Trigger PLUS Based on a Basket Consisting of Three Indices and an Exchange-Traded Fund due January 5, 2024

**Trigger Performance Leveraged Upside Securities<sup>SM</sup>**  
**Fully and Unconditionally Guaranteed by Morgan Stanley**  
**Principal at Risk Securities**

The Trigger PLUS are unsecured obligations of Morgan Stanley Finance LLC (“MSFL”) and are fully and unconditionally guaranteed by Morgan Stanley. The Trigger PLUS will pay no interest, do not guarantee any return of principal at maturity and have the terms described in the accompanying product supplement for PLUS, index supplement and prospectus, as supplemented or modified by this document. At maturity, if the basket has **appreciated** in value, investors will receive the stated principal amount of their investment plus leveraged upside performance of the basket. If the basket has **remained unchanged or depreciated** in value but the final basket value is greater than or equal to the trigger level, investors will receive the stated principal amount of their investment. However, if the basket has **depreciated** in value so that the final basket value is less than the trigger level, investors will lose a significant portion or all of their investment, resulting in a 1% loss for every 1% decline in the basket value over the term of the Trigger PLUS. Under these circumstances, the payment at maturity will be less than 60% of the principal amount and could be zero. Accordingly, you may lose your entire investment. These long-dated Trigger PLUS are for investors who seek an equity-based return and who are willing to risk their principal and forgo current income in exchange for the upside leverage feature and the limited protection against loss that applies only if the final basket value is greater than or equal to the trigger level.

**Investors may lose their entire initial investment in the Trigger PLUS.** The Trigger PLUS are notes issued as part of MSFL’s Series A Global Medium-Term Notes program.

**All payments are subject to our credit risk. If we default on our obligations, you could lose some or all of your investment. These Trigger PLUS are not secured obligations and you will not have any security interest in, or otherwise have any access to, any underlying reference asset or assets.**

### FINAL TERMS

<b>Issuer:</b>	Morgan Stanley Finance LLC
<b>Guarantor:</b>	Morgan Stanley
<b>Maturity date:</b>	January 5, 2024
<b>Original issue price:</b>	\$1,000 per Trigger PLUS
<b>Stated principal amount:</b>	\$1,000 per Trigger PLUS
<b>Pricing date:</b>	January 2, 2019
<b>Original issue date:</b>	January 7, 2019 (3 business days after the pricing date)
<b>Aggregate principal amount:</b>	\$750,000
<b>Interest:</b>	None

<b>Basket:</b>	<b>Basket component</b>	<b>Bloomberg ticker symbol</b>	<b>Basket component weighting</b>	<b>Initial basket component value</b>	<b>Multiplier</b>
	S&P 500 <sup>®</sup> Index (the “SPX Index”)	SPX	40%	2,510.03	0.015936065
	Russell 2000 <sup>®</sup> Index (the “RTY Index”)	RTY	20%	1,355.906	0.014750285
	EURO STOXX 50 <sup>®</sup> Index (the “SX5E Index”)	SX5E	20%	2,993.18	0.006681857
	Shares of the iShares <sup>®</sup> MSCI Emerging	EEM UP	20%	\$39.16	

We refer to the SPX Index, the RTY Index and the SX5E Index, collectively, as the underlying indices, and the EEM Shares as the underlying shares and, together with the underlying indices, as the basket components.

<b>Payment at maturity (per Trigger PLUS):</b>	If the final basket value is greater than the initial basket value: \$1,000 + the leveraged upside payment If the final basket value is less than or equal to the initial basket value but is greater than or equal to the trigger level: \$1,000 If the final basket value is less than the trigger level: \$1,000 × the basket performance factor <i>Under these circumstances, the payment at maturity will be less than the stated principal amount of \$1,000 and will represent a loss of more than 40%, and possibly all, of your investment.</i>
<b>Leveraged upside payment:</b>	\$1,000 × leverage factor × basket percent increase
<b>Leverage factor:</b>	164%
<b>Basket percent increase:</b>	(final basket value – initial basket value) / initial basket value
<b>Basket performance factor:</b>	final basket value / initial basket value
<b>Trigger level:</b>	60, which is 60% of the initial basket value
<b>Initial basket value:</b>	100, which is equal to the sum of the products of the initial basket component values of each of the basket components, as set forth under “Basket—Initial basket component value” above, and the applicable multiplier for each of the basket components, each of which was determined on the pricing date.
<b>Final basket value:</b>	The basket closing value on the valuation date.
<b>Valuation date:</b>	January 2, 2024, subject to postponement for non-index business days or non-trading days, as applicable, and certain market disruption events.
<b>Basket closing value:</b>	The basket closing value on any day is the sum of the products of the basket component closing values of each of the basket components and the applicable multiplier for each of the basket components on such date.
<b>Basket component closing value:</b>	In the case of each underlying index, on any index business day, the index closing value as published by the relevant index publisher. In the case of the underlying shares, on any trading day, the closing price of one share of the underlying shares on such day times the adjustment factor for the underlying shares on such day.
<b>Multiplier:</b>	The multiplier was set on the pricing date based on each basket component’s respective initial basket component value so that each basket component represents its applicable basket component weighting in the predetermined initial basket value. Each multiplier will remain constant for the term of the Trigger PLUS. See “Basket—Multiplier” above.
<b>Adjustment factor:</b>	With respect to the underlying shares, 1.0, subject to adjustment for certain events affecting the underlying shares.
<b>Listing:</b>	The Trigger PLUS will not be listed on any securities exchange.
<b>CUSIP / ISIN:</b>	61768DVG7 / US61768DVG77
<b>Agent:</b>	Morgan Stanley & Co. LLC (“MS & Co.”), an affiliate of MSFL and a wholly owned subsidiary of Morgan Stanley. See “Supplemental information concerning plan of distribution; conflicts of interest.”
<b>Estimated value on the pricing date:</b>	\$965.50 per Trigger PLUS. See “Investment Summary” beginning on page 2.

<b>Commissions and issue price:</b>	<b>Price to public</b>	<b>Agent’s commissions and fees<sup>(1)</sup></b>	<b>Proceeds to us<sup>(2)</sup></b>
<b>Per Trigger PLUS</b>	\$1,000	\$10	\$990
<b>Total</b>	\$750,000	\$7,500	\$742,500

(1) Selected dealers and their financial advisors will collectively receive from the agent, MS & Co., a fixed sales commission of \$10 for each Trigger PLUS they sell. See “Supplemental information concerning plan of distribution; conflicts of interest.” For additional information, see “Plan of Distribution (Conflicts of Interest)” in the accompanying product supplement for PLUS.

(2) See “Use of proceeds and hedging” on page 19.

**The Trigger PLUS involve risks not associated with an investment in ordinary debt securities. See “Risk Factors” beginning on page 5.**

**The Securities and Exchange Commission and state securities regulators have not approved or disapproved these securities, or determined if this document or the accompanying product supplement, index supplement and prospectus is truthful or complete. Any representation to the contrary is a criminal offense. ## Morgan Stanley Finance LLC

Trigger PLUS Based on a Basket Consisting of Three Indices and an Exchange-Traded Fund due January 5, 2024

Trigger Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

### Investment Summary

#### Trigger Performance Leveraged Upside Securities

#### Principal at Risk Securities

The Trigger PLUS Based on a Basket Consisting of Three Indices and an Exchange-Traded Fund due January 5, 2024 (the “Trigger PLUS”) can be used:

- As an alternative to direct exposure to the basket that enhances returns for any positive performance of the basket
- To enhance returns and potentially outperform the basket in a bullish scenario
- To provide limited protection against a loss of principal in the event of a decline in the value of the basket as of the valuation date, but only if the final basket value is greater than or equal to the trigger level

**Maturity:** Approximately 5 years

**Leverage factor:** 164%

**Trigger level:** 60% of the initial basket value

**Minimum payment at maturity:** None. Investors may lose their entire initial investment in the Trigger PLUS.

**Basket component weightings:** 40% for the SPX Index, 20% for the RTY Index, 20% for the SX5E Index and 20% for the EEM Shares

**Interest:** None

The original issue price of each Trigger PLUS is \$1,000. This price includes costs associated with issuing, selling, structuring and hedging the Trigger PLUS, which are borne by you, and, consequently, the estimated value of the Trigger PLUS on the pricing date is less than \$1,000. We estimate that the value of each Trigger PLUS on the pricing date is \$965.50.

