Business Strategy

We aim to continuously improve economic value. Our main drivers are:

- Our people and culture;
- Top line growth;
- Building strong brands;
- Excellence in route to market;
- Permanent cost efficiency; and
- Financial discipline.

Our People and Culture

We are aware of the value and importance of highly qualified, motivated and committed employees. We carefully manage our hiring and training process with a view to maintaining outstanding professionals among our ranks. In addition, we believe that we have created through our compensation program, which is based on both variable payment and stock ownership, financial incentives for high performance and results.

Another core element of our culture is our distinguished managerial capabilities, which are summarized by: (i) hardworking ethos; (ii) results focused evaluations; (iii) encouragement of our executives to act not just as managers, but as owners; (iv) leadership through personal example; and (v) appreciation for field experience.

Top Line Growth

We are continually seeking sustainable growth in our net revenues, primarily through four different initiatives:

- *Portfolio management:* we continually pursue increased sales of premium, higher-priced and more profitable products in our sales mix;
- *Maximize share of consumer expenditure:* we seek to maximize our share of the consumer's expenditure on our products;
- *Leadership:* we are committed to maintaining and strengthening our leading position in the markets where we operate, as well as evaluating opportunities to establish a presence in new markets across the Americas where we currently do not operate; and
- *Increase per capita consumption:* based on proprietary research focused on consumer behavior and occasions of consumption, we aim to increase per capita consumption in the markets where we operate.

Distribution Efficiency and Execution

Delivering national beer brands to almost one million points of sale in Brazil is a very complex feature of our business. In recent years, we have been focusing on direct distribution in major cities while still strengthening our third-party distribution system. In Brazil, for instance, instead of operating three inherited, parallel, single-brand systems (each of them dedicated to one of our major brands, *Skol*, *Brahma* and *Antarctica*), we are shifting towards a multi-brand network of distributors committed to handling all of our brands.

In addition, we are constantly seeking to improve our point of sale execution through new and creative measures. One of our key marketing initiatives was the introduction into the Brazilian market of our custom-made beer refrigerators designed and built to chill beer at the optimal temperature for on-premise consumption. These refrigerators also work as effective marketing tools, as they are decorated with images related to our core brands.

Building Strong Brands

We believe that building strong brands that connect and create enduring bonds with our consumers is the only way we can guarantee the sustainability of our business in the future. Our consumers are the reason for everything we do and we need to deeply understand them, be close to them and connect them to our brands in order to build enduring bonds. We bring together tradition and modernity in our product portfolio, in a clear strategy to create value and insert our brands into the lives of our consumers.

Excellence in Route to Market

Delivering our beer brands to almost one million points of sale in Brazil is a very complex feature of our business. For several years, increasing direct distribution in major cities while still strengthening our third-party distribution system has been one of our focus. In Brazil, for instance, instead of operating three inherited, parallel, single-brand systems (each of them dedicated to one of our major brands, *Skol*, *Brahma* and *Antarctica*), we have been shifting towards a multi-brand network of distributors committed to handling all of our brands.

In addition, we are constantly seeking to improve our point of sale execution through new and creative measures. One of our key marketing initiatives was the introduction into the Brazilian market of our custom-made beer refrigerators designed and built to chill beer to the optimal temperature for on-premise consumption. These refrigerators also work as effective marketing tools, as they are decorated with images related to our core brands.

Permanent Cost Efficiency

Cost and expense control is one of our employees' top priorities. Each of our departments must comply with its respective annual budget for fixed and variable costs.

As a measure to avoid unnecessary expenses, we have designed a management control system inspired in zero-base budgeting procedures. That system demands that every manager builds the annual budget for his or her respective department from scratch.

Financial Discipline

We have a policy of not retaining unnecessary cash. Through a combination of interest on own capital, dividends and share buy-backs, we have returned to our shareholders the cash flow generated by our operations, after allocating funds for our operational needs and investment plans.

Seasonality

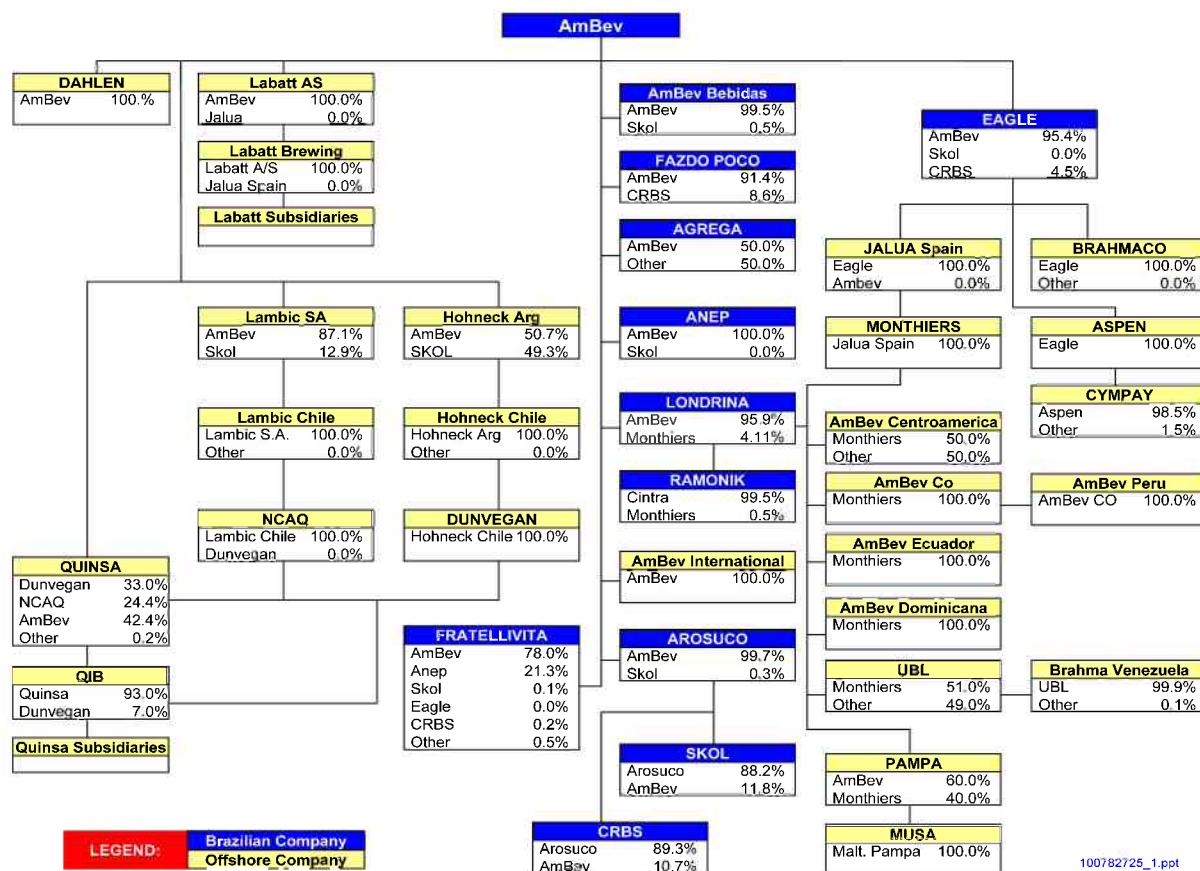

Sales of beverages in our markets are seasonal. Generally, sales are stronger during the summer and major holidays. Therefore, in the Southern Hemisphere (Latin America North and Latin America South) volumes are usually stronger in the fourth quarter due to early summer and year-end festivities. In Canada, volumes are stronger in the second and third quarters due to the summer season. This is demonstrated by the table below, which sets forth our volumes by quarter and business division:

2008 Quarterly Volumes					
<i>(As a percentage of annual volumes)</i>					
	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	2008

If the Applicable Market Rate cannot be calculated as described above, it will be determined by reference to the quotations received from three leading Brazilian banks selected by the Issuer. The Applicable Market Rate will then be the average of the <i>Real</i> -U.S. dollar exchange rates obtained from the Brazilian reference banks. If only two quotations are obtained, the Applicable Market Rate will then be the average of the <i>Real</i> /U.S. dollar exchange rates obtained from the Brazilian reference banks. If only one such quotation is obtained, the Applicable Market Rate will then be that quotation. In the event that no quotations are obtained from the Brazilian reference banks, if we determine in our sole discretion that there are one or two other suitable replacement banks active in the currency and foreign exchange market that could provide quotations of the <i>Real</i> -U.S. dollar exchange rate, the calculation agent shall ask such banks to provide such quotations and will use such quotations we receive from them to determine the Applicable Market Rate (taking an average rate, as set forth above, if applicable).

BRL12 Rate	The EMTA BRL Industry Survey Rate (BRL12), which is the final <i>Real</i> /U.S. dollar specified rate of U.S. dollars, expressed as the amount of <i>Reais</i> per one U.S. dollar, published on EMTA’s website (www.emta.org) for the Rate Determination Date. BRL12 is calculated by EMTA (or a service provider EMTA may select in its sole discretion) using the EMTA BRL Industry Survey Methodology dated as of March 1, 2004, as amended from time to time, pursuant to which EMTA conducts a twice-daily survey of up to 15 Brazilian financial institutions that are active participants in the <i>Real</i> /U.S. dollar spot market, with a required minimum participation of at least five financial institutions.
Rate Determination Date	The third business day preceding each scheduled interest or principal payment date or the third business day preceding the date on which any payment is made in respect of the notes following an acceleration of the maturity of the notes.
Reference Banks	Three leading Brazilian banks selected by the Issuer in its sole discretion.
Business Day	A day, other than a Saturday or Sunday, on which commercial banks and foreign exchange markets are open, or not authorized to close, in the City of New York; provided, however, that solely for the purposes of determining the Applicable Market Rate, “business day” means a day, other than a Saturday or Sunday, on which commercial banks and foreign exchange markets are open, or not authorized to close, in the City of São Paulo, Brazil, and the City of New York.
Payment of Additional Amounts	The Issuer in respect of the notes will pay additional amounts in respect of any payments of interest or principal so that the amount you receive after Brazilian withholding tax, duties, assessments or other governmental charges of any nature, will equal the amount that you would have received if no withholding tax had been applicable, subject to certain exceptions. See “Description of the Notes—Additional Amounts.”
Optional Redemption.....	We may redeem all or a portion of the notes at any time or from time to time, at a price equal to 100% of the principal amount of the notes, plus accrued and unpaid interest. See “Description of the Notes—Optional Redemption.”
Covenants	The indenture governing the notes will contain restrictive covenants that, among other things and subject to certain exceptions, limit the ability of the Issuer to: <ul style="list-style-type: none"> • incur liens; and • consolidate, merge or transfer assets.

Events of Default	<p>The notes and the indenture will contain certain events of default, consisting of, among others, the following:</p> <ul style="list-style-type: none"> • failure to pay principal when due; • failure to pay interest and other amounts within 30 days of the due date therefor; • breach of a covenant or agreement in the indenture, and any of the other relevant transaction documents by the Issuer; • acceleration of indebtedness of the Issuer or a Material Subsidiary (as defined elsewhere in this offering memorandum) or a failure to pay indebtedness when due or at final maturity that, in aggregate, equals or exceeds U.S.\$50 million; • certain judgment against the Issuer or a Material Subsidiary that equals or exceeds U.S.\$50 million; • certain events of bankruptcy, liquidation or insolvency of the Issuer or any Material Subsidiary; • condemnation or seizure of all or a substantial part of the aggregate property and assets of the Issuer or a Material Subsidiary; and • certain events which result in the notes or the indenture cease to be in full force and effect and binding and enforceable against the Issuer.

RISK FACTORS

Before making an investment decision, you should consider all of the information set forth in this offering memorandum, including the risk factors described below and the risk factors in our Form 20-F for the year ended December 31, 2008. In particular, you should consider the special features applicable to an investment in Brazil and applicable to an investment in the Issuer.

For purposes of this section, when we state that a risk, uncertainty or problem may, could or would have an “adverse effect” on us, we mean that the risk, uncertainty or problem may, could or would have an adverse effect on our business, financial condition, liquidity, results of our operations or prospects, except as otherwise indicated or as the context may otherwise require. You should view similar expressions in this section as having a similar meaning.

