The aggregate nominal amount of Notes outstanding will not at any one time exceed €45,000,000,000 (or the equivalent in other currencies at the date of issue).

The Notes shall be governed by either English law (“**English Law Notes**”) or French law (“**French Law Notes**”), as specified in the applicable Final Terms, and the corresponding provisions in “Terms and Conditions of the Notes” below will apply to such Notes.

Application has been made for Notes to be listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange or the Euro MTF market during the period of twelve months after the date of publication of this Base Prospectus in accordance with Article 14 of Directive 2003/71/EC, as amended (which includes the amendments made by Directive 2010/73/EU) to the extent that such amendments have been implemented in a relevant Member State of the European Economic Area (the “**Prospectus Directive**”) and Article 16 of the Luxembourg law of 10 July 2005 implementing the Prospectus Directive. References in this Document to the “**Luxembourg Stock Exchange**” (and all related references) shall include the Luxembourg Regulated Market and/or the Euro MTF market, as the case may be (as specified in the applicable Final Terms). In addition, references in this document to Notes being “**listed**” (and all related references) shall mean that such Notes have been listed on the Luxembourg Stock Exchange or, as the case may be, a Regulated Market (as defined below) or other stock exchange(s). 	Statements of no significant or material adverse change:	<p>In accordance with the above plan, the sale of the CCIs was completed on 6 August 2013, such sale being made to Banque Populaire and Caisses d'Epargne banks.</p> <p>In addition, the AGM approved an exceptional distribution of €0.65 per share payable on 19 August 2013.</p> <p>As at the date of this Base Prospectus, the Issuer's share capital is €4,960,472,304.</p> <p>There has been no significant change in the financial or trading position of the Issuer since 30 June 2013 and there has been no material adverse change in the prospects of the Issuer since 31 December 2012.</p>
B.13	Events impacting the Issuer's solvency	<p>On 17 February 2013, the Issuer and Groupe BPCE announced their plan to simplify the Issuer's structure, which would mean:</p> <ul style="list-style-type: none"> • selling all Cooperative Investment Certificates ("CCIs") to the Banque Populaire and Caisses d'Epargne banks that issued them, for the price of €12.1 billion in cash. This price will be assessed by independent experts; • repaying the loan covering the CCIs ("P3CI") and the related lending/borrowing transactions; • carrying out an exceptional distribution of €2 billion; and • replacing the liquidity resulting from the previous actions. <p>All of these elements make up the transaction, which was completed on 6 August 2013. Therefore, the CCIs will no longer be consolidated and will no longer be recognised as share in income from associates.</p> <p>In accordance with the above plan, the sale of the CCIs was completed on 6 August 2013, such sale being made to Banque Populaire and Caisses d'Epargne banks.</p> <p>In addition, the AGM approved an exceptional distribution of €0.65 per share payable on 19 August 2013.</p>
B.14	Dependence upon other group entities	<p>With effect as of 31 July 2009 (non-inclusive), the Issuer is affiliated with BPCE, the central body of Groupe BPCE. This affiliation with BPCE replaces, with effect as of same date, the dual affiliation of the Issuer with Banque Fédérale des Banques Populaires ("BFBP") and Caisse Nationale des Caisses d'Epargne</p>

B.15	Principal activities	<p>The Issuer is the corporate, investment management and financial services arm of Groupe BPCE, the second-largest banking player in France.</p> <p>The Issuer has a number of areas of first-rank recognised expertise in three core businesses:</p> <ul style="list-style-type: none"> • wholesale banking • Investment Solutions (asset management, insurance, private banking, private equity) • Specialised Financial Services <p>The Issuer has a long-lasting commitment to its own client base of companies, financial institutions and institutional investors as well as the client base of individuals, professionals and small and medium-size businesses of Groupe BPCE retail banking networks (Caisse d’Epargne and Banque Populaire).</p>
B.16	Controlling shareholders	<p>BPCE is the main shareholder of the Issuer and, as such, exercises the responsibilities laid out by banking regulations. Corporate governance rules and rules applicable to the members of the board allow prevention of the risk of abuse of control.</p> <p>As at 30 June 2013, BPCE held 72.1 per cent. of the share capital of the Issuer.</p>
B.17	Credit ratings	<p>The long term senior unsecured debt of the Issuer is rated A2 (stable) by Moody's Investors Services Inc. RISK FACTORS

Prospective purchasers of the Notes offered hereby should consider carefully, in light of their financial circumstances and investment objectives, all of the information in this Base Prospectus (including that incorporated by reference) and, in particular, the risk factors set forth below in making an investment decision.

Natixis operates in an environment that presents inherent risks, some of which it cannot control. Certain risks to which Natixis is exposed are identified below, it being emphasized that it is not an exhaustive list of all risks taken by Natixis in relation to its business or in consideration of its environment. The risks relating to Natixis, as well as other currently unidentified risks or which are currently considered immaterial by Natixis, may have a material adverse impact on its operations, financial position and/or results.

Natixis' sensitive exposures are detailed in accordance with the recommendations of the Financial Stability Forum.

Risk related to the Issuer

See pages 143 to 196 of the 2012 Registration Document incorporated herein by reference for risks related to the Issuer, including (but not limited to) risks related to the macroeconomic environment and the financial crisis, risks related to the links with BPCE and the Banque Populaire and Caisse d'Épargne networks, and risks relating to Natixis' operations and the banking sector.

Risk Factors relating to the Notes

Creditworthiness of the Issuer

The Notes constitute general and unsecured contractual obligations of the Issuer and of no other person. The Notes will rank equally with all other unsecured contractual obligations of the Issuer and behind preferred liabilities, including those mandatorily preferred by law. The Issuer issues a large number of financial instruments, including the Notes, on a global basis and, at any given time, the financial instruments outstanding may be substantial. If an investor purchases the Notes, it is relying upon the creditworthiness of the Issuer and no other person and where the Notes relate to securities, it has no rights against the company that has issued such securities, and where the Notes relate to an index, it has no rights against the sponsor of such index and where the Notes relate to a fund, it has no rights against the manager of such fund. Further, an investment in the Notes is not an investment in the underlying assets and an investor has no rights in relation to voting rights or other entitlements (including any dividend or other distributions).

Conflicts of interest-Issuer and its affiliates

The Issuer and any of its affiliates, in connection with their respective additional business activities, may possess or acquire material information about the underlying assets. Such activities and information may have consequences which are adverse to the Noteholders. Such actions and conflicts may include, without limitation, the exercise of voting power, the purchase and sale of securities, financial advisory relationships and exercise of creditor rights. The Issuer and any of its affiliates have no obligation to disclose such information about the underlying assets or the companies to which they relate. The Issuer and any of its affiliates and their officers and directors may engage in any such activities without regard to the Notes or the effect that such activities may directly or indirectly have on any Note.

In addition, the Issuer or any of its affiliates may engage in trading or hedging transactions involving the Notes, any underlying securities, or other derivative products that may affect the value of the Notes.

The above situations may result in consequences which may be adverse to your investment. The Issuer assumes no responsibility whatsoever for such consequences and their impact on your investment.

Because the Calculation Agent in respect of the Notes may be the Issuer, or an affiliate of the Issuer, potential conflicts of interest may exist between the Issuer, the Calculation Agent and the Noteholders, including with respect to certain determinations and judgements that the Calculation Agent must make.

The activities described in this subparagraph are subject to compliance with applicable laws and regulations (including under Directive 2003/6/EC).

Conflicts of Interest – Dealers

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or the Issuer's affiliates. In addition, certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Any of the above situations may result in consequences which may be adverse to your investment. The Issuer assumes no responsibility whatsoever for such consequences and their impact on your investment.

The initial Aggregate Nominal Amount may not reflect the future liquidity of the Notes

The Issuer and any of its affiliates are entitled to buy the Notes, as described in Condition 6(d), and as a result, the initial Aggregate Nominal Amount of a Series of Notes specified in the applicable Final Terms may not reflect the Aggregate Nominal Amount of such Series of Notes throughout the term of such Notes. Any reduction in the Aggregate Nominal Amount of a Series of Notes following a cancellation of Notes purchased by the Issuer in accordance with Condition 6(d) may reduce the liquidity of the remaining Notes of such Series and may reduce the activeness of the secondary trading market, if any, in relation to such Notes. Such transactions may favourably or adversely affect the price development of the Notes.

Any early redemption at the option of the Issuer, if provided for in any Final Terms for a particular issue of Notes, could cause the yield anticipated by Noteholders to be considerably less than anticipated

The terms of a particular issue of Notes may provide for early redemption at the option of the Issuer. An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. Such right of termination is often provided for notes in periods of high interest rates. If the market interest rates decrease, the risk to Noteholders that the Issuer will exercise its right of termination increases. As a consequence, the yields received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. As a consequence, part of the capital invested by the Noteholder may be lost, so that the Noteholder in such case would not receive the total amount of the capital invested. In addition, investors that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower yield than the redeemed Notes.

A Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial instruments such as the Notes. Potential investors are advised not to rely upon the tax overview contained in this Base Prospectus but to ask for their own tax adviser's advice on

their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with the taxation sections of this Base Prospectus.

Modification

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Change of law

The Notes are governed by English law, or French law in the case of French Law Notes, in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English (or French or any other relevant) law after the date of this Base Prospectus.

All matters relating to title to, and transfer of, and the exercise of certain rights related to, Clearing System Registered Notes will be governed by the applicable laws of the relevant jurisdiction of, and the rules and regulations and procedures of, any local clearing system from time to time in which such Notes are deposited and through which they are issued and cleared. No assurance can be given as to the impact of any changes in such laws, rules, regulations or procedures after the date of this Base Prospectus.

French Insolvency Law

Under French insolvency law notwithstanding any clause to the contrary, holders of debt securities (*obligations*) are automatically grouped into a single assembly of holders (the “**Assembly**”) if a preservation procedure (*procédure de sauvegarde*) or an accelerated financial preservation procedure (*procédure de sauvegarde financière accélérée*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is opened in France with respect to the Issuer. The Assembly will comprise all holders of debt securities (*obligations*) issued by the Issuer (including the Notes), whether or not under the Programme and regardless of their governing law. The Assembly will deliberate on the draft preservation plan (*projet de plan de sauvegarde*), draft accelerated financial preservation plan (*projet de plan de sauvegarde financière accélérée*) or judicial reorganisation plan (*projet de plan de redressement*) prepared in relation to the Issuer and may further agree to:

- (i) increase the liabilities (*charges*) of such holders of debt securities (including the Noteholders) by rescheduling and/or writing off debts;
- (ii) decide to convert such debt securities (including the Notes) into shares or securities that give or may give right to share capital; or
- (iii) establish an unequal treatment between holders of debt securities (including the Noteholders) as appropriate under the circumstances.

Decisions of the Assembly will be taken by a two-third majority (calculated as a proportion of the amount of debt securities held by the holders attending such Assembly or represented thereat). No quorum is required to convoke the Assembly. For the avoidance of doubt, the provisions relating to the meetings of the Noteholders described in the Terms and Conditions of the Notes set out in this Base Prospectus and contained in the Agency Agreement will not be applicable in these circumstances.

EU Savings Directive

On 3 June 2003, the European Council of Economics and Finance Ministers adopted a directive 2003/48/EC regarding the taxation of savings income in the form of interest payments (the “**Savings Directive**”). The Savings Directive requires Member States, subject to a number of conditions being met, to provide to the tax

authorities of other Member States, details of payments of interest and other similar income made by a paying agent located within its jurisdiction to or for the benefit of an individual resident or certain entities called “residual entities” established in that other Member State, except that, for a transitional period (the ending of such transitional period being dependant upon the conclusion of certain other agreements relating to information exchange with certain other countries), Luxembourg and Austria will instead withhold an amount on interest payments unless the relevant beneficial owner of such payment elects otherwise and authorises the paying agent to disclose the above information. A number of non EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland). The rate of this withholding tax is currently 35 per cent. (see “*Taxation – EU Taxation*”).

In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Directive. The final form of the measure is still unknown.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment pursuant to the Savings Directive, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying Agent in a Member State that will not be obliged to withhold or deduct tax pursuant to the Directive.

The European Commission has proposed certain amendments to the Savings Directive which may, if implemented, amend or broaden the scope of the requirements described above.

Foreign Account Tax Compliance Act withholding may affect payments on the Notes

The U.S. “Foreign Account Tax Compliance Act” (or “**FATCA**”) imposes a new reporting regime and, potentially, a 30% withholding tax with respect to (i) certain payments from sources within the United States, (ii) “foreign passthru payments” made to certain non-U.S. financial institutions that do not comply with this new reporting regime, and (iii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-U.S. financial institution. While the Notes are in global form held within the clearing systems, in all but the most remote circumstances, it is not expected that FATCA will affect the amount of any payment received by the clearing systems. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA), provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. The Issuer’s obligations under the Notes are discharged once it has paid the common depositary for the clearing and the Issuer has therefore no responsibility for any amount thereafter transmitted through hands of the clearing systems and custodians or intermediaries. Prospective investors should refer to the section “*Taxation – Foreign Account Tax Compliance Act*”.

Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes

The U.S. Hiring Incentives to Restore Employment Act (the “**HIRE Act**”) imposes a 30% withholding tax on amounts attributable to U.S. source dividends that are paid or “deemed paid” under certain financial instruments if certain conditions are met. While significant aspects of the application of the relevant provisions of the HIRE Act to the Notes are uncertain, if the relevant Issuer or any withholding agent

determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section “*Taxation – United States of America – Hiring Incentives to Restore Employment Act.*”

The proposed financial transactions tax (“FTT”)

The European Commission has published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “**participating Member States**”).

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of the Notes should, however, be exempt.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Crisis Management Directive

The European Commission has published proposals for a crisis management directive which is intended to enable a range of actions to be taken in relation to credit institutions and investment firms considered to be at risk of failing. The full scope of the directive and its impact on the Issuer is currently unclear but the implementation of the directive or the taking of any action under it could materially affect the value of any Notes.

In June 2012, the European Commission published a legislative proposal for a directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the “**Crisis Management Directive**” or “**CMD**”). The stated aim of the draft CMD is to provide authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimise taxpayers' exposure to losses. The powers provided to authorities in the draft CMD are divided into three categories: (i) preparatory steps and plans to minimise the risks of potential problems (preparation and prevention); (ii) in the event of incipient problems, powers to arrest a firm's deteriorating situation at an early stage so as to avoid insolvency (early intervention); and (iii) if insolvency of a firm presents a concern as regards the general public interest, a clear means to reorganise or wind down the firm in an orderly fashion while preserving its critical functions and limiting to the maximum extent any exposure of taxpayers to losses.

The draft CMD currently contains four resolution tools and powers: (i) sale of business - which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the firm to a “bridge bank” (a public controlled entity); (iii) asset separation - which enables resolution authorities to transfer impaired or problem assets to an asset management vehicle to allow them to be managed and worked out over time; and (iv) bail-in - which gives resolution authorities the power to write

down the claims of unsecured creditors of a failing institution and to convert unsecured debt claims to equity (subject to certain parameters as to which liabilities would be eligible for the bail-in tool).

The draft CMD currently contemplates that it will be applied by Member States from 1 January 2015 except for the bail-in tool (in relation to instruments other than Additional Tier 1 and Tier 2 instruments) which is to be applied from 1 January 2018.

The powers currently set out in the draft CMD would impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. However, the proposed directive is not in final form and changes may be made to it in the course of the legislative process. Accordingly, it is not yet possible to assess the full impact of the draft CMD on the Issuers and there can be no assurance that, once it is implemented, the fact of its implementation or the taking of any actions currently contemplated in it would not adversely affect the rights of Noteholders, the price or value of their investment in the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

Unforeseen events can interrupt the Issuer's operations and cause substantial losses and additional costs

Unforeseen events such as severe natural catastrophes, terrorist attacks or other states of emergency can lead to an abrupt interruption of the Issuer's or the Issuer's affiliates' operations, which can cause substantial losses. Such losses can relate to property, financial assets, trading positions and key employees.

The Issuer is exposed to credit risk of other parties

The Issuer is exposed to the creditworthiness of its counterparties. The Issuer cannot assume that its level of provisions will be adequate or that it will not have to make significant additional provisions for possible bad and doubtful debts in future periods.

An interruption in or breach of the Issuer's information systems may result in lost business and other losses

The Issuer relies on communications and information systems to conduct its business. Any failure or interruption or breach in security of these systems could result in failures or interruptions in the Issuer's organisation systems. The Issuer cannot provide assurances that such failures or interruptions will not occur or, if they do occur, that they will be adequately addressed. The occurrence of any failures or interruptions could have a material adverse effect on the Issuer's financial condition and results of operations.

Risks related to Structured Notes, the performance of which is linked to a Relevant Factor

The Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates, indices or other factors (each, a "**Relevant Factor**"). In addition, the Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) they may lose all or a substantial portion of their principal;
- (v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;

- (vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable are likely to be magnified;
- (vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield; and
- (viii) neither the current nor the historical value of the Relevant Factor may provide a reliable indication of its future performance during the term of any Note.

In addition to the risks set out above, Notes linked to a Relevant Factor may carry risks including the following (among others, including any further risks specified in connection with a particular issue of Notes): in circumstances where redemption of the Notes may involve physical delivery of a security or other asset, such delivery, and therefore the ability of Noteholders to obtain something of value upon redemption may be affected by, among other things, events disrupting mechanisms required for physical settlement or any applicable laws or regulations limiting the right of a Noteholder to obtain or the Issuer to effect such delivery.

Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Notes constituting "Obligations" under French Law

Investors' attention is drawn to the fact that no assurance is given by Natixis as to the prudential or regulatory treatment of the Notes for the investors (including but not limited to whether the Notes will constitute *obligations* under French law (within the meaning of Article L.213-5 of the French *Code monétaire et*

financier)). Each potential investor should consult its legal advisers and where applicable its regulator(s), accountants, auditors and tax advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing, (iii) Notes are eligible as regulated assets (where applicable), (iv) Notes are an appropriate investment for it from a prudential point of view and (v) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Interest rate risks expose investors to the risk of changes in market interest

An investment in Fixed Interest Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Interest Rate Notes.

Investors will not be able to calculate in advance their rate of return on Floating Rate Notes

A key difference between Floating Rate Notes and Fixed Interest Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the Notes provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing.

Zero coupon notes are subject to higher price fluctuations than non-discounted notes

Changes in market interest rates have a substantially stronger impact on the prices of zero coupon notes than on the prices of ordinary notes because the discounted issue prices are substantially below par. If market interest rates increase, zero coupon notes can suffer higher price losses than other notes having the same maturity and credit rating. Due to their leverage effect, zero coupon notes are a type of investment associated with a particularly high price risk.

Risks related to Notes redeemed by physical delivery

In the event of the delivery of shares and/or securities and/or other financial instrument(s) or underlying asset(s) upon redemption of their Notes, Noteholders shall be required to make certain notifications and take other actions as set out in the Conditions. Delivery of shares and/or securities and/or other financial instrument(s) or underlying asset(s) is subject to all applicable laws, regulations and practices and the Issuer shall not incur any liability whatsoever if it is unable to deliver or procure the delivery of such shares and/or securities and/or other financial instrument(s) or underlying asset(s) to the relevant Noteholder(s) because of any such laws, regulations or practices.

Each Noteholder should be aware that if its Notes may be redeemed by physical delivery of shares and/or securities and/or other financial instrument(s) or underlying asset(s) (as specified in the applicable Final Terms), it shall be deemed to acknowledge its understanding and acceptance of this matter and to have made its own examination and assessment of its capacity and power to receive shares and/or securities and/or other financial instrument(s) or underlying asset(s) and not to have relied on any representation of the Issuer, any Agent or the relevant Dealer regarding this matter. In particular, the Issuer and any of its Agents shall not be in any way responsible for checking the capacity and power of any Noteholder to have its Notes redeemed by delivery of shares and/or securities and/or other financial instrument(s) or underlying asset(s) (even if it has notice of any other facts and circumstances), and the relevant Noteholder shall bear full responsibility for any consequences that may arise from the delivery to it of shares and/or securities and/or other financial instrument(s) or underlying asset(s) or, as the case may be, non-delivery as a consequence of the Noteholder not having the required capacity and power to receive delivery of such shares and/or securities and/or other financial instrument(s) or underlying asset(s).

Foreign currency notes expose investors to foreign-exchange risk as well as to issuer risk

As purchasers of foreign currency notes, investors are exposed to the risk of changing foreign exchange rates. This risk is in addition to any performance risk that relates to the Issuer or the type of Note being issued.

Risk Factors Relating to the Structure of a Particular Issue of Notes

Risks relating to Index Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon the level of an index or the basket of indices (“**Index Linked Notes**”).

Potential investors in any such Notes should be aware that depending on the terms of the Index Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the index or the basket of indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the index or the basket of indices may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an index or result of a formula, the greater the effect on yield.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the index or the basket of indices on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the index or the basket of indices. The level of the index or the basket of indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded. The index may reference equities, notes or other securities, it may be a property index referencing certain property price data which will be subject to market price fluctuations or reference a number of different assets or indices. A property index may include valuations only and not actual transactions and the property data sources used to compile the index may be subject to change, which may adversely affect the return on the Notes.

Index Linked Notes linked to a custom index are linked to a proprietary index which may be sponsored and/or calculated by the Issuer or one of its affiliates. Pursuant to the operational rules of the relevant custom index, the custom index is scheduled to be calculated on a periodic basis (for example on each weekday). In the event that one of the levels, values or prices of a component included in the custom index is not available for any reason on a relevant day of calculation (e.g. either because it is a non-scheduled trading day in respect of that index component or that index component is subject to market disruption or otherwise), then the Calculation Agent of the custom index may, but is not obliged to, calculate the level of the custom index on that day by taking a value for the affected index component from the first preceding day on which a level for such affected index component was available.

Various affiliates of the Issuer may undertake the role of calculation agent of the Notes, sponsor of the underlying custom index and calculation agent of the underlying custom index. The Issuer has policies and procedures to identify, consider and manage potential conflicts of interest which this situation may potentially generate.

For the avoidance of doubt, the Issuer and/or its affiliates may not be able to trade on and hedge its obligations in respect of the custom index under the Notes notwithstanding the calculation or publication of the level of the custom index. In the event that any relevant date for valuation is a Disrupted Day for the custom index, that valuation date will be the first succeeding day on which the Issuer or relevant affiliate is

able to trade on and hedge its obligations in respect of the custom index, subject to a specified maximum days of disruption, as more fully set out in the terms and conditions of the Notes.

Risks relating to Equity Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon the price of or changes in the price of shares or a basket of shares, or, depending on the price of or change in the price of shares or the basket of shares, the Issuer's obligation on redemption is to deliver a specified number of shares ("**Equity Linked Notes**"). Accordingly an investment in Equity Linked Notes may bear similar market risks to a direct equity investment and potential investors should take advice accordingly.

Potential investors in any such Notes should be aware that depending on the terms of the Equity Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified shares may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the price of the share or basket of shares may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the share(s) may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price of the share(s), the greater the effect on yield.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the share(s) on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may be affected by the time remaining to the redemption date, the volatility of the share or shares, the dividend rate (if any) and the financial results and prospects of the issuer or issuers of the relevant share or shares as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) or quotation system(s) on which any such shares may be traded.

Equity Linked Notes do not provide Noteholders with any participation rights in the underlying share and except in certain circumstances in the case of Physical Delivery Notes, do not entitle holders of Equity Linked Notes to any ownership interest or rights in such share(s).

Except as provided in the Conditions, Noteholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant shares or units to which such Notes relate.

Risks relating to Inflation Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon the level of an inflation index ("**Inflation Linked Notes**").

Potential investors in any such Notes should be aware that depending on the terms of the Inflation Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the inflation index may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the inflation index may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an inflation index or result of a formula, the greater the effect on yield.

In certain circumstances following cessation of publication of the inflation index, the Calculation Agent may determine that there is no appropriate alternative inflation index, in which case the Issuer may redeem the Notes. Such action may have an effect on the value of the Notes.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the inflation index or the basket of indices on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the inflation index or the basket of indices. The level of the inflation index or the basket of indices may be affected by the economic, financial and political events in one or more jurisdictions.

Risks relating to Commodity Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon the price of or changes in the price of commodities and/or a basket of commodities or where, depending on the price of or change in the price of a commodity or the basket of commodities, the Issuer's obligation on redemption is to deliver a specified commodity ("**Commodity Linked Notes**").

Potential investors in any such Notes should be aware that depending on the terms of the Commodity Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified commodities may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the price of the commodity and/or basket of commodities may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of a commodity may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price of the commodity, the greater the effect on yield.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of a commodity on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may be affected by the time remaining to the redemption date and the volatility of the price of the commodity. The price of commodities may be affected by economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which the relevant commodities may be traded.

Risks relating to Fund Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon the price or changes in the price of units or shares in a fund or the basket of funds or, depending on the price or changes in the price of units or shares in such fund or the basket of funds, the Issuer's obligation on redemption is to deliver a specified amount of Fund Shares ("**Fund Linked Notes**"). Accordingly an investment in Fund Linked Redemption Notes may bear similar market risks to a direct fund investment and potential investors should take advice accordingly.

Prospective investors in any such Notes should be aware that depending on the terms of the Fund Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified Fund Shares may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the price of units, shares or interests in the fund or the basket of funds may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the units or shares in the fund or the basket of funds may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the units, shares or interests in the fund or the basket of funds, the greater the effect on yield.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the units or shares of the fund or the basket of funds on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the price of units or shares in the fund or the basket of funds. The price of units or shares in a fund may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units in the fund or the basket of funds may be traded. In addition, the price of units or shares in a fund may be affected by the performance of the fund service providers, and in particular the investment adviser.

Prospective investors should review carefully the prospectus, information memorandum and/or offering circular (if any) issued by any relevant fund before purchasing any Notes. None of the Issuer, any affiliate of the Issuer or the Calculation Agent make any representation as to the creditworthiness of any relevant fund or any such fund's administrative, custodian, investment manager or adviser.

No fund service provider will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Fund Linked Notes, and none of the Issuer or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of fund shares or units contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any applicable Final Terms) that would affect the trading price of the fund shares or units will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of fund shares or units could affect the trading price of the fund shares or units and therefore the trading price of the Notes. Fund Linked Notes do not provide Noteholders with any participation rights in the underlying Fund(s) and except in certain circumstances in the case of Physical Delivery Notes, do not entitle holders of Fund Linked Notes to any ownership interest or rights in such Fund(s).

Except as provided in the Conditions, Noteholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant fund shares or units to which such Notes relate.

Risks relating to Dividend Linked Notes

The Issuer may issue Notes whereby the principal and/or interest payable are dependent upon the declaration and payment of dividends in relation to shares of a company (“**Dividend Linked Notes**”). The declaration and payment of dividends is dependent on, amongst other things, the performance of the company.

Accordingly potential investors in Dividend Linked Notes should be aware that, depending upon the terms of the Dividend Linked Notes, (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial part of their investment. The losses referred to in (i), (ii) and (iii) may arise if the relevant company fails to declare and/or pay a dividend in respect of its shares during the life of the relevant Dividend Linked Notes.

In addition Dividend Linked Notes will be subject to similar risks to Equity Linked Notes (see “*Risks Relating to Equity Linked Notes*” above).

Risks relating to Futures Linked Notes

The Issuer may issue Notes whereby the amount of principal and/or interest payable are dependent upon the price of futures contracts (“**Futures Linked Notes**”). Such futures contracts may be an option, futures contract, option relating to a futures contract, a swap or other contract relating to (an) index (ices), share(s) or dividends (such index(ices), share(s) or dividends, “**Futures Underlying Asset(s)**”).

Accordingly an investment in Futures Linked Notes may bear similar risks to a direct investment in the futures contract itself and investors should take appropriate advice. The value of any Futures Linked Notes will vary in accordance with the value of the underlying futures contract which will in turn be affected by the value of the relevant Futures Underlying Asset(s). If the value of the relevant Futures Underlying Asset(s) decreases by reference to the price agreed in the relevant futures contract then the value of the futures contract and consequently the value of the Futures Linked Note will be adversely impacted.

Accordingly potential investors in Futures Linked Notes should be aware that, depending upon the terms of the Futures Linked Notes, (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial part of their investment.

Additional Risk Factors for Credit Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon whether certain events (“**Credit Events**”) have occurred in respect of one or more Reference Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities or where, if such events have occurred, on redemption the Issuer's obligation is to deliver certain specified assets.

Prospective investors in any such Notes should be aware that depending on the terms of the Credit Linked Notes (“**CLNs**”) (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

The market price of such Notes may be volatile and will be affected by, amongst other things, the time remaining to the redemption date and the creditworthiness of the Reference Entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

Where the Notes provide for physical delivery, the Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the Issuer and/or any affiliate has not received under the terms of any transaction entered into by the Issuer and/or such affiliate to hedge the Issuer's obligations in respect of the Notes. Any such determination may delay settlement in respect of the Notes and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Notes and as a result, the amount of principal payable on redemption and/or interest payable on the Notes. Prospective investors should review the terms and conditions of the Notes and the applicable Final Terms to ascertain whether and how such provisions should apply to the Notes.

The Issuer's obligations in respect of CLNs are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a Reference Entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

Noteholders are exposed to credit risk on Reference Entities

The holders of CLNs will be exposed to the credit of one or more Reference Entities, which exposure shall be all or a part of their investment in such Notes. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Noteholders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Note is unlikely to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity.

Noteholders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls.

Where cash settlement or auction settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Notes in a reduced principal amount or at zero, and, (if applicable) in a reduction of the amount on which interest is calculated. Where physical settlement applies, the occurrence of a Credit Event may result in the redemption of the Notes based on the valuation (or by delivery) of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value which is substantially less than their par amount.

Investors in the Notes are accordingly exposed, as to both principal and (if applicable) interest, to the credit risk of the Reference Entity. The maximum loss to an investor in the Notes is 100 per cent. of their initial principal investment, together with (if applicable) any interest amounts.

Risks relating to Currency Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Notes are denominated (“**Currency Linked Notes**”). Accordingly an investment in Currency Linked Notes may bear similar market risks to a direct foreign exchange investment and potential investors should take advice accordingly.

Potential investors in any such Notes should be aware that, depending on the terms of the Currency Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time or in a different currency than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macroeconomic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). In recent years, rates of exchange between some currencies have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Note. Fluctuations in exchange rates will affect the value of Currency Linked Notes.

If the amount of principal and/or interest payable are dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified.

The market price of such Notes may be volatile and, if the amount of principal and/or interest payable is dependent upon movements in currency exchange rates, may depend upon the time remaining to the redemption date and the volatility of currency exchange rates. Movements in currency exchange rates may be dependent upon economic, financial and political events in one or more jurisdictions.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that

will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Risks related to the Notes

The trading market for debt securities may be volatile and may be adversely impacted by many events

The market for debt securities issued by issuers is influenced by economic and market conditions and, to varying degrees, market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialised countries. There can be no assurance that events in France, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency (as defined in the Final Terms). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the relevant Specified Currency. These include the risk that exchange rates may vary significantly (for example, due to devaluation of the relevant Specified Currency or revaluation of the Investor's Currency) and the risk that authorities having jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the relevant Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to, *inter alia*, the structure of the relevant issue, the relevant market for the Notes, and other factors (including those discussed above) that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are investments suitable for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase and/or pledge of any Notes. Financial institutions should consult their legal and/or financial advisers and/or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Holder of English Law Notes may not receive definitive Notes in certain circumstances

In relation to any issue of English Law Notes which have a denomination consisting of the minimum Denomination plus higher integral multiples of another smaller amount (as specified in the applicable final terms), it is possible that the Notes may be traded in amounts in excess of the minimum Denomination (or its

equivalent in another currency) that are not integral multiples of the minimum Denomination (or its equivalent in another currency). In such a case a Noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Denomination will not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that it holds an amount equal to one or more Denominations in order to receive definitive Notes.

CONDITIONS RELATING TO THE CONSENT OF THE ISSUER TO THE USE OF THE BASE PROSPECTUS

In the context of any offer of Notes in Luxembourg and Italy (the “**Public Offer Jurisdictions**”) that is not within an exemption from the requirement to publish a prospectus under the Prospectus Directive, as amended, (a “**Public Offer**”), the Issuer consents to the use of the Base Prospectus and the applicable Final Terms (the “**Prospectus**”) in connection with a Public Offer of any Notes during the offer period specified in the applicable Final Terms (the “**Offer Period**”) and in the Public Offer Jurisdiction(s) specified in the applicable Final Terms by:

- (1) subject to conditions set out in the applicable Final Terms, any financial intermediary designated in such Final Terms; or
- (2) if so specified in the applicable Final Terms, any financial intermediary which satisfies the following conditions:
 - (a) acts in accordance with all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the “**Rules**”), from time to time including, without limitation and in each case, Rules relating to both the appropriateness or suitability of any investment in the Notes by any person and disclosure to any potential investor;
 - (b) complies with the restrictions set out under “*Plan of Distribution*” in this Base Prospectus which would apply as if it were a Dealer;
 - (c) ensures that any fee (and any commissions or benefits of any kind) received or paid by that financial intermediary in relation to the offer or sale of the Notes is fully and clearly disclosed to investors or potential investors;
 - (d) holds all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the Notes under the Rules;
 - (e) retains investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the relevant Dealer(s) and the Issuer or directly to the appropriate authorities with jurisdiction over the Issuer and/or the relevant Dealer(s) in order to enable the Issuer and/or the relevant Dealer(s) to comply with anti-money laundering, anti-bribery and “know your client” rules applying to the Issuer and/or the relevant Dealer(s);
 - (f) does not, directly or indirectly, cause the Issuer or the relevant Dealer(s) to breach any Rule or any requirement to obtain or make any filing, authorisation or consent in any jurisdiction; and
 - (g) satisfies any further conditions specified in the applicable Final Terms, (in each case an Authorised Offeror). For the avoidance of doubt, none of the Dealers or the Issuer shall have any obligation to ensure that an Authorised Offeror complies with applicable laws and regulations and shall therefore have no liability in this respect.

The Issuer accepts responsibility, in the Public Offer Jurisdiction(s) specified in the Final Terms, for the content of the Prospectus in relation to any person (an “**Investor**”) in such Public Offer Jurisdiction(s) to whom an offer of any Notes is made by any Authorised Offeror and where the offer is made during the period for which that consent is given. However, neither the Issuer nor any Dealer has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

The consent referred to above relates to Offer Periods (if any) occurring within 12 months from the date of the approval of this Base Prospectus by the CSSF.

In the event the Final Terms designate financial intermediary(ies) to whom the Issuer has given its consent to use the Base Prospectus during an Offer Period, the Issuer may also give consent to additional Authorised Offerors after the date of the applicable Final Terms and, if it does so, it will publish any new information in relation to such Authorised Offerors who are unknown at the time of the approval of this Base Prospectus or the filing of the applicable Final Terms on the Luxembourg Stock Exchange's website at www.bourse.lu.

If the Final Terms specify that any financial intermediary may use the Base Prospectus during the Offer Period, any such Authorised Officer is required, for the duration of the Offer Period, to publish on its website that it is using the Prospectus for the relevant Public Offer with the consent of the Issuer and in accordance with the conditions attached thereto.

Other than as set out above, neither the Issuer nor any of the Dealers has authorised the making of any Public Offer by any person in any circumstances and such person is not permitted to use the Base Prospectus in connection with its offer of any Notes. Any such offers are not made on behalf of the Issuer or by any of the Dealers or Authorised Offerors and none of the Issuer or any of the Dealers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers.

An Investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price allocations and settlement arrangements (the Terms and Conditions of the Public Offer). The Issuer will not be a party to any such arrangements with Investors (other than Dealers) in connection with the offer or sale of the Notes and, accordingly, the Base Prospectus and any Final Terms will not contain such information. The Terms and Conditions of the Public Offer shall be provided to Investors by that Authorised Offeror at the time of the Public Offer. Neither the Issuer nor any of the Dealers or other Authorised Offerors has any responsibility or liability for such information.

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make such offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. Neither the Issuer nor any Dealer represents that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offer. In particular, no action has been taken by the Issuer or any Dealer which would permit a public offering of any Notes outside Luxembourg or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. For a description of certain further restrictions on the offer and sale of Notes in the United States, the European Economic Area (including the United Kingdom, France, the Netherlands and the Republic of Italy), Hong Kong, Japan, Singapore, Taiwan and Switzerland and on the distribution of this Base Prospectus, see "Plan of Distribution".

The Notes are issued pursuant to an amended and restated agency agreement dated 5 September 2013 (as further amended or supplemented as at the date of issue of the Notes (the “**Issue Date**”)), between Natixis (“**Natixis**” or the “**Issuer**”), BNP Paribas Securities Services, Luxembourg Branch as, inter alia, exchange agent and fiscal agent and the other agents named in it (the “**Agency Agreement**” governed by English law in respect of English Law Notes and by French law in respect of French Law Notes) and with the benefit, in the case of English Law Notes, of an amended and restated deed of covenant dated 5 September 2013 (as amended from time to time, the “**Deed of Covenant**”) and executed by the Issuer in relation to the Notes. The fiscal agent, the paying agents, the registrar, the transfer agents, the registration agent and the calculation agent(s) for the time being (if any) are referred to below respectively as the “**Fiscal Agent**”, the “**Exchange Agent**”, the “**Paying Agents**” (which expression shall include the Fiscal Agent), the “**Registrar**”, the “**Transfer Agents**”, the “**Registration Agent**” and the “**Calculation Agent(s)**”.

The Noteholders (as defined below) and, where applicable, the holders of the interest coupons (the “**Coupons**”) appertaining to interest bearing Notes and, where applicable in the case of such Notes, talons (the “**Talons**”) for further Coupons (the “**Couponholders**”) and the holders of the receipts for the payment of instalments of principal (the “**Receipts**”) relating to Notes of which the principal is payable in instalments are deemed to have notice of all of the provisions of the Agency Agreement applicable to them.

Copies of the Agency Agreement and the Deed of Covenant are available for inspection at the specified offices of each of the Paying Agents.

The Issuer may enter into an agreement (an “**Issuing and Paying Agency Agreement**”) with a local issuing and paying agent (the “**Swiss Issuing Agent**”) in Switzerland in connection with the issue of Notes in registered, dematerialised and uncertificated book-entry form (“**Clearing System Registered Notes**”) and in respect of payments to be made in Switzerland, each as specified in the applicable Final Terms.

Swiss Clearing System Registered Notes may be issued under the Programme. Such Notes may be issued and cleared through the Swiss SIX SIS AG, Baslerstrasse 100, 4600 Olten, Switzerland (“**SIS**”) (the “**Swiss Notes**”), which provides for uncertificated and dematerialised book-entry form securities in accordance with the applicable laws of Switzerland, and the rules, regulations and procedures, of such clearing system (the “**Swiss CSD Rules**”).

Swiss Notes will be booked into the giro-system of SIS (the “**Swiss CSD**”) based on an agreement concluded between SIS and the Swiss Issuing and Paying Agent. Pursuant to Condition 1(a)(i) in connection with Condition 17(a)(i) such Swiss Notes and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law. Once registered in the main register of SIS and entered into the accounts of one or more participants of the clearing system, such Swiss Notes will constitute intermediated securities (*Bucheffekten*; “**Intermediated Securities**”) in accordance with article 3 para. 1 of the Swiss Federal Act on Intermediated Securities (“**FISA**”). The creation of a supply of Intermediated Securities is constitutive and replaces the issuance of individual security deeds or a global security deed. SIS may effect changes to the supply of Intermediated Securities (increase/decrease) in accordance with instructions given by the Swiss Issuing and Paying Agent. After the creation of the Intermediated Securities supply, such Intermediated Securities will be transferred upon a Noteholder's instruction of his/her custodian and are then credited to the purchaser's securities account in accordance with articles 24 et seq. FISA and the general terms and conditions of SIS and the further body of rules and regulations pursuant to article 10 of the general terms and conditions of SIS. However, the creation of Intermediated Securities does not affect the rights of Noteholders against the Issuer (article 13 para. 1 FISA) which are governed by English law pursuant to Condition 1(a)(i) in connection with Condition 17(a)(i). The rights arising from the terms of the Swiss Notes exist vis-à-vis the Issuer and may be asserted against the Issuer with the respective supply disclosure statement issued by SIS. No legal claims with respect to Intermediated Securities, irrespective of their booking, may be asserted against SIS.

The applicable Final Terms will specify whether Clearing System Registered Notes are Swiss Notes.

For the purposes of the Terms and Conditions, “**English Law Notes**” means the Notes specified in the applicable Final Terms as being governed by English law and “**French Law Notes**” means the Notes specified in the applicable Final Terms as being governed by French law. In these Conditions, “**Notes**” means those notes which form a single series with these Notes (as referred to in Condition 14(a) herein).

1 Form, Denomination, Title and Redenomination

(a) Form

- (i) English Law Notes are issued in bearer form (“**Bearer Notes**”, which expression includes Notes that are specified to be Exchangeable Bearer Notes), in registered form (“**Registered Notes**”) or in bearer form exchangeable for Registered Notes (“**Exchangeable Bearer Notes**”) or, in the

case of Swiss Notes, in registered, dematerialised and uncertificated book-entry form (“**Clearing System Registered Notes**”), in each case in the specified currency set out in the applicable Final Terms.

No physical document of title will be issued in respect of Clearing System Registered Notes and the provisions in the Conditions relating to presentation, surrender, replacement or similar expressions or provisions of and/or relating to Notes shall be deemed not apply to such Notes. In relation to the Swiss Notes, the Issuer shall be entitled to obtain information in respect of title to the Notes from the Swiss CSD.

Bearer Notes are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached, save in the case of Notes which do not bear interest. Any Bearer Note the nominal amount of which is redeemable in instalments is issued with one or more Receipts attached.

Registered Notes are represented by registered certificates (“**Certificates**”) and, save as provided in Condition 2(c), each Certificate shall represent the entire holding of Registered Notes by the same holder.

(ii) French Law Notes may be issued either in dematerialised form (“**Dematerialised Notes**”) or in materialised form (“**Materialised Notes**”) in the specified currency set out in the applicable Final Terms.

(x) Dematerialised Notes are issued, at the option of the Issuer and as specified in the applicable Final Terms, in either bearer dematerialised form (*au porteur*), which will be inscribed in the books of Euroclear France S.A. (“**Euroclear France**”) (acting as central depository) which shall credit the accounts of Account Holders, or in registered dematerialised form (*au nominatif*) and, in such latter case, at the option of the relevant holder in either administered registered form (*au nominatif administré*) inscribed in the books of an Account Holder designated by the relevant holder of Notes or in fully registered form (*au nominatif pur*) inscribed in an account in the books of Euroclear France maintained by the Registration Agent (designated in the applicable Final Terms) acting on behalf of the Issuer.

For the purpose of these Conditions, “**Account Holder**” means any authorised financial intermediary institution entitled to hold accounts, directly or indirectly, on behalf of its customers with Euroclear France and includes Euroclear Bank S.A./N.V. (“**Euroclear**”) and the depository bank for Clearstream Banking, *société anonyme*, (“**Clearstream, Luxembourg**”).

(y) Materialised Notes are issued in bearer form. Materialised Notes in definitive form are printed on security paper, are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached. Materialised Notes of which the principal is payable in instalment are issued with one or more Receipts attached.

In accordance with Articles L.211-3 and R.211.11 of the French Code monétaire et financier, securities (including the Notes) in materialised form and governed by French law must be issued outside the French territory.

(b) **Denomination**

Notes shall be issued in the Specified Denomination(s) as set out in the applicable Final Terms, save that the minimum Specified Denomination in the case of any listed Notes as provided hereon or, in respect of Dematerialised Notes, in the Final Terms shall be €1,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency at the issue date of those Notes).

All Registered Notes shall have the same Specified Denomination. Where Exchangeable Bearer Notes are issued, the Registered Notes for which they are exchangeable shall have the same Specified Denomination as the lowest denomination of Exchangeable Bearer Notes.

Dematerialised Notes shall be issued in one Specified Denomination only.

All Clearing System Registered Notes shall have the same denomination as specified in the Final Terms (the “**Denomination**”).

(c) **Title**

In respect of English Law Notes, title to the Bearer Notes, Receipts, Coupons and Talons shall pass by delivery. Title to the Registered Notes shall pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the “**Register**”). Registered Notes are represented by registered certificates (“**Certificates**”) and, save as provided in Condition 2(c), each Certificate shall represent the entire holding of Registered Notes by the same holder.