*What goes into the estimated value on the pricing date?*

In valuing the Trigger PLUS on the pricing date, we take into account that the Trigger PLUS comprise both a debt component and a performance-based component linked to the basket components. The estimated value of the Trigger PLUS is determined using our own pricing and valuation models, market inputs and assumptions relating to the basket components, instruments based on the basket components, volatility and other factors including current and expected interest rates, as well as an interest rate related to our secondary market credit spread, which is the implied interest rate at which our conventional fixed rate debt trades in the

secondary market.

*What determines the economic terms of the Trigger PLUS?*

In determining the economic terms of the Trigger PLUS, including the leverage factor and the trigger level, we use an internal funding rate, which is likely to be lower than our secondary market credit spreads and therefore advantageous to us. If the issuing, selling, structuring and hedging costs borne by you were lower or if the internal funding rate were higher, one or more of the economic terms of the Trigger PLUS would be more favorable to you.

*What is the relationship between the estimated value on the pricing date and the secondary market price of the Trigger PLUS?*

The price at which MS & Co. purchases the Trigger PLUS in the secondary market, absent changes in market conditions, including those related to the basket components, may vary from, and be lower than, the estimated value on the pricing date, because the secondary market price takes into account our secondary market credit spread as well as the bid-offer spread that MS & Co. would charge in a secondary market transaction of this type and other factors. However, because the costs associated with issuing, selling, structuring and hedging the Trigger PLUS are not fully deducted upon issuance, for a period of up to 6 months following the issue date, to the extent that MS & Co. may buy or sell the Trigger PLUS in the secondary market, absent changes in market conditions, including those related to the basket components, and to our secondary market credit spreads, it would do so based on values higher than the estimated value. We expect that those higher values will also be reflected in your brokerage account statements.

MS & Co. may, but is not obligated to, make a market in the Trigger PLUS and, if it once chooses to make a market, may cease doing so at any time.

## Morgan Stanley Finance LLC

Trigger PLUS Based on a Basket Consisting of Three Indices and an Exchange-Traded Fund due January 5, 2024

Trigger Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

### Key Investment Rationale

The Trigger PLUS offer leveraged exposure to any positive performance of the basket. In exchange for the leverage feature, investors are exposed to the risk of loss of a significant portion or all of their investment due to the trigger feature. At maturity, an investor will receive an amount in cash based upon the value of the basket on the valuation date. The Trigger PLUS are unsecured obligations of ours, and all payments on the Trigger PLUS are subject to our credit risk. **Investors may lose their entire initial investment in the Trigger PLUS.**

#### Leveraged Performance

The Trigger PLUS offer investors an opportunity to capture enhanced returns for any positive performance relative to a direct investment in the basket.

#### Trigger Feature

At maturity, even if the basket has declined in value over the term of the Trigger PLUS, you will receive your stated principal amount, but only if the final basket value is greater than or equal to the trigger level.

#### Upside Scenario

The basket increases in value, and, at maturity, the Trigger PLUS redeem for the stated principal amount of \$1,000 plus 164% of the basket percent increase.

#### Par Scenario

The final basket value is less than or equal to the initial basket value but is greater than or equal to the trigger level. In this case, you receive the stated principal amount of \$1,000 at maturity even though the basket has declined in value.

#### Downside Scenario

The final basket value is less than the trigger level. In this case, the Trigger PLUS redeem for at least 40% less than the stated principal amount, and this decrease will be by an amount proportionate to the decline in the value of the basket over the term of the Trigger PLUS. Under these circumstances, the payment at maturity will be less than 60% of the stated principal amount and could be zero. There is no minimum payment at maturity on the Trigger PLUS, and you could lose your entire investment.

Principal at Risk Securities

## How the Trigger PLUS Work

### Payoff Diagram

The payoff diagram below illustrates the payment at maturity on the Trigger PLUS based on the following terms:

<b>Stated principal amount:</b>	\$1,000 per Trigger PLUS
<b>Leverage factor:</b>	164%
<b>Trigger level:</b>	60% of the initial basket value

### How it works

- Upside Scenario.** If the final basket value is greater than the initial basket value, investors will receive the \$1,000 stated principal amount plus 164% of the appreciation of the basket over the term of the Trigger PLUS.
  - If the basket appreciates 10%, investors will receive a 16.40% return, or \$1,164.00 per Trigger PLUS.
- Par Scenario.** If the final basket value is less than or equal to the initial basket value but is greater than or equal to the trigger level, investors will receive the \$1,000 stated principal amount.
  - If the basket depreciates 10%, investors will receive the \$1,000 stated principal amount.
- Downside Scenario.** If the final basket value is less than the trigger level, investors will receive an amount that is

■ significantly less than the \$1,000 stated principal amount, based on a 1% loss of principal for each 1% decline in the basket value.

- If the basket depreciates 60%, investors will lose 60% of their principal and receive only \$400 per Trigger PLUS at maturity, or 40% of the stated principal amount.

### Risk Factors

The following is a non-exhaustive list of certain key risk factors for investors in the Trigger PLUS. For further discussion of these and other risks, you should read the section entitled "Risk Factors" in the accompanying product supplement for PLUS, index supplement and prospectus. You should also consult with your investment, legal, tax, accounting and other advisers in connection with your investment in the Trigger PLUS.

- **The Trigger PLUS do not pay interest or guarantee return of any principal.** The terms of the Trigger PLUS differ from those of ordinary debt securities in that the Trigger PLUS do not pay interest or guarantee the payment of any of the principal amount at maturity. If the final basket value is less than the trigger level (which is 60% of the initial basket value), the payment at maturity will be an amount in cash that is at least 40% less than the \$1,000 stated principal amount of each Trigger PLUS, and this decrease will be by an amount proportionate to the full amount of the decline in the closing price of the underlying shares over the term of the Trigger PLUS, without any buffer. There is no minimum payment at maturity on the Trigger PLUS and you could lose your entire investment.
- **The market price will be influenced by many unpredictable factors.** Several factors, many of which are beyond our control, will influence the value of the Trigger PLUS in the secondary market and the price at which MS & Co. may be willing to purchase or sell the Trigger PLUS in the secondary market, including: the value, volatility (frequency and magnitude of changes in value) and dividend yield of the basket components, interest and yield rates, time remaining to maturity, geopolitical conditions and economic, financial, political and regulatory or judicial events that affect the basket components or equities markets generally and which may affect the final basket value, and any actual or anticipated changes to our credit ratings or credit spreads. Generally, the longer the time remaining to maturity, the more the market price of the Trigger PLUS will be affected by the other factors described above. The values of the basket components may be, and have recently been, volatile, and we can give you no assurance that the volatility will lessen. See "Basket Overview" below. You may receive less, and possibly significantly less, than the stated principal amount per Trigger PLUS if you try to sell your Trigger PLUS prior to maturity.
- **The Trigger PLUS are subject to our credit risk, and any actual or anticipated changes to our credit ratings or credit spreads may adversely affect the market value of the Trigger PLUS.** You are dependent on our ability to pay all amounts due on the Trigger PLUS at maturity and therefore you are subject to our credit risk. The Trigger PLUS are not guaranteed by any other entity. If we default on our obligations under the Trigger PLUS, your investment would be at risk and you could lose some or all of your investment. As a result, the market value of the Trigger PLUS prior to maturity will be affected by changes in the market's view of our creditworthiness. Any actual or anticipated decline in our credit ratings or increase in the credit spreads charged by the market for taking our credit risk is likely to adversely affect the market value of the Trigger PLUS.
- **As a finance subsidiary, MSFL has no independent operations and will have no independent assets.** As a finance subsidiary, MSFL has no independent operations beyond the issuance and administration of its securities and will have no independent assets available for distributions to holders of MSFL securities if they make claims in respect of such securities in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders will be limited to those available under the related guarantee by Morgan Stanley and that guarantee will rank *pari passu* with all other unsecured, unsubordinated obligations of Morgan Stanley. Holders will have recourse only to a single claim against Morgan Stanley and its assets under the guarantee. Holders of securities issued by MSFL should accordingly assume that in any such proceedings

they would not have any priority over and should be treated *pari passu* with the claims of other unsecured, unsubordinated creditors of Morgan Stanley, including holders of Morgan Stanley-issued securities.

