RISK FACTORS

Your investment in the notes involves certain risks. In consultation with your own financial, tax and legal advisors, you should carefully consider, among other matters, the following discussion of risks before deciding whether an investment in the notes is suitable for you. The notes are not an appropriate investment for you if you are unsophisticated with respect to their significant components. The risk factors described below may be updated from time to time by our filings with the Securities and Exchange Commission under the Exchange Act that we incorporate by reference herein. The risks and uncertainties described in such incorporated documents and described below are not the only risks and uncertainties that we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business, financial condition and results of operations. If any of those risks actually occurs, our business, financial condition and results of operations would suffer. See “Cautionary Statement Concerning Forward-Looking Statements.”

General

For an enterprise as large and complex as The Walt Disney Company and its subsidiaries are, a wide range of factors could materially affect future developments and performance. The most significant factors affecting the operations of The Walt Disney Company include those set out in “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended September 29, 2018, our subsequent Quarterly Reports on Form 10-Q (including, for the avoidance of doubt, the Quarterly Report on Form 10-Q for the quarterly period ended December 29, 2018 filed by TWDC Enterprises) and the other filings with the Securities and Exchange Commission that are incorporated or deemed to be incorporated by reference in this prospectus supplement and the accompanying prospectus. Additional factors relevant to this offering include the following.

There may not be any trading market for your notes; many factors affect the trading and market value of your notes.

The notes are a new issue of securities and, upon issuance, your notes will not have an established trading market. We do not intend to apply for listing or quotation of the notes on any securities exchange or on any automated quotation system. We cannot assure you a trading market for your notes will ever develop or be maintained if developed. Furthermore, we cannot assure you as to the liquidity of any trading market that may develop for any of the notes, whether you will be able to sell the notes, or the prices at which you may be able to sell the notes. In addition to our creditworthiness, many factors will affect the trading market for, and trading value of, your notes. These factors include the risk factors described and referred to elsewhere in this “*Risk Factors*” section and the following:

- the interest rate on the notes;
- the time remaining to the maturity of the notes;

- the outstanding amount of the notes;
- the redemption features of the notes;
- the level, direction and volatility of market interest rates generally;
- market perceptions of the level, direction and volatility of interest rates generally; and
- the trading value of comparable securities.

There may be a limited number of buyers when you decide to sell your notes. This may affect the price you receive for your notes or your ability to sell your notes at all. You should not purchase the notes unless you understand and know you can bear all of the investment risks involving your notes.

[Table of Contents](#)

The Walt Disney Company is a holding company, and the notes will be structurally subordinated to the indebtedness and other liabilities of our subsidiaries, other than the Guarantor. The guarantee will be structurally subordinated to the indebtedness and other liabilities of the Guarantor’s subsidiaries.

The notes are our obligations exclusively and not of any of our subsidiaries. The guarantee is the Guarantor’s obligation exclusively and not any of its subsidiaries. Operations are conducted almost entirely through our subsidiaries. Our and the Guarantor’s subsidiaries are separate legal entities that have no obligation to pay any amounts due under the notes or the guarantee or to make any funds available therefor, whether by dividends, loans or other payments. Except to the extent we or the Guarantor are a creditor with recognized claims against our or the Guarantor’s subsidiaries, all claims of creditors (including trade creditors) of our or the Guarantor’s subsidiaries will have priority with respect to the assets of such subsidiaries over our or the Guarantor’s claims (and therefore the claims of our and the Guarantor’s creditors, including holders of the notes). Consequently, the notes will be structurally subordinated to all indebtedness or other liabilities of our subsidiaries other than the Guarantor, including any subsidiaries that we may in the future acquire or establish, and the guarantee will be structurally subordinated to all indebtedness or other liabilities of the Guarantor’s subsidiaries, including any subsidiaries that the Guarantor may in the future acquire or establish.

Redemption prior to maturity may adversely affect your return on the fixed rate notes.

Since the fixed rate notes are redeemable at our option, we may choose to redeem your notes at times when prevailing interest rates are relatively low. As a result, you generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the interest rate on your notes being redeemed.

Our and the Guarantor’s credit ratings may not reflect all risks of an investment in the notes and a downgrade in our and/or the Guarantor’s credit ratings could adversely affect the market value of the notes.

The credit ratings that may be assigned to our outstanding debt securities and to the notes do not purport to reflect the potential impact of all risks relating to an investment in those securities. Such ratings are limited in scope and reflect only the view of each rating agency at the time the rating was issued. These ratings are subject to ongoing evaluation by credit rating agencies and there can be no assurance that such credit ratings will not be lowered, suspended or withdrawn entirely by the rating agencies or placed on a so-called “watch list” for a possible downgrade or assigned a negative ratings outlook if, in any rating agency’s judgment, circumstances so warrant. Moreover, these credit ratings are not recommendations to buy, sell or hold any of our debt securities or the notes. Actual or anticipated changes or downgrades in our or the Guarantor’s credit ratings may adversely affect any trading market for, and the market value of, the notes, and also increase our borrowing costs.

An increase in market interest rates could result in a decrease in the market value of the fixed rate notes.

In general, as market interest rates rise, debt securities bearing interest at fixed rates of interest decline in value. Consequently, if you purchase fixed rate notes and market interest rates increase, the market value of those fixed rate notes may decline. We cannot predict the future level of market interest rates.

The amount of interest payable on the floating rate notes is set only once per interest period based on the three-month LIBOR rate on the interest determination date, which rate may fluctuate substantially.

In the past, the level of the three-month LIBOR rate has experienced significant fluctuations. You should note that historical levels, fluctuations and trends of the three-month LIBOR rate are not necessarily indicative of future levels. Any historical upward or downward trend in the three-month LIBOR rate is not an indication that the three-month LIBOR rate is more or less likely to increase or decrease at any time during an interest period (as described in “Description of the Notes”), and you should not take the historical levels of the three-month LIBOR rate as an indication of its future performance. You should further note that, although the actual three-month

[Table of Contents](#)

LIBOR rate on an interest payment date or at other times during an interest period may be higher than the three-month LIBOR rate on the applicable interest determination date, you will not benefit from the three-month LIBOR rate at any time other than on the interest determination date for such interest period. As a result, changes in the three-month LIBOR rate may not result in a comparable change in the market value of the floating rate notes. Increases in the three-month LIBOR rate as of any interest determination date will require us to make higher interest payments on the floating rate notes.

Uncertainty relating to the calculation of LIBOR and other reference rates and their potential discontinuance may materially adversely affect the value of the floating rate notes.

National and international regulators and law enforcement agencies have conducted investigations into a number of rates or indices which are deemed to be “reference rates.” Actions by such regulators and law enforcement agencies may result in changes to the manner in which certain reference rates are determined, their discontinuance, or the establishment of alternative reference rates. In particular, on July 27, 2017, the Chief Executive of the U.K. Financial Conduct Authority (the “FCA”), which regulates LIBOR, announced that the FCA will no longer persuade or compel banks to submit rates for the calculation of LIBOR after 2021. Such announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. Notwithstanding the foregoing, it appears highly likely that LIBOR will be discontinued or modified by 2021.

At this time, it is not possible to predict the effect that these developments, any discontinuance, modification or other reforms to LIBOR or any other reference rate, or the establishment of alternative reference rates may have on LIBOR, other benchmarks or floating rate debt securities, including the floating rate notes. Uncertainty as to the nature of such potential discontinuance, modification, alternative reference rates or other reforms may materially adversely affect the trading market for securities linked to such benchmarks, including the floating rate notes. Furthermore, the use of alternative reference rates or other reforms could cause the interest rate calculated for the floating rate notes to be materially different than expected.

If it is determined that LIBOR has been discontinued and an alternative reference rate for three-month LIBOR is used as described in “Description of the Notes—Interest—Floating Rate Notes”, we (or our designee, which may be the calculation agent, a successor calculation agent, or such other designee of ours (any of such entities, a “Designee”)) may make certain adjustments to such rate, including applying a spread thereon or with respect to the business day convention, interest determination dates and related provisions and definitions, to make such alternative reference rate comparable to three-month LIBOR, in a manner that is consistent with industry-accepted practices or applicable regulatory or legislative actions or guidance for such alternative reference rate. See “Description of the Notes—Interest—Floating Rate Notes”. Any of the specified methods of determining floating rate alternative reference rates or the permitted adjustments to such rates may result in interest payments on your floating rate notes that are lower than or that do not otherwise correlate over time with the payments that would have been made on the floating rate notes if published LIBOR continued to be available. Other floating rate debt securities issued by other issuers, by comparison, may be subject in similar circumstances to different procedures for the establishment of alternative reference rates. Any of the foregoing may have a material adverse effect on the amount of interest payable on your floating rate notes, or the market liquidity and market value of your floating rate notes.

Interest on the floating rate notes will be calculated using a Benchmark Replacement selected by us or our Designee if a Benchmark Transition Event occurs.

As described in detail in the section “Description of the Notes—Interest—Floating Rate Notes—Effect of Benchmark Transition Event” (the “benchmark transition provisions”), if during the term of the floating rate notes, we (or our Designee) determine that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to LIBOR, we (or our Designee) in our sole discretion will select a Benchmark Replacement as the base rate in accordance with the benchmark transition provisions. The

[Table of Contents](#)

Benchmark Replacement will include a spread adjustment and technical, administrative or operational changes described in the benchmark transition provisions may be made to the interest rate determination if we (or our Designee) determine in our sole discretion they are required.

Our interests (or those of our Designee) in making the determinations described above may be adverse to your interests as a holder of the floating rate notes. The selection of a Benchmark Replacement, and any decisions made by us (or our Designee) in connection with implementing a Benchmark Replacement with respect to the floating rate notes, could result in adverse consequences to the applicable interest rate on the floating rate notes, which could adversely affect the return on, value of and market for such securities. Further, there is no assurance that the characteristics of any Benchmark Replacement will be similar to LIBOR or that any Benchmark Replacement will produce the economic equivalent of LIBOR.

The Secured Overnight Financing Rate (“SOFR”) is a relatively new market index and as the related market continues to develop, there may be an adverse effect on the return on or value of the floating rate notes.

If a Benchmark Transition Event and its related Benchmark Replacement Date occur, then the rate of interest on the floating rate notes will be determined using SOFR (unless a Benchmark Transition Event and its related Benchmark Replacement Date also occur with respect to the Benchmark Replacements that are linked to SOFR, in which case the rate of interest will be based on the next-available Benchmark Replacement). In the following discussion of SOFR, when we refer to SOFR-linked notes or debt securities, we mean the floating rate notes at any time when the rate of interest on those notes or debt securities is or will be determined based on SOFR.

The Benchmark Replacements specified in the benchmark transition provisions include Term SOFR, a forward-looking term rate which will be based on the Secured Overnight Financing Rate. Term SOFR is currently being developed under the sponsorship of the Federal Reserve Bank of New York (the “N Federal Reserve”), and there is no assurance that the development of Term SOFR will be completed. If a Benchmark Transition Event and its related Benchmark Replacement Date occur with respect to LIBOR and, at that time, a form of Term SOFR has not been selected or recommended by the Federal Reserve Board, the NY Federal Reserve, a committee thereof or successor thereto, then the next-available Benchmark Replacement under the benchmark transition provisions will be used to determine the amount of interest payable on the floating rate notes for the next applicable interest period and all subsequent interest periods (unless a Benchmark Transition Event and its related Benchmark Replacement Date occur with respect to that next-available Benchmark Replacement).

These replacement rates and adjustments may be selected or formulated by (i) the Relevant Governmental Body (as defined in the benchmark transition provisions) (such as the Alternative Reference Rates Committee of the NY Federal Reserve), (ii) the International Swaps and Derivatives Association, Inc. or (iii) in certain circumstances, us (or our Designee). In addition, the benchmark transition provisions expressly authorize us (or our Designee) to make Benchmark Replacement Conforming Changes with respect to, among other things, the determination of interest periods and the timing and frequency of determining rates and making payments of interest. The application of a Benchmark Replacement and Benchmark Replacement Adjustment, and any implementation of Benchmark Replacement Conforming Changes, could result in adverse consequences to the amount of interest payable on the floating rate notes, which could adversely affect the return on, value of and market for the floating rate notes. Further, there is no assurance that the characteristics of any Benchmark Replacement will be similar to the then-current Benchmark that it is replacing, or that any Benchmark Replacement will produce the economic equivalent of the then-current Benchmark that it is replacing.

The NY Federal Reserve began to publish SOFR in April 2018. Although the NY Federal Reserve has also begun publishing historical indicative SOFR going back to 2014, such prepublication historical data inherently involves assumptions, estimates and approximations. You should not rely on any historical changes or trends in SOFR as an indicator of the future performance of SOFR. Since the initial publication of SOFR, daily changes in the rate have, on occasion, been more volatile than daily changes in comparable benchmark or market rates. As a result, the return on and value of SOFR-linked debt securities may fluctuate more than floating rate debt securities that are linked to less volatile rates.

S-12

[Table of Contents](#)

Also, since SOFR is a relatively new market index, SOFR-linked debt securities likely will have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities indexed to SOFR, such as the spread over the index reflected in interest rate provisions, may evolve over time, and trading prices of the floating rate notes may be lower than those of later-issued SOFR-linked debt securities as a result. Similarly, if SOFR does not prove to be widely used in securities like the floating rate notes, the trading price of those securities may be lower than those of debt securities linked to rates that are more widely used. Debt securities indexed to SOFR may not be able to be sold or may not be able to be sold at prices that will provide a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

The NY Federal Reserve notes on its publication page for SOFR that use of SOFR is subject to important limitations, indemnification obligations and disclaimers, including that the NY Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without notice. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to you as a holder of floating rate notes. If the manner in which SOFR is calculated is changed or if SOFR is discontinued, that change or discontinuance may result in a reduction or elimination of the amount of interest payable on the floating rate notes and a reduction in their trading prices.

USE OF PROCEEDS

We estimate that the net proceeds to us from the sale of the notes in this offering will be approximately \$6,866,635,000 after deducting the underwriting discounts but before deducting estimated offering expenses payable by us. We intend to use the net proceeds of this offering (i) to pay the cash consideration in the Tender Offers, subject, in the case of the tender offer for the Outstanding Disney Debt Securities, to a maximum purchase price of \$1,750,000,000 (including principal and premium, but excluding accrued interest), any accrued and unpaid interest with respect to the Tender Offer Notes

and related fees and expenses, (ii) to prepay in full the \$3,175,000,000 aggregate principal amount outstanding under the Credit Facility and (iii) for general corporate purposes, which may include, among others, the general corporate purposes identified in the accompanying prospectus under the caption “Use of Proceeds.”

As described above, we expect to use a portion of the net proceeds from this offering to fully prepay amounts outstanding under the Credit Facility. Certain affiliates of the underwriters are lenders under our Credit Facility. Because affiliates of Citigroup Global Markets Inc., J.P. Morgan Securities LLC, BNP Paribas Securities Corp., HSBC Securities (USA) Inc. and RBC Capital Markets, LLC will receive 5% or more of the net proceeds of this offering due to the repayment of amounts outstanding under the Credit Facility, Citigroup Global Markets Inc., J.P. Morgan Securities LLC, BNP Paribas Securities Corp., HSBC Securities (USA) Inc. and RBC Capital Markets, LLC are deemed to have a conflict of interest within the meaning of FINRA Rule 5121. Accordingly, this offering will be conducted in accordance with Rule 5121. The appointment of a “qualified independent underwriter” is not required in connection with this offering as the notes will be rated by one or more of the nationally recognized statistical rating organizations in one of the four highest generic rating categories. Pursuant to FINRA Rule 5121, Citigroup Global Markets Inc., J.P. Morgan Securities LLC, BNP Paribas Securities Corp., HSBC Securities (USA) Inc. and RBC Capital Markets, LLC will not confirm any sales to any account over which they exercise discretionary authority without the specific written approval of the account holder.

The “interest reset period” applicable to the floating rate notes will be quarterly and the “interest reset dates” will be each December 1, March 1, June 1 and September 1, commencing on December 1, 2019, subject to adjustment as provided below if any such date is not a business day. The interest rate on the floating rate notes will be reset on each interest reset date, beginning with the interest reset date falling in December 2019.

The interest rate in effect with respect to a floating rate note on each day that is not an interest reset date will be the interest rate determined as of the LIBOR Interest determination date (as defined below) pertaining to the immediately preceding interest reset date and the interest rate in effect on any day that is an interest reset date will be the interest rate determined as of the LIBOR Interest determination date pertaining to that interest reset date, subject in either case to applicable provisions of law.

