

Banco de Crédito del Perú

acting through our Panamanian branch

6.125 % FIXED-TO-FLOATING RATE SUBORDINATED NOTES DUE 2027

We, Banco de Crédito del Perú, or BCP, a commercial bank organized and existing under the laws of the Republic of Peru, acting through our Panamanian branch, issued U.S.\$200,000,000 aggregate principal amount of fixed-to-floating rate subordinated notes due 2027, or the new notes. The new notes will mature on April 24, 2027. The new notes bear interest of 6.125% per year to, but excluding, April 24, 2022 and from April 24, 2022 at a floating rate of three-month LIBOR plus 7.043% per year. Interest is payable on April 24 and October 24 of each year, commencing on April 24, 2014 until April 24, 2022, and quarterly on each January 24, April 24, July 24 and October 24 thereafter.

The new notes are issued under the indenture dated April 24, 2012, or the indenture, governing the U.S.\$520 million 6.125% fixed-to-floating rate subordinated notes due 2027 that were originally issued on April 24, 2012 in the aggregate principal amount of U.S.\$350 million with an additional issuance on April 9, 2013 in the aggregate principal amount of U.S.\$170 million, or the existing notes, which, together with the new notes, we refer to as the notes. The new notes have identical terms and conditions as the existing notes, other than the issue date and issue price, and constitute part of the same series as, and vote together as a single class with, the existing notes. The new notes have the same CUSIP, ISIN and Common Code numbers as, and are fungible with, the existing notes (except that any new notes offered and sold in compliance with Regulation S will have temporary CUSIP, ISIN and Common Code numbers during a 40-day distribution compliance period commencing on the date of issuance of the new notes and ending on March 1, 2014. The new notes, together with the existing notes, will be treated as a single series for all purposes under the indenture. Upon completion of this offering, the aggregate principal amount of outstanding notes will be U.S.\$720,000,000.

Payments in respect of the notes will be made without deduction of, withholding for or on account of, taxes imposed by the Republic of Peru, the Republic of Panama or other then-applicable jurisdictions, subject to certain exceptions. See "Description of the Notes—Payment of Additional Amounts." With the prior approval of the Peruvian Superintendencia de Banca, Seguros y AFPs (Superintendency of Banks, Insurance and Private Pension Fund Administrators, or the "SBS"), or other then-applicable Peruvian governmental authority, if then required, we may redeem the notes, in whole, or in part on April 24, 2017 or on any date occurring thereafter until April 24, 2022, by paying the greater of the outstanding principal amount of the notes and the "make whole" amount set forth in this offering memorandum. With the prior approval of the SBS, or other then-applicable Peruvian governmental authority, if then required, we may also redeem the notes, in whole or in part, on April 24, 2022 or on any interest payment date occurring thereafter at a redemption price equal to 100% of the principal amount of the notes on such redemption of the SBS, or other then-applicable Peruvian governmental authority, if then required, we may redeem the notes in whole, but not in part, at a redemption price equal to 101% of the principal amount of the notes on such redemption date in the case of a redemption following a change in tax law, and at a redemption price equal to the "make-whole" amount set forth in this offering memorandum, in the case of a redemption following a regulatory event. See "Description of the Notes—Redemption Prior to Maturity."

The Notes will be our direct, unsecured, subordinated obligations and will rank pari passu without preference among themselves. In the event of our bankruptcy, liquidation or dissolution under Peruvian Banking law, the notes will rank junior in right of payment to the payment of all of our Senior Obligations, pari passu in right of payment with our Parity Securities, and senior in right of payment to our Junior Securities. The terms "Senior Obligations," "Parity Securities" and "Junior Securities" are defined under "Description of the Notes—Certain Definitions." The Notes will be structurally subordinated to the existing and future obligations of our subsidiaries, including trade payables. The notes will not be guaranteed by our parent company or any of our subsidiaries. See "Regulatory Environment—Intervention by the SBS and Liquidation."

For a more detailed description of the notes, see "Description of the Notes" beginning on page 122.

We have applied to list the new notes on the Official List of the Luxembourg Stock Exchange and to trading on the Euro MTF Market. See "Listing and General Information."

Investing in the notes involves risks. See "Risk Factors" beginning on page 16.

Price: 99.828% and accrued interest, if any, from October 24, 2013.

The notes have not been registered under the U.S. Securities Act of 1933, as amended, or the Securities Act, and are being offered only to (1) qualified institutional buyers, or QIBs, under Rule 144A and (2) outside the United States in compliance with Regulation S. Prospective purchasers that are QIBs are hereby notified that the sellers of the notes may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A. Any offer or sale of the notes in any member state of the European Economic Area which has implemented Directive 2003/71/EC (the "Prospectus Directive") must be addressed to qualified investors (as defined in the Prospectus Directive). For more information about restrictions on transfer of the notes, see "Notice to Investors" beginning on page 150 and "Plan of Distribution" beginning on page 145. Application will be made to register the notes with the Foreign Investment and Derivative Instruments Registry (Registro de Instrumentos de Inversión y de Operaciones de Cobertura de Riesgo Extranjeros) of the Peruvian Banks, Insurance and Private Pension Fund Administrators Superintendency (Superintendencia de Banca, Seguros y Administradoras Privadas de Fondos de Pensiones or "SBS") in order to make the notes eligible for investment by private pension funds as required by Peruvian law.

The notes have not been and will not be registered with or approved by the Peruvian Capital Markets Superintendency (Superintendencia del Mercado de Valores or "SMV") or the Lima Stock Exchange (Bolsa de Valores de Lima or "BVL"). The notes have not been and will not be registered in the Republic of Panama. Accordingly, the notes (or beneficial interests therein) cannot be offered or sold in Peru or in Panama, except in compliance with the applicable Peruvian or Panamanian securities laws.

The notes do not have the benefit of bank deposit insurance under the laws of Peru, Panama, the United States or any other jurisdiction.

This offering memorandum is a prospecuts for the purpose of Luxembourg law on Prospectus for Securities of July 10, 2005, as amended.

Citigroup Global Markets, Inc. and J.P. Morgan Securities LLC delivered the notes to purchasers in book-entry form on January 21, 2014.

You should only rely on the information contained in this offering memorandum. We have not authorized anyone to provide you with different information. Neither we nor the initial purchasers are making an offer of the notes in any jurisdiction where the offer is not permitted. You should not assume that the information contained in this offering memorandum is accurate as of any date other than the date on the cover of this offering memorandum regardless of time of delivery or any sale of the notes.

The initial purchasers assume no responsibility for, and make no representation or warranty, express or implied, as to the accuracy or completeness of the information contained in this offering memorandum. Nothing contained in this offering memorandum is or shall be relied upon as, or a promise or representation by the initial purchasers as to the past or future. The initial purchasers accept no responsibility in relation to the information in this offering memorandum or any other information provided by the issuer.

We, having made all reasonable inquiries, confirm that the information contained in this offering memorandum with regard to our company is true and accurate in all material respects, that the opinions and intentions we express in this offering memorandum are honestly held, and that there are no other facts the omission of which would make this offering memorandum as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect. We accept responsibility accordingly.

Unless otherwise indicated or the context otherwise requires, all references in this offering memorandum to "Banco de Crédito del Perú," "BCP," "Bank," "we," "our," "ours," "us" or similar terms refer to Banco de Crédito del Perú and our subsidiaries. References to the "Issuer" refer only to Banco de Crédito del Perú acting through our Panamanian branch, excluding our subsidiaries.

This offering memorandum does not constitute an offer to sell, or a solicitation of an offer to buy, any notes offered hereby by any person in any jurisdiction in which it is unlawful for such person to make such an offer or solicitation. Neither the delivery of this offering memorandum nor any sale made hereunder shall under any circumstances imply that there has been no change in our affairs or the affairs of our subsidiaries or that the information set forth in this offering memorandum is correct as of any date subsequent to the date of this offering memorandum.

This offering memorandum has been prepared by us solely for use in connection with the proposed offering of the notes. We reserve the right to reject any offer to purchase, in whole or in part, for any reason, or to sell less than all of the notes offered by this offering memorandum. Citigroup Global Markets, Inc. and J.P. Morgan Securities LLC will act as initial purchasers with respect to the offering of the notes.

You must (1) comply with all applicable laws and regulations in force in any jurisdiction in connection with the possession or distribution of this offering memorandum and the purchase, offer or sale of the notes, and (2) obtain any required consent, approval or permission for the purchase, offer or sale by you of the notes under the laws and regulations applicable to you in force in any jurisdiction to which you are subject or in which you make such purchases, offers or sales, and neither we nor the initial purchasers or their agents have any responsibility therefor. See "Notice to Investors" and "Plan of Distribution" for information concerning some of the transfer restrictions applicable to the notes.

You acknowledge that:

- you have been afforded an opportunity to request from us, and to review, all additional information
 considered by you to be necessary to verify the accuracy of, or to supplement, the information contained
 in this offering memorandum;
- you have not relied on the initial purchasers or their respective agents or any person affiliated with the initial purchasers or their respective agents in connection with your investigation of the accuracy of such information or your investment decision; and
- no person has been authorized to give any information or to make any representation concerning us or
 the notes other than those as set forth in this offering memorandum. If given or made, any such other
 information or representation should not be relied upon as having been authorized by us, the initial
 purchasers or their agents.

In making an investment decision, you must rely on your own examination of our business and the terms of this offering, including the merits and risks involved. The notes have not been recommended by the Securities and Exchange Commission, or the "SEC," or any state securities commission or any Peruvian, Panamanian or other regulatory authority. Furthermore, these authorities have not confirmed the accuracy or determined the adequacy of this offering memorandum. Any representation to the contrary is a criminal offense.

In connection with this offering, the initial purchasers may over-allot notes or effect transaction with a view to supporting the market price of the notes at a level higher than that which might otherwise prevail. However, there is no assurance that the initial purchasers will undertake stabilization action at all. Any stabilization action may begin on or after the date on which adequate public disclosure of the terms of the offer of the notes is made and, if begun, the initial purchasers may discontinue it at any time, but it must end no later than 30 days after the issuance of the notes.

The notes may not be transferred or resold except as permitted under the Securities Act and related regulations and applicable state securities laws and applicable Peruvian law. In making your purchase, you will be deemed to have made certain acknowledgements, representations and agreements set forth in this offering memorandum under the caption "Notice to Investors." You should be aware that you may be required to bear the financial risks of this investment for an indefinite period of time.

This offering memorandum may only be used for the purpose for which it has been published. Neither the initial purchasers nor any of their agents is making any representation or warranty as to the accuracy or completeness of the information contained in this offering memorandum, and nothing contained in this offering memorandum is, or shall be relied upon as, a promise or representation, whether as to the past or the future. Neither the initial purchasers nor any of their agents has independently verified any of such information and assumes no responsibility for the accuracy or completeness of the information contained in this offering memorandum.

ii

See "Risk Factors," following "Summary," for a description of certain factors relating to an investment in the notes, including information about our business. None of us, the initial purchasers or any of our or their representatives is making any representation to you regarding the legality of an investment by you under applicable legal investment or similar laws. You should consult with your own advisors as to legal, tax, business, financial and related aspects of a purchase of the notes.

The notes are available initially only in book-entry form. The notes offered and sold in the United States to QIBs in reliance upon Rule 144A are represented by beneficial interests in a permanent global note in fully registered form without interest coupons, or the Rule 144A note. The notes offered and sold outside the United States to non-U.S. persons pursuant to Regulation S are represented by beneficial interests in a permanent global note in fully registered form without interest coupons, or the Regulation S note and, together with the Rule 144A note, the global notes). The global notes have been deposited with The Depository Trust Company. Notes shall be issued in minimum denominations of U.S.\$10,000 and integral multiples of U.S.\$1,000 in excess thereof. See "Description of the Notes" for further discussion of these matters.

NOTICE TO NEW HAMPSHIRE RESIDENTS

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENSE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED STATUTES WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY REGISTERED OR A PERSON IS LICENSED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE THAT ANY DOCUMENT FILED UNDER RSA 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSON, SECURITY, OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER, OR CLIENT ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

NOTICE TO RESIDENTS OF PERU

THE NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED WITH OR APPROVED BY THE SMV OR THE BVL. ACCORDINGLY, THE NOTES (OR BENEFICIAL INTERESTS THEREIN) CANNOT BE OFFERED OR SOLD IN PERU, EXCEPT IN COMPLIANCE WITH THE APPLICABLE PERUVIAN SECURITIES LAWS.

THE NOTES ARE EXPECTED TO BE REGISTERED IN THE FOREIGN INVESTMENT AND DERIVATIVE INSTRUMENTS REGISTRY (*REGISTRO DE INSTRUMENTOS DE INVERSIÓN Y DE OPERACIONES DE COBERTURA DE RIESGO EXTRANJEROS*) OF THE SBS IN ORDER TO MAKE THE NOTES ELIGIBLE FOR INVESTMENT BY PERUVIAN PRIVATE PENSION FUNDS AS REQUIRED BY PERUVIAN LAW.

ENFORCEABILITY OF CIVIL LIABILITIES

We are a commercial bank organized and existing under the laws of Peru, and we will issue the notes through our Panamanian branch. Substantially all of our directors and officers reside in Peru, and all or a significant portion of the assets of such persons may be, and substantially all of our assets are, located outside the United States. As a result, it may not be possible for investors to effect service of process upon such persons or entities outside Peru or Panama or to enforce against them in the courts of jurisdictions other than Peru or Panama any judgments obtained in such courts that are predicated upon the laws of such other jurisdictions.

We have been advised by our Peruvian counsel, Payet, Rey, Cauvi, Pérez, Mur, that any final and conclusive judgment for a fixed and definitive sum obtained against us in any foreign court having jurisdiction in respect of any suit, action or proceeding against us for the enforcement of any of our obligations under the notes that are governed by New York law will, upon request, be deemed valid and enforceable in Peru without the local court reopening the case provided that: (a) there is in effect a treaty between the country where said foreign court sits and Peru regarding the recognition and enforcement of foreign judgments or (b) in the absence of such a treaty, the following requirements are met:

- (i) the judgment does not resolve matters under the exclusive jurisdiction of Peruvian courts, and the matters contemplated in respect of this offering memorandum or the notes are not such matters;
- (ii) such court had jurisdiction under its own conflicts of law rules and under general principles of international procedural jurisdiction;
- (iii) we received service of process in accordance with the laws of the place where the proceeding took place, we were granted a reasonable opportunity to appear before such foreign court, and we were guaranteed due process rights;
- (iv) the judgment has the status of *res judicata* as defined in the jurisdiction of the court rendering such judgment;
- (v) no pending litigation in Peru between the same parties for the same dispute was initiated before the commencement of the proceeding that concluded with the foreign judgment;
- (vi) the judgment is not incompatible with another judgment that fulfills the requirements of recognition and enforceability established by Peruvian law unless such foreign judgment was rendered first;
- (vii) the judgment is not contrary to public order or good morals; and
- (viii) it is not proven that such foreign court denies enforcement of Peruvian judgments or engages in a review of the merits thereof.

There is no existing treaty between the United States and Peru for the reciprocal enforcement of foreign judgments. We have been advised by Payet, Rey, Cauvi, Pérez, Mur, our Peruvian counsel, that in the absence of such treaty, the requirements listed above need to be fulfilled for the recognition of a foreign judgment in Peru and that there is no reason to believe that any obligation under the notes, which are governed by New York law, would be contrary to Peruvian public policy and international treaties binding upon Peru or generally accepted principles of international law.

We will issue the notes through our Panamanian branch. There is no existing treaty between the United States and Panama for the reciprocal enforcement of foreign judgments of courts outside Panama, including but not limited to, judgments of United States courts. We have been advised by Arias, Alemán & Mora, our Panamanian counsel, that judgments rendered by foreign courts may only be recognized and enforced by the courts of Panama in the event that the Supreme Court of Panama validates such judgment by the issuance of a writ of exequatur. Subject to a writ of exequatur, any final judgment rendered by any New York Court will be recognized, conclusive and enforceable in the courts of Panama without reconsideration of the merits, provided that:

- (i) such foreign court grants reciprocity to the enforcement of judgments of courts of Panama;
- (ii) the party against which the judgment was rendered, was personally served (service by mail not being sufficient) in such action within such foreign jurisdiction;
- (iii) the judgment arises out of a personal action against the defendant;
- (iv) the obligation in respect of which the judgment was rendered is lawful in Panama and does not contradict the public policy of Panama;

- (v) the judgment is properly authenticated by diplomatic or consular officers of Panama or pursuant to the 1961 Hague Convention on the legalization of documents; and
- (vi) a copy of the final judgment is translated into Spanish by a licensed translator in Panama.

In connection with the issuance of the notes, we will designate National Registered Agents, Inc. as our agent upon whom process may be served in connection with any proceedings in New York.

MARKET AND INDUSTRY INFORMATION

Market data and certain industry forecast data used in this offering memorandum were obtained from internal reports and studies, where appropriate, as well as estimates, market research, publicly available information, including information available from the SBS and industry publications. Market share, deposit and other data obtained from the SBS in the case of the banking operations of Peruvian banks, includes foreign branches and representative offices of Peruvian banks, such as our agency in Miami and our branch in Panama, which has an international banking license. However, the SBS information is presented on an unconsolidated basis and excludes all Peruvian and foreign subsidiaries of Peruvian banks. Therefore, the SBS information as it relates to us excludes the operations of our Bolivian subsidiary, Banco de Crédito de Bolivia, as well as our Peruvian subsidiaries, including Crédito Leasing S.A. (up to June 30, 2009, prior to the merger with BCP), Credicorp Capital S.A. Sociedad Administradora de Fondos, (up to October 31, 2012, prior to the spin off described below), or "Credifondo," Credicorp Capital Sociedad Agente de Bolsa, S.A., (up to October 31, 2012, prior to the spin off described below), or "Credibolsa," Credicorp Capital Sociedad Titulizadora S.A., (up to October 31, 2012, prior to the spin off described below), or "Creditítulos" and Empresa Financiera Edyficar, or "Financiera Edyficar," among others. Credifondo, Credibolsa and Creditítulos were spun-off to Credicorp Capital Perú S.A.A., formerly BCP Capital S.A.A. (of which Credicorp holds 97.67% of its capital stock, directly and through Grupo Crédito S.A.), during the fourth quarter of 2012 and are no longer our subsidiaries. Industry publications generally state that the information they contain has been obtained from sources believed to be reliable, but that the accuracy and completeness of such information are not guaranteed. Similarly, internal reports and studies, estimates and market research, while believed to be reliable and accurately extracted by us for the purposes of this offering memorandum, have not been independently verified. However, we believe such data is accurate and agree that we are responsible for the accurate extraction of such information from such sources and its correct reproduction in this offering memorandum.

CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS

This offering memorandum contains statements that constitute estimates and forward-looking statements, including but not limited to the sections "Summary," "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations." These statements appear in a number of places in this offering memorandum and include statements regarding our intent, belief or current expectations, and those of our officers, with respect to (among other things) our financial condition.

Our estimates and forward-looking statements are based mainly on current expectations and estimates of future events and trends, which affect, or may affect, our business and results of operations. Although we believe that these estimates and forward-looking statements are based upon reasonable assumptions, they are subject to several risks and uncertainties and are based on information currently available to us.

Our estimates and forward-looking statements may be influenced by the following factors, among others:

- changes in the demand from, and the financial condition of, our customers, and competitive conditions in the markets we serve;
- changes in economic, political and business conditions in Peru;
- governmental interventions resulting in changes in the Peruvian economy, taxes, tariffs or regulatory environment;
- our ability to compete successfully;

- changes in our business;
- our ability to successfully implement marketing strategies;
- our identification of business opportunities;
- our ability to develop and introduce new products and services;
- changes in the cost of products and our operating costs;
- our level of indebtedness and other financial obligations;
- our ability to obtain financing on satisfactory terms;
- our ability to attract new customers;
- inflation or deflation in Peru, depreciation or appreciation of the Nuevo Sol against the U.S. dollar and interest rate fluctuations;
- changes in the level of dollarization of the Peruvian economy;
- present or future changes in laws and regulations;
- our ability to maintain existing business relationships, and to create new relationships; and
- other risk factors discussed under the "Risk Factors" in this offering memorandum.

The words "believe," "may," "may have," "would," "estimate," "continues," "anticipates," "intends," "hopes," and similar words are intended to identify estimates and forward-looking statements. Estimates and forward-looking statements refer only to the date when they were made, and we undertake no obligation to update or review any estimate or forward-looking statement due to new information, future events or any other factors. Estimates and forward-looking statements involve risks and uncertainties and do not guarantee future performance, as actual results or developments may be substantially different from the expectations described in the forward-looking statements. In light of the risks and uncertainties described above, the events referred to in the estimates and forward-looking statements included in this offering memorandum may or may not occur, and our business performance and results of operation may differ materially from those expressed in our estimates and forward-looking statements, due to factors that include but are not limited to those mentioned above. Investors are warned not to place undue reliance on any estimates or forward-looking statements in making decisions regarding investment in the notes.

Neither we nor the initial purchasers undertake any obligation to update or revise any estimates or forward-looking statements, whether as a result of new information, future events or otherwise.

PRESENTATION OF FINANCIAL INFORMATION

Our annual consolidated financial statements as of December 31, 2011 and 2012 and for the years ended December 31, 2010, 2011 and 2012 included herein, or the "annual consolidated financial statements," and as of September 30, 2013 and for the nine months ended September 30, 2012 and 2013 included herein, or the "interim consolidated financial statements" (and together with the annual consolidated financial statements, the "financial statements"), have been prepared and presented in accordance with generally accepted accounting principles prescribed by the SBS for financial institutions subject to supervision by the SBS, or "Peruvian GAAP." Peruvian GAAP differs in certain significant respects from International Financial Reporting Standards, or "IFRS," as adopted by the International Accounting Standards Board, or "IASB," and United States generally accepted accounting principles, or "U.S. GAAP." For a description of highlights of certain differences among Peruvian GAAP, IFRS, as adopted by the IASB, and U.S. GAAP, see "Accounting Practices" set forth in Appendix A.

The annual consolidated financial statements have been audited by Medina, Zaldívar, Paredes & Asociados, a member firm of Ernst & Young Global, or "MZP." For additional details, see MZP's report dated November 28, 2013 included in this offering memorandum. The interim consolidated financial statements as of September 30, 2013 have not been audited but have undergone a limited review by MZP in accordance with the International Standard on Review Engagements No. 2410 as specified by the International Federation of Accountants. See the interim consolidated financial statements included in this offering memorandum. Unless otherwise indicated, the financial information presented herein is based upon the financial statements.

Unless otherwise specified, in accordance with Peruvian GAAP, the financial statements and other financial information contained in this offering memorandum are presented in consolidated form. Consolidation principles under both Peruvian GAAP and IFRS, are based upon the concept of control and are substantially similar, requiring consolidation of all controlled entities irrespective of the sector in which they operate. Under Peruvian GAAP and IFRS, an enterprise is required to consolidate special purpose entities, or "SPEs," when the substance of the relationship between them indicates that the enterprise controls the SPE.

Unless otherwise specified or the context otherwise requires, references in the annual consolidated financial statements to "\$," "U.S.\$," "dollars" and "U.S. dollars" are to United States dollars and references to "S/.," "Nuevo Sol" or "Nuevos Soles" are to Peruvian Nuevos Soles.

For the convenience of the reader, this offering memorandum presents translations of certain Nuevo Sol amounts into U.S. dollars at specified rates, or the S/./\$ exchange rate. Any data in U.S. dollars derived from the financial statements have been translated from Nuevos Soles to U.S. dollars as follows:

- data as of and for the period ended December 31, 2012 have been translated from Nuevos Soles into U.S. dollars at a rate of S/.2.550 = U.S.\$1.00 (the December 31, 2012 exchange rate as published by the SBS); and
- data as of and for the period ended September 30, 2013 have been translated from Nuevos Soles into U.S. dollars at a rate of S/.2.782 = U.S.\$1.00 (the September 30, 2013 exchange rate as published by the SBS).

No representation is made that the Nuevo Sol or U.S. dollar amounts in this offering memorandum at any time could have been or could be converted into U.S. dollars or Nuevos Soles, as the case may be, at any particular rate or at all. For a discussion of the effects on us of fluctuating exchange rates, see "Management's Discussion and Analysis of Financial Condition and Results of Operations — Results of Operations for the Nine Months Ended September 30, 2012 and 2013" and "Results of Operations for the Years Ended December 31, 2010, 2011 and 2012."

Certain amounts and percentages included in this offering memorandum have been rounded, and the totals presented in certain tables therefore may not be an arithmetic aggregation of the figures that precede them.

SUMMARY

The following summary should be read in conjunction with, and is qualified in its entirety by, the detailed information and the financial statements and notes thereto appearing elsewhere in this offering memorandum. Prospective investors should review the section entitled "Risk Factors" for a discussion of certain factors that should be considered in connection with an investment in the notes.

BCP

We were established in 1889 in Lima, Peru under the name of Banco Italiano by a group of Italian immigrants. By 1920, we had become, as we are today, the largest commercial bank in Peru, based upon total assets, loans, deposits, shareholders' equity and branch network. We are currently controlled by Credicorp Ltd. (NYSE: BAP), or "Credicorp," which holds directly and through Grupo Crédito S.A., a wholly owned-subsidiary domiciled in Peru, 97.66% of our capital stock. Mr. Dionisio Romero Paoletti, our Chairman and President, is the Chairman and Chief Executive Officer of Credicorp. Members of the Romero family hold 13.27% of Credicorp's common shares as stated in Credicorp's annual report on form 20-F filed with the SEC on April 30, 2013. We are listed and our common shares are traded on the Lima Stock Exchange. As of September 30, 2013, 2.34% of our common stock was publicly held.

We have the leading banking franchise in Peru, including commercial and retail. We acquired Empresa Financiera Edyficar, or "Financiera Edyficar" (microfinance) in October 2009 as part of our strategy of increasing our presence in underbanked segments. As of September 30, 2013, Financiera Edyficar, which specializes in providing financial services to lower-income individuals as well as micro-lending, represented 8.2% of our net income and 3.5% of our total assets. As of September 30, 2013, our subsidiary Banco de Crédito de Bolivia, or "BCB," was the fifth-largest bank in Bolivia in terms of assets and of total deposits, and the fourth-largest based on total loans. BCB represented 3.5% of our net income and 4.6% of our total assets as of September 30, 2013. We also have an agency in Miami and a branch in Panama.

We provide a full range of corporate and retail banking products to our corporate and retail clients through our nationwide distribution network. According to information from the SBS, as of September 30, 2013, and excluding Financiera Edyficar, we had the largest branch and second-largest automated teller machine, or "ATM," network among banks in Peru with 390 branches and agencies, including 257 in Lima and the adjoining city of Callao. We also had 2,039 ATMs and 5,381 BCP Agents, a form of automated teller service, as of September 30, 2013. Additionally, as of September 30, 2013, Financiera Edyficar had 187 branches.

As of September 30, 2013, on an unconsolidated basis and including Financiera Edyficar, we were the largest financial institution in Peru in terms of total assets of S/.92.3 billion (or U.S.\$ 33.2 billion), total net direct loans of S/.55.7 billion (or U.S.\$ 20.0 billion), total deposits of S/.60.0 billion (or U.S.\$ 21.6 billion), and shareholders' equity of S/.7.8 billion (or U.S.\$ 2.8 billion), according to figures published by the SBS. As of September 30, 2013, our direct loans and deposits represented 30.2% and 28.7%, respectively, of the entire Peruvian financial system, according to the SBS. Given our relatively higher concentration on corporate clients, as of September 30, 2013, of our total loans and deposits, 51.1% and 44.7%, respectively, were denominated in U.S. dollars as compared to 41.4% and 39.5%, respectively, for the entire Peruvian financial system. As of September 30, 2013, our unconsolidated capital adequacy ratio was 14.1% (compared to the minimum regulatory capital requirement of 10.0%), and our net income for the nine months ended September 30, 2013 was S/.1.2 billion (or U.S.\$ 437.8 million).

Our extensive retail network, strong reputation and brand recognition allow us to benefit from a diversified and stable deposit base. According to unconsolidated figures published by the SBS (which include Financiera Edyficar), we have one of the highest core-deposit ratios (calculated as demand deposits, savings and severance indemnity deposits to total deposits) in the Peruvian financial system, which as of September 30, 2013, stood at 65.0% compared to the average ratio of the system of 57.7%. We have historically focused on our core lending activities as a major source of income. As of September 30, 2013, our ratios of loans to total assets and loans to total deposits were 61.3% and 91.8%, respectively.

We believe that we have a strong competitive position due to the diversity and size of our customer portfolio, our extensive relationships with prominent corporate clients, our widespread branch network, our low-cost funding structure, our high level of investment in technology and the experience and professionalism of our management.

During the years 2011 and 2012, Credicorp followed a strategy aimed to establishing a subsidiary (that will operate independently from BCP) engaged in financial advisory activities, asset management and investment banking at a regional scale and primarily focused on the Latin American Integrated Market (Mercado Integrado Latinoamericano, or "MILA"). MILA comprises the main stock exchanges of Peru, Chile and Colombia.

For this purpose, during 2012, BCP acquired a majority interest in Correval S.A. Sociedad Comisionista de Bolsa, ("Correval") one of the market leaders in the Colombian brokerage services industry; and Inversiones IM Trust S.A. ("IM Trust"), a Chilean brokerage and financial services company. Both companies have been transferred to a new holding entity, Credicorp Capital Ltd. ("Credicorp Capital") formerly Credicorp Investments, a subsidiary of Credicorp (IM Trust in November 2012 and Correval in June 2013).

Additionally, certain of our former local subsidiaries including Credifondo, Credibolsa, Credititulos and BCP's investment banking division were spun off and acquired by Credicorp Capital Perú S.A.A. ("Credicorp Capital Perú"), formerly BCP Capital S.A.A. Credicorp holds 97.67% of Credicorp Capital's capital stock, directly and through Grupo Crédito S.A. We expect that at the end of this reorganization, Credicorp Capital Peru, IM Trust and Correval will all be subsidiaries of Credicorp Capital. Currently, IM Trust and Correval are already indirect subsidiaries of Credicorp Capital.

Our operations in Peru, including those of Financiera Edyficar, are supervised and regulated by the SBS and the *Banco Central de Reserva del Perú* (the Central Bank, or the "BCRP"). The operations of our Panamanian branch are supervised and regulated by the SBS and the *Superintendencia de Bancos de la República de Panamá* (the Panamanian Superintendency of Banks, or the "PSB") and we hold an international banking license issued by the PSB. Our agency in Miami is regulated by the Federal Reserve System and by the Florida Office of Financial Regulation. In addition, the operations of our subsidiary in Bolivia are regulated by the *Autoridad de Supervisión del Sistema Financiero* (the Supervising Authority of the Financial System, or the "ASFI").

Strategy

Our strategy is to continue:

- diversifying our client base by developing under-banked segments, which include small companies and low-income individuals, through specially tailored loans, such as SME and microfinance loans, and cash management products and services, and by introducing more efficient distribution channels that respond to our clients' needs while maintaining our high-quality standards;
- developing and growing our retail banking business by expanding our distribution network and increasing bank penetration along with a strengthening of credit scoring, collection, distribution, cross selling and commercial intelligence processes;
- improving profitability through productivity enhancement, control of operating costs and more aggressive use of electronic distribution channels;
- maintaining the stability of our net income and further strengthening our balance sheet and our capital structure in order to establish a strong capital base to support future growth; and
- improving our comprehensive approach to risk management, with a focus on assessing credit risk, market risk, operational risk and reputational risk.

We believe we are a leader in the Peruvian financial system, offering innovative financing solutions for the local market. Furthermore, we believe we have been able to deliver cost-competitive products with high levels of service and quality, due to our broad deposit base and our efficient operating cost structure.

We expect to continue, through a combination of organic growth and selective acquisitions, our strategy of expanding our retail banking business, which is characterized by higher margins. This strategy will allow us to continue to grow in segments in which BCP has a below-average market share due to our historic focus on the corporate segment.

We will continue to expand our branch network by establishing new offices in under-banked areas of Lima and Peru in general, where we expect demand for banking services to grow quickly. Excluding Financiera Edyficar and BCB, the number of our branches increased from 330 as of December 31, 2010, to 390 as of September 30, 2013, including our branch in Panama and our agency in Miami, the number of ATMs increased from 1,159 as of December 31, 2010 to 2,039 as of September 30, 2013, and the number of BCP Agents increased from 3,513 as of December 31, 2010 to 5,381 as of September 30, 2013 as reported by the SBS. We intend to continue to focus on serving historically under-banked sectors in the main metropolitan areas of Peru as well as on lending to small and micro-businesses. Our management expects these segments to continue growing at above average rates. Also, we expect our distribution network to further increase efficiencies, resulting in higher profitability.

In the near term, we believe that the financial sector and the availability of credit in Peru will continue to expand. The rebalancing of the loan mix towards products with higher spreads and towards products denominated in Nuevos Soles is expected to offset the anticipated reductions in spreads in the corporate sector and lower spreads in U.S. dollars. As a result, we expect overall interest margins to remain relatively stable. We also expect that declines in fees and commissions due to increased competition and regulation will be offset by higher transaction and loan volumes.

We expect to benefit from positive trends in the Peruvian economy. In retail banking, we expect that the growing Peruvian economy will help produce continued growth in mortgage loans, consumer loans and loans to small companies and micro-businesses loans. Our management believes that Peru's continued economic growth should also be beneficial to middle-market and wholesale banking, which we believe will continue to expand.

THE OFFERING

The following is a brief summary of certain terms of this offering. Some of the terms and conditions described below are subject to important limitations and exceptions. For a more complete description of the terms of the notes, see "Description of the Notes" in this offering memorandum.

| Issuer | Banco de Crédito del Perú, acting through our Panamanian branch. |
|---------------------------|---|
| Notes | 6.125% fixed-to-floating rate subordinated notes due 2027. |
| | The new notes were issued under the indenture governing the existing notes. The new notes have identical terms and conditions as the existing notes, other than the issue date and issue price, and constitute part of the same series as, and vote together as a single class with, the existing notes. The new notes have the same CUSIP, ISIN and Common Code numbers as, and are fungible with, the existing notes (except that any new notes offered and sold in compliance with Regulation S have temporary CUSIP, ISIN and Common Code numbers during a 40-day distribution compliance period commencing on the date of issuance of the new notes). The new notes, together with the existing notes, will be treated as a single series for all purposes under the indenture. The new notes will trade fungibly except for new notes offered and sold in compliance with Regulation S, which will trade fungibly after the 40-day distribution compliance period. Upon completion of this offering, the aggregate principal amount of outstanding notes was U.S.\$720,000,000 million. |
| Maturity | April 24, 2027. |
| Existing Notes Issue Date | April 24, 2012 and April 9, 2013. |
| New Notes Issue Date | January 21, 2014. |
| Interest | The notes bear interest at the rate of 6.125% per annum to, but excluding, April 24, 2022, and from April 24, 2022 at a floating rate of three-month LIBOR plus 7.043% per year. Interest will be payable on April 24 and October 24 of each year, commencing on April 24, 2014 until |

April 24, 2022, and quarterly on each January 24, April 24, July 24 and October 24 thereafter,

| | commencing on July 24, 2022. |
|-------------|--|
| Issue Price | 99.828% of the principal amount, plus accrued interest from and including October 24, 2013 up to but excluding January 21, 2014, in the amount of approximately U.S.\$ 14.80 per U.S.\$ 1,000 principal amount of the notes, or an aggregate amount of U.S.\$ 2,960,416.67. |
| Ranking | The notes are our direct, unsecured subordinated obligations. In the event of our bankruptcy, liquidation, or dissolution under Peruvian law, the notes will rank: |
| | junior in right of payment to all our existing and future Senior Obligations; |
| | • pari passu among themselves; |
| | • at least <i>pari passu</i> with all our Parity Securities; and |
| | senior in right of payment to our Junior Securities. |
| | As of September 30, 2013, the issuer had approximately S/.1,252.4 million (approximately U.S.\$ 450.2 million) in promotional credit lines that are secured by a loan portfolio, S/.100 million (approximately U.S.\$ 35.9 million) in locally issued leasing bonds, S/.1,644.2 million (approximately U.S.\$ 591.0 million) in locally issued corporate bonds, S/.1,157.3 million (approximately U.S.\$ 414.4 million) in syndicated loans, S/.3,370.4 million (approximately U.S.\$ 1,213.1 million) due to banks and correspondents with foreign financial institutions, S/.2,941.9 million (approximately U.S.\$ 1,057.5 million) due to related parties, S/. 5,150.8 million (approximately U.S.\$ 1,851.5 million) in internationally issued corporate bonds, S/. 446.3 million (approximately U.S.\$ 160.4 million) in locally issued subordinated bonds, S/.3,205.5 million (approximately U.S.\$ 1,152.2 million) in internationally issued subordinated bonds, and S/.685.4 million (approximately U.S.\$ 246.4 million) in internationally issued subordinated bonds, and S/.685.4 million) in internationally issued junior subordinated bonds |

Payments on the notes will be subordinated to

the payment of Senior Obligations, which include employee liabilities (such as payroll), bank deposits and other types of saving instruments and taxes, among other types of obligations. The indenture will permit us to incur additional Senior Obligations.

"Senior Obligations" means (a) all claims of our unsubordinated creditors and other claims and obligations that rank senior in right of payment under mandatory provisions of Peruvian law, including all labor claims of our employees, all claims of our depositors and all claims of the Peruvian social security administration (*Seguro Social de Salud*) for healthcare obligations and claims for taxes; and (b) all claims of all of our other creditors, except those whose claims rank, or are expressed to rank, *pari passu* with, or junior to, the claims of holders of Parity Securities.

"Parity Securities" means (i) all securities or other subordinated obligations which qualify as consolidated Tier II Regulatory Capital and (ii) any other securities or obligations which rank (pursuant to mandatory provisions of law or otherwise) or are expressed to rank, *pari passu* with our obligations under the notes.

"Junior Securities" means (i) all hybrid instruments which qualify as consolidated Tier I and Tier II Regulatory Capital, as applicable; (ii) all classes of capital stock and preferred stock and (iii) any other securities or obligations which rank *pari passu* with any class of our capital stock with respect to the payment of dividends and distributions of assets upon liquidation, dissolution or winding up

Make-Whole Redemption....

We may (with the prior approval of the SBS or any other then-applicable Peruvian governmental authority, if then required) redeem the notes, in whole or in part, on April 24, 2017 or on any date occurring thereafter until April 24, 2022, by paying the greater of the outstanding principal amount of the notes and a "make-whole" amount, in each case plus any accrued and unpaid interest on the principal amount of the notes up to, but not including, the date of redemption, plus additional amounts, if any. See "Description of the Notes—Redemption Prior to Maturity—Make-Whole

| | Redemption." |
|--|--|
| Optional Redemption | We may, (with the prior approval of the SBS or any other then-applicable Peruvian governmental authority, if then required) redeem the notes in whole or in part on April 24, 2022 or on any interest payment date occurring thereafter at a redemption price equal to 100% of the principal amount of the notes on such redemption date plus any accrued and unpaid interest on the principal amount of the notes up to, but not including, the date of redemption, and additional amounts, if any. See "Description of the Notes—Redemption Prior to Maturity—Optional Redemption." |
| Optional Redemption for Taxation or Regulatory Reasons | We may (with the prior approval of the SBS or any other then-applicable Peruvian governmental authority, if then required) redeem the notes in whole, but not in part, upon giving not less than 30 nor more than 60 days' notice to the holders of the notes, following the occurrence of certain changes in Peruvian, Panamanian or other then-applicable tax laws or regulations or regulatory events under Peruvian laws, at a redemption price equal to 101% of the principal amount of the notes on such redemption date, in case of redemption following a change in tax law, and at a redemption price equal to a "make-whole" amount, in case of redemption following a Regulatory Event (as defined below), in each case plus any accrued and unpaid interest on the principal amount of the notes up to, but not including, the date of redemption, plus additional amounts, if any. See "Description of the Notes—Redemption Prior to Maturity—Redemption Upon Tax Event or Regulatory Event." |
| Covenants | The indenture governing the notes will contain covenants that, among other things: • limit our ability to consolidate with or merge into any other corporation or |
| | convey or transfer our properties and assets substantially as an entirety to any person; and |
| | require us to furnish to the trustee certain supplementary and periodic information, documents and reports. |

These covenants are subject to a number of

Acceleration Event, Waivers and Rescission

important limitations and exceptions. See "Description of the Notes—Covenants."

If we fail to make payment of principal of or interest or additional amounts, if any, on the notes (and, in the case of payment of interest or additional amounts, such failure to pay continues for 30 days), each holder of the notes has the right to demand and collect under the indenture, and we will pay to the holders of the notes the applicable amount of such due and payable principal, accrued interest and additional amounts, if any on the notes. There is no right of acceleration in the case of a default in any payment on the notes (whether when due upon stated maturity, upon redemption or otherwise) or the performance of any of our other obligations under the indenture or the notes.

Acceleration of any payments due under the notes will occur only if the SBS or any other then-applicable Peruvian Governmental Authority (as defined in "Description of the Notes—Certain Definitions—Governmental Authority"), enters a decree or order for "Intervention" (as defined in "Regulatory Environment—Peruvian Regulation-Intervention by the SBS and Liquidation") or for the appointment of a custodian, conservator, receiver, liquidator, assignee, trustee, sequestrator or other similar official in any liquidation, insolvency or similar proceeding with respect to us or all or substantially all of our property and such decree or order has been communicated by the SBS to us. In the event that we become subject to Intervention, the rate at which interest will accrue on the notes (to the extent the notes have not been used to absorb losses) during the Intervention and liquidation process will be limited to the legal interest rate for Dollar-denominated indebtedness determined by the Central Bank. See "Description of the Notes—Peruvian Bankruptcy Considerations."

Pursuant to the Peruvian Banking Law, as amended, and regulations promulgated thereunder, the SBS may decree that, in the case of an Intervention by the SBS or our liquidation, the principal amount and/or interest on the notes be used to absorb our losses. If the SBS were to do so, any of our losses would be absorbed first by current and retained earnings,

Loss Absorption

donation and premiums on the issuance of shares, and legal and voluntary reserves, then by common and preferred shares, followed by hybrid instruments which qualify as Tier I and Tier II regulatory capital (as applicable) and finally by redeemable subordinated debt which qualifies as Tier II Regulatory Capital, such as the notes.

Pursuant to the Peruvian Banking Law, upon an acceleration event of the notes, the SBS will have the power to interrupt our operations in order to prevent, or to control and reduce the effects of, our failure. Upon Intervention by the SBS and subsequent liquidation, the notes may be used to absorb losses. See "Description of the Notes—Peruvian Bankruptcy Considerations."

Book-Entry; Form and Denomination

The notes will be issued in the form of one or more global notes without coupons, registered in the name of a nominee of The Depository Trust Company ("DTC"), as depositary, for the accounts of its participants including Euroclear Bank S.A./N.V. ("Euroclear"), and Clearstream Banking, *société anonyme*, Luxembourg ("Clearstream"). The notes will be issued in minimum denominations of U.S.\$10,000 and integral multiples of U.S.\$1,000 in excess thereof. The notes will not be issued in definitive form except under certain limited circumstances. See "Description of the Notes—Book-Entry System; Delivery and Form—Certificated Notes."

Use of Proceeds

The net proceeds from the offering will be available for general corporate purposes.

Further Issuances

Subject to the limitations contained in the indenture, we may from time to time, without notice to or consent of the holders of the notes, create and issue an unlimited principal amount of additional notes of the same series as the notes offered hereby; provided, however, that if the additional notes are not fungible with the notes for U.S. federal income taxes, the additional notes will have separate CUSIP and ISIN numbers.

Governing Law; Submission to Jurisdiction.....

The notes are being issued by BCP acting through its Panamanian branch, as redeemable subordinated notes under Article 233 of the Peruvian Banking Law and will be governed by

| | the law of New York. We will submit to the non-exclusive jurisdiction of the United States federal and state courts located in the Borough of Manhattan in The City of New York in respect of any action arising out of or based on the notes. |
|---|--|
| Listing | Application was made to increase the principal amount of notes listed on the Luxembourg Stock Exchange (and admitted to trade on the Euro MTF Market) so as to include the principal amount of the new notes. |
| Peruvian SBS Registration | Application will be made with the Foreign Investment Instruments Registry (<i>Registro de Instrumentos de Inversión Extranjeros</i>) of the SBS, in order to make the notes eligible for investment by Peruvian private pension funds. We cannot assure you, however, that the application will be approved. |
| Trustee, Security Registrar and Paying Agent | The Bank of New York Mellon. |
| Luxembourg Paying Agent, Transfer Agent and Listing Agent | The Bank of New York Mellon (Luxembourg) S.A. |
| Transfer Restrictions; no Registration Rights | The notes have not been registered under the Securities Act and are subject to restrictions on transfer and resale. The notes may only be offered and sold (1) to persons who are QIBs, in reliance on the exemption from the registration requirements of the Securities Act provided by Rule 144A; or (2) to non-U.S. Persons (as defined in Regulation S of the Securities Act) in offshore transactions in reliance on Regulation S under the Securities Act; and (3) in accordance with any applicable law. |
| | We will not be required to, nor do we intend to, register the notes for resale under the Securities Act or to offer to exchange the notes for notes registered under the Securities Act or the securities laws of any jurisdiction. |
| Risk Factors | Investing in the notes involves substantial risks and uncertainties. See "Risk Factors" and other information included in this offering memorandum for a discussion of factors you should carefully consider before deciding to purchase any notes. |

SUMMARY FINANCIAL INFORMATION

The following summary of financial and operating data as of and for each of the three years ended December 31, 2010, 2011 and 2012 have been derived from the annual consolidated financial statements. The summary of financial and operating data as of September 30, 2013 and for the nine months ended September 30, 2012 and 2013 have been derived from the interim consolidated financial statements. The audited consolidated financial statements as of December 31, 2011 and 2012 and for each of the two years ended on December 31, 2011 and 2012, along with MZP's report therein, are included in this offering memorandum. Financial data as of and for the year ended December 31, 2012 has been derived from the annual consolidated financial statements, which includes financial information of Correval (a discontinued operation), as explained under "Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies." If Correval's financial information had been excluded in its entirety from our consolidated financial statements as of and for the year ended December 31, 2012, the reported financial data would not be materially different from that reported. All of the assets and liabilities of Correval were transferred to Credicorp Capital Ltd., a subsidiary of Credicorp, in June 2013. This information should be read in conjunction with the annual consolidated financial statements and the interim consolidated financial statements and the notes thereto as well as the sections entitled "Capitalization," "Selected Financial Information" and "Management's Discussion and Analysis of Financial Condition and Results of Operations." As indicated above, the financial statements have been prepared in accordance with Peruvian GAAP, which differs in certain significant respects from IFRS and U.S. GAAP. For a description of certain significant differences among Peruvian GAAP, IFRS, and U.S. GAAP, see Appendix A.

- (1) Provision for loan losses includes provisions with respect to total direct and indirect loans. While direct loans represent outstanding loans, indirect loans include guarantees and stand-by letters of credit, import and export letters of credit, and amounts due from bank acceptances, which are not included as assets on our consolidated balance sheet.
- (2) Assets classified as held for sale are assets whose carrying amount will be recovered principally through a sale transaction rather than continuing use. Those assets and liabilities are presented in the consolidated balance sheet as "Assets classified as held for sale" and "Liabilities directly associated with those assets" at their book values. Furthermore, in the consolidated statement of income, gains or losses are presented as "Discontinued operations." These items include balances of Correval's operations. See Notes 2(a) and 10 to the annual consolidated financial statements. Correval was transferred to Credicorp Capital Ltd. on June 28, 2013.
- (3) Revenue and net income generated by the split subsidiaries during the period between January 1, 2012 and the date of split (October 31,2012), was approximately S/.86.4 million and S/.40.9 million, respectively. As of December 31, 2011, total assets, liabilities and equity of the split subsidiaries, after elimination adjustments for consolidation purposes were S/.152.1 million, S/.6.4 million and S/.145.7 million respectively. Also, its revenue and net income for the year ended December 31, 2011, amounted to S/.126.7 million and S/.68.1 million, respectively.
- (4) See note 25 to the annual consolidated financial statements.
- (5) Net of deferred interest on discounted notes, plus accrued interest from performing loans, but prior to reserve for loan losses. In addition to direct loans outstanding, we had indirect loans of S/.9.0 billion, S/.10.2 billion and S/.11.7 billion as of December 31, 2010, 2011 and 2012, respectively.
- (6) Reserves for loan losses include reserves with respect to direct loans only.

⁽¹⁾ Operating revenue is the aggregate of gross financial margin after provisions for loan losses, and non-interest income, net.

⁽²⁾ Average interest-earning assets include deposits in the Central Bank, deposits in other banks, interbank funds, investment securities and loans and the sum is calculated based on the average of month-end balances.

⁽³⁾ Average total assets is defined as the simple average between the value of total assets at the end of the period and the value of total assets at the end of the previous corresponding period.

⁽⁴⁾ Average shareholders' equity is defined as the simple average between the value of shareholders' equity at the end of the period and the value of shareholders' equity at the end of the previous corresponding period.

⁽⁵⁾ Includes on and off balance sheet assets on an unconsolidated basis as reported to the SBS.

⁽⁶⁾ Net income as a percentage of average shareholders' equity, computed as the average of month-end balances.

⁽⁷⁾ Net income as a percentage of average total assets, computed as the average of month-end balances.

| (8) | Declared dividends per share divided by net income per share. |
|------|---|
| (9) | Net interest income as a percentage of average interest-earning assets, computed as the average of month-end balances. |
| | Salaries and employee benefits, general and administrative expenses, taxes and contributions, and depreciation and amortization divided by gross financial margin, banking services commissions, net and net gain on foreign exchange transactions. |
| (11) | Fees and commissions from banking services, net, as a percentage of total operating revenue. |
| (12) | Average shareholder's equity divided by average total assets. |
| (13) | Reserve for loan losses includes reserves with respect to direct and indirect loans. |

RISK FACTORS

You should carefully consider the following risk factors, as well as other information set forth in this offering memorandum, prior to making an investment in the notes. The risks described below are not the only ones that we face. Additional risks not presently known to us or that we currently deem immaterial may also have a negative effect on our business operations. In general, investing in the securities of issuers in emerging market countries, such as Peru, involves risks not typically associated with investing in the securities of U.S. companies.

Risk Factors Relating to BCP and our Business

A significant deterioration of our loan portfolio may have an adverse effect on our business, financial condition and results of operations.

Given that a significant percentage of our income is related to lending activities, a significant deterioration of loan quality would have a material adverse effect on our business, financial condition and results of operations. We are subject to concentration default risks in our loan portfolio. Problems with one or more of our largest borrowers may adversely affect our financial condition and results of operations. As of September 30, 2013, the aggregate outstanding principal amount of our 20 largest borrowing relationships represented approximately 13.3% of our total consolidated direct loan portfolio (compared to 12.6 % as of December 31, 2012). While loan portfolio risk associated with lending to certain economic sectors or clients in certain market segments can be mitigated through adequate diversification, our pursuit of opportunities in which we can charge higher interest rates, and thereby increasing revenue, may reduce diversification of the loan portfolio and expose us to greater credit risk.

In addition, loan concentrations in commercial sectors are unavoidable in Peru and significant deteriorations in such sectors may have a material adverse effect on our business, financial condition and results of operations. Our current strategy includes increasing our exposure to market segments with heightened credit risk, including middle-market and consumer segments, such as unsecured small companies and consumer loans and consumer mortgages, which have higher risk profiles as compared to loans to large corporate customers. We follow this by using conservative credit assessments, risk-adjusted pricing methodologies and strong capital support. Given the changing composition of our loan portfolio and possible adverse changes in the environment in which we operate, historical loss experience may not be indicative of future loan loss experience.

We face strong competition from existing and new competitors in our markets, which may put pressure on our margins and reduce our profitability.

We have experienced increased competition, which has put pressure on our margins. Competition comes primarily from highly liquid multinational commercial banks with innovative technology and marketing resources, and from local pension funds that lend to our corporate customers through the capital markets. We have also experienced an increase in competition from financial companies and microfinance entities. In addition, larger Peruvian companies have gained access to new sources of funding, through local and international capital markets, and our traditional and new competitors have increasingly made inroads into the higher-margin middle-market and retail banking sectors. As of September 30, 2013, the Peruvian financial system was composed of 65 financial institutions, including 16 commercial banks, 11 financial companies, 13 municipal and 9 rural savings and loan associations (*cajas*), 10 small-business development non-bank institutions, 2 leasing companies and 4 state-owned institutions (not including the Central Bank): Banco de la Nación, Development Finance Corporation (*Corporación Financiera de Desarrollo* or COFIDE), Fondo Mivivienda S.A. and Banco Agropecuario. As of September 30, 2013, the Peruvian financial sector also included 15 insurance companies and 4 private pension fund administrators.

Increased competition may affect our loan growth and reduce the average interest rates that we charge our customers. Competitors may also direct greater resources and be more successful in the development and/or marketing of technologically advanced products and services that may compete directly with our products and services, adversely affecting the acceptance of our products and/or leading to adverse changes in the spending and saving habits of our customer base. We may not be able to maintain our market share if we are not able to match our competitors' loan pricing or keep pace with their development of new products and services.

Competition, which could adversely affect our market share, is also expected to increase as a result of the entrance of new participants into the Peruvian financial system. These new participants include the Chilean banks Banco Falabella and Banco Ripley in 2007, Banco Azteca, Banco Santander, and Deutsche Bank in 2008. Also, in

2010 Banco Itaú, Banco Latinoamericano de Comercio Exterior – Bladex, Morgan Stanley Bank N.A., and Bank of Tokyo – Mitsubishi UFJ opened representative offices in Peru. Finally, the Industrial and Commercial Bank of China – ICBC and Cencosud Perú were authorized to operate in the Peruvian banking system in 2011 and 2012, respectively and in 2012, GNB Sudameris, a Colombian bank, bought HSBC's operations in Peru, assuming control of the bank in October 2013.

Our allowances for impairment losses may not be adequate to cover the future actual losses to our loan portfolio.

We record allowances for impairment losses on loans and other assets. The amount of allowances we record is based on our current assessment of and expectations concerning various factors affecting the quality of our loan portfolio and follows SBS guidelines. These factors include, among other things, our borrowers' financial condition, repayment abilities and repayment intentions, the realizable value of any collateral, the prospects for support from any guarantor, Peru's economy, government macroeconomic policies, interest rates and the legal and regulatory environment. Many of these factors are beyond our control. In addition, as these factors evolve, the models we use to determine the appropriate level of allowance for impairment losses on loans and other assets require recalibration, which can lead to increased provision expense. We believe our allowance is adequate as of the date hereof for all known losses. If our assessment of and expectations concerning the above mentioned factors differ from actual developments, or if the quality of our loan portfolio deteriorates or the future actual losses exceed our estimates, our allowance for impairment losses may not be adequate to cover actual losses and we may need to make additional provisions for impairment losses, which may materially and adversely affect our results of operations and financial condition.

Our operations are supervised and regulated by the SBS and the Central Bank, which may take actions that could adversely affect our business, financial condition and results of operations.

Our operations are supervised and regulated by the SBS and the Central Bank. The Peruvian Constitution and the Ley General del Sistema Financiero y del Sistema de Seguros y Orgánica de la Superintendencia de Banca y Seguros y AFP, or the "Peruvian Banking Law," grants the SBS the authority to oversee and control banks and other financial institutions. The SBS and the Central Bank have general administrative responsibilities over us, including authority to set loan loss provisions, capitalization and deposit reserve requirements. In past years, and recently, the Central Bank has, on numerous occasions, changed the deposit reserve requirements (encaje) applicable to Peruvian commercial banks and both the rate of interest paid on deposit reserves and the amount of deposit reserves on which no interest is payable by the Central Bank. Also, we could be required to increase our level of provisions in response to pro-cyclical provisioning requirements that could be activated by regulators under certain favorable macroeconomic conditions. The criterion that triggers the pro-cyclical provisions is currently fulfilled; hence the requirements have been satisfied. In August 2011, Daniel Schydlowsky was appointed as the new chairman of the SBS by President Humala. We cannot predict whether the current or any future chairman of the SBS will implement changes in policies or regulations affecting financial institutions such as us. Potential changes in bank supervision and regulation may adversely affect our business, financial condition and results of operations. For a more detailed description of Peruvian banking regulations, see "Regulatory Environment."

Peru has corporate disclosure and accounting standards different from those with which you may be familiar.

Securities disclosure requirements in Peru differ from those in the United States. Accordingly, the information about us, a non-U.S. SEC reporting company, available to you may not be the same as the information available to security holders of a U.S. company or a foreign private issuer that is required to file reports with the SEC in the United States. This is the case despite the fact that our ultimate parent company, Credicorp Ltd., files reports with the SEC.

There are also significant differences between Peruvian and U.S. accounting and financial reporting standards. The annual consolidated financial statements contained herein have been prepared in accordance with Peruvian GAAP and they differ from financial statements prepared in accordance with IFRS, or U.S. GAAP. We have not prepared a quantitative reconciliation of the specific differences among Peruvian GAAP, IFRS, and U.S. GAAP. Accordingly, we cannot assure you that all existing differences have been identified and that the differences described in Appendix A are in fact the most significant differences. In addition, we cannot estimate the net effect that applying IFRS, or U.S. GAAP would have on our consolidated results of operations or consolidated financial position or any component thereof. The effect of such differences may be, individually or in the aggregate, material,

and in particular, as a result of such differences, various items including but not limited to, total shareholders' equity might be materially different if reported under IFRS or U.S. GAAP. Differences in the presentation of the financial statements, as well as differences in the information provided in the footnotes to the financial statements, have not been reported. See "Accounting Practices" set forth in Appendix A for a description of certain significant differences among Peruvian GAAP, IFRS and U.S. GAAP.

We engage in transactions with certain related parties that could result in conflicts of interest.

Certain parties related to us have been involved, directly or indirectly, in credit transactions with us. In accordance with the Peruvian Banking Law, related parties include directors, principal executive officers and holders that own, directly or indirectly, more than 4% of our shares, and companies controlled (for purposes of the Peruvian Banking Law) by any of them. Under the Peruvian Banking Law, all loans to related parties must be made on terms no more favorable than those offered to third parties. The SBS regulates and closely monitors related-party transactions and establishes a limit on aggregate related-party transactions equivalent to 30% of a bank's regulatory capital (on an unconsolidated basis, which includes subsidiaries as related parties). Our related-party exposure, on an unconsolidated basis, equaled 10.8%, 15.0% and 12.1% of our regulatory capital, as of December 31, 2011, December 31, 2012 and September 30, 2013, respectively.

As of September 30, 2013, direct and indirect loans to BCP related parties on a consolidated basis were S/.1.7 billion (U.S.\$ 608.9 million), in the aggregate, including S/.1,237.8 million (U.S.\$ 444.9 million) in outstanding direct loans, which comprised approximately 2.1% of our total loan portfolio, of which 90.5% were classified as Normal (*Normal*), 9.5% as a Potential Problem (*Problema Potencial*), 0.0% as Substandard (*Deficiente*), 0.0% as Doubtful (*Dudoso*) and 0.0% as a Loss (*Pérdida*). See "Regulatory Environment—Loan Loss Reserves." As of September 30, 2013, loans and other credits to our employees on a consolidated basis amounted to S/.736.4 million (U.S.\$ 264.7 million).

We believe we are in compliance with all related-party transaction requirements imposed by the Peruvian Banking Law and the SBS. Although we intend to continue entering into transactions with related parties on terms similar to those that would be offered by or to an unaffiliated third party, such financial transactions create the potential for, or could result in, conflicts of interest. For further information on our transactions with related parties, see "Related Party Transactions."

A depreciation of the Nuevo Sol may adversely affect our business, financial condition and results of operations.

The Peruvian economy is dollarized to a very significant degree and over the past decade the dollar exchange rate has been stable relative to other Latin American countries. As a result, a significant portion of our assets and liabilities and those in the Peruvian financial system are denominated in U.S. dollars. However, a depreciation of the Nuevo Sol could present a risk to us and a systematic risk to the Peruvian financial system. On an unconsolidated basis, 54.5% and 56.8% of our direct loans to clients, including loans made by Financiera Edyficar, were denominated in U.S. dollars, as of December 31, 2012 and 2011, respectively. As of September 30, 2013, 51.1% of our loans to clients were denominated in U.S. dollars and the proportion of U.S. dollar-denominated loans in the Peruvian financial system was 41.4%. If there were to be a depreciation of the Nuevo Sol, it would be more difficult for our clients with income denominated in Nuevos Soles to repay their U.S. dollar-denominated loans (in particular mortgages and other loans of retail customers). An increased credit default by our customers would have a negative effect on our revenues. Depreciation is a systemic risk because, as of December 31, 2012, the Peruvian financial system had 43.2% of its direct loans denominated in U.S. dollars according to the SBS, compared to 44.4% as of December 31, 2011.

On an unconsolidated basis, 43.6% and 47.8% of our deposits, including Financiera Edyficar, were denominated in U.S. dollars, as of December 31, 2012, and 2011, respectively. According to the SBS, as of December 31, 2012, 35.7% of the deposits in the Peruvian financial system were denominated in U.S. dollars, compared to 41.0% as of December 31, 2011. As of September 30, 2013, our U.S. dollar-denominated deposits represented 44.7% of our total balance, compared to 39.5% in the entire Peruvian financial system. The risk from this "dollarization" of deposits derives from the financial system's potential need for U.S. dollars to pay for deposits, which would require the Central Bank to provide U.S. dollars to the banks. In the past, during periods of political turmoil or uncertainty, such as the run-up to presidential elections in 2011, we have experienced temporary shifts in the currency mix of our deposit base from Nuevos Soles or U.S. dollars. However, as of December 31, 2012,

according to the Central Bank, Peruvian reserves were U.S.\$64.0 billion and, according to the SBS, U.S. dollar-denominated deposits in the Peruvian financial system as of December 31, 2012 were U.S.\$25.5 billion. As of September 30, 2013, Peruvian reserves were U.S.\$66.8 billion and U.S. dollar denominated deposits in the Peruvian financial system were U.S.\$29.6 billion.

As of December 31, 2011, December 31, 2012 and September 30, 2013 the difference between our U.S. dollar-denominated assets and U.S. dollar-denominated liabilities (including off-balance sheet positions) was positive. This positive difference reduces our direct exposure to a depreciation of the Nuevo Sol but, at the same time, exposes us to translation losses if the Nuevo Sol appreciates. We cannot assure you that this asset-liability position will be maintained or that a depreciation of the Nuevo Sol will not have a direct or indirect negative effect on us, on our equity and/or on the quality of our assets.

The adoption of new international banking guidelines may result in a higher cost of borrowing or the unavailability of funds from certain sources or the need of additional capital, and have an adverse effect on our business, financial condition and results of operations.

In June 2004, the Basel Committee on Banking Supervision published a report entitled "International Convergence of Capital Measurement and Capital Standards: A Revised Framework," which sets out a new capital adequacy framework (commonly referred to as the Basel II Framework) to replace the Basel Capital Accord issued in 1988. The Basel Committee originally intended for the new framework to be available for implementation in member jurisdictions as of year-end 2006, although implementation of some aspects has been delayed and individual member countries determined their own actual implementation schedules. The Basel Committee members encouraged authorities in other jurisdictions, such as Peru, to consider the readiness of their supervisory structures for the Basel II Framework and recommended that they proceed at their own pace, based on their own priorities.

The Basel II Framework was designed to improve the way regulatory capital requirements reflect underlying risks and to better address the financial innovation that had occurred in previous years. The changes are aimed at rewarding and encouraging continued improvements in risk measurement and control. With regard to risk weightings to be applied to exposures to sovereign states, the Basel II Framework replaces the existing approach with a system that uses external credit assessments for determining risk weightings. External risk assessments also apply, either directly or indirectly and to varying degrees, to the risk weighting of exposures to banks, securities firms and corporations. The implementation of Basel II Framework in other countries could require financial institutions lending to Peruvian banks to be subject to higher capital requirements as a result of the credit risk rating of Peru, possibly resulting in higher borrowing costs for Peruvian banks, such as BCP, or unavailability of funds from these sources.

In Peru, new regulations based on the Basel II Framework were enacted in July 2009 and were implemented in full as of July 1, 2010. See "Regulatory Environment."

In December 2010, the Basel Committee on Banking Supervision announced higher global minimum capital standards for commercial banks. This followed an agreement reached in June 2011 regarding the overall design of the capital and liquidity reform package, now referred to as "Basel III." This new capital framework revises and strengthens the three pillars established by Basel II. The accord is also extended with new capital buffers (including a capital conservation buffer, a countercyclical capital buffer, and a global systemically important banks buffer), a leverage ratio and liquidity requirements.

In July 2011, the SBS issued SBS Resolution No. 8425-2011, establishing the final methodologies and the implementation schedule of the additional capital requirements consistent with certain aspects of Basel III. The new capital requirements, which are aimed at covering risks not contemplated in Pillar I of Basel II, include requirements to cover concentration, interest rate and systemic risk. Additionally, pro-cyclical capital requirements were also established. SBS requires banks to implement these new requirements over a period of five years starting July 2012. As of the date of this offering memorandum, we are fully compliant with these additional capital requirements.

We have begun implementing the Basel III framework and do not expect the adoption of this new framework to have a material effect on our operations. We cannot assure you that our assumptions will turn out to be correct, nor that the adoption of this new framework will not have an adverse effect in our business, financial condition and results of operation. We cannot assure you that when the SBS requires us to fully implement the Basel III

framework, such guidelines will not require us to need additional capital in order to maintain our asset base or will not cause our cost of funds to increase.

Our operations require the maintenance of our banking and other licenses and any noncompliance with our license and reporting obligations could have an adverse effect on our business, financial condition and results of operations.

All banking operations in Peru require licensing by the SBS. We currently have the necessary licenses to conduct all of our banking and other operations in Peru. Although we believe we are currently in compliance with our existing material license and reporting obligations to the SBS and other Peruvian governmental authorities, we cannot assure you that we will be able to maintain the necessary licenses in the future. The loss of a license, a breach of the terms of our licenses or a failure to obtain any further required licenses in the future could have a material adverse effect on our business, financial condition and results of operations.

We rely heavily on our information technology systems to conduct our business and a failure, interruption in or breach of our information technology systems could have an adverse effect on our business, financial condition and results of operations.

We rely heavily on our information technology systems to conduct our business. Any failure, interruption or breach in the security of these systems could result in failures or interruptions in our risk management, general ledger, deposit servicing, loan organization and/or other important systems. If our information technology systems fail, even if for a short period of time, we may be unable to serve some or all of our customers' needs on a timely basis and may lose business as a result. Likewise, a temporary shutdown of our information technology systems could result in additional costs required for information retrieval and verification. In addition, failure to update and develop our existing information technology systems as effectively as our competitors may result in a loss of the competitive advantages that we believe our information technology systems currently provide. Although we have back-up and security systems to mitigate these risks, we cannot assure you that such failures or interruptions will not occur or that we will adequately address them if they do occur. Accordingly, the occurrence of any failures or interruptions could have a material adverse effect on our business, financial condition and results of operations.

Our interest-earning assets and the interest rates we pay on our interest-bearing liabilities could be adversely affected by a volatility in interest rates or exchange rates, which could have an adverse effect on our business, financial condition and results of operations.

The interest rates we earn on our interest-earning assets and the interest rates we pay on our interest-bearing liabilities could be affected differently by changes in domestic and international market interest rates and by exchange rates because the Peruvian economy is highly dollarized. This difference could result in an increase in interest expense relative to interest income, which would reduce our net interest income. See "Business—Risk Management." Furthermore, an increase in interest rates may reduce the demand for our loans and our ability to originate loans. A decrease in the general level of interest rates may affect us through, among other things, increased pre-payments on our loan portfolio and increased competition for deposits. Interest rates are highly sensitive to many factors beyond our control, including monetary policies and domestic and international economic and political conditions.

If we are unable for any reason to re-price our assets and liabilities in an expedited or effective manner or if interest rates rise as a result of economic or other reasons and our assets are not appropriately match-funded, our interest income margins may be affected. While we have implemented several policies to manage interest rate risk exposure, we cannot assure you that such measures would be adequate to address any volatility in market interest rates, which could have a material adverse effect on our business, financial condition and results of operations.

Our trading activities expose us to volatility in market prices, declines in market liquidity or fluctuations in foreign currency exchange rates, which may result in losses that could have a material adverse effect on our business, financial condition and results of operations.

As part of our treasury operations, we trade various financial instruments and other assets, including debt, equity, fixed income, currency and related derivatives as both agent and principal, and we derive a portion of our non-financial income from trading revenues. Our Market Risk Committee and Asset and Liability Committee set position limits for Nuevo Sol- and foreign currency-denominated securities in accordance with our overall risk

management policy as well as the requirements of the SBS. However, we are exposed to numerous factors that are beyond our control, including overall market trading activity, interest rate levels, the credit risk of our counterparties and general market volatility. In addition, a significant portion of our trading activity is related to customer transactions and we may still be exposed to a number of risks related to the movement of market prices in the underlying instruments, including the risk of unfavorable market price movements relative to our long or short positions, a decline in the market liquidity of the related instruments, volatility in market prices, interest rates or foreign currency exchange rates relating to these positions and the risk that the instruments with which we hedge certain positions do not track the market value of those positions. If we incur any losses from these exposures, it would reduce our trading activity revenues or cause us to suffer losses from trading activities, either of which could have a material adverse effect on our business, financial condition and results of operations.

We are susceptible to fraud by employees or outsiders, unauthorized transactions by employees and other operational errors, and the failure of our system of internal controls to discover and rectify such matters could have a material adverse effect on our business, financial condition and results of operations.

As with other financial institutions, we are susceptible to, among other things, fraud by employees or outsiders, unauthorized transactions by employees and other operational errors (including clerical or record keeping errors and errors resulting from faulty computer or telecommunications systems). Given a high volume of transactions that may occur at a financial institution, errors could be repeated or compounded before they are discovered and rectified. In addition, a number of our banking transactions are not fully automated, which may further increase the risk that human error or employee tampering will result in losses that may be difficult to detect quickly or at all. While we believe that we maintain a system of internal controls designed to monitor and control operational risk, we cannot assure you that our system of internal controls will be effective. Losses from the failure of our system of internal controls to discover and rectify such matters could have a material adverse effect on our business, financial condition and results of operations.

Our anti-money laundering and anti-terrorist financing measures might not prevent third parties from using us as a conduit for such activities and could damage our reputation or expose us to fines, sanctions or legal enforcement, which could have a material adverse effect on our business, financial condition and results of operation.

We believe that we are in compliance with applicable anti-money laundering and anti-terrorist financing laws and regulations and have adopted various policies and procedures, including internal controls and "know-your-customer" procedures, aimed at preventing money laundering and terrorist financing. We believe that our anti-money laundering policies and procedures are based upon, and are in compliance in all material respects with, the applicable provisions of Peruvian law. In addition, as we also rely on our correspondent banks having their own appropriate anti-money laundering and anti-terrorist financing procedures, we employ what we believe are commercially reasonable procedures for monitoring our correspondent banks. However, such measures, procedures and compliance may not be completely effective in preventing third parties from using us (and our correspondent banks) as a conduit for money laundering (including illegal cash operations) or terrorist financing without our (and our correspondent banks') knowledge. If we were to be associated with money laundering (including illegal cash operations) or terrorist financing, our reputation could suffer and/or we could become subject to fines, sanctions or legal enforcement (including being added to any "blacklists" that would prohibit certain parties from engaging in transactions with us), which could have an adverse effect on our business, financial condition and results of operation.

Acquisitions and strategic partnerships may not perform as expected, which could have an adverse effect on our business, financial condition and results of operation.

Acquisitions and strategic partnerships may not perform as expected since our assessment could be based on assumptions with respect to operations, profitability and other matters that may subsequently prove to be incorrect. Future acquisitions, investment and alliances may not produce the anticipated synergies or perform in accordance with our expectations, which could have an adverse effect on our business, financial condition and results of operation.

Risk Factors Relating to Peru

Economic, social and political developments in Peru could affect our business, financial condition and results of operations.

The vast majority of our operations is conducted in Peru and is dependent upon the performance of the Peruvian economy. As a result, our business, financial position and results of operations may be affected by the general conditions of the Peruvian economy, price instability, inflation, interest rates, regulation, taxation, social instability, political unrest and other developments in or affecting Peru, over which we have no control.

Our banking and other businesses are significantly dependent upon our customers' ability to make payments on their loans and meet their obligations with us. Declining economic activity in the Peruvian economy, the depreciation of the Nuevo Sol and increases in inflation or domestic interest rates may reduce our customers' ability to repay loans when due or to meet their other debt service requirements, which would increase our past-due loan portfolio and could materially reduce our net earnings and capital levels. In the past, Peru has experienced periods of weak economic activity and deterioration in economic conditions. We cannot assure you that such deterioration will not occur, nor that such a recurrence would not have a material and adverse effect on our business, financial condition or results of operations.

Our financial condition and results of operations may also be adversely affected by changes in Peru's political climate to the extent that such changes affect the nation's economic policies, growth, stability, outlook or regulatory environment. Former President García, like his predecessor Alejandro Toledo, gained the support of the country's business sector by maintaining business-friendly and open-market economic policies that sustained and even fostered economic growth, while controlling the inflation rate at historically low levels.

On July 28, 2011, Ollanta Humala was sworn in as the new president of Peru for a five-year term through 2016, after winning a run-off election. President Humala continued with most of the conservative economic policies, a responsible fiscal policy and autonomous monetary policy of his predecessors. Furthermore, the appointment of cabinet ministers with government experience and public announcements from government officials have dissipated most concerns that Peru's economic policy framework would change drastically during his term. However, we cannot assure you whether the current or any future Peruvian administration will maintain business-friendly and open-market economic policies or policies that stimulate economic growth and social stability. Any changes in the Peruvian economy or the Peruvian government's economic policies may have a negative effect on our business, financial condition and results of operations.

Finally, social demands and conflicts could have an effect on the Peruvian economy. Public protests over the development of certain mining and infrastructure projects, such as the protests in mid-2012 regarding Minas Conga, a mining project in the northern state of Cajamarca, Peru, could result in the cessation of certain projects.

A decline in the prices of certain commodities in the international markets could have a negative impact on our business.

