s claim. Eventually, the parties entered into a settlement agreement in January 2016, through which Telenet Tecteo Bidco paid an amount of approximately €4 million for the usage rights in the 2G spectrum, and committed to pay the BIPT the remainder of the fee for its former usage rights for the 3G spectrum, being an amount of approximately €31 million.

See “*Risk Factors—If Telenet fails to successfully introduce new technologies or services, or to respond to technological developments, its business and level of revenue may be adversely affected and it may not be able to recover the cost of investments that it has made*” and “*—The Belgian internet, data and telephony industries are highly competitive and the television industry has become more competitive, which could have a material adverse effect on Telenet’s business*”.

DESCRIPTION OF TELENET'S BUSINESS

Overview

Telenet is the largest provider of video services in Belgium. Telenet's hybrid fiber-coaxial ("HFC") cable network spans the Flanders region, covers approximately 69% of Belgium by homes passed and includes the metropolitan centers of Antwerp and Ghent and approximately two-thirds of Brussels following the acquisition of Altice's former Belgian and Luxembourg cable operations (Coditel Brabant and Coditel Lux, together "SFR Belux"), which Telenet acquired on June 19, 2017. Telenet Group Holding's shares are listed on the Euronext Brussels Stock Exchange under the ticker symbol TNET and it is part of the BEL20 stock market index. As of 6:00 p.m. London time on November 21, 2017, Telenet Group Holding's market capitalization amounted to €7,040 million.

Telenet offers basic and enhanced video, including HD, pay television and VOD services, high-speed broadband internet and fixed-line and mobile telephony services to residential subscribers who reside in Telenet's network area. Telenet also combines its services into packages, or bundles, which offer subscribers the convenience of being able to purchase video, broadband internet and telephony services from a single provider at an attractive and discounted price. In addition, Telenet offers voice and data services, as well as value-added services including cloud, hosting and security solutions, to SMEs and large-sized businesses throughout Belgium and parts of Luxembourg. Through the "BASE" brand, Telenet also offers mobile telephony services to residential and business customers across Belgium.

As of September 30, 2017, Telenet had approximately 2,201,800 customer relationships, which represented 67% of the approximately 3,307,100 homes passed by the Combined Network. As of September 30, 2017, approximately 2,046,900 customers subscribed to its video services, approximately 1,670,400 subscribed to its broadband internet services and approximately 1,302,500 subscribed to its fixed-line telephony services. Telenet also had approximately 2,258,800 mobile postpaid and approximately 623,300 mobile prepaid subscribers as of September 30, 2017. In addition, approximately 88% of its video subscribers had upgraded from basic video to enhanced video services. For the year ended December 31, 2016, Telenet's total revenue was €2,429.1 million, a 33% increase over the year ended December 31, 2015, and its Adjusted EBITDA was €1,117.1 million, an 18% increase over the year ended December 31, 2015. For the nine months ended September 30, 2017, Telenet's total revenue was €1,884.3 million, a 5% increase compared to the nine months ended September 30, 2016, and its Adjusted EBITDA was €911.2 million, a 7% increase over the nine months ended September 30, 2016.

The Combined Network is fully bi-directional and EuroDocs 3.0 enabled, and provides a spectrum bandwidth capacity of 600 MHz. In August 2014, Telenet announced a five-year €500.0 million network investment program as it plans to increase the capacity of the Combined Network to 1 GHz, enabling download speeds of at least 1 Gbps in the future, with the objective of allowing Flanders to offer some of the highest-capacity digital infrastructure in Europe. At September 30, 2017, approximately 58% of the nodes in the Combined Network had been upgraded.

Telenet is increasingly focused on offering its subscribers broadband internet and telephony subscriptions and services together with its video services in the form of attractively priced multiple-play bundles. Telenet has derived, and believes it can continue to derive, substantial benefits from the trend towards bundled subscriptions, through which it is able to sell more products to individual subscribers, resulting in significantly higher ARPU per customer relationship and, in its experience, the reduction of customer churn. For the nine months ended September 30, 2017, Telenet's ARPU per customer relationship was €55.2, an increase of 4% compared to the nine months ended September 30, 2016 when the ARPU per customer relationship was €53.2. See "*Description of Telenet's Business—Telenet's Network*".

Telenet provides the following products and services to its customers:

Basic Video. Cable television is the principal medium for the provision of television services in Flanders, and Telenet is the largest provider of video services in Belgium. Almost all Flemish television households are passed by the Combined Network. The high penetration of Telenet's video business has resulted in a steady source of revenue and cash flow. As of September 30, 2017, Telenet provided video services to approximately 2,046,900 subscribers, or 62% of homes passed by its network including approximately 82,200 inorganic additions through the acquisition of SFR Belux in June 2017. All of Telenet's basic video subscribers have access to at least 21 basic analog television channels and an average of 26 analog radio channels. Telenet generally provides its basic cable television services under individual contracts with its subscribers, the majority of whom pay monthly. Telenet's basic video subscribers who have installed a

set-top box or CI + module, and activated a smart card, have access to more than 70 digital channels, including 15 HD channels, and approximately 36 digital radio channels, for no additional fee. Telenet offers its basic video services in digital for no additional fee in order to encourage its subscribers to migrate to its enhanced video services giving them access to a more enriched TV experience, including access to EPGs, additional thematic content packs, exclusive movies and sports channels and a large VOD library of both local and international programs. For the nine months ended September 30, 2017, subscribers to total basic video services decreased by 41,900 as compared to December 31, 2016 on an organic basis as a result of the increased competitive environment, including the effects from regulated cable wholesale. The aforementioned organic loss rate excludes migrations to Telenet's enhanced video service and represents customers churning to competitors' platforms, such as other digital television, OTT and satellite providers, or customers terminating their television service or having moved out of Telenet's service footprint. Given the historical video penetration in its footprint, the limited expansion of the number of homes passed and strong competition in the domestic TV market, Telenet anticipates further churn of total video subscribers.

Enhanced video. Telenet's interactive enhanced video service includes a combination of premium sports and film channels, a range of extended thematic channels, a selection of films and broadcast content available on an on-demand basis and a variety of interactive features. Telenet's enhanced video offering is available to all subscribers passed by the Combined Network. At September 30, 2017, Telenet served approximately 1,791,200 enhanced video customers, including approximately 74,700 inorganic subscribers added through the SFR Belux acquisition. Telenet's digitalization ratio, which measures the total base of enhanced video customers relative to Telenet's total video subscriber base, continued to grow, and reached approximately 88% at September 30, 2017 compared to approximately 85% at September 30, 2016. All of Telenet's enhanced video subscribers can access the "Yelo Play" app, through which they can enjoy a unique content experience on multiple connected devices in the home and out-of-home through Telenet's WiFi Homespots and hotspots. At September 30, 2017, Telenet's subscription VOD packages "Play" and "Play More" had 393,100 customers, representing a 17% increase compared to September 30, 2016. This robust performance was driven by (i) an improvement in the linear viewing experience and the revamp of Telenet's premium entertainment platform "Play More", (ii) continued investments in promising local content both through co-productions with Telenet's co-owned commercial channels "VIER", "VIJF" and "ZES" as well as certain proprietary content, and (iii) Telenet's exclusive partnership with HBO providing access to high-quality international content. In addition to the premium pay television channels, Telenet also provides the broadest sports offerings within its footprint through "Play Sports", which combines domestic and foreign football with other major sport events including golf, Formula One racing, volleyball, basketball and hockey. Telenet recently also added tennis with the ATP World Tour Masters, a major tennis event, to its sports line-up. At September 30, 2017, approximately 232,000 customers subscribed to Telenet's sports pay television channels, an increase of 1% compared to September 30, 2016. In May 2017, Telenet extended the non-exclusive broadcasting rights for the Jupiler Pro League for three seasons until the 2019-2020 season. In addition, we also gained the exclusive OTT rights in Q2 2017, while local media company De Vijver Media, in which we own a 50% shareholding, holds the exclusive rights on the match summaries.

Broadband Internet. Telenet is the leading provider of residential broadband internet services in Flanders. Today, Telenet offers consumers and businesses data download speeds of up to 200 and 500 Mbps, respectively, and upload speeds of 20 and 50 Mbps, respectively. Through Telenet's €500.0 million five-year "Grote Netwerf" investment program, which kicked off in early 2015 and is expected to be completed mid-2019, Telenet aims to boost the capacity of its network from 600 MHz currently to 1 GHz, enabling data download speeds of at least 1 Gbps in the future. As customers increasingly expect to enjoy seamless superfast connectivity whether at home, at work or on the move, WiFi remains one of the cornerstones of Telenet's connectivity strategy.

In March 2017, Telenet introduced "Flow Tech", a suite of smart technologies, to ensure that customers can seamlessly access both fixed and mobile networks across all of their devices. At September 30, 2017, Telenet has deployed around 1.4 million WiFi Homespots and operated nearly 2,000 WiFi hotspots in public areas. Through partnerships with its majority shareholder Liberty Global, certain of its affiliates, and Walloon cable operator VOO, broadband internet customers from both cable companies can freely use the WiFi Homespots on either company's network in Wallonia and in certain other European countries where service is offered through other Liberty Global and certain affiliate networks. At the end of June 2017, Telenet boosted both the data upload and download speeds of its "Basic Internet" product. Priced at €27.8 per month (including 21% VAT) and providing a data download speed of 50 Mbps, Telenet's "Basic Internet" offer remains one of the most attractive entry packages both within a Belgian and a wider European context. At September 30, 2017, Telenet served 1,670,400 broadband internet subscribers (+5% year-on-year), including 60,300 inorganic subscribers added through the SFR Belux acquisition and equivalent to 50.5% of the homes passed by its HFC network. For the nine months ended September 30, 2017, net organic subscriber additions for Telenet's broadband internet service were

approximately 9,800. Telenet's annualized churn rate was impacted by the intensely competitive environment and reached 8.9% for the nine months ended September 30, 2017 as compared to 7.7% for the nine months ended September 30, 2016.

Fixed-line telephony. Telenet offers its residential subscribers local, national and international long distance fixed-line telephony services and a variety of value-added features. In Flanders, Telenet believes it is currently the largest competitor of Proximus, due in part to Telenet's emphasis on customer service and innovative flat-fee rate plans. Substantially all of Telenet's fixed-line telephony subscribers use VoIP technology, which utilizes the open standards EuroDocsis protocol, and through which Telenet is able to provide both internet and fixed-line telephony services. Telenet served approximately 1,302,500 fixed-line telephony subscribers at September 30, 2017 (+4% year-on-year), including approximately 48,100 inorganic additions from the acquisition of SFR Belux and equivalent to 39.4% of the homes passed by its network. For the nine months ended September 30, 2017, Telenet lost approximately 200 net organic fixed-line telephony subscribers as a result of the intensely competitive market environment and an overall declining market trend. Both these factors also drove a 150 basis points increase in the annualized churn rate to 10.0% for the nine months ended September 30, 2017 as compared to 8.5% for the nine months ended September 30, 2016.

Mobile telephony. In February 2016, Telenet finalized the acquisition of Belgian mobile operator BASE Company. Telenet offers its mobile telephony services under both the "Telenet" and "BASE" brand names and has entered into several wholesale partnerships. In addition to BASE Company's mobile radio access network, Telenet has historically been operating through a mobile virtual network operator ("MVNO") partnership with Orange Belgium (formerly named Mobistar NV), the second largest mobile operator in Belgium, (the "MVNO Arrangement"). Pursuant to the MVNO Arrangement, Telenet offers its cable customers mobile voice and data services, including 4G/LTE ("Long Term Evolution"), through Orange Belgium's mobile network. Through a partnership with Telenet, Nethys also uses the MVNO Arrangement to provide mobile services to its cable customers.

At the end of May 2016, Orange Belgium and Telenet reached an agreement setting the terms and conditions for the future termination of their MVNO Arrangement. The MVNO Arrangement will run, and Telenet's mobile customers can continue to use Orange Belgium's network, until the end of 2018. Telenet committed to a minimum payment of €150.0 million (excluding VAT) over the 3-year period 2016-2018. The actual amount paid by Telenet could exceed this minimum amount in case of higher network usage. Beyond 2018, an optional 6-month extension period has been agreed with a minimum payment of €15.0 million (excluding VAT) becoming payable if triggered. Through the MVNO Termination Agreement, all outstanding legal disputes between both companies, including the judicial recovery of invoices under the MVNO Arrangement, have now been settled. The rapid modernization of Telenet's acquired mobile network is an important synergy enabler, allowing Telenet to accelerate the onboarding of its Full MVNO customers to its own mobile network. At September 30, 2017, approximately 54% of its Full MVNO customers had been onboarded on the own mobile network. Telenet now aims for full completion by the end of the fiscal quarter ending March 31, 2018. As the accelerated onboarding will affect the contractual commitments under the MVNO Arrangement, Telenet incurred a €29.2 million non-cash restructuring charge in the three months ended September 30, 2017.

Telenet's active mobile subscriber base, which excludes subscribers under its commercial wholesale partnerships, totaled 2,882,100 SIMs at September 30, 2017, including approximately 2,258,800 postpaid subscribers. The remaining approximately 623,300 mobile subscribers receive prepaid services under the BASE brand and various branded reseller contracts. Compared to September 30, 2016, Telenet recorded a 5% decrease in the total number of active mobile subscribers as a result of the sale of its direct subsidiary Ortel Mobile to Lycamobile as of March 1, 2017 and the impact from the June 2017 mandatory prepaid registration. As such, a total of approximately 157,900 and 53,300 mobile SIMs have been removed from Telenet's subscriber count in the three months ended March 31, 2017 and the three months ended June 30, 2017, respectively. For the nine months ended September 30 2017, Telenet added approximately 143,400 net postpaid subscribers driven by the continued uptake of its all-in-one converged "WIGO" bundles and improved offers. At the end of September 2017, Telenet revamped the mobile line-up under the "BASE" brand, by offering more flexible bundles adjusted to the customers' needs so they can use the full capacity of their package, regardless of their appetite to use either more data, minutes or text messages.

Business services. Under the "Telenet Business" brand, Telenet offers a range of voice, data and internet products and services that are tailored to the size and needs of each customer. Telenet Business also offers its business customers an extensive range of reliable value-added services, including hosting, managed security and cloud services. Telenet provides services to business customers throughout Belgium and parts of Luxembourg. Telenet's

business customers include SMEs, larger corporations, public healthcare and educational institutions, and carrier customers that include international voice, data and internet service providers. Telenet Business generated revenue of €98.5 million for the nine months ended September 30, 2017, up 9% compared to the nine months ended September 30, 2016. B2B revenue growth was primarily driven by higher security-related revenue and higher revenue from business connectivity solutions in the SME segment.

Telenet's Products and Services

Telenet provides a broad range of cable-based communications, video and premium entertainment services to residential customers in Flanders, and approximately two-thirds of Brussels and parts of Luxembourg following the June 2017 SFR Belux acquisition. Through the February 2016 BASE acquisition, Telenet also offers mobile voice and data communication services in the whole of Belgium through its own radio access network. Finally, Telenet also provides voice and data services to business customers across Belgium and in parts of Luxembourg. Telenet's residential services comprise basic and enhanced video, broadband internet and fixed-line and mobile telephony services. Telenet offers all of these services to residential subscribers who reside in Telenet's service footprint and whose homes are passed by Telenet's bi-directional HFC network, including the acquired network of both Coditel Brabant and Coditel Lux.

Telenet's residential subscribers include individuals and families living in homes and apartments as well as SOHOs that receive its services through a coaxial connection. Residential subscribers access Telenet's services through a node on the Combined Network that links via a coaxial connection to their residence.

Video

The following table summarizes certain information related to Telenet's video operations as of and for the periods indicated:

	As of and for the nine months ended September 30,		As of and for the year ended December 31,		
	2017	2016	2016	2015	2014
Footprint:					
Homes passed	3,307,100	2,973,700	2,987,600	2,935,700	2,916,300
RGUs:					
Total video	2,046,900	2,028,600	2,017,500	2,054,800	2,083,300
Basic video	255,700	297,600	284,600	340,600	403,200
Enhanced video	1,791,200	1,731,000	1,732,900	1,714,200	1,680,100
Churn ⁽¹⁾	8.9%	7.7%	7.8%	7.2%	7.2%

(1) Churn represents the total number of RGUs disconnected during the period divided by the average number of RGUs for the period. Churn statistics do not include customers who move within the areas of the Combined Network offering the same service and who elect to receive the same services from Telenet that they previously received at their prior location.

Cable television is the principal medium for the provision of television services in Flanders and Telenet is the largest provider of video services in Belgium. Almost all Flemish television households are passed by the Combined Network. The high penetration of Telenet's video business has resulted in a steady source of revenue and cash flow. Currently, Telenet mainly competes with Proximus's IPTV platform and Orange Belgium's cable-based wholesale offer as traditional terrestrial broadcasting and direct-to-home satellite broadcasting are less popular in Flanders or elsewhere in Belgium. As of September 30, 2017, Telenet provided video services to 2,046,900 subscribers, or 62% of homes passed by the Combined Network, including 82,200 inorganic additions through the June 2017 SFR Belux acquisition. Telenet generally provides its basic cable television services under individual contracts with its subscribers, the majority of whom pay monthly.

Telenet's interactive enhanced video service was launched in September 2005 and includes a combination of premium sports and film channels, a range of extended thematic channels, a selection of films and broadcast content available on an on-demand basis and a variety of interactive features. Telenet's full premium interactive digital television offering is available to all subscribers passed by the Combined Network. In general, digital technology compresses video signals into a smaller amount of bandwidth than is currently used by analog transmissions, while also enhancing the audio and visual quality of the transmissions. Telenet is able to broadcast a significantly greater number of channels by converting channels currently used for analog broadcasts into use for digital channels. Current digital interactive capabilities enable subscribers greater flexibility in choosing what

content to watch and when, to participate in certain types of programs, to communicate with others through their television set and to review viewing options using facilities such as VOD and EPGs, among other features.

Basic Video

Telenet's basic video subscribers have access to at least 21 basic analog television channels and an average of 26 analog radio channels. To facilitate the growing trend towards enhanced video, new internet applications and higher broadband speeds in the future, Telenet has partially reduced the bandwidth allocated to analog channels in 2012. At the end of June 2013, Telenet launched a new television product, "TV with a card", using the CI+ technology, which is integrated into the latest television sets. By placing a CI+ module with a smart card in a television set, customers can watch enhanced video without a set-top box.

Telenet generally provides its basic cable television services under individual contracts with its subscribers, the majority of whom pay on a monthly basis and subscribers pay a fixed monthly subscription fee for basic tier content, irrespective of the broadcasting format or number of channels received in the basic tier.

Telenet charges its basic cable television subscribers a monthly fee of €16.90 (including VAT), including a copyright fee which helps to offset copyright fees paid by Telenet to copyright collection agencies for certain content provided by the public broadcasters that is retransmitted over the Combined Network.

Telenet regularly reviews its pricing policy, carefully weighing the current and future economic and competitive environment. Historically, Telenet has been able to increase the video subscription fee to offset inflationary impacts on its cost base.

Subscribers to Telenet's basic and enhanced video services reached 2,046,900 at September 30, 2017, including 82,200 inorganic subscribers added through the SFR Belux acquisition. For the nine months ended September 30, 2017, Telenet lost 41,900 net organic basic video subscribers. Compared to the nine months ended September 30, 2016, Telenet's net organic loss rate for the nine months ended September 30, 2017 continued to be higher as a result of the increased competitive environment including the effects from regulated cable wholesale. The aforementioned organic loss excludes migrations to Telenet's enhanced video service and represents customers churning to competitors' platforms, such as other digital television, OTT and satellite providers, or customers terminating their television service or having moved out of Telenet's service footprint. Given the increasing and strong competition in the domestic TV market, Telenet anticipates further churn of total video subscribers.

In addition to subscription, rental and copyright fees, Telenet collects carriage fees from certain content providers in exchange for carrying their content over Telenet's network. Telenet also charges activation and installation fees to subscribers joining its interactive enhanced video service, though these may be waived under temporary promotions.

Telenet is required to deliver certain television channels and radio stations to its basic video subscribers pursuant to "must carry" rules. These requirements cover broadcasts of the Flemish and French-speaking public community broadcasters in Belgium, the relevant regional broadcasters and the programs of the Dutch public broadcaster. See "*—Regulation—Broadcasting Regulation—Must Carry.*"

Telenet estimates that its basic video viewers spend approximately 75% of their viewing time watching local Flemish channels.

Basic Tier Content

Several different relationships govern the content that Telenet provides to its basic video subscribers. Telenet pays copyright fees to the foreign, public national and regional broadcasters carried on its basic video network. In general, these fees are paid to copyright collection agencies and broadcasters based on a combination of per program fees and the number of subscribers to Telenet's basic video service. Although specific arrangements vary, contracts governing the payment of these copyright fees generally have terms of between three and four years. These agreements with the copyright agencies and broadcasters were the subject of significant litigation in recent years. See "*—Legal Proceedings.*" Telenet is required by law to carry the signals of the regional broadcasters at no charge and also does not charge a carriage fee to the public broadcasters. See "*—Regulation—Broadcasting Regulation—Must Carry.*" Telenet also enters into transportation and distribution agreements with the commercial broadcasters. Through transportation contracts, Telenet agrees to carry a commercial broadcaster's signal across its fiber backbone to its head end stations, where the signal is subsequently delivered to Telenet's subscribers.

Broadcasters who transmit their signal to Telenet by satellite can elect to deliver their signal directly to Telenet's head end stations and, as a result, does not need to enter into a transportation agreement with Telenet. Telenet also enters into distribution contracts with all of the commercial broadcasters whose channels it carries on its network, pursuant to which Telenet agrees to carry the broadcaster's signal from the head end station to Telenet's basic video subscribers. The prices that Telenet charges under distribution contracts are based on nondiscriminatory policies.

In some situations, Telenet does not charge the broadcasters any fee for transmitting their signal to its subscribers. Instead, the broadcasters benefit from increased advertising revenue they receive from reaching Telenet's basic video subscribers and Telenet benefits by providing its subscribers added content. In certain situations, Telenet pays broadcasters for the channels they transmit over Telenet's network. In addition to these arrangements, Telenet has also entered into contracts with certain broadcasters pursuant to which it currently pays a fee in order to have the right to broadcast their signal on any enhanced video service that it may offer in the future. For the years ended December 31, 2016 and December 31, 2015, Telenet incurred copyright fees of €62.0 million and €63.5 million, respectively, to public national and regional broadcasters and related copyright agencies for both analog and digital content. For the nine months ended September 30, 2017 and September 30, 2016, Telenet incurred copyright fees of €46.7 million and €46.4 million, respectively, to public national and regional broadcasters and related copyright agencies for both analog and digital content.

Premium Tier Video

Telenet's interactive enhanced video service includes a combination of premium sports and film channels, a range of extended thematic channels, a selection of films and broadcast content available on an on-demand basis and a variety of interactive features. Telenet's enhanced video offering is available to all subscribers passed by the Combined Network.

Telenet's basic video subscribers who have installed a set-top box or CI + module, and activated a smart card, have access to more than 70 digital channels, including 15 HD channels, and approximately 36 digital radio channels, for no additional fee. Telenet offers its basic video services in digital for no additional fee in order to encourage its subscribers to migrate to its enhanced video services giving them access to a more enriched TV experience, including access to EPGs, additional thematic content packs, exclusive movies and sports channels and a larger VOD library of both local and international programs. All of Telenet's enhanced video subscribers can access the "Yelo Play" app, through which they can enjoy a unique content experience on multiple connected devices in the home and out-of-home through Telenet's WiFi Homespots and hotspots. At September 30, 2017, Telenet served 1,791,200 enhanced video customers, including 74,700 inorganic subscribers added through the SFR Belux acquisition. Telenet's digitalization ratio, which measures the total base of enhanced video customers relative to Telenet's total video subscriber base, continued to grow, and reached approximately 88% at September 30, 2017 compared to approximately 85% at September 30, 2016.

In order to access all of Telenet's premium enhanced video offerings, subscribers need to install a set-top box, which acts as an interface between the subscriber and the Combined Network, and operates on the Multimedia Home Platform ("MHP") standard, which provides an open standard platform that gives Telenet the flexibility to integrate applications from a variety of sources. Telenet offers digital set-top boxes in a sale or a rental model. Telenet offers a choice of "HD Digibox" and "HD Digicorder" set-top boxes with alternative specifications and functionality, such as the ability to record, pause and playback digital content viewed on its service. Following the phasing-out of Telenet's legacy Standard Definition ("SD") platform mid-2014, all set-top boxes are HD-enabled. The vast majority of Telenet's enhanced video subscribers rent the "HD Digicorder" as this specific set-top box type is included in Telenet's multiple-play bundles and allows for a full, high-quality TV viewing experience including pausing, forwarding and recording functionalities.

Telenet's premium service includes a combination of premium sports and film channels, a range of extended thematic channels, a selection of films and broadcast content available on-demand and a variety of interactive features. In cooperation with the local broadcasters, Telenet has built a large broadcasting on-demand library, including historical and current content and previews of local series. In addition, Telenet's enhanced video platform supports additional functionalities such as e-mail, short message services, search and recommend, online photo albums and access to government services and programs. Other features include several interactive search engines such as telephony directories, job searches and travel and transportation information.

Sporting Telenet. In June 2011, Telenet acquired certain exclusive broadcasting rights for the Jupiler Pro League for the three seasons starting July 2011. From the 2012-2013 season onwards, Telenet has broadcast all league

matches of the Jupiler Pro League, which has resulted in incremental subscriber growth. In June 2014, the Jupiler Pro League awarded Telenet broadcasting rights for a further three years on a non-exclusive basis and in May 2017, Telenet extended the non-exclusive broadcasting rights for the Jupiler Pro League for three seasons until the 2019-2020 season. In addition, Telenet also gained the exclusive OTT rights, while local media company De Vijver Media, in which Telenet owns a 50% shareholding, holds the exclusive rights on the match summaries. As a result, Telenet will be able to broadcast all league matches through to the 2019-2020 season. Telenet believes it provides the broadest sports offerings within its footprint through “Play Sports”, which combines domestic and foreign football with other major sport events including golf, Formula One racing, volleyball, basketball and hockey. Telenet recently also added tennis with the ATP World Tour Masters, a major tennis event, to its sports line-up. At September 30, 2017, approximately 232,000 customers subscribed to Telenet’s sports pay television channels, an increase of 1% compared to September 30, 2016. Pricing is dependent on the number of services ordered and ranges from €18.40 per month for triple-play subscribers to €29.40 per month for single-play subscribers (both including VAT).

Subscription on-demand content and thematic channels. In September 2013, Telenet launched “Rex” and “Rio”, two unlimited subscription VOD packages for a fixed monthly charge. In December 2014, Telenet introduced “Play” and “Play More”, replacing the former “Rex” and “Rio” packages. Priced at €10.0 per month (including VAT), “Play” represents an attractive entry point for enhanced video customers who want to take full control of when, where and how they watch TV. Currently, Telenet is the only operator in Belgium to bundle the content of local broadcasters, an extensive collection of international movies and series, and TV functionalities such as 7-day catch-up TV, in one single add-on product. At September 30, 2017, Telenet’s subscription VOD packages “Play” and “Play More” had 393,100 customers, representing a 17% increase compared to September 30, 2016. This robust performance was driven by (i) an improvement in the linear viewing experience and the revamp of Telenet’s premium entertainment platform “Play More”, (ii) continued investments in promising local content both through co-productions with Telenet’s co-owned commercial channels “VIER”, “VIJF” and “ZES” as well as certain proprietary content, and (iii) Telenet’s exclusive partnership with HBO providing access to high-quality international content.

Premium Tier Content

Telenet’s premium content is acquired through various studio contracts, including Universal Studios, MGM, Twenty-First Century Fox, Paramount, Sony, Disney and Warner Brothers. These contracts generally require Telenet to make payments on the basis of a minimum number of subscribers, with adjustments made on a sliding scale once minimum subscriber levels have been attained. In addition, a few of these contracts require Telenet to share a portion of the additional revenue derived from price increases for its premium television packages with the content provider.

In 2016, Telenet’s own television series, “Chaussée d’amour”, produced in collaboration with the local production company deMENSEN, was made available for “Play” and “Play More” customers. By producing its own content, Telenet wants to cater for the changing viewing habits and expectations of the modern television viewer. Telenet expects that this will contribute to the strength of its “Play” and “Play More” offerings.

The success of Telenet’s premium services depends on its ability to obtain attractive content on reasonable terms. Following the launch of Telenet’s enhanced video service and competing television services in Belgium, competition for premium content in Belgium has increased. If in the future, Telenet is unable to retain certain rights for premium content, its ability to attract and retain subscribers to its premium services, and its profitability, may be adversely affected. In addition, most content agreements entered into by Telenet with the major studios do not allow Telenet to offer content via interactive means. These agreements will therefore need to be renegotiated and content prices may increase. See “*Risk factors—Risk related to Telenet’s business, technology and competition—If Telenet is unable to obtain attractive programming or necessary equipment and software on satisfactory terms for its enhanced video services, the demand for these services could be reduced, thereby lowering revenue and profitability*” and “*Risk Factors—If Telenet is unable to obtain attractive programming or*

necessary equipment and software on satisfactory terms for its enhanced video services, the demand for these services could be reduced, thereby lowering revenue and profitability”.

Residential Internet

Telenet is the leading provider of residential broadband internet services in Flanders. Today, Telenet offers consumers and businesses data download speeds of up to 200 and 500 Mbps, respectively, and upload speeds of 20 and 50 Mbps, respectively. Through Telenet’s €500.0 million five-year “Grote Netwerf” investment program, which kicked off in early 2015 and is expected to be completed mid-2019, Telenet aims to boost the capacity of its network from 600 MHz currently to 1 GHz, enabling data download speeds of at least 1 Gbps in the future. As customers increasingly expect to enjoy seamless superfast connectivity whether at home, at work or on the move, WiFi remains one of the cornerstones of Telenet’s connectivity strategy. In early October 2014, Telenet announced the roll-out of the EAP functionality on its WiFi routers, enabling customers to automatically and seamlessly connect to Telenet’s WiFi network. This new technology has been activated for substantially all WiFi hotspots and the WiFi Homespots, boosting the offloading capabilities to move a larger share of the mobile data traffic to its WiFi network at no incremental cost.

Thanks to continuing investments in its leading HFC network, Telenet’s customers can continue to enjoy a great broadband internet experience, both at home and on the move. To this end, Telenet made further progress with the deployment of WiFi Homespots across its footprint. A Homespot is a modem that transmits two concurrent signals: one for private use and another for public use. This enables customers, who have a Telenet wireless internet modem, to log onto the WiFi network of friends or relatives with their own login and hence, they can experience a superior mobile-data experience at no incremental cost. At September 30, 2017, Telenet has deployed around 1.4 million WiFi Homespots and operated nearly 2,000 WiFi hotspots in public areas. Through partnerships with its majority shareholder Liberty Global, certain of its affiliates, and Walloon cable operator VOO, broadband internet customers from both cable companies can freely use the WiFi Homespots on either company’s network in Wallonia and in certain other European countries where service is offered through other Liberty Global and certain affiliate networks.

Mid-March 2017, Telenet introduced “Flow Tech”, a suite of smart technologies, to ensure that customers can seamlessly access both fixed and mobile networks across all of their devices. At the end of June 2017, Telenet boosted both the data upload and download speeds of its “Basic Internet” product. Priced at €27.8 per month (including 21% VAT) and providing a data download speed of 50 Mbps, Telenet’s “Basic Internet” offer remains one of the most attractive entry packages both within a Belgian and a wider European context. At September 30, 2017, Telenet served 1,670,400 broadband internet subscribers (+5% year-on-year), including 60,300 inorganic subscribers added through the SFR Belux acquisition and equivalent to 50.5% of the homes passed by its HFC network. For the nine months ended September 30, 2017, net organic subscriber additions for Telenet’s broadband internet service were 9,800. Telenet’s annualized churn rate was impacted by the intensely competitive environment and reached 8.9% for the nine months ended September 30, 2017 as compared to 7.7% for the nine months ended September 30, 2016.

The broadband internet access market in Belgium is well established, with penetration rates higher than in most other major European markets. According to Europe’s Digital Progress Report 2017, Belgium ranks 6th in Europe’s Digital Economy and Society Index (DESI) 2017. Belgium ranks highest in connectivity (3rd) and integration of digital technology by businesses (5th), while digital public services are its biggest relative weakness. The country’s key challenge is to continuously improve its mobile connectivity. The Belgian broadband internet market is characterized by the wide availability of high-speed access networks, resulting from continued infrastructure-based competition between the two leading access technologies being cable (Telenet in Flanders and approximately two-thirds of Brussels and VOO in Wallonia and parts of Brussels) and VDSL (Proximus). According to the BIPT 2016 Annual Report, approximately 81% of all broadband internet connections in Belgium at December 31, 2016 would have access to effective speeds in excess of 30 Mbps versus a European average of approximately 37%. The differential becomes even larger when looking at the penetration of broadband internet households having access to effective speeds in excess of 100 Mbps standing at approximately 37% in Belgium versus a modest 15% across Europe. According to the BIPT 2016 Annual Report, Belgium had approximately 4.2 million broadband internet connections at December 31, 2016, representing a 3% increase versus 2015. Approximately 69% of broadband internet connections relate to both Flanders and Brussels, where Telenet is active. Telenet’s ability to continue to further grow the broadband market will depend in part on increases in the number of households with an internet-connectable device in Flanders and parts of Brussels.

The following table sets forth certain information related to Telenet's broadband internet service as of and for the periods indicated.

	As of and for the nine months ended September 30,		As of and for the year ended December 31,		
	2017	2016	2016	2015	2014

(1) Theoretical speed; actual speed may be influenced by traffic on the internet and other technical factors.

(2) The term “Fair use” means that a customer can send and receive a very large quantity of data via Telenet's network. Telenet will only ask a customer to adjust his/her consumption in the case of excessive volume consumption that may threaten the comfort of other subscribers. Telenet defines excessive volume consumption as consumption that is at least 500 GB during peak hours. In the case of excessive volume consumption, Telenet reserves the right to reduce the download speed to the minimum of 10 Mbps downstream and 1 Mbps upstream until the next charging period begins. “Fair use” can only be used for private purposes and occur in full compliance with Telenet's general conditions and code of conduct. Among other things, this means that the subscriber can only disseminate legal data.

Residential Telephony

Fixed-line telephony. Telenet offers its residential subscribers local, national and international long distance fixed-line telephony services and a variety of value-added features. In Flanders, Telenet believes it is currently the largest competitor of Proximus, due in part to Telenet's emphasis on customer service and innovative flat-fee rate plans. Substantially all of Telenet's fixed-line telephony subscribers use VoIP technology, which utilizes the open standards EuroDocsis protocol, and through which Telenet is able to provide both internet and fixed-line telephony services.

Telenet's residential fixed-line telephony subscribers are charged a combination of fixed monthly fees for their telephone line, variable fees based on actual usage and, for certain tariff plans, fixed fees for unlimited calls to national fixed lines at all times. Flat-rate usage charges apply for calls placed to other fixed and mobile lines in Belgium and all European member states during off-peak hours. Telenet seeks to price its residential telephony products to provide a better valued alternative to Proximus. It also offers its residential subscribers enhanced telephony features for additional fees. Enhanced offerings include packages of features and individual services such as voicemail and caller ID. In early May 2013, Telenet enriched its fixed-line telephony offer through the launch of "Triiing". This application allows fixed-line telephony subscribers to call with their smartphones over WiFi networks at attractive flat fee rates instead of generally more expensive mobile tariffs.

Telenet served 1,302,500 fixed-line telephony subscribers at September 30, 2017 (+4% year-on-year), including 48,100 inorganic additions from the acquisition of SFR Belux and equivalent to 39.4% of the homes passed by its network. For the nine months ended September 30, 2017, Telenet lost 200 net organic fixed-line telephony subscribers as a result of the intensely competitive market environment and an overall declining market trend. Both these factors also drove a 150 basis points increase in the annualized churn rate to 10.0% for the nine months ended September 30, 2017 as compared to 8.5% for the nine months ended September 30, 2016.

The following table describes certain information related to Telenet's residential telephony service as of and for the periods indicated. For the nine months ended September 30, 2015, 24,000 residential fixed-line telephony subscribers were reclassified to business fixed-line telephony subscribers. Telenet did not retroactively reclass the prior year periods.

Mobile telephony. In February 2016, Telenet finalized the acquisition of Belgian mobile operator BASE. Telenet offers its mobile telephony services under both the "Telenet" and "BASE" brand names and has entered into several wholesale partnerships. In addition to BASE's mobile radio access network, Telenet has historically been operating through a MVNO partnership with Orange Belgium, (the "**MVNO Arrangement**"). Pursuant to the MVNO Arrangement, Telenet offers its cable customers mobile voice and data services, including 4G/LTE, through Orange Belgium's mobile network. Through a partnership with Telenet, Nethys also uses the MVNO Arrangement to provide mobile services to its cable customers.

At the end of May 2016, Orange Belgium and Telenet reached an agreement setting the terms and conditions for the future termination of their MVNO Arrangement. The MVNO Arrangement will run until the end of 2018, implying Telenet's mobile customers can continue to use Orange Belgium's network until the end of 2018. Telenet committed to a minimum payment of €150.0 million (excluding VAT) over the 3-year period 2016-2018. The actual amount paid by Telenet could exceed this minimum amount in case of higher network usage. Beyond 2018, an optional 6-month extension period has been agreed upon with a minimum payment of €15.0 million (excluding VAT) if triggered. Through the MVNO Termination Agreement, all outstanding legal disputes between both companies, including the judicial recovery of invoices under the MVNO Arrangement, have now been settled. The rapid modernization of Telenet's acquired mobile network is an important synergy enabler, allowing Telenet to accelerate the onboarding of its Full MVNO customers to its own mobile network. At September 30, 2017, approximately 54% of its Full MVNO customers had been onboarded on the own mobile network. Telenet now

aims for full completion by the end of the three months ending March 31, 2018 versus the initial plan by end-2018. As the accelerated onboarding will affect the contractual commitments under the MVNO Arrangement, Telenet incurred a €29.2 million non-cash restructuring charge in the three months ended September 30, 2017.

Telenet's active mobile subscriber base, which excludes subscribers under its commercial wholesale partnerships, totaled 2,882,100 SIMs at September 30, 2017, including 2,258,800 postpaid subscribers. The remaining 623,300 mobile subscribers receive prepaid services under the BASE brand and various branded reseller contracts. Compared to September 30, 2016, Telenet recorded a 5% decrease in the total number of active mobile subscribers as a result of the sale of its direct subsidiary Ortel Mobile to Lycamobile as of March 1, 2017 and the impacts from the June 2017 mandatory prepaid registration. As such, a total of 157,900 and 53,300 mobile SIMs have been removed from Telenet's subscriber count in the three months ended March 31, 2017 and the three months ended June 30, 2017, respectively. For the nine months ended September 30 2017, Telenet added 143,400 net postpaid subscribers driven by the continued uptake of its all-in-one converged "WIGO" bundles and improved offers. At the end of September 2017, Telenet revamped the mobile line-up under the "BASE" brand, by offering more flexible bundles adjusted to the customers' needs so they can use the full capacity of their package, regardless of their appetite to use either more data, minutes or text messages.

	As of and for the nine months ended September 30,		As of and for the year ended December 31,

Interconnection

Interconnection is the means by which users of one telephony network are able to communicate with users of another telephony network. For a subscriber located on one telephony network to complete a telephone call to an end user served by another telephony network, the subscriber's network service provider must connect to the network serving the end user. Typically, the network serving the end user charges the subscriber's service provider a fee to terminate the communication on its network, which is based on a call set-up charge and on the length of the telephone call.

Telenet and Telenet Group (former BASE Company NV) are being considered as two separate networks, both with their own interconnection set-up. Telenet and Telenet Group's principal interconnection agreements are with Proximus and the main telecommunication operators in Belgium. Proximus, the incumbent fixed-line PSTN telephony service provider in Belgium, is the largest provider of fixed-line telephony services in the Belgian market with an estimated residential market share between 50-60%, according to the BIPT 2016 Annual Report. In the premium service mobile business, Telenet and Telenet Group connect to content aggregators, and as such provide mobile telephony subscribers access to value-added services. For the purpose of serving its mobile telephony subscribers roaming abroad, Telenet Group has over 600 bilateral roaming agreements. For this purpose, Telenet has closed a roaming agreement with an international provider, acting as a roaming hub provider.

Interconnection revenue and expenses have a significant impact on Telenet's financial results. As a result, Telenet is focused heavily on managing this cost. For the year ended December 31, 2016, Telenet incurred interconnection expenses of €222.7 million (€114.7 million for the year ended December 31, 2015) and reflected the impact from the February 2016 BASE acquisition. For the year ended December 31, 2016, Telenet received interconnection revenue of €202.0 million (€102.8 million for the year ended December 31, 2015) and included BASE's interconnection revenue since the acquisition in February 2016. Telenet reports the interconnection revenue generated by its fixed-line and mobile telephony subscribers under 'Other' revenue, while the incurred interconnection fees are included in 'Direct costs'.

Telenet and Telenet Group's interconnection practices are subject to comprehensive regulation by the BIPT. Mobile termination rates have been capped for each mobile network operator at €1.08 cents per minute starting January 2013 (while still taking into account inflation versus year of reference). This marks a 60% decline compared to the average mobile termination rate of €2.67 cents per minute, which was applicable as of January 1, 2012. On September 14, 2015, the BIPT published its draft decision on the relevant market for call termination on individual mobile networks. Telenet and Telenet Group have been designated in the draft decision as having significant market power ("SMP"). In the draft decision, the BIPT adopts a bottom-up long-run incremental cost

model to calculate tariffs for call termination on individual mobile networks, resulting in an average of €0.74 cents per minute over the review period. The BIPT has organized a public consultation on this draft decision which was open until November 14, 2015. A final decision has not yet been published, but is expected later this year.

On July 14, 2015, the BIPT published its draft decision on the relevant market for call termination on individual fixed networks. Following the adoption of a bottom-up long-run incremental cost model, this will result in one single tariff—thus abolishing the set-up and duration as well as the peak and off peak principle. The BIPT has organized a public consultation on this draft decision which was open until September 15, 2015. A final decision has been published in August 2016, defining the charge of call termination on individual fixed networks to be 0,092 cents per minute as from November 1, 2016.

Residential Sales, Marketing, Installation and Customer Care

Marketing

Telenet primarily markets its residential basic and enhanced video, internet and fixed-line and mobile telephony services under the “Telenet” brand name, which it supports with extensive advertising and brand awareness campaigns. Telenet believes that its basic video service has historically been viewed as a utility service and therefore has not actively marketed it, although Telenet has undertaken a substantial marketing effort to promote its enhanced video offering, together with the associated premium content. Following the February 2016 BASE acquisition, Telenet also commercializes mobile telephony services under the “BASE” brand throughout the whole of Belgium. In parts of Brussels, Wallonia and Luxembourg, Telenet also markets its residential basic and enhanced video, internet and fixed-line and mobile telephony services under the “SFR” brand name following the June 2017 SFR Belux acquisition.

Telenet’s residential marketing division, led by the Senior Vice-President Residential Marketing, manages all marketing activities for the residential market, including branding, media advertising, online platforms and decides on go-to-market strategies. Furthermore, the residential marketing division also runs the product development for Telenet’s video, including pay television services, broadband internet, telephony, entertainment and mobile services. Working in conjunction with Telenet’s residential sales and customer care division, Telenet’s residential marketing division uses a combination of individual and segmented promotions and campaigns, as well as general brand marketing to attract and retain subscribers. Marketing channels include media advertising, telemarketing, different forms of e-marketing, and targeted mail solicitation. Telenet’s marketing expenses include fixed marketing costs and variable marketing costs tied to subscriber incentives that can include free installation, free activation, free CPE such as WiFi routers and temporary reduced subscription costs or reduced prices on mobile handsets. Telenet continuously evaluates its marketing channels to allocate its resources most efficiently.

Telenet is increasingly focused on offering its subscribers broadband internet and telephony subscriptions and services together with its video services in the form of attractively priced multiple-play bundles. Telenet has derived, and believes it can continue to derive, substantial benefits from the trend towards bundled subscriptions, through which it is able to sell more products to individual subscribers, resulting in significantly higher ARPU per customer relationship and, in its experience, the reduction of customer churn. Telenet has been offering bundles since 2006 and has fully repositioned and rebranded these in 2008 through the introduction of its “Shakes” bundles. At the end of June 2013, Telenet introduced its next-generation multiple-play lineup “Whop” and “Whoppa”, to replace its “Shakes” bundles, to significantly simplify its product portfolio. These fixed bundles are based on the same philosophy as Telenet’s mobile rate plans “King” and “Kong”, reflecting its core customer values: simplicity, transparency, customers first and future proof. “Whop” and “Whoppa” are two attractively priced all-in-one triple-play bundles that cater to a total multimedia experience, at home and beyond, including Telenet’s leading “Yelo Play” OTT platform, Telenet’s high-speed broadband internet product and Telenet’s enriched fixed-line telephony offering (including free calls to mobile lines in off-peak hours and WiFi calling features at attractive flat fee rates). In June 2016, Telenet launched its all-in-one converged package for families and businesses, “WIGO”. All three residential “WIGO” bundles, each priced between €100.0 and €195.0 per month (including 21% VAT), include a superfast broadband connection, WiFi access, unlimited fixed and mobile calls in Belgium and a mobile data allowance to be shared among individual family members. At September 30, 2017, Telenet reached 265,100 “WIGO” customers.

Sales, Installation and Customer Care

Telenet's residential sales and customer care division is responsible for all aspects of the sales, installation and customer care process, including customer maintenance, billing and repair procedures. Collectively, these processes are designed to promote a high level of customer satisfaction and to thereby support growth in subscriber penetration rates and the number of services per individual customer.

The customer care process, including repair, is a significant priority of Telenet. Telenet regularly conducts surveys and tests to analyze the effectiveness, efficiency and satisfaction of its customers in all aspects of their experience with Telenet, from the initial sales and marketing effort, to installation and any required follow up. Telenet's "ACE Program" has been designed specifically to provide a top-of-the-market customer experience across all touch points within a customer's lifecycle. Through the Net Promoter Score ("NPS"), Telenet carefully measures the satisfaction of its customers and part of both management's and employees' variable compensation is linked to specific NPS targets. Telenet also conducts pro-active customer visits under its "Yellow House" program, aimed at replacing outdated CPE and boosting customer loyalty.

Telenet makes both inbound and outbound calls through its customer call centers at its head office in Mechelen and at two remote locations in Flanders. In addition to Telenet's own call centers, it outsources a proportion of its call traffic to trained third party call center personnel in order to achieve high customer reachability, while keeping its call center cost levels flexible. Telenet's customer care division also uses "win-back" promotions and other programs to minimize voluntary churn and to persuade subscribers who seek to disconnect their service to change their decision.

In addition to Telenet's call centers, Telenet also uses retail channels to sell its products and services. In addition, Telenet sells its products and services through dedicated agents, who are paid a commission based on the number of sales closed, also provide a significant source of sales. These agents include consumer electronics, other retail outlets and dealers.

The installation process is an important element of Telenet's overall customer management process. Telenet believes that the installation process can either generate customer satisfaction and valuable cross-selling opportunities when properly implemented, or generate an adverse reaction, potentially resulting in a sales cancellation or customer churn, if not well managed. For the installation of an interactive fixed-line product, a residential customer can always choose between either a payable full technician installation or a free self-installation in homes where a network interface unit ("NIU") is already present and, eventually, a modem and no filters for drop cable connections. The NIU enables interactions between Telenet's network and the end user, controls the amplification of the network signal level and prevents interference entering the network.

The connection of devices connected to the internet (*e.g.*, personal computer) or the interactive path of enhanced video can be implemented using a combination of wired and wireless solutions. Where wired solutions are not appropriate, Telenet is able to offer wireless installations or can offer internet subscribers the option of transmitting internet signals through the existing electrical wiring network of a home using additional adapters. The choice of modem depends on which services the customer plans to use and is also a function of current technology choices. Telenet is able to optimize the cost it incurs for customer equipment both at initial point of sale, and for future cross-sell opportunities, through its selection of type of modem. For example, new broadband internet customers will typically be enabled for enhanced video and telephony services also, which can be subsequently activated for a limited incremental cost. Most of the installation workforce is being outsourced but with strict training and performance measures in place. Telenet seeks to improve the efficiency of its installation process to deploy its resources in a more efficient manner.

Business Services

Telenet's business customers include SMEs larger corporations; public, healthcare and educational institutions; and carrier customers that include international voice, data and internet service providers. For the year ended December 31, 2016, Telenet's business services operations generated €122.3 million in revenue compared to €118.1 million for the year ended December 31, 2015.

Telenet markets its business services under the "Telenet Business" brand name. Telenet's corporate customers generally fiber optic connections or VPN networks. Its SME customers connect to the Combined Network through a fiber, DSL or coaxial connection, depending on the scope of their needs and their location relative to the Combined Network.

Telenet Business offers a range of business voice, data and internet products and services that are tailored to the size and needs of each customer throughout Belgium and parts of Luxembourg. With the inclusion of DSL services, Telenet has flexibility to target customers throughout Belgium. SLA's are offered on all business services. Telenet Business also offers a range of mobile services to the SME and Corporate market through its Telenet mobile network.

Telenet's business is organized on a regional, business sector and customer size basis. The prices that Telenet offers its corporate, public, healthcare, educational and carrier customers are usually negotiated within fixed parameters, whereas more standardized prices typically apply to Telenet's SME customers.

The availability of EuroDocsis 3.0 represents an important development for Telenet's positioning in the B2B market. Given the higher download speeds, better product specifications and improved quality of service over competing technologies, Telenet is in a strong position to increase its market share in the B2B. Telenet's leading connectivity solutions are being complemented by a growing portfolio of mobile, value-added services, such as hosting, managed security and cloud computing amongst others. This will enable Telenet Business to offer a single-user experience for not only connectivity solutions but also for a whole range of additional value-added services.

Telenet is upgrading its fixed and mobile networks to address the increased data consumption of its customers.

The recent acquisition of Belgian ICT integrator Nextel is aimed at supporting Telenet's growth ambitions in the Belgian B2B market, as the acquisition is expected to provide the Telenet group with additional in-house expertise to design, construct and manage total solutions on behalf of other companies. As a Belgian integrator, Nextel currently works for major companies, SMEs, care institutions, non-profit organizations and government authorities.

Future Products and Services

Telenet is taking a diverse approach to innovation by making important investments in several activity domains. By doing so, Telenet sets new standards in the telecom, media and entertainment segments and builds disruptive business models and innovative products that make a real difference in this digital age.

Innovation is of prime importance to Telenet. Telenet believes it can play a role in promoting innovation in Flanders. Telenet therefore invests in promising Flemish digital entrepreneurial talent. Telenet is working together with iMinds on the iStart programme and in that respect offers all newly selected firms an all-in-one business solution for one year with high-performance internet connectivity and telephony and CloudOffice for the staff. Furthermore, Telenet and research and innovation centre iMec have entered into a long term partnership in relation to Internet of Things and Smart Cities. Telenet will also participate to the City of Things program of iMec, supported by the city of Antwerp and the Flemish Government. Telenet is moreover involved in several imec.istart programs, specifically aimed at tech start-ups and start-ups active in media, telecom and entertainment markets.

Technological innovation: Building highly performing fixed and mobile connectivity solutions

The explosion of fixed and mobile data usage demands constant expansion of the network capacity. In the Flanders region, Telenet is a leading fixed connectivity provider thanks to state-of-the-art hybrid network of glass fiber and coaxial cable.

As a first operator in Europe, Telenet wants to expand this performing fixed cable network to a Giga speed network offering even faster network connections to both residential and business customers, with higher data volumes—anytime, anyplace.

The acquisition of BASE in 2016 provides Telenet with an own mobile network, covering all regions of Belgium. Additional investments in this mobile network should further increase coverage and performance.

Product innovation: Anticipating changing customer behaviors

Telenet is actively responding to changing customer behaviors by introducing propositions that offer best-in-class, user-friendly products in simple and transparent bundles. Thanks to these limited offerings, customers can more easily compare products and make a fast and balanced choice that responds to their specific needs and expectations.

Customer service innovation: Creating memorable customer experiences

Positive customer experiences form the foundation for sustainable growth. Telenet is continuously optimizing its customer service models by creating memorable experiences that enhance customer satisfaction.

Strategic partnerships: Stimulating open innovation

Telenet is building strategic partnerships that transform the telecom, media and entertainment business. The Company is also actively involved in open innovation initiatives across industries and sectors. Efforts result in new, disruptive business models and innovative products and solutions that shape the digital age.

Telenet's Network

In 1996, Telenet acquired the exclusive right to provide point-to-point services, including broadband internet and fixed-line telephony services, and the right to use a portion of the capacity of the broadband communications network owned by the pure intermunicipalities (the "PICs"), the Partner Network. Currently, under the PICs Agreement through Telenet BVBA and Telenet Vlaanderen NV, Telenet has full rights to use substantially all of the Partner Network under a long-term lease (*erfpacht/emphythéose*) entered into in 2008 for an initial period of 38 years, for which Telenet is required to pay recurring fees in addition to the fees paid under certain pre-existing agreements with the PICs.

Telenet refers to the Combined Network when describing the combination of its own network and the Partner Network. Through the Combined Network, Telenet provides video in analog, digital and HD formats, broadband internet and fixed-line telephony services to both residential and business customers who reside in its service area. Telenet's Combined Network consists of a fiber backbone with local loop connections constructed of coaxial cable with a minimum capacity of 600 MHz. The Combined Network uses EuroDocsis 3.0 technology, which enables Telenet to currently offer downstream speeds of up to 240 Mbps for certain of its business customers. Telenet's Combined Network assets include approximately 12,000 kilometers of fiber backbone, of which Telenet owns 7,300 kilometers, utilizes approximately 2,600 kilometers pursuant to long-term leases and has access to 2,100 kilometers through its agreements with the PICs. The fiber backbone connects to approximately 68,000 kilometers of coaxial local loops, of which 50,000 kilometers is in the Telenet Network and the balance is in the Partner Network. Telenet owns the primary and secondary fiber backbone on the Combined Network and the fiber and coaxial cable on the Telenet Network. The PICs own the additional fiber and the coaxial cable included in the HFC access loops on the Partner Network.

In addition to its HFC network, Telenet offers services to business customers across Belgium and in parts of Luxembourg through a combination of electronic equipment that it owns and fiber that is predominantly leased. Telenet has also installed equipment necessary to provide voice, data and internet services using DSL technology. DSL technology enables Telenet to serve business customers that are not close to the Combined Network in a more cost effective manner.

Telenet's fiber backbone is running All-IP and carries all of its communications traffic. Telenet also uses fully converged MPLS to route its IP traffic, which enables it to more efficiently tag data to better manage traffic on the Combined Network. This means, for example, that voice packets can be given priority over data packets to avoid interruption to voice communications.

Customers connect to the Combined Network through a coaxial connection from one of Telenet's nodes. Amplifiers are used on the coaxial lines to strengthen both downstream and return path signals on the local loop. Network quality usually deteriorates as customer penetration rates on any particular node increases. When required, the scalability of Telenet's network enables it to address this problem, within limits, through node splits. Telenet uses node splits, among other measures, to manage potential congestion in certain parts of the Combined Network.

Telenet's network operating center in Mechelen, Belgium, monitors performance levels on the Combined Network on a continuous basis. Telenet has a separate disaster recovery site for back office systems, and its network has been designed to include redundant features to minimize the risk of network outages and disasters with the fiber optic rings designed to reroute traffic in the opposite direction around the ring in the event that a section of the ring is cut. Telenet has insured its buildings, head end stations, nodes and related network equipment against fire, floods, earthquakes and other natural disasters, but is not insured against war, terrorism (except to a

limited extent under its general property insurance) and cyber risks. Telenet carries insurance on its fiber optic network up to a capped amount, but does not carry property damage insurance for its coaxial network.

In August 2014, Telenet announced a five-year €500.0 million network investment program as it plans to increase the capacity of the Combined Network to 1 GHz, enabling download speeds of at least 1 Gbps in the future, with the objective of allowing Flanders to offer some of the highest-capacity digital infrastructure in Europe. At September 30, 2017, approximately 58% of the nodes in the Combined Network had been upgraded.

For further information on the legal proceedings in relation to the PICs Agreement, see “*Risk Factors—Telenet may be faced with potential further litigation concerning the agreement-in-principle and PICs Agreement concluded between Telenet and the PICs, Interkabel and INDF*” and “*Description of Telenet’s Business—Legal Proceedings—Legal proceedings concerning the agreement-in-principle and PICs Agreement concluded between Telenet and the PICs, Interkabel and INDF*”.

PICs Agreement and Interkabel Contribution Deed: Telenet’s Usage Rights on the Partner Network

Prior to the closing of the PICs Agreement and Telenet’s acquisition of the PICs’ cable television business, Telenet solely had long-term usage rights on the Partner Network to provide point-to-point services (pursuant to the Interkabel Contribution Deed entered into by Telenet Vlaanderen NV). These usage rights are for an initial term of 50 years as from September 23, 1996, automatically renewable for additional terms of 15 years, unless terminated upon 12 years’ prior notice. Interkabel and the PICs’ limited termination rights under the Interkabel Contribution Deed are described in more detail below.

Following the PICs Agreement, Telenet has full rights to use substantially all of the Partner Network (*i.e.*, to provide point-to-point and point-to-multipoint services) under a long-term lease for an initial period of 38 years, for which it is required to pay recurring fees in addition to the fees paid in relation to the Interkabel Contribution Deed (which, for the avoidance of doubt, remains in full force and effect) under certain pre-existing agreements with the PICs. The PICs remain the legal owners of the Partner Network. All capital expenditures associated with the Partner Network will be initiated by Telenet, but executed and pre-financed by the PICs through an increase of the lease payments due by Telenet BVBA to the PICs, and will follow a 15-year reimbursement schedule. Telenet’s enlarged usage rights on the Partner Network have the form of emphyotic lease agreements (*erfpacht/emphytéose*) with each of the PICs, which under Belgian law is the legal form that is the closest to ownership of a real estate asset without actually having the full legal ownership. Any amounts payable by Telenet under such emphyotic leases are not secured (and not subordinated). Unless extended, the long-term leases will expire on September 23, 2046, and cannot be terminated earlier, except in the following cases: (a) non-payment of at least 25% of Telenet BVBA’s annual lease payments, which is not cured within 100 business days; or (b) bankruptcy of Telenet BVBA.

However, in each such case of early termination, the long-term lease will not be terminated if Telenet BVBA is replaced by a Replacing Entity (“*Instappende Entiteit*” as defined in the long-term leases) within a certain time period (in summary, a Replacing Entity is any interested party that meets certain strict solvency requirements). In the event that a long-term lease is transferred to a Replacing Entity for an event that does not also lead to the automatic termination of the usage rights under the Interkabel Contribution Deed (see below), Telenet Vlaanderen NV will have the right (but not the obligation) to transfer its usage rights on the Partner Network to such Replacing Entity, subject to certain conditions.

Under the terms of the Interkabel Contribution Deed, Telenet’s usage rights to provide point-to-point services over the Partner Network will automatically terminate if, among other things, (i) there is a unanimous and definitive decision of the board of directors of Telenet BVBA to cease any direct or indirect development, installation or exploitation of its telecommunications network in Belgium, (ii) Telenet BVBA or Telenet Vlaanderen is declared bankrupt or placed into liquidation, (iii) certain provisions of the Articles of Association (*statuten/statuts*) of Telenet Vlaanderen are amended in any way that is detrimental to the rights of Interkabel without Interkabel’s written consent, (iv) the director of Telenet Vlaanderen nominated by Interkabel is dismissed for any reason without Interkabel’s written consent and such director is not replaced by another director nominated by Interkabel or (v) Telenet Vlaanderen ceases to be an affiliate of Telenet BVBA. However, in each such case of early termination, the usage rights will not be terminated if Telenet Vlaanderen is replaced by a Replacing Entity (*Instappende Entiteit*, as defined in the Interkabel Contribution Deed) within a certain time period.

Telenet Vlaanderen has pre-emptive rights, with certain exceptions, with respect to any proposed transfer by Interkabel or any of the PICs of its respective interests in the Partner Network, or transfers by the PICs of shares

in Interkabel, at the price offered by a third party. For as long as Telenet Vlaanderen has the usage rights on the Partner Network under the Interkabel Contribution Deed, Interkabel has pre-emptive rights, with certain exceptions for transfers to certain affiliates, with respect to any proposed transfer of Telenet Vlaanderen shares, at the price offered by a third party.

Interkabel and the PICs have agreed not to dissolve their co-ownership structure in respect of the Partner Network voluntarily without the consent of Telenet Vlaanderen. Interkabel has also granted to Telenet Vlaanderen a call option on its co-ownership interests in the PICs, at the lower of book value or fair market value, in the event of a breach of its obligations or the obligations of the PICs under the Interkabel Contribution Deed.

For further information on the legal proceedings in relation to the PICs Agreement, see “*Risk Factors—Telenet may be faced with potential further litigation concerning the agreement-in-principle and PICs Agreement concluded between Telenet and the PICs, Interkabel and INDF*” and “*Description of Telenet’s Business—Legal Proceedings—Legal proceedings concerning the agreement-in-principle and PICs Agreement concluded between Telenet and the PICs, Interkabel and INDF*”.

Recent and Planned Network Investments

The vast majority of Telenet’s capital expenditures continue to be geared towards targeted investments in both its fixed and mobile infrastructures, aimed at boosting the customer experience and allowing Telenet to unlock MVNO-related synergies by moving Telenet Full MVNO subscribers over to the acquired BASE network. Following the BASE acquisition in February 2016, Telenet aims to invest up to €250.0 million in the upgrade of the acquired mobile network, including (i) the upgrade of an estimated 2,800 macro sites equipped with the latest technologies, (ii) the roll-out of 800 to 1,000 new mobile sites across the whole of Belgium and (iii) targeted investments in fiber backhaul for the vast majority of our current and future macro sites. At the end of September 2017, Telenet had upgraded approximately 72% of its 2,800 macro sites and deployed 129 new sites. The rapid modernization of Telenet’s mobile network is an important synergy enabler, allowing Telenet to accelerate the onboarding of its Full MVNO customers to Telenet’s own mobile network. In addition, Telenet has embarked on a €500.0 million five-year network investment program “De Grote Netwerf”, aimed at boosting the data capacity of its HFC network to 1 GHz, which is expected to end mid-2019.

Competition

Telenet faces varying degrees of competition from established and new competitors in Flanders and the rest of Belgium. See “*Risk factors—Risks Relating to Telenet’s Business, Technology and Competition—The Belgian internet, data and telephony industries are highly competitive and the television industry has become more competitive, which could have a material adverse effect on Telenet’s business*”. Substantially all of its competitors, including Proximus and Orange Belgium, offer multiple-play services to residential and SOHO customers, including video, broadband internet and fixed-line and mobile telephony services. Proximus, the incumbent fixed-line operator in Belgium and Telenet’s largest competitor, offers customers a wide range of both individual and bundled video, broadband internet and telephony services that compete with the services Telenet offers its customers. Owning both a fixed and mobile network, Proximus is well positioned to offer a full range of converged quad-play services to both its residential and business customers. Through regulated cable wholesale access, Orange Belgium currently offers its mobile subscribers a dual-play bundle including enhanced video and broadband internet services. In addition, Telenet is observing the continued evolution of technologies that increase the capability of devices such as smartphones with multiple protocols, new generation set-top boxes, digital home gateways, and of the development of wireless broadband technologies, as well as the introduction of OTT platforms, including Netflix and Stievie.

The regulatory decisions of the BIPT, VRM and CSA aim to, and in its application may, strengthen Telenet’s competitors by granting them resale access to Telenet’s network. The extent of any such adverse impacts ultimately will be dependent on the extent to which competitors, such as Orange Belgium, take advantage of the resale access ultimately afforded to Telenet’s network and other competitive factors or market developments. See “*Description of Telenet’s Business—Regulation—Broadcasting Regulation—*

Decisions of the BIPT, the VRM, the CSA and the Medienrat” and see “*—Telenet may become subject to more extensive regulation if it is deemed to possess significant market power in any of the markets in which Telenet operates*”.

Television

Belgium was one of the first European countries to deploy cable networks, doing so as early as the 1970s, and, as a result, other means of video delivery such as satellite and terrestrial broadcasters have not yet become as popular in Belgium as they have in other European countries. Cable is the most commonly used transmission medium for video services in Belgium. Cable network services are characterized by easy-to-use technology, efficient installation of customer equipment and reliability of a protected signal delivered directly to the home. In Belgium, there is no direct competition between the cable network operators as there is no overlap between operators' cable networks. Although Telenet has historically faced limited competition in the provision of basic video service in Flanders, competition increased following the launch of enhanced video services in 2005 with consumers beginning to put more emphasis on digital, HD and interactive television services such as VOD, requiring high-bandwidth, bi-directional distribution platforms. In addition, competition in the residential TV market increased recently through the launch of a dual-play bundle by Orange Belgium.

The primary competing platform is IPTV, offered by Proximus over their VDSL-network. Proximus has extensively developed its enhanced video service and currently offers a full range of broadcast television and premium content, including VOD. Proximus provides a substantial source of competition, which is likely to increase in strength given the resources of Proximus and the reach of its network across Belgium.

Telenet faces additional competitive presence in the Belgian television market from satellite television. The largest premium satellite provider in Telenet's network area is TV Vlaanderen. Other television delivery media include digital terrestrial television, or DTT. Analog terrestrial television was terminated in Belgium in 2008. In order to comply with the Government's analog switch over policy, the Flemish public broadcaster VRT sold its terrestrial transmission network to Norkring Belgium, an independent private operator. This operator is in charge of managing the DTT spectrum, including the design, construction and maintenance of the transmitter networks but is not allowed to commercialize a DTT offer. Norkring Belgium held selection procedures to sublease parts of the spectrum to other operators who will offer DTT to the residential market. In July 2012, Telenet started selling Teletenne, using the Digital Terrestrial TV frequencies Telenet leased from Norkring. In December 2013, however, Telenet decided to discontinue the provision of DTT services and, as a result, incurred a restructuring charge of €34.8 million for the year ended December 31, 2013. In addition, it is expected that other forms of video offerings will become more important in Belgium in the years ahead, such as OTT and mobile television, provided by financially strong companies, including Google, Apple, Netflix, Proximus, and Orange Belgium.

Telenet believes that its extensive cable network and the broad acceptance of basic video in Belgium will help it compete effectively in the video market. Telenet is able to offer international, national, regional and local content, including Dutch-language broadcasts, to its subscribers.

Broadband Internet

Competition in the provision of residential broadband internet service focuses on speed, price, available features and customer service, among other factors. The Belgian internet market may attract additional competitors into the market, leading to a higher level of price based competition. Telenet's residential broadband internet service in Flanders currently competes principally with VDSL-based services, which are able to match the speeds up to the ones offered by its low- and mid-range broadband service tiers. Following the implementation of the EuroDocsis 3.0 protocol, Telenet currently offers tiered internet offerings with download speeds that range up to 500 Mbps for certain of its business customers, which cannot be achieved by the current technologies of its competitors. Proximus is currently able to provide data download speeds of up to 100 Mbps to just over 50% of the Belgian population at September 30, 2017 with average download speeds of 69 Mbps at September 30, 2017. DSL services are also offered by other providers who buy access to Proximus's local loop at bulk rates and re-sell this access to individual subscribers. These providers also include mobile operators in Belgium. Through regulated cable wholesale access, Orange Belgium currently offers its mobile subscribers a dual-play bundle including enhanced video and broadband internet services. At September 30, 2017, Orange Belgium had approximately 94,000 fixed broadband internet and TV customers compared to approximately 34,000 at the end of the third quarter of 2016. Telenet believes that the higher average speed of its service and higher customer satisfaction ratings compared to most DSL operators provides an advantage in this competitive environment.

Another possible threat to broadband internet via VDSL and cable is the increasing download speeds offered by mobile internet technologies, such as HSPA and LTE. At the end of 2016, mobile broadband penetration in Belgium reached nearly 66% of the total population based on the BIPT 2016 Annual Report versus approximately 84% for the European average. Although penetration of mobile broadband used to be rather modest in Belgium,

it has been growing strongly in recent years on the back of a larger share of smartphones and tablets sold, from approximately 62% at the end of 2015 and approximately 54% at the end of 2014. Telenet believes that the majority of those consumers use mobile broadband internet to complement a fixed-line broadband internet connection, as the current effective speeds that mobile internet offers are too low to act as a replacement service.

Telephony

Competition in providing residential telephony service is based on price, in addition to customer service, brand recognition, functionality and quality of service, and increasingly the appeal of multiple-play bundles. Telenet's principal competitors include other operators of fixed-line services and mobile telephony operators.

Proximus, the incumbent fixed-line PSTN telephony service provider in Belgium, is the largest provider of fixed-line telephony services in the Belgian market with an estimated residential market share between 50-60%, according to the BIPT 2016 Annual Report. Proximus has an established market presence, a fully built-out network and resources that are substantially greater than Telenet's. Proximus has been utilizing "win back" programs for customers terminating their service and bundle propositions to attract new customers. Telenet primarily competes with Proximus by seeking to offer its residential subscribers superior and reliable telecommunication services in bundled multiple-play offerings.

Increasing competition is developing from services that use the internet to provide telephony which may offer lower quality of service, but greatly reduced cost. Currently, the most prominent such provider is Skype. Whereas the VoIP telephony services Telenet offers pass calls through the PSTN network and result in interconnect fees being incurred and collected, VoIP services using a broadband internet connection can completely bypass the PSTN, thereby avoiding interconnect fees. Telenet refers to this latter variant of VoIP as "voice over the internet" or "VoN". VoN telephony can be offered at a lower cost than Telenet's VoIP service because it avoids interconnect fees. However, VoN technology can also be of a relatively lower quality than Telenet's VoIP since their telephony signals are not prioritized.

Telenet believes that its extensive network assets and overall range of services provide an effective means to remain competitive with its telephony product. Telenet offers subscribers a single point of contact for their telephony, internet and television services. Competitor's fixed-line service providers other than Proximus do not have their own local loop, and must therefore pay other operators (typically Proximus) for network access in order to reach their own subscribers. This disadvantage may dissipate, however, as wholesale prices for unbundling of the Proximus local loop continue to decrease and competitors gain more open access to the Proximus local loop.

Telenet also competes with mobile service providers both as a fixed-line telephony operator and a mobile telephony service provider. At present, there are three mobile network operators in Belgium, of which Proximus is the largest with an estimated nationwide subscriber market share of approximately 41% at the end of 2016, followed by Telenet (including BASE) at approximately 37% at the end of 2016 and Orange Belgium (approximately 23% nationwide subscriber market share), according to the BIPT 2016 Annual Report. All operators own 2G, 3G and 4G spectrum licenses, covering various frequencies in the 900 MHz, 1,800 MHz, 2.1 and 2.6 GHz band, and provide mobile voice and data services to the residential and business segments.

Business Services

Telenet's business customers include SMEs; larger corporations; public, healthcare and educational institutions; and carrier customers that include international voice, data and internet service providers. For the year ended December 31, 2016, Telenet's business services operations generated €122.3 million in revenue compared to €118.1 million for the year ended December 31, 2015.

Telenet markets its business services under the "Telenet Business" brand name. Telenet's corporate customers generally fiber optic connections or VPN networks. Its SME customers connect to the Combined Network through a fiber, DSL or coaxial connection, depending on the scope of their needs and their location relative to the Combined Network.

Telenet Business offers a range of business voice, data and internet products and services that are tailored to the size and needs of each customer throughout Belgium and parts of Luxembourg. With the inclusion of DSL services, Telenet has flexibility to target customers throughout Belgium. SLA's are offered on all business services. Telenet Business also offers a range of mobile services to the SME and Corporate market through its Telenet mobile network.

Telenet's business is organized on a regional, business sector and customer size basis. The prices that Telenet offers its corporate, public, healthcare, educational and carrier customers are usually negotiated within fixed parameters, whereas more standardized prices typically apply to Telenet's SME customers.

The availability of EuroDocs 3.0 represents an important development for Telenet's positioning in the B2B market. Given the higher download speeds, better product specifications and improved quality of service over competing technologies, Telenet is in a strong position to increase its market share in the B2B. Telenet's leading connectivity solutions are being complemented by a growing portfolio of mobile, value-added services, such as hosting, managed security and cloud computing amongst others. This will enable Telenet Business to offer a single-user experience for not only connectivity solutions but also for a whole range of additional value-added services.

Telenet is currently upgrading its fixed and mobile networks to address the increased data consumption of its customers.

The recent acquisition of Belgian ICT integrator Nextel is aimed at supporting Telenet's growth ambitions in the Belgian B2B market, as the acquisition is expected to provide the Telenet group with additional in-house expertise to design, construct and manage total solutions on behalf of other companies. As a Belgian integrator, Nextel currently works for major companies, SMEs, care institutions, non-profit organizations and government authorities.

Intellectual Property

Telenet possesses one patent relating to its NIU and has several patent applications pending. Specific developments and customisations are owned by Telenet. Telenet has registered several trademarks with the Benelux Trademarks Office (*Benelux Merkenbureau/Bureau Benelux des Marques*) including "Telenet", "Telenet Solutions", "Telenet for Business", "Telenet Digital television", "Play", "Play More", "Play Sports", "PRIME", "Rex", "Rio", "King", "Kong", "Whop", "Whoppa", "Yelo Play", "Wigo", and their related logos and Telenet's service offerings.

Telenet believes that innovation in products and technology is important to retaining its market position. Telenet has a dedicated research and development function, which is engaged in reviewing and testing new products and technologies that it believes will enhance the services it provides to its customers.

Seasonality

Telenet has limited exposure to seasonal trends. Telenet's cable subscription revenue, which regroups the revenue from its video, broadband internet and fixed-line telephony services, represented approximately 57% of its total revenue for the nine months ended September 30, 2017. Telenet's cable subscription revenue is substantially based on fixed monthly rates and hence is not subject to seasonal variations in usage. Telenet's mobile telephony revenue, which represented approximately 22% of its revenue for the nine months ended September 30, 2017, includes a usage component and tends to exhibit lower usage in summer months. This lower usage also results in corresponding seasonality in the interconnect payments Telenet makes for terminating calls from its customers to other networks. See "*Regulation, —Telephony Regulation—Interconnection*".

Regulation

Introduction

Both Belgian and EU authorities regulate the electronic communications services that Telenet provides. "Electronic communications" comprise telecommunications and broadcasting. "Telecommunications" include telephony and internet and are regulated in Belgium by the national government. "Broadcasting" encompasses both television and radio broadcasting and is generally regulated by the regional governments of the Flemish, French and German-speaking Communities with respect to their respective jurisdictions, and by the national government in Brussels. Because of this division between telecommunications and broadcasting, both the national and the regional governments mentioned above have jurisdiction over network infrastructure that is used for both telecommunications and broadcasting activities. In addition, network infrastructure can be subject to local planning, operational and other regulations issued by local municipalities. The services Telenet provides have come under increasing regulation in recent years.

The EU Framework

The Electronic Communications Law and the 2012 Law implemented the EU Framework at the national level for electronic communications other than radio and television broadcasting.

With regard to broadcasting, the EU Framework was implemented by the 2009 Broadcasting Decree, by a coordinating decree of 26 March 2009 in the French Community, by a decree of June 21, 2005 (as substantially amended by the Decree dated 3 December 2009) in the German-speaking Community and by the Law of May 5, 2017 in the Brussels Region.

The “Connected Continent” legislative package

In September 2013, the European Commission presented its “Connected Continent” legislative package, aimed at further harmonizing telecoms regulations through the EU, with a view to creating a single telecommunications market.

Key elements of the proposed legislative package include (i) creating a single EU authorization to allow operators to operate in all Member States, (ii) increased coordination of spectrum use to encourage wireless broadband, more 4G investment and the emergence of pan-EU mobile companies with integrated networks, (iii) standardization of fixed access products to facilitate market entry and the provision of cross-border services, (iv) increased protection of open internet, with guarantees for net neutrality, innovation and consumer rights, (v) ending roaming premiums, and (vi) providing additional consumer protection measures (introduction of plain language contracts, more comparable information, and greater rights to switch providers or contracts).

On November 25, 2015, the European Parliament and Council published a first Regulation in the framework of the “Connected Continent” legislative package: Regulation 2015/2120. Pursuant to this Regulation, (i) roaming charges no longer apply when travelling in the EU and (ii) equal and non-discriminatory treatment of traffic in the provision of internet access services and related end-users’ rights will be safeguarded. Paid prioritization, for instance, will not be allowed. All traffic will be treated equally, subject to strict and clearly identified public-interest exceptions. Internet access providers will still be able to offer specialized services of higher quality, such as Internet TV and new innovative applications, as long as these services are not supplied at the expense of the quality of the open internet. The Regulation’s main impact on Telenet will be the suppression of roaming charges, which could lead to a decrease of fees perceived by Telenet from travelers using its network when travelling in Belgium.

The Digital Single Market Strategy (“DSM”)

On 6 May 2015, the European Commission issued a Communication on a Digital Single Market Strategy for Europe. This Digital Single Market Strategy (“DSM”) aims at adapting to the recent evolutions of the Internet and digital technologies, and offering an appropriate regulatory framework to answer challenges raised by these changes, in particular in terms of opportunities for innovation, growth and jobs.

In September 2016, the EU Commission proposed a set of ambitious reforms in the field of telecommunications, including “new initiatives to meet Europeans’ growing connectivity needs and boost Europe’s competitiveness.” The purpose of the proposed reforms is to develop a fast and reliable internet connection throughout the EU. The Commission presented three strategic connectivity objectives for 2025. All main socio-economic drivers should have access to extremely high—gigabit—connectivity, all European households should have access to connectivity offering a download speed of at least 100 Mbps, and all urban areas as well as major roads and railways should have uninterrupted 5G coverage (an interim target aims to make 5G commercially available in at least one major city in each EU Member State by 2020).

The Commission proposed the adoption of a new European Electronic Communications Code, in order to face the needs for massive investments that such objectives will require. The Commission also presented an action plan to deploy 5G across the EU as from 2018, and the Wifi4EU project, seeking to help European communities offer free Wi-Fi access points to any citizen.

On September 14, 2016, a Proposal of Regulation establishing the Body of European Regulators for Electronic Communications was issued by the European Parliament and by the Council with the purpose to strengthen the role, capacity and decision-making powers of the Body of European Regulators for Electronic Communications (“BEREC”), in the context of the implementation of the new regulatory framework for electronic communications.

Also on September 14, 2016, the Parliament and the Council issued a Proposal of Regulation amending Regulations (EU) No 1316/2013 and (EU) No 283/2014 as regards the promotion of Internet connectivity in local communities, aiming for sites at which public services are provided, to be equipped with Gigabit internet connections. On October 25, 2017, the works of the European Parliament and of the Council resulted in the adoption of Regulation (EU) No 2017/1953 amending Regulations (EU) No 1316/2013 and (EU) No 283/2014 as regards the promotion of internet connectivity in local communities.

The Proposal of Directive of December 9, 2015, on certain aspects concerning contracts for the supply of digital content intends to eliminate the key contract law-related barriers hindering cross-border trade, in order to reduce the uncertainty faced by businesses and consumers due to the complexity of the legal framework and the costs incurred by businesses resulting from differences in contract law between Member States.

The European Parliament and the Council also sought to enhance the cross-border portability throughout Member States of online content services to which consumers have lawful access, or content that they purchased or rented online in their country of residence and to which they want to continue to have access when travelling in the Union. A Proposal of Regulation on ensuring the cross-border portability of online content services in the internal market of December 9, 2015, was issued to achieve this goal, and the subsequent Regulation (EU) 2017/1128 was adopted on June 14, 2017. This regulation came into force on July 20, 2017 and its provisions shall be applicable as of March 20, 2018.

On May 25, 2016, the European Parliament and the Council adopted a Proposal for a Directive amending Directive 2010/13/EU on the coordination of certain provisions laid down by law, regulation or administrative action in Member States concerning the provision of audiovisual media services in view of changing market realities. This Proposal aims to react to the increasing on-demand services and online audiovisual content. The European legislator intends to amend the Audiovisual Media Services Directive 2010/13/EU in order to take account of such changes in the traditional audiovisual services offer framework. Telenet, like other telecommunications operator, will be subject to this Directive once it is adopted.

On January 10, 2017, a Proposal for a Regulation concerning the respect for private life and the protection of personal data in electronic communications and repealing Directive 2002/58/EC (the “**ePrivacy Directive**”) was issued by the European Parliament and the Council. The essential objective of this new Proposal is to subject OTTs to existing ePrivacy protection. Once it enters into force, Telenet’s OTT will be subject to the ePrivacy Directive.

Between March 27, 2017 and June 26, 2017, the European Commission has opened public consultation on the review of the existing guidelines for entities with significant market power (“*SMP*”). The purpose of this consultation is to review the existing guidelines on market analysis and the assessment of the significant market power under the EU Framework. National regulatory authorities such as the BIPT must take these guidelines into account when defining relevant markets and assigning telecommunications operators with SMP in view of imposing on the appropriate regulatory obligations to redress competition problems identified on a forward looking basis. Given that Telenet has been designated as an entity with SMP in certain markets by the BIPT, an amendment of the SMP guidelines in the EU Framework may have an impact on Telenet’s activities. See “— *Provisions Applicable to All Electronic Communications—Entities with Significant Market Power*”.

The General Data Protection Regulation (“GDPR”)

The EU Regulation 2016/679 of April 27, 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (the “General Data Protection Regulation”, or “GDPR”), replaces the previous Data Protection Directive 95/46/EC and intends to harmonize data protection laws across the EU and to better protect European citizens’ data privacy. The General Data Protection Regulation also imposes new rules on businesses aiming at encouraging innovation and business opportunities (including “one continent, one law” principle, a risk-based approach, and “one-stop-shop” model where business will have to deal with a single supervisory authority). The General Data Protection Regulation came into force on May 24, 2016, and will apply from May 25, 2018.

Provisions Applicable to All Electronic Communications

Entities with Significant Market Power (“SMP”)

Under the Electronic Communications Law, the BIPT is responsible for defining relevant markets in the telecommunications sector. The VRM is responsible for defining relevant markets in the broadcasting sector in Flanders (the CSA has such responsibility in the French-speaking Community outside Brussels, the Medienrat in the German-speaking Community, and the BIPT within Brussels). These regulators can impose certain requirements on entities with SMP in relevant markets that are not competitive. Whether an operator has SMP is determined in accordance with the principles of competition law. Among other things, the BIPT, the VRM, the CSA and the Medienrat can, under certain conditions, require SMP operators to (i) comply with certain obligations of non-discrimination and transparency with regard to access, (ii) separate accounting of different activities in which the operator has SMP, (iii) meet any reasonable request to access and use part of the provider’s network, and (iv) charge cost-oriented prices and follow other price restrictions.

The following four markets are relevant for Telenet:

- “call termination on individual public telephone networks provided at a fixed location”,
- “call termination on individual mobile network”,
- “wholesale broadband access”, and
- “broadcast transmission services to deliver broadcast content to end-users”, in combination with the “wholesale broadband access” market.

On call termination services on the public telephone network, the BIPT decided in August 2016 to implement a three-year glide path to near reciprocity starting on January 1, 2017 for all alternative fixed operators, including Telenet. On August 25, 2016, the BIPT Council published a decision on wholesale tariffs for call termination services on the public telephone network at a fixed location. The control of such wholesale tariffs relates to corrective measures imposed on telephone operators in order to solve competition problems since a telephone operator terminating calls on its own fixed network enjoys SMP. The BIPT decision was later annulled by a decision of the Brussels Court of Appeal dated March 15, 2017 on the grounds of procedural irregularity, as the August 25, 2016 decision had not been notified to the Belgian Competition Authority.

On the market for call termination on an individual mobile network, the BIPT published a final decision on May 26, 2017 which replaces the decision dated 29 June 2010. This decision designates Telenet (among other operators) as an entity having SMP and imposes a number of regulations to ensure effective competition and user satisfaction. These measures relate to non-discrimination, transparency and price control. Specifically in respect of price control, the decision imposes a bottom-up long run incremental cost model to calculate tariffs for call termination on individual mobile networks. The change in tariff methodology imposed by this decision may have a significant impact on Telenet’s business.

On July 7, 2017, the BIPT published a draft decision regarding the analysis of the broadband and television broadcasting markets which it submitted for consultation until September 29, 2017. The public consultation ran until September 15, 2017, followed by a notification to the European Commission for advice by the end of 2017. In its draft decision the BIPT defines retail markets (broadband over fixed network for residential customers, broadband over fixed network for non-residential customers, and provision of a television signal) as well as wholesale markets (local access, central access under ITU SG15 standardisation, central access under CableLabs standardization, and access to broadcasting over cable networks). For these markets, the BIPT concludes that Telenet has SMP (together with Proximus and other cable operators, such as Brutélé, Nethys and SFR) and proposes a number of regulations to ensure effective competition and user satisfaction. These measures relate to non-discrimination, transparency and price control. Specifically in respect of price control, the BIPT proposes to abandon the retail minus methodology and proposes (i) a cost obligation over the local and central access services over the copper network, (ii) an obligation to apply fair tariffs for the other wholesale service (over fibre and cable), and a cost orientation obligation for the ancillary services. By “fair”, the BIPT means a price which may exceed the costs while keeping a link with costs, allowing for a reasonable margin between the cost of the product and the wholesale price. The regulation proposed in the draft decision may have a significant impact on Telenet’s business and Telenet has submitted its extensive replies to the public consultation. Timing for a final decision is unknown. If this draft market review decision is adopted in 2018, they will replace the July 2011 decision.

See “Risk Factors—Telenet may become subject to more extensive regulation if it is deemed to possess significant market power in any of the markets in which it operates”.

Decision of the Luxembourg regulatory authority

The telecom regulator in Luxembourg, the ILR (*Institut Luxembourgeois de Régulation*), is currently preparing its draft market analysis for the regulation of the broadband markets for wholesale local and central access in Luxembourg.

Although the broadband market shares of Coditel Lux are limited, timing and outcome of this analysis are not known yet. With the increased focus by telecom regulators on access to cable networks, Telenet cannot exclude any impact on Coditel Lux.

Unbundling Networks

Under the EU Framework, unbundling may also be required in the broadcasting sector. Although the Commission has deleted the “broadcasting transmission services to deliver broadcast content to end users” from the list as a candidate market in which national authorities may decide to regulate entities with SMP, national regulators can nevertheless analyze the wholesale broadcast market, subject to such market meeting certain conditions set out by the European Commission.

On July 1, 2011 the CRC issued the July 2011 Decision imposing on Telenet (i) an obligation to make a resale offer at “retail minus” of the cable analog package available to third party operators (including Proximus), (ii) an obligation to grant third-party operators (except Proximus) access to digital television platforms (including the basic digital video package) at “retail minus,” and (iii) an obligation to make a resale offer at “retail minus” of broadband internet access available to beneficiaries of the digital television access obligation that wish to offer bundles of digital video and broadband internet services to their customers (except Proximus).

After Telenet submitted draft reference offers in February 2012 to meet the three obligations described above in each of Flanders and Brussels, the CRC made its observations and launched a national consultation process and consulted with the European Commission. Although the European Commission expressed doubts regarding the proportionality of the analog resale obligation on August 8, 2013, the European Commission did not object to the CRC draft decision on the reference offers. On September 9, 2013, the CRC published the final decisions on the draft reference offers (the decisions themselves are dated September 3, 2013). According to the CRC decision, the regulated wholesale services must be available within six months after a third-party operator files a letter of intent and pays an advance payment to each cable operator.

As a result of the July 2011 Decision, which imposed a retail minus pricing method, the CRC had to determine the retail minus tariffs applicable to the services referred to in the July 2011 Decision. On April 2, 2013, the CRC issued a draft decision regarding the “retail minus” tariffs of minus 35% for basic TV (basic analog and digital video package) and minus 30% for the bundle of basic TV and broadband internet services. On October 8, 2013, the European Commission received a draft quantitative decision from the CRC in which they changed the “retail minus” tariffs to minus 30% for basic TV (basic analog and digital video package) and to minus 23% for the bundle of basic TV and broadband internet services. Even though the European Commission commented on the appropriateness of certain assumptions in the proposed costing methodology, the CRC adopted such retail minus tariffs on December 11, 2013.

Following the adoption of the retail minus tariffs, the CRC initiated a consultative process regarding the determination of the retail minus tariffs not covered by the December 11, 2013 decision. Between May 27, 2015 and June 16, 2015, the BIPT, VRM, CSA and Medienrat started public consultations relating to their respective draft decisions reviewing the wholesale tariffs for the services for access to the cable in their respective regions. In these draft decisions, the regulators have stated that cable operators’ retail offerings generally contain additional services (such as webmail, webspace, free content or content at a reduced price and access to public WiFi), which are reflected in the price of the retail offering. These additional services have been identified in the report and the regulators have aimed to identify the reference prices for these services. It was proposed that the basis for calculating the “retail minus” tariffs will be reduced accordingly, which would lead to significantly lower “retail minus” tariffs. During the public consultation process, Telenet observed that, due to the different elements taken into account by the CRC to fix the reduced wholesale tariffs, the decision was disproportionate and uncertain. The draft decision was sent for review to the European Commission and on February 19, 2016, the CRC adopted a decision implementing the July 2011 Decision and amending the initial December 11, 2013 decision establishing

the retail minus tariffs. The February 19, 2016 decision on the revision of retail minus wholesale tariffs for access services to cable networks in the Brussels Capital Region amended the December 11, 2013 decision by, among other things, changing the minus determination model (excluding or taking into consideration certain elements for the determination of the retail minus tariffs) and the tariffication of decoders and modems and providing for the valuation of elements excluded from wholesale offers (WiFi access, second screen, etc.), thus reducing the applicable wholesale tariffs for access to the cable in the relevant markets (retail minus tariffs of minus 26% for basic television (basic analog and digital video package) and minus 18% for the bundle of basic television and broadband internet services during an initial two-year period. Following this two-year period, the tariffs would change to minus 15% and 7%, respectively). The February 2016 decision is addressed to Brut  l  , Numericable and Telenet. The above decisions have led to a number of proceedings and litigations. Telenet filed an appeal against the July 2011 Decision with the Brussels Court of Appeal. On September 4, 2012, the Brussels Court of Appeal rejected Telenet’s request to suspend the July 2011 Decision pending the proceedings on the merits. Due to this rejection and the approval of the reference offers by the CRC, Telenet was obliged to begin the process of implementing its reference offers. On December 27, 2013, wireless operator Mobistar NV (now Orange Belgium) submitted a letter of intent to Telenet and paid the advance payment on January 10, 2014. Telenet implemented the access obligations as described in its reference offers, and complied with its implementation obligation towards Orange Belgium in due time, i.e. within the period of six months as set forth by the regulator. Since June 23, 2014, access to the Telenet network has become operational and is being applied by Orange Belgium to offer analog television, digital television and the bundle television plus broadband internet to its clients.

On November 12, 2014, the Brussels Court of Appeal rejected Telenet’s appeal against the July 2011 Decision and accepted Proximus’ claim that Proximus should not be systematically excluded from access to Telenet’s, among other operators, digital television platform and the resale of bundles of digital video and broadband internet services. On November 30, 2015, Telenet filed an appeal of this decision with the Belgian Supreme Court. In 2014, Telenet and wireless operator Orange Belgium each filed an appeal before the Brussels Court of Appeal against the initial retail minus decision of December 11, 2013. On April 25, 2016, Telenet also filed an appeal with the Brussels Court of Appeal challenging the February 19, 2016 retail minus decision. These proceedings against the February 19, 2016 decision have been joined by the Brussels Court of Appeal with the proceedings initiated by Telenet on February 20, 2014 against the decision of the CRC of December 11, 2013. On October 25, 2017, the Court of Appeal issued a judgment annulling both the December 11, 2013 and February 19, 2016 retail minus decisions, with effect as of April 30, 2018. There can be no assurances that the decision of the Brussels Court of Appeal will not be appealed before the Supreme Court.

On November 14, 2014, Proximus also submitted a request to start access negotiations. Telenet contested this request and has asked the Belgian Regulatory Authorities to assess the reasonableness of the Proximus request. This question is addressed in the Belgian Regulatory Authorities draft market review decisions of July 7, 2017. The timing for a decision regarding this assessment by the Belgian Regulatory Authorities is not known.

See *“Risk Factors—The Belgian internet, data and telephony industries are highly competitive and the television industry has become more competitive, which could have a material adverse effect on Telenet’s business”* and *“Risk Factors—Telenet may become subject to more extensive regulation if it is deemed to possess significant market power in any of the markets in which it operates”*.

Legal Cooperation

A Royal Decree of January 9, 2003 establishing the modalities of the obligation of legal cooperation in case of judicial requests concerning electronic communications, on tariffs applying to such cooperation, as amended by a Royal Decree of November 8, 2016, sets tariffs applied by electronic communications operators in the framework of judicial measures such as telephone tapping. The Royal Decree of November 8, 2016 was subject to a previous public consultation organised by the BIPT on February 8, 2016.

Other legal instruments impose certain obligations on network operators and providers of electronic communications with regard to cooperation with the public authorities, such as the obligation to appoint a responsible person for the protection of personal data, providing internal guidelines for cooperation with public authorities, data retention, destruction or anonymization of data, etc.

Telephony Regulation

Mobile Telephony

Telenet currently provides this service partly through its own BASE network and partly through a MVNO partnership with Orange Belgium (the “**MVNO Arrangement**”), which has been extended until the end of 2017. Through its own BASE network and pursuant to the MVNO Arrangement, Telenet offers its customers mobile voice and data services, including 4G/LTE.

On July 14, 2011 the regulator awarded the fourth 3G license to Telenet Tecteo Bidco. In December 2013, Telenet Tecteo Bidco determined, after concluding negotiations with network operators in Belgium and in the absence of regulatory alternatives, that it would not be able to utilize the spectrum rights under the 3G mobile spectrum license and, as a result, notified the BIPT on February 13, 2014 that it would return the acquired 3G mobile spectrum. On June 1, 2014, Telenet Tecteo Bidco returned the acquired 3G mobile spectrum to the BIPT. Furthermore, as a result of the above, Telenet Tecteo Bidco also informed the BIPT at the end of 2013 that it would not exercise the option to be awarded another 4.8 MHz of paired 2G spectrum in the 900 MHz band and 10 MHz of paired 2G spectrum in the 1800 MHz bands. On June 27, 2014, the BIPT invited Telenet Tecteo Bidco to pay the remainder of the fee for the frequencies in the 900 and 1800 MHz bands. Telenet Tecteo Bidco filed an appeal against this decision on September 29, 2014. Eventually, the parties entered into a settlement agreement in January 2016, through which Telenet Tecteo Bidco paid an amount of approximately €4 million for the usage rights in the 2G spectrum, and committed to pay the BIPT the remainder of the fee for its former usage rights for the 3G spectrum, being an amount of approximately €31 million. See “*Risk Factors—If Telenet fails to successfully introduce new technologies or services, or to respond to technological developments, its business and level of revenue may be adversely affected and it may not be able to recover the cost of investments that it has made*”.

Fixed-Mobile Interconnection

In general, interconnection termination rates charged by mobile network operators are significantly higher than those charged by fixed-line operators.

On the market for call termination on an individual mobile network, the BIPT published a final decision on May 26, 2017 which replaces the decision dated 29 June 2010. Due to Telenet’s increased control over the termination rates, this decision designates Telenet (among other operators) as an entity having SMP and imposes a number of regulations to ensure effective competition and user satisfaction. These measures relate to non-discrimination, transparency and price control. Specifically in respect of price control, the decision imposes a bottom-up long run incremental cost model to calculate tariffs for call termination on individual mobile networks. The change in tariff methodology imposed by this decision may have a significant impact on Telenet’s business.

In the context of Telenet’s mobile interconnection discussions with Proximus, a definitive interconnection agreement was signed in February 2003. Telenet’s agreement with Belgacom Mobile NV (which has in the meantime merged into Proximus) can be terminated by either party on eight months, prior notice.

Roaming Regulations

Roaming has been regulated at the EU level for a number of years. In 2007, the first Roaming Regulation (Regulation 717/2007) introduced caps for wholesale and retail charges for the making of regulated mobile voice telephony calls by roaming customers. The second Roaming Regulation (Regulation 544/2009) of June 2009 further cut roaming charges for voice, SMS and wholesale data roaming. A third Roaming Regulation (Regulation 531/2012) introduced a further lowering of the regulated retail and wholesale price caps and also extended to retail data. This Regulation also introduced two main structural measures. First, a decoupling where retail customers would have the option to choose a different provider for roaming services without changing their number and second, an obligation for mobile network operators to meet reasonable requests for wholesale roaming access and to remove restrictions that prevent MVNOs from obtaining wholesale access. The third Roaming Regulation also introduced rules aimed at improving price transparency and information on charges to roaming customers.

In the framework of the “Connected Continent” legislative package proposed by the European Commission in 2013, a Regulation published on 25 November 2015 (Regulation 2015/2120), amending the third Roaming Regulation, ended roaming charges when travelling in the EU as from June 15, 2017. Already as from April 2016, the retail roaming caps decreased further to €0.05 per minute of calls made, €0.02 per SMS sent and €0.05 per

MB of data (excluding VAT). This maximum roaming charge represents approximately 25% of the current roaming caps for calls made and data, and 33% of the current roaming cap for SMS.

On June 15, 2016, a Proposal for a Regulation amending Regulation 531/2012 as regards rules for wholesale roaming markets was issued by the European Parliament and the Council. This Proposal aims to facilitate the abolition of retail roaming surcharges by June 15, 2017 decided under Regulation (EU) 2015/2120, by fostering the competitiveness of national wholesale roaming markets, and their ability to deliver wholesale roaming prices that enable operators to sustainably offer retail roaming services without any additional charges. On January 31, 2017, the European Commission, the Parliament and the Member States reached an agreement setting wholesale roaming caps as of June 15, 2017. On May 17, 2017, the Parliament and the Council adopted Regulation (EU) No 2017/920 amending Regulation (EU) No 531/2012 as regards rules for wholesale roaming markets, which entered into force three days after its publication in the Official Journal of the European Union, i.e. on June 12, 2017.

A Commission Implementing Regulation was also adopted on December 15, 2016 (Regulation 2016/2286) laying down detailed rules on the application of fair use policy and on the methodology for assessing the sustainability of the abolition of retail roaming surcharges and on the application to be submitted by a roaming provider for the purposes of that assessment. This Regulation requires, as a basic principle, that a roaming provider offers its roaming services at domestic prices to its customers who are residents of the Member State or have “stable links entailing a frequent and substantial presence” in the Member State of the roaming provider. Other provisions concern fair use policies, roaming surcharges, costs relating to the provision of roaming services and revenues from the provision of roaming services. See “Risk Factors— Telenet is subject to significant government regulation and supervision, which could require it to make additional expenditures or limit its revenues and otherwise adversely affect its business”.

Regional and Local Regulations—Pylon Taxes

Since the second half of the 1990s, certain municipalities (mainly in the Brussels-Capital and Walloon Regions), provinces and the Walloon Region have levied local taxes, on an annual basis, on pylons, masts and/or antennas dedicated to mobile telecom services located on their territory, on the basis of various municipal, provincial and regional regulations. These taxes have systematically been contested by Telenet Group BVBA before the Courts on various grounds.

In particular, Telenet Group has argued that such tax regulations are discriminatory because they apply only to pylons, masts and antennas dedicated to mobile telecom services and not to comparable equipment used for other purposes (whether telecom-related or not). Telenet believes that there is no objective and reasonable justification for such differentiated tax treatment. Telenet is therefore of the view that the contested tax regulations violate the general non-discrimination principle. The Courts have in a number of instances accepted this argument (cf. positive judgment of the Supreme Court of September 25, 2015).

There was also a question as to whether article 98 §2 of the Belgian law of March 21, 1991 on the reform of certain public economic companies (the “1991 Law”) prohibits municipalities from taxing the economic activity of telecom operators on their territories through the presence (whether on public or private domain) of mobile telephone pylons, masts or antennas dedicated to this activity. The Belgian Constitutional Court held on December 15, 2011 that this was not the case. That interpretation was confirmed by the Belgian Supreme Court in its judgments of March 30, 2012.

In the case between Telenet Group and the City of Mons, the European Court of Justice ruled on October 6, 2015 that the municipal tax on GSM pylons levied by the City of Mons, as disputed by Telenet Group, does not fall within the scope of Article 13 of Directive 2002/20/EC of the European Parliament and of the Council of 7 March 2002 on the authorization of electronic communications networks and services (the “Authorization Directive”) and is therefore not prohibited on the basis of Article 13 of the Authorization Directive.

By Decree of December 11, 2013 (the “2014 Walloon Decree”), the Walloon Region implemented an annual tax on masts, pylons and antennas for mobile operators with effect of January 1, 2014. Under this Decree, all municipal taxes on pylons, mast and antennas in the Walloon Region have been abolished. The Decree does however allow municipalities to levy surcharges. The tax amounts to EUR 8,000 per ‘site’. Under the Decree all users of ‘sites’ are jointly liable towards the Walloon Region for the tax related to shared sites. On December 12, 2014, a Walloon Decree was adopted that maintains this tax for 2015 and subsequent years, with the same scope and tax payable (EUR 8,000 per ‘site’, subject to indexation as of 2015) (the “2015 Walloon Decree”). The three

Belgian mobile network operators brought a request for annulment of these Decrees before the Constitutional Court.

On July 16, 2015, the Constitutional Court annulled the 2014 Walloon Decree, but decided to maintain its effects. By judgment of May 25, 2016, the Constitutional Court also annulled the 2015 Walloon Decree, without maintaining its effects. On December 22, 2016, Telenet and the other mobile operators concluded a settlement with the Walloon Region. In addition to payment of a settlement fee to end the dispute related with the 2014 Walloon Decree, this settlement also includes an undertaking from the Walloon Region not to levy any taxes on telecom infrastructure and a commitment for Telenet to invest EUR 20 million until 2019 on top of the investments already planned in the Walloon Region.

Telenet intends to continue challenging any local tax regulations applicable to its mobile telecom equipment. As per June 30, 2017, Telenet has recognised a provision of €21.6 million in this respect. Telenet and the KPN Group have moreover agreed on certain recourse arrangements in respect of certain (pre-2015) pylon taxes in their sale and purchase agreement with respect to BASE Company NV (now Telenet Group BVBA). It can however not be excluded that other taxes on telecom equipment will in the future be imposed, which may have a significant negative financial impact on Telenet.

Radiation Thresholds

In Belgium, the Regions are competent to establish radiation thresholds for antennas. In the Flemish Region, the radiation threshold is 3 V/m per antenna per operator on the 900 MHz band in residential areas, with a cumulated threshold of 20.6 V/m on the 900 MHz band over all radiation sources on the antenna. In the Walloon Region, the radiation threshold is 3 V/m per antenna per operator on the 900 MHz band in residential areas. In the Brussels Metropolitan Region, the radiation threshold in places accessible to the public is 6 V/m on the 900 MHz band (until April 2014, the threshold in the Brussels Metropolitan region was 3 V/m on the 900 MHz band).

The thresholds established by the three Regions have been criticized by operators for being too low and by interest groups for being too high. There can be no assurance that the thresholds will be reduced or increased in the future by any one of the three Regions.

Spectrum Licenses

BASE Company holds licenses for GSM, UMTS and LTE in the 800, 900, 1800, 2100 and 2600 MHz bands. A renewal of its 2G license from July 2013 until July 2018 was decided upon in 2013 for a fee of approximately €62.0 million. A payment of approximately €33.0 million is expected to be required in 2018 to extend the 2G license until March 2021 in case the decision to extend is taken. The 2100 MHz (3G) license runs until March 2021. The 800 MHz license, acquired in 2013 for a total consideration of €120.0 million, has a duration until 2033. The 2600 MHz license runs until 2027.

Universal Service

The Electronic Communications Law mandates that a minimum set of “universal services” be offered at a certain price and quality level. These services include providing access at a fixed location to the public telephone network throughout Belgium, offering reduced fixed and mobile telephony and broadband tariffs for specific categories of users (“**social tariffs**”), providing public pay telephones and offering a directory and a directory inquiry service. All providers of public telephony and broadband services in Belgium must offer social tariffs, by applying discounts and percentages as set out in the annex to the Electronic Communications Law. For every universal service other than the social tariffs, a universal provider for each service will be selected based on an open process in which all providers can tender offers to provide the relevant service. The precise process is determined by royal decree. If a universal service provider is not selected as a result of this process, a provider will be designated *ex officio*. With its decision of May 6, 2013, the BIPT removed the requirement to provide public pay phones from the list of universal services. By Royal Decree of December 15, 2013, the offering of a directory and a directory inquiry service were also removed from this list.

In general, the providers of universal services are compensated through a universal service fund, which is financed by contributions paid by telecommunication operators on the basis of their turnover. The 2012 Law, however, established a separate fund for the compensation related to the offering of social tariffs. Whether and how much an operator must contribute to this separate fund depends on the fact if an operator (*i.e.* the incumbent) can demonstrate that offering those social tariffs generates net costs and those net costs are deemed to be an unfair

burden for that operator by the regulator. Contributions to the fund are based on the share of turnover in the overall telephony and broadband market of an operator.

The fund for social tariffs has been activated since the adoption of the Electronic Communications Law, but no actual payments have been made until now because the Electronic Communications Law, before its amendment by the 2012 Law, was disputed by (i) the European Commission before the European Court of Justice and (ii) by BASE, KPN Belgium, Mobistar NV (now Orange Belgium) and others before the Belgian Constitutional Court. The Belgian Constitutional Court annulled the provisions of the law of April 25, 2007 regarding the methodology for calculating those net costs, as the European Court of Justice, in response to a preliminary ruling requested by the Belgian Constitutional Court, had found that the Belgian legislation failed to provide a proper methodology for calculating the net costs of providing social tariffs.

The Electronic Communications Law has been amended in this respect by the 2012 Law, taking into account that the assessment of “unfair burden” should be performed on a case-by-case basis. The Electronic Communications Law, as amended by the 2012 Law, may require operators (including Telenet) to retroactively pay compensation for Proximus’ alleged costs arising from the provision of the social element of the universal service for the period from mid-2005 to the present (if these costs are deemed to be an unfair burden for Proximus).

The relevant provisions of the Electronic Communications Law, as amended by the 2012 Law, were again disputed by KPN Group Belgium and Mobistar NV (now Orange Belgium) before the Belgian Constitutional Court, requesting annulment of the provisions relating to, a) the inclusion of social tariffs for mobile services and internet subscriptions in the universal service obligations compensation system, b) the retroactive application of the compensation mechanism, and c) the method of calculating the net costs/profits of offering social tariffs and the method of determining whether this constitutes an unfair burden. The Court rejected the second part of the claim (relating to the retroactive application of the compensation mechanism) and the third part of the claim (method of calculation). The Belgian Constitutional Court thereby confirmed the possible application of retroactive funding. In respect of the first part of the claim, the Court requested on December 19, 2013 a preliminary ruling by the European Court of Justice on the compatibility of the social tariffs for mobile services and internet subscriptions with Directive 2002/22/EC (the Universal Service Directive). In its preliminary ruling of June 11, 2015, the European Court of Justice held that the Universal Service Directive only applies to internet subscription services requiring a connection to the internet at a fixed location, but not to mobile communication services, including internet subscription services provided by means of those mobile communication services. The European Court of Justice further held that Member States are free to consider mobile communication services (including internet subscription services provided by means of mobile communication services) as additional mandatory services, but in that case a financing mechanism for those services involving specific undertakings cannot be imposed on the operators.

If retroactive funding is enforced, Telenet may have to pay up to €1.6 million for each year beginning from mid-2005. Such exposure would amount to nearly €8.5 million for the period between mid-2005 and the end of 2010.

In 2012, the BIPT ordered a study to gather detailed information on the social tariffs applied by each of the telecom providers during the years 2005-2012, to effectively analyze the “unfair burden” requirement. In a letter dated June 29, 2015, the BIPT confirmed that it had completed the analysis of the alleged unfair burden suffered by Proximus for the execution of the universal service obligations for the period from 2005 to 2012. The BIPT suspended the publication of the outcome of the analysis following the withdrawal by Proximus of its request for compensation. Telenet believes that there is no “unfair burden” on the current providers of social tariffs, since there are indications that a profit (as opposed to net costs) is being recorded by the relevant providers per customer in receipt of such social tariffs.

By a decision dated July 1, 2015, the Council of State partly annulled two Royal Decrees published in May 2013 fixing the reimbursement of social tariffs. The Council of State’s decision applies to the period from 2007 to February 2013 and from February 2014 onwards, for which period no retroactive reimbursement of the social tariffs could be requested. However, the BIPT has not yet confirmed whether for the period from April to December 2013 a reimbursement could be required. Telenet’s exposure in this case amounts to EUR 800,000.

See “Risk Factors—Telenet is subject to significant government regulation and supervision, which could require it to make additional expenditures or limit its revenues and otherwise adversely affect its business”.

In addition, the Electronic Communications Law, in its annex, provides for the establishment of a database with respect to the various customer categories eligible to the social tariff. The 2003 BIPT Law provides for the division of the cost of maintaining such database between the operators.

On December 20 and 22, 2016 the BIPT Council published a communication on the monitoring of universal service in the telecommunications sector. The BIPT concluded amongst others that users did not suffer any negative impact due to the removal of universal service obligations for telephone booths and phonebooks / information services. Also, the BIPT pointed out that the non-designation of a service provider did not seem to have any negative consequences for end users.

In a judgment dated December 21, 2016, the Court of Justice of the European Union decided that the provisions of the Universal Service Directive and, in particular, article 32 thereof, must be interpreted as precluding national legislation providing for a compensation mechanism for the provision of additional mandatory services by virtue of which an undertaking is not entitled to compensation from the Member State for the net cost of the provision of an additional mandatory service where the profits made by that undertaking on other services related to the universal service obligation are greater than the loss arising from the provision of the additional mandatory service. The Court added that the Universal Service Directive must be interpreted as precluding national legislation under which an undertaking designated as the provider of additional mandatory services is entitled to compensation from the Member State for the net cost of providing those services only if that cost constitutes an unfair burden on that undertaking. Furthermore, the Court considered that the Universal Service Directive must be interpreted as precluding national legislation under which the net cost borne by an undertaking designated to fulfil a universal service obligation is the result of the difference between all the revenue and all the costs connected with the provision of the service in question, including the revenue and the costs which the undertaking would also have registered had it not been a universal service operator and that article 32 of the Universal Service Directive must be interpreted as having direct effect, inasmuch as it prohibits the Member States from making the undertaking responsible for providing an additional mandatory service bear all or part of the costs connected with the provision of that service.

In addition the Court of Justice decided that article 20(2) of the Universal Service Directive, must be interpreted as meaning that a change in charges for the provision of electronic communications networks or services, resulting from the operation of a price adjustment clause contained in the standard terms and conditions applied by an undertaking providing such services, the term providing that such a change applies in accordance with changes in an objective consumer price index compiled by a public institution, does not constitute a ‘modification to the contractual conditions’ within the meaning of that provision, which grants the subscriber the right to withdraw from the contract without penalty.

The Court of Justice of the European Union also stated on April 14, 2016, that article 28 of the Universal Service Directive must be interpreted as meaning that a Member State may provide that an operator of a public electronic communications network must ensure that all end-users are able to access non-geographic numbers on its network in that State and not only those of other Member States, and that articles 5(1) and 8(3) of Directive 2002/19/EC of the European Parliament and of the Council of 7 March 2002 on access to, and interconnection of, electronic communications networks and associated facilities (Access Directive), read in conjunction with Article 28 of the Universal Service Directive, must be interpreted as allowing a national regulatory authority, in resolving a dispute between two operators, to impose on one of them the obligation to ensure that end-users are able to access services using non-geographic numbers provided on the other’s network and to set, on the basis of Article 13 of Directive 2002/19, pricing procedures for that access between those operators, provided that those obligations are objective, transparent, proportionate, non-discriminatory, based on the nature of the problem identified and justified in the light of the objectives laid down in Article 8 of Directive 2002/21/EC of the European Parliament and of the Council of 7 March 2002 on a common regulatory framework for electronic communications networks and services, and the procedures provided for in Articles 6 and 7 of that directive have, where applicable, been observed, which it is for the national court to verify.

Certain Consumer Protection Rules

The 2012 Law and subsequent amendments have inserted certain provisions in the Electronic Communications Law aimed at the protection of end users of electronic communications services, including (i) the right for customers to terminate their contracts with the relevant providers at any time, and without any compensation to the provider if such termination occurs more than six months after the entry into the agreement, (ii) duration limitations for agreements entered into with end users, (iii) a requirement for uniform presentation of tariff plans facilitating comparison between operators (and thus facilitating decisions to churn), (iv) the requirement to

propose a combined offer if a customer has subscribed to two or more tariff plans and if that combined offer is less expensive, and (v) customers' right to change tariff plans once a year free of any charges.

In 2013, several implementing decrees to the Electronic Communications Law that increase consumer protection were also adopted, including (i) the Royal Decree of July 2, 2013 implementing the one-day deadline for operators to implement a request for number portability (which came into force on October 1, 2013), (ii) the Royal Decree of July 9, 2013 setting out the terms for free-of-charge notifications to customers if they exceed certain thresholds (to avoid excessive bills), and (iii) the Royal Decree of December 15, 2013 defining the content of the standardized information sheets that operators have to prepare for each tariff plan to allow easy comparisons (which came into force on July 1, 2014).

In March 2015, the BIPT published a report in which it identified a number of obstacles that currently make it difficult for consumers to change fixed telecom operators. These obstacles are subdivided into three classes: (i) a poor coordination and procedure for changing operators; (ii) a lack of consumer information; and (iii) financial and practical obstacles. The BIPT proposed possible solutions in its report, which it submitted to the Minister of Digital Agenda and Telecom. The BIPT organized a public consultation with respect to drafting new royal and ministerial decrees that are aimed at ensuring that consumers are able to change from one fixed telecom operator to another without significant obstacles or costs, which may potentially give rise to an increase in Telenet's customer churn rate.

The Royal Decree of September 6, 2016 on the migration of fixed-line services and of bundle offers of services in the electronic communications sector (the so-called "easy switch" regulation) required telecommunications services operators to facilitate the movement of users from one operator to another, and cooperate to this end by the applicable deadline of July 3, 2017. Not complying with this deadline may expose telecoms operators to significant fines from the BIPT of up to five percent of its annual turnover. This Royal Decree also sets forth identification procedures for the user and the services performed, and requires that the operators improve the quality and availability of the information provided to customers via their website.

See *"Risk Factors—Customer churn, or the threat of customer churn, may adversely affect Telenet's business"*.

Privacy Protection

In addition to applicable general privacy protection regulations, the Electronic Communications Law contains several provisions that address privacy protection in the electronic communications sector.

A first set of provisions concerns data processed for the purpose of the conveyance of a communication on an electronic communications network or for the billing thereof ("**traffic data**"). Operators must erase traffic data when it is no longer needed to transmit a communication, although certain traffic data may be processed for the purposes of subscriber billing and interconnection payments. Providers may process traffic data to market their own electronic communications services or for the provision of services with traffic data or location data, if the subscriber or user has consented to that processing.

"Location data" are data processed in an electronic communications network, indicating the geographic position of the terminal equipment of a user of a publicly available electronic communications service. Operators of mobile networks may process location data other than traffic data, relating to subscribers or users, only when made anonymous or with the consent of the users or subscribers to the extent and for the duration necessary for the provision of a service with traffic data or location data.

The Electronic Communication Law was amended by the Law of July 30, 2013 with a view to implementing Data Retention Directive 2006/24/EC into Belgian law. The relevant provisions required providers of fixed telephone services, mobile telephone services, internet access services, internet email services or internet telephone services, and the providers of the underlying public electronic communication networks to store the traffic data, location data, data for identification of the end users, data for identification of the used electronic communication service and data for identification of the probable used end equipment that was generated and processed by the aforementioned firms. The purpose of the data storage was to trace, investigate and prosecute certain criminal acts. The Belgian Constitutional Court annulled the Law of July 30, 2013 by judgment of June 11, 2015, implying that the relevant data retention requirements no longer apply. As a reaction to this annulment, the Belgian government has prepared a new draft law on data retention in the electronic telecommunications sector. The BIPT has organized a public consultation on this draft law which was open for reactions until September 1, 2015. The draft law must still be debated in the Federal Parliament.

By judgment dated December 21, 2016, the Court of Justice of the European Union decided that article 15(1) of Directive 2002/58/EC of the European Parliament and of the Council of 12 July 2002 concerning the processing of personal data and the protection of privacy in the electronic communications sector (Directive on privacy and electronic communications), as amended by Directive 2009/136/EC of the European Parliament and of the Council of 25 November 2009, read in the light of articles 7, 8 and 11 and article 52(1) of the Charter of Fundamental Rights of the European Union, must be interpreted as precluding national legislation which, for the purpose of fighting crime, provides for general and indiscriminate retention of all traffic and location data of all subscribers and registered users relating to all means of electronic communication, and that the same provision must be interpreted as precluding national legislation governing the protection and security of traffic and location data and, in particular, access of the competent national authorities to the retained data, where the objective pursued by that access, in the context of fighting crime, is not restricted solely to fighting serious crime, where access is not subject to prior review by a court or an independent administrative authority, and where there is no requirement that the data concerned should be retained within the European Union.

Finally, the Electronic Communications Law provides that subscribers must be given the opportunity to opt out of telephone directories or to limit the extent of personal information included in the directories.