This offering memorandum also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks faced by us described below and elsewhere in this offering memorandum.

Risks Relating To the Notes

Interest and principal payments on your notes will depend on the exchange rate between the Real and the U.S. dollar at the time of the relevant payment.

You are assuming the foreign exchange risk in connection with payments on the notes. Since the notes are denominated in *Reais* and the interest and principal payments we make on the notes is determined by reference to the *Real*-U.S. dollar exchange rate, you will bear all of the risk that the *Real* may depreciate, and if the *Real* were to depreciate over the life of the notes, the interest and principal payments you receive on the notes would decrease, perhaps significantly. Brazil has historically experienced periods of extreme volatility. In 1999, after the Central Bank allowed the *Real*-U.S. dollar exchange rate to float freely, the *Real* depreciated by 32.4%. Between January 1, 2000 and December 31, 2004, the *Real* depreciated 8.5% against the U.S. dollar, depreciating by 8.5%, 15.7% and 34.3%, respectively, in 2000, 2001 and 2002 and appreciating by 22.3% in 2003, 8.8% in 2004, 13.4% in 2005, 9.5% in 2006 and 20.7% appreciation 2007. During 2008, as a result of financial market volatility, the *Real* depreciated by 24.2%. The *Real* has appreciated in 2009 to 23.9% on September 30, 2009. If the *Real* were to depreciate again against the U.S. dollar, the principal amount due at the maturity or upon redemption of the notes and payable in US dollars could be significantly less than the initial amount you invested, and you could lose a significant portion of your investment in the notes. See “Exchange Controls and Foreign Exchange Rates” for a history of the exchange rate between the *Real* and the U.S. dollar.

We may not be able to generate sufficient cash to service all of our indebtedness, including the notes, and be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make scheduled payments or to refinance our debt obligations depends on our financial and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors, some of which may be beyond our control. We cannot assure you that we will maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness, including the notes. If we cannot make scheduled payments on our debt, we will be in default and, as a result our debt holders could declare all outstanding principal and interest to be due and payable.

We and our subsidiaries may be able to incur substantial additional indebtedness in the future. The terms of the indenture do not prohibit us or our subsidiaries from doing so. If we incur any additional indebtedness that ranks equally with the notes, the holders of that debt will be entitled to share ratably with you in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding-up of us. This may have the effect of reducing the amount of proceeds paid to you.

Payments on the notes will be junior to any secured debt obligations of the Issuer

The notes will constitute unsecured unsubordinated obligations of the Issuer and will rank equal in right of payment with all of the other existing and future unsecured unsubordinated indebtedness of the Issuer. Although the holders of the notes will have a direct, but unsecured claim on the assets and property of the Issuer, payment on the notes will be subordinated to any secured debt of the Issuer, if any, to the extent of the assets and property securing such debt. Payment on the notes will also be effectively subordinated to the payment of secured and unsecured debt and other creditors of the Issuer. In addition, under Brazilian law, the obligations of the Issuer under the notes are subordinated to certain statutory preferences, including claims for salaries, wages, secured obligations, social security, taxes, court fees, expenses and costs. In the event of the Issuer's liquidation, such statutory preferences will have preference over any other claims, including claims by any holder of the notes.

Any right of the holders of the notes to participate in the assets of the Issuer and the assets of the Issuer's subsidiaries upon any liquidation or reorganization will be subject to the prior claims of the Issuer's secured creditors and the creditors of its subsidiaries. The indenture relating to the notes includes a limitation on the Issuer's ability, in the future, to create liens, although such limitation is subject to certain significant exceptions.

The Issuer conducts a portion of its business operations through its subsidiaries. In servicing payments to be made on the notes, AmBev will rely, in part, on cash flows from these subsidiaries, mainly dividend payments.

The ability of these subsidiaries to make dividend payments to AmBev will be affected by, among other factors, the obligations of these entities to their creditors, requirements of Brazilian corporate and other law, and restrictions contained in agreements entered into by or relating to these entities.

Our obligations under the notes are subordinated to certain statutory liabilities.

Under Brazilian law, our obligations under the notes and the indenture are subordinated to certain statutory preferences. In the event of our bankruptcy, and according to the Brazilian bankruptcy law, such statutory preferences, such as certain claims for salaries and wages up to a certain limit, social security and other taxes, court fees and expenses, will have preference over any other claims, including claims by any investor in respect of the notes.

The relative volatility and illiquidity of the securities issued by Brazilian issuers may substantially limit your ability to sell the notes at the price and time you desire.

Investing in securities of companies in emerging markets, such as Brazil, involves greater risk than investing in securities of companies from more developed countries and such investments are generally considered speculative in nature.

Brazilian investments are subject to economic and political risks, involving, among others:

- Changes in the regulatory, tax, economic and political environment that may affect the ability of investors to receive payment, in whole or in part, in respect of their investments; and
- Restrictions on foreign investment and on repatriation of capital invested.

The Brazilian securities markets are substantially smaller, less liquid, more concentrated and more volatile than major U.S. and European securities markets. The relatively small market capitalization and illiquidity of the Brazilian securities markets have a strong influence in the markets outside Brazil where our securities are traded and may substantially limit your ability to sell the notes at the price and time you desire.

There may not be a liquid trading market for the notes.

There can be no assurance that a liquid trading market for the notes will develop or, if one develops, that it will be maintained. If an active market for the notes does not develop, the price of the notes and the ability of a holder of notes to find a ready buyer will be adversely affected.

Deterioration in economic and market conditions in other emerging market countries may adversely affect the market price of AmBev's securities.

Economic and market conditions in other emerging market countries, especially those in Latin America, influence the market for securities issued by Brazilian companies and investors' perception of economic conditions in Brazil. Past economic crises in emerging markets, such as in Southeast Asia, Russia and Argentina, triggered securities market volatility in Brazil and other emerging market countries' securities markets. In the recent past, Argentina, Venezuela, Uruguay and Paraguay experienced a significant economic downturn. The market value of the notes may therefore be adversely affected by events occurring outside of Brazil.

Judgments of Brazilian courts enforcing our obligations under the notes or the indenture would be payable only in Reais.

Any judgment obtained in a court in Brazil in case judicial proceedings were brought in Brazil seeking to enforce our obligations under the notes or the indenture would be expressed in Brazilian currency equivalent to the amount of foreign currency of such sum at the prevailing exchange rate: (i) at the date the debt was originally due; or (ii) at the date on which the judicial proceeding was filed; or (iii) at the date the judgment is rendered, in which cases the inflation adjustment of the amount due should be made in accordance with the indexes established by the court; or (ii) at the date that the payment is actually made, as determined by the Brazilian court hearing the proceeding. Upon the rendering of such a judgment, we would be able to satisfy our obligations under the notes (a) upon payment in Brazil, in Brazilian currency, or (b) upon remittance abroad of the foreign currency equivalent amount to the amount in Brazilian currency expressed in said judgment, converted according to the exchange rate prevailing at the date of such remittance, subject to the validity of the registration of the notes with the Central Bank.

Controls and restrictions on foreign currency remittance could impede our ability to make payments under the notes.

Brazilian law provides that whenever there is a serious imbalance in Brazil's balance of payments or reasons to foresee a serious imbalance, the Brazilian government may impose temporary restrictions on the remittance to foreign investors of the proceeds of their investments in Brazil.

We cannot assure you that mechanisms for the transfer of *Reais* and conversion into U.S. dollars will continue to be available at the time we are required to perform our obligations under the notes or the indenture or that a more restrictive control policy, which could affect our ability to make payments under the notes or the indenture in U.S. dollars, will not be instituted in the future. If such financial mechanisms are not available, the Issuer may have to rely on a special authorization from the Central Bank to make payments under the notes in U.S. dollars. We cannot assure you that any such Central Bank approval would be obtained or that such approval would be obtained on a timely basis.

There are significant restrictions on your ability to transfer or resell your notes.

The notes have not been registered under the Securities Act or any state securities laws and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. Such exemptions include offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act and in accordance with any applicable securities laws of any other jurisdiction and sales to qualified institutional buyers as defined under Rule 144A under the Securities Act. For a discussion of certain restrictions on resale and transfer, see "Notice to Investors." Therefore, you may be required to bear the risk of your investment for an indefinite period of time.

Changes in our credit ratings may adversely affect the value of the notes.

Credit ratings are limited in scope, and do not address all material risks relating to an investment in the notes, but rather reflect only the view of each rating agency at the time the rating is issued. An explanation of the significance of such rating may be obtained from such rating agency. There can be no assurance that such credit ratings will remain in effect for any given period of time or that such ratings will not be lowered, suspended or withdrawn entirely by the rating agencies, if, in each rating agency's judgment, circumstances so warrant. Actual or

anticipated changes or downgrades in our credit ratings, including any announcement that our ratings are under further review for a downgrade, could affect the market value of the notes and increase our corporate borrowing costs.

Book-entry registration

Because transfers and pledges of global notes can be effected only through book entries at the DTC, the liquidity of any secondary market for global notes may be reduced to the extent that some investors are unwilling to hold notes in book-entry form in the name of a DTC participant. The ability to pledge global notes may be limited due to the lack of a physical certificate. Beneficial owners of global notes may, in certain cases, experience delay in the receipt of payments of principal and interest since such payments will be forwarded by the paying agent to DTC who will then forward payment to the respective DTC participants, who will thereafter forward payment directly, or indirectly through Euroclear or Clearstream, to beneficial owners of the global notes. In the event of the insolvency of DTC or of a DTC participant in whose name global notes are recorded, the ability of beneficial owners to obtain timely payment and (if the limits of applicable insurance coverage by the Securities Investor Protection Corporation are exceeded, or if such coverage is otherwise unavailable) ultimate payment of principal and interest on global notes may be impaired.

USE OF PROCEEDS

The net proceeds from the sale of the notes, after deducting amounts paid in connection with commissions and other expenses of the offering, are expected to amount to approximately R\$209.4 million. These amounts will be used by the Issuer for general corporate purposes. The occurrence of unforeseen events or changed business conditions could result in the application of the proceeds of this offering in a manner other than as described in this offering memorandum.

EXCHANGE CONTROLS AND FOREIGN EXCHANGE RATES

The exchange rate on December 11, 2009, the last available official exchange rate published by the Central Bank before the date of this offering memorandum was R\$1.75 to U.S.\$1.00. For information regarding exchange controls and foreign exchange rates in Brazil, please see “Key Information—Exchange Rate Information—Exchange Controls” in our Form 20-F.

- The notes will be in an aggregate principal amount of R\$209,796,000.
- The Issuer will pay all amounts due in respect of principal or interest on the notes (including Additional Amounts) in U.S. dollars, as calculated by the calculation agent by translating the *Real* amount into U.S. dollars at the Applicable Market Rate for the applicable Rate Determination Date.
- The notes will bear interest at a fixed note rate of 13.20% per annum from the date of issuance until all required amounts due in respect thereof have been paid. Interest on the notes will be paid annually on December 15 of each year, commencing on December 15, 2010, to the noteholders registered as such as of the close of business on a record date being the tenth business day preceding such payment date. Interest on the notes will be computed on the basis of a 360-day year of twelve 30-day months.
- The notes will be issued in fully registered form, without coupons, in minimum denominations of R\$250,000 and integral multiples of R\$1,000 in excess thereof.

RANKING

The notes will be general senior unsecured and unsubordinated obligations of the Issuer and will rank *pari passu* amongst themselves and equal in right of payment with all other unsecured and unsubordinated obligations of the Issuer (other than obligations preferred by statute or by operation of law).

LISTING

Application has been made to admit the notes to listing on the Official List of the Luxembourg Stock Exchange and to trading on the Euro MTF Market. See “Listing and General Information.”