“LIBOR” means the rate determined by the calculation agent (as defined below) in accordance with the following provisions:

- (a) With respect to a LIBOR Interest determination date, LIBOR will be the three-month rate for deposits in U.S. dollars, commencing on the second London business day immediately following that LIBOR Interest determination date, that appears on the display on Reuters (or any successor service) on the LIBOR 01 page (or any other page as may replace such page on such service or any such successor service, as the case may be) for the purpose of displaying the London interbank rates of major banks for U.S. dollars (the “LIBOR Page”) as of 11:00 A.M., London time, on that LIBOR Interest determination date.
- (b) If the rate referred to in subparagraph (a) above does not appear on the LIBOR Page by 11:00 A.M., London time, on such LIBOR Interest determination date, LIBOR will be determined as follows:
 - 1) Except as provided in clause (2) below, the calculation agent will select (after consultation with us) four major reference banks (which may include one or more of the underwriters or their affiliates) in the London interbank market and will request the principal London office of each of those four selected banks to provide the calculation agent with such bank’s quotation of the rate at which three-month U.S. dollar deposits, commencing on the second London business day immediately following such LIBOR Interest determination date, are offered to prime banks in the London interbank market at approximately 11:00 A.M., London time, on such LIBOR Interest determination date and in a principal amount of not less than \$1,000,000 that is representative for a single transaction in such market at such time.
 - a. If at least two such quotations are provided, then LIBOR for such LIBOR Interest determination date will be the arithmetic mean of such quotations.
 - b. If fewer than two quotations are provided, then LIBOR for such LIBOR Interest determination date will be the arithmetic mean of the rates quoted as of approximately 11:00 A.M. in the City of New York on such LIBOR Interest determination date by three major banks (which may include one or more of the underwriters or their affiliates) in the City of New York selected by the calculation agent (after consultation with us) for three-month U.S. dollar loans, commencing on the second London business

day immediately following such LIBOR Interest determination date, and in a principal amount of not less than \$1,000,000 that is representative for a single transaction in such market at such time; *provided, however*, that if the banks selected as aforesaid by the calculation agent are not quoting as mentioned in this sentence, the rate of interest in effect for the applicable period will be the same as the interest rate in effect on such LIBOR Interest determination date.

- 2) Notwithstanding clause (1) above, if we or our Designee (as defined below) determine on or prior to the relevant LIBOR Interest determination date that a Benchmark Transition Event and its related Benchmark Replacement Date (each, as defined herein) have occurred with respect to LIBOR, then the provisions set forth below under “Effect of Benchmark Transition Event”, which is referred to as the benchmark transition provisions, will thereafter apply to all determinations of the rate of interest payable on the floating rate

notes. In accordance with the benchmark transition provisions, after a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, the amount of interest that will be payable for each interest period will be an annual rate equal to the sum of the Benchmark Replacement (as defined herein) and the margin specified in this prospectus supplement.

Effect of Benchmark Transition Event:

Benchmark Replacement. If we (or our designee, which may be the calculation agent only if the calculation agent consents to such appointment in its sole discretion with no liability therefor, a successor calculation agent, or such other designee of ours (any of such entities, a “**Designee**”)) determine that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any determination of the Benchmark on any date, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the floating rate notes in respect of such determination on such date and all determinations on all subsequent dates.

Benchmark Replacement Conforming Changes. In connection with the implementation of a Benchmark Replacement, we (or our Designee) will have the right to make Benchmark Replacement Conforming Changes from time to time.

Decisions and Determinations. Any determination, decision or election that may be made by us (or our Designee) pursuant to this Section titled “*Effect of Benchmark Transition Event*,” including any determination with respect to tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error, will be made in our (or our Designee’s) sole discretion, and, notwithstanding anything to the contrary in the documentation relating to the floating rate notes, shall become effective without consent from the holders of the floating rate notes or any other party.

Certain Defined Terms. As used in this Section titled “*Effect of Benchmark Transition Event*”:

“**Benchmark**” means, initially, three-month LIBOR; provided that if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to three-month LIBOR or the then-current Benchmark, then “**Benchmark**” means the applicable Benchmark Replacement.

“**Benchmark Replacement**” means the Interpolated Benchmark with respect to the then-current Benchmark, plus the Benchmark Replacement Adjustment for such Benchmark; provided that if we (or our Designee) cannot determine the Interpolated Benchmark as of the Benchmark Replacement Date, then “**Benchmark Replacement**” means the first alternative set forth in the order below that can be determined by us (or our Designee) as of the Benchmark Replacement Date:

- (1) the sum of: (a) Term SOFR and (b) the Benchmark Replacement Adjustment;
- (2) the sum of: (a) Compounded SOFR and (b) the Benchmark Replacement Adjustment;

Table of Contents

- (3) the sum of: (a) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark for the applicable Corresponding Tenor and (b) the Benchmark Replacement Adjustment;
- (4) the sum of: (a) the ISDA Fallback Rate and (b) the Benchmark Replacement Adjustment;
- (5) the sum of: (a) the alternate rate of interest that has been selected by us (or our Designee) as the replacement for the then-current Benchmark for the applicable Corresponding Tenor giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar denominated floating rate notes at such time and (b) the Benchmark Replacement Adjustment.

“**Benchmark Replacement Adjustment**” means the first alternative set forth in the order below that can be determined by us (or our Designee) as of the Benchmark Replacement Date:

- (1) the spread adjustment, or method for calculating or determining such spread adjustment (which may be a positive or negative value or zero), that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (2) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, then the ISDA Fallback Adjustment;
- (3) the spread adjustment (which may be a positive or negative value or zero) that has been selected by us (or our Designee) giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar denominated floating rate notes at such time.

“**Benchmark Replacement Conforming Changes**” means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the definition of “Interest Period”, timing and frequency of determining rates and making payments of interest,

rounding of amounts or tenors, and other administrative matters) that we (or our Designee) decide may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if we (or our Designee) decide that adoption of any portion of such market practice is not administratively feasible or we (or our Designee) determine that no market practice for use of the Benchmark Replacement exists, in such other manner as we (or our Designee) determine is reasonably necessary).

“Benchmark Replacement Date” means the earliest to occur of the following events with respect to the then-current Benchmark:

- (1) in the case of clause (1) or (2) of the definition of “Benchmark Transition Event,” the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark; or
- (2) in the case of clause (3) of the definition of “Benchmark Transition Event,” the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination.

“Benchmark Transition Event” means the occurrence of one or more of the following events with respect to the then-current Benchmark:

- (1) a public statement or publication of information by or on behalf of the administrator of the Benchmark announcing that such administrator has ceased or will cease to provide the Benchmark, permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark;

S-18

[Table of Contents](#)

- (2) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark, the central bank for the currency of the Benchmark, an insolvency official with jurisdiction over the administrator for the Benchmark, a resolution authority with jurisdiction over the administrator for the Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark has ceased or will cease to provide the Benchmark permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark; or
- (3) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative.

“Compounded SOFR” means the compounded average of SOFRs for the applicable Corresponding Tenor, with the rate, or methodology for this rate, and conventions for this rate being established by us (or our Designee) in accordance with:

- 1. the rate, or methodology for this rate, and conventions for this rate selected or recommended by the Relevant Governmental Body for determining compounded SOFR; provided that:
- 2. if, and to the extent that, we (or our Designee) determine that Compounded SOFR cannot be determined in accordance with clause (1) above, then the rate, or methodology for this rate, and conventions for this rate that have been selected by us (or our Designee) giving due consideration to any industry-accepted market practice for U.S. dollar denominated floating rate notes at such time.

For the avoidance of doubt, the calculation of Compounded SOFR shall exclude the Benchmark Replacement Adjustment and the margin specified in this prospectus supplement.

“Corresponding Tenor” with respect to a Benchmark Replacement means a tenor (including overnight) having approximately the same length (disregarding business day adjustment) as the applicable tenor for the then-current Benchmark.

“Federal Reserve Bank of New York’s Website” means the website of the Federal Reserve Bank of New York at <http://www.newyorkfed.org>, or any successor source.

“Interpolated Benchmark” with respect to the Benchmark means the rate determined for the Corresponding Tenor by interpolating on a linear basis between: (1) the Benchmark for the longest period (for which the Benchmark is available) that is shorter than the Corresponding Tenor and (2) the Benchmark for the shortest period (for which the Benchmark is available) that is longer than the Corresponding Tenor.

“ISDA Definitions” means the 2006 ISDA Definitions published by the International Swaps and Derivatives Association, Inc. or any successor thereto, as amended or supplemented from time to time, or any successor definitional booklet for interest rate derivatives published from time to time.

“ISDA Fallback Adjustment” means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark for the applicable tenor.

“ISDA Fallback Rate” means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment.

“Reference Time” with respect to any determination of the Benchmark means (1) if the Benchmark is three-month LIBOR, 11:00 A.M. (London time) on the day that is two London banking days preceding the date of such determination, and (2) if the Benchmark is not three-month LIBOR, the time determined by us (or our Designee) in accordance with the Benchmark Replacement Conforming Changes.

“Relevant Governmental Body” means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto.

[Table of Contents](#)

“SOFR” with respect to any day means the secured overnight financing rate published for such day by the Federal Reserve Bank of New York, as the administrator of the benchmark (or a successor administrator), on the Federal Reserve Bank of New York’s Website.

“Term SOFR” means the forward-looking term rate for the applicable Corresponding Tenor based on SOFR that has been selected or recommended by the Relevant Governmental Body.

“Unadjusted Benchmark Replacement” means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

“LIBOR Interest determination date” means the second London business day preceding each interest reset date.

If any interest reset date for any floating rate note would otherwise be a day that is not a business day with respect to such floating rate note, such interest reset date will be the next succeeding day that is a business day with respect to such floating rate note, except that if the business day is in the next succeeding calendar month, the interest reset date will be the immediately preceding day that is a business day with respect to such floating rate note.

If any floating rate interest payment date (other than an interest payment date occurring on the maturity date) falls on a day that is not a business day with respect to the floating rate note, such interest payment date will be the following day that is a business day with respect to that floating rate note, except that, if the business day is in the next succeeding calendar month, the floating rate interest payment date shall be the immediately preceding day that is a business day with respect to that floating rate note (in each case, resulting in a corresponding adjustment to the number of days in the applicable interest period). If any maturity of a floating rate note falls on a day that is not a business day with respect to the floating rate note, the payment of principal and interest may be made on the next succeeding business day with respect to that floating rate note, and no interest on that payment shall accrue for the period from and after such maturity.

The interest payable on the floating rate notes on any floating rate interest payment date will be paid to the persons in whose name the floating rate notes (or one or more predecessor floating rate notes) are registered at the close of business on November 17, February 15, May 18 or August 18, as the case may be, immediately preceding the applicable floating rate interest payment date (whether or not such record date is a business day); *provided, however*, that interest payable at maturity of the floating rate notes shall be payable to the persons to whom principal shall be payable.

With respect to each floating rate note, accrued interest is calculated by multiplying its face amount by an accrued interest factor. The accrued interest factor is computed by adding the interest factor calculated for each day from the date of issue, or from the last date to which interest has been paid or duly provided for, to the date for which accrued interest is being calculated. The “interest factor” for each day is computed by dividing the interest rate applicable to that day by 360. All percentages resulting from any calculation on floating rate notes will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with five one-millionths of a percentage point rounded upward (*e.g.*, 9.876545% (or .09876545) will be rounded upward to 9.87655% (or .0987655)), and all amounts used in or resulting from the calculation on floating rate notes will be rounded to the nearest cent (with one-half cent being rounded upward).

The calculation of the interest rate on the floating rate notes will be made by Citibank, N.A., as “calculation agent.” If at any time the trustee is not the calculation agent, we will notify (or cause the calculation agent to notify) the trustee of each determination of the interest rate applicable to any of the floating rate notes promptly after the determination is made by any successor calculation agent.

Any such calculation by the calculation agent shall be conclusive and binding on us, the Guarantor, the trustee under the indenture and the holders of the floating rate notes absent manifest error. The “calculation date,” where applicable, pertaining to any LIBOR Interest determination date is the date by which the applicable interest rate

[Table of Contents](#)

must be calculated and will be the earlier of (a) the tenth calendar day after the LIBOR Interest determination date, or, if any such day is not a business day

the next succeeding business day and (b) the business day preceding the applicable floating rate interest payment date or maturity date, as the case may be. Upon the request of the holder of any floating rate note, the trustee will provide the interest rate then in effect and, if determined, the interest rate that will become effective as a result of a determination made for the next interest reset date with respect to the floating rate note.

The interest rate on floating rate notes will in no event be higher than the maximum rate permitted by New York law, as the same may be modified by United States law of general application.

Fixed Rate Notes

The 2022 fixed rate notes will bear interest at the rate of 1.650% per annum, the 2024 fixed rate notes will bear interest at the rate of 1.750% per annum, the 2029 fixed rate notes will bear interest at the rate of 2.000% per annum and the 2049 fixed rate notes will bear interest at the rate of 2.750% per annum in each case accruing from September 6, 2019.

We will pay interest on the 2022 fixed rate notes, the 2029 fixed rate notes and the 2049 fixed rate notes semi-annually in arrears on March 1 and September 1 of each year, commencing on March 1, 2020, to the record holders at the close of business on the preceding February 15 or August 18 (whether or not such record date is a business day), respectively.

We will pay interest on the 2024 fixed rate notes semi-annually in arrears on February 28 and August 30 of each year, commencing on February 28, 2020, to the record holders at the close of business on the preceding February 14 or August 16 (whether or not such record date is a business day), respectively.

For a full semi-annual interest period, interest on the fixed rate notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

If any interest payment date, any redemption date, the applicable maturity date or any other date on which a payment on the fixed rate notes is due is not a business day (as defined below), the payment due on such interest payment date, redemption date, maturity date or other date, as applicable, will be made on the next succeeding business day with the same force and effect as if made on such interest payment date, redemption date, maturity date or other date, as applicable, and no additional interest shall accrue on the amount so payable for the period from and after such interest payment date, redemption date, maturity date or other date, as the case may be, to such next succeeding business day.

The TWDC Enterprises Guarantee

The Guarantor will fully and unconditionally guarantee, on a senior unsecured basis, the full and punctual payment of the principal of, premium, if any, interest on, and all other amounts payable under the notes when the same becomes due and payable, whether at maturity or upon redemption, repayment at the option of the holders of the applicable notes, upon acceleration or otherwise. If for any reason we do not make any required payment in respect of the notes of any series when due, the Guarantor will on demand pay the unpaid amount at the same place and in the same manner that applies to payments made by us under the indenture. The guarantee is of payment, performance and compliance and not of collection.

The Guarantor will automatically and unconditionally be released and discharged from all obligations under the guarantee under certain circumstances specified under the caption “*Description of Debt Securities of The Walt Disney Company—The TWDC Enterprises Guarantee*” in the accompanying prospectus.

Consequences of Holding Company Status

Operations are conducted almost entirely through our subsidiaries. Accordingly, our cash flow and our ability to service our debt, including the notes, are dependent upon the earnings of our subsidiaries and the distribution of those earnings to us, whether by dividends, loans or otherwise. The payment of dividends and the making of loans and advances to us by our subsidiaries may be subject to statutory or contractual restrictions, are contingent

[Table of Contents](#)

upon the earnings of our subsidiaries and are subject to various business considerations. Our right to receive assets of any of our subsidiaries upon their liquidation or reorganization (and the consequent right of the holders of the notes to participate in those assets) will be effectively subordinated to the claims of that subsidiary’s creditors (including trade creditors), except to the extent that we are recognized as a creditor of that subsidiary, in which case our claims would still be effectively subordinated to any security interests in the assets of the subsidiary and would still be contractually subordinated to any indebtedness of the subsidiary senior to that held by us.

Holders of the notes have a direct claim only against us and the Guarantor. See “*Risk Factors—The Walt Disney Company is a holding company, and the notes will be structurally subordinated to the indebtedness and other liabilities of our subsidiaries, other than the Guarantor. The guarantee will be structurally subordinated to the indebtedness and other liabilities of the Guarantor’s subsidiaries.*”

Further Issues

We may, from time to time, without notice to or the consent of the registered holders of any series of notes, issue additional notes ranking *pari passu* with, and with the same terms and provisions as, such series of notes offered hereby (except for the date of original issuance, and, if applicable, the date from which interest will accrue, the first interest payment date and the offering and sale prices thereof) (“Additional Notes”). Any such Additional Notes, together with the applicable series of notes offered hereby, will constitute a single series of our senior debt securities under the indenture.