- **The amount payable on the Trigger PLUS is not linked to the value of the basket at any time other than the valuation date.** The final basket value will be based on the basket closing value on the valuation date, subject to postponement for non-index business days and certain market disruption events. Even if the value of the basket appreciates prior to the valuation date but then drops by the valuation date, the payment at maturity will be less, and may be significantly less, than it would have been had the payment at maturity been linked to the value of the basket prior to such drop. Although the actual value of the basket on the stated maturity date or at other times during the term of the Trigger PLUS may be higher than the basket closing value on the valuation date, the payment at maturity will be based solely on the basket closing value on the valuation date.
- **Changes in the value of one or more of the basket components may offset each other.** Value movements in the basket components may not correlate with each other. At a time when one or more basket components increase in value, the values of the other basket components may not increase as much, or may even decline. Therefore, in calculating the basket components' performance on the valuation date, an increase in the value(s) of one or more basket components may be moderated, or wholly offset, by lesser increases or declines in the values of other basket components. Furthermore, the basket components do not have the same basket component weightings. The SPX Index is weighted at 40%, the RTY Index is weighted at 20%, the SX5E Index is weighted at 20% and the EEM Shares are weighted at 20% of the basket. Therefore, the same percentage change over the term of the securities in each of the basket components would have different effects on the basket performance. A decrease in the value of a more heavily weighted basket

January 2019

Page 5

## Morgan Stanley Finance LLC

Trigger PLUS Based on a Basket Consisting of Three Indices and an Exchange-Traded Fund due January 5, 2024

Trigger Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

component could moderate, offset or more than offset an increase in the value of a less heavily weighted basket component. For example, because the weighting of the SPX Index is significantly greater than the weighting of the EEM Shares, a 5% decrease in the value of the SPX Index will more than offset a 9% increase in the value of the EEM Shares, which has a lower weighting.

- **The Trigger PLUS are linked to the Russell 2000<sup>®</sup> Index and are subject to risks associated with small-capitalization companies.** As the Russell 2000<sup>®</sup> Index is one of the basket components, and the Russell 2000<sup>®</sup> Index consists of stocks issued by companies with relatively small market capitalization, the Trigger PLUS are linked to the value of small-capitalization companies. These companies often have greater stock price volatility, lower trading volume and less liquidity than large-capitalization companies and therefore the Russell 2000<sup>®</sup> Index may be more volatile than indices that consist of stocks issued by large-capitalization companies. Stock prices of small-capitalization companies are also more vulnerable than those of large-capitalization companies to adverse business and economic developments, and the stocks of small-capitalization companies may be thinly traded. In addition, small capitalization companies are typically less well-established and less stable financially than large-capitalization companies and may depend on a small number of key personnel, making them more vulnerable to loss of personnel. Such companies tend to have smaller revenues, less diverse product lines, smaller shares of their product or service markets, fewer financial resources and less competitive strengths than large-capitalization companies and are more susceptible to adverse developments related to their products.
- **There are risks associated with investments in securities, such as the Trigger PLUS, linked to the value of foreign (and especially emerging markets) equity securities.** The EURO STOXX 50<sup>®</sup> Index is linked to the value of foreign equity securities and the EEM Shares track the performance of the MSCI Emerging Markets Index<sup>SM</sup> (the "share underlying index"), which is linked to the value of foreign (and especially emerging markets) equity securities. Investments in securities linked to the value of any foreign equity securities involve risks associated with the securities markets in those countries, including risks of volatility in those markets, governmental intervention in those markets and cross-shareholdings in companies in certain countries. Also, there is generally less publicly available information about foreign companies than about U.S. companies that are subject to the reporting requirements of the United States Securities and Exchange Commission, and foreign companies are subject to accounting, auditing and financial reporting standards and requirements different from those applicable to U.S. reporting companies. The prices of securities issued in foreign markets may

be affected by political, economic, financial and social factors in those countries, or global regions, including changes in government, economic and fiscal policies and currency exchange laws. In addition, the stocks included in the share underlying index and that are generally tracked by the EEM Shares have been issued by companies in various emerging markets countries, which pose further risks in addition to the risks associated with investing in foreign equity markets generally. Countries with emerging markets may have relatively unstable governments, may present the risks of nationalization of businesses, restrictions on foreign ownership and prohibitions on the repatriation of assets, and may have less protection of property rights than more developed countries. The economies of countries with emerging markets may be based on only a few industries, may be highly vulnerable to changes in local or global trade conditions, and may suffer from extreme and volatile debt burdens or inflation rates. Local securities markets may trade a small number of securities and may be unable to respond effectively to increases in trading volume, potentially making prompt liquidation of holdings difficult or impossible at times. Moreover, the economies in such countries may differ unfavorably from the economy in the United States in such respects as growth of gross national product, rate of inflation, capital reinvestment, resources, self-sufficiency and balance of payment positions.

- **The prices of the EEM Shares are subject to currency exchange risk.** Because the prices of the EEM Shares are related to the U.S. dollar value of stocks underlying the share underlying index, holders of the Trigger PLUS will be exposed to the currency exchange rate risk with respect to each of the currencies in which such component securities trade. Exchange rate movements for a particular currency are volatile and are the result of numerous factors including the supply of, and the demand for, those currencies, as well as the relevant government policy, intervention or actions, but are also influenced significantly from time to time by political or economic developments, and by macroeconomic factors and speculative actions related to the relevant region. An investor's net exposure will depend on the extent to which the currencies of the component securities strengthen or weaken against the U.S. dollar and the relative weight of each currency. If, taking into account such weighting, the dollar strengthens against the currencies of the component securities represented in the share underlying index, the price of the EEM Shares will be adversely affected and the payment at maturity on the Trigger PLUS may be reduced.

Of particular importance to potential currency exchange risk are:

- existing and expected rates of inflation;
- existing and expected interest rate levels;
- the balance of payments between countries; and
- the extent of governmental surpluses or deficits in the relevant countries and the United States.

## Morgan Stanley Finance LLC

Trigger PLUS Based on a Basket Consisting of Three Indices and an Exchange-Traded Fund due January 5, 2024

Trigger Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

All of these factors are in turn sensitive to the monetary, fiscal and trade policies pursued by the governments of various countries represented in the share underlying index, the United States and other countries important to international trade and finance.

- **Investing in the Trigger PLUS is not equivalent to investing in the basket components.** Investing in the Trigger PLUS is not equivalent to investing directly in the basket components or any of the component stocks of the basket components. As an investor in the Trigger PLUS, you will not have voting rights or rights to receive dividends or other distributions or any other rights with respect to the basket components or any of the component stocks of the basket components.
- **Adjustments to an underlying index could adversely affect the value of the Trigger PLUS.** The publisher of an underlying index may add, delete or substitute the stocks constituting such underlying index or make other methodological changes that could change the value of such underlying index. The publisher of such underlying index may discontinue or suspend calculation or publication of such underlying index at any time. In these circumstances, MS & Co., as the calculation agent, will have the sole discretion to substitute a successor index for such index that is comparable to the discontinued underlying index and is not precluded from considering indices that are calculated and published by the calculation agent or

any of its affiliates. If MS & Co. determines that there is no appropriate successor index for such index, the payment at maturity on the Trigger PLUS will be an amount based on the closing prices at maturity of the securities composing such underlying index at the time of such discontinuance, without rebalancing or substitution, computed by the calculation agent in accordance with the formula for calculating such underlying index last in effect prior to discontinuance of such underlying index.