FURTHER ISSUANCES

The indenture by its terms does not limit the aggregate principal amount of notes that may be issued thereunder and permits the issuance, from time to time, of additional notes of the same series as is being offered hereby, provided that among other requirements (i) no Default or Event of Default under the indenture shall have occurred and then be continuing or shall occur as a result of such additional issuance and (ii) such additional notes rank *pari passu* and have equivalent terms and benefits as the notes offered hereby except for the original issuance date. Any additional notes will be part of the same series as the notes that the Issuer is currently offering and will vote on all matters with the notes as a single class.

PAYMENTS OF PRINCIPAL AND INTEREST

Payment of the principal of the notes, together with accrued and unpaid interest thereon at the note rate, or payment upon redemption prior to maturity, will be made only:

- following the surrender of the notes at the office of the trustee or any other paying agent; and

- to the person in whose name the note is registered as of the close of business, New York City time, on the due date for such payment.

Payments of interest on a note, other than the last payment of principal and interest or payment in connection with a redemption of the notes prior to maturity, will be made on each payment date to the person in whose name the note is registered at the close of business, New York City time, on the record date, which shall be the date ten business days prior to such payment date, immediately preceding each such payment date.

Payments of principal and interest shall be made by depositing immediately available funds in U.S. dollars into an account maintained by the trustee, acting on behalf of the noteholders.

All amounts due in respect of principal or interest on the notes (including Additional Amounts) will be paid in U.S. dollars, calculated by the calculation agent by translating the *Real* amounts into U.S. dollars at the Applicable Market Rate on the applicable Rate Determination Date. Capitalized terms used in the preceding sentence shall have the following meanings:

“Applicable Market Rate” means, for any Rate Determination Date, the rate determined by the calculation agent (the “R\$ Ptax Rate”) that is equal to the *Real*/U.S. dollar commercial rate, expressed as the amount of *Reais* per one U.S. dollar as reported by the Central Bank on the SISBACEN Data System under transaction code PTAX800 (“*Consultas de Câmbio*” or Exchange Rate Enquiry), Option 5, “*Venda*” (“*Cotações para Contabilidade*” or Rates for Accounting Purposes) (or any successor screen established by the Central Bank), for such Rate Determination Date; provided, however, that if the Ptax Rate scheduled to be reported on any Rate Determination Date is not reported by the Central Bank on such Rate Determination Date, then the Applicable Market Rate will be BRL12. If the Applicable Market Rate cannot be calculated as described above, the calculation agent will determine the Applicable Market Rate by reference to the quotations received from three leading Brazilian banks as shall be selected by the Issuer in its sole discretion (collectively, the “Reference Banks”). The quotations will be determined in each case for such Rate Determination Date as soon as practicable after it is determined that the Applicable Market Rate cannot be calculated as described above for such Rate Determination Date. The calculation agent will ask each of the Reference Banks for quotations for the offered *Real*/U.S. dollar exchange rate for the sale of U.S. dollars. The Applicable Market Rate will be the average of the *Real*/U.S. dollar exchange rates obtained from the Reference Banks. If only two quotations are obtained, the Applicable Market Rate will then be the average of the *Real*/U.S. dollar exchange rates obtained from the Reference Banks. If only one quotation is obtained, the Applicable Market Rate will be that quotation. Where no such quotations are obtained from the Reference Banks, if the Issuer determines in its sole discretion that there are one or two other suitable replacement banks active in the *Real*/U.S. dollar market, the calculation agent shall ask such banks to provide such quotations and shall use such quotations as it receives to determine the Applicable Market Rate (taking an average rate, as set forth above, if applicable).

“BRL12” means the EMTA BRL Industry Survey Rate (BRL12), which is the final *Real*/U.S. dollar specified rate of U.S. dollars, expressed as the amount of *Reais* per one U.S. dollar, published on EMTA’s website (www.emta.org) for the Rate Determination Date. BRL12 is calculated by EMTA (or a service provider EMTA may select in its sole discretion) using the EMTA BRL Industry Survey Methodology dated as of March 1, 2004, as amended from time to time, pursuant to which (as of the date of this offering memorandum) EMTA conducts a twice-daily survey of up to 15 Brazilian financial institutions that are active participants in the *Real*/U.S. dollar spot market, with a required minimum participation of at least five financial institutions.

“Business day” means a day, other than a Saturday or Sunday, on which commercial banks and foreign exchange markets are open, or not authorized to close, in the City of New York; provided, however, that solely for the purposes of determining the Applicable Market Rate, “business day” means a day, other than a Saturday or Sunday, on which commercial banks and foreign exchange markets are open, or not authorized to close, in São Paulo, Brazil, and the City of New York.

“Rate Determination Date” means the third business day preceding each scheduled interest or principal payment date or the third business day preceding the date on which any payment is made in respect of the notes following an acceleration of the maturity of the notes.

The Issuer has appointed Deutsche Bank Trust Company Americas as the calculation agent.

The notes will initially be represented by one or more global notes, as described herein. Payments of principal and interest on the global notes will be made to DTC or its nominee, as the case may be, as registered holder thereof. It is expected that such registered holder of global notes will receive the funds for distribution to the holders of beneficial interests in the global notes. Neither the Issuer nor the trustee shall have any responsibility or liability for any of the records of, or payments made by, DTC or its nominee or Euroclear or Clearstream.

If any date for a payment of principal or interest or redemption is not a business day in the city in which the relevant paying agent is located, the Issuer will make the payment on the next business day in the respective city. No interest on the notes will accrue as a result of this delay in payment.

The Issuer has appointed the New York paying agent to receive payment of the principal amount of and interest on the notes. The Issuer will be required to make all payments of principal of and interest and other amounts on the notes to the principal paying agent by 1:00 p.m. (New York City time) on the business day prior to the applicable payment date and otherwise in accordance with the terms of the indenture.

Payments in respect of the notes will be made in the coin or currency of the United States of America as at the time of payment shall be legal tender for the payment of public and private debts.

To the extent that funds are received in excess of those required to satisfy the Issuer's obligations under the notes and the indenture then due and payable, the trustee shall be required to deposit such excess amounts in a segregated account until the next payment date when such funds shall be used by the trustee to satisfy the Issuer's obligations under the notes.

In the case of amounts not paid by the Issuer under the notes (after giving effect to any applicable grace period therefor), interest will continue to accrue on such amounts (except as provided below) at a rate equal to the default rate (i.e., 1% per annum in excess of the note rate), from and including the date when such amounts were due (after giving effect to any applicable grace period therefor), and through but excluding the date of payment by the Issuer.

Subject to applicable law, the trustee and the paying agents will pay to the Issuer upon request any monies held by them for the payment of principal or interest that remains unclaimed for two years. Thereafter, noteholders entitled to these monies must seek payment solely from the Issuer.

ADDITIONAL AMOUNTS

Except as provided below, the Issuer will make all payments of principal and interest on the notes without withholding or deducting any present or future taxes, duties, assessments or other governmental charges of any nature imposed by the Brazil or any political subdivision of Brazil. If the Issuer is required by law to withhold or deduct any such taxes, duties, assessments or other governmental charges, except as provided below, the Issuer will pay the noteholders any additional amounts necessary to ensure that they receive the same amount as they would have received without such withholding or deduction.

The Issuer will not, however, pay any additional amounts in connection with any tax, duty, assessment or other governmental charge that is imposed due to any of the following:

- the noteholder or beneficial owner has some connection (present or former) with the taxing jurisdiction other than merely holding the notes or receiving principal or interest payments on the notes (such as citizenship, nationality, residence, domicile, or existence of a business, a permanent establishment, a dependent agent, a place of business or a place of management present or deemed present within the taxing jurisdiction);
- any tax imposed on, or measured by, net income;
- the noteholder or beneficial owner fails to comply with any certification, identification or other reporting requirements concerning its nationality, residence, identity or connection with the taxing

jurisdiction, if (i) such compliance is required by applicable law, regulation, administrative practice or treaty as a precondition to exemption from all or a part of the tax, duty, assessment or other governmental charge, (ii) the noteholder or beneficial owner is able to comply with such requirements without undue hardship and (iii) at least 30 calendar days prior to the first payment date with respect to which such requirements under the applicable law, regulation, administrative practice or treaty shall apply, the Issuer or the trustee has notified all noteholders that they will be required to comply with such requirements;

- the noteholder fails to present (where presentation is required) its note within 30 calendar days after the Issuer has made available to the noteholder a payment of principal or interest, provided that the Issuer will pay additional amounts which such noteholder would have been entitled to had the note owned by such noteholder been presented on any day (including the last day) within such 30-day period;
- any estate, inheritance, gift, value added, use or sales taxes or any similar taxes, assessments or other governmental charges; and
- any combination of the foregoing.

The Issuer will also (i) make such withholding or deduction and (ii) remit the full amount withheld or deducted to the relevant taxing authority in accordance with applicable law. Upon written request from the trustee, the Issuer will furnish to the trustee, within five business days after the delivery of such written request, certified copies of tax receipts or, if such receipts are not obtainable, documentation reasonably satisfactory to the trustee evidencing such payment by the Issuer. Upon written request of the noteholders to the trustee, copies of such receipts or other documentation, as the case may be, will be made available to the noteholders. At least 10 business days prior to each date on which any payment under or with respect to the notes is due and payable, if the Issuer is obligated to pay additional amounts with respect to such payment, the Issuer, as applicable, will deliver to the trustee an officers' certificate stating that additional amounts will be payable, the amounts so payable and setting forth such other information as the trustee shall reasonably require for tax purposes.

The Issuer will, upon the written request of any noteholder, indemnify and hold harmless and reimburse such noteholder for the amount of any taxes, duties, assessments or other governmental charges of any nature imposed by Brazil or any political subdivision of Brazil (other than any such taxes, duties, assessments or other governmental charges for which the noteholder would not have been entitled to receive additional amounts pursuant to any of the conditions described in the second paragraph of this section titled "Additional Amounts") so imposed on, and paid by, such noteholder as a result of any payment of principal or interest on the notes, so that the net amount received by such noteholder after such reimbursement would not be less than the net amount the noteholder would have received if such taxes, duties, assessments or other governmental charges would not have been imposed or levied and so paid.

The Issuer will pay any stamp, administrative, court, documentary, excise or property taxes arising in Brazil in connection with the notes and will indemnify the noteholders for any such taxes paid by noteholders.

All references to principal, interest, or other amounts payable on the notes shall be deemed to include any additional amounts payable by the Issuer under the notes or the indenture. The foregoing obligations shall survive any termination, defeasance or discharge of the notes and the indenture.

If the Issuer shall at any time be required to pay additional amounts to noteholders pursuant to the terms of the notes and the indenture, the Issuer will use its reasonable endeavors to obtain an exemption from the payment of (or otherwise avoid the obligation to pay) the tax, assessment or other governmental charge which has resulted in the requirement that it pay such additional amounts.

CERTAIN COVENANTS

For so long as any of the notes are outstanding and the Issuer has obligations under the indenture and the notes, the Issuer will comply with the terms of the covenants, among others, set forth below:

Performance of obligations under the notes and the indenture

The Issuer shall duly and punctually pay all amounts owed by it, and comply with all its other obligations, under the terms of the notes and the indenture.

Maintenance of corporate existence

The Issuer will, and will cause each of its subsidiaries to, maintain in effect its corporate existence and all registrations necessary therefor and take all reasonable actions to maintain all rights, privileges, titles to property, franchises, concessions and the like necessary or desirable in the normal conduct of its business, activities or operations; provided that, this covenant shall not require the Issuer or any of its subsidiaries to maintain any such right, privilege, title to property or franchise or the like or require the Issuer to preserve the corporate existence of any subsidiary, if the failure to do so does not, and will not, have a material adverse effect on the Issuer and its subsidiaries taken as a whole or have a material adverse effect on the rights of the noteholders.

Maintenance of properties

The Issuer will, and will cause each of its subsidiaries to, keep all its property used or useful in the conduct of its business in good working order and condition, ordinary wear and tear excepted; *provided* that, this covenant shall not require the Issuer or any of its subsidiaries to maintain any such right, privilege, title to property or franchise if the failure to do so does not, and will not, have a material adverse effect on the Issuer and its subsidiaries taken as a whole or have a material adverse effect on the rights of the noteholders.