Ranking

The notes will be our senior unsecured indebtedness and will rank *pari passu* with each other and with all of our other unsecured and unsubordinated indebtedness from time to time outstanding. However, the notes will be structurally subordinated to any indebtedness and preferred stock, if any, of our subsidiaries (other than the Guarantor), including any Outstanding 21CFA Debt Securities that are not tendered into the Tender Offer, and will be effectively subordinated to any secured indebtedness to the extent of the value of the assets securing such indebtedness. Claims of the creditors and preferred stockholders of our subsidiaries other than the Guarantor will generally have priority with respect to the assets and earnings of such subsidiaries over the claims of our creditors, including holders of the notes. Accordingly, the notes will be structurally subordinated to creditors, including trade creditors and preferred stockholders, if any, of our subsidiaries other than the Guarantor.

The Guarantor will fully and unconditionally guarantee, on a senior unsecured basis, the full and punctual payment of the principal of, premium, if any, interest on, and all other amounts payable under the notes when the same becomes due and payable.

The guarantee will be the Guarantor’s senior unsecured obligation and will rank *pari passu* with all of its other unsecured and unsubordinated indebtedness from time to time outstanding. However, the guarantee will be structurally subordinated to any indebtedness and preferred stock, if any, of the Guarantor’s subsidiaries and will be effectively subordinated to any secured indebtedness to the extent of the value of the assets securing such indebtedness.

The indenture does not restrict the ability of our or the Guarantor’s subsidiaries to incur indebtedness. See “*Risk Factors—The Walt Disney Company is a holding company, and the notes will be structurally subordinated to the indebtedness and other liabilities of our subsidiaries, other than the Guarantor. The guarantee will be structurally subordinated to the indebtedness and other liabilities of the Guarantor’s subsidiaries.*”

The Trustee, Paying Agent, Transfer Agent, Security Registrar and Calculation Agent

Citibank, N.A. will be the trustee with respect to the notes and maintains various commercial and investment banking relationships with us and with affiliates of ours. Citibank, N.A. will initially act as paying agent, transfer agent, authenticating agent and security registrar for the notes, as well as calculation agent for the floating rate notes, acting through its corporate trust office currently located at 388 Greenwich Street, New York, NY 10013.

- (1) 100% of the principal amount of the fixed rate notes of such series to be redeemed; or
- (2) as determined by the Independent Investment Banker (as defined below), the sum of the present values of the remaining scheduled payments of principal of and interest on (assuming, for this purpose, that the Par Call Notes (as defined below) mature on the applicable Par Call Date (as defined below)) the fixed rate notes of such series to be redeemed (not including any portion of any payments of interest accrued to the applicable redemption date) discounted to such redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus 7 basis points in the case of the 2022 fixed rate notes, 10 basis points in the case of the 2024 fixed rate notes, 15 basis points in the case of the 2029 fixed rate notes or 15 basis points in the case of the 2049 fixed rate notes,

Notwithstanding the foregoing, installments of interest on the fixed rate notes of any series that are due and payable on an interest payment date falling on or prior to a redemption date shall be payable to the registered holders of such fixed rate notes of such series (or one or more predecessor notes of such series) of record at the close of business on the relevant regular record date, except as otherwise provided by depositary procedures, all as provided in the indenture. Unless we default in the payment of the redemption price, interest on a fixed rate note or portion thereof called for redemption will cease to accrue on the applicable redemption date.

The Treasury Rate will be calculated on the third business day preceding the applicable redemption date.

“**Comparable Treasury Issue**” means, with respect to any redemption date for the fixed rate notes of any series, the United States Treasury security selected by the Independent Investment Banker as having an actual or interpolated maturity comparable to the period from the redemption date to the maturity date or, if applicable, the Par Call Date (the “**remaining term**”), of the fixed rate notes of such series that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such series of fixed rate notes.

“Comparable Treasury Price” means, with respect to any redemption date for the fixed rate notes of any series, (i) if the Independent Investment Banker obtains five Reference Treasury Dealer Quotations for that redemption

date, the average of those Reference Treasury Dealer Quotations after excluding the highest and lowest of those Reference Treasury Dealer Quotations, (ii) if the Independent Investment Banker obtains fewer than five but more than one such Reference Treasury Dealer Quotations, the average of all of those quotations, or (iii) if the Independent Investment Banker obtains only one such Reference Treasury Dealer Quotation, such quotation.

“Independent Investment Banker” means one of Citigroup Global Markets Inc. and J.P. “Reference Treasury Dealer” means, with respect to any redemption date for the fixed rate notes of any series, (i) Citigroup Global Markets Inc. and J.P. Morgan Securities LLC and their respective successors; *provided* that, if any such firm ceases to be a primary U.S. Government securities dealer in the United States (a “Primary Treasury Dealer”), we will substitute another Primary Treasury Dealer; and (ii) up to three additional Primary Treasury Dealers selected by us.

“Reference Treasury Dealer Quotation” means, with respect to each Reference Treasury Dealer and any redemption date for the fixed rate notes of any series, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker by such Reference Treasury Dealer at 5:00 p.m. (New York City time) on the third business day preceding that redemption date.

Notice of any redemption of fixed rate notes will be mailed at least 15 but not more than 60 days before the redemption date to each holder of record of the fixed rate notes to be redeemed at its registered address. The notice of redemption for the fixed rate notes will state, among other things, the principal amount of fixed rate notes to be redeemed, the redemption date, the redemption price or the manner in which the redemption price will be calculated and the place or places that payment will be made upon presentation and surrender of fixed rate notes to be redeemed. Any redemption or notice may, at our discretion, be subject to one or more conditions precedent and, at our discretion, the redemption date may be delayed until such time as any or all such conditions precedent included at our discretion shall be satisfied (or waived by us) or the redemption date may not occur and such notice may be rescinded if all such conditions precedent included at our discretion shall not have been satisfied (or waived by us).

If less than all of the fixed rate notes are to be redeemed, the fixed rate notes to be redeemed will be selected according to DTC procedures, in the case of fixed rate notes represented by a global note, or by the trustee by such method as the trustee considers fair and appropriate, in the case of fixed rate notes, if any, that are not represented by a global note. If any fixed rate note is to be redeemed in part, such fixed rate note must be redeemed in a minimum principal amount of \$2,000 and integral multiples of \$1,000 in principal amount in excess thereof; *provided* that the unredeemed portion of any fixed rate note must be an authorized denomination. Payment of the redemption price, together with accrued interest (if any) to but excluding the redemption date for a fixed rate note for which a redemption notice has been delivered is conditioned upon delivery of such fixed rate note to an office or agency of us maintained for that purpose. Payment of the redemption price for a fixed rate note (or portion thereof to be redeemed), together with accrued interest to the redemption date, will be made on the later of the redemption date or promptly following the time of delivery of such fixed rate note. See “—*The Trustee, Paying Agent, Transfer Agent and Security Registrar.*”

Open Market Purchases

We or our affiliates may acquire the notes by means other than a redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws.

Notices

The trustee will send notices electronically or mail notices by first class mail, postage prepaid, to each registered holder’s address as it appears in the registration books of the registrar and, to the extent applicable, transmit such notices in accordance with applicable procedures of DTC. The trustee will only mail or transmit these notices to the registered holder of the notes, and consequently holders of beneficial interests in global notes will not receive these notices unless we reissue the notes in fully certificated form.

Book-Entry System

The descriptions of operations and procedures of DTC that follow are provided solely as a matter of convenience. These operations and procedures are solely within DTC’s control and are subject to changes by DTC, from time to time. Neither we nor any of the underwriters takes any responsibility for these operations and procedures and we urge you to contact DTC or its participants directly to discuss these matters. DTC has advised us as follows:

- DTC is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act.
- DTC holds securities that its direct participants deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry transfers and pledges in direct participants’ accounts, thereby eliminating the need for physical movement of securities certificates.
- Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations.
- DTC is a 100% owned subsidiary of The Depository Trust & Clearing Corporation, or DTCC. DTCC, in turn, is owned by its principal users which include banks, broker-dealers, mutual funds and other financial institutions.
- Access to the DTC system is also available to others such as securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly, which are referred to as indirect participants and, together with the direct participants, the participants.
- The rules applicable to DTC and its participants are on file with the Securities and Exchange Commission.

DTC will act as securities depository for the notes. The notes will be issued as fully registered securities registered in the name of Cede & Co. (DTC’s partnership nominee). Upon issuance, all notes having the same original issue date, stated maturity and other terms will be represented by the same global security or securities. One fully registered global security will be issued for all such notes having the same original issue date, stated maturity and other terms and will be deposited with or on behalf of DTC. If, however, the aggregate principal amount of any notes with the same stated maturity and other terms exceeds \$500,000,000, then one global security will be issued with respect to each \$500,000,000 of principal amount, and an additional global security will be issued with respect to any remaining principal amount of such notes.

Purchases of notes under DTC’s system must be made by or through direct participants, which will receive a credit for such notes on DTC’s records. The ownership interest of each actual purchaser of each note represented by a global security (“Beneficial Owner”) is in turn to be recorded on the records of direct participants and indirect participants. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which such Beneficial Owner entered into the transaction. Transfers of ownership interests in a global security representing notes are to be accomplished by entries made on the books of participants acting on behalf of Beneficial Owners.

[Table of Contents](#)

To facilitate subsequent transfers, all global securities representing notes which are deposited with, or on behalf of, DTC are registered in the name of DTC’s nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of global securities with, or on behalf of, DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the global securities representing the book-entry notes; DTC’s records reflect only the identity of the direct participants to whose accounts such book-entry notes are credited, which may or may not be the Beneficial Owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

So long as DTC or its nominee is the registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such global security for all purposes under the indenture. Except as provided below, Beneficial Owners of a global security or securities will not be entitled to have notes represented by such global security registered in their names, will not receive or be entitled to receive physical delivery of notes in definitive form (except under the limited circumstances described below) and will not be considered the owners or holders thereof under the indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if the person is not a participant, on the procedures of the participants through which such person owns its interest, to exercise any rights of a holder under the indenture.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect, from time to time.

If the global securities are redeemable, redemption notices shall be sent to Cede & Co. If less than all of the global securities with the same stated maturity and other terms are being redeemed, DTC’s practice is to determine by lot the amount of the interest of each direct participant in such global securities to be

redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to the global securities representing the notes. Under its usual procedures, DTC mails an Omnibus Proxy as soon as possible after the applicable record date. The Omnibus Proxy assigns Cede & Co.’s consenting or voting rights to those direct participants to whose accounts the notes are credited on the applicable record date (identified in a listing attached to the Omnibus Proxy).

Payments of principal, premium, if any, and/or interest, if any, on the global securities representing the notes will be made to DTC. DTC’s practice is to credit direct participants’ accounts upon DTC’s receipt of funds and corresponding detailed information from us or the trustee for such notes on the payable date in accordance with the respective holdings shown on DTC’s records. Payments by participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in “street name”, and will be the responsibility of such participant and not of DTC, the trustee or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, on any of the global securities representing book-entry notes to DTC is the responsibility of us and the trustee, disbursement of such payments to direct participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of direct participants and indirect participants.

A Beneficial Owner will give notice of any option to elect to have its notes repaid by us, through its participant, to the trustee, and will effect delivery of the applicable notes by causing the participant to transfer the participant’s interest in the global security or securities representing such notes, on DTC’s records, to the trustee. The requirement for physical delivery of notes in connection with a demand for repayment will be deemed satisfied when the ownership rights in the global security or securities representing such notes are transferred by direct participants on DTC’s records.

[Table of Contents](#)

DTC may discontinue providing its services as securities depository with respect to the notes at any time by giving reasonable notice to us. If DTC is no longer willing or able to discharge properly its responsibilities as depository with respect to the notes, we will use commercially reasonable efforts to locate a qualified successor. However, definitive notes will be issued in exchange for beneficial interests in global notes, registered in the names of persons other than DTC or its nominee, only if (i) DTC’s book-entry only system ceases to exist, (ii) we determine that DTC is no longer willing or able to discharge properly its responsibilities as depository with respect to the notes and we are unable to locate a qualified successor, (iii) we, at our option, elect to issue definitive notes in lieu of the book-entry system through DTC with respect to all or a portion of such series of notes, (iv) required by law or (v) an Event of Default with respect to the notes has occurred and is continuing. In the event that definitive notes are to be issued as aforesaid, we will promptly execute, and the trustee or an authenticating agent, upon receipt of an order from us for the authentication and delivery of definitive notes, will authenticate and deliver definitive notes in an aggregate principal amount equal to the principal amount of the global securities in exchange for beneficial interests in such global securities in accordance with the instructions, if any, of DTC.

If we issue definitive notes in exchange for global securities as described in the preceding paragraph, such definitive notes shall be issued in denomination of \$2,000 and integral multiples of \$1,000 in excess thereof and each such definitive note will have the same stated maturity and other terms as the global security for which it is exchanged.

The laws of some states may require that certain purchasers of securities take physical delivery of securities in definitive form. Such limits and such laws may impair the ability to own, transfer or pledge beneficial interests in global securities.

Clearstream Luxembourg and Euroclear Systems

You may elect to hold interests in the notes through either DTC or Clearstream Banking S.A. (“[Clearstream Luxembourg](#)”) or Euroclear Bank S.A./N.V. or its successor, as operator of the Euroclear System (“[Euroclear](#)”) if you are a participant in those systems, or indirectly, through organizations that are participants in such systems. Clearstream Luxembourg and Euroclear will hold interests in notes on behalf of their participants through customers’ securities accounts in Clearstream Luxembourg’s and Euroclear’s names on the books of their respective U.S. depositories, which in turn will hold such interests in customers’ securities accounts in the U.S. depositories’ respective names on the books of DTC.

Clearstream Luxembourg has advised us that it was incorporated under the laws of Luxembourg. Clearstream Luxembourg holds securities for its participating organizations (“[Clearstream Luxembourg Participants](#)”) and facilitates the clearance and settlement of securities transactions between Clearstream Luxembourg Participants through electronic book-entry changes in accounts of Clearstream Luxembourg Participants, thereby eliminating the need for physical movement of certificates. Transactions may be settled by Clearstream Luxembourg in many currencies, including United States dollars. Clearstream Luxembourg has established an electronic bridge with Euroclear to facilitate settlement of trades between Clearstream and Euroclear.

As a registered bank in Luxembourg, Clearstream Luxembourg is subject to regulation by the Luxembourg Commission de Surveillance du Secteur Financier (Commission for the Supervision of the Financial Sector). Clearstream Luxembourg Participants are financial institutions around the world,

including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters or their affiliates. Indirect access to Clearstream Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through, or maintain a custodial relationship with, a Clearstream Luxembourg Participant.

[Table of Contents](#)

Distributions with respect to notes held beneficially through Clearstream Luxembourg will be credited to cash accounts of Clearstream Luxembourg Participants in accordance with its rules and procedures, to the extent received by the U.S. depositary for Clearstream Luxembourg.

Euroclear has advised us that it was created to hold securities for participants of Euroclear (“Euroclear Participants”) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear is operated by Euroclear Bank S.A./N.V., as operator of the Euroclear System (the “Euroclear Operator”), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the “Cooperative”). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters or their affiliates. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the “Terms and Conditions”). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no record of, or relationship with, persons holding through Euroclear Participants.

Distributions with respect to notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Terms and Conditions, to the extent received by the U.S. depositary of Euroclear.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC’s rules. Secondary market trading between Clearstream Luxembourg Participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream Luxembourg and Euroclear.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream Luxembourg or Euroclear Participants, on the other, will be effected within DTC in accordance with DTC’s rules on behalf of the relevant European clearing system by its U.S. depositary; however, such cross-market transactions will require delivery of instructions to the relevant European clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depositary to take action to effect final settlement on its behalf by delivering or receiving interests in book-entry notes in DTC, and making or receiving payment through DTC in accordance with normal procedures. Clearstream Luxembourg Participants and Euroclear Participants may not deliver instructions directly to their respective U.S. depositaries.

Because of time-zone differences, credits of interests in book-entry notes received in Clearstream Luxembourg or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits, or any transactions in the notes settled during such processing, will be reported to the relevant Euroclear Participants or Clearstream Luxembourg Participants on that business day. Cash received in Clearstream Luxembourg or Euroclear as a

[Table of Contents](#)

result of sales of interests in book-entry notes by or through a Clearstream Luxembourg Participant or a Euroclear Participant to a DTC participant will be received with value on the business day of settlement in DTC but will be available in the relevant Clearstream Luxembourg or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of securities among participants of DTC, Clearstream Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

The information in this section concerning DTC, Euroclear and Clearstream Luxembourg has been obtained from sources that we believe to be reliable but neither we nor any underwriter takes any responsibility for the accuracy thereof.