Internet Regulation

Telenet's activities as an internet service provider (an "ISP") are subject to Title 1 of Book XII of the Belgian Code of Economic Law. Title 1 replaces, among others, the Belgian law of March 11, 2003 on certain legal aspects of information society services (*Wet betreffende bepaalde juridische aspecten van de diensten van de informatiemaatschappij als bedoeld in artikel 77 van de Grondwet/Loi sur certains aspects juridiques des services de la société de l'information visés à l'article 77 de la Constitution*) (the "**2003 ISP Law**"). It sets forth the rights and duties of an ISP when its electronic communications network is used to transmit content that infringes relevant intellectual property rights. Title 1, Book XII of the Belgian Code of Economic Law provides (as did the 2003 ISP Law), as a general matter, that ISPs, such as Telenet, cannot be held liable for information transmitted over an electronic communications network. ISPs must, however, deliver requested information to the judicial authorities upon their formal request. In addition, once an ISP has formal notice that illegal content is being transmitted over its network, it must inform the relevant enforcement authorities as soon as possible. The immunity provided for ISPs in the 2003 ISP Law, and now in Title 1, Book XII of the Belgian Code of Economic Law, was however weakened by the adoption of Directive 2001/29/EC on the harmonization of certain aspects of copyright and related rights in the information society (the "**Copyright Directive**"). The Copyright Directive provides the possibility for right holders to apply for an injunction against intermediaries who carry a third party's infringement of a protected work in a network. The Belgian legislator implemented the provisions regarding injunctions into national law in 2007, at the occasion of the implementation of Directive 2004/48/EC on the enforcement on intellectual property rights that provides for similar injunctions with respect to other intellectual property rights. The Belgian law of May 9, 2007 on the civil aspects of the protection of intellectual property rights (*Wet betreffende de burgerrechtelijke aspecten van de bescherming van intellectuele eigendomsrechten/Loi relative aux aspects civils de la protection des droits de propriété intellectuelle*) amended the Belgian law of June 30, 1994 on copyright and neighboring rights (*Wet betreffende het auteursrecht en de naburige rechten/Loi relative au droit d'auteur et aux droits voisins*) (the "**1994 Copyright Law**") to enable Belgian courts to order the cessation in respect of intermediaries whose services are being used by third parties to commit a copyright infringement. With effect from January 1, 2015, the relevant provisions of the 1994 Copyright Law have been included in Title 9 of Book XI of the Belgian Code of Economic Law.

On January 29, 2016, a consultation was organised on a draft decision of the BIPT Council on communication of the fixed or mobile high-speed broadband speed. This implements a provision of the Electronic Communications law stating that the BIPT sets out a method allowing the subscribers to be sufficiently informed by the Internet providers on the speed and download volume of a broadband connection.

Broadcasting Regulation

Overview

Unlike telecommunications, which is subject to comprehensive federal regulation, radio and television broadcasting is generally regulated by the Flemish, French and German-speaking Communities of Belgium. The Belgian Constitutional Court (*Grondwettelijk hof/Cour constitutionnelle*) has determined that the regulatory authority of the Belgian Communities applies to all relevant broadcasting technologies, and thus includes satellite, terrestrial, DSL and cable broadcasting. The Flemish and French Communities have adopted legislation (in the

form of decrees) that governs the provision of broadcasting services in their respective jurisdictions. The federal government retains authority to regulate broadcasting in Brussels. In addition, the federal government can regulate certain non-broadcast aspects of radio communications, including limiting the power of broadcast emitters and establishing safety and technical requirements for radio receivers and other equipment.

On February 10, 2006, the Flemish government formally established the office of the VRM. The VRM is divided into a “general chamber” and a “chamber for impartiality and the protection of minors”. The power that was previously vested in the “*Vlaams Commissariaat voor de Media*” as well as that vested in certain other regulators in the media sector was transferred to the VRM. The VRM enforces media regulations in the Flemish Community, decides litigation regarding media regulation and grants media authorizations and licenses.

Licenses and Authorizations

Under the previous regime, Telenet held two types of licenses to transmit and distribute cable television signals to subscribers—licenses related to the delivery of signals to subscribers over its local loop and a license related to the transportation of signals over its fiber backbone to the head ends on the Combined Network. Pursuant to the EU Framework, those licenses were replaced with a “general authorization” system since 2004, pursuant to which any operator wishing to offer electronic communications services need only notify the competent authority.

Telenet also holds broadcasting licenses—now known as notifications—for its Pay TV services (under the “PRIME” and “Sporting Telenet” brands), and one for Studio100 TV, a TV channel broadcasting children’s content.

General Authorization

The “2009 Broadcasting Decree” stipulates that those who held an individual license at the time the previous Decree entered into force in 2004 will be deemed to have submitted the required notification. Telenet therefore does not need to notify the VRM of its activities as long as no change to its operations occurs.

Must Carry

The 2009 Broadcasting Decree imposed certain must carry obligations on cable operators. These rules were to a large extent based on the language of the content broadcast—the Flemish Community has stated that it is in the public interest for every citizen to receive information, education, culture and entertainment in his or her own language. These rules have an unlimited duration and effectively apply only to cable networks.

The 2009 Broadcasting Decree regulates the radio stations and television channels that Telenet is permitted to transmit over the Combined Network by providing certain criteria they must comply with. Channels that do not comply with those criteria cannot be transmitted without the consent of the VRM. The 2009 Broadcasting Decree requires Telenet to transmit the following radio stations and television channels:

- analog radio stations and the television channels of VRT, the Flemish public broadcaster;
- the television channels of authorized regional broadcasters of the Flemish Community;
- two radio stations and two television channels of RTBF, the public broadcaster of the French Community, and the radio station of the public broadcaster of the German Community; and
- two radio stations and the television channels (NPO 1, NPO 2 and NPO 3), of the public broadcaster of the Netherlands.

Pursuant to these regulations, Telenet must carry eight television channels in Flanders. Subject to certain conditions, the Flemish Government can award “must-carry” status to other broadcasters. Telenet may charge commercial rates for carrying these stations and channels over the Combined Network. However, Telenet must carry the programs of the regional broadcasters for free. Telenet must also carry free of charge the programs of the public broadcasters. The Flemish Community is under no obligation, and does not compensate, Telenet for broadcasting the regional broadcasters’ channels over the Combined Network.

Radio Equipment

A Royal Decree of 25 March 2016 finalising the implementation of EU Directive 2014/53/UE of the European Parliament and of the Council of 16 April 2014 on the harmonisation of the laws of the Member States relating to the making available on the market of radio equipment and repealing Directive 1999/5/EC and amending the Law of 13 June 2005 on electronic communications, develops rules applicable to the provision of radio equipment on the market. In particular, obligations and procedures relating to the provision of such radio equipment on the market were adopted, with additional obligations for manufacturers, importers and distributors. The Royal Decree of 25 March 2016 also sets out particular notification procedures, in particular for risky radio equipment, and obligations with respect to market surveillance.

Furthermore, the Electronic Communications Law was amended by a Law of December 18, 2015 partially implementing Directive 2014/53/EU of the European Parliament and of the Council of 16 April 2014 on the harmonisation of the laws of the Member States relating to the making available on the market of radio equipment and repealing Directive 1999/5/EC.

The Market Monitoring Department of the BIPT aims at verifying if the telecommunication equipment available or soon to be available on the Belgian market complies with the requirements of Directive 1999/5/EC. Such equipment must efficiently use the spectrum, cannot cause harmful interferences and has to be able to function correctly in its electromagnetic environment, as is stated in the BIPT 2015 Annual Report.

Decisions of the BIPT, the VRM, the CSA and the Medienrat

In December 2010, the members of the CRC (BIPT, VRM, CSA and Medienrat) published their respective draft decisions reflecting the results of their analysis of the broadcasting market in Belgium. At the same time, the BIPT published its draft decision regarding the analysis of the broadband market in Belgium. After a public consultation, the draft decisions were submitted by the CRC to the European Commission. The European Commission issued a notice on the draft decisions which criticized the analysis of the broadcasting markets on several grounds, including the fact that the CRC failed to analyze upstream wholesale markets. It also expressed doubts as to the necessity and proportionality of the various remedies.

The CRC nevertheless adopted a final decision on July 1, 2011 (the “**July 2011 Decision**”) with some minor revisions. The regulatory obligations imposed by the July 2011 Decision include (i) an obligation to make a resale offer at “retail minus” of the cable analog package available to third party operators (including Proximus), (ii) an obligation to grant third-party operators (except Proximus) access to digital television platforms (including the basic digital video package) at “retail minus”, and (iii) an obligation to make a resale offer at “retail minus” of broadband internet access available to beneficiaries of the digital television access obligation that wish to offer bundles of digital video and broadband internet services to their customers (except Proximus). A “retail-minus” method of pricing involves a wholesale tariff calculated as the retail price for the offered service by Telenet, excluding value-added taxes and copyrights, and further deducting the retail costs avoided by offering the wholesale service (such as, for example, costs for billing, franchise, consumer service, marketing, and sales).

After Telenet submitted draft reference offers in February 2012 to meet the three obligations described above in each of Flanders and Brussels, the CRC made its observations and launched a national consultation process and consulted with the European Commission. Although the European Commission expressed doubts regarding the proportionality of the analog resale obligation on August 8, 2013, the European Commission did not object to the CRC draft decision on the reference offers. On September 9, 2013, the CRC published the final decisions on the draft reference offers (the decisions themselves are dated September 3, 2013). According to the CRC decision, the regulated wholesale services must be available within six months after a third-party operator files a letter of intent and pays an advance payment to each cable operator.

As a result of the July 2011 Decision, which imposed a retail minus pricing method, the CRC had to determine the retail minus tariffs applicable to the services referred to in the July 2011 Decision. On April 2, 2013, the CRC issued a draft decision regarding the “retail minus” tariffs of minus 35% for basic TV (basic analog and digital video package) and minus 30% for the bundle of basic TV and broadband internet services. On October 8, 2013, the European Commission received a draft quantitative decision from the CRC in which they changed the “retail minus” tariffs to minus 30% for basic TV (basic analog and digital video package) and to minus 23% for the bundle of basic TV and broadband internet services. Even though the European Commission commented on the appropriateness of certain assumptions in the proposed costing methodology, the CRC adopted such retail minus tariffs on December 11, 2013.

Following the adoption of the retail minus tariffs, the CRC initiated a consultative process regarding the determination of the retail minus tariffs not covered by the December 11, 2013 decision. Between May 27,

2015 and June 16, 2015, the BIPT, VRM, CSA and Medienrat started public consultations relating to their respective draft decisions reviewing the wholesale tariffs for the services for access to the cable in their respective regions. In these draft decisions, the regulators have stated that cable operators' retail offerings generally contain additional services (such as webmail, webspace, free content or content at a reduced price and access to public WiFi), which are reflected in the price of the retail offering. These additional services have been identified in the report and the regulators have aimed to identify the reference prices for these services. It was proposed that the basis for calculating the "retail minus" tariffs will be reduced accordingly, which would lead to significantly lower "retail minus" tariffs. During the public consultation process, Telenet observed that, due to the different elements taken into account by the CRC to fix the reduced wholesale tariffs, the decision was disproportionate and uncertain. The draft decision was sent for review to the European Commission and on February 19, 2016, the CRC adopted a decision in implementation of the July 2011 Decision and amending the initial December 11, 2013 decision implementing the retail minus tariffs. The February 19, 2016 decision on the revision of retail minus wholesale tariffs for access services to cable networks in the Brussels Capital Region amended the December 11, 2013 decision by, among other things, changing the minus determination model (excluding or taking into consideration certain elements for the determination of the retail minus tariffs) and the tariffication of decoders and modems and providing for the valuation of elements excluded from wholesale offers (WiFi access, second screen, etc.), thus reducing the applicable wholesale tariffs for access to the cable in the relevant markets (retail minus tariffs of minus 26% for basic television (basic analog and digital video package) and minus 18% for the bundle of basic television and broadband internet services during an initial two-year period. Following this two-year period, the tariffs would change to minus 15% and 7%, respectively). The February 2016 decision is addressed to Brut  l  , Numericable and Telenet.

On December 27, 2013, wireless operator Mobistar NV (now Orange Belgium) submitted a letter of intent to Telenet to obtain access to three regulated products of Telenet: (i) resale of the analog television offering; (ii) access to the digital television platform; and (iii) resale of the broadband access offering. Mobistar NV (now Orange Belgium) paid the advance payment on January 10, 2014.

Telenet implemented the access obligations as described in its reference offers, and complied with its implementation obligation towards Orange Belgium in due time, *i.e.* within the period of six months as set forth by the regulator. Since June 23, 2014, access to the Telenet network has become operational and can be applied by Orange Belgium to offer analog television, digital television and the bundle television plus broadband internet to its clients. On November 14, 2014, Proximus also submitted a request to start access negotiations. Telenet contested this request and has asked the Belgian Regulatory Authorities to assess the reasonableness of the Proximus request. This question is addressed in the Belgian Regulatory Authorities draft market review decisions of July 7, 2017. The timing for a decision regarding this assessment by the Belgian Regulatory Authorities is not known.

The above decisions have led to a number of proceedings and litigations. Telenet filed an appeal against the July 2011 Decision with the Brussels Court of Appeal. On November 12, 2014, the Brussels Court of Appeal rejected Telenet's appeal of the July 2011 Decision and accepted Proximus' claim that Proximus should not be systematically excluded from access to Telenet's, among other operators', digital television platform and the resale of bundles of digital video and broadband internet services. On November 30, 2015, Telenet filed an appeal of this decision with the Belgian Supreme Court. In 2014, Telenet and wireless operator Orange Belgium each filed an appeal with the Brussels Court of Appeal against the initial retail minus decision of December 11, 2013. On April 25, 2016, Telenet also filed an appeal with the Brussels Court of Appeal challenging the February 19, 2016 retail minus decision. These proceedings against the February 19, 2016 decision have been joined by the Brussels Court of Appeal with the proceedings initiated by Telenet on February 20, 2014 against the decision of the CRC of December 11, 2013. On October 25, 2017, the Court of Appeal issued a judgment annulling both the December 11, 2013 and February 19, 2016 retail minus decisions, with effect from April 30, 2018. There can be no assurances that the decision of the Brussels Court of Appeal will not be appealed before the Supreme Court.

The July 2011 Decision aims to, and in its application may, strengthen Telenet's competitors by granting them resale access to Telenet's network to offer competing products and services notwithstanding Telenet's substantial historical financial outlays in developing the infrastructure. In addition, any resale access granted to competitors could (i) limit the bandwidth available to Telenet to provide new or expanded products and services to the customers served by its network and (ii) adversely impact Telenet's ability to maintain or increase its revenue and cash flows. The extent of any such adverse impacts ultimately will be dependent on the extent to which

competitors take advantage of the resale access ultimately afforded to Telenet's network and other competitive factors or market developments. Mobistar NV (now Orange Belgium) has requested and obtained such access to the Telenet network and has launched its television and broadband internet offer over the Telenet network to effectively compete on that market. Similarly, Orange Belgium also made an official request to obtain regulated access to Coditel Brabant's network in February 2016. As Orange Belgium argues that it had not been provided with effective access within the six-month implementation period, it brought a claim for damages against Coditel Brabant on 29 December 2016 before the French-speaking Commercial Court of Brussels. Orange Belgium claimed to have suffered a loss of EUR 8,973 per day of delay. On 16 January 2017, Orange Belgium also initiated interim proceedings (which have in the meantime been withdrawn). These legal proceedings are currently ongoing.

On July 7, 2017, the BIPT published a draft decision regarding the analysis of the broadband and television broadcasting markets which it submitted for consultation. The public consultation ran until September 15, 2017, followed by a notification to the European Commission for advice by the end of 2017. In its draft decision, the BIPT defined retail markets (broadband over fixed network for residential customers, broadband over fixed network for non-residential customers, and provision of a television signal) as well as wholesale markets (local access, central access under ITU SG15 standardisation, central access under CableLabs standardization, and access to broadcasting over cable networks). For these markets, the BIPT concluded that Telenet, together with Proximus and other cable operators, such as Brut  l  , Nethys and SFR, have SMP, and proposed a number of regulations to ensure effective competition and user satisfaction. These measures relate to non-discrimination, transparency and price control. In respect of price control, the BIPT proposed a methodology to replace the pre-existing retail minus methodology: (i) a cost obligation over the local and central access services over the copper network, and (ii) an obligation to apply fair tariffs for the other wholesale services (over fibre and cable), and a cost orientation obligation for the ancillary services. By "fair", the BIPT means a price which may exceed the costs while keeping a link with costs, allowing for a reasonable margin between the cost of the product and the wholesale price. Timing for a final decision is unknown. If this draft market review decision is adopted in 2018, it will replace the July 2011 Decision.

Signal integrity regulation

In July 2013, the Flemish Parliament adopted legislation imposing strict integrity of broadcasting signals on distributors and the requirement that distributors must request authorization from broadcasters when they contemplate offering, among other things, program recordings through an electronic program guide. The impetus for this legislation were the broadcasters' arguments that the high penetration of personal video recorders (PVRs) in the Flemish market have resulted in viewers fast-forwarding large volumes of advertisements, which resulted in a decrease in the revenues of broadcasters. The legislation requires broadcasters and distributors to find a commercial solution. If this fails, the legislation provides for a mediation procedure, which, if unsuccessful, can be followed by civil litigation.

There is a risk that this legislation will negatively impact Telenet's ability to launch new innovative applications and increase Telenet's financial contribution to broadcasters.

The current distribution agreements with VRT and MEDIALAAN entered into in 2014 allow Telenet to distribute the broadcasters' signal in an unaltered manner. The relevant broadcasters have given Telenet the right to offer their customers a "slightly delayed viewing" and a PVR functionality. Telenet is required to pay a higher fee for each customer using these functionalities.

Audiovisual media contribution

A local audiovisual media contribution by distribution platforms (such as Telenet) was introduced by way of decree of January 17, 2014, amending the 2009 Broadcasting Decree. This decree requires Telenet to make an annual contribution of €3 million, either by contributing financially to the co-production of audiovisual works or by making a contribution to the Flemish Audiovisual Fund (*Vlaams Audiovisueel Fonds*).

Payments to regional broadcasting organizations

A decree of February 21, 2014, also amending the 2009 Broadcasting Decree, requires distribution platforms (such as Telenet) to pay, as of January 1, 2015, a fee to the regional broadcasting organizations whose signal they distribute based on each regional broadcasting organization's reach.

Pricing of Cable Package

Until the sixth Belgian state reform, the Belgian law of January 22, 1945 on economic regulation and pricing and the Ministerial Decree of April 20, 1993 regarding special regulation on prices required television services distributors, among others, to receive the prior consent of the Minister of Economic Affairs before they could implement any price increase of their basic package. A television services distributor was not allowed to charge more for its services than the price approved by the Minister of Economic Affairs. Companies were, however, allowed to freely decide to charge amounts under this maximum.

The sixth Belgian state reform transferred pricing policy matters, including with respect to television distribution, to the Regions. On November 7, 2013 the European Court of Justice ruled in *UPC Nederland B.V. against Gemeente Hilversum* (Case C-518/11) that only the relevant national regulator had authority to set retail tariffs relating to the supply of basic cable packages.

At present, Telenet charges its basic cable television subscribers a monthly fee of €16.90 (including VAT), which includes a copyright fee. Copyright fees charged to subscribers are not subject to these pricing restrictions.

Copyright and Retransmission Restrictions

Book XI of the Belgian Code of Economic Law, which incorporates the 1994 Copyright Law with effect of January 1, 2015, governs the distribution activities of cable companies and *inter alia*, implements the Council Directive 93/83/EEC of September 27, 1993 on the coordination of certain rules concerning copyright and rights related to copyright applicable to satellite broadcasting and cable retransmission (the “**Satellite Directive**”) and the Copyright Directive.

The national government, acting through the Ministry of Economy, regulates all issues related to copyright. These regulations apply to Telenet’s basic cable television offerings, in both digital and analog format.

Pursuant to case-law of the Belgian Supreme Court and Book XI of the Belgian Code of Economic Law (incorporating the 1994 Copyright Law), cable companies must receive approval from the holders of the relevant copyrights and related rights to transmit protected works over the cable operators’ networks, irrespective of whether the works are redistributed, directly injected or directly generated by the cable company.

Telenet broadcasts copyrighted works over its cable network pursuant to agreements with several broadcasters and agencies that represent the holders of various foreign and domestic copyrights. These agreements have been the subject of litigation (see “*Description of Telenet’s Business—Legal Proceedings—Copyright related legal proceedings*” in this respect).

In Telenet’s on-demand offerings it complies with the provisions of the 2009 Broadcasting Decree that limit the broadcasting of programs with restricted content through the use of encryption.

Interactive Digital Television

In September 2005, Telenet began offering iDTV to its cable television subscribers. In addition to a selection of enhanced video channels, customers are able to access a variety of interactive features, including e-mail, text messaging and other internet services. See “—*Telenet’s Products and Services— Video*”.

Local Regulations

Telenet is subject to certain local regulations with respect to its networks, including network rights of use or rights of way on the public domain. For operators of a public telecommunications network, the 1991 Law explicitly provides that public authorities (*e.g.*, municipalities) cannot charge such operators for the rights of use or the rights of way granted to them. If a public authority intends to perform works to the public domain, the network operator may be required to make modifications to its network at its own costs. Several municipalities have implemented a model regulation requiring payment for “the municipal services and the use of the municipal public domain as a result of works on permanent utilities on the municipal public domain”. Telenet has asked the Flemish provincial governors to suspend these regulations on the grounds that they violate the 1991 Law. Several province governors have confirmed that the regulations do not apply to Telenet’s networks because they are superseded by the 1991 Law. However, Telenet has to pay the Flemish region retributions for the use of its public domain, *e.g.*, rights of way of regional streets. This amounts to approximately €150,000 annually.

In light of the preliminary ruling by the European Court of Justice of September 4, 2014, as well as earlier judgments by the Belgian Constitutional Court of December 15, 2011 and the Belgian Supreme Court of March 30, 2012, relating to the local authorities' right to impose taxes on the economic activity of telecoms operators on their territory through cellular telephone communication masts, pylons or antennae, it cannot be excluded that local authorities may in the future also seek to impose taxes directly or indirectly related to other telecommunications networks, such as Telenet's network, on their territory. Telenet cannot give any assurances that its challenges of such taxes will be successful.

Competition Law

In addition to sector-specific regulations, Telenet is also subject to EU and national competition rules. The EU competition rules, based on the Treaty on the Functioning of the European Union, are directly applicable in Belgium. These provisions prohibit anti-competitive behavior by a company having a dominant position in the market, as well as collusion between competitors that could affect trade between member states of the EU, and that has the objective or effect of restricting or preventing competition within the EU. The Belgian competition rules contain identical provisions that are applicable where the Belgian market, or a substantial part of it, is affected. The European Commission, the Competition Authority and the Belgian civil courts have jurisdiction in cases involving any violation or suspected violation of these provisions.

EU and national competition rules could limit Telenet's ability to offer bundled telephony services, internet services, television services and/or intermediary interactive products. See "*Provisions Applicable to All Electronic Communications—Unbundling Networks*." The market abuse prohibition could prevent Telenet from bundling a service or product for which Telenet has a significant market position with a service or product for which Telenet has no such position. In particular, it may be that bundled sales of its television offerings will be allowed to a lesser degree due to Telenet's market share for television distribution. See "*Telenet's Products and Services—Residential Sales, Marketing and Customer Care*".

Employees

The number of full-time equivalents employed by the Company at December 31, 2016 was 3,387, including 859 full-time equivalents of BASE. Certain of these full-time equivalents belong to organized unions and works councils. Certain of Telenet's subsidiaries also use contract and temporary employees, which are not included in this number, for various projects. Telenet believes that its employee relations are good.

Properties

Telenet BVBA

Telenet leases its office building in Mechelen buildings pursuant to two sale-leaseback arrangements with KBC Bank NV ("KBC"), which is the security agent under the Senior Credit Facility, and Dexia Lease Services ("DLS"). The leases expire on December 31, 2021 and June 30, 2022, respectively. In addition Telenet leases additional office (mainly call centers) and warehousing space across Flanders. Call centers are located in St-Truiden, Aalst, Herentals and Mechelen.

Telenet owns one shop in Schaerbeek, and leases 31 properties across Flanders and Brussels that form the Telenet retail shop network.

Telenet's fiber and coaxial network runs through public and private rights of way. Article 98 of the 1991 Law (see "*Regulation—Telephony Regulation—Overview*") grants Telenet free rights of way on public land. Article 99 of the 1991 Law grants Telenet a right to run its network lines over private land provided that it pays the owner of the land fair compensation. Disputes concerning the amount of compensation to be paid for private rights of way are resolved by the BIPT. In general, Telenet's fiber optic cable runs in trenches shared with utilities and other service providers and its coaxial cable runs in trenches to which it alone has access. Approximately 40% of Telenet's local loop is above ground.

The buildings housing Telenet's switches and head end stations are a vital part of its network. Telenet owns three switch buildings (Asse, Gent and Roeselare), and has ownership rights (*opstalrechten*) in two further switch buildings (Hasselt and Hoboken). Some head end stations are located in stand-alone structures and others are parts of larger utility and similar complexes. Telenet owns 25 of its head end stations and has ownership rights in 20 further head end stations.

Telenet owns 28 mobile network sites which it leases to other mobile operators. The antenna stations are located in standalone structure or in head-end stations.

Telenet Group BVBA

Telenet Group BVBA leases its main office space in Sint-Stevens-Woluwe and has two data center locations, of which one is owned.

Telenet Group BVBA's retail network consists of 87 leased retail locations across Belgium.

The mobile network infrastructure consists of about 3270 sites (excluding repeaters) of which about 2500 are leased from third parties. The remainder of the sites are mainly owned by other telecom operators with whom Telenet Group has site sharing agreements in place.

SFR Belux

SFR Belux leases limited office space in Brussels and Luxemburg. SFR Belux's Retail network consists of 3 leased retail locations in Brussels and Wallonia and 3 in Luxemburg.

To support its network operations, SFR Belux has a limited number of owned and leased technical facilities across Brussels, Wallonia and Luxemburg.

Advertising

Telenet has entrusted Pebble Media NV, a joint venture operated together with the Vlaamse Audiovisuele Regie NV, with the management of its online advertising on an exclusive basis. At November 21, 2017, Telenet held a 50% stake in Pebble Media NV.

Sponsorship

In order to promote Telenet's brand and image, Telenet regularly enters into promotion and sponsorship agreements, notably with major sports teams and/or sport players which, Telenet believes, portray its goals and values. Those contracts are usually entered into for a limited number of sport seasons and can be terminated by Telenet in a number of instances, including in case Telenet is likely to suffer reputational damages due to the sponsoree's misbehavior.

Environmental Matters

Telenet's operations are subject to a variety of laws and regulations relating to land use and environmental protection.

Legal Proceedings

Telenet is involved in a number of legal proceedings that have arisen in the ordinary course of its business, as Telenet operates in a very competitive environment. Litigation could arise in connection with, among other things, intellectual property, advertising, campaigns, product offers, and the pursuit of acquisition opportunities. Certain pending lawsuits in which Telenet is involved are described below. Other than as discussed below, Telenet does not expect the legal proceedings in which Telenet is involved or with which Telenet has been threatened to have a material adverse effect on its business or consolidated financial position. Note, however, that the outcome of legal proceedings can be extremely difficult to predict with certainty, and Telenet offers no assurances in this regard.

Legal proceedings concerning the agreement-in-principle and PICs Agreement concluded between Telenet and the PICs, Interkabel and INDI

On November 26, 2007, Telenet and the PICs announced a non-binding agreement-in-principle to transfer the analog and digital television activities of the PICs, including all existing subscribers to Telenet. Subsequently, Telenet and the PICs entered into a binding agreement (the "**PICs Agreement**"), which closed effective October 1, 2008. Beginning in December 2007, Proximus, the incumbent telecommunications operator in Belgium,

instituted several proceedings seeking to block implementation of these agreements. Proximus lodged summary proceedings with the President of the Court of First Instance of Antwerp to obtain a provisional injunction preventing the PICs from effecting the agreement-in-principle and initiated a civil procedure on the merits claiming the annulment of the agreement-in-principle. In March 2008, the President of the Court of First Instance of Antwerp ruled in favor of Proximus in the summary proceedings, which ruling was overturned by the Court of Appeal of Antwerp in June 2008. Proximus brought this appeal judgment before the *Cour de Cassation* (the Belgian Supreme Court), which confirmed the appeal judgment in September 2010. On April 6, 2009, the Court of First Instance of Antwerp ruled in favor of the PICs and Telenet in the civil procedure on the merits, dismissing Proximus' request for the rescission of the agreement-in-principle and the PICs Agreement. On June 12, 2009, Proximus appealed this judgment with the Court of Appeal of Antwerp. In this appeal, Proximus is now also seeking compensation for damages. While these proceedings were suspended indefinitely, other proceedings were initiated, which resulted in a ruling by the Belgian Council of State in May 2014 annulling (i) the decision of the PICs not to organize a public market consultation and (ii) the decision from the PICs' board of directors to approve the PICs Agreement. In December 2015, Proximus resumed the civil proceedings pending with the Court of Appeal of Antwerp seeking to have the PICs Agreement annulled and claiming damages of €1.4 billion.

Telenet intends to defend itself vigorously in the resumed proceedings. A judgment of the Court of Appeal of Antwerp is not expected before mid-December 2017. No assurance can be given as to the outcome of these or other proceedings. However, an unfavorable outcome of existing or future proceedings could potentially lead to the annulment of the PICs Agreement and/or to an obligation of Telenet to pay compensation for damages, subject to the relevant provisions of the PICs Agreement, which stipulate that Telenet is responsible for damages in excess of €20.0 million. There can be no assurances that the ultimate resolution of this matter will not have a material adverse impact on Telenet's results of operations, cash flows or financial position (although Telenet does not expect this to be the case). No amounts have been accrued by Telenet with respect to this matter as the likelihood of loss is not considered to be probable.

Legal proceedings regarding cable access

In December 2010, the BIPT and the regional regulators for the media sectors (together, the Belgian Regulatory Authorities) published their respective draft decisions reflecting the results of their joint analysis of the broadcasting market in Belgium. The Belgian Regulatory Authorities adopted a final decision on July 1, 2011 (the July 2011 Decision) with some minor revisions. The regulatory obligations imposed by the July 2011 Decision include (1) an obligation to make a resale offer at "retail minus" of the cable analog package available to third-party operators (including Proximus), (2) an obligation to grant third-party operators (except Proximus) access to digital television platforms (including the basic digital video package) at "retail minus", and (3) an obligation to make a resale offer at "retail minus" of broadband internet access available to beneficiaries of the digital television access obligation that wish to offer bundles of digital video and broadband internet services to their customers (except Proximus).

In February 2012, Telenet submitted draft reference offers regarding the obligations described above, and the Belgian Regulatory Authorities published the final decision on the reference offers on September 9, 2013. Telenet has implemented the access obligations as described in its reference offers and, on March 1, 2016, Orange Belgium (formerly known as Mobistar NV) launched a commercial offer combining a cable TV package and broadband internet access for certain of their mobile customers. In addition, as a result of the November 2014 decision by the Brussels Court of Appeal described below, on November 14, 2014, Proximus submitted a request to Telenet to commence access negotiations. Telenet contests this request and has asked the Belgian Regulatory Authorities to assess the reasonableness of the Proximus request. This question is addressed in the Belgian Regulatory Authorities draft market review decisions of July 7, 2017. The timing for a decision regarding this assessment by the Belgian Regulatory Authorities is not known.

As a result of the July 2011 Decision, which imposed a retail minus pricing method, the CRC had to determine the retail minus tariffs applicable to the services referred to in the July 2011 Decision. On April 2, 2013, the CRC issued a draft decision regarding the "retail minus" tariffs of minus 35% for basic TV (basic analog and digital video package) and minus 30% for the bundle of basic TV and broadband internet services. On October 8, 2013, the European Commission received a draft quantitative decision from the CRC in which they changed the "retail minus" tariffs to minus 30% for basic TV (basic analog and digital video package) and to minus 23% for the bundle of basic TV and broadband internet services. Even though the European Commission made a number of comments regarding the appropriateness of certain assumptions in the proposed costing methodology, the CRC adopted such retail minus tariffs on December 11, 2013.

Following the adoption of the retail minus tariffs, the CRC initiated a consultative process regarding the determination of the retail minus tariffs not covered by the December 11, 2013 decision. Between May 27, 2015 and June 16, 2015, the BIPT, VRM, CSA and Medienrat started public consultations relating to their respective draft decisions reviewing the wholesale tariffs for the services for access to the cable in their respective regions. In these draft decisions, the regulators have stated that cable operators' retail offerings generally contain additional services (such as webmail, webspace, free content or content at a reduced price and access to public WiFi), which are reflected in the price of the retail offering. These additional services have been identified in the report and the regulators have aimed to identify the reference prices for these services. It was proposed that the basis for calculating the "retail minus" tariffs will be reduced accordingly, which would lead to significantly lower "retail minus" tariffs. During the public consultation process, Telenet observed that, due to the different elements taken into account by the CRC to fix the reduced wholesale tariffs, the decision was disproportionate and uncertain. The draft decision was sent for review to the European Commission and on February 19, 2016, the CRC adopted a decision implementing the July 2011 Decision and amending the initial December 11, 2013 decision establishing the retail minus tariffs. The February 19, 2016 decision on the revision of retail minus wholesale tariffs for access services to cable networks in the Brussels Capital Region amended the December 11, 2013 decision by, among other things, changing the minus determination model (excluding or taking into consideration certain elements for the determination of the retail minus tariffs) and the tariffication of decoders and modems and providing for the valuation of elements excluded from wholesale offers (WiFi access, second screen, etc.), thus reducing the applicable wholesale tariffs for access to the cable in the relevant markets (retail minus tariffs of minus 26% for basic television (basic analog and digital video package) and minus 18% for the bundle of basic television and broadband internet services during an initial two-year period. Following this two-year period, the tariffs would change to minus 15% and 7%, respectively). The February 2016 decision is addressed to Brute'le', Numericable and Telenet.

The above decisions have led to a number of proceedings and litigations. Telenet filed an appeal against the July 2011 Decision with the Brussels Court of Appeal. On November 12, 2014, the Brussels Court of Appeal rejected Telenet's appeal of the July 2011 Decision and accepted Proximus' claim that Proximus should not be systematically excluded from access to Telenet's, among other operators', digital television platform and the resale of bundles of digital video and broadband internet services. On November 30, 2015, Telenet filed an appeal of this decision with the Belgian Supreme Court. In 2014, Telenet and wireless operator Orange Belgium each filed an appeal with the Brussels Court of Appeal against the initial retail minus decision of December 11, 2013. On April 25, 2016, Telenet also filed an appeal with the Brussels Court of Appeal challenging the February 19, 2016 retail minus decision. These proceedings against the February 19, 2016 decision have been joined by the Brussels Court of Appeal with the proceedings initiated by Telenet on February 20, 2014 against the decision of the CRC of December 11, 2013. On October 25, 2017, the Court of Appeal issued a judgment annulling both the December 11, 2013 and February 19, 2016 retail minus decisions, with effect from April 30, 2018. There can be no assurances that the decision of the Brussels Court of Appeal will not be appealed before the Supreme Court.

The July 2011 Decision aims to, and in its application may, strengthen Telenet's competitors by granting them resale access to Telenet's network to offer competing products and services notwithstanding Telenet's substantial historical financial outlays in developing the infrastructure. In addition, any resale access granted to competitors could (1) limit the bandwidth available to Telenet to provide new or expanded products and services to the customers served by its network and (2) adversely impact Telenet's ability to maintain or increase its revenue and cash flows. The extent of any such adverse impacts ultimately will be dependent on the extent that competitors take advantage of the resale access ultimately afforded to Telenet's network and other competitive factors or market developments.

On July 7, 2017, the BIPT published a draft decision regarding the analysis of the broadband and television broadcasting markets which it submitted for consultation. The public consultation ran until September 15, 2017, followed by a notification to the European Commission for advice by the end of 2017. In its draft decision, the BIPT defined retail markets (broadband over fixed network for residential customers, broadband over fixed network for non-residential customers, and provision of a television signal) as well as wholesale markets (local access, central access under ITU SG15 standardisation, central access under CableLabs standardization, and access to broadcasting over cable networks). For these markets, the BIPT concluded that Telenet, together with Proximus and other cable operators, such as Brute'le', Nethys and SFR, have SMP, and proposed a number of regulations to ensure effective competition and user satisfaction. These measures relate to non-discrimination, transparency and price control. In respect of price control, the BIPT proposed a methodology to replace the pre-existing retail minus methodology: (i) a cost obligation over the local and central access services over the copper network, and (ii) an obligation to apply fair tariffs for the other wholesale services (over fibre and cable), and a cost orientation obligation for the ancillary services. By "fair", the BIPT means a price which may exceed the

costs while keeping a link with costs, allowing for a reasonable margin between the cost of the product and the wholesale price. Timing for a final decision is unknown. If this draft market review decision is adopted in 2018, it will replace the July 2011 Decision.

Legal proceedings relating to Orange request for access to Coditel's network

On February 11, 2016, Orange made an official request for access to the cable network of Coditel, which was acquired by Telenet Group on June 19, 2017. On February 19, 2016, Orange transferred a sum of EUR 600,000 to Coditel as required to launch the six-month implementation period to put in place the necessary measures to give Orange access to the cable network pursuant to the July 2011 Decision. In principle, the implementation period ended on August 19, 2016. As Orange had not yet obtained effective access to Coditel's network in December 2016, Orange brought a claim for damages against Coditel on December 29, 2016 in front of the French-speaking Commercial Court of Brussels. Orange claimed to have suffered a loss of EUR 8,973 per day of delay. On January 16, 2017, Orange also initiated interim proceedings, but these have in the meantime been withdrawn.

The proceedings in front of the French-speaking Commercial Court of Brussels are still ongoing. Coditel considers that Orange has in the meantime obtained effective access to Coditel's cable network.

Cable ownership related legal proceedings

The municipality of Sint-Lambrechts-Woluwe granted the right to operate the cable network on its territory to WoluTV ASBL ("WoluTV") in 1971. Telenet provided a number of technical services to WoluTV in accordance with agreements dated February 11, 1998 (analog television) and September 3, 2007 (digital television). Telenet and WoluTV also concluded two agreements on May 7 and September 3, 2007 respectively, pursuant to which Telenet provided, in its own name and for its own account, internet and telephony services on the municipality's cable network. On December 16, 2014, WoluTV terminated the agreements with Telenet with effect on December 31, 2015.

The agreements terminated by WoluTV provide that WoluTV must compensate Telenet for all costs, damages and losses as a consequence of termination of the agreements. WoluTV has disputed that this clause is valid under Belgian law and has therefore refused to designate an expert to determine the amount of the compensation owed to Telenet. Telenet brought a claim against WoluTV before the Commercial Court of Brussels on November 10, 2015, whereby Telenet requested provisional compensation of €1 million (increased with interest), and that the Court appoint an expert to determine the compensation owed by WoluTV. The case is currently pending before the Commercial Court of Brussels.

Separately, on April 28, 2015, the municipality of Sint-Lambrechts-Woluwe decided to sell its cable network. On June 29, 2015, the municipality awarded the purchase contract to Coditel Brabant for €18 million. Telenet, who had also submitted an offer to purchase the cable network, brought an action for annulment of the municipality's decision before the Council of State. Telenet has withdrawn its action for annulment in light of the Coditel Acquisition.

Copyright related legal proceedings

The issue of copyrights and neighboring rights to be paid for the distribution of television has during the last two decades given rise to a number of litigations. Already in 1994, the Belgian Radio and Television Distributors Association (*Beroepsvereniging voor Radio-en Televisiedistributie / Union professionnelle de radio et de télédistribution*) (the "RTD", renamed afterwards to "Cable Belgium") was involved in discussions with various copyrights collecting agencies regarding the fees to be paid to the latter for the analogue broadcasting of various television programs. In November 2002, the RTD, together with certain Belgian cable operators (among which Telenet), began reaching settlements with the copyright collecting agencies and broadcasters. Pursuant to those settlement agreements, to which Telenet acceded, Telenet agreed to make certain upfront payments as well as to make increased payments over time. Consequently, in August 2003, Telenet increased the copyright fee it charges its subscribers. In July 2004, the Association for the Collection, Distribution and Protection of the Rights of the Artists, Interpreters and Performers (*CVBA Vereniging voor de inning, repartitie en de verdediging van de vertolkende en uitvoerende kunstenaars*) ("Uradex", later renamed to "Playright") filed a claim against the RTD for €55 million plus interest concerning neighboring rights owed by the members of the RTD to artists and performers represented by Uradex during the period from August 1994 through the end of July 2004.

After the roll-out of digital television, Telenet in 2006 started a judicial procedure against a number of collecting agencies. This procedure is related to a discussion between Telenet and these collecting agencies about the legal qualification of (i) simulcast (i.e. channels distributed both in analogue and in digital quality), (ii) direct injection (i.e. channels delivered to the distributor over a non-publicly accessible transmission channel) and (iii) all rights included contracts (i.e. contracts in which broadcasters engage to deliver their signals and programs after having cleared all rights necessary for the communication to the public over the distributor's networks).

On April 12, 2011, the Court of First Instance of Mechelen rendered a positive judgment in the procedure against Sabam, Agicoa, Uradex and other collecting agencies, and as part of which procedure several collecting agencies (Sabam not included) filed counterclaims against Telenet for the payment of the invoices that Telenet disputed. The Court validated Telenet's arguments in each of the claims and counterclaims that were the subject of the procedure and, as a result: (i) no retransmission fees have to be paid by Telenet in case of direct injection of a broadcaster's signal into Telenet's network, (ii) no retransmission fees have to be paid in case of simulcast of an analog and digital signal (and consequently, Telenet does not have to pay extra for the distribution of linear digital television signals) and (iii) all-rights- included contracts are deemed legally valid, which means that if Telenet agrees with a broadcaster that the latter is responsible for clearing all copyrights, Telenet is not liable towards the collecting agencies. The collecting agencies lodged an appeal (see below).

Since Sabam had not filed any counterclaim for the payment of invoices as part of the aforesaid judgment, on April 6, 2011, Sabam (not the other collecting agencies) initiated judicial proceedings before the Commercial Court of Antwerp, claiming payment by Telenet of invoices relating to (a) fees for a period from January 1, 2005 until December 31, 2010 for Telenet's basic digital television package, and (b) fee advances for the first semester of 2011 for Telenet's basic and optional digital television packages. The claims mainly related to (i) direct injection and (ii) all-rights-included contracts. Sabam's claim was based on arguments substantially similar to those rejected by the Court of First Instance in Mechelen on April 12, 2011. As discussed below, Sabam has asked the Commercial Court of Antwerp to withdraw these claims as Sabam has filed similar claims in the pending proceedings before the Brussels Court of Appeal. Simultaneously, Sabam initiated a summary procedure before the President of the Commercial Court of Antwerp, to receive provisional payment of the contested fees and fee advances. On June 30, 2011, the President of the Commercial Court of Antwerp rendered a positive judgment for Telenet in this procedure. Sabam lodged an appeal. On June 27, 2012, the Court of Appeal of Antwerp confirmed this judgment and dismissed the claim in summary proceedings of Sabam.

In the case of the appeal against the judgment of April 12, 2011 of the Court of First Instance of Mechelen, the Court of Appeal of Antwerp rendered an intermediate ruling on February 4, 2013. The Court of Appeal rejected the claims of the collecting societies with regard to simulcasting and confirmed that direct injection is a single copyright relevant operation (royalties should therefore be paid only once). The case was re-opened to allow the collecting societies to provide further proof of their actual claims. On January 20, 2014 and on May 5, 2014, respectively, Numéricable (previously Coditel) and Telenet appealed this intermediate ruling before the Supreme Court mainly because of the incorrect qualification of the fees to be paid for the communication to the public as if it would be "retransmission" rights. The Supreme Court has issued its judgment in this matter on September 30, 2016. The Supreme Court accepted the argument of Telenet that direct injection only involves a single communication to the public and therefore cannot constitute "retransmission" as this requires two communications to the public. The Supreme Court has referred the case to the Court of Appeal of Brussels, where the case has recently been activated upon request of Sabam. In the context of these proceedings Sabam has filed a counterclaim on August 29, 2017 for copyrights due as from 2005 to 2016 (all claims combined), withdrawing its claims that were pending before the Antwerp Commercial Court. In view of the complexity of the matter and the number of parties involved, it will take at least another year before a decision is rendered. Numéricable had reached a settlement with the collecting societies before, and has already withdrawn its appeal.

Telenet does not expect the ultimate resolution of this matter to have a material impact on its results of operations or financial condition.

MANAGEMENT AND GOVERNANCE OF TELENET

Board of Directors

Composition

The board of directors of Telenet Group Holding (the “**Telenet Board of Directors**”) currently consists of ten members, three of whom are independent directors. See “—*Independent Directors*”. The articles of association of Telenet Group Holding (the “**Telenet Articles of Association**”) provide that the Telenet Board of Directors can be composed of a maximum of 17 directors, three of which must be independent directors. Directors are appointed for terms of up to four years. Directors appointed upon the resignation of a director resigning before the end of the normal term period continue to serve only the remaining portion of the original appointed term before requiring re-election. A shareholder who owns a majority of the total shares issued by Telenet Group Holding, has the right to nominate at least a majority of the members of the Telenet Board of Directors.

Six of the ten directors that are currently on the Telenet Board of Directors have been appointed upon nomination of the Liberty Global Consortium. The remaining directors are its Chief Executive Officer and independent directors.

Independent Directors

The Telenet Board of Directors currently maintains three independent directors. Pursuant to the Telenet Articles of Association, independent directors are appointed by a majority of the shareholders from among candidates nominated by the majority of the members of the Telenet Board of Directors, upon advice of the Remuneration & Nomination Committee. See “—*Board Committees—Remuneration & Nomination Committee*”. Independent directors must satisfy the independence criteria of the Telenet Articles of Association and the Belgian Company Code.

Observers

The Telenet Articles of Association permit the holders of certain Golden Shares (as defined under “**Principal Shareholders of Telenet**”) of Telenet Group Holding to designate one observer to the Telenet Board of Directors, in case the MICs cease to be represented in the Telenet Board of Directors. The observer has the right to attend meetings of the Telenet Board of Directors and to receive all information provided to the Telenet Board of Directors, but is not entitled to vote and remains subject to the same confidentiality obligations as a member of the Telenet Board of Directors. Following the expiration of the mandate of Mr. André Sarens as director of Telenet at the general shareholders meeting of April 25, 2012, the MICs have requested to appoint Mr. André Sarens as observer on the Telenet Board of Directors in his personal name.

Members

As of the date of the Offering Memorandum, the members of the Telenet Board of Directors, their year of birth, and the expiry of their terms, are set out in the chart below:

Name⁽¹⁾	Year of birth	Position⁽²⁾	Term
Bert De Graeve ⁽³⁾	1955	Chairman of the Board and Independent Director	2018
Christiane Franck	1951	Independent Director	2018
Jo Van Biesbroeck ⁽⁴⁾	1956	Independent Director	2019
John Porter	1957	Chief Executive Officer and Managing Director	2021
Charles H. Bracken	1966	Director	2020
Diederik Karsten	1956	Director	2019
Manuel Kohnstamm	1962	Director	2019
Suzanne Schoettger	1968	Director	2020
Jim Ryan	1965	Director	2018
Dana Strong.....	1970	Director	2020

(1) The business address of each of the members of the Telenet Board of Directors is Neerveldstraat 105, 1200 Sint-Lambrechts-Woluwe.

- (2) With the exception of the Chief Executive Officer/Managing Director, all directors are non-executive directors.
- (3) As permanent representative of IDw Consult BVBA.
- (4) As permanent representative of JoVB BVBA.

The following paragraphs set forth biographical information regarding the members of the Telenet Board of Directors.

Bert De Graeve, Chairman of the Board and Independent Director

Bert De Graeve has been appointed as Chairman of the Board and independent director of Telenet at the annual general shareholders' meeting of April 2014. Since May 2014 Bert De Graeve is Chairman of the Bekaert Group. He started his career in 1980 with Arthur Andersen & Co and joined Alcatel Bell in 1982. In 1991 he became General Manager of Shanghai Bell Telephone Equipment Mfg. Cy in Shanghai. In 1994 he was appointed Vice President, Director Operations, Alcatel Trade International and later Director International Affairs, Alcatel Alstom in Paris. In 1996 he became Managing Director of the Flemish Public Radio & TV Broadcaster (VRT) and joined Bekaert in 2002 as CFO, to become CEO from 2006 until 2014. Bert De Graeve holds a Master in Law from the University of Ghent (1980), studied Financial Management at IPO (Antwerp) and became Master in Tax Management at VLEKHO (Brussels). Bert De Graeve is also Chairman of the Board of Managers of Telenet BVBA and the Board of Directors of Sibelco NV, Independent Director of UCB, Member of the International Business Leaders' Advisory Council for the Mayor of Shanghai (IBLAC) and Member of the Board of the Concours Reine Elisabeth.

Christiane Franck, Independent Director

Christiane Franck has been the CEO of Vivaqua in Brussels since 2005, where she started her career. At Vivaqua, Ms. Franck consecutively held the positions of ICT Manager, Commercial Manager of Distribution and Secretary General. Vivaqua, specializing in water production and distribution, serves over two million in habitants throughout Belgium and federal level. Christiane Franck brings a strong level of service company experience to Telenet. Christiane Franck has a Masters in Mathematics from the University in Brussels (ULB) and is a member of the board of the ULB and a member of the advisory committee of Ethias Mutual Insurance Company.

Jo Van Biesbroeck, Independent Director

Up to 2014, Jo Van Biesbroeck has been Chief Strategy Officer of Anheuser-Busch InBev SA/NV (formerly known as InBev SA and Interbrew SA) where he also started his career in 1978. Anheuser-Busch InBev is the world's leading brewer and is amongst the world's top five companies operating consumer goods. Mr. Van Biesbroeck held various positions in controlling and finance and was Senior Vice-President of Corporate Strategy, Chief Business Development Officer, Chief Strategy and Business Development Officer, Chief Sales Officer, and Zone President Western Europe in that order. As of September 1, 2015, Jo Van Biesbroeck is manager of RSC Anderlecht. Jo Van Biesbroeck obtained a Master's degree in Economics at the Catholic University of Leuven. He is also an independent and non-executive director of Kinopolis Group NV.

John Porter, Chief Executive Officer and Managing director

For the biography of Mr. Porter, we refer to the section on Senior Management of these Listing Particulars.

Charles H. Bracken, Director

Charles H. Bracken is Executive Vice President and Chief Financial Officer for Liberty Global with responsibility for Group Finance and Treasury operations, including tax and financial planning, procurement, and facilities as well as capital allocation and finance operations of Liberty Global's largest operations, and overseeing its accounting, external reporting, Investor Relations and Corporate Responsibility functions. He is responsible for overseeing Liberty Global's business plan and its focus on customer support systems. He is an executive officer of Liberty Global and sits on the Executive Leadership Team and the Investment Committee.

Diederik Karsten, Director

Diederik Karsten has served as a director of Telenet since May 2007. He became Executive Vice President, Chief Commercial Officer for Liberty Global in August 2015. Previously Mr. Karsten served as Executive Vice President, European Broadband Operations. Before that he served as the Managing Director for Liberty Global's broadband operations in the Netherlands. Prior to joining Liberty Global, he held various management positions at PepsiCo and Procter & Gamble in the Netherlands, the United States, Germany and the United Kingdom. Mr. Karsten holds a degree in business economics from Erasmus Universiteit Rotterdam, with specializations in Marketing and Accountancy.

Dana Strong, Director

In January 2015 Dana was appointed Senior Vice President, Chief Transformation Officer at Liberty Global. In this role she is a member of the Executive Leadership Team, and works with Liberty Global's President and CEO Mike Fries on identifying the strategic and operational opportunities that will shape the future success of the business. From July 2013, Dana worked as Chief Operating Officer at Virgin Media where she oversaw a major restructure of parts of the business following Liberty Global's acquisition of Virgin Media. This followed two years as Chief Executive Officer of UPC Ireland, overseeing that operation's strong growth, improved customer satisfaction, and successful track record of product innovation. Before joining UPC Ireland, Dana served as the Chief Operating Officer of AUSTAR Communications in Australia for Liberty Global. Dana is a dual degree graduate from the University of Pennsylvania with a Bachelor of Science in Economics from The Wharton School of Business and a Bachelor of Arts in History from the College of Arts and Sciences.

Manuel Kohnstamm, Director

Manuel Kohnstamm has served as a director of Telenet since May 2007. Mr. Kohnstamm is Senior Vice President and Chief Corporate Affairs Officer for Liberty Global, responsible for regulatory strategy, government affairs and internal and external communications. Mr. Kohnstamm joined Liberty Global's predecessor in 1999 and held several positions in corporate affairs, public policy, and communications. He was appointed to his current position as an executive officer of Liberty Global in January 2012. Before he joined Liberty Global, Mr. Kohnstamm worked at Time Warner Inc., as Vice President of Public Affairs in Brussels and with the consulting group European Research Associates in Brussels. Mr. Kohnstamm has been President of the industry association Cable Europe since 2008, and a member of the Supervisory Board of Unitymedia GmbH, a Liberty Global subsidiary in Germany. Mr. Kohnstamm graduated in Political Science and holds a Doctorandus Degree in International and European law from the University of Amsterdam and a Postgraduate Degree in international relations from the Clingendael Diplomat School in The Hague. He also completed the Cable Executive Management Program from Harvard Business School, Boston (MA).

Suzanne Schoettger, Director

Suzanne Schoettger has worked with Liberty Global and its predecessors since April 1999. Currently Ms. Schoettger holds the position of Managing Director, Chief of Staff for the CEO Office. Prior to this position Ms. Schoettger held the position of Liberty Global's Chief Audit & Compliance Officer. Before that, she held various positions in financial reporting, auditing and internal controls working across Liberty Global's global footprint. Before joining Liberty Global, Ms. Schoettger worked in the audit practice of Arthur Andersen. Ms. Schoettger holds a Masters in Professional Accounting from the University of Texas at Austin and a Bachelor of Arts in Economics from Hastings College. In addition, she has completed Harvard Business School's General Management Program.

Jim Ryan, Director

Jim Ryan has served as a director of Telenet from May 2007 until April 2013. Mr. Ryan was appointed director during the shareholders' meeting of April 30, 2014 for a term of four years. Mr. Ryan has been with Liberty Global Europe Holding B.V. and its predecessors since 2000, as Managing Director of Strategy and Corporate Development until December 2011 and since January 2012, as Senior Vice President & Chief Strategy Officer, being responsible for the global strategy and strategic planning across all regions of Liberty Global's operations. He holds a degree in Politics, Philosophy and economics from St. John's College, Oxford University.

Votes of the Boards of Directors

General

In principle, the Telenet Board of Directors and Telenet BVBA Board of Managers take their decisions by simple majority of the directors/managers present or duly represented. For votes on certain matters, however, the Telenet Articles of Association impose special voting requirements, consisting of affirmative votes by certain directors. Changes to certain guarantees to the MICs on (i) price and content of the basic cable television package, (ii) the quality and the speed of the roll-out obligations for the digital platform, and (iii) provision of public services which utilize new technologies to local public administrations at cost price (the “**Public Interest Guarantees**”) require the approval of the majority of the ten Class A directors on Telenet’s Regulatory Board. See “—*Regulatory Board*”.

Compensation

The general meeting of shareholders of 26 April 2017 of Telenet Group Holding amended and approved the remuneration principles, in force as of the general meeting of shareholders of 28 April 2010, of the non-executive directors of Telenet Group Holding. Each non-executive director’s remuneration consists of an annual fixed fee, with an additional attendance fee per attended meeting of the Telenet Board of Directors. The observer and all directors, except the Chief Executive Officer and the directors appointed upon nomination of the Liberty Global Consortium, receive an annual fixed fee of €45,000 each. The chairman of the Telenet Board of Directors receives an annual fixed fee of €120,000. For each attended scheduled meeting of the Telenet Board of Directors, the observer and directors, except the Chief Executive Officer and the directors appointed upon nomination of the Liberty Global Consortium, receive an amount of €3,500 with a maximum of €24,500 per year. The directors appointed upon nomination of the Liberty Global Consortium, receive an annual fixed fee of €12,000 each. For each attended scheduled meeting of the Telenet Board of Directors, they receive an amount of €2,000. The annual fixed fees are only due if the director attends at least half of the scheduled board meetings. With respect to the committee meetings, a remuneration is foreseen for the independent directors. The chairman of the Audit Committee receives an attendance fee of €4,000 per meeting, while the other independent directors participating in the Audit Committee receive an attendance fee of €3,000 per meeting. The independent directors participating in the Remuneration and Nomination Committee receive an attendance fee of €2,000. The observer and the directors of the Liberty Global Consortium participating in committee meetings do not receive any additional remuneration. The observer to the Telenet Board of Directors is paid in the same way as the independent directors of Telenet Group Holding. In principle no additional remuneration is paid to the directors by other companies of the Telenet Group.

The CEO, who is the only executive director, is not remunerated for the exercise of his mandate as member of the Telenet Board of Directors or the board of directors of any of the other companies of the Telenet Group.

For the year 2016, the aggregate remuneration of the members of the Telenet Board of Directors (including the observer) amounted to €456,000.

None of the directors (except for the CEO of Telenet) receives: (i) variable remuneration within the meaning of the Belgian Law of April 6, 2010 and (ii) any profit-related incentives, option rights, shares or other similar fees.

Pursuant to Belgian legislation and regulations, all board members (or persons related to them or entities fully controlled by them) must report details of their (transactions in) stock options and shares of Telenet to the Belgian Financial Services and Markets Authority.

Board Committees

In accordance with the relevant legal requirements, the Telenet Board of Directors has established an Audit Committee and a Remuneration & Nomination Committee. Given the increasing impact and importance of corporate social responsibility and sustainability on Telenet’s business, the Telenet Board of Directors decided in 2013 that the design, implementation and monitoring of Telenet’s sustainability program (known as the “**LEAP program**”) will be discussed and approved at full board level. The Telenet Board of Directors also formally reviews and approves Telenet’s sustainability report and ensures that all material aspects are covered. The Telenet Board of Directors of each company may establish other committees in its own discretion. These committees are solely advisory bodies. They do not have the power to take binding decisions for Telenet Group Holding.

Audit Committee

The principal tasks of the Audit Committee include regularly convening to assist and advise the Telenet Board of Directors with respect to the monitoring of the financial reporting by Telenet and its subsidiaries, the monitoring of the effectiveness of the systems for internal control and risk management of Telenet, monitoring of the internal audit and its effectiveness, monitoring of the statutory audit of the annual accounts and the consolidated accounts including follow-up on questions and recommendations of the statutory auditor and assessment and monitoring of the independent character of the statutory auditor, taking into account the delivering of additional services to Telenet. The Audit Committee also meets at least once a year with the external auditor without the presence of the executive management.

Since the general shareholders' meeting of April 24, 2013, the Audit Committee is composed of three members, including two independent directors of Telenet, of whom one is the chairman. All members are non-executive directors. One director is appointed upon the nomination by Liberty Global. This composition conforms to article 526bis §1 of the Belgian Company Code regarding the composition of Audit Committees within listed companies, as introduced in December 2008, and the Corporate Governance Code 2009. The members of the Audit Committee as of the date of the Offering Memorandum were: Mr. Jo Van Biesbroeck (as permanent representative of JoVB BVBA), Chairman, Mrs. Christiane Franck and Ms. Suzanne Schoettger. The meetings of the Audit Committee are also attended by Mr. André Sarens in his capacity as observer of the Telenet Board of Directors.

Telenet has established a whistleblowing procedure, which has been reviewed by the Audit Committee and approved by the Telenet Board of Directors. Telenet implemented the whistleblowing procedure in December 2008. This policy allows employees of Telenet to raise concerns about possible improprieties in accounting, internal control or audit matters in confidence via a telephone line or a reporting website. The employees can remain anonymous if requested. Complaints received through the telephone line or reporting website are handled by Telenet's compliance officer and the chairman of the Audit Committee.

The chairman of the Audit Committee reports on the matters discussed in the Audit Committee to the Telenet Board of Directors after each meeting and presents the recommendations of the Audit Committee to the Telenet Board of Directors for decision-making.

Remuneration & Nomination Committee

The principal tasks of the Remuneration & Nomination Committee include formulating proposals to the Telenet Board of Directors with respect to the remuneration policy of non-executive directors and executive management (and the resulting proposals to be presented by the Telenet Board of Directors to the shareholders), the individual remuneration and severance pay of directors and executive management, including variable remuneration and long term performance bonuses, whether or not related to shares, in the form of stock options or other financial instruments (and the resulting proposals to be presented by the Telenet Board of Directors to the shareholders where applicable), the hiring and retention policy, the nomination of the CEO, assisting the CEO with the appointment and succession planning of executive management, the preparation of the remuneration report to be included in the corporate governance statement by the Telenet Board of Directors and the presentation of this remuneration report to the annual general shareholders' meeting.

Furthermore, the Remuneration & Nomination Committee's tasks include designing an objective and professional appointment procedure for directors, the periodic evaluation of the scope and composition of the Telenet Board of Directors, searching for potential directors and submitting their applications to the Telenet Board of Directors and making recommendations with respect to candidate-directors.

The Committee is composed exclusively of non-executive directors and has three members. Two members are independent directors of Telenet. The chairman of the Telenet Board of Directors also serves as chairman of the Remuneration & Nomination Committee.

The members of the Remuneration & Nomination Committee as of the date hereof were: Mr. Bert De Graeve (as permanent representative of IDw Consult BVBA), Mr. Charles H. Bracken, and Mrs. Christiane Franck.

The chairman of the Remuneration & Nomination Committee reports on the matters discussed in the Remuneration & Nomination Committee to the Telenet Board of Directors after each meeting and presents the recommendations of the Remuneration & Nomination Committee to the Telenet Board of Directors for decision-making.

Regulatory Board

The Regulatory Board oversees the compliance of the Telenet Group with the Public Interest Guarantees, which relate to its offering of digital television. The Regulatory Board consists of ten Class A directors and ten Class B directors. The Class A directors are appointed by the holders of Telenet's Golden Shares, and must include the members of the Telenet Board of Directors appointed upon nomination by the MICs. The Class B directors are nominated by the Telenet Board of Directors. All decisions of the Regulatory Board may only be taken by a majority of each of the Class A directors and Class B directors voting as a separate class.

Corporate Governance Charter

The Corporate Governance Charter of Telenet Group Holding has been updated by the Telenet Board of Directors on February 14, 2017, and can be viewed on the investors website of Telenet Group Holding (<http://investors.telenet.be>).

Senior Management

The Chief Executive Officer (“CEO”) is responsible for the daily management of Telenet. The CEO is assisted by the executive management (the “**Senior Leadership Team**”), of which he is the chairman, and that does not constitute a management committee within the meaning of article 524bis of the Belgian Company Code.

The Chief Executive Officer is authorized to legally bind Telenet acting individually within the boundaries of daily management and for specific special powers that were granted to him by the board of directors. In addition, the board of directors has granted specific powers to certain individuals within the Telenet Group. The latest delegation of powers has been published in the Annexes of the Belgian Official Journal on September 20, 2017.

Mr. Veenod Kurup, Chief Information Officer of Telenet and member of the Senior Leadership Team, took up the role of Chief Information Officer within the Liberty Organization as of 1 April 2016. Ms. Sam Lloyd replaced Mr. Kurup as Chief Information Officer of Telenet and member of the Senior Leadership Team as of 1 March 2016.

Telenet's Senior Leadership Team consists of the following individuals (including year of birth):

Name	Year of birth	Position
John Porter	1957	Chief Executive Officer and Managing Director
Birgit Conix.....	1965	Chief Financial Officer
Luc Machtelinckx.....	1962	Executive Vice President and General Counsel
Benedikte Paulissen.....	1969	Chief Customer Officer
Micha Berger.....	1970	Chief Technology Officer
Sam Lloyd	1974	Chief Information Officer
Patrick Vincent.....	1963	Chief Transformation Officer
Jeroen Bronselaer.....	1978	Senior Vice President—Residential Marketing
Martine Tempels	1961	Senior Vice President—Telenet Business
Ann Caluwaerts.....	1966	Senior Vice President—Corporate Affairs & Communication
Claudia Poels.....	1967	Senior Vice President—Human Resources
Dieter Nieuwdorp.....	1975	Senior Vice President—Strategy & Corporate Development

John Porter, Chief Executive Officer and Managing Director

John Porter is the Chief Executive Officer of Telenet Group Holding NV a Belgian public limited liability company. In this capacity, he is responsible for the day-to-day operations of Telenet, spanning over 2 million customers and accounting for EUR 2 billion of annualized revenue. Telenet's track record of substantial innovation around the customer relationship has delivered some of the lowest churn and highest net promoter scores in the industry. Prior to joining Telenet in 2013, Mr. Porter served as the Chief Executive Officer of AUSTAR United Communications Ltd., at the time a Liberty Global subsidiary and an Australian public company that was a leading provider of subscription television and related products in regional Australia. He held this position until AUSTAR was acquired by Foxtel, a joint venture between News Corporation and Telstra, in May 2012. Mr. Porter led the growth of AUSTAR since inception, becoming its CEO at the time of its 1999 initial

public offering. Previously, he served as the Chief Operating Officer for the Asia/Pacific region for a predecessor company of Liberty Global. From 1989 to 1994, Mr. Porter was President, Ohio Division, of Time Warner Communications. He started his career at Group W Broadcasting and Cable, as Director Government Relations before becoming General Manager of Westinghouse Cable Systems in Texas and Alabama. Mr. Porter serves as the Chairman and a non-executive director on the board of the publicly listed company Enero, a diversified marketing services company. Mr Porter has a Bachelor of Arts from Kenyon College.

Birgit Conix, Chief Financial Officer

Birgit Conix joined Telenet as Chief Financial Officer in October 2013. Ms. Conix has over 20 years of experience in finance across multiple industries, including fast moving consumer goods, medical devices and pharmaceuticals. Prior to joining Telenet, Ms. Conix was Regional Head of Finance for Heineken's Western European organization and a member of Heineken's Western European Management team and Global Finance Leadership team. Prior to joining Heineken in 2011, Ms. Conix held different top-level international positions at Johnson & Johnson in finance, strategy and business operations. Prior to Johnson & Johnson, she worked at Tenneco and Reed-Elsevier. Ms. Conix holds a Master of Science in Business Economics from Tilburg University in the Netherlands and an MBA from the University of Chicago Booth School of Business, USA.

Luc Machtelinckx, Executive Vice President and General Counsel

Luc Machtelinckx joined Telenet as Director Legal Affairs in February 1999. In this function, he was closely involved in the initial commercial steps, as well as the further development of Telenet's telephony and internet offerings. After the acquisition of the cable assets of the mixed intermunicipalities, Mr. Machtelinckx specialized in cable television legal affairs and more specifically, he played an important role in the iDTV project. In January 2007, Mr. Machtelinckx was appointed Vice President and General Counsel and as of January 2008 Senior Vice President and General Counsel. Since April 2009, Mr. Machtelinckx was appointed Executive Vice President and General Counsel. Prior to joining Telenet, Mr. Machtelinckx worked for 11 years at Esso Benelux in various legal and HR functions as well as for three 3 years at BASF Antwerp as Legal Manager and as Communication Manager.

Benedikte Paulissen, Chief Customer Officer

Benedikte Paulissen studied Applied Economics at the Catholic University of Leuven and obtained a post-graduate degree in European law at the UCL. She also worked for Flanders Technology International, a non-profit organization established by the Flemish government to promote technology, innovation and science. In 1998 she switched to Telenet and worked at the communication department and the marketing division to promote Telenet to the general public. In 2004, she was made responsible for all direct sales channels, including telesales and sales via indirect sales channels, including own shops, dealers and Telenet Centres. From 2011 she was also responsible for all customer service activities.

Micha Berger, Chief Technology Officer

Micha Berger joined the Telenet Group in July 2013 and he heads the activities of the Engineering Department and the Service Assurance Group as Chief Technology Officer. As of July 1, 2013, he also joined Telenet's Senior Leadership Team, reporting directly to Telenet's CEO. Mr. Berger has worked for Liberty Global since 2006, initially as Manager of the Engineering Department at UPC Nederland. As Vice President at Liberty Global since 2010, he has been responsible for the development and product roll-out of Horizon Next Generation digital TV. Mr. Berger gained his first experience in the cable industry at HOT Israel, where he was responsible for the development of the interactive digital service platform and the roll-out of video-on-demand.

Sam Lloyd, Chief Information Officer

Sam Lloyd joined Telenet in February 2016 to run the IT function for the combined Telenet and Base group. This division is responsible for running all of the IT systems across Telenet and the newly acquired Base company covering all software and hardware—including websites / Portals, Sales, CRM, Billing, OSS, middleware, BI, Big data and Enterprise / ERP. Responsibilities include all operational support and run & maintain activities, systems security, all software development, and testing of all new releases and technology. Prior to joining Telenet, Sam held the position of Director Development & Delivery at Virgin Media in the UK where she ran a team of circa 700 FTE and was accountable for all IT applications support, development and project delivery. Sam has more than 20 years' experience in the IT sector running and developing IT environments across the Utilities and Telecoms industries. In 2015 she was nominated for Woman of the Year Technology in the Worldwide 12th

Annual Stevie Awards for Women in Business held in New York, USA and achieved Silver. Sam has a degree in Business and during her career has undertaken numerous management, people leadership and negotiation training courses.

Patrick Vincent, Chief Transformation Officer

Patrick Vincent joined Telenet in September 2004 as Customer Service & Delivery Director. In 2007 he became EVP Sales & Customer operations. In 2013, Chief Customer Officer. He is currently Chief Transformation Officer in charge of the integration of the Base Company including guidance for new operating models. Mr. Vincent started his career in 1989 in the food industry as Business Unit Manager of the cash and carry division at NV Huyghebaert. From 1994 to 1998, he was responsible for the sales division and in 1998 was promoted to Commercial Director. From 2000 to 2004, he worked at Tech Data, an IT distribution & service company, as Sales Director for Belgium and Luxembourg, and in 2002 was promoted to the role of Country Manager for Belgium and Luxembourg.

Jeroen Bronselaer, Senior Vice President—Residential Marketing

Jeroen Bronselaer joined the Telenet Group in September 2010 and was first responsible for the negotiations and relations with broadcasters and content suppliers. Later he took on broader roles managing Telenet's premium sport and movie channels and was named Vice President Product Entertainment, responsible for the entire entertainment product portfolio of Telenet. In September 2015, Jeroen joined the Senior Leadership Team as Senior Vice President Residential Marketing. Prior to joining the Telenet Group, Jeroen Bronselaer worked at the Flemish public broadcaster VRT, where he started out as a TV producer but quickly evolved into more business driven roles within the Media department of VRT. Jeroen Bronselaer holds a Master degree as Commercial Engineer and Post-graduate degree in Communication from the KU Leuven.

Martine Tempels, Senior Vice President—Telenet Business

Martine Tempels joined the Telenet Group in January 2009. She is responsible for the Telenet Group's B2B division and joined the Senior Leadership Team in October 2010. Mrs. Tempels started her career as Account Manager at NCR. In 1996, Mrs. Tempels moved to EDS to become Account Manager and subsequently assumed additional responsibilities as Business Unit Manager for the financial and commercial sector. In 2007, Mrs. Tempels was appointed Application Service Executive for the Northern and Central Region EMEA. Mrs. Tempels holds a Master's degree in Business and Economics from Vrije Universiteit Brussel.

Ann Caluwaerts, Senior Vice President—Corporate Affairs & Communication

Ann Caluwaerts, Senior Vice President Corporate Affairs and Wholesale, has got more than 20 years of experience in the international telecom and local media industry. Before she began working at Telenet, Ann gained experience at BT and Lernout & Hauspie Speech Products. Her expertise is mainly focused on strategic communications, regulatory affairs, strategy development, change management, marketing and wholesale. Ann graduated as civil engineer and followed different courses at (a.o.) Insead and the London Business School. She regularly speaks at conferences and academic organizations.

Claudia Poels, Senior Vice President—Human Resources

Claudia Poels joined the Telenet Group in May 2008 as Vice President Human Resources. Since June 15, 2009, she joined the Senior Leadership Team as Senior Vice President Human Resources. Prior to joining the Telenet Group, Mrs. Poels worked since 1992 at EDS, where she gained extensive experience working within various human resources disciplines. In 2002, Mrs. Poels was promoted to HR Director of the Belgian and Luxembourg entity, and in 2006 she became the HR Operations Director for Northern Europe.

Dieter Nieuwdorp, Senior Vice President—Strategy & Corporate Development

As of May 1, 2014, Dieter Nieuwdorp joined the SLT as Senior Vice President Strategy & Corporate Development. Besides the development of the general strategy of the company and the structuring of M&A transactions and other partnerships, his function also includes the Project Portfolio Management Office and—since 2016—the New Business Department. Mr. Nieuwdorp joined Telenet in 2007 as Corporate Counsel and Corporate Secretary and became VP Corporate Counsel & Insurance in 2010. He started his career as a lawyer with Loeff Claeys Verbeke

(later Allen & Overy) in 1998. Mr. Nieuwdorp holds a Master of Law degree from KULeuven and a LL.M from the University of Pennsylvania Law School.

PRINCIPAL SHAREHOLDERS OF TELENET

The following chart identifies the principal and other holders of Telenet Group Holding's shares, as of October 27, 2017.

Name of shareholder	Number of Shares	Percentage of Shares ⁽¹⁾
Liberty Global Consortium ⁽¹⁾	66,342,037	56.54%
Blackrock, Inc	5,869,825	5.00%
Threadneedle Asset Management Limited	3,566,268	3.04%
Registered shares held by employees	374,926	0.32%
Own shares	2,252,026	1.92%
Public ⁽²⁾	38,930,541	33.18%
Total	<u>117,335,623</u>	<u>100.0%</u>

(1) The Liberty Global Consortium last notified Telenet Group Holding of its interest in the shares of Telenet Group Holding on August 18, 2017. All shares of Telenet Group Holding held by Liberty Global Consortium are currently held by Binan Investments B.V. This number includes 94,827 Liquidation Dispreference Shares. "Liquidation Dispreference Shares" are shares owned by Interkabel and the Liberty Global Consortium and which are subject to a liquidation dispreferential treatment in the case of a liquidation of Telenet Group Holding, and which can be converted into ordinary shares on the basis of a 1.04-for-1 ratio. The Liquidation Dispreference Shares are otherwise identical to and participate in the capital in the same manner as the ordinary shares, and are included in the 117,335,623 aggregate number of outstanding shares of Telenet Group Holding.

(2) This number includes 30 Golden Shares and 16 Liquidation Dispreference Shares. "Golden Shares" are shares held by each of the MICs offering them certain additional governance rights in order to supervise certain Telenet guarantees given to the MICs on provision of services, the Public Interest Guarantees; "Liquidation Dispreference Shares" are shares owned by Interkabel and the Liberty Global Consortium and which are subject to a liquidation dispreferential treatment in the case of a liquidation of Telenet Group Holding, and which can be converted into ordinary shares on the basis of a 1.04-for-1 ratio. The Golden Shares and Liquidation Dispreference Shares are otherwise identical to and participate in the capital in the same manner as the ordinary shares, and are included in the 117,335,623 aggregate number of outstanding shares of Telenet Group Holding.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS OF TELENET

Conflicts of Interest

Except as disclosed in these Listing Particulars, there are no potential conflicts of interest between any duties of the members of the administrative, management or supervisory bodies of Telenet Group Holding towards Telenet Group Holding and their private interests and/or other duties.

DESCRIPTION OF THE SENIOR CREDIT FACILITY AND THE RELATED AGREEMENTS

The following contains a summary of the material provisions of the Senior Credit Facility, the Finco Accession Agreement (together the Senior Credit Facility) and the Related Agreements. It does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the underlying documents. Some of the terms used herein are defined in these agreements, and the Issuer has not included all of such definitions herein.

Senior Credit Facility

Overview

On August 1, 2007, Telenet BVBA, BNP Paribas (subsequently replaced by Toronto Dominion (Texas) LLC and thereafter replaced by The Bank of Nova Scotia), as facility agent, KBC Bank NV, as security agent, the other financial institutions thereto and certain others entered into an agreement of up to €2,300,000,000 credit facilities (as amended, amended and restated or otherwise modified from time to time and most recently as amended and restated on 10 August 2017 with Telenet BVBA as the Original Borrower, the “**Senior Credit Facility**”). A copy of the Senior Credit Facility is set forth as Annex A to these Listing Particulars.

Pursuant to the Senior Credit Facility, The Bank of Nova Scotia as facility agent, and a number of banks and financial institutions, have agreed to make available to the Borrowers (as defined below) certain additional facilities, from time to time, by procuring additional lenders to accede to the Senior Credit Facility and to make available term and revolving loans, ancillary facilities and documentary credits by way of additional facilities.

Each of the 2017 Finco Accession Agreements and the New Finco Accession Agreements contain the advance consent of the Issuer, as a Telenet Lender, to certain significant amendments to the Senior Credit Facility that Telenet may request in the future. For a list of the amendments that the Issuer gives advance consent to at the time it enters the 2017 Finco Accession Agreements and the New Finco Accession Agreements, see schedules 4, 5, 6, 7, 8, 9 and 10 of Annexes B and C and schedules 4, 5, 6, 7, 8, 9 and 10 of Schedule 11 of Annexes B and C, respectively, in these Listing Particulars.

The Senior Credit Facility

Telenet BVBA, Telenet International Finance, Telenet Financing USD and Telenet Group BVBA are borrowers under the Senior Credit Facility (the “**Borrowers**”) and Telenet BVBA, Telenet International Finance, Telenet Financing USD and Telenet Group BVBA are guarantors under the Senior Credit Facility (the “**Guarantors**”).

The table below shows the term loan structure as of September 30, 2017, and does not give effect to the Q4-2017 Refinancing Transactions. See “Description of the Senior Credit Facility and the Related Agreements—Changes during 2016” and “Description of the Senior Credit Facility and the Related Agents—Changes during 2017”:

Facility	Principal	Maturity	Interest %
Borrower: Telenet International Finance	in millions		
Term Loan AB ⁽¹⁾	€530.0	July 2027	4.875% ⁽¹⁾
Term Loan AH	€1,330.0	March 2026	3.000%
Term Loan V ⁽¹⁾	€250.0	August 2024	6.750%
Revolving Credit Facility AG (undrawn) ⁽²⁾	€400.0	June 2023	2.750%
Revolving Credit Facility Z ⁽³⁾	€45.0	June 2018	2.250%
Borrower: Telenet Financing USD			
Term Loan AI	\$1,800.0	June 2025	2.750%
Term Loan AI2	\$500.0	June 2025	2.750%
Total € Facility	€2,555.0	8.0 years⁽³⁾	3.71%⁽⁴⁾
Total \$ Facility	\$2,300.0	7.8 years⁽⁴⁾	3.98%⁽⁵⁾

(1) The Term Loan AB and Term Loan V interest rates are, in each case, a fixed rate.

(2) The revolving credit facility AG can be drawn by Telenet International Finance.

(3) In the fourth quarter of 2017, revolving credit facility Z was repaid in full and cancelled.

- (4) Represents a weighted average that excludes Telenet's revolving credit facility AG, which is fully undrawn at present, as well as Telenet's revolving credit facility Z, which was repaid in full and cancelled during the fourth quarter of 2017, calculated on the basis of three-month EURIBOR of 0% (due to the 0% floor) as of September 30, 2017.
- (5) As above but in respect of three-month LIBOR of 1.234% as of September 30, 2017.

Interest Rates

Under the Senior Credit Facility, the rate of interest for each interest period in respect of each facility (except for Term Loan V and Term Loan AB which have a fixed rate) is the percentage rate per annum equal to the aggregate of an agreed margin and, in relation to any loan drawn in euro, EURIBOR, or, in relation to any loan drawn in U.S. dollars, LIBOR). Interest accrues daily from and including the first day of an interest period and is payable on the last day of the applicable interest period or if such interest period is longer than six months, at six monthly intervals from the first day of that interest period, and is calculated on the basis of a 360-day year.

Guarantees and Security

The Guarantors guarantee the obligations of the Obligors under the Senior Credit Facility (subject to certain specified guarantee limitations, including, but not limited to, the exclusion of liability to the extent that such guarantee would constitute unlawful financial assistance under applicable law). In addition, the Senior Credit Facility requires that additional members of the Group, as defined below, become guarantors under the Senior Credit Facility, where necessary in order to ensure that the aggregate EBITDA, of all borrowers and guarantors under the Senior Credit Facility (Obligors) (on an unconsolidated basis and excluding intra- group items) equal or exceed, respectively, 80% of the consolidated EBITDA (excluding for the purposes of this calculation, any EBITDA attributable to any Joint Venture (as defined in the Senior Credit Facility)) of the Group (excluding EBITDA attributable to any Joint Venture).

Security has been granted in respect of the indebtedness under the Senior Credit Facility by Telenet BVBA, Telenet Financing USD, Telenet International Finance, Telenet Group Holding NV, Telenet Vlaanderen NV and Telenet Group BVBA (the “**Existing Security Providers**”) over substantially all their assets. Such security includes:

- (a) share pledges given in respect of all the shares of Telenet BVBA, Telenet Group BVBA, Telenet International Finance and Telenet Vlaanderen NV;
- (b) non-joined (non-cumulative) mortgages granted by Telenet BVBA and Telenet Vlaanderen NV;
- (c) non-exercised mortgage mandates granted by Telenet BVBA and Telenet Vlaanderen NV;
- (d) non-joined (non-cumulative) floating charges (*pand op handelszaak/gage sur fonds de commerce*) granted by Telenet BVBA and Telenet Vlaanderen NV; a portion of floating charges have been granted in a non-joined manner (non-cumulative) with certain mortgages;
- (e) non-exercised floating charge mandates granted by Telenet BVBA and Telenet Group BVBA;
- (f) pledges on bank accounts and of all present and future receivables granted by Telenet BVBA, Telenet Group BVBA, Telenet Group Holding NV and Telenet Vlaanderen NV; and
- (g) pledges on bank accounts and of certain present and future intercompany receivables granted by the Initial Telenet Borrowers.

The non-joined (non-cumulative) floating charges (*pand op handelszaak/gage sur fonds de commerce*) consist of floating charges of (i) €1.25 billion granted by Telenet BVBA (formerly called Telenet NV) in March 2001 (€10 million), March 2002 (€375 million) and August 2002 (€865 million), (ii) €135 million granted by Telenet BVBA in May 2006, (iii) €250 million granted by Telenet BVBA (formerly called Telenet BidCo NV) in August 2002, (iv) €865 million granted by the former MixtICS NV (succeeded by Telenet BVBA) in August 2002, (v) €865 million granted by Telenet Vlaanderen NV in August 2002, (vi) €75 million granted by the former PayTVCo NV (succeeded by Telenet BVBA) in February 2004 and (vii) €75 million granted by the former Telenet Solutions NV in February 2004 (succeeded by Telenet BVBA). A portion of these floating charges have been granted in a non-joined manner (non-cumulative) with certain mortgages.

Prepayment

The Senior Credit Facility contains detailed provisions in relation to voluntary and mandatory prepayment. Such prepayments are subject to certain conditions and exceptions, and the Senior Credit Facility also contains detailed provisions regarding the order in which such prepayment proceeds are applied.

In addition to scheduled repayments of principal and interest, the Senior Credit Facility must be prepaid (each tranche in such proportion as described in the Senior Credit Facility) on the occurrence of any of the following events: (i) subject to certain exceptions which are more fully set out in the Senior Credit Facility, a change of control of Telenet Group Holding NV (being the Common Holding Company) followed by a request for repayment from the Facility Agent to, acting on the instructions of the Majority Lenders by not less than 30 Business Days' notice; (ii) if it becomes illegal for a Lender to perform any of its obligations relating to the Senior Credit Facility (in which case, that Lender must be prepaid); or (iii) with the net proceeds of a Permitted Disposal as defined therein (and subject to certain conditions). Any mandatory prepayment is to be applied firstly against the term loans, secondly against the revolving credit facilities (in the order of revolving of revolving loans followed by documentary credit outstandings and thirdly against repayment of any ancillary facility outstandings, in each case in such proportions as the relevant Borrower stipulates or, if the relevant Borrower fails to stipulate, *pro rata*.

Further, the indebtedness under the Senior Credit Facility may be voluntarily prepaid in whole or in part, on giving at least three business days' prior written notice (or such other period as may be agreed between Telenet BVBA and the Facility Agent), in a minimum amount of €5,000,000 and in integral multiples of €1,000,000, without premium or penalty but subject to break funding costs.

Undertakings

The Senior Credit Facility contains certain undertakings that, subject to certain customary and other agreed exceptions, limit the ability of each Obligor and, in certain cases, each Group member, to, amongst other things:

- incur, create or otherwise permit to be outstanding, any Financial Indebtedness;
- reduce its capital or purchase or redeem any class of its shares or any other ownership interest in it;
- create or permit to subsist any Security Interest on or over the whole or any part of its present or future assets, rights or revenues to secure or prefer any present or future Financial Indebtedness of any member of the Group or any other person;
- dispose of all or any part of its assets;
- make acquisitions or merge or consolidate with another company or person;
- grant or make any loans, any credit or any guarantees or enter into any transaction having the effect of lending money to any person;
- amend its constitutional documents in a manner that would or would be reasonably likely to materially adversely affect any charge or pledge granted over the shares or partnership interest of any member of the Group in connection with the Senior Credit Facility;
- declare, make or pay any dividend on or make any distribution or pay any other amounts in respect of, or redeem its share capital, capital stock or other securities to any affiliate of the borrower, other than to a member of the Group;
- make any payment of principal or interest on any loans, or any direct or indirect distribution dividend or other payment on account of any class of share capital to any Affiliate (as defined therein) of Telenet which is not a member of the Group;
- enter into any interest rate or currency swaps or other hedging arrangements other than as permitted under the Senior Credit Facility;

- issue any shares of any class to any person unless those shares are subject to security in favor of the Lenders; or
- liquidate on a solvent basis.

In addition, the Senior Credit Facility also requires each Obligor to observe certain affirmative undertakings subject to materiality and other customary and agreed exceptions.

Principal Terms and Tranches

1. **Borrowers** The Borrowers together with any member of the Group which becomes an “Additional Borrower”.
2. **Guarantors** The Guarantors. Additionally, Telenet BVBA shall procure that the aggregate earnings before interest, tax, depreciation and amortization of the Borrowers and Guarantors (the “**Obligors**”) (on an unconsolidated basis and excluding intra-group items) equal or exceed, respectively 80% of the consolidated EBITDA (excluding for the purposes of this calculation, any EBITDA attributable to any Joint Venture (as defined in the Senior Credit Facility)) of Telenet (excluding intra-group items) at the end of each financial year and tested by reference to annual financial information.
3. **Group** Group means Telenet BVBA and its Subsidiaries and any Permitted Affiliate Parent (currently Telenet Group BVBA) and its subsidiaries from time to time excluding “Group Excluded Subsidiaries”, provided that at any time after a Group Redesignation Notice has been delivered to the Facility Agent, the Group shall also include each New Group Topco and its Subsidiaries, other than Group Excluded Subsidiaries.
4. **Facility Agent** The Bank of Nova Scotia.
5. **Security Agent** KBC Bank NV.
6. **Majority Lenders** Lenders whose share in the outstanding Utilisations and whose undrawn commitments then aggregate 66 2/3% (two thirds) or more of the aggregate of all the outstanding Utilisations and the undrawn commitments of all the Lenders.
7. **Material Adverse Effect** Any event or circumstance, which has a material adverse effect on the ability of the Obligors (as a whole) to perform their payment under any of the Finance Documents (as defined therein) (a “**MAE**”).
8. **Additional Facilities** There have been a number of “Telenet Additional Facilities” provided under the Senior Credit Facility previously and there are currently 5 Telenet Additional Facilities outstanding. For further details, please refer to “—*Overview*” above.

Any person may become a Lender under the Senior Credit Facility by delivering to the Facility Agent a Telenet Additional Facility Accession Agreement (a “**Telenet Additional Facility Accession Agreement**”), which must be duly executed by that person, the Facility Agent and the Security Agent. That Lender will grant to the relevant Borrower a term loan or revolving loan facility (which may include any Ancillary Facility or Documentary Credit) (the “**Additional Facility**”) in the amount specified in the Telenet Additional Facility Accession Agreement in euros or U.S. dollars. Upon the relevant person becoming a Lender, the total commitments under the Senior Credit Facility shall be increased by the amount in the Telenet Additional Facility Accession Agreement. The aggregate principal amount of the proposed Additional Facility shall not exceed the aggregate of the sum of:

- (i) an unlimited amount, provided that (A) the Net Senior Debt to Consolidated Annualised EBITDA is equal to or less than 4.50:1 and (B) the Net Total Debt to Consolidated Annualised EBITDA is equal to or less than 5.50:1 (excluding any Holdco Debt) and 6.00:1 (including any Holdco Debt);
- (ii) if the proceeds of the Additional Facility are being used to refinance existing indebtedness that ranks *pari passu* or senior, an amount equal to the accrued interest, premiums and other amounts owing or paid relating to such existing indebtedness together with related fees and expenses; and
- (iii) any amount of Financial Indebtedness that does not exceed the greater of €200,000,000 and 5.00% of Total Assets at any time outstanding,

provided, that (x) any Additional Facility may be incurred under any of the above paragraphs as selected by Telenet BVBA, in its sole discretion, (y) Telenet BVBA may elect to incur Additional Facilities under paragraph (i) prior to using amounts available under paragraph (iii) and (z) amounts incurred pursuant to paragraph (iii) substantially concurrently with amounts incurred pursuant to paragraph (i) will not count as Financial Indebtedness for the purposes of calculating Net Senior Debt and Net Total Debt (the “**Additional Facilities Cap**”).

There shall be no limit on the aggregate principal amount of any proposed Telenet Additional Facility (a “**Refinancing Additional Facility**”) established in exchange for, or to extend, renew, replace, repurchase, retire or refinance, in whole, or in part, existing Advances or Commitments (the “**Refinanced Debt**”), provided that if the obligations under the Refinancing Additional Facility do not rank equal to or junior to such existing Advances or Commitments, the principal amount of the Refinancing Additional Facility shall not exceed the Additional Facilities Cap. A Refinancing Additional Facility may only be established if:

- (i) it provides for Additional Facility Commitments which are in an aggregate principal amount that is not less than €1,000,000 in the case of any Revolving Facility and €15,000,000 in the case of any Term Facility provided that such amount may be less than €1,000,000 and €15,000,000, respectively, if such amount is equal to the entire outstanding principal amount of the Refinanced Debt;
- (ii) in the case of Refinancing Additional Facilities which are not Revolving Facilities (a) it does not have a final maturity date earlier than the applicable maturity date of the Refinanced debt, (b) it does not have a Weighted Average Life to Maturity shorter than the Weighted Average Life to Maturity of the Refinanced debt, (c) if it ranks junior in right of security, it participates on a junior basis with respect to voluntary prepayments or cancellations and mandatory prepayments of term loans, (d) it does not have a greater principal amount than the principal amount of the Refinanced Debt plus accrued interest, fees, premiums (if any) and penalties thereon and reasonable fees, expenses, OID and upfront fees associated with the refinancing the Refinanced Debt, (e) it ranks *pari passu* or junior in right of payment with any Telenet Additional Facility Commitments which are senior in right of payment and shall rank *pari passu* or junior in right of Security with the Telenet Additional Facility Commitments which are secured on a first ranking basis in accordance with the terms of the Intercreditor Agreement or other intercreditor agreement or arrangement reasonably satisfactory to

the Borrower and the Facility Agent, and (f) it is subject to the Intercreditor Agreement;

- (iii) in the case of Refinancing Additional Facilities which are Revolving Facilities (a) it ranks *pari passu* or junior in right of payment with the Telenet Additional Facility Commitments that are senior in right of payment and shall rank *pari passu* in right of Security with the Telenet Additional Facility Commitments which are secured on a first ranking basis, (b) it does not have a final maturity date or commitment reduction date earlier than the final maturity date or commitment reduction date in respect of the Refinanced Debt, (c) borrowing and repayment (other than the exceptions listed therein) shall be made on a pro rata basis or less than a pro rata basis (but not more than a pro rata basis) with all other Revolving Facilities then existing, (d) it provides that assignments and participations of Refinancing Additional Facilities that are Revolving Facilities shall be governed by the same assignment and participation provisions applicable to the Revolving Facilities then existing, (e) it does not have a greater principal amount of Additional Facility Commitments than the principal amount of the Refinanced Debt and accrued interest, fees, premiums (if any) and penalties thereon and reasonable fees, expenses, OID and upfront fees associated with the refinancing of the Refinanced Debt, and (f) it shall be subject to the Intercreditor Agreement.

9. Purpose

Facilities AB, AH, AI and AI2 were used to repay certain tranches under the Senior Credit Facility and for general corporate purposes. Revolving Credit Facility Z was issued for the financing of the acquisition of BASE Company NV (currently Telenet Group BVBA) and its Subsidiaries and for general corporate purposes and/or working capital purposes and Revolving Credit Facility AG was issued for general corporate purposes and/or working capital purposes of the Group. The Revolving Credit Facility AG remains undrawn. Revolving Credit Facility Z was repaid in full and cancelled during the fourth quarter of 2017.

10. Final Maturity Date

The Final Maturity Date for each Facility is as follows:

Term Loan AB — July 15, 2027

Term Loan V—August 15, 2024

Term Loan AH — March 31, 2026

Term Loan AI — June 30, 2025

Term Loan AI2 — June 30, 2025

Revolving Credit Facility AG — June 30, 2023

Revolving Credit Facility Z — June 30, 2018

Revolving Credit Facility Z was repaid in full and cancelled during the fourth quarter of 2017. As of the date of the Offering Memorandum, all other tranches have been repaid.

11. Interest

Except for Term Loan V and Term Loan AB, under the Senior Credit Facility the rate of interest for each advance (for an interest period (i) for any revolving facility between 1 day to 30 days or 1, 2, 3 or 6 months or such other period of up to 12 months or agreed by the Majority Lenders in respect of that facility and (ii) for a term facility 1, 2, 3 or 6 months or such longer

period of up to 12 months as the Majority Lenders under that facility may agree) is expressed to be the rate per annum determined by the Facility Agent to be the aggregate of:

- (a) the applicable margin; and
- (b) LIBOR in the case of an advance denominated in U.S. dollars or other currency or EURIBOR in the case of an advance denominated in euros;

The margin for each Facility is as follows:

Term Loan AH — 3.000%

Term Loan AI — 2.750%

Term Loan AI2 — 2.750%

Revolving Credit Facility AG — 2.750%

Revolving Credit Facility Z — 2.250%

Revolving Credit Facility Z was repaid in full and cancelled during the fourth quarter of 2017.

The interest rate in relation to Term Loan V and Term Loan AB is a fixed rate of 6.25%, 6.75% and 4.875%, respectively.

Interest is payable on the last day of each interest period. Default interest for unpaid amounts shall be 1% above the standard margin level.

12. EURIBOR/LIBOR

In relation to Term Loan AH, Term Loan AI, Term Loan AI2, Revolving Credit Facility AG and Revolving Credit Facility Z, the respective EURIBOR/LIBOR floor shall be zero. Revolving Credit Facility Z was repaid in full and cancelled during the fourth quarter of 2017.

Term Loan V and Term Loan AB are fixed rate facilities so no EURIBOR/LIBOR floor is relevant.

13. Repayment

The repayment profile of each Facility is as follows:

Term Loan AB—in full on July 15, 2027

Term Loan AH—in full on March 31, 2026

Term Loan AI—in full on June 30, 2025

Term Loan AI2—in full on June 30, 2025

Revolving Credit Facility AG—in full June 30, 2023

Revolving Credit Facility Z—in full on June 30, 2018

Revolving Credit Facility Z was repaid in full and cancelled during the fourth quarter of 2017. As of the date of the Offering Memorandum, all other tranches have been repaid.

14. Mandatory Prepayment

Mandatory prepayment and cancellation of a Loan is required in the circumstances set out in greater detail in the Senior Credit Facility, including in the circumstances described below:

- (a) upon notice from a Lender that it is unlawful in any applicable jurisdiction for that Lender to perform any of its obligations under a Finance Document or to fund or maintain its share in any Loan or Utilisation under an ancillary facility. Each Borrower must prepay the share of that Lender in each Loan or Utilisation under an ancillary facility made to it on the last day of the current term of that Loan or Utilisation or an earlier date if specified by the Lender;
- (b) if so instructed by the Majority Lenders, the Facility Agent shall cancel all commitments and make all outstanding Loans due and payable if (i) the Controlling Company: (A) ceases to be the beneficial owner, directly or indirectly, of more than 50% of the total voting power of the voting stock of the Telenet BVBA or, after a Permitted Affiliate Group Designation Date, a Permitted Affiliate Parent; and (B) ceases, by virtue of any powers conferred by the articles of association or other documents regulating Telenet BVBA or, after a Permitted Affiliate Group Designation Date, a Permitted Affiliate Parent, as applicable, to, directly or indirectly, direct or cause the direction of management and policies of Telenet BVBA or, after a Permitted Affiliate Group Designation Date, a Permitted Affiliate Parent, as applicable (subject to certain carve outs for certain forms of permitted reorganization and spin-offs); (ii) the disposition of all or substantially all of the assets Telenet BVBA a Permitted Affiliate Parent (after any Permitted Affiliate Group Designation Date) and the Restricted Subsidiaries (taken as a whole) other than where the transfer is to certain “Permitted Holders” (other than as a result of the transfer of receivables to any Asset Securitisation Subsidiary); or (iii) at any time after a Permitted Affiliate Group Designation Date, any Permitted Affiliate Holdco ceases to be the beneficial owner directly or indirectly of 100% of the total voting power of the voting stock of any Permitted Affiliate Parent.

No Change of Control shall arise as a result of the events listed at (b)(i) to (b)(iii) above upon the liquidation on a solvent basis of a Permitted Affiliate Holdco provided that:

- (1) 100% of the shares in the relevant Permitted Affiliate Parent continue to be pledged in favour of the Finance Parties on a first ranking basis without any material adverse effect to the Finance Parties;
- (2) the successor Permitted Affiliate Holdco is not organized in a jurisdiction which would result in a materially adverse effect on the ability of the Finance Parties to enforce the share pledge over the shares in the relevant Permitted Affiliate Parent; and
- (3) the successor Permitted Affiliate Holdco is the sole shareholder of the relevant Permitted Affiliate Parent provided that to the extent a Permitted Affiliate Parent is a Belgian limited liability company it may have a second shareholder organized in a jurisdiction that does not result in a materially adverse effect on the ability of the Finance

Parties to enforce their security over all of the shares in the Permitted Affiliate Parent.

No Change of Control shall arise as a result of the events listed at (b)(i) to (b)(iii) above as a result of any sale, lease, transfer or other disposition of 100% of the shares in a Permitted Affiliate Parent provided that such sale, lease, transfer, conveyance or other disposition falls within one or more of the paragraphs of the definition of Permitted Disposal.

- (c) upon the receipt of proceeds from certain Permitted Disposals, Telenet shall prepay an amount of the facilities which is the lesser of (i) the amount of the Net Proceeds of such disposal; and (ii) an amount so as to ensure that if the Net Total Debt to Consolidated Annualised EBITDA would not be greater than the maintenance covenant ratio pro forma for such disposal,

no prepayment is required where:

- (i) the amount of such prepayment would be less than the greater of €200,000,000 and 5% of Total Assets; or
- (ii) it relates to the first €200,000,000 (or if greater an amount equal to 5% of Total Assets) of each Content Transaction;
- (iii) the amount that would be required to be prepaid is instead reinvested in assets (including acquisitions, permitted capital expenditure, operational expenditure and permitted joint ventures). Any amount not reinvested within 12 months (or contracted to be reinvested within 12 months and reinvested within 18 months) (the "Reinvestment End Date") will be applied in prepayment of the facilities; or
- (iv) provided that there shall be no requirement to make a prepayment if the financial ratio was not required to be tested for the most recent Measurement Period ending prior to the receipt of such disposal proceeds.

Any prepayment of the Additional Facilities from disposal proceeds will be applied first against the term loan facilities in such proportion as may be specified by Telenet, and second against any revolving facilities in such proportion as may be specified by Telenet BVBA or, if Telenet BVBA fails to specify a proportion, pro rata against the term loan facilities.

15. Voluntary Prepayment

Voluntary prepayment of any loan by Telenet BVBA is permitted at any time on not less than three business days' prior notice, or such other period as may be agreed between Telenet BVBA and the Facility Agent (such notice to be irrevocable) and in a minimum amount of €5,000,000 and an integral multiple of €1,000,000.

16. Cancellation

Any unutilized amount of the total commitments may be cancelled by Telenet BVBA, in whole or in part, at any time on not less than three business days' prior notice, or such other period as may be agreed between Telenet BVBA and the Facility Agent (such notice to be irrevocable).

Partial cancellation must be in a minimum amount of €5,000,000 and an integral multiple of €1,000,000. No premium or penalty shall apply in respect of any repayment save for break costs and amounts cancelled may not be reinstated.

The undrawn amount of any commitment under any facility shall be automatically cancelled at the close of business on the last day of the availability period of that facility.

If any sum payable to any Lender or Ancillary Facility Lender or L/C Bank by an Obligor is required to be increased under the tax gross up provisions in the Senior Credit Facility, any Lender or Ancillary Facility Lender or L/C Bank claims indemnification from Telenet or a Borrower under the tax indemnity provisions in the Senior Credit Facility or any Lender or Ancillary Facility Lender or L/C Bank invokes the market disruption provisions of the Senior Credit Facility or seeks mandatory prepayment as a result of any illegality, where such circumstances relate to a Lender, Telenet BVBA may arrange for the transfer and assignment of the whole (at par only) of that Lender's Commitment in the Utilisations to a new or existing Lender willing to accept that transfer or assignment.

17. Security

Security has been granted by the Existing Security Providers over substantially all their assets and includes:

- (a) share pledges given in respect of all the shares of Telenet BVBA, Telenet Group BVBA, Telenet International Finance and Telenet Vlaanderen NV;
- (b) non-joined (non-cumulative) mortgages granted by Telenet BVBA and Telenet Vlaanderen NV;
- (c) non-exercised mortgage mandates granted by the Telenet BVBA and Telenet Vlaanderen NV;
- (d) non-joined (non-cumulative) floating charges granted by Telenet BVBA and Telenet Vlaanderen NV; a portion of floating charges have been granted in a non-joined manner (non-cumulative) with certain mortgages;
- (e) non-exercised floating charge mandates granted by Telenet BVBA and Telenet Group BVBA;
- (f) pledges on bank accounts and of all present and future receivables granted by Telenet Group Holding NV, Telenet BVBA, Telenet Group BVBA and Telenet Vlaanderen NV; and
- (g) pledges on bank accounts and of certain present and future intercompany receivables granted by the Initial Telenet Borrowers.

See “*Description of the Senior Credit Facility and the Related Agreements—Guarantees and Security*”.

18. Representations and Warranties

Usual representations and warranties package for this type of agreement (subject to agreed exceptions, materiality and material adverse effect qualifications and disclosures as detailed in the Senior Credit Facility), given by each Obligor, or where applicable, Telenet BVBA, to the finance parties, in respect of itself and, where applicable, Group members, including, but not limited to:

- (a) status and due incorporation;
- (b) power and authority to perform obligations under the Finance Documents;

- (c) legal validity of the Finance Documents, recognition of choice of law and recognition of jurisdiction and judgments;
- (d) execution and performance of the Finance Documents does not violate any laws, constitutional documents or other documents;
- (e) all necessary licenses and authorizations are in full force and effect;
- (f) no event of default under any other agreement;
- (g) the financial statements delivered give a true and fair view of (if audited) or fairly represent (if unaudited) the financial condition of the Obligors (consolidated, if applicable) as the date to which they were drawn up and have been prepared in all material respects in accordance with IFRS or GAAP;
- (h) all necessary environmental licenses have been acquired and complied with, environmental law compliance and no material environmental claims;
- (i) no litigation or similar proceedings;
- (j) ownership, maintenance and non-infringement of intellectual property rights;
- (k) ownership of assets necessary to conduct business;
- (l) relevant United States regulations compliance;
- (m) anti-terrorism laws;
- (n) non-engagement in business of extending credit for purchasing or carrying margin stock;
- (o) ERISA compliance; and
- (p) compliance with U.S. Investment Company Act of 1940, as amended.

The representations and warranties listed above other than (d), (e), (f), (h), (i), (j), (k), (l), (m) and (p) are deemed to be repeated by each relevant Obligor on the date of each request and on each utilization date with reference to the facts and circumstances then existing.

19. Non-Financial Undertakings

Customary for this type of agreement (subject to agreed exceptions, materiality and MAE qualifications and disclosures as detailed in the Senior Credit Facility), binding on each Obligor in respect of itself and, where applicable, its subsidiaries which are members of the Group, including, but not limited to:

- (a) timely delivery of information in relation to the Group, including:
 - (i) audited consolidated financial statements of the Reporting Entity, as soon as available and within 150 days of financial year end;
 - (ii) unaudited quarterly management accounts of the Reporting Entity, as soon as available and within 60 days of the end of each financial quarter respectively or, in the case of

fourth quarter management accounts, within 150 days of each such financial quarter;

- (iii) a compliance certificate with each set of its financial statements if, as at the last day of a Measurement Period ending on the date of such financial statements, the aggregate of the Telenet Additional Facility Outstandings under each Revolving Facility (other than Documentary Credits that are cash collateralised and undrawn) and any net indebtedness under each Ancillary Facility exceeds an amount equal to 33⅓ per cent. of the aggregate of the Revolving Facility Commitments and each Ancillary Facility Commitment; and
 - (iv) a schedule containing the components and amounts of Holdco Debt;
- (b) to the extent that material differences exist between the business, assets, results of operations or financial condition of (i) the Reporting Entity and (ii) the Group (excluding, for the avoidance of doubt, the effect of any intercompany balances between the Reporting Entity and any member of the Group), Telenet BVBA shall provide to the Facility Agent, together with the financial statements delivered under paragraph (a) above, in sufficient copies for all the Lenders, the Group Reconciliation (provided however, that to the extent the Group Reconciliation is filed on the SEC's website or Telenet BVBA's website, such Group Reconciliation shall be deemed supplied to the Facility Agent in sufficient copies for all the Lenders).
 - (c) notice of default, notice of material non-compliance with any law or regulation relating to an ERISA plan and at any time while an event of default is continuing or the agent has reasonable grounds to believe that an event of default may exist, access to properties, books and records, principal officers and auditors;
 - (d) obtain, maintain, comply and renew all necessary licenses, filings, consents and authorizations required to perform its obligations under the finance documents and ensure that no necessary authorizations or licenses are revoked;
 - (e) pari passu ranking of payment obligations;
 - (f) negative pledge;
 - (g) compliance in all material respects with applicable laws, regulations and rules;
 - (h) disposals restriction;
 - (i) restriction on mergers and acquisitions;
 - (j) restriction on incurring financial indebtedness;
 - (k) restriction on the payment of dividends and distributions, principal or interest on any loan and the transfer of any assets other than permitted payments (payments of principal and interest on shareholder loans or dividends or other distributions or payments if the ratio of Net Total Debt to Consolidated Annualized EBITDA is 5.00:1 or less (before and after such payment) and no default or

event of default has occurred and is continuing or would occur as a result of such payment);

- (l) restriction on entry into any transactions other than Permitted Payments;
- (m) restriction on loans and guarantees and other extensions of credit granted or issued for the benefit of persons who are not members of the Group;
- (n) compliance with environmental laws, obtaining all requisite environmental approvals and compliance with all environmental licenses and obligations, notification of any claim under applicable environmental law;
- (o) maintenance of insurance cover;
- (p) maintenance, protection, preservation, of intellectual property rights;
- (q) restriction on reduction, purchase or redemption of any class of shares or other ownership interest;
- (r) restrictions on the issue of shares by members of the Group;
- (s) restricted persons to enter into a pledge of subordinated shareholder loans and security provider's deed of accession, before making any financial indebtedness available to the group;
- (t) restrictions on amendments to the constitutive documents of members of the Group that have their shares pledged in favour of the Lenders; and
- (u) compliance with ERISA.

20. Financial Covenant

The Senior Credit Facility requires that in the event that on the last day of a Measurement Period the aggregate of the Telenet Additional Facility Outstandings under any Revolving Facility (other than Documentary Credits that are cash collateralised or undrawn) and any net indebtedness under each Ancillary Facility exceeds an amount equal to 33 ⅓ per cent. of the aggregate of the Revolving Facility Commitments and each Ancillary Facility Commitment (the “**Test Condition**”), Telenet BVBA shall procure that the ratio of Net Total Debt to Consolidated Annualised EBITDA for each Measurement Period is not greater than 6.00:1 unless otherwise agreed in writing by the Composite Revolving Facility Instructing Group and Telenet BVBA.

In circumstances where the Test Condition is not met in any Measurement Period (the “**First Measurement Period**”) but is complied with when tested for the next Measurement Period (the “**Second Measurement Period**”), then, the prior breach of such financial covenant or any Event of Default arising therefore shall not directly or indirectly constitute or result in a breach of any representation, warranty, undertaking or other term in the Finance Documents or a Default or Event of Default unless the Facility Agent has taken action under Clause 22.18 (*Maintenance Covenant Revolving Facility Acceleration*) of the Senior Credit Facility before the delivery of the financial statements in respect of the Second Measurement Period.

Telenet may, subject to certain limitations set forth in the Senior Credit Facility, cure a breach of the financial ratios by procuring that additional

equity is injected into the Group by one or more Restricted Persons and/or additional Subordinated Shareholder Loans are provided by the Group.

21. Events of Default

Customary for this type of agreement, including without limitation (and subject to agreed exceptions, thresholds, materiality and material adverse effect qualifications and grace periods):

- (a) non-payment under the finance documents;
- (b) breach of covenants or breach of other provisions of the Finance Documents;
- (c) a representation or warranty is incorrect in any material respect;
- (d) cross default and cross-acceleration:
 - (i) non-payment of financial indebtedness by a member of the Group any Permitted Affiliate Holdco or Telenet Group Holding;
 - (ii) any financial indebtedness of the Group any Permitted Affiliate Holdco or Telenet Group Holding is prematurely due and payable or placed on demand or capable of being declared to be prematurely due and payable or of being placed on demand in each case as a result of an event of default or any provision having similar effect; or
 - (iii) any commitment for financial indebtedness of the Group any Permitted Affiliate Holdco or Telenet Group Holding is cancelled or suspended as a result of an event of default;
- (e) insolvency, bankruptcy, winding up, moratorium, administration, enforcement proceedings, assignment for the benefit of creditors or similar, of any Obligor or Material Subsidiary;
- (f) any formal voluntary steps towards insolvency proceedings, any meetings or filing in connection with such proceedings, any petition for winding-up or similar, or the appointment, or request of appointment, of liquidator, administrator, receiver or similar in respect of any Obligor or Material Subsidiary;
- (g) enforcement of a creditor's process against any Obligor or Material Subsidiary;
- (h) unlawfulness of performance of obligations under the Finance Documents or the repudiation of any Finance Document;
- (i) cessation of business by an Obligor or member of the Group;
- (j) breach of the terms of the Intercreditor Agreement by any Obligor, member of the Group or a Subordinated Creditor (as defined in the Intercreditor Agreement);
- (k) loss, breach or failure to renew material licenses;
- (l) event or series of events reasonably likely to have an MAE; and

- (m) certain ERISA events.
 - (n) the Composite Revolving Facility Instructing Group directs the Facility Agent to take any action in accordance with Clause 22.18 (Maintenance Covenant Revolving Facility Acceleration) of the Senior Credit Facility as a result of a breach of the financial covenant set out in Clause 20.2 (Net Total Debt to Consolidated EBITDA) of the Senior Credit Facility.
- 22. **Tax**

All payments must be made free and clear of any taxes, deductions or withholdings unless required by law. Borrower to gross-up if necessary with respect to a Lender that is a Qualifying Lender and Lenders to reimburse any tax credit received as a result. If any gross-up is necessary, Borrower may, while the requirement continues, give notice requesting prepayment and cancellation in respect of the relevant Lender.
- 23. **Amendments and Waivers**

Any term of the Finance Documents can be amended or waived only with the consent of the Majority Lenders and Telenet. However certain waivers and amendments require the consent of all Lenders: these include, without limitation, waivers and amendments relating to extensions of maturity, reduction in fees, margin, principal or any other amount payable to a Lender and increasing additional facility commitments. Telenet can request that Lenders take a transfer of the rights and obligations of a non-consenting Lender. Any non-consenting Lender is required to transfer its rights and obligations to Lenders who agree to accept such a transfer.
- 24. **Transferability**

Obligors restricted from transferring or assigning their interests under the Finance Documents without the prior consent of all Lenders.

Lenders can transfer (by way of novation) their rights and obligations under the Finance Documents at any time subject to the following:

 - (a) partial transfer must be in a minimum amount of €2,000,000 or \$2,000,000 (in the case of participations in Advances denominated in euro or U.S. Dollars, respectively) (or if less, the aggregate of the commitments of the existing lender and other existing lender that is managed or controlled by the same investment manager, subject to a threshold of €1,000,000);
 - (b) prior consent (not to be unreasonably withheld or delayed) of Telenet required unless transfer is to another Lender, an affiliate of a Lender or an event of default is outstanding;
 - (c) transfer effected by novation certificate duly executed by the parties and the Facility Agent and the new lender and particulars concerning the transferred interests are entered into the register; and
 - (d) €2,500 fee.

The existing Lender is not responsible to the new Lender and the new Lender confirms it has carried out its own appraisal of the Obligors. No restriction on sub-participations.
- 25. **Law**

English.
- 26. **Miscellaneous**

The Senior Credit Facility is subject to the non-exclusive jurisdiction of the English courts and contains service of process, waiver of immunity and waiver of trial by jury clauses.

Changes during 2016

The Telenet Group completed the acquisition of BASE Company NV (currently Telenet Group BVBA) on February 11, 2016. On such date, BASE Company NV acceded to the terms of the Senior Credit Facility as an Additional Borrower and Additional Guarantor and provided security in favour of the Finance Parties. Base Company NV was designated as a Permitted Affiliate Parent for purposes of the Senior Credit Facility and therefore became part of the Group, together with its direct and indirect subsidiaries.

The Telenet Group subsequently carried out an international reorganization in view of BASE Company NV's integration in the Group. On April 27, 2016, Telenet BVBA and BASE Company NV were both converted into a Belgian private limited liability company (*besloten vennootschap met beperkte aansprakelijkheid / société privée à responsabilité limitée*) and BASE Company NV was renamed Telenet Group BVBA. Telenet Service Center BVBA was liquidated, pursuant to which its shares of Telenet BVBA were transferred to Telenet Group Holding NV.

On August 4, 2016, Telenet Group Holding NV partly sold and partly contributed its shares of Telenet BVBA to Telenet Group BVBA. As a result, Telenet Group BVBA has become the direct parent company of Telenet BVBA and Telenet BVBA has become an indirect subsidiary of Telenet Group Holding NV.

On May 2, 2016 Telenet Finance USD LLC acceded to the terms of the Senior Credit Facility as an Additional Borrower and Additional Guarantor and provided security in favour of the Finance Parties under an all asset security agreement governed by New York law.

On May 2, 2016, Telenet Financing USD LLC, a newly incorporated entity existing under the laws of the State of Delaware for the purpose of acceding to the Senior Credit Facility as an Additional Borrower in respect of U.S. dollar denominated debt, entered into a U.S. Dollar denominated floating rate additional term loan facility in an aggregate principal amount of \$850.0 million under the Senior Credit Facility ("**Facility AD**"). Facility AD was due to be repaid on June 30, 2024 and was priced with margin of 3.75% over LIBOR. The proceeds of Facility AD were used to prepay and cancel in full the outstanding debt under the Telenet Additional Facility O Accession Agreement dated 15 February 2011 owing to Telenet Finance III Luxembourg S.C.A as the Facility O Lender and the outstanding debt under the Telenet Additional Facility P Accession Agreement dated 15 June 2011 owing to Telenet Finance IV S.C.A. as the Facility P Lender.

On November 3, 2016, Telenet International Finance S.à r.l entered into a euro denominated floating rate additional term loan facility in an aggregate principal amount of €1,600.0 million under the Senior Credit Facility ("**Facility AE**"). Facility AE was due to be repaid on January 31 2025 and was priced with margin of 3.25% over EURIBOR. The proceeds of Facility AE were used to prepay and cancel in full the outstanding debt under the Telenet Additional Facility AA Accession Agreement dated 7 May 2015 owing to the Telenet Additional Facility AA Lenders (as defined therein), the Telenet Additional Facility W Accession Agreement dated 9 April 2014 owing to the Telenet Additional Facility W Lenders (as defined therein) and the Telenet Additional Facility Y Accession Agreement dated 9 April 2014 owing to the Telenet Additional Facility Y Lenders (as defined therein).

On November 3, 2016, Telenet Financing USD LLC entered into a U.S. dollar denominated floating rate additional term loan facility in an aggregate principal amount of \$1,500.0 million under the Senior Credit Facility ("**Facility AF**"). Facility AF was due to be repaid on January 31 2025 and was priced with margin of 3.00% over LIBOR. The proceeds of Facility AF were used to prepay and cancel in full the outstanding debt under the Telenet Additional Facility AD Accession Agreement dated 2 May 2016 owing to the Telenet Additional Facility AD Lenders (as defined therein).

On November 22, 2016, Telenet International Finance S.à r.l entered into a euro denominated floating rate additional revolving facility in an aggregate principal amount €400.0 million under the Senior Credit Facility ("**Facility AG**"). Facility AG is due to be repaid on June 30, 2023 and is priced at 2.75% over EURIBOR. Facility AG remains undrawn as at the date of the Offering Memorandum. On November 22, 2016, Telenet International Finance S.à r.l cancelled in full the Telenet Additional Facility X Accession Agreement dated 11 April 2014 and 1 July 2015 which had not been drawn.