Compliance with laws

The Issuer will comply, and will cause its subsidiaries to comply with all applicable laws, rules, regulations, orders and directives of any government or government authority or agency having jurisdiction over the Issuer, the Issuer's business or any of the transactions contemplated herein, except where the failure so to comply would not have a material adverse effect on the Issuer and its subsidiaries taken as a whole or have a material adverse effect on the rights of the noteholders.

Maintenance of government approvals

The Issuer will, and will cause its subsidiaries to, duly obtain and maintain in full force and effect all governmental approvals, consents or licenses of any government or government agency or authority under the laws of Brazil or any other jurisdiction having jurisdiction over the Issuer or its subsidiaries necessary in all cases for the Issuer to perform its respective obligations under the notes and the indenture (including, without limitation, any authorization required to obtain and transfer U.S. dollars or any other currency which at that time is legal tender in the United States or out of Brazil in connection with the notes and the indenture) or for the validity or enforceability thereof, except where the failure to do so would not have a material adverse effect on the Issuer and its subsidiaries taken as a whole or have a material adverse effect on the rights of the noteholders.

Payments of taxes and other claims

The Issuer will, and will cause each of its subsidiaries to, pay or discharge or cause to be paid or discharged, before the same shall become delinquent, (i) all taxes, assessments and governmental charges levied or imposed upon the Issuer or such subsidiary, as the case may be, and (ii) all lawful claims for labor, materials and supplies which, if unpaid, might by law become a lien upon the property of the Issuer or such subsidiary, as the case may be; *provided, however*, that neither the Issuer nor any subsidiary will be required to pay or discharge or cause to be paid or discharged any such tax, assessment, charge or claim whose amount, applicability or validity is being contested in good faith and, if appropriate, by appropriate legal proceedings or where the failure to do so would not have a material adverse effect on the Issuer and its subsidiaries taken as a whole or have a material adverse effect on the rights of the noteholders.

Maintenance of books and records

The Issuer shall maintain books, accounts and records in all material respects in accordance with applicable law.

Maintenance of office or agency

The Issuer shall maintain an office or agency in the Borough of Manhattan, The City of New York, where notices to and demands upon the Issuer in respect of the indenture and the notes may be served. Initially this office will be at the offices of Anheuser-Busch InBev Services, LLC located at 250 Park Avenue, New York, New York 10177, and the Issuer will agree not to change the designation of such office without prior notice to the trustee and designation of a replacement office in the same general location.

Ranking

The Issuer will ensure that the notes will constitute general senior, unsecured and unsubordinated obligations of the Issuer and will rank *pari passu*, without any preferences among themselves, with all other present and future unsecured and unsubordinated obligations of the Issuer (other than obligations preferred by statute or by operation of law).

Notice of certain events

The Issuer will give notice to the trustee, as soon as is practicable and in any event within 10 calendar days after the Issuer becomes aware or should reasonably become aware, of the occurrence of any Event of Default or an event which with the passage of time or other action would become an Event of Default (a “Default”), accompanied by a certificate of a responsible officer of the Issuer setting forth the details of such Event of Default or Default and stating what action that the Issuer proposes to take with respect thereto.

Limitation on consolidation, merger, sale or conveyance

The Issuer will not, in one or a series of transactions, consolidate or amalgamate with or merge into any corporation or convey, lease or transfer all or substantially all of its properties, assets or net sales to any person (other than a direct or indirect subsidiary of the Issuer) or permit any person (other than a direct or indirect subsidiary of the Issuer) to merge with or into it unless:

- either the Issuer is the continuing entity or the person formed by such consolidation or into which the Issuer is merged or that acquired or leased such property or assets of the Issuer will be a company organized and validly existing under the laws of Brazil or the United States and shall assume (jointly and severally with the Issuer unless the Issuer shall have ceased to exist as part of such merger, consolidation or amalgamation), by a supplemental indenture (the form and substance of which shall be previously approved by the trustee), or by operation of law, all of the Issuer’s obligations on the notes and under the indenture;
- the successor company (jointly and severally with the Issuer unless the Issuer shall have ceased to exist as a result of such merger, consolidation or amalgamation) agrees to indemnify each noteholder against any tax, assessment or governmental charge thereafter imposed on such noteholder solely as a consequence of such consolidation, merger, conveyance, transfer or lease with respect to the payment of principal of, or interest on, the notes;
- immediately after giving effect to the transaction, no Event of Default or a Default has occurred and is continuing; and
- the Issuer has delivered to the trustee an officers’ certificate and an opinion of counsel, each stating that the transaction and the supplemental indenture, if applicable, comply with the indenture and that all conditions precedent provided for in the indenture and relating to such transaction have been complied with.

Notwithstanding anything to the contrary in the foregoing, so long as no event or condition that, with the giving of notice, the lapse of time or failure to satisfy certain specified conditions, or any combination thereof, would constitute an Event of Default under the indenture or the notes or an Event of Default shall have occurred and be continuing at the time of such proposed transaction or would result therefrom:

- the Issuer may merge or consolidate with or into, or convey, transfer, lease or otherwise dispose of assets to a direct or indirect subsidiary of the Issuer in cases when the Issuer is the surviving entity in such a transaction and such transaction would not have a material adverse effect on the Issuer and its subsidiaries taken as a whole, it being understood that if the Issuer is not the surviving entity, the Issuer shall be required to comply with the requirements set forth in the previous paragraph; or
- any direct or indirect subsidiary of the Issuer may merge or consolidate with or into, or convey, transfer, lease or otherwise dispose of assets to, any person (other than the Issuer or any of its subsidiaries or affiliates) in cases when such transaction would not have a material adverse effect on the Issuer and its subsidiaries taken as a whole; or
- any direct or indirect subsidiary of the Issuer may merge or consolidate with or into, or convey, transfer, lease or otherwise dispose of assets to, any other direct or indirect subsidiary of the Issuer; or
- any direct or indirect subsidiary of the Issuer may liquidate or dissolve if the Issuer determines in good faith that such liquidation or dissolution is in the best interests of the Issuer, and would not result in a material adverse effect on the Issuer and its subsidiaries taken as a whole and if such liquidation or dissolution is part of a corporate reorganization of the Issuer.

Limitation on liens

The Issuer will not, and will not cause or permit any of its subsidiaries to, issue, assume or guarantee any Indebtedness, if that Indebtedness is secured by a Lien upon any Issuer Specified Property now owned or hereafter acquired, unless, together with the issuance, assumption or guarantee of such Indebtedness, the notes shall be secured equally and ratably with (or prior to) such Indebtedness.

This restriction does not apply to:

- (i) any Lien in existence on the date of the indenture;
- (ii) any Lien on any property acquired, constructed or improved by the Issuer or any of its subsidiaries after the date of the indenture which is created, incurred or assumed contemporaneously with, or within 12 months after, that acquisition (or in the case of any such property constructed or improved, after the completion or commencement of commercial operation of such property, whichever is later) to secure or provide for the payment of any part of the purchase price of such property or the costs of that construction or improvement (including costs such as escalation, interest during construction and finance costs); *provided* that in the case of any such construction or improvement the Lien shall not apply to any other property owned by the Issuer or any of its subsidiaries, other than any unimproved real property on which the property so constructed, or the improvement, is located;
- (iii) any Lien on Issuer Specified Property which secures Indebtedness owing to an Official Lender;
- (iv) any Lien on any property existing at the time of its acquisition and which is not created as a result of or in connection with or in anticipation of that acquisition (unless such Lien was created to secure or provide for the payment of any part of the purchase price of that property);
- (v) any Lien on any property acquired from a corporation or any other Person which is merged with or into the Issuer or its subsidiaries, or any Lien existing on property of a corporation or any other Person which existed at the time such corporation becomes a subsidiary of the Issuer and, in either case, which is not created as a result of or in connection with or in anticipation of any such transaction (unless such Lien was created to secure or provide for the payment of any part of the purchase price of such corporation);
- (vi) any Lien which secures only Indebtedness owing by any of the Issuer's subsidiaries, to one or more of the Issuer's subsidiaries or to the Issuer and one or more of the Issuer's subsidiaries;

- (vii) any Lien arising by operation of law and arising in the ordinary course of business of the Issuer or its subsidiaries, such as tax, merchants', maritime or other similar liens (including any judicial liens);
- (viii) any extension, renewal or replacement (or successive extensions, renewals or replacements), in whole or in part, of any Lien referred to in the foregoing clauses (i) through (vii) inclusive; *provided* that the principal amount of Indebtedness secured thereby shall not exceed the principal amount of Indebtedness so secured at the time of such extension, renewal or replacement, and that such extension, renewal or replacement shall be limited to all or a part of the property which secured the Lien so extended, renewed or replaced (plus improvements on such property); and
- (ix) any Lien of the Issuer or any of its subsidiaries that does not fall within paragraphs (i) through (viii) above and that secures an aggregate amount of Indebtedness which, when aggregated with Indebtedness secured by all other Liens of the Issuer and its subsidiaries permitted under this paragraph (ix) at any time does not exceed 10% of Consolidated Net Tangible Assets at the time any such Indebtedness is issued, assumed by the Issuer or any of its subsidiaries or at the time any such Lien is entered into.

As used herein, the following terms have the respective meanings set forth below:

The Issuer shall not, and shall not permit any of its subsidiaries to, enter into or carry out (or agree to enter into or carry out) any transaction or arrangement with any affiliate, except for any transaction or arrangement entered into or carried out on terms no less favorable to the Issuer or such subsidiary than those which could have been obtained on an arm’s-length basis with a person that is not an affiliate; *provided, however*, that the foregoing shall not apply to transactions between or among the Issuer and/or any of its respective subsidiaries not involving any other person so long as consummation of any such transaction will not have a material adverse effect on the Issuer and its subsidiaries taken as a whole or have a material adverse effect on the rights of the noteholders.

Provision of financial statements and reports

The Issuer will provide to the trustee, in English or accompanied by an English translation thereof, as soon as available and in any case within 60 calendar days after the end of each fiscal quarter (other than the fourth

The Issuer will, at its own cost and expense, and will cause its subsidiaries to, at their own cost and expense, satisfy any condition or take any action (including the obtaining or effecting of any necessary consent, approval, authorization, exemption, filing, license, order, recording or registration) at any time required, as may be necessary or as the trustee may reasonably request, in accordance with applicable laws and/or regulations, to be taken, fulfilled or done in order (a) to enable the Issuer to lawfully enter into, exercise its rights and perform and comply with its obligations under the notes and the indenture, (b) to ensure that the Issuer's obligations under the notes and the indenture are legally binding and enforceable, (c) to make the notes and the indenture admissible in evidence in the courts of the State of New York or Brazil, (d) to enable the trustee to exercise and enforce its rights under and carry out the terms, provisions and purposes of the notes and the indenture, (e) to take any and all action necessary to preserve the enforceability of, and maintain the trustee's rights under the notes and the indenture and (f) to assist the trustee in the trustee's performance of its obligations under the notes and the indenture.

Available information

For as long as the notes are "restricted securities" within the meaning of Rule 144(a)(3) under the Securities Act, the Issuer will, to the extent required, furnish to any noteholder of a note issued under Rule 144A, or to any prospective purchaser designated by such noteholder, upon request of such noteholder, financial and other information described in paragraph (d)(4) of Rule 144A with respect to AmBev to the extent required in order to permit such noteholder to comply with Rule 144A with respect to any resale of its note, unless during that time, the Issuer is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, or is exempt from reporting pursuant to Rule 12g3-2(b) under the Exchange Act and no such information about the Issuer is otherwise required pursuant to Rule 144A.

Appointment to fill a vacancy in the office of the trustee

The Issuer, whenever necessary to avoid or fill a vacancy in the office of the trustee, will appoint in the manner set forth in the indenture, a successor trustee, so that there shall at all times be a trustee with respect to the notes.

REDEMPTION

Optional redemption

The Issuer will be entitled at its option to redeem all or a portion of the notes upon not less than 30 nor more than 60 days' notice, at a price equal to 100% of the principal amount of the notes, plus accrued interest to the redemption date.