- **Adjustments to the underlying shares or to the MSCI Emerging Markets Index<sup>SM</sup> could adversely affect the value of the Trigger PLUS.** The investment adviser to the EEM Shares seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the MSCI Emerging Markets Index<sup>SM</sup>. Pursuant to its investment strategy or otherwise, the investment adviser may add, delete or substitute the components of the underlying shares. Any of these actions could adversely affect the price of the underlying shares and, consequently, the value of the Trigger PLUS. In addition, the publisher of the share underlying index is responsible for calculating and maintaining the share underlying index. The index publisher may add, delete or substitute the stocks constituting the share underlying index or make other methodological changes that could change the value of the share underlying index. The index publisher may also discontinue or suspend calculation or publication of a share underlying index at any time. If this discontinuance or suspension occurs following the termination of the underlying shares, the calculation agent will have the sole discretion to substitute a successor index that is comparable to the discontinued share underlying index, and is permitted to consider indices that are calculated and published by the calculation agent or any of its affiliates. Any of these actions could adversely affect the values of the underlying shares and, consequently, the value of the Trigger PLUS.
- **The performance and market price of the underlying shares, particularly during periods of market volatility, may not correlate with the performance of the share underlying index, the performance of the component securities of the share underlying index or the net asset value per share of the underlying shares.** The underlying shares do not fully replicate the share underlying index, and each may hold securities that are different than those included in the share underlying index. In addition, the performance of the underlying shares will reflect additional transaction costs and fees that are not included in the calculation of the share underlying index. All of these factors may lead to a lack of correlation between the performance of the underlying shares and the share underlying index. In addition, corporate actions (such as mergers and spin-offs) with respect to the equity securities underlying the underlying shares may impact the variance between the performance of the underlying shares and the share underlying index. Finally, because the shares of the underlying shares are traded on an exchange and are subject to market supply and investor demand, the market price of one share of the underlying shares may differ from the net asset value per share of the underlying shares.

In particular, during periods of market volatility, or unusual trading activity, trading in the securities underlying the underlying shares may be disrupted or limited, or such securities may be unavailable in the secondary market. Under these circumstances, the liquidity of the underlying shares may be adversely affected, market participants may be unable to calculate accurately the net asset value per share of the underlying shares, and their ability to create and redeem shares of the underlying shares may be disrupted. Under these circumstances, the market price of shares of the underlying shares may vary substantially from the net asset value per share of the underlying shares or the level of the share underlying index.

For all of the foregoing reasons, the performance of the underlying shares may not correlate with the performance of the share underlying index, the performance of the component securities of the share underlying index or the net asset value per share of the underlying shares. Any of these events could materially and adversely affect the prices of the underlying shares and, therefore, the value of the Trigger PLUS. Additionally, if market volatility or these events were to occur on the valuation date, the calculation agent would maintain discretion to determine whether such market volatility or events have caused a market disruption event to occur, and such determination would affect the payment at maturity of the Trigger PLUS. If the calculation agent determines that no market disruption event has taken place, the payment at maturity would

be based solely on the published closing price per share of the underlying shares on the valuation date, even if any of the underlying shares is underperforming the share underlying index or the component securities of the share underlying index and/or trading below the net asset value per share of the underlying shares.

- **The antidilution adjustments the calculation agent is required to make do not cover every event that could affect the underlying shares.** MS & Co., as calculation agent, will adjust the adjustment factor for certain events affecting the underlying shares. However, the calculation agent will not make an adjustment for every event that could affect the underlying shares. If an event occurs that does not require the calculation agent to adjust the adjustment factor, the market price of the Trigger PLUS may be materially and adversely affected.
- **The rate we are willing to pay for securities of this type, maturity and issuance size is likely to be lower than the rate implied by our secondary market credit spreads and advantageous to us. Both the lower rate and the inclusion of costs associated with issuing, selling, structuring and hedging the Trigger PLUS in the original issue price reduce the economic terms of the Trigger PLUS, cause the estimated value of the Trigger PLUS to be less than the original issue price and will adversely affect secondary market prices.** Assuming no change in market conditions or any other relevant factors, the prices, if any, at which dealers, including MS & Co., may be willing to purchase the Trigger PLUS in secondary market transactions will likely be significantly lower than the original issue price, because secondary market prices will exclude the issuing, selling, structuring and hedging-related costs that are included in the original issue price and borne by you and because the secondary market prices will reflect our secondary market credit spreads and the bid-offer spread that any dealer would charge in a secondary market transaction of this type as well as other factors.

The inclusion of the costs of issuing, selling, structuring and hedging the Trigger PLUS in the original issue price and the lower rate we are willing to pay as issuer make the economic terms of the Trigger PLUS less favorable to you than they otherwise would be.

However, because the costs associated with issuing, selling, structuring and hedging the Trigger PLUS are not fully deducted upon issuance, for a period of up to 6 months following the issue date, to the extent that MS & Co. may buy or sell the Trigger PLUS in the secondary market, absent changes in market conditions, including those related to the basket components, and to our secondary market credit spreads, it would do so based on values higher than the estimated value, and we expect that those higher values will also be reflected in your brokerage account statements.

- **The estimated value of the Trigger PLUS is determined by reference to our pricing and valuation models, which may differ from those of other dealers and is not a maximum or minimum secondary market price.** These pricing and valuation models are proprietary and rely in part on subjective views of certain market inputs and certain assumptions about future events, which may prove to be incorrect. As a result, because there is no market-standard way to value these types of securities, our models may yield a higher estimated value of the Trigger PLUS than those generated by others, including other dealers in the market, if they attempted to value the Trigger PLUS. In addition, the estimated value on the pricing date does not represent a minimum or maximum price at which dealers, including MS & Co., would be willing to purchase your Trigger PLUS in the secondary market (if any exists) at any time. The value of your Trigger PLUS at any time after the date of this document will vary based on many factors that cannot be predicted with accuracy, including our creditworthiness and changes in market conditions. See also “The market price will be influenced by many unpredictable factors” above.
- **The Trigger PLUS will not be listed on any securities exchange and secondary trading may be limited.** The Trigger PLUS will not be listed on any securities exchange. Therefore, there may be little or no secondary market for the Trigger PLUS. MS & Co. may, but is not obligated to, make a market in the Trigger PLUS and, if it once chooses to make a market, may cease doing so at any time. When it does make a market, it will generally do so for transactions of routine secondary market size at prices based on its estimate of the current value of the Trigger PLUS, taking into account its bid/offer spread, our credit spreads, market volatility, the notional size of the proposed sale, the cost of unwinding any related hedging positions, the time remaining to maturity and the likelihood that it will be able to resell the Trigger PLUS. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Trigger PLUS easily. Since other broker-dealers may not participate significantly in the secondary market for the Trigger PLUS, the price at which you may be able to trade your Trigger PLUS is likely to depend on the price, if any, at which MS & Co. is willing to transact. If, at any time, MS & Co. were to cease making a market in the Trigger PLUS, it is likely that there would be no secondary market for the Trigger PLUS. Accordingly, you should be willing to hold your Trigger PLUS to maturity.
- **The calculation agent, which is a subsidiary of Morgan Stanley and an affiliate of MSFL, will make determinations with respect to the Trigger PLUS.** As calculation agent, MS & Co. has determined the initial basket component values and the multipliers, will determine the final basket value, including whether the basket has decreased in value to below the trigger level, and will calculate the basket percent increase or the basket performance factor, as applicable, and the amount of cash, if any, you will receive at maturity. Moreover, certain determinations made by MS & Co., in its capacity as calculation agent, may require it to exercise discretion and make subjective judgments, such as with respect to the

Trigger Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

occurrence or non-occurrence of market disruption events and the selection of a successor index or calculation of the basket component closing value in the event of a discontinuance of the relevant basket component. These potentially subjective determinations may adversely affect the payout to you at maturity, if any. For further information regarding these types of determinations, see “Description of PLUS—General Terms of PLUS” —Postponement of Valuation Date(s),” —Alternate Exchange Calculation in case of an Event of Default,” —Discontinuance of Any Underlying Index or Basket Index; Alteration of Method of Calculation,” “—Discontinuance of Any ETF Shares and/or Share Underlying Index; Alteration of Method of Calculation” and “—Calculation Agent and Calculations” in the accompanying product supplement. In addition, MS & Co. has determined the estimated value of the Trigger PLUS on the pricing date.