Changes during 2017

On April 4, 2017, Telenet International Finance S.à r.l entered into a euro denominated floating rate additional term loan facility in the aggregate principal amount of €1,330.0 million under the Senior Credit Facility ("**Facility**

AH). Facility AH is due to be repaid on March 31, 2026 and is priced with margin of 3.00% over EURIBOR. The proceeds of Facility AH were used to prepay and cancel in full the outstanding debt under the Telenet Additional Facility AE Accession Agreement dated November 3, 2016 owing to the Telenet Additional Facility AE Lenders (as defined therein).

On April 4, 2017, Telenet Financing USD LLC entered into a U.S. dollar denominated floating rate additional term loan facility in an aggregate principal amount of \$1,800.0 million under the Senior Credit Facility (“**Facility AI**”). Facility AI is due to be repaid on June 30, 2025 and is priced with margin of 2.75% over LIBOR. The proceeds of Facility AI were used to prepay and cancel in full the outstanding debt under the Telenet Additional Facility AF Accession Agreement dated November 3, 2016 owing to the Telenet Additional Facility AF Lenders (as defined therein).

On May 15, 2017, Telenet Financing USD LLC entered into a U.S. dollar denominated floating rate additional term loan facility in an aggregate principal amount of \$500.0 million under the Senior Credit Facility (“**Facility AI2**”). Facility AI2 is due to be repaid on June 30, 2025 and is priced with margin of 2.75% over LIBOR. The proceeds of Facility AI2 were used to prepay and cancel in full the outstanding debt under the Telenet Additional Facility U Accession Agreement dated August 16, 2012 owing to the Telenet Additional Facility U Lenders (as defined therein).

On August 10, 2017, Telenet BVBA entered into a supplemental deed among, *inter alios*, the Telenet Facility Agent and KBC Bank NV as security agent, amending and restating the Senior Credit Facility to give effect to certain significant amendments thereto. The amended and restated form of the Senior Credit Facility is attached as Annex A to these Listing Particulars.

Proposed Amendments to the Senior Credit Facility

By entering into the accession agreements for Facility AH, Facility AI and Facility AI2, the Lenders under these facilities have irrevocably consented to the Senior Credit Facility Amendments set forth in schedules 4, 5, 6, 7, 8, 9 and 10 of Annexes B and C in these Listing Particulars upon the approval by lenders constituting the “Majority Lenders” (as currently defined, without giving effect to the Senior Credit Facility Amendments). However, each of the Senior Credit Facility Amendments will only become effective only upon the approval of all lenders under the Senior Credit Facility. Following the issuance of the Notes offered hereby and the funding of the Finco Loan and the New Finco Loan, as applicable, the commitments and loans of the Issuer as a Telenet Lender will also be included in those of the Lenders outstanding under the Senior Credit Facility for the purposes of implementation of the Senior Credit Facility Amendments. Once the requisite level of consents of Telenet Lenders under the Senior Credit Facility, which may include consents from lenders under future term loan or revolving credit facilities, has been obtained by Telenet, then the Senior Credit Facility Amendments will become effective.

The Senior Credit Facility Amendments include material modifications to certain affirmative and negative covenants, financial maintenance covenants and related definitions, representations and warranties, events of default, mandatory prepayment provisions, administrative provisions and provisions relating to the security package. The Senior Credit Facility Amendments are generally less restrictive and provide greater flexibility to the Telenet Bank Group than the provisions currently included in the Senior Credit Facility. Specifically, the Senior Credit Facility Amendments include the following (capitalized terms used in the following description have the meanings currently provided in the Senior Credit Facility, without giving effect to the Senior Credit Facility Amendments):

- amend the definition of “80% Security Test” to provide that where a Guarantor generates negative earnings before interest, tax, depreciation and amortization, such Guarantor shall be deemed for the purpose of calculating the 80% Security Test numerator to have zero earnings before interest, tax, depreciation and amortization;
- amend the definition of “Affiliate” to include a proviso that any provision which uses such term, an Affiliate of the Company that issues notes, bonds or other securities for the purpose of on-lending proceeds of such issuance under a Facility and to a Borrower shall not be an Affiliate of the Company and such entity shall not be deemed to be managed by, or under control of, the Company or any of its Affiliates and any payments made to such entity in connection with any fees, costs, indemnity claims or expenses payable to it in connection with transactions related to the issuance of any notes, bonds or other securities will be a “Permitted Payment”;

- amend the definition of “Consolidated EBITDA” to include the amount of loss on transfer of assets in connection with an asset securitization programme, receivables factoring transaction or other receivables transaction;
- amend the definition of “Consolidated EBITDA” to add equity based compensation expenses and to remove the option for fees or other amounts charged or credited to the Company and the Guarantors related to Intra-Group Services to the extent that they are not included in the Company’s externally reported operating case flow or are deemed to be exceptional or unusual items;
- amend the definition of “Finance Document” to provide that an Increase Confirmation will be, and a Transfer Certificate won’t be, a Finance Document;
- amend the definition of “Finance Document” to provide that a Hedging Agreement is only a Finance Document, and to amend the definition of “Finance Party” to provide that a Hedge Counterparty is only a Finance Party, for the purpose of the guarantee provisions;
- amend the definition of “Financial Indebtedness” to remove any counter-indemnity obligation in respect of any guarantee, indemnity, bond, letter of credit or other instrument issued by a bank or financial institution;
- amend the definition of “Impaired Agent” to include any Facility Agent which is also a Defaulting Lender as a result of the Facility Agent being an L/C Bank which has failed to issue a Documentary Credit or failed to pay a claim;
- amend the definition of “Majority Lenders” to provide that the definition is subject to the snooze lose provision;
- amend the definition of “Measurement Period” to refer to each period of approximately six months covering two quarterly accounting periods of the Group ending on each date to which each set of financial statements required to be delivered under the Senior Credit Facility are prepared, provided that the Company may make an election to establish that “Measurement Period” means each period of approximately 12 months covering four quarterly accounting periods of the Group ending on each date to which each set of financial statements required to be delivered under Clause 19.1 (*Financial statements*) are prepared (and if such an election has been made, the Company may not elect to change the test period back);
- amend the definition of “Permitted Acquisition” to add a new limb to permit the acquisition by a member of the Group for the purposes of a solvent reorganisation of the Group where the acquisition is of share capital of a person which has not traded and does not own any assets or is a dormant subsidiary of the Ultimate Parent and which has no liabilities;
- amend the definition of “Permitted Acquisition” to add a new limb to permit the acquisition by any member of the Group of any Senior Unsecured Notes provided that an amount equal to the purchase price paid for the acquisition of any such Senior Unsecured Notes could have been used by such member of the Group to fund a Permitted Payment and provided further that to the extent any such acquisition is made in reliance on any basket amount provided for under the definition of “Permitted Payments”, such amount shall be reduced by an amount equal to the consideration paid for such acquisition;
- amend the definition of “Permitted Acquisition”, in particular limb (e), to remove the requirement to meet the ratio of Net Total Debt to Consolidated Annualised EBITDA being less than 6.00:1;
- amend the definition of “Permitted Acquisition”, in particular limb (j), to extend the time period for making the issued shares subject to Security to 60 days;
- amend the definition of “Permitted Disposal”, in particular limb (hh) of such definition, to mean disposals of real property where the aggregate fair market value does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year (with unused amounts being carried over);

- amend the definition of “Permitted Disposal”, in particular limb (ii) of such definition, to mean disposals of assets pursuant to sale and leaseback transactions where the aggregate fair market value does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year;
- amend the definition of “Permitted Disposal”, in particular limb (t) of such definition, to mean disposals of assets where the aggregate fair market value does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year (with unused amounts being carried over);
- amend the definition of “Permitted Disposal”, in particular limb (ww) of such definition, to remove the requirement for the Company to provide a certificate certifying the re-calculated financial ratio for the purposes of a disposal under such limb;
- amend the definition of “Permitted Disposal” to add a new limb to permit the disposal of undertakings, assets, rights or revenues comprising interests in the share capital of persons not holding or engaged in the distribution business (i.e. the business of upgrading, constructing, developing, acquiring etc. cable television network for the transmission, reception and/or delivery of multi-channel television and radio programming, telephony and internet and/or data services to the residual markets) of the Group or other undertakings, assets, rights or revenues not constituting part of such distribution business of the Group;
- amend the definition of “Permitted Disposal” to add a new limb to permit new disposals which constitute the concurrent purchase and sale or exchange of related business assets or a combination of such assets, cash and Cash Equivalent Investments between any member of the Group and another person provided that the member of the Group receives consideration at least equal to fair market value for the assets;
- amend the definition of “Permitted Disposal” to permit disposals by one member of the Group to another member of the Group provided that, if such assets subject to the disposal are subject to existing security, the Borrower within 15 Business Days of such disposal ensures that the assets remain subject to security;
- amend the definition of “Permitted Disposal” to permit disposals of shares or other interests in project companies, entities excluded from the Group which are subsidiaries of the Company or joint venture companies (each as defined in recent Liberty precedent) or the assignment of any Financial Indebtedness owed to a member of the Group by any project companies, entities excluded from the Group which are subsidiaries of the Company or a joint venture company;
- amend the definition of “Permitted Financial Indebtedness” to add a new limb to permit Financial Indebtedness incurred in connection with the Hedging Agreements and other hedging arrangements permitted by the Senior Credit Facility;
- amend the definition of “Permitted Financial Indebtedness” to add a new limb to permit Financial Indebtedness of any member of the Group, in respect of which the person to whom such Financial Indebtedness is owed has no recourse to any member of the Group for any payment or repayment in respect thereof other than recourse to such member of the Group for the purpose only of enabling amounts to be claimed in respect of such Financial Indebtedness in an enforcement of any Security Interest given by a member of the Group over Non-Distribution Assets;
- amend the definition of “Permitted Financial Indebtedness, in particular limb (r) of that definition, to provide that a Default would not be a drawstop to Financial Indebtedness arising in respect of any guarantee given by a member of the Group in respect of any issuer of Holdco Debt’s obligations under any Holdco Debt;
- amend the definition of “Permitted Joint Venture”, in particular limb (b), to remove the requirement to meet the ratio of Net Total Debt to Consolidated Annualised EBITDA being less than 6.00:1;
- amend the definition of “Permitted Joint Venture” to remove the requirement that an acquisition would not fall within such definition if an Event of Default had occurred and was continuing at the time of such acquisition;
- amend the definition of “Permitted Joint Venture” to permit Telenet BVBA to contribute freely pledged loan and guarantee receivables to the Permitted Joint Venture’s share capital without requiring a release

from the Security Agent (subject to confirmation or re-taking of security over such pledged loan and guarantee receivables);

- amend clause 21.11 (*Restricted Payments*) to add an additional limb to permit payment by any member of the Group of Management Fees during such period as the applicable ratio for the purposes of clause 20.2 (*Net Total Debt to Consolidated Annualised EBITDA*) is 3.50:1 (or less);
- amend the definition of “Permitted Payment” to add an additional limb to permit any payment by way of transfer to any Restricted Person of any Non-Distribution Business Assets (to the extent they are permitted under the definition of Permitted Disposal);
- amend the definition of “Permitted Payment”, in particular limb (cc) of such definition, to mean payments in connection with a start-up financing or seed funding where the aggregate value of the payment does not exceed the greater of €50,000,000 and 1% of Total Assets;
- amend the definition of “Permitted Payment”, in particular limb (kk) of such definition, to mean payments in relation to tax losses received by a member of the Group from any member of the Wider Group that is not a member of the Group where the amount of tax losses does not exceed the greater of €200,000,000 and 3% of Total Assets in any financial year;
- amend the definition of “Permitted Payment”, in particular limb (ll) of such definition, to mean payments not covered by other parts of the definition where the amount of the payment does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year (with unused amounts being carried over);
- add a new limb to the definition of “Permitted Payment” to permit a payment in relation to any “Permitted Business Division Transaction” or any “Acceptable Joint Venture” (each as referred to above);
- add a new limb to the definition of “Permitted Security Interest” to permit any Security Interests attaching to commodity trading accounts or other commodity brokerage accounts incurred in the ordinary course of business;
- add a new limb to the definition of “Permitted Security Interest” to permit any Security Interests over Non-Distribution Business Assets, securing Financial Indebtedness in respect of such Non-Distribution Business Assets;
- amend the definition of “Permitted Security Interest” to permit the Company to secure Financial Indebtedness on a *pari passu* or junior ranking basis provided that (other than in the case of a refinancing of other secured Financial Indebtedness in the same or a lesser principal amount) the Net Total Debt to Consolidated Annualised EBITDA ratio on a pro forma basis would not be greater than 5.50:1.00 and provided that such Financial Indebtedness is subject to an intercreditor agreement on terms which are satisfactory to the Security Agent (acting on the instructions of the Majority Lenders) and where (in the case of such Financial Indebtedness being secured on a junior ranking basis) the rights of the holders of such Financial Indebtedness in respect of any payment will be contractually subordinated to the rights of the Lenders on terms comparable to the Loan Market Association’s form of intercreditor agreement at such time for mezzanine debt;
- replace the definition of “Spin Off” under the Senior Credit Facility with a new definition which refers to a transaction by which all outstanding ordinary and or equity shares of the Common Holding Company and or any Holding Company of the Common Holding Company directly or indirectly owned by the Ultimate Parent are distributed to (a) all of the Ultimate Parent’s shareholders, or (b) all of the shareholders comprising one or more group of the Ultimate Parent’s shareholders as provided by the Ultimate Parent’s articles of association, in each case, either directly or indirectly through the distribution of shares in a company holding the Common Holding Company’s shares or such Holding Company’s shares;
- add a new definition of “Sub-participation” referring to any sub-participation or sub-contract (whether written or oral) or any other agreement or arrangement having an economically substantially similar effect, including any credit default or total return swap or derivative (whether disclosed undisclosed, risk or funded) by a Lender of or in relation to any of its rights or obligations under, or its legal, beneficial or

economic interest in relation to, the Facilities and/or Finance Documents to a counterparty and “sub-participate” shall be construed accordingly;

- amend the definition of “Majority Lenders” to reduce the fractions specified, from two thirds or more (for any or all purposes under the Credit Agreement or any other Finance Document (including for the purposes of any Telenet Additional Facility)) to more than 50.00% and to exclude the available commitments of defaulting lenders for the purposes of amendments or waivers;
- amend the definition of “Super Majority Lenders” so that amendments and waivers in respect of the release of any guarantee or security only requires the consent of Lenders representing 90.00% of Commitments;
- amend clause 29.3 (*Transfers by Lenders*) of the Senior Credit Facility to include a restriction on sub-participations of rights and obligations and is subject to the same consent regime as for assignments and transfers;
- add a new provision to provide that there will be no restrictions on sub-participations provided that certain conditions, which include, the Lender retaining exclusive control over all rights and obligations in relation to the participations, the relationship between the Lender and the proposed sub-participant being that of a contractual debtor and creditor and the proposed sub-participant having no proprietary interest in the benefit of the Senior Credit Facility or any of the Finance Documents or in any monies received by the relevant Lender;
- add a new provision to require any person granting a sub-participation to maintain a register on which it enters the name and address of each sub-participant in which each sub-participant has an interest or obligation;
- add a new provision which provides that no transfer of an interest in an Advance or Commitment under the Senior Credit Facility is effective unless and until it is recorded in the register referred to in the Senior Credit Facility;
- amend the additional facilities clause that each Lender under a Telenet Additional Facility shall be required to become such a party to the Senior Credit Facility and be entitled to share in the Security in accordance with the terms of the Intercreditor Agreement and the Security Documents *pari passu* with the Lenders under the other Facilities provided that the Company and the relevant Telenet Additional Facility Lenders may agree that a Telenet Additional Facility shares in the Security on a junior basis to the other Facilities or shall not be entitled to share in the Security either in accordance with the terms of the Intercreditor Agreement or pursuant to ancillary intercreditor arrangements;
- amend the Additional Facilities Cap such that (A) it includes an additional limb for the aggregate amount of any voluntary prepayments of Term Facility Advances under Revolving Facilities to the extent the relevant prepayment or cancellation is not funded or effected with any long term Financial Indebtedness and (B) the Company shall have the ability to classify such amounts of Financial Indebtedness on the date of their incurrence and shall only be required to include the amount and type of such Financial Indebtedness in more than one of the types of Financial Indebtedness described in such paragraphs, and, from time to time, may reclassify all or a portion of such Financial Indebtedness, in any manner;
- amend the definition of Consolidated EBITDA under the Senior Credit Facility to provide that any adjustments to reduce the impact of the cumulative effect of a change in accounting principles or policies and changes as a result of a the adoption or modification of accounting principles or policies can be added (at the Company’s option) to the operating income of the Group for that measurement period;
- amend the Senior Credit Facility to provide that any Affiliate of the Company may accede to the Senior Credit Facility as a Guarantor in accordance with the terms of the Senior Credit Facility (provided that Security has been granted in form and substance satisfactory to the Facility Agent (acting reasonably) in favour of the Security Agent over 100% of its shares and all rights in relations to loans from members of the Wider Group to it) and that such Affiliate shall be a member of the Group and an Additional Guarantor;

- add a new definition of “Affiliate Subsidiary” such that it means any Affiliate of the Company that accedes to the Senior Credit Facility as a Guarantor pursuant to the amendments described in the paragraph above and provided that it has not resigned as a Guarantor in accordance with the terms of the Credit Agreement;
- amend the definition of “ERISA Affiliate” to mean any person treated as a single employer with any Obligor under section 414 of the Code;
- amend the definition of “Plan” to mean an “employee benefit plan” as defined in section 3(3) of ERISA, which is subject to Title IV of ERISA (A) maintained by any Obligor or any ERISA Affiliate, or (B) to which any Obligor or any ERISA Affiliate is required to make any payment or contribution;
- amend the definition of “Reportable Event” to mean (A) an event specified as such in section 4043 of ERISA or any regulation, other than an event in relation to which the requirement to give notice of that event is waived by any regulation, or (B) a failure to meet the minimum funding standard under section 412 or 430 of the Code or section 302 of ERISA, whether or not waived;
- amend the Senior Credit Facility so that the ERISA representation only applies to an Obligor and not all members of the Group and there is no Event of Default triggered in respect of ERISA;
- amend the Senior Credit Facility to amend the undertaking relating to ERISA such that each Obligor and its ERISA Affiliates must (A) be, and remain, in compliance in all material respects with all laws and regulations relating to each of its Plans and (B) must ensure that no event or condition exists at any time in relation to a Plan which is reasonably likely to result in the imposition of a lien or other encumbrance on any of its assets or which is reasonably likely to have a Material Adverse Effect;
- amend the definition of “Limited Condition Transaction” to include any Restricted Payment;
- amend the representation at clause 18.17 (*United States Regulations*) so that the representation to be given is that no Obligor is required to be registered as an “investment company” under the United States Investment Company Act of 1940;
- amend the representation at clause 18.19 (*Margin stock*) so that the representation to be given is that no Obligor is engaged nor will it engage, principally or as one of its important activities, in the business of purchasing or carrying Margin Stock (within the meaning of Regulation U issued by the Board of Governors of the Federal Reserve System of the United States), or extending credit for the purpose of purchasing or carrying Margin Stock, and no proceeds of any borrowings will be used for any purpose that violates Regulation U;
- add a new provision to clause 21.13 (*Loans and Guarantees*) to permit any guarantee of any Financial Indebtedness of any Parent that is given by an Affiliate Subsidiary provided that (i) on the date of incurrence of such guarantee the ratio of Net Total Debt (including any Holdco Debt) to Consolidated Annualised EBITDA on a pro forma basis would not exceed 6.00:1 (provided that outstanding Net Total Debt (including Holdco Debt) for the purpose of calculating such ratio under this paragraph shall include any Financial Indebtedness represented by guarantees by any member of the Group of Financial Indebtedness of any Parent), (ii) such guarantee is expressed to be subordinated to the liabilities of such Affiliate Subsidiary under the Finance Documents and (iii) no Event of Default is continuing or occurs as a result of such Financial Indebtedness of that Parent being raised or issued;
- amend clause 21.13 (*Loans and Guarantees*), in particular limb (bb) of such clause, to mean loans made, credit granted or guarantees given by any member of the Group where the aggregate amount does not exceed the greater of €150,000,000 and 3% of Total Assets;
- amend Clause 21.13 (*Loans and Guarantees*), in particular limb (g) of such clause, to permit guarantees by an Obligor in respect of the liabilities of any other member of the Group which is not an Obligor provided that that other member of the Group must become an Additional Guarantor in accordance with the terms of the Senior Credit Facility within 30 days of the granting of the guarantee;

- amend clause 21.13 (*Loans and Guarantees*), in particular limb (z) of such clause, to mean loans made in connection with any start-up financing or seed funding where the aggregate value does not exceed the greater of €25,000,000 and 1% of Total Assets;
- add a new provision to clause 21.13 (*Loans and Guarantees*) to permit any loans or guarantees relating to Excess Capacity Network Services provided that the price payable to any member of the Group in relation to such Excess Capacity Network Services is no less than the Cost incurred by the relevant member of the Group in providing such Excess Capacity Network Services;
- add a new provision to clause 21.13 (*Loans and Guarantees*) to permit any guarantees or similar undertakings granted by any member of the Group in favour of any tax authority in respect of any obligations of a member of the Group in respect of tax in order to facilitate the winding up of any member of the Group provided that the Facility Agent shall have first received confirmation from the Company that based on discussions with such tax authority and the Company's reasonable assumptions, the Company does not believe that the liability under such guarantee will exceed €15,000,000 (such confirmation to be supported by a letter from the Company's auditors for the time being, confirming that based on the Company's calculations of such tax liability the Company's confirmation is a reasonable assessment of such tax liability);
- amend clause 10.2(b) (*Mandatory Prepayment—Change of Control*) to provide that upon consummation of (i) the Post-Closing Reorganisation, the "Controlling Company" will mean the relevant New Intermediate Holdco and its successors or (ii) a Spin-Off in which the Common Holding Company and its successors is no longer a Parent of the Company and any Permitted Affiliate Parent, the "Controlling Company" will mean a common Parent of the Company and any Permitted Affiliate Parent designated by the Company and any successors of such Parent;
- amend the definition of "GAAP" to provide that at any date after the date of preparation of the original financial statements, the Company may make an election to establish "GAAP" to mean GAAP as in effect on a date that is on or prior to the date of such election but provided that for the purposes of clause 19.1 (*Financial Statements*) GAAP means generally accepted accounting principles in the United States as in effect from time to time;
- amend the definition of "IFRS" to provide that at any date after the date of preparation of the original financial statements, the Company may make an election to establish "IFRS" to mean IFRS as in effect on a date that is on or prior to the date of such election but provided that for the purposes of clause 19.1 (*Financial Statements*) IFRS means generally accepted accounting principles in the United States as in effect from time to time;
- amendments to the Change in Accounting Principles clause to provide that all ratios and calculations based on IFRS shall be computed in conformity with IFRS and that the audited consolidated financial statements and unaudited quarterly consolidated management accounts shall be prepared in accordance with IFRS;
- amendments to the Change in Accounting Principles clause to provide that at the time of an election from the Company to apply or all purposes of the Senior Credit Facility, in lieu of IFRS, GAAP and, upon such election, references to IFRS in the Senior Credit Facility will be construed to mean GAAP, provided that all financial statements and reports to be provided, after such election, pursuant to this Agreement shall be prepared on the basis of GAAP as in effect from time to time (including that, upon first reporting its financial year results under GAAP, the financial statements of the Reporting Entity shall be restated on the basis of GAAP for the year ending immediately prior to the first financial year for which financial statements have been prepared on the basis of GAAP) and from and after such election, all ratios, computations and other determinations based on GAAP contained in this Agreement shall, at the Company's option (A) continue to be computed in conformity with GAAP (*provided that*, following such election, the annual and quarterly information required to be delivered under the Senior Credit Facility shall include a reconciliation, either in the footnotes thereto or in a separate report delivered therewith, of such GAAP presentation to the corresponding GAAP presentation of such financial information) or (B) be computed in conformity with GAAP with retroactive effect being given thereto assuming that such election had been made on the OFS Date, subject to any further election in accordance with the definition of GAAP. After such election, the Company may, at its option, elect to apply IFRS or GAAP and compute all ratios, computations and other determinations based on IFRS or GAAP;

- amend the definition of “Business Division Transaction” to remove the requirement for the approval of the Majority Lenders to such transactions;
- add a new definition of “Permitted Business Division Transaction” to mean a Business Division Transaction provided that after giving pro forma effect thereto, an Obligor could incur at least €1.00 of additional Financial Indebtedness pursuant to limb (v) of the definition of Permitted Financial Indebtedness;
- add a new definition of “Acceptable Joint Venture” to mean a joint venture, partnership or similar arrangement formed by a member of the Group (a) by the contribution of some or all of the assets of the Group pursuant to a Business Division Transaction to such joint venture, partnership or similar arrangement with one or more persons and/or (b) for the purposes of network and/or infrastructure sharing with one or more Joint Ventures;
- amend the construction clause of the Senior Credit Facility to provide that the Senior Credit Facility is subject to the terms of the Intercreditor Agreement and the terms of the Intercreditor Agreement will prevail if there is a conflict between the terms of the Senior Credit Facility and the Intercreditor Agreement;
- amend the increase provisions so that, with the prior consent of a Lender, the Commitments of any Increase Lender can be increased without the drawstop of an Event of Default;
- amend the increase provisions to provide that at the election of the Company (in its sole discretion) it shall be a condition to an increase (A) that the aggregate principal amount of any proposed increase in the Commitments shall not exceed, *mutatis mutandis*, the Additional Facilities Cap on the date that such increase in the Commitments becomes effective (giving pro forma effect to the intended use of proceeds of such increased Commitment and assuming that the entire amount of that increased Commitment is drawn on such date or (B) to any Utilisation (other than a Rollover Loan or a Documentary Credit which is being renewed pursuant to clause 6.2 (*Renewal of Documentary Credits*)) of that increased Commitment that the aggregate principal amount of that increased Commitment to be drawn would not exceed, *mutatis mutandis*, the Additional Facilities Cap on the date of that Utilisation;
- amend the provisions relating to compliance certificates to provide that the Company is only required to provide a Compliance Certificate with its financial statements to the Facility Agent if, as at the last day of the Measurement Period ending on the date of such financial statements, the Financial Ratio Test Condition is met;
- amendments to the financial covenant provisions so that (a) should any net indebtedness under each Ancillary Facility exceed an amount equal to 40 per cent. of the aggregate of the Revolving Facility Commitments and each Ancillary Facility Commitment, the ratio of Net Total Debt to Consolidated Annualised EBITDA shall not exceed 6.00:1 and (b) if the financial covenant set out in paragraph (a) has been breached for a Measurement Period but is complied with when tested for the next Measurement Period, then, the prior breach of such financial covenant or any Event of Default arising therefrom shall not constitute a breach of any representation, warranty, undertaking or other term in the Finance Documents or a Default or Event of Default;
- amend the equity cure provisions to provide that the Company may cure a breach of the financial ratio by procuring that additional equity is injected into, and/or additional Subordinated Shareholder Loans is provided to, one or more members of the Group in an aggregate amount equal to or greater than the amount which if it had been (A) deducted from Net Total Debt or (B) added to Consolidated Annualised EBITDA for the Measurement Period in respect of which the breach arose, would have avoided the breach provided that such cure would not be effective unless an amount equal to or greater than the required amount of additional equity or the proceeds of any Subordinated Shareholder Loans is received by one or more members of the Group within 30 Business Days of delivery of the financial statements which show the breach of the financial ratio and provided further that if the Company makes such election for re-calculation it shall be under no obligation to apply the amount of additional equity or the proceeds of any Subordinated Shareholder Loans that are received by one or more members of the Group in prepayment of the Facilities or for any other specific purpose and such amount will be deemed to be deducted from Net Total Debt or added to Consolidated Annualised EBITDA for the purposes of the financial ratio as at the last day of the relevant Measurement Period;

- amend the equity cure provisions to provide that the Company may cure a breach of the financial ratio by procuring that any Telenet Additional Facility Outstandings under any Revolving Facility and/or net indebtedness under any Ancillary Facility are prepaid (from any source selected by the Company in its sole discretion) in an amount which if such prepayment had occurred immediately prior to the calculation on the last day of the Measurement Period in respect of which the breach arose, the Financial Ratio Test Condition as at the last day of that Measurement Period would not have been met and therefore the financial ratio would not have been required to be tested provided that such cure would not be effective unless the amount of any Telenet Additional Facility Outstandings under any Revolving Facility and/or net indebtedness under any Ancillary Facility that are required to be prepaid are so prepaid within 30 Business Days of delivery of the financial statements which show the breach of the financial ratio and provided further that if the Company makes such election for re-calculation the amount of any Telenet Additional Facility Outstandings under any Revolving Facility and/or net indebtedness under any Ancillary Facility that are prepaid shall be deemed to be deducted in the calculation of the Financial Ratio Test Condition as at the last day of the relevant Measurement Period;
- amend the representation provision in the Senior Credit Facility to (A) delete the representation that the Senior Credit Facility does not result in the creation of any Security Interest, (B) delete the representation that a member of the Group is not in default under any law, regulation or agreement, (C) to carve Licenses out of the scope of licenses in the authorisations representation and (D) to provide that the insolvency proceeding representation only extends to Obligors or Material Subsidiaries;
- amend the increased costs provisions to include an exception for any cost attributable to a change in the Tax Liability on the overall net income of the Finance Party, attributable to any penalty having been imposed by the relevant central bank or monetary or fiscal authority upon the Finance Party or attributable to a breach of a Finance Document by the Finance Party;
- amend the stamp taxes indemnity to carve out any Tax Liabilities payable in connection with the assignment or transfer by any Lender of any of its rights and/or obligations under the Finance Documents and any registration duties relating to a registration submission or filing which is not required to maintain or preserve the rights of that Finance Party;
- amend the tax indemnity provision to carve out any loss, liability or cost which has been compensated under the stamp taxes indemnity provisions;
- amend the undertaking relating to share capital to include an additional carve out for members of the Group in order to permit a solvent liquidation and the reduction of capital or purchase or redemption of shares to the extent it relates to the cancellation of the share capital of any member of the Group or any Obligor;
- amend the further assurance provision to provide that there will not be a breach of the 80% Security Test if the members of the Group become Obligors within 60 days of the delivery of the relevant Compliance Certificate by the Company demonstrating that the 80% Security Test has not been satisfied;
- amend the breach of other obligations event of default to provide that the breach of the undertakings relating to pari passu ranking, negative pledge, disposals, acquisitions and mergers, restricted payments, loans and guarantees and share security will not trigger an event of default if such non-compliance is capable of remedy and is remedied within 30 days of the earlier of the Facility Agent giving notice of the breach to the Company or any Obligor become aware of the non-compliance;
- amend the cross-default event of default to delete the provision which states that it will be an Event of Default to the extent that Financial Indebtedness is placed on demand and include the additional requirement that it will not be an Event of Default if the relevant Financial Indebtedness is covered by a Documentary Credit or a letter of credit, bank guarantee, indemnity or other documentary credit under an Ancillary Facility;
- amend the information undertakings to remove the requirement for the Obligors to provide copies of material reports or other notice delivered by a member of the Group whose shares are subject to a pledge to their shareholders;

- amend the change of business undertaking to provide that it will not be breached by an Obligor or any member of the Group to the extent that it is as a result of a Permitted Disposal, Permitted Acquisition or Permitted Joint Venture;
- amend the insurance undertaking to provide that the Obligors are only required to procure compliance of Material Subsidiaries;
- amend the shareholder loan undertaking to provide that the Obligor has 60 days from the date of the shareholder loan to put in place the relevant security over such shareholder loan;
- amend the share security undertaking to include carve outs to the issuance of shares where (A) the shares are to a non-member of the Group if they are made subject to security in favour of the Senior Secured Creditors (as defined in the Intercreditor Agreement) and it does not result in a Change of Control, (B) to a member of the Group or to Telenet Group BVBA if they are made subject to the security in favour of the Senior Secured Creditors (as defined in the Intercreditor Agreement), (C) the shares are issued pursuant to the exercise of Approved Stock Options, (D) the shares are part of an Acquisition or merger and do not result in a Change of Control, (E) the shares are issued by a member of the Group to all the holders of their shares pro rata and if relevant, are made subject to security in favour of the Senior Secured Creditors (as defined in the Intercreditor Agreement), and (F) shares issued pursuant to any agreement existing before the Signing Date and it does not result in a Change of Control;
- amend the group redesignation provision to provide that the Company may deliver a notice to the Facility Agent designating any Holding Company of the Company and/or any Holding Company of any Permitted Affiliate Parent as a “New Group Topco” for the purposes of this Agreement provided that taking into account any actions to be taken by the Company for the benefit of the Lenders, it would not be materially prejudicial to the interests of the Lenders in the opinion of the Facility Agent (acting reasonably);
- amend the merger provision to permit a merger of Telenet Group Holding NV, Telenet BVBA or Telenet Vlaanderen NV or any of their intermediate holding companies;
- amend the Clean Up Period to 180 days;
- amend the acceleration provision to remove the discretion of the Facility Agent once it has been instructed to do so by the Majority Lenders;
- amend the currency indemnity and break costs provisions to provide that the relevant Finance Party must be indemnified within 10 Business Days of demand;
- amend the amendment provisions to permit the Facility Agent (without the consent of the Lenders) to make modifications to a Finance Document if such modification is not materially prejudicial to the position of any Lender, is minor or operational, relates to an increase in the principal amount of a Commitment of a Lender and such increased Commitment has been requested by the Company to fund any original issue discount required to be paid to that Lender or relates to the implementation of any alternative basis for the calculation of interest that is binding on all Parties in accordance with the terms of the Senior Credit Facility;
- amend the amendment provisions to include an additional exception for a waiver of issuance or the release of any Guarantor from any of its obligations under the guarantee provisions of the Senior Credit Facility or a release of any Security under the Security Documents, in each case, other than in accordance with the terms of any Finance Document shall require the prior written consent of affected Lenders whose share in the outstanding Utilisations and whose undrawn Commitments amount in aggregate to more than 75 per cent. of all of the outstanding Utilisations and undrawn Commitments;
- amend the non-consenting lender provisions to remove the requirement for a 21 day time period to have elapsed from the date of the request for consent;
- amend the governing law clause to include non-contractual obligations arising out of or in connection with the Senior Credit Facility;

- amend the ancillary facilities provisions to provide that (i) a date specified in a conversion notice as the effective date for an ancillary facility commitment may be a date not less than 3 Business Days after the date such conversion notice is received by the Facility Agent, (ii) any proposed increase or reduction or extension of the ancillary facility commitment shall only take effect from a date not less than 3 Business Days after the date the Facility Agent has received notice of the relevant modification or variation or extension and (iii) an ancillary facility lender may demand repayment or prepayment of any amounts under its ancillary facility if the ancillary facility outstandings under that ancillary facility can be repaid by a revolving facility advance (and not less than 7 Business Days notice (or such shorter period as agreed to by the Company) is given to the relevant Borrower before payment becomes due);
- amend the defaulting lender provisions to include the right to replace a Lender (in whole and at par) if that Lender becomes a Defaulting Lender;
- amend the assignment of the Lender provisions to provide that the consent of the Company is not required for any assignment or transfer by a Lender if a non-payment, insolvency, insolvency proceedings, creditors' process and similar proceedings Event of Default is outstanding;
- amend the assignment of the Lender provisions to clarify that the Company should have the right to withhold consent in respect of an assignment/transfer of the Revolving Facility to an entity which is not a lender under a revolving facility to the wider Liberty group (subject to no consent being required in the case of transfers to other Lenders or affiliates of Lenders or following an event of default which is continuing). There should be no unreasonableness qualifier on this right (in respect of the Revolving Facility only). Remove requirement of deemed consent within 10 Business Days in respect of each Revolving Facility;
- amend the amendments and waivers provisions to provide that amendments and waivers of clause 20.2 (*Net Total Debt to Consolidated Annualised EBITDA*) to 20.4 (*Cure provisions*) shall only be made with the consent of the Company and the Composite Revolving Facility Instructing Group and shall not require the consent of any other Finance Party;
- amend the amendment and waivers provisions to introduce a class exception, whereby any amendment or waiver that relates only to the rights or obligations of a particular Utilisation or Facility and does not materially and adversely affect the rights or interests of Lenders in respect of other Utilisations or Facilities only requires the consent of the relevant proportion of Lenders participating in such Utilisation or Facility;
- amend the amendment and waivers provisions to require the consent of affected Lenders only and not all Lenders (and make any consequential changes by amending for example, all references to matters requiring all Lender consent to only requiring affected Lender consent);
- amend the amendments and waivers provision to provide that where a request for a waiver of, or an amendment to, any provision of any Finance Document has been sent by the Facility Agent to the Lenders at the request of an Obligor, each Lender that does not respond to such request for waiver or amendment within 10 Business Days after receipt by it of such request (or within such other period as the Facility Agent and the Company shall specify), shall be excluded from the calculation in determining whether the requisite level of consent to such waiver or amendment was granted, and delete the proviso to the definition of Majority Lenders;
- amend the non-consenting lender provisions to remove the timing window of 90 days during which the Company may exercise its rights under such non-consenting lender provision at any time;
- amend the provisions in the Senior Credit Facility to provide that, subject to certain thresholds being met no Obligor nor any other member of the Group is required to provide any Security or guarantee other than Security over the shares that it holds in any Obligor, Security required under the terms of the Credit Agreement in respect of Subordinated Shareholder Loans and a guarantee from the Obligors under the terms of the Credit Agreement and include a provision to authorise the Security Agent to release any other Security or guarantees other than the aforementioned and to release Security in respect of Permitted Disposals and to permit relevant Security to be released if a Guarantor resigns in accordance with the terms of the Senior Credit Facility) provided that the guarantor coverage test would still be met notwithstanding such release;

- amend the assignment of the Obligors provisions to provide that any Benelux Borrower may assign or transfer any of its rights and obligations under the Revolving Facility or the Term Loans to another Benelux Borrower and so that any US Borrower may do the same to another US Borrower, in each case, without the prior consent of the Lenders provided that a solvency opinion and legal opinion are provided, if requested, in accordance with recent Liberty precedents in respect of an equivalent provision;
- amend the additional borrower provisions to provide that, in addition to the existing ability for an Additional Borrower incorporated in Benelux and the US to accede (without requiring any Lender consent), to provide an ability to accede Additional Borrowers incorporated in any other jurisdictions with the consent of the Majority Lenders; and
- amend the additional borrower provisions to permit Additional Borrowers to be incorporated in the Kingdom of Belgium, Netherlands, Luxembourg or, in relation to any new Additional Facilities, in the United Kingdom.

Finco Accession Agreement AJ

The Issuer acceded to the Senior Credit Facility as an additional lender and extended an additional tranche (the Finco Loan AJ) to Telenet International Finance as borrower (Facility AJ) with the proceeds of the offering of the Dollar Notes, pursuant to the Finco Accession Agreement AJ. Principal and interest on the Dollar Notes will be financed by principal and interest payable on the Finco Loan AJ, on a limited recourse basis. The Finco Accession Agreement AJ, which documents the terms of the Finco Loan AJ, has the following principal terms, which shall be read in conjunction with the terms of the Senior Credit Facility specified elsewhere herein:

1.	Acceding Lender	Issuer.
2.	Borrower	Telenet International Finance
3.	Facility	Term Loan AJ.
4.	Facility Commitment	Term Loan of \$1,000.0 million may be drawn by one Loan on the date of the Finco Accession Agreement for only the principal amount of the Facility AJ Commitment.
5.	Interest Rate	5.500% per annum.
6.	Interest Term	Initially, from the date the Finco Accession Agreement takes effect (in accordance with the satisfaction of the conditions precedents stipulated therein), up to and including January 15, 2018; and thereafter, each subsequent Term will be 6 months.
7.	Final Maturity Date	March 1, 2028
8.	Mandatory Prepayments	Upon the occurrence of a mandatory prepayment of the Term Loan AJ Facility following a change of control (as defined in the Senior Credit Facility), the Borrower will pay to the Facility Agent an amount equal to 1% of the principal amount of the Term Loan AJ Facility, plus accrued and unpaid interest to the date of such prepayment. With respect to certain asset sales, Telenet BVBA and Telenet International Finance may elect, at their option, to (i) prepay a principal amount of the Term Loan AJ Facility equal to the aggregate principal amount of the Dollar Notes tendered in a related asset sale offer to be made by the Issuer (not to exceed the amount of the available proceeds from the related asset sale); or (ii) subject to the payment of certain premiums, prepay the Term Loan AJ Facility in an amount equal to available proceeds from the related asset sale.
9.	Voluntary Prepayments	At any time prior to December 1, 2022, upon a voluntary prepayment of any or all of the Term Loan AJ Facility (other than a prepayment made as described in the following three paragraphs), the Borrower will pay to the

Facility Agent an amount equal to the Additional Amount (as defined in the Finco Accession Agreement AJ).

At any time prior to December 1, 2022, upon the occurrence of any voluntary prepayment of any of the Term Loan AJ Facility by the Borrower under Clause 10.5 (*Voluntary prepayment*) of the Credit Agreement (other than a voluntary prepayment complying with Clauses 17, 18 or 20 of the Finco Accession Agreement set out in Annex B of these Listing Particulars) in an amount not to exceed 10% of the original principal amount of the Term Loan AJ Facility during each twelve-month period commencing on the date of the Finco Accession Agreement AJ, the Borrower under the Term Loan AJ Facility agrees to pay to the Facility Agent (for the account of the Issuer) an amount equal to 3.0% of the principal amount of the Term Loan AJ Facility being prepaid, plus accrued and unpaid interest then due on the amount of the Term Loan AJ Facility Loan prepaid to the due date of prepayment. Such payment shall be due and payable by the Borrower under the Term Loan AJ Facility to the Facility Agent (for the account of the Issuer) on the actual date of such prepayment. Prior to December 1, 2022, to the extent that during any twelve-month period commencing on the date of the Finco Accession Agreement AJ, the principal amount of the Term Loan AJ Facility prepaid in any one or more voluntary prepayments is greater than an amount equal to 10% of the original principal amount of the Term Loan AJ Facility (any such amount, the “**Excess Early Redemption Proceeds**”), the Borrower will apply the Excess Early Redemption Proceeds to a voluntary prepayment of the Term Loan AJ Facility as described in the paragraph above.

At any time prior to December 1, 2022, upon the occurrence of any voluntary prepayment of the Term Loan AJ Facility by the Borrower pursuant to Clause 10.5 (*Voluntary Prepayment*) of the Senior Credit Facility with the Net Cash Proceeds (as defined in the Finco Accession Agreement) of one or more Equity Offerings (as defined in the Finco Accession Agreement) (the “**Equity Offering Early Redemption Proceeds**”) in an amount not to exceed 40% of the Term Loan AJ Facility, the Borrower shall make a payment to the Facility Agent (for the account of the Issuer) in an amount equal to 5.500% of the principal amount of the Term Loan AJ Facility prepaid, plus accrued interest then due on the amount of the Term Loan AJ Facility prepaid to the due date of prepayment. Such payment shall be due and payable by the Borrower to the Facility Agent (for the account of the Issuer) under the Term Loan AJ Facility on the actual date of such prepayment.

On or after December 1, 2022, upon a voluntary prepayment of any or all of the Term Loan AJ Facility (other than a voluntary prepayment complying with Clause 17, 18, 19 and 21 the Finco Accession Agreement set out in Annex B of these Listing Particulars), the Borrower will pay to the Facility Agent an amount equal to the relevant percentage of the principal amount of the Term Loan AJ Facility being prepaid as set forth below (plus accrued and unpaid interest then due), plus accrued and unpaid interest to the date of such prepayment, if prepaid during the twelve-month period beginning on December 1 of the years indicated below.

Year	Prepayment Amount
2022	2.750%
2023	1.375%
2024	0.688%
2025 and thereafter.....	0.000%

Finco Accession Agreement AK

The Issuer acceded to the Senior Credit Facility as an additional lender and extended an additional tranche (the Finco Loan) to Telenet International Finance as borrower (Facility AK) with the proceeds of the offering of the Notes, pursuant to the Finco Accession Agreement. Principal and interest on the Euro Notes will be financed by principal and interest payable on the Finco Loan AK, on a limited recourse basis. The Finco Accession Agreement AK, which documents the terms of the Finco Loan AK, has the following principal terms, which shall be read in conjunction with the terms of the Senior Credit Facility specified elsewhere herein:

1. **Acceding Lender** Issuer.
2. **Borrower** Telenet International Finance.
3. **Facility** Term Loan AK.
4. **Facility Commitment** Term Loan of €600.0 million may be drawn by one Loan on the date of the Finco Accession Agreement AK for only the principal amount of the Facility AK Commitment.
5. **Interest Rate** 3.500% per annum.
6. **Interest Term** Initially, from the date the Finco Accession Agreement AK takes effect (in accordance with the satisfaction of the conditions precedents stipulated therein), up to and including AK, 2017; and thereafter, each subsequent Term will be 6 months.
7. **Final Maturity Date** March 1, 2028
8. **Mandatory Prepayments**

Upon the occurrence of a mandatory prepayment of the Term Loan AK Facility following a change of control (as defined in the Senior Credit Facility), the Borrower will pay to the Facility Agent an amount equal to 1% of the principal amount of the Term Loan AK Facility, plus accrued and unpaid interest to the date of such prepayment.

With respect to certain asset sales, Telenet BVBA and Telenet International Finance may elect, at their option, to (i) prepay a principal amount of the Term Loan AK Facility equal to the aggregate principal amount of the Notes tendered in a related asset sale offer to be made by the Issuer (not to exceed the amount of the available proceeds from the related asset sale); or (ii) subject to the payment of certain premiums, prepay the Term Loan AK Facility in an amount equal to available proceeds from the related asset sale.
9. **Voluntary Prepayments**

At any time prior to December 1, 2022, upon a voluntary prepayment of any or all of the Term Loan AK Facility (other than a prepayment made as described in the following three paragraphs), the Borrower will pay to the Facility Agent an amount equal to the Additional Amount (as defined in the Finco Accession Agreement AK).

At any time prior to December 1, 2022, upon the occurrence of any voluntary prepayment of any of the Term Loan AK Facility by the Borrower under Clause 10.5 (*Voluntary prepayment*) of the Credit Agreement (other than a voluntary prepayment complying with Clauses 17, 18 or 20 of the Finco Accession Agreement set out in Annex C of these Listing Particulars) in an amount not to exceed 10% of the original principal amount of the Term Loan AK Facility during each twelve-month period commencing on the date of the Finco Accession Agreement, the Borrower under the Term Loan AK Facility agrees to pay to the Facility Agent (for the account of the Issuer) an amount equal to 3.0% of the principal amount of the Term Loan AK Facility being prepaid, plus accrued and unpaid interest then due on the amount of the Term Loan AK Facility Loan prepaid to the due date of prepayment. Such payment

shall be due and payable by the Borrower under the Term Loan AK Facility to the Facility Agent (for the account of the Issuer) on the actual date of such prepayment. Prior to December 1, 2022, to the extent that during any twelve-month period commencing on the date of the Finco Accession Agreement AK, the principal amount of the Term Loan AK Facility prepaid in any one or more voluntary prepayments is greater than an amount equal to 10% of the original principal amount of the Term Loan AK Facility (any such amount, the “**Excess Early Redemption Proceeds**”), the Borrower will apply the Excess Early Redemption Proceeds to a voluntary prepayment of the Term Loan AK Facility as described in the paragraph above.

At any time prior to December 1, 2022, upon the occurrence of any voluntary prepayment of the Term Loan AK Facility by the Borrower pursuant to Clause 10.5 (*Voluntary Prepayment*) of the Senior Credit Facility with the Net Cash Proceeds (as defined in the Finco Accession Agreement) of one or more Equity Offerings (as defined in the Finco Accession Agreement) (the “**Equity Offering Early Redemption Proceeds**”) in an amount not to exceed 40% of the Term Loan AK Facility, the Borrower shall make a payment to the Facility Agent (for the account of the Issuer) in an amount equal to 3.500% of the principal amount of the Term Loan AK Facility prepaid, plus accrued interest then due on the amount of the Term Loan AK Facility prepaid to the due date of prepayment. Such payment shall be due and payable by the Borrower to the Facility Agent (for the account of the Issuer) under the Term Loan AK Facility on the actual date of such prepayment.

On or after December 1, 2022, upon a voluntary prepayment of any or all of the Term Loan AK Facility (other than a voluntary prepayment complying with Clause 17, 18, 19 and 21 the Finco Accession Agreement set out in Annex C of these Listing Particulars), the Borrower will pay to the Facility Agent an amount equal to the relevant percentage of the principal amount of the Term Loan AK Facility being prepaid as set forth below (plus accrued and unpaid interest then due), plus accrued and unpaid interest to the date of such prepayment, if prepaid during the twelve-month period beginning on December 1 of the years indicated below.

Year	Prepayment Amount

The Intercreditor Agreement

The Intercreditor Agreement was entered into on October 10, 2007 and has been amended and restated from time to time (most recently on August 10, 2017) by, among others, various creditors of the Telenet Group together with the Effective Date Debtors, the Effective Date Security Grantors, the Effective Date Subordinated Creditors, the Mandated Lead Arrangers, the Senior Agent and the Security Agent, in each case, as defined therein or as set out below:

The Financial Institutions:	Lenders (as defined in the Senior Facilities Agreement)
Mandated Lead Arrangers:	ABN AMRO Bank N.V., BNP Paribas S.A., and J.P. Morgan Plc
Intra-Group Lenders:	Telenet BVBA, Telenet Group BVBA, Telenet International Finance, Telenet Financing USD, Finance Center Telenet S.à r.l., Ulana Business Management Ltd, Coditel Brabant BVBA, Telenet Vlaanderen NV, Telenet Retail BVBA, Telenet Luxembourg Finance Center S.à r.l., Telenet Solutions Luxembourg S.A.

Subordinated Creditors:	Telenet Group Holding NV
The Hedge Counterparties:	(a) each credit institution which is party to the Intercreditor Agreement as a “Hedging Bank” on the Effective Date; and (b) any Acceptable Hedge Counterparty which becomes Party as a Hedge Counterparty pursuant to Clause 22.11 (Creditor Accession Undertaking) to the extent permitted or not prohibited by each of the Debt Documents.
Upon Accession Second Lien Agent:	each Agent under and as defined in a Second Lien Facilities Agreement which accedes to the Intercreditor Agreement pursuant to Clause 22.11 (Creditor Accession Undertaking).
Second Lien Lender:	“Lender” (or equivalent) under and as defined in any Second Lien Facilities Agreement.
Second Lien Notes Trustee:	any entity acting as a trustee or representative under any issue of Second Lien Notes and which accedes to the Intercreditor Agreement pursuant Clause 22.13 (Accession of Second Lien Notes Trustee).
Senior Secured Notes Trustee:	any entity acting as a trustee or representative under any issue of Senior Secured Notes and which accedes to the Intercreditor Agreement pursuant to Clause 22.14 (Accession of Senior Secured Notes Trustee).
High Yield Notes Trustee:	any entity acting as a trustee or representative under any issue of High Yield Notes and which accedes to the Intercreditor Agreement pursuant to Clause 22.12 (Accession of High Yield Notes Trustee).
Pari Passu Debt Representative:	any entity acting as trustee or creditor representative for the Pari Passu Creditors under any Pari Passu Debt Document and which accedes to the Intercreditor Agreement pursuant to Clause 22.6 (New Pari Passu Creditors and Pari Passu Debt Representatives).

The Intercreditor Agreement regulates the relationship and rights between these creditors, including (but not limited to) the ranking of their claims, the enforcement of security, the turnover of proceeds and the sharing of losses. A copy of the Intercreditor Agreement is set forth as Annex D to these Listing Particulars. Capitalised terms used in this section entitled “*The Intercreditor Agreement*” shall have the meaning given to them in the Intercreditor Agreement unless otherwise defined herein.

Ranking and Subordination

The Intercreditor Agreement provides that, the liabilities owed by the Debtors (other than a HY Issuer) to the Primary Creditors, Subordinated Creditors and/or Intra-Group Lenders shall rank as follows:

- First: the Senior Lender Liabilities, the Senior Secured Notes Liabilities, the Pari Passu Debt Liabilities, the Hedging Liabilities, the Agent Liabilities, the Arranger Liabilities, the Second Lien Liabilities (but subject to Clause 2.2 (Transaction Security of the Intercreditor Agreement), the Senior Secured Notes Trustee Amounts, the Second Lien Notes Trustee Amounts, the High Yield Notes Trustee Amounts and the Pari Passu Debt Representative Amounts (pari passu among themselves);
- Second: the High Yield Note Liabilities (pari passu among themselves);
- Third: the Subordinated Liabilities; and
- Fourth: the Intra-Group Liabilities.

The liabilities owed by a HY Issuer to the Primary Creditors shall rank in right and priority of payment pari passu between themselves and without any preference between them (but subject to Clause 2.2 (Transaction Security of the Intercreditor Agreement)).

The Intercreditor Agreement provides that the Transaction Security shall rank and secure the following Liabilities in the following order:

- First, the Senior Lender Liabilities, the Senior Secured Notes Liabilities, the Pari Passu Debt Liabilities, the Senior Agent Liabilities, the Senior Arranger Liabilities, the Senior Secured Notes Trustee Amounts, the Pari Passu Debt Representative Amounts and the Hedging Liabilities (but, in the case of Transaction Security granted under the Pre-Effective Date Security Documents, only to the extent that such Transaction Security is expressed to secure those Liabilities, but without prejudice to Clause 17 (Application of Proceeds) and Clause 18 (Equalisation) of the Intercreditor Agreement), pari passu and without any preference between them; and
- Second, the Second Lien Liabilities.

Undertakings

In order to facilitate the ranking as described, certain parties to the Intercreditor Agreement have provided undertakings restricting their ability to take various steps that might affect such ranking. In particular:

- The debtors in respect of the Subordinated Liabilities (each a “**Subordinated Creditor**”) and the Debtors have undertaken, among other things, that they will not, until the Final Discharge Date, pay, permit any security to subsist for, or give any guarantee in respect of, the Subordinated Liabilities, except for, among others, Permitted Subordinated Creditor Payments.
- Each Hedging Bank has undertaken, among other things, that they will not, until the later of (a) Senior Lender Discharge Date; (b) the Senior Secured Notes Discharge Date; and (c) the Pari Passu Debt Discharge Date, or without the Majority Senior Creditors’ demand or receive payment from the Debtors, except for scheduled payments arising under the original terms of the hedging documents and as may be necessary to terminate or close out any permitted hedging transaction.
- The Senior Lenders, the Pari Passu Creditors and the Senior Secured Notes Creditors have undertaken not to obtain, take or receive from any Debtor, any member of the Group or any Security Grantor, the benefit of any security interest, guarantee, indemnity or other assurance against loss in respect of the Senior Lender Liabilities, the Pari Passu Debt Liabilities or the Senior Secured Notes Liabilities other than under the Security Facilities Agreement, the Intercreditor Agreement or any Common Assurance which is given to all the Senior Secured Parties in respect of their Liabilities and ranks in the same order of priority as that contemplated in the Intercreditor Agreement.

Turnover

The Intercreditor Agreement contains a covenant which, among other things, requires any Creditor that receives or recovers a payment or distribution of, or on account of or in relation to, any of the Liabilities, except where such payment or distribution is excluded or permitted or made in accordance with the application of proceeds clause in the Intercreditor Agreement, that Creditor will hold that payment on trust for the Security Agent and pay the required amounts to the Security Agent for application in accordance with the terms of the Deed.

Security—Enforcement

- (a) The Intercreditor Agreement provides that the Security Agent may refrain from enforcing the Transaction Security unless instructed otherwise by:
 - (i) the Instructing Group; or
 - (ii) if required under paragraph (c) below, the Majority Second Lien Creditors.
- (b) Subject to the Transaction Security having become enforceable in accordance with its terms:
 - (i) the Instructing Group; or

- (ii) to the extent permitted to enforce or to require the enforcement of the Transaction Security prior to the Senior Discharge Date, the Majority Second Lien Creditors,

may give or refrain from giving instructions to the Security Agent to enforce or refrain from enforcing the Transaction Security as they see fit.

- (c) Prior to the Senior Discharge Date:

- (i) if the Instructing Group has instructed the Security Agent not to enforce or to cease enforcing the Transaction Security; or

- (ii) in the absence of instructions from the Instructing Group,

and, in each case, the Instructing Group has not required any Debtor to make a Distressed Disposal, the Security Agent shall give effect to any instructions to enforce the Transaction Security which the Majority Second Lien Creditors are then entitled to give to the Security Agent.

If at any time the Majority Second Lien Creditors are then entitled to give the Security Agent instructions to enforce the Transaction Security and the Majority Second Lien Creditors either give such instructions or indicate any intention to give such instructions, then either the Senior Agent or the Senior Secured Notes Representative(s) may give instructions to the Security Agent to enforce the Transaction Security as such Senior Agent or the Senior Secured Notes Representative(s) sees fit in lieu of any instructions to enforce given by the Majority Second Lien Creditors and the Security Agent shall act on the first such instructions received from the Senior Agent or the Senior Secured Notes Representative(s).

“Instructing Group” means at any time:

- a) prior to the Senior Secured Discharge Date, the Majority Senior Secured Creditors;
- b) on or after the Senior Secured Discharge Date but before the Second Lien Discharge Date, the Majority Second Lien Creditors; and
- c) on or after the later of the Senior Secured Discharge Date and the Second Lien Discharge Date but before the High Yield Discharge Date, the Majority High Yield Creditors (acting through the relevant High Yield Representative(s)).

“Majority Second Lien Creditors” means, at any time, those Second Lien Creditors whose Second Lien Credit Participations at that time aggregate more than 50% of the total Second Lien Credit Participations at that time.

Security—Distribution of Proceeds

The Intercreditor Agreement provides that all amounts received or recovered by the Security Agent pursuant to the terms of any Debt Document, except as stated therein, are to be applied by the Security Agent in the following order:

- a) in payment of all costs charges expenses and liabilities (and all interest due thereon) incurred by or on behalf of the Security Agent or by such other party as the case may be in connection with the realization of the security and any receiver, delegate, attorney or agent, in each case in connection with the carrying out or purporting to carry out, its duties or exercising its powers, and the remuneration of any such receiver, each on a pari passu basis;
- b) in discharging any sums owing to the Second Lien Agent, any sums owing to a Pari Passu Debt Representative and any Senior Secured Notes Trustee Amounts, Second Lien Notes Trustee Amounts or High Yield Notes Trustee Amounts on a pari passu basis;
- c) in payment to the Senior Agent on its own behalf and on behalf of the Arrangers and the Senior Lenders, each Pari Passu Debt Representative on its own behalf and on behalf of the Pari Passu Creditors, each Senior Secured Notes Representative on its own behalf and on behalf of the Senior Secured Notes Creditor and the Hedge Counterparties, for the application towards the discharge of

- sums owing to the Senior Agent (in respect of the Senior Agent Liabilities);
- sums owing to the Security Agent (other than as set out above);
- the Senior Arranger Liabilities and the Senior Lender Liabilities (in accordance with the terms of the Senior Finance Documents);
- the Pari Passu Debt Liabilities (in accordance with the terms of the Pari Passu Debt Documents);
- the Senior Secured Notes Liabilities (in accordance with the terms of the Senior Secured Notes Finance Documents); and
- the Hedging Liabilities (on a pro rata basis between the Hedging Liabilities of each Hedge Counterparty) (provided that, any Group Recoveries from a Non-ECP Debtor shall not be applied towards the discharge of any Hedging Liability that constitutes an Excluded Swap Obligation),

on a pro rata basis (excluding, for the purposes of calculating the pro rata distribution in accordance with this Clause, any amounts owed by a Debtor in respect of any Ancillary Facility or any Letter of Credit to the extent, and in the amount, that SFA Cash Cover has been provided by a Debtor in respect of that amount and is available to the relevant Lender (in respect of an Ancillary Facility) or the party it has been provided for (in respect of a Letter of Credit) pursuant to the relevant SFA Cash Cover Document) and ranking pari passu between subparagraphs above;

in payment to each Second Lien Representative on its own behalf and on behalf of the other Second Lien Finance Parties (other than the Security Agent) for application (in accordance with the terms of the Second Lien Finance Documents) towards the discharge of the Second Lien Liabilities on a pro rata and pari passu basis;

- a) in payment to each High Yield Representative on its own behalf and on behalf of the High Yield Notes Finance Parties for application towards the discharge of the High Yield Notes Liabilities; and
- b) to the extent there is a surplus, to the relevant Debtor or Security Grantor.

Restricted Amendments

The Intercreditor Agreement restricts certain amendments to the terms of the Hedging Agreements, Second Lien Finance Documents, High Yield Notes Finance Documents, Subordinated Creditor documents and Transaction Security Documents. In particular:

- In respect of the hedging debt, the Hedging Counterparty and the Debtors are permitted to make any amendments by mutual agreement to the hedging documents provided that:
 - the amendment or waiver does not breach another term of the Intercreditor Agreement; and
 - such amendment or waiver would not result in a breach of the terms of the Senior Facilities Agreement, the Senior Secured Notes Indenture(s) or the Pari Passu Debt Documents.
- In respect of the Second Lien Creditors, the Second Lien Creditors may amend or waive the terms of the Second Lien Finance Documents provided that prior to the Senior Secured Discharge Date, the Second Lien Creditors may not amend or waive the terms of the Second Lien Finance Documents without the prior consent of the Majority Senior Lenders and the relevant Senior Secured Notes Representatives and Pari Passu Debt Representatives if the amendment or waiver would result in the Second Lien Finance Documents not being in compliance with the terms of the Senior Facilities Agreement, the Senior Secured Notes Indenture(s) and/or the Pari Passu Debt Documents or a Second Lien Finance Document being inconsistent in any material respect with the Second Lien Major Terms.
- In respect of the High Yield Creditors, the High Yield Creditors may amend or waive the terms of the High Yield Notes Finance Documents (other than the Intercreditor Agreement) in accordance with their terms at any time, provided that Prior to the later of the Senior Secured Discharge Date and the Second

Lien Discharge Date, the High Yield Notes Finance Parties may not, without the consent of the Majority Senior Lenders, the Majority Second Lien Lenders, the relevant Senior Secured Notes Representative(s), the relevant Second Lien Representative(s), the Pari Passu Debt Representative(s) amend or waive the terms of the High Yield Notes Finance Documents if the amendment or waiver would result in the High Yield Notes Finance Documents not being in compliance with the terms of the Senior Facilities Agreement, any Second Lien Facilities Agreement, the Second Lien Notes Indenture(s), the Senior Secured Notes Indenture(s) and/or the Pari Passu Debt Documents or the High Yield Notes Finance Documents being inconsistent in any material respect with the High Yield Notes Major Terms.

- In respect of the Subordinated Creditor documents, Until after the Final Discharge Date, no Debtor nor any Subordinated Creditor will amend any term of any Subordinated Creditor Document in a manner or to an extent which would result in:
 - any Debtor being subject to obligations which would conflict with any provisions of the Intercreditor Agreement; or
 - the ranking and/or subordination provided for in the Intercreditor Agreement, being affected in any way that is materially adverse to the interests of the Senior Finance Parties, the Pari Passu Creditors, the Senior Secured Notes Finance Parties, the Hedge Counterparties, the Second Lien Finance Parties and/or the High Yield Notes Finance Parties,

in each case without the prior consent of the Majority Senior Creditors, the relevant Senior Secured Notes Representative(s), the relevant Pari Passu Debt Representative(s), the relevant Second Lien Representative(s), the Majority Second Lien Lenders and the High Yield Notes Trustee.

- In respect of the Transaction Security Documents, the Security Agent may, if authorised by an Instructing Group, and if Telenet BVBA Consents, amend the terms of, waive any of the requirements of or grant Consents under, any of the Transaction Security Documents which shall be binding on each Party. However, the prior Consent of the Senior Agent, the Second Lien Agent, each Senior Secured Notes Trustee, each Second Lien Notes Trustee, each Pari Passu Debt Representative the High Yield Notes Trustee and each Hedge Counterparty is required to authorise in case of any amendment or waiver of, or Consent under, any Transaction Security Document which would adversely affect the nature or scope of the Charged Property or the manner in which the proceeds of enforcement of the Transaction Security are distributed.

Equalization and Loss Sharing

The Intercreditor Agreement provides that, if for any reason, any Senior Secured Liabilities remain unpaid after the Enforcement Date and the resulting losses are not borne by the Senior Secured Creditors in the proportions which their respective Exposures at the Enforcement Date bore to the aggregate Exposures of all the Senior Secured Creditors at the Enforcement Date, the Senior Secured Creditors will make such payments amongst themselves as the Security Agent shall require to put the Senior Secured Creditors in such a position that (after taking into account such payments) those losses are borne in those proportions.

Description of the Related Agreements

Telenet Service Agreement

The Telenet Service Agreement is the agreement dated the Issue Date and entered into between the Issuer, Telenet International Finance and Telenet Group BVBA, pursuant to which Telenet International Finance will agree to reimburse the Issuer for certain recurring costs (the “**Recurring Costs**”) which may be incurred by the Issuer in connection with the offering of the Notes, Additional Debt and the Finco Loans including, but not limited to, fees and disbursements of legal counsel, fees in connection with the appointments of the Trustee and any paying agents in connection with the Notes, fees and expenses incurred in connection with the performance by the Issuer of its business including any indemnification of the Trustee, payments in respect of any applicable taxes owing by the Issuer and any Additional Amounts (as defined in “*Description of the Notes*”) payable in respect of the Notes which the Issuer is required to pay to holders of the Notes; and any amounts equal to any withholding taxes withheld on payments under the Finco Loans to the Issuer, to the extent not grossed up. Telenet International Finance’s obligations under the Telenet Service Agreement will be limited so that the maximum amount owed by them at any one time does not exceed the greater of €10 million and the available unused portion at that time of

the basket described in paragraph (ff) of the definition of “Permitted Financial Indebtedness” in the Senior Credit Facility (or any corresponding basket following the implementation of the Senior Credit Facility Amendments). The Telenet Service Agreement also provides that Telenet International Finance will agree certain undertakings in order to ensure compliance by the Issuer with certain covenants included in the Indenture. Telenet Group BVBA will agree to guarantee the payment obligations of Telenet International Finance of such sums under the Telenet Service Agreement to the Issuer.

Telenet Dollar Fee Letter

The Telenet Dollar Fee Letter is the agreement dated the Issue Date and entered into between the Issuer, Telenet International Finance and Telenet Group BVBA, pursuant to which Telenet International Finance has agreed to pay certain upfront fees for a determined amount of non-recurring up-front fees (the “**Non-Recurring USD Costs**”) incurred by the Issuer in connection with its accession to the Senior Credit Facility pursuant to the Finco Accession Agreement AJ and the subsequent Finco Loan AJ. Telenet Group BVBA has agreed to guarantee the payment obligations of Telenet International Finance of such sums under the Telenet Dollar Fee Letter to the Issuer.

Telenet Euro Fee Letter

The Telenet Euro Fee Letter is the agreement dated the Issue Date and entered into between the Issuer, Telenet International Finance and Telenet Group BVBA, pursuant to which Telenet International Finance has agreed to pay the Issuer certain upfront fees for a determined amount of non-recurring up-front fees (the “**Non-Recurring Euro Costs**”) incurred by the Issuer in connection with its accession to the Senior Credit Facility pursuant to the Finco Accession Agreement AK and the subsequent Finco Loan AK. Telenet Group BVBA has agreed to guarantee the payment obligations of Telenet International Finance of such sums under the Telenet Euro Fee Letter to the Issuer.

DESCRIPTION OF OTHER INDEBTEDNESS OF TELENET

The following contains a summary of the material provisions of the Senior Secured Notes after giving effect to the Refinancing. It does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the underlying documents.

Telenet Finance V Luxembourg Notes and Facility V under the Senior Credit Facility

On August 16, 2012, Telenet Finance V Luxembourg, an unaffiliated special purpose financing company created for the primary purpose of issuing senior notes, issued (i) €450.0 million principal amount of 6¹/₄% senior secured notes due 2022 (the “**2022 Notes**”) and (ii) €250.0 million principal amount of 6³/₄% senior secured notes due 2024 (the “**2024 Notes**” and together with the 2022 Notes, the “**Telenet Finance V Luxembourg Notes**”), each at par. Telenet Finance V Luxembourg used the proceeds of the 2022 Notes and the 2024 Notes to fund a new Facility U and Facility V, respectively, under the Senior Credit Facility, with Telenet International Finance as the borrower. Telenet International Finance used the net proceeds from Facility U and Facility V to grant a loan to Telenet Group Holding NV to partly fund the payment of an extraordinary dividend to the shareholders of Telenet Group Holding on May 8, 2013, and to service certain payments to Telenet Finance V Luxembourg in connection with the issuance of the Telenet Finance V Luxembourg Notes. The 2022 Notes and Facility U were repaid and cancelled in full on June 13, 2017.

Telenet Finance V Luxembourg is dependent on payments from Telenet International Finance under Facility V in order to service its payment obligations under the 2024 Notes. Although Telenet International Finance has no equity or voting interest in Telenet Finance V Luxembourg, the Facility V loan creates a variable interest in Telenet Finance V Luxembourg for which Telenet International Finance is the primary beneficiary, as contemplated by EU-IFRS. As such, Telenet International Finance and its parent entities, including Telenet Group Holding, are required by the provisions of EU-IFRS to consolidate Telenet Finance V Luxembourg following the issuance of the Telenet Finance V Luxembourg Notes. Accordingly, the amounts outstanding under Facility V will be eliminated within Telenet Group Holding’s consolidated financial statements.

The Telenet Finance V Luxembourg Notes were issued pursuant to an indenture, dated August 16, 2012. Facility V is made pursuant to a Facility V Accession Agreement (the “**Facility V Accession Agreement**”). Pursuant to the Facility V Accession Agreement, the call provisions, maturity and applicable interest rate for Facility V are the same as those of the 2024 Notes. Telenet Finance V Luxembourg, as a lender under the Senior Credit Facility, will be treated the same as the other lenders under the Senior Credit Facility and will have benefits, rights and protections that are similar to those benefits, rights and protections afforded to the other lenders.

Telenet Finance V Luxembourg is prohibited from incurring any additional indebtedness, subject to certain exceptions under the indenture governing the Telenet Finance V Luxembourg Notes.

The 2024 Notes are non-callable until August 15, 2018. At any time prior to August 15, 2018, upon the occurrence of an Early Redemption Event (being a voluntary prepayment of all or a portion of Facility V), Telenet Finance V Luxembourg will redeem an aggregate principal amount of the 2024 Notes equal to the amount of Facility V prepaid, at a redemption price equal to the sum of (i) 100% of the principal amount thereof, (ii) the excess of (a) the present value at such redemption date of (1) the redemption price on August 15, 2018, plus (2) all required remaining scheduled interest payments due through August 15, 2018, computed using the discount rate specified in the indenture, over (b) the principal amount of the 2024 Notes on the redemption date and (iii) accrued but unpaid interest and additional amounts, if any, to the applicable redemption date. On or after August 15, 2018, upon the occurrence of an Early Redemption Event (as defined in the indenture), Telenet Finance V Luxembourg will redeem an aggregate principal amount of the 2024 Notes equal to the principal amount of Facility V prepaid at the redemption prices set forth in the indenture governing the 2024 Notes, plus accrued and unpaid interest and additional amounts, if any, to the applicable redemption date.

Telenet Finance VI Luxembourg Notes and Facility AB under the Senior Credit Facility

On July 24, 2015 Telenet Finance VI Luxembourg, an unaffiliated special purpose financing company, created for the primary purpose of issuing senior notes, issued €530.0 million principal amount of 4⁷/₈% senior secured notes due 2027, at an issue price of 98.885% (the “**Telenet Finance VI Luxembourg Notes**”). Telenet Finance VI Luxembourg used the proceeds from the Telenet Finance VI Luxembourg Notes to fund an additional facility (the “**Facility AB**”) under the Senior Credit Facility, with Telenet International Finance as borrower. Telenet

International Finance used substantially all of the proceeds from Facility AB to repay Facility M under the Senior Credit Facility, and to service certain payments to Telenet Finance VI Luxembourg in connection with the issuance of the Telenet Finance VI Luxembourg Notes. The remainder of the proceeds from the new Facility AB was used for general corporate purposes of the Telenet Group.

Telenet Finance VI Luxembourg is dependent on payments from Telenet International Finance under Facility AB in order to service its payment obligations under the Telenet Finance VI Luxembourg Notes. Although Telenet International Finance has no equity or voting interest in Telenet Finance VI Luxembourg, Facility AB creates a variable interest in Telenet Finance VI Luxembourg for which Telenet International Finance is the primary beneficiary, as contemplated by EU-IFRS. As such, Telenet International Finance and its parent entities, including Telenet Group Holding, are required by the provisions of EU-IFRS to consolidate Telenet Finance VI Luxembourg following the issuance of the Telenet Finance VI Luxembourg Notes. Accordingly, the amounts outstanding under the Facility AB will be eliminated within the Telenet Group Holding's consolidated financial statements.

The Telenet Finance VI Luxembourg Notes have been issued pursuant to an indenture, dated July 24, 2015. Facility AB is made pursuant to a Facility AB Accession Agreement (the "**Facility AB Accession Agreement**"). Pursuant to the Facility AB Accession Agreement, the call provisions, the maturity and the applicable interest rate for Facility AB are the same as those of the Telenet Finance VI Luxembourg Notes. Telenet Finance VI Luxembourg, as a lender under the Senior Credit Facility, will be treated the same as the other lenders under the Senior Credit Facility and will have benefits, rights and protections that are similar to those benefits, rights and protections afforded to the other Telenet Lenders.

Telenet Finance VI Luxembourg is prohibited from incurring any additional indebtedness, subject to certain exceptions under the indenture governing the Telenet Finance VI Luxembourg Notes.

At the election of Telenet International Finance, the Telenet Finance VI Luxembourg Notes may be assigned to a Belgian special purpose financing company (the "**Telenet VI Belgian SPV Issuer**") for the purposes of assuming Telenet Finance VI Luxembourg's rights and obligations under the Telenet Finance VI Luxembourg Notes, the indenture governing the Telenet Finance VI Luxembourg Notes, the Intercreditor Agreement, the Senior Credit Facility and other related transaction documents (the "**Telenet VI Belgian SPV Issuer Accession**"). In addition, at the election of Telenet International Finance, Facility AB may be exchanged, on a cash or cashless basis, for a loan under a new additional facility under the Senior Credit Facility ("**Facility AC**") in an equal principal amount and having substantially identical terms (other than with respect to the borrower of such loan) as Facility AB.

The Telenet Finance VI Luxembourg Notes are non-callable until July 15, 2021. At any time prior to July 15, 2021, upon the occurrence of an Early Redemption Event (being a voluntary prepayment of all or a portion of Facility AB or Facility AC (as applicable)) (other than in the case of Facility AB, in connection with the implementation of Facility AC or in the case of each such Facility, as described in the paragraph below), Telenet Finance VI Luxembourg (or following the Telenet VI Belgian SPV Issuer Accession, the Telenet VI Belgian SPV Issuer) will redeem an aggregate principal amount of the Telenet Finance VI Luxembourg Notes equal to the amount of Facility AB or Facility AC, as applicable, prepaid, at a redemption price equal to the sum of (i) 100% of the principal amount thereof, (ii) the excess of (a) the present value at such redemption date of (1) the redemption price on July 15, 2021, plus (2) all required remaining scheduled interest payments due through July 15, 2021, computed using the discount rate specified in the indenture, over (b) the principal amount of the Telenet Finance VI Luxembourg Notes on the redemption date and (iii) accrued but unpaid interest and additional amounts, if any, to the applicable redemption date. On or after July 15, 2021, upon the occurrence of an Early Redemption Event (as defined in the indenture), Telenet Finance VI Luxembourg (or following the Telenet VI Belgian SPV Issuer Accession, the Telenet VI Belgian SPV Issuer) will redeem an aggregate principal amount of the Telenet Finance VI Luxembourg Notes equal to the principal amount of Facility AB or Facility AC, as applicable, prepaid at the redemption prices set forth in the indenture governing the Telenet Finance VI Luxembourg Notes, plus accrued and unpaid interest and additional amounts, if any, to the applicable redemption date.

Prior to July 15, 2021, upon the occurrence of an Early Redemption Event, Telenet Finance VI Luxembourg (or following the Telenet VI Belgian SPV Issuer Accession, the Telenet VI Belgian SPV Issuer) will redeem an aggregate principal amount of the Telenet Finance VI Luxembourg Notes equal to the principal amount of Facility AB or Facility AC, as applicable, prepaid (not to exceed an amount equal to 10% of the principal amount of Facility AB or Facility AC, as applicable), at a redemption price equal to 103% of the principal amount of the Telenet Finance VI Luxembourg Notes redeemed, plus accrued and unpaid interest and additional amounts, if any, to the date of redemption. In addition, at any time prior to July 15, 2018, upon the occurrence of an Early

Redemption Event, Telenet Finance VI Luxembourg (or following the Telenet VI Belgian SPV Issuer Accession, the Telenet VI Belgian SPV Issuer) will redeem an aggregate principal amount of the Telenet Finance VI Luxembourg Notes equal to the principal amount of Facility AB or Facility AC, as applicable, prepaid with the proceeds of certain equity offerings (not to exceed an amount equal to 40% of the principal amount of Facility AB or Facility AC, as applicable), at a redemption price equal to 104.875%, plus accrued and unpaid interest and additional amounts, if any, to the redemption date; provided that at least 50% of the principal amount of the Telenet Finance VI Luxembourg Notes remain outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

The Collateral Sharing Agreement

The terms defined in this section entitled “—*Collateral Sharing Agreement*” are for the purposes of this description of the Collateral Sharing Agreement only. To establish the relative rights of the Senior Creditors (as defined below), the Issuer (and together with the Belgian Issuer following its accession to the Collateral Sharing Agreement in its capacity as such, the “**Debtor**”) will enter into a collateral sharing agreement (the “**Collateral Sharing Agreement**”) with, amongst others:

- The Bank of New York Mellon, London Branch in its capacity as security trustee under the Collateral Sharing Agreement (the “**Security Trustee**”); and
- The Trustee (the “**Original Note Trustee**”) on its behalf and on behalf of the holders of the Notes.

The Collateral Sharing Agreement will regulate the rights, title and interest of the Senior Creditors (as defined below) in respect of the Shared Security Documents (as defined below) and sets out, among other things, the relative ranking of certain debt of the Debtors, the consent levels of Senior Creditors required in order to cast their votes and exercise their rights in respect of consents, instructions, rights and remedies under the Senior Credit Facility, when enforcement action can be taken in respect of the Shared Security Documents (as defined below) by the Security Trustee and the turnover provisions.

The following description is a summary of certain provisions, among others, that are contained in the Collateral Sharing Agreement and which relate to the rights and obligations of the Debtor and the Senior Creditors.

Certain Definitions

“**Accelerated Default**” means (i) any enforcement action taken or made under or in respect of any Note Document or under any corresponding Senior Facilities Loan or (ii) any enforcement action taken or made under or in respect of any Pari Passu Debt Document or under any corresponding Senior Facilities Loan;

“**Belgian Issuer Accession**” means an accession by the Belgian Issuer to the Collateral Sharing Agreement;

“**Belgian Issuer Accession Date**” means the date of the Belgian Issuer Accession;

“**Debt Document**” means the Note Documents and the Pari Passu Debt Documents;

“**Initial Telenet Service Agreement**” means the service agreement dated on or about the Issue Date, entered into between the Issuer, Telenet International Finance S.à r.l. and Telenet Group BVBA, as may be amended, modified or restated from time to time;

“**Instructing Group**” means, at any time, those Senior Creditors (other than any Senior Creditor who, pursuant to the Debt Documents in effect at such time, is not entitled to vote) representing Secured Obligations which constitute at that time in aggregate more than 50% of the Secured Obligations;

“**Intercreditor Agreement Lender Right**” means any instruction, direction, rights or remedies which a Senior Lender (as defined in the Intercreditor Agreement) is entitled to give or otherwise exercise under the Intercreditor Agreement;

“**Intercreditor Agreement Voting Request**” means any request made to the any Debtor in its capacity as a Senior Lender (as defined in the Intercreditor Agreement) at any time for a consent, amendment, release, waiver, direction, instruction or any other vote under or in connection with the Intercreditor Agreement;

“Intercreditor Debt Document” has the meaning given to the term “Debt Document” under the Intercreditor Agreement;

“Issuer” refers to (i) Telenet Finance Luxembourg Notes S.à r.l. prior to the Belgian Issuer Accession Date and (ii) the Belgian Issuer after the Belgian Issuer Accession Date, as the case may be;

“Liabilities” means all present and future liabilities of the Debtor to the Senior Creditors under the Debt Documents and present and future liabilities of members of the Senior Facilities Group to the Debtor (in their respective capacities as a lender under the Senior Credit Facility) under the Senior Credit Facility, in each case both actual and contingent and whether incurred solely or jointly in any other capacity together with any of the following matters relating to or arising in respect of those liabilities and obligations (i) any refinancing, novation, deferral or extension of that liability, (ii) any claim for misrepresentation or breach of warranty or undertaking or on an event of default or under any indemnity in connection with any document or agreement evidencing or constituting any other liability or obligation, (iii) any claim for damages or restitution, (iv) any claim resulting from any recovery by the Debtor or member of the Senior Facilities Group (as applicable) on the grounds of preference or otherwise falling within this definition; and (v) any amount (such as post- insolvency interest) which would be included in any of the above but for its discharge, non-provability, enforceability or non-allowability in any insolvency or other proceedings;

“New Shared Security Documents” means, on or after the Belgian Issuer Accession Date, the following security documents:

- (a) a first-ranking pledge over the rights of the Belgian Issuer under the Finance Documents (as defined in the Senior Credit Facility) (including the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, and any other Finco Accession Agreements) in respect of which the Belgian Issuer has any right, title, benefit and/or interest, the Intercreditor Agreement and any related fee letters;
- (b) a first-ranking pledge over the rights of the Belgian Issuer under the New Telenet Service Agreement; and
- (c) a first-ranking pledge over certain of the bank accounts of the Belgian Issuer;

“New Telenet Service Agreement” means the service agreement to be dated on or about the Belgian Issuer Accession Date between the Belgian Issuer and certain members of the Senior Facilities Group, as may be amended, modified or restated from time to time;

“Note Creditor” means the Noteholders and each Note Trustee;

“Note Debt” means the Liabilities of the Debtor to the holders of the Notes and each Note Trustee under the Note Documents;

“Note Documents” means the Notes, each Note Indenture, the applicable Telenet Service Agreement, the Shared Security Documents, the Senior Credit Facility, the Collateral Sharing Agreement and all other documents evidencing the terms of the Notes, and any other agreement or document that may be entered into or executed pursuant thereto or in connection therewith evidencing Liabilities owed to any Note Creditor in connection with the issue of the Notes;

“Note Indenture” means:

- (a) the Original Indenture; and
- (b) any subsequent indenture between, amongst others, the Debtor, a Note Trustee and the Security Trustee governing the terms of issuance of any Notes;

“Note Trustee” means the Original Note Trustee and any additional note trustee who has acceded to the Collateral Sharing Agreement in accordance with the relevant provisions of the Collateral Sharing Agreement;

“Note Trustee Amounts” means all amounts incurred by and/or payable to any Note Trustee (or to be payable to any paying agent, custodian or other person appointed in accordance with the Note Documents and any VAT payable on such amounts, personally and for its own account, by way of fees, costs, charges, expenses (including

legal and other professional advisors' fees) or by way of indemnity and remuneration pursuant to any relevant Note Document including any costs incurred in defending or disputing any of the foregoing and including all taxes on the foregoing (but excluding (i) any payment in relation to any unpaid costs and expenses incurred in respect of any litigation by or on behalf of any Note Trustee or any Note Creditors against any of the other Senior Creditors and (ii) any payment made directly or indirectly on or in respect of any amounts owing under any Notes Debt (other than those amounts which are Note Trustee Amounts) (including principal, interest, premium or any other amounts) to any of the Noteholders);

"Noteholders" means any holder of Notes under any Note Indenture;

"Notes" means the Original Notes and any other notes issued by the Debtor under any Note Indenture where the additional trustee has acceded to the Collateral Sharing Agreement in accordance with the relevant provisions of the Collateral Sharing Agreement;

"Original Note Indenture" means the Indenture;

"Original Notes" means the Notes offered pursuant to the Original Note Indenture;

"Original Shared Security Documents" means, prior to the Belgian Issuer Accession Date, the following security documents:

- (a) an English law governed assignment agreement dated on or about the date of the Collateral Sharing Agreement between the Issuer as security provider and the Security Trustee in relation to the rights of the Issuer under the Finance Documents (as defined in the Senior Credit Facility) (including the 2017 Finco Accession Agreements and any other Finco Accession Agreements) in respect of which the Issuer has any right, title, benefit and/or interest, the Intercreditor Agreement and any related fee letters;
- (b) an English law governed assignment agreement between the Issuer as security provider and the Security Trustee in relation to the rights of the Issuer under the Initial Telenet Service Agreement; and
- (c) a first-ranking charge or other security interest over certain of the bank accounts of the Issuer;

"Pari Passu Creditors" means the lenders or other creditors in respect of any Pari Passu Debt and the Pari Passu Debt Representative(s);

"Pari Passu Debt" means the Liabilities of the Debtor to the Pari Passu Creditors under the Pari Passu Debt Documents;

"Pari Passu Debt Documents" means each document or instrument entered into between the Debtor and a Pari Passu Creditor setting out the terms of any loan, credit or debt facility, notes, indenture or security which creates or evidences any Pari Passu Debt including the Shared Security Documents, the Collateral Sharing Agreement and the applicable Telenet Service Agreement;

"Pari Passu Debt Representative" means any entity acting as trustee or creditor representative for the Pari Passu Creditors under the Pari Passu Debt Documents where the trustee or creditor representative has acceded to the Collateral Sharing Agreement in accordance with the relevant provisions of the Collateral Sharing Agreement;

"Pari Passu Debt Representative Amounts" means fees, expenses and other amounts owed by and/or payable by the Debtor to each Pari Passu Debt Representative under the Pari Passu Debt Documents including (i) any amounts payable to a Pari Passu Debt Representative personally by way of indemnity and/ or remuneration pursuant to a Pari Passu Debt Document (including guarantees of such amounts contained therein) or any other document entered into in connection with the incurrence of Pari Passu Debt, (ii) compensation for and the fees and expenses of the collection by any Pari Passu Debt Representative of any amount payable to such Pari Passu Debt Representative for the benefit of the other Pari Passu Creditors; (iii) the costs of any actual or attempted security enforcement action (including the fees and expenses of the Pari Passu Debt Representative's agents and counsel); and (iv) amounts to be payable to any paying agent, registrar or any agent, custodian or other person appointed in accordance with the Pari Passu Debt Documents by any Pari Passu Debt Representative in relation to the Pari Passu Debt and any VAT payable on such amount, provided that, for the avoidance of doubt, Pari Passu Debt Representative Amounts shall not include (i) any payment in relation to any unpaid costs and expenses incurred in respect of any litigation by or on behalf of any Pari Passu Debt Representative or any Pari Passu

Creditor against any of the other Senior Creditors and (ii) any payment made directly or indirectly on or in respect of any amounts owing in respect of the Pari Passu Debt (other than those amounts which are Pari Passu Debt Representative Amounts) (including principal, interest, premium or any other amounts) to any of the Pari Passu Creditors);

“Secured Obligations” means the Senior Debt;

“Security” means the security created, evidenced or conferred by or pursuant to any of the Shared Security Documents;

“Senior Creditors” means all of the creditors of the Senior Debt; **“Senior Debt”** means the Note Debt and the Pari Passu Debt;

“Senior Credit Facility Lender Right” means any instruction, direction, rights or remedies which any Debtor in its capacity as a lender under the Senior Credit Facility is entitled to give or otherwise exercise under the Senior Credit Facility;

“Senior Credit Facility Voting Request” means any request made to any Debtor in its capacity as a lender under the Senior Credit Facility at any time for a consent, amendment, release, waiver, direction, instruction or any other vote under or in connection with the Senior Credit Facility;

“Senior Facilities Group” means the “Group” as defined in the Senior Credit Facility; **“Senior Facilities Loans”** means the loans funded under the Senior Credit Facility; **“Shared Security Documents”** means:

- (a) prior to the Belgian Issuer Accession Date, each of the Original Shared Security Documents and, following the Belgian Issuer Accession Date, each of the New Shared Security Documents;
- (b) any document designated as a Shared Security Document by the Debtor and the Security Trustee; and
- (c) document or agreement designated as a Shared Security Document by the Debtor and the Security Trustee;

“Telenet Service Agreement” means (i) the Initial Telenet Service Agreement prior to the Belgian Issuer Accession Date and (ii) the New Telenet Service Agreement after the Belgian Issuer Accession Date, as the case may be;

Ranking

The Collateral Sharing Agreement provides, subject to certain provisions, that the Note Debt and the Pari Passu Debt will rank in right and priority of payment *pari passu* amongst themselves and the Shared Security Documents secure the Note Debt and the Pari Passu Debt owed to the Senior Creditors *pari passu* amongst themselves.

Enforcement

At any time after an Accelerated Default has occurred and whilst it is continuing, the Security Trustee may enforce the Security and/or dispose of an asset which is the subject of the Security or the shares in or Liabilities or obligations of the Debtor and/or collect and receive payments or distributions which may be payable in relation to any Senior Debt.

Pursuant to the terms of the Collateral Sharing Agreement, no Senior Creditor will have any independent power to enforce, or has recourse to, any Security except through the Security Trustee, and the Security Trustee will enforce the Security if so instructed to do so by the Instructing Group (who may give or refrain from giving instructions to the Security Trustee to enforce or refrain from enforcing the Security as it sees fit). The Security Trustee will not be obliged to enforce the Security if it has not received security and/or been indemnified to its satisfaction and each of the Senior Creditors waives all rights to require that the Security is enforced in any particular order or manner or at any particular time or that any sum received or recovered from any person which is capable of being applied in or towards discharge of any of the Liabilities is so applied.

Releases and Disposals of Security

If, in connection with the enforcement of Security, the Security Trustee sells or otherwise disposes of any asset under the Shared Security Documents, the Security Trustee can release the Security created pursuant to the Shared Security Documents over the relevant asset and apply the proceeds in accordance with the “*Application of Proceeds*” section described below.

Application of Proceeds

All amounts from time to time received or recovered by the Security Trustee pursuant to the provisions of the Debt Documents or in connection with the realisation or enforcement of all of any part of the Security (the “**Recoveries**”) will be applied at any time as the Security Trustee sees fit, and to the extent permitted by law, in the following order:

- first, in or towards payment (i) first to the Security Trustee in respect of any amounts payable to it in its personal capacity (and all interest thereon as provided for in the relevant Debt Documents) and any receiver, attorney or agent under or in connection with the Collateral Sharing Agreement or the Shared Security Documents (including without limitation, in connection with the perfection, preservation or actual or attempted enforcement of the Security and any indemnity or remuneration, fees and other expenses or costs); and then *pari passu* (ii) to each Note Trustee in respect of Note Trustee Amounts and (iii) each Pari Passu Debt Representative in respect of Pari Passu Debt Representative Amounts;
- second, in payment or distribution on a pro rata basis and *pari passu* to each Note Trustee on behalf of the Noteholders under all Note Indentures and each Pari Passu Debt Representative on behalf of the Pari Passu Creditors under the Pari Passu Debt Documents for application towards the discharge of (i) the Note Debt owed to the Noteholders and (ii) the Pari Passu Debt owed to the Pari Passu Creditors; and
- third, the surplus, if any, in payment to the Debtor.

The Collateral Sharing Agreement provides that, in certain circumstances, the Security Trustee can at its discretion hold any amount of the Recoveries in an interest bearing suspense or impersonal account(s) in the name of the Security Trustee for so long as the Security Trustee shall think fit until otherwise directed by the Instructing Group (the interest being credited to the relevant account) for later application from time to time of those monies in the Security Trustee’s discretion.

Turnover of Proceeds

The Collateral Sharing Agreement provides that, subject to certain provisions, if any Senior Creditor receives or recovers the proceeds of any enforcement of Security, otherwise than in accordance with the “*Application of Proceeds*” section described above, subject to certain exceptions, such Senior Creditor must promptly notify the Security Trustee and, in accordance with the terms of the Intercreditor Agreement, hold an amount of that receipt or recovery on trust for the Security Trustee and promptly pay that amount to the Security Trustee for application in accordance with the “*Application of Proceeds*” section described above. Each Debtor is under a similar obligation to turn over any amounts received or recovered under the Senior Credit Facility, following the acceleration of the Senior Debt or any enforcement of the Security, or at any time under the Intercreditor Agreement to the Security Trustee.

Amendments and Waivers—Collateral Sharing Agreement

Other than technical amendments or waivers made to or in relation to the Collateral Sharing Agreement: (i) to correct any manifest error or typographical error; (ii) to resolve ambiguities or inconsistencies or to effect changes of a minor, technical, operational or administrative nature, or, (iii) for the purposes of addressing technical issues arising under local law and in connection with the Security, which in each case may be agreed in writing between the Security Trustee and the Debtor, the Collateral Sharing Agreement may, subject to certain exceptions, only be amended or waived with the written agreement of the Note Trustee and Pari Passu Debt Representative acting in accordance with the required consent of each of the applicable Senior Creditors under the applicable Debt Documents.

To the extent an amendment, waiver or consent affects only one tranche of Debt and such amendment, waiver or consent could not reasonably be expected to materially and adversely affect the interests of the Senior Creditors

of the other tranches of Debt, only written agreement from the representative of that tranche of Senior Debt is required in each case, acting in accordance with the required consent of the applicable Senior Creditors under the applicable Debt Documents.

Amendments and Waivers—Shared Security Documents

Any provision of a Shared Security Document may be amended or waived by the written agreement of the Debtor and the Security Trustee (acting in accordance with the provisions of the Collateral Sharing Agreement and the relevant Shared Security Documents).

Additional Senior Debt

The Debtor may borrow additional loans and/or issue new note debt at any time without the prior consent of any other Senior Creditor, provided that, in each case, the incurrence of such Note Debt and Pari Passu Debt is permitted or not prohibited under the Debt Documents existing at the time of such issue, and (subject to certain accession requirements), once incurred, any such new Note Debt and new Pari Passu Debt shall be treated as Senior Debt for the purposes of the Collateral Sharing Agreement.

Intercreditor Agreement

In relation to an Intercreditor Agreement Voting Request or in respect of any Intercreditor Agreement Lender Right which the Debtor becomes entitled to exercise, the Debtor will cast its vote in respect of such Intercreditor Agreement Voting Request or exercise its right in respect of such Intercreditor Agreement Lender Right in accordance with the instructions of the Instructing Group provided that (other than with respect to certain specified Intercreditor Agreement Voting Requests including relating to the direction or instruction to the security agent under the Intercreditor Agreement in relation to any enforcement action thereunder) to the extent a corresponding request is not required to be submitted to the relevant Senior Creditors pursuant to the terms of any Debt Documents applicable to a specific tranche of Debt, the Secured Obligations of such tranche shall be deemed to be zero for the purposes of calculating the Instructing Group.

Senior Credit Facility

In relation to any Senior Credit Facility Voting Request or in respect of any Senior Credit Facility Lender Right which the Debtor becomes entitled to exercise, the Debtor will cast its vote or otherwise exercise such right in accordance with the terms of the Senior Credit Facility and any relevant Debt Documents.

Equalization

If, for any reason, any Senior Debt remains unpaid after the first date on which certain specified enforcement action is taken and the resulting losses are not borne by the Senior Creditors in the proportions which their respective exposures at that date bore to the aggregate exposures of all the Senior Creditors at such date, the Senior Creditors (subject to certain terms) will make such payments amongst themselves as the Security Trustee shall require to put the Senior Creditors in such a position that (after taking into account such payments) those losses are borne in those proportions.

DESCRIPTION OF THE NOTES

Telenet Finance Luxembourg Notes S.à r.l. issued \$1,000 million of its 5.500% senior secured notes due 2028 (the “**Dollar Notes**”) and €600.0 million of its 3.500% senior secured notes due 2028 (the “**Euro Notes**” and, together with the Dollar Notes, the “**Notes**”) under an indenture (the “**Indenture**”) between, among others, the Issuer (as defined below), The Bank of New York Mellon, London Branch, as trustee (the “**Trustee**”) and The Bank of New York Mellon, London Branch, as security trustee (the “**Security Trustee**”), in a private transaction that is not subject to the registration requirements of the U.S. Securities Act of 1933, as amended (the “**U.S. Securities Act**”). The terms of the Notes include those stated in the Indenture. The Notes Security Documents referred to below under the caption “—*Security*” define the terms of the mortgages, charges and/or assignments that secure the Notes.

You can find the definitions of certain terms used in this description under the subheading “—*Certain Definitions*”. In this description:

- (1) the term “**Issuer**” refers to (i) Telenet Finance Luxembourg Notes S.à r.l. (the “**Initial Issuer**”), a private limited liability company (*société à responsabilité limitée*) incorporated under the laws of the Grand Duchy of Luxembourg, having its registered office at 2, rue Peternelchen, L-2370 Howald, Luxembourg, registered with the Luxembourg Trade and Companies Register under number B219682 prior to the Belgian Issuer Accession Date (as defined below) and (ii) the Belgian Issuer (as defined below) after the Belgian Issuer Accession Date, as the case may be;
- (2) the term “**Telenet BVBA**” refers only to Telenet BVBA and not to any of its subsidiaries;
- (3) the term “**Telenet Group BVBA**” refers only to Telenet Group BVBA and not to any of its subsidiaries;
- (4) the term “**Telenet Bank Group**” refers to Telenet Group BVBA and its subsidiaries (excluding any Group Excluded Subsidiaries (as defined in the Senior Credit Facility)); and
- (5) the term “**Initial Telenet Borrower**” refers only to Telenet International Finance S.à r.l., a private limited liability company (*société à responsabilité limitée*), incorporated under the laws of the Grand Duchy of Luxembourg, having its registered office at 2, rue Peternelchen, L-2370 Howald, and registered with the Luxembourg Trade and Companies Register under number B155066 and not to any of its subsidiaries.

Certain additional defined terms used in this description but not defined below under “—*Certain Definitions*” or elsewhere in this Description of the Notes have the meanings assigned to them in the Indenture.

The following description is a summary of the material provisions of the Indenture and refers to the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements (as applicable), the 2017 Telenet Fee Letters, the Telenet Service Agreement or the New Telenet Service Agreement (as applicable), the Collateral Sharing Agreement and the Notes Security Documents. It does not restate those agreements in their entirety. We urge you to read the Indenture, the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements (as applicable), the 2017 Telenet Fee Letters, the Telenet Service Agreement or the New Telenet Service Agreement (as applicable), the Collateral Sharing Agreement and the Notes Security Documents because they, and not this description, define your direct and indirect rights as holders of the Notes. Copies of the Indenture, the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements (as applicable), the 2017 Telenet Fee Letters, the Telenet Service Agreement or the New Telenet Service Agreement (as applicable), the Collateral Sharing Agreement, the Notes Security Documents, and the Paying and Domiciliary Agency Agreement are available as described below under “—*Additional Information*”. The Senior Credit Facility is attached as Annex A to these Listing Particulars, the forms of each 2017 Finco Accession Agreement are attached as Annex B and Annex C to these Listing Particulars and the forms of each New Finco Accession Agreement are attached as Schedule 11 of each of Annex B and Annex C to these Listing Particulars.

The Notes are initially not held in definitive form and the registered holder of a Note is treated as the owner of it for all purposes. Only registered holders have rights under the Indenture.

The Issuer will apply to list the Notes on the Official List of the Luxembourg Stock Exchange and to trade on the Euro MTF of the Luxembourg Stock Exchange (the “**Euro MTF**”).

Brief Description of the Structure of the Offering

In connection with the offering of the Notes, the Issuer entered into (i) a Finco Accession Agreement with the Initial Telenet Borrower and the Telenet Facility Agent (the “**Finco Accession Agreement AJ**”), pursuant to which the Issuer made available to the Initial Telenet Borrower an additional facility under the Senior Credit Facility in a principal amount equal to the aggregate principal amount of the Dollar Notes issued in the offering and (ii) a Finco Accession Agreement with the Initial Telenet Borrower and the Telenet Facility Agent (the “**Finco Accession Agreement AK**”, together with the Finco Accession Agreement AJ, the “**2017 Finco Accession Agreements**”), pursuant to which the Issuer made available to the Initial Telenet Borrower an additional facility under the Senior Credit Facility in a principal amount equal to the aggregate principal amount of the Euro Notes issued in the offering. On the Issue Date, the Issuer (i) advanced the net proceeds of the issuance of the Dollar Notes, together with the fees payable to it (if any) by the Initial Telenet Borrower under the Telenet USD Fee Letter (as defined herein), pursuant to the Finco Accession Agreement AJ; and (ii) advanced the net proceeds of the issuance of the Euro Notes, together with the fees payable to it (if any) by the Initial Telenet Borrower under the Telenet EUR Fee Letter (as defined herein), pursuant to the Finco Accession Agreement AK.

The Issuer (or following the Belgian Issuer Accession (as defined below), the Belgian Issuer), as a lender under the Senior Credit Facility (a “**Telenet Lender**”), will be treated the same as all other lenders under that facility and will have benefits, rights and protections that are similar to those benefits, rights and protections afforded to other Telenet Lenders. Through the covenants in the Indenture and the security interests over the Issuer’s (or the Belgian Issuer’s) rights under the Finance Documents (as defined in the Senior Credit Facility) (including under the 2017 Finco Loans (as defined below) or the New Finco Loans (as defined below)) granted to the Security Trustee on behalf of itself, the Trustee and the holders of the Notes to secure the Issuer’s (or following the Belgian Issuer Accession, the Belgian Issuer’s) obligations under the Notes, the holders of the Notes will be provided indirectly with the benefits, rights and protections granted to the Issuer (or following the Belgian Issuer Accession, the Belgian Issuer) as a Telenet Lender, including the indirect benefit of the covenants contained in the Senior Credit Facility, the guarantees granted by the members of the Telenet Bank Group that are guarantors under the Senior Credit Facility and the security granted for the benefit of the Telenet Lenders. See “*Description of the Senior Credit Facility*”. Thus, in the case of the ongoing obligations of the Telenet Bank Group and the Initial Telenet Borrower or the Belgian Borrower (as defined below), as applicable, under the Senior Credit Facility, the Issuer (or following the Belgian Issuer Accession, the Belgian Issuer) will be treated in the same way as the other Telenet Lenders, with the right to vote as part of the lending group at the direction of the holders of each series of Notes (subject to certain pre-agreed amendments and consents referred to below under “—*2017 Finco Accession Agreements and the Senior Credit Facility*” and listed in Schedules 4, 5, 6, 7, 8, 9 and 10 of each 2017 Finco Accession Agreement or Schedules 4, 5, 6, 7, 8, 9 and 10 of each New Finco Accession Agreement (as defined below), as applicable) and to receive principal and interest on the 2017 Finco Loans, or the New Finco Loans, as applicable, which it will in turn use to make payments on the Notes. For a description of procedures under the Indenture and the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, regarding voting rights of holders of the relevant series of Notes with respect to decisions under the Senior Credit Facility, see below under “—*Amendment, Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements*”.

Under the Senior Credit Facility, to the extent the Telenet Bank Group is in compliance with certain financial covenants, the borrowers under the Senior Credit Facility, at their discretion and without the consent of the Telenet Lenders, are permitted to incur additional pari passu indebtedness pursuant to additional facilities under the Senior Credit Facility (the existing facilities, and any additional facilities under the Senior Credit Facility, the “**Facilities**”), which benefit from the protections provided to all Telenet Lenders, including the representations and warranties, covenants, guarantees and security provided thereunder. For a further description of the Senior Credit Facility, see “*Description of the Senior Credit Facility*”. The Senior Credit Facility is attached as Annex A to these Listing Particulars.

On the Issue Date, (i) the net proceeds of the offering of the Dollar Notes, together with the fees payable (if any) to the Issuer from the Initial Telenet Borrower under the Telenet USD Fee Letter, were used by the Issuer to fund a loan in a principal amount equal to \$1,000.0 million (the “**Finco Loan AJ**”) borrowed under an additional facility (“**Finco Facility AJ**”) under the Senior Credit Facility and (ii) the net proceeds of the offering of the Euro Notes, together with the fees payable (if any) to the Issuer from the Initial Telenet Borrower under the Telenet EUR Fee Letter, were used by the Issuer to fund a loan in a principal amount equal to €600.0 million (the “**Finco Loan AK**”, and, together with Finco Loan AJ the “**Finco Loans**”) borrowed under an additional facility (the “**Finco Facility AK**” and together with Finco Facility AJ, the “**Finco Facilities**”) under the Senior Credit Facility, and the Issuer became a Telenet Lender. In addition to indirect benefits arising from the protections and security

afforded to the Issuer as a Telenet Lender, holders of Notes will also benefit directly from the first-ranking (subject to the relevant account bank waiving any first-ranking security that may exist under the account bank's standard terms and conditions) security interests in the Note Collateral as described below under "*—Security*".

The principal amount of the Dollar Notes due at maturity, as well as the maturity date, rate of interest and currency, among other things, will be identical to the corresponding provisions of Finco Loan AJ, and the principal amount of the Euro Notes due at maturity, as well as the maturity date, rate of interest and currency, among other things, will be identical to the corresponding provisions of Finco Loan AK.

Further, if an Event of Default is continuing under the Indenture or the Notes, holders of Notes will be entitled to direct the Trustee and/or the Security Trustee to enforce their rights under the Notes, the Indenture and (subject to and in accordance with the terms of the Collateral Sharing Agreement) the Notes Security Documents, in which case the holders of Notes will have multiple available remedies (through the Trustee and/or the Security Trustee, where relevant), including declaring the Notes due and payable. For more information on Events of Default and Remedies, see "*—Collateral Sharing Agreement*" and "*—Events of Default and Remedies*".

Indebtedness under the Senior Credit Facility

As of September 30, 2017, as adjusted to give effect to (i) the borrowing of the Finco Loans and the application of the proceeds therefrom as described in "*Use of Proceeds*", and (ii) the Refinancing (as defined under "*General Description of Telenet's Business, the Issuer and the Offering—The Refinancing and Other Transactions*"), €4,103.7 million (equivalent) carrying amount of indebtedness would have been outstanding under the Senior Credit Facility on a non-eliminated basis, which includes amounts outstanding under Facilities V and AB that are eliminated through the consolidation of the lenders thereof within the Telenet Group Holding NV's consolidated financial statements. See "*Capitalization of Telenet and the Issuer*". This amount also includes €1,447.3 million (equivalent), or 35.3% of the aggregate principal amount outstanding under the Senior Credit Facility, representing the 2017 Finco Loans. The Issuer is Consolidated by Telenet Group Holding.

Certain Transaction Documents

2017 Finco Accession Agreements

In connection with Finco Loan AJ, the Issuer and the Initial Telenet Borrower entered into the Finco Accession Agreement AJ and in connection with Finco Loan AK, the Issuer and the Initial Telenet Borrower entered into the Finco Accession Agreement AK, pursuant to each of which the Issuer acceded to the Senior Credit Facility as a Telenet Lender. The Finco Accession Agreement AJ sets out the principal economic terms of Finco Facility AJ and the Finco Accession Agreement AK sets out the principal economic terms of Finco Facility AK. The forms of each 2017 Finco Accession Agreement entered into on the Issue Date are attached as Annex B and Annex C to these Listing Particulars.

Following the accession to the Senior Credit Facility pursuant to the 2017 Finco Accession Agreements, the Issuer benefits from all the rights of a Telenet Lender, including the protections of the affirmative, negative and financial covenants and events of default set out in the Senior Credit Facility except in certain limited circumstances expressly outlined in each 2017 Finco Accession Agreement. In particular, the financial covenant set out in the Senior Credit Facility shall not be for the benefit of the Issuer as the Additional Facility AJ Lender or the Additional Facility AK Lender (each as defined in the Senior Credit Facility). In addition, the Finco Loans are secured by the assets of the Telenet Bank Group granted to the Telenet Security Agent to secure the Telenet Loans.

Subject to certain provisions to reflect the Transactions contemplated hereby, each 2017 Finco Accession Agreement is similar in form to the accession agreements entered into by other Telenet Lenders and includes additional rights that are specific to the relevant 2017 Finco Loan, including the maturity date of, the rate of interest accruing on, and the interest periods applicable to the relevant 2017 Finco Loan. In addition, each 2017 Finco Accession Agreement provides for the payment of certain premiums in connection with certain voluntary and mandatory prepayments of the relevant 2017 Finco Loan that enables the Issuer to pay the premiums applicable to corresponding redemptions of the Dollar Notes and/or Euro Notes (as applicable), as described below under "*—Redemption and Repurchase*". Each 2017 Finco Accession Agreement also includes the consent of the Issuer as a Telenet Lender to certain amendments under the Senior Credit Facility if the borrowers seek a consent to those amendments from the Telenet Lenders, as described below under "*—2017 Finco Accession Agreements and the Senior Credit Facility*". Each 2017 Finco Accession Agreement will constitute a "Finance Document" for purposes of the Senior Credit Facility.

Each 2017 Finco Accession Agreement further provides that the Issuer will accede to the Intercreditor Agreement as a lender and is bound by the terms and provisions of the Intercreditor Agreement in its capacity as a lender.

Following completion of the Belgian Issuer Accession, at the election of the Initial Telenet Borrower, the relevant 2017 Finco Loan may, pursuant to certain transactions, be exchanged, refinanced or otherwise replaced, on a cash or cashless basis, for a loan under a new additional facility under the Senior Credit Facility borrowed by the Belgian Borrower in an equal principal amount and having substantially identical terms (other than with respect to the borrower of such loan) as such 2017 Finco Loan. The terms of each New Finco Loan (as defined below) will be governed by the relevant New Finco Accession Agreement (as defined below) which are attached as Schedule 11 of each of Annex B and Annex C to these Listing Particulars. See “—*Finco Loans Borrower Exchange*”.

2017 Telenet Fee Letters

The Issuer, the Initial Telenet Borrower and Telenet Group BVBA entered into a fee letter (the “**Telenet USD Fee Letter**”) relating to the payment by the Initial Telenet Borrower of certain up-front fees to the Issuer. The Issuer, the Initial Telenet Borrower and Telenet Group BVBA entered into a fee letter (the “**Telenet EUR Fee Letter**”, together with the Telenet USD Fee Letter, the “**2017 Telenet Fee Letters**”) relating to the payment by the Initial Telenet Borrower of certain up-front fees to the Issuer. Under each 2017 Telenet Fee Letter, Telenet Group BVBA guarantees the obligations of the Initial Telenet Borrower to the Issuer under such 2017 Telenet Fee Letter.

Telenet Service Agreement

The Issuer, the Initial Telenet Borrower and Telenet Group BVBA entered into a service agreement (the “**Telenet Service Agreement**”) in respect of the reimbursement by the Initial Telenet Borrower of certain ongoing obligations of the Issuer, including in respect of the maintenance of the Issuer’s existence, the payment of certain tax liabilities of the Issuer, the payment of Additional Amounts (as defined under “—*Withholding Taxes*”) pursuant to the Indenture following certain tax events and the payment of additional interest required to be paid under the Notes on overdue principal and interest. The reimbursement obligations of each Initial Telenet Borrower under the Telenet Service Agreement are limited so that the maximum amount owed at any one time by such Initial Telenet Borrower does not exceed the greater of €10 million and the available unused portion at that time of the basket described in paragraph (ff) of the definition of Permitted Financial Indebtedness in the Senior Credit Facility (or such corresponding basket following the implementation of the Senior Credit Facility Amendments). Failure by the Issuer to pay any Additional Amounts or default interest on the Dollar Notes and/or the Euro Notes will constitute a Default under the Indenture whether or not such amounts exceed the amount payable by the Initial Telenet Borrower under the Telenet Service Agreement.

The Telenet Service Agreement also provides that the Initial Telenet Borrower agrees to certain undertakings in order to ensure compliance by the Issuer with certain covenants included in the Indenture. Under the Telenet Service Agreement, Telenet Group BVBA agrees to guarantee the obligations of the Initial Telenet Borrower to the Issuer.

The Telenet Service Agreement further provides that if the Finco Loans Borrower Exchange (as defined below) is consummated and Telenet Group BVBA is the Belgian Borrower (as defined below), Telenet Group BVBA agrees to become a borrower under each New Finco Loan (as defined below) on substantially the same terms and conditions as the Initial Telenet Borrower is subject to under the relevant Finco Loan.

Collateral Sharing Agreement.

On the Issue Date, the Issuer, the Trustee and Security Trustee entered into a collateral sharing agreement governing the relative rights of creditors under the Notes (including any Additional Notes) and any Additional Debt of the Issuer that will benefit from the shared Note Collateral on a *pari passu* basis. Pursuant to the Collateral Sharing Agreement, the Security Trustee and the Trustee agreed that all proceeds from the enforcement of the Note Collateral will be shared on a *pari passu* basis by the holders of the Notes (including any Additional Notes) and all Additional Debt of the Issuer. The Collateral Sharing Agreement sets out, among other things, (i) the relevant ranking of certain debt of the Issuer, (ii) the consent level of the senior creditors required to cast votes and exercise their rights in respect of consents, instructions and remedies under the Indenture, the Notes, the Notes Security Documents and the other debt instruments or agreements sharing in the Note Collateral, in each case, when enforcement action can be taken in respect of the Note Collateral by the Security Trustee and the turnover

provisions. Pursuant to the terms of the Collateral Sharing Agreement, the holders and/or lenders, as applicable, of a majority in the aggregate principal amount of all Notes (including any Additional Notes) and Additional Debt then outstanding will control any enforcement actions in respect of the Note Collateral. In connection with the Belgian Issuer Accession, the Belgian Issuer will enter into an accession agreement or similar agreement or instrument to accede to the Collateral Sharing Agreement as debtor and assume all of the Initial Issuer's rights and obligations thereunder.

The 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, the 2017 Telenet Fee Letters, the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, and the Collateral Sharing Agreement are collectively referred to herein as the “**Transaction Documents**”.

Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange

Following the issuance of the Notes, at the election of the Initial Telenet Borrower, the Notes may be assigned to a financing company or a designated notes issuer incorporated under the laws of Belgium for the purpose of assuming the Initial Issuer's rights and obligations under the Notes, the Indenture, the Intercreditor Agreement, the Senior Credit Facility and the Transaction Documents (the “**Belgian Issuer**”). In addition, at the election of the Initial Telenet Borrower, each 2017 Finco Loan may be exchanged, on a cash or cashless basis, for loans under new additional facilities under the Senior Credit Facility in an equal principal amount and having substantially identical terms (other than with respect to the borrower of such loan) as such 2017 Finco Loan. A description of these transactions is provided below.

Belgian Issuer Accession

At any time prior to the Maturity Date and upon no less than 8 Business Days' written notice (the “**Belgian Issuer Accession Notice**”) from the Initial Telenet Borrower to the Initial Issuer, with a copy to the Telenet Facility Agent, the following transactions will be completed substantially concurrently (collectively, the “**Belgian Issuer Accession**”); *provided that* (i) all corresponding conditions in the Finance Documents (as defined in the Senior Credit Facility) have been satisfied and (ii) the Initial Telenet Borrower or another member of the Telenet Bank Group shall pay, or procure the payment of, any costs or expenses in respect of the maintenance of the Initial Issuer's existence (including any tax liabilities) or incurred by the Initial Issuer in order to consummate the Belgian Issuer Accession, in each case until the earlier of (i) the Initial Issuer's liquidation or dissolution or (ii) the date that is six months and ten days following the Belgian Issuer Accession Date (as defined below):

- (1) the Belgian Issuer will enter into a supplemental indenture, accession agreement or other similar agreement to accede to the Indenture and the Notes as issuer and assume all of the Initial Issuer's rights and obligations thereunder (the “**Accession Agreement**”);
- (2) the Initial Issuer will assign, novate or otherwise transfer to the Belgian Issuer all of the Initial Issuer's rights, title, interest and obligations under the Transaction Documents (other than the Collateral Sharing Agreement), and the Belgian Issuer will assume all of the Initial Issuer's rights, title, interest and obligations thereunder, pursuant to an assignment agreement, novation agreement, transfer agreement or other similar agreement (the “**Transfer Agreement**”);
- (3) each of the Initial Issuer, the Belgian Issuer and the Telenet Facility Agent will execute and deliver a transfer certificate with respect to each 2017 Finco Loan pursuant to clause 29.4 of the Senior Credit Facility;
- (4) the Belgian Issuer will execute and deliver a deed of accession to the Intercreditor Agreement (the “**ICA Accession**”);
- (5) the Belgian Issuer will enter into an accession agreement or similar agreement or instrument to accede to the Collateral Sharing Agreement as debtor and assume all of the Initial Issuer's rights and obligations thereunder (the “**CSA Accession**”); and
- (6) if the Initial Telenet Borrower does not elect to complete the Finco Loans Borrower Exchange (as defined below) concurrently with the Belgian Issuer Accession, the Belgian Issuer will grant, or procure the grant of, security in favor of holders of the Notes of substantially the same type, scope and priority as the Initial Note Collateral existing immediately prior to the Belgian Issuer Accession (see “—*Note Collateral*” below).