Redemption at maturity

Unless previously redeemed, or purchased and cancelled, the notes shall be redeemed at their principal amount in U.S. dollars on the final maturity date. The redemption price payable at such time shall be the original

principal amount of the notes plus accrued and unpaid interest thereon at the note rate and all other amounts due and payable under the terms of the notes and the indenture.

Cancellation

Any notes redeemed by the Issuer will be immediately cancelled and may not be reissued or resold unless the Issuer (i) procures a person who purchases the notes to be redeemed on the relevant date of redemption and at the relevant redemption price (in which event the notes may be so resold and need not be cancelled) or (ii) notifies the trustee in writing on or prior to the relevant date of redemption that the notes so redeemed by the Issuer will not be cancelled (in which event the notes may be held by the Issuer pending resale as provided in (i) above and need not be cancelled).

PURCHASES OF NOTES BY THE ISSUER

The Issuer, and each of its respective affiliates, may at any time purchase any notes in the open market or otherwise at any price; *provided* that, in determining whether noteholders holding any requisite principal amount of notes have given any request, demand, authorization, direction, notice, consent or waiver under the indenture, notes owned by the Issuer and each of its respective subsidiaries or affiliates shall be deemed not outstanding for purposes thereof. All notes purchased by the Issuer or any of its respective affiliates may, at the option of the Issuer, continue to be outstanding or be cancelled.

EVENTS OF DEFAULT

The following events will each be an “Event of Default” under the terms of the notes and the indenture:

- (c) The Issuer shall fail to perform, observe or comply with any term, covenant, agreement or obligation contained in the indenture or the notes and such failure (other than any failure to make any payment contemplated in clause (a) or (b) hereof) is either incapable of remedy or continues for a period of 60 calendar days (inclusive of any time frame contained in any such term, covenant, agreement or obligation for compliance thereunder) after written notice of such failure has been received by the Issuer from the trustee;
- (d) (i) The acceleration on any indebtedness of the Issuer or any subsidiary thereof with total assets of more than U.S.\$400,000,000 (or its equivalent in another currency) (each such subsidiary, a “Material Subsidiary”), unless such acceleration is at the option of the Issuer or any Material Subsidiary thereof; or (ii) the Issuer or any Material Subsidiary thereof fails to pay any indebtedness when due on any final maturity date or, as the case may be, beyond any applicable grace period; *provided, however*, that the aggregate amount of any such indebtedness falling within (i) and (ii) above (as to which the time for payment has not been extended by the relevant obligees) equals or exceeds U.S.\$50,000,000, (or its equivalent in another currency);

- (g) An involuntary case or other proceeding shall be commenced against either the Issuer or any of their Material Subsidiaries seeking liquidation, reorganization or other relief with respect to it or its debt under any bankruptcy, insolvency or other similar law now or hereafter in effect or seeking the appointment of a trustee, receiver, *administrador*, liquidator, custodian or other similar official of it or any substantial part of its property, and such involuntary case or other proceeding shall remain undismissed and unstayed for a period of 90 days; or an order for relief shall be entered against either the Issuer or any of their Material Subsidiaries under the bankruptcy laws as now or hereafter in effect;
- (h) Either the Issuer or any of their Material Subsidiaries shall admit in writing its inability to pay its debts as and when they fall due or shall become unable to pay its debts, or shall convene a meeting for the purpose of proposing, or otherwise propose or enter into, any composition or arrangement with its creditors or any group or class thereof, or anything analogous to, or having a substantially similar effect to, any of the events specified in this paragraph (h) or in paragraph (f) or (g) above or (i) below shall occur in any jurisdiction;
- (i) Either the Issuer or any of their Material Subsidiaries shall cease or threaten to cease to carry out its business except (i) a winding-up, dissolution or liquidation for the purpose of and followed by a consolidation, merger, conveyance or transfer or, in the case of a Material Subsidiary, whereby the undertaking, business and assets of such Material Subsidiary are transferred to or otherwise vested in the Issuer, or any of its respective subsidiaries or affiliates, or the terms of which shall have been approved by a resolution of a meeting of the noteholders or (ii) a voluntary winding-up, dissolution or liquidation of a Material Subsidiary where there are surplus assets in such Material Subsidiary attributable to the Issuer, and/or any other subsidiary that it is either a Material Subsidiary or will become a Material Subsidiary upon such transfer of assets, and such surplus assets are distributed to the Issuer, and/or such subsidiary;
- (j) Any event occurs that under the laws of Brazil or any political subdivision thereof has substantially the same effect as any of the events referred to in any of paragraphs (f), (g), (h) or (i);
- (k) Any of the notes or the indenture, or any part thereof, shall cease to be in full force and effect or binding and enforceable against the Issuer or admissible in evidence in the courts of Brazil, it becomes unlawful for the Issuer to perform any material obligation under any of the foregoing, or the Issuer shall contest the enforceability of any of the foregoing or deny that it has liability under any of the foregoing; or
- (l) All or a substantial part of the aggregate property and assets of the Issuer or any Material Subsidiary shall be condemned, seized or otherwise appropriated, or custody of such property shall be assumed by any governmental authority or court or any other person purporting to act under the authority of the government of any jurisdiction, or the Issuer or any of its Material Subsidiaries shall be prevented from exercising normal control over all or substantial part of such property and such default is not remedied within 30 calendar days after it occurs.

REMEDIES UPON OCCURRENCE OF AN EVENT OF DEFAULT

If an Event of Default occurs, and is continuing, the trustee shall, upon the request of noteholders holding not less than 25% in principal amount of the notes then outstanding, by written notice to the Issuer (and to the trustee if given by noteholders) declare the principal amount of all of the notes and all accrued interest thereon

immediately due and payable; *provided* that if an Event of Default described in paragraphs (f), (g), (h), (i) or (j) above occurs and is continuing, then and in each and every such case, the principal amount of all of the notes and all accrued interest thereon shall, without any notice to the Issuer or any other act by the trustee or any noteholder, become and be accelerated and immediately due and payable. Upon any such declaration of acceleration, the principal of the notes so accelerated and the interest accrued thereon and all other amounts payable with respect to the notes shall be immediately due and payable. If the Event of Default or Events of Default giving rise to any such declaration of acceleration shall be cured following such declaration, such declaration may be rescinded by noteholders holding a majority of the notes.

The noteholders holding at least a majority of the aggregate principal amount of the outstanding notes may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee. However, the trustee may refuse to follow any direction that conflicts with law or the indenture, or that the trustee determines in good faith may involve the trustee in personal liability, or that the trustee reasonably believes it will not be adequately indemnified against the costs, expenses or liabilities, which might be incurred, or that may be unduly prejudicial to the rights of noteholders not taking part in such direction and the trustee may take any other action it deems proper that is not inconsistent with any such direction received from noteholders. A noteholder may not pursue any remedy with respect to the indenture or the notes unless:

- (i) the noteholder gives the trustee written notice of a continuing Event of Default;
- (ii) noteholders holding not less than 25% in aggregate principal amount of outstanding notes make a written request to the trustee to pursue the remedy;
- (iii) such noteholder or noteholders offer the trustee adequate security and indemnity satisfactory to the trustee against any costs, liability or expense;
- (iv) the trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity; and
- (v) during such 60-day period, noteholders holding a majority in aggregate principal amount of the outstanding notes do not give the trustee a direction that is inconsistent with the request.

However, such limitations do not apply to the right of any noteholder to receive payment of the principal of, premium, if any, interest on or additional amounts related to such note or to bring suit for the enforcement of any such payment, on or after the due date expressed in the notes, which right shall not be impaired or affected without the consent of the noteholder.

MODIFICATION OF THE INDENTURE

The Issuer and the trustee may, without the consent of the noteholders, amend, waive or supplement the indenture for certain specific purposes, including, among other things, curing ambiguities, defects or inconsistencies, or making any other provisions with respect to matters or questions arising under the indenture or the notes or making any other change that will not adversely affect the interest of any noteholder.

In addition, with certain exceptions, the indenture may be modified by the Issuer and the trustee with the consent of the holders of a majority of the aggregate principal amount of the notes then outstanding. However, no modification may, without the consent of the noteholder of each outstanding note:

- change the maturity of any payment of principal of or any installment of interest on any note;
- reduce the principal amount or the rate of interest, or change the method of computing the amount of principal or interest payable on any date;
- change any place of payment where the principal of or interest on notes is payable;
- change the coin or currency in which the principal of or interest on the notes is payable;

- impair the right of the noteholders to institute suit for the enforcement of any payment on or after the date due;
- reduce the percentage in principal amount of the outstanding notes, the consent of whose noteholders is required for any modification or the consent of whose noteholders is required for any waiver of compliance with certain provisions of the indenture or certain defaults under the indenture and their consequences provided for in the indenture; or
- modify any of the provisions of certain sections of the indenture, including the provisions summarized in “— Modification of the Indenture,” except to increase any percentage or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of each noteholder.

DEFEASANCE AND COVENANT DEFEASANCE

The Issuer may, at its option, elect to be discharged from the Issuer’s obligations with respect to the notes. In general, upon a defeasance, the Issuer will be deemed to have paid and discharged the entire Indebtedness represented by the notes and to have satisfied all of the Issuer’s obligations under the notes and the indenture except for (i) the rights of the noteholders to receive payments in respect of the principal of and interest and additional amounts, if any, on the notes when the payments are due, (ii) certain provisions of the indenture relating to ownership, registration and transfer of the notes, (iii) the covenant relating to the maintenance of an office or agency in New York and (iv) certain provisions relating to the rights, powers, trusts, duties and immunities of the trustee.

In addition, the Issuer may, at its option, and at any time, elect to be released with respect to the notes from the covenants described above under the caption “— Certain Covenants” (“covenant defeasance”). Following such covenant defeasance, the occurrence of a breach or violation of any such covenant with respect to the notes will not constitute an Event of Default under the indenture, and certain other events (not including, among other things, non-payment or bankruptcy and insolvency events) described under “— Events of Default” also will not constitute Events of Default.

In order to exercise either defeasance or covenant defeasance, the Issuer will be required to satisfy, among other conditions, the following:

- the Issuer must irrevocably deposit with the trustee, in trust, for the benefit of the noteholders, cash in U.S. dollars or U.S. government obligations, or a combination thereof, in amounts sufficient, in the opinion of an internationally recognized firm of independent public accountants, to pay and discharge the principal of and each installment of interest on the notes on the stated maturity of such principal or installment of interest in accordance with the terms of the indenture and the notes and all amounts owing or to become owing to the trustee in accordance with the indenture;
- in the case of an election to fully defease the notes, the Issuer must deliver to the trustee an opinion of counsel stating that (x) the Issuer has received from, or there has been published by, the U.S. Internal Revenue Service a ruling or (y) since the date of the indenture there has been a change in the applicable U.S. Federal income tax law or the interpretation thereof, in either case to the effect that, and based thereon, the opinion of counsel shall confirm that, the noteholders will not recognize gain or loss for U.S. Federal income tax purposes as a result of such deposit, defeasance and discharge and will be subject to U.S. Federal income tax on the same amount, in the same manner and at the same time as would have been the case if such deposit, defeasance and discharge had not occurred;
- in the case of a covenant defeasance, the Issuer must deliver to the trustee an opinion of counsel to the effect that the noteholders will not recognize gain or loss for U.S. Federal income tax purposes as a result of such deposit and covenant defeasance and will be subject to U.S. federal income tax on the same amount, in the same manner and at the same time as would have been the case if such deposit and covenant defeasance had not occurred;
- no Event of Default, or event or condition that with the giving of notice, the lapse of time or failure to satisfy certain specified conditions, or any combination thereof, would become an Event of Default, including, with respect to certain events of bankruptcy or insolvency, has occurred and is continuing

with respect to the notes, at any time during the period ending on the 121st day after the date of such deposit (it being understood that this condition shall not be deemed satisfied until the expiration of such period);

- the Issuer must deliver to the trustee an opinion of counsel to the effect that payment of amounts deposited in trust with the trustee will not be subject to future taxes, duties, fines, penalties, assessments or other governmental charges imposed by a taxing jurisdiction, except to the extent that additional amounts in respect thereof shall have been deposited in trust with the trustee;
- the Issuer must deliver to the trustee an opinion of counsel to the effect that such defeasance or covenant defeasance shall not result in a breach or violation of, or constitutes a default under, any other agreement or instrument to which the Issuer is a party or by which it is bound; and
- such defeasance or covenant defeasance shall not result in the trust arising from such deposit constituting an investment company as defined under the Investment Company Act of 1940, as amended.