- **Hedging and trading activity by our affiliates could potentially adversely affect the value of the Trigger PLUS.** One or more of our affiliates and/or third-party dealers have carried out, and will continue to carry out, hedging activities related to the Trigger PLUS (and to other instruments linked to the basket components or component stocks of the underlying indices or share underlying index), including trading in the underlying shares or the stocks that constitute the underlying indices or the share underlying index as well as in other instruments related to the basket components. As a result, these entities may be unwinding or adjusting hedge positions during the term of the Trigger PLUS, and the hedging strategy may involve greater and more frequent adjustments to the hedge as the valuation date approaches. Some of our affiliates also trade the underlying shares or the stocks that constitute the underlying indices or the share underlying index and other financial instruments related to the basket components on a regular basis as part of their general broker-dealer and other businesses. Any of these hedging or trading activities on or prior to the pricing date could have increased the initial basket component values, and, therefore, could have increased the values at or above which the basket components must close on the valuation date so that investors do not suffer a significant loss on their initial investment in the Trigger PLUS. Additionally, such hedging or trading activities during the term of the Trigger PLUS, including on the valuation date, could potentially affect whether the basket closing value on the valuation date is at or below the trigger level, and, therefore, whether an investor would receive significantly less than the stated principal amount of the Trigger PLUS at maturity.
- **The U.S. federal income tax consequences of an investment in the Trigger PLUS are uncertain.** Please read the discussion under “Additional Information—Tax considerations” in this document and the discussion under “United States Federal Taxation” in the accompanying product supplement for PLUS (together, the “Tax Disclosure Sections”) concerning the U.S. federal income tax consequences of an investment in the Trigger PLUS. As discussed in the Tax Disclosure Sections, there is a substantial risk that the “constructive ownership” rule could apply, in which case all or a portion of any long-term capital gain recognized by a U.S. Holder could be recharacterized as ordinary income and an interest charge could be imposed. If the Internal Revenue Service (the “IRS”) were successful in asserting an alternative treatment, the timing and character of income on the Trigger PLUS might differ significantly from the tax treatment described in the Tax Disclosure Sections. For example, under one possible treatment, the IRS could seek to recharacterize the Trigger PLUS as debt instruments. In that event, U.S. Holders would be required to accrue into income original issue discount on the Trigger PLUS every year at a “comparable yield” determined at the time of issuance and recognize all income and gain in respect of the Trigger PLUS as ordinary income. Additionally, as discussed under “United States Federal Taxation—FATCA” in the accompanying product supplement for PLUS, the withholding rules commonly referred to as “FATCA” would apply to the Trigger PLUS if they were recharacterized as debt instruments. The risk that financial instruments providing for buffers, triggers or similar downside protection features, such as the Trigger PLUS, would be recharacterized as debt is greater than the risk of recharacterization for comparable financial instruments that do not have such features. However, recently proposed regulations (the preamble to which specifies that taxpayers are permitted to rely on them pending finalization) eliminate the withholding requirement on payments of gross proceeds of a taxable disposition. We do not plan to request a ruling from the IRS regarding the tax treatment of the Trigger PLUS, and the IRS or a court may not agree with the tax treatment described in the Tax Disclosure Sections.

In 2007, the U.S. Treasury Department and the IRS released a notice requesting comments on the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments. The notice focuses in particular on whether to require holders of these instruments to accrue income over the term of their investment. It also asks for comments on a number of related topics, including the character of income or loss with respect to these instruments; whether short-term instruments should be subject to any such accrual regime; the relevance of factors such as the exchange-traded status of the instruments and the nature of the underlying property to which the instruments are linked; the degree, if any, to which income (including any

mandated accruals) realized by non-U.S. investors should be subject to withholding tax; and whether these instruments are or should be subject to the “constructive ownership” rule, as discussed in this document. While the notice requests comments on appropriate transition rules and effective dates, any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the Trigger PLUS, possibly with retroactive effect. Both U.S. and Non-U.S. Holders should consult their tax advisers regarding the U.S. federal income tax consequences of an investment in the Trigger PLUS, including possible alternative treatments, the potential application of the constructive ownership rule, the issues presented by this notice and any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

Trigger PLUS Based on a Basket Consisting of Three Indices and an Exchange-Traded Fund due January 5, 2024

Trigger Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

### Basket Overview

The basket consists of the S&P 500<sup>®</sup> Index (“SPX Index”), the Russell 2000<sup>®</sup> Index (“RTY Index”), the EURO STOXX 50<sup>®</sup> Index (“SX5E Index”) and shares of the iShares<sup>®</sup> MSCI Emerging Markets ETF (the “EEM Shares”) and offers exposure to price movements in the U.S. and international equity markets.

**S&P 500<sup>®</sup> Index.** The S&P 500<sup>®</sup> Index, which is calculated, maintained and published by S&P Dow Jones Indices LLC (“S&P”), consists of stocks of 500 component companies selected to provide a performance benchmark for the U.S. equity markets. The calculation of the S&P 500<sup>®</sup> Index is based on the relative value of the float adjusted aggregate market capitalization of the 500 component companies as of a particular time as compared to the aggregate average market capitalization of 500 similar companies during the base period of the years 1941 through 1943. For additional information about the S&P 500<sup>®</sup> Index, see the information set forth under “S&P 500<sup>®</sup> Index” in the accompanying index supplement.

“Standard & Poor’s<sup>®</sup>,” “S&P<sup>®</sup>,” “S&P 500<sup>®</sup>,” “Standard & Poor’s 500” and “500” are trademarks of Standard and Poor’s Financial Services LLC. See “S&P 500<sup>®</sup> Index” in the accompanying index supplement.

**Russell 2000<sup>®</sup> Index.** The Russell 2000<sup>®</sup> Index is an index calculated, published and disseminated by FTSE Russell, and measures the composite price performance of stocks of 2,000 companies incorporated in the U.S. and its territories. All 2,000 stocks are traded on a major U.S. exchange and are the 2,000 smallest securities that form the Russell 3000<sup>®</sup> Index. The Russell 3000<sup>®</sup> Index is composed of the 3,000 largest U.S. companies as determined by market capitalization and represents approximately 98% of the U.S. equity market. The Russell 2000<sup>®</sup> Index consists of the smallest 2,000 companies included in the Russell 3000<sup>®</sup> Index and represents a small portion of the total market capitalization of the Russell 3000<sup>®</sup> Index. The Russell 2000<sup>®</sup> Index is designed to track the performance of the small capitalization segment of the U.S. equity market. For additional information about the Russell 2000<sup>®</sup> Index, see the information set forth under “Russell 2000<sup>®</sup> Index” in the accompanying index supplement.

The “Russell 2000<sup>®</sup> Index” is a trademark of FTSE Russell. For more information, see “Russell 2000<sup>®</sup> Index” in the accompanying index supplement.

**EURO STOXX 50<sup>®</sup> Index.** The EURO STOXX 50<sup>®</sup> Index was created by STOXX Limited, which is owned by Deutsche Börse AG and SIX Group AG. Publication of the EURO STOXX 50<sup>®</sup> Index began on February 26, 1998, based on an initial index value of 1,000 at December 31, 1991. The EURO STOXX 50<sup>®</sup> Index is composed of 50 component stocks of market sector leaders from within the STOXX 600 Supersector Indices, which includes stocks selected from the Eurozone. The component stocks have a high degree of liquidity and represent the largest companies across all market sectors. For additional information about the EURO STOXX 50<sup>®</sup> Index, see the information set forth under “EURO STOXX 50<sup>®</sup> Index” in the accompanying index supplement.

“EURO STOXX 50<sup>®</sup>” and “STOXX<sup>®</sup>” are registered trademarks of STOXX Limited. For more information, see “EURO STOXX 50<sup>®</sup> Index” in the accompanying index supplement.

**iShares<sup>®</sup> MSCI Emerging Markets ETF.** The iShares<sup>®</sup> MSCI Emerging Markets ETF is an exchange-traded fund that seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the MSCI Emerging Markets Index<sup>®</sup>. The iShares<sup>®</sup> MSCI Emerging Markets ETF is managed by iShares<sup>®</sup>, Inc. (“iShares”), a registered investment company that consists of numerous separate investment portfolios, including the iShares<sup>®</sup> MSCI Emerging Markets ETF. Information provided to or filed with the Securities and Exchange Commission (the “Commission”) by iShares pursuant to the Securities Act of 1933 and the Investment Company Act of 1940 can be located by reference to Commission file numbers 033-97598 and 811-09102, respectively, through the Commission’s website at [www.sec.gov](http://www.sec.gov). In addition, information may be obtained from other publicly available sources. We make no representation or warranty as to the accuracy or completeness of such information.