As a condition to the effectiveness of the Belgian Issuer Accession:

- (i) the Initial Telenet Borrower will be required to deliver (or cause to be delivered) to the Trustee: (A) an audited opening balance sheet or audited balance sheet as of the most recent fiscal year end of the Belgian Issuer, (B) if the Belgian Issuer has been incorporated for longer than 6 months prior to the Belgian Issuer Accession Date, a statement of cash flows (or similar) for the period from the date of incorporation through to the date of the Belgian Issuer's most recently completed financial quarter and (C) all documents reasonably required for the Trustee to complete its customary client identification processes on the Belgian Issuer; *provided*, that the Trustee will not be determining whether the accession has any impact on the holders of the Notes or is in the best interests of the holders of the Notes;
- (ii) immediately after giving effect to the Belgian Issuer Accession, the Notes (A) will be the general obligations of the Belgian Issuer, (B) will rank *pari passu* in right of payment with any Financial Indebtedness of the Belgian Issuer that is not subordinated in right of payment to the Notes, (C) will rank senior in right of payment to any existing and future debt of the Belgian Issuer that is subordinated in right of payment to the Notes and (D) with respect to the obligations owed by the Belgian Issuer only, will not be subject to any enforcement standstill or payment block; and
- (iii) the Issuer shall deliver to the Trustee and the Security Trustee an Opinion of Counsel and an Officer's Certificate stating (A) that all conditions precedent to the Belgian Issuer Accession have been satisfied and (B) the Indenture (as amended by the Accession Agreement), the Intercreditor Agreement (as amended by the ICA Accession), the Collateral Sharing Agreement (as amended by the CSA Accession) and the relevant Security Documents (or any new Security Documents) creating security in respect of the Note Collateral are enforceable against the Belgian Issuer or the relevant grantor thereof, it being acknowledged that any Opinion of Counsel may be subject to exceptions, limitations and exclusions that are customary for a transaction by this type of entity and are determined by counsel to be necessary or appropriate including in light of applicable law.

The date of the consummation of the Belgian Issuer Accession is referred to herein as the “**Belgian Issuer Accession Date**”. The Initial Issuer will deliver the Belgian Issuer Accession Notice to the Trustee no less than 8 Business Days prior to the Belgian Issuer Accession Date and such notice shall specify the Belgian Issuer Accession Date. Upon consummation of the Belgian Issuer Accession, the Belgian Issuer will succeed to, and be substituted for, and shall assume the obligations of and may exercise every right and power of, the Initial Issuer under the Notes, the Indenture, the Intercreditor Agreement, the Senior Credit Facility and the Transaction Documents, and upon such substitution, the Initial Issuer will be released from all of its obligations under the Notes, the Indenture, the Senior Credit Facility and the Transaction Documents. Following the Belgian Issuer Accession, all references to the Issuer in the Notes, the Indenture and the Transaction Documents will be to the Belgian Issuer.

In connection with the Belgian Issuer Accession, the Initial Issuer will be released from its obligations under the Notes Security Documents and all security interests granted by the Issuer will be released. There can be no assurance that a Belgian Issuer Accession will occur.

So long as the Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, the Issuer (or a member of the Telenet Bank Group on behalf of the Issuer) will publish notice of the consummation of the Belgian Issuer Accession in a newspaper having a general circulation in Luxembourg or, to the extent and in the manner permitted by such rules, posted on the official website of the Luxembourg Stock Exchange.

Finco Loans Borrower Exchange

Promptly following completion of the Belgian Issuer Accession (but no later than 60 Business Days following the Belgian Issuer Accession Date), the following transactions will, at the election of the Initial Telenet Borrower, be completed substantially concurrently (collectively, the “**Finco Loans Borrower Exchange**”):

- (1) the Belgian Issuer, as Telenet Lender, Telenet Group BVBA or, provided that the necessary accession mechanics under the Senior Credit Facility are adhered to, another borrower under the Senior Credit Facility that is incorporated under the laws of Belgium (the “**Belgian Borrower**”), as borrower, and the Telenet Facility Agent will execute (i) an additional facility accession agreement (the “**New Finco Accession Agreement AJ-B**”) pursuant to which the Belgian Issuer will agree to provide an additional facility under the Senior Credit Facility to the Belgian Borrower (the “**New Finco Loan AJ-B**”) in a principal amount equal to the aggregate principal amount of Finco Loan AJ then outstanding and upon terms that are substantially identical to the terms of Finco Loan AJ (including with respect to guarantees and security), other than with respect to the borrower thereof and/or (ii) an additional facility accession agreement (the “**New Finco Accession Agreement AK-B**” and, together with New Finco Accession Agreement AJ-B, the “**New Finco Accession Agreements**”) pursuant to which the Belgian Issuer will agree to provide an additional facility under the Senior Credit Facility to the Belgian Borrower (the “**New Finco Loan AK-B**” and together with the New Finco Loan AJ-B, the “**New Finco Loans**”) in a principal amount equal to the aggregate principal amount of Finco Loan AK then outstanding and upon terms that are substantially identical to the terms of Finco Loan AK (including with respect to guarantees and security), other than with respect to the borrower thereof;
- (2) the Belgian Borrower will execute and deliver a borrowing request under each New Finco Accession Agreement;
- (3) the Belgian Issuer will settle or otherwise satisfy its obligation to fund each New Finco Loan by (i) transferring all of its rights, title and obligations under each Finco Loan to the Belgian Borrower pursuant to a transfer certificate that will be executed and delivered by each of the Belgian Issuer, the Belgian Borrower and the Telenet Facility Agent in accordance with clause 29.4 of the Senior Credit Facility, (ii) cash settling with the proceeds received by the Belgian Issuer from the repayment and cancellation of the relevant 2017 Finco Loan, or (iii) any other means that may be permitted under the Finance Documents (as defined under the Senior Credit Facility) and applicable law; *provided that*, the Belgian Issuer, as Telenet Lender, shall cease to have any rights or obligations under the 2017 Finco Loans following the entry into the New Finco Loans;
- (4) the Belgian Borrower and the Belgian Issuer will execute and deliver a service agreement (the “**New Telenet Service Agreement**” and, collectively with the New Finco Accession Agreements and the Collateral Sharing Agreement (as amended by the CSA Accession), the “**New Transaction Documents**”) in substantially the same form as the Telenet Service Agreement (and following the Finco Loans Borrower Exchange, all references to the Telenet Service Agreement and the Transaction Documents in the Notes and the Indenture will be to the New Telenet Service Agreement and the New Transaction Documents, as applicable) and the Telenet Service Agreement will terminate automatically in accordance with its terms; and
- (5) if not already granted, the Belgian Issuer will grant, or procure the grant of, security in favor of holders of the Notes of substantially the same type, scope and priority as the Initial Note Collateral (with the exception of the Initial Telenet Fee Letters Collateral) existing immediately prior to the Finco Loans Borrower Exchange.

Notice of the Finco Loans Borrower Exchange (if any) will be provided in writing by the Initial Telenet Borrower to the Issuer and the Trustee, with a copy to the Telenet Facility Agent, no less than 8 Business Days prior to the date of the Finco Loans Borrower Exchange.

Upon the consummation of the Finco Loans Borrower Exchange, the Initial Telenet Borrower will have no further obligations to the Initial Issuer or the Belgian Issuer under or with respect to the 2017 Finco Accession Agreements the New Finco Accession Agreements, the Indenture, the Notes, the Senior Credit Facility, the Transaction Documents or the New Transaction Documents, except in its capacity as “obligor” under the Senior Credit Facility and all references to the Initial Telenet Borrower will be to the Belgian Borrower, except in its capacity as “obligor” under the Senior Credit Facility.

The forms of the New Finco Accession Agreements are attached as Schedule 11 of each of Annex B and Annex C to these Listing Particulars. Following the Finco Loans Borrower Exchange, if any, all references to the 2017 Finco Loans, the 2017 Finco Accession Agreements and the Telenet Service Agreement in the Notes and the Indenture will be to the New Finco Loans, the New Finco Accession Agreements and the New Telenet Service Agreement, respectively.

The Belgian Issuer Accession and the Finco Loans Borrower Exchange may be completed at the option of the Initial Telenet Borrower without any further consent from the Initial Issuer or the Belgian Issuer, as applicable, or the holders of the Notes, and the Initial Issuer or the Belgian Issuer, as applicable, and holders of the Notes shall upon receipt of the Belgian Issuer Accession Notice and the notice of the Finco Loans Borrower Exchange, as the case may be, be deemed to have consented to any transfer of rights and obligations pursuant to the Belgian Issuer Accession and the Finco Loans Borrower Exchange. For the avoidance of doubt, the Initial Telenet Borrower may elect to complete the Belgian Issuer Accession without completing the Finco Loans Borrower Exchange.

Brief Description of the Notes

The Notes:

- are general senior obligations of the Issuer;
- are secured by the Note Collateral as described under “—*Notes Collateral*”;
- rank *pari passu* in right of payment to all Additional Debt of the Issuer that is not subordinated to the Notes (including any Additional Notes);
- are effectively be subordinated to all liabilities of each Subsidiary of the Issuer (if any); and
- are be subject to the Limited Recourse Restrictions (as defined below).

The Issuer is not entitled to incur any additional Financial Indebtedness (other than Additional Notes (as defined below) and any other Additional Debt permitted to be incurred or issued under the Indenture). See “—*Certain Covenants—Limitations with Respect to Business Activities of the Issuer*”.

The Initial Issuer and the Belgian Issuer

The Initial Issuer has been formed as a financing company for the purposes of issuing the Notes (including any Additional Notes) and any other Additional Debt permitted to be incurred or issued under the Indenture. The Initial Issuer has no material business operations and upon completion of this offering will have no material assets other than the 2017 Finco Loans advanced in connection with the offering of the Notes as described below under “—*2017 Finco Accession Agreements and the Senior Credit Facility*” and its rights under the Transaction Documents. The Initial Issuer is primarily dependent on payments by the Initial Telenet Borrower under the Finco Loans in order to service its obligations under the Notes.

The Belgian Issuer will be a financing company or a designated notes issuer incorporated under the laws of Belgium for the purpose of assuming the Initial Issuer’s rights and obligations under the Notes, the Indenture and the Transaction Documents. The Belgian Issuer will have no material business operations and upon completion of the Belgian Issuer Accession will have no material assets other than the 2017 Finco Loans (and, following the Finco Loans Borrower Exchange, if any, the New Finco Loans), its rights under the New Transaction Documents, any other Finco Loans and its rights under the transaction documents governing such Finco Loans or related thereto.

2017 Finco Accession Agreements and the Senior Credit Facility

The net proceeds of the offering of the Dollar Notes, together with the fees payable (if any) to the Issuer from the Initial Telenet Borrower under the Telenet USD Fee Letter, were used by the Issuer to fund Finco Loan AJ, denominated in U.S. dollars, under the Finco Facility AJ. The net proceeds of the offering of the Euro Notes, together with the fees payable (if any) to the Issuer from the Initial Telenet Borrower under the Telenet EUR Fee Letter, were used by the Issuer to fund Finco Loan AK, denominated in euros, under the Finco Facility AK.

Under the terms of the Senior Credit Facility, the 2017 Finco Accession Agreements and the related arrangements described below, the Initial Issuer benefits and (following the Belgian Issuer Accession, if it occurs) the Belgian Issuer (but prior to the Finco Loans Borrower Exchange, if any), will benefit from:

- (1) all the rights of a Telenet Lender under the Senior Credit Facility and the 2017 Finco Accession Agreements, including the indirect benefit of the Senior Facility Collateral and the guarantees of the Senior Facility Guarantors;

- (2) rights under the 2017 Telenet Fee Letters relating to certain fees payable to the Initial Issuer or the Belgian Issuer, as applicable, in connection with the entering into of the 2017 Finco Accession Agreements and the advancing of the 2017 Finco Loans;
- (3) rights under the Telenet Service Agreement relating to the payment of (i) the fees and expenses of the Initial Issuer or the Belgian Issuer, as applicable, incurred from time to time in connection with or related to the performance of its obligations under the Indenture and the maintenance of its existence, (ii) certain tax liabilities of the Initial Issuer or the Belgian Issuer, as applicable, (iii) any Additional Amounts, if any, payable under the Indenture and (iv) any additional interest required to be paid under the Notes on overdue principal and interest; and
- (4) rights under the Telenet Service Agreement relating to the obligations of the Initial Telenet Borrower to ensure compliance by the Initial Issuer or the Belgian Issuer, as applicable, with the covenants described below under “—Redemption and Repurchase—Redemption with Disposal Proceeds”, “—Redemption and Repurchase—Open Market Purchases of Telenet Loans”, “—Certain Covenants—Minimum Period for Consents under Loan Documents”, “—Certain Covenants—Payments for Consent”, “—Certain Covenants—Amendments to Loan Documents to be Applied Equally to all Telenet Lenders”.

In the event the Dollar Notes are issued at a price less than par, the Finco Loan AJ will be advanced at its face amount. The difference between the cash proceeds received by the Issuer in respect of the issue of the Dollar Notes and the face amount of the Finco Loan AJ to the Initial Telenet Borrower will be accounted for as an upfront fee under the Telenet USD Fee Letter. In the event the Euro Notes are issued at a price less than par, the Finco Loan AK will be advanced at its face amount. The difference between the cash proceeds received by the Issuer in respect of the issue of the Euro Notes and the face amount of the Finco Loan AK to the Initial Telenet Borrower will be accounted for as an upfront fee under the Telenet EUR Fee Letter.

Following the Finco Loans Borrower Exchange, if any, under the terms of the Senior Credit Facility, the New Finco Accession Agreement and the related arrangements described below, the Belgian Issuer will benefit from:

- (1) all the rights of a Telenet Lender under the Senior Credit Facility and the New Finco Accession Agreements, including the indirect benefit of the Senior Facility Collateral and the guarantees of the Senior Facility Guarantors;
- (2) rights under the New Telenet Service Agreement relating to the payment of (i) the fees and expenses of the Belgian Issuer incurred from time to time in connection with or related to the Belgian Issuer’s performance of its obligations under the Indenture and the maintenance of the Belgian Issuer’s existence, (ii) certain tax liabilities of the Belgian Issuer, (iii) any Additional Amounts, if any, payable under the Indenture and (iv) any additional interest required to be paid under the Notes on overdue principal and interest; and
- (3) rights under the New Telenet Service Agreement relating to the obligations of the Belgian Borrower to ensure compliance by the Belgian Issuer with the covenants described below under “—Redemption and Repurchase—Redemption with Disposal Proceeds”, “—Redemption and Repurchase—Open Market Purchases of Telenet Loans”, “—Certain Covenants—Minimum Period for Consents under Loan Documents”, “—Certain Covenants—Payments for Consent”, “—Certain Covenants—Amendments to Loan Documents to be Applied Equally to all Telenet Lenders”.

Under the Senior Credit Facility, Telenet Lenders are not allowed to split or divide their votes with respect to matters arising thereunder requiring the vote (or other consent) of Telenet Lenders. For a description of procedures under the Indenture regarding voting rights of holders of the Notes with respect to decisions under the Senior Credit Facility, see below under “—Amendment, Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements”.

The Initial Issuer has and the Belgian Issuer will have the same voting rights as the other Telenet Lenders under the Senior Credit Facility. In the event that the Issuer, as a Telenet Lender, is eligible or required to vote (or otherwise consent) (including with respect to any enforcement decision) with respect to any matter arising from time to time under the Senior Credit Facility or under the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, in which all Telenet Lenders are eligible or required to vote (or otherwise consent), the Issuer will solicit votes (or other consents) from the holders of Notes and any other applicable series of Additional Debt with respect to such Senior Credit Facility Decision (as defined below) in accordance with the

provisions of the Indenture described below under “—*Amendment, Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements*” and “—*Certain Covenants—Minimum Period for Consents under Loan Documents*”. The holders of the Notes under (and effective as of the date of) the Indenture provided their consent to any and all of the amendments set forth in Schedules 4, 5, 6, 7, 8, 9 and 10 to the 2017 Finco Accession Agreements and Schedules 4, 5, 6, 7, 8, 9 and 10 of the New Finco Accession Agreements, as applicable (the “**Senior Credit Facility Amendments**”). The Issuer will therefore apply Noteholder Consent (as defined below) equal to the aggregate principal amount of the Notes outstanding in respect of any of the Senior Credit Facility Amendments for the purposes of the provisions of the Indenture described below under “—*Amendment, Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements*”. As a result, the Initial Issuer and the Belgian Issuer, as applicable, will not solicit votes (or other consents) from the holders of the Notes with respect to the Senior Credit Facility Amendments. In addition, the Initial Issuer and the Belgian Issuer, as applicable, will not be entitled to receive, and will expressly waive under the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, any right it may have to, any consent, waiver, amendment or other similar fee that may be paid to other Telenet Lenders in connection with their approval of the Senior Credit Facility Amendments (including the Initial Issuer or the Belgian Issuer as a Telenet Lender in respect of any additional accession agreement to the Senior Credit Facility, or similar instrument or agreement, pursuant to which the Issuer advances the proceeds of the Notes (including any Additional Notes) or Additional Debt into the Telenet Bank Group).

The Senior Credit Facility Amendments include material modifications to certain affirmative and negative covenants, financial maintenance covenants and related definitions, representations and warranties, events of default, mandatory prepayment provisions, administrative provisions and provisions relating to the security package. The Senior Credit Facility Amendments are generally less restrictive and provide greater flexibility to the Telenet Bank Group than the provisions currently included in the Senior Credit Facility. Specifically, the Senior Credit Facility Amendments include, but are not limited to, the following (capitalized terms used in the following description have the meanings currently provided in the Senior Credit Facility, without giving effect to the Senior Credit Facility Amendments):

- amend the definition of “80% Security Test” to provide that where a Guarantor generates negative earnings before interest, tax, depreciation and amortization, such Guarantor shall be deemed for the purpose of calculating the 80% Security Test numerator to have zero earnings before interest, tax, depreciation and amortization;
- amend the definition of “Affiliate” to include a proviso that any provision which uses such term, an Affiliate of the Company that issues notes, bonds or other securities for the purpose of on-lending proceeds of such issuance under a Facility and to a Borrower shall not be an Affiliate of the Company and such entity shall not be deemed to be managed by, or under control of, the Company or any of its Affiliates and any payments made to such entity in connection with any fees, costs, indemnity claims or expenses payable to it in connection with transactions related to the issuance of any notes, bonds or other securities will be a “Permitted Payment”;
- amend the definition of “Consolidated EBITDA” to include the amount of loss on transfer of assets in connection with an asset securitization programme, receivables factoring transaction or other receivables transaction;
- amend the definition of “Consolidated EBITDA” to add equity based compensation expenses and to remove the option for fees or other amounts charged or credited to the Company and the Guarantors related to Intra-Group Services to the extent that they are not included in the Company’s externally reported operating case flow or are deemed to be exceptional or unusual items;
- amend the definition of “Finance Document” to provide that an Increase Confirmation will be, and a Transfer Certificate won’t be, a Finance Document;
- amend the definition of “Finance Document” to provide that a Hedging Agreement is only a Finance Document, and to amend the definition of “Finance Party” to provide that a Hedge Counterparty is only a Finance Party, for the purpose of the guarantee provisions;

- amend the definition of “Financial Indebtedness” to remove any counter-indemnity obligation in respect of any guarantee, indemnity, bond, letter of credit or other instrument issued by a bank or financial institution;
- amend the definition of “Impaired Agent” to include any Facility Agent which is also a Defaulting Lender as a result of the Facility Agent being an L/C Bank which has failed to issue a Documentary Credit or failed to pay a claim;
- amend the definition of “Majority Lenders” to provide that the definition is subject to the snooze lose provision;
- amend the definition of “Measurement Period” to refer to each period of approximately six months covering two quarterly accounting periods of the Group ending on each date to which each set of financial statements required to be delivered under the Senior Credit Facility are prepared, provided that the Company may make an election to establish that “Measurement Period” means each period of approximately 12 months covering four quarterly accounting periods of the Group ending on each date to which each set of financial statements required to be delivered under Clause 19.1 (*Financial statements*) are prepared (and if such an election has been made, the Company may not elect to change the test period back);
- amend the definition of “Permitted Acquisition” to add a new limb to permit the acquisition by a member of the Group for the purposes of a solvent reorganisation of the Group where the acquisition is of share capital of a person which has not traded and does not own any assets or is a dormant subsidiary of the Ultimate Parent and which has no liabilities;
- amend the definition of “Permitted Acquisition” to add a new limb to permit the acquisition by any member of the Group of any Senior Unsecured Notes provided that an amount equal to the purchase price paid for the acquisition of any such Senior Unsecured Notes could have been used by such member of the Group to fund a Permitted Payment and provided further that to the extent any such acquisition is made in reliance on any basket amount provided for under the definition of “Permitted Payments”, such amount shall be reduced by an amount equal to the consideration paid for such acquisition;
- amend the definition of “Permitted Acquisition”, in particular limb (e), to remove the requirement to meet the ratio of Net Total Debt to Consolidated Annualised EBITDA being less than 6.00:1;
- amend the definition of “Permitted Acquisition”, in particular limb (j), to extend the time period for making the issued shares subject to Security to 60 days;
- amend the definition of “Permitted Disposal”, in particular limb (hh) of such definition, to mean disposals of real property where the aggregate fair market value does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year (with unused amounts being carried over);
- amend the definition of “Permitted Disposal”, in particular limb (ii) of such definition, to mean disposals of assets pursuant to sale and leaseback transactions where the aggregate fair market value does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year;
- amend the definition of “Permitted Disposal”, in particular limb (t) of such definition, to mean disposals of assets where the aggregate fair market value does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year (with unused amounts being carried over);
- amend the definition of “Permitted Disposal”, in particular limb (ww) of such definition, to remove the requirement for the Company to provide a certificate certifying the re-calculated financial ratio for the purposes of a disposal under such limb;
- amend the definition of “Permitted Disposal” to add a new limb to permit the disposal of undertakings, assets, rights or revenues comprising interests in the share capital of persons not holding or engaged in the distribution business (i.e. the business of upgrading, constructing, developing, acquiring etc. cable television network for the transmission, reception and/or delivery of multi-channel television and radio programming, telephony and internet and/or data services to the residual markets) of the Group or other undertakings, assets, rights or revenues not constituting part of such distribution business of the Group;

- amend the definition of “Permitted Disposal” to add a new limb to permit new disposals which constitute the concurrent purchase and sale or exchange of related business assets or a combination of such assets, cash and Cash Equivalent Investments between any member of the Group and another person provided that the member of the Group receives consideration at least equal to fair market value for the assets;
- amend the definition of “Permitted Disposal” to permit disposals by one member of the Group to another member of the Group provided that, if such assets subject to the disposal are subject to existing security, the Borrower within 15 Business Days of such disposal ensures that the assets remain subject to security;
- amend the definition of “Permitted Disposal” to permit disposals of shares or other interests in project companies, entities excluded from the Group which are subsidiaries of the Company or joint venture companies (each as defined in recent Liberty precedent) or the assignment of any Financial Indebtedness owed to a member of the Group by any project companies, entities excluded from the Group which are subsidiaries of the Company or a joint venture company;
- amend the definition of “Permitted Financial Indebtedness” to add a new limb to permit Financial Indebtedness incurred in connection with the Hedging Agreements and other hedging arrangements permitted by the Senior Credit Facility;
- amend the definition of “Permitted Financial Indebtedness” to add a new limb to permit Financial Indebtedness of any member of the Group, in respect of which the person to whom such Financial Indebtedness is owed has no recourse to any member of the Group for any payment or repayment in respect thereof other than recourse to such member of the Group for the purpose only of enabling amounts to be claimed in respect of such Financial Indebtedness in an enforcement of any Security Interest given by a member of the Group over Non-Distribution Assets;
- amend the definition of “Permitted Financial Indebtedness, in particular limb (r) of that definition, to provide that a Default would not be a drawstop to Financial Indebtedness arising in respect of any guarantee given by a member of the Group in respect of any issuer of Holdco Debt’s obligations under any Holdco Debt;
- amend the definition of “Permitted Joint Venture”, in particular limb (b), to remove the requirement to meet the ratio of Net Total Debt to Consolidated Annualised EBITDA being less than 6.00:1;
- amend the definition of “Permitted Joint Venture” to remove the requirement that an acquisition would not fall within such definition if an Event of Default had occurred and was continuing at the time of such acquisition;
- amend the definition of “Permitted Joint Venture” to permit Telenet BVBA to contribute freely pledged loan and guarantee receivables to the Permitted Joint Venture’s share capital without requiring a release from the Security Agent (subject to confirmation or re-taking of security over such pledged loan and guarantee receivables);
- amend clause 21.11 (*Restricted Payments*) to add an additional limb to permit payment by any member of the Group of Management Fees during such period as the applicable ratio for the purposes of clause 20.2 (*Net Total Debt to Consolidated Annualised EBITDA*) is 3.50:1 (or less);
- amend the definition of “Permitted Payment” to add an additional limb to permit any payment by way of transfer to any Restricted Person of any Non-Distribution Business Assets (to the extent they are permitted under the definition of Permitted Disposal);
- amend the definition of “Permitted Payment”, in particular limb (cc) of such definition, to mean payments in connection with a start-up financing or seed funding where the aggregate value of the payment does not exceed the greater of €50,000,000 and 1% of Total Assets;
- amend the definition of “Permitted Payment”, in particular limb (kk) of such definition, to mean payments in relation to tax losses received by a member of the Group from any member of the Wider Group that is not a member of the Group where the amount of tax losses does not exceed the greater of €200,000,000 and 3% of Total Assets in any financial year;

- amend the definition of “Permitted Payment”, in particular limb (II) of such definition, to mean payments not covered by other parts of the definition where the amount of the payment does not exceed the greater of €150,000,000 and 3% of Total Assets in any financial year (with unused amounts being carried over);
- add a new limb to the definition of “Permitted Payment” to permit a payment in relation to any “Permitted Business Division Transaction” or any “Acceptable Joint Venture” (each as referred to above);
- add a new limb to the definition of “Permitted Security Interest” to permit any Security Interests attaching to commodity trading accounts or other commodity brokerage accounts incurred in the ordinary course of business;
- add a new limb to the definition of “Permitted Security Interest” to permit any Security Interests over Non-Distribution Business Assets, securing Financial Indebtedness in respect of such Non-Distribution Business Assets;
- amend the definition of “Permitted Security Interest” to permit the Company to secure Financial Indebtedness on a *pari passu* or junior ranking basis provided that (other than in the case of a refinancing of other secured Financial Indebtedness in the same or a lesser principal amount) the Net Total Debt to Consolidated Annualised EBITDA ratio on a pro forma basis would not be greater than 5.50:1.00 and provided that such Financial Indebtedness is subject to an intercreditor agreement on terms which are satisfactory to the Security Agent (acting on the instructions of the Majority Lenders) and where (in the case of such Financial Indebtedness being secured on a junior ranking basis) the rights of the holders of such Financial Indebtedness in respect of any payment will be contractually subordinated to the rights of the Lenders on terms comparable to the Loan Market Association’s form of intercreditor agreement at such time for mezzanine debt;
- replace the definition of “Spin Off” under the Senior Credit Facility with a new definition which refers to a transaction by which all outstanding ordinary and or equity shares of the Common Holding Company and or any Holding Company of the Common Holding Company directly or indirectly owned by the Ultimate Parent are distributed to (a) all of the Ultimate Parent’s shareholders, or (b) all of the shareholders comprising one or more group of the Ultimate Parent’s shareholders as provided by the Ultimate Parent’s articles of association, in each case, either directly or indirectly through the distribution of shares in a company holding the Common Holding Company’s shares or such Holding Company’s shares;
- add a new definition of “Sub-participation” referring to any sub-participation or sub-contract (whether written or oral) or any other agreement or arrangement having an economically substantially similar effect, including any credit default or total return swap or derivative (whether disclosed undisclosed, risk or funded) by a Lender of or in relation to any of its rights or obligations under, or its legal, beneficial or economic interest in relation to, the Facilities and/or Finance Documents to a counterparty and “sub-participate” shall be construed accordingly;
- amend the definition of “Majority Lenders” to reduce the fractions specified, from two thirds or more (for any or all purposes under the Credit Agreement or any other Finance Document (including for the purposes of any Telenet Additional Facility)) to more than 50.00% and to exclude the available commitments of defaulting lenders for the purposes of amendments or waivers;
- amend the definition of “Super Majority Lenders” so that amendments and waivers in respect of the release of any guarantee or security only requires the consent of Lenders representing 90.00% of Commitments;
- amend clause 29.3 (*Transfers by Lenders*) of the Senior Credit Facility to include a restriction on sub-participations of rights and obligations and is subject to the same consent regime as for assignments and transfers;
- add a new provision to provide that there will be no restrictions on sub-participations provided that certain conditions, which include, the Lender retaining exclusive control over all rights and obligations in relation to the participations, the relationship between the Lender and the proposed sub-participant being that of a contractual debtor and creditor and the proposed sub-participant having no proprietary

interest in the benefit of the Senior Credit Facility or any of the Finance Documents or in any monies received by the relevant Lender;

- add a new provision to require any person granting a sub-participation to maintain a register on which it enters the name and address of each sub-participant in which each sub-participant has an interest or obligation;
- add a new provision which provides that no transfer of an interest in an Advance or Commitment under the Senior Credit Facility is effective unless and until it is recorded in the register referred to in the Senior Credit Facility;
- amend the additional facilities clause that each Lender under a Telenet Additional Facility shall be required to become such a party to the Senior Credit Facility and be entitled to share in the Security in accordance with the terms of the Intercreditor Agreement and the Security Documents *pari passu* with the Lenders under the other Facilities provided that the Company and the relevant Telenet Additional Facility Lenders may agree that a Telenet Additional Facility shares in the Security on a junior basis to the other Facilities or shall not be entitled to share in the Security either in accordance with the terms of the Intercreditor Agreement or pursuant to ancillary intercreditor arrangements;
- amend the Additional Facilities Cap such that (A) it includes an additional limb for the aggregate amount of any voluntary prepayments of Term Facility Advances under Revolving Facilities to the extent the relevant prepayment or cancellation is not funded or effected with any long term Financial Indebtedness and (B) the Company shall have the ability to classify such amounts of Financial Indebtedness on the date of their incurrence and shall only be required to include the amount and type of such Financial Indebtedness in more than one of the types of Financial Indebtedness described in such paragraphs, and, from time to time, may reclassify all or a portion of such Financial Indebtedness, in any manner;
- amend the definition of Consolidated EBITDA under the Senior Credit Facility to provide that any adjustments to reduce the impact of the cumulative effect of a change in accounting principles or policies and changes as a result of a the adoption or modification of accounting principles or policies can be added (at the Company's option) to the operating income of the Group for that measurement period;
- amend the Senior Credit Facility to provide that any Affiliate of the Company may accede to the Senior Credit Facility as a Guarantor in accordance with the terms of the Senior Credit Facility (provided that Security has been granted in form and substance satisfactory to the Facility Agent (acting reasonably) in favour of the Security Agent over 100% of its shares and all rights in relations to loans from members of the Wider Group to it) and that such Affiliate shall be a member of the Group and an Additional Guarantor;
- add a new definition of "Affiliate Subsidiary" such that it means any Affiliate of the Company that accedes to the Senior Credit Facility as a Guarantor pursuant to the amendments described in the paragraph above and provided that it has not resigned as a Guarantor in accordance with the terms of the Credit Agreement;
- amend the definition of "ERISA Affiliate" to mean any person treated as a single employer with any Obligor under section 414 of the Code;
- amend the definition of "Plan" to mean an "employee benefit plan" as defined in section 3(3) of ERISA, which is subject to Title IV of ERISA (A) maintained by any Obligor or any ERISA Affiliate, or (B) to which any Obligor or any ERISA Affiliate is required to make any payment or contribution;
- amend the definition of "Reportable Event" to mean (A) an event specified as such in section 4043 of ERISA or any regulation, other than an event in relation to which the requirement to give notice of that event is waived by any regulation, or (B) a failure to meet the minimum funding standard under section 412 or 430 of the Code or section 302 of ERISA, whether or not waived;
- amend the Senior Credit Facility so that the ERISA representation only applies to an Obligor and not all members of the Group and there is no Event of Default triggered in respect of ERISA;

- amend the Senior Credit Facility to amend the undertaking relating to ERISA such that each Obligor and its ERISA Affiliates must (A) be, and remain, in compliance in all material respects with all laws and regulations relating to each of its Plans and (B) must ensure that no event or condition exists at any time in relation to a Plan which is reasonably likely to result in the imposition of a lien or other encumbrance on any of its assets or which is reasonably likely to have a Material Adverse Effect;
- amend the definition of “Limited Condition Transaction” to include any Restricted Payment;
- amend the representation at clause 18.17 (*United States Regulations*) so that the representation to be given is that no Obligor is required to be registered as an “investment company” under the United States Investment Company Act of 1940;
- amend the representation at clause 18.19 (*Margin stock*) so that the representation to be given is that no Obligor is engaged nor will it engage, principally or as one of its important activities, in the business of purchasing or carrying Margin Stock (within the meaning of Regulation U issued by the Board of Governors of the Federal Reserve System of the United States), or extending credit for the purpose of purchasing or carrying Margin Stock, and no proceeds of any borrowings will be used for any purpose that violates Regulation U;
- add a new provision to clause 21.13 (*Loans and Guarantees*) to permit any guarantee of any Financial Indebtedness of any Parent that is given by an Affiliate Subsidiary provided that (i) on the date of incurrence of such guarantee the ratio of Net Total Debt (including any Holdco Debt) to Consolidated Annualised EBITDA on a pro forma basis would not exceed 6.00:1 (provided that outstanding Net Total Debt (including Holdco Debt) for the purpose of calculating such ratio under this paragraph shall include any Financial Indebtedness represented by guarantees by any member of the Group of Financial Indebtedness of any Parent), (ii) such guarantee is expressed to be subordinated to the liabilities of such Affiliate Subsidiary under the Finance Documents and (iii) no Event of Default is continuing or occurs as a result of such Financial Indebtedness of that Parent being raised or issued;
- amend clause 21.13 (*Loans and Guarantees*), in particular limb (bb) of such clause, to mean loans made, credit granted or guarantees given by any member of the Group where the aggregate amount does not exceed the greater of €150,000,000 and 3% of Total Assets;
- amend Clause 21.13 (*Loans and Guarantees*), in particular limb (g) of such clause, to permit guarantees by an Obligor in respect of the liabilities of any other member of the Group which is not an Obligor provided that that other member of the Group must become an Additional Guarantor in accordance with the terms of the Senior Credit Facility within 30 days of the granting of the guarantee;
- amend clause 21.13 (*Loans and Guarantees*), in particular limb (z) of such clause, to mean loans made in connection with any start-up financing or seed funding where the aggregate value does not exceed the greater of €25,000,000 and 1% of Total Assets;
- add a new provision to clause 21.13 (*Loans and Guarantees*) to permit any loans or guarantees relating to Excess Capacity Network Services provided that the price payable to any member of the Group in relation to such Excess Capacity Network Services is no less than the Cost incurred by the relevant member of the Group in providing such Excess Capacity Network Services;
- add a new provision to clause 21.13 (*Loans and Guarantees*) to permit any guarantees or similar undertakings granted by any member of the Group in favour of any tax authority in respect of any obligations of a member of the Group in respect of tax in order to facilitate the winding up of any member of the Group provided that the Facility Agent shall have first received confirmation from the Company that based on discussions with such tax authority and the Company’s reasonable assumptions, the Company does not believe that the liability under such guarantee will exceed €15,000,000 (such confirmation to be supported by a letter from the Company’s auditors for the time being, confirming that based on the Company’s calculations of such tax liability the Company’s confirmation is a reasonable assessment of such tax liability);
- amend clause 10.2(b) (*Mandatory Prepayment—Change of Control*) to provide that upon consummation of (i) the Post-Closing Reorganisation, the “Controlling Company” will mean the relevant New Intermediate Holdco and its successors or (ii) a Spin-Off in which the Common Holding Company and

its successors is no longer a Parent of the Company and any Permitted Affiliate Parent, the “Controlling Company” will mean a common Parent of the Company and any Permitted Affiliate Parent designated by the Company and any successors of such Parent;

- amend the definition of “GAAP” to provide that at any date after the date of preparation of the original financial statements, the Company may make an election to establish “GAAP” to mean GAAP as in effect on a date that is on or prior to the date of such election but provided that for the purposes of clause 19.1 (*Financial Statements*) GAAP means generally accepted accounting principles in the United States as in effect from time to time;
- amend the definition of “IFRS” to provide that at any date after the date of preparation of the original financial statements, the Company may make an election to establish “IFRS” to mean IFRS as in effect on a date that is on or prior to the date of such election but provided that for the purposes of clause 19.1 (*Financial Statements*) IFRS means generally accepted accounting principles in the United States as in effect from time to time;
- amendments to the Change in Accounting Principles clause to provided that all ratios and calculations based on IFRS shall be computed in conformity with IFRS and that the audited consolidated financial statements and unaudited quarterly consolidated management accounts shall be prepared in accordance with IFRS;
- amendments to the Change in Accounting Principles clause to provide that at the time of an election from the Company to apply or all purposes of the Senior Credit Facility, in lieu of IFRS, GAAP and, upon such election, references to IFRS in the Senior Credit Facility will be construed to mean GAAP, provided that all financial statements and reports to be provided, after such election, pursuant to this Agreement shall be prepared on the basis of GAAP as in effect from time to time (including that, upon first reporting its financial year results under GAAP, the financial statements of the Reporting Entity shall be restated on the basis of GAAP for the year ending immediately prior to the first financial year for which financial statements have been prepared on the basis of GAAP) and from and after such election, all ratios, computations and other determinations based on GAAP contained in this Agreement shall, at the Company’s option (A) continue to be computed in conformity with GAAP (*provided that*, following such election, the annual and quarterly information required to be delivered under the Senior Credit Facility shall include a reconciliation, either in the footnotes thereto or in a separate report delivered therewith, of such GAAP presentation to the corresponding GAAP presentation of such financial information) or (B) be computed in conformity with GAAP with retroactive effect being given thereto assuming that such election had been made on the OFS Date, subject to any further election in accordance with the definition of GAAP. After such election, the Company may, at its option, elect to apply IFRS or GAAP and compute all ratios, computations and other determinations based on IFRS or GAAP;
- amend the definition of “Business Division Transaction” to remove the requirement for the approval of the Majority Lenders to such transactions;
- add a new definition of “Permitted Business Division Transaction” to mean a Business Division Transaction provided that after giving pro forma effect thereto, an Obligor could incur at least €1.00 of additional Financial Indebtedness pursuant to limb (v) of the definition of Permitted Financial Indebtedness;
- add a new definition of “Acceptable Joint Venture” to mean a joint venture, partnership or similar arrangement formed by a member of the Group (a) by the contribution of some or all of the assets of the Group pursuant to a Business Division Transaction to such joint venture, partnership or similar arrangement with one or more persons and/or (b) for the purposes of network and/or infrastructure sharing with one or more Joint Ventures;
- amend the construction clause of the Senior Credit Facility to provide that the Senior Credit Facility is subject to the terms of the Intercreditor Agreement and the terms of the Intercreditor Agreement will prevail if there is a conflict between the terms of the Senior Credit Facility and the Intercreditor Agreement;
- amend the increase provisions so that, with the prior consent of a Lender, the Commitments of any Increase Lender can be increased without the drawstop of an Event of Default;

- amend the increase provisions to provide that at the election of the Company (in its sole discretion) it shall be a condition to an increase (A) that the aggregate principal amount of any proposed increase in the Commitments shall not exceed, *mutatis mutandis*, the Additional Facilities Cap on the date that such increase in the Commitments becomes effective (giving pro forma effect to the intended use of proceeds of such increased Commitment and assuming that the entire amount of that increased Commitment is drawn on such date or (B) to any Utilisation (other than a Rollover Loan or a Documentary Credit which is being renewed pursuant to clause 6.2 (*Renewal of Documentary Credits*)) of that increased Commitment that the aggregate principal amount of that increased Commitment to be drawn would not exceed, *mutatis mutandis*, the Additional Facilities Cap on the date of that Utilisation;
- amend the provisions relating to compliance certificates to provide that the Company is only required to provide a Compliance Certificate with its financial statements to the Facility Agent if, as at the last day of the Measurement Period ending on the date of such financial statements, the Financial Ratio Test Condition is met;
- amendments to the financial covenant provisions so that (a) should any net indebtedness under each Ancillary Facility exceed an amount equal to 40 per cent. of the aggregate of the Revolving Facility Commitments and each Ancillary Facility Commitment, the ratio of Net Total Debt to Consolidated Annualised EBITDA shall not exceed 6.00:1 and (b) if the financial covenant set out in paragraph (a) has been breached for a Measurement Period but is complied with when tested for the next Measurement Period, then, the prior breach of such financial covenant or any Event of Default arising therefrom shall not constitute a breach of any representation, warranty, undertaking or other term in the Finance Documents or a Default or Event of Default;
- amend the equity cure provisions to provide that the Company may cure a breach of the financial ratio by procuring that additional equity is injected into, and/or additional Subordinated Shareholder Loans is provided to, one or more members of the Group in an aggregate amount equal to or greater than the amount which if it had been (A) deducted from Net Total Debt or (B) added to Consolidated Annualised EBITDA for the Measurement Period in respect of which the breach arose, would have avoided the breach provided that such cure would not be effective unless an amount equal to or greater than the required amount of additional equity or the proceeds of any Subordinated Shareholder Loans is received by one or more members of the Group within 30 Business Days of delivery of the financial statements which show the breach of the financial ratio and provided further that if the Company makes such election for re-calculation it shall be under no obligation to apply the amount of additional equity or the proceeds of any Subordinated Shareholder Loans that are received by one or more members of the Group in prepayment of the Facilities or for any other specific purpose and such amount will be deemed to be deducted from Net Total Debt or added to Consolidated Annualised EBITDA for the purposes of the financial ratio as at the last day of the relevant Measurement Period;
- amend the equity cure provisions to provide that the Company may cure a breach of the financial ratio by procuring that any Telenet Additional Facility Outstandings under any Revolving Facility and/or net indebtedness under any Ancillary Facility are prepaid (from any source selected by the Company in its sole discretion) in an amount which if such prepayment had occurred immediately prior to the calculation on the last day of the Measurement Period in respect of which the breach arose, the Financial Ratio Test Condition as at the last day of that Measurement Period would not have been met and therefore the financial ratio would not have been required to be tested provided that such cure would not be effective unless the amount of any Telenet Additional Facility Outstandings under any Revolving Facility and/or net indebtedness under any Ancillary Facility that are required to be prepaid are so prepaid within 30 Business Days of delivery of the financial statements which show the breach of the financial ratio and provided further that if the Company makes such election for re-calculation the amount of any Telenet Additional Facility Outstandings under any Revolving Facility and/or net indebtedness under any Ancillary Facility that are prepaid shall be deemed to be deducted in the calculation of the Financial Ratio Test Condition as at the last day of the relevant Measurement Period;
- amend the representation provision in the Senior Credit Facility to (A) delete the representation that the Senior Credit Facility does not result in the creation of any Security Interest, (B) delete the representation that a member of the Group is not in default under any law, regulation or agreement, (C) to carve Licenses out of the scope of licenses in the authorisations representation and (D) to provide that the insolvency proceeding representation only extends to Obligor or Material Subsidiaries;

- amend the increased costs provisions to include an exception for any cost attributable to a change in the Tax Liability on the overall net income of the Finance Party, attributable to any penalty having been imposed by the relevant central bank or monetary or fiscal authority upon the Finance Party or attributable to a breach of a Finance Document by the Finance Party;
- amend the stamp taxes indemnity to carve out any Tax Liabilities payable in connection with the assignment or transfer by any Lender of any of its rights and/or obligations under the Finance Documents and any registration duties relating to a registration submission or filing which is not required to maintain or preserve the rights of that Finance Party;
- amend the tax indemnity provision to carve out any loss, liability or cost which has been compensated under the stamp taxes indemnity provisions;
- amend the undertaking relating to share capital to include an additional carve out for members of the Group in order to permit a solvent liquidation and the reduction of capital or purchase or redemption of shares to the extent it relates to the cancellation of the share capital of any member of the Group or any Obligor;
- amend the further assurance provision to provide that there will not be a breach of the 80% Security Test if the members of the Group become Obligors within 60 days of the delivery of the relevant Compliance Certificate by the Company demonstrating that the 80% Security Test has not been satisfied;
- amend the breach of other obligations event of default to provide that the breach of the undertakings relating to pari passu ranking, negative pledge, disposals, acquisitions and mergers, restricted payments, loans and guarantees and share security will not trigger an event of default if such non-compliance is capable of remedy and is remedied within 30 days of the earlier of the Facility Agent giving notice of the breach to the Company or any Obligor become aware of the non-compliance;
- amend the cross-default event of default to delete the provision which states that it will be an Event of Default to the extent that Financial Indebtedness is placed on demand and include the additional requirement that it will not be an Event of Default if the relevant Financial Indebtedness is covered by a Documentary Credit or a letter of credit, bank guarantee, indemnity or other documentary credit under an Ancillary Facility;
- amend the information undertakings to remove the requirement for the Obligors to provide copies of material reports or other notice delivered by a member of the Group whose shares are subject to a pledge to their shareholders;
- amend the change of business undertaking to provide that it will not be breached by an Obligor or any member of the Group to the extent that it is as a result of a Permitted Disposal, Permitted Acquisition or Permitted Joint Venture;
- amend the insurance undertaking to provide that the Obligors are only required to procure compliance of Material Subsidiaries;
- amend the shareholder loan undertaking to provide that the Obligor has 60 days from the date of the shareholder loan to put in place the relevant security over such shareholder loan;
- amend the share security undertaking to include carve outs to the issuance of shares where (A) the shares are to a non-member of the Group if they are made subject to security in favour of the Senior Secured Creditors (as defined in the Intercreditor Agreement) and it does not result in a Change of Control, (B) to a member of the Group or to Telenet Group BVBA if they are made subject to the security in favour of the Senior Secured Creditors (as defined in the Intercreditor Agreement), (C) the shares are issued pursuant to the exercise of Approved Stock Options, (D) the shares are part of an Acquisition or merger and do not result in a Change of Control, (E) the shares are issued by a member of the Group to all the holders of their shares pro rata and if relevant, are made subject to security in favour of the Senior Secured Creditors (as defined in the Intercreditor Agreement), and (F) shares issued pursuant to any agreement existing before the Signing Date and it does not result in a Change of Control;

- amend the group redesignation provision to provide that the Company may deliver a notice to the Facility Agent designating any Holding Company of the Company and/or any Holding Company of any Permitted Affiliate Parent as a “New Group Topco” for the purposes of this Agreement provided that taking into account any actions to be taken by the Company for the benefit of the Lenders, it would not be materially prejudicial to the interests of the Lenders in the opinion of the Facility Agent (acting reasonably);
- amend the merger provision to permit a merger of Telenet Group Holding NV, Telenet BVBA or Telenet Vlaanderen NV or any of their intermediate holding companies;
- amend the Clean Up Period to 180 days;
- amend the acceleration provision to remove the discretion of the Facility Agent once it has been instructed to do so by the Majority Lenders;
- amend the currency indemnity and break costs provisions to provide that the relevant Finance Party must be indemnified within 10 Business Days of demand;
- amend the amendment provisions to permit the Facility Agent (without the consent of the Lenders) to make modifications to a Finance Document if such modification is not materially prejudicial to the position of any Lender, is minor or operational, relates to an increase in the principal amount of a Commitment of a Lender and such increased Commitment has been requested by the Company to fund any original issue discount required to be paid to that Lender or relates to the implementation of any alternative basis for the calculation of interest that is binding on all Parties in accordance with the terms of the Senior Credit Facility;
- amend the amendment provisions to include an additional exception for a waiver of issuance or the release of any Guarantor from any of its obligations under the guarantee provisions of the Senior Credit Facility or a release of any Security under the Security Documents, in each case, other than in accordance with the terms of any Finance Document shall require the prior written consent of affected Lenders whose share in the outstanding Utilisations and whose undrawn Commitments amount in aggregate to more than 75 per cent. of all of the outstanding Utilisations and undrawn Commitments;
- amend the non-consenting lender provisions to remove the requirement for a 21 day time period to have elapsed from the date of the request for consent;
- amend the governing law clause to include non-contractual obligations arising out of or in connection with the Senior Credit Facility;
- amend the ancillary facilities provisions to provide that (i) a date specified in a conversion notice as the effective date for an ancillary facility commitment may be a date not less than 3 Business Days after the date such conversion notice is received by the Facility Agent, (ii) any proposed increase or reduction or extension of the ancillary facility commitment shall only take effect from a date not less than 3 Business Days after the date the Facility Agent has received notice of the relevant modification or variation or extension and (iii) an ancillary facility lender may demand repayment or prepayment of any amounts under its ancillary facility if the ancillary facility outstandings under that ancillary facility can be repaid by a revolving facility advance (and not less than 7 Business Days notice (or such shorter period as agreed to by the Company) is given to the relevant Borrower before payment becomes due);
- amend the defaulting lender provisions to include the right to replace a Lender (in whole and at par) if that Lender becomes a Defaulting Lender;
- amend the assignment of the Lender provisions to provide that the consent of the Company is not required for any assignment or transfer by a Lender if a non-payment, insolvency, insolvency proceedings, creditors’ process and similar proceedings Event of Default is outstanding;
- amend the assignment of the Lender provisions to clarify that the Company should have the right to withhold consent in respect of an assignment/transfer of the Revolving Facility to an entity which is not a lender under a revolving facility to the wider Liberty group (subject to no consent being required in the case of transfers to other Lenders or affiliates of Lenders or following an event of default which is

continuing). There should be no unreasonableness qualifier on this right (in respect of the Revolving Facility only). Remove requirement of deemed consent within 10 Business Days in respect of each Revolving Facility;

- amend the amendments and waivers provisions to provide that amendments and waivers of clause 20.2 (*Net Total Debt to Consolidated Annualised EBITDA*) to 20.4 (*Cure provisions*) shall only be made with the consent of the Company and the Composite Revolving Facility Instructing Group and shall not require the consent of any other Finance Party;
- amend the amendment and waivers provisions to introduce a class exception, whereby any amendment or waiver that relates only to the rights or obligations of a particular Utilisation or Facility and does not materially and adversely affect the rights or interests of Lenders in respect of other Utilisations or Facilities only requires the consent of the relevant proportion of Lenders participating in such Utilisation or Facility;
- amend the amendment and waivers provisions to require the consent of affected Lenders only and not all Lenders (and make any consequential changes by amending for example, all references to matters requiring all Lender consent to only requiring affected Lender consent);
- amend the amendments and waivers provision to provide that where a request for a waiver of, or an amendment to, any provision of any Finance Document has been sent by the Facility Agent to the Lenders at the request of an Obligor, each Lender that does not respond to such request for waiver or amendment within 10 Business Days after receipt by it of such request (or within such other period as the Facility Agent and the Company shall specify), shall be excluded from the calculation in determining whether the requisite level of consent to such waiver or amendment was granted, and delete the proviso to the definition of Majority Lenders;
- amend the non-consenting lender provisions to remove the timing window of 90 days during which the Company may exercise its rights under such non-consenting lender provision at any time;
- amend the provisions in the Senior Credit Facility to provide that, subject to certain thresholds being met no Obligor nor any other member of the Group is required to provide any Security or guarantee other than Security over the shares that it holds in any Obligor, Security required under the terms of the Credit Agreement in respect of Subordinated Shareholder Loans and a guarantee from the Obligors under the terms of the Credit Agreement and include a provision to authorise the Security Agent to release any other Security or guarantees other than the aforementioned and to release Security in respect of Permitted Disposals and to permit relevant Security to be released if a Guarantor resigns in accordance with the terms of the Senior Credit Facility) provided that the guarantor coverage test would still be met notwithstanding such release;
- amend the assignment of the Obligors provisions to provide that any Benelux Borrower may assign or transfer any of its rights and obligations under the Revolving Facility or the Term Loans to another Benelux Borrower and so that any US Borrower may do the same to another US Borrower, in each case, without the prior consent of the Lenders provided that a solvency opinion and legal opinion are provided, if requested, in accordance with recent Liberty precedents in respect of an equivalent provision;
- amend the additional borrower provisions to provide that, in addition to the existing ability for an Additional Borrower incorporated in Benelux and the US to accede (without requiring any Lender consent), to provide an ability to accede Additional Borrowers incorporated in any other jurisdictions with the consent of the Majority Lenders; and
- amend the additional borrower provisions to permit Additional Borrowers to be incorporated in the Kingdom of Belgium, Netherlands, Luxembourg or, in relation to any new Additional Facilities, in the United Kingdom.

The above description is intended to summarize certain material amendments included in the Senior Credit Facility Amendments but is not a complete and exhaustive list of such amendments and does not set out the proposed amendments listed in Schedules 4, 5, 6, 7, 8, 9 and 10 to the 2017 Finco Accession Agreements and Schedules 4, 5, 6, 7, 8, 9 and 10 of the New Finco Accession Agreements, as applicable, in their entirety. Given the significant nature of these amendments, you should read the full list of amendments set out in Schedules 4, 5, 6, 7, 8, 9 and

10 to the 2017 Finco Accession Agreements, attached as Annex B and Annex C to these Listing Particulars, and Schedules 4, 5, 6, 7, 8, 9 and 10 of the New Finco Accession Agreements, attached as Schedule 11 of each of Annex B and Annex C to these Listing Particulars, in their entirety before investing in the Notes. See *“Risk Factors—By investing in the Notes you will have provided advanced consent to the Senior Credit Facility Amendments which will automatically become effective without any further consent from holders of the Notes upon the Telenet Bank Group obtaining the consent of either the Majority Lenders (as defined in the Senior Credit Facility) or, with respect to certain amendments, all Telenet Lenders”*.

The Senior Credit Facility Amendments will generally become effective upon the approval by lenders constituting the “Majority Lenders” (as currently defined, without giving effect to the Senior Credit Facility Amendments); however, certain of the Senior Credit Facility Amendments, including those related to amending the Senior Credit Facility, extending the date of any payment and releasing guarantors and collateral, will become effective only upon the approval of all lenders under the Senior Credit Facility. Upon the issuance of the Notes, consent has already been obtained from the requisite lenders to bring into effect the Seventh Senior Credit Facility Amendments that require Majority Lenders’ consent, and each of the 2017 Finco Accession Agreements and the New Finco Accession Agreements also contain the consent of the Issuer to bring into effect such Seventh Senior Credit Facility Amendments as set out in Schedule 10 of the 2017 Finco Accession Agreements or Schedule 10 of the New Finco Accession Agreements, as applicable, that require the consent of the Majority Lenders.

As a result, the Issuer will not solicit votes (or other consents) from the holders of the Notes with respect to the Senior Credit Facility Amendments. In addition, the Issuer will not be entitled to receive, and will expressly waive under the 2017 Finco Accession Agreements any right it may have to, any consent, waiver, amendment or other similar fee that may be paid to other Telenet Lenders in connection with their approval of the Senior Credit Facility Amendments.

References in this Description of the Notes and the Indenture to numbered clauses or sections in the Senior Credit Facility refer to such clauses or sections as numbered as of the date of the Indenture and, in the event the Senior Credit Facility is amended or supplemented after the date of the Indenture, to any substantially similar clause or section after such amendment or supplement whether numbered the same or differently after such amendment or supplement.

For a further description of the Senior Credit Facility, see *“Description of the Senior Credit Facility”*.

Senior Facility Collateral

The 2017 Finco Loan is and each New Finco Loan, as applicable, will be secured by the security interests on substantially all assets of the Telenet Bank Group granted to the Telenet Security Agent to secure the Telenet Loans. The Telenet Loans are secured on a first-ranking basis by substantially all of the properties and assets of the borrowers and Senior Facility Guarantors, and certain other security providers, under the Senior Credit Facility (collectively, the **“Senior Facility Collateral”**), including:

- (1) share pledges over all the shares of Telenet Group BVBA, Telenet BVBA (and following the Finco Loans Borrower Exchange, the Belgian Borrower), Telenet Vlaanderen NV and the Initial Telenet Borrower;
- (2) mortgages over all real property and the network assets of Telenet BVBA (and following the Finco Loans Borrower Exchange, the Belgian Borrower) and Telenet Vlaanderen NV;
- (3) floating charges over all moveable property of Telenet Group BVBA, Telenet BVBA (and following the Finco Loans Borrower Exchange, the Belgian Borrower) and Telenet Vlaanderen NV;
- (4) pledges on bank accounts and of all present and future receivables of Telenet Group Holding, Telenet Group BVBA, Telenet BVBA (and following the Finco Loans Borrower Exchange, the Belgian Borrower) and Telenet Vlaanderen NV; and
- (5) pledges on bank accounts and of all present and future intercompany receivables granted by the Initial Telenet Borrower.

For a further description of the security with respect to the Telenet Loans and the Senior Credit Facility, see *“Description of the Senior Credit Facility and the Related Agreements—Guarantees and Security”*.

The Senior Credit Facility allows for the release of the Senior Facility Collateral provided that a Lender Asset Security Release Confirmation (as defined in the Senior Credit Facility) has been delivered by the Telenet Facility Agent to the Lenders and the remaining security consists of share pledges over the shares in, and pledges in respect of certain subordinated shareholder loans to, members of the Telenet Bank Group generating in aggregate not less than 80% of Consolidated EBITDA (as defined in the Senior Credit Facility) of the Telenet Bank Group. The Lender Asset Security Release Confirmation shall be delivered promptly following the date on which the requisite consent levels in respect of corresponding Senior Credit Facility Amendments have been achieved.

Note Collateral

Prior to the Belgian Issuer Accession, subject to limitations under English or Luxembourg law described elsewhere in these Listing Particulars, the holders of the Notes benefit directly from first-ranking security interests to be granted to the Security Trustee on behalf of itself, the Trustee and the holders of the Notes in the following rights, property and assets of the Initial Loan (collectively, the **“Initial Note Collateral”**):

- (1) the Initial Issuer’s rights to and benefit in the Finco Loans (including all rights of the Initial Issuer as a Telenet Lender under the Finance Documents (as defined in the Senior Credit Facility) (including the 2017 Finco Accession Agreements and any other Finco Accession Agreements) in respect of which the Initial Issuer has any right, title, benefit and/or interest and the Intercreditor Agreement) (the **“Initial Telenet Loan Collateral”**);
- (2) the Initial Issuer’s rights under the Telenet Fee Letters (the **“Initial Telenet Fee Letters Collateral”**);
- (3) the Initial Issuer’s rights under the Telenet Service Agreement (excluding the Initial Issuer’s rights to be indemnified in respect of fees, costs, expenses and any other amounts payable to parties that do not benefit from the security interests in the Initial Note Collateral) (the **“Initial Telenet Service Agreement Collateral”**); and
- (4) sums of money held from time to time in all bank accounts of the Initial Issuer (the **“Initial Bank Account Collateral”**),

in each case, on a *pari passu* basis with any Additional Notes and any other future Additional Debt of the Initial Issuer incurred or issued after the Issue Date that is not subordinated to the Notes, in accordance with the terms of the Collateral Sharing Agreement.

Following the Belgian Issuer Accession, subject to limitations under Belgian law described above, the holders of the Notes will benefit directly from first-ranking security interests to be granted to the Security

Trustee on behalf of itself, the Trustee and the holders of the Notes in the following rights, property and assets of the Belgian Issuer (collectively, the **“New Note Collateral”**):

- (1) The Belgian Issuer’s rights to and benefit in the 2017 Finco Loans or the New Finco Loans, as applicable, and any other Finco Loans (including all rights of the Belgian Issuer as a Telenet Lender under the Finance Documents (as defined in the Senior Credit Facility) (including the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, and any other Finco Accession Agreements) in respect of which the Initial Issuer has any right, title, benefit and/or interest and the Intercreditor Agreement) (the **“New Telenet Loan Collateral”**);
- (2) the Belgian Issuer’s rights under the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, (excluding the Belgian Issuer’s rights to be indemnified in respect of fees, costs, expenses and any other amounts payable to parties that do not benefit from the security interests in the New Note Collateral) (the **“New Telenet Service Agreement Collateral”**); and
- (3) sums of money held from time to time in all bank accounts of the Belgian Issuer (the **“New Bank Account Collateral”**),

in each case, on a *pari passu* basis with any Additional Notes and any other future Additional Debt of the Belgian Issuer incurred or issued after the Belgian Issuer Accession Date that is not subordinated to the Notes, in accordance with the terms of the Collateral Sharing Agreement.

In this description:

- (1) the term “**Note Collateral**” refers to (i) the Initial Note Collateral prior to the Belgian Issuer Accession and (ii) the New Note Collateral after the Belgian Issuer Accession, as the case may be;
- (2) the term “**Telenet Loan Collateral**” refers to (i) the Initial Telenet Loan Collateral prior to the Belgian Issuer Accession and (ii) the New Telenet Loan Collateral after the Belgian Issuer Accession, as the case may be;
- (3) the term “**Telenet Service Agreement Collateral**” refers to (i) the Initial Telenet Service Agreement Collateral prior to the Belgian Issuer Accession and (ii) the New Telenet Service Agreement Collateral after the Belgian Issuer Accession, as the case may be; and
- (4) the term “**Bank Account Collateral**” refers to (i) the Initial Bank Account Collateral prior to the Belgian Issuer Accession and (ii) the New Bank Account Collateral after the Belgian Issuer Accession, as the case may be.

The Security Trustee entered into the Notes Security Documents relating to the Note Collateral described above with the other relevant parties thereto. The first-ranking security interests in the Note Collateral secure the performance of the obligations of the Issuer under the Indenture and the Notes as provided in the relevant Notes Security Document and to the extent specified therein, subject to the provisions, among others, described below under “—*Events of Default and Remedies*” and “—*Amendment, Supplement and Waiver*”. Subject to certain conditions, including the compliance with the covenant described under “—*Impairment of Liens*,” the Issuer is permitted to pledge the Note Collateral in connection with future issuances of Additional Debt, including any Additional Notes, in each case permitted under the Indenture and on terms consistent with the relative priority of such Financial Indebtedness, and the creditors (or representative thereof) of any such Additional Debt of the Issuer that will benefit from the shared Note Collateral on a *pari passu* basis will become party to the Collateral Sharing Agreement. The Collateral Sharing Agreement provides that the Liens in the Note Collateral may be enforced only upon an acceleration of the amounts due under the Notes following an Event of Default, subject to and in accordance with the terms of the Collateral Sharing Agreement. Neither the Trustee nor the holders of the Notes may, individually or collectively, take any direct action to enforce any rights in their favor under the Notes Security Documents. The Trustee and the holders of the Notes may only take action to enforce the Notes Security Documents through the Security Trustee and the Collateral Sharing Agreement. In addition, pursuant to the Collateral Sharing Agreement, the ability of the Security Trustee to enforce the Liens in the Note Collateral will be restricted and will be at the discretion of the relevant creditors. The Notes Security Documents provide for the Security Trustee to release the security created thereby (i) upon discharge of the Indenture, in accordance with its terms, as described below under “—*Release of the Note Collateral*” and (ii) in connection with or to consummate the Belgian Issuer Accession and/or the Finco Loans Borrower Exchange as set forth herein.

Neither the Security Trustee nor any of its respective officers, directors, employees, attorneys or agents are responsible or liable for the existence, genuineness, value or protection of any property securing the Notes, for the legality, enforceability, effectiveness or sufficiency of the Notes Security Documents, for the creation, perfection, priority, sufficiency or protection of any security interest under any Notes Security Document, or for any defect or deficiency as to any such matters, or for any failure to demand, collect, foreclose or realize upon or otherwise enforce any of the Notes Security Documents or any delay in doing so.

Release of the Note Collateral

The Liens on the Note Collateral will be automatically and unconditionally released:

- (1) upon the full and final payment and performance of all obligations of the Issuer under the Indenture and the Notes;
- (2) to release and/or re-take a lien on the Note Collateral to the extent otherwise permitted by the terms of the Indenture (including, without limitation, as may be permitted by the covenants described under “—*Certain Covenants—Impairment of Liens*”);
- (3) with the consent of holders of at least seventy-five percent (75%) in aggregate principal amount of the Notes (including without limitation, consents obtained in connection with a tender offer or exchange offer for, or purchase of, the Notes);

- (4) following an Event of Default under the Indenture or a default under other Financial Indebtedness secured by the Note Collateral, pursuant to an enforcement in accordance with the Collateral Sharing Agreement;
- (5) upon satisfaction and discharge of the Notes as provided below under the caption “— *“Satisfaction and Discharge”*”; and
- (6) with respect to Liens on the Initial Note Collateral, in connection with or to consummate the Belgian Issuer Accession and/or the Finco Loans Borrower Exchange; *provided that* upon release of Liens on the Initial Note Collateral, Liens on the New Note Collateral are substantially concurrently granted to the Security Trustee on behalf of itself, the Trustee and the holders of the Notes.

Upon certification by the Issuer, the Trustee and the Security Trustee shall take all necessary actions, including the granting of releases or waivers under the Collateral Sharing Agreement, to effectuate any release in accordance with these provisions, subject to customary protections and indemnifications to the satisfaction of the Trustee and the Security Trustee. The Security Trustee and/or Trustee (as applicable) will agree to any release of the security interests created by the Notes Security Documents that is in accordance with the Indenture, the Notes Security Documents and the Collateral Sharing Agreement without requiring any consent of the holders.

Limited Recourse Obligations

The obligations of the Issuer under the Indenture, the Notes and the Notes Security Documents to which it is a party is limited as set forth in the Indenture. All payments to be made by the Issuer under the Indenture (including any Additional Amounts), the Notes and the Notes Security Documents to which it is a party will be made only from and to the extent of such sums received or recovered by or on behalf of the Issuer, the Trustee or the Security Trustee under the Note Collateral, including the Issuer’s right under the Senior Credit Facility and the Transaction Documents and none of the Trustee, the Security Trustee, the Paying and Domiciliary Agent, the Registrar, any Paying Agent or the holders of Notes will have any further recourse to the Issuer in respect thereof in the event that the amount due and payable by the Issuer under the Indenture, the Notes and the Notes Security Documents exceeds the amounts so received or recovered under the Note Collateral, including the Issuer’s right under the Senior Credit Facility and the Transaction Documents (the “**Limited Recourse Restrictions**”).

In addition, holders of the Notes do not have a direct claim on the cash flow or assets of any member of the Telenet Bank Group and no member of the Telenet Bank Group has any obligation, contingent or otherwise, to pay amounts due under the Notes, or to make funds available to the Issuer for those payments, other than the obligations of the Initial Telenet Borrower or the Belgian Borrower, as applicable, and the Senior Facility Guarantors to make payments to Telenet Lenders under the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, the 2017 Telenet Fee Letters and/or the Telenet Service Agreement or New Telenet Service Agreement, as applicable.

Because the holders of Notes will benefit from the assignment of rights under certain agreements between the Issuer and members of the Telenet Bank Group, in certain circumstances described below under “—*Events of Default and Remedies*”, the Security Trustee, on behalf of the holders of the Notes, will be able to assert the contractual rights of the Issuer against members of the Telenet Bank Group, subject to any limitations set forth in the Senior Credit Facility (and in an enforcement action in accordance with the Collateral Sharing Agreement, holders of Notes may instruct the Security Trustee to demand such performance); however, these rights are limited to the Issuer’s contractual rights against any member of the Telenet Bank Group and provide for no direct claims into the Telenet Bank Group.

No member of the Telenet Bank Group guarantees the Issuer’s obligations under the Notes.

Principal, Maturity and Interest

The Issuer issued in this offering \$1,000 million in aggregate principal amount of Dollar Notes and €600.0 million in aggregate principal amount of Euro Notes. The Issuer may issue additional Dollar Notes (the “**Additional Dollar Notes**”) and/or additional Euro Notes (the “**Additional Euro Notes**” and together with the Additional Dollar Notes, the “**Additional Notes**”) under the Indenture from time to time after this offering. Any issuance of Additional Notes will be subject to all of the covenants in the Indenture. The Dollar Notes and any Additional Dollar Notes subsequently issued under the Indenture are treated as part of the same issue as the Dollar Notes for all purposes under the Indenture, including, without limitation, waivers, amendments, consents, other determinations, redemptions and offers to purchase, except as otherwise provided in the Indenture; *provided that*

if Additional Dollar Notes and the Dollar Notes issued in this offering are not part of the same “issue” within the meaning of the United States Treasury Regulations, the Additional Dollar Notes will have a separate ISIN and common code. The Euro Notes and any Additional Euro Notes subsequently issued under the Indenture will be treated as part of the same issue as the Euro Notes for all purposes under the Indenture, including, without limitation, waivers, amendments, consents, other determinations, redemptions and offers to purchase, except as otherwise provided in the Indenture; *provided* that if Additional Euro Notes and the Euro Notes issued in this offering are not part of the same “issue” within the meaning of the United State Treasury Regulations, the Additional Euro Notes will have a separate ISIN and common code. Any reference to (i) Notes in this Description of the Notes shall be deemed to include any Additional Notes, (ii) Dollar Notes in this Description of the Notes shall be deemed to include any Additional Dollar Notes, and (iii) Euro Notes in this Description of the Notes shall be deemed to include any Additional Euro Notes. In connection with the issuance of Additional Dollar Notes, the Initial Telenet Borrower or the Belgian Borrower, as applicable, will upsize Finco Loan AJ pursuant to an accession agreement (the “**Finco Loan AJ Accession Agreement**”) or will enter into one or more accession agreements under the Senior Credit Facility, each of which will constitute a Finco Accession Agreement for purposes of the Indenture and related documents. In connection with the issuance of Additional Euro Notes, the Initial Telenet Borrower or the Belgian Borrower, as applicable, will upsize Finco Loan AK pursuant to an accession agreement (the “**Finco Loan AK Accession Agreement**”) or will enter into one or more accession agreements under the Senior Credit Facility, each of which will constitute a Finco Accession Agreement for purposes of the Indenture and related documents (collectively with any other Finco Accession Agreement, the “**Finco Accession Agreements**”). The proceeds of any such Additional Dollar Notes or Additional Euro Notes, as applicable, will be loaned to the Initial Telenet Borrower or the Belgian Borrower, as applicable, pursuant to a loan under such Finco Accession Agreement, and each such loan will constitute a “**Finco Loan**” for purposes of the Indenture and related documents. Consideration for any Additional Notes may be paid in cash or otherwise.

The Issuer issued Dollar Notes in minimum denominations of \$200,000 and integral multiples of \$200,000 in excess thereof and Euro Notes in minimum denominations of €100,000 and integral multiples of €100,000 excess thereof. The Notes were only issued in registered form represented by one or more global notes and in minimum denominations of \$200,000 principal amount (in the case of Dollar Notes) and €100,000 principal amount (in the case of Euro Notes). The Dollar Notes will mature on March 1, 2028 and the Euro Notes will mature on March 1, 2028.

Interest on the Dollar Notes accrues at a rate of 5.500% per annum. Interest on the Dollar Notes is payable semi-annually in arrears on each January 15 and July 15, commencing January 15, 2018. Interest on the Euro Notes accrues at a rate of 3.500% per annum. Interest on the Euro Notes is payable semi-annually in arrears on each January 15 and July 15, commencing on January 15, 2018.

Interest on overdue principal and interest then due will accrue at a rate that is 1.0% higher than the then applicable interest rate on the relevant series of the Notes. Pursuant to the terms of the Telenet Service Agreement and the New Telenet Service Agreement described above, the Initial Telenet Borrower or the Belgian Borrower, as applicable, will make payments to the Issuer to enable it to pay the additional interest required to be paid under the Notes on overdue principal and interest. The Issuer will make, or cause to be made, each interest payment for so long as the Notes are Global Notes (as defined below) (i) in respect of the Dollar Notes, to holders of Book-Entry Interests in the Dollar Notes through direct Participants (as defined below) in the X/N Clearing System (as defined below) (including Euroclear and Clearstream) and (ii) in respect of the Euro Notes, to the Paying and Domiciliary Agent who will in turn make payments to holders of Book-Entry Interests in the Euro Notes through the X/N Clearing System, in each case of (i) and (ii) on the due date for such payment to those holders who are the holders of record of the Notes at the close of business (in the relevant clearing system) on the Clearing System Business Day immediately before the due date for such payment, where “**Clearing System Business Day**” means a day on which each clearing system for which the Global Note is being held is open for business or to the extent Definitive Registered Notes (as defined below) have been issued, to the holders of record of the Notes on the immediately preceding January 1 and July 1. Interest will be computed on the basis of (i) in the case of Dollar Notes, a 360-day year comprised of twelve 30-day months and (ii) in the case of Euro Notes, a 365-day or 366-day year (as applicable) and payable for the actual number of days elapsed.

Principal, premium, if any, interest, and Additional Amounts, if any, on the Notes issued in certificated non-global form (“**Definitive Registered Notes**”) will be made by check mailed to the address of the holders of Definitive Registered Notes as such address appears in the register for Definitive Registered Notes or, at the option of the Issuer, at the office of one or more paying agents for the Notes (a “**Paying Agent**”). Such holders must surrender their Definitive Registered Notes to the Issuer or a Paying Agent, as applicable, to collect principal payments.

If the due date for any payment in respect of any Notes is not a Business Day at the place at which such payment is due to be paid, the holders thereof will not be entitled to payment of the amount due until the next succeeding Business Day at such place, and will not be entitled to any further interest or other payment as a result of any such delay.

Paying and Domiciliary Agent and Registrar for the Notes

The Issuer will maintain, as long as the Notes are deposited with the Securities Settlement System operated by the National Bank of Belgium (or any successor thereto) (the “**X/N Clearing System**”) a paying and domiciliary agent (the “**Paying and Domiciliary Agent**”) that is a Participant. The initial Paying and Domiciliary Agent is ING Belgium SA/NV in Brussels. As long as the Notes are deposited with the X/N Clearing System, (i)(A) payments in respect of the Dollar Notes will be made through direct Participants in the X/N Clearing System (including Euroclear and Clearstream) which will in turn distribute such payments in accordance with their relevant procedures and (B) payments in respect of the Euro Notes will be made through the X/N Clearing System in accordance with the rules and regulations applicable to the X/N Clearing System; and (ii)(A) the Issuer makes payments due on the Dollar Notes to any direct Participants in the X/N Clearing System (including Euroclear and Clearstream) which will in turn distribute such payments in accordance with their relevant procedures and (B) the Issuer will make payments due on the Euro Notes to the Paying and Domiciliary Agent for further credit to Euroclear, Clearstream or any other direct Participant in the X/N Clearing System (as applicable) which will in turn distribute such payments in accordance with their relevant procedures.

The Issuer will also maintain one or more registrars (each, a “**Registrar**”) for so long as the Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF Market and the rules of the Luxembourg Stock Exchange so require. The Issuer will also maintain one or more transfer agents. The initial Registrar for the Notes is The Bank of New York Mellon SA/NV, Luxembourg Branch. The initial transfer agents with respect to the Notes are The Bank of New York Mellon, London Branch and The Bank of New York Mellon SA/NV, Luxembourg Branch. Owners of interests in the Notes deposited with the X/N Clearing System and held through Euroclear and/or Clearstream, as direct Participants in the X/N Clearing System may, under certain conditions as set forth in the Indenture, request definitive notes in registered form (“**Definitive Registered Notes**”). The Registrar will maintain a register on behalf of the Issuer for so long as the Notes remain outstanding reflecting ownership of Definitive Registered Notes outstanding from time to time. Following the issuance of Definitive Registered Notes, the Issuer may, in its sole discretion, make payments on the Definitive Registered Notes or appoint a Paying Agent to make payments on the Definitive Registered Notes on behalf of the Issuer. The transfer agents will, on behalf of the Issuer, facilitate transfer of, Definitive Registered Notes. In the event that the Notes are no longer listed, the Issuer or its agent will maintain a register reflecting ownership of the Notes. The Issuer may change a Paying and Domiciliary Agent, a Paying Agent, the Registrar or transfer agent for the Notes without prior notice to the holders of Notes, and the Issuer may act as Paying Agent, Registrar or transfer agent for the Notes.

Luxembourg provisions relating to Registered Notes

Upon written request from the Issuer, the Registrar shall provide the Issuer with a copy of the Register for information purposes.

Transfer and Exchange

The Notes have been issued in the form of several registered notes in global form, without interest coupons, as follows:

- Notes sold within the United States to qualified institutional buyers (“QIBs”) that are also “qualified purchasers” within the meaning of section 2(a)(51) of the 1940 Act and the rules and regulations thereunder (each, a “**Qualified Purchaser**”) pursuant to Rule 144A under the U.S. Securities Act are initially represented by one or more global notes in registered form without interest coupons attached (the “**144A Global Notes**”).
- The 144A Global Notes, on the Issue Date, were deposited by the Paying and Domiciliary Agent on behalf of the Issuer with the NBB as operator of the X/N Clearing System pursuant to an agreement between the Issuer, the Paying and Domiciliary Agent and the NBB.

- Notes sold outside the United States pursuant to Regulation S under the U.S. Securities Act are represented by one or more global notes in registered form without interest coupons attached (the “**Regulation S Global Notes**”, and together with the 144A Global Notes, the “**Global Notes**”).
- The Regulation S Global Notes, on the Issue Date, were deposited by the Paying and Domiciliary Agent on behalf of the Issuer with the NBB as operator of the X/N Clearing System pursuant to an agreement between the Issuer, the Paying and Domiciliary Agent and the NBB.

All interests in the Notes are subject to the procedures and requirements of the X/N Clearing System. Ownership of interests in the Global Notes (“**Book-Entry Interests**”) is limited to persons that will hold such Notes in an exempt securities account (an “**X Account**”) with the X/N Clearing System (either directly or indirectly through a participant in the X/N Clearing System (including Euroclear Bank S.A./N.V. (“**Euroclear**”) and Clearstream Banking, S.A. (“**Clearstream**”)) (and for a full list of participating central securities depositories as of the date of these Listing Particulars, see <https://www.nbb.be/en/list-nbb-investor-icsds>) (a “**Participant**”). Ownership of interests in the Book-Entry Interests and transfers thereof will be subject to the restrictions on transfer and certification requirements summarized below and described more fully under “*Book-Entry, Delivery and Form*”. In addition, transfers of Book-Entry Interests between Participants will be effected by such Participants pursuant to customary procedures and subject to the applicable rules and procedures established by the X/N Clearing System and its respective Participants.

Book-Entry Interests in the 144A Global Notes may be transferred to a person who takes delivery in the form of Book-Entry Interests in the Regulation S Global Notes denominated in the same currency only upon delivery by the transferor of a written certification (in the form provided in the Indenture) to the effect that such transfer is being made in accordance with Regulation S under the U.S. Securities Act.

Regulation S Book-Entry Interests may be transferred to a person who takes delivery in the form of 144A Book-Entry Interests only upon delivery by the transferor of a written certification (in the form provided in the Indenture) to the effect that such transfer is being made to a person who the transferor reasonably believes is a “qualified institutional buyer” within the meaning of Rule 144A that is also a Qualified Purchaser in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under “*Transfer Restrictions*” and in accordance with any applicable securities law of any other jurisdiction.

Any Book-Entry Interest that is transferred as described in the immediately preceding paragraphs will, upon transfer, cease to be a Book-Entry Interest in the Global Note from which it was transferred and will become a Book-Entry Interest in the Global Note to which it was transferred.

Accordingly, from and after such transfer, it will become subject to all transfer restrictions, if any, and other procedures applicable to Book-Entry Interests in the Global Note to which it was transferred.

If Definitive Registered Notes are issued, they will be issued only (i) in the case of Dollar Notes, in minimum denominations of \$200,000 principal amount and integral multiples of \$200,000 in excess thereof and (ii) in the case of Euro Notes, in minimum denominations of €100,000 principal amount and integral multiples of €100,000 in excess thereof, in each case of (i) and (ii) above, upon receipt by the applicable Registrar of instructions relating thereto and any certificates, opinions and other documentation required by the Indenture. It is expected that such instructions will be based upon directions received by Participants, from the Participant which owns the relevant Book-Entry Interests. Definitive Registered Notes issued in exchange for a Book-Entry Interest will, except as set forth in the Indenture or as otherwise determined by the Issuer to be in compliance with applicable law, be subject to, and will have a legend with respect to, the restrictions on transfer summarized below and described more fully under “*Transfer Restrictions*”.

Subject to the restrictions on transfer referred to above, Notes issued as Definitive Registered Notes may be transferred or exchanged, in whole or in part, (i) in the case of Dollar Notes, in minimum denominations of \$200,000 principal amount and integral multiples of \$200,000 in excess thereof and (ii) in the case of Euro Notes, in minimum denominations of €100,000 principal amount and integral multiples of €100,000 in excess thereof. In connection with any such transfer or exchange, the Indenture requires the transferring or exchanging holder to, among other things, furnish appropriate endorsements and transfer documents, to furnish information regarding the account of the transferee at the X/N Clearing System (including that such transferee will hold the Notes in an X Account) to furnish certain certificates and opinions, and to pay any taxes, duties and governmental charges in connection with such transfer or exchange. Any such transfer or exchange will be made without charge to the holder, other than any taxes, duties and governmental charges payable in connection with such transfer.

Notwithstanding the foregoing, the Issuer is not required to register the transfer or exchange of any Definitive Registered Note in registered form:

- (1) for a period of 15 calendar days prior to any date fixed for the redemption of the Notes;
- (2) for a period of 15 calendar days immediately prior to the date fixed for selection of Notes to be redeemed in part;
- (3) for a payment period of 15 calendar days prior to any interest payment date; or
- (4) that the registered holder of Notes has validly tendered (and not withdrawn) for repurchase in connection with an Asset Sale Offer.

The Issuer, the Trustee, the Paying and Domiciliary Agent, any Paying Agent and Registrar will be entitled to treat the registered holder as the owner of it for all purposes.

Security Trustee

The Bank of New York Mellon, London Branch, acts as Security Trustee under the Notes Security Documents until such time, if any, that a new Security Trustee is appointed under the relevant provisions of the Indenture.

Neither the Security Trustee nor the Trustee, any of their respective officers, directors, employees, attorneys or agents are responsible or liable for the existence, genuineness, value or protection of any property securing the Notes, for the legality, enforceability, effectiveness or sufficiency of the Notes Security Documents, for the creation, perfection, priority, sufficiency or protection of any security interest under any Notes Security Document, or for any defect or deficiency as to any such matters, or for any failure to demand, collect, foreclose or realize upon or otherwise enforce any of the Notes Security Documents or any delay in doing so.

Redemption and Repurchase

Disposal Proceeds

Under the Senior Credit Facility, Telenet BVBA, Telenet Group BVBA and/or the Initial Telenet Borrower or the Belgian Borrower, as applicable, are required to prepay, or to procure the prepayment (in either case, unless otherwise waived in accordance with the provisions of the Senior Credit Facility), the Facilities under the Senior Credit Facility with certain proceeds of asset disposals (“**Disposal Proceeds**”), subject to certain exceptions. See paragraph (14) under “*Description of the Senior Credit Facility and the Related Agreements—Senior Credit Facility—Mandatory Prepayment*”. Telenet BVBA may elect which Facility or Facilities are to be prepaid in connection with any mandatory prepayment with Disposal Proceeds. Under the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, Telenet Group BVBA and the Initial Telenet Borrower or the Belgian Borrower, as applicable, will agree that with respect to each 2017 Finco Loan or each New Finco Loan, as applicable, and any Disposal Proceeds that are required to be applied to prepay any Facilities pursuant to Clause 10.3 (*Mandatory prepayment from disposal proceeds*) of the Senior Credit Facility, an amount of such Disposal Proceeds that bears the same proportion to the total Disposal Proceeds as the aggregate principal amount that such 2017 Finco Loan or such New Finco Loan, as applicable, bears to the aggregate principal amount of all outstanding Telenet Loans (the “**Available Disposal Proceeds**”) will be available for prepayment of such 2017 Finco Loan or such New Finco Loan, as applicable.

In respect of the Available Disposal Proceeds, Telenet Group BVBA and/or the Initial Telenet Borrower or the Belgian Borrower, as applicable, may elect, at their option:

- (1) to offer to prepay (i) a principal amount of Finco Loan AJ or New Finco Loan AJ-B, as applicable, equal to the lesser of (a) the amount of the relevant Available Disposal Proceeds and (b) the aggregate principal amount of the Dollar Notes tendered in an Asset Sale Offer (as defined below) and (ii) a principal amount of Finco Loan AK or New Finco Loan AK-B, as applicable, equal to the lesser of (a) the amount of the relevant Available Disposal Proceeds and (b) the aggregate principal amount of the Euro Notes tendered in an Asset Sale Offer, in each case of (i) and (ii), to be made by the Issuer following receipt of notice from Telenet Group BVBA as set forth below; or

- (2) to prepay the 2017 Finco Loans or the New Finco Loans, as applicable, in each case pro rata, in an amount equal to the relevant Available Disposal Proceeds, in which case the Issuer will redeem (i) an aggregate principal amount of the Dollar Notes equal to the amount of Finco Loan AJ or the New Finco Loan AJ-B, as applicable, prepaid and (ii) an aggregate principal amount of Euro Notes equal to the amount of Finco Loan AK or New Finco Loan AK-B, as applicable, prepaid,

in each case, as described below.

Asset Sale Offer

Following receipt of notice of an asset disposal from Telenet Group BVBA delivered pursuant to Clause 6.1(a) of the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, the Issuer will, within five Business Days of receipt of such notice, make an offer to all holders of Notes (an “**Asset Sale Offer**”) to purchase the maximum principal amount of Notes that may be purchased out of the Available Disposal Proceeds stated in such notice at an offer price equal to 100% of the principal amount of the Notes, plus accrued and unpaid interest and Additional Amounts, if any, to the date of purchase, subject to the rights of holders of Notes on the relevant record date to receive interest due on the relevant interest payment date, which offer price will be payable in cash.

Under the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, Telenet Group BVBA and the Initial Telenet Borrower or the Belgian Borrower, as applicable, will be obligated to pay (or procure the payment of) a principal amount of the 2017 Finco Loans or the New Finco Loans, as applicable, pro rata based on the aggregate principal amount of the relevant series of Notes tendered in such Asset Sale Offer equal to the lesser of (i) the relevant Available Disposal Proceeds and (ii) of the aggregate principal amount of Notes tendered in such Asset Sale Offer, and the Issuer will accept for purchase an equal aggregate principal amount of such Notes in such Asset Sale Offer. The Issuer will apply any such prepayment of the 2017 Finco Loans or the New Finco Loans, as applicable, together with all accrued and unpaid interest on the relevant 2017 Finco Loans or the relevant New Finco Loans, as applicable, thereon to the date of prepayment, to pay the purchase price of all Notes accepted for purchase in such Asset Sale Offer.

The Issuer will promptly notify the Trustee, Telenet Group BVBA and the Initial Telenet Borrower or the Belgian Borrower, as applicable, of the aggregate principal amount of the relevant series of Notes tendered in such Asset Sale Offer. If the aggregate principal amount of Notes tendered in such Asset Sale Offer exceeds the amount of the Available Disposal Proceeds, the Trustee or, if the Notes are held in global form within the X/N Clearing System, the Paying and Domiciliary Agent will select the Notes to be purchased on a pro rata basis (or, in the case of Notes issued in global form, based on a method that most nearly approximates a pro rata selection in accordance with the rules of the X/N Clearing System, Euroclear and Clearstream, as applicable), based on the amounts of the each series of Notes tendered.

The Issuer will comply with the requirements of Rule 14e-1 under the U.S. Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with each repurchase of the relevant series of Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the Asset Sale Offer provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Asset Sale Offer provisions of the Indenture by virtue of such compliance.

Redemption with Disposal Proceeds

Under the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, if Telenet Group BVBA and the Initial Telenet Borrower or the Belgian Borrower, as applicable, elect not to offer to prepay the relevant 2017 Finco Loans or the relevant New Finco Loans, as applicable, in an amount equal to the lesser of the relevant Available Disposal Proceeds and the aggregate principal amount of the relevant series of Notes tendered in a related Asset Sale Offer, they are required to prepay (or procure the payment of) the relevant 2017 Finco Loans or the relevant New Finco Loans, as applicable, in an amount equal to the relevant Available Disposal Proceeds, plus accrued and unpaid interest on the relevant 2017 Finco Loans or the relevant New Finco Loans, as applicable, at the applicable price for any voluntary prepayment to the date of prepayment. Telenet Group BVBA and the Initial Telenet Borrower or the Belgian Borrower, as applicable, are required to give not less than ten Business Days’ notice of any such prepayment. Any prepayment pursuant to this provision shall be pro rata across the 2017 Finco Loans or the New Finco Loans, as applicable.

Following receipt of prepayment of the 2017 Finco Loans or the New Finco Loans, as applicable, described in the preceding paragraph, the Issuer will promptly redeem an aggregate principal amount of the relevant series of Notes equal to the redemption price that would be payable if such Notes were redeemed on such date pursuant to the provisions described below under “—*Optional Redemption*”, subject to the rights of holders of Notes on the relevant record date to receive interest due on the relevant interest payment date.

Redemption upon a Change of Control

Upon the occurrence of any mandatory prepayment of any or all of the 2017 Finco Loans or the New Finco Loans, as applicable, following a Change of Control (as defined under Clause 10.2 (*Mandatory prepayment—change of control*) of the Senior Credit Facility), the Issuer will redeem the corresponding aggregate principal amount of the Dollar Notes and the Euro Notes, as the case may be, subject to and in accordance with the notice provisions of the Senior Credit Facility, at a redemption price equal to 101% of the principal amount of such Notes redeemed plus accrued and unpaid interest and Additional Amounts, if any, to the date of redemption, subject to the rights of holders of Notes on the relevant record date to receive interest on the relevant interest payment date.

Under the terms of the Senior Credit Facility, upon the occurrence of a Change of Control, the Telenet Loans (including each 2017 Finco Loan or each New Finco Loan, as applicable) will only become due and payable if the Majority Lenders so require. The Issuer, as a Telenet Lender, will be entitled to vote the 2017 Finco Loans or the New Finco Loans, as applicable, in accordance with the provisions described below under “—*Amendment, Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements*”. Depending on how the other Telenet Lenders vote in the determination of whether to require prepayment, holders of Notes may have no right to demand redemption of the Notes by the Issuer following the occurrence of a Change of Control.

Optional Redemption

In the event that all or any portion of either 2017 Finco Loan or either New Finco Loan, as applicable, is voluntarily prepaid by Telenet BVBA, Telenet Group BVBA, and/or the Initial Telenet Borrower or the Belgian Borrower, as applicable, pursuant to Clause 10.5 (*Voluntary Prepayment*) of the Senior Credit Facility (an “**Early Redemption Event**”), subject to and in accordance with the terms of the Senior Credit Facility and the relevant 2017 Finco Accession Agreement or the relevant New Finco Accession Agreement, as applicable, the relevant 2017 Finco Accession Agreement or the relevant New Finco Accession Agreement, as applicable, provides for the payment of certain additional payments to be made to the Issuer that correspond to the premiums payable to holders of the relevant series of Notes upon early redemption, as described below.

In each case below, any such redemption and notice may, in the Issuer’s discretion, be subject to satisfaction of one or more conditions precedent, including that the Issuer, the Trustee, the Paying and Domiciliary Agent or any Paying Agent has received sufficient funds from Telenet Group BVBA and/or the Initial Telenet Borrower to pay the full redemption price payable to holders of the relevant series of Notes on or before the relevant redemption date. If such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice shall state that, in the Issuer’s discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied, or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the redemption date, or by the redemption date so delayed. In addition, the Issuer may provide in such notice that payment of the redemption price and performance of the Issuer’s obligations with respect to such redemption may be performed by another Person.

If a redemption date is not a Business Day, payment may be made on the next succeeding day that is a Business Day, and no interest shall accrue on any amount that would have been otherwise payable on such redemption date if it were a Business Day for the intervening period. If the optional redemption date is on or after an interest record date and on or before the related interest payment date, the accrued and unpaid interest, if any, will be paid to the Person in whose name the Note is registered at the close of business on such record date and no additional interest will be payable to holders whose Notes will be subject to redemption by the Issuer.

Dollar Notes

Redemption prior to December 1, 2022

Except as described below under “—*Redemption for Changes in Withholding Taxes*,” and “—*Optional Redemption—Redemption prior to December 1, 2022 with Excess Early Redemption Proceeds*”, at any time prior

to December 1, 2022, upon the occurrence of any Early Redemption Event, the Issuer will redeem an aggregate principal amount of the Dollar Notes equal to the principal amount of Finco Loan AJ or New Finco Loan AJ-B, as applicable, prepaid in such Early Redemption Event (not to exceed an amount equal to 10% of the original aggregate principal amount of the Dollar Notes (including Additional Notes, if any) during each twelve-month period commencing on the Issue Date), upon not less than 10 days nor more than 60 days' notice, at a redemption price equal to 103% of the principal amount of Dollar Notes redeemed plus accrued and unpaid interest and Additional Amounts, if any, to the date of redemption, subject to the rights of holders of such Dollar Notes on the relevant record date to receive interest due on the relevant interest payment date. Prior to December 1, 2022, to the extent that during any twelve-month period commencing on the Issue Date, the principal amount of Finco Loan AJ or New Finco Loan AJ-B, as applicable, prepaid in any one or more Early Redemption Events is greater than an amount equal to 10% of the original aggregate principal amount of the Dollar Notes (any such amount, the **"Dollar Excess Early Redemption Proceeds"**), the Issuer will apply the Dollar Excess Early Redemption Proceeds to redemption of the Dollar Notes as described below under **"—Optional Redemption—Redemption prior to December 1, 2022, with Dollar Excess Early Redemption Proceeds"**.

Redemption prior to December 1, 2022 with Dollar Excess Early Redemption Proceeds

Except as described above under **"—Optional Redemption—Redemption prior to December 1, 2022"** and below under **"—Redemption for Changes in Withholding Taxes,"** at any time prior to December 1, 2022, upon the occurrence of an Early Redemption Event, the Issuer will redeem an aggregate principal amount of the Dollar Notes equal to the principal amount of Finco Loan AJ or New Finco Loan AJ-B, as applicable, prepaid with any Dollar Excess Early Redemption Proceeds in such Early Redemption Event, upon not less than 10 days nor more than 60 days' notice, at a redemption price equal to 100% of the principal amount of the Dollar Notes redeemed plus the Applicable Premium (calculated as of a date no more than three Business Days prior to the date of the relevant redemption notice) as of, and accrued and unpaid interest and Additional Amounts, if any, to the date of redemption, subject to the rights of holders of such Dollar Notes on the relevant record date to receive interest due on the relevant interest payment date.

Redemption on or after December 1, 2022

On or after December 1, 2022, upon the occurrence of an Early Redemption Event in respect of Finco Loan AJ or New Finco Loan AJ-B, as applicable, the Issuer will redeem an aggregate principal amount of the Dollar Notes equal to the principal amount of Finco Loan AJ or New Finco Loan AJ-B, as applicable, prepaid in such Early Redemption Event, upon not less than 10 days nor more than 60 days' notice, at the following redemption prices (expressed as a percentage of principal amount), plus accrued and unpaid interest and Additional Amounts, if any, to the applicable redemption date (subject to the rights of holders of the Dollar Notes on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the twelve-month period commencing on December 1 of the years set out below:

	Redemption Price
2022.....	102.750%
2023.....	101.375%
2024.....	100.688%
2025 and thereafter.....	100.000%

Unless the Issuer defaults in the payment of the redemption price, subject to the third paragraph of **"—Optional Redemption"** above, interest will cease to accrue on the Dollar Notes or portions thereof called for redemption on the applicable redemption date.

Euro Notes

Redemption prior to December 1, 2022

Except as described below under **"—Redemption for Changes in Withholding Taxes,"** and **"—Optional Redemption—Redemption prior to December 1, 2022 with Excess Early Redemption Proceeds"**, at any time prior to December 1, 2022, upon the occurrence of any Early Redemption Event, the Issuer will redeem an aggregate principal amount of the Euro Notes equal to the principal amount of Finco Loan AK or New Finco Loan AK-B, as applicable, prepaid in such Early Redemption Event (not to exceed an amount equal to 10% of the original aggregate principal amount of the Euro Notes (including Additional Notes, if any) during each twelve-month

period commencing on the Issue Date), upon not less than 10 days nor more than 60 days' notice, at a redemption price equal to 103% of the principal amount of Euro Notes redeemed plus accrued and unpaid interest and Additional Amounts, if any, to the date of redemption, subject to the rights of holders of such Euro Notes on the relevant record date to receive interest due on the relevant interest payment date. Prior to December 1, 2022, to the extent that during any twelve-month period commencing on the Issue Date, the principal amount of Finco Loan AK or New Finco Loan AK-B, as applicable, prepaid in any one or more Early Redemption Events is greater than an amount equal to 10% of the original aggregate principal amount of the Euro Notes (any such amount, the **"Euro Excess Early Redemption Proceeds"**, and together with the Dollar Excess Early Redemption Proceeds, the **"Excess Early Redemption Proceeds"**), the Issuer will apply the Euro Excess Early Redemption Proceeds to redemption of the Euro Notes as described below under **"—Optional Redemption—Redemption prior to December 1, 2022 with Euro Excess Early Redemption Proceeds"**.

Redemption prior to December 1, 2022 with Euro Excess Early Redemption Proceeds

Except as described above under **"—Optional Redemption—Redemption prior to December 1, 2022"** and below under **"—Redemption for Changes in Withholding Taxes,"** at any time prior to December 1, 2022, upon the occurrence of an Early Redemption Event, the Issuer will redeem an aggregate principal amount of the Euro Notes equal to the principal amount of Finco Loan AK or New Finco Loan AK-B, as applicable, prepaid with any Euro Excess Early Redemption Proceeds in such Early Redemption Event, upon not less than 10 days nor more than 60 days' notice, at a redemption price equal to 100% of the principal amount of the Euro Notes redeemed plus the Applicable Premium (calculated as of a date no more than three Business Days prior to the date of the relevant redemption notice) as of, and accrued and unpaid interest and Additional Amounts, if any, to the date of redemption, subject to the rights of holders of such Euro Notes on the relevant record date to receive interest due on the relevant interest payment date.

Redemption on or after December 1, 2022

On or after December 1, 2022, upon the occurrence of an Early Redemption Event in respect of the Finco Loan or the New Finco Loan, as applicable, the Issuer will redeem an aggregate principal amount of the Euro Notes equal to the principal amount of Finco Loan AK or New Finco Loan AK-B, as applicable, prepaid in such Early Redemption Event, upon not less than 10 days nor more than 60 days' notice, at the following redemption prices (expressed as a percentage of principal amount), plus accrued and unpaid interest and Additional Amounts, if any, to the applicable redemption date (subject to the rights of holders of the Euro Notes on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the twelve-month period commencing on December 1 of the years set out below:

	Redemption Price
2022.....	101.750%
2023.....	100.875%
2024.....	100.438%
2025 and thereafter.....	100.000%

Unless the Issuer defaults in the payment of the redemption price, subject to the third paragraph of **"—Optional Redemption"** above, interest will cease to accrue on the Notes or portions thereof called for redemption on the applicable redemption date.

Redemption prior to December 1, 2022 with Equity Offering Early Redemption Proceeds

At any time prior to December 1, 2022, upon the occurrence of an Early Redemption Event with the Net Cash Proceeds of one or more Equity Offerings (the **"Equity Offering Early Redemption Proceeds"**), the Issuer will redeem (i) up to 40% of the aggregate principal amount of the Dollar Notes equal to the principal amount of Finco Loan AJ or New Finco Loan AJ-B, as applicable, prepaid with any Equity Offering Early Redemption Proceeds in such Early Redemption Event, upon not less than 10 days nor more than 60 days' notice, at a redemption price of 105.500% of the principal amount of the Dollar Notes redeemed, plus accrued and unpaid interest and Additional Amounts, if any, to the date of redemption (subject to the rights of holders of such Dollar Notes on the relevant record date to receive interest due on the relevant interest payment date) and/or (ii) up to 40% of the aggregate principal amount of the Euro Notes equal to the principal amount of Finco Loan AK or New Finco Loan AK-B, as applicable, prepaid with any Equity Offering Early Redemption Proceeds in such Early Redemption Event, upon not less than 10 days nor more than 60 days' notice, at a redemption price of 103.500% of the principal

amount of the Euro Notes redeemed, plus accrued and unpaid interest and Additional Amounts, if any, to the date of redemption (subject to the rights of holders of such Euro Notes on the relevant record date to receive interest due on the relevant interest payment date), *provided that*:

- (1) at least 50% of the principal amount of each of the Euro Notes and the Dollar Notes, as applicable (which includes Additional Notes, if any) issued under the Indenture remains outstanding immediately after any such redemption; and
- (2) such redemption is made not more than 180 days after the consummation of any such Equity Offering.

In each case above, the redemption and notice may, in the Issuer's discretion, be subject to satisfaction of one or more conditions precedent, including that the Issuer, the Trustee, the Paying and Domiciliary Agent or any Paying Agent has received sufficient funds from Telenet Group BVBA or the Initial Telenet Borrower to pay the full redemption price payable to holders of the relevant series of Notes on or before the relevant redemption date. If such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice shall state that, in the Issuer's discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied, or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the redemption date, or by the redemption date so delayed. In addition, the Issuer may provide in such notice that payment of the redemption price and performance of the Issuer's obligations with respect to such redemption may be performed by another Person.

If a redemption date is not a Business Day, payment may be made on the next succeeding day that is a Business Day, and no interest shall accrue on any amount that would have been otherwise payable on such redemption date if it were a Business Day for the intervening period. If the optional redemption date is on or after an interest record date and on or before the related interest payment date, the accrued and unpaid interest, if any, will be paid to the Person in whose name the Note is registered at the close of business on such record date and no additional interest will be payable to holders whose Notes will be subject to redemption by the Issuer.

Optional Redemption upon Certain Tender Offers

In addition, in connection with any tender offer or other offer to purchase for the Notes or any series of Notes (a "**Tender Offer**"), if holders of not less than 90% of the aggregate principal amount of the then outstanding Notes or series of Notes, as applicable, validly tender and do not validly withdraw such Notes in such Tender Offer and the Issuer, or any third party making such Tender Offer in lieu of the Issuer, purchases all of the Notes or such series of Notes, as applicable, validly tendered and not validly withdrawn by such holders, the Issuer or such third party will have the right upon not less than 10 nor more than 60 days' notice following such purchase date, to redeem all Notes or all Notes of such series, as applicable, that remain outstanding following such purchase at a price equal to the price paid to each other holder in such Tender Offer, plus, to the extent not included in the Tender Offer payment, accrued and unpaid interest, if any, thereon, to, but excluding, the date of the delivery of the notice for such redemption.

Under the Finco Loan AJ or the New Finco Loan AJ-B, as applicable, Telenet Group BVBA and the Initial Telenet Borrower or the Belgian Borrower, as applicable, will be obligated to pay (or procure the payment of) a principal amount of the Finco Loan AJ or the New Finco Loan AJ-B, as applicable, in an amount equal to the aggregate principal amount of the Dollar Notes tendered in such Tender Offer, and the Issuer will accept for purchase an equal aggregate principal amount of the Dollar Notes in such Tender Offer. The Issuer will apply any such prepayment of the Finco Loan AJ or the New Finco Loan AJ-B, as applicable, together with all accrued and unpaid interest on the Finco Loan AJ or the New Finco Loan AJ-B, as applicable, to the date of prepayment and/or redemption, to pay the purchase price of all Dollar Notes accepted for purchase in such Tender Offer or the redemption price following such Tender Offer. The Issuer will promptly notify the Trustee, Telenet Group BVBA and the Initial Telenet Borrower or the Belgian Borrower, as applicable, of the aggregate principal amount of Dollar Notes tendered in such Tender Offer.

Under the Finco Loan AK or the New Finco Loan AK-B, as applicable, Telenet Group BVBA and the Initial Telenet Borrower or the Belgian Borrower, as applicable, will be obligated to pay (or procure the payment of) a principal amount of the Finco Loan AK or the New Finco Loan AK-B, as applicable, in an amount equal to the aggregate principal amount of the Euro Notes tendered in such Tender Offer, and the Issuer will accept for purchase an equal aggregate principal amount of the Euro Notes in such Tender Offer. The Issuer will apply any such prepayment of the Finco Loan AK or the New Finco Loan AK-B, as applicable, together with all accrued and unpaid interest on the Finco Loan AK or the New Finco Loan AK-B, as applicable, to the date of prepayment

and/or redemption, to pay the purchase price of all Euro Notes accepted for purchase in such Tender Offer or the redemption price following such Tender Offer. The Issuer will promptly notify the Trustee, Telenet Group BVBA and the Initial Telenet Borrower or the Belgian Borrower, as applicable, of the aggregate principal amount of Euro Notes tendered in such Tender Offer.

Redemption for Changes in Withholding Taxes

Upon the occurrence of (i) an Early Redemption Event effected at any time following the occurrence of an Issuer Tax Event (as defined below) under “—*Withholding Taxes*” or (ii) an optional prepayment of a 2017 Finco Loan or a New Finco Loan, as applicable, pursuant to Clause 10.8(a)(i) (*Right of repayment and cancellation of a single Lender*) of the Senior Credit Facility, the Issuer may redeem the relevant series of Notes, in whole but not in part, at its discretion at any time, upon not less than 10 days nor more than 60 days’ notice to the holders of the Notes (which notice will be irrevocable and given in accordance with the procedures described in “—*Selection and Notice*”), at a redemption price equal to 100% of the principal amount thereof, plus accrued and unpaid interest and Additional Amounts (if any) then due on the Notes redeemed to the applicable redemption date (a “**Tax Redemption Date**”) (subject to the rights of holders of the relevant series of Notes on the relevant record date to receive interest due and Additional Amounts (if any) in respect thereof on the relevant interest payment dates), if, in the case of an Issuer Tax Event only, on the next date on which any amount would be payable in respect of the Notes, the Issuer determines it is or would be required to pay Additional Amounts as a result of:

- (1) any change in, or amendment to, the laws or treaties (or any regulations or rulings promulgated thereunder) of a Relevant Tax Jurisdiction (as defined below under “—*Withholding Taxes*”) affecting taxation; or
- (2) any change in official position regarding the application, administration or interpretation of such laws, treaties, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction),

and the Issuer cannot avoid any such payment obligation by taking reasonable measures available. For this purpose, reasonable measures shall not include the Issuer changing or moving jurisdictions.

In the case of an Issuer Tax Event, the Issuer will not give any such notice of redemption earlier than 90 days prior to the earliest date on which the Issuer would be obligated to make such payment or withholding if a payment in respect of the relevant series of Notes were then due. Notwithstanding the foregoing, the Issuer may not redeem the Notes under this provision if the Relevant Tax Jurisdiction changes under the Indenture and the Issuer is obligated to pay any Additional Amounts as a result of any change in, or amendment to, the laws or treaties (or any regulations or rulings promulgated thereunder), or any change in official position regarding the application, administration or interpretation of such laws, treaties, regulations or rulings, of the then current Relevant Tax Jurisdiction which, at the time such Relevant Tax Jurisdiction became the applicable Relevant Tax Jurisdiction under the Indenture, was publicly announced or formally proposed. Additionally, in the case of a prepayment of a 2017 Finco Loan or a New Finco Loan under Clause 10.8(a)(i) (*Rights of Repayment and Cancellation of a Single Lender*) of the Senior Credit Facility following either the Belgian Issuer Accession or the Finco Loans Borrower Exchange, the Issuer may not redeem the Notes under this provision unless the Tax Payment (as defined in the Senior Credit Facility) required to be made with respect to such 2017 Finco Loan or such New Finco Loan, as applicable, are in respect of taxes imposed on payments thereunder at a rate that is in excess of the rate applicable to such payments as of the date of the Belgian Issuer Accession or the Finco Loans Borrower Exchange, as applicable. Prior to the publication or, where relevant, mailing of any notice of redemption of the relevant series of Notes pursuant to the foregoing, the Issuer will deliver to the Trustee an opinion of counsel to the effect that there has been such change or amendment. In addition, before the Issuer publishes or mails notice of redemption of such Notes as described above, it will deliver to the Trustee an Officer’s Certificate to the effect that it cannot avoid its obligation to pay Additional Amounts by the Issuer taking reasonable measures (for this purpose, reasonable measures shall not include the Issuer changing or moving jurisdictions) available to it.

The Trustee will accept such Officer’s Certificate and Opinion of Counsel as sufficient evidence of the satisfaction of the conditions precedent as described above, in which event it will be conclusive and binding on the holders of the relevant series of Notes.

The foregoing provisions regarding redemption for changes in withholding taxes will apply *mutatis mutandis* to any successor to the Issuer after such successor person becomes a party to the Indenture.

Open Market Purchases of Telenet Loans

In the event that any member of the Telenet Bank Group makes any offer to purchase or otherwise acquire any Telenet Loans (whether through a tender offer process or other process) at a price below the relevant prevailing market price for such Telenet Loans, and such offer includes all or a portion of the 2017 Finco Loans or the New Finco Loans, as applicable, held by the Issuer, the Issuer shall make a contemporaneous offer to purchase the relevant series of Notes on substantially similar terms as the offer to purchase Telenet Loans; *provided*, that (1) in no event will holders of such Notes be required to participate in any such offer, (2) the consideration offered to holders of such Notes will not be less than the consideration they would have received as Telenet Lenders in connection with such offer to purchase Telenet Loans and (3) the Initial Telenet Borrower or the Belgian Borrower, as applicable, and/or the Issuer shall have confirmed to the Trustee that such purchases will not result in taxable income for the Issuer, including upon the extinguishment of Financial Indebtedness in connection therewith, or that Telenet Group BVBA or the Initial Telenet Borrower or the Belgian Borrower, as applicable, will have agreed to pay such income tax payable. Prior to undertaking any such repurchases, one or more members of the Telenet Bank Group will enter into arrangements providing for the payment of any fees and expenses incurred in connection with any such offer.

Selection and Notice

If less than all of the Notes or any series of Notes are to be redeemed or purchased in an offer to purchase at any time, the Paying and Domiciliary Agent, if the Notes are deposited with the X/N Clearing System, or if not so deposited, the Trustee will select Notes for redemption or purchase on a *pro rata* basis (or, in the case of Notes issued in global form, based on a method that most nearly approximates a *pro rata* selection as the Paying and Domiciliary Agent deems fair and appropriate and in accordance with the rules of the X/N Clearing System, Euroclear and Clearstream, if applicable) unless otherwise required by law or applicable stock exchange requirements. The Trustee and the Paying and Domiciliary Agent will not be liable for selections made by it in accordance with this paragraph.

No Dollar Notes of \$200,000 or Euro Notes of €100,000 can be redeemed in part. Notices of redemption will be delivered to holders through the applicable clearing systems in accordance with the procedures specified above. Notices of redemption may be conditional. The Trustee and the Paying and Domiciliary Agent will not be liable for selections made by it in accordance with this or the preceding paragraph.

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note will state the portion of the principal amount of that Note that is to be redeemed. A new Note, in principal amount equal to the unredeemed portion of the Note, will be issued in the name of the holder of the Note upon cancellation of the original Note, as applicable. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of Notes which have been redeemed on such redemption date.

As long as the Notes are deposited with the X/N Clearing System, notices may be given by delivery of the relevant notices to the Paying and Domiciliary Agent for delivery to the X/N Clearing System for communication thereof to Euroclear, Clearstream or any relevant direct Participant, or may be given to such direct Participants directly, for communication by such direct Participants to entitled account holders in substitution for the aforementioned mailing. So long as the Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, the Issuer (or a member of the Telenet Bank Group on behalf of the Issuer) will publish notice of the consummation of the Belgian Issuer Accession in a newspaper having a general circulation in Luxembourg or, to the extent and in the manner permitted by such rules, posted on the official website of the Luxembourg Stock Exchange.

Withholding Taxes

All payments made by or on behalf of the Issuer or any successor thereto (a “**Payor**”) on or with respect to the Notes will be made without withholding or deduction for, or on account of, any present or future taxes (including interest or penalties to the extent resulting from a failure by the Issuer to timely pay amounts due), duties, assessments or governmental charges of whatever nature (“**Taxes**”) unless the withholding or deduction of such Taxes is then required by law or by the official interpretation or administration thereof. If any deduction or withholding for, or on account of, any Taxes imposed or levied by or on behalf of:

- (1) Luxembourg or any political subdivision or governmental authority thereof or therein having power to tax;
- (2) Belgium or any political subdivision or governmental authority thereof or therein having power to tax, in the event of the Belgian Issuer Accession;
- (3) any jurisdiction from or through which payment on the Notes is made, or any political subdivision or governmental authority thereof or therein having the power to tax; or
- (4) any other jurisdiction in which a Payor is organized or otherwise considered to be a resident for tax purposes, or any political subdivision or governmental authority thereof or therein having the power to tax (each of clause (1), (2), (3) and (4), a “**Relevant Tax Jurisdiction**”),

will at any time be required from any payments made with respect to the Notes (an “**Issuer Tax Event**”), including payments of principal, redemption price, interest or premium, the Payor will make such deduction or withholding, make payment of the amount so deducted or withheld to the Relevant Tax Jurisdiction and pay such additional amounts (the “**Additional Amounts**”) as may be necessary in order that the net amounts received in respect of such payments by each holder of the Notes, as the case may be, after such withholding or deduction (including any such deduction or withholding from such Additional Amounts) equals the amounts which would have been received in respect of such payments in the absence of such withholding or deduction; provided, however, that no such Additional Amounts will be payable with respect to:

- (a) any Taxes that would not have been so imposed but for the existence of any present or former connection between the relevant holder or beneficial owner and the Relevant Tax Jurisdiction imposing such Taxes (other than the mere ownership or holding of such Note or enforcement of rights thereunder or under the Indenture or the receipt of payments in respect thereof);
- (b) any Taxes that would not have been so imposed but for the failure of the holder or beneficial owner of such Note to make a declaration of non-residence or any other claim or filing for exemption to which it is entitled, *provided* that (x) such declaration of non-residence or other claim or filing for exemption is required by the applicable law of the Relevant Tax Jurisdiction as a precondition to exemption from the requirement to deduct or withhold all or a part of any such Taxes and (y) at least 30 days prior to the first payment date with respect to which such declaration of non-residence or other claim or filing for exemption is required under the applicable law of the Relevant Tax Jurisdiction, the relevant holder at that time has been notified (in accordance with the procedures set forth in the Indenture) by the Payor or any other person through whom payment may be made that a declaration of non-residence or other claim or filing for exemption is required to be made;
- (c) any Note presented for payment (where presentation is required) more than 30 days after the relevant payment is first made available for payment to the holder (except to the extent that the holder would have been entitled to Additional Amounts had the Note been presented during such 30-day period);
- (d) any Taxes that are payable otherwise than by withholding from a payment of the principal of, premium, if any, or interest on the Notes;
- (e) any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other governmental charge;
- (f) [Reserved]
- (g) all United States backup withholding taxes;
- (h) any withholding or deduction imposed pursuant to (a) Sections 1471 through 1474 of the United States Internal Revenue Code of 1986 (as amended), as of the date of the Indenture (or any amended or successor version that is substantively comparable and not materially more onerous to comply with) and any current or future regulations or official interpretations thereof, (b) any treaty, law, regulation or other official guidance enacted in any other jurisdiction, or relating to an intergovernmental agreement between the United States and any other jurisdiction, which (in either case) facilitates the implementation of (a) above or (c) any agreement pursuant to the implementation of (a) or (b) above with the U.S. Internal Revenue Service, the U.S. government or any governmental or taxation authority in any other jurisdiction;

- (i) [Reserved]
- (j) to a holder of Notes, who at the time of acquisition of the Notes, was not an X/N Eligible Investor or to a holder of Notes who was an X/N Eligible Investor at the time of acquisition of the Notes but, for reasons within the holder's control, either ceased to be an X/N Eligible Investor or, at any relevant time on or after the acquisition of the Notes, otherwise failed to meet any other condition for the exemption of Belgian withholding tax pursuant to the law of 6 August 1993 relating to certain securities, or is an X/N Eligible Investor but is not holding the Note in the X/N Clearing System;
- (k) to a holder of Notes who is liable to such Taxes because the Notes were upon its request converted into Definitive Registered Notes and could no longer be cleared through the X/N Clearing System; or
- (l) any combination of items (a) through (k) above.

Such Additional Amounts will also not be payable where, had the beneficial owner of the Note been the holder of the Note, it would not have been entitled to payment of Additional Amounts by reason of any of clauses (a) to (l) inclusive above.

The Payor will (i) make any required withholding or deduction and (ii) remit the full amount deducted or withheld to the Relevant Tax Jurisdiction in accordance with applicable law. The Payor will use all reasonable efforts to obtain certified copies of tax receipts evidencing the payment of any Taxes so deducted or withheld from each Relevant Tax Jurisdiction imposing such Taxes and will provide such certified copies (or, if certified copies are not available despite reasonable efforts of the Payor, other evidence of payment reasonably satisfactory to the Trustee) to each holder. The Payor will attach to each certified copy (or other evidence) a certificate stating (x) that the amount of withholding Taxes evidenced by the certified copy was paid in connection with payments in respect of the principal amount of Notes then outstanding and (y) the amount of such withholding Taxes paid per \$1,000 principal amount of Dollar Notes or €1,000 principal amount of Euro Notes. Copies of such documentation will be available for inspection during ordinary business hours at the office of the Trustee by the holders of the Notes upon request and will be made available at the offices of the Issuer or a Paying Agent if the Notes are then listed on the Luxembourg Stock Exchange.

At least 30 days prior to each date on which any payment under or with respect to the Notes is due and payable (unless such obligation to pay Additional Amounts arises shortly before or after the 30th day prior to such date, in which case it shall be promptly thereafter), if the Payor will be obligated to pay Additional Amounts with respect to such payment, the Payor will deliver to the Trustee, any Paying Agent and the Paying and Domiciliary Agent an Officer's Certificate stating the fact that such Additional Amounts will be payable, the amounts so payable and will set forth such other information necessary to enable the Paying and Domiciliary Agent or the Paying Agent, as the case may be, to pay such Additional Amounts to holders on the payment date. Each such Officer's Certificate shall be relied upon until receipt of a further Officer's Certificate addressing such matters. The Trustee shall be entitled to rely solely on each such Officer's Certificate as conclusive proof that such payments are necessary.