THE TRUSTEE

Deutsche Bank Trust Company Americas is the trustee under the indenture and has been appointed by the Issuer as registrar and paying agent with respect to the notes. The Issuer may have normal banking relationships with Deutsche Bank Trust Company Americas in the ordinary course of business. The address of the trustee is 60 Wall Street – MS-2710, New York, NY – 10005, United States.

PAYING AGENTS; TRANSFER AGENTS; REGISTRAR

The Issuer has initially appointed Deutsche Bank Trust Company Americas as paying agent, registrar and transfer agent. The Issuer may at any time appoint new paying agents, transfer agents and registrars. However, the Issuer will at all times maintain a paying agent in New York City until the notes are paid.

The Issuer will maintain a paying agent and transfer agent in Luxembourg. The Issuer will provide prompt notice of the termination, appointment or change in the office of any Luxembourg paying agent or Luxembourg transfer agent acting in connection with the notes.

NOTICES

For as long as the notes are listed on the Luxembourg Stock Exchange, the Issuer will publish any change as to the identity of the Luxembourg paying and transfer agent in a leading newspaper in Luxembourg, which is expected to be *Luxemburger Wort*, or on the website of the Luxembourg Stock Exchange (www.bourse.lu).

In addition, the Issuer will mail notices to the registered address of the noteholders as provided in the register. So long as DTC, or its nominee, is the registered holder of the global notes, each person owning a beneficial interest in a global note must rely on the procedures of DTC to receive notices provided to DTC. Each person owning a beneficial interest in a global note who is not a participant in DTC must rely on the procedures of the participant through which the person owns its interest in the global note to receive notices provided to DTC.

GOVERNING LAW

The indenture and the notes are governed by the laws of the State of New York.

JURISDICTION

The Issuer has consented to the non-exclusive jurisdiction of any court of the State of New York or any U.S. Federal court sitting in The City of New York, New York, United States, and any appellate court from any thereof. The Issuer has appointed CT Corporation System, 111 Eighth Avenue, New York, NY 10011 as its authorized agent upon which service of process may be served in any action or proceeding brought in any court of the State of New York or any U.S. Federal court sitting in The City of New York in connection with the indenture or the notes.

WAIVER OF IMMUNITIES

To the extent that the Issuer may in any jurisdiction claim for itself or its assets immunity from a suit, execution, attachment, whether in aid of execution, before judgment or otherwise, or other legal process in connection with the indenture and the notes and to the extent that in any jurisdiction there may be immunity attributed to the Issuer or the Issuer's assets, whether or not claimed, the Issuer has irrevocably agreed for the benefit of the noteholders not to claim, and irrevocably waive, the immunity to the full extent permitted by law.

CURRENCY RATE INDEMNITY

The Issuer has agreed that, if a judgment or order made by any court for the payment of any amount in respect of any notes is expressed in a currency other than U.S. dollars, the Issuer will indemnify the relevant noteholder against any deficiency arising from any variation in rates of exchange between the date as of which the denomination currency is notionally converted into the judgment currency for the purposes of the judgment or order and the date of actual payment. This indemnity will constitute a separate and independent obligation from the Issuer's other obligations under the indenture, will give rise to a separate and independent cause of action, will apply irrespective of any indulgence granted from time to time and will continue in full force and effect notwithstanding any judgment or order for a liquidated sum or sums in respect of amounts due under the indenture or the notes.

FORM, DENOMINATION AND REGISTRATION

The notes will be issued in registered form without interest coupons. No notes will be issued in bearer form. The notes will be denominated in *Reais*.

The Issuer has agreed to maintain a paying agent, registrar and transfer agent in the Borough of Manhattan, the City of New York and to maintain a Luxembourg paying agent and Luxembourg transfer agent in Luxembourg. The Issuer has initially appointed the trustee at its corporate trust office as principal paying agent, transfer agent, authenticating agent and registrar and Deutsche Bank Luxembourg S.A. as its paying agent and Luxembourg transfer agent for all notes. Each transfer agent will keep a register, subject to such reasonable regulations as the Issuer may prescribe.

BOOK-ENTRY; DELIVERY AND FORM

Notes offered and sold to QIBs in reliance on Rule 144A under the Securities Act will be represented by a single, permanent global note in definitive, fully registered book-entry form (the "restricted global note") which will be registered in the name of a nominee of DTC and deposited on behalf of the purchasers of the notes represented thereby with a custodian for DTC for credit to the respective accounts of such purchasers (or to such other accounts as they may direct) at DTC.

Notes offered and sold in reliance on Regulation S will be represented by a single, permanent global note in definitive, fully registered book-entry form (the "Regulation S global note" and, together with the restricted global note, the "global notes") which will be registered in the name of a nominee of DTC and deposited on behalf of the purchasers of the Notes represented thereby with a custodian for DTC for credit to the respective accounts of such purchasers (or to such other accounts as they may direct) at Euroclear or Clearstream. Prior to the 40th calendar day after the later of the commencement of the offering of the notes and the issue date of the notes, interests in the Regulation S global note may only be held through Euroclear or Clearstream.

Each global note (and any notes issued in exchange therefor) will be subject to certain restrictions on transfer set forth therein as described under "Notice to Investors." Except in the limited circumstances described below, owners of beneficial interests in a global note will not be entitled to receive physical delivery of certificated notes.

GLOBAL NOTES

The Issuer expects that pursuant to procedures established by DTC (a) upon deposit of the global notes, DTC or its custodian will credit on its internal system portions of the global notes to the respective accounts of persons who have accounts therewith and (b) ownership of the notes will be shown on, and the transfer of ownership

thereof will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants as defined below) and the records of participants (with respect to interests of persons other than participants). Such accounts will initially be designated by or on behalf of the initial purchaser and ownership of beneficial interests in the global notes will be limited to persons who are participants and have accounts with DTC or persons who hold interests through participants. Except as otherwise described herein, investors may hold their interests in a global note directly through DTC only if they are participants in such system, or indirectly through organizations which are participants in such system.

You may hold your interests in the Regulation S global note directly through Clearstream or Euroclear if you are a participant in such systems, or indirectly through organizations which are participants in such systems. Beginning 40 calendar days after the later of the commencement of the offering of the notes and the issue date of the notes (but not earlier), you may also hold such interests through organizations other than Clearstream or Euroclear that are participants in the DTC system. Clearstream and Euroclear will hold such interests in the Regulation S global note on the books of their respective depositories, which in turn will hold such interests in the depositories' names on the books of DTC.

So long as DTC or its nominee is the registered owner or holder of any global note, DTC or such nominee will be considered the sole owner or noteholder represented by that global note for all purposes under the indenture and the notes. No beneficial owner of an interest in any note will be able to transfer such interest except in accordance with the applicable procedures of DTC and, if applicable, Euroclear and Clearstream, in addition to those provided for under the indenture.

Payments of principal of and interest (including additional amounts) on the global notes will be made to DTC or its nominee, as the case may be, as the registered owner thereof. None of the Issuer, the trustee or any paying agent under the indenture will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the global notes, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests representing any notes held by DTC or its nominee.

The Issuer expects that DTC or its nominee, upon receipt of any payment of principal of or premium and interest (including Additional Amounts) on a global note, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such global note as shown on the records of DTC or its nominee.

Payment to owners of beneficial interests in a global note held through such participant will be governed by standing instructions and customary practice, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in DTC will be effected in the ordinary way in accordance with DTC rules and will be settled in same day funds. Transfers between participants in Euroclear and Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures. If a holder requires physical delivery of a certificated note for any reason, including to sell notes to persons in jurisdictions which require physical delivery of such securities or to pledge such securities, such holder must transfer its interest in the applicable global note in accordance with the normal procedures of DTC and those procedures set forth in the indenture. Consequently, the ability to transfer interests in a global note to such persons may be limited.

Before the 40th calendar day after the later of the commencement of the offering of the notes and the issue date, transfers by an owner of a beneficial interest in the Regulation S global note to a transferee who takes delivery of such interest through the restricted global note will be made only in accordance with the applicable procedures and upon receipt by the trustee of a written certification Form, denomination and registration from the transferor in the form provided in the indenture to the effect that such transfer is being made to a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A.

Transfers by an owner of a beneficial interest in the restricted global note to a transferee who takes delivery of such interest through the Regulation S global note, whether before, on or after the 40th day referred to above, will

be made only upon receipt by the trustee of a certification to the effect that such transfer is being made in accordance with Regulation S.

Transfers of physical notes to a person who will hold through a global note will be made only in accordance with the applicable procedures and upon receipt by the trustee of a written certification in the form provided in the indenture (i) in the case of a transfer into the restricted global note before the 40th day referred to above, to the effect that such transfer is being made to a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A and (ii) in the case of a transfer into the Regulation S global note, to the effect that such transfer is being made in accordance with Regulation S.

Any beneficial interest in a global note that is transferred to a person who takes delivery in the form of an interest in the other global note will, upon transfer, cease to have an interest in the first global note and become an interest in the other global note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to beneficial interests in such other global note.

Subject to compliance with the transfer restrictions applicable to the notes, the Issuer understands that crossmarket transfers between DTC participants, on the one hand, and directly or indirectly through Euroclear or Clearstream participants, on the other, will be effected in DTC in accordance with DTC rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depositary; however, such crossmarket transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (Brussels or Luxembourg time, respectively). The Issuer understands that Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its depositary to take action to effect final settlement on its behalf by delivering or receiving interests in the Regulation S global note in DTC and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream participants and Euroclear participants may not deliver instructions directly to the depositories of Clearstream or Euroclear.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a restricted global note from a DTC participant will be credited during the securities settlement processing day immediately following the DTC settlement date, and such credit will be reported to the relevant Euroclear or Clearstream participant on such business day following the DTC settlement date. Cash received in Euroclear or Clearstream as a result of sales of interests in the Regulation S global note by or through a Euroclear or Clearstream participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream cash account only as of the Business Day following settlement in DTC.

The Issuer expects that DTC will take any action permitted to be taken by a holder of notes (including the presentation of notes for exchange) only at the direction of the participant to whose interests in the applicable global notes are credited and only in respect of the aggregate principal amount of notes as to which such participant has given such direction. However, if there is an Event of Default under the indenture and the notes and the holders of more than 50% of the total principal amount of the notes represented by the global note advise the trustee in writing that it is in the holders' best interest to do so, DTC will exchange the applicable global note for physical notes (as defined below), which it will distribute to participants and which will be legended to the extent set forth under "Notice to Investors."

The Issuer understands that DTC is a limited purpose trust company organized under the laws of the State of New York, a "banking organization" within the meaning of New York banking law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. The Issuer further understands that DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and certain other organizations ("participants"). The Issuer further understands that indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly ("indirect participants").

Although DTC, Euroclear and Clearstream are expected to follow the foregoing procedures in order to facilitate transfers of interests in the global notes among the DTC participants, Euroclear and Clearstream, they are under no obligation to perform such procedures, and such procedures may be discontinued or modified at any time. None of the Issuer, the trustee or the paying agent will have any responsibility for the performance by DTC, Euroclear, Clearstream, the participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

PHYSICAL NOTES

Interests in the global notes will be exchangeable or transferable, as the case may be, for physical notes (“physical notes”) if (i) DTC notifies the Issuer that it is unwilling or unable to continue as depositary for the global notes, or DTC ceases to be a “clearing agency” registered under the Exchange Act, and a successor depositary is not appointed by the Issuer within 90 calendar days, (ii) the Issuer, at its option, elects to terminate the book-entry system through a depositary or (iii) an Event of Default has occurred and is continuing with respect to the global notes and the holders of more than 50% of the total principal amount of the notes represented by the global note advise the trustee in writing that it is in the holders’ best interest to do so.

