Key information abou	ut the Bonds
	ortant characteristics of the Bonds?
The currency, nominal value and number of the Bonds	The bonds are issued in Danish kroner (DKK) with a face value of 0.01 (unit size). The bonds are fixed-rate and convertible at price 100.
The rights associated with the Bonds	The Bondholders will together with other holders of mortgage credit bonds and covered bonds have a primary preferential right (after deduction of expenses relating to the administration of the estate in bankruptcy and similar expenses) to all the assets in the capital centre through which the relevant ISIN code was issued, and subsequently a primary preferential right to Jyske Realkredit in general (also after deduction of expenses relating to the administration of the estate in bankruptcy and similar expenses) in pursuance of the provisions of the Danish Mortgage-Credit Loans and Mortgage-Credit Bonds etc. Act.
The relative seniority of the Bonds in the issuer's capital structure in the event of insolvency, including information of their place in the order of priority and the potential effect on the investment in the event of resolution within the framework of Directive 2014/59/EU.	If Jyske Realkredit goes bankrupt, the funds in a capital centre will be applied - after payment of costs for administration of the estate, etc to payment of claims from the Bondholders as well as counterparties to Preferential Derivatives Agreements with the same preferential position as the Bondholders. Bankruptcy does not constitute an event of default The trustee must to the extent possible continue to make the payments without changes. If the full amounts due cannot be paid on the due date, the Bondholders and the privileged derivative counterparties shall retain their claims and preferred rights. At worst, it can only at the final statement of the estate in bankruptcy be clarified to which extent the Bondholders and the privileged derivative counterparties can have their unpaid claims covered. If Jyske Realkredit is under resolution within the framework of the BRRD Directive 2014/59/EU, the resolution authority shall seek to resolve Jyske Realkredit in the most appropriate way by using the possible tools available. This may, for instance be the sale of a capital centre to a third party, transfer to a temporarily state-owned company. Mortgage credit institution and hence the Bonds are not subject to obligations to write down/convert (bail-in). Once a year, Jyske Realkredit submits a recovery plan to the FSA. The recovery plan includes a number of indicators that must continuously be complied with and be included in the reporting. The recovery plan must ensure timely intervention in order to secure the recovery of the institution.