Wherever mentioned in the Indenture, the Notes or this Description of the Notes, in any context: (1) the payment of principal, (2) purchase prices in connection with a purchase of Notes, (3) interest, or (4) any other amount payable on or with respect to the Notes, such reference will be deemed to include payment of Additional Amounts as described under this heading to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

In the event the Payor is required to pay Additional Amounts, pursuant to the terms of the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, the Initial Telenet Borrower or the Belgian Borrower, as applicable, will pay to the Payor an amount in cash equal to such Additional Amounts to enable the Payor to make such payment.

The Payor will pay any present or future stamp, court or documentary taxes or any other excise or property taxes, charges or similar levies (including interest and penalties to the extent resulting from a failure by the Issuer to timely pay amounts due) which arise in any jurisdiction from the execution, delivery or registration of any Notes or any other document or instrument referred to therein (other than a transfer of the Notes), or the receipt of any payments with respect to the Notes, excluding (i) any Luxembourg registration duties (*droits d'enregistrement*) due in case the Notes (and/or any documents in connection therewith) which are registered with the Registration and Estates Department (*Administration de l'Enregistrement et des Domaines*) by the holder of the Notes on a

voluntary basis and (ii) any such taxes, charges or similar levies imposed by any jurisdiction that is not a Relevant Taxing Jurisdiction or any jurisdiction in which a Paying and Domiciliary Agent or a Paying Agent is located, other than those resulting from, or required to be paid in connection with, the enforcement of the Notes, the relevant Finco Loan or any other such document or instrument following the occurrence of any Event of Default with respect to the Notes.

The foregoing obligations regarding withholding taxes will survive any termination, defeasance or discharge of the Indenture.

Certain Covenants

Limitations with Respect to Business Activities of the Issuer

Notwithstanding anything contained in the Indenture to the contrary:

- (1) the Issuer will not engage in any business activity or undertake any other activity, except any activity: (a) relating to the offering, sale, or issuance of the Notes (including any Additional Notes) and any Additional Debt permitted to be incurred under the Indenture, and the lending or otherwise advancing of the proceeds thereof to the Telenet Bank Group and any other activities in connection therewith (including any Escrowed Proceeds), (b) undertaken with the purpose of, and directly related to, fulfilling any other obligations or enforcing any rights under the Indenture, the Finco Loans and the Finco Accession Agreements (including, without limitation, the 2017 Finco Loans and the 2017 Finco Accession Agreements or the New Finco Loans and the New Finco Accession Agreements, and any other Finco Loans or Finco Accession Agreements (including those entered into in connection with the issuance of Additional Notes or other Additional Debt)), the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, the Telenet Fee Letters, the Collateral Sharing Agreement, any Notes Security Document to which it is a party, the Paying and Domiciliary Agency Agreement or any other document relating to the Notes, (c) undertaken as investments in any Additional Debt, any Finco Loans (including, without limitation, the 2017 Finco Loans or the New Finco Loans, as applicable), any similar agreements or instruments advancing the proceeds of any Additional Debt to the Telenet Bank Group, or cash and Cash Equivalents, (d) directly related or reasonably incidental to the establishment and/or maintenance of the Issuer's corporate existence; or (e) to consummate the Belgian Issuer Accession and/or the Finco Loan Borrower Accession as set forth under the heading "*—Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*";
- (2) the Issuer will not take any action which would cause it to no longer satisfy the requirements of an available exemption from the provisions of the 1940 Act;
- (3) the Issuer will not (a) incur any Financial Indebtedness other than as expressly permitted by clause (1) above, (b) guarantee any obligations of any other Person, (c) issue any shares (other than shares issued to the Issuer's Parent, (d) incur any Liens (other than Permitted Issuer Liens), (e) directly or indirectly, (i) declare or pay any dividend or make any distributions on or in respect of its Capital Stock, or (ii) purchase, redeem, retire or otherwise acquire for value any Capital Stock of the Issuer, in each case, other than Permitted Issuer Maintenance Payments, or (f) deposit additional amounts in its Share Capital Account (other than amounts deposited in connection with the issuance of Additional Notes);
- (4) for so long as any Notes are outstanding, the Issuer will not commence or take any action or facilitate a winding-up, liquidation, dissolution or other analogous proceeding;
- (5) the Issuer will not amend its constitutive documents in any manner which would adversely affect the rights of holders of the Notes in any material respect;
- (6) except as otherwise provided herein, the Issuer will take all actions necessary and within its power to prohibit the transfer of the issued shares in the Issuer by the Issuer's Parent, except to the extent set forth below under "*—Events of Default and Remedies*";
- (7) the Issuer will not merge, consolidate, amalgamate or otherwise combine with or into any Person or sell, transfer, lease or otherwise dispose of any material property or assets to any Person (other than any sale or other disposal of property or assets in connection with the incurrence of a Permitted Issuer Lien, in connection with the Belgian Issuer Accession and/or the Finco Loans Borrower Exchange as set forth

under the heading “—*Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”, following any enforcement action in accordance with the Collateral Sharing Agreement or as otherwise expressly permitted by the Indenture);

- (8) the Issuer will use all reasonable efforts to: (a) maintain books and records separate from any other person or entity; (b) maintain its accounts separate from those of any other person or entity; (c) not commingle its assets with those of any other person or entity; (d) conduct its own business in its own name; (e) observe all corporate formalities; (f) maintain an arms'-length relationship with any affiliates; (g) maintain separate statutory financial statements; (h) pay its own liabilities out of its own funds (other than those contemplated under the Finco Loans (including, without limitation, the 2017 Finco Loans and the New Finco Loans, as applicable), the Transaction Documents or the New Transaction Documents, as applicable, and any related or similar agreement); (i) use separate stationery; (j) hold itself out as a separate entity; and (k) correct any known misunderstanding regarding its separate identity;
- (9) the Issuer (a) will not take any action that would impair any security interests over the Note Collateral benefiting the Notes in any material respect (other than Permitted Issuer Liens in connection with the Belgian Issuer Accession and/or the Finco Loans Borrower Exchange as set forth under the heading “—*Post-Closing Belgian Issuer Accession and Finco Loans Borrower Exchange*”) and (b) will take all actions (including making all filings and registrations) that may be necessary for the purpose of the creation, perfection, protection or maintenance of any Note Collateral subject to any Notes Security Document;
- (10) the Issuer will use all amounts received (other than amounts not corresponding to required payments under the Notes or any Additional Debt) under the relevant Finco Loans for application towards amounts payable under the Notes or such Additional Debt; and
- (11) the Issuer will not grant any waiver or agree to any amendment or waive any rights under any of the Transaction Documents or the New Transaction Documents, as applicable, except with respect to the Senior Credit Facility Amendments or in compliance with the provisions of “—*Amendment, Supplement and Waiver*”.

Subject to the Collateral Sharing Agreement, whenever the Issuer receives a payment or prepayment under the 2017 Finco Loans or the New Finco Loans, as applicable, it shall use the funds received solely to satisfy its obligations (to the extent of the amount owing in respect of such obligations) under the Indenture (including any premium payable to holders of the Notes).

Maintenance of the Existence of the Issuer

The Issuer shall do or cause to be done all things necessary to preserve and keep in full force and effect its corporate existence, in accordance with its constitutional documents (as the same may be amended from time to time) and the rights (contractual and statutory), licenses and franchises of the Issuer.

In addition, the Issuer has agreed that, except as described below under “—*Events of Default and Remedies*”, it will not register any transfer of its issued shares by the Issuer's Parent.

Listing

The Issuer will apply to list the Notes on the Official List of the Luxembourg Stock Exchange and will use all reasonable efforts to have the Notes admitted to trading on the Euro MTF Market of the Luxembourg Stock Exchange within a reasonable period after the Issue Date and will maintain such listing as long as the Notes are outstanding; *provided, however*, that if the Issuer can no longer maintain such listing or it becomes unduly burdensome to make or maintain such listing (for the avoidance of doubt, preparation of financial statements in accordance with IFRS (except pursuant to the definition of GAAP) or any accounting standard other than GAAP and any other standard pursuant to which the Issuer then prepares its financial statements in compliance with the provisions of “—*Information*” shall be deemed unduly burdensome), the Issuer may cease to make or maintain such listing on the Luxembourg Stock Exchange *provided that* the Issuer will use its reasonable best efforts to obtain and maintain the listing of the Notes on another recognized listing exchange for high yield issuers (which may be a stock exchange that is not regulated by the European Union).

There can be no assurance that the application to list the Notes on the Official List of the Luxembourg Stock Exchange and to admit the Notes on the Euro MTF Market will be approved and settlement of the Notes is not conditioned on obtaining this listing.

Notwithstanding the foregoing, the Issuer may at its sole option at any time, without the consent of the holders of the Notes or the Trustee, de-list the Notes from any stock exchange for the purposes of moving the listing of the Notes to the International Stock Exchange (the “**International Stock Exchange**”). Furthermore, notwithstanding anything herein to the contrary, the Issuer may cease to make or maintain a listing (whether on the Luxembourg Stock Exchange, the International Stock Exchange or on another recognized listing exchange for high yield issuers) if such listing is not required for the Issuer to benefit from an exemption on withholding tax on interest payments on the Notes or to otherwise prevent tax from being withheld from interest payments on the Notes.

Minimum Period for Consents under Loan Documents

In the event that the Issuer, as a Telenet Lender under each 2017 Finco Loan or each New Finco Loan, as applicable, is eligible or required to vote (or otherwise consent) with respect to any request by any member of the Telenet Group for any waiver, amendment or supplement to any Telenet Loan Document or any other determination to be made by the Telenet Lenders (other than with respect to the Senior Credit Facility Amendments), the Issuer will procure the agreement from the applicable member of the Telenet Group that the period during which the Issuer, as a Telenet Lender, will be eligible to validly vote (or otherwise consent) with respect to any such waiver, amendment, supplement or determination will not be less than 15 Business Days from the date when written request for such waiver, amendment or supplement is first made to the Telenet Lenders. The Issuer will distribute, or cause to be distributed, to holders of the relevant series of Notes and all holders of Book-Entry Interests in a Global Note or otherwise make available (including through the facilities of Participants of the X/N Clearing System) all documents related to any such waiver, amendment, supplement or other determination distributed to the Issuer as a Telenet Lender, including all documentation necessary to enable the holders of the relevant series of Notes to vote in the manner set forth under “—*Amendment, Supplement and Waiver*”, within three Business Days after the date when written request for such waiver, amendment or supplement is first made to the Telenet Lenders.

Payments for Consent

Senior Credit Facility

Other than in respect of the Senior Credit Facility Amendments, the Issuer will not, and will procure that no member of the Telenet Bank Group will, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Telenet Lender for or as an inducement to any consent, waiver or amendment under any Telenet Loan Document which is subject to the consent of Majority Lenders or all Telenet Lenders, unless (i) such consideration is also offered to be paid to the Issuer (as a Telenet Lender) and (ii) if the Issuer consents, waives or agrees to such consent, waiver or amendment in accordance with the provisions of the Indenture described below under “—*Amendment, Supplement and Waiver—To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements*” in the time frame set forth in the solicitation documents relating thereto (including any amendment or supplement thereto), the Issuer is paid such consideration. The Issuer will promptly pay any such consideration received by it to all consenting holders of the relevant series of Notes on a *pro rata* basis.

Indenture

The Issuer will not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any holder of Notes (of the relevant series of Notes) for or as an inducement to any consent, waiver, amendment or supplement of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid and is paid to all holders of the Notes (or the relevant series of Notes) that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver, amendment or supplement.

Amendments to Loan Documents to be applied equally to all Telenet Lenders

The Issuer will procure that no member of the Telenet Bank Group will amend, waive or supplement any Telenet Loan Document requiring the consent of Majority Lenders or all Telenet Lenders to amend, waive or supplement, unless such amendment, waiver or supplement applies to all Telenet Lenders; *provided*, this covenant will not

apply to the Senior Credit Facility Amendments or to (a) any such amendment, waiver or supplement that does not adversely affect the rights of the Issuer or the holders of the relevant series of Notes in any material respect, (b) any amendment, waiver or supplement consented to by holders of a majority in aggregate principal amount of the then outstanding Dollar Notes and/or Euro Notes, as the case may be, in compliance with the provisions of the Indenture described below under “—Amendment, Supplement and Waiver—To the Indenture and the Notes” as if such amendment, waiver or supplement were subject to the majority consent provisions described thereunder or (c) such amendment, waiver or supplement that has been consented to by the requisite Telenet Lenders (as determined in accordance with the Senior Credit Facility), including the Issuer, but irrespective of whether the Issuer, acting on the instructions of the holders of the relevant series of Notes in accordance with the terms of the Indenture, has voted in favor of the amendment, waiver, or supplement.

Information

For so long as any Notes are “restricted securities” within the meaning of Rule 144(a)(3) under the U.S. Securities Act, the Issuer will, during any period in which it is neither subject to Section 13 or 15(d) of the U.S. Exchange Act nor exempt from reporting pursuant to Rule 12g3-2(b) thereunder, provide to any holder or beneficial owner of such restricted securities or to any prospective purchaser of such restricted securities designated by such holder or beneficial owner or to the Trustee for delivery to such holder, beneficial owner or prospective purchaser, in each case upon the request of such holder, beneficial owner, prospective purchaser or Trustee, the information satisfying the requirements of Rule 144A(d)(4) under the U.S. Securities Act.

Upon receipt from Telenet Group BVBA or the Telenet Facility Agent of any report or other information pursuant to the terms of or in respect of the Senior Credit Facility, the Issuer will promptly (and in any event, within three Business Days of receipt) deliver any such report or other information to the holders of Notes (*provided*, however, that to the extent any reports are filed on the SEC’s, Telenet Group Holding NV’s, Liberty Global’s or the Ultimate Parent’s website, such reports shall be deemed to be furnished to the Trustee and the holders of the Notes). In the event such reports or other information are furnished by or at the direction of Telenet Group BVBA or the Telenet Facility Agent to “public” Telenet Lenders via an Internet website or an electronic information provider, the Issuer shall procure that the Trustee, the holders of the Notes and Book-Entry Interests are granted access to such website or electronic information supplier in order to receive such reports or other information at the same time as other “public” Telenet Lenders.

The Issuer, Telenet Group BVBA or the Initial Telenet Borrower will provide to the Trustee (*provided*, however, that to the extent any reports are filed on the SEC’s, Telenet Group Holding NV’s website, Liberty Global’s or the Ultimate Parent’s website, such reports shall be deemed to be furnished to the Trustee and the holders of the Notes), within 150 days after the end of each fiscal year ending subsequent to the Issue Date, the audited consolidated statements of financial positions of the Issuer as of the end of the two most recent fiscal years (or such shorter period as the Issuer has been in existence) and audited consolidated income statements and statements of cash flow of Issuer for the two most recent fiscal years (or such shorter period as the Issuer has been in existence), in each case prepared in accordance with IFRS, U.S. GAAP or Local GAAP (such reporting standard, the “**Initial Reporting Standard**”), including appropriate footnotes to such financial statements and a report of the independent auditors on the financial statements. At any time after the Issue Date, the Issuer may elect to apply for all purposes of the Indenture, in lieu of the Initial Reporting Standard, any of IFRS, U.S. GAAP or Local GAAP (the “**New Reporting Standard**”) and, upon such election, all financial statements and reports to be provided, after such election, pursuant to the Indenture shall be prepared on the basis of the New Reporting Standard as in effect from time to time (including that, upon first reporting its fiscal year results under the New Reporting Standard, the Issuer shall restate its financial statements on the basis of the New Reporting Standard for the fiscal year ending immediately prior to the first fiscal year for which financial statements have been prepared on the basis of the New Reporting Standard).

The Issuer, Telenet Group BVBA or the Initial Telenet Borrower is required to deliver to the Trustee annually a statement regarding compliance with the Indenture. Upon becoming aware of any Default or Event of Default, the Issuer, Telenet Group BVBA or the Initial Telenet Borrower is required to deliver to the Trustee a statement specifying such Default or Event of Default and the action that is being taken in respect of such Default or Event of Default. The Issuer, Telenet Group BVBA and the relevant Telenet Borrower or the Belgian Borrower, as applicable, will promptly notify the Issuer, the Trustee, the holders of Notes and the holders of Book-Entry Interests in the Notes upon becoming aware of any breach (or other event that would constitute or would be reasonably likely to result in a default) under the Senior Credit Facility or the Transaction Documents or the New Transaction Documents, as applicable.

Impairment of Liens

The Issuer shall not take or omit to take any action that would have the result of materially impairing any Lien in the Note Collateral granted under the Notes Security Documents (it being understood, subject to the proviso below, that the incurrence of Permitted Issuer Liens shall under no circumstances be deemed to materially impair any Lien in the Note Collateral granted under the Notes Security Documents) for the benefit of the Trustee, the Security Trustee and the holders of the Notes, and the Issuer shall not grant to any Person other than the Security Trustee, for the benefit of the Trustee, the Security Trustee and the holders of the Notes and the other beneficiaries described in the Notes Security Documents and the Collateral Sharing Agreement, any interest in any of the Note Collateral, except that (1) the Issuer may incur Permitted Issuer Liens and (2) the Note Collateral may be discharged and released in accordance with the Indenture, the Notes Security Documents and the Collateral Sharing Agreement; *provided* however, that, except with respect to any discharge or release of Note Collateral in accordance with the Indenture, the Notes Security Documents or the Collateral Sharing Agreement, in connection with the incurrence of Liens for the benefit of the Trustee, the Security Trustee and holders of Notes, or the release or replacement of any Note Collateral in compliance with the terms of the Indenture as described under “—*Note Collateral*”, no Notes Security Document may be amended, extended, renewed, restated, supplemented or otherwise modified or replaced, except that, at the direction of the Issuer and without the consent of the holders of the Notes, the Trustee and the Security Trustee may from time to time (subject to customary protections and indemnifications from the Issuer) enter into one or more amendments to the Notes Security Documents to: (a) cure any ambiguity, omission, manifest error, defect or inconsistency therein; (b) provide for Permitted Issuer Liens; (c) provide for the release of any Lien on any properties and assets constituting Note Collateral from the Lien of the Notes Security Documents, provided that such release is followed by the substantially concurrent re-taking of a Lien of at least equivalent priority over the same properties and assets securing the Notes; and (d) make any other change that does not adversely affect the holders of the Notes in any material respect. For any amendments, modifications or replacement of any Notes Security Documents not contemplated in clauses (a) to (d) above, the Issuer shall contemporaneously with any such action deliver to the Trustee and Security Trustee, either (i) a solvency opinion, in form and substance reasonably satisfactory to the Trustee and Security Trustee, from an Independent Financial Advisor confirming the solvency of the Issuer after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, or (ii) a certificate from the responsible financial or accounting officer of the relevant grantor (acting in good faith) which confirms the solvency of the Person granting such Lien after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement or (iii) an Opinion of Counsel, in form and substance reasonably satisfactory to the Trustee and Security Trustee, confirming that, after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, the Lien or Liens created under the Notes Security Documents, as applicable, so amended, extended, renewed, restated, supplemented, modified or replaced are valid and perfected (if such concept is applicable under the jurisdiction where such Lien is granted) Liens not otherwise subject to any limitation, imperfection or new hardening period, in equity or at law, that such Lien or Liens were not otherwise subject to immediately prior to such amendment, extension, renewal, restatement, supplement, modification or replacement. In the event that the Issuer complies with the requirements of this covenant, the Trustee and Security Trustee shall (subject to customary protections and indemnifications) consent to any such amendment, extension, renewal, restatement, supplement, modification or replacement without the need for instructions from holders of the Notes.

Additional Collateral Sharing Agreement

The Trustee and Security Trustee will become party to the Collateral Sharing Agreement on the Issue Date, and each holder of a Note, by accepting such Note, will be deemed to have (i) authorized the Trustee and Security Trustee to enter into the Collateral Sharing Agreement, (ii) agreed to be bound by all the terms and provisions of the Collateral Sharing Agreement applicable to such holder and (iii) irrevocably appointed each of the Trustee and the Security Trustee to act on its behalf and to perform the duties and exercise the rights, powers and discretions that are specifically given to them under the Collateral Sharing Agreement.

The Indenture provides that, at the request of the Issuer, in connection with the incurrence by the Issuer of any Financial Indebtedness that is permitted to share the Note Collateral pursuant to the definition of Permitted Issuer Liens, the Issuer, the Trustee and the Security Trustee shall enter into with the holders of such Financial Indebtedness (or their duly authorized representatives) a collateral sharing agreement, including a restatement, accession, amendment or other modification of an existing collateral sharing agreement (an “**Additional Collateral Sharing Agreement**”), on substantially the same terms as the Collateral Sharing Agreement (or terms not materially less favorable to the holders of the Notes); *provided that* such Additional Collateral Sharing

Agreement will not impose any personal obligations on the Trustee or the Security Trustee or adversely affect the personal rights, duties, liabilities or immunities of the Trustee under the Indenture or the Additional Collateral Sharing Agreement.

At the direction of the Issuer and without the consent of the holders of the Notes, the Trustee and the Security Trustee will from time to time enter into one or more amendments to the Collateral Sharing Agreement or any Additional Collateral Sharing Agreement to: (i) cure any ambiguity, omission, manifest error, defect or inconsistency therein; (ii) add other parties (such as representatives of new issuances of Financial Indebtedness) thereto; (iii) further secure the Notes (including Additional Notes); (iv) make provision for equal and ratable grants of Liens on the Note Collateral to secure Additional Notes or to implement any Permitted Issuer Liens; (v) make any other change to the Collateral Sharing Agreement or such Additional Collateral Sharing Agreement to provide for additional Financial Indebtedness or other obligations that are permitted by the terms of the Indenture to be incurred and secured by a Lien on the Note Collateral on a *pari passu* basis with the Liens securing the Notes; (vi) amend the Collateral Sharing Agreement or any Additional Collateral Sharing Agreement in accordance with the terms thereof or; (vii) implement any transaction in connection with the renewal, extension, refinancing, replacement or increase of any Financial Indebtedness that is secured by the Note Collateral and that is not prohibited by the Indenture; or (viii) make any other change thereto that does not adversely affect the rights of the holders of the Notes in any material respect; *provided* that no such changes shall be permitted to the extent they affect the ranking of any Note, enforcement of Liens over the Note Collateral, the application of proceeds from the enforcement of the Note Collateral or the release of any Liens over the Note Collateral in a manner than would adversely affect the rights of the holders of the Notes in any material respect except as otherwise permitted by the Indenture, the Collateral Sharing Agreement or any Additional Collateral Sharing Agreement immediately prior to such change. The Issuer will not otherwise direct the Trustee or the Security Trustee to enter into any amendment to the Collateral Sharing Agreement or, if applicable, any Additional Collateral sharing Agreement, without the consent of the holders of a majority in principal amount of the then outstanding Notes, except as described above or otherwise permitted below under “—*Amendment, Supplement and Waiver—To the Indenture and the Notes*,” and the Issuer may only direct the Trustee and the Security Trustee to enter into any amendment to the extent such amendment does not impose any personal obligations on the Trustee or Security Trustee or, in the opinion of the Trustee or Security Trustee, adversely affect their respective rights, duties, liabilities or immunities under the Indenture or the Collateral Sharing Agreement or any Additional Collateral Sharing Agreement.

Each holder of a Note, by accepting such Note, will be deemed to have:

- (a) appointed and authorized the Trustee and the Security Trustee from time to time to give effect to such provisions;
- (b) authorized each of the Trustee and the Security Trustee from time to time to become a party to any Additional Collateral Sharing Agreement;
- (c) agreed to be bound by such provisions and the provisions of any Additional Collateral Sharing Agreement; and
- (d) irrevocably appointed the Trustee and the Security Trustee to act on its behalf from time to time to enter into and comply with such provisions and the provisions of any Additional Collateral Sharing Agreement,

in each case, without the need for the consent of the holders of the Notes.

The Indenture will also provide that, in relation to the Collateral Sharing Agreement or an Additional Collateral Sharing Agreement, the Trustee shall consent on behalf of the holders to the payment, repayment, purchase, repurchase, defeasance, acquisition, retirement or redemption of any obligations subordinated to the Notes thereby; *provided, however*, that such transaction would comply with the Indenture.

Events of Default and Remedies

Events of Default

Each of the following is an “Event of Default”:

- (1) default in any payment of interest or Additional Amounts on any Note when due, which has continued for 30 days;
- (2) default for one Business Day in the payment when due (at maturity, upon redemption or otherwise) of the principal of, or premium, if any, on the Notes;
- (3) failure by the Issuer to comply with Clauses (4), (5), (7) or (11) under the captions “—*Certain Covenants—Limitations with Respect to Business Activities of the Issuer*” or the provisions of “—*Certain Covenants—Maintenance of the Existence of the Issuer*” or “—*Certain Covenants— Minimum Period for Consents under Loan Documents*”;
- (4) failure by the Issuer for 60 days after notice to the Issuer by the Trustee or the holders of at least 25% in aggregate principal amount of Notes then outstanding to comply with any of the agreements in the Indenture (other than those described in clauses (1), (2) and (3) above) or the Notes;
- (5) breach by the Issuer of any material representation or warranty in any Notes Security Document to which it is a party, the repudiation by the Issuer of any of its obligations under any Notes Security Document to which it is a party or the unenforceability for any reason against the Issuer of any Notes Security Document to which it is a party;
- (6) certain events of bankruptcy or insolvency described in the Indenture with respect to the Issuer;
- (7) (a) failure by any party thereto for 60 days to comply with any of the agreements in the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, or any Telenet Fee Letter in any material respect or (b) the repudiation by any party thereto of any of its obligations under any of the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, or any Telenet Fee Letter, the unenforceability for any reason against any party thereto of the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, or such Telenet Fee Letter or any breach by any party thereto of any material representation or warranty in the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, or such Telenet Fee Letter; or
- (8) (a) the occurrence of a Telenet Event of Default that is continuing or (b) any breach by Telenet Group BVBA or the Initial Telenet Borrower or the Belgian Borrower, as applicable, of any material representation or warranty or any material agreement in the Finco Accession Agreements or the New Finco Accession Agreements, as applicable.

For purposes of clause (8) above, “**Telenet Event of Default**” means an “**Event of Default**” as defined in the Senior Credit Facility (including the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable) as then in effect.

Remedies

In the case of an Event of Default arising from certain events of bankruptcy or insolvency with respect to the Issuer, all outstanding Notes will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing, the holders of at least 25% in aggregate principal amount of the then outstanding Notes may, by notice to the Issuer and the Trustee, and the Trustee at the request of such holders shall, declare the principal of, premium, if any, and accrued and unpaid interest, if any, and Additional Amounts, if any, on the Notes to be due and payable immediately. Upon such a declaration, such principal, premium and accrued and unpaid interest and Additional Amounts, if any, will be due and payable immediately.

Following an acceleration of the Notes pursuant to the provisions of the immediately preceding paragraph, the Lien over the Note Collateral will become enforceable subject to and in accordance with the terms of the Collateral Sharing Agreement (a “**CSA Enforcement Event**”). Following a CSA Enforcement Event under the Collateral Sharing Agreement, pursuant to each Finco Accession Agreement or each New Finco Accession Agreement, as

applicable, Telenet Group BVBA, Telenet International Finance and/or Telenet Financing USD, as applicable, will consent to any assignment, transfer or novation of rights and/or obligations (in whole or in part) of each 2017 Finco Loan or each New Finco Loan, as applicable, including any subsequent assignment, transfer or novation of each 2017 Finco Loan or each New Finco Loan, as applicable, subject to minimum transfer amount of \$200,000 (in the case of Finco Loan AJ or New Finco Loan AJ-B) or €100,000 (in the case of Finco Loan AK or New Finco Loan AK-B), as applicable, and other requirements of a Telenet Lender under the Senior Credit Facility.

The holders of a majority in aggregate principal amount of the then outstanding Notes by notice to the Trustee may, on behalf of the holders of all of the Notes, rescind an acceleration or waive any existing Default or Event of Default and its consequences under the Indenture except a continuing Default or Event of Default in the payment of interest or premium on, Additional Amounts with respect to, or the principal of, the Notes. The holders of a majority in aggregate principal amount of the then outstanding Notes may direct the Trustee and/or the Security Trustee in its exercise of any trust or power. The Trustee may withhold from holders of the Notes notice of any continuing Default or Event of Default if it determines that withholding notice is in their interest, except a Default or Event of Default relating to the payment of principal, interest, premium or Additional Amounts (if any).

Subject to the provisions of the Indenture relating to the duties of the Trustee and/or the Security Trustee, in case an Event of Default occurs and is continuing, the Trustee and/or the Security Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any holders of Notes unless such holders have offered to the Trustee and/or the Security Trustee indemnity or security satisfactory to it against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium, if any, or interest or Additional Amounts (if any) when due, no holder of a Note may pursue any remedy with respect to the Indenture or the Notes unless:

- (1) such holder has previously given the Trustee written notice that an Event of Default is continuing;
- (2) holders of at least 50 % in aggregate principal amount of the then outstanding Notes have requested the Trustee and/or the Security Trustee to pursue the remedy;
- (3) such holders have offered the Trustee and/or Security Trustee reasonable security or indemnity satisfactory to it against any loss, liability or expense;
- (4) the Trustee and/or Security Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security or indemnity; and
- (5) holders of a majority in aggregate principal amount of the then outstanding Notes have not given the Trustee and/or the Security Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the holders of a majority in principal amount of the outstanding Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Indenture provides that in the event an Event of Default has occurred and is continuing, the Trustee will be required in the exercise of its powers to use the degree of care that a prudent person would use under the circumstances in the conduct of its own affairs. The Trustee, however, may refuse to follow any direction that conflicts with law, the Indenture or the Collateral Sharing Agreement or any Additional Collateral Sharing Agreement or that the Trustee determines is unduly prejudicial to the rights of any other holder of Notes or that would involve the

Trustee in personal liability. Prior to taking any action under the Indenture, the Trustee will be entitled to security or indemnification satisfactory to it in its sole discretion against all losses and expenses caused by taking or not taking such action.

Notwithstanding anything to the contrary herein, (i) if a Default occurs for a failure to deliver a required certificate in connection with another default (an “**Initial Default**”) then at the time such Initial Default is cured, such Default for a failure to report or deliver a required certificate in connection with the Initial Default will also be cured without any further action and (ii) any Default or Event of Default for the failure to comply with the time periods prescribed in the covenant entitled “—*Information*”, or otherwise to deliver any notice or certificate pursuant to any other provision of the Indenture shall be deemed to be cured upon the delivery of any such report required by such covenant or notice or certificate, as applicable, even though such delivery is not within the prescribed period specified in the Indenture.

Notwithstanding any provision in the Indenture, the Notes, the Notes Security Documents, the Collateral Sharing Agreement or otherwise to the contrary, the obligations of the Issuer to the Trustee, the Security Trustee, any Paying and Domiciliary Agent, any Registrar and the holders of the Notes under the Indenture, the Notes and the Notes Security Documents shall be limited to the proceeds of the realization of the Note Collateral once the proceeds have been applied in accordance with the terms of the Indenture, the Notes, the Notes Security Documents and the Collateral Sharing Agreement. Having realized all the Note Collateral in accordance with the Notes Security Documents and the Collateral Sharing Agreement and distributed the net proceeds thereof in accordance with the Indenture and the Collateral Sharing Agreement, none of the Trustee, the Security Trustee, any Paying and Domiciliary Agent, any Registrar and the holders of the Notes may take any further steps to recover any sum still unpaid in respect of the Notes, the Indenture or any of the Notes Security Documents or otherwise and all claims against the Issuer in respect of any such sum due but still unpaid shall be extinguished.

Non Petition

Each of the Trustee, the Security Trustee, any Paying and Domiciliary Agent and any Registrar and each holder of Notes has agreed that its rights against the Issuer under the Indenture and the Notes are limited to the extent that it will not take any action or proceedings against the Issuer to recover any amounts due and payable by the Issuer to it under the Indenture, the Notes or the Notes Security Documents except as expressly permitted by the provisions of the Indenture, the Notes, the Notes Security Documents and the Collateral Sharing Agreement. Each of the Trustee, the Security Trustee, any Paying and Domiciliary Agent and any Registrar and each holder of Notes has further agreed that it will not, and in the case of a holder of Notes will not request that the Trustee or the Security Trustee on its behalf, petition a court for, or take any other action or commence any proceedings for, the liquidation or winding-up of the Issuer or any other bankruptcy or insolvency proceedings with respect to the Issuer.

No Personal Liability of Directors, Officers, Employees and Shareholders

No director, officer, employee, incorporator or shareholder of the Issuer will have any liability for any obligations of the Issuer under the Notes, the Indenture and the Notes Security Documents or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes.

Amendment, Supplement and Waiver

To the Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements

In the event that the Issuer, as a Telenet Lender, is eligible or required to vote (or otherwise consent) (including with respect to any enforcement decision) with respect to any matter arising from time to time under the Senior Credit Facility or under the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, in which all Telenet Lenders are eligible or required to vote (or otherwise consent) (a “**Senior Credit Facility Decision**”), the Issuer will solicit votes (or other consents) from the holders of Notes (each, a “**Noteholder Consent**”) with respect to such Senior Credit Facility Decision in accordance with the provisions of the Indenture described above under “—*Certain Covenants— Minimum Period for Consents under Loan Documents*”. Upon the expiration of the applicable consent period, the Issuer will inform the Telenet Facility Agent promptly in writing (and in no event more than one Business Day following such expiration) of the results of the Noteholder Consent.

Under the terms of the Senior Credit Facility, Telenet Lenders are not entitled to split their votes when voting on a proposed consent, waiver, amendment or other determination. The following voting mechanic is designed to achieve the same practical effect as allowing a Telenet Lender to split its vote (subject to the provisions set forth below) under the Senior Credit Facility.

Under the terms of each 2017 Finco Accession Agreement or each New Finco Accession Agreement, as applicable, the Telenet Facility Agent will be authorized to apply the Noteholder Consent to the Senior Credit Facility Decision, at the direction of the Issuer, as follows:

$$\frac{(\text{OLC} + \text{BC} + \text{ABC} + \text{OBC})}{\text{OL}} = \text{Threshold Amount}$$

Where:

“**OLC**” = aggregate Commitments consenting (other than any Commitments of the Issuer and any other DN Issuer) to such Senior Credit Facility Decision;

“**BC**” = aggregate principal amount of Notes consenting; *provided* where at least a majority in aggregate principal amount of Notes that respond to such solicitation provide consent, BC will be deemed to equal the aggregate principal amount of the Notes outstanding (for purposes of the calculation of BC, the principal amount of the Dollar Notes will be converted into euro at the Agent’s Spot Rate of Exchange (as defined in the Senior Credit Facility) as of the Issue Date); *provided further* that with respect to any Senior Credit Facility Decision on any Senior Credit Facility Amendments BC will be deemed to equal the aggregate principal amount of the Notes outstanding (for purposes of the calculation of BC, the principal amount of the Dollar Notes will be converted into euro at the Agent’s Spot Rate of Exchange (as defined in the Senior Credit Facility) as of the Issue Date);

“**ABC**” = aggregate principal amount of the Issuer’s Other Notes; *provided* where at least a majority in the aggregate principal amount of each series of the Issuer’s Other Notes that respond to such solicitation provide consent, ABC will be deemed equal to the aggregate principal amount of the relevant Issuer’s Other Notes outstanding; *provided further that* where two or more series of the Issuer’s Other Notes vote on a single class under an indenture, they will constitute a single series for purposes of this definition;

“**OBC**” = aggregate principal amount of DNI Notes issued by all DN Issuers (other than any DNI Notes issued by the Issuer) consenting; *provided*, with respect to each DN Issuer (other than the Issuer), where at least a majority in aggregate principal of any series (*provided that* where two or more series or tranches of DNI Notes vote as a single class under an indenture, they will constitute a single series for purposes of this definition) of DNI Notes issued by such DN Issuer that respond to such solicitation provide consent, OBC with respect to such series of DN Notes of such DN Issuer will be deemed to equal the aggregate principal amount of such series of DN Notes outstanding and issued by such DN Issuer;

“**OL**” = the aggregate Commitments under the Senior Credit Facility; and

“**Commitments**” means the aggregate undrawn Commitments (as defined in the Senior Credit Facility) and participations in outstanding Loans (as defined in the Senior Credit Facility) under the Senior Credit Facility, *provided* that, solely for the purposes of determining whether any amendment or waiver of any term of the Senior Credit Facility has been approved by the Majority Lenders (as defined in the Senior Credit Facility), the amount of the Loans and undrawn Commitments shall be reduced by the amount of the Loans and undrawn Commitments of any Telenet Lender that has not, on or before the day ten Business Days after the date such request has been notified to the relevant Telenet Lenders by the Telenet Facility Agent, notified the Telenet Facility Agent of its decision or requested further information to enable it to make such decision, or notified the Telenet Facility Agent that it is actively reviewing such request with a view to making such decision.

In connection with any vote or consent, the Issuer will, on or prior to the tenth Business Day after the date such request has been notified to the relevant Telenet Lenders by the Telenet Facility Agent, instruct the Telenet Facility Agent to vote or consent in accordance with the voting mechanic described above, request further information from the Telenet Facility Agent or notify the Telenet Facility Agent that it is actively reviewing such request with a view to making such decision.

To the extent the Threshold Amount (expressed as a percentage) is greater than or equal to the required percentage of Telenet Lender consents with respect to any Senior Credit Facility Decision, the entire amount of each 2017 Finco Loan or each New Finco Loan, as applicable, will be voted in favor of the matter that is the subject of such Senior Credit Facility Decision. To the extent the Threshold Amount is less than the required percentage of Telenet Lender consents with respect to any Senior Credit Facility Decision, the entire amount of each 2017 Finco Loan or each New Finco Loan, as applicable, will be voted against the matter that is the subject of such Senior Credit Facility Decision.

Except as provided in the next succeeding paragraph, any provision or term of the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, and the Senior Credit Facility applicable only to the 2017 Finco Loans or the New Finco Loans, as applicable, or to a several right of the Issuer, as a Telenet Lender, may be amended or supplemented with the consent of the holders of at least a majority in aggregate

principal amount of the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes), and any existing Default or Event of Default in respect of, or compliance with, any such provision or term may be waived with the consent of the holders of a majority in aggregate principal amount of the then outstanding Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes); *provided, however*, that any provision or term of a 2017 Finco Accession Agreement or New Finco Accession Agreement, as applicable, and the Senior Credit Facility applicable only to Finco Loan AJ or Finco Loan AK (or New Finco Loan AJ-B or New Finco Loan AK-B, as applicable) may be amended or supplemented with the consent of holders of at least a majority in the aggregate principal amount of the Dollar Notes or the Euro Notes (and not the consent of at least a majority in the principal amount of all Notes outstanding), as the case may be.

Unless consented to by the holders of at least 90% of the aggregate principal amount of then outstanding Dollar Notes (in respect of the Finco Accession Agreement AJ or the New Finco Accession Agreement AJ-B, as applicable) or the Euro Notes (in respect of the Finco Accession Agreement AK or the New Finco Accession Agreement AK-B, as applicable) (in each case, including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, the relevant series of Notes), an amendment, supplement or waiver of the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, may not (with respect to any Notes held by a non-consenting holder):

- (1) reduce the stated rate of or extend the stated time for payment of interest under the relevant 2017 Finco Loan or the relevant New Finco Loan, as applicable;
- (2) reduce any amounts payable in respect of any prepayment of the relevant 2017 Finco Loan or the relevant New Finco Loan, as applicable;
- (3) reduce the principal of or extend the Stated Maturity of the relevant 2017 Finco Loan or the relevant New Finco Loan, as applicable;
- (4) make the relevant 2017 Finco Loan or the relevant New Finco Loan, as applicable, payable in currency other than that stated in the relevant 2017 Finco Accession Agreement or the relevant New Finco Accession Agreement, as applicable (except to the extent that the currency stated in such 2017 Finco Accession Agreement or such New Finco Accession Agreement, as applicable, has been succeeded or replaced pursuant to applicable law); or
- (5) modify the payment terms of the relevant 2017 Finco Accession Agreement or the relevant New Finco Accession Agreement, as applicable.

To the Indenture and the Notes

Except as provided in the next succeeding paragraphs, the Indenture, the Notes, any Notes Security Document, the Collateral Sharing Agreement, any Additional Collateral Sharing Agreement, any 2017 Telenet Fee Letter and the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, may be amended or supplemented with the consent of the holders of at least a majority in aggregate principal amount of the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes), and any existing Default or Event of Default or compliance with any provision of the Indenture, the Notes, any Notes Security Document, the Collateral Sharing Agreement, any Additional Collateral Sharing Agreement, any 2017 Telenet Fee Letter and the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, may be waived with the consent of the holders of a majority in aggregate principal amount of the then outstanding Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes); *provided, however*, that if any amendment, waiver or other modification will only affect the Dollar Notes or the Euro Notes, only the consent of the holders of at least a majority in principal amount of the then outstanding Dollar Notes or Euro Notes, as applicable (and not the consent of at least a majority of all Notes then outstanding), shall be required.

Unless consented to by the holders of at least 90% of the aggregate principal amount of then outstanding Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes) (provided, however that if any amendment, waiver or other modification will only affect the Dollar Notes or the Euro Notes, the consent of the holders of at least 90% of the aggregate principal amount of the then outstanding Dollar Notes or Euro Notes, as applicable (and not the consent of at least 90% of the aggregate principal amount of all Notes then outstanding), shall be required), an amendment, supplement or waiver of the

Indenture, the Notes, any Notes Security Document, the Collateral Sharing Agreement, any Additional Collateral Sharing Agreement, any 2017 Telenet Fee Letter and the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, may not (with respect to any Notes held by a non-consenting holder):

- (1) reduce the principal amount of Notes whose holders must consent to an amendment waiver or other determination;
- (2) reduce the stated rate of or extend the stated time for payment of interest or Additional Amounts on any Note;
- (3) reduce the principal of or extend the Stated Maturity of any Note or alter the provisions with respect to the redemption of the Notes;
- (4) make any Note payable in a currency other than that stated in the Note (except to the extent that the currency stated in the Notes has been succeeded or replaced pursuant to applicable law);
- (5) impair the right of any holder of Notes to institute suit for the enforcement of any payment on or with respect to such holder's Notes; or
- (6) make any change in these amendment or waiver provisions.

In addition, without the consent of at least 75% in aggregate principal amount of Notes then outstanding, no amendment or supplement may modify any Notes Security Document or the provisions in the Indenture dealing with the Notes Security Documents or application of trust moneys in any manner, taken as a whole, materially adverse to the holders of the Notes or otherwise release all or substantially all of the Note Collateral other than pursuant to the terms of the Notes Security Documents, the Collateral Sharing Agreement, any Additional Collateral Sharing Agreement or as otherwise permitted by the Indenture.

Following the Belgian Issuer Accession, no amendment, supplement or waiver of the Indenture, the Notes, any Notes Security Document, the Collateral Sharing Agreement or any Additional Collateral Sharing Agreement which in the opinion of the Belgian Issuer relates to any of the matters listed in Article 568 of the Belgian Company Code (or identical provisions of the Belgian Company Code applying to legal forms other than the *naamloze vennootschap/société anonyme* or the *commanditaire vennootschap op aandelen/ société en commandite par actions*) shall be effective unless approved at a meeting of holders of Notes complying in all respects with the requirements of Belgian law or, where the corresponding requirements of the Indenture include lower quorum and/or voting thresholds, with the requirements of the Indenture. The matters listed in Article 568 of the Belgian Company Code include the acceptance, modification or release of security; the postponement, reduction or other modification of interest payments; the postponement, suspension or other modification of principal payments; the exchange of Notes for shares; the adoption of precautionary measures of common interest; and the appointment of a common representative of the holders of Notes. For the avoidance of doubt, any amendment, supplement or waiver of the Indenture, the Notes, any Notes Security Document, the Collateral Sharing Agreement or any Additional Collateral Sharing Agreement which does not relate to any of the matters listed in Article 568 of the Belgian Company Code shall remain covered by the preceding paragraphs. Such a meeting of holders of Notes may be convened by the Belgian Issuer or the statutory auditor of the Belgian Issuer or the Trustee and shall be convened by the Belgian Issuer if requested in writing by holders of Notes holding not less than 20% in principal amount of the then outstanding Notes. Convening notices will be published in the Belgian Official Gazette (*Belgisch Staatsblad / Moniteur Belge*) and in daily newspapers in accordance with the rules set out in the Belgian Companies Code and, in addition, will be delivered by the Belgian Issuer to the Paying and Domiciliary Agent (who shall deliver such notices to the holders of the Notes) and/or X/N Clearing System for communication by it to the Participants, with a copy to the Trustee. The quorum for any meeting convened to consider a resolution will be one or more persons holding or representing at least 50% in principal amount of the then outstanding Notes, or at any adjourned meeting one or more persons being or representing holders of Notes whatever the principal amount of the Notes so held or represented. All resolutions require the approval of holders of Notes holding or representing at least 75% in principal amount of the Notes which are taking part in the vote. Under Article 574 of the Belgian Company Code, if a resolution is approved by holders of Notes holding or representing less than one-third of the principal amount of the Notes for the time being outstanding (whether their holders are present or represented at the meeting or not), such resolution is not enforceable unless approved by the Belgian Court of Appeal in the district where the Belgian Issuer's registered office is located. The Trustee may not have standing to make such a request to the Belgian Court of Appeal on behalf of the holders of Notes. The Trustee may, without the consent of the holders of Notes, prescribe such other or further regulations regarding the holding of meetings

of holders of Notes and attendance and voting there at as are necessary to comply with Belgian law. Any resolution duly passed shall be binding on all holders of Notes (whether or not they were present at the meeting at which such resolution was passed and whether or not they vote in favor). The above quorum and special majority requirements do not apply to resolutions aiming at the adoption of precautionary measures of common interest or the appointment of a common representative of the holders of Notes.

Notwithstanding the preceding paragraphs, without the consent of any holder of Notes, the Issuer, the Trustee and/or the Security Trustee may amend or supplement the Indenture, the Notes, any Notes Security Document, the Collateral Sharing Agreement, any Additional Collateral Sharing Agreement, any 2017 Telenet Fee Letter and the Telenet Service Agreement or the New Telenet Service Agreement, as applicable:

- (1) to cure any ambiguity, omission, manifest error, defect or inconsistency;
- (2) to provide for uncertificated Notes in addition to or in place of certificated Notes (provided, that the uncertificated Notes are issued in registered form for purposes of Section 163(f) of the U.S. Internal Revenue Code of 1986 (as amended));
- (3) to make any change that would provide any additional rights or benefits to the holders of Notes or that does not adversely affect the rights of any such holder in any material respect under the Indenture, the Notes, any Note Security Document, the Collateral Sharing Agreement, any Additional Collateral Sharing Agreement or any Transaction Document;
- (4) to conform the text of the Indenture, the Notes, the Collateral Sharing Agreement or any Notes Security Document to any provision of this “Description of the Notes” to the extent that such provision in this “Description of the Notes” was intended to be a verbatim recitation of a provision of the Indenture, the Notes, the Collateral Sharing Agreement or any Notes Security Document;
- (5) to provide for the issuance of Additional Notes permitted to be incurred in accordance with the terms of the Indenture;
- (6) to the extent necessary to allow the Issuer to participate on the same terms as other Telenet Lenders in an offer to purchase or otherwise acquire Telenet Loans by any member of the Telenet Bank Group made in compliance with the requirements set out under “*Redemption—Open Market Purchases of Telenet Loans*”;
- (7) give effect to Permitted Issuer Liens;
- (8) to release any Lien on the Note Collateral in accordance with the terms of the Indenture, the Notes Security Documents and the Collateral Sharing Agreement;
- (9) to evidence and provide for the acceptance and appointment under the Indenture, the Notes Security Documents, the Collateral Sharing Agreement and/or any Additional Collateral Sharing Agreement of a successor Trustee or Security Trustee, as applicable, pursuant to the requirements thereunder;
- (10) make any amendment to the provisions of the Indenture relating to the transfer and legending of Notes as permitted by the Indenture, including, without limitation to facilitate the issuance and administration of the Notes; *provided*, however, that (i) compliance with the Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any applicable securities law and (ii) such amendment does not materially and adversely affect the rights of holders to transfer Notes;
- (11) provide for a reduction in the minimum denomination of any series of Notes; *provided that* such reduction would not result in a breach of applicable securities laws or in a requirement to produce a prospectus or otherwise register the Notes with any regulatory authority in connection with any investment therein or resale thereof;
- (12) comply with the rules of any applicable securities depository; or
- (13) to effect the Belgian Issuer Accession and/or the Finco Loans Borrower Exchange in a manner that does not adversely affect the legal rights under the Indenture or the Notes of any such holder in any material respect.

In determining whether the holders of the required principal amount of Notes have concurred in any direction, waiver or consent, Notes owned by the Issuer or Telenet Group BVBA, or by any Person directly or indirectly controlling or controlled by or under direct or indirect common control with the Issuer or Telenet Group BVBA will be considered as though not outstanding.

The Trustee will be entitled to require and rely conclusively on such evidence as is reasonably appropriate in light of the nature of such amendment or supplement, including an Opinion of Counsel and an Officer's Certificate in connection with any request of the Issuer to amend the Indenture, the Notes, the Collateral Sharing Agreement or any Notes Security Document without the consent of any holder of Notes. In addition, the Issuer shall deliver to the Trustee, and the Trustee shall be entitled to rely conclusively on, an Officer's Certificate and/or an Opinion of Counsel, in each case, reasonably satisfactory to the Trustee stating that all conditions precedent to such amendment or supplement have been satisfied.

The consent of the holders of the Notes is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment. A consent to any amendment or waiver under the Indenture by any holder of Notes given in connection with a tender of such holder's Notes will not be rendered invalid by such tender. For so long as the Notes are listed on the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, the Issuer will notify the Luxembourg Stock Exchange of any such amendment, supplement and waiver.

Satisfaction and Discharge

The Indenture, the Notes Security Documents, the Collateral Sharing Agreement, any Additional Collateral Sharing Agreement, the 2017 Telenet Fee Letters and the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, will be discharged and will cease to be of further effect as to all Notes issued thereunder, or as to the Dollar Notes or Euro Notes, as applicable, when:

- (1) either:
 - (a) all Notes (or all Euro Notes or Dollar Notes, as applicable) that have been authenticated, except lost, stolen or destroyed Notes that have been replaced or paid and Notes for whose payment money has been deposited in trust and thereafter repaid to the Issuer, have been delivered to the Trustee or relevant Paying and Domiciliary Agent or Paying Agent or Registrar for cancellation; or
 - (b) (i) all Notes (or all Euro Notes or Dollar Notes, as applicable) that have not been delivered to the Trustee or relevant Paying and Domiciliary Agent or Paying Agent or Registrar for cancellation (A) have become due and payable by reason of the mailing or delivery of a notice of redemption or otherwise or (B) will become due and payable within one year and (ii) the Issuer or a third party acting on behalf of the Issuer has irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the holders with respect to the Dollar Notes, cash, Cash Equivalents, U.S. Government Obligations or a combination thereof, in each case, denominated in U.S. dollars and with respect to the Euro Notes, cash, Cash Equivalents, European Government Obligations or a combination thereof, in each case, denominated in euro, in amounts as will be sufficient, without consideration of any reinvestment of interest, to pay and discharge the entire Financial Indebtedness on the Notes not delivered to the Trustee or relevant Paying and Domiciliary Agent or Paying Agent or Registrar for cancellation for principal, premium and Additional Amounts (if any) and accrued interest to the date of maturity or redemption;
- (2) the Issuer or a third party acting on behalf of the Issuer has paid or caused to be paid all other amounts payable by it under the Indenture with respect to the Notes; and
- (3) the Issuer has delivered irrevocable instructions to the Trustee under the Indenture to apply the deposited money toward the payment of the Notes (or all Dollar Notes or all Euro Notes, as applicable) at maturity or on the redemption date, as the case may be.

In addition, if:

- (1) part of the Dollar Notes (the “Dollar Called Notes”) and/or the Euro Notes (the “Euro Called Notes”, and together with the Dollar Called Notes, the “Called Notes”) have become irrevocably due and payable by reason of the mailing or delivery of an unconditional notice of redemption or otherwise;
- (2) the Issuer has irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the holders of the Notes, with respect to the Dollar Called Notes, cash, Cash Equivalents, U.S. Government Obligations or a combination thereof, in each case, denominated in U.S. dollars, and with respect to the Euro Called Notes, cash, Cash Equivalents, European Government Obligations or a combination thereof, in each case, denominated in euro, in amounts as will be sufficient, without consideration of any reinvestment of interest, to pay and discharge the entire Financial Indebtedness on such Called Notes for principal, premium and Additional Amounts (if any) and accrued interest to the date of redemption; and
- (3) the Issuer has delivered irrevocable instructions to the Trustee to apply the deposited money toward the payment of such Called Notes on the redemption date, then such Called Notes will not constitute Financial Indebtedness under the Indenture. In addition, the Issuer must deliver to the Trustee an Officer’s Certificate and an opinion of counsel, in each case, stating that all conditions precedent to such Notes not constituting Financial Indebtedness have been satisfied.

Judgment Currency

Any payment on account of an amount that is payable in U.S. dollars (with respect to the Dollar Notes) and in euro (with respect to the Euro Notes) (the “**Required Currency**”), which is made to or for the account of any holder of the Notes or the Trustee in lawful currency of any other jurisdiction (the “**Judgment Currency**”), will constitute a discharge of the Issuer’s obligation under the Indenture and the Notes only to the extent of the amount of the Required Currency which such holder or the Trustee, as the case may be, could purchase in the London foreign exchange markets with the amount of the Judgment Currency in accordance with normal banking procedures at the rate of exchange prevailing on the first Business Day following receipt of the payment in the Judgment Currency. If the amount of the Required Currency that could be so purchased is less than the amount of the Required Currency originally due to such Noteholder or the Trustee, as the case may be, the Issuer will indemnify and hold harmless the holder of the Notes or the Trustee, as the case may be, from and against all loss or damage arising out of, or as a result of, such deficiency. This indemnity will constitute an obligation separate and independent from the other obligations contained in the Indenture or the Notes, will give rise to a separate and independent cause of action, will apply irrespective of any indulgence granted by any holder or the Trustee from time to time and will continue in full force and effect notwithstanding any judgment or order for a liquidated sum in respect of an amount due hereunder or under any judgment or order.

Concerning the Trustee

The Trustee is permitted to engage in other transactions; however, if it acquires any conflicting interest, as such term is used in the U.S. Trust Indenture Act of 1939, as amended, it must eliminate such conflict within 90 days.

The holders of a majority in aggregate principal amount of the then outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. The Indenture provides that in case an Event of Default occurs and is continuing, the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent man in the conduct of his own affairs. The Trustee is under no obligation to exercise any of its rights or powers under the Indenture at the request of any holder of Notes, unless such holder has offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense. It may not be possible for the Trustee to take certain actions in relation to the Notes and accordingly in such circumstances the Trustee will be unable to take action, notwithstanding the provision of security or an indemnity to it.

Additional Information

So long as the Notes are listed on the Luxembourg Stock Exchange, and so long as the rules of the Luxembourg Stock Exchange shall so require, copies of the Indenture, the Senior Credit Facility and the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, the Collateral Sharing Agreement, the 2017 Telenet Fee Letters and the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, and

the Paying and Domiciliary Agency Agreement may be obtained, free of charge, during normal business hours at the offices of the Paying and Domiciliary Agent or, to the extent and in the manner permitted by such rules at the offices of the Luxembourg Listing Agent.

Governing Law

The Indenture and the Notes (other than the provisions relating to the meeting of holders of Notes following the Belgian Issuer Accession) are each governed by, and construed in accordance with, the laws of the State of New York. Until the Belgian Issuer Accession, notwithstanding anything to the contrary, articles 84 to 94-8 of the Luxembourg law of August 10, 1915, as amended, on commercial companies shall not be applicable in respect of the Notes. The Senior Credit Facility, the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, the Telenet Service Agreement or the New Telenet Service Agreement, as applicable, the Collateral Sharing Agreement and the 2017 Telenet Fee Letters are governed by, and construed in accordance with, English law. Until the Belgian Issuer Accession, the Notes Security Documents are governed by, and construed in accordance with, Luxembourg or English law, as applicable. Following the Belgian Issuer Accession, the Notes Security Documents will be governed by, and construed in accordance with, Belgian or English law, as applicable.

Following the Belgian Issuer Accession, the provisions relating to meetings of holders of Notes will be governed by, and construed in accordance with, the laws of Belgium.

Consent to Jurisdiction and Service of Process

The Issuer will irrevocably submit to the jurisdiction of any New York state or U.S. federal court located in The Borough of Manhattan, City of New York, State of New York in relation to any legal action or proceeding (1) arising out of, related to or in connection with the Indenture or the Notes and (2) arising under any U.S. federal or state securities laws. The Issuer has appointed an agent for service of process in New York in any such action or proceeding.

Notwithstanding the foregoing, following the Belgian Issuer Accession, the Belgian courts have exclusive jurisdiction over matters concerning the validity of decisions of the general meeting of holders of Notes.

Enforceability of Judgments

Since the assets of the Issuer are outside the United States, any judgment obtained in the United States against the Issuer, including judgments with respect to the payment of principal, premium, interest, Additional Amounts and any redemption price and any purchase price with respect to the Notes, may not be collectable within the United States.

Prescription

Claims against the Issuer for the payment of principal or Additional Amounts, if any, on the Notes will be prescribed ten years after the applicable due date for payment thereof. Claims against the Issuer for the payment of interest on the Notes will be prescribed five years after the applicable due date for payment of interest.

Certain Definitions

Set forth below are certain defined terms used in the Indenture. Reference is made to the Indenture for a full disclosure of all defined terms used therein, as well as any other capitalized terms used herein for which no definition is provided.

“**1940 Act**” refers to the United States Investment Company Act of 1940, as amended.

“**2017 Finco Accession Agreements**” refers, collectively, to Finco Accession Agreement AJ and Finco Accession Agreement AK.

“**Additional Debt**” means (i) Public Debt and (ii) other Financial Indebtedness incurred under Credit Facilities, in each case incurred by the Issuer.

“**Affiliate**” of any specified Person means any other Person, directly or indirectly, controlling or controlled by or under direct or indirect common control with such specified Person. For the purposes of this definition, “control” when used with respect to any Person means the power to direct the management and policies of such Person, directly or indirectly, whether through the ownership of voting securities, by contract or otherwise; and the terms “controlling” and “controlled” have meanings correlative to the foregoing.

“**Applicable Premium**” means, in case of the Dollar Notes, the Dollar Applicable Premium and, in case of the Euro Notes, the Euro Applicable Premium.

“**BITC**” means the Belgian Income Tax Code 1992.

“**Board of Directors**” means (1) with respect to any corporation, the board of directors or managers or any duly authorized committee thereof; (2) with respect to any partnership, the board of directors or other governing body of the general partner of the partnership or any duly authorized committee thereof; and (3) with respect to any other Person, the board of directors or duly authorized committee of such Person serving a similar function; *provided that* (i) if and for so long as the Issuer is a Subsidiary of the Ultimate Parent, any action required to be taken under the Indenture by the Board of Directors of the Issuer can be delegated by decisions of the Board of Directors of the Issuer to the Board of Directors of the Ultimate Parent and (ii) following consummation of a Spin-Off, any action required to be taken under the Indenture by the Board of Directors of the Issuer can be delegated by decisions of the Board of Directors of the Issuer to the Board of Directors of the Spin Parent.

“**Bund Rate**” means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity as of such date of the Comparable German Bund Issue, assuming a price for the Comparable German Bund Issue (expressed as a percentage of its principal amount) equal to the Comparable German Bund Price for such redemption date, where:

- (1) “Comparable German Bund Issue” means the German Bundesanleihe security selected by any Reference German Bund Dealer as having a fixed maturity most nearly equal to the period from such redemption date to December 1, 2022 and that would be utilized at the time of selection and in accordance with customary financial practice, in pricing new issues of euro-denominated corporate debt securities in a principal amount approximately equal to the then outstanding principal amount of the Euro Notes and of a maturity most nearly equal to December 1, 2022; provided, however, that, if the period from such redemption date to December 1, 2022 is not equal to the fixed maturity of the German Bundesanleihe security selected by such Reference German Bund Dealer, the Bund Rate shall be determined by linear interpolation (calculated to the nearest one-twelfth of a year) from the yields of German Bundesanleihe securities for which such yields are given, except that if the period from such redemption date to December 1, 2022, is less than one year, a fixed maturity of one year shall be used;
- (2) “Comparable German Bund Price” means, with respect to any redemption date, the average of all Reference German Bund Dealer Quotations for such date (which, in any event, must include at least two such quotations), after excluding the highest and lowest such Reference German Bund Dealer Quotations, or if the Issuer obtains fewer than four such Reference German Bund Dealer Quotations, the average of all such quotations;
- (3) “Reference German Bund Dealer” means any dealer of German Bundesanleihe securities appointed by the Issuer in good faith; and
- (4) “Reference German Bund Dealer Quotations” means, with respect to each Reference German Bund Dealer and any redemption date, the average as determined by the Issuer in good faith of the bid and offered prices for the Comparable German Bund Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Issuer by such Reference German Bund Dealer at 3:30 p.m. Frankfurt am Main, Germany, time on a day no earlier than the third Business Day preceding the date of the delivery of the redemption notice in respect of such redemption date.

“**Business Day**” means (i) in respect of the Euro Notes, each day that the Securities Settlement System, or any successor thereto, is open for business; (ii) in respect of the Dollar Notes, each day that the Securities Settlement System, or any successor thereto, is open for business; *provided that* such day is not a Saturday, Sunday or other day on which banking institutions in New York, New York, London, England, Brussels, Belgium or Luxembourg are authorized or required by law to close; and (iii) a “Business Day”, as such term is defined in the Senior Credit Facility.

“Capital Stock” of any Person means any and all shares, interests, rights to purchase, warrants, options, participation or other equivalents of or interests in (however designated) equity of such Person, including any preferred stock, but excluding any debt securities convertible into such equity.

“Cash Equivalents” means:

- (1) securities or obligations, insured or unconditionally guaranteed by the United States government, the government of the United Kingdom, the relevant member state of the European Union as of January 1, 2004 (each a **“Qualified Country”**) or any agency or instrumentality thereof, in each case, having maturities of not more than 24 months from the date of acquisition thereof;
- (2) securities or obligations issued by any Qualified Country or any political subdivision of any such Qualified Country, or any public instrumentality thereof, having maturities of not more than 24 months from the date of acquisition thereof and, at the time of acquisition, having an investment grade rating generally obtainable from either S&P or Moody’s (or if at any time neither S&P nor Moody’s shall be rating such obligations, then from another nationally recognized rating service in any Qualified Country);
- (3) commercial paper issued by any lender party to a Credit Facility or any bank holding company owning any lender party to a Credit Facility;
- (4) commercial paper maturing no more than 12 months after the date of acquisition thereof and, at the time of acquisition, having a rating of at least A-2 or P-2 from either S&P or Moody’s (or, if at any time neither S&P nor Moody’s shall be rating such obligations, an equivalent rating from another nationally recognized rating service in any Qualified Country);
- (5) time deposits, eurodollar time deposits, bank deposits, certificates of deposit or bankers’ acceptances maturing no more than two years after the date of acquisition thereof issued by any lender party to a Credit Facility or any other bank or trust company (x) having combined capital and surplus of not less than \$250.0 million in the case of U.S. banks and \$100.0 million (or the U.S. Dollar equivalent thereof) in the case of non-U.S. banks or (y) the long-term debt of which is rated at the time of acquisition thereof at least “A-” or the equivalent thereof by S&P, or “A-” or the equivalent thereof by Moody’s (or if at the time neither is issuing comparable ratings, then a comparable rating of another nationally recognized rating agency in any Qualified Country);
- (6) auction rate securities rated at least Aa3 by Moody’s and AA- by S&P (or, if at any time either S&P or Moody’s shall not be rating such obligations, an equivalent rating from another nationally recognized rating service in any Qualified Country);
- (7) repurchase agreements or obligations with a term of not more than 30 days for underlying securities of the types described in clauses (1), (2) and (5) above entered into with any bank meeting the qualifications specified in clause (5) above or securities dealers of recognized national standing;
- (8) marketable short-term money market and similar funds (x) either having assets in excess of \$250.0 million (or U.S. Dollar equivalent thereof) or (y) having a rating of at least A-2 or P-2 from either S&P or Moody’s (or, if at any time neither S&P nor Moody’s shall be rating such obligations, an equivalent rating from another nationally recognized rating service in any Qualified Country);
- (9) interests in investment companies or money market funds, 95% the investments of which are one or more of the types of assets or instruments described in clauses (1) through (8) above; and
- (10) in the case of investments by the Issuer or any of its Subsidiaries (if any) organized or located in a jurisdiction other than the United States or a member state of the European Union (or any political subdivision or territory thereof), or in the case of investments made in a country outside the United States, other customarily utilized high-quality investments in the country where such Subsidiary is organized or located or in which such Investment is made, all as conclusively determined in good faith by the Issuer.

“Clearstream” means Clearstream Banking, S.A.

“Collateral Sharing Agreement” means the collateral sharing agreement dated as of the Issue Date, between, among others, the Issuer, the Security Trustee and the Trustee, as amended, restated or otherwise modified or varied from time to time.

“continuing” means, with respect to any Default or Event of Default, that such Default or Event of Default has not been cured or waived.

“Credit Facility” means, one or more debt facilities, arrangements, instruments, trust deeds, note purchase agreements, indentures or commercial paper facilities or overdraft facilities (including, without limitation, the facilities made available under the Senior Credit Facility) with banks or other institutions or investors providing for revolving credit loans, term loans, receivables financing (including through the sale of receivables to such institutions or to special purpose entities formed to borrow from such institutions against such receivables), letters of credit, notes, bonds, debentures or other Financial Indebtedness, in each case, as amended, restated, modified, renewed, refunded, replaced, restructured, refinanced, repaid, increased or extended in whole or in part from time to time (and whether in whole or in part and whether or not with the original administrative agent and lenders or another administrative agent or agents or other banks or institutions or investors and whether provided under the Senior Credit Facility or one or more other credit or other agreements, indentures, financing agreements or otherwise) and in each case including all agreements, instruments and documents executed and delivered pursuant to or in connection with the foregoing (including but not limited to any notes and letters of credit issued pursuant thereto and any guarantee and collateral agreement, patent and trademark security agreement, mortgages or letter of credit applications and other guarantees, pledges, agreements, security agreements and collateral documents). Without limiting the generality of the foregoing, the term “Credit Facility” shall include any agreement or instrument (i) changing the maturity of any Financial Indebtedness incurred thereunder or contemplated thereby, (ii) adding additional borrowers or guarantors thereunder, (iii) increasing the amount of Financial Indebtedness incurred thereunder or available to be borrowed thereunder or (iv) otherwise altering the terms and conditions thereof.

“Default” means any event which is, or after notice or passage of time or both would be, an Event of Default; *provided* that any Default that results solely from the taking of an action that would have been permitted but for the continuation of a previous Default will be deemed to be cured if such previous Default is cured prior to becoming an Event of Default.

“Disqualified Stock” means, with respect to any Person, any Capital Stock of such Person which by its terms (or by the terms of any security into which it is convertible or for which it is exchangeable) or upon the happening of any event:

- (1) matures or is mandatorily redeemable pursuant to a sinking fund obligation or otherwise;
- (2) is convertible or exchangeable for Financial Indebtedness or Disqualified Stock (excluding Capital Stock which is convertible or exchangeable solely at the option of Telenet Group BVBA, the Initial Telenet Borrower or a Subsidiary of Telenet Group BVBA); or
- (3) is redeemable at the option of the holder of the Capital Stock in whole or in part, in each case on or prior to the earlier of the date (a) of the Stated Maturity of the Notes or (b) on which there are no Notes outstanding, *provided* that only the portion of Capital Stock which so matures or is mandatorily redeemable, is so convertible or exchangeable or is so redeemable at the option of the holder thereof prior to such date will be deemed to be Disqualified Stock; *provided, further* that any Capital Stock that would constitute Disqualified Stock solely because the holders thereof have the right to require Telenet Group BVBA to repurchase such Capital Stock upon the occurrence of a change of control or asset sale (each defined in a substantially identical manner to the corresponding definitions in the Senior Credit Facility) shall not constitute Disqualified Stock if the terms of such Capital Stock (and all such securities into which it is convertible or for which it is ratable or exchangeable) provide that Telenet Group BVBA may not repurchase or redeem any such Capital Stock (and all such securities into which it is convertible or for which it is ratable or exchangeable) pursuant to such provision prior to compliance by Telenet Group BVBA with any provisions of the Senior Credit Facility.

“DN Issuer” means any lender under the Senior Credit Facility that is a financing company, a finance subsidiary or a designated notes issuer, and that has funded an Advance (under and as defined in the Senior Credit Facility) using the proceeds from the issuance of senior secured notes.

“DNI Notes” means any senior secured notes issued by any DN Issuer.

“Dollar Applicable Premium” means with respect to a Dollar Note at any redemption date prior to December 1, 2022, the excess of: (1) the present value at such redemption date of (i) the redemption price of the Dollar Note at December 1, 2022 (such redemption price being described under *“Optional Redemption—Redemption of Dollar Notes on or after December 1, 2022”*) plus (ii) all required remaining scheduled interest payments due on the Dollar Notes through to December 1, 2022 (excluding accrued and unpaid interest to the redemption date), computed using a discount rate equal to the Treasury Rate plus 50 basis points; over (2) the principal amount of the Dollar Note on such redemption date.

“Equity Offering” means (1) the distribution of Capital Stock of the Spin Parent in connection with any Spin-Off or (2) a sale of (a) Capital Stock of Telenet Group BVBA or the Initial Telenet Borrower (other than Disqualified Stock), (b) Capital Stock the proceeds of which are contributed as equity share capital to Telenet Group BVBA or the Initial Telenet Borrower or as Subordinated Shareholder Loans or (c) Subordinated Shareholder Loans.

“Escrowed Proceeds” means the proceeds from the offering of any debt securities or other Financial Indebtedness paid into escrow accounts with an independent escrow agent on the date of the applicable offering or incurrence pursuant to escrow arrangements that permit the release of amounts on deposit in such escrow accounts upon satisfaction of certain conditions or the occurrence of certain events. The term “Escrowed Proceeds” shall include any interest earned on the amounts held in escrow.

“euro” or **“€”** means the currency introduced at the start of the third stage of the European economic and monetary union pursuant to the Treaty establishing the European Community, as amended by the Treaty on European Union.

“Euro Applicable Premium” means with respect to a Euro Note at any redemption date prior to December 1, 2022, the excess of: (1) the present value at such redemption date of (i) the redemption price of the Note at December 1, 2022 (such redemption price being described under *“Optional Redemption—Redemption of Euro Notes on or after December 1, 2022”*) plus (ii) all required remaining scheduled interest payments due on the Euro Notes through to December 1, 2022 (excluding accrued and unpaid interest to the redemption date), computed using a discount rate equal to the Bund Rate plus 50 basis points; over (2) the principal amount of the Euro Note on such redemption date.

“Euroclear” means Euroclear Bank, S.A./N.V., as operator of the Euroclear system.

“European Government Obligations” means any security that is (1) a direct obligation of Ireland, Belgium, the Netherlands, France, The Federal Republic of Germany or any other country that is a member of the European Monetary Union on the Issue Date, for the payment of which the full faith and credit of such country is pledged or (2) an obligation of a person controlled or supervised by and acting as an agency or instrumentality of any such country the payment of which is unconditionally guaranteed as a full faith and credit obligation by such country, which, in either case under the preceding clause (1) or (2), is not callable or redeemable at the option of the issuer thereof.

“European Union” means the European Union, including member states as of May 1, 2004 but excluding any country which became or becomes a member state of the European Union after May 1, 2004.

“Financial Indebtedness” has the meaning ascribed thereto in the Senior Credit Facility as in effect on the Issue Date.

“Finco Accession Agreement AJ” means the \$1,000 million additional facility accession agreement to be dated on or about the Issue Date to be entered into between, among others, the Issuer and the Initial Telenet Borrower, substantially in the form of the agreement attached as Annex B to the Offering Memorandum.

“Finco Accession Agreement AK” means the €600.0 million additional facility accession agreement to be dated on or about the Issue Date to be entered into between, among others, the Issuer and the Initial Telenet Borrower, substantially in the form of the agreement attached as Annex C to the Offering Memorandum.

“Finco Accession Agreements” refers, collectively, to (i) the 2017 Finco Accession Agreements or the New Finco Accession Agreements, as applicable, and (ii) any additional accession agreement to the Senior Credit

Facility, or similar instrument or agreement, pursuant to which the Issuer advances the proceeds of the Notes (including any Additional Notes) or Additional Debt into the Telenet Bank Group.

“**Finco Loans**” refers, collectively, to (i) the 2017 Finco Loans or the New Finco Loans, as applicable, and (ii) any additional loans or advances made by the Issuer to a member of the Telenet Bank Group pursuant to a Finco Accession Agreement.

“**GAAP**” means generally accepted accounting principles in the United States (“**U.S. GAAP**”).

“**guarantee**” means a guarantee other than by endorsement of negotiable instruments for collection or deposit in the ordinary course of business, direct or indirect, in any manner including, without limitation, by way of a pledge of assets or through letters of credit or reimbursement agreements in respect thereof, of all or any part of any Financial Indebtedness (whether arising by virtue of partnership arrangements, or by agreements to keep-well, to purchase assets, goods, securities or services, to take or pay or to maintain financial statement conditions or otherwise).

“**IFRS**” means the accounting standards issued by the International Accounting Standards Board as in effect as of the Issue Date or, with respect to the covenant “—*Information*”, as in effect from time to time; *provided* that at any date after the Issue Date, the Issuer may make an election to establish that “IFRS” shall mean IFRS as in effect on a date that is on or prior to the date of such election. Except as otherwise expressly provided below or in the Indenture, all ratios and calculations based on IFRS contained in the Indenture shall be computed in conformity with IFRS. At any time after the Issue Date, the Issuer may elect to apply for all purposes of the Indenture, in lieu of IFRS, GAAP, and, upon such election, references to IFRS herein will be construed to mean GAAP as in effect at the Issue Date; *provided* that (1) all financial statements and reports to be provided, after such election, pursuant to the Indenture shall be prepared on the basis of GAAP as in effect from time to time (including that, upon first reporting its fiscal year results under GAAP, the Issuer shall restate its financial statements on the basis of GAAP for the fiscal year ending immediately prior to the first fiscal year for which financial statements have been prepared on the basis of GAAP) and (2) from and after such election, all ratios, computations, and other determinations based on IFRS contained in the Indenture shall, at the option of the Issuer, (a) continue to be computed in conformity with IFRS (provided that, following such election, the annual information of the Issuer required by the third paragraph of the covenant “—*Information*” shall include a reconciliation, either in the footnotes thereto or in a separate report delivered therewith, of such IFRS presentation to the corresponding GAAP presentation of such financial information), or (b) be computed in conformity with GAAP with retroactive effect being given thereto assuming that such election had been made on the Issue Date (or as in effect on such later date as elected pursuant to this definition of IFRS). Thereafter, the Issuer may, at its option, elect to apply IFRS or GAAP and compute all ratios, computations and other determinations based on IFRS or GAAP, as applicable, all on the basis of the foregoing provisions of this definition of IFRS.

“**Independent Financial Advisor**” means an accounting, appraisal or investment banking firm of nationally recognized standing that is, in the good faith judgment of the Board of Directors or senior management of the Issuer, qualified to perform the task for which it has been engaged.

“**Issue Date**” means the date of first issuance of the Notes.

“**Issuer**” means (i) Telenet Finance Luxembourg Notes S.à r.l. (the “**Initial Issuer**”), a private limited liability company (*société à responsabilité limitée*) incorporated under the laws of the Grand Duchy of Luxembourg having its registered office at 2, rue Peternelchen, L-2370 Howlad, Luxembourg and registered with the Luxembourg Trade and Companies Register under number B219682 prior to the Belgian Issuer Accession Date and (ii) the Belgian Issuer after the Belgian Issuer Accession Date, as the case may be.

“**Issuer’s Other Notes**” means any senior secured notes issued by the Issuer (other than the Notes).

“**Issuer’s Parent**” refers to (i) prior to the Belgian Issuer Accession, Telenet International Finance, and any successor thereto and (ii) following the Belgian Issuer Accession, the direct holding company of the Belgian Issuer, and any successor thereto.

“**Joint Venture Parent**” means the joint venture entity formed in a Parent Joint Venture Transaction.

“**Liberty Global**” means Liberty Global plc, with or without its consolidated subsidiaries, as the context requires.

“Lien” means any mortgage, pledge, security interest, encumbrance, lien or charge of any kind (including any conditional sale or other title retention agreement or lease in the nature thereof).

“Local GAAP” means generally accepted accounting principles of the jurisdiction of the Issuer as in effect from time to time.

“Luxembourg” means the Grand Duchy of Luxembourg.

“Majority Lenders” has the meaning ascribed thereto in the Senior Credit Facility. **“Moody’s”** means Moody’s Investors Services, Inc.

“NBB” refers to the National Bank of Belgium or any successor thereof.

“Net Cash Proceeds” means, with respect to any issuance or sale of Capital Stock, Subordinated Shareholder Loans and other capital contributions, the cash proceeds of such issuance or sale net of attorneys’ fees, accountants’ fees, underwriters’ or placement agents’ fees, listing fees, discounts or commissions and brokerage, consultant and other fees and charges actually Incurred in connection with such issuance or sale and net of taxes paid or payable as a result of such issuance or sale (after taking into account any available tax credit or deductions and any tax sharing arrangements).

“New Finco Accession Agreement AJ-B” means the U.S. dollar denominated additional facility accession agreement to be dated the date of the Finco Loans Borrower Exchange to be entered into between, among others, the Belgian Issuer and the Belgian Borrower, substantially in the form of the agreement attached as Schedule 11 of Annex B to the Offering Memorandum.

“New Finco Accession Agreement AK-B” means the euro denominated additional facility accession agreement to be dated the date of the Finco Loans Borrower Exchange to be entered into between, among others, the Belgian Issuer and the Belgian Borrower, substantially in the form of the agreement attached as Schedule 11 of Annex C to the Offering Memorandum.

“New Finco Accession Agreements” means New Finco Accession Agreement AJ-B and New Finco Accession Agreement AK-B.

“Note Collateral” has the meaning set forth above under “—*Note Collateral*”.

“Notes Security Documents” means the documents evidencing the security interests granted over the Note Collateral and any other agreement or instrument from time to time governing a grant of a security interest permitted under the Indenture to secure the obligations under the Notes.

“obligations” means any principal, interest, penalties, fees, indemnifications, reimbursements, damages and other liabilities or amounts payable under the documentation governing any Financial Indebtedness.

“Officer” of any Person means the Chairman of the Board of Directors, the Chief Executive Officer, the Chief Financial Officer, Deputy Chief Financial Officer, the President, any Vice President, any Managing Director, any Director, any Board Member, the Treasurer, any Assistant Treasurer, the Secretary or any Assistant Secretary, or any authorized signatory of such Person.

“Officer’s Certificate” means a certificate signed by one or more Officers.

“Opinion of Counsel” means a written opinion of counsel, who may be counsel to the Issuer and/or a member of the Telenet Group (and may include employees of the Issuer or a member of the Telenet Group) and who is reasonably acceptable to the Trustee.

“Parent” means (i) the Ultimate Parent, (ii) any Subsidiary of the Ultimate Parent of which Telenet Group BVBA is a Subsidiary on the Issue Date, (iii) any other Person of which Telenet Group BVBA at any time is or becomes a Subsidiary after the Issue Date (including, for the avoidance of doubt, the Spin Parent and any Subsidiary of the Spin Parent following any Spin-Off) and (iv) any Joint Venture Parent, any Subsidiary of the Joint Venture Parent and any Parent Joint Venture Holders following any Parent Joint Venture Transaction.

“Parent Joint Venture Transaction” means a transaction pursuant to which a joint venture is formed by the contribution of some or all of the assets of a Parent or issuance or sale of shares of a Parent to one or more entities which are not Affiliates of the Ultimate Parent, including the Parent Joint Venture Transactions.

“Parent Joint Venture Holders” means the holders of the share capital of the Joint Venture Parent.

“Participant” means, with respect to the X/N Clearing System, a Person (including Euroclear and Clearstream) who has an account with the X/N Clearing System.

“Paying and Domiciliary Agency Agreement” refers to the paying and domiciliary agency agreement, dated on or around the Issue Date, between the Issuer, the Trustee and the Paying and Domiciliary Agent.

“Paying and Domiciliary Agent” refers to ING Belgium SA/NV in Brussels as the paying and domiciliary agent and any successor or replacement.

“Permitted Issuer Liens” means:

- (1) Liens for taxes, assessments or government charges or levies on the assets of the Issuer if the same shall not at the time be delinquent or thereafter can be paid without penalty, or are being contested in good faith by appropriate proceedings;
- (2) Liens arising out of judgments, decrees, orders or awards so long as such Lien is adequately bonded and any appropriate legal proceedings which may have been duly initiated for the review of such judgment, decree, order or award have not been finally terminated or the period within which such proceedings may be initiated has not expired;
- (3) Liens created for the benefit of (or to secure) the Notes, including any Additional Notes (including any Liens granted pursuant to the Notes Security Documents);
- (4) Liens on the Note Collateral to secure Additional Notes and/or any Additional Debt;
- (5) Liens granted to the Trustee and/or the Security Trustee for its compensation and indemnities pursuant to the Indenture;
- (6) Liens arising solely by virtue of any statutory or common law provisions or customary business provisions relating to banker’s Liens, rights of set-off or similar rights and remedies as to deposit accounts or other funds maintained with a depositary institution; and
- (7) Liens on Escrowed Proceeds for the benefit of the related holders of debt securities or other Financial Indebtedness (or the underwriters or arrangers thereof) or on cash set aside at the time of the incurrence of any Financial Indebtedness or government securities purchased with such cash, in either case to the extent such cash or government securities prefund the payment of interest on such Financial Indebtedness and are held in escrow accounts or similar arrangements to be applied for such purpose.

“Permitted Issuer Maintenance Payments” means amounts paid to a direct or indirect Parent of the Issuer to the extent required to permit such Parent to pay reasonable amounts required to be paid by it to maintain the Issuer’s corporate existence and to pay reasonable accounting, legal, management and administrative fees and other bona fide operating expenses.

“Person” means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, limited liability company, government or any agency or political subdivision thereof or other entity.

“Public Debt” means any Financial Indebtedness consisting of bonds, debentures, notes or other similar debt securities issued in (1) a public offering registered under the U.S. Securities Act or (2) a private placement to institutional investors that is underwritten for resale in accordance with Rule 144A or Regulation S under the U.S. Securities Act, whether or not it includes registration rights entitling the holders of such debt securities to registration thereof with the SEC for public resale. The term “Public Debt”: (a) shall not include the Notes (or any Additional Notes) and (b) for the avoidance of doubt, shall not be construed to include any Financial Indebtedness issued to institutional investors in a direct placement of such Financial Indebtedness that is not underwritten by

an intermediary (it being understood that, without limiting the foregoing, a financing that is distributed to not more than ten Persons (provided that multiple managed accounts and affiliates of any such Persons shall be treated as one Person for the purposes of this definition) shall be deemed not to be underwritten), or any Financial Indebtedness under the Senior Credit Facility, commercial bank or similar Financial Indebtedness, capitalized lease obligation or recourse transfer of any financial asset or any other type of Indebtedness incurred in a manner not customarily viewed as a “securities offering”.

“**S&P**” means Standard & Poor’s Investors Ratings Services.

“**Securities Settlement System**” means, the settlement system recognized or approved in accordance with Articles 3 to 13bis of the Law of January 2, 1991 on the market of public debt securities and the monetary policy instruments, as amended, and the Law of August 6, 1993 on transactions in certain securities and its implementing decrees as amended from time to time which is currently the Securities Settlement System operated by the NBB.

“**Security Trustee**” means The Bank of New York Mellon, London Branch, acting as security trustee pursuant to the Indenture and the Notes Security Documents or any successor or replacement Security Trustee, acting in such capacity.

“**Senior Credit Facility**” means the Senior Secured Credit Facility Agreement dated August 1, 2007 (as amended and/or restated by supplemental agreements dated August 22, 2007, September 11, 2007, October 8, 2007, June 23, 2009, August 25, 2009, October 4, 2010, November 2, 2015, May 2, 2016, November 3, 2016, November 22, 2016, April 4, 2017, May 15, 2017, August 10, 2017 and as may be further amended, restated, supplemented or otherwise modified from time to time) between, *inter alios*, Telenet BVBA, the obligors listed therein, The Bank of Nova Scotia, as facility agent, and KBC Bank NV, as security agent.

“**Senior Facility Guarantors**” means the guarantors under the Senior Credit Facility.

“**Spin Parent**” means the Person the shares of which are distributed to the shareholders of the Ultimate Parent pursuant to the Spin-Off.

“**Spin-Off**” means a transaction by which all outstanding ordinary shares of Telenet Group BVBA or a Parent of Telenet Group BVBA directly or indirectly owned by the Ultimate Parent are distributed (x) to all of the Ultimate Parent’s shareholders or (y) all of the shareholders comprising one or more group of the Ultimate Parent’s shareholders as provided by the Ultimate Parent’s articles of association, in each case, either directly or indirectly through the distribution of shares in a company holding Telenet Group BVBA’s shares or a Parent’s shares.

“**Stated Maturity**” means, with respect to any installment of interest or principal on any series of Financial Indebtedness, the date on which the payment of interest or principal was scheduled to be paid in the documentation governing such Financial Indebtedness as of the date of the Indenture, and will not include any contingent obligations to repay, redeem or repurchase any such interest or principal prior to the date originally scheduled for the payment thereof.

“**Subordinated Shareholder Loans**” shall have the meaning ascribed to such term in the Senior Credit Facility.

“**Subsidiary**” of any Person means (a) any corporation, association or other business entity (other than a partnership, joint venture, limited liability company or similar entity) of which more than 50% of the total ordinary voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof (or Persons performing similar functions) or (b) any partnership, joint venture limited liability company or similar entity of which more than 50% of the capital accounts, distribution rights, total equity and voting interests or general or limited partnership interests, as applicable, is, in the case of clauses (a) and (b), at the time owned or controlled, directly or indirectly, by (1) such Person, (2) such Person and one or more Subsidiaries of such Person or (3) one or more Subsidiaries of such Person.

“**Telenet BVBA**” means Telenet BVBA (formerly Telenet BidCo NV and subsequently Telenet NV) and any successor (by merger, consolidation, transfer, conversion of legal form or otherwise) to all or substantially all of its assets.

“**Telenet Facility Agent**” means The Bank of Nova Scotia, acting as facility agent pursuant to the Senior Credit Facility or any successor or replacement Telenet Facility Agent, acting in such capacity.

“**Telenet Fee Letters**” refers, collectively, to the 2017 Telenet Fee Letters and any additional fee letter between the Issuer and a member of the Telenet Bank Group, relating to the payment of certain fees to the Issuer and pursuant to which the Issuer will allocate a portion of such fees equal to the original issue discount (if any) on Additional Notes or Additional Debt to the relevant member of the Telenet Bank Group under the relevant Finco Accession Agreement.

“**Telenet Group**” refers to Telenet Group Holding NV and its subsidiaries from time to time.

“**Telenet Group BVBA**” means Telenet Group BVBA (formerly BASE Company NV) and any successor (by merger, consolidation, transfer, conversion of legal form or otherwise) to all or substantially all of its assets.

“**Telenet International Finance**” means Telenet International Finance S.à. r.l., a private limited liability company (*société à responsabilité limitée*), incorporated under the laws of the Grand Duchy of Luxembourg, having its registered office at 2, rue Peternelchen, L-2370 Howald and registered with the Luxembourg Trade and Companies Register under number B 155066, and any successor (by merger, consolidation, transfer, conversion of legal form or otherwise) to all or substantially all of its assets.

“**Telenet Lender**” and “**Telenet Lenders**” means a lender or lenders under the Senior Credit Facility from time to time.

“**Telenet Loan Documents**” means the Senior Credit Facility and any other agreements designated a “finance document” under the Senior Credit Facility.

“**Telenet Loans**” means advances extended to the Initial Telenet Borrower or the Belgian Borrower, as applicable, Telenet BVBA, Telenet Group BVBA and/or any other borrower under the Senior Credit Facility pursuant to a “Loan” as defined in the Senior Credit Facility.

“**Telenet Security Agent**” means KBC Bank NV, acting as security agent pursuant to the Senior Credit Facility or any successor or replacement Telenet Security Agent, acting in such capacity.

“**Treasury Rate**” means the yield to maturity at the time of computation of U.S. Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) which has become publicly available on a day no earlier than two Business Days prior to the date of the delivery of the redemption notice in respect of such redemption date (or, if such statistical release is not so published or available, any publicly available source of similar market data selected by the Issuer in good faith)) most nearly equal to the period from the redemption date to December 1, 2022; *provided, however*, that if the period from the redemption date to December 1, 2022 is not equal to the constant maturity of a U.S. Treasury security for which a weekly average yield is given, the Treasury Rate shall be obtained by the Issuer by a linear interpolation (calculated to the nearest one-twelfth of a year) from the weekly average yields of U.S. Treasury securities for which such yields are given, except that if the period from the redemption date to December 1, 2022 is less than one year, the weekly average yield on actually traded U.S. Treasury securities adjusted to a constant maturity of one year shall be used.

“**Ultimate Parent**” means (1) Liberty Global and any and all successors thereto or (2) upon consummation of a Spin-Off, “Ultimate Parent” will mean the Spin Parent and its successors, and (3) upon consummation of a Parent Joint Venture Transaction, “Ultimate Parent” will mean each of the top tier Parent entities of the Joint Venture Holders and their successors.

“**U.S. dollar**” or “**\$**” means the lawful currency of the United States of America.

“**U.S. Exchange Act**” means the U.S. Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated pursuant thereto.

“**U.S. Government Obligations**” means direct obligations of, or obligations guaranteed by, the United States of America, and the payment for which the United States pledges its full faith and credit.

“**U.S. Securities Act**” means the U.S. Securities Act of 1933, as amended, and the rules and regulations promulgated pursuant thereto.

“**X/N Clearing System**” means the X/N securities settlement system operated by the NBB and any successor thereto.

“**X/N Eligible Investors**” refers to those entities referred to in article 4 of the Belgian Royal Decree of 26 May 1994 on the deduction of withholding tax (*koninklijk besluit van 26 mei 1994 over de inhouding en de vergoeding van de roerende voorheffing/arrêté royal du 26 mai 1994 relatif à la perception et à la bonification du précompte mobilier*) which include:

- (a) Belgian resident companies referred to in article 2, §1, 5°, b) of the BITC;
- (b) without prejudice to the application of article 262, 1° and 5° of the BITC, the institutions, associations or companies referred to in article 2, § 3, of the law of 9 July 1975 on the supervision of insurance companies, other than those referred to in 1° and 3°;
- (c) the semi-public (“**parastate**”) social security agencies, or agencies equivalent thereto, referred to in article 105, 2°, of the royal decree implementing the BITC (“**RD/BITC**”);
- (d) the non-resident investors referred to in article 105, 5° of the RD/BITC;
- (e) the investment funds recognized in the framework of pension savings referred to in article 115 of the RD/BITC;
- (f) the taxpayers referred to in article 227, 2°, of the BITC who are subject to the tax on non-residents in accordance with article 233 of the BITC and who have used the income producing capital for the exercise of their professional activity in Belgium;
- (g) the Belgian State, for its investments which are exempt from the withholding tax on income from movable assets, in accordance with article 265 of the BITC;
- (h) collective investment undertakings governed by foreign law which have joint assets managed by a management company on behalf of the participants, when their right of participation are not publicly issued in Belgium and are not marketed in Belgium;
- (i) resident companies not referred to under (a) whose sole or main activity consists in the granting of credits and loans.

BOOK-ENTRY, DELIVERY AND FORM

Securities Settlement System operated by the National Bank of Belgium

The NBB is the central bank of Belgium. The NBB operates the X/N Clearing System for, *inter alia*, corporate debt securities that can be traded on a fungible basis in accordance with the Belgian Coordinated Royal Decree Number 62 of 10 November 1967 governing the custody of transferable financial instruments and the settlement of transactions on these instruments.

The X/N Clearing System is accessible through those of its participants whose membership extends to securities such as the Notes. Investors and financial intermediaries can hold Notes within securities accounts opened with qualifying participants. Qualifying participants include most Belgian banks, some Luxembourg banks, Belgian investment firms, Euroclear and Clearstream. For a description of the tax implications of the clearing of the Notes through the X/N Clearing System, see “*Tax Considerations— Belgium*”.

Original Issue

The Dollar Notes offered hereby are denominated in U.S. dollars. The Euro Notes offered hereby are denominated in euros.

Each series of Notes sold outside the United States to non-U.S. persons pursuant to Regulation S under the U.S. Securities Act are initially represented by one or more global notes in registered global form without interest coupons attached (the “**Regulation S Global Notes**”).

Each series of Notes sold within the United States to persons that are both (i) Qualified Institutional Buyers and (ii) Qualified Purchasers, in a private transaction in reliance upon the exemption from the registration requirements of the U.S. Securities Act provided by Section 4(a)(2) thereof are initially represented by one or more global notes in registered form without interest coupons attached (the “**144A Global Notes**”, and together with the Regulation S Global Note, the “**Global Notes**”).

The Global Notes were deposited by the Paying and Domiciliary Agent on behalf of the Issuer with the NBB as operator of the X/N Clearing System on the Issue Date. Upon receipt of the Global Notes, the account of the Paying and Domiciliary Agent was credited by the NBB with an amount equivalent to the principal amount of the Global Notes. On the Issue Date, the Paying and Domiciliary Agent on behalf of the NBB credited the securities accounts of Euroclear and/or Clearstream in the X/N Clearing System with an amount equivalent to their respective portion of the principal amount of the Global Notes. Following confirmation of the payment to the Issuer of the gross proceeds for the issue of the Notes, Euroclear and/or Clearstream credited the holders of ownership interests in the Global Notes (the “**Book-Entry Interests**”) by crediting their securities accounts as participants of Euroclear and Clearstream, in accordance with the principal amount of Notes purchased by them.

Book-Entry Interests

Book-Entry Interests are held by their holders through the participants in the X/N Clearing System, including Euroclear and Clearstream, and through other financial intermediaries which in turn hold the Notes through Euroclear, Clearstream or other participants in the X/N Clearing System. For a full list of participating central securities depositories as of the date of these Listing Particulars, see <https://www.nbb.be/en/list-nbb-investor-icsds>. Book-Entry Interests are shown on records maintained by the participants in the X/N Clearing System (including Euroclear and Clearstream and their participants). The laws of certain jurisdictions may require that certain purchasers of securities take physical delivery of those securities in definitive form. The foregoing limitations may impair your ability to own, transfer or pledge Book-Entry Interests.

Transfers of Book-Entry Interests will be effected only through records maintained by the X/N Clearing System, Euroclear and Clearstream or other X/N Clearing System participants and in accordance with the applicable procedures of the X/N Clearing System, Euroclear and Clearstream or other X/N Clearing System participants. Transfers between investors will be effected in accordance with the respective rules and operating procedures of the participants through which they hold their Notes. Except under the limited circumstances described below, Book-Entry Interests will not be issued in definitive form.

Participants must rely on the procedures of the X/N Clearing System, Euroclear and Clearstream and indirect participants must rely on the procedures of X/N Clearing System, Euroclear and Clearstream and the participants

through which they own Book-Entry Interests, to transfer their interests or to exercise any rights of holders of Notes under the Indenture. Neither we nor the Trustee will have any responsibility, or be liable, for any aspect of the records relating to the Book-Entry Interests.

None of the Issuer, the Paying and Domiciliary Agent or any of its agents, or the Trustee or any of its agents has any responsibility, or are liable, for the proper performance by the X/N Clearing System or its participants of their obligations under their respective rules and operating procedures. The Issuer will have no responsibility or liability for the records relating to, or payments made in respect of, the Notes within the X/N Clearing System. The Issuer's obligations under the Notes are discharged once it has paid the X/N Clearing System or the participants in the X/N Clearing System, as applicable and the Issuer has therefore no responsibility for any amount thereafter transmitted through the Notes of the X/N Clearing System and custodians or intermediaries.

Issuance of Definitive Registered Notes

Under the terms of the Indenture, owners of Book-Entry Interests held through Euroclear and/or Clearstream as a direct participant in the X/N Clearing System will receive definitive notes in registered form ("**Definitive Registered Notes**") if:

- the National Bank of Belgium notifies the Issuer that it is unwilling or unable to continue to act as depositary and a successor depositary is not appointed by the Issuer within 120 days; or
- the National Bank of Belgium so requests following an event of default under the Indenture; or
- if the owner of a Book-Entry Interest held through Euroclear and/or Clearstream (as a direct participant in the X/N Clearing System) requests such exchange in writing delivered through the X/N Clearing System, Euroclear or Clearstream or to the Issuer following an event of default under the Indenture.

In such an event, the Issuer will issue, and the Trustee will authenticate or cause to be authenticated, the Definitive Registered Notes, registered in the name or names and issued in any approved denominations, requested by or on behalf of the X/N Clearing System, Euroclear and/or Clearstream as applicable (in accordance with their respective customary procedures) and based upon directions received from participants reflecting the beneficial ownership of Book-Entry Interests), and such Definitive Registered Notes will bear the restrictive legend as provided in the Indenture, unless that legend is not required by the Indenture or applicable law. Notwithstanding anything in the Indenture or in the Paying and Domiciliary Agency Agreement to the contrary, only owners of Book-Entry Interests held through Euroclear and/or Clearstream (as direct participants in the X/N Clearing System) will receive Definitive Registered Notes.

Payments on the Euro Notes

Payments of any cash amounts owing in respect of the Euro Notes will be made by us in euro to the Paying and Domiciliary Agent. The Paying and Domiciliary Agent will, in turn, make payments to NBB as operator of the X/N Clearing System who will in turn make payments to direct participants (including Euroclear and Clearstream) in the X/N Clearing System in accordance with the rules applicable to the X/N Clearing System. Euroclear and Clearstream will, in turn, make payments to their respective participants in accordance with their procedures.

Under the terms of the Indenture, the Paying and Domiciliary Agent, the Registrar and the Trustee will treat the persons shown in the records of the X/N Clearing System as having interests in the Global Notes as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, none of us, the Paying and Domiciliary Agent, the Registrar, the Trustee or any of its agents has or will have any responsibility or liability for:

- any aspect of the records of the X/N Clearing System, Euroclear, Clearstream or any participant or indirect participant relating to, or payments made on account of, a Book-Entry Interest or for maintaining, supervising or reviewing the records of the X/N Clearing System, Euroclear or Clearstream or any participant or indirect participant relating to, or payments made on account of, a Book-Entry Interest; or
- any other matters relating to the actions and practices of the X/N Clearing System, Euroclear, Clearstream or any participant or indirect participant.

Payments on the Dollar Notes

Payments of any cash amounts owing in respect of the Dollar Notes will be made by us in U.S. dollars to participants in the X/N Clearing System (including Euroclear and Clearstream, in accordance with the rules of the X/N Clearing System). Participants in the X/N Clearing System (including Euroclear and Clearstream) will, in turn, make payments to their participants in accordance with their procedures.

Currency of payment for the Global Notes

The principal of, premium, if any, and interest on, and all other amounts payable in respect of, the Global Notes was paid to holders of Book-Entry Interests to such Notes through the X/N Clearing System, Euroclear and Clearstream in euro or U.S. dollars, as applicable.

Global clearance and settlement under the book-entry system

The Notes represented by the Global Notes are listed on the Official List. Transfers of interests in the Global Notes between participants in the X/N Clearing System, Euroclear and Clearstream were effected in the ordinary way in accordance with their respective system's rules and operating procedures.

Although the X/N Clearing System, Euroclear and Clearstream currently follow the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants in the X/N Clearing System, Euroclear or Clearstream, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or modified at any time. None of the Issuer, the Trustee or the Paying and Domiciliary Agent have any responsibility for the performance by the X/N Clearing System, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Initial Settlement

Initial settlement for the Notes was made in euro and U.S. dollars. Book-Entry Interests owned through the X/N Clearing System, Euroclear or Clearstream accounts will follow the settlement procedures applicable to conventional bonds in registered form. Book-Entry Interests will be credited to the securities custody accounts of X/N Clearing System, Euroclear and Clearstream holders on the business day following the settlement date against payment for value on the settlement date (in the case of Euro Notes) and free of payment on the settlement date (in the case of Dollar Notes).

Secondary Market Trading

The Book-Entry Interests will trade through participants of the X/N Clearing System, Euroclear and Clearstream and will settle in same-day funds. Since the purchaser determines the place of delivery, it is important to establish at the time of trading of any Book-Entry Interests where both the purchaser's and the seller's accounts are located to ensure that settlement can be made on the desired value date.

Agents

For so long as the Notes are represented by Global Notes, the Paying and Domiciliary Agent will act as paying agent for all purposes in relation to the Notes, though the Issuer will pay principal and interest due and payable on the Global Notes denominated in U.S. dollars directly to the holders of such Global Notes (as shown on the record of the NBB or a participant in the X/N Clearing System, as notified by the Paying and Domiciliary Agent to the Issuer). If interests in the Global Notes are exchanged for Definitive Registered Notes in the limited circumstances described under "*Definitive Registered Notes*" above, then the Paying and Domiciliary Agent will cease to act as paying agent, and the Issuer may, in its sole discretion, make payments on the Definitive Registered Notes or appoint a paying agent to make payments on the Definitive Registered Notes on behalf of the Issuer.

TRANSFER RESTRICTIONS

The Notes have not been and will not be registered under the U.S. Securities Act or any other applicable securities laws and, unless so registered, the Notes may not be offered, sold, pledged or otherwise transferred within the U.S. or to or for the account of any U.S. person, except pursuant to (a) an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and any other applicable securities laws. The Notes are being (1) sold and issued in the United States, to persons that are both (x) “qualified institutional buyers” as defined in Rule 144A under the U.S. Securities Act, and (y) “qualified purchasers” within the meaning of Section 2(a)(51) of, and Rules 2a51-1, 2a51-2 and 2a51-3 under, the 1940 Act, and (2) offered and sold and issued outside the United States, to persons other than “U.S. persons” as defined in Rule 902 under the U.S. Securities Act in offshore transactions in compliance with Regulation S under the U.S. Securities Act that, in each case, will hold the Notes in an X Account with the X/N Clearing System (either directly or indirectly through a participant in the X/N Clearing System (including Euroclear and Clearstream)).

The Issuer is not registered as an investment company under the 1940 Act, in reliance upon the exception contained in Section 3(c)(7) of the 1940 Act for investment companies (a) whose outstanding securities are beneficially owned by U.S. residents that are “qualified purchasers” or “knowledgeable employees” with respect to the Issuer at the time of acquisition of such securities and certain transferees thereof identified in Rules 3c-5 and 3c-6 under the 1940 Act and (b) which do not make, or propose to make, a public offering of their securities in the United States. Section 3(c)(7) excepts from the provisions of the 1940 Act those issuers who privately place their securities solely to persons who at the time of purchase are “qualified purchasers” or companies beneficially owned exclusively by one or more “qualified purchasers”. Each of the following would fall within the definition of “qualified purchaser”:

- (i) a natural person who owns not less than \$5,000,000 in “investments,” as such term has been defined in (and as the value of such investments are calculated pursuant to) the relevant rules promulgated by the U.S. Securities and Exchange Commission as of the date hereof;
- (ii) a company that owns not less than \$5,000,000 in “investments” and that is owned directly or indirectly by or for two or more natural persons who are related as siblings or spouses (including former spouses), or direct lineal descendants by birth or adoption, spouses of such persons, the estates of such persons, or foundations, charitable organizations, or trusts established by or for the benefit of such persons;
- (iii) a trust that is not covered by clause (ii) and that was not formed for the specific purpose of acquiring the securities offered, as to which the trustee or other person authorized to make decisions with respect to the trust, and each settlor or other person who contributed assets to the trust, is a person described in clause (i), (ii) or (iv); or
- (iv) a person, acting for its own account or the accounts of other qualified purchasers, who in the aggregate owns and invests on a discretionary basis, not less than \$25,000,000 in “investments”;

provided that, in the case of an entity that would be an investment company but for the exclusions from the 1940 Act provided by Section 3(c)(1) or Section 3(c)(7) thereof, (i) all of the beneficial owners of its outstanding securities (other than short-term paper) that acquired such securities on or before April 30, 1996 (“pre-amendment beneficial owners”) must have consented to its treatment as a “qualified purchaser” and (ii) all of the preamendment beneficial owners of a company that would be an investment company but for the exclusions from the 1940 Act provided by Section 3(c)(1) or Section 3(c)(7) thereof and that directly or indirectly owned any of its outstanding securities (other than short-term paper) must have consented to its treatment as a “qualified purchaser”.

By purchasing the Notes, you are deemed to have represented and agreed as follows (terms used in this paragraph that are defined in Rule 144A or Regulation S under the U.S. Securities Act are used herein as defined therein):

- (1) You are not an “affiliate” (as defined in Rule 144 under the U.S. Securities Act) of the Issuer or the Telenet Group, you are not acting on behalf of the Issuer or Telenet Group Holding and you (1) (A) (i) are both (x) a “qualified institutional buyer” (as defined in Rule 144A under the U.S. Securities Act) and (y) a “qualified purchaser” as defined in Section 2(a)(51) of, and Rules 2a51-1, 2a51-2 and 2a51-3 under, the 1940 Act; (ii) are aware that the sale to you is being made in reliance on Rule 144A; and (iii) are acquiring the Notes for your own account or for the account of a person that is both a qualified

institutional buyer and qualified purchaser; or (B) are not a U.S. person (as defined in Regulation S under the U.S. Securities Act) (and are not purchasing the Notes for the account or benefit of a U.S. person, other than a distributor) and are purchasing the Notes in an offshore transaction pursuant to Regulation S and (2) will hold the Notes in an X Account with the X/N Clearing System (either directly or indirectly through a participant in the X/N Clearing System (including Euroclear and Clearstream)).

- (2) You understand that the Notes are being sold in a transaction not involving any public offering in the United States within the meaning of the U.S. Securities Act, that the Notes have not been and will not be registered under the U.S. Securities Act or any other applicable securities laws and that (A) if in the future you decide to offer, resell, pledge or otherwise transfer any of the Notes, such Notes may be offered, resold, pledged or otherwise transferred only to persons that both (a)(i) for so long as the Notes are eligible for resale under Rule 144A, in the United States is a person whom you reasonably believe is both a qualified institutional buyer and qualified purchaser in a transaction meeting the requirements of Rule 144A under the Securities Act and Section 3(c)(7) under the Investment Company Act, respectively; (ii) is outside the United States in a transaction complying with the provisions of Regulation S under the U.S. Securities Act; (iii) to the Issuer in accordance with the applicable securities laws and (b) will hold the Notes in an X Account with the X/N Clearing System (either directly or indirectly through a participant in the X/N Clearing System (including Euroclear and Clearstream)); and (B) you will, and each subsequent holder is required to, notify any subsequent purchaser of the Notes from you or it of the resale restrictions referred to the legend below. Such beneficial owner acknowledges that no representation has been made as to the availability of any exemption under the Securities Act or any state securities laws for resale of such Notes. Such beneficial owner understands that the Issuer has not been registered, and will not register, under the 1940 Act, and that the Issuer intends to comply with the exception under Section 3(c)(7) of the 1940 Act in order to avoid the adverse consequences of failing to register as an “investment company.”
- (3) You acknowledge that none of the Issuer, Telenet Group Holding, Telenet Group BVBA, Telenet International Finance, the Initial Purchasers or any person representing the Issuer, Telenet Group Holding, or the Initial Purchasers has made any representation to you with respect to the Issuer, Telenet Group Holding, or the offer or sale of any of the Notes, other than by Telenet Group Holding and the Issuer with respect to the information contained in the Offering Memorandum, which Offering Memorandum has been delivered to you and upon which you are relying in making your investment decision with respect to the Notes. You acknowledge that the Initial Purchasers make no representation or warranty as to the accuracy or completeness of the Offering Memorandum. You have had access to such financial and other information concerning the Issuer, Telenet Group Holding, the Indenture, the Notes, the Notes, the Senior Credit Facility and the security documents as you deemed necessary in connection with your decision to purchase any of the Notes, including an opportunity to ask questions of, and request information from, the Issuer, Telenet Group Holding and the Initial Purchasers.
- (4) You also acknowledge that:
- (a) the Issuer and the Trustee reserve the right to require in connection with any offer, sale or other transfer of Notes under the paragraph two above the delivery of an opinion of counsel, certifications and/or other information satisfactory to the Issuer and the Trustee; and
- (b) each Global Note contains a legend substantially to the following effect:

THIS NOTE HAS NOT BEEN REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE “U.S. SECURITIES ACT”), OR OTHER SECURITIES LAWS OF ANY STATE OR OTHER JURISDICTION. NEITHER THIS NOTE NOR ANY INTEREST OR PARTICIPATION HEREIN MAY BE OFFERED, SOLD, ASSIGNED, TRANSFERRED, PLEDGED, ENCUMBERED OR OTHERWISE DISPOSED OF IN THE ABSENCE OF SUCH REGISTRATION UNLESS THE TRANSACTION IS EXEMPT FROM, OR NOT SUBJECT TO, SUCH REGISTRATION.

THE HOLDER OF THIS NOTE BY ITS ACCEPTANCE HEREOF (1) REPRESENTS THAT (A) IT IS A “QUALIFIED PURCHASER” (AS DEFINED IN SECTION 2(a)(51) OF, AND RULES 2a51-1, 2a51-2 AND 2a51-3 UNDER, THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE “1940 ACT”) (OR A TRANSFEREE THEREOF THAT IS IDENTIFIED IN RULES 3C-5 AND 3C-6 UNDER THE 1940 ACT)

THAT IS A “QUALIFIED INSTITUTIONAL BUYER” (AS DEFINED IN RULE 144A UNDER THE U.S. SECURITIES ACT) OR (B) IT IS NOT A U.S. PERSON AND IS ACQUIRING THIS NOTE IN AN “OFFSHORE TRANSACTION” PURSUANT TO RULE 903 OR RULE 904 OF REGULATION S UNDER THE U.S. SECURITIES ACT, (2) AGREES ON ITS OWN BEHALF AND ON BEHALF OF ANY INVESTOR ACCOUNT FOR WHICH IT HAS PURCHASED SECURITIES, TO OFFER, SELL OR OTHERWISE TRANSFER SUCH SECURITY, PRIOR TO THE DATE (THE “**RESALE RESTRICTION TERMINATION DATE**”) THAT IS [IN THE CASE OF RULE 144A NOTES: ONE YEAR] [IN THE CASE OF REGULATION S NOTES: 40 DAYS] AFTER THE LATER OF THE ORIGINAL ISSUE DATE HEREOF AND THE LAST DATE ON WHICH THE ISSUER WAS, OR ANY AFFILIATES OF THE ISSUER WERE, THE OWNER OF THIS SECURITY (OR ANY PREDECESSOR OF SUCH SECURITY), ONLY (A) TO THE ISSUER, (B) PURSUANT TO A REGISTRATION STATEMENT THAT HAS BEEN DECLARED EFFECTIVE UNDER THE U.S. SECURITIES ACT, (C) FOR SO LONG AS THE SECURITIES ARE ELIGIBLE FOR RESALE PURSUANT TO RULE 144A UNDER THE U.S. SECURITIES ACT, TO A PERSON IT REASONABLY BELIEVES IS A “QUALIFIED PURCHASER” (AS DEFINED IN SECTION 2(a)(51) OF, AND RULES 2a51-1, 2a51-2 AND 2a51-3 UNDER, THE 1940 ACT) (OR A TRANSFEREE THEREOF THAT IS IDENTIFIED IN RULES 3C-5 AND 3C-6 UNDER THE 1940 ACT) THAT IS A “QUALIFIED INSTITUTIONAL BUYER” AS DEFINED IN RULE 144A UNDER THE U.S. SECURITIES ACT THAT PURCHASES FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER WHO IS ALSO A QUALIFIED PURCHASER TO WHOM NOTICE IS GIVEN THAT THE TRANSFER IS BEING MADE IN RELIANCE ON RULE 144A, (D) PURSUANT TO OFFERS AND SALES THAT OCCUR OUTSIDE THE UNITED STATES WITHIN THE MEANING OF REGULATION S UNDER THE U.S. SECURITIES ACT, OR (E) PURSUANT TO ANOTHER AVAILABLE EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT, SUBJECT TO THE ISSUER’S AND THE TRUSTEE’S RIGHT PRIOR TO ANY SUCH OFFER, SALE OR TRANSFER PURSUANT TO CLAUSE (E) TO REQUIRE THE DELIVERY OF AN OPINION OF COUNSEL, CERTIFICATION AND/OR OTHER INFORMATION SATISFACTORY TO EACH OF THEM. THIS LEGEND WILL BE REMOVED UPON THE REQUEST OF THE HOLDER AFTER THE RESALE RESTRICTION TERMINATION DATE. ADDITIONALLY, THE HOLDER OF THIS NOTE MAY NOT TRANSFER THIS NOTE TO ANY PERSON OR ENTITY THAT IS NOT LISTED IN ARTICLE 4 OF THE BELGIAN ROYAL DECREE OF MAY 26, 1994.

BY ACCEPTING THIS NOTE (OR AN INTEREST IN THE NOTE REPRESENTED HEREBY) EACH ACQUIRER AND EACH TRANSFEREE IS DEEMED TO REPRESENT, WARRANT AND AGREE THAT AT THE TIME OF ITS ACQUISITION AND THROUGHOUT THE PERIOD THAT IT HOLDS THIS NOTE OR ANY INTEREST HEREIN (1) EITHER (A) IT IS NOT, AND IT IS NOT ACTING ON BEHALF OF (AND FOR SO LONG AS IT HOLDS THIS NOTE OR ANY INTEREST HEREIN IT WILL NOT BE, AND WILL NOT BE ACTING ON BEHALF OF), (I) AN EMPLOYEE BENEFIT PLAN (AS DEFINED IN SECTION 3(3) OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED (“**ERISA**”)) SUBJECT TO THE PROVISIONS OF PART 4 OF SUBTITLE B OF TITLE I OF ERISA, (II) AN INDIVIDUAL RETIREMENT ACCOUNT OR OTHER PLAN OR ARRANGEMENT TO WHICH SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED, (THE “**CODE**”), APPLIES, (III) ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE “PLAN ASSETS” (WITHIN THE MEANING OF 29 C.F.R. SECTION 2510.3-101 (AS MODIFIED BY SECTION 3(42) OF ERISA)) BY REASON OF ANY SUCH EMPLOYEE BENEFIT PLAN’S AND/OR PLAN’S INVESTMENT IN SUCH ENTITY (EACH OF (I), (II) AND (III), A “**BENEFIT PLAN INVESTOR**”); OR (IV) A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN WHICH IS SUBJECT TO ANY U.S. FEDERAL, STATE, LOCAL, NON-U.S. OR OTHER LAWS OR REGULATIONS THAT ARE SUBSTANTIALLY SIMILAR TO THE FIDUCIARY RESPONSIBILITY OR THE PROHIBITED TRANSACTION PROVISIONS OF ERISA AND/OR SECTION 4975 OF THE CODE (“**SIMILAR LAWS**”), AND NO PART OF THE ASSETS USED BY IT TO ACQUIRE OR HOLD THIS NOTE OR ANY INTEREST HEREIN CONSTITUTES THE ASSETS OF ANY BENEFIT PLAN INVESTOR OR ANY SUCH GOVERNMENTAL,

CHURCH OR NON-U.S. PLAN, OR (B) (I) ITS ACQUISITION, HOLDING AND DISPOSITION OF THIS NOTE OR AN INTEREST HEREIN DOES NOT AND WILL NOT CONSTITUTE OR OTHERWISE RESULT IN A NON-EXEMPT PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA AND/OR SECTION 4975 OF THE CODE (OR, IN THE CASE OF A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, A NON-EXEMPT VIOLATION OF ANY SIMILAR LAWS), AND (II) IF IT IS A PLAN WHICH IS SUBJECT TO ERISA OR SECTION 4975 OF THE CODE, THE DECISION TO PURCHASE THE NOTES HAS BEEN MADE BY A DULY AUTHORIZED FIDUCIARY (EACH, A “PLAN FIDUCIARY”) WHO IS INDEPENDENT OF THE ISSUER AND ITS AFFILIATES, WHICH PLAN FIDUCIARY (1) IS A FIDUCIARY UNDER ERISA OR THE CODE, OR BOTH, WITH RESPECT TO THE DECISION TO PURCHASE THE NOTES, (2) IS NOT THE INDIVIDUAL RETIREMENT ACCOUNT (“IRA”) OWNER (IN THE CASE OF A HOLDER OR TRANSFEREE WHICH IS AN IRA), (3) IS CAPABLE OF EVALUATING INVESTMENT RISKS INDEPENDENTLY, BOTH IN GENERAL AND WITH REGARD TO THE PROSPECTIVE INVESTMENT IN THE NOTES, (4) HAS EXERCISED INDEPENDENT JUDGMENT IN EVALUATING WHETHER TO INVEST THE ASSETS OF SUCH PLAN IN THE NOTES, AND (5) IS EITHER A BANK, AN INSURANCE CARRIER, A REGISTERED INVESTMENT ADVISER, A REGISTERED BROKER-DEALER OR AN INDEPENDENT FIDUCIARY WITH AT LEAST \$50 MILLION OF ASSETS UNDER MANAGEMENT OR CONTROL; PROVIDED, HOWEVER, THAT PLANS WILL NOT BE DEEMED TO MAKE THE REPRESENTATIONS IN THIS CLAUSE 1(B)(II) TO THE EXTENT THAT THE REGULATIONS UNDER SECTION 3(21) OF ERISA ISSUED BY THE U.S. DEPARTMENT OF LABOR ON APRIL 8, 2016 ARE RESCINDED; AND (2) NEITHER THE ISSUER NOR ANY OF ITS AFFILIATES IS A “FIDUCIARY” (WITHIN THE MEANING OF SECTION 3(21) OF ERISA OR SECTION 4975 OF THE CODE OR, WITH RESPECT TO A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, ANY DEFINITION OF “FIDUCIARY” UNDER SIMILAR LAWS) WITH RESPECT TO THE ACQUIRER OR TRANSFEREE IN CONNECTION WITH ANY PURCHASE OR HOLDING OF THE NOTE, OR AS A RESULT OF ANY EXERCISE BY THE ISSUER OR ANY OF ITS AFFILIATES OF ANY RIGHTS IN CONNECTION WITH THE NOTE, AND NO ADVICE PROVIDED BY THE ISSUER OR ANY OF ITS AFFILIATES HAS FORMED A PRIMARY BASIS FOR ANY INVESTMENT DECISION BY OR ON BEHALF OF THE ACQUIRER OR TRANSFEREE IN CONNECTION WITH THE NOTE AND THE TRANSACTIONS CONTEMPLATED WITH RESPECT TO THE NOTE.