Payment of Interest and Principal

As long as DTC or its nominee is the registered owner of the global securities, DTC or its nominee will be considered the sole owner of the global securities for the purposes of receiving payments of interest and principal on such global securities. Payments of principal and any interest on notes in book-entry form represented by one or more global securities will be made by us in immediately available funds through the paying agent to DTC or its nominee, as the case may be, as the holder of the global security or global securities representing such notes in book-entry form.

We expect that DTC, upon receipt of any payment of principal or interest in respect of a global security, will credit, on the date principal or interest is payable, its participants’ accounts with payments in amounts proportionate to their respective interests in the principal amount of such global security as shown on the records of DTC. We also expect that payments of principal and interest by the participants to the owners of beneficial interests in such global security held through such participants in the depository service of DTC will be governed by standing instructions and customary practices and will be the responsibility of such participants. Our responsibility and liability in respect of notes represented by a global security is limited to making payment of any principal and interest due on such global security to DTC. The rules governing DTC provide that it acts as the agent and depository for its participants. As a result, such participants must look solely to DTC and beneficial owners of notes must look solely to participants for the payment of the principal and interest on the notes paid by or on behalf of us to DTC.

If definitive notes are issued under the limited circumstances described above, we will make payments of principal and the redemption price, if any, thereon upon presentation of the definitive notes at the office of a paying agent for the notes. At our option, payments of interest on definitive notes, if issued, due on any interest payment date (other than on the maturity date or any redemption date) may be made by cheque mailed to the addresses of the persons entitled thereto as such addresses shall appear in the register of notes or by wire transfer of immediately available funds to the accounts of the holders of such definitive notes if appropriate wire transfer instructions have been received in writing by the paying agent not less than 15 days prior to the applicable interest payment date. Notwithstanding the foregoing, we will make payments of interest on any interest payment date (other than on the maturity date or any redemption date) to each registered holder of \$10,000,000 or more in aggregate principal amount of definitive notes by wire transfer of immediately available funds if the applicable registered holder has delivered appropriate wire transfer instructions in writing to the paying agent not less than 15 days prior to the applicable interest payment date. Any wire transfer instructions received by the paying agent shall remain in effect until revoked by the applicable registered holder.

Governing Law

The indenture, including the guarantee, and the notes will be governed by, and construed in accordance with, the laws of the State of New York.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the material U.S. federal income tax consequences of the acquisition, disposition and ownership of the notes to the beneficial owners of the notes that purchase the notes in the initial offering at the “issue price” (*i.e.*, the first price at which a substantial amount of the applicable series of notes is sold for money to the public (not including bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers)). This summary is based upon the Internal Revenue Code of 1986, as amended (the “Code”), the Treasury Regulations promulgated or proposed thereunder, administrative pronouncements and judicial decisions, all as of the date hereof and all of which are subject to change, possibly on a retroactive basis. This summary assumes that purchasers will hold the notes as “capital assets” as defined in the Code. This summary does not address all aspects of U.S. federal income taxation that may be important to a particular investor in light of their personal circumstances or that are subject to special rules, such as:

- financial institutions;
- insurance companies;
- regulated investment companies;
- real estate investment trusts;
- tax-exempt organizations;
- broker-dealers;

- certain former citizens or former long-term residents of the United States;
- partnerships or other pass-through entities, hybrid entities and certain trusts;
- persons that hold notes as a position in a “straddle,” “hedge” or “appreciated financial position” for U.S. federal income tax purposes;
- persons subject to the alternative minimum tax;
- U.S. Holders (as defined below) that have a functional currency other than the U.S. dollar;
- accrual method taxpayers that are required to recognize income for U.S. federal income tax purposes no later than when it is taken into account in financial statements; and
- investors that purchase notes in this offering and that sell their Tender Offer Notes in the Tender Offers.

This discussion does not address the U.S. federal estate (except as set forth below with respect to Non-U.S. Holders (as defined below)) or gift tax laws or any aspects of foreign, state or local tax laws. Prospective investors are urged to consult their tax advisors regarding the U.S. federal income tax consequences of acquiring, holding and disposing of the notes in light of their particular situations, as well as any tax consequences that may arise under the laws of any foreign, state, local or other taxing jurisdiction.

For purposes of this summary, the term “U.S. Holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or any other entity taxable as a corporation) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if (1) its administration is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all of its substantial decisions, or (2) it has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

S-31

[Table of Contents](#)

As used herein, the term “Non-U.S. Holder” means a beneficial owner of a note that is not a U.S. Holder and not an entity or arrangement that is classified as a partnership for U.S. federal income tax purposes.

If a partnership is a beneficial owner of a note, the treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. A beneficial owner of notes that is a partnership and partners in such a partnership should consult their tax advisors about the U.S. federal income tax consequences of the acquisition, ownership and disposition of notes.

U.S. Holders

Payments of Interest

It is anticipated, and the remainder of this discussion assumes, that the notes will be issued with no more than a *de minimis* amount (as set forth in the applicable Treasury Regulations) of original issue discount for U.S. federal income tax purposes. Accordingly, interest paid on a note will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder’s method of accounting for U.S. federal income tax purposes.

Sale, Exchange, Redemption or other Taxable Disposition of the Notes

A U.S. Holder will generally recognize gain or loss equal to the difference between the amount realized on the sale, exchange, redemption or other taxable disposition of a note (except to the extent the amount realized is attributable to accrued interest, which will be taxable as ordinary interest income to the extent not previously included in income) and the U.S. Holder’s adjusted tax basis in such note. A U.S. Holder’s adjusted tax basis in the note generally will be the cost to acquire the note.

Any gain or loss recognized by a U.S. Holder on a taxable disposition of the note will generally be capital gain or loss and will be long-term capital gain or loss if at the time of the taxable disposition the note has been held by the U.S. Holder for more than one year. In the case of certain non-corporate U.S. Holders (including individuals), long-term capital gains are generally eligible for reduced rates of U.S. federal income taxation. The deductibility of capital losses is subject to limitations under the Code.

Backup Withholding and Information Reporting

Information reporting requirements generally will apply to interest on the notes and the proceeds of a sale, exchange, redemption or other taxable disposition of a note paid to a U.S. Holder unless the U.S. Holder is an exempt recipient (such as a corporation). Backup withholding generally will apply to those payments if the U.S. Holder fails to provide its correct taxpayer identification number, or certification of exempt status, or if the U.S. Holder is notified by the IRS that it has failed to report in full payments of interest and dividend income. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a U.S. Holder’s U.S. federal income tax liability provided the required information is furnished to the IRS in a timely manner.

Medicare Tax on Net Investment Income

Certain U.S. Holders that are individuals, estates or trusts are subject to an additional 3.8% Medicare tax on “net investment income” (in the case of individuals) or “undistributed net investment income” (in the case of estates and trusts), which includes, among other things, interest on and gains from the sale, exchange, redemption or other taxable disposition of the notes. U.S. Holders should consult their tax advisors regarding the 3.8% Medicare tax.

[Table of Contents](#)

Non-U.S. Holders

Payments of Interest

Subject to the discussion under “—*Information Reporting and Backup Withholding*” and “—*Foreign Account Tax Compliance Act (FATCA)*” below, U.S. federal withholding tax will not be applied to any payment of interest on a note to a Non-U.S. Holder provided that:

- interest paid on the note is not effectively connected with the Non-U.S. Holder’s conduct of a trade or business in the United States;
- the Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock that are entitled to vote within the meaning of section 871(h)(3) of the Code;
- the Non-U.S. Holder is not a controlled foreign corporation that is related to us (actually or constructively) through stock ownership; and
- either (1) the Non-U.S. Holder provides its name and address, and certifies, under penalties of perjury, that it is not a U.S. person (which certification may be made on the applicable IRS Form W-8), or (2) the Non-U.S. Holder holds the notes through certain foreign intermediaries or certain foreign partnerships, and the Non-U.S. Holder and the foreign intermediary or foreign partnership satisfy the certification requirements of applicable Treasury Regulations.

If a Non-U.S. Holder cannot satisfy the requirements described above, payments of interest made to the holder will be subject to U.S. federal withholding tax at a rate of 30%, unless the Non-U.S. Holder provides the applicable withholding agent with a properly executed (1) IRS Form W-8BEN or W-8BEN-E, as applicable, claiming an exemption from or reduction in withholding under the benefit of an applicable income tax treaty or (2) IRS Form W-8ECI (or other applicable form) stating that interest paid on the notes is not subject to U.S. federal withholding tax because it is effectively connected with the Non-U.S. Holder’s conduct of a trade or business in the United States.

If a Non-U.S. Holder is engaged in a trade or business in the United States and interest on the notes is effectively connected with the conduct of that trade or business and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment, then, although the Non-U.S. Holder will be exempt from the 30% withholding tax provided the certification requirements discussed above are satisfied, the Non-U.S. Holder will be subject to U.S. federal income tax on that interest on a net income basis in the same manner as if the Non-U.S. Holder were a U.S. Holder. In addition, if a Non-U.S. Holder is a foreign corporation, it may be subject to a branch profits tax equal to 30% (or lesser rate as may be specified under an applicable income tax treaty) of its effectively connected earnings and profits, subject to adjustments.

Sale, Exchange, Redemption or other Taxable Disposition of the Notes

Subject to the discussions under “—*Information Reporting and Backup Withholding*” below, gain recognized by a Non-U.S. Holder on the sale, exchange, redemption or other taxable disposition of a note (excluding any amount allocable to accrued and unpaid interest, which generally will be taxable as described above under “—*Payments of Interest*”) will not be subject to U.S. federal income tax unless:

- that gain is effectively connected with a Non-U.S. Holder’s conduct of a trade or business in the United States (and, if required by an applicable income treaty, is attributable to a U.S. permanent establishment); or
- the Non-U.S. Holder is an individual who is present in the United States for a period aggregating 183 days or more in the taxable year of the disposition and certain other conditions are met.

If a Non-U.S. Holder is an individual or foreign corporation described in the first bullet point above, it will be subject to tax on the net gain derived from the sale, exchange, redemption or other taxable disposition under

[Table of Contents](#)

regular graduated U.S. federal income tax rates and in the same manner as if the Non-U.S. Holder were a U.S. Holder. In addition, if a Non-U.S. Holder is a foreign corporation that falls under the first bullet point above, it may be subject to the branch profits tax equal to 30% (or lesser rate as may be specified under an applicable income tax treaty) of its effectively connected earnings and profits, subject to adjustments.

If a Non-U.S. Holder is an individual described in the second bullet point above, such Non-U.S. Holder will be subject to a flat 30% (or lesser rate as may be specified under an applicable income tax treaty) tax on the gain derived from the sale, exchange, redemption or other taxable disposition, which may be offset by U.S.-source capital losses, even though such Non-U.S. Holder is not considered a resident of the United States.

U.S. Federal Estate Tax

Notes held at the time of death by an individual who is not a U.S. citizen or resident (as specially defined for U.S. federal estate tax purposes) will not be included in such Non-U.S. Holder’s gross estate for U.S. federal estate tax purposes; *provided* that (1) the individual does not actually (or constructively) own 10% or more of the total combined voting power of all classes of our voting stock within the meaning of the Code and applicable Treasury Regulations, and (2) interest on those notes would not have been, if received at the time of the individual’s death, effectively connected with the conduct of such individual of a trade or business in the United States.

Information Reporting and Backup Withholding

Generally, the amount of interest paid to Non-U.S. Holders and the amount of tax, if any, withheld with respect to those payments must be reported annually to the IRS and to Non-U.S. Holders. Copies of the information returns reporting such interest and withholding may also be made available to the tax authorities in the country in which a Non-U.S. Holder resides under the provisions of an applicable income tax treaty.

In general, a Non-U.S. Holder will not be subject to backup withholding with respect to payments of interest that we make, provided the applicable statement described above in the last bullet point under “—*Payments of Interest*” has been provided and the applicable withholding agent does not have actual knowledge or reason to know that the holder is a United States person, as defined under the Code, that is not an exempt recipient. In addition, a Non-U.S. Holder will be subject to information reporting and, depending on the circumstances, backup withholding with respect to payments of the proceeds of the sale, exchange, redemption, repurchase by us or other taxable disposition of a note within the United States or conducted through certain U.S.-related financial intermediaries, unless the statement described above has been received, and the payor does not have actual knowledge or reason to know that the holder is a United States person, as defined under the Code, that is not an exempt recipient, or the Non-U.S. Holder otherwise establishes an exemption. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a Non-U.S. Holder’s U.S. federal income tax liability provided the required information is furnished to the IRS in a timely manner.

Foreign Account Tax Compliance Act (FATCA)

Under the Foreign Account Tax Compliance Act (commonly referred to as “FATCA”), a 30% U.S. federal withholding tax may apply to interest income paid on the notes to (i) a “foreign financial institution” (as specifically defined in the Code), whether such foreign financial institution is the beneficial owner or an intermediary, unless such foreign financial institution agrees to verify, report and disclose its “United States account” holders (as specifically defined in the Code) and meets certain other specified requirements or (ii) a “non-financial foreign entity” (as specifically defined in the Code), whether such non-financial foreign entity is the beneficial owner or an intermediary, unless such non-financial foreign entity provides a certification that the beneficial owner of the payment does not have any substantial U.S. owners or provides the name, address and taxpayer identification number of each substantial U.S. owner and certain other specified requirements are met. In certain cases, the relevant foreign financial institution or non-financial foreign entity may qualify for an exemption from, or be deemed to be in compliance with, these rules. Further, foreign financial institutions

located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. If an interest payment is subject both to withholding under FATCA and to the U.S. federal withholding tax discussed above under “—*Non-U.S. Holders—Payments of Interest*,” the U.S. federal withholding under FATCA may be credited against, and therefore reduce, such other U.S. federal withholding tax. Holders should consult their own tax advisors regarding these rules and whether they may be relevant to their ownership and disposition of the notes.

The underwriters are committed to take and pay for all of the notes being offered, if any are taken. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

Notes sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at a price that represents a concession not in excess of 0.100% of the principal amount of the 2021 floating rate notes, 0.150% of the principal amount of the 2022 floating rate notes, 0.150% of the principal amount of the 2022 fixed rate notes, 0.200% of the principal amount of the 2024 fixed rate notes, 0.300% of the principal amount of the 2029 fixed rate notes and 0.450% of the principal amount of the 2049 fixed rate notes. The underwriters may allow, and these dealers may re-allow, a concession of not more than 0.025% of the principal amount of the 2021 floating rate notes, 0.050% of the principal amount of the 2022 floating rate notes, 0.050% of the principal amount of the 2022 fixed rate notes, 0.150% of the principal amount of the 2024 fixed rate notes, 0.200% of the principal amount of the 2029 fixed rate notes and 0.250% of the principal amount of the 2049 fixed rate notes to other dealers. After the notes are released for sale, the underwriters may change the offering price and the other selling terms.

The following table shows the underwriting discounts that we will pay to the underwriters in connection with this offering:

	Per 2021 Floating Rate Note	Per 2022 Floating Rate Note	Per 2022 Fixed Rate Note	Per 2024 Fixed Rate Note	Per 2029 Fixed Rate Note	Per 2049 Fixed Rate Note	Total
Underwriting discounts	0.150%	0.200%	0.200%	0.350%	0.450%	0.750%	\$32,000,000

The notes are a new issue of securities with no established trading market. We do not intend to list the notes on any securities exchange or have the notes quoted on any automated dealer quotation system. We have been advised by the underwriters that the underwriters intend to make a market in the notes after the completion of this offering but are not obligated to do so and may discontinue market making at any time without notice to or the consent of existing noteholders. No assurance can be given as to the development, maintenance or liquidity of any trading market for the notes. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected. If the notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

In connection with this offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of notes than they are required to purchase in this offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while this offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting

discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

The expenses of this offering, not including the underwriting discounts, are estimated to be \$2.8 million, all of which are payable by us.

We and the Guarantor have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments they are required to make in respect thereof.

Settlement

We expect to deliver the notes on or about September 6, 2019, which will be the third business day after the date of this prospectus supplement (such settlement cycle being herein referred to as “T+3”). Pursuant to Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes prior to the delivery date may be required to specify an alternate settlement cycle at the time of trade to prevent a failed settlement. Investors who wish to trade the notes prior to the delivery date should consult their own advisors.