For the nine months ended September 30, 2013, mining, and agricultural and livestock products represented 55.9% and 8.8% of Peru's exports, respectively. Decreases in commodity prices may have a negative impact on government finances, and consequently regional and local governments may lower their spending on social programs that primarily benefit rural communities. This may result in decreased support for the central government, which could manifest itself through political unrest. During recent years, there were several protests in the provinces caused mainly by groups of people that oppose private investments, mining projects in particular. Lower commodity prices could also affect private investment, consumption, and, consequently, the financial system, leading to, for example, lower credit demand, deteriorating asset quality and currency depreciation.

An economic recession could adversely affect our financial condition and results of operations and the value of our securities.

If Peru's economy undergoes a recession, some segments of our retail portfolio, particularly small and medium businesses which are more vulnerable to economic cycles and represent a segment with which we have not experienced a previous recession, could show higher default rates and may adversely affect our ability to fulfill our obligations under the notes. In a scenario of economic recession and higher default rates we would expect less demand for loans from our clients, and we would restrict some of our credit policies, particularly regarding small

and medium businesses, hindering growth of our loan portfolio and affecting our operating results. We cannot assure you that a future recession will not have a negative effect on our results of operation.

The re-implementation of certain laws by the Peruvian government, most notably restrictive exchange rate policies, could have an adverse effect on our business, financial condition and results of operations.

Since 1991, the Peruvian economy has undergone a major transformation from a highly protected and regulated system to a free-market economy. During this period, protectionist and interventionist laws and policies have been gradually dismantled to create a liberal economy dominated by private sector and market forces. The Peruvian economy has, in general, responded well to this transformation, growing at an average annual rate of over 4.8% during the period from 1995 to 2012. Exchange controls and restrictions on remittances of profits, dividends and royalties have ceased. Prior to 1991, Peru exercised control over the foreign exchange markets by imposing multiple exchange rates and placing restrictions on the possession and use of foreign currencies. In 1991, the Fujimori administration eliminated all foreign exchange controls and unified exchange rates. Currently, foreign exchange rates are determined by market conditions, with regular operations by the Central Bank in the foreign exchange market in order to reduce volatility in the value of Peru's currency against the U.S. dollar.

We cannot assure you that the Peruvian government will not institute restrictive exchange rate policies in the future. Any such restrictive exchange rate policy could affect our ability to engage in foreign exchange activities, and could also have a material adverse effect on our business, financial condition and results of operations.

Inflation could adversely affect our financial condition and results of operations.

As a result of reforms begun in the early 1990s, Peruvian inflation has decreased significantly in recent years from triple-digit inflation during the 1980s. Over the five-year period ended on December 31, 2012, the Peruvian economy experienced annual inflation averaging approximately 3.46% per year as measured by the Peruvian Consumer Price Index. This index is calculated by the *Instituto Nacional de Estadística e Informática* (the National Institute of Statistics and Information, or "INEI") and measures variations in prices of a selected group of goods and services typically consumed by Peruvian families. We cannot assure, however, that inflation will remain at these levels.

The Central Bank establishes a target inflation rate for each fiscal year and announces this target rate in order to shape market expectations. The target annual inflation rate since 2007 was lowered to 2.0%, plus or minus 1.0%.

If Peru experiences substantial inflation in the future, our costs may increase, and, if not accompanied by a corresponding increase in interest rates, our operating and net margins may decrease, which may adversely affect our business and results of operations. An effect on our value may also result in a decrease in the value of the notes. Inflationary pressures may also curtail our ability to access foreign financial markets and may lead to further government intervention in the economy, including the introduction of government policies that may adversely affect the overall performance of the Peruvian economy. Our operating results and the value of our issued securities, including the notes, may be adversely affected by higher inflation.

The high level of dollarization of the Peruvian economy hampers monetary policy, which in turn may have an effect on our business.

Dollarization generally refers to the degree to which the U.S. dollar has displaced the Nuevo Sol in the economy. Despite the positive effect that it may have on reducing cross-border transaction costs and preserving purchasing power, the high level of dollarization of the Peruvian economy has also hampered monetary policy by undermining the Central Bank's ability to control the money supply. The high level of dollarization of the economy affects the Peruvian financial system by forcing the Central Bank to establish high levels of reserve requirements in U.S. dollars while also adding a risk to participating banks' balance sheets, including ours. An appreciation of the U.S. dollar poses a risk to us and a systemic risk to the Peruvian financial system because of the high levels of U.S. dollar-denominated assets and liabilities in the Peruvian financial system. This risk comes from the potential imbalance that a bank's clients may experience when borrowing in U.S. dollars and earning in Nuevos Soles. As a result, the SBS has been enacting rules aimed to make banks capable of identifying clients with potential imbalances and establishing reserves if necessary. Additionally, potential imbalances in our U.S. dollar-denominated assets and liabilities could expose us to translation losses.

The Central Bank relies primarily on open market operations (primarily repurchase agreements on Central Bank certificates of deposits and discount-window transactions) to regulate the liquidity in the financial system and promotes an image of the Central Bank as a lender of last resort. Repurchase agreements on Central Bank certificates of deposit are by far the lowest-cost source of funding for local currency. Discount-window transactions are carried out at above-market rates and commissions.

To confront the volatility of short-term capital flows, which in the past have been a destabilizing factor in Peru's monetary system, the Central Bank generally prescribes high foreign currency reserve requirements that discourage significant capital outflows and promote holdings of local currency. Under the Peruvian Banking Law, all financial institutions regulated by the SBS (except for small-business development non-bank institutions) are required to maintain a legal reserve (*encaje*) for certain obligations. The Central Bank may require additional and marginal reserves. The exact level and method of calculation of the reserve requirement is set by the Central Bank, which has issued different sets of regulations for foreign and local currency-denominated obligations of banks. Among others, the following liabilities are subject to the reserve requirement: demand and time deposits, savings accounts, certain bonds and funds administered by the bank and amounts due to foreign banks and other foreign financial companies (in certain circumstances). Subject to certain requirements, the regulation excludes from the reserve requirement mid-term and long-term funding (i.e. liabilities with a minimum average maturity of more than two years and subject to a cap, which is the greater of S/.400 million or 2.2 times the bank's regulatory capital, subject to other conditions) from foreign financial institutions, other central banks, governments or multilateral lending agencies.

In recent months, the Central Bank has increased the Base Rate in more than one occasion. We cannot assure you that the Central Bank will not increase the base rate or will impose additional requirements in the future, or that such changes in the regulatory environment will not have an adverse effect on our business, financial condition or results of operations.

The climatic phenomenon El Niño and other natural phenomena such as earthquakes and floods may adversely affect lending volume and the quality of our loan portfolio to segments of the Peruvian economy that are most likely to be negatively affected.

El Niño is an oceanic and atmospheric phenomenon that causes a warming of temperatures in the Pacific Ocean, resulting in heavy rains off the coast of Peru and Ecuador and various other effects in other parts of the world. The effects of El Niño, which typically occurs every two to seven years around Christmas, include, among other things, flooding and significant declines in fish populations and negative effects on agriculture, and accordingly, can have a negative effect on Peru's economy. In the past, El Niño has adversely impacted our agricultural and fishing loan portfolios, which, as of September 30, 2013, represented 2.2% and 0.7% of our total loan portfolio, respectively. The strongest El Niño events of the 20th and 21st centuries occurred in 1982-1983 and in 1997-1998.

In addition, Peru has experienced other natural phenomena in the past such as earthquakes and floods. Most recently, on August 15, 2007, a strong earthquake, measuring 7.9 on the Richter scale, hit the central coast of Peru, heavily affecting the Ica province in particular. A major earthquake could damage infrastructure necessary to our operations. If such events occur in the future, we may suffer damage to, or destruction of, properties and equipment, as well as temporary disruptions to our services, which may negatively affect our business.

Our clients could also be affected by such natural disasters, which in turn could affect their ability to repay their loans or force them to withdraw their deposits with us.

Market volatility in the international capital markets and political uncertainty may affect the Peruvian capital markets and the Peruvian financial system.

In recent years the performance of the BVL has been affected by volatility in the international capital markets and by political uncertainty surrounding the global economy. The general index of the Lima Stock Exchange, or the "IGBVL," increased by 65.0% in 2010, decreased by 16.7% in 2011 and increased by 5.9% in 2012. In the nine months ended September 30, 2013, the IGBVL decreased by 26.6% as compared to the nine months ended September 30, 2012. In recent years, the BVL has experienced increased participation from retail investors that react rapidly to the effects from international markets. The volatility in the international markets, caused by events such as the recent European debt crisis, may adversely affect the Peruvian financial system as well. The Peruvian financial system has not experienced any significant liquidity problems as a result of the recent international liquidity

environment, primarily because the major source of funds for local banks, including BCP, is represented by the deposit base. However, we cannot assure you that future market volatility will not affect the Peruvian financial system, including BCP, or that such volatility will not have an adverse effect on our business, financial condition or results of operations.

The stability of the Peruvian financial system depends on public confidence in Peruvian banking and financial institutions.

Financial institutions, including us, depend on public confidence in the Peruvian financial system. In the event of adverse developments affecting Peru's economic, political or social conditions or if a bank faces liquidity problems, the general public may withdraw deposits and savings from the troubled bank or from banks generally, thereby precipitating a liquidity crisis, as occurred in Peru in the late 1990s. If depositors withdraw significant holdings from banks generally, including us, there will be a substantial adverse impact on the manner in which financial institutions, including us, conduct their business, on their ability to operate as financial intermediaries and on their financial condition, which would adversely affect our results of operations and financial condition.

The perception of higher risk in other countries, especially in emerging economies, may adversely affect the Peruvian economy, our business and the market price of Peruvian securities issued by Peruvian issuers, including the notes.

Emerging markets like Peru are subject to greater risks than more developed markets, and financial turmoil in any emerging market could disrupt business in Peru and adversely affect the price of the notes. Moreover, financial turmoil in any important emerging market country may adversely affect prices in stock markets and prices for debt securities of issuers in other emerging market countries as investors move their money to more stable, developed markets. An increase in the perceived risks associated with investing in emerging markets could dampen capital flows to Peru and adversely affect the Peruvian economy in general, and the interest of investors in our notes, in particular. We cannot assure you that investors' interest in Peru, and in our notes, will not be negatively affected by events in other emerging markets or the global economy in general.

Deterioration in economic and market conditions in Latin America and other emerging countries could adversely affect our financial condition and results of operations.

The market for securities issued by Peruvian companies is influenced by economic and market conditions in Peru and, to varying degrees, market conditions in other Latin American and emerging market countries. Although economic conditions are different in each country, the reaction of investors to developments in one country is likely to cause the capital markets in other countries to fluctuate. For example, political and economic events, such as the recent crises in Venezuela, Ecuador, Bolivia, Brazil and Argentina, influenced investors' perceptions of risk with regard to Peru. The negative investor reaction to developments in our neighboring countries may adversely affect the market for securities issued by countries in the region, cause foreign investors to decrease the flow of capital into Latin America and introduce uncertainty about plans for further integration of regional economies.

Different disclosure principles in Peru and the United States may provide you with different or less information about us than you expect.

Securities disclosure requirements in Peru differ from those applicable in the United States. Accordingly, the information about us available to you may not be the same as the information available to security holders of a U.S. company. There may be less publicly available information about us than is regularly published about companies in the U.S. and certain other jurisdictions. We are not subject to the periodic reporting requirements of the Exchange Act and, therefore, are not required to comply with the information disclosure requirements that it imposes.

Risk Factors Relating to the Notes

The notes will be unsecured and subordinated and rank junior in payment and in liquidation to all of our existing and future Senior Obligations.

The notes will be unsecured and subordinated and rank junior in payment and in liquidation to all of our existing and future Senior Obligations.

In the event of any distribution to creditors of BCP:

- in a liquidation or dissolution of BCP,
- in a bankruptcy, reorganization, insolvency receivership or similar proceeding relating to BCP or its property,
- in an assignment for the benefit of creditors, or
- in any marshaling of BCP's assets and liabilities,

then the holders of Senior Obligations will be entitled to receive payment in full of all obligations due in respect of Senior Obligations (including interest after the commencement of any bankruptcy proceeding at the rate specified in the applicable Senior Obligations) before the holders of notes will be entitled to receive any payment with respect to the notes.

As a result of the subordination provisions described above, in the event of a bankruptcy, liquidation or reorganization of BCP, holders of notes may recover ratably less than creditors of BCP who are holders of Senior Obligations.

As of September 30, 2013, the issuer had approximately S/.1,252.4 million (approximately U.S.\$ 450.2 million) in promotional credit lines that are secured by a loan portfolio, S/.100 million (approximately U.S.\$ 35.9 million) in locally issued leasing bonds, S/.1,644.2 million (approximately U.S.\$ 591.0 million) in locally issued corporate bonds, S/.1,152.7 million (approximately U.S.\$ 414.4 million) in syndicated loans, S/.3,375.0 million (approximately U.S.\$ 1,213.1 million) due to banks and correspondents with foreign financial institutions, S/.2,941.9 million (approximately U.S.\$ 1,057.5 million) due to related parties, S/. 5,150.8 million (approximately U.S.\$ 1,851.5 million) in internationally issued corporate bonds, S/. 446.3 million (approximately U.S.\$ 160.4 million) in locally issued subordinated bonds, S/.3,205.5 million (approximately U.S.\$ 1,152.2 million) in internationally issued subordinated bonds, and S/.685.4 million (approximately U.S.\$ 246.4 million) in internationally issued junior subordinated bonds.

We may incur, and neither the indenture nor applicable laws prohibit us from incurring, additional indebtedness, including non-subordinated indebtedness, from time to time.

Under applicable SBS regulations, our obligations under the notes can be accelerated only in certain very limited circumstances, and your remedies will accordingly be limited if we do not satisfy our obligations under the notes.

Under SBS regulations governing subordinated debt issued by Peruvian banks, payment of principal may be accelerated only in specified instances involving our bankruptcy, liquidation or dissolution. There is no right of acceleration in the case of a default in the performance of any of our covenants, including a default in the payment of principal or interest. See "Description of the Notes—Acceleration Event" and "—Peruvian Bankruptcy Considerations."

The notes may be used to absorb losses that we incur.

We are issuing the notes with the intention and purpose of increasing the amount of our regulatory capital. In order to be eligible for treatment as Tier II regulatory capital, the notes must satisfy a number of conditions. One such condition relates to the availability of the notes and the proceeds therefrom to absorb losses that we may incur. To that end, the amount outstanding under the notes may be used by the SBS to absorb losses in the case of an intervention by the SBS or the liquidation of BCP, provided that current and retained earnings, donations and premiums on the issuance of shares, voluntary and mandatory reserves, capital stock of BCP and hybrid instruments which qualify as Tier I or Tier II regulatory capital (as applicable) have been exhausted to absorb losses. See "Description of the Notes—Loss Absorption." If the notes are used for this purpose, the noteholders would lose all rights to the amounts absorbed.

When the remaining term to maturity of the notes becomes less than five years, the notes may no longer qualify as regulatory capital in Peru; as a result, we may have an incentive to redeem the notes prior to their final maturity.

Under current Peruvian banking regulations, dated subordinated debt progressively ceases to qualify as regulatory capital when the remaining time to maturity on such debt becomes less than five years. Accordingly, beginning on or about the tenth anniversary of the issuance of the notes, we may have an incentive to redeem them, and consequently your ability to earn returns on your investments in the notes may be terminated prior to their final maturity.

We cannot assure you that an active trading market for the notes will exist.

Although the existing notes are listed on the Euro MTF market of the Luxembourg Stock Exchange and we will apply to increase the principal amount of notes listed on the Euro MTF market of the Luxembourg Stock Exchange so as to include the principal amount of the new notes, we cannot assure you that the application will be accepted and we cannot assure you that an active market for the new notes will develop or that an active market for the notes does or will exist. If an active trading market for the new notes does not develop, the market price and liquidity of the new notes may be adversely affected. If the new notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

We cannot assure you that the credit ratings for the notes will not be lowered, suspended or withdrawn by the rating agencies.

The credit ratings of the notes may change after issuance. Such ratings are limited in scope, and do not address all material risks relating to an investment in the notes, but rather reflect only the views of the rating agencies at the time the ratings are issued. Moreover, a downgrade in a company's rating may result from issues not relating to its capacity to repay indebtedness, as was the case when on February 26, 2013 Moody's downgraded BCP's Subordinated Bonds as a result of a change in its rating methodology that involve the elimination of the systemic support from the rating of those instruments. The measure affected several similar bonds worldwide.

An explanation of the significance of ratings may be obtained from the rating agencies. We cannot assure you that such credit ratings will remain in effect for any given period of time or that such ratings will not be lowered, suspended or withdrawn entirely by the rating agencies, if, in the judgment of such rating agencies, circumstances so warrant. Any lowering, suspension or withdrawal of such ratings may have an adverse effect of the market price and marketability of the notes.

Enforcing your rights as a noteholder in Peru may prove difficult.

Your rights under the notes will be subject to the insolvency and administrative laws applicable to banks in Peru, and we cannot assure that you will be able to effectively enforce your rights in such bankruptcy, insolvency or similar proceedings. In addition, the bankruptcy, insolvency, administrative and other laws applicable to banks in Peru may be materially different from, or in conflict with, each other, including in the areas of rights of creditors, priority of government entities and other third-party and related-party creditors, ability to obtain post-bankruptcy filing loans or to pay interest and the duration of proceedings. The laws of Peru may not be as favorable to your interests as the laws of jurisdictions with which you are familiar. The application of these laws, or any conflict

among them, could call into question what and how Peruvian laws should apply. Such issues may adversely affect your ability to enforce your rights under the notes in Peru or limit any amounts that you may receive.

The notes are subject to restrictions on transfer.

The notes have not been and will not be registered under the Securities Act or any U.S. state securities laws or the laws of any other jurisdiction. You may not offer the notes in the United States except pursuant to an exemption from, or a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws, or pursuant to an effective registration statement. It is your obligation to ensure that your offers and sales of the notes within the United States and other countries comply with applicable securities laws. See "Notice to Investors" and "Plan of Distribution."

The ability of investors to enforce civil liabilities under U.S. securities laws may be limited.

None of our directors or executive officers are residents of the United States. Most of our assets and those of our directors and executive officers are located outside the United States. As a result, it may not be possible for investors in our securities to effect service of process within the United States upon such persons or to enforce in U.S. courts or outside the United States judgments obtained against such persons outside the United States.

We are a commercial bank organized and existing under the laws of Peru. There is no existing treaty between the United States and Peru for the reciprocal enforcement of foreign judgments of courts outside Peru, including judgments of the United States courts. In addition, the notes are issued through our Panamanian branch. There is no existing treaty between the United States and Panama for the reciprocal enforcement of foreign judgments of courts outside Panama, including judgments of the United States courts. It is not clear whether a foreign court would accept jurisdiction and impose civil liability if proceedings were commenced in a foreign jurisdiction predicated solely upon U.S. federal securities laws. See "Enforceability of Civil Liabilities."

USE OF PROCEEDS

We estimate that the net proceeds from this offering will be approximately U.S.\$199.1 million after deducting the initial purchasers' discounts and commissions and the estimated offering expenses payable by us. The net proceeds from the offering will be used for general corporate purposes.

CAPITALIZATION

The following table sets forth our unconsolidated regulatory capital as of September 30, 2013. This information has been derived from the interim consolidated financial statements included elsewhere in this offering memorandum and is based on the company's accounting records published by the SBS.

| | As of September 30, 2013 | | | | |
|--|----------------------------|-------------------------------|----------------------------|-------------------------------|--|
| | Act | ual | As adjusted fo | or the offering | |
| | (Nuevos Soles in millions) | (U.S. dollars in millions)(1) | (Nuevos Soles in millions) | (U.S. dollars in millions)(1) | |

| Capital ratios | | | | | |
| Regulatory capital as a percentage of risk-weighted assets(4)(6) | 14.1% | 14.1% | 14.8% | 14.8% | |
| capital(4)(5) | 7.1x | 7.1x | 6.8x | 6.8x | |

⁽¹⁾ For the convenience of the reader, these figures have been translated into U.S. dollars at S/.2.782 = U.S\$1.00, the September 30, 2013 exchange rate published by the SBS. Such translation should not be construed as a representation that the Nuevo Sol amounts have been converted into U.S. dollars pursuant to the requirements of IFRS, U.S. GAAP or generally accepted accounting principles in any other country.

⁽²⁾ SBS rules allow banks using the standardized method for capital adequacy purposes to include loan loss reserves of up to 1.25% of risk-weighted assets in the calculation of regulatory capital.

⁽³⁾ Risk weighted asset figures adjusted for the offering assume the proceeds from the offering are invested in assets that are 100% risk weighted.

⁽⁴⁾ Regulatory capital as calculated in accordance with guidelines by the BIS II Accord as adopted by the SBS. This ratio is calculated on an unconsolidated basis.

⁽⁵⁾ As part of the implementation of Basel II, this ratio has been progressively lowered from 10.2x effective July 1, 2010 to 10.0x effective July 1, 2011, onwards. For further details see "Regulatory Environment—Implementation of Basel Principles—Capital adequacy."

⁽⁶⁾ As part of the implementation of Basel II, the SBS minimum regulatory capital requirement, expressed as a percentage of risk-weighted assets has been progressively increased from 9.8% effective July 1, 2010, and to 10% effective July 1, 2011 onwards. For further details see "Regulatory Environment—Implementation of Basel Principles—Capital adequacy."

EXCHANGE RATES

Exchange rates for the Nuevo Sol have been relatively stable in recent years. The following table sets forth the period-average and period-end rates for U.S. dollars for the years ended December 31, 2008 through December 31, 2012 and through the date indicated in the table below, based on information published by the SBS. On February 3, 2014 the S/. to U.S.\$ exchange rate was 2.825 to U.S.\$1.00.

| | Low | High | Period Average(1) | Period End |
|--------------------|-------|-------|----------------------|------------|
| Year Ended: | | | | |
| December 31, 2008 | 2.693 | 3.157 | 2.941 | 3.140 |
| December 31, 2009 | 2.852 | 3.259 | 3.006 | 2.890 |
| December 31, 2010 | 2.787 | 2.883 | 2.826 | 2.809 |
| December 31, 2011 | 2.694 | 2.833 | 2.752 | 2.696 |
| December 31, 2012 | 2.550 | 2.709 | 2.634 | 2.550 |
| Month Ended: | | | | |
| July 31, 2013 | 2.756 | 2.792 | 2.777 | 2.792 |
| August 31, 2013 | 2.789 | 2.820 | 2.802 | 2.807 |
| September 30, 2013 | 2.741 | 2.809 | 2.779 | 2.782 |
| October 31, 2013 | 2.756 | 2.787 | 2.769 | 2.769 |
| November 30, 2013 | 2.776 | 2.804 | 2.798 | 2.801 |
| December 31, 2013 | 2.764 | 2.805 | 2.785 | 2.795 |
| January 31, 2014 | 2.799 | 2.824 | 2.810 | 2.822 |

⁽¹⁾ Calculated as the average of the month-end or day-end exchange rates during the relevant period, as applicable.

Source: SBS

Depreciation of the Nuevo Sol in relation to the U.S. dollar would adversely affect our ability to meet our U.S. dollar-denominated obligations, including the notes offered hereby, while appreciation of the Nuevo Sol in relation to the U.S. dollar could adversely affect the ability of some of our clients, mainly exporters, to meet their obligations with us, which could in turn affect our business and results of operations. See "Risk Factors—Risk Factors Relating to BCP and our Business—A depreciation of the Nuevo Sol may adversely affect our business, financial condition and results of operations."

In the past, the Peruvian economy has suffered balance of payment deficits and shortages in foreign exchange reserves. While the Peruvian government does not currently restrict the ability of Peruvian or foreign persons or entities to convert Nuevos Soles to U.S. dollars, it may do so in the future. Any such restrictive exchange control policy could adversely affect our ability to make payments in U.S. dollars, and could also have a material adverse effect on our financial condition and results of operations.

SELECTED FINANCIAL INFORMATION

The following selected financial and operating data as of and for each of the three years ended December 31, 2010, 2011 and 2012 have been derived from the annual consolidated financial statements. The selected financial and operating data as of September 30, 2013 and for the nine months ended September 30, 2012 and 2013 have been derived from the interim consolidated financial statements. The audited consolidated financial statements as of December 31, 2011 and 2012 and for each of the two years ended December 31, 2011 and 2012, along with MZP's report therein, are included in this offering memorandum. Financial data as of and for the year ended December 31, 2012 has been derived from the annual consolidated financial statements, which includes financial information of Correval (a discontinued operation), as explained under "Summary" and "Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies." If Correval's financial information had been excluded in its entirety from our consolidated financial statements as of and for the year ended December 31, 2012, the reported financial data would not be materially different from that reported. All of the assets and liabilities of Correval were transferred to Credicorp Capital Ltd., a subsidiary of Credicorp, in June 2013. This information should be read in conjunction with the annual consolidated financial statements and the interim consolidated financial statements and the notes thereto as well as the sections entitled "Capitalization," "Selected Financial Information" and "Management's Discussion and Analysis of Financial Condition and Results of Operations." As indicated above, the financial statements have been prepared in accordance with Peruvian GAAP, which differs in certain significant respects from IFRS and U.S. GAAP. For a description of certain significant differences among Peruvian GAAP, IFRS, and U.S. GAAP, see Appendix A.

- (1) Provision for loan losses includes provisions with respect to total direct and indirect loans. While direct loans represent outstanding loans, indirect loans include guarantees and stand-by letters of credit, import and export letters of credit, and amounts due from bank acceptances, which are not included as assets on our consolidated balance sheet.
- (2) Assets classified as held for sale are assets whose carrying amount will be recovered principally through a sale transaction rather than continuing use. Those assets and liabilities are presented in the consolidated balance sheet as "Assets classified as held for sale" and "Liabilities directly associated with those assets" at their book values Furthermore, in the consolidated statement of income, gains or losses are presented as "Discontinued operations." These items include balances of Correval's operations. See Notes 2(a) and 10 to the annual consolidated financial statements. Correval was transferred to Credicorp Capital Ltd. on June 28, 2013
- (3) Revenue and net income generated by the split subsidiaries during the period between January 1, 2012 and the date of split (October 31,2012), was approximately S/.86.4 million and S/.40.9 million, respectively. As of December 31, 2011, total assets, liabilities and equity of the split subsidiaries, after elimination adjustments for consolidation purposes were S/.152.1 million, S/.6.4 million and S/.145.7 million respectively. Also, its revenue and net income for the year ended December 31, 2011, amounted to S/.126.7 million and S/.68.1 million, respectively.
- (4) See note 25 to the annual consolidated financial statements.
- (5) Net of deferred interest on discounted notes, plus accrued interest from performing loans, but prior to reserve for loan losses. In addition to direct loans outstanding, we had indirect loans of S/.9.0 billion, S/.10.2 billion and S/.11.7 billion as of December 31, 2010, 2011 and 2012, respectively.
- (6) Reserves for loan losses include reserves with respect to direct loans only.

⁽¹⁾ Operating revenue is the aggregate of gross financial margin after provisions for loan losses, and non-interest income, net.

⁽²⁾ Average interest-earning assets include deposits in the Central Bank, deposits in other banks, interbank funds, investment securities and loans and the sum is calculated based on the average of month-end balances.

⁽³⁾ Average total assets is defined as the simple average between the value of total assets at the end of the period and the value of total assets at the end of the previous corresponding period.

⁽⁴⁾ Average shareholders' equity is defined as the simple average between the value of shareholders' equity at the end of the period and the value of shareholders' equity at the end of the previous corresponding period.

⁽⁵⁾ Includes on and off balance sheet assets on an unconsolidated basis as reported to the SBS.

⁽⁶⁾ Net income as a percentage of average shareholders' equity, computed as the average of month-end balances.

⁽⁷⁾ Net income as a percentage of average total assets, computed as the average of month-end balances.

⁽⁸⁾ Declared dividends per share divided by net income per share.

- (9) Net interest income as a percentage of average interest-earning assets, computed as the average of month-end balances.
- (10) Salaries and employee benefits, general and administrative expenses, taxes and contributions, and depreciation and amortization divided by gross financial margin, banking services commissions, net and net gain on foreign exchange transactions.
- (11) Fees and commissions from banking services, net, as a percentage of total operating revenue.
- (12) Average shareholders' equity divided by average total assets.
- (13) Reserve for loan losses includes reserves with respect to direct and indirect loans.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our financial condition and results of operations depend significantly upon the macroeconomic conditions prevailing in Peru and prospective investors should (among other things) consider the factors set forth under "Cautionary Statements Regarding Forward-Looking Statements" and "Risk Factors—Risk Factors Relating to BCP and our Business" and "—Risk Factors relating to Peru."

Introduction

The following discussion should be read in conjunction with the interim consolidated financial statements as of September 30, 2013 and for the nine months ended September 30, 2012 and 2013, which were prepared in accordance with Peruvian GAAP, and the annual consolidated financial statements as of and for each of the two years ended December 31, 2011 and 2012, which were prepared in accordance with Peruvian GAAP, in each case including the notes thereto. Peruvian GAAP differs in certain material respects from IFRS and U.S. GAAP. For a description of certain significant differences among Peruvian GAAP, IFRS and U.S. GAAP see Appendix A. The annual consolidated financial statements have been audited by MZP, as stated in the reports appearing herein.

Under Peruvian GAAP, our financial statements are consolidated with the financial statements of our subsidiaries, which are companies controlled by us (*i.e.*, we have the power to govern the financial and operating policies of these enterprises so as to obtain benefits from their activities). See note 3 to the annual consolidated financial statements.

Critical Accounting Policies

In the preparation and presentation of the annual consolidated financial statements, our management has complied with the regulations established by the SBS in force in Peru as of December 31, 2010, 2011 and 2012 and September 30, 2012 and 2013. Certain of the accounting practices we employ, which conform to Peruvian GAAP, may differ in certain significant respects from generally accepted accounting principles in other countries. Critical accounting principles and practices used in the preparation of the annual and interim consolidated financial statements are described below. For further details on these accounting principles, see note 3 to the annual consolidated financial statements.

Basis for presentation and use of estimates

The annual consolidated financial statements have been prepared from our accounting records, which are maintained in nominal Nuevos Soles as of the date of the transactions, in accordance with Peruvian GAAP. These accounting principles are consistent with those used in 2011 and 2010, except as explained in the text under "— Accounting changes."

The preparation of the annual consolidated financial statements requires management to make estimates that affect the reported amounts of assets and liabilities, income and expenses and disclosure of material contingencies in the notes to the annual consolidated financial statements. Actual results could differ from those estimates. The most significant estimates used in the preparation of the financial statements are related to the calculation of the allowance for loan losses, the valuation of investments, the estimated useful live and recoverable amount of property, furniture and equipment and intangible assets, the provision for seized assets, the valuation of brand name, goodwill and client relationships, the valuation of derivatives, and the share base payments. The accounting criteria used for each of these items are described the following paragraphs.

Accounting changes

On September 19, 2012, SBS issued Resolution No. 7033-2012, effective January 2013. Its primary effect was the inclusion of a standard methodology for identification of impairment on financial instruments classified as available for sale and held-to-maturity investments.

Through letter SBS No. 38179-2011 dated August 23, 2011, the SBS indicated that the program that grants Credicorp shares to employees should be recorded under IFRS 2 "Share-based payments," starting January 1, 2012, but requiring a prospective treatment.

On November 2010, the International Financial Reporting Interpretations Committee (IFRIC) agreed that workers' profit sharing must be recorded following IAS19 "Employees' benefits" and not IAS 12 "Income tax." Consequently, a deferred asset or liability should not be calculated due to temporary differences. On January 21, 2011, the SBS issued Multiple Official Letter No. 4049-2011; adopting the Committee's interpretation starting January 2011. The changes required by the SBS and the accounting treatment followed by us are the following: (i) workers' profit sharing for services provided must be recorded as employees' expenses in the caption "Salaries and employees' benefits" of the consolidated income statements, and (ii) the related assets and liabilities for deferred workers' profit sharing were eliminated and; assets and liabilities for deferred income tax considering an income tax rate of 30 percent were recalculated. The net effect of the elimination and recalculation amounted to S/.20.4 million which are presented in the caption "Retained earnings" of the consolidated statements of changes in shareholders' equity.

Consolidation

Subsidiaries are all entities over which the Bank has control, meaning the power to govern their financial and operating policies. This is generally evidenced by a shareholding of more than one half of the voting rights. Subsidiaries are consolidated from the date on which effective control is transferred to the Bank and are no longer consolidated from the date that control ceases.

Business acquisitions in which control is acquired are recorded in accordance with IFRS 3. This involves recognizing the identifiable assets (including intangible assets not previously recognized) and liabilities (including contingent liabilities and excluding future restructuration) of the acquired entity at fair value.

Any excess of acquisition cost over the fair value of the identifiable net assets, including tangible and intangible assets and the recognized amount for the non-controlling interest; is recorded as goodwill. If the acquisition cost is less than the fair value of the net identifiable assets, the difference is recorded directly in the consolidated income statement in the acquisition year.

All transactions, balances, gains and losses between the Bank and its subsidiaries have been eliminated in the consolidation process. The equity attributable to the non-controlling interests is presented separately from the consolidated balance sheets. The income attributable to the non-controlling interests is presented separately in the consolidated statements of income.

The accounting records of foreign subsidiaries are kept in the original currency of each country. For consolidation purposes its balances were translated to Peruvian Nuevos Soles as follows: (i) assets and liabilities are translated at the exchange rate on the free market as of the consolidated balance sheet date, and (ii) revenues and expenses are translated at the monthly average exchange rate.

All differences arising from the translation were included in "Translation result" of the consolidated statements of changes in shareholders' equity.

Assets classified as held for sale and liabilities directly associated with those assets

Assets classified as held for sale are assets whose carrying amount will be recovered principally through a sale transaction rather than continuing use. To qualify as assets available for sale, the sale must be highly probable. Those assets and liabilities are presented in the consolidated balance sheet as "Assets classified as held for sale" and "Liabilities directly associated with those assets" at their book values, which, in this case, corresponds to the value at which they are going to be transferred. Furthermore, in the consolidated statement of income, gains or losses are presented as "Discontinued operations." Similarly, cash flows from operating, investing and financing activities generated by the discontinued operation have been excluded from the consolidated statements of cash flows. See notes 2(a) and 10 to the annual consolidated financial statements.

Allowance for loan losses

Management determines the allowance for loan losses in accordance with the guidelines established by the SBS. In accordance with such criteria, our management periodically conducts a formal review and analysis of the loan portfolio. All the loans are classified under the following categories: Normal (*Normal*), Potential Problem (*Problema Potencial*), Substandard (*Deficiente*), Doubtful (*Dudoso*), or Loss (*Pérdida*), based on the risk of non-payment by the customer.

In accordance with Resolution No. 11356-2008 issued by the SBS on November 19, 2008, new allowance requirements came into effect as of December 1, 2008 whereby the generic allowance percentage of loans classified as normal was modified to specific percentages for each type of loan, and pro-cyclical allowance requirements were established. The purpose of the pro-cyclical allowance requirement is to create additional allowances for loans classified as normal whenever the economy is experiencing high levels of GDP growth. As of December 31, 2008, since the Peruvian macroeconomic conditions for the activation of the pro-cyclical provisions were met, we and our banking subsidiaries in Peru recorded the required additional allowance. On September 10, 2009, the SBS, through Circular No. B-2181-2009, announced the suspension of the pro-cyclical requirements. This suspension was lifted on September 28, 2010, through Circular No. B-2193-2010. Pro-cyclical requirements range between 0% and 1.5%. For further details on the pro cyclical provision requirements, see note 3(e) and 7(f) to the annual consolidated financial statements.

As of December 31, 2008, Resolution No. 6941-2008 came into effect with the objective of mitigating the risk of over-indebtedness by retail customers. It establishes the processes that financial institutions must have in place in order to detect, monitor, and control the over-indebtedness of individuals, micro-businesses and small businesses. Institutions that fail to comply with the requirements established by Resolution No. 6941-2008 are subject to additional allowance requirements aimed to cover unused revolving credit lines of micro-business and consumer loans. We were not required to make additional provisions as result of the implementation of this resolution.

In accordance with SBS Resolution No. 11356-2008, as of July 1, 2010, the previous four categories used to classify loans (commercial, micro-business, consumer, and mortgage) were replaced by the following eight categories: corporate loans, big-business loans, medium-business loans, small-business loans, micro-business loans, revolving consumer loans, non-revolving consumer loans and residential mortgage loans. Further, loan portfolios must now be separated between retail and non-retail borrowers. Retail borrowers include individual or legal entities who have direct or indirect loans within the categories of consumer (revolving and non-revolving), micro-business, small-business or mortgage loans, while, non-retail borrowers are individuals or legal entities who have direct or indirect loans within the categories of corporate, large-business or medium-business loans.

Additionally, as of July 1, 2010, credit conversion factors, or "CCF," are applied to indirect loans in order to determine the "equivalent exposure to credit risk," which is the basis for calculating the required provision. The CCF can vary from 0% to 100%, depending on the type of indirect loan.

For corporate, big-business, and medium-business loans, the risk classification takes into consideration several factors, including the payment history of the loan, our relationship history with the client/debtor's management, the debtor's operating history, repayment capability and availability of funds, the status of any collateral or guarantee received, the debtor's financial statements and the risk classification granted by other financial institutions. The following table sets forth the loan classification and the corresponding reserve requirement (excluding pro-cyclical requirements) for corporate, big-business and medium-business loans:

| | Corporate and Big-Business Loans (%) | | | Medium-Business Loans (%) | | | |
|--|--------------------------------------|---|------------------------------------|---------------------------|---|------------------------------------|--|
| Level of Risk Classification | No guarantee | Highly liquid preferred guarantees | Readily preferred guarantees | No guarantee | Highly liquid preferred guarantees | Readily preferred guarantees | |
| I: Normal (<i>Normal</i>)II: Potential Problem | 0.7 | 0.7 | 0.7 | 1.0 | 1.0 | 1.0 | |
| (Problema Potencial) | 5.0 | 2.5 | 1.25 | 5.0 | 2.5 | 1.25 | |
| III: Substandard (Deficiente) | 25.0 | 12.5 | 6.25 | 25.0 | 12.5 | 6.25 | |
| IV: Doubtful (Dudoso) | 60.0 | 30.0 | 15.0 | 60.0 | 30.0 | 15.0 | |
| V: Loss (Pérdida) | 100.0 | 60.0 | 30.0 | 100.0 | 60.0 | 30.0 | |

For small-business, micro-business, consumer (revolving and non-revolving), and residential mortgage loans, the risk classification is based on the length of overdue payments. The following table sets forth the loan classification and the corresponding reserve requirement (pro-cyclical requirements are not included) for small-business, micro-business, consumer loans, and residential mortgage loans:

| | and Consu | | Residential Mortgage Loans | |
|--|-----------------|-------------|----------------------------|-------------|
| Level of Risk Classification | Past Due (days) | Reserve (%) | Past Due (days) | Reserve (%) |
| I: Normal (Normal) | 0-8 | 1.0 | 0-30 | 0.7 |
| II: Potential Problem (Problema Potencial) | 9-30 | 5.0 | 31-60 | 2.5 |
| III: Substandard (Deficiente) | 31-60 | 25.0 | 61-120 | 12.5 |
| IV: Doubtful (Dudoso) | 61-120 | 60.0 | 121-365 | 30.0 |
| V: Loss (Pérdida) | more than 120 | 100.0 | more than 365 | 60.0 |

In accordance with the established regulations, the calculation of the allowance is determined on the basis of its classification and using specific percentages, which vary depending on whether or not the client's debts are secured with highly liquid preferred guarantees (cash deposits and rights on credit certificates) or readily preferred guarantees (treasury bonds issued by the Peruvian government and securities included in the Lima Stock Exchange Selective Index, among others) or preferred guarantees (primary lien/pledge on financial instruments, securities and property, agricultural or mining pledges, insurance on export credits, among others), considered at their net realizable value as determined by an independent appraisal. The calculation of the allowance for a loan is determined primarily on the basis of its classification, the type of related collateral, its liquidity and susceptibility to ready execution and its net realizable value as determined by an independent appraisal. The guarantor's credit classification is also a factor in calculating the allowance when loans are made to subsidiaries of a financial or insurance company.

For loans that are past due over 90 days, we are required to estimate our expected loss on each loan. Such estimate must be calculated by taking into consideration the economic situation and the operating condition of the borrower, including the value of any guarantees, type of credit, and the borrower's economic activity or sector, among others. The actual required provision is the greater of the expected loss and the provision estimated according to general procedures.

Similarly, for clients with secured loans, including mortgages, classified as "doubtful" or "loss" whose payment is in arrears for a period of 24 or 36 months, respectively, the allowance is calculated as if such loans were unsecured.

The allowance for a direct loan is presented as an asset deduction, while the allowance for indirect loans is presented as a liability under consolidated balance sheet caption "other liabilities."

In the case of borrowers in countries where there is an increased risk of difficulty in servicing external debt, an assessment of the political and economic situation is made, and an additional allowance for country risk may be added.

Investments at fair value through profit or loss, available-for-sale and held-to-maturity.

As of December 31, 2012 and 2011, the initial recognition and the subsequent measurement of investments at fair value through profit or loss, available-for-sale and held to maturity, are carried out following SBS Resolution No. 10639-2008, "Regulations for the classification and valuation of investments" and amendment. The guidelines for valuation of investments, according to their classification are as follows:

Investments at fair value through profit or loss (trading securities). Initial recognition is at fair value, considering the transaction costs associated with such investments as expenses. Subsequent measurement is at fair value and any gain or loss arising from changes in the initial cost and subsequent fair value is recognized directly in the consolidated income statement.

Available-for-sale investments. Initial recognition is at fair value, including the transaction costs that are directly associated to their acquisition. Gains or losses originated by changes between the initial cost and fair value are recognized directly in equity, unless a permanent impairment in its value exists. When an instrument is realized or sold, the unrealized gains or losses previously recognized as part of equity are recognized in the consolidated income statement.

In the case of debt securities, before their subsequent measurement at fair value, the amortized cost is updated applying the effective interest rate; considering this amortized cost, unrealized gains or losses due to changes in fair value are recognized.

Investments held-to-maturity. Initial recognition is at fair value, including the transaction costs that are directly associated to their acquisition; subsequent measurement is at amortized cost, using the effective interest rate method.

Transactions are recorded at the date of negotiation, that is, the date of the assumption of the reciprocal obligations that must be complied with, within terms established by regulations and practices of the market on which the transaction is performed.

Interests are recognized using the effective interest rate, which includes both interest receivables and premium or discount amortization.

Gains or losses on exchange differences regarded to amortized cost of debt instruments affect the consolidated income statement; gain or losses on exchange differences regarded to fair value valuation are recorded as part of the unrealized gains or losses in the consolidated equity.

Equity instruments are considered non-monetary items, therefore, the original cost in local currency is not modified, the exchange difference is part of the valuation and is recognized as unrealized results in the consolidated equity.

The Bank and its subsidiaries evaluate, at each date of the consolidated financial statements, if there is evidence that any instrument classified as available-for-sale and held-to-maturity is impaired; if that is the case, an impairment is recognized in the consolidated income statement, even though the investment has not been retired or sold.

SBS Resolution No. 10639-2008, considers that if the SBS deems necessary to require the constitution of an additional provision for any class of investment, such provision must be determined by the SBS, based on each individual investment, and recorded in the consolidated income statement.

The difference between the proceeds received from the sale of an investment and its book value is recognized in the consolidated income statement.

In any of the aforementioned cases, if the SBS deems it necessary that we constitute a provision for any investment, such provision must be determined by the SBS based on each individual investment and recorded in the consolidated income statement for the year.

Investments in associates

According to SBS Resolution No. 10639-2008, this category includes only equity securities acquired with the purpose of having equity participation and/or significant influence in other entities or institutions.

Investments in associates are initially recognized at their fair value including the transaction costs directly attributable to their acquisition; subsequently they are recorded using the equity participation method. In the case of investments quoted on a stock exchange, when their market value shows a decreasing trend due to non-temporary circumstances, the Bank and its Subsidiaries must record a provision for impairment; nevertheless, the SBS at its own criteria, can require the recognition of an additional provision for impairment.

Derivative financial instruments

Derivative financial instruments are recorded in accordance with accounting criteria established by the SBS Resolution No. 1737-2006 "Regulation for Trading and Accounting of Derivatives for Financial Entities" and amendments, as explained below:

Trading. Derivative financial instruments are initially recorded in the consolidated balance sheet at cost, thereafter, they are recorded at fair value. Fair values are obtained based on market exchange and interest rates. All derivatives are accounted for as assets when fair value is positive and as liabilities when fair value is negative. Gains and losses arising from changes in fair values are recorded in the consolidated income statement. In addition, forwards, swaps and options are recorded as off-balance sheet accounts at their notional amount.

Hedging. A derivative financial instrument that seeks to achieve a financial hedge for a given risk is designated for hedging purposes if, at its negotiation, it is foreseen that changes in fair value or cash flows are expected to be highly effective in offsetting the fair value or cash flow changes of the hedged item attributable to the hedged risk at inception, which must be documented when the financial derivative is negotiated and during the period that the hedge relationship exists. If the SBS, which must also approve this designation, considers the documentation to be unsatisfactory or finds weaknesses in the methodologies applied, it may require the immediate termination of the hedge agreement and the recording of the derivative financial instrument as trading. A hedge is considered highly effective if changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated are expected to be offset in a range of 80% to 125%.

For cash flow hedges, the effective portion of gain or loss over the hedge instrument is recognized directly in equity, under the caption "Unrealized gains (losses)." The ineffective portion of gain or loss of the hedged instrument is recognized in the consolidated income statement. When the cash flow hedge affects the consolidated income statement, the gain or loss in the hedged instrument is recorded in the corresponding caption of the consolidated income statement.

For fair value hedges, the changes in the fair value of the hedged derivative are recognized in the consolidated income statement. Changes in the fair value of the hedged item attributed to the hedged risk are recorded as part of the balance of the hedged item and recorded in the consolidated income statement.

If the hedge instrument expires, is sold, terminated or exercised, or if the hedge does not comply with the hedging accounting criteria, the hedge agreement is prospectively terminated and the balances recorded in the consolidated balance sheet are transferred to the consolidated income statement in the line item under which the hedged item is kept.

The SBS has authorized the designation of derivative financial instruments maintained by us and our subsidiaries as hedging operations because the functional currency of Credicorp is the U.S. dollar. For further details, see note 9(c) to the annual consolidated financial statements.

Embedded derivatives. Certain derivatives embedded in other financial instruments (host contract) are treated as separate derivatives when their economic characteristics and risks are not closely related to those of the host contract and the host contract is not carried at fair value through profit or loss. These embedded derivatives are separated from the host instrument and measured at fair value with changes in fair value recorded in the income statement unless we or our subsidiaries choose to designate the hybrid contracts (host contract and embedded derivative) at fair value through profit and loss.

In accordance with SBS Resolution No. 1737-2006, we have certificates indexed to Credicorp's stock price that will be settled in cash, which are hybrid instruments with embedded derivatives that are not closely related to the risk of the host contract. In this regard, we have decided to classify these instruments at fair value through profit and loss. Therefore, the separation of the embedded derivative is not required.

Intangible assets

On February 24, 2010, the SBS issued Resolution No. 1967-2010, which established the accounting procedures for intangible assets with limited or unlimited useful life. Limited useful life intangible assets will be amortized for a

period not to exceed 5 years, and the adopted amortization method cannot be modified without prior SBS approval. Unlimited useful life assets, as well as goodwill, registered before January 1, 2010, will be amortized according to regulations in force at the time of the initial registration of such asset, and for a period not to exceed 5 years. Unlimited useful life intangible assets registered after January 1, 2010, will be recognized at cost, minus any accumulated impairment. However, according to an authorization from the SBS, goodwill generated in the acquisition of Financiera Edyficar in 2009 is measured at cost less any accumulated impairment loss.

Seized assets

Assets seized are initially recorded at the lowest of: (a) the value assigned to them through a legal proceeding, (b) the amount of any out-of-court settlement or (c) the unpaid value of the debt associated with such assets. Simultaneously with this determination of value at initial recognition, an allowance equivalent to 20% of the legal settlement or recoverable asset value is recorded. For this purpose we are permitted to use any allowance for loan losses that had been established for the related loan.

Thereafter, additional provisions should be recorded using the following guideline:

- (1) Assets that are not real estate: A monthly allowance equivalent to one twelfth of the book value of the asset (net of the 20% allowance) will be provided starting from the first month of seizure or recovery, until reaching an allowance of 100% of the seized or recovered value.
- (2) Real estate: After three and a half years, uniform monthly allowances must be provided for at the end of each month over the net book value obtained in the eighteenth or twelfth month, depending on whether the SBS extension term approval was obtained or not, respectively, until reaching a provision of 100% of the seized or recovered value.

An updated appraisal of the market value of seized assets (which should be determined by an independent appraiser and should not be more than one year old) is required and necessarily implies the creation of an impairment charge, when the net realization value is lower than its net book value. If the net realization value is higher than the net book value, the increased value cannot be recorded for accounting purposes.

Income tax

Current income tax is calculated on the basis of taxable income as determined for tax purposes, based on income tax principles as required by the tax authorities. Such principles differ from the accounting principles that we and our subsidiaries use.

Deferred income tax reflects the effects of temporary differences between the carrying amounts of assets and liabilities for accounting purposes and the amounts determined for tax purposes. Deferred assets and liabilities are measured using the tax rates expected to be applied to taxable income in the years in which temporary differences are expected to be recovered or settled. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that arise from the manner in which we and our subsidiaries expect to recover or settle the carrying amount of our assets and liabilities at the consolidated balance sheet date.

Deferred tax assets and liabilities are recognized without taking into consideration the time in which it is estimated that temporary differences will be realized or settled. Deferred assets are recognized when sufficient future tax benefits are probable for the realization of the deferred assets. At the balance sheet date, our management evaluates the non-recognized deferred assets and the balance of the recognized assets, and records deferred assets not previously recognized to the extent that probable future tax benefits will allow their recovery, or reduces the deferred assets to the extent that it is not likely that sufficient future tax benefits will be available to use part or all of the deferred assets recognized in the accounting records.

We determine our deferred income tax based on the tax rate applicable to our non-distributed profits and we recognize any additional tax for the distribution of dividends on the date on which the liability for distribution of such is recognized.

Workers' profit sharing

Workers' profit sharing is calculated on the basis of taxable income as determined for tax purposes, based on income tax principles as required by the tax authorities. Such principles differ from the accounting principles that we and our subsidiaries use

Until December 31, 2010, workers' profit sharing reflected the effects of temporary differences between the carrying amounts of assets and liabilities for accounting purposes and the amounts determined for tax purposes. Deferred assets and liabilities were measured using the worker's profit sharing rates expected to be applied to taxable income in the years in which temporary differences were expected to be recovered or settled.

On January 21, 2011, the SBS issued Multiple Official Letter No. 4049-2011 establishing a new mandatory accounting treatment for workers' profit sharing consistent with IAS19 "Employees' benefits." Effective January 2011, entities must only recognize a liability when the employee has rendered a service; therefore, the deferred workers' profit sharing should not be calculated by temporary differences; given that these differences would be attributable to future services that must not be considered as obligations or rights under IAS 19. Workers' profit sharing expenses are therefore recorded as employees' expenses and included in the caption "Salaries and employees' benefits." As a result, S/.88.1 million and S/.69.9 million were reclassified from the caption "Workers' profit sharing" to the caption "Salaries and employees' benefits" in our consolidated income statements for the years ended December 31, 2011 and 2010, respectively. For further details, including with respect to reclassifications of our income statement line items, see notes 3(a) and 3(x) to the annual consolidated financial statements.

Supplementary plan for workers' profit sharing

Until 2008, we granted certain executives and employees with more than one year of service Stock Appreciation Rights (SARs) over Credicorp's shares. Credicorp is our ultimate shareholder and is listed on the Lima and New York stock exchanges. The SARs were granted at the price of Credicorp's shares on the grant date and are exercisable at that price, allowing recipient employees to benefit from the difference between the fixed exercise price and the market price as of the exercise date. For further details, see note 17 to the annual consolidated financial statements. The recorded expense in each year represents the estimated market value of the appreciation rights that can be exercised by the beneficiaries on the date of the consolidated balance sheet. The price of the SARs is estimated using a binomial method in accordance with IFRS 2 "Share-based payments." For further details, see note 17 to the annual consolidated financial statements.

Stock awards accounting policy

On April 2009, a new supplementary plan for workers' profit sharing was implemented to benefit our key executives and employees in the form of stock awards. Under this new plan, we and our subsidiaries purchase Credicorp shares and transfer them to the beneficiaries of the plan. The shares are maintained as restricted securities until vesting and, for control purposes, recorded in the caption "Off-balance sheet accounts" of our consolidated balance sheets. One third of the shares granted vest in each of the following three years on the anniversary of the grant date. In compliance with SBS Oficio 9771-2009, dated March 24, 2009, we and our subsidiaries record as an expense the full amount paid for the shares. This expense is included in the caption "Salaries and employee benefits" of the annual consolidated financial statements. For further details, see notes 3(p) and 17 to the annual consolidated financial statements.

In August 2011, the SBS issued Official Letter No. 38179-2011, by which it indicated that all share-based payments plan must be recorded following IFRS 2 – Share-based payments, starting January 1, 2012, but requiring prospective treatment.

Consequently, in accordance with IFRS 2, because the Bank is responsible of settling the plan and it is not settled in equity instruments of the Bank, but of Credicorp, the second share-based payment plan granted in the year 2012 is also recorded as cash settled.

The fair value of the shares and rights / options is estimated using a binomial method. The fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The liability is remeasured at each reporting date up to and including the settlement date, recognizing changes in fair value under

"Compensation and benefits" in the consolidated statement of income. When the price or terms of the plans change, the effect of the change is recognized in the consolidated statements of income.

Sale and repurchase agreements

Securities sold under agreements to repurchase at a specified future date are not derecognized from the consolidated balance sheet as the Bank and its subsidiaries retains substantially all of the risks and rewards of ownership. The corresponding cash received is recognized in the consolidated balance sheet as an asset with a corresponding obligation to return it, including accrued interest as a liability within "Payables from repurchase agreements and security lending," reflecting the transaction's economic substance as a loan to the Bank and its subsidiaries. The difference between the sale and repurchase prices is treated as interest expense and is accrued over the life of agreement using the effective interest rate.

Conversely, securities purchased under agreements to resell at a specified future date are not recognized in the consolidated balance sheet. The consideration paid, including accrued interest, is recorded in the consolidated balance sheet, within "Receivables from reverse repurchase agreements and security borrowing," reflecting the transaction's economic substance as a loan by the Bank and its subsidiaries. The difference between the purchase and resale prices is recorded in the caption "Financial income" of the consolidated income statement and is accrued over the life of the agreement using the effective interest rate.

If securities purchased under agreement to resell are subsequently sold to third parties, the obligation to return the securities is recorded as a short sale in the caption "Financial liabilities designated at fair value through profit or loss" of the consolidated balance sheet, and measured at fair value with any gains or losses included in "Other non-financial income."

Securities lending and borrowing transactions are usually collateralized by securities. The transfer of the securities to counterparties is only reflected on the consolidated balance sheet if the risks and rewards of ownership are also transferred.

As of December 31, 2011, the Bank and its subsidiaries had not purchased securities under agreements to resell at a future date or sold securities purchased under resale agreements. As of December 31, 2012, such operations had been performed exclusively by Correval (see Note 10 to the annual consolidated financial statements). As of September 30, 2013, the Bank had not executed any such operations.

As of December 31, 2010, 2011 and 2012 and September 30, 2013, outstanding repurchase agreements were S/.702.3 million, S/.674.0 million, S/.1,667.6 million, and S/.1,482.4 million, respectively.

Results of Operations for the Nine Months Ended September 30, 2012 and 2013

The following discussion is based upon information contained in the interim consolidated financial statements and should be read in conjunction therewith. The interim consolidated financial statements have been prepared in accordance with Peruvian GAAP, which differ in certain significant respects from IFRS and U.S. GAAP.

The following table sets forth, for the nine months ended September 30, 2012 and 2013, the principal components of our net income:

| | For the nine months ended September 30, | | |
|--|---|-----------------|--|

Net income increased by S/.77.7 million, or 6.8%, to S/.1.2 billion in the nine months ended September 30, 2013 compared to the first nine months of 2012. This increase was primarily driven by an increase of S/.421.7 million, or 14.6%, in gross financial margin as explained below. The increase was partially offset by a S/.164.6 million, or 22.5%, increase in provisions for loan losses and by a S/.284.5 million, or 12.8%, increase in operating expenses. Gross financial margin after provision for loan losses increased by S/.257.0 million, or 11.9%.

Gross financial margin

The following table sets forth, for the nine months ended September 30, 2012 and 2013, the components of our gross financial margin:

| _ | For the nine months ended September 30, | |
|---|--|---------------|
| | 2012 | 2013 |
| | (Nuevos Soles in thousands) (unaudited) | |

| Total financial expense | (1,258,219) | (1,525,822) |
| Gross financial margin | 2,897,291 | 3,318,947 |

In comparison to the first nine months of 2012, our gross financial margin increased by S/.421.7 million, or 14.6%, driven by a S/.689.3 million, or 16.6%, increase in financial income, which was partially offset by a S/.267.6 million, or 21.3%, increase in financial expense. The increase in financial income was attributable primarily to higher loan balances in both foreign currency and Nuevos Soles and higher interest rates in foreign currency. The increase in financial expense was due to increased balances of deposits, due to banks and bonds.

Financial income

Financial income increased by S/.689.3 million, or 16.6%, to S/.4.8 billion in the nine months ended September 30, 2013 compared to the first nine months of 2012, primarily as a result of higher loan balances and higher interest rates charged on our foreign currency-denominated loan portfolio.

For the nine months ended September 30, 2013, the average nominal interest rate we earned on our loans was 10.8% (10.0% in 2011 and 10.5% in 2012). The average nominal interest rate for foreign currency-denominated loans increased from 5.7% in the first nine months of 2012 to 6.8% in the first nine months of 2013. Average nominal interest rates for Nuevo Sol-denominated loans decreased from 17.3% in the first nine months of 2012 to 15.8% in the first nine months of 2013. This decrease was due to higher growth in wholesale banking with much lower margins, which causes downward pressure on the growth in net interest income. The decrease was partially offset by adjustments in our retail banking models, which led to an increase in interest rates.

For the nine months ended September 30, 2013, the monthly average balance of our foreign currency-denominated loan portfolio was S/.30.2 billion, an increase of 11.6% from the nine months ended September 30, 2012, while the monthly average balance of our Nuevo Sol-denominated loans was S/.24.3 billion, an increase of 23.6% from the nine months ended September 30, 2012. This trend was led by the corporate loan portfolio. The latter was in turn due, in large part, to loan disbursements for working capital. This high growth in the local currency portfolio was due to a mix of factors, including: (i) a de-dollarization in the demand for financing after the highly volatile second quarter, (ii) a more competitive and attractive rate in Nuevos Soles following a reduction in the reserve requirements for local currency and increase in requirements for foreign currency; (iii) a shift from off-shore borrowings to Nuevo Soles-denominated local borrowings, and (iv) the resumption of investment activities in the corporate sector.

Financial expense

Financial expense increased by S/.267.6 million, or 21.3%, during the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. The increase in 2013 was primarily driven by higher average balances of deposits and to higher aggregate amounts of issued bonds outstanding. This increase was partially offset by lower average nominal interest rates on total deposits and due to banks and correspondent and issued bonds. For the nine months ended September 30, 2013, the average nominal interest rate on total deposits was 1.0% (1.2% in 2011 and 1.3% in 2012). Average nominal interest rate on foreign currency-denominated deposits was 0.5% (0.6% in 2011 and 0.5% in 2012). Average nominal interest rate on local currency-denominated deposits decreased to 1.4% (1.9% in 2011 and 2.0% in 2012). The decrease in the average nominal interest rate paid on local currency-denominated deposits in 2013 was driven by an excess of liquidity.

Interest on bonds and subordinated notes issued increased by S/.67.4 million, or 15.5%, due to the issuance during the first nine months of 2013 of S/.1,062.0 million (U.S.\$ 381.7 million) of corporate bonds and S/.472.9 million (U.S.\$ 170.0 million) of subordinated bonds.

Our average foreign currency-denominated deposits were S/.28.2 billion for the nine months ended September 30, 2013, compared to S/.26.1 billion for the nine months ended September 30, 2012. Average deposits denominated in Nuevos Soles were S/.27.5 billion and S/.34.3 billion as of September 30, 2012 and 2013, respectively. As of September 30, 2013, the average balance of demand deposits, savings deposits and time deposits increased by 9.6%, 14.2% and 23.6%, respectively.

Net financial margin

Our net financial margin (gross financial margin divided by average interest earning assets) decreased from 5.2% for the nine months ended September 30, 2012 to 5.1% for the nine months ended September 30, 2013.

Provision for loan losses

The following table sets forth, for the nine months ended September 30, 2012 and 2013, the movements in our allowance for loan losses, including reserves for indirect loans. Our provisions for indirect loans were S/.117.8 million at September 30, 2013, compared to S/.112.0 million at September 30, 2012.

| Write-offs | (443,206) | (619,373) | |
| Foreign exchange translation | (28,380) | 57,751 | |
| Allowance for loan losses at the end of the period. | 1,876,596 | 2,347,366 | |

Our allowance for loan losses, net of recoveries, increased by S/.470.7 million, or 25.1%, in the nine months ended September 30, 2013, compared to the first nine months of 2012. This increase was due to portfolio growth across all business segments (except for small business loans) and an increase in loan loss requirements in small business loans as a result of credit deterioration in this portfolio. However, past due loans of the new vintages are significantly lower. Recoveries of previously charged-off accounts amounted to S/.96.3 million in the nine months ended September 30, 2013, a 6.0% increase compared to the first nine months of 2012.

The increase in provisions in the nine months ended September 30, 2013 was partly offset by write-offs, which increased by 39.7% compared to the first nine months of 2012. These write-offs were loans that were fully provisioned and considered unrecoverable. See "Selected Statistical and Other Information—Loan Portfolio—Allowance for Loan Losses."

Total reserves, including reserves for indirect loans, as a percentage of past due loans decreased to 172.9% as of September 30, 2013 from 206.5% as of September 30, 2012. Total reserves as a percentage of loans with risk classifications of deficient, doubtful and loss, decreased to 109.1% as of September 30, 2013 from 119.9% as of September 30, 2012, in each case at levels that are comfortably above our internal limits. Given the changing composition of our loan portfolio and recent developments in the Peruvian and global economy, our historical loss experience may not be indicative of our future loan loss experience.

Non-financial income

The following table reflects, for the nine months ended September 30, 2012 and 2013, the components of our non-financial income:

| | For the nine months ended September 30, | | |
|---|---|-----------|--|
| | 2012 | 2013 | |
| | (Nuevos Soles in thousands) | | |
| | (unau | idited) | |
| Fees and commissions from banking services, net | 1,196,724 | 1,276,958 | |
| Net gains (loss) from sales of securities | 56,459 | (101,870) | |
| Net gains on foreign exchange transactions | 326,327 | 391,891 | |
| Other non-financial income | 69,495 | 42,987 | |
| Total non-financial income | 1,649,005 | 1,609,966 | |

Our non-financial income decreased 2.4% to S/. 1,610.0 million during the nine months ended September 30, 2013, as compared to an increase of 9.6% to S/.1.649.0 million during the nine months ended September 30, 2012.

Fees and commissions from banking services increased 6.7% to S/.1.3 billion during the nine months ended September 30, 2013, as compared to the nine months ended September 30, 2012. The increase in fees and commissions from banking services was principally due to an increase in transfer and collections fees, increased commissions from credit card and debit card services and increases in fees from trust services. This growth was partially offset by a decrease in commissions from investment banking activities in particular and to a decrease in commissions from commercial loans (leasing and mid and long-term financing products).

Sales of securities resulted in a net loss of S/.101.9 million in the nine months ended September 30, 2013, as compared to a net gain of S/.56.5 million in the nine months ended September 30, 2012. The loss from sales of securities in the nine months ended September 30, 2013 was driven by losses from our sales of Peruvian government securities, corporate bonds and foreign government bonds, and the lower market value of our trading investments (unrealized losses), which was primarily attributable to the performance of sovereign bonds in Latin America.

Our gains from foreign exchange transactions were S/.326.2 million and S/.391.9 million in the first nine months of 2012 and 2013, respectively. The increase in 2013 was due to higher foreign exchange trading volumes in response to the higher volatility of the exchange rate. Other non-financial income decreased 38.1% to S/.43.0 million in the nine months ended September 30, 2013. Other non-financial income principally consists of gains on indexed certificates, customer service charges and certain sundry income items. BCP maintains a proprietary position in indexed certificates issued by Citigroup and Crédit Agricole Corporate and Investment Bank (formerly Calyon) to mitigate the volatility in operating expenses caused by stock appreciation rights granted to executives. The indexed certificates are in the form of warrants issued by Citigroup and Calyon, and are settled exclusively in cash. These instruments do not qualify for hedge accounting. Gains on these indexed certificates are reported as other income while losses are reported under operating expenses (see note 9(b) to the annual consolidated financial statements). The decrease in other non-financial income in the first nine months of 2013 was driven mainly by a decrease of our gains in our position of indexed certificates of S/.5.0 million and a decrease in certain sundry income of S/.29.7 million.

Operating expenses

The following table reflects, for the nine months ending September 30, 2012 and 2013, the components of our operating expenses:

| _ | For the nine months ended September 30, | | |
|-------------------------------------|---|-------------|--|
| _ | 2012 | 2013 | |
| | (Nuevos Soles in thousands) | | |
| | (una | udited) | |
| Salaries and employee benefits | (1,192,350) | (1,312,576) | |
| General and administrative expenses | (719,450) | (850,139) | |
| Depreciation and amortization | (205,509) | (214,060) | |
| Provision for seized assets | (2,732) | (2,580) | |
| Taxes and contributions | (72,939) | (100,051) | |
| Other | (33,960) | (31,986) | |
| Total operating expenses | (2,226,940) | (2,511,392) | |

BCP's operating expenses (excluding provisions for loan losses) increased 12.8% to S/.2.5 billion during the nine months ended September 30, 2013, and increased 16.7% to S/.2.2 billion during the nine months ended September 30, 2012. The increase in 2013 compared to 2012 was due to a 10.1% increase in salaries and employee benefits and 18.2% increase in general and administrative expenses.

For the nine months ended September 30, 2013 and 2012, salaries and employee benefits, which include expenses on stock appreciation rights (SARs) on Credicorp's stock given to executives, increased 10.1% and 23.5%, respectively. The increases in 2013 and 2012 were principally due to higher expenses for salaries, vacation pay, medical assistance and other personnel expenses due to organic growth (as of September 30, 2013 we had 22,403 employees compared to the 21,249 employees we had as of September 30, 2012). Expenses related to SARs are directly correlated with the price of Credicorp's shares. In addition, we and our subsidiaries implemented a new share-based payment plan, granting a number of Credicorp shares to certain executives who have been employed for at least one year. In connection with this plan, we and our subsidiaries acquired all the shares granted to our executives, which are being held as restricted by us and our subsidiaries for a 3 year term; shares are fully vested in favor of the executives annually in equal parts during the three year vesting period.

General and administrative expenses increased S/.130.7 million during the nine months ended September 30, 2013. As a percentage of operating expenses, general and administrative expenses were 33.9% and 32.3% in the first nine months of 2013 and 2012, respectively. The increase in expenses in 2013 was mainly due to higher consulting, system outsourcing and marketing expenses.

Depreciation and amortization increased 4.2% to S/.214.1 million during the nine months ended September 30, 2013 and increased 14.7% to S/.205.5 million during the nine months ended September 30, 2012. The increase in 2013 was mainly due to higher amortization expenses of intangible assets. The increase in 2012 was due mainly to higher amortization expenses of capitalized disbursements related to the implementation and development of several projects (such as the implementation of treasury solutions, the windows system, CRM for wholesale banking and basic information of clients, among others).

Other expenses decreased 5.8% to S/.32.0 million in the first nine months of 2013 and decreased 67.6% to S/.34.0 million in the first nine months of 2012. In 2013, the decrease was driven by lower provisions for litigation, claims and other contingencies. In 2012, the decrease was driven by the absence of losses in our position of indexed certificates.

Income taxes

For the nine months ended September 30, 2013 and 2012, our income tax expense was S/.480.1 million and S/.421.2 million, respectively. The statutory income tax rate payable in Peru in each of those periods was 30% of taxable income. BCP's effective tax rate was 28.3% in the first nine months of 2013 and 27.0% in the first nine months of 2012. The increase in the effective tax rate during the first nine months of 2013 was due to an increase in taxable income as translation gain increased due to depreciation of the local currency.

Results of Operations for the Years Ended December 31, 2010, 2011 and 2012

The following discussion is based upon information contained in the annual consolidated financial statements and should be read in conjunction therewith. The annual consolidated financial statements have been prepared in accordance with Peruvian GAAP, which differ in certain significant respects from IFRS and U.S. GAAP.

The following table sets forth, for the years ended December 31, 2010, 2011 and 2012, the principal components of our net income:

| _ | For the years ended December 31, | | |
|--|----------------------------------|-------------------------|-------------|
| _ | 2010 | 2011 | 2012 |
| | (Nue | vos Soles in thousands) | |
| Financial income | 3,840,975 | 4,687,284 | 5,620,189 |
| Financial expense | (1,192,974) | (1,429,260) | (1,699,332) |
| Gross financial margin | 2,648,001 | 3,258,024 | 3,920,857 |
| Provision for loan losses | (594,831) | (708,484) | (1,111,244) |
| Gross financial margin after provision for loan losses | 2,053,170 | 2,549,540 | 2,809,613 |
| (Loss) gain for exchange difference | 24,404 | (36,853) | 14,163 |
| Net financial margin | 2,077,574 | 2,512,687 | 2,823,776 |
| Non-financial income | 2,038,351 | 2,067,293 | 2,326,531 |
| Operating expenses | (2,457,012) | (2,629,892) | (3,102,951) |
| Income before income tax | 1,658,913 | 1,950,088 | 2,047,356 |
| Income tax | (447,668) | (508,674) | (551,145) |
| Net income from continuing operations | 1,211,245 | 1,441,414 | 1,496,211 |
| Net Income from discontinued operations | <u> </u> | <u> </u> | 9,701 |
| Net Income | 1,211,245 | 1,441,414 | 1,505,912 |
| Attributable to: | | | |
| Equity holders of Banco de Crédito del Perú | 1,209,341 | 1,438,994 | 1,497,701 |
| Non-controlling interests | 1,904 | 2,420 | 8,211 |

In 2012, net income increased by S/.64.5 million, or 4.5%, to S/.1.5 billion compared to 2011. This increase was primarily driven by an increase of S/.662.8 million, or 20.3%, in gross financial margin and an increase of S/.259.2 million, or 12.5%, in non-financial income. The increase was partially offset by a S/.402.8 million increase, or 56.9%, in provisions for loan losses and by a S/.473.1 million, or 18.0%, increase in operating expenses. Gross financial margin after provision for loan losses increased by S/.260.1 million, or 10.2%.

In 2011, net income increased by S/.230.2 million, or 19.0%, to S/.1.4 billion compared to 2010. This increase was primarily driven by an increase of S/.610.0 million, or 23.0%, in gross financial margin attributable to higher

interest rates in Nuevos Soles. The increase was partially offset by a S/.172.9 million, or 7.0%, increase in operating expenses. Gross financial margin after provision for loan losses increased by S/.496.4 million, or 24.2%.

Gross financial margin

The following table sets forth, the components of our gross financial margin:

| | For the years ended December 31, | | |
|--|----------------------------------|---------------------|-------------|
| | 2010 | 2011 | 2012 |
| | (Nue | vos Soles in thousa | nds) |
| Financial income: | | | |
| Interest from loan portfolio | 3,385,051 | 4,109,775 | 4,998,967 |
| Interest from trading, available-for-sale and held-to-maturity | | | |
| investments | 259,614 | 345,793 | 431,980 |
| Interest from deposits in Central Bank and other banks | 89,810 | 115,700 | 103,298 |
| Commissions on loans and other financial transactions | 42,012 | 41,389 | 23,998 |
| Fluctuation from derivative financial instruments position | 39,665 | 45,355 | 56,040 |
| Other | 24,823 | 29,272 | 5,906 |
| Total financial income | 3,840,975 | 4,687,284 | 5,620,189 |
| Financial expense: | | | |
| Interest on deposits and obligations | (338,637) | (511,006) | (662,448) |
| Interest on bonds and subordinated notes issued | (293,729) | (468,956) | (572,929) |
| Interest due to banks, correspondents and other entities | (351,944) | (321,510) | (350,653) |
| Deposit Insurance Fund fees | (57,329) | (67,891) | (79,831) |
| Fluctuation on derivative financial instruments position | (113,062) | (21,579) | (40,253) |
| Other | (38,273) | (38,318) | (33,218) |
| Total financial expense | (1,192,974) | (1,429,260) | (1,699,332) |
| Gross financial margin | 2,648,001 | 3,258,024 | 3,920,857 |

Our gross financial margin increased by 20.3% in 2012 and 23.0% in 2011.

Financial income

Financial income increased by 19.9% in 2012, after increasing by 22.0% in 2011. The increase in 2012 was mainly due to higher loan balances and higher interest rates charged on our foreign currency-denominated loan portfolio. The increase in 2011 was mainly due to higher loan balances and higher interest rates charged on our local currency-denominated loan portfolio.

Average nominal interest rates we earned on our loans were 9.9% in 2010, 10.0% in 2011, and 10.5% in 2012. The average nominal interest rate for foreign currency-denominated loans decreased from 6.8% in 2010 to 4.8% in 2011 and increased to 5.5% in 2012. Average nominal interest rates for Nuevo Sol-denominated loans increased from 14.9% in 2010 to 17.9% in 2011 and decreased slightly to 17.5% in 2012.

In 2012, the monthly average balance of our foreign currency-denominated loan portfolio was S/.27.5 billion, an increase of 9.0% from 2011, while the monthly average balance of our Nuevo Sol-denominated loans was S/.20.2 billion, an increase of 23.3% from 2011. In 2011, the monthly average balance of our foreign currency-denominated loan portfolio was S/.25.2 billion, an increase of 18.9% from 2010, while the monthly average balance of our Nuevo Sol-denominated loans was S/.16.3 billion, an increase of 23.0% from 2010. In 2012, the increase in local currency-denominated loans was due to higher consumer loan balances, while the increase in foreign currency-denominated loans was due to the prevailing low rate environment in foreign currency.