THE ISSUER HAS THE RIGHT, UNDER THE INDENTURE GOVERNING THE NOTES, TO COMPEL ANY BENEFICIAL OWNER OF AN INTEREST IN A NOTE THAT IS A U.S. PERSON AND IS NOT BOTH (A) A QUALIFIED PURCHASER AND (B) A QUALIFIED INSTITUTIONAL BUYER TO SELL ITS INTEREST IN THE NOTE, OR MAY SELL SUCH INTEREST ON BEHALF OF SUCH OWNER.

- (c) The following legend shall also be included, if applicable:

THE FOLLOWING INFORMATION IS SUPPLIED SOLELY FOR U.S. FEDERAL INCOME TAX PURPOSES. THIS NOTE WAS ISSUED WITH ORIGINAL ISSUE DISCOUNT (“OID”) WITHIN THE MEANING OF SECTION 1273 OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE “CODE”), AND THIS LEGEND IS REQUIRED BY SECTION 1275(c) OF THE CODE.

Holders may obtain information regarding the amount of any OID, the issue price, the Issue Date and the yield to maturity relating to the Notes by contacting Robert Goyens, Telenet, Investor Relations, Liersesteenweg 4, 2800 Mechelen, Belgium.

If you purchase Notes, you will also be deemed to acknowledge that the foregoing restrictions apply to holders of beneficial interests in these Notes as well as to holders of these Notes.

- (1) You acknowledge that the Registrar will not be required to accept for registration of transfer any Notes acquired by you, except upon presentation of evidence satisfactory to the Issuer, the Trustee and the Registrar that the restrictions set forth herein have been complied with.

- (2) You acknowledge that:
- (a) the Issuer, the Initial Purchasers and others will rely upon the truth and accuracy of your acknowledgments, representations and agreements set forth herein and you agree that, if any of your acknowledgments, representations or agreements herein cease to be accurate and complete, you will notify the Issuer and the Initial Purchasers promptly in writing; and
 - (b) if you are acquiring any Notes as a fiduciary or agent for one or more investor accounts, you represent with respect to each such account that:
 - (i) you have sole investment discretion; and
 - (ii) you have full power to make, and make, the foregoing acknowledgments, representations and agreements.
- (3) You agree that you will give to each person to whom you transfer these Notes notice of any restrictions on the transfer of the Notes.
- (4) The purchaser understands that no action has been taken in any jurisdiction (including the United States) by the Issuer or the Initial Purchasers that would permit a public offering of the Notes or the possession, circulation or distribution of the Offering Memorandum or any other material relating to the Issuer or the Notes in any jurisdiction where action for the purpose is required. Consequently, any transfer of the Notes will be subject to the selling restrictions set forth hereunder.
- (5) The purchaser understands that the Issuer is a “covered fund” as defined in the Volcker Rule. The definition of “covered fund” in the Volcker Rule generally includes any entity that would be an investment company under the 1940 Act, but for the exemption provided under Section 3(c)(1) or 3(c)(7) thereunder. Because the Issuer is relying on Section 3(c)(7) of the 1940 Act for its exemption from registration thereunder (which limits sales of the Securities to “qualified purchasers” as such term is defined in the 1940 Act), it is considered to be a “covered fund” for purposes of the Volcker Rule. Accordingly, “banking entities” that are subject to the Volcker Rule may be prohibited under the Volcker Rule from, among other things, acquiring or retaining an “ownership interest” in the Issuer given its status as a covered fund, absent any applicable exclusion or exemption. Under the Volcker Rule, “ownership interest” is defined broadly to include any “equity, partnership or other similar interest.” The phrase “other similar interest” is defined under the Volcker Rule as an interest that: (a) has the right to participate in the selection or removal of a general partner, managing member, member of the board of directors or trustees, investment manager, investment advisor, or commodity trading advisor of the covered fund (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event); (b) has the right under the terms of the interest to receive a share of the income, gains, or profits of the covered fund; (c) has the right to receive the underlying assets of the covered fund after all other interests have been redeemed and/or paid in full (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event); (d) has the right to receive all or a portion of excess spread (the positive difference, if any, between the aggregate interest payments received from the underlying assets of the covered fund and the aggregate interest paid to the holders of other outstanding interests); (e) provides under the terms of the interest that the amounts payable by the covered fund with respect to the interest could be reduced based on losses arising from the underlying assets of the covered fund, such as allocation of losses, write-downs or charge-offs of the outstanding principal balance, or reductions in the amount of interest due and payable on the interest; (f) receives income on a pass-through basis from the covered fund, or has a rate of return that is determined by reference to the performance of the underlying assets of the covered fund; or (g) any synthetic right to have, receive, or be allocated any of the rights in (a) through (f) above.

European Economic Area

In relation to each member state of the EEA which has implemented the Prospectus Directive (each, a “*Relevant Member State*”), the Initial Purchasers have represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”), it has not made and will not make an offer of the Notes which are the subject of the offering contemplated by the Offering Memorandum to the public in that Relevant Member State other than:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant Initial Purchaser or Initial Purchasers nominated by the Issuer for any such offer; or
- (c) any other entity in any other circumstances falling within Article 3(2) of the Prospectus Directive,; provided that no such offer of the Notes shall require the Issuer or the Initial Purchasers to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospective Directive.

For the purposes of this provision, the expression an “offer of the Notes to the public” in relation to the Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State, the expression “Prospectus Directive” means Directive 2003/71/EC as amended, including by Directive 2010/73/EC and includes any relevant implementing measure in the Relevant Member State.

The Grand Duchy of Luxembourg

In relation to the Grand Duchy of Luxembourg, each of the Initial Purchasers represent, warrants and agrees that the Notes may not be offered or sold to the public in the Grand Duchy of Luxembourg, directly or indirectly, and neither this document nor any other offering circular, prospectus, form of application, advertisement or other material related to such offer may be distributed, or otherwise be made available in or from, or published in, the Grand Duchy of Luxembourg except in circumstances which do not constitute an offer of securities to the public, subject to prospectus requirements, in accordance with the Luxembourg Prospectus Act.

The Netherlands

In relation to the Netherlands, each of the Initial Purchasers has represented and agreed that it has not made and will not make an offer of the Notes which are subject of the offering contemplated by the Offering Memorandum Listing Particulars to the public in the Netherlands other than to any legal entity which is a qualified investor (*gekwalficeerde belegger*) within the meaning of article 1:1 of the Dutch Financial Supervision Act (*wet op het financieel toezicht*).

TAX CONSIDERATIONS

The proposed EU Financial Transaction Tax (“FTT”)

In February 2013, the European Commission published a proposal (the “**Commission Proposal**”) for a directive for a common FTT in Belgium, Germany, Greece, Spain, France, Italy, Austria, Portugal, Slovenia, Slovakia (the “**participating Member States**”) and Estonia. Estonia officially announced its withdrawal from negotiations in March 2016.

The proposed FTT has a very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No. 1287/2006 are expected to be exempt.

Under the Commission Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution established (or deemed established) in a participating Member State, and at least one party is established (or deemed established) in a participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States, and the scope of any such tax is uncertain. It may be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Notes who are in any doubt are strongly advised to seek their own professional advice in relation to the FTT in their particular circumstance.

Common reporting standard

Following recent international developments, the exchange of information will be governed by the Common Reporting Standard (“**CRS**”). On 17 August 2017, 94 jurisdictions signed the multilateral competent authority agreement (MCAA), which is a multilateral framework agreement to automatically exchange financial and personal information, with the subsequent bilateral exchanges coming into effect between those signatories that file the subsequent notifications.

More than 50 jurisdictions, including Belgium, have committed to a specific and ambitious timetable leading to the first automatic information exchanges in 2017, relating to income year 2016 (“early adopters”).

Under CRS, financial institutions resident in a CRS country will be required to report, according to a due diligence standard, financial information with respect to reportable accounts, which includes interest, dividends, account balance or value, income from certain insurance products, sales proceeds from financial assets and other income generated with respect to assets held in the account or payments made with respect to the account. Reportable accounts include accounts held by individuals and entities (which includes trusts and foundations) with fiscal residence in another CRS country. The standard includes a requirement to look through passive entities to report on the relevant controlling persons.

On 9 December 2014, EU Member States adopted Directive 2014/107/EU on administrative cooperation in direct taxation (“**DAC2**”), which provides for mandatory automatic exchange of financial information as foreseen in CRS. DAC2 amends the previous Directive on administrative cooperation in direct taxation, Directive 2011/16/EU.

The mandatory automatic exchange of financial information by EU Member States as foreseen in DAC2 will at the latest take place as of 30 September 2017, except with regard to Austria. The mandatory automatic exchange of financial information by Austria will at the latest take place as of 30 September 2018.

The Belgian government has implemented DAC2, respectively the Common Reporting Standard, per the Law of 16 December 2015 regarding the exchange of information on financial accounts by Belgian financial institutions and by the Belgian tax administration, in the context of an automatic exchange of information on an international level and for tax purposes.

As a result of the Law of 16 December 2015, the mandatory automatic exchange of information applies in Belgium (i) as of income year 2016 (first information exchange in 2017) towards the EU Member States (including Austria, irrespective of the fact that the automatic exchange of information by Austria towards other EU Member States is only foreseen as of income year 2017), (ii) as of income year 2014 (first information exchange in 2016) towards the United States and (iii), with respect to any other non-EU States that have signed the MCAA, as of the respective date to be further determined by Royal Decree.

Belgium

The following is a summary of the principal Belgian tax consequences for Belgian resident investors receiving interest in respect of, and disposing of, Notes and is of a general nature, for information purposes only and based on the Issuer's understanding of current law and practice. This summary also summarizes the Belgian withholding tax consequences after the Belgian Issuer Accession. This summary is based on the laws, regulations and applicable tax treaties, all as in effect in Belgium on the date of the Offering Memorandum, and is subject to any changes in law and the interpretation and application thereof, possibly with retroactive effect.

Notes may be held only by, and transferred only to, Eligible Investors (as defined below) holding their Notes in an X account (as defined below). This section summarises the Belgian withholding tax treatment in the hands of Eligible Investors only.

Interest

For Belgian tax purposes, interest includes (i) periodic interest income, (ii) any amounts paid by the Issuer in excess of the issue price (upon full or partial redemption, whether or not at maturity, or upon purchase by the Issuer), and (iii) assuming the Notes qualify as fixed income securities pursuant to Article 2, § 1, 8° of the Belgian Income Tax Code 1992 (“**BITC**”), in case of a sale of the Notes to any third party, other than the Issuer, the pro rata accrued interest corresponding to the period that the party selling the security held the Notes.

Payments of interest on the Notes made by a Belgian Issuer or paid through a Belgian paying agent (in case of foreign Issuer) are as a rule subject to Belgian withholding tax, currently at a rate of 30 per cent on the gross amount. See “*Risk Factors—Risks Relating to the Notes and the Structure—Interest payments on the Notes may be subject to Belgian withholding tax following the Belgian Issuer Accession.*”

X/N Clearing System of the National Bank of Belgium (“NBB”)

However, as an exception to the general rule aforementioned in relation to Belgian withholding tax, payments of interest and principal under the Notes by or on behalf of the Issuer may be made without deduction of withholding tax in respect of the Notes if and as long as at the moment of payment or attribution of interest they are held by certain eligible investors (the “**Eligible Investors**”, see below) in an exempt securities account (an “**X Account**”) that has been opened with a financial institution that is a direct or indirect participant (a “**Participant**”) in the X/N Clearing System operated by the NBB. Euroclear and Clearstream are directly or indirectly Participants for this purpose. Holding the Notes through the X/N Clearing System enables Eligible Investors to receive the gross interest income on their Notes and to transfer the Notes on a gross basis.

Participants to the X/N Clearing System must enter the Notes which they hold on behalf of Eligible Investors in an X Account.

Eligible Investors are those entities referred to in article 4 of the Belgian Royal Decree of 26 May 1994 on the deduction of withholding tax (*koninklijk besluit van 26 mei 1994 over de inhouding en de vergoeding van de roerende voorheffing/arrêté royal du 26 mai 1994 relatif à la perception et à la bonification du précompte mobilier*) which include:

- (a) Belgian resident companies referred to in article 2, §1, 5°, b) of the BITC;
- (b) without prejudice to the application of article 262, 1° and 5° of the BITC, the institutions, associations or companies referred to in article 2, § 3, of the law of 9 July 1975 on the supervision of insurance companies, other than those referred to in 1° and 3°;
- (c) the semi-public (“parastate”) social security agencies, or agencies equivalent thereto, referred to in article 105, 2°, of the royal decree implementing the BITC (“**RD/BITC**”);

- (d) the non-resident investors referred to in article 105, 5° of the RD/BITC;
- (e) the investment funds recognised in the framework of pension savings referred to in article 115 of the RD/BITC;
- (f) the taxpayers referred to in article 227, 2°, of the BITC who are subject to the tax on nonresidents in accordance with article 233 of the same Code and who have used the income producing capital for the exercise of their professional activity in Belgium;
- (g) the Belgian State, for its investments which are exempt from the withholding tax on income from movable assets, in accordance with article 265 of the BITC;
- (h) collective investment undertakings governed by foreign law which have joint assets managed by a management company on behalf of the participants, when their right of participation are not publicly issued in Belgium and are not marketed in Belgium; and
- (i) resident companies not referred to under (a) whose sole or main activity consists in the granting of credits and loans.

Eligible Investors do not include, inter alia, Belgian resident investors who are individuals or non-profit making organizations, other than those mentioned under (b) and (c) above.

Transfers of Notes between two X Accounts (between two due dates) do not give rise to Belgian withholding tax on accrued incomes.

Upon opening of an X Account for the holding of Notes, the Eligible Investor is required to provide the Participant with a statement of its eligible status on a form approved by the Minister of Finance. There is no ongoing declaration requirement to the X/N Clearing System as to the eligible status, save that they need to inform the Participant of any change in the information contained in the statement of their eligible status. However, Participants are requested to make declarations to the NBB as to the eligible status of each investor from whom they held notes in an X Account during the preceding calendar year.

An X Account may be opened with a Participant by an intermediary (an “**Intermediary**”) in respect of Notes that the Intermediary holds for the account of its clients (the “**Beneficial Owners**”), provided, however, that each Beneficial Owner is an Eligible Investor. In such case, the Intermediary must deliver to the Participant a statement on a form approved by the Minister of Finance confirming that (i) the Intermediary is itself an Eligible Investor, and (ii) the Beneficial Owners holding their Notes through it are also Eligible Investors.

These identification requirements do not apply to Notes held in Euroclear or Clearstream as Participants to the X/N Clearing System, provided, however, that Euroclear or Clearstream only hold X Accounts and that they are able to identify the holders for whom they hold Notes in such account. Moreover, for the identification requirements not to apply, the contracts concluded by Euroclear or Clearstream Luxembourg should contain the commitment that all of their clients-accountholders qualify as Eligible Investors.

Belgian tax on Income and Capital gains

This section summarizes the Belgian tax on income and capital gains in the hands of Eligible Investors. This section therefore does not address the tax treatment in the hands of investors that do not qualify as Eligible Investors such as Belgian resident individuals and Belgian legal entities that do not qualify as Eligible Investors. This section does not purport to be a comprehensive description of all Belgian income and capital gains tax consequences that may be relevant to a decision to acquire, to hold or to dispose of the Notes. This summary does not describe the tax consequences of investors that are subject to special rules.

Belgian resident companies

Interest attributed or paid to corporate Noteholders who are Belgian residents for tax purposes, *i.e.*, who are subject to the Belgian Corporate Income Tax (*vennootschapsbelasting/impôt des sociétés*), as well as capital gains realized upon the sale of the Notes are taxable at the general corporate income tax rate of in principle 33.99 per cent. The Belgian government recently announced its intention to gradually reduce the standard corporate income tax rate from 33 per cent to 29 per cent in 2018 and 25 per cent in 2020. The 3 per cent surcharge applicable to

this corporate income tax rate (which currently results in an aggregate tax rate of 33.99 per cent) would be decreased to 2 per cent in 2018 and abolished in 2020. Capital losses realized upon the sale of the Notes are in principle tax deductible.

Different rules apply to companies subject to a special tax regime, such as investment companies within the meaning of article 185bis of the BITC.

Belgian resident legal entities

Belgian legal entities subject to Belgian legal entities tax (*rechtspersonenbelasting/impôts des personnes morales*) which qualify as Eligible Investors and which, consequently, have received gross interest income are required to declare and pay the 30 per cent withholding tax to the Belgian tax authorities.

Capital gains realized on the sale of the Notes are in principle tax exempt, unless and to the extent the capital gains (partially) qualify as interest (as defined in the section “Interest” above). Capital losses are in principle not tax deductible.

Belgian non-residents

Noteholders who are not residents of Belgium for Belgian tax purposes and who are not holding the Notes through their permanent establishment in Belgium, will not become liable for any Belgian tax on income or capital gains or any similar taxes for the sole reason of the acquisition, ownership or disposal of the Notes provided that they qualify as Eligible Investors and that they hold their Notes in an X Account.

Impact of the consummation of the Belgian Issuer Accession

The consummation of the Belgian Issuer Accession is tantamount to a novation (article 1271 of the Belgian Civil Code). The interest accrued up to the date of the Belgian Issuer Accession is deemed to be attributed and realized upon the Belgian Issuer Accession and exempt from Belgian withholding tax as set out in the above sections “Interest” and “X/N Clearing System of the NBB”.

Tax on stock exchange transactions

A stock exchange tax (*taks op de beursverrichtingen/taxe sur les opérations de bourse*) will normally be levied on the purchase and sale and other acquisition or transfer for consideration of the Notes on the secondary market (i.e. not at issuance) if (i) it is executed in Belgium through a professional intermediary, or (ii) deemed to be executed in Belgium, which is the case if the order is directly or indirectly made to a professional intermediary established outside of Belgium, either by private individuals with habitual residence in Belgium, or legal entities for the account of their seat or establishment in Belgium (both, a “**Belgian Investor**”).

The tax on stock exchange transactions is levied at a rate of 0.09 per cent (expected to be increased to 0.12 per cent as from 1 January 2018) with a maximum amount of €1300 per transaction and per party.

The tax is due separately by each party to any such transaction, i.e. the seller (transferor) and the purchaser (transferee), both collected by the professional intermediary. However, if the intermediary is established outside of Belgium, the tax will in principle be due by the Belgian Investor, unless that Belgian Investor can demonstrate that the tax has already been paid. Professional intermediaries established outside of Belgium can, subject to certain conditions and formalities, appoint a Belgian representative, who will be liable for the tax on stock exchange transactions in respect of the transactions executed through the professional intermediary. If the representative would have paid the tax on stock exchange transactions due, the Belgian Investor will, as per the above, no longer be the debtor of the tax on stock exchange transactions.

An exemption from this tax is available under Article 126/1, 2° of the Code on Miscellaneous Duties and Taxes as regards the following entities when they act for their own account: (i) parties to securities trades who are intermediaries within the meaning of Article 2, 9° and 10° of the Law of August 2, 2002 on the supervision of the financial sector and financial services; (ii) insurance undertakings within the meaning of Article 2, § 1 of the Law of July 9, 1975 on supervision of insurance companies; (iii) institutions for occupational retirement provisions within the meaning of Article 2, 1° of the Law of October 27, 2006 regarding the control of institutions for occupational retirement provisions (*instellingen voor bedrijfspensioenvoorziening/institutions de retraite*

professionnelle); (iv) collective investment schemes; (v) Belgian regulated real estate companies; and (vi) non-residents certifying their non-resident status.

As stated above, the European Commission has published a proposal for a Directive for a common FTT. The proposal currently stipulates that once the FTT enters into force, the participating Member States shall not maintain or introduce taxes on financial transactions other than the FTT (or VAT as provided in the Council Directive 2006/112/EC of November 28, 2006 on the common system of value added tax). For Belgium, the tax on stock exchange transactions should thus be abolished once the FTT enters into force. The proposal is still subject to negotiation between the participating Member States and therefore may be changed at any time.

Luxembourg

Luxembourg Taxation

The following discussion sets out certain important Luxembourg taxation principles that may be relevant to you if you invest in, own, hold or dispose of the Notes. Unless otherwise indicated, all information contained in this section is based on laws, regulations, practice and decision in effect in Luxembourg at the date of the Offering Memorandum (as referred to herein, collectively, “**Luxembourg Tax Laws**”), and as such, may be superseded after such date. Any subsequent changes to Luxembourg Tax Laws could apply retroactively and could affect the continued accuracy of this information. This information does not purport to be a comprehensive description of all Luxembourg Tax Laws and Luxembourg tax considerations that may be relevant to a decision to invest in, own, hold, or dispose of the Notes and is not intended as tax advice to any particular Noteholder. You should consult your own tax advisors about the tax consequences of investing in, owning, holding or disposing of the Notes (including with respect to receiving interest on and redeeming the Notes). This information does not describe any tax consequences arising under the laws of any state, locality or other taxing jurisdiction other than Luxembourg.

The residence concept used below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy impost or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Any reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*) as well as personal income tax (*impôt sur le revenu*) generally. Corporate Noteholders may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax as well as the solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

Luxembourg tax residency of the Noteholders

A Noteholder will not become resident, or deemed to be resident, in Luxembourg by reason only of the holding of the Notes or the execution, performance, delivery and/or enforcement of the Notes.

Withholding Tax

All payments of interest (including accrued but unpaid interest) or principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Notes which are not profit sharing can be made free of withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein in accordance with applicable law, subject to the exception of the application as regards Luxembourg resident individuals (in the context of their private wealth) of the Luxembourg law of December 23, 2005 as amended (the “**Law**”) which has introduced a 20% withholding tax on certain savings income as indicated below.

In this section, the term “interest” will include accrued or capitalized interest at the sale, repayment or redemption of the Notes. The term “paying agent” is defined broadly for this purpose and in the context of the Notes means any economic operator established in Luxembourg who pays interest on the Notes to, or ascribes the payment of such interest to or for the immediate benefit of, the beneficial owner.

According to the Law, interest payments on the Notes paid by a Luxembourg paying agent will be subject to a withholding tax of 20% (the “**20% Luxembourg withholding tax**”) in Luxembourg if such payments are made to Luxembourg resident individuals. In the event that interest is paid to Luxembourg resident individuals for the immediate benefit of such individuals by a paying agent established in a Member State of the European Union (other than Luxembourg) or in a Member State of the European Economic Area, the beneficiary may opt for the application of a 20% flat taxation in accordance with the Law (the “**20% tax**”). This 20% tax is final as the interest income is not reportable on the individual’s annual tax return. If this option is not exercised, the beneficiary has to report the interest income on his/her annual tax return. The 20% Luxembourg withholding tax /the 20% tax will operate as a full discharge of income tax for Luxembourg resident individuals acting in the context of the management of their private wealth.

The 20% tax is only due if the annual amount of interest exceeds EUR 250 per individual and per paying agent.

Responsibility for the withholding of tax in application of the Law is assumed by the Luxembourg paying agent.

Taxes on Income and Capital Gains

Non-resident Noteholders

A non-resident Noteholder who has neither a permanent establishment, nor a permanent representative nor a fixed place of business in Luxembourg to which or whom the Notes are attributable, is not liable to any Luxembourg income tax on interest received or accrued on the Notes, or on capital gains realized on the disposal of the Notes.

A non-resident Noteholder who has a permanent establishment, a permanent representative or a fixed place of business in Luxembourg to which or whom the Notes are attributable, must include any interest accrued or received, as well as any gain realized on the disposal of the Notes, in its taxable income for Luxembourg tax assessment purposes.

Resident Noteholders

Resident individual Noteholders

A Luxembourg resident individual Noteholder acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax in respect of interest received, redemption premiums or issue discounts under the Notes except if (i) withholding tax has been levied on such payments in accordance with the Law, or (ii) the individual Noteholder has opted for the application of the 20% tax levy in full discharge of income tax in accordance with the Law which applies if a payment of interest has been made or ascribed by a paying agent established in a EU Member State (other than Luxembourg), or in a Member State of the European Economic Area (other than a EU Member Statement).

Under Luxembourg domestic tax law, gains realized upon the disposal of the Notes by a Luxembourg resident individual Noteholder, who acts in the course of the management of his/her private wealth, on the disposal of the Notes are not subject to Luxembourg income tax, provided the disposal takes place more than six months after the acquisition of the Notes.

Gains realized upon the disposal of the Notes by a Luxembourg resident individual Noteholder, who acts in the course of the management of his/her private wealth, are subject to Luxembourg income tax provided this sale or disposal took place prior to or within six months after the acquisition of the Notes.

A Luxembourg resident individual Noteholder, who acts in the course of the management of his/her private wealth has to include the portion of the gains realized on the Notes corresponding to accrued but unpaid income in respect of the Notes in his/her taxable income, insofar as the accrued but unpaid interest is identified separately.

Gains realized upon a disposal of the Notes by a Luxembourg resident individual Noteholder acting in the course of the management of a professional or business undertaking are subject to Luxembourg income taxes.

Resident corporate Noteholders

Luxembourg resident corporate Noteholders must include any interest received or accrued, as well as any gain realized on the disposal of the Notes, in their taxable income for Luxembourg income tax assessment purposes.

Residents benefiting from a special tax regime

Luxembourg resident corporate Noteholders benefiting from a special tax regime, such as notably (i) undertakings for collective investment governed by the amended law of 17 December 2010, (ii) specialized investment funds governed by the amended law of 13 February 2007 on special investment funds, (iii) family wealth management companies governed by the amended law of 11 May 2007, (iv) reserved alternative investment funds governed by the law of 23 July 2016 (provided it is not foreseen in the incorporation documents that (a) the exclusive object is the investment in risk capital and that (b) article 48 of the aforementioned law of 23 July 2016 applies) or (v) securitisation fund governed by the law of 22 March 2004 are exempt from income tax in Luxembourg and therefore are neither subject to Luxembourg income tax in respect of interest accrued or received, any redemption premium, nor on gains realized on the sale or disposal, in any form whatsoever, of the Notes.

Other vehicles such as Investment Company in Risk Capital (“**SICAR**”) and securitisation vehicle with corporate form are subject to Luxembourg corporate income tax and Luxembourg municipal business tax. However, the returns derived from securities and from funds held pending investments (provided such funds are invested in venture capital and/or private equity projects within a 12 months period) within SICAR are tax exempt and commitments towards investors (e.g. dividend or interest) are tax deductible within securitisation vehicle with a corporate form.

Net Wealth Tax

Luxembourg net wealth tax (without prejudice to the annual minimum net wealth tax) will not be levied on a corporate Noteholder unless:

- (i) such Noteholder is, or is deemed to be, resident in Luxembourg for the purpose of the relevant provisions and is not a Noteholder governed by (a) the law of December 17, 2010 on undertakings for collective investment (as amended), or (b) the law of February 13, 2007 on specialized investment funds (as amended), or (c) the law of March 22, 2004 on securitization (as amended), or (d) the law of June 15, 2004 on the investment company in risk capital (as amended), or (e) or the law of July 23, 2016 on reserved alternative investment funds, or (f) the law of May 11, 2007 on family estate management companies (as amended) or (g) the law of July 13, 2005 on Luxembourg pension structures (as amended); or
- (ii) such Noteholder’s Notes are attributable to an enterprise or part thereof which is carried on through a permanent establishment, a permanent representative or a fixed base of business in Luxembourg.

Individuals are not subject to Luxembourg net wealth tax.

Inheritance and Gift Tax

Where the Notes are transferred for no consideration:

- (i) No Luxembourg inheritance tax is levied on the transfer of the Notes upon death of a Noteholder in cases where the deceased Noteholder was not a resident of Luxembourg for inheritance tax purposes;
- (ii) Luxembourg gift tax will be levied in the event that the gift is made pursuant to a notarial deed signed before a Luxembourg notary or is registered in Luxembourg.

Value added tax (VAT)

No Luxembourg value added tax is levied with respect to (i) any cash payment made in consideration of the issuance of the Notes, (ii) any payment of interest on the Notes, (iii) any repayment of principal or upon redemption of the Notes, and (iv) any transfer of the Notes.

Other Taxes and Duties

It is not compulsory that the Notes be filed, recorded or enrolled with any court or other authority in Luxembourg or that registration tax, transfer tax, capital tax, stamp duty or any other similar tax or duty (other than court fees and contributions for the registration with the Chamber of Commerce) be paid in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgment in the courts of

Luxembourg) of the Notes in accordance therewith. A fixed registration duty in Luxembourg may however apply (i) upon voluntary registration (*présentation à l'enregistrement*) of the Notes before the Registration and Estates Department (*Administration de l'enregistrement et des domaines*) in Luxembourg, or (ii) if the Notes are (a) enclosed to a compulsory registrable deed under Luxembourg law (*acte obligatoirement enregistrable*) or (b) deposited with the official records of a notary (*déposé au rang des minutes d'un notaire*).

Foreign Account Tax Compliance Act (FATCA)

The Foreign Account Tax Compliance Act (“**FATCA**”) was enacted into the United States of America (US) law in March 2010 as part of the Hiring Incentives to Restore Employment Act. FATCA aims at reducing tax evasion by US citizens and requires foreign financial institutions outside the US (“**FFIs**”) to spontaneously provide information about financial accounts held, directly or indirectly, by specified US persons to the US Internal Revenue Service on an annual basis. A 30% withholding tax is imposed on certain US sources of income of any FFI that fails to comply with this requirement (“**FATCA Withholding**”).

Luxembourg has entered into a so-called Model 1 Intergovernmental Agreement (“**IGA**”) with the US, and a memorandum of understanding in respect thereof, on March 28, 2014.

The IGA was implemented in Luxembourg domestic law by the law of July 24, 2015 (the “**Luxembourg FATCA Law**”). Luxembourg FFIs which comply with the requirements of the IGA, will not be subject to FATCA Withholding.

Under the Luxembourg IGA, Luxembourg FFIs are required to perform certain necessary due diligence and monitoring of account holders (including debt and equity investors into a FFI that is an Investment Entity), and to report to the Luxembourg tax authorities on an annual basis information about financial accounts held by (a) specified US investors, (b) certain Passive Non-Financial Foreign Entities (“**NFFEs**”) with U.S. Controlling Person(s) and (c) non-US financial institution investors that do not comply with FATCA. Under the Luxembourg IGA, such information will subsequently be remitted by the Luxembourg tax authorities to the US Internal Revenue Service.

It is the intention of the Issuer to procure that it is treated as complying with the requirements that FATCA and the Luxembourg FATCA Law imposed upon it. However, no assurance can be provided that the Issuer will be able to comply with such requirements and, in the event that it is not able to do so, the Issuer could be exposed to fines which may reduce the amounts available to it to make payments to its investors.

Indeed, major non-compliance with the Luxembourg FATCA law may trigger the relevant local penalties of EUR 250,000 and/or 0.5% of the amounts that should have been reported, with a minimum of EUR 1,500.

Debt and equity Investors will be required to provide information to the Issuer to comply with its reporting obligations under the Luxembourg FATCA Law. To ensure the Issuer's compliance with the Luxembourg FATCA Law in accordance with the foregoing, the Issuer may:

- (i) request information or documentation, including self-certification forms, a global intermediary identification number, if applicable, or any other valid evidence of an investor's FATCA registration with the US Internal Revenue Service or a corresponding exemption, in order to ascertain such investor's FATCA status;
- (ii) report information concerning an investor and his account holding in the Issuer to the Luxembourg tax authorities if such account is deemed a US reportable account under the Luxembourg FATCA Law; and
- (iii) report information to the Luxembourg tax authorities concerning payments to account holders with the FATCA status of non-participating foreign financial institution.

Responding to such FATCA-related requests is mandatory and failure to do so may result in incorrect reporting by the Issuer. The investors have a right of access to and rectification of the data communicated to the Luxembourg tax authorities (*Administration des contributions directes*) in accordance with the data protection Law and FATCA Law.

Each Noteholder should consult its own tax advisors regarding the possible implications of these rules on their investments in the Issuer.

Common Reporting Standard

The OECD has developed the Common Reporting Standard (“**CRS**”) which aims at implementing automatic exchange of financial account information among participating countries.

On December 9, 2014, Council Directive 2014/107/EU amending Directive 2011/16/EU (“**DAC 2**”) was adopted in order to implement the CRS among the European Union Member States. The DAC 2 was implemented into Luxembourg law by the law of December 18, 2015 (“**CRS Law**”). The CRS Law requires Luxembourg financial institutions to identify financial account holders (including certain entities and their Controlling Persons) and to determine whether they are tax resident in a European Union Member State and/or a country with which Luxembourg has an exchange of information agreement. Luxembourg financial institutions will need to report financial account information of such account holders to the Luxembourg tax authorities which will remit such information to the competent foreign tax authorities of the other country.

The Issuer will procure that it is treated as complying with the requirements that the CRS Law places upon it. However, no assurance can be provided that the Issuer will be able to comply with the CRS Law and, in the event that it is not able to do so, it could be exposed to fines which may reduce the amounts available to it to make payments to investors.

Indeed, major non-compliance with the CRS Luxembourg Law may trigger the relevant local penalties of EUR 250,000 and/or 0.5% of the amounts that should have been reported, with a minimum of EUR 1,500.

Debt and equity Investors will be required to provide certain information to the Issuer to comply with the reporting obligations under the CRS Law. To ensure compliance with the CRS Law in accordance with the foregoing, it may:

- (i) request information or documentation, including self-certification forms, a tax identification number (if applicable), or any other relevant information in order to ascertain such investor’s status, as well as the investor’s Controlling Person(s) for investor(s) that qualify as Passive Non-Financial Entities (“**NFE(S)**”); and
- (ii) report information concerning an investor, its Controlling Person(s) as the case may be, and its account holding in the Issuer to the Luxembourg tax authorities if such Investor and/or its Controlling Person(s) is a reportable accountholder under the CRS Law.

Responding to such CRS-related requests is mandatory and failure to do so may result in incorrect reporting by the Issuer. The Investors have a right of access to and rectification of the data communicated to the Luxembourg tax authorities (*Administration des contributions directes*) in accordance with the data protection Law and CRS Law.

Each Noteholder should consult its own tax advisers regarding the possible implications of these rules on their investments in the Issuer.

United States

Certain U.S. Federal Income Tax Considerations

The following is a description of certain U.S. federal income tax considerations relevant to the acquisition, ownership, and disposition of the Notes by a U.S. Holder (as defined below), except for the discussion under “U.S. Backup Withholding Tax and Information Reporting” and “FATCA” below. This description only applies to Notes held as capital assets (generally, property held for investment) and does not address, except as set forth below, aspects of U.S. federal income taxation that may be applicable to holders that are subject to special tax rules, such as:

- banks or other financial institutions;
- insurance companies;
- real estate investment trusts;

- individual retirement accounts or other tax deferred accounts;
- regulated investment companies;
- grantor trusts;
- tax-exempt organizations;
- persons that will own the Notes through partnerships or other pass-through entities;
- dealers or traders in securities or currencies;
- U.S. Holders that have a functional currency other than the U.S. dollar;
- certain former citizens and long-term residents of the United States;
- U.S. Holders that use a mark-to-market method of accounting; or
- U.S. Holders that will hold a Note as part of a position in a straddle or as part of a hedging, conversion or integrated transaction for U.S. federal income tax purposes.

Moreover, this description does not address the U.S. federal estate and gift tax or alternative minimum tax consequences of the acquisition, ownership, and disposition of the Notes and does not address the 3.8% Medicare tax on net investment income that can also apply to certain U.S. Holders' capital gains and interest in respect of the Notes. This description also does not address the U.S. federal income tax treatment of holders that do not acquire the Notes as part of the initial distribution at their initial issue price (generally, the first price to the public at which a substantial amount of the Notes is sold for money). Each prospective purchaser should consult its own tax advisor with respect to the U.S. federal, state, local and non-U.S. tax consequences of acquiring, holding and disposing of the Notes.

This description is based on the U.S. Internal Revenue Code of 1986 (as amended) ("**Code**") U.S. Treasury Regulations promulgated thereunder ("**Treasury Regulations**"), administrative pronouncements and judicial decisions, each as available and in effect on the date hereof. All of the foregoing are subject to change or differing interpretations (possibly with retroactive effect), which could affect the tax considerations described herein. No opinion of counsel or ruling from the Internal Revenue Service ("**IRS**") has been or will be given with respect to any of the considerations discussed herein. No assurances can be given that the IRS would not assert, or that a court would not sustain, a position different from any of the tax considerations discussed below.

For purposes of this description, a U.S. Holder is a beneficial owner of the Notes who, for U.S. federal income tax purposes is:

- a citizen or individual resident of the United States;
- a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or any State thereof, including the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust (1) that validly elects to be treated as a U.S. person for U.S. federal income tax purposes or (2)(a) the administration over which a U.S. court can exercise primary supervision and (b) all of the substantial decisions of which one or more U.S. persons have the authority to control.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds the Notes, the tax treatment of the partnership and a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Such partner or partnership should consult its own tax advisor as to its consequences.

The discussion below assumes that the Notes are treated as indebtedness for U.S. federal income tax purposes, except as otherwise described.

Persons considering the purchase, ownership or disposition of Notes should consult their own tax advisors concerning the U.S. federal income tax considerations related to their particular situations as well as any considerations arising under the laws of any other taxing jurisdiction.

Treatment of the Notes as Debt

The Issuer expects the Notes to be treated as debt and not as equity for U.S. federal income tax purposes; however no assurances can be given that the Issuer's position will not be successfully challenged by the IRS. If the Notes are treated as equity in the Issuer for U.S. federal income tax purposes, U.S. Holders would likely be subject to adverse tax consequences, including those under the passive foreign investment company ("PFIC") rules (pursuant to which (i) all or a portion of any gain on disposition of the Notes would be treated as ordinary income rather than capital gain, (ii) a deferred interest charge may apply to such gain and on certain distributions, which would include certain payments of stated interest, on the Notes and (iii) a U.S. Holder would be required to comply with certain reporting requirements.

U.S. Holders are urged to consult their own tax advisors regarding the application of these rules to their particular situations. The discussion below assumes that the Notes are treated as indebtedness for U.S. federal income tax purposes, except as otherwise described.

Redemptions and Additional Payments

In certain circumstances, the Issuer may be obligated to make payments in excess of stated interest or principal of the Notes or redeem the Notes above par in advance of their expected maturity. The Issuer believes, and intends to take the position if required, that the Notes should not be treated as contingent payment debt instruments because of the possibility of such payments or redemptions. This position is based in part on assumptions regarding the likelihood, as of the date of issuance of the Notes, of such payments or redemptions. Assuming such position is respected, any amounts paid to a U.S. Holder pursuant to such redemption would be taxable as described below in "*—Sale, Exchange, Retirement or Taxable Disposition*" and any such payments should be taxable as additional ordinary income when received or accrued, in accordance with such holder's method of accounting for U.S. federal income tax purposes. The Issuer's position is binding on a U.S. Holder unless such holder discloses its contrary position in the manner required by applicable Treasury Regulations. The IRS, however, may take a position contrary to the position described above, which could affect the amount, timing and character of a U.S. Holder's income with respect to the Notes. A U.S. Holder that desires to take the position that the Notes are subject to the contingent payment debt instrument rules should consult with its tax advisor, including regarding the manner in which to disclose such position as required by applicable Treasury Regulations; the IRS may disagree with such holder's contrary position. U.S. Holders should consult their tax advisors regarding the potential application to the Notes of the contingent payment debt instrument rules and the consequences thereof. This discussion assumes that the Notes are not treated as contingent payment debt instruments.

Payments and Accruals of Stated Interest

Stated interest paid on the Notes generally will be treated as "qualified stated interest." Payments of qualified stated interest on the Notes (including any additional amounts paid in respect of withholding taxes and without reduction for any amounts withheld) generally will be taxable to a U.S. Holder as ordinary interest income at the time it is received or accrued, depending on the U.S. Holder's method of accounting for U.S. federal income tax purposes, as detailed below. The term "qualified stated interest" generally means stated interest that is unconditionally payable in cash or property (other than debt instruments of the Issuer), or that is treated as constructively received, at least annually at a single fixed rate.

Stated interest on the Euro Notes will be included in a U.S. Holder's gross income in an amount equal to the U.S. dollar value of the euros, including the amount of any withholding tax thereon, regardless of whether the euros are converted into U.S. dollars. Generally, a U.S. Holder that uses the cash method of tax accounting will determine such U.S. dollar value using the spot rate of exchange on the date of receipt. A cash method U.S. Holder generally will not realize foreign currency gain or loss on the receipt of the interest payment but may have foreign currency gain or loss attributable to the actual disposition of the euros received. Generally, a U.S. Holder that uses the accrual method of tax accounting will determine the U.S. dollar value of accrued interest income using the average rate of exchange for the accrual period (or, with respect to an accrual period that spans two taxable years,

at the average rate for the partial period within each taxable year). Alternatively, an accrual basis U.S. Holder may make an election (which must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS) to translate accrued interest income at the spot rate of exchange on the last day of the accrual period (or the last day of the portion of the accrual period within each taxable year in the case of a partial accrual period) or the spot rate on the date of receipt, if that date is within five business days of the last day of the accrual period. A U.S. Holder that uses the accrual method of accounting for tax purposes will recognize foreign currency gain or loss on the receipt of an interest payment if the exchange rate in effect on the date the payment is received differs from the rate used in translating the accrual of that interest. The amount of foreign currency gain or loss to be recognized by such U.S. Holder will be an amount equal to the difference between the U.S. dollar value of the euro interest payment (determined on the basis of the spot rate on the date the interest income is received) in respect of the accrual period and the U.S. dollar value of the interest income that has accrued during the accrual period (as determined above) regardless of whether the payment is converted to U.S. dollars. This foreign currency gain or loss will be ordinary income or loss and generally will not be treated as an adjustment to interest income or expense. Foreign currency gain or loss generally will be U.S. source provided that the residence of a taxpayer is considered to be the United States for purposes of the rules regarding foreign currency gain or loss.

Interest (including original issue discount (“OID”), if any, as described below) included in a U.S. Holder’s gross income with respect to the Notes, will be treated as foreign source income for U.S. federal income tax purposes. The limitation on non-U.S. taxes eligible for the U.S. foreign tax credit is calculated separately with respect to specific “baskets” of income. For this purpose, interest generally should constitute “passive category income”, or in the case of certain U.S. Holders, “general category income”. Any non-U.S. withholding tax paid by a U.S. Holder at the rate applicable to the U.S. Holder may be eligible for foreign tax credits (or deduction in lieu of such credits) for U.S. federal income tax purposes, subject to applicable limitations. U.S. Holders should consult their own tax advisors regarding the availability of foreign tax credits.

Original Issue Discount

A Note may be treated as issued with OID for U.S. federal income tax purposes. An obligation generally is treated as having been issued with OID for U.S. federal income tax purposes if its “stated redemption price at maturity” exceeds its issue price by at least the “OID de minimis amount”. The OID de minimis amount equals 1/4 of 1% of the debt instrument’s stated redemption price at maturity multiplied by the number of complete years from its issue date to its maturity. The “stated redemption price at maturity” of a Note is the sum of all payments required to be made on the Note other than qualified stated interest payments.

If either the Dollar Notes or the Euro Notes are issued with OID, a U.S. Holder of such Notes generally will be required to include OID in income before the receipt of the associated cash payment, regardless of such U.S. Holder’s accounting method for tax purposes. The amount of OID a U.S. Holder should include in income is the sum of the “daily portions” of the OID for the Note for each day during the taxable year (or portion of the taxable year) in which the Note is held by such U.S. Holder. The daily portion is determined by allocating a pro rata portion of the OID for each day of the accrual period. An accrual period may be of any length and the accrual periods may vary in length over the term of the Note, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs either on the first day of an accrual period or on the final day of an accrual period. The amount of OID allocable to an accrual period is equal to the difference between (1) the product of the “adjusted issue price” of the Note at the beginning of the accrual period and its yield to maturity (computed generally on a constant yield method and compounded at the end of each accrual period, taking into account the length of the particular accrual period) and (2) the amount of any qualified stated interest allocable to the accrual period. The “adjusted issue price” of a Note at the beginning of any accrual period generally is the sum of the issue price of the Note plus the amount of OID allocable to all prior accrual periods reduced by any payments received on the Note that were not qualified stated interest.

Under these rules, a U.S. Holder generally will have to include in income increasingly greater amounts of OID in successive accrual periods. OID allocable to a final accrual period is the difference between the amount payable at maturity (other than a payment of qualified stated interest) and the adjusted issue price at the beginning of the final accrual period. Under the Treasury Regulations, a holder of a Note with OID may elect to include in gross income all interest that accrues on the Note using the constant yield method. Once made with respect to the Note, the election cannot be revoked without the consent of the IRS. A U.S. Holder considering an election under these rules should consult its own tax advisor.

U.S. Holders may obtain information regarding the amount of OID, if any, the issue price, the issue date and yield to maturity by contacting Robert Goyens, Telenet, Investor Relations, Lierssesteenweg 4, 2800 Mechelen, Belgium.

Any OID on a Euro Note generally will be determined for any accrual period in euros and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. Holder. Upon receipt of an amount attributable to OID (whether in connection with a sale or disposition of such a Note or otherwise), a U.S. Holder generally will recognize foreign currency gain or loss in an amount determined in the same manner as stated interest received by an accrual basis U.S. Holder, as described above. U.S. Holders are urged to consult their own tax advisors regarding the interplay between the application of the OID and foreign currency exchange gain or loss rules. For these purposes, all receipts on a Euro Note will be viewed first as payments of stated interest payable on the Note; second, as receipts of previously accrued OID (to the extent thereof), with payments considered made for the earlier accrual periods first; and, third, as receipts of principal.

The rules regarding OID are complex. U.S. Holders are urged to consult their own tax advisors regarding the application of these rules to their particular situations.

Possible Effect of the Belgian Issuer Accession

If the Belgian Issuer Accession occurs, the Issuer of the Notes will change. Though there are strong arguments that this change will not give rise to a significant modification of the Notes for U.S. federal income tax purposes, the IRS may disagree with those arguments. If the change in the Issuer is treated as a significant modification, U.S. Holders may recognize gain or loss as described under “Sale, Exchange or Taxable Disposition by a U.S. Holder.” The amount deemed to be realized in such a taxable exchange would be the issue price of the “new” Euro Notes or Dollar Notes, as the case may be, which would be the fair market value of the Euro Notes or the Dollar Notes, as the case may be, as of the date of the deemed exchange if, as seems likely, both the Euro Notes and the Dollar Notes are treated as publicly traded for U.S. federal income tax purposes. In addition, a U.S. Holder could be treated as acquiring the “new” Notes with OID. This would occur if the issue price of the “new” Notes as of the date of the deemed exchange (based on the fair market value of the “new” Euro Notes or Dollar Notes if the “new” Notes are treated as publicly traded for U.S. federal income tax purposes) were less than the “stated redemption price at maturity” of the “new” Notes by at least the OID de minimis amount (as described above). If the “new” Euro Notes or Dollar Notes are issued with OID, a U.S. Holder of the relevant Notes may be required to include such excess in income as OID, as it accrues, in accordance with a constant yield method based on a compounding of interest before the receipt of cash payments attributable to this income for U.S. federal income tax purposes. Except as noted above in this paragraph, the U.S. federal income tax considerations related to owning a “new” Note should generally be the same as the U.S. federal income tax considerations related to owning a Note.

The Issuer may be required to report certain information regarding such transaction that may be relevant to U.S. Holders either (1) by filing Form 8937 with the IRS and providing copies to certain of its Holders or (2) by posting the form on its website.

Sale, Exchange, Retirement or Other Taxable Disposition

A U.S. Holder generally will recognize gain or loss on the sale, exchange, retirement or other taxable disposition of a Note equal to the difference, if any, between the amount realized on such sale, exchange, retirement or other taxable disposition (other than any amount received in respect of accrued and unpaid interest which will be subject to tax in the manner described above in “—Payments and Accruals of Stated Interest” to the extent not previously included in income) and the U.S. Holder’s adjusted tax basis in such Note.

A U.S. Holder’s adjusted tax basis in a Note generally will be its U.S. dollar cost increased by the amount of any OID previously included in income and decreased by payments other than stated interest made with respect to the Note. If a U.S. Holder purchases a Euro Note with euros, the U.S. dollar cost of the Note generally will be the U.S. dollar value of the purchase price on the date of purchase calculated at the spot rate of exchange on that date. The amount realized upon the disposition of such a Note generally will be the

U.S. dollar value of the amount received on the date of the disposition calculated at the spot rate of exchange on that date. However, if the Note is traded on an established securities market, a cash basis U.S. Holder (and, if it so elects, an accrual basis U.S. Holder) should determine the U.S. dollar value of the cost of or amount received on the Note, as applicable, by translating the amount paid or received at the spot rate of exchange on the settlement date of the purchase or disposition, as applicable. The election available to accrual basis U.S. Holders in respect

of the purchase and disposition of the Euro Notes traded on an established securities market must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS.

Subject to the foreign currency rules discussed below with respect to the Euro Notes, any gain or loss recognized on the sale, exchange, retirement or other taxable disposition of a Note will be capital gain or loss, and will be long-term capital gain or loss if the Note has been held for more than one year. Long-term capital gain of a non-corporate U.S. Holder generally is taxed at preferential rates. The ability of a U.S. Holder to offset capital losses against ordinary income is limited. Any gain or loss recognized on the sale, exchange, retirement or other taxable disposition of a Note generally will be treated as gain from sources within the United States or loss allocable to income from sources within the United States, as applicable.

Any gain or loss recognized by a U.S. Holder on the sale, exchange, retirement or other taxable disposition of a Euro Note generally will be treated as ordinary income or loss to the extent that the gain or loss is attributable to changes in foreign currency exchange rates during the period in which the U.S. Holder held such Note. Such foreign currency gain or loss will equal the difference between (i) the U.S. dollar value of the U.S. Holder's euro purchase price for the Euro Note calculated at the spot rate of exchange on the date of the sale, exchange, retirement or other taxable disposition and (ii) the U.S. dollar value of the U.S. Holder's euro purchase price for the Euro Note calculated at the spot rate of exchange on the date of purchase of the Note. The realization of any foreign currency gain or loss, including foreign currency gain or loss with respect to amounts attributable to accrued and unpaid stated interest and any OID, will be limited to the amount of overall gain or loss realized on the disposition of the Notes.

Reportable Transaction Reporting

Under certain Treasury Regulations, U.S. Holders that participate in "reportable transactions" (as defined in the Treasury Regulations) must attach to their U.S. federal income tax returns a disclosure statement on IRS Form 8886. Under the relevant rules, a U.S. Holder may be required to treat a foreign currency exchange loss from the Euro Notes as a reportable transaction if this loss exceeds the relevant threshold in the Treasury Regulations. U.S. Holders should consult their own tax advisors as to the possible obligation to file IRS Form 8886 with respect to the ownership or disposition of the Euro Notes, or any related transaction, including without limitation, the disposition of any non-U.S. currency received as interest or as proceeds from the sale, exchange, retirement or other taxable disposition of the Notes.

U.S. Backup Withholding and Information Reporting

Backup withholding and information reporting requirements may apply to certain payments of principal of, and interest and accruals of OID, if any, on, an obligation and to proceeds of the sale, exchange, retirement or other taxable disposition of an obligation, to certain U.S. Holders. The payor will be required to withhold backup withholding tax on payments made within the United States, or by a U.S. payor or U.S. middleman or certain of their affiliates, on a Note to, or from gross proceeds of the sale or disposition of a Note paid to, a U.S. Holder, other than an exempt recipient, if the U.S. Holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with, or establish an exemption from, the backup withholding requirements. Payments within the United States, or by a U.S. payor or U.S. middleman (and certain subsidiaries thereof), of principal and interest (including OID, if any) and proceeds of a sale, exchange, retirement or disposition to a holder of a Note that is not a U.S. person generally are subject to information reporting, but will not be subject to backup withholding tax if an appropriate certification is timely provided by the holder to the payor and the payor does not have actual knowledge or a reason to know that the certificate is incorrect.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a holder's U.S. federal income tax liability. A holder may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for a refund with the IRS and furnishing any required information in a timely manner.

Certain U.S. Holders are required to report information relating to an interest in the Notes, subject to certain exceptions (including an exception for Notes held in custodial accounts maintained by certain financial institutions). U.S. Holders are urged to consult their own tax advisors regarding the effect, if any, of this requirement on their ownership and disposition of the Notes.

FATCA

Sections 1471-1474 of the Code and the U.S. Treasury and IRS guidance issued thereunder (“**FATCA**”) generally imposes withholding at a rate of 30% on payments made to any foreign entity on debt obligations generating U.S. source interest or certain other debt obligations generating non-U.S. source interest (to the extent such payments are “foreign passthrough payments”) issued by a foreign financial institution, unless that foreign entity complies with certain reporting rules under FATCA or otherwise qualifies for an exemption. Even if payments on the Notes are treated as or are paid from a foreign financial institution and any portion of such payments is treated as a “foreign passthru payment,” the Notes will be grandfathered because no final regulations defining a “foreign passthru payment” have been issued and therefore the Notes are not subject to the FATCA withholding rules. If, however, the Notes are modified at a time when the grandfathering rules are no longer available (*i.e.*, more than six months after the date final regulations defining a “foreign passthru payment” are published), withholding may apply and holders and beneficial owners of the Notes will not be entitled to receive any Additional Amounts to compensate them for any such withholding. In addition, if Additional Notes are issued after the expiration of the grandfathering period, have the same CUSIP or ISIN as the Notes issued hereby, and are subject to withholding under FATCA, then withholding agents may treat all notes, including the Notes issued hereby, as subject to withholding under FATCA. The intergovernmental agreement between Luxembourg and the United States (see above) modifies the requirements in this paragraph and an intergovernmental agreement between the United States and a foreign country where a holder or intermediary is located may further modify such requirements. Prospective holders should consult their tax advisors regarding the possible implications of this legislation on their investment in the Notes.

The above description is not intended to constitute a complete analysis of all tax consequences relating to the acquisition, ownership and disposition of the Notes. Prospective purchasers of the Notes should consult their own tax advisors concerning the tax consequences of their particular situations.

CERTAIN EMPLOYEE BENEFIT PLAN CONSIDERATIONS

General

The U.S. Employee Retirement Income Security Act of 1974 (“**ERISA**”) imposes certain requirements on “employee benefit plans” (as defined in Section 3(3) of ERISA) subject to Title I of ERISA and on entities that are deemed to hold the assets of such plans (collectively, “**ERISA Plans**”), and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA’s general fiduciary requirements, including, but not limited to, the requirement of investment prudence and diversification and the requirement that an ERISA Plan’s investments be made in accordance with the documents governing the plan.

Section 406 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of an ERISA Plan (as well as those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts (together with ERISA Plans, “**Plans**”) and certain persons (who are “parties in interest” within the meaning of Section 3(14) of ERISA, or “disqualified persons” within the meaning of Section 4975 of the Code) having certain relationships to such Plans, unless a statutory or administrative exemption is applicable to the transaction. A party in interest or disqualified person who engages in a prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and/or the Code.

Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of an ERISA Plan or the management or disposition of the assets of an ERISA Plan, or who renders investment advice for a fee or other compensation (direct or indirect) to an ERISA Plan, is generally considered to be a fiduciary of such ERISA Plan. Any plan fiduciary which proposes to cause a Plan to purchase the Notes should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code to such an investment, and to confirm that such purchase and holding will not constitute or result in a non-exempt prohibited transaction or any other violation of an applicable requirement of ERISA, the Code or any Similar Law (as defined below).

The U.S. Department of Labor (“**DOL**”) has promulgated a final regulation (the “**ERISA Investment Advice Regulation**”), which is applicable beginning on June 9, 2017. The ERISA Investment Advice Regulation re-defines the circumstances under which a person will be considered a fiduciary for purposes of ERISA and Section 4975 of the Code by virtue of providing investment advice to a benefit plan subject to ERISA or a plan subject to Section 4975 of the Code (a “**Covered Plan**”). Under the ERISA Investment Advice Regulation, a person who makes a “recommendation” regarding the acquisition, holding or disposition of and securities or investment property or the management of securities or investment property and receives direct or indirect fees or other compensation as a result of dealing with a Covered Plan, plan participant or beneficiary, plan fiduciary or IRA (as defined below) owner, is generally considered a fiduciary unless an exemption applies. One such exemption is for advice rendered to certain independent fiduciaries with financial expertise, including certain banks, insurance carriers, investment advisers, broker-dealers and independent fiduciaries (excluding IRA owners) that hold, or have under management or control, total assets of at least \$50 million. The Issuer and its affiliates (the “**Issuer Parties**”) do not intend to act as fiduciaries under the ERISA Investment Advice Regulation with respect to any Covered Plan’s decision to purchase the Notes and no information or communication from any Issuer Party (either alone or in conjunction with any other information or communication) should be construed as a recommendation within the meaning of the ERISA Investment Advice Regulation. Notwithstanding this intention, any and all information provided herein (or provided by any Issuer Party prior to or subsequent to the delivery of the Offering Memorandum, including following the closing of any investment in the Fund by a Covered Plan) to any Covered Plan or any Covered Plan fiduciary that is determined to constitute “investment advice,” or a “recommendation,” within the meaning of the ERISA Investment Advice Regulation is provided solely on the basis that the recipient is, or is represented by, an independent fiduciary that satisfies the criteria set forth in 29 C.F.R. § 2510.3-21(c)(1). The information provided herein is intended to be used solely by the recipient in considering the investment opportunity described herein and may not be used for any other reason, personal or otherwise. The scope and applicability of the ERISA Investment Advice Regulation and related exemptions may change further, and Covered Plan fiduciaries are advised to keep themselves informed.

Non-U.S. plans, (as described in Section 4(b)(4) of ERISA), “governmental plans” (as defined in Section 3(32) of ERISA) and certain “church plans” (as defined in Section 3(33) of ERISA), while not subject to the fiduciary responsibility provisions of Title I of ERISA or the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code, may nevertheless be subject to non-U.S., state, local or other federal laws or regulations that are substantially similar to the foregoing provisions of ERISA and the Code (collectively,

“Similar Law”). Fiduciaries of any such plans should consult with their counsel before purchasing the Notes to determine the need for, and the availability, if necessary, of any exemptive relief under any such law or regulations.

Plan Assets

Under ERISA and a regulation issued by the DOL at 29 C.F.R. Section 2510.3-101, as modified by Section 3(42) of ERISA (the **“Plan Asset Regulation”**), the assets of an entity that is neither a publicly-offered security nor a security issued by an investment company registered under the Investment Company Act will be deemed to constitute “plan assets” for the purposes of ERISA and the Code if a **“Benefit Plan Investor”** (within the meaning of Section 3(42) of ERISA) acquires an “equity interest” in the entity and none of the exceptions contained in the Plan Asset Regulation is applicable. An equity interest is defined under the Plan Asset Regulation as an interest other than an instrument which is treated as indebtedness under applicable local law and which has no substantial equity features. Under the exceptions in the Plan Asset Regulation, an entity will not be deemed to hold plan assets if (i) participation in the entity by Benefit Plan Investors is not “significant” (e.g., Benefit Plan Investors hold less than 25% of the total value of each class of equity interest in the entity), or (ii) the entity is an operating company, including a “venture capital operating company” or “real estate operating company”.

Fiduciaries of a Plan considering an investment in the Notes should consider, among other things, the classification of the Note as debt or equity for purposes of ERISA.

Prohibited Transaction Exemptions

The fiduciary of a Plan that proposes to purchase and hold any Notes should consider, among other things, whether such purchase and holding may involve (i) the direct or indirect extension of credit to a party in interest or a disqualified person, (ii) the sale or exchange of any property between a Plan and a party in interest or a disqualified person, or (iii) the transfer to, or use by or for the benefit of, a party in interest or disqualified person, of any Plan assets. Such parties in interest or disqualified persons could include, without limitation, the Issuer, the Initial Purchasers, the Trustee, the Transfer Agents or any of their respective affiliates. Depending on the satisfaction of certain conditions which may include the identity of the Plan fiduciary making the decision to acquire or hold the Notes on behalf of a Plan, Section 408(b)(17) of ERISA, Section 4975(d)(20) of the Code or Prohibited Transaction Class Exemption (**“PTCE”**) 84-14 (relating to transactions effected by an “independent qualified professional asset manager”), PTCE 90-1 (relating to investments by insurance company pooled separate accounts), PTCE 91-38 (relating to investments by bank collective investment funds), PTCE 95-60 (relating to investments by insurance company general accounts) or PTCE 96-23 (relating to transactions directed by an in-house asset manager) (collectively, the **“Class Exemptions”**) could provide an exemption from the prohibited transaction provisions of ERISA and Section 4975 of the Code. However, there can be no assurance that any of these Class Exemptions or any other exemption will be available with respect to any particular transaction involving the Notes, or that all of the conditions for any such exemption will be satisfied.

ERISA Representations

By acquiring the Notes, or any interest herein, each Purchaser (**“you”**) will be deemed to have further represented warranted and agreed, at the time of the acquisition and throughout the period you hold the Notes or any interest therein, as follows:

With respect to the acquisition, holding and disposition of the Notes, or any interest therein, (A) either (i) you are not, and are not acting on behalf of (and for so long as you hold such Notes or any interest therein will not be, and will not be acting on behalf of), (I) an employee benefit plan (as defined in Section 3(3) of ERISA), that is subject to the provisions of part 4 of subtitle B of Title I of ERISA, (II) an individual retirement account or other plan or arrangement to which Section 4975 of the Code, applies, or (III) any entity whose underlying assets include “plan assets” (within the meaning of 29 C.F.R. Section 2510-101 (as modified by Section 3(42) of ERISA)) by reason of any such plan’s investment in such entity (each of (I), (II) and (III), a **“Benefit Plan Investor”**), or (IV) a governmental, church or non-U.S. plan which is subject to any federal, state, local, non-U.S. or other laws or regulations that are substantially similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or the provisions of Section 4975 of the Code (**“Similar Laws”**), and no part of the assets to be used by you to acquire or hold such Notes or any interest therein constitutes the assets of any Benefit Plan Investor or any such governmental, church or non-U.S. plan, or (ii) (a) your acquisition, holding and disposition of the Notes or any interest therein are exempt from the prohibited transaction restrictions of Section 406 of ERISA and Section 4975 of the Code (or in the case of a plan that is subject to a Similar Law, exempt from the analogous provisions of such Similar Law), pursuant to one or more applicable statutory or administrative exemptions, and (b) if you

are or are acting on behalf of a Plan which is subject to ERISA or Section 4975 of the Code, the decision to purchase the Notes has been made by a duly authorized fiduciary (each, a “**Plan Fiduciary**”) who is independent of the Issuer and its affiliates, which Plan Fiduciary (1) is a fiduciary under ERISA or the Code, or both, with respect to the decision to purchase the Notes, (2) is not the individual retirement account (“**IRA**”) owner (in the case of a purchaser which is an IRA), (3) is capable of evaluating investment risks independently, both in general and with regard to the prospective investment in the Notes, (4) has exercised independent judgment in evaluating whether to invest the assets of such Plan in the Notes, and (5) is either a bank, an insurance carrier, a registered investment adviser, a registered broker-dealer or an independent fiduciary with at least \$50 million of assets under management or control; provided, however, that Plans will not be deemed to make the representations in this clause (A)(ii)(b) to the extent that the regulations under Section 3(21) of ERISA issued by the U.S. Department of Labor on April 8, 2016 are rescinded; and (B) neither the Issuer nor any of its affiliates is a “Fiduciary” (within the meaning of Section 3(21) of ERISA or Section 4975 of the Code or, with respect to a governmental, church or non-U.S. plan, any definition of “fiduciary” under Similar Laws) with respect to you, as the purchaser or holder, in connection with your purchase or holding of the Notes, or as a result of any exercise by the Issuer or any of its affiliates of any rights in connection with the Notes, and no advice provided by the Issuer or any of its affiliates has formed a primary basis for any investment decision by or on behalf of you as the purchaser or holder in connection with the Notes and the transactions contemplated with respect to the Notes.

The foregoing is general in nature and is not intended to be all inclusive. Each Plan fiduciary (and each fiduciary for non-U.S., governmental or church plans subject to Similar Law) should consult with its legal advisor concerning the potential consequences to the plan under ERISA, the Code or such Similar Laws of an investment in the Notes.

Nothing set forth herein constitutes a recommendation that any person take or refrain from taking any course of action within the meaning of U.S. Department of Labor Regulation §2510.3-21(b)(1).

PLAN OF DISTRIBUTION

The Issuer has agreed to sell to each Dollar Notes Initial Purchaser and Euro Notes Initial Purchaser, and each of the Dollar Notes Initial Purchasers and Euro Notes Initial Purchasers have agreed to purchase from the Issuer, the entire principal amount of the Dollar Notes and Euro Notes, respectively. The sale will be made pursuant to a purchase agreement dated as of the date of The Offering Memorandum (the “**Purchase Agreement**”).

The obligations of the Initial Purchasers under the Purchase Agreement, including their agreement to purchase Notes from the Issuer, are several and not joint. Pursuant to the terms of the Purchase Agreement, the Issuer has agreed to sell to each Initial Purchaser, and each Initial Purchaser has agreed, severally and not jointly, to purchase from the Issuer, together with all other Initial Purchasers, Notes in an aggregate principal amount of \$1,000.0 million (in respect of the Dollar Notes) and €600.0 million (in respect of the Euro Notes).

The Initial Purchasers initially propose to offer each series of Notes for resale at the issue price that appears on the cover of the Offering Memorandum. Depending on market conditions, certain of the Initial Purchasers may decide to initially purchase and hold a position of the relevant Notes for their own accounts. After the initial offering, the Initial Purchasers may change the offering price and any other selling terms. The Initial Purchasers may offer and sell Notes through certain of their affiliates.

In the Purchase Agreement, the Issuer agreed that:

- The Issuer will not offer or sell any of its debt securities, which are substantially similar to the Notes offered hereby, issued by the Issuer, having a maturity of more than one year from the date of issue of the Notes (other than the Notes and subject to certain other exceptions), without the prior consent of the Initial Purchasers, for a period of 30 days after the Time of Sale (as defined in the Purchase Agreement); and
- The Issuer will indemnify the Initial Purchasers against certain liabilities, including liabilities under the U.S. Securities Act, or contribute to payments that the Initial Purchasers may be required to make in respect of those liabilities.

The Initial Purchasers and their respective affiliates are full service financial institutions engaged in various activities, including securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The Initial Purchasers and their respective affiliates have, from time to time, performed, and may in the future perform, various consulting, financial advisory, investment banking, commercial lending, capital markets services for the Telenet Group and Liberty Global, for which they received or will receive customary fees and expenses. Certain of the Initial Purchasers or their respective affiliates have arranged and made loans to subsidiaries of Liberty Global or the Telenet Group in the past, and are lenders under the Senior Credit Facility and received fees in relation to arranging such loans. Certain of the Initial Purchasers or their affiliates that have a lending relationship with us routinely hedge, and certain other of the Initial Purchaser or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, the Initial Purchasers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Notes. Any such credit default swaps or short positions could adversely affect future trading prices of the Notes.

Certain of the Initial Purchasers or their respective affiliates are holders of our debt, including debt being refinanced pursuant to the Refinancing with the proceeds of the Offering and depending on market conditions may decide to initially purchase and hold a portion of the Notes for their own account. In addition, certain of the Initial Purchasers or their respective affiliates are party or may become party to certain of our hedging arrangements.

In the ordinary course of their various business activities, the Initial Purchasers and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and such investment and securities activities may involve securities and/or instruments of the Issuer. The Initial Purchasers and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

United States

Each purchaser of Notes offered by the Offering Memorandum, in making its purchase, will be deemed to have made the acknowledgements, representations and agreements as described under “*Transfer Restrictions*”.

The Notes have not been and will not be registered under the U.S. Securities Act and may not be sold within the United States or to, or for the account or benefit of, U.S. persons except to persons who are both (x) qualified institutional buyers in reliance on Rule 144A under the U.S. Securities Act and qualified purchasers, and to non-U.S. persons in offshore transactions in reliance on Regulation S under the U.S. Securities Act. Terms used above have the meanings given to them by Rule 144A and Regulation S under the U.S. Securities Act and Section 2(a)(51) of, and Rules 2a51-1, 2a51-2 and 2a51-3 under, the 1940 Act. For a description of certain further restrictions on resale or transfer of the Notes, see “*Transfer Restrictions*”.

The Notes may not be offered to the public within any jurisdiction. By accepting delivery of the Offering Memorandum, you agree not to offer, sell, resell, transfer or deliver, directly or indirectly, any Note to the public.

In connection with sales outside the United States (other than sales pursuant to Rule 144A), the Initial Purchasers have agreed that they will not offer, sell or deliver the Notes to, or for the account or benefit of, U.S. persons (i) as part of the Initial Purchasers’ distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering or the date the Notes are originally issued. The Initial Purchasers will send to each dealer to whom they sell such Notes during such 40-day period a confirmation or other notice setting forth the restrictions on offers and sales of the notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, with respect to Notes initially sold pursuant to Regulation S under the U.S. Securities Act, until 40 days after the later of the commencement of this offering or the date the Notes are originally issued, an offer or sale of such Notes within the United States by a dealer that is not participating in the offering may violate the registration requirements of the U.S. Securities Act.

United Kingdom

In the Purchase Agreement, each Initial Purchaser has also represented and agreed that:

- (i) it has complied and will comply with all applicable provisions of the FSM Act with respect to anything done by it in relation to the Notes in, from or otherwise involving the U.K.; and
- (ii) it has only communicated or caused to be communicated and it will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSM Act) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSM Act does not apply to such Initial Purchaser.

Each Initial Purchaser has also agreed in the Purchase Agreement that it has complied with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes the Offering Memorandum, and will subject to certain provisions in the relevant Purchase Agreement, obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force.

These Listing Particulars are directed solely at persons who (i) are outside the U.K. or (ii) have professional experience in matters relating to investments or (iii) are persons falling within Article 49(2)(a) to (d) of The Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (all such persons together being referred to as “relevant persons”). These Listing Particulars must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which these Listing Particulars relates is available only to relevant persons and will be engaged in only with relevant persons.

European Economic Area

In relation to each member state of the EEA which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Initial Purchaser has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the

“**Relevant Implementation Date**”), it has not made and will not make an offer of Notes which are the subject of the offering of the Offering Memorandum to the public in that Relevant Member State other than:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant Initial Purchaser or Initial Purchasers nominated by the Issuer for any such offer; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes shall require the Issuer or any Initial Purchaser to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State, the expression “Prospectus Directive” means Directive 2003/71/EC (as amended including by Directive 2010/73/EU) and includes any relevant implementing measure in the Relevant Member State.

General

The Notes are a new issue of securities, and as of the Issue Date there was no established trading market for the Notes. In addition, the Notes are subject to certain restrictions on resale and transfer as described under “*Transfer Restrictions*”. The Issuer has applied for the Notes to be admitted to listing and to trading on the Official List and to trading on the Luxembourg Stock Exchange. The Initial Purchasers have advised the Issuer and Telenet Group Holding that they intend to make a market in the Notes, but they are not obligated to do so. The Initial Purchasers may discontinue any market making in the Notes at any time in their sole discretion. In addition, such market making activities are subject to the limits imposed by the U.S. Securities Act and the U.S. Exchange Act. Accordingly, the Issuer and Telenet Group Holding cannot assure you that a liquid trading market will develop for the Notes, that you will be able to sell your Notes at a particular time or that the prices that you receive when you sell will be favorable.

You should be aware that the laws and practices of certain countries require investors to pay stamp taxes and other charges in connection with purchases of securities.

Delivery of the Euro Notes was made against payment on the Euro Notes and the Dollar Notes were made free of payment, in each case, on the Issue Date, which was ten business days (as such term is used for purposes of Rule 15c6-1 of the U.S. Exchange Act) following the date of pricing of the Notes (this settlement cycle is being referred to as “**T+10**”). Under Rule 15c6-1 of the U.S. Exchange Act, trades in the secondary market generally are required to settle in two business days unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wished to trade the Notes on the same date of the Offering Memorandum or the next seven succeeding business days were required to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the Notes who wished to make such trades should consult their advisors.

In connection with the offering of the Notes, the Initial Purchasers may have engaged in overallotment, stabilizing transactions and syndicate covering transactions. Overallotment involves sales in excess of the offering size, which creates a short position for the Initial Purchasers. Stabilizing transactions involve bids to purchase the Notes in the open market for the purpose of pegging, fixing or maintaining the price of the Notes. Syndicate covering transactions involve purchases of the Notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may have caused the price of the Notes to be higher than it would otherwise be in the absence of those transactions. If the Initial Purchasers engaged in stabilizing or syndicate covering transactions, they may discontinue them at any time.

Certain of the Initial Purchasers or their respective affiliates have arranged and made loans to subsidiaries of Liberty Global or the Telenet Group in the past. Certain of the Initial Purchasers or their affiliates that have a lending relationship with, and/or own outstanding debt securities of, the Telenet Group and/or its affiliates have

hedged, and are likely to hedge in the future, their credit exposure to the Telenet Group and/ or its affiliates consistent with their risk management policies. Typically, the Initial Purchasers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Notes. Any such credit default swaps or short positions could adversely affect future trading prices of the Notes.

The Initial Purchasers and their respective affiliates have, from time to time, performed, and may in the future perform, various consulting, financial advisory, investment banking, commercial lending and capital markets services for the Telenet Group and Liberty Global, for which they received or will receive customary fees and expenses. In addition, certain of the Initial Purchasers or their respective affiliates provide the Telenet Group and/or its affiliates, from time to time, with hedging services, and may act as counterparties to certain hedging agreements entered into by the Telenet Group and/or its affiliates and such parties will receive customary fees and commissions for their services in such capacities.

The Initial Purchasers and their respective affiliates are full service financial institutions engaged in various activities, including securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. In addition, in the ordinary course of their business activities, the Initial Purchasers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer. The Initial Purchasers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Certain of the Initial Purchasers and/or their respective affiliates are lenders under facilities of the Senior Credit Facility certain of which will be repaid with the proceeds from the offering of the Notes and are parties to certain hedging arrangements with the Telenet Group and/or its subsidiaries. See “*Use of Proceeds*”. In addition, certain of the Initial Purchasers or their respective affiliates are party to certain hedging arrangements and may be counterparties to certain cross-currency swap contracts that we may enter into with respect to the Notes.

LEGAL MATTERS

Certain legal matters in connection with this offering will be passed upon for Telenet Group Holding and the Issuer by Ropes & Gray International LLP, London, England, as to matters of United States federal, New York and English law; by Loyens & Loeff Luxembourg S.à r.l., as to matters of Luxembourg law and as to matters of Dutch law and for Telenet Group Holding by Freshfields Bruckhaus Deringer LLP, as to matters of Belgian law.

Certain legal matters in connection with this offering will be passed upon for the Initial Purchasers by Latham & Watkins (London) LLP, London, England, as to matters of United States federal, New York and English law; by Allen & Overy LLP, as to matters Belgian law; and by Allen & Overy, *société en commandite simple (inscrite au barreau de Luxembourg)*, as to matters of Luxembourg law.

ENFORCEMENT OF JUDGMENTS

Telenet Group Holding and some of its subsidiaries are organized under the laws of Belgium. The Issuer is a private limited liability company (*société à responsabilité limitée*) incorporated under the laws of Luxembourg. If the Belgian Issuer Accession and/or the Finco Loans Borrower Exchange were to come into force, the Belgian Issuer and/or the Belgian Borrowers will be entities incorporated under the laws of Belgium.

Many of the directors, members of the supervisory board, general partners, officers and other executives of the Issuer and Telenet Group Holding are neither residents nor citizens of the United States. Furthermore, most of the assets of the Issuer or Telenet Group Holding are located outside the United States. It is anticipated that this will also be the case for the Belgian Issuer and the Finco Loans Borrower Exchange. As a result, it may not be possible for investors to effect service of process within the United States upon such persons, the Issuer (or the Belgian Issuer, as applicable) or to enforce against them judgments of U.S. courts predicated upon the civil liability provisions of U.S. federal or state securities laws despite the fact that, pursuant to the terms of the Indenture, the Issuer has appointed, or will appoint, an agent for the service of process in New York. It may be possible for investors to effect service of process within Luxembourg or Belgium upon those persons, the Issuer (or the Belgian Issuer, as applicable) or Telenet Group Holding or over other subsidiaries of Telenet Group Holding provided that the Hague Convention on the Service Abroad of Judicial and Commercial Matters of November 15, 1965 is complied with.

The Issuer has been advised by Loyens & Loeff Luxembourg S.à r.l., its Luxembourg counsel, that a valid final and conclusive judgment against an issuer of Luxembourg nationality with respect to the Notes obtained from a court of competent jurisdiction in the United States, which judgment remains in full force and effect after all appeals as may be taken in the relevant state or federal jurisdiction with respect thereto have been taken, may be entered and enforced through a court of competent jurisdiction of Luxembourg subject to compliance with the enforcement procedures (*exequatur*) set out in Article 678 et seq. of the Luxembourg *Nouveau Code de Procédure Civile* and Luxembourg case-law being:

- the U.S. court awarding the judgment has jurisdiction to adjudicate the respective matter under its applicable laws, and such jurisdiction is recognized by Luxembourg private international and local law;
- the judgment is enforceable in the jurisdiction where the decision is rendered;
- the U.S. Court has applied the substantive law as designated by the Luxembourg conflict of laws rules (based on case-law and legal doctrine, it is not certain that this condition would still be required for an *exequatur* to be granted by a Luxembourg court);
- the U.S. Court has acted in accordance with its own procedural laws;
- the judgment was granted following proceedings where the counterparty had the opportunity to appear, and if appeared, to present a defense;
- the decision of the U.S. Court must not have been obtained by fraud; and
- the decisions and the considerations of the foreign court must not be contrary to Luxembourg international public policy rules or have been given in proceedings of a tax, penal or criminal nature (which would include awards of damages made under civil liabilities provisions of the U.S. federal securities laws, or other laws, to the extent that the same would be classified by Luxembourg courts as being of a penal or punitive nature (for example, fines or punitive damages)) or rendered subsequent to an evasion of Luxembourg law (*fraude à la loi*).

The Issuer has been also advised by its Luxembourg counsel that if an original action is brought in Luxembourg, without prejudice to specific conflict of law rules, Luxembourg courts may refuse to apply the designated law if the choice of such foreign law was not made *bona fide* or if (i) the foreign law was not pleaded and proved or (ii) if pleaded and proved, such foreign law was contrary to mandatory Luxembourg laws or incompatible with Luxembourg public policy rules. In an action brought in Luxembourg on the basis of U.S. federal or state securities laws, Luxembourg courts may not have the requisite power to grant the remedies sought.

The Issuer has been advised by Freshfields Bruckhaus Deringer LLP, Belgian counsel to Telenet Group Holding, that final and enforceable judgments rendered by foreign courts can be declared enforceable in Belgium (without

review of the foreign judgment on the merits by the Belgian courts) according to the procedure set out in Articles 22 and sq. of the Belgian Code of International Private Law (*Wetboek van Internationaal Privaatrecht*) and provided that, pursuant to Article 24 of the same Code, the following documents are produced in court by the claimant:

- an official copy of the judgment (*uitgifte van de beslissing*) fulfilling all conditions required for its authentication under the applicable foreign law;
- if obtained by default, an original or legalized copy of the document demonstrating that the originating process has been served on the defendant in accordance with the applicable foreign law;
- any document demonstrating that, under the applicable foreign law, the judgment is enforceable and has been notified to the defendant.

However, enforcement can be refused in the circumstances described in Article 25 of the Belgian Code of International Private Law and notably (and, *inter alia*), if:

- the rights of defense have been violated;
- such enforcement would be incompatible with Belgian public policy;
- the decision may still be appealed under the applicable foreign law (however, provisional enforcement could then be granted); or
- Belgian jurisdictions had exclusive jurisdictions in respect of that matter.

INDEPENDENT AUDITORS

The statutory auditors of Telenet Group Holding are KPMG Bedrijfsrevisoren CVBA, of Bourgetlaan 40, 1130 Brussels, Belgium. KPMG Bedrijfsrevisoren CVBA is a member of the Belgian *Instituut van de Bedrijfsrevisoren/Institut des Réviseurs d'Entreprises*. The consolidated financial statements of Telenet Group Holding NV and its subsidiaries, as of and for each of the years ended December 31, 2016, December 31, 2015 and December 31, 2014, included in this offering circular, have been audited by KPMG Bedrijfsrevisoren CVBA, independent auditors, as stated in their report appearing herein.

LISTING AND GENERAL INFORMATION

Listing Information

Application has been made for the Notes to be admitted to listing on the Official List and to trading on the Euro MTF Market. Notice of any optional redemption, change of control or any change in the rate of interest payable on the Notes will be published in a Luxembourg newspaper of general circulation or to the extent and in the manner permitted by the rules and regulation of the Luxembourg Stock Exchange, on the official website of the Luxembourg Stock Exchange (www.bourse.lu) or by any other manner of communication so accepted by the Luxembourg Stock Exchange. Notwithstanding the foregoing, the Issuer may at its sole option at any time, without the consent of the holders of the Notes or the Trustee, de-list the Notes from any stock exchange for the purposes of moving the listing of such Notes to the Official List of The International Stock Exchange.

Copies of the following documents may be obtained or inspected in physical form during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted) at the registered offices of the Issuer and the Luxembourg Listing Agent, the Transfer Agent and the Paying and Domiciliary Agent so long as the Notes are listed on the Luxembourg Stock Exchange and the rules of such exchange require:

- (1) the memorandum and articles of association of the Issuer;
- (2) the Telenet Group Financial Statements;
- (3) the Indenture governing the Notes;
- (4) the Purchase Agreement;
- (5) the 2017 Finco Accession Agreements;
- (6) the New Finco Accession Agreements, if any;
- (7) the Notes Security Documents;
- (8) the 2017 Telenet Fee Letters;
- (9) the Telenet Service Agreement;
- (10) the Collateral Sharing Agreement;
- (11) the New Telenet Service Agreement, if any; and
- (12) the Senior Credit Facility.

The Issuer has appointed The Bank of New York Mellon SA/NV, Luxembourg Branch as listing agent and registrar with respect to the Notes. The Issuer reserves the right to vary such appointment in accordance with the terms of the Indenture.

Pursuant to Part 1, point 502 of the Rules and Regulations of the Luxembourg Stock Exchange, the Notes will be freely transferable on the Luxembourg Stock Exchange.

The gross proceeds of the offering of the Dollar Notes were \$1,000.0. The gross proceeds of the offering of the Euro Notes were €600.0.

Clearing Information

The Notes were accepted for clearance through Euroclear and Clearstream as direct participants of the X/N Clearing System. The address of Euroclear is Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B 1210 Brussels, Belgium; and the address of Clearstream is Clearstream Banking S.A., 42 Avenue JF Kennedy, L-1855 Luxembourg.

The international securities identification number (“ISIN”) for the Dollar Notes sold pursuant to Regulation S is BE6300370267 and the ISIN for the Dollar Notes sold pursuant to Rule 144A is BE6300372289. The ISIN for the Euro Notes sold pursuant to Regulation S is BE6300371273 and the ISIN for the Euro Notes sold pursuant to Rule 144A is BE6300369251.

The common code for the Dollar Notes sold pursuant to Regulation S is 173325339 and the common code for the Dollar Notes sold pursuant to Rule 144A is 173320515. The common code for the Euro Notes sold pursuant to Regulation S is 173325207 and the common code for the Euro Notes sold pursuant to Rule 144A is 173325240.

Legal Information regarding the Issuer

The Issuer is currently incorporated under the name of Telenet Finance Luxembourg Notes S.à r.l. as a private limited liability company (*société à responsabilité limitée*) incorporated under the laws of

Luxembourg on November 24, 2017. Copies of the Issuer’s articles of association have been filed with the Luxembourg Trade and Companies Register and will be published in the *Recueil Electronique des Sociétés et Associations*. The registered office of the Issuer is at 2, Rue Peternelchen, L-2370 Howald, Luxembourg. The Issuer’s telephone number is +352 268 47095. The Issuer is registered with the Luxembourg Trade and Companies Register under number B219682.

The Issuer has a share capital of €12,000 comprised of 12,000 shares, all of which have been subscribed and fully paid-up (the “Shares”). The Shares are held by Telenet International Finance.

The Legal Entity Identifier number of the Issuer is 2138007RI9GLJPCC3E25.

Management

The members of the board of managers of the Issuer at present are:

- Mr. Rob Goyens, a class A company director, residing professionally at 2, Rue Peternelchen, L-2370 Howald, Luxembourg;
- Mr. Laurent Lafontaine, a class B company director, residing professionally at 2, Rue Peternelchen, L-2370 Howald, Luxembourg;
- Ms. Simone Reisewitz, a class B company director, residing professionally at 2, Rue Peternelchen, L-2370 Howald, Luxembourg; and
- Mr. Peter Vanden Eynden, a class A company director, residing professionally at 2, Rue Peternelchen, L-2370 Howald, Luxembourg.

Business Year

The Issuer’s financial year ends on December 31 of each year.

Financial Statements

The annual accounts will be published by the Issuer on an annual basis beginning on December 31, 2018. These statements will be audited by the Issuer’s independent auditors (see below). The Issuer will also prepare half-yearly financial reports and publish them in accordance with applicable law.

Any future published annual accounts prepared by the Issuer (which will be in respect of the period ending on December 31 in each year) will be available from the Paying and Domiciliary Agent.

Auditors

The external independent auditors of the Issuer will be KPMG Luxembourg, *société coopérative*, with registered office at 39, avenue John F. Kennedy, L-1855 Luxembourg, RCS Luxembourg B 149133. KPMG Luxembourg is a member of the Luxembourg *Institut des Réviseurs d’Entreprises*.

Litigation

There are no, and have not been any, governmental, legal or arbitration proceedings against or affecting the Issuer, nor is the Issuer aware of any pending or threatened proceedings of such kind, which may have or have had a significant effect on the financial position of the Issuer.

No Conflict of Interests

There are no potential conflicts of interests between any duties to the Issuer, of the members of the board of directors of the Issuer and their private interests.

Legal Information regarding Telenet Group Holding

Telenet Group Holding is a public limited liability (*naamloze vennootschap/société anonyme*) organized and existing under the laws of Belgium. Telenet Group Holding was incorporated pursuant to the laws of Belgium on June 3, 2002 for an indefinite period of time. The issued share capital of Telenet Group Holding is €12,757,656.69 divided into 117,335,623 fully paid shares with no par value and each representing a pro rata portion of the share capital. Its registered office is located at Neerveldstraat 105, 1200 Sint-Lambrechts-Woluwe, Belgium. Telenet Group Holding is registered with the register of enterprises of Belgium under number 0477.702.333 (RPR (Register of Legal Entities) Brussels, Dutch-speaking section). Telenet Group Holding's fiscal year ends on December 31.

Telenet Group Holding's fiscal year ends on December 31.

Legal Information regarding Telenet Group BVBA

Telenet Group BVBA is a private limited liability company (*besloten vennootschap met beperkte aansprakelijkheid / société privée à responsabilité limitée*) organized and existing under the laws of Belgium. Telenet Group BVBA was originally incorporated on March 17, 1998 as KPN Orange Belgium NV, a limited liability company (*naamloze vennootschap/société anonyme*) pursuant to the laws of Belgium.

Its registered office is located at Neerveldstraat 105, 1200 Sint-Lambrechts-Woluwe, Belgium. Telenet Group BVBA is registered with the register of enterprises of Belgium under number 0462.925.669 (RPR (Register of Legal Entities) Antwerp department Mechelen).

The share capital of Telenet Group BVBA at the date of the Offering Memorandum is €4,282,728,574.74, divided into 90,424,491 fully paid-up shares with no par value (*nominale waarde/valeur nominale*) and each representing a pro rata portion of the share capital. 99.9% of Telenet Group BVBA's shares are owned by Telenet Group Holding NV and one share is owned by Telenet International Finance S.à.r.l., a limited liability company existing under the laws of Luxembourg.

Legal Information regarding Telenet International Finance

Telenet International Finance is existing under the name of Telenet International Finance S.à r.l. as a private limited liability company, *société à responsabilité limitée*, incorporated under the laws of Luxembourg on August 17, 2010. The registered office of Telenet International Finance is at 2, rue Peternelchen, L-2370 Howald, Luxembourg. Telenet International Finance is registered with the Luxembourg Trade and Companies Register under number RCS B.155.066. The telephone number of Telenet International Finance is +352 268 47095.

All of the issued shares of Telenet International Finance are owned by Telenet BVBA.

Listing Particulars

Except as disclosed in these Listing Particulars:

- there has been no material adverse change in the consolidated financial position of Telenet Group Holding since September 30, 2017 and of the Issuer since the Issuer's incorporation date; and

- neither Telenet Group Holding nor the Issuer are involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which Telenet Group Holding and the Issuer are aware) relating to claims or amounts that are material in the context of the issuance of the Notes.

Telenet Group BVBA, Telenet International Finance and the Issuer (except as noted on page iii and iv of these Listing Particulars) accept responsibility for the accuracy of the information contained in these Listing Particulars. To the best knowledge and belief of Telenet Group BVBA, Telenet International Finance and the Issuer, the information contained in these Listing Particulars for which it takes responsibility is in accordance with the facts and does not omit anything likely to affect the import of such information.

The Trustee

The Notes provide for the Trustee to take action on behalf of the holders of the Notes in certain circumstances, but only if the Trustee is indemnified and/or secured to its satisfaction. It may not be possible for the Trustee to take certain actions in relation to the Notes and accordingly in such circumstances, the Trustee will be unable to take action, notwithstanding the provision of an indemnity or security to it, and it will be for the holders of the Notes to take action directly. If the Trustee resigns or is removed, the Issuer will appoint a successor.

GLOSSARY

Term	Definition
“3G”	The third generation of mobile communications standards, referred to in the industry as IMT-2000, capable of data speeds exceeding the 14.4 Kbps of GSM technology.
“4G”	The fourth generation of mobile communications standards, which when fully implemented is expected to allow for higher data speeds than achievable with 3G and additional network features and capabilities.
“ADSL”	Asymmetrical DSL; an internet access technology that allows voice and high-speed data to be sent simultaneously over local copper telephone line.
“ARPU”	Average Revenue Per User; the average monthly revenue per revenue generating unit, a measure Telenet uses to track growth in its revenue per service. A home, residential multiple dwelling unit or commercial unit may contain one or more RGUs, and the ARPU is the sum of such revenues divided by the number of RGUs.
“B2B”	Business-to-business.
“bandwidth”	The width of a communications channel; in other words, the difference between the highest and lowest frequencies available for network signals. Bandwidth also refers to the capacity to move information.
“broadband”	Any circuit that can transfer data significantly faster than a dial-up phone line.
“bundle”	A combination of television, internet and telephony products and services marketed by service providers.
“churn”	The total number of RGUs disconnected during the period divided by the average number of RGUs for the period; statistics do not include customers who move within the areas of the Combined Network offering the same service and who elect to receive the same services from Telenet that they previously received at their prior location; statistics do includes SMEs that receive Telenet’s services through a coaxial connection.
“Combined Network”	The combination of Telenet’s own network and the Partner Network.
“CPE”	Customer premise equipment, which typically comprises a modem or set-top box and associated cabling and other fittings such as an NIU in order to deliver service to a subscriber.
“Customer Relationships”	The number of customers who receive at least one level of service that Telenet Group Holding count as a Revenue Generating Unit (RGU) without regard to which, or to how many services they subscribe.
“DSL”	Digital Subscriber Line; DSL is a technology that provides high-speed internet access over traditional telephone lines.
“DTT”	Digital terrestrial television.
“EPGs”	Electronic program guides.
“EuroDocsis 3.0”	Data over cable service interface specification, a technology that enables the addition of high-speed data transfer over an existing cable television system.

Term	Definition
“footprint”	The service areas in which Telenet is operating, consisting of the Flanders region, including the metropolitan centers of Antwerp and Ghent, and one-third of Brussels.
“Full-MVNO”	Full mobile virtual network operator, being an operator that provides mobile services via its own SIM cards, under its own Mobile Network Code and having its own interconnection agreements, but without its own licensed frequency allocation of radio spectrum.
“GSM”	Global System for Mobile Communications.
“HD”	High definition.
“HFC”	Hybrid fiber coaxial.
“Homes passed”	Telenet’s estimate of the number of potential residential, SOHO and SME subscribers to whom it can offer its services.
“HSPA”	High Speed Packet Access, a type of UMTS3G network that supports both mobile communications technology that provides enhanced download and upload speeds.
“IDTV”	Interactive digital television.
“INDI”	Non-interactive digital television platform acquired pursuant to the PICs Agreement.
“internet”	A collection of interconnected networks spanning the entire world, including university, corporate, government and research networks. These networks all use the IP (Internet Protocol) communications protocol.
“internet Subscriber”	A home, residential multiple dwelling unit or commercial unit that receives internet services over Telenet’s networks.
“IP”	Internet Protocol.
“IPTV”	IP-protocol digital television.
“ISP”	Internet Service Provider.
“IT”	Information technology, a general term referring to the use of various software and hardware components when used in a business.
“local loop”	The network element used to connect a subscriber to the nearest switch or concentrator, commonly referred to as the “last mile” because it is the part of the network that is connected directly to the subscriber; alternatively the HFC access network.
“LTE”	Long term evolution technology being a standard in mobile network technology.
“MHz”	Megahertz; a unit of frequency equal to one million Hertz.
“Mbps”	Megabits per second; each megabit is one million bits.
“multiple-play”	The bundling of different telecommunications services, e.g. digital cable television, broadband internet and fixed-line telephony services, by one provider.

Term	Definition
“MVNO”	Mobile virtual network operator. Refers to a company that provides mobile phone services but does not have its own licensed frequency allocation of radio spectrum, nor necessarily all of the infrastructure required to provide mobile telephony services.
“network”	An interconnected collection of components which would, in a telecommunications network, consist of switches connected to each other and to customer equipment by real or virtual links. Transmission links may be based on fiber optic or metallic cable or point to point radio connections.
“NIU”	Network interface unit, a small device at a subscriber’s premise which enables interactivity between Telenet’s network and the end-user, and to prevent interference from entering the network.
“OTT”	Over-the-top.
“Proximus”	Proximus NV/SA, the incumbent fixed-line operator in Belgium and main competitor to Telenet.
“PSTN”	Public switched telephone network.
“quad-play”	Triple-play with the addition of mobile telephony service.
“RGU”	Revenue Generating Unit; separately an analog cable television subscriber, digital cable television subscriber, internet subscriber or fixed-line telephony subscriber. A home, residential multiple dwelling unit or commercial unit may contain one or more RGUs. For example, if a residential customer in Telenet’s digital cable service, telephony service (regardless of their number of telephony access lines) and broadband internet service, the customer would constitute three RGUs. “Total RGUs” is the sum of analog cable, digital cable, internet and fixed-line telephony subscribers. RGUs generally are counted on a unique premise basis such that a given premise does not count as more than one RGU for any given service. On the other hand, if an individual receives Telenet’s service in two premises (e.g., a primary home and a vacation home), that individual will count as two RGUs. Nonpaying subscribers are counted as subscribers during their fee promotional service period. Some of these subscribers choose to disconnect after their free service period. Services offered without charge on a permanent basis (e.g. VIP subscribers, free service to employees) are not counted as RGUs.
“RTD”	The Belgian Radio and Television Distributors Association (<i>Beroepsvereniging voor Radio-en Televisiedistributie/Union professionnelle de radio et de télédistribution</i>).
“Shakes”	The various multiple-play bundles, which Telenet offers to its residential customers. These multiple-play bundles combine two, three or multiple services into one single subscription.
“SME”	Small or medium sized enterprise.
“SOHO”	A small office at home.
“Telephony subscriber”	A home, residential multiple dwelling unit or commercial unit that receives voice services over Telenet’s network.
“traffic data”	Data processed for the purpose of the conveyance of a communication on an electronic communications network or for billing.

Term	Definition
“triple-play”	Where a customer has subscribed to a combination of three products, digital cable television, broadband internet and fixed-line telephony services, from Telenet.
“UMTS”	Universal Mobile Telecommunications Service, a 3G mobile networking standard commonly used to upgrade GSM networks to 3G standards.
“Uradex”	Association for the Collection, Distribution and Protection of the Rights of the Artists, Interpreters and Performers (<i>CVBA Vereniging voor de inning, repartitie en de verdediging van de vertolkende en uitvoerende kunstenaars</i>), now renamed to “Playright.”
“VDSL”	Very High Rate Digital Subscriber Line; a high-speed broadband access technology which uses the existing copper wire infrastructure.
“VOD”	Video on demand; a service which provides subscribers with enhanced playback functionality and gives subscribers access to a broad array of on demand programming, including movies, live events, local drama, music videos, children programming and adult programming.
“VoIP”	Voice over internet Protocol; a telephone service via internet, or via TCP/IP protocol, which can be accessed using a computer, a sound card, adequate software and a modem.
“VPN”	Virtual private network, a business service enabling users to obtain remote access to network functionality.
“VRM”	The Flemish Media Regulator (<i>Vlaamse Regulator voor de Media</i>).
“VRT”	Vlaamse Radio- en Televisieomroep.
“VoN”	Voice over Net, a form of telephony over the internet that is usually a lower quality than VoIP.
“WiMax”	Worldwide interoperability for microwave access, which is a telecommunications protocol that provides fixed and fully mobile internet access.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

5 Notes to the condensed consolidated interim financial statements for the nine months ended September 30, 2017

5.1 REPORTING ENTITY AND BASIS OF PREPARATION

5.1.1 Reporting entity

The accompanying condensed consolidated interim financial statements (the “Interim Financial Statements”) present the operations of Telenet Group Holding NV, its subsidiaries and other consolidated companies (hereafter collectively referred to as the “Company” or “Telenet”). Through its broadband network, the Company offers basic and enhanced video services, including pay television services, broadband internet and fixed-line telephony services to residential subscribers in Flanders and certain communes in Brussels as well as broadband internet, data and voice services in the business market throughout Belgium and parts of Luxembourg. The Company also offers mobile telephony services through an MVNO Arrangement with Orange and through its own mobile network following the acquisition of BASE on February 11, 2016.

On June 19, 2017, the Company acquired Altice’s former Belgian and Luxembourg cable operations (“Coditel Brabant” and “Coditel S.à r.l.”, together “SFR BeLux”), which operates under the SFR brand and provides cable services to households and businesses in Brussels, Wallonia and Luxembourg and offers mobile telephony services in Belgium through an MVNO Agreement with BASE.

Telenet Group Holding NV and its principal operating subsidiaries are limited liability companies organized under Belgian law. Subsidiaries and structured financing entities (“SEs”) have been incorporated in Luxembourg and the Netherlands in order to structure the Company’s financing operations

5.1.2 Basis of preparation

The Interim Financial Statements have been prepared in accordance with IAS 34 “Interim Financial Reporting” as adopted by the EU (“EU IFRS”). They do not include all of the information required for full annual financial statements and should be read in conjunction with the Company’s audited consolidated financial statements as of and for the year ended December 31, 2016. Results for the nine months ended September 30, 2017 are not necessarily indicative of future results.

The Interim Financial Statements have been prepared on the historical cost basis, except for certain financial instruments and the net assets acquired as a result of the acquisition of SFR BeLux on June 19, 2017,

5.1.3 Functional and presentation currency

These consolidated financial statements are presented in euro (“€”), which is the Company’s functional currency, rounded to the nearest thousand except when indicated otherwise.

5.1.4 Use of estimates and judgments

The preparation of financial statements in accordance with EU IFRS requires the use of certain critical accounting estimates and management judgment in the process of applying the Company’s accounting policies that affects the reported amounts of assets and liabilities and disclosure of the contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the interim Financial Statements are:

- Note 5.3.2 : Financial instruments: fair values
- Note 5.4 : Property and equipment
- Note 5.5 : Goodwill
- Note 5.6 : Other intangible assets
- Note 5.10 : Derivative financial instruments

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

- Note 5.11 : Other non-current liabilities—Asset retirement obligation
- Note 5.12 : Accrued expenses and other current liabilities—Liabilities for tax on sites
- Note 5.16 : Deferred taxes
- Note 5.18.1 : Acquisition of subsidiary—Purchase price allocation

The significant judgments made by management in applying the accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2016. In addition to those significant judgments, Telenet's management made additional significant judgments related to its accounting for the acquisition of Coditel in its condensed consolidated interim financial statements for the nine months ended September 30, 2017.

A number of the Company's accounting policies and disclosures require the measurement of fair value, for both financial and non-financial assets and liabilities. When measuring the fair value of an asset or liability, the Company uses market observable data to the extent available.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the fair value techniques, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For further information about the assumptions made in measuring fair values we refer to note 5.3.2 Financial Instruments.

5.1.5 Segment reporting

Operating segments are the individual operations of a company that the chief operating decision maker ("CODM") reviews regularly in allocating resources to these segments and in assessing segment performance. Telenet's segment reporting is presented based on how Telenet's internal financial information is organized and reported to the CEO, who is Telenet's CODM, the Senior Leadership Team and the board of directors.

The CEO, the Senior Leadership Team and the board of directors of Telenet manage the Company's telecommunication business, inclusive of the recent acquisition of SFR BeLux, as a single operation, driven by the Company's fixed and mobile convergence strategy for both the residential and business markets which is demonstrated in the Company's all-in offer called WIGO. They assess the Company's performance and make resource allocation decisions based on an overall Profit and Loss Statement. The Profit and Loss Statement is analyzed at least on a monthly basis with only revenue and direct costs allocated to separate product and service lines. The primary measure of profit within the Profit and Loss Statement used by the CODM to assess performance is Adjusted EBITDA, and the Profit and Loss Statement does not present Adjusted EBITDA for separate product and service lines. Notwithstanding that revenue and direct costs are allocated to the separate product and service lines, as a differentiated Profit and Loss Statement is not used by the CODM to manage Telenet's operations, assess performance or make resource allocation decisions, Telenet has determined that its operations constitute one single segment.

In respect of the Company's 50% investment in De Vijver Media NV, the Company determined that the De Vijver Media business is a separate operating segment that is not a reportable segment.

5.1.6 Reporting Changes

As of 2017 onwards, the Company changed the way it presents the revenue generated by its fixed and mobile wholesale partners, as well as the presentation of the expenses incurred for CPE-related truck rolls.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

Reclassification of wholesale revenue

As of January 1, 2017, the revenue generated by the Company's fixed and mobile wholesale partners is accounted for under other revenue, whereas prior to that date wholesale revenue was presented under mobile telephony revenue. The Company also applied this change retroactively to the prior year period. Accordingly, €25.1 million related to the nine months ended September 30, 2016 was reclassified to other revenues.

Reclassification of expenses related to truck rolls for customer premises equipment ("CPE")

As of January 1, 2017, expenses incurred for CPE-related truck rolls are recognized under network operating expenses, whereas before that date they were presented under professional services and outsourced labor. The Company also applied this change retroactively to the prior year period. Accordingly, €14.5 million related to the nine months ended September 30, 2016 was reclassified to network operating expenses.

5.2 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied by the Company in these Interim Financial Statements are the same as those applied in the Company's consolidated financial statements as of and for the year ended December 31, 2016, except for the following amendments and interpretations which became effective for the Group during the nine months ended September 30, 2017:

- **Amendments to IAS 7 Statement of Cash Flows :**

requiring disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities (effective for annual periods beginning on or after January 1, 2017).

- **Recognition of Deferred Tax Assets for Unrealized Losses**

(Amendments to IAS 12) clarifies the accounting for deferred tax assets for unrealized losses on debt instruments measured at fair value. Further, the amendments provide guidance on estimating probable future taxable profits when assessing the recognition of deferred tax assets when there are insufficient taxable temporary differences relating to the same taxation authority and the same taxable entity. The amendments are effective for annual periods beginning on or after 1 January 2017, with earlier adoption permitted. The amendments are not expected to have a material impact on the Group's consolidated financial statements.

- **Annual improvements to IFRSs 2014-2016 Cycle,**

issued on 8 December 2016 but not yet endorsed by the EU, clarifies that IFRS 12 Disclosure of Interests in Other Entities also applies to interests that are classified as held for sale or distribution (effective for annual periods beginning on or after 1 January 2017).

None of these amendments and interpretations had a material impact on the Company's condensed consolidated interim financial statements.

The following standards have been published and are mandatory for the Company's accounting periods beginning on or after January 1, 2018, or later periods, but the Company has not early adopted them:

- **IFRS 9 Financial Instruments** (effective for annual periods beginning on or after January 1, 2018) includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements, which align hedge accounting more closely with risk management. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. With respect to the provision for impairment of trade receivables, the Company will apply under IFRS 9 a new forward looking impairment model based on an expected credit loss model rather than the currently applied actual credit loss model. The Company does not expect a material impact on its consolidated financial statements with respect to the application of IFRS 9.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

- **IFRS 15 Revenue from Contracts with Customers** requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. IFRS 15 will replace existing revenue recognition guidance when it becomes effective. This new standard permits the use of either the retrospective or cumulative effect transition method. The Company will adopt IFRS 15 effective January 1, 2018 using the cumulative effect transition method. While we are continuing to evaluate the effect that IFRS 15 will have on our consolidated financial statements, we have identified a number of our current revenue recognition policies that will be impacted by the new revenue recognition standard, including the accounting for (i) time-limited discounts and free service periods provided to our customers, (ii) certain up-front fees charged to our customers and (iii) multiple element arrangements. These impacts are discussed below:
 - When the Company enters into contracts to provide services to its customers, the Company often provides time-limited discounts or free service periods. Under current accounting rules, the Company recognizes revenue net of discounts during the promotional periods and does not recognize any revenue during free service periods. Under IFRS 15, revenue recognition will be accelerated for these contracts as the impact of the discount or free service period will be recognized uniformly over the total contractual period.
 - When the Company enters into contracts to provide services to our customers, the Company often charges installation or other up-front fees. Under current accounting rules, installation fees related to services provided over our cable networks are recognized as revenue during the period in which the installation occurs to the extent these fees are equal to or less than direct selling costs. Under IFRS 15, these fees will generally be deferred and recognized as revenue over the contractual period, or longer if the up-front fee results in a material renewal right.

Under the current revenue recognition guidance, revenue related to multiple element arrangements is generally recognized based on amounts billed to the customer. Under IFRS 15, revenue will generally be recognized based on delivery of goods and/or services at their relative fair values. Customer premise equipment (CPE) sold is deemed to have no standalone value as the settop boxes can only be used with a connection to the Company's network.

As the above revenue recognition changes have offsetting impacts and both result in a relatively minor shift in the timing of revenue recognition, we currently do not expect IFRS 15 to have a material impact on our reported revenue.

IFRS 15 will also impact our accounting for certain upfront costs directly associated with obtaining and fulfilling customer contracts. Under our current policy, these costs are expensed as incurred unless the costs are in the scope of another accounting topic that allows for capitalization. Under IFRS 15, the upfront costs that are currently expensed as incurred will be recognized as assets and amortized to other operating expenses over a period that is consistent with the transfer to the customers of the goods or services to which the assets relate, which we have generally interpreted to be the expected life of the customer relationship. The impact of the accounting change for these costs will be dependent on numerous factors, including the number of new subscriber contracts added in any given period, but we expect the adoption of this accounting change will initially result in the deferral of a significant amount of operating and selling costs.

The ultimate impact of adopting IFRS 15 for both revenue recognition and costs to obtain and fulfill contracts will depend on the promotions and offers in place during the period leading up to and after the adoption of IFRS 15.

IFRS 16 Leases (effective for annual periods beginning on or after January 1, 2019) makes a distinction between a service contract and a lease based on whether the contract conveys the right to control the use of an identified asset and introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low value items. With respect to the impact of IFRS

Telenet Group Holding NV

**Notes to the Condensed Consolidated Interim Financial Statements
September 30, 2017**

16, we refer to note 5.3 and 5.26.3 of the Company's Consolidated Financial Statements of December 31, 2016. The Company is in the process of analyzing its operational lease agreements and corresponding obligations in order to apply IFRS 16. The conversion approach that will be applied is not yet determined.

5.3 FINANCIAL INSTRUMENTS

5.3.1 Financial risk management

During the nine months ended September 30, 2017, the Company did not change its financial risk management objectives or policies and, as a result, they are still consistent with the disclosures in the consolidated financial statements as of and for the year ended December 31, 2016.

5.3.2 Financial instruments

Carrying amount versus fair value

The fair values of financial assets and financial liabilities, together with the carrying amounts in the condensed consolidated interim statement of financial position and their levels in the fair value hierarchy are summarized in the table below. The fair value measurements are categorized into different levels in the fair value hierarchy based on the inputs used in the valuation techniques.

The following tables show the carrying amounts and fair values of financial assets and liabilities, including their levels of fair value hierarchy.

The table below does not include fair value information for financial assets and liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

September 30, 2017 (in thousands of euro)	Note	Carrying amount	Fair value	Level 1	Level 2	Level 3

Valuation techniques and significant unobservable inputs

The following tables show the valuation techniques used in measuring level 2 fair values, as well as the significant unobservable inputs used.

Type	Valuation technique	Unobservable inputs	Inter-relationship between unobservable inputs and fair value measurements
Interest rate derivatives	Discounted cash flows : the fair value of the cross-currency and interest rate derivatives is calculated by the Company based on swap curves flat, taking into account the credit risk of both the Company and the respective counterparties to the instruments. The Company also compares the fair values thus calculated to the respective instruments' fair value as provided by the counterparty.	The credit risk of both the Company and the respective counterparties to the instruments.	The estimated fair value would increase (decrease) if : —the credit risk of the company were lower (higher) —the credit risk of the countercompany were higher (lower).
Foreign exchange forwards and embedded derivatives	Discounted cash flows : the fair value of forward exchange contracts is calculated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate. This calculation is compared to the listed market price, if available.	Not applicable.	Not applicable.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

Type	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurements
Loans, borrowings and finance lease liabilities : —2017 Amended Senior Credit Facility —Money Market funds —Overdraft facilities	Market comparison technique : The fair values are based on broker quotes. The brokers providing the quotes are among the most active in the trading of the Senior Credit Facility, and regularly provide quotes to the market. No adjustments to this pricing are needed.	Not applicable.	Not applicable.
Loans, borrowings and finance lease liabilities : —Finance lease obligations —Clientele fee > 20 years —3G Mobile spectrum —Global Handset Loan —Vendor Financing —SFR network right of use	Discounted cash flows.	Discount rate.	The estimated fair value would increase (decrease) if : —the discount rate were lower (higher).

During the nine months ended September 30, 2017, no financial assets or liabilities have been transferred between the levels of the fair value hierarchy.

At January 1, 2017	88,977	1,788,790	144,051	25,006	2,046,824

As a result of the SFR BeLux acquisition, property and equipment increased by €84.3 million mainly consisting of its cable network and CPE material. With respect to the status of the preliminary purchase price allocation, we refer to Note 5.18.1.

Accrued capital expenditures for property and equipment reached €334.3 million for the nine months ended September 2017, representing the following additions:

- accrued capital expenditures for both the broadband and the mobile network growth and upgrades for an amount of €210.5 million;
- capital expenditures for customer installations for an amount of €50.2 million;
- refurbishments and replacements of network equipment for an amount of €56.3 million; and
- set-top box related capital expenditures for an amount of €17.3 million.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

The Company recognized a gain on disposal of assets of €3.1 million for the nine months ended September 30, 2017, mainly attributable to modems, set-up boxes and the sale of scrap material

5.5 GOODWILL

The total amount of goodwill as of September 30, 2017 amounted to €1,879.2 million (December 31, 2016 : €1,540.9 million). The increase of €338.3 million was attributable to the SFR BeLux acquisition.

(in thousands of euro)

The Company's intangible assets other than goodwill each have finite lives and are comprised primarily of network user rights (mainly mobile spectrum), trade name, software development and acquisition costs, customer relationships, broadcasting rights, out of market component of future leases and contracts with suppliers.

The Company's accrued capital expenditures for the first nine months of 2017 reflected the renewal of the non-exclusive Jupiler Pro League broadcasting rights for three seasons as of the current 2017-2018 season.

The write-off of fully amortized assets consisted mainly of the broadcasting rights related to the 2016-2017 season of the Jupiler Pro League which was written-off upon the end of the season in May 2017 (€29.1 million).

The Company acquired €5.0 million of intangible software assets through the SFR BeLux acquisition. With respect to the status of the preliminary purchase price allocation, we refer to Note 5.16.1.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

On March 1, 2017, the Company disposed of its investment in Ortel Mobile NV resulting in the disposal of the tradename with a net book value of €2.3 million. The disposal of Ortel Mobile NV and its underlying assets resulted in a loss of €2.1 million. In June, 2017, the Company disposed of customer lists related to its prepaid branded reseller customer base for an amount of €1.9 million, resulting in a loss on disposal of €1.3 million.

5.7.2 Other investments

Belgian Mobile ID

In June 2017, Telenet contributed an amount of €1.5 million in cash as part of a capital increase of Belgian Mobile ID NV (f.k.a. Belgian Mobile Wallet NV). The Company's stake in the share capital of Belgian Mobile ID remains at 16.67%. Belgian Mobile Wallet NV launched a Belgian standard for payments via smartphones in spring 2014 allowing consumers to use their smartphones in the future to pay for goods and services, exchange coupons, or use their customer cards.

Imec.istart Fund

On March 15, 2017, Telenet Group Holding NV took an 8% stake in the share capital of Imec.istart Fund for €0.2 million. This Fund was incorporated to invest in pre-seed and seed stage opportunities in privately held technology companies which are selected for the imec.istart program and which have a potential for significant value creation in fast growing market segments in or outside of the territory of the European Union.

Recneps NV

On March 30, 2017, Telenet Group Holding NV took a 10% stake in the share capital of Recneps NV, an existing company previously incorporated by 1105 (Eleven Five) NV. Telenet contributed €0.3 million in cash and in return received 10% of the shares of the company.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

5.8 SHAREHOLDERS' EQUITY

5.8.1 Shareholders' equity

As of September 30, 2017, the share capital amounted to €12.8 million (December 31, 2016: €12.8 million).

The condensed consolidated interim financial statements as of September 30, 2017 showed a negative consolidated equity amounting to €1,120.9 million, mainly as a result of the Company's historical shareholder disbursements policy, including various capital reductions.

The Company considers its most optimal equity structure on a consolidated level, based on a certain net leverage range, even in case of a negative equity on a consolidated level and taking into account that the amount of current liabilities exceeded the amount of current assets.

The board of directors has considered the Company's net equity position and has prepared the consolidated financial statements applying the accounting policies consistently on a going concern basis taking into account amongst others:

- the forecasted earnings for the next year;
- a projected strong and steady positive cash flow for the next year;
- maturities of financial obligations as disclosed in note 5.9.

Own shares

As of September 30, 2017, the Company held 2,071,349 own shares. During the nine months ended September 30, 2017, the Company acquired 919,323 own shares under the Share Repurchase Program 2017, for a total amount of €51.00 million.

5.8.2 Employee share based compensation

Employee Stock Option Plan 2017

On March 20, 2017, the board of directors approved Telenet's General Stock Option Plan 2017 for the Company's Senior Leadership, one other manager and the Company's CEO for a total number of 553,292 stock options on existing shares ("ESOP 2017"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

The grant of these 553,292 stock options, with an exercise price of €58.14 per stock option, occurred on June 8, 2017. On June 30, 2017 a total of 403,266 stock options were accepted.

The vesting of the stock options under the ESOP 2017 occurs quarterly over a period of 4 years, with a vesting of 10% of the total stock options granted during each of the first 4 quarters and a vesting of 5% of the total stock options granted during each of the 12 following quarters.

Employee Stock Option Plan 2017 bis

On July, 31 2017, the board of directors approved a new general stock option plan for the employees for a total number of 753,109 stock options on existing shares (the "Employee Stock Option Plan 2017 bis" or "ESOP 2017 bis"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

On September 25, 2017, the board of directors authorized a grant under this plan to certain beneficiaries. The beneficiaries have until 24 November 2017 to accept the grant.

The vesting of these stock options occurs quarterly over a period of 4 years, with a vesting of 10% of the total stock options granted during each of the first 4 quarters and a vesting of 5% of the total stock options granted during each of the 12 following quarters.