In respect of French Law Notes, (i) title to Dematerialised Notes in bearer dematerialised form (*au porteur*) and in administered registered form (*au nominatif administré*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of Account Holders. Title to Dematerialised Notes in fully registered form (*au nominatif pur*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of the Registration Agent and (ii) title to definitive Materialised Notes and Receipts, Coupons and Talons shall pass by delivery. In addition, title to French Law Notes which are Dematerialised Notes will be evidenced in accordance with Articles L.211-3 and R.211-1 of the French *Code monétaire et financier* by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to Article R.211-7 of the French *Code monétaire et financier*) will be issued in respect of the Dematerialised Notes.

Title to Swiss Notes shall pass by transfer between accountholders at the SIS as evidenced by registration in the register (the “**Swiss Register**”) maintained by the SIS in accordance with Swiss laws, regulations and operating procedures applicable to and/or issued by the SIS from time to time (the “**Swiss CSD Rules**”).

Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note, Receipt, Coupon or Talon shall, to the extent permitted by law, be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it (or, in the case of English Law Notes only, on the Certificate representing it) or its theft or loss (or that of the related Certificate) and no person shall be liable for so treating the holder.

In these Conditions, “**Noteholder**” means (i) in the case of English Law Notes, the bearer of any Bearer Note and the Receipts relating to it or the person in whose name a Registered Note is registered (as the case may be) and (ii) in the case of French Law Notes, (a) in respect of Dematerialised Notes, the person whose name appears in the account of the relevant Account Holder or the Registration Agent (as the case may be) as being entitled to such Notes and (b) in respect of Materialised Notes, the bearer of any definitive Materialised Note and the Receipt, Coupon or Talon relating to it, and,

“**holder**” (in relation to, as the case may be, a Note, Receipt, Coupon or Talon) means (i) in the case of English Law Notes, the bearer of any Bearer Note, Receipt, Coupon or Talon or the person in whose name a Registered Note is registered (as the case may be) and (ii) in the case of French Law Notes, (a) in respect of Dematerialised Notes, the person whose name appears in the account of the relevant Account Holder or the Registration Agent (as the case may be) as being entitled to such Notes and (b) in respect of Materialised Notes, the bearer of any definitive Materialised Note and the Receipt, Coupon or Talon relating to it, and capitalised terms have the meanings given to them hereon or, in respect of Dematerialised Notes, in the Final Terms, the absence of any such meaning indicating that such term is not applicable to the Notes.

(d) **Redenomination**

- (i) The Issuer may (if so specified in the applicable Final Terms), without the consent of the holders of any Note, Receipt, Coupon or Talon, by giving at least 20 days’ notice, in accordance with Condition 15, on or after the date on which the European Member State in whose national currency the Notes are denominated has become a participating Member State in the third stage of the European Economic and Monetary Union (“**EMU**”), as provided in the Treaty establishing the European Community (the “**EC**”), as amended from time to time (the “**Treaty**”) redenominate all, but not some only, of the Notes of any Series into euro and adjust the aggregate nominal amount and the denomination set out in the applicable Final Terms accordingly, as described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the “Redenomination Date”.
- (ii) The redenomination pursuant to Condition 1(d)(i) shall be made:
 - (x) in accordance with regulations and other acts of the European Union and of the relevant national laws and regulations applicable to the redenomination into euro of debt obligations issued in the international capital markets, denominated in the relevant national currency which are held in clearing systems of international standing (“**euromarket debt obligations**”); or
 - (y) if no such laws or regulations are applicable, in such manner as the Issuer may determine in its reasonable discretion and by taking into account the interests of the Noteholders, which is consistent with existing or anticipated market practice for the redenomination into euro of euromarket debt obligations; or
 - (z) if no such determination is made, by
 - (1) converting the nominal amount of each Note into euro by using the fixed relevant national currency euro conversion rate established by the Council of the European Union pursuant to Article 1091(4) of the Treaty and rounding the resultant figure to the nearest cent (with 0.005 euro being rounded upwards); and
 - (2) causing Notes denominated in euro to be substituted for Notes denominated in the relevant national currency; the Notes denominated in euro will be in the denomination of one euro or, as the case may be (after taking into account the interests of Noteholders) a multiple of one euro. Any balance remaining from a redenomination shall be paid by way of cash adjustment rounded to the nearest cent (with 0.005 euro being rounded upwards). Such cash adjustment will be payable in euros on the Redenomination Date.
- (iii) Upon redenomination of the Notes, any reference in these Conditions and the applicable Final Terms to the relevant national currency shall be construed as a reference to euro.

2 Exchanges of Exchangeable Bearer Notes, Transfers of Registered Notes, Conversions and Exchanges of Dematerialised Notes and Materialised Notes

(a) *Exchange of Exchangeable Bearer Notes*

Subject as provided in Condition 2(f), Exchangeable Bearer Notes may be exchanged for the same aggregate nominal amount of Registered Notes at the request in writing of the relevant Noteholder and upon surrender of each Exchangeable Bearer Note to be exchanged, together with all unmatured Receipts, Coupons and Talons relating to it, at the specified office of any Transfer Agent; provided, however, that where an Exchangeable Bearer Note is surrendered for exchange after the Record Date (as defined in Condition 7(b)) for any payment of interest, the Coupon in respect of that payment of interest need not be surrendered with it. Registered Notes may not be exchanged for Bearer Notes. Bearer Notes of one Specified Denomination may not be exchanged for Bearer Notes of another Specified Denomination. Bearer Notes that are not Exchangeable Bearer Notes may not be exchanged for Registered Notes.

(b) *Transfer of Registered Notes*

One or more Registered Notes may be transferred upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the Certificate representing such Registered Notes to be transferred, together with the form of transfer endorsed on such Certificate duly completed and executed and any other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Notes represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor.

(c) *Exercise of Options or Partial Redemption in Respect of Registered Notes*

In the case of an exercise of the Issuer's or Noteholders' option in respect of, or a partial redemption of, a holding of Registered Notes represented by a single Certificate, a new Certificate shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Registered Notes of the same holding having different terms, separate Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent. In the case of a transfer of Registered Notes to a person who is already a holder of Registered Notes, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding. All transfers of Notes and entries on the Register will be made subject to the detailed regulations concerning transfers of Notes scheduled to the Agency Agreement. The regulations may be changed by the Issuer, with the prior written approval of the Registrar and the Noteholders. A copy of the current regulations will be made available by the Registrar to any Noteholder upon request.

(d) *Delivery of New Certificates*

Each new Certificate to be issued pursuant to Conditions 2(a), (b) or (c) shall (subject to compliance with the applicable provisions of Conditions 2(a), (b) or (c)) be available for delivery within three business days of receipt of the request for exchange, form of transfer or Exercise Notice (as defined in Condition 6(f)) and surrender of the Certificate for exchange. relevant Agent the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2(d), “**business day**” means a day, other than a Saturday or Sunday, on which banks are open for business in the place of the specified office of the relevant Transfer Agent or the Registrar.

(e) Exchange Free of Charge

Exchange and transfer of English Law Notes and Certificates on registration, transfer, partial redemption or exercise of an option shall be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Registrar or the relevant Transfer Agent may require in respect thereof).

(f) Closed Periods

No Noteholder may require the transfer of a Registered Note to be registered or an Exchangeable Bearer Note to be exchanged for one or more Registered Note(s) (i) during the period of 15 days ending on the due date for redemption of, or payment of any Instalment Amount in respect of, that Note, (ii) during the period of 15 days before any date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 6(e), (iii) after any such Note has been called for redemption or (iv) during the period of seven days ending on (and including) any Record Date. An Exchangeable Bearer Note called for redemption may, however, be exchanged for one or more Registered Note(s) in respect of which the Certificate is simultaneously surrendered not later than the relevant Record Date.

(g) Dematerialised Notes

- (i) Dematerialised Notes issued in bearer dematerialised form (*au porteur*) may not be converted for Dematerialised Notes in registered dematerialised form, whether in fully registered form (*au nominatif pur*) or in administered registered form (*au nominatif administré*).

- (iii) Dematerialised Notes issued in fully registered form (*au nominatif pur*) may, at the option of the holder of such Notes, be converted into Notes in administered registered form (*au nominatif administré*), and vice versa. The exercise of any such option by such holder shall be made in accordance with Article R.211-4 of the French *Code monétaire et financier*. Any such conversion shall be effected at the cost of such holder.

(h) Materialised Notes

Materialised Notes of one Specified Denomination may not be exchanged for Materialised Notes of another Specified Denomination.

3 Status

The Notes and the Receipts and the Coupons relating to them constitute direct, unconditional, unsubordinated and (subject to the provisions of Condition 4) unsecured obligations of the Issuer and shall at all times rank *pari passu* without any preference among themselves. The payment obligations of the Issuer under the Notes, Receipts and Coupons shall, save for such exceptions as may be provided for by applicable law, and subject to Condition 4, at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations (save for statutorily preferred exceptions) of the Issuer present and future.

4 Negative Pledge

The Issuer undertakes that, so long as any of the Notes, and Receipts or Coupons relating to them remains outstanding (as defined in the Agency Agreement), it will not create or permit to subsist any mortgage, pledge, lien or other form of encumbrance or security interest upon the whole or any part of its undertaking, assets or revenues, present or future, to secure any Relevant Debt (as defined below) or any guarantee of or indemnity by the Issuer in respect of any Relevant Debt, unless at the same time or prior thereto the Issuer's obligations under the Notes, Receipts or Coupons relating to them (A) are secured equally and rateably therewith, or (B) have the benefit of such other security, guarantee, indemnity or other arrangement as shall be approved by (in the case of English Law Notes) an Extraordinary Resolution (as defined in the Agency Agreement) of the Noteholders or (in the case of French Law Notes) approved by a resolution passed by the Noteholders in a General Meeting as defined and in accordance with Condition 11(b).

For the purposes of this Condition 4, "**Relevant Debt**" means present or future indebtedness in the form of, or represented by, notes, debentures, or other securities which are for the time being, or are capable of being, listed or ordinarily dealt in on any stock exchange, over-the-counter market or other securities market.

5 Interest and Other Calculations

(a) *Rate of Interest and Accrual*

Each Note bears interest (if any) on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Specified Interest Payment Date. The amount of interest payable shall be determined in accordance with this Condition 5.

(b) *Business Day Convention*

If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (i) the Floating Rate Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such date shall be brought forward to the immediately preceding Business Day and (B) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment;
- (ii) the Following Business Day Convention, such date shall be postponed to the next day which is a Business Day;
- (iii) the Modified Following Business Day Convention, such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day; or
- (iv) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(c) *Rate of Interest on Fixed Rate Notes*

The Rate of Interest in respect of Fixed Rate Notes shall be specified in the applicable Final Terms and shall be payable on each Specified Interest Payment Date. The Interest Amount shall be equal to the Fixed Coupon Amount.

(d) **Rate of Interest on Floating Rate Notes**

The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined in accordance with the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified in the applicable Final Terms.

(A) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions (as defined below) and under which:

- (x) the Floating Rate Option is as specified in the applicable Final Terms;
- (y) the Designated Maturity is a period specified in the applicable Final Terms; and
- (z) the relevant Reset Date is the first day of that Interest Accrual Period.

For the purposes of this sub-paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent at or about the Relevant Time on the Interest Determination Date in respect of such Interest Accrual Period in accordance with the following provisions:

- (i) if the Primary Source is a Page, subject as provided below, the Rate of Interest shall be:
 - (x) the Relevant Rate (where such Relevant Rate on such Page is a composite quotation or is customarily supplied by one entity); or
 - (y) the arithmetic mean of the Relevant Rates of the persons whose Relevant Rates appear on that Page,
in each case appearing on such Page at the Relevant Time on the Interest Determination Date;
- (ii) if the Page specified in the applicable Final Terms as a Primary Source permanently ceases to quote the Relevant Rate(s) but such quotation(s) is/are available from another page, section or other part of such information service selected by the Calculation Agent (the “**Replacement Page**”), the Replacement Page shall be substituted as the Primary Source for the Rate of Interest and if no Replacement Page exists but such quotation(s) is/are available from a page, section or other part of a different information service selected by the Calculation Agent and approved by the Issuer and the Relevant Dealer (the “**Secondary Replacement Page**”), the Secondary Replacement Page shall be substituted as the Primary Source for the Rate of Interest;
- (iii) if the Primary Source is Reference Banks or if sub- paragraph (i)(x) applies and no Relevant Rate appears on the Page at the Relevant Time on the Interest Determination

Date or if sub-paragraph (i)(y) above applies and fewer than two Relevant Rates appear on the Page at the Relevant Time on the Interest Determination Date, subject as provided below, the Rate of Interest shall be the arithmetic mean of the Relevant Rates which each of the Reference Banks is quoting to leading banks in the Business Centre at the Relevant Time on the Interest Determination Date, as determined by the Calculation Agent;

- (iv) if paragraph (iii) above applies and the Calculation Agent determines that fewer than two Reference Banks are so quoting Relevant Rates then, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) that the Calculation Agent determines to be the rates (being the nearest equivalent to the Benchmark) in respect of a Representative Amount of the Specified Currency that at least two out of five leading banks selected by the Calculation Agent in the principal financial centre of the country of the Specified Currency or, if the relevant currency is euro, the Euro-zone, (the “**Principal Financial Centre**”) are quoting at or about the Relevant Time on the date on which such banks would customarily quote such rates for a period commencing on the Effective Date for a period equivalent to the Specified Duration (x) to leading banks carrying on business in Europe, or (if the Calculation Agent determines that fewer than two of such banks are so quoting to leading banks in Europe) (y) to leading banks carrying on business in the Principal Financial Centre; except that, if fewer than two of such banks are so quoting to leading banks in the Principal Financial Centre, the Rate of Interest shall (unless otherwise specified) be the Rate of Interest determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, or Maximum or Minimum Rate of Interest applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

(e) Rate of Interest on Zero Coupon Notes and Structured Notes

- (i) No amount of interest will accrue or become payable on a Note where the Interest Basis of which is specified to be Zero Coupon provided that, as from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 6(d)(ii)).
- (ii) Payments of interest in respect of Structured Notes will be calculated by reference to such index and/or formula as are set out in the Additional Terms and Conditions of the Notes.

(f) Dual Currency Notes

In the case of Dual Currency Notes (being Notes expressed as such in the applicable Final Terms), if the rate or amount of interest falls to be determined by reference to a Rate of Exchange or a method of calculating the Rate of Exchange, the rate or amount of interest payable shall be determined in accordance with the relevant Additional Terms and Conditions (as appropriate).

(g) Margin, Maximum/Minimum Rates of Interest, Instalment Amounts and Redemption Amounts, and Rounding

- (i) If any Margin is specified in the applicable Final Terms (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rate of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with (iii) below by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin, subject always to the next paragraph.

- (ii) If any Maximum or Minimum Rate of Interest, Instalment Amount or Redemption Amount is specified in the applicable Final Terms, then any Rate of Interest, Instalment Amount or Redemption Amount shall be subject to such maximum and/or minimum, as the case may be.
- (iii) For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures will be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of Yen, which shall be rounded down to the nearest Yen. For these purposes “unit” means, with respect to any currency, the lowest amount of such currency which is available as legal tender in the country or countries of such currency and with respect to the euro, means 0.01 euro.

The above provisions relating to a Margin or a Maximum or Minimum Rate of Interest shall not apply to Structured Notes where similar or equivalent provisions are already included in the relevant formula set out in the Additional Terms and Conditions applicable to such Structured Notes.

(h) *Calculations*

Subject to Condition 5(e) and Condition 6(d) in relation to Zero Coupon Notes, the amount of interest payable (per Calculation Amount in respect of English Law Notes or per the outstanding nominal amount of the Note in respect of French Law Notes) in respect of any Note for any Interest Accrual Period shall be equal to the product of the Rate of Interest, the Calculation Amount (in respect of English Law Notes) or the outstanding nominal amount of such Note (in respect of French Law Notes) specified in the applicable Final Terms, and the Day Count Fraction for such Interest Accrual Period, unless an Interest Amount (or a formula for its calculation) is applicable to such Interest Accrual Period, in which case the amount of interest payable per Calculation Amount (in respect of English Law Notes) or outstanding nominal amount of such Note (in respect of French Law Notes) in respect of such Note for such Interest Accrual Period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the Interest Amounts payable in respect of such Interest Period shall be the sum of the amounts of interest payable per Calculation Amount (in respect of English Law Notes) or outstanding nominal amount of such Note (in respect of French Law Notes) in respect of each of those Interest Accrual Periods. In respect of any other period for which interest is required to be calculated, the provisions above shall apply save that the Day Count Fraction shall be for the period for which interest is required to be calculated.

(i) *Determination and Publication of Rates of Interest, Interest Amounts, Redemption Amounts and Instalment Amounts*

No Note or Certificate so deposited or transferred and option exercised may be withdrawn (except as provided in the Agency Agreement) without the prior consent of the Issuer.

(g) *Unmatured Coupons and Receipts and unexchanged Talons*

for Shares traded on any Japanese Exchange:

- (A) in respect of any Automatic Early Redemption Valuation Date, the last traded price per Share of the day quoted by the Exchange on such Automatic Early Redemption Valuation Date, provided however, that if there is a closing special quote per Share quoted by the Exchange (*tokubetsu kehaine*), such quote shall be deemed to be the relevant Share Price; OR
- (B) in respect of the Automatic Early Redemption Averaging Dates relating to an Automatic Early Redemption Observation Period, the arithmetic average as determined by the Calculation Agent (rounded to the nearest unit of the Specified Currency in which the Share is valued (with halves being rounded up)) of the Specified Prices of such Share on each such Automatic Early Redemption Averaging Dates.

(B) *Consequences of the occurrence of an Automatic Early Redemption Event*

If “**Automatic Early Redemption Event**” is specified as applicable in the Final Terms, then unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date and the Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount equal to the relevant Automatic Early Redemption Amount.

“**Automatic Early Redemption Amount**” means (a) an amount in the Specified Currency or if such amount is not specified, (b) the product of (i) the Calculation Amount (in respect of English Law Notes) or the outstanding nominal amount of each Note (in respect of French Law Notes) and (ii) the relevant Automatic Early Redemption Rate relating to that Automatic Early Redemption Date.”

(C) *Consequences of Disrupted Days*

(1) Automatic Early Redemption Valuation Date

If any Automatic Early Redemption Valuation Date is a Disrupted Day, then this Automatic Early Redemption Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the Specific Number of Scheduled Trading Days immediately following the relevant Scheduled Automatic Early Redemption Valuation Date is a Disrupted Day.

In that case, (i) the relevant Ultimate Automatic Early Redemption Valuation Date shall be deemed to be that Automatic Early Redemption Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the relevant Share Price shall be the Calculation Agent’s good faith estimate of the value for the Share as of the Valuation Time on that Ultimate Automatic Early Redemption Valuation Date.

If the first succeeding Automatic Early Redemption Valid Date has not occurred as of the Valuation Time on the Ultimate Automatic Early Redemption Averaging Date, then (1) the Ultimate Automatic Early Redemption Averaging Date shall be deemed to be that Automatic Early Redemption Averaging Date (irrespective of whether the Ultimate Automatic Early Redemption Averaging Date is already an Automatic Early Redemption Averaging Date), and (2) the Specified Price in respect of that Automatic Early Redemption Averaging Date shall be the Calculation Agent’s good faith estimate of the value for the Share as of the Valuation Time on the Ultimate Automatic Early Redemption Averaging Date.

“**Ultimate Automatic Early Redemption Averaging Date**” means, in respect of any Automatic Early Redemption Observation Period, the Scheduled Trading Day which is the last of the Specific Number of Scheduled Trading Days immediately following the original date that, but for the occurrence of another Automatic Early Redemption Averaging Date or Disrupted Day, would have been the final Automatic Early Redemption Averaging Date relating to this Automatic Early Redemption Observation Period.

(f) **Particular Provisions**

(A) **Potential Adjustment Events**

(1) **Definitions**

“**Potential Adjustment Event**” means, with respect to any Company and/or any Share, any of the following as determined by the Calculation Agent:

- (ii) a distribution, issue or dividend to existing holders of relevant Shares of (A) such Shares, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Shares, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- (iii) a dividend which the Calculation Agent determines, in its sole discretion and acting in good faith and in a commercially reasonable manner, should (in whole or part) be characterised as an extraordinary dividend;
- (iv) a call by the Company in respect of Shares that are not fully paid;
- (v) repurchase by the Company or any of its subsidiaries of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) in respect of the Company, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- (vii) any other similar event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

(2) Consequences

- (i) If a Potential Adjustment Event occurs from, and including, the Issue Date to, and including, the latest of the last Valuation Date, the last Averaging Date, the last Knock-in Determination Day or the last Knock-out Determination Day, the Calculation Agent will promptly determine, in its sole and absolute discretion, whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of that Share and, if so, will:
 - (a) make such adjustment(s), if any, to any one or more of the Barrier Price and/or the Trigger Price and/or the Initial Price and/or the Knock-in Price and/or the Knock-out Price and/or the Automatic Early Redemption Price and/or (if Redemption by Physical Delivery) the Relevant Number of Shares and/or any of the other relevant terms of the Notes that the Calculation Agent determines, in its sole and absolute discretion, to be appropriate to account for that diluting or concentrative effect; and
 - (b) determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s).

The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on such Share traded on such options exchange.

- (ii) The Calculation Agent shall not be required to make an adjustment to the terms of the Notes if it determines (with reference as the case may be to the adjustment method of the Related Exchange on which options on the Shares are traded) that the theoretical change in value of any Share resulting from the occurrence of one or more events listed in the provisions hereof above is less than or equal to one per cent. of the value of that property immediately before the occurrence of that event or those events.
- (iii) No adjustments to the property comprised within any Share will be required other than those specified above. However, the Issuer may cause the Calculation Agent to make additional adjustments to the property comprised within any Share to reflect changes occurring in relation to such property in other circumstances where the Issuer determines, in its sole and absolute discretion, that such changes are appropriate.

(B) *Correction of Share Price*

In the event that any price published on the Exchange and which is utilised by the Calculation Agent for any determination (the “**Original Determination**”) is subsequently corrected and the correction (the “**Corrected Value**”) is published by the relevant Exchange within one relevant Settlement Cycle after the original publication, then the Calculation Agent will notify the Issuer of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the “**Replacement Determination**”) using the Corrected Value.

If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary, the Calculation Agent may adjust any relevant terms accordingly.

“**Minimum Percentage**” means 10 per cent. or the percentage specified as such in the applicable Final Terms.

- (ii) to require the Calculation Agent (a) to make such adjustment(s) to the redemption, payment or any other terms of the Notes as the Calculation Agent, in its sole and absolute discretion, considers to be appropriate to account for the economic effect on the Notes of such Merger Event or Tender Offer (including, without limitation, (A) the replacement of the Share by the number of New Shares and/or the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of a Share would be entitled upon consummation of the Merger Event or the Tender Offer and/or (B) the adjustment to the Barrier Price and/or the Trigger Price and/or the Initial Price and/or the Knock-in Price and/or the Knock-out Price and/or the Automatic Early Redemption Price and/or (if Redemption by Physical Delivery) the Relevant Number of Shares and/or any of the other relevant terms of the Notes that the Calculation Agent determines, in its sole and absolute discretion, to be appropriate to account for such replacement) and (b) to determine, in its sole and absolute discretion, the effective date of such adjustment(s).

If a holder of Shares could make an election as between different components of the New Shares and/or Other Consideration, the Calculation Agent shall make, in its sole and absolute discretion, such election for the purposes of this sub-paragraph (ii).

In the case of Combined Consideration, the Calculation Agent may, in its sole and absolute discretion, determine that the Share shall be replaced by the number of New Shares equal to the sum of (a) the number of New Shares, which originally formed part of the Combined Consideration together with (b) the number of additional New Shares that could be purchased using the value on the Merger Date or, as the case may be, the Tender Offer Date of the Other Consideration.

In the event that the consideration for the Share consists of more than any one type of share or security, the Calculation Agent may determine, in its sole and absolute discretion, that the Share will be comprised of some but not all of such considerations (the “**Retained Consideration**”), and that the balance of the

consideration shall not be so retained for purposes of comprising the Share (the “**Non Retained Consideration**”); provided, however, that an adjustment shall be made to the Retained Consideration comprising the Share so as to take into account the value of the Non Retained Consideration. The foregoing adjustment shall be made with reference to the values of the Retained Consideration and Non Retained Consideration in accordance with the quotations (if any) of the Retained Consideration and the Non Retained Consideration, respectively, made on the first Exchange Business Day following the Merger Date or, as the case may be, the Tender Offer Date and otherwise as the Calculation Agent may reasonably determine;

OR (but not and)

The Issuer’s obligations under the Notes shall be satisfied in full upon payment of such amount. In such event, the Issuer shall promptly notify the Paying Agent and the Noteholders in accordance with Condition 15 that it has elected to redeem the Notes (such notice stating the Early Redemption Date and the applicable Early Redemption Amount).

“**Delivery Agent**” means Natixis or such other agent as may be appointed by the Issuer, as specified in the applicable Final Terms, which term shall include any successor or any agent acting on behalf thereof, as the case may be. The Delivery Agent will act solely as agent of the Issuer and will not assume any obligations to, or relationship of agency or trust for or with, the Noteholders. The Issuer reserves the right at any time to vary or terminate the appointment of the Delivery Agent and to appoint or not another Delivery Agent.

“**Disruption Cash Settlement Price**” means, in respect of any Note, an amount in the Specified Currency equal to the fair market value of a Note less (i) the Residual Cash Amount and (ii) the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent, in its sole and absolute discretion.

“**Euroclear**” means Euroclear S.A./N.V. (or any successor thereof).

“**Integral Number of Shares**” means, in respect of each Note, an integral number of Shares equal to the Relevant Number of Shares rounded downwards to the nearest integral number; except if “Notes to be aggregated for the purposes of determining the number of Shares to be delivered” is specified as applicable in the applicable Final Terms, in which case “Integral Number of Shares” shall be deemed not applicable. For the avoidance of doubt the Integral Number of Shares as of the Issue Date is specified in the applicable Final Terms.

“**Relevant Number of Shares**” means, in respect of each Note, a number of Shares equal to (i) the denomination of each Note multiplied by the Prevailing Exchange Rate (if any) divided by (ii) the Initial Price, subject to the Physical Delivery Rounding Convention and to adjustment from time to time in accordance with the provisions as set out in Condition 18(f) (*Particular Provisions*) above. For the avoidance of doubt, the Residual Number of Shares as of the Issue Date is specified in the applicable Final Terms.

“Settlement Date” means the Maturity Date. If a Settlement Disruption Event does prevent delivery on that day, then the Settlement Date will be the first succeeding day on which delivery of the Integral Number of Shares can take place through the relevant Clearance System unless a Settlement Disruption Event prevents settlement on each of the five Clearance System Business Days immediately following the original date that, but for the Settlement Disruption Event, would have been the Settlement Date. In that case, (a) if the Integral Number of Shares can be delivered in any other commercially reasonable manner, as determined by the Calculation Agent in its sole discretion, then the Settlement Date will be the first day on which settlement of a sale of the Integral Number of Shares executed on that fifth Clearance System Business Day customarily would take place using such other commercially reasonable manner of delivery (which other manner of delivery will be deemed to be the relevant Clearance System for the purposes of delivery of the relevant Integral Number of Shares), and (b) if the Integral Number of Shares cannot be delivered in any other commercially reasonable manner, as determined by the Calculation Agent in its sole discretion, then in lieu of physical settlement the Issuer may satisfy its obligations in respect of each of the relevant Notes by payment to the Noteholders of the Disruption Cash Settlement Price on the third Business Day following such fifth Clearance System Business Day. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the shares or securities comprised in the Relevant Number of Shares, the Settlement Date for shares or securities not affected by the Settlement Disruption Event will be the Maturity Date. In the event that a Settlement Disruption Event will result in the delivery on the Settlement Date of some but not all of the shares or securities comprised in the Relevant Number of Shares, the Calculation Agent shall determine in its sole discretion the appropriate pro rata portion of the Disruption Cash Settlement Price which the Issuer, to satisfy its obligations in respect of each of the relevant Notes to the extent the Issuer has not already done so by delivery of shares or securities comprised in the Relevant Number of Shares, will pay to the Noteholders on the third Business Day following the fifth Clearance System Business Day.

“Settlement Disruption Event” means an event beyond the control of the Issuer or the Delivery Agent as a result of which (i) Euroclear or Clearstream, Luxembourg, as the case may be, or the Share Clearance System cannot clear the transfer of the Shares or (ii) Euroclear or Clearstream, Luxembourg, as the case may be, or the Share Clearance System ceases to clear all or any of such Shares.

Without prejudice to the preceding sentence and clause (iv) below, in the event that Euroclear and/or Clearstream, Luxembourg do not receive a Delivery Notice from a Noteholder on or before the tenth Business Day following the Maturity Date, the Issuer shall be entitled (but not obliged) to pay to such Noteholder, as soon as reasonably practicable on or following such date an amount, determined by the Calculation Agent in its sole and absolute discretion and notified to the Issuer, the Paying Agent, Euroclear and/or Clearstream, Luxembourg, as the case may be, (to be communicated by them to the relevant Noteholders) in writing promptly following such determination, equal to the fair market value of such Integral Number of Shares and/or the Residual Cash Amount at the date determined in good faith by the Issuer, in full satisfaction of its obligations under such Notes.
- (iii) A Delivery Notice once delivered to Euroclear or Clearstream, Luxembourg, as the case may be, shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Noteholder may not transfer any Note that is the subject of a Delivery Notice following delivery of such Delivery Notice to Euroclear or Clearstream, Luxembourg, as the case may be.
- (iv) A Delivery Notice shall only be valid to the extent that Euroclear and/or Clearstream, Luxembourg, as the case may be, have not received conflicting prior instructions in respect of the Notes that are the subject of the Delivery Notice. Any determination as to whether such notice has been properly provided shall be made by Euroclear and/or Clearstream, Luxembourg, as the case may be, after

consultation with the Issuer and shall be conclusive and binding on the Issuer and the relevant Noteholder. If a Delivery Notice has not been provided properly and timely, the Issuer or the Delivery Agent shall not be obliged to make any payment or delivery in respect of the Notes which are the subject of the Delivery Notice.

- (v) Receipt by Euroclear and/or Clearstream, Luxembourg, as the case may be, of a valid Delivery Notice shall be deemed to constitute (i) written confirmation of an irrevocable election and undertaking by the relevant Noteholder to select the account at Euroclear or Clearstream, Luxembourg or the Share Clearance System specified therein and (ii) an undertaking by the relevant Noteholder to pay any costs, applicable value added or sales taxes, transfer taxes, stamp duties and other taxes and duties due by reason of delivery of the Integral Number of Shares to the account at Euroclear or Clearstream, Luxembourg or the Share Clearance System or to reimburse Euroclear or Clearstream, Luxembourg, as the case may be, or the Share Clearance System in respect of any such costs, taxes or duties.

- (viii) The nominal amount of a number of Notes delivered by the same Noteholder for redemption shall not be aggregated for the purpose of determining the number of Shares to be delivered in respect of such Notes. However if the paragraph “Notes to be aggregated for the purposes of determining the number of Shares to be delivered” is specified as applicable in the applicable Final Terms, then the Notes delivered by the same Noteholder for exchange shall be aggregated for the purpose of determining the number of Shares to be delivered in respect of such Notes. In such case, the Shares deliverable to a Noteholder in respect of the Notes held by it will be a whole number of Shares provided that where the number of Shares which would otherwise be deliverable hereunder includes a fraction of such Shares, the number of such Shares shall be rounded downwards to the nearest integral number and the cash equivalent of such fraction (the “**Additional Cash Amount**”) will be paid to this Noteholder. The Additional Cash Amount shall be an amount in the Specified Currency equal to the product of (i) the above mentioned fraction and (ii) the Exchange traded price of the Share as of the close of trading on the Exchange on the date specified in the applicable Final Terms or, if such price is not available in the sole opinion of the Calculation Agent on such date, the price determined by the Calculation Agent in its sole and absolute discretion.
- (ix) Delivery of any Shares is subject to all applicable laws, regulations and practices and neither the Issuer nor the Delivery Agent shall incur liability whatsoever if it is unable to

deliver or procure the delivery of the Shares to the Noteholder because of any such laws, regulations or practices. Neither the Issuer nor the Delivery Agent shall under any circumstances be liable for any acts or defaults of Euroclear and/or Clearstream, Luxembourg, as may be applicable, and/or the Share Clearance System in relation to the performance of the duties in relation to the Notes, including but not limited to the delivery of the Shares to the Noteholder.

“**Hedge Positions**” means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) in order to hedge, individually or on a portfolio basis, the risk of entering into and performing the Issuer’s obligations with respect to the Notes.

If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it considers it to be necessary, the Calculation Agent may, in its sole and absolute discretion, adjust any relevant terms hereof accordingly.

For the avoidance of doubt, Noteholders shall not be entitled to make any claim against the Issuer or the Calculation Agent in the case where any Original Determination is not subsequently corrected and/or the correction of the Original Determination is announced by the Index Sponsor after the second Scheduled Trading Day immediately preceding the payment date of the amount due and payable under the Notes which is linked to that Original Determination.

- (v) The Calculation Agent shall as soon as practicable provide detailed notice of any determinations and/or adjustments, as the case may be, made and notified to the Issuer by the Calculation Agent pursuant to paragraphs (i), (ii), (iii) or (iv) of this Condition 19(f) (*Particular Provisions*), whereupon the Issuer shall promptly provide detailed notice to the Fiscal Agent and to the Noteholders in accordance with the Conditions of such determinations and/or adjustments made and notified by the Calculation Agent.

- (ii) the Monetisation Formula.

(f) **Particular Provisions**

(A) **Potential Adjustment Events**

(1) **Definitions**

“**Potential Adjustment Event**” means, with respect to any Company and/or any Share, any of the following as determined by the Calculation Agent:

- (i) a subdivision, consolidation or reclassification of Shares (unless resulting in a Merger Event), or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of relevant Shares of (A) such Shares, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Shares, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- (iii) a dividend which the Calculation Agent determines, in its sole discretion and acting in good faith and in a commercially reasonable manner, should (in whole or part) be characterised as an extraordinary dividend;
- (iv) a call by the Company in respect of Shares that are not fully paid;
- (v) a repurchase by the Company or any of its subsidiaries of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) in respect of the Company, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- (vii) any other similar event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

(2) Consequences

- (i) If, in respect of any Share, a Potential Adjustment Event occurs from, and including, the Issue Date to, and including, the latest of the last Valuation Date, the last Averaging Date, the last Knock-in Determination Day or the last Knock-out Determination Day, the Calculation Agent will promptly determine, in its sole and absolute discretion, whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of that Share and, if so, will:
 - (a) make such adjustment(s), if any, to any one or more of the Barrier Price and/or the Trigger Price and/or the Initial Price and/or the Knock-in Price and/or the Knock-out Price and/or the Automatic Early Redemption Price and/or the meight and/or (if Redemption by Physical Delivery) the Relevant Number of Shares and/or any of the other relevant terms of the Notes that the Calculation Agent determines, in its sole and absolute discretion, to be appropriate to account for that diluting or concentrative effect; and
 - (b) determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s).

The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on such Share traded on such options exchange.

- (ii) The Calculation Agent shall not be required to make an adjustment to the terms of the Notes if it determines (with reference as the case may be to the adjustment method of the Related Exchange on which options on this Share are traded) that the theoretical change in value of any Share resulting from the occurrence of one or more events listed in the provisions hereof above is less than or equal to one per cent. of the value of that property immediately before the occurrence of that event or those events.
- (iii) No adjustments to the property comprised within any Share will be required other than those specified above. However, the Issuer may cause the Calculation Agent to make additional adjustments to the property comprised within any Share to reflect changes occurring in relation to such property in other circumstances where the Issuer determines, in its sole and absolute discretion, that such changes are appropriate.

(B) *Correction of Share Price*

In the event that, in respect of any Share, any price published on the Exchange and which is utilised by the Calculation Agent for any determination (the “**Original Determination**”) is subsequently corrected and the correction (the “**Corrected Value**”) is published by the relevant Exchange within one relevant Settlement Cycle after the original publication, then the Calculation Agent will notify the Issuer of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the “**Replacement Determination**”) using the Corrected Value.

If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary, the Calculation Agent may adjust any relevant terms of the Notes accordingly.

“**Minimum Percentage**” means 10 per cent. or the percentage specified as such in the applicable Final Terms.

“**New Shares**” means, in respect of any Share, ordinary or common shares, whether of the entity or person (other than the relevant Company) involved in the Merger Event or the making of the Tender Offer or a third party), that are, or that as of the Merger Date or Tender Offer Date are promptly scheduled to be, (i) publicly quoted, traded or listed on an exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in any member state of the European Union) and (ii) not subject to any currency exchange controls, trading restrictions or other trading limitations.

“**Other Consideration**” means, in respect of any Share, cash and/or any securities (other than New Shares) or assets (whether of the entity or person (other than the relevant Company) involved in the Merger Event or the making of the Tender Offer or a third party).

“**Other Consideration Ratio**” means either (i) if the Other Consideration is quoted on an exchange on the Merger Date, the closing price of that Other Consideration on the relevant exchange on the Merger Date or (ii) if such Other Consideration is not quoted on an exchange on such date, the Calculation Agent’s good faith estimate of the value at which such Other Consideration could be sold to a willing buyer in an arm’s length transaction on the Merger Date, in both cases expressed in terms of the number of New Shares that a holder of an Affected Share is entitled to receive on the Merger Date.

“**Share Differential**” means, in respect of any Share, a number equal to the price of this Share as of the relevant Valuation Time on the relevant Exchange on the relevant Merger Date or, as the case may be, Tender Offer Date (or if such price is not available, the Calculation Agent’s good faith estimate of the value of such Share as of the relevant Valuation Time on such date) divided by the relevant Initial Price in respect of such Share.

“**Tender Offer**” means, in respect of any Share, a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than the Minimum Percentage and less than 100 per cent. of the outstanding voting shares of the relevant Company, as determined by the Calculation Agent, acting in its sole and absolute discretion, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

“**Tender Offer Date**” means, in respect of a Tender Offer, the date on which voting shares in the amount of the applicable percentage threshold are actually purchased or otherwise obtained (as determined by the Calculation Agent).

(2) Consequences

If the Calculation Agent determines, in its sole and absolute discretion, that a Merger Event or a Tender Offer, has occurred in respect of any Share at any time from, and including, the Issue Date to, and including, the latest of the last Valuation Date, the last Averaging Date, the last Knock-in Determination Day or the last Knock-out Determination Day, it shall forthwith notify the Issuer of the occurrence of such event and the relevant Merger Date or, as the case may be, Tender Offer Date and the Issuer may elect, in its sole and absolute discretion, on or after the Merger Date or, as the case may be, the Tender Offer Date:

- (A) If Separate Valuation is specified as applicable in the applicable Final Terms:
- (a) if the Calculation Agent determines that the New Share Conditions are satisfied as of the Merger Date or, as the case may be, the Tender Offer Date, then the New Shares and the company issuing those New Shares will be deemed to be that Share and that Company respectively, the Calculation Agent shall be entitled to adjust accordingly any relevant terms of the Notes to account for the economic effect on the Notes of such Merger Event and to reflect the number of New Shares to which a holder of one such Affected Share is entitled in exchange for the Affected Share, provided that such adjustment shall only apply after the Merger Date;

OR

- (b) if the Calculation Agent determines that the New Share Conditions are not satisfied as of the Merger Date or, as the case may be, the Tender Offer Date, the Affected Share shall be replaced by a Substitute Share in accordance with the provisions set forth in Condition 20(f)(E) (*Substitution*) below.

In respect of any Merger Event or Tender Offer, to the extent that a holder of an Affected Share could elect to receive New Shares or Other Consideration, the Calculation Agent will, for the purposes of making any calculation in respect of the Notes, be deemed to elect to receive New Shares.

OR (but not and)

- (B) if Separate Valuation is specified as not applicable in the applicable Final Terms:
- (a) in the case where the Share continues to be listed and traded on the Exchange, to retain such Share in the Basket, subject to any adjustments to the terms of the Notes as the Calculation Agent determines appropriate, in its sole and absolute discretion;

OR (but not and)

- (b) to require the Calculation Agent (a) to make such adjustment(s) to the redemption, payment or any other terms of the Notes as the Calculation Agent, in its sole and absolute discretion, considers to be appropriate to account for the economic effect on the Notes of such Merger Event or Tender Offer (including, without limitation, (A) the replacement of the Share by the number of New Shares and/or the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of a Share would be entitled upon consummation of the Merger Event or the Tender Offer and/or (B) the adjustment to any relevant terms of the Notes that the Calculation Agent determines, in its sole and absolute discretion, to be appropriate to account for such replacement) and (b) to determine, in its sole and absolute discretion, the effective date of such adjustment(s).

If a holder of Shares could make an election as between different components of the New Shares and/or Other Consideration, the Calculation Agent shall make, in its sole and absolute discretion, such election for the purposes of this sub-paragraph (i) item (b).

If Separate Valuation is specified as not applicable in the applicable Final Terms and in the case of Combined Consideration, the Calculation Agent may, in its sole and absolute discretion, determine that the Share shall be replaced by the number of New Shares equal to the sum of (a) the number of New Shares, which originally formed part of the Combined Consideration together with (b) the number of additional New Shares that could be purchased using the value on the Merger Date or, as the case may be, the Tender Offer Date of the Other Consideration.

If Separate Valuation is specified as not applicable in the applicable Final Terms and in the event that the consideration for the Share consists of more than any one type of share or security, the Calculation Agent may determine, in its sole and absolute discretion, that the Share will be comprised of some but not all of such consideration (the “**Retained Consideration**”), and that the balance of the consideration shall not be so retained for purposes of comprising the Share (the “**Non Retained Consideration**”); provided, however, that an adjustment shall be made to the Retained Consideration comprising the Share so as to take into account the value of the Non Retained Consideration. The foregoing adjustment shall be made with reference to the values of the Retained Consideration and Non Retained Consideration in accordance with the quotations (if any) of the Retained Consideration and the Non Retained Consideration, respectively, made on the first Exchange Business Day following the Merger Date or, as the case may be, the Tender Offer Date and otherwise as the Calculation Agent may reasonably determine.

OR (but not and)

- (C) if Monetisation is specified as applicable in the applicable Final Terms, to apply the Monetisation provisions set forth in paragraph 20(f)(F) below;

OR (but not and)

- (D) whether Separate Valuation is applicable or not, to redeem all (but not some only) of the Notes on the tenth Business Day after Merger Date or, as the case may be, the Tender Offer Date (such date being an “**Early Redemption Date**”) by paying the Early Redemption Amount determined, in its sole and absolute discretion, by the Calculation Agent on the Merger Date or, as the case may be, the Tender Offer Date. The Issuer’s obligations under the Notes shall be satisfied in full upon payment of such amount. In such event, the Issuer shall promptly notify the Paying Agent and the Noteholders in accordance with Condition 15 that it has elected to redeem the Notes (such notice stating the Early Redemption Date and the applicable Early Redemption Amount). The Calculation Agent shall not be required to make an adjustment to the terms of the Notes if it determines (with reference as the case may be to the adjustment method of the Related Exchange on which options on this Share are traded) that the theoretical change in value of any Share resulting from the occurrence of one or more events listed in the provisions hereof above is less than or equal to one per cent. (or otherwise specified in the applicable Final Terms) of the value of that property immediately before the occurrence of that event or those events.

No adjustments to the property comprised within any Share will be required other than those specified above. However, the Issuer may cause the Calculation Agent

to make additional adjustments to the property comprised within any Share to reflect changes occurring in relation to such property in other circumstances where the Issuer determines, in its sole and absolute discretion, that such changes are appropriate.