Financial expense

Financial expense increased 18.9% in 2012 after increasing 19.8% in 2011. The increase in 2012 was primarily driven by higher rates paid on foreign currency-denominated time deposits and by higher balances due to banks and correspondents and due to higher aggregate amounts of issued bonds outstanding. The increase in 2011 was primarily driven by higher rates paid on local currency-denominated time deposits and to higher balances of issued bonds outstanding. Average nominal interest rates on total deposits were 1.0%, 1.2% and 1.4% in 2010, 2011 and

2012, respectively. Average nominal interest rates on foreign currency-denominated deposits decreased from 0.7% in 2010 to 0.6% in 2011 and increased to 0.7% in 2012. Average nominal interest rates on Nuevo Sol-denominated deposits increased from 1.2% in 2010 to 1.9% in 2011 to 2.0% in 2012. The decrease in the average nominal interest rate paid on foreign currency-denominated deposits in 2011 was driven by the prevailing low interest rate environment, while the increase in the average nominal interest rate paid on local currency-denominated deposits was driven by the increases in the Central Bank's reference rate. The increase in the average nominal interest rate paid on foreign currency-denominated and local currency-denominated deposits in 2012 was driven by the higher balance of time deposits with a higher average interest rate than those of demand and saving deposits.

Our average foreign currency-denominated deposits were S/.25.9 billion in 2012, S/.25.1 billion in 2011 and S/.22.6 billion in 2010. Average deposits denominated in Nuevos Soles were S/.28.4 billion, S/.22.5 billion and S/.18.8 billion in 2012, 2011 and 2010, respectively. In 2012, the average balance of demand deposits, savings, and time deposits increased by 10.0%, 13.9%, and 17.5%, respectively. In 2011, the average balance of demand deposits, savings, and time deposits increased by 18.2%, 18.5%, and 10.0%, respectively.

Net financial margin

Our net financial margin (gross financial margin divided by average interest earning assets) increased from 4.8% in 2010 to 5.0% in 2011, and increased to 5.2% in 2012.

Provision for loan losses

The following table sets forth, for the years ended December 31, 2010, 2011 and 2012, the movements in our allowance for loan losses, including reserves for indirect loans. Our provisions for indirect loans were S/.92.4 million, S/.103.7 million, and S/.116.0 at December 31, 2010, 2011 and 2012, respectively.

| | For the years ended December 31, | | |
|--|----------------------------------|-----------------------|-----------|
| | 2010 | 2011 | 2012 |
| | (Nue | evos Soles in thousar | nds) |
| Allowance for loan losses at the beginning of the year | 1,095,841 | 1,273,789 | 1,524,348 |
| Provisions of the year, net of recoveries | 594,831 | 708,484 | 1,111,244 |
| Write-offs | (404,396) | (432,614) | (677,883) |
| Foreign exchange translation | (12,487) | (25,311) | (42,592) |
| Allowance for loan losses at the end of the year | 1,273,789 | 1,524,348 | 1,915,117 |

Our allowance for loan losses, net of recoveries, increased by S/.390.8, or 25.6%, in 2012, increased by S/.250.6 million, or 19.7% in 2011 and by S/.177.9 million, or 16.2% in 2010. The increase in 2012 was due to portfolio growth across all business segments and an increase in loan loss requirements in retail banking as a result of credit deterioration in this portfolio. The increase in 2011 and 2010 was due to higher loan volumes across all business segments. Provisions in 2010 were also affected by the activation of the pro-cyclical provisioning requirements in effect since October 2010. Recoveries of previously charged-off accounts amounted to S/.108.2 million in 2012 and S/.97.0 million in 2011 and are reported under the "Other income" caption of "Selected Statistical and Other Information."

The increase in provisions in 2010, 2011 and 2012 was partly offset by write-offs, which increased by 56.7% in 2012, by 7% in 2011 and by 51.7% in 2010. These write-offs were loans that were fully provisioned and considered unrecoverable. See "Regulatory Environment—Loan Loss Reserves."

Total reserves, including reserves for indirect loans, as a percentage of past due loans were 202.8% at year-end 2012 compared to 218.9% at year-end 2011 and 216.8% at year-end 2010. Total reserves as a percentage of loans with risk classifications of deficient, doubtful and loss, decreased to 119.1% at year-end 2012 from 121.5% at year-end 2011 after increasing from 114.3% at year-end 2010. Given the changing composition of our loan portfolio and recent developments in the Peruvian and global economy, our historical loss experience may not be indicative of our future loan loss experience.

Non-financial income

The following table reflects the components of our non-financial income:

| _ | For the years ended December 31, | | | |
|--|----------------------------------|--------------------------|-----------|--|
| _ | 2010 | 2011 | 2012 | |
| | (N | luevos Soles in thousand | s) | |
| Fees and commissions from banking services | 1,298,332 | 1,446,191 | 1,623,399 | |
| Net gains from sales of securities | 176,780 | 61,682 | 104,636 | |
| Net gains on foreign exchange transactions | 243,978 | 382,220 | 379,615 | |
| Other non-financial income | 319,261 | 177,200 | 218,881 | |
| Total non-financial income | 2,038,351 | 2,067,293 | 2,326,531 | |

Our non-financial income increased 12.5% to S/. 2.3 billion in 2012 from S/.2.1 billion in 2011 and from S/.2.0 billion in 2010.

Fees and commissions from banking services increased 12.3% to S/.1.6 billion in 2012 compared to 2011 and increased 11.4% to S/.1.4 billion in 2011 compared to 2010. The increase in fees and commissions from banking services in 2012 and 2011 was principally due to an increase in transfer and collections fees, increased commissions from credit/debit card services, increases in fees from trust services and improved property leasing services.

Sales of securities resulted in a net gain of S/.104.6 million in 2012 compared to a net gain of S/.61.7 million in 2011 and a net gain of S/.176.8 million in 2010. The increase in gains from sales of securities in 2012 as compared to 2011 was driven by the profits from our sales of Peruvian government securities. The decrease in gains from sales of securities in 2011 as compared to 2010 was driven by the absence in 2011 of extraordinary gains associated with an exchange program of government bonds offered by the Peruvian government in 2010. In April 2010, the Peruvian government offered the exchange of 7.500% Euro denominated Global Bonds due 2014 for cash and new bonds (8.375% U.S. dollar denominated Global Bonds due 2033). As a result of our participation in the aforementioned exchange program, we recorded a S/.90.5 million gain. Additionally, on the exchange date we terminated related cross-currency swaps that were part of our fair value hedge strategy generating a loss of approximately S/.44.6 million that was recorded under financial expense.

Our gains from foreign exchange transactions were S/.379.6 million in 2012, S/.382.2 million in 2011 and S/.244.0 million in 2010. The increase in 2011 and 2010 was due to higher foreign exchange trading volumes in response to the appreciation of the Nuevo Sol.

Other non-financial income increased 23.5% to S/.218.9 million in 2012 after decreasing 44.5% to S/.177.2 million in 2011 from 17.3% to S/.319.3 million in 2010. Other non-financial income principally consists of gains on indexed certificates, recoveries of charged-off accounts, customer service charges and certain sundry income items. BCP maintains a proprietary position in indexed certificates issued by Citigroup and Crédit Agricole Corporate and Investment Bank (formerly Calyon) to mitigate the volatility in operating expenses caused by stock appreciation rights granted to executives. The indexed certificates are in the form of warrants issued by Citigroup and Calyon, and are settled exclusively in cash. These instruments do not qualify for hedge accounting. Gains on these indexed certificates are reported as other income while losses are reported under operating expenses (see note 9(b) to the annual consolidated financial statements). The increase in 2012 in other non-financial income was driven mainly by an increase of recoveries of charged-off accounts of S/.11.2 million and gains in our position of indexed certificates of S/.30.2 million. The decrease in 2011 in other non-financial income was due principally to gains on indexed certificates of S/.156.6 million.

Operating expenses

The following table reflects, for the years ended December 31, 2010, 2011 and 2012, the components of our operating expenses:

| _ | For the years ended December 31, | | | |
|-------------------------------------|----------------------------------|-----------------------------|-----------|--|
| | 2010 | 2011 | 2012 | |
| | | (Nuevos Soles in thousands) | | |
| Salaries and employee benefits | 1,369,059 | 1,357,854 | 1,626,763 | |
| General and administrative expenses | 709,029 | 831,257 | 1,035,326 | |
| Depreciation and amortization | 219,026 | 249,242 | 274,083 | |
| Provision for seized assets | 4,136 | 4,281 | 3,143 | |
| Taxes and contributions | 79,889 | 88,677 | 98,566 | |
| Other | 75,873 | 98,581 | 65,070 | |
| Total operating expenses | 2,457,012 | 2,629,892 | 3,102,951 | |

BCP's operating expenses (excluding provisions for loan losses) increased 18.0% to S/.3.1 billion in 2012, and increased 7.0% to S/.2.6 billion in 2011. The increase in 2012 compared to 2011 was due to a 19.8% increase in salaries and employee benefits and a 24.6% increase in general and administrative expenses. The increase in 2011 compared to 2010 was driven mainly by a 17.2%, or S/.122.2 million, increase in general and administrative expenses.

Salaries and employee benefits, which include expenses on stock appreciation rights (SARs) on Credicorp's stock given to executives, increased 19.8% in 2012 and decreased 0.8% in 2011 after having increased by 14.3% in 2010. The increase in 2012 was principally due to higher expenses for salaries, vacation pay, medical assistance and other personnel expenses in line with our organic growth. The decrease in 2011 was mainly driven by lower charges related to the expensing of SARs. The increase in 2010 was driven by higher variable compensation expenses in line with higher loan volumes. Expenses related to SARs are directly correlated with the price of Credicorp's shares. In addition, we and our subsidiaries implemented a new share-based payment plan, granting a number of Credicorp shares to certain executives who have been employed for at least one year. In connection with this plan, we and our subsidiaries acquired all the shares granted to our executives, which are being held as restricted by us and our subsidiaries for a three year term; shares are fully vested in favor of the executives annually in equal parts during the three year vesting period. Until December 31, 2011, shares of Credicorp legally delivered to executives, as authorized by Official Letter SBS No. 9771-2009, were recorded as personnel expenses in the amount disbursed in each year in which such shares were legally delivered to the executive. In August 2011, the SBS issued Official Letter No. 38179-2011, by which it indicated that all share-based payments plan must be recorded following IFRS 2 - Share-based payments, starting January 1, 2012, but requiring prospective treatment. As a result of changes in the accounting treatment of workers' profit sharing, salaries and employee benefits in 2010, 2011 and 2012 include S/.69.9 million, S/.88.1 million and S/.93.9 million associated with employee profit sharing, respectively.

General and administrative expenses increased from S/.709.0 million in 2010 to S/.831.3 million in 2011, and increased to S/.1,035.3 million in 2012, representing an increase of 17.2% from 2010 to 2011 and an increase of 24.6% from 2011 to 2012. As a percentage of operating expenses, general and administrative expenses were 33.4%, 31.6%, 28.9% in 2012, 2011 and 2010, respectively. The increase in expenses in 2012 and 2011 was mainly due to higher marketing and infrastructure expenses.

Depreciation and amortization increased 10.0% to S/.274.1 million in 2012 and increased 13.8% to S/.249.2 million in 2011 from S/.219.0 million in 2010. The increase in 2012 was due mainly to higher amortization expenses of capitalized disbursements related to the implementation and development of several projects (such as the implementation of treasury solutions, the windows system, CRM for wholesale banking and basic information of clients, among others). In 2011, the increase was due to higher amortization expenses of software and of intangibles associated with Financiera Edyficar.

Other expenses decreased 34.1% from S/.98.6 million in 2011 to S/.65.0 million in 2012 and increased 29.9% from S/.75.9 million in 2010 to S/.98.6 million in 2011. In 2012, the decrease was driven by the absence of losses in our position of indexed certificates. In 2011, the increase was due to a S/.50.3 million loss in our proprietary position in indexed certificates recorded in 2011.

Income taxes

Our income tax expense was S/.551.2 million in 2012, S/.508.7 million in 2011 and S/.447.7 million in 2010. The statutory income tax rate payable in Peru in each of those years was 30% of taxable income. BCP's effective tax rates in 2010, 2011 and 2012 were 27.0%, 26.1% and 26.2%, respectively. The increase in the effective tax rate from 2011 to 2012 was due to an increase in non-deductible expenses in 2012. The decrease in the effective tax rate from 2010 to 2011 was driven by a decrease in non-deductible expenses.

Analysis of Financial Condition

Total assets

The following table presents the distribution of our assets at the dates indicated:

| _ | A | as of December 31, | | As of September 30, |
|---|-------------|--------------------|-------------|------------------------|
| _ | 2010 | 2011 | 2012 | 2013 |
| | | (Nuevos Soles in | thousands) | |
| Cash and due from banks, and interbank funds Investments at fair value through profit or loss and available for sale, net, and investments | 23,853,075 | 14,784,184 | 19,870,153 | 20,963,952 |
| held to maturity | 4,536,565 | 9,568,570 | 12,198,973 | 11,503,085 |
| Gross loans | 40,266,971 | 45,654,697 | 52,903,632 | 60,404,202 |
| Allowance for loan losses | (1,181,389) | (1,420,612) | (1,799,129) | (2,229,525) |
| Net loans | 39,085,582 | 44,234,085 | 51,104,503 | 58,174,677 |
| Assets classified as held for sale | - | - | 3,198,607 | - |
| Other assets | 3,439,940 | 3,449,677 | 4,024,963 | 4,344,139 |
| Total assets | 70,915,162 | 72,036,516 | 90,397,199 | 94,985,853 |

Total assets increased by 1.6% in 2011. As of December 31, 2012, we had total assets of S/.90.4 billion which represents an increase of 25.5% from December 31, 2011. As of September 30, 2013, we had total assets of S/.95.0 billion, which represents an increase of 5.1% from December 31, 2012.

The balance of cash and due from banks, and interbank funds includes restricted funds held to comply with existing reserve requirements dictated by the Central Bank. As of December 31, 2012, reserve requirements were approximately S/.5.9 billion and U.S.\$4.0 billion compared to approximately S/.3.8 billion and U.S.\$3.2 billion as of December 31, 2011. As of September 30, 2013, reserve requirements were approximately S/.5.2 billion and U.S.\$3.5 billion, compared to approximately S/.5.9 billion and U.S.\$4.0 billion as of December 31, 2012.

Our total deposits with the Central Bank were S/.15.4 billion as of September 30, 2013, compared to S/.16.1 billion as of December 31, 2012, S/.10.2 billion as of December 31, 2011 and S/.17.7 billion as of December 31, 2010. After decreasing by 49.3% in 2010, increasing by 110.9% in 2011, and increasing by 27.5% in 2012, our securities holdings (which include certificates of deposit from the Central Bank, marketable securities and other investments) decreased by 5.7% to S/.11.5 from December 31, 2012 to September 30, 2013. In October 2010, the Central Bank started accepting deposits in lieu of issuing certificates of deposit in order to increase the effectiveness of its monetary policy. Accordingly, our balance of certificates of deposit (reported as investments) declined in 2010 while our deposits with the Central Bank (reported as cash and due from banks) increased. In 2011, the Central Bank restarted the issuance of certificates of deposit. Consequently, in the year ended December 31, 2011, our deposits with the Central Bank declined by S/.7.5 billion while our holdings of certificates of deposit issued by the Central Bank increased by S/.4.5 billion. As of September 30, 2013, there was a re-composition of interest earning assets in favor of higher yielding loans (rather than certificates of deposit from the Central Bank).

As of September 30, 2013, our direct loans, net of provisions, were S/.58.2 billion compared to S/.51.1 billion, S/.44.2 billion, and S/.39.1 billion as of December 31, 2012, 2011, and 2010, respectively. Our direct net loans represented 61.2% of our total assets as of September 30, 2013 as compared to 56.4% of our total assets as of December 31, 2012, 61.4% as of December 31, 2011, and 55.1% as of December 31, 2010.

Total liabilities

The following table presents the distribution of our liabilities at the dates indicated:

| _ | As of December 31, | | | As of September 30, |
|--|--------------------|------------------|------------|---------------------|
| _ | 2010 | 2011 | 2012 | 2013 |
| | | (Nuevos Soles ir | thousands) | |
| Deposits and obligations | 47,924,250 | 47,299,455 | 58,178,314 | 63,366,836 |
| Due to banks, correspondents and other | | | | |
| entities, and interbank funds | 10,229,670 | 7,971,152 | 9,479,307 | 9,094,496 |
| Bonds and subordinated notes issued | 5,503,498 | 8,416,312 | 9,325,433 | 11,401,912 |
| Other liabilities | 1,718,694 | 2,041,574 | 6,148,092 | 3,354,432 |
| Total liabilities | 65,376,112 | 65,728,493 | 83,131,146 | 87,217,676 |

As of September 30, 2013, we had total liabilities of S/.87.2 billion, an increase of S/.4.1 billion, or 4.9%, as compared to December 31, 2012. In 2011, total liabilities increased by 0.5% and in 2012 total liabilities increased by 26.5%. Total deposits increased by 29.7% from December 31, 2009 to December 31, 2010, decreased by S/.624.8 million from December 31, 2010 to December 31, 2011, and increased by S/.10.9 billion from December 31, 2011 to December 31, 2012. The increase in deposits in 2010 was partially offset by the reclassification of S/.3.1 billion and S/.1.0 billion of time deposits maintained by CCR Inc. and Atlantic Security Bank (both foreign related entities), respectively, to "due to banks, correspondents and other entities, and interbank funds." Excluding the impact of such reclassification, total deposits increased by S/.10.2 billion, or 24.5%, in 2010. Accordingly, due to banks, correspondents, and other entities, and interbank funds increased by S/.226.7 million in 2010. In the first nine months of 2013, total deposits increased by S/.5.2 billion to S/.63.4 billion.

Due to banks, correspondents and other entities, and interbank funds decreased by 4.1% to S/.9.1 billion in the first nine months of 2013 after increasing by 18.9% to S/.9.5 billion in 2012 and decreasing by 22.1% to S/.8.0 billion in 2011. The decrease in the first nine months of 2013 was due to increased balances of deposits and therefore an excess of liquidity. The increase in 2012 was due to the increase of our funding base and our ability to get funding at more attractive rates. In 2011, the decrease in banks, correspondents and other entities, and interbank funds was driven by our decision to increase the average maturity of our funding base by replacing short-term funding with long-term bonds and subordinated notes.

Bonds and subordinated notes issued increased from S/.5.5 billion as of December 31, 2010 to S/.8.4 billion as of December 31, 2011 to S/.9.3 billion as of December 31, 2012. In the first nine months of 2013, bonds and subordinated notes issued increased by S/.2.0 billion or 22.3%. The increases are attributable to long term debt issuances executed in order to meet the growing demand for medium and long-term funding resulting from loan growth, to our decision to extend the average maturity of our funding base and to strengthen our regulatory capital.

Our funding strategy has been structured around maintaining a diversified deposit base. In 2011, demand deposits increased 12.8% to S/.17.0 billion and savings deposits increased 15.2% to S/.13.7 billion, while time deposits, including CTS deposits, decreased 18.1% to S/.16.5 billion. In 2012, demand deposits increased 13.9% to S/.19.3 billion, savings deposits increased 12.9% to S/.15.5 billion and time deposits, including CTS deposits, increased 40.7% to S/.23.2 billion. In the first nine months of 2013, demand deposits increased 2.6% to S/.19.8 billion, savings deposits increased by 8.8% to S/.16.9 billion and time deposits, including CTS deposits, increased 14.1% to S/.26.5 billion. The decrease in time deposits in 2011 was driven by our decision to reduce rate-sensitive deposits primarily from institutional investors. Based on information published by the SBS, we estimate that as of September 30, 2013, we had 41.5% of total savings deposits in the Peruvian banking system and 34.6% of total deposits, both representing the highest share among Peruvian banks. An important characteristic of our deposit base is that, as of September 30, 2013, it included 53.0% of the entire Peruvian banking system's CTS deposits (severance indemnity deposits), compared to 54.8% as of December 31, 2012. We believe that we traditionally have attracted a high percentage of the savings and CTS deposit market because of our reputation as a sound institution,

our extensive branch network and the quality of our service. Our core deposits (savings, CTS and demand deposits) accounted for 67.6% of our total deposits as of September 30, 2013 (69.8% as of December 31, 2012). Based on figures published by the SBS, our market share in these types of deposits amounted to 40.2% of the Peruvian banking system as of September 30, 2013, compared to 43.7% as of December 31, 2012.

Liquidity and Capital Resources

Regulatory Capital and Capital Adequacy Ratios

The following table summarizes our regulatory capital and capital adequacy ratios:

| | As of December 31, | | | As of September 30, |

| Total regulatory capital requirements | 4,296.6 | 4,955.7 | 6,854.9 | 8,490.8 |
| Capital ratios Regulatory capital as a percentage of risk-weighted assets(1)(4) Ratio of risk-weighted assets to regulatory capital(5) | 12.8% 7.8x | 14.5% 6.9x | 14.7% 6.8x | 14.1% 7.1x |

⁽¹⁾ Regulatory capital as calculated in accordance with guidelines by the BIS II Accord as adopted by the SBS. This ratio is calculated on an unconsolidated basis.

⁽²⁾ Since July 1, 2009, amended SBS rules allow banks using the standardized method for capital adequacy purposes to include loan loss reserves up to 1.25% of risk-weighted assets in the calculation of regulatory capital.

⁽³⁾ On July 20, 2011, the SBS issued SBS Resolution No. 8425-2011, establishing the methodologies and the implementation schedule of the additional capital requirements. The new capital requirements, which are aimed at covering risks not contemplated in Pillar I of Basel II, include requirements to cover concentration, interest rate and systemic risk. Additionally, pro-cyclical capital requirements were also established. These new requirements will be implemented over a period of five years starting in July 2012.

⁽⁴⁾ As part of the implementation of Basel II, the SBS minimum regulatory capital requirement, expressed as a percentage of risk-weighted assets has been progressively increased from 9.8% effective July 1, 2010 to 10% effective July 1, 2011, onwards. For further details see "Regulatory Environment—Implementation of Basel Principles—Capital adequacy."

⁽⁵⁾ As part of the implementation of Basel II, this ratio has been lowered from 10.2x effective July 1, 2010, to 10.0x effective July 1, 2011, onwards. For further details see "Regulatory Environment—Implementation of Basel Principles—Capital adequacy."

Liquidity Risk

We manage our assets and liabilities to ensure that we have sufficient liquidity to meet our present and future financial obligations and that we are able to take advantage of appropriate business opportunities as they arise. Liquidity risk represents the potential for loss as a result of limitations on our ability to adjust future cash flows to meet the needs of depositors and borrowers and to fund operations on a timely and cost-effective basis. Financial obligations arise from withdrawals of deposits, repayment on maturity of purchased funds, extensions of loans or other forms of credit, and working capital needs.

The general growth of our deposit base over the past years has enabled us to increase significantly our lending activity. We are subject to SBS Resolution No. 472-2001, enacted in June 2001, which made our Market Risk Unit responsible for liquidity management, and which established minimum liquidity ratios. The liquidity ratio, which is the ratio of liquid assets as a percentage of short-term liabilities, as strictly defined by the SBS, must exceed 15% for Nuevo Sol-denominated liabilities, and 30% for foreign currency-denominated liabilities. Our daily liquidity ratios during the month of September 2013 were 39.6% and 46.0% for Nuevo Sol and foreign currency-denominated liabilities, respectively, compared to 49.2% and 46.3% for Nuevo Sol and foreign currency-denominated liabilities, respectively, in December 2012, to 45.9% and 43.8%, respectively, in December 2011, and 64.4% and 36.8%, respectively, in December 2010, demonstrating our continuing excess liquidity.

Our retail banking and the private banking businesses have developed a diversified and stable deposit base that provides us with a low-cost source of funding. This deposit base has traditionally been one of our greatest strengths. The deposit gathering strategy has focused on products considered as core deposits: demand deposits, savings and CTS deposits.

Other sources of funds and liquidity, mostly short and long-term borrowings from correspondent banks and other financial institutions, issued bonds and subordinated debt, are increasingly important sources of funding. These short and long-term borrowings are predominantly denominated in U.S. dollars and are primarily used to fund foreign currency-denominated loans. We actively manage and monitor the maturity profile of these borrowings to maintain appropriate liquidity levels and to minimize our refinancing risk.

The following table presents our core deposits, other deposits and other sources of funds:

| | | As of September 30, | | |
|--|------------|-----------------------------|------------|------------|
| _ | 2010 | 2011 | 2012 | 2013 |
| | | (Nuevos Soles in thousands) | | |

| sources of liquid funds | 49.3% | 55.6% | 52.6% | 50.9% |

⁽¹⁾ Mostly time deposits and certificates of deposits.

⁽²⁾ Includes total deposits, due to banks and correspondents and issued bonds.

The decline of S/.4.7 billion in other deposits in 2011 was driven by our decision to reduce short-dated time deposits held primarily by rate-sensitive institutional clients. The increase of S/.5.8 billion in other deposits in 2012 was driven by the higher interest rates offered for time deposits and certificates of deposit. The increase of S/.2.9 billion as of September 30, 2013, was driven by a higher demand of time deposits.

We are required to maintain deposits with the Central Bank, as legal reserves, determined as a percentage of the deposits and other liabilities owed to our clients. The legal reserve requirement is currently 9.0% and can vary from time to time. The requirement has been modified several times since December 2009. It was increased from 6.0% to 7.0% in July 2010, to 8.0% in August 2010, to 8.5% in September 2010, and to 9.0% in October 2010. Legal reserves are meant to ensure the availability of liquid funds to cover withdrawals of deposits. Additional reserves are also required for domestic and foreign currency obligations. Additionally, we have significant investments of excess liquid funds in short-term Central Bank deposits and Central Bank certificates of deposit.

The following table presents our deposits at the Central Bank, and our short-term investments in Central Bank certificates:

| _ | | As of December 31, | | As of September 30, |
|--|------------|--------------------|---------------|---------------------|
| _ | 2010 | 2011 | 2012 | 2013 |
| | | (Nuevos Soles | in thousands) | |
| Funds at Central Bank | | | | |
| Deposits | 17,719,107 | 10,203,051 | 16,106,647 | 15,408,594 |
| Certificates of deposit | 1,022,053 | 5,553,165 | 7,559,462 | 6,174,242 |
| Total funds at Central Bank | 18,741,160 | 15,756,216 | 23,666,109 | 21,582,836 |
| Total funds at Central Bank as a percent of total deposits | 39.1% | 32.8% | 40.8% | 34.2% |

In October of 2010, the Central Bank started offering deposits and ceased offering certificates of deposit. Unlike certificates of deposit that were available to a range of investors including pension funds and foreign banks, deposits in the Central Bank are available only to local banks. Certificates of deposit from the Central Bank are reported as available-for-sale investments within our investment portfolio, while deposits at the Central Bank are reported as cash and due from banks. In 2011, the Central Bank restarted issuing certificates of deposit. As a consequence, our balance in deposits with the Central Bank declined while our holdings of certificates of deposits increased in 2011. In 2012, funds with the Central Bank increased by 50.2%, to S/.23.7 billion and as of September 30, 2013, had decreased by 8.8% to S/.21.6 billion compared to December 31, 2012. The decrease was due to a re-composition of interest earning assets in favor of higher yielding loans (rather than certificates of deposit from the Central Bank).

We at times have accessed Peru's short-term interbank deposit market, generally as a lender in the U.S. dollar interbank market and a borrower in the Nuevos Soles interbank market. The Central Bank's discount window, which makes short-term loans to banks at premium rates, is also available as a short-term funding source, though we have used this funding source only infrequently.

The following table presents, for the nine months ended September 30, 2013 and for the years ended December 31, 2010, 2011 and 2012, our bond issuances:

| | For the y | years ended Decembe | er 31, | months ended September 30, |
|--------------------|-----------|---------------------|--------------|-------------------------------|
| | 2010 | 2011 | 2012 | 2013 |
| | | (Nuevos Soles in | n thousands) | |
| Bonds issued | | | | |
| Corporate bonds | 2,247,200 | 2,411,056 | 530,000 | 1,062,006 |
| Leasing bonds | | | | |
| Subordinated bonds | | 1,013,600 | 932,500 | 472,940 |
| Other | 47,969 | 94,906 | | |
| Total | 2,295,169 | 3,519,562 | 1,462,500 | 1,534,946 |
| | | | | |

Among the policies that we follow to ensure sufficient liquidity are the active management of interest rates and the active monitoring of market trends, in order to identify and provide for changes in the supply of deposits or the demand for loans.

Off-Balance Sheet Arrangements

We have various contractual arrangements, such as indirect loan contracts, that are not recognized as liabilities in our consolidated financial statements but are required to be registered in off-balance sheet accounts. We enter into these off-balance sheet arrangements to generate fees from guarantees, letters of credit and derivative transactions offered to customers (including foreign currency forwards, interest rate swaps, cross currency swaps, and options). We also enter into derivative transactions (including foreign currency forwards, interest rate swaps and cross currency swaps) to hedge our exposure when entering into such transactions with our clients and to hedge our consolidated balance sheet against interest rate and currency movements.

The following table reflects our off-balance sheet arrangements (notional amounts) as of September 30, 2013 and December 31, 2010, 2011 and 2012:

| _ | As of December 31, | | | As of September 30, | |

In the normal course of our business, we engage in transactions with off-balance sheet risk exposure. These transactions expose us to credit risk in addition to the amounts recognized in the consolidated financial statements. Credit risk for off-balance sheet financial instruments is defined as the possibility of sustaining a loss because any other party to a financial instrument fails to perform in accordance with the terms of the contract. Our exposure to losses under commitments to extend credit, and export and import letters of credit and guarantees is represented by the contractual amount specified in these instruments. We apply the same credit policies in making commitments and assuming conditional obligations as we do for on-balance sheet instruments, including the requirement to obtain collateral to support off-balance sheet financial instruments, when it is deemed necessary. Collateral held varies, but may include deposits held in financial institutions, securities or other assets.

Due to the fact that many of the indirect loans are expected to expire without any payment being required from us, the total committed amounts do not necessarily represent future cash requirements.

Export and import letters of credit and guarantees and stand-by letters of credit are conditional commitments issued by us to guarantee the performance by a customer of an obligation to a third party. Export and import letters of credit are mainly issued as credit enhancements for overseas commercial transactions. Risks associated with these credits are reduced by the participation of third parties.

The risks associated with derivative contracts arise from the possibility that the counterparty fails to comply with the agreed terms and conditions and that the reference rates at which the transactions took place change. As of September 30, 2013, forward exchange contracts and foreign currency options had maturities of less than three years, and interest rate swaps and currency swaps had maturities of just under 11 years, commencing in October 2013 and ending in August 2024.

We provide custody, trust, corporate administration, investment management and consulting services to third parties. Assets held in trust are not recorded in the consolidated financial statements.

Commitments and Contractual Obligations

We enter into various commitments and contractual obligations which we recognize on our balance sheet that may require future cash payments. The following table summarizes our commitments and contractual obligations by remaining maturity as of September 30, 2013:

| | | Payments due by period | | |
|---|-----------------------------------|------------------------|--------------|-------------------|
| | Total as of September 30, 2013 | Less than 1 year | 1–5 years | More than 5 years |
| | | (Nuevos Soles in | thousands) | |
| Bonds | 11,232,125 | 449,469 | 1,764,789 | 9,017,868 |

| Due to banks, correspondents, and other entities and repurchase | | | | |
| agreements (1) | 10,204,408 | 3,031,307 | 4,940,997 | 2,232,104 |
| Total | 42,213,863 | 23,172,205 | 7,228,925 | 11,812,734 |

⁽¹⁾ Includes mainly loans to fund foreign trade operations and working capital, and promotional credit lines granted by COFIDE to promote affordable housing in Peru. Some of the loan agreements include standard clauses requiring us to comply with financial ratios, use of funds covenants and other administrative matters. In our management's opinion, such standard clauses do not limit our normal operation, and are substantially fulfilled in the application of standard international banking practices. Financings recorded under "Due to banks and correspondents" bear interest at prevailing domestic and international market rates and do not have specific guarantees.

As of September 30, 2013, due to banks, correspondents, and other entities included loans maintained with CCR Inc. (a Credicorp subsidiary) for U.S.\$899.9 billion, equivalent to S/.2,503.6 million, (U.S.\$1,016.4 million, equivalent to S/.2,591.9 million as of December 31, 2012) as part of the notes issued under our diversified payment rights program, whereby CCR Inc. incurred debt that is secured by the collection of future inflows. Also, as of September 30, 2013 due to banks, correspondents, and other entities includes a promissory note with BCP Emisiones Latam 1 S.A. (a wholly owned subsidiary of Credicorp) for 2.7 million *Unidades de Fomento Chilenas* (Chilean Unit of Account) – UF, equivalent to S/.344.8 million (S/.328.6 million as of December 31, 2012) related to the issuance by BCP Emisiones Latam 1 S.A. of bonds through the Santiago de Chile Stock Exchange. For further details, see note 10(c) to our interim consolidated financial statements and 12(c) to our audited consolidated financial statements as of December 31, 2012.

Trend Information

According to figures published by the SBS, in the nine months ended 2013, Peru's financial system grew by 14.5% and by 13.1% in terms of deposits and loans, respectively. Commercial banks' deposits and loans in turn grew by 11.2% and by 12.2%, respectively, while official GDP figures reported by the INEI show an accumulated GDP growth of 4.4% over the same period.

In 2014, we believe we will see the continuation of the previous year's positive trends. Domestic demand is expected to continue strengthening, creating opportunities for increasing banking penetration. This perspective

assumes that there will not be any substantial economic policy changes in the near future and that the unstable international economic environment will not have a significant adverse effect on the Peruvian economy due to the expected strength of Peruvian external and fiscal accounts.

We anticipate continued expansion of the Peruvian economy. We intend to focus on maintaining market share in our core businesses while increasing our share of the small business segment and certain retail banking products, where we believe there is a margin for growth as we believe financial intermediation remains relatively low.

In order to keep pace with the growth experienced during 2012, 2011 and 2010, we will continue to make investments in expanding our operating capacity and generating a competitive advantage with larger and more innovative business activities. We expect to continue remodeling our branch network, open new branches and install new ATMs and BCP Agents. In addition, we expect to continue to invest in system upgrades, new equipment and applications in information technology. As a consequence of this expansion, we expect to have increases in personnel expenses, marketing expenses, information technology, transportation and communications required to operate the growing channels of our client services.

In addition to expanding our infrastructure and human resources, we expect to continue increasing our capital base through access to the international capital markets and additional retention of earnings.

In order to manage our growth, we intend to continue enforcing high evaluation standards when granting loans and our conservative provisioning policy as a means of mitigating exposure to credit risk although we cannot assure you that we will be able to maintain the quality of our loan portfolio during a time of growth and expansion into riskier business segments.

SELECTED STATISTICAL AND OTHER INFORMATION

The following tables present certain selected statistical information and ratios for us for the periods indicated. The selected statistical information should be read in conjunction with the information in the annual consolidated financial statements and the notes thereto and the interim consolidated financial statements and the notes thereto. The statistical information and discussion and analysis presented below reflect our consolidated financial position, as of December 31, 2010, 2011 and 2012, and as of September 30, 2013, and the results of operations for 2010, 2011 and 2012, and for the first nine months of 2013.

Average Balance Sheets and Income from Interest-Earning Assets

The tables below set forth selected statistical information based upon our average balance sheets prepared on a consolidated basis. Except as otherwise indicated, average balances, when used, have been classified by currency (Nuevos Soles or foreign currency (primarily U.S. dollars)), rather than by the domestic or international nature of the balance. In addition, except where noted, such average balances are based upon the month ending balances for each year, with any such annual balance denominated in Nuevos Soles having been converted into U.S. dollars using the applicable exchange rate published by the SBS as of the date of such balance.

The following tables show average balances for all of our assets and liabilities, interest earned and paid amounts, and nominal rates for our interest-earning assets and interest-bearing liabilities, all for the years ended December 31, 2010, 2011 and 2012, and for the nine months ended September 30, 2013.

| Weighted-average rate | 4.91% | 4.93% | 5.14% | 5.17 % | |

⁽¹⁾ Gross yield equals interest income divided by average interest-earning assets.

Deposits with Other Banks

The following table shows short-term funds deposited with other banks broken down by currency as of the dates indicated. Deposits held in countries other than Peru are denominated in several currencies; however, the substantial majority of such deposits are denominated in U.S. dollars. These currencies were converted to Nuevos Soles using the applicable exchange rate published by the SBS as of the date of the relevant balance sheet.

| | | As of September 30, | | |

| Commercial banks | 3,593,349 | 1,244,090 | 1,083,846 | 2,448,069 |

⁽²⁾ Net interest margin represents net interest income from interest-earning assets and bearing-interest liabilities divided by average interest-earning assets.

⁽³⁾ Yield spread, on a nominal basis, represents the difference between gross yield on average interest-earning assets and average cost of interest-bearing liabilities.

| | | As of September 30, | | | |
|--|------------|---------------------|-------------------|------------|--|
| | 2010 | 2011 | 2012 | 2013 | |
| | | (Nuevos Soi | les in thousands) | | |
| Other | 165,731 | 245,853 | 178,230 | 38,114 | |
| Total foreign currency- denominated | 9,641,830 | 9,466,165 | 11,998,534 | 13,998,720 | |
| Total | 21,668,714 | 11,975,048 | 17,432,767 | 18,331,151 | |

In 2010 the Central Bank started offering deposits in lieu of certificates of deposit. Accordingly, the balance of deposits with the Central Bank increased in 2010, while the balance of BCRP certificates of deposit decreased. In 2011, the Central Bank restarted issuing certificates of deposits. Our balance of deposit with the Central Bank consequently decreased while our holdings in certificates of deposit issued by the Central Bank increased. Deposits with the Central Bank increased by S/.6.0 billion to S/.16.1 billion in 2012 and had decreased by S/.0.4 billion to S/.15.7 billion as of September 30, 2013.

Investment Portfolio

The following table shows the value of our trading, available-for-sale, and held-to-maturity investment securities by type at the dates indicated. In accordance with amendments introduced by the SBS through Resolution No. 10639-2009 in force until December 31, 2012 and in accordance with SBS Resolution No. 7033-2012 in force as of January 1, 2013 (which superseded SBS Resolution No. 10639-2009), trading and available-for-sale investments as of December 31, 2010, 2011, and 2012 and as of September 30, 2013 are shown at fair value while held-to-maturity investments are shown at amortized cost less impairment if applicable:

| _ | A | , | As of September 30, | |

| Asset Backed Securities | 19,285 | 295,577 | 307,015 | 285,571 |
| Other investment | 204,032 | 198,266 | 81,465 | 201,944 |
| Total securities holdings | 4,512,504 | 9,547,588 | 12,161,678 | 11,456,314 |

⁽¹⁾ Includes unrealized gains of S/.596.9 million, S/.426.9 million, S/.532.0 million and S/.493.8 as of December 31, 2010, 2011,2012 and September 30, 2013, respectively.

In April 2010, we participated in an exchange program offered by the Peruvian Government whereby we exchanged our 7.500% Euro denominated Global Bonds due 2014 for cash and new bonds (8.375% U.S. dollar denominated Global Bonds due 2033, the "2033 Bonds"). We received €90.4 million (equivalent to S/.348.0 million) in cash and U.S.\$323.1 million (equivalent to S/.915.9 million) in 2033 Bonds.

In October 2010, the Central Bank, started offering deposits in lieu of certificates of deposit. Accordingly, the balance of these notes declined in 2010 while our deposits with the Central Bank increased. In 2011, the Central Bank restarted issuing certificates of deposits. Consequently, our holdings in certificates of deposit increased while our deposits with the Central Bank decreased. In 2012, BCP's holdings of BCRP's certificates increased by S/.2.0

billion to S/.7.6 billion and as of September 30, 2013, had decreased by S/.1.3 billion to S/.6.2 billion. As of September 30, 2013, there was a re-composition of interest earning assets in favor of higher yielding loans (rather than certificates of deposit from the Central Bank).

The weighted-average yield on our Nuevo Sol-denominated interest and dividend-earning investment portfolio was 1.6% in 2010, 4.1% in 2011, 3.9% in 2012 and 3.8% in the first nine months of 2013. The weighted-average yield on our foreign currency-denominated portfolio was 4.2% in 2010, 2.3% in 2011, 2.2% in 2012 and 2.9% in the first nine months of 2013. The total weighted-average yield of our portfolio was 2.3% in 2010, 3.5% in 2011, 3.3% in 2012 and 3.5% in the first nine months of 2013.

Unrealized gains and losses arising from changes in the fair value of securities classified as investments available-for-sale are recognized in equity, net of the related deferred income taxes. Unrealized gains and losses are recognized as income or loss when the related investment available-for-sale is sold or impaired.

We determine that an available-for-sale equity investment, such as common shares, is impaired when there has been a significant or prolonged decline in its fair value below its cost. The determination of what is significant or prolonged requires management's judgment. In making this judgment, we evaluate, among other factors, the normal volatility in share prices, evidence of deterioration in the financial health of the investment, industry and sector performance, changes in technology, and operational and financing cash flows. In the case of available-for-sale debt investments, impairment analysis takes into consideration a number of factors, including the nature of the investment, the underlying collateral, the degree of subordination or credit enhancement and published credit ratings. If recovery of all amounts due is judged to be unlikely, an impairment is deemed to exist.

The following table shows the maturities of our investment securities by type as of September 30, 2013:

| | No maturity | Within 1 year | After 1 year but within 5 years | Maturin g After 5 years but within 10 years | After 10 Years | Total |

| Past due loans amounts | (587,471) | (696,472) | (944,532) | (1,357,994) |
| Total performing loans | 40,372,447 | 45,856,372 | 52,951,395 | 58,676,519 |
| Performing loans as a percentage of total gross loans | 98.6% | 98.5% | 98.2% | 97.7% |

⁽¹⁾ According to Resolution No. 7036-2012, the balances of deferred interest on leasing receivables are not included in the account leasing transactions since January 31, 2013. The balances of deferred interest on leasing receivables amounted to S/.935.3 million, S/.1,173.1 million, and S/.1,324.7 million as of December 31, 2010, 2011, and 2012, respectively.

The classification of the loan portfolio as set forth in the table above is based upon the regulations of the SBS. These categories do not correspond to the classifications used in preparing the breakdown of the loan portfolio by business unit set forth under "Business." Pursuant to the guidelines of the SBS, loans are categorized as follows:

Loans and credit cards: Basic term loans documented by promissory notes and other extensions of credit, such as mortgage loans, credit cards and other consumer loans in various forms, including trade finance loans to importers and exporters on specialized terms adapted to the needs of the international trade transaction.

Discounted notes: Loans discounted at the outset (the client signs a promissory note or other evidence of indebtedness for the principal amount payable at a future date). Discounted loans also include discounting of drafts, where we make a loan supported by a draft signed by one party and discounted by another party, with recourse to both parties.

⁽²⁾ Total gross loans exclude accrued interest on performing loans.

Advances and overdrafts: Extensions of credit to clients by way of an overdraft facility in the client's checking account. This category also includes secured short-term advances.

Leasing transactions: Involves our acquisition of an asset and the financial leasing of that asset to our client.

Factoring: Involves the sale of title of a company's accounts receivables to a bank or other financial institution. The receivables are sold without recourse, and we cannot collect from the seller in the event accounts prove uncollectible. Factoring involves the receipt of funds by the seller from the bank prior to the average maturity date, based upon the invoice amount of the receivable, less cash discounts, less an allowance for estimated claims and returns, among other items.

Refinanced and restructured loans: Include loans with changes in their payment schedules due to payment difficulties. Under SBS regulations, refinanced loans constitute loans for which the debtor is experiencing payment problems. Restructured loans are refinanced loans that are extended under the bankruptcy protection procedures of the Peruvian Corporate Restructuring Law.

Past-due loans: Includes overdue loans categorized according to the SBS guidelines. This amount excludes amounts included in "Refinanced and restructured loans."

We record direct loans when a disbursement of funds is made to a client.

Direct Loans by Economic Activity

The following table shows our total loan portfolio composition, net of unearned interest, based upon the borrower's principal economic activity as of December 31, 2010, 2011 and 2012.

Concentrations of Loan Portfolio and Lending Limits

Direct and indirect loans to our most important 20 customers, excluding related party transactions, by exposure (considered as economic groups) as of September 30, 2013 were S/.8.0 billion (U.S.\$ 2.9 billion), all of which were outstanding loans, representing 13.3% of the total loan portfolio. Total direct and indirect loans outstanding and available by customer ranged from S/.712.3 million (U.S.\$ 256.0 million) to S/.240.3 million (U.S.\$ 86.4 million), including 15 customers with over S/.278.2 million (U.S.\$ 100.0 million). Total direct and indirect loans outstanding and available to our 20 largest customers were classified in the following risk categories as of September 30, 2013: Normal (*Normal*) 100%; Potential Problem (*Problema Potencial*) 0%; Substandard (*Deficiente*) 0%; Doubtful (*Dudoso*) 0%; and Loss (*Pérdida*) 0%. See "—Classification of the Loan Portfolio."

Our loans to a single borrower are subject to lending limits imposed by the Peruvian Banking Law. The applicable legal lending limits depend on the nature of the borrower involved and the type of collateral received. The sum of loans to and deposits from another Peruvian financial institution, plus any guarantees of third-party performance received by us from such institution, may not exceed 30% of our regulatory capital, as defined by the SBS. The sum of loans to and deposits from non-Peruvian financial institutions, plus any guarantees of third-party performance received by us from such institutions, are limited to either 5%, 10% or 30% of our regulatory capital, depending upon the governmental supervision to which the institution is subject and upon whether it is recognized by the Central Bank as an international bank of prime credit quality. The limits on lending to non-Peruvian financial institutions increase up to 50% of our regulatory capital if the amount by which such loans exceed the 5%, 10% or 30% limits is backed by certain letters of credit.

Loans to Peruvian non-residents or companies that are not financial institutions have a limit of 5% of our regulatory capital; however, this limit increases to 10% if the additional 5% is guaranteed by a mortgage or with a pledge over certain publicly-traded securities. The limit increases up to 30% if the additional amount is guaranteed by certain banks or by cash deposits in us.

Lending on an unsecured basis to individuals or companies residing in Peru that are not financial institutions is limited to 10% of our regulatory capital. This limit rises to 15% if the additional 5% is guaranteed by a mortgage, pledge over certain securities and equipment or other collateral, and to 20% if the additional amount is backed by certain debt instruments guaranteed by another local bank, or by a foreign bank determined by the Central Bank to be of prime credit quality, or by other highly liquid securities at market value.

The single borrower lending limit for loans backed by a cash deposit at BCP or by debt obligations of the Central Bank is 30% of our regulatory capital. Therefore, with an unconsolidated regulatory capital of S/.10.2 billion (U.S.\$ 3.7 billion) as of September 30, 2013, our legal lending limits vary from S/.1,021.2 million (U.S.\$ 367.1 million) to S/.5.1 billion (U.S.\$ 1.8 billion). As of September 30, 2013, we continue to be in compliance with Peruvian Banking Law lending limits.

As of September 30, 2013 and at all reported dates, we were in compliance with applicable legal lending limits in each of the jurisdictions where we operate. Such limits are calculated quarterly based upon our consolidated equity plus reserves at quarter-end. A limited number of exceptions to our internal limits have been authorized by our Board of Directors from time to time, based upon the credit quality of the borrower, the term of the loan and the amount and quality of collateral received. We may, in appropriate and limited circumstances, increase or choose to exceed this internal limit in the future within the limits established by the SBS.

In the event that customers to which we have significant credit exposure are not able to meet their obligations to us, and any related collateral is not sufficient to cover such obligations, or if a reclassification of one or more of such direct or indirect loans results in an increase in provisions for loan losses, there may be an adverse effect on our financial condition and results of operations.

Loan Portfolio Denomination

The following table presents our Nuevo Sol and foreign currency-denominated loan portfolio at the dates indicated. At the end of September 30, 2013, the loan portfolio denominated in local currency represented 46.9% of total gross loans. This level exceeds the level reported as of December 31, 2012 (43.4%), demonstrating the effectiveness of the Central Reserve Bank's de-dollarization policy, which seems to have had a favorable impact on incentivizing loans in Nuevos Soles by reducing local currency reserve requirements and increasing foreign currency requirements, thereby reducing the gap between rates in Nuevos Soles and US Dollars.

Classification of the Loan Portfolio

We classify our loan portfolio (which includes the loan portfolio of BCB) in accordance with SBS regulations. In accordance with SBS Resolution No. 11356-2008, as of July 1, 2010, a bank's loan portfolio is to be classified in eight different categories: corporate, big-business, medium-business, small-business, micro-business, revolving consumer, non-revolving consumer, and residential mortgage loans.

Corporate loans are, among others, those granted to companies with annual sales of more than S/.200 million during the last two years, pursuant to their latest audited financial statements. Big-business loans are those granted to companies: (a) with annual sales of more than S/.20 million but less than S/.200 million during the last two years, pursuant to their latest financial statements; or (b) having outstanding debt instruments in the capital market during the last year. Medium-business loans are those extended to companies that have outstanding loans due to local financial institutions, during the last six months, in an amount exceeding \$\, \)300,000, but that do not meet the requirements to be classified as "corporate" or "big-businesses." Small-business loans are those extended to finance the production and sale of goods and services of companies or individuals which, during the last six months, had outstanding loans due to local financial institutions (other than residential mortgage loans) of more than S/.20,000 but less than S/.300,000. Micro-business loans are those extended to finance the production and sale of goods and services of companies or individuals which, during the last six months, had outstanding loans due to local financial institutions (other than residential mortgage loans) of less than S/.20,000. Revolving consumer loans are revolving credits extended to individuals to pay for goods, services or expenses, not related to business activities. Nonrevolving consumer loans are non-revolving credits extended to individuals to pay for goods, services or expenses, not related to business activities. Residential mortgage loans are loans extended to individuals for the purchase, construction, remodeling, subdivision or improvement of the individual's own home, in each case secured by a mortgage. The classification of a loan determines the amount of allowance that should be recorded in the event that the borrower defaults in its payments.

Regulations promulgated by the SBS also require Peruvian banks to classify such debtors in any of the following five categories depending upon the degree of risk of payment default: Normal (*Normal*), Potential Problem (*Problema Potencial*), Substandard (*Deficiente*), Doubtful (*Dudoso*) and Loss (*Pérdida*). We review our loan portfolio on a continuing basis, and the SBS reviews the portfolio as it deems necessary or prudent. In classifying our loans based upon risk of nonpayment, we, in compliance with SBS guidelines, assess the following factors: the payment history on the particular loans, the history of our dealings with the borrower, management, operating history, repayment capability and availability of funds of the borrower, status of any collateral or guarantee, the borrower's financial statements, general risk of the sector in which the borrower operates, the borrower's risk classification made by other financial institutions, and other relevant factors. The classification of the loan determines the amount of the required loan loss provision.

Under current regulations, collateral is not subtracted from the amount of the loan or credit outstanding to determine the amount of the related reserve. Instead, a lower loan provision is allowed to be made on the portion of the loan or credit that is secured. For the purpose of determining the amount of the required reserve, collateral is valued in accordance with SBS regulations, which require an appraisal of its expected market value. Only assets

classified as (i) "preferred," (ii) "highly liquid preferred," or (iii) "self-liquidating preferred" are acceptable as collateral. Such collateral must, according to SBS regulations, (1) be relatively liquid, (2) have legally documented ownership, (3) have no liens outstanding and (4) have constantly updated appraisals. Examples of "preferred" or "highly liquid preferred" assets include, among others, cash deposits, real estate mortgages and pledges on securities or on other goods. "Self-liquidating preferred" assets include solely cash deposits in local banks or stand-by letters of credit from premier foreign institutions. Similarly, for Credits Affected by Counterparty Substitution ("CACS"); the allowance requirement, for the secured amount, depends on the risk classification of the counterparty guaranteeing the payment of the loan or credit regardless of the risk classification of the actual client/debtor.

SBS regulations require Peruvian banks to maintain two types of loan loss reserves: (a) "generic" reserves (provisiones genéricas) on their total direct and indirect loan portfolio classified as Normal (Normal), at an allowance rate of (i) 0.7% for corporate loans, big-business loans and residential mortgage loans, and (ii) 1.0% for medium-business loans, small-business loans, micro-business loans, revolving consumer loans and non-revolving consumer loans; and (b) specific reserves (provisiones específicas) on their total direct and indirect loan portfolio classified under the Potential Problem (Problema Potencial), Substandard (Deficiente), Doubtful (Dudoso) and Loss (Pérdida) categories, at an allowance rate of 5%, 25%, 60% and 100%, respectively. These percentages may be reduced if the loans are secured by certain types of collateral provided that certain requirements set forth under SBS Resolution No. 11356-2008, as amended, are satisfied. Additionally, under certain macroeconomic conditions, procyclical reserve requirements ranging from 0.3% to 1.5% could be required. For further details, see "Regulatory Environment" and notes 3(e) and 7(e) to the annual consolidated financial statements.

Loan Risk Categories

Normal (*Normal*). Debtors of commercial loans or credits that fall into this category have complied in a timely manner with their obligations and at the time the credit is evaluated there is no reason to doubt that interest and principal on the loan will be paid in a timely fashion or that the status will change before the next evaluation. To place a loan or credit in the Normal (*Normal*) category, a clear understanding of the use of proceeds and the origin of the cash flows to be used by the debtor to repay the loan or credit is required. Included in this category are: (i) small-business loans, micro-business loans, revolving consumer loans and non-revolving consumer loans with payment delays of up to eight days; and (ii) residential mortgage loans with payment delays of up to 30 days. Corporate loans, big-business loans and residential mortgage loans in this category require a reserve of 0.7%, while medium-business loans, small-business loans, micro-business loans, revolving consumer loans and non-revolving consumer loans in this category require a reserve of 1.0%.

Potential Problem (*Problema Potencial*): Loans or credits in this category are known as credits with "potential problems." Commercial loans or credits included in this category are those that at the time of evaluation demonstrate certain deficiencies, which, if not corrected in a timely manner, imply risks with respect to the recovery of the loan. Certain common characteristics of loans or credits in this category include: frequent delays in loan payments that are promptly cured, lack of information required to analyze the debtor, outdated financial information, temporary economic or financial imbalances on the part of the debtor that could affect its ability to repay the loan, market conditions that could affect the economic sector in which the debtor operates, material overdue debts or pending judicial collection actions initiated by other financial institutions, noncompliance with the original contractual terms and conditions, conflicts of interest within the debtor company, labor problems, unfavorable credit history, the debtor's noncompliance with its internal policies, excessive reliance on one source of raw materials or one buyer of the debtor's products and low inventory turnover ratios or large inventories that are subject to competitive challenges or technological obsolescence. Included in this category are: (i) corporate loans, big-business loans and medium business loans with payment delays of up to 60 days, (ii) small-business loans, micro-business loans, revolving consumer loans and non-revolving consumer loans with payment delays of 9 to 30 days; and (iii) residential mortgage loans with payment delays of 31 to 60 days. A 5.0% reserve on total loans outstanding under this category is required to cover risks of loss that have not been specifically identified. Except for consumer loans (revolving and non-revolving), when the loan, or a portion thereof, is secured with "preferred" collateral, the required reserve is 2.5%, and when secured with "highly liquid preferred" collateral, the required reserve is 1.25%.

Substandard (*Deficiente*): Loans or credits in this category are known as "substandard" credits. Debtors of commercial loans or credits placed in this category demonstrate serious financial weakness, often with operating profits or available income insufficient to cover financial obligations on agreed upon terms, with no reasonable short-term prospects for a strengthening of the debtor's financial capacity. Loans or credits demonstrating the same

deficiencies as a Potential Problem (*Problema Potencial*) are considered Substandard (*Deficiente*) if such deficiencies are not corrected in the near term, or if they could impede the recovery of principal and interest on the loan on the originally agreed terms. Included in this category are: (i) corporate debtors, big-business loan debtors and medium business loan debtors with payment delays of 61 to 120 days; (ii) small-business loan debtors, microbusiness loan debtors, revolving consumer loan debtors and non-revolving consumer loan debtors with payment delays of 31 to 60 days; and (iii) residential mortgage loan debtors with payment delays of 61 to 120 days. Loans or credits included in this category require a reserve equal to 25.0% of the outstanding principal amount of the loan that is not secured by collateral. A 25.0% reserve on total loans outstanding in this category is required to cover risks of loss that have not been specifically identified. Except for consumer loans (revolving and non-revolving), when the loan, or a portion thereof, is secured with "preferred" collateral, the required reserve is 12.5%, and when secured with "highly liquid preferred" collateral, the required reserve is 6.25%.

Doubtful (*Dudoso*): Loans or credits included in this category are known as "doubtful" credits. Debtors of commercial loans or credits included in this category present characteristics of actual credit risk that make the recovery of the loan doubtful. Although the loan recovery is doubtful, if there is a reasonable likelihood that in the near future the creditworthiness of the debtor might improve, a Doubtful (*Dudoso*) categorization is appropriate. These credits are distinguished from Loss (*Pérdida*) credits by the requirement that the debtor continue to operate its business, generate cash flow, and make payments on the loan, albeit at a rate less than that specified in its contractual obligations. Included in this category are: (i) corporate debtors, big-business loan debtors and medium business loan debtors with delays of 121 to 365 days; (ii) small-business loan debtors, micro-business loan debtors, revolving consumer loan debtors and non-revolving consumer loan debtors with payment delays of 61 to 120 days; and (iii) residential mortgage loan debtors with payment delays of 121 to 365 days. A 60.0% reserve on total loans outstanding in this category is required to cover risks of loss that have not been specifically identified. Except for consumer loans (revolving and non-revolving), when the loan, or a portion thereof, is secured with "preferred" collateral, the required reserve is 30.0%, and when secured with "highly liquid preferred" collateral, the required reserve is 15.0%.

Loss (*Pérdida*): Loans or credits in this category are known as "loss" credits. Commercial loans or credits that are considered unrecoverable or that for any other reason should not appear on our books as an asset based on the originally contractual terms fall into this category. Included in this category are: (i) corporate debtors, big-business loan debtors and medium business loan debtors with occasional and reduced payment delays of more than 365 days; (ii) small-business loan debtors, micro-business loan debtors, revolving consumer loan debtors and non-revolving consumer loan debtors with payment delays of more than 120 days; and (iii) residential mortgage loan debtors with payment delays of more than 365 days. A 100% reserve on total loans outstanding in this category is required to cover risks of loss that have not been specifically identified. Except for consumer loans (revolving and non-revolving), when the loan, or a portion thereof, is secured with "preferred" collateral, the required reserve is 60.0%, and when secured with "highly liquid preferred" collateral, the required reserve is 30.0%.

The following table shows our direct loan portfolio risk classification at the dates indicated:

| | | As of September | | |
|---------------------------------|------------|-----------------|---------------|------------|
| | 2010 | 2011 | 2012 | 30, 2013 |
| | _ | (Nuevos Soles | in thousands) | |
| Level of Risk Classification | | | | |
| I: Normal (<i>Normal</i>) | 38,963,469 | 44,121,613 | 51,134,987 | 56,477,181 |
| II: Potential Problem (Problema | | | | |
| Potencial) | 882,265 | 1,176,645 | 1,152,935 | 1,405,696 |
| III: Substandard (Deficiente) | 352,181 | 376,957 | 486,941 | 643,501 |
| IV: Doubtful (Dudoso) | 340,859 | 426,421 | 592,029 | 737,156 |
| V: Loss (<i>Pérdida</i>) | 421,144 | 451,208 | 529,035 | 770,978 |
| Total gross loans | 40,959,918 | 46,552,844 | 53,895,927 | 60,034,513 |
| III+IV+V(Impaired loans) | 1,114,184 | 1,254,586 | 1,608,005 | 2,151,635 |

All of the Loss (*Pérdida*) loans and substantially all of the Doubtful (*Dudoso*) loans are past due. Substandard (*Deficiente*) loans, although generally not past due, have demonstrated credit deterioration such that management has serious doubts as to the ability of the borrower to comply with the present loan repayment terms. We consider

the collateral securing these loans only for purposes of establishing loan loss reserves and not for purposes of classification.

Classification of the Loan Portfolio Based upon the Borrower's Payment Performance

We classify loans as past due at various times, depending on their type. We consider corporate loans, big-business loans, and medium-business loans past due after no more than 15 days. Loans for small-business and micro-business loans are past due after 30 days. Consumer, mortgage and leasing loans are considered past due after 90 days. Also, pursuant to SBS rules, we consider overdrafts past due after 30 days. Accrued interest on past-due loans is recognized only when and to the extent received. With the exception of discounted notes and overdrafts, the recognition of accrued but unpaid interest on a loan is reversed when it becomes past due. The following table sets forth the repayment status of our loan portfolio:

| | | As of December 31, | | | | |
|--|------------|--|------------|-----------------------|--|--|
| | 2010 | 2011 | 2012 | September 30, 2013 | | |
| | (Nuevo | (Nuevos Soles in thousands, except as otherwise in | | | | |
| Current(1) | 39,409,781 | 44,652,586 | 51,582,475 | 58,601,722 | | |
| Past due | | | | | | |
| Overdue 16-119 days | 192,698 | 247,096 | 375,741 | 531,599 | | |
| Overdue 120 days or more | 394,773 | 449,376 | 568,797 | 826,395 | | |
| Total past-due loans | 587,471 | 696,472 | 944,538 | 1,357,994 | | |
| Total loans | 39,997,252 | 45,349,058 | 52,527,013 | 59,959,716 | | |
| Unearned interest | 962,666 | 1,203,786 | 1,368,913 | 74,796 | | |
| Total gross loans | 40,959,918 | 46,552,844 | 53,895,927 | 60,034,512 | | |
| Past due loan amounts as a percentage of total | | | | | | |
| loans | 1.5% | 1.5% | 1.8% | 2.3% | | |

⁽¹⁾ Figures are net of unearned interest.

In accordance with SBS regulations, we classify as past due only the amount of the past-due installments on any consumer, mortgage and leasing credit, provided that no amount of such credit is past due for over 90 days. The entire amount of these loans will be considered past due if any amount is past due more than 90 days. In terms of portfolio quality, the past due ratio increased to 2.3% as of September 30, 2013, compared to 1.8% as of December 31, 2012. The increase in the past due ratio is due to an expansion in the past due portfolio. This was in turn due to higher delinquency in the small companies lending portfolio, which coincides with the average maturity period of 24 months for loans drawn prior to adjustment from July 2011 to August 2012. The growth in past due loans is significantly lower for loans drawn after August 2012.

Past Due Loan Portfolio

The following table analyzes our past due loan portfolio by type of loan:

| _ | | As of September | | |
|-----------------------------------|---------|-----------------|------------------|-----------|
| _ | 2010 | 2011 | 2012 | 30, 2013 |

⁽¹⁾ These reserves for loan losses have been established in accordance with SBS regulations. See "—Classification of the Loan Portfolio."

Allowance for Loan Losses

The following table shows the changes in our allowance for loan losses, including reserves for indirect loans and movements at the dates indicated:

| _ | A | As of September | | |
|---|-----------|--------------------|-----------|-----------|
| _ | 2010 | 2011 | 2012 | 30, 2013 |
| | | (Nuevos Soles in t | housands) | |
| Allowance for loan losses at the | | | | |
| beginning of the year/period | 1,095,841 | 1,273,789 | 1,524,348 | 1,915,117 |
| Net provisions for the period | 594,831 | 708,484 | 1,111,244 | 993,871 |
| Loan portfolio written off | (404,396) | (432,614) | (677,883) | (619,373) |
| Foreign exchange translation | (12,487) | (25,311) | (42,592) | 57,751 |
| Allowance for loan losses at the end of the year/period | 1,273,789 | 1,524,348 | 1,915,117 | 2,347,366 |

For a discussion of the risk elements in the loan portfolio and the factors considered in determining the amount of specific reserves, see "—Classification of the Loan Portfolio."

Allowance for loan losses as of September 30, 2013 includes S/.2.2 billion of reserves for losses on direct loans and S/.117.8 million of reserves for losses in indirect loans (S/.1.8 billion and S/.116.0 as of December 31, 2012, respectively). The reserves for losses on indirect loans are reported within Other Liabilities in our consolidated balance sheet.

For the years ended December 31, 2010, 2011 and 2012 and the nine months ended September 30, 2013, we had recoveries of previously written-off loans of approximately S/.86.6 million, S/.97.0 million, S/.108.2 million and S/.96.3 million, respectively, which are included as Other Income in our annual consolidated financial statements.

Allocation of the Allowance for Loan Losses

The following table sets forth the amounts of the allowance for loan losses attributable to commercial, consumer and residential mortgage loans, and leasing transactions at the dates indicated:

| _ | A | As of September | | |
|----------------------------|-----------|-----------------|---------------|-----------|
| _ | 2010 | 2011 | 2012 | 30, 2013 |
| | | (Nuevos Soles | in thousands) | |
| Commercial loans | 827,063 | 983,089 | 1,216,704 | 1,504,084 |
| Consumer loans | 301,886 | 362,604 | 488,634 | 572,217 |
| Residential mortgage loans | 144,840 | 178,656 | 209,779 | 269,239 |
| Leasing transactions | _ | _ | _ | 1,826 |
| Total allowance(1) | 1,273,789 | 1,524,348 | 1,915,117 | 2,347,366 |

Includes reserves for indirect loans, which include guarantees and stand-by letters of credit, import and export letters of credit, and due from bank acceptances.

⁽²⁾ Includes reserves for indirect loans (which include guarantees and stand-by letters of credit, import and export letters of credit, and due from bank acceptances) of S/.92.4 million, S/.103.7 million, S/.116.0 million and S/.117.8 million as of December 31, 2010, 2011 and 2012 and September 30, 2013, respectively.

Return on Equity and Assets

The following table provides the components for our return on equity and assets.

| | | _ As of September 30, | | |
|---------------------------|-------|-----------------------|-------|-------|
| | 2010 | 2011 | 2012 | 2013 |
| Return on assets(1) | 1.9% | 2.0% | 1.8% | 1.7% |
| Return on equity(2) | 24.6% | 25.2% | 22.5% | 22.2% |
| Dividend payout ratio(3) | 45.2% | 40.9% | 41.4% | _ |
| Equity to assets ratio(4) | 8.0% | 7.9% | 8.0% | 7.7% |

⁽¹⁾ Net income as a percentage of average total assets, computed as the average of month-end balances.

⁽²⁾ Net income as a percentage of average shareholders' equity, computed as the average of month-end balances.

⁽³⁾ Declared dividends per share divided by net income per share.

⁽⁴⁾ Average shareholder's equity divided by average total assets.

Short-Term Borrowings

Our short-term borrowings, defined as interbank funds and due to banks and correspondents with a maturity of less than one year, amounted to S/.4.8 billion, S/.3.0 billion, S/.4.1 billion and S/.3.3 billion as of December 31, 2010, 2011 and 2012 and September 30, 2013, respectively.

Derivative Instruments

The tables below set forth, for the years ended December 31, 2010, 2011, 2012 and for the nine months ended September 30, 2013, the fair value of the derivative financial instruments recorded as an asset or a liability, together with their notional amounts. The gross notional amount is the amount of a derivative's underlying asset and is the basis upon which changes in the value of derivatives are measured.

As of December 31, 2012, 2011, 2010 and as of September 30, 2013, with the approval of the SBS, certain derivative financial instruments maintained by us and our subsidiaries have been designated as hedging operations because the functional currency of Credicorp is the U.S. Dollar.

BUSINESS

Overview

History and developments

BCP is a *sociedad anónima* authorized to operate as a multiple banking institution under Peruvian Banking Law. Our activities include retail, commercial and asset management. Our charter (*estatuto social*) is registered with the Peruvian Public Registry of Juridical Persons (*Registro Público de Personas Jurídicas*) under electronic file number 11009127.

We began operations on April 9, 1889 as Banco Italiano; in 1941 we changed our name to Banco de Crédito del Perú. We are the oldest and, since the 1920s, we have been the largest commercial bank in Peru. BCP is listed on the BVL. As of September 30, 2013, 97.66% of our capital stock was held directly and indirectly by Credicorp (NYSE: BAP) and 2.34% was publicly held. Members of the Romero family have been our shareholders since 1918 and became the controlling shareholders of BCP in 1979 and subsequently of Credicorp in 1995. The Romero family holds 13.27% of the common shares of Credicorp as stated in Credicorp's annual report on form 20-F filed with the SEC on April 30, 2013. Dionisio Romero Paoletti is Chairman of the Board of Directors of Credicorp and Chairman of the Board of Directors of BCP.

In 1993, we acquired Banco Popular de Bolivia from the Bolivian government and renamed it Banco de Crédito de Bolivia, or "BCB." BCB's results have been consolidated in our financial statements since the date of its acquisition in November 1993.

In 2002 we opened a branch in Panama and an agency in Miami, and acquired Banco Santander Central Hispano–Perú, or "BSCH-Perú," which is included in our consolidated financial statements since such date. BSCH-Perú was merged into BCP on February 28, 2003.

In October 2009, BCP acquired from the Cooperative for Assistance and Relief Everywhere Inc. (CARE) – Perú, all the shares that this entity owned in Empresa Financiera Edyficar S.A., representing 77.12% of Financiera Edyficar's capital stock. In accordance with Peruvian legal requirements in effect at the time, BCP made a public tender to Financiera Edyficar's minority shareholders to acquire the remaining balance of the company's stock. As a result of the tender offer, we acquired an additional 22.67% of Financiera Edyficar's capital stock bringing our ownership to 99.79% as of December 2011. Financiera Edyficar, which specializes in microfinance, has a target market and product offering consistent with our strategy of increasing our penetration in the retail market by diversifying our client base. We intend to maintain Financiera Edyficar as an independent entity, preserving its business model, brand and personnel.

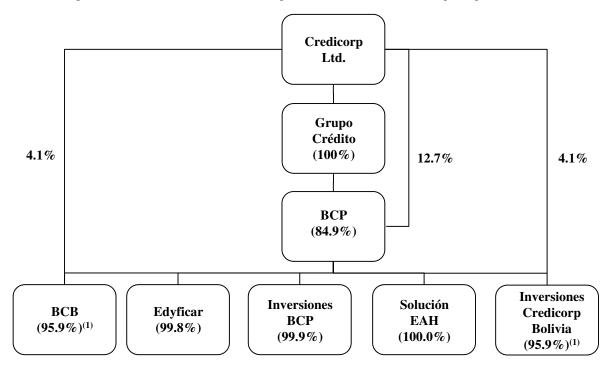

During the years 2011 and 2012, Credicorp followed a strategy aimed to establishing a subsidiary (that will operate independently from the BCP) engaged in financial advisory activities, asset management and investment banking at a regional scale and primarily focused on the Latin American Integrated Market (Mercado Integrado Latinoamericano, or "MILA"). MILA comprises the main stock exchanges of Peru, Chile and Colombia.

On November 30, 2011, we reached an agreement with Correval's shareholders to acquire a 51% stake in Correval, subject to the approval from the authorities in Peru, among other conditions precedent. The acquisition, which values Correval at \$150 million, closed on April 27, 2012. Correval, with almost 25 years of experience, is one of the market leaders in the Colombian brokerage services industry. In April 2012, we reached an agreement to acquire 60.6% of IM Trust, a Chilean brokerage and financial services company. This acquisition, which values IM Trust at \$184 million, closed on July 31, 2012.

As of the date of this offering memorandum, IM Trust (in November 2012) and Correval (in June 2013) have been sold at acquisition cost to Credicorp Capital, a wholly-owned subsidiary of Credicorp. Additionally, certain of our former local subsidiaries including Credifondo, Credibolsa, Credititulos and BCP's investment banking division were spun off and acquired by Credicorp Capital Perú, a subsidiary of our parent company Credicorp through Grupo Crédito. We expect that at the end of this reorganization, Credicorp Capital Peru, IM Trust and Correval will all be subsidiaries of Credicorp Capital. Currently, IM Trust and Correval are already indirect subsidiaries of Credicorp Capital.

General

The following chart illustrates the current ownership structure of BCP and BCP's principal subsidiaries.

⁽¹⁾ Includes 0.9% owned indirectly through other BCP subsidiaries

In addition to our local subsidiaries (Financiera Edyficar y Solución EAH), we have an agency in Miami, a branch in Panama, a subsidiary in Bolivia (which is a fully licensed bank that has local subsidiaries) and an affiliate bank, Atlantic Security Bank, in the Cayman Islands.

In 2012, we represented 71.8% of Credicorp's total revenues, 86.5% of its total assets, 77.4% of its net income and 66.6% of its shareholders' equity. In the first nine months of 2013, we represented 69.1% of Credicorp's total revenues, 83.0% of its total assets, 75.8% of its net income and 69.5% of its shareholders' equity. As of September 30, 2013, our issued capital consisted of 3,752.6 million fully subscribed and paid common shares and we had an unconsolidated capital adequacy ratio of 14.1%, compared to 14.7% as of December 31, 2012. Our operations are supervised and regulated by the SBS and the Central Bank.

Our Panamanian branch is subject to the supervision of the SBS and the PSB. It operates under an international banking license issued by the PSB, which permits us to engage in international banking operations from Panama, such as taking deposits from, and making loans to, persons outside of Panama, but does not allow us to undertake domestic banking operations in Panama. The offices of our Panamanian branch are located at Calle 50 con Elvira Méndez, Edificio Tower Financial Center Piso 13, Panama City, Panama.

Our Miami agency is licensed by the State of Florida and is supervised by the Florida state government and the United States federal government. The agency offers a diverse range of financial services to our customers, including checking and money market accounts, time deposits, fund transfers and collection services. The Miami agency is located at 121 Alhambra Plaza, Suite 1200, Coral Gables, Florida.

BCP's Subsidiaries

Our principal subsidiaries are as follows:

- BCB is our commercial bank in Bolivia. We own 95.9% of BCB, and Credicorp holds the remaining 4.1%. BCB initiated operations under the BCP umbrella in February 1994. In July 1998, BCB absorbed the operations of Banco de La Paz, making BCB the fourth-largest bank in Bolivia in terms of assets. As of September 30, 2013, BCB was the fourth-largest bank in Bolivia in terms of loans, fifth-largest in terms of deposits and the fifth-largest in terms of assets. The bank targets small- and mid-size corporate clients and offers a broad range of corporate, retail banking and leasing products. Our total direct and indirect investment in Bolivia as of September 30, 2013 was S/.391.1 million. BCB's results are consolidated in our financial statements.
- Financiera Edyficar was established in 1997. It focuses exclusively on providing financial services to lower-income people, primarily businessmen and entrepreneurs of micro and small enterprises in Peru. We acquired Financiera Edyficar in October 2009 and, as of September 30, 2013 we own 99.8% of its capital stock.
- Inversiones BCP is a holding company established in Chile for the sole purpose of holding common shares of Banco de Crédito e Inversiones BCI Chile ("BCI"). Inversiones BCP's holdings in BCI represented a 3.66% and 3.76% participation in that entity as of December 31, 2012 and September, 30, 2013, respectively.
- Solución EAH is a subsidiary dedicated exclusively to granting mortgage loans. Prior to May 25, 2010
 Solución EAH operated as a financial company (*empresa financiera*) under the name Solución Financiera
 de Crédito del Perú and its business included mortgage lending, consumer lending and SME financing. On
 May 25, 2010 Solución changed its name and social purpose to comply with regulatory requirements
 arising from the acquisition of Financiera Edyficar.