Less: current portion	(320,268)	(139,372)
Total non-current loans and borrowings	4,484,311	4,642,485

As of September 30, 2017, the Company carried a total debt balance (including accrued interest) of €4,804.6 million, of which €3,323.7 million principal amount is owed under our 2017 Amended Senior Credit Facility, including the amounts drawn under our revolving credit facilities, and €780.0 million principal amount is related to the Senior Secured Fixed Rate Notes with maturities ranging from 2024 through 2027. The Company's total debt balance at September 30, 2017 also included €190.1 million of short-term debt related to our vendor financing program and €23.7 million for the outstanding portion of the 3G mobile spectrum including accrued interest. The remainder primarily represents the capital lease obligations associated with the Interkabel Acquisition

In April, 2017, the Company issued a € 1,330.0 million Term Loan ("Facility AH") due March 31, 2026 and a USD 1,800.0 million Term Loan ("Facility AI") due June 30, 2025. Facility AH bears interest at 3.00% over EURIBOR (with a 0% floor) and was issued at 99.75% of par. Facility AI bears interest at 2.75% over LIBOR (with a 0% floor) and was issued at 99.75% of par. Telenet entered into several cross-currency and interest rate swap transactions to hedge both the underlying currency and floating interest rate exposure. Telenet used the net proceeds from these transactions to prepay the following credit facilities under the existing Senior Credit Facility: (i) Facility AE (€ 1,600.0 million due January 31, 2025, EURIBOR + 3.25% with a 0% floor issued at par), and (ii) Facility AF (USD 1,500.0 million due January 31, 2025, USD LIBOR + 3.00% with a 0% floor issued at 99.50% of par).

On May 15, 2017, the Company issued an additional USD 500.0 million Term Loan ("Facility AI2") due June 30, 2025. Facility AI2 bears interest at 2.75% over LIBOR (with a 0% floor) and was issued at 100% of par. The net proceeds were ultimately used by Telenet International Finance S.a.r.l to prepay Facility U under Telenet's 2017 Amended Senior Credit Facility, of which the lender is Telenet Finance V Luxembourg S.C.A. ("TFLV"). TFLV in its turn used the proceeds from the prepayment of Facility U to redeem the €450.0 million Senior Secured Notes due August 2022.

Telenet Group Holding NV

**Notes to the Condensed Consolidated Interim Financial Statements
September 30, 2017**

Through the above mentioned transactions, the Company succeeded in extending the average tenor of its debt maturities at attractive market conditions, while locking in long-term attractive interest rates.

As a result of the above mentioned refinancing transactions, the Company recognized a total loss on extinguishment of debt amounting to €46.7 million (Note 5.13) consisting of (i) unamortized deferred financing fees related to Term Loan Facilities AE and AF for an amount of €18.2 million, (ii) new financing fees relating to Term Loans AH and AI amounting to €3.7 million, (iii) unamortized deferred financing fees related to Facility U amounting to €5.5 million, (iv) an early termination fee related to Facility U for €19.1 million cash paid at June 30, 2017 and (v) unamortized deferred financing fees related to Revolving Credit Facility Z amounting to €0.2 million.

Of the deferred financing fees related to the early repaid Term Loans AE and AF, €12.2 million was allocated to the new Term Loans AH and AI. In addition, the Company recognized new deferred financing fees amounting to €15.9 million incurred related to the Term Loan AH, AI and AI2 refinancing transactions.

On June 19, 2017, Telenet used its Revolving Facilities under the 2017 Amended Senior Credit Facility for the financing of the SFR BeLux acquisition for an aggregate amount of €210.0 million, including (i) €120.0 million under Revolving Credit Facility Z with a maturity of June 30, 2018 and a 2.25% margin over EURIBOR and (ii) €90.0 million under Revolving Credit Facility AG with a maturity of June 30, 2023 and a 2.75% margin over EURIBOR. These Revolving Credit Facilities were partially repaid in Q3 2017, resulting in an outstanding balance for Revolving Credit Facility Z of €45.0 million.

The table below provides an overview of the Company's debt instruments and payment schedule at September 30, 2017.

Foreign exchange forwards	(2,830)	2,835
Embedded derivatives	33	(76)
	(237,922)	(38,227)

Realized and unrealized losses on derivative financial instruments are comprised of the following amounts:

	For the nine months ended September 30,	
	2017	2016
	(in thousands of euro)	
Change in fair value		
Cross Currency Interest Rate Swaps	(198,221)	(14,768)
Interest rate derivatives	10,257	(101,551)
Foreign exchange forwards	(4,521)	(740)
Embedded derivatives	109	34
Total change in fair value	(192,376)	(117,025)
Net loss/gain on derivative financial instruments	(192,376)	(117,025)

5.11 OTHER NON CURRENT LIABILITIES

	September 30, 2017	December 31, 2016
	(in thousands of euro)	
Employee benefit obligations	23,902	23,596
Other personnel related obligations	833	893
Long service awards	8,607	8,079
Interkabel out of market opex	15,595	15,135
Asset retirement obligations	8,719	8,700
Liabilities regarding sports broadcasting rights	57,920	24,718
Restructuring liability Norkring	9,656	11,343
Other restructuring	29,891	—
Liabilities regarding pylon taxes	6,600	—
Other	11,290	2,144
Total Other non-current liabilities	173,013	94,608

Compared to December 31, 2016, total other non-current liabilities increased by €78.4 million to €173.0 million as of September 30, 2017.

The liabilities regarding sports broadcasting rights increased by €33.2 million due to the extension of the exclusive UK Premier League broadcasting rights for three seasons as of the 2016-2017 season and the renewal of the non-exclusive Jupiler Pro League broadcasting rights for three seasons as of the current 2017-2018 season.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

The Company recorded a €29.2 million non-cash restructuring charge linked to the accelerated onboarding of our Full MVNO customer base to our own mobile network. The Company now aims for full completion by the end of Q1 next year versus our initial plan of late 2018, hence impacting the contractual commitments under our Full MVNO Agreement with Orange Belgium.

5.12 ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

	September 30, 2017	December 31, 2016
	(in thousands of euro)

Liabilities regarding pylon taxes	21,874	29,135
Accrued interest on derivatives	0	1
Accrued deferred financing costs	385	560
Accounts receivable with credit balance	19,764	18,419
Restructuring liability Norkring	2,250	2,250
Restructuring liability other	1,088	1,110
Liabilities regarding sports broadcasting rights	61,494	38,426
Other current liabilities	23,708	16,399
Total Accrued expenses and other current liabilities	624,370	559,230

Compared to December 31, 2016, total accrued expenses and other current liabilities increased by €65.1 million to €624.4 million as of September 30, 2017.

Compared to December 31, 2016, VAT and withholding taxes payable increased €26.1 million due to the prepayments made in November for the December VAT, thus resulting in a lower outstanding VAT payable at year end.

The liabilities regarding sports broadcasting rights increased by €23.1 million due to the extension of the exclusive UK Premier League broadcasting rights for three seasons as of the 2016-2017 season and the renewal of the non-exclusive Jupiler Pro League broadcasting rights for three seasons as of the current 2017-2018 season.

Accrued expenses and other current liabilities acquired as part of the SFR BeLux acquisition amounted to €17.6 million as per September 30, 2017.

(*) We refer to Note 5.1.6 Reporting changes for detailed information regarding the reclassification of (i) wholesale revenue and (ii) expenses related to truck rolls for customer premises equipment ("CPE").

During the nine months ended September 30, 2017, the Company generated revenue of €1.884.3 million, representing a 4.7% increase compared to the prior year period when it produced revenue of €1.799.9 million.

The Company's reported revenue increase was primarily driven by inorganic movements such as the contribution from mobile operator BASE since January 1 this year, whereas last year BASE has only been consolidated in our results since February 12, 2016.

In addition, we acquired SFR BeLux on June 19, 2017, contributing €17.1 million to the Company's revenue since the acquisition date. If the acquisition had occurred on January 1, 2017, management estimates that consolidated revenue would have been €47.7 million.

This increase in revenue was partially offset by the sale of Ortel Mobile NV to LycaMobile Belgium Limited as per March 1, 2017 and the discontinuation of certain fixed legacy products at BASE.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

(*) We refer to Note 5.1.6 Reporting changes for detailed information regarding the reclassification of (i) wholesale revenue and (ii) expenses related to truck rolls for customer premises equipment (“CPE”).

For the first nine months ended September 30, 2017, Telenet incurred total expenses of €1,542.8 million, representing an increase of 11.5% compared to the prior year period when the Company incurred total expenses of €1,383.6 million and which included a €6.0 million nonrecurring benefit following the settlement of the Company’s Full-MVNO Agreement with Orange Belgium as well as €7.9 million of transformation costs linked to the BASE integration.

The Company recorded a €29.2 million non-cash restructuring charge linked to the accelerated onboarding of our Full MVNO customer base to our own mobile network. The Company now aims for full completion by the end of Q1 next year versus our initial plan of late 2018, hence impacting the contractual commitments under our Full MVNO Agreement with Orange Belgium.

In addition, the Company’s total expenses in the first nine months ended September 30, 2017 reflected (i) a full nine-month contribution from BASE, (ii) the impact of the SFR BeLux acquisition as of June 19, 2017 and (iii) the sale of Ortel as mentioned above.

The Company’s total expenses increased for the first nine months ended September 30, 2017 as compared to the same period last year as (i) i) higher depreciation and amortization charges, (ii) the impact of the aforementioned restructuring charge, (iii) higher costs related to professional services and (iv) higher network operating expenses were only partially offset by (i) lower indirect costs as a result of the Company’s continued focus on overhead expenses, (ii) lower direct costs including the Company’s MVNO-related costs and costs related to handset sales and subsidies, (iii) lower staff-related expenses and (iv) lower sales and marketing expenses due to timing variances and phasing in some of the Company’s campaigns.

The Company aims to complete its full MVNO network by the end of Q1 2018, resulting in a €29 million non-cash restructuring charge reflecting the contractual commitments under the Full MVNO Agreement with Orange Belgium.

Telenet’s total operating expenses represented approximately 82% of the Company’s revenue for the first nine months of 2017. Cost of services provided as a percentage of Telenet’s revenue represented approximately 63% of the total revenue for the first nine months ended September 30, 2017, while selling, general and administrative expenses represented approximately 19% of the total revenue for the first nine months ended September 30, 2017.

Telenet Group Holding NV

Early termination of derivative financial instruments		—	(10,735)	0	0
Change in fair value		(192,376)	(106,290)	(78,796)	(30,831)
		(192,376)	(117,025)	(78,796)	(30,831)
Loss on extinguishment of debt		(46,715)	(16,853)	(182)	0
		(407,123)	(326,220)	(134,251)	(79,231)
Net finance expenses		(196,828)	(325,867)	(67,768)	(79,150)

For the first nine months ended September 30, 2017, Telenet incurred net finance expenses totaled €196.8 million compared to €325.9 million of net finance expenses incurred for the first nine months of 2016. A €75.4 million higher non-cash loss on the Company's derivatives and a €29.8 million higher non-cash loss on the extinguishment of debt following the early redemption of certain debt instruments during the first nine months of 2017 were more than offset by a €209.9 million non-cash foreign exchange gain on the Company's outstanding USD-denominated debt in the first nine months of 2017. As a result, the Company's net interest income and foreign exchange gain was €210.3 million for the first nine months of 2017 as compared to €0.3 million in the prior year period. The Company's net interest expense, foreign exchange loss and other finance expense decreased 13% from €192.3 million for the first nine months of 2016 to €168.0 million for the first nine months of 2017 as a result of certain recent refinancings which both extended the average maturity of the Company's debt and lowered the Company's overall interest expenses.

5.16 INCOME TAX EXPENSE

	For the nine months ended September 30		For the three months ended September 30	
	2017	2016	2017	2016
	(in thousands of euro)			
Current tax expense	143,064	127,032	60,293	60,851
Deferred tax expense/(income)	(104,921)	(80,836)	(64,836)	(87,626)
Income tax expense	38,143	46,196	(4,543)	(26,775)

Telenet Group Holding NV and its subsidiaries had available combined cumulative tax loss carry forwards of €1,395.3 and €1,227.6 million as of September 30, 2017 and December 31, 2016, respectively. Under current Belgian and Luxembourg tax laws, these loss carry forwards have indefinite lives and may be used to offset future taxable income of Telenet Group Holding NV and its subsidiaries.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

Deferred tax assets are recognized for tax loss carry forwards to the extent that the realization of the related tax benefit through future taxable profits is probable.

The Company did not recognize deferred tax assets of €172.8 and €185.3 million as of September 30, 2017 and December 31, 2016, respectively, related to tax loss carry forward, because it is not considered more likely than not that these net deferred tax assets will be utilized in the future.

5.17 EARNINGS PER SHARE

5.17.1 Basic

The earnings and weighted average number of shares used in calculating basic earnings per share are:

	For the nine months ended September 30,		For the three months ended September 30,	
	2017	2016	2017	2016
(in thousands of euro, except share and per share data)				
Net profit attributable to the equity holders of the Company	104,738	41,764	29,600	61,257
Weighted average number of ordinary shares	115,463,859	115,949,561	115,497,934	115,485,135
Weighted average number of shares used in the calculation of basic earnings per share	115,463,859	115,949,561	115,497,934	115,485,135
Basic earnings per share in €	0.91	0.36	0.26	0.53

5.17.2 Diluted

Diluted earnings per share are calculated by using the treasury stock method by adjusting the weighted average number of shares used in the calculation of basic earnings per share to assume full conversion of all dilutive potential ordinary shares.

During the nine months ended September 30, 2017, the Company had no dilutive potential ordinary shares:

	For the nine months ended September 30,		For the three months ended September 30,	
	2017	2016	2017	2016
Weighted average number of shares used in the calculation of basic earnings per share	115,463,859	115,949,561	115,497,934	115,485,135
Adjustment for:				
Warrant Plan 2010 ter Warrants	—	24,802	—	13,784
Weighted average number of shares used in the calculation of diluted earnings per share	115,463,859	115,974,363	115,497,934	115,498,919
Diluted earnings per share in €	0.91	0.36	0.26	0.53

5.18 ACQUISITION AND DISPOSAL OF A SUBSIDIARY

5.18.1 ACQUISITION OF A SUBSIDIARY

Coditel Brabant SPRL

On June 19, 2017, pursuant to a definitive agreement and following regulatory approval, Telenet acquired 100% of the shares of Coditel Brabant SPRL for a cash purchase price of €391.0 million (the “SFR BeLux” acquisition). Coditel Brabant SPRL, operating under the SFR brand (formerly Numéricable), provides cable services to households and businesses in Brussels, Wallonia and Luxembourg and offers mobile telephony services in Belgium through an MVNO Agreement with BASE (Telenet Group BVBA).

In 2017, the Company incurred acquisition-related costs of €1.3 million on legal fees and due diligence costs. These have been included in ‘Selling, general and administrative expenses’. Total acquisition-related costs incurred for the SFR BeLux acquisition amounts to €2.9 million.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

Through this acquisition, Telenet extends its cable footprint beyond the current Flemish and Brussels coverage areas to parts of Wallonia and the Grand Duchy of Luxembourg, while covering roughly two-thirds of the Brussels footprint after this acquisition. We expect that the SFR BeLux acquisition will provide Telenet with certain annual cost-efficiencies, mainly driven by (1) an extended footprint in Brussels, (2) the introduction of competitive and appealing quadruple-play offers (combination of video, high-speed internet, fixed and mobile telephony), (3) B2B growth and (4) overall cost synergies.

The SFR BeLux acquisition was funded through a combination of two revolving debt facilities for an aggregate amount of €210.0 million (see Note 5.9), and existing liquidity of Telenet. The acquisition was approved by the Belgian Competition Authority subject to conditions intended to ensure that Orange will have access to Coditel's cable network. Telenet has in particular committed that Orange will be able to access Coditel's cable network within four months of completion of the transaction, and this at wholesale prices comparable to those applicable in the Flanders.

We account for the SFR BeLux acquisition using the acquisition method of accounting, whereby the total purchase price is allocated to the acquired identifiable net assets of Coditel based on assessments of their respective fair values, and the excess of the purchase price over the fair values of these identifiable net assets was allocated to goodwill. Due to the restricted access to financial and operational data prior to closing of the acquisition, which occurred on June 19, 2017, the Company was not able to perform a detailed allocation of the total purchase price as of September 30, 2017. The preliminary opening balance sheet is therefore subject to adjustment based on our assessment of the fair values of the acquired identifiable assets and liabilities. The items with the highest likelihood of changing upon the valuation process include property and equipment, goodwill, intangible assets associated with customer relationships and income taxes. The SFR brand was not part of the acquisition and will be terminated in Belgium and Luxembourg by the end of 2019 at the latest.

In the period as from June 19, 2017 till September 30, 2017, SFR BeLux contributed revenue of €17.1 million and a net income of €2.9 million to the Group's results. If the acquisition had occurred on 1 January 2017, management estimates that SFR BeLux revenue would have been €47.7 million, and SFR BeLux operating result for the period would have been €10.8 million. In determining these amounts, management has assumed that the fair value adjustments determined, that arose on the date of acquisition would have been the same if the acquisition had occurred on 1 January 2017.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

A summary of the purchase price and the provisional identifiable assets acquired and liabilities assumed for the SFR BeLux acquisition at the acquisition date is presented in the following table:

<u>(in thousands of euro)</u>	<u>Note</u>	<u>IFRS opening balance sheet</u>	<u>Fair value adjustments</u>	<u>Fair value of identifiable net assets</u>
Assets				
Non-current assets:				
Property and equipment		84,316	—	84,316
Goodwill		61,212	(61,212)	
Other intangible assets		4,997	—	4,997
Other assets		77	—	77
Total non-current assets		150,602	(61,212)	89,390
Current assets:

Total non-current liabilities		21,808	—	21,808
Current liabilities:				
Loans and borrowings		160	—	160
Trade payables		8,562	—	8,562
Accrued expenses and other current liabilities		13,229	—	13,229
Deferred revenue		9,866	—	9,866
Current tax liability		3,107	—	3,107
Total current liabilities		34,924	—	34,924
Total liabilities assumed		56,732	—	56,732
Fair value of identifiable net assets acquired				52,688
Total consideration transferred				390,980
Provisional goodwill arising from the acquisition				338,292

5.18.2 DISPOSAL OF A SUBSIDIARY

Ortel Mobile NV

On February 10, 2017, Telenet Group BVBA sold all shares of its MVNO subsidiary Ortel Mobile NV to LycaMobileBelgium Limited. The agreed upon transfer date of the shares was March 1, 2017.

The consideration received consisted of (1) the purchase price of 1 EUR, (2) the cash and cash equivalents of Ortel Mobile NV on the transfer date amounting to €1.7 million, (3) a discount of €1.7 million on future MVNO services to settle prepaid credits and (4) the agreement for the provision of full MVNO services under the Amended MVNO agreement.

Telenet determined that the net assets of Ortel Mobile NV on March 1, 2017 amounted to €2.1 million. Telenet recorded a net loss on disposal of €2.1 million.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

5.19 COMMITMENTS AND CONTINGENCIES

5.19;1 Pending litigations

Interkabel Acquisition

On November 26, 2007, Telenet and the PICs announced a non-binding agreement-in-principle to transfer the analog and digital television activities of the PICs, including all existing subscribers to Telenet. Subsequently, Telenet and the PICs entered into a binding agreement (the 2008 PICs Agreement), which closed effective October 1, 2008.

Beginning in December 2007, Proximus NV/SA (Proximus), the incumbent telecommunications operator in Belgium, instituted several proceedings seeking to block implementation of these agreements. Proximus lodged summary proceedings with the President of the Court of First Instance of Antwerp to obtain a provisional injunction preventing the PICs from effecting the agreement-in-principle and initiated a civil procedure on the merits claiming the annulment of the agreement-in-principle. In March 2008, the President of the Court of First Instance of Antwerp ruled in favor of Proximus in the summary proceedings, which ruling was overturned by the Court of Appeal of Antwerp in June 2008. Proximus brought this appeal judgment before the Cour de Cassation (the Belgian Supreme Court), which confirmed the appeal judgment in September 2010. On April 6, 2009, the Court of First Instance of Antwerp ruled in favor of the PICs and Telenet in the civil procedure on the merits, dismissing Proximus's request for the rescission of the agreement-in-principle and the 2008 PICs Agreement. On June 12, 2009, Proximus appealed this judgment with the Court of Appeal of Antwerp. In this appeal, Proximus is now also seeking compensation for damages. While these proceedings were suspended indefinitely, other proceedings were initiated, which resulted in a ruling by the Belgian Council of State in May 2014 annulling (i) the decision of the PICs not to organize a public market consultation and (ii) the decision from the PICs' board of directors to approve the 2008 PICs Agreement. In December 2015, Proximus resumed the civil proceedings pending with the Court of Appeal of Antwerp seeking to have the 2008 PICs Agreement annulled and claiming damages of €1.4 billion.

Telenet intends to defend itself vigorously in the resumed proceedings and does not expect an outcome before the end of 2017. No assurance can be given as to the outcome of these or other proceedings. However, an unfavorable outcome of existing or future proceedings could potentially lead to the annulment of the 2008 PICs Agreement and/or to an obligation of Telenet to pay compensation for damages, subject to the relevant provisions of the 2008 PICs Agreement, which stipulate that Telenet is responsible for damages in excess of €20.0 million. We do not expect the ultimate resolution of this matter to have a material impact on our results of operations, cash flows or financial position. No amounts have been accrued by us with respect to this matter as the likelihood of loss is not considered to be probable.

Litigation regarding cable access

In December 2010, BIPT and the regional regulators for the media sectors (together, the Belgium Regulatory Authorities) published their respective draft decisions reflecting the results of their joint analysis of the broadcasting market in Belgium. The Belgium Regulatory Authorities adopted a final decision on July 1, 2011 (the July 2011 Decision) with some minor revisions. The regulatory obligations imposed by the July 2011 Decision include (1) an obligation to make a resale offer at "retail minus" of the cable analog package available to third-party operators (including Proximus), (2) an obligation to grant third-party operators (except Proximus) access to digital television platforms (including the basic digital video package) at "retail minus", and (3) an obligation to make a resale offer at "retail minus" of broadband internet access available to beneficiaries of the digital television access obligation that wish to offer bundles of digital video and broadband internet services to their customers (except Proximus).

In February 2012, Telenet submitted draft reference offers regarding the obligations described above, and the Belgium Regulatory Authorities published the final decision on September 9, 2013. Telenet has implemented the access obligations as described in its reference offers and, on March 1, 2016, Orange Belgium NV (Orange Belgium), formerly known as Mobistar SA, launched a commercial offer combining a cable TV package and broadband internet access for certain of their mobile customers. In addition, as a

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

result of the November 2014 decision by the Brussels Court of Appeal described below, on November 14, 2014, Proximus submitted a request to Telenet to commence access negotiations. Telenet contests this request and has asked the Belgium Regulatory Authorities to assess the reasonableness of the Proximus request. This question is addressed in the Belgian Regulatory Authorities draft market review decisions of July 7, 2017. The timing for a decision regarding this assessment by the Belgium Regulatory Authorities is not known.

On December 14, 2015, the Belgium Regulatory Authorities published a draft decision, which amended previously-issued decisions, and sets forth the “retail minus” tariffs of minus 26% for basic television (basic analog and digital video package) and minus 18% for the bundle of basic television and broadband internet services during an initial two-year period. Following this two-year period, the tariffs would change to minus 15% and 7%, respectively. The draft decision was notified to the E.U. Commission and a final decision was adopted on February 19, 2016. A “retail minus” method of pricing involves a wholesale tariff calculated as the retail price for the offered service by Telenet, excluding value added tax (VAT) and copyrights, and further deducting the retail costs avoided by offering the wholesale service (such as costs for billing, franchise, consumer service, marketing and sales).

Telenet filed an appeal against the July 2011 Decision with the Brussels Court of Appeal. On November 12, 2014, the Brussels Court of Appeal rejected Telenet’s appeal of the July 2011 Decision and accepted Proximus’s claim that Proximus should be allowed access to Telenet’s, among other operators, digital television platform and the resale of bundles of digital video and broadband internet services. On November 30, 2015, Telenet filed an appeal of this decision with the Belgian Supreme Court. In 2014, Telenet and wireless operator Orange Belgium each filed an appeal with the Brussels Court of Appeal against the initial retail minus decision. On April 25, 2016, Telenet also filed an appeal with the Brussels Court of Appeal challenging the February 19, 2016 retail minus decision. On October 25, 2017, the Court of Appeal rendered a judgment annulling both the 2013 and 2016 retail minus decisions, with effect as of April 30, 2018.

The July 2011 Decision aims to, and in its application may, strengthen Telenet’s competitors by granting them resale access to Telenet’s network to offer competing products and services notwithstanding Telenet’s substantial historical financial outlays in developing the infrastructure. In addition, any resale access granted to competitors could (1) limit the bandwidth available to Telenet to provide new or expanded products and services to the customers served by its network and (2) adversely impact Telenet’s ability to maintain or increase its revenue and cash flows. The extent of any such adverse impacts ultimately will be dependent on the extent that competitors take advantage of the resale access ultimately afforded to Telenet’s network and other competitive factors or market developments.

Orange request for access to Coditel’s network

On 11 February 2016, Orange Belgium SA (“Orange”) made an official request for access to the cable network of Coditel, which was acquired by Telenet Group on 19 June 2017. On 19 February 2016, Orange transferred a sum of EUR 600,000 to Coditel as required to launch the six-month implementation period to put in place the necessary measures to give Orange access to the cable network pursuant to the July 2011 Decision. In principle, the implementation period ended on 19 August 2016. As Orange had not yet obtained effective access to Coditel’s network in December 2016, Orange brought a claim for damages against Coditel on 29 December 2016 in front of the French-speaking Commercial Court of Brussels. Orange claimed to have suffered a loss of EUR 8,973 per day of delay. On 16 January 2017, Orange also initiated interim proceedings, but these have in the meantime been withdrawn.

The proceedings in front of the French-speaking Commercial Court of Brussels are still ongoing. Coditel considers that Orange has in the meantime obtained effective access to Coditel’s cable network.

Cable ownership related legal proceedings

The municipality of Sint-Lambrechts-Woluwe granted the right to operate the cable network on its territory to WoluTV ASBL (“WoluTV”) in 1971. Telenet provided a number of technical services to WoluTV in accordance with agreements dated February 11, 1998 (analog television) and September 3, 2007 (digital

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

television). Telenet and WoluTV also concluded two agreements on May 7 and September 3, 2007 respectively, pursuant to which Telenet provided, in its own name and for its own account, internet and telephony services on the municipality's cable network. On December 16, 2014, WoluTV terminated the agreements with Telenet with effect on December 31, 2015.

The agreements terminated by WoluTV provide that WoluTV must compensate Telenet for all costs, damages and losses as a consequence of termination of the agreements. WoluTV has disputed that this clause is valid under Belgian law and has therefore refused to designate an expert to determine the amount of the compensation owed to Telenet. Telenet brought a claim against WoluTV before the Commercial Court of Brussels on November 10, 2015, whereby Telenet requested provisional compensation of €1 million (increased with interest), and that the Court appoint an expert to determine the compensation owed by WoluTV. The case is currently pending before the Commercial Court of Brussels.

Separately, on April 28, 2015, the municipality of Sint-Lambrechts-Woluwe decided to sell its cable network. On June 29, 2015, the municipality awarded the purchase contract to Coditel Brabant SPRL (SFR) ("Coditel") for €18 million. Telenet, who had also submitted an offer to purchase the cable network, brought an action for annulment of the municipality's decision before the Council of State. Telenet has withdrawn its action for annulment in view of the acquisition of Coditel.

Copyright related legal proceedings

The issue of copyrights and neighboring rights to be paid for the distribution of television has during the last two decades given rise to a number of litigations. Already in 1994, the Belgian Radio and Television Distributors Association (Beroepsvereniging voor Radio- en Televisiedistributie / Union professionnelle de radio et de télédistribution) (the "RTD", renamed afterwards to "Cable Belgium") was involved in discussions with various copyrights collecting agencies regarding the fees to be paid to the latter for the analogue broadcasting of various television programs. In November 2002, the RTD, together with certain Belgian cable operators (among which Telenet), began reaching settlements with the copyright collecting agencies and broadcasters. Pursuant to those settlement agreements, to which Telenet acceded, Telenet agreed to make certain upfront payments as well as to make increased payments over time. Consequently, in August 2003, Telenet increased the copyright fee it charges its subscribers. In July 2004, the Association for the Collection, Distribution and Protection of the Rights of the Artists, Interpreters and Performers (CVBA Vereniging voor de inning, repartitie en de verdediging van de vertolkende en uitvoerende kunstenaars) ("Uradex", later renamed to "Playright") filed a claim against the RTD for €55 million plus interest concerning neighboring rights owed by the members of the RTD to artists and performers represented by Uradex during the period from August 1994 through the end of July 2004.

After the roll-out of digital television, Telenet in 2006 started a judicial procedure against a number of collecting agencies. This procedure is related to a discussion between Telenet and these collecting agencies about the legal qualification of (i) simulcast (i.e. channels distributed both in analogue and in digital quality), (ii) direct injection (i.e. channels delivered to the distributor over a non-publicly accessible transmission channel) and (iii) all rights included contracts (i.e. contracts in which broadcasters engage to deliver their signals and programs after having cleared all rights necessary for the communication to the public over the distributor's networks).

On April 12, 2011, the Court of First Instance of Mechelen rendered a positive judgment in the procedure against Sabam, Agicoa, Uradex and other collecting agencies, and as part of which procedure several collecting agencies (Sabam not included) filed counterclaims against Telenet for the payment of the invoices that Telenet disputed. The Court validated Telenet's arguments in each of the claims and counterclaims that were the subject of the procedure and, as a result: (i) no retransmission fees have to be paid by Telenet in case of direct injection of a broadcaster's signal into Telenet's network, (ii) no retransmission fees have to be paid in case of simulcast of an analog and digital signal (and consequently, Telenet does not have to pay extra for the distribution of linear digital television signals) and (iii) all-rights-included contracts are deemed legally valid, which means that if Telenet agrees with a broadcaster that the latter is responsible for clearing all copyrights, Telenet is not liable towards the collecting agencies. The collecting agencies lodged an appeal (see below).

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

Since Sabam had not filed any counterclaim for the payment of invoices as part of the aforesaid judgment, on April 6, 2011, Sabam (not the other collecting agencies) initiated judicial proceedings before the Commercial Court of Antwerp, claiming payment by Telenet of invoices relating to (a) fees for a period from January 1, 2005 until December 31, 2010 for Telenet's basic digital television package, and (b) fee advances for the first semester of 2011 for Telenet's basic and optional digital television packages. The claims mainly related to (i) direct injection and (ii) all-rights-included contracts. Sabam's claim was based on arguments substantially similar to those rejected by the Court of First Instance in Mechelen on April 12, 2011. As discussed below, Sabam has asked the Commercial Court of Antwerp to withdraw these claims as Sabam has filed similar claims in the pending proceedings before the Brussels Court of Appeal. Simultaneously, Sabam initiated a summary procedure before the President of the Commercial Court of Antwerp, to receive provisional payment of the contested fees and fee advances. On June 30, 2011, the President of the Commercial Court of Antwerp rendered a positive judgment for Telenet in this procedure. Sabam lodged an appeal. On June 27, 2012, the Court of Appeal of Antwerp confirmed this judgment and dismissed the claim in summary proceedings of Sabam.

In the case of the appeal against the judgment of April 12, 2011 of the Court of First Instance of Mechelen, the Court of Appeal of Antwerp rendered an intermediate ruling on February 4, 2013. The Court of Appeal rejected the claims of the collecting societies with regard to simulcasting and confirmed that direct injection is a single copyright relevant operation (royalties should therefore be paid only once). The case was reopened to allow the collecting societies to provide further proof of their actual claims. On January 20, 2014 and on May 5, 2014, respectively, Numéricable (previously Coditel) and Telenet appealed this intermediate ruling before the Supreme Court mainly because of the incorrect qualification of the fees to be paid for the communication to the public as if it would be "retransmission" rights. The Supreme Court has issued its judgment in this matter on September 30, 2016. The Supreme Court accepted the argument of Telenet that direct injection only involves a single communication to the public and therefore cannot constitute "retransmission" as this requires two communications to the public. The Supreme Court has referred the case to the Court of Appeal of Brussels, where the case has recently been activated upon request of Sabam. In the context of these proceedings Sabam now has filed a counterclaim for copyrights due as from 2005 to 2016 (all claims combined), withdrawing its claims that were pending before the Antwerp Commercial Court. In view of the complexity of the matter and the number of parties involved, it will take at least another year before a decision is rendered. Numéricable had reached a settlement with the collecting societies before, and has already withdrawn its appeal. Telenet does not expect the ultimate resolution of this matter to have a material impact on its results of operations or financial condition.

Pylon taxes

Since the second half of the 1990s, certain municipalities (mainly in the Brussels-Capital and Walloon Regions), provinces and the Walloon Region have levied local taxes, on an annual basis, on pylons, masts and/or antennas dedicated to mobile telecom services located on their territory, on the basis of various municipal, provincial and regional regulations. These taxes have systematically been contested by Telenet Group BVBA (formerly BASE Company NV) ("Telenet Group") before the Courts on various grounds.

In particular, Telenet Group has argued that such tax regulations are discriminatory because they apply only to pylons, masts and antennas dedicated to mobile telecom services and not to comparable equipment used for other purposes (whether telecom-related or not). Telenet believes that there is no objective and reasonable justification for such differentiated tax treatment. Telenet is therefore of the view that the contested tax regulations violate the general non-discrimination principle. The Courts have in a number of instances accepted this argument (cf. positive judgment of the Supreme Court of September 25, 2015).

There was also a question as to whether article 98 §2 of the Belgian law of March 21, 1991 on the reform of certain public economic companies (the "1991 Law") prohibits municipalities from taxing the economic activity of telecom operators on their territories through the presence (whether on public or private domain) of mobile telephone pylons, masts or antennas dedicated to this activity. The Belgian Constitutional Court held on December 15, 2011 that this was not the case. That interpretation was confirmed by the Belgian Supreme Court in its judgments of March 30, 2012.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

In the case between Telenet Group and the City of Mons, the European Court of Justice ruled on October 6, 2015 that the municipal tax on GSM pylons levied by the City of Mons, as disputed by Telenet Group, does not fall within the scope of Article 13 of Directive 2002/20/EC of the European Parliament and of the Council of 7 March 2002 on the authorization of electronic communications networks and services (the “Authorization Directive”) and is therefore not prohibited on the basis van Article 13 of the Authorization Directive.

By Decree of December 11, 2013 (the “2014 Walloon Decree”), the Walloon Region implemented an annual tax on masts, pylons and antennas for mobile operators with effect of January 1, 2014. Under this Decree, all municipal taxes on pylons, mast and antennas in the Walloon Region have been abolished. The Decree does however allow municipalities to levy surcharges. The tax amounts to EUR 8,000 per ‘site’. Under the Decree all users of ‘sites’ are jointly liable towards the Walloon Region for the tax related to shared sites. On December 12, 2014, a Walloon Decree was adopted that maintains this tax for 2015 and subsequent years, with the same scope and tax payable (EUR 8,000 per ‘site’, subject to indexation as of 2015) (the “2015 Walloon Decree”). The three Belgian mobile network operators brought a request for annulment of these Decrees before the Constitutional Court.

On July 16, 2015, the Constitutional Court annulled the 2014 Walloon Decree, but decided to maintain its effects. By judgment of May 25, 2016, the Constitutional Court also annulled the 2015 Walloon Decree, without maintaining its effects. On December 22, 2016, Telenet and the other mobile operators concluded a settlement with the Walloon Region. In addition to payment of a settlement fee to end the dispute related with the 2014 Walloon Decree, this settlement also includes an undertaking from the Walloon Region not to levy any taxes on telecom infrastructure and a commitment for Telenet to invest EUR 20 million until 2019 on top of the investments already planned in the Walloon Region. Telenet intends to continue challenging any local tax regulations applicable to its mobile telecom equipment. As per June 30, 2017, Telenet has recognised a provision of €21.6 million in this respect. Telenet and the KPN Group have moreover agreed on certain recourse arrangements in respect of certain (pre-2015) pylon taxes in their sale and purchase agreement with respect to BASE Company NV (now Telenet Group BVBA). It can however not be excluded that other taxes on telecom equipment will in the future be imposed, which may have a significant negative financial impact on Telenet.

5.20 SUBSEQUENT EVENTS

Completion of the Extended Share Repurchase Program 2017

At October 27, 2017, the Company successfully completed the Extended Share Repurchase Program 2017, as announced on February 16, 2017 (the “Share Repurchase Program 2017”) and amended on August 2, 2017 (the “Extended Share Repurchase Program 2017”). Under the Extended Share Repurchase Program 2017, the Company could acquire up to 1.1 million ordinary shares until December 31, 2017. The share repurchases were subject to the terms and conditions approved by the Company’s extraordinary general shareholders’ meeting of April 30, 2014. Under the Extended Share Repurchase Program 2017, the Company acquired 1.1 million own shares for a total consideration of €61.6 million. At 27 November, 2017, the Company held 2,252,026 own shares, representing 1.92% of the total number of outstanding shares.

Acquisition of Belgian ICT integrator Nextel

On November 6, 2017, the Company announced that its direct subsidiary Telenet Group BVBA had entered into an agreement with the current shareholders of TelelinQ NV on October 31, 2017 concerning the acquisition of TelelinQ NV, and its subsidiaries Nextel NV, Nextel Telecom Solutions NV and TelelinQ Distribution & Finance NV (hereafter “Nextel”). In order to support the Company’s growth ambitions in the Belgian B2B market, this acquisition will provide the Telenet group with additional in-house expertise to design, construct and manage total solutions on behalf of other companies. As a Belgian integrator, Nextel currently works for major companies, SMEs, care institutions, non-profit organizations and government authorities. Nextel has offices in Wommelgem and Zaventem and to date has 315 permanent employees, having generated revenue of approximately €47.0 million in 2016. The acquisition will be submitted to the Belgian Competition Authority for approval, before it can be executed.

Telenet Group Holding NV

Notes to the Condensed Consolidated Interim Financial Statements September 30, 2017

Employee Share Purchase plan 2017

In 2016, the board of directors approved the issuance of a new Employee Share Purchase Plan (the “Employee Share Purchase Plan 2017” or “ESPP 2017”) within the limits of the authorized capital as approved by the extraordinary shareholder’s meeting of April 26, 2017, for a maximum amount of €5.0 million (excluding share premium). In September 2017, the board of directors offered to all of Telenet’s employees (excluding SFR Belux) the opportunity to purchase new shares of the Company under the terms of the ESPP 2017 at a discount of 16.67% to the average share purchase price over the 20 business day period starting 27 September 2017. Based on the average share price of €58.05 during this 20 business day period, the shares were offered to the personnel at a subscription price of €48.38.

Statutory auditor's report to the board of directors of Telenet Group Holding NV on the review of the condensed consolidated interim financial information as at 30 September 2017 and for the 9-month period then ended.

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Telenet Group Holding NV as at 30 September 2017, the condensed consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the 9-month period then ended, and notes to the interim financial information ("the condensed consolidated interim financial information"). The board of directors is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information as at 30 September 2017 and for the 9-month period then ended is not prepared, in all material respects, in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union.

The notes are an integral part of these consolidated financial statements.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5. Notes to the consolidated financial statements for the year ended December 31, 2016

5.1 Reporting entity and basis of preparation

5.1.1 Reporting entity

The accompanying consolidated financial statements present the operations of Telenet Group Holding NV, its subsidiaries and other consolidated companies (hereafter collectively referred to as the “Company” or “Telenet”). Through its broadband network, the Company offers basic and enhanced video services, including pay television services, broadband internet and fixed-line telephony services to residential subscribers in Flanders and certain communes in Brussels as well as broadband internet, data and voice services in the business market throughout Belgium and parts of Luxembourg. The Company also offers mobile telephony services through an MVNO Arrangement with Orange and through its own mobile network following the acquisition of BASE on February 11, 2016. Telenet Group Holding NV and its principal operating subsidiaries are limited liability companies organized under Belgian law. Subsidiaries and structured financing entities (“SEs”) have been incorporated in Luxembourg in order to structure the Company’s financing operations.

5.1.2 Basis of preparation

In accordance with the EU Regulation 1606/2002 of July 19, 2002, the consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the EU (“EU IFRS”). The financial statements have been prepared on the historical cost basis, except for certain financial instruments, which are measured at fair value. The methods used to measure fair values are discussed further in note 5.2.8. The principal accounting policies are set out in section 5.2 below.

5.1.3 Functional and presentation currency

These consolidated financial statements are presented in euro (“€”), which is the Company’s functional currency, rounded to the nearest thousand except when indicated otherwise.

5.1.4 Use of estimates and judgments

The preparation of financial statements in accordance with EU IFRS requires the use of certain critical accounting estimates and management judgment in the process of applying the Company’s accounting policies that affects the reported amounts of assets and liabilities and disclosure of the contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in the following notes:

- note 5.3.6: Financial instruments: fair values
- note 5.4: Property and equipment
- note 5.5: Goodwill
- note 5.6: Other intangible assets
- note 5.7.1: Investments in and loans to equity accounted investees
- note 5.14: Derivative financial instruments
- note 5.15: Deferred taxes
- note 5.16: Other non-current liabilities—Asset Retirement obligation
- note 5.18: Accrued expenses and other current liabilities—Liabilities for tax on sites
- note 5.24: Acquisition of subsidiary—Purchase price allocation

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

A number of the Company's accounting policies and disclosures require the measurement of fair value, for both financial and non-financial assets and liabilities. When measuring the fair value of an asset or liability, the Company uses market observable data to the extent available.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the fair value techniques, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For further information about the assumptions made in measuring fair values we refer to note 5.3.6 Financial Instruments and note 5.12.2 Employee share based compensation.

5.1.5 Going Concern

The consolidated financial statements as of December 31, 2016 showed a negative consolidated equity amounting to €1,207.6 million, mainly as a result of the Company's historical shareholder disbursements policy, including various capital reductions.

The Company considers its most optimal equity structure on a consolidated level, based on a certain net leverage range as described in note 5.3.5, even in case of a negative equity on a consolidated level.

The board of directors has considered the Company's net equity position and has prepared the consolidated financial statements applying the accounting policies consistently on a going concern basis taking into account amongst others:

- the forecasted earnings for the next year;
- a projected steadily strong positive cash flow for the next year;
- maturities of financial obligations as disclosed in note 5.3.3.

5.1.6 Reporting changes

As of January 1, 2016, carriage fees are no longer recognized as revenue, but are netted off against direct expenses as Telenet considers charged carriage fees and the purchase of distributable content as a single transaction going forward. In addition, reminder fees are recognized as revenue from January 1, 2016 as these fees are considered to represent a separately identifiable revenue stream, whereas previously reminder fees were recognized net of the related costs in the indirect expense line. The two aforementioned changes in presentation favorably impacted Telenet's revenue and unfavorably impacted Telenet's cost of services provided for the year ended December 31, 2016 by €14.6 million and for the year ended December 31, 2015 by €13.4 million, but did not impact the Company's operating profit and cash flows.

5.1.7 Approval by board of directors

These consolidated financial statements were authorized for issue by the board of directors on March 20, 2017.

5.2 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements.

No changes to the significant accounting policies have been made, except as explained in note 5.2.19, which addresses new standards, interpretations, amendments and improvements.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.2.1 Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Company. The consolidated financial statements include the accounts of Telenet Group Holding NV and all of the entities that it directly or indirectly controls. Intercompany balances and transactions, and any income and expenses arising from intercompany transactions, are eliminated in preparing the consolidated financial statements.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a negative balance.

Structured Entities

The Company has established SEs for financing purposes. The Company does not have any direct or indirect shareholdings in these entities. An SE is consolidated if, based on an evaluation of the substance of its relationship with the Company and the SE's risks and rewards, the Company concludes that it controls the SE.

Associates and joint ventures

The Company's interest in equity-accounted investees comprises interests in associates and joint ventures.

Associates are those entities in which the Company has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Company has joint control, whereby the Company has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and the joint ventures are accounted for using the equity method and are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Company's share of the profit or loss and other comprehensive income of the equity-accounted investees, until the date on which significant influence or joint control ceases.

5.2.2 Segment Reporting

Operating segments are the individual operations of a company that the chief operating decision maker ("CODM") reviews regularly in allocating resources to these segments and in assessing segment performance. Telenet's segment reporting is presented based on how Telenet's internal financial information is organized and reported to the CEO, who is Telenet's CODM, the Senior Leadership Team and the board of directors.

The CEO, the Senior Leadership Team and the board of directors of Telenet manage the Company's telecommunication business, inclusive of the recent acquisition of BASE as a single operation, driven by the Company's fixed and mobile convergence strategy for both the residential and business markets which is demonstrated in the Company's all-in offer called WIGO. They assess the Company's performance and make resource allocation decisions based on an overall Profit and Loss Statement. The Profit and Loss Statement is analyzed at least on a monthly basis with only revenue and direct costs allocated to separate product and service lines. The primary measure of profit within the Profit and Loss Statement used by the CODM to assess performance is Adjusted EBITDA, and the Profit and Loss Statement does not present Adjusted EBITDA for separate product and service lines. Notwithstanding that revenue and direct costs are allocated to the separate product and service lines, as a differentiated Profit and Loss Statement is not used

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

by the CODM to manage Telenet's operations, assess performance or make resource allocation decisions, Telenet has determined that its operations constitute one single segment.

In respect of the Company's 50% investment in De Vijver Media NV, the Company determined that the De Vijver Media business is a separate operating segment that is not a reportable segment.

5.2.3 Property and equipment

Property and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. When components of an item of property and equipment have different useful lives, they are accounted for as separate components of property and equipment. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

Depreciation is recognized in the statement of profit or loss and other comprehensive income on a straight-line basis over the estimated useful lives of each component of property and equipment.

The following useful lives are used for the depreciation of property and equipment:

- Buildings and improvements 10-33 years
- Network 3-30 years
- Furniture, equipment and vehicles 2-10 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

Government grants related to assets are recorded as a deduction from the cost in arriving at the carrying amount of the asset. The grant is recognized in the income statement over the life of a depreciable asset as a reduction of depreciation expense.

The Company includes borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset.

The cost of replacing a component of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced component is derecognized. The costs of repairs and maintenance of property and equipment are recognized in the consolidated statement of profit or loss and other comprehensive income as incurred.

The fair value of property and equipment recognized as a result of a business combination is based on market values. The market value of property is the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction. The market price of items of equipment is based on the quoted market prices for similar items.

It is the Company's policy to remove an asset's gross cost and accumulated depreciation at the end of an asset's useful life if the asset is no longer used by the Company, except when the asset is classified as held for sale.

5.2.4 Intangible assets

Intangible assets with finite useful lives are measured at cost and are amortized on a straight-line basis over their estimated useful lives as follows:

- Network user rights Life of the contractual right
- Trade name 10 to 20 years
- Customer relationships and supply contracts 5 to 15 years
- Broadcasting rights Life of the contractual right
- Software development costs 3 to 4 years
- Out of market component on future lease obligations acquired as part
of a business combination Term of the lease agreement

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Amortization methods, useful lives and residual values are reviewed at each reporting date and are adjusted if appropriate.

Costs associated with maintaining computer software are recognized as an expense as incurred. Costs that are directly associated with the production of identifiable and unique software products controlled by the Company, and that will probably generate economic benefits exceeding costs beyond one year, are recognized as intangible assets.

Capitalized internal-use software costs include only external direct costs of materials and services consumed in developing or obtaining the software and payroll and payroll-related costs for employees who are directly associated with and who devote time to the project. Capitalization of these costs ceases no later than the point at which the project is substantially complete and ready for its intended purpose. Internally-generated intangible assets are amortized on a straight-line basis over their useful lives. Where no internally-generated intangible asset can be recognized, development expenditure is recognized as an expense in the period in which it is incurred.

Broadcasting rights are capitalized as an intangible asset when the value of the contract is measurable upon signing. For such broadcasting rights with respect to movies the amortization during the first three months of the license period are based on the actual number of runs to reflect the pattern of consumption of the economic benefits embodied in the content rights. As for the remaining months of the license period the pattern of consumption of the future economic benefits can no longer be determined reliable, the straight-line method is used until the end of the license period. Broadcasting rights with respect to sports contracts are amortized on a straight-line basis over the sports season.

Subsequent expenditure on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated brands, is recognized in the statement of profit or loss and other comprehensive income as incurred.

The fair value of customer relationships acquired in a business combination is determined using the multi-period excess earnings method, whereby the subject asset is valued after deducting a fair return on all other assets that are part of creating the related cash flows.

The fair value of trade names acquired in a business combination is based on the discounted estimated royalty payments that have been avoided as a result of the trade name being owned.

The fair value of mobile spectrum licenses acquired in a business combination is based on the market approach, using the price quote of the most recent relevant spectrum license auctions.

The fair value of other intangible assets is based on the discounted cash flows expected to be derived from the use and eventual sale of the assets.

It is the Company's policy to remove an asset's gross cost and accumulated amortization at the end of an asset's useful life if the asset is no longer used by the Company, except when the asset is classified as held for sale.

5.2.5 Impairment of financial and non-financial assets

Financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its fair value.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses are recognized in the statement of profit or loss and other comprehensive income. Any cumulative loss in respect of an available-for-sale financial asset recognized previously in equity is transferred to profit or loss.

The Company's interest in equity-accounted investees are assessed at each reporting date to determine whether there is objective evidence of impairment.

Objective evidence of impairment includes :

- default or delinquency by a debtor;
- restructuring of an amount due to the Company on terms that the Company would not consider otherwise;
- indications that a debtor or issuer will enter bankruptcy;
- adverse changes in the payment status of borrowers or issuers;
- the disappearance of an active market for a security because of financial difficulties; or
- observable data indicating that there is a measurable decrease in the expected cash flows from a group of financial assets.

An impairment loss in respect of an equity-accounted investee is measured by comparing the recoverable amount of the investment with its carrying amount. An impairment loss is recognized in profit or loss, and is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized.

Non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit or loss and other comprehensive income. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amounts of the other assets in the unit or group of units on a pro rata basis.

In respect of assets other than goodwill, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.2.6 Acquisition accounting and goodwill

Business combinations are accounted for using the acquisition method as of the acquisition date, which is the date on which control is transferred to the Company. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Company takes into consideration potential voting rights that currently are exercisable.

The Company measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognized amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
- the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

In respect of equity accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment. The cost of an investment in an equity-accounted investee comprises the purchase price and other costs directly attributable to the acquisition of the investment.

Goodwill is initially recognized as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

Goodwill is tested for impairment annually, or more frequently when there is an indication that it may be impaired. Goodwill arising in a business combination is allocated to the acquirer's cash generating units that are expected to benefit from the synergies of the business combination in which goodwill arose. This is irrespective of whether other assets or liabilities of the acquiree are assigned to those units. If the recoverable amount of the cash-generating unit is less than the carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets pro-rata on the basis of the carrying amount of each asset. An impairment loss recognized for goodwill is not reversed in a subsequent period.

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Company incurs in connection with a business combination are expensed as incurred.

5.2.7 Foreign currency transactions

The Company's functional and presentation currency is the euro, which is also the functional currency of each of the Company's subsidiaries. Transactions in currencies other than the euro are translated at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing on the balance sheet date. Gains and losses arising on translation are included in profit or loss for the period.

5.2.8 Financial instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise cash and cash equivalents, trade and other receivables, loans and borrowings, trade and other payables, and investments and loans to equity accounted investees.

Cash and cash equivalents

Cash equivalents consist principally of cash at bank and money market funds with remaining maturities at acquisition of 3 months or less. Except for money market funds, which are recognized at fair value with changes through the statement of profit or loss and other comprehensive income, cash and cash equivalents are carried at amortized cost using the effective interest rate method, less any impairment losses.

The carrying amounts of cash and cash equivalents approximate fair value because of the short maturity of those instruments.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Trade receivables

Trade receivables do not carry any interest and are stated at their amortized cost less any allowance for doubtful amounts.

The fair value of trade and other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

Loans and borrowings

Interest-bearing bank loans are recorded at the proceeds received, net of direct issuance costs. Finance charges, including premiums payable on settlement or redemption and direct issuance costs, are accounted for on an accrual basis using the effective interest method and are recorded as a component of the related debt to the extent that they are not settled in the period in which they arise.

The Company initially recognizes debt securities issued on the date that they are originated. Such liabilities are recognized initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest rate method.

Deferred financing fees related to undrawn facilities are recognized as other non-current assets if it is probable that the facility will be drawn down.

In case of a modification or exchange of a debt instrument, a substantial modification is accounted for as an extinguishment. In order to determine if a modification is substantial, the Company compares the present value of the remaining cash flows of the old debt instrument to the present value of the cash flows on the modified instrument (including principal, interest, and other amounts paid to or received from the creditors). If the difference between these present values is greater than 10%, then the modification is deemed substantial. In such case, the associated unamortized deferred financing fees related to the old debt instrument is expensed as a loss on extinguishment of debt. If the exchange was not a substantial modification, then the remaining unamortized deferred financing fees of the old debt remain and are amortized over the term of the corresponding new debts, using the effective interest method. The modification or exchange of a debt instrument resulting in a new debt denominated in another currency is treated as a substantial modification.

Trade payables

Trade payables are not interest bearing and are stated at amortized cost. The carrying amounts of trade payables approximate fair value because of the short maturity of those instruments.

With certain suppliers a vendor financing program is entered into with a financial institution. Under such program, suppliers entering the system are paid by the bank earlier than their regular payment terms at a discount or at their regular payment terms without a discount while Telenet only has to pay the bank after 360 days. Consequently, the vendor financing liabilities are accounted for as current portion of loans and borrowings (note 5.13) on the balance sheet. With respect to the classification of vendor financing in the Company's consolidated statement of cash flows, the company records:

- for operational expense related invoices (OPEX) the Company records cash outflows from operations and a corresponding cash inflow in financing activities when the expenses are incurred. When the Company pays the bank, the Company records financing cash outflows;
- for capital expense related invoices (CAPEX) cash used in financing activities upon payment of the short term debt by the Company to the bank after 360 days.

Derivative financial instruments

The Company's activities are exposed to changes in foreign currency exchange rates and interest rates.

The Company seeks to reduce its exposure through the use of certain derivative financial instruments in order to manage its exposure to exchange rate and interest rate fluctuations arising from its operations and funding.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

The use of derivatives is governed by the Company's policies approved by the board of directors, which provides written principles on the use of derivatives consistent with the Company's risk management strategy.

Derivatives are measured at fair value. The Company does not apply hedge accounting to its derivative instruments. Accordingly, changes in the fair values of derivative instruments are recognized immediately in the statement of profit or loss and other comprehensive income.

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of host contracts and the host contracts are not carried at fair value through the statement of profit or loss and other comprehensive income.

For (cross currency) interest rate derivative contracts that are terminated prior to maturity, the cash paid or received upon termination that relates to future periods is classified as a financing activity in the consolidated statement of cash flows.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

When share capital recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognized as a deduction from equity. Repurchased shares are presented in the reserve for own shares. When own shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is presented in share premium.

5.2.9 Revenue recognition

Subscription fees for telephony, internet and premium cable television are prepaid by subscribers on a monthly basis and recognized in revenue as the related services are provided, i.e. in the subsequent month. Subscription fees for analog cable television are prepaid by subscribers predominantly on an annual basis and recognized in revenue on a straight-line basis over the following twelve months. Revenue from usage based premium television, mobile and fixed telephone and internet activity is recognized on actual usage.

Installation fees charged to residential customers are recognized as revenue by reference to the stage of completion of the installation. As installation ordinarily does not take long, installation fees are recognized generally as revenue on completion of the installation. Due to the specific characteristics of a business transaction, upfront installation fees charged to business customers are considered part of an integrated solution. The installation is not considered to have stand-alone value and revenue from installation fees charged to business customers is recognized on a straight-line basis as the ongoing services are provided, i.e. deferred and recognized over the term of the arrangement.

Together with subscription fees, basic cable television subscribers are charged a copyright fee for the content received from public broadcasters that is broadcasted over the Company's network. These fees contribute to the cost the Company bears in respect of copyright fees paid to copyright collecting agencies for certain content provided by the public broadcasters and other copyright holders. The Company reports copyright fees collected from cable subscribers on a gross basis as a component of revenue due to the fact that the Company is acting as a principal in the arrangement between the public broadcaster and other copyright holders which does not represent a pass-through arrangement. Indeed, the Company bears substantial risk in setting the level of copyright fees charged to subscribers as well as in collecting such fees.

For multiple element arrangements, the recognition criteria of revenue are applied to the separately identifiable components of the transaction. A component within an arrangement is separated if it has stand-alone value to the customer and if its fair value can be measured reliably. The fair value of the consideration received or receivable is allocated to the separate components of the arrangement using the

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

residual fair value method. The allocation of arrangement consideration to delivered items is limited to amounts of revenue that are not contingent on the Company's future performance.

Revenue from prepaid mobile phone cards is recognized at facial value as deferred income at the time of sale and recognized in revenue upon usage of the call value.

Revenue from termination fees is recognized at the time of the contract cancellation, if and only if collectability of the fee is reasonably assured. If collectability of the termination fee is not reasonably assured at the time of billing, revenue is deferred until cash is received.

Customers may be charged a downgrade fee when they switch to a lower tier service. Generally, the downgrade is not considered to have stand-alone value to the customer and downgrade fees are therefore deemed to be part of the overall consideration for the ongoing service. Revenue from downgrade fees is recognized on a straight-line basis over the longer period of (i) the related subscription contract or (ii) the expected remaining length of the customer relationship.

Digital television customers may rent a set-top box from Telenet. When customers elect to change the type of set-top box that they rent from Telenet, they may be charged a swap fee. The swap to a different type of set-top box is not considered to have stand-alone value to the customer and revenue from swap fees is recognized on a straight-line basis over the shorter period of (i) the expected remaining length of the customer relationship or (ii) the useful life of the set-top box.

Amounts billed for certain premium voice and SMS content are not presented as revenues but are netted against the corresponding expenses, because Telenet carries no legal responsibilities for the collection of these services and acts solely on behalf of the third-party content providers.

Revenue from mobile handset sales transactions, for which the customer entered into a consumer credit agreement with the Company and for which distinct service and payment obligations are applicable from those related to an airtime service contract, is recognized at the time of the sale of the handset as the customer takes full legal title to the handset and realization of the revenue with respect to the mobile handset is not contingent on the satisfactory delivery of future (airtime) services. This revenue is recognized upon the sale of the handset, if and only if collectability of all monthly payments is reasonably assured.

Wholesale revenue earned under MVNO agreements is billed on a monthly basis and recognized in accordance with the usage of the services provided in accordance with the specifications as contractually agreed upon.

Interconnection revenue paid by other telecommunication operators for use of our network, as well as roaming revenue resulting from receiving or making calls abroad is recognized upon usage.

Revenue from reminder fees are considered to represent a separately identifiable revenue stream and are therefore recognized as revenue.

5.2.10 Operating expenses

Operating expenses consist of interconnection and roaming costs, network operations, maintenance and repair costs and cable programming costs, including employee costs and related depreciation and amortization charges. The Company capitalizes most of its installation costs, including direct labor costs. Copyright and license fees paid to the holders of those rights and their agents are the primary component of the Company's cable programming costs. Other direct costs include costs that the Company incurs in connection with providing its residential and business services, such as interconnection charges as well as bad debt expense. Network costs consist of costs associated with operating, maintaining and repairing the Company's broadband network and customer care costs necessary to maintain its customer base.

Certain municipalities and provinces levy local taxes on an annual basis on masts, pylons and antennas. These taxes do not qualify as income taxes and are recorded as operational taxes. Given the uncertainties surrounding the lawfulness, the Company continues to account for this as a risk in accordance with IAS 37. As the levy is triggered based on the pylons at the beginning of each fiscal year, a liability and the related expense are recognized in accordance with IFRIC 21 at the beginning of each year. Interest charges related to the non-payment of this tax are recognized and recorded on a monthly basis.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.2.11 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that the Company will be required to settle that obligation and the amount can be reliably measured. Provisions are measured at the Company's best estimate of the expenditure required to settle its liability and are discounted to present value where the effect is material.

A provision for restructuring is recognized when the Company has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced to those affected. Future operating losses are not provided for.

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

The obligation related to dismantling network sites is recognized as a tangible asset and a corresponding liability which is measured by using appropriate inflation and discount rates.

5.2.12 Leases

At inception of an arrangement, including arrangements that convey to the Company the right to use equipment, fibers or capacity for an agreed period of time in return for a series of payments, the Company determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfillment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Company the right to control the use of the underlying asset.

At inception or upon reassessment of the arrangement, the Company separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all of the risks and rewards of ownership to the Company. Property and equipment acquired by way of a finance lease are stated at an amount equal to the lower of their fair value and the present value of the minimum lease payments at inception of the lease, less accumulated depreciation and any impairment losses. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding lease obligations, net of finance charges, are included in long-term debt with the interest element of the finance cost charged to the statement of profit or loss and other comprehensive income over the lease period. All other leases are classified as operating lease payments and recognized in the statement of profit or loss and other comprehensive income on a straight-line basis over the term of the lease.

Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term in which case they are depreciated over their useful lives.

5.2.13 Income taxes

Income tax expense comprises current and deferred tax.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustments to tax payable in respect of previous years.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the calculation of taxable profit, and is accounted for using the balance sheet method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

is probable that taxable profits will be available against which deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from the initial recognition of goodwill or from the initial recognition of other assets and liabilities in a transaction that is not a business combination and that affects neither the tax profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences arising on investments in subsidiaries except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred tax asset is recognized for the carry forward of unused tax losses to the extent that it is probable that future taxable profit will be available against which the unused tax losses can be utilized. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized. Current and deferred tax is charged or credited to the statement of profit or loss and other comprehensive income, except when it relates to items charged or credited directly to equity, in which case the current or deferred tax is also dealt with in equity.

In determining the amount of current and deferred tax, the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Company to change its judgment regarding the adequacy of existing tax liabilities. Such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity.

5.2.14 Employee benefits

Pension and other post-employment benefit obligations

The Company provides both defined benefit and defined contribution plans to its employees, directors and certain members of management.

For defined contribution plans, the Company pays fixed contributions into a separate entity. The Company has no obligation to pay further amounts in case the plan assets are insufficient to pay all employee benefits relating to current and prior service. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which related services are rendered by employees.

As a result of minimum guaranteed rates of return imposed by law, there is a risk that the Company has to pay additional contributions. Therefore, the Belgian defined contribution plans classify as defined benefit plans. Due to a change in legislation regarding the minimum guaranteed rates of return at the end of 2015, the Company accounts for its defined contribution plans as defined benefit plans as from 2016 onwards

A defined benefit plan is a post-employment benefit plan that is not a defined contribution plan. For defined benefit pension plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. The discount rate is based on the yield at the reporting date on high quality corporate bonds (average yield on AA corporate bonds in euro, benchmarked against the iBoxx € AA Corporates index) taking into account the duration of the Company's obligations.

For the defined contribution plans subject to minimum guaranteed rates of return, the defined benefit obligation is based on the higher of the contributions increased by the minimum guaranteed rates of return

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

and the actual accumulated reserves (plans funded through a pension fund) or the paid-up insured benefits (insured plans). For plans whereby the contributions increase by age, the prospective benefits are attributed on a straight line basis over the employee's career.

The net defined benefit liability/(asset) recognized in the balance sheet corresponds to the difference between the defined benefit obligation and the fair value of the plan assets. In case of a surplus, the net defined benefit (asset) is limited to the present value of future economic benefits available in the form of a reduction in contributions or a cash refund.

For insured plans, the fair value of the insurance policies is based on the insurance reserves.

Remeasurements of the net defined benefit liability/(asset), which comprise actuarial gains and losses on the defined benefit obligation, the return on plan assets (excluding interest income) and changes in the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income (OCI).

The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense is recognized in profit or loss.

Past service cost resulting from plan amendments or curtailments is recognized immediately in profit or loss.

The Company also provides post-retirement health care benefits to certain employees. The expected costs of these benefits are accrued over the period of employment using an accounting methodology similar to that for defined benefit pension plans.

Other long term employee benefit obligations

The Company provides long term service awards to its employees. The expected costs of these benefits are accrued over the period of employment using an accounting methodology similar to that for defined benefit plans. Actuarial gains and losses arising from experience adjustments, and changes in actuarial assumptions, are recognized immediately in profit or loss.

Share-based payments

The Company issues equity-settled share-based payments to certain employees which are measured at fair value at the date of grant. The grant date fair value of options granted to employees is calculated using a Black-Scholes pricing model and recognized as share-based payments expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the options. The model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioral considerations. Measurement inputs for the Black-Scholes model include share price on measurement date, exercise price of the instrument, expected volatility, weighted average expected life of the instruments, expected dividends and the risk-free interest rate.

At each balance sheet date, the Company revises its estimates of the number of options that are expected to become exercisable. It recognizes the cumulative impact of the revision of original estimates, if any, in the statement of profit or loss and other comprehensive income, and a corresponding adjustment to equity. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

The Company also issues cash-settled share-based payments to certain employees which are measured at fair value and recognized as share-based payments expense, with a corresponding increase in long term and short term other liabilities, over the period that the employees become unconditionally entitled to the options.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Short-term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under short-term cash bonus plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

5.2.15 Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is based on the first-in first-out principle, and includes expenditures incurred in acquiring the inventories and other costs incurred in bringing them to their existing location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

5.2.16 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise warrants and options granted to employees and the CEO.

5.2.17 Finance income and expenses

Finance income mainly comprises interest income on funds invested, changes in the fair value of financial instruments, net gains on financial instruments and foreign exchange gains. Interest income is recognized as it accrues in the statement of profit or loss and other comprehensive income, using the effective interest method.

Finance expense mainly comprises interest expense on loans and borrowings, changes in the fair value of financial instruments, net losses on financial instruments and foreign exchange losses.

Foreign currency gains and losses are reported on a net basis.

5.2.18 Customer acquisition costs

Customer acquisition costs are the directly attributable costs incurred in signing up a new customer. These include, but are not limited to, incentives paid to retailers, commissions paid to external dealers or agents, and sales commissions to the Company's staff.

Customer acquisition costs paid to a party other than the customer are capitalized as intangible assets if and only if the definition and recognition criteria are met, the costs are incremental to the subscriber contracts, and can be measured reliably. As these criteria are generally not met, customer acquisition costs are generally expensed as incurred.

Cash incentives given to customers are not viewed as customer acquisition costs, but are recognized as a deduction from revenue.

Benefits in kind given to customers, to the extent they do not represent a separate component of the arrangement, are recognized as an expense in the appropriate periods.

5.2.19 Changes in accounting policies

The following changes in accounting policies are reflected in the Company's consolidated financial statements as of and for the year ending December 31, 2016.

- *Amendments to IFRS 11—Accounting for Acquisitions of Interests in Joint Operations* (effective for annual periods beginning on or after January 1, 2016) clarify that the acquirer of an interest in a joint

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

operation in which the activity constitutes a business, as defined in IFRS 3, is required to apply all of the principles on business combinations accounting in IFRS 3 and other IFRSs with the exception of those principles that conflict with the guidance in IFRS 11.

- *Annual Improvements to IFRS 2012-2014 cycle* is a collection of minor improvements to 4 existing standards (effective for annual periods beginning on or after January 1, 2016).
- *The disclosure initiative (Amendments to IAS 1)* are designed to further encourage companies to apply professional judgment in determining what information to disclose in their financial statements. The narrow-focus amendments to IAS 1 Presentation of Financial Statements clarify, rather than significantly change, existing IAS 1 requirements. The amendments relate to the following: materiality; order of the notes; subtotals; accounting policies; and disaggregation. The amendments are effective for annual periods beginning on or after 1 January 2016.

The adoption of this amendment did not have a material impact on the Company's financial position, statement of profit or loss and other comprehensive income or cash flows.

5.2.20 Forthcoming requirements

Standards, annual improvements, amendments and interpretations to existing standards that are not yet effective for the year ended December 31, 2016 and have not been early adopted by the Company

The following standards, amendments and interpretations to existing standards have been published and are mandatory for the Company's accounting periods beginning on or after January 1, 2017, or later periods, but the Company has not early adopted them. The adoption of these standards, amendments and interpretations, except for IFRS 9, IFRS 15 and IFRS 16, is not expected to have a material impact on the Company's financial result or financial position:

Amendments to IAS 7 Statement of Cash Flows: requiring disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities (effective for annual periods beginning on or after January 1, 2017). These amendments have not yet been endorsed by the EU.

IFRS 9 Financial Instruments (effective for annual periods beginning on or after January 1, 2018) includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements, which align hedge accounting more closely with risk management. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. With respect to the provision for impairment of trade receivables, the Company will apply under IFRS 9 a new forward looking impairment model based on an expected credit loss model rather than the currently applied actual credit loss model.

IFRS 15 Revenue from Contracts with Customers, requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers Operations (effective for annual periods beginning on or after January 1, 2018). The Company has made a detailed analysis of its various revenue streams. We expect the revenues from installation and activation services, as well as the revenues related to subsidized handset to be impacted by IFRS 15. The financial impact on the aforementioned revenue streams is estimated at -€5.4 million and +€8.4 million respectively for 2018.

IFRS 16 Leases (effective for annual periods beginning on or after January 1, 2019) makes a distinction between a service contract and a lease based on whether the contract conveys the right to control the use of an identified asset and introduces a single, on-balance lease sheet accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low value items. With respect to the impact of IFRS 16, we refer to note 5.26.3 and note 5.3. The Company is in the process of analyzing its operational lease agreements and corresponding obligations in order to apply IFRS 16. The conversion approach that will be applied is not yet determined.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Recognition of Deferred Tax Assets for Unrealized Losses (Amendments to IAS 12) clarifies the accounting for deferred tax assets for unrealized losses on debt instruments measured at fair value. Further, the amendments provide guidance on estimating probable future taxable profits when assessing the recognition of deferred tax assets when there are insufficient taxable temporary differences relating to the same taxation authority and the same taxable entity. The amendments are effective for annual periods beginning on or after 1 January 2017, with earlier adoption permitted. The amendments are not expected to have a material impact on the Group's consolidated financial statements. These amendments have not yet been endorsed by the EU.

Classification and Measurement of Share-based Payment Transactions (Amendments to IFRS 2) issued on 20 June 2016 covers three accounting areas: the measurement of cash-settled share-based payments; the classification of share-based payments settled net of tax withholdings; and the accounting for a modification of a share-based payment from cash-settled to equity-settled. The amendments are effective for annual periods commencing on or after 1 January 2018. As a practical simplification, the amendments can be applied prospectively so that prior periods do not have to be restated. Retrospective, or early, application is permitted if companies have the required information. The amendments are not expected to have a material impact on the Group's consolidated financial statements. These amendments have not yet been endorsed by the EU.

IFRIC 22 Foreign currency transactions and Advance consideration issued on 8 December 2016, clarifies the transaction date to be used to determine the exchange rate for translating foreign currency transactions involving an advance payment or receipt. The interpretation is effective for annual periods beginning on or after 1 January 2018, with earlier adoption permitted. The amendments are not expected to have a material impact on the Group's consolidated financial statements. These amendments have not yet been endorsed by the EU.

Annual improvements to IFRSs 2014-2016 Cycle, issued on 8 December 2016, covers the following minor amendments:

- *IFRS 1 First-time Adoption of IFRS*: Outdated exemptions for first-time adopters of IFRS are removed (effective for annual periods beginning on or after 1 January 2018);
- *IFRS 12 Disclosure of Interests in Other Entities*: Also applies to interests that are classified as held for sale or distribution (effective for annual periods beginning on or after 1 January 2017) and
- *IAS 28 Investments in Associates and Joint Ventures*: A venture capital organization, or other qualifying entity, may elect to measure its investments in an associate or joint venture at fair value (effective for annual periods beginning on or after 1 January 2018, with earlier adoption permitted).

The amendments are not expected to have a material impact on the Group's consolidated financial statements. These amendments have not yet been endorsed by the EU.

5.3 Risk management

5.3.1 General

The Company is exposed to various risks within the context of its normal business activities, which could have a material adverse impact on its business, prospects, results of operations and financial condition. Therefore, controlling these risks is very important for the management of the Company. To support its growth and help the management and the Audit Committee to deal with the challenges the Company faces, the Company has set up a risk management and internal control system. The purpose of the internal control and risk management framework is to enable the Company to meet its objectives. The most important components of this system are described in our Corporate Governance Statement under 7.4 Internal control and risk management systems.

The Company conducts its business in a rapidly changing environment that gives rise to numerous risks and uncertainties that it cannot control. Please refer to 3 Risk factors for more detailed information.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Telenet is involved in a number of legal procedures risen in the normal course of operations, as Telenet operates within a highly competitive environment. Legal proceedings may arise in connection with such as intellectual property, advertising campaigns, product offerings and acquisition opportunities. Telenet discusses in note 5.26.1 certain procedures, which are still pending and to which the Company is involved. Outside the procedures described in note 5.26.1, Telenet does not expect the legal proceedings in which it is a party or by which it is threatened to have a material adverse effect on the activities or consolidated financial position. However, the Company notes that the outcome of legal proceedings can be extremely difficult to predict, and Telenet offers therefore no guarantees.

The Company applies a decentralized risk management approach built upon the three lines of defense model. The Company has introduced a risk governance layer to strengthen its risk oversight by identifying the key supporting risk management functions (2nd line of defense), creating an oversight on the maturity thereof and by implementing a common risk management framework to align processes for risk identification, risk analysis, risk evaluation, risk treatment, monitoring and reporting across the key risk areas.

An overview of the different risk domains is maintained in the risk assurance map, which is organized around four risk groups:

- Governance, Risk & Compliance
- Strategy & Planning
- Operations
- Reporting

Governance, Risk & Compliance captures various topics such as the board structure, ethics, corporate social responsibility, Telenet's 2nd line of defense and compliance with laws and regulations.

Strategy & Planning focuses on external factors (competition, credit rating, capital, economic conditions, .), strategy (M&A, innovation, technology, ...) and business planning.

All operational processes (marketing to sales, order to bill, bill to cash, customer service, infrastructure operations) and all supporting processes (build, content, finance & administration, HR, Legal, ...) fall into the risk group Operations.

And finally, the risk group Reporting covers all risks related to internal and external, financial and non-financial reporting.

The risk assurance map is used to prioritize the internal audits performed by the internal audit function (3rd line of defense) and the reviews performed by Telenet's risk managers, and to visualize the results. All issues and action plans resulting from these reviews are maintained and followed up in a central repository. The resolution of the open issues is monitored through management self-assessment and a quarterly follow-up for issues with high or medium priority. The SLT and the Audit Committee receive a quarterly status update on all open issues.

5.3.2 Credit risk

Qualitative disclosures

Credit risk encompasses all forms of counterparty exposure, i.e. where counterparties may default on their obligations to the Company in relation to lending, hedging, settlement and other financial activities. The Company is exposed to credit risk from its operating activities and treasury activities.

The largest share of the gross assets subject to credit risk from operating activities are trade receivables from residential and small business customers located throughout Belgium and parts of Luxembourg, and outstanding receivables towards BASE's wholesale, interconnect and roaming partners. Accordingly, the Company has no significant concentration of credit risk. The risk of material loss from non-performance from these customers is not considered likely. The Company establishes reserves for doubtful accounts receivable to cover the potential loss from non-payment by these customers.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

As for credit risk on financial instruments, the Company maintains credit risk policies with regard to its counterparties to minimize overall credit risk. These policies include an assessment of a potential counterparty's financial condition, credit rating and other credit criteria and risk mitigation tools as deemed appropriate. The Company maintains a policy of entering into such transactions only with highly rated European and US financial institutions. To minimize the concentration of counterparty credit risk, the Company enters into derivative transactions with a portfolio of financial institutions. Likewise, cash and cash equivalents are placed with highly rated financial institutions and only highly rated money market funds are used.

Quantitative disclosures

The Company considers its maximum exposure to credit risk to be as follows:

	December 31, 2016	December 31, 2015
	(in thousands of euro)	
Cash and cash equivalents (including money market funds, certificates of deposits)	99,203	277,273
Trade receivables	220,431	157,762
Derivative financial instruments	72,483	8,496
Receivables from sale of sports broadcasting rights	7,198	1,691
Outstanding guarantees to third parties for own liabilities (cash paid)	1,102	987
Loans to equity accounted investees	1,269	1,035
Total	401,686	447,244

More detailed financial information has been disclosed under the respective notes to the consolidated financial statements of the Company.

5.3.3 Liquidity risk

Qualitative disclosures

The principal risks to the Company's sources of liquidity are operational risks, including risks associated with decreased pricing, reduced subscriber growth, increased marketing costs and other consequences of increasing competition, new regulations and potentially adverse outcomes with respect to the Company's litigations as described in note 5.26.1. Telenet's ability to service its debt and to fund its ongoing operations will depend on its ability to generate cash. Although the Company anticipates generating positive cash flow after deducting interest and taxes, the Company cannot assure that this will be the case. The Company may not generate sufficient cash flow to fund its capital expenditures, ongoing operations and debt obligations.

Telenet Group Holding NV is a holding company with no source of operating income. It is therefore dependent on capital raising abilities and dividend payments from subsidiaries to generate funds. The terms of the 2015 Amended Senior Credit Facility contain a number of significant covenants that restrict the Company's ability, and the ability of its subsidiaries to, among other things, pay dividends or make other distributions, make capital expenditures, incur additional debt and grant guarantees. The agreements and instruments governing its debt contain restrictions and limitations that could adversely affect the Company's ability to operate its business.

The Company believes that its cash flow from operations and its existing cash resources, together with available borrowings under the 2015 Amended Senior Credit Facility, will be sufficient to fund its currently anticipated working capital needs, capital expenditures and debt service requirements.

The 2015 Amended Senior Credit Facility is discussed in greater detail in note 5.13.1 of the consolidated financial statements of the Company.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

The Company has implemented a policy on financial risk management, which has been reviewed and approved by the Audit Committee in March 2015. With respect to liquidity and funding risks, the key objectives can be summarized as:

- ensure that at all times the Company has access to sufficient cash resources to meet its financial obligations as they fall due and to provide funds for capital expenditure and investment opportunities as they arise;
- ensure that the Company has sufficient excess liquidity to ensure that the Company can meet its non-discretionary financial obligations in the event of unexpected business disruption;
- ensure compliance with borrowing facilities covenants and undertakings.

A minimum level of cash and cash equivalents is maintained in order to meet unforeseen cash expenses. In addition, the Company has entered into a €25.0 million bank overdraft facility in order to allow for a more aggressive cash management policy within the context of continued negative short-term interest rates. A limit has also been set regarding the maximum amount that can be deposited and invested per banking counterparty. The Company's funding requirements and funding strategy are reviewed annually.

A limit has been set regarding the maximum amount that can be invested per derivative product type. On top of this limit, the authorized financial counterparties have been determined and limits have been set for each counterparty by reference to their long-term credit rating.

Quantitative disclosures

The Company's aggregate contractual obligations as at December 31, 2016 and 2015 were as follows:

		Payments due by period (in thousands of euro)					
Situation as per December 31, 2016		Less than	2 years	3 years	4 years	5 years	After

1 Interest included.

2 Represents fixed minimum commitments under certain programming and purchase agreements, amounts associated with certain operating costs resulting from the Interkabel acquisition as well as commitments related to the 3G spectrum (Note 5.6).

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

- 3 Contractual obligations with a floating interest rate are based on the rate outstanding as at December 31. The contractual obligations also reflect the euro value of nominal exchanges due at maturity of the Company's cross currency interest rates swaps.
- 4 Excluding compensation and employee benefits, VAT and withholding taxes.

5.3.4 Market risk

The Company is exposed to market risks relating to fluctuations in interest rates and foreign exchange rates, primarily between the US dollar and euro. The Company uses financial instruments to manage its exposure to interest rate and foreign exchange rate fluctuations. Each of these risks is discussed below.

Qualitative disclosures on foreign exchange risk

The Company undertakes certain transactions in foreign currencies. Hence, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilizing forward foreign exchange contracts.

The Company's functional currency is the euro. However, the Company conducts, and will continue to conduct, transactions in currencies other than the euro, particularly the US dollar. About 2.6% (2015: 3.9%) of the Company's costs of operations (primarily the costs of network hardware equipment, software and premium cable television rights) were denominated in US dollars, while all of its revenue was generated in euros. The Company has significant US dollar obligations with respect to the contracts it is party to for the supply of premium content. Decreases in the value of the euro relative to the US dollar would increase the cost in euro of the Company's US dollar denominated costs and expenses, while increases in the value of the euro relative to the US dollar would have the reverse effect.

The Company has historically covered a portion of its US dollar cash outflows arising on anticipated and committed purchases through the use of foreign exchange derivative instruments. The Company uses forward foreign exchange contracts to manage the exchange rate risk arising from:

- purchases of goods and services in foreign currency;
- capital equipment priced in foreign currency or subject to price changes due to movements in exchange rates;
- payments of royalties, franchise or license fees denominated in a foreign currency.

Although the Company takes steps to protect itself against the volatility of currency exchange rates, there is a residual risk that currency risks due to volatility in exchange rates could have a material adverse effect on the Company's financial condition and results of operations.

In May 2016, the Company issued a USD 850.0 million Term Loan ("Term Loan AD") due June 2024 through Telenet Financing LLC, a US company fully owned by Telenet International Finance S.à r.l. to issue the Term Loan in the US debt markets for this purpose. In November 2016, the Company issued a USD 1,500 million Term Loan ("Term Loan AF") due January 2025 through Telenet Financing LLC. The net proceeds of this issuance were among other items used to redeem the outstanding amounts under certain Term Loans, including the aforementioned Term Loan AD. As a result of the November 2016 debt issuance, the Company is increasingly exposed to both USD-denominated and floating interest rate risks, for which adequate hedging policies have been put in place. For this, the Company has entered into cross-currency interest rate swaps of which USD 850.0 million is maturing at the end of June 2024 and the remaining USD 650.0 million will mature until January 2025.

The outstanding forward foreign exchange derivatives as of December 31, 2016 and 2015, are disclosed in more detail in note 5.14 to the consolidated financial statements of the Company.

Qualitative disclosures on interest rate risk

The Company is mainly exposed to interest rate risk arising from borrowings at floating interest rates, interest bearing investments and finance leases. The Company limits its exposure to floating interest rates through the use of derivative instruments.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

The risk is managed by maintaining an appropriate mix of (cross-currency) interest rate swap contracts, interest rate cap contracts, interest rate collar contracts.

The Company implemented a policy on financial risk management, which has been reviewed and approved by the Audit Committee in March 2015. With respect to interest rate risk, the key objectives can be summarized as:

- only long term interest exposures (+ 1 year) are managed;
- all derivative instruments used are designated to actual interest exposures and are authorized under the policy.

As referred to above, the outstanding interest rate derivatives as of December 31, 2016 and 2015, are disclosed in more detail in note 5.14 to the consolidated financial statements of the Company.

Under the 2015 Amended Senior Credit Facility, there is a 0% floor. As a result, if EURIBOR is below zero, then EURIBOR is deemed to be zero. The same mechanism applies to the Company's USD-denominated exposure.

Quantitative disclosures

Interest rate sensitivity testing

For interest rate derivatives, the Company has used a sensitivity analysis technique that measures the change in the fair value of these financial instruments for hypothetical changes in the relevant base rate applicable at year-end, holding all other factors constant.

A change of 25 basis points in interest rates at the reporting date would have changed the fair values of the Company's interest rate derivatives as set out in the table below:

(in thousands of euro)	2016		2015	
	+0.25 %	-0.25 %	+0.25 %	-0.25 %
Changes in fair value				
Swaps	80,572	(80,572)	30,852	(30,852)
Caps	—	—	61	—
Collars	3	(3)	—	—
Total	80,575	(80,575)	30,913	(30,852)

The following table summarizes the Company's interest obligations under the outstanding floating rate indebtedness and interest rate derivatives. The amounts generated from this sensitivity analysis are forward-looking estimates of market risk assuming certain market conditions. Actual results in the future may differ materially from those projected results due to the inherent uncertainty of global financial markets.

Situation as per December 31, 2016 +0.25 % (in thousands of euro)	Interest payments due by period					
	Less than 1 year	2 years	3 years	4 years	5 years	After 5 years

For fixed rate debt, changes in interest rates generally affect the fair value of the debt instrument, but not the Company's earnings or cash flows. The Company does not currently have any obligation to redeem fixed rate debt prior to maturity and, accordingly, interest rate risk and changes in fair market value should not have a significant effect on the fixed rate debt until the Company would be required to refinance such debt.

Foreign currency sensitivity testing

The following table details the Company's sensitivity to a 10% increase and decrease of the relevant foreign exchange rate. The Company utilizes 10% as the sensitivity rate when reporting foreign currency risk internally as it represents management's assessment of a reasonably possible change in foreign exchange rates. The sensitivity analysis primarily includes the effect on Telenet's US dollar denominated payables (primarily payables associated with network hardware equipment, software and premium cable television rights) and the Company's USD-denominated debt. As described under 5.3.4 *Market risk—Qualitative disclosures on foreign exchange risk*, the Company's USD-denominated debt is hedged through cross-currency interest rate swaps. This offsets part of the foreign currency sensitivity on our Term Loan AF as outlined in the table below based on the hedged position (if any).

December 31, 2016	Foreign currency	Amount in foreign currency	10% increase		10% decrease	
Trade payables	USD	12,142	(1,041)	On profit or loss	1,273	On profit or loss
2015 Amended SCF Term Loan AF	USD	1,500,000	(158,023)	On profit or loss	129,291	On profit or loss
December 31, 2015	Foreign currency	Amount in foreign currency	10% increase		10% decrease	
Trade payables	USD	7,724	(564)	On profit or loss	689	On profit or loss

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.3.5 Capital Risk

The Company manages its capital to ensure that the Company and its subsidiaries will be able to continue as a going concern in order to provide sustainable and attractive returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company monitors capital risk on the basis of the net leverage ratio. The net leverage ratio is calculated as per the 2015 Amended Senior Credit Facility definition, using net total debt, excluding (a) subordinated shareholder loans, (b) capitalized elements of indebtedness under the Clientele and Annuity Fees, (c) any finance leases entered into on or prior to August 1, 2007, and (d) any indebtedness incurred under the network lease entered into with the pure intermunicipalities up to a maximum aggregate amount of €195.0 million, divided by last two quarters' annualized EBITDA.

As of December 31, 2016, the outstanding balance of the Company's consolidated total borrowings and total cash and cash equivalents—as defined under the 2015 Amended Senior Credit Facility—resulted in a Net Total Debt to Consolidated Annualized EBITDA ratio of 3.5x. As per the 2015 Amended Senior Credit Facility, the Company's Consolidated Annualized EBITDA includes certain unrealized synergies with regards to the BASE acquisition. Telenet's net leverage ratio ticked up slightly from 3.4x at December 31, 2015 to 3.5x at December 31, 2016. Telenet's net leverage ratio as per December 31, 2016 did not yet reflect the impact of the proposed acquisition of Altice's operations in Belgium and Luxembourg ("SFR BeLux") which is pending regulatory approval. The current net leverage ratio is significantly below the covenant of 6.0x and the availability test of 5.0x.

5.3.6 Financial instruments: fair values

Carrying amount versus fair value

The fair values of financial assets and financial liabilities, together with the carrying amounts in the consolidated statement of financial position and their levels in the fair value hierarchy are summarized in the table below. The fair value measurements are categorized into different levels in the fair value hierarchy based on the inputs used in the valuation techniques.

December 31, 2016 (in thousands of euro)	Note	Carrying amount	Fair value	Level 1	Level 2	Level 3

Valuation techniques and significant unobservable inputs

The following tables show the valuation techniques used in measuring level 2 fair values, as well as the significant unobservable inputs used.

Financial instruments measured at fair value

Type	Valuation technique	Unobservable inputs	Inter-relationship between unobservable inputs and fair value measurements
Interest rate derivatives	Discounted cash flows : the fair value of the cross-currency and interest rate derivatives is calculated by the Company based on swap curves flat, taking into account the credit risk of both the Company and the respective counterparties to the instruments. The Company also compares the fair values thus calculated to the respective instruments' fair value as provided by the counterparty.	The credit risk of both the Company and the respective counterparties to the instruments.	The estimated fair value would increase (decrease) if : —the credit risk of the company were lower (higher) —the credit risk of the countercompany were higher (lower).
Foreign exchange forwards and embedded derivatives	Discounted cash flows : the fair value of forward exchange contracts is calculated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate. This calculation is compared to the listed market price, if available.	Not applicable.	Not applicable.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Financial instruments not measured at fair value

Type	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurements
Loans, borrowings and finance lease liabilities : —2015 Amended Senior Credit Facility —Senior Secured Fixed rate notes —Money market funds —Overdraft facilities	Market comparison technique : The fair values are based on broker quotes. The brokers providing the quotes are among the most active in the trading of the Senior Credit Facility, and regularly provide quotes to the market. No adjustments to this pricing are needed.	Not applicable.	Not applicable.
Loans, borrowings and finance lease liabilities : —Finance lease obligations —Clientele fee > 20 years —3G Mobile spectrum —Global handset loan —Vendor financing	Discounted cash flows.	Discount rate.	The estimated fair value would increase (decrease) if : —the discount rate were lower (higher).

During the year ended December 31, 2016, no financial assets or liabilities measured at fair value have been transferred between the levels of the fair value hierarchy.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Accrued capital expenditures for property and equipment reached €406.1 million for the year ended December 31, 2016, (€266.5 million for the year ended December 31, 2015) representing the following additions:

- accrued capital expenditures for both the broadband and the mobile network growth and upgrades for an amount of €250.6 million (2015 : €142.4 million);
- capital expenditures for customer installations for an amount of €73.3 million (2015 : €63.6 million);
- refurbishments and replacements of network equipment for an amount of €57.3 million (2015 : €47.9 million); and
- set-top box related capital expenditures for an amount of €24.9 million (2015 : €12.6 million).

For the year ended December 31, 2016, the Company removed €182.7 million of gross cost and accumulated depreciation related to fully depreciated assets which are no longer used by the Company. (€227.6 million for the year ended December 31, 2015).

The Company recognized a gain on disposal of assets of €5.1 million for the year ended December 31, 2016, mainly attributable to modems and set-up boxes (€2.7 million) and the sale of scrap material (€2.4 million).

Disposals of property and equipment for the year ended December 31, 2015 had a total carrying value at €1.3 million and resulted in a net gain on disposal of €2.3 million and consisted mainly of:

- End of life replacements of network equipment with a loss on disposal equal to the remaining net book value amounting to €1.0 million;
- Write-off of guarantees, resulting in a gain amounting to €0.6 million;
- Sale of set-top boxes with no net book value and scrap material with €0.3 million net book value, resulting in a gain on disposal of respectively €1.1 million and €1.6 million.

The Company assesses the estimated useful lives of its property and equipment each reporting period to determine whether events or circumstances warrant a revision of these estimated useful lives. In the third quarter of 2016, the Company started a modernization project of the mobile network whereby certain radio equipment will be replaced by new(er) generation radio equipment. This project is expected to be completed by the end of the first quarter of 2018. The Company determined that a total net book value of €197.0 million related to such assets will be removed from the network during the project and started accelerated depreciation in order to reduce their net book value to zero by the first quarter of 2018. The Company thus recorded €32.0 million accelerated depreciations in 2016 (note 5.20).

Based on the results of the Company's periodic review of the useful lives of its assets, the Company changed the useful life for its settop boxes from 4 to 5 years and for its NIU's from 6 to 7 years, prospectively as from January 1, 2017.

For further information regarding finance lease obligations, we refer to note 5.13.5 to the consolidated financial statements of the Company.

For further information regarding assets pledged as security, we refer to note 5.13.4.

5.5 Goodwill

The total amount of goodwill as of December 31, 2016 amounted to € 1,540.9 million (December 31, 2015: €1,241.8 million). The increase of €299.1 million was integrally attributable to the acquisition of BASE.

<u>(in thousands of euro)</u>	<u>December 31, 2016</u>
January 1, 2016	1,241,813
Acquisition of subsidiaries	299,133
December 31, 2016	<u>1,540,946</u>

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

For detailed information regarding the acquisition of BASE, we refer to note 5.24.

The Company performed its annual review for impairment during the third quarter of 2016 and 2015, respectively. Following the acquisition of BASE, the Company has identified two cash-generating units, being Telenet (excluding BASE) and BASE. Goodwill arising in a business combination is allocated to the acquirer's cash generating units that are expected to benefit from the synergies of the business combination in which goodwill arose. This is irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Based on analysis of a synergy report and the valuation report used for the purchase price allocation, management concluded that the goodwill arising from the BASE acquisition represents synergies (primarily MVNO savings) that will be realized by Telenet. As a result, the entire goodwill balance of €1,540.9 million has been allocated to the cash-generating unit Telenet (excluding BASE).

The recoverable amount of the cash generating unit Telenet was based on its value in use and was determined by discounting the future cash flows to be generated from its continuing use (Discounted Cash Flow method). The value in use of the cash generating unit Telenet for the year ended December 31, 2016 was determined in a similar manner to the year ended December 31, 2015.

The key assumptions for the value in use calculations used to determine the recoverable amount of the Telenet cash generating unit are those regarding the discount rates and expected changes to selling prices, product offerings, direct costs, EBITDA margins and terminal growth rates. The discount rate used is a pre-tax measure estimated based on past experience, and industry average weighted cost of capital. Changes in selling practices and direct costs are based on past practices and expectations of future changes in the market. The calculation uses cash flow projections based on financial budgets approved by management, the Company's Long-Range Plan through 2020, and a pre-tax discount rate of 9.4% (8.8% for the year ended December 31, 2015) based on current market assessments of the time value of money and the risks specific to the Company. The development of the Long-Range Plan relies on a number of assumptions, including:

- market growth, the evolution of the Company's market share and the resulting trends in the number of subscribers;
- the product mix per subscriber;
- the average revenue per subscriber;
- the expected evolution of various direct and indirect expenses;
- the expected evolution in other variable and fixed costs;
- the estimated future capital expenditure (excluding capital expenditure that improves or enhances the Company's assets' performance).

The assumptions were derived mainly from:

- available historic data;
- external market research and observations with respect to e.g. inflation, changes in the remuneration index, evolutions of the number of households, connection points, etc.;
- internal market expectations based on trend reports, the current state of important negotiations, etc.

For the year ended December 31, 2016, cash flows beyond the four-year period have been extrapolated using no growth rate, based on historical data and macro-economic conditions. This growth rate does not exceed the long-term average growth rate for the industry as published periodically in the Bulletins of the European Central Bank (ECB). The Discounted Cash Flow calculation for determining the value in use and net recoverable amount mentioned above was reviewed for reasonableness by comparing the result of the calculation to the market capitalization of the Company. The key assumptions used are reviewed and updated on a yearly basis by the Company's management. Taking into account the considerable excess of the Telenet cash generating unit's recoverable amount over its carrying amount, and based on sensitivity testing performed, management is of the opinion that any reasonably possible changes in key assumptions on which the recoverable amount is based would not cause the carrying amount to exceed the recoverable amount at December 31, 2016.

The Company's intangible assets other than goodwill each have finite lives and are comprised primarily of network user rights (mainly mobile spectrum), trade name, software development and acquisition costs, customer relationships, broadcasting rights, out of market component of future leases and contracts with suppliers.

The Company acquired intangible assets through the BASE acquisition amounting to €462.7 million and consisting largely of BASE's 2G, 3G and 4G mobile spectrum licenses, customer lists and trade names. For more information on the purchase price allocation, we refer to Note 5.24.

The Company assesses the estimated useful lives of its finite-lived intangible assets each reporting period to determine whether events or circumstances warrant a revision of these estimated useful lives. The

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

assessments performed in 2016 and 2015 did not result in any revision to the estimated useful lives of intangible assets.

Following a tendering procedure in June 2014, the Company acquired the non-exclusive broadcasting rights of the Belgian football championship for three seasons starting July 2014. The rights related to the third season (2016-2017) met the recognition criteria for intangible assets in 2016. The Company also acquired the exclusive broadcasting rights of the UK Premier League for the three seasons starting August 2016 until 2019. The aforementioned acquired rights represent the majority of the total additions regarding broadcasting rights of €92.0 million. The broadcasting rights for resale purposes amount to €16.8 million and mainly consists of the aforementioned broadcasting rights of the UK Premier League for the seasons 2016 until 2019. The write-off of fully depreciated assets regarding broadcasting rights (€61.1 million) are mainly related to the 2015-2016 season of the Jupiler Pro League and the 2013-2016 seasons of the UK Premier League, which were written-off upon the end of the season end-May 2016.

Following an auction launched in March 2011 by the BIPT, Telenet Tecteo BidCo NV, a subsidiary of the Company in which the Walloon cable operator Tecteo SCRL owns a 25% stake, acquired the fourth 3G mobile spectrum license in Belgium. The Company recognized the acquired spectrum as an intangible asset for an amount of €71.5 million, equal to the net present value at the acquisition date of the yearly installments. In December 2013, the Company's management determined that it would not be able to utilize the spectrum rights and that the recoverable amount was to be considered zero. Consequently, the 3G mobile spectrum license was fully impaired at year-end 2013. Upon return of the 3G mobile spectrum license to the BIPT, the Company removed the fully impaired asset from its books (€71.5 million) in 2015.

For information regarding finance leases of intangible assets, see note 5.13.5 to the consolidated financial statements of the Company.

5.7 Investments in and loans to equity accounted investees and other investments

5.7.1 Investments in and loans to equity accounted investees

The following table shows the components of the Company's investments in equity accounted investees:

<u>(in thousands of euro)</u>	<u>De Vijver Media NV</u>	<u>Other</u>	<u>Total</u>

At January 1, 2016	54,920	2,731	57,651

In February 2015, the Company acquired, through a combination of share purchases (€26.0 million) and share subscription (€32.0 million), 50% of the capital of De Vijver Media NV, a Belgian media company active in free-to-air broadcasting and content production (through its production company "Woestijnvis"). The remaining 50% of the shares of De Vijver Media is held by Waterman & Waterman (the holding

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

company of Wouter Vandenhaute and Erik Watté) and Corelio NV (a Belgian print and online media group).

The 50% investment in De Vijver Media qualifies as a joint venture and is accounted for using the equity method. The initial carrying amount of the investment was €59.0 million, and included €1.0 million directly attributable transaction costs.

During the twelve months ended December 31, 2016 Telenet recognized its €0.1 million share in the net loss of De Vijver Media (€4.2 million for the period beginning on the transaction closing date until December 31, 2015).

Based on an analysis of De Vijver Media's new three year plan established during the fourth quarter of 2016 against the financial projections in the initial buyer case, the Company concluded that there was objective evidence of a measurable decrease in the estimated future cash flows of the De Vijver Media investment and determined that this constituted a trigger for impairment testing under the guidance in IAS 39. The Company tested the investment in question for impairment in the last quarter of 2016, comparing its recoverable amount (value-in-use) against its remaining net book value, in accordance with the guidance in IAS 36 (using the cash flows from the three year plan) and using a 1% growth rate in the terminal value) and applying a 8.6% pre-tax discount rate. The difference between value-in-use and the net book value of the investment in De Vijver Media was determined at €31.0 million. The Company recorded an impairment charge accordingly in 2016.

The recognition in 2015 and 2016 of the Company's share in the net result of De Vijver Media and the in 2016 recognized impairment loss result in a carrying value of the investment of €24.2 million on December 31, 2016 (December 31, 2015: €54.9 million).

The following table summarizes the financial information of De Vijver Media NV as included in its own financial statements, adjusted for fair value adjustments at acquisition, impairment losses and differences in accounting policies.

The table also reconciles the summarized financial information to the carrying amount of the Company's interest in De Vijver Media NV.

<u>(in thousands of euro)</u>	<u>2016</u>	<u>2015</u>
Net assets

Group's share of the total comprehensive income (50%)	(115)	(4,093)

(*) for 12 months ended December 31, 2016 compared to 10 months ended December 31, 2015

The remaining goodwill mainly relates to future advertising revenues to be realized and future revenues related to new formats.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.7.2 Other investments

On June 29, 2016, Telenet participated in a capital increase of Belgian Mobile Wallet NV for an amount of €1.8 million representing a stake of 16.67%. Belgian Mobile Wallet NV launched a Belgian standard for payments via smartphones in spring 2014 allowing consumers to use their smartphones in the future to pay for goods and services, exchange coupons, or use their customer cards.

5.8 Trade receivables

5.8.1 Non-current

	December 31, 2016	December 31, 2015
	(in thousands of euro)	
Trade receivables	4,793	4,841
Less : allowance for bad debt	—	(102)
Trade receivables, net	4,793	4,739

Non-current trade receivables comprise of Installment sales relating to the long-term receivables on handset financing contracts with external customers.

5.8.2 Current

	December 31, 2016	December 31, 2015
	(in thousands of euro)	
Trade receivables	215,638	153,023
Less: allowance for bad debt	(9,659)	(7,116)
Trade receivables, net	205,979	145,907

At December 31, 2016 and 2015, respectively, the aging of the Company's current trade receivables can be detailed as follows:

		Past due					
(in thousands of euro)	Not due	1-30 days	31-60 days	61-90 days	91-120 days	>120 days	Total
December 31, 2016	143,037	43,250	6,959	2,783	1,842	17,767	215,638
December 31, 2015	95,264	29,727	8,596	1,972	1,468	15,996	153,023

All invoices related to residential customers are due within 20 days. Invoices related to BASE residential mobile customers are due within 8 to 12 days. For other clients, the payment due date is set at 30 or 60 days. In accordance with the Company's accounting policies and based on historical experience, trade receivables that are less than 120 days past due are not considered impaired. At December 31, 2016, a total amount of €54.8 million (2015: €41.8 million) was past due but not considered impaired for these reasons. With respect to these trade receivables, there are no indications that the debtors will not meet their payment obligations.

Outstanding trade receivables past due for more than 120 days are considered as potentially impaired and are subject to detailed analysis at the customer level, and a provision for impairment of trade receivables is established based upon objective evidence that the Company will not be able to collect the amounts. Significant financial difficulties of the debtor, defaults in payments, and other adverse debtor circumstances are considered indicators that the trade receivable is impaired. Based on the necessary and appropriate underlying documentation, receivables more than 120 days past due for which it is likely that the amount due will be recovered, are excluded from the calculation of the allowance for bad debts. For the remaining receivables more than 120 days past due, a bad debt allowance is provided for at 100%. A gradually increasing bad debt provision is recognized on BASE residential mobile receivables when they become overdue and are fully provided upon when they are 180 days overdue.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

At December 31, 2016 current and non-current receivables related to handset sales with a customer credit agreement amount to €12.4 million (2015 : €5.7 million) and €4.8 million (2015 : €4.7 million) respectively.

The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the Company believes that there is no further credit provision required in excess of the allowance for doubtful debts.

The following table shows the development of the provision for impairment of trade receivables:

	December 31, 2016	December 31, 2015
	(in thousands of euro)	
Provision for impairment of trade receivables at the beginning of the year	(7,116)	(1,961)
BASE acquisition	(3,081)	—
Additions	(5,163)	(4,938)
Reductions and write-offs	5,701	(217)
Provision for impairment of trade receivables at the end of the year	(9,659)	(7,116)

When a trade receivable is uncollectible, it is written off against the provision for impairment of trade receivables. Trade receivables impairment losses have been included in cost of services provided in the consolidated statement of profit or loss and other comprehensive income. The Company does not hold any receivables in foreign currency.

5.9 Other assets

5.9.1 Non-current

	December 31, 2016	December 31, 2015
	(in thousands of euro)	
Outstanding guarantees to third parties for own liabilities (cash paid)	1,102	982
Long-term prepaid expense for Time Based Licence	—	2,025
Deferred financing fees	5,064	10,228
Receivables from sale of sports broadcasting rights	6,130	—
Other	4,184	—
Other non-current assets	16,480	13,235

The Company presents the deferred financing fees related to the undrawn Term Loans and Revolving Credit Facilities as other non-current assets. At year end 2016 the Revolving Credit Facilities Z and AG were undrawn, whereas at year end 2015, the Term Loan AA and Revolving Credit Facility X and Z were undrawn.

5.9.2 Current

	December 31, 2016	December 31, 2015
	(in thousands of euro)	
Recoverable withholding taxes	291	284
Prepaid content	7,506	7,455
Prepayments	18,547	15,663
Unbilled revenue	71,387	40,811
Receivables from sale of sports broadcasting rights	7,057	1,446
Indemnification receivable for pylon taxes (see Note 5.26)	4,687	—
Settlement receivables	9,940	—
Other	5,794	2,963
Other current assets	125,209	68,622

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Unbilled revenue generally represents revenue for which the Company has already provided a service or product in accordance with the customer agreement but for which the customer has not yet been invoiced.

5.10 Inventories

As of December 31, 2016, inventories amounted to €21.7 million (2015: €19.3 million).

This total includes Telenet inventory with a net book value of €13.0 million consisting of mobile handsets, tablets, wireless modems, powerline adaptors and other DTV materials and includes impairments of €0.5 million (2015 : €1.1 million).

The increase of €2.4 million is due to the additional inventory of handsets and other accessories of BASE, with a net book value of €8.7 million (including impairments of €1.4 million), partly compensated by a decrease in the mobile handsets and tablets inventory of Telenet of €5.4 million and €2.8 million.

For the year ended December 31, 2016, Telenet and BASE recognized €65.4 million (2015: €73.3 million), respectively €55.1 million inventory as “costs related to sold inventory”.

5.11 Cash and cash equivalents

	December 31, 2016	December 31, 2015
	(in thousands of euro)	
Cash at bank and on hand	17,203	80,083
Certificates of deposit	—	1,190
Money market funds	82,000	196,000
Total cash and cash equivalents	99,203	277,273

At December 31, 2016, the Company held €99.2 million of cash and cash equivalents .

The decrease in the cash balance compared to December 31, 2015 was primarily due to the acquisition of BASE, partly offset by proceeds of loans and borrowings.

To minimize the concentration of counterparty risk, the Company’s cash equivalents are placed with highly rated European and US financial institutions.

On December 31, 2016, the Money Market funds with a daily liquidity had an average interest rate of - 0.31% and was representing 83% of the total consolidated cash. The investments of our cash and cash equivalents at December 31, 2016 and 2015 were in compliance with the Company’s Risk Management policies

At December 31, 2016, the Company had access to €545.0 million liquidity ;

- €400.0 million of available commitment under Revolving Credit Facility AG,
- €120.0 million of available commitment under Revolving Credit Facility Z,

subject to compliance with the covenants mentioned above and €25.0 million available under the banking overdraft facility.

5.12 Shareholders’ equity

5.12.1 Shareholders’ equity

On December 31, 2016, Telenet Group Holding NV had the following shares outstanding, all of which are treated as one class in the earnings per share calculation:

117,335,623 ordinary shares (2015: 117,278,706 shares), including:

- 94,843 Liquidation Dispreference Shares (2015: 94,843 shares), held by Interkabel and Binan Investments B.V. (a subsidiary of Liberty Global Plc), which have the same rights as the ordinary shares except that they are subject to an €8.02 liquidation dispreference, such that in any liquidation of Telenet

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Group Holding NV the Liquidation Dispreference Shares would only participate in the portion of the proceeds of the liquidation that exceed €8.02 per share. Liquidation Dispreference Shares may be converted into ordinary shares at a rate of 1.04 to 1; and

- 30 Golden Shares (2015: 30 shares) held by the financing intermunicipalities The financing intermunicipalities, currently holding the Golden Shares, are: IFIGGA, FINEA, FINGEM, IKA, FINILEK, FINIWO and FIGGA. , which have the same rights as the ordinary shares and which also give their holders the right to appoint representatives to the Regulatory Board, which oversees the public interest guarantees related to Telenet's offering of digital television.

As of December 31, 2016, the Company's share capital amounted to €12.8 million (2015: €12.8 million).

Own shares

On February 10, 2016, the Company announced the initiation of a share repurchase program, referred to as the "Share Repurchase Program 2016". Under this program, the Company could acquire from time to time up to a maximum of 1.1 million of its outstanding ordinary shares, for a maximum consideration of €50.0 million, within a six months period as from February 15, 2016. The Company purchased a total of 1,100,000 shares under the Share Repurchase Program 2016, for a total amount of €47.8 million. All repurchased shares are being held by the Company to cover the Company's obligations under existing stock option plans. In 2015, a total of 989,381 shares were purchased for a total amount of €50.0 million under a similar share repurchase program.

After the delivery of 13,800 own shares by the Company to the beneficiaries following the exercise of stock options under the ESOP 2013 primo and the ESOP 2014 plans, and the purchase of 1,100,000 shares during the year ended December 31, 2016, the Company owned 1,852,052 own shares at year end 2016.

5.12.2 Employee share based compensation

Warrant Plan 2010

Under the aforementioned plan, the warrants vested in equal parts per quarter over a period of four years and each warrant gave the holder the right to subscribe to one new share of the Company.

As of September 5, 2016, there were no more warrants outstanding under the Warrant Plan 2010 .

Employee Stock Option Plan 2013

On April 22, 2013, the board of directors approved a general stock option plan for the employees, for a total number of 1,200,000 stock options on existing shares, under the condition of approval and within the limits of the authorized capital as approved by the general shareholders' meeting of April 24, 2013 (the "Employee Stock Option Plan 2013" or "ESOP 2013"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

In 2013, the board of directors authorized two grants under this plan ("ESOP 2013 primo" and "ESOP 2013 bis") to certain beneficiaries.

The vesting of these stock options occurs per quarter and over 4 years, with a vesting of 10% of the total stock options granted during each of the first 4 quarters and a vesting of 5% of the total stock options granted during each of the 12 following quarters.

During 2016, beneficiaries of the ESOP 2013 plan exercised a total of 9,600 stock options, resulting in the delivery of a total of 9,600 own shares held by the Company.

Employee Stock Option Plan 2014

On December 5, 2014, the board of directors approved a general stock option plan for the employees, for a total number of 830,500 stock options on existing shares, under the condition of approval and within the limits of the authorized capital as approved by the general shareholders' meeting of April 24, 2013 (the "Employee Stock Option Plan 2014" or "ESOP 2014"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

On December 12, 2014, the board of directors authorized a grant under this plan to certain beneficiaries. On January 31, 2015, a total of 766,500 stock options were accepted.

The vesting of these stock options occurs per quarter and over 4 years, with a vesting of 10% of the total stock options granted during each of the first 4 quarters and a vesting of 5% of the total stock options granted during each of the 12 following quarters.

During 2016, beneficiaries of the ESOP 2014 plan exercised a total of 4,200 stock options, resulting in the delivery of a total of 4,200 own shares held by the Company.

Employee Stock Option Plan 2015

On October 27, 2015, the board of directors approved a general stock option plan for the employees for a total number of 873,000 stock options on existing shares, under the condition of approval and within the limits of the authorized capital as approved by the general shareholders' meeting of April 29, 2015 (the "Employee Stock Option Plan 2015" or "ESOP 2015"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

On November 2, 2015, the board of directors authorized a grant under this plan to certain beneficiaries. On December 15, 2015, a total of 402,350 stock options were accepted.

The vesting of these stock options occurs per quarter and over 4 years, with a vesting of 10% of the total stock options granted during each of the first 4 quarters and a vesting of 5% of the total stock options granted during each of the 12 following quarters.

No stock options under the ESOP 2015 plan were exercised during the twelve months ended at December 31, 2016.

Specific Performance based Stock Option Plan 2015 bis

On July 24, 2015, the board of directors approved a specific performance based stock option plan for a selected employee for a total number of 18,750 stock options on existing shares (the "Specific Performance based Stock Option Plan 2015 bis" or "SSOP 2015 bis"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

The grant of these 18,750 stock options, with an exercise price of €48.83 per option, was offered to the selected beneficiary on December 28, 2015, who accepted this offer on January 15, 2016.

The vesting of the stock options under the Performance based ESOP 2015 bis is contingent upon the achievement of certain performance criteria over a period of three years in a first tranche of 75% or 14,055 options and a second tranche of the remaining 25% or 4,693 stock options.

Any stock options that vest under the Performance based ESOP 2015 bis become exercisable during defined exercise periods following December 28, 2018 for the first tranche and February 11, 2019 for the second tranche and have an expiration date of December 28, 2020.

Employee Stock Option Plan 2016

On March 22, 2016, the board of directors approved a general stock option plan for the Company's Senior Leadership Team, one other manager and the CEO for a total number of 741,806 stock options on existing shares, under the condition of approval and within the limits of the authorized capital as approved by the general shareholders' meeting of April 29, 2015 (the "Employee Stock Option Plan 2016" or "ESOP 2016"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

On April 14, 2016, the board of directors authorized a grant under this plan to certain beneficiaries. On June 14, 2016, a total of 695,631 stock options were accepted.

The vesting of these stock options occurs per quarter and over 4 years, with a vesting of 10% of the total stock options granted during each of the first 4 quarters and a vesting of 5% of the total stock options granted during each of the 12 following quarters.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

No stock options under the ESOP 2016 plan were exercised during the twelve months ended at December 31, 2016.

Employee Stock Option Plan 2016 bis

On October 25, 2016, the board of directors approved a new general stock option plan for the employees for a total number of 467,000 stock options on existing shares, under the condition of approval and within the limits of the authorized capital as approved by the general shareholders' meeting of April 29, 2015 (the "Employee Stock Option Plan 2016 bis" or "ESOP 2016 bis"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

On November 7, 2016, the board of directors authorized a grant under this plan to certain beneficiaries. On January 6, 2017, a total of 359,000 stock options were accepted.

The vesting of these stock options occurs per quarter and over 4 years, with a vesting of 10% of the total stock options granted during each of the first 4 quarters and a vesting of 5% of the total stock options granted during each of the 12 following quarters.

CEO Stock Option Plan 2013

On April 22, 2013, the board of directors approved a specific stock option plan for the Company's CEO for a total number of 200,000 options on existing shares (the "CEO Stock Option Plan 2013" or "CEO SOP 2013"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company. On April 24, 2013, the extraordinary shareholders' meeting of the Company approved upfront certain terms and conditions of the CEO Stock Option Plan 2013.

The grant of these 200,000 stock options, with an exercise price of €34.33 per option, was effectively made to the CEO on July 4, 2013, who accepted this offer on October 2, 2013.

The vesting of the stock options under the CEO SOP 2013 is contingent upon the achievement of certain (cumulative) performance criteria over a period of three years, including the achievement of a minimum level of adjusted EBITDA. The Remuneration Committee, in consultation with the CEO, has determined for each installment the performance criteria on October 3, 2013, and it is the Remuneration Committee that will decide whether these criteria have been met. As the applicable performance criteria have been achieved for 2013, 2014 and 2015, the first tranche of 50,000 stock options vested on July 4, 2014, the second tranche of 100,000 stock options vested on July 4, 2015 and the last tranche of 50,000 stock options vested on July 4, 2016.

Any stock options that vest under the CEO SOP 2013 became exercisable during defined exercise periods following July 4, 2016. All options under the CEO SOP 2013 have an expiration date of July 4, 2018.

No stock options under the CEO SOP 2013 were exercised during the twelve months ended at December 31, 2016.

CEO Stock Option Plan 2014

On November 8, 2013, the board of directors approved a specific stock option plan for the Company's CEO for a total number of 185,000 options on existing shares (the "CEO Stock Option Plan 2014" or "CEO SOP 2014"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

The grant of these 185,000 stock options, with an exercise price of €38.88 per stock option, was effectively made to the CEO on November 8, 2013 and was accepted on February 5, 2014.

The vesting of the stock options under the CEO SOP 2014 is contingent upon the achievement of certain (cumulative) performance criteria over a period of three years, including the achievement of a minimum level of Adjusted EBITDA. The Remuneration Committee, in consultation with the CEO, has determined for each installment the performance criteria and it is the Remuneration Committee that will decide whether these criteria have been met.

On February 10, 2015, the Remuneration Committee decided that the applicable performance criteria for 2014 have been achieved and on February 9, 2016, it confirmed the achievement of the cumulative

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

performance criteria for 2014 and 2015, as determined in the CEO SOP 2014 Plan. The first tranche of 138,750 stock options vested on June 26, 2016. On February 14, 2017, the Remuneration Committee determined that the second tranche of 46,250 stock options will vest on March 1, 2017 as the applicable performance criteria for 2016 have been achieved.

Any stock options that vest under the CEO SOP 2014 become exercisable during defined exercise periods following June 26, 2016. All options under the CEO SOP 2014 have an expiration date of June 26, 2020.

No stock options under the CEO SOP 2014 were exercised during the twelve months ended at December 31, 2016.

CEO Stock Option Plan 2014 bis

On June 26, 2014, the board of directors approved a specific stock option plan for the Company's CEO for a total number of 180,000 options on existing shares (the "CEO Stock Option Plan 2014 bis" or "CEO SOP 2014 bis"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

The grant of these 180,000 stock options, with an exercise price of €39.38 per stock option, was effectively made to the CEO on July 15, 2014, who accepted this offer on September 13, 2014.

The vesting of the stock options under the CEO SOP 2014 bis is contingent upon the achievement of certain (cumulative) performance criteria over a period of three years, including the achievement of a minimum level of Adjusted EBITDA. The Remuneration Committee, in consultation with the CEO, has determined for each installment the performance criteria on June 26, 2014, and it is the Remuneration Committee that will decide whether these criteria have been met. As the applicable performance criteria were achieved for 2014, the first tranche of 45,000 stock options vested on July 15, 2015. Following the achievement of the performance criteria for 2014 and 2015, the second tranche of 67,500 stock options vested on July 15, 2017.

On February 14, 2017, the Remuneration Committee determined that the third tranche of 67,500 stock options will vest on July 15, 2017 as the performance criteria for 2014, 2015 and 2016 have been achieved.

Any stock options that vest under the CEO SOP 2014 bis become exercisable during defined exercise periods following July 15, 2017. All options under the CEO SOP 2014 bis have an expiration date of July 15, 2019.

CEO Stock Option Plan 2015

On February 10, 2015, the board of directors approved a specific stock option plan for the Company's CEO for a total number of 180,000 options on existing shares (the "CEO Stock Option Plan 2015" or "CEO SOP 2015"). Each of these stock options entitles the holder thereof to purchase from the Company one existing share of the Company.