REPLACEMENT, EXCHANGE AND TRANSFER OF NOTES

If a note becomes mutilated, destroyed, lost or stolen, the Issuer may issue, and the trustee will authenticate and deliver, a substitute note in replacement. In each case, the affected noteholder will be required to furnish to the Issuer, the trustee and certain other specified parties an indemnity under which it will agree to pay the Issuer, the trustee and certain other specified parties for any losses they may suffer relating to the note that was mutilated, destroyed, lost or stolen. The Issuer and the trustee may also require that the affected noteholder present other documents or proof. The affected noteholder will be required to pay all expenses and reasonable charges associated with the replacement of the mutilated, destroyed, lost or stolen note.

Under certain limited circumstances, beneficial interests in the global note may be exchanged for physical notes. If the Issuer issues physical notes, a noteholder of such physical note may present its notes for exchange with notes of a different authorized denomination, together with a written request for an exchange, at the office or agency of the Issuer designated for such purpose in the City of New York or Luxembourg. In addition, the noteholder of any physical note may transfer such physical note, in whole or in part, by surrendering it at any such office or agency together with an executed instrument of assignment. Each new physical note issued in connection with a transfer of one or more physical notes will be available for delivery from the registrar and the Luxembourg transfer agent within five Luxembourg business days after receipt by the registrar and the Luxembourg transfer agent of the relevant original physical note or physical notes and the relevant executed instrument of assignment. Transfers of the physical notes will be effected without charge by or on behalf of the Issuer, the registrar or the Luxembourg transfer agent, but only upon payment (or the giving of such indemnity as the registrar or such transfer agent may require in respect) of any tax or other governmental charges which may be imposed in relation thereto.

The Issuer will not charge the noteholders of notes for the costs and expenses associated with the exchange, transfer or registration of transfer of the notes. The Issuer may, however, charge the noteholders of notes for any other tax or governmental charges. The Issuer may reject any request for an exchange or registration of transfer of any note (i) made within 15 calendar days of the mailing of a notice of redemption of notes or (ii) made between any regular record date and the next interest payment date.

TAXATION

The following discussion summarizes certain Brazilian and U.S. federal income tax considerations that may be relevant to you if you invest in the notes. This summary is based on laws and regulations now in effect in Brazil and laws, regulations, rulings and decisions now in effect in the United States, in each case which may change. Any change could apply retroactively and could affect the continued validity of this summary.

This summary does not describe all of the tax considerations that may be relevant to you or your situation, particularly if you are subject to special tax rules. You should consult your tax advisors about the tax consequences of holding the notes, including the relevance to your particular situation of the considerations discussed below, as well as of state, local and other tax laws.

PROSPECTIVE INVESTORS SHOULD CONSULT THEIR OWN TAX ADVISERS AS TO THE CONSEQUENCES OF PURCHASING THE NOTES, INCLUDING, WITHOUT LIMITATION, THE CONSEQUENCES OF THE RECEIPT OF INTEREST AND THE SALE, REDEMPTION OR REPAYMENT OF THE NOTES OR COUPONS.

Brazilian Taxation

The following is a general summary of the Brazilian tax considerations relating to an investment in the notes by a non-resident of Brazil. It is based on the tax laws of Brazil as in effect on the date hereof and is subject to any change in Brazilian law that may come into effect after such date. The information set forth below is intended to be a general description only and does not address all possible tax consequences relating to an investment in the notes.

Brazilian tax laws expressly authorize the payer to pay the income or earnings net of taxes and, therefore, to withhold the applicable tax. If the foreign beneficiary is to receive the entire original amount net of such withholding taxation, the corresponding calculation basis must be grossed up, thus increasing the effective tax burden. Interest income (which for the purposes of this paragraph includes any deemed income on the difference between the issue price of the notes and the price at which the notes are redeemed (“original discount”)), as well as any redemption premium, fees, commissions, and any other income (“debt obligations”), payable by an obligor (i.e., issuer or guarantor) resident in Brazil to an individual, company, entity, trust or organization domiciled outside Brazil is subject to withholding income tax. The rate of withholding income tax is generally 15%, or 25% if the beneficiary of the payment is resident of a tax haven jurisdiction.

Generally, any capital gains generated outside Brazil as a result of a transaction between two non-residents of Brazil with assets not located in Brazil are not subject to tax in Brazil. On the other hand, when the assets are located in Brazil, such capital gains are subject to income tax, according to Law No. 10,833, enacted on December 29, 2003. Although the notes will be registered in Luxembourg and although we believe that the notes would not fall within the definition of assets located in Brazil for the purposes of Law No. 10,833, we cannot assure prospective investors that such interpretation will prevail.

In case the notes are deemed to be located in Brazil, capital gains recognized by a non-resident from the sale or other disposition of the notes to a Brazilian resident or a non-resident will be subject to income tax in Brazil at a rate of 15%, or 25% if the seller is located in a tax haven.

Pursuant to Decree No. 6,306/07, as amended, conversion into Brazilian *Reais* of proceeds received in foreign currency by a Brazilian entity, as well as the conversion into foreign currency of proceeds received in *Reais*, are subject to the Tax on Financial Transactions (IOF) levied on foreign exchange transactions (“IOF/Câmbio”). Currently, the IOF/Câmbio rate is 0.38% for nearly all transfers of foreign currency into *Reais*. According to Section 15, XIX of the Decree No. 6,306, the liquidation of exchange transactions in connection with foreign financing or loans, for both inflow and outflow of proceeds into and from Brazil, related to proceeds raised as from October 23, 2008, are subject to IOF/Câmbio at a zero percent rate. We believe that the zero rate in this case is also applicable to payments of interest. The rate is 5.38% for the conversion of foreign loans with a term of less than 90 days into Brazilian currency. However, the federal government in Brazil may increase the current IOF/Câmbio rate at any time, up to a maximum rate of 25%. Any such new rate would only apply to future foreign exchange transactions.

Generally, there are no stamp, transfer or other similar taxes in Brazil with respect to the transfer, assignment or sale of the notes outside Brazil, nor any inheritance, gift or succession tax applicable to the ownership, transfer or disposition of the notes, except for gift and inheritance taxes imposed in some states of Brazil on gifts and bequests by individuals or entities not domiciled or residing in Brazil to individuals or entities domiciled or residing within such Brazilian states.

U. S. Federal Income Tax Considerations

PURSUANT TO INTERNAL REVENUE SERVICE CIRCULAR 230, WE HEREBY INFORM YOU THAT ANY DISCUSSION OF U.S. FEDERAL INCOME TAX ISSUES SET FORTH HEREIN WAS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED, BY ANY TAXPAYER FOR THE PURPOSE OF AVOIDING ANY PENALTIES THAT MAY BE IMPOSED ON THE TAXPAYER UNDER THE INTERNAL REVENUE CODE OF 1986, AS AMENDED. SUCH DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTING OR MARKETING OF THE NOTES. TAXPAYERS SHOULD SEEK ADVICE BASED ON THE TAXPAYER'S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

The following is a description of the principal U.S. federal income tax consequences that may be relevant with respect to the acquisition, ownership and disposition of notes by a holder thereof. This description only applies to notes held as capital assets and does not address, except as set forth below, aspects of U.S. federal income taxation that may be applicable to holders that are subject to special tax rules, such as:

- financial institutions;
- insurance companies;
- real estate investment trusts;
- regulated investment companies;
- grantor trusts;
- tax-exempt organizations;
- dealers or traders in securities or currencies;
- holders that will hold a note as part of a position in a straddle or as part of a hedging, conversion or integrated transaction for U.S. federal income tax purposes; and
- U.S. Holders (as defined below) that have a functional currency other than the U.S. dollar.

Moreover, this description does not address the U.S. federal estate and gift tax or alternative minimum tax consequences of the acquisition, ownership or disposition of notes and does not address the U.S. federal income tax treatment of holders that do not acquire notes as part of the initial distribution at their initial issue price, which will equal the first price at which a substantial amount of the notes is sold for money to the public (not acting in the capacity of underwriters, placement agents or wholesalers). This summary also does not discuss any aspect of state, local or non-U.S. taxation.

This description is based on the Internal Revenue Code of 1986, as amended, or the Code, existing and proposed U.S. Treasury Regulations, administrative pronouncements and judicial decisions, each as available and in effect on the date hereof. All of the foregoing are subject to change, possibly with retroactive effect, or to differing interpretations which could affect the tax consequences described herein.

For purposes of this description, a U.S. Holder is a beneficial owner of notes who for U.S. federal income tax purposes is:

- an individual citizen or resident of the United States;
- a corporation organized in or under the laws of the United States, any State thereof, or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust (1) that has validly elected to be treated as a United States person for U.S. federal income tax purposes or (2) the administration over which a U.S. court can exercise primary supervision and all of the substantial decisions of which one or more United States persons have the authority to control.

A Non-U.S. Holder is a beneficial owner of notes other than a U.S. Holder or an entity or arrangement treated as a partnership for U.S. federal income tax purposes.

If a partnership (or any entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds the notes, the tax treatment of the partnership and a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Such a partner or partnership should consult its own tax advisor as to its consequences of acquiring, owning, and disposing of notes.

Interest

It is expected, and this discussion assumes, that the notes will not be issued with more than a de minimis amount of original issue discount for U.S. federal income tax purposes. Therefore, if you are a U.S. Holder, interest paid to you on a note, including any Additional Amounts, will be includible in your gross income as ordinary interest income in accordance with your usual method of tax accounting. As a result of the inclusion of any amounts attributable to withheld taxes, the amount included in your income for U.S. federal income tax purposes with respect to a payment of interest may be greater than the amount of cash actually received.

Because the amount of interest payable in U.S. dollars under the notes is determined by reference to the U.S. dollar value of *Reais* at periodic intervals over the term of the notes, you should consult your tax advisor regarding the application of the foreign currency exchange rules under applicable U.S. Treasury regulations.

In general, under these rules, if you use the cash method of accounting for tax purposes, you will not realize any foreign exchange gain or loss in respect of interest payments except to the extent that the exchange rate used to determine the amount of interest payable in U.S. dollars with respect to an interest payment differs from the "spot rate" in effect on the date such payment is received. Under applicable Treasury regulations, the "spot rate" generally means a rate that reflects a fair market rate of exchange available to the public for currency under a "spot contract" in a free market and involving representative amounts. A "spot contract" is a contract to buy or sell a currency on the nearest conventional settlement date, generally two business days following the date of execution of the contract. If such a spot rate cannot be demonstrated, the IRS has the authority to determine the spot rate.

If you use the accrual method of accounting for tax purposes, you may determine the amount of income that you recognize with respect to the interest payments by reference to the U.S. dollar value of the *Reais* by using one of two methods. Under the first method, you would determine the amount of income accrued in *Reais* based on the average exchange rate in effect during the interest accrual period or, with respect to an accrual period that spans two taxable years, that part of the period within the taxable year. The average rate of exchange for an interest accrual period (or partial period) is the simple average of the spot exchange rates for each business day of such period (or such other average that is reasonably derived and consistently applied by the holder).

If you elect the second method, you would determine the amount of income accrued on the basis of the "spot rate" in effect on the last day of the accrual period, or, in the case of an accrual period that spans two taxable years, the "spot rate" in effect on the last day of the part of the period within the taxable year. Additionally, under this second method, if you receive a payment of interest within five business days of the last day of its accrual period or taxable year, you may instead translate the interest accrued into U.S. dollars at the "spot rate" in effect on the day that you actually receives the interest payment. If you elect the second method, that method will apply to all debt instruments that you hold at the beginning of the first taxable year to which the election applies and to all debt

instruments that you subsequently acquire. You may not revoke this election without the consent of the Internal Revenue Service, or the IRS.

When you actually receive an interest payment in U.S. dollars (or a payment attributable to accrued but unpaid interest upon the sale or retirement of a note) determined by reference to *Reais* for which you accrued an amount of income, you will recognize exchange gain or loss taxable as U.S. source ordinary income measured by the difference, if any, between the exchange rate that you used to accrue interest income and the "spot rate" in effect on the date you received such interest payment. Any foreign exchange gain or loss recognized generally will not be treated as interest income or expense.