Conflicts of Interest

As described in “*Use of Proceeds*,” we expect to use a portion of the net proceeds from this offering to fully prepay amounts outstanding under the Credit Facility. Certain affiliates of the underwriters are lenders under our

[Table of Contents](#)

Credit Facility. Because affiliates of Citigroup Global Markets Inc., J.P. Morgan Securities LLC, BNP Paribas Securities Corp., HSBC Securities (USA) Inc. and RBC Capital Markets, LLC will receive 5% or more of the net proceeds of this offering due to the repayment of amounts outstanding under the Credit Facility, Citigroup Global Markets Inc., J.P. Morgan Securities LLC, BNP Paribas Securities Corp., HSBC Securities (USA) Inc. and RBC Capital Markets, LLC are deemed to have a conflict of interest within the meaning of FINRA Rule 5121. Accordingly, this offering will be conducted in accordance with Rule 5121. The appointment of a “qualified independent underwriter” is not required in connection with this offering as the notes will be rated by one or more of the nationally recognized statistical rating organizations in one of the four highest generic rating categories. Pursuant to FINRA Rule 5121, Citigroup Global Markets Inc., J.P. Morgan Securities LLC, BNP Paribas Securities Corp., HSBC Securities (USA) Inc. and RBC Capital Markets, LLC will not confirm any sales to any account over which they exercise discretionary authority without the specific written approval of the account holder.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing, corporate trust and brokerage activities. Some of the underwriters and their affiliates have engaged in, and may in the future engage in, commercial banking, investment banking, advisory and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain others of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. Citigroup Global Markets Inc., one of the underwriters, is an affiliate of the trustee under the indenture governing the notes. Certain affiliates of Citigroup Global Markets Inc. and J.P. Morgan Securities LLC are also lenders or agents under our unsecured term loans. Citigroup Global Markets Inc., J.P. Morgan Securities LLC, BNP Paribas Securities Corp., HSBC Securities (USA) Inc. and RBC Capital Markets are also acting as dealer managers in the Tender Offers. Certain of the underwriters or their affiliates may hold positions in one or more series of the Tender Offer Notes, which are the subject of the Tender Offers. Also refer to the relationships described above under “—*Conflicts of Interest*”

Selling Restrictions

Other than the United States, no action has been taken by us, the Guarantor or, to the best of our knowledge, the underwriters that would permit a public offering of the notes in any jurisdiction where action for that purpose is required. The notes may not be offered or sold, directly or indirectly, nor may this prospectus supplement or any other offering material or advertisements in connection with the offer and sale of any such notes be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. Persons into whose possession this prospectus supplement comes are advised

to inform themselves about and to observe any restrictions relating to the offering of the notes and the distribution of this prospectus supplement. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any notes offered by this prospectus supplement in any jurisdiction in which such an offer or a solicitation is unlawful.

Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable Canadian securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement and the accompanying prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (“[NI 33-105](#)”), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “[PRIIPs Regulation](#)”) for offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

DESCRIPTION OF DEBT SECURITIES OF THE WALT DISNEY COMPANY

In this “Description of Debt Securities of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); references to the “Guarantor” refer only to TWDC Enterprises and not to any of its subsidiaries; and all references to “debt securities” refer only to debt securities issued by The Walt Disney Company and not to any debt securities issued by TWDC Enterprises.

We may issue debt securities either separately, or together with, or upon the conversion or exercise of or in exchange for, other securities. The debt securities will be our unsecured and unsubordinated obligations. We may issue these debt securities in one or more series.

Our debt securities may be issued from time to time under an indenture, which is referred to as the “indenture.” The trustee under the indenture is referred to as the “trustee.”

The following summary of selected provisions of the indenture and the debt securities is not complete. In connection with an investment in our debt securities, you should review the applicable prospectus supplement, the form of the debt securities and the indenture, which have been or will be filed as exhibits to the registration statement of which this prospectus is a part or a document incorporated or deemed to be incorporated by reference in this prospectus and may be obtained as described under “Where You Can Find More Information” in this prospectus. The following summary and any

description of our debt securities contained in an applicable prospectus supplement are qualified in their entirety by reference to all of the provisions of the debt securities and the indenture, which provisions, including defined terms, are incorporated by reference in this prospectus.

The following description of debt securities describes general terms and provisions of the series of debt securities to which any prospectus supplement may relate. When we offer to sell a series of debt securities, we will describe the specific terms of the series in the applicable prospectus supplement. If any particular terms of the debt securities or the indenture described in a prospectus supplement differ from any of the terms described in this prospectus, then the terms described in the applicable prospectus supplement will supersede the terms described in this prospectus.

General

We can issue an unlimited amount of debt securities under the indenture. We can issue debt securities from time to time and in one or more series as determined by us. In addition, we can issue debt securities of any series with terms different from the terms of debt securities of any other series and the terms of particular debt securities within any series may differ from each other, all without the consent of the holders of previously issued debt securities. The applicable prospectus supplement relating to the series of debt securities will describe the specific terms of the debt securities being offered, including where applicable, the following:

- the title of the series of debt securities;
- any limit on the aggregate principal amount of debt securities of the series;
- whether the debt securities of the series may be represented initially by a debt security in temporary or permanent global form, and, if so, the initial depository with respect to such temporary or permanent global debt security and the circumstances under which beneficial owners of interests in any such temporary or permanent global debt security may exchange such interests for debt securities of such series of like tenor and of any authorized form and denomination;
- the price or prices at which the debt securities of the series will be issued;

[Table of Contents](#)

- whether the debt securities of the series are convertible or exchangeable into other securities, and, if so, the terms and conditions upon which such conversion or exchange will be effected, including the initial conversion or exchange price or rate and any adjustments thereto, the conversion or exchange period and other conversion or exchange provisions;

- any deletions from, modifications of or additions to the events of default or our covenants with respect to the debt securities of the series, whether or not these events of default or covenants are consistent with the events of default or covenants set forth in this prospectus and any change in the rights of the trustee or the requisite holders of the debt securities of the series to declare the principal amount of that series due and payable pursuant to the indenture;
- any special United States federal income tax considerations applicable to the debt securities of the series; and
- any other terms of the debt securities of the series.

Debt securities may be issued as original issue discount securities to be sold at a substantial discount below their principal amount. In the event of an acceleration of the maturity of any original issue discount security, the amount payable to the holder upon acceleration will be determined in the manner described in the applicable prospectus supplement. Special United States federal tax and other considerations applicable to original issue discount securities will be described in the applicable prospectus supplement.

The above is not intended to be an exclusive list of the terms that may be applicable to any debt securities and we are not limited in any respect in our ability to issue debt securities with terms different from or in addition to those described above or elsewhere in this prospectus.

Consequences of Holding Company Status

Operations are conducted almost entirely through our subsidiaries. Accordingly, our cash flow and our ability to service our debt, including the debt securities, are dependent upon the earnings of our subsidiaries and the distribution of those earnings to us, whether by dividends, loans or otherwise. The payment of dividends and the making of loans and advances to us by our subsidiaries may be subject to statutory or contractual restrictions, are contingent upon the earnings of our subsidiaries and are subject to various business considerations. Our right to receive assets of any of our subsidiaries upon their liquidation or reorganization (and the consequent right of the holders of the debt securities to participate in those assets) will be effectively subordinated to the claims of that subsidiary’s creditors (including trade creditors), except to the extent that we are recognized as a creditor of that subsidiary, in which case our claims would still be effectively subordinated to any security interests in the assets of the subsidiary and would still be contractually subordinated to any indebtedness of the subsidiary senior to that held by us.

[Table of Contents](#)

Holders of our debt securities have a direct claim only against us, unless such debt securities are guaranteed, in which case they also have a direct claim against any applicable guarantor.

Form, Exchange, Registration and Transfer

The debt securities of a series will be issued as registered securities. Debt securities of a series may be issuable in whole or in part in the form of one or more global debt securities, as described below under “—Global Debt Securities.” Unless otherwise indicated in an applicable prospectus supplement, debt securities will be issuable in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Debt securities of any series will be exchangeable for other securities of the same series of any authorized denominations and of a like aggregate principal amount and tenor. Unless otherwise indicated in an applicable prospectus supplement, debt securities may be presented for registration of transfer, at the office or agency designated by us as registrar or co-registrar with respect to any series of debt securities, without service charge and upon payment of any taxes, assessments or other governmental charges as described in the indenture. The transfer or exchange will be effected on the books of the registrar or any other transfer agent appointed by us upon the registrar or transfer agent, as the case may be, being satisfied with the documents of title and identity of the person making the request. We have appointed the trustee as the initial registrar under the indenture and the name of any different or additional registrar designated by us with respect to the debt securities of any series will be included in the applicable prospectus supplement. If a prospectus supplement refers to any office or agency where debt securities may be presented or surrendered for payment, registration of transfer or exchange and where notices and demands may be served (in addition to the registrar’s office) designated by us with respect to any series of debt securities, we may at any time rescind such designation or approve a change in the location of such office or agency, except that we will be required to maintain an office or agency in each place of payment for that series and, if required by the depository, we will appoint a paying agent and registrar in The City of New York.

We may at any time designate additional offices or agencies where the debt securities of any series may be presented or surrendered for any or all purposes listed above.

In the event of any redemption of debt securities of any series, we will not be required to:

- issue, register the transfer of or exchange debt securities of that series during a period beginning at the opening of business 15 days before any selection of debt securities of that series to be redeemed and ending at the close of business on the day of mailing or other delivery of the relevant notice of redemption; or
- register the transfer of or exchange any debt security, or portion thereof, called for redemption, except the unredeemed portion of any debt security being redeemed in part.

The TWDC Enterprises Guarantee

Unless otherwise indicated in an applicable prospectus supplement, the Guarantor will fully and unconditionally guarantee the full and punctual payment of the principal of, premium, if any, interest on, and all other amounts payable under the debt securities (such debt securities, the “guaranteed debt securities”), in each case, when the same becomes due and payable, whether at maturity or upon redemption, repayment at the option of the holders of the debt securities, upon acceleration or otherwise. If for any reason we do not make any required payment in respect of our guaranteed debt securities when due, the Guarantor will on demand pay the unpaid amount at the same place and in the same manner that applies to payments made by us under the indenture. The guarantee is of payment, performance and compliance and not of collection.

Holders of our guaranteed debt securities are our direct creditors, as well as direct creditors of the Guarantor under the guarantee. The terms of the guarantee of any guaranteed debt securities will be described in the applicable prospectus supplement.

[Table of Contents](#)

The Guarantor will be automatically and unconditionally released and discharged from its guarantee (i) upon notice by us to the trustee, at any time, that (x) the Guarantor is not a borrower, issuer or guarantor under certain material credit facilities or any debt securities (or substantially concurrently with the Guarantor’s release and discharge under such obligations) or (y) the aggregate principal amount of indebtedness for borrowed money (without duplication issued or borrowed by all Measured Subsidiaries (as defined below) of The Walt Disney Company (collectively) (other than any indebtedness for borrowed money represented by a guarantee under the indenture or guarantees of third party indebtedness) constitutes (or, as a result of any event or circumstance occurring or arising substantially concurrently therewith, will constitute) no more than 10.0% of the aggregate principal amount of indebtedness for

borrowed money of The Walt Disney Company and its Measured Subsidiaries (other than any indebtedness for borrowed money represented by guarantee of third-party indebtedness), on a consolidated basis, as of such time, (ii) upon the sale, transfer or disposition (including by way of consolidation or merger) of all or substantially all of the equity interests or assets of the Guarantor to another person (other than to us or any of our other subsidiaries), (iii) upon the discharge of our obligations under the indenture in accordance with its terms or (iv) upon any covenant defeasance or legal defeasance with respect to the debt securities of the applicable series as described in “—Discharge and Defeasance” below.

“Excluded Entity” means each of the Hong Kong Disneyland Entities, the Shanghai Project Entities and the Specified Project Entities.

“Hong Kong Disneyland Entity” means any subsidiary of the Guarantor and any other person whose equity securities or interests are owned, directly or indirectly, in whole or in part, by the Guarantor or any of its subsidiaries, the primary business of which is the direct or indirect ownership, management, operation, design, construction and/or financing of the recreational and commercial facilities and complex, or any part thereof or any addition thereto, commonly known as “Hong Kong Disney,” “Hong Kong Disneyland” or “Disneyland Resort Hong Kong,” located at Penny’s Bay on Lantau Island, Hong Kong, which subsidiaries and other persons include, without limitation, as of the date hereof, Hongkong International Theme Parks Limited, Hong Kong Disneyland Management Limited and Walt Disney Holdings (Hong Kong) Limited.

“Measured Subsidiary” means, with respect to any person, any (a) corporation (or foreign equivalent) other than an Excluded Entity or (b) general partnership, limited partnership or limited liability company (or foreign equivalent) other than an Excluded Entity (each, a “Non-Corporate Entity”), in either case, of which more than 50% of the outstanding capital stock (or comparable interest) having ordinary voting power (irrespective of whether at the time capital stock (or comparable interest) of any other class or classes of such corporation or Non-Corporate Entity shall or might have voting power upon the occurrence of any contingency) is at the time directly or indirectly (through one or more Measured Subsidiaries) owned by such person. In the case of a Non-Corporate Entity, a person shall be deemed to have more than 50% of interests having ordinary voting power only if such person’s vote in respect of such interests comprises more than 50% of the total voting power of all such interests in such Non-Corporate Entity. For purposes of this definition, any managerial powers or rights comparable to managerial powers afforded to a person solely by reason of such person’s ownership of general partner or comparable interests (or foreign equivalent) shall not be deemed to be “interests having ordinary voting power.”

“Shanghai Project Entity” means any subsidiary of the Guarantor and any other person whose equity securities or interests are owned, directly or indirectly, in whole or in part, by the Guarantor or any of its subsidiaries, the primary business of which is the direct or indirect ownership, management, operation, design, construction and/or financing of the recreational and commercial facilities and complex or any part thereof or any addition thereto, to be known as “Shanghai Disney,” “Shanghai Disneyland” or “Disneyland Resort Shanghai” or by any similar name, to be located in the Pudong New Area, Shanghai, People’s Republic of China, which subsidiaries and other persons include, without limitation, as of the date hereof, Shanghai International Theme Park Company Limited, Shanghai International Theme Park Associated Facilities Company Limited, Shanghai International Theme Park and Resort Management Company Limited and WD Holdings (Shanghai), LLC.

Covenants

Unless otherwise indicated in an applicable prospectus supplement, the indenture does not include covenants limiting the amount of secured or unsecured indebtedness that may be incurred by us and our subsidiaries or otherwise restricting our ability to enter into a highly leveraged transaction, including a reorganization, restructuring, merger or similar transaction involving us or the Guarantor that may adversely affect the holders of the debt securities, if, in the case of a consolidation, merger or transfer or lease of our or the Guarantor’s assets substantially as an entirety, the applicable transaction complies with the provisions described below under “—Mergers and Sales of Assets.” In addition, unless otherwise specified in an applicable prospectus supplement, the indenture does not afford the holders of the debt securities the right to require us to repurchase or redeem the debt securities in the event of a highly leveraged transaction. See “—Mergers and Sales of Assets.”

Payment and Paying Agents

Unless otherwise indicated in an applicable prospectus supplement, payment of principal of, premium, if any, and interest, if any, on debt securities will be made at the office of the paying agent or paying agents designated by us from time to time, except that at our option, payment of principal and premium, if any, or interest also may be made by wire transfer to an account maintained by the payee. Unless otherwise indicated in an applicable prospectus supplement, payment of any installment of interest on debt securities will be made to the person in whose name the debt security is registered at the close of business on the regular record date for the interest payment, except as otherwise provided by the procedures of the depository.

Unless otherwise indicated in an applicable prospectus supplement, the trustee will be designated as our sole paying agent. Any other paying agents designated by us for any series of debt securities will be named in an

[Table of Contents](#)

applicable prospectus supplement. We may at any time designate additional paying agents or rescind the designation of any paying agent or approve a change in the office through which any paying agent acts, except that we will be required to maintain a paying agent in each place of payment for that series.

All moneys paid by us to a paying agent for the payment of principal of and premium, if any, or interest, if any, on any debt security which remains unclaimed at the end of two years after that principal or interest shall have become due and payable will be repaid to us, and the holder of the debt security will thereafter look only to us for payment of those amounts.

Global Debt Securities

The debt securities of a series may be issued in whole or in part in global form. A debt security in global form will be deposited with, or on behalf of, a depository, which will be identified in an applicable prospectus supplement. A global debt security may be issued in either temporary or permanent form. A debt security in global form may not be transferred except as a whole to the depository for the debt security or to its nominee or successor of the depository or a nominee of such successor. If any debt securities of a series are issuable in global form, the applicable prospectus supplement will describe the circumstances, if any, under which beneficial owners of interests in a global debt security may exchange their interests for definitive debt securities of that series of like tenor and principal amount in any authorized form and denomination, the manner of payment of principal of, premium, if any, and interest, if any, on the global debt securities and the specific terms of the depository arrangement with respect to any global debt security.