The grant of these 180,000 stock options with an exercise price of €50.57 per stock option, was effectively made to the CEO on March 13, 2015, who accepted this offer on 11 May 2015.

The vesting of the stock options under the CEO SOP 2015 is contingent upon the achievement of certain (cumulative) performance criteria over a period of three years, including the achievement of a minimum level of Operating Cash (under USGAAP). The Remuneration Committee, in consultation with the CEO, determined for each installment the performance criteria on February 10, 2015, and it is the Remuneration Committee that will decide whether these criteria have been met. As the applicable performance criteria were achieved for 2015, the first tranche of 55,000 stock options vested on March 13, 2016. On February 14, 2017, the Remuneration Committee decided that the applicable (cumulative) performance criteria for 2015 and 2016 have been achieved hence, the second tranche of 63,000 stock options vested on March 13, 2017.

Subject to the achievement of the (cumulative) performance criteria for 2017 as determined by the Remuneration Committee, the last tranche of 62,000 stock options can vest on March 13, 2018 if the performance criteria for 2015, 2016 and 2017 are achieved.

Any stock options that vest under the CEO SOP 2015 become exercisable during defined exercise periods following March 13, 2018 and have an expiration date of March 13, 2020.

Telenet Group Holding NV

**Notes to the Consolidated Financial Statements
December 31, 2016**

The details regarding the stock option plans issued by the Company are summarized in the table below:

Stock Option Plan	Issuance of stock options		Stock options granted				
	Date approved by the board of directors	Total number of stock options issued	Name of the grant	Date offered	Number of stock options offered	Number of stock options accepted	Beneficiaries
Employee Stock Option Plan 2013	April 22, 2013	1,200,000	ESOP 2013 primo	July 4, 2013	985,000	741,448	certain employees
			ESOP 2013 bis	October 22, 2013	58,000	58,000	certain employees
CEO Stock Option Plan 2013	April 22, 2013	200,000	CEO SOP 2013	July 4, 2013	200,000	200,000	CEO
CEO Stock Option Plan 2014	November 8, 2013	185,000	CEO SOP 2014	November 8, 2013	185,000	185,000	CEO

For accounting purposes, the grant dates of all of the above mentioned grants were defined as the date the beneficiaries accepted the offer, except for the CEO SOP 2014bis, the CEO SOP 2015 and the Specific Performance based Stock Option Plan 2015 bis, due to applicable discretion by the Remuneration & Nomination Committee to determine the performance criteria of the plan. For these latter plans the grant date is not deemed to be achieved and therefore the fair value of the options is re-measured periodically until the discretion clause is removed.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

The grant dates for accounting purposes, as well as the underlying assumptions for determining the grant date fair value can be summarized as follows:

	Grant date (for accounting purposes)	Fair value at grant date (in euro)	Share price (in euro)	Exercise price (in euro)	Expected volatility	Expected option life	Expected dividends	Risk-free interest rate
				Initially Adjusted

TOTAL OUTSTANDING	3,190,979			

Total compensation expense associated with the Company's option and warrant plans amounted to €5.4 million in 2016 (2015: €9.2 million).

Performance shares

In October 2013, Telenet granted its Senior Leadership Team members (other than its chief executive officer) and one other manager a total of 28,949 performance shares ("the 2013 Telenet Performance Shares"). The performance target applicable to the 2013 Telenet Performance Shares is the achievement of a compound annual growth rate (CAGR) for Adjusted EBITDA, when comparing the Adjusted EBITDA during the period started as of January 1, 2013 and ending on December 31, 2015 to the Adjusted EBITDA for the period started on January 1, 2012 and ended on December 31, 2012. A performance range of 75% to 150% of the target Adjusted EBITDA CAGR would generally result in award recipients earning between 50% to 150% of their 2013 Telenet

Performance Shares, subject to reduction or forfeiture based on individual performance and service requirements. On February 9, 2016, The Remuneration & Nomination Committee and the Board of Directors decided that the performance criteria for the 2013 Telenet Performance Shares have been achieved, and as a consequence, the earned 2013 Telenet Performance Shares vested at 110.95% on October 25, 2016. The Remuneration and Nomination Committee of October 25, 2016 decided to settle the vested performance shares in cash instead of in shares of the Company. This particular performance share plan was paid out in cash for an amount of €1.6 million following the specific decision of the Remuneration

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Committee. As this was the second year in a row that a similar performance share plan has been settled in cash, it was decided upon that the historical track record of cash settlements of these particular equity awards did trigger a modification of the equity classification of all performance shares outstanding. As a result, all similar performance share plans have been considered to be cash settled share base payment plans and as a result, the Company represented the related share based compensation expense recognized as liability and no longer in equity. As the performance shares have been fair-valued, the cash paid to settle the 2013 performance share plan did not exceed the fair value of the award on the settlement date, the amount of cash paid to repurchase the equity award was charged to equity and consequently has been presented as a cash outflow from financing activities in the consolidated statement of cash flows.

In May 2014, Telenet granted its Senior Leadership Team members (other than its chief executive officer) and one other manager a total of 27,694 performance shares (“the 2014 Telenet Performance Shares”). The performance target applicable to the 2014 Telenet Performance Shares is the achievement of a compound annual growth rate (CAGR) for Adjusted EBITDA, when comparing the Adjusted EBITDA during the period started as of January 1, 2014 and ending on December 31, 2016 to the Adjusted EBITDA for the period started on January 1, 2013 and ended on December 31, 2013. A performance range of 75% to 150% of the target Adjusted EBITDA CAGR would generally result in award recipients earning 50% to 150% of their 2014 Telenet Performance Shares, subject to reduction or forfeiture based on individual performance and service requirements. On February 14, 2017, the Remuneration & Nomination Committee and the Board of Directors decided that the performance criteria for the 2014 Telenet Performance Shares have been achieved, and as a consequence, the earned 2014 Telenet Performance Shares will vest at 62.37% on May 22, 2017. Any compensation costs attributable to the 2014 Telenet Performance Shares are recognized over the requisite service period of the awards and will be included in compensation expense in Telenet’s consolidated statement of profit or loss and other comprehensive income.

In June 2015, Telenet granted its Senior Leadership Team members (other than its chief executive officer) and one other manager a total of 26,104 performance shares (“the 2015 Telenet Performance Shares”). The performance target applicable to the 2015 Telenet Performance Shares is the achievement of a compound annual growth rate (CAGR) for Operating Cash Flow (under USGAAP), when comparing the Operating Cash Flow during the period started as of January 1, 2015 and ending on December 31, 2017 to the Operating Cash Flow for the period started on January 1, 2014 and ended on December 31, 2014. A performance range of 75% to 150% of the target Operating Cash Flow CAGR would generally result in award recipients earning 50% to 150% of their 2015 Telenet Performance Shares, subject to reduction or forfeiture based on individual performance and service requirements. The earned 2015 Telenet Performance Shares will vest on June 18, 2018. Any compensation costs attributable to the 2015 Telenet Performance Shares are recognized over the requisite service period of the awards and will be included in compensation expense in Telenet’s consolidated statement of profit or loss and other comprehensive income.

On April 15, 2016, the Company granted its Senior Leadership Team members (including its chief executive officer) and one other manager a total of 119,842 performance shares (“the 2016 Telenet Performance Shares”). The performance target applicable to the 2016 Telenet Performance Shares is the achievement of a compound annual growth rate (CAGR) for Operating Cash Flow (under USGAAP), when comparing the Operating Cash Flow during the period started as of January 1, 2016 and ending on December 31, 2018 to the Operating Cash Flow for the period started on January 1, 2015 and ended on December 31, 2015. A performance range of 75% to 160% of the target Operating Cash Flow CAGR would generally result in award recipients earning 75% to 300% of their 2016 Telenet Performance Shares, subject to reduction or forfeiture based on individual performance and service requirements. The earned 2016 Telenet Performance Shares will vest on April 15, 2019. Any compensation costs attributable to the 2016 Telenet Performance Shares are recognized over the requisite service period of the awards and will be included in compensation expense in Telenet’s consolidated statement of profit or loss and other comprehensive income.

In 2016, Telenet recognized €6.3 million of compensation expense in respect of the Telenet Performance Shares plans (2015: €1.2 million).

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.13 Loans and borrowings

This note provides information about the contractual terms of the Group's interest-bearing loans and borrowings, which are measured at amortized cost. For more information about the Company's exposure to risks, including interest rate and liquidity risk, see note 5.3.

The balances of loans and borrowings specified below include accrued interest as of December 31, 2016 and 2015.

	December 31, 2016	December 31, 2015
	(in thousands of euro)	
2015 Amended Senior Credit Facility:		
Revolving Credit Facility X	—	943
Revolving Credit Facility Z	61	240
Revolving Credit Facility AG	477	—
Term Loan W	—	476,781

Less: current portion	(139,372)	(110,558)
Total non-current loans and borrowings	4,642,485	3,683,320

As of December 31, 2016 and 2015, all loans and borrowings were denominated in euro except for Term Loan AF which is denominated in USD. Fixed interest rates applied to 34.68% of the total loans and borrowings (2015: 52.09%). The weighted average interest rates at December 31, 2016, were 5.83% on fixed rate loans (2015: 5.92%) and 3.38% on floating rate loans (2015: 3.49%).

5.13.1 2015 Amended Senior Credit Facility

Throughout the years ended December 31, 2015 and 2016 the Company modified the 2010 Senior Credit Facility including, amongst others, changes to certain guarantees and covenants.

In March 2014, the Company launched an extension offer for Term Loans Q, R and T under its 2015 Amended Senior Credit Facility and the redemption of its Senior Secured Notes due 2016 ("Facility N").

As a result of the aforementioned refinancing, which was completed in April 2014, the Company issued a new €474.1 million floating rate Term Loan under the 2015 Amended Senior Credit Facility

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

("Term Loan W") due June 30, 2022 carrying a margin of 3.25% over EURIBOR. In addition, the Company issued a new €882.9 million floating rate Term Loan under the 2015 Amended Senior Credit Facility ("Term Loan Y") due June 30, 2023 carrying a margin of 3.50% over EURIBOR. The net proceeds of these new issuances, together with available cash and cash equivalents, were used to fully redeem the outstanding amounts under Term Loans Q, R and T and the €100.0 million Senior Secured Notes due 2016.

In addition, as part of the 2015 Senior Credit Facility amendments, lenders under Revolving Credit Facility S ("Facility S") were asked to renew and extend their commitments into a new Revolving Credit Facility ("Facility X"), resulting in a reduction of the existing Facility S (with availability up to December 31, 2016) to €36.9 million and a new Facility X (with availability up to September 30, 2020) of €286.0 million.

The unamortized deferred financing fees related to Term Loan Q, R and T (€3.9 million) and related to the €100.0 million Senior Secured Notes due 2016 (€3.5 million) were accounted for in 2014 as a loss on extinguishment of debt upon early redemption. In April 2015, Telenet issued two new debt facilities under the 2015 Amended Senior Credit Facility for an aggregate amount of €1,000 million linked to the acquisition of BASE Company. Through Telenet International Finance S.à r.l., which acts as the group's financing center, Telenet issued a floating rate €800.0 million Term Loan ("Term Loan AA") with a maturity of June 30, 2023 and a 3.50% margin over EURIBOR. In addition, Telenet secured an additional €200.0 million Revolving Credit Facility ("Facility Z") with a maturity of June 30, 2018 and a margin of 2.25% over EURIBOR. Term loan AA and Facility Z were undrawn at December 31, 2015.

In July 2015, the Company upsized the available commitments under its Facility X by €95.0 million to an aggregate of €381.0 million by transferring €10.0 million of its commitment under Facility S and generating €85.0 extra commitments. The remaining €26.9 million commitment available under Facility S was canceled in September 2015.

In February 2016, Telenet drew three debt facilities under the 2015 Amended Senior Credit Facility for the financing of the BASE acquisition for an aggregate amount of €1,217.0 million, including (i) €800.0 million under Term Loan AA with a maturity of June 30, 2023 and a 3.50% margin over EURIBOR, (ii) €217.0 million under Revolving Credit Facility X with a maturity of September 30, 2020 and a 2.75% margin over EURIBOR, and (iii) €200.0 million under Revolving Credit Facility Z with a maturity of June 30, 2018 and a 2.25% margin of EURIBOR.

In April and May 2016, Telenet repaid €130.0 million and €87.0 million, respectively, under Revolving Credit Facility X, fully repaying the amounts it had drawn in February 2016. In June, July, September and October 2016, the Company subsequently repaid €80.0 million, €20.0 million, €65.0 million and €35.0 million under Revolving Credit Facility Z, leaving no outstanding balance at December 31, 2016.

In May 2016, the Company successfully issued a USD 850.0 million Term Loan ("Facility AD") due June 30, 2024. Facility AD bears interest at 3.50% over LIBOR (with a 75 basis points floor) and was issued at 99.5% of par. Telenet drew Term Loan AD on June 14, 2016 and entered into several cross-currency interest swap transactions at that time to hedge both the underlying currency and floating interest rate exposure.

Telenet used the net proceeds from these transactions on June 15, 2016 to prepay the following credit facilities under the existing Senior Credit Facility: (i) Facility O, of which Telenet Finance III Luxembourg S.C.A. ("TFL III") was the lender, and (ii) Facility P, of which Telenet Finance IV Luxembourg S.C.A. ("TFL IV") was the lender. TFL III and TFL IV in turn used the proceeds from the prepayment of Facility O and Facility P to redeem the associated €300.0 million Senior Secured Notes due 2021 and the €400.0 million Senior Secured notes due 2021, respectively. The Company recorded a loss on extinguishment of debt of €16.9 million of which € 6.9 million related to the early redemption of unamortized deferred financing fees and €10.0 million related to the make whole premium (note 5.21).

In November 2016, the Company issued a €1.6 billion Term Loan ("Facility AE") and a USD 1.5 billion Term Loan ("Facility AF"), both due January 31, 2025. Facility AE carries a margin of 3.25% over EURIBOR with a 0% floor and was issued at par. Facility AF carries a margin of 3.00% over LIBOR with a 0% floor and was issued at 99.50% of par. The net proceeds from these issuances were used to entirely

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

prepay the following credit facilities under Telenet's 2015 Amended Senior Credit Facility: (i) Facility W (€474.1 million due June 2022, EURIBOR +3.25%, 0% floor), (ii) Facility Y (€882.9 million due June 2023, EURIBOR + 3.50%, 0% floor), (iii) Facility AA (€800.0 million due June 2023, EURIBOR + 3.50%, 0% floor) and (iv) Facility AD (USD 850.0 million due June 2024, LIBOR + 3.50%, 0.75% floor). Through this transaction, the Company was able to extend the average tenor of our debt maturities at attractive market conditions from 7 years to just over 8 years post-refinancing, while ensuring increased covenant flexibility going forward. In conjunction with the aforementioned refinancing, the Company also upsized and extended the outstanding commitments under its undrawn revolving credit facility (previously under Facility X, which was cancelled and replaced with Facility AG) from €381.0 million to €400.0 million and extended the maturity to June 2023 from September 2020. Hence, the Company faces no debt amortizations prior to August 2022, taking into account the fact that the outstanding amounts under the revolving credit facilities have been repaid in full. The unamortized deferred financing fees related to Term Loan W, Y, AA and AD were accounted for as a loss on extinguishment of debt upon early redemption for €28.8 million (Note 5.21). All new fees related to the refinancing transaction are capitalized as deferred financing fees for a total of €8.6 million and USD9 million and deferred over the term of the new loans.

5.13.2 Senior Secured Notes

Issuance of €300.0 million Senior Secured Fixed Rate Notes due 2021

Telenet Finance III Luxembourg S.C.A. (further referred to as "TFL III") was incorporated on January 28, 2011 under the laws of the Grand Duchy of Luxembourg as a structured finance entity company for the primary purpose of facilitating the offering of Senior Secured Notes.

On February 9, 2011 TFL III entered into a Global Note offering (the "Senior Secured Notes due 2021"). TFL III was incorporated as a corporate partnership limited by shares and is owned for 99.99% by a charitable trust and 0.01% by Telenet Finance III Luxembourg S.à r.l., a company independent from the Telenet Group.

TFL III is an SE, incorporated on specific request of the Company. Although the Company does not have any direct or indirect shareholdings in this entity, this SE is considered to be controlled by the Company given the substance of its relationship. Therefore, TFL III is included in the consolidated financial statements of the Company.

The proceeds from the issuance of the Senior Secured Fixed Rate Notes due 2021 (being €300.0 million) the Company are used by TFL III to fund an additional facility under the 2015 Amended Senior Credit Facility, (the "Finco Loan" or "Facility O"), denominated in euro, borrowed by Telenet International Finance S.à r.l. ("TIF").

The Senior Secured Fixed Rate Notes due 2021 were issued on February 9, 2011 and all cash was received on February 15, 2011. The Senior Secured Fixed Rate Notes due 2021 have a principal value of €300.0 million and were issued at par. The interest rate on the Senior Secured Fixed Rate Notes due 2021 amounts to 6.625% annually and accrued interest is paid semi-annually on February 15 and August 15 commencing August 15, 2011. The final maturity of these Senior Secured Fixed Rate Notes is February 15, 2021.

The net proceeds from this offering were partially used to redeem before maturity the outstanding Term Loans K and L1 under the Company's 2015 Amended Senior Credit Facility for an aggregate of €286.5 million.

On June 15, 2016, Telenet used the proceeds of USD 850.0 million Term Loan ("Facility AD") to repay the €300.0 million Senior Secured Fixed Rate Notes due 2021.

Issuance of €400.0 million Senior Secured Floating Rate Notes due 2021

Telenet Finance IV Luxembourg S.C.A. (further referred to as "TFL IV") was incorporated on May 23, 2011 under the laws of the Grand Duchy of Luxembourg as a structured finance entity company for the primary purpose of facilitating the offering of Senior Secured Notes.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

On June 8, 2011 TFL IV entered into a Global Note offering (the “Senior Secured Notes due 2021”). TFL IV was incorporated as a corporate partnership limited by shares and is owned for 99.99% by a charitable trust and 0.01% by Telenet Finance IV Luxembourg S.à r.l., a company independent from the Telenet Group.

TFL IV is an SE, incorporated on specific request of the Company. Although the Company does not have any direct or indirect shareholdings in this entity, this SE is considered to be controlled by the Company given the substance of its relationship. Therefore, TFL IV is included in the consolidated financial statements of the Company.

The proceeds from the issuance of the Senior Secured Floating Rate Notes due 2021 (being €400.0 million) were used by TFL IV to fund an additional facility under the 2015 Amended Senior Credit Facility, (the “Proceeds Loan” or “Facility P”), denominated in euro, borrowed by Telenet International Finance S.à r.l. (“TIF”).

The Senior Secured Floating Rate Notes due 2021 were issued on June 8, 2011 and the cash was received on June 15, 2011. These Senior Secured Floating Rate Notes due 2021 have a principal value of €400.0 million and were issued at par. The interest rate on the Senior Secured Floating Rate Notes due 2021 is the 3M Euribor +3.875% and accrued interest is paid quarterly on March 15, June 15, September 15 and December 15 commencing September 15, 2011. The final maturity of these Senior Secured Notes is June 15, 2021.

The net proceeds from this offering were used to redeem €400.1 million on the outstanding Term Loan G and J under the Company’s 2015 Amended Senior Credit Facility

On June 15, 2016, Telenet used the proceeds of USD 850.0 million Term Loan (“Facility AD”) to repay the €400.0 million Senior Secured Floating Rate Notes due 2021.

Issuance of €450.0 million Senior Secured Fixed Rate Notes due 2022 and €250.0 million Senior Secured Fixed Rate Notes due 2024

Telenet Finance V Luxembourg S.C.A. (further referred to as “TFL V”) was incorporated on November 16, 2011 under the laws of the Grand Duchy of Luxembourg as a structured finance entity company for the primary purpose of facilitating the offering of Senior Secured Notes.

On August 13, 2012 TFL V entered into two Global Note offerings (the “Senior Secured Notes due 2022” and the “Senior Secured Notes due 2024”). TFL V was incorporated as a corporate partnership limited by shares and is owned for 99.99% by a charitable trust and 0.01% by Telenet Finance V Luxembourg S.à r.l., a company independent from the Telenet Group.

TFL V is an SE, incorporated on specific request of the Company. Although the Company does not have any direct or indirect shareholdings in this entity, this SE is considered to be controlled by the Company given the substance of its relationship. Therefore, TFL V is included in the consolidated financial statements of the Company.

The proceeds from the issuance of the Senior Secured Fixed Rate Notes due 2022 (being €450.0 million) and the Senior Secured Fixed Rate Notes due 2024 (being €250.0 million) were used by TFL V to fund two additional facilities under the 2015 Amended Senior Credit Facility, (the “Finco Loan” or “Facilities U and V”), denominated in euro, borrowed by Telenet International Finance S.à r.l. (“TIF”).

The Senior Secured Fixed Rate Notes due 2022 and 2024 were issued on August 13, 2012 and the cash was received on August 16, 2012. These Senior Secured Fixed Rate Notes due 2022 and 2024 have a principal value of €450.0 million and €250.0 million, respectively, and were issued at par.

The interest rate on the Senior Secured Fixed Rate Notes due 2022 is 6.25% annually and accrued interest is paid semi-annually on August 15 and February 15 commencing February 15, 2013. The final maturity of these Senior Secured Notes is August 15, 2022. The interest rate on the Senior Secured Fixed Rate Notes due 2024 is 6.75% annually and accrued interest is paid semi-annually on August 15 and February 15 commencing February 15, 2013. The final maturity of these Senior Secured Notes is August 15, 2024.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

The net proceeds of this offering were envisioned to be used entirely to fund the proposed share repurchases under a Self Tender Offer. Due to the cancellation of the Self Tender Offer on September 20, 2012, the proceeds from this offering were still available as cash and cash equivalents as at December 31, 2012.

Issuance of €530.0 million Senior Secured Fixed Rate Notes due 2027

Telenet Finance VI Luxembourg S.C.A. (further referred to as “TFL VI”) was incorporated on August 14, 2012 under the laws of the Grand Duchy of Luxembourg as a structured finance entity company for the primary purpose of facilitating the offering of Senior Secured Notes.

On July 21, 2015 TFL VI entered into a Global Note offering (the “Senior Secured Notes due 2027”). TFL VI was incorporated as a corporate partnership limited by shares and is owned for 99.99% by a charitable trust and 0.01% by Telenet Finance VI Luxembourg S.à r.l., a company independent from the Telenet Group.

TFL VI is an SE, incorporated on specific request of the Company. Although the Company does not have any direct or indirect shareholdings in this entity, this SE is considered to be controlled by the Company given the substance of its relationship. Therefore, TFL VI is included in the consolidated financial statements of the Company.

In July 2015, TFL VI issued €530.0 million 4.875% Senior Secured Fixed Rate Notes due 2027. The net proceeds of this issuance were used in August 2015 to prepay €500.0 million of Senior Secured Notes due 2020. This resulted in a loss on extinguishment of debt amounting to €30.8 million consisting of unamortized deferred financing fees related to the €500.0 million Senior Secured Notes due 2016 of €30.8 million and a make whole premium of €23.1 million

The interest rate on the Senior Secured Fixed Rate Notes due 2027 is 4.875% annually and accrued interest is paid semi-annually on January 15 and July 15. The final maturity of these Senior Secured Notes is July 15, 2027.

The bond was issued below par (98.55%) but the difference between the discount and the par value was paid by the underwriters resulting in nominal proceeds of €530.0 million.

5.13.3 Repayment schedule

Aggregate future principal payments on the total borrowings under all of the Company’s loans and borrowings other than finance leases, vendor financing, 3G spectrum and global handset financing loans as of December 31, 2016 are shown in the following table:

5.13.4 Guarantees and covenants

As at 31 December 2016, Telenet BVBA, Telenet Group BVBA, Telenet International Finance S.à r.l. and Telenet Financing USD LLC guaranteed (and continue to guarantee) the obligations of each of Telenet BVBA, Telenet Group BVBA, Telenet International Finance S.à r.l. and Telenet Financing USD LLC under the 2015 Amended Senior Credit Facility, to the extent permitted by law and subject to any applicable guarantee limitations.

In addition, security has been granted under the 2015 Amended Senior Credit Facility by Telenet Group Holding NV, Telenet BVBA, Telenet Group BVBA, Telenet Vlaanderen NV, Telenet International Finance S.à r.l. and Telenet Financing USD over substantially all their assets.

The above-mentioned security interests include:

- pledges of all shares of Telenet BVBA, Telenet Group BVBA, Telenet Vlaanderen NV and Telenet International Finance S.à r.l.;
- mortgages of (i) €800 million granted by the former Telenet Operaties NV (succeeded by Telenet BVBA), (ii) €625 million granted by the former MixtICS NV (succeeded by Telenet BVBA), (iii) €625 million granted by Telenet Vlaanderen NV, and (iv) €50 million granted by the former Telenet Solutions NV (succeeded by Telenet BVBA); a portion of the mortgages have been granted in a non-joined (non-cumulative) manner with certain other mortgages and certain floating charges;
- non-exercised mortgage mandates of (i) €650 million granted by Telenet BVBA (formerly called Telenet NV and Telenet BidCo NV), (ii) €450 million granted by the former Telenet Operaties NV (succeeded by Telenet BVBA), (iii) €450 million granted by the former MixtICS NV (succeeded by Telenet BVBA) and (iv) €450 million granted by Telenet Vlaanderen NV;
- floating charges (pand op handelszaak) of (i) €1.25 billion granted by the former Telenet Operaties NV (succeeded by Telenet BVBA), (ii) €135 million granted by Telenet BVBA (formerly called Telenet NV and Telenet BidCo NV), (iii) €250 million granted by Telenet BVBA (formerly called Telenet NV and Telenet BidCo NV), (iv) €865 million granted by the former MixtICS NV (succeeded by Telenet BVBA), (v) €865 million granted by Telenet Vlaanderen NV, (vi) €75 million granted by the former PayTVCo NV (succeeded by Telenet BVBA) and (vii) €75 million granted by the former Codenet NV (afterwards renamed to Telenet Solutions NV and succeeded by Telenet BVBA); a portion of the floating charges have been granted in a non-joined manner (non-cumulative) with certain other floating charges and certain mortgages;
- a non-exercised floating charge mandate of €865 million granted by Telenet BVBA, which is granted in a non-joined (non-cumulative) manner with the floating charges referred to in (i), (iv), (vi) and (vii) above;
- a non-exercised floating charge mandate of €800 million granted by Telenet Group BVBA;
- pledges of all present and future receivables owed to Telenet Group Holding NV, Telenet BVBA, Telenet Group BVBA and Telenet Vlaanderen NV;

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

- pledges of all present and future securities (other than shares in subsidiaries) held by Telenet BVBA and Telenet Vlaanderen NV;
- a pledge over all present and future notes issued by Finance Center Telenet S.à r.l. and owned by Telenet International Finance S.à r.l.;
- pledges of all present and future intercompany receivables owed to Telenet International Finance S.à r.l. by Telenet BVBA, Telenet Luxembourg Finance Center S.à r.l, Finance Center Telenet S.à r.l. and Telenet Group BVBA;
- pledges on all present and future bank accounts of Telenet Group Holding NV, Telenet BVBA, Telenet Group BVBA, Telenet Vlaanderen NV and Telenet International Finance S.à r.l.;
- pledge on all present and future shares (and other equity interests) of Telenet Financing USD LLC owned by Telenet International Finance S.à r.l.;
- security granted by Telenet Financing USD LLC over present and future assets, including inter alia, accounts, equipment, inventory, documents, securities, intellectual property and immaterial assets; and
- pledge of receivables owed to Telenet Group Holding NV by Finance Center Telenet S.à r.l. under a subordinated shareholder loan and all receivables owed by other group members to Telenet Group Holding NV under future subordinated shareholder loans.

The total executable principal amount under the mortgages and floating charges, taking into account non-cumulation within and between floating charges and mortgages, was €2,375,000,000 on December 31, 2016.

As of December 31, 2016, the Company was in compliance with all of its financial covenants.

In respect of the obligations under the notes issued by Telenet Finance V Luxembourg S.C.A., security has been granted to the trustee under the notes on behalf of itself and the holders of the notes over:

- all of the issued ordinary shares of Telenet Finance V Luxembourg S.C.A.;
- all of the issued shares of Telenet Finance V S.à r.l. (Telenet Finance V Luxembourg S.C.A.'s general partner);
- all of Telenet Finance V Luxembourg S.C.A.'s rights, title and interest under the 2015 Amended Senior Credit Facility, the intercreditor agreement dated October 10, 2007 (as amended and restated from time to time and most recently on 2 November 2015), the additional facility U accession agreement and the additional facility V accession agreement pursuant to which Telenet Finance V Luxembourg S.C.A. has become a lender under the 2015 Amended Senior Credit Facility;
- all of Telenet Finance V Luxembourg S.C.A.'s rights, title and interest under the fee letter and the service agreement related to the notes issuance; and
- all sums of money held from time to time in Telenet Finance V Luxembourg S.C.A.'s bank account.

Telenet International Finance S.à r.l.'s payment obligations under the fee letter and the service agreement are guaranteed by Telenet BVBA to Telenet Finance V Luxembourg S.C.A.

In respect of the obligations under the notes issued by Telenet Finance VI Luxembourg S.C.A., security has been granted to the trustee under the notes on behalf of itself and the holders of the notes over:

- all of the issued ordinary shares of Telenet Finance VI Luxembourg S.C.A.;
- all of the issued shares of Telenet Finance VI S.à r.l. (Telenet Finance VI Luxembourg S.C.A.'s general partner);
- all of Telenet Finance VI Luxembourg S.C.A.'s rights, title and interest under the 2015 Amended Senior Credit Facility, the intercreditor agreement dated October 10, 2007 (as amended and restated from time to time and most recently on 2 November 2015), the additional facility AB accession agreement and the additional facility VI accession agreement pursuant to which Telenet Finance VI Luxembourg S.C.A. has become a lender under the 2015 Amended Senior Credit Facility;

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

- all of Telenet Finance VI Luxembourg S.C.A.'s rights, title and interest under the fee letter and the service agreement related to the notes issuance; and
- all sums of money held from time to time in Telenet Finance VI Luxembourg S.C.A.'s bank account.

Telenet International Finance S.à r.l.'s payment obligations under the fee letter and the service agreement are guaranteed by Telenet BVBA to Telenet Finance VI Luxembourg S.C.A.

5.13.5 Finance lease obligations

Finance lease liabilities are payable as follows:

(in thousands of euro)	Future minimum lease payments		Interest		Present value of future minimum lease payments	
	December 31, 2016	December 31, 2015	December 31, 2016	December 31, 2015	December 31, 2016	December 31, 2015
Within one year	61,486	58,499	20,472	21,230	41,014	37,269
In the second to fifth year, inclusive	251,543	196,009	68,414	58,462	183,129	137,547
Thereafter	157,081	201,104	26,601	34,518	130,480	166,586
Total minimum lease payments	470,110	455,612	115,487	114,210	354,623	341,402

The following table summarizes the obligations per type of finance leases:

(in thousands of euro)	Future minimum lease payments		Interest		Present value of future minimum lease payments	
	December 31, 2016	December 31, 2015	December 31, 2016	December 31, 2015	December 31, 2016	December 31, 2015
Buildings	17,329	20,261	2,246	3,377	15,083	16,884
Canon	452,781	435,351	113,241	110,833	339,540	324,518
Total minimum lease payments	470,110	455,612	115,487	114,210	354,623	341,402

Canon, Clientele and Annuity agreements

In 1996, the Company acquired the exclusive rights to offer point-to-point services including broadband internet and telephony services, as well as the rights to partly use the capacity of the broadband network owned and controlled by the Pure Intercommunales ("PICs"). In return for this access to a part of the PICs' network, the company paid the so-called Clientele and Annuity Fees. The present value of the Clientele and Annuity Fee payments over the first 20 years (being the life of the longest lived assets that were part of the HFC Upgrade) was initially accounted for as network user rights under intangible assets, and was amortized over 10 or 20 years depending on the useful life of the underlying assets that make up the HFC Upgrade.

Upon completion of the Interkabel acquisition in 2008, the company obtained the ownership and control over the entire network, including the obligation beyond 20 years under the original 50 year Clientele fee agreement and now has the right to use the full capacity of the PICs' network. The term of the Canon Lease Agreement is 38 years (of which still 31 years remained at the end of 2015). Under this agreement, the Company pays recurring Canon Fees which together with the Clientele and Annuity Fees grant full access to the PICs' network. The assets capitalized under the Canon Agreement are depreciated over a period of 15 years. The full access rights acquired under the Canon, Clientele and Annuity agreements are recorded as property and equipment (network) as from October 2008 onwards (see Note 5.4).

On the additional rights of use on the Telenet PICs Network, acquired under the Canon agreement, a contractual interest rate was agreed upon which was favorable in comparison with the market interest rate at that moment. Therefore, this favorable component on the initial Canon lease was separated in the purchase price allocation and recognized as a debit to the liability of the underlying existing Canon Lease. The favorable Out of Market component on the future Canon leases acquired as part of the business combination was recognized as network user rights under other intangible assets (see Note 5.6).

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

For the year ended December 31, 2016, the average effective borrowing rate for the three above mentioned fees was 6.28% (2015: 6.32%).

The Clientele fees payable beyond 20 years are recognized as a non-lease related debt.

As per December 31, 2016 and 2015, the outstanding liabilities related to the Interkabel agreements, as well as the net book value of the intangible asset can be summarized as follows:

	<u>December 31, 2016</u>	<u>December 31, 2015</u>
	<u>(in thousands of euro)</u>	
Outstanding lease debt Annuity / Clientele / Canon		
Annuity agreement	10,009	12,621
Clientele agreement	11,080	15,757
Canon agreement	321,146	299,774
Out of Market Component on initial Canon leases acquired as part of a business combination	(2,695)	(3,634)
	339,540	324,518
Outstanding non-lease related Clientele debt Clientele fee > 20 years	106,008	97,743
Intangible asset related to Canon agreement		
Out of Market Component on future Canon leases acquired as part of a business combination	17,437	17,762

Other leases

The Company leases certain assets under finance leases including buildings and certain vehicles with average lease terms of 20 and 5 years, respectively.

For the year ended December 31, 2016, the average effective borrowing rate was 4.17% (2015: 4.30%). All leases are on a fixed repayment schedule and no arrangements include contingent rental payments. The Company's obligations under finance leases are secured by the lessors' title to the leased assets.

5.13.6 3G and 2G mobile spectrum

Following an auction launched in March 2011 by the BIPT, Telenet Tecteo BidCo NV, a subsidiary of the Company in which the Walloon cable operator Tecteo SCRL holds a 25% stake, acquired the fourth 3G mobile spectrum license in Belgium (see note 5.6). For the years ended December 31, 2016 and 2015, the average effective borrowing rate for the 3G mobile spectrum was 2.25% (2015 : 2.75%).

5.13.7 Global Handset Finco Loan

On December 4, 2015 Telenet Finance BVBA borrowed €12.7 million from Global Handset Finco Limited to fund its handset financing activity through the "Global Handset Finco Loan" which is due December 4, 2017.

5.13.8 Vendor Financing

In the third quarter of 2016, the Company entered into a vendor financing program with a financial institution for a total amount of €34.7 million. Under such program, suppliers entering the system are paid by the bank earlier than their regular payment terms at a discount or at their regular payment terms without a discount while Telenet has 360 days to pay the bank. Consequently, the vendor financing liabilities are accounted for as loans and borrowings on the balance sheet. As in 2016 no payments occurred on these debts, the outstanding liabilities with respect to vendor financing (€34.7 million) consist of:

- €28.5 million capex related invoices, and
- €6.2 million operational expense related invoices.

As a result of the capex-related vendor financing, the Company's net cash used in investing activities was favorably impacted for the equivalent amount. Upon payment of the short term debt by Telenet to the bank after 360 days, the Company will record cash used in financing activities.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

For operational expense related invoices (OPEX) the Company records cash outflows from operations and a corresponding cash inflow in financing activities when the expenses are incurred. When the Company pays the bank, the Company records financing cash outflows.

5.14 Derivative financial instruments

The Company has entered into various derivative instruments to manage interest rate and foreign currency exposure.

As of December 31, 2016 and 2015, the outstanding forward foreign exchange derivatives were as follows:

	<u>December 31, 2016</u>	<u>December 31, 2015</u>
	(in thousands of euro)	
Forward Purchase Contracts		
Notional amount in US dollar	47,100	49,550
Weighted average strike price (US dollar per euro)	1.135	1.099
Maturity	From January to November 2017	From January to December 2016

In June 2016, the Tranche O—€300.0 million 6.625% due in 2021 and the tranche P—€400.0 million Floating rate due 2021 were repaid and refinanced by the Term Loan AD—Usd 850.0 million floating rate due 2024. The company paid €10.7 million to terminate the interest derivatives hedging the tranche P.

The Company entered into several Cross currency interest rates swaps (CCIRS) to hedge the Foreign exchange exposure of the USD Term loan AF nominal repayment and to transform the USD payable floating rate into a Euro payable fixed rate.

As of December 31, 2016 and 2015, the outstanding interest rate derivatives and Cross currency interest rates swaps (CCIRS) as follows:

	<u>December 31, 2016</u>	<u>December 31, 2015</u>
	(in thousands of euro)	
Interest Rate Swaps EUR

Net gain on derivative financial instruments	6,140	13,789

5.15 Deferred taxes

Telenet Group Holding NV and its consolidated subsidiaries each file separate tax returns, except for Telenet International Finance S.à r.l., Finance Center Telenet S.à r.l. and Telenet Luxembourg Finance Center S.à r.l, which form a Luxembourg fiscal unity, in accordance with applicable local tax laws. For financial reporting purposes, Telenet Group Holding NV and its subsidiaries calculate their respective tax assets and liabilities on a separate-return basis, except for Telenet International Finance S.à r.l., Finance Center Telenet S.à r.l. and Telenet Luxembourg Finance Center S.à r.l. These assets and liabilities are combined in the accompanying consolidated financial statements.

Telenet Group Holding NV

**Notes to the Consolidated Financial Statements
December 31, 2016**

The movement in deferred tax assets and liabilities during the current and the prior year, without taking into consideration the offsetting of balances within the same tax entity, is as follows:

			<u>(16,019)</u>

As of December 31, 2016, Telenet Group Holding NV and its subsidiaries had available combined cumulative tax loss carry forwards of €1227.6 million (2015: €819.9 million). Under current Belgian and Luxembourg tax laws, these loss carry forwards have an indefinite life and may be used to offset the future taxable income of Telenet Group Holding NV and its subsidiaries.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Deferred tax assets are recognized for tax loss carry forwards to the extent that the realization of the related tax benefit through the future taxable profits is probable.

Telenet did not recognize deferred tax assets of €185.3 million (2015: €171.7 million) in respect of losses amounting to €545.3 million (2015: €505.2 million) that can be carried forward against future taxable income because it is not considered more likely than not that these net deferred tax assets will be utilized in future years.

5.16 Other non-current liabilities

	<u>Note</u>	<u>December 31, 2016</u>	<u>December 31, 2015</u>
		(in thousands of euro)	
Employee benefit obligations	5.17	23,596	15,640
Other personnel related obligations		893	829
Long service awards	5.17	8,079	8,060
Interkabel out of market opex		15,135	14,604
Asset retirement obligations		8,700	1,913
Liabilities regarding sports broadcasting rights	5.6	24,718	4,192
Restructuring liability Norkring		11,343	12,412
Other		2,144	1,412
Total Other non-current liabilities		94,608	59,062

The impact of the BASE acquisition on the other non-current liabilities amounts to €8.4 million and consists mainly of the asset retirement obligation related to the dismantling of mobile network sites and the employee benefit obligations.

At the end of 2013, the Company decided to discontinue the provision of DTT services which occurred in the six months ended June 30, 2014. Following this decision, the Company determined that its obligations under the DTT capacity agreement with Norkring België NV constituted an onerous contract and recognized accordingly a provision measured as the net present value of the remaining payments due under this DTT capacity agreement related to the so called “MUX 2 and MUX 3 capacity”.

As a result of the amendment to the DTT capacity agreement signed in 2016 whereby the Company waived its exclusive rights on the “MUX 1 capacity”, the previously recognized lease liability related to this capacity did not longer qualify as a lease liability and was consequently represented as and added to the existing restructuring liability. The restructuring liability was re-measured at end of December 2015 reflecting the net present value of the remaining re-negotiated payments due under the contract. The remaining non-current and current liabilities related to the capacity of the 3 non-exclusive MUXes thus amounted to respectively €11.3 million and €3.4 million at December 31, 2016 (2015: respectively €12.4 million and €25.8 million) (note 5.18).

Total non-current and current liabilities regarding sports broadcasting rights amounted to €24.7 million and €38.4 million, respectively (see note 5.18) at December 31, 2016 (2015: €4.2 million and €17.4 million, respectively). The increase in liabilities regarding sports broadcasting rights can mainly be explained by the recognition of football broadcasting rights in 2016 for the 2016-2017 season of the Jupiler Pro League and the next three seasons of the UK Premier League as of August 2016.

The operational expenses charged to Telenet by Interkabel for the maintenance of its network are higher than the Company’s benchmark expenses for similar operations and therefore reflects an unfavorable out of market element. In the Interkabel acquisition, this out of market element was recorded at fair value. The underlying liability at December 31, 2016 amounted to €15.1 million (2015: €14.6 million).

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.17 Employee benefit plans

Assets and liabilities carried on the consolidated statement of financial position, related to the Company's benefit plans can be summarized as follows:

(in thousands of euro)	Note	December 31, 2016			December 31, 2015		
		Total employee benefit plan	of which Defined benefit pension plans	of which Other post retirement plans	Total employee benefit plans	of which Defined benefit pension plans	of which Other post retirement plans
			note 5.17			note 5.17	
Defined benefit pension plans		7,509	7,509	—	2,351	2,351	—
Other post-retirement plans		16,087	—	16,087	13,289	—	13,289
Total LT employee benefit obligations	5.16	23,596	7,509	16,087	15,640	2,351	13,289
Total LT service awards	5.16	8,079	—	—	8,060	—	—
Total employee benefit plans liability/(asset)		31,675	7,509	16,087	23,700	2,351	13,289

Long service awards

The Company has also recognized a liability of €8.1 million at December 31, 2016 (2015: € 8.1million) for long service awards, which have the form of jubilee benefits.

Defined benefit pension plans and other post-retirement benefit plans

The majority of Telenet's employees participate in a defined contribution plan reclassified to defined benefit plan funded through the pension fund IBP Telenet OFP. The contributions are based on the employee's salary.

Telenet Group (formerly known as Base) employees also benefit from a defined contribution pension plan funded through a group insurance, whereby the insurance company guarantees a minimum interest rate on the contributions. The contributions are based on the employee's salary.

By law, employers are required to provide average minimum guaranteed rates of return over the employee's career with the Company. As from 1 January 2016 onwards, the minimum rate is annually recalculated based on the average yield of 10-year government bonds, with a minimum of 1.75% and a maximum of 3.75%. For 2016, the minimum guaranteed rate of return was equal to 1.75% (for 2015, 3.25% on employer contributions and 3.75% on employee contributions). For the main plan funded through the pension fund, the annually recalculated minimum rate of return is used to increase the minimum reserves during the year, while for the insured plans, each minimum rate of return applies to the contributions paid during the year up to the employee's date of leaving.

Hence, there is a risk that the Company may have to pay additional contributions related to past service. Any such additional contributions will depend on the actual investment returns as well as the future evolution of the minimum guaranteed rates of return. Therefore, those plans are classified as defined benefit plans. The application of defined benefit accounting had no impact on Telenet's main plan funded through the Company's pension fund as the benefit obligations were equal to the plan assets at both 31 December 2015 and 31 December 2016.

The Company's pension fund is actively managed by two independent asset management firms. The investment strategy is based on a balanced neutral risk profile with a long-term investment horizon. The pension fund's performance is monitored and analyzed on a monthly basis by the pension fund's in-house investment specialist and discussed and reviewed on a quarterly basis by the pension fund's board of directors.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Former Electrabel (ICS) employees, as well as a limited group of other employees, are covered by defined benefit pension plans, which provide retirement benefits based on the employees' final salaries and their years of service. In accordance with local practice, the benefits are normally paid out in the form of a lump sum.

The defined benefit pension plans are financed through insurance contracts, whereby the insurance company guarantees a minimum interest rate on the contributions. The pension plans are subject to a minimum funding requirement, which is based on the vested reserves to which the plan participants are entitled in case of leaving.

Telenet also provides post-retirement health care benefits and early retirement benefits to former Electrabel (ICS) employees. These obligations are financed directly by the Company. A past service cost was recognized during 2016 with respect to the early retirement scheme.

All these plans expose the Company to various risks such as interest rate risk (a decrease of bond yields will increase the benefit obligations), investment risk (a lower return on plan assets will decrease the funded status), longevity risk (an increase in life expectancy will increase the benefit obligations for the post-retirement health care plan) and inflation risk (higher than expected salary increases or medical cost increases will increase the benefit obligations).

The defined benefit obligation, the fair value of the plan assets and the net defined benefit liability/(asset) reconcile as follows :

(in thousands of euro)	Defined Benefit Obligation		Fair value of plan assets		Net defined benefit liability (asset)	
	2016	2015	2016	2015	2016	2015

Rate of compensation increase	0.25%	(2.47)%	2.53%
Increase of medical benefits	0.25%	(1.33)%	1.35%
Mortality tables	1 year	(1.32)%	1.34%

The sensitivity analysis reflects the impact of a change in one assumption while keeping all other assumptions constant. In practice, this is unlikely to be the case as some assumptions may be correlated.

The weighted average duration of the benefit obligations equals 17 years.

The plan assets consist of:

Defined Benefit Pension Plans	2016	2015
Bonds	30.0%	35.0%
Equities	31.0%	41.0%
Insurance policies	32.0%	19.0%
Other	7.0%	6.0%
Total	100.0%	100.0%

All investments of the Company's pension fund are quoted securities.

The plan assets do not include any direct investments in shares issued by Telenet or property occupied by Telenet.

The contributions towards defined benefit plans for the year ended December 31, 2016 (including the defined contribution plans accounted for as defined benefit plans) are estimated at €9.2 million.

Telenet Group Holding NV

**Notes to the Consolidated Financial Statements
December 31, 2016**

5.18 Accrued expenses and other current liabilities

	<u>Note</u>	<u>December 31, 2016</u>	<u>December 31, 2015</u>
		<u>(in thousands of euro)</u>	
Customer deposits		21,046	21,984
Compensation and employee benefits		73,921	55,302
VAT and withholding taxes		23,877	13,469
Dividend payable to shareholders		986	989
Accrued programming fees		52,036	54,199
Accrued capital expenditure		116,543	28,661
Accrued other liabilities—invoices to receive regarding:			
Goods received and services performed		39,858	37,710
Professional fees		14,732	10,408
Warehouse items received		4,310	3,480
Interconnect		28,254	21,383
Advertising, marketing and public relations		3,673	3,818
Infrastructure		9,579	7,128
Facilities		6,490	1,624
Opex		37,205	4,212
Credit notes to issue		13,797	1,726
Accrued Stock Compensation		690	—
Non-income tax contingencies (IFRS 3)	5.24	5,933	—
Liabilities regarding pylon taxes	5.26	29,135	—
Accrued interest on derivatives		1	516
Accrued deferred financing costs		560	7,781
Accounts receivable with credit balance		18,419	21,460
Restructuring liability Norkring		3,360	25,750
Liabilities regarding sports broadcasting rights		38,426	17,430
Other current liabilities		16,399	11,283
Total Accrued expenses and other current liabilities		<u>559,230</u>	<u>350,313</u>

Compared to December 31, 2015, total accrued expenses and other current liabilities increased by €208.9 million to €559.2 million as of December 31, 2016, which is mainly due to the impact of the BASE acquisition.

Compared to December 31, 2015, accrued capital expenditures increased €87.9 million and accrued other liabilities related to invoices to receive increased €54.3 million as a result of the BASE acquisition. The significant increase in capital expenditures is the result of the major upgrade and new build activities with respect to the acquired mobile network. The increase in the liabilities regarding sports broadcasting rights are the result of the in 2016 acquired intangible assets (note 5.6).

Following the amendment to the DTT capacity agreement with Norkring België NV in December 2015, and the agreed upon upfront payment in the first six months of 2016 amounting to €23.5 million, the restructuring liability decreased to €3.4 million as of December 31, 2016.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.19 Revenue

The Company's revenue is comprised of the following:

	For the years ended December 31,	
	2016	2015 as represented (*)
	(in thousands of euro)	
Subscription revenue		
Video	566,361	552,138
Broadband internet	572,914	546,096
Fixed-line telephony	243,031	226,950
Cable Subscription revenue	1,382,306	1,325,184
Mobile telephony	564,475	203,408
Total Subscription revenue	1,946,781	1,528,592
Business services	122,199	113,746
Other	360,140	179,510
Total Revenue	2,429,120	1,821,848

(*) We refer to Note 5.1.6 Reporting changes for detailed information regarding the reclassification of reminder fees and carriage fees

For the year ended December 31, 2016, the Company generated revenue of €2,429.1 million, representing a 33% increase compared to the year ended December 31, 2015 when the Company produced revenue of €1,821.8 million. The reported revenue increase was primarily driven by the contribution from BASE, which was acquired on February 11, 2016.

The cable business delivered solid mid-single-digit revenue growth for the year ended December 31, 2016 driven by a 4% increase in cable subscription revenue and higher business services revenue generated by security, hosting and mobile wholesale business lines. Growth in cable subscription revenue was primarily driven by (i) a larger share of triple-play subscribers, (ii) continued growth for premium entertainment propositions and (iii) the favorable impact from the February 2016 price adjustments, partially offset by a growing proportion of bundle-related discounts and a modest decline in the total number of unique customer relationships. The continued robust performance of the cable business was partly offset by continued pressure on the acquired mobile business, impacted by (i) structural challenges within the prepaid business as reflected in the declining number of prepaid subscribers, (ii) lower roaming revenue due to caps imposed by the new EU regulation and (iii) lower interconnection revenue.

The Company also had deferred revenue as follows:

(in thousands of euro)	December 31, 2016	December 31, 2015
Subscription revenue		
Video	20,796	25,752
Broadband internet	13,920	12,657
Fixed-line telephony	8,139	7,870
Cable Subscription revenue	42,855	46,279
Mobile telephony	38,305	6,961
Total Subscription revenue	81,160	53,240
Business services	14,092	10,936
Other	7,154	10,044
Total Deferred Revenue	102,406	74,220

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

Deferred revenue is generally fees prepaid by the customers and, as discussed in note 5.2.9 to the consolidated financial statements of the Company, is recognized in the statement of profit or loss and other comprehensive income on a straight-line basis over the related service period.

5.20 Expenses by nature

		For the years ended December 31,	
	Note	2016	2015 as represented (*) (in thousands of euro)
Network operating expenses		142,901	68,034
Direct costs (programming, copyrights, interconnect and other)		607,799	425,013
Staff-related expenses		258,399	180,300
Sales and marketing expenses		97,650	74,215
Outsourced labor and Professional services		50,130	41,804
Other indirect expenses		155,144	88,825
Operating expenses		1,312,023	878,191
Restructuring gain (loss)		2,525	(9,932)
Operating charges related to acquisitions or divestitures		8,398	9,736
Share-based payments granted to directors and employees	5.12	11,655	10,370
Depreciation	5.4	394,001	270,799
Amortization	5.6	159,004	72,954
Amortization of broadcasting rights	5.6	55,813	49,006
Impairment of assets held for sale		5,350	—
Gain on disposal of property and equipment		(5,081)	(2,362)
Non-cash and non-recurring items		631,665	400,571
Total costs and expenses		1,943,688	1,278,762

(*) We refer to Note 5.1.6 Reporting changes for detailed information regarding the reclassification of reminder fees and carriage fees

For the year ended December 31, 2016, Telenet incurred total operating expenses of €1,943.7 million, representing an increase of 52% compared to the year ended December 31, 2015 when total operating expenses amounted to €1,278.7 million and reflecting the impact from the BASE acquisition since mid-February 2016.

The direct costs include direct expenses such as (i) costs related to interconnection, (ii) handset sales and subsidies and (iii) programming and copyrights. For the full year 2016, the direct costs were €607.8 million, up 43% compared to the €425.0 million of prior year, mainly impacted by the BASE acquisition.

Total expenses for the year ended December 31, 2016 included a €6.0 million benefit linked to the resolution of certain operational contingencies associated with the settlement of the Full-MVNO Arrangement with Orange Belgium in the 3 months ended June 30, 2016. In addition, the Company incurred €8.3 million integration and transformation costs for the full year 2016 linked to the BASE acquisition. The expenses for the year ended December 31, 2015 included a net €17.5 million favorable impact resulting from a €13.8 million favorable impact from the reversal of restructuring charges as a result of a settlement with Norkring België related to the DTT spectrum license and a €7.6 million favorable impact from the resolution of a contingency associated with universal service obligations in the 3 months ended June 30, 2015, partially offset by the unfavorable impact of a €3.9 million settlement with the Belgian telecoms regulator BIPT with regards to the 2G mobile spectrum license in the 3 months ended December 31, 2015.

Total operating expenses represented approximately 80% of the revenue for the year ended December 31, 2016. Cost of services provided as a percentage of revenue represented approximately 60% of total revenue for the year ended December 31, 2016, while selling, general and administrative expenses represented approximately 20% of total revenue.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

The increase in depreciation expense compared to prior year is due to the assets acquired in the BASE acquisition valued at fair value. As a result of the modernization project of the acquired mobile network, the company incurred €32 million accelerated depreciations (note 5.4). The increase in amortization expense compared to prior year is due to the assets acquired in the BASE acquisition, comprising spectrum licenses, software, tradenames and customer lists (note 5.6).

The number of full-time equivalents employed by the Company at December 31, 2016 was 3,387 (2015: 2,318), including 859 full-time equivalents of BASE.

5.21 Finance income / expense

		For the years ended	
		December 31,	
	Note	2016	2015
(in thousands of euro)			
Recognized in the statement of profit or loss and comprehensive income			
Finance income			
Net interest income and foreign exchange gain			
Interest income on bank deposits and commercial paper		374	561
Interest income on receivables		4	93
Net foreign exchange gain		—	2,100
		378	2,754
Net gain on derivative financial instruments			
Change in fair value	5.14	16,875	86,762
Early termination of derivative financial instruments		(10,735)	(72,973)
		6,140	13,789
Finance expense			
Net interest expense, foreign exchange loss and other finance expense			
Interest expense on financial liabilities measured at amortized cost, and other finance expense		(228,743)	(242,608)
Amortization of financing cost		(7,557)	(6,784)
Net foreign exchange loss		(94,452)	—
		(330,752)	(249,392)
Loss on extinguishment of debt		(45,651)	(30,847)
Net finance expenses		(369,885)	(263,696)

For the year ended December 31, 2016, net finance expenses totaled €369.9 million compared to €263.7 million of net finance expenses incurred for the year ended December 31, 2015. For the full year 2016, we incurred a €45.7 million loss on the extinguishment of debt following the June 2016 refinancing of certain Senior Secured Notes due 2021 for an aggregate amount of €700.0 million and the November 2016 refinancing of certain Term Loans for an aggregate amount of €2,962.9 million, as compared to a €30.8 million loss on the extinguishment of debt in 2015. Our net interest expense, foreign exchange loss and other finance expense increased 33% from €249.4 million for the full year 2015 to €330.8 million for the full year 2016, largely due to debt incurred in connection with the BASE acquisition and a higher exposure to USD-denominated debt versus 2015.

5.22 Income tax expense

	For the years ended December 31,	
	2016	2015
	(in thousands of euro)	
Current tax expense	107,752	115,096
Deferred tax expense (Note 5.15)	(64,739)	(15,444)
Income tax expense	43,013	99,652
Effective Tax Rate	50.85 %	36.20 %

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

The effective tax rate was 50.85% for the year ended December 31, 2016, which was above the effective tax rate of 36.20% for the year ended December 31, 2015. The tax expenses as shown above have been calculated in conformity with Belgian and international tax laws.

The tax on the Company's profit (loss) before tax differs from the theoretical amount that would arise using the Belgian statutory tax rate applicable to profits (losses) of the consolidated companies as follows:

	For the years ended December 31,	
	2016	2015
	(in thousands of euro)	
Profit before tax	84,582	275,314
Income tax expense at the Belgian statutory rate of 33.99%	28,749	93,579
Income not taxable	(34,155)	(41,251)
Expenses not deductible for tax purposes (incl. prior year adjustments)	25,627	9,861
Notional interest deduction	(140)	—
Benefit of the investment deduction	(5,654)	(6,464)
Tax losses and temporary differences for which no deferred tax asset was recognized	14,638	42,080
Expiration of tax losses	1,089	908
Adjustments recognized in the current year in relation to the filings for prior years	(704)	3,648
Impact of different tax rates	(3,340)	(3,993)
Impact of change enacted tax rate Luxembourg	10,741	—
Tax on capital gain on shares	5,012	—
Penalty for insufficient prepayments	1,150	1,284
Tax expense for the year	43,013	99,652

The tax losses and temporary differences for which no deferred tax asset is recognized amounted to €14.6 million for the year ended December 31, 2016 (€42.1 million for the year ended December 31, 2015) and consisted of positions resulting in a deferred tax asset which is nevertheless not recognized as it is not deemed probable that taxable profit will be available against which the unused tax losses can be utilized in future years.

In December 2016 the Luxembourg parliament has adopted the bill of law on tax reform including a reduction of the corporate income tax. The rate will decrease from 29.22% to 27.08% in 2017 and to 26.01% as from 2018.

5.23 Earnings per share

5.23.1 Basic

The earnings and weighted average number of shares used in calculating basic earnings per share are:

	For the years ended December 31,	
	2016	2015
	(in thousands of euro, except share and per share data)	
Net profit attributable to the equity holders of the Company	41,815	175,639
Weighted average number of ordinary shares	115,829,407	116,492,339
Weighted average number of shares used in the calculation of basic earnings per share	115,829,407	116,492,339
Basic earnings per share in €	0.36	1.51

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.23.2 Diluted

Diluted earnings per share are calculated by using the treasury stock method by adjusting the weighted average number of shares used in the calculation of basic earnings per share to assume full conversion of all dilutive potential ordinary shares.

For the year ended December 31, 2016, the Company had one category of dilutive potential ordinary shares:

- Warrant Plan 2010 ter

For the year ended December 31, 2015, the Company had four categories of dilutive potential ordinary shares:

- Warrant Plan 2007 septies
- Warrant Plan 2010 primo
- Warrant Plan 2010 bis
- Warrant Plan 2010 ter

The earnings used in the calculation of diluted earnings per share measures are the same as those for the basic earnings per share measures, as outlined above.

	For the years ended December 31,	
	2016	2015
Weighted average number of shares used in the calculation of basic earnings per share	115,829,407	116,492,339
Adjustment for:		
Warrant Plan 2007 septies Warrants	—	19,048
Warrant Plan 2010 primo Warrants	—	130,044
Warrant Plan 2010 bis Warrants	—	3,704
Warrant Plan 2010 ter Warrants	18,961	44,156
Weighted average number of shares used in the calculation of diluted earnings per share	115,848,368	116,689,291
Diluted earnings per share in €	0.36	1.51

5.24 Acquisition of subsidiaries

5.24.1 Base company nv

On February 11, 2016, pursuant to a definitive agreement and following regulatory approval, Telenet acquired BASE for a cash purchase price of €1,318.9 million (the BASE acquisition). BASE is the third-largest mobile network operator in Belgium. In 2016, the Company incurred acquisition-related costs of €6.3 million on legal fees and due diligence costs. These have been included in 'Selling, general and administrative expenses'. Total acquisition-related costs incurred for the BASE acquisition amounts to €15.5 million. We expect that the BASE acquisition will provide Telenet with cost-effective long-term mobile access to effectively compete for future growth opportunities in the Belgian mobile market. The BASE acquisition was funded through a combination of three debt facilities for an aggregate amount of €1,217.0 million (see Note 5.13.1), and existing liquidity of Telenet. The acquisition was approved by the European Commission subject to Telenet's agreement to divest both the JIM Mobile prepaid customer base and BASE's 50% stake in Viking Co NV ("Viking") to MEDIALAAN NV. In February 2016, Telenet completed the sale of its stake in Viking. As this transaction occurred at fair value, it did not result in a gain or loss. The divestiture of the JIM Mobile prepaid customer base is expected to occur during the third quarter of 2017. In the course of 2016, the Company recognized an impairment on the JIM Mobile prepaid customer base amounting to €5.3 million (note 5.20).

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

We have accounted for the BASE acquisition using the acquisition method of accounting, whereby the total purchase price was allocated to the acquired identifiable net assets of BASE based on assessments of their respective fair values, and the excess of the purchase price over the fair values of these identifiable net assets was allocated to goodwill. These adjustments reflected in the opening balance sheet are a result of the valuation process and are mainly attributable to property and equipment, goodwill, intangible assets associated with mobile spectrum, customer relationships and trademarks, and income taxes. A summary of the purchase price and the identifiable assets acquired and liabilities assumed for the BASE acquisition at the acquisition date is presented in the following table:

	IFRS opening balance sheet	Fair value adjustments	Fair value of identifiable net assets
	(in thousands of euro)		
Assets			
Non-current assets:			
Property and equipment	467,344	154,002	621,346
Goodwill	55,695	(55,695)	—
Other intangible assets	249,355	213,311	462,666
Other assets	13,821	807	14,628
Total non-current assets	786,215	312,425	1,098,640
Current assets:			
Inventories	10,887	—	10,887
Trade receivables	34,267	—	34,267
Other current assets	72,153	4,687	76,840
Cash and cash equivalents	141,321	—	141,321
Total current assets	258,628	4,687	263,315
Total assets acquired	1,044,843	317,112	1,361,955
Liabilities			
Non-current liabilities:			
Deferred revenue	66	—	66
Deferred tax liabilities	(48,858)	124,850	75,992
Other liabilities	5,095	—	5,095
Total non-current liabilities	(43,697)	124,850	81,153
Current liabilities:			
Trade payables	61,188	—	61,188
Accrued expenses and other current liabilities	164,116	5,933	170,049
Deferred revenue	29,835	—	29,835
Total current liabilities	255,139	5,933	261,072
Total liabilities assumed	211,442	130,783	342,225
Fair value of identifiable net assets acquired			1,019,730
Total consideration transferred			1,318,863
Goodwill arising from the acquisition			299,133

The fair value adjustment on property and equipment (€154.0 million) mainly relates to the acquired mobile network of BASE. The €213.3 million step-up recognized on the other intangible assets consists of fair value adjustments recognized with respect to the mobile spectrum licenses owned by BASE (€34.9 million), customer relationships (€106.9 million), tradename (€33.7 million) and software (€37.8 million). The adjustment on other current assets (€4.7 million) relates to an indemnification receivable on KPN for pylon taxes due prior to 2015. The deferred tax adjustment resulting from the purchase price allocations amounts to €124.9 million and is reported under non-current deferred tax liabilities.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

The trade receivables as recognized as per acquisition date (€34.2 million), consists of the gross contractual amounts receivable of €37.3 million and a valuation allowance of €3.1 million as the best estimate at acquisition date of the contractual cash flows not expected to be collected.

In the business combination, the Company recognized non-income tax related contingent liabilities for a total amount of €5.9 million.

In the period as from February 11, 2016 till December 31, 2016, BASE Company contributed revenue of €538.6 million and a net income of €4.4 million to the Group's results. If the acquisition had occurred on 1 January 2016, management estimates that consolidated revenue would have been €2,497.3 million, and consolidated operating result for the period would have been €482.0 million. In determining these amounts, management has assumed that the fair value adjustments determined, that arose on the date of acquisition would have been the same if the acquisition had occurred on 1 January 2016.

The goodwill is mainly attributable to the synergies expected to be achieved from integrating the company into the Group's existing business. None of the goodwill recognized is expected to be deductible for tax purposes.

5.24.2 SFR BeLux

On December 22, 2016, Telenet announced that its subsidiary Telenet Group BVBA (previously BASE Company NV) has entered into a definitive agreement to acquire Coditel Brabant SPRL for €400 million on a cash and debt free basis from Coditel Holding S.A., a subsidiary of Altice N.V. Coditel Brabant SPRL, operating under the SFR brand (formerly Numéricable), provides cable services to households and businesses in Brussels, Wallonia and Luxembourg and offers mobile telephony services in Belgium through an MVNO Agreement with BASE. Through this acquisition, Telenet would extend its cable footprint beyond the current Flemish and Brussels coverage areas to parts of Wallonia and the Grand Duchy of Luxembourg, while covering roughly two-thirds of the Brussels footprint post this acquisition. Following the acquisition of the Belgian mobile operator BASE in February 2016, Telenet has been pursuing a strategy of positioning itself as a leading provider of converged connected entertainment and B2B services nationwide. The acquisition of SFR BeLux would give a major part of Brussels and part of Wallonia access to Telenet's high quality video, high-speed internet and fixed and mobile telephony services. The transaction is subject to customary closing conditions, including approval from the relevant competition authorities.

5.25 Non cash investing and financing transactions

	For the years ended December 31,	
	2016	2015
	(in thousands of euro)	
Acquisition of property and equipment in exchange for finance lease obligations	47,045	31,280
Acquisition of property and equipment in exchange for vendor financing obligations	28,498	—
Non-cash borrowings/repayments of debt	2,380,461	—
Acquisition of sports broadcasting rights in exchange for investing obligations	97,090	35,906

5.26 Commitments and contingencies

5.26.1 Pending litigations

Interkabel Acquisition

On November 26, 2007, Telenet and the PICs announced a non-binding agreement-in-principle to transfer the analog and digital television activities of the PICs, including all existing subscribers to Telenet. Subsequently, Telenet and the PICs entered into a binding agreement (the 2008 PICs Agreement), which closed effective October 1, 2008. Beginning in December 2007, Proximus NV/SA (Proximus), the

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

incumbent telecommunications operator in Belgium, instituted several proceedings seeking to block implementation of these agreements. Proximus lodged summary proceedings with the President of the Court of First Instance of Antwerp to obtain a provisional injunction preventing the PICs from effecting the agreement-in-principle and initiated a civil procedure on the merits claiming the annulment of the agreement-in-principle. In March 2008, the President of the Court of First Instance of Antwerp ruled in favor of Proximus in the summary proceedings, which ruling was overturned by the Court of Appeal of Antwerp in June 2008. Proximus brought this appeal judgment before the Cour de Cassation (the Belgian Supreme Court), which confirmed the appeal judgment in September 2010. On April 6, 2009, the Court of First Instance of Antwerp ruled in favor of the PICs and Telenet in the civil procedure on the merits, dismissing Proximus's request for the rescission of the agreement-in-principle and the 2008 PICs Agreement. On June 12, 2009, Proximus appealed this judgment with the Court of Appeal of Antwerp. In this appeal, Proximus is now also seeking compensation for damages should the 2008 PICs Agreement not be rescinded. While these proceedings were suspended indefinitely, other proceedings were initiated, which resulted in a ruling by the Belgian Council of State in May 2014 annulling (i) the decision of the PICs not to organize a public market consultation and (ii) the decision from the PICs' board of directors to approve the 2008 PICs Agreement. In December 2015, Proximus resumed the civil proceedings pending with the Court of Appeal of Antwerp seeking to have the 2008 PICs Agreement annulled and claiming damages of €1.4 billion.

Telenet intends to defend itself vigorously in the resumed proceedings and does not expect an outcome before the end of 2017. No assurance can be given as to the outcome of these or other proceedings. However, an unfavorable outcome of existing or future proceedings could potentially lead to the annulment of the 2008 PICs Agreement and/or to an obligation of Telenet to pay compensation for damages, subject to the relevant provisions of the 2008 PICs Agreement, which stipulate that Telenet is responsible for damages in excess of €20.0 million. We do not expect the ultimate resolution of this matter to have a material impact on our results of operations, cash flows or financial position. No amounts have been accrued by us with respect to this matter as the likelihood of loss is not considered to be probable.

Litigation regarding cable access

In December 2010, BIPT and the regional regulators for the media sectors (together, the Belgium Regulatory Authorities) published their respective draft decisions reflecting the results of their joint analysis of the broadcasting market in Belgium. The Belgium Regulatory Authorities adopted a final decision on July 1, 2011 (the July 2011 Decision) with some minor revisions. The regulatory obligations imposed by the July 2011 Decision include (1) an obligation to make a resale offer at "retail minus" of the cable analog package available to third-party operators (including Proximus), (2) an obligation to grant third-party operators (except Proximus) access to digital television platforms (including the basic digital video package) at "retail minus", and (3) an obligation to make a resale offer at "retail minus" of broadband internet access available to beneficiaries of the digital television access obligation that wish to offer bundles of digital video and broadband internet services to their customers (except Proximus).

In February 2012, Telenet submitted draft reference offers regarding the obligations described above, and the Belgium Regulatory Authorities published the final decision on September 9, 2013. Telenet has implemented the access obligations as described in its reference offers and, on March 1, 2016, Orange Belgium NV (Orange Belgium), formerly known as Mobistar SA, launched a commercial offer combining a cable TV package and broadband internet access for certain of their mobile customers. In addition, as a result of the November 2014 decision by the Brussels Court of Appeal described below, on November 14, 2014, Proximus submitted a request to Telenet to commence access negotiations. Telenet contests this request and has asked the Belgium Regulatory Authorities to assess the reasonableness of the Proximus request. The timing for a decision regarding this assessment by the Belgium Regulatory Authorities is not known.

On December 14, 2015, the Belgium Regulatory Authorities published a draft decision, which amended previously-issued decisions, and sets forth the "retail minus" tariffs of minus 26% for basic television (basic analog and digital video package) and minus 18% for the bundle of basic television and broadband internet

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

services during an initial two-year period. Following this two-year period, the tariffs would change to minus 15% and 7%, respectively. The draft decision was notified to the E.U. Commission and a final decision was adopted on February 19, 2016. A “retail minus” method of pricing involves a wholesale tariff calculated as the retail price for the offered service by Telenet, excluding value added tax (VAT) and copyrights, and further deducting the retail costs avoided by offering the wholesale service (such as costs for billing, franchise, consumer service, marketing and sales).

Telenet filed an appeal against the July 2011 Decision with the Brussels Court of Appeal. On November 12, 2014, the Brussels Court of Appeal rejected Telenet’s appeal of the July 11 Decision and accepted Proximus’s claim that Proximus should be allowed access to Telenet’s, among other operators, digital television platform and the resale of bundles of digital video and broadband internet services. On November 30, 2015, Telenet filed an appeal of this decision with the Belgian Supreme Court. In 2014, Telenet and wireless operator Orange Belgium each filed an appeal with the Brussels Court of Appeal against the initial retail minus decision. These appeals are still pending. On April 25, 2016, Telenet also filed an appeal with the Brussels Court of Appeal challenging the February 19, 2016 retail minus decision. There can be no certainty that Telenet’s appeals will be successful.

The July 2011 Decision aims to, and in its application may, strengthen Telenet’s competitors by granting them resale access to Telenet’s network to offer competing products and services notwithstanding Telenet’s substantial historical financial outlays in developing the infrastructure. In addition, any resale access granted to competitors could (1) limit the bandwidth available to Telenet to provide new or expanded products and services to the customers served by its network and (2) adversely impact Telenet’s ability to maintain or increase its revenue and cash flows. The extent of any such adverse impacts ultimately will be dependent on the extent that competitors take advantage of the resale access ultimately afforded to Telenet’s network and other competitive factors or market developments.

Cable ownership related legal proceedings

The municipality of Sint-Lambrechts-Woluwe granted the right to operate the cable network on its territory to WoluTV ASBL (“WoluTV”) in 1971. Telenet provided a number of technical services to WoluTV in accordance with agreements dated February 11, 1998 (analog television) and September 3, 2007 (digital television). Telenet and WoluTV also concluded two agreements on May 7 and September 3, 2007 respectively, pursuant to which Telenet provided, in its own name and for its own account, internet and telephony services on the municipality’s cable network. On December 16, 2014, WoluTV terminated the agreements with Telenet with effect on December 31, 2015.

The agreements terminated by WoluTV provide that WoluTV must compensate Telenet for all costs, damages and losses as a consequence of termination of the agreements. WoluTV has disputed that this clause is valid under Belgian law and has therefore refused to designate an expert to determine the amount of the compensation owed to Telenet. Telenet brought a claim against WoluTV before the Commercial Court of Brussels on November 10, 2015, whereby Telenet requested provisional compensation of €1 million (increased with interest), and that the Court appoint an expert to determine the compensation owed by WoluTV. The case is currently pending before the Commercial Court of Brussels.

Separately, on April 28, 2015, the municipality of Sint-Lambrechts-Woluwe decided to sell its cable network. On June 29, 2015, the municipality awarded the purchase contract to Coditel Brabant (SFR) for €18 million. Telenet, who had also submitted an offer to purchase the cable network, brought an action for annulment of the municipality’s decision before the Council of State. Telenet has withdrawn its action for annulment in view of the acquisition of Coditel Brabant.

Copyright related legal proceedings

The issue of copyrights and neighboring rights to be paid for the distribution of television has during the last two decades given rise to a number of litigations. Already in 1994, the Belgian Radio and Television Distributors Association (Beroepsvereniging voor Radio- en Televisiedistributie / Union professionnelle de radio et de télédistribution) (the “RTD”, renamed afterwards to “Cable Belgium”) was involved in discussions with various copyrights collecting agencies regarding the fees to be paid to the latter for the

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

analogue broadcasting of various television programs. In November 2002, the RTD, together with certain Belgian cable operators (among which Telenet), began reaching settlements with the copyright collecting agencies and broadcasters. Pursuant to those settlement agreements, to which Telenet acceded, Telenet agreed to make certain upfront payments as well as to make increased payments over time. Consequently, in August 2003, Telenet increased the copyright fee it charges its subscribers. In July 2004, the Association for the Collection, Distribution and Protection of the Rights of the Artists, Interpreters and Performers (CVBA Vereniging voor de inning, repartitie en de verdediging van de vertolkende en uitvoerende kunstenaars) ("Uradex", later renamed to "Playright") filed a claim against the RTD for €55 million plus interest concerning neighboring rights owed by the members of the RTD to artists and performers represented by Uradex during the period from August 1994 through the end of July 2004.

After the roll-out of digital television, Telenet in 2006 started a judicial procedure against a number of collecting agencies. This procedure is related to a discussion between Telenet and these collecting agencies about the legal qualification of (i) simulcast (i.e. channels distributed both in analogue and in digital quality), (ii) direct injection (i.e. channels delivered to the distributor over a non-publicly accessible transmission channel) and (iii) all rights included contracts (i.e. contracts in which broadcasters engage to deliver their signals and programs after having cleared all rights necessary for the communication to the public over the distributor's networks).

On April 12, 2011, the Court of First Instance of Mechelen rendered a positive judgment in the procedure against Sabam, Agicoa, Uradex and other collecting agencies, and as part of which procedure several collecting agencies (Sabam not included) filed counterclaims against Telenet for the payment of the invoices that Telenet disputed. The Court validated Telenet's arguments in each of the claims and counterclaims that were the subject of the procedure and, as a result: (i) no retransmission fees have to be paid by Telenet in case of direct injection of a broadcaster's signal into Telenet's network, (ii) no retransmission fees have to be paid in case of simulcast of an analog and digital signal (and consequently, Telenet does not have to pay extra for the distribution of linear digital television signals) and (iii) all-rights-included contracts are deemed legally valid, which means that if Telenet agrees with a broadcaster that the latter is responsible for clearing all copyrights, Telenet is not liable towards the collecting agencies. The collecting agencies lodged an appeal (see below).

Since Sabam had not filed any counterclaim for the payment of invoices as part of the aforesaid judgment, on April 6, 2011, Sabam (not the other collecting agencies) initiated judicial proceedings before the Commercial Court of Antwerp, claiming payment by Telenet of invoices relating to (a) fees for a period from January 1, 2005 until December 31, 2010 for Telenet's basic digital television package, and (b) fee advances for the first semester of 2011 for Telenet's basic and optional digital television packages. The claims mainly related to (i) direct injection and (ii) all-rights-included contracts. Sabam's claim was based on arguments substantially similar to those rejected by the Court of First Instance in Mechelen on April 12, 2011. Simultaneously, Sabam initiated a summary procedure before the President of the Commercial Court of Antwerp, to receive provisional payment of the contested fees and fee advances. On June 30, 2011, the President of the Commercial Court of Antwerp rendered a positive judgment for Telenet in this procedure. Sabam lodged an appeal. On June 27, 2012, the Court of Appeal of Antwerp confirmed this judgment and dismissed the claim in summary proceedings of Sabam.

In the case of the appeal against the judgment of April 12, 2011 of the Court of First Instance of Mechelen, the Court of Appeal of Antwerp rendered an intermediate ruling on February 4, 2013. The Court of Appeal rejected the claims of the collecting societies with regard to simulcasting and confirmed that direct injection is a single copyright relevant operation (royalties should therefore be paid only once). The case was re-opened to allow the collecting societies to provide further proof of their actual claims. On January 20, 2014 and on May 5, 2014, respectively, Numéricable (previously Coditel) and Telenet appealed this intermediate ruling before the Supreme Court mainly because of the incorrect qualification of the fees to be paid for the communication to the public as if it would be "retransmission" rights. The Supreme Court has issued its judgment in this matter on September 30, 2016. The Supreme Court accepted the argument of Telenet that direct injection only involves a single communication to the public and therefore cannot constitute "retransmission" as this requires two communications to the public. The Supreme Court has referred the

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

case to the Court of Appeal of Brussels, where the case is not yet activated. Numéricable had reached a settlement with the collecting societies before, and has already withdrawn its appeal.

Telenet does not expect the ultimate resolution of this matter to have a material impact on its results of operations or financial condition.

Pylon taxes

Since the second half of the 1990s, certain municipalities (mainly in the Brussels-Capital and Walloon Regions), provinces and the Walloon Region have levied local taxes, on an annual basis, on pylons, masts and/or antennas dedicated to mobile telecom services located on their territory, on the basis of various municipal, provincial and regional regulations. These taxes have systematically been contested by Telenet Group BVBA (formerly BASE Company NV) (“Telenet Group”) before the Courts on various grounds.

In particular, Telenet Group has argued that such tax regulations are discriminatory because they apply only to pylons, masts and antennas dedicated to mobile telecom services and not to comparable equipment used for other purposes (whether telecom-related or not). Telenet believes that there is no objective and reasonable justification for such differentiated tax treatment. Telenet is therefore of the view that the contested tax regulations violate the general non-discrimination principle. The Courts have in a number of instances accepted this argument (*cf.* positive judgment of the Supreme Court of September 25, 2015).

There was also a question as to whether article 98 §2 of the Belgian law of March 21, 1991 on the reform of certain public economic companies (the “1991 Law”) prohibits municipalities from taxing the economic activity of telecom operators on their territories through the presence (whether on public or private domain) of mobile telephone pylons, masts or antennas dedicated to this activity. The Belgian Constitutional Court held on December 15, 2011 that this was not the case. That interpretation was confirmed by the Belgian Supreme Court in its judgments of March 30, 2012.

In the case between Telenet Group and the City of Mons, the European Court of Justice ruled on October 6, 2015 that the municipal tax on GSM pylons levied by the City of Mons, as disputed by Telenet Group, does not fall within the scope of Article 13 of Directive 2002/20/EC of the European Parliament and of the Council of 7 March 2002 on the authorization of electronic communications networks and services (the “Authorization Directive”) and is therefore not prohibited on the basis van Article 13 of the Authorization Directive.

By Decree of December 11, 2013 (the “2014 Walloon Decree”), the Walloon Region implemented an annual tax on masts, pylons and antennas for mobile operators with effect of January 1, 2014. Under this Decree, all municipal taxes on pylons, mast and antennas in the Walloon Region have been abolished. The Decree does however allow municipalities to levy surcharges. The tax amounts to EUR 8,000 per ‘site’. Under the Decree all users of ‘sites’ are jointly liable towards the Walloon Region for the tax related to shared sites. On December 12, 2014, a Walloon Decree was adopted that maintains this tax for 2015 and subsequent years, with the same scope and tax payable (EUR 8,000 per ‘site’, subject to indexation as of 2015) (the “2015 Walloon Decree”). The three Belgian mobile network operators brought a request for annulment of these Decrees before the Constitutional Court.

On July 16, 2015, the Constitutional Court annulled the 2014 Walloon Decree, but decided to maintain its effects. By judgment of May 25, 2016, the Constitutional Court also annulled the 2015 Walloon Decree, without maintaining its effects. On December 22, 2016, Telenet and the other mobile operators concluded a settlement with the Walloon Region. In addition to payment of a settlement fee to end the dispute related with the 2014 Walloon Decree, this settlement also includes an undertaking from the Walloon Region not to levy any taxes on telecom infrastructure and a commitment for Telenet to invest EUR 20 million until 2019 on top of the investments already planned in the Walloon Region.

Telenet intends to continue challenging any local tax regulations applicable to its mobile telecom equipment. As per December 31, 2016, Telenet has recognised a provision of €29.1 million in this respect. Telenet and the KPN Group have moreover agreed on certain recourse arrangements in respect of certain (pre-2015) pylon taxes in their sale and purchase agreement with respect to BASE Company NV (now Telenet Group BVBA). It can however not be excluded that other taxes on telecom equipment will in the future be imposed, which may have a significant negative financial impact on Telenet.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

5.26.2 Other contingent liabilities

Regulation regarding signal integrity

In July 2013, the Flemish Parliament adopted legislation imposing strict integrity of broadcasting signals on distributors and the requirement that distributors must request authorization from broadcasters when they contemplate offering, among other things, program recordings through an electronic program guide. The impetus for this legislation were the broadcasters' arguments that the high penetration of PVRs in the Flemish market have resulted in viewers fast-forwarding large volumes of advertisements, which resulted in a decrease in the revenues of broadcasters. The legislation requires broadcasters and distributors to find a commercial solution. If this fails, the legislation provides for a mediation procedure, which, if unsuccessful, can be followed by civil litigation.

There is a risk that this legislation will negatively impact Telenet's ability to launch new innovative applications and increase Telenet's financial contribution to broadcasters. The current distribution agreements with SBS, VRT and Medialaan entered into in 2014 allow Telenet to distribute the broadcasters' signal in an unaltered manner. The relevant broadcasters have given Telenet the right to offer their customers a "slightly delayed viewing" and a personal video recorder (PVR) functionality. Telenet is required to pay a higher fee for each customer using these functionalities.

Other

In addition to the foregoing items, Telenet has contingent liabilities related to matters arising in the ordinary course of business including (i) legal proceedings, (ii) issues involving VAT and wage, property and other tax issues, (iii) disputes over certain contracts and (iv) disputes over programming, copyright fees and alleged patent infringements. While we generally expect that the amounts required to satisfy these contingencies will not materially differ from any estimated amounts Telenet has accrued, no assurance can be given that the resolution of one or more of these contingencies will not result in a material impact on Telenet's results of operations or cash flows in any given period. Due, in general, to the complexity of the issues involved and, in certain cases, the lack of a clear basis for predicting outcomes, we cannot provide a meaningful range of potential losses or cash outflows that might result from any unfavorable outcomes.

5.26.3 Operating leases

The Company leases facilities, vehicles and equipment under cancelable and non-cancelable operating leases. The following schedule details, at December 31, 2016 and 2015, the future minimum lease payments under cancelable and non-cancelable operating leases:

	<u>December 31, 2016</u>	<u>December 31, 2015</u>
	<u>(thousands of euro)</u>	
Within one year	50,491	17,781
In the second to fifth year, inclusive	112,428	20,455
Thereafter	20,475	5,938
Total minimum lease payments	183,394	44,174
Minimum lease payments recognized as an expense in the year	69,585	25,411

The Company's operating leases as at December 31, 2016 and December 31, 2015 did not contain any material contingent rentals.

5.27 Related parties

The related parties of the Company mainly comprise its shareholders that have the ability to exercise significant influence or control. This consisted of the Liberty Global Consortium for both 2016 and 2015. Related parties further include transactions with Pebble Media NV, Doccle CVBA and Doccle.Up NV, Idealabs Telenet Fund NV and De Vijver Media NV.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2016

The following tables summarize material related party balances and transactions for the period:

5.27.1 Statement of financial position

	<u>December 31, 2016</u>	<u>December 31, 2015</u>
	(in thousands of euro)	
Trade receivables		
Liberty Global Consortium (parent)	6,248	2,946
Associates	319	399
Trade payables and accrued trade liabilities		
Liberty Global Consortium (parent)	7,692	20,764
Associates	378	472
Loans and borrowings payable		
Liberty Global Consortium (parent)	12,740	12,740
Loans and borrowings receivable		
Associates	320	400
Property and equipment		
Liberty Global Consortium (parent)	33,401	66,784

The transactions with the entities of the Liberty Global Consortium mainly consisted of the purchase of certain property and equipment and other services within the normal course of business from Liberty Global Services B.V. All transactions with related parties were at regular market conditions.

5.27.2 Statement of profit or loss and other comprehensive income

	<u>For the years ended December 31</u>	
	<u>2016</u>	<u>2015</u>
	(in thousands of euro)	
Revenue		
Liberty Global Consortium (parent)	4,712	2,946
Associates	321	925
Operating expenses		
Liberty Global Consortium (parent)	1,841	2,356
Associates	6,838	1,394

5.27.3 Key management compensation

For purpose of this footnote, key management is identified as people involved in strategic orientation of the Company.

	<u>For the years ended December 31,</u>	
	<u>2016</u>	<u>2015</u>
	(in thousands of euro)	
Salaries and other short-term employee benefits	7,302	7,006
Post-employment benefits	621	508
Share-based payments (compensation cost recognized)	9,185	6,561
	<u>17,108</u>	<u>14,075</u>

(1) Telenet Finance Luxembourg S.C.A. was incorporated on September 28, 2010 as a structured finance entity ("SE") for the primary purpose of facilitating the offering of a High Yield Bond. This entity was incorporated at the request of the Telenet Group under the laws of the Grand Duchy of Luxembourg and is owned 99.99% by a Dutch charitable trust, called Stichting Telenet Finance Luxembourg and 0.01% by Telenet Finance S.à.r.l., a 100% affiliate of this Stichting. The Indenture relating to the High Yield Bond offering prohibits the Issuer from engaging in any activities other than certain limited activities permitted. The SE set up for the issuance of the High Yield Bond is designed to operate in a predetermined way so that no entity has explicit decision-making authority over the SE's ongoing activities after its formation (i.e. it operates on 'autopilot'). Virtually all rights, obligations, and aspects of activities that could be controlled are predefined and limited by contractual provisions specified or scheduled at inception. It has been determined that the Company has power over the SE, exposure or rights to variable returns from its involvement with the SE and ability to use its power to affect those returns and therefore concluded upon that Telenet Group Holding should consolidate the SE created to issue the High Yield Bond.

(2) Telenet Finance III Luxembourg S.C.A. was incorporated on January 28, 2011 as a structured finance entity ("SE") for the primary purpose of facilitating the offering of a High Yield Bond. This entity was incorporated at the request of the Telenet Group under the laws of the Grand Duchy of Luxembourg and is owned 99.99% by a Dutch charitable trust, called Stichting Telenet Finance III Luxembourg and 0.01% by Telenet Finance III S.à.r.l., a 100% affiliate of this Stichting. The Indenture relating to the High Yield Bond offering prohibits the Issuer from engaging in any activities other than certain limited activities permitted. The SE set up for the issuance of the High Yield Bond is designed to operate in a predetermined way so that no entity has explicit decision-making authority over the SE's ongoing activities after its formation (i.e. it operates on 'autopilot'). Virtually all rights, obligations, and aspects of activities that could be controlled are predefined and limited by contractual provisions specified or scheduled at inception. It has been determined that the Company has power over the SE, exposure or rights to variable returns from its involvement with the SE and ability to use its power to affect those returns and therefore concluded upon that Telenet Group Holding should consolidate the SE created to issue the High Yield Bond.

(3) Telenet Finance IV Luxembourg S.C.A. was incorporated on May 23, 2011 as a structured finance entity ("SE") for the primary purpose of facilitating the offering of a High Yield Bond. This entity was incorporated at the request of the Telenet Group under the laws of the Grand Duchy of Luxembourg and is owned 99.99% by a Dutch charitable trust, called Stichting Telenet Finance IV Luxembourg and 0.01% by Telenet Finance IV S.à.r.l., a 100% affiliate of this Stichting. The Indenture relating to the High Yield Bond offering prohibits the Issuer from engaging in any activities other than certain limited activities permitted. The SE set up for the issuance of the High Yield Bond is designed to operate in a predetermined way so that no entity has explicit decision-making authority over the SE's ongoing activities after its formation (i.e. it operates on 'autopilot'). Virtually all rights, obligations, and aspects of activities that could be controlled are predefined and limited by contractual provisions specified or scheduled at inception. It has been determined that the Company has power over the SE, exposure or rights to variable returns from its involvement with the SE and ability to use its power to affect those returns and therefore concluded upon that Telenet Group Holding should consolidate the SE created to issue the High Yield Bond.

(4) Telenet Finance V Luxembourg S.C.A. was incorporated on November 16, 2011 as a structured finance entity ("SE") for the primary purpose of facilitating the offering of a High Yield Bond. On August 10, 2012, the articles of association were amended in order to make it possible to issue more than one High Yield Bond. This entity was incorporated at the request of the Telenet Group under the laws of the Grand Duchy of Luxembourg and is owned 99.99% by a Dutch charitable trust, called Stichting Telenet Finance V Luxembourg and 0.01% by Telenet Finance V S.à.r.l., a 100% affiliate of this Stichting. The Indenture relating to the High Yield Bond offerings prohibits the Issuer from engaging in any activities other than certain limited activities permitted. The SE set up for the issuance of the High Yield Bonds is designed to operate in a predetermined way so that no entity has explicit decision-making authority over the SE's ongoing activities after its formation (i.e. it operates on 'autopilot'). Virtually all rights, obligations, and aspects of activities that could be controlled are predefined and limited by contractual provisions specified or

scheduled at inception. It has been determined that the Company has power over the SE, exposure or rights to variable returns from its involvement with the SE and ability to use its power to affect those returns and therefore concluded upon that Telenet Group Holding should consolidate the SE created to issue the High Yield Bond.

- (5) Telenet Finance VI Luxembourg S.C.A. was incorporated on August 14, 2012 as a structured finance entity (“SE”) for the primary purpose of facilitating the offering of one or more High Yield Bonds. This entity was incorporated at the request of the Telenet Group under the laws of the Grand Duchy of Luxembourg and is owned 99.99% by a Dutch charitable trust, called Stichting Telenet Finance VI Luxembourg and 0.01% by Telenet Finance VI S.à.r.l., a 100% affiliate of this Stichting. The Indenture relating to the High Yield Bond offering(s) will prohibit the Issuer from engaging in any activities other than certain limited activities permitted. The SE set up for the issuance of High Yield Bond(s) is designed to operate in a predetermined way so that no entity has explicit decision-making authority over the SE’s ongoing activities after its formation (i.e. it operates on ‘autopilot’). Virtually all rights, obligations, and aspects of activities that could be controlled are predefined and limited by contractual provisions specified or scheduled at inception. It has been determined that the Company has power over the SE, exposure or rights to variable returns from its involvement with the SE and ability to use its power to affect those returns and therefore concluded upon that Telenet Group Holding should consolidate the SE created to issue the High Yield Bond(s).
- (6) Telenet Finance VII Luxembourg S.C.A. was incorporated on September 4, 2015 as a structured finance entity (“SE”) for the primary purpose of facilitating the offering of one or more High Yield Bonds. This entity was incorporated at the request of the Telenet Group under the laws of the Grand Duchy of Luxembourg and is owned 99.99% by a Dutch charitable trust, called Stichting Telenet Finance VII Luxembourg and 0.01% by Telenet Finance VII S.à.r.l., a 100% affiliate of this Stichting. The Indenture relating to the High Yield Bond offering(s) will prohibit the Issuer from engaging in any activities other than certain limited activities permitted. The SE set up for the issuance of High Yield Bond(s) is designed to operate in a predetermined way so that no entity has explicit decision-making authority over the SE’s ongoing activities after its formation (i.e. it operates on ‘autopilot’). Virtually all rights, obligations, and aspects of activities that could be controlled are predefined and limited by contractual provisions specified or scheduled at inception. It has been determined that the Company has power over the SE, exposure or rights to variable returns from its involvement with the SE and ability to use its power to affect those returns and therefore concluded upon that Telenet Group Holding should consolidate the SE created to issue the High Yield Bond(s).
- (7) Telenet Finance BVBA. was incorporated on March 27, 2015 as a financing company (“finco”) for the primary purpose of to offer handset financing directly to the customers. This entity was incorporated at the request of the Telenet Group under Belgian law and is owned 99% by Global Handset Finco Limited and 1% by Lynx Europe 2 Limited. It has been determined that the Company has power over the Finco exposure or rights to variable returns from its involvement with the Finco and ability to use its power to affect those returns and therefore concluded upon that Telenet Group Holding should consolidate the Finco created to operate the handset financing for the Telenet Group.

5.29 Subsequent events

On February 10, 2017, Telenet announced that its subsidiary Telenet Group BVBA (previously BASE Company NV) has signed a Full MVNO agreement (the “Full MVNO Agreement”) with Lycamobile, the world’s largest international MVNO. Through the Full MVNO Agreement, Lycamobile’s customers will gain access to Telenet’s nationwide mobile network. As part of the Agreement, Telenet Group will sell its MVNO subsidiary Ortel Mobile NV to Lycamobile. The combined customer base of Lycamobile and Ortel Mobile in Belgium represents approximately 1 million customers.

5.30 External audit

The general shareholders’ meeting of April 27, 2015 appointed KPMG Bedrijfsrevisoren CVBA (“KPMG”) as statutory auditor of the Company for a period of three years. KPMG has appointed Mr. Filip De Bock as permanent representative.

Base fees for auditing the annual (consolidated) financial statements of Telenet Group Holding NV and its subsidiaries are determined by the general meeting of shareholders after review and approval by the Company’s audit committee and board of directors.

Audit and audit related fees for 2016, in relation to services provided by KPMG Bedrijfsrevisoren, amounted to EUR 1,046,150 (2015: EUR 709,400), which was composed of audit services for the annual financial statements of EUR 939,150 (2015: EUR 597,800) and audit related services of EUR 107,000 (2015: EUR 111,600). Audit related services mainly related to services in connection with attestation reports required by Belgian Company Law as well as other ad hoc attestation and assurance reports.

Audit and audit related fees for 2016 in relation to services provided by other offices in the KPMG network amounted to EUR 57,500 (2015: EUR 82,500), which was composed of audit services for the annual financial statements.

Statutory auditor's report to the general meeting of Telenet Group Holding NV as of and for the year ended 31 December 2016

In accordance with the legal requirements, we report to you in the context of our statutory auditor's mandate. This report includes our report on the consolidated financial statements as of and for the year ended 31 December 2016, as defined below, as well as our report on other legal and regulatory requirements.

Report on the consolidated financial statements—Unqualified opinion

We have audited the consolidated financial statements of Telenet Group Holding NV (“the Company”) and its subsidiaries (jointly “the Group”), prepared in accordance with International Financial Reporting Standards as adopted by the European Union, and with the legal and regulatory requirements applicable in Belgium. These consolidated financial statements comprise the consolidated statement of financial position as at 31 December 2016 and the consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information. The total of the consolidated statement of financial position amounts to EUR'000 5.007.455 and the consolidated statement of profit or loss and other comprehensive income shows a profit for the year of EUR'000 41.569.

Board of directors' responsibility for the preparation of the consolidated financial statements

The board of directors is responsible for the preparation of these consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the European Union, and with the legal and regulatory requirements applicable in Belgium, and for such internal control as the board of directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Statutory auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing (ISAs) as adopted in Belgium. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the statutory auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

In making those risk assessments, the statutory auditor considers internal control relevant to the Group's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the board of directors, as well as evaluating the overall presentation of the consolidated financial statements.

We have obtained from the Company's officials and the board of directors the explanations and information necessary for performing our audit.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unqualified opinion.

Unqualified opinion

In our opinion, the consolidated financial statements give a true and fair view of the Group's equity and consolidated financial position as at 31 December 2016 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union, and with the legal and regulatory requirements applicable in Belgium.

Report on other legal and regulatory requirements

The board of directors is responsible for the preparation and the content of the annual report on the consolidated financial statements.

In the context of our mandate and in accordance with the Belgian standard which is complementary to the International Standards on Auditing as applicable in Belgium, our responsibility is to verify, in all material respects, compliance with certain legal and regulatory requirements. On this basis, we provide the following additional statement which does not modify the scope of our opinion on the consolidated financial statements:

- The annual report on the consolidated financial statements includes the information required by law, is consistent, in all material respects, with the consolidated financial statements and does not present any material inconsistencies with the information that we became aware of during the performance of our mandate.

Brussels, 20 March 2017

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

5. Notes to the consolidated financial statements for the year ended December 31, 2015

5.1 REPORTING ENTITY AND BASIS OF PREPARATION

5.1.1 Reporting entity

The accompanying consolidated financial statements present the operations of Telenet Group Holding NV, its subsidiaries and other consolidated companies (hereafter collectively referred to as the “Company” or “Telenet”). Through its broadband network, the Company offers basic and enhanced video services, including pay television services, broadband internet and fixed-line telephony services to residential subscribers in Flanders and certain communes in Brussels as well as broadband internet, data and voice services in the business market throughout Belgium and parts of Luxembourg. The Company also offers mobile telephony services through an MVNO Arrangement with Mobistar. Telenet Group Holding NV and its principal operating subsidiaries are limited liability companies organized under Belgian law. Subsidiaries and structured financing entities (“SEs”) have been incorporated in Luxembourg in order to structure the Company’s financing operations.

5.1.2 Basis of preparation

In accordance with the EU Regulation 1606/2002 of July 19, 2002, the consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the EU (“EU IFRS”). The financial statements have been prepared on the historical cost basis, except for certain financial instruments, which are measured at fair value. The methods used to measure fair values are discussed further in note 5.2.8. The principal accounting policies are set out in section 5.2 below.

5.1.3 Functional and presentation currency

These consolidated financial statements are presented in euro (“€”), which is the Company’s functional currency, rounded to the nearest thousand except when indicated otherwise.

5.1.4 Use of estimates and judgments

The preparation of financial statements in accordance with EU IFRS requires the use of certain critical accounting estimates and management judgment in the process of applying the Company’s accounting policies that affects the reported amounts of assets and liabilities and disclosure of the contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in the following notes:

- note 5.3.6: Financial instruments: fair values
- note 5.4: Property and equipment
- note 5.5: Goodwill
- note 5.6: Other intangible assets
- note 5.3.6: Derivative financial instruments
- note 5.15: Deferred taxes

A number of the Company’s accounting policies and disclosures require the measurement of fair value, for both financial and non-financial assets and liabilities. When measuring the fair value of an asset or liability, the Company uses market observable data to the extent available.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the fair value techniques, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For further information about the assumptions made in measuring fair values we refer to note 5.3.6 Financial Instruments and note 5.12.2 Employee share based compensation.

5.1.5 Going Concern

The consolidated financial statements as of December 31, 2015 showed a negative consolidated equity amounting to €1,203.5 million, mainly as a result of the Company's historical shareholder disbursements policy, including various capital reductions.

The Company considers its most optimal equity structure on a consolidated level, based on a certain net leverage range as described in note 5.3.5, even in case of a negative equity on a consolidated level.

The board of directors has considered the Company's net equity position and has prepared the consolidated financial statements applying the accounting policies consistently on a going concern basis taking into account amongst others:

- the forecasted earnings for the next year;
- a projected steadily strong positive cash flow for the next year;
- maturities of financial obligations as disclosed in note 5.3.3.

5.1.6 Approval by board of directors

These consolidated financial statements were authorized for issue by the board of directors on March 22, 2016.

5.2 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements.

No changes to the significant accounting policies have been made, except as explained in note 5.2.19, which addresses new standards, interpretations, amendments and improvements.

5.2.1 Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Company. The consolidated financial statements include the accounts of Telenet Group Holding NV and all of the entities that it directly or indirectly controls. Intercompany balances and transactions, and any income and expenses arising from intercompany transactions, are eliminated in preparing the consolidated financial statements.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a negative balance.

Structured Entities

The Company has established SEs for financing purposes. The Company does not have any direct or indirect shareholdings in these entities. An SE is consolidated if, based on an evaluation of the substance of

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

its relationship with the Company and the SE's risks and rewards, the Company concludes that it controls the SE.

Associates and joint ventures

The Company's interest in equity-accounted investees comprises interests in associates and joint ventures.

Associates are those entities in which the Company has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Company has joint control, whereby the Company has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and the joint ventures are accounted for using the equity method and are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Company's share of the profit or loss and other comprehensive income of the equity-accounted investees, until the date on which significant influence or joint control ceases.

5.2.2 Segment Reporting

Operating segments are the individual operations of a company that the chief operating decision maker ("CODM") reviews regularly in allocating resources to these segments and in assessing segment performance. Telenet's segment reporting is presented based on how Telenet's internal financial information is organized and reported to the CEO, who is Telenet's CODM, the SLT (as defined in section 7.0 Corporate Governance Statement) and the board of directors.

The CEO, the SLT and the board of directors of Telenet manage the Company's telecommunication business as a single operation, and assess its performance and make resource allocation decisions based on an overall Profit and Loss Statement. The Profit and Loss Statement is analyzed at least on a monthly basis with only revenue and direct costs allocated to separate product and service lines. The primary measure of profit within the Profit and Loss Statement used by the CODM to assess performance is Adjusted EBITDA, and the Profit and Loss Statement does not present Adjusted EBITDA for separate product and service lines. Notwithstanding that revenue and direct costs are allocated to the separate product and service lines, as a differentiated Profit and Loss Statement is not used by the CODM to manage Telenet's operations, assess performance or make resource allocation decisions, Telenet has determined that its operations constitute one single segment.

In respect of the Company's 50% investment in De Vijver Media NV, the Company determined that the De Vijver Media business is a separate operating segment that is not a reportable segment.

5.2.3 Property and equipment

Property and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. When components of an item of property and equipment have different useful lives, they are accounted for as separate components of property and equipment. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

Depreciation is recognized in the statement of profit or loss and other comprehensive income on a straight-line basis over the estimated useful lives of each component of property and equipment.

The following useful lives are used for the depreciation of property and equipment:

- Buildings and improvements 10-33 years
- Network 3-30 years
- Furniture, equipment and vehicles 2-10 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

Government grants related to assets are recorded as a deduction from the cost in arriving at the carrying amount of the asset. The grant is recognized in the income statement over the life of a depreciable asset as a reduction of depreciation expense.

The Company includes borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset.

The cost of replacing a component of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced component is derecognized. The costs of repairs and maintenance of property and equipment are recognized in the consolidated statement of profit or loss and other comprehensive income as incurred.

The fair value of property and equipment recognized as a result of a business combination is based on market values. The market value of property is the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction. The market price of items of equipment is based on the quoted market prices for similar items.

It is the Company's policy to remove an asset's gross cost and accumulated depreciation at the end of an asset's useful life if the asset is no longer used by the Company, except when the asset is classified as held for sale.

5.2.4 Intangible assets

Intangible assets with finite useful lives are measured at cost and are amortized on a straight-line basis over their estimated useful lives as follows:

• Network user rights	Life of the contractual right
• Trade name	15 years
• Customer relationships and supply contracts	5 to 15 years
• Broadcasting rights	Life of the contractual right
• Software development costs	3 to 4 years
• Out of market component on future lease obligations acquired as part of a business combination	Term of the lease agreement

Amortization methods, useful lives and residual values are reviewed at each reporting date and are adjusted if appropriate.

Costs associated with maintaining computer software are recognized as an expense as incurred. Costs that are directly associated with the production of identifiable and unique software products controlled by the Company, and that will probably generate economic benefits exceeding costs beyond one year, are recognized as intangible assets.

Capitalized internal-use software costs include only external direct costs of materials and services consumed in developing or obtaining the software and payroll and payroll-related costs for employees who are directly associated with and who devote time to the project. Capitalization of these costs ceases no later than the point at which the project is substantially complete and ready for its intended purpose. Internally-generated intangible assets are amortized on a straight-line basis over their useful lives. Where no internally-generated intangible asset can be recognized, development expenditure is recognized as an expense in the period in which it is incurred.

Broadcasting rights are capitalized as an intangible asset when the value of the contract is measurable upon signing. For such broadcasting rights with respect to movies the amortizations during the first three months of the license period are based on the actual number of runs to reflect the pattern of consumption of the economic benefits embodied in the content rights. As for the remaining months of the license period the pattern of consumption of the future economic benefits can no longer be determined reliably, the straight-line method is used until the end of the license period. Broadcasting rights with respect to sports contracts are amortized on a straight-line basis over the sports season.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

Subsequent expenditure on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated brands, is recognized in the statement of profit or loss and other comprehensive income as incurred.

The fair value of customer relationships acquired in a business combination is determined using the multi-period excess earnings method, whereby the subject asset is valued after deducting a fair return on all other assets that are part of creating the related cash flows.

The fair value of trade names acquired in a business combination is based on the discounted estimated royalty payments that have been avoided as a result of the trade name being owned.

The fair value of other intangible assets is based on the discounted cash flows expected to be derived from the use and eventual sale of the assets.

It is the Company's policy to remove an asset's gross cost and accumulated amortization at the end of an asset's useful life if the asset is no longer used by the Company, except when the asset is classified as held for sale.

5.2.5 Impairment of financial and non-financial assets

Financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses are recognized in the statement of profit or loss and other comprehensive income. Any cumulative loss in respect of an available-for-sale financial asset recognized previously in equity is transferred to profit or loss.

The Company's interest in equity-accounted investees are assessed at each reporting date to determine whether there is objective evidence of impairment.

Objective evidence of impairment includes :

- default or delinquency by a debtor;
- restructuring of an amount due to the Company on terms that the Company would not consider otherwise;
- indications that a debtor or issuer will enter bankruptcy;
- adverse changes in the payment status of borrowers or issuers;
- the disappearance of an active market for a security because of financial difficulties; or
- observable data indicating that there is a measurable decrease in the expected cash flows from a group of financial assets.

An impairment loss in respect of an equity-accounted investee is measured by comparing the recoverable amount of the investment with its carrying amount. An impairment loss is recognized in profit or loss, and is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

Non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit or loss and other comprehensive income. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amounts of the other assets in the unit or group of units on a pro rata basis.

In respect of assets other than goodwill, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

5.2.6 Acquisition accounting and goodwill

Business combinations are accounted for using the acquisition method as of the acquisition date, which is the date on which control is transferred to the Company. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Company takes into consideration potential voting rights that currently are exercisable.

The Company measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognized amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
- the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

In respect of equity accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment. The cost of an investment in an equity-accounted investee comprises the purchase price and other costs directly attributable to the acquisition of the investment.

Goodwill is initially recognized as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

Goodwill is tested for impairment annually, or more frequently when there is an indication that it may be impaired. The Company has identified one cash-generating unit to which all goodwill was allocated. If the recoverable amount of the cash-generating unit is less than the carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets pro-rata on the basis of the carrying amount of each asset. An impairment loss recognized for goodwill is not reversed in a subsequent period.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Company incurs in connection with a business combination are expensed as incurred.

5.2.7 Foreign currency transactions

The Company's functional and presentation currency is the euro, which is also the functional currency of each of the Company's subsidiaries. Transactions in currencies other than the euro are translated at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing on the balance sheet date. Gains and losses arising on translation are included in profit or loss for the period.

5.2.8 Financial instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise cash and cash equivalents, trade and other receivables, loans and borrowings, trade and other payables, and equity accounted investees.

Cash and cash equivalents

Cash equivalents consist principally of money market funds, commercial paper and certificates of deposit with remaining maturities at acquisition of 3 months or less. Except for money market funds, which are recognized at fair value with changes through the statement of profit or loss and other comprehensive income, cash and cash equivalents are carried at amortized cost using the effective interest rate method, less any impairment losses.

The carrying amounts of cash and cash equivalents approximate fair value because of the short maturity of those instruments.

Trade receivables

Trade receivables do not carry any interest and are stated at their amortized cost less any allowance for doubtful amounts.

The fair value of trade and other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

Loans and borrowings

Interest-bearing bank loans are recorded at the proceeds received, net of direct issuance costs. Finance charges, including premiums payable on settlement or redemption and direct issuance costs, are accounted for on an accrual basis using the effective interest method and are recorded as a component of the related debt to the extent that they are not settled in the period in which they arise.

The Company initially recognizes debt securities issued on the date that they are originated. Such liabilities are recognized initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest rate method.

Deferred financing fees related to undrawn facilities are recognized as other non-current assets if it is probable that the facility will be drawn down.

Trade payables

Trade payables are not interest bearing and are stated at amortized cost. The carrying amounts of trade payables approximate fair value because of the short maturity of those instruments.

Derivative financial instruments

The Company's activities are exposed to changes in foreign currency exchange rates and interest rates.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

The Company seeks to reduce its exposure through the use of certain derivative financial instruments in order to manage its exposure to exchange rate and interest rate fluctuations arising from its operations and funding.

The use of derivatives is governed by the Company's policies approved by the board of directors, which provides written principles on the use of derivatives consistent with the Company's risk management strategy.

Derivatives are measured at fair value. The Company does not apply hedge accounting to its derivative instruments. Accordingly, changes in the fair values of derivative instruments are recognized immediately in the statement of profit or loss and other comprehensive income.

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of host contracts and the host contracts are not carried at fair value through the statement of profit or loss and other comprehensive income.

For interest rate derivative contracts that are terminated prior to maturity, the cash paid or received upon termination that relates to future periods is classified as a financing activity in the consolidated statement of cash flows.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

When share capital recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognized as a deduction from equity. Repurchased shares are presented in the reserve for own shares. When own shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is presented in share premium.

5.2.9 Revenue recognition

Subscription fees for telephony, internet and premium cable television are prepaid by subscribers on a monthly basis and recognized in revenue as the related services are provided, i.e. in the subsequent month. Subscription fees for analog cable television are prepaid by subscribers predominantly on an annual basis and recognized in revenue on a straight-line basis over the following twelve months. Revenue from usage based premium television, mobile and fixed telephone and internet activity is recognized on actual usage.

Installation fees charged to residential customers are recognized as revenue by reference to the stage of completion of the installation. As installation ordinarily does not take long, installation fees are recognized generally as revenue on completion of the installation. Due to the specific characteristics of a business transaction, upfront installation fees charged to business customers are considered part of an integrated solution. The installation is not considered to have stand-alone value and revenue from installation fees charged to business customers is recognized on a straight-line basis as the ongoing services are provided, i.e. deferred and recognized over the term of the arrangement.

Together with subscription fees, basic cable television subscribers are charged a copyright fee for the content received from public broadcasters that is broadcasted over the Company's network. These fees contribute to the cost the Company bears in respect of copyright fees paid to copyright collecting agencies for certain content provided by the public broadcasters and other copyright holders. The Company reports copyright fees collected from cable subscribers on a gross basis as a component of revenue due to the fact that the Company is acting as a principal in the arrangement between the public broadcaster and other copyright holders which does not represent a pass-through arrangement. Indeed, the Company bears substantial risk in setting the level of copyright fees charged to subscribers as well as in collecting such fees.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

For multiple element arrangements, the recognition criteria of revenue are applied to the separately identifiable components of the transaction. A component within an arrangement is separated if it has stand-alone value to the customer and if its fair value can be measured reliably. The fair value of the consideration received or receivable is allocated to the separate components of the arrangement using the residual fair value method. The allocation of arrangement consideration to delivered items is limited to amounts of revenue that are not contingent on the Company's future performance.

Revenue from termination fees is recognized at the time of the contract cancellation, if and only if collectability of the fee is reasonably assured. If collectability of the termination fee is not reasonably assured at the time of billing, revenue is deferred until cash is received.

Customers may be charged a downgrade fee when they switch to a lower tier service. Generally, the downgrade is not considered to have stand-alone value to the customer and downgrade fees are therefore deemed to be part of the overall consideration for the ongoing service. Revenue from downgrade fees is recognized on a straight-line basis over the longer period of (i) the related subscription contract or (ii) the expected remaining length of the customer relationship.

Digital television customers may rent a set-top box from Telenet. When customers elect to change the type of set-top box that they rent from Telenet, they may be charged a swap fee. The swap to a different type of set-top box is not considered to have stand-alone value to the customer and revenue from swap fees is recognized on a straight-line basis over the shorter period of (i) the expected remaining length of the customer relationship or (ii) the useful life of the set-top box.

Amounts billed for certain premium voice and SMS content are not presented as revenues but are netted against the corresponding expenses, because Telenet carries no legal responsibilities for the collection of these services and acts solely on behalf of the third-party content providers.

Revenue from mobile handset sales transactions, for which the customer entered into a consumer credit agreement with the Company and for which distinct service and payment obligations are applicable from those related to an airtime service contract, is recognized at the time of the sale of the handset as the customer takes full legal title to the handset and realization of the revenue with respect to the mobile handset is not contingent on the satisfactory delivery of future (airtime) services. This revenue is recognized upon the sale of the handset, if and only if collectability of all monthly payments is reasonably assured.

5.2.10 Operating expenses

Operating expenses consist of interconnection costs, network operations, maintenance and repair costs and cable programming costs, including employee costs and related depreciation and amortization charges. The Company capitalizes most of its installation costs, including direct labor costs. Copyright and license fees paid to the holders of those rights and their agents are the primary component of the Company's cable programming costs. Other direct costs include costs that the Company incurs in connection with providing its residential and business services, such as interconnection charges as well as bad debt expense. Network costs consist of costs associated with operating, maintaining and repairing the Company's broadband network and customer care costs necessary to maintain its customer base.

5.2.11 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that the Company will be required to settle that obligation and the amount can be reliably measured. Provisions are measured at the Company's best estimate of the expenditure required to settle its liability and are discounted to present value where the effect is material.

A provision for restructuring is recognized when the Company has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced to those affected. Future operating losses are not provided for.

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting its obligations under the contract. The

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

5.2.12 Leases

At inception of an arrangement, including arrangements that convey to the Company the right to use equipment, fibers or capacity for an agreed period of time in return for a series of payments, the Company determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfillment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Company the right to control the use of the underlying asset.

At inception or upon reassessment of the arrangement, the Company separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all of the risks and rewards of ownership to the Company. Property and equipment acquired by way of a finance lease are stated at an amount equal to the lower of their fair value and the present value of the minimum lease payments at inception of the lease, less accumulated depreciation and any impairment losses. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding lease obligations, net of finance charges, are included in long-term debt with the interest element of the finance cost charged to the statement of profit or loss and other comprehensive income over the lease period. All other leases are classified as operating lease payments and recognized in the statement of profit or loss and other comprehensive income on a straight-line basis over the term of the lease.

Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term in which case they are depreciated over their useful lives.

5.2.13 Income taxes

Income tax expense comprises current and deferred tax.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustments to tax payable in respect of previous years.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the calculation of taxable profit, and is accounted for using the balance sheet method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from the initial recognition of goodwill or from the initial recognition of other assets and liabilities in a transaction that is not a business combination and that affects neither the tax profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences arising on investments in subsidiaries except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred tax asset is recognized for the carry forward of unused tax losses to the extent that it is probable that future taxable profit will be available against which the unused tax losses can be utilized. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized. Current and deferred tax is charged or credited to the statement of profit or loss and other comprehensive income, except when it relates to items charged or credited directly to equity, in which case the current or deferred tax is also dealt with in equity.

In determining the amount of current and deferred tax, the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Company to change its judgment regarding the adequacy of existing tax liabilities. Such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity.

5.2.14 Employee benefits

Pension and other post-employment benefit obligations

The Company provides both defined benefit and defined contribution plans to its employees, directors and certain members of management.

For defined contribution plans, the Company pays fixed contributions into a separate entity. The Company has no obligation to pay further amounts in case the pension fund has insufficient assets to pay all employee benefits relating to current and prior service. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which related services are rendered by employees.

As a result of minimum guaranteed rates of return imposed by law, Belgian defined contribution plans classify as defined benefit plans.

At 31 December 2015, the Company still used the same approach as last year because both approaches would have resulted into the same outcome at that date. Hence, for plans for which the minimum guaranteed rate of return as defined by law is not fully insured, the net liability (if any) recognized in the balance sheet is based on the potential shortfall, determined by individual plan participant, between the Company's pension obligation (based on the applicable legal minimum guaranteed return) and the accumulated contributions based on the actual credited rates of return at the balance sheet date (i.e. the net liability is based on the deficit measured at intrinsic value). A defined benefit plan is a post-employment benefit plan that is not a defined contribution plan.

For defined benefit pension plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. The discount rate is based on the yield at the reporting date on high quality corporate bonds (average yield on AA corporate bonds in euro, benchmarked against the iBoxx € AA Corporates index) taking into account the duration of the Company's obligations.

The net defined benefit liability/(asset) recognized in the balance sheet corresponds to the difference between the defined benefit obligation and the plan assets. In case of a surplus, the net defined benefit (asset) is limited to the present value of future economic benefits available in the form of a reduction in contributions or a cash refund.

Remeasurements of the net defined benefit liability/(asset), which comprise actuarial gains and losses on the defined benefit obligation, the return on plan assets (excluding interest income) and changes in the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income (OCI).

Telenet Group Holding NV

Notes to the Consolidated Financial Statements December 31, 2015

The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense is recognized in profit or loss.

Past service cost resulting from plan amendments or curtailments is recognized immediately in profit or loss.

The Company also provides post-retirement health care benefits to certain employees. The expected costs of these benefits are accrued over the period of employment using an accounting methodology similar to that for defined benefit pension plans.