The following table shows the contributions of our operating entities as of and for the nine months ended September 30, 2013, after eliminations for consolidation.

| | | Total | | Shareholders' |

Competition

As of September 30, 2013, the Peruvian financial system was composed of 65 financial institutions, including 16 commercial banks, 11 financial companies, 13 municipal and 9 rural savings and loan associations (*cajas*), 10 small-business development non-bank institutions (Edpymes), 2 leasing companies and 4 state-owned institutions (not including the Central Bank): Banco de la Nación, Development Finance Corporation (*Corporación Financiera de Desarrollo* or COFIDE), Fondo Mivivienda S.A. and Banco Agropecuario. As of September 30, 2013, the Peruvian financial sector also included 15 insurance companies and 4 private pension fund administrators.

Over the past six years the entry of new participants, including foreign banks and non-bank financial institutions, has increased the level of competition in Peru. In 2007, the SBS authorized the Chilean banks Banco Falabella and Banco Ripley to transform their existing non-banking financial institutions into banks. In 2008, the SBS authorized the Mexican bank Banco Azteca and the Spanish bank Banco Santander to establish banking subsidiaries in Peru, and Deutsche Bank to operate in Peru. In addition, Scotiabank Perú acquired Banco del Trabajo and changed its status from that of a commercial bank to that of a financial company, naming it CrediScotia S.A. In 2010, the SBS authorized Financiera Uno, a financial company, and Leasing Perú, a leasing company subsidiary of Leasing Bancolombia S.A. to begin operations in Peru. Also in 2010, the opening of representative offices of four foreign banks (Banco Itaú, Banco Latinoamericano de Comercio Exterior – Bladex, Morgan Stanley Bank N.A., and Bank of Tokyo – Mitsubishi UFJ) was authorized by the SBS. Finally, in 2011, the SBS authorized Industrial and Commercial Bank of China – ICBC to establish a banking subsidiary in Peru denominated ICBC Perú Bank. In 2012 GNB Sudameris, a Colombian bank, bought HSBC's operations in Peru and as of October 2013 had assumed control of these operations.

The table below shows, according to figures published by the SBS, the distribution by type of institution, of assets, direct loans and deposits of the Peruvian financial system, excluding insurance companies and private pension fund managers, as of September 30, 2013:

| As of September 30, 2013 | Assets | Direct Loans | Deposits | |
|--|--------|------------------|----------|--|
| | | (in percentages) | | |
| Commercial Banks | 81.6% | 84.4% | 81.2% | |
| Municipal Savings and Loans Associations | 5.1% | 6.0% | 6.0% | |
| Financial Companies(1) | 3.7% | 4.5% | 2.3% | |
| Rural Savings and Loans Associations | 0.7% | 0.8% | 0.8% | |
| Small Business Non-bank Institutions | 0.4% | 0.6% | 0.0% | |
| Leasing Companies | 0.2% | 0.2% | 0.0% | |
| State-owned Banks(2) | 8.3% | 3.5% | 9.8% | |
| Total | 100% | 100% | 100% | |

(1) Includes Financiera Edyficar

(2) Banco de la Nación, COFIDE and Banco Agropecuario.

As of September 30, 2013, according to unconsolidated figures published by the SBS, we were the largest financial institution operating in Peru in terms of assets, deposits and loans.

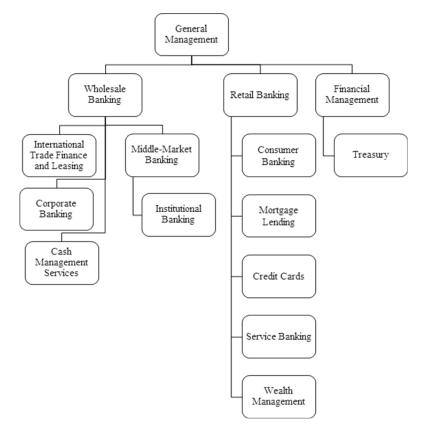

| As of September 30, 2013 | Assets | Deposits | Loans |
|---------------------------------|--------|------------------|--------|
| P.GP(4) (1) | 20.70/ | (in percentages) | 20.20/ |
| BCP(1)(4) | 29.7% | 28.7% | 30.2% |

Business Units

The following chart summarizes BCP's current business organizational structure.

During the years 2011 and 2012, Credicorp followed a strategy aimed to establishing a subsidiary (that will operate independently from the BCP) engaged in financial advisory activities, asset management and investment banking at a regional scale and primarily focused on the Latin American Integrated Market (Mercado Integrado Latinoamericano, or "MILA"). MILA comprises the main stock exchanges of Peru, Chile and Colombia.

On November 30, 2011, we reached an agreement with Correval's shareholders to acquire a 51% stake in Correval, subject to the approval from the authorities in Peru, among other conditions precedent. The acquisition, which values Correval at \$150 million, closed on April 27, 2012. Correval, with almost 25 years of experience, is

one of the market leaders in the Colombian brokerage services industry. In April 2012, we reached an agreement to acquire 60.6% of IM Trust, a Chilean brokerage and financial services company. This acquisition, which values IM Trust at \$184 million, closed on July 31, 2012. In November 2012 and June 2013, respectively, IM Trust and Correval were sold at acquisition cost to Credicorp Capital, a wholly-owned subsidiary of Credicorp. Correval and IM Trust purchase agreements include put options in favor of the non-controlling interests and call options in favor of the Bank, over all non-controlling interests. Said options are part of the rights and obligations transferred to Credicorp Capital. The characteristics of the put options, over the remaining non-controlling interests in Correval are presented in note 10(b) to the annual consolidated financial statements. Additionally, certain of our former local subsidiaries including Credifondo, Credibolsa, Credititulos and BCP's investment banking division were spun off and acquired by Credicorp Capital Perú, a subsidiary of our parent company Credicorp through Grupo Crédito. We expect that at the end of this reorganization, Credicorp Capital Peru, IM Trust and Correval will all be subsidiaries of Credicorp Capital.

Wholesale Banking

BCB

Total BCP

Wholesale banking has traditionally been our largest business unit in which the majority of our loans are concentrated. In September 2013, wholesale banking represented 46.7% and 46.2% of BCP's total average loans and total average deposits, respectively. For the first nine months of 2013, fee income from wholesale banking represented 29.5% of total fee income. Since Peruvian companies were not able to access international funding sources until the mid-1990s, we were an important source of funding, which in turn allowed us to establish long-standing client relationships with virtually all of the major industrial and commercial groups in Peru. These client relationships provide the wholesale banking division with a competitive advantage that has helped us maintain our market share despite an increasingly competitive environment.

The wholesale banking business unit provides our customers with short-, medium- and long-term loans, local and foreign currency loans, foreign trade-related financing and lease financing. Our wholesale banking unit is divided into the following businesses:

- corporate banking, which provides loans and other credit services to companies with annual revenues in excess of U.S.\$100 million.
- middle-market banking, which serves mid-sized companies,
- institutional banking, which focuses principally on serving non-profit organizations, state-owned companies and other major institutions,
- international trade finance and leasing, which manages our relationship with financial institutions abroad and manages the financial leasing product,
- cash management, which develops transactional services, and
- trust and custody services, such as providing for the physical custody of securities, the payment of dividends and interest, and acting as paying agent for securities that we do not hold in custody.

Corporate banking

The corporate banking unit has traditionally been the strength of our lending activities, providing banking services to virtually all of the major industrial and commercial enterprises in Peru. We believe that we have an advantage in servicing large corporations in Peru because of our capital base and relative size compared to other Peruvian banks

The corporate banking unit focuses on serving large-sized companies with annual turnover greater than U.S.\$100 million and outstanding debt of over U.S.\$30 million, with dominant market positions in particular products or brands and have audited financial statements. We may classify other companies in this category if they belong to important Peruvian economic groups (in terms of size and economic importance), even if they do not meet the above criteria.

Our corporate banking unit provides primarily local and foreign currency loans and has a primary responsibility for maintaining relationships with our largest banking clients. In addition, our corporate banking unit provides letters of credit, standby letters of credit, domestic collections, funds transfer services throughout Peru, payments through our Miami agency, and foreign exchange facilities.

In general, the corporate banking unit grants short-term financing; however it can provide longer terms for companies financing capital expenditures or fixed assets, among other purposes.

Guarantees and collateral received by this unit consist of receivables in the case of sales financing, warrants or pledges on inventory in the case of inventory financing, and other collateral in the case of financing for fixed asset acquisitions and improvements to infrastructure.

Although we have been a strong player in the corporate banking segment and maintain a competitive advantage, we anticipate limited growth prospects in this business due to high levels of market penetration and competition from capital markets.

Middle-market banking

Our middle-market banking unit generally serves the same industries and offers the same products as our corporate banking unit. Its focus, however, is on providing customers with working capital loans, primarily secured by accounts receivable. This is accomplished by arranging financing for medium and long-term investment programs, including leasing services.

The middle-market unit focuses on organizations with annual revenues between U.S.\$8 million and U.S.\$100 million, outstanding debt of over U.S.\$2 million and liabilities over U.S.\$2.5 million. Generally these clients are not listed on the stock exchange but in some cases are capable of issuing financial obligations or commercial paper. Their financial information is audited. These companies are typically family-controlled but professionally managed.

We see significant opportunities in lending to the middle-market sector, particularly in Peru's agriculture, fishing and construction industries, where special emphasis has been placed and specific task units have been created to attend to the needs of these economic groups.

Interest margins in the middle-market unit continue to be attractive. Because of their size, middle-market companies in Peru generally do not have access to the local or international capital markets or to credit from foreign banks which creates an attractive opportunity for us. We believe that middle-market companies have benefited significantly from an improved economic environment in Peru over the past few years. Loan quality problems have been addressed through procedures and organizational changes that have focused on improving the loan approval and credit-risk assessment processes.

Our medium-term financing products, which include structured loans, project finance and syndicated transactions, are designed to accommodate specific clients' needs. Through these products, we have been an active lender and financial advisor to Peru's mining, technology and energy sectors. In addition to our regular sources of funds, we are an intermediary of COFIDE and international financial institutions such as the *Corporación Andina de Fomento* (Andean Development Corporation), the International Finance Corporation and the IADB, in several medium-term credit lines for project finance in certain sectors.

The middle-market unit requires that all facilities extended to middle-market clients be personally guaranteed by the main shareholders and their spouses. In addition, these clients are usually required to provide collateral security, pledging assets unrelated to the business being financed, such as real estate owned by the main shareholders.

Institutional banking

This unit serves non-profit organizations, whether public or private, including state and local government entities, international organizations, educational institutions and non-governmental organizations, among others. The client base has grown significantly since 2002 due to a market re-segmentation effort.

The institutional banking unit is strategically important since these clients are interested in a variety of products and services and this presents us with opportunities to generate income from fees and cross selling. Institutional banking clients are principally users of transactional products and require advisory services for investment management. Our strategy in this segment is focused on building customer loyalty by offering customized services at relatively competitive rates and providing outstanding service quality. Institutional banking clients require mainly remote office banking, collections and automated payroll payment services.

International trade finance and leasing

Our international trade finance unit is focused primarily on providing short-term credit for international trade, funded with internal resources or with credit lines from foreign banks and institutions. It also offers medium-term lines of credit funded by international commercial banks and governmental institutions of other countries. In addition, our international trade finance unit earns fees by providing customers with letters of credit, international collections and foreign exchange services.

We maintain a direct presence abroad through our Miami agency and Panama branch and have access to a wide network of foreign correspondent banks to offer several internationally competitive products to our customers. We also have correspondent banking relationships and uncommitted credit lines with more than 250 banks for foreign trade operations, financing of working capital and medium and long-term investment projects.

In 2006, we introduced a new product to support exporters whose sales to other countries are conducted with no bills of credit or documentary collection. By creating Factoring Internacional, we became affiliated with the world's largest chain in this product. Through Factors Chain International, we can now acquire export invoices and address the exporters' working capital needs.

The leasing unit offers and manages financial leasing operations. Based on data published by the SBS as of September 30, 2013, BCP's lease finance business is currently the largest in Peru, with a market share of 37.7%. Leasing operations were conducted by BCP's subsidiary Credileasing until July 1, 2009, when Credileasing merged with BCP.

Cash management services

Our cash management services unit is in charge of developing, marketing, and selling transactional or "cash management" and electronic lending solutions for our corporate and institutional clients, it handles the exchange of information and money transfers to corporations, midsize companies, institutions and micro-business companies. We offer more than 43 products aimed at strengthening ties with clients and assuring their loyalty, as well as reducing costs using electronic channels and increasing fee income. Services managed by this unit include collections (automated trade bill collection and electronic factoring), automated payments (direct credits to personnel and supplier's accounts and money transfers), electronic lending (reverse factoring, electronic discounts and electronic working capital loans) remote office banking and cash management through checking accounts with special features.

Retail Banking

In September 2013, retail banking-related loans represented 45.2% and 48.6% of our total net loans and total deposits, respectively. In the first nine months of 2013, fee income from retail banking constituted 62.8% of total fee income.

The Retail Banking division's operations are divided into two units: service banking and retail banking. Our retail banking serves individuals and small-sized companies with annual sales levels of up to U.S.\$ 8 million. BCP's objective is to establish profitable long-term relationships with its broad client base, using segmentation strategies

that satisfy the specific needs of each type of client. The Retail Banking division is subdivided further into four areas in order to serve each client segment appropriately: affluent banking, exclusive and consumer banking, small business banking and micro-business banking. The service banking unit manages BCP's distribution channels and supports the retail banking division.

As of September 30, 2013, based on figures published by the SBS and excluding Financiera Edyficar, our branch network consisted of the highest number of branches with the most extensive country coverage of any privately held bank in Peru. We believe that our branch network has been largely responsible for our success in attracting stable, relatively low-cost deposits. As of September 30, 2013, we had the second most extensive ATM network in Peru, consisting of 2,039 ATMs and 5,381 BCP Agents. In addition, we have other channels, including the internet and telephone banking, which provide clients with a wider array of services and reduce congestion in the branches. As of September 30, 2013, Financiera Edyficar's distribution network consisted of 187 branches.

With the segmentation of our retail client base, we are able to focus on cross-selling products and improving per-client profitability. Our management expects the retail banking businesses to be one of the principal growth areas for our lending activities.

Affluent and Exclusive banking

The Wealth Management Division manages affluent customers through two units, Private Banking and Enalta. Private Banking is a segment composed of customers that have over U.S.\$400,000 available for investment. Customers in Private Banking receive both local and global investment advice. Private Banking's value plan is composed of (i) high quality client service by expert account managers, (ii) close and personalized client service, (iii) special interest rates, (iv) exclusive branches and (iv) strict measures to guarantee the confidentiality of customer information. Enalta is composed of customers with a monthly income over S/.25,000 or a minimum amount available for investment of U.S.\$200,000. Enalta customers have exclusive 2nd floor branches in Lima, where they perform their financial transactions and obtain personalized advice from investment, insurance and loan experts based on their own risk profile and financial needs. Enalta has a differentiated value plan that includes (i) access to exclusive products, (ii) exclusive branches and specialized account managers and/or expert phone banking, (iii) preferential service by tellers at branches and (iv) special interest rates on loans.

Exclusive Banking part of the Personal Banking Division serves customers with a positive credit record and a minimum monthly income of S/. 5,000. They receive a differentiated value plan which includes: (i) access to innovative products, (ii) dedicated customer services channels (such as specialized account managers and/or expert phone banking), (iii) preferential service by tellers at branches and (iv) special interest rates on loans. Thousands of the most affluent clients are serviced through specialized account managers responsible for improving per-client profitability and achieving long-term relationships through personalized service, cross-selling and portfolio sharing strategies.

Small business banking and micro-business banking

The small business banking unit serves clients with debts between U.S.\$250,000 and U.S.\$1.5 million and annual sales up to U.S.\$8 million. Small businesses benefit from products specially designed for their needs, such as Cash Credit for Businesses, a revolving credit line repaid in installments, as well as the usual credit products, such as discounted notes, letters of credit, guarantees and stand-by credits.

Even though it is managed independently, Financiera Edyficar serves the microfinance segment including, business owners and entrepreneurs of micro and small enterprises in Peru. Products offered by Financiera Edyficar include micro-business loans and residential mortgage loans primarily denominated in Nuevos Soles.

The micro-business banking unit concentrates its efforts on small loans to individuals who derive their income primarily from small, family-run businesses with debts up to U.S.\$250,000. In spite of its high informality and high credit risk, this unit is attractive in terms of its growth potential, which has driven BCP to work towards its development on two fronts: (1) client training programs through seminars and presentations and (2) formalization programs based upon alliances with government institutions such as Prompyme, the Ministry of Labor and Social Promotion, a number of municipalities and the Peruvian Center for the Promotion of Small Business.

Consumer banking

Consumer banking is in charge of developing strategies for the retail customers not included in affluent banking or small business banking. Consumer banking focuses on customers who receive their payroll through BCP. Its strategies vary from basic acquisition of new accounts for wage-earners with special terms regarding fees and interest rates to more sophisticated, aggressive cross-sell and retention programs that expand benefits to non-banking products (i.e., access to discounted products) and access to payroll advances.

Mortgage lending

We were the largest mortgage lender in Peru with a market share of 32.4% of total mortgage loans in the Peruvian financial system as of September 30, 2013, according to the SBS. This was, to a large extent, the result of extensive marketing campaigns and improvements in the quality and speed of our mortgage loan application process.

We expect our mortgage lending business to continue growing given the low levels of mortgage penetration, the increasing demand for housing, the availability of funds for the Peruvian government's *MiVivienda* low-income housing program and the current economic outlook for controlled inflation and economic growth in Peru.

Mortgage financing is available only to customers with minimum monthly income in excess of U.S.\$400 or S/.1,200, in the case of the traditional mortgage loan and the *MiVivienda* program. The *MiVivienda* program, however, limits the value of the house to be purchased to 70 UITs (or tax units equivalent to approximately U.S.\$93,098 as of September 30, 2013). We will finance up to 90% of the appraised value of a property where monthly mortgage payments do not exceed 30% of the client's stable net income. The maximum maturity for our mortgage loans is 25 years. We offer fixed-rate residential mortgage loans denominated in both U.S. dollars and Nuevos Soles. Our mortgage portfolio is predominantly fixed rate and Nuevo Soles-denominated.

Consumer lending

Consumer lending, which includes credit cards and installment loans has grown significantly as improving economic conditions have led to increased consumer spending. BCP expects the strong demand for these products to continue. In addition to interest income, BCP derives fee income from customer application and maintenance, retailer transactions, and merchant processing, finance and penalty charges on credit cards.

Our credit cards are primarily issued with the Visa brand, but we also offer American Express and MasterCard brands. Based on information published by the SBS, we account for 15.7% of the outstanding active credit cards in the financial system in Peru as of September 30, 2013, as compared to 15.7% as of December 31, 2012, 14.9% as of December 31, 2011, and 11.2% as of December 31, 2010. The total number of active credit cards in Peru as of September 30, 2013 was 8.0 million, of which approximately 35.9% were issued by banking entities associated with department stores.

According to the SBS, the credit balance of all credit card loans in the Peruvian financial system as of September 30, 2013 was S/.16.1 billion, representing 8.8% of total loans compared to S/.15.4 billion, representing 9.5% of total loans, respectively, as of December 31, 2012. Based on internal reports, in September 2013 our market share of total volume of outstanding credit card loans to individuals by banks and financial companies was 22.0%, as compared to 21.7% in December 2012, 20.6% in December 2011 and 19.5% in December 2010.

Service banking

The service banking unit is in charge of managing distribution channels, as well as procedures aimed at satisfying requirements for retail banking. A separate group, the systems and organization group, is responsible for processes and information regarding technological and organizational matters. The distribution channels unit operates the branch network. BCP evaluates its branch network on a continuous basis to monitor branch profitability in order to improve operating efficiency.

The service banking unit carries out personal loan authorization and collection and has invested substantially during the past few years to improve delivery channels in order to provide better quality and more efficient service.

It is also responsible for the development and sale of third-party processing services that generate fee income from transactions and mass processing.

Treasury, Foreign Exchange and Proprietary Trading

Our treasury and foreign exchange units are active participants in money market and foreign exchange trading. These units manage our foreign exchange positions and reserves and are also involved in analyzing liquidity and other asset/liability matters. The trading desk plays an important role in short-term money markets in Nuevos Soles and in foreign currencies and has been active in the auctions of certificates of deposit by the Central Bank and in financings through certificates of deposit, interbank transactions and guaranteed negotiable notes, among other instruments.

Our proprietary trading consists of trading and short-term investments in securities, which include instruments from various countries. These short-term investments are made primarily to facilitate our treasury management and corporate finance efforts. This has become an increasingly important part of our business as we seek returns on excess liquidity pending improved lending conditions.

Lending Policies and Procedures

Lending policies, including the approval and review of credit procedures, are based upon conservative criteria that we have adopted and are uniformly applied to all of our subsidiaries. These policies are set within the guidelines established by the Peruvian Banking Law and SBS regulations, and the guidelines set forth by our Board of Directors

The credit approval process is based primarily on the evaluation of a borrower's repayment capacity and on commercial and banking references. A corporate borrower's repayment capacity is determined by analyzing the historical and projected financial condition of the company and of the industry in which it operates. An analysis of the company's current management, banking references and past experiences in similar transactions, as well as the collateral to be provided, are other important factors in the credit approval process. For individual borrowers, the information that is presented by the prospective borrower is evaluated by a credit officer, and the application is passed through a scoring program for approval by a centralized credit unit.

Credit risk management in retail banking involves assessing the client's credit history and other aspects in order to determine its ability to repay its debt. Additionally, in each case, loan approval is subject to a number of credit scoring models, which assign loan-loss probabilities related to expected returns in each market segment.

Success in the small business and retail lending areas depends largely on our ability to obtain reliable credit information about prospective borrowers. In this regard, we, together with several partners, formed a credit research company called Infocorp in November 1995. In addition, the SBS has expanded its credit exposure database service to cover all businesses or individuals with any amount borrowed from a Peruvian financial institution, including information on the loan risk category in which borrowers are classified.

We have a policy with respect to the lending authority of our loan officers and have in place procedures designed to ensure that these limits are adhered to before a loan is disbursed. Under our credit approval process, the lending authority for middle-market and small business loans is centralized into a specialized credit risk analysis unit, in which officers have authority to approve loans within specified limits, thus allowing middle-market and small business loan officers to concentrate on their client relations. To ensure that loan officers and credit analysis officers are acting within the limits of their lending authority, the credit department and our internal auditors regularly examine credit approvals.

The following table briefly summarizes our policy on lending limits for loan officers and credit risk analysis officers. Requests for credit facilities in excess of the limits set forth below are reviewed by our General Manager, Executive Committee or, if the amount of the proposed facility is sufficiently large, our Board of Directors.

| Officer Group | Risk without collateral or with only personal collateral or guarantee | Risk with preferred guarantees(1) | Years | | | | |
|--------------------------|---|-----------------------------------|------------------|--|--|--|--|
| | (U.S. dollars in thousands) | | | | | | |
| Board of Directors | Regulatory limit | Regulatory limit | Regulatory limit | | | | |
| Executive Committee(2) | 367,085 | 367,085 | 15 | | | | |
| General Manager(3) | 60,000 | 60,000 | 15 | | | | |
| Risk Division Manager(3) | | 27,000 | 15 | | | | |
| Credit Risk Manager(3) | 7,200 | 14,400 | 10 | | | | |
| Credit Risk Chief(3) | 2.700 | 5.400 | 10 | | | | |

⁽¹⁾ Preferred guarantees include deposits in cash, stand-by letters, securities and other liquid assets with market price, mortgages, non-real estate property guarantees and assets generated by leasing operations.

We believe that an important factor in maintaining the quality of our loan portfolio is the selection and training of our loan officers. We require loan officers to have degrees in economics, accounting or business administration from reputable local or foreign schools. In addition, our training program consists of a six-month rotation through all of our business-related areas and the credit risk analysis area. After the training period is over, trainees are assigned as assistants to loan officers for a period of at least one year before they can be promoted to loan officers. Loan officers also receive additional training throughout their careers at BCP. Laterally hired officers are generally required to have previous experience as loan officers.

Our general policy is to grant loans secured by collateral. As of September 30, 2013, based on figures published by the SBS, approximately S/.34.0 billion of our direct loan portfolio, which represents 61.3% of the total based upon our unconsolidated figures, as compared to 61.0% as of December 31, 2012 and 55.8% as of December 31, 2011, was secured by collateral. Liquid collateral is a small portion of the total collateral. In general, if we require collateral for the extension of credit, the value of such collateral must exceed the amount of the facilities granted by 10% to 50%. The appraisal of illiquid collateral, in particular real estate assets, machinery and equipment, is performed by independent experts when required for specific reasons. Our general policy is to require that the appraised value of illiquid collateral exceed the loan amount by at least 25%. In cases where a borrower encounters difficulties, we seek to obtain additional collateral. For clients with secured loans, including mortgages, classified as Doubtful (*Dudoso*) or Loss (*Pérdida*) whose payment is in arrears for a period of 24 or 36 months, respectively, the existence of collateral is disregarded when determining the applicable provisioning requirements.

In accordance with Peruvian banking regulations, the existence of collateral does not affect the borrower classification process. Pursuant to the Peruvian Banking Law, secured loans (or the portion thereof) covered by collateral issued to borrowers classified as Potential Problem (*Problema Potencial*), Substandard (*Deficiente*) or Doubtful (*Dudoso*) and Loss (*Pérdida*) are subject to lower loan loss provision requirements. If a borrower is classified as Substandard (*Deficiente*) or lower, our entire credit exposure to such borrower is classified at the same level.

We conduct unannounced internal audits of our financial statements and have an annual audit by external auditors of our books and credit records, in each case, consistent with the local banking regulations for the jurisdictions in which we operate.

Deposits

Deposits are managed principally by our retail banking group. The main objective of our retail banking operations has historically been to develop a diversified and stable deposit base in order to provide a low-cost source of funding. This deposit base has traditionally been one of our greatest strengths. We have historically relied on more traditional, stable, low-cost deposits, which we consider to be our core deposits: demand deposits, savings and CTS deposits. CTS deposits are funded by companies on behalf of their employees, totaling to one month's salary per year, and may be withdrawn by the employee only upon termination of employment or upon transfer to another bank, subject to certain exceptions.

⁽²⁾ The lending limit of the Executive Committee corresponds to 10% of our regulatory capital. Figures shown in the table above were calculated using our regulatory capital as of September 30, 2013.

⁽³⁾ The lending limit shown in the table above is increased by 25% for loans to clients with internal ratings of AAA and AA.

The table below shows the breakdown of our average deposit balances by business unit and products for the periods presented:

| | Breakdown of Average Deposits | | | |
|--------------------------------|-------------------------------|---------------|---------------|----------------|
| | December 2010 | December 2011 | December 2012 | September 2013 |
| Total deposits | | | · <u> </u> | |
| Wholesale Banking | 49.3% | 42.2% | 43.8% | 46.2% |

| Total retail deposits | 100.0% | 100.0% | 100.0% | 100.0% |

Information Technology

We are a technology leader in the Peruvian banking sector. We developed our technology platform largely using internal resources, and in 1986 we were among the first banks to introduce ATMs in the Peruvian market and the first to introduce electronic banking for corporations in 1988, telephone banking in 1996 and internet banking for the retail segment in 1999.

In 1974, in an effort to improve the data transmission among our offices, we connected them through the Teleproceso – TP Bancario, becoming the first bank in Latin America able to show account balances online. Among other benefits, this network allowed real-time money transfers between accounts located in different parts of the country.

All of our retail banking services and most of our corporate banking services are fully computerized. All of our points of service, including branches, ATMs, point of sale (POS) terminals, and BCP Agents are linked to our data processing center, permitting us to monitor and analyze services while allowing most transactions to be executed on a real-time, on-line basis.

Our most critical operational data and software are stored on a mainframe computer system, access to which is controlled by a series of authorized passwords, with strong IT security and privacy policies.

We have two data centers in Lima, 22 km apart, and they operate following the active-to-active and load balancing approach. In 2010 we implemented a third center located in Hortolandia, Brazil to facilitate the recovery

of critical services if a major disaster, natural or otherwise, impairs our centers in Lima. The system is designed to act as a surrogate technology backbone, providing all of our services to the branches and electronic financial systems (ATMs, internet banking, BCP agents, and credit and debit card transactions). The system is designed to allow us to operate under as close to normal conditions as possible during such a disaster.

We consider our technology platform to be one of our main competitive strengths and have continued to invest in this area to maintain our competitive position in the banking sector. Our investments in IT have provided the power, storage capacity, bandwidth and other IT services to make us the best in our class with respect to IT.

During 2012 our IT group changed its operating model by outsourcing the administration and operation of the IT infrastructure and application development to IBM, Tata Consultancy Services and Everis, leading companies in their field. Our IT group expects this change to improve time to market, increase the flexibility and capacity of the network and improve efficiency and productivity in accordance with international best practices.

Risk Management

We have specific risk management policies and procedures that structure and delineate exposures to market risk, liquidity risk, interest rate risk and derivatives trading risk.

Market risk

Market risk is the risk of loss to future earnings, to fair values, or to future cash flows, related to financial instruments, whether or not recorded on our balance sheet, arising from adverse changes in market factors that affect their value, such as interest rates, foreign currency exchange rates, commodity prices, and other relevant market or price changes. Market risk is attributed to all financial instruments sensitive to market risk, including securities, loans, deposits and borrowings, as well as derivative instruments. Special emphasis is placed on managing exposure due to mismatched positions in maturities, currencies and interest rates.

The objective of market risk management is to avoid excessive exposure of earnings and equity to loss and to reduce the volatility inherent in financial instruments.

Our primary market risk exposure is to interest rates, as net interest income is affected primarily by interest rate volatility, and, to a lesser extent, to foreign currency exchange risk. The management of interest rate risk must incorporate the differences between Nuevo Sol- and foreign currency-based interest-sensitive assets and liabilities. Our derivative business is concentrated in foreign currency forward contracts. In March 2006, we started entering into cross currency swaps contracts. We also hold a limited number of interest rate hedging instruments. With the exception of foreign currency forward contracts and a limited number of interest rate hedging instruments, we have not entered into derivative instrument contracts. Our policy has been to hedge substantially all of the foreign exchange risk with our forward contracts.

At BCP, decisions regarding management of liquidity, interest rate policy, foreign exchange position and other significant asset and liability management, or "ALM," matters are made by the Market Risk Committee, which meets monthly. Additionally, we have an Asset and Liability Committee that meets monthly to review the overall risk exposure and to decide on strategies to improve our financial structure. Also, our capital markets group has an Investment Committee that makes decisions on positions held on all possible types of securities.

Day-to-day ALM decisions are made by the central manager of finance and our treasury department and reviewed in weekly meetings of our senior management. The market risk unit is in charge of the measurement, control and follow-up of all positions that involve market risk exposure.

Operational Risk

Operational risks are defined as those dealing with the possibility of suffering financial losses due to deficiencies in internal procedures, information technology or personnel, or the occurrence of adverse external events. Banks are required to adequately manage risks involved in the performance and continuity of their operations and services in order to minimize possible financial losses and reputation damage due to inadequate or non-existent policies or procedures.

Following these SBS guidelines, as well as the guidelines issued by the Basel Committee on Banking Supervision, and the advice of international consultants, we have appointed a specialized team that is responsible for operational risk management across our organization. This team reports regularly to our risk committee, top managers and Board of Directors.

We intend to follow the risk control standards of international financial institutions that are known for their leadership in this field. Our overall objective is to implement an efficient and permanent monitoring system to control operational risks, while the actual management of risk control procedures is conducted by the areas that carry out critical activities.

Liquidity risk and asset and liability management

Our exposure to market risk is in part a function of the structure and composition of our assets and liabilities. Our ALM policy seeks to ensure sufficient liquidity to meet operational funding requirements, as well as to monitor, measure and control interest rate risks, exchange risks, and market risks on securities trading positions. Through our various operating units, we apply non-statistical and statistical models for the ALM tasks.

We use a variety of tools to measure market risks arising from changes in the price of financial instruments and securities prices. Non-statistical methods to measure market risks include: position limits for each trading activity and their allowable risk, or stop-loss, marking of all positions to market, profit and loss statements, position reports, and independent verification of the pricing of positions. The statistical estimation of potential losses under adverse market conditions is considered an important tool in the market risk measurement, and for that purpose we use a historic simulation version of the Value at Risk, or "VaR," methodology, which estimates market risk at a 99% confidence level. Testing exercises are performed periodically by which VaR estimates are compared with actual results.

The historical simulation version of the VaR is applied to products that are affected by price risk. This methodology is applied to: (i) foreign currency positions ("spot" and "forward" foreign currency contracts), (ii) securities portfolio (fixed income, equities and government bonds) and (iii) money market instruments (certificates and overnight deposits).

Additionally, the risk analysis of the investment portfolio is complemented by various indicators including the degree of portfolio diversification, which measures the concentration of investments taking into account their risk factors, and the VaR as a percentage of the investment, which measures the risk level assumed in a specific segment of the portfolio. We have established VaR limits and stop-loss limits alerts as a function of the maximum potential losses in unfavorable market scenarios that we are willing to assume in the portfolio of each type of security.

Our market risk unit issues on a daily basis to our treasurer, trading managers and Chief Financial Officer reports on positions, profits and losses and VaR results, as well as a series of alerts that have been incorporated using VaR estimates. The Market Risk Committee is provided reports on a monthly basis. We believe that these procedures, which stress timely communication between the market risk unit and senior management, are important elements of the risk management process.

Interest rate risk management

A key component of our ALM policy is the management of adverse changes in earnings as a result of changes in interest rates. The management of interest rate risk relates to the timing and magnitude of the re-pricing of assets compared to liabilities and attempts to control of risks associated with interest rate fluctuations. We hedge some of our interest rate risk through the use of interest rate derivatives contracts. As part of the management of interest rate risks, both our Market Risk Committee and Asset and Liability Committee may direct changes in the composition of our balance sheet.

One method of measuring interest rate risk is quantifying the effect of interest rate changes over the interest margin, or the interest rate sensitivity gap. Interest rate sensitivity is the relationship between market interest rates and net interest income due to the maturity or re-pricing characteristics of interest-earning assets and interest-bearing liabilities. For any given period, the pricing structure is matched when an equal amount of such assets and liabilities mature or re-price in that period. Any mismatch of interest-earning assets and interest-bearing liabilities is known as

a gap position. A negative gap denotes liability sensitivity and normally means that a decrease in interest rates would have a positive effect on net interest income, while an increase in interest rates would have a negative effect on net interest income. The interest margin exposure is usually analyzed for a period limited to a twelve-month horizon.

A second measure of interest rate risk extends the period of analysis, considering expected terms to maturity of interest rate-sensitive assets and liabilities, to determine variations in their economic value due to interest rates changes.

In addition to the static gap position, we employ a simulation analysis to measure the degree of short-term interest rate risk. Sensitivity analysis is performed to express the potential gains or losses in future earnings resulting from selected hypothetical changes in interest rates. Sensitivity models are calculated on a monthly basis using both actual balance sheet figures detailed by maturity re-pricing interval and interest yields or costs. Simulations are run using various interest rate scenarios to determine potential changes to future earnings.

Gap simulation analysis has several shortcomings, one of which is its "static" nature that is, it does not consider ongoing loan and deposit activity and another of which is the inadequate treatment of individually negotiated loan and deposit rates, as in prime client cases, or the finer breakdown of rates applicable to different business segments. Furthermore, more than 50% of our interest bearing deposits can be unilaterally modified, causing difficulties in establishing the expected re-pricing period of these products in the simulations. Additionally, we consider within the Foreign Currency category not only Dollar-denominated transactions, but also the currency of BCB, our subsidiary in Bolivia, which may present different trends in certain periods but, due to its relatively small value, does not significantly affect the results of the analysis.

Derivatives trading activities

We provide our customers with access to a wide range of products from the securities, foreign exchange, and, to a lesser extent, derivatives markets. We enter into trading activities primarily as a financial intermediary for customers, and, to a lesser extent, for our own account. In acting for our own account, we may take positions in some of these instruments with the objective of generating trading profits.

The only derivatives transactions in which we engage on behalf of clients are foreign currency forward contracts, interest rate swaps, options and cross-currency swaps. To hedge our own risks, we also enter into interest rate swaps, cross-currency swaps, and forwards. The SBS has authorized the designation of derivative financial instruments maintained by us and our subsidiaries as hedging operations because the functional currency of Credicorp is the U.S. dollar. For further details, see note 9(c) to the annual consolidated financial statements. We do not currently engage in more sophisticated or complex derivatives transactions or options. Our position in derivative instruments is closely monitored and is also subject to nominal and stop-loss limits.

As of September 30, 2013, the notional amount of outstanding forward contracts was approximately S/.11.2 billion or U.S.\$ 4.0 billion. All of those contracts were entered into solely to serve customer needs. Interest rate swap and currency swap operations as of September 30, 2013 amounted to approximately S/.6.5 billion or U.S.\$ 2.3 billion and S/.3.6 billion or U.S.\$ 1.3 million, respectively. These contracts are recorded at fair value, with both realized and unrealized gains and losses recorded in the consolidated income statements.

Anti-Money Laundering Policies

Peru has long-standing laws criminalizing money laundering activities, and such laws were further strengthened in 1996 with the adoption of the Peruvian Banking Law, which incorporated the guidelines of the Organization of American States directly into Peruvian law. Pursuant to Law No. 28306, a designated government agency, the Financial Intelligence Unit (*Unidad de Inteligencia Financiera*, or "UIF"), currently under the authority of the SBS, is responsible for directing anti-money laundering actions and monitoring information that public and private companies are required to provide. The SBS has the authority to request detailed reports with respect to the movement of funds and the identity of depositors. In accordance with recently enacted regulations, mainly Law No. 28306 and SBS Resolution No. 838-2008, financial institutions must adopt internal mechanisms, appoint a full-time compliance officer reporting directly to the Board of Directors and conduct special personnel training programs and procedures to detect and report unusual or suspicious transactions as defined therein.

We have programs in place to comply with the "know your customer" regulations in the countries in which we operate, including our agency in Miami and our branch in Panama, which has an international banking license. In addition to complying with the provisions of Peruvian law described in "Regulatory Environment—Anti-Money Laundering Rules," we have had internal "know your customer" policies since 1995.

Properties

Our principal property is our headquarters building located in Lima, Peru, which we own and which has a total area of approximately 44,000 square meters. In addition, we own or lease land and buildings in various locations through the country for our branches.

Employees

As of September 30, 2013, we had 22,403 full-time employees, compared to 22,538 as of December 31, 2012, 18,616 as of December 31, 2011 and 16,148 as of December 31, 2010.

All employees of banks in Peru are given the option of belonging to an employees union, and such employees' unions are collectively represented by the Federation of Banking Employees (*Federación de Empleados Bancarios*, or "FEB"). In order to negotiate a collective agreement on behalf of its members, FEB must have as members over 50% of all Peruvian banking employees. Because the representation of banking employee members of FEB declined below 50%, primarily because of the substantial reduction in the size of the government-owned banking business during the 1990s, the most recent collective bargaining agreement negotiated with the FEB, which expired on June 30, 1995, was not renewed. In July 2013, we were informed of the establishment of an employees' union of BCP employees. Members of the union would include a non-significant number of BCP employees. This employees' union is not yet fully compliant with all applicable Peruvian formal regulations. As of the date of this offering memorandum, no collective bargaining has been initiated by this employees' union. We consider our relations with our employees to be good. The last strike by union employees occurred in 1991 and did not interfere with our operations.

Legal Proceedings

We are party to a number of legal actions and proceedings brought against us in the ordinary course of our operations. We establish provisions for actions that we believe in our judgment are likely to be resolved adversely to us. We believe that none of the claims brought against us, either individually or in the aggregate, is likely to have a material adverse effect on our business, financial condition or results of operations.

REGULATORY ENVIRONMENT

Peruvian Regulation

Peruvian banking regulation follows the standards set by the Basel Committee on Banking Supervision. Peruvian banks and other Peruvian financial institutions are primarily governed by two banking regulatory authorities: the SBS and the Central Bank. The Peruvian Constitution establishes that the SBS's main function and responsibility is to protect depositors of the Peruvian banking and financial sector, while the main function of the Central Bank is to preserve monetary stability.

The regulatory framework for the operations of the Peruvian financial sector is set forth in the Peruvian Banking Law. In accordance with the Peruvian Banking Law, the SBS is responsible for issuing banking regulations and for monitoring the Peruvian banking and financial sector. The SBS supervises and regulates financial institutions such as commercial banks, financial companies, financial leasing companies, small business financial companies, savings and loan corporations, financial services companies, such as trust companies and investment banks, insurance companies and private pension fund managers (other financial institutions such as stock brokerage houses and mutual fund managers are subject to different legal frameworks and to the supervision of the SMV). The SBS became operational in 1931.

Financial institutions must seek the authorization of the SBS before initiating operations. The SBS has administrative and financial autonomy, and its head office is located in Lima. The current chairman of the SBS was appointed by President Humala in August 2011.

The SBS enforces the Peruvian Banking Law on an ongoing basis through periodic resolutions. The Peruvian Banking Law provides for more stringent loan loss reserve standards, brings asset risk –weighting in line with the Basel Committee on Banking Supervision guidelines and broadens the supervision of financial institutions by the SBS to include holding companies.

On a periodic basis, banks are required to provide the SBS with all relevant information that is necessary to allow for off-site evaluation of its financial performance, including audited and unaudited financial statements on a consolidated basis, Board of Directors' reports, auditor's reports, and other reports which reflect the operation of a bank's business. Under current practice, such reporting is required on a daily, weekly, monthly, quarterly and semi-annual basis, depending on the nature of the information to be reported.

The SBS is also responsible for conducting on-site examinations of banks on an annual basis, implementing the provisions of the Peruvian Banking Law and other related legislation, examining all banking operations, and analyzing the relationship between assets, liabilities, net worth, profit and loss accounts and all other factors affecting a bank's financial structure.

The SBS has the power to impose administrative sanctions on financial institutions and their directors and employees upon any violation of the rules that govern the activities of the Peruvian banking and financial sector. Sanctions may vary from monetary fines to license cancellation. The SBS may also sanction directors and other officers of financial institutions for breaching SBS regulations.

The Central Bank was founded in 1922 and performs the functions common to a central or reserve bank, such as issuing bank notes, implementing governmental monetary policies, regulating the money supply, managing official gold and foreign exchange reserves and managing the interbank cash clearance system. The Central Bank exercises its power and authority independently and is responsible for its affairs in accordance with the government's policies. The Central Bank is empowered to determine the inflation target and to adopt a monetary policy in accordance thereof, and is also responsible for establishing mandatory minimum liquidity reserves.

The SMV is the Peruvian capital markets regulatory entity. The main purpose of the SMV is to promote, regulate and supervise the Peruvian capital markets. The SMV, controls compliance and sanctions any violation of the Peruvian Securities Market Law and its regulations.

Pursuant to article 29 of the Peruvian Banking Law, the issued and outstanding shares of Peruvian banks must be registered before the SMV and listed in the Lima Stock Exchange. Therefore, according to the Peruvian

Securities Market Law and its regulations, banks are required to file before the SMV and the Lima Stock Exchange, in Spanish and on a going forward basis, quarterly and annual reports and notices of material events (*hechos de importancia*).

Implementation of Basel Principles

In order to implement the Basel II Framework, the SBS has approved a two-phase schedule based on a mandatory phase and a voluntary phase. During the first phase, which started in 2008 and ended in June 2009, the SBS performed quantitative impact studies and drafted the most relevant regulations. On June 22, 2008, President Garcia issued Legislative Decree No. 1028, which contains certain amendments to the current Peruvian Banking Law, most of which are aimed at adapting it to Basel II Framework standards.

To conform to Basel II Framework standards, the methodology for measuring credit, market and operational risks has been amended to permit standardized and internal model-based methods for measuring market and credit risks. Peruvian financial institutions will also be able to request validation and approval to implement the internal ratings-based ("IRB") methodology. Only those financial institutions which apply to use the IRB methodology will follow the second implementation phase of the Basel II standards.

The second phase consists of a validation process and an approval by the SBS of the IRB methodology. Once the SBS has validated and approved the IRB methodology, the financial institution in question will use regulatory capital floors to calculate its capital requirements. The amount of required capital (*patrimonio efectivo*) shall not be less than the percentage of capital requirements obtained under the alternative methodology.

| | First Year | Second Year | Third Year |
|--|------------|-------------|------------|
| Basic IRB and Internal Models of Credit Risk | 95% | 90% | 80% |
| Advanced Models of Credit Risk and/or | | | |
| Operational Risk | 90% | 80% | _ |

Capital adequacy

Under the provisions of article 199 of the Peruvian Banking Law, and on an unconsolidated basis, the regulatory capital (*patrimonio efectivo*) shall not be lower than 10% of its total weighted assets, which is equivalent to the sum of: (i) ten times the regulatory capital allocated to cover market risks, (ii) ten times the regulatory capital allocated to cover operational risks and (iii) the total amount of credit risk-weighted assets.

According to articles 184 and 185 of the Peruvian Banking Law, the regulatory capital (patrimonio efectivo) will be constituted by the sum of: (i) basic capital and (ii) supplementary capital.

Basic capital or tier I capital is comprised of paid-in capital (which includes common stock and non-cumulative perpetual preferred shares), legal reserves, supplementary capital premiums, voluntary reserves which may be reduced only with prior SBS approval and retained earnings with capitalization agreements (earnings that the general shareholders' meeting or the Board of Directors, as the case may be, have committed to capitalize as common stock). It also includes other elements that have instruments (having the characteristics of permanence and loss absorption) issued in compliance with regulations recently enacted by the SBS. Basic capital excludes, losses of past years and of the current year, any deficit due to provisions and goodwill resulting from corporate reorganizations and acquisitions. Basic capital is also subject to certain additional deductions (e.g., 50% of the investments in shares and subordinated debt issued by other local or foreign financial institutions or financial insurance companies, etc.).

Supplementary capital is constituted by the sum of tier II and tier III capital. Tier II capital consists of voluntary reserves (which could be reduced without any prior consent from the SBS), the eligible portion of redeemable subordinated debt instruments that have mixed debt and equity features and the generic loan loss provision (up to certain limits). Tier II capital is subject to certain deductions foreseen by the Peruvian Banking law (e.g., 50% of the investments in shares and subordinated debt issued by other local or foreign financial institutions or financial insurance companies, etc.). Tier III capital consists of redeemable subordinated debt that is incurred for the exclusive purpose of covering market risk.

Additional regulatory capital requirements

SBS Resolution No. 8425-2011, enacted in July 2011, has established additional requirements for financial institutions, to cover risks not contemplated in Pillar I of Basel II (e.g. concentration, interest rate, systemic risk). Additionally, pro-cyclical capital requirements were also established. These new requirements will be implemented over a period of five years starting in July 2012.

Credit risks

According to article 186 of the Peruvian Banking Law, and SBS Resolution No. 14354-2009, enacted November 2009, financial institutions are allowed to use the standardized methodology and, with the prior approval of the SBS, the IRB methodology for calculating their regulatory capital requirement for credit risk. BCP will eventually adopt the IRB methodology once it is fully implemented and after having received prior approval from the SBS.

According to the Peruvian Banking Law, as of July 1, 2009, financial institutions would have been allowed to use the IRB methodology instead of the standardized methodology after receiving prior approval from the SBS. However, full implementation of both standardized and IRB methodologies by Peruvian financial institutions are still subject to the issuance of further regulations.

Market risks

Regulations for the supervision of market risks enacted in May 1998 require financial institutions to establish internal policies and procedures to monitor these risks, as well as market risk exposure limits. Regulations define market risks as the probable loss derived from exposure to various classes of commodities, securities, foreign exchange, derivative operations or commercial assets that banks may hold in their portfolios, which may not be reflected in their balance sheets. On June 2009, the SBS enacted SBS Resolution No. 6328-2009, which defines the methodology to be applied, and the requirements to be satisfied, to calculate the regulatory capital requirement for market risks under the standard methodology and the IRB methodology.

Since July 1, 2009, financial institutions have been allowed to use the IRB methodology, rather than the standardized methodology, subject to prior approval from the SBS.

Operational risk

SBS Resolution No. 2115-2009, enacted in April 2009, defines the methodology to be applied, and the requirements to be satisfied by financial institutions in calculating their regulatory capital requirement for operational risk under the IRB methodology, the alternative standardized methodology and the advanced methodologies. The IRB methodology uses a bank's gross operational margin as "exposure indicator" and its application does not require the prior approval by the SBS. Application of the alternative standardized methodology or the advanced methodologies requires compliance with certain provisions included in SBS Resolution No. 2115-2009 and prior approval from the SBS.

SBS Resolution No. 2116-2009, enacted in April 2009, which approves the guidelines for managing operational risk, defines "operational risk" as the possibility of suffering losses due to inadequate procedures, failures of personnel, information technology or external events, including, without limitation, legal risks (but excluding strategic and reputational risk). It also establishes that a bank's board of directors is responsible for designing the general policies to manage operational risk and that a bank's management is in charge of implementing such policies. Finally, it provides that each bank is obligated to create a database of all of such bank's losses due to operational risk, classifying such losses by event.

Loan Loss Reserves

Procedures relating to loan loss reserves are set out in regulations issued by the SBS. Pursuant to SBS Resolution No. 11356-2008, enacted in November 2008 and in force since July 2010, as amended, banks must consider certain criteria with respect to the borrower, including the securities; the credit category; the borrower's liquidity, including whether the borrower has adequate equity and a low amount of outstanding debt relative to their

ability to generate profits; whether the borrower or its industry is susceptible to significant variation in cash flow; whether the borrower has a history of prompt payments on its debt; and whether the borrower is part of an economic sector that demonstrates a trend towards growth.

Risk Categories according to days of delay:

| C | lassification | Corporate, Large Business, Medium Business | Small Business, Micro Business, Revolving Consumer, Non revolving Consumer | Residential Mortgage |
|-----------|-------------------|---|---|-------------------------|
| Class "A" | Standard | 0 to 30 | 0 to 8 | 0 to 30 |
| Class "B" | Potential Problem | 31 to 60 | 9 to 30 | 31 to 60 |
| Class "C" | Substandard | 61 to 120 | 31 to 63 | 61 to 120 |
| Class "D" | Doubtful | 121 to 365 | 61 to 120 | 121 to 365 |
| Class "E" | Loss | 366± | 121+ | 366± |

SBS regulations require the following minimum reserves to be recorded for statutory purposes for all types of credit: a 1% reserve on loans and credits classified as Standard with respect to which no credit issues have been identified, and a 5%, 25%, 60% and 100% specific reserve on loans for the unsecured portion and credits in risk categories Potential Problem, Substandard, Doubtful and Loss, respectively. Whenever such loans or credits, or any portion thereof, are secured with "preferred" collateral, required reserves for risk categories Potential Problem, Substandard, Doubtful and Loss are 2.5%, 12.5%, 30% and 60%, respectively. The amount of the reserve for any such loans or credits, or portions thereof, secured with "self-liquidity" collateral may be reduced by 50%. Loans or credits, or the portions thereof, secured with "preferred readily realizable collateral" collateral, require at least a 1% reserve. When the collateral is insufficient to secure the outstanding balances, the higher percentage requirements are applicable to the unsecured portion of the loans or credits. In the case of consumer loans, the required reserves are as follows: a 1% reserve on loans classified as Standard with respect to which no credit issues have been identified, and a 5%, 25%, 60% and 100% specific reserve on loans in risk categories Potential Problem, Substandard, Doubtful and Loss, respectively.

SBS regulations require Peruvian banks to maintain two types of loan loss reserves: (a) "generic" loan loss reserves (provisiones genéricas) on their total direct and indirect loan portfolio that is classified as category I at an allowance rate of (i) 0.7% for corporate loans, big business loans and residential mortgage loans, and (ii) 1.0% for medium business loans, small business loans, micro business loans, revolving consumer loans and non-revolving consumer loans, and (b) specific reserves (provisiones específicas) on their total direct and indirect loan portfolio classified under categories II through V described above at an allowance rate of 5%, 25%, 60%, and 100%. These percentages may be reduced if the loans are secured with certain types of collateral and for certain special types of loans, provided that certain requirements set forth under SBS Resolution No. 11356 2008, as amended, are satisfied.

As of December 31, 2008, banks were required to make dynamic loan loss reserves (*provisiones procíclicas*) based on the behavior of Peru's annualized average GDP over the last 30 months as determined and published by the Central Bank. On September 10, 2009, the SBS, through Circular No. B-2181-2009, announced the suspension of the pro-cyclical requirements. This suspension was lifted on September 28, 2010, through Circular No. B-2193-2010

Banks must report loan classifications on a monthly basis to the SBS. The worst classification assigned to a single person by any bank affects classification and allowance requirements for all other banks, which means that all banks are bound by the worst classification that is assigned to any given debtor by any bank in the Peruvian banking and financial sector.

Risk of Over-indebtedness by Consumer Banking Customers

According to SBS Resolution No. 6941-2008, as amended, banks and other financial entities must adopt a system to manage the risk of over-indebtedness that (a) allows the mitigation of such risk before and after making the loan, (b) permits the performance of a permanent monitoring of the portfolio to identify over indebted borrowers and (c) includes the periodic evaluation of the control mechanisms being used and of the corrective actions or required improvements, as the case may be. The board of directors of such banks and other financial entities are responsible for (i) establishing and reviewing the policies and proceedings for the identification, measuring, treatment, control, reporting and monitoring of the risk from the level of indebtedness of its consumer banking

customers and (ii) causing the management to adopt the necessary measures to monitor and control such risks. In addition, the board of directors must cause the bank and/or financial entity to have an organizational structure that guarantees total independence between the risk and the commercial divisions and that the incentive schemes for employees' performance does not cause a conflict of interest with risk management policies.

Banks and financial entities that are in the process of implementing a system to manage the risk of over-indebtedness or are not able to monitor, control and identify the risk of over-indebtedness are obliged to maintain a special loan loss reserve.

Lending Limits

Under article 206 of the Peruvian Banking Law, the total amount of direct and indirect credits and financings granted in favor of a person shall not exceed 10% of a bank's regulatory capital. A person is defined for the purposes therein as a person or group of persons or entities representing a common or single risk.

The 10% limit indicated above may be raised to 15%, 20% and 30%, depending on the type of collateral securing the excess over each limit. Accordingly, the limit can be extended to 15% when the excess is secured by a mortgage, pledge, warrant or trust it may be extended to 20% when the excess is collateralized with securities listed on the Selective Index of the Lima Stock Exchange (ISBVL), and it may be extended to 30% when the excess is secured with deposits that are maintained and pledged with the bank.

Other special lending limits have been considered, such as lending to related parties or affiliates (30% of regulatory capital), to local banks (30%), and to foreign banks (from 5% for non-regulated banks to 30% for first category international banks (as defined by the Central Bank from time to time), which may also be raised to 50% when backed by letters of credit). There are other limits that require banks to diversify their portfolio in different types of assets, benefiting liquid and low risk assets.

Lending to Related Parties

The Peruvian Banking Law regulates and limits transactions with related parties and affiliates of financial institutions on an unconsolidated basis. In 1997, the SBS and the SMV enacted regulations defining indirect ownership, related parties and economic groups, which were superseded by regulations enacted by the SBS in 2000 and by the SMV in 2010. These regulations serve as the basis for determining limits on transactions with related parties and affiliates and also provide the basis for the development of specific standards for the supervision of financial and mixed conglomerates formed by financial institutions.

Under article 202 of the Peruvian Banking Law, the aggregate amount of loans to related party borrowers cannot exceed 30% of a bank's regulatory capital. For purposes of this test, a related party borrower includes any corporation holding, directly or indirectly, 4% or more of a bank's shares, directors, certain principal executive officers or persons affiliated with the administrators of the bank. All loans to related parties must be made on an arm's length basis with terms no more favorable than the best terms that the bank offers to the public.

Also, under article 201 of the Peruvian Banking Law the total amount of loans to directors, employees or close relatives of any such persons may not exceed 7% of a bank's regulatory capital per person. All loans made to any single related party borrower may not exceed 0.35% of the regulatory capital (i.e., 5% of the overall 7% limit).

Country Risk Reserve Requirements

SBS Resolution No. 505-2002, enacted in June 2002, requires the establishment of reserves to cover exposure to country risk, which includes sovereign risk, transfer risk and expropriation or nationalization risk, all of which may affect operations with companies or individuals in foreign countries. The SBS has also established guidelines indicating the procedures and responsibilities that are necessary for coping with country risk.

Integral Risk Management

SBS Resolution No. 11356-2008, enacted in November 2008 and effective since July 2010, contains guidelines for integral risk management of financial institutions. Integral risk management is a process intended to identify potential events that can affect banks and to manage those events according to its nature and risk level. This new

regulation covers all kinds of risks that could affect a banking operation, such as operational, market, credit, strategic, liquidity, legal and reputational risks.

Investments in Financial Instruments

Investment in financial instruments by Peruvian banks is restricted to those financial instruments listed in the Peruvian Banking Law, such as equity instruments traded on a stock exchange, debt instruments (to the extent that certain requirements are satisfied), sovereign debt instruments and quotas in mutual and investment funds, among others.

Pursuant to SBS Resolution No. 7033-2012, effective as of January 1, 2013, investments in financial instruments by Peruvian banks shall be classified into any of the following categories: (a) investments at fair value with changes in results (short term), (b) investments available for sale, (c) investments held to maturity (long term) and (d) investments in subsidiaries and affiliates.

Reserve Requirements Required by the Central Bank

Under the Peruvian Banking Law, all financial institutions regulated by the SBS (except for small-business development non-bank institutions) are required to maintain a legal reserve (encaje) for certain obligations. The Central Bank may require additional and marginal reserves. The exact level and method of calculation of the reserve requirement is set by the Central Bank, which has issued different sets of regulations for foreign and local currency-denominated obligations of banks. Among others, the following liabilities are subject to the reserve requirement: demand and time deposits, savings accounts, certain bonds and funds administered by the bank and amounts due to foreign banks and other foreign financial companies (in certain circumstances).

Currently, the minimum legal reserve requirement for local and foreign currency deposits is 9.0%. Foreign currency and local currency deposits collected from the general public are subject to a marginal rate of 50% and 15%, respectively. Local and foreign currency borrowings from certain foreign sources with an original maturity of two years or less are subject to (i) a 15% special rate and a 120% marginal rate for local currency borrowings, and (ii) a 50% special rate for foreign currency borrowings. Financial institutions may satisfy the minimum reserve requirements with funds that they hold in vaults or that they have deposited in their accounts at the Central Bank.

Subject to certain requirements, the regulation excludes from the reserve requirement mid-term and long-term funding (i.e. liabilities with a minimum average maturity of more than two years and subject to a cap, which is the greater of S/. 400 million or 2.2 times the bank's regulatory capital, subject to other conditions) from foreign financial institutions, other central banks, governments or multilateral lending agencies. Obligations in excess of the aforementioned cap are subject to a 20% special rate.

They must also keep at least 3.0% of their local and foreign currency deposited in the Central Bank. The Central Bank oversees compliance with the reserve requirements.

The Central Bank also establishes the interest rate payable on reserves that exceed the minimum legal reserve requirement applicable to both local and foreign currency deposits. The current applicable interest rate: (a) for local currency reserves, different from those described below, is the overnight deposits interest rate, minus 195 basis points; and, (b) for foreign currency deposits is a 25% one-month LIBOR interest rate. Currently, no interest rate is payable in respect of local currency deposits to certain foreign sources, such as financial institutions, hedge funds, brokerage firms, pension funds and others with a foreign parent company, except for those authorized by the SBS to collect deposits from the general public in Peru. The applicable interest rate is expected to be periodically revised by the Central Bank in accordance with monetary policy objectives.

In the past few months, the Central Bank has on numerous occasions changed the deposit reserve requirements applicable to Peruvian commercial banks and both the rate of interest paid on deposit reserves and the amount of deposit reserves on which no interest is payable by the Central Bank.

Deposit Insurance Fund

Bank deposits are protected by the Deposit Insurance Fund (*Fondo de Seguro de Depósitos* or FSD) against bank failure. Specifically, savings deposit accounts maintained by individuals, savings deposit accounts maintained

by non-profit entities and checking accounts are covered in full up to an amount that is revised quarterly by SBS. For the period between September and November 2013, the maximum coverage amount is S/.92,904 per person per bank.

The FSD was established in 1991 and was organized as a private corporation in 1996. Its governing body is led by a representative of the SBS. The additional members are appointed by the Central Bank (1), the Ministry of Economy and Finance (1) and by financial institutions (3). The SBS provides the necessary administrative and operational resources. The financial resources available to the FSD pursuant to the Peruvian Banking Law include, among others, the original contribution from the Central Bank, insurance premiums paid by banks, unclaimed bank deposits after ten years and fines imposed by the SBS for violations of the Peruvian Banking Law.

In addition, the FSD may, in extraordinary situations, borrow with authorization from the Treasury or borrow long-term government securities from the Treasury.

Anti-Money Laundering Rules

Money laundering is considered a criminal act in Peru. A special legal framework was established in April 2002, which follows the 40 recommendations of the Financial Action Task Force on Money Laundering, or "FATF," established by the G-7. Since then, this legal framework has been amended in order to improve and increase the efficiency of the Peruvian anti-money laundering system.

Money laundering includes a wide range of serious offenses such as tax evasion, financing terrorism, drug trafficking, corruption and other criminal activities. A special set of anti-money laundering rules applies specifically to banks, which includes specific rules for customer and employee due-diligence and record-keeping. In March 2008, the SBS enacted additional anti-money laundering provisions, pursuant to which, among other things, banks must establish a set of policies and procedures specifically aimed to prevent asset laundering and the financing of terrorist activities. In November 2008, the SBS modified the anti-money laundering provisions to include, among other changes, the obligations of Peruvian banks to verify that their branches and foreign subsidiaries comply with the anti-money laundering and terrorism financing provisions enacted by the SBS and with the recommendations of the FATF.

The government agency responsible for supervising the anti-money laundering system is the Peruvian Financial Intelligence Unit (UIF), which was absorbed by the SBS in July 2007. The chairman of this agency is appointed by the chairman of the SBS.

Disclosure of Material Information

All banks that are organized as corporations (the only exception being the Peruvian branches of foreign banks) are listed on the BVL and are registered in SMV. As a result, they are subject to the disclosure and reporting rules contained in the Peruvian Securities Market Law and its regulations, as well as in the internal regulations of the BVL.

Under these rules, listed companies such as banks are required to disclose to the market on a timely manner (within 24 hours) all information that investors are reasonably likely to consider material. Special regulation provides for specific parameters to determine what is considered relevant information. Banks are also subject to full disclosure and reporting obligations under the banking regulatory framework.

Subordinated Debt as a Component of Regulatory Capital of BCP

Subject to certain requirements set forth under Peruvian law, the full amount of redeemable subordinated debt may qualify as a component of Tier II regulatory capital of BCP, according to Peruvian law.

As a component of Tier II regulatory capital, the amount of outstanding redeemable subordinated debt may be used to absorb losses that are incurred by BCP. Accordingly, during an intervention or liquidation proceeding and upon instruction of the SBS, any losses of BCP would be absorbed first by current and retained earnings, donations and premiums on the issuance of shares and legal and voluntary reserves, then by common and preferred shares, followed by hybrid instruments which qualify as Tier I and Tier II regulatory capital (as applicable) and finally by redeemable subordinated debt which qualifies as Tier II regulatory capital.

The only portion of redeemable subordinated debt that is eligible to be included in Tier II regulatory capital in its entirety is the aggregate outstanding amount of subordinated debt which has a term to maturity equal or greater than five years. The percentage of redeemable subordinated debt eligible to be included in Tier II regulatory capital decreases at a 20% discount rate per annum during the five-year period prior to maturity as follows:

| Maturity | Discount Rate |
|--|----------------------|
| Less than or equal to one year | 100% |
| More than one year but less than two years | 80% |
| More than two years but less than three years | 60% |
| More than three years but less than four years | 40% |
| More than four years but less than five years | 20% |

Intervention by the SBS and Liquidation

Pursuant to the Peruvian Banking Law, the SBS has the power to interrupt the operations of a bank in order to prevent it from, or to control and reduce the effects of, a bank failure. Accordingly, the SBS may intervene in a bank's business by adopting either a temporary surveillance regime ("Surveillance") or a definitive intervention regime ("Intervention") depending on how critical the situation is deemed to be by the SBS. Either of these actions may be taken upon the occurrence of certain events, including (a) suspension of payments; (b) repeated failure to comply with instructions from the SBS or the Central Bank; (c) repeated violation of the Peruvian Banking Law or the Bank's by-laws; (d) unauthorized or unsound management; or (e) deficit of regulatory capital (to the extent that if it is in excess of 50%, then an Intervention is mandatory). Less drastic measures, such as (i) placing additional requirements, (ii) ordering a capital increase or an asset divesture, or (iii) imposing a financial restructuring plan, may be adopted by the SBS when the situation allows for them.

An Intervention may halt a bank's operations up to 45 days, which may be extended for a second period of up to 45 additional days, during which time the SBS may institute measures such as (a) canceling losses by reducing reserves, capital and subordinated debt; (b) segregating certain assets and liabilities for transfer to another financial institution; and (c) merging the intervened bank with another acquiring institution. After an Intervention, the SBS will proceed to dissolve and liquidate the bank unless the preceding option (c) was applied.

Beginning on the date on which a resolution of the SBS subjecting a bank to an Intervention regime is issued, and continuing until such Intervention is concluded (which period ends when the liquidation process begins), the Peruvian Banking Law prevents any creditor of the bank from: (a) initiating any judicial or administrative procedure for the collection of any amount owed by the bank, (b) enforcing any judicial decision rendered against the bank to secure payment of any of its obligations, (c) constituting a lien or attachment over any of the assets of the bank to secure payment of any of its obligations, or (d) making any payment, advance or compensation or assuming any obligation on behalf of the bank, with the funds or assets that may belong to it and are held by third parties, except for: (i) set-off compensation payments that are made between regulated entities of the Peruvian banking and financial sector and insurance systems, and (ii) set-off of reciprocal obligations arising from repurchase agreements and operations with financial derivatives entered into with local or foreign financial and insurance institutions.

During liquidation, claims of bank creditors rank as follows:

First order - Labor claims:

1st. Employee remunerations.

2nd. Social benefits, contributions to the private and public pension system and other labor claims against the bank accrued until the date when the dissolution is declared, retirement pensions or the capital required to redeem those pensions or to secure them by purchasing annuities.

Second order - Claims for bank deposits and other types of saving instruments provided under the Peruvian Banking Law, in the portion not covered by the FSD.

Third order - Taxes:

1st. Claims by the Peruvian social security administration (*EsSalud*) related to health care benefits for which the bank is responsible as employer.

2nd. Taxes

Fourth order - Unsecured and non-privileged credits & Subordinated debt:

- 1st. All unsecured and non-privileged credits against the bank, ranked on the basis of (i) the date they were assumed or incurred by the bank whereby obligations assumed or incurred on an earlier date shall rank senior in right of payment to obligations assumed or incurred by the bank at a later date, and (ii) obligations assumed or incurred by the bank on a date that cannot be determined shall rank junior in right of payment to all the obligations comprised in (i) above and *pari passu* among themselves.
- 2nd. The legal interest on the Bank's obligations that may accrue during the liquidation.
- 3rd. Subordinated debt.

Except for unsecured and non-privileged credits, all claims within an order will be ranked pari passu among themselves. Each category of creditors will collect in the order indicated above, whereby distributions in one order will be subject to completing full distribution in the prior order.

Any security interest created before the issuance of the resolution declaring the Bank's dissolution and the initiation of the liquidation process shall subsist in order to guarantee the obligations it secures. The secured creditors shall retain the right to collect from the proceeds of the sale of the collateral, on a preferred basis (except with respect to labor claims and savings, which are privileged claims), subject to certain rules established under article 119 of the Peruvian Banking Law.

Peruvian banks are not subject to the regime of insolvency and bankruptcy otherwise applicable to Peruvian corporations in general.

Panamanian Regulation

We are issuing the notes through our Panamanian branch.

Our Panamanian branch is subject to the supervision of the PSB as well as the SBS. Banking activities in Panama are regulated in accordance with Decree Law No. 9 of 1998, modified by Decree Law No. 2 of 2008, or the Panamanian Banking Law, which reformed the Panamanian banking regulatory framework and created the PSB, an autonomous entity responsible for the supervision of the financial system.

The PSB has powers, among others, to issue and revoke bank licenses, establish minimum capital requirements, establish liquidity and reserve requirements, authorize the opening and closing of branches within and outside Panama, authorize any merger or consolidation or the sale of all or substantially all of a bank's assets, authorize material changes in the ownership of banks, supervise banks' operations, including determining banking hours and bank holidays, inspect banks, impose fines, interpret the Panamanian Banking Law and issue banking regulations. In addition, the PSB must authorize the voluntary liquidation and dissolution of banks and has the power to intervene and administer insolvent banks and order their reorganization or forceful liquidation upon its determination that a bank's financial situation warrants such action.

Banks in Panama are classified into four groups: (i) public sector banks (official banks), which are owned by the Government of Panama; (ii) general license banks, which may be Panamanian-owned or foreign-owned and can undertake domestic banking or international banking operations; (iii) international license banks, which cannot undertake domestic banking operations and are only authorized to direct from their Panamanian offices banking operations that are negotiated, carried out or produce their results outside Panama; and (iv) representative offices of foreign banks, established to act as representatives of banks that do not operate in Panama and that do not engage in banking activities in or from Panama.

Our Panamanian branch operates under an international banking license issued by the PSB, which permits us to engage in international operations from Panama limited to taking deposits from, and making loans to, persons outside of Panama, but does not allow us to undertake domestic operations in Panama.

Capital Adequacy

International license banks are required to maintain a minimum paid-in capital of U.S.\$3,000,000, of which U.S.\$250,000 must be kept as a deposit in the National Bank of Panama or in the *Caja de Ahorros* of Panama. In addition, international license banks must have an adjusted capital of not less than 8% of weighted risk assets. However, in the case of branches of foreign banks operating under an international banking license in Panama, the PSB has opted not to apply local capital adequacy rules. Thus, branches and consolidated subsidiaries of foreign banks must instead comply with the capital adequacy requirements of their head office.

Lending Limits

Branches and consolidated subsidiaries of foreign banks operating in Panama under an international banking license are not required to comply with regulations on lending limits issued by the PSB, but are required to comply with those established by the applicable foreign supervisory body.

Loan Classification and Loan-Loss Allowance Requirements

International license banks are required to comply with the loan classification and loan-loss allowance requirements established by the PSB. Branches and consolidated subsidiaries of foreign banks may rely on reserves established by their head office.

Liquidity

Branches and consolidated subsidiaries of foreign banks under a foreign supervisory body operating in Panama under an international banking license are not required to comply with liquidity requirements established by the PSB.

Taxation

International license banks are not subject to income tax in Panama if the transactions conducted by such banks from an office established in Panama are perfected, completed or take effect abroad and if the parties (other than the Panamanian branch) to such transactions are natural persons or entities not domiciled in Panama and are not generating taxable income in Panama.

Anti-Money Laundering Rules

International license banks are required to comply with all anti-money laundering laws and regulations, including the appointment of a compliance officer. In addition, there are no restrictions imposed on banks with international banking licenses, such as our Panamanian branch, regarding the issuance of debt instruments such as the notes.

MANAGEMENT

We are managed by our Board of Directors, President (Chief Executive Officer) and Executive Vice-Presidents. Our Board of Directors consists of:

| Name | Position | Board Member Since |
|--------------------------------------|----------------------------------|--------------------|
| Mr. Dionisio Romero Paoletti | President | 2003 |
| Mr. Raimundo Morales Dasso | Vice President | 2009 |
| Mr. Fernando Fort Marie | Member of the Board of Directors | 1990 |
| Mr. Reynaldo Llosa Barber | Member of the Board of Directors | 1990 |
| Mr. Juan Carlos Verme Giannoni | Member of the Board of Directors | 1990 |
| Mr. Luis Enrique Yarur Rey | Member of the Board of Directors | 1995 |
| Mr. Eduardo Hochschild Beeck | Member of the Board of Directors | 2003 |
| Mr. Roque Benavides Ganoza | Member of the Board of Directors | 2009 |
| Mr. Benedicto Cigüeñas Guevara | Member of the Board of Directors | 2005 |
| Mr. Felipe Ortiz de Zevallos Madueño | Member of the Board of Directors | 2006 |
| Mr. Germán Suárez Chávez | Member of the Board of Directors | 2006 |
| Mr. Luis Enrique Romero Belismelis | Member of the Board of Directors | 2009 |
| Mr. Carlos del Solar Simpson | Member of the Board of Directors | 2012 |

The members of our Board of Directors can be reached at our address at Calle Centenario 156, La Molina, Lima 12, Peru.

Detailed below is a brief biographical description of the members of our Board of Directors.

Mr. Dionisio Romero Paoletti

Mr. Dionisio Romero Paoletti holds a degree in Business Administration from Brown University and a Master's degree in Business Administration from Stanford University. He has been a Director of the Bank since 2003. In addition, he has served as the Chairman of the Board of Credicorp since March 2009 and he serves as a Director on the boards of various other companies.

Mr. Raimundo Morales Dasso

From October 1990 until March 2008, he served as the Bank's General Manager. In addition, he serves as Deputy Chairman of the Board of Credicorp and several of its subsidiaries, and serves as a Director on the boards of various other companies.

Mr. Fernando Fort Marie

Mr. Fernando Fort Marie is a lawyer and a partner at the law firm of Fort, Bertorini y Godoy. Mr. Fort has served as a Director of the Bank from 1979 to 1987 and from March 1990 to the present. He has served as a Director of Credicorp since March 1999. Additionally, Mr. Fort serves as a Director on the board of Inversiones Centenario S.A.A. and the boards of various other companies.