Mergers and Sales of Assets

The Walt Disney Company

The indenture provides that we may not consolidate with or merge with or into any other person or convey, transfer or lease our properties and assets substantially as an entirety to another person, unless, among other things, (i) we are the continuing corporation, or the resulting, surviving or transferee person (if other than us) is organized and existing under the laws of the United States, any state thereof or the District of Columbia and that person expressly assumes all of our obligations under the debt securities and the indenture, (ii) immediately after giving effect to the transaction, no event which is or after notice or passage of time or both would be, an event of default under the indenture (any such event, a “default”) shall have occurred and be continuing under the indenture and (iii) we deliver to the trustee an officer’s certificate and an opinion of counsel to the effect that the consolidation, merger, conveyance, transfer or lease, as the case may be, complies with the indenture and that all conditions precedent provided in the indenture with respect to the transaction have been satisfied. Any such successor person formed by any such consolidation or into which we are merged or to which any such conveyance, transfer or lease is made shall succeed to, and be substituted for, us under the indenture and we will be discharged from all obligations under the indenture and the debt securities issued thereunder, except in the case of a lease of our properties and assets substantially as an entirety.

Guarantor

Subject to the guarantee release provisions therein, the indenture provides that the Guarantor may not consolidate with or merge with or into any other person or convey, transfer or lease its properties and assets substantially as an entirety to another person, unless, among other things, (i) it is the continuing person, it is merged or consolidated into us or another guarantor under the indenture or the resulting, surviving or transferee person (if other than us or the

Guarantor) is organized and existing under the laws of the United States, any state thereof or the District of Columbia and that person expressly assumes all of the Guarantor's obligations under the debt securities and the indenture and (ii) we deliver to the trustee an officer's certificate and an opinion of counsel to the effect that the consolidation, merger, conveyance, transfer or lease, as the case may be, complies with the indenture and that all conditions precedent provided in the indenture with respect to the transaction have been

[Table of Contents](#)

satisfied. Any such successor person formed by any such consolidation or into which the Guarantor is merged or to which any such conveyance, transfer or lease is made shall succeed to, and be substituted for, the Guarantor under the indenture and the Guarantor will be discharged from all obligations under the indenture and the debt securities issued thereunder, except in the case of a lease of its properties and assets substantially as an entirety.

Events of Default

The indenture provides that if an event of default (other than an event of default described in clause (c) of the next paragraph) occurs and is continuing with respect to a series of debt securities, the trustee or the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount (or, if any of the debt securities of that series are original issue discount securities, that portion of the principal amount of the debt securities as may be specified by the terms thereof) of the debt securities of that series to be immediately due and payable. The indenture further provides that, if an event of default described in clause (c) of the next paragraph occurs and is continuing with respect to a series of debt securities, the principal amount (or, if any of the debt securities of that series are original issue discount securities, that portion of the principal amount of the debt securities as may be specified by the terms thereof) of the debt securities of that series shall become and be immediately due and payable, without any declaration or other act on the part of the trustee or the holders of any debt securities of that series. Under certain circumstances, the holders of a majority in aggregate principal amount of the outstanding debt securities of the series may rescind an acceleration of the debt securities of such series and its consequences.

Under the indenture, unless otherwise specified with respect to a series of debt securities in the applicable prospectus supplement, the following events will constitute an event of default with respect to a series of debt securities:

- (a) default in (i) payment of any principal of or premium, if any, on any debt security of the series at its maturity or (ii) payment of any interest on any debt security of the series when due and payable, continuing for 30 days;
- (b) failure by us to comply with our other agreements in the debt securities of the series or the indenture for the benefit of the holders of debt securities of that series upon the receipt by us of notice of the default given by the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of the series and our failure to cure the default within 60 days after receipt by us of the notice;
- (c) specified events of bankruptcy or insolvency with respect to us or any guarantor that is a Significant Subsidiary;
- (d) the guarantee of a Significant Subsidiary ceases to be in full force and effect (other than as specified above under “—The TWDC Enterprises Guarantee” or as otherwise provided under the terms of the indenture) or the Guarantor denies its liability under the guarantee; and
- (e) any other event of default applicable to the series of debt securities and set forth in the applicable prospectus supplement.

“Significant Subsidiary” means, at any time, any of our subsidiaries which would be a “Significant Subsidiary” at such time, as such term is defined in Regulation S-X promulgated by the Securities and Exchange Commission, as in effect on the date of the indenture.

The trustee will give notice to holders of the debt securities of any continuing default known to the trustee within 90 days after the occurrence of the default. However, the trustee may withhold notice of any default, other than a payment default, if it determines in good faith that withholding the notice is in the interests of the holders.

The holders of a majority in principal amount of the outstanding debt securities of any series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series provided that the trustee may

[Table of Contents](#)

refuse to follow any direction that conflicts with any law or the indenture or that the trustee determines in good faith is unduly prejudicial to the rights of other holders or would involve the trustee in personal liability and subject to other limitations provided for in the indenture. Before proceeding to exercise any right or power under the indenture at the direction of holders, the trustee will be entitled to receive from the holders reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in complying with the direction. With respect to each series of debt securities, no

holder will have any right to pursue any remedy with respect to the indenture or the debt securities of that series, unless:

- (a) the holder has previously given the trustee written notice of a continuing event of default with respect to the debt securities of that series;
- (b) the holders of at least 25% in aggregate principal amount of the outstanding debt securities of the series have made a written request to the trustee to pursue the remedy;
- (c) the holder or holders have offered to the trustee reasonable security or indemnity satisfactory to the trustee;
- (d) the holders of a majority in aggregate principal amount of the outstanding debt securities of the series have not given the trustee a direction inconsistent with the request within 60 days after receipt of the request; and
- (e) the trustee has failed to comply with the request within the 60-day period.

Notwithstanding the foregoing, the right of any holder of any debt security to receive payment of the principal of, premium, if any, and interest in respect of such debt security on the date or dates specified for payment in the debt security (or, in the case of redemption, on the applicable redemption date), or to bring suit for the enforcement of any such payment on or after such respective dates, shall not be impaired or adversely affected without the holder’s consent. The holders of at least a majority in aggregate principal amount of the outstanding debt securities of any series may waive an existing default with respect to that series and its consequences, other than (i) an event of default in the payment of any principal of, or premium, if any, or interest on, any debt security of the series when due, or (ii) a default in respect of the covenants or provisions in the indenture which may not be modified without the consent of the holder of each outstanding debt security of the series affected as described in “—Modification and Waiver” below.

The indenture provides for us to deliver to the trustee within 120 days after the end of each of our fiscal years an officer’s certificate stating whether or not the signers know of any default that occurred during the last fiscal year.

Modification and Waiver

The indenture permits us, the Guarantor and the trustee to execute a supplemental indenture without the consent of the holders of the debt securities issued under the indenture:

- to evidence the succession of another organization to us and the assumption by it of our obligations under the indenture and the debt securities;
- to evidence the succession of another organization to the Guarantor and the assumption by it of the Guarantor’s obligations under the indenture;
- to add to our or the Guarantor’s covenants, agreements and obligations for the benefit of the holders of all the debt securities or any series thereof, or to surrender any right or power conferred in the indenture upon us;
- to establish the form or terms of debt securities of any series as permitted by the indenture;
- to provide for the acceptance of appointment under the indenture of a successor trustee with respect to the debt securities of one or more series and to add to or change any provisions of that indenture as shall be necessary to provide for or facilitate the administration of the trust by more than one trustee;

[Table of Contents](#)

- to cure any ambiguity, defect or inconsistency;
- to add to, change or eliminate any provisions (which addition, change or elimination may apply to one or more series of debt securities), provided that the addition, change or elimination neither (a) applies to any debt security of any series that was created prior to the execution of the supplemental indenture and is entitled to the benefit of that provision nor (b) modifies the rights of the holder of any such debt security with respect to that provision;
- to change or eliminate any provisions as is necessary or desirable in accordance with any amendments to the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”);
- to reflect the release of the Guarantor in accordance with the provisions described in “—The TWDC Enterprises Guarantee” above;
- to add guarantors with respect to the debt securities of one or more series or to secure the debt securities (and to reflect the release of any such additional guarantees or security in accordance with the terms of the indenture); or
- to make any other change that does not adversely affect the rights of any holder of the debt securities issued under the indenture in any material respect.

The indenture also permits us, the Guarantor and the trustee, with the consent of (i) the holders of not less than a majority in principal amount of the

outstanding debt securities issued under the indenture voting as a single class or (ii) in case less than all of the series of outstanding debt securities issued under the indenture are affected by such addition, change, elimination or modification, the holders of not less than a majority in principal amount of the outstanding securities of all series issued under the indenture so affected by such supplemental indenture voting as a single class (including, for the avoidance of doubt, consents obtained in connection with a purchase of, or tender offer or exchange for, the debt securities), to execute a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of, the indenture with respect to the applicable series of debt securities or modify in any manner the rights of the holders of the debt securities of the applicable series under the indenture, and the holders of at least a majority in aggregate principal amount of the outstanding debt securities of any series under the indenture may, by written consent, waive compliance by us or the Guarantor with any provision of the indenture (but solely insofar as such provision relates to the debt securities of such series) or any provision of the debt securities of such series; provided, however, that no such supplemental indenture or waiver shall, without the written consent of the holder of each outstanding debt security under the indenture affected thereby:

- change the stated maturity of the principal of, or any installment of principal or interest on, any such debt security, or reduce the principal amount thereof or the rate of interest thereon or any premium payable upon redemption thereof;
- reduce the amount of principal of any original issue discount security that would be due and payable upon declaration of acceleration of maturity thereof;
- change the place or currency of payment of principal and premium, if any, or interest, if any, on any such debt security;
- impair the right to institute suit for the enforcement of any such payment on any such debt security on or after the stated maturity thereof (or, in the case of redemption, on or after the redemption date);
- reduce the percentage in principal amount of outstanding debt securities of any series necessary to modify or amend the indenture or to waive compliance with certain provisions thereof or certain defaults thereunder with respect to the debt securities of such series; or
- modify any of the provisions of the indenture described in this paragraph except to increase the percentage of outstanding debt securities of such series required for such actions or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding debt security affected thereby.

[Table of Contents](#)

Discharge and Defeasance

Unless otherwise indicated in an applicable prospectus supplement, the indenture provides that we may satisfy and discharge our obligations thereunder (subject to limited exceptions) with respect to the debt securities of any series issued thereunder by delivering to the trustee for cancellation all outstanding debt securities of such series or depositing with the trustee, after the outstanding debt securities of such series have become due and payable, or will become due and payable within one year or will be called for redemption within one year, cash sufficient to pay to the date of deposit (in the case of debt securities of such series which have become due and payable) or to the stated maturity or redemption date, as the case may be, all of the outstanding debt securities of the series and all other sums payable under the indenture with respect to the series.

In addition, unless otherwise indicated in an applicable prospectus supplement, the indenture provides that we may:

- (a) be discharged from our obligations (subject to exceptions) in respect of the debt securities of a series (“defeasance and discharge”); or
- (b) cease to comply with specified covenants insofar as they relate to the debt securities of a series (“covenant defeasance”), including those described under “—Mergers and Sales of Assets”;

and the omission will not be an event of default with respect to the debt securities of that series, in each case at any time prior to the stated maturity or redemption thereof, if we irrevocably deposit with the trustee, in trust:

- (i) sufficient funds in the currency or currency unit in which the debt securities of that series are denominated to pay the principal of, premium, if any, and interest to stated maturity or redemption on, the debt securities of that series; or
- (ii) that amount of direct obligations of, or obligations the principal of and interest on which are fully guaranteed by, the government which issued the currency in which the debt securities are denominated, and which are not subject to prepayment, redemption or call, as will, together with the predetermined and certain income to accrue thereon without consideration of any reinvestment thereof, be sufficient to pay when due the principal of, premium, if any, and interest to stated maturity or redemption on, the debt securities of that series.

The defeasance and discharge and covenant defeasance described above are effective only if, among other things, we deliver an opinion of counsel to the effect that (i) we have met all of the conditions precedent to the defeasance and the holders of the debt securities of the series will not recognize income, gain or loss for United States federal income tax purposes as a result of the defeasance, and will be subject to tax in the same manner as if no defeasance had occurred and (ii) in the case of defeasance and discharge, the opinion as to tax consequences is based upon an Internal Revenue Service ruling or a change in applicable United States federal income tax law; provided, however, that the opinion of counsel required by clause (i) above will not need to be delivered if all debt securities of the applicable series not theretofore delivered to the trustee for cancellation have become due and payable or will become

due and payable at the maturity date of such debt securities within one year under arrangements reasonably satisfactory to the trustee for the giving of notice of redemption by the trustee in our name and at our expense.

Upon the defeasance and discharge, the holders of the debt securities of the series will no longer be entitled to the benefits of the indenture, subject to certain exceptions (including for the purposes of registration of transfer and exchange of the debt securities of the series and replacement of lost, stolen or mutilated debt securities), and should look to the deposited funds or obligations for payment. In the case of covenant defeasance of the debt securities of any series, we and any guarantors will no longer be required to comply, solely insofar as relates to the debt securities of that series, with the covenants as to which covenant defeasance has occurred and a failure to comply with those covenants shall thereafter not constitute a default or event of default with respect of the debt securities of that series.

The Trustee under the Indenture

The trustee under the indenture, and/or one or more of its respective affiliates, may be lenders under our credit agreements, if any, and may provide other commercial banking, investment banking and other services to us and/or our subsidiaries and affiliates. The trustee will be permitted to engage in other transactions with us and/or our subsidiaries and affiliates. However, if the trustee acquires any conflicting interest, as defined in the Trust Indenture Act, it must eliminate the conflict or resign.

Except during the continuance of an event of default, the trustee need perform only those duties that are specifically set forth in the indenture and no other. In case an event of default occurs and is continuing, the trustee is required to exercise the rights and powers vested in it by the indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of its own affairs.

The initial trustee under the indenture dated as of March 20, 2019 is Citibank, N.A.

Applicable Law

The debt securities and the indenture will be governed by and construed in accordance with the laws of the State of New York.

Dividends

Holders of shares of preferred stock shall be entitled to receive, when and as declared by our Board of Directors out of our funds legally available therefor, an annual cash dividend payable at the dates and at the rates, if any, per share per annum as set forth in the applicable prospectus supplement.

Unless otherwise set forth in the applicable prospectus supplement, each series of preferred stock will rank junior as to dividends to any preferred stock that may be issued in the future that is expressly senior as to dividends to that preferred stock. If we should fail at any time to pay accrued dividends on any senior shares at the time the dividends are payable, we may not pay any dividend on the junior preferred stock or redeem or otherwise repurchase shares of junior preferred stock until the accumulated but unpaid dividends on the senior shares have been paid or set aside for payment in full by us.

Unless otherwise set forth in the applicable prospectus supplement, no dividends (other than in common stock or other capital stock ranking junior to the preferred stock of any series as to dividends and upon liquidation) may be declared or paid or set aside for payment, nor may any other distribution be declared or made upon the common stock, or any of our other capital stock ranking junior to or on a parity with the preferred stock of that series as to dividends, nor may any common stock or any of our other capital stock ranking junior to or on a parity with the preferred stock of that series as to dividends be redeemed, purchased or otherwise acquired for any consideration (or any monies be paid to or made available for a sinking fund for the redemption of any shares of any of that stock) by us (except by conversion into or exchange for other capital stock of ours ranking junior to the preferred stock of that series as to dividends) unless (i) if that series of preferred stock has a cumulative dividend, full cumulative dividends on the preferred stock of that series have been or contemporaneously are declared and paid or declared and a sum sufficient for the payment thereof set apart for all past dividend periods and the then current dividend period and (ii) if such series of preferred stock does not have a cumulative dividend, full dividends on the preferred stock of such series have been or contemporaneously are declared and paid or declared and a sum sufficient for the payment thereof set apart for payment for the then current dividend period. However, any monies deposited in any sinking fund with respect to any preferred stock in compliance with the provisions of the sinking fund may be applied to the purchase or redemption of that preferred stock in accordance with the terms of the sinking fund, regardless of whether at the time of the application full dividends, including cumulative dividends, upon shares of the preferred stock outstanding on the last dividend payment date have been paid or declared and set apart for payment. In addition, any junior or parity preferred stock or common stock may be converted into or exchanged for our stock ranking junior to the preferred stock as to dividends.

The amount of dividends payable for the initial dividend period or any period shorter than a full dividend period shall be computed on the basis of a 360-day year of twelve 30-day months, unless otherwise set forth in the applicable prospectus supplement. Accrued but unpaid dividends will not bear interest, unless otherwise set forth in the applicable prospectus supplement.

Convertibility

No series of preferred stock will be convertible into, or exchangeable for, other securities or property except as set forth in the applicable prospectus supplement.

Redemption and Sinking Fund

No series of preferred stock will be redeemable or receive the benefit of a sinking fund except as set forth in the applicable prospectus supplement.

Liquidation Rights

Unless otherwise set forth in the applicable prospectus supplement, in the event of our liquidation, dissolution or winding up, the holders of shares of each series of preferred stock are entitled to receive out of our assets

[Table of Contents](#)

available for distribution to stockholders, before any distribution of assets is made to holders of (i) any other shares of preferred stock ranking junior to the series of preferred stock as to rights upon liquidation, dissolution or winding up and (ii) shares of common stock, liquidating distributions per share in the amount of the liquidation preference specified in the applicable prospectus supplement for that series of preferred stock plus any dividends accrued and accumulated but unpaid to the date of final distribution; but the holders of each series of preferred stock will not be entitled to receive the liquidating distribution of, plus such dividends on, those shares until the liquidation preference of any shares of our capital stock ranking senior to that series of the preferred stock as to the rights upon liquidation, dissolution or winding up shall have been paid (or a sum set aside therefor sufficient to provide for payment) in full. If upon our liquidation, dissolution or winding up, the amounts payable with respect to the preferred stock, and any other preferred stock ranking as to any distribution on a parity with the preferred stock are not paid in full, then the holders of the preferred stock and the other parity preferred stock will share ratably in any distribution of assets in proportion to the full respective preferential amount to which they are entitled. Unless otherwise specified in a prospectus supplement for a series of preferred stock, after payment of the full amount of the liquidating distribution to which they are entitled, the holders of shares of preferred stock will not be entitled to any further participation in any distribution of our assets. Neither a consolidation or merger of us with another corporation nor a sale of securities shall be considered a liquidation, dissolution or winding up of us.

Voting Rights

The holders of each series or class of preferred stock we may issue will have no voting rights, except as required by law and as described below or in the applicable prospectus supplement. Our Board of Directors may, upon issuance of a series or class of preferred stock, grant voting rights to the holders of that series or class to elect additional board members if we fail to pay dividends in a timely fashion.

Without the affirmative vote of a majority of the shares of any class of preferred stock then outstanding, we may not:

- increase or decrease the aggregate number of authorized shares of that class;
- increase or decrease the par value of the shares of that class; or
- alter or change the powers, preferences or special rights of the shares of that class so as to affect them adversely.

If the amendment would adversely alter or change the powers, preferences or special rights of one or more series of a class of preferred stock, but not the entire class, then only the shares of the affected series will have the right to vote on the amendment.

Miscellaneous

The holders of our preferred stock will have no preemptive rights. All shares of preferred stock being offered by the applicable prospectus supplement will be fully paid and not liable to further calls or assessment by us. If we should redeem or otherwise reacquire shares of our preferred stock, then these shares will resume the status of authorized and unissued shares of preferred stock undesignated as to series, and will be available for subsequent issuance. There are no restrictions on repurchase or redemption of the preferred stock while there is any arrearage on sinking fund installments except as may be set forth in an applicable prospectus supplement. Payment of dividends on any series of preferred stock may be restricted by loan agreements, indentures and other transactions entered into by us. Any material contractual restrictions on dividend payments will be described or incorporated by reference in the applicable prospectus supplement.

When we offer to sell a series of preferred stock, we will describe the specific terms of the series in the applicable prospectus supplement. If any particular terms of a series of preferred stock described in a prospectus supplement differ from any of the terms described in this prospectus, then the terms described in the applicable prospectus supplement will be deemed to supersede the terms described in this prospectus.

[Table of Contents](#)

No Other Rights

The shares of a series of preferred stock will not have any preferences, voting powers or relative, participating, optional or other special rights except as set forth above or in the applicable prospectus supplement, our charter or the applicable certificate of designation or as otherwise required by law.

Transfer Agent and Registrar

The transfer agent and registrar for each series of preferred stock will be designated in the applicable prospectus supplement.

DESCRIPTION OF DEPOSITARY SHARES OF THE WALT DISNEY COMPANY

In this “Description of Depositary Shares of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “depository shares” refer only to depository share receipts issued by The Walt Disney Company and not to any depository share receipts issued by any subsidiary, including TWDC Enterprises.

General

We may, at our option, elect to offer fractional shares rather than full shares of the preferred stock of a series. In the event that we exercise this option, we will issue receipts for depository shares, each of which will represent a fraction (to be set forth in the prospectus supplement relating to a particular series of preferred stock) of a share of a particular series of preferred stock as described below.

The shares of any series of preferred stock represented by depository shares will be deposited under one or more deposit agreements among us, a depository to be named in the applicable prospectus supplement, and the holders from time to time of depository receipts issued thereunder.

Subject to the terms of the applicable deposit agreement, each holder of a depository share will be entitled, in proportion to the applicable fraction of a share of preferred stock represented by the depository share, to all the rights and preferences of the preferred stock represented thereby (including, as applicable, dividend, voting, redemption, subscription and liquidation rights).

The depository shares will be evidenced by depository receipts issued pursuant to the deposit agreement. Depository receipts will be distributed to those persons purchasing the fractional shares of the related series of preferred stock.

The following description sets forth certain general terms and provisions of the depository shares to which any prospectus supplement may relate. The particular terms of the depository shares to which any prospectus supplement may relate and the extent, if any, to which such general provisions may apply to the depository shares so offered will be described in the applicable prospectus supplement. To the extent that any particular terms of the depository shares or the deposit agreement described in a prospectus supplement differ from any of the terms described below, then the terms described below will be deemed to have been superseded by that prospectus supplement. The forms of deposit agreement and depository receipt have been or will be filed or incorporated by reference as exhibits to the registration statement of which this prospectus is a part or the documents incorporated or deemed to be incorporated by reference in this prospectus.

The following summary of certain provisions of the depository shares and deposit agreement does not purport to be complete and is subject to, and is qualified in its entirety by express reference to, all the provisions of the deposit agreement and the applicable prospectus supplement, including the definitions therein of certain terms.

Immediately following our issuance of shares of a series of preferred stock that will be offered as fractional shares, we will deposit the shares with the depository, which will then issue and deliver the depository receipts to the purchasers thereof. Depository receipts will only be issued evidencing whole depository shares. A depository receipt may evidence any number of whole depository shares.

Pending the preparation of definitive depository receipts, the depository may, upon our written order, issue temporary depository receipts substantially identical to (and entitling the holders thereof to all the rights pertaining to) the definitive depository receipts but not in definitive form. Definitive depository receipts will be prepared thereafter without unreasonable delay, and such temporary depository receipts will be exchangeable for definitive depository receipts at our expense.

[Table of Contents](#)

Dividends and Other Distributions

The depository will distribute all cash dividends or other cash distributions received in respect of the related series of preferred stock to the record holders

of depositary shares relating to the series of preferred stock in proportion to the number of the depositary shares owned by the holders.

In the event of a distribution other than in cash, the depositary will distribute property received by it to the record holders of depositary shares entitled thereto in proportion to the number of depositary shares owned by the holders, unless the depositary determines that the distribution cannot be made proportionately among the holders or that it is not feasible to make the distributions, in which case the depositary may, with our approval, adopt any method as it deems equitable and practicable for the purpose of effecting the distribution, including the sale (at public or private sale) of the securities or property thus received, or any part thereof, at the place or places and upon those terms as it may deem proper.

The amount distributed in any of the foregoing cases will be reduced by any amounts required to be withheld by us or the depositary on account of taxes or other governmental charges.

Redemption of Depositary Shares

If any series of the preferred stock underlying the depositary shares is subject to redemption, the depositary shares will be redeemed from the proceeds received by the depositary resulting from any redemption, in whole or in part, of the series of the preferred stock held by the depositary. The redemption price per depositary share will be equal to the applicable fraction of the redemption price per share payable with respect to the series of the preferred stock. If we redeem shares of a series of preferred stock held by the depositary, the depositary will redeem as of the same redemption date the number of depositary shares representing the shares of preferred stock so redeemed. If less than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by lot or substantially equivalent method determined by the depositary.

After the date fixed for redemption, the depositary shares so called for redemption will no longer be deemed to be outstanding and all rights of the holders of the depositary shares will cease, except the right to receive the moneys payable upon redemption and any money or other property to which the holders of the depositary shares were entitled upon such redemption, upon surrender to the depositary of the depositary receipts evidencing the depositary shares. Any funds deposited by us with the depositary for any depositary shares that the holders thereof fail to redeem will be returned to us after a period of two years from the date the funds are so deposited.

Voting the Underlying Preferred Stock

Upon receipt of notice of any meeting at which the holders of any series of the preferred stock are entitled to vote, the depositary will mail the information contained in the notice of meeting to the record holders of the depositary shares relating to the series of preferred stock. Each record holder of the depositary shares on the record date (which will be the same date as the record date for the related series of preferred stock) will be entitled to instruct the depositary as to the exercise of the voting rights pertaining to the number of shares of the series of preferred stock represented by that holder's depositary shares. The depositary will endeavor, insofar as practicable, to vote or cause to be voted the number of shares of preferred stock represented by the depositary shares in accordance with the instructions, provided the depositary receives the instructions sufficiently in advance of the meeting to enable it to so vote or cause to be voted the shares of preferred stock, and we will agree to take all reasonable action that may be deemed necessary by the depositary in order to enable the depositary to do so. The depositary will abstain from voting shares of the preferred stock to the extent it does not receive specific instructions from the holders of depositary shares representing the preferred stock.

Withdrawal of Stock

Upon surrender of the depositary receipts at the corporate trust office of the depositary and upon payment of the taxes, charges and fees provided for in the deposit agreement and subject to the terms thereof, the holder of the

[Table of Contents](#)

depositary shares evidenced thereby is entitled to delivery at such office, to or upon his or her order, of the number of whole shares of the related series of preferred stock and any money or other property, if any, represented by the depositary shares. We will not issue any partial shares of preferred stock. Holders of depositary shares will be entitled to receive whole shares of the related series of preferred stock, but holders of the whole shares of preferred stock will not thereafter be entitled to deposit the shares of preferred stock with the depositary or to receive depositary shares therefor. If the depositary receipts delivered by the holder evidence a number of depositary shares in excess of the number of depositary shares representing the number of whole shares of the related series of preferred stock to be withdrawn, the depositary will deliver to the holder or upon his or her order at the same time a new depositary receipt evidencing the excess number of depositary shares.

Conversion or Exchange of Preferred Stock

If the deposited preferred stock is convertible into or exchangeable for other securities, the following will apply. The depositary shares, as such, will not be convertible into or exchangeable for such other securities. Rather, any holder of the depositary shares may surrender the related depositary receipts, together with any amounts payable by the holder in connection with the conversion or the exchange, to the depositary with written instructions to cause conversion or exchange of the preferred stock represented by the depositary shares into or for such other securities. If only some of the depositary shares

are to be converted or exchanged, a new depositary receipt or receipts will be issued for any depositary shares not to be converted or exchanged.

Amendment and Termination of a Deposit Agreement

The form of depositary receipt evidencing the depositary shares of any series and any provision of the applicable deposit agreement may at any time and from time to time be amended by agreement between us and the depositary. However, any amendment that materially adversely alters the rights of the holders of depositary shares of any series will not be effective unless the amendment has been approved by the holders of at least a majority of the depositary shares of the series then outstanding. Every holder of a depositary receipt at the time the amendment becomes effective will be deemed, by continuing to hold the depositary receipt, to be bound by the deposit agreement as so amended. Notwithstanding the foregoing, in no event may any amendment impair the right of any holder of any depositary shares, upon surrender of the depositary receipts evidencing the depositary shares and subject to any conditions specified in the deposit agreement, to receive shares of the related series of preferred stock and any money or other property represented thereby, except in order to comply with mandatory provisions of applicable law. The deposit agreement may be terminated by us at any time upon not less than 60 days' prior written notice to the depositary, in which case, on a date that is not later than 30 days after the date of the notice, the depositary shall deliver or make available for delivery to holders of depositary shares, upon surrender of the depositary receipts evidencing the depositary shares, the number of whole or fractional shares of the related series of preferred stock as are represented by the depositary shares. The deposit agreement shall automatically terminate after all outstanding depositary shares have been redeemed or there has been a final distribution in respect of the related series of preferred stock in connection with any liquidation, dissolution or winding up of us and the distribution has been distributed to the holders of depositary shares.

Charges of Depositary

We will pay all transfer and other taxes and the governmental charges arising solely from the existence of the depositary arrangements. We will pay the charges of the depositary, including charges in connection with the initial deposit of the related series of preferred stock and the initial issuance of the depositary shares and all withdrawals of shares of the related series of preferred stock, except that holders of depositary shares will pay transfer and other taxes and governmental charges and any other charges as are expressly provided in the deposit agreement to be for their accounts.

[Table of Contents](#)

Limitations on Liability

Neither we nor the depositary will be liable if either of us is prevented or delayed by law or any circumstance beyond our control in performing our respective obligations under the deposit agreement. Our obligations and those of the depositary will be limited to performance in good faith of our respective duties under the deposit agreement. Neither we nor the depositary will be obligated to prosecute or defend any legal proceeding in respect of any depositary shares or underlying stock unless satisfactory indemnity is furnished. We and the depositary may rely upon written advice of counsel or accountants, or upon information provided by persons presenting underlying stock for deposit, holders of depositary receipts or other persons believed to be competent and on documents believed to be genuine.

In the event the depositary receives conflicting claims, requests or instructions from any holders of depositary shares, on the one hand, and us, on the other, the depositary will act on our claims, requests or instructions.

Resignation and Removal of Depositary

The depositary may resign at any time by delivering to us written notice of its election to do so, and we may at any time remove the depositary. Any resignation or removal is to take effect upon the appointment of a successor depositary, which successor depositary must be appointed within 60 days after delivery of the notice of resignation or removal and must be a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$50,000,000.

Miscellaneous

The depositary will forward to the holders of depositary shares all reports and communications from us that are delivered to the depositary and which we are required to furnish to the holders of the related preferred stock.

The depositary's corporate trust office will be identified in the applicable prospectus supplement. Unless otherwise set forth in the applicable prospectus supplement, the depositary will act as transfer agent and registrar for depositary receipts and if shares of a series of preferred stock are redeemable, the depositary will also act as redemption agent for the corresponding depositary receipts.

DESCRIPTION OF COMMON STOCK OF THE WALT DISNEY COMPANY

In this “Description of Common Stock of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” the “Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “common stock” refer only to common stock issued by The Walt Disney Company and not to any common stock issued by any subsidiary, including TWDC Enterprises.

We may issue, from time to time, shares of our common stock, the general terms and provisions of which are summarized below. This summary does not purport to be complete and is subject to, and is qualified in its entirety by express reference to, the provisions of our charter, bylaws and the applicable prospectus supplement.

Authorized Shares

Under our charter, we have the authority to issue 4,600,000,000 shares of common stock.

Dividends

Subject to any preferential rights of any series of preferred stock, holders of shares of common stock will be entitled to receive dividends on the stock out of assets legally available for distribution when, as and if authorized and declared by our Board of Directors. The payment of dividends on the common stock will be a business decision to be made by our Board of Directors from time to time based upon results of our operations and our financial condition and any other factors as our Board of Directors considers relevant. Payment of dividends on the common stock may be restricted by loan agreements, indentures and other transactions entered into by us from time to time. Any material contractual restrictions on dividend payments will be described in the applicable prospectus supplement.

Voting Rights

Holders of common stock are entitled to one vote per share on all matters voted on generally by the stockholders, including the election of directors, and, except as otherwise required by law or except as provided with respect to any series of preferred stock, the holders of common stock possess all voting power. Our charter does not provide for cumulative voting for the election of directors. As a result, under the DGCL, the holders of more than one-half of the outstanding shares of common stock generally will be able to elect all the directors of The Walt Disney Company then standing for election and holders of the remaining shares will not be able to elect any director. Directors are elected by a majority of votes cast at the annual meeting of stockholders, unless the election is contested, in which case directors are elected by a plurality of votes cast. A majority of votes cast means that the numbers of shares voted “for” a director exceeds the number of votes cast “against” that director.

If an incumbent director in an uncontested election does not receive a majority of votes cast for his or her election, the director is required to submit a letter of resignation to the Board of Directors for consideration by the Governance and Nominating Committee. The Governance and Nominating Committee is required to promptly assess the appropriateness of such nominee continuing to serve as a director and recommend to the Board of Directors the action to be taken with respect to the tendered resignation. The Board of Directors is required to determine whether to accept or reject the resignation, or what other action should be taken, within ninety (90) days of the date of the certification of election results.

Liquidation Rights

Subject to any preferential rights of any series of preferred stock, holders of shares of common stock are entitled to share ratably in our assets legally available for distribution to our stockholders in the event of our liquidation, dissolution or winding up.

[Table of Contents](#)

Absence of Other Rights

Holders of common stock have no preferential, preemptive, conversion or exchange rights.

Miscellaneous

All shares of common stock being offered by the applicable prospectus supplement will be fully paid and not liable to further calls or assessment by us.

Transfer Agent and Registrar

Broadridge Corporate Issuer Solutions Inc. is the principal transfer agent and registrar for the common stock.

Certain Anti-takeover Effects

General. Certain provisions of our charter and the DGCL could make it more difficult to consummate an acquisition of control of us by means of a tender offer, a proxy fight, open market purchases or otherwise in a transaction not approved by our Board of Directors. The provisions described below may reduce our vulnerability to an unsolicited proposal for the restructuring or sale of all or substantially all of our assets or an unsolicited takeover attempt which is unfair to our stockholders. The summary of the provisions set forth below does not purport to be complete and is qualified in its entirety by reference to our charter, our bylaws and the DGCL.

Our bylaws permit adoption of a stockholder rights plan, rights agreement or any other form of distribution to stockholders which is designed to or has the effect of making an acquisition of large holdings of our shares of common stock more difficult or expensive if, but only if, approved by a majority of the Board of Directors including a majority of independent directors. The bylaw requires that any such plan terminate within one year following the date of adoption unless the plan has been ratified by stockholders or extended by further votes of the Board of Directors. Our Board of Directors has no present intention to introduce additional measures that might have an anti-takeover effect; however, our Board of Directors expressly reserves the right to introduce these measures in the future.

Business Combinations. Section 203 of the DGCL restricts a wide range of transactions (“business combinations”) between a corporation and an interested stockholder. An “interested stockholder” is, generally, any person who beneficially owns, directly or indirectly, 15% or more of the corporation’s outstanding voting stock. Business combinations are broadly defined to include (i) mergers or consolidations with, (ii) sales or other dispositions of more than 10% of the corporation’s assets to, (iii) certain transactions resulting in the issuance or transfer of any stock of the corporation or any subsidiary to, (iv) certain transactions resulting in an increase in the proportionate share of stock of the corporation or any subsidiary owned by, or (v) receipt of the benefit (other than proportionately as a stockholder) of any loans, advances or other financial benefits by, an interested stockholder. Section 203 provides that an interested stockholder may not engage in a business combination with the corporation for a period of three years from the time of becoming an interested stockholder unless (a) the Board of Directors approved either the business combination or the transaction which resulted in the person becoming an interested stockholder prior to the time that person became an interested stockholder; (b) upon consummation of the transaction which resulted in the person becoming an interested stockholder, that person owned at least 85% of the corporation’s voting stock (excluding, for purposes of determining the voting stock outstanding, but not the outstanding voting stock owned by the interested stockholder, shares owned by persons who are directors and also officers and shares owned by certain employee stock plans); or (c) the business combination is approved by the Board of Directors and authorized by the affirmative vote of at least 66⅔% of the outstanding voting stock not owned by the interested stockholder. The restrictions on business combinations with interested stockholders contained in Section 203 of the DGCL do not apply to a corporation whose certificate of incorporation or bylaws contains a provision expressly electing not to be governed by the statute; however, neither our charter nor our bylaws contains a provision electing to “opt-out” of Section 203.

[Table of Contents](#)

Advance Notice Requirements. Stockholders wishing to nominate persons for election to our Board of Directors at an annual meeting or to propose any business to be considered by our stockholders at an annual meeting must comply with certain advance notice and other requirements set forth in our bylaws. Likewise, if our Board of Directors has determined that directors shall be elected at a special meeting of stockholders, stockholders wishing to nominate persons for election to our Board of Directors at such special meeting must comply with certain advance notice and other requirements set forth in our bylaws.

Proxy Access. Our bylaws permit a qualified stockholder or group of stockholders to include up to a specified number of director nominees in our proxy materials for an annual meeting of stockholders. To qualify, the stockholders (or group of up to twenty stockholders) must have continuously owned for at least three years 3% or more of the total voting power of our outstanding shares of capital stock entitled to vote in the election of directors. The maximum number of stockholder nominees permitted under the proxy access provisions of our bylaws is generally the greater of (x) two or (y) 20% of the total number of our directors in office as of the last day on which notice of a nomination may be delivered or, if such amount is not a whole number, the closest whole number below 20%.

Notice of a nomination under our proxy access bylaw provisions must generally be submitted to our secretary at our principal executive offices no earlier than the close of business on the one hundred fiftieth day and no later than the close of business on the one hundred twentieth day prior to the first anniversary of the preceding year’s annual meeting. The notice must contain certain information specified in our bylaws.

Special Meetings. Pursuant to the DGCL, a special meeting of stockholders may be called by the Board of Directors or by any other person authorized to do so in the charter or the bylaws. Our charter provides that special meetings of stockholders may only be called by our Board of Directors, the Chairman of our Board of Directors, the Chief Executive Officer, or, solely to the extent required by our bylaws, by the Secretary of the Company at the written request in proper form of one or more stockholders who have continuously held as stockholders of record “Net Long Shares” (as defined in the bylaws) representing in the aggregate at least twenty-five percent (25%) of the outstanding shares of our common stock for at least one year prior to the date such request is delivered to the Secretary.

Board Vacancies. Any vacancy on the Board of Directors, howsoever resulting, may be filled by a majority of the directors then in office, even if less than a quorum, or by a sole remaining director. Any director elected to fill a vacancy shall hold office after the annual meeting at which his or her term is scheduled to end until his or her successor shall be elected and shall qualify, subject, however, to prior death, resignation, disqualification or removal from office.

Additional Authorized Shares of Capital Stock. The additional shares of authorized common stock and preferred stock available for issuance under our charter could be issued at such times, under such circumstances and with such terms and conditions as to impede a change in control.

DESCRIPTION OF WARRANTS OF THE WALT DISNEY COMPANY

In this “Description of Warrants of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “warrants” refer only to warrants issued by The Walt Disney Company and not to any warrants issued by any subsidiary, including TWDC Enterprises.

We may issue, either separately or together with other securities, warrants for the purchase of any of the other types of securities that we may sell under this prospectus (excluding the guarantees).

The warrants will be issued under warrant agreements to be entered into between us and a bank or trust company, as warrant agent, all to be set forth in the applicable prospectus supplement relating to any or all warrants in respect of which this prospectus is being delivered. Copies of the form of agreement for each warrant, which we refer to collectively as “warrant agreements,” including the forms of certificates representing the warrants, which we refer to collectively as “warrant certificates” and reflecting the provisions to be included in such agreements that will be entered into with respect to the particular offerings of each type of warrant, have been or will be filed as exhibits to the registration statement of which this prospectus forms a part or as exhibits to documents which have been or will be incorporated by reference in this prospectus.

The following description sets forth certain general terms and provisions of the warrants to which any prospectus supplement may relate. The particular terms of the warrants to which any prospectus supplement may relate and the extent, if any, to which the general provisions may apply to the warrants so offered will be described in the applicable prospectus supplement. The following summary of certain provisions of the warrants, warrant agreements and warrant certificates does not purport to be complete and is subject to, and is qualified in its entirety by express reference to, all the provisions of the warrant agreements and warrant certificates, including the definitions therein of certain terms.

General

The prospectus supplement shall set forth the terms of the warrants in respect of which this prospectus is being delivered as well as the related warrant agreement and warrant certificates, including the following, where applicable:

- the principal amount of, or the number of securities, as the case may be, purchasable upon exercise of each warrant and the initial price at which the principal amount or number of securities, as the case may be, may be purchased upon such exercise;
- the designation and terms of the securities, if other than common stock, purchasable upon exercise thereof and of any securities, if other than common stock, with which the warrants are issued;
- the procedures and conditions relating to the exercise of the warrants;
- the date, if any, on and after which the warrants, and any securities with which the warrants are issued, will be separately transferable;
- the offering price of the warrants, if any;
- the currency or currencies in which such warrants are exercisable;
- the date on which the right to exercise the warrants will commence and the date on which that right will expire;
- a discussion of any material United States federal income tax considerations applicable to the exercise of the warrants;

[Table of Contents](#)

- whether the warrants represented by the warrant certificates will be issued in registered or bearer form, and, if registered, where they may be transferred and registered;
- call provisions of the warrants, if any;
- antidilution provisions of the warrants, if any; and
- any other material terms of the warrants.

Exercise of Warrants

Each warrant will entitle the holder to purchase for cash that principal amount of or number of securities, as the case may be, at the exercise price set forth in, or to be determined as set forth in, the applicable prospectus supplement relating to the warrants. Unless otherwise specified in the applicable prospectus supplement, warrants may be exercised at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement at any time up to 5:00 p.m. New York City time on the expiration date set forth in the applicable prospectus supplement. After 5:00 p.m. New York City time on the expiration date, unexercised warrants will become void. Upon receipt of payment and the warrant certificate properly completed and duly executed, we will, as soon as practicable, issue the securities purchasable upon exercise of the warrant. If less than all of the warrants represented by the warrant certificate are exercised, a new warrant certificate will be issued for the remaining amount of warrants.

No Rights of Security Holder Prior to Exercise

Prior to the exercise of their warrants, holders of warrants will not have any of the rights of holders of the securities purchasable upon the exercise of the warrants, and will not be entitled to:

- in the case of warrants to purchase debt securities, payments of principal of, premium, if any, or interest, if any, on the debt securities purchasable upon exercise; or
- in the case of warrants to purchase equity securities, the right to vote or to receive dividend payments or similar distributions on the securities purchasable upon exercise.

Exchange of Warrant Certificates

Warrant certificates will be exchangeable for new warrant certificates of different denominations at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement.

DESCRIPTION OF PURCHASE CONTRACTS OF THE WALT DISNEY COMPANY

In this “Description of Purchase Contracts of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “purchase contracts” refer only to purchase contracts issued by The Walt Disney Company and not to any purchase contracts issued by any subsidiary, including TWDC Enterprises.

We may issue, from time to time, purchase contracts, including contracts obligating holders to purchase from us and us to sell to the holders, a specified principal amount of debt securities or a specified number of shares of common stock or preferred stock or any of the other securities that we may sell under this prospectus (excluding the guarantees) at a future date or dates. The consideration payable upon settlement of the purchase contracts may be fixed at the time the purchase contracts are issued or may be determined by a specific reference to a formula set forth in the purchase contracts. The purchase contracts may be issued separately or as part of units consisting of a purchase contract and other securities or obligations issued by us or third parties, including United States treasury securities, securing the holders’ obligations to purchase the relevant securities under the purchase contracts. The purchase contracts may require us to make periodic payments to the holders of the purchase contracts or units or vice versa, and the payments may be unsecured or prefunded on some basis. The purchase contracts may require holders to secure their obligations under the purchase contracts.

The prospectus supplement will describe, among other things, the material terms of any purchase contracts and of the securities being sold pursuant to such purchase contracts, a discussion, if appropriate, of any special United States federal income tax considerations applicable to the purchase contracts and any material provisions governing the purchase contracts that differ from those described above. The description in the prospectus supplement will not necessarily be complete and will be qualified in its entirety by reference to the purchase contracts, and, if applicable, collateral arrangements and depositary arrangements, relating to the purchase contracts.

DESCRIPTION OF UNITS OF THE WALT DISNEY COMPANY

In this “Description of Units of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “units” refer only to units issued by The Walt Disney Company and not to any units issued by any subsidiary, including TWDC Enterprises.

We may, from time to time, issue units comprised of one or more of the other securities that we may offer under this prospectus (excluding the guarantees in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately at any time, or at any time before a specified date.

Any applicable prospectus supplement will describe, among other things:

- the material terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any material provisions relating to the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units;

PLAN OF DISTRIBUTION

We may sell the securities to one or more underwriters for public offering and sale by them or may sell the securities to investors through agents or dealers. Any underwriter, dealer or agent involved in the offer and sale of the securities will be named in the applicable prospectus supplement.

Securities offered hereby may also be issued upon conversion, exercise or exchange of other securities offered hereby. We also reserve the right to sell securities directly to investors on our own behalf in those jurisdictions where we are authorized to do so. In this case, no underwriters, dealers or agents would be involved.

Underwriters may offer and sell the securities at a fixed price or prices, which may be changed, or from time to time at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. We also may, from time to time, authorize underwriters acting as our agents to offer and sell the securities upon the terms and conditions set forth in any prospectus supplement. The consideration for these securities may be cash or another form negotiated by the parties. In connection with the sale of the securities, underwriters may be deemed to have received compensation from us in the form of underwriting discounts or commissions and may also receive commissions from purchasers of the securities for whom they may act as agent.

If a dealer is utilized in the sale of the securities in respect of which this prospectus is delivered, we may sell the securities to the dealer, as principal. The

dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. If we sell securities to underwriters we will execute an underwriting agreement with them at the time of sale. The debt securities, together with any guarantees thereof, may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more investment banking firms or others, as designated. Unless the applicable prospectus supplement specifies otherwise, the obligations of the underwriters or agents to purchase the offered debt securities will be subject to some conditions. The underwriters will be obligated to purchase all the offered debt securities if any of the offered debt securities are purchased. Any initial public offering price and any underwriting commissions or other items constituting underwriters' compensation may be changed from time to time.

Any underwriting compensation paid by us to underwriters or agents in connection with the offering of the securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers, will be set forth in an applicable prospectus supplement.

Underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters under the Securities Act, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. Underwriters, dealers and agents may be entitled under agreements with us to indemnification against and contribution toward certain civil liabilities, including liabilities under the Securities Act, and to reimbursement by us for certain expenses.

In connection with underwritten offerings of securities, underwriters may over-allot or effect transactions that stabilize, maintain or otherwise affect the market price of the offered securities at levels above those that might otherwise prevail in the open market, including by entering stabilizing bids, effecting syndicate covering transactions or imposing penalty bids, each of which is described below.

- A stabilizing bid means the placing of any bid, or the effecting of any purchase, for the purpose of pegging, fixing or maintaining the price of a security.
- A syndicate covering transaction means the placing of any bid on behalf of the underwriting syndicate or the effecting of any purchase to reduce a short position created in connection with the offering.
- A penalty bid means an arrangement that permits the managing underwriter to reclaim a selling concession from a syndicate member in connection with the offering when offered securities originally sold by the syndicate member are purchased in syndicate covering transactions.

These transactions may be effected on the New York Stock Exchange (if applicable), in the over-the-counter market or otherwise. Underwriters are not required to engage in any of these activities, or to continue the activities if commenced.

If so indicated in an applicable prospectus supplement, we may authorize dealers acting as our agents to solicit offers by institutions to purchase the securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. Each delayed delivery contract will be for an amount not less than, and the aggregate principal amount or offering price of the securities sold pursuant to delayed delivery contracts will not be less nor more than, the respective amounts stated in the prospectus supplement. Institutions with whom delayed delivery contracts, when authorized, may be entered into include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and other institutions, but will in all cases be subject to approval by us.

The securities may also be offered and sold, if so indicated in the prospectus supplement, in connection with a remarketing upon their purchase, in accordance with a redemption or repayment pursuant to their terms, or otherwise, by one or more firms ("remarketing firms"), acting as principals for their own accounts or as agents for us. Any remarketing firm will be identified and the terms of its agreement, if any, with us and its compensation will be described in the applicable prospectus supplement. Remarketing firms may be deemed to be underwriters in connection with the securities remarketed thereby. Remarketing firms may be entitled under agreements which may be entered into with us to indemnification by us against certain liabilities, including liabilities under the Securities Act.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third parties in such sale transactions will be underwriters and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment).

The securities may or may not be listed on a national securities exchange or a foreign securities exchange. Securities offered may be a new issue of securities with no established trading market. Any underwriters to whom or agents through whom these securities are sold by us for public offering and sale may make a market in these securities, but such underwriters or agents will not be obligated to do so and may discontinue any market making at any

time without notice. No assurance can be given as to the liquidity of or the trading market for any such securities.

One or more of the underwriters, agents or dealers, and/or one or more of their respective affiliates, may be a lender under our credit agreements and may provide other commercial banking, investment banking and other services to us and/or our subsidiaries and affiliates in the ordinary course of business.