**The MSCI Emerging Markets Index<sup>SM</sup>.** The MSCI Emerging Markets Index<sup>SM</sup> is a stock index calculated, published and disseminated daily by MSCI Inc. and is intended to provide performance benchmarks for certain emerging equity markets including Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Pakistan, Peru, Philippines, Poland, Qatar, Russia, South Africa, Taiwan, Thailand, Turkey and United Arab Emirates. The MSCI Emerging Markets Index<sup>SM</sup> is described in “MSCI Emerging Markets Index<sup>SM</sup>” and “MSCI Global Investable Market Indices Methodology” in the accompanying index supplement.

Information as of market close on January 2, 2019:

Basket Component Information as of January 2, 2019					
Basket Component	Bloomberg Ticker Symbol	Current Basket Component Level	52 Weeks Ago	52 Week High	52 Week Low
SPX Index	SPX	2,510.03	2,695.81	(on 9/20/2018): 2,930.75	(on 12/24/2018): 2,351.10
RTY Index	RTY	1,355.906	1,550.011	(on 8/31/2018): 1,740.753	(on 12/24/2018): 1,266.925
SX5E Index	SX5E	2,993.18	3,490.19	(on 1/23/2018): 3,672.29	(on 12/27/2018): 2,937.36
EEM Shares	EEM UP	\$39.16	\$48.01	(on 1/26/2018): \$52.08	(on 10/29/2018): \$38.00

The following graph is calculated as if the basket had an initial value of 100 on January 1, 2014 (assuming that each basket component is weighted as described in "Basket" on the cover page) and illustrates the effect of the offset and/or correlation among the basket components during such period. The graph does not take into account the leverage factor or the trigger level, nor does it attempt to show your expected return on an investment in the Trigger PLUS. The historical performance of the basket should not be taken as an indication of its future performance.

**Basket Historical Performance**  
January 1, 2014 to January 2, 2019

The following graphs set forth the daily closing values and closing prices, as applicable, of each of the basket components for the period from January 1, 2014 through January 2, 2019. The related tables set forth the published high and low closing values and closing prices, as applicable, as well as end-of-quarter closing values and closing prices, for each of the basket components for each quarter in the same period. The closing values and closing prices, as applicable, for each of the basket components on January 2, 2019 were: (i) in the case of the SPX Index, 2,510.03, (ii) in the case of the RTY Index, 1,355.906, (iii) in the case of the SX5E Index, 2,993.18, and (iv) in the case of the EEM Shares, \$39.16. We obtained the information in the tables and graphs

below from Bloomberg Financial Markets, without independent verification. The historical values of the basket components should not be taken as an indication of their future performance, and no assurance can be given as to the basket closing value on the valuation date.

**Trigger Performance Leveraged Upside Securities<sup>SM</sup>**  
Principal at Risk Securities

### Additional Terms of the Trigger PLUS

Please read this information in conjunction with the summary terms on the front cover of this document.

#### Additional Terms:

If the terms described herein are inconsistent with those described in the accompanying product supplement, index supplement or prospectus, the terms described herein shall control.

**Postponement of maturity date:** If the valuation date for any basket component is postponed so that it falls less than two business days prior to the scheduled maturity date, the maturity date will be postponed to the second business day following the last valuation date as postponed.

**Underlying index publishers:** With respect to the SPX Index, S&P Dow Jones Indices LLC, or any successor thereof  
With respect to the RTY Index, FTSE Russell, or any successor thereof  
With respect to the SX5E Index, STOXX Limited, or any successor thereof

**Share underlying index:** The MSCI Emerging Markets Index<sup>SM</sup>

**Share underlying index publisher:** MSCI Inc. or any successor thereof

**Index closing value:** With respect to each of the SPX Index and the SX5E Index, the index closing value on any index business day shall be determined by the calculation agent and shall equal the official closing value of such underlying index, or any successor index as defined under “Discontinuance of Any Underlying Index; Alteration of Method of Calculation” in the accompanying product supplement, published at the regular official weekday close of trading on such index business day by the underlying index publisher for such underlying index, as determined by the calculation agent. In certain circumstances, the index closing value for the SPX Index or the SX5E Index will be based on the alternate calculation of such underlying

index as described under “Discontinuance of Any Underlying Index; Alteration of Method of Calculation” in the accompanying product supplement.

With respect to the RTY Index, the index closing value on any index business day shall be determined by the calculation agent and shall equal the closing value of such underlying index or any successor index reported by Bloomberg Financial Services, or any successor reporting service the calculation agent may select, on such index business day. In certain circumstances, the index closing value for the RTY Index will be based on the alternate calculation of such underlying index as described under “Discontinuance of Any Underlying Index; Alteration of Method of Calculation” in the accompanying product supplement. The closing value of the RTY Index reported by Bloomberg Financial Services may be lower or higher than the official closing value of the RTY Index published by the underlying index publisher for such underlying index.

**Bull market or bear market Trigger PLUS:**

Bull Market Trigger PLUS

**Trustee:**

The Bank of New York Mellon

**Calculation agent:**

MS & Co.

**Issuer notice to registered security holders, the trustee and the depository:**

In the event that the maturity date is postponed due to postponement of the valuation date, the issuer shall give notice of such postponement and, once it has been determined, of the date to which the maturity date has been rescheduled (i) to each registered holder of the Trigger PLUS by mailing notice of such postponement by first class mail, postage prepaid, to such registered holder's last address as it shall appear upon the registry books, (ii) to the trustee by facsimile confirmed by mailing such notice to the trustee by first class mail, postage prepaid, at its New York office and (iii) to The Depository Trust Company (the “depository”) by telephone or facsimile, confirmed by mailing such notice to the depository by first class mail, postage prepaid. Any notice that is mailed to a registered holder of the Trigger PLUS in the manner herein provided shall be conclusively presumed to have been duly given to such registered holder, whether or not such registered holder receives the notice. The issuer shall give such notice as promptly as possible, and in no case later than (i) with respect to notice of postponement of the maturity date, the business day immediately preceding the scheduled maturity date and (ii) with respect to notice of the date to which the maturity date has been rescheduled, the business day immediately following the actual valuation date.

The issuer shall, or shall cause the calculation agent to, (i) provide written notice to the trustee, on which notice the trustee may conclusively rely, and to the depository of the amount of cash, if any, to be delivered with respect to the Trigger PLUS, on or prior to 10:30 a.m. (New York City time) on the business day preceding the maturity date, and (ii) deliver the aggregate cash amount due with respect to the Trigger PLUS, if any, to the trustee for delivery to the depository, as holder of the Trigger PLUS, on the maturity date.

### Additional Information about the Trigger PLUS

**Additional information:**

**Minimum ticketing size:**

\$1,000 / 1 Trigger PLUS

**Tax considerations:**

Although there is uncertainty regarding the U.S. federal income tax consequences of an investment in the Trigger PLUS due to the lack of governing authority, in the opinion of our counsel, Davis Polk & Wardwell LLP, under current law, and based on current market

conditions, a Trigger PLUS should be treated as a single financial contract that is an “open transaction” for U.S. federal income tax purposes.

Assuming this treatment of the Trigger PLUS is respected and subject to the discussion in “United States Federal Taxation” in the accompanying product supplement for PLUS, the following U.S. federal income tax consequences should result based on current law:

- A U.S. Holder should not be required to recognize taxable income over the term of the Trigger PLUS prior to settlement, other than pursuant to a sale or exchange.
- Upon sale, exchange or settlement of the Trigger PLUS, a U.S. Holder should recognize gain or loss equal to the difference between the amount realized and the U.S. Holder’s tax basis in the Trigger PLUS. Subject to the discussion below concerning the potential application of the “constructive ownership” rule, such gain or loss should be long-term capital gain or loss if the investor has held the Trigger PLUS for more than one year, and short-term capital gain or loss otherwise.