Mr. Reynaldo Llosa Barber

Mr. Reynaldo Llosa Barber is a businessman and has served as a Director of the Bank from 1980 to 1987 and from March 1990 to the present. He has been a Director of Credicorp since August 1995. Mr. Llosa is also the main partner and general manager of F.N. Jones S.R. Ltda., and serves as a Director on the boards of various other companies.

Mr. Juan Carlos Verme Giannoni

Mr. Juan Carlos Verme Giannoni is a businessman and has served as a Director of the Bank since March 1990

and as a Director of Credicorp since August 1995. Mr. Verme also serves as a Director on the boards of various other companies.

Mr. Luis Enrique Yarur Rey

Mr. Luis Enrique Yarur Rey is a businessman with a Bachelor's degree in law and graduate degrees in Economics and Management. He became a Director of Credicorp in 2002. Mr. Yarur is the Chairman of the Board of Banco de Crédito e Inversiones in Chile, and a member of the boards of various other Chilean companies.

Mr. Eduardo Hochschild Beeck

Mr. Eduardo Hochschild Beeck is a mechanical engineer and holds a degree in Physics. He became a Director of the Bank in 2003. He serves as a Director on the boards of various other companies.

Mr. Roque Benavides Ganoza

Mr. Roque Benavides Ganoza is an engineer from Pontificia Universidad Católica del Perú and holds a Master's degree in Business Administration from Henley, the Management College of Brunel University. He is a Director and the Executive President of Compañia de Minas Buenaventura S.A., one of the largest mining companies in Peru, since 2004, and is a Director on the boards of several companies affiliated with Buenaventura. He has been a member and served as the President of several industrial organizations such as CONFIEP (Confederación Nacional de Instituciones Empresariales Privadas). He has been a Director on the board of the Bank since March 2009.

Mr. Benedicto Cigüeñas Guevara

Mr. Benedicto Cigüeñas Guevara is an economist and became a Director of the Bank in January 2005. Previously he had been Chief Financial Officer of the Bank for 12 years (1991 to 2003).

Mr. Felipe Ortiz de Zevallos Madueño

Mr. Felipe Ortiz de Zevallos Madueño is an industrial engineer with a Master's degree in Management Science from Rochester University and a Management Program degree from Harvard Business School. He became a Director of the Bank in March 2006. He also serves as a Director on the board of Credicorp and other companies.

Mr. Germán Suárez Chávez

Mr. Germán Suárez Chávez is an economist and received his Master's degree in Economics from Columbia University. Mr. Suárez became a Director of the Bank in March 2006. Mr. Suárez was President and Chairman of the Board of the Peruvian Central Bank from 1992 to 2001, and he serves as a Director on the boards of various other companies, including Credicorp, Compañía de Minas Buenaventura S.A. and Refinería La Pampilla S.A.

Mr. Luis Enrique Romero Belismelis

Mr. Luis Enrique Romero Belismelis has a Bachelor's degree from Boston University. He is a board member of several industrial, commercial and service sector companies in Peru. He has served as the Vice-President of the board of Alicorp S.A.A., one of the largest industrial companies in Peru, since 1996. He is Mr. Romero Paoletti's first cousin.

Mr. Carlos del Solar Simpson

Mr. Carlos del Solar Simpson has a degree in geology from Universidad Nacional Mayor de San Marcos and holds a Masters' degree in Science from Stanford University. He has previously served as CEO and President of the Hunt Oil Company of Peru. He has been and currently is a member of the Board of Directors of several industrial organizations such as CONFIEP. He was elected to our Board of Directors at the General Shareholders' meeting held March 30, 2012.

Executive Committee and Audit Committee

Our Executive Committee meets weekly and is responsible for approving credit operations beyond the authority of our management. In addition, the Executive Committee approves, modifies or dismisses issues on which it has been consulted by our managers and provides guidance on the actions of our management. The Executive Committee participates in the review of our financial statements, our internal controls and the performance of our external and internal auditors, and engages in our follow-up responses to recommendations of the SBS. In certain urgent circumstances, the Executive Committee has the authority is empowered to make decisions in place of the Board of Directors.

Our Audit Committee is responsible for monitoring our internal controls and reports to our Board of Directors on the execution of our internal controls, policies and procedures. The Audit Committee approves and oversees the execution of the working plan of our Audit Group and is also responsible for evaluating the performance of our external auditors. The Audit Committee meets once every two months.

The members of our Executive Committee and our Audit Committee can be reached at our address at Calle Centenario 156, La Molina, Lima 12, Peru.

The members of our Executive Committee are:

| Name | Position |
|--|----------------------------------|
| Mr. Dionisio Romero Paoletti | Chairman |
| Mr. Raimundo Morales Dasso | Member of the Board of Directors |
| Mr. Fernando Fort Marie | Member of the Board of Directors |
| Mr. Reynaldo Llosa Barber | Member of the Board of Directors |
| Mr. Benedicto Cigüeñas Guevara | Member of the Board of Directors |
| Mr. Juan Carlos Verme Giannoni | Member of the Board of Directors |
| The members of our Audit Committee are: | D. W. |
| Name | Position |
| Mr. Raimundo Morales Dasso | Member of the Board of Directors |
| Mr. Juan Carlos Verme Giannoni | Member of the Board of Directors |
| Mr. Germán Suárez Chávez | Member of the Board of Directors |
| Mr. Benedicto Cigüeñas Guevara (advisor) | Member of the Board of Directors |

Senior Management

He has been with the Bank since 1999, having worked in Risk Management, Corporate Banking and Retail Banking. Since 2009, he has acted as Executive Vice Chairman of Financiera Edyficar, and was recently appointed Manager of the Commercial Division.

Mr. Eduardo Montero Dasso

Mr. Eduardo Montero has a Master's degree in Business Administration from the Wharton School of the University of Pennsylvania. He joined the bank in 1994 as an Analyst in the Corporate Finance Group. Between 2004 and 2012, Mr. Montero served in various overseas positions for the group such as General Manager for Atlantic Security Bank in Panama and General Manager of BCP Miami and Creditor Securities in Miami. Currently he is the Manager of BCP's Personal Banking Division.

Mr. André Figuerola Boesch

Mr. André Figuerola Boesch holds a double major in Finance and Business Economics from The University of South Carolina, and a Master's degree in Business Administration from Universidad del Pacífico. He has been a portfolio manager in the Latam Private Banking Division at UBS in Zürich, Switzerland, and head of the FX sales team at Banco Unión in Caracas, Venezuela. He has been with the Bank since 1995.

Mr. José Luis Muñoz Rivera

Mr. José Luis Muñoz Rivera is an accountant with an Executive Master's degree in Business Administration from Universidad de Piura. Since March 1997, he has been the Manager of the Accounting Division of the Bank. Previously, he was a manager in the Audit and Business Advising divisions of Arthur Andersen in Peru. Mr. Muñoz has also been an Accounting and Audit Professor in Universidad del Pacífico and Universidad de Lima. He has been with the Bank since 1997.

Mr. Cesar Ríos

Mr. Ríos has a Master's degree in Business Administration from the Sloan Fellows program at the Massachusetts Institute of Technology. He joined the bank's Corporate Finance Division in 1993, where he served as a consultant and as Vice President of Corporate Finance. Mr. Ríos was CFO and COO of Banco Capital, a former Credicorp subsidiary in El Salvador. He was also in charge of Credit and Operational Risk Management at BCP prior to holding his current position of head of the Strategic and Planning Division.

Mr. Ricardo Bustamante González

Mr. Ricardo Bustamante González holds an undergraduate degree in Economics and a Master's degree in Information Technology Project Management from George Washington University. Mr. Bustamante joined the Bank in 1993. Since May 1999, he has served as Manager of the Systems and Organization Division. Previously, he worked at Banco del Sur del Perú, Grupo Inca and Global Insurance Organization in Australia.

Mr. Jose Esposito Li-Carrillo

Mr. Esposito is an economist from the Universidad del Pacífico, Peru. He also has a Master's degree in Economics from the University of Wisconsin – Milwaukee and L-3 Certificate of Insurance from the CII, U.K. Mr. Esposito joined BCP in 1996 in the Corporate Finance Department. He has held the position of General Manager of Credibolsa, the brokerage house of BCP between 2000 and 2005. From 2006 to 2009 he has been the Chief Financial Officer of Pacífico Seguros, Credicorp's insurance company. Since 2010, he has held the position of Chief Audit Executive of the Bank and Credicorp.

Mr. Diego Cavero Belaúnde

Mr. Diego Cavero Belaúnde has a degree in Business Administration from Universidad de Lima, with a Master's degree in Business Administration from Red McCombs School of Business at the University of Texas at Austin. He has been the CEO of Banco de Crédito de Bolivia, as well as Chairman of the Board of Credifondo Bolivia. He has also been Manager of the Corporate Banking and Middle Market Commercial Banking groups and. Manager of the Corporate Banking Division. Currently, he is the Manager of the Efficiency Division.

Mrs. Barbara Falero

Mrs. Barbara Falero has been the Chief Compliance Officer for the Bank and its affiliates since 2008. Before

joining the group in 2006 as Compliance Officer for our Miami Agency she worked for six years as Lead Examiner for the Federal Reserve Bank of Atlanta, supervising international banks and agencies. Mrs. Falero attended Florida International University and has a Master's degree in Finance.

Mr. Guillermo Morales Valentín

Mr. Guillermo Morales Valentin is the Legal Group Manager. He holds a law degree from Pontificia Universidad Católica del Perú and a Master's degree in Law (LLM) from Texas University. He has been the Bank's Legal Group Manager since January 2010. He was the Legal Manager for Grupo Santander Peru from 2003 to 2007. Mr. Morales has also been a Director in the board of Edelnor S.A.A., Red Electrica del Sur and Universia Peru S.A. He has been with the Bank since 2007.

Mr. Pablo de la Flor Belaúnde

Mr. Pablo de la Flor is a political scientist with a Master's degree from Yale University and an MPA from Harvard University's Kennedy School of Government. He has served as Vice Minister of International Trade and Lead Trade Negotiator for Peru. He has also been Vice President of Corporate Affairs at the Antamina Mining Company, Program Officer at the Ford Foundation, and consultant to various multilateral development institutions. Currently, Mr. de la Flor is Manager of the Corporate Affairs Division of BCP.

Mr. Bernardo Sambra Graña

Mr. Bernardo Sambra Graña has a degree in Business Administration from Universidad de Lima, with a Master's degree in Finance from Universidad del Pacífico and a Human Resources specialization from Ross School of Business at the University of Michigan. He previously served as Manager of Electronic Cash Management Solutions in the Wholesale Banking Division. Currently, Mr. Sambra is the Human Resources Division Manager at BCP.

OWNERSHIP

BCP's capital stock consists of a single series of common shares, all with equal rights and a par value of S./1.00. As of September 30, 2013, BCP had issued and outstanding 3,752,616,786 common shares and total issued capital in the amount of S./3,752,616,786.00. All outstanding shares are fully paid-in, and there are no outstanding convertible bonds, warrants or any other security convertible to shares of common stock. BCP does not currently hold any of its own shares nor does any subsidiary of BCP hold BCP shares.

BCP is the principal subsidiary of Credicorp, a financial holding company to various financial institutions, which directly and indirectly owns 97.66% of our common stock. The remaining 2.34% is diluted among individual investors. Credicorp's common stock trades on the NYSE under the symbol BAP.

As of September 30, 2013, Credicorp's issued capital consisted of 94,382,317 fully subscribed and paid common shares.

The following table provides the percentages of common shares owned by holders of 5% or more of the common shares of Credicorp as stated in its annual report on form 20-F filed with the SEC on April 30, 2013:

| Shareholder | Nominal amount of shares | % Ownership(1) |
|---------------------------------------|--------------------------|------------------|
| Atlantic Security Holding Corporation | 14,620,846 12,527,277 | 15.49% 13.27% |

⁽¹⁾ As a percentage of issued and outstanding shares (including shares held by ASHC and other Credicorp subsidiaries).

⁽²⁾ Includes common shares directly or indirectly owned by Dionisio Romero Seminario and his family or companies owned or controlled by him. Mr. Dionisio Romero Paoletti, son of Dionisio Romero Seminario, is the Chairman and Chief Executive Officer of Credicorp.

RELATED-PARTY TRANSACTIONS

We have entered into various transactions with related parties. Under the Peruvian Banking Law, all loans to related parties must be provided on terms no more favorable than the best terms that we offer to the public. We believe that we are in full compliance with this requirement and all other related-party transaction requirements under the Peruvian Banking Law.

Our related-party transactions include:

- acquiring bonds, extending loans, supplying and soliciting banking services, correspondent relationships and other operations with Credicorp subsidiaries; and
- extending direct and indirect loans to non-Credicorp related parties, which consist principally of loans to companies controlled by the controlling shareholders of Credicorp.

The following is a summary of such commitments with Credicorp subsidiaries, categorized by transaction type, as of and for the years ended December 31, 2010, 2011 and 2012, and as of and for the nine months ended September 30, 2013:

As of and for the

| Credicorp subsidiaries | | | | |
| Loans, net | 745,974 | 695,806 | 1,143,299 | 1,077,879 |
| Indirect loans | 75,827 | 104,947 | 134,018 | 271,393 |
| Derivatives at market value | 3,751 | 4,020 | 4,673 | 1,027 |
| Deposits and obligations | 286,460 | 194,824 | 605,906 | 333,930 |

In addition, we also hold securities-available-for-sale in related parties in the amount of S/.9.3 million, S/.7.7 million, S/.4.5 million and S/.2.5 million as of December 31, 2010, December 31, 2011, December 31, 2012 and September 30, 2013, respectively.

Accordingly, as of September 30, 2013, direct and indirect loans to Credicorp subsidiaries were S/.344.7 million, in the aggregate, including S/.159.9 million in outstanding loans. These loans comprised approximately 0.57% of our total loan portfolio, of which 100.0% were classified as Normal (*Normal*), 0.0% as Potential problem (*Problema Potencial*), 0.0% as Substandard (*Deficiente*), 0.0% as Doubtful (*Dudoso*) and 0.0% as Loss (*Pérdida*).

As of September 30, 2013, loans and other credits to our employees in a consolidated basis amounted to S/.736.4 million (U.S.\$ 264.7 million).

On an unconsolidated basis and in accordance with the Peruvian Banking Law, the SBS regulates and closely monitors loans to related-parties and has established a limit on related-party loans equivalent to 30% of a bank's regulatory capital. Our total related-party loans (including loans to Credicorp subsidiaries and to non-Credicorp subsidiaries) on an unconsolidated basis were 12.1% of our regulatory capital as of September 30, 2013, 15.0% of our regulatory capital as of December 31, 2012 and 10.8% of our regulatory capital as of December 31, 2011. We intend to continue to enter into transactions with related parties on terms similar to those that would be offered by or to an unaffiliated third party.

DESCRIPTION OF THE NOTES

The new notes (which we refer to in this section as the "New Notes") will constitute a further issuance of and form a single series with our outstanding U.S.\$520 million 6.125% fixed-to-floating rate subordinated notes due 2027 that were originally issued on April 24, 2012 in the aggregate principal amount of U.S.\$350 million with an additional issuance on April 9, 2013 in the aggregate principal amount of U.S.\$170 million, or the existing notes, which, together with the New Notes, we refer to in this section as the "Notes." The New Notes will have identical terms and conditions as the existing notes, other than the issue date and issue price, and will constitute part of the same series as, and vote together as a single class with, the existing notes. The New Notes will have the same CUSIP, ISIN and Common Code numbers as, and will be fungible with, the existing notes (except that any New Notes offered and sold in compliance with Regulation S will have temporary CUSIP, ISIN and Common Code numbers during a 40-day distribution compliance period commencing on the date of issuance of the New Notes).

The Notes will be issued pursuant to an indenture dated as of April 24, 2012 among The Bank of New York Mellon, as trustee, paying agent, calculation agent and security registrar, The Bank of New York Mellon (Luxembourg) S.A., as Luxembourg paying agent and transfer agent, and us, acting through our Panamanian branch.

The indenture provides for the issuance of the Notes but does not limit the aggregate principal amount of Notes that may be issued under the indenture, and provides that, subject to certain conditions, additional Notes may be issued under the indenture from time to time. The indenture does not limit the amount of additional indebtedness or other obligations that we may incur. At our option, this additional indebtedness may consist of additional Notes ("Additional Notes") issued by us in one or more transactions, which shall have identical terms (other than issue date, issue price and in certain cases, first interest payment date) as the notes issued hereby; provided, however, that if the Additional Notes are not fungible with the Notes for U.S. federal income tax purposes (including for purposes of Sections 1471 to 1474 of the Code, as defined below), the Additional Notes will have separate CUSIP and ISIN numbers and separate common codes. Holders of Additional Notes will vote together with holders of the Notes issued hereby as one class.

This summary describes the general terms and provisions of the indenture and the Notes. The description of certain provisions of the Notes does not purport to be complete and is subject to, and is qualified in its entirety by reference to, all of the provisions of the indenture and the Notes, including the definitions therein of certain terms. We urge you to read each of the indenture and the form of the Notes because they, and not this description, define your rights as a holder of Notes. In case of any conflict regarding the rights and obligations of the holders of the Notes under the indenture, the Notes, and this offering memorandum, the terms of the indenture will prevail. Capitalized terms not otherwise defined in this "Description of the Notes" have the meanings ascribed to them in the indenture. You may obtain a copy of the indenture and the form of the Notes by contacting the trustee at the address indicated in this offering memorandum and, for so long as the Notes are admitted to listing on the Official List of the Luxembourg Stock Exchange (the "LSE") and to trading on the Euro MTF Market, at the office of the paying agent in Luxembourg.

General

The Notes:

- are BCP's direct, unsecured subordinated obligations, junior in right of payment to all existing and future Senior Obligations in accordance with the subordination provisions of the indenture;
- were initially issued in an aggregate principal amount of U.S.\$350,000,000 on April 24, 2012 with an additional issuance in an aggregate principal amount of U.S.\$170,000,000 on April 9, 2013;
- will be at least pari passu in right of payment with BCP's Parity Securities; and
- are senior in right of payment to the payment of BCP's Junior Securities.

Acceleration of any payments due under the Notes will occur only upon the occurrence and continuation of an Acceleration Event. There is no right of acceleration in the case of a default in any payment on the Notes (whether when due, upon redemption or otherwise) or the performance of any of BCP's other obligations under the indenture

or the Notes.

As of September 30, 2013, the issuer had approximately S/.1,252.4 million (approximately U.S.\$ 450.2 million) in promotional credit lines that are secured by a loan portfolio, S/.100 million (approximately U.S.\$ 35.9 million) in locally issued leasing bonds, S/.1,644.2 million (approximately U.S.\$ 591.0 million) in locally issued corporate bonds, S/.1,152.7 million (approximately U.S.\$ 414.4 million) in syndicated loans, S/.3,375.0 million (approximately U.S.\$ 1,213.1 million) due to banks and correspondents with foreign financial institutions, S/.2,941.9 million (approximately U.S.\$ 1,057.5 million) due to related parties, S/. 5,150.8 million (approximately U.S.\$ 1,851.5 million) in internationally issued corporate bonds, S/. 446.3 million (approximately U.S.\$ 160.4 million) in locally issued subordinated bonds, S/.3,205.5 million (approximately U.S.\$ 1,152.2 million) in internationally issued subordinated bonds, and S/.685.4 million (approximately U.S.\$ 246.4 million) in internationally issued junior subordinated bonds. Payments on the notes will be subordinated to the payment of Senior Obligations, which include employee liabilities (such as payroll), bank deposits and other types of saving instruments and taxes, among other types of obligations. The indenture will permit us to incur additional Senior Obligations.

Principal, Maturity and Interest

BCP will issue U.S.\$ 200,000,000 in aggregate principal amount of New Notes in this offering. The Notes will mature on April 24, 2027, and unless previously redeemed, the aggregate principal amount of the Notes will be due and payable on April 24, 2027. BCP will issue the New Notes only in fully registered form in the form of beneficial interests in one or more global Notes registered in the name of Cede & Co., as nominee of The Depository Trust Company, or DTC. BCP will issue Notes in denominations of U.S.\$10,000 and integral multiples of U.S.\$1,000 in excess of U.S.\$10,000.

Through April 24, 2022, BCP will pay interest on the Notes semi-annually on each April 24 and October 24, commencing on April 24, 2014 (with respect to the New Notes), to the person in whose name such Note was registered 15 calendar days prior to April 24 or October 24, as the case may be. After April 24, 2022, BCP will pay interest on the Notes quarterly on January 24, April 24, July 24 and October 24 of each year to the person in whose name such Note was registered 15 calendar days prior to January 24, April 24, July 24 and October 24, as the case may be. However, interest not punctually paid or duly made available for payment, if any, will be paid instead to the person in whose name the Note is registered on a special record date rather than on the regular record date. In the case of interest due at the date of maturity, BCP will pay interest to the persons to whom principal is payable, whether or not the date of maturity is an interest payment date.

The Notes will bear interest from April 24, 2012 (or October 24, 2013 with respect to the New Notes) or from the most recent interest payment date on which BCP has paid or provided for interest on the Notes. From and including October 24, 2013 (with respect to the New Notes) to but excluding April 24, 2022, the Notes will bear interest at the rate per annum set forth on the cover page of this offering memorandum (the "fixed rate period"). During the period from and including April 24, 2022 to but excluding the date of maturity or earlier redemption date (the "floating rate period"), the interest rate per annum for the Notes will be reset quarterly on the first day of each Interest Reset Period and will be equal to three-month LIBOR plus 7.043%, as determined by the calculation agent. The Bank of New York Mellon will initially act as calculation agent. During the fixed rate period, interest will be computed on the basis of a 360-day year of twelve 30-day months. During the floating rate period, interest will be computed on the basis of a 360-day year and the actual number of days elapsed. The amount of interest for each day the Notes are outstanding (the "Daily Interest Amount") during the floating rate period will be calculated by dividing the interest rate in effect for that day by 360 and multiplying the result by the principal amount of the Notes. The amount of interest to be paid on the Notes for each interest period during the floating rate period will be calculated by adding the Daily Interest Amounts for each day in the interest period. Except as described below for the first interest period, on each interest payment date, BCP will pay interest for the period commencing on and including the immediately preceding interest payment date and ending on and including the day preceding the next interest payment date.

In the event that an interest payment date occurring during the fixed rate period is not a Business Day, BCP will pay interest on the next day that is a Business Day, with the same force and effect as if paid on such interest payment date, and no interest shall accrue on the amount so payable for the period from and after such interest payment date. In the event that an interest payment date occurring during the floating rate period is not a Business

Day, BCP will pay interest on the next day that is a Business Day, and the amount paid on such day will include interest accrued to but excluding such next Business Day, unless it would thereby fall in the next succeeding calendar month, in which case such interest payment date will be brought forward to the immediately preceding Business Day. If the date of maturity or earlier redemption date falls on a day that is not a Business Day, the payment of principal and interest, if any, will be made on the next succeeding Business Day and no interest shall accrue on the amount so payable for the period from and after such date of maturity or earlier redemption date.

Any money that BCP pays to the paying agent for the purpose of making payments on the Notes that remains unclaimed two years after the payments were due will, at its written request, be returned to BCP. After that time any holder of a Note can only look to BCP for payment on the Notes.

All percentages resulting from any of the above calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with five one-millionths of a percentage point rounded upwards (*e.g.*, 9.876545% (or .09876545) being rounded to 9.87655% (or .0987655)) and all dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one-half cent being rounded upwards).

The interest rate on the Notes will in no event be higher than the maximum rate permitted by Peruvian, Panamanian, or New York law (as the same may be modified by United States law of general application).

The calculation agent will, upon the written request of the holder of any Note, provide the interest rate then in effect. All calculations of the calculation agent, in the absence of manifest error, shall be conclusive for all purposes and binding on BCP and holders of the Notes. BCP may appoint a successor calculation agent.

The interest commencement date for the notes issued hereby is October 24, 2013 and the first interest payment date of the notes offered hereby is April 24, 2014.

Payment of Additional Amounts

All payments in respect of the Notes will be made free and clear of and without any deduction or withholding for or on account of any present or future Taxes (as defined below), unless the withholding or deduction of such Taxes is required by law or the official interpretation thereof, or by the administration thereof or pursuant to any agreement between BCP and the United States or any authority thereof. If BCP is required by any law of any Taxing Jurisdiction (as defined below) to withhold or deduct any Taxes from or in respect of any sum payable under the Notes, BCP shall (i) pay such additional amounts ("Additional Amounts") as may be necessary in order that the net amounts receivable by holders of any Notes after such withholding or deduction shall equal the respective amounts which would have been receivable by such holder in the absence of such withholding or deduction, (ii) make such withholding or deduction, and (iii) pay the full amount withheld or deducted to the relevant tax or other authority in accordance with applicable law, except that no such Additional Amounts will be payable in respect of any Note:

- (i) to the extent that such Taxes are imposed or levied by reason of such holder (or the beneficial owner) having some connection with the Taxing Jurisdiction other than the mere holding (or beneficial ownership) of such Note, receiving principal or interest payments on the Notes or enforcing rights thereunder (including but not limited to citizenship, nationality, residence, domicile, or existence of a business, permanent establishment, a dependent agent, a place of business or a place of management present or deemed present in the Taxing Jurisdiction);
- (ii) to the extent that any Taxes are imposed other than by deduction or withholding from payments of principal, premium, if any, or interest on or in respect of the Notes;
- (iii) in the event that the holder (or beneficial owner) fails to comply with any certification, identification or other reporting requirement concerning nationality, residence, identity or connection with the Taxing Jurisdiction if (1) compliance is required by applicable law, regulation, administrative practice or treaty as a precondition to exemption from all or part of the taxes, (2) if the certification, identification or other reporting requirement does not concern nationality, residence or identity with the Taxing Jurisdiction, the holder (or beneficial owner) is able to comply with these requirements without undue hardship and (3) we have given the holders (or beneficial owners) at least 30 calendar days prior notice that they will be required to comply with such requirement;

- (iv) in the event that the holder fails to surrender (where surrender is required) its Note for payment within 30 days after we have made available a payment of principal or interest, provided that we will pay Additional Amounts to which a holder would have been entitled had the Note been surrendered on the last day of such 30-day period;
- (v) to the extent that such Taxes are imposed by reason of an estate, inheritance, gift, personal property, value added, use or sales tax or any similar taxes, assessments or other governmental charges;
- (vi) where such withholding or deduction of Taxes is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any other directive on the taxation of savings implementing the conclusions of the European Council of Economic and Finance Ministers ("ECOFIN") meeting of June 3, 2003 or any law implementing or complying with, or introduced in order to conform to, such directive:
- (vii) by or on behalf of a holder who has been able to avoid such withholding or deduction of Taxes by presenting the relevant Note to another available paying agent of BCP in a member state of the European Union:
- (viii) where such withholding or deduction is imposed on or in respect of any Note pursuant to sections 1471 to 1474 of the U.S. Internal Revenue Code of 1986, as amended (the "Code") or any successor law or regulation implementing or complying with, or introduced in order to conform to, such sections; or
 - (ix) any combination of items (i) to (viii) above.

Notwithstanding the language above in (v), Additional Amounts will be payable in respect of any Note to the extent that a Peruvian or Panamanian value added tax is imposed on payments of interest on the Notes.

Any reference to payments on the Notes shall be deemed also to include any Additional Amounts. However, no holder of a Note shall be entitled to receive any Additional Amounts greater than the amounts necessary in order that the net amounts receivable by such holder after such withholding or deduction equal the respective amounts which would have been receivable by such holder in the absence of such withholding or deduction, subject to the exceptions above.

"Taxes" means, with respect to payments on the Notes, all taxes, withholdings, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of Peru or Panama, or in the event that BCP appoints additional paying agents, by the jurisdictions of such additional paying agents, or the jurisdiction of any successor corporation (each, a "Taxing Jurisdiction"), or any political subdivision thereof or any authority or agency therein or thereof having power to tax.

For a discussion of Peruvian withholding taxes applicable to payments under or with respect to the Notes, see "Taxation."

Redemption Prior to Maturity

Make-Whole Redemption

On April 24, 2017 or on any date occurring thereafter until April 24, 2022, subject to the prior approval of the SBS or any other then-applicable Peruvian Governmental Authority, BCP may at its option redeem the Notes in whole or in part, at a price equal to the greater of (1) 100% of the principal amount of such Notes on such redemption date and (2) the sum of the present value of each remaining scheduled payment of principal and interest on the Notes to April 24, 2022 (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 50 basis points (the "Make-Whole Amount"), *plus* in each case any accrued and unpaid interest on the principal amount of the Notes up to, but not including, the date of redemption, *plus* Additional Amounts, if any (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Optional Redemption

On April 24, 2022, or on any interest payment date occurring thereafter, subject to the prior approval of the SBS or any other then-applicable Peruvian Governmental Authority, BCP may at its option redeem the Notes in whole or in part, at a redemption price equal to 100% of the aggregate principal amount of the Notes to be redeemed, *plus* any accrued and unpaid interest on the principal amount of the Notes, up to, but not including, the date of redemption, *plus* Additional Amounts, if any (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Redemption upon Tax Event or Regulatory Event

At any time with the prior approval of the SBS, or any other then-applicable Peruvian Governmental Authority, if required, BCP may redeem the Notes in whole, but not in part, following the occurrence of a Tax Event (as defined below) or Regulatory Event (as defined below). In the case of redemption following a Tax Event, BCP will redeem the Notes at a redemption price equal to 101% of the aggregate principal amount of the Notes to be redeemed, *plus* any accrued and unpaid interest on the principal amount of the Notes, up to, but not including, the date of redemption, *plus* Additional Amounts, if any. In the case of redemption following a Regulatory Event, BCP may redeem the Notes at a redemption price equal to the Make-Whole Amount (as defined under the caption "— Make-Whole Redemption" above), *plus* any accrued and unpaid interest on the principal amount of the Notes, up to, but not including, the date of redemption, *plus* Additional Amounts, if any.

In the case of a Tax Event, before giving notice of redemption, BCP shall deliver to the trustee an officers' certificate stating that BCP is entitled to effect such redemption in accordance with the terms set forth in the indenture and setting forth in reasonable detail a statement of the facts relating thereto. The statement will be accompanied by a written opinion of counsel to the effect, among other things, that:

- (i) as a result of a Tax Event, BCP has become obligated to pay or will be liable for Additional Amounts payable in respect of the Notes in excess of the gross amount of Additional Amounts payable in respect of such Notes prior to such Tax Event; and
- (ii) such obligation cannot be avoided by taking reasonable measures available to BCP (such measures not involving any material cost to BCP or the incurring of any material tax or penalty).

In the case of a Tax Event or a Regulatory Event, BCP is required, prior to exercising the right of redemption, to deliver to the trustee an officers' certificate together with a written legal opinion of Peruvian counsel of recognized standing, selected by BCP, in a form satisfactory to the trustee confirming that such right of redemption has been authorized by the SBS or any other then-applicable Peruvian Governmental Authority.

"Tax Event" means (a) any change in or amendment (including any announced prospective change) to the laws, treaties or regulations of Peru or Panama or any political subdivision or governmental authority thereof or (b) any judicial decision, official administrative announcement or regulatory procedure, of Peru or Panama (each an "Administrative Action"), or (c) any amendment to or change in the official position or the official interpretation of such Administrative Action that provides for a position with respect to such Administrative Action that differs from the theretofore generally accepted position, in each case, by any legislative body, court, governmental authority or regulatory body having appropriate jurisdiction, irrespective of the manner in which such amendment or change is made known, which amendment or change is effective or such pronouncement or decision is announced on or after the date of issuance of the Notes.

"Regulatory Event" means that, as a result of (i) any change in, or amendment to, the laws (or any regulations or rulings issued thereunder) of Peru or any political subdivision thereof or any regulatory authority therein or (ii) any change in the application, administration or official interpretation of such laws, regulations or rulings, including, without limitation, the holding of a court of competent jurisdiction, which change or amendment becomes effective on or after the issuance date of the Notes, BCP will no longer be entitled to treat the full, or the applicable portion of, principal amount of the Notes as Tier II Regulatory Capital pursuant to Peruvian banking regulations. See "Regulatory Environment—Subordinated Debt as a Component of Regulatory Capital of BCP."

Notice of Redemption

In the event that BCP exercises its option to redeem the Notes (subject to obtaining the approval of the SBS or any other then-applicable Peruvian Governmental Authority), BCP will give the trustee notice of redemption at least 45 days prior to the proposed redemption date (unless a shorter period of time is agreed upon), and the trustee is obligated to provide to the holders written notice of redemption not less than 30 nor more than 60 days prior to the redemption date; provided it receives timely notice of redemption from BCP.

Notice of redemption will be given as described in the indenture and under the caption "Notices" below. If the redemption price in respect of any Notes is improperly withheld or refused and is not paid by BCP, interest on the Notes will continue to be payable until the redemption price is paid in full.

Open Market Purchases

With the prior approval of the SBS or any other then-applicable Peruvian Governmental Authority (if then required), BCP may at any time purchase any Notes in the open market or otherwise in any manner and at any price, which Notes may be delivered to the trustee to be promptly cancelled by it; *provided* that, in the event that BCP does not purchase the entire aggregate principal amount of the Notes outstanding, following any such purchase at least U.S.\$50 million in aggregate principal amount of the Notes must remain outstanding. Upon cancellation, the cancelled Notes will no longer be considered part of BCP's Regulatory Capital. Any such Note not delivered to the trustee to be cancelled may be resold in compliance with all relevant laws, regulations and directives.

Subordination

The Notes will constitute BCP's direct, unsecured, subordinated obligations and will rank *pari passu* without preference among themselves. In the event of BCP's bankruptcy, insolvency, liquidation, dissolution, winding up or equivalent proceeding under the Peruvian Banking Law, the Notes will rank:

- junior in right of payment to the payment of all of BCP's Senior Obligations;
- pari passu in right of payment with BCP's Parity Securities; and
- senior in right of payment to the payment of BCP's Junior Securities.

The indenture provides that, in the event of BCP's bankruptcy, unless all holders of its Senior Obligations have been paid in full, no payment or other distribution may be made in respect of the Notes. If the trustee under the indenture or any holders of the Notes receive any payment or distribution that is prohibited under these provisions, then the trustee or the holders will have to repay that money to, or hold that money in trust for the benefit of, holders of BCP's Senior Obligations. See "Risk Factors—Risk Factors Relating to the Notes—The Notes will be unsecured and subordinated and rank junior in payment and in liquidation to all of our existing and future Senior Obligations."

Loss Absorption

Pursuant to the Peruvian Banking Law, as amended, and regulations promulgated thereunder, the SBS may decree that in the case of Intervention (as defined below) by the SBS or the liquidation of BCP the principal amount and/or interest on the Notes be used to absorb losses of BCP. If the SBS were to do so, any losses of BCP would be absorbed first by current and retained earnings, donations and premiums on the issuance of shares and legal and voluntary reserves, then by common and preferred shares, followed by hybrid instruments which qualify as Tier I and Tier II Regulatory Capital (as applicable) and finally by redeemable subordinated debt which qualifies as Tier II Regulatory Capital, such as the Notes.

Peruvian Bankruptcy Considerations

Pursuant to the Peruvian Banking Law, the SBS has the power to interrupt the operations of a bank in order to prevent it from, or to control and reduce the effects of, a bank failure. Accordingly, the SBS may intervene in a bank's business by adopting either a temporary surveillance regime ("Surveillance") or a definitive intervention regime ("Intervention") depending on how critical the situation is deemed to be by the SBS. Either of these actions may be taken upon the occurrence of certain events, including (a) suspension of payments; (b) repeated failure to

comply with instructions from the SBS or the Central Bank; (c) repeated violation of the Peruvian Banking Law or the bank's by-laws; (d) unauthorized or unsound management; or (e) deficit of regulatory capital (provided that if the deficit is in excess of 50%, then an Intervention is mandatory). Less drastic measures, such as (i) placing additional requirements, (ii) ordering a capital increase or an asset divesture, or (iii) imposing a financial restructuring plan, may be adopted by the SBS when the situation allows for them.

An Intervention may halt a bank's operations for up to 45 days, which may be extended for a second period of up to 45 additional days, during which time the SBS may institute measures such as (a) canceling losses by reducing reserves, capital and subordinated debt; (b) segregating certain assets and liabilities for transfer to another financial institution; and (c) merging the intervened bank with another acquiring institution. After an Intervention, the SBS will proceed to dissolve and liquidate the bank unless the preceding option (c) was applied.

Beginning on the date on which a resolution of the SBS subjecting a bank to an Intervention regime is issued, and continuing until such Intervention is concluded (which period ends when the liquidation process begins), the Peruvian Banking Law prevents any creditor of the bank from: (a) initiating any judicial or administrative procedure for the collection of any amount owed by the bank, (b) enforcing any judicial decision rendered against the bank to secure payment of any of its obligations, (c) constituting a lien or attachment over any of the assets of the bank to secure payment of any of its obligations, or (d) making any payment, advance or compensation or assuming any obligation on behalf of the bank, with the funds or assets that may belong to it and are held by third parties, except for: (i) set-off compensation payments that are made between regulated entities of the Peruvian financial system and insurance systems, and (ii) set-off of reciprocal obligations arising from repurchase agreements and operations with financial derivatives entered into with local or foreign financial and insurance institutions.

During liquidation, claims of bank creditors rank as follows:

First order – Labor claims:

- *1^{st.}* Employee remunerations.
- $2^{nd.}$ Social benefits, contributions to the private and public pension system and other labor claims against the bank accrued until the date when the dissolution is declared, retirement pensions or the capital required to redeem those pensions or to secure them by purchasing annuities.

Second order – Claims for bank deposits and other types of saving instruments provided under the Peruvian Banking Law, in the portion not covered by the Deposit Insurance Fund (*Fondo de Seguro de Depósitos*).

Third order – Taxes:

- *Ist.* Claims by the Peruvian social security administration (*EsSalud*) related to health care benefits for which the bank is responsible as employer.
- $2^{nd.}$ Taxes.

Fourth order – Unsecured and non-privileged credits:

- All unsecured and non-privileged credits against the bank, ranked on the basis of (i) the date they were assumed or incurred by the bank whereby obligations assumed or incurred on an earlier date shall rank senior in right of payment to obligations assumed or incurred by the bank at a later date, and (ii) obligations assumed or incurred by the bank on a date that cannot be determined shall rank junior in right of payment to all the obligations comprised in (i) above and *pari passu* among themselves.
- 2^{nd} The legal interest on the Bank's obligations that may accrue during the liquidation.
- *3^{rd.}* Subordinated debt.

Except for unsecured and non-privileged credits, all claims within an order will be ranked pari passu among

themselves. Each category of creditors will collect in the order indicated above, whereby distributions in one order will be subject to completing full distribution in the prior order. See "Risk Factors—Risk Factors Relating to the Notes—The Notes will be unsecured and subordinated and rank junior in payment and in liquidation to all of our existing and future Senior Obligations."

Creditors representing at least 30% of total amount of credits may submit a restructuring plan for consideration and approval of the SBS. Such restructuring plan may establish that losses will be absorbed by holders of subordinated debt. Peruvian banks are not subject to the regime of insolvency and bankruptcy otherwise applicable to corporations in general.

Highly Leveraged Transactions; Change of Control

The indenture does not include any debt covenants or other provisions which afford holders of the Notes protection in the event of a highly leveraged transaction or a change of control.

Indebtedness, Liens, Dividends, Investments, Transactions with Affiliates, Reserves and Maintenance of Properties

The indenture does not limit our ability to incur additional indebtedness (including Additional Notes), our ability to grant liens on our assets and properties, our payment of dividends, our ability to make investments or enter into transactions with our affiliates or require us to create or maintain any reserves.

We may not dispose of and must maintain and keep in good condition any tangible property useful in the conduct of our business, unless such disposal or the discontinuance of its maintenance is, in our judgment, desirable in the conduct of our business and not disadvantageous in any material respect to the holders of the Notes.

Covenants

We have agreed to restrictions on our activities for the benefit of holders of the Notes. The following restrictions will apply separately to the Notes:

Consolidation, Merger, Sale or Conveyance

We may not consolidate with or merge into any other corporation or convey or transfer our properties and assets substantially as an entirety to any person, unless:

- (1) the successor corporation (if not BCP) shall be a corporation organized and existing under the laws of (A) Peru, (B) the United States of America or any state thereof, or (C) any country member of the Organisation for Economic Co-operation and Development or the G-20 and any state thereof (to the extent applicable), and shall expressly assume by a supplemental indenture, delivered to and in a form satisfactory to the trustee, the due and punctual payment of the principal of, premium, if any and interest on all the outstanding Notes and the performance of every covenant in the indenture on our part to be performed or observed;
- (2) immediately after giving effect to such transaction, no default under the indenture or the Notes, and no event which, after notice or lapse of time or both would become a default under the indenture or the Notes, shall have happened and be continuing; and
- (3) we shall have delivered to the trustee an officers' certificate and an opinion of counsel, each stating that such consolidation, merger, conveyance or transfer and such supplemental indenture comply with the foregoing provisions relating to such transaction and all conditions precedent in the indenture relating to such transaction have been complied with.

In case of any such consolidation, merger, conveyance or transfer, such successor corporation will succeed to and be substituted for us as obligor on the Notes with the same effect as if it had issued the Notes. Upon the assumption of our obligations by any such successor corporation in such circumstances subject to certain exceptions, we will be discharged from all obligations under the Notes and the indenture.

Periodic Reports

So long as any Notes are outstanding, we will furnish to the trustee:

- (1) within 120 days following the end of each of our fiscal years, an English version (or accompanied by an English translation thereof) of our consolidated audited income statements, balance sheets, statements of shareholders equity and cash flow statements and the related notes thereto for the two most recent fiscal years in accordance with Peruvian GAAP or in accordance with such accounting standards as may from time to time be required for Peruvian banks, together with an audit report thereon by our independent auditors; and
- (2) within 60 days following the end of the first three fiscal quarters in each of our fiscal years, an English version (or accompanied by an English translation thereof) of our quarterly reports containing unaudited consolidated balance sheets, statements of income, statements of shareholders equity and statements of cash flows and the related notes thereto, in each case for the quarterly period then ended and the corresponding quarterly period in the prior fiscal year and prepared in accordance with Peruvian GAAP or in accordance with such accounting standards as may from time to time be required for Peruvian banks.

In addition, we shall furnish to the holders of the Notes and to prospective investors, upon the requests of such holders, any information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act so long as such Notes are not freely transferable under the Exchange Act by "persons" who are not "affiliates" under the Securities Act.

In addition, if and so long as the Notes are admitted to listing on the Official List of the LSE and to trading on the Euro MTF Market and the rules of the LSE so require, copies of such reports and information furnished to the trustee will also be made available at the specified office of the paying agent in Luxembourg.

Listing

In the event that the Notes are admitted to listing on the Official List of the LSE and to trading on the Euro MTF Market, we will use our reasonable best efforts to maintain such listing, provided that if, as a result of the European Union regulated market amended Directive 2001/34/EC (the "Transparency Directive") or any legislation implementing the Transparency Directive we could be required to publish financial information either more regularly than we otherwise would be required to or according to accounting principles which are materially different from the accounting principles which we would otherwise use to prepare our published financial information, or we determine that it is unduly burdensome to maintain a listing on the LSE, we may delist the Notes from the Euro MTF Market in accordance with the rules of the LSE and seek an alternative admission to listing, trading and/or quotation for the Notes on a different section of the LSE or by such other listing authority, stock exchange and/or quotation system inside or outside the European Union as we may decide. Although we cannot assure you as to the liquidity that may result from a listing on the LSE, delisting the Notes from the LSE may have a material effect on the ability of holders of the Notes to resell the Notes in the secondary market.

Acceleration Event

If BCP fails to make payment of principal of or interest or Additional Amounts, if any, on the Notes (and, in the case of payment of interest or Additional Amounts, such failure to pay continues for 30 days), each holder of the Notes has the right to demand and collect under the indenture and BCP will pay to the holders of the Notes the applicable amount of such due and payable principal, accrued interest and Additional Amounts, if any, on the Notes. There is no right of acceleration in the case of a default in any payment on the Notes (whether when due, upon redemption or otherwise) or the performance of any of BCP's other obligations under the indenture or the Notes.

Acceleration of any payments due under the Notes will occur only upon the occurrence and continuation of an Acceleration Event. In the event that BCP becomes subject to Intervention, the rate at which interest will accrue on the Notes (to the extent the Notes have not been used to absorb losses) during the Intervention and liquidation process will be limited to the legal interest rate for dollar-denominated indebtedness determined by the Central Bank.

Pursuant to the Peruvian Banking Law, upon Intervention by the SBS, the operations of BCP will be interrupted in order to prevent, or to control and reduce the effects of, a BCP failure. Upon Intervention by the SBS and subsequent liquidation, the Notes may be used to absorb losses. See "—Loss Absorption."

Modification of the Indenture

Subject to applicable Peruvian Banking Law, and with the prior approval of the SBS (if then required), BCP and the trustee may, without the consent of the holders of the Notes, amend, waive or supplement the indenture or the Notes for certain specified purposes, including, among other things, curing ambiguities, defects, omissions or inconsistencies, to conform the text of the indenture or the Notes to any provision in this "Description of the Notes" or making any other provisions with respect to matters or questions arising under the indenture or the Notes or making any other change as will not adversely affect the interests of any holder of the Notes in any material respect.

Without the consent of any holder of the Notes, we and the trustee may amend the indenture to evidence the assumption by a successor corporation of our covenants contained in the indenture and the Notes, to add to our covenants, or to surrender any right or power conferred by the indenture upon us, for the benefit of the holders of the Notes, to establish any form of security as provided for in the indenture and the issuance of and terms thereof, to add to the rights of the holders of the Notes and to evidence and provide for the acceptance of a successor trustee.

In addition, with certain exceptions and subject to applicable Peruvian Banking Law, and with the prior approval of the SBS (if required), BCP and the trustee may amend, waive or supplement the indenture or the Notes with the consent of the holders of at least a majority in aggregate principal amount of the Notes then outstanding, but no such modification may be made without the consent of the holder of each outstanding Note affected thereby which would:

- (i) change the maturity of any payment of principal of or any installment of interest on any Note, or reduce the principal amount thereof or the interest or premium payable thereon, or change the method of computing the amount of principal thereof or interest or premium, if any, payable thereon on any date or change any place of payment where, or the coin or currency in which, any principal or interest or premium thereon are payable, or impair the right of holders to institute suit for the enforcement of any such payment on or after the date when due; or
- (ii) reduce the percentage in aggregate principal amount of the outstanding Notes, the consent of whose holders is required for any such amendment, supplement or waiver, or the consent of whose holders is required for any waiver of compliance with certain provisions of the indenture or certain defaults thereunder and their consequences provided for in the indenture; or
- (iii) modify any of the provisions of certain sections of the indenture with respect to the Notes, including the provisions summarized in this paragraph, except to increase any such percentage or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding Note affected thereby.

Any amendment to, or waiver of, the subordination provisions of the indenture that adversely affects the rights of the holders of the Notes will require the consent of the holders of at least 75% in aggregate principal amount of Notes then outstanding.

The indenture provides that the Notes owned by us or any of our affiliates shall be deemed not to be outstanding for, among other purposes, consenting to any such modification.

Registrar, Calculation Agent, Transfer Agent and Paying Agents

The Bank of New York Mellon will act as our agent as security registrar for the Notes. The Bank of New York Mellon will also act as our agent as paying agent and calculation agent for the Notes. We have the right at any time to vary or terminate the appointment of any paying agents and to appoint additional or successor paying agents in respect of the Notes. Registration of transfers of the Notes will be effected without charge, but upon payment (with the giving of such indemnity as we and the security registrar may require) in respect of any tax or other governmental charges that may be imposed in relation to it. We will not be required to register or cause to be registered the transfer of the Notes after the Notes have been called for redemption. Application is expected to be

made to admit the Notes for listing on the Official List of the LSE and to trading on the Euro MTF Market. As long as the Notes are listed on this market, we will also maintain a paying agent and a transfer agent in Luxembourg.

The Trustee

The Bank of New York Mellon is the trustee under the indenture. The indenture provides that during the existence of a default under the Notes or the indenture, the trustee will exercise the rights and powers vested in it by the indenture, using the same degree of care and skill as a prudent person would exercise or use under the circumstances in the conduct of his own affairs. In the absence of a default under the Notes or the indenture, the trustee need only perform the duties specifically set forth in the indenture. The indenture does not contain limitations on the rights of the trustee under the indenture, should it become our creditor, to obtain payment of claims. The trustee is not precluded from engaging in other transactions and, if it acquires any conflicting interest, it is not required to eliminate such conflict or resign. The address of the trustee is The Bank of New York Mellon, 101 Barclay Street, Floor 4 East, New York, New York 10286.

Notices

From and after the date the Notes are listed on the Euro MTF Market and so long as a listing on the Euro MTF Market is maintained or is required by the rules of the LSE, all notices to holders of Notes will be published in English:

- (1) in a leading newspaper having a general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*); or
- (2) if such Luxembourg publication is not practicable, in one other leading English language newspaper being published on each day in morning editions, whether or not it shall be published in Saturday, Sunday or holiday editions.

Notices shall be deemed to have been given on the date of publication as aforesaid or, if published on different dates, on the date of the first such publication.

Notices to be given to holders of a global note will be given only to DTC in accordance with its applicable policies as in effect from time to time. Notices to be given to holders of Notes not in global form will be sent by mail to the respective addresses of the holders as they appear in the security register maintained by the security registrar, and will be deemed given when mailed. Neither the failure to give notice to a particular holder, nor the defect in a notice given to a particular holder, will affect the sufficiency of any notice given to another holder.

Governing Law; Submission to Jurisdiction

The Notes are being issued as redeemable subordinated debt under Article 233 of the Peruvian Banking Law, and the indenture provides that it and the Notes will be governed by, and be construed in accordance with, the laws of the State of New York, without giving effect to the applicable principles of conflict of laws.

BCP has consented to the jurisdiction of any court of the State of New York or any United States Federal court sitting, in each case, in the Borough of Manhattan, The City of New York, New York, United States, and any appellate court from any of these courts, and to the courts of our own corporate domicile, in respect of actions brought against us as defendants, and have waived any immunity from the jurisdiction of these courts over any suit, action or proceeding that may be brought by the trustee or a holder based upon the indenture and the Notes and have waived any right to be sued in any other jurisdiction to which we may be entitled on account of place of residence and domicile. We have appointed National Registered Agents, Inc. as our initial authorized agent upon which all writs, process and summonses may be served in any suit, action or proceeding brought by the trustee or a holder based upon the indenture or the Notes against us in any court of the State of New York or any United States Federal court sitting in the Borough of Manhattan, The City of New York and have agreed that such appointment shall be irrevocable so long as any of the Notes remain outstanding or until the irrevocable appointment by us of a successor in The City of New York as its authorized agent for such purpose and the acceptance of such appointment by such successor.

Certain Definitions

"Acceleration Event" means that the SBS has entered a decree or order for Intervention of BCP or for the appointment of a custodian, conservator, receiver, liquidator, assignee, trustee, sequestrator or other similar official in any liquidation, insolvency or similar proceeding with respect to BCP or all or substantially all of its property, in each case pursuant to the Peruvian Banking Law; and such decree or order has been communicated by the SBS to BCP.

"Business Day" means a day that is a day other than Saturday, Sunday or a day on which banking institutions in New York City, United States, Panama City, Panama or Lima, Peru, generally are authorized or required by law, regulation or executive order to remain closed.

"Comparable Treasury Issue" means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a maturity of April 24, 2022.

"Comparable Treasury Price" means, with respect to any redemption date (1) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotation or (2) if the Quotation Agent obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

"Designated LIBOR Page" means Reuters Screen "LIBOR 01" Page, or any successor service (or any other service or services of major banks for the purpose of displaying the London interbank offered rates for U.S. dollar deposits).

"Determination Date" means, with respect to any Interest Reset Period, the second London Banking Day preceding the first day of such Interest Reset Period.

"G-20" means the Group of Twenty (G-20) Finance Ministers and Central Bank Governors.

"Independent Investment Banker" means one of the Reference Treasury Dealers appointed by BCP.

"Interest Reset Period" means each period during the floating rate period commencing on and including an interest payment date and ending on but excluding the next succeeding interest payment date. The first Interest Reset Period shall commence on and include April 24, 2022.

"Junior Securities" means (i) all hybrid instruments of BCP which qualify as consolidated Tier I and Tier II Regulatory Capital, as applicable; (ii) all classes of BCP's capital stock and preferred stock and (iii) any other securities or obligations of BCP which rank pari passu with any class of BCP's capital stock with respect to the payment of dividends and distributions of assets upon liquidation, dissolution or winding up.

"LIBOR" means, with respect to any Interest Reset Period, the rate (expressed as a percentage per annum) for deposits in United States dollars for a three-month period beginning on the second London Banking Day after the Determination Date that appears on the Designated LIBOR Page as of 11:00 a.m., London time, on the Determination Date. If the Designated LIBOR Page does not include this rate or is unavailable on the Determination Date, the calculation agent will determine LIBOR as follows:

 BCP will select the principal London office of each of four major banks in the London interbank market, and request each bank to provide its offered quotation (expressed as a percentage per annum) as of approximately 11:00 a.m., London time, on the Determination Date to prime banks in the London interbank market for deposits in a Representative Amount in United States dollars for a three-month period beginning on the second London Banking Day after the Determination Date. BCP will notify the calculation agent in writing of each such quotation. If at least two offered quotations are so provided, the calculation agent will compute LIBOR for the Interest Reset Period as the arithmetic mean of those quotations.

- If fewer than two quotations are so provided, BCP will select three major banks in New York City, and request that each bank provide its rate (expressed as a percentage per annum), as of approximately 11:00 a.m., New York City time, on the Determination Date for loans in a Representative Amount in United States dollars to leading European banks for a three-month period beginning on the second London Banking Day after the Determination Date. BCP will notify the calculation agent in writing of each such quotation. If at least two rates are so provided, the calculation agent will compute LIBOR for the Interest Reset Period as the arithmetic mean of those rates.
- If fewer than two rates are so provided, then LIBOR for the Interest Reset Period will be LIBOR in effect with respect to the immediately preceding Interest Reset Period or, in the case of the first Interest Reset Period, 2.082%.

The calculation agent may conclusively rely on any quotations that we provide to it and any information obtained from the Designated LIBOR Page.

"London Banking Day" means any day in which dealings in United States dollars are transacted or, with respect to any future date, are expected to be transacted in the London interbank market.

"Parity Securities" means (i) all securities or other subordinated obligations of BCP which qualify as consolidated Tier II Regulatory Capital of BCP and (ii) any other securities or obligations of BCP which rank (pursuant to mandatory provisions of law or otherwise) or are expressed to rank, pari passu with BCP's obligations under the Notes.

"Person" means an individual, partnership, corporation, limited liability company, unincorporated organization, trust or joint venture, or a governmental agency or political subdivision thereof.

"Peruvian Banking Law" means the Ley General del Sistema Financiero y de Seguros y Orgánica de la Superintendencia de Banca y Seguros, Law 26702, as amended, replaced or supplemented from time to time.

"Peruvian GAAP" means generally accepted accounting principles as prescribed by the SBS for banks licensed to operate in Peru, consistently applied, which are in effect from time to time.

"Peruvian Governmental Authority" means the government of Peru or any political subdivision thereof, whether federal, state or local, and any agency, authority, instrumentality, regulatory body, court, central bank or other Person exercising executive, legislative, judicial, taxing, regulatory or administrative powers, or functions of or pertaining to a government with jurisdiction, over BCP.

"Quotation Agent" means an internationally recognized investment bank other than the Reference Treasury Dealers appointed by BCP.

"Reference Treasury Dealer" means Merrill Lynch, Pierce, Fenner & Smith Incorporated and Citigroup Global Markets, Inc., or their respective affiliates which are primary United States government securities dealers and not less than two other leading primary United States government securities dealers in New York City reasonably designated by us; provided, however, that if any of the foregoing shall cease to be a primary United States government securities dealer in New York City (a "Primary Treasury Dealer"), we will substitute therefor another Primary Treasury Dealer.

"Reference Treasury Dealer Quotation" means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Quotation Agent, of the bid and asked price for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Quotation Agent by such Reference Treasury Dealer at 3:30 p.m. New York time on the third business day preceding such redemption date.

"Regulatory Capital" has the meaning assigned to the term Patrimonio Efectivo under the Peruvian Banking Law and in regulations issued by the SBS, as the same may be amended, restated, supplemented or replaced from

time to time.

"Representative Amount" means a principal amount that is representative for a single transaction in the relevant market at the relevant time.

"SBS" means the Peruvian Superintendency of Banks, Insurance and Private Pension Fund Administrators (Superintendencia de Banca, Seguros y Administradoras Privadas de Fondos de Pensiones).

"Senior Obligations" means (a) all claims of BCP's unsubordinated creditors and other claims and obligations that rank senior in right of payment under mandatory provisions of Peruvian law, including all labor claims of BCP's employees, all claims of BCP's depositors and all claims of the Peruvian social security administration (Seguro Social de Salud) for healthcare obligations and claims for taxes; and (b) all claims of all of BCP's other creditors, except those whose claims rank, or are expressed to rank, pari passu with, or junior to, the claims of holders of Parity Securities.

"Subsidiary" means any corporation or other business entity of which BCP owns or controls (either directly or through one or more other Subsidiaries) more than 50% of the issued share capital or other ownership interests, in each case having ordinary voting power to elect or appoint directors, managers or trustees of such corporation or other business entity (whether or not capital stock or other ownership interests or any other class or classes shall or might have voting power upon the occurrence of any contingency).

"Tier I Regulatory Capital" means the tier 1 regulatory capital (patrimonio efectivo básico o de nivel 1) of BCP calculated in accordance with article 184(A) of the Peruvian Banking Law, as amended, restated, supplemented or replaced from time to time.

"Tier II Regulatory Capital" means the tier 2 regulatory capital (patrimonio efectivo de nivel 2) of BCP calculated in accordance with article 184(B) of the Peruvian Banking Law, as amended, restated, supplemented or replaced from time to time.

"Tier III Regulatory Capital" means the tier 3 regulatory capital (patrimonio efectivo de nivel 3) of BCP calculated in accordance with article 184(B) of the Peruvian Banking Law, as amended, restated, supplemented or replaced from time to time.

"Treasury Rate" means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated maturity (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

Book-Entry System; Delivery and Form

The Notes are being offered and sold in connection with the initial offering thereof solely to "qualified institutional buyers," as that term is defined in Rule 144A under the Securities Act, pursuant to Rule 144A, and in offshore transactions to persons other than "U.S. persons," as defined in Regulation S under the Securities Act, in reliance on Regulation S. Following the initial offering of the Notes, the Notes may be resold to qualified institutional buyers pursuant to Rule 144A, non-U.S. persons in offshore transactions in reliance on Regulation S, and pursuant to Rule 144 under the Securities Act, as described under "Notice to Investors."

The Global Notes

Rule 144A Global Note

Notes offered and sold to qualified institutional buyers pursuant to Rule 144A will initially be issued in the form of one or more registered Notes in global form, without interest coupons. The Rule 144A global note will be deposited on the date of the closing of the sale of the Notes with, or on behalf of, The Depository Trust Company, or DTC and registered in the name of Cede & Co., as nominee of DTC, and will remain in the custody of The Bank of New York Mellon, as custodian pursuant to the FAST Balance Certificate Agreement between DTC and The Bank of New York Mellon, as custodian. Interests in the Rule 144A global note will be available for purchase only by qualified institutional buyers.

Regulation S Global Note

Notes offered and sold in offshore transactions to non-U.S. persons in reliance on Regulation S under the Securities Act will initially be issued in the form of one or more registered notes in global form, without interest coupons. The Regulation S global note will be deposited upon issuance with, or on behalf of, a custodian for DTC in the manner described in the preceding paragraph for credit to the respective accounts of the purchasers, or to such other accounts as they may direct, at Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear") or Clearstream Banking, *société anonyme* ("Clearstream") as participants in DTC.

Investors may hold their interests in the Regulation S global note directly through Euroclear or Clearstream, if they are participants in such systems, or indirectly through organizations which are participants in such systems. After the expiration of the Restricted Period (defined below under "—Exchanges Among the Global Notes"), investors may also hold such interests through organizations other than Euroclear or Clearstream that are participants in the DTC system. Euroclear and Clearstream will hold such interests in the Regulation S global note on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositaries. Such depositaries, in turn, will hold such interests in the Regulation S global note in customers' securities accounts in the depositaries' names on the books of DTC.

Except as set forth below, the Rule 144A global note and the Regulation S global note, collectively referred to in this section as the "global notes," may be transferred, in whole and not in part, solely to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in respect of the global notes may not be exchanged for Notes in physical, certificated form (referred to as "certificated notes") except in the limited circumstances described below.

The Notes will be subject to certain restrictions on transfer and will bear a restrictive legend as set forth under "Notice to Investors."

All interests in the global notes, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of such systems.

Exchanges Among the Global Notes

Prior to the 40th day after the later of the commencement of the offering of the Notes and the date of the closing of the sale of the Notes (through and including the 40th day, the "Restricted Period"), transfers by an owner of a beneficial interest in respect of the Regulation S global note to a transferee who takes delivery of this interest through the Rule 144A global note will be made only in accordance with applicable procedures and upon receipt by the trustee of a written certification from the transferor of the beneficial interest in the form provided in the indenture to the effect that such transfer is being made to a person whom the transferor reasonably believes is a qualified institutional buyer within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A. Such written certification will no longer be required after the expiration of the Restricted Period.

Transfers by an owner of a beneficial interest in respect of the Rule 144A global note to a transferee who takes delivery of such interest through the Regulation S global note, whether before or after the expiration of the Restricted Period, will be made only upon receipt by the trustee of a certification from the transferor in the form provided in the indenture to the effect that such transfer is being made in accordance with Regulation S or (if available) Rule 144 under the Securities Act and that, if such transfer is being made prior to the expiration of the Restricted Period, the interest transferred will be held immediately thereafter through Euroclear or Clearstream.

Any beneficial interest in respect of one of the global notes that is transferred to a person who takes delivery in the form of an interest in another global note will, upon transfer, cease to be an interest in such global note and become an interest in the other global note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to beneficial interests in such other global note for as long as it remains such an interest.

Certain Book-Entry Procedures for the Global Notes

The descriptions of the operations and procedures of DTC, Euroclear and Clearstream set forth below are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to change by them from time to time. Neither we, the trustee nor the initial purchasers take any responsibility for these operations or procedures, and investors are urged to contact the relevant system or its participants directly to discuss these matters.

DTC has advised us that it is (i) a limited purpose trust company organized under the laws of the State of New York, (ii) a "banking organization" within the meaning of the New York Banking Law, (iii) a member of the Federal Reserve System, (iv) a "clearing corporation" within the meaning of the Uniform Commercial Code, as amended, and (v) a "clearing agency" registered pursuant to Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitates the clearance and settlement of securities transactions between participants through electronic book-entry changes to the accounts of its participants, thereby eliminating the need for physical transfer and delivery of certificates. DTC's participants include securities brokers and dealers (including the initial purchasers), banks and trust companies, clearing corporations and certain other organizations. Indirect access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies, or indirect participants that clear through or maintain a custodial relationship with a participant, either directly or indirectly. Investors who are not participants may beneficially own securities held by or on behalf of DTC only through participants or indirect participants.

We expect that pursuant to procedures established by DTC (i) upon deposit of each global note, DTC will credit the accounts of participants designated by the initial purchasers with an interest in the global note and (ii) ownership of the Notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC (with respect to the interests of participants) and the records of participants and the indirect participants (with respect to the interests of persons other than participants).

The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. Accordingly, the ability to transfer interests in the Notes represented by a global note to such persons may be limited. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of a person having an interest in Notes represented by a global note to pledge or transfer such interest to persons or entities that do not participate in DTC's system, or to otherwise take actions in respect of such interest, may be affected by the lack of a physical definitive security in respect of such interest.

So long as DTC or its nominee is the registered owner of a global note, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by the global note for all purposes under the indenture. Except as provided below, owners of beneficial interests in respect of a global note will not be entitled to have Notes represented by such global note registered in their names, will not receive or be entitled to receive physical delivery of certificated Notes, and will not be considered the owners or holders thereof under the indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee thereunder. Accordingly, each holder owning a beneficial interest in respect of a global note must rely on the procedures of DTC and, if such holder is not a participant or an indirect participant, on the procedures of the participant through which such holder owns its interest, to exercise any rights of a holder of Notes under the indenture or such global note. We understand that under existing industry practice, in the event that we request any action of holders of Notes, or a holder that is an owner of a beneficial interest in respect of a global note desires to take any action that DTC, as the holder of such global note, is entitled to take, DTC would authorize the participants to take such action and the participants would authorize holders owning through such participants to take such action or would otherwise act upon the instruction of such holders. Neither we nor the trustee or any paying agent, security registrar or transfer agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of Notes by DTC, or for maintaining, supervising or reviewing any records of DTC relating to such Notes.

Payments with respect to the principal of, premium, if any, liquidated damages, if any, and interest on any Notes represented by a global note registered in the name of DTC or its nominee on the applicable record date will be payable by the trustee to or at the direction of DTC or its nominee in its capacity as the registered holder of the global note representing such Notes under the indenture. Under the terms of the indenture, we and the trustee, the

paying agents, the security registrar and the transfer agents may treat the persons in whose names the Notes, including the global notes, are registered as the owners thereof for the purpose of receiving payment thereon and for any and all other purposes whatsoever. Accordingly, neither we nor the trustee, any paying agent, security registrar or transfer agent has or will have any responsibility or liability for the payment of such amounts to owners of beneficial interests in respect of a global note (including principal, premium, if any, liquidated damages, if any, and interest). Payments by the participants and the indirect participants to the owners of beneficial interests in respect of a global note will be governed by standing instructions and customary industry practice and will be the responsibility of the participants or the indirect participants and DTC.

Transfers between participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds. Transfers between participants in Euroclear or Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the Notes, cross-market transfers between the participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depositary. However, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depositary to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositaries for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a global note from a participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. Cash received in Euroclear or Clearstream as a result of sales of interest in a global note by or through a Euroclear or Clearstream participant to a participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the global notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and such procedures may be discontinued at any time. Neither we nor the trustee or any paying agent, security registrar or transfer agent will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Certificated Notes

If (i) we notify the trustee in writing that DTC is no longer willing or able to act as a depositary or DTC ceases to be registered as a clearing agency under the Exchange Act and a successor depositary is not appointed within 90 days of such notice or cessation, (ii) we, at our option, notify the trustee in writing that we elect to cause the issuance of certificated notes under the indenture, (iii) upon the request of any holder subsequent to the occurrence of any default under the indenture or (iv) upon the occurrence of certain other events as provided in the indenture, then, upon surrender by DTC of the global notes, certificated notes will be issued to each person that DTC identifies as the beneficial owner of the Notes represented by the global notes. Upon any such issuance, the trustee is required to register such certificated notes in the name of such person or persons (or the nominee of any thereof) and cause the same to be delivered thereto.

Neither we nor the trustee, any paying agent, security registrar or transfer agent shall be liable for any delay by DTC or any participant or indirect participant in identifying the beneficial owners of the related Notes and each such person may conclusively rely on, and shall be protected in relying on, instructions from DTC for all purposes (including with respect to the registration and delivery, and the respective principal amounts, of the Notes to be

issued).

Replacement of Notes

In case of mutilated, destroyed, lost or stolen Notes, application for replacement thereof may be made to the trustee or us. Any such Note shall be replaced by the trustee in compliance with such procedures, on such terms as to evidence and indemnification as the trustee and we may require and subject to any applicable law or regulation. All such costs as may be incurred in connection with the replacement of any Notes shall be borne by the applicant. Mutilated Notes must be surrendered before new ones will be issued.

BENEFIT PLAN CONSIDERATIONS

The notes may be purchased and held by or with the assets of an employee benefit plan subject to Title I of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), an individual retirement account or other plan subject to Section 4975 of the Code (collectively, "Plans") or an employee benefit plan sponsored by a state or local government or otherwise subject to laws that include restrictions substantially similar to Section 406 of ERISA or Section 4975 of the Code ("similar laws"). A fiduciary of an employee benefit plan subject to ERISA must determine that the purchase and holding of notes is consistent with its fiduciary duties under ERISA.

In addition, Section 406 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of a Plan and persons who have specified relationships to the Plan, *i.e.*, "parties in interest" as defined in ERISA or "disqualified persons" as defined in Section 4975 of the Code (collectively referred to as "parties in interest"), unless exemptive relief is available under a class exemption issued by the U.S. Department of Labor or a statutory exemption. Parties in interest that engage in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and Section 4975 of the Code. We, and our current and future affiliates, may be parties in interest with respect to many Plans. Thus, each fiduciary who is, or is acting on behalf of, a Plan or a plan subject to similar laws must determine whether an investment in the notes might constitute or give rise to a non-exempt prohibited transaction under ERISA or Section 4975 of the Code or any similar law. Each purchaser or holder of the notes, and each fiduciary who causes any entity to purchase or hold the notes will be deemed by its purchase and holding to have represented and warranted on each day such purchaser or holder holds such notes, that either (i) it is neither a Plan nor a plan subject to similar laws and it is not purchasing or holding notes on behalf of or with the assets of any Plan or plan subject to similar laws; or (ii) its purchase, holding and subsequent disposition of the notes shall not constitute or give rise to a non-exempt prohibited transaction under Section 406 of ERISA, Section 4975 of the Code or any similar law.

Fiduciaries of any Plans or plans subject to similar law should consult their own legal counsel before purchasing the notes. Each purchaser of notes will have exclusive responsibility for ensuring that its purchase, holding and subsequent disposition of the notes does not violate the fiduciary or prohibited transaction rules of ERISA, the Code or any similar laws. Nothing herein shall be construed as a representation that an investment in the notes would meet any or all of the relevant legal requirements with respect to investments by, or is appropriate for, Plans or plans subject to similar law generally or any particular Plan or plan subject to similar law.

TAXATION

The following discussion summarizes certain Peruvian, Panamanian and U.S. federal income tax considerations that may be relevant to you if you purchase, own or sell the notes. This summary is based on laws, regulations, rulings and decisions now in effect in each of these jurisdictions, including any relevant tax treaties. Any change could apply retroactively and could affect the continued validity of this summary.

This summary does not describe all of the tax considerations that may be relevant to you or your situation, particularly if you are subject to special tax rules.

You should consult your tax advisor about the tax consequences of acquiring, holding and disposing of the notes, including the relevance to your particular situation of the considerations discussed below, as well as of state, local or other tax laws.

Peruvian Tax Considerations

The following summary of certain Peruvian tax matters as in force on the date of this offering memorandum describes the principal tax consequences of an investment in the notes by a person or an entity who is not domiciled in Peru for tax purposes. This summary does not intend to be a comprehensive description of all of the tax considerations that may be relevant to a decision to make an investment in the notes. In addition, it does not intend to describe any tax consequences: (i) arising under the laws of any taxing jurisdiction other than Peru or (ii) applicable to a person or entity domiciled in Peru or to the permanent establishment of foreign entities in Peru.

In this section, the term "Peruvian Holder" means a beneficial owner of a note who, for Peruvian income tax purposes, is treated as a resident of Peru. A legal entity is treated as a Peruvian tax resident if it has been incorporated in Peru, or if it is deemed to be a permanent establishment in Peru of a foreign entity. An individual is deemed to be a Peruvian tax resident if such individual (i) is a Peruvian citizen and has a regular residence in Peru or, (ii) is not a Peruvian citizen but has resided in Peru for a period of at least 183 days during any 12-month period.

The term "Non-Peruvian Holder" means a beneficial owner of a note who is not a Peruvian Holder.

Peru has executed treaties to avoid double taxation with the Andean Community (Bolivia, Colombia and Ecuador), Brazil, Canada and Chile, all of which are currently in effect. Additionally, Peru has recently entered into new treaties to avoid double taxation with Switzerland, South Korea, Mexico and Portugal, all of which will enter into effect after the fulfillment of certain formalities and/or ratifications from the relevant governments.

Payment of Interest

In the case of Non-Peruvian Holders, interest paid on debt is subject to income tax withholding, which generally would be imposed at a rate of 30%. However, interest paid on bonds and other debentures issued by Peruvian financial entities are subject to income tax withholding at a preferential rate of 4.99%. Accordingly, interest paid on the notes will be subject to withholding at this preferential rate of 4.99%.

We are required to act as withholding agent for any income tax due with respect to interest paid on the notes. We have agreed, subject to specified exceptions and limitations, to pay additional amounts to the holders of the notes in respect of the Peruvian income taxes mentioned above. See "Description of the Notes—Payment of Additional Amounts."

Sale of the Notes

Any gain arising from the sale, exchange or other disposition of the beneficial interest in the notes would not be subject to Peruvian income tax, except with respect to Peruvian Holders. Prospective purchasers should discuss with their own tax advisors the application of any income tax described herein to their particular situations.

Financial Transaction Tax

Deposits in and withdrawals from accounts held in Peruvian banks or other financial institutions, whether in Nuevos Soles or foreign currency, are levied with a financial transactions tax ("FTT") at a 0.005% rate. Therefore,

142

FTT will levy the price paid for and the interest resulting from the notes if deposited in or withdrawn from a Peruvian bank or other financial institution, as the case may be.

Panamanian Tax Considerations

Payments of interest on the notes to any holder thereof not domiciled in Panama and not generating taxable income in Panama, will not be subject to income tax or withholding requirements in Panama; *provided*, that the net proceeds received by us upon the original issuance and sale of the notes are not placed, invested or economically utilized in Panama and our income is realized exclusively from activities outside Panama. A holder of a note not domiciled in Panama and not generating taxable income in Panama, will not be subject to income tax in Panama on any gain realized on the sale, exchange or retirement of a note; *provided*, that the proceeds received by us upon the original issuance and sale of the notes are not placed, invested or economically utilized in Panama and our income is realized exclusively from activities outside Panama.

Commissions charged in connection with credit facilities extended by financial institutions to natural persons or entities not domiciled in Panama are not subject to value added tax.

We do not intend to place, invest or economically utilize in Panama the proceeds that we will receive upon the original issuance and sale of the notes, or to conduct business activities in Panama.

On November 30, 2010, Panama and the United States of America signed an Agreement for Taxation Cooperation and the Exchange of Taxation Information, which entered in effect on April 18, 2011.