Interest on the notes will be treated as foreign source income for U.S. federal income tax purposes. If any non-U.S. income taxes were to be paid or withheld in respect of payments on the notes, a U.S. holder may be eligible, subject to a number of complex limitations, for a foreign tax credit. You are urged to consult your tax advisor regarding the availability of the foreign tax credit under your particular circumstances.

Additional Amounts will be paid in the event that certain withholding taxes are imposed on payments made on the notes. We intend to treat the possibility of the payment of Additional Amounts as a remote or incidental contingency, within the meaning of applicable Treasury Regulations. Therefore, we do not intend to treat the notes as "contingent payment debt instruments" as defined in applicable Treasury Regulations. Assuming that such treatment is correct, any Additional Amounts will be taxable to you at the time they accrue or are received in accordance with your method of accounting for U.S. federal income tax purposes. Our determination regarding the remote or incidental nature of such contingency is binding on you (unless you explicitly disclose in the manner required by applicable Treasury Regulations that your determination is different from ours) but is not binding on the IRS, which could take a position contrary to ours.

Subject to the discussion below under the caption "—U.S. Backup Withholding Tax and Information Reporting," if you are a Non-U.S. Holder, payments to you of interest on a note generally will not be subject to U.S. federal income tax unless the income is effectively connected with your conduct of a trade or business in the United States (or, if a tax treaty applies, the interest is attributable to a permanent establishment maintained by you in the United States).

Sale, Exchange or Disposition

If you are a U.S. Holder, upon the sale, exchange or other taxable disposition of a note, you will recognize taxable gain or loss equal to the difference, if any, between the amount realized on the sale, exchange or other taxable disposition, other than accrued but unpaid interest, which will be taxable as interest, and your adjusted tax basis in the note. If a note is sold before maturity for an amount denominated in *Reais*, the amount realized generally will be the U.S. dollar value of the *Reais* received, calculated at the spot rate of exchange in effect on the date the note is sold. Your adjusted tax basis in a note generally will equal the cost of the note to you. Any gain or loss will be capital gain or loss, and will be long-term capital gain or loss if your holding period for the notes exceeds one year. Any portion of the gain or loss recognized on the sale, exchange or other taxable disposition of a note generally will be treated as U.S. source gain or loss, as the case may be. The deductibility of capital losses is subject to limitations. Any gain or loss you recognize on the sale, exchange or other taxable disposition that is attributable to fluctuations in currency exchange rates will constitute exchange gain or loss and will be taxable as U.S. source ordinary income or loss. You will only recognize such foreign exchange gain or loss to the extent of the total gain or loss you realize on the sale, exchange or other taxable disposition.

If any gain from the sale or exchange of notes is subject to Brazilian tax, you may not be able to credit such taxes against your U.S. federal income tax liability under the U.S. foreign tax credit limitations of the Code, because such gain generally would be U.S. source income, unless such tax can be credited (subject to applicable limitations) against tax due on other income treated as derived from foreign sources.

Pursuant to U.S. Treasury Regulations, if you recognize a loss on the sale or exchange of the notes due to fluctuations in foreign currency exchange rates, you may be required to disclose the transaction as a "reportable transaction" on IRS Form 8886 (or a suitable substitute) in the event the loss exceeds \$50,000 if you are an individual or trust, or higher amounts for certain other holders. Additionally, if you recognize a loss on the sale or exchange of the notes due to other circumstances, you may be required to disclose the transaction as a reportable

transaction in the event the loss exceeds \$2,000,000 in any single taxable year (or \$4,000,000 in any combination of taxable years) you are an individual, S corporation, trust, or higher amounts if you are any other holder.

Subject to the discussion below under the caption “—U.S. Backup Withholding Tax and Information Reporting,” if you are a Non-U.S. Holder, any gain realized by you upon the sale, exchange or disposition of a note generally will not be subject to U.S. federal income tax, unless:

- The gain is effectively connected with your conduct of a trade or business in the United States (and, if a tax treaty applies, the gain is attributable to a permanent establishment maintained by you in the United States); or
- If you are an individual Non-U.S. Holder, you are present in the United States for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions are met.

U.S. Backup Withholding Tax and Information Reporting

U.S. backup withholding tax and information reporting requirements apply to certain payments of principal of, and interest on, an obligation and to proceeds of the sale, exchange or disposition of an obligation, to certain non-corporate holders of notes that are United States persons. Information reporting generally will apply to payments of principal of, and interest on, notes, and to proceeds from the sale or redemption of, notes within the United States, or by a United States payor or United States middleman, to a holder of notes that is a United States person (other than an exempt recipient, including a corporation, and certain other persons). The payor will be required to withhold backup withholding tax on payments made within the United States, or by a United States payor or United States middleman, on a note to a holder of a note that is a United States person, other than an exempt recipient, such as a corporation, if the holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with, or establish an exemption from, the backup withholding requirements. Payments within the United States, or by a United States payor or United States middleman, of principal and interest to a holder of a note that is not a United States person will not be subject to backup withholding tax and information reporting requirements if an appropriate certification is provided by the holder to the payor and the payor does not have actual knowledge or a reason to know that the certificate is incorrect. Backup withholding is not an additional tax and amounts withheld under the backup withholding rules generally may be claimed as a credit against your U.S. federal income tax liability provided that the required information is furnished to the IRS.

THE DESCRIPTION IN THIS SECTION IS NOT INTENDED TO CONSTITUTE A COMPLETE ANALYSIS OF ALL TAX CONSEQUENCES RELATING TO THE ACQUISITION, OWNERSHIP AND DISPOSITION OF NOTES. PROSPECTIVE PURCHASERS OF NOTES SHOULD CONSULT THEIR OWN TAX ADVISORS CONCERNING THE TAX CONSEQUENCES OF THEIR PARTICULAR SITUATIONS.

PLAN OF DISTRIBUTION

Plan of Distribution

Under the terms and subject to the conditions contained in the purchase agreement, dated as of December 14, 2009, by and among the Issuer and the initial purchaser, the initial purchaser has agreed to purchase the notes, and the Issuer has agreed to sell the notes.

The purchase agreement provides that the obligations of the initial purchaser to pay for and accept delivery of the notes is subject to, among other conditions, the delivery of certain legal opinions relating to the validity of the securities by its counsel. The initial purchaser is obligated to take and pay for all of the notes offered hereby if any notes are taken. The notes will initially be offered at the price indicated on the cover page hereof. After the initial offering of the notes, the offering price and other selling terms may from time to time be varied by the initial purchaser.

The purchase agreement provides that the Issuer will indemnify the initial purchaser against certain liabilities, including liabilities under the Securities Act, and will contribute to payments the initial purchaser may be required to make in respect thereof.

The Issuer has been advised by the initial purchaser that they propose to resell the notes initially outside the United States to non-U.S. persons in reliance on Regulation S.

The initial purchaser has agreed that, except as permitted by the purchase agreement, it (or any affiliate of its affiliates) will not offer, sell or deliver the notes (i) as part of its distribution at any time or (ii) otherwise until 40 calendar days after the later of the commencement of this offering and the closing date, within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each broker/dealer to which they sell notes in reliance on Regulation S during such 40-day period, a confirmation or other notice detailing the restrictions on offers and sales of the notes within the United States or to, or for the account or benefit of, U.S. persons. In addition, until 40 days after the commencement of this offering, an offer or sale of notes within the United States by a broker/dealer (whether or not it is participating in this offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than pursuant to Rule 144A. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The notes have not been registered under the Securities Act and will be subject to significant resale restrictions. See “Notice to Investors.” Prior to this offering, there has been no active market for the notes. Application has been made to admit the notes to listing on the Official List of the Luxembourg Stock Exchange and to trading on the Euro MTF Market.

In connection with this issue, the initial purchaser or any person acting for it may over allot or effect transactions with a view to supporting the market price of the notes at a level higher than that which might otherwise prevail for a limited period after the issue date of the notes. However, there may be no obligation on the initial purchaser or its agents to do such stabilizing, and if commenced, it may be discontinued at any time, and must be brought to an end after a limited period.

The initial purchaser has from time to time in the past provided, and may in the future provide, investment banking, financial advisory and other services to us and our affiliates for which they have received or expect to receive customary fees. In addition, the initial purchaser has extended funds and credit to us pursuant to one or more credit facilities and derivative contracts. The initial purchaser may, from time to time, in the future, provide additional credit or funds to us pursuant to these or other agreements.

Subsequent trading of the notes in private transactions is not subject to registration in Brazil to the extent such trading does not qualify as a public offering or distribution. Persons wishing to offer or acquire the notes within Brazil should consult with their own counsel as to the applicability of registration requirements or any exemption therefrom.

Other than with respect to the proposed listing of the notes on the Luxembourg Stock Exchange, no action has been or will be taken in any country or jurisdiction by us or the initial purchaser that would permit a public offering of notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required. Persons into whose hands this offering memorandum comes are required by us and the initial purchaser to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver notes or have in their possession or distribute such offering material, in all cases at their own expense.

ENFORCEMENT OF CIVIL LIABILITIES

Brazil

We are a corporation incorporated under the laws of Brazil. Substantially all of our directors and officers, our independent accountants, and some of the advisors named herein reside in Brazil or elsewhere outside the United States, and all or a significant portion of the assets of such persons may be, and substantially all of our assets are, located outside the United States. As a result, it may not be possible for investors to effect service of process within the United States or other jurisdictions outside Brazil upon such persons, or to enforce against them or against us judgments predicated upon the civil liability provisions of the U.S. federal securities laws or the laws of such other jurisdictions.

In the terms and conditions of the notes, we will (1) agree that the courts of the State of New York and the federal courts of the United States, in each case sitting in the Borough of Manhattan, The City of New York, will have jurisdiction to hear and determine any suit, action or proceeding, and to settle any disputes, which may arise out of or in connection with the notes and, for such purposes, we will irrevocably submit to the jurisdiction of such courts and (2) name an agent for service of process in the Borough of Manhattan, The City of New York. See “Description of the Notes.”

We have been advised by our Brazilian legal counsel that a final conclusive judgment for the payment of a sum certain rendered by any New York state or federal court sitting in New York City in respect of the payment of the bonds would be recognized in the courts of Brazil (to the extent that Brazilian courts may have jurisdiction), and such courts would enforce such judgment without any retrial or reexamination of the merits of the original action only if such judgment has been previously ratified by the Brazilian Superior Court of Justice (*Superior Tribunal de Justiça*), such ratification being available only if the judgment:

- fulfills all formalities required for its enforceability under the laws of the United States;
- is issued by a competent court after proper service of process on the parties, which service must comply with Brazilian law if made in Brazil, or after sufficient evidence of the parties’ absence has been given, as established pursuant to applicable law;
- is not subject to appeal;
- is authenticated by the Brazilian consulate in the State of New York and is accompanied by a sworn translation thereof into the Portuguese language; and
- is not against Brazilian public policy, good morals or national sovereignty.

Notwithstanding the foregoing, no assurance can be given that such ratification would be obtained, that the process described above could be conducted in a timely manner or that a Brazilian court would enforce a monetary judgment for violation of the U.S. securities laws with respect to the notes.

Original actions may be brought in connection with this offering memorandum predicated solely on the federal securities laws of the United States in Brazilian courts and, subject to applicable law, that Brazilian courts may enforce such liabilities in such actions against us or the directors and officers and certain advisors named herein (provided that provisions of the federal securities laws of the United States do not contravene Brazilian public policy, good morals or national sovereignty and provided further that Brazilian courts can assert jurisdiction over the particular action).

A plaintiff, whether Brazilian or non-Brazilian, who resides outside Brazil or is outside Brazil during the course of the litigation in Brazil and does not own real property in Brazil, must post bond to secure the payment of the defendant’s legal fees and court expenses as determined by the relevant Brazilian court, except in the case of the enforcement of a foreign judgment which is duly confirmed by the Brazilian Superior Court of Justice.