Because the Trigger PLUS are linked to shares of an exchange-traded fund, although the matter is not clear, there is a substantial risk that an investment in the Trigger PLUS will be treated as a “constructive ownership transaction” under Section 1260 of the Internal Revenue Code of 1986, as amended (the “Code”). If this treatment applies, all or a portion of any long-term capital gain of the U.S. Holder in respect of the Trigger PLUS could be recharacterized as ordinary income (in which case an interest charge will be imposed). As a result of certain features of the Trigger PLUS, including the leveraged upside payment and the fact that the Trigger PLUS are linked to indices in addition to an exchange-traded fund, it is unclear how to calculate the amount of gain that would be recharacterized if an investment in the Trigger PLUS were treated as a constructive ownership transaction. Due to the lack of governing authority, our counsel is unable to opine as to whether or how Section 1260 of the Code applies to the Trigger PLUS. U.S. investors should read the section entitled “United States Federal Taxation—Tax Consequences to U.S. Holders—Possible Application of Section 1260 of the Code” in the accompanying product supplement for PLUS for additional information and consult their tax advisers regarding the potential application of the “constructive ownership” rule.

In 2007, the U.S. Treasury Department and the Internal Revenue Service (the “IRS”) released a notice requesting comments on the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments. The notice focuses in particular on whether to require holders of these instruments to accrue income over the term of their investment. It also asks for comments on a number of related topics, including the character of income or loss with respect to these instruments; whether short-term instruments should be subject to any such accrual regime; the relevance of factors such as the exchange-traded status of the instruments and the nature of the underlying property to which the instruments are linked; the degree, if any, to which income (including any mandated accruals) realized by non-U.S. investors should be subject to withholding tax; and whether these instruments are or should be subject to the “constructive ownership” rule, as discussed above. While the notice requests comments on appropriate transition rules and effective dates, any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the Trigger PLUS, possibly with retroactive effect.

As discussed in the accompanying product supplement for PLUS, Section 871(m) of the Code and Treasury regulations promulgated thereunder (“Section 871(m)”) generally impose a 30% (or a lower applicable treaty rate) withholding tax on dividend equivalents paid or deemed paid to Non-U.S. Holders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities (each, an “Underlying Security”). Subject to certain exceptions, Section 871(m) generally applies to securities that substantially replicate the economic performance of one or more Underlying Securities, as determined based on tests set forth in the applicable Treasury regulations (a “Specified Security”). However, pursuant to an IRS notice, Section 871(m) will not apply to securities issued before January 1, 2021 that do not have a delta of one with respect to any Underlying Security. Based on our determination that the Trigger PLUS do not have a delta of one with respect to any Underlying Security, our counsel is of the opinion that the Trigger PLUS should not be Specified Securities and, therefore, should not be subject to Section 871(m).

Our determination is not binding on the IRS, and the IRS may disagree with this determination. Section 871(m) is complex and its application may depend on your particular circumstances, including whether you enter into other transactions with respect to an Underlying Security. If withholding is

Trigger Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

required, we will not be required to pay any additional amounts with respect to the amounts so withheld. You should consult your tax adviser regarding the potential application of Section 871(m) to the Trigger PLUS.

**Both U.S. and non-U.S. investors considering an investment in the Trigger PLUS should read the discussion under “Risk Factors” in this document and the discussion under “United States Federal Taxation” in the accompanying product supplement for PLUS and consult their tax advisers regarding all aspects of the U.S. federal income tax consequences of an investment in the Trigger PLUS, including possible alternative treatments, the potential application of the constructive ownership rule, the issues presented by the aforementioned notice and any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.**

**The discussion in the preceding paragraphs under “Tax considerations” and the discussion contained in the section entitled “United States Federal Taxation” in the accompanying product supplement for PLUS, insofar as they purport to describe provisions of U.S. federal income tax laws or legal conclusions with respect thereto, constitute the full opinion of Davis Polk & Wardwell LLP regarding the material U.S. federal tax consequences of an investment in the Trigger PLUS.**

### Use of proceeds and hedging:

The proceeds from the sale of the Trigger PLUS will be used by us for general corporate purposes. We will receive, in aggregate, \$1,000 per Trigger PLUS issued, because, when we enter into hedging transactions in order to meet our obligations under the Trigger PLUS, our hedging counterparty will reimburse the cost of the agent's commissions. The costs of the Trigger PLUS borne by you and described beginning on page 2 above comprise the agent's commissions and the cost of issuing, structuring and hedging the Trigger PLUS.

On or prior to the pricing date, we hedged our anticipated exposure in connection with the Trigger PLUS by entering into hedging transactions with our affiliates and/or third-party dealers. We expect our hedging counterparties to have taken positions in the underlying shares and in futures or options contracts on the basket components or component stocks of the underlying indices or the share underlying index listed on major securities markets. Such purchase activity could have increased the initial basket component values of the basket components, and, therefore, could have increased the values at or above which the basket components must close on the valuation date so that investors do not suffer a significant loss on their initial investment in the Trigger PLUS. In addition, through our affiliates, we are likely to modify our hedge position throughout the term of the Trigger PLUS, including on the valuation date, by purchasing and selling the underlying shares, the stocks constituting the underlying indices or the share underlying index, futures or options contracts on the basket components or component stocks of the underlying indices or the share underlying index listed on major securities markets or positions in any other available securities or instruments that we may wish to use in connection with such hedging activities. As a result, these entities may be unwinding or adjusting hedge positions during the term of the Trigger PLUS, and the hedging strategy may

involve greater and more frequent dynamic adjustments to the hedge as the valuation date approaches. We cannot give any assurance that our hedging activities will not affect the value of the basket component and, therefore, adversely affect the value of the Trigger PLUS or the payment you will receive at maturity, if any. For further information on our use of proceeds and hedging, see "Use of Proceeds and Hedging" in the accompanying product supplement for PLUS.

**Benefit plan investor considerations:**

Each fiduciary of a pension, profit-sharing or other employee benefit plan subject to Title I of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") (a "Plan"), should consider the fiduciary standards of ERISA in the context of the Plan's particular circumstances before authorizing an investment in the Trigger PLUS. Accordingly, among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan.

In addition, we and certain of our affiliates, including MS & Co., may each be considered a "party in interest" within the meaning of ERISA, or a "disqualified person" within the meaning of the Internal Revenue Code of 1986, as amended (the "Code"), with respect to many Plans, as well as many individual retirement accounts and Keogh plans (such accounts and plans, together with other plans, accounts and arrangements subject to Section 4975 of the Code, also "Plans"). ERISA Section 406 and Code Section 4975 generally prohibit transactions between Plans and parties in interest or disqualified persons. Prohibited transactions within the meaning of ERISA or the Code would likely arise, for example, if the Trigger PLUS are acquired by or with the assets of a Plan with respect to which MS & Co. or any of its affiliates is a service provider or other party in interest, unless the Trigger PLUS are acquired pursuant to an exemption from the "prohibited transaction" rules. A violation of these "prohibited transaction" rules could result in an excise tax or other liabilities under ERISA and/or Section 4975 of the Code for those persons, unless exemptive relief is available under an applicable statutory or administrative exemption.

The U.S. Department of Labor has issued five prohibited transaction class exemptions ("PTCEs") that may provide exemptive relief for direct or indirect prohibited transactions resulting from the purchase or holding of the Trigger PLUS. Those class exemptions are PTCE 96-23 (for certain transactions determined by in-house asset managers), PTCE 95-60 (for certain transactions involving insurance

## Morgan Stanley Finance LLC

Trigger PLUS Based on a Basket Consisting of Three Indices and an Exchange-Traded Fund due January 5, 2024

Trigger Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

company general accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 90-1 (for certain transactions involving insurance company separate accounts) and PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers). In addition, ERISA Section 408(b)(17) and Section 4975(d)(20) of the Code provide an exemption for the purchase and sale of securities and the related lending transactions, provided that neither the issuer of the securities nor any of its affiliates has or exercises any discretionary authority or control or renders any investment advice with respect to the assets of the Plan involved in the transaction and provided further that the Plan pays no more, and receives no less, than "adequate consideration" in connection with the transaction (the so-called "service provider" exemption). There can be no assurance that any of these class or statutory exemptions will be available with respect to transactions involving the Trigger PLUS.