Panama has entered into treaties to avoid double taxation with the following countries: Mexico, Barbados, Portugal, Qatar, the Netherlands, Spain, Luxembourg, South Korea, Singapore, France, Italy, Ireland, the Czech Republic, the United Arab Emirates, Israel and the United Kingdom. Of these, the double taxation treaties of Mexico, Barbados, Portugal, Qatar, Luxembourg, Spain, the Netherlands, Singapore, South Korea, Italy, France, Ireland, the Czech Republic, the United Arab Emirates and Israel have been ratified by the Legislative Assembly of Panama, and only the treaties with Mexico, Spain, Barbados, Qatar, Luxembourg, the Netherlands, Singapore, France, South Korea, Portugal and Ireland are currently in force.

The above summary is based upon statutes, regulations, rulings and opinions as in effect on the date hereof.

U.S. Federal Income Tax Considerations

TO ENSURE COMPLIANCE WITH INTERNAL REVENUE SERVICE CIRCULAR 230, YOU ARE HEREBY NOTIFIED THAT THIS TAX DISCLOSURE WAS WRITTEN IN CONNECTION WITH THE PROMOTION OR MARKETING BY THE COMPANY OF THE NOTES, AND IT CANNOT BE USED BY ANY U.S. TAXPAYER FOR THE PURPOSE OF AVOIDING PENALTIES THAT MAY BE ASSERTED AGAINST THE HOLDER UNDER THE CODE. U.S. TAXPAYERS SHOULD SEEK ADVICE BASED ON THEIR PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

The following is a description of certain U.S. federal income tax consequences that may be relevant to the acquisition, ownership and disposition of the notes by U.S. Holders, as defined below. This description addresses only the U.S. federal income tax considerations applicable to U.S. Holders that purchase notes pursuant to this offering for the "issue price," which will equal the first price to the public (not including bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) at which a substantial amount of the notes is sold for money and that will hold the notes as capital assets (generally, assets held for investment). This description does not address tax considerations applicable to holders that may be subject to special tax rules, including:

- certain financial institutions;
- insurance companies;
- real estate investment trusts or regulated investment companies;

- dealers or traders in securities;
- tax-exempt entities;
- persons that will hold the notes as part of a "conversion" transaction or as a position in a "straddle" for U.S. federal income tax purposes;
- persons subject to the U.S. federal alternative minimum tax;
- persons that have a "functional currency" other than the U.S. dollar; or
- partnerships or other entities classified as partnerships for U.S. federal income tax purposes.

The U.S. federal income tax treatment of a partner in a partnership (including any entity classified as a partnership for U.S. federal income tax purposes) that holds notes will depend on the status of the partner and the activities of the partnership. Prospective purchasers that are partnerships and partners in such partnerships should consult their tax advisors concerning the U.S. federal income tax consequences to them of the acquisition, ownership and disposition of the notes by the partnership.

This description is based on the Code, existing, proposed and temporary U.S. Treasury Regulations and judicial and administrative interpretations thereof, in each case as of the date hereof. U.S. tax laws and the interpretation thereof are subject to change, which change could apply retroactively and could affect the tax consequences described below.

For purposes of this description, a "U.S. Holder" is a beneficial owner of the notes for U.S. federal income tax purposes that is:

- a citizen or individual resident of the United States;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or
 organized in or under the laws of the United States, any state thereof or the District of Columbia; or
- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

This discussion does not address any U.S. federal tax consequences other than U.S. federal income tax consequences (such as the estate and gift tax or the Medicare tax on net investment income). This discussion also does not address U.S. state, local and non-U.S. tax consequences. You should consult your tax advisor with respect to the U.S. federal, state, local and non-U.S. tax consequences of acquiring, owning or disposing of the notes, in your particular circumstances.

Although the matter is not free from doubt, the notes should be treated as debt for U.S. federal income tax purposes. It is possible, however, that the Internal Revenue Service (the "IRS") would take the position that the notes should be treated as equity for these purposes because of the limited acceleration rights and loss absorption features of the notes. If the notes are treated as equity for U.S. federal income tax purposes, you may be subject to materially adverse U.S. federal income tax consequences, including being subject to greater amounts of U.S. tax and to additional U.S. tax form filing requirements, if we are classified as a "passive foreign investment company" ("PFIC") at any time that you hold our notes. In general, a non-U.S. corporation will be classified as a PFIC for any taxable year if at least (i) 75% of its gross income is classified as "passive income" or (ii) 50% of the average quarterly value of its assets produce or are held for the production of passive income. The application of the PFIC rules to banks is not entirely clear under present U.S. federal income tax law. Banks generally derive a substantial part of their income from assets that are interest bearing or that otherwise could be considered passive under the PFIC rules. The IRS issued a notice in 1989 (the "Notice") and has proposed Treasury Regulations (the "Proposed Regulations") that exclude from passive income any income derived in the active conduct of a banking business by a qualifying foreign bank (the "active bank exception"). The Notice and Proposed Regulations have different requirements for qualifying as an active foreign bank, and for determining the banking income that may be excluded from passive income under the active bank exception. Moreover, the Proposed Regulations have been outstanding since 1994 and will not be effective unless finalized. No determination has been made as to whether we qualify as an active foreign bank or whether we are currently, or may become, in the future, a PFIC. U.S. Holders should consult their tax advisers regarding the potential recharacterization of the notes as equity and the application of the PFIC rules. The balance of the discussion assumes that our position that the notes are debt will be respected.

In certain circumstances we may be obligated to make payments on the notes in excess of stated interest and principal. We intend to take the position that there is no more than a remote chance that we will make the payments and the notes should accordingly not be treated as contingent payment debt instruments for U.S. federal income tax purposes because of these additional payments. Assuming such position is respected, you would be required to include in income the amount of any such additional payment at the time such payments are received or accrued in accordance with your method of accounting for U.S. federal income tax purposes. If the IRS successfully challenged this position, and the notes were treated as contingent payment debt instruments, you could be required to accrue interest income at a rate higher than the stated interest rate on the note and to treat as ordinary income, rather than capital gain, any gain recognized on a sale, exchange or redemption of the note. You are urged to consult your own tax advisors regarding the potential application to the notes of the contingent payment debt instrument rules and the consequences thereof.

Payments of Interest

Based on applicable Treasury Regulations relating to the accrual of interest and original issue discount on debt instruments that provide for "alternative payment schedules" (such as debt instruments that provide the issuer with an optional right to redeem the debt instruments), we intend to treat the notes, for U.S. federal income tax purposes, as maturing on April 24, 2022. Under this treatment, interest paid on a note (including any Additional Amounts) will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder's method of accounting for federal income tax purposes. If, however, we do not redeem the notes on April 24, 2022, then contrary to the assumption made in this paragraph, each note will be treated as retired and reissued on April 24, 2022 for an amount equal to its adjusted issue price on that date. You are urged to consult your own tax advisors regarding any U.S. federal income tax consequences that may occur.

The amount of interest taxable as ordinary income will include any amounts withheld in respect of Peruvian or Panamanian taxes. As a result, the amount of income included in gross income by a U.S. Holder may be greater than the amount of cash actually received by the U.S. Holder. Interest income earned by a U.S. Holder with respect to a note will constitute foreign-source income for U.S. federal income tax purposes, which may be relevant to a U.S. Holder in calculating the U.S. Holder's foreign tax credit limitation. The limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. In addition, certain Peruvian or Panamanian taxes, if any withheld from interest income on a note, may be eligible for credit against the U.S. Holder's U.S. federal income tax liability, subject to generally applicable limitations and conditions, or, at the election of the U.S. Holder, for deduction in computing the U.S. Holder's taxable income. Generally, only income taxes (or taxes in lieu of income taxes) qualify for the foreign tax credit. The rules governing foreign tax credits are complex and, therefore, U.S. Holders should consult their own tax advisors regarding the availability of foreign tax credits in their particular circumstances.

Pre-Acquisition Accrued Interest

A portion of the price paid for the notes may be allocable to interest that accrued prior to the date the note is purchased (the "pre-acquisition accrued interest"). On the first interest payment date, a portion of the interest received in an amount equal to the pre-acquisition accrued interest should be treated as a return of the pre-acquisition accrued interest and not as a payment of interest on the note. Amounts treated as a return of pre-acquisition accrued interest should not be taxable when received. A U.S. Holder should consult its tax advisor regarding the U.S. federal income tax treatment of pre-acquisition accrued interest.

Amortizable Bond Premium

Subject to the discussion below, if a U.S. Holder purchases a note for an amount that is greater than its principal amount (excluding any amount attributable to pre-acquisition accrued interest with respect to such additional note), the U.S. Holder will be considered to have purchased the note with amortizable bond premium. In general, the amortizable bond premium with respect to any note is the excess of the purchase price (disregarding the amount

attributable to pre-acquisition accrued interest) over the principal amount and a U.S. Holder may elect to amortize this bond premium, using a constant-yield method, over the remaining term of the note. A U.S. Holder generally may use the amortizable bond premium allocable to an accrual period to offset stated interest otherwise required to be included in income with respect to the note in that accrual period. A U.S. Holder who elects to amortize bond premium must reduce its tax basis in the note by the amount of the premium amortized in any year. An election to amortize bond premium applies to all taxable debt obligations then owned or thereafter acquired and may be revoked only with the consent of the IRS. However, because the notes may be redeemed at an amount in excess of the principal amount under certain circumstances, a U.S. Holder's ability to amortize may be limited or deferred. A U.S. Holder should consult its tax advisor regarding the calculation of amortizable bond premium.

A U.S. Holder may also make an election to include in income all interest that accrues on a note in accordance with a constant-yield method based on the compounding of interest. If a U.S. Holder makes a constant-yield election for a note with amortizable bond premium, that election will result in a deemed election to amortize bond premium for all of the holder's debt instruments with amortizable bond premium, and may be revoked only with the permission of the IRS with respect to debt instruments acquired after revocation. Except as discussed in this paragraph, this discussion assumes that a U.S. Holder does not make the election to accrue all interest on a constant-yield method.

Sale, Exchange, Retirement or Other Taxable Disposition

Upon the sale, exchange, retirement or other taxable disposition of a note, a U.S. Holder will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange, retirement or other taxable disposition and the U.S. Holder's tax basis in the note. Gain or loss, if any, will generally be U.S.-source gain or loss for purposes of computing a U.S. Holder's foreign tax credit limitation. For these purposes, the amount realized does not include any amount attributable to accrued interest, which will be taxed as interest. The U.S. Holder's tax basis in a note generally will equal the U.S. Holder's cost for acquiring the note reduced by any bond premium previously amortized (subject to the discussion of pre-acquisition accrued interest above). The U.S. Holder's gain or loss will be capital gain or loss and will be long-term capital gain or loss if at the time of sale, exchange, retirement or other taxable disposition the note has been held for more than one year. If you are a non-corporate U.S. Holder, the maximum marginal U.S. federal income tax rate applicable to long-term capital gain is currently lower than the maximum marginal U.S. federal income tax rate applicable to ordinary income (other than certain dividends). The deductibility of capital losses is subject to limitations.

Backup Withholding and Information Reporting

Information returns may be filed with the IRS in connection with payments on the notes and the proceeds from a sale or other disposition of the notes, unless such U.S. Holder is exempt from information reporting and, when required, demonstrates this fact. Any such payments or proceeds to a U.S. Holder that are subject to information reporting generally will be subject to U.S. backup withholding if the U.S. Holder fails to provide its taxpayer identification number to the paying agent and comply with certain certification procedures or otherwise establish an exemption from backup withholding. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's U.S. federal income tax liability and may entitle the U.S. Holder to a refund, provided that the required information is timely furnished to the IRS. U.S. Holders should consult their tax advisors concerning the application of information reporting and backup withholding rules.

Foreign Asset Reporting

Certain U.S. Holders who are individuals (and under proposed Treasury regulations, certain entities) may be required to report information relating to an interest in the notes, subject to certain exceptions (including an exception for notes held in accounts maintained by U.S. financial institutions). U.S. Holders are urged to consult their tax advisors regarding their information reporting obligations, if any, with respect to their ownership and disposition of the notes.

PLAN OF DISTRIBUTION

Subject to the terms and conditions set forth in a purchase agreement among us and the initial purchasers, we have agreed to sell to the initial purchasers, and each of the initial purchasers has agreed, severally and not jointly, to purchase from us, the principal amount of new notes set forth opposite its name below:

| | Principal Amount |
|--------------------------------|-------------------|
| Initial Purchaser | of Notes |
| Citigroup Global Markets, Inc. | U.S.\$100,000,000 |
| J.P. Morgan Securities LLC | U.S.\$100,000,000 |
| Total | U.S.\$200,000,000 |

Credicorp Capital Servicios Financieros S.A. ("Credicorp Capital") is not an initial purchaser nor has it conducted any placement activities within the U.S. or to U.S. persons.

Subject to the terms and conditions set forth in the purchase agreement, the initial purchasers have agreed, severally and not jointly, to purchase all of the new notes sold under the purchase agreement if any of these new notes are purchased.

We have agreed to indemnify the initial purchasers and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the initial purchasers may be required to make in respect of those liabilities.

The initial purchasers are offering the new notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the new notes, and other conditions contained in the purchase agreement, such as the receipt by the initial purchasers of officer's certificates and legal opinions. The initial purchasers reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part. The initial purchasers may offer and sell the New Notes through any of their affiliates.

Commissions and Discounts

The initial purchasers propose initially to offer the new notes at the offering price set forth on the cover page of this offering memorandum. After the initial offering, the offering price or any other term of the offering may be changed.

New Notes Are Not Being Registered

Neither the new notes nor the notes have been registered under the Securities Act or any state securities laws. The initial purchasers propose to offer the new notes for resale in transactions not requiring registration under the Securities Act or any applicable state securities laws, including sales pursuant to Rule 144A and Regulation S. The initial purchasers will not offer or sell the new notes except to persons they reasonably believe to be qualified institutional buyers or pursuant to offers and sales to non-U.S. persons that occur outside of the United States within the meaning of Regulation S. In addition, until 40 days following the commencement of this offering, an offer or sale of new notes within the United States by a dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act unless the dealer makes the offer or sale in compliance with Rule 144A or another exemption from registration under the Securities Act. Each purchaser of the new notes will be deemed to have made acknowledgments, representations and agreements as described under "Notice to Investors."

New Issue of Notes

Although the existing notes are listed on the Euro MTF market of the Luxembourg Stock Exchange and we have applied to increase the principal amount of notes listed on the Euro MTF market of the Luxembourg Stock Exchange so as to include the principal amount of the new notes, we cannot assure you that an active market for the new notes will develop or that an active market for the notes does or will exist. If an active trading market for the new notes does not develop, the market price and liquidity of the new notes may be adversely affected. The initial

purchasers may make a market in the notes after the offering but are under no obligation to do so and may discontinue any market making activities at any time without any notice. If the new notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors. See "Risk Factors—Risk Factors Relating to the Notes—We cannot assure you that an active trading market for the notes will exist."

Settlement

Delivery of the new notes was made to investors on January 21, 2014, which was the third business day following the date of this offering memorandum (such settlement being referred to as "T+3")..

No Sales of Similar Securities

We have agreed that, for a period of 45 days after the date of this offering memorandum, we will not, without first obtaining the prior written consent of Citigroup Global Markets, Inc. and J.P. Morgan Securities LLC, directly or indirectly, issue, sell, offer to contract or grant any option to sell, pledge, transfer or otherwise dispose of, any of our debt securities substantially similar to the new notes offered hereby in the international capital markets, except for the new notes sold to the initial purchasers pursuant to the purchase agreement.

Short Positions

In connection with the offering, the initial purchasers may purchase and sell the new notes in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the initial purchasers of a greater principal amount of new notes than they are required to purchase in the offering. The initial purchasers must close out any short position by purchasing new notes in the open market. A short position is more likely to be created if the initial purchasers are concerned that there may be downward pressure on the price of the new notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, the initial purchasers' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the new notes or preventing or retarding a decline in the market price of the new notes. As a result, the price of the new notes may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the initial purchasers make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the new notes. In addition, neither we nor any of the initial purchasers make any representation that the initial purchasers will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

Affiliates of the initial purchasers are lenders and arrangers under certain of our debt facilities. Some of the initial purchasers and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

Credicorp Capital, which is acting as a Joint Lead manager, is a subsidiary of our parent company, Credicorp.

Selling Restrictions

Notice to Prospective Investors in Peru

The notes and the information contained in this offering memorandum have not been and will not be registered with or approved by SMV or the BVL. Accordingly, the notes cannot be offered or sold in Peru, except if such offering is considered a private offering under the securities laws and regulations of Peru. The Peruvian securities market law establishes that any particular offer may qualify as private, among others, if it is directed exclusively to institutional investors.

Notice to Prospective Investors in Panama

The notes and the information contained in this offering memorandum have not been and will not be registered with or approved by the Panamanian Superintendency of the Securities Market (*Superintendencia del Mercado de Valores*) or the Panamanian Stock Exchange (*Bolsa de Valores de Panamá*, *S.A.*). Accordingly, the notes cannot be offered or sold in Panama, except in transactions exempted from the registration requirements of the securities laws and regulations of Panama.

Notice to Prospective Investors in the EEA

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State") an offer to the public of any new notes which are the subject of the offering contemplated by this offering memorandum may not be made in that Relevant Member State, except that an offer to the public in that Relevant Member State of any new notes may be made at any time under the following exemptions under the Prospectus Directive, if they have been implemented in that Relevant Member State:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) by the initial purchasers to fewer than 100 natural or, if the Relevant Member State has implemented the relevant provisions of the 2010 PD Amending Directive, 150, or legal persons (other than "qualified investors" as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer; or
 - (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive;

provided that no such offer of new notes shall result in a requirement for the publication by us or any representative of a prospectus pursuant to Article 3 of the Prospectus Directive.

Any person making or intending to make any offer of new notes within the EEA should only do so in circumstances in which no obligation arises for us or any of the initial purchasers to produce a prospectus for such offer. Neither we nor the initial purchasers have authorized, nor do they authorize, the making of any offer of new notes through any financial intermediary, other than offers made by the initial purchasers which constitute the final offering of notes contemplated in this offering memorandum.

For the purposes of this provision, and your representation below, the expression an "offer to the public" in relation to any new notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any new notes to be offered so as to enable an investor to decide to purchase any new notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in the Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

Each person in a Relevant Member State who receives any communication in respect of, or who acquires any new notes under, the offer of new notes contemplated by this offering memorandum will be deemed to have represented, warranted and agreed to and with us and each initial purchaser that:

- (a) it is a "qualified investor" within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive; and
- (b) in the case of any new notes acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, (i) the new notes acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than "qualified investors" (as defined in the Prospectus Directive), or in circumstances in which the prior consent of the representatives has been given to the offer or resale; or (ii) where new notes have been acquired by it on behalf of persons in any Relevant Member State other

than qualified investors, the offer of those new notes to it is not treated under the Prospectus Directive as having been made to such persons.

Any offer or sale of the new notes in any member state of the European Economic Area which has implemented the Prospectus Directive must be addressed to qualified investors (as defined in the Prospectus Directive).

Notice to Prospective Investors in the United Kingdom

With respect to offers and sales in the United Kingdom each initial purchaser has represented and agreed that:

- it has only communicated and caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act of 2000, or "FSMA") received by it in connection with the issue or sale of any new notes included in this offering in circumstances in which section 21(1) of the FSMA does not apply to the issuer; and
- it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the new notes included in this offering in, from or otherwise involving the United Kingdom.

Notice to Prospective Investors in Hong Kong

The new notes may not be offered or sold in Hong Kong, by means of any document, other than (a) to "professional investors" as defined in the Securities and Futures ordinance (Cap. 571, Laws of Hong Kong) and any rules made under that Ordinance or (b) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies Ordinance (Cap. 32, Laws of Hong Kong) or which do not constitute an offer to the public within the meaning of that Ordinance. No advertisement, invitation or document relating to the new notes may be issued or may be in the possession of any person for the purpose of the issue, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to the Securities which are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) or any rules made under that Ordinance.

Notice to Prospective Investors in Singapore

This offering memorandum has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this offering memorandum and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the new notes may not be circulated or distributed, nor may the new notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Future Act, Chapter 289 of Singapore (the "SFA"), (ii) to a "relevant person" as defined in Section 275(2) of the SFA, or any person pursuant to Section 275 (1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of any other applicable provision of the SFA.

Where the new notes are subscribed and purchased under Section 275 of the SFA by a relevant person which is:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor (as defined in Section 4A of the SFA)) whose sole purpose is to hold investments and each beneficiary is an accredited investor;

shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferable within six months after that corporation or that trust has acquired the new notes under Section 275 of the SFA except:

- (i) to an institutional investor under Section 274 of the SFA or to a relevant person (as defined in Section 275(2) of the SFA) and in accordance with the conditions, specified in Section 275 of the SFA;
- (ii) (in the case of a corporation) where the transfer arises from an offer referred to in Section 275(1A) of the SFA, or (in the case of a trust) where the transfer arises from an offer that is made on terms that such rights or interests are acquired at a consideration of not less than U.S.\$200,000 (or its equivalent in a foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets;
 - (iii) where no consideration is or will be given for the transfer; or
 - (iv) where the transfer is by operation of law.

By accepting this offering memorandum, the recipient hereof represents and warrants that he is entitled to receive it in accordance with the restrictions set forth above and agrees to be bound by limitations contained herein. Any failure to comply with these limitations may constitute a violation of law.

Notice to Prospective Investors in Switzerland

The new notes may not be offered or sold, directly or indirectly, in Switzerland except in circumstances that will not result in the offer of the new notes being a public offering in Switzerland within the meaning of the Swiss Federal Code of Obligations ("CO"). Neither this prospectus supplement and the accompanying prospectus nor any other offering or marketing material relating to the new notes constitutes a prospectus as that term is understood pursuant to Article 652a or 1156 CO, and neither this prospectus supplement and the accompanying prospectus nor any other offering material relating to the new notes may be publicly distributed or otherwise made publicly available in Switzerland. The new notes are not authorized by or registered with the Swiss Financial Market Supervisory Authority as a foreign collective investment scheme. Therefore, investors do not benefit from protection under the Swiss Federal Act on Collective Investment Schemes or supervision by the Swiss Financial Market Supervisory Authority.

NOTICE TO INVESTORS

The notes have not been registered, and will not be registered, under the Securities Act or any state securities laws, and the notes may not be offered or sold except pursuant to an effective registration statement or pursuant to transactions exempt from, or not subject to, registration under the Securities Act. Accordingly, the notes are being offered and sold only:

- in the United States to qualified institutional buyers (as defined in Rule 144A) pursuant to Rule 144A under the Securities Act; and
- outside of the United States, to certain persons, other than U.S. persons, in offshore transactions meeting the requirements of Rule 903 of Regulation S under the Securities Act.

Purchasers' Representations and Restrictions on Resale and Transfer

Each purchaser of notes (other than the initial purchasers in connection with the initial issuance and sale of notes) and each owner of any beneficial interest therein will be deemed, by its acceptance or purchase thereof, to have represented and agreed as follows:

- (1) it is purchasing the notes for its own account or an account with respect to which it exercises sole investment discretion and it and any such account is either (a) a qualified institutional buyer and is aware that the sale to it is being made pursuant to Rule 144A or (b) a non-U.S. person that is outside the United States;
- (2) it acknowledges that the notes have not been registered under the Securities Act or with any securities regulatory authority of any state and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except as set forth below;
- (3) it understands and agrees that notes initially offered in the United States to qualified institutional buyers will be represented by a global note and that notes offered outside the United States pursuant to Regulation S will also be represented by a global note;
- (4) it will not resell or otherwise transfer any of such notes except (a) to us or any of our subsidiaries, (b) within the United States to a qualified institutional buyer in a transaction complying with Rule 144A under the Securities Act, (c) outside the United States in compliance with Rule 903 or 904 of Regulation S under the Securities Act, (d) pursuant to an exemption from registration under the Securities Act (if available) or (e) pursuant to an effective registration statement under the Securities Act, in each case in accordance with all applicable securities laws of the states of the United States and other jurisdictions;
- (5) either (i) it is neither an employee benefit plan subject to Title I of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), an individual retirement account or other plan subject to Section 4975 of the Code (collectively, "Plans") nor an employee benefit plan sponsored by a state or local government or otherwise subject to laws that include restrictions substantially similar to Section 406 of ERISA or Section 4975 of the Code ("similar laws") and it is not purchasing or holding notes on behalf of or with the assets of any Plan or plan subject to similar laws; or (ii) its purchase, holding and subsequent disposition of the notes shall not constitute or give rise to a non-exempt prohibited transaction under Section 406 of ERISA, Section 4975 of the Code or any similar law;
- (6) it agrees that it will give to each person to whom it transfers the notes notice of any restrictions on transfer of such notes;
- (7) it acknowledges that prior to any proposed transfer of notes (other than pursuant to an effective registration statement or in respect of notes sold or transferred either pursuant to (a) Rule 144A or (b) Regulation S) the holder of such notes may be required to provide certifications relating to the manner of such transfer as provided in the indenture;

- (8) it acknowledges that the trustee, registrar or transfer agent for the notes may not be required to accept for registration or transfer of any notes acquired by it, except upon presentation of evidence satisfactory to the Issuer that the restrictions set forth herein have been complied with;
- (9) it acknowledges that we, the initial purchasers and other persons will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that if any of the acknowledgements, representations and agreements deemed to have been made by its purchase of the notes are no longer accurate, it will promptly notify us and the initial purchasers; and
- (10) if it is acquiring the notes as a fiduciary or agent for one or more investor accounts, it represents that it has sole investment discretion with respect to each such account and it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each account.

Legends

The following is the form of restrictive legend which will appear on the face of the Rule 144A global note and which will be used to notify transferees of the foregoing restrictions on transfer. This legend will only be removed with our consent. If we so consent, it will be deemed to be removed.

THE SECURITIES EVIDENCED HEREBY HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR ANY STATE OR OTHER SECURITIES LAWS, AND MAY NOT BE OFFERED. SOLD. PLEDGED. OR OTHERWISE TRANSFERRED EXCEPT IN ACCORDANCE WITH THE FOLLOWING SENTENCE. BY ITS ACQUISITION HEREOF OR OF A BENEFICIAL INTEREST HEREIN, THE HOLDER OF THIS SECURITY BY ITS ACCEPTANCE HEREOF (1) REPRESENTS THAT IT, AND ANY ACCOUNT FOR WHICH IT IS ACTING, (A) IS A "QUALIFIED INSTITUTIONAL BUYER" (WITHIN THE MEANING OF RULE 144A UNDER THE SECURITIES ACT) OR (B) IS NOT A U.S. PERSON AND IS ACQUIRING THIS SECURITY IN AN "OFFSHORE TRANSACTION" PURSUANT TO RULE 903 OR 904 OF REGULATION S AND, WITH RESPECT TO (A) AND (B), EXERCISES SOLE INVESTMENT DISCRETION WITH RESPECT TO SUCH ACCOUNT, (2) AGREES FOR THE BENEFIT OF THE ISSUER THAT IT WILL NOT OFFER, SELL, PLEDGE OR OTHERWISE TRANSFER THIS SECURITY OR ANY BENEFICIAL INTEREST HEREIN, EXCEPT (A) (I) TO THE ISSUER OR ANY SUBSIDIARY THEREOF, (II) PURSUANT TO A REGISTRATION STATEMENT THAT HAS BECOME EFFECTIVE UNDER THE SECURITIES ACT, (III) TO A QUALIFIED INSTITUTIONAL BUYER IN COMPLIANCE WITH RULE 144A UNDER THE SECURITIES ACT, (IV) IN AN OFFSHORE TRANSACTION COMPLYING WITH THE REQUIREMENTS OF RULE 903 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT, OR (V) PURSUANT TO AN EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT (IF AVAILABLE), AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES AND OTHER JURISDICTIONS, (3) (I) REPRESENTS THAT IT AND ANY ACCOUNT FOR WHICH IT IS ACTING IS NEITHER AN EMPLOYEE BENEFIT PLAN SUBJECT TO TITLE I OF THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("ERISA"), AN INDIVIDUAL RETIREMENT ACCOUNT OR OTHER PLAN SUBJECT TO SECTION 4975 OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE") (COLLECTIVELY, "PLANS") NOR AN EMPLOYEE BENEFIT PLAN SPONSORED BY A STATE OR LOCAL GOVERNMENT OR OTHERWISE SUBJECT TO LAWS THAT INCLUDE RESTRICTIONS SUBSTANTIALLY SIMILAR TO SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE ("SIMILAR LAWS") AND IT IS NOT PURCHASING OR HOLDING THE SECURITIES ON BEHALF OF OR WITH THE ASSETS OF ANY PLAN OR PLAN SUBJECT TO SIMILAR LAWS; OR (II) REPRESENTS THAT ITS PURCHASE, HOLDING AND SUBSEQUENT DISPOSITION OF THE SECURITIES SHALL NOT CONSTITUTE OR GIVE RISE TO A NON-EXEMPT PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA, SECTION 4975 OF THE CODE OR ANY SIMILAR LAW, AND (4) AGREES THAT IT WILL GIVE TO EACH PERSON TO WHOM THIS SECURITY IS TRANSFERRED A NOTICE SUBSTANTIALLY TO THE EFFECT OF THIS LEGEND. AS USED HEREIN, THE TERMS "OFFSHORE TRANSACTION," "UNITED STATES" AND "U.S. PERSON" HAVE THE RESPECTIVE MEANINGS GIVEN TO THEM BY REGULATION S UNDER THE SECURITIES ACT.

THIS LEGEND MAY ONLY BE REMOVED AT THE OPTION OF THE ISSUER.

PRIOR TO THE REGISTRATION OF ANY TRANSFER IN ACCORDANCE WITH PARAGRAPH 2A(V) ABOVE, THE ISSUER RESERVES THE RIGHT TO REQUIRE THE DELIVERY OF SUCH LEGAL OPINIONS, CERTIFICATIONS, OR OTHER EVIDENCE AS MAY REASONABLY BE REQUIRED IN ORDER TO DETERMINE THAT THE PROPOSED TRANSFER IS BEING MADE IN COMPLIANCE WITH THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS. NO REPRESENTATION IS MADE AS TO THE AVAILABILITY OF ANY EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT.

The following is the form of restrictive legend which will appear on the face of the Regulation S global note and which will be used to notify transferees of the foregoing restrictions on transfer:

THE SECURITIES EVIDENCED HEREBY HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR ANY STATE OR OTHER SECURITIES LAWS. PRIOR TO EXPIRATION OF THE 40-DAY DISTRIBUTION COMPLIANCE PERIOD (AS DEFINED IN REGULATION S ("REGULATION S") UNDER THE SECURITIES ACT), THIS SECURITY MAY NOT BE REOFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED WITHIN THE UNITED STATES (AS DEFINED IN REGULATION S) OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, A U.S. PERSON (AS DEFINED IN REGULATION S), EXCEPT TO A QUALIFIED INSTITUTIONAL BUYER IN COMPLIANCE WITH RULE 144A UNDER THE SECURITIES ACT IN A TRANSACTION MEETING THE REQUIREMENTS OF THE INDENTURE REFERRED TO HEREIN.

LEGAL MATTERS

Certain U.S. legal matters relating to the issuance of the notes will be passed upon for us by Davis Polk & Wardwell LLP, New York, New York, and Peruvian legal matters will be passed upon for us by Payet, Rey, Cauvi, Pérez, Mur, Lima, Peru, and Panamanian legal matters will be passed upon for us by Arias, Aleman & Mora, Panama City, Panama. Certain legal matters will be passed upon for the initial purchasers by Milbank, Tweed, Hadley & McCloy LLP, New York, New York and Miranda & Amado Abogados, Lima, Peru.

LISTING AND GENERAL INFORMATION

Listing

We have applied to increase the principal amount of notes listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the Euro MTF Market so as to include the principal amount of the new notes. If listed and so long as the rules of the Luxembourg Stock Exchange require, notice of any optional redemption, change of control or any change in the rate of interest payable on the notes will be published on the website of the Luxembourg Stock Exchange at www.bourse.lu (or if the rules so require, in a leading daily newspaper of general circulation in Luxembourg, which we expect to be *Luxemburger Wort*).

We accept responsibility for the information contained in this offering memorandum. To the best of our knowledge (having taken all reasonable care to ensure that such is the case), the information contained in this offering memorandum is in accordance with the facts and does not omit anything likely to affect the import of such information.

We have appointed The Bank of New York Mellon (Luxembourg) S.A. as the Luxembourg listing and paying agent for the notes in Luxembourg. We reserve the right to vary such appointment. So long as the notes are listed on the Luxembourg Stock Exchange and traded on the Euro MTF Market, we will maintain a paying agent in Luxembourg.

Copies of the indenture, our by-laws and our articles of incorporation will be available at the expense of the Issuer at our offices, the corporate trust office of the trustee and at the offices of the Luxembourg paying agent.

Clearing Information

The global notes representing the notes have been accepted into the applicable systems used by DTC, Euroclear and Clearstream. The CUSIP and ISIN numbers and the common codes for the notes are as follows:

| 144A note CUSIP | 144A note ISIN | 144A note Common Code |
|--------------------------------------|----------------------------------|--|
| 05954TAJ0 | US05954TAJ07 | 077703233 |
| Regulation S note CUSIP | Regulation S note ISIN | Regulation S note Common Code |
| P09646AE3 | USP09646AE32 | 077707883 |
| Temporary Regulation S note CUSIP | Temporary Regulation S note ISIN | Temporary Regulation S note Common Code |
| P09646AG8 | USP09646AG89 | 097681350 |

Authorization

Our Board of Directors authorized the issuance of the notes and their generic terms and conditions in a meeting on November 27, 2013. We have obtained all other consents and authorizations necessary under Peruvian and Panamanian law for the issuance of the notes.

Litigation

Other than as set forth in this offering memorandum, we are not involved in any litigation or arbitration proceeding that is material in the context of the issuance of the notes. We are not aware of any material litigation or arbitration proceeding that is pending or threatened other than as set forth in this offering memorandum.

Financial Information

We have prepared, and intend to continue to prepare, audited fiscal year-end consolidated financial statements and quarterly unaudited interim consolidated financial statements while the notes are outstanding, both in conformity with Peruvian GAAP. There has been no material adverse change in our business, financial condition, results of operations or prospects since December 31, 2012, the date of our last annual consolidated financial statements.

Copies of our latest audited annual and unaudited quarterly interim reports may be obtained, and copies of offering documents referred to herein (including the forms of the notes) will be available free of charge at the corporate trust office of the trustee and at the offices of the Luxembourg paying agent.

INDEPENDENT ACCOUNTANTS

Our independent auditor for the years ended December 31, 2010, 2011 and 2012 was Medina, Zaldívar, Paredes & Asociados, a member firm of Ernst & Young Global, independent certified public accountants in Peru. The annual consolidated financial statements as of and for the years ended December 31, 2011 and 2012, and for the three-year period ended December 31, 2012, included in this offering memorandum have been audited by Medina, Zaldívar, Paredes & Asociados, as stated in its report appearing herein. The interim consolidated financial statements as of September 30, 2013 and for the nine months ended September 30, 2012 and 2013 included in this offering memorandum have not been audited but have undergone a limited review by Medina, Zaldívar, Paredes & Asociados, a member firm of Ernst & Young Global, independent certified public accountants in Peru, in accordance with International Standard on Review Engagements No. 2410.

AVAILABLE INFORMATION

We will furnish, upon prior written request of any registered owner of a note, or noteholder, or beneficial owner of a note, or note owner, such information as is specified in paragraph (d)(4) of Rule 144A under the Securities Act: (a) to such noteholder or note owner, (b) to a prospective purchaser of such note (or beneficial interest therein) who is a qualified institutional buyer designated by such noteholder or note owner or (c) to the trustee for delivery to such noteholder or note owner or such prospective purchaser so designated, in each case in order to permit compliance by such noteholder or note owner with Rule 144A in connection with the resale of such note (or a beneficial interest therein) in reliance upon Rule 144A unless, at the time of such request, (1) we are subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, or (2) we qualify for the exemption to Rule 12g3-2(b).

Independent auditor's report

To the shareholders of Banco de Crédito del Perú

We have audited the accompanying consolidated financial statements of Banco de Crédito del Perú (a subsidiary of Credicorp Ltd., a holding incorporated in Bermuda) and Subsidiaries, which comprise the consolidated balance sheets as of December 31, 2012 and 2011, and the consolidated statements of income, changes in shareholders' equity and cash flows for each of the three years ended December 31, 2012, 2011 and 2010, and the summary of significant accounting policies and other explanatory notes.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles prescribed by the Superintendencia de Banca, Seguros y AFP (SBS) for Peruvian financial entities, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with generally accepted auditing standards in Peru. Those standards require that we comply with ethical requirements and plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management, as well as evaluating the overall presentation of the consolidated financial statements.

Translation of a report originally issued in Spanish - See Note 30 to the consolidated financial statements

Independent auditor's report (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Banco de Crédito del Perú and Subsidiaries as of December 31, 2012 and 2011, and the consolidated results of its operations and its consolidated cash flows for each of the three years ended December 31, 2012, 2011 and 2010; in accordance with accounting principles prescribed by the Superintendencia de Banca, Seguros y AFP (SBS) for Peruvian financial entities.

Medina, Zaldivar, Paredes & Asociados

Lima, Peru, February 26, 2013

Banco de Crédito del Perú and Subsidiaries

Notes to the consolidated financial statements

As of December 31, 2012 and 2011

1. Operations

Banco de Crédito del Perú (hereinafter "the Bank" or "BCP") was incorporated in 1889 and is a subsidiary of Credicorp Ltd. (a holding incorporated in Bermuda in 1995), which as of December 31, 2012 owns directly and indirectly 97.66 percent of its capital stock (97.65 percent as of December 31, 2011).

The Bank's registered office is at Calle Centenario N°156, La Molina, Lima, Peru. As of December 31, 2012, the Bank and its Subsidiaries had 365 branches and agencies in Peru and 2 branches abroad (343 branches and agencies in Peru and 2 branches abroad as of December 31, 2011).

The Bank, whose operations are governed by the "Ley General del Sistema Financiero y de Seguros y Orgánica de la Superintendencia de Banca, Seguros y AFP" (General Law of the Financial and Insurance Systems and Organic of the SBS - Law 26702), hereinafter the "Banking Law", is authorized by the Superintendencia de Banca, Seguros y AFP - SBS (Peruvian Banking and Insurance Authority, hereinafter "SBS" for is Spanish acronym) to operate as a universal bank, in accordance with prevailing Peruvian legislation.

The consolidated financial statements as of December 31, 2011 and for the year then ended were approved by the General Shareholders Meeting dated March 30, 2012 without modifications. The consolidated financial statements as of December 31, 2012 and for the year then ended were approved by the Audit Committee and Management on February 26, 2013, and will be submitted for their final approval by the Board of Directors and the General Shareholders' Meeting within the period established by law. In Management's opinion, the consolidated financial statements will be approved by the Board of Directors and the General Shareholders' Meeting without modifications.

2. Acquisition and sale of subsidiaries and split of an equity block

During the years 2011 and 2012, Credicorp Group started a strategy aimed to the creation and operation of an independent entity to the Bank engaged in financial advisory activities, asset management and investment banking at a global scale and focused on the Mercado Integrado Latinoamericano – Latin American Integrated Market (MILA, for its Spanish acronym), a market that comprises the main stock exchanges of Peru, Chile and Colombia.

Notes to the consolidated financial statements (continued)

For this purpose, during 2012: (a) it acquired majority interest in Correval S.A. Sociedad Comisionista de Bolsa (hereinafter "Correval") and Inversiones IM Trust S.A. (hereinafter "IM Trust"), which then were transferred to a new holding entity, subsidiary of Credicorp; and (b) it split of an equity block comprised by assets belonging to the Bank used to provide the aforementioned services. Both operations are explained in detail below:

(a) Acquisition and sale of Correval and IM Trust S.A.

On April 27, 2012, the Bank acquired 51 percent of Correval, an investment banking entity established in Bogota, Colombia, for approximately US\$72.3 million paid in cash consideration (equivalent to S/.190.9 million). In addition, on July 31, 2012, the Bank acquired 60.6 percent of IM Trust, an investment banking entity established in Santiago, Chile, for approximately US\$131.5 million (equivalent to approximately S/.351.2 million), of which US\$ 110.9 million were paid in cash consideration at the acquisition date and US\$20.6 million will be paid in cash consideration on August 2013.

Subsequently, the Bank's Director's Meeting held on September 26, 2012, approved the transfer, through the sale of the shares held in Correval and IM Trust, to Credicorp Investments Ltd., a subsidiary of Credicorp incorporated in 2012 and domiciled in Bermuda.

The transfer of IM Trust took place on November 30, 2012, was made for the same amount paid at its acquisition date and comprised all assets and liabilities acquired, including intangible assets not recorded in the financial statements of IM Trust as of the acquisition date and the resulting goodwill. Therefore, the accompanying consolidated financial statements as of December 31, 2012, do not contain balances related to IM Trust.

However, because the authorizations from the Colombian Authorities have not been granted as of December 31, 2012, the transfer of Correval was not completed. Consequently, in order to comply with IFRS 5 "Non-current assets held for sale and discontinued operations", Correval assets and liabilities are presented as "Assets classified as held for sale" and "Liabilities directly associated with such assets classified as held for sale", respectively, in the consolidated balance sheets and the results of operations are presented as "Discontinued operations" in the consolidated statements of income, see Note 10(a).

Management considers that the transfer, which will be done for the same amount paid at the acquisition date, will culminate in the first half of 2013, after receiving the required authorizations.

On the other hand, Correval and IM Trust purchase agreements include put options in favor of the non-controlling interests and call options in favor of the Bank, over all non-controlling interests.

Notes to the consolidated financial statements (continued)

Said options are part of the rights and obligations transferred in the case of IM Trust and, to be transferred, in the case of Correval, to Credicorp Investments Ltd. The characteristics of the put options, over the remaining non-controlling interests in Correval are presented in Note 10(b).

(b) Split of an equity block

The Bank's General Shareholders Meeting held on August 21, 2012, approved the split of an equity block in favor of BCP Capital S.A.A., an entity incorporated on April 23, 2012 and an indirect Credicorp subsidiary.

The split was approved by the SBS through Resolution No. 7782-2012 dated October 12, 2012 and took effect on November 1, 2012. As a consequence, the Bank reduced its "capital stock" by S/.85.0 million, its "legal reserve" by S/.29.8 million and its "unrealized gains" by S/.23.3 million.

The assets transferred included the following Bank's subsidiaries: Credibolsa - Sociedad Agente de Bolsa S.A., Creditítulos Sociedad Titulizadora S.A. and Credifondo S.A. - Sociedad Administradora de Fondos- SAF, as well as the Bank's assets and liabilities related to investment banking. The detail of all assets and liabilities transferred is as follows:

| | 2012 S/.(000) |
|---|----------------------|
| Assets - | |
| Cash | 33,186 |
| Accounts receivable | 13,322 |
| Other accounts receivable | 15,000 |
| Investments at fair value though profit or loss | 96,252 |
| Investments available-for-sale | 37,703 |
| Other assets | 3,387 |
| Total assets | 198,850 |
| Liabilities - | |
| Loans payable | 46,656 |
| Accounts payable | 6,375 |
| Other liabilities | 7,795 |
| Total liabilities | 60,826 |
| Equity | 138,024 |

Revenue and net income generated by the split subsidiaries during the period between January 1, 2012 and the date of split, was approximately S/.86.4 million and S/.40.9 million, respectively.

Notes to the consolidated financial statements (continued)

As of December 31, 2011, total assets, liabilities and equity of the split subsidiaries, after elimination adjustments for consolidation purposes were S/.152.1 million, S/.6.4 million and S/.145.7 million respectively. Also, its revenue and net income for the year ended December 31, 2011, amounted to S/.126.7 million and S/.68.1 million, respectively.

Entities that are included in the consolidated financial statements as of December 31, 2012, considering the transactions described in paragraphs (a) and (b) and as of December 31, 2011, are presented in Note 3 (b).

3. Significant accounting policies

In the preparation and presentation of the accompanying consolidated financial statements, the Bank and its Subsidiaries' Management has complied with the regulations established by the SBS in force in Peru as of December 31, 2012 and 2011. Significant accounting principles and practices used in the preparation of the Bank and its Subsidiaries' consolidated financial statements are the following:

- (a) Basis for presentation, use of estimates, accounting changes and discontinued operations -
 - (i) Basis for presentation and use of estimates -

The accompanying consolidated financial statements have been prepared from the Bank and its Subsidiaries' accounting records, which are maintained in nominal Peruvian currency (Nuevos Soles), in accordance with SBS regulations and, supplementary, with International Financial Reporting Standards - IFRS approved by the Consejo Normativo de Contabilidad (Peruvian Accounting Council, hereinafter "CNC" for its Spanish acronym) in force in Peru as of December 31, 2012 and 2011, see paragraph (y.i).

These accounting principles are consistent with those used in 2011 and 2010, except as explained in paragraph (ii) below.

The preparation of consolidated financial statements requires Management to make estimates that affect the reported amounts of assets, liabilities, income and expenses and the disclosure of material events in the notes to the consolidated financial statements. Actual results could differ from those estimates. Estimates are continually evaluated and are based on historical experience and other factors. The most significant estimates used in relation with the accompanying consolidated financial statements are the computation of the allowance for loan losses, the valuation of investments, the estimated useful live and recoverable amount of property, furniture and equipment and intangible assets, the provision for seized assets, the valuation of brand name, goodwill and client relationships, the valuation of the derivative financial instruments and the share based payments.

The accounting criteria used for each of these items is described in this note and the consolidated financial statements of Subsidiaries and branch offices have been standardized to the accounting standards of the SBS.

Notes to the consolidated financial statements (continued)

(ii) Accounting changes -

Applicable since 2012 -

(ii.a) Through letter SBS No. 38179-2011 dated August 23, 2011, the SBS indicated that the program that grants Credicorp shares to employees should be recorded under IFRS 2 "Share-based payments", starting January 1, 2012, but requiring a prospective treatment. See more detail in paragraph (p).

Applicable since 2011 -

(ii.b) On November 2010, the International Financial Reporting Interpretations Committee (IFRIC) agreed that workers' profit sharing must be recorded following IAS19 "Employees' benefits" and not IAS 12 "Income tax". Consequently, a deferred asset or liability should not be calculated due to temporary differences.

On January 21, 2011, the SBS issued Multiple Official Letter N°4049-2011; adopting the Committee's interpretation starting January 2011. The changes required by the SBS and the accounting treatment followed by the Bank and its Subsidiaries are the following:

- Workers' profit sharing for services provided must be recorded as employees' expenses in the caption "Salaries and employees' benefits" of the consolidated income statements.
- The related assets and liabilities for deferred workers' profit sharing were eliminated and; assets and liabilities for deferred income tax considering an income tax rate of 30 percent were recalculated. The net effect of the elimination and recalculation amounted to S/.20.4 million which are presented in the caption "Retained earnings" of the consolidated statements of changes in shareholders' equity.
- (iii) Assets classified as held for sale and liabilities directly associated with those assets -Assets classified as held for sale are assets whose carrying amount will be recovered principally through a sale transaction rather than continuing use. To qualify as assets available for sale, the sale must be highly probable.

Those assets and liabilities are presented in the consolidated balance sheet as "Assets classified as held for sale" and "Liabilities directly associated with those assets" at their book values, which, in this case, corresponds to the value at which they are going to be transferred. Furthermore, in the consolidated statement of income, gains or losses are presented as "Discontinued operations". Similarly, cash flows from operating, investing and financing activities generated by the discontinued operation have been excluded from the consolidated statements of cash flows. See Notes 2(a) and 10.

Notes to the consolidated financial statements (continued)

(b) Consolidation -

Subsidiaries are all entities over which the Bank has control, meaning the power to govern their financial and operating policies. This is generally evidenced by a shareholding of more than one half of the voting rights.

Subsidiaries are consolidated from the date on which effective control is transferred to the Bank and are no longer consolidated from the date that control ceases.

Business acquisitions in which control is acquired are recorded in accordance with IFRS 3. This involves recognizing the identifiable assets (including intangible assets not previously recognized) and liabilities (including contingent liabilities and excluding future restructuration) of the acquired entity at fair value.

Any excess of acquisition cost over the fair value of the identifiable net assets, including tangible and intangible assets and the recognized amount for the non-controlling interest; is recorded as goodwill, see paragraph (m). If the acquisition cost is less than the fair value of the net identifiable assets, the difference is recorded directly in the consolidated income statement in the acquisition year.

All transactions, balances, gains and losses between the Bank and its Subsidiaries have been eliminated in the consolidation process. The equity attributable to the non-controlling interests is presented separately from the consolidated balance sheets. The income attributable to the non-controlling interests is presented separately in the consolidated statements of income.

The accounting records of foreign subsidiaries are kept in the original currency of each country. For consolidation purposes its balances were translated to Peruvian Nuevos Soles as follows:

- Assets and liabilities are translated at the exchange rate on the free market as of the consolidated balance sheet date.
- Revenues and expenses are translated at the monthly average exchange rate.

All differences arising from the translation were included in the caption "Translation result" of the consolidated statements of changes in shareholder's equity.

Notes to the consolidated financial statements (continued)

The consolidated financial statements include the financial statements of the Bank and its subsidiaries in which it has of consolidation at 31 December 2012 and 2011, before eliminations made in such process:

| Entity | Activity and Country | Percentage of participation | |
|---|--|-----------------------------|-----------|
| | | 2012 | 2011 % |
| Banco de Crédito del Perú, Note 2(b) | Banking, Peru | - | - |
| Banco de Crédito de Bolivia and Subsidiaries | Banking, Bolivia | 95.92 | 95.92 |
| Empresa Financiera Edyficar S.A. | Microcredits, Peru | 99.79 | 99.79 |
| Inversiones BCP S.A. | Holding, Chile | 99.99 | 99.99 |
| Solución Empresa Administradora Hipotecaria S.A. | Mortgage Ioans, Peru | 100.00 | 100.00 |
| Inmobiliaria BCP S.A. | Real estate, Peru | 100.00 | 100.00 |

| Credibolsa - Sociedad Agente de Bolsa S.A. Note 2(b) | Brokerage, Peru | - | 100.00 |
| Creditítulos Sociedad Titulizadora S.A. Note 2(b) | Assets securitization management, Peru | - | 100.00 |

Notes to the consolidated financial statements (continued)

(c) Financial instruments -

Financial instruments are classified as assets, liabilities or equity according to the substance of the contractual agreement that originated them. Interests, dividends, gains and losses generated by financial instruments classified as assets or liabilities are recorded as income or expense. Financial instruments are offset when the Bank and its Subsidiaries have a legal enforceable right to offset them and Management has the intention to settle them on a net basis or to realize the asset and settle the liability simultaneously.

Financial assets and liabilities presented in the consolidated balance sheet correspond to cash and due from banks, interbank funds, investments (at fair value through profit or loss, available-for-sale, held-to-maturity and in associates), derivative financial instruments at fair value, loans, accounts receivable (presented in the caption "Other assets, net") and liabilities in general, except for the liability for deferred income tax. In addition, all indirect loans are considered to be financial instruments. The specific accounting policies on recognition and measurement of these items are disclosed in the accounting policies described in this note.

(d) Recognition of revenue and expenses -

Financial revenue and expense for interests are recognized on an accrual basis over the related contract period and considering the interest rates agreed with clients, except for interest generated from past due, refinanced, restructured or under legal collection loans, and loans classified in the categories of doubtful and loss, which interest is recognized as revenue on a cash basis. When Management determines that the debtor's financial condition has improved and the loan is reclassified as current and/or in the categories of normal, with potential problems or substandard, interest is again recorded on an accrual basis.

Revenue includes interest on fixed income investments classified as held for trading, available for sale and held-to-maturity, including recognition of any discount or premium.

Dividends are recognized as income when they are declared.

Commissions on financial services are recognized as income when collected, except for commissions related to the renewal of credit cards, which are recorded on an accrual basis during the term or renewal of the contract.

Other revenues and expenses are recorded on an accrual basis.

Notes to the consolidated financial statements (continued)

(e) Loans and allowance for loan losses -

Direct loans are recorded when disbursement of funds to the client is made. Operations with credit cards are recorded as loans for the amount consumed and/or withdrawn. Indirect loans (contingent) are recorded when documents supporting such facilities are issued. Loans considered as refinanced are loans or direct financing whose original contractual terms and/or amounts have been modified due to difficulties in the payment capacity of the debtor. Loans considered as restructured are those subject to reprogramming of approved installments under a restructuring process in accordance to Law No 27809 - General Law of the Insolvency System.

Leasing operations are registered as financial leases, recording as loans the principal of the installments pending collection.

Financial revenues are based on a pattern that reflects a constant interest rate over the loan.

As of December 31, 2012 and 2011, the allowance for loan losses was determined following guidelines established by SBS Resolutions N°11356-2008 "Regulation for the evaluation and classification of the debtor and the requirement of provisions" and N°6941-2008 "Regulation for Managing the Risk of Retail Debtors with High Leverage Levels". In accordance to SBS Resolution N°11356-2008, the loan portfolio is separated in retail and non retail borrowers, who could be individuals or legal entities. Retail borrowers have direct or indirect loans, classified as consumer (revolving and none revolving), micro-business, small business or mortgage loans. Non retail borrowers have direct or indirect loans with corporate, large business or medium business loans. Management periodically reviews and analyzes the loan portfolio, classifying it in the following categories: normal, potential problems, substandard, doubtful or loss, depending on the degree of risk of default of payment of each debtor.

For non retail loans, the classification into one of each of the categories mentioned above considers, among others, the following factors: the payment history of the specific loan, the Bank's dealing history with the debtor's management, the debtor's: operating history, repayment capability and availability of funds, the status of any collateral or guarantee received, the analysis of the debtor's financial statements, the risk classification given by other financial institutions; plus other relevant factors. For retail loans, the classification is based, mainly, on how long payments are overdue.

As of December 31, 2012 and 2011, the allowance rate for indirect loans can be 0, 25, 50 and 100 percent, depending on the type of credit and is determined over the basis of a loan conversion factor.

The allowance for direct loans is computed considering the risk classification assigned and using specific percentages, which vary depending on whether the loans are or not secured by self-liquidating preferred collaterals (mainly cash deposits and rights on credit certificates); highly liquid preferred collaterals (treasury bonds issued by the Peruvian Government, financial instruments of the Central Reserve Bank of Peru - BCRP, debt instruments issued by

Notes to the consolidated financial statements (continued)

governments and central banks traded on a stock exchange, among others) or preferred collaterals (primary pledge on financial instruments, machinery, property, agriculture products or minerals, insurance credit on exports, among others); considered at their net realizable value as determined by an independent appraiser. In case a loan has a substitute responsibility of an entity of the financial or insurance system (credits affected to substitution of counterparty), the calculation of the allowance is made considering the guarantor's classification.

When calculating the allowance for clients classified as doubtful or loss for more than 36 and 24 months, respectively, the value of any collateral is disregarded and the required allowance is calculated as if such loans were not secured by any collateral.

Additionally, for each loan past due over 90 days, the expected loss on each loaned amount must be estimated. Such estimation must consider the economic situation and the transaction conditions, including the collaterals value, type of loan, borrower's economic activity or sector, among others. The recorded specific allowance must be the greater amount between the expected loss and the allowance estimated following the general procedures explained in the preceeding paragraph.

The allowance for direct loans is presented as an asset deduction, while the allowance for indirect loans is presented as a liability in the caption "Others liabilities, net", Note 9(a).

In the case of debtors operating in countries where there is a higher risk of difficulties in servicing external debt, an assessment of the political and economic situation is made, and an additional country risk allowance is recorded.

As of December 31, 2012 and 2011, the Bank and its Subsidiaries maintain pro-cyclical allowances that amount to S/.281.1 million and S/.239.8 million, respectively, computed following SBS Circular Letter No. B-2193-2010, which requires, in the presence of certain macroeconomic conditions, that for loans classified as normal an additional provision to the fixed percentages described in Note 7(f), must be recorded.

(f) Transactions in foreign currency -

Assets and liabilities in foreign currencies are recorded at the exchange rate on the date in which the transactions are made and expressed in Peruvian currency at the end of each month using the exchange rate established by the SBS, see Note 4. Exchange gains or losses generated by the restatement of assets and liabilities in foreign currency are recorded in the consolidated income statement.

Notes to the consolidated financial statements (continued)

(g) Derivative financial instruments -

Derivate financial instruments are recorded in accordance with accounting criteria established by SBS Resolution N° 1737-2006 "Regulation for Trading and Accounting of Derivatives for Financial Entities" and amendments, as explained below:

Trading -

Trading derivate financial instruments are initially recognized in the consolidated balance sheet at cost, and thereafter, they are recognized at fair value. Fair values are obtained based on exchange rates and interest rates prevailing in the market. Gains and losses arising from changes in fair values are recorded in the consolidated income statement, recognizing an asset or liability in the consolidated balance sheet as appropriate. In addition, they are recorded as off-balance sheet accounts at their notional amount, Note 19(a).

Hedging -

A derivative financial instrument that seeks to achieve a financial hedge for a given risk is designated as for hedge purposes if, at its negotiation, it is foreseen that changes in fair value or cash flows are expected to be highly effective in offsetting the fair value or cash flow changes of the hedged item attributable to the hedged risk at inception, which must be documented when the financial derivative is negotiated and during the period that the hedge relation exists. A hedge is considered as highly effective if changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated are expected to offset in a range of 80 to 125 percent.

If the SBS considers the documentation to be unsatisfactory or finds weaknesses in the methodologies applied, it may require the immediate termination of the hedge relationship and the recording of the derivative financial instrument as trading.

For cash flow hedges, the effective portion of gain or loss over the hedge instrument is recognized directly in equity, in the caption "Unrealized gains (losses)". The ineffective portion of gain or loss of the hedged instrument is recognized in the consolidated income statement. When the cash flow hedge affects the consolidated income statement, the gain or loss in the hedge instrument is recorded in the corresponding caption of the consolidated income statement.

For fair value hedges, changes in fair value of the derivative are recognized in the consolidated income statement. Changes in fair value of the hedged item attributed to the hedged risk are recorded as part of the balance of the hedged item and recognized in the consolidated income statement.

If the hedge instrument expires, is sold, terminated or exercised, or when the hedge does not fulfill the hedging accounting criteria, the hedge relationship is prospectively terminated and the balance recorded in the consolidated balance sheet is transferred to the consolidated income statement during the term the hedged item is kept.

Notes to the consolidated financial statements (continued)

As of December 31, 2012 and 2011, following the SBS permission, certain derivative financial instruments maintained by the Bank and its Subsidiaries have been designated as hedging operations considering the functional currency of Credicorp, the U.S. Dollar, see Note 9(c).

Embedded derivatives -

Certain derivatives embedded in other financial instruments (host contract) are treated as separate derivatives when their economic characteristics and risks are not closely related to those of the host contract and the host contract is not carried at fair value through profit or loss. These embedded derivatives are separated from the host instrument and recognized at fair value in the consolidated income statement, unless the Bank and its Subsidiaries choose to designate the hybrid contracts (host and embedded derivative) at fair value through profit and loss.

As of December 31, 2012 and 2011, in accordance with SBS Resolution N°1737-2006, the Bank has Indexed Certificates to Credicorp stock price that will be settled in cash, which are hybrid instruments with embedded derivatives that are not closely related to the risk of the host contract. In this regard, the Bank has decided to classify these instruments at inception at fair value through profit and loss. Therefore, the separation of the embedded derivative is not required, Note 9(b).

- (h) Investments at fair value through profit or loss, available-for-sale and held-to-maturity -As of December 31, 2012 and 2011, the initial recognition and the subsequent measurement of investments at fair value through profit or loss, available-for-sale and held to maturity, are carried out following SBS Resolution N°10639-2008, "Regulations for the classification and valuation of investments" and amendment. The guidelines for valuation of investments, according to their classification are as follows:
 - Investments at fair value through profit or loss Initial recognition is at fair value, considering the transaction costs associated with such investments as expenses.
 Subsequent measurement is at fair value and any gain or loss arising from changes in the initial cost and subsequent fair value is recognized directly in the consolidated income statement.
 - Investments available-for-sale Initial recognition is at fair value, including the transaction costs that are directly associated to their acquisition. Gains or losses originated by changes between the initial cost and fair value are recognized directly in equity, unless a permanent impairment in its value exists. When an instrument is realized or sold, the unrealized gains or losses previously recognized as part of equity are recognized in the consolidated income statement.

Notes to the consolidated financial statements (continued)

In the case of debt securities, before their subsequent measurement at fair value, the amortized cost is updated applying the effective interest rate; considering this amortized cost, unrealized gains or losses due to changes in fair value are recognized.

- Investments held-to-maturity - Initial recognition is at fair value, including the transaction costs that are directly associated to their acquisition; subsequent measurement is at amortized cost, using the effective interest rate method.

Transactions are recorded at the date of negotiation, that is, the date of the assumption of the reciprocal obligations that must be complied with, within terms established by regulations and practices of the market on which the transaction is performed.

Interests are recognized using the effective interest rate, which includes both interest receivables and premium or discount amortization.

Gains or losses on exchange differences regarded to amortized cost of debt instruments affect the consolidated income statement; gain or losses on exchange differences regarded to fair value valuation are recorded as part of the unrealized gains or losses in the consolidated equity.

Equity instruments are considered non-monetary items, therefore, the original cost in local currency is not modified, the exchange difference is part of the valuation and is recognized as unrealized results in the consolidated equity.

The Bank and its Subsidiaries evaluate, at each date of the consolidated financial statements, if there is evidence that any instrument classified as available-for-sale and held-to-maturity is impaired; if that is the case, an impairment is recognized in the consolidated income statement, even though the investment has not been retired or sold.

SBS Resolution N°10639-2008, considers that if the SBS deems necessary to require the constitution of an additional provision for any class of investment, such provision must be determined by the SBS, based on each individual investment, and recorded in the consolidated income statement.

The difference between the proceeds received from the sale of an investment and its book value is recognized in the consolidated income statement.

Notes to the consolidated financial statements (continued)

(i) Investments in associates -

According to SBS Resolution N°10639-2008, this category includes only equity securities acquired with the purpose of having equity participation and/or significant influence in other entities or institutions.

Investments in associates are initially recognized at their fair value including the transaction costs directly attributable to their acquisition; subsequently they are recorded using the equity participation method. In the case of investments quoted on a stock exchange, when their market value shows a decreasing trend due to non-temporary circumstances, the Bank and its Subsidiaries must record a provision for impairment; nevertheless, the SBS at its own criteria, can require the recognition of an additional provision for impairment.

(j) Property, furniture and equipment and depreciation -

Property, furniture and equipment are recorded at acquisition cost, less accumulated depreciation and accumulated amount of impairment, if applicable, see paragraph (q) below. Maintenance and repair costs are charged to the consolidated income statement and significant renewals and improvements are capitalized when: i) it is probable that future economic benefits will flow from the renewal or improvement; and ii) cost can be measured reliably. The cost and its corresponding accumulated depreciation and any impairment loss of an asset sold or retired are eliminated from the corresponding accounts and the related gain or loss is included in the consolidated income statement.

Work in progress and in transit units are accounted at their acquisition cost. These goods are not depreciated until they are received or finished and placed into service.

Land is not depreciated. Depreciation is computed on a straight-line basis over the following estimated useful lives:

| | Years |
|-----------------------------------|-------|
| Buildings and other constructions | 33 |
| Installations | 10 |
| Furniture and fixtures | 10 |
| Computer hardware | 4 |
| Equipment and vehicles | 5 |

The residual value, the useful live assigned and the selected depreciation method is periodically reviewed to ensure that they are consistent with the economic benefit and useful live expectations of property, furniture and equipment items.

Notes to the consolidated financial statements (continued)

(k) Seized assets, assets received as payment and realizable assets Realizable assets include assets purchased specifically for granting them as part of financial leasing operations and are recorded initially at their acquisition cost; realizable assets not granted in leasing operations are recorded at cost or market value, the lower.

Received as payment and seized assets (which include assets from terminated financial leasing contracts) are initially recorded at the value assigned to them, through a legal proceeding, out-of-court settlement, market value or at the unpaid value of the debt, the lower. At the time of initial recognition, a provision equivalent to 20 percent of the above determined value must be recorded; for this purpose it is permitted to reclassify the allowance for loan losses that was originally provided for the related loan.

Thereafter, additional provisions should be recorded using the following guideline:

- Assets that are not real state a uniform monthly provision in a term of twelve months, until providing for one hundred percent of the net seized or recovered value.
- Real estate uniform monthly provisions over the net book value obtained at the twelfth month. In addition, SBS Resolution N°1535-2005 allows a term extension of six months, in such case; a uniform monthly provision must be made over the net book value obtained in the eighteenth month. On both situations, provisions must be made until providing for one hundred percent of the net book value in a term of three years and a half, starting the date monthly provisions began to be provided.

The annual update of the seized assets' fair value, determined by an independent appraiser, involves, if necessary, the recording of an impairment provision.

(I) Finite useful live intangible assets -

SBS Resolution N°1967-2010, establishes the accounting procedures for intangible assets with finite useful live. These assets are included in the caption "Other assets, net" of the consolidated balance sheets and are stated at historical acquisition cost less accumulated amortization and accumulated impairment losses, if applicable; see following paragraph (q). These assets are composed principally by acquisition and development of software used by the Bank and its Subsidiaries in their operations, which are recorded at cost; brand rights of use, which are recorded considering the related contract; as well as finite useful live intangible assets identified in the acquisition of Edyficar in 2009, which were recognized on the consolidated balance sheets at their fair values determined at their acquisition date, corresponding to the brand name and costumer relationship, see Note 9(d)

According to SBS Resolution N°1967-2010, finite useful live intangible assets are amortized in no more than 5 years.

Notes to the consolidated financial statements (continued)

The Bank and its Subsidiaries' finite useful lives intangible assets are amortized using the straight-line method, based in their estimated useful lives (five years), see Note 9 (d).

However, in consideration of the future transfer of Correval to Credicorp Investments (Note 2 (a)), amortization of finite useful live intangibles assets arising from the acquisition of Correval was calculated considering the following useful lives:

| | Years |
|---------------------------|----------|
| Brand | 25 |
| Customer relationship | 8 and 10 |
| Fund management contracts | 28 |

(m) Indefinite useful live intangible assets - Goodwill -

According to SBS Resolutions N°1967-2010, indefinite useful live assets, such as goodwill, registered before January 1, 2010, are amortized following regulations in force on the date of initial recognition, considering a period of no more than 5 years. Goodwill generated after January 1, 2010, is recognized at cost; and then, it is measured its cost less any impairment loss, which is tested annually or more frequently when any event or change in circumstances indicates that the fair value may be impaired, see following paragraph (q). However, according to an authorization from the SBS, goodwill generated in the acquisition of Edyficar in 2009 is measured at cost less any accumulated impairment loss.

(n) Bonds and subordinated notes issued -

Includes the liabilities from the issuance of different types of bonds and subordinated notes, which are initially recorded at their fair value plus the incremental costs related to the transaction that are directly attributable to the instrument's issuance. Upon initial recognition, they are measured at their amortized cost applying the effective interest rate method. The amortized cost is calculated taking into account any issuance discount or premium, as well as the costs that are an integral part of the effective interest rate. Likewise, accrued interests are recognized in the consolidated statements of income in the "Interest on bonds and subordinated notes issued" caption of the "Financial expenses" account, according to the contractual terms.

(o) Income tax -

Current Income tax is calculated on the basis of taxable income determined for tax purposes, which is determined using principles that differ from accounting principles used by the Bank and its Subsidiaries.

Therefore, the Bank and its Subsidiaries record deferred income taxes, considering the guidelines of IAS12 - Income Tax. The deferred income tax reflects the effects of temporary differences between the carrying amounts of assets and liabilities for accounting purposes and the amounts determined for tax purposes. Deferred assets and liabilities are measured using the tax rates expected to be applied to taxable income in the years in which temporary differences are

Notes to the consolidated financial statements (continued)

expected to be recovered or settled. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences which arise from the way in which the Bank and its Subsidiaries expect to recover or eliminate the carrying amount of its assets and liabilities at the consolidated balance sheets dates.

Deferred tax assets and liabilities are recognized without taking into consideration the time in which it is estimated that temporary differences will be written off. Deferred assets are recognized when sufficient future tax benefits are probable to exist for applying the deferred assets. As at the date of the consolidated balance sheets, Management evaluates the non-recognized deferred assets and the balance of the recognized assets, recording deferred assets not previously recognized to the extent that probable future tax benefits will allow their recovery, or reducing the deferred assets to the extent that it is not likely that sufficient future tax benefits will be available to use part or all of the deferred assets previously recognized.

In accordance with IAS 12, the Bank and its Subsidiaries determines its deferred tax considering the tax rate applicable to its non-distributed earnings; any additional tax on dividends distribution is recorded on the date a liability is recognized.

(p) Share-based payment transactions The Bank and its Subsidiaries have two share-based payment plans.

The first share-based payment plan was granted until 2008 and consisted of rights/options granted in the form of stock appreciation rights (SARs) over a number of Credicorp shares to certain executives who had at least one year of service. According to the conditions of the plan, a fixed settlement price of the rights/options was established at the grant date, allowing the executive to obtain as benefit the difference between the market price at the moment in which the rights/options are exercised and the agreed settlement price, Note 17. The related expense is recorded considering the accrued services at the date of the consolidated balance sheet, multiplied by the difference between the estimated market price of the rights/options at the date of the consolidated balance sheet and the agreed settlement price.

The second share-based payment plan was implemented in 2009 to replace the plan explained above and consists on the granting of a number of Credicorp shares. For that purpose, the Bank and its Subsidiaries purchase each year Credicorp shares, which are legally given to the executives, although they vest in 3 years from the date of grant (March or April of each year). Until December 31, 2011, shares of Credicorp legally delivered to the executive, as authorized by Official Letter SBS N°9771-2009, were recorded as personnel expenses, for all the amount disbursed in their acquisition and in the year they were legally delivered to the executive.

Notes to the consolidated financial statements (continued)

In August 2011, the SBS issued Official Letter N°38179-2011, by which it indicated that all share-based payments plan must be recorded following IFRS 2 - Share-based payments, starting January 1, 2012, but requiring prospective treatment.

Consequently, in accordance with IFRS 2, because the Bank is responsible of settling the plan and it is not settled in equity instruments of the Bank, but of Credicorp, the second share-based payment plan granted in the year 2012 is also recorded as cash settled.

The fair value of the shares and rights / options is estimated using a binomial method. The fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The liability is remeasured at each reporting date up to and including the settlement date, recognizing changes in fair value under "Compensation and benefits" in the consolidated statement of income.

When the price or terms of the plans change, the effect of the change is recognized in the consolidated statements of income.

(q) Impairment -

When changes or certain events indicate that the value of an asset may not be recovered, the Bank and its Subsidiaries review the value of property, furniture and equipment, goodwill and intangible assets (including brand name and client relationship) in order to verify if there is no permanent impairment in their values. When the book value of the asset exceeds its recoverable value, a loss for impairment is recognized in the consolidated income statement for each caption mentioned above. The recoverable value is the highest between the net sale price and its value in use. The net sale price is the amount that can be obtained from the sale of an asset in a free market, while the value in use is the present value of the estimated future cash flows provided by the continuous use of an asset and its disposal at the end of its useful live. The recoverable amounts are estimated for each asset or, if not possible, for each cash generating unit.

(r) Fiduciary activities -

Assets and cash flows from fiduciary operations in which there is a commitment to return such assets and cash flows to a client and in which the Bank and its Subsidiaries participate as a fiduciary, have been excluded from these consolidated financial statements, because the Bank and its Subsidiaries are not owners of such assets and cash flows and they do not assume the risks and rewards that arise from their ownership.

The Bank and its Subsidiaries for fiduciary control purposes record these operations in the caption "Off-balance sheet accounts", Note 19, of the consolidated balance sheets and the commissions received for these activities are included in the caption "Other income", Note 23, of the consolidated income statement.

Notes to the consolidated financial statements (continued)

(s) Provisions -

Provisions are only recognized when the Bank and its Subsidiaries have a present (implicit or legal) obligation as a result of past events, it is probable that an outflow of resources will be required to settle such obligation, and the amount has been reliably estimated. Provisions are reviewed in each period and are adjusted to reflect their best estimate as of the consolidated balance sheet date. When the effect of the time value of money is significant, the amount recorded as a provision is the present value of future payments required to settle the obligation.

(t) Contingencies -

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed in notes to the consolidated financial statements, unless the possibility of an outflow of economic resources is remote.

Contingent assets are not recognized in the consolidated financial statements; however, they are disclosed when their contingency degree is probable.

(u) Earnings per share -

Basic and diluted earnings per share are calculated by dividing the net income by the weighted average number of shares outstanding at the consolidated balance sheets dates. Shares that are issued due to the capitalization of retained earnings are deemed to be stock splits; thus, for the computation of the weighted average number of shares; they are considered as if they had always been issued.

As of December 31, 2012, 2011 and 2010, the Bank and its Subsidiaries do not have financial instruments with dilutive effects; therefore, basic and diluted earnings per share are the same.

(v) Repurchase agreements and security lending and borrowing transaction Securities sold under agreements to repurchase at a specified future date are not derecognized from the consolidated balance sheet as the Bank and its Subsidiaries retains substantially all of the risks and rewards of ownership. The corresponding cash received is recognized in the consolidated balance sheet as an asset with a corresponding obligation to return it, including accrued interest as a liability within "Payables from repurchase agreements and security lending", reflecting the transaction's economic substance as a loan to the Bank and its Subsidiaries. The difference between the sale and repurchase prices is treated as interest expense and is accrued over the life of agreement using the effective interest rate.

Notes to the consolidated financial statements (continued)

Conversely, securities purchased under agreements to resell at a specified future date are not recognized in the consolidated balance sheet. The consideration paid, including accrued interest, is recorded in the consolidated balance sheet, within "Receivables from reverse repurchase agreements and security borrowing", reflecting the transaction's economic substance as a loan by the Bank and its Subsidiaries. The difference between the purchase and resale prices is recorded in the caption "Financial income" of the consolidated income statement and is accrued over the life of the agreement using the effective interest rate.

If securities purchased under agreement to resell are subsequently sold to third parties, the obligation to return the securities is recorded as a short sale in the caption "Financial liabilities designated at fair value through profit or loss" of the consolidated balance sheet, and measured at fair value with any gains or losses included in "Other non-financial income".

Securities lending and borrowing transactions are usually collateralized by securities. The transfer of the securities to counterparties is only reflected on the consolidated balance sheet if the risks and rewards of ownership are also transferred.

As of December 31, 2011, the Bank and its Subsidiaries had not purchased securities under agreements to resell at a future date, or sale of securities purchased under resale agreements. As of December 31, 2012, such operations had been performed exclusively by Correval, see Note 10.

(w) Cash and cash equivalents -

Cash and cash equivalents presented in the consolidated statements of cash flows correspond to "Cash and due from banks" of the consolidated balance sheets, which includes deposits with less than a three-month maturity as of the acquisition date, BCRP time deposits, funds deposited in central banks and overnight deposits, excluding restricted funds.

(x) Reclassifications -

The comparative amounts have been reclassified, if necessary, to make them comparable with the current year presentation. Management considers that reclassifications made in the consolidated financial statements as of December 31, 2011 and 2010, are not significant considering the consolidated financial statements as a whole.

(y) International Financial Reporting Standards (IFRS) -

(y.i) IFRS Issued and in effect in Peru as of December 31, 2012. The CNC through Resolutions N°051-2012-EF/30 issued on August 29, 2012 and N°048-2011-EF/30 issued on January 6, 2012, formalized the implementation of the current versions of the years 2012 and 2011, respectively, of IFRS 1 to 13, IAS 1 to 41, the pronouncements 7 to 32 of the Standing Interpretations Committee (SIC) and Interpretations of the International Financial Reporting Standards (IFRIC) 1 to 19 and

Notes to the consolidated financial statements (continued)

amendments up to October 2011, to IAS, IFRS and IFRIC issued internationally. Their application is from the day after the issuance of the Resolution or after the effective date as stipulated in each specific standard.

In addition, on March 14, 2012, through Resolution N°050-2012-EF/30, the CNC agreed to maintain in Peru the application of the equity method to record in the consolidated financial statements investments in associates and joint ventures.

Through Resolution N°914-2010, the SBS postponed the effective date, for financial institutions of IFRS 7 "Financial Instruments: Disclosures" and IFRS 8 "Operating Segments". No effective date has been defined by the SBS.

(y.ii) IFRS issued and effective in Peru as of December 31, 2011 -The current versions of year 2009 of IFRS 1 to 8, IAS 1 to 41, the pronouncements 7 to 32 of the Standing Interpretations Committee (SIC), interpretations of International Financial Reporting Standards (IFRIC) 1 to 19 and amendments up to May 2010 to IAS 1 and 34, IFRS 1, 3 and 7, IFRIC 13 and the transition requirements for amendments arising as a result of IAS 27, were in force as of December 31, 2011.

Because standards explained in paragraphs (y.i) and (y.ii) are only complementary to the SBS accounting rules, they will not have any significant effect in the preparation of the accompanying consolidated financial statements, unless the SBS adopts them in the future through the modification of the Accounting Manual for Financial Entities or the issuance of specific rules. The Bank and its Subsidiaries have not estimated the effect in its consolidated financial statements, of the adoption of the above mentioned standards, if adopted by the SBS.

(z) Harmonization process of accounting standards As part of the harmonization process of accounting standards issued by the SBS with IFRS, on
September 19, 2012, the SBS issued Resolution N°7036-2012, establishing amendments to the
Accounting Manual for financial entities.

Also, on November 30, 2012, the SBS issued Official Letter N°45311-2012, requiring financial entities to prepare an implementation plan for compliance with the deadlines included in SBS Resolution N°7036-2012 and amendments; the plan must include a schedule of activities for adapting accounting processes and computer systems. On December 14, 2012, the Bank presented to the SBS the implementation plan.

SBS Resolution N° 7036-2012 is effective since January 2013 and is to be applied prospectively. Also, the SBS, through the Official Letter mentioned above, extended the deadline of certain amendments until May 31, 2013 for financial entities that could not adapt their systems to the changes requested as of January 1, 2013. The Bank filed for this extension.

Notes to the consolidated financial statements (continued)

In Management opinion, the requirements included in SBS Resolution N°7036-2012, do not significantly affect its operations or consolidated balances.

On the other hand, on September 19, 2012, SBS issued Resolution N°7033-2012, effective January 2013. Consequently, the Regulation on Classification and Valuation of Investments approved by SBS Resolution N°10639-2008 was repealed.

The main amendment in said Resolution is the inclusion of a standard methodology for identification of impairment on financial instruments classified as investments available for sale and investments held-to-maturity.

Such methodology includes two filters analysis. The first filter refers to a significant decrease in fair value (50 percent of cost) and a consecutive decrease during the last 12 months, of at least 20 percent. The second filter refers to qualitative aspects of the issuer. In Management opinion, the adoption of SBS Resolution N°7033-2012, will not have a significant effect on the Bank and its Subsidiaries consolidated financial statements.

4. Foreign currency transactions and exposure to exchange risk

(a) Transactions in foreign currency are completed using exchange rates prevailing in the market.

As of December 31, 2012, the weighted average market exchange rate published by the SBS for transactions in U.S. Dollars was S/. 2.549 for buying and S/.2.551 for selling (S/.2.695 and S/.2.697 as of December 31, 2011, respectively). As of December 31, 2012, the exchange rate established by the SBS to record assets and liabilities in foreign currencies was S/.2.55 for each U.S. Dollar, S/. 0.366379 for each Boliviano and S/.0.001443 for each Colombian Peso (S/.2.696, S/.0.393004 and S/.0.001391, as of December 31, 2011, respectively). A detail of the Bank and its Subsidiaries' foreign currency assets and liabilities is shown below (presented in thousands of U.S. Dollars):

Notes to the consolidated financial statements (continued)

As of December 31, 2012, the Bank and its Subsidiaries have contingent operations (indirect loans) in foreign currency for approximately US\$ 3,204.2 million, equivalent to approximately S/.8,170.7 million (approximately US\$2,739.2 million, equivalent to approximately S/.7,384.9 million, as of December 31, 2011), Note 19.

In prior years, the devaluation (revaluation) of the Nuevo Sol with respect to the U.S. Dollar and inflation, in accordance with the National Wholesale Price Index published by the Instituto Nacional de Estadística e Informática (National Institute of Statistics and Informatics), are as follows:

| | Devaluation | |
|------|---------------|-----------|
| Year | (revaluation) | Inflation |
| | % | % |
| | | |
| 2008 | 4.8 | 6.7 |
| 2009 | (8.0) | 0.3 |
| 2010 | (2.8) | 2.1 |
| 2011 | (4.0) | 4.7 |
| 2012 | (5.4) | 2.7 |

5. Cash and due from banks

As of December 31, 2012, cash and due from banks includes approximately US\$4,064.1 million and S/.5,947.4 million (US\$3,202.6 million and S/.3,816.0 million, as of December 31, 2011) of mandatory reserve that the Bank and its Subsidiaries must maintain for their obligations with the public. These reserves are deposited in the vaults of the Bank and its Subsidiaries and in the Central Reserve Bank of Peru - BCRP, and are within the limits established by prevailing legislation.

As of December 31, 2012, cash and due from banks subject to mandatory reserve in Peruvian currency and foreign currency are affected at an implicit rate of 18.74 percent and 39.97 percent, respectively, of the total obligations subject to reserve, as required by the BCRP (13.52 percent and 37.03 percent, respectively, as of December 31, 2011).

The reserve funds which represents the minimum mandatory do not earn interest; however, the mandatory reserve deposited in BCRP in excess of minimum mandatory, earns interests at a nominal rate established by BCRP. As of December 31, 2012, the excess in foreign currency amounts to approximately US\$3,257.4 million, equivalent to approximately S/.8,306.4 million, and earns interest in U.S. Dollars at an average rate of 0.10 percent (US\$2,257.2 million, equivalent to approximately S/.6,085.4 million, at an average rate of 0.18 percent as of December 31, 2011), while the excess in Nuevos Soles amounts to approximately S/.2.953.7 million and earns interests at an average rate of 1.75 percent (S/.1,007.2 million, at an average rate of 2.45 percent as of December 31, 2011).

Notes to the consolidated financial statements (continued)

Deposits in local and foreign banks correspond principally to balances in Nuevos Soles and U.S. Dollars. All deposits are unrestricted and earn interest at market rates. As of December 31, 2012 and 2011, the Bank and its Subsidiaries do not have significant deposits in any specific financial institution.

As of December 31, 2012, the Bank and its Subsidiaries maintain restricted funds related to repurchase agreements and other funds that amount to US\$ 68.7 million, equivalent to S/.175.1 million and S/.4.3 million, respectively (restricted funds related to repurchase agreements, derivative financial instruments and other funds that amount to US\$90.1, equivalent to S/.223.2 million, S/.19.6 million and S/.3.6 million, respectively, as of December 31, 2011).

Notes to the consolidated financial statements (continued)

- (b) BCRP certificates of deposit are issued at discount, acquired in public auctions, negotiated in the Peruvian secondary market and settled in Nuevos Soles.
- (c) As of December 31, 2012, the balance includes mainly bonds issued by entities from Peru, The United States of America, Colombia and Chile, which represents 34.3 percent, 20.0 percent, 13.7 percent and 11.8 percent of the total balance, respectively (44.2 percent, 32.1 percent, 3.9 percent and 5.8 percent of the total balance, respectively as of December 31, 2011). As of December 31, 2012 and 2011, 98.8 percent and 97.2 percent, respectively, of these bonds were "investment grade".
- (d) As of December 31, 2012 and 2011, corresponds to 3,821,057 and 3,752,890 shares, which represents 3.66 percent and 3.60 percent of BCI-Chile capital stock, respectively.
- (e) As of December 31, 2012, it includes mainly treasury notes from the Central Bank of Bolivia, issued at discount in Bolivianos for an amount of Bolivianos 1,172 million, equivalent to S/.436.0 million (mainly Bolivianos 758.6 million, equivalent to S/. 297.4 million as of December 31, 2011)
- (f) Sovereign bonds are issued in Nuevos Soles and Peruvian treasury bonds correspond to global bonds issued in U.S. Dollars and Euros.
 - As of December, 31, 2012, the Bank maintained cross currency swaps ("CCS") which, as indicated in Note 3(g), were designated as cash flow hedges of certain bonds issued at fixed rate and in Nuevos Soles and Euros by the Peruvian Government for a notional amount of S/.318.3 million, see Note 9(c); through the CCS these bonds were economically converted to U.S. Dollars at fixed rate.
- (g) As of December 31, 2012, foreign governments bonds corresponds to US\$79.5 million, equivalent to S/.202.7 million, issued by the Colombian Government; US\$10.7 million, equivalent to S/.27.3 million, issued by the Bolivian Government; US\$2.6 million, equivalent to S/.6.6 million, issued by the Brazilian Government and US\$1.0 million, equivalent to S/.2.6 million, issued by the Chilean Government (US\$130.7 million, equivalent to S/.352.4 million, issued by the Colombian Government; US\$2.9 million, equivalent to S/.7.7 million, issued by the Brazilian Government and US\$1.0 million, equivalent to S/.2.7 million, issued by the Chilean Government as of December 31, 2011).

Notes to the consolidated financial statements (continued)

- (h) As of December 31, 2012, the participation quotas in the fund "Requirement of Cash Assets" (RAL for its Spanish acronym), are denominated in Bolivianos and U.S. Dollars, and amounts approximately to Bolivianos 243.9 million, equivalent to \$\frac{5}{90.7}\$ million and U\$\$43.2 million, equivalent to \$\frac{5}{10.1}\$ million, respectively (approximately Bolivianos 188.6 million, equivalent to \$\frac{5}{13.9}\$ million and U\$\$21.8 million, equivalent to \$\frac{5}{58.9}\$ million, respectively, as of December 31, 2011). They comprise investments made by Banco de Crédito de Bolivia in the Central Bank of Bolivia as collateral for the deposits maintained with the public. RAL Fund has restrictions for its use and it is required for all banks operating in Bolivia.
- (i) As of December 31, 2012, the Bank maintained interest rate swaps (IRS), which as indicated in Note 3(g), were designated as fair value hedges of certain bonds issued at fixed rate in U.S. Dollars by the Peruvian Government, corporate entities and multilateral financial entities, for a notional amount of S/.136.5 million (S/.145.7 million, as of December 31, 2011), see Note 9(c); through the IRS, these bonds were economically converted to variable interest rate.

(k) As of December 31, 2012 and 2011, Management has estimated the fair value of investments at fair value through was not available, by discounting the expected future cash flows at an interest rate that reflects the risk classificati

Management has determined that the unrealized losses as of December 31, 2012 and 2011 are of temporary natural time sufficient to allow for an anticipated recovery in fair value, which can occur at their maturity.

Notes to the consolidated financial statements (continued)

(I) Investments held-to-maturity

This item is made up as follows:

| | 2012 S/.(000) |
|---------------------------|----------------------|
| Peruvian sovereign bonds | 272,734 |
| Foreign governments bonds | 267,442 |
| Peruvian treasury bonds | 110,384 |
| | 650,560 |
| Accrued interest | 11,582 |
| Total | 662,142 |

As of December 31, 2012, the fair value of held-to-maturity investments amounts to S/.657.9 million and has maturities between March 2019 and August 2020. These investments bear interest at an annual effective interest rate of 3.80 percent for bonds issued in Nuevos Soles and between 1.55 and 1.96 percent for bonds issued in U.S. Dollars.

(m) As of December 31, 2012, the Bank maintained repurchase agreements for approximately S/.1,667.6 million guaranteed with cash for approximately S/175.1 million, see Note 5, and securities (corporate bonds, bonds of multilateral financial institutions, sovereign bonds and global bonds) classified as investments available for sale and held to maturity investments for an estimated fair value of US\$471.1 million, equivalent to S/.1,201.3 million and US\$259.7 million, equivalent to S/.662.2 million, with maturities fewer than one year for approximately 17 percent, between one and three years for approximately 52 percent and more than five years for approximately 31 percent (repurchase agreements for approximately S/.674.0 million, guaranteed with cash for approximately S/.223.2, and securities (corporate bonds, bonds of multilateral financial institutions and global bonds) classified as investments available for sale, amounting to US\$223.2 million, equivalent to S/.601.8 million, with maturity on June 2012, as of December 31, 2011). These operations accrued an interest at fixed rate between 1.10 percent and 4.30 percent, and a variable rate between Libor 3M+0.35 percent and Libor 6M+1.38 percent as of December 31, 2012 (Libor 6M+0.72 percent as of December 31, 2011).

As of December 31, 2012, the cash flows of certain repurchase agreements amounting to S/.510.0 million were hedged through an interest rate swap ("IRS") for the same notional amount and the same maturities; through IRS, these repurchase agreements were economically converted to fixed rate, see Note 9 (c).

Notes to the consolidated financial statements (continued)

(n) The balance of investments at fair value through profit or loss (trading), available for sale and held to maturity as of December 31, 2012 and 2011, classified by contractual maturity, are made up as follow:

| | 2012 S/.(000) | 2011 S/.(000) |
|-------------------------|----------------------|----------------------|
| Up to 3 months | 2,945,431 | 2,518,803 |
| From 3 months to 1 year | 4,162,537 | 3,813,518 |
| From 1 to 3 years | 1,923,211 | 584,726 |
| From 3 to 5 years | 365,861 | 446,801 |
| More than 5 years | 1,749,674 | 1,299,836 |
| Without maturity | 1,014,963 | 883,904 |
| Total | 12,161,677 | 9,547,588 |

| | 53,895,927 | 100.0 | 11,727,386 | 100.0 | 65,623, |

Notes to the consolidated financial statements (continued)

- (f) As of December 31, 2012 and 2011, financial entities in Peru must constitute their allowance for loan losses based on the risk classification indicated in paragraph (e) and using the percentages indicated on Resolution SBS N°11356-2008, as follows:
 - (i) For loans classified as "Normal":

| Loan type | Fixed-rate % | Pro-cyclical component (*) % |
|-----------------------------|-----------------|------------------------------------|
| Corporate | 0.70 | 0.40 |
| Large-business | 0.70 | 0.45 |
| Mortgage | 0.70 | 0.40 |
| Medium-business | 1.00 | 0.30 |
| Small-business | 1.00 | 0.50 |
| Revolving consumer loan | 1.00 | 1.50 |
| Non-revolving consumer loan | 1.00 | 1.00 |
| Micro-business | 1.00 | 0.50 |

- (*) In case the loan has highly liquid preferred guarantees (LWHLPG), the pro-cyclical component will be 0%, 0.25% or 0.30%, depending on the loan type.
- (ii) For loans classified as "Potential problems", "Substandard", "Doubtful" and "Loss"; depending if the loans are: Loans Without Guarantees (LWG), Loans With Preferred Guarantees (LWPG) or Loans With Readily Preferred Guarantees (LWRPG) or Loans with Highly Liquid Preferred Guarantees (LWHLPG):

| Risk category | LWG % | LWPG % | LWRPG % | LWHLPG % |
|--------------------|----------|-----------|------------|-------------|
| Potential problems | 5.00 | 2.50 | 1.25 | 1.00 |
| Substandard | 25.00 | 12.50 | 6.25 | 1.00 |
| Doubtful | 60.00 | 30.00 | 15.00 | 1.00 |
| Loss | 100.00 | 60.00 | 30.00 | 1.00 |

For loans subject to substitution of credit counterparty, Note 3(e), the allowance requirement depends on the classification of the respective counterparty, for the amount covered, regardless of the debtor credit risk classification, using the percentages indicated above.

Notes to the consolidated financial statements (continued)

(g) The movement of the allowance for loan losses (direct and indirect loans) is shown below:

| | 2012 S/.(000) | 2011 S/.(000) |
|--|----------------------|----------------------|
| Balance as of January 1 | 1,524,348 | 1,273,789 |
| Provision recognized as an expense during the period | 1,111,244 | 708,484 |
| Loan portfolio written-off | (677,883) | (432,614) |
| Translation result and other | (42,592) | (25,311) |
| Balance as of December 31(*) | 1,915,117 | 1,524,348 |

(*) As of December 31, 2012, the movement of the allowance for loan losses includes direct and indirect loans allowance for approximately S/.1,799.1 million and S/.116.0 million, respectively (approximately S/.1,420.6 million and S/.103.7 million, respectively, as of December 31, 2011). The allowance for indirect loan losses is presented in the "Other liabilities, net" caption of the consolidated balance sheets, Note 9(a).

In Management's opinion, the allowance for loan losses recorded as of December 31, 2012 and 2011, has been established in accordance with SBS regulations in force as of those dates, Note 3(e).

- (h) As of December 31, 2012, the Bank maintained a cross currency swap ("CCS"), which, as indicated in Note 3(g), has been designated as cash flow hedge of a fixed rate and Nuevos Soles loan portfolio, for a notional amount of S/.9.8 million, see Note 9(c); through CCS, these assets were economically converted to U.S. Dollars at fixed rate.
- (i) A portion of the loan portfolio is secured by guarantees received from clients, which are principally conformed by mortgages, stand-by letters, financial instruments, and industrial and commercial pledges.
- (j) Interests accrued on the loan portfolio are determined considering the current interest rates prevailing in the markets where the Bank and its Subsidiaries operate.

Notes to the consolidated financial statements (continued)

(k) As of December 31, 2012 and 2011, the direct gross loan portfolio classified by maturity, based on the remaining period to repayment date is as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|------------------------------|----------------------|----------------------|
| Outstanding loans - | | |
| Up to 1 month | 5,819,557 | 5,319,121 |

Notes to the consolidated financial statements (continued)

(b) In connection with the liabilities that result from Credicorp's stock appreciation rights (SARs), Note 17(a), the Bank signed several contracts with Citigroup Global Markets Holdings Inc., Citigroup Capital Limited, Citigroup Capital Market Inc (hereinafter "Citigroup") and Credit Agricole Corporate and Investment Bank (hereinafter "Calyon").

These contracts consist of the purchase of certificates indexed to the performance of Credicorp (BAP) shares, in the form of "warrants" issued by Citigroup and Calyon, with the same number of Credicorp shares. These certificates will be settled totally or partially at any moment exclusively in cash with maturity until 2014.

As of December 31, 2012 and 2011, the Bank and its Subsidiaries have acquired 214,914 and 355,914 certificates, respectively, at a total cost of US\$13.5 million and US\$22.4 million, respectively (US\$63.0 and US\$62.9 per certificate on average, respectively). During 2012 and 2011, the Bank and its Subsidiaries settled 141,000 and 796,500 certificates, respectively.

According to SBS standards, the difference between cost and estimated market value; as well as the result obtained from the liquidation of the indexed certificates, are recorded in the consolidated income statement in the caption "Other non-financial income and operating expenses", see Note 23.

Notes to the consolidated financial statements (continued)

(ii) The Bank and its Subsidiaries are exposed to movements in future interest cash flows on non-trading assets and liabilities which bear interest at variable rates. The Bank and its Subsidiaries use derivate financial instruments as cash flow hedges of said risk, according to Note 3(g). As of December 31, 2012, a summary indicating the periods when the hedged cash flows are expected to occur and when they are expected to affect the consolidated income statement, net from income tax is as follows:

| | Up to 1 year S/.(000) | From 1 to 3 years S/.(000) | From 3 to 5 years S/.(000) | More than 5 years S/.(000) |
|-------------------------------|--------------------------|----------------------------------|----------------------------------|----------------------------------|
| Cash outflows (liabilities) | (931,236) | (1,254,763) | (62,079) | (62,079) |
| Consolidated income statement | (14,627) | (27,597) | (3,796) | 15,079 |

As of December 31, 2012, the net unrealized loss from the cash flow hedges is included in the caption "Unrealized gains (losses)" of the consolidated statements of changes in shareholders' equity and results from the current hedges (unrealized loss for approximately S/.30.9 million) and from the unwind made in 2009 (unrealized gain for approximately S/.23.2 million), which is being realized in the consolidated income statements during term of the underlying financial instrument (October 2022), see Note 13(a)(iv). Likewise, the transfer of the net unrealized gain and/or loss on cash flow hedges to the consolidated income statement is presented in Note 15(d).

Notes to the consolidated financial statements (continued)

(d) The movement of intangible assets for the years ended December 31, 2012 and 2011 is as follows:

| Description | Brand name S/.(000) | Rights of use (ii) S/.(000) | Client Relationship S/.(000) |
|----------------------------|------------------------|-----------------------------------|------------------------------------|
| Cost - | | | |

- (i) During the year 2012, the Bank capitalized disbursements related to the implementation and development of several proj information of clients, among others). During the year 2011, the Bank capitalized disbursements related to the implement infrastructure, mainframe and licenses to support operations.
- (ii) In July 2010, the Bank signed a contract with Telefónica Móviles S.A. by which both parties agreed that the Bank is the expayment instrument issued by the Bank and bears certain benefits established by both parties and stipulated in the contra
- (iii) As of December 31, 2012 and 2011, the Bank and its Subsidiaries have fully amortized intangible assets that are still in u
- (iv) Management periodically reviews the intangibles' residual value, their useful live and the selected amortization method to Management's opinion, there is no evidence of impairment of intangibles as of December 31, 2012 and 2011.

Notes to the consolidated financial statements (continued)

- (e) Operations in process include deposits received, loans disbursed and/or collected, funds transferred and other similar types of transactions, which are made at the end of the month and not reclassified to their final consolidated balance sheet account until the first days of the following month. The regularization of these transactions do not affect the Bank and its Subsidiaries' consolidated net income.
- (f) As of December 31, 2012 and 2011, the balance includes S/.28.6 million and S/.24.4 million, respectively, corresponding to assets acquired with the specific purpose of granting leasing loans.
 - In Management's opinion, the allowance of realizable assets, received in payment and seized assets recorded as of December 31, 2012 and 2011, complies with SBS regulations in force on those dates.
- (g) As of December 31, 2012 and 2011, the provision for sundry risks comprises the estimated losses due to legal procedures against the Bank and its Subsidiaries, estimated losses due to operational risk and other similar obligations that were recorded based on Management and its internal legal advisors' best estimates.

10. Assets classified as held for sale and liabilities directly associated

(a) As of December 31, 2012, these items include balances of Correval's operation, as follows:

| | 2012 S/.(000) |
|--|---|
| Assets classified as held for sale | ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,, |
| Receivables from reverse repurchase agreements and security borrowing, Note 3(v) | 2,788,432 |
| Investments at fair value through profit or loss and available for sale, net | 166,899 |
| Brand name, net | 35,902 |
| Client relationships, net | 28,055 |
| Fund manager contracts, net | 69,276 |
| Goodwill | 104,133 |
| Other assets | 5,910 |
| Total | 3,198,607 |
| Liabilities directly associated with assets classified as held for sale | |
| Payables from repurchase agreements and security lending, Note 3(v) | 2,580,548 |
| Financial liabilities designated at fair value trough profit or loss, | |
| Note 3(v) | 204,214 |
| Deferred income tax | 44,887 |
| Other liabilities | 69,740 |
| Total | 2,899,389 |

Notes to the consolidated financial statements (continued)

The results of Correval's operations for the period between April 27, 2012 (acquisition date) and December 31, 2012, are as follow:

| | 2012 S/.(000) |
|--------------------------|----------------------|
| Income and expenses | |
| Revenue | 61,869 |
| Expenses | (48,709) |
| Income before income tax | 13,160 |
| Income tax | (3,459) |
| Net income | 9,701 |

The net cash flows of Correval for the period between April 27, 2012 (acquisition date) and December 31, 2012, are as follow:

| | 2012 S/(000) |
|----------------------|-----------------|
| Operating activities | (29,529) |
| Investing activities | (10,144) |
| Financing activities | 39,440 |
| Net decrease in cash | (233) |

(b) On the other hand, as indicated in Note 2(a), the acquisition agreement of Correval includes put options and call options on the non-controlling interests in that entity. These options have not been recorded in the consolidated financial statements of the Bank and its Subsidiaries as of December 31, 2012, considering that they are also part of the rights and obligations to be transferred to Credicorp Investments Ltd. Also, it is important to mention, that BCP and Credicorp Investment Ltd. signed on December 2012 an agreement for the transfer of contractual position; through this agreement BCP transferred its joint liability on the obligations related to the put and call options on the non controlling interests, "written non controlling interests puts and calls" to Credicorp Investments Ltd. The transfer of the joint liability and the accounting treatment of the calls and puts options were informed to the SBS. As of December 31, 2012, the present value of the put options amounts to approximately US\$59.2 million.

Notes to the consolidated financial statements (continued)

The put options on non-controlling interests may be exercised by the minority shareholders of Correval for a period of three months after the second and fourth year of acquisition. The call option on non-controlling interests may be exercised by BCP for a period of three months after the end of the second period established for the exercise of the put options. The put and call options on non-controlling interest are to be exercised at a price resulting from a formula fixed contractually; the formula considers the average income and average net worth of Correval obtained over a period of time, multiplied by fixed factors.

(c) The acquisition of Correval was recorded using the acquisition method, as required by IFRS 3 "Business Combinations". Assets and liabilities were recorded at their estimated fair values at the acquisition date, including the identified intangible assets unrecorded in Correval balance sheet.

The book values and fair values of assets and liabilities identified in Correval as of the acquisition date were as follow:

| | Book value S/.(000) | Recognition of fair value S/.(000) | Fair value of acquired entity S/.(000) |
|---|------------------------|--|--|
| Assets - | | | |
| Receivables from reverse repurchase | | | |
| agreements and security borrowing | 1,074,150 | - | 1,074,150 |
| Investments at fair value trough profit or loss | | | |
| and available-for-sale investments, net | 122,715 | - | 122,715 |
| Brand name | - | 40,152 | 40,152 |
| Client relationships | - | 31,490 | 31,490 |
| Fund manager contract | - | 71,863 | 71,863 |
| Other assets | 54,793 | - | 54,793 |
| Liabilites - | | | |
| Payables from repurchase agreements and | | | |
| security lending | 904,477 | - | 904,477 |
| Financial liabilities designated at fair value | | | |
| through profit or loss | 164,979 | - | 164,979 |
| Other liabilities | 73,271 | - | 73,271 |
| Liabilities for deferred income tax | - | 47,356 | 47,356 |
| Total identifiable net assets at fair value | 108,931 | 96,149 | 205,080 |
| Non-controlling interests | - | (118,292) | (118,292) |
| Goodwill from acquisitions | - | 104,133 | 104,133 |
| Net acquired assets | 108,931 | 81,990 | 190,921 |

Notes to the consolidated financial statements (continued)

The fair values of the identifiable intangible assets as of the acquisition date were determined using the income approach and based on the present value of the profits attributable to the asset or costs avoided as a result of owning the asset. Under this approach, the asset's fair value is determined by discounting cash flows at the rate that considers the relative risk of achieving the cash flows and the time value of money.

The following methods were used by Management to estimate fair values of identifiable intangible assets at the date of acquisition:

- For the valuation of brand name, the "Relief from Royalty" method was applied, which estimates the cash flows that the entity saves for royalty payments by owning a brand.
- For the valuation of client relationship and fund manager contract, the "Multi-Period-Excess-Earnings" method was applied, which calculates the residual cash flow after deducting intangible asset returns for all assets that contribute to the cash flow. These assets are called contribution charges.

In Management's opinion, said methods are generally accepted for the measurement of identifiable intangible assets in a business combination process.

The non-controlling interest as of the acquisition date was measured at fair value; which has been estimated considering the consideration paid and a discount for lack of control.

11. Deposits and obligations

(a) This item is made up as follow:

| | 2012 S/.(000) | 2011 S/.(000) |
|---|----------------------|----------------------|
| Non-interest bearing deposits and obligations - | | |
| In Peru | 17,195,713 | 15,015,375 |
| In other countries | 1,994,341 | 1,825,901 |
| | 19,190,054 | 16,841,276 |
| Interest bearing deposits and obligations - | | |
| In Peru | 35,931,036 | 27,845,181 |
| In other countries | 2,895,642 | 2,474,200 |
| | 38,826,678 | 30,319,381 |
| | 58,016,732 | 47,160,657 |
| Interest payable for deposits and obligations | 161,582 | 138,798 |
| Total | 58,178,314 | 47,299,455 |

Notes to the consolidated financial statements (continued)

The Bank and its Subsidiaries have established a policy to pay interests on demand deposits and savings deposits according to a sliding interest rate scale, based on the average balance maintained in those accounts. Additionally, according to such policy, it was established that accounts having balances lower than a determined amount for each type of account, do not bear interest.

Interest rates applied to the different deposits and obligations accounts are determined by the Bank and its Subsidiaries considering current interest rates in the markets where they develop their operations.

(b) As of December 31, 2012 and 2011, the balance of deposits and obligations by product is as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|------------------------------|----------------------|----------------------|
| Demand deposits | 19,289,681 | 16,924,036 |
| Saving deposits | 15,515,531 | 13,740,419 |
| Time deposits (d) | 17,096,859 | 11,391,297 |
| Severance indemnity deposits | 5,687,427 | 4,737,333 |
| Negotiable certificates | 427,234 | 367,572 |
| Total | 58,016,732 | 47,160,657 |

- (c) As of December 31, 2012 and 2011, approximately S/.19,278.1 million and S/.16,805.3 million, respectively of the deposits and obligations balances, are covered by the "Fondo de Seguro de Depósitos" (Deposit Insurance Fund). At those dates, the "Fondo de Seguro de Depósitos" covered up to S/.91,216.0 and S/.91,621.0, respectively.
- (d) The balance of time deposits classified by maturity is as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|-------------------------|----------------------|----------------------|
| Up to 3 months | 12,791,172 | 7,878,840 |
| From 3 months to 1 year | 3,332,551 | 2,906,650 |
| From 1 to 3 years | 544,770 | 605,807 |
| From 3 to 5 years | 428,345 | - |
| More than 5 years | 21 | - |
| Total | 17,096,859 | 11,391,297 |

Notes to the consolidated financial statements (continued)

12. Due to banks, correspondents and other entities

(a) This item is made up as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|--|----------------------|----------------------|
| By type - | | |
| Due to banks and correspondents with foreign financial | | |
| institutions (b) | 5,255,330 | 4,376,088 |
| Due to related parties (c) | 3,062,010 | 2,537,733 |
| Promotional credit lines (d) | 819,504 | 651,991 |

| Interest payable | 42,489 | 31,446 |
| Total | 9,179,333 | 7,597,258 |

(b) As of December 31, 2012 and 2011, it includes loans to finance foreign trade operation and for working capital. This item is made up as follow:

| Entities | 2012 S/.(000) | 2011 S/.(000) |
|--|----------------------|----------------------|
| Syndicated Ioan (i) | 971,808 | 1,337,412 |
| Deutsche Bank AG | 393,110 | 328,047 |
| China Development Bank | 380,261 | 401,367 |
| JP Morgan Chase Bank | 331,673 | - |
| Standard Chartered Bank | 331,582 | - |
| Cobank | 296,662 | 129,147 |
| Bank of America N.A. | 280,500 | 257,860 |
| Citibank N.A. | 268,745 | 256,034 |
| Bank of New York Mellon | 252,450 | 134,800 |
| Toronto Dominion Bank | 249,900 | 229,160 |
| Sumitomo Mitsui Banking Corporation | 229,500 | 53,920 |
| Corporación Andina de Fomento - CAF | 216,750 | 539,200 |
| Banco Latinoamericano de Comercio Exterior | 153,000 | - |
| Wells Fargo Bank N.A. | 153,000 | 390,914 |
| Banco de la Nación del Perú | 120,000 | - |
| Others | 626,389 | 318,227 |
| Total | 5,255,330 | 4,376,088 |

⁽i) As of December 31, 2012, the balance includes two syndicated loans obtained from foreign financial entities in March 2011 and October 2010, amounting to US\$150.0 million, equivalent to S/.382.5 million and US\$233.3 million, equivalent to S/.595.0 million, respectively (Two syndicated loans

Notes to the consolidated financial statements (continued)

obtained from foreign financial entities amounting to US\$150 million, equivalent to S/.404.4 million and US\$350.0 million, equivalent to S/.943.6 million, as of December 31, 2011) with maturity in March 2014 and October 2013, respectively, with interest payments every semester at Libor 6M+1.75 percent. In addition, as of December 31, 2012, both syndicated loans amounting to S/.977.5 million, which are subject to variable interest rate risk, were hedged through IRS for the same notional amounts and maturities (S/.1,348.0 million as of December 31,2011); see Note 9(c); through IRS, the loans were economically converted to fixed rate.

As of December 31, 2012, the loans have maturities between January 2013 and February 2019 (Between January 2012 and December 2016 as of December 31, 2011) and accrued annual interests at rates that ranged between 0.68 and 10.00 percent (between 0.69 and 10.50 percent as of December 31, 2011).

(c) As of December 31, 2012, due to related parties included: (i) loans at variable interest rates received from CCR Inc. and Atlantic Security Bank (ASB), amounting to US\$1,016.4 million, equivalent to S/.2,591.9 million and US\$55.5 million, equivalent to S/.141.5 million, respectively; and ii) a promissory note in favour of BCP Emisiones Latam 1 S.A. amounting to 2.7 million Unidades de Fomento Chilenas - UF, equivalent to S/.328.6 million (US\$753.5 million, equivalent to S/.2,031.3 million and US\$72.4 million, equivalent to S/.195.2 million and 2.7 million Unidades de Fomento Chilenas-UF, equivalent to S/.311.2 million, respectively, as of December 31, 2011). The debts with CCR Inc. generate interest at a rate of Libor 1M.

As of December 31, 2012, part of the cash flows of the loans at variable interest rates have been hedged through interest rate swaps (IRS), for a notional amount of S/.390.0 million (S/.591.2 million as of December 31, 2011); see Note 9(c); through said IRS, the loans were economically converted to fixed rate.

In addition, as of December 31, 2012 and 2011, the promissory note in favour of BCP Emisiones Latam 1 S.A., subject to exchange rate risk, has been hedged, as mentioned in Note 3(g), through cross currency swaps (CCS) for the same notional amounts and the same maturities, see Note 9(c); through CCS, this liability was economically converted to U.S. Dollars.

(d) Promotional credit lines represent loans received mainly from Corporación Financiera de Desarrollo (COFIDE) and from Fondo de Cooperación para el Desarrollo Social (FONCODES) to promote the development of Peru. As of December 31, 2012 and 2011, their annual interest rates ranged between 6.00 and 7.75 percent. These liabilities are secured by a loan portfolio for up to the amount of credit line used.

Notes to the consolidated financial statements (continued)

(e) As of December 31, 2012 and 2011, the balance of this caption, classified by maturity, is as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|-------------------------|----------------------|----------------------|
| Up to 3 months | 1,796,610 | 1,299,311 |
| From 3 months to 1 year | 2,003,493 | 1,305,950 |
| From 1 to 3 years | 2,419,821 | 2,366,668 |
| From 3 to 5 years | 1,487,876 | 1,276,590 |
| More than 5 years | 1,429,044 | 1,317,293 |
| | | |
| Total | 9,136,844 | 7,565,812 |

(f) Some due to banks, correspondents and foreign financial institutions include standard covenants concerning the fulfillment of financial ratios, specific agreements on how to use the funds received, the financial conditions that the Bank and its Subsidiaries must maintain, as well as other administrative matters. In Management's opinion, these specific agreements have been complied with by the Bank and its Subsidiaries as of December 31, 2012 and 2011.

Leasing and mortgage bonds are collateralized by the assets financed by the Bank.

As of December 31, 2012 and 2011, the Bank and its Subsidiaries, considering Note 3(g), hedged corporate bonds exchange rate and variable interest rate risk. Corporate bonds were hedged trough CCS and IRS, and were econom

International issuances are listed in the Luxembourg Stock Exchange. Likewise, local and international issuances mas of the dates of the consolidated balance sheets.

- (i) BCP can redeem in whole or in a part these notes at any time, with the penalty of the payment of an interest rate ec
- (ii) Starting April 24, 2022, the interest rate becomes a variable rate of Libor 3 months plus 704.3 basis points. Betwee equivalent to the American Treasury plus 50 basis points. Additionally, from April 25, 2022 or at any later date of control of the American Treasury plus 50 basis points.
- (iii) Starting September 16, 2021, the interest rate becomes a variable rate of Libor 3 months plus 770.8 basis points. I interest equivalent to the American Treasury plus 50 basis points. Additionally, from September 16, 2021 or at any or redemption.

Notes to the consolidated financial statements (continued)

- (iv) In October 2017, interest rate will be the average of at least three valuations on the market interest rate for sovereign bonds issued by the Peruvian Government (with maturity on 2037), plus 150 basis points, with semiannual payments. From such date, BCP can redeem 100 percent of the certificates, without penalty. Payment of principal will take place at the date of maturity or redemption. Cash flows of this debt, subject to foreign exchange risk and interest rate risk, were hedged, until October 2009, through CCS and IRS; at that date, the Group discontinued prospectively the combined cash flow hedge of CCS and IRS through their unwinding, see Note 9(c)(ii).
- (v) In November 2019, interest rate will be Libor 3 months plus 816.7 basis points. On that date and on any interest payment date, BCP can redeem 100 percent of the bonds, without penalty. Payment of principal will take place at the date of maturity or redemption.

This debt does not have collateral and qualifies as Tier 1 capital for SBS regulations.

- (vi) In November 2016, the interest rate will change to a floating interest rate, established as Libor plus 279 basis points, with semi-annual payments. From such date, BCP can redeem 100 percent of the certificates, without penalty. Payment of principal will take place at the date of maturity or redemption.
- (b) Bonds and notes issued classified by maturity are shown below:

| Non-taxable financial revenue | (6.78) | (6.67) |
| Effect of non-deductible expenses | | |
| Non-deductible financial expenses | 1.13 | 1.38 |
| Other non-deductible expenses | 1.87 | 1.40 |
| Income tax, current and deferred | 26.22 | 26.11 |

15. Equity

(a) Capital stock -

As of December 31, 2012, the Bank's capital stock comprises 3,102.9 million of fully subscribed and paid common shares (2,557.7 million shares, as of December 31, 2011 and 2010) with a nominal value of one Peruvian Nuevo Sol.

As of December 31, 2012, Credicorp and Grupo Crédito S.A. (a subsidiary of Credicorp) maintained 12.73 percent and 84.93 percent, respectively of the Bank's capital stock (12.73 percent and 84.92 percent, respectively as of December 31, 2011).

The General Shareholders Meeting held on August 21, 2012, approved the split of an equity block in favor of BCP Capital S.A.A. and a reduction of capital stock by approximately S/.85.0 million, decreasing an equivalent number of shares, Note 2(b). The split and reduction took place on November 1, 2012.

Notes to the consolidated financial statements (continued)

The General Shareholders Meetings held on March 30, 2012 and March 26, 2010, approved the capitalization of 2011 and 2009 retained income for an amount of S/.630.2 million and S/.329.5 million, respectively.

(b) Legal reserve -

Pursuant to legislation in force, the Bank must reach a legal reserve of at least 35 percent of its paid-in capital. This reserve is to be funded through an annual appropriation of at least 10 percent of its net income. As of December 31, 2012, the Bank has covered such legal request.

The General Shareholders Meeting held on August 21, 2012, approved the split of an equity block in favor of BCP Capital S.A.A. and a reduction of legal reserves by S/.29.8 million, see Note 2(b). The split and reduction took place on November 1, 2012.

The General Shareholders Meeting, held on March 30, 2012, approved the increase of the legal reserve by S/.220.6 million, through the appropiation of 2011 net income.

The Bank' Subsidiaries established in Peru and Bolivia must also record legal reserves in their individual financial statements, which percentages varies depending on applicable laws and economic activity. As of December 31, 2012, 2011 and 2010, the Subsidiaries' reported legal reserves amounted to approximately \$1.80.4, \$1.78.5 million and \$1.67.9 million, respectively.

(c) Special reserve -

The special reserve has been funded through the appropriation of accumulated results.

The General Shareholders Meetings held on March 31, 2011 and March 26, 2010, approved an increase of the special reserve for approximately S/.674.9 and S/.0.1 million, respectively, through the appropriation of 2010 and 2009 net income, respectively.

The General Shareholders Meeting held on March 26, 2010, approved the transfer of S/.348.7 million from the special reserve to the legal reserve.

Notes to the consolidated financial statements (continued)

(d) Unrealized gains (losses) -

The caption "Unrealized gains (losses)" includes the net unrealized gain (loss) from available-for-sale investments and from derivatives instruments used as cash flow hedge. The movement of the unrealized gain (loss) during 2012 and 2011, presented net of deferred income tax is as follows:

| | Unrealized g | | |
|--|--|---|--------------------------|
| | Investment available-for- sale S/.(000) | Derivative instruments used as cash flow hedge S/.(000) | Total S/.(000) |

| net of realized loss | (39,206) | - | (39,206) |
| Net unrealized loss on cash flow hedge | - | (25,555) | (25,555) |
| Transfer of realized loss from cash flow hedge | | | |
| to the income statement, net of realized gain | - | 4,924 | 4,924 |
| Deferred income tax | 66,629 | 4,764 | 71,393 |
| Adjustment of deferred workers' profit sharing | | | |
| Note 3(a)(ii)(ii.b) | 1,070 | (1,312) | (242) |
| Balances as of December 31, 2011 | 311,154 | (1,580) | 309,574 |
| Net unrealized gain from investments available- | | | |
| for-sale | 216,352 | - | 216,352 |
| Transfer of realized gain from investments | | | |
| available-for-sale to the income statement, | | | |
| net of realized loss | (60,982) | - | (60,982) |
| Net unrealized gain on cash flow hedge | - | 11,084 | 11,084 |
| Transfer of realized gain from cash flow hedge | | | |
| to the income statement, net of realized gain | - | (16,087) | (16,087) |
| Split of an equity block, Note 2(b) | (23,257) | - | (23,257) |
| Deferred income tax | (45,848) | (1,085) | (46,933) |
| Balances as of December 31, 2012 | 397,419 | (7,668) | 389,751 |

As of December 31, 2012, the Bank and its Subsidiaries maintain a net deferred income tax liability for S/.185.7 million, related to the unrealized gains and losses of investments available-for-sale and cash flow hedges (S/.138.8 million, as of December 31, 2011).

Notes to the consolidated financial statements (continued)

(e) Dividend distribution -

The General Shareholders Meetings held on March 30, 2012, March 21, 2011 and March 26, 2010, agreed to distribute dividends for approximately S/.588.3 million, S/.514.1 million and S/.595.0 million, respectively.

Under current legislation, there is no restriction for overseas remittance of dividends or repatriation of foreign investment. Individual persons and corporations not domiciled in Peru must pay an additional tax of 4.1 percent on dividends received, which must be retained and paid by the entity that distributes the dividends.

(f) Equity for legal purposes (Regulatory capital) -

According to Legislative Decree N°1028, regulatory capital must be equal to or more than 10 percent of total risk weighted assets and contingent operations, represented by the sum of: the regulatory capital requirement for market risk multiplied by 10, the regulatory capital requirement for operational risk multiplied by 10 and assets and contingent credits weighted by credit risk. As of December 31, 2012 and 2011, the Bank maintains the following amounts related to weighted assets and contingent credits by total risk and regulatory capital (basic and supplementary), in millions of Nuevos Soles:

| | 2012 | 2011 |
|--|-----------|-----------|
| Total risk weighted assets and credits | 60,662.81 | 49,557.35 |
| Regulatory capital | 8,929.25 | 7,201.55 |
| Regulatory capital - basic | 6,132.27 | 5,139.95 |
| Regulatory capital - supplementary | 2,796.97 | 2,061.60 |
| Global regulatory capital ratio | 14.72% | 14.53% |

As of December 31, 2012 and 2011, the Bank and its Subsidiaries have fulfilled the requirements of Resolutions N°2115-2009, N°6328-2009 and N°14354-2009, Regulations for the Requirement of Regulatory Capital by Operational Risk, Market Risk and Credit Risk Regulations, respectively, and amendments. Those resolutions establish, mainly, the methodology to be applied by financial entities in order to calculate assets and credits weighted for each type of risk.

On July 20, 2011, the SBS issued Resolution N°8425-2011 requiring an additional regulatory capital, which is the summatory of each of the following components: economic cycle risk, concentration risk, market concentration risk, interest rates risk and others. As of December 31, 2012 and 2011, in Management's opinion, the Bank has complied with the requirements of Resolution N°8425-2011.

Resolution SBS N°11823-2010, "Regulations on consolidated supervision of financial and mixed conglomerates" establishes that the economic group subject to consolidation must have a regulatory equity destined to cover the risks arising from the operations and activities of the

Notes to the consolidated financial statements (continued)

bank, which shall not be lower than the minimum equity required the group subject to consolidation. As of December 31, 2012 and 2011, the minimum requirement amounted to US\$3,367.7 million, equivalent to S/.8,587.6 million and US\$2,270.3 million, equivalent to S/.6,120.7 million, respectively. As of December 31, 2012 and 2011, the regulatory equity of the financial group subject to consolidation amounted to US\$3,660.7 million, equivalent to S/.9,334.5 million and US\$2,741.8 million, equivalent to S/.7,391.8 million, respectively.

16. Tax situation

(a) The Bank and its Subsidiaries are subject to corporate taxation on income of the country where they are established. As of December 31, 2012 and 2011, the statutory income tax rate was 30, 25 and 33 percent on taxable income for the Subsidiaries established in Peru, Bolivia and Colombia, respectively.

Enterprises and individuals not domiciled in Peru must pay a tax of 4.1 percent on dividends received from enterprises domiciled in Peru.

(b) Since 2011, the Income Tax Law was amended by Law No29645, stating that interest and other income generated by foreign loans granted to the Peruvian National Public Sector, must also be included as an item exempted from the Income Tax.

Moreover, Law No29663, subsequently amended by Law No29757, established that are to be considered Peruvian source income those obtained through the indirect sale of capital stock of companies domiciled in Peru.

For that purpose, it must be considered that there is an indirect sale when capital stock or representatives shares of capital stock of a legal entity not domiciled in Peru is sold and; at the same time, said entity is owner, directly or through one or more entities, of capital stock or representatives shares of capital stock of an entity domiciled in Peru, provided that certain conditions are met. In this regard, it also defines the circumstances in which the issuer is jointly liable.

Finally, through Law No29966, the exemption of the VAT over the interest resulting from securities issued trough public offer by legal entities established in Peru, as long as the issuance is made in accordance to the Securities Market Law, approved by Legislative Decree N°861, or by the Investment Fund Law, approved N°862, was extended until December 31, 2015.

Notes to the consolidated financial statements (continued)

- (c) For income tax and value added tax purposes, the transfer prices agreed in transactions between related parties and with entities located in tax havens, require the presentation of supporting documentation and information on the valuation methods and criteria applied for the agreed price. Based on the analysis of the Bank and its Subsidiaries operations, Management and its internal legal advisors consider that no significant contingencies will result for the Bank and its Subsidiaries as a consequence of the application of such provisions for fiscal year 2012 and 2011.
- (d) The Peruvian Tax Authority is entitled to review and, if applicable, amend the annual income tax returns of the Bank and its subsidiaries established in Peru up to four years after their submission. The Bolivian and Colombian Tax Authorities are entitled to review and, if applicable, amend the annual income tax returns of the subsidiaries located on these countries up to four and two years, respectively, after their submission.

The income tax returns which are pending to be reviewed by the Tax Authority are the following:

| Banco de Crédito del Perú | 2009-2012 |
|-----------------------------|-----------|
| Banco de Crédito de Bolivia | 2008-2012 |
| Correval S.A. | 2010-2012 |
| Edyficar | 2008-2012 |

The Peruvian Tax Authority is conducting a review of the 2008 income tax return of the Bank. The Bolivian Tax Authority is conducting a review of the 2007 and 2008 income tax returns of Banco de Credito de Bolivia.

Since tax regulations are subject to interpretation by the Tax Authorities it is not possible to determine up to date whether the reviews will generate additional liabilities for the Bank and its Subsidiaries. Therefore, any unpaid tax, penalties or interests that might result from said reviews will be expensed in the year in which they are determined. Nevertheless, Management of the Bank and its Subsidiaries and their legal advisors consider that any additional tax assessments would not have a significant impact on the 2012 and 2011 consolidated financial statements.

Notes to the consolidated financial statements (continued)

17. Share-based payments

(a) Stock appreciation rights of Credicorp Ltd. -

As indicated in Note 3(p), the Bank and its Subsidiaries granted appreciation rights in the form of options over Credicorp's stock (SARs) to certain executives who had at least one year serving the Group. The SARs expire up to 2014.

As of December 31, 2012 and 2011, the number of SARs issued and not exercised and their prices are as follows:

| Year of | of outstanding SARs issued as of December 31, 2012 | | vested SARs ember 31 | | rcise |
|---------|--|---------|-------------------------|--------------|---------------------|
| | | 2012 | 2011 | 2012 US\$ | 2011 US\$ |
| 2004 | - | - | 40,000 | 7.09 | 8.39 |
| 2005 | 5,000 | 5,000 | 40,000 | 12.10 | 13.40 |
| 2006 | 40,000 | 40,000 | 45,000 | 21.42 | 22.72 |
| 2007 | 30,450 | 30,450 | 37,118 | 21.42 | 22.72 |
| 2008 | 32,618 | 32,618 | 49,362 | 21.42 | 22.72 |
| | 108,068 | 108,068 | 211,480 | | |

Management has estimated the SARs' fair value as of December 31, 2012 and 2011, using a binomial option pricing model, with assumptions obtained from the relevant available market information. The key assumptions used are as follows:

| Key assumptions | 2012 | 2011 |
|----------------------------------|------------|------------|
| Expected volatility | 37.23% | 39.05% |
| Risk free interest rate | 3.08% | 2.46% |
| Expected lifetime | 1.20 years | 1.68 years |
| Quoted price of Credicorp shares | US\$146.56 | US\$109.47 |

Notes to the consolidated financial statements (continued)

The movements of the SAR's for the years ended December 31, 2012 and 2011, are as follows:

| | 2012 | | | 2011 | | |
|-----------------------------|------------------------------|-----------|---------------------|-----------|-----------|------------------------|
| | Outstanding SARs Vested SARs | | Outstanding SARs | Veste | d SARs | |
| | Number | Number | Amount S/.(000) | Number | Number | Amount S/.(000) |
| Balances as of January 1 | 211,480 | 211,480 | 51,498 | 730,719 | 716,662 | 200,332 |
| Granted and vested | - | - | - | - | 12,228 | 2,860 |
| Exercised | (103,412) | (103,412) | (33,586) | (517,410) | (517,410) | (115,038) |
| Write-downs | - | - | - | (1,829) | - | - |
| Increase (decrease) in fair | | | | | | |
| value | | | 16,756 | | | (36,656) |
| Balance as of December 31 | 108,068 | 108,068 | 34,668 | 211,480 | 211,480 | 51,498 |

As of December 31, 2012, the liability recorded for this plan and the income tax assumed by the Bank and its Subsidiaries (equivalent to 30 percent of the amount paid) amounts to S/.34.7 million and S/.10.4 million, respectively (S/.51.5 million and S/.15.4 million, respectively, as of December 31, 2011) which are included in "Share-base payments" and "Tax payable", respectively, in the caption "Other liabilities, net" of the consolidated balance sheets, see Note 9(a).

Additionally, the valuation of the plan at said date resulted in a loss, net of income tax assumed by the Bank and its Subsidiaries amounting to S/.23.3 million (gain net of income tax for S/.34.5 million as of December 31, 2011), which has been recorded in the caption "Salaries and employee's benefits" of the consolidated statements of income; Note 24.

The Bank has signed several contracts with Citigroup and Calyon by which it has acquired certificates linked to the yield of Credicorp's shares, Note 9(b).

(b) Payments through Credicorp shares

As indicated in Note 3(p), on March or April of each year, the Bank and its Subsidiaries grant Credicorp shares ("stock awards") to certain executives, which are settled through delivery of Credicorp shares ("share-based payment plan settled in equity instruments"). Shares granted vest 33.3 percent in each one of the subsequent three years. In order to execute the plan, at the date the plan is communicated, all shares needed to settle the plan are purchased and legally delivered to the beneficiaries. However, they are maintained as restricted until their vesting.

Notes to the consolidated financial statements (continued)

As indicated in Note 3(p), until 2011 the expense recognized for this plan was the amount disbursed to purchase the shares that were legally delivered to the beneficiaries, plus the related income tax assumed by the Bank and its Subsidiaries. The expense was recorded at the moment the shares were purchased.

For the year ended December 31, 2011, the Bank and its Subsidiaries purchased and legally delivered 134,338 shares; the expense recorded amounted to S/.42.5 million, which is presented in the caption "Salaries and employee benefits" of the consolidated income statement, Note 24.

In the year 2012, 108,859 shares were legally delivered, of which 55,437 vested as of December 31, 2012. Due to the change in accounting treatment, described in Note 3(p), this resulted in an expense of S/.24.9 million (including taxes for S/.6.0 million), which is presented in "Salaries and employee benefits" of the consolidated income statement, Note 24.

As of December 31, 2012, the liability recorded for this plan amounts to S/.18.3 million, which is included as "Share-based payments" in the caption "Other liabilities, net" of the consolidated balance sheet, Note 9 (a).

Although shares were legally delivered to the beneficiaries, they remain as "restricted investment" in the caption "Off-balance sheet accounts" of the consolidated balance sheet until they vest and are also presented as investments available-for-sale.

18. Commitments and contingencies

(a) Commitments -

The Bank's Panamanian Branch maintains several agreements with a foreign related party, CCR Inc., by which it guarantees the collection of future inflows from electronic messages sent through the Society for Worldwide Interbank Financial Telecommunications ("SWIFT") to the Bank and utilized within the network to instruct correspondent banks to make a payment of a certain amount to a beneficiary that is not a financial institution. For these transactions the related party obtained several loans, which are secured by the above mentioned future inflows; the amounts of the loans received are the following:

| Year of issuance | Loan amount US\$ (million) | Maturity |
|-----------------------|-------------------------------|----------|
| 2006 - Series A | 22.4 | 2016 |
| 2008 - Series A and B | 153.3 | 2015 |
| 2010 - Series B | 41.4 | 2016 |
| 2010 - Series C | 279.2 | 2017 |
| 2010 - Series D | 66.9 | 2014 |
| 2012 - Series A and B | 149.0 | 2017 |
| 2012 - Series C | 312.8 | 2022 |
| | 1,025.0 | |

Notes to the consolidated financial statements (continued)

As of December 31, 2012 and 2011, the funds obtained by CCR Inc. were transferred to the Panamanian branch trough loans, see Note 12(c).

On November 2009 a contract with a foreign related party was entered into, by which it is guaranteed, through a promissory note signed by the Bank, the payment of principal to the holders of bonds issued in Unidades de Fomento Chilenas - UF through the Santiago de Chile Stock Exchange, by the foreign related party. The bonds issued, named "Bonos Desmaterializados al Portador - Serie A", amounted to 2.7 million Unidades de Fomento Chilenas - UF, equivalent to S/.328.6 million and S/.311.2 million as of December 31, 2012 and 2011, respectively, with maturity on October 2014, see Note 12(c).

The loans obtained and the bonds issued by the related parties include covenants which, in Management's opinion, have been fulfilled as of December 31, 2012 and 2011.

(b) Contingencies -

As of December 31, 2012 and 2011, the Bank and its Subsidiaries have several pending legal claims, related to their normal course of business. According to Management and its internal legal advisors no additional liabilities will result from these legal claims; therefore, Management has not considered necessary to record an additional allowance for these contingencies, Note 9(g).

Notes to the consolidated financial statements (continued)

19. Off-balance sheet accounts

(a) This item is made up as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|--|-------------------------|----------------------|
| Contingent operations (indirect loans) (b) - | | |
| Guarantees and stand-by letters of credit | 9,982,046 | 8,387,916 |
| Import and export letters of credit | 1,488,381 | 1,620,338 |
| Due from bank acceptances | 256,959 | 166,331 |
| | 11,727,386 | 10,174,585 |
| Derivative instruments, Note 9(c) - | | |
| Derivatives held for trading - | | |
| Foreign currency forward contracts on Nuevo Sol, see | | |
| Note 4: | | |
| Foreign currency purchases | 6,036,249 | 4,840,599 |
| Foreign currency sales | 6,864,577 | 3,945,435 |
| Foreign currency forward contracts on currencies, other | | |
| than Nuevo Sol | 483,693 | 529,523 |
| Interest rate swap contracts | 2,991,020 | 1,860,494 |
| Currency swap contracts, see Note 4: | | |
| Foreign currency delivery/ Nuevo Sol reception | 677,753 | 606,732 |
| Nuevo Sol delivery/ Foreign currency reception | 510,009 | 187,290 |
| Foreign currency delivery/ Foreign currency reception | 241,299 | - |
| Foreign currency options | 242,985 | 173,040 |
| Derivatives held as hedge - | | |
| Interest rate swap contracts | 2,013,963 | 2,084,892 |
| Cross currency swap contracts on Nuevo Sol, see Note 4: | | |
| Foreign currency delivery/ Nuevo Sol reception | 226,923 | - |
| Cross currency and interest rate swap contracts in respect | | |
| with Nuevo Sol, see Note 4 | 153,301 | 221,680 |
| Cross currency swap contracts on currencies other than | | |
| Nuevo Sol | 429,717 | 311,208 |
| | 20,871,489 | 14,760,893 |
| Responsibilities under credit line agreements (c) | 10,210,169 | 9,504,383 |
| Other contingent operations | 135,093 | 7,358 |
| Total contingent operations | 42,944,137 | 34,447,219 |

Notes to the consolidated financial statements (continued)

| | 2012 S/.(000) | 2011 S/.(000) |
|--|----------------------|-------------------------|
| Other Off-balance sheet accounts | | |
| Securities in custody | 54,425,570 | 49,845,259 |
| Guarantees received (d) | 88,680,884 | 72,579,557 |
| Debt instruments under collection | 7,837,155 | 7,950,969 |
| Securities granted as guarantees | 4,414,094 | 3,941,592 |
| Written-off loans | 4,513,647 | 3,890,295 |
| Trusts (e) | 4,155,945 | 3,024,900 |
| Advised letters of credit | 2,879,669 | 2,327,657 |
| Insurance coverage | 902,359 | 954,024 |
| Other | 102,301,547 | 40,988,231 |
| Total other off-balance sheet accounts | 270,110,870 | 185,502,484 |
| Total | 313,055,007 | 219,949,703 |

(b) In the normal course of its business, the Bank and its Subsidiaries perform contingent operations. These operations expose them to credit risk in addition to the amounts recognized in the consolidated balance sheets. The Bank's exposure to losses under commitments to extend credit, provide export and import letters of credit and guarantees (indirect loans) is represented by the contractual amounts specified in the related contracts.

The Bank and its Subsidiaries apply the same credit policies in making commitments and conditional obligations as they do for on-balance sheet instruments, including the requirement to obtain collateral to support off-balance sheet financial instruments when it is deemed necessary. Collateral held varies, but it may include deposits held in financial institutions, securities or other assets.

Because most of the contingent transactions are expected to expire without any performance being required, the total committed amounts do not necessarily represent future cash requirements.

Export and import letters of credit are mainly issued as credit enhancements for overseas trade transactions. The related credit risk is reduced by the participation of third parties.

Due from bank on acceptances represent collection rights for the Bank and it's Subsidiaries that arise at the time of negotiation of the letters of credit; a collection right from the local importer (in the case of imports) or a collection right from the correspondent bank (in the case of exports).

Notes to the consolidated financial statements (continued)

- (c) Responsibilities under credit lines agreements do not correspond to commitments to grant credits and include lines of credit of consumer credit, micro-business, small business, medium business and corporate, that are cancellable upon notification to the client.
- (d) The balance of the caption "Guarantees received" is stated at the amounts of the guarantee agreed as of the date of the loan contract. This balance does not necessarily represent the market value of guarantees received by the Bank and its Subsidiaries.
- (e) The Bank and its Subsidiaries provide custody, trust, corporate administration, investment management (asset management) and consulting services to third parties and, mutual funds and asset securitization's management, which imply that the Bank and its Subsidiaries are involved in decisions over consignation (distribution), and the purchase and sale of these products. Assets kept as trust are not included in the accompanying consolidated financial statements.

20. Financial income and expenses

These items are made up as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|--|-------------------------|----------------------|
| Financial income | 5, 1, 2, | 2,1(2.2.) |
| Interest from loan portfolio | 4,998,967 | 4,109,775 |
| Interest from trading, available-for-sale and held-to-maturity | .,,,,,,,, | .,2057 0 |
| investments, net | 431,980 | 345,793 |
| Interest from cash and due from banks and inter-bank funds | 103,298 | 115,700 |
| Net fluctuation from derivative financial instruments position - | | |
| swaps | 56,040 | 45,355 |
| Commissions on loan portfolio and other transactions | 23,998 | 41,389 |
| Other | 5,906 | 29,272 |
| | 5,620,189 | 4,687,284 |
| Financial expenses | | |
| Interest and commissions on deposits and obligations | (622,448) | (511,006) |
| Interest on bonds and subordinated notes issued | (572,929) | (468,956) |
| Interest on due to banks and correspondents and other entities | (350,653) | (321,510) |
| Deposit Insurance Fund fee | (79,831) | (67,891) |
| Net result from hedging derivatives instruments | (16,087) | (21,080) |
| Net fluctuation from derivative financial instruments position - | | |
| forwards and options | (24,166) | (499) |
| Other | (33,218) | (38,318) |

| Balance, net | 1,623,399 | 1,446,191 |

Notes to the consolidated financial statements (continued)

22. Net gain on securities

This item is made up as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|--|-------------------------|----------------------|
| Net gain from purchase and sale of securities | 60,982 | 40,761 |
| Participation in income of investments in associates | 11,084 | 14,142 |
| Net gain from valuation of investments at fair value through | | |
| profit or loss (trading) | 29,887 | 7,723 |
| Other, net | 1,963 | (944) |
| Total | 104,636 | 61,682 |
| 23. Other non-financial income and other operating expenses | | |
| These items are made up as follows: | | |
| | 2012 S/.(000) | 2011 S/.(000) |
| Other non-financial income | | |
| Recoveries of loans previously written-off | 108,211 | 96,958 |
| Net gain from sales of seized assets | 8,243 | 12,950 |
| Recovery of previous years interest and allowances | 6,940 | 7,559 |
| Gain from indexed certificates, Note 9(b) | 30,236 | - |
| Other | 65,251 | 59,733 |
| Total | 218,881 | 177,200 |
| Other operating expenses | | |
| Loss from indexed certificates, Note 9(b) | - | (50,318) |
| Provision for legal claims | (24,801) | (21,804) |
| Provision for uncollectable receivables | (14,489) | (14,703) |
| Maintenance of seized assets | (1,514) | (1,276) |
| Provision for sundry risks | (362) | (314) |
| Other | (23,904) | (10,166) |
| Total | (65,070) | (98,581) |

Notes to the consolidated financial statements (continued)

24. Salaries and employees' benefits

This item is made up as follows:

| | 2012 | 2011 |
|--|-----------|-----------|
| | S/.(000) | \$/.(000) |
| Salaries | 747,455 | 651,610 |
| Vacations, medical assistance and others | 310,245 | 231,452 |
| Employees' bonds | 125,668 | 118,204 |
| Legal gratifications | 135,571 | 117,667 |
| Workers' profit sharing | 93,944 | 88,105 |
| Social security | 93,564 | 80,734 |
| Severance indemnities | 72,125 | 62,144 |
| Share-based payment plans | | |
| Shares (second plan), Note 17(b) | 24,855 | 42,455 |
| SARs (first plan), Note 17(b) | 23,336 | (34,517) |
| Total | 1,626,763 | 1,357,854 |
| Number of employees | 22,330 | 18,616 |

Notes to the consolidated financial statements (continued)

25. Earnings per share

As of December 31, 2012, 2011 and 2010, the weighted average of outstanding shares was calculated as follows:

| | Outstanding shares (in thousands) | Shares for the calculation (in thousands) | Effective days before year end | Weighted outstanding average of shares (in thousands) |
|--|---|---|--------------------------------------|---|
| 2010 | | | | |
| Balances as of January 1, 2010 | 2,228,288 | 2,228,288 | 365 | 2,228,288 |
| Capitalization of income in 2010 | 329,450 | 329,450 | 365 | 329,450 |
| Capitalization of income in 2012 | - | 630,159 | 365 | 630,159 |
| Balances as of December 31, 2010 | 2,557,738 | 3,187,897 | | 3,187,897 |
| 2011 | | | | |
| Balances as of January 1, 2011 | 2,557,738 | 2,557,738 | 365 | 2,557,738 |
| Capitalization of income in 2012 | - | 630,159 | 365 | 630,159 |
| Balances as of December 31, 2011 | 2,557,738 | 3,187,897 | | 3,187,897 |
| 2012 | | | | |
| Balances as of January 1, 2012 | 2,557,738 | 2,557,738 | 365 | 2,557,738 |

| Reduction due to split of an equity block, | | | | |
| Note 2(b) | (85,000) | (85,000) | 61 | (14,205) |
| Balances as of December 31, 2012 | 3,102,897 | 3,102,897 | | 3,173,692 |

26. Risk Assessment

The Bank and its Subsidiaries' activities are mainly related to the use of financial instruments including derivatives. The Bank and its Subsidiaries accept deposits from their customers at both fixed and floating rates and with different terms, with the intention of obtaining profit from interest margins by investing those funds in high-quality assets.

The Bank and its Subsidiaries seek to increase these margins by consolidating its short-term funds and lending at longer periods at higher rates, while maintaining sufficient liquidity to comply with any withdrawals that may be made.

Notes to the consolidated financial statements (continued)

The Bank and its Subsidiaries seek to raise its interest margins by obtaining above average margins, net of provisions, through lending to commercial and retail borrowers with a range of credit standings. The exposure not only includes loans and non-contingent advances but also any other indirect loans, such as credit letters and stand-by letters of credit.

The Bank and its Subsidiaries also trade financial instruments in the stock and over-the-counter markets, including derivative financial instruments, for benefiting from the short term movements in market values of financial instruments, and the fluctuations of exchange and interest rates.

Management establishes limits to the Group's exposure to market positions for daily and overnight operations. The exposure to exchange and interest rates related to these operations is normally offset and controlled through the fluctuations in the net cash amounts required to settle market positions.

Market risks -

The Bank and its Subsidiaries are exposed to market risk, which is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in interest rates, currency, commodities and equity products; all of which are exposed to general and specific market movements and changes in the level of volatility of prices such as interest rates, exchange rates and equity prices. Due to the nature of the Bank and its Subsidiaries current activities, commodity price risk is not applicable.

The Bank and its Subsidiaries separate exposures to market risk into two groups: (i) those that arise from value fluctuation of trading portfolios due to movements of market rates or prices (Trading Book) and (ii) those that arise from changes in the structural positions of non-trading portfolios due to movements of the interest rates, prices and exchange ratios (ALM Book).

Trading portfolios includes those liquid positions arising from market-making transactions where the Bank and its Subsidiaries act as principal with clients or with the market. Non-trading portfolios include: (a) relatively illiquid positions, mainly banking assets and liabilities (deposits and loans) and; (b) non-trading investments (available-for-sale).

The risks that trading portfolios face is managed through Value at Risk (VaR) historical simulation techniques; while non-trading portfolios are managed using Asset Liability Management (ALM) techniques.

The daily market Value at Risk (VaR) is an estimate of the maximum potential loss that might arise if current positions were to be held unchanged for one trading session, taking into account a specific confidence level. The measurement is structured so that daily losses exceeding the VaR occur, on average, not more than one trading sessions out of one hundred. Actual outcomes are monitored regularly to test the validity of the assumptions and parameters used in the VaR calculation.

Notes to the consolidated financial statements (continued)

Management of the risks associated with long-term and structural positions is called Asset and Liability Management (ALM). Non-trading portfolios are exposed to different sensitivities that can generate a deterioration in the value of the assets compared to its liabilities and hence to a reduction of its net worth. The sensitivities to which the portfolio is exposed are of interest rate and exchange rate type, and management of re-pricing gaps.

In addition, the subsidiary Correval has made short sales with debt instruments which have maturities of up to 1 month. Minimal fluctuations are expected to affect the prices of short sales, independently of those derived from interest rate risk or credit risk. Consequently, the Bank and its Subsidiaries are not subject to significant risk in the price of these transactions.

Liquidity risk -

The Bank and its Subsidiaries are exposed to daily calls on its available cash resources from overnight deposits, current account, maturing deposits, loans drawdown, guarantees and other. The Bank and its Subsidiaries do not maintain cash resources to meet all of these needs, because experience shows that a minimum level of reinvestment of maturity funds can be predicted with high level of certainty. The Bank and its Subsidiaries' Management sets limits on the minimum proportion of funds available to meet such calls and the minimum level of interbank and other borrowing facilities that should be in place to cover withdrawals at unexpected levels of demands.

The matching and controlled mismatching of the maturities and interest rates of assets and liabilities is fundamental to the Bank and its Subsidiaries Management. It is unusual for banks to be completely matched, as transacted business if often based on uncertain terms and of different types. An unmatched position potentially enhances profitability, but also increases the risk of losses.

The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest-bearing liabilities as they mature are important factors in assessing the Group's liquidity and its exposure to changes in interest and exchange rates.

Liquidity requirements to support calls under guarantees and standby letters of credit are considerably lower than the committed amount, because the Bank and its Subsidiaries do not expect the third party do not comply with their agreement. The total outstanding contractual amount of commitments to extend credit not necessarily represents future cash requirements, as many of these commitments will expire without being funded.

The notes to the consolidated financial statements include an analysis of the Bank and its Subsidiaries' main assets and liabilities by maturity, based on contractual maturity dates.

Notes to the consolidated financial statements (continued)

Interest rate risk -

The Bank and its Subsidiaries are exposed to the effect of fluctuations in the prevailing levels of market interest rates on both its fair value and cash flow risks. Interests margins may increase as a result of such changes, but may reduce or create losses in case of unexpected movements. Management of the Bank and its Subsidiaries sets limits on the level of mismatch of interest rate repricing that may be undertaken, which is monitored periodically.

Loans, investments, customer deposits and other financing instruments are subject to risk derived from interest rate fluctuations. The relevant contract maturity characteristics and interest rates of such financial instruments are disclosed in Notes 6, 7, 11, 12 and 13. The Bank and its Subsidiaries use derivative financial instruments to hedge the risk of fluctuations in interest rates, see Note 9(c).

Currency risk -

The Bank and its Subsidiaries are exposed to effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. Management sets limits on the level of exposure by currency and in total for both overnight and intra-day positions, which are monitored daily.

Most assets and liabilities are maintained in Nuevos Soles and U.S. Dollars. Foreign currency transactions are made at the free market exchange rates of the countries where the Bank and its Subsidiaries are established. As of December 31, 2012 and 2011, the Bank and its Subsidiaries' assets and liabilities by currencies are shown in Note 4. Likewise, as indicated in Note 9(c), the Bank and its Subsidiaries have used derivative financial instruments to partially hedge this risk, considering Credicorp Ltd. functional currency.

Credit risk -

The Bank and its Subsidiaries are exposed to credit risk, which is the risk that the counterparty is unable to pay amounts in full when due. The Bank and its Subsidiaries provide impairment provisions for losses that have been incurred at the consolidated balance sheet date. Significant changes in the economy or in a particular industry segment, that represents a concentration in the Bank and its Subsidiaries' portfolio, could result in losses that are different from those provided for at the consolidated balance sheet date. Therefore, Management manages its exposure to credit risk carefully.

Notes to the consolidated financial statements (continued)

The Bank and its Subsidiaries structure the levels of credit risk that they undertake by placing limits on the amount of risk accepted in relation to one borrower or one group of borrowers, and to geographical and industry segments. Such risks are monitored on a revolving basis and subject to an annual or more frequent review. Limits in the level of credit risk by product, industry sector and by country are approved by the Board of Directors.

Exposure to credit risk is managed through regular analyses of the ability of borrowers and potential borrowers to meet interest and capital repayment obligations and by changing these lending limits when appropriate.

Exposure to credit risk is also managed, in part, by corporate and personal guarantees, which is a common practice. The Bank and its Subsidiaries implement policies on the acceptability of specific classes of collateral or credit risk mitigation. For loans and advances, collaterals include, among other, mortgages over residential properties, liens over business assets such as premises, inventory and accounts receivable, as well as charges for financial instruments as securities for debt and equity securities. Also, loans and long-term financing to corporate entities are generally secured.

Moreover, personal credit lines and loans to microbusiness generally are not guaranteed.

In the case of repurchase agreements and securities lending, they are secured by debt instruments and equity instruments.

Furthermore, in order to minimize credit losses, the Bank requires additional guarantees, as soon as counterparty impairment indicators are observed.

For credit risk management in repurchase agreements and securities lending, which are made primarily by Correval, credit limits for each counterparty have been placed; also, most transactions are secured with investment grade financial instruments issued by the Colombian Government and by Colombian entities.

As of December 2012 and 2011, Management of the Bank and its Subsidiaries have estimated that their maximum exposure to credit risk is represented by the book value of the financial assets that presents credit risk, which comprise, mainly, deposits in banks, trading securities, investments available-for-sale, investments at fair value through profit or loss, investments held-to-maturity, payables from repurchase agreements and security lending, financial instruments at fair value, loans and indirect loans, without considering the fair value of the guarantees and collaterals received. The exposure to each borrower, including banks, is further restructured by sub-limits covering on and off balance sheet exposures, and daily delivery risk limits to trading items such as forward foreign exchange contracts. Real exposures compared against established limits are monitored daily.

Notes to the consolidated financial statements (continued)

27. Fair value

Fair value is defined as the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's length transaction, on an on-going basis.

When a financial instrument is traded in an active and liquid market, its quoted market price in an actual transaction provides the best evidence of its fair value. When a quoted market price is not available, or may not be indicative of the fair value of the instrument, to determine such fair value, the current market value of another instrument that is substantially similar, discounted cash flow analysis or other estimation techniques may be used, all of which are significantly affected by assumptions used. Although Management uses its best judgment in estimating the fair value of these financial instruments, there are inherent weaknesses in any estimation technique. As a result, the estimated fair value may not be indicative of the net realizable or liquidation value.

The methodologies and assumptions used to determine fair value depend on the terms and risk characteristics of the various financial instruments and include the following:

- Cash and due from banks represent cash and short-term deposits that do not represent significant credit or interest risks; in consequence, their book value is equivalent to their fair value.
- Available for sale and fair value through profit or loss investments are recorded at their estimated fair value; in consequence, their book and fair values are the same.
- The fair value of investments held-to-maturity, which are recorded in the Bank's consolidated financial statements at amortized cost, was determined by comparing the market interest rates at the time of initial recognition with current market rates for similar financial instruments, and is presented in Note 6(I).
- Loans fair value is similar to its book value because loans are mainly short-termed and/or accrue interest rates that can be readjusted when market conditions change; and are presented net of their respective allowance for loan losses. The net amounts are considered by Management as the approximate recoverable amounts at the dates of the consolidated financial statements.
- Management considers that the book values of investments in associates approximates to their fair value, because most of them are not listed securities and are recorded at their equity value.
- The repurchase agreements correspond to financial assets and liabilities which most of them generate interests at variable rates, so it is considered that book values do not differ significantly to their respective fair values.

Notes to the consolidated financial statements (continued)

- Financial instruments at fair value and derivative financial instruments, included in the caption "Other assets, net" and "Other liabilities, net" are recorded at their estimated fair value.
- The fair value of deposits and obligations is similar to its book value due, mainly, to their current maturities and interest rates, which are comparable to other similar liabilities in the market at the dates of the consolidated balance sheets.
- Due to banks and correspondents generate interest contracted at variable interest rates and/or preferred rates similar to the ones prevailing in the market. As a result, it is considered that their book value does not differ significantly from their fair value.
- Bonds and subordinated notes accrue interest at fixed or variable rates. Their fair value has been estimated using discounted cash flows at rates prevailing in the market for liabilities with similar characteristics; the estimated fair value approximates the book value as of the consolidated balance sheets dates.
- As disclosed in Note 19, the Bank and its Subsidiaries have several commitments to extend loans, open documentary credits and outstanding guarantees and it has received guarantees as endorsement of the granted loans. Based on the level of fees currently charged for granting such commitments and open documentary credits; taking into account maturity and interest rates, together with the present creditworthiness of the counterparties, the Bank and its Subsidiaries have estimated that the difference between the book value and the fair value is not significant.

Following the considerations detailed above, as of December 31, 2012 and 2011, Management considers that the estimated fair values of the Bank and its Subsidiaries financial instruments do not differ significantly from their book value.

Notes to the consolidated financial statements (continued)

28. Financial information by geographical area

As of December 31, 2012 and 2011, segment information by geographical area is as follows (amounts expressed in million

| | | | 2012 | | |
|--------------------------|---------------------|---------------------------|-------------------------------------|--|-----------|
| | Total income (*) | Gross financial margin | Depreciation and amortization | Property, furniture and equipment, net | Total ass |
| Peru | 7,018 | 3,714 | 264 | 1,202 | 73,90 |
| Panama | 649 | 71 | - | - | 11,73 |
| Bolivia | 268 | 131 | 10 | 35 | 3,58 |
| United States of America | 24 | 13 | | | 1,17 |
| | 7,959 | 3,929 | 274 | 1,237 | 90,39 |

^(*) Includes the total financial and non-financial income.

Due to the transfer process explained in Note 2(a), the financial information of the Colombian geographical segment is presented

Notes to the consolidated financial statements (continued)

29. Transactions with related parties

(a) During the years 2012 and 2011, the Bank and its Subsidiaries have acquired bonds, granted loans, supplied and received several services, correspondent relationships and other operations with Credicorp' Subsidiaries, which balances are shown below:

| | 2012 S/.(000) | 2011 S/.(000) |
|--|-------------------------|-------------------------|
| Assets - | | |
| Cash and due from banks | 28,475 | 25,851 |
| Loans, net | 100,932 | 84,374 |
| Investments available-for-sale (Credicorp' shares) Note 6(a) | | |
| and 17(b) | 36,192 | - |
| Other assets | 32,376 | 55,897 |
| | | |
| Liabilities - | | |
| Deposits and obligations | 477,118 | 436,030 |
| Due to banks, correspondents and other entities | 3,079,127 | 2,550,869 |
| Bonds and subordinated notes issued | 210,853 | 240,050 |
| Other liabilities | 22,843 | 13,317 |
| | | |
| Off-balance sheet | | |
| Contingent operations | 143,130 | 82,194 |
| Other off-balance sheet accounts | 880,489 | 1,010,005 |
| | | |
| Income - | | |
| Financial income | 5,584 | 9,125 |
| Financial expenses | 149,332 | 185,249 |
| Other income | 167,477 | 109,143 |
| Other expenses | 50,756 | 44,657 |

Loans and other contingent credits (indirect loans) with related entities, not Credicorp's Subsidiaries, are as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|---------------------------|------------------|----------------------|
| Direct loans | 1,143,299 | 695,806 |
| Indirect loans | 134,018 | 104,947 |
| Derivatives, market value | 4,673 | 4,020 |
| Deposits | 605,906 | 194,824 |

Notes to the consolidated financial statements (continued)

Likewise, as of December 31, 2012 and 2011, the Bank and its Subsidiaries hold debt or equity instruments, presented as investments available-for-sale and investments at fair value through profit or loss, issued by related entities for an amount of S/.4.5 million and S/.7.7 million, respectively.

The Bank has contracted insurance coverage with El Pacífico-Peruano Suiza Compañia de Seguros y Reaseguros (PPS), a Credicorp subsidiary; the related premiums amounted to S/.52.2 million in 2012 (S/.60.3 million in 2011); the accrued part is recorded in the caption "Administrative expenses" of the consolidated statements of income.

The Bank receives fees from Pacífico Vida S.A, a Credicorp subsidiary, for selling life insurance coverage through its offices to customers who have saving accounts; fees received amounted to approximately S/.8.2 million and S/.7.8 million in 2012 and 2011, respectively.

According to Peruvian legislation, loans to related parties cannot be granted on terms more favorable than those that would have been offered to the general public. Management considers that the Group has complied with all legal requirements for transactions with related parties. Loans granted to related parties are secured by guarantees and collaterals. Loans granted to related parties as of December 31, 2012, have maturities between January 2013 and August 2022 and accrued interest at interest rates that ranged between 1.3 and 35.7 percent (maturities between January 2012 and October 2019 and interest rates between 1.3 and 39.7 percent, as of December 31, 2011). As of December 31, 2012 and 2011, the Bank and its Subsidiaries have an allowance for loans granted to related parties for S/.1.8 million and S/.4.0 million, respectively.

(b) As of December 31, 2012 and 2011, the Group has participations quotas in several mutual funds managed by Credifondos, the detail is the following:

| | 2012 S/.(000) | 2011 S/.(000) |
|--|----------------------|----------------------|
| Trading and available-for-sale investments - | | |
| - Mutual funds - Credifondo U.S. Dollars | 39,942 | 130,072 |
| - Mutual funds - Credifondo Bolivianos | 10,840 | 15,613 |
| - Mutual funds - Credifondo Nuevos Soles | - | 15,125 |
| | | |
| Total | 50,782 | 160,810 |

Notes to the consolidated financial statements (continued)

(c) Loans to employees and their families -

The Bank and its Subsidiaries grant loans to their employees and families in terms that depend on the different types of loans granted to third parties. Loans granted to employees and their families are mainly mortgage loans and are included under the caption "Loans, net" of the consolidated balance sheets. Generally, interest rates applied are lower than market interests rates; however, others terms are similar to those prevailing in the market. As of December 31, 2012 and 2011, the balance of loans and other facilities granted to employees, family members, directors and key executives of the Bank and its Subsidiaries amounted to S/.628.5 million and S/.475.3 million, respectively.

(d) The Bank's key executive's compensation for the years 2012 and 2011, considering all payments made, is as follows:

| | 2012 S/.(000) | 2011 S/.(000) |
|---------------------------------|----------------------|----------------------|
| Salaries Directors compensation | 15,068 4,171 | 18,364 4,338 |
| Total | 19,239 | 22,702 |

Also, key executives compensation includes share based payments as explained in more detail in Note 17. SARs valuation for the years 2012 and 2011 resulted in a loss of S/.14.1 million and a gain of S/.16.1 million, respectively. During said years approximately S/.23.3 million and S/.69.6 million SARs were executed, corresponding to SARs vested in previous years and up to April 2011. Additionally, S/.11.7 million and S/. 12.1 million, stock awards vested in the years 2012 and 2011, respectively. The related income tax is assumed by the Bank and its Subsidiaries.

30. Explanation added for translation into English

The accompanying translated consolidated financial statements were originally issued in Spanish and are presented on the basis of accounting principles generally accepted in Peru for financial entities, as described in Note 3. Certain accounting practices applied by the Bank and its Subsidiaries that conform to generally accepted accounting principles in Peru for financial entities may not conform in a significant manner with generally accepted accounting principles applied in other countries. In the event of a discrepancy, the Spanish language version prevails.

- (i) As of September 30, 2013 and December 31, 2012, Credicorp holds an additional 4.08% of the capital stock of Banco de Crédito
- (ii) On November 28, 2012, the Bank's Director's Meeting approved the transfer, through the sale of the shares held in Inmobiliaria B Inmobiliaria BCP S.A. took place on May 16, 2013 and was made for approximately US\$2.3 million (equivalent to approximately S gain in the consolidated statements of income for approximately S/.2.4 million. The investment value of Inmobiliaria BCP S.A. as of the shares held in Inmobiliaria BCP S.A. as of the share
- (iii) On April 27, 2012, the Bank acquired 51.0 percent of Correval, an investment banking entity incorporated in Bogota, Colombia, f the Bank acquired 60.6 percent of IM Trust, an investment banking entity established in Santiago, Chile, for approximately US\$13 approved the transfer, through the sale of the shares held in Correval and IM Trust to Credicorp Investments Ltd., a subsidiary of

The transfer of IM Trust took place on November 30, 2012, was made for the same amount paid at its acquisition date and compr date and the resulting goodwill. Therefore, the accompanying consolidated financial statements as of December 31, 2012, do not

However, because of the authorizations from the Colombian Authorities have not been granted as of December 31, 2012, the tra operations", Correval assets and liabilities were presented as "Assets classified as held for sale" and "Liabilities directly associate".

The transfer of Correval took place on June 28, 2013, for approximately US\$68.2 million (equivalent to approximately S/.189.6 differences on translation of BCP Colombia foreign operation.

The transfer comprised all assets and liabilities acquired, including intangible assets not recorded in the financial statements of Correval as of the acquisition date and the resulting goodwill. Therefore, the accompanying consolidated financial statements as of September 30, 2013 of Banco de Crédito del Perú and its Subsidiaries do not contain balances related to Correval. Likewise, the results of Correval's operations for the period between January 1, 2013 and June 28, 2013 (transfer date), are presented as "Discontinued operations" in the consolidated statements of income.

(iv) The Bank's General Shareholders Meeting held on August 21, 2012, approved the split of an equity block of the Bank in favor of BCP Capital S.A.A., an entity incorporated on April 23, 2012 and an indirect Credicorp subsidiary. The split was approved by the SBS through Resolution No. 7782-2012 dated October 12, 2012 and took effect on November 1, 2012. The assets transferred included the following Bank's subsidiaries: Credibolsa - Sociedad Agente de Bolsa S.A., Creditítulos Sociedad Titulizadora S.A. and Credifondo S.A. - Sociedad Administradora de Fondos, as well as the Bank's assets and liabilities related to investment banking. See more details in Note 2(b) to the consolidated financial statements as of December 31, 2012.

The interim consolidated financial statements as of September 30, 2013 and the consolidated financial statements as of December 31, 2012, were approved by the Directors' Meeting held on October 23, 2013 and the General Shareholders' Meeting held on March 26, 2013, respectively.

2. Significant accounting policies

- (a) In the preparation and presentation of the accompanying interim consolidated financial statements, the Bank's Management has complied with the regulations established by the Superintendencia de Banca, Seguros y AFP (hereinafter "SBS" for its Spanish acronym) in force in Peru, which are consistent with the regulations used in the preparation of the consolidated financial statements as of December 31, 2012, except for the following:
 - (a.1) Change in accounting policy
 On September 19, 2012, SBS issued Resolution N°7033-2012, effective January 2013.
 Consequently, the Regulation on Classification and Valuation of Investments approved by SBS Resolution N°10639-2008 was repealed. Likewise, this Resolution applies prospectively.

The main amendment in said Resolution is the inclusion of a standard methodology for identification of impairment on financial instruments classified as available for sale and held-to-maturity investments.

Such methodology includes two filters analysis. The first filter refers to a significant decrease in fair value (50 percent of cost) and a consecutive decrease during the last 12 months, of at least 20 percent. The second filter refers to qualitative aspects of the issuer.

At the date of these interim consolidated financial statements, Management applies fully the SBS Resolution N°7033-2012. The standard methodology implied the modification and implementation of new policies and procedures within the Bank but, based on the required calculations on the identification of impairment, its application did not produce

an additional impairment for investments available-for-sale and held-to-maturity as of September 30, 2013.

(a.2) Harmonization process of accounting standards

As explained in more detail in Note 3(z) to the consolidated financial statement as of December 31, 2012, on September 19, 2012, SBS issued Resolution N°7036-2012, establishing amendments to the Accounting Manual for financial entities. Also, the SBS, through the Official Letter N°45311-2012, extended the deadline of certain amendments required by this Resolution until May 31, 2013 for financial entities that could not adapt their systems to the changes requested as of January 1, 2013. The Bank filed for this extension.

The main amendments in this Resolution are as follow:

- The fee incomes on direct and indirect loans are recognized on an accrual basis. As of September 30, 2013, as a result of such application, the Bank recorded a deferred gain amounting to S/.28.3 million. This amendment applies prospectively.
- Requires the presentation of the comprehensive income in one or in two statements (a separate income statement and a statement of comprehensive income). The Bank has decided present two statements.
- It also become in force for financial entities in Peru the IFRS 7 "Financial Instruments: Disclosures" for annual periods. The objective of this IFRS is to require entities to provide disclosures in their financial statements that enable users to evaluate: (i) the significance of financial instruments for the entity's financial position and performance; and (ii) the nature and extent of risks arising from financial instruments to which the entity is exposed, and how the entity manages those risks.

In Management's opinion, the Bank is complying with the requirements set forth in such resolution.

(b) Bank's Management has used certain estimates and assumptions for the preparation of the interim consolidated financial statements, such as the computation of the allowance for loan losses, the valuation of investments, the estimated useful life and recoverable amount of property, furniture and equipment and intangible assets, the provision for seized assets, the valuation of the brand name, goodwill and client relationship, the valuation of derivative financial instruments and share-based payments; therefore, the final results could differ from the amounts recorded by the Bank and its Subsidiaries.

Accounting practices applied by the Bank that conform to generally accepted accounting principles in Peru for financial entities, may differ in certain significant respects to generally accepted accounting principles in other countries.

(c) The comparative amounts have been reclassified, if necessary, to make them comparable with the current year presentation. Management considers that reclassifications made in the consolidated financial statements as of December 31, 2012, are not significant considering the consolidated financial statements as a whole.

3. Foreign currency transactions and exposure to exchange risk

(a) Transactions in foreign currency are recorded using exchange rates prevailing in the market. As of September 30, 2013, the weighted average market exchange rate published by the SBS for transactions in U.S. Dollars was S/.2.781 for buying and S/.2.782 for selling (S/.2.549 for buying and S/.2.551 for selling, as of December 31, 2012). As of September 30, 2013, the exchange rate established by the SBS to record assets and liabilities in foreign currencies was S/.2.782 for each U.S. Dollar and S/.0.405540 for each Boliviano (S/.2.550 for each U.S. Dollar, S/.0.366379 for each Boliviano and S/.0.001443 for each Colombian peso, as of December 31, 2012). A detail of the Bank and its Subsidiaries' foreign currency assets and liabilities expressed in thousands of U.S. Dollars is shown below:

(b) As of September 30, 2013, the Bank and its Subsidiaries have contingent operations (indirect loans) in foreign currency for approximately US\$2,856.0 million, equivalent to approximately S/.7,945.4 million (approximately US\$3,204.2 million, equivalent to approximately S/.8,170.7 million, as of December 31, 2012), see Note 15.

4. Cash and due from banks

As of September 30, 2013, cash and due from banks includes approximately US\$3,523.6 million and S/.5,247.2 million (US\$4,064.1 million and S/.5,947.4 million, as of December 31, 2012) of mandatory reserve that the Bank and its Subsidiaries must maintain for their obligations with the public. These reserves are deposited in the vaults of the Bank and its Subsidiaries and in the Central Reserve Bank of Peru - BCRP, and are within the limits established by prevailing legislation.

As of September 30, 2013, cash and due from banks subject to mandatory reserve in Peruvian currency and foreign currency are affected at an implicit rate of 16.98 percent and 42.28 percent, respectively, of the total obligations subject to reserve, as required by the BCRP (18.74 percent and 39.97 percent, respectively, as of December 31, 2012).

The reserve funds which represents the minimum mandatory do not earn interest; however, the mandatory reserve deposited in BCRP in excess of minimum mandatory, earns interests at a nominal rate established by BCRP. As of September 30, 2013, the excess in foreign currency amounts to approximately US\$3,250.40 million, equivalent to approximately \$\frac{1}{2},9,042.60\$ million, and earns interest in U.S. Dollars at an average rate of 0.05 percent (US\$3,257.4 million, equivalent to approximately \$\frac{1}{2},8,306.4\$ million, at an average rate of 0.10 percent as of December 31, 2012); while the excess in Nuevos Soles amounts to approximately \$\frac{1}{2},560.8\$ million and earns interests at an average rate of 1.5 percent (\$\frac{1}{2},953.7\$ million, at an average rate of 1.75 percent as of December 31, 2012).

Deposits in local and foreign banks correspond principally to balances in Nuevos Soles and U.S. Dollars. All deposits are unrestricted and earn interest at market rates. As of September 30, 2013 and December 31, 2012, the Bank and its Subsidiaries do not have significant deposits in any specific financial institution.

As of September 30, 2013, the Bank and its Subsidiaries maintain restricted funds related to repurchase agreements for US\$3.2 million equivalent to S/.8.9 million, derivative financial instruments and other funds that amounts to, S/.25.8 million and S/.5.2 million, respectively (restricted funds related to repurchase agreements for US\$68.7 million equivalent to S/.175.1 million and other funds that amounts to S/.4.3 million, as of December 31, 2012).

(h) As of September 30, 2013 and December 31, 2012, Management has estimated the fair value of investments at fain the market or, if the price was not available, by discounting the expected future cash flows at an interest rate that

Management has determined that the unrealized losses as of September 30, 2013 and December 31, 2012 are of tinvestments for a period of time sufficient to allow for an anticipated recovery in fair value, which can occur at their

(i) Investments held-to-maturity

This item is made up as follows:

| | As of September 30, 2013 S/.(000) | As of December 31, 2012 S/.(000) |
|---------------------------|---|--|
| Peruvian sovereign bonds | 268,361 | 272,734 |
| Foreign governments bonds | 283,096 | 267,442 |
| Peruvian treasury bonds | 117,112 | 110,384 |
| | 668,569 | 650,560 |
| Accrued interest | 6,473 | 11,582 |
| | | |
| Total | 675,042 | 662,142 |

As of September 30, 2013, the fair value of held-to-maturity investments amounts to S/.640.1 million (S/.662.2 million as of December 31, 2012) and has maturities between March 2019 and August 2020. These investments bear interest at an annual effective interest rate of 5.07 percent for bonds issued in Nuevos Soles and between 2.59 and 3.19 percent for bonds issued in U.S. Dollars (3.80, 1.55 and 1.96; respectively as December as December 31, 2012).

Management has determined that the unrealized losses as of September 30, 2013 are of temporary nature. Therefore, at that date, the Bank has not recognized any impairment loss on held-to-maturity investments.

(j) As of September 30, 2013, the Bank maintained repurchase agreements for approximately S/.1,482.4 million guaranteed with cash for approximately S/.8.9 million, see Note 4, and securities (corporate bonds, bonds of multilateral financial institutions, sovereign bonds and global bonds) classified as investments available for sale and held to maturity investments for an estimated fair value of US\$435.3 million, equivalent to S/.1,211.1 million and US\$230.1 million, equivalent to S/.640.1 million, with maturities between one and three years for approximately 67 percent and more than five years for approximately 33 percent (repurchase agreements for approximately S/.1,667.6 million, guaranteed with cash for approximately S/.175.1, and securities (corporate bonds, bonds of multilateral financial institutions and global bonds) classified as investments available for sale and held to maturity investments for an estimated fair value of US\$471.1 million, equivalent to S/.1,201.3 million and US\$259.7 million, equivalent to S/.662.2 million, with maturities fewer than one year for approximately 17 percent, between one and three years for approximately 52 percent and more than five years for approximately 31 percent, as of December 31, 2012).

| Medium-business | 8,678,357 | 7,739,478 |
| Revolving and non-revolving consumer loans | 8,739,169 | 7,561,448 |
| Small-business | 5,067,217 | 5,297,444 |
| Micro-business | 2,846,601 | 1,935,015 |
| Total | 60,034,513 | 52,571,203 |

(c) The movement of the allowance for loan losses (direct and indirect loans) is shown below:

| | 2013 S/.(000) | 2012 S/.(000) |
|-------------------------------------|----------------------|----------------------|
| Balance as of January 1 | 1,915,117 | 1,524,348 |
| Provision, net of recoveries | 897,561 | 732,933 |
| Recoveries of written-off loans | 96,310 | 90,901 |
| Loan portfolio written-off | (619,373) | (443,206) |
| Translation result and other | 57,751 | (28,380) |
| Balance as of September 30 (*) | 2,347,366 | 1,876,596 |
| Balance as of December 31, 2012 (*) | | 1,915,117 |

(*) As of September 30, 2013, the balance of the allowance for loan losses includes direct and indirect loan allowances for approximately S/.2,229,5 million and S/.117.8 million, respectively (approximately S/.1,799.1 million and S/.116.0 million, respectively, as of December 31, 2012). The allowance for indirect loan losses is presented in the "Other liabilities, net" caption of the consolidated statements of financial position, Note 7(a).

In Management's opinion, the allowance for loan losses recorded as of September 30, 2013 and December 31, 2012, has been established in accordance with SBS regulations in force as of those dates.

- (d) A portion of the loan portfolio is secured by guarantees received from clients, which are principally conformed by mortgages, stand-by letters, financial instruments, and industrial and commercial pledges.
- (e) Interests accrued on the loan portfolio are determined considering current interest rates prevailing in the markets where the Bank and its Subsidiaries operate.

7. Other assets and other liabilities

(a) These items are made up as follows:

- (i) Derivatives held for trading are mainly negotiated to satisfy clients' needs. The Bank and its Subsidiaries maincluded under this caption are any derivatives which do not meet SBS hedging requirements.
- (ii) The Bank and its Subsidiaries are exposed to movements in future interest cash flows on non-trading assets cash flow hedges of said risk.

As of September 30, 2013, the net unrealized gain from the cash flow hedges is included in the caption "Unicurrent hedges (unrealized gain for approximately S/.24.6 million) and from an unwind made in 2009 (unrealized gain). Likewise, the transfer of the net unrealized gain on cash flow hedges to the consolidated income states.

- (iii) During the nine month period ended September 30, 2013, the Bank signed nineteen interest rate swaps (IRS) contracts for a total notional amount of US\$254.0 million, equivalent to S/.706.6 million, which were designated as fair value hedges of fix rate bonds (Investments available-for-sale) denominated in U.S. Dollars; through the IRS these bonds were economically converted to variable interest rate.
 - Additionally, the Bank signed an IRS contracts for a notional amount US\$150.0 million (equivalent to 100 percent of a syndicated loan received in March 2013) which were designed as cash flow hedges; through the IRS, these loans were economically converted to fixed interest rate.
- (c) The balance's increase is related to accounts receivable and payable from the sale and acquisitions, respectively; of trading and available-for-sale investments during the last days of September which were settled during the first days of October.
- (d) Operations in process include deposits received, loans disbursed and/or collected, funds transferred and other similar types of transactions, which are made at the end of the month and not reclassified to their final consolidated statements financial position accounts until the first days of the following month. These transactions do not affect the Bank and its Subsidiaries' consolidated net income.

8. Assets classified as held for sale and liabilities directly associated

(a) As of December 31, 2012, these items include balances of Correval's operation; see Note 1(iii), as follows:

2012

| | 2012 S/.(000) |
|--|------------------|
| Assets classified as held for sale | |
| Receivables from reverse repurchase agreements and security borrowing | 2,788,432 |
| Investments at fair value through profit or loss and available for sale, net | 166,899 |
| Brand name, net | 35,902 |
| Client relationships, net | 28,055 |
| Fund manager contracts, net | 69,276 |
| Goodwill | 104,133 |
| Other assets | 5,910 |
| Total | 3,198,607 |
| Liabilities directly associated with assets classified as held for sale | |
| Payables from repurchase agreements and security lending | 2,580,548 |
| Financial liabilities designated at fair value through profit or loss | 204,214 |
| Deferred income tax | 44,887 |
| Other liabilities | 69,740 |
| Total | 2,899,389 |

(b) The results of Correval's operations for the period between January 1, 2013 and June 28, 2013 (transfer date) and for the period between April 27, 2012 (acquisition date) and September 30, 2012 are shown below:

| | 2013 S/.(000) | 2012 S/.(000) |
|---------------------------------|-------------------------|----------------------|
| Income and expenses | | |
| Revenue | 104,247 | 96,316 |
| Expenses | (93,979) | (90,377) |
| Income (loss) before income tax | 10,268 | 5,939 |
| Income tax | (3,403) | (1,027) |
| Total | 6,865 | 4,912 |

9. Deposits and obligations

(a) This item is made up as follows:

| | As of September | As of December |
|--------------------------------|-----------------|----------------|
| | 30, 2013 | 31, 2012 |
| | \$/.(000) | S/.(000) |
| | | |
| Demand deposits | 19,782,396 | 19,289,681 |
| Time deposits | 20,003,331 | 17,096,859 |
| Saving deposits | 16,888,434 | 15,515,531 |
| Severance indemnities deposits | 6,043,378 | 5,687,427 |
| Negotiable certificates | 446,473 | 427,234 |
| | 63,164,012 | 58,016,732 |
| Interest payable | 202,824 | 161,582 |
| | | |
| Total | 63,366,836 | 58,178,314 |
| | | |

(b) The Bank and its Subsidiaries have established a policy to pay interests on demand deposits and savings deposits according to a sliding interest rate scale, based on the average balance maintained in those accounts. Additionally, according to such policy, it was established that accounts having balances lower than a determined amount for each type of account, do not bear interest.

Interest rates applied to the different deposits and obligations accounts are determined by the Bank and its Subsidiaries considering current interest rates in the markets where they develop their operations.

(c) As of September 30, 2013 and December 31, 2012, approximately S/.20,010.4 million and S/.19,278.1 million, respectively, of the deposits and obligations balances are covered by the "Fondo de Seguro de Depósitos" (Deposit Insurance Fund). At those dates, the "Fondo de Seguro de Depósitos" covered up to S/.92,904.0 and S/.91,216.0, respectively.

10. Due to banks, correspondents and other entities

(a) This item is made up as follows:

| As of September 30, 2013 S/.(000) | As of December 31, 2012 S/.(000) |
|---|--|
| | |
| | |
| 4,527,712 | 5,255,330 |
| 2,941,914 | 3,062,010 |
| 1,252,432 | 819,504 |

| 8,766,970 | 9,179,333 |
| | |
| 3,009,737 | 3,800,103 |
| 5,712,321 | 5,336,741 |
| 8,722,058 | 9,136,844 |
| | 30, 2013 \$/.(000) 4,527,712 2,941,914 1,252,432 8,722,058 44,912 8,766,970 3,009,737 5,712,321 |

(b) As of September 30, 2013, due to banks and correspondents comprise mainly loans to finance foreign trade operations and for working capital granted by 53 foreign entities (55 as of December 31, 2012); of which 8 represent approximately 56.7 percent of the balance (10 represent approximately 59.1 percent of the balance as of December 31, 2012).

As of September 30, 2013, due to bank and correspondents accrued annual interest at rates that ranged between 0.72 and 10.00 percent (between 0.68 and 10.00 percent as of December 31, 2012).

Some due to banks and correspondents with foreign financial institutions include standard covenants concerning the fulfillment of financial ratios, specific agreements on how to use the funds received, the financial conditions that the Bank and its Subsidiaries must maintain, as well as other administrative matters. In Management's opinion, these specific agreements have been complied with by the Bank and its Subsidiaries as of September 30, 2013 and December 31, 2012.

(c) As of September 30, 2013, due to related parties included: (i) loans at variable interest rates received from CCR Inc. and Atlantic Security Bank (ASB) amounting to US\$899.9 million, equivalent to S/.2,503.6 million and US\$33.6million, equivalent to S/.93.6 million, respectively; and (ii) a promissory note in favour of BCP Emisiones Latam 1 S.A. amounting to 2.7 million Unidades de Fomento Chilenas - UF, equivalent to S/.344.8 million, as of September 30, 2013 (US\$1,016.4 million, equivalent to S/.2,591.9 million, US\$55.5 million, equivalent to S/.141.5 million and 2.7 million Unidades de Fomento Chilenas- UF, equivalent to S/.328.6 million, respectively, as of December 31, 2012).

11. Bonds and subordinated notes issued

(a) This item is made up as follows:

| | As of September 30, 2013 S/.(000) | As of December 31, 2012 S/.(000) |
|--|---|--|
| Local issuances - | | |
| Corporate bonds | 1,644,184 | 1,686,647 |
| Subordinated bonds | 446,289 | 436,496 |
| Leasing bonds | 100,000 | 100,000 |
| | 2,190,473 | 2,223,143 |
| International issuances - | | |
| Senior bonds (*) | 5,150,813 | 3,803,147 |
| Subordinated notes (**) | 2,872,041 | 2,236,382 |
| Junior subordinated notes | 685,370 | 627,006 |
| Subordinated negotiable certificate of deposit | 333,428 | 304,059 |
| | 9,041,652 | 6,970,594 |
| Total | 11,232,125 | 9,193,737 |
| Interest payable | 169,787 | 131,696 |
| | | |
| Total | 11,401,912 | 9,325,433 |

- (*) As of September 30, 2013, the balance of senior bonds includes an issuance performed by BCP, in March 25, 2013, whose balance amounts to US\$350.0 million as of such date. The bonds accrue interest at a 4.25 percent annual fixed rate, with semiannual payables. The bonds will mature on April 1, 2023.
- (**) As of September 30, 2013, the balance of subordinated notes includes an issuance performed by BCP, through its Panamanian Branch, in April 5, 2013, whose balance amounts to US\$170.0 million as of such date. The notes accrue interests at a 6.125 percent annual fixed rate, with semiannual payments. On April 2022, the interest rate will turn into floating interest rate, three-month LIBOR plus 7.043 percent per year. The notes will mature on April 2027.

International issuances are listed in the Luxembourg Stock Exchange. Likewise, local and international issuances maintain certain financial and operative covenants, which, in Management's opinion, the Bank and its Subsidiaries have complied with as of the dates of the consolidated statements of financial position.

As of September 30, 2013, bonds and subordinated notes have maturities between October 2013 and November 2069 and between September 2013 and November 2069, as of December 31, 2012, see more details in Note 13 to the consolidated financial statements as of December 31, 2012.

As of September 30, 2013 and December 31, 2012, their annual effective interest rates ranged between 3.75 percent and 9.75 percent.

12. Income tax

Amounts presented in the consolidated statements of income for the nine-month periods ended September 30, 2013 and 2012 are shown below:

| | | Nine-month periods ended September 30 | |
|----------|------------------|--|--|
| | 2013 S/.(000) | 2012 S/.(000) | |
| Current | 481,078 | 468,676 | |
| Deferred | (978) | (47,431) | |
| | 480,100 | 421,245 | |

13. Shareholders' equity

(a) Capital stock -

As of September 30, 2013 and December 31, 2012, the Bank's capital stock comprises 3,752.6 million and 3,102.9 million, respectively, of fully subscribed and paid common shares, each with a nominal value of one Peruvian Nuevo Sol.

As of September 30, 2013 and December 31, 2012, Credicorp and Grupo Crédito S.A. (a subsidiary of Credicorp) maintained 12.73 percent and 84.93 percent, respectively of the Bank's capital stock.

The General Shareholders' Meetings held on March 27, 2013 and March 30, 2012, approved the capitalization of 2012 and 2011 retained income for an amount of S/.649.7 million and S/.630.2 million, respectively.

(b) Legal reserve -

Under Peruvian legislation, the Bank must reach a legal reserve of at least 35 percent of its paidin capital, through an annual appropriation of at least 10 percent of the net income. As of September 30, 2013, the Bank has covered such legal request.

The General Shareholders' Meetings held on March 27, 2013 and March 30, 2012, approved the increase of the legal reserve for approximately S/.227.4 million and S/.220.6 million, respectively.

The Bank's Subsidiaries established in Peru and Bolivia must also record legal reserves in their individual financial statements, which percentages varies depending on applicable laws. As of September 30, 2013, December 31, 2012 and September 30, 2012, the Subsidiaries' reported legal reserves amounted to approximately S/.103.9 million, S/.80.4 million and S/.90.4 million, respectively.

(c) Special reserve -

The special reserve has been funded through the appropriation of accumulated results and is considered to be unrestricted.

(d) Unrealized results -

The caption "Unrealized results" includes the net unrealized gain (loss) from available-for-sale investments and from used as cash flow hedges. The movement of the unrealized gain (loss) for the nine-month periods ended Septembe income tax is as follows:

| | Unrealized gain (loss) of: | | |
|--|---|---|------------------------------------|
| | Available for sale investments S/.(000) | Derivatives instruments used as cash flow hedges S/.(000) | Translation results S/.(000) |
| Balances as of January 1, 2012 | 311,154 | (1,580) | (14,675) |
| Net unrealized gain from available-for-sale investments | 166,933 | - | - |

| flow hedges to consolidated statements of | | |
| income | 10,888 | (3,993) |
| Sub total | 52,154 | 265 |
| Deferred income tax | 9,092 | (1,070) |
| | 61,246 | (805) |
| Translation results: | | |
| Exchange differences on translation of foreign | | |
| operations | 49,868 | (17,246) |
| Non-controlling interest | (50) | (1,890) |
| | 49,818 | (19,136) |
| | | |

(f) Dividend distribution -

The General Shareholders' Meetings held on March 27, 2013 and March 30, 2012, agreed to distribute dividends for approximately S/.620.6 million and S/.588.3 million, respectively.

Under current Peruvian legislation, there is no restriction for overseas remittance of dividends or the repatriation of foreign investment. Individual persons and corporations not domiciled in Peru must pay of 4.1 percent as tax on dividends received, which must be retained and paid by the entity that distributes the dividends.

(g) Equity for legal purposes (Regulatory capital) -

Applicable Regulations for the Bank's regulatory capital requirements are explained in more detail in Note 15(f) to the Bank and its Subsidiaries consolidated financial statements as of December 31, 2012.

As of September 30, 2013 and December 31, 2012 in application of Legislative Decree N°1028, the Bank presents the following amounts related to weighted assets and credits by total risk and regulatory capital (basic and supplementary), in millions of Nuevos Soles:

| | As of September 30, 2013 | As of December 31, 2012 |
|--|-----------------------------|----------------------------|
| Total risk weighted assets and credits | 72,317.02 | 60,662.81 |
| Regulatory capital | 10,212.33 | 8,929.25 |
| Regulatory capital - basic | 6,701.53 | 6,132.27 |
| Regulatory capital - supplementary | 3,510.80 | 2,796.97 |
| Global Regulatory capital ratio | 14.12% | 14.72% |

As of September 30, 2013 and December 31, 2012, the Bank and its Subsidiaries have fulfilled the requirements of Resolutions N°2115-2009, N°6328-2009 and N°14354-2009, Regulations for the Requirement of Regulatory Capital by Operational Risk, Market Risk and Credit Risk Regulations, respectively, and amendments.

On July 20, 2011, the SBS issued Resolution N° 8425-2011 requires an additional regulatory capital, which is the summatory of each of the following components: economic cycle, concentration risk, market concentration risk, interest rates risk and others. As of September 30, 2013 and December 31, 2012, in Management's opinion, the Bank has complied with the requirements set forth in such resolution.

Resolution SBS No. 11823-2010, "Regulations on consolidated supervision of financial and mixed conglomerates" establishes that the economic group subject to consolidation must have a regulatory equity destined to cover the risks arising from the operations and activities of the bank, which shall not be lower than the minimum equity required the group subject to consolidation. As of September 30, 2013 and December 31, 2012, the minimum requirement amounted to US\$3,746.5 million, equivalent to S/.10,422.8 million and US\$3,367.7 million, equivalent to S/.8,587.6 million, respectively. As of September 30, 2013 and December 31, 2012, the regulatory equity of the financial group subject to consolidation amounted to US\$4,376.0 million, equivalent to S/.12,174.0 million and US\$3,660.7 million, equivalent to

S/.9,334.5 million, respectively. Therefore, at those dates, the Bank is in compliance with the requirements of Resolution No.11823-2010.

14. Tax situation, liabilities and contingencies

(a) Tax situation -

The Bank and its Subsidiaries are subject to corporate taxation on income of the country where they are established. As of September 30, 2013 and December 31, 2012, the statutory income tax was 30 and 25 percent on taxable income for the subsidiaries established in Peru and Bolivia, respectively.

Enterprises and individuals not domiciled in Peru must pay a tax of 4.1 percent on dividends received from enterprises domiciled in Peru.

Additionally, for income tax purposes, the transfer prices agreed in transactions between related parties and with entities located in tax havens, require the presentation of supporting documentation and information on the valuation methods and criteria applied for the agreed price. Based on the analysis of the Bank and its Subsidiaries operations, Management and its internal legal advisors consider that no significant contingencies will result for the Bank and its Subsidiaries as a consequence of the application of such provisions as of September 30, 2013 and December 31, 2012.

The Peruvian and Bolivian Tax Authority is entitled to review and, if applicable, amend the annual income tax returns of the Bank and its Subsidiaries up to four years after their submission.

The income tax returns which are pending to be reviewed by the Tax Authority are the following:

| Banco de Crédito del Perú | 2009-2012 |
|-----------------------------|-----------|
| Banco de Crédito de Bolivia | 2009-2012 |
| Edyficar | 2008-2012 |

Since tax regulations are subject to interpretation by the Tax Authorities it is not possible to determine up to date whether the reviews will generate additional liabilities for the Bank and its Subsidiaries. Therefore, any unpaid tax, penalties or interests that might result from said reviews will be expensed in the year in which they are determined. Nevertheless, Management of the Bank and its Subsidiaries and their legal advisors consider that any additional tax assessments would not have a significant impact on the consolidated financial statements.

(b) Liabilities and contingencies -

Up to September 30, 2013, there were no significant changes with regard to the Bank and its Subsidiaries' liabilities and contingencies presented in the Bank and its Subsidiaries consolidated financial statements as of December 31, 2012.

15. Off-balance sheet accounts

(a) This item is made up as follows:

| | As of September 30, 2013 S/.(000) | As of December 31, 2012 S/.(000) |
|--|---|----------------------------------|
| Contingent operations (indirect loans) (b) - | | |
| Guarantees and stand-by letters of credit | 10,538,660 | 9,982,046 |
| Import and export letters of credit | 1,367,644 | 1,488,381 |
| Due from bank acceptances | 179,730 | 256,959 |
| | 12,086,034 | 11,727,386 |
| Derivative instruments, Note 7(b) - | | |
| Derivatives held for trading - | | |
| Foreign currency forward contracts on Nuevo Sol, see | | |
| Note 3(a): | | |
| Foreign currency purchases | 6,210,337 | 6,036,249 |
| Foreign currency sales | 4,588,994 | 6,864,577 |
| Foreign currency forward contracts on currencies other | | |
| than Nuevo Sol | 417,601 | 483,693 |
| Interest rate swap contracts | 3,483,247 | 2,991,020 |
| Currency swap contracts, see Note 3(a): | | |
| Foreign currency delivery/ Nuevo Sol reception | 1,405,536 | 677,753 |
| Nuevo Sol delivery/ Foreign currency reception | 1,192,824 | 510,009 |
| Foreign currency delivery / Foreign currency reception | 249,263 | 241,299 |
| Foreign currency options | 1,462,642 | 242,985 |
| Derivatives held as hedge - | | |
| Interest rate swap contracts | 2,899,436 | 2,013,963 |
| Cross currency swap contracts on Nuevo Sol, see Note | | |
| 3(a): | | |
| Foreign currency delivery / Nuevo Sol reception | 246,561 | 226,923 |
| Cross currency and interest rate swap contracts in respect | | |
| with Nuevo Sol, see Note 3(a) | 114,376 | 153,301 |
| Cross currency swap contracts on currencies other than | | |
| Nuevo Sol | 457,765 | 429,717 |
| | 22,728,582 | 20,871,489 |
| Responsibilities under credit line agreements (c) | 11,357,088 | 10,210,169 |
| Other contingent operations | 13,085 | 135,093 |
| Total contingent operations | 46,184,789 | 42,944,137 |

⁽b) In the normal course of its business, the Bank and its Subsidiaries perform contingent operations. These operations expose them to credit risk in addition to the amounts recognized in the consolidated statements of financial position. The Bank's exposure to losses under commitments to extend credit, provide export and import letters of credit and guarantees (indirect loans) is represented by the contractual amounts specified in the related contracts.

Notes to the interim consolidated financial statements (unaudited) (continued)

The Bank and its Subsidiaries apply the same credit policies in making commitments and conditional obligations as they do for on-balance sheet instruments, including the requirement to obtain collateral to support off-balance sheet financial instruments when it is deemed necessary. Collateral held varies, but it may include deposits in financial institutions, securities or other assets.

Because most of the contingent transactions are expected to expire without any performance being required, the total committed amounts do not necessarily represent future cash requirements.

Export and import letters of credit are mainly issued as credit enhancements for overseas trade transactions. The related credit risk is reduced by the participation of third parties.

Due from bank acceptances represent collection rights for the Bank and its Subsidiaries that arise at the time of negotiation of the letters of credit; a collection right from the local importer (in the case of imports) or a collection right from the correspondent bank (in the case of exports).

(c) Responsibilities under credit lines agreements do not correspond to commitments to grant credits and include credit lines of client loan portfolio that are cancelable upon notification to the client.

16. Financial income and expenses

This item is made up as follows:

| | For the nine-month periods ended September 30 | |
|--|---|----------------------|
| | 2013 S/.(000) | 2012 S/.(000) |
| Financial income | | |
| Interest from loan portfolio | 4,396,707 | 3,687,058 |
| Interest from trading, available-for-sale and held-to-maturity | | |
| investments, net | 354,313 | 335,134 |
| Interest from cash and due from banks and inter-bank funds | 71,650 | 77,526 |
| Commission on loan portfolio and other transactions | 17,008 | 19,686 |
| Net fluctuation from derivative financial instruments position - swaps | - | 15,162 |
| Net fluctuation from derivative financial instruments position - | | |
| forwards and options | - | 14,278 |
| Other | 5,091 | 6,666 |
| | 4,844,769 | 4,155,510 |
| Financial expenses | | |
| Interest and commission on deposits and obligations | (568,732) | (482,494) |
| Interest on bonds and subordinates notes issued | (502,427) | (435,037) |
| Interest on due to banks, correspondents and other entities and | | . , , |
| inter-bank funds | (297,253) | (232,314) |
| Net fluctuation from derivative financial instruments position - swaps | (47,310) | - |
| Deposit Insurance Fund fee | (43,870) | (59,567) |
| Net result from hedging derivatives instruments | (35,487) | (11,309) |
| Net fluctuation from derivative financial instruments position - | | |
| forwards and options | (11,118) | - |
| Other | (19,625) | (37,498) |
| | (1,525,822) | (1,258,219) |
| Gross financial margin | 3,318,947 | 2,897,291 |

17. Other non-financial income and other operating expenses

These items are made up as follows:

| | For the nine-month periods ended September 30 | |
|---|---|-------------------------|
| | 2013 S/.(000) | 2012 S/.(000) |
| Other non-financial income | | |
| Technical Support - Outsourcing | 22,643 | 12,638 |
| Gain from indexed certificates | 10,332 | 15,368 |
| Net gain from sales of seized assets | 4,810 | 6,556 |
| Other | 5,202 | 34,933 |
| | | |
| Total | 42,987 | 69,495 |
| | | |
| Other operating expenses | | |
| Provisions for litigation, claims and other contingencies | (10,258) | (19,883) |
| Loan waiver | (3,958) | (3,648) |
| Legal expenses | (3,002) | (2,442) |
| Other | (14,768) | (7,987) |
| | | |
| Total | (31,986) | (33,960) |

18. Transactions with related parties

(a) During the year 2012 and the nine-month period ended September 30, 2013, the Bank and its Subsidiaries have acquired bonds, granted loans, supplied and received several services, correspondent relationships and other operations with Credicorp's Subsidiaries, which balances are shown below:

| | As of September 30, 2013 S/.(000) | As of December 31, 2012 S/.(000) |
|---|--|--|
| Financial position | | |
| Assets - | | |
| Cash and due from banks | 18,281 | 28,475 |
| Investments available-for-sale (Credicorp shares) | 64,947 | 36,192 |
| Loans, net | 159,935 | 100,932 |
| Other assets | 58,767 | 32,376 |
| | | |
| Liabilities - | | |
| Deposits and obligations | 281,155 | 477,118 |
| Due to banks, correspondents and other entities | 2,955,100 | 3,079,127 |
| Bonds and subordinated notes issued | 219,224 | 210,853 |
| Other liabilities | 19,222 | 22,843 |
| Contingent operations (indirect loans) | 187,656 | 143,130 |
| Statements of income | For the nine-month periods ended September 30, 2013 S/.(000) | For the nine-month periods ended September 30, 2012 S/.(000) |
| Financial income | 11,820 | 4,654 |
| Financial expenses | 122,937 | 108,469 |
| Other income | 186,640 | 90,652 |
| Other expense (*) | 61,966 | 41,124 |

^(*) This caption includes the accrued portion of insurance coverage contracted with El Pacífico-Peruano Suiza Compañia de Seguros y Reaseguros (PPS), a Credicorp subsidiary; the accrued part is included in the caption "Administrative expenses" of the consolidated statement of income.

Under Peruvian legislation, loans to related parties cannot be granted on terms more favorable than those that would have been offered to the general public. Management considers that the Bank and its Subsidiaries have complied with all legal requirements for transactions with related parties.

Loans and other contingent credits (indirect loans) with related entities, not Credicorp's Subsidiaries, are as follows:

| | As of September 30, 2013 S/.(000) | As of December 31, 2012 S/.(000) |
|---------------------------|---|--|
| Direct loans | 1,077,879 | 1,143,299 |
| Indirect loans | 271,393 | 134,018 |
| Derivatives, market value | 1,027 | 4,673 |
| Deposits | 333,930 | 605,906 |

(b) The Bank and its Subsidiaries have participations in several mutual funds managed by one of its Subsidiaries, the detail is the following:

| | As of September 30, 2013 S/.(000) | As of December 31, 2012 S/.(000) |
|--|---|--|
| Trading and available-for-sale investments - | | |
| Mutual funds - Credifondo U.S. Dollars Mutual funds - Credifondo Bolivianos Mutual funds - Credifondo Nuevos Soles | 34,618 13,534 12,751 | 39,942 10,840 |
| Total | 60,903 | 50,782 |

(c) Loans to employees and their families -

The Bank and its Subsidiaries grant loans to their employees and families in terms that depend on the different types of loans granted (mainly mortgage loans) and are included under the caption "Loans, net" of the consolidated statements of financial position. Generally, interest rates applied are lower than market interests rates; however, others terms are similar to those prevailing in the market. As of September 30, 2013 and December 31, 2012, the balance of loans and other facilities granted to employees, their family members, directors and key executives of the Bank and its Subsidiaries amounted to S/. 736.4 million and S/.628.5 million, respectively.

APPENDIX A

ACCOUNTING PRACTICES

Basis of presentation of the financial statements of Banco de Crédito del Perú and subsidiaries

The annual consolidated financial statements have been prepared from our accounting records, which are carried in nominal Nuevos Soles as of the date of the transactions, in accordance with accounting standards prescribed by the Superintendencia de Banca, Seguros y AFP (hereinafter "SBS") for Peruvian financial entities (Peruvian GAAP), established in the SBS's "Accounting Manual for Financial Entities."

Peruvian GAAP principles differ in certain material respects from International Financial Reporting Standards (IFRS) and U.S. GAAP. We have not undertaken efforts to prepare a quantitative reconciliation of specific differences among Peruvian GAAP, IFRS and U.S. GAAP. Had such an effort been undertaken other potentially significant differences might have been identified and disclosed herein.

The following paragraphs summarize the areas in which differences among Peruvian GAAP, IFRS and U.S. GAAP could be significant to our consolidated results of operations and consolidated financial position and that exist as of December 31, 2012. This analysis does not include differences related to IFRS standards that have been issued but are not effective as of December 31, 2012. We have not prepared consolidated financial statements in accordance with IFRS or U.S. GAAP and, accordingly, cannot offer any assurances that all existing differences have been identified and that the differences described below would, in fact, be the largest differences between our financial statements prepared under IFRS or U.S. GAAP. In addition, we cannot estimate the net effect that applying IFRS or U.S. GAAP would have on our consolidated result of operations or consolidated financial position or any component thereof, in any of the presentations of financial information in the offering memorandum. However, the effect of such differences may be, individually or in aggregate, material, and in particular, as a result of such, it may be that the total shareholders' equity, prepared on the basis of Peruvian GAAP would be materially different from the shareholders' equity reported under IFRS or U.S. GAAP. Differences in the presentation of the financial statements as well as differences in the information provided in the footnotes to the financial statements have not been reported.

Highlights of certain differences among Peruvian GAAP, IFRS and U.S. GAAP

Content and format of the financial statements

Under Peruvian GAAP, the presentation and content of the accounts included in the financial statements are detailed in the "Accounting Manual for Financial Entities" is sued by the SBS. Under IFRS, IAS 1 and IFRS 7, there are principles about the presentation of the financial statements for financial services. Under U.S. GAAP, the SEC has established detailed rules about the formand content of the financial statements for banks in its S-X regulation.

Cash flow statements

Under Peruvian GAAP, cash flow statements are presented in accordance with the "Accounting Manual for Financial Entities" is sued by the SBS and contain significant presentational differences in respect of cash flow statements prepared in accordance with IFRS (IAS 7) and U.S. GAAP.

The format of a cash flow statements prepared under IAS 7 is essentially the same as a cash flow statement prepared under U.S. GAAP. Both standards require cash flows to be classified into three broad categories: operating activities, investing activities and financing activities. However, presentational differences can arise due to differences between IFRS and U.S. GAAP in respect of the definition of cash, and the classification of specific items.

Consolidation and investment in special purpose entities

The key principle for consolidation under IFRS is IFRS 10 Consolidated Financial Statements, and under U.S. GAAP it is ASC 810 Consolidations. Consolidation principles under Peruvian GAAP and IFRS (IFRS 10) are

based upon the concept of control and are substantially similar, requiring consolidation of all controlled entities irrespective of the sector in which they operate.

Under both IFRS and U.S. GAAP, the determination of whether or not entities are consolidated by a reporting enterprise is based on control, although differences exist in the definition of control. Under U.S. GAAP, all entities are first evaluated as potential variable interestentities (VIEs). Entities controlled by voting rights are consolidated as subsidiaries, but potential voting rights are not included in this consideration. The concept of "effective control" exists, but it is rarely employed in practice.

Investments in associates:

Under Peruvian GAAP, investments in as sociates are recorded in accordance with criteria established by SBS Resolution No. 7033-2012, which became effective on January 1, 2013. This category includes only equity securities acquired with the purpose of (i) having equity participation and/or (ii) having significant influence in other entities or institutions, as defined by IAS 28. Their initial recognition is at fair value; subsequently they are recorded using the equity participation method. Under IFRS (IAS 28) and U.S. GAAP (ASC 323) all the as sociates in which an entity has significant influence are accounted for using the equity method. For this purpose, under IFRS and U.S. GAAP significant influence is generally presumed if an investor holds directly or indirectly 20% or more of the voting power of the investee. The other investments not considered as sociates should usually be considered as available for-sale securities, if they are marketable securities as per ASC 320.

Business combinations

A business combination involves the bringing together of separate entities into one economic entity. In practice, there are three types of business combinations: acquisitions (one of the combining entities obtains control over the other, enabling an acquirer to be identified), a uniting of interests or pooling (where it is not possible to identify an acquirer and the shareholders of the combining entities join in substantially equal arrangements to share control), and a group reorganization (transactions among entities which operate under common control).

Under Peruvian GAAP, business combinations are accounted for as acquisitions and they require use of the acquisition method of accounting to portray the financial effect of an acquisition. Under IFRS 3(R) and ASC 805, all business combinations must be recorded and accounted for using the acquisition method. Under the acquisition method, upon obtaining control of another entity, the underlying transaction should be measured at fair value, and this should be the basis on which the assets, liabilities and non-controlling interests of the acquired entity are measured, with limited exceptions.

Indefinite useful live intangible assets (Goodwill)

Under Peruvian GAAP and IFRS, goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable as sets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss.

Under Peruvian GAAP, in accordance with the SBS Resolution No. 1967-2010, indefinite useful live assets, such as goodwill, registered before January 1, 2010, are amortized following regulations in force on the date of initial recognition, considering a period of no more than 5 years. Goodwill generated after January 1, 2010 is recognized at cost; then it is measured at cost less any impairment loss.

Peruvian GAAP (to goodwill registered after January 1, 2010), IFRS and U.S. GAAP require goodwill to be reviewed annually or more frequently when any event or change in circumstances indicates that the fair value may be impaired.

Under Peruvian GAAP and IFRS, the method of determining impairment of goodwill requires that an impairment test be done at the cash generating unit (CGU) level by comparing the CGU's carrying amount, including goodwill, with its recoverable amount. Impairment loss on the CGU (amount by which the CGU's carrying amount, including goodwill, exceeds its recoverable amount) is allocated first to reduce goodwill to zero,

then, subject to certain limitations, the carrying amounts of other assets in the CGU are reduced pro rata, based on the carrying amounts of each asset.

Under U.S. GAAP, the method of determining impairment of goodwill requires a recoverability test to be performed first at the reporting unit level (carrying amount of the reporting unit is compared to the reporting unit's fair value). If the carrying amount of the reporting unit exceeds its fair value, then impairment testing must be performed. The impairment loss is the amount by which the carrying amount of goodwill exceeds the implied fair value of the goodwill within its reporting unit.

Property, plant and equipment

ASC 835-20 Capitalization of Interest and IAS 23 Borrowing Costs address the capitalization of borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset under U.S. GAAP and IFRS, respectively. Qualifying assets are generally defined similarly under both accounting models and both standards require interest costs to be capitalized as part of the cost of a qualifying asset.

However, under IFRS, borrowing costs are offset by investment income earned on those borrowings. For borrowings associated with a specific qualifying asset, actual borrowing costs are capitalized.

Under U.S. GAAP, eligible borrowing costs do not include exchange rate differences. Interest earned on the investment of borrowed funds generally cannot offset interest costs incurred during the period. For borrowings as sociated with a specific qualifying asset, borrowing costs equal to the weighted average accumulated expenditures times the borrowing rate are capitalized.

Under IFRS, a company has the alternative to account for certain fixed assets at amortized historical cost or revalue to fair value. Useful lives and methods of depreciation are reviewed periodically. Under Peruvian and U.S. GAAP, historical cost is the only alternative, and thus fixed asset revaluations are not allowed.

Intangible assets

The definition of intangible assets as nonmonetary assets without physical substance is similar under both U.S. GAAP and IFRS. The recognition criteria for both accounting models generally require that there be probable future economic benefits and costs that can be reliably measured.

Under Peruvian GAAP and IFRS, development costs are capitalized when technical and economic feasibility of a project can be demonstrated in accordance with specific criteria. Some of the stated criteria include demonstrating technical feasibility, intent to complete the asset and ability to sell the asset in the future. Although application of these principles may be largely consistent with U.S. GAAP, there is no separate guidance addressing computer software development costs.

Under U.S. GAAP, development costs are expensed as incurred unless addressed by a separate standard. In the case of software developed for internal use, only those costs incurred during the application development stage may be capitalized.

Amortization of intangible as sets over their estimated useful lives is required under both U.S. GAAP and IFRS. If there is no foreseeable limit to the period over which an intangible asset is expected to generate net cash inflows to the entity, the useful life is considered to be indefinite and the asset is not amortized.

Intangible assets with indefinite useful lives are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Impairment

Peruvian GAAP, IFRS (IAS 36) and U.S. GAAP (ASC 350, and ASC 360-10) require that specific and clearly detailed tests be carried out to adjust the carrying value of certain assets (long-lived assets) when indicators of potential impairment exist (or annually for goodwill and intangible assets with an indefinite life).

Impairments under Peruvian GAAP and IFRS are based on discounted cash flows. Under U.S. GAAP, only if an asset's estimated undiscounted future cash flows are below its carrying amount is a determination required of the amount of any impairment based on discounted cash flows. There is no undiscounted test under Peruvian GAAP and IFRS.

Under Peruvian GAAP and IFRS, goodwill is allocated to "cash generating units," which are the smallest group of identifiable as sets that include the goodwill under review for impairment and generate cash inflows from continuing use that are largely independent of the cash inflows fromother assets. Under U.S. GAAP, goodwill is allocated to "reporting units," which are operating segments or one level below an operating segment (as defined in ASC 280). The goodwill impairment test under U.S. GAAP compares the carrying value for each reporting unit to its fair value based on discounted cash flows.

Under Peruvian GAAP and IFRS, impairment loss es are reversed when there has been a change in economic conditions or in the expected use of the asset. Under U.S. GAAP, impairment loss es cannot be reversed for assets to be held and used, as the impairment loss results in a new cost basis for the asset.

Debt and equity securities

Under Peruvian GAAP, the initial recognition and the subsequent measurement of investments in debt and equity securities are recorded in accordance with criteria established by SBS Resolution No. 7033-2012, which became effective on January 1, 2013 and is to be applied prospectively. Investments at fair value through profit or loss (formerly recorded as trading securities) are initially recognized at cost (excluding acquisitions costs, which are recorded as expenses) and subsequently measurement is at fair value. A vailable-for-sale investments and held to-maturity investments are initially recognized at cost including acquisition costs that are directly attributable to the acquisition and subsequently re-measured at fair value and amortized cost (using the effective interest rate method), respectively. Additionally, Resolution No. 7033-2012 established an additional category: Investments in Subsidiaries, Associates and Joint Ventures are initially recognized at fair value, and thereafter, are recorded following the equity participation method.

Under IFRS (IAS 32 and 39) and U.S. GAAP (ASC 320), all investments in securities are initially recognized at cost including all related acquisition costs as part of the initial cost, being the fair value of the consideration given and including acquisition costs associated with the investment. Subsequent measurement of investments is based upon the valuation principles of the portfolios they are classified in at the time of purchase, as described below:

- Trading securities, in all cases, are re-measured at fair value and all related realized and unrealized gains or losses are recognized in income.
- Held-to-maturity securities are carried at amortized cost using the effective yield method less any impairment in value. Gains or losses are recognized in income when the investments are derecognized or impaired, as well as through the amortization of premiums and accretion of discounts. Sale or reclassification of held-to-maturity securities to other categories triggers reclassification of such securities outside the held-to-maturity portfolio.
- Available-for-sale securities, under IFRS and U.S. GAAP are carried at fair value. Gains or losses on remeasurement to fair value are recognized as a separate component of equity, or other comprehensive income, net of income taxes, until investment is sold, collected or otherwise disposed of or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is included in income.

Under Peruvian GAAP and IFRS, foreign exchange gains and losses on the amortized cost of all financial instruments are recognized in the income statement. U.S. GAAP establishes that the foreign exchange gains and losses related to the amortized cost of debt securities classified as available-for-sale must be recognized in equity.

Impairment of debt and equity securities

Under Peruvian GAAP, the impairment of debt and equity securities is determinate following guidelines established by SBS Resolution No. 7033-2012 – Annex Standard Methodology for identification of impairment on

financial instruments as available for sale and held-to-maturity prescribed by SBS, which became effective on January 1, 2013 and is to be applied prospectively.

Under IFRS, generally, only evidence of credit default results in an impairment being recognized in the income statement for an AFS debt instrument. The impairment loss is measured as the difference between the debt instrument's amortized cost basis and its fair value. For an AFS equity investment, an impairment is recognized in the income statement when there is objective evidence that the AFS equity instrument is impaired, and that the cost of the investment in the equity instrument may not be recovered. The impairment is measured as the difference between the equity instrument's cost basis and its fair value. A significant and prolonged decline in fair value of an equity investment below its cost is considered objective evidence of an impairment.

Under IFRS, impairment losses recognized through the income statement for available-for-sale equity securities cannot be reversed through the income statement for future recoveries. However, impairment losses for debt instruments classified as available-for-sale may be reversed through the income statement if the fair value of the asset increases in a subsequent period and the increase can be objectively related to an event occurring after the impairment loss was recognized.

Under U.S. GAAP, declines in fair value below cost may result in an impairment loss being recognized in the income statement on an AFS debt instrument due solely to a change in interest rate (risk-free or otherwise) if the entity has the intent to sell the debt instrument or it is more likely than not that it will be required to sell the debt instrument before its anticipated recovery. The impairment loss is measured as the difference between the debt instrument's amortized cost basis and its fair value. When a credit loss exists, but the entity does not intend to sell the debt instrument, nor is it more likely than not that the entity will be required to sell the debt instrument before the recovery of the remaining cost basis, the impairment is separated into (i) the amount representing the credit loss and (ii) the amount related to all other factors. The amount of the total impairment related to the credit loss is recognized in the income statement and the amount related to all other factors is recognized in other comprehensive income, net of applicable taxes.

Under U.S. GAAP, for an AFS equity instrument, an impairment is recognized in the income statement, measured as the difference between the equity instrument's amortized cost basis and its fair value, if the equity instrument's fair value is not expected to recover sufficiently in the near-term to allow a full recovery of the entity's cost basis. An entity must have the intent and ability to hold an impaired security until such near-term recovery; otherwise an impairment loss must be recognized in the income statement. The impairment loss is calculated as the difference between the equity instrument's cost basis and its fair value.

Under IFRS, the impairment loss of a held-to-maturity investment is measured as the difference between the carrying amount of the investment and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the financial asset is reduced either directly or through the use of an allowance account. The amount of impairment loss is recognized in the income statement.

Under U.S. GAAP, the impairment loss of a held-to-maturity investment is measured as the difference between its fair value and amortized cost basis. When the entity does not intend to sell the debt instrument and it is not more likely than not that the entity will be required to sell the debt instrument before recovery of its amortized cost basis, the amount of the total impairment related to the credit loss is recognized in the income statement and the amount related to all other factors is recognized in other comprehensive income.

Under U.S. GAAP, the carrying amount of a held-to-maturity investment after the recognition of an impairment is the fair value of the debt instrument at the date of the impairment. The new cost basis of the debt instrument is equal to the previous cost basis minus the impairment recognized in earnings. The impairment recognized in other comprehensive income is accreted to the carrying amount of the held-to-maturity instrument through other comprehensive income over its remaining life.

Allowance for loan losses

Under Peruvian GAAP, the allowance for loan losses is determinate following guidelines established by SBS Resolutions No. 11356-2008 and No. 6941-2008.

Under IFRS (IAS 39) and U.S. GAAP (ASC 450, and ASC 310-10-35), if there is objective evidence that all amounts due (principal and interest) according to original contractual terms of the loan will not be collected, such loans are considered impaired and the amount of the loss is measured as the difference between the loan's carrying amount and the present value of expected future cash flows discounted at the loan's original effective interestrate or as the difference between the carrying value of the loan and fair value of the collateral, if the loan is collateralized and foreclosure is probable. Impairment and uncollectibility are measured and recognized individually for loans and receivables that are individually significant and on a portfolio basis for a group of similar loans and receivables that are not individually identified as impaired if a loss is probable and quantifiable.

Under Peruvian GAAP, recoveries are recorded in a separate income line item under other income. Charge-offs are recorded directly as loan loss provision in the income statement. Under IFRS and U.S. GAAP, recoveries and charge-offs would be recorded in the allowance for loan loss ses in the balance sheet.

Income tax

Under Peruvian GAAP, IFRS and U.S. GAAP, deferred taxes should be recorded for the taxeffect of almost all differences between the tax and accounting bases of assets and liabilities (temporary differences) as well as tax loss carry-forwards. IFRS and Peruvian GAAP require deferred taxes to be recorded for the taxeffects of temporary differences between tax and reporting bases of non-monetary assets arising from restatement for the effects of inflation where U.S. GAAP does not. IFRS and Peruvian GAAP measure deferred taxes using the tax rate enacted, or substantially enacted, where U.S. GAAP measures deferred taxes only on the enacted tax rate. Under IFRS and Peruvian GAAP, deferred tax as sets are recognized when recovery is probable. Under U.S. GAAP, deferred tax as sets are recognized (*i.e.*, no valuation allowance) to the extent that they are more likely than not to be recovered. Under IFRS and Peruvian GAAP, deferred tax in respect of temporary differences on subsidiaries, associates and joint ventures is not recognized in some circumstances. Under U.S. GAAP, such differences on equity method investments, other than certain foreign corporate joint ventures, are recognized in full.

Leasing

Peruvian GAAP and IFRS accounting for leasing are similar. All the relevant principles and guidance concerning leases may be found in one standard and three interpretations for IFRS, but the U.S. GAAP rules are contained in several pronouncements: various accounting standards, interpretative statements and several technical bulletins and EITF abstracts. IAS 17 "Leases" sets out the general principles for accounting for all but a few specialist categories of leases. ASC 840, formerly FAS 13 "Accounting for Leases" contains detailed rules and thresholds, in contrast to IAS 17's principles-based approach. There are specific U.S. GAAP rules on various categories of leases, most notably for real estate transactions.

Although the U.S. GAAP guidance is much more specific and rule-based than the IFRS approach, the overall approaches of IFRS and U.S. GAAP are similar. Both focus on classifying leases between finance (or capital) leases and operating leases and both deal separately with lessees and lessors.

Derivative financial instruments

Under Peruvian GAAP, IFRS (IAS 32, 39 and IFRS 13) and U.S. GAAP (principally ASC 815), derivative financial instruments are initially recognized at fair value. Derivative transactions that do not qualify for hedge accounting are treated as derivatives held for trading and any gains and losses arising from changes in fair value are taken directly to income. In the specific case of BCP, certain derivative financial instruments maintained by BCP and its subsidiaries have been designated as hedging operations because the functional currency of Credicorp is the U.S. Dollar.

Under Peruvian GAAP and IFRS, a shortcut method for interestrate swaps is not permitted to assess the effectiveness of the hedging relationship; however, under U.S. GAAP it is permitted. In addition, under Peruvian GAAP and IFRS, the option's time value is not permitted to be included in order to assess the effectiveness of the hedging relationship; however, U.S. GAAP does permit its inclusion. Peruvian GAAP and IFRS allow entities to hedge components (portions) of risk that give rise to changes in fair value. Under U.S. GAAP, the risk components that may be hedged are specifically defined, with no additional flexibility.

The U.S. GAAP literature is far more detailed than Peruvian GAAP and IFRS as it has been developed over a longer period and, often, in response to specific financial instruments. Consequently, there are many differences in the scope of standards under Peruvian GAAP, IFRS and U.S. GAAP.

As detailed elsewhere in the offering memorandum through SBS Resolution No. 1737-2006, the SBS has approved the Regulations for the Trading and Accounting Recording of Derivative Financial Instruments in Companies of the Financial System, which establishes accounting criteria for derivative financial instruments under Peruvian GAAP, which are consistent with IAS 39, Financial Instruments: Recognition, and Measurement effective in Peru.

Interest recognition—non-accrual loans

Under Peruvian GAAP, interest accrued on past due, refinanced, restructured loans, loans under legal collection and loans classified as doubtful or loss is discontinued and recognized as collected.

Under IFRS (based on IAS 18) and U.S. GAAP, recognition of interest on loans is generally discontinued when, in the opinion of management, there is an assessment that the borrower will likely be unable to meet all contractual payments as they become due. As a general practice, this occurs when loans are 90 days or more overdue. When a loan is placed on non-accrual status, unpaid interest credited to income in the current year is reversed and unpaid interest accrued in prior years is charged against the allowance for credit losses.

Loan origination fees

Under Peruvian GAAP, the loan origination fees on consumer loans, such as credit cards, mortgage, pledged and personal loans standby letters of credit and guarantees is sued, are recognized over the life of the related loan as an adjustment of yield or by straight-line method, as appropriate similar to IFRS and U.S. GAAP (ASC 310-20).

Guarantor's obligations under guarantees

Under Peruvian GAAP, the commissions and premiums are recognized in income over the term of the guarantee in accordance with IFRS.

Under U.S. GAAP (ASC 460), when a guarantee is is sued in a standalone arm's length transaction with an unrelated party, the liability recognized at the inception of the guarantee is the premium received or receivable at fair value by the guarantor. The release from risk is recognized over the term of the guarantee either upon expiration or settlement of the guarantee or by a systematic and rational amortization method.

Provision for risks and charges

Under Peruvian GAAP and IFRS (IAS 37), a provision should only be made when: (a) an enterprise has a present obligation (legal or constructive) as a result of a pastevent, (b) it is probable (more likely than not) that a future outflow of economic benefits will be required to settle the obligation and (c) a reliable estimate of the amount of the obligation can be made. The entity must discount the anticipated cash flows expected to be required to settle the obligation if the impact is material.

The treatment of loss contingencies under U.S. GAAP is similar to IFRS. However, if a range of estimates for the obligation is determined and no amount in the range is more likely than any other amount in the range, the "minimum" (rather than the mid-point) amount must be used to measure the liability. The entity must discount the anticipated cash flows expected to be required to settle the obligation if the impact is material.

Seized assets

Under Peruvian GAAP, assets seized are initially recorded at the value assigned to themthrough a legal proceeding, the amount of any out of court settlement or at the unpaid value of the debt, whichever is lower. Simultaneously with the determination of the value, an allowance equivalent to 20% of the legal settlement or recoverable asset value should be recorded. For this purpose, we can use the allowance for loan losses that was originally provided for the related loan. Subsequent to the seizure date, we must record an allowance during a period of time established by the SBS, until the carrying value of assets is zero. Under IFRS, the assets seized are

recorded at the lower of cost or estimated market value. Changes in market value are recorded in the income statement. Under U.S. GAAP, assets seized are recorded at fair value at foreclosure date and subsequently measured at the lower of its carrying amount or fair value minus cost to sell with changes recorded in the income statement.

Share-based payments

The guidance for share-based payments is in ASC 718 for US GAAP and IFRS 2 for IFRS.

Under Peruvian GAAP, until December 31, 2011, in compliance with SBS Oficio 9771-2009 dated March 24, 2009, the Bank and its subsidiaries recorded as an expense, at the grant date, all of the costs related to the acquisition of Credicorp shares granted to the plan beneficiaries. This expense is included in the caption "Salaries and employees benefits" of the consolidated statement of income and no other expenses are recorded in future periods. Since January 1, 2012 and prospectively, share-based payments are accounted in accordance with the established by IFRS 2.

US GAAP and IFRS have specific rules regarding the accounting for arrangements settled in shares of the parent company.

Discontinued operations – Assets and liabilities held for sale

Under US GAAP (ASC 205-20), a discontinued operation is a component of an entity that has .been disposed of or is classified as held for sale, provided that (1) the operations and cash flows of the component have been (or will be) eliminated from the ongoing operations of the entity as a result of the disposal transaction and (2) the entity will not have any significant continuing involvement in the operations of the component after the disposal transaction. A component of an entity represents the operations and the cash flows that can be clearly distinguished operationally and for financial reporting purposes from the rest of the entity. Examples include an operating segment, a reporting unit, a subsidiary or an asset group.

Examples of continuing cash flows with the disposed component would be cash flows resulting from continuing the activities of the disposed component or continuing to enter into transactions with the disposed component. An example of significant continuing involvement in the disposed component could be retaining an equity interest in the component.

IFRS 5 defines a discontinued operation as a component of an entity that either has been disposed or is classified as held for sale and (1) represents a separate line of business or geographical area of operations, (2) is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations, or (3) is a subsidiary acquired exclusively with a view to resale.

A component of an entity comprises operations and cash flows that can be clearly distinguished, operationally and for financial reporting purposes, from the rest of the entity. In other words, a component of an entity will have been a cash-generating unit or a group of cash-generating units while being held for use.

IFRS 5 does not required to reclassify or re-present amounts presented for the discontinued operations (as sets and liabilities classified as held for sale) in the consolidated balance sheet for prior periods to reflect the classification for the latest period presented.

Currently, the definitions of what constitutes a component of an entity to be presented as a discontinued operation differ under US GAAP and IFRS. As such, items may be classified as discontinued operations under US GAAP but not under IFRS, and vice versa.

Under Peruvian GAAP, the SBS does not have any regulations about assets and liabilities classified as held for sale.