(2) Consequences

If the Calculation Agent determines, in its sole and absolute discretion, that an Additional Adjustment Event has occurred in respect of any Share and/or any Company

from, and including, the Issue Date to, and including, the latest of the last Valuation Date, the last Averaging Date, the last Knock-in Determination Day or the last Knock-out Determination Day, it shall forthwith notify the Issuer of such event and the Issuer may elect, in its sole and absolute discretion, either:

- (i) if Separate Valuation is specified as applicable in the applicable Final Terms, to require the Calculation Agent to determine its good faith estimate of the value of such Share (the “**Share Value**”) which may be, for the avoidance of doubt, equal to zero, provided that the Calculation Agent may (but is not obliged to) decide that the Share Value shall be deemed to be the Other Consideration and reinvested in a Substitute Share in accordance with the provisions set forth in Condition 20(f)(E) (*Substitution*) below;

OR (but not and)

- (ii) if Separate Valuation is specified as not applicable in the applicable Final Terms, to require the Calculation Agent to make such adjustment(s) to the redemption, settlement, payment or any other terms of the Notes (including, without limitation, the good faith estimate by the Calculation Agent of the value of the Share before the effective date of such event) as it, in its sole and absolute discretion, considers to be appropriate, and determine, in its sole and absolute discretion, the effective date of such adjustment(s);

OR (but not and)

- (iii) if Monetisation is specified as applicable in the applicable Final Terms, apply the Monetisation provisions set forth in paragraph 20(f)(F) below;

OR (but not and)

- (iv) to redeem all (but not some only) of the Notes on the tenth Business Day (such date being an “**Early Redemption Date**”) following the day (or, if such day is not a Business Day, the first Business Day following the day) on which the Issuer receives notice from the Calculation Agent that such Additional Adjustment Event has occurred (such day being a “**Notification Date**”). The Notes shall be redeemed on the Early Redemption Date at the Early Redemption Amount determined, in its sole and absolute discretion, by the Calculation Agent as of the Notification Date. The Issuer’s obligations under the Notes shall be satisfied in full upon payment of such amount. The Issuer shall promptly notify the Paying Agent and the Noteholders in accordance with Condition 15 that it has elected to redeem the Notes (such notice stating the Early Redemption Date and the applicable Early Redemption Amount).

(E) *Substitution*

(1) Definitions

“**Market Value**” means an amount determined by the Calculation Agent to be respectively:

- (i) in respect of the Substitute Share (the “**Market Value of the Substitute Share**”), the closing price per Substitute Share on the relevant exchange on the Substitution Date,

- (ii) in respect of the Substitute Consideration (the “**Market Value of the Substitute Consideration**”):
 - (a) If such Substitute Consideration is quoted on an exchange on the Substitution Date, the closing price per Substitute Consideration on the relevant exchange on the Substitution Date, and/or
 - (b) If such Substitute Consideration is not quoted on an exchange on the Substitution Date, the Calculation Agent’s good faith estimate of the value at which the Substitute Consideration could be sold to a willing buyer in an arm’s length transaction on the Substitution Date.

For the avoidance of doubt, the Market Value of Other Consideration shall be deemed to be expressed as an amount per Affected Share.

“**Substitute Share**” means, in respect of any Affected Share, a share selected by the Calculation Agent to replace that Affected Share which satisfies each of the following criteria:

- (a) it is not already a Share comprised in the Basket (except if such Share is a New Share received as a consequence of a de-merger Event in respect of which the New Share Conditions are satisfied),
- (b) it is a share in respect of which no Share Event would occur immediately upon its substitution for the relevant Affected Share,
- (c) it is listed on a regulated exchange and is traded on an exchange, quotation system or market that the Calculation Agent determines is of comparative size and liquidity relative to the Substitute Share as the Exchange is relative to the Affected Share,
- (d) it is issued to the extent that this is possible by a company located in the same geographical area as the Company relating to the Affected Share,
- (e) it is part, to the extent that this is possible, of the same economic sector as the Company relating to the Affected Share, and
- (f) any Additional Substitute Share Conditions specified in the applicable Final Terms.

(2) Consequences

Upon the occurrence of a Share Event with respect to an Affected Share (other than a Share-for-Combined Merger Event or a Share-for-Combined Tender Offer or a Share-for-Share Merger Event or a Share-for-Share Tender Offer where the New Share Conditions are satisfied):

- (i) the Calculation Agent shall determine the Market Value of the Substitute Consideration and the Market Value of the Substitute Share;

- (ii) the Substitute Share and the company issuing those Substitute Shares will be deemed to be the “Share” and the “Company” respectively with effect on the Substitution Date;
- (iii) the relevant Initial Price will be adjusted by the Calculation Agent by dividing (i) such relevant Initial Price by (ii) an amount equal to (α) the Market Value of the Substitute Consideration divided by (β) the Market Value of the Substitute Share, provided that such adjustment shall only apply after the Substitution Date; and
- (iv) the Calculation Agent shall be entitled to adjust accordingly any of the other relevant terms of the Notes (including, but not limited to, any of the relevant Barrier Price and/or the Trigger Price and/or Knock-in Price and/or Knock-out Price and/or Automatic Early Redemption Price which will be adjusted by the Calculation Agent in accordance with the methodology above defined), provided that such adjustment shall only apply after the Substitution Date.

(F) *Monetisation*

Means, if “Monetisation” is specified as applicable in the applicable Final Terms and the Issuer so elects, that in respect of the Final Redemption Amount, any Fixed Interest Rate, Floating Interest Rate and Structured Note coupon amount, the Issuer shall no longer be liable for the payment, (i) on any Specified Interest Payment Date following the occurrence of a Monetisation Event, of the Fixed Interest Rate, Floating Interest Rate and/or Structured Note coupon amount initially scheduled to be paid on such Specified Interest Payment Date(s) and (ii) on the Maturity Date, of the Final Redemption Amount initially scheduled to be paid on the Maturity Date, but instead will, in full and final satisfaction and discharge of its obligations of payment under the Notes, pay on the Maturity Date an amount per Note as calculated by the Calculation Agent as of the Monetisation Date until the Maturity Date (the “**Monetisation Amount**”) and equal to the product of:

- (i) the fair market value of a Note based on the market conditions prevailing at the Monetisation Date and adjusted to account fully for any reasonable expenses and costs of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps or other instruments of any type whatsoever hedging the Issuer’s obligations under the Notes); and
- (ii) the Monetisation Formula.

In respect of any Fixed Interest Rate Notes and Structured Notes, for the purposes of determining the Monetisation Amount, no accrued unpaid interest shall be payable but shall be taken into account in calculating the fair market value of each Note.

For the purposes of this Condition 20(f)(F):

“**Monetisation Date**” means the date as of which the Monetisation provisions shall be effective, as determined by the Calculation Agent in its sole and absolute discretion and which shall be no earlier than the date of occurrence of the relevant Monetisation Event.

“**Monetisation Event**” means any event specified in Condition 20(f) (*Particular Provisions*) which, in the determination of the Calculation Agent, triggers the Monetisation provisions, as set forth in Condition 20(f) (*Particular Provisions*).

“**Monetisation Formula**” means the formula as specified in the applicable Final Terms.

(G) *Cut-off Date*

(1) Definitions

“**Cut-off Date**” means, in respect of any Valuation Date, the Scheduled Trading Day which is the first of the Cut-off Number of Scheduled Trading Days immediately preceding such Valuation Date.

“**Cut-off Number**” means the number specified as such in the applicable Final Terms or if no number is specified the Specific Number shall be deemed equal to five (5).

(2) Consequences

Notwithstanding the provisions of Condition 20(f)(C) (*Merger Events and Tender Offers*) and Condition 20(f)(D) (*Additional Adjustment Events*), if a Share Event occurs during the period from the relevant Cut-off Date to any Valuation Date (both dates inclusive), the relevant Final Price of the Affected Share shall be the price determined by the Calculation Agent as being its good faith estimate of the fair market value of the Affected Share.

(H) *Miscellaneous*

(i) If more than one of the events set out above occurs, the adjustments (if any) to the terms of the Notes for the second and subsequent events shall be to the terms of the Notes as adjusted for preceding events.

(ii) In the event that a determination is made that the Notes will be settled by Redemption by Physical Delivery and on or after the last Valuation Date or the last Averaging Date or the last Knock-in Determination Day or the last Knock-out Determination Day (but before the Settlement Date) a Potential Adjustment Event, a Merger Event or an Additional Adjustment Event occurs, then the Issuer shall be entitled (but not obliged) upon immediate notice to the Noteholders to (i) delay the Settlement Date to such date that falls five Business Days following such event and (ii) cause the property comprising the Relevant Number of Shares to be thereupon adjusted in accordance with the provisions hereof.

(iii) As soon as reasonably practicable under the circumstances after making any adjustment or modification to the terms of the Notes in accordance with these Conditions, whether in the exercise of its own discretion or at the request of the Issuer, the Calculation Agent will give notice thereof to the Issuer and to the Paying Agent whereupon the Issuer or the Paying Agent shall notify the Noteholders of such adjustment or modification in accordance with Condition 15.

(I) *Redemption by Physical Delivery*

“**Clearance System Business Day**” means any day on which each of Euroclear or Clearstream, Luxembourg, as the case may be, and the Deliverable Share Clearance System is (or, but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions.

“**Clearstream Luxembourg**” means Clearstream Banking, *société anonyme* (or any successor thereof).

“**Deliverable Share**” means the share specified as such in the applicable Final Terms

“**Deliverable Share Clearance System**” means the principal domestic clearance system customarily used for settling trades in the Deliverable Share, as determined by the Calculation Agent.

“**Delivery Agent**” means Natixis or such other agent as may be appointed by the Issuer, as specified in the applicable Final Terms, which term shall include any successor or any agent acting on behalf thereof, as the case may be. The Delivery Agent will act solely as agent of the Issuer and will not assume any obligations to, or relationship of agency or trust for or with, the Noteholders. The Issuer reserves the right at any time to vary or terminate the appointment of the Delivery Agent and to appoint or not another Delivery Agent.

“**Disruption Cash Settlement Price**” means, in respect of any Note, an amount in the Specified Currency equal to the fair market value of a Note less (i) the Residual Cash Amount and (ii) the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent, in its sole and absolute discretion.

“**Euroclear**” means Euroclear S.A./N.V. (or any successor thereof).

“**Integral Number of Deliverable Shares**” means, in respect of each Note, an integral number of Deliverable Shares equal to the Relevant Number of Deliverable Shares rounded downwards to the nearest integral number. For the avoidance of doubt the Integral Number of Deliverable Shares as of the Issue Date is specified in the applicable Final Terms.

“**Physical Delivery Rounding Convention**” means the method specified in the applicable Final Terms or, if such Physical Delivery Rounding Convention is not specified, the figure to be rounded shall be rounded upwards to the nearest third decimal.

“**Prevailing Exchange Rate**” means, in respect of any date specified in the applicable Final Terms, the cross currency rate specified as such in the applicable Final Terms which appears on the page designated in the applicable Final Terms. If such rate does not appear on the page designated in the applicable Final Terms, the Calculation Agent will determine the Prevailing Exchange Rate (or a method for determining the Prevailing Exchange Rate).

“**Relevant Number of Deliverable Shares**” means, in respect of each Note, a number of Deliverable Shares equal to (i) the denomination of each Note multiplied by the Prevailing Exchange Rate (if any) divided by (ii) the Initial Price of the Deliverable Shares, subject to the Physical Delivery Rounding Convention and to adjustment from time to time in accordance with the provisions as set out in Condition 20(f) (*Particular Provisions*) above. For the avoidance of doubt, the Relevant Number of Deliverable Shares as of the Issue Date is specified in the applicable Final Terms.

“**Residual Cash Amount**” means, in respect of each Note, an amount in the Specified Currency equal to the product of (i) the Residual Number of Deliverable Shares and (ii) the Ultimate Final Price of the Deliverable Share divided by the Prevailing Exchange Rate (if any), being specified that the result of such sum shall be rounded to the nearest second decimal and with 0.005 rounded upwards.

“**Residual Number of Deliverable Shares**” means, in respect of each Note, a number of Shares equal to (i) the Relevant Number of Deliverable Shares minus (ii) the Integral

Number of Deliverable Shares. For the avoidance of doubt, the Residual Number of Deliverable Shares as of the Issue Date is specified in the applicable Final Terms.

“**Settlement Date**” means the Maturity Date. If a Settlement Disruption Event does prevent delivery on that day, then the Settlement Date will be the first succeeding day on which delivery of the Integral Number of Deliverable Shares can take place through the relevant Clearance System unless a Settlement Disruption Event prevents settlement on each of the five Clearance System Business Days immediately following the original date that, but for the Settlement Disruption Event, would have been the Settlement Date. In that case, (a) if the Integral Number of Deliverable Shares can be delivered in any other commercially reasonable manner, as determined by the Calculation Agent in its sole discretion, then the Settlement Date will be the first day on which settlement of a sale of the Integral Number of Deliverable Shares executed on that fifth Clearance System Business Day customarily would take place using such other commercially reasonable manner of delivery (which other manner of delivery will be deemed to be the relevant Clearance System for the purposes of delivery of the relevant Integral Number of Deliverable Shares), and (b) if the Integral Number of Deliverable Shares cannot be delivered in any other commercially reasonable manner, as determined by the Calculation Agent in its sole discretion, then in lieu of physical settlement the Issuer may satisfy its obligations in respect of each of the relevant Notes by payment to the Noteholders of the Disruption Cash Settlement Price on the third Business Day following such fifth Clearance System Business Day. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the shares or securities comprised in the Relevant Number of Deliverable Shares, the Settlement Date for shares or securities not affected by the Settlement Disruption Event will be the Maturity Date. In the event that a Settlement Disruption Event will result in the delivery on the Settlement Date of some but not all of the shares or securities comprised in the Relevant Number of Deliverable Shares, the Calculation Agent shall determine in its sole discretion the appropriate pro rata portion of the Disruption Cash Settlement Price which the Issuer, to satisfy its obligations in respect of each of the relevant Notes to the extent the Issuer has not already done so by delivery of shares or securities comprised in the Relevant Number of Deliverable Shares, will pay to the Noteholders on the third Business Day following the fifth Clearance System Business Day.

“**Settlement Disruption Event**” means an event beyond the control of the Issuer or the Delivery Agent as a result of which (i) Euroclear or Clearstream, Luxembourg, as the case may be, or the Deliverable Share Clearance System cannot clear the transfer of the Deliverable Shares or (ii) Euroclear or Clearstream, Luxembourg, as the case may be, or the Deliverable Share Clearance System ceases to clear all or any of such Deliverable Shares.

- (ii) For the avoidance of doubt, the Issuer shall be under no obligation to compensate or indemnify the Noteholder(s) for any delay or failure on the part of the Issuer or the Delivery Agent to deliver or procure the delivery of the Integral Number of Deliverable Shares on the Settlement Date and/or to pay or procure the payment of the Residual Cash Amount on the Maturity Date to the Noteholder(s) to the extent Euroclear and/or Clearstream, Luxembourg, as the case may be, does not receive the Delivery Notice from the Noteholder(s) on (or before, as may be applicable) the Delivery Notice Date or, to the extent that for any reason Euroclear and/or Clearstream, Luxembourg fail, or fail within any relevant period, to transmit (whether or not in accordance with its then applicable operating procedures and accepted methods of communication) any notice by or on behalf of the Issuer or the Delivery Agent to its participants. Without prejudice to the preceding sentence and clause (iv) below, in the event that Euroclear and/or Clearstream, Luxembourg do not receive a Delivery Notice from a Noteholder on or before the tenth Business Day following the Maturity Date, the Issuer shall be entitled (but not obliged) to pay to such Noteholder, as soon as reasonably practicable on or following such date an amount, determined by the Calculation Agent in its sole and absolute discretion and notified to the Issuer, the Paying Agent, Euroclear and/or Clearstream, Luxembourg, as the case may be, (to be communicated by them to the relevant Noteholders) in writing promptly following such determination, equal to the fair market value of such Integral Number of Deliverable Shares and/or the Residual Cash Amount at the date determined in good faith by the Issuer, in full satisfaction of its obligations under such Notes.
- (iii) A Delivery Notice once delivered to Euroclear or Clearstream, Luxembourg, as the case may be, shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Noteholder may not transfer any Note that is the subject of a Delivery Notice following delivery of such Delivery Notice to Euroclear or Clearstream, Luxembourg, as the case may be.
- (iv) A Delivery Notice shall only be valid to the extent that Euroclear and/or Clearstream, Luxembourg, as the case may be, have not received conflicting prior instructions in respect of the Notes that are the subject of the Delivery Notice. Failure properly and timely to provide a Delivery Notice may result in such notice

being treated as null and void. Any determination as to whether such notice has been properly provided shall be made by Euroclear and/or Clearstream, Luxembourg, as the case may be, after consultation with the Issuer and shall be conclusive and binding on the Issuer and the relevant Noteholder. If a Delivery Notice has not been provided properly and timely, the Issuer or the Delivery Agent shall not be obliged to make any payment or delivery in respect of the Notes which are the subject of the Delivery Notice.

- (v) Receipt by Euroclear and/or Clearstream, Luxembourg, as the case may be, of a valid Delivery Notice shall be deemed to constitute (i) written confirmation of an irrevocable election and undertaking by the relevant Noteholder to select the account at Euroclear or Clearstream, Luxembourg or the Deliverable Share Clearance System specified therein and (ii) an undertaking by the relevant Noteholder to pay any costs, applicable value added or sales taxes, transfer taxes, stamp duties and other taxes and duties due by reason of delivery of the Integral Number of Deliverable Shares to the account at Euroclear or Clearstream, Luxembourg or the Deliverable Share Clearance System or to reimburse Euroclear or Clearstream, Luxembourg, as the case may be, or the Deliverable Share Clearance System in respect of any such costs, taxes or duties.
- (vi) In the event that any Note is not represented by a Global Note or Global Certificate held on behalf of Euroclear or Clearstream, Luxembourg, as the case may be, the Issuer or the Delivery Agent shall procure that notice shall be provided to the relevant Noteholders in accordance with Condition 15, describing the method by which an account at the Deliverable Share Clearance System shall be irrevocably designated for such Noteholders and such designation shall be binding on the Issuer and such Noteholders.
- (vii) Upon receipt of such Delivery Notice, Euroclear and/or Clearstream, Luxembourg, as the case may be, shall (a) verify that the person specified therein as the Noteholder is the holder of the specified nominal amount of Notes according to its books (provided that if such verification shows that such person is not the Noteholder according to its books, the Delivery Notice shall not be valid) and (b) shall, in accordance with its then applicable operating procedures, send a copy of the Delivery Notice to the Issuer, the Delivery Agent and such other persons as the Issuer or the Delivery Agent may previously have specified.
- (viii) The nominal amount of a number of Notes delivered by the same Noteholder for redemption shall not be aggregated for the purpose of determining the number of Deliverable Shares to be delivered in respect of such Notes.
- (ix) Delivery of any Deliverable Shares is subject to all applicable laws, regulations and practices and neither the Issuer nor the Delivery Agent shall incur liability whatsoever if it is unable to deliver or procure the delivery of the Deliverable Shares to the Noteholder because of any such laws, regulations or practices. Neither the Issuer nor the Delivery Agent shall under any circumstances be liable for any acts or defaults of Euroclear and/or Clearstream, Luxembourg, as may be applicable, and/or the Deliverable Share Clearance System in relation to the performance of the duties in relation to the Notes, including but not limited to the delivery of the Deliverable Shares to the Noteholder.
- (x) After delivery by the Issuer or the Delivery Agent to the relevant Noteholder(s) through Euroclear and/or Clearstream, Luxembourg, as may be applicable, and/or

- (a) be under any obligation to deliver to such Noteholder(s) or any subsequent beneficial owner of the Deliverable Shares any letter, certificate, notice, circular, dividend or any other document or payment whatsoever received by the Issuer or its agent or nominee in its capacity as the holder thereof; or

The Early Redemption Amount shall be payable by the Issuer on the fifth Business Day following notification by the Calculation Agent to the Issuer that the Calculation Agent has determined that the event referred to in this paragraph (ii) has occurred
- (iii) In the event that, in respect of any Index, any level announced by the relevant Index Sponsor which is utilised by the Calculation Agent for any determination (the “**Original Determination**”) is subsequently corrected and the correction (the “**Corrected Value**”) is announced by this Index Sponsor within two Scheduled Trading Days after the original publication and in any case not later than the second Scheduled Trading Day immediately preceding the payment date of the amount due and payable under the Notes which is linked to that Original Determination, then the Calculation Agent will notify the Issuer of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the “**Replacement Determination**”) using the Corrected Value.

If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it considers it to be necessary, the Calculation Agent may, in its sole and absolute discretion, adjust any relevant terms hereof accordingly.

For the avoidance of doubt, Noteholders shall not be entitled to make any claim against the Issuer or the Calculation Agent in the case where any Original Determination is not subsequently corrected and/or the correction of the Original Determination is announced by this Index Sponsor after the second Scheduled Trading Day immediately preceding the payment date of the amount due and payable under the Notes which is linked to that Original Determination.

- (iv) If, in respect of any Index, on or prior to the latest of the last Valuation Date, the last Averaging Date, the last Knock-in Determination Day or the last Knock-out Determination Day, a Change in Law or a Hedging Disruption or an Increased Cost of Hedging occurs (provided it is specified as applicable in the applicable Final Terms), then the Calculation Agent will be entitled, for the purpose of performing its obligations in respect of the outstanding Notes, to require the Issuer to (i) if Monetisation is specified as applicable in the applicable Final Terms,

apply the Monetisation provisions set forth in paragraph 21(g) below or (ii) redeem each Note at an amount per Note equal to the Early Redemption Amount. increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its respective affiliates or any entities which are relevant to the Hedging Arrangements shall not be deemed an Increased Cost of Hedging.

out Price has been triggered or (b) in all other circumstances that ends at the relevant Valuation Time, or (iv) an Early Closure. For the purposes of determining whether a Market Disruption Event exists at any time, if a Market Disruption Event occurs in respect of a Commodity included in the Basket at any time, then the relevant contribution of that Commodity to the Price of the Basket shall be based on a comparison of (x) the portion of Basket attributable to the contribution of that Commodity and (y) the overall Price of Basket, in each case immediately before the occurrence of such Market Disruption Event.

“**Trading Disruption**” means, in respect the Basket specified in the applicable Final Terms to be a Single Exchange Basket and any Commodity therein, any suspension of or limitation imposed on trading by the relevant Exchange or, if any, the Related Exchange or otherwise and whether by reason of movements in Price exceeding limits permitted by the relevant Exchange or, if any, the Related Exchange or otherwise (i) on any relevant Exchange relating to such Commodity which contributes 20 per cent. or more to the Price of the Basket, or (ii) in futures or options contracts relating to such Commodity on the relevant Related Exchange.

- II an Exchange Disruption in respect of such Commodity, which the Calculation Agent determines is material, at any time during the one hour period that (a) for the purposes of the occurrence of a Knock-in Event or a Knock-out Event begins and/or ends at the time on which the Price of this Commodity is required in order to determine if, respectively, the Knock-in Price or the Knock-out Price has been triggered or (b) in all other circumstances that ends at the relevant Valuation Time in respect of the Exchange on which such Commodity is principally traded; AND/OR
 - III an Early Closure in respect of such Commodity; AND
 - IV the aggregate of all Commodities in respect of which a Trading Disruption and/or, an Exchange Disruption and/or an Early Closure occurs or exists contributes to 20 per cent. or more of the Price of the Basket; OR

“**Fund Share Price**” means either:

- (i) in respect of any Automatic Early Redemption Valuation Date, the NAV as determined by the Calculation Agent, published by the relevant Fund (or its Fund Service Provider that generally determines such value) on such Automatic Early Redemption Valuation Date; OR
- (ii) in respect of the Automatic Early Redemption Averaging Dates relating to an Automatic Early Redemption Observation Period, the arithmetic average as determined by the Calculation Agent (rounded to the nearest unit of the Specified Currency in which the Fund Share is valued (with halves being rounded up)) of the Specified Prices of such Fund Share on each of such Automatic Early Redemption Averaging Dates.

“**Scheduled Automatic Early Redemption Valuation Date**” means, the original date that, but for the occurrence of an event causing a Disrupted Day, would have been an Automatic Early Redemption Valuation Date.

“**Specified Price**” means, in respect of any Automatic Early Redemption Averaging Date, the NAV as determined by the Calculation Agent, published by the relevant Fund (or its Fund Service Provider that generally determines such value) on such Automatic Early Redemption Averaging Date.

(B) *Consequences of the occurrence of an Automatic Early Redemption Event*

If “**Automatic Early Redemption Event**” is specified as applicable in the Final Terms, then unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date and the Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount equal to the relevant Automatic Early Redemption Amount.

“**Automatic Early Redemption Amount**” means (a) an amount in the Specified Currency or if such amount is not specified, (b) the product of (i) the Calculation Amount (in respect of English Law Notes) or the outstanding nominal amount of each Note (in respect of French Law Notes) and (ii) the relevant Automatic Early Redemption Rate relating to that Automatic Early Redemption Date.”

(C) *Consequences of Disrupted Days*

(1) Automatic Early Redemption Valuation Date

If any Automatic Early Redemption Valuation Date is a Disrupted Day, then this Automatic Early Redemption Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the Specific Number of Scheduled Trading Days immediately following the relevant Scheduled Automatic Early Redemption Valuation Date is a Disrupted Day.

In that case, (i) the relevant Ultimate Automatic Early Redemption Valuation Date shall be deemed to be that Automatic Early Redemption Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the relevant Fund Share Price shall be the Calculation Agent’s good faith estimate of the NAV as of the Valuation Time on that Ultimate Automatic Early Redemption Valuation Date.

If the first succeeding Automatic Early Redemption Valid Date has not occurred as of the Valuation Time on the Ultimate Automatic Early Redemption Averaging Date, then (1) the Ultimate Automatic Early Redemption Averaging Date shall be deemed to be that Automatic Early Redemption Averaging Date (irrespective of whether the Ultimate Automatic Early Redemption Averaging Date is already an Automatic Early Redemption Averaging Date), and (2) the Specified Price in

respect of that Automatic Early Redemption Averaging Date shall be the Calculation Agent's good faith estimate of the value for the Fund Share as of the Valuation Time on the Ultimate Automatic Early Redemption Averaging Date.

"Ultimate Automatic Early Redemption Averaging Date" means, in respect of any Automatic Early Redemption Observation Period, the Scheduled Trading Day which is the last of the Specific Number of Scheduled Trading Days immediately following the original date that, but for the occurrence of another Automatic Early Redemption Averaging Date or Disrupted Day, would have been the final Automatic Early Redemption Averaging Date relating to this Automatic Early Redemption Observation Period.

"Specific Number" means the number specified as such in the applicable Final Terms or if no number is specified the Specific Number shall be deemed equal to eight.

(A) ***Potential Adjustment Events***

- (iv) a repurchase by the Fund of Fund Shares whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption of Fund Shares initiated by an investor in the Fund; or
- (v) any other similar event that may have a diluting or concentrative effect on the theoretical value of the Fund Shares.

(2) Consequences

- (i) If a Potential Adjustment Event occurs from, and including, the Issue Date to, and including, the latest of the last Valuation Date, the last Averaging Date, the last Knock-in Determination Day or the last Knock-out Determination Day, the Calculation Agent will promptly determine, in its sole and absolute discretion, whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Fund Shares and, if so, will:
 - (a) make such adjustment(s), if any, to any one or more of the Barrier Price and/or the Initial Price and/or the Knock-in Price and/or the Knock-out Price and/or the Automatic Early Redemption Price and/or (if redemption by physical delivery) the Delivery Amount and/or any of the other relevant provisions of the Notes that the Calculation Agent determines, in its sole and absolute discretion, to be appropriate to account for that diluting or concentrative effect; and
 - (b) determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s).
- (ii) The Calculation Agent shall not be required to make an adjustment to the terms of the Notes if it determines that the theoretical change in value of the Fund Share resulting from the occurrence of one or more events listed in the provisions hereof above is less than or equal to one per cent. of the value of that property immediately before the occurrence of that event or those events.
- (iii) No adjustments to the property comprised within the Fund Share will be required other than those specified above. However, the Issuer may cause the Calculation Agent to make additional adjustments to the property comprised within the Fund Share to reflect changes occurring in relation to such property in other circumstances where the Issuer determines, in its sole and absolute discretion, that such changes are appropriate.

(B) *Correction of value or prices of the Fund*

In the event that in respect of any Fund or Fund Share, any price published by or on behalf of the Fund which is utilised by the Calculation Agent for any determination (the “**Original Determination**”) is subsequently corrected and the correction is published within one relevant Settlement Cycle after the original publication or, as the case may be, the Fund with respect to any Fund Share adjusts the Redemption Proceeds that would have been paid to a Hypothetical Investor redeeming such Fund Share, and such adjustment would be reflected in either an additional payment to such Hypothetical Investor or a claim of excess Redemption Proceeds made against such Hypothetical Investor, in each case no later than the fifth Fund Business Day prior to the Maturity Date (a “**Correction**”), then the Calculation Agent will notify the Issuer of such Correction as soon as reasonably practicable and shall determine the relevant value (the “**Replacement Determination**”) with regard to such Correction.

If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines it to be necessary, the Calculation Agent may adjust any relevant terms hereof accordingly.

For the avoidance of doubt, Noteholders shall not be entitled to make any claim against the Issuer or the Calculation Agent in the case where any Original Determination is not subsequently corrected and/or the correction of the Original Determination is announced by the

“**Delivery Agent**” means Natixis or such other agent as may be appointed by the Issuer, as specified in the applicable Final Terms, which term shall include any successor or any agent acting on behalf thereof, as the case may be. The Delivery Agent will act solely as agent of the Issuer and will not assume any obligations to, or relationship of agency or trust for or with, the Noteholders. The Issuer reserves the right at any time to vary or terminate the appointment of the Delivery Agent and to appoint or not another Delivery Agent.

“**Disruption Cash Settlement Price**” means, in respect of any Note, an amount in the Specified Currency equal to the fair market value of a Note less (i) the Residual Cash Amount and (ii) the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent, in its sole and absolute discretion.

For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the shares or securities comprised in the Relevant Number of Fund Shares, the Settlement Date for shares or securities not affected by the Settlement Disruption Event will be the Maturity Date. In the event that a Settlement Disruption Event will result in the delivery on the Settlement Date of some but not all of the shares or securities comprised in the Relevant Number of Fund Shares, the Calculation Agent shall determine in its sole discretion the appropriate pro rata portion of the Disruption Cash Settlement Price which the Issuer, to satisfy its obligations in respect of each of the relevant Notes to the extent the Issuer has not already done so by delivery of shares or securities comprised in the Relevant Number of Fund Shares, will pay to the Noteholders on the third Business Day following the fifth Clearance System Business Day.

Without prejudice to the preceding sentence and Clause (iv) below, in the event that Euroclear and/or Clearstream, Luxembourg do not receive a Delivery Notice from a Noteholder on or before the tenth Business Day following the Maturity Date, the Issuer shall be entitled (but not obliged) to pay to such Noteholder, as soon as reasonably practicable on or following such date an amount, determined by the Calculation Agent in its sole and absolute discretion and notified to the Issuer, the Paying Agent, Euroclear and/or Clearstream, Luxembourg, as the case may be, (to be communicated by them to the relevant Noteholders) in writing promptly following such determination, equal to the fair market value of such Integral Number of Fund Shares and/or the Residual Cash Amount at the date determined in good faith by the Issuer, in full satisfaction of its obligations under such Notes.

A Delivery Notice once delivered to Euroclear or Clearstream, Luxembourg, as the case may be, shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Noteholder may not transfer any Note that is the subject of a Delivery Notice following delivery of such Delivery Notice to Euroclear or Clearstream, Luxembourg, as the case may be.

A Delivery Notice shall only be valid to the extent that Euroclear and/or Clearstream, Luxembourg, as the case may be, have not received conflicting prior

instructions in respect of the Notes that are the subject of the Delivery Notice. Failure properly and timely to provide a Delivery Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly provided shall be made by Euroclear and/or Clearstream, Luxembourg, as the case may be, after consultation with the Issuer and shall be conclusive and binding on the Issuer and the relevant Noteholder. Neither the Issuer nor the Delivery Agent shall under any circumstances be liable for any acts or defaults of Euroclear and/or Clearstream, Luxembourg, as may be applicable, and/or the Fund Share Clearance System in relation to the performance of the duties in relation to the Notes, including but not limited to the delivery of the Fund Shares to the Noteholder.

After delivery by the Issuer or the Delivery Agent to the relevant Noteholder(s) through Euroclear and/or Clearstream, Luxembourg, as may be applicable, and/or the Fund Share Clearance System of the Fund Shares (if applicable) and for such period of time as the Issuer or its agent or nominee shall continue to be registered in any clearance system or otherwise as the owner of the Fund Shares (the “**Intervening Period**”), neither the Issuer nor its agent or nominee shall:

- (ii) The Calculation Agent shall not be required to make an adjustment to the terms of the Notes if it determines that the theoretical change in value of the Fund Share resulting from the occurrence of one or more events listed in the provisions hereof above is less than or equal to three per cent. of the value of that Fund Share immediately before the occurrence of that event or those events.

(D) *Monetisation*

Means, if “Monetisation” is specified as applicable in the applicable Final Terms and the Issuer so elects, that in respect of the Final Redemption Amount, any Fixed Interest Rate, Floating Interest Rate and Structured Note coupon amount, the Issuer shall no longer be liable for the payment, (i) on any Specified Interest Payment Date following the occurrence of a Monetisation Event, of the Fixed Interest Rate, Floating Interest Rate and/or Structured Note coupon amount initially scheduled to be paid on such Specified Interest Payment Date(s) and (ii) on the Maturity Date, of the Final Redemption Amount initially scheduled to be paid on the Maturity Date, but instead will, in full and final satisfaction and discharge of its obligations of payment under the Notes, pay on the Maturity Date an amount per Note as calculated by the Calculation Agent as of the Monetisation Date until the Maturity Date (the “**Monetisation Amount**”) and the product of:

- (i) the fair market value of a Note based on the market conditions prevailing at the Monetisation Date and adjusted to account fully for any reasonable expenses and costs of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps or other instruments of any type whatsoever hedging the Issuer’s obligations under the Notes), and
- (ii) the Monetisation Formula.

In respect of any Fixed Interest Rate Notes and Structured Notes, for the purposes of determining the Monetisation Amount, no accrued unpaid interest shall be payable but shall be taken into account in calculating the fair market value of each Note.

For the purposes of this Condition 25(f)(D):

“**Monetisation Event**” means any event specified in Condition 25(f) (*Particular Provisions*) which, in the determination of the Calculation Agent, triggers the Monetisation provisions, as set forth in Condition 25(f) (*Particular Provisions*).

“**Monetisation Formula**” means the formula as specified in the applicable Final Terms.

(E) *Cut-off Date*

Provisions set out below are applicable if Separate Valuation is specified as applicable in the applicable Final Terms.

(2) Consequences

Notwithstanding the provisions of Condition 25(f)(C) (*Extraordinary Events*), if a Fund Share Event occurs during the period from the relevant Cut-off Date to any Valuation Date (both dates inclusive), the relevant Final Price of the Affected Fund Share shall be

the price determined by the Calculation Agent as being its good faith estimate of the fair market value of the Affected Fund Share.

(F) *Miscellaneous*

- (1) If more than one of the events set out above occurs, the adjustments (if any) to the terms of the Notes for the second and subsequent events shall be to the terms of the Notes as adjusted for preceding events.
- (2) In the event that a determination is made that the Notes will be settled by Redemption by Physical Delivery and on or after the last Valuation Date or the last Averaging Date or the last Knock-in Determination Day or the last Knock-out Determination Day (but before the Settlement Date) a Potential Adjustment Event or an Extraordinary Event occurs, then the Issuer shall be entitled (but not obliged) upon immediate notice to the Noteholders to (i) delay the Settlement Date to such date that falls five Business Days following such event and (ii) cause the property comprising the Relevant Number of Fund Shares to be thereupon adjusted in accordance with the provisions hereof.
- (3) As soon as reasonably practicable under the circumstances after making any adjustment or modification to the terms of the Notes in accordance with these Conditions, whether in the exercise of its own discretion or at the request of the Issuer, the Calculation Agent will give notice thereof to the Issuer and to the Paying Agent whereupon the Issuer or the Paying Agent shall notify the Noteholders of such adjustment or modification in accordance with Condition 14.

Provisions set out below are applicable if Separate Valuation is specified as not applicable in the applicable Final Terms.

(1) Definitions

“**Clearance System**” means, in respect of any Fund Share, indiscriminately the Deliverable Fund Share Clearance System, Clearstream Luxembourg or Euroclear.

“**Clearance System Business Day**” means, in respect of any Fund Share, any day on which each of Euroclear or Clearstream, Luxembourg, as the case may be, and the relevant Deliverable Fund Share Clearance System is (or, but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions.

“**Clearstream Luxembourg**” means Clearstream Banking, société anonyme (or any successor thereof).

“**Deliverable Fund Share**” means the Fund Share specified as such in the applicable Final Terms.

“**Deliverable Fund Share Clearance System**” means, in respect of any Deliverable Fund Share, the principal domestic clearance system customarily used for settling trades in such Deliverable Fund Share, as determined by the Calculation Agent.

“**Delivery Agent**” means Natixis or such other agent as may be appointed by the Issuer, as specified in the applicable Final Terms, which term shall include any successor or any agent acting on behalf thereof, as the case may be. The Delivery Agent will act solely as agent of the Issuer and will not assume any obligations to, or relationship of agency or trust for or with, the Noteholders. The Issuer reserves the right at any time to vary or

terminate the appointment of the Delivery Agent and to appoint or not another Delivery Agent.

“Disruption Cash Settlement Price” means, in respect of any Note, an amount in the Specified Currency equal to the fair market value of a Note less (i) the Residual Cash Amount and (ii) the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent, in its sole and absolute discretion.

“Euroclear” means Euroclear S.A./N.V. (or any successor thereof).

“Integral Number of Deliverable Fund Shares” means, in respect of each Note, an integral number of Deliverable Fund Shares equal to the Relevant Number of Deliverable Fund Shares rounded downwards to the Fund Minimum Tradable Quantity.

“Physical Delivery Rounding Convention” means the method specified in the applicable Final Terms or, if such Physical Delivery Rounding Convention is not specified, the figure to be rounded shall be rounded upwards to the nearest third decimal.

“Prevailing Exchange Rate” means, in respect of any date specified in the applicable Final Terms, the cross currency rate specified as such in the applicable Final Terms which appears on the page designated in the applicable Final Terms. If such rate does not appear on the page designated in the applicable Final Terms, the Calculation Agent will determine the Prevailing Exchange Rate (or a method for determining the Prevailing Exchange Rate).

“Relevant Number of Deliverable Fund Shares” means, in respect of each Note and any Deliverable Fund Share, a number of such Deliverable Fund Shares equal to (i) the denomination of each Note multiplied by (ii) the specific Weighting (if any), (iii) the Prevailing Exchange Rate (if any) divided by (iv) the Initial Price of the relevant Deliverable Fund Shares, subject to the Physical Delivery Rounding Convention and to adjustment from time to time in accordance with the provisions as set out in Condition 25(f) above (*Particular Provisions*).

“Residual Cash Amount” means, in respect of each Note, an amount in the Specified Currency equal to the product of (i) the Residual Number of Deliverable Fund Shares and (ii) the Ultimate Final Price of the Deliverable Fund Share divided by the Prevailing Exchange Rate (if any).

For the avoidance of doubt, the Residual Number of Deliverable Fund Shares as of the Issue Date is specified in the applicable Final Terms.

“Settlement Date” means the Maturity Date. If a Settlement Disruption Event does prevent delivery on that day, then the Settlement Date will be the first succeeding day on which delivery of the Integral Number of Deliverable Fund Shares can take place through the relevant Clearance System unless a Settlement Disruption Event prevents settlement on each of the five Clearance System Business Days immediately following the original date that, but for the Settlement Disruption Event, would have been the Settlement Date. In that case, (a) if the Integral Number of Deliverable Fund Shares can be delivered in any other commercially reasonable manner, as determined by the Calculation Agent in its sole discretion, then the Settlement Date will be the first day on

which settlement of a sale of the Integral Number of Deliverable Fund Shares executed on that fifth Clearance System Business Day customarily would take place using such other commercially reasonable manner of delivery (which other manner of delivery will be deemed to be the relevant Clearance System for the purposes of delivery of the relevant Integral Number of Deliverable Fund Shares), and (b) if the Integral Number of Deliverable Fund Shares cannot be delivered in any other commercially reasonable manner, as determined by the Calculation Agent in its sole discretion, then in lieu of physical settlement the Issuer may satisfy its obligations in respect of each of the relevant Notes by payment to the Noteholders of the Disruption Cash Settlement Price on the third Business Day following such fifth Clearance System Business Day. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the shares or securities comprised in the Relevant Number of Deliverable Fund Shares, the Settlement Date for shares or securities not affected by the Settlement Disruption Event will be the Maturity Date. In the event that a Settlement Disruption Event will result in the delivery on the Settlement Date of some but not all of the shares or securities comprised in the Relevant Number of Deliverable Fund Shares, the Calculation Agent shall determine in its sole discretion the appropriate pro rata portion of the Disruption Cash Settlement Price which the Issuer, to satisfy its obligations in respect of each of the relevant Notes to the extent the Issuer has not already done so by delivery of shares or securities comprised in the Relevant Number of Deliverable Fund Shares, will pay to the Noteholders on the third Business Day following the fifth Clearance System Business Day.

“**Settlement Disruption Event**” means an event beyond the control of the Issuer or the Delivery Agent as a result of which (i) Euroclear or Clearstream, Luxembourg, as the case may be, or the Deliverable Fund Share Clearance System cannot clear the transfer of the Deliverable Fund Shares or (ii) Euroclear or Clearstream, Luxembourg, as the case may be, or the Deliverable Fund Share Clearance System ceases to clear all or any of such Deliverable Fund Shares.

- (ii) For the avoidance of doubt, the Issuer shall be under no obligation to compensate or indemnify the Noteholder(s) for any delay or failure on the part of the Issuer or the Delivery Agent to deliver or procure the delivery of the Integral Number of Deliverable Fund Shares on the Settlement Date and/or to pay or procure the payment of the Residual Cash Amount on the Maturity Date to the Noteholder(s) to the extent Euroclear and/or Clearstream, Luxembourg, as the case may be, does not receive the Delivery Notice from the Noteholder(s) on (or before, as may be applicable) the Delivery Notice Date or, to the extent that for any reason Euroclear and/or Clearstream, Luxembourg fail, or fail within any relevant period, to transmit (whether or not in accordance with its then applicable operating procedures and accepted methods of communication) any notice by or on behalf of the Issuer or the Delivery Agent to its participants. Without prejudice to the preceding sentence and sub-paragraph (iv) below, in the event that Euroclear and/or Clearstream, Luxembourg do not receive a Delivery Notice from a Noteholder on or before the tenth Business Day following the Maturity Date, the Issuer shall be entitled (but not obliged) to pay to such Noteholder, as soon as reasonably practicable on or following such date an amount, determined by the Calculation Agent in its sole and absolute discretion and notified to the Issuer, the Paying Agent, Euroclear and/or Clearstream, Luxembourg, as the case may be (to be communicated by them to the relevant Noteholders) in writing promptly following such determination, equal to the fair market value of such Integral Number of Deliverable Fund Shares and/or the Residual Cash Amount at the date determined in good faith by the Issuer, in full satisfaction of its obligations under such Notes.
- (iii) A Delivery Notice once delivered to Euroclear or Clearstream, Luxembourg, as the case may be, shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Noteholder may not transfer any Note that is the subject of a Delivery Notice following delivery of such Delivery Notice to Euroclear or Clearstream, Luxembourg, as the case may be.
- (iv) A Delivery Notice shall only be valid to the extent that Euroclear and/or Clearstream, Luxembourg, as the case may be, have not received conflicting prior instructions in respect of the Notes that are the subject of the Delivery Notice. Failure properly and timely to provide a Delivery Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly provided shall be made by Euroclear and/or Clearstream, Luxembourg, as the case may be, after consultation with the Issuer and shall be conclusive and binding on the Issuer and the relevant Noteholder. If a Delivery Notice has not been provided properly and timely, the Issuer or the Delivery Agent shall not be obliged to make any payment or delivery in respect of the Notes which are the subject of the Delivery Notice.
- (v) Receipt by Euroclear and/or Clearstream, Luxembourg, as the case may be, of a valid Delivery Notice shall be deemed to constitute (a) written confirmation of an irrevocable election and undertaking by the relevant Noteholder to select the account at Euroclear or Clearstream, Luxembourg or the Deliverable Fund Share

Clearance System specified therein and (b) an undertaking by the relevant Noteholder to pay any costs, applicable value added or sales taxes, transfer taxes, stamp duties and other taxes and duties due by reason of delivery of the Integral Number of Deliverable Fund Shares to the account at Euroclear or Clearstream, Luxembourg or the Deliverable Fund Share Clearance System or to reimburse Euroclear or Clearstream, Luxembourg, as the case may be, or the Deliverable Fund Share Clearance System in respect of any such costs, taxes or duties.

- (vi) In the event that any Note is not represented by a Global Note or Global Certificate held on behalf of Euroclear or Clearstream, Luxembourg, as the case may be, the Issuer or the Delivery Agent shall procure that notice shall be provided to the relevant Noteholders in accordance with Condition 14, describing the method by which an account at the Deliverable Fund Share Clearance System shall be irrevocably designated for such Noteholders and such designation shall be binding on the Issuer and such Noteholders.
- (vii) Upon receipt of such Delivery Notice, Euroclear and/or Clearstream, Luxembourg, as the case may be, shall (a) verify that the person specified therein as the Noteholder is the holder of the specified principal amount of Notes according to its books (provided that if such verification shows that such person is not the Noteholder according to its books, the Delivery Notice shall not be valid) and (b) in accordance with its then applicable operating procedures, send a copy of the Delivery Notice to the Issuer, the Delivery Agent and such other persons as the Issuer or the Delivery Agent may previously have specified.
- (viii) The nominal amount of a number of Notes delivered by the same Noteholder for redemption shall not be aggregated for the purpose of determining the number of Deliverable Fund Shares to be delivered in respect of such Notes.
- (ix) Delivery of any Deliverable Fund Shares is subject to all applicable laws, regulations and practices and neither the Issuer nor the Delivery Agent shall incur liability whatsoever if it is unable to deliver or procure the delivery of the Deliverable Fund Shares to the Noteholder because of any such laws, regulations or practices. Neither the Issuer nor the Delivery Agent shall under any circumstances be liable for any acts or defaults of Euroclear and/or Clearstream, Luxembourg, as may be applicable, and/or the Deliverable Fund Share Clearance System in relation to the performance of the duties in relation to the Notes, including but not limited to the delivery of the Deliverable Fund Shares to the Noteholder.
- (x) After delivery by the Issuer or the Delivery Agent to the relevant Noteholder(s) through Euroclear and/or Clearstream, Luxembourg, as may be applicable, and/or the Deliverable Fund Share Clearance System of the Deliverable Fund Shares (if applicable) and for such period of time as the Issuer or its agent or nominee shall continue to be registered in any clearance system or otherwise as the owner of the Deliverable Fund Shares (the “**Intervening Period**”), neither the Issuer nor its agent or nominee shall:

Provided that, this definition shall exclude (a) any dividends in relation to which the relevant Index Sponsor makes an adjustment to the Index when such Share is considered as a component of that Index, or (b) any dividends in relation to which the relevant Related Exchange makes an adjustment to the options of futures contracts to that Share when such Share is considered individually or as part of a basket (however where the relevant Index Sponsor has adjusted that Index for part of a dividend or as the case may be the relevant Related Exchange, the provisions above shall apply only to the unadjusted part).

(iii) Corrections

In the event that a Correction to a price of a Share or an Index applies within five Scheduled Trading Days after the original publication of such price, the Calculation Agent will adjust the Dividend, as required, to take into account such correction, PROVIDED such correction or subsequent publication occurs no later than four Business Days prior to the Maturity Date.

- (ii) If, on the latest or before the latest of the following dates: the last Valuation Date, the last Averaging Date, the last Knock-in Determination Date or the last Knock-out Determination Date, (a) the Exchange or, as the case may be, the Futures Contract Sponsor does not publish the Price of the Futures Contract, or the Futures Contract Sponsor (α) announces that it will significantly change the formula or method of calculation of the Futures Contract or make any other significant change to the Futures Contract (other than a modification in order to maintain the Futures Contract in the event of changes to the Futures Contract Underlying), (a “**Modification of the Futures Contract**”), or permanently cancels the Futures Contract, and if there is no Successor Futures Contract (a “**Withdrawal of the Futures Contract**”), or (β) fails to calculate and publish the Futures Contract (a “**Disruption of the Futures Contract**”) (for the avoidance of doubt, where a successor sponsor calculates and publishes a Futures Contract deemed unacceptable by the Calculation Agent, it will constitute a Disruption of the Futures Contract), and, with a Modification of the Futures Contract and a withdrawal of the Futures Contract, an “**Event of Adjustment of the Futures Contract**”), or (b) a Tax Disruption occurs, the Calculation Agent may then, in order to perform its obligations pursuant to the Notes outstanding, either:
 - (a) calculate the Price of the Futures Contract (i) by using the last Price listed or traded of the Futures Contract Underlying used as reference immediately before the occurrence of the Event of Adjustment of the Futures Contract, and (ii) in compliance with the formula and method of calculation of the Futures Contract in force before the occurrence of the Event of Adjustment of the Futures Contract, but in only using the Futures Contract Underlying used as reference immediately before the occurrence of the Event of Adjustment of the Futures Contract; or (but not “and”)
 - (b) replace the Futures Contract with the Futures Contract thus modified or with the new futures contract (as the case may be), provided that in such case, (a) the Calculation Agent will make to the new futures contract the adjustments that may be required to preserve the economic equivalent of the obligation of the Issuer to pay any amount due and payable pursuant to the Notes linked to the Futures Contract, as if such new futures contract or modified futures contract had not replaced the Futures Contract and, if necessary, will multiply the modified futures contract or the new futures contract with an indexing factor, as determined by the Calculation Agent, and (b) the Noteholders will be notified of the modified Futures Contract or the new futures contract (as the case may be) and, if necessary, the indexing factor; or (but not “and”)

- (c) if the applicable Final Terms specify that “**Monetisation**” is applicable, apply the provisions of Condition 27 below relative to Monetisation; or (but not “and”)
 - (d) require the Issuer to redeem each Note for an amount per Note equal to the Early Redemption Amount. The Early Redemption Amount will be payable by the Issuer on the fifth Business Day following notification of the Calculation Agent informing the Issuer that it has determined that the event set out in this Sub-paragraph (ii) has occurred.
- (iii) If, on or prior to the latest of the following dates: the last Valuation Date, the last Averaging Date, the last Knock-in Determination Date or the last Knock-out Determination Date, a Change of Law, a Hedging Disruption or an Increased Cost of Hedging occurs (providing the relevant event is stipulated as applicable in the applicable Final Terms), the Calculation Agent will be entitled, for the purpose of performing its obligations pursuant to the Notes outstanding, (i) if the applicable Final Terms specify that “**Monetisation**” is applicable, to apply the provisions relating to Monetisation in Condition 27 below, or (ii) to require the Issuer to redeem each Note for an amount per Note equal to the Early Redemption Amount. “**Increased Cost of Hedging**” means, if specified as applicable in the Final Terms, the Issuer and/or any of its affiliates or any entities concerned by the Hedging Agreements incur any substantially increased amount of taxes, duties, costs or commission (other than brokerage commissions) (in comparison to the circumstances existing on the Issue Date of the Notes), in order (i) to acquire, establish, re-establish, replace, maintain, settle or assign any transaction(s) or any asset(s) that they deem necessary in order to hedge the risk of the Issuer owing to the conclusion and performance of its obligations pursuant to the Notes, or (ii) to realise, recover or pay the proceeds of these transaction(s) or these asset(s), on the understanding that any substantially increased amount incurred exclusively owing to the deterioration in solvency of the Issuer and/or any of its affiliates or any entities concerned by the Hedging Agreements will not be deemed to constitute an Increased Cost of Hedging.

- (iv) In the event that any Price published by the Futures Contract Sponsor, used by the Calculation Agent for the purposes of any determination (the “**Original Determination**”) is later corrected, and in the event that the correction (the “**Corrected Value**”) is published by the Futures Contract Sponsor within two Scheduled Trading Days of the original publication, and, in any event, no later than the second Scheduled Trading Day immediately preceding the date of payment of the amount due and payable pursuant to the Notes which is linked to that Original Determination, the Calculation Agent will notify the Corrected Value to the Issuer, as soon as reasonably practicable, and will determine the relevant value (the “**Replacement Determination**”) using the Corrected Value.

If the result of the Replacement Determination is different to the result of the Original Determination, the Calculation Agent may, if it so deems necessary, acting reasonably but in its sole discretion, adjust any relevant provisions of the terms of the Notes accordingly.

For the avoidance of doubt, the Noteholders may not make any claim against the Issuer or the Calculation Agent if any Original Determination is not later corrected and/or if the correction of the Original Determination is published by the Futures Contract Sponsor after the second Scheduled Trading Day immediately preceding the date of payment of the amount due and payable pursuant to the Notes and linked to that Original Determination.

- (v) The Calculation Agent must provide, as soon as practically possible, a detailed notification of all determinations and/or all adjustments, as the case may be, carried out or notified to the Issuer by the Calculation Agent pursuant to paragraphs (i), (ii), (iii) or (iv) above, after which the Issuer shall promptly provide a detailed notification of the determinations and/or adjustments thus carried out and notified by the Calculation Agent, to the Fiscal Agent and the Noteholders, in compliance with the Conditions.

(g) **Monetisation**

Means, if “**Monetisation**” is specified as applicable in the applicable Final Terms and the Calculation Agent in its sole and absolute discretion so elects, that in respect of the Final Redemption Amount, any Fixed Interest Rate, Floating Interest Rate or Structured Note coupon amount, the Issuer shall no longer be liable for the payment, (i) on any Specified Interest Payment Date following the occurrence of a Monetisation Event, of the Fixed Interest Rate, Floating Interest Rate and/or Structured Note

- (i) the fair market value of a Note based on the market conditions prevailing at the Monetisation Date and adjusted to account fully for any reasonable expenses and costs of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps or other instruments of any type whatsoever hedging the Issuer’s obligations under the Notes); and
- (ii) the Monetisation Formula.

In respect of any Fixed Interest Rate Notes and Structured coupon amount Notes, for the purposes of determining the Monetisation Amount, no accrued unpaid interest shall be payable but shall be taken into account in calculating the fair market value of each Note.

(f) Particular Provisions

- (i) If any Futures Contract (i) is not calculated and published by the Futures Contract Sponsor, but is calculated and published by a successor sponsor deemed acceptable by the Calculation Agent, or (ii) is replaced by a successor futures contract which, in the opinion of the Calculation Agent, uses the same formula and the same calculation method as those used to calculate the Futures Contract, or a substantially similar method and formula, this futures contract (the “**Successor Futures Contract**”) will be deemed to be this Futures Contract, and the Conditions shall be interpreted accordingly.
- (ii) If, in respect of any Futures Contract, on the latest or before the latest of the following dates: the last Valuation Date, the last Averaging Date, the last Knock-in Determination Date or the last Knock-out Determination Date, (a) the relevant Exchange or, as the case may be, the relevant Futures Contract Sponsor (α) announces that it will significantly change the formula or method of calculation of this Futures Contract or make any other significant change to this Futures Contract (other than a modification in order to maintain this Futures Contract in the event of changes to the Futures Contract Underlying and other routine events), (a “**Modification of the Futures Contract**”), or permanently cancels the Futures Contract, and if there is no Successor Futures Contract (a “**Withdrawal of the Futures Contract**”), or (β) fails to calculate and publish this Futures Contract (a “**Disruption of the Futures Contract**” (for the avoidance of doubt, where a successor sponsor calculates and publishes this Futures Contract deemed unacceptable by the Calculation Agent will constitute a Disruption of the Futures Contract), and, with a Modification of the Futures Contract and a withdrawal of the Futures Contract, each representing an “**Futures Contract Adjustment Event**”), or (b) if a Tax Disruption occurs, the Calculation Agent may then, in order to perform its obligations pursuant to the Notes outstanding, either:
 - (a) calculate the Price of the Futures Contract in compliance with the formula and method of calculation of this Futures Contract in force before this change, this failing or this withdrawal, but only using the Futures Contract Underlying used as reference immediately before the occurrence of the Futures Contract Adjustment Event; or (but not “and”)
 - (b) replace this Futures Contract with the Futures Contract thus modified or with the new futures contract (as the case may be), provided that in such case, (a) the Calculation Agent will make the adjustments to the new futures contract that may be required to preserve the economic equivalent of the obligation of the Issuer to pay any amount due pursuant to the Notes linked to the Futures Contracts, as if this new futures contract or modified futures contract had not replaced the Futures Contract and, if necessary, will multiply the modified futures contract or the new futures contract with an indexing factor, as determined by the Calculation Agent, and (b) the Noteholders will be notified of the modified Futures Contract or the new futures contract (as the case may be) and, if necessary, the indexing factor; or (but not “and”)

- (c) if the applicable Final Terms specify that “**Monetisation**” is applicable, apply the provisions of Condition 28(g) below relative to the Monetisation; or (but not “and”)
 - (d) require the Issuer to redeem each Note for an amount per Note equal to the Early Redemption Amount. The Early Redemption Amount will be payable by the Issuer on the fifth Business Day following notification of the Calculation Agent informing the Issuer that it has determined that the event set out in this Sub-paragraph (ii) has occurred.
- (iii) In the event that, in respect of any Futures Contract, any Price published by the relevant Futures Contract Sponsor, used by the Calculation Agent for the purposes of any determination (the “**Original Determination**”), is later corrected, and in the event that the correction (the “**Corrected Value**”) is published by the relevant Futures Contract Sponsor within two Scheduled Trading Days of the original publication, and, in any event, no later than the second Scheduled Trading Day immediately preceding the date of payment of the amount due and payable pursuant to the Notes and linked to that Original Determination, the Calculation Agent will notify the Corrected Value to the Issuer, as soon as is reasonably practicable, and will determine the value in question (the “**Replacement Determination**”) using the Corrected Value.

If the result of the Replacement Determination is different to the result of the Original Determination, the Calculation Agent may, if it so deems necessary, acting reasonably but at its sole discretion, adjust any relevant provisions of the terms of the Notes accordingly.

For the avoidance of doubt, the Noteholders may not make any claim against the Issuer or the Calculation Agent if any Original Determination is not later corrected and/or if the correction of the Original Determination is published by the relevant Futures Contract Sponsor after the second Scheduled Trading Day immediately preceding the date of payment of the amount due and payable pursuant to the Notes which is linked to that Original Determination.

- (iv) If, in respect of any Futures Contract, on the latest or before the latest of the following dates: the last Valuation Date, the last Averaging Date, the last Knock-in Determination Date or the last Knock-out Determination Date, a Change of Law, a Hedging Disruption or an Increased Cost of Hedging occurs (providing the applicable Final Terms specify as applicable), the Calculation Agent will be entitled, for the purpose of performing its obligations pursuant to the Notes outstanding, to demand of the Issuer (i) if the applicable Final Terms specify that “**Monetisation**” is applicable, that it applies the provisions relative to Monetisation provisions in Condition 28(g) below, or (ii) that it redeems each Note for an amount per Note equal to the Early Redemption Amount. The Early Redemption Amount will be payable by the Issuer on the fifth Business Day following notification by the Calculation Agent informing the Issuer that it has determined that the event set out in this Condition 28 has occurred.

Where:

“**Change of Law**” means, if specified as applicable in the applicable Final Terms, on the latest or before the latest of the following dates: the last Valuation Date, the last Averaging Date, the last Knock-in Determination Date or the last Knock-out Determination Date, (A) owing to the adoption, or any change, of any law (including, but not limited to, any tax law), rule, regulation or order, any decision, regulation or order of a regulatory or tax authority, or any regulation, rule or procedure of any stock exchange (an “**Applicable Regulation**”), or (B) owing to the promulgation of or departure from the interpretation made by any court, any tribunal or any competent regulatory authority of any law or regulation (including any measure taken by a tax authority), the Issuer or the Calculation Agent will determine, (X) whether it has become or will

become illegal or contrary to any Applicable Regulation for the Issuer and/or any of its respective affiliates or any entities concerned by the Hedging Agreements, to hold, acquire or assign Hedging Positions relative to these Notes, or (Y) whether it will incur a significantly higher cost to perform its obligations pursuant to the Notes (including, but not limited to, owing to an increase in the taxes to be paid, a reduction in tax benefits or any other adverse effect on its tax situation), or meet all applicable requirements in respect of reserves, special deposits, insurance contributions or other.

“**Hedging Positions**” means any purchase, sale, conclusion or maintenance of one or more (i) positions or contracts on securities, options, futures contracts, derivatives or currencies, (ii) securities lending operations, or (iii) other instruments or agreements (irrespective of their description), undertaken in order to hedge the risk linked to entering into and performing the obligations of the Issuer pursuant to the Notes, individually or on the basis of a portfolio.

“**Hedging Agreements**” means any hedge agreements entered into by the Issuer (and/or any of its respective affiliates) or any entities concerned by the Hedging Agreements entered into at any time in order to hedge the Notes, including, but not limited to, the purchase and/or sale of all securities, all options or all futures contracts on these securities, all certificates of deposit for these securities, and all related transactions on currency.

“**Hedging Disruption**” means, if specified as applicable in the Final Terms, the Issuer and/or any of its respective affiliates, or any entities concerned by the Hedging Agreements, are unable, in spite of commercially reasonable efforts, (i) to acquire, establish, re-establish, replace, maintain, settle or hold any transaction(s) or any asset(s) that they deem necessary in order to hedge the risk resulting for this entity from the conclusion and performance of its obligations pursuant to the Notes, or (ii) to realise, recover or pay the proceeds of these transaction(s) or these asset(s).

“**Increased Cost of Hedging**” means, if specified as applicable in the Final Terms, the Issuer and/or any of its respective affiliates or any entities concerned by the Hedging Agreements, incur any substantially increased amount of taxes, duties, costs or commission (other than brokerage commissions) (in comparison to the circumstances existing on the Issue Date of the Notes), (i) to acquire, establish, re-establish, replace, maintain, settle or assign any transaction(s) or any asset(s) that they deem necessary in order to hedge the risk of the Issuer owing to the conclusion and performance of its obligations pursuant to the Notes, or (ii) to realise, recover or pay the proceeds of these transaction(s) or these asset(s), on the understanding that any substantially increased amount incurred exclusively owing to the deterioration in solvency of the Issuer and/or any of its affiliates or any entities concerned by the Hedging Agreements will not be deemed to constitute an Increased Cost of Hedging.

- (v) The Calculation Agent must provide, as soon as practically possible, a detailed notification of all determinations and/or all adjustments, as the case may be, carried out or notified to the Issuer by the Calculation Agent pursuant to sub-paragraphs (i), (ii), (iii) or (iv) above after which the Issuer shall promptly provide a detailed notification of the determinations and/or adjustments thus carried out and notified by the Calculation Agent, to the Fiscal Agent and the Noteholders, in compliance with the Conditions.

(g) ***Monetisation***

Means, if “**Monetisation**” is specified as applicable in the applicable Final Terms and the Calculation Agent in its sole and absolute discretion so elects, that in respect of the Final Redemption Amount, any Fixed Interest Rate, Floating Interest Rate or Structured Note coupon amount, the Issuer shall no longer be liable for the payment, (i) on any Specified Interest Payment Date following the occurrence

of a Monetisation Event, of the Fixed Interest Rate, Floating Interest Rate and/or Structured Note coupon amount initially scheduled to be paid on such Specified Interest Payment Date(s) and (ii) on the Maturity Date, of the Final Redemption Amount initially scheduled to be paid on the Maturity Date, but instead will, in full and final satisfaction and discharge of its obligations of payment under the Notes, pay on the Maturity Date an amount per Note as calculated by the Calculation Agent as of the Monetisation Date until the Maturity Date (the “**Monetisation Amount**”) equal to the product of:

- (i) the fair market value of a Note based on the market conditions prevailing at the Monetisation Date and adjusted to account fully for any reasonable expenses and costs of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps or other instruments of any type whatsoever hedging the Issuer’s obligations under the Notes); and
- (ii) the Monetisation Formula.

In respect of any Fixed Interest Rate Notes and Structured coupon amount Notes, for the purposes of determining the Monetisation Amount, no accrued unpaid interest shall be payable but shall be taken into account in calculating the fair market value of each Note.

For the purposes of this Condition 28(g):

“**Monetisation Date**” means the date as of which the Monetisation provisions shall be effective, as determined by the Calculation Agent in its sole and absolute discretion and which shall be no earlier than the date of occurrence of the relevant Monetisation Event.

“**Monetisation Event**” means any event specified in Condition 28(f) (Particular Provisions) which, in the determination of the Calculation Agent, triggers the Monetisation provisions, as set forth in Condition 28(f) (Particular Provisions).

(h) Range Accrual Interest

- (i) Definitions

“**Reference Dates**” means the dates as indicated in the applicable Final Terms or, if one of these dates is not a Monitoring Day, the next Monitoring Day.

“**Monitoring Day**” means, in respect of any Observation Period, any day included in this Observation Period which is a Scheduled Trading Day for each Futures Contract composing the Basket, subject to the “Consequences of Disrupted Day(s)” described below.

“**Number of Monitoring Days**” means, in respect of any Observation Period, the number of Monitoring Days included in this Observation Period.

“**Number of Triggering Days**” means, in respect of any Observation Period, the number of Monitoring Days included in this Observation Period which are Triggering Days.

“**Trigger Valuation Time**” means, in respect of any Futures Contract, the time or period of time, on any Monitoring Day, as indicated in the applicable Final Terms; otherwise, if the applicable Final Terms do not specify any Trigger Valuation Time, the Trigger Valuation Time will be the Valuation Time.

“**Triggering Day**” means any Monitoring Day where:

- (i) if the applicable Final Terms stipulate that “**Separate Valuation**” is applicable, the Futures Contract Price, as determined by the Calculation Agent on the Trigger Valuation Date of this Monitoring Day;

OR

- (ii) if the applicable Final Terms stipulate that “**Separate Valuation**” is not applicable, an amount for the Basket, determined by the Calculation Agent, equal to the sum of the values of each Futures Contract, being, for each Futures Contract, the product obtained by multiplying (i) the Futures Contract Price, as determined by the Calculation Agent at the Trigger Valuation Time on this Monitoring Day, by (ii) the applicable Weighting,

is, as indicated in the applicable Final Terms, (i) “greater than”, (ii) “greater than or equal to”, (iii) “less than” or (iv) “less than or equal to” the Trigger Price in question.

“**Observation Period**” means any period that begins on any Reference Date (not inclusive) and ends on the following Reference Date (inclusive), on the understanding, to avoid any ambiguity, that the first Observation Period will begin on the first Reference Date (not inclusive) and that the last Observation Period will end on the last Reference Date (inclusive).

“**Trigger Price**” means:

- (i) if the applicable Final Terms stipulate that “**Separate Valuation**” is applicable, in respect of any Futures Contract, the Futures Contract Price as indicated or determined as a percentage in the applicable Final Terms;

OR

- (ii) if the applicable Final Terms stipulate that “**Separate Valuation**” is not applicable, the Price per Basket as indicated or determined as a percentage in the applicable Final Terms,

subject to the “Particular Provisions” featuring in Condition 28(f) above.

“**Range Accrual Interest Rate**” means, in respect of any Observation Period, a rate determined by the Calculation Agent, expressed in the form of a percentage, to the number of Triggering Days included in this Observation Period, divided by the number of Monitoring Days included in this Observation Period.

- (ii) Provisions

If the applicable Final Terms stipulate that “**Range Accrual Interest**” is applicable, the provisions of this Condition 28(h) will apply to every Interest Amount and/or to the Redemption Amount, subject to determining the Range Accrual Interest Rate applicable.

- (iii) Consequences of Disrupted Days

If a Monitoring Day is a Disrupted Day, this Monitoring Day will be deemed not to be a Monitoring Day and it will therefore not be taken into account in determining the Number of Monitoring Days and the Number of Triggering Days.

29 Terms for Credit Linked Notes

These Terms apply if and as specified by the Final Terms.

(a) General

- (i) Provisions concerning Credit Events

The Final Terms shall specify:

- (a) the type of CLNs (*Credit Linked Notes*, abbreviated to: “**CLN**”), which may be (a) Single Entity CLNs with American Settlement, (b) Single Entity CLNs with European

Settlement, (c) Basket CLNs with American Settlement or (d) Basket CLNs with European Settlement;

- (b) the Settlement Method;
 - (c) the Reference Entity or the Reference Entities in respect of which a Credit Event may arise;
 - (d) the Reference Obligation or the Reference Obligations (if there are any) in respect of each Reference Entity;
 - (e) the Trade Date and the Scheduled Maturity Date;
 - (f) the Interest Payment Date(s), the Final Redemption Date and, where appropriate, the Partial Redemption Date;
 - (g) the Final Redemption Amount and, where appropriate, the Partial Redemption Amount;
 - (h) the Coupon and, where appropriate, the Reference Entity Coupon;
 - (i) the Transaction Type applicable to each Reference Entity; and
 - (j) the Reference Entity Nominal Amount in respect of each Reference Entity.
- (ii) Physical Settlement Matrix

If the Final Terms specify a Transaction Type in respect of any Reference Entity, the provisions of these Final Terms shall apply in respect of such Reference Entity in accordance with the Physical Settlement Matrix, as applied to this Transaction Type, in the same way as if this Physical Settlement Matrix were reproduced in full in the Final Terms.

- (iii) Basket CLNs

If the CLNs are Basket CLNs, the provisions of this Condition 29 concerning the redemption of CLNs following satisfaction of the Settlement Conditions, extension of the maturity of the CLNs in the event of Notification of an Extension to the Redemption Date, cessation or suspension of the accrual of interest, or the accrual and payment of interest following the Scheduled Maturity Date, shall apply separately in respect of each Reference Entity, and to the amount in principal of each CLN corresponding to the Reference Entity Nominal Amount concerned divided by the number of CLNs then issued. The remaining provisions of this Condition 29 shall be interpreted accordingly,

(b) Redemption

- (i) Redemption in the absence of satisfaction of the Settlement Conditions

The Issuer shall redeem each CLN on the relevant CLN Maturity Date (as such date may be extended in accordance with the definition of CLN Maturity Date) by paying an amount equal to the outstanding principal amount of such Note (or, in the case of Basket CLNs, the relevant portion thereof) (plus, as the case may be, any interest payable thereon), unless the CLNs have been previously repaid or redeemed or cancelled in full (including in accordance with Condition 29(b)(ii) or 29(b)(iii)).

- (ii) Redemption following satisfaction of the Settlement Conditions

Following satisfaction of the Settlement Conditions in respect of any Reference Entity, each CLN (or, in the case of Basket CLNs, the relevant portion thereof) shall be redeemed:

- (a) if the applicable Settlement Method is Auction Settlement, by payment of its pro rata share of the Auction Settlement Amount on the Auction Settlement Date, unless a Fallback Settlement Event arises, in which case the Issuer shall fulfil its payment obligations in accordance with the Fallback Settlement Method. If the Settlement Conditions in respect of a new Credit Event are satisfied following the occurrence of a Fallback Settlement Event in respect of a first Credit Event, and if no Fallback Settlement Event arises in respect of such new Credit Event, the Issuer shall, if it so decides at the latest on the Evaluation Date concerned, repay the CLNs in accordance with this Condition 29(b)(ii)(b), by means of Auction Settlement;
- (b) if the applicable Settlement Method is Cash Settlement, by payment of its pro rata share of the Cash Settlement Amount on the Cash Settlement Date.

(iii) Suspension of obligations

If a Credit Event Resolution Request Date arises, or if notification is delivered to ISDA as provided for in the definition of “Credit Event Resolution Request Date” in relation to any Reference Entity, then (unless the Issuer otherwise decides by sending notification to the Calculation Agent and to the CLN Noteholders), as from the effective date of such notification (and notwithstanding the fact that the competent Credit Derivatives Determinations Committee must still determine whether Publicly Available Information is available or whether a Credit Event has occurred) any obligation held by the Issuer to redeem any CLN (even under Condition 29(b)(ii)) or to pay any amount of interest otherwise due on such Note, shall be and shall remain suspended to the extent that it relates to the relevant Reference Entity, until ISDA announces publicly that the Credit Derivatives Determinations Committee has Resolved in respect of such Reference Entity:

- (a) the matters described in sub-paragraphs (i) and (ii) of the definition of the expression “Credit Event Resolution Request Date”; or
- (b) not to determine such matters.

During such period of suspension, the Issuer shall not be required or authorised to take any measure whatsoever in relation to the settlement of CLNs, in each case to the extent that it relates to the relevant Reference Entity. Once ISDA has publicly announced that the Credit Derivatives Determinations Committee has Resolved regarding the questions referred to in sub-paragraphs (A) and (B) above, such suspension shall end and the execution of all obligations thus suspended shall resume based on that decision, as from the CLN Business Day following such public announcement by ISDA, the Issuer having the benefit of the whole day irrespective of the time of commencement of the suspension. Any amount of interest thus suspended shall become due, subject in any event to Condition 29(c)(i), at the latest 15 London and Paris Business Days after such public announcement by ISDA.

For the avoidance of doubt, no interest shall accrue on any payments in principal or interest deferred in accordance with this Condition 29(b)(iii).

(iv) General provisions relating to redemption

For the purposes of Basket CLNs with American Settlement, in the event of partial redemption, the outstanding nominal amount on each Note shall be reduced pro rata for all purposes (including the accrual of interest thereon) to reflect such partial redemption.

The redemption of any CLN in accordance with this Condition 29(b), and the payment of interest (where appropriate) due thereon, shall discharge all of or the relevant portion of the Issuer’s obligations thereto.

Any amount payable pursuant to Condition 29(b)(ii) shall be rounded downwards to the nearest sub-unit of the relevant currency.

(c) Interest

(i) Cessation of interest accrual

Upon the occurrence of a Credit Event Determination Date in respect of a Reference Entity, the interest on the relevant CLN (or, in the case of Basket CLNs, the relevant portion thereof) shall cease to accrue with effect from the Credit Event Determination Date (included).

(ii) Interest following the Scheduled Maturity Date

Subject, in any event, to the provisions of Condition 29(c)(i) in the event of a Credit Event and the provisions of Condition 29(c)(iii), if a Maturity Date Extension Notice has been given (other than under sub-paragraph (iv) of the definition of “Maturity Date Extension Notice”), each CLN (or, in the case of Basket CLNs, the relevant portion of such CLN) outstanding after the Scheduled Maturity Date shall continue to accrue interest as from the Scheduled Maturity Date (included) up to the corresponding CLN Maturity Date (not included), at an interest rate equal to the rate that Natixis would pay an independent client for overnight deposits in the currency of the CLNs over the period in question.

For the avoidance of doubt, if a Maturity Date Extension Notice has been given under sub-paragraph (iv) of the definition of such Maturity Date Extension Notice, no interest shall accrue as from the Scheduled Maturity Date (included) up to the corresponding CLN Maturity Date (not included).

(iii) Interest Payment Date(s)

If the CLNs are redeemed under Condition 6 or this Condition 29, the Scheduled Maturity Date, the CLN Maturity Date (if it is not the Scheduled Maturity Date), the Auction Settlement Date or the Cash Settlement Date, as appropriate, shall be a Coupon Payment Date in respect of each CLN (or, in the case of Basket CLNs, the relevant portion thereof), and the Issuer shall pay the interest accrued on each CLN (or fraction applicable, where appropriate) on such Coupon Payment Date.

(d) Provisions concerning the Obligation Category and the Obligation Characteristics

(i) Obligation Characteristics

If the Obligation Characteristic “Listed” is specified in the applicable Final Terms, or is applicable in respect of the Transaction Type concerned, the Final Terms shall be interpreted in the same way as if the Listed Obligation Category had only been specified as an Obligation Characteristic for the Bonds alone, and shall only apply if the Bonds are covered by the Obligation Category selected.

(ii) Qualifying Guarantee

If an Obligation is an Qualifying Guarantee, the following provisions shall apply:

- (a) For the purposes of application of the Obligation Category, the Qualifying Guarantee shall be deemed to be described by the same category or categories as those describing the Underlying Obligation;
- (b) For the purposes of application of the Obligation Characteristics, the Qualifying Guarantee and the Underlying Obligation shall satisfy, on the date in question, each of the Obligation Characteristics applicable, specified in the applicable Final Terms, or

applicable in respect of the relevant Transaction Type, on the following list: Specified Currency, Not Sovereign Lender, Not Domestic Currency and Not Domestic Law. For this purpose, (A) the currency having legal tender in one of the following countries, namely Canada, Japan, Switzerland, United Kingdom or United States of America, or the Euro, shall not be a Domestic Currency and (B) English law and the law of New York State shall be a Not Domestic Law;

- (c) For the purposes of application of the Obligation Characteristics, only the Qualifying Guarantee shall satisfy, on the date in question, the “Not Subordinated” Obligation Characteristic, if it is specified in the applicable Final Terms or is applicable in respect of the Transaction Type concerned;
- (d) For the purposes of application of the Obligation Characteristics, only the Underlying Obligation shall satisfy, on the date in question, each of the Obligation Characteristics applicable, specified in the applicable Final Terms or applicable in respect of the Transaction Type concerned;
- (e) For the purposes of application of the Obligation Characteristics to an Underlying Obligation, the references to the Reference Entity are deemed to refer to the Underlying Debtor;
- (f) The expression “*Outstanding Principal Balance*” (as used in this Condition 29, included, without limitation, in the definitions of the “*Cash Settlement Amount*” and “*Quotation Amount*”), when it is used in relation to the Qualifying Guarantees, shall be interpreted as designating the “*Outstanding Principal Balance*” at the time considered of the Underlying Obligation guaranteed by an Qualifying Guarantee;
- (g) For the avoidance of doubt, the provisions of this Condition 29(d) shall apply in respect of the definitions of the term “*Obligation*” insofar as the context permits.

(e) ***Succession Event***

(i) Single Reference Entity

If the Notes are Single Entity CLNs and if a Succession Event arises, giving rise to the identification of more than one Successor, each CLN shall be deemed for all purposes to have been divided into the same number of new CLNs as there are Successors, under the following conditions:

- (a) Each Successor shall be a Reference Entity for the purposes of one of the new CLNs deemed to result from such division;
- (b) For each new CLN deemed to result from such division, the Reference Entity Nominal Amount shall be the Reference Entity Nominal Amount applicable to the original Reference Entity, divided by the number of Successors; and
- (c) All the other Conditions of the original CLNs shall be reproduced in each new CLN deemed to result from such division, except to the extent that a change is required, as determined by the Calculation Agent, in order to preserve the economic effects of the original CLNs for the benefit of the new CLNs deemed to result from such division (considered in the aggregate).

(ii) Basket CLNs

If the CLNs are Basket CLNs, and if one or more Successors have been identified in respect of a Reference Entity which has been subject to a Succession Event (the “**Affected Entity**”):

- (a) The Affected Entity shall no longer be a Reference Entity (unless it is a Successor);
- (b) Each Successor shall be deemed to be a Reference Entity (in addition to each Reference Entity that is not an Affected Entity);
- (c) The Reference Entity Nominal Amount for each of such Successors shall be equal to the Reference Entity Nominal Amount of the Affected Entity, divided by the number of Successors;
- (d) The Calculation Agent may make any changes to this Condition 29 required to preserve the economic effects of the Obligations prior to the Succession Event (considered in the aggregate); and
- (e) For the avoidance of doubt, a Reference Entity may, following a Succession Event, be represented in the reference portfolio with respect to several Reference Entity Notional Amounts.

(iii) Substitute Reference Obligations

If:

- (a) a Reference Obligation is specified in the applicable Final Terms;
- (b) one or more Reference Entity Successors have been identified; and
- (c) one or more of such Successors have not assumed the Reference Obligation,

a Substitute Reference Obligation shall be determined in accordance with the definition of “Substitute Reference Obligation”.

(f) General provisions concerning CLNs

(i) Determinations of the Calculation Agent

The Calculation Agent’s determination of any amount or of any situation, any circumstance, any event or any other question, the formation of any opinion or exercise of any discretionary power that must or can be determined, formed or exercised by the Calculation Agent under this Condition 29, respectively, shall be (except in the event of manifest error) final and binding on the Issuer or the CLN Noteholders. In exercising his duties in respect of the CLNs, the Calculation Agent shall act in its sole and absolute discretion and, save as expressly stipulated otherwise, shall not be required to follow the determinations of the competent Credit Derivatives Determinations Committee, or to act in accordance therewith. If the Calculation Agent is required to make any determination, it may, *inter alia*, rule on questions of construction and legal interpretation. If the Calculation Agent chooses to rely on the determinations of the Credit Derivatives Determinations Committee, it may do so without incurring any liability. Any delay, deferral or forbearance demonstrated in the execution of any of the obligations of the Calculation Agent or in the exercise of any of its discretionary powers in respect of the CLNs, including, without limitation, the serving of any notification by the Calculation Agent on any person whatsoever, shall not affect the validity or the compulsory nature of any subsequent performance of such obligation or of any subsequent exercise of such discretionary power, and neither the Calculation Agent nor the Issuer shall assume any liability in respect of or as a result of such delay, such deferral or such forbearance, except in the event of wilful negligence or gross negligence.

If, where the Calculation Agent has followed a DC Resolution for the purposes of any calculation or determination relating to the Notes, ISDA announces publicly that such DC Resolution has been invalidated by a subsequent DC Resolution, such invalidation shall be

taken into account for the purposes of any subsequent calculation, except in the case where the Notes that would have normally been affected by such invalidation have already been redeemed (in the case of a partial redemption, with the exception of such Notes partially repaid). The Calculation Agent, acting in a commercially reasonable manner, shall make all necessary adjustments to future payments to take this invalidation into account, including any payment of additional interest, any reduction in an amount of interest or any other amount payable in respect of the Notes. For the avoidance of doubt, interest accrued up to and including the date of calculation of such adjustments shall not be affected.

(ii) Changes to this Condition 29 in relation to adjustments

The Calculation Agent, acting reasonably, may make changes to this Condition 29 directly resulting from adjustments made pursuant to the provisions of this Condition 29, such as the provisions concerning succession events in Condition 29(e) and to the extent necessary to ensure consistency with the prevailing market standards or market conventions.

The Calculation Agent shall notify the Issuer and the CLN Noteholders of any such change as soon as is reasonably possible.

In particular, the Calculation Agent may make any changes necessary to ensure consistency with subsequent definitions published by ISDA superseding the “2003 ISDA Credit Derivatives Definitions” (the “**Successor Provisions**”) for the purposes of transactions on credit derivatives in general (even with regard to transactions concluded prior to the publication date concerned or still in progress at that date) and/or may apply and/or rely on determinations made by the Credit Derivatives Determinations Committee relating to a relevant Reference Entity in respect of such Successor Provisions, notwithstanding any difference between the conditions of these Successor Provisions and this Condition 29.

(iii) Delivery of notices

As soon as is reasonably possible following receipt of a Credit Event Notice or Notice of Publicly Available Information issued by the Calculation Agent, the Issuer shall notify the CLN Noteholders without delay, or ensure that the Calculation Agent notifies the CLN Noteholders thereof, in accordance with the provisions of Condition 15. The resolutions of the Credit Derivatives Determinations Committee are available, at the date hereof, on the ISDA website (www.isda.org/credit).

(iv) Effective date of notices

Any notice referred to in Condition 29(f)(iii) above issued prior to 17:00 (Paris time) on a London and Paris Business Day shall take effect on that date, and if it is issued after that time or on a day other than a London and Paris Business Day, shall be deemed to take effect on the first following London and Paris Business Day.

(v) Excess amounts

If, on a London and Paris Business Day, the Calculation Agent determines reasonably that an excess amount has been paid to the Noteholders at that date or prior thereto, then, after notifying the Issuer and the Noteholders of the determination of an excess amount in accordance with Condition 15, the Issuer may deduct such excess amount from future payments relating to the Notes (whether in respect of principal or interest), acting within reason, as necessary to offset such excess amount.

(g) **Definitions**

In this Condition 29:

“**Accreted Amount**” means, for a Accreting Obligation, an amount equal to:

- (i) The sum composed of:
 - (A) The original issue price of that Obligation; and
 - (B) The portion of the amount payable at maturity that has been accreted according to the Obligation Terms (or as otherwise described below), less
- (ii) Any cash payments made by the debtor which, according to the terms of such Obligation, reduce the amount payable at maturity (unless such cash payments have been taken into account in sub-paragraph (i)(B) above), in each case calculated at the first of the following dates:
 - (A) The date of occurrence of any event having the effect of fixing the amount of a request in respect of principal; or
 - (B) The Valuation Date applicable, where appropriate.

This Accreted Amount shall only include periodic payments of interest in cash, accrued and unpaid (as determined by the Calculation Agent), provided that the applicable Final Terms stipulate that the “*Include Accrued Interest*” clause is stipulated as being applicable in the applicable Final Terms. If an Accreting Obligation has to increase by a linear method, or if the return on such Obligation at maturity is not specified in the Terms of such Obligation or cannot be implicitly deduced, the Accreted Amount shall be calculated for the purposes of sub-paragraph (i)(B) above, using a rate equal to the return at maturity of such Obligation. Such return shall be determined based on an equivalent semi-annual bond, using the initial issue price of such Obligation, and shall be determined at the first of the following dates occurring: (x) the date of occurrence of any event having the effect of fixing the amount of a request in respect of principal and (y) the Valuation Date, where appropriate. The Accreted Amount shall exclude, in the case of a Convertible Obligation or an Exchangeable Obligation, any amount that is payable under the Terms of such Obligation in respect of the value of the Equity Securities against which that Obligation is convertible or exchangeable.

“**Accreting Obligation**” means any Obligation (including, without limitation, a Convertible Obligation or an Exchangeable Obligation), whose terms expressly provide that the amount payable in the event of early callability or early redemption shall be equal to the initial issue price (whether equal or not to the nominal value), plus one or more additional amounts (to take into account the discount on the initial issue or the amount of interest accrued or the amount in principal not payable on a periodic basis), increasing or that may increase, when:

- (A) Several specific Reference Obligations are identified as a Reference Obligation, if any of the events referred to in sub-paragraph (i) above arises in respect of all the Reference Obligations, and if the Calculation Agent determines that no Substitute Reference Obligation is available for one of the Reference Obligations; or
 - (B) A single specific Reference Obligation is identified as a Reference Obligation for the CLNs, if any of the events referred to in sub-paragraph (i) above arises in respect of such Reference Obligation, and if the Calculation Agent determines that no Substitute Reference Obligation is available for such Reference Obligation, the Calculation Agent

shall continue to try and identify a Substitute Reference Obligation up to the Maturity Date Extension.

- (vi) For the purposes of identifying a Reference Obligation, any change in the CUSIP or ISIN code of the Reference Obligation or any other similar identifier shall not, in itself, result in converting such Reference Obligation into a different Obligation.

In the calculation carried out in order to ascertain whether the percentages used to determine the limits concerned set out above have been reached or, depending on the circumstances, which entity satisfies the conditions set out in sub-paragraph (i)(F) above, the Calculation Agent must use, for each applicable Obligation Concerned and included in this calculation, the amount of the debt relative to this Obligation Concerned, which features in the Best Available Information, and must notify this calculation to the Issuer and to the Holders of CLNs; on the understanding that the Calculation Agent shall not proceed with this determination if, on that date:

“**Weighted Average Quotation**” means, in accordance with the purchase prices supplied by the Dealers, the weighted average of the firm prices obtained from Dealers at the Valuation Time, insofar as is reasonably possible, each for an amount of the Reference Obligation, having a Outstanding Principal Balance as large as possible in terms of volume, but less than the Quotation Amount, whose total is approximately equal to the Quotation Amount.

These Terms apply if and as the applicable Final Terms specify.

(a) ***Payments of or redemption and/or as interest***

“**Domestic Currency**” means a currency specified as such in the applicable Final Terms.

“**Foreign Currency**” means a currency specified as such in the applicable Final Terms.

If, in respect of an Observation Date, a Reference Exchange Rate is not published by the Exchange Rate Source, but is published or disseminated on such date by other sources of information, such Reference Exchange Rate shall be determined by the Calculation Agent based on such other sources of information available.

(c) *Successor Exchange Rate*

If at any time, on or after the Issue Date, any one of the Reference Exchange Rates indicated in the applicable Final Terms is replaced by another rate published, supervised, recognised, disseminated or adopted by a public authority or any other body governed by public or private law responsible for regulation of the financial markets (including the central bank) in the Reference Exchange Rate Jurisdiction, the Calculation Agent shall use such new rate.

(d) *Changing the Currency*

If, at any time, on or after the Issue Date, a Subject Currency or a Currency referred to in a Reference Exchange Rate which was legal tender in the country or the zone concerned is removed, converted, reissued or exchanged in reference to the currency that was legal tender in the country or the zone concerned on the Issue Date (or any other currency which has in the meantime succeeded it), the Calculation Agent shall proceed with the conversion of the original currency into the new currency, using the conversion or exchange rate established, recognised and used for these purposes by the country or the zone concerned, on the most recent date on which the removal, conversion, reissue or exchange concerned has occurred.

(e) *Specific Adjustment Event*

The occurrence of one of the events below constitutes a Specific Adjustment Event if specified as a Specific Adjustment Event in the applicable Final Terms:

“**Exchange Rate Disruption**” means the occurrence of any event or condition (notably any Change of Law or any government action) which, according to the Calculation Agent, acting in good faith and in a commercially reasonable manner, renders it impossible, illegal or unpractical (i) to convert the Base Currency into the Subject Currency using the usual statutory methods, or (ii) for non-residents of the Base Currency Jurisdiction, to convert the Base Currency into the Subject Currency under conditions which are as favourable as those generally available for the residents of the Base Currency Jurisdiction, or (iii) for the residents or non-residents of the Base Currency Jurisdiction, to transfer funds, including funds in a currency other than the Base Currency, from accounts situated in the Base Currency Jurisdiction to accounts situated outside the Base Currency Jurisdiction, or between accounts situated in the Base Currency Jurisdiction or by or to non-residents of the Base Currency Jurisdiction.

“**Non-deliverability of the Subject Currency**” means the situation in which, at the time where any payment of the principal, of a premium, of interest and/or of additional amounts or other amounts, where applicable, is due under the Notes (each a “**Required Payment**”), the Subject Currency (i) is no longer used by the government of the Subject Currency Jurisdiction for the payment of public and private debts, or (ii) is no longer used for settlement of transactions by public institutions in the Subject Currency Jurisdiction or within the international banking community, or (iii) is no longer considered available when any Required Payment is due, on account of circumstances which are beyond the Issuer’s control.

For the purposes of this Condition, “**Base Currency**”, “**Subject Currency**”, “**Base Currency Jurisdiction**” and “**Subject Currency Jurisdiction**” have respectively the same meanings as those provided for in the applicable Final Terms.

On or after the occurrence of a Specific Adjustment Event, the Issuer may fulfil its obligations in respect of a Required Payment by making this Required Payment in the Fallback Payment Currency, converted from the Subject Currency, on the basis of the Fallback Reference Rate (the “**Fallback Payment Amount**”). Any payment made in accordance with this Condition in the Fallback Payment Currency shall constitute a valid payment and shall not constitute default in respect of the Notes. Communications, opinions, decisions, calculations, proposals and decisions handed down, expressed, issued or obtained from or by the Issuer according to this Condition, shall be done so at its sole discretion and shall be (in the absence of manifest error, wilful misconduct or bad faith) decisive and binding for the Issuer, the Paying Agents and the Noteholders. Investors shall hereby be regarded as being informed of and having approved this document and as having waived the assertion of any current or potential conflict of interests which might arise as a result of calculation of the Fallback Payment Amount by the Issuer.

For the purposes of this Condition, “**Fallback Payment Currency**” and “**Fallback Reference Rate**” have respectively the same meanings as those provided for in the applicable Final Terms.

(f) Adjustment of Observation Dates

When an Observation Date does not fall on an Exchange Rate Business Day, such Observation Date shall be adjusted in accordance with the Business Day Convention indicated in the applicable Final Terms.

(g) General Adjustment Event

(h) Consequences of the occurrence of a General Adjustment Event

If on any Observation Date a General Adjustment Event occurs, the Calculation Agent, acting reasonably, but in his discretion, shall apply the Fallback Rules in the applicable General Adjustment Events and according to the order indicated in the Final Terms.

Disruption Fallback in case of General Adjustment Events means one of the following sources or methods of determination of the relevant exchange rates:

“**Observation Date Delay**” means that the Calculation Agent shall determine that the Observation Date shall be the first Exchange Rate Business Date following the Observation Date concerned which is not a Disrupted Day, unless each day included in the number of consecutive Exchange Rate Business Days, corresponding to the number of Maximum Specified Disrupted Days immediately after the Observation Date concerned, is a Disrupted Day, in which case, the Calculation Agent shall determine that the last consecutive Scheduled Trading Day shall be deemed to be the Observation Date

and shall apply the next Fallback Rule in the General Adjustment Event according to the order specified in the Final Terms.

“**Application of the Fallback Rate**” means that the Calculation Agent shall use the Fallback Rate indicated in the applicable Final Terms. If the Fallback Rate is not available on the Scheduled Trading Day after the end of the fallback monitoring period, the Calculation Agent shall apply the following Fallback Rule in the Adjustment Event according to the order specified in the Final Terms.

“**Determination by the Calculation Agent**” means that the Calculation Agent shall determine the FX (or a method to determine the FX) in a commercially reasonable way, taking account of all the available information which, in good faith, it deems suitable.

Notwithstanding any contrary provision in the Terms and Conditions of the Notes, any date of payment scheduled to be made on an Observation Date affected by a General Adjustment Event shall be postponed up to the Exchange Rate Business Day following the date on which the Calculation Agent determines the exchange rate concerned, according to the applicable Fallback Rules in the General Adjustment Event, and no interest or other amount must be paid by the Issuer in respect of such deferral.

(j) ***Additional Adjustment Events applicable to all Currency Linked Notes***

If the Calculation Agent determines that an Additional Adjustment Event has occurred, the Issuer may redeem the Notes by notifying the Noteholders in accordance with Condition 15. If the Notes are thus redeemed, the Issuer shall pay an amount to each Noteholder in respect of each Note that it holds, corresponding to the fair market value of the Note taking account of the Additional Adjustment Event, minus the reasonable costs for the Issuer and/or its affiliates for unwinding underlying hedging arrangements, all as determined by the Calculation Agent in its discretion. Noteholders shall be notified of each such payment in accordance with Condition 15.

“**Additional Adjustment Event**” means any Change of Law, any Hedging Disruption and any Increased Cost of Hedging.

“**Change of Law**” means, if the Final Terms specify that this condition is applicable, the fact that, on the trade date or after that date (A) on account of the adoption of or any change to any applicable law or regulation (including but not limited to any tax law or any solvency or capital requirement), or (B) on account of the promulgation or reversal of the interpretation made thereof by any court, tribunal or regulatory authority with jurisdiction, of any law or regulation (including any measure taken by a tax or financial authority), the Issuer determines:

- (i) that it is unable to fulfil its obligations under the Notes or that it is illegal or contrary to applicable regulations for it to hold, acquire or dispose of Hedging Positions in relation to such Notes; or
- (ii) that there is a significant increase in the costs to it and/or to its affiliates (including, but without limitation to, increases related to any taxation law or any solvency or capital requirement) of holding, acquiring or dispensing of Hedging Positions in relation to such Notes.

“**Hedging Disruption**” means, if the Final Terms specify that this condition is applicable, the Issuer and/or any one of its affiliates or all entities concerned by the Hedging Agreements, is unable, despite commercially reasonable efforts, (A) to acquire, establish, re-establish, replace, maintain, unwind or dispose of any transaction(s), any asset(s) or any contract(s) that they may deem necessary in order to cover the risk arising from that entity from the conclusion and fulfilment of its obligations by virtue of the Notes, or (B) to realise, recover or pay the income from that (these) transaction(s) or this (these) contract(s) relative to these Notes.

“**Increased Cost of Hedging**” means, if the Final Terms specify that this condition is applicable, the Issuer and/or any one of its affiliates or all entities concerned by the Hedging Agreements, incur an amount of duties, taxes, costs or commissions (other than brokerage commissions) which is substantially increased (compared to the circumstances existing on the Note trade date), in order (A) to acquire, establish, re-establish, replace, maintain, unwind or transfer any transaction(s) or any asset(s) which they may deem necessary to hedge the risk (in particular but not limited to exchange and interest rate risks) of the Issuer on account of the conclusion and fulfilment of its obligations by virtue of the Notes, or (B) to realise, recover or pay the income from this transaction or these transactions or from this asset or these assets, on the understanding that any substantially increased amount incurred exclusively on account of deterioration of the solvency of the Issuer and/or of any of its respective affiliates or of all entities concerned by the Hedging Agreements shall not be deemed to constitute an Increased Cost of Hedging.

For the requirements of this section:

“**Hedging Agreements**” means all hedge agreements concluded by the Issuer and/or any of its respective affiliates or all entities concerned by the Hedging Agreements concluded at any time in order to hedge the Notes, including, but not restricted to, the purchase and/or sale of all transferable securities, all options or all futures contracts on these transferable securities, all certificates of deposit in respect of these transferable securities, and all corresponding transactions on currencies.

31 Terms for Inflation Linked Notes

These Terms apply if and as the applicable Final Terms specify.

(a) *Delay in Publication*

If the Calculation Agent determines that a Delayed Index Level Event in respect of an Index has occurred with respect to any Determination Date, then the Relevant Level with respect to any Reference Month which is to be used in any calculation or determination to be made by the Calculation Agent and/or the Issuer with respect to such Determination Date (the “**Substitute Inflation Index Level**”) shall be determined by the Calculation Agent (subject to Condition 31(c)(ii) below), as follows:

- (i) if Related Bond is specified as applicable in the applicable Final Terms, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the corresponding index level determined under the terms and conditions of the Related Bond; or
- (ii) if (a) Related Bond is specified as not applicable in the applicable Final Terms, or (b) the Calculation Agent is not able to determine a Substitute Inflation Index Level under (a) above, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

(A) $\text{Substitute Inflation Index Level} = \text{Base Level} \times (\text{Latest Level}/\text{Reference Level})$; or

(B) otherwise in accordance with any formula specified in the applicable Final Terms,

where:

“**Base Level**” means the level of the Index (excluding any “flash” estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined.

“**Latest Level**” means the level of the Index (excluding any “flash” estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being determined.

“**Reference Level**” means the level of the Index (excluding any “flash” estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall promptly give notice to Noteholders in accordance with Condition 15 of any Substitute Inflation Index Level.

If the Relevant Level is published or announced at any time on or after the relevant Cut-Off Date, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Condition 31(a) will be the definitive level for that Reference Month.

(b) Successor Index

If the Calculation Agent determines that the level of an Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Index and/or the Index Sponsor cancels the Index then the Calculation Agent shall determine a successor index (a “**Successor Index**”) (in lieu of any previously applicable Index) for the purposes of any determination under the Notes as follows:

- (i) if Related Bond is specified as applicable in the applicable Final Terms, the Calculation Agent shall designate a “Successor Index” by reference to the corresponding successor index determined under the terms and conditions of the Related Bond;
- (ii) if (x) Related Bond is specified as not applicable in the Final Terms or (y) a Related Bond Redemption Event has occurred and Fallback Bond is specified as not applicable in the applicable Final Terms, the Index Sponsor announces that it will no longer publish or announce the Index but that it will be superseded by a replacement Index specified by the Index Sponsor, and the Calculation Agent determines that such replacement Index is calculated using the same or a substantially similar formula or method of calculation as used in the calculation of the Index, such replacement index shall be designated a “Successor Index”;
- (iii) if no Successor Index has been deemed under sub-paragraph (i) or (ii) above the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Index should be; if between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same index, such index will be deemed the “Successor Index”; if three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the “Successor Index”; if fewer than three responses are received by the Cut-Off Date or if each of the responses state different indices the Calculation Agent will determine an appropriate alternative index for such affected payment date, and such index will be deemed a “Successor Index”; or
- (iv) if the Calculation Agent determines that there is no appropriate alternative index, there will be deemed to be no Successor Index and an Index Cancellation will be deemed to have occurred.

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Index for the purposes of the Notes. Notice of the determination of a Successor Index, the effective date of the Successor Index or the occurrence of an Index Cancellation will be given to Noteholders by the Issuer in accordance with Condition 15.

(c) Adjustments

(i) Successor Index

If a Successor Index is determined in accordance with Condition 31(b), the Calculation Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems necessary. The Issuer shall give notice to the Noteholders of any such adjustment in accordance with Condition 15.

(ii) Substitute Inflation Index Level

If the Calculation Agent determines a Substitute Inflation Index Level in accordance with Condition 31(a), the Issuer may make any adjustment or adjustments (without limitation) to (x) the Substitute Inflation Index Level determined in accordance with Condition 31(a) and/or (y) any amount payable under the Notes and/or any other relevant term of the Notes, in each case, as the Calculation Agent deems necessary. The Issuer shall give notice to the Noteholders of any such adjustment in accordance with Condition 15.

(iii) **Index Level Adjustment Correction**

- (A) The first publication or announcement of the Relevant Level (disregarding estimates) by the Index Sponsor for any Reference Month shall be final and conclusive and, subject Condition 31(c)(iv) below, later revisions to the level for such Reference Month will not be used in any calculations, save that in respect of the EUR-All Items-Revised Consumer Price Index, the ESP National- Revised Consumer Price Index (CPI) and the ESP-Harmonised-Revised Consumer Price Index HCPI, revisions to the Relevant Level which are published or announced up to and including the day that is two Business Days prior to any relevant Determination Date will be valid and the revised Relevant Level for the relevant Reference Month will be deemed to be the final and conclusive Relevant Level for such Reference Month. The Issuer shall give notice to the Noteholders of any valid revision in accordance with Condition 15.
- (B) If, within 30 days of publication or at any time prior to a Determination Date in respect of which a Relevant Level will be used in any calculation or determination in respect of such Determination Date, the Calculation Agent determines that the Index Sponsor has corrected the Relevant Level to correct a manifest error, the Calculation Agent may make any adjustment to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction. The Issuer shall give notice to the Noteholders of any such adjustment and/or amount (if any) that is payable in accordance with Condition 15.
- (C) If a Relevant Level is published or announced at any time after the Cut-Off Date in respect of a Determination Date in respect of which a Substitute Inflation Index Level was determined, the Calculation Agent may either (A) determine that such Relevant Level shall not be used in any calculation or determination under the Notes and that the Substitute Inflation Index Level shall be deemed to be the definitive Relevant Level for the relevant Reference Month, or (B) request the Issuer to make any adjustment to any amount payable under the Notes and/or any other relevant term of the Notes as it deems appropriate as a result of the announcement or publication of the Relevant Level and/or determine the amount (if any) that is payable as a result of such publication or announcement. The Issuer shall give notice to the Noteholders of any determination in respect of (A) or (B), together with any adjustment or amount in respect thereof, in accordance with Condition 15.

(iv) **Rebasing**

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the “**Rebased Index**”) will be used for purposes of determining the Relevant Level from the date of such rebasing; provided, however, that the Calculation Agent may make (A) if Related Bond is specified as applicable in the applicable Final Terms, any adjustments as are made pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as before the rebasing, and/or (B) if Related Bond is specified as not applicable in the applicable

Final Terms or a Related Bond Redemption Event has occurred, the Calculation Agent may make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased and in each case the Issuer may make any adjustment(s) to any amount payable under the Notes and/or any other term of the Notes as the Calculation Agent may deem necessary. If the Calculation Agent determines that neither (A) nor (B) above would produce a commercially reasonable result, the Calculation Agent may request that the Issuer redeem each Note on a date notified by the Issuer to Noteholders in accordance with Condition 15 at its fair market value as determined by the Calculation Agent as at the date of such redemption taking into account the rebasing, less the cost to the Issuer of unwinding or amending any related underlying hedging arrangements. Notice of any adjustment, redemption of the Notes or determination pursuant to this Condition 31(c)(iv) shall be given to Noteholders in accordance with Condition 15.

(v) **Index Modification**

- (a) If on or prior to the Cut-Off Date in respect of any Determination Date, the Calculation Agent determines that an Index Modification has occurred the Calculation Agent may (A) if Related Bond is specified as applicable in the applicable Final Terms, make any adjustments to the Index, any Relevant Level and/or any other relevant term of the Notes (including, without limitation, any amount payable under the Notes), consistent with any adjustments made to the Related Bond as the Calculation Agent deems necessary, or (B) if Related Bond is specified as not applicable in the Final Terms or a Related Bond Redemption Event has occurred make only those adjustments to the relevant Index, any Relevant Level and/or any other term of the Notes (including, without limitation, any amount payable under the Notes), as the Calculation Agent deems necessary for the modified Index to continue as the Index and to account for the economic effect of the Index Modification.
- (b) If the Calculation Agent determines that an Index Modification has occurred at any time after the Cut-Off Date in respect of any Determination Date, the Calculation Agent may determine either (a) to ignore such Index Modification for the purposes of any calculation or determination made by the Calculation Agent with respect to such Determination Date, in which case the relevant Index Modification will be deemed to have occurred with respect to the immediately succeeding Determination Date such that the provisions Condition 31(c)(i) above will apply, or, (b) notwithstanding that the Index Modification has occurred following the Cut-Off Date, to make any adjustments as the Calculation Agent deems fit in accordance with Condition 31(c)(i) above.

The Calculation Agent shall give notice to the Noteholders of any such adjustment in accordance with Condition 15.

(vi) **Consequences of an Additional Disruption Event or an Optional Additional Disruption Event**

If the Calculation Agent determines that an Additional Disruption Event and/or an Optional Additional Disruption Event has occurred, the Issuer may redeem each Note on the date notified by the Issuer to Noteholders in accordance with Condition 15 at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the relevant Additional Disruption Event and/or Optional Additional Disruption Event, as the case may be, less the cost to the Issuer of unwinding or amending any related underlying hedging arrangements. Notice of any redemption of the Notes shall be given to Noteholders in accordance with Condition 15.

(vii) **Index Cancellation**

If the Calculation Agent determines that an Index Cancellation has occurred, the Issuer may redeem each Note on the date notified by the Issuer to Noteholders in accordance with Condition 15 at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Index Cancellation, less the cost to the Issuer of unwinding or amending any related underlying hedging arrangements. Notice of any redemption of the Notes pursuant to this Condition 31(c)(vii) shall be given to Noteholders in accordance with Condition 15.

(d) **Definitions**

“**Additional Disruption Event**” means each of Change in Law and Hedging Disruption.

- (a) has become illegal to hold, acquire or dispose of any relevant hedge positions in respect of the Notes; or
- (b) it or any of its Affiliates would incur a materially increased cost (including, without limitation, in respect of any tax, solvency or capital requirements) in the Notes in issue or in holding, acquiring or disposing of any relevant hedge positions of the Notes.

“**Cut-Off Date**” means, in respect of a Determination Date, three Business Days prior to such Determination Date.

If the Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

“**Hedging Disruption**” means that the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or any futures or options contract(s) it deems necessary to hedge the equity price risk or any other relevant price risk, including but not limited to the currency risk of the Issuer issuing and performing its obligations with respect to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s) or any futures or option contract(s) or any relevant hedge positions relating to the Notes.

“**Index**” means the index specified in the applicable Final Terms and related expressions shall be construed accordingly.

“**Index Cancellation**” means a level for the Index has not been published or announced for two consecutive months and/or the Index Sponsor cancels the Index and/or the Index Sponsor announces that it will no longer continue to publish or announce the Index and no Successor Index exists.

“**Related Bond**” means the bond specified as such in the applicable Final Terms. If the Related Bond specified in the applicable Final Terms is “Fallback Bond”, then for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If no bond is specified in the applicable Final Terms as the Related Bond and “Fallback Bond: Not applicable” is specified in the applicable Final Terms there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Final Terms and that bond redeems or matures before the relevant Maturity Date, unless “Fallback Bond: Not applicable” is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination.

ANNEX TO THE TERMS FOR CREDIT LINKED NOTES

AUCTION SETTLEMENT TERMS ANNEX

If an Event Determination Date occurs with respect to the Credit Linked Notes and Auction Settlement applies, the Settlement Amount with respect to the Credit Linked Notes may be calculated based on the Auction Final Price for the Reference Entity (if any). This Annex contains a summary of certain provisions of the Form of Credit Derivatives Auction Settlement Terms set forth at Annex B to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions, published by the International Swaps and Derivatives Association, Inc. ("ISDA") on 12 March 2009 (the "Form of Auction Settlement Terms") and is qualified by reference to the detailed provisions thereof and is subject to amendment from time to time in accordance with the Rules, including any amendment following the 2009 ISDA Credit Derivatives Determinations Committees, Auction Settlement and Restructuring Supplement dated 14 July 2009, as published by ISDA (the "July 2009 Supplement"). The July 2009 Supplement extended the auction hardwiring process to Restructuring credit events. Following a Restructuring credit event, more than one auction may be held and there may be more than one Auction Final Price and credit default swaps are grouped into buckets by maturity and depending on which party triggers the credit default swap. Deliverable obligations will be identified for each bucket (any deliverable obligations included in a shorter bucket will also be deliverable for all longer buckets). If the Credit Derivatives Determinations Committee determines to hold an auction for a particular bucket, then that auction will be held according to the existing auction methodology that has previously been used for Bankruptcy and Failure to Pay credit events as described in the summary below, except that the deliverable obligations will be limited to those falling within the relevant maturity bucket.

The following does not purport to be a complete summary and prospective investors must refer to the Form of Auction Settlement Terms for detailed information regarding the auction methodology set forth therein (the "Auction Methodology"). The Auction and the Auction Methodology apply to credit default swaps on the Reference Entity and do not apply specifically to the Credit Linked Notes. A copy of the Form of Auction Settlement Terms may be inspected at the offices of the Issuer and is also currently available at www.isda.org.

Noteholders should be aware that this summary of the Form of Auction Settlement Terms is accurate only as of the date hereof and the Form of Auction Settlement Terms may be amended from time to time without consultation with Noteholders. At any time after the date hereof, the latest Form of Auction Settlement Terms will be available on the ISDA website at www.isda.org (or any successor website thereto). Further, notwithstanding the fact that the Form of Auction Settlement Terms (as may be amended from time to time) appears on the ISDA website, Noteholders should note that the Credit Derivatives Determinations Committees have the power to amend the form of Credit Derivatives Auction Settlement Terms for a particular auction and that this summary may therefore not be accurate in all cases.

Capitalized terms used but not defined in this summary have the meaning specified in the Rules and the Form of Auction Settlement Terms. All times of day in this summary refer to such times in London.

Publication of Credit Derivatives Auction Settlement Terms

Pursuant to the Credit Derivatives Determinations Committees Rules set forth in Annex A to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions (published on March 12, 2009) (the "Rules"), a Credit Derivatives Determinations Committee may determine that a Credit Event has occurred in respect of a Reference Entity (such entity, an "Affected Reference Entity") and that one or more auctions will be held in order to settle affected transactions referencing such Affected Reference Entity based upon an Auction Final Price determined in accordance with an auction procedure as set forth in the Form of Auction Settlement Terms (each, an "Auction"). If an Auction is to be held, the Credit Derivatives Determinations Committee will publish Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity, based upon the Form of

Auction Settlement Terms. In doing so, the Credit Derivatives Determinations Committee will make several related determinations, including the date on which the Auction will be held (the “Auction Date”), the institutions that will act as participating bidders in the Auction (the “Participating Bidders”) and the supplemental terms that are detailed in Schedule 1 to the Form of Auction Settlement Terms. The Credit Derivatives Determinations Committee may also amend the Form of Auction Settlement Terms for a particular auction and may determine that a public comment period is necessary in order to effect such an amendment if such amendment is not contemplated by the Rules.

Auction Methodology

Determining the Auction Currency Rate

On the Auction Currency Fixing Date, the Administrators will determine the rate of conversion (each, an “Auction Currency Rate”) as between the Relevant Currency and the currency of denomination of each Deliverable Obligation (each, a “Relevant Pairing”) by reference to a Currency Rate Source or, if such Currency Rate Source is unavailable, by seeking mid-market rates of conversion from Participating Bidders (determined by each such Participating Bidder in a commercially reasonable manner) for each such Relevant Pairing. If rates of conversion are sought from Participating Bidders and more than three such rates are obtained by the Administrators, the Auction Currency Rate will be the arithmetic mean of such rates, without regard to the rates having the highest and lowest values. If exactly three rates are obtained, the Auction Currency Rate will be the rate remaining after disregarding the rates having the highest and lowest values. For this purpose, if more than one rate has the same highest or lowest value, then one of such rates shall be disregarded. If fewer than three rates are obtained, it will be deemed that the Auction Currency Rate cannot be determined for such Relevant Pairing.

Initial Bidding Period

During the Initial Bidding Period, Participating Bidders will submit to the Administrators: (a) Initial Market Bids; (b) Initial Market Offers; (c) Dealer Physical Settlement Requests; and (d) Customer Physical Settlement Requests (to the extent received from customers).

Initial Market Bids and Initial Market Offers are firm quotations, expressed as percentages, to enter into credit derivative transactions in respect of the Affected Reference Entity on terms equivalent to the Representative Auction-Settled Transaction.

The Initial Market Bid and Initial Market Offer submitted by each Participating Bidder must differ by no more than the designated Maximum Initial Market Bid-Offer Spread and must be an integral multiple of the Relevant Pricing Increment (each as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity). The Initial Market Bid must be less than the Initial Market Offer.

Dealer Physical Settlement Requests and Customer Physical Settlement Requests are firm commitments, submitted by a Participating Bidder, on its own behalf or on behalf of a customer, as applicable, to enter into a Representative Auction-Settled Transaction, in each case, as seller (in which case, such commitment will be a “Physical Settlement Buy Request”) or as buyer (in which case, such commitment will be a “Physical Settlement Sell Request”). Each Dealer Physical Settlement Request must be, to the best of such Participating Bidder's knowledge and belief, in the same direction as, and not in excess of, its Market Position. Each Customer Physical Settlement Request must be, to the best of the relevant customer's knowledge and belief (aggregated with all Customer Physical Settlement Requests submitted by such customer), in the same direction as, and not in excess of, its Market Position.

If the Administrators do not receive valid Initial Market Bids and Initial Market Offers from at least a minimum number of Participating Bidders (as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant

Affected Reference Entity), the timeline will be adjusted and the Initial Bidding Period extended, with the Auction recommencing at such time(s) specified by the Administrators, otherwise it will proceed as follows.

Determination of Open Interest, Initial Market Midpoint and Adjustment Amounts

The Administrators will calculate the Open Interest, the Initial Market Midpoint and any Adjustment Amounts in respect of the Auction.

The Open Interest is the difference between all Physical Settlement Sell Requests and all Physical Settlement Buy Requests.

To determine the Initial Market Midpoint, the Administrators will: (a) sort the Initial Market Bids in descending order and the Initial Market Offers in ascending order, identifying non-tradeable markets for which bids are lower than offers; (b) sort non-tradeable markets in terms of tightness of spread between Initial Market Bid and Initial Market Offer; and (c) identify that half of the non-tradeable markets with the tightest spreads. The Initial Market Midpoint is determined as the arithmetic mean of the Initial Market Bids and Initial Market Offers contained in the half of non-tradeable markets with the tightest spreads.

Any Participating Bidder whose Initial Market Bid or Initial Market Offer forms part of a tradeable market will be required to make a payment to ISDA on the third Business Day after the Auction Final Price Determination Date (an "Adjustment Amount"), calculated in accordance with the Auction Methodology. Any payments of Adjustment Amounts shall be used by ISDA to defray any costs related to any auction that ISDA has coordinated, or that ISDA will in the future coordinate, for purposes of settlement of credit derivative transactions.

If for any reason no single Initial Market Midpoint can be determined, the procedure set out above may be repeated.

At or prior to the Initial Bidding Information Publication Time on any day on which the Initial Bidding Period has successfully concluded, the Administrators publish the Open Interest, the Initial Market Midpoint and the details of any Adjustment Amounts in respect of the Auction.

If the Open Interest is zero, the Auction Final Price will be the Initial Market Midpoint.

Submission of Limit Order Submissions

In the event that the Open Interest does not equal zero, a subsequent bidding period will be commenced during the Initial Bidding Period which: (a) if the Open Interest is an offer to sell Deliverable Obligations, Participating Bidders submit Limit Bids; or (b) if the Open Interest is a bid to purchase Deliverable Obligations, Limit Offers, in each case, on behalf of customers and for their own account.

Matching bids and offers

If the Open Interest is a bid to purchase Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Offers and Limit Offers, as further described in the Auction Methodology. If the Open Interest is an offer to sell Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Bids and Limit Bids, as further described in the Auction Methodology.

(a) Auction Final Price when the Open Interest is Filled

The Auction Final Price will be the price associated with the matched Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, that is the highest offer or the lowest bid, as applicable, provided that: (a) if the Open Interest is an offer to sell and the price associated with the lowest matched bid exceeds the Initial Market Midpoint by more than the "Cap Amount" (being the percentage that is equal to one half of the Maximum Initial Market Bid-Offer Spread (rounded to the nearest Relevant Pricing Increment)), then the Auction Final Price will be the Initial Market Midpoint plus the Cap Amount; and (b) if the Open Interest is a bid to purchase and the Initial Market Midpoint exceeds the price associated with the

highest offer by more than the Cap Amount, then the Auction Final Price will be the Initial Market Midpoint minus the Cap Amount.

(b) Auction Final Price when the Open Interest is Not Filled

If, once all the Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, have been matched to the Open Interest, part of the Open Interest remains, the Auction Final Price will be: (a) if the Open Interest is a bid to purchase Deliverable Obligations, the greater of (i) zero, and (ii) the highest Limit Offer or Initial Market Offer received; or (b) if the Open Interest is an offer to sell Deliverable Obligations, zero.

100 per cent. Cap to Auction Final Price

In all cases, if the Auction Final Price determined pursuant to the Auction Methodology is greater than 100 per cent., then the Auction Final Price will be deemed to be 100 per cent.

Publication of Auction Final Price

At or prior to the Subsequent Bidding Information Publication Time on any day on which the subsequent bidding period has successfully concluded, the Administrators will publish on their websites: (a) the Auction Final Price; (b) the names of the Participating Bidders who submitted bids, offers, valid Dealer Physical Settlement Requests and valid Customer Physical Settlement Requests, together with the details of all such bids and offers submitted by each; and (c) the details and size of all matched trades.

Execution of Trades Formed in the Auction

Each Participating Bidder whose Limit Bid or Initial Market Bid (or Limit Offer or Initial Market Offer if applicable) is matched against the Open Interest, and each Participating Bidder that submitted a Customer Physical Settlement Request or Dealer Physical Settlement Request, is deemed to have entered into a Representative Auction-Settled Transaction, and each customer that submitted such a Limit Bid, Limit Offer, or Physical Settlement Request is deemed to have entered into a Representative Auction-Settled Transaction with the dealer through whom the customer submitted such bid or offer. Accordingly, each such Participating Bidder or customer that is a seller of Deliverable Obligations pursuant to a trade formed in the auction must deliver to the buyer to whom such Participating Bidder or customer has been matched a Notice of Physical Settlement indicating the Deliverable Obligations that it will deliver, and such Deliverable Obligations will be sold to the buyer in exchange for payment of the Auction Final Price.

Timing of Auction Settlement Provisions

If an Auction is held in respect of an Affected Reference Entity, it is expected that the relevant Auction Date will occur on the third Business Day immediately prior to the 30th calendar day after which the relevant Credit Derivatives Determinations Committee received the request from an eligible market participant (endorsed by a member of the relevant Credit Derivatives Determinations Committee) to resolve whether a Credit Event has occurred with respect to such Reference Entity.

In respect of an Affected Reference Entity for which an Auction is held, the Auction Settlement Date will occur on a Business Day following the Auction Final Price Determination Date, as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity.

PROVISIONS RELATING TO THE ENGLISH LAW NOTES WHILE IN GLOBAL FORM

Initial Issue of Notes

If the Global Notes are stated in the applicable Final Terms to be issued in NGN form or if Global Certificates are held under the NSS they are intended to be eligible collateral for Eurosystem monetary policy and the Global Notes or Global Certificates will be delivered on or prior to the original issue date of the Tranche to a Common Safekeeper. Depositing the Global Notes or Global Certificates with the Common Safekeeper does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue, or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

If the Global Note is a CGN, upon the initial deposit of a Global Note with a common depositary for Euroclear and Clearstream, Luxembourg (the “**Common Depositary**”) or registration of Registered Notes which are not intended to be held under the NSS in the name of any nominee for Euroclear and Clearstream, Luxembourg and delivery of the relative Global Certificate to the Common Depositary, Euroclear or Clearstream, Luxembourg will credit each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid. In the case of Notes held through Euroclear France, the *intermédiaires financiers habilités* (French banks or brokers authorised to maintain securities accounts on behalf of their clients) (each an “**Approved Intermediary**”) who are entitled to such Notes according to the records of Euroclear France will likewise credit each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid.

Each Tranche of Notes in bearer form having an original maturity of more than one year, will initially be represented by a temporary Global Note and each Tranche of Notes having an original maturity of one year or less will be represented by a permanent Global Note, in each case in bearer form without Coupons, Receipts or a Talon attached. No interest will be payable in respect of a temporary Global Note, except as provided below. Upon deposit of the temporary Global Note(s) with the Common Depositary, Euroclear or Clearstream, Luxembourg will credit each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid. Notes issued in registered form only will be issued in definitive form.

If the applicable Final Terms indicate that the Global Note is a NGN or if a Global Certificate is held under the NSS, the nominal amount of the Notes shall be the aggregate amount from time to time entered in the records of both Euroclear or Clearstream, Luxembourg. The records of such clearing systems shall be conclusive evidence of the nominal amount of Notes represented by the Global Note or Global Certificate and, for these purposes, a statement issued by such clearing system stating the nominal amount of the Notes represented by the Global Note or Global Certificate at any time shall be conclusive evidence of the records of the relevant clearing system at that time.

Notes that are initially deposited with the Common Depositary may (if indicated in the applicable Final Terms) also be credited to the accounts of subscribers with Approved Intermediaries or (if indicated in the applicable Final Terms) other clearing systems through direct or indirect accounts with Euroclear and Clearstream, Luxembourg held by Euroclear France or other clearing systems. Conversely, Notes that are initially deposited with Euroclear France or any other clearing system may similarly be credited to the accounts of subscribers with Euroclear, Clearstream, Luxembourg or other clearing systems (or Approved Intermediaries), in all cases subject to the rules of such clearing systems from time to time.

Relationship of Accountholders with Clearing Systems

Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg or such Approved Intermediary as the holder of a Note represented by a Global Note deposited with the Common Depository must look solely to Euroclear or Clearstream, Luxembourg or such Approved Intermediary (as the case may be) for his share of each payment made by the Issuer to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, and in relation to all other rights arising under the Global Notes or Global Certificates, subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Luxembourg or Euroclear France (as the case may be). Such persons shall have no claim directly against the Issuer in respect of payments due on the Notes for so long as the Notes are represented by such Global Note or Global Certificate and such obligations of the Issuer will be discharged by payment to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, in respect of each amount so paid.

Exchange

Temporary Global Notes

Each temporary Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date:

- (i) if the applicable Final Terms indicate that such Global Note is issued in compliance with the C Rules or in a transaction to which TEFRA is not applicable (see “*Summary of the Programme — Selling Restrictions*”), in whole, but not in part, for the Definitive Notes defined and described below; and
- (ii) otherwise in whole or in part upon certification as to non-U.S. beneficial ownership substantially in the form set out in the Agency Agreement or promptly after the Issue Date in the case of Registered Notes, for interests in a permanent Global Note or, if so provided in the applicable Final Terms, for Definitive Notes in bearer form.

Each temporary Global Note that is also an Exchangeable Bearer Note will be exchangeable for Registered Notes in accordance with the Conditions in addition to any permanent Global Note or Definitive Notes for which it may be exchangeable and, before its Exchange Date, will also be exchangeable in whole or in part for Registered Notes only.

Permanent Global Notes

Each permanent Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date in whole but not, except as provided under “Partial Exchange of Permanent Global Notes”, in part for Definitive Notes:

- (i) if the permanent Global Note is an Exchangeable Bearer Note, by the holder giving notice to the Fiscal Agent of its election to exchange the whole or part of such Global Note for Registered Notes; and
- (ii) otherwise, (1) if the permanent Global Note is held on behalf of Euroclear or Clearstream, Luxembourg or Euroclear France or any other clearing system (an “**Alternative Clearing System**”) and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or in fact does so or (2) if principal in respect of any Notes is not paid when due, by the holder giving notice to the Fiscal Agent of its election for such exchange.
- (iii) In the event that a Global Note is exchanged for Definitive Notes, such Definitive Notes shall be issued in Denomination(s) only. A Noteholder who holds a nominal amount of less than the minimum Denomination will not receive a definitive Note in respect of such holding and would need to purchase a nominal amount of Notes such that it holds an amount equal to one or more Denominations

Unrestricted Global Certificates

If the Final Terms states that the Notes are to be represented by a permanent Global Certificate on issue, transfers of the holding of Notes represented by any Global Certificate may only be made in part:

- (i) if the Notes represented by the Global Certificates are held on behalf of Euroclear, Clearstream, Luxembourg or Euroclear France or an Alternative Clearing System and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; or

Partial Exchange of Permanent Global Notes and Global Certificates

For so long as a permanent Global Note or Global Certificate is held on behalf of a clearing system and the rules of that clearing system permit, such permanent Global Note or Global Certificate will be exchangeable in part on one or more occasions (1) for Registered Notes if the permanent Global Note is an Exchangeable Bearer Note and the part submitted for exchange is to be exchanged for Registered Notes, or (2) for Definitive Notes (i) upon the giving of a default notice or (ii) if so provided in, and in accordance with, the Conditions (which will be set out in the applicable Final Terms).

Delivery of Notes

If the Global Note is a CGN, on or after any due date for exchange the holder of a Global Note, may surrender such Global Note or, in the case of a partial exchange, present it for endorsement to or to the order of the Fiscal Agent. In exchange for any Global Note, or the part thereof to be exchanged, the Issuer will (i) in the case of a temporary Global Note exchangeable for a permanent Global Note, deliver, or procure the delivery of, a permanent Global Note in an aggregate nominal amount equal to that of the whole or that part of a temporary Global Note that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a permanent Global Note to reflect such exchange or (ii) in the case of a Global Note exchangeable for Definitive Notes or Registered Notes, deliver, or procure the delivery of, an equal aggregate nominal amount of duly executed and authenticated Definitive Notes or Certificates in bearer or registered form, as the case may be or (iii) if the Global Note is a NGN, procure that details of such exchange be entered *pro rata* in the records of the relevant clearing system. In this Base Prospectus, “**Definitive Notes**” means, in relation to any Global Note, the definitive Bearer Notes for which such Global Note may be exchanged (if appropriate, having attached to them all Coupons and Receipts in respect of interest or Instalment Amounts that have not already been paid on the Global Note and a Talon), Definitive Notes will be security printed and Certificates will be printed in accordance with any applicable legal and stock exchange requirements in or substantially in the form set out in the Schedules to the Agency Agreement. Exchange Date

“**Exchange Date**” means, in relation to a temporary Global Note, the day falling after the expiry of 40 days after its issue date, or earlier date as required under the D Rules, and, in relation to a permanent Global Note, a day falling not less than 60 days, or in the case of an exchange for Registered Notes five Business days, or in the case of exchange following the giving of a default notice 30 days, after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Fiscal Agent is located and in the city in which the relevant clearing system is located.

Amendment to Conditions

The temporary Global Notes, permanent Global Notes and Global Certificates contain provisions that apply to the Notes that they represent, some of which modify the effect of the terms and conditions of the Notes set out in this Base Prospectus. The following is a summary of certain of those provisions:

Payments

No payments falling due more than 40 days after the Exchange Date will be made on any Global Note unless exchange for an interest in a permanent Global Note or for Definitive Notes or Registered Notes is improperly withheld or refused. Payments on any temporary Global Note issued in compliance with the D Rules before the Exchange Date will only be made against presentation of certification as to non-U.S. beneficial ownership substantially in the form set out in the Agency Agreement (or such other form as the Issuer may approve). All payments in respect of Notes represented by a Global Note in CGN form will be made against presentation for endorsement and, if no further payment falls to be made in respect of the Notes, surrender of that Global Note to or to the order of the Fiscal Agent or such other Paying Agent as shall have been notified to the Noteholders for such purpose. If the Global Note is a CGN, a record of each payment so made will be endorsed in the appropriate schedule to each Global Note, which endorsement will be *prima facie* evidence that such payment has been made in respect of the Notes. Condition 8(b)(iv) will apply to Definitive Notes only. If the Global Note is a NGN or if a Global Certificate is held under the NSS, the Issuer shall procure that details of each such payment shall be entered *pro rata* in the records of the relevant clearing system and in the case of payments of principal, the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by the Global Note or Global Certificate will be reduced accordingly. Payments under the NGN will be made to its holder. Each payment so made will discharge the Issuer's obligations in respect thereof. Any failure by the relevant clearing systems to make the entries in the records of the relevant clearing system shall not affect such discharge. For the purpose of any payments made in respect of a Global Note or Global Certificate, the relevant place of presentation shall be disregarded in the definition of "business day" set out in Condition 7(i) (*Non-Business Days*).

All payments in respect of Notes represented by a Global Certificate will be made to, or to the order of, the person whose name is entered on the register at the close of business on the Clearing System Business Day immediately prior to the date for payment, where "**Clearing System Business Day**" means Monday to Friday inclusive except 25 December and 1 January.

Notices

So long as any Notes are represented by a Global Note and such Global Note is held on behalf of a clearing system, notices to Noteholders of that Series may be given by delivery of the relevant notice to that clearing system for communication by it to entitled accountholders in substitution for publication as required by the Conditions or by delivery of the relevant notice to the holder of the Global Note and, so long as the Notes are listed on the regulated market of the Luxembourg Stock Exchange and the rules of that regulated market so require, notices shall also be published in a leading newspaper having general circulation in Luxembourg (which is expected to be *Luxemburger Wort*) or on the website of the Luxembourg Stock Exchange (www.bourse.lu).

Prescription

Claims against the Issuer in respect of Notes which are represented by a permanent Global Note will become void unless it is presented for payment within a period of ten years (in the case of principal) and five years (in the case of interest) from the appropriate Relevant Date (as defined in Condition 5).

Meetings

The holder of a permanent Global Note or of the Notes represented by a Global Certificate shall (unless such permanent Global Note or Global Certificate represents only one Note) be treated as being two persons for the purposes of any quorum requirements of a meeting of Noteholders and, at any such meeting, the holder of a

permanent Global Note shall be treated as having one vote in respect of each integral currency unit of the Specified Currency of the Notes. All holders of Registered Notes are entitled to one vote in respect of each integral currency unit of the Specified Currency of the Notes comprising such Noteholder's holding, whether or not represented by a Global Certificate.

Cancellation

Cancellation of any Note represented by a permanent Global Note that is required by the Conditions to be cancelled (other than upon its redemption) will be effected by reduction in the nominal amount of the relevant permanent Global Note.

Purchase

Notes represented by a permanent Global Note may only be purchased by the Issuer if they are purchased together with the rights to receive all future payments of interest and Instalment Amounts (if any) thereon.

Issuer's Option

Any option of the Issuer provided for in the Conditions of any Notes while such Notes are represented by a permanent Global Note shall be exercised by the Issuer giving notice to the Noteholders within the time limits set out in, and containing the information required by, the Conditions, except that the notice shall not be required to contain the serial numbers of Notes drawn in the case of a partial exercise of an option and accordingly no drawing of Notes shall be required. In the event that any option of the Issuer is exercised in respect of some but not all of the Notes of any Series, the rights of accountholders with a clearing system in respect of the Notes will be governed by the standard procedures of Euroclear, Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion), or the relevant Alternative Clearing System (as the case may be).

However, no such election may be made in respect of Notes represented by a Global Certificate unless the transfer of the whole or a part of the holding of Notes represented by that Global Certificate shall have been improperly withheld or refused.

Redenomination and Consolidation

A Global Note may be amended or replaced by the Issuer (in such manner as it considers necessary) for the purposes of taking account of the redenomination and/or consolidation of the Notes pursuant to Conditions 1(b) and 13, provided that such amendment or replacement could not reasonably be expected to be prejudicial to the interests of the Noteholders. Any consolidation may, in such circumstances, require a change in the relevant common depository or central depository or custodian or nominee, as the case may be.

Record Date

So long as any Notes are represented by a Global Note or a Global Certificate and such Global Note or Global Certificate is held on behalf of a clearing system, and notwithstanding any provisions of the Terms and Conditions of the Notes as set out in this Base Prospectus, “**Record Date**” shall mean the Clearing System Business Day immediately prior to the date for payment, where Clearing System Business Day means Monday to Friday inclusive, except 25 December and 1 January.

“**D₂(t)**” means the percentage specified in the Final Terms. If **D₂(t)** is specified as being Not Applicable, then:

associated with, if relevant, an Observation Period. Each of their respective values is calculated using one of the formulae specified in 1.1 *Common Definitions*, as specified in the Final Terms. It should be noted that the formula used to calculate “**BasketPerf_i(t)**”, may be different to the formula used to calculate “**BasketPerf_j(t)**”, for different “i” and “j” indices.

The Final Redemption Amount per Note is equal to:

$$\text{Denomination} \times 100\%$$

Reverse

On each Valuation Date, the Reverse pays a conditional coupon in addition to a guaranteed coupon. Noteholders may benefit from the Memory Effect, which triggers payment of any previously unpaid coupons. In cases where the Performance of the Basket on the Maturity Date is negative and below a certain barrier level, the noteholder can lose an amount of the capital of the note.

On each Valuation Date indexed “t”, a coupon, paid on the Payment Date indexed “t”, is calculated in accordance with the following formula:

$$\text{Coupon}(t) = \text{Denomination} \times [\text{MinCoupon}(t) + (\text{Coupon}(t) - \text{MemoryCoupon}(t)) \times \text{UpsideCondition}(t)]$$

The value of each Condition is determined as follows:

$$\text{UpsideCondition} = 1 \text{ if } \text{BasketPerf}_1(t) \geq H(t)$$

$$= 0 \text{ if not}$$

Where:

“**Coupon(t)**”, “**MinCoupon(t)**” means an interest rate as specified in the Final Terms.

“**H(t)**” means the percentage specified in the Final Terms.

“**BasketPerf₁(t)**” means the performance of the Basket of Underlyings on the Valuation Date indexed “t”, associated, if relevant, with an Observation Period. Its value is calculated using one of the formulae listed in 1.1 *Common Definitions*, as specified in the Final Terms.

The Final Redemption Amount per Note is determined by the Calculation Agent in accordance with the following formula:

$$\text{Denomination} \times (100\% - \text{Vanilla} \times \text{DownsideCondition})$$

Where:

$$\text{Vanilla} = G \times \text{Min}(\text{Cap}, \text{Max}((K - \text{BasketPerf}_2(T)), \text{Floor}))$$

$$\text{DownsideCondition} = 1 \text{ if } \text{BasketPerf}_3(T) \leq B$$

$$= 0 \text{ if not}$$

where:

“**G**” means the percentage specified in the Final Terms.

“**Cap**” means the percentage specified in the Final Terms.

“**Floor**” means the percentage specified in the Final Terms.

“**K**” means the percentage specified in the Final Terms.

“**B**” means the percentage specified in the Final Terms. If “**B**” is specified as being Not Applicable, then DownsideCondition = 1 in any event.

“**BasketPerf₂ (T)**”, “**BasketPerf₃ (T)**” mean Performances of the Basket of Underlyings on the relevant Valuation Date, associated with, if relevant, an Observation Period. Each of their respective values is calculated using one of the formulae specified in 1.1 Common Definitions, as specified in the Final Terms. It should be noted that the formula used to calculate “**BasketPerf_i (T)**” may be different to the formula used to calculate “**BasketPerf_j(T)**”, for different “**i**” and “**j**” indices.

Reverse Lockin

On each Valuation Date, the Reverse Lockin pays a conditional coupon in addition to a guaranteed coupon. Coupons become unconditional upon activation of a so-called “Lockin” effect. Noteholders may benefit from the Memory Effect, which triggers payment of any previously unpaid coupons. In cases where the Performance of the Basket on the Maturity Date is negative and below a certain barrier level, the noteholder can lose an amount of the capital of the note.

On each Valuation Date indexed “**t**”, a coupon, paid on the Payment Date indexed “**t**”, is calculated in accordance with the following formula:

If LockinCondition(**t**) = 1, then:

$$\text{Coupon}(\mathbf{t}) = \text{Denomination} \times \text{LockinCoupon}(\mathbf{t})$$

If LockinCondition(**t**) = 0, then:

$$\text{Coupon}(\mathbf{t}) = \text{Denomination} \times \text{NonLockinCoupon}(\mathbf{t})$$

With:

$$\text{NonLockinCoupon}(\mathbf{t}) = [\text{MinCoupon}(\mathbf{t}) + (\text{Coupon}_1(\mathbf{t}) - \text{MemoryCoupon}(\mathbf{t})) \times \text{Condition}_1(\mathbf{t})]$$

And:

$$\text{LockinCoupon}(\mathbf{t}) = \text{Coupon}_2(\mathbf{t})$$

The value of each Condition is determined as follows:

$$\text{Condition}_1(\mathbf{t}) = 1 \text{ if } \text{BasketPerf}_1(\mathbf{t}) \geq H(\mathbf{t})$$

$$= 0 \text{ if not}$$

$$\text{LockinCondition}(\mathbf{t}) = 1 \text{ if } \text{BasketPerf}_2(\mathbf{t}) \geq L(\mathbf{t})$$

$$= 0 \text{ if not}$$

Where:

“**BasketPerf₁(t)**”, “**BasketPerf₂(t)**” means Performances of the Basket of Underlyings on the Valuation Date indexed “t”, associated with, if relevant, an Observation Period. Each of their respective values is calculated using one of the formulae specified in 1.1 Common Definitions, as specified in the Final Terms. It should be noted that the formula used to calculate “**BasketPerf_i(t)**” may be different to the formula used to calculate “**BasketPerf_j(t)**”, for different “i” and “j” indices.

The Final Redemption Amount per Note is determined by the Calculation Agent in accordance with the following formula:

- If “**Deactivating Lockin Effect**” is Applicable:

Denomination x [100% – Vanilla x DownsideCondition x (1 – LockinCondition(T))]

- If not:

Denomination x (100% – Vanilla x DownsideCondition)

Where:

Vanilla = $G \times \text{Min}(\text{Cap}, \text{Max}((K - \text{BasketPerf}_3(T)), \text{Floor}))$

DownsideCondition = 1 if $\text{BasketPerf}_4(T) \leq B$
 = 0 if not

LockinCondition(T) = 1 if $\text{BasketPerf}_2(T) \geq L(T)$
 = 0 if not

where:

“**G**” means the percentage specified in the Final Terms.

“**Cap**” means the percentage specified in the Final Terms.

“**Floor**” means the percentage specified in the Final Terms.

“**K**” means the percentage specified in the Final Terms.

“**B**” means the percentage specified in the Final Terms. If “B” is specified as being Not Applicable, then DownsideCondition = 1 in any event.

“**BasketPerf₂(T)**”, “**BasketPerf₃(T)**”, “**BasketPerf₄(T)**” means Performances of the Basket of Underlyings on the relevant Valuation Date, associated with, if relevant, an Observation Period. Each of their respective values is calculated using one of the formulae specified in 1.1 Common Definitions, as specified in the Final Terms. It should be noted that the formula used to calculate “**BasketPerf_i(T)**” may be different to the formula used to calculate “**BasketPerf_j(T)**”, for different “i” and “j” indices.

Super Asian

The Super Asian pays a coupon linked to improved average performance. The Performance of the Basket on each Valuation Date is only included in the calculation of the improved average if the Performance on such Valuation Date would increase the amount of the coupon to be paid.

On each Valuation Date indexed “t”, the Performance of the Basket of Underlyings “**BasketPerf(t)**” is calculated by the Calculation Agent using one of the formulae specified in 1.1 Common Definitions, as specified in the Final Terms.

The calculated Performance is “Memorised” if:

- **If Type =1:** it is strictly greater than the Performance of the Basket of Underlyings on the previous Valuation Date indexed “t-1”: $\text{BasketPerf}(t) > \text{BasketPerf}(t-1)$
- **If Type =-1:** it is strictly lower than the Performance of the Basket of Underlyings on the previous Valuation Date indexed “t-1”: $\text{BasketPerf}(t) < \text{BasketPerf}(t-1)$

The Initial Performance is defined as: $\text{BasketPerf}(0) = 100\%$. It may be “Memorised” or not, as specified in the Final Terms.

“**Type**” means a number equal to (-1) or (1), as specified in the Final Terms.

The Final Redemption Amount per Note is determined by the Calculation Agent in accordance with the following formula:

$$\text{Denomination} \times (100\% + \text{Coupon} + \text{OptionalCoupon})$$

Where:

“**Coupon**” means an interest rate as specified in the Final Terms.

“**OptionalCoupon**” is equal to:

$$G \times \text{Min}(\text{Cap}, \text{Max}(\text{Type} \times (\text{SuperAverage} - K), \text{Floor}))$$

where:

- “**G**” means the percentage specified in the Final Terms.
- “**Cap**” means the percentage specified in the Final Terms.
- “**Floor**” means the percentage specified in the Final Terms.
- “**K**” means the percentage specified in the Final Terms.
- “**Super Average**” means the Arithmetic Average of the Performances of the Basket previously Memorised.

**Autocallable
Conditional Vanilla
Series**

On each Valuation Date, the Autocallable Conditional Vanilla Series pays a coupon linked to the Performance of the Basket. Noteholders may benefit from the Memory Effect, which triggers payment of any previously unpaid coupons. Automatic early redemption may occur during the term of the note.

On each Valuation Date indexed “t”, a coupon, paid on the Payment Date indexed “t”, unless it falls after the occurrence of an Automatic Early Redemption Event, is calculated in accordance with the following formula:

$$\text{Coupon}(t) = \text{Denomination} \times ([\text{Vanilla}_1(t) \times \text{UpsideCondition}_1(t)] + [\text{Vanilla}_2(t) \times \text{DownsideCondition}_2(t)] - \text{MemoryCoupon}(t) \times \text{MemoryCondition}(t))$$

Where:

$$\text{Vanilla}_1(t) = \text{Coupon}_1(t) + G_1(t) \times \text{Min}(\text{Cap}_1(t), \text{Max}(\text{Type}_1(t) \times (\text{BasketPerf}_1(t) - K_1(t)), \text{Floor}_1(t)))$$

$$\mathbf{Vanilla}_2(t) = \mathbf{Coupon}_2(t) + \mathbf{G}_2(t) \times \mathbf{Min}(\mathbf{Cap}_2(t), \mathbf{Max}(\mathbf{Type}_2(t) \times (\mathbf{BasketPerf}_2(t) - \mathbf{K}_2(t)), \mathbf{Floor}_2(t)))$$

And:

$$\begin{aligned} \text{UpsideCondition}_1(t) &= 1 \text{ if } \text{BasketPerf}_3(t) \geq H_1(t) \\ &= 0 \text{ if not} \end{aligned}$$

$$\begin{aligned} \text{DownsideCondition}_2(t) &= 1 \text{ if } \text{BasketPerf}_4(t) \leq B_2(t) \\ &= 0 \text{ if not} \end{aligned}$$

$$\begin{aligned} \text{MemoryCondition}(t) &= 1 \text{ if } \text{UpsideCondition}_1(t) = 1 \text{ or if } \text{DownsideCondition}_2(t) = 1 \\ &= 0 \text{ if not} \end{aligned}$$

where:

It should be noted that the formula used to calculate “BasketPerf_i(t)” may be different to the formula used to calculate “BasketPerf_j(t)”, for different “i” and “j” indices.

If the value of Coupon(t) is negative, no coupon is paid on the relevant Payment Date.

The Automatic Early Redemption of the Note is triggered on the first Valuation Date indexed “t” where:

$$\mathbf{AutoCallCondition}(t) = 1$$

With:

$$\begin{aligned} \mathbf{AutoCallCondition}(t) &= 1 \text{ if } \text{BasketPerf}_5(t) \geq \mathbf{R}(t) \\ &= 0 \text{ if not} \end{aligned}$$

where:

In this case, the Automatic Early Redemption Amount per Note payable on the Automatic Early Redemption Date following immediately the Valuation Date “t” is equal to:

$$\text{Denomination} \times [100\% + (\text{Vanilla}_3(t) \times \text{UpsideCondition}_3(t)) + (\text{Vanilla}_4(t) \times \text{DownsideCondition}_4(t))]$$

where:

$$\text{Vanilla}_3(t) = \text{Coupon}_3(t) + G_3(t) \times \text{Min}(\text{Cap}_3(t), \text{Max}(\text{Type}_3 \times (\text{BasketPerf}_6(t) - K_3(t)), \text{Floor}_3(t)))$$

The value of each Condition is determined as follows:

$\text{UpsideCondition}_3(t) = 1$ if $\text{BasketPerf}_8(t) \geq H_3(t)$

$= 0$ if not

$\text{DownsideCondition}_4(t) = 1$ if $\text{BasketPerf}_9(t) \leq B_4(t)$

$= 0$ if not

where:

Convertible Vanilla The Convertible Vanilla pays by default an optional coupon, the payment of which depends on the final Performance of the Basket of Underlyings, unless the Issuer decides to “convert” the product, in which case the noteholder must give up the optional coupon in exchange for a Fixed or Floating Rate coupon.

On each Conversion Date falling in the Conversion Period as defined in the Final Terms, the Issuer may exercise the “Conversion” option. All Holders must be informed in case the Conversion option is exercised with a notice specified in the Final Terms.

In the event of Conversion, a “Catch-up Coupon” is paid on the date of exercise of the Conversion option, in an amount equal to:

$$\text{Denomination} \times \text{CatchUpCoupon}$$

where:

“**CatchUpCoupon**” being an interest rate applicable on each Conversion Date, as specified in the Final Terms.

In respect of all Valuation Dates following the date of exercise of the Conversion option, a coupon, payable on the Payment Date indexed “**t**”, is calculated in accordance with the following formula:

$$\text{Denomination} \times \text{ConversionCoupon}(t)$$

where:

“**ConversionCoupon(t)**” means an interest rate as specified in the Final Terms.

If the Conversion option is exercised, the Final Redemption Amount per Note is equal to:

Denomination × 100%

If the Issuer never exercises the Conversion option, the Final Redemption Amount per Note is determined by the Calculation Agent in accordance with the following formula:

$$\text{Denomination} \times (100\% + \text{FinalCoupon} + \text{OptionalCoupon})$$

Where:

“**FinalCoupon**” means an interest rate as specified in the Final Terms.

OptionalCoupon is equal to:

$$G \times \text{Min}(\text{Cap}, \text{Max}(\text{Type} \times (\text{BasketPerf}(T) - K), \text{Floor}))$$

where:

“**G**” means the percentage specified in the Final Terms.

“**Cap**” means the percentage specified in the Final Terms.

FMA Vanilla

The FMA Vanilla delivers a final coupon equal to the arithmetic average of several optional amounts, the value of which being a simple function of the Basket Performance, subject to a local cap and a local floor.

On each Valuation Date indexed “t”, an Amount is calculated in accordance with the following formula:

$$\text{Amount}(t) = G(t) \times \text{Min}(\text{Cap}(t), \text{Max}(\text{Floor}(t), \text{Type} \times (\text{BasketPerf}(t) - K)))$$

On the last Valuation Date, the arithmetic average of the Amounts is calculated in accordance with the following formula:

$$\text{Arithmetic Average} = \frac{1}{T} \sum_{t=1}^T \text{Amount}(t)$$

where:

“**Floor(t)**” means the percentage specified in the Final Terms.

“**Cap(t)**” means the percentage specified in the Final Terms.

“**G(t)**” means the percentage specified in the Final Terms.

“**T**” means the number of Valuation Dates.

“**K**” means the percentage specified in the Final Terms.

“**Type**” means a number equal to (1) or (-1), as specified in the Final Terms.

The Final Redemption Amount per Note is determined by the Calculation Agent in accordance with the following formula:

$$\text{Denomination} \times (100\% + \text{Arithmetic Average})$$

Escalator Ladder

Escalator Ladder allows to lock a final coupon based on the highest level reached by the Basket Performance, through a step-by-step mechanism. The Note holder might as well have his capital guaranteed as soon as the Basket Performance, observed on a relevant Valuation Date, is greater than a trigger barrier (InitStep).

The “Lockin” effect is triggered if, on any Valuation Date indexed “t”, the following condition is established:

$$\text{BasketPerf}_1(t) \geq \text{InitStep}$$

where:

“**InitStep**” means the percentage specified in the Final Terms.

“**BasketPerf₁(t)**” means a Performance of the Basket on the Valuation Date indexed “t”. Its value is calculated using one of the formulae specified in 1.1 Common Definitions.

If the “Lockin” effect is triggered, then the Final Redemption Amount per Note is determined by the Calculation Agent in accordance with the following formula:

$$\text{Denomination} \times (100\% + G_1 \times \text{Max}(\text{Floor}_1, \text{Max}(\text{Level}, L \times \text{BasketPerf}_2(T)) - K_1))$$

Where:

“**BasketPerf₂(T)**” means a Performance of the Basket on the relevant Valuation Date. Its value is calculated using one of the formulae specified in 1.1 Common Definitions and specified in the Final Terms.

“**L**” means the percentage specified in the Final Terms.

“**Level**” means the highest value in the Levels Table which is equal to or less than BasketPerf₃(T).

“**BasketPerf₃(T)**” means a Performance of the Basket on the relevant Valuation Date. Its value is calculated using one of the formulae specified in 1.1 Common Definitions and specified in the Final Terms.

“**K₁**” means the percentage specified in the Final Terms.

“**G₁**” means the percentage specified in the Final Terms.

“**Floor₁**” means the percentage specified in the Final Terms.

If the “Lockin” effect has never been triggered, then the Final Redemption Amount per Note is determined by the Calculation Agent in accordance with the following formula:

$$\text{Denomination} \times (100\% + G_2 \times \text{Max}(\text{Floor}_2, \text{BasketPerf}_4(T) - K_2) - \text{Vanilla} \times \text{Condition})$$

$$\text{Vanilla} = G_3 \times \text{Min}(\text{Cap}_3, \text{Max}(K_3 - \text{BasketPerf}_5(T), \text{Floor}_3))$$

Condition = 1 if $\text{BasketPerf}_6(T) \leq B$

= 0 if not

where:

“**G**₂”, “**G**₃” mean the percentages specified in the Final Terms.

“**Floor**₂”, “**Floor**₃” mean the percentages specified in the Final Terms.

Power Dividends

The product pays a coupon which is proportional to the progression of the Basket’s dividend rate.

On each Valuation Date “t”, a Coupon, paid on the Payment Date indexed “t”, is determined by the Calculation Agent in accordance with the following formula:

Nominal Amount x Coupon

where:

“**Coupon**” means the fixed or variable Coupon, as specified in the Final Terms.

The Final Redemption Amount per Note, payable on the Maturity Date is determined by the Calculation Agent in accordance with the following formula:

$$\times \left(100\% + G \times \frac{\text{DividendFuture}(T, \text{Expiry}) - \text{DividendFuture}(0, \text{Expiry})}{\text{ReferencePrice}} \right)$$

“**DividendFuture**(T, Expiry)” means the Quoted Price for the Future Contract on dividends of the Underlying maturing at “Expiry”, as determined by the Calculation Agent on the Exchange on the last Valuation Date.

“**DividendFuture**(0, Expiry)” means the Quoted Price for the Future Contract on dividends of the Underlying maturing at “Expiry”, as determined by the Calculation Agent on the Exchange on the Initial Valuation Date.

“**Expiry**” means a date as specified in the Final Terms.

“**ReferencePrice**” means the Price of the Underlying as specified in the Final Terms.

“**G**” means a percentage as specified in the Final Terms.

Dividend Select

The product pays a coupon the value of which is dependent on the Dividend rate of the Underlyings in the Basket. Noteholders may lose some of the capital of their investment if the Performance of the Basket is negative at Maturity.

The Final Redemption Amount per Note payable on the Maturity Date is determined by the Calculation Agent in accordance with the following formula:

$$\text{Denomination} \times (100\% + \text{Coupon} - \text{Vanilla} \times \text{DownsideCondition})$$

$$\text{Coupon} = G_1 \times \sum_{i=1}^n w^i \times \frac{\text{Dividend}(i)}{\text{ReferencePrice}(i)}$$

With:

Jupiter

At inception, the structure has an initial level of participation and an initial level of guaranteed coupon at maturity. At each observation date, the value of the underlying basket is assessed. If the value of the basket is greater than its initial value then the participation is increased by a specified amount and the guaranteed coupon is reduced by a specified amount. The reverse is true for the case when the basket value is lower than its initial level. At maturity, the option pays the maximum of the guaranteed coupon and the geared performance of the underlying basket, floored at zero.

On a Valuation Date indexed “t”, the “**Jupiter Condition**” is established if:

$$\text{BasketPerf}_1(t) \geq H \text{ and } \text{BasketPerf}_2(t) \leq B$$

“**BasketPerf₁(t)**” and “**BasketPerf₂(t)**” mean Performances of the Basket of Underlyings on the Valuation Date “t”, associated with, if relevant, an Observation Period. Each of their respective values is calculated using one of the formulae specified in 1.1 Common Definitions, as specified in the Final Terms. If on a Valuation Date indexed “t”, the “Jupiter Condition” is established, then the Participation is increased by BonusParticipation and the Coupon is decreased by BonusCoupon.

If on a Valuation Date indexed “t”, the “Jupiter Condition” is not established, then the “Participation” is decreased by BonusParticipation and the MinCoupon is increased by BonusCoupon.

In any event, the Participation amount cannot be less than MinParticipation nor greater than MaxParticipation. Similarly, the Coupon amount cannot be less than MinCoupon nor greater than MaxCoupon.

“**BonusParticipation**” means a percentage specified in the Final Terms.

“**BasketPerf₁(t)**” and “**BasketPerf₂(t)**” mean Performances of the Basket of Underlyings on the Valuation Date “t”, associated with, if relevant, an Observation Period. Each of their respective values is calculated using one of the formulae specified in 1.1 Common Definitions, as specified in the Final Terms. Individual Ladder

Cap

The Individual Cap Ladder pays a coupon which depends on the weighted average of the Individual Performances of Underlyings in the Basket provided such Individual Performance is above a lower limit (Floor) and below a high limit (Cap). $$\text{CouponRate}(t) = G(t) \times \text{Max} \left(\text{GlobalFloor}(t), \text{Ladder}(t), \sum_{i=1}^n \omega^i \times \text{IndivPerfCap}(i, t) - K \right)$$

with:

Crystallising Vanilla

The Crystallising Vanilla includes a crystallisation mechanism which freezes the Individual Performance of the Underlyings according to their ranking (the lowest and/or

the highest). A coupon is then calculated on the basis of the crystallised and non-crystallised Performances.

On each Valuation Date indexed “t”, the Crystallised BasketPerf(t) is calculated in accordance with the following formula:

$$\text{CrystallisedBasketPerf}(t) = \frac{1}{n} \sum_{i=1}^n \text{ActiveIndivPerf}(i, t)$$

Where:

ActiveIndivPerf(i,t) = CrystallisedIndivPerf(i) if the Underlying “i” has been Crystallised
 = IndivPerf(i,t) if not

where:

“L” means a whole number as specified in the Final Terms.

“M” means a whole number as specified in the Final Terms.

“Crystallised” means a state of the Underlying which is established if on a previous Valuation Date “t”, the Individual Performance of such Underlying “i” was one of the “L” lowest or “M” highest performances of the Basket composed of Underlyings as yet un-Crystallised on such Valuation Date “t”; for the avoidance of doubt, Underlyings thus Crystallised are ignored in determining the highest and lowest Individual Performances on Valuation Dates subsequent to Valuation Date “t”.

“CrystallisedIndivPerf(i)” means the Individual Performance of Underlying indexed “i” on Observation Date “t” when such Underlying has been Crystallised, and 100% if the Underlying “i” has never been Crystallised.

$$\text{Denomination} \times (100\% + \text{Coupon} + \text{OptionalCoupon})$$

Where:

“Coupon” means an interest rate as specified in the Final Terms.

OptionalCoupon is equal to:

$$G \times \text{Min}(\text{Cap}, \text{Max}(\text{Type} \times (\text{FinalCrystallisedBasketPerf} - K), \text{Floor}))$$

Where:

$$\text{FinalCrystallisedBasketPerf} = \sum_{t=T-p+1}^T \left[\frac{1}{P} \times \text{CrystallisedBasketPerf}(t) \right]$$

where:

“**Type**” means a number equal to (-1) or (1), as specified in the Final Terms.

Melting Autocall

The Melting Autocall includes a melting mechanism which removes the Underlyings from the Basket according to their ranking (the lowest and/or the highest). The Early Redemption and the Final Redemption Amounts are calculated using only the Performance of Underlyings left in the Basket.

On each Valuation Date indexed “**t**”, the Underlyings whose Individual Performance $\text{IndivPerf}(i,t)$ is amongst the **L** lowest Individual Performances or **M** highest Individual Performances are removed from the Basket for the purpose of calculating all subsequent coupons, early redemptions and conditions.

Where:

“**L**” and “**M**” mean whole numbers, as specified in the Final Terms.

“**IndivPerf(i,t)**” means, in respect of an Underlying indexed “**i**” in the Basket, the Individual Performance of such Underlying on Valuation Date “**t**”. Its value is calculated using one of the formulae listed in 1.1 Common Definitions, as specified in the Final Terms.

Automatic Early Redemption of the note is triggered on the first Valuation Date indexed “**t**” where $\text{CallCondition}(t) = 1$

With:

$\text{CallCondition}(t) = 1$ if $\text{BasketPerf}_1(t) \geq R(t)$

= 0 if not

“**BasketPerf₁(t)**” means a Performance of the Basket of Underlyings on the Valuation Date indexed “**t**”. Its value is calculated using one of the formulae listed in 1.1 Common Definitions, as specified in the Final Terms; for the avoidance of doubt, Underlyings removed from the basket on a previous Valuation Date are not used and are not treated as part of the Basket for the purpose of calculating this Performance.

In this case, the Automatic Early Redemption Amount per Note payable on the Automatic Early Redemption Date is equal to:

$\text{Denomination} \times (100\% + \text{Coupon}(t) \times \text{UpsideCondition}(t))$

UpsideCondition(t) = 1 if BasketPerf₂ (t) ≥ H (t)

= 0 if not

Where:

“**Coupon (t)**” means an interest rate as specified in the Final Terms.

“**BasketPerf₂ (t)**” means a Performance of the Basket of Underlyings on the Valuation Date indexed “t”, associated, if relevant, with an Observation Period. Its value is calculated using one of the formulae listed in 1.1 Common Definitions, as specified in the Final Terms; for the avoidance of doubt, Underlyings removed from the basket on a previous Valuation Date are not used and are not treated as part of the Basket for the purpose of calculating this Performance.

If the Automatic Early Redemption condition is never satisfied, the Final Redemption Amount per Note is equal to:

$$\text{Denomination} \times (100\% - \text{Vanilla} \times \text{DownsideCondition})$$

Where:

$$\text{Vanilla} = G \times \text{Min}(\text{Cap}, \text{Max}((K - \text{BasketPerf}_3(T)), \text{Floor}))$$

Each of their respective values is calculated using one of the formulae specified in 1.1 Common Definitions, as specified in the Final Terms. It should be noted that the formula used to calculate “BasketPerf_i(T)” may be different to the formula used to calculate “BasketPerf_j(T)”, for different “i” and “j” indices; for the avoidance of doubt, Underlyings removed from the basket on a previous Valuation Date are not used and are not treated as part of the Basket for the purpose of calculating these Performances.

MemoryPhoenix in Fine

The MemoryPhoenix in Fine records a conditional coupon on each Valuation Date. Noteholders benefit from the Memory Effect, which triggers the earning of any previously unrecorded coupons. Automatic early redemption may occur during the term of the note, triggering the payment of all recorded coupons.

On each Valuation Date indexed “t”, a coupon rate is calculated in accordance with the following formula:

$$\text{CouponRate}(t) = \text{Coupon}_1(t) + (\text{Coupon}_2(t) - \text{SumCouponRate}(t-1)) \times \text{UpsideCondition}(t)$$

$$\text{UpsideCondition}(t) = 1 \text{ if } \text{BasketPerf}_1(t) \geq H(t)$$

$$= 0 \text{ if not}$$

Where:

“**SumCouponRate(t-1)**” means the sum of all previous “CouponRate” amounts calculated from the first Valuation Date to the Valuation Date “t-1” immediately preceding the Valuation Date “t”:

$$\text{SumCouponRate}(t - 1) = \sum_{s=1}^{t-1} \text{CouponRate}(s)$$

The Autocall is a product that is automatically redeemable if the “Condition” is satisfied for the relevant period. The remuneration is then paid in one single instalment and incorporated into the redemption amount.

If the “Condition” is satisfied for the last period, the remuneration is also paid in one single instalment and incorporated into the redemption amount. Conversely, if the “Condition” has never been satisfied, including in respect of the last period, the redemption amount shall be equal to “A” (as a percentage of the Nominal Amount) which may be less than par.

The Final Redemption Amount per Note payable on the Maturity Date is determined by the Calculation Agent in accordance with the following formula:

The note is redeemable early at the end of period i if “” is satisfied in respect of period i .

The Automatic Early Redemption amount is then equal to:

Red(i) x Nominal Amount

If the note is not redeemed early, the redemption amount on the Maturity Date is equal to:

A x Nominal Amount if the condition has not been satisfied in respect of the last period;

Red(last period) x Nominal Amount if the condition has been satisfied in respect of the last period;

Whether the condition has been satisfied is determined periodically.

The Final Redemption Amount may be less than par if the Underlying on the final Observation Date (as a percentage of its initial value) is less

than A.

The Final Redemption Amount per Note payable on the Maturity Date is determined by the Calculation Agent in accordance with the following formula:

**Couponable
Zero Coupon**

The Couponable Zero Coupon is a zero coupon note in which the Issuer may elect on each Anniversary Date to pay interest accrued since the last coupon payment. The Final Redemption Amount depends on exercise(s) of the “Payment Option” made between the Value Date and the Maturity Date.

The Final Redemption Amount per Note payable on the Maturity Date is determined by the Calculation Agent in accordance with the following formula:

$\text{Redemption Price} \times \text{Nominal Amount}$

With:

If no Coupon Payment Option has been exercised,

$\text{Redemption Price} = (1+T)^D$

If at least one Payment Option has been exercised,

$\text{Redemption Price} = (1+T)^{(D-\text{DER})}$ where DER is the last Anniversary Date on which a Payment Option was exercised.

The Issuer has a Coupon Payment Option in each year “I” on the Payment Option Dates.

The Coupon is equal to:

$\text{Nominal Amount} \times ((1+T)^{(I-\text{NI})}-1)$

Where NI is the last year in which a coupon was paid prior to year I.

Where:

- “**D**” means the period in years from the Value Date to the Maturity Date, as specified in the Final Terms
- “**T**” is a percentage specified in the Final Terms.
- The “**Payment Option Dates**” are specified in the Final Terms.

**Fixed
Corridor
TARN**

The Fixed Corridor TARN pays a coupon in respect of which the rate depends on the percentage number of days during the period on which “Underlying” falls between an upper limit “H” and a lower limit “B”, which may be different for each period.

The note is redeemable at par once the sum of coupons paid equals a target amount.

The Final Redemption Amount per Note payable on the Maturity Date is determined by the Calculation Agent in accordance with the following formula:

100% x Nominal Amount

The Coupon is paid periodically and is determined as follows:

The “Coupon Rate” for the i^{th} period is equal to:

$\text{FXR} \times \text{Percent}(i)$

With “Percent(i)” equal to $\text{Nb}(i) / \text{Tot}(i)$

The note is automatically redeemable at the par at the end of period i if the sum of all coupons already paid and the coupon for the current period is equal to or greater than Target (as % of the Nominal Amount). In such case, the last Coupon is adjusted such that the sum of all coupons shall be an amount exactly equal to Target.

If the sum of all coupons paid does not reach “Target” (as % of the Nominal Amount), the last Coupon shall also be adjusted such that the sum of all coupons shall be an amount exactly equal to Target.

Where:

- “**Nb(i)**” is the number of calendar days j in the period i on which Underlying(j) is greater than or equal to B(i) and less than or equal to H(i).
- “**Tot(i)**” is the number of calendar days in the period.

**Restrikable
Corridor**

The Restrikable Corridor pays a coupon in respect of which the rate depends on the percentage number of days during the period on which “Underlying2” falls between an upper limit “H” and a lower limit “B”, which may be different for each period. The “H” and “B” limits are reset in each period depending on the level of “Underlying2”.

The Final Redemption Amount per Note payable on the Maturity Date is determined by the Calculation Agent in accordance with the following formula:

100% x Nominal Amount

The Coupon is paid periodically and is determined as follows:

The “Coupon Rate” for the i^{th} period is equal to:

$$(K \times \text{Underlying1}(E(i)) + \text{Margin}) \times \text{Percent}(i)$$

With “Percent(i)” equal to $\text{Nb}(i) / \text{Tot}(i)$

$$B(i) = \text{Underlying2}(C(i)) - m1$$

$$H(i) = \text{Underlying2}(C(i)) + m2$$

Where:

- “**Nb(i)**” is the number of calendar days j in period i on which $\text{Underlying2}(D(j))$ is greater than or equal to $B(i)$ and less than or equal to $H(i)$.
- “**Tot(i)**” is the number of calendar days in the period.
- “**m1**”, “**m2**” and “**Margin**” mean the percentages specified in the Final Terms.
- “**K**” means a number specified in the Final Terms.

OATi-type Inflation

The OATi-type Inflation pays an annual coupon linked to the value of the “Underlying”. The Final Redemption Amount includes the variance in the Underlying between the Value Date and the Maturity Date, if it is positive.

The Final Redemption Amount per Note payable on the Maturity Date is determined by the Calculation Agent in accordance with the following formula:

$$\text{Max}(\text{Underlying}(\text{End})/\text{Underlying}(\text{Beginning}), 100\%) \times \text{Nominal Amount}$$

The “Coupon Rate” for the i^{th} year is determined as follows:

$$\text{Underlying}(C(i))/\text{Underlying}(\text{Beginning}) \times \text{FXR}$$

Where:

- “**FXR**” means a percentage specified in the Final Terms.
- The “**Underlying**” and the “**Observation Dates**” “**End**”, “**Beginning**” and “**C(i)**” are specified in the Final Terms.

3. CALCULATION FORMULAE APPLICABLE TO CURRENCY LINKED NOTES

3.1 Common Definitions

“**Barrier**” is a numeric value, defined in the same way as a **Strike** (see below), and used in the definition of a **Knock-in or Knock-out** clause (see below).

“**Basket**” means a list of exchange rates, the number of which is denoted by “ n ”. Each exchange rate is given an index number “ i ” and a weighting, i ranging from 1 to n . The exchange rate of index number i is denoted by $\text{FX}(i)$ and its weighting by $W(i)$, as specified in the Final Terms.

“**Basket Performance(t)**” means the value of the Basket on a date t. For a Basket as defined above, note FX(i,t) the value FX(t) for the exchange rate FX(i):

$$\text{Basket Performance}(t) = \sum_{i=1}^n W(i) \cdot \left(\frac{FX(i,t) - \text{Strike}(i,t)}{\text{Norm}(i,t)} \right)$$

Where Strike(i,t) and Norm(i,t) are the **Strikes** (see definition below) applicable to the exchange rate FX(i,t).

“**Coupon Payment Currency**” means the Principal Currency or a Secondary Currency in which the interest payment can be made.

“**FX**” means an exchange rate expressed as the value of a currency unit called Foreign Currency expressed in units of another currency called Domestic Currency.

“**FX(t)**” means the value of the exchange rate on a date t; the Observation Methods of the exchange rate on this date are specified in the Final Terms.

“**Knock-in**”: a Knock-in clause stipulates that the payment of one or more Coupons, or the conversion of the total redemption or a repayment in instalments of the nominal amount, are subject to fulfilment of one of the prerequisites specified in the Final Terms according to the following:

- (A) where the applicable Observation Date t (or the last date in period T respectively) is prior to or falls on the date of application of the clause:
 - (i) the exchange rate **FX(t)** on an Observation Date t;
 - (ii) the minimum or maximum of the exchange rate values **FX** during a period T according to the methods of observation specified in the Final Terms; or
 - (iii) an **Average(T)** over a period T,
- (B) is:
 - (i) strictly less than a Barrier;
 - (ii) less than or equal to a Barrier;
 - (iii) strictly more than a Barrier;
 - (iv) more than or equal to a Barrier;
 - (v) between two defined Barriers; or
 - (vi) outside two defined Barriers.

“**Knock-out**”: a Knock-out clause stipulates that the payment of one or more Coupons or the conversion of the total redemption or a repayment in instalments of the nominal value are cancelled when a prerequisite as defined in the Final Terms according to the cases defined in the **Knock-in** clause specified (see above) has been fulfilled.

“**Mean(T)**” means an average of the values of the Underlying observed during an Observation Period T. Based on the m Underlying values (t_j^T) (j ranging from 1 to m, t_j^T specifying the j-th Observation Date of the Underlying during the period T, as specified in the Final Terms), the average can be calculated, as explained in the Final Terms, as:

(A) **Arithmetic Mean:** $\text{Mean}(T) = \frac{1}{m} \cdot \sum_{j=1}^m FX(t_j^T)$

(B) **Harmonic Mean:** $\text{Mean}(T) = \frac{1}{m} \cdot \frac{1}{\sum_{i=1}^m \frac{1}{FX(t_i^T)}}$

“**Not Applicable**”: a number, a percentage, a strike can be “Not Applicable”. In this case, the value can be ignored in the calculation functions. In particular, $\text{Max}(\text{Not Applicable}, x) = \text{Max}(x, \text{Not Applicable}) = \text{Min}(\text{Not Applicable}, x) = \text{Min}(x, \text{Not Applicable}) = x$.

Unless otherwise indicated, formulae containing a value that is not applicable are always checked. Thus, $(x > \text{Not Applicable})$, $(x < \text{Not Applicable})$, $(x \geq \text{Not Applicable})$, $(x \leq \text{Not Applicable})$ are always checked.

“**Observation Dates**” means the dates specified in the Final Terms.

“**Observation Periods**” means the dates specified in the Final Terms.

“**Principal Currency**” means the reference currency of the security.

“**Rebate**”: a Rebate clause is linked, if necessary, to a Knock-out clause and means that the fulfilment of the condition in the Knock-out clause triggers a supplementary payment, defined or calculated in accordance with the Final Terms.

“**Secondary Currency**” means a currency, which may be different to the principal currency, in which the interest payments and/or the repayment in instalments or the full redemption of the nominal amount can be made.

“**Settlement Currency**” means the Principal Currency or a Secondary Currency in which the repayment in instalments or the full redemption of the outstanding nominal amount of the security can be made.

“**Strike**” means a numeric value intended to be compared with an observation of the Underlying and which may be, in accordance with the terms specified in the Final Terms:

- (A) Predetermined: known and defined at the start of the issue;
- (B) Forward start: determined by observing the Underlying on an Observation Date prior to the Maturity Date to which the Strike is to be applied in accordance with one of the following formulae; the terms of which have been specified in the Final Terms:
 - (i) **Strike** = Underlying(Observation Date)
 - (ii) **Strike** = Underlying(Observation Date) + Spread
 - (iii) **Strike** = Underlying(Observation Date) × Coefficient
 - (iv) **Strike** = $1/(1/(\text{Underlying}(\text{Observation Date}) + \text{Spread}))$
- (C) **Asian:** determined by an average exchange rate over an Observation Period T, where the last date must be prior to or falling on the Maturity Date to which this Strike is to be applied, in accordance with one of the following formulae:
 - (i) **Strike** = Mean(T)

- (ii) Strike = Mean(T) + Spread
- (iii) Strike = Mean(T) x Coefficient

“**Underlying**” means, for the Exchange Products, an exchange rate **FX**, a **Basket Performance** or a **Mean**.

“**Underlying(t)**” means the value of the Underlying on the Observation Date t, **FX(t)**, **Basket Performance(t)** or **Mean(T)** (where the last date of the period T is prior to or the same as t) in accordance with the definition of Underlying.

3.2 Calculation Formulae: Redemption Provisions

The Products listed below contain provisions for the redemption of the principal amount of the Note.

In addition to these Redemption Provisions, the provisions relating to interest payable during the lifetime of the Note are specified in the Final Terms among those applicable to the currency linked products and detailed in the section below entitled **Calculation formulae: Interest Provisions**.

The full name of the product may include both names, for example *Dual Currency – Range Accrual*. By default, where for example *Dual Currency* is specified without precise details relating to the payoff, the Note pays, over its lifetime, a fixed Coupon Rate on dates specified in the Final Terms. The Note can also pay a floating rate, subject to specification in the Final Terms.

Dual Currency
(Principal Currency Domestic Currency) =

The principal of a Dual Currency note can be redeemed or repaid in instalments in a Secondary Currency different to the Principal Currency, whereby the amount is converted at a given Strike.

In the event that the Principal Currency corresponds to the Domestic Currency of the reference currency pair, i.e. the quotation for the reference currency pair is the value of a unit of the Secondary Currency expressed in the Principal Currency, then this conversion can occur if the valuation of the exchange rate on the Observation Date is less than or equal to the Strike.

In accordance with the Final Terms, redemption occurs:

- in instalments (formulae below for each instalment date i, where i = 1 to n); or
- in one bullet payment (formulae below for the sole final repayment, i = 1).

The instalment amount on the i-th instalment date is calculated according to the following formula:

- If **FX(i) > Trigger(i)**, then:
100% x Instalment(i) paid in the **Principal Currency**;
- If **FX(i) ≤ Trigger(i)**, then:
100% x Instalment(i)/**Strike(i)** paid in the **Secondary Currency**.

Where **FX** is the exchange rate where the Domestic Currency is the Principal Currency of the note, and the Foreign Currency is the Secondary Currency.

Dual Currency The principal of a Dual Currency can be redeemed or repaid in instalments in a Secondary Currency different to the Principal Currency, whereby the amount is converted at a given Strike.

(Principal Currency = Foreign Currency)

In the event that the Principal Currency corresponds to the Foreign Currency of the reference currency pair, i.e. the quotation for the reference currency pair is the value of a unit of the Principal Currency expressed in the Secondary Currency, then this conversion can occur if the exchange rate on the Observation Date is less than or equal to the Strike.

In accordance with the Final Terms, redemption occurs:

- in instalments (formulae below for each instalment date i , where $i = 1$ to n); or
- in one bullet payment (formulae below for the sole final repayment, $i = 1$).

The instalment amount on the i -th instalment date is calculated according to the following formula:

- If $FX(i) < \text{Trigger}(i)$, then:
100% x Instalment(i) paid in the **Principal Currency**;
- If $FX(i) \geq \text{Trigger}(i)$, then:
100% x Instalment(i) x **Strike(i)** paid in the **Secondary Currency**.

Where FX is the exchange rate where the Foreign Currency is the Principal Currency of the note, and the Domestic Currency is the Secondary Currency.

Where, for each instalment date i :

- **Instalment(i)** is the part of the Nominal Amount which is redeemed on instalment date i .
- “**Trigger(i)**” means a Strike which has been predefined or calculated according to the Final Terms.
- “**Strike(i)**” means a Strike which has been predefined or calculated according to the Final Terms.
- The definition of the **Underlying** and the calculation method for the **Underlying(i)** are stipulated in the Final Terms.
- The application of this Redemption/Instalment Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** are applicable, the Final Terms will specify what shall take precedence.

Bull Power The redemption amount of a Bull Power is an increasing function of the Underlying. The bullet repayment or the repayment in instalments of the principal may be less than 100% if the Underlying is less than the Strike on the Observation Dates.

The risk on the redeemed principal can be limited with a minimum amount (Floor) and a maximum amount (Cap).

Between these two limits:

- the redemption amount is a linear function of the difference between the Strike and the Underlying;
- the Gearing Ratio is the indexation percentage of the redemption amount when compared with the difference between the Strike and the Underlying;
- where this difference is normalised by the Norm factor in the Settlement Currency.

In accordance with the Final Terms, redemption occurs:

- in instalments (formulae below for each instalment date i , where $i = 1$ to n); or
- in one bullet payment (formulae below for the sole final repayment, $i = 1$).

The instalment amount on the i -th instalment date is calculated according to the following formula:

$$\text{Instalment}(i) \times \left[100\% - \max \left(\text{Floor}(i); \min \left(\text{Cap}(i); \text{Gearing Ratio}(i) \times \frac{\text{Strike}(i) - \text{Underlying}(i)}{\text{Norm}(i)} \right) \right) \right]$$

Where, for each instalment date i :

- **Instalment(i)** is the part of the Nominal Amount which is redeemed on instalment date i .
- **Cap(i), Floor(i), Gearing Ratio(i)** are the percentages specified in the Final Terms:
 - $\text{Floor}(i) < \text{Cap}(i) \leq 100\%$;
 - $\text{Gearing Ratio}(i) > 0$.

Strike(i) and **Norm(i)** are the Strikes which are predefined or calculated in accordance with to the Final Terms.

The definition of the **Underlying** and the calculation method for the **Underlying(i)** are specified in the Final Terms.

The application of this Redemption/Instalment Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** are applicable, the Final Terms will specify what shall take precedence.

Bear Power

The redemption amount of Bear Power is a decreasing function of the Underlying. The bullet repayment or the repayment in instalments of the principal can be less than 100% if the Underlying is higher than the Strike on the Observation Dates.

The risk on the redeemed principal can be limited with a minimum amount (Floor) and a maximum amount (Cap).

Between these two limits:

- the redemption amount is a linear function of the difference between the Underlying and the Strike;
- the Gearing Ratio is the indexation percentage of the redemption when compared with the difference between the Underlying and the Strike;
- where this difference is normalised by the Norm factor in the Settlement Currency.

In accordance with the Final Terms, redemption occurs:

- in instalments (formulae below for each instalment date i , where $i = 1$ to n); or
- in one bullet payment (formulae below for the sole final repayment, $i = 1$).

The instalment amount on the i -th instalment date is calculated according to the following formula:

$$Instalment(i) \times \left[100\% - \max \left(Floor(i); \min \left(Cap(i); Gearing\ Ratio(i) \times \frac{Underlying(i) - Strike(i)}{Norm(i)} \right) \right) \right]$$

Where, for each instalment date i :

- **Instalment(i)** is the part of the Nominal Amount which is redeemed on instalment date i .
- **Cap(i), Floor(i), Gearing Ratio(i)** are the percentages specified in the Final Terms:
 - $Floor(i) < Cap(i) \leq 100\%$;
 - $Gearing\ Ratio(i) > 0$.
- **Strike(i)** and **Norm(i)** are the Strikes which are predefined or calculated according to the Final Terms.
- The definition of the **Underlying** and the calculation method for the **Underlying(i)** are specified in the Final Terms.
- The application of this Redemption/Instalment Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Twin Power

The bullet repayment or the repayment in instalments of the principal of Twin Power may be less than 100% if the Underlying is greater or less than the Strike on the Observation Dates.

The risk on the redeemed principal can be limited by a minimum amount (Floor) and a maximum amount (Cap_C for the maximum amount of the upward movement of the Underlying, Cap_P for the maximum amount of the downward movement of the Underlying).

Between these limits, the redeemed amount is in a linear function of the difference between the Underlying and the Strike:

In relation to an upward movement of the Underlying:

- Gearing Ratio_C is the indexation percentage of the redemption compared with the difference between the Underlying and the Strike_C;
- where this difference has been normalised by the factor Norm_C in the Settlement Currency.

In relation to a downward movement of the Underlying:

- Gearing Ratio_P is the indexation percentage of the redemption compared with the difference between the Strike_P and the Underlying;
- where this difference has been normalised by the factor Norm_P in the Settlement Currency.

In accordance with the Final Terms, redemption occurs:

- by instalment (formulae below for each instalment date i, where i = 1 to n); or
- by bullet payment (formulae below for the sole final repayment, i = 1).

The instalment amount on the i-th instalment date is calculated according to the following formula:

$$Instalment(i) \times \left[100\% - \max \left(\begin{array}{l} Floor(i); \\ \min \left(Cap_P(i), Gearing_Ratio_P(i) \times \frac{Strike_P(i) - Underlying(i)}{Norm_P(i)} \right) \\ + \min \left(Cap_C(i), Gearing_Ratio_C(i) \times \frac{Underlying(i) - Strike_C(i)}{Norm_C(i)} \right) \end{array} \right) \right]$$

Where, for each instalment date i:

- **Instalment(i)** is the part of the Nominal Amount which is redeemed on instalment date i.
- **Floor(i)**, **Gearing Ratio_P(i)**, **Cap_P(i)**, **Gearing Ratio_C(i)** and **Cap_C(i)** are percentages specified in the Final Terms:
 - Floor(i) < Cap_P(i) ≤ 100%;
 - Floor(i) < Cap_C(i) ≤ 100%;
 - Gearing Ratio_P(i) > 0;
 - Gearing Ratio_C(i) > 0.
- **Strike_P(i)**, **Norm_P(i)**, **Strike_C(i)** and **Norm_C(i)** are Strikes which are predefined and calculated according to the Final Terms:
 - Strike_P(i) ≤ Strike_C(i).

- The definition of the **Underlying** and the calculation method for the **Underlying(i)** are specified in the Final Terms.
- The application of this Redemption/Instalment Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** are applicable, the Final Terms will specify what shall take precedence.

Digital Power

The bullet repayment or repayment in instalments of the principal of a Digital Power can have two possible values, depending on the value of the Underlying on the Observation Dates.

A range is defined as below a high Barrier or above a low Barrier, or both.

The amount has a given value if the Underlying is within the range, including the Barriers, and has another given value if the Underlying is outside the range.

In accordance with the Final Terms, redemption occurs:

- in instalments (formulae below for each instalment date i , where $i = 1$ to n); or
- in one bullet payment (formulae below for the sole final repayment, $i = 1$).

The instalment amount on the i -th instalment date is calculated according to the following formula:

Instalment(i) x FXRin(i) if Underlying(i) is greater than or equal to B(i) and is less than or equal to H(i)

Instalment(i) x FXRout(i) if the opposite is true

Where, for each instalment date i :

- **Instalment(i)** is the part of the Nominal Amount which is redeemed on instalment date i .
- **FXRin(i)** and **FXRout(i)** are percentages specified in the Final Terms:
 - $FXRin(i) > 0$;
 - $FXRout(i) > 0$.
- **B(i)** and **H(i)** are Strikes which are predefined or calculated according to the Final Terms, on the understanding that $H(i)$ may correspond to infinity and $B(i)$ to 0 (zero).
- The definition of the **Underlying** and the calculation method for the **Underlying(i)** are specified in the Final Terms.
- The application of this Redemption/Instalment Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Autocall

The principal of an Autocall may be redeemed in advance on particular dates

according to the observation of the spot price on the Observation Dates.

A range is defined as below a high Barrier or above a low Barrier, or both.

If the Underlying is within the range on an Observation Date the Condition is met. The principal is therefore redeemed in advance at an Early Redemption Amount that may not be 100%.

If the principal has not been redeemed in advance, the Final Redemption Amount may depend on the Condition being met on the last Observation Date.

The Note can be redeemed in advance at the end of each period i (for i from 1 to n) in accordance with the following condition:

For each period i , **Condition(i)** is met if:

Underlying(i) is greater than or equal to B(i) and less than or equal to H(i)

In the first period i in which **Condition(i)** is met, the note is redeemed in advance and the Early Redemption Amount is:

Redemption(i) x Nominal Value

If the Note is not redeemed prior to period n , and if **Condition(n)** is not met, the Final Redemption Amount is:

A x Nominal Value

Where, for each period i :

- **Redemption(i)** and **A** are percentages which are predefined or calculated in accordance with the Final Terms.
- **B(i)** and **H(i)** are Strikes which are predefined or calculated according to the Final Terms, on the understanding that $H(i)$ may correspond to infinity and $B(i)$ to 0 (zero).
- The definition of the **Underlying** and the calculation method for the **Underlying(i)** are specified in the Final Terms.

Bullish Power Target The bullet repayment or the repayment by instalment of a Bullish Power Target may be less than 100% according to the performance of the Underlying recorded on the Observation Dates.

On each Observation Date, if the Underlying is less than the Strike, the difference, which is normalised in the Settlement Currency by the Norm factor and weighted by the **β factor**, is deducted from the principal.

The sum of the differences deducted in this way (positive differences between the Strike and the Underlying) is capped by the Target level. Each deducted amount is weighted by factor **α** which has the value 1 by default, and the value 0 once the sum of the positive differences has reached the Target value.

In accordance with the Final Terms, redemption occurs:

- in instalments (formulae below for each instalment date i , where $i = 1$ to n); or
- in one bullet payment (formulae below for the sole final repayment, $i = 1$).

The instalment amount on the i-th instalment date is calculated according to the following formula:

$$Instalment(i) \times \left[100\% - \sum_{j=1}^{m(i)} \alpha(t_j^i) \times \beta(t_j^i) \times \max \left(0; \frac{Strike(t_j^i) - Underlying(t_j^i)}{Norm(t_j^i)} \right) \right]$$

In which:

$$CIV_1^i = \max(0; Strike(t_1^i) - Underlying(t_1^i));$$

$$CIV^{i+1} = CIV_{m(i)}^i + \max(0; Strike(t_j^i) - Underlying(t_j^i));$$

$$\text{If } m(i) > 1 \text{ } CIV_{j+1}^i = CIV_j^i + \max(0; Strike(t_j^i) - Underlying(t_j^i)).$$

And for all k from 1 to m(i):

- if $CIV_k^i < \text{Target}(i)$: $\alpha(t_k^i) = 1$;
- if $CIV_{k-1}^i < \text{Target}(i)$ and $CIV_k^i \geq \text{Target}(i)$: $\alpha(t_k^i) = \text{KO}(i)$;
- if $CIV_{k-1}^i \geq \text{Target}(i)$: $\alpha(t_k^i) = 0$.

Where, for each instalment date i:

- **Instalment(i)** is the part of the Nominal Amount which is redeemed on instalment date i.
 - **T(i)** is an observation period with a final date which falls on or is no later than the instalment date;
 - **m(i)** is the number of Observation Dates in the Observation Period T(i);
 - on any days (j) from 1 to m(i), **tij** is the j-th Observation Date in Observation Period T(i).
- **β(tij)** is a positive number specified in the Final Terms.

- The application of this Redemption/Instalment Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Bearish Power Target

The bullet repayment or repayment by instalment of a Bearish Power Target may be less than 100% according to the performance of the Underlying recorded on the Observation Dates.

On each Observation Date, if the Underlying is greater than the Strike, the difference, which is normalised in the Settlement Currency by the Norm factor and weighted by factor β , is deducted from the principal.

The sum of the differences deducted in this way (positive differences between the Underlying and the Strike) is capped by the Target level. Each deducted amount is weighted by factor α which has the value 1 by default, and the value 0 once the sum of the positive differences has reached the Target value.

In accordance with the Final Terms, redemption occurs:

- in instalments (formulae below for each instalment date i , where $i = 1$ to n); or
- in one bullet payment (formulae below for the sole final repayment, $i = 1$).

The instalment amount on the i -th instalment date is calculated according to the following formula:

$$Instalment(i) \times \left[100\% - \sum_{j=1}^{m(i)} \alpha(t_j^i) \times \beta(t_j^i) \times \max\left(0; \frac{Underlying(t_j^i) - Strike(t_j^i)}{Norm(t_j^i)}\right) \right]$$

In which:

$$CIV^1 = \max(0; Strike(t_1^1) - Strike(t_1^1));$$

$$CIV^{i+1} = CIV^{m(i)} + \max(0; Underlying(t_1^i) - Strike(t_1^i));$$

$$\text{If } m(i) > 1 \text{ } CIV^{j+1} = CIV^j + \max(0; Underlying(t_j^i) - Strike(t_j^i)).$$

And for all k from 1 to $m(i)$:

- if $CIV^k < Target(i)$: $\alpha(t_k^i) = 1$;
- if $CIV^{k-1} < Target(i)$ and $CIV^k \geq Target(i)$: $\alpha(t_k^i) = KO(i)$;
- if $CIV^{k-1} \geq Target(i)$: $\alpha(t_k^i) = 0$.

Where, for each instalment date i :

- **Instalment(i)** is the part of the Nominal Amount which is redeemed on instalment date i .
 - **T(i)** is an observation period with a final date which falls on or is no later than the instalment date:
 - **m(i)** is the number of Observation Dates in the Observation Period T(i).
 - on any days (j) from 1 to $m(i)$, **t_j** is the j-th Observation Date of the Observation Period T(i).
 - **β(t_j)** is a positive number specified in the Final Terms.

- **Target(i)** is a positive number defined and determined according to the

Final Terms.

- **KO(i)** is a positive number predefined or calculated according to the Final Terms.

- The application of this Redemption/Instalment Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

3.3 Calculation Formulae: Interest Provisions

The Products stated below are the Provisions relating to interest.

In addition to these Interest Provisions, the Redemption Provisions are specified in the Final Terms, amongst those that apply to the foreign exchange products detailed in the section above under **Calculation formulae: Redemption Provisions**.

The full name of the product may include both names, for example *Dual Currency – Range Accrual*. By default, where for example *Range Accrual* is specified, without specifying the payoff, the redemption of the principal is 100% of the nominal value on the Maturity Date specified in the Final Terms. The principal may also be redeemed in instalments in accordance with a schedule defined in the Final Terms, for example *Instalment Range Accrual*.

It is possible to combine several Provisions, including by applying a Redemption Provision, and to then change the full name of the product, for example, *Instalment Dual Currency – Digital Coupon + Bull Index*.

Bull Index

The interest payable on the principal of a Bull Index in each Interest Period is an increasing function of the Underlying on the Observation Dates.

The interest can be limited by a minimum amount (Floor) and a maximum amount (Cap).

Between these two limits:

- the interest payable is a linear function of the difference between the Underlying and the Strike;
- the Gearing Ratio is the indexation percentage of the redemption when compared with the difference between the Underlying and the Strike;
- where this difference has been normalised by the Norm factor in the Payment Currency for the Coupons.

In accordance with the Final Terms, the Coupon is payable:

- periodically (formulae below for each period i , as $i = 1$ to n); or
- by bullet repayment (formulae below for the sole final Coupon, $i = 1$).

The Coupon Rate applied to the nominal value that remains due for the i -th period is equal to:

$$\max\left(Floor(i); \min\left(Cap(i); Gearing\ Ratio(i) \times \frac{Underlying(i) - Strike(i)}{Norm(i)}\right)\right)$$

Where, for each period i:

- **Cap(i), Floor(i), Gearing Ratio(i)** are the percentages specified in the Final Terms:
 - $0 \leq Floor(i) < Cap(i)$;
 - $Gearing\ Ratio(i) > 0$.
- **Strike(i)** and **Norm(i)** are the Strikes which are predefined or calculated according to the Final Terms.
- The definition of the **Underlying**, and the calculation method for the **Underlying(i)** are specified in the Final Terms.
- The application of this Interest Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Bear Index

The interest payable on a Bear Index for each Interest Period is a decreasing function of the Underlying on the Observation Dates.

The interest can be limited by a minimum amount (Floor) and a maximum amount (Cap).

Between these two limits:

- the interest payable is a linear function of the difference between the Strike and the Underlying;
- the Gearing Ratio is the indexation percentage of the redemption when compared with the difference between the Strike and the Underlying;
- where this difference has been normalised by the Norm factor in the Payment Currency for the Coupons.

In accordance with the Final Terms, the Coupon is payable:

- periodically (formulae below for each period i, as i = 1 to n); or
- by bullet repayment (formulae below for the sole final Coupon, i = 1).

The Coupon Rate applied to the nominal value that remains due for the i-th period is equal to:

$$\max\left(Floor(i); \min\left(Cap(i); Gearing\ Ratio(i) \times \frac{Strike(i) - Underlying(i)}{Norm(i)}\right)\right)$$

Where, for each period i:

- **Cap(i), Floor(i), Gearing Ratio(i)** are the percentages:

specified in the final terms:

- $0 \leq \text{Floor}(i) < \text{Cap}(i)$;
- $\text{Gearing Ratio}(i) > 0$.
- **Strike(i)** and **Norm(i)** are the Strikes which are predefined or calculated according to the Final Terms.
- The definition of the **Underlying** and the calculation method for the **Underlying(i)** are specified in the Final Terms
- The application of this Interest Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Twin-Win Index The interest payable on a Twin-Win Index for each Interest Period is a function of the Underlying on the Observation Dates.

The interest may be limited by a minimum amount (Floor) and a maximum amount (Cap_C for the maximum amount of the upward movement of the Underlying, Cap_P for the maximum amount of the downward movement) of the Underlying.

Between these limits, the interest is a linear function of the difference between the Underlying and the Strike:

For an upward movement of the Underlying:

- Gearing Ratio_C is the payoff indexation percentage compared with the difference between the Underlying and the Strike_C;
- whereby this difference has been normalised by the factor Norm_C in the Payment Currency for the Coupons.

For a downward movement of the Underlying:

- Gearing Ratio_P is the indexation percentage of payoff compared with the difference between the Underlying and the Strike_P;
- whereby this difference has been normalised by the factor Norm_P in the Payment Currency for the Coupons.

In accordance with the Final Terms, the Coupon is payable:

- periodically (formulae below for each period i , as $i = 1$ to n); or
- by bullet repayment (formulae below for the sole final Coupon, $i = 1$).

The Coupon Rate applied to the nominal value that remains due for the i -th period is equal to:

$$\max \left(\begin{array}{l} \text{Floor}(i); \min \left(\text{Cap}_P(i); \text{Gearing Ratio}_P(i) \times \frac{\text{Strike}_P(i) - \text{Underlying}(i)}{\text{Norm}_P(i)} \right) + \\ \min \left(\text{Cap}_C(i); \text{Gearing Ratio}_C(i) \times \frac{\text{Strike}_C(i) - \text{Underlying}(i)}{\text{Norm}_C(i)} \right) \end{array} \right)$$

Where, for each period i:

- **Floor(i)**, **Gearing Ratio_P(i)**, **Cap_P(i)**, **Gearing Ratio_C(i)** and **Cap_C(i)** are percentages specified in the Final Terms:
 - $0 \leq \text{Floor}(i) < \text{Cap_P}(i)$;
 - $0 \leq \text{Floor}(i) < \text{Cap_C}(i)$;
 - $\text{Gearing Ratio_P}(i) > 0$;
 - $\text{Gearing Ratio_C}(i) > 0$.
- **Strike_P(i)**, **Norm_P(i)**, **Strike_C(i)** and **Norm_C(i)** are the Strikes that have been predefined or calculated in accordance with the Final Terms:
 $\text{Strike_P}(i) \leq \text{Strike_C}(i)$.
- The definition of the **Underlying** and the calculation method for the **Underlying(i)** are stipulated in the Final Terms.
- The application of this Interest Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Digital

The interest payable on a Digital for each Interest Period may take two possible values depending on the value of the Underlying at the Observation Dates.

A range is defined as below a high Barrier or above a low Barrier, or both.

The interest has a certain value if the Underlying falls within the range, including the Barriers, and has a different value if the Underlying is outside the range.

In accordance with the Final Terms, the Coupon is payable:

- periodically (formulae below for each period i, as $i = 1$ to n); or
- by bullet repayment (formulae below for the sole final Coupon, $i = 1$).

The Coupon Rate applied to the nominal value that remains due for the i-th period is equal to: **FXRin(i) if Underlying(i) is greater than or equal to B(i) and is less than or equal to**

H(i)

FXRout(i) if the opposite is true

Where, for each period i:

- **FXRin(i)** and **FXRout(i)** are percentages specified in the Final Terms:
 - $\text{FXRin}(i) > 0$;
 - $\text{FXRout}(i) > 0$.
- **B(i)** and **H(i)** are Strikes which are predefined or calculated according to the Final Terms, on the understanding that H(i) may correspond to infinity and B(i) to 0 (zero).

- The definition of the **Underlying** and the calculation method for the **Underlying(i)** are stipulated in the Final Terms.
- The application of this Interest Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Wedding Cake

The interest payable on a Wedding Cake for each Interest Period may take three possible values depending on the performance of the Underlying during the Observation Periods.

A first range is defined as below a high Barrier or above a low Barrier, or both.

A second range is defined as below a second high Barrier, or above a second low Barrier, or both (the first range being included in the second).

The interest is equal to a certain first value if, within the Observation Period, the Underlying remains within the first range, excluding the Barriers (“Condition 1” is met).

The interest is equal to a certain second value if, within the Observation Period, the Underlying has, at least once, moved outside the first range but has remained within the second range, excluding the Barriers (“Condition 2” is met). The interest is equal to a third value if neither of the two conditions is met.

In accordance with the Final Terms, the Coupon is payable:

- periodically (formulae below for each period i , as $i = 1$ to n); or
- by bullet repayment (formulae below for the sole final Coupon, $i = 1$).

The Coupon Rate applied to the nominal value that remains due for the i -th period is equal to: **FXR_1(i)** if:

- Condition_1(i) is met
- **Condition_1(i):** During the observation period **T(i)**: the exchange rate **FX** has never been at or below **B_1(i)** nor at or above **H_1(i)**

FXR_2(i) if:

- Condition_1(i) is not met, but Condition_2(i) is met:
- **Condition_2(i):** During the Observation Period **T(i)**: the exchange rate **FX** has never been at or below **B_2(i)** nor at or above **H_2(i)**

FXR_3(i) if neither **Condition_1(i)** nor **Condition_2(i)** have been met.

Where, for each period i :

- **T(i)** is an Observation Period with a final date which falls on or is no later than the payment date for the Interest Period i ;
- **FXR_1(i)**, **FXR_2(i)** and **FXR_3(i)** are the percentages specified in the Final Terms;
- **B_2(i)**, **B_1(i)**, **H_1(i)** and **H_2(i)** are Strikes which are predefined or

calculated according to the Final Terms;

- **$B_2(i) < B_1(i) < H_1(i) < H_2(i)$**
- The Observation Terms for the exchange rate **FX** during the Observation Period **T(i)** are specified in the Final Terms.
- The application of this Interest Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Range Accrual

The interest payable on a Range Accrual for each Interest Period depends on the number of Observation Dates during which the Underlying falls within a given range during this Observation Period.

A range is defined as below a high Barrier or above a low Barrier, or both.

On each Observation Date, if the Underlying is included in the range, inclusive of Barriers, the interest is increased in increments of a given amount.

In accordance with the Final Terms, the Coupon is payable:

- periodically (formulae below for each period i , as $i = 1$ to n); or
- by bullet repayment (formulae below for the sole final Coupon, $i = 1$).

The Coupon Rate applied to the nominal value that remains due for the i -th period is equal to: **$CG(i) + FXR(i) \times n(i)/N(i)$** .

In which:

- **$N(i)$** the total number of Observation Dates during the Observation Period **$T(i)$** ; and
- **$n(i)$** the number of Observation Dates during the Observation Period **$T(i)$** , for which Condition(i) is met:

Condition(i): Underlying(i) is greater than or equal to **$B(i)$** and less than or equal to **$H(i)$** .

Where, for each period i :

- **$T(i)$** is an Observation Period with a final date which falls on or is no later than the payment date for the Interest Period i . **$CG(i)$** and **$FXR(i)$** are the percentages specified in the Final Terms.

- The application of this Interest Provision can be determined on the activation of one or more **Knock-in** clauses or can be cancelled by one or more **Knock-out** clauses (with or without **Rebate**). In the event that both

Knock-in and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Bullish Target Coupon The interest payable on a Bullish Target Coupon at each Interest Period depends on the performance of the Underlying observed on the Observation Dates.

On each Observation Date, if the Underlying is greater than the Strike, the difference, which is normalised in the Coupon Payment Currency by the Norm factor and weighted by the **β factor**, is added to the interest.

The sum of the differences added in this way (positive differences between the Underlying and the Strike) is capped by the Target level. Each added amount is weighted by factor **α** which takes the value 1 by default, and value 0 once the sum of the positive differences has reached the Target value.

In accordance with the Final Terms, the Coupon is payable:

- periodically (formulae below for each period i , as $i = 1$ to n); or
- by bullet repayment (formulae below for the sole final Coupon, $i = 1$).

The Coupon Rate applied to the nominal value that remains due for the i -th period is equal to:

$$\sum_{j=1}^{m(i)} \alpha(t_j^i) \times \beta(t_j^i) \times \max\left(0; \frac{\text{Underlying}(t_j^i) - \text{Strike}(t_j^i)}{\text{Norm}(t_j^i)}\right)$$

In which:

$$CIV^1 = \max(0; \text{Underlying}(t_1^1) - \text{Strike}(t_1^1));$$

$$CIV^{i+1} = CIV^{m(i)} + \max(0; \text{Underlying}(t_1^i) - \text{Strike}(t_1^i));$$

$$\text{If } m(i) > 1 \text{ } CIV^{j+1} = CIV^j + \max(0; \text{Underlying}(t_j^i) - \text{Strike}(t_j^i)).$$

And for all k from 1 to $m(i)$:

- if $CIV^k < \text{Target}(i)$: $\alpha(t_k^i) = 1$;
- if $CIV^{k-1} < \text{Target}(i)$ and $CIV^k \geq \text{Target}(i)$: $\alpha(t_k^i) = \text{KO}(i)$;
- if $CIV^{k-1} \geq \text{Target}(i)$: $\alpha(t_k^i) = 0$.

Where, for each period i :

In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Bearish Target Coupon The interest on a Bearish Target Coupon at each Interest Period depends on the performance of the Underlying observed on the Observation Dates.

On each Observation Date, if the Underlying is less than the Strike, the difference, which is normalised in the Coupon Payment Currency by the Norm factor and weighted by the **β factor**, is added to the interest.

The sum of the differences added in this way (positive differences between the Strike and the Underlying) is capped by the Target level. Each added amount is weighted by factor **α** which has the value 1 by default, and value 0 once the sum of the positive differences has reached the Target value.

In accordance with the Final Terms, the Coupon is payable:

- periodically (formulae below for each period i, as i = 1 to n); or
- by bullet repayment (formulae below for the sole final Coupon, i = 1).

The Coupon Rate applied to the nominal value that remains due for the i-th period is equal to:

$$\sum_{j=1}^{m(i)} \alpha(t_j^i) \times \beta(t_j^i) \times \max\left(0; \frac{\text{Strike}(t_j^i) - \text{Underlying}(t_j^i)}{\text{Norm}(t_j^i)}\right)$$

In which:

$$CIV^1 = \max(0; \text{Strike}(t_1^i) - \text{Underlying}(t_1^i));$$

$$CIV_{1+1}^i = CIV_{m(i)}^i + \max(0; \text{Strike}(t_j^i) - \text{Underlying}(t_j^i));$$

$$\text{If } m(i) > 1 \text{ } CIV_{j+1}^i = CIV_j^i + \max(0; \text{Strike}(t_j^i) - \text{Underlying}(t_j^i)).$$

And for all k from 1 to m(i):

- if $CIV_k^i < \text{Target}(i)$: $\alpha(t_k^i) = 1$;
- if $CIV_{k-1}^i < \text{Target}(i)$ and $CIV_k^i \geq \text{Target}(i)$: $\alpha(t_k^i) = \text{KO}(i)$;
- if $CIV_{k-1}^i \geq \text{Target}(i)$: $\alpha(t_k^i) = 0$.

Where, for each period i:

- **T(i)** is an Observation Period with a final date which falls on or is no later than the payment date for the interest period i:

- **m(i)** is the number of Observation Dates in the period T(i).
- for all j between 1 and m(i), t_j^i is the j-th Observation Date for the Observation Period T(i).

In the event that both **Knock-in** and **Knock-out** apply, the Final Terms will specify what shall take precedence.

Conditions 19 and 21 applicable to Single Exchange Index Linked Notes, Multi-Exchange Index Linked Notes (single index) and Index Linked Notes (Index Basket) apply to the Proprietary Indices defined below, provided that (i) in the case of Notes linked to a single Proprietary Index, Condition 19 relating to Single Exchange Index Linked Notes and Multi-Exchange Index Linked Notes (single index) shall apply and (ii) in the case of Notes linked to a basket of Proprietary Indices, Condition 21 relating to Index Linked Notes (Index Basket) shall apply.

The 13 Proprietary Indices are as follows:

Name of the Index	NXS Be-AIR Bearish alternative investment replication
Index Strategy / Investment Policy / Index Objective	The NXS Be-AIR EUR index is a proprietary index of Natixis. The index has as an objective the generation of returns negatively correlated to the returns on the hedge funds market, so as to protect its portfolio of hedge fund against severe crisis. In order to attain such objective, it offers an exposure to financial instruments from various asset classes including, but not limited to, equity, commodities and currencies (the “ Index Components ” and if there’s one the “ Index Component ”). The diversification brought by the various Index Components aims at reducing risks and at allowing the investors to obtain a more constant performance of their portfolio.
Description of the process of selection of the weightings’ factors of the components	<p>Natixis teams created and developed the Index from an in-house quantitative methodology. The model automatically adjusts the weightings of the Index Components on the basis of an algorithm so that the Index reaches its objective. The weightings are estimated on reallocation date (so called rebalancing) of the Index on the basis of the current information in the market at this date (such as the closing prices of the Index Components) from the application of a statistical model called Kalman’s filter.</p> <p>The Index Components and their weightings are determined by the Index Calculation Agent on the basis of a mathematical and proprietary model. The Index benefits from a currency overlay in Euro through an exposure to currency pairs such as the USD/EUR pair (the “FX Components”) to protect the investors from foreign exchange movements when the Index is exposed to non-Euro denominated Index Components.</p>
Calculation method and formula	<p>The performance of the Index is calculated on a daily basis and reflects the weightings of the Index Components, their respective daily returns, the currency overlay and their costs. Name of the Index	NXS SHARPe Euro Diversified <i>Euro Zone Asset Allocation Optimized Strategy</i>
Index Strategy / Investment Policy / Index Objective	The NXS SHARPe Euro Diversified index is a proprietary index of Natixis which follows a dynamic reallocation strategy that takes exposure in different asset classes (equity, real-estate, commodities, hedge funds, notes, cash) on the euro zone area (the “ Index Components ” and if there’s one the “ Index Component ”) towards four (4) diversified profiles: aggressive, dynamic, well-balanced and defensive. Name of the Index	Excellence
Index Strategy / Investment Policy / Index Objective	The Excellence index is a proprietary index of Natixis which follows a dynamic reallocation strategy that takes exposure in a basket of equity funds and money-market indexes or funds towards four (4) diversified profiles: aggressive, dynamic, well-balanced and defensive. The objective of the Index is to benefit from favourable cycles of the equity markets by the way of an equiweighted basket of equity funds and of money-market funds or indexes (the “ Index Components ” and if there’s one the “ Index Component ”) with a potential of unlimited performance and including a risk management model.
Description of the process of selection of the weightings’ factors of the components	Natixis teams created and developed the Index from an in-house quantitative methodology. The Index is based on a strategy which allows the Index, through daily systematic reallocations, on one hand, to take advantage of the performance of risky assets when the perception of market risk is low and, on the other hand, to take advantage of a monetary return when market risk perception is strong.
Calculation method and formula	The performance of the Index is calculated on a daily basis and reflects the weightings of the Index Components, their respective daily returns, the currency overlay and their costs. The Index has an initial level of 1,000. The Index at time t is calculated by the Index Calculation Agent and is equal to the product between the last value known for the Index and 100 %: (i) <i>plus</i> the sum of the weighted performances of every Index Component converted in the Index currency,

CLEARING AND SETTLEMENT IN RESPECT OF ENGLISH LAW NOTES

Book-Entry Ownership

Bearer Notes

The Issuer may make applications to Euroclear France, Clearstream, Luxembourg and Euroclear for acceptance in their respective book-entry systems in respect of any Series of Notes in bearer form (“**Bearer Notes**”). In respect of Bearer Notes in CGN form, a temporary Global Note and/or a permanent Global Note in bearer form without coupons may be deposited with a common depositary for Clearstream, Luxembourg and Euroclear or with Euroclear France acting as central depositary, and in NGN form with a common safekeeper for Euroclear and Clearstream, Luxembourg. Transfers of interests in such temporary Global Notes or other Global Notes will be made in accordance with the normal Euromarket debt securities operating procedures of Clearstream, Luxembourg and Euroclear and, if appropriate, Euroclear France.

Registered Notes

The Issuer may make applications to Clearstream, Luxembourg and Euroclear for acceptance in their respective book-entry systems in respect of the Notes to be represented by an Unrestricted Global Certificate. Each Unrestricted Global Certificate deposited with a nominee for Clearstream, Luxembourg and/or Euroclear will have an ISIN and a Common Code.

All Registered Notes will initially be in the form of an Unrestricted Global Certificate. Definitive Registered Notes in the form of Individual Certificates will only be available in amounts specified in the applicable Final Terms. Transfers of interests in Global Certificates within Clearstream, Luxembourg and Euroclear will be in accordance with the usual rules and operating procedures of the relevant clearing system.

On or after the Issue Date for any Series, transfers of Notes of such Series between accountholders in Clearstream, Luxembourg and Euroclear will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

For a further description of restrictions on transfer of Registered Notes, see “*Transfer Restrictions*”.

Pre-issue Trades Settlement

It is expected that delivery of Notes will be made against payment therefor on the relevant Issue Date, which could be more than three business days following the date of pricing. Under Rule 15c6-1 of the US Securities and Exchange Commission under the Exchange Act, trades in the United States secondary market generally are required to settle within three business days (T+3), unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes in the United States on the date of pricing or the next succeeding business days until the relevant Issue Date will be required, by virtue of the fact that the Notes initially will settle beyond T+3, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Settlement procedures in other countries will vary. Purchasers of Notes may be affected by such local settlement practices and purchasers of Notes who wish to trade Notes between the date of pricing and the relevant Issue Date should consult their own adviser.

Swiss Notes

The Swiss Notes will be issued in registered, uncertificated and dematerialised book-entry form in accordance with the Swiss CSD Rules, and no physical certificates or other physical instruments will be issued in respect of the Swiss Notes. In order to effect entries in the SIS, Noteholders must establish a book-entry account. A book-entry account may be established at a credit institution or a securities intermediary acting as an account operator for the SIS. All transactions in book-entry securities are executed as computerised book-entry transfers.

Title to Swiss Notes shall pass by transfer from a Noteholder's book-entry account to another book-entry account perfected in accordance with the Swiss CSD Rules.

Payments of principal, interest and/or any other amount payable under the Conditions in respect of Swiss Notes shall be made on the due date for such payment to the person recorded as the holder thereof in the Swiss Register on the fifth business day (for Swiss Notes this applies unless otherwise specified in the Final Terms) (as defined by the then applicable CDS Rules) before such due date, or such other business day falling closer to the due date as then may be stipulated by such CSD Rules.

AFFILIATION OF NATIXIS TO BPCE AND GUARANTEE AND SOLIDARITY SYSTEM WITHIN GROUPE BPCE

With effect as of 31 July 2009 (non-inclusive), Natixis is affiliated with BPCE, the central body of Groupe BPCE. This affiliation with BPCE replaces, with effect as of same date, the dual affiliation of Natixis with Banque Fédérale des Banques Populaires (BFBP) and Caisse Nationale des Caisses d'Épargne et de Prévoyance (CNCE), which was governed by a dual affiliation agreement terminated on the same date.

(A) Scope

Pursuant to Law no. 2009-715 of 18 June 2009 amending the French Monetary and Financial Code, BPCE is designated as the central body of the new cooperative banking group known as “**Groupe BPCE**”, which comprises BPCE and its “**Affiliates**”, namely:

- (i) the members of Banque Populaire and Caisse d'Épargne networks (Articles L. 512-11 and L. 512-86 of the French Monetary and Financial Code), namely:
 - the Banques Populaires;
 - the sociétés de caution mutuelle (mutual guarantee companies);
 - the Caisses d'Épargne et de Prévoyance (Savings Banks);
 - the sociétés locales d'épargne (local savings companies); and
 - the Fédération Nationale des Caisses d'Épargne et de Prévoyance (National Federation of Savings Banks),
- (ii) the other French credit institutions affiliated with BPCE (Article L. 512-106 paragraph 2 of the French Monetary and Financial Code), namely:
 - the credit institutions that were affiliated with BFBP and CNCE as of 31 July 2009, including particularly:
 - credit institutions contributed to BPCE, particularly Natixis;
 - Crédit Foncier de France, Banque Palatine and BPCE International et Outre-mer; and
 - The Caisses Régionales de Crédit Maritime and Société Centrale de Crédit Maritime referred to in Article L. 512-69 of the French Monetary and Financial Code,
 - any French credit institution whose control is directly or indirectly held, solely or jointly, by BPCE or one or more members of the networks, affiliated by a decision made pursuant to Article L. 512-106 paragraph 2,

BPCE and the Affiliates are hereinafter referred to together as the “Beneficiaries”.

(B) Guarantee and solidarity system

As central body and pursuant to Article L. 511-31 of the French Monetary and Financial Code, BPCE is responsible for coordinating its networks and ensuring the correct functioning of its Affiliates. It takes all necessary measures to guarantee the liquidity and solvency of BPCE, each of the network members and of the other Affiliates.

To this end, BPCE manages an internal solidarity mechanism, benefiting all of the affiliated Beneficiaries (including Natixis). Under the guarantee and solidarity system and pursuant to Article L. 512-107 5° and 6° of the French Monetary and Financial Code, BPCE must take all necessary measures to guarantee the liquidity and solvency of Groupe BPCE and institutions affiliated with

BPCE as central body, as well as to organize the financial solidarity within Banque Populaire and Caisse d'Épargne networks.

The guarantee and solidarity system is a specific regime applicable to French cooperative or mutual banking groups, pursuant to which BPCE and each of the Banques Populaires and the Caisses d'Épargne (37 credit institutions) is required to support the Beneficiaries in case of temporary cash shortage (liquidity guarantee) or in order to prevent and/or cope with severe financial failings (solvency guarantee). The solidarity mechanism is internal to Groupe BPCE and does not constitute a guarantee that is enforceable by third parties, although French banking regulators may require the mechanism to be used if needed.

(C) Operational principles

The solidarity mechanism is operated by BPCE under the sole authority of its directoire (“**Management Board**”). The Management Board is made up of five members and may, at its discretion, decide to trigger the solidarity mechanism and/or to top up the Guarantee Funds (as defined below), as circumstances may require. The Management Board need not seek any approval from BPCE’s supervisory board (conseil de surveillance) nor from the retail network banks (the Banques Populaires and the Caisses d'Épargne).

Furthermore in its role as central body, BPCE controls and monitors the liquidity of its Affiliates. This is in line with the extensive powers vested in it by the French Monetary and Financial Code, in particular Article L 511-31, which provides that BPCE must ensure the correct functioning of the Affiliates.

Under this guarantee and solidarity system, BPCE as central body manages:

- the fund of the Banques Populaires network;
- the fund of the Caisses d'Épargne network; and
- the Mutual Guarantee Fund,

collectively the “**Guarantee Funds**”.

The Guarantee Funds within BPCE have a total sum of 1.237 billion (as of 31 December 2012) at their disposal, the amount of which will be increased by an annual top-up (unless it is used for purposes of providing support). The Guarantee Funds are invested in very safe and liquid investments.

The management of the funds is entrusted to Natixis Asset Management with the objective to preserve the capital over a short-medium term horizon (investment in securities with maturities between 12 and 18 months) and to keep a high level of liquidity. The management is therefore diversified and prudent and mainly composed of fixed income investments which three separate buckets (40% of euro short term notes, 30% of money market, 30% of flexible asset allocation). Eligible debt instruments will have a minimum AA- long term rating or A-1/P-1 short term rating.

(D) Crisis prevention

BPCE, on account of the powers vested in it as central body, is responsible for preventing that its Affiliates (among which Natixis) face liquidity shortages. This important prevention role materializes by rigorous and frequent monitoring (which can be daily if market conditions command it) and early intervention in so far as necessary. Thus BPCE holds all necessary powers to avoid the triggering of the guarantee and solidarity system.

(E) Available resources to provide financial support to Natixis if need be

Should the situation of Natixis require the triggering of the guarantee and solidarity system, BPCE may draw financial means from four different and complementary sources: firstly BPCE will draw on its own capital (in compliance with its shareholder duties); secondly it will call upon the Mutual Guarantee Fund; thirdly it will make a call on the two networks' guarantee funds (Banques Populaires and Caisses d'Epargne); finally BPCE will request the contribution capacity of the Banques Populaires and the Caisses d'Epargne (37 credit institutions) up to the full amount of their equity.

The guarantee and solidarity system extends to each of the Affiliates of Groupe BPCE (including Natixis). For the avoidance of doubt, it does not extend to non-French credit institutions or to entities that are not credit institutions.

TAXATION

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code (“**FATCA**”) impose a new reporting regime and potentially a 30% withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a “foreign financial institution”, or “**FFI**” (as defined by FATCA)) that does not become a “**Participating FFI**” by entering into an agreement with the IRS to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a “United States Account” of the Issuer (a “**Recalcitrant Holder**”). The Issuer may be classified as an FFI.

The new withholding regime will be phased in beginning 1 July 2014 for payments from sources within the United States and will apply to “**foreign passthru payments**” (a term not yet defined) no earlier than 1 January 2017. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued on or after, the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register (the “**grandfathering date**”), or which are materially modified on or after the grandfathering date and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued before the grandfathering date, and additional Notes of the same series are issued on or after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have announced their intention to negotiate intergovernmental agreements to facilitate the implementation of FATCA (each, an “**IGA**”). Pursuant to FATCA and the “Model 1” and “Model 2” IGAs released by the United States, an FFI in an IGA signatory country could be treated as a “**Reporting FI**” not subject to withholding under FATCA on any payments it receives. Further, an FFI in a Model 1 IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being “**FATCA Withholding**”) from payments it makes. The Model 2 IGA leaves open the possibility that a Reporting FI might in the future be required to withhold as a Participating FFI on foreign passthru payments and payments that it makes to Recalcitrant Holders. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The U.S. Treasury has announced that it is the process of finalising an IGA with France.

If the Issuer becomes a Participating FFI under FATCA, the Non-U.S. Issuer and financial institutions through which payments on the Notes are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder. If an amount in respect of FATCA Withholding were to be deducted or withheld from interest, principal or other payments made in respect of the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding. As a result, investors may receive less interest or principal than expected.

While the Notes are in global form and held within the clearing system, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent and the clearing system, given that each of the entities in the payment chain beginning with the Issuer and ending with the clearing systems is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore

that they may be taken out of the clearing system. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, definitive notes will only be printed in remote circumstances.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form.

Hiring Incentives to Restore Employment Act

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the Code, which treats a “dividend equivalent” payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30% U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A “dividend equivalent” payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a “specified notional principal contract” that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) and (ii). Proposed U.S. Treasury regulations expand the definition of “specified notional principal contract” beginning 1 January 2014.

While significant aspects of the application of Section 871(m) to the Notes are uncertain, if the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Notes.

EU Taxation

The following is a summary limited to certain tax considerations in the European Union relating to the Notes that may be issued under the Programme and specifically contains information on taxes on the income from the Notes withheld at source. Each prospective holder or beneficial owner of Notes should consult its tax advisor as to the tax consequences of any investment in or ownership and disposition of the Notes.

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State (the Disclosure of Information Method). However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system (the Source Tax) in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a Source Tax in the case of Switzerland). The rate of such withholding tax equals 35 per cent. as from 1 July 2011 and until the end of the transitional period. In April 2013, the Luxembourg Government announced its intention to abolish the Source Tax with effect from 1 January 2015, in favour of the Disclosure of Information Method.

The European Commission has proposed certain amendments to the Savings Directive which may, if implemented, amend or broaden the scope of the requirements described above.

Belgium

The following summary describes the principal Belgian tax considerations with respect to the holding of Notes. This information is of a general nature and does not purport to be a comprehensive description of all

Belgian tax considerations that may be relevant to a decision to acquire, to hold or to dispose of the Notes. In some cases, different rules can be applicable. This summary does not describe the tax consequences for a holder of Notes that are redeemable in exchange for, or convertible into assets, of the exercise, settlement or redemption of such Notes or any tax consequences after the moment of exercise, settlement or redemption.

This summary is based on Belgian tax legislation, treaties, rules, and administrative interpretations and similar documentation, in force as of the date of the publication of this Base Prospectus, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect.

For Belgian tax purposes, if interest is in a foreign currency, it is converted into euro on the date of payment or attribution.

Each prospective holder of Notes should consult a professional adviser with respect to the tax consequences of an investment in the Notes, taking into account the influence of each regional, local or national law.

Taxes on income and capital gain

Belgian resident individuals

Individuals who are Belgian residents for tax purposes, i.e. who are subject to Belgian personal income tax (“*Personenbelasting*”/“*Impôt des personnes physiques*”) and who hold the Notes as a private investment, are subject to the following tax treatment in Belgium with respect to the Notes. Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

In accordance with Belgian tax law, the following amounts are classified as “interest”: (i) periodic interest income; (ii) amounts paid by the Issuer in excess of the issue price (whether or not on the maturity date); and (iii) if the Notes qualify as “fixed income securities”, the *pro rata* of accrued interest corresponding to the detention period in case of a realisation of the Notes between two interest payment dates. “Fixed income securities” include Notes where there is a causal link between the amount of interest income and the detention period of the Notes, on the basis of which it is possible to calculate the amount of *pro rata* interest income at the moment of the sale of the Notes during their lifetime. Further, on 25 January 2013, the Belgian tax authorities issued a circular letter on the tax treatment of income from structured products the return of which is linked to an underlying value (share basket, index, etc.) and the terms and conditions of which include one or more of the following features: (a) a (conditional) minimum return; (b) capital protection; (c) a periodic coupon payment; and (d) determination of income at an intermediary stage using a “ratchet” system. The circular letter takes the position that such structured products qualify as “fixed income securities” and sets out a (somewhat unclear) formula to calculate the *pro rata* of accrued interest. It is highly debatable whether the circular letter is in line with Belgian tax legislation. Moreover, it is unclear whether the Belgian tax authorities will seek to apply the principles set out in the circular letter to structured Notes.

Payments of interest on the Notes made through a paying agent in Belgium will in principle be subject to a 25 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final tax for Belgian resident individuals. This means that they do not have to declare the interest received on the Notes in their personal income tax return, provided that Belgian withholding tax was levied on the interest payments.

Nevertheless, Belgian resident individuals may elect to declare interest on the Notes in their personal income tax return. Also, if no Belgian withholding tax has been withheld (e.g. because the interest is paid outside Belgium without the intervention of a Belgian paying agent or because it concerns the *pro rata* of accrued interest in the case of a sale of the Notes), the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return. Interest income which is declared in this way will in principle be taxed at a flat rate of 25 per cent. (or at the relevant progressive personal income tax rate(s), taking into account the taxpayer's other declared income, if this results in lower taxation) and no local surcharges will be due. The Belgian withholding tax levied may be credited against the income tax liability.

Capital gains realised upon the sale of the Notes are in principle tax exempt, unless the capital gains are realised outside the scope of the normal management of the taxpayer's private estate or unless the capital gains qualify as interest (as defined above). Capital losses on the Notes are in principle not tax deductible.

Belgian resident companies

Companies that are Belgian residents for tax purposes, i.e. that are subject to Belgian Corporate Income Tax (“*Vennootschapsbelasting*”/ “*Impôt des sociétés*”) are subject to the following tax treatment in Belgium with respect to the Notes.

Interest received by Belgian resident companies on the Notes and capital gains realised on the Notes will be subject to Belgian corporate income tax at the applicable rates (the ordinary corporate income tax rate is 33.99 per cent., but reduced rates apply to low income companies subject to certain conditions). If non-Belgian withholding tax has been levied on the interest, a foreign tax credit will be applied against the Belgian tax due. The foreign tax credit is determined by reference to a fraction where the numerator is equal to the rate of the foreign tax with a maximum of 15 and the denominator is equal to 100 minus the amount of the numerator (with a number of additional limitations). Capital losses on the Notes are in principle tax deductible.

Interest payments on the Notes made through a paying agent in Belgium to Belgian resident companies will in principle be subject to a 25 per cent. withholding tax (calculated on the interest received after deduction of any non-Belgian withholding taxes). However, an exemption can apply subject to compliance with certain formalities. For Zero Coupon Notes or Notes with a capitalisation feature, an exemption will only apply if the Belgian company and the Issuer are related companies within the meaning of Article 105, 6° of the Royal Decree of 27 August 1993 implementing the Belgian Income Tax Code 1992. Any Belgian withholding tax that has been levied is creditable and refundable in accordance with the applicable legal provisions.

Organisations for Financing Pensions

Belgian pension fund entities that have the form of an Organisation for Financing Pensions (OFP) are subject to Belgian Corporate Income Tax (“*Vennootschapsbelasting*”/ “*Impôt des sociétés*”). OFPs are subject to the following tax treatment in Belgium with respect to the Notes.

Interest obtained by OFPs on the Notes and capital gains realised on the Notes will in principle not be subject to Belgian Corporate Income Tax. Capital losses on the Notes are not tax deductible. Any Belgian withholding tax that has been levied is creditable and refundable in accordance with the applicable legal provisions.

Belgian resident legal entities

Legal entities that are Belgian residents for tax purposes, i.e. that are subject to Belgian tax on legal entities (“*Rechtspersonenbelasting*”/ “*impôt des personnes morales*”) are subject to the following tax treatment in Belgium with respect to the Notes.

Payments of interest (as defined in the section “Belgian resident individuals”) on the Notes made through a paying agent in Belgium will in principle be subject to a 25 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest.

However, if no Belgian withholding tax has been withheld (e.g. because the interest is paid outside Belgium without the intervention of a Belgian paying agent or because it concerns the pro rata of accrued interest in the case of a sale of the Notes), the legal entity itself is required to declare and pay the 25 per cent. withholding tax to the Belgian tax authorities.

Capital gains realised on the sale of the Notes will in principle not be taxable, except to the extent the capital gain qualifies as interest (as defined in the section “Belgian resident individuals”). Capital losses on the Notes are in principle not tax deductible.

Belgian non-residents

Interest income on the Notes paid to non-residents of Belgium through a professional intermediary in Belgium will, in principle, be subject to a 25 per cent. withholding tax, unless the Noteholder is resident in a country with which Belgium has concluded a double taxation agreement and delivers the requested affidavit. If the income is not collected through a financial institution or other intermediary established in Belgium, no Belgian withholding tax is due.

Non-resident investors who have not allocated the Notes to the exercise of a professional activity in Belgium through a permanent establishment can also obtain an exemption from Belgian withholding tax on interest from the Notes paid through a credit institution, a stock market company or a clearing or settlement institution established in Belgium, provided that they deliver an affidavit to such institution or company confirming that: (i) they are non-residents; (ii) the Notes are held in full ownership or in usufruct; and (iii) the Notes are not allocated to the exercise of a professional activity in Belgium. No other Belgian income tax will be due by these investors.

Non-resident investors who have allocated the Notes to the exercise of a professional activity in Belgium through a permanent establishment are subject to the same tax rules as Belgian resident companies (see above).

Savings Directive

The Savings Directive has been implemented in Belgium by the law of 17 May 2004 and applies to interest paid or attributed as from 1 July 2005.

Individuals not resident in Belgium

Interest paid or collected through Belgium on the Notes and falling under the scope of application of the Savings Directive will be subject to the Disclosure of Information Method.

Individuals resident in Belgium

An individual resident in Belgium will be subject to the provisions of the Savings Directive, if he receives interest payments from a paying agent (within the meaning of the Savings Directive) established in another EU Member State, Switzerland, Liechtenstein, Andorra, Monaco, San Marino, Curaçao, Bonaire, Saba, Saint Maarten, Saint Eustatius (formerly the Netherlands Antilles), Aruba, Guernsey, Jersey, the Isle of Man, Montserrat, the British Virgin Islands, Anguilla, the Cayman Islands or the Turks and Caicos Islands.

If the interest received by an individual resident in Belgium has been subject to a Source Tax, such Source Tax does not liberate the Belgian individual from declaring the interest income in the personal income tax declaration. The Source Tax will be credited against the personal income tax. If the Source Tax withheld exceeds the personal income tax due, the excessive amount will be reimbursed, provided it amounts to at least Euro 2.50.

Tax on stock exchange transactions and tax on repurchase transactions

A tax on stock exchange transactions (“*taks op de beursverrichtingen*”/“*taxe sur les opérations de bourse*”) will be levied on the purchase and sale of the Notes on a secondary market through a professional intermediary in Belgium. The tax is generally due at a rate 0.09 per cent. for transactions in debt instruments and at a rate of 0.25 per cent. for transactions in other securities, with a maximum amount per transaction and per party of Euro 650 for debt instruments and Euro 740 for other securities (the rate of the tax and the maximum amount per transaction and per party for such other securities are due to be reduced back to 0.22 per cent. and Euro 650 respectively as from 1 January 2015). The tax is due separately from each of the seller/transferor and the purchaser/transferee and is collected by the professional intermediary.

A tax on repurchase transactions (“*taks op de reporten*”/“*taxe sur les reports*”) at the rate of 0.085 per cent. will be due from each party to any such transaction entered into or settled in Belgium in which a stockbroker acts for either party, with a maximum amount of Euro 650 per transaction and per party.

However, the taxes referred to above will not be payable by exempt persons acting for their own account, including investors who are Belgian non-residents provided they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status, and certain Belgian institutional investors as defined in Articles 126.1 2° and 139 of the Code of various duties and taxes (“*Code des droits et taxes divers*”/“*Wetboek diverse rechten en taksen*”).

Luxembourg

The following information is of a general nature only and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Withholding Tax

Non-resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the laws of 21 June 2005, as amended (the **Savings Laws**), there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of Notes.

Under the Savings Laws implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments (the **Savings Directive**) and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity (within the meaning of the Savings Laws) which is resident in an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the competent fiscal authorities of the beneficiary’s country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Savings Laws will be subject to a withholding tax at a rate of 35%.

In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Savings Directive.

Resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the **Relibi Law**), there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any

Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes.

Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg or to a residual entity (within the meaning of the Savings Laws) established in an EU Member State (other than Luxembourg) or one of the Territories and securing such payments for the benefit of such individual beneficial owner will be subject to a withholding tax of 10%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 10 %.

France

The comments below are intended as a basic summary of certain tax consequences in France relating to the Notes that may be issued under the Programme and specifically contain information on taxes on the income from the Notes withheld at source. Persons who are in any doubt as to their tax position should consult a professional tax adviser.

Savings Directive

The Directive 2003/48/EC on taxation of savings income has been implemented into French law under Article 242 ter of the *Code général des impôts* (the “**French General Tax Code**”), which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners resident in another Member State, including, among other things, the identity and address of the beneficial owner and a detailed list of different categories of interest paid to the beneficial owner.

Withholding Tax

The following is an overview of certain tax considerations that may be relevant to holders of the Notes who do not concurrently hold shares of the Issuer.

Notes other than notes which are consolidated (assimilables for the purpose of French law) and form a single series with Notes issued before 1 March 2010

Following the introduction of the French *loi de finances rectificative pour 2009 no. 3* (n° 2009-1674 dated 30 December 2009) (the “**Law**”), payments of interest and other revenues made by the Issuer with respect to Notes issued on or after 1 March 2010 (other than Notes (described below) which are consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued prior to 1 March 2010 having the benefit of Article 131 *quater* of the French General Tax Code) will not be subject to the withholding tax set out under Article 125 A III of the French General Tax Code unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of Article 238-0 A of the French General Tax Code (a “**Non-Cooperative State**”). If such payments under the Notes are made in a Non-Cooperative State, a 75% withholding tax will be applicable (subject to certain exceptions and to the more favourable provisions of any applicable double tax treaty) by virtue of Article 125 A III of the French General Tax Code.

Furthermore, according to Article 238 A of the French General Tax Code, interest and other revenues on such Notes are not deductible from the Issuer's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State. Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to Articles 109 *et seq.* of the French General Tax Code, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under Article 119 *bis* 2 of the French General

Tax Code, at a rate of 30% or 75%, subject to the more favourable provisions of an applicable double tax treaty, if any.

Notwithstanding the foregoing, the Law provides that neither the 75% withholding tax set out under Article 125 A III of the French General Tax Code nor the non-deductibility set out under Article 238 A of the French General Tax Code will apply if the Issuer can prove that the principal purpose and effect of a particular issue of Notes were not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the “**Exception**”). Pursuant to the *Bulletin officiel des Finances Publiques – Impôts* (BOI-RPPM-RCM-30-10-20-50-20120912 n°70, BOI-INT-DG-20-50-20120912 n°550 and 990, BOI-ANNX-000364-20120912 and BOI-ANNX-000366-20120912), an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (i) offered by means of a public offer within the meaning of Article L.411.1 of the French Monetary and Financial Code or pursuant to an equivalent offer in a State other than in a Non-Cooperative State. For this purpose, an “equivalent offer” means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of Article L.561-2 of the French Monetary and Financial Code, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Notes which are consolidated (assimilables for the purpose of French law) and form a single series with Notes issued before 1 March 2010

Payments of interest and other revenues with respect to Notes issued from 1 March 2010 and which are consolidated (*assimilables* for the purpose of French law) and form a single series with such Notes issued before 1 March 2010 with the benefit of Article 131 *quater* of the French General Tax Code will continue to be exempt from the withholding tax set out under Article 125 A III of the French General Tax Code.

Notes issued before 1 March 2010, whether denominated in Euro or in any other currency, and constituting *obligations* under French law, or *titres de créances négociables* within the meaning of the *Bulletin officiel des Finances Publiques – Impôts* (BOI-RPPM-RCM-30-10-30-30-20120912 and BOI-RPPM-RCM-30-10-20-50-20120912), or other debt securities issued under French or foreign law and considered by the French tax authorities as falling into similar categories, are deemed to be issued outside the Republic of France for the purpose of Article 131 *quater* of the French General Tax Code, pursuant to the above-mentioned *Bulletin officiel des Finances Publiques – Impôts*.

In addition, interest and other revenues paid by the Issuer on Notes issued from 1 March 2010 and which are consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued before 1 March 2010 will not be subject to the non-deductibility set out under Article 238 A of the French General Tax Code, and hence will not be subject to the withholding tax set out in Article 119 *bis* 2 of the French General Tax Code solely on account of their being paid in a Non-Cooperative State or accrued or paid to persons established or domiciled in a Non-Cooperative State.

Withholding tax applicable to individuals fiscally domiciled in France

If the paying agent is established in France, pursuant to Article 9 of the 2013 French Finance Law (*loi n°2012-1509 du 29 décembre 2012 de finances pour 2013*) subject to certain limited exceptions, interest and assimilated income received from 1 January 2013 by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 24% withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding tax at an aggregate rate of 15.5% on interest and similar income paid to individuals who are fiscally domiciled (*domiciliés fiscalement*) in France.

Transfer tax and other taxes

The following may be relevant in connection with Notes which may be settled, repaid or redeemed by way of physical delivery of certain French listed shares (or certain assimilated securities).

The French financial transaction tax provided under Article 235 ter ZD of the French General Tax Code is applicable, subject to certain exceptions, at a rate of 0.2% to any acquisitions of equity securities (*titres de capital*) or certain assimilated equity securities, provided that they are listed on a regulated market and that they are issued by an issuer incorporated in France which has a market capitalisation in excess of €1 billion on 1 December of the year preceding the acquisition. If the financial transaction tax applies to a transaction, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1% to the sale of French shares, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

Italy

The statements herein regarding taxation are based on the laws in force as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.

Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Notes.

Tax treatment of the Notes

Legislative Decree No. 239 of 1 April 1996, as subsequently amended (“**Decree 239**”), provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from notes falling within the category of notes (*obbligazioni*) or debentures similar to notes (*titoli similari alle obbligazioni*) issued, inter alia, by a non-Italian resident issuers. For this purpose, securities similar to bonds are debt instruments implying a “use of capital” issued in mass that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value and that do not allow a direct or indirect participation in the management of the issuer.

Italian resident Noteholders

Where the Italian resident Noteholder is (a) an individual not engaged in an entrepreneurial activity, to which the relevant Notes are connected (unless he has opted for the application of the “*risparmio gestito*” regime – see *Capital gains tax*, below), (b) a non-commercial partnership, (c) a non-commercial private or public institution, or (d) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to Notes, accrued during the relevant holding period, are subject to a withholding tax, referred to as “*imposta sostitutiva*”, levied at the rate of 20 per cent. In the event that Noteholders described under (a)

and (c) above are engaged in an entrepreneurial activity to which the relevant Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident Noteholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate taxation (and, in certain circumstances, depending on the "status" of the Noteholder, also to the regional tax on productive activities ("**IRAP**")).

Under the current regime provided by Law Decree No. 351 of 25 September 2001, converted into law with amendments by Law No. 410 of 23 November 2001 (Decree 351), as clarified by the Italian Revenues Agency (*Agenzia delle Entrate*) through Circular No. 47/E of 8 August 2003 and Circular No. 11/E of 28 March 2012, payments of interest, premiums or other proceeds in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994, are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of a real estate investment fund.

If the investor is resident in Italy and is an open-ended or closed-ended investment fund or a SICAV (an investment company with variable capital) established in Italy and either (i) the fund or SICAV or (ii) their manager is subject to the supervision of a regulatory authority (the "**Fund**"), and the relevant Notes are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Notes will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund. The Fund will not be subject to taxation on such results, but a substitute tax of 20 per cent. will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders (the "**Collective Investment Fund Substitute Tax**").

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to an 11 per cent. substitute tax.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Economy and Finance (each an "**Intermediary**").

An Intermediary must (a) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (b) intervene, in any way, in the collection of interest or in the transfer of the Notes.

For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Noteholder.

Non-Italian resident Noteholders

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident Noteholder of interest or premium relating to the Notes provided that, if such Notes are held in Italy, the non-Italian resident Noteholder declares itself to be a non-Italian resident according to Italian tax regulations.

Atypical securities

Interest payments relating to Notes implying a “use of capital” that are not deemed to fall within the category of notes (*obbligazioni*) or debentures similar to notes (*titoli similari alle obbligazioni*) nor shares (*azioni*), or securities similar to shares (*titoli similari alle azioni*) pursuant to Presidential Decree 22 December 1986 n. 917 (“**TUIR**”) nor units of foreign undertakings for collective investment may be subject to a withholding tax, levied at the rate of 20 per cent. For this purpose, debentures similar to notes are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value.

The 20 per cent. withholding tax mentioned above does not apply to interest payments made to a non-Italian resident Noteholder and to an Italian resident Noteholder which is (a) a company or similar commercial entity (including the Italian permanent establishment of foreign entities); (b) a commercial partnership; or (c) a commercial private or public institution.

Capital gains tax

Any gain obtained from the sale or redemption of the Notes would be treated as part of the taxable income (and, in certain circumstances, depending on the “status” of the Noteholder, also as part of the net value of production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Where an Italian resident Noteholder is (i) an individual not holding the Notes in connection with an entrepreneurial activity; (ii) a non-commercial partnership; (iii) a non-commercial private or public institution, any capital gain realised by such Noteholder from the sale or redemption of the Notes would be subject to an *imposta sostitutiva*, levied at the current rate of 20 per cent. Noteholders may set off losses with gains.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual Noteholder holding the Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding the Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the relevant Notes (the *risparmio amministrato* regime). Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express election for the *risparmio amministrato* regime being punctually made in writing by the relevant Noteholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same

securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Noteholder is not required to declare the capital gains in its annual tax return.

Any capital gains realised by Italian resident individuals holding Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including Notes, to an authorised intermediary and have opted for the so-called “*risparmio gestito*” regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 20 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Noteholder is not required to declare the capital gains realised in the annual tax return.

Any capital gains realised by a Noteholder which is a Fund will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio. Such result will not be taxed with the Fund, but subsequent distributions in favour of unitholders or shareholders may be subject to the Collective Investment Fund Substitute Tax.

Any capital gains realised by a Noteholder which is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 11 per cent. substitute tax.

Any capital gains realised by a Noteholder who is an Italian real estate fund to which the provisions of Decree 351 as subsequently amended apply will be subject neither to *imposta sostitutiva* nor to any other income tax at the level of the real estate investment fund.

Capital gains realised by non-Italian resident Noteholders from the sale or redemption of Notes are not subject to Italian taxation, provided that the Notes (i) are traded on a Regulated Market, or (ii) if are not traded on a Regulated Market, are held outside Italy. If such Notes are held in Italy, in order to exclude Italian taxation, the non-Italian resident Noteholder shall declare itself to be a non-Italian resident according to Italian tax regulations.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, as subsequently amended, the transfers of any valuable asset (including shares, notes or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding, for each beneficiary, €1,000,000;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax applied at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding, for each beneficiary, €100,000; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the transfer is made in favour of person with severe disabilities, the tax is levied at the rate mentioned above in (a), (b) and (c) on the value exceeding, for each beneficiary, €1,500,000.

Transfer tax

Following the repeal of the Italian transfer tax, as from 31 December 2007, contracts relating to the transfer of securities are subject to the following registration tax: (i) public deeds and notarised deeds are subject to fixed registration tax at a rate of €168.00; (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

Stamp duty

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 (**Decree 201**), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent (or deemed to be sent) by financial intermediaries to their clients for the Notes deposited therewith. The stamp duty applies at the rate of 0.15 per cent.; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Notes held. The stamp duty can be no lower than €34.2 and, as of 2013, it cannot exceed €4,500, for taxpayers different from individuals. Based on the wording of the law and the implementing decree issued by the Italian Ministry of Finance on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 9 February 2011) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

Tax Monitoring

Pursuant to Law Decree No. 167 of 28 June, 1990, converted by Law No. 227 of 4 August, 1990, as amended, individuals resident in Italy who, at the end of the fiscal year, hold (or are beneficial owners of) investments abroad or foreign financial activities must, in certain circumstances, disclose the aforesaid and related transactions to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return). Such obligation is not provided if, inter alia, each of the overall value of the foreign investments or financial activities held at the end of the fiscal year, and the overall value of the related transfers carried out during the relevant fiscal year, does not exceed € 10,000.

Wealth Tax on securities deposited abroad

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the Notes outside the Italian territory are required to pay an additional tax at a rate of 0.15 per cent.

This tax is calculated on the market value of the Notes at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Implementation in Italy of the Savings Directive

Italy has implemented the Savings Directive through Legislative Decree No. 84 of 18 April 2005 (“**Decree 84**”). Under Decree 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian qualified paying agents shall report to the Italian Tax Authorities details of the relevant payments and personal information on the individual beneficial owner and shall not apply the withholding tax. Such information is transmitted by the Italian Tax Authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.

Italian Financial Transaction Tax (Italian FTT)

As of 1 March 2013 Italian shares and other participating instruments, as well as depository receipts representing those shares and participating instruments irrespective of the relevant issuer (cumulatively referred to as **In-Scope Shares**), received by an investor upon physical settlement of the Notes may be subject to a 0.22% (reduced to 0.2% since 2014 onwards) Finance Transaction Tax (**Italian FTT**) calculated on the

higher of the exercise value of the Notes and the normal value of the In-Scope Shares (which for listed securities is generally equal to the 30 day prior average market price).

Italian FTT may also apply on the execution of transactions on derivative financial instruments as defined under Art. 1, paragraph 3, legislative decree 24 February 1998, n. 58, on securities allowing the purchase or sale of financial instruments referred to under Art. 1, paragraph 1-bis, lett. c) legislative decree 24 February 1998, n. 58 or on securities providing for a cash settlement referred to under Art. 1, paragraph 1-bis, lett. d), legislative decree 24 February 1998, no. 58, if the underlying financial instruments or the underlying reference value is represented for more than 50 per cent by the market value of shares or equity instruments issued by Italian resident companies or certificates representative of the same shares or equity instruments. According to the provisions stated by Art. 56 of Law Decree No. 69 of 21st June 2013 (converted, with amendments, by law No. 98 of 9 August 2013) Italian FTT applies on such derivative financial instruments and securities as from 1st September 2013 at a fixed amount for each transaction, ranging from 0.01875 to 200 euro, depending on the notional value of the instrument and the type of underlying financial instrument.

The proposed European financial transactions tax

In September 2011, the EU Commission attempted to introduce an EU-wide financial transactions tax. However not all the Member States were in favour of such a tax and so the tax could not be implemented in all Member States. Subsequently, 11 Member States of the EU requested that the Commission develop a proposal for the introduction of a common financial transactions tax (FTT) for each of those Member States. The Commission developed such a proposal under the EU's enhanced cooperation procedure which allows 9 or more Member States to implement common legislation. In January 2013 the EU Council of Ministers authorised the Commission to proceed with enhanced cooperation for a common FTT and the Commission has now published a draft Directive containing proposals for the FTT. This FTT is intended to be introduced only in the 11 participating Member States (Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia).

The proposed FTT imposes a charge on financial transactions including purchases and sales of financial instruments; this charge will be levied at not less than 0.1 per cent. of the sale price.

A charge to FTT will arise if at least one party to a financial transaction is established in a participating Member State and a financial institution established in (or is treated as established in) a participating Member State is a party to the transaction, for its own account, for the account of another person, or if the financial institution is acting in the name of a party to the transaction.

It is important to be aware that a financial institution will be treated as established in a participating Member State if its seat is there, it is authorised there (as regards authorised transactions) or it is acting via a branch in that Member State (as regards branch transactions), or for a particular transaction, merely because it is entering into the financial transaction with another person who is established in that Member State.

Furthermore, a financial institution will be treated as established in a participating Member State in respect of a financial transaction if it is a party (for its own account or for the account of another person) or is acting in the name of a party, to a financial transaction in respect of a financial instrument issued within that Member State. The other party to such a transaction will also be treated as established in that Member State.

There are limited exemptions to the proposed FTT. Even though the FTT is to be introduced only in the participating Member States, it can be seen from what is said above that it could impact financial institutions operating inside and outside the 11 participating Member States, and the FTT could be payable in relation to Notes issued under this Base Prospectus if the FTT is introduced and the conditions for a charge to arise are satisfied.

The proposed FTT is still under review and it may therefore change before it is implemented. In particular, in April 2013, the government of the United Kingdom announced that it is to challenge the legality of the way in

which the proposed FTT will apply to financial institutions located in non-participating Member States. This challenge may lead to changes in the scope of the FTT.

It is currently proposed that the FTT should be introduced in the participating Member States on 1 January, 2014. Prospective holders of Notes are strongly advised to seek their own professional advice in relation to the FTT.

Switzerland

The following summary does not purport to be a comprehensive description of all Swiss tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and, in particular, does not consider specific facts or circumstances that may apply to a particular purchaser. It is for general information only and does not discuss all tax consequences of an investment in Notes under the tax laws of Switzerland. This summary is based on the tax laws of Switzerland currently in force and as applied on the date of this Base Prospectus which are subject to changes (or changes in interpretation) which may have retroactive effect. Prospective purchasers are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of Notes in the light of their particular circumstances.

Swiss Income Tax

Swiss Resident Noteholders

Interest Payments or Redemption of Notes

Swiss residents receiving periodic interest payments during the investment or at redemption as one-time-interest generally must include these interest payments in their financial statements and/or in their income tax returns and owe individual income tax or corporate income tax on the relevant amounts.

Notes which are not straight debt instruments but have components of debt instruments and derivatives intertwined generally qualify as combined instruments. The tax treatment of such Notes depends on whether the Notes are considered as transparent or not for Swiss income tax purposes.

If the Note is considered as not transparent for Swiss income tax purposes, any amount received by the Noteholder (upon sale, laps, exercise or redemption) in excess of the amount invested (at issue or upon purchase) is treated as taxable income in the hands of the Noteholder if the Note qualifies as a note with predominant one-time interest payment. If the Note does not qualify as a note with predominant one-time interest payment, the Noteholder is subject to tax on the periodic interest payments and (at redemption) on the difference between initial issuance price and the redemption price. For the purpose of determining whether the Note is a note with predominant one-time interest payment the difference between initial issuance price and the redemption price is treated as one-time interest.

If the Note is considered as transparent for Swiss income tax purposes, it will be split notionally in a debt instrument and a derivative instrument component. Gains or losses on the derivative instrument component are treated as capital gains or losses (see below). Interest payments received during the investment, at laps or exercise or at redemption as one-time interest related to the debt instrument component are treated as taxable income in the hands of the Noteholder. Such a treatment is also applicable for the purpose of determining whether the Note is a note with predominant one-time interest payment.

The Note is generally considered as transparent if the debt and the derivative components are traded separately or if the different elements of the Note (such as the guaranteed redemption amount, the issuance price of the debt component, the interest rates determining the issuance price of the debt component) are separately stated in the sales documentation as well as in the offering prospectus and if each one of such components is separately evaluated. Such evaluation has to be performed through calculations of financial mathematics determining the intrinsic value of the debt instrument and the derivative instrument components

contained in the Note. In particular, the calculations have to determine the notional issuance price of the debt instrument, based on the interest rate taken into account by the issuer which has to be at market value. The Swiss Federal Tax Administration has to approve such calculations. Such calculations have to be reviewed on a quarterly basis in order to take into account the evolution of the interest rates. If the tax authorities are not provided with sufficient information the Notes can be treated as not transparent. Products with prevalent structures but for which the issuer does not provide the information allowing to distinguish the different elements of a product as described above are made transparent in retrospect by the tax authorities, banks or other channels of distribution if the following requirements are fulfilled: (a) the issuer of the product must have at least a single-A-rating; and (b) the product at hand has to be admitted to official quotation at the commercial exchange market or, at least, a market maker has to insure liquid trading of the product at hand. Liquid trading by a market maker is a condition that the key data of the product can be used as credible basis of calculation.

Notes which are linked to underlying assets, such as bonds, shares, or baskets of such assets may also be treated, under certain circumstances, as direct investments in bonds, shares or in an investment fund. Notes linked to a basket of investment funds may be treated as an investment in an investment fund.

Notes in the form of reverse convertibles linked to shares, precious metals and commodities with no guaranteed payments and a duration of less than or equal to one year may be treated as straight derivatives.

Capital Gains

Swiss Resident Private Noteholders

Swiss resident Noteholders who do not qualify as so-called professional securities dealer for income tax purposes (“*gewerbsmässiger Wertschriftenhändler*”) and who hold the Notes as part of their private (as opposed to business) assets are hereby defined as Swiss Resident Private Noteholders.

Swiss Resident Private Noteholders realise a tax free capital gain upon the disposal of Notes which do not qualify as notes with predominant one-time interest payment and realise taxable income if the Notes qualify as notes with one-time predominant interest payment.

The tax treatment of capital gains on Notes which qualify as combined instruments (see above) depends on whether the Note qualifies as tax transparent or not. Notes which are not transparent for Swiss income tax purposes (see above) generally qualify as notes with predominant one-time interest payment and are treated as such. Notes which qualify as tax transparent are notionally split into a debt instrument and a derivative instrument component. The debt instrument component follows the usual tax treatment either as note with predominant one-time interest payment or as note with no predominant one-time interest payment as applicable. Capital gains arising from the derivative instrument component of transparent Notes are generally not subject to income tax in the hands of Swiss Resident Private Noteholders.

With respect to capital gains arising from Notes linked to underlying assets, such as investment funds, bonds, shares or baskets of any of them see above under “Interest Payments or Redemption of Notes”.

Swiss Resident Business Noteholders

Gains realised on the sale of Notes, by Swiss resident individual Noteholders holding the Notes as part of their business assets as well as by Swiss resident legal entity Noteholders, are part of their business profit subject to individual income tax or corporate income taxes, respectively. The same applies to Swiss Resident Private Noteholders who qualify as so-called professional securities dealer (“*gewerbsmässiger Wertschriftenhändler*”).

Non-Swiss Resident Noteholders

Under present Swiss tax law, a Noteholder who is a non-resident of Switzerland and who, during the taxable year has not engaged in trade or business through a permanent establishment or a fixed place of business within Switzerland and who is not subject to taxation in Switzerland for any other reason, will not be subject

to any Swiss federal, cantonal or municipal income tax on interest or gains realised on sale or redemption of the Notes.

Swiss Stamp Duties

The sale or transfer of the Notes with a duration of more than one year may be subject to Swiss transfer stamp duty at the current rate of 0.3 per cent. if such sale or transfer is made by or through the intermediary of a Swiss bank or other securities dealer as defined in the Swiss Stamp Tax Act and no exemption applies. The same applies in case of physical delivery of the underlying being a taxable security in the meaning of the Swiss Stamp Tax Act at redemption.

Notes qualified as units in a foreign investment fund may be subject to the Swiss transfer stamp duty of up to 0.3 per cent. at issue.

Swiss Withholding Tax

All payments in respect of the Notes by a non-Swiss resident Issuer are currently not subject to the Swiss withholding tax (“*Verrechnungssteuer*”).

On 24 August 2011, however, the Swiss Federal Council issued draft legislation, which, if enacted, may require Swiss paying agents as defined by the revised Swiss law on withholding tax to deduct Swiss withholding tax at a rate of 35 per cent. on any payment of interest in respect of a Note to an individual resident in Switzerland or to any person (not only an individual) resident outside of Switzerland. If this legislation or similar legislation were enacted and an amount of, or in respect of, Swiss withholding tax were to be deducted or withheld from that payment, neither the Issuer nor the Paying Agent would be obliged to pay additional amounts with respect to any Note as a result of the deduction or imposition of such Swiss withholding tax.

Swiss EU Tax Retention

Switzerland has introduced a tax retention on interest payments or similar income paid by a Swiss paying agent as defined in Articles 1 and 6 of the Agreement between the European Community and the Swiss Confederation providing for measures equivalent to those laid down in Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the “**Agreement**”) to the beneficial owner who is an individual and resident in the EU as of 1 July 2005, unless the interest payments are made on debt-claims issued by debtors who are residents of Switzerland or pertaining to permanent establishments of non-residents located in Switzerland. The tax retention may be withheld at the rate of 35 per cent. The beneficial owner of the interest payments may be entitled to a credit for or a refund of the tax retention if certain conditions are met. The Swiss paying agent may be explicitly authorised by the beneficial owner of the interest payment to report interest payments to the Swiss Federal Tax Administration. Such report will then substitute the tax retention.

Noteholders should note that neither the Issuer nor the Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the deduction or imposition of the Swiss EU tax retention.

Final Withholding Tax

Recently, Switzerland concluded agreements with the United Kingdom and Austria on a final withholding tax (“*Abgeltungssteuer*”). The agreements with the United Kingdom and Austria have entered into force on January 1, 2013.

The agreements provide that persons resident in the United Kingdom or Austria, respectively can with respect to their then existing banking relationships in Switzerland (which at that time might include the investment in or payments of interest under the Notes or capital gains realised on the disposal of Notes) retrospectively either voluntarily disclose their Swiss bank accounts to the tax authorities of the United Kingdom or Austria, respectively or make a one-off-flat rate tax payment for the past with respect to those accounts.

Persons resident in the United Kingdom or Austria, respectively receiving future investment income (such as among others payment of interest under the Notes) or realising capital gains (such as among others on the disposal of Notes) on their Swiss bank accounts can either opt for a voluntary disclosure of their Swiss bank accounts and the assets held with Swiss banks to the competent tax authorities of the United Kingdom or Austria, respectively or opt for a final withholding tax that will be deducted by the Swiss bank on such investment income or capital gains. In the latter case, the Swiss bank will have to remit the final withholding tax to the Swiss Federal Tax Administration which in turn will remit the final withholding tax to the competent tax authorities of the United Kingdom or Austria, respectively. All agreements on final withholding taxes provide for a carve-out for interest payments to the extent such interest payments are subject to the EU Savings Tax for Swiss paying agents.

Switzerland might conclude similar agreements on final withholding taxes with other countries. Greece has requested to start negotiations on the conclusion of a similar agreement and other countries might be interested to follow. For the avoidance of doubt, should the Issuer, any Swiss paying agent or any institution where the Notes are deposited be required to withhold any amount as a direct or indirect consequence of these tax agreements, then, there is no requirement for the Issuer or the Paying Agent to pay additional amounts as a result of the deduction or imposition of such final withholding tax.

- (5) it understands that the Issuer and the Dealers and their affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations, warranties and agreements and agrees that, if any of the acknowledgements, representations, warranties and agreements deemed to have been made upon its purchase of the Notes is no longer accurate, it shall promptly notify the Issuer and the Dealers.

PLAN OF DISTRIBUTION

Subject to the amended and restated distribution agreement dated 5 September 2013 (the “**Distribution Agreement**”) between the Issuer, the Co-Arrangers and the Permanent Dealers, the Notes will be offered on a continuous basis by the Issuer to the Permanent Dealers (except Natixis). However, the Issuer has reserved the right to sell Notes directly on its own behalf to Dealers that are not Permanent Dealers. The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold by the Issuer through the Dealers, acting as agents of that Issuer. The Distribution Agreement also provides for Notes to be issued in Tranches which are jointly and severally underwritten by two or more Dealers.

The Issuer will pay each Relevant Dealer a commission on the nominal amount of the Notes, depending upon maturity in respect of Notes subscribed or procured for subscription by it. The Issuer has agreed to reimburse Goldman Sachs International as Co-Arranger for certain of its expenses incurred in connection with the update of the Programme. In respect of an issue of Notes on a syndicated basis the commission will be stated in the Final Terms.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Distribution Agreement may be terminated in relation to all the Dealers or any of them by the Issuer or, in relation to itself and the Issuer, by any Dealer at any time on giving not less than ten business days’ notice entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the Issuer.

Selling Restrictions

United States

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”) and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Notes in bearer form are subject to U.S. tax law requirements and, subject to certain exceptions, may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and Treasury regulations promulgated thereunder.

Each Dealer has represented and agreed (and each further Dealer appointed under the Programme will be required to represent and agree) that, except as permitted by the Distribution Agreement, it has not and will not offer, sell or deliver the Notes of any identifiable Tranche, (i) as part of their distribution at any time, or (ii) otherwise until 40 days after completion of the distribution of such Tranche as determined, and certified to the Issuer and each relevant Dealer, by the Fiscal Agent or, in the case of Notes issued on a syndicated basis, the Lead Manager (the “**Distribution Compliance Period**”), within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each dealer to which it sells Notes during the Distribution Compliance Period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in the preceding sentence have the meanings given to them by Regulation S.

The Notes are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S.

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

This Base Prospectus has been prepared by the Issuer for use in connection with the offer and sale of the Notes outside the United States. The Issuer and the Dealers reserve the right to reject any offer to purchase the Notes, in whole or in part, for any reason. This Base Prospectus does not constitute an offer to any person in the United States or to any U.S. person. Distribution of this Base Prospectus by any non-U.S. person outside the United States to any U.S. person or to any other person within the United States and those persons, if any, retained to advise such non-U.S. person with respect thereto, is unauthorised and any disclosure without the prior written consent of the Issuer of any of its contents to any such U.S. person or other person within the United States and those persons, if any, retained to advise such non-U.S. person is prohibited.

Each issuance of index-, commodity- or currency-linked Notes may be subject to such additional U.S. selling restrictions as the Dealers and the Issuer may agree as a term of the issuance and purchase or, as the case may be, subscription of such Notes. Each Dealer agrees that it shall offer, sell and deliver such Notes only in compliance with such additional U.S. selling restrictions.

Public Offer Selling Restriction Under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (i) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a “**Public Offer**”), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that (i) the Issuer has given its written consent and (ii) any such prospectus has subsequently been completed by the final terms contemplating such Public Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Public Offer;
- (ii) at any time to any legal entity which is a qualified investor as defined under the Prospectus Directive;
- (iii) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (iv) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in paragraphs (ii) to (iv) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure

implementing the Prospectus Directive in that Member State and the expression “**Prospectus Directive**” means Directive 2003/71/EC (and the amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in each Relevant Member State and the expression “**2010 PD Amending Directive**” means Directive 2010/73/EC.

In addition to the foregoing, the provisions set out below shall apply in respect of the following EEA Member States:

- (ii) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and
- (iii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom.

their own account, other than individuals, as defined in, and in accordance with, Articles L.411-1, L.411-2 and D.411-1 of the French *Code monétaire et financier* and other applicable regulations.

Hong Kong

In relation to each Tranche of Notes issued by the Issuer, each Dealer has represented and agreed and each further Dealer appointed subsequently under the Programme will be required to represent and agree that:

- (i) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Notes except for Notes which are a “structured product” as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong other than (a) to “professional investors” as defined in the Securities and Futures Ordinance and any rules made under that Ordinance; or (b) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies Ordinance (Cap. 32) of Hong Kong or which do not constitute an offer to the public within the meaning of that Ordinance; and
- (ii) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the Securities and Futures Ordinance and any rules made under that Ordinance.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended, the “**Financial Instruments and Exchange Act**”). Accordingly, each Dealer has represented and agreed that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any Notes in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity recognised under the laws of Japan) or to others for re-offering or re-sale, directly or indirectly, in Japan or to, or for the benefit of any resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Act and other relevant laws and regulations of Japan.

The Netherlands

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that unless the applicable Final Terms specify that this provision does not apply because the standard exemption wording required by Article 5:20(5) of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*) is not applicable, it will not make an offer of Notes to the public in the Netherlands in reliance on Article 3(2) of the Prospectus Directive (as defined above under “Public Offer Selling Restriction under the Prospectus Directive” above) unless (i) such offer is made exclusively to persons or entities which are qualified investors as defined in the Dutch Financial Supervision Act or (ii) standard exemption wording is disclosed as required by Article 5:20(5) of the Dutch Financial Supervision Act, provided that no such offer of Notes shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Bearer securities in definitive form on which interest does not become due and payable during their term but only at maturity (savings certificates or *spaarbewijzen* as defined in the Dutch Savings Certificates Act or *Wet inzake spaarbewijzen*; the ‘SCA’) may only be transferred and accepted, directly or indirectly, within, from or into the Netherlands through the mediation of either the Issuer or a member of Euronext Amsterdam N.V. with due observance of the provisions of the SCA and its implementing regulations (which include registration

requirements). No such mediation is required, however, in respect of (i) the initial issue of such Notes to the first holders thereof, (ii) the transfer and acceptance by individuals who do not act in the conduct of a profession or business, and (iii) the issue and trading of such Notes if they are physically issued outside the Netherlands and are not immediately thereafter distributed in the Netherlands.

Republic of Italy

Unless it is specified within the applicable Final Terms that a non-exempt offer may be made in the Republic of Italy, the offering of the Notes has not been registered pursuant to Italian securities legislation and accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that no Notes may be offered, sold or delivered, nor may copies of this Base Prospectus or of any other document relating to the Notes be distributed in the Republic of Italy except:

- (i) to qualified investors (*investitori qualificati*), as defined pursuant to Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended (the “**Financial Services Act**”) and Article 34-ter, first paragraph, letter b) of CONSOB Regulation No. 11971 of 14 May 1999, as amended (“**Regulation 11971**”); or
- (ii) in any other circumstances which are exempted from the rules on public offerings of securities pursuant to Article 100 of the Financial Services Act and Article 34-ter of Regulation 11971.

Moreover and subject to the foregoing, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that any offer, sale or delivery of the Notes or distribution of copies of this Base Prospectus or any other document relating to the Notes in the Republic of Italy under (i) or (ii) above must be:

- (a) made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Financial Services Act, CONSOB Regulation No. 16190 of 29 October 2007, as amended, and Legislative Decree No. 385 of 1 September 1993, as amended (the “**Banking Act**”) and any other applicable laws and regulations; and
- (b) in compliance with Article 129 of the Banking Act, as amended, and the implementing guidelines of the Bank of Italy, as amended from time to time, pursuant to which the Bank of Italy may request information on the issue or the offer of the Notes in the Republic of Italy; and
- (c) in compliance with any other applicable laws and regulations or requirement or limitation that may be imposed by CONSOB or other Italian authority.

Please note that in accordance with Article 100-bis of the Financial Services Act, where no exemption from the rules on public offerings applies, the Notes which are initially offered and placed in Italy or abroad to professional investors only but in the following year are “systematically” distributed on the secondary market in Italy become subject to the public offer and the prospectus requirement rules provided under the Financial Services Act and Regulation No. 11971. Failure to comply with such rules may result in the sale of such Notes being declared null and void and in the liability of the intermediary transferring the financial instruments for any damages suffered by the investors.

Any Final Terms, simplified prospectuses, term sheets, fact sheets, or any other marketing material of Products which are to be sold exclusively to qualified investors according to Article 10 Para. 3 or 4 CISA (the “**Qualified Investors**”) in the form of a private placement may not be distributed, copied, published or otherwise made public or available for Non-Qualified Investors. ISSUE SPECIFIC SUMMARY

[To be inserted for issues of Notes with a minimum denomination of less than €100,000 (or its equivalent in any other currency).]

RECENT DEVELOPMENTS

On 17 February 2013, the Issuer and Groupe BPCE announced their plan to simplify the Issuer's structure, which would mean:

- selling all Cooperative Investment Certificates (“**CCIs**”) to the Banque Populaire and Caisses d'Epargne banks that issued them, for the price of €12.1 billion in cash. This price will be assessed by independent experts;
- repaying the loan covering the CCIs (“**P3CI**”) and the related lending/borrowing transactions;
- carrying out an exceptional distribution of €2 billion; and
- replacing the liquidity resulting from the previous actions.

All of these elements make up the transaction, which was completed on 6 August 2013. Therefore, the CCIs will no longer be consolidated and will no longer be recognised as share in income from associates.

In accordance with the above plan, the sale of the CCIs was completed on 6 August 2013, such sale being made to Banque Populaire and Caisses d'Epargne banks.

In addition, the AGM approved an exceptional distribution of €0.65 per share payable on 19 August 2013.

As at the date of this Base Prospectus, the Issuer's share capital is €4,960,472,304.

GENERAL INFORMATION

- (1) The Issuer has obtained all necessary consents, approvals and authorisations in connection with the issue and performance of the Notes.

- (9) In relation to any Tranche of Fixed Rate Notes, an indication of yield in respect of the Notes will be specified in the applicable Final Terms. The yield is calculated as the yield to maturity as at the Issue Date on the basis of the relevant Issue Price. It is not an indication of future yield.
- (10) Dematerialised Notes will be inscribed in the books of Euroclear France (acting as central depository). Dematerialised Notes which are in registered form (*au nominatif*) are also inscribed with the Registration Agent.