Because we may be considered a party in interest with respect to many Plans, the Trigger PLUS may not be purchased, held or disposed of by any Plan, any entity whose underlying assets include "plan assets" by reason of any Plan's investment in the entity (a "Plan Asset Entity") or any person investing "plan assets" of any Plan, unless such purchase, holding or disposition is eligible for exemptive relief, including relief available under PTCEs 96-23, 95-60, 91-38, 90-1,

84-14 or the service provider exemption or such purchase, holding or disposition is otherwise not prohibited. Any purchaser, including any fiduciary purchasing on behalf of a Plan, transferee or holder of the Trigger PLUS will be deemed to have represented, in its corporate and its fiduciary capacity, by its purchase and holding of the Trigger PLUS that either (a) it is not a Plan or a Plan Asset Entity and is not purchasing such Trigger PLUS on behalf of or with "plan assets" of any Plan or with any assets of a governmental, non-U.S. or church plan that is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code ("Similar Law") or (b) its purchase, holding and disposition of these Trigger PLUS will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or violate any Similar Law.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering purchasing the Trigger PLUS on behalf of or with "plan assets" of any Plan consult with their counsel regarding the availability of exemptive relief.

The Trigger PLUS are contractual financial instruments. The financial exposure provided by the Trigger PLUS is not a substitute or proxy for, and is not intended as a substitute or proxy for, individualized investment management or advice for the benefit of any purchaser or holder of the Trigger PLUS. The Trigger PLUS have not been designed and will not be administered in a manner intended to reflect the individualized needs and objectives of any purchaser or holder of the Trigger PLUS.

Each purchaser or holder of any Trigger PLUS acknowledges and agrees that:

- (i) the purchaser or holder or its fiduciary has made and shall make all investment decisions for the purchaser or holder and the purchaser or holder has not relied and shall not rely in any way upon us or our affiliates to act as a fiduciary or adviser of the purchaser or holder with respect to (A) the design and terms of the Trigger PLUS, (B) the purchaser or holder's investment in the Trigger PLUS, or (C) the exercise of or failure to exercise any rights we have under or with respect to the Trigger PLUS;
- (ii) we and our affiliates have acted and will act solely for our own account in connection with (A) all transactions relating to the Trigger PLUS and (B) all hedging transactions in connection with our obligations under the Trigger PLUS;
- (iii) any and all assets and positions relating to hedging transactions by us or our affiliates are assets and positions of those entities and are not assets and positions held for the benefit of the purchaser or holder;
- (iv) our interests are adverse to the interests of the purchaser or holder; and
- (v) neither we nor any of our affiliates is a fiduciary or adviser of the purchaser or holder in connection with any such assets, positions or transactions, and any information that we or any of our affiliates may provide is not intended to be impartial investment advice.

Each purchaser and holder of the Trigger PLUS has exclusive responsibility for ensuring that its purchase, holding and disposition of the Trigger PLUS do not violate the prohibited transaction rules of ERISA or the Code or any Similar Law. The sale of any Trigger PLUS to any Plan or plan subject to Similar Law is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by plans generally or any particular plan, or that such an investment is appropriate for plans generally or any particular plan. In this regard, neither this discussion nor anything provided in this document is or is intended to be investment advice directed at any potential Plan purchaser or at Plan purchasers generally and such purchasers of these Trigger PLUS should consult and rely on their own counsel and advisers as to whether an investment in these Trigger PLUS is suitable.

# Morgan Stanley Finance LLC

Trigger PLUS Based on a Basket Consisting of Three Indices and an Exchange-Traded Fund due January 5, 2024

Trigger Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

However, individual retirement accounts, individual retirement annuities and Keogh plans, as well as employee benefit plans that permit participants to direct the investment of their accounts, will not be permitted to purchase or hold the Trigger PLUS if the account, plan or annuity is for the benefit of an employee of Morgan Stanley or Morgan Stanley Wealth Management or a family member and the employee receives any compensation (such as, for example, an addition to bonus) based on the purchase of the Trigger PLUS by the account, plan or annuity.

**Additional considerations:** Client accounts over which Morgan Stanley, Morgan Stanley Wealth Management or any of their respective subsidiaries have investment discretion are **not** permitted to purchase the Trigger PLUS, either directly or indirectly.

**Supplemental information concerning plan of distribution; conflicts of interest:** Selected dealers, which may include our affiliates, and their financial advisors will collectively receive from the agent a fixed sales commission of \$10 for each Trigger PLUS they sell.

MS & Co. is an affiliate of MSFL and a wholly owned subsidiary of Morgan Stanley, and it and other affiliates of ours expect to make a profit by selling, structuring and, when applicable, hedging the Trigger PLUS.

MS & Co. will conduct this offering in compliance with the requirements of FINRA Rule 5121 of the Financial Industry Regulatory Authority, Inc., which is commonly referred to as FINRA, regarding a FINRA member firm's distribution of the securities of an affiliate and related conflicts of interest. MS & Co. or any of our other affiliates may not make sales in this offering to any discretionary account. See "Plan of Distribution (Conflicts of Interest)" and "Use of Proceeds and Hedging" in the accompanying product supplement for PLUS.

**Validity of the Trigger PLUS:** In the opinion of Davis Polk & Wardwell LLP, as special counsel to MSFL and Morgan Stanley, when the Trigger PLUS offered by this pricing supplement have been executed and issued by MSFL, authenticated by the trustee pursuant to the MSFL Senior Debt Indenture (as defined in the accompanying prospectus) and delivered against payment as contemplated herein, such Trigger PLUS will be valid and binding obligations of MSFL and the related guarantee will be a valid and binding obligation of Morgan Stanley, enforceable in accordance with their terms, subject to applicable bankruptcy, insolvency and similar laws affecting creditors' rights generally, concepts of reasonableness and equitable principles of general applicability (including, without limitation, concepts of good faith, fair dealing and the lack of bad faith), *provided* that such counsel expresses no opinion as to (i) the effect of fraudulent conveyance, fraudulent transfer or similar provision of applicable law on the conclusions expressed above and (ii) any provision of the MSFL Senior Debt Indenture that purports to avoid the effect of fraudulent conveyance, fraudulent transfer or similar provision of applicable law by limiting the amount of Morgan Stanley's obligation under the related guarantee. This opinion is given as of the date hereof and is limited to the laws of the State of New York, the General Corporation Law of the State of Delaware and the Delaware Limited Liability Company Act. In addition, this opinion is subject to customary assumptions about the trustee's authorization, execution and delivery of the MSFL Senior Debt Indenture and its authentication of the Trigger PLUS and the validity, binding nature and enforceability of the MSFL Senior Debt Indenture with respect to the trustee, all as stated in the letter of such counsel dated November 16, 2017, which is Exhibit 5-a to the Registration Statement on Form S-3 filed by Morgan Stanley on November 16, 2017.

**Contact:** Morgan Stanley Wealth Management clients may contact their local Morgan Stanley branch office or our principal executive offices at 1585 Broadway, New York, New York 10036 (telephone number (866) 477-4776). All other clients may contact their local brokerage representative. Third-party distributors may contact Morgan Stanley Structured Investment Sales at (800) 233-1087.

**Where you can find more information:** Morgan Stanley and MSFL have filed a registration statement (including a prospectus, as supplemented by the product supplement for PLUS and the index supplement) with the

Securities and Exchange Commission, or SEC, for the offering to which this communication relates. You should read the prospectus in that registration statement, the product supplement for PLUS, the index supplement and any other documents relating to this offering that Morgan Stanley and MSFL have filed with the SEC for more complete information about Morgan Stanley, MSFL and this offering. You may get these documents without cost by visiting EDGAR on the SEC web site at [www.sec.gov](http://www.sec.gov). Alternatively, Morgan Stanley, MSFL, any underwriter or any dealer participating in the offering will arrange to send you the product supplement for PLUS, index supplement and prospectus if you so request by calling toll-free 800-584-6837.

You may access these documents on the SEC web site at [www.sec.gov](http://www.sec.gov) as follows:
