

LISTING OFFERING MEMORANDUM

Corporación Nacional del Cobre de Chile

U.S.\$ 1,000,000,000 5.529% Notes due 2037

U.S.\$ 250,000,000 6.300% Notes due 2053

We are offering U.S.\$1,000,000,000 aggregate principal amount of 5.529% Notes due 2037 (the "2037 notes") and U.S.\$250,000,000 aggregate principal amount of 6.300% Notes due 2053 (the "2053 notes"). The 2053 notes will be part of the same series as, and will be fungible with, U.S.\$1,200,000,000 aggregate principal amount of our 6.300% Notes due 2053 that we issued on September 8, 2023 and January 26, 2024 (the "original 2053 notes"), except that the 2053 notes offered and sold in reliance on Regulation S (as defined herein) will be subject to certain U.S. selling restrictions. Accordingly, during a 40-day distribution compliance period commencing on their date of issuance and ending on March 11, 2026, the 2053 notes offered hereby pursuant to Regulation S will have temporary CUSIPs and ISINs and will only become fully fungible with the original 2053 notes following the termination of such selling restrictions. Holders of the 2053 notes and the original 2053 notes will vote as one class under the indenture.

The 2037 notes will bear interest at the rate of 5.529% per year and will mature on January 30, 2037, and the 2053 notes will bear interest at a rate of 6.300% per year and will mature on September 8, 2053. We refer to the 2037 notes and the 2053 notes, collectively, as the "notes" and, separately, as a "series of notes". The interest on the 2037 notes will be payable semi-annually in arrears on January 30 and July 30 of each year, beginning on July 30, 2026. The interest on the 2053 notes will be payable semi-annually in arrears on March 8 and September 8 of each year, beginning on March 8, 2026.

We may redeem the 2037 notes at our option, in whole or in part, at any time and from time to time prior to the date that is three months prior to the maturity date of the 2037 notes, at a redemption price equal to the greater of 100% of the outstanding principal amount of the 2037 notes to be redeemed and a redemption price based on a "make-whole" premium, plus accrued and unpaid interest to the date of redemption. We may redeem the 2053 notes at our option, in whole or in part, at any time and from time to time prior to the date that is six months prior to the maturity date of the 2053 notes, at a redemption price equal to the greater of 100% of the outstanding principal amount of the 2053 notes to be redeemed and a redemption price based on a "make-whole" premium, *plus* accrued and unpaid interest to the date of redemption. In addition, we may redeem the 2037 notes at our option, in whole or in part, at any time and from time to time, beginning on the date that is three months prior to the maturity date of the 2037 notes, at a redemption price equal to 100% of the outstanding principal amount of the 2037 notes to be redeemed, *plus* accrued and unpaid interest to the date of redemption. We may redeem the 2053 notes at our option, in whole or in part, at any time and from time to time, beginning on the date that is six months prior to the maturity date of the 2053 notes, at a redemption price equal to 100% of the outstanding principal amount of the 2053 notes to be redeemed, *plus* accrued and unpaid interest to the date of redemption. Upon the occurrence of specified events relating to Chilean tax law, we may redeem each series of notes in whole, but not in part, at 100% of their principal amount plus accrued and unpaid interest to the date of redemption. See "Description of Notes—Redemption—Tax Redemption" and "—Optional Redemption."

The original 2053 notes are, and the notes will constitute, direct, general, unconditional, unsecured and unsubordinated obligations of Corporación Nacional del Cobre de Chile, a state-owned corporation incorporated under the laws of Chile ("CODELCO" or the "Company"). The notes will rank without any preference equally among themselves and equally with all other unsubordinated and unsecured obligations of CODELCO, other than certain obligations granted preferential treatment pursuant to Chilean law. It is understood that this provision will not be construed so as to require CODELCO to make payments under the notes ratably with payments being made under any other obligations. See "Description of Notes—Ranking."

We intend to use the net proceeds from the sale of the notes offered hereby for general corporate purposes. The original 2053 notes and both series of notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF market of the Luxembourg Stock Exchange. Currently, there is no public market for the 2037 notes. No guarantee can be given that the 2037 notes will continue to trade in the Euro MTF market. This Offering Memorandum constitutes a Prospectus for purposes of Part IV of the Luxembourg law on prospectuses for securities dated July 16, 2019.

See “Risk Factors” beginning on page 28 for a discussion of certain risks that you should consider in connection with an investment in the notes.

Neither the U.S. Securities and Exchange Commission (the “SEC”) nor any other regulatory body has approved or disapproved of these securities or passed upon the adequacy or accuracy of this offering memorandum. Any representation to the contrary is a criminal offense.

The original 2053 notes are not, and the notes have not been, registered under the Securities Act, or any state securities laws, and the notes are being offered and sold only to (i) qualified institutional buyers under Rule 144A under the Securities Act and (ii) persons outside the United States under Regulation S under the Securities Act. For a description of certain restrictions on the transfer of the notes, see “Transfer Restrictions” and “Plan of Distribution.”

The notes will not be registered under Law No. 18,045, as amended (the “Securities Market Law”), with the Chilean Financial Market Commission (*Comisión para el Mercado Financiero* or “CMF”) and, accordingly, the notes cannot and will not be offered or sold to persons in Chile except in circumstances in which they are offered in reliance on an available exemption from such registration. The notes may be privately offered in Chile to certain “qualified investors”, pursuant to Rule (*Norma de Carácter General*) No. 216, dated June 12, 2008, and to Rule (*Norma de Carácter General*) No. 336, dated June 27, 2012, of the CMF, as amended.

The notes are being offered pursuant to an exemption from the requirement to publish a prospectus under the Prospectus Regulation of the European Union, and this offering memorandum has not been approved by a competent authority within the meaning of the Prospectus Regulation. The notes are not intended to be offered, sold, or otherwise made available to and should not be offered, sold, or otherwise made available to any retail investor in the European Economic Area.

The notes are being offered pursuant to an exemption from the requirement to publish a prospectus under the UK Prospectus Regulation and this offering memorandum has not been approved by a competent authority within the meaning of the UK Prospectus Regulation. The notes are not intended to be offered, sold, or otherwise made available to and should not be offered, sold, or otherwise made available to any retail investor in the United Kingdom.

Issue price per note due 2037: 100.000% plus accrued interest, if any, from January 30, 2026, if settlement occurs after that date.

Issue price per note due 2053: 101.879% plus accrued interest from (and including) September 8, 2025 to, but excluding, January 30, 2026, totaling U.S.\$24.85 per \$1,000 principal amount of 2053 notes *plus* accrued interest, if any, from January 30, 2026, if settlement occurs after that date.

Both series of notes will be delivered in book-entry form only through the facilities of The Depository Trust Company (“DTC”) and its direct and indirect participants, including Euroclear Bank S.A./N.V. (“Euroclear”), as operator of the Euroclear system, and Clearstream Banking, S.A., Luxembourg (“Clearstream”) on January 30, 2026.

The date of this offering memorandum is February 9, 2026.

We have not, and the initial purchasers have not, authorized anyone to provide any information other than that contained in this offering memorandum. We and the initial purchasers take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. We are not, and the initial purchasers are not, making an offer of these securities in any jurisdiction where the offer is not permitted. Prospective investors should not assume that the information contained in this offering memorandum is accurate as of any date other than the date on the front of this offering memorandum.

After having made all reasonable inquiries, we confirm that (i) the information contained in this offering memorandum is true and accurate in all material respects, (ii) the opinions and intentions expressed herein are honestly held and (iii) there are no other facts the omission of which would make this offering memorandum as a whole, or any of such information or the expression of any such opinions or intentions, misleading. CODELCO accepts responsibility accordingly.

Unless otherwise indicated or the context otherwise requires, all references in this offering memorandum to “CODELCO,” the “Company,” “we,” “our,” “ours,” “us” or similar terms refer to Corporación Nacional del Cobre de Chile (CODELCO) together with its subsidiaries.

The notes may not be offered or sold, directly or indirectly, in the Republic of Chile (“Chile”) or to any resident of Chile, except as permitted by applicable Chilean law.

This offering memorandum has been prepared by CODELCO solely for use in connection with the proposed offering of the securities described herein. This offering memorandum is personal to each offeree and does not constitute an offer to any other person or to the public generally to subscribe for, or otherwise acquire, securities. We and the initial purchasers reserve the right to reject for any reason any offer to purchase any of the notes.

This offering memorandum may only be used for the purposes of this offering.

The initial purchasers make no representation or warranty, express or implied, as to the accuracy or completeness of the information contained in this offering memorandum. Nothing contained in this offering memorandum is, or shall be relied upon as, a promise or representation by the initial purchasers as to the past or future. CODELCO has furnished the information contained in this offering memorandum.

In making an investment decision, prospective investors must rely on their own examination of CODELCO and the terms of the offering, including the merits and risks involved. Prospective investors should not construe anything in this offering memorandum as legal, business or tax advice. Each prospective investor should consult its own advisors as needed to make its investment decision and to determine whether it is legally permitted to purchase the securities under applicable legal investment or similar laws or regulations. Investors should be aware that they may be required to bear the financial risks of this investment for an indefinite period of time.

This offering memorandum contains summaries believed to be accurate with respect to certain documents, but reference is made to the actual documents for complete information. All such summaries are qualified in their entirety by such reference. Copies of documents referred to herein will be made available to prospective investors (i) upon request to CODELCO or the initial purchasers and (ii) at the office of the paying agent.

IN CONNECTION WITH THIS OFFERING, BOFA SECURITIES, INC., CREDIT AGRICOLE SECURITIES (USA) INC., HSBC SECURITIES (USA) INC., AND SANTANDER US CAPITAL MARKETS LLC OR ANY PERSON ACTING FOR ANY OF THEM, MAY OVER ALLOT OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL FOR A LIMITED PERIOD AFTER THE ISSUE DATE. HOWEVER, THERE IS NO OBLIGATION FOR BOFA SECURITIES, INC., CREDIT AGRICOLE SECURITIES (USA) INC., HSBC SECURITIES (USA) INC., AND SANTANDER US CAPITAL MARKETS LLC, OR ANY PERSON ACTING FOR ANY OF THEM, TO DO THIS. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME, AND MUST BE BROUGHT TO AN END AFTER A LIMITED PERIOD.

You must: (i) comply with all applicable laws and regulations in force in any jurisdiction in connection with the possession or distribution of this offering memorandum and the purchase, offer or sale of the notes; and (ii) obtain any consent, approval or permission required to be obtained by you for the purchase, offer or sale by you of the notes under the laws and regulations applicable to you in force in any jurisdiction to which you are subject or in which you make such purchases, offers or sales; neither we nor the initial purchasers shall have any responsibility therefor.

In this offering memorandum, unless otherwise specified or the context otherwise requires, a reference to a law or a provision of a law is a reference to that law or provision as extended, amended or re-enacted.

The notes are subject to restrictions on resale and transfer as described under “Transfer Restrictions.” By purchasing the notes, you will be deemed to have made certain acknowledgments, representations and agreements as described under “Transfer Restrictions.” You may be required to bear the financial risks of investing in the notes for an indefinite period of time.

The price and amount of the notes to be issued under the offering memorandum will be determined by CODELCO and the initial purchasers at the time of issue in accordance with prevailing market conditions.

You acknowledge that:

- you have been afforded an opportunity to request from us, and to review, all additional information considered by you to be necessary to verify the accuracy of, or to supplement, the information contained in this offering memorandum;
- you have not relied on the initial purchasers or any person affiliated with the initial purchasers in connection with your investigation of the accuracy of such information or your investment decision;
- you have made your own assessment concerning the relevant tax, legal, currency and other considerations relevant to investment in the notes;
- you have sufficient knowledge and experience to be capable of evaluating the merits and risks of a prospective investment in the notes; and
- no person has been authorized to give any information or to make any representation concerning us or the notes, other than as contained in this offering memorandum and, if given or made, any such other information or representation should not be relied upon as having been authorized by us or the initial purchasers.

This offering memorandum is for distribution only to and is directed only at (i) persons who are outside the United Kingdom or (ii) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Order”) or (iii) high net worth companies and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as “relevant persons”). The notes are only available to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire such notes will be engaged in only with relevant persons. Any person who is not a relevant person should not act or rely on this offering memorandum or any of its contents.

The notes are not intended to be offered, sold, or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the “Insurance Distribution Directive”), where the customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the notes or otherwise making them available to retail investors in the EEA, has been prepared and therefore the offering or selling of the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

The notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a “retail investor” means a person who is one (or more) of the following: (i) a “retail client” as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“EUWA”); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the “FSMA”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

See “Risk Factors” beginning on page 28 for a description of certain risks you should consider before investing in the notes.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

This offering memorandum contains forward-looking statements. We may from time to time make forward-looking statements in (i) our annual report; (ii) prospectuses, press releases and other written materials; or (iii) oral statements made by our officers, directors or employees to analysts, institutional investors, representatives of the media and others. Examples of these forward-looking statements include:

- projections of revenues, profit (loss), capital expenditures, dividends, capital structure or other financial items or ratios;
- statements of our plans, objectives or goals, including those relating to anticipated trends, competition, regulation and rates;
- statements about our future economic performance or that of Chile or other countries in which we have investments; and
- statements of assumptions underlying these statements.

Words such as “believe,” “could,” “may,” “will,” “anticipate,” “plan,” “expect,” “intend,” “target,” “estimate,” “project,” “potential,” “guideline,” “should” and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying these statements.

Forward-looking statements involve inherent risks and uncertainties. We caution you that a number of important factors could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in these forward-looking statements. These factors, some of which are discussed under “Risk Factors,” include economic and political conditions and government policies in Chile or elsewhere, inflation rates, exchange rates, regulatory developments and changes in Chilean law, customer demand, competition, unanticipated mining and production problems, commodity prices, relations with employees and contractors, variances in ore grade, adverse weather conditions and natural disasters. We caution you that the foregoing list of factors is not exclusive and that other risks and uncertainties may cause actual results to differ materially from those in forward-looking statements.

You are cautioned not to place undue reliance on these forward-looking statements which reflect our views only as of the date they are made, and we do not undertake any obligation to update them or publicly to release the result of any revisions to these forward-looking statements in light of new information or future developments after the date of this offering memorandum.

By their nature, forward-looking statements involve known and unknown risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Forward-looking statements are not guarantees of future performance.

New risk factors emerge from time to time, and it is not possible for us to predict all such risk factors. We cannot assess the impact of all risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, you should not place undue reliance on forward-looking statements as a prediction of actual results.

ENFORCEABILITY OF CIVIL LIABILITIES

CODELCO is a state-owned enterprise organized under the laws of Chile. All of its directors and executive officers and certain experts named in this offering memorandum reside outside the United States (principally in Chile), and all or a substantial portion of the assets of CODELCO and of such persons are located outside the United States. As a result, it may not be possible for investors to effect service of process within the United States on, or bring actions or enforce foreign judgments against, CODELCO or such persons in U.S. courts. In addition, CODELCO has been advised by its Chilean counsel, Carey y Cía. Ltda., that no treaty exists between the United States and Chile for the reciprocal enforcement of foreign judgments. There is also doubt as to the enforceability in Chilean courts of judgments of U.S. courts obtained in actions predicated upon the civil liability provisions of U.S. federal securities laws. Chilean courts, however, have enforced judgments rendered in the United States by virtue of the legal principles of reciprocity and comity, subject to the review in Chile of the U.S. judgment in order to ascertain whether certain basic principles of due process and public policy have been respected, without reviewing the merits of the subject matter of the case. If a U.S. court grants a final judgment for the payment of money, enforceability of this judgment in Chile will be subject to obtaining the relevant exequatur (*i.e.*, recognition of enforceability of the foreign judgment) in a proceeding before the Chilean Supreme Court, according to Chilean civil procedure law in effect at that time and satisfying certain legal requirements. Currently, the most important of these requirements are (except when a treaty between the United States and Chile exists for the reciprocal enforcement of foreign judgments):

- the judgment will be enforced if there is reciprocity, as to the enforcement of judgments (*i.e.*, the relevant U.S. court would enforce a judgment of a Chilean court under comparable circumstances). If reciprocity cannot be proven, the foreign judgment will not be enforced in Chile;
- if reciprocity cannot be proven, the foreign judgment will be enforced, nonetheless, if: (i) it does not contain anything contrary to Chilean law, notwithstanding the differences in procedural rules; (ii) it is not contrary to Chilean jurisdiction and public policy; (iii) it has been duly served, although the defendant may prove that, for other reasons, he or she was prevented from using a defect in service of process as a defense; and (iv) it is final under the laws of the country where the judgment or arbitral award, as the case may be, was rendered. With respect to service of process, the Chilean Supreme Court has decided that, to determine that process was duly served, service should be considered valid in the jurisdiction where the case was decided and it can be proven that the defendant had actual knowledge of the suit; and
- in any event, the foreign judgment must not be contrary to the public policy of Chile or Chilean jurisdiction and must not affect in any way any property located in Chile, which, as a matter of Chilean law, are exclusively subject to the jurisdiction of Chilean courts.

If the exequatur is granted, then the judgment may be enforced by a lower court through a collection proceeding under Chilean civil procedure law.

In addition, it may be necessary for investors to comply with certain procedures, including evidence of timely payment of the stamp taxes (currently at a rate of 0.066% per month or fraction thereof elapsed between the issuance and the maturity of the notes, calculated over the principal amount of the notes, with a maximum 0.8% over the principal amount, which would be the stamp tax rate applicable to this case to be paid by CODELCO), to file a lawsuit concerning the Notes in a Chilean court.

Also, foreign judgments specifically related to properties located in Chile, including the attachment of liens on such properties, could be considered to violate Chilean law because such properties are exclusively subject to Chilean law and to the jurisdiction of Chilean courts.

Lastly, CODELCO has been advised by Carey y Cía. Ltda. that there is doubt as to the enforceability in original actions in Chilean courts of liabilities predicated solely upon U.S. federal securities laws.

<http://www.oblible.com>

The notes, the indenture and the purchase agreement will provide that CODELCO will appoint Cogency Global Inc. in New York City as its agent upon whom process may be served in any action arising out of or based upon, respectively, the notes, the indenture, the purchase agreement or the transactions contemplated thereby, which may be instituted in any federal or state court having “subject matter” jurisdiction. See “Description of Notes.”

Pursuant to the Chilean Mining Code, mining concessions as well as certain raw materials and other property or assets permanently dedicated to the exploration or extraction of minerals cannot be subject to an order of attachment, except with respect to mortgages, in the case that the debtor consents to the attachment in the same enforcement proceeding or when the debtor is a stock corporation. In addition, pursuant to the Chilean constitution (the “Constitution”), mining concessions corresponding to mining deposits exploited by CODELCO upon its creation in 1976 cannot be subject to attachment nor to any act of disposition by CODELCO. As a result, the rights of holders to attach property of CODELCO in the event of a default under the notes would be limited by such provisions. See “Regulatory Framework—Mining Regulations.”

PRESENTATION OF FINANCIAL AND STATISTICAL INFORMATION

In this offering memorandum, references to “U.S.\$,” “\$,” “U.S. dollars” and “dollars” are to United States dollars and references to “¢” and “cents” are to United States cents (U.S.\$0.01). References to “pesos,” “CLP” or “Ch\$” are to Chilean pesos, references to “UF” are to “*Unidades de Fomento*”, references to “UTAs” are to “*Unidades Tributarias Anuales*” and references to “UTMs” are to “*Unidades Tributarias Mensuales*.” References to “AU\$” and “AUD” are to Australian dollars. References to “HKD” are to Hong Kong dollars. The UF is an inflation-indexed Chilean monetary unit that is linked to, and adjusted daily to reflect changes in, the Chilean consumer price index during the preceding 30 days. References to “euro” or “€” are to the legal currency of the European Economic and Monetary Union.

CODELCO, as an issuer of publicly traded securities in Chile, is required by Circular No. 368 (*Oficio Circular No. 368*) of October 2006, as amended, of the Chilean Market Commission (*Comisión para el Mercado Financiero*, the Chilean securities authority, or “CMF”) to prepare and report consolidated financial statements in accordance with IFRS Accounting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”).

The audited consolidated financial statements as of and for the years ended December 31, 2022 and 2023 and the audited consolidated financial statements as of and for the years ended December 31, 2023 and 2024 included herein are referred to as the “2022-2023 Consolidated Financial Statements” and the “2023-2024 Consolidated Financial Statements,” respectively. The 2022-2023 Consolidated Financial Statements and the 2023-2024 Consolidated Financial Statements (together, the “Audited Annual Consolidated Financial Statements”) are presented in accordance with IFRS issued by the IASB.

The unaudited interim consolidated financial statements as of September 30, 2025 and for the nine-month periods ended September 30, 2024 and 2025 included herein (the “Unaudited Interim Consolidated Financial Statements”) are presented in accordance with International Accounting Standard (IAS) 34 “Interim Financial Reporting,” the standard of IFRS Accounting Standards applicable to the preparation of the interim consolidated financial statements. The Unaudited Interim Consolidated Financial Statements and the Audited Annual Consolidated Financial Statements are referred to together as the “Consolidated Financial Statements.”

The accounting policies adopted in the preparation of the Unaudited Interim Consolidated Financial Statements are consistent with those applied in the preparation of the Audited Annual Consolidated Financial Statements.

Unless otherwise indicated, the Consolidated Financial Statements and other financial information concerning CODELCO included herein are presented in U.S. dollars in conformity with Decree Law No. 1,350 of 1976 (“Decree Law No. 1,350”), published in the *Diario Oficial de la República de Chile* (“Official Gazette”) on February 28, 1976, as amended by Law No. 20,392 (“Law 20,392”) published in the Official Gazette on November 14, 2009, and for periods after January 1, 2009, in accordance with IFRS. Decree Law No. 1,350 (as amended from time to time) is the Chilean law pursuant to which CODELCO was created and which provides for its governance.

Because the notes offered hereby have not been and will not be registered with the SEC, this offering memorandum does not and is not required to comply with the applicable requirements of the Securities Act, and the related rules and regulations adopted by the SEC, which would apply if the notes offered hereby were being registered with the SEC.

The U.S. dollar is the currency used in the primary economic environment in which CODELCO operates. Nevertheless, as an international company operating primarily in Chile, as well as in several other Latin American countries, several European countries and China, a portion of CODELCO’s business is transacted in Chilean pesos and other non-dollar currencies.

The body of generally accepted accounting principles is commonly referred to as “GAAP.” A non-GAAP financial measure is generally defined by the SEC as one that purports to measure historical or future financial performance, financial position or cash flows but: (i) excludes amounts, or is subject to adjustments that have the

effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the issuer's statement of income, balance sheet or statement of cash flows (or equivalent statements); or (ii) includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented.

In this offering memorandum, CODELCO discloses several non-GAAP financial measures, including "Adjusted EBIT," "Adjusted EBITDA," "cash cost," "total costs and expenses," "financial debt" and "total debt to capitalization." Adjusted EBIT is calculated by adding finance cost, impairment charges and income tax expense to profit (loss) for the period. Adjusted EBITDA is calculated by adding finance cost, income tax expense, depreciation and amortization of assets plus export taxes and impairment charges to profit (loss) for the period. Impairments include charges and reversals related to charges of investment projects, research projects and investment in associates and joint ventures and exclude impairment charges related to definite-lived tangible assets which show indicators of impairment under International Accounting Standard No. 36. Cash cost is calculated in accordance with the methodology specified by Brook Hunt & Associates for the determination of C1 cost (cash cost) and includes all direct cash costs of mining, including costs associated with extraction, leaching, smelting and further processing of copper ores into refined metal, as well as labor, electricity, diesel, finance costs, third-party services, other costs, transportation and physical plant costs associated with those processes, net of income from sales of byproducts. Cash cost is presented as a nominal dollar amount, usually expressed as cents per pound, and excludes provisions, amortization, depreciation and central office costs. Total cost and expenses includes all cost and expenses that the cash cost calculation includes, plus other non-cash direct expenses such as depreciation expenses, among others. Financial debt is calculated as loans from financial institutions plus bonds issued. Total debt to capitalization includes total financial debt divided by total financial debt plus total equity.

Adjusted EBIT and Adjusted EBITDA data are included in this offering memorandum because such data are used by investors to assess: (i) the operating trends and financial performance of the Company and (ii) the ability of the Company to (a) service its existing debt, (b) incur new debt and (c) fund its capital expenditures.

CODELCO believes that Adjusted EBIT and Adjusted EBITDA, while providing useful information, should not be considered in isolation or as a substitute for profit for the period as an indicator of operating performance or as an alternative to cash flow as a measure of liquidity. Adjusted EBIT and Adjusted EBITDA are not measures of financial performance in accordance with IFRS. Additionally, CODELCO's calculation of Adjusted EBIT and Adjusted EBITDA may differ from the calculation used by other companies and, therefore, comparability may be affected.

Cash cost is disclosed in this offering memorandum because it is a widely used measure of costs in the mining industry. CODELCO believes that cash cost, while providing useful information, should not be considered in isolation or as a substitute for cost of sales, cost of selling and administrative expenses or as an indicator of costs. Cash cost is not a measure of financial performance in accordance with IFRS.

CODELCO also presents certain ratios and margins that are derived using Adjusted EBITDA, including the ratio of debt to Adjusted EBITDA, the Adjusted EBITDA coverage ratio and earnings to fixed charges (adjusted). CODELCO believes that these ratios are widely used by investors to measure our performance. In the section titled "Summary Consolidated Financial Data," CODELCO provides a reconciliation of Adjusted EBIT and Adjusted EBITDA to profit, along with the ratio of debt to Adjusted EBITDA, Adjusted EBITDA coverage ratios and ratio of earnings to fixed charges (adjusted), for the relevant periods.

These non-GAAP financial measures may not be comparable to similarly titled measures of other companies. The assumptions underlying the non-GAAP financial measures have not been audited in accordance with International Standards on Auditing or any other generally accepted auditing standards.

In evaluating the non-GAAP financial measures, investors should carefully consider the financial statements of the Company included in this offering memorandum. Although certain of this data has been extracted or derived from the financial statements included in this offering memorandum, this data has not been audited or reviewed by the independent auditors.

Under the accounting policies adopted by CODELCO, gross profit is calculated before the provision for a 10% special export tax. Under Law No. 21,174 of 2019, as amended, that repealed Law No.13,196 of 1958 (the “Copper Reserve Law”), CODELCO is required to pay a special export tax on the sales revenues that CODELCO derives from the export of copper sourced and related byproducts produced by CODELCO. In addition, CODELCO is subject to the new mining royalty tax under Law 21,591 (the “Mining Royalty Law”), which generally comprises an Ad Valorem component which applies a tax rate of 1% on annual copper sales, and a mining margin component which applies a progressive tax rate (i.e., 8%-26%) on the adjusted taxable mining operating margin. In addition, a maximum potential tax burden of 46.5% is established on the mining entity’s operating profitability, measured as the adjusted pre-taxable mining operating income. See “Risk Factors—Risks Relating to CODELCO’s Relationship with the Government of Chile—CODELCO is subject to special taxes” for additional information on these special taxes, including the mining tax rate effective for 2021, 2022, 2023 and 2024. Certain figures included in this offering memorandum and in the Consolidated Financial Statements have been rounded for ease of presentation. Percentage figures included in this offering memorandum have in some cases been calculated on the basis of such figures prior to rounding. For this reason, certain percentage amounts in this offering memorandum may vary from those obtained by performing the same calculations using the figures in the Consolidated Financial Statements. Certain other amounts that appear in this offering memorandum may not sum due to rounding.

The Observed Exchange Rate (as defined herein under “Exchange Rates”) reported by the Central Bank of Chile (i) as of January 3, 2022 was Ch\$844.69 = U.S.\$1.00; (ii) as of January 3, 2023 was Ch\$855.86 = U.S.\$1.00; (iii) as of October 3, 2023 was Ch\$902.26 = U.S.\$1.00; (iv) as of January 2, 2024 was Ch\$877.12 = U.S.\$1.00; (v) as of January 2, 2025 was Ch\$996.46 = U.S.\$1.00; and (vi) as of September 30, 2025 was Ch\$961.24 = U.S.\$1.00. This offering memorandum contains translations of certain Chilean peso amounts into dollars at specified rates solely for the convenience of the reader. These translations should not be construed as representations that the Chilean peso amounts actually represent such dollar amounts or could, at this time, be converted into dollars at the rate indicated. The Federal Reserve Bank of New York does not report a noon buying rate for Chilean pesos. Unless otherwise indicated, such dollar amounts have been converted from Chilean pesos at an exchange rate of Ch\$870.71 per U.S.\$1.00, which corresponds to the Observed Exchange Rate on January 26, 2026.

In this offering memorandum, all tonnage information is expressed in metric tons and all references to ounces are to troy ounces, in each case, unless otherwise specified. Except where otherwise noted, tonnage information in this offering memorandum does not include: (i) CODELCO’s 49.0% direct share of the El Abra deposit, which is mined by Sociedad Contractual Minera El Abra and 51.0% owned by Cyprus El Abra Corporation, a subsidiary of Freeport-McMoRan Inc., (ii) CODELCO’s 20.0% share of Anglo American Sur S.A. (“Anglo American Sur”), or (iii) CODELCO’s 10% share of Compañía Minera Teck Quebrada Blanca S.A. deposit, which is mined by Teck Resources Ltd. (“Teck Resources”), Sumitomo Metal Mining Co., Ltd. (“Sumitomo Metal Mining”) and Sumitomo Corporation (“Sumitomo Corporation”), unless otherwise specified. See “Business and Properties—Copper Production—Associations, Joint Ventures and Partnerships—SCM El Abra,” “—Anglo American Sur” and “—Compañía Minera Teck Quebrada Blanca S.A.” for a description of these interests. Certain terms relating to the copper mining business are defined in “Glossary of Certain Mining Terms.”

Market information regarding CODELCO’s share of copper production and relative cost position has been derived by CODELCO from third-party sources, including reports from Brook Hunt & Associates, and from CODELCO’s own industry research. Brook Hunt & Associates publishes periodic reports containing global copper production data and cost analysis by mine site. While CODELCO believes that its estimates are reliable, such estimates have not been confirmed by independent sources. The Consolidated Financial Statements do not necessarily reflect the value of CODELCO’s mining concessions or its resources and reserves. Fair value of mining properties acquired through business combinations is reflected in the Consolidated Financial Statements when acquired.

With respect to any information included herein and specified to be sourced from a third party, CODELCO confirms that such information has been accurately reproduced and that, as far as CODELCO is aware and is able to ascertain from information published by such third party, no facts have been omitted which would render the reproduced information inaccurate or misleading.

As used in this offering memorandum, “Chuquicamata,” “Radomiro Tomic,” “Gabriela Mistral,” “El Teniente,” “Andina,” “Salvador,” “Mina Ministro Hales” and “Ventanas” refer to divisions of CODELCO, not the mines having those names, unless otherwise required by context.

SUMMARY

This summary must be read as an introduction to this offering memorandum and any decision to invest in the notes should be based on a consideration of the offering memorandum as a whole.

The following summary is qualified in its entirety by the more detailed information and financial statements appearing elsewhere in this offering memorandum. Except as otherwise disclosed herein or indicated, financial information with respect to CODELCO provided in this offering memorandum has been presented in U.S. dollars and prepared in accordance with IFRS.

CODELCO is the world's largest copper producer and one of the largest companies in Chile in terms of revenues, which in 2024 amounted to U.S.\$17.0 billion. As of December 31, 2024, CODELCO's total assets were U.S.\$49.7 billion and equity amounted to U.S.\$11.3 billion. As of September 30, 2025, CODELCO's total assets were U.S.\$52.1 billion and equity amounted to U.S.\$11.2 billion.

CODELCO engages primarily in the exploration, development and extraction of ores bearing copper and byproducts, the processing of ore into refined copper and the international sale of refined copper and byproducts. CODELCO is wholly-owned by the Chilean state and controls approximately 4.7% of the world's proved and probable copper reserves, as such terms are defined by the U.S. Geological Survey.

In 2024, CODELCO had an estimated 6.3% share of total world copper production, with production amounting to approximately 1.442 million metric tons, including: (i) CODELCO's share of the El Abra deposit, which is mined by Sociedad Contractual Minera El Abra and owned 49.0% by CODELCO and 51.0% by Cyprus El Abra Corporation (a subsidiary of Freeport-McMoRan Inc.); (ii) CODELCO's share of Anglo American Sur (of which CODELCO owns a 20.0% indirect share); and (iii) CODELCO's share of Quebrada Blanca (of which CODELCO owns a 10.0% share), and an estimated 6.2% share of the world's molybdenum production, with production amounting to approximately 16.1 thousand metric tons excluding CODELCO's share of Anglo American Sur.

CODELCO's main commercial product is Grade A cathode copper. In 2024 and for the nine-month period ended September 30, 2025, CODELCO derived 92.4% and 93.1% of its total sales from copper and 7.6% and 6.9% of its total sales from byproducts of its copper production, respectively.

CODELCO's sales of copper in 2024 were geographically diversified, with approximately 48.0% of sales made to Asia, including approximately 38.1% to China, as well as approximately 41.0% to North and South America and 11.0% to Europe. CODELCO's top ten customers purchased approximately 41.9% of its total copper sales volume in 2024.

CODELCO's copper operations are divided into the following eight divisions:

- The El Teniente Division operates the El Teniente mine, which is the world's largest underground copper mine and has been in operation for more than 100 years. The El Teniente Division includes the Caltones smelter. In 2024, this division produced 356,372 metric tons of copper, or 24.7% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 156.6 cents per pound, compared to 138.0 cents per pound in 2023, and a total cash cost of U.S.\$1,214.0 million in 2024, compared to U.S.\$1,060 million in 2023. During the first nine months of 2025, this division produced 234,334 metric tons of copper with a cash cost of 153.5 cents per pound and a total cash cost of U.S.\$782.4 million. On July 31, 2025, a seismic event occurred at the El Teniente mine, resulting in the tragic loss of six lives. The incident led to the suspension of operations across multiple sectors. As of the date of this offering memorandum, most areas have been authorized to resume their activities; however, operations in Recursos Norte and Andesita (part of the New Mine Level structural project) remain suspended. For more information, see "Recent Developments—Fatal accident at El Teniente Division."
- The Radomiro Tomic Division operates the Radomiro Tomic mine, which began its first full year of production in 1998. In 2024, this division produced 270,479 metric tons of copper cathodes, or 18.8% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American

Sur and Quebrada Blanca), with a cash cost of 239.9 cents per pound, compared to 235.9 cents per pound in 2023, and a total cash cost of U.S.\$1,410.1 million in 2024 compared to U.S.\$1,617.2 million in 2023. During the first nine months of 2025, this division produced 214,220 metric tons of copper with a cash cost of 247.8 cents per pound and a total cash cost of U.S.\$1,151.2 million.

- The Chuquicamata Division operates the Chuquicamata mine, one of the largest copper-producing mines in the world, which began its operations in 1915 and currently includes smelting and refining capacities. In 2024, this division produced 289,013 metric tons of copper cathodes, or 20.0% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 149.8 cents per pound, compared to 158.5 cents per pound in 2023, and a total cash cost of U.S.\$938.1 million in 2024, compared to U.S.\$ 851.7 million in 2023. During the first nine months of 2025, this division produced 169,600 metric tons of copper with a cash cost of 167.6 cents per pound and a total cash cost of U.S.\$612.7 million.
- The Mina Ministro Hales Division was created in 2010 for the operation of the Mina Ministro Hales ore body, which first began producing copper at the end of 2013. In 2024, this division produced 122,208 metric tons of copper, or 8.5% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 196.7 cents per pound, compared to 200.7 cents per pound in 2023, and a total cash cost of U.S.\$513.2 million in 2024, compared to U.S.\$539.4 million in 2023. During the first nine months of 2025, this division produced 105,262 metric tons of copper with a cash cost of 202.3 cents per pound and a total cash cost of U.S.\$454.2 million.
- The Andina Division currently operates the Sur open pit mine, where it carries out its mineral extraction activities. It does not have independent smelting capacity. Andina has been in operation since 1970. In 2024, this division produced 181,609 metric tons of copper, or 12.6% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 225.5 cents per pound, compared to 230.3 cents per pound in 2023, and a total cash cost of U.S.\$872 million in 2024, compared to U.S.\$807 million in 2023. During the first nine months of 2025, this division produced 127,467 metric tons of copper with a cash cost of 248.8 cents per pound and a total cash cost of U.S.\$675.4 million.
- The Gabriela Mistral Division was created in 2013 and operates the Gabriela Mistral mine, which uses SX-EW technology. The Gabriela Mistral mine produced its first copper cathodes in 2008 after a 26-month construction period. In 2024, this division produced 103,075 metric tons of copper, or 7.1% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 271.3 cents per pound, compared to 292.5 cents per pound in 2023, and a total cash cost of U.S.\$617 million in 2024, compared to U.S.\$682 million in 2023. During the first nine months of 2025, this division produced 58,850 metric tons of copper with a cash cost of 370.5 cents per pound and a total cash cost of U.S.\$480.7 million.
- The Salvador Division operates the Salvador mine and concentrator and the smelter/refinery complex at Potrerillos, which has the capacity to treat 671,000 metric tons of concentrate. In 2024, this division produced 5,673 metric tons of copper cathodes, or 0.4% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 170.3 cents per pound, compared to 575.5 cents per pound in 2023, and a total cash cost of U.S.\$25.8 million in 2024, compared to U.S.\$164.3 million in 2023. During the first nine months of 2025, this division produced 27,402 metric tons of copper with a cash cost of 241.6 cents per pound and a total cash cost of U.S.\$142.6 million.
- The Ventanas Division was created in connection with the acquisition of the Ventanas smelter/refinery complex from Chile's state-owned mining company Empresa Nacional de Minería ("ENAMI") in 2005. In 2024, this division refined 287.2 thousand metric tons of copper, compared to 357.2 thousand metric tons of copper in 2023. During the first nine months of 2025, the Ventanas Division refined 201 thousand metric tons of copper. Pursuant to the terms of the acquisition, CODELCO is required to provide on market terms the necessary smelting and refining capacity for the treatment of copper concentrate delivered by the

small- and medium-sized mining industry that ENAMI serves. In May 2023, Law No. 21,546 permitted the gradual closure of the Ventanas smelter/refinery complex and after almost 60 years of operation, the furnaces at Ventanas Division smelting plant were shut down. The transition of its former workers successfully concluded, with 58.8% of workers opting for an exit plan, 26.9% retrained for new roles at the Ventanas division, and 14.3% relocated to other divisions, following the smelter's closure. As of the date of this offering memorandum, CODELCO continues to operate in the area through its refinery.

- The Chuquicamata Division, the Radomiro Tomic Division, the Mina Ministro Hales Division, the Gabriela Mistral Division and the Salvador Division form part of CODELCO's Northern Operations (*Operaciones Norte*). The Andina Division, the El Teniente Division and the Ventanas Division form part of CODELCO's Central Southern Operations (*Operaciones Centro Sur*). For a description of CODELCO's associations with other companies, see "Business and Properties—Copper Production—Associations, Joint Ventures and Partnerships."

Competitive Strengths

CODELCO believes that it has certain distinguishing competitive strengths:

- *Copper Reserves.* CODELCO controls approximately 4.7% of the world's proved and probable copper reserves. In 2024, CODELCO's proved and probable reserves represented at least 30 years of future production at current levels.
- *Market Presence.* CODELCO is the largest copper producer in the world, with an estimated 6.3% share of the total world copper production and 1.44 million metric tons (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca) of production in 2024. CODELCO is also one of the largest producers of molybdenum in the world, with an estimated 6.2% share of total world molybdenum production, producing 16,099 metric tons in 2024 (excluding CODELCO's share of Anglo American Sur). CODELCO believes that its significant market presence gives the Company certain advantages in the marketing of its products.
- *Research and Technological Innovation.* CODELCO remains competitive by developing and incorporating new technologies into its production processes, which aim to improve overall operations, including mining processes, efficiency, productivity, environmental protection and worker safety.
- *Stable, Long-term and Geographically Diverse Customer Base.* CODELCO has developed long-term relationships with the majority of its customers, including some of the leading manufacturers in the world.
- *Financial Strength.* In 2024, CODELCO's Adjusted EBITDA amounted to U.S.\$5.4 billion. Total debt to capitalization was 66.9% as of December 31, 2024, and the ratio of net financial debt to Adjusted EBITDA was 2.8. As of September 30, 2025, CODELCO's Adjusted EBITDA amounted to U.S.\$4.1 billion and total debt to capitalization for the nine-month period ended September 30, 2025, was 68.7%.
- *Management Efficiency and Flexibility.* CODELCO believes that it has a highly experienced workforce and executive team with a proven track record of managing long-life copper reserves that is able to respond to market changes by adjusting the allocation of its resources and operations among several different methods of production and ore deposits.
- *One of the Leading Companies in Chile.* CODELCO is one of the largest companies in Chile in terms of revenues as of December 31, 2024 (U.S.\$17 billion) and is a key contributor to the budget of the Government of Chile. In 2024, CODELCO contributed U.S.\$1.5 billion to the Chilean Treasury and accounted for approximately 14.5% of Chile's total exports. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Distributions to the Chilean Treasury" and "Regulatory Framework."

Business Strategy

CODELCO's mission is to maximize its economic, environmental and social value and its contribution to the Chilean state in a sustainable manner, through its own operations and partnerships in copper, lithium and their by-products. CODELCO is currently executing the following key strategic initiatives:

- *Capital Expenditure Program.* We seek to maintain and improve our competitive position in the industry through our three-year capital expenditure program. CODELCO expects to make capital expenditures of approximately U.S.\$17.16 billion between 2025 and 2027 (current project portfolio and mine development), in addition to U.S.\$279.0 million in its subsidiaries. We expect these expenditures to be funded with a combination of internal and external resources. For a complete list of planned capital expenditures, see "Business and Properties—Copper Production—Operations." CODELCO's expansion and development of major projects between 2025 and 2027 are expected to include:
 - The Chuquicamata Underground Project, the gradual transformation of the Chuquicamata mine from an open pit mine to an underground operation. This project considers the exploitation of the mine in three levels, the first of which started production in 2019 and comprised an initial investment of approximately U.S.\$5.96 billion.

Within 2025-2027, CODELCO expects an investment of U.S.\$585.0 million on the continuity infrastructure of the first level (Phase I Project – construction progress of 81%) and expects to spend U.S.\$329.0 million in the first level expansion project (First Level Continuity Project), enabling the continuous growth of the current production level. Early studies for the exploitation of the second level are ongoing. The third level is still in the early engineering stages.

 - The reallocation of a part of the Andina concentrator plant, which involves maintaining the treatment capacity of the plant using two production lines has been completed.
 - The development of a new production level in the existing El Teniente underground mine (an approximate investment of U.S.\$2.20 billion between 2025 and 2027) to maintain El Teniente's annual copper production at its current level. The new mining level has been divided into three separate projects: (i) Andes Norte, (ii) Andesita, and (iii) Diamante. As of September 30, 2025, progress made on the structural projects was as follows: the Andes Norte project reached 80% completion, while the Diamante project reached 49% completion. At the end of September 2025, both projects obtained clearance from the National Geology and Mining Service (*Servicio Nacional de Geología y Minería* or "SERNAGEOMIN") and the Labor Directorate (*Dirección del Trabajo*), enabling the incorporation of key personnel and the implementation of a progressive return plan. Simultaneously, the Andesita project will continue under review following the incident that occurred on July 31, 2025. For more information, see "Recent Developments—Fatal accident at El Teniente Division."
 - The development of the Inca Pit project is designed to extend the production of the Salvador Division and is currently in ramp up. It requires an approximate investment of U.S.\$0.49 billion between 2025 and 2027 to finish remaining infrastructure. As of September 30, 2025, after the construction of the concentrator plant was finalized, the project reached a 93% overall completion status.
 - Radomiro Tomic expects the completion in 2026 of the feasibility stage of its new sulfide operation, concentrator plant and the continuity of leaching operations, representing an approximate investment of U.S.\$216.0 million between 2025 and 2027.
- *Focus on curbing production costs.* For many years, CODELCO was within the first or second quartiles in the industry with respect to costs. This position was primarily attributable to the quality of its ore bodies, its economies of scale and the experience of its workforce and management. Currently, CODELCO is in the third quartile of the industry's cost curve. The Company intends to make every effort, through investment and management, to be within the first or second quartiles of the industry's cost curve in the long-term. In 2024, CODELCO's total costs and expenses decreased by 6.1 cents per pound, or 1.8%, to 329.0 cents per pound, compared to 335.1 cents per pound

in 2023 and 310.9 cents per pound in 2022, mainly due to the revaluation of peso-denominated liabilities resulting from the depreciation of the Chilean peso against the U.S. dollar as well as lower input costs (mainly energy, spare parts, and materials), and higher production volumes. For the first nine months of 2025, CODELCO's total costs and expenses increased by 22.1 cents per pound (6.4%) to 368.5 cents per pound, compared to 346.4 cents per pound for the same period in 2024, mainly due to the appreciation of the Chilean peso against the U.S. dollar, increased activity at the Radomiro Tomic Division and at Salvador's open-pit mine—which was halted last year during its ramp-up phase—partially offset by higher production volumes and increased by-product output and sales. In 2024, CODELCO's total costs and expenses decreased to U.S.\$10.4 billion, compared to U.S.\$10.7 billion in 2023 and U.S.\$9.7 billion in 2022, mainly due to lower operating costs driven by lower energy and input prices, inventory adjustments, and reduced spending on materials and fuel. These effects were partially offset by higher transferred costs and increased financial expenses.

- For the first nine months of 2025, CODELCO's total costs and expenses amounted to U.S.\$8.4 billion, compared to U.S.\$7.5 billion for the same period in 2024, primarily due to higher operating costs mainly as a result of equipment rentals and plant maintenance and higher labor costs as a consequence of the foreign exchange rate appreciation. In 2024, CODELCO's cash cost of production was 199.1 cents per pound, compared to 203.1 cents per pound in 2023 and 165.4 cents per pound in 2022.
- For the first nine months of 2025, CODELCO's cash cost of production was 214.0 cents per pound, compared to 205.0 cents per pound for the same period in 2024 primarily due to higher operational costs, particularly equipment rentals associated with efforts to accelerate mine development, as well as maintenance materials, and increased activity at the Radomiro Tomic and the Salvador divisions. The increase was partially offset by higher byproduct revenues and increased production. In 2024, CODELCO's total cash cost was U.S.\$5.7 billion, compared to U.S.\$5.8 billion in 2023 and U.S.\$5.2 billion in 2022.
- For the first nine months of 2025, CODELCO's total cash cost was U.S.\$4.4 billion, as compared to U.S.\$4.1 billion for the same period in 2024, including certain cash cost incurred at the corporate level. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Overview."
- *Improvement in Operations.* A number of improvement initiatives are underway to adopt best industry practices, most notably in the areas of labor productivity, asset utilization rates and process efficiency. Together with its capital expenditure program, these initiatives are expected to enhance CODELCO's competitive position. The Company operates in a cyclical business and CODELCO's strategy is to ensure that it is able to take full advantage of high copper prices. The Company is developing a number of plans to achieve production targets in the coming years. These plans mainly focus on reducing the risk of disruptions to production and providing increased flexibility to its operations.
- *Exploration Efforts.* CODELCO controls the largest copper reserves worldwide, the Company's single most important long-term competitive advantage. The discovery of new mining resources and improving its ability to locate existing ore bodies and prospects are critical to maintaining this preeminent position in the industry. Accordingly, the Company's exploration program will continue to be a key part of its business strategy.
- *Investment in Human Capital.* The successful execution of CODELCO's business strategy relies on attracting and retaining a world-class management team and professionals of the highest caliber, as well as promoting a culture of diversity and inclusion. The mining industry faces increased competition for workforce talent. As a result, the Company intends to continue improving career development opportunities for its staff and the overall attractiveness of CODELCO as a preferred employer.
- *Mining Association with Third Parties.* CODELCO seeks to continue to develop and operate assets in association with third parties where these associations will add value to CODELCO's business. A few examples of the Company's willingness and ability to do so are: (i) the association with Freeport-McMoRan Inc. in the El Abra copper mine (CODELCO owns 49.0%), (ii) the association with Anglo American plc ("Anglo American"), Mitsui & Co., Ltd. ("Mitsui") and Mitsubishi Corporation ("Mitsubishi Corporation") in Anglo American Sur (CODELCO owns an indirect 20.0% interest), (iii) the association with Teck Resources, Sumitomo Metal Mining and Sumitomo Corporation in Compañía Minera Teck Quebrada Blanca S.A. (CODELCO owns 10.0%), (iv) the association with

Sociedad Química y Minera de Chile S.A. (“SQM”) in the new lithium joint venture in Salar de Atacama (CODELCO will control 50% plus one share of the new venture once the specific conditions are fulfilled, with SQM maintaining general management responsibilities from 2025-2030 and CODELCO assuming full management control in 2031), and (v) the association with Rio Tinto Chile Dos SpA (“Rio Tinto”) in the development of the lithium project in the Maricunga salt flat (CODELCO will control 50.01%). CODELCO believes its large mining reserve is a strong platform from which to establish such associations. CODELCO may expand mining associations with third parties where it helps to optimize the operation of their respective mines.

- *Sustainability is an integral part of our strategy.* CODELCO has set sustainability targets, which it hopes to reach by December 2030, and include: (i) 70.0% reduction of greenhouse gas emissions (Scope 1 and 2) from 2019 levels; (ii) 60.0% reduction of unitary continental water consumption from 2019 levels; (iii) recycling 65.0% of industrial waste; (iv) implementation of online monitoring and infiltration control systems to all tailing storage facilities; (v) 60.0% increase of goods and services provided by local suppliers from 2019 levels; and (vi) 25.0% reduction of particulate matter (PM10) emissions from 2019 levels.

Role of CODELCO related to Lithium

In April 2023, the Government of Chile announced the National Lithium Strategy (the “Lithium Strategy”), which seeks to transform Chile into a world-leading lithium producer. The main measures announced included:

- *Creation of a National Lithium Company (Empresa Nacional del Litio):* This company will be 100% state-owned and will be created with the purpose of increasing the wealth of the country, to develop a sustainable industry for the country and the world as well as developing technology and productive chains, among others. As of the date of this offering memorandum, the bill for the creation of the National Lithium Company has not been submitted to Congress.
- *Creation of the “CORFO Committee for Productive Transformation” (Comité CORFO de Transformación Productiva):* This committee, led by the Ministry of Mining, aims to promote productive transformation through scientific-technological and industrial development policies.
- *Public-private collaboration:* Until the creation of the National Lithium Company, the state-owned mining companies, CODELCO and ENAMI, shall play an initial role as representatives of the Government of Chile in the exploitation and exploration of lithium. Notwithstanding, as of the date of this offering memorandum, the government of Chile has not submitted a bill for the creation of the National Lithium Company for discussion at the Chilean Congress, and the Government of Chile is seeking to enhance alliances with the private sector, such as the CODELCO and SQM Partnership Agreement, referred in the paragraph below “—New Public-Private Partnership between CODELCO and SQM.”
- *Incorporation of the Government of Chile into the productive activity of the Atacama salt flat:* CODELCO has been entrusted with assessing alternatives to accomplish the state of Chile’s participation in the exploitation of lithium in the Atacama salt flat (Chile’s largest lithium deposit) in anticipation of the expiration of the lease agreements currently in force between CORFO (*Corporación de Fomento de la Producción*, or “CORFO”) and SQM, which allow the exploitation of the lithium located in the Atacama salt flat until 2030. The Government of Chile announced that the lease agreements currently in force will be fully honored, so involvement of the state of Chile in exploiting lithium in the Atacama salt flat before the termination of those lease agreements would be by virtue of a negotiated agreement with SQM. The first step for the subscription of such agreement was announced on December 27, 2023, and consisted of a memorandum of understanding executed by CODELCO and SQM through which both parties agreed on the main terms to negotiate an association to explore, exploit and commercialize lithium and other substances available in the Atacama salt flat, that would commence in 2025. The association agreement was executed on May 31, 2024, and on December 27, 2025, the merger between Minera Tarar (as defined below) into Nova Andino Litio SpA was completed, following (i) merger control approvals secured in Brazil, South Korea, Japan, Saudi Arabia, the European Union, Chile (including by the National Economic Prosecutor (*Fiscalía Nacional Económica* or “FNE”)) and the People’s Republic of China, (ii) approval by the Chilean Nuclear Energy Commission (*Comisión Chilena de Energía Nuclear* or “CChEN”) to increase the

production quota to 300k LCE tons for the 2025–2030 period, as well as for the quota covering the 2031–2060 period and (iii) the approval (*toma de razón*) by the Office of the Comptroller General of the Republic of Chile (*Contraloría General de la República*) with respect to the CORFO–Tara Lease and the amendment of the CORFO–SQM Lease. Following completion of the merger, CODELCO, its subsidiary Salares de Chile SpA, SQM and its subsidiary SQM Nueva Potasio SpA executed a shareholders' agreement for the joint venture. CODELCO appointed, by unanimous resolution of its board, Máximo Pacheco Matte, Josefina Montenegro Araneda and Alfredo Moreno Charme as directors of the joint venture for a two-year term. SQM appointed Ricardo Ramos Rodríguez, Hernán Uribe Gabler and Manuel Ovalle Edwards as directors.

- *Creation of protected salt flats and ensuring low environmental impact technologies:* In line with the obligations established in the Convention on Biological Diversity, ratified by Chile in 1994, the Lithium Strategy contemplates the creation of a network of protected salt flats to safeguard ecologic sustainability, which objective is to have at least 30% of salt flats protected by 2030. Also, the Lithium Strategy seeks to promote the use of new technologies for lithium extraction that minimize environmental impact on salt flats.
- *Creation of the Public Research and Technological Institute of Lithium and Salt Flat (Instituto Tecnológico y de Investigación Público del Litio y Salares):* This institute was incorporated in June 2024, and is expected to be located in the Atacama and Antofagasta Regions, with the aim of collaborating in the development of more sustainable technologies in the extraction of lithium, promoting the conservation of salt flats through biodiversity research.

Within the measures to implement the Lithium Strategy, the Government of Chile mandated CODELCO to support CORFO for the development and exploitation of lithium on the Atacama Salar.

On May 19, 2023, CODELCO established two wholly-owned subsidiaries for these purposes: *Salares de Chile SpA* (“Salares de Chile”), which is set to streamline and consolidate the lithium-related activities of CODELCO’s companies, and *Minera Tara SpA* (“Minera Tara”) which is planned to be exclusively focused on operations within the Atacama Salar and with SQM.

On May 22, 2023, CORFO officially formalized the role of CODELCO as Chile’s representative in the negotiation and definition of future contracts with companies interested in the lithium industry in the country starting in 2030.

Also, as part of the Lithium Strategy, the Government of Chile mandated CODELCO to find the best alternative to enable the development of lithium projects in the Maricunga salt flat. In accordance with such mandate, on October 17, 2023, CODELCO reached an agreement to acquire 100% of Lithium Power International (“LPI”) shares for approximately U.S.\$244.0 million equivalent (AU\$ 385 million). LPI owned the Salar Blanco project in the Maricunga salt flat, which is adjacent to CODELCO’s property. In March 2024, CODELCO successfully closed the acquisition of LPI through its wholly-owned subsidiary Salar de Maricunga SpA, following approvals from authorities, reinforcing its lithium strategy to become a leading supplier of critical minerals.

Recent Developments

New Public-Private Partnership between CODELCO and SQM

On December 27, 2023, CODELCO and SQM announced the execution of a memorandum of understanding setting forth the bases to negotiate a public-private partnership that would commence in 2025 (the “Memorandum of Understanding” and the “SQM Partnership Agreement”, respectively). This announcement is aligned with the mandates of the Government of Chile and CORFO to secure state participation in mineral exploitation. The SQM Partnership Agreement was executed on May 31, 2024, although its effectiveness was subject to certain conditions precedent, which were fulfilled during 2025. The SQM Partnership Agreement establishes in detail all the steps, stages, rights, obligations, terms, and conditions of the public-private partnership that will take responsibility for production of refined lithium from the Atacama Salt Flat from 2025 to 2060. This new joint venture, which is majority-owned by the Chilean state, will also allow the transition from an amended lease contract between CORFO and SQM (the “CORFO-SQM Lease”), in effect

until December 2030, to a new lease contract between CORFO and Minera Tarar (the “CORFO-Tarar Lease”), which will be in effect from January 2031 to December 2060. The SQM Partnership Agreement provides that, from January 2025 to December 2030, CODELCO will be entitled to receive a profit corresponding to the benefit from the commercialization of an aggregate of 201,000 tons of lithium carbonate equivalent. From January 2031 to December 2060, each party will receive as economic benefits a pro-rata portion corresponding to its shareholding, which for CODELCO will be 50.00% plus one share. The SQM Partnership Agreement aims to ensure continuous lithium production, aligning with global energy transition goals. The partnership focuses on the Salar Futuro Project (i.e. the exploitation of lithium in the Atacama Salt Flat by virtue of the CORFO-Tarar Lease in effect from 2031 to 2060) and is expected to incorporate environmental sustainability and technological advancements. CODELCO’s early involvement would allow engagement in project development stages and a controlled transition ensuring ecosystem sustainability.

On February 28, 2025, the SQM–CODELCO partnership progressed further with new approval from the CChEN, authorizing SQM to increase its LCE production quota by 300,000 tons under the CORFO-SQM Lease—without additional brine extraction or greater use of continental water. The expanded quota does not permit additional lithium extraction from the salt flat, but it allows for the sale of more LCE by improving recovery from the brine already extracted. Therefore, this increase is enabled through efficiency gains, technological advances, and process optimization.

On March 26, 2025, the European Commission approved the partnership between CODELCO and SQM for joint lithium operations in the Atacama salt flat. This was followed by approval from FNE on April 23, 2025. These authorizations, together with prior clearances obtained from Brazil, South Korea, Japan, and Saudi Arabia, marked a significant milestone toward the finalization of the agreement. The regulatory endorsements confirmed compliance with applicable antitrust and competition frameworks in key jurisdictions and, together with subsequent approvals obtained in other relevant jurisdictions, including the People’s Republic of China, resulted in the fulfillment of all regulatory conditions precedent required for the effectiveness of the agreement.

On July 1, 2025, the SQM–CODELCO partnership moved forward with a new authorization from the CChEN, approving Minera Tarar to produce and commercialize lithium extracted from the Atacama Salt Flat under the CORFO-Tarar Lease. The permit enables the project to achieve its expected average annual production of 280,000 to 300,000 metric tons of lithium carbonate equivalent (LCE) between 2031 and 2060. This volume could increase subject to reserve certification and environmental approvals. Additionally, the permit allows for early extraction starting in 2029, ensuring business continuity as the joint venture assumes lithium production after the CORFO-SQM Lease expires in 2030.

On July 9, 2025, the Atacameña Community of Coyo and the Atacameña Association of Irrigators and Farmers of San Pedro de Atacama filed constitutional actions for protection (*recursos de protección*) against CORFO before the Court of Appeals of Antofagasta, alleging irregularities in the indigenous consultation process being carried out by CORFO regarding the SQM–CODELCO partnership. The two communities requested that the consultation be suspended and that the methodology and issues subject to consultation be modified and submitted requests for injunctions against further action (*orden de no innovar*) to suspend the consultation process pending the court’s ruling. Both requests were rejected. Both CODELCO and SQM presented their case, requesting that the court reject the constitutional actions. The parties pleaded before the Court of Appeals of Antofagasta on September 3, 2025, which rejected the claims on October 2, 2025. The claimants appealed the ruling before the Supreme Court, and such appeal is pending resolution as of the date of this offering memorandum. The Supreme Court’s review could take several weeks to several months, and a final decision could be issued in early 2026.

In October 2025, three constitutional actions for protection were filed before the Antofagasta Court of Appeals by the Indigenous Associations Rio Vilama and Ganaderos y Pecuarios Lickanantay of Toconao, and by the Indigenous Community Checar. The claims were brought against CORFO for issuing Exempt Resolution No. 96 of 2025, which terminated the indigenous consultation process. The three actions were rejected by the Court of Appeals on December 24, 2025. The rulings can be appealed before the Supreme Court, in which case the proceedings and their respective resolutions may take several weeks or months. Additionally, in October 2025, the Coyo Community, the Atacameña Association of Irrigators and Farmers of San Pedro de Atacama, and the Lickanantay Indigenous Association of Farmers, Ranchers, and Forestry Workers of Tambillo, filed constitutional protection actions before the Santiago Court of Appeals. These actions were also brought against CORFO for issuing Exempt Resolution No. 96 of 2025. A decision concerning these claims is pending as of the date of this offering memorandum. Any ruling of the Court of Appeals may be appealed before the Supreme Court and, if any such appeal is filed, the Supreme Court’s review could take several weeks to several months.

On December 27, 2025, the merger between Minera Tarar into Nova Andino Litio SpA was completed, following (i) merger control approvals secured in Brazil, South Korea, Japan, Saudi Arabia, the European Union, Chile (including by the National Economic Prosecutor (*Fiscalía Nacional Económica* or “FNE”)) and the People’s Republic of China, (ii) approval by the Chilean Nuclear Energy Commission (*Comisión Chilena de Energía Nuclear* or “CChEN”) to increase the production quota to 300k LCE tons for the 2025–2030 period, as well as for the quota covering the 2031–2060 period and (iii) the approval (*toma de razón*) by the Office of the Comptroller General of the Republic of Chile (*Contraloría General de la República*) with respect to the CORFO–Tarar Lease and the amendment of the CORFO–SQM Lease. Following completion of the merger, CODELCO, its subsidiary Salares de Chile SpA, SQM and its subsidiary SQM Nueva Potasio SpA executed a shareholders' agreement for the joint venture. CODELCO appointed, by unanimous resolution of its board, Máximo Pacheco Matte, Josefina Montenegro Araneda and Alfredo Moreno Charne as directors of the joint venture for a two-year term. SQM appointed Ricardo Ramos Rodríguez, Hernán Uribe Gabler and Manuel Ovalle Edwards as directors.

New Public-Private Partnership between CODELCO and a potential partner in Maricunga salt flat

After the LPI purchase process was completed, a process of integration of geological and hydrogeological information from CODELCO and Minera Salar Blanco S.A. was carried out, which culminated in the update of the conceptual hydrogeological model and the estimation of mineral resources and preliminary lithium reserves of the project. The execution of a pre-feasibility study of the integrated project is planned to start in 2026.

The partner search process for the Maricunga salt flat was launched on May 31, 2024. This process was handled in parallel to the activities required by the project in its environmental, community, exploratory and technical aspects.

On May 19, 2025, CODELCO and Rio Tinto signed agreements to form a joint venture to develop and operate a lithium project in the Maricunga salt flat in Chile. Under the agreement, Rio Tinto will acquire a 49.99% interest in Salar de Maricunga SpA (held by CODELCO), through which CODELCO holds a Special Lithium Operation Contract (CEOL, for its acronym in Spanish), licenses and mining concessions in the Salar de Maricunga, by funding studies and development costs. Rio Tinto will invest up to U.S.\$900.0 million distributed among (i) U.S.\$350.0 million into the company for additional studies and resource analysis to progress the project to a final investment decision, (ii) U.S.\$500.0 million into the company once a decision to proceed with the project is made, and (iii) U.S.\$50.0 million into the company if the joint venture achieves its goal of delivering first lithium by the end of 2030. The transaction is expected to close by the first half of 2026, subject to receipt of all applicable regulatory approvals and satisfaction of other customary closing conditions.

CODELCO Concludes 2023–2025 Collective Bargaining Cycle

On February 14, 2025, CODELCO concluded a collective bargaining agreement with the workers’ union of the Gabriela Mistral Division, marking the completion of the company’s 2023–2025 collective bargaining cycle. In total, 26 agreements were successfully negotiated—25 during 2024, primarily through early negotiations, and one in the first quarter of 2025—covering more than 12,600 employees across all divisions and Headquarters. These agreements, each valid for 30 to 36 months, collectively represent approximately 80% of CODELCO’s total workforce.

CODELCO and Anglo American Sur Sign Binding Agreement to Jointly Develop Andina-Los Bronces Mining District

On September 16, 2025, CODELCO and Anglo American Sur announced that they had entered into a binding agreement on September 15, 2025, to collaborate on the development of the Andina-Los Bronces mining district, following a memorandum of understanding signed in February 2025. The binding agreement was unanimously approved by the Boards of Directors of both entities. The strategic partnership seeks to unlock synergies between neighboring operations and aims to increase copper production by 120,000 metric tons of fine copper per year on average between 2030 and 2051, with output shared equally by both companies. The agreement is expected to generate at least U.S.\$5 billion in additional pre-tax net present value, equally split between the parties, and provides for the creation of a jointly owned and controlled operating company to oversee the plan and optimize processing capacity. The combined production of Andina and Los Bronces is expected to be ranked among the world’s top ten copper mines, and among the top five when adjusted for the incremental 120,000 metric tons per year, with unit costs approximately 15% lower than standalone operations. The agreement reflects a strong commitment to sustainability and community engagement, emphasizing strict

adherence to the existing environmental and social frameworks applicable to both the Andina and Los Bronces operations, and remains subject to customary regulatory and environmental approvals as of the date of this offering memorandum.

CODELCO Secured U.S.\$966 Million in New Financing Agreements

On March 28 and 31, 2025, CODELCO signed two new financing agreements totaling U.S.\$966.0 million. The first agreement, signed with the Japan Bank for International Cooperation (JBIC), amounts to U.S.\$466.0 million and supports long-term investment needs. The second agreement, signed with Banco Santander, S.A., provides U.S.\$500 million and is backed by the Italian Export Credit Agency (SACE).

CODELCO Awards Long-Term Renewable Energy Contracts Totaling 1.5 TWh/Year

On April 22, 2025, CODELCO awarded contracts for the supply of 1.5 terawatt-hours per year of renewable energy through a competitive public tender launched in 2024, which attracted participation from 32 companies. The contracts were granted to Generadora Metropolitana—a company owned by the AME Group and the French group Électricité de France SA (“EDF”),—for 1 TWh/year, and GR Power Chile for 0.5 TWh/year. The power supply agreements will begin in January 2026 and extend through December 2040. Both contracts include lithium-based battery storage systems to ensure reliability and are intended to meet the current and future energy needs of CODELCO’s operations. This initiative forms part of CODELCO’s broader strategy to achieve a 100% renewable electricity supply by 2030 and reflects its continued commitment to sustainable mining and Chile’s clean energy transition.

Chilean Government Appoints Three New Members to CODELCO’s Board of Directors

On April 23, 2025, Chilean President Gabriel Boric appointed Tamara Agnic Martínez, Alfredo Moreno Charme, and Ricardo Calderón Galaz as new members of CODELCO’s Board of Directors. Ms. Agnic and Mr. Moreno, who replace Isabel Marshall Lagarrigue and Pedro Pablo Errázuriz Domínguez, were appointed for four-year terms through the High Public Management System, following a competitive selection process launched in November 2024 that attracted 232 applicants. Mr. Calderón Galaz was designated as the representative of CODELCO’s supervisory staff, chosen from a five-candidate shortlist jointly submitted by the Federation of Copper Supervisors (FESUC) and the National Association of Copper Supervisors (ANSCO). These appointments complete the nine-member Board, which now includes Chairman Máximo Pacheco Matte, Josefina Montenegro Araneda, Alejandra Wood Huidobro, Nelson Cáceres Hernández, Eduardo Bitran Colodro, and Ricardo Álvarez Fuentes.

Bank Loans

On May 9, 2025, CODELCO signed a U.S.\$200.0 million financing agreement with Bank of America, complementing the U.S.\$466.0 million credit facility secured with JBIC in the first quarter of the year.

On December 30, 2025, CODELCO signed a U.S.\$600.0 million financing agreement with The Hongkong and Shanghai Banking Corporation Limited (HSBC) and Banco Santander, S.A., guaranteed by the Multilateral Investment Guarantee Agency (MIGA) of the World Bank, aimed at achieving the full decarbonization of CODELCO’s energy matrix by 2030 through the renewal of power supply agreements with renewable energy providers.

CODELCO Signs Strategic Collaboration Agreements with BHP and Rio Tinto to Advance Exploration and Unlock Asset Value

On May 12, 2025, CODELCO announced two strategic agreements aligned with its collaborative growth strategy. First, an exploration deal with BHP for the “Anillo” prospect in the Antofagasta region that grants BHP the option to invest up to U.S.\$40 million in early-stage exploration. If successful, a joint venture may be formed; otherwise, all data remains with CODELCO.

That same day, CODELCO and Rio Tinto signed a new collaboration agreement to explore synergies between their joint venture, Nuevo Cobre S.A., and CODELCO’s adjacent San Antonio property in the Atacama region. A joint committee will oversee 12 months of conceptual studies, equally funded by both parties. Both partnerships reflect CODELCO’s strategy to unlock value from non-core and strategic assets through third-party collaboration and regional

development.

CODELCO and Rio Tinto Enter Strategic Partnership to Jointly Develop Lithium Project in Maricunga Salt Flat

On May 19, 2025, CODELCO and Rio Tinto signed an association agreement to jointly develop a lithium project in the Maricunga salt flat, Chile's second-largest lithium resource. Under the agreement, Rio Tinto will invest up to U.S.\$900 million for a 49.99% stake, while CODELCO retains control in line with the National Lithium Strategy. The partnership strengthens CODELCO's position in the lithium sector and supports its long-term commitment to portfolio diversification and to the global energy transition. The transaction is expected to close in the first quarter of 2026, pending regulatory approvals.

Moody's Downgrades CODELCO to Baa2 with Stable Outlook Amid Sector-Wide Reassessment

On May 19, 2025, Moody's downgraded CODELCO's credit rating to Baa2 from Baa1, and revised the outlook from negative to stable. This action reflects a broader sectoral reassessment following the outlook downgrade for the global mining sector. While acknowledging recent operational improvements, Moody's highlighted that higher capital expenditures continue to pressure leverage and constrain debt reduction.

Collapse of Acid Plant Stack at Potrerillos Smelter

On June 13, 2025, the acid plant stack at CODELCO's Potrerillos smelter collapsed under circumstances that are currently under investigation. The smelter was not operating at the time of the incident, and no injuries or environmental impacts were reported. Emergency procedures were promptly implemented and the incident was reported to the relevant authorities. Since then, the operation of the smelter remains suspended. The cost of repairing the acid plant stack is currently estimated at approximately U.S.\$10.6 million. Based on preliminary assessments, the incident (including physical damage and losses associated with the temporary suspension of operations), is not expected to have a material impact on CODELCO's operations and is expected to result in losses below the applicable insurance deductible.

New U.S. Tariffs on Copper Products Exclude Cathode Exports; No Commercial Impact Expected

On July 30, 2025, President Donald Trump signed a proclamation imposing a 50% tariff on imports of semi-finished copper products and copper-intensive derivatives, effective August 1, 2025. The measure explicitly excludes copper input materials—such as ores, concentrates, mattes, cathodes, anodes and scrap—which remain outside the scope of the tariffs. CODELCO exports refined copper cathodes to the U.S., a product not subject to the new tariffs. As a result, no impact is expected on the company's commercial operations in the U.S. market. The company remains committed to maintaining commercial flexibility, honoring existing contracts.

Fatal accident at El Teniente Division

On July 31, 2025, a seismic event occurred at CODELCO's El Teniente mine, resulting in an accident that caused the tragic loss of six lives. The incident led to the suspension of operations across multiple sectors.

As of the date of this offering memorandum, ten out of twelve areas of the division had been authorized to resume activities; together with the open pit, representing roughly 80% of El Teniente's operating capacity. Recursos Norte and Andesita (part of the New Mine Level structural project) remain suspended, and timing for the phased restart of activities depends on investigations, technical reviews, regulatory clearances and repair progress. This partial suspension increases operational risk and may delay production. Production in the authorized underground areas is progressively being restored to pre-incident levels, while the open pit continues to operate at normal levels. As informed by CODELCO's Chairman of the Board, Máximo Pacheco, the company estimates a production loss of 48 kt of fine copper in 2025 (equivalent to approximately a U.S.\$500 million impact on EBITDA). As of the date of this offering memorandum, CODELCO has adjusted its full-year production guidance from 1,340–1,370 kt to 1,310 – 1,340 kt, and the longer-term impacts of the event on CODELCO remains under evaluation.

CODELCO's Internal Investigation Committee, chaired by the Vice President of Mining Resources, Development, and Innovation, Julio Díaz, issued a preliminary report with initial conclusions in September 2025 and

subsequently issued its final report on December 18, 2025, which was submitted to Chile's National Geology and Mining Service (SERNAGEOMIN). The final report concluded that the rock burst was triggered by a 4.3 Mw seismic event of greater scale and complexity than any recorded in the past 35 years, exceeding the design parameters of existing fortifications.

The final report also found that seismic records prior to the event showed no observable movements or minor tremors that could have served as warning signs. From the onset of the main event, emergency activation and response protocols were properly executed, enabling the safe evacuation of approximately 2,500 employees.

In addition, the final report highlighted that the rock burst presents the challenge of implementing comprehensive geomechanical risk management aligned with CODELCO's corporate standards. This approach is especially relevant because the risk of mining operations in the northern sector of El Teniente has changed, with increased seismic hazard and greater complexity in the interaction of cavities on a global scale. The measures described in the report are classified as short-term (up to three months), medium-term (from three to eight months), and long-term (more than eight months). Comprehensive geomechanical risk management allows for anticipating, mitigating, and controlling these risks through a systematic cycle of identification, assessment, treatment, and monitoring, ensuring traceability and technical governance at each stage, with the active involvement of stakeholders at various levels of the organization.

The following investigations into the causes of the seismic event and accident have been initiated, each of which could carry legal and regulatory implications for CODELCO:

1. The Rancagua Regional Prosecutor's Office is conducting an investigation into the events. The factual investigation remains ongoing and, depending on the factual findings, may lead to judicial proceedings to determine possible liability for torts of homicide and physical harm. If any judicial proceedings result from the factual investigation and liability or fault is established in connection therein, CODELCO may enter into reparation agreements and offer compensation for damages. In addition, depending on the results of the factual investigation, the same may lead to potential criminal charges under Law No. 21,595. As of the date of this offering memorandum, the investigation is in preliminary information-gathering stages.
2. The SERNAGEOMIN is undergoing an investigation of possible violations of mining safety regulations. As part of its investigation, SERNAGEOMIN decreed a work stoppage, which has since been partially lifted. If SERNAGEOMIN finds violations of the Mining Safety Regulations in its investigation, it may result in fines and other sanctions for CODELCO.
3. The Rancagua Labor Authority initiated an investigation pursuant to which, on August 1, 2025, the suspension of operations in the El Teniente mine was ordered. The order was partially lifted on August 9, 2025 and on August 22, 2025, leaving only two sectors suspended by SERNAGEOMIN (Andesita and Recursos Norte). Recently, two fines have been applied to CODELCO, which will be challenged by CODELCO.
4. The Rancagua Regional Health Undersecretary is conducting an investigation related to emergency notification and response actions in connection with the incident. If the investigation finds evidence of noncompliance with applicable regulations, one or more fines of up to 500 UF (equivalent to approximately U.S.\$21,500) each, and in the case of repeated violations of 1,000 UF each, could be imposed.
5. Recently, the Social Security Superintendency (*Superintendencia de Seguridad Social* or "SUSESO") issued an official letter (ORD) reporting findings in the verification of compliance with preventive measures relating to the accident, which are currently under review by CODELCO.

As of the date of this offering memorandum, two complaints have been filed in connection with the accident, including against the former manager of the El Teniente Division and the Chairman of the Board of Directors. For more information, see "Business and Properties—Legal Proceedings— Proceedings Related to the Fatal Accident at El Teniente Division." CODELCO cannot guarantee that further proceedings against CODELCO, any of its employees or other individuals will not be initiated.

In addition to these, CODELCO has commissioned an international evaluation led by Australian mining engineer Mark Cutifani, to identify the causes of the accident and propose measures, alongside an independent assessment of safety protocols and operational procedures.

Production losses are under detailed assessment. Although property and business interruption insurance is in place, the coverage under such policies is currently under evaluation, and uncertainties remain regarding the full financial impact and the timeline for complete operational normalization. The ongoing ramp-up in authorized sectors may face delays, subject to regulatory approvals and further safety validations.

These events pose significant risks to operational continuity, financial results, and corporate reputation. CODELCO is committed to mitigating these risks through investigations, strengthened safety measures, and transparent communication with stakeholders.

Ultimately, the accident could lead to the initiation of legal action or the negotiation of out-of-court settlements aimed at obtaining compensation from CODELCO for the damages resulting from the incident, particularly, the deaths of the involved individuals.

CODELCO Acquires Minority Stake in I-Pulse to Advance Pulsed Power Technologies in Mining

On October 13, 2025, CODELCO completed a strategic equity investment in I-Pulse Inc., a privately held U.S.-based company and a global leader in high-power pulsed (HPP) energy technologies, acquiring a minority ownership interest. The investment is intended to support the development, testing and potential deployment of disruptive technologies aimed at improving operational efficiency, reducing energy consumption and lowering the environmental footprint of mining activities.

The transaction builds on a letter of intent executed between CODELCO and I-Pulse in May 2025 and seeks to combine CODELCO's mining expertise with I-Pulse's proprietary pulsed power technology, which has potential applications in rock and mineral fragmentation, precision cutting and drilling. These technologies could significantly reduce energy intensity in comminution processes, lower the use of explosives and minimize damage to surrounding rocks, contributing to lower operating costs and improved environmental performance.

As part of the agreement, CODELCO secured preferential conditions to evaluate and, subject to further technical and economic assessments, implement I-Pulse's technologies in its mining operations. The investment aligns with CODELCO's broader innovation and sustainability strategy and its efforts to incorporate advanced technologies to address long-term operational and energy challenges.

CODELCO Publishes Its First Climate Change Report

On October 16, 2025, CODELCO published its first Climate Change Report, consolidating the company's climate-related governance framework, risk management practices and mitigation and adaptation initiatives. The report outlines CODELCO's climate action roadmap and integrates climate resilience and sustainability considerations into its long-term business strategy.

The Climate Change Report was prepared in alignment with the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD) and details CODELCO's decarbonization commitments, including a target to achieve carbon neutrality by 2050, interim emissions reduction goals for 2030, and measures to address both physical and transition climate risks. The report also highlights progress achieved to date, including reductions in Scope 1 and 2 emissions, increased use of renewable energy, electrification initiatives and actions to reduce water intensity in operations located in water-stressed areas.

The publication of the report reflects CODELCO's ongoing efforts to enhance transparency, strengthen climate-related risk management and align its operations with responsible, low-carbon mining practices.

CODELCO and Adani Group Enter into Memorandum of Understanding for Copper Exploration Projects in Chile

On November 21, 2025, CODELCO and Kutch Copper Ltd., a subsidiary of Adani Enterprises Limited and part of the Adani Group of India, entered into a non-binding memorandum of understanding to evaluate the exploration and potential joint development of three copper projects located near established mining districts in the Antofagasta and Atacama regions of Chile. The memorandum of understanding provides a framework for the exchange of technical and legal information, the conduct of due diligence by the Adani Group and the assessment of potential commercial terms for a possible joint development. The initiative forms part of CODELCO's broader strategy to advance public-private partnerships, share investment risk and support the long-term development of copper resources, while contributing to the security of global copper supply.

CODELCO and Glencore Enter into Memorandum of Understanding to Advance a New Copper Smelter in Chile

On December 3, 2025, CODELCO and Glencore Chile SpA entered into a memorandum of understanding pursuant to which the parties agreed to advance the evaluation of a new copper smelter project to be located in the Antofagasta Region of Chile. Under the memorandum of understanding, Glencore was selected as preferred partner following a competitive process and will be responsible for preparing a pre-feasibility study, while the parties negotiate the potential definitive agreements.

The contemplated project would involve the design, financing, construction, operation and maintenance of a new smelting facility with an estimated processing capacity of approximately 1.5 million metric tons of dry concentrate per year. As part of the framework, CODELCO agreed to negotiate a long-term copper concentrate supply agreement for up to 800,000 metric tons per year for an initial term of at least ten years, with an extension option subject to mutual agreement. The memorandum of understanding is non-binding and remains subject to the completion of the pre-feasibility study, the execution of definitive agreements and the receipt of all required permits and approvals.

Ministro Hales Division Future Development Project

On August 1, 2023, CODELCO submitted an Environmental Impact Study (*Estudio de Impacto Ambiental*, or "EIA") to assess the future development (*Proyecto Desarrollo Futuro*) of the Ministro Hales Division, a project that included the largest indigenous consultation process ever conducted under Chile's Environmental Impact Assessment System (SEIA), involving 46 indigenous communities.

On January 6, 2026, the Consolidated Evaluation Report (*Informe Consolidado de Evaluación* or "ICE"), the technical assessment of the EIA, was issued, recommending the approval of the project. Subsequently, on January 14, 2026, the Environmental Evaluation Commission (*Comisión de Evaluación Ambiental* or "COEVA") of the Antofagasta Region unanimously approved the EIA, authorizing the extension of the Ministro Hales Division's operating life from 2026 through 2054.

The approved project contemplates an estimated investment of approximately U.S.\$2.8 billion and is expected to increase annual copper production to approximately 200 thousand metric tons, from current levels of approximately 170 thousand metric tons. The project also includes an increase in mining and processing capacity and incorporates a range of environmental mitigation measures, including the exclusive use of desalinated water or water sourced from authorized third parties, enhanced protection of local water resources, and measures to reduce particulate matter emissions.

On January 16, 2026, three members of a local family filed a constitutional action for protection (*Recurso de Protección*) against the ICE, alleging that they were not involved in the consultation process relating to the future development of the Ministro Hales Division. COEVA was requested by the court to submit a report addressing such claims and CODELCO is expected to participate as an interested third party in the applicable judicial proceedings.

Radomiro Tomic Division Operational Continuity Project

On January 13, 2026, CODELCO submitted an EIA for the project "*Continuidad del Proceso de Lixiviación y Adecuaciones al Proyecto Minero División Radomiro Tomic*", with the goal of extending the operating life of the chloride leaching process at an average annual rate of approximately 154 thousand metric tons per day from 2029 through 2058, and to update mine movements and the redistribution of mineral processing at the Radomiro Tomic Division. The project

was conceived to remain within the mine life approved under Environmental Approval Resolution (*Resolución de Calificación Ambiental*, or “RCA”) No. 022/2016, and is expected to involve an investment of up to U.S.\$1.3 billion.

Fatal Accident at Salvador Division

On January 16, 2026, CODELCO reported the death of an employee at its Salvador Division following an accident that occurred on January 12, 2026, at the Potrerillos smelter. The accident occurred while the employee was performing maintenance activities in the Silo 4 storage area of the receiving and blending plant, at a time when the smelter was not in operation. In accordance with its internal procedures and applicable regulations, CODELCO established an internal investigation committee that will review the circumstances of the accident and provide all relevant information to the competent authorities.

The Diego de Almagro Prosecutor’s Office (*Fiscalía de Diego de Almagro*) initiated a criminal investigation in connection with the event. The investigation has been classified as an investigation for death and discovery (“*muerte y hallazgo*”). As of the date of this offering memorandum, the investigation is at an early stage, and its scope, findings, and potential legal or regulatory consequences remain uncertain. CODELCO is cooperating with the competent authorities in connection with the investigation. At this stage, CODELCO cannot guarantee that further proceedings against CODELCO, any of its employees or other individuals will not be initiated in connection with this accident.

Workplace Safety Incident at Radomiro Tomic Division

On January 21, 2026, a contractor employee of Schwager who was performing maintenance-related activities at CODELCO’s Radomiro Tomic Division suffered a workplace accident involving a fall from height. The incident occurred at approximately 11:00 a.m. local time and the employee was promptly transferred to a local hospital, where he received immediate medical attention. The employee was reported to be conscious and in stable condition and remains under medical observation.

Following the incident, work in the affected area was immediately suspended, emergency protocols were activated, the relevant authorities — including SERNAGEOMIN, SUSESO, and CODELCO’s Corporate Occupational Health and Safety Management — were notified, and an internal investigation process was initiated in accordance with applicable regulations and CODELCO’s internal procedures.

Management Developments

On January 23, 2025, CODELCO announced the appointment of Julio Díaz Rivera as its new Vice President of Mining Resources, Development, and Innovation. Mr. Díaz previously served as the General Manager of CODELCO’s Radomiro Tomic Division. Additionally, Claudia Domínguez Sepúlveda, formerly the Operations General Manager at the Andina division, assumed the role of General Manager at the Radomiro Tomic Division. Both appointments became effective on February 1, 2025.

On April 23, 2025, Chilean President Gabriel Boric appointed Tamara Agnic Martínez, Alfredo Moreno Charme, and Ricardo Calderón Galaz as new members of CODELCO’s Board of Directors. Ms. Agnic and Mr. Moreno, who replace Isabel Marshall and Pedro Pablo Errázuriz, were selected for four-year terms through the High Public Management System, following a competitive process launched in November 2024 that attracted 232 applicants. Mr. Calderón Galaz was appointed as the representative of CODELCO’s supervisory staff, selected from a five-candidate shortlist jointly submitted by the Federation of Copper Supervisors (FESUC) and the National Association of Copper Supervisors (ANSCO).

On July 7, 2025, CODELCO announced the departure of Christian Toutin as General Manager of the Salvador Division, effective July 8, 2025. Mr. Toutin had held the position since March 2018 and previously served in various roles at the Chuquicamata and El Teniente divisions, including Operations Manager, Safety Manager, and Operations Superintendent. Patricio Viveros López, currently the Plant Manager at the Salvador Division, was appointed as Interim General Manager effective the same day. Mr. Viveros was confirmed as General Manager on September 26, 2025.

On August 11, 2025, CODELCO announced the departure of Andrés Music Garrido as General Manager of the El Teniente Division, effective August 12, 2025, and the appointment of Claudio Sougarret Larroquete, former Operations Manager, as Interim General Manager. Mr. Sougarret was confirmed as General Manager on September 26, 2025.

On September 29, 2025, CODELCO announced the creation of the Vice Presidency of Integration for Andina Operations, effective November 1, 2025. The new position was established to strengthen the implementation of the joint mine plan for the Andina–Los Bronces District, within the framework of the company’s strategic alliance with Anglo American. As of the same date, Gonzalo Lara — currently General Manager of the Ministro Hales Division — will assume the role of Vice President of Integration for Andina Operations. As Interim General Manager of the Ministro Hales Division, CODELCO appointed César Jiménez, currently Concentrator Plant Manager at the same division, effective November 1, 2025.

On October 6, 2025, CODELCO announced the departure of Patricio Véliz as Ethics and Compliance Manager, a position he had held since April 2024. Irene Cosentino, currently Corporate Risk Manager, was appointed Interim Ethics and Compliance Manager effective the same day, while continuing to oversee the corporate risk area.

On January 2, 2026, CODELCO announced the appointment of Marta Herrera Seguel as Ethics and Compliance Manager, effective February 12, 2026. Ms. Herrera was appointed following a selection process led by the Board’s Audit, Compensation and Ethics Committee, which considered both internal and external candidates. Ms. Herrera is a lawyer from the University of Chile and holds a Master of Laws from California Western School of Law. She has more than 20 years of experience in legal, anti-corruption and compliance matters in the public sector and currently serves as Legal Director of the National Institute of Industrial Property (INAPI).

Contributions to the Chilean Treasury

As a state-owned enterprise and according to its governing law, CODELCO’s profit is due to be transferred to the Chilean Treasury. Before June 30 of each year, the Ministries of Finance and Mining determine, by means of a joint decree, the amount, if any, that the Company must allocate to the creation of capitalization and reserve funds. Amounts not allocated to the creation of capitalization and reserve funds are contributed to the Chilean Treasury.

In 2024, CODELCO contributed U.S.\$1,534.0 million to the Chilean Treasury; in 2023, CODELCO contributed U.S.\$1,418.0 million to the Chilean Treasury; and in 2022, CODELCO contributed U.S.\$2,296.0 million. While CODELCO makes advance payments to the Chilean Treasury throughout the year, funded by cash flows from operating activities, it generally has distributions payable to the Chilean Treasury at the end of each year. These distributions are paid in the first six-month period of the subsequent year but are reflected in the prior year’s financial statements.

The following table sets forth amounts paid in taxes (which due to the timing of payments may be different from tax amounts accrued) and payments and profit contributions made by CODELCO to the Chilean Treasury for each of the three years ended December 31, 2024 and for the nine-month period ended September 30, 2025.

Contributions to the Chilean Treasury (in millions of U.S.\$)

	Year Ended December 31,			Nine-month period ended September 30,

Corporate Information

CODELCO's principal executive offices are located at Huérfanos 1270, Santiago, Chile, postal code 8340424 and its telephone number is (562) 2690-3000. CODELCO was established by Decree Law No. 1,350, published in the Official Gazette on February 28, 1976, as amended.

The Offering

Issuer	Corporación Nacional del Cobre de Chile.
Securities Offered.....	2037 notes: U.S.\$1,000,000,000 aggregate principal amount of 5.529% notes due 2037. 2053 notes: U.S.\$250,000,000 aggregate principal amount of 6.300% notes due 2053.
Issue Price	2037 notes: 100.000%, <i>plus</i> accrued interest, if any, from January 30, 2026, if settlement occurs after that date. 2053 notes: 101.879%, <i>plus</i> accrued interest from (and including) September 8, 2025 to, but excluding January 30, 2026, totaling U.S.\$6,212,500 or U.S.\$24.85 per \$1,000 principal amount of 2053 notes, <i>plus</i> accrued interest, if any, from January 30, 2026, if settlement occurs after that date.
Issue Date	January 30, 2026.
Interest.....	Interest on the 2037 notes will accrue at the rate of 5.529% per year from January 30, 2026. Interest on the 2037 notes will be payable semi-annually in arrears on January 30 and July 30 of each year, beginning on July 30, 2026. Interest on the 2053 notes will accrue at the rate of 6.300% per year from September 8, 2025 (the most recent date on which interest was paid on the original 2053 notes). Interest on the 2053 notes will be payable semi-annually in arrears on March 8 and September 8 of each year, beginning on March 8, 2026. Interest on the notes will be calculated on the basis of a 360-day year of twelve 30-day months. See “Description of Notes.”
Maturity Date	2037 notes: January 30, 2037. 2053 notes: September 8, 2053.

Fungibility	The 2053 notes will be part of the same series as, and will be fungible with, U.S.\$1,200,000,000 aggregate principal amount of our 6.300% Notes due 2053 that we issued on September 8, 2023 and January 26, 2024 (the “original 2053 notes”), except that the 2053 notes offered and sold in reliance on Regulation S (as defined herein) will be subject to certain U.S. selling restrictions. Accordingly, during a 40-day distribution compliance period commencing on their date of issuance, the 2053 notes offered hereby pursuant to Regulation S will have temporary CUSIPs and ISINs and will only become fully fungible with the original 2053 notes following the termination of such selling restrictions. Holders of the 2053 notes and the original 2053 notes will vote as one class under the indenture.
Qualified Reopening	We expect to treat the 2053 notes offered hereby as issued in a “qualified reopening” of the original 2053 notes for U.S. federal income tax purposes. If the 2053 notes are so treated, they will be considered to have the same issue date and issue price as the original 2053 Notes for U.S. federal income tax purposes. See “Taxation—U.S. Federal Income Taxation—Qualified Reopening.”
Withholding Tax	Interest will be paid after withholding for or on account of certain taxes imposed by Chile. Under current Chilean law and regulations, payments of interest to holders of the notes that are not residents of Chile for purposes of Chilean taxation will generally be subject to Chilean withholding tax at a rate of 4.0%. Subject to specified exceptions and limitations, CODELCO will pay Additional Amounts (as defined in “Description of Notes—Payment of Additional Amounts”) in respect of such withholding tax on interest payments. See “Description of Notes—Payment of Additional Amounts” and “Taxation—Chilean Taxation.”

Tax Redemption

Each series of notes is redeemable at the option of CODELCO in whole, but not in part, at any time at the principal amount thereof, plus accrued and unpaid interest and any Additional Amounts due thereon if, as a result of changes in the laws or regulations affecting Chilean taxation that are announced or become effective on or after the date of the agreement to purchase the notes, CODELCO becomes obligated to pay Additional Amounts on interest payments on the notes in respect of withholding or deduction of Chilean tax at a rate in excess of 4.0%. See “Description of Notes—Redemption—Tax Redemption,” “Taxation—Chilean Taxation” and “Risk Factors—Risks Relating to the Offering.”

Optional Redemption

2037 notes: We may redeem the 2037 notes at our option, in whole or in part, at any time and from time to time prior to the date that is three months prior to the maturity date of the 2037 notes, at a redemption price equal to the greater of 100% of the outstanding principal amount of the 2037 notes to be redeemed and a redemption price based on a “make-whole” premium, *plus* accrued and unpaid interest to the date of redemption. In addition, we may redeem the 2037 notes at our option, in whole or in part, at any time and from time to time, beginning on the date that is three months prior to the maturity date of the 2037 notes, at a redemption price equal to 100% of the outstanding principal amount of the 2037 notes to be redeemed, *plus* accrued and unpaid interest to the date of redemption.

2053 notes: We may redeem the 2053 notes at our option, in whole or in part, at any time and from time to time prior to the date that is six months prior to the maturity date of the 2053 notes, at a redemption price equal to the greater of 100% of the outstanding principal amount of the 2053 notes to be redeemed and a redemption price based on a “make-whole” premium, *plus* accrued and unpaid interest to the date of redemption. In addition, we may redeem the 2053 notes at our option, in whole or in part, at any time and from time to time, beginning on the date that is six months prior to the maturity date of the 2053 notes, at a redemption price equal to 100% of the outstanding principal amount of the 2053 notes to be redeemed, *plus* accrued and unpaid interest to the date of redemption.

See “Description of Notes—Optional Redemption” and “Risk Factors—Risks Relating to the Offering.”

Form and Denomination.....	Each series of notes will be issued in book-entry form only in denominations of U.S.\$200,000 and integral multiples of U.S.\$1,000 in excess thereof. Each series of notes will be represented by one or more global notes (the “Global Notes”) registered in the name of a nominee of DTC, as depositary, for the accounts of its direct and indirect participants, including Euroclear, as operator of the Euroclear system, and Clearstream. See “Description of Notes.”
Payments; Transfers	Payment of interest and principal amount with respect to interests in Global Notes will be credited by DTC, Euroclear or Clearstream, as the case may be, to the account of the holders of such interests with DTC, Euroclear or Clearstream, as the case may be. Transfers of interests in notes held through DTC, Euroclear or Clearstream will be conducted in accordance with the rules and operating procedures of the relevant system. There will be a paying agent.
Ranking	The notes offered hereby will constitute direct, general, unconditional and unsubordinated obligations of CODELCO. The notes will rank without any preference among themselves and equally with all other unsubordinated obligations of CODELCO, other than certain obligations granted preferential treatment pursuant to Chilean law. It is understood that this provision will not be construed so as to require CODELCO to make payments under the notes ratably with payments being made under any other obligations. The indenture governing each series of notes will not contain any restrictions on the amount of additional indebtedness which may be incurred by CODELCO or its subsidiaries; however, as set forth under “Description of Notes—Covenants—Limitation on Liens,” each series of notes will contain certain restrictions on the ability of CODELCO and its subsidiaries to incur secured indebtedness. See “Description of Notes.”
Certain Covenants	The indenture governing each series of notes will contain certain covenants, including, but not limited to, covenants with respect to (i) limitations on liens, (ii) limitations on sale-and-lease-back transactions and (iii) limitations regarding consolidation, merger, conveyance, sale or lease transactions. See “Description of Notes—Covenants—Limitation on Liens,” “—Limitation on Sale-and-Lease-Back Transactions” and “—Consolidation, Merger, Conveyance, Sale or Lease.”

Transfer Restrictions	The notes offered hereby will not be registered under the Securities Act and are subject to restrictions on resales. See “Transfer Restrictions.”
Further Issues	In accordance with the terms of the indenture, CODELCO may issue additional notes of the same series as the notes offered hereby at a future date. See “Description of Notes—Further Issues of Notes.” Any such additional notes of the same series will increase the aggregate principal amount of, and will be treated as a single fungible series for all purposes under the indenture with, the notes offered hereby.
Listing	The original 2053 notes and both series of notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF market of the Luxembourg Stock Exchange.
Governing Law; Submission to Jurisdiction	Each series of notes and the indenture will be governed by the laws of the State of New York. CODELCO will submit to the jurisdiction of the United States federal and state courts located in the Borough of Manhattan in the City of New York in respect of any action arising out of or based on the notes or the indenture. See “Description of Notes—Governing Law; Submission to Jurisdiction; Sovereign Immunity.”
Use of Proceeds	We intend to use the net proceeds from the sale of the notes offered hereby for general corporate purposes.
Trustee, Paying Agent, Transfer Agent and Registrar	The Bank of New York Mellon
Risk Factors	Before investing, you should carefully consider the risks set forth under “Risk Factors” beginning on page 28 of this offering memorandum.

SUMMARY CONSOLIDATED FINANCIAL DATA

The following tables present CODELCO's summary consolidated financial data and other data as of and for each of the periods indicated. This data (other than the average London Metal Exchange ("LME") copper prices) is derived from, and should be read together with, CODELCO's Consolidated Financial Statements, including the notes thereto, included elsewhere in this offering memorandum. This data should also be read together with "Management's Discussion and Analysis of Financial Condition and Results of Operations." The Consolidated Financial Statements and other financial information included in this offering memorandum are presented in accordance with IFRS. The unaudited results of operations for the nine-month periods ended September 30, 2024 and 2025 are not necessarily indicative of the results to be expected for the full year or any other period.

- (1) “Cost of sales” for any period includes direct and indirect costs, depreciation and amortization associated with the production of copper and byproducts, as well as purchase costs of third-party copper, sold by CODELCO in that period.
- (2) “Other expenses” is comprised principally of costs related to the 10.0% special export tax paid by the Company, retirement plan and severance indemnities and fixed indirect costs below production level. See note 24.b of the Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”
- (3) CODELCO is subject to the new mining royalty tax, which generally comprises an Ad Valorem component which applies a tax rate of 1% on annual copper sales, and a mining margin component which applies progressive tax rates of between 5.0% and 14.0% under Law No. 20,026 (i.e., 8%-26%) on the adjusted taxable mining operating margin. In addition, a maximum potential tax burden of 46.5% is established on the mining entity’s operating profitability, measured as the adjusted pre-taxable mining operating income. In addition, CODELCO is subject to the corporate income tax rate of 25.0% since 2017 (pursuant to the tax reform in 2014) and a 40.0% tax on net earnings applicable to state-owned enterprises as specified by Decree Law No. 2,398, Article 2. See “Taxation—Chilean Taxation” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Distributions to the Chilean Treasury” for additional information. See note 5 of the Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Distributions to the Chilean Treasury” and “Regulatory Framework.” See also “Risk Factors—Risks Relating to CODELCO’s Relationship with the Government of Chile—CODELCO is subject to special taxes” for information regarding the mining tax rate effective in 2016 and information regarding the new Mining Royalty Law, effective as of January 1, 2024.
- (4) See note 10 of the Consolidated Financial Statements and the Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”
- (5) All other assets includes other non-current financial assets; other non-current non-financial assets; accounts receivable from related parties, non-current; non-current inventories; intangible assets other than goodwill; investment property; non-current tax assets and deferred tax assets.
- (6) For the purpose of calculating CODELCO’s ratio of earnings to fixed charges (adjusted), (i) “earnings” consist of Adjusted EBIT and (ii) “fixed charges” consist of finance cost. The ratio of earnings to fixed charges (adjusted) is calculated by dividing Adjusted EBIT by finance cost. Adjusted EBIT is calculated by adding finance cost, impairment charges net of reversals (as defined in note (1) of the following table) and income tax expense to profit (loss) for the period. Adjusted EBIT, while not a financial performance measure under IFRS, is presented as an indicator of funds available to service debt. Adjusted EBIT and Adjusted EBITDA data are included in this offering memorandum because such data are used by investors to assess: (i) the operating trends and financial performance of the Company and (ii) the ability of the Company to (a) service its existing debt, (b) incur new debt and (c) fund its capital expenditures. The Company believes that Adjusted EBIT, while providing useful information, should not be considered in isolation as a substitute for profit for the period, as an indicator of operating performance, or as an alternative to cash flow as a measure of liquidity. Additionally, the Company’s calculation of Adjusted EBIT may be different than the calculation used by other companies and therefore, comparability may be affected. See notes 10, 22 and 24 of the Consolidated Financial Statements and Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges.
- (7) Average price on the LME for Grade A cathode copper during period.
- (8) Adjusted EBITDA is calculated by adding finance cost, income tax expense, depreciation and amortization of assets plus export taxes and impairment charges net of reversals (as defined in note (1) of the following table) to profit (loss) for the period. Adjusted EBITDA is presented because it is a widely accepted indicator of funds available to service debt, although it is not an IFRS-based measure of liquidity or performance. Adjusted EBIT and Adjusted EBITDA data are included in this offering memorandum because such data are used by investors to assess: (i) the operating trends and financial performance of the Company and (ii) the ability of the Company to (a) service its existing debt, (b) incur new debt and (c) fund its capital expenditures. The Company believes that Adjusted EBITDA, while providing useful information, should not be considered in isolation or as a substitute for profit as an indicator of operating performance, or as an alternative to cash flow as a measure of liquidity. Additionally, the Company’s calculation of Adjusted EBITDA may be different than the calculation used by other companies and therefore, comparability may be affected. See notes 10, 22 and 24 of the Consolidated Financial Statements and Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges.
- (9) The ratio of debt to Adjusted EBITDA is calculated by dividing debt by Adjusted EBITDA. Debt is defined as loans from financial institutions plus bonds issued.

- (10) The ratio of debt to LTM Adjusted EBITDA is calculated by dividing debt by the last twelve months of Adjusted EBITDA. Debt is defined as loans from financial institutions plus bonds issued.
- (11) Adjusted EBITDA coverage ratio is the ratio of Adjusted EBITDA to finance cost net of finance income. See note 10 above for further information about Adjusted EBITDA and notes 22 and 24 of the Consolidated Financial Statements and Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges.
- (12) The amounts for property, plant, and equipment in the table above include property, plant and equipment and right-of-use assets.

The following table shows CODELCO’s earnings, Adjusted EBIT, ratio of earnings to fixed charges (adjusted), Adjusted EBITDA and reconciliation of Adjusted EBIT and Adjusted EBITDA for the periods indicated.

	For the year ended December 31,			For the nine-month period ended September 30,	
	2022	2023	2024	2024	2025
	(in thousands of U.S.\$)				
Profit (loss) for the period	361,571	(591,239)	244,716	227,412	157,076
Income tax expense	1,133,670	(165,916)	545,738	384,832	449,852
Finance costs	569,060	778,910	910,411	686,020	698,377
Impairments ⁽¹⁾	91,430	614,055	50,219	43,020	56,983
Adjusted EBIT⁽²⁾	2,155,731	635,810	1,751,084	1,341,284	1,362,288
Ratio of earnings to fixed charges (adjusted)⁽³⁾	3.8	0.8	1.9	2.0	2.0
Depreciation and amortization of assets ⁽⁴⁾	2,227,284	2,292,126	2,266,721	1,652,710	1,713,679
Copper Reserve Law ⁽⁵⁾	1,273,425	1,256,339	1,301,864	942,801	992,005
Ad-Valorem component of Royalty	-	-	119,354	84,744	90,856
Adjusted EBITDA	5,565,440	4,184,275	5,439,023	4,021,539	4,158,828

- (1) Impairments include charges and reversals related to charges of investment projects, research projects and investment in associates and joint ventures and exclude impairment charges related to definite-lived tangible assets which show indicators of impairment under International Accounting Standard No. 36. See Notes 9 and 22 of the 2022-2023 Consolidated Financial Statements, Notes 10 and 24 of the 2024-2025 Consolidated Financial Statements, Notes 10 and 2024 of the Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges.
- (2) Adjusted EBIT is calculated by adding finance cost, impairment charges net of reversals (as defined in note (1) above) and income tax expense to profit (loss) for the period. Adjusted EBIT, while not a financial performance measure under IFRS, is presented as an indicator of funds available to service debt. Adjusted EBIT and Adjusted EBITDA data are included in this offering memorandum because such data are used by investors to assess: (i) the operating trends and financial performance of the Company and (ii) the ability of the Company to (a) service its existing debt, (b) incur new debt and (c) fund its capital expenditures. The Company believes that Adjusted EBIT, while providing useful information, should not be considered in isolation as a substitute for profit for the period, as an indicator of operating performance, or as an alternative to cash flow as a measure of liquidity. Additionally, the Company’s calculation of Adjusted EBIT may be different than the calculation used by other companies and therefore, comparability may be affected. See notes 10, 22 and 24 of the Consolidated Financial Statements and Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges. Adjusted EBIT for 2022 and 2023 reflects additional adjustments, as compared to previous disclosures of such figures, to account for the impairment of assets, project write-offs, impairment of the Company’s investment in Anglo American Sur (AAS), and the effect of the royalty related to such investment.
- (3) For the purpose of calculating CODELCO’s ratio of earnings to fixed charges (adjusted), (i) “earnings” consist of Adjusted EBIT and (ii) “fixed charges” consist of finance cost. The ratio of earnings to fixed charges (adjusted) is calculated by dividing Adjusted EBIT by finance cost.
- (4) See note 22 of the Consolidated Financial Statements and the Unaudited Interim Consolidated Financial Statements.
- (5) The Copper Reserve Law currently requires the payment of a 10.0% special export tax on receivables of the sales proceeds that CODELCO receives and transfers to Chile from the export of copper and related by products produced by CODELCO. For further information, see “Risk Factors—Risks Relating to CODELCO’s Relationship with the Government of Chile—CODELCO is subject to special taxes.”

The following table shows CODELCO's debt and ratio of debt to Adjusted EBITDA and Adjusted EBITDA coverage ratio for the periods indicated.

	As of and for the year ended December 31,			As of and for the nine-month period ended September 30,	
	2022	2023	2024	2024	2025
	(in thousands of U.S.\$, except ratios)				
Debt.....	16,958,377	20,198,102	22,722,563	22,233,216	24,553,614
Ratio of debt to Adjusted EBITDA ⁽¹⁾	3.0	4.8	4.2	5.5	5.9
Ratio of debt to LTM Adjusted EBITDA ⁽²⁾	3.0	4.8	4.2	4.5	4.4
Finance income.....	47,245	99,051	124,856	104,935	49,583
Adjusted EBITDA coverage ratio ⁽³⁾	10.8	6.2	6.9	6.9	6.4

- (1) The ratio of debt to Adjusted EBITDA is calculated by dividing debt by Adjusted EBITDA. Debt is defined as loans from financial institutions plus bonds issued.
- (2) Ratio of debt to LTM Adjusted EBITDA is calculated by dividing debt by the last twelve months of Adjusted EBITDA. Debt is defined as loans from financial institutions plus bonds issued.
- (3) Adjusted EBITDA coverage ratio is the ratio of Adjusted EBITDA to finance cost net of finance income.

RISK FACTORS

Prospective purchasers of the notes offered hereby should carefully consider all of the other information contained herein, including the risk factors set forth below. As a general matter, investing in the securities of an issuer, substantially all of whose operations are in a developing country such as Chile, involves a higher degree of risk than investing in securities of issuers with substantially all of their operations in the United States and other jurisdictions.

Risks Relating to CODELCO's Operations

CODELCO has in the past recognized significant impairment charges for certain assets and, if market and industry conditions deteriorate, further impairment charges may be recognized.

A substantial amount of CODELCO's total assets are property, plant and equipment. As of December 31, 2024, 76.3% of our total assets were property, plant and equipment. In accordance with IFRS as issued by the IASB, we review the carrying amount of our assets to determine whether there is any indication that those assets have suffered an impairment loss. CODELCO uses the value-in-use methodology to ensure that the recoverable amount of our property, plant and equipment is not impaired. In assessing the value-in-use, the estimated future cash flows are discounted using a pre-tax discount rate that reflects current market assessments at the time value of money and the risks specific to the asset.

In 2022, CODELCO recorded an impairment of the value of the Ventanas Smelter assets in the amount of U.S.\$89.4 million before taxes. In 2023, CODELCO performed an evaluation of the value of its investment in the associate Anglo American Sur and determined that the recoverable amount of the asset is less than the carrying value recorded, recognizing an impairment of U.S.\$522.4 million, which is recognized under the caption "Equity in earnings (losses) of associates and joint ventures accounted for using equity method" in the statement of comprehensive income for the year 2023. We may write off capitalized expenses for engineering and other costs for certain projects that do not go forward or certain mining rights that we determine may no longer be commercialized, which we would not expect to have a material effect on the Company's financial results or operating position. Because the impairment calculation is directly associated with the outlook of copper prices and operating performance, a downturn in the copper price outlook or a decline in operating performance could require further impairment losses on our plant, property and equipment. Such impairment charges could be material to our financial statements.

CODELCO's business is highly dependent upon the price of copper.

CODELCO's financial performance is significantly affected by the market prices of copper. These prices have been historically subject to wide fluctuations and are affected by numerous factors beyond the control of CODELCO, including international economic and political conditions, levels of supply and demand, the availability and costs of substitutes, inventory levels maintained by producers and others and actions of participants in the commodities markets. To a lesser extent, copper prices are also subject to the effects of inventory carrying costs and currency exchange rates. In addition, the market prices of copper have occasionally been subject to rapid short-term changes. See "Overview of the Copper Market."

In 2024, copper prices averaged 414.9 cents per pound, an increase from 384.5 cents per pound in 2023 (which could be attributable to stronger demand expectations, ongoing supply constraints, and market optimism around the energy transition). In 2022, copper prices averaged 399.0 cents per pound. China has been the main driver of copper consumption in recent years, and in 2022, 2023 and 2024, 37.7%, 41.7% and 38.1% respectively, of CODELCO's sales were made to China. If economic conditions deteriorate in China or other emerging markets, demand from customers in those markets could decline and the market price of copper could fall. A decline in copper prices would have an adverse impact on CODELCO's revenues and financial results. In 2024, each one-cent change in CODELCO's average annual copper price per pound sold caused a variation in revenue of approximately U.S.\$31.8 million. If CODELCO's average annual copper price per pound declines significantly for an extended period of time, CODELCO may, subject to other factors such as operating costs, be required to recognize asset impairments. In 2025, copper prices have also reflected heightened volatility stemming from geopolitical and trade-related developments. In particular, the announcement of a potential imposition of U.S. tariffs on copper products, supported by a Section 232 investigation, has contributed to short-term price fluctuations and distortions across both physical and financial markets. These announcements prompted certain

U.S. customers to advance orders ahead of the potential implementation of tariffs, widening the differential between the New York Commodity Exchange (“COMEX”) and LME prices and adding to overall market volatility.

During the nine months ended September 30, 2025, prices of copper averaged 433.5 cents per pound, an increase from 414.2 cents per pound during the same period in 2024. In the event of a sustained decline in prices, CODELCO has in the past and could again determine to curtail operations or suspend certain of its mining and processing operations. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

CODELCO faces competition in the copper market from other copper producers.

CODELCO faces competition from other copper mining companies and producers of copper around the world. Although CODELCO continues to focus on reducing costs, there can be no assurance that competition from lower cost producers will not have a material adverse effect on the business, financial condition, results of operations or prospects of CODELCO.

The mining industry has experienced significant consolidation in recent years, including consolidation among some of CODELCO’s main competitors, as a result of which an increased percentage of copper production is from companies that also produce other products and are, consequently, more diversified. There can be no assurance that the result of current or further consolidation in the industry will not have a material adverse effect on the business, financial condition, results of operations or prospects of CODELCO.

Most of CODELCO’s copper output is dependent upon production from three of its main mining complexes.

Three of CODELCO’s mining complexes produced over 63.5% of its copper output in 2024 (including CODELCO’s share in the El Abra deposit, Anglo American Sur and Quebrada Blanca). The El Teniente Division, including the Caltones smelter, produced an aggregate of 356.4 metric tons of copper in 2024. The Chuquicamata mine produced 289.0 metric tons, and the Radomiro Tomic mine produced 270.5 metric tons during the same period. If operations in any of these three mining complexes were significantly reduced, interrupted or curtailed, CODELCO’s financial condition and its ability to make the required payments on the notes could be materially and adversely affected. CODELCO cannot assure you that production interruptions will not occur or that any such incident would not materially adversely affect its production. See “Business and Properties—Operations—Chuquicamata Division,” “—Radomiro Tomic Division” and “—El Teniente Division.”

The business of mining is subject to risks, some of which are not completely insurable.

The business of mining, smelting and refining copper is generally subject to a number of risks and hazards, including industrial accidents, labor disputes, unexpected geological conditions, mine collapses, vandalism, theft, changes in the regulatory environment and pollution, environmental hazards, weather and other natural phenomena, such as earthquakes, fires and floods. Such occurrences could result in damage to, loss of, or destruction of, mineral properties or production facilities, human exposure to pollution (e.g., public exposure to sulfur dioxide emissions), personal injury or death, environmental and natural resource damage, delays in mining, monetary losses and possible legal liability. On July 31, 2025, a seismic event occurred at the El Teniente mine, resulting in tragic loss of six lives. The incident led to the suspension of operations across multiple sectors. As of the date of this offering memorandum, most areas have been authorized to resume their activities; however, operations in Recursos Norte and Andesita (part of the New Mine Level structural project) remain suspended. For more information, see “Summary—Recent Developments—Fatal accident at El Teniente Division.” CODELCO maintains insurance consistent with copper mining industry standards and in amounts that it believes to be adequate, but which may not provide complete coverage in certain circumstances. Insurance against certain risks (including certain liabilities for environmental pollution and other hazards as a result of exploration and production) is not generally available to CODELCO or to other companies within the industry.

Under each of CODELCO’s copper sales agreements, CODELCO or its customer may suspend or cancel delivery of copper during a period of force majeure. Events of force majeure under the agreements include acts of nature, strikes, fires, floods, wars, transportation delays, governmental actions or other events that are beyond the control of the parties. Any suspension or cancellation of deliveries under copper sales agreements that are not replaced by delivery

under new contracts or sales on the spot market could have a material adverse effect on the business, financial condition, results of operations or prospects of CODELCO.

CODELCO's water supply could be affected by geological changes or environmental regulations.

CODELCO's business is dependent on the availability of water for the production of copper and subject to environmental regulations regarding water usage. In the past, Chile has experienced droughts severe enough to adversely affect the energy sector of the economy in the central and southern regions of Chile. CODELCO's access to water may also be impacted by changes in geology or other natural factors that CODELCO cannot control. If Chile were to experience a drought or CODELCO was otherwise unable to obtain adequate water supplies, CODELCO's ability to conduct its operations could be impaired according to the latest studies, CODELCO's operations are located in areas of high water stress, with the exception of El Teniente, which operates in a region with lower levels of scarcity.

On April 6, 2022, Law No. 21,435, which reforms the Water Code was published in the Official Gazette (the "Water Code Reform"). The Water Code Reform reaffirms that water rights are a public asset, acknowledging the right to access water and sanitation as an essential and inalienable human right. However, water rights granted post Water Code Reform will be limited in time, as the concessions will be granted for 30 years. The concession will be automatically renewed, unless Chile's General Water Bureau sets out that the relevant water right is not being used effectively upon its expiration date or that a renewal could affect the sustainability of the water source. Furthermore, the Water Code Reform added the concept of "public interest" as a requirement for the granting of new water rights. Additionally, the Water Code Reform prioritizes human consumption over other uses; recognizes the constitution of rights for non-extractive uses such as environmental conservation and tourism; restricts the use of certain water use rights in situations of scarcity; and reforms the current regulation of mining waters, among other matters. On July 13, 2023, Law No. 21,586, was enacted to amend Law No. 21,435 by extending the term to register certain water rights set forth therein, and to amend the Water Code to introduce an administrative procedure to clarify and complete titles of water rights.

The Water Code was amended by Law No. 21,671, published in the Official Gazette on May 30, 2024, to accelerate the entry into force of the declarations of water shortage zones. Among other changes, it sets forth that the supreme decrees and resolutions on this subject matter issued by the General Water Direction (Dirección General de Aguas) shall be complied with immediately.

The enactment of these laws and/or other regulatory projects related to water resources currently under discussion in the Chilean Congress may negatively affect CODELCO's water supply.

Also, CODELCO's activities are subject to compliance with obligations, measures and conditions set forth in several environmental authorizations ("*Resoluciones de Calificación Ambiental*"), including those related to water consumption and supply. Environmental authorizations for future expansions or modifications of current activities may set forth stricter limitations to water use and supply. The enactment of these laws and/or other regulatory projects related to water resources currently under discussion in Congress may eventually affect CODELCO's water supply, which in turn may have a material adverse effect on CODELCO's financial condition and results of operations.

CODELCO's compliance with environmental, health and safety laws may require increased costs, including capital commitments, and non-compliance may subject it to significant penalties, legal liabilities, and detrimental financial, business and reputational impacts. Additionally, delays in receiving environmental and safety permits or related suspensions could impact project development and have an impact on CODELCO's operations and revenue.

Chile has adopted environmental, health and safety regulations requiring industrial companies operating in Chile, including CODELCO, to undertake programs to reduce, control or eliminate various types of pollutants and to protect natural resources, including water and air, among other requirements. Under these regulations, the Ministry of the Environment (*Ministerio del Medio Ambiente*) can declare an area to be polluted or potentially polluted, requiring a prevention or decontamination plan to be put in place. Such plans may increase the costs of developing new facilities or expanding existing ones in the designated area. In this regard, once an area is declared as latent or saturated, by means of a resolution signed by the Minister of the Environment, provisional measures may be adopted. The Ministry of the Environment has declared some of the areas where CODELCO operates to be polluted, and the measures put in place under applicable prevention or decontamination plans are subject to change and may become more stringent over time.

Environmental, health and safety laws and regulations are complex, change frequently and have tended to become increasingly stringent over time. For example, changes to current environmental laws and regulations, and additional environmental laws and regulations, have been adopted, including environmental crimes legislation, and have recently been proposed, including green taxes, climate change and protected areas, laws that could (i) prevent expansion of our operations into certain areas, (ii) require us to obtain additional permits and (iii) result in increased cost and potential delays. Moreover, certain changes to environmental, health and safety laws and regulations are pending, and other new laws or regulations may be adopted in Chile in the future. In addition, community and environmental activist groups have protested the development of certain mines of our competitors in Chile and may increase demands for socially responsible and environmentally sustainable practices, and their efforts may lead to operational delays and the creation or revision of government regulations and policies with respect to the mining industry in Chile, litigation and increased costs.

CODELCO must comply with certain air quality environmental regulations regarding particulate matter (PM10 and/or MP2.5) and sulfur dioxide (SO₂) in the areas surrounding the Potrerillos, Caletones, Ventanas and Chuquicamata smelting plants. The Chuquicamata, Potrerillos and Caletones smelting plants and Ventanas copper refinery have decontamination plans for such pollutants. In 2023, the environmental authority initiated the review of these decontamination plans. CODELCO is currently unable to fully assess what may be required of it or the cost of compliance with the revised PM10 pollution reduction plans, the SO₂ prevention plan or any future changes to the other plans covering the areas where CODELCO operates. In 2024, the Ministry of the Environment implemented a series of provisional measures to control PM10 particulate matter in Calama and its surrounding areas. These measures include emission controls at CODELCO's mines in Chuquicamata, Ministro Hales, and Radomiro Tomic, with the aim of improving air quality in the city of Calama. CODELCO has developed a plan to implement these measures, which is currently underway and has not shown any significant deviations so far. However, there is a risk that the new Environmental Decontamination Plan for Calama may impose stricter measures, potentially leading to higher implementation costs for CODELCO.

An air emissions standard for smelters, including emissions of SO₂, PM10, arsenic and mercury (Hg), was enacted by the Ministry of the Environment in 2013. CODELCO's cost of compliance with the standard amounted to U.S.\$2.2 billion. The revision of the emission standard was initiated in 2020. On August 14, 2025, the revised emission standard was approved by the Ministry Committee, and it is expected to be enacted during the first quarter of 2026. As of the date of this offering memorandum, the Caletones, Chuquicamata and Potrerillos smelters meet the requirements of the current standard. However, in order to meet the requirements of the new standard, CODELCO is required to execute investments within a period of nine years after publication. See "Regulatory Framework—Environmental Regulations."

Under the Paris Agreement reached during the 21st Conference of the Parties to the United Nations Framework Convention on Climate Change in 2015, several governments have pledged Nationally Determined Contributions to control and reduce greenhouse gas emissions. Assuming that the Chilean economy grows at the same rate it has grown over the previous ten years, excluding the years of the global financial crisis, and such growth rate is sufficient, Chile has committed to reducing its CO₂ emissions per GDP unit by 30.0% below 2007 levels by 2030 and, subject to an international monetary grant, reducing its CO₂ emission per GDP unit by 2030 until it reaches a 35.0% to 45.0% reduction with respect to the 2007 levels. In 2019, during the 25th Conference of the Parties to the United Nations Framework Convention on Climate Change in Madrid, the Government of Chile announced an update to its Nationally Determined Contribution, which includes the reduction of its CO₂ emissions per GDP unit by 45.0% below 2016 levels by 2030.

In June 2022, Law No. 21,455 on climate change ("Climate Change Framework Law") was published in the Official Gazette, creating a legal framework for the management and implementation of climate change mitigation and adaptation measures, with the goal of reaching greenhouse gas emissions neutrality by 2050. In addition, this law aims to strengthen the country's resilience to the adverse effects of climate change, in line with Chile's international commitments. Under the Climate Change Framework Law, there are several measures aiming to achieve greenhouse gas emissions neutrality. Among those are sectoral mitigation plans (*planes sectoriales de mitigación de cambio climático*), which define actions to reduce or absorb greenhouse gases in line with the long-term climate strategy (*estrategia climática de largo plazo*) required to be issued by the Chilean government. On December 19, 2025, the Ministry of Mining published Decree No. 24 in the Official Gazette, which strengthened the mining sector's climate change prevention and

response and recognized CODELCO as a key large-scale mining player.

In February 2023, a water quality standard for the Aconcagua river basin was published in the Official Gazette. In addition, the authorities are developing water quality standards for other water bodies that CODELCO currently or may in the future discharge into, including the Loa and the Cachapoal rivers. Such standards could require CODELCO to incur additional costs to manage liquid waste discharges.

Any new laws or regulations could result in significant additional environmental compliance costs or delays in expansion projects. As of September 30, 2025, CODELCO had provisions of U.S.\$2.1 billion for future decommissioning and site restoration costs, primarily related to tailing dams, closures of mine operations and other mining assets. Outside of Chile, CODELCO's operations are also subject to extensive international, national and local environmental, health and safety laws and regulations in the countries where we have operations.

CODELCO's operations are also regulated by several environmental authorizations. Environmental authorizations for future expansions or modifications of current activities may set forth obligations, conditions and measures that entail increased costs and for which failure to comply may result in civil, administrative, or criminal fines or sanctions, claims for environmental damages, remediation obligations, the revocation of environmental authorizations or the temporary or permanent closure of facilities.

CODELCO's environmental permits may be revoked, annulled or delayed through judicial action brought by interested parties to challenge environmental licenses (*recurso de reclamación*) or other remedies set forth in general administrative regulations that are frequently used to seek the revocation of granted environmental approvals (*solicitud de invalidación*).

CODELCO has implemented ISO 14001 certified environmental management systems at each of its divisions to monitor and achieve compliance with applicable environmental laws and regulations. While CODELCO has budgeted for future capital and operating expenditures to maintain compliance with these laws and regulations, there is no guarantee that current levels of expenditures and capital commitments will be sufficient to achieve future compliance. There also can be no assurance that CODELCO has been or will be at all times in complete compliance with environmental laws and regulations, or that proceedings or civil actions will not be brought, or that fines and other sanctions will not be imposed for such noncompliance in the future. In addition, there can be no assurance that more stringent enforcement of, or changes in, existing laws and regulations, the adoption of additional laws and regulations or the discovery of new facts resulting in increased liabilities would not have a material adverse effect on CODELCO's business, financial condition, results of operations or prospects.

For further information on environmental matters, and current and proposed environmental laws and regulations, see "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Environmental" and "Regulatory Framework—Environmental Regulations."

CODELCO's failure to meet investor, consumer or societal expectations related to environmental, social or governance ("ESG") matters could adversely affect its reputation, investor opinion and access to new capital.

Sustainability is an integral part of CODELCO's strategy. CODELCO has set sustainability targets, which it hopes to reach by December 2030, and include (i) 70.0% reduction of greenhouse gas emissions (Scope 1 and 2) from 2019 levels; (ii) reduction in the unit consumption of continental water for sulfides in high water stress basins by 60% compared to 2019 levels; (iii) recycling 65.0% of industrial waste; (iv) implementation of online monitoring and infiltration control systems to all tailing storage facilities; (v) 60.0% increase of goods and services provided by local suppliers from 2019 levels; and (vi) 25.0% reduction of particulate matter (PM10) emissions from 2019 levels. Although CODELCO is committed to reaching such sustainability targets by 2030, not reaching them may affect CODELCO's reputation, investor opinion and access to new capital.

CODELCO is committed to operating in a socially responsible manner, however our reputation and social license to operate may be affected by our perceived impact on the environment and society in which CODELCO operates, and CODELCO may face opposition from local communities with respect to its ongoing and future projects. Such perception could adversely affect our reputation, investor opinion and access to new capital and thus our results or operations and

financial condition.

CODELCO is subject to legal proceedings and legal compliance risks that may adversely impact its financial condition, results of operations and liquidity.

CODELCO spends substantial resources ensuring that it complies with local regulations, contractual obligations and other legal standards. Notwithstanding this, CODELCO is subject to a variety of legal proceedings and compliance risks in respect of various matters, including tax, environmental- and labor-related matters that arise in the course of its business and in its industry as well as disputes with governmental agencies. For example, CODELCO is subject to various labor proceedings in which workers and families of deceased workers allege that working conditions caused the workers to contract silicosis. More recently, CODELCO is subject to various investigations related to the July 31, 2025 seismic event at the El Teniente mine that resulted in the tragic loss of six lives. For more information, see “Summary—Recent Developments—Fatal accident at El Teniente Division.”

Although CODELCO has undertaken precautionary measures, there have been fatalities involving CODELCO personnel in the past and there may be additional fatalities in the future. Serious accidents, including fatalities, may subject CODELCO to substantial penalties, civil litigation or criminal prosecution. Claims for damages to persons, including claims for bodily injury or loss of life, could result in substantial costs and liabilities, which could materially and adversely affect CODELCO’s financial condition, results of operations or cash flows. If CODELCO’s safety record were to substantially deteriorate over time or CODELCO were to suffer substantial penalties or criminal prosecution for violation of health and safety regulations, CODELCO’s contracts may be cancelled or it may not be awarded future business. A negative outcome in an unusual or significant legal proceeding or compliance investigation could also adversely affect our financial condition and results of operations. For information regarding CODELCO’s current significant legal proceedings, see “Business and Properties—Comptroller General of the Republic” and “Business and Properties—Legal Proceedings.”

Earthquake damage to CODELCO’s properties and operations could negatively affect CODELCO’s results.

Chile is located in a seismic area that exposes CODELCO’s operations to the risk of earthquakes. Chile has been adversely affected by powerful earthquakes in the past, including, most recently, (i) in 2015 when an earthquake struck the coast of Chile, (ii) in 2014 when an earthquake struck the north of Chile and (iii) in 2010 when a severe earthquake struck the southern central region of Chile. The 2015 earthquake measured 8.3 on the Richter scale and affected the coast of Chile just north of Santiago, with no significant consequences for the rest of the country. The 2014 earthquake measured 8.2 on the Richter scale and affected mainly the Arica and Tarapacá Regions, with no significant consequences for the rest of the country. The 2010 earthquake and its aftershocks, as well as tsunamis from adjacent coastal waters, caused severe damage to Chile’s infrastructure, including roads, bridges, ports and Santiago’s international airport, affecting areas across the country.

Although the 2015, 2014 and 2010 earthquakes did not have any substantial effect on CODELCO or its results of operations, and although CODELCO’s mining operations are subject to, and designed to withstand, damage from significant seismic events, an earthquake occurring closer to CODELCO’s operations in northern Chile could cause damage to its mining operations that would not be covered by insurance, except to the extent that its production ceased for more than 30 days and subject to the specific terms, conditions and limitations of the applicable insurance policies. Any such damages caused by an earthquake that were not covered by insurance could have an adverse effect on CODELCO’s results of financial condition, results of operations or cash flow.

If these and other natural phenomena occur in the future, CODELCO may suffer damage to, or destruction of, properties and equipment, which may negatively affect its business, particularly if those problems affect its computer-based data processing, transmission, storage and retrieval systems and destroy valuable data. In addition, if a significant number of its local employees and managers were unavailable in the event of a disaster, CODELCO’s ability to effectively conduct business could be severely compromised. An earthquake, or another natural disaster could damage some of CODELCO’s mining operations, force it to close damaged facilities or locations, increase recovery costs as well as cause economic damage, which in turn may have a material adverse effect on CODELCO’s business.

Future compliance with a changing and complex regulation scheme may require changes in CODELCO's business.

CODELCO's exploration, mining, milling, smelting and refining activities are also subject to non-environmental Chilean laws and regulations (including certain industry technical standards), which change from time to time. Matters subject to regulation include, but are not limited to, concession fees, transportation, production, reclamation, export, taxation and labor standards.

While CODELCO does not believe that compliance with such laws and regulations will have a material adverse effect on its business, financial condition, results of operations or prospects, there can be no assurance that more stringent enforcement of, or change in, existing laws and regulations, the adoption of additional laws and regulations, including increased government supervision and control over the management of CODELCO's business and its awarding of contracts, or the discovery of new facts resulting in increased liabilities or costs would not have a material adverse effect on CODELCO's business, financial condition, results of operations or prospects.

CODELCO's business plans are based on estimates of the volume and grade of CODELCO's ore deposits, which could be incorrect.

CODELCO's ore deposits (its resources and reserves) described in this offering memorandum constitute estimates based on standard evaluation methods generally used in the international mining industry and on assumptions as to production costs and market prices. The actual ore deposits may not conform to geological, metallurgical or other expectations, and the volume and grade of ore recovered may be below the estimated levels. Lower market prices, as well as increased production costs, reduced recovery rates and other factors, may render CODELCO's ore deposits uneconomic to exploit and may result in revision of its reserve and resource estimates from time to time. Reserve and resource data are not indicative of future results of operations. See "Business and Properties—Ore Reserves."

CODELCO's business requires substantial capital expenditures.

CODELCO's business is capital-intensive. Specifically, the exploration and exploitation of copper reserves, mining, smelting and refining costs, the maintenance of machinery and equipment and compliance with applicable laws and regulations require substantial capital expenditures. CODELCO expects to make capital expenditures of approximately U.S.\$17.2 billion between 2025 and 2027 (current project portfolio and mine development) in addition to U.S.\$279 million in its subsidiaries. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Capital Expenditure Program." There can be no assurance that CODELCO will be able to maintain its production levels or generate sufficient cash flow, capitalize a sufficient amount of its profit or have access to sufficient investments, loans or other financing alternatives to finance its capital expenditure program at a level necessary to continue its exploration, exploitation and refining activities at or above its present levels.

CODELCO's future performance depends on the results of current and future innovation and exploration.

CODELCO has a two-pronged exploration program that is focused on increasing reserves of its existing divisions and exploring for new deposits outside of its current operations. As the ore quality of CODELCO's reserves continues to decline over time, innovation and exploration are increasingly important to CODELCO's success. CODELCO expects to maintain its production levels through its expansion and development projects for the next three years. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Capital Expenditure Program" for more detail. While initial results have been favorable, there can be no guarantee that CODELCO's exploration program will continue to be successful. In addition, there may be some degree of execution risk associated with the expansion of operations into deeper mines or mines at higher altitudes. CODELCO's expansion program could also experience delays or be negatively impacted by higher costs. If CODELCO's expansion program is not successful, it would materially and adversely affect its copper production levels. For a description of CODELCO's current development programs, see "Business and Properties—Resource Development."

CODELCO has experienced high energy costs and may experience higher energy costs in the future.

Energy represents an important part of CODELCO's production costs. The main sources of energy for CODELCO's operations are electricity, liquid fuels (such as diesel, fuel oil and gasoline) and natural gas. With respect

to liquid fuels and natural gas, these commodities are subject to price fluctuations resulting from external factors beyond CODELCO's control. If the prices of liquid fuels or natural gas increase, or if we are otherwise unable to secure reliable access to electricity at acceptable prices, we may be forced to curtail production or may experience higher production costs, either of which would adversely affect our results of operations. Any energy shortages where we have operations and projects, due to stress of infrastructure, high demand or weather conditions, may adversely impact the cost or supply of electricity for our operations.

Any interruption or destruction or loss of data in CODELCO's information technology systems due to technical or operational malfunctions or cyber-attacks could have a material adverse effect on its reputation, business, financial condition and results of operations.

CODELCO is subject to a variety of information technology and system risks as a part of its normal course of operations, including potential breakdown, invasion, virus, cyber-attack, cyber-fraud, security breach, and destruction or interruption of CODELCO's information technology systems by third parties or CODELCO's own personnel. Although CODELCO has security measures and controls in place that are designed to mitigate these risks, a breach of its security measures or a loss of information could occur and result in a loss of material and confidential information, breach of privacy laws and a disruption to its business activities. In addition, information systems could be damaged or interrupted by natural disasters, force majeure events, telecommunications failures, power loss, acts of war or terrorism, computer viruses, malicious code, physical or electronic security breaches, intentional or inadvertent user misuse or error, or similar events or disruptions. Any of these or other events could cause interruptions, delays, loss of critical or sensitive data or similar effects, which could have a material adverse impact on the protection of intellectual property, confidential and proprietary information, and on CODELCO's business, financial condition and results of operations.

Chilean Law No. 21,663 (the "Cybersecurity Framework Law"), published in the Official Gazette on April 8, 2024, imposes statutory obligations on in-scope entities, including mandatory reporting of cyberattacks and cybersecurity incidents that may have significant effects to the National Cybersecurity Agency ("ANCI"). Entities within the purview of the Cybersecurity Framework Law must also permanently implement technological, organizational, physical and informational measures to prevent, contain, resolve and report cybersecurity incidents in accordance with protocols issued by ANCI and the standards applicable to each sector. ANCI has powers to request strictly necessary information (including logs) and, in the event an incident with significant effects occurs, to require access to networks and information systems where indispensable for incident management.

On November 15, 2023, CODELCO experienced a cyberattack in the Gabriela Mistral Division, leading to a three-day operational halt. Nevertheless, CODELCO managed manual operations, conducted proactive maintenance, and concurrently recovered the autonomous system. The cybersecurity controls implemented by CODELCO successfully contained the malware, preventing its spread to other operations. Additionally, CODELCO enlisted Unit 42 of Palo Alto, a specialized incident response company based in the United States, for forensic analysis. The forensic analysis process confirmed that the attacker did not breach CODELCO's network directly but instead exploited a remote access point used for manufacturer support. During the cyberattack response, manufacturer support was restored using a security block featuring advanced remote access technologies and robust perimeter protection. Additionally, other measures recommended by the forensic analysis were implemented, including zero-day anti-malware controls for the Gabriela Mistral Division's autonomous trucks, which had been pre-validated by the autonomy provider.

CODELCO has not experienced any material economic impact as a result of this cyberattack. However, future cyberattacks could have an adverse effect on our results of operations or financial condition.

On December 16, 2025, ANCI designated CODELCO as an "Operator of Vital Importance" (*Operador de Importancia Vital*) by Exempt Resolution No. 87. As an Operator of Vital Importance, CODELCO is subject to enhanced obligations under the Cybersecurity Framework Law. For additional information on the applicable cybersecurity regulatory obligations, see "Regulatory Framework—Cybersecurity Law and Regulatory Regime".

Changes to Chile's data protection regime could increase compliance costs, enforcement exposure and operational constraints.

CODELCO processes personal data in the ordinary course of its business, including information relating to employees, contractors, suppliers, counterparties, and, in certain cases, members of the public in connection with its

operations. These processing activities are primarily subject to Chilean law and, as applicable, to foreign data protection regimes in jurisdictions where personal data is collected or otherwise processed.

Chile enacted Law No. 21,719 (the “New Data Protection Law”) on December 13, 2024, which will enter into force on December 1, 2026. The New Data Protection Law introduces a principles-based regulatory framework, strengthens data subject rights (including access, rectification, deletion, objection, portability, and protections related to automated decision-making), and recognizes multiple legal bases for processing data beyond consent, such as legal obligation, contract performance, and legitimate interests, subject to applicable safeguards. It also imposes enhanced obligations on controllers and processors, including privacy by design and by default, transparency requirements, implementation of appropriate technical and organizational security measures, recordkeeping, and the performance of data protection impact assessments in specified high-risk scenarios. In addition, the law regulates international data transfers through adequacy decisions or appropriate safeguards (such as model clauses, binding mechanisms, and certifications), with limited derogations in specific circumstances.

The New Data Protection Law also establishes a dedicated Data Protection Agency with supervisory and sanctioning powers and introduces mandatory notification of personal data security breaches to the authority and, in certain cases, to affected individuals. Non-compliance may result in investigations, corrective measures, administrative fines of up to 20,000 UTM (approximately U.S.\$1.6 million) (with higher exposure in cases of recidivism and turnover-based caps applicable to large companies), temporary suspension of certain processing activities, and potential private claims for damages. The transition to this new regulatory framework, together with subsequent regulatory implementation, may increase compliance costs, enforcement exposure, and operational complexity. For a description of the applicable regulatory framework, see “Regulatory Framework—Data Privacy and Data Protection Regulatory Framework.”

CODELCO maintains policies and procedures designed to comply with applicable data protection requirements and to manage related risks, including measures relating to access control, data minimization, data retention, incident response, and vendor management. However, evolving privacy and data protection requirements under the New Data Protection Law may require further updates to our policies, processes, contractual arrangements, and technical safeguards. Any failure to comply with applicable requirements, or allegations of non-compliance, could result in regulatory investigations, administrative measures, fines, private claims for damages, reputational harm, and restrictions or suspensions of certain data processing activities.

Labor disruptions involving CODELCO’s employees or the employees of its independent contractors could affect CODELCO’s production levels and costs.

As of December 31, 2024, CODELCO employed 15,831 employees, approximately 95% of whom were covered by collective bargaining agreements with labor unions. Most of these collective bargaining agreements have terms of two to three years. CODELCO has experienced material work slowdowns, work stoppages and strikes in the past. In March 2024, following the fatal accident that occurred in the Radomiro Tomic Division, that division’s workers went on strike demanding an increase in safety measures. This closure resulted in an estimated production loss of approximately 30,000 tons. The strike ended after 48 hours upon reaching an agreement with the Company, in which CODELCO committed to implement and fulfill a series of concrete actions to improve the safety of workers at the Radomiro Tomic Division. An investigation has been initiated to determine the cause of the accident.

In 2024, CODELCO successfully negotiated 25 collective bargaining agreements, most of them before the start of the legal negotiation period as early settlements. In 2025, CODELCO concluded a collective bargaining agreement with the workers’ union of the Gabriela Mistral Division, marking the completion of the 2023–2025 collective bargaining cycle. In total, 26 agreements were successfully negotiated—25 during 2024, primarily through early negotiations, and one in the first quarter of 2025—encompassing over 12,600 employees across all divisions and headquarters. These agreements, each valid for 30 to 36 months, collectively represent approximately 80% of CODELCO’s total workforce.

CODELCO has experienced work disruptions in the past, and there can be no assurance that a work slowdown or work stoppage will not occur prior to or upon the expiration of the current collective bargaining agreements. Management is unable to estimate the effect of any such work slowdown, stoppage or strike on CODELCO’s production levels. While none of the strikes described in this risk factor had a material impact in CODELCO’s results of operations, work slowdowns, stoppages or other labor-related developments affecting CODELCO could have a material adverse

effect on the business, financial condition, results of operations or prospects of CODELCO in the future. In particular, work slowdowns, stoppages and other labor-related events could increase CODELCO's independent contracting costs. In addition, pursuant to the *Código del Trabajo* (the "Labor Code of Chile"), CODELCO could be held liable for the payment of labor and social security obligations owed to the employees of independent contractors (or their subcontractors) if the independent contractors (or their subcontractors) do not fulfill those payment obligations.

As of December 31, 2024, CODELCO employed 15,831 employees, approximately 95% of whom were covered by collective bargaining agreements with labor unions. CODELCO currently has positive labor relations with these unions. CODELCO is currently unable to estimate the impact that the Labor Reform Law or similar reforms will have on its labor relations with respect to labor unions, or on its business, financial condition, operating results and prospects.

For further information on employee and independent contractor matters, including recent work disruptions, see "Business and Properties—Employees."

Recent bills of law on labor and social security matters could affect CODELCO's operations and employee costs.

Reform to the Pensions Act. On March 26, 2025, Law No.21,735 was published in the Official Gazette creating a new Combined Pension System and a Social Insurance in the contributory pension component, improving the Guaranteed Universal Pension and establishing benefits and regulatory amendments.

Currently, the social security system in Chile is composed of (i) a mandatory contribution of the employee's burden, equal to 10.0% of the employee's monthly remuneration, which is transferred to the employee's individual capitalization account with the Pension Fund Administrator ("AFP"). In case of dependent employees, the employer has the obligation to retain the corresponding sums and transfer them to the respective AFP; (ii) a voluntary contribution, that enables employees to voluntarily complement their pension funds; and (iii) a welfare contribution or pension aid ("*pilar solidario*"), which is a State's contribution to complement the pension funds of the poorest 60.0% of the population in Chile.

The main amendments or regulations introduced by Law No.21,735 include:

- (a) An additional contribution of 8.5% of the employee's gross remuneration with a cap that varies every year (the current cap is 87.8 UF, approximately US\$3,661). This new contribution will burden employers. This total contribution of 8.5% will be distributed as follows: (i) 6% to the employee's individual account and (ii) 2.5% to the Autonomous Pension Protection Fund (*Fondo Autónomo de Protección Previsional*), which is intended to compensate for gender gaps in pension allowances and to finance the disability and life insurance (*Seguro de Invalidez y Supervivencia*). Accounting for disability and life insurances that were already in place, employers will effectively be responsible for a net 6.72% increase in total contributions. The 8.5% contribution will be progressively implemented according to the following schedule:
 - August 1, 2025: 1% (+1.78% for disability and survival insurance)
 - August 1, 2026: 3.5% (1.78% for disability and survival insurance included in 3.5%)
 - August 1, 2027: 4.25%
 - August 1, 2028: 5.0%
 - August 1, 2029: 5.7%
 - August 1, 2030: 6.4%
 - August 1, 2031: 7.1%
 - August 1, 2032: 7.8%
 - August 1, 2033: 8.5%.
- (b) During the time an employee is under medical leave, certain parts of the contribution will continue to be paid by the employer.
- (c) Law No.21,735 also states that, even though the social security institutions are the ones responsible for the collection of pending payments, in case they decide not to initiate actions against an employer, the employees may directly initiate those actions within five years as from the date the social security

institutions notify them of the decision to not collect outstanding payments.

- (d) From the enactment of Law No.21,735 and until 2028, fee-based providers may voluntarily choose to contribute the 8.5% indicated in letter (a) above. From 2028, the contribution will be mandatory; however, the manner in which such contribution will operate shall be defined in a complementary regulation.

Reduction of the weekly working schedule. On April 26, 2023, Law No. 21,561 was published in the Official Gazette, introducing changes to the Labor Code of Chile, mainly consisting in the reduction of the weekly working hours from 45 to 40 hours. This 5-hour reduction will enter into force gradually over a five-year period. On April 26, 2024, the ordinary working hours limit was reduced to 44 hours, in 2026 it will be reduced to 42 and, finally, to 40 hours in 2028.

The impact that this law could have on CODELCO's operations will depend on the applicable type of employee (administrative, miners, etc.), the different workday schemes in place on each labor site and the capacity of CODELCO to maintain productivity levels despite its approval. Additionally, it could also impact CODELCO's operations and labor-related costs. The uncertainties facing CODELCO with regard to the implementation of this law are similar to those faced by other affected Chilean companies. Notwithstanding the above, CODELCO has decided to implement this regulation and effectively reduce the working day to 40 hours by 2026.

"Karin Act." Effective August 1, 2024, Law 21,643 on prevention, investigations and sanctioning of sexual and labor harassment and workplace violence (unofficially known as the "Karin Act"), introduced several amendments to the Labor Code of Chile and/or new regulations on said matters. Although these changes may not have a direct impact on CODELCO's costs, they could potentially lead to higher administrative expenses and an increase in litigation or claims.

New MMI. Pursuant to Law No. 21,751, as from January 1, 2026, the minimum monthly income will increase to \$539,000. An increase in the MMI could lead to higher labor costs for CODELCO.

Granting and use of sick leaves. Effective May 24, 2025, Law 21,746 introduced several amendments to the regulation of sick leaves, with the purpose of strengthening the powers of regulatory and supervisory entities and establishing administrative and criminal penalties. The main impact of this law on labor-related aspects is that SUSESO will notify the employer if its employees are involved baseless sick leaves.

Distribution of Profit Sharing. On September 2, 2021, the Chamber of Deputies of the Chilean Congress approved a bill to change the distribution of profit sharing in companies. According to this bill, companies will have to distribute to their employees between 8.0% to 15.0% of their annual net profits, a percentage that will depend on the amounts invoiced by the company during the respective annual period. The amount payable to each employee annually is capped at 20 times the monthly minimum income ("MMI"). Furthermore, companies will have to make monthly payouts equal to 25.0% of the employee's monthly remuneration, capped annually at six times the MMI. This monthly payment will be attributable to the annual payment, in case the latter turns out to be higher.

The draft is currently being discussed at the Chilean Congress and has not progressed since 2021. It is possible that the draft could be substantially modified when it continues its discussion and approval process, thus its impact on CODELCO is unknown at this time. The bill is currently in the Second Constitutional Process in the Senate, in the Committee on Labor and Social Security.

Elimination of the 11-year cap on legal severance pay for years of service. On May 7, 2025, a bill was introduced in the Chilean Congress seeking to eliminate the maximum limit of 11 years of service used to calculate severance pay in cases of termination of the employment contract on the grounds of "company's needs" and "at the employer's will." The bill is currently in the First Constitutional Process in the Chamber of Deputies.

Industry-wide collective bargaining. On May 22, 2025, a group of deputies introduced a new bill in the Chilean Congress seeking to amend the Constitution to guarantee the right to participate in industry-wide collective bargaining processes. The bill is currently in the First Constitutional Process in the Chamber of Deputies.

Notwithstanding the above, on January 9, 2026, the government submitted its own bill on the matter seeking to amend the Labor Code of Chile to regulate a multi-level collective bargaining system.

The bill establishes a three-tier collective bargaining framework: (a) sectoral collective bargaining, intended to set baseline labor standards applicable to employers and employees within the same economic sector or subsector; (b) intermediate-level collective bargaining, designed for the negotiation of framework agreements (“*acuerdos marco*”) governing shared employment conditions across specific economic settings, such as business projects, production processes or value chains, allowing for the agreement of obligations between the companies in favor of their employees in areas such as health and safety, dispute resolution, workforce training, innovation, sustainability and common conditions for the development of collective bargaining at a company level; and (c) company-level collective bargaining, introducing the participation of federations in regulated bargaining processes with the employers of the unions they represent.

Although the treatment of the bill has been prioritized by the Chamber of Deputies of the Chilean Congress, the circumstances in which the bill was presented —immediately prior to Congress’ summer adjournment and the administration change that will occur in March— may lead Congress not to discuss it in the near term. In addition, the bill could have substantial amendments during its discussion in the Chilean Congress. Accordingly, as of the date of this offering memorandum, it is not possible to accurately assess whether the bill will have a material impact on CODELCO’s operations or costs.

Recent bills of law on tax matters could affect CODELCO’s operations and employees costs.

On August 10, 2023, Law No. 21,591, also known as the Mining Royalty Law, was published in the Official Gazette. This law eliminates the specific mining tax (currently applicable to CODELCO) and establishes a special tax for the establishment of copper mining activities. A maximum tax rate of 46.5% is established over the operational income of the mining producers of over 80,000 metric tons of fine copper per year and a maximum tax rate of 45.5% for mining producers with production of up to 80,000 metric tons of fine copper per year. Part of the funds obtained with this tax will be used for special funds to benefit different and vulnerable communities or communities in which mining activities are performed in Chile. CODELCO’s current mining tax rate is 5% and CODELCO expects it to increase to 8% in the coming years. Nonetheless, for CODELCO, there should not be significant impact on free cash flow as higher taxes are expected to lead to lower net income and therefore lower dividend payout. Starting January 1, 2025, under Law No. 21,420 and Law No. 21,649, mining concession holders in Chile must pay annual fees of approximately U.S.\$4.5 per hectare for exploration concessions and U.S.\$29.9 per hectare for exploitation concessions during the first five years, however, those mining concessions considered to be in productive mining operations may opt to maintain a payment of U.S.\$7.5 per hectare with exploitation fees increasing to U.S.\$897.3 per hectare by the 31st year since the law came into effect. Concession holders actively undertaking mining works or involved in projects with environmental approvals may apply for a reduced exploitation fee of U.S.\$7.5 per hectare by providing evidence to the National Geology and Mining Service (SERNAGEOMIN). Annual fees are due in March, and failure to pay can result in loss of the concession through auction or the termination of the mining concession through a declaration of open land. Certain exploitation fees may also be credited against income taxes.

On October 24, 2024, Law No. 21,713 was published in the Official Gazette, establishing rules to ensure compliance with tax obligations. The provisions of this law came into effect on November 1, 2024, notwithstanding specific effective dates established by the law for certain provisions. The key aspects of this law, among others, are related to: (i) corporate reorganizations, including the legal recognition of international reorganizations and the requirements for the Chilean Internal Revenue Service power of appraisal not to apply; (ii) international taxation, including the strengthening of transfer pricing rules, modifications regarding the relationship rules in the case of provisions associated with controlled foreign corporations, and the substitution of the definition of jurisdictions with a preferential tax regime; (iii) a specific voluntary disclosure program regarding assets and income abroad that were not timely declared or taxed in Chile; (iv) modifications regarding the procedure for requesting information subject to bank secrecy; (v) multiple modifications regarding audit matters, including reporting obligation for digital platforms, the calculation of default interest, audit processes, tax penalties and infractions, among others; (vi) value added tax (“VAT”), including modifications on VAT regarding digital services and regarding the export VAT request procedure; (vii) multiple modifications regarding the Tax Ombudsman; and (viii) General Anti Avoidance Rules, maintaining a judicial procedure but including a stage before the Executive Committee, a newly created body responsible for recommending whether or not the General Anti-Avoidance Rule should be applied.

On August 4, 2025, the Government of Chile presented a tax reform bill to the National Congress, with a particular focus on benefits for the middle class and for small and medium-sized enterprises (“SME”). The main

proposed measures include: (i) modification of the SME fiscal regime, establishing, among other changes, a 20% corporate income tax rate with a gradual transition from the current temporary rate of 12.5%; (ii) tax benefits for vulnerable individuals and the middle class; (iii) increases in personal income tax rates applicable to high-income taxpayers; (iv) elimination of the corporate income tax exemption for private investment funds (subject to limited exceptions) and restrictions on certain benefits available to public investment funds; (v) multiple amendments to the Inheritance and Donations Tax Law (*Impuesto a las Herencias, Asignaciones y Donaciones*), including changes to the regime of revocable donations, elimination of exemptions, and updates to valuation rules, among others; (vi) extension of the withholding tax exemption for digital services provided to individuals domiciled in Chile; and (vii) extension on the application of the penalty tax under Article 21 of Chile's Income Tax Law (*Ley Sobre Impuesto a la Renta*).

CODELCO engages in hedging activity from time to time, particularly with respect to its copper production, which may not be successful and may result in losses to CODELCO.

CODELCO from time to time hedges certain future copper delivery commitments and production in order to manage the risks associated with copper price volatility. As of September 30, 2025, CODELCO had U.S.\$139.0 million in production hedging commitments. See note 30 to the Consolidated Financial Statements.

CODELCO's production hedging activities could cause it to lose the benefit of an increase in copper prices if copper prices increase over the level of CODELCO's hedge position, as occurred in 2012. The cash flows from and the mark-to-market values of CODELCO's production hedges can be affected by factors such as the market price of copper, copper price volatility and interest rates, which are not under CODELCO's control.

CODELCO's production hedging agreements contain events of default and termination events that could lead to early close-outs of CODELCO's hedges. These include failure to pay, breach of the agreement, misrepresentation, default under CODELCO's loans or other hedging agreements and bankruptcy. In the event of an early termination of CODELCO's hedging agreements, the cash flows from the affected hedge instruments would cease and CODELCO and the relevant hedge counterparty would settle all of CODELCO's obligations at that time. In that event, there could be a lump sum payment to be made either to or by CODELCO. The magnitude and direction of such a payment would depend upon, among other things, the characteristics of the particular hedge instruments that were terminated and the market price of copper and copper price volatility and interest rates at the time of termination.

In addition to its production hedging activities, CODELCO has hedged a portion of its exchange rate and interest rate exposure by entering into forward exchange contracts to hedge against fluctuations in the UF to U.S. dollar exchange rate for its outstanding UF-denominated bonds. CODELCO also periodically enters into futures contracts with respect to certain sales of its own copper. No assurance can be given that CODELCO will be adequately protected by its hedging activities.

See "Business and Properties—Marketing—Pricing and Hedging," and note 29 to the Consolidated Financial Statements for further information on CODELCO's hedging activity.

Global economic, political and regulatory developments may adversely affect CODELCO.

Revenue from international sales constitutes a material portion of our total revenue, and we anticipate it will continue to for the foreseeable future. This year, the U.S. administration has intensified its trade policies, announcing and implementing new tariffs and restrictions across a broad range of products, including some metal commodities and metal-intensive products. This has impacted trade with China, as well as other trade partners.

Furthermore, the announcement of potential tariffs on copper products, supported by a Section 232 investigation, has contributed to heightened price volatility and distortions across both physical and financial markets. At present, the measures exclude copper raw materials and refined copper cathodes, while imposing a 50% duty on semi-fabricated products, including wire, rod, tube, and others. While clarity on further modifications to the copper tariffs regime in the U.S. remains uncertain, CODELCO's commercial strategy, founded on diversification and flexibility, enables the company to mitigate such challenges by redirecting sales to alternative markets, limiting the impact on revenues and ensuring uninterrupted operations.

Moreover, escalating geopolitical tensions, including the ongoing conflict in the Middle East, the current developments in Venezuela and the Caribbean region, and the conflict in Ukraine and economic sanctions on Russia, have further strained global supply chains. These factors, combined with uncertainties in U.S.-China relations, could disrupt the global economy and negatively affect our revenues. Should our revenues from international sales decline significantly as a result, it could have a material adverse effect on CODELCO's business and results of operations. Furthermore, in light of recently held elections in various international jurisdictions, there is considerable uncertainty regarding reforms of various aspects of existing laws, regulations, and enforcement priorities and strategies that could affect trade policies, labor matters, taxes, and technological advancements, among other areas, and have a material effect on our business and results of operations.

CODELCO's new role in the lithium industry set by the National Lithium Strategy involves numerous risks, many of which are different to the risks derived from the businesses CODELCO has traditionally engaged in.

CODELCO has been designated as the Republic of Chile's representative and is working with CORFO in the negotiation and definition of future contracts with private companies for the development of lithium production in the Atacama and Maricunga salt flats. See "Summary—Recent Developments—New Role of CODELCO related to Lithium."

While CODELCO already explores and exploits copper, its new role in, and increased focus on, the lithium industry could prove difficult to integrate with our other lines of business, resulting in unknown or unforeseen liabilities, disrupt our business, dilute stockholder value and ownership and adversely affect our operating results and financial condition.

Being one of Chile's agents for the development of the country's lithium industry involves numerous risks, many of which are different from the risks derived from the other businesses we have traditionally engaged in. Those risks include, among others:

- potential failure to achieve the expected benefits of engaging in the new businesses;
- difficulties in, and the cost of, integrating operations, technologies, services, platforms and personnel;
- diversion of financial and managerial resources from existing operations;
- the potential entry into new markets in which we have little or no experience or where competitors may be stronger;
- reputational risk;
- failure to increase or maintain our market position due to, among others;
- unavailability of external financing beyond CODELCO's control, required to make additional investments and take on additional costs;
- inability to generate sufficient revenue to offset investment costs;
- potential unknown liabilities associated with the new lines of business, including regulatory noncompliance; and
- ineffective or inadequate controls, procedures and policies in connection with the new business.

Any of these risks could have an adverse effect on our business, operating results and financial condition. To perform this new role in the lithium industry we may be required to make additional investments and take on additional costs, which may be higher than expected and may not be recoverable. To finance such investments and costs, we may seek additional debt financing, which may not be available on terms favorable to us, or at all, which may affect our ability to complete investments. If we finance these investments by incurring additional debt, we could face constraints related to the terms of, and repayment obligations related to, the incurrence of indebtedness.

Risks Relating to CODELCO's Relationship with the Government of Chile

Important corporate governance matters, the annual budget and financing programs are determined by or subject to the approval of the President of Chile and the Ministries of Finance and Mining.

CODELCO is a mining, industrial and commercial state-owned enterprise of indefinite duration with its own legal personality and capital. CODELCO's relationship with the Government of Chile is through the Ministry of Mining, and is governed by Decree Law No. 1,350, as amended by Law 20,392, its bylaws and other applicable legislation. The President of Chile is vested with the authority analogous to that of the shareholders of a corporation (*sociedad anónima*) under Chilean law, which may be delegated in whole or in part to the Ministers of Finance and Mining, jointly. Pursuant to such authority, the President of Chile (i) participates in the designation of the Board of Directors by designating three directors without external input and by electing six directors on the basis of third-party short lists; (ii) appoints the Chairman of the Board of Directors; and (iii) may approve and amend the bylaws of the Company, by means of an executive decree issued jointly by the Ministries of Finance and Mining. Senior management and administration of the Company are vested in its Board of Directors and further delegated to its Chief Executive Officer. Pursuant to Decree Law No. 1,350, CODELCO's Board of Directors must submit its proposed annual budget to the Ministries of Finance and Mining for approval and possible revision. In addition, Decree Law No. 1,350 requires CODELCO to include as part of its proposed annual budget a debt amortization budget that includes interest and principal payments on CODELCO's debts, including the notes. CODELCO must also submit a three-year *Plan de Negocios y Desarrollo* (a Business Development Plan, or "BDP") report, approved by the Company's Board of Directors, to the Ministries of Finance and Mining by March of each year.

On December 14, 2025, the presidential runoff election between José Antonio Kast and Jeannette Jara took place. Jeannette Jara, a member of the Communist Party and a left coalition candidate also backed by the *Frente Amplio* (a left party) and center-left parties, received approximately 41.84% of the votes, while José Antonio Kast, a member of the Republican Party (*Partido Republicano*) and conservative candidate also backed by the National Libertarian Party (*Partido Nacional Libertario*), a right party, and center-right parties, received approximately 58.16% of the votes, becoming the elected President of Chile and officially proclaimed as such on January 5, 2026. Mr. Kast will take office on March 11, 2026, succeeding President Gabriel Boric.

President-elect José Antonio Kast has stated that he intends to implement significant changes in current political, social and economic policies, with a strong emphasis on public security and law enforcement policies as well as economic growth.

On January 20, 2026, President-elect José Antonio Kast announced the members of cabinet with which he will take office on March 11, 2026.

The new administration will have the authority to appoint the Chairman of CODELCO's Board of Directors, a position currently held by Máximo Pacheco, and two members of CODELCO's Board of Directors (in replacement of Josefina Montenegro and Alejandra Wood, whose terms expire in May 2026). Future administrations may adopt policies or exercise their authority in ways that materially differ from those of prior administrations or from what would be expected in a privately owned company.

There is no assurance that actions taken by previous administrations with respect to the appointment of CODELCO's directors, amendments to its bylaws, and the revision and approval of its budget (including CODELCO's capitalization of profit) will be ratified or maintained by the incoming administration. Any such changes could adversely affect CODELCO's governance, financial flexibility and ability to implement its strategic plans. See "Management" and "Regulatory Framework."

CODELCO's funding through retention of profits is restricted and is subject to the approval of the Ministries of Finance and Mining.

As a state-owned enterprise and according to its governing law, CODELCO's profit is required to be transferred to the Chilean Treasury. Before June 30 of each year, the Ministries of Finance and Mining are required to determine, by means of a joint decree, the amount, if any, that the Company shall allocate to the creation of capitalization and reserve funds as retention of profits. Between 2014 and 2019, the Government of Chile authorized the capitalization by capital

injection and retention of profit within CODELCO in an aggregate amount of U.S.\$3.3 billion. Although CODELCO currently expects the Ministries of Finance and Mining to make available a substantial amount of its pre-tax profit over the next three years, a joint decree of the Ministries of Finance and Mining is required each year and the amounts approved in any given year, if any, could vary significantly. Since 2022, the Government of Chile has allowed CODELCO to annually reinvest 30.0% of its 2021-2024 profits. This represents a change in CODELCO's dividend policy, which previously consisted of 100% net-profit distribution policy. This profit-reinvestment plan is expected to strengthen CODELCO's financial balance sheet and reduce the need for additional financial debt.

On June 22, 2022, the Ministry of Finance agreed with CODELCO to a four-year average reinvestment plan of 30% of profits between 2021 and 2024, which will significantly contribute to the financing of CODELCO's investment plan, while considerably reducing its debt requirements. Consistent with the above, on the same date the Ministry of Finance issued Exempt Decree No. 194 authorizing CODELCO to allocate up to U.S.\$582.8 million of the net income from the balance sheet for the year 2021. In accordance with the provisions of Exempt Decree No. 4 of January 2023, these resources were paid against the profits of 2022 and 2023, prior to the absorption of the excess of anticipated dividends of previous years and the interim dividends of 2022.

On July 17, 2023, the Ministry of Finance issued Exempt Decree No. 238 authorizing the Corporation to allocate up to U.S.\$103.7 million of the net income shown in the 2022 balance sheet to capitalization and reserve funds, which were charged against the income for 2023 and subsequent years.

As of December 31, 2023, a capitalization and reserve fund has been created amounting to U.S.\$345.6 million, according to Exempt Decree No. 194, as of December 31, 2024, a capitalization and reserve fund of U.S.\$103.7 million is established in accordance with Exempt Decree No. 238.

As of September 30, 2025 and December 31, 2024, CODELCO maintains a favorable balance in respect of dividends paid in prior years in excess of distributable earnings amounting to U.S.\$373.7 million.

If CODELCO's funding through capitalization and retention of profits, depreciation, amortization and deferred taxes are insufficient to fund capital expenditures and if it is unable to otherwise finance planned expenditures, CODELCO's business would be adversely affected. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources." In addition, if the Government of Chile does not authorize additional capitalization or the retention of profits, our credit rating may be adversely affected, which could have a material adverse effect on our business and financial condition.

CODELCO is subject to special taxes.

Law No. 21,174, that repealed Law No. 13,196, the Copper Reserve Law, exclusively requires CODELCO to pay a 10.0% special export tax on receivables of the sales proceeds received and transferred to Chile from the export of copper and related by-products the Company produces. As a result, the Central Bank of Chile (*Banco Central de Chile*) retains 10.0% of the amounts from such sales that CODELCO transfers to its Chilean account. The Copper Reserve Law has an adverse effect on our ability to retain earnings for purposes of capital expenditures. In July 2019, the Chilean Congress issued a new resolution to repeal the Copper Reserve Law. Under this resolution, CODELCO will remain subject to the 10.0% special export tax until 2028. Beginning in 2029, the tax will be reduced annually by 25.0% until 2032 when CODELCO will no longer be subject to such tax. As of April 1, 2020, CODELCO is paying the taxes owed pursuant to the Copper Reserve Law on a monthly basis, following a response measure from the Government of Chile to the economic effects of the COVID-19 pandemic.

The Income Tax Law contemplates thin capitalization rules which are applicable to CODELCO. As such, under article 41 F of the Income Tax Law, interest, premiums, remuneration for services, financial expenses and any other contractual surcharges under credit facilities which are paid or credited to an account or made available to "related entities" (as defined below) of CODELCO in respect of loans or liabilities, are subject to a 35.0% tax (applied to the debtor) if the debtor is considered to be in an "excessive indebtedness" situation by the year's end. The withholding tax applicable to the interest payments made by CODELCO (for example, the 4% Chilean Withholding Tax), can be used as a credit against such 35.0% sole tax. Indebtedness will be considered to be excessive when at the end of the corresponding fiscal year the "total annual indebtedness" granted by entities incorporated, domiciled or established in a foreign country or in Chile, either related or not, exceeds three times CODELCO's tax adjusted equity, calculated pursuant to the

provisions of the Income Tax Law. Only short-term debt (i.e., with maturity of less than 90 days, including extensions or renewals) with non-related parties may be excluded from the “total annual indebtedness” calculation. Under the “Excessive Indebtedness” rules, a lender or creditor will be deemed to be related to CODELCO if: (i) the beneficiary is incorporated, domiciled, resident or established in one of the territories or jurisdictions listed in section 41 H of the Income Tax Law; (ii) the beneficiary and CODELCO belong to the same corporate group or the beneficiary or debtor directly or indirectly, owns or participates in 10% or more of the capital of the profits of the other, or if the beneficiary and debtor have a common partner or shareholder which, directly or indirectly, owns or participates in 10% or more of the capital or the profits of one or the other, and that the beneficiary is incorporated, domiciled, resident or established outside Chile; (iii) the indebtedness is guaranteed directly or indirectly by a third-party related to CODELCO, in the terms of clauses (i) or (ii) above, or (iv) hereafter, provided that such third-party is domiciled or resident abroad and is a final beneficiary (*beneficiario final*) of the financing; (iv) the relevant financial instruments documenting such indebtedness are placed and acquired by independent entities and such indebtedness is subsequently acquired or transferred to a related entity according to subsections (i) to (iii) above; or (v) one party (i.e., beneficiary or CODELCO) conducts one or more operations with a third-party who, in turn, directly or indirectly conducts one or more similar or identical operations with a related party of such party, whatever the capacity in which said third party and the parties intervene in such operations. The debtor will be required to issue an affidavit in this regard in the form set forth by the Chilean tax authorities.

Since the 2012 fiscal year and pursuant to Law No. 20,026, as amended, CODELCO has been subject to a mining tax (*Impuesto Específico a la Actividad Minera*) on operating income generated during the operating year at progressive rates between 5.0% and 14.0%. During 2024, CODELCO contributed a total of U.S.\$1.5 billion (including income tax, and export tax payments and distributions) to the Chilean Treasury. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Distributions to the Chilean Treasury” and “Regulatory Framework.” The statutory rate of the mining tax for CODELCO was calculated at 5.0% for 2021 and 2022. However, no assurances can be made that such rate will remain in place.

On January 1, 2024, Law No. 21,591 came into effect (the “Mining Royalty Law”). Under this law, CODELCO is subject to this new mining royalty tax, which generally comprises an Ad Valorem component which applies a tax rate of 1% on annual copper sales, and a mining margin component which applies a progressive tax rate (i.e., 8%-26%) on the adjusted taxable mining operating margin within the range of 20% to 80%. In addition, a maximum potential tax burden of 46.5% is established on the mining entity’s operating profitability, measured as the adjusted pre-taxable mining operating income. This limit considers jointly the mining royalty tax, the corporate tax and final taxes. The royalty must be adjusted correspondingly if the sum of those taxes exceeds the maximum potential tax burden.

CODELCO’s corporate tax rate has gradually increased from 21.0% in 2014 to up to 25.0% since 2017. In addition, CODELCO is subject to a 40.0% tax on net earnings applicable to state-owned enterprises as specified by Decree Law 2,398, Art. 2.

The revenue generated by CODELCO transferred to the Chilean state for the year ended December 31, 2024 was U.S.\$1.5 billion, approximately, compared with U.S.\$1.4 billion, approximately for the year ended on December 31, 2023.

Constitutional amendments could be proposed that would allow private ownership of CODELCO.

CODELCO is 100% owned by the Chilean state and a constitutional amendment approved by the Chilean Congress would be required to allow private participation in CODELCO’s ownership. Although there has been no formal governmental action to permit private investment in CODELCO, no assurance can be given that such a constitutional amendment will not be proposed to the Chilean Congress in the future. See “Regulatory Framework—Overview of the Regulatory Regime.”

Risks Relating to Chile

CODELCO’s growth and profitability depend on political stability and economic activity in Chile and other emerging markets.

Almost all of CODELCO’s revenues are derived from its operations in Chile. Accordingly, CODELCO’s results

of operations and general financial condition depend in part on Chilean markets for labor and certain materials and equipment, and on factors relating to Chilean political stability generally. The Chilean economy has been influenced, to varying degrees, by economic conditions in other countries, especially the United States and China. Changes in Chilean economic growth in the future or developments affecting the Chilean economy, including consequences from a monetary policy normalization in the United States or a deceleration of economic growth in China or other developed nations to which Chile exports a majority of its goods, could materially and adversely affect CODELCO's business, financial condition or results of operations. CODELCO's results of operations and financial condition could also be affected by changes in economic or other policies of the Government of Chile, which has exercised and continues to exercise a substantial influence over many aspects of the private sector, or other political or economic developments in Chile.

The continuing trade war between the United States and China as well as the evolution of the Chinese economy and the impact that a slowdown would have on the price of copper may have an adverse effect on international trade. Persistent declines in the price of copper would impact negatively the Chilean economy.

CODELCO's business performance is subject to the effects of inflation and changes in the value of the peso.

Although Chilean inflation rates have been low during the last decade, Chile has in more recent years experienced higher levels of inflation, as a consequence of the COVID-19 pandemic on the global and local economy, and other geopolitical tensions such as the war in Ukraine and Middle East. High levels of inflation in Chile could adversely affect the Chilean economy and have an adverse effect on CODELCO's results of operations if the high inflation is not accompanied by a matching devaluation of the local currency. Although inflation levels have been decreasing since 2023 and have remained stable in 2024 and 2025, there can be no assurance that Chilean inflation will not revert to prior levels in the future. In addition, the measures taken by the Central Bank of Chile to control inflation have often included maintaining a tight monetary policy with high interest rates, thereby restricting the availability of credit and economic growth.

The following table shows the annual rate of inflation (as measured by changes in the Chilean consumer price index and as reported by the Chilean National Institute of Statistics (*Instituto Nacional de Estadísticas*):

Year	Inflation (CPI) (in percentages)
2020	3.0
2021	7.2
2022	12.8
2023	3.9
2024	4.5
2025	3.5

Source: Chilean National Institute of Statistics

A significant portion of CODELCO's operating costs is denominated in pesos and could therefore be significantly affected by the rate of inflation in Chile. If inflation in Chile were to increase without a corresponding depreciation of the peso, or if the value of the peso were to appreciate relative to the U.S. dollar without the peso experiencing corresponding deflation in Chile, the financial position and results of operations of CODELCO as well as the value of the notes could be materially and adversely affected. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources."

The variation of the U.S. dollar against the peso constitutes CODELCO's main foreign exchange rate exposure. The mismatch between assets and liabilities denominated in pesos and UF amounts to a net liability for the Company of U.S.\$2.2 billion (5.6% of the total amount of liabilities on a consolidated basis) as of December 31, 2024, and U.S.\$2.8 billion (7.7% of the total amount of liabilities on a consolidated basis) as of December 31, 2023. In order to cover this risk, CODELCO has, and currently is, engaged in hedging transactions to partially mitigate the effects of the volatility of foreign exchange rates. See "Risk Factors—Risks Relating to CODELCO's Operations—CODELCO engages in hedging activity from time to time, particularly with respect to its copper production, which may not be successful and may result in losses to CODELCO."

CODELCO's business is exposed to fluctuations in currency exchange rates. Any future changes in the value of the Chilean peso against the U.S. dollar will affect the U.S. dollar value of our securities. The Chilean peso has been subject to large depreciations and appreciations in the past and could be subject to significant fluctuations in the future. The main drivers of exchange rate volatility in past years were the significant fluctuations of commodity prices, general uncertainty and trade imbalances in the global markets, the impact of the COVID-19 pandemic, and political uncertainty surrounding Chile's new constitution and tax and pensions reforms.

Any downgrading of Chile's debt credit rating for domestic and international debt by international credit rating agencies may also affect our ratings, our business, our future financial performance, and the value of our securities, and any downgrading of our credit ratings could increase our cost of funding and adversely affect our interest margins and results of operations.

On September 26, 2025, Fitch Ratings ("Fitch") affirmed the credit rating of Chile's long-term foreign currency as A-, with stable outlook. In October 2025, Moody's maintained its A2 (stable) credit rating for Chile and S&P Global Ratings affirmed its outlook for Chile and maintained its A (stable) rating.

However, any adverse revisions to Chile's credit ratings for domestic and international debt by international rating agencies may adversely affect CODELCO's ratings, business, future financial performance, stockholders' equity and the value of CODELCO's securities.

In addition, credit ratings affect the cost and other terms upon which CODELCO is able to obtain funding. Rating agencies regularly evaluate CODELCO and their ratings of its debt are based on a number of factors, including our financial strength and conditions affecting the financial services industry generally. There can be no assurance that the rating agencies will maintain the current ratings or outlooks, and any downgrading in CODELCO's debt credit ratings would likely increase CODELCO's borrowing costs and could limit its access to capital markets and adversely affect its operating results and financial condition.

Risks Relating to the Offering

In case of a default under the notes, the ability of holders to attach property of CODELCO may be limited by Chilean law.

CODELCO's activities in Chile are dependent on concessions granted by the Chilean Ordinary Courts. These concessions are granted for indefinite terms in the case of exploitation concessions and for four-year periods in the case of exploration concessions (renewable with certain limitations). As a general matter, the Ordinary Courts, through legal proceedings brought by third parties (or by the Chilean Treasury in case of noncompliance with the obligation to pay annual fees), have the legal right to terminate or annul the concessions. Pursuant to the Chilean Mining Code, all mining concessions, as well as certain raw materials and other property or assets permanently dedicated to the exploration or extraction of minerals, cannot be subject to an order of attachment, except with respect to mortgages, where the debtor consents to the attachment in the relevant legal proceeding or when the debtor is a stock corporation. In addition, pursuant to the Constitution, mining concessions corresponding to mining deposits currently exploited by CODELCO can be subject neither to attachment nor to any act of disposition by CODELCO. As a result, the rights of holders to attach property of CODELCO in the event of a default under the notes would be limited by such provisions. See "Regulatory Framework—Mining Regulations."

CODELCO is permitted to incur additional indebtedness ranking equally to the notes or certain secured indebtedness.

The indenture governing the notes does not contain any restrictions on the amount of additional indebtedness which may be incurred by CODELCO or its subsidiaries; however, the notes contain restrictions on the ability of CODELCO and its subsidiaries to incur certain secured indebtedness as set forth in "Description of Notes—Limitations on Liens" below. As a result, CODELCO is permitted to issue additional unsecured debt that ranks on an equal basis with the notes. If CODELCO incurs any additional unsecured debt that ranks on an equal basis with the notes, the holders of that debt will be entitled to share with the holders of the notes in any proceeds distributed in connection with an insolvency, liquidation, reorganization, dissolution or other winding-up of CODELCO subject to satisfaction of certain debt limitations. This may have the effect of reducing the amount of proceeds paid to the holder of the notes under such

an event. The indenture does not require CODELCO to make payments under the notes ratably with payments being made under any other obligations.

We may not be able to generate sufficient cash flows from operating activities to fund our operations, service our indebtedness and pay our liabilities, including the notes, and may be forced to take other actions to make such payments, which may not be successful.

Our inability to generate sufficient cash flows to satisfy our liabilities and debt obligations, or to refinance our indebtedness on commercially reasonable terms or at all, would materially and adversely affect our business, financial position, and results of operations and our ability to satisfy our obligations under the notes.

Our ability to fund and honor our liabilities and service our indebtedness, including the notes, depends on our ability to generate sufficient cash flows. This, in turn, depends on our financial condition and operating performance, which are subject to prevailing economic and competitive conditions and to financial, business, legislative, regulatory and other factors beyond our control. We might not be able to maintain a level of cash flows from operating activities, or generate sufficient profits, to permit us to pay the principal, premium, if any, and interest on our indebtedness, including the notes.

In addition, we conduct part of our operations through our subsidiaries, however they will not be guarantors of the notes or our other indebtedness. Our subsidiaries have no obligation to pay amounts due on the notes or our other indebtedness or to make funds available for that purpose.

If our cash flows and capital resources are insufficient to fund our liabilities or debt service obligations, we could face substantial liquidity problems and could be forced to reduce or delay investments and capital expenditures or to dispose of material assets or operations, seek additional debt or restructure or refinance our indebtedness, including the notes. We may not be able to effect any such alternative measures on commercially reasonable terms or at all and, even if successful, those alternative actions may not allow us to meet our scheduled debt service obligations. The notes contain restrictions on the ability of CODELCO to incur certain secured indebtedness as set forth in “Description of Notes—Limitations on Liens” below. Because of these restrictions, we may not be able to raise additional indebtedness and to obtain proceeds in an amount sufficient to meet any debt service obligations then due.

If certain changes to tax law were to occur, CODELCO would have the option to redeem the notes of an affected series. CODELCO may also redeem the notes before maturity at its option at the prices set forth in this offering memorandum.

Under current Chilean law and regulations, payments of interest to holders of the notes that are not residents of Chile for purposes of Chilean taxation generally will be subject to Chilean withholding tax at a rate of 4.0%. Subject to certain exceptions, CODELCO will pay Additional Amounts (as defined in “Description of Notes—Payment of Additional Amounts”) so that the amount received by the holder after Chilean withholding tax will equal the amount that would have been received if no such taxes had been applicable. Each series of notes is redeemable at the option of CODELCO in whole, but not in part, at any time, at the principal amount thereof plus accrued and unpaid interest and any Additional Amounts due thereon if, as a result of changes in the laws or regulations on or after the date of this offering memorandum affecting Chilean taxation, CODELCO becomes obligated to pay Additional Amounts with respect to interest on such notes in respect of withholding or deduction of Chilean tax at a rate in excess of 4.0%. CODELCO is unable to determine whether such an increase in the withholding tax rate will ultimately be presented to or enacted by the Chilean Congress; however, if such an increase were enacted, the notes would be redeemable at the option of CODELCO. See “Description of Notes—Redemption—Tax Redemption” and “Taxation—Chilean Taxation.”

We may redeem the 2037 notes at our option, in whole or in part, at any time and from time to time prior to the date that is three months prior to the maturity date of the 2037 notes, at a redemption price equal to the greater of 100% of the outstanding principal amount of the 2037 notes to be redeemed and a redemption price based on a “make-whole” premium, *plus* accrued and unpaid interest to the date of redemption. We may redeem the 2053 notes at our option, in whole or in part, at any time and from time to time prior to the date that is six months prior to the maturity date of the 2053 notes, at a redemption price equal to the greater of 100% of the outstanding principal amount of the 2053 notes to be redeemed and a redemption price based on a “make-whole” premium, *plus* accrued and unpaid interest to the date of redemption. In addition, we may redeem the 2037 notes at our option, in whole or in part, at any time and from time to

time, beginning on the date that is three months prior to the maturity date of the 2037 notes, at a redemption price equal to 100% of the outstanding principal amount of the 2037 notes to be redeemed, *plus* accrued and unpaid interest to the date of redemption. We may redeem the 2053 notes at our option, in whole or in part, at any time and from time to time, beginning on the date that is six months prior to the maturity date of the 2053 notes, at a redemption price equal to 100% of the outstanding principal amount of the 2053 notes to be redeemed, *plus* accrued and unpaid interest to the date of redemption. See “Description of Notes—Redemption—Tax Redemption” and “—Optional Redemption.”

An investor may not be able to reinvest the redemption proceeds in other securities with interest rates similar to that applied to the notes redeemed.

Our obligations under the notes will be subordinated to certain statutory liabilities.

Under Chilean bankruptcy law, the obligations under the notes are subordinated to certain statutory preferences. In the event of a liquidation, such statutory preferences, including claims for salaries, wages, secured obligations, social security, taxes and court fees and expenses, will have preference over any other claims, including claims by any investor in respect of the notes. The aforementioned statutory preferences have not been included in a legal order. In addition, the liabilities of our subsidiaries are structurally senior to the notes.

In addition, the Issuer’s creditors may hold negotiable instruments or other instruments governed by local law that grant rights to attach the assets of the Issuer at the inception of judicial proceedings in the relevant jurisdiction, which attachment is likely to result in priorities benefitting those creditors when compared to the rights of holders of the notes.

The market value of the notes may depend on economic conditions in other countries over which CODELCO has no control.

The market value of securities of Chilean companies, including CODELCO, is affected to varying degrees by economic and market conditions in other emerging market countries. Although economic conditions in such countries may differ significantly from economic conditions in Chile, investors’ reactions to developments in any of these other countries may have an adverse effect on the market value of securities of Chilean issuers. International financial markets have in recent years experienced volatility due to a combination of international political and economic events. There can be no assurance that the deterioration of emerging market economies or other events in or outside of the region will not adversely affect the market value of the notes.

The perception of higher risk in other countries, especially in Latin American or other emerging economies, may adversely affect the Chilean economy, CODELCO’s business and the market price of Chilean securities issued by Chilean issuers, including the notes.

Emerging markets like Chile are subject to greater risks than more developed markets, and financial turmoil in any emerging market could disrupt business in Chile and adversely affect the price of the notes. Moreover, financial turmoil in any important emerging market country may adversely affect prices in stock markets and prices for debt securities of issuers in other emerging market countries as investors move their money to more stable, developed markets. An increase in the perceived risks associated with investing in Latin American or other emerging markets could dampen capital flows to Chile and adversely affect the Chilean economy in general, and the interest of investors in securities issued by Chilean issuers. CODELCO cannot assure you that the value of the notes will not be negatively affected by events in Latin American or other emerging markets or the global economy in general.

The transferability of the notes may be limited by the absence of an active trading market and restrictions on transfer under applicable securities law.

The notes have not been, registered under the Securities Act or any state securities laws. CODELCO does not intend to list the notes on any national securities exchange or to seek admission of the notes for trading on any securities exchange in the United States; however, the notes are listed on the Luxembourg Stock Exchange. Furthermore, CODELCO does not intend to exchange the notes for notes that are registered under the Securities Act. The initial purchasers are not obligated to make a market in the notes. No assurance can be given about the liquidity of any markets that may develop for the notes, the ability of holders to sell the notes or the prices at which the notes could be sold. Future

trading prices of the notes will depend on many factors, including prevailing interest rates, CODELCO's operating results and the market for similar securities. There can be no assurance that an active trading market for the notes will be maintained or that holders of the notes will be able to transfer or resell the notes without registration under applicable securities laws.

We cannot assure you that our credit rating, or the credit ratings for a series of notes, will not be lowered, suspended or withdrawn by the rating agencies.

Our credit rating is subject to change in the future, and the credit ratings of the notes may change after issuance. Such ratings do not address all material risks relating to an investment in CODELCO, or its notes, but rather reflect only the views of the rating agencies at the time the ratings are issued. An explanation of the significance of such ratings may be obtained from the rating agencies. CODELCO cannot assure you that such credit rating will remain in effect for any given period of time or that such ratings will not be lowered, suspended or withdrawn entirely by the rating agencies, if, in the judgment of such rating agencies, circumstances so warrant. Our credit rating is an important part of maintaining our liquidity. Credit ratings are not a recommendation to buy, sell or hold any security. Each agency's rating should be evaluated independently of any other agency's rating, as each agency has different evaluation criteria. Any lowering, suspension or withdrawal of such ratings may potentially increase our borrowing costs, and may have an adverse effect on our financial results and business operations and the market price and marketability of the notes.

Payments claimed in Chile on the notes, pursuant to a judgment or otherwise, may be in pesos.

In the event that proceedings are brought against CODELCO in Chile, either to enforce a judgment or as a result of an original action brought in Chile, CODELCO would not be required to discharge those obligations in a currency other than Chilean currency. Such obligation may be satisfied in Chilean currency at the exchange rate in effect on the date on which payments are made. As a result, holders of the notes may suffer a U.S. dollar shortfall if judgment in Chile is obtained.

USE OF PROCEEDS

The estimated total net proceeds from the offering of the notes are U.S.\$1,242,307,225 excluding accrued interest and after deducting commissions to the initial purchasers, payment of the Chilean stamp tax of U.S.\$10,000,000 and payment of legal fees and all other expenses related to the offering. CODELCO intends to use the net proceeds from the sale of the notes offered hereby for general corporate purposes. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources” and “Capitalization.”

CAPITALIZATION

The following table sets forth the capitalization of CODELCO as of September 30, 2025 (i) on an actual historical basis, and (ii) as adjusted to give effect to the offering of the notes and application of the estimated net proceeds from the offering of the notes as described under “Use of Proceeds.” This table is qualified in its entirety by reference to, and should be read together with, CODELCO’s Unaudited Interim Consolidated Financial Statements, including the notes thereto, included elsewhere in this offering memorandum.

 - (4) Net of deferred financing costs, commissions to the initial purchasers and payment of legal fees and all other expenses related to the offering.
 - (5) CODELCO has no convertible debt securities, warrants exercisable for debt securities or other similar securities outstanding.

EXCHANGE RATES

As a general matter, prior to 1989, Chilean law permitted the purchase and sale of foreign exchange only in those cases explicitly authorized by the Central Bank of Chile. Law No. 18,840, the Central Bank of Chile Act, liberalized the rules that govern the purchase and sale of foreign currency. The act empowers the Central Bank to determine that certain purchases and sales of foreign currency specified by law must be carried out in the Formal Exchange Market (*Mercado Cambiario Formal*). The Formal Exchange Market is formed by the banks and other entities so authorized by the Central Bank. The exchange rate of the transactions conducted in the Formal Exchange Market is freely agreed upon by the parties thereto. For more information, see “Foreign Investment and Exchange Controls in Chile.” The observed exchange rate for any given day equals the average exchange rate of the transactions conducted in the Formal Exchange Market on the immediately preceding banking day, as certified by the Central Bank (the “Observed Exchange Rate”). Even though the Central Bank is authorized to carry out its transactions at the rates it sets, it generally uses the spot rate for its transactions. Authorized transactions by other banks are generally carried out at the spot rate. Purchases and sales of foreign exchange, which may be effected outside the Formal Exchange Market, can be carried out in the Informal Exchange Market (*Mercado Cambiario Informal*). There are no limits imposed on the extent to which the exchange rate in the Informal Exchange Market may fluctuate above or below the Observed Exchange Rate.

The following table sets forth, for the periods indicated, the high, low, average and period-end Observed Exchange Rate for U.S. dollars for each year beginning in 2016 as reported by the Central Bank of Chile. The Federal Reserve Bank of New York does not report a noon buying rate for Chilean pesos.

**Observed Exchange Rates
(Ch\$ per U.S.\$)**

Period	High⁽¹⁾	Low⁽¹⁾	Average⁽²⁾	Period-End⁽³⁾

(1) Rates shown are the actual low and high (as applicable) on a daily basis for periods indicated.

(2) The average annual rates represent the average of average monthly rates for the periods indicated. The average monthly rates represent the average of the rates on each day for the periods indicated.

(3) Period ends on January 1 of the following year, unless otherwise indicated.

(4) Period ends on January 26, 2026.

Source: Central Bank of Chile.

The Observed Exchange Rate reported by the Central Bank of Chile for January 26, 2026 was Ch\$870.71 = U.S.\$1.00.

SELECTED CONSOLIDATED FINANCIAL DATA

The following tables present CODELCO's summary consolidated financial data and other data as of and for each of the periods indicated. This data (other than the average LME copper prices) is derived from, and should be read together with, CODELCO's Consolidated Financial Statements, including the notes thereto, included elsewhere in this offering memorandum. This data should also be read together with "Management's Discussion and Analysis of Financial Condition and Results of Operations." The Consolidated Financial Statements and other financial information included in this offering memorandum are presented in accordance with IFRS. The unaudited results of operations for the nine-month periods ended September 30, 2024 and 2025 are not necessarily indicative of the results to be expected for the full year or any other period.

- (1) “Cost of sales” for any period includes direct and indirect costs, depreciation and amortization associated with the production of copper and byproducts, as well as purchase costs of third-party copper, sold by CODELCO in that period.
- (2) “Other expenses” is comprised principally of costs related to the 10% special export tax paid by the Company, retirement plan and severance indemnities and fixed indirect costs below production level. See note 24.b of the Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”
- (3) CODELCO is subject to a mining tax on operating income at progressive rates of between 5% and 14%. The tax is imposed on operating income generated during the operating year. The statutory rate of the mining tax for CODELCO was 5.0% for each year between 2017 and 2019. In addition, CODELCO is subject to the corporate income tax rate of 24% in 2016 and 25% since 2017 (pursuant to the tax reform in 2014) and a 40% tax on net earnings applicable to state-owned enterprises as specified by Decree Law No. 2,398, Article 2. See “Taxation—Chilean Taxation” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Distributions to the Chilean Treasury” for additional information. See note 5 of the Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Distributions to the Chilean Treasury” and “Regulatory Framework.” See also “Risk Factors—Risks Relating to CODELCO’s Relationship with the Government of Chile—CODELCO is subject to special taxes” for information regarding the mining tax rate effective in 2016 and information regarding the new Mining Royalty Law, effective as of January 1, 2024.
- (4) See note 8 of the Consolidated Financial Statements and the Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”
- (5) All other assets includes other non-current financial assets; other non-current non-financial assets; accounts receivable from related parties, non-current; non-current inventories; intangible assets other than goodwill; investment property; non-current tax assets and deferred tax assets.
- (6) For the purpose of calculating CODELCO’s ratio of earnings to fixed charges (adjusted), (i) “earnings” consist of Adjusted EBIT and (ii) “fixed charges” consist of finance cost. The ratio of earnings to fixed charges (adjusted) is calculated by dividing Adjusted EBIT by finance cost. Adjusted EBIT is calculated by adding finance cost, impairment charges net of reversals (as defined in note (1) of the following table) and income tax expense to profit (loss) for the period. Adjusted EBIT, while not a financial performance measure under IFRS, is presented as an indicator of funds available to service debt. Adjusted EBIT and Adjusted EBITDA data are included in this offering memorandum because such data are used by investors to assess: (i) the operating trends and financial performance of the Company and (ii) the ability of the Company to (a) service its existing debt, (b) incur new debt and (c) fund its capital expenditures. The Company believes that Adjusted EBIT, while providing useful information, should not be considered in isolation as a substitute for profit for the period, as an indicator of operating performance, or as an alternative to cash flow as a measure of liquidity. Additionally, the Company’s calculation of Adjusted EBIT may be different than the calculation used by other companies and therefore, comparability may be affected. See notes 8, 22 and 24 of the Consolidated Financial Statements and Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges.
- (7) Average price on the LME for Grade A cathode copper during period.
- (8) Adjusted EBITDA is calculated by adding finance cost, income tax expense, depreciation and amortization of assets plus export taxes and impairment charges net of reversals (as defined in note (1) of the following table) to profit (loss) for the period. Adjusted EBITDA is presented because it is a widely accepted indicator of funds available to service debt, although it is not an IFRS-based measure of liquidity or performance. Adjusted EBIT and Adjusted EBITDA data are included in this offering memorandum because such data are used by investors to assess: (i) the operating trends and financial performance of the Company and (ii) the ability of the Company to (a) service its existing debt, (b) incur new debt and (c) fund its capital expenditures. The Company believes that Adjusted EBITDA, while providing useful information, should not be considered in isolation or as a substitute for profit as an indicator of operating performance, or as an alternative to cash flow as a measure of liquidity. Additionally, the Company’s calculation of Adjusted EBITDA may be different than the calculation used by other companies and therefore, comparability may be affected. See notes 8, 22 and 24 of the Consolidated Financial Statements and Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges.

- (9) The ratio of debt to Adjusted EBITDA is calculated by dividing debt by Adjusted EBITDA. Debt is defined as loans from financial institutions plus bonds issued.
- (10) Ratio of debt to LTM Adjusted EBITDA is calculated by dividing debt by the last twelve months of Adjusted EBITDA. Debt is defined as loans from financial institutions plus bonds issued.
- (11) Adjusted EBITDA coverage ratio is the ratio of Adjusted EBITDA to finance cost net of finance income. See note 9 above for further information about Adjusted EBITDA and notes 21 and 22 of the Consolidated Financial Statements and Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges.
- (12) The amounts for property, plant, and equipment in the table above include property, plant and equipment and right-of-use assets.

The following table shows CODELCO’s earnings, Adjusted EBIT, ratio of earnings to fixed charges (adjusted), Adjusted EBITDA and reconciliation of Adjusted EBIT and Adjusted EBITDA for the periods indicated.

	For the year ended December 31,			For the nine-month period ended September 30,	
	2022	2023	2024	2024	2025
	(in thousands of U.S.\$)				
Profit (loss) for the period	361,571	(591,239)	244,716	227,412	157,076
Income tax expense	1,133,670	(165,916)	545,738	384,832	449,852
Finance costs	569,060	778,910	910,411	686,020	698,377

Adjusted EBITDA	5,656,440	4,184,275	5,439,023	4,021,539	4,158,828

- (1) Impairments include charges and reversals related to charges of investment projects, research projects and investment in associates and joint ventures and exclude impairment charges related to definitely-lived tangible assets which show indicators of impairment under International Accounting Standard No. 36. See notes 10, and 24 of the Consolidated Financial Statements and Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges.
- (2) Adjusted EBIT is calculated by adding finance cost, impairment charges net of reversals (as defined in note (1) above) and income tax expense to profit (loss) for the period. Adjusted EBIT, while not a financial performance measure under IFRS, is presented as an indicator of funds available to service debt. Adjusted EBIT and Adjusted EBITDA data are included in this offering memorandum because such data are used by investors to assess: (i) the operating trends and financial performance of the Company and (ii) the ability of the Company to (a) service its existing debt, (b) incur new debt and (c) fund its capital expenditures. The Company believes that Adjusted EBIT, while providing useful information, should not be considered in isolation as a substitute for profit for the period, as an indicator of operating performance, or as an alternative to cash flow as a measure of liquidity. Additionally, the Company’s calculation of Adjusted EBIT may be different than the calculation used by other companies and therefore, comparability may be affected. See notes 8, 21 and 22 of the Consolidated Financial Statements and Unaudited Interim Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further information about impairment charges and reversals and other non-cash charges.
- (3) For the purpose of calculating CODELCO’s ratio of earnings to fixed charges (adjusted), (i) “earnings” consist of Adjusted EBIT and (ii) “fixed charges” consist of finance cost. The ratio of earnings to fixed charges (adjusted) is calculated by dividing Adjusted EBIT by finance cost.
- (4) See note 22 of the Consolidated Financial Statements and the Unaudited Interim Consolidated Financial Statements.
- (5) On August 10, 2023, Law No. 21,591 on Mining Royalty was published in the Official Gazette, effective as of January 1, 2024. The law establishes that the new mining royalty tax is comprised of two components: The Ad Valorem component and the mining margin component. The Ad Valorem component corresponds to 1% of copper sales and applies to miners whose copper sales represent more than 50% of total sales. The mining margin component applies a rate of between 8% and 26% on mining operating margins in the range of 20% to 80%.
- (6) The Copper Reserve Law currently requires the payment of a 10% special export tax on receivables of the sales proceeds that CODELCO receives and transfers to Chile from the export of copper and related by products produced by CODELCO. For further information, see “Risk Factors—Risks Relating to CODELCO’s Relationship with the Government of Chile—CODELCO is subject to special taxes.”

The following table shows CODELCO’s debt and ratio of debt to Adjusted EBITDA and Adjusted EBITDA coverage ratio for the periods indicated.

	As of and for the year ended December 31,			As of and for the nine-month period ended September 30,	
	2022	2023	2024	2024	2025
	(in thousands of U.S.\$, except ratios)				
Debt.....	16,958,377	20,198,102	22,722,563	22,233,216	24,553,614
Ratio of debt to Adjusted EBITDA.....	3.0	4.8	4.2	5.5	5.9
Finance income.....	47,245	99,051	124,856	104,935	49,583
Adjusted EBITDA coverage ratio ⁽¹⁾	10.8	6.2	6.9	6.9	6.4

(1) Adjusted EBITDA coverage ratio is the ratio of Adjusted EBITDA to finance cost net of finance income.

SELECTED OPERATING DATA

The following table sets forth a summary of the production and sales data of CODELCO for each of the years ended December 31, 2022, 2023 and 2024 and for the nine-month periods ended September 30, 2024 and 2025. For more information regarding such data, see “Business and Properties.”

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with CODELCO's Consolidated Financial Statements, including the notes thereto, included elsewhere in this offering memorandum, as well as the data set forth in "Selected Consolidated Financial Data." Except as otherwise disclosed herein or indicated, the Consolidated Financial Statements and other financial information included in this offering memorandum are presented in accordance with IFRS.

Overview

CODELCO is the world's largest copper producer and one of the largest companies in Chile in terms of revenues. CODELCO engages primarily in the exploration, development and extraction of ore-bearing copper and byproducts, the processing of ore into refined copper and the international sale of refined copper and byproducts. In 2024, CODELCO derived 92.1% of its total sales from copper and 7.96% of its total sales from byproducts of its copper production, primarily molybdenum, anodic slimes, and sulfuric acid.

Since its inception in 1976, CODELCO has contributed approximately U.S.\$158.5 billion (in 2024 currency) to the Chilean Treasury. Approximately 63.0% of this amount was generated in the last 20 years, representing 7.9% of the revenues of the Government of Chile. In 2024, CODELCO accounted for 14.5% of all Chilean exports.

CODELCO's financial performance is significantly affected by the market prices of copper. As with prices for other commodities, copper prices have historically been subject to wide fluctuations. LME copper prices averaged 414.9 cents per pound in 2024 compared to 384.5 cents per pound in 2023 and 399.0 cents per pound in 2022. Copper prices averaged 433.5 cents per pound in the first nine months of 2025, compared to 414.2 cents per pound in the first nine months of 2024. Prices were impacted by slower growth in China during 2022 and 2023, which weighed on global demand. In 2024, prices recovered, supported by supply disruptions and operational challenges among major copper producers. In 2025, prices have remained volatile due to persistent supply constraints, rising geopolitical uncertainty, and renewed trade tensions between the United States and China, including uncertainty surrounding potential tariffs. For more information, see "Overview of the Copper Market."

CODELCO continues to focus on controlling and limiting production cost increases. For many years, CODELCO was within the first or second quartiles in the industry with respect to costs. This position was primarily attributable to the quality of its ore bodies, its economies of scale and the experience of its workforce and management.

Currently, CODELCO is in the fourth quartile of the industry's cost curve. The Company intends to make every effort, through investment and management, to be within the first or second quartiles of the industry's cost curve in the long-term.

In 2024, CODELCO's total costs and expenses decreased by 6.1 cents per pound (-1.8%) to 329.0 cents per pound, compared to 335.1 cents per pound in 2023 and 310.9 cents per pound in 2022, mainly due to higher copper production, lower operating costs, and the foreign exchange rate depreciation of the Chilean peso against the U.S. dollar. For the first nine months of 2025, CODELCO's total costs and expenses increased by 22.1 cents per pound (6.4%) to 368.5 cents per pound, compared to 346.4 cents per pound for the same period in 2024, mainly due to higher operational costs, as well as maintenance materials, and particularly equipment rentals associated with efforts to accelerate mine development, increased activity at the Radomiro Tomic Division and at Salvador's open-pit mine—which was halted last year during its ramp-up phase. The increase was also driven by the appreciation of the Chilean peso against the U.S. dollar. These increases were partially offset by higher byproduct revenues increased production. In 2024, CODELCO's total costs and expenses decreased to U.S.\$10.4 billion, compared to U.S.\$10.7 billion in 2023, and to U.S.\$9.8 billion in 2022. This reduction was primarily attributed to lower operational costs in local currency due to the depreciation of the Chilean peso against the U.S. dollar and reduced input costs (mainly energy, spare parts, and materials). However, these gains were partially offset by higher operating costs due to equipment rentals for mine development recovery and plant maintenance.

For the first nine months of 2025, CODELCO's cash cost of production was 214.0 cents per pound, compared to 205.0 cents per pound for the same period in 2024 primarily due to higher operational costs, particularly equipment rentals associated with efforts to accelerate mine development, as well as maintenance materials, and increased activity at the Radomiro Tomic and the Salvador divisions. This was partially offset by higher byproduct revenues and increased production. In 2024, CODELCO's total cash cost was U.S.\$5.7 billion, compared to U.S.\$5.8 billion in 2023 and U.S.\$5.2 billion in 2022. For the first nine months of 2025, CODELCO's total cash cost was U.S.\$4.4 billion, as compared to U.S.\$4.1 billion for the same period in 2024, including certain cash cost incurred at the corporate level.

CODELCO conducts hedging operations from time to time to reduce the risks associated with copper price volatility. CODELCO also periodically enters into futures contracts with respect to certain sales of its own copper. Since 2005, CODELCO has occasionally hedged certain future copper delivery commitments and production in order to manage the risks associated with copper price volatility. As of September 30, 2025, CODELCO had U.S.\$139.0 million in production hedging commitments. For more information, see note 30 to the Unaudited Interim Consolidated Financial Statements.

CODELCO has hedged a portion of its exchange rate and interest rate exposure by entering into forward exchange contracts to hedge against fluctuations in the UF to U.S. dollar exchange rate for its outstanding UF-denominated bonds. See "Business and Properties—Marketing—Pricing and Hedging" and "Risk Factors—Risks Relating to CODELCO's Operations—CODELCO engages in hedging activity from time to time, particularly with respect to its copper production, which may not be successful and may result in losses to CODELCO." See also notes 27 and 28 to the Consolidated Financial Statements and note 29 to the Unaudited Interim Consolidated Financial Statements for further information on CODELCO's hedging activity.

Sale prices for CODELCO's products are established principally by reference to prices quoted on the LME and the COMEX in the case of copper, or prices published in "Metals Weekly" in the case of molybdenum. The substantial majority of copper produced by CODELCO is sold under annual contracts to customers who have long-term relationships with CODELCO. Pricing under such contracts is based on prevailing average copper prices for a quotation period, generally for the month following the scheduled month of shipment. Revenue under such contracts is recorded at provisional prices determined at the time of shipment. Usually, an adjustment is then made after delivery of the copper, based on the pricing terms contained in the applicable contract.

CODELCO's financial performance is also significantly affected by the relationship of copper prices to production costs. In 2024, CODELCO's annual production, including its investment in El Abra, Anglo American Sur and Quebrada Blanca, was 1.44 million metric tons from 1.42 million metric tons in 2023 and 1.55 million metric tons in 2022. The production in 2024 was higher mainly due to higher production at Chuquicamata, El Teniente and Andina, partially offset by the lower production at the Radomiro Tomic, Ministro Hales and Salvador Divisions.

In 2024, each U.S.\$0.01 change in CODELCO's average annual copper price per pound caused a variation in revenue of approximately U.S.\$31.8 million. CODELCO expects a gradual recovery of production as structural projects start to ramp up. CODELCO continues to develop its project pipeline with the goal of increasing its production marginally in the long-term, by overcoming certain non-permanent disruptions, such as inclement weather and other natural events. See "Risk Factors—Risks Relating to CODELCO's Operations—Earthquake damage to CODELCO's properties and operations could negatively affect CODELCO's results."

CODELCO continues to develop and refine its mine management practices and programs to limit and reduce its costs. These include the following: (i) improved deposit identification and mining techniques; (ii) the implementation of early retirement plans and workforce reduction programs; (iii) an investment in human capital and continuing to attract and retain a world-class management team and professionals of the highest caliber; (iv) improved utilization of equipment and inputs used in the processes of copper production to increase productivity and efficiency; and (v) the development of key projects, specifically the new mine level at El Teniente, the Andina plant reallocation, the Chuquicamata underground mine projects and the Rajo Inca project at Salvador Division. Production cash costs are influenced by mining and production practices, as well as the type of ore from which copper is produced, production levels and market prices of byproducts, and foreign exchange rates.

In 2024, CODELCO invested U.S.\$3.2 billion mainly in expansion and development projects, including the new El Teniente mine level, the Chuquicamata underground mine expansion and the execution of the Inca Pit project. See “Business and Properties.”

In addition to selling its current production of copper, CODELCO may sell copper in its inventory from past production cycles to meet the demand of its customers. CODELCO also purchases copper from third parties in the spot market for resale. The Company makes these purchases and sales of third-party copper to meet the requirements under sales contracts and to participate in the spot market for copper based on its evaluation of market conditions. CODELCO has no long-term commitments regarding third-party copper purchases or sales other than pursuant to the joint venture with China Minmetals Non-Ferrous Metals Co. Ltd. (“Minmetals”), a Chinese state-owned metals company. This joint venture ended in April 2016 and the related selling commitment ended in February 2021. For more information on Minmetals, see “Business and Properties—Associations, Joint Ventures and Partnerships.” CODELCO also engages in copper transactions with its affiliates at market terms. In addition, CODELCO purchases copper from its affiliates for further processing and resale.

The following tables set forth, for the periods indicated, the components of CODELCO’s consolidated financial statements of operations expressed as a percentage of revenue under IFRS. These tables are qualified in their entirety by reference to, and should be read together with, CODELCO’s Consolidated Financial Statements, including the notes thereto, included elsewhere in this offering memorandum:

	Year ended December 31,			For the nine-month period ended September 30,	
	2022	2023	2024	2024	2025
Revenue	100.0	100.0	100	100.0	100.0

CODELCO’s Cash Cost of Production (per pound)	165.4¢	203.1¢	199.1¢	205.0¢	214.0¢

(1) The average metal price is the weighted average of prices actually paid to CODELCO for its product mix.

(2) Includes wire rod sales and cathodes from CODELCO's subsidiaries.

Results of Operations for the Nine-Month Periods Ended September 30, 2024 and 2025

The following table sets forth CODELCO's summarized results of operations for the nine-month periods ended September 30, 2024 and 2025:

	For the nine-month period ended September 30,		% Change 2024/2025
	2024	2025	
	(in thousands of U.S.\$)		
Revenue	12,314,933	13,229,007	7.4%
Cost of sales	(9,231,435)	(9,797,755)	6.1%
Gross profit	3,083,498	3,431,252	11.3%
	62,802		
Other income		34,265	(45.4)%
	(370,181)		
Administrative expenses		(393,155)	6.2%
	(1,752,316)		
Other expenses, by function		(1,770,368)	1.0%
	(686,020)		
Finance costs		(698,377)	1.8%
Share of profit of associates and joint ventures accounted for using equity method	84,429	84,746	0.4%
Foreign exchange differences	69,104	(140,257)	(303.0)%
Profit (loss) before income tax	612,244	606,928	(0.9)%
Income tax expense	(384,832)	(449,852)	16.9%
Profit (loss) for the period	227,412	157,076	(30.9)%
Profit (loss) attributable to owners of parent	213,170	145,656	(31.7)%
Profit (loss) attributable to non-controlling interests	14,242	11,420	(19.8)%

Revenue. The following table sets forth CODELCO's revenue for the nine-month periods ended September 30, 2024 and 2025:

	For the nine-month period ended September 30,		% Change 2025
	2024	2025	
	(in thousands of U.S.\$)		
Revenue	12,314,933	13,229,007	7.4
Sales of CODELCO's own copper	10,350,070	11,259,017	8.8
Sales of third-party copper	1,024,111	1,053,337	2.9
Sales of byproducts and other	940,752	916,653	(2.6)

Revenues totaled U.S.\$13.2 billion in the first nine months of 2025, representing a 7.4% increase compared to U.S.\$12.3 billion during the same period in 2024. This growth was primarily driven by a 3.5% increase in realized copper prices, which averaged 438.9 cents per pound in the first nine months of 2025, up from 423.0 cents per pound during the same period in 2024. The positive impact of higher prices was accompanied by an increase in copper and molybdenum sales volumes. This increase in revenues drove a slight gross margin improvement, rising to 25.9% in the first nine months of 2025, from 25.0% in the same period of the previous year. Third-party copper sales totaled U.S.\$1,053.0 million in the first nine months of 2025, compared to U.S.\$1,024.0 million for the same period in 2024, attributable to an increase of copper price. In general, changes in the volume of third-party copper sales are dependent upon CODELCO's need to meet requirements under sales contracts and, to a lesser extent, purchasing copper under spot market terms if CODELCO's own production is insufficient to cover the quantities that it has agreed to supply its customers.

Sales of byproducts and other decreased 2.6% to U.S.\$916.7 million in the first nine months of 2025, compared to U.S.\$940.8 million for the same period in 2024. This decrease was primarily due to losses in revenue from the future market, which was partially offset by higher sales of molybdenum and other by-products.

Cost of sales. CODELCO's cost of sales in any period includes both the mining and production costs of its own copper and byproducts and the purchase costs of copper, as well as gold, silver and other byproducts, at market prices from third parties and processed and sold by CODELCO in that period. The following table sets forth CODELCO's total cost of sales for the nine-month periods ended September 30, 2024 and 2025:

	For the nine-month period ended September 30,		% Change 2025
	2024	2025	
	(in thousands of U.S.\$)		
Cost of sales	(9,231,435)	(9,797,755)	6.1
Cost of CODELCO's own copper	(7,705,132)	(8,230,237)	6.8
Cost of third-party sales	(1,010,565)	(1,039,160)	2.8
Cost of byproducts and other	(515,738)	(528,358)	2.4

CODELCO's cost of sales of its own copper increased by 6.1% to U.S.\$9.80 billion during the first nine months of 2025, compared to U.S.\$9.23 billion for the same period in 2024. This increase is primarily attributable to higher operating costs during the period and effect of the appreciation of the Chilean peso against the U.S. dollar that contributed to the overall increase in costs.

The cost of copper purchased from third parties increased by 2.8% in the first nine months of 2025 to U.S.\$1,039.2 million, compared to U.S.\$1,010.6 million for the same period in 2024. The increase was mainly caused by a higher price of third-party copper.

The cost of byproducts and other increased by 2.4% to U.S.\$528.4 million in the first nine months of 2025, compared to U.S.\$515.7 million for the same period in 2024, primarily due to higher operational costs, and an appreciation of the Chilean peso against the U.S. dollar that impacted salaries and contracts, contributing to an overall increase in cost. Depreciation and amortization expenses remained relatively flat at U.S.\$1,714.0 million during the first nine months of 2025, compared to U.S.\$1,653.0 million for the same period in 2024.

Gross profit. Gross profit amounted to U.S.\$3.4 billion for the first nine months of 2025, compared to U.S.\$3.1 billion for the same period in 2024. This 11.3% increase was primarily attributable to the increase of 7.4% in revenue, led by the positive impact of higher copper prices and an increase in copper and molybdenum sales volumes.

Other income. The largest components of other income are other miscellaneous income, miscellaneous sales, delegated administration and penalties to suppliers. Other income decreased 45.4% to U.S.\$34.3 million in the first nine months of 2025, compared to U.S.\$62.8 million for the same period in 2024. This decline was primarily explained by the absence of insurance compensation for accidents. In 2024, other income included the recovery of U.S.\$39.0 million from the insurance settlement of the dome incident at Chuquicamata Division.

Administrative expenses. Administrative expenses increased to U.S.\$393.2 million (3.0% of total revenues) during the first nine months of 2025, compared to U.S.\$370.2 million (3.0% of total revenues) for the same period in 2024. This slight increase was primarily attributable to increases in short-term benefits to employees, raw materials and materials, consumables and others.

Other expenses, by function. Other expenses, by function amounted to U.S.\$1.8 billion (13.4% of total revenues) during the first nine months of 2024, compared to U.S.\$1.8 billion (14.2% of total revenues) for the same period in 2024. This slight increase was primarily attributed to higher payment due to copper reserve law and research expenses, that include exploration expenses, pre-investment, studies and research and technological innovation expenses.

The following table sets forth the principal components of CODELCO's other expenses, by function for the periods indicated:

	For the nine-month period ended September 30,	
	2024	2025
	(in millions of U.S.\$)	
Copper Reserve Law	943	992
Research Expenses	140	183
Bonus for the end of collective bargaining	230	4
Fixed Indirect Costs, lower production level	209	295
Other expenses	230	296
Total other expenses by function	1,752	1,770

CODELCO recorded other expenses by function of U.S.\$1.8 billion and U.S.\$1.8 billion in the nine months of 2024 and 2025, respectively, pursuant to the Copper Reserve Law, which levies a 10.0% tax on CODELCO's exports of its own copper and related byproducts. Under the accounting policies adopted by CODELCO, this export tax is accounted for in "other expenses, by function." The increase of this tax recorded in the first nine months of 2025, compared to the same period in 2024, is primarily attributable to higher revenues from sales of copper and molybdenum.

Bonuses for the end of collective bargaining and other employee benefits decreased to U.S.\$4.0 million for the nine months ended September 30, 2025, from U.S.\$229.9 million for the nine months ended September 30, 2024. This decline reflects the conclusion of the 2023–2025 collective bargaining cycle, during which 25 agreements were signed in 2024. As of the date hereof, only one agreement (with the Gabriela Mistral Division) had been finalized.

Finance costs. Finance costs increased to U.S.\$698.4 million in the first nine months of 2025, compared to U.S.\$686.0 million for the same period in 2024. This slight increase was primarily attributable to higher average debt amount in 2025 than in 2024 mainly related to the issuance of bonds in January and September 2025. The average interest rate was 4.8% as of September 30, 2025, compared to 4.8% as of September 30, 2024. As of September 30, 2025, 87.2% of our debt had a fixed rate and 12.8% had a floating rate.

Share of profit/(loss) of associates and joint ventures accounted for using equity method. CODELCO's net equity participation in related companies increased to a net profit of U.S.\$84.7 million in the first nine months of 2025, compared to a net profit of U.S.\$84.4 million for the same period in 2024, primarily due to an improved accrued result from Minera Purén S.A., partially offset by a lower accrued result from the participation in Anglo American Sur and a loss recorded by Nuevo Cobre S.A.

Foreign exchange differences. According to Decree Law No. 1,350, CODELCO maintains its accounting records in U.S. dollars, recording transactions in currencies other than U.S. dollars at the exchange rate current at the date of each transaction and, subsequently, for monetary assets and liabilities denominated in currencies other than the U.S. dollar, at the closing exchange rate determined by the Central Bank of Chile. CODELCO experienced a loss from foreign exchange differences of U.S.\$140.3 million in the first nine months of 2025, compared to a gain from foreign exchange differences of U.S.\$69.1 million in the same period of 2024. The loss recorded in the first nine months of 2025 is primarily attributable to the appreciation of the Chilean peso against the U.S. dollar during the nine-month period ended September 30, 2025 as compared to December 31, 2024.

Profit (loss) before income tax. Profit before income tax was U.S.\$606.9 million during the first nine months of 2025, compared to U.S.\$612.2 million for the same period in 2024. This decline was primarily attributed to foreign exchange losses recognized in income, due to the appreciation of the Chilean peso between December 31, 2024 and September 30, 2025.

Income tax expense. During the first nine months of 2025, CODELCO had a statutory tax rate of 65.0% in accordance with applicable regulations, comprised of (i) a corporate income tax rate of 25.0% and (ii) a 40.0% tax on net earnings applicable to state-owned enterprises as specified by Decree Law 2,398, Art. 2. During the first nine months of 2025, CODELCO was subject to the same statutory tax rate of 65.0%. CODELCO is subject to the mining

royalty tax under Law No. 21,591, which generally comprises an Ad Valorem component which applies a tax rate of 1% on annual copper sales, and a mining margin component which applies a progressive tax rate (i.e., 8%-26%) on the adjusted taxable mining operating margin within a range of 20% to 80%. In addition, a maximum potential tax burden of 46.5% is established on the mining entity's operating profitability, measured as the adjusted pre-taxable mining operating income. CODELCO's statutory rate of the mining tax for 2022, 2023 and 2024 was 5.0%, 5.0% and 8.0%, respectively. CODELCO's taxes on income amounted to an expense of U.S.\$449.9 million during the first nine months of 2025, compared to an expense of U.S.\$384.8 million in the same period in 2024. This increase in expense from taxes on income was primarily due to higher deferred tax effect and current tax expense.

Profit for the period. As a result of the factors described above, CODELCO's profit after tax was U.S.\$157.1 million during the first nine months of 2025, compared to a profit after tax of U.S.\$227.4 million for the same period in 2024.

Results of Operations for the Three Years Ended December 31, 2024

The following table sets forth CODELCO's summarized results of operations for the years ended December 31, 2022, 2023 and 2024:

	Year ended December 31,			% Change	
	2022	2023	2024	2023/2022	2024/2023
	(in millions of U.S.\$)				
Revenue	17,018	16,393	16,993	(3.7)	3.7
Cost of sales	(12,285)	(13,273)	(12,906)	8.1	(2.8)
Gross profit	4,734	3,120	4,088	(34.1)	31.0
Other income, by function	65	93	81	43.1	(13.3)
Administrative expenses	(502)	(544)	(511)	8.4	(6.1)
Other expenses	(2,103)	(2,062)	(2,519)	(198.1)	22.1
Finance costs	(569)	(778)	(910)	36.9	16.9
Share of profit (loss) of associates and joint ventures accounted for under the equity method	52	(658)	65	(1365.4)	(109.9)
Foreign exchange differences	(238)	(45)	361	(81.1)	(902.9)
Profit (loss) for the period before tax	1,495	(757)	790	(150.6)	(204.4)
Income tax expense	(1,134)	165	(546)	(114.6)	(428.8)
Profit (loss) for the period	362	(591)	245	(263.3)	(141.4)
Profit (loss) attributable to owners of parent	346	(375)	240	(208.4)	(164.0)
Profit (loss) attributable to non-controlling interests	16	(216)	5	(1,450.0)	(102.0)

Revenue. The following table sets forth CODELCO's revenues for the years ended December 31, 2022, 2023 and 2024:

	Year ended December 31,			% Change	
	2022	2023	2024	2023/2022	2024/2023
	(in millions of U.S.\$)				
Revenue	17,018	16,393	16,993	-3.7%	3.7%
Sales of CODELCO's own copper	13,853	13,149	14,249	-5.1%	8.4%
Sales of third-party copper	1,640	1,673	1,407	2.0%	(15.9)%
Sales of byproducts and other	1,526	1,571	1,337	2.9%	(14.9)%

In 2024, revenues increased by 3.7% to U.S.\$17.0 billion, compared to U.S.\$16.4 billion in 2023. This increase was primarily attributable to higher average realized copper prices and higher own copper sales volume, partially offset by lower molybdenum sales volumes. In 2023, revenue decreased by 3.7% to U.S.\$16.4 billion,

compared to U.S.\$17.0 billion in 2022. This decrease was primarily attributable to a lower sales volume in 2023 compared to 2022.

In 2024, our own copper sales increased by 8.4% mainly due to higher sale volume due to higher production and a higher realized copper price. In 2023, our own copper sales decreased by 5.1% mainly due to lower sale volume resulting from lower production levels than 2022.

Third-party copper sales totaled U.S.\$1.4 billion in 2024 compared to U.S.\$1.7 billion in 2023, attributable to lower volume. In 2022, third-party copper sales totaled U.S.\$1.6 billion, which was lower than 2023 as a result of lower average price of copper and sales volume in 2022.

In general, changes in the volume of third-party copper sales are dependent upon CODELCO's need to meet requirements under sales contracts and, to a lesser extent, purchasing copper under spot market terms if CODELCO's own production is insufficient to cover the quantities that it has agreed to supply its customers.

Sales of byproducts and other decreased 14.9% to U.S.\$1.3 billion in 2024, compared to U.S.\$1.6 billion in 2023. This decrease was primarily due to the 13.8% decrease in molybdenum prices and the decrease in molybdenum sale volume and other byproducts income. In 2023, these sales increased by 2.4% to U.S.\$1.6 billion, compared to U.S.\$1.5 billion in 2022. This increase was primarily due to an increase in molybdenum prices by 33.5% in 2023.

Cost of sales. CODELCO's cost of sales in any period includes both the mining and production costs of its own copper and byproducts and the purchase costs of copper, as well as gold, silver and other byproducts, at market prices from third parties and processed and sold by CODELCO in that period. The following table sets forth CODELCO's total cost of sales for the years ended December 31, 2022, 2023 and 2024:

	Year ended December 31,			% Change	
	2022	2023	2024	2023/2022	2024/2023
	(in millions of U.S.\$)				
Cost of sales	12,285	13,273	12,906	(8.0)%	(2.8)%
Cost of CODELCO's own copper	9,932	10,835	10,826	(9.1)%	(0.1)%
Cost of third-party sales	1,647	1,658	1,350	(0.7)%	(18.6)%
Cost of byproducts and other	706	780	730	(10.4)%	(6.4)%

CODELCO's total cost of sales decreased by 2.8% to U.S.\$12.9 billion (75.9% of revenue) in 2024, compared to U.S.\$13.3 billion (81.0% of revenue) in 2023, and compared to U.S.\$12.3 billion (72.3% of revenue) in 2022, primarily due to lower input prices and higher production.

Some of the minerals that CODELCO sells are purchased at market prices, and CODELCO also purchases mineral ore from third parties at market prices which it processes and sells as copper.

CODELCO's cost of sales of its own copper decreased 0.1% to U.S.\$10.8 billion in 2024 in line with the U.S.\$10.8 billion in 2023 and compared to U.S.\$9.9 billion in 2022. This increase was primarily attributable to lower sales volume and higher operational costs.

In 2024, the cost of copper purchased from third parties decreased by 18.6% to U.S.\$1.4 billion compared to U.S.\$1.7 billion in 2023, due to lower volume. In 2023, the cost of copper purchased from third parties increased by 0.7% to U.S.\$1.7 billion compared to U.S.\$1.6 billion in 2022, due to a higher average copper price.

In 2024, cost of byproducts and other decreased 6.4% to U.S.\$730.0 million primarily due to a decrease in volume sale of molybdenum. In 2023, cost of byproducts and other increased 10.4% to U.S.\$780.0 million compared to U.S.\$706.0 million in 2022, due to an increase in sales volume of gold and silver, mainly due to an increase in production at El Teniente and Ministro Hales of these byproducts.

In 2024, depreciation and amortization expenses decreased by 1.1% to U.S.\$2.27 billion compared to U.S.\$2.27 billion in 2023 and U.S.\$2.29 billion in 2022.

Gross profit. In 2024, gross profit amounted to U.S.\$4.1 billion, reflecting a 31.0% increase compared to the same period 2023, mainly due to higher revenues and lower cost of sales. In 2023, gross profit amounted to U.S.\$3.1 billion, reflecting a 34.1% decrease compared to gross profit in 2022 primarily attributable to lower revenues due to lower production. In 2022, gross profit amounted to U.S.\$4.7 billion.

Other income, by function. In 2024 other income, by function decreased by 13.3% to U.S.\$80.7 million compared to U.S.\$93.0 million in 2023, primarily due to miscellaneous net sales, which mainly include revenues and costs related to energy, medical services, and scrap. Other income, by function increased by 43.7% to U.S.\$93.0 million in 2023 compared to U.S.\$64.7 million in 2022 primarily due to the income related to insurance compensation for accidents. See note 24a to the Consolidated Financial Statements.

Administrative expenses. In 2024, administrative expenses decreased by 6.1% to U.S.\$511.2 million (3.0% of revenues) compared to U.S.\$544.2 million (3.3% of revenues) in 2023, mainly due to lower sales volume and a decrease in input prices. Administrative expenses increased to U.S.\$544.2 million (3.3% of revenues) compared to U.S.\$502.3 million (3.0% of revenues) in 2023 compared to 2022, respectively, due to lower volume sale and higher input prices.

Other expenses. In 2024, other expenses amounted to U.S.\$2.5 billion (14.8% of revenues) compared to U.S.\$2.1 billion (12.6% of revenues) in 2023 and compared to U.S.\$2.1 billion (12.4% of revenues) in 2022. The increase in 2024 was mainly attributable to an increase in expenses payable under the Copper Reserve Law and the payment of the Ad Valorem royalty. The decrease in 2023 was mainly attributable to a decrease in expenses payable under the Copper Reserve Law, and lower bonuses paid related to collective bargaining processes and mining properties fair value adjustment.

The following table sets forth the principal components of CODELCO's other expenses for the periods indicated:

	Year ended December 31,		
	2022	2023	2024
	(in millions of U.S.\$)		
Copper Reserve Law	(1,273)	(1,256)	(1,302)
Bonus for the end of collective bargaining and			
Employee Benefits	(110)	(76)	(394)
Asset impairments	(89)	-	-
Other non-cash charges	(48)	(151)	(105)
Other expenses	(582)	(579)	(718)
Total	(2,103)	(2,062)	(2,519)

CODELCO recorded other expenses of U.S.\$1.3 billion in each of 2024, 2023 and 2022 pursuant to the Copper Reserve Law, which levies a 10.0% tax on receivables of the sales proceeds that CODELCO receives and transfers to Chile from the export of copper and related byproducts produced by CODELCO. The decrease of this tax recorded in 2023 compared to 2022 is primarily attributable to lower volume sold and lower revenues.

Other expenses increased to U.S.\$718.0 million in 2024 compared to U.S.\$579.0 million in 2023, mainly due to the increase in the payment of the Ad Valorem royalty. Other expenses decreased to U.S.\$579.0 million in 2023 compared to U.S.\$582.0 million in 2022 mainly due to the decrease in the mining property value adjustment in 2023 compared to 2022.

Finance costs. In 2024, finance costs increased 16.9% to U.S.\$910.4 million from U.S.\$778.9 million in 2023, compared to U.S.\$569.0 million in 2022, primarily attributable to higher interest expenses of bonds during 2024 and lower interest expenses of bonds during 2023. CODELCO's debt level was U.S.\$22.7 billion as of

December 31, 2024, compared to U.S.\$20.2 billion as of December 31, 2023, and U.S.\$17.0 billion as of December 31, 2022.

CODELCO's average interest rate remained at 4.7% as of December 31, 2024. As of December 31, 2024, 91.2% of our debt had fixed rate and 8.8% a floating rate, as of December 31, 2023, 92.8% of our debt had fixed rate and 7.2% a floating rate and, as of December 31, 2022, 94.2% of our debt had fixed rate and 5.8% a floating rate. See "Selected Consolidated Financial Data" for information regarding debt during the years ended December 31, 2022, 2023 and 2024.

Share of profit/(loss) of associates and joint ventures accounted for using equity method. In 2024, CODELCO's net equity participation in related companies was a net profit of U.S.\$65.4 million, compared to a net loss of U.S.\$658.0 million in 2023 and a net profit of U.S.\$51.9 million in 2022. The increase in 2024 compared to 2023 was primarily attributable to the absence of the impairment loss on the investment in Anglo American Sur that had impacted 2023. The decrease in 2023 compared to 2022 was primarily attributable to an impairment loss on its investment in Anglo American Sur due to lower-than-expected production and cost performance. See note 10 to the Consolidated Financial Statements.

Foreign exchange differences. In 2024, CODELCO experienced a profit of U.S.\$361.0 million, primarily attributable to the depreciation of the Chilean peso against the U.S. dollar during 2024 as compared to 2023. In 2023, CODELCO experienced a loss from foreign exchange differences of U.S.\$45.0 million in 2023 compared to 2022, primarily attributable to the appreciation of the Chilean peso against the U.S. dollar during 2023 as compared to 2022. In 2022, foreign exchange differences experienced a loss of U.S.\$237.7 million compared to a gain from foreign exchange differences of U.S.\$313.7 million in 2021, primarily attributable to the depreciation of the Chilean peso against the U.S. dollar during 2022 as compared to 2021.

Profit (loss) before tax. In 2024, profit before tax reached U.S.\$790.5 million, compared to a loss of U.S.\$757.0 million in 2023. This increase was primarily attributable to higher copper price despite lower sales volume in 2024. In 2023, loss before tax reached U.S.\$757.0 million compared to U.S.\$1.5 billion in 2022, primarily due to lower sales volume.

Income tax expense. In 2024, CODELCO had a statutory tax rate of 65.0% in accordance with applicable regulations, comprised of (i) a corporate income tax rate of 25.0% (a 17.0% historic corporate tax rate applied to income earned in and prior to 2011 but changed by means of the 2014 tax reform) and (ii) a 40.0% tax on net earnings applicable to state-owned enterprises as specified by Decree Law 2,398, Art. 2. During 2022 and 2021, CODELCO was subject to the same statutory tax rate of 65.0%. Since January 1, 2024, CODELCO is subject to the new mining royalty tax under Law No. 21,591, which generally comprises an Ad Valorem component which applies a tax rate of 1% on annual copper sales, and a mining margin component which applies a progressive tax rate (i.e., 8%-26%) on the adjusted taxable mining operating margin within a range of 20% to 80%. In addition, a maximum potential tax burden of 46.5% is established on the mining entity's operating profitability, measured as the adjusted pre-taxable mining operating income. CODELCO's statutory rate of the mining tax for 2022, 2023 and 2024 was 5.0%, 5.0% and 8.0%, respectively. CODELCO's taxes on income amounted to an expense of U.S.\$545.7 million in 2024, compared to an income of U.S.\$165.9 million in 2023 and an expense of U.S.\$1,134.0 million in 2022, primarily as a result of an increase in CODELCO's pre-tax profit in 2024. For more information regarding this payment, see note 5 to the Consolidated Financial Statements and "Risk Factors—Risks Relating to CODELCO's Relationship with the Government of Chile—CODELCO is subject to special taxes."

Profit for the period. As a result of the factors described above, CODELCO recorded a profit after tax of U.S.\$244.7 million in 2024, a loss of U.S.\$591.0 million in 2023 and a profit of U.S.\$362.0 million in 2022.

Liquidity and Capital Resources

CODELCO's primary sources of liquidity are funds from (i) operations, (ii) domestic and international borrowings from banks and (iii) debt offerings in the domestic and international capital markets. CODELCO is generally required to transfer its profit to the Chilean Treasury. The calculation of profit and other comprehensive income includes certain non-cash generating charges or benefits. Significant non-cash generating charges or benefits are deferred tax expense/benefit and amortization and depreciation recorded against other comprehensive income

and/or profit and loss. For the nine-month period ended September 30, 2025, non-cash charges were U.S.\$121.0 thousand in amortization and U.S.\$1,714.0 million in depreciation. Non-cash deferred tax charges of U.S.\$135.0 thousand in amortization and U.S.\$1,653.0 million in depreciation were recorded for the nine-month period ended September 30, 2024. Specifically with respect to deferred taxes, non-cash charges or benefits are generated by recording the fluctuation of the deferred tax assets and liabilities, which may be recorded against other comprehensive income in equity or through profit and loss. Amortization and depreciation are recorded directly in profit and loss.

In June 2014, the Ministries of Finance and Mining approved the capitalization of U.S.\$200.0 million through the retention of CODELCO's 2013 profits. In October 2014, the Chilean Congress enacted a multi-year capitalization law authorizing up to U.S.\$3.0 billion in capital injections by the Chilean Treasury over the 2014–2018 period. Under this law, CODELCO was required to submit annual progress reports on the BDP, including information on financing, execution, structural projects, production, costs and results. On the same date, the President of Chile also announced a commitment to authorize the retention by CODELCO of up to an additional U.S.\$1.0 billion of profit (including the U.S.\$200.0 million approved in June 2014) over the same period. In June 2015, the Ministries of Finance and Mining approved the capitalization of U.S.\$225.0 million from 2014 profit (charged to 2015 profit), which was not implemented due to operating losses. Pursuant to the multi-year capitalization law, CODELCO received a U.S.\$600.0 million capital injection in December 2015. In December 2016, the Ministries of Finance authorized U.S.\$975.0 million, including U.S.\$500.0 million to finance the investment plan (received that month) and U.S.\$475.0 million under Law No. 20,989, which allowed up to U.S.\$950.0 million of additional capitalization for 2016–2017. In April 2017, CODELCO received the U.S.\$475.0 million corresponding to 2016.

Law No. 20,989 also extended the U.S.\$3.0 billion capitalization commitment for the 2014–2018 period to 2019. While CODELCO did not expect additional capital injections in connection with Law No. 20,989 during 2017, in November 2017, the Government of Chile authorized a capital injection of U.S.\$520.0 million (out of the maximum U.S.\$3.0 billion for the newly extended 2014–2019 period), which was received in U.S. dollars in December 2017. In June 2018, the Government of Chile announced a final capital injection of U.S.\$1.0 billion to complete the multi-year capitalization law approved in October 2014. Moreover, in October 2018, the Government of Chile authorized the disbursement of such amount in two installments completed on December 31, 2018 for U.S.\$600.0 million and on February 28, 2019 for the remaining U.S.\$400.0 million.

Since 2014, the Government of Chile has authorized the capitalization of CODELCO through capital injections and retention of profits in an aggregate amount of approximately U.S.\$3.3 billion.

Starting in 2022, the Government of Chile has allowed CODELCO to annually reinvest 30.0% of its 2021–2024 profits. This represented a change in CODELCO's dividend policy, which previously consisted of 100% net-profit distribution policy. This profit-reinvestment plan is expected to strengthen CODELCO's financial balance sheet and reduce the need for additional financial debt. The 30.0% profit-reinvestment plan resulted in an additional U.S.\$583.0 million to CODELCO's financial cash flow in 2022 and additional U.S.\$103.7 million to CODELCO's financial cash flow in 2023. In 2023, CODELCO reported losses amounting to U.S.\$591.2 million. As a result, despite the issued decree to retain 30% of profits, no additional funds were available for retention in 2024. In 2025, the Government of Chile authorized a capitalization of U.S.\$72.0 million, which will be disbursed against CODELCO's projected after-tax profit for the year. The amount is calculated over the net profit of the previous year and charged in the current year or the following year until it is completed. A similar exercise is expected to be carried out in 2025.

See “Risk Factors—Risks Relating to CODELCO's Relationship with the Government of Chile—CODELCO's funding through retention of profits is restricted and is subject to the approval of the Ministries of Finance and Mining.”

Cash flows. In 2024, net cash flows from operating activities increased by 52.4% to U.S.\$3.6 billion from U.S.\$2.4 billion in 2023. This increase in net cash flows from operating activities during 2024 was primarily attributable to the increase in cash received from the sales of goods and services due to an increase in prices as well as the decreased use of cash to pay suppliers of goods and services. In 2023, net cash flows from operating activities decreased by 45.0% to U.S.\$2.4 billion from U.S.\$4.3 billion in 2022. During the first nine months of 2025, net cash

flows from operating activities totaled U.S.\$3.4 billion, a 4.7% increase compared to U.S.\$3.2 billion in the same period of 2024. The increase reflects higher cash inflows from sales of goods and services and increased recovery of export VAT, partially offset by higher payments to suppliers. See note 28 to the Unaudited Interim Consolidated Financial Statements and note 26 to the 2023-2024 and 2023-2024 Consolidated Financial Statements.

Bank debt. CODELCO's total financial debt (defined as loans from financial institutions plus bonds issued) as a percentage of its total capitalization was 59.3% as of December 31, 2022, 64.6% as of December 31, 2023, 54.8% as of December 31, 2024, and 68.6% as of September 30, 2025.

In October 2018, CODELCO rolled over a loan with Export Development Canada for U.S.\$300.0 million. The loan matures in 2028 and the terms are described below:

	<u>Credit Amount</u>	<u>Interest Rate</u>	<u>Date Loan Drawn</u>
Export Development Canada ...	U.S.\$300.0 million	LIBOR plus 121.5 basis points	October 2018

As of September 30, 2025, U.S.\$300.0 million was outstanding under the loan described above with Export Development Canada.

Between June and December 2019, CODELCO entered into a bilateral credit facility with Export Development Canada. The credit facility included a commitment fee of 50.0 basis points and a maturity in 2029. CODELCO also entered into a seven-year U.S. dollar unsecured bilateral credit facility with the Banco Latinoamericano de Comercio Exterior (Bladex). The terms are described below:

	<u>Credit Amount</u>	<u>Interest Rate</u>	<u>Date Loan Drawn</u>
Export Development Canada	U.S.\$300.0 million	LIBOR plus 121.5 basis points	July 2019
Banco Latinoamericano de Comercio Exterior.....	U.S.\$75.0 million	LIBOR plus 120.0 basis points	December 2019

As of September 30, 2025, U.S.\$300.0 million was outstanding under the loan described above with Export Development Canada and U.S.\$75.0 million was outstanding under the loan described above with Banco Latinoamericano de Comercio Exterior.

In May 2020, CODELCO entered into a bilateral credit facility with Export Development Canada. The credit facility included a commitment fee of 32.0 basis points and matures in 2027. The terms are described below:

	<u>Credit Amount</u>	<u>Interest Rate</u>	<u>Date Loan Drawn</u>
Export Development Canada	U.S.\$300.0 million	LIBOR plus 115.0 basis points	May 2020

As of September 30, 2025, U.S.\$300.0 million was outstanding under the loan described above with Export Development Canada.

In January 2023, CODELCO entered into a bilateral credit facility with Export Development Canada. The credit facility included a commitment fee of 165.0 basis points and matures in 2033.

	<u>Credit Amount</u>	<u>Interest Rate</u>	<u>Date Loan Drawn</u>
Export Development Canada	U.S.\$500.0 million	SOFR plus 165.0 basis points	March 2023

As of September 30, 2025, U.S.\$500.0 million was outstanding under the loan described above with Export Development Canada.

In August 2023, CODELCO entered into two up to three-months advances on export exchange contracts (ACC). These facilities were fully prepaid in September 2023.

	Credit Amount	Interest Rate	Date Loan Drawn
Banco Santander-Chile	U.S.\$130.0 million	SOFR plus 37.0 basis points	August 2023
Banco de Chile.....	U.S.\$200.0 million	5.740%	August 2023

In June 2024, CODELCO entered into a bilateral credit facility with Credit Agricole Corporate Investment Banking with MIGA guarantee. The credit facility included a commitment fee of 76.0 basis points and matures in 2039.

	Credit Amount	Interest Rate	Date Loan Drawn
Credit Agricole CIB.....	U.S.\$531.7 million	SOFR plus 76.0 basis points	September 2024

In July 2024, CODELCO entered into a one-year advance on export exchange contract (ACC) with Banco de Crédito e Inversiones (“BCI”). The loan matures in July 2025 and the terms are described below:

	Credit Amount	Interest Rate	Date Loan Drawn
Banco de Chile.....	U.S.\$100.0 million	5.630%	July 2024

In December 2024, CODELCO entered into five three-month advances on export exchange contracts (ACCs). These facilities, except for the facility with BCI, were fully prepaid in January 2025.

	Credit Amount	Interest Rate	Date Loan Drawn
BCI	U.S.\$130.0 million	4.750%	December 2024
Banco de Chile.....	U.S.\$100.0 million	5.000%	December 2024
Scotiabank Chile.....	U.S.\$100.0 million	4.990%	December 2024
Banco Santander-Chile	U.S.\$50.0 million	5.240%	December 2024
Banco Itaú Chile	U.S.\$20.0 million	5.230%	December 2024

In March 2025, CODELCO entered into a financing agreement with the Japan Bank for International Cooperation (JBIC) for U.S.\$466.0 million. The funds have since been fully drawn. This credit line includes an additional commercial tranche for U.S.\$200.0 million to be disbursed by Bank of America N.A.

	Credit Amount	Interest Rate	Availability Period
Japan Bank for International Cooperation.....	U.S.\$466.0 million	SOFR plus 110.0 basis points	36 months

In March 2025, CODELCO signed a financing agreement with Banco Santander S.A. for U.S.\$500 million, backed by the Italian Export Credit Agency (SACE). The funds have since been fully drawn.

	Credit Amount	Interest Rate	Date Loan Drawn
Banco Santander, S.A.	U.S.\$500.0 million	SOFR plus 104.0 basis points	July 2025

In May 2025, CODELCO signed a financing agreement with Bank of America for U.S.\$200 million, corresponding to the commercial tranche of the JBIC credit facility. The funds have since been fully drawn.

	Credit Amount	Interest Rate	Availability Period
Bank of America N.A.	U.S.\$200.0 million	SOFR plus 120.0 basis points	6 months

In June 2025, CODELCO entered into a six-month advance on export exchange contract (ACC) with BCI. The loan matures in December 2025 and the terms are described below:

	Credit Amount	Interest Rate	Date Loan Drawn
BCI	U.S.\$50.0 million	4.696%	June 2025

In December 2025, CODELCO entered into a U.S.\$600.0 million credit facility with HSBC and Banco Santander, S.A., backed by MIGA. The credit facility has a nine-month availability period, a commitment fee of 15 basis points and matures in 2040. As of the date of this offering memorandum, no amounts have been drawn under the facility.

	Credit Amount	Interest Rate	Availability Period
HSBC.....	U.S.\$300 million	SOFR plus 60.0 basis points.	9 months
Banco Santander, S.A.	U.S.\$300 million	SOFR plus 60.0 basis points.	9 months

Other Debt.

On January 26, 2024, CODELCO issued notes in an aggregate principal amount of U.S.\$2.0 billion, consisting of a U.S.\$1.5 billion international debt offering of 6.440% notes due 2036 and a U.S.\$500.0 million international debt offering of 6.300% notes due 2053. The notes due 2053 form part of the same series of CODELCO's outstanding U.S.\$700.0 million 6.300% notes due 2053 issued on September 5, 2023, resulting in a total aggregate principal amount outstanding of U.S.\$1.2 billion in this series.

On January 13, 2025, CODELCO issued notes in an aggregate principal amount of U.S.\$1.5 billion, consisting of a U.S.\$750.0 million international debt offering of 6.330% notes due 2035 and a U.S.\$750.0 million international debt offering of 6.780% notes due 2055.

On September 29, 2025, CODELCO issued additional notes in an aggregate principal amount of U.S.\$1.4 billion, consisting of a U.S.\$700.0 million international offering of 6.330% notes due 2035 and a U.S.\$700.0 million international offering of 6.780% notes due 2055. These notes were issued as a reopening of CODELCO's existing 6.330% notes due 2035 and 6.780% notes due 2055 originally issued on January 13, 2025, increasing the total aggregate principal amount outstanding to U.S.\$1,450.0 million in each series. The following table shows amounts due by CODELCO under notes issued in both international and local markets as of September 30, 2025:

Type of Issuance	Maturity	Principal Amount	Outstanding Principal Amount and Accrued Interest as of September 30, 2025	Interest Rate
Local	August 24, 2026	10 million UF	U.S.\$413 million	2.50%

International	August 1, 2027	U.S.\$1.50 billion	U.S.\$1.263 billion	3.63%
International	August 23, 2029	U.S.\$130.0 million	U.S.\$130.0 million	2.87%
International	September 30, 2029	U.S.\$1.10 billion	U.S.\$1.094 billion	3.00%
International	January 14, 2030	U.S.\$1.00 billion	U.S.\$1.00 billion	3.15%
International	January 15, 2031	U.S.\$800.0 million	U.S.\$805.0 million	3.75%
International	January 8, 2034	U.S.\$1.30 billion	U.S.\$1.306 billion	5.95%
International	November 7, 2034	HKD500.0 million	U.S.\$66.0 million	2.84%
International	February 2, 2033	U.S.\$900.0 million	U.S.\$900.0 million	5.13%
International	September 21, 2035	U.S.\$500.0 million	U.S.\$495.0 million	5.63%
International	January 13, 2035	U.S.\$750.0 million	U.S.\$753.0 million	6.33%
International	October 24, 2036	U.S.\$500.0 million	U.S.\$511.0 million	6.15%
International	January 26, 2036	U.S.\$1.50 billion	U.S.\$1.50 billion	6.44%
International	July 22, 2039	AUD70.0 million	U.S.\$46.0 million	3.58%
International	July 17, 2042	U.S.\$750.0 million	U.S.\$743.0 million	4.25%
International	October 18, 2043	U.S.\$950.0 million	U.S.\$960.0 million	5.63%
International	November 4, 2044	U.S.\$980.0 million	U.S.\$983.0 million	4.88%
International	August 1, 2047	U.S.\$1.25 billion	U.S.\$1.220 billion	4.50%
International	May 18, 2048	U.S.\$600.0 million	U.S.\$606.0 million	4.85%
International	February 5, 2049	U.S.\$1.30 billion	U.S.\$1.203 billion	4.38%
International	January 30, 2050	U.S.\$2.68 billion	U.S.\$2.603 billion	3.70%
International	January 15, 2051	U.S.\$500.0 million	U.S.\$454.0 million	3.15%
International	September 8, 2053	U.S.\$1.20 billion	U.S.\$1.163 billion	6.30%
International	January 13, 2055	U.S.\$750.0 million	U.S.\$753.0 million	6.78%

The following table sets forth the scheduled maturities of CODELCO's bank and unsecured note obligations as of September 30, 2025:

Bank and Unsecured Note Obligations Outstanding (in millions of U.S.\$)							Average Annual Interest Rate
Total	Less than 1 year	1-2 years (2026- 2027)	2-3 years (2027- 2028)	3-5 years(20 28-2030)	More than 5 years		
Loans from financial institutions	3,577	477	378	303	500	1,919	SOFR +125%
Bonds issued.....	20,977	619	1,677	-	2,226	16,455	4.74%
Total.....	24,554	1,096	2,055	303	2,726	18,374	

In addition to the obligations set forth in the table above, CODELCO was a party to certain commitments primarily to secure the payment of (i) deferred customs duties and (ii) staff severance indemnities payable upon the retirement of individual employees, amounting to U.S.\$24.0 million and U.S.\$570.9 million, respectively, as of December 31, 2024 and to U.S.\$32.8 million and U.S.\$597.8 million, respectively, as of September 30, 2025. See notes 14 and 19 to the Consolidated Financial Statements and to the Unaudited Interim Consolidated Financial Statements. In addition, as of September 30, 2025, CODELCO believes that its net deferred taxes will reverse as follows: deferred tax benefit in the amount of U.S.\$83 million in 2025 and U.S.\$10.74 billion after 2030. Deferred tax expense in the amount of U.S.\$178 million in 2026, U.S.\$340 million in 2027, U.S.\$495 million in 2028, U.S.\$556 million in 2029 and U.S.\$393 million in 2030. CODELCO currently has no hedges related to its production of copper. See “Business and Properties—Marketing—Pricing and Hedging” and “Risk Factors—Risks Relating to CODELCO’s Operations—CODELCO engages in hedging activity from time to time, particularly with respect to its copper production, which may not be successful and may result in losses to CODELCO.”

- *Capital Expenditure Program.* We seek to maintain and improve our competitive position in the industry through our three-year capital expenditure program. CODELCO expects to make capital expenditures of approximately U.S.\$17.2 billion between 2025 and 2027 (current project portfolio and mine development) in addition to U.S.\$279 million in its subsidiaries. We expect these expenditures to be funded with a combination of internal and external resources. For a complete list of planned capital expenditures, see “Business and Properties—Copper Production—Operations.” CODELCO’s expansion and development of major projects between 2024 and 2026 are expected to include:

- The Chuquicamata Underground Project, the gradual transformation of the Chuquicamata mine from an open pit mine to an underground operation. This project considers the exploitation of the mine in three levels. The first level started production in 2019 and comprised an initial investment of approximately U.S.\$5.96 billion, and considers additional investments in infrastructure and mine development. The second and third levels are still in early engineering stages.

Within 2025-2027, CODELCO expects an investment of U.S.\$585.0 million on the continuity infrastructure of the first level (Phase I Project – construction progress of 85%) and expects to spend U.S.\$329.0 million in a first level expansion project (First Level Continuity Project), enabling the continuous growth of the current production level. Early studies for the exploitation of the second level are ongoing. The third level is still in the early engineering states.

- The reallocation of a part of the Andina concentrator plant, which involves maintaining the treatment capacity of the plant using two production lines has been completed.
- The development of a new production level in the existing El Teniente underground mine (an approximate investment of U.S.\$2.20 billion between 2025 and 2027) to maintain El Teniente’s annual copper production at its current level. The new mining level has been divided into three separate projects: (i) Andes Norte, (ii) Andesita, and (iii) Diamante. As of September 30, 2025, progress made on the structural projects was as follows: the Andes Norte project reached 80% completion, while the Diamante project reached 49% completion. At the end of September 2025, both projects obtained clearance from SERNAGEOMIN and the Labor Directorate, enabling the incorporation of key personnel and the implementation of a progressive return plan. Simultaneously, the Andesita project shall continue under review following the incident that occurred on July 31, 2025.

The development of the Inca Pit project is designed to extend the production of the Salvador Division and is currently in ramp up. It requires an approximate investment of U.S.\$0.49 billion between 2025 and 2027 to finish remaining infrastructure. As of September 30, 2025, after the construction of the concentrator plant was finalized, the project reached a 93% overall completion status.

- Radomiro Tomic expects the completion of the feasibility stage during 2026 of its new sulfide operation, concentrator plant and the continuity of leaching operations (an approximate investment of U.S.\$216.0 million between 2025 and 2027).

CODELCO has already begun investing in the aforementioned projects. In 2024, CODELCO invested U.S.\$3.2 billion mainly in expansion and development projects, including the new El Teniente mine level, the Chuquicamata underground mine expansion and the execution of the Inca Pit project. CODELCO invested U.S.\$2.7 billion and U.S.\$2.3 billion in 2023 and 2022, respectively. During the same timeframe, CODELCO invested U.S.\$3.7 billion in mine development. For an additional description of CODELCO's principal planned capital expenditures, see "Business and Properties—Copper Production—Operations."

CODELCO expects that it will have sufficient resources from operations, including cash flows, capitalization and retention of profits, in addition to new borrowings from banks and the capital markets to fund its anticipated capital expenditures and investments.

As described under "Regulatory Framework—Overview of the Regulatory Regime" below, the Ministries of Finance and Mining are required to determine, by means of a joint decree, the amount, if any, that the Company shall allocate to the creation of capitalization and reserve funds. In June 2014, the Ministries of Finance and Mining approved the capitalization of U.S.\$200.0 million through a retention of profits from 2013 profits. In October 2014, the multi-year capitalization law approved by the Chilean Congress was promulgated and became effective following its publication in the Official Gazette on October 30, 2014. This law allocates a maximum of U.S.\$3.0 billion to CODELCO in the form of a capital injection by the Chilean Treasury over the period from 2014 to 2018. Pursuant to this law, CODELCO must present a yearly progress report on the BDP for the 2014-2018 period to the Ministries of Finance and Mining and to the Finance Committee of both the Upper House and the Lower House of Congress by March 30 of each year. The BDP report details the progress of CODELCO's investments, including information regarding their financing and execution, covering each of the structural projects and their corresponding investments. The BDP report also discusses CODELCO's progress with respect to production, costs and results. On the same date that the multi-year capitalization law was promulgated, the President of Chile announced a commitment to authorize the retention by CODELCO of up to an additional U.S.\$1.0 billion of profit (which includes the U.S.\$200.0 million that had been authorized in June 2014) over the 2014-2018 period.

In June 2015, the Ministries of Finance and Mining approved the capitalization of U.S.\$225.0 million from 2014 profit (charged to 2015 profit), which was not implemented due to operating losses. Pursuant to the multi-year capitalization law, CODELCO received U.S.\$600.0 million in December 2015. In December 2016, the Ministries authorized U.S.\$975.0 million, including U.S.\$500.0 million to finance the investment plan, which was received in December 2016, and U.S.\$475.0 million under Law No. 20,989, which allowed up to U.S.\$950.0 million of additional capitalization for 2016-2017; the U.S.\$475.0 million corresponding to 2016 was received in April 2017. Law No. 20,989 also extended the U.S.\$3.0 billion capitalization program (2014-2018) through 2019. Under this extension, CODELCO received U.S.\$520.0 million in December 2017 and a final U.S.\$1.0 billion authorized in October 2018, disbursed in two installments: U.S.\$600.0 million on December 31, 2018 and U.S.\$400.0 million on February 28, 2019.

See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources" and "Risk Factors—Risks Relating to CODELCO's Relationship with the Government of Chile—CODELCO's funding through retention of profits is restricted and is subject to the approval of the Ministries of Finance and Mining."

Since 2014, the Government of Chile has authorized the capitalization and retention of U.S.\$2.5 billion within CODELCO, U.S.\$225.0 million of which has not been implemented.

Since 2022, the Government of Chile has allowed CODELCO to annually reinvest 30.0% of its 2021-2024 profits. This represents a change in CODELCO's dividend policy, which previously consisted of 100% net-profit distribution policy. This profit-reinvestment plan is expected to strengthen CODELCO's financial balance sheet and reduce the need for additional financial debt. In 2021, net income attributable to its owners amounted to U.S.\$1.9 billion and amounted to U.S.\$345.6 million in 2022. Therefore, the 30.0% profit-reinvestment plan would contribute an additional U.S.\$583.0 million to CODELCO's financial cash flow in 2022 and U.S.\$103.7 million in 2023. In 2023, CODELCO reported losses amounting to U.S.\$591.2 million. As a result, despite the issued decree to retain 30% of profits, no additional funds were available for retention in 2024. Additionally, we have been authorized a capitalization of U.S.\$72.0 million for the year 2025, which will be disbursed against the projected after-tax profit for that year. Cash flows from operating activities may be affected by a variety of factors, including copper price

levels. In the event that CODELCO is unable to sell assets or obtain external financing with respect to such capital investments, it may be required to further curtail such expenditures.

Environmental. An important part of CODELCO's investment policy is its pollution abatement plan, which includes several environmental projects undertaken to comply with Chilean law and to achieve its own environmental performance goals. See "Regulatory Framework—Environmental Regulations."

From 2012 to 2024, CODELCO invested U.S.\$6.38 billion in environmental projects, including the expansion of the Talabre, Ovejería and Pampa Austral Tailings dams in the Chuquicamata, Andina and Salvador Divisions and various projects in the Potrerillos smelter in order to comply with the new regulation regarding atmospheric emissions. Additionally, as part of its pollution abatement efforts, CODELCO continues to implement water recovery systems, the costs of which are also budgeted in CODELCO's pollution abatement plan, to conserve resources and minimize pollution of natural water sources. The following table sets forth CODELCO's principal environmental investments in the years 2022-2024:

	Environmental Investments (in millions of U.S.\$)			Total
	2022	2023	2024	
Total.....	233.5	397.1	383.0	1,013.6

Distributions to the Chilean Treasury. As a state-owned enterprise and according to its governing law, CODELCO's profit is due to be transferred to the Chilean Treasury. Before June 30 of each year, the Ministries of Finance and Mining determine, by means of a joint decree, the amount, if any, that the Company must allocate to the creation of capitalization and reserve funds. Amounts not allocated to the creation of capitalization and reserve funds are distributed to the Chilean Treasury.

In 2024, CODELCO contributed U.S.\$1,534.0 million to the Chilean Treasury; in 2023 CODELCO contributed U.S.\$1,418.0 million to the Chilean Treasury; and in 2022, CODELCO contributed U.S.\$2,296.0 million to the Chilean Treasury. While CODELCO makes advance payments to the Chilean Treasury throughout the year, funded by cash flows from operating activities, it generally has contributions payable to the Chilean Treasury at the end of each year. These distributions are paid in the first six-month period of the subsequent year but are reflected in the prior year's financial statements.

The following table sets forth amounts paid in taxes (which due to the timing of payments may be different from tax amounts accrued) and payments and profit distributions made by CODELCO to the Chilean Treasury for each of the three years ended December 31, 2024 and for the nine-month period ended September 30, 2025.

**Contributions to the Chilean Treasury
(in millions of U.S.\$)**

	Year Ended December 31,			Nine-month period ended September 30,
	2022	2023	2024	2025
Income tax payments	742	144	124	168
Copper Reserve Law	1,295	1,274	1,412	881
Subtotal	2,037	1,418	1,536	1,049
Dividends	260	-	-	200
Total	2,297	1,418	1,536	1,249

Production Hedging. CODELCO has hedged certain future copper delivery commitments and production in order to manage the risks associated with copper price volatility in the past. CODELCO currently does not have any hedged production commitments and therefore there is no relevant impact from hedging. See note 26 to the 2022-2023 Consolidated Financial Statements, note 28 to the 2023-2024 Consolidated Financial Statements and

note 28 to the Unaudited Interim Consolidated Financial Statements. In 2024, CODELCO's production hedging activities had no negative impact on pre-tax income.

CODELCO's future production hedging activities could cause it to lose some of the benefit of an increase in copper prices if copper prices increase over the level of CODELCO's hedge position, as occurred in 2012. The cash flows from the mark-to-market values of CODELCO's production hedges can be affected by factors such as the market price of copper, copper price volatility and interest rates, which are not under CODELCO's control.

CODELCO's production hedging agreements contain events of default and termination events that could lead to early close-outs of CODELCO's hedges. These include failure to pay, breach of the agreement, misrepresentation, default under CODELCO's loans or other hedging agreements and bankruptcy. In the event of an early termination of CODELCO's hedging agreements, the cash flows from the affected hedge instruments would cease and CODELCO and the relevant hedge counterparty would settle all of CODELCO's obligations at that time. In that event, there could be a lump sum payment to be made either to or by CODELCO. The magnitude and direction of such a payment would depend upon, among other things, the characteristics of the particular hedge instruments that were terminated and the market price of copper and copper price volatility and interest rates at the time of termination.

See "Business and Properties—Marketing—Pricing and Hedging," "Risk Factors—Risks Relating to CODELCO's Operations—CODELCO engages in hedging activity from time to time, particularly with respect to its copper production, which may not be successful and may result in losses to CODELCO," note 30 to the Consolidated Financial Statements and note 30 the Unaudited Interim Consolidated Financial Statements for further information on CODELCO's hedging activity.

Exchange Rates and Interest Rates. CODELCO's main currency exposure is between the Chilean peso and the U.S. dollar due to the fact that a significant portion of CODELCO's operating costs are denominated in Chilean pesos and paid pursuant to contracts providing for indexation to Chilean inflation, and approximately 100% of revenue is denominated in U.S. dollars or other foreign currencies. To cover a part of the risks associated with currency exposures and fluctuations in interest rates, CODELCO enters into interest rate futures contracts and foreign exchange forward contracts which reduce exposure to fluctuations in the Chilean peso to U.S. dollar exchange rate.

As of September 30, 2025, CODELCO had swap contracts in place to hedge the risk of future UF/U.S.\$, HKD/U.S.\$ and AUD/U.S.\$ exchange rate fluctuations with respect to a notional amount of U.S.\$410.3 million, U.S.\$64.3 million and U.S.\$46.3 million, respectively, which were equivalent to, and sufficient to cover, 100% of CODELCO's foreign currency-denominated bonds outstanding as of September 30, 2025.

As of September 30, 2025, 12.8% of CODELCO's financial debt had a floating interest rate and 87.2% had a fixed rate.

Controls and Procedures

CODELCO maintains a risk management system aligned with international best practices (including ISO 31000, COSO ERM, and others), integrated into its broader framework of internal controls and decision-making processes. This system enables the anticipation and mitigation of events that may affect the Company's performance, continuity, and long-term sustainability. In recent periods, its capabilities have been enhanced to address emerging risks, incorporating horizon scanning and scenario planning to improve anticipation of changes in the external environment. Risk oversight is conducted periodically by senior management, who assess key information from across the business to support timely and responsible decisions, with the understanding that no system can fully eliminate exposure to adverse events.

Critical Accounting Estimates

The preparation of the consolidated financial statements in accordance with the IFRS requires the use of certain critical accounting estimates and assumptions that affect the amounts of assets and liabilities recognized as of the date of financial statements and the amounts of income and expenses during the reporting period. It also

requires CODELCO's management to exercise its judgment in the process of applying CODELCO's accounting principles. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are below. For a full description of CODELCO's accounting policies, see Section II to the Consolidated Financial Statements.

Useful Economic Lives and Residual Values of Property, Plant and Equipment. The useful lives and residual values of property, plant and equipment assets that are used for calculating depreciation are determined based on technical studies prepared by specialists (internal or external). When there are indicators that could lead to changes in the estimated useful lives of such assets, these changes are determined by using technical estimates considering specific factors related to the use of the assets.

Ore Reserves. The measurements of ore reserves are based on estimates of the ore resources that are economically exploitable and reflect the technical considerations of the Company regarding the amount of resources that could be exploited and sold at prices exceeding the total cost associated with extraction and processing.

CODELCO applies its judgment in determining its ore reserves and, as such, possible changes in these estimates could significantly impact the estimates of net revenues over time. For such reason, these changes would lead to modifications in the usage estimates of certain assets and of the amount of certain decommissioning and restoration costs.

CODELCO estimates its reserves and mineral resources based on the information prepared by the Competent Persons of the Company, as defined and regulated by Chilean Law No. 20,235. The estimates are based on the Joint Ore Reserves Committee (JORC) methodology, taking into consideration the historical information of the cost of goods sold and copper prices in the international market.

Impairment of non-financial Assets. CODELCO reviews the carrying amount of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment loss with regard to the carrying amount. In the evaluation of impairment, the assets are grouped into cash generating units ("CGUs") to which the assets belong. The recoverable amount of these assets or CGUs is calculated as the present value of the cash flows expected to be derived from such assets, considering a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. If the recoverable amount of the assets is less than their carrying amount, an impairment loss exists.

CODELCO defines the CGUs and also estimates the timing and cash flows that such CGUs should generate. Subsequent changes in the grouping of the CGU, or changes in the assumptions supporting the estimates of cash flows or the discount rate, could impact the carrying amounts of the corresponding assets.

Estimates of factors influencing the calculation of cash flows, such as the price of copper or treatment charges and refining charges, among others, are determined based on studies conducted by the Company, which are in turn supported by certain standards over time. Any changes to these criteria may impact the recoverable amount of the assets on which is performing the impairment tests. CODELCO's evaluations and definition of the CGUs are made at the level of each of its current operating divisions.

CODELCO has assessed and defined the CGUs that are constituted at the level of each of its current operating divisions, with the exception of the Ventanas Division Smelter and Refinery operations, which are analyzed separately.

In assessing impairment in subsidiaries and associates, CODELCO uses the higher of value in use or fair value less costs to determine the recoverable amount. This recoverable amount may consider elements such as Life of Mine (LOM), reserves and mining resources, among others, for mining operation evaluations. In addition, the evaluation may incorporate market variables such as the price of copper and other commodities, cost of production inputs, exchange rates, discount rates and other market information for long-term asset valuation.

Provisions for Decommissioning and Site Restoration Costs. CODELCO is obligated to incur decommissioning and site restoration costs when an environmental disturbance is caused by the development or

ongoing production of a mining property. Costs are estimated on the basis of a formal closure plan and are reassessed annually or as of the date such obligations become known.

Significant estimates and assumptions are made in determining the provision for decommissioning and site restoration costs, as there are numerous factors that will affect the ultimate liability payable. In order to establish such estimates, CODELCO: (i) creates a defined list of mine sites, installations and other equipment assigned to this process, considered at the engineering level profile; (ii) evaluates the assets that will be subject to removal and restoration, weighted by a structure of market prices of goods and services, and reflecting the best knowledge at the time to carry out such activities; and (iii) examines the techniques and more efficient construction procedures to date. In addition, CODELCO must make certain assumptions about the exchange rate for tradable goods and services and the discount rate applied to update the relevant cash flows over time, which reflects the time value of money and includes the risks associated with liabilities, which is based on the currency in which disbursements will be made.

The provision as of a reporting date represents management's best estimate of the present value of the future decommissioning and site restoration costs required. Changes to estimated future costs are recognized in the statement of financial position by adjusting the provision for decommissioning and site restoration costs as well as the associated asset measured in accordance with IAS 16, "Property, Plant and Equipment." Any reduction in the decommissioning and site restoration liability, and therefore any deduction from the decommissioning and site restoration asset, may not exceed the carrying amount of that asset. If it does, any excess over the carrying value is immediately accounted for as profit or loss.

If the change in estimate results in an increase in the decommissioning and site restoration liability, and therefore an addition to the carrying value of the asset, the entity is required to consider whether this is an indication of impairment of the asset as a whole and test for impairment in accordance with IAS 36 "Impairment of Assets." If the revised asset net of decommissioning and site restoration provisions exceeds the recoverable value, that portion of the increase is charged directly to profit or loss statement. Any decommissioning and site restoration costs that arose as a result of the production phase of a mine should be expensed as incurred.

The costs arising from the installation of a plant or other site preparation projects are discounted at net present value, provided for and capitalized at the beginning of each project, as soon as the obligation to incur such costs arises. These decommissioning costs are charged to profit over the life of the mine through depreciation of the asset. The depreciation is included in operating costs, while the unwinding of the discount in the provision is included in finance costs.

Accrual for Employee Benefits. Employee benefits costs for severance payments and health benefits for services rendered by the employees are determined based on actuarial calculations using the projected credit unit method and are charged to profit or loss on an accrual basis.

We use assumptions to determine the best estimate for these benefits. Such estimates, as well as assumptions, are determined together with an external actuary. These assumptions include demographic assumptions, mortality and morbidity, discount rate and expected salary increases and rotation levels, among other factors. Although we believe that the assumptions used are appropriate, a change in these assumptions could affect profit.

Accruals for open invoices. The substantial majority of copper produced by CODELCO is sold under annual contracts. Pricing on such contracts is based on prevailing monthly average prices quoted on the LME for a quotation period, generally the month following the scheduled month of shipment. CODELCO uses information on future copper prices, through which it recognizes adjustments to its revenues and trade receivables due to its provisional invoice. These adjustments are updated on a monthly basis. At the end of each month, CODELCO estimates and accounts for any change in the provisional sales price using information available at the time financial statements are generated. However, the amount estimated may differ from the amount received at settlement. Revenue is recorded at the time control of the asset is transferred to the customer according to the shipment or dispatch of the products, in conformity with the agreed-upon conditions and are subject to variations related to the content and/or sales price at their liquidation date. Notwithstanding the foregoing, there are certain contracts under

which control of the product is transferred to the client based on receipt of the product at the buyer's destination point, and for these contracts' revenue is recorded at the moment of such transfer.

Sales contracts include a provisional price at the shipment date, which final price is generally based on the price recorded in the LME. In the majority of cases, the recognition of sales revenue for copper and other commodities is based on the estimates of the future spread of metal price on the LME and/or the spot price at the date of shipment, with a subsequent adjustment made upon final determination and presented as part of "Revenue." The terms of sales contracts with third parties contain provisional pricing arrangements whereby the selling price for metal in concentrate is based on prevailing spot prices on a specified future date after shipment to the customer (the "quotation period"). As such the final price will be fixed on the dates indicated in the contracts. Adjustments to the sales price occurs based on movements in the LME up to the date of final settlement. The period between provisional invoicing and final settlement can be between one and nine months. Changes in fair value over the quotation period and up until final settlement are estimated by reference to forward market prices for the applicable metals.

Sales in the national market are recorded in conformity with the regulations that govern domestic sales as indicated in Articles 7, 8 and 9 of Law No.16,624, modified by Article 15 of Decree Law No.1,349 of 1976, on the determination of the sales price for the internal market.

Additionally, we recognize revenue for providing services, mainly related to the processing of minerals bought from third parties. Revenue is recognized when the performance obligation has been satisfied.

See "Business and Properties—Marketing—Pricing and Hedging" for information regarding hedge accounting.

Fair Value of Derivatives and Other Instruments. Management may use its judgment to choose an adequate and proper valuation method for the instruments that are not quoted in an active market. In the case of derivative financial instruments, assumptions are based on the observable market inputs, adjusted in conformity with the specific features of the instruments.

Lawsuits and Contingencies. We assess the probability of lawsuits and contingency losses on an ongoing basis according to estimates performed by our legal advisors. No provision is recognized for cases in which management and our legal advisors believe that (i) a favorable outcome will be obtained, (ii) the probability of a loss is remote or possible, but not probable, or, if probable, (iii) the amount of the obligation cannot be measured reliably.

Application of IFRS 16: includes the following:

- Estimation of the lease term
- Determine if it is reasonably certain that an extension or termination option will be exercised
- Determination of the appropriate rate to discount lease payments

Revenue recognition: CODELCO determines appropriate revenue recognition for its contracts with customers by analyzing the type, terms and conditions of each contract or agreement with a customer. As part of the analysis, the management must make judgments about whether an agreement or contract is legally enforceable, and whether the agreement includes separate performance obligations. In addition, estimates are required to allocate the total price of the transaction to each performance obligation based on the stand-alone selling price of the promised goods or services underlying each performance obligation. (CODELCO applies the constraint on variable consideration as defined in IFRS 15, if applicable).

Stripping costs: Costs incurred from removing mine waste materials (overburden) in open pits that are in production and that provide access to mineral deposits are recognized in property, plant, and equipment when the following criteria set out in IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine are met:

- it is probable that the future economic benefits associated with the stripping activity will flow to the entity;

- it is possible to identify the components of an ore body for which access has been improved because of the stripping activity; and
- the costs relating to that stripping activity can be measured reliably.

The stripping costs are amortized based on the units of production extracted from the ore body related to the specific stripping activity which generated this amount.

Although the abovementioned estimates have been made based on the best information available as of the date of issuance of these consolidated financial statements, it is possible that new developments could lead the Corporation to modify these estimates in the future. Such modifications, if any, would be adjusted prospectively, recognizing the effects of the change in estimate in future consolidated financial statements, as required by IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors.”

On the other hand, the costs of activities for the removal of sterile material during the production stage, whose benefit is realized in the form of produced inventory, must be recognized in accordance with IAS 2.

BUSINESS AND PROPERTIES

CODELCO is the world's largest copper producer and one of the largest companies in Chile in terms of revenues (U.S.\$17.0 billion in 2024). As of December 31, 2024, CODELCO's total assets were U.S.\$49.7 billion and equity amounted to U.S.\$11.3 billion. As of September 30, 2025, CODELCO's total assets were U.S.\$52.1 billion and equity amounted to U.S.\$11.2 billion.

CODELCO engages primarily in the exploration, development and extraction of ores bearing copper and byproducts, the processing of ore into refined copper and the international sale of refined copper and byproducts. CODELCO is 100% owned by the Chilean state and controls approximately 4.7% of the world's proved and probable copper reserves, as such terms are defined by the U.S. Geological Survey.

In 2024, CODELCO had an estimated 6.3% share of total world copper production, with production amounting to approximately 1.442 million metric tons, including: (i) CODELCO's share of the El Abra deposit, which is mined by Sociedad Contractual Minera El Abra and owned 49.0% by CODELCO and 51.0% by Cyprus El Abra Corporation (a subsidiary of Freeport-McMoRan Inc.); (ii) CODELCO's share of Anglo American Sur (of which CODELCO owns a 20.0% indirect share); and (iii) CODELCO's share of Quebrada Blanca (of which CODELCO owns a 10.0% share), and an estimated 6.2% share of the world's molybdenum production, with production amounting to approximately 16.0 metric tons excluding CODELCO's share of Anglo American Sur.

CODELCO's main commercial product is Grade A cathode copper. In 2024 and for the nine-month period ended September 30, 2025, CODELCO derived 92.4% and 93.1% of its total sales from copper and 7.6% and 6.9% of its total sales from byproducts of its copper production, respectively. The following table sets forth certain production, cost and price information relating to CODELCO for the years ended December 31, 2022, 2023, and 2024 and the nine-month periods ended September 30, 2024 and 2025:

**Copper Production, Cash Cost of Production and Price Information
(excluding El Abra, Anglo American Sur and Quebrada Blanca)
(production in thousands of metric tons and cash costs
and prices in cents per pound)**

	Year ended December 31,			For the nine-month period ended September 30,	
	2022	2023	2024	2024	2025
CODELCO's Copper Production	1,446	1,424	1,442	918.2	937.1
CODELCO's Cash Cost of Production	165.4	203.1	199.1	205.0	214.0
Average LME					
Price ⁽¹⁾	399.0	384.5	414.9	414.2	433.5

(1) Price for Grade A cathode copper.

CODELCO's mission is to maximize CODELCO's economic, environmental and social value and its contribution to the Chilean state in a sustainable manner, through its own operations and partnerships in copper, lithium and their by-products:

- *Capital Expenditure Program.* We seek to maintain and improve our competitive position in the industry through our three-year capital expenditure program. CODELCO expects to make capital expenditures of approximately U.S.\$17.2 billion between 2025 and 2027 (current project portfolio and mine development) in addition to U.S.\$279.0 million in its subsidiaries. We expect these expenditures to be funded with a combination of internal and external resources. For a complete list of planned capital expenditures, see "Business and Properties—Copper Production—Operations." CODELCO's expansion and development of major projects between 2025 and 2027 are expected to include:
- The Chuquicamata Underground Project, the gradual transformation of the Chuquicamata mine from an open pit mine to an underground operation. This project considers the exploitation of the mine in three levels. The first level started production in 2019 and comprised an initial investment of approximately

U.S.\$5.96 billion, and considers additional investments in infrastructure and mine development. The second and third levels are still in early engineering stages.

Within 2025-2027, CODELCO expects an investment of U.S.\$585.0 million on the continuity infrastructure of the first level (Phase I Project – construction progress of 85%) and expects to spend U.S.\$329.0 million in the first level expansion project (First Level Continuity Project), enabling the continuous growth of the current production level. Early studies for the exploitation of the second level are ongoing. The third level is still in the early engineering stages.

- The reallocation of a part of the Andina concentrator plant, which involves maintaining the treatment capacity of the plant using two production lines has been completed.
- The development of a new production level in the existing El Teniente underground mine (an approximate investment of U.S.\$2.20 billion between 2025 and 2027) to maintain El Teniente's annual copper production at its current level. The new mining level has been divided into three separate projects: (i) Andes Norte, (ii) Andesita, and (iii) Diamante. As of September 30, 2025, progress made on the structural projects was as follows: the Andes Norte project reached 80% completion, while the Diamante project reached 49% completion. At the end of September 2025, both projects obtained clearance from SERNAGEOMIN and the Labor Directorate, enabling the incorporation of key personnel and the implementation of a progressive return plan. Simultaneously, the Andesita project shall continue under review following the incident that occurred on July 31, 2025.
- The development of the Inca Pit project is designed to extend the production of the Salvador Division and is currently in ramp up. It requires an approximate investment of U.S.\$0.49 billion between 2025 and 2027 to finish remaining infrastructure. As of September 30, 2025, after the construction of the concentrator plant was completed, the project reached a 93% overall completion status.
- Radomiro Tomic expects the completion of the feasibility stage during 2026 of its new sulfide operation, concentrator plant and the continuity of leaching operations (an approximate investment of U.S.\$216.0 million between 2025 and 2027).

Improvement in operations. A number of improvement initiatives are underway to adopt best industry practices, most notably in the areas of labor productivity, asset utilization rates and process efficiency. Together with its capital expenditure investment program, CODELCO expects these initiatives to enhance its competitive position. CODELCO operates in a cyclical business and its strategy is to ensure that it is able to take full advantage of high copper prices. CODELCO is developing a number of plans to achieve production targets in the coming years. These plans mainly focus on reducing the risk of disruptions to production and providing increased flexibility to its operations.

Exploration Efforts. CODELCO controls the largest copper reserves worldwide, the Company's single most important long-term competitive advantage. The discovery of new mining resources and improving its ability to locate existing ore bodies and prospects are critical to CODELCO maintaining its preeminent position in the industry. Accordingly, the Company's exploration program will continue to be a key part of its business strategy.

Investment in Human Capital. The successful execution of CODELCO's business strategy relies on continuing to attract and retain a world-class management team and professionals of the highest caliber. The mining industry faces increased competition for workforce talent. As a result, the Company intends to continue improving career development opportunities for its staff and the overall attractiveness of CODELCO as a preferred employer.

Mining Association with Third Parties. CODELCO seeks to continue to develop and operate assets in association with third parties where these associations will add value to CODELCO's business. A few examples of the Company's willingness and ability to do so are (i) the association with Freeport-McMoRan Inc. in the El Abra copper mine (CODELCO owns 49.0%), (ii) the association with Anglo American, Mitsui and Mitsubishi Corporation in Anglo American Sur (CODELCO owns an indirect 20.0% interest), and (iii) the association with Teck Resources, Sumitomo Metal Mining and Sumitomo Corporation in Quebrada Blanca (CODELCO owns 10.0%). CODELCO believes its large mining reserve is a strong platform from which to establish such associations.

CODELCO may expand mining associations with third parties where it helps to optimize the operation of their respective mines.

Copper Production

General

The copper deposits in CODELCO's mines exist in two principal forms—sulfide ore and oxide ore. The majority of CODELCO's mines, including Chuquicamata and El Teniente, yield primarily sulfide ore. The ore extracted from the Radomiro Tomic deposit is copper oxide and sulfides. CODELCO produces refined copper from oxide and sulfide ore using different processes. CODELCO believes that having these two different forms of copper deposits gives it a high level of flexibility to respond to market changes by adjusting its production and utilizing the refining processes described below.

Sulfide Ores. Sulfide ores are found in CODELCO's open-pit and underground mines. In open-pit mines, the process of producing copper from sulfide ores begins at the mine pit. Waste rock and ores containing copper are first drilled and blasted and then loaded onto diesel-electric trucks by electric shovels. Waste is hauled to dump areas. In underground mines, copper ore is deposited on rail cars and transported to a crushing circuit where gyratory crushers break the ore into sizes no larger than three-fourths of an inch. In both types of mines, the ore is then transported to rod and ball mills which grind it to the consistency of powder. In the conventional concentrator/smelter/refinery process for sulfide ore, this finely ground ore is agitated in a water and chemical solution and pumped as a watery mixture to the flotation separator. The solution is then aerated, producing a froth which carries the copper minerals, but not the waste rock, to the surface. The froth is skimmed off and filtered to produce copper concentrates. The waste rock, called tailings, is sent to a tailings storage facility. The copper concentrates (which contain a copper grade of approximately 30.0%) are then sent to the smelter.

At the smelter, the concentrates are blended with fluxes and fed into reverberatory furnaces or a Teniente converter (a technologically advanced type of converter designed by CODELCO) where they are melted, producing "matte" and "slag." Matte from reverberatory furnaces contains approximately 45.0% copper, and matte from a Teniente converter contains approximately 75.0% copper. Slag is a residue of the smelting process containing iron and other impurities, which the Company disposes of with its other industrial solid waste. The matte is transferred by ladles to the converters and is oxidized in two steps. First, the iron sulfides in the matte are oxidized with silica, producing slag that is returned to the reverberatory furnaces. Second, the impurities in the matte sulfide are oxidized to produce blister copper. The blister copper contains approximately 98.5% copper. Some of the blister copper is sold to customers. The remainder is transferred to the electrolytic refinery.

After additional treatment in the anode furnace, the copper is cast into anodes and then moved to the refinery's electrolytic tank house. This anode copper is approximately 99.0% copper. In the electrolytic tank house, anodes are suspended in tanks containing an acid solution and copper sulfate. An electrical current is passed through the anodes and chemical solution to deposit clean copper on pure copper plates. The resulting refined copper cathodes are 99.99% copper. Silver and small amounts of other metals contained in the anodes settle on the bottom of the tanks and are recovered in a separate process.

Oxide Ores. Oxide ore is scarcer than sulfide ore and is typically found closer to the surface of the earth. A different process (called the SX-EW process) is used to produce refined copper from oxide ores, which CODELCO employs at its SX-EW facilities in Chuquicamata, El Teniente, Salvador, Gabriela Mistral and Radomiro Tomic. In the first step of the SX-EW process, copper oxide ore is mined, crushed and deposited into large piles. The piles are leached for a period of several days with a solution of sulfuric acid, resulting in the effusion from the piles of a solution with a high-concentration of copper. The copper solution is collected into large pools, from which copper is then recovered by solvent extraction, followed by a second recovery method called electrowinning, to produce high-grade copper cathodes. The SX-EW process involves lower overall refining costs and can be used with a lower grade of ore, than the traditional concentrator/smelter/refinery process. The SX-EW process also enables CODELCO to recover copper by re-leaching waste material left over from prior copper extractions.

Operations

CODELCO's copper operations are divided into the following eight divisions:

- The El Teniente Division operates the El Teniente mine, which is the world's largest underground copper mine and has been in operation for more than 100 years. The El Teniente Division includes the Caltones smelter. In 2024, this division produced 356,373 metric tons of copper, or 24.7% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 156.6 cents per pound, compared to 138.0 cents per pound in 2023, and a total cash cost of U.S.\$1,214.0 million in 2024, compared to U.S.\$1,060.0 million in 2023. During the first nine months of 2025, this division produced 234,334 metric tons of copper with a cash cost of 153.5 cents per pound and a total cash cost of U.S.\$782.4 million. On July 31, 2025, a seismic event occurred at the El Teniente mine, resulting in the tragic loss of six lives. The incident led to the suspension of operations across multiple sectors. As of the date of this offering memorandum, most areas have been authorized to resume their activities; however, operations in Recursos Norte and Andesita (part of the New Mine Level structural project) remain suspended. For more information, see "Recent Developments—Fatal accident at El Teniente Division."
- The Radomiro Tomic Division operates the Radomiro Tomic mine, which began its first full year of production in 1998. In 2024, this division produced 270,479 metric tons of copper cathodes, or 18.8% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 239.9 cents per pound, compared to 235.9 cents per pound in 2023, and a total cash cost of U.S.\$1,410.1 million in 2024 compared to U.S.\$1,617.2 million in 2023. During the first nine months of 2025, this division produced 214,220 metric tons of copper with a cash cost of 247.8 cents per pound and a total cash cost of U.S.\$1,151.2 million.
- The Chuquicamata Division operates the Chuquicamata mine, one of the largest copper producing mines in the world, which began its operations in 1915 and currently includes smelting and refining capacities. In 2024, this division produced 289,013 metric tons of copper cathodes, or 20.0% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 149.8 cents per pound, compared to 158.5 cents per pound in 2023, and a total cash cost of U.S.\$938.1 million in 2024, compared to U.S.\$851.7 million in 2023. During the first nine months of 2025, this division produced 169,600 metric tons of copper with a cash cost of 167.6 cents per pound and a total cash cost of U.S.\$612.7 million.
- The Mina Ministro Hales Division was created in 2010 for the operation of the Mina Ministro Hales ore body, which first began producing copper at the end of 2013. In 2024, this division produced 122,208 metric tons of copper, or 8.5% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 196.7 cents per pound, compared to 200.7 cents per pound in 2023, and a total cash cost of U.S.\$513.0 million in 2024, compared to U.S.\$539.4 million in 2023. During the first nine months of 2025, this division produced 105,262 metric tons of copper with a cash cost of 202.3 cents per pound and a total cash cost of U.S.\$454.2 million.
- The Andina Division currently operates the Sur open pit mine, where it carries out its mineral extraction activities. It does not have independent smelting capacity. Andina has been in operation since 1970. In 2024, this division produced 181,609 metric tons of copper, or 12.6% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 225.5 cents per pound, compared to 230.3 cents per pound in 2023, and a total cash cost of U.S.\$872.0 million in 2024, compared to U.S.\$807.0 million in 2023. During the first nine months of 2025, this division produced 127,467 metric tons of copper with a cash cost of 248.8 cents per pound and a total cash cost of U.S.\$675.4 million.
- The Gabriela Mistral Division was created in 2013 and operates the Gabriela Mistral mine, which uses SX EW technology. The Gabriela Mistral mine produced its first copper cathodes in 2008 after a 26

month construction period. In 2024, this division produced 103,075 metric tons of copper, or 7.1% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 271.3 cents per pound, compared to 292.5 cents per pound in 2023, and a total cash cost of U.S.\$617.0 million in 2024, compared to U.S.\$682.0 million in 2023. During the first nine months of 2025, this division produced 58,850 metric tons of copper with a cash cost of 370.5 cents per pound and a total cash cost of U.S.\$480.7 million.

- The Salvador Division operates the Salvador mine and concentrator and the smelter/refinery complex at Potrerillos, which has the capacity to treat 671,000 metric tons of concentrate. In 2024, this division produced 5,673 metric tons of copper cathodes, or 0.4% of CODELCO's total copper output (including CODELCO's share of the El Abra deposit, Anglo American Sur and Quebrada Blanca), with a cash cost of 170.3 cents per pound, compared to 575.5 cents per pound in 2023, and a total cash cost of U.S.\$25.8 million in 2024, compared to U.S.\$164.3 million in 2023. During the first nine months of 2025, this division produced 27,402 metric tons of copper with a cash cost of 241.6 cents per pound and a total cash cost of U.S.\$142.6 million.
- The Ventanas Division was created in connection with the acquisition of the Ventanas smelter/refinery complex from Chile's state-owned mining company ENAMI in 2005. In 2024, this division refined 287.2 thousand metric tons of copper, compared to 357.2 thousand metric tons of copper in 2023. During the first nine months of 2025, the Ventanas Division refined 201 thousand metric tons of copper. Pursuant to the terms of the acquisition, CODELCO is required to provide on market terms the necessary smelting and refining capacity for the treatment of copper concentrate delivered by the small- and medium-sized mining industry that ENAMI serves. In May 2023, Law No. 21,546 permitted the gradual closure of the Ventanas smelter/refinery complex and after almost 60 years of operation, the furnaces at Ventanas Division smelting plant were shut down. The transition of its former workers successfully concluded, with 58.8% of workers opting for an exit plan, 26.9% retrained for new roles at the Ventanas Division, and 14.3% relocated to other divisions, following the smelter's closure. CODELCO will continue to operate in the area through its refinery.
- The Chuquicamata Division, the Radomiro Tomic Division, the Mina Ministro Hales Division, the Gabriela Mistral Division and the Salvador Division form part of CODELCO's Northern Operations (*Operaciones Norte*). The Andina Division, the El Teniente Division and the Ventanas Division form part of CODELCO's Central Southern Operations (*Operaciones Centro Sur*). For a description of CODELCO's associations with other companies, see "Business and Properties—Copper Production—Associations, Joint Ventures and Partnerships."

CODELCO's copper production, including its share of the El Abra deposit, Anglo American Sur and Quebrada Blanca, increased to 1,441,887 metric tons during the twelve months of 2024 from 1,423,785 in 2023 and from 1,552,700 metric tons in the twelve months of 2022. This increase was mainly due to higher copper production at Chuquicamata, El Teniente Andina and the attributable production of Quebrada Blanca. Molybdenum production decreased by 7% in 2024 compared to 2023, from 17.2 thousand metric tons to 16.1 thousand metric tons.

The table below shows the production of copper from CODELCO's mines, as compared to private sector production in Chile, for years ended December 31, 2022, 2023 and 2024 and the nine-month periods ended September 30, 2024 and 2025:

Production of Copper from Chilean Mines (CODELCO and Private Sector)
(in thousands of metric tons)

	Year ended December 31,			For the nine-month period ended September 30,		% Change 2024/2025
	2022	2023	2024	2024	2025	
El Teniente Division.....	405	352	356	245	234	(4.5)
Radomiro Tomic Division.....	301	315	270	197	214	9.0
Chuquicamata Division	268	248	289	195	170	(13.0)
Mina Ministro Hales.....	152	126	122	65	105	62.8

Andina Division	177	165	182	140	127	(8.7)
Gabriela Mistral Division	110	106	103	77	59	(23.7)
Salvador Division	32	13	6	-	27	-
El Abra ⁽¹⁾	45	48	44	36	35	(2.9)
Anglo American Sur ⁽²⁾	62	51	49	34	31	(7.5)
Quebrada Blanca ⁽³⁾			21	-	14	-
CODELCO Total Production	1,553	1,424	1,442	987	1,016	2.9
Chilean Private Sector⁽⁴⁾	3,778	3,827	4,064	2,982	2,956	(0.9)
Total Chilean Production	5,330	5,250	5,506	3,969	3,972	0.1

(1) CODELCO's figures presented for El Abra include 49% of the mine's total production (the share of production which corresponds to CODELCO's 49% direct ownership interest in the mine). The balance of El Abra's production is included in the private sector figures.

(2) CODELCO's figures presented for Anglo American Sur include 20% of the mine's total production (the share of production which corresponds to CODELCO's 20% ownership interest in the mine). The balance of Anglo American Sur production is included in the private sector figures.

(3) CODELCO's figures presented for Quebrada Blanca include 10% of the mine's total production (the share of production which corresponds to CODELCO's 10% stake in the mine). The balance of Quebrada Blanca production is included in the private sector figures.

(4) Source: Chilean Copper Commission.

The table below shows the breakdown of CODELCO's own copper output for the years ended December 31, 2022, 2023 and 2024 and the nine-month period ended September 30, 2025:

Copper Output of CODELCO (excluding El Abra, Anglo American Sur and Quebrada Blanca)
(in thousands of metric tons)

	Year ended December 31,			For the nine-month period ended September 30,
	2022	2023	2024	2025
Cathodes	415	376	366	222
Blister and anodes	376	334	277	178
Calcines	136	110	101	96
Concentrates	514	504	570	439
Residues ⁽¹⁾			15	2
Total	1,446	1,324	1,328	937

(1) Includes Slag and RAF.

The following table sets forth CODELCO's initial capital expenditures budget for the period 2025-2027 by division, and for the executive offices, as approved by the Company's Board of Directors as part of CODELCO's BDP report, which is subject to the approval of the Ministries of Finance and Mining (capital expenditures are subject to change at the discretion of CODELCO). The capital expenditures budget is subject to an annual review and therefore may be subject to change.

Division	Estimated Investment ⁽¹⁾ (in millions of U.S.\$)
Chuquicamata	\$3,009
El Teniente	\$3,401
Andina	\$1,451
Radomiro Tomic	\$1,712

Salvador	\$1,086
Mina Ministro Hales	\$497
Gabriela Mistral	\$403
Ventanas.....	\$71
Executive Offices.....	\$554
Subsidiaries	\$279
Deferred expenses	\$4,980
Total.....	\$17,441

(1) Includes equipment replacement and facilities repair, contributions to subsidiaries and other.

The following table sets forth the estimated investment cost for each of CODELCO's principal expansion and development projects in each division (projects are subject to change at the discretion of the Company):

Division	Project	Status	Estimated Investment (in millions of U.S.\$)
El Teniente.....	New mining level (2025)	Execution ⁽¹⁾	6,204
Chuquicamata	Chuquicamata Underground (2019)	Initial Investment	5,964
Chuquicamata	Chuquicamata Underground (infrastructure)	Execution ⁽¹⁾	1,676
Andina	Reallocation Plant (2020)	Execution ⁽¹⁾	1,623
Salvador.....	Inca Pit (2021)	Execution ⁽¹⁾	2,677
Total			18,145

(1) Expenditures have been invested in projects in the execution stage.

The figures above reflect the estimated investments that CODELCO expected to make under its 2025 BDP report. CODELCO continues to evaluate the strategy for continuity projects of the Chuquicamata underground mine and its second level, the project portfolio arising from new business venues, and the execution of projects in early engineering stages (e.g. expansion of Gabriela Mistral's operation, use of chloride leaching in Radomiro Tomic), among others. Therefore, this medium-term period more reliably reflects CODELCO's commitments than a longer-term period, especially considering current industry trends.

El Teniente Division

Mining Operations. The El Teniente Division is the largest division of CODELCO, based on 2024 production, and operates the El Teniente underground mine located 80 kilometers southeast of Santiago. With the production of 443,220 metric tons in 2020, it is the world's largest underground copper mine. For information regarding the new mine level at the El Teniente mine, see "Summary—Competitive Strengths."

The El Teniente deposit is also a porphyry-type ore body. The deposit covers a vertical span of over 1,500 meters. A tabular subvertical dacite porphyry intrusion two kilometers long by 200 meters wide is well exposed in the northern part of the deposit, and a quartz-diorite stock is located at the southeast side. Wall rock are mostly andesites, which are strongly mineralized, containing a high concentration of chalcopyrite and bornite. The size of the deposit is at least three kilometers north-south and close to one kilometer wide.

El Teniente primarily produces concentrates that are smelted at the Caletones smelter. In addition to the principal mine at El Teniente, the division performs mining operations at several other areas of the main deposit, with a production of approximately 140,000 metric tons of ore per day. The Esmeralda area of the mine is the main producing mine area, producing approximately 36,750 metric tons of ore per day.

As of September 30, 2025, the El Teniente Division employed 3,935 persons and produced 234,334 metric tons of copper with a cash cost of 153.5 cents per pound and a total cash cost of U.S.\$782.4 million, as compared to 245,483 metric tons of copper with a cash cost of 162.7 cents per pound and a total cash cost of U.S.\$869 million during the first nine months of 2024.

In 2024, this division produced 356,373 metric tons of copper, with a cash cost of 156.6 cents per pound, and a total cash cost of U.S.\$1,214 million, compared to a production of 351,874 metric tons of copper, with a cash cost of 138.0 cents per pound and a total cash cost of U.S.\$1,060 million in 2023. In 2022, the El Teniente Division

produced 405,429 metric tons of copper at a cash cost of 105.2 cents per pound and a total cash cost of U.S.\$930.0 million.

Copper Production and Cash Cost—El Teniente Division
(production in thousands of metric tons and cash cost in cents per pound)

	Year ended December 31,			For the nine-month period ended September 30,
	2022	2023	2024	2025
Copper Production	405	352	356	234
Cash Cost	105.2	138.0	156.6	153.5

Smelting Operations. The El Teniente Division includes the Caletones smelter, which has the capacity to smelt 1.25 million metric tons of concentrate per year. The El Teniente mine supplies 1.29 million metric tons of concentrate per year to the Caletones smelter. The balance of concentrate processed by the smelter is brought by railway from the Andina Division, 300 kilometers away.

The Caletones smelter operates two Teniente modified converters, three Pierce Smith Converters and several refining furnaces and gas treatment plants. El Teniente has no electrolytic refining plant, and smelter output is sold as fire-refined copper or anodes to be refined at other facilities such as the Ventanas refinery or Chuquicamata.

On July 31, 2025, a seismic event occurred at the El Teniente mine, resulting in tragic loss of six lives. The incident led to the suspension of operations across multiple sectors. As of the date of this offering memorandum, most areas have been authorized to resume their activities; however, operations in Recursos Norte and Andesita (part of the New Mine Level structural project) remain suspended. For more information, see “Summary—Recent Developments—Fatal accident at El Teniente Division.”

Radomiro Tomic Division

The Radomiro Tomic deposit lies five kilometers north of the main pit at Chuquicamata. Radomiro Tomic began production at the end of 1997. The Radomiro Tomic mine is a state of the art facility, and the world’s largest producer of copper using the highly efficient SX-EW process.

During the first half of 2010, the Sulfide Phase I project was completed, which enables the treatment of 100,000 metric tons per day of sulfides from Radomiro Tomic in the Chuquicamata processing plants.

As of September 30, 2025, the Radomiro Tomic Division employed 1,469 persons and produced 214,220 metric tons of copper with a cash cost of 247.8 cents per pound and a total cash cost of U.S.\$1,151.2 million compared to 196,520 metric tons and a cash cost of 243.3 cents per pound and a total cash cost of U.S.\$1,039.3 million, in the same period of 2024.

In 2024, this division produced 270,479 metric tons of copper cathodes with a cash cost of 239.9 cents per pound and a total cash cost of U.S.\$1,410.1 million compared to 314,806 metric tons of copper, a cash cost of 235.9 cents per pound and a total cash cost of U.S.\$1,617.2 million in 2023. In 2022, this division produced 301,062 metric tons of copper at a cash cost of 205.6 cents per pound and a total cash cost of U.S.\$1,351.9 million.

On January 13, 2026, CODELCO submitted an EIA for the project “*Continuidad del Proceso de Lixiviación y Adecuaciones al Proyecto Minero División Radomiro Tomic*”, with the goal of extending the operating life of the chloride leaching process at an average annual rate of approximately 154 thousand metric tons per day from 2029 through 2058, and to update mine movements and the redistribution of mineral processing at the Radomiro Tomic Division. The project was conceived to remain within the mine life approved under Environmental Approval Resolution (*Resolución de Calificación Ambiental*, or “RCA”) No. 022/2016, and is expected to involve an investment of up to U.S.\$1.3 billion.

Copper Production and Cash Cost—Radomiro Tomic Division
(production in thousands of metric tons and cash cost in cents per pound)

	Year ended December 31,			For the nine-month period ended September 30,
	2022	2023	2024	2025
Copper Production Radomiro Tomic	301	315	270	214
Cash Cost Radomiro Tomic	205.6	235.9	239.9	247.8

Chuquicamata Division

Mining Operations. Located in the Atacama Desert, 1,200 kilometers north of Santiago and 240 kilometers east of the Chilean city of Antofagasta, the Chuquicamata mine has been in continuous operation since 1915. The Chuquicamata mine is currently operated primarily as an underground mine, predominantly producing sulfide concentrates, which are smelted and refined on site. The open pit at Chuquicamata is almost nine kilometers long in a north-south direction by five kilometers wide and one kilometer deep.

The Chuquicamata deposit is a porphyry-type ore body. The most important feature of the ore body is a north-south regional fault, the west fissure fault, which cuts the ore on the west side and creates a sharp limit on the deposit. An oxide ore zone was a large part of the deposit and has been almost totally mined out. The mine contains a supergene enrichment layer (a redeposit of copper, by natural forces, from higher to lower layers), which has a thickness of almost 800 meters near the center of the mine. Five kilometers north of Chuquicamata, the ore body narrows and merges with the Radomiro Tomic ore body. For information regarding the transformation of the Chuquicamata mine from an open pit mine to an underground operation, see “Summary—Competitive Strengths.”

Smelting Operations. Chuquicamata utilizes one Outokumpu flash furnace, five Pierce Smith converters and two Teniente converters to process 1.25 million metric tons of 29.6% copper concentrate per year. Chuquicamata performs all stages of copper production from the mining process through cathode production.

As of September 30, 2025, the Chuquicamata Division employed 3,900 persons and produced 169,600 metric tons of copper with a cash cost of 167.6 cents per pound and a total cash cost of U.S.\$612.7 million, compared to 194,846 metric tons with a cash cost of 137.1 cents per pound and a total cash cost of U.S.\$578.6 million during the first nine months of 2024.

In 2024, this division produced 289,013 metric tons of copper cathodes, with a cash cost of 149.8 cents per pound and a total cash cost of U.S.\$938.1 million, compared to 248,495 metric tons of copper at a cash cost of 158.5 cents per pound and a total cash cost of U.S.\$851.7 million in 2023 compared to 268,348 metric tons of copper at a cash cost of 127.4 cents per pound and a total cash cost of U.S.\$740.7 million in 2022.

Copper Production and Cash Cost—Chuquicamata Division
(production in thousands of metric tons and cash cost in cents per pound)

	Year ended December 31,			For the nine-month period ended September 30,
	2022	2023	2024	2025
Copper Production Chuquicamata	268	248	289	170
Cash Cost Chuquicamata	127.4	158.5	149.8	167.6

Mina Ministro Hales Division

Mining Operations. The Mina Ministro Hales Division was created in September 2010 for the operation of the Mina Ministro Hales ore body and delivered its first tons of copper during the last quarter of 2013.

As of September 30, 2025, Mina Ministro Hales employed 829 persons and produced 105,262 metric tons of copper with a cash cost of 202.3 cents per pound and a total cash cost of U.S.\$454.2 million, compared to 64,665 metric tons with a cash cost of 268.2 cents per pound and a total cash cost of U.S.\$370.7 million during the first nine months of 2024.

In 2024, this division produced 122,208 metric tons of copper, with a cash cost of 196.7 cents per pound, and total cash cost of U.S.\$513.2 million compared to 126,010 metric tons of copper, with a cash cost of 200.7 cents per pound, and a total cash cost of U.S.\$539.4 million in 2023, compared to 152,167 metric tons of fine copper at a cash cost of 129.5 cents per pound and a total cash cost of U.S.\$420.1 million in 2022.

Copper Production and Cash Cost—Mina Ministro Hales Division (production in thousands of metric tons and cash cost in cents per pound)

	Year ended December 31,			For the nine-month period ended September 30,
	2022	2023	2024	2025
Copper Production	152	126	122	105
Cash Cost	129.5	200.7	196.7	202.3

Smelting and Refinery Operations. The processing of minerals will be carried out in a stand-alone concentrator with processing capacity of 50,000 tons per day. Copper concentrates will be processed in a new roasting plant. The project also includes a new acid plant.

Gabriela Mistral Division

The Gabriela Mistral ore body is located in Chile's Second Region and began production in May 2008. On January 1, 2013, CODELCO created the Gabriela Mistral Division, which operates the Gabriela Mistral mine. Gabriela Mistral uses SX-EW technology and produced its first copper cathodes in May 2008 after a 26-month construction period at a cost of U.S.\$1.0 billion.

As of September 30, 2025, the Gabriela Mistral Division employed 488 persons and produced 58,850 metric tons of copper with a cash cost of 370.5 cents per pound and a total cash cost of U.S.\$480.7 million, as compared to 77,132 metric tons with a cash cost of 263.5 cents per pound and a total cash cost of U.S.\$448 million during the first nine months of 2024.

In 2024, this division produced 103,075 metric tons of copper, with a cash cost of 271.3 cents per pound and a total cash cost of U.S.\$617 million. In 2023, this division produced 105,825 metric tons of copper, with a cash cost of 292.5 cents per pound, compared to 109,523 metric tons of copper at a cash cost of 292.5 cents per pound in 2022, and a total cash cost of U.S.\$682 million in 2023, compared to U.S.\$666 million in 2022.

Copper Production and Cash Cost—Gabriela Mistral Division (production in thousands of metric tons and cash cost in cents per pound)

	Year ended December 31,			For the nine-month period ended September 30,
	2022	2023	2024	2025
Copper Production	110	106	1,103	59
Cash Cost	275.8	292.5	271.3	370.5

Andina Division

Mining Operations. The Andina Division currently operates the Sur open pit mine, located 50 kilometers northeast of Santiago, where it carries out its mineral extraction activities. For information regarding the Andina plant reallocation project, see “Summary—Competitive Strengths.” The Andina Division does not operate a smelter. Its production is processed at the Caletones smelter of El Teniente, at the Ventanas refinery or at the Salvador Division, and some of its concentrate is sold to ENAMI or other purchasers.

As of September 30, 2025, the Andina Division employed 1,560 persons and produced 127,467 metric tons of copper with a cash cost of 248.8 cents per pound and a total cash cost of U.S.\$675.4 million, as compared to 139,602 metric tons of copper with a cash cost of 212.7 cents per pound and a total cost of U.S.\$632 million during the first nine months of 2024.

In 2024, the Andina Division produced 181,609 metric tons of copper with a cash cost of 225.5 cents per pound, and total cash cost of U.S.\$872 million. In 2023, the division produced 164,545 metric tons of copper with a cash cost of 230.3 cents per pound and a total cash cost of U.S.\$807 million. In 2022, this division’s production reached 177,027 metric tons, with a cash cost of 187.5 cents per pound and a total cash cost of U.S.\$707 million.

The Río Blanco-Los Bronces porphyry-type deposit, one of the largest copper ore bodies in Chile, is partially owned by the Andina Division. The northwest portion of this deposit is owned by the Andina Division; Anglo Sur owns and operates the mines at Los Bronces and El Soldado along with the Chagres smelter and various mineral resources, including Los Sulfatos and San Enrique Monolito, located in the southwest portion of the deposit. The deposit is characterized by plentiful tourmaline and breccia rock bodies mineralized with copper sulfides, mostly calcopyrite. CODELCO’s portion of the deposit is four kilometers in length, in the northwest to southeast direction, with a maximum width of almost one kilometer.

Copper Production and Cash Cost—Andina Division (production in thousands of metric tons and cash cost in cents per pound)

	Year ended December 31,			For the nine-month period ended September 30,
	2022	2023	2024	2025
Copper Production	177	165	182	127
Cash Cost	187.5	230.3	226	248.8

With the aim to increase the processing output of the Andina Division, CODELCO completed the Andina Phase I Expansion Project in 2010. While the Andina Division had plans to continue investing to expand the mine and increase copper production by an additional 350,000 tons of copper per year, the Company is currently reformulating its plans in order to create an alternative that should require less investment, while at the same time seeking to minimize the environmental impact and prolong the life of the Andina Division.

Salvador Division

Mining Operations. The Salvador Division is the smallest of CODELCO’s divisions. The complex includes the mine and concentrator at Salvador and a smelter/refinery at Potrerillos. The Salvador mine is located 900 kilometers north of Santiago and 120 kilometers east of the Chilean port of Chañaral. Concentrates are transported 67 kilometers from the mine to the smelter at Potrerillos via pipeline and truck.

The Salvador Division has the smallest base reserve of ore among all of CODELCO’s divisions. The Salvador deposit is a typical medium-sized porphyry-type ore body. There is an 80- to 200-meter thick leached capping covering a lensoid-shaped enrichment layer roughly one kilometer in diameter that attains a maximum thickness of about 250 meters.

As of September 30, 2025, Salvador employed 1,472 people and produced 27,402 metric tons of copper cathodes with a cash cost of 241.6 cents per pound and a total cash cost of U.S.\$142.6 million, compared to no production in the same period of 2024, when the total cash costs amounted to U.S.\$11.4 million for the first nine months.

In 2024, this division's produced 5,673 metric tons of copper cathodes with a cash cost of 170.3 cents per pound, and total cash cost of U.S.\$25.8 million. In 2023, production reached 13,000 metric tons with a cash cost of 575.5 cents per pound and a total cash cost of U.S.\$164.3 million. In 2022, the division produced 32,065 metric tons of fine copper at a cash cost of 389.6 cents per pound and a total cash cost of U.S.\$271.7 million. The division began the ramp-up phase of the Rajo Inca project in December 2024. As of September 30, 2025, after the construction of the concentrator plant was finalized, the project reached a 93% overall completion status.

Copper Production and Cash Cost—Salvador Division
(production in thousands of metric tons and cash cost in cents per pound)

	Year ended December 31,			For the nine-month period ended September 30,
	2022	2023	2024	2025
Copper Production	32	13	6	27
Cash Cost	389.6	575.5	170.3	241.6

Smelting Operations. The smelting and refining operation is located at Potrerillos. This facility includes one Teniente converter and four Pierce Smith converters for a rated annual capacity of 671,000 metric tons of concentrate. CODELCO increased capacity of the Potrerillos smelter in 2004.

Ventanas Division

Smelting and Refinery Operations. The Ventanas Division was created in connection with the acquisition of the Ventanas smelter/refinery complex from Chile's state-owned mining company ENAMI in 2005. In 2023, this division refined 357.2 thousand metric tons of copper, compared to 370.7 thousand metric tons of copper in 2022. During the first nine months of 2025, the Ventanas division refined 201 thousand metric tons of copper. Pursuant to the terms of the acquisition, CODELCO is required to provide on market terms the necessary smelting and refining capacity for the treatment of copper concentrate delivered by the small- and medium-sized mining industry that ENAMI serves. As of September 30, 2025, the Ventanas Division employed 448 persons. In June 2022, CODELCO's Board of Directors approved the decommissioning of the smelter in the Ventanas Division. In December 2022, a change in law was approved in Congress allowing CODELCO to smelt copper concentrates at smelters other than those of the Ventanas Division. In January 2023, the Mining and Energy Commission of the Upper House approved the articles particular to the bill setting definitions regarding the future installation of the new smelting capacity, and its compatibility with the environmental safety and the protection of people's health, among others. In May 2023, the bill was approved and after almost 60 years of operation, the furnaces at the Ventanas Division smelting plant were shut down. The transition of its former workers successfully concluded, with 58.8% of 350 workers opting for an exit plan, 26.9% retrained for new roles at the Ventanas Division, and 14.3% relocated to other divisions, following the smelter's closure. CODELCO will continue to operate in the area through its refinery.

Associations, Joint Ventures and Partnerships

CODELCO has undertaken several projects, business ventures and associations with certain private sector mining and non-mining enterprises, including:

- *SCM El Abra:* In 1994, CODELCO (49.0%) formed a company, SCM El Abra, with Cyprus El Abra Corporation (51.0%), a subsidiary of Freeport-McMoRan Inc., to develop the El Abra mine in northern Chile. The mine is a porphyry copper open-pit facility located 105 kilometers north of the city of Calama at an altitude of 3,900 meters above sea level. Constructed at a cost of U.S.\$1.1 billion, it is designed to produce 225,000 metric tons of copper per year and includes one of the world's largest SX-EW facilities. The El Abra project

was originally financed by a U.S.\$850.0 million syndicated loan, which was repaid in full in 2004.

- In 2009, SCM El Abra approved resuming construction activities for the Sulfolix Project, which had been deferred as a result of market conditions at the end of 2008, to extract and process (by the leaching process) sulfide ores, which is expected to extend mine life by 13 years and enable El Abra to produce at least 125,000 metric tons of fine copper per year. This project contains approximately 1.2 billion metric tons of leachable oxide and sulfide copper, with an average ore grade of 0.4%. The project started producing sulfides, shifting from an oxide operation, during the first quarter of 2011 and is expected to generate the last cathode in 2029. The Sulfolix Project requires approximately U.S.\$565.0 million of initial equity and an additional U.S.\$160.0 million to sustain the operations. The project is financed by SCM El Abra's retained earnings.
- In 2024, SCM El Abra produced 99,096 metric tons of fine copper with a cash cost of 2.92 cents per pound. The project had delivered total dividends of U.S.\$6.0 million in 2019 and CODELCO had received U.S.\$3.0 million in dividends in 2019. The project did not deliver dividends in 2020. The project had delivered total dividends of U.S.\$0.4 million in 2021, and CODELCO had received U.S.\$0.2 million in dividends in 2021. The project had delivered total dividends of U.S.\$51.4 million in 2022, and CODELCO had received U.S.\$25.2 million in dividends in 2022. The project did not distribute any dividends in 2023 and 2024. As of December 31, 2024, the carrying value of SCM El Abra's ownership interest was equal to U.S.\$735.5 million.
- Freeport McMoRan plans to invest U.S.\$7.5 billion to expand the El Abra mine, including the construction of a new concentrator plant, a sea water desalination plant and a desalinated water pipeline. The project aims to produce 340,000 metric tons of copper per year starting in 2033, with an environmental impact study to be submitted by January 2026.
- *Anglo American Sur*: On December 19, 2008, CODELCO purchased from ENAMI for U.S.\$175.0 million an option to purchase up to 49.0% of the equity interests of Anglo American Sur, a wholly-owned subsidiary of Anglo American, for a price to be determined by a prescribed formula based on a multiple of historic earnings (the "Sur Option"). Anglo American Sur owns and operates the mines at Los Bronces and El Soldado, the Chagres Smelter and various mineral resources, including Los Sulfatos and San Enrique Monolito. In October 2011, CODELCO announced that it had arranged for a bridge loan of up to U.S.\$6.75 billion from Mitsui that would allow it to exercise the Sur Option and indicated its intent to exercise the Sur Option during the next window for its exercise, which would occur in January 2012. On November 9, 2011, Anglo American announced that it had sold 24.5% of the equity interests of Anglo American Sur to affiliates of Mitsubishi Corporation. Following this sale, CODELCO announced that it retained the right to acquire up to 49.0% of the equity interests of Anglo American Sur and requested from the Santiago Court of Appeals a legal order preventing further sales of equity interests of Anglo American Sur until CODELCO was able to exercise the Sur Option. The requested legal order was granted and, on January 2, 2012, CODELCO exercised the Sur Option to purchase 49.0% of the equity interests of Anglo American Sur. Prior to and after the exercise of the Sur Option, Anglo American and CODELCO were involved in additional legal proceedings relating to the exercise of the Sur Option, which were ultimately settled pursuant to the settlement agreement described below.
 - On August 23, 2012, CODELCO and Anglo American entered into a settlement agreement to settle their respective claims in relation to the Sur Option. In connection with this settlement agreement, CODELCO and Anglo American agreed that Becrux, then a wholly-owned subsidiary of Acrux, an entity owned by CODELCO and Mitsui in the manner described below, would acquire 29.5% of the equity interests in Anglo American Sur pursuant to the following transactions:
 - On August 24, 2012, Becrux acquired (i) shares representing 24.5% of the equity interests of Anglo American Sur for a purchase price of U.S.\$1.7 billion, which was financed through a draw down by an affiliate of CODELCO on the A&R Mitsui Bridge Loan Facility described under "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Other Debt;" and (ii) shares representing 0.9% of the equity interests of Anglo American Sur for a purchase price of U.S.\$206.8 million, which was financed by cash contributions made by Mitsui; and

- On September 14, 2012, Becrux acquired shares representing 4.0% of the equity interests of Anglo American Sur for a purchase price of U.S.\$893.2 million, which was financed by cash contributions made by Mitsui.
- As part of the settlement agreement, Anglo American Sur transferred to CODELCO certain undeveloped mining properties, Los Leones and Profundo Este, which are located to the east of CODELCO's Andina mine, and the shareholders of Anglo American Sur entered into a shareholders' agreement that provides a framework for the ongoing governance of Anglo American Sur, which includes board representation and participation in certain decisions for Becrux.
- Immediately following the acquisition of 29.5% of the equity interests of Anglo American Sur, affiliates of CODELCO and Mitsui owned approximately 83.0% and 17.0%, respectively, of the equity interests of Acrux. In connection with the refinancing of the A&R Mitsui Bridge Loan Facility described above under "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Other Debt," an affiliate of Mitsui exercised its right to acquire from an affiliate of CODELCO at the closing of the refinancing a number of equity interests of Acrux representing a 4.5% stake in Anglo American Sur for a purchase price equal to U.S.\$998.0 million. This amount was used to prepay a portion of the bridge loan previously drawn down by an affiliate of CODELCO under the A&R Mitsui Bridge Loan Facility in connection with the transactions described above. Following the consummation of this transaction, affiliates of CODELCO and Mitsui owned approximately 67.8% and 32.2%, respectively, of the equity interests of Acrux. Consequently, CODELCO indirectly owns a 20.0% interest in Anglo American Sur.
- On November 26, 2016, CODELCO signed a credit agreement with Oriente Copper, an affiliate of Mitsui, renegotiating the payment of principal at the end of the contract. The terms established an annual interest rate of LIBOR +2.5% with a five-year maturity to be payable in one installment at maturity with semi-annual interest payments. On May 26, 2017, CODELCO signed a new credit agreement with Mitsui renegotiating the following semi-annual payment, which was on the same terms as the first renegotiation done in November 2016.
- On December 21, 2017, CODELCO and Mitsui agreed to merge Acrux into Becrux, as the surviving entity. The reorganization did not affect the interest that CODELCO and Mitsui indirectly hold in Anglo American Sur.
- Anglo American Sur fine copper production was 220,617 metric tons in 2024 with a cash cost of 260 cents per pound, compared to 255,041 tons in 2023 with a cash cost of 299 cents per pound and 311,036 tons in 2022 with a cash cost of 213 cents per pound. Anglo American Sur distributed U.S.\$22.7 million in 2020, U.S.\$270.6 million in 2021, U.S.\$138.4 million in 2022, zero in 2023 and zero in 2024 in cash dividends to Becrux, which is an indirectly owned subsidiary of CODELCO. As of December 31, 2024, the carrying value of equity of Anglo American Sur was equal to U.S.\$2.2 billion. CODELCO has a 20.0% indirect participation in Anglo American Sur. See "Risk Factors." A substantial amount of our total assets are property, plant and equipment.
- On September 16, 2025, CODELCO and Anglo American Sur announced that they had entered into a binding agreement on September 15, 2025, to collaborate on an alliance aimed at enhancing the development of the Andina-Los Bronces mining district through the implementation of a Joint Mine Plan. This plan is expected to enable an increase in copper production and will allow both companies to capture a significant incremental value. A fundamental principle is that Andina from CODELCO and Los Bronces from Anglo American Sur will retain full ownership of their respective mining concessions, processing plants, and tangible assets, as outlined in the MoU. The binding agreement is based on the terms agreed to in a memorandum of understanding signed in February 2025 and incorporates the results of detailed due diligence, and the agreement of detailed commercial, legal and technical terms.
- *SCM Purén*: CODELCO (35.0%) and Compañía Mantos de Oro (65.0%), a subsidiary of Kinross Gold Corp., are owners of SCM Purén. SCM Purén's mining activities, located in the Atacama Region, east of the city of

Copiapó, began in November 2005, having produced over 823,000 ounces of gold equivalent. In 2015, the company distributed U.S.\$2.5 million in dividends to CODELCO. Between 2019 and 2024, the company did not issue dividends. SCM Purén mines gold and silver ore through an open pit operation. Currently, SCM Purén is exploiting Phase 2 of the project and processing the extracted ore at La Coipa processing plant, a facility owned by Compañía Mantos de Oro.

- *Nuevo Cobre S.A. (formerly Agua de la Falda S.A.):* CODELCO (42.26%) and Rio Tinto (57.74%), a subsidiary of Rio Tinto plc, are owners of Nuevo Cobre S.A., formerly named Agua de la Falda S.A., which was created in 1996 to explore and exploit the Agua de la Falda gold deposit that was in production until 2005. Nuevo Cobre holds prospective mining properties in the Atacama Region, about 10 km southeast from Potrerillos and it aims to explore and develop copper deposits on those properties. On May 12, 2025, CODELCO and Rio Tinto Chile signed a collaboration agreement aiming to evaluate opportunities, identify synergies, reduce risks and accelerate the potential development of the mining district including Nuevo Cobre and other opportunities 100% owned by CODELCO.
- *Inca de Oro S.A.:* CODELCO (33.85%) and Minera PanAust IDO Limitada (66.15%) own Inca de Oro S.A., which was created in 2009 to explore, exploit and process mineral resources in Chile. The Inca de Oro project development was halted in 2014.
- *Cobrex Prospeccao Mineral S.A:* CODELCO (42.06%) and Glencore Exploração Mineral do Brasil Ltda (57.94%), which was created in 2013 to engage in mining ventures in Brazil and abroad, including exploration, extraction, and commercialization of mineral resources, as well as managing its own or third-party assets. As of January 14, 2024, CODELCO's ownership in Cobrex Prospeccao Mineral S.A decreased from 51% to 42.06%, transitioning it from a subsidiary to an associate, following the termination of an exploration contract that reduced CODELCO's stake to 42.06%.
- *Deutsche Giessdraht GmbH:* CODELCO (40.0%) and Aurubis AG (60.0%) own Deutsche Giessdraht GmbH, a German corporation located in Emmerich, Germany. The company, which has been in existence since 1975, produces continuous copper cast wire rod. CODELCO indirectly supplies copper to Deutsche Giessdraht GmbH. On July 31, 2018, CODELCO sold its 40.0% ownership stake in Deutsche Giessdraht GmbH to its partner Aurubis AG after receiving approval of the transaction by Germany's federal antitrust regulator (*Bundeskartellamt*). The sale included an agreement which allowed CODELCO to produce wire rod until December 31, 2018 to fulfill its sales contract obligations that expired at the end of 2018.
- *GNL Mejillones S.A.:* Due to the decrease and eventual termination of natural gas supply from Argentina, electrical power generation companies have experienced diminished electricity generation. For this reason, CODELCO and Suez Energy Andino S.A. through GNL Mejillones constructed an LNG re-gasification plant, which has been operating since the beginning of 2010. GNL Mejillones has the capacity to receive, process and store natural gas, with a send-out capacity of 5.5 million of cubic meters of gas per day, originating in Trinidad and Tobago and purchased from SUEZ Global LNG Ltd. under a long-term supply contract. The LNG storage tank is currently in operation. GNL has entered into a long-term agreement with E-CL for the re-gasification and storage of approximately 15 trillion BTU (British Thermal Unit).
 - GNL Mejillones provides gas required by the electricity power plant in the National Electric System (*Sistema Eléctrico Nacional*, or "SEN"), which supplies power to CODELCO's operations. The project partners have financed this project under existing take-or-pay contracts with CODELCO and other mining companies.
 - As of June 30, 2019, CODELCO owned 37.0% of the outstanding shares of the company, and Suez Energy Andino S.A. owned the remaining 63.0% of the shares.
 - On August 6, 2019, CODELCO completed the sale of its 37.0% stake in GNL Mejillones S.A. to Ameris Capital AGF, for an amount of U.S.\$193.5 million.
- *Planta Recuperadora de Metales SpA:* In December 2012, CODELCO (34.0%) together with LS MnM (66.0%) formed Planta Recuperadora de Metales SpA, the purpose of which is to process intermediate products derived

from the copper refining process to recover precious metals and byproducts contained in these substances and transform them into commercial products. This entity developed and built a processing plant located in Mejillones, in the Antofagasta region, which began its commissioning process in 2016. A 20-year contract regulates the treatment of anodic slimes produced at CODELCO refineries for the recovery of precious metals.

- *Salar de Maricunga SpA*: In April 2017, CODELCO formed Salar de Maricunga SpA (“Salar de Maricunga”) to develop projects for the exploration and exploitation of lithium in Chile. In March 2018, Salar de Maricunga entered into a special lithium operation contract with the Government of Chile which allows it to explore and exploit lithium (which is generally not a concessionable mineral, except in certain limited cases provided by law) from the Maricunga salt flat in the northern Atacama Region of Chile. In 2019, CODELCO started to gather environmental and social data to prepare the submission of an environmental impact declaration for exploring the Maricunga salt flat. In November 2020, CODELCO was granted the environmental authorization to explore lithium resources in some of its mining rights in the Maricunga salt flat. During 2021, CODELCO continued to receive the approvals of the different sectoral permits necessary to begin the exploration work in the Maricunga salt flat. The exploration campaign began in February 2022 and ended in June 2023. In March 2024, Salar de Maricunga indirectly acquired Minera Salar Blanco S.A., holder of the Blanco Project in the Maricunga salt flat. In May 2025, CODELCO announced a binding agreement with Rio Tinto for the acquisition of a 49.99% stake in Salar de Maricunga. As part of the agreement, Rio Tinto will contribute up to \$850.0 million to Salar de Maricunga, which may increase up to \$900.0 million depending on the production start date. The transaction is expected to close in the first half of 2026, subject to the fulfillment of precedent conditions and the obtainment of antitrust approvals in the applicable jurisdictions.
- *Compañía Minera Teck Quebrada Blanca S.A.*: On September 5, 2024, CODELCO purchased from ENAMI for U.S.\$520.0 million a 10.0% equity interest in Compañía Minera Teck Quebrada Blanca S.A. This company owns and operates the Quebrada Blanca mine in the Tarapacá Region, 240 kilometers from Iquique. In 2023, Quebrada Blanca completed the next stage of the original mine, called Quebrada Blanca Phase 2, which includes the operation of an open-pit mine, concentrator plant, desalination plant and all supporting facilities. The ramp-up started in 2023 and by December 2024 achieved design throughput rates. Quebrada Blanca’s fine copper production was 207,800 metric tons in 2024.
- *Minera Tarar SpA, (Salar de Atacama)*: In May 2023, CODELCO formed Minera Tarar SpA (“Minera Tarar”) to develop projects for the exploration and exploitation of lithium in Chile, specifically to undertake operations in the Atacama salt flat pursuant to the SQM Partnership Agreement and a lease agreement with CORFO to extract lithium from the Atacama salt flat from 2031 to 2060 (the Salar Futuro Project). The SQM Partnership Agreement aims to ensure continued lithium production from 2031 to 2060 with cleaner technologies and high environmental standards.
- *Technology and Research and Development Partnerships and Associations*: CODELCO has entered into associations with companies and organizations that are world leaders in research and development to increase the integration of knowledge and innovation into mining processes. The following is a representative list of such associations:
 - *CODELCOTec SpA*: CODELCO established CODELCOTec SpA (formerly, BioSigma S.A.) (“CODELCOTec”) in 2002 with the Japanese company JX-Nippon Mining and Metals Corporation (“JX-Nippon Mining”) and has since increased its participation to 99.0% following the exit of JX-Nippon Mining in 2016. CODELCOTec’s mission was the development of mining and metallurgy technological innovations, commercial development of processes and technology in the field of genomics, proteomics, and bioinformatics for the mining sector, and, in general, application of systems based on microorganisms, analysis, research, invention and creation, development, and implementation of new applications, processes, and uses for copper, molybdenum, lithium, and other byproducts of mining processes, insofar as they are directly related to greater use of copper. CODELCOTec’s mission also includes technological monitoring of copper substitutes, representation of domestic or foreign companies and individuals or legal entities, sale and purchase, distribution, trading, import and export of such substitutes and other activities relating to the foregoing. During 2024, CODELCOTec was liquidated.

- *Kairos Mining S.A.*: Kairos Mining S.A. is a company created in 2006 in association with Honeywell Chile S.A., which owns 60.0% (CODELCO owns the remaining 40.0%). Kairos Mining S.A.'s purpose is to provide services for the automation and control of industrial and mining activities, and to supply related technology and software licenses;
- *Ecosea Farming S.A.*: CODELCO, through its subsidiary Innovaciones en Cobre S.A., was a 91.3% shareholder in EcoSea Farming ("EcoSea"), a technology-driven company setting the standard for aquaculture on a global scale. The company's objective was to incorporate the use of metallic copper alloy meshes for fish cultivation systems, in order to take advantage of the various benefits of copper: antimicrobial, antifouling, anti-predator, mechanically strong and infinitely recyclable. In addition, EcoSea discovered new properties that allow for lower operational costs and the expansion of offshore aquaculture in exposed areas. During 2018, CODELCO sold the technology assets of EcoSea to a group of investors and EcoSea was liquidated and dissolved.

The following table sets forth the major mining and exploration agreements to which CODELCO is a party as of September 30, 2025:

Major Mining and Exploration Agreements (As of September 30, 2025)

	<u>Partner</u>	<u>Type</u>
Mining Co-participation in Chile		
SCM El Abra	Freeport-McMoRan Inc. (USA)	Copper
Nuevo Cobre S.A	Rio Tinto Chile Dos SpA (Chile)	Gold
SCM Purén	Compañía Minera Mantos de Oro (Chile)	Gold/Silver
Inca de Oro S.A.	PanAust Minera IDO Limited (Australia)	Copper
Anglo American Sur S.A.	Anglo American Clarent (UK) Ltd, Inversiones Anglo American Sur S.A., MC Resources Development Ltd. And Inversiones Mineras Becrux SpA	Copper
Compañía Minera Teck Quebrada Blanca S.A.	Quebrada Blanca Holding SpA (Chile)	Copper
Exploration Agreement Projects		
Chile		
Puntilla Galenosa	Sociedad Punta del Cobre S.A. (Chile)	Copper
International		
Liberdade	Lara Exploration (Brazil)	Copper/Gold
JV CODELCO-Glencore	Glencore (Brazil)	Copper
Grupo Propiedades	Empresa Nacional Minera de Ecuador (Ecuador)	Copper

CODELCO reports its inventory of mining assets, distinguishing mineral resources and mineral reserves, according to Chilean and international regulation. The system described below for categorizing mineral ore, which is widely used within the mining industry, is codified in Law No. 20,235 and is regulated by an independent Chilean private entity called the *Comisión Calificadora de Competencias en Recursos y Reservas Mineras* (the Commission for the Qualification of Competencies in Mineral Resources and Reserves, or "CQCMRR"). The CQCMRR is part of the Committee for Mineral Reserves International Reporting Standards (CRIRSCO).

Additionally, given the scale of its deposits, CODELCO also reports geological resources as a measure of sizing and to reflect the full potential of its mineral assets.

Geological Resources

Geological resources are concentrations or occurrences of materials in such form, quantity (tonnage and ore grade) and quality, based on specific geological evidence and knowledge, which allow for the calculation of the amount, ore grade and quality of the material with some level of confidence. *Geological resources* are identified and evaluated through exploration, reconnaissance and sampling. They are estimated based on geological knowledge

about the deposit, which is based on scientific concepts concerning the formation of minerals such as oxides, sulfides and mixed ores, as well as available knowledge concerning the geological continuity of the mineralized sectors. This is based on technical parameters, such as robustness of the genetic-geological model, and its validation through drillings. *Geological resources* are further categorized as *measured*, *indicated* and *inferred*.

A geological resource is considered to be *measured* if CODELCO’s knowledge of the resource is extensive and direct; if CODELCO’s knowledge of the resource is substantial but less extensive, it is considered to be *indicated*; and if CODELCO’s knowledge of the resource is only indirect, it is considered to be *inferred*.

Mineral Resources

Once CODELCO has achieved increased knowledge about its *geological resources*, it is able to generate a long-term mining plan for the exploitation of such resources, which are then considered to be *mineral resources*. Mineral resources, as well as geological resources, are sub-categorized as *measured*, *indicated* and *inferred*.

Ore Reserves

Ore reserves are defined as the economically mineable part of *mineral resources*. They include diluting materials and allowances for losses, which may occur when the material is mined. Appropriate assessments and studies have been carried out, which take into account rationally assumed mining, metallurgical, economic, marketing, legal, environmental, social and governmental factors. These assessments address at the time of reporting whether extraction is justified. *Ore reserves* are sub-divided in order to increase confidence from *probable ore reserves* to *proved ore reserves*. Ore reserves are a subset of *mineral resources* in the same way as *mineral resources* are a subset of *geological resources*. The following diagram sets forth the relationships among the different categories of resources and reserves:

Based on the methods and categories previously described, CODELCO's proven and probable reserves amounted to 42.6 million metric tons of fine copper as of December 31, 2024. CODELCO's mineral resources totaled 146.0 million metric tons of fine copper as of the same date. When considering only measured and indicated mineral resources, CODELCO's portfolio includes 81.5 million metric tons of fine copper. Including geological resources, as previously defined, CODELCO's total resource base comprises 390.1 million metric tons of fine copper, for a cutoff grade 0.2% copper, as of December 31, 2024.

	Reserves⁽¹⁾		
	Tonnage⁽²⁾	Grade copper	Fine copper⁽²⁾
Radomiro Tomic	2,103	0.49	10.2
Chuquicamata	1,221	0.63	7.7
Ministro Hales	521	0.73	3.8
Gabriela Mistral	168	0.35	0.6
Salvador	765	0.49	3.8
Andina	953	0.82	7.8
El Teniente	1,057	0.83	8.8
Business and Subsidiaries	772	0.47	3.6
Total	7,561	0.61	46.3

(1) Proven and Probable

(2) In millions of metric tons.

	Mineral Resources⁽¹⁾		
	Tonnage⁽²⁾	Grade copper	Fine copper⁽²⁾
Radomiro Tomic	6,549	0.41	27.0
Chuquicamata	2,681	0.62	16.6
Ministro Hales	1,981	0.71	14.1
Gabriela Mistral	544	0.30	1.6
Salvador	2,255	0.48	10.9
Andina	4,983	0.73	36.5
El Teniente	5,390	0.73	39.3
Business and Subsidiaries	4,962	0.50	24.8
Total	29,344	0.58	170.8

(1) Measured, Indicated and Inferred

(2) In millions of metric tons

	Geological Resources⁽¹⁾		
	Tonnage⁽²⁾	Grade copper	Fine copper⁽²⁾
Radomiro Tomic	8,115	0.40	32.5
Chuquicamata	14,352	0.43	61.0
Ministro Hales	2,573	0.69	17.6
Gabriela Mistral	2,177	0.32	7.1
Salvador	3,768	0.39	14.7
Andina	21,996	0.61	135.0
El Teniente	16,224	0.57	91.7
Other Deposits	3,190	0.34	10.8
Artificial resources	5,633	0.35	19.7
Total	78,027	0.50	390.1

(1) Geological resources as defined above. Cut-off grade 0.2% copper.

(2) In millions of metric tons.

The following table sets forth the copper holdings of the world and of CODELCO using the U.S. Geological Survey system as of December 31, 2024:

World (in millions of tons)	CODELCO (in millions of tons) ⁽²⁾	CODELCO's share (%)

Identified Resources ⁽¹⁾	1,500	390.1	26.01%
Proved and Probable Reserves	980	46.3	4.72%

(1) As defined by the U.S. Geological Survey (January 2025) and with reference to “identified resources.”

(2) Refers to copper holdings that are measured, indicated and inferred.

Each year, the Board of Directors must approve a long-term BDP of the Company. The first three years are subject to the approval of the Ministries of Finance and Mining. This plan must include the annual investment and financing amounts in addition to the annual profits that the Company is estimated to generate during the period. The Ministries of Finance and Mining jointly issue a decree, pursuant to which a portion of CODELCO’s profit may be allocated by CODELCO to the creation of capitalization and reserve funds.

The 2020 BDP enables CODELCO to develop a long-term mining plan. CODELCO reviews the terms of the BDP annually to update or modify it for changes in business trends.

The 2020 BDP uses inferred resources to define CODELCO’s strategic vision for long-term resource development. However, the incorporation of such resources increases gradually over time, and the inferred resources become proved and probable reserves.

In the early stages of the 2020 BDP, production is almost exclusively based on proved and probable reserves and mining projects are at advanced stages of engineering or at the investment stage. Mining projects must support their economic evaluation based on pre-defined minimum proved and probable reserves in order to be approved for investment.

Resource Development

CODELCO controls approximately 4.7% of the world’s proved and probable copper reserves, as such terms are defined by the U.S. Geological Survey.

Potential geological resources identified by our internal exploration division as a result of projects carried out during 2024, consist of resources incorporated at various stages of exploration and have not yet been added to CODELCO’s copper resource inventory. According to our internal estimates, the potential exploration resources for this period amount to approximately 6,200 million metric tons of ore, with an average total copper grade (CuT) of 0.45%, equivalent to 27.8 million metric tons of contained fine copper. As exploration efforts advance and further evaluations are completed, these resources may be incorporated into CODELCO’s copper inventory.

Production Costs of Copper

CODELCO’s production costs include all costs and expenses incurred in connection with the mining and production of its copper mix and related byproducts. These production costs do not include administrative and operating costs incurred in connection with the processing of other copper products purchased from third parties.

In 2024, CODELCO’s total costs and expenses decreased by 6.1 cents per pound (-1.8%) to 329.0 cents per pound, compared to 335.1 cents per pound in 2023 and 310.9 cents per pound in 2022, mainly due to the depreciation of the Chilean peso against the U.S. dollar, reduced input costs (mainly energy, spare parts, and materials), which were partially offset by higher operating costs due to equipment rentals for mine development recovery, and plant maintenance.

For the first nine months of 2025, CODELCO’s total costs and expenses amounted to U.S.\$8.4 billion, compared to U.S.\$7.5 billion for the same period in 2024, primarily due to higher operating costs, mainly due to equipment rentals and plant maintenance and higher labor costs as a consequence of the foreign exchange rate appreciation. In 2024, CODELCO’s cash cost of production was 199.1 cents per pound, compared to 203.1 cents per pound in 2023 and 165.4 cents per pound in 2022. For the first nine months of 2025, CODELCO’s cash cost of production was 214.0 cents per pound, compared to 205.0 cents per pound for the same period in 2024, primarily due to higher third-party service costs and increased activity at the Rajo Inca project at the Salvador Division and the Radomiro Tomic Division. This rise was partly offset by higher production, lower energy and diesel prices, and

stronger byproduct revenues. For the first nine months of 2025, CODELCO's total cash cost was U.S.\$4.4 billion, as compared to U.S.\$4.1 billion for the same period in 2024, including certain cash cost incurred at the corporate level. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Overview."

For the first nine months of 2025, CODELCO's total costs and expenses rose by 22.1 cents per pound (6.4%) to 405.4 cents per pound, from 370.2 cents per pound in the same period of 2024. This increase was primarily driven by higher operating costs, led by increased third-party service expenses, greater activity at the Rajo Inca project at the Salvador Division and the Radomiro Tomic Division, and the appreciation of the Chilean peso against the U.S. dollar.

The main energy sources for CODELCO's operations are electricity, liquid fuels (such as diesel, fuel oil and gasoline) and natural gas. Since 2004, there has been a restricted supply of natural gas from Argentina. With respect to liquid fuels and natural gas, these commodities are subject to price fluctuations as a result of external factors, including global energy market conditions, geopolitical developments and supply-demand imbalances.

CODELCO's production costs have increased due to these shortages, having to rely on electricity generated from more expensive sources, such as diesel, oil or coal, and these increased costs have adversely affected CODELCO's results of operations. Notwithstanding the foregoing, CODELCO has been promoting a strategy to: (1) decarbonize its electricity supply; (2) adapt costs to current tariffs based in new available technologies; and (3) reduce its exposure to fluctuations in commodity prices. As a result, in 2023 CODELCO renewed its current supply agreement with Pampa Solar. During 2022, CODELCO renegotiated its current supply agreements with producers and distributors of electrical energy AES Andes S.A. and Colbún S.A., to progressively shift the power supply towards renewable energy sources which should help to decrease electricity costs.

In addition, in 2018, CODELCO reached an agreement with Engie Energía Chile S.A., which guaranteed that by 2026, 70.0% of CODELCO's electricity requirements will come from renewable sources, granting CODELCO independence from the constant fluctuation of commodity prices and any additional associated costs.

In late 2009 and early 2010, as a palliative measure given the adverse effects of Argentina's restriction and in order to stabilize future energy costs, CODELCO entered into electrical supply agreements at competitive prices for a 15-year period for its facilities in the Chuquicamata Division and for a 30-year period for facilities in the middle-south region of Chile, respectively. Both supply agreements include the creation of new electrical generation capacity based on coal. Notwithstanding, the latest supply agreement was renegotiated during 2022 to progressively shift the power supply towards renewable energy sources. Furthermore, in 2018, CODELCO entered into an extension of the Chuquicamata Division contract for an additional 11-year period. This new agreement, effective as of 2025, provides for the creation of new electrical generation capacity based on renewable sources.

In August 2011, CODELCO entered into two energy and power supply agreements with Norgener S.A. for the Mina Ministro Hales Division and the Radomiro Tomic Division. CODELCO began to receive energy under these contracts in 2011 for Mina Ministro Hales Division and began in 2017 for Radomiro Tomic, in each case lasting until 2028. During 2014, AES Gener S.A. took over Norgener S.A., assigning CODELCO's contract to AES Gener S.A., now AES Andes S.A. Both energy and power supply agreements were amended and restated on December 29, 2022. Additionally, on that same day, CODELCO and AES Andes S.A. entered into a new energy and power supply agreement for renewable sources, which became effective as of January 1, 2023, until December 31, 2040. In 2022, CODELCO and AES Andes S.A. renegotiated their agreements to replace the current supply of power based on coal with renewable energy. Similarly, during 2018, CODELCO and Engie Energía Chile S.A. renegotiated an electrical supply agreement. The contracts that were renegotiated by CODELCO with AES Andes S.A. and Engie Energía Chile S.A. guaranteed that by 2026, 70.0% of CODELCO's electricity requirements will come from renewable sources, granting CODELCO independence from the constant fluctuation of commodity prices and any additional associated costs. Additionally, in early 2010, CODELCO entered into five-year supply contracts for the provision of liquid fuels for all its mining sites with the main Chilean fuel distributors. In 2015, after the expiration of these contracts, CODELCO entered into a new five-year supply contract for liquid fuels. In mid-2020 CODELCO executed another five-year supply contract, and finally, in mid-2025, CODELCO entered into a new five-year supply contract, which will remain in force until 2030. In April 2012, CODELCO renewed a contract with Pacific Hydro, involving the purchase of power generation of the Coya and Pangal hydroelectric plants, for 12 years. Since CODELCO's sale of the Coya and Pangal hydroelectric plants to Pacific Hydro in 2004, Pacific Hydro and

CODELCO have entered into similar supply contracts to purchase the injected energy produced by these hydroelectric plants.

With the purpose of decarbonizing its electricity supply, in January 2023, CODELCO launched an electricity supply bidding process focusing on renewable sources to procure approximately 2,500 GWh/year (which represents, approximately, 30% of CODELCO's electricity requirements). The resulting electricity supply contracts became effective, and deliveries commenced in January 2026. In March 2024, CODELCO successfully concluded the renewable energy public bidding process undertaken in 2023, in which more than 50 national and international companies participated. The bid was awarded to Colbún, Atlas and Innergex, for a total of 1.8 terawatt hours per year (TWh/year), equivalent to the consumption of approximately 222,000 households. In May 2024, CODELCO and Engie announced modifications to the power purchase agreement signed in 2007 with Central Termoeléctrica Andina (CTA), which currently supplies electricity to the Gabriela Mistral Division and part of the Chuquicamata Division. Under the revised agreement, CODELCO is expected to have the option to transition from CTA's coal-based energy supply to renewable energy starting January 1, 2026, ahead of the original 2032 timeline. Thanks to these processes CODELCO is expected to be supplied from 100% renewable sources, thus moving toward achieving its strategic plan goal to decarbonize its power grid before 2030. On April 22, 2025, CODELCO awarded contracts for the supply of 1.5 TWh/year of renewable energy through a public tender process concluded in 2024, where 32 companies participated in this process. The contracts were granted to Generadora Metropolitana (1 TWh/year), a joint venture between AME and France's EDF, and GR Power Chile (0.5 TWh/year). Scheduled to commence in January 2026 and run until December 2040, these agreements include lithium-based battery storage systems and are designed to meet current and future power requirements of CODELCO's divisions. This initiative aligns with CODELCO's commitment to transitioning to a 100% clean power grid by 2030, further underscoring its dedication to sustainable mining practices and supporting Chile's broader energy transition. Together, these initiatives underscore CODELCO's commitment to achieving a fully renewable electricity matrix by 2030—advancing its strategic goal of decarbonizing operations and contributing to Chile's broader energy transition agenda.

CODELCO continues to develop and refine its mine management practices and programs to limit and reduce its costs. These initiatives include the following: (i) improved deposit identification and mining techniques; (ii) the implementation of early retirement plans and workforce reduction programs; (iii) an investment in human capital and continuing to attract and retain a world-class management team and professionals of the highest caliber; (iv) improved utilization of equipment and inputs used in the processes of copper production to increase productivity and efficiency; and (v) the development of key projects, specifically the new mine level at El Teniente, the Andina plant reallocation and the Chuquicamata underground projects.

Marketing

General

Four of CODELCO's wholly-owned subsidiaries and 12 of its sales representatives cover over 35 countries around the world. The following table shows the breakdown of CODELCO's sales by product type including third-party products for the three years ended December 31, 2024 and the nine-month period ended September 30, 2025:

Copper Sales by Product Type
(in thousands of metric tons)

	Year ended December 31,			For the nine-month period ended September 30,
	2022	2023	2024	2025
Cathodes.....	1,131	1,142	1,061	693
Blisters and Anodes.....	108	82	77	72
Concentrates.....	493	442	520	404
Total.....	1,732	1,664	1,658	1,170

CODELCO's marketing strategy is focused in three major areas:

- *Establishing long-term relationships.* CODELCO encourages sales through annual contracts and direct long-term relationships with copper consumers.
- *Quality and sales service.* CODELCO focuses on product quality and sales service based on timeliness, scheduling and conditions of product delivery.
- *Diversification.* CODELCO has a geographically diverse sales portfolio.

Pricing and Hedging

The substantial majority of copper produced by CODELCO is sold under long-term contracts of at least one year to customers that have long-term relationships with CODELCO. The specific commercial terms of these contracts are negotiated annually by the parties for the following calendar year. As a pillar of the commercial strategy, CODELCO has committed to sell a significant portion of its copper production under a rolling deal format known as "evergreen" contracts with certain key customers, while retaining a fraction destined to the spot market.

CODELCO's evergreen contracts have a duration of three years from the effective date and, unless terminated by either party, are automatically renewed for an additional year at the end of the original term. The main advantage of evergreen contracts is to lock-in sales to key customers (and for customers to have a guaranteed supply of raw material from a key supplier) over a longer period of time. For both annual and evergreen contracts, the premium over the base price is negotiated annually and the base price is the LME cash settlement averaged over the quotation period, which according to CODELCO's commercial policy is the month following the contractual or scheduled month of shipment (referred to as M+1) for copper cathodes, and three months following the contractual or scheduled month of shipment for concentrates (also referred to as M+3). Products that are not committed under long-term contracts (which represent a small percentage of CODELCO's annual volume) are sold throughout the year at the prevailing conditions of the spot market to either consumers or merchants, allowing for operational and commercial flexibility.

Consistent with industry practice, sales of CODELCO's Grade A copper cathodes include a premium, representing an amount charged in addition to the LME copper price, for physical delivery to customers. Premium amounts for different destinations are adjusted in accordance with prevailing regional market conditions, as well as other items, such as ocean freight costs and are keyed to the standard terms of payment. For 2024, the base premium for CIF shipments (including shipping and insurance costs) to Rotterdam was U.S.\$234 per metric ton, unchanged from 2023 and compared to U.S.\$128 per metric ton in 2022. The base premium for 2025 remains at U.S.\$234 per metric ton.

CODELCO sells its copper concentrates under long-term contracts. These contracts generally have three-year terms with fixed volume. As a general rule, contracts covering one-third of the terms on one-third of the volume are negotiated on a yearly basis. The sale price is based on the LME cash settlement prices for Grade A copper cathodes, credits for payable precious metals, minus certain treatment and refining charges.

Molybdenum is sold mainly to steel producers and merchants under annual sale contracts. Sales prices are based on prevailing monthly averages of molybdenum dealer oxide high/low prices as quoted in "Metals Week" for a quotation period, generally the month following the scheduled month of shipment.

CODELCO has hedged certain future copper delivery commitments and production in order to manage the risks associated with copper price volatility in the past. CODELCO currently does not have any hedged production commitments and therefore there is no relevant impact from hedging. See notes 29 and 30 to the Unaudited Interim Consolidated Financial Statements.

CODELCO also periodically enters into futures contracts with respect to sales of its own copper in order to provide protection against fluctuation in the sale price paid by them in connection with such sales.

See “Risk Factors—Risks Relating to CODELCO’s Operations—CODELCO engages in hedging activity from time to time, particularly with respect to its copper production, which may not be successful and may result in losses to CODELCO,” notes 27 and 28 to the Consolidated Financial Statements and note 29 to the Unaudited Interim Consolidated Financial Statements for further details regarding CODELCO’s hedging activity.

Major Export Customers

As discussed above, most of CODELCO’s customers receive shipments on a monthly basis. Consequently, CODELCO’s sales volume is relatively consistent throughout the year. CODELCO’s sales of copper in 2024 were geographically diversified, with approximately 48.1% of sales made to Asia, including approximately 38.1% to China, as well as approximately 41.0% to North and South America and 11.0% to Europe. CODELCO’s top ten customers purchased approximately 41.9% of its total copper sales volume in 2024.

The following table shows CODELCO’s copper sales for the years ended December 31, 2022, 2023 and 2024 to CODELCO’s top export markets and in Chile:

CODELCO’s Copper Sales by Destination
(in thousands of metric tons)

	2022	2023	2024
China.....	665	702	640
United States	254	248	313
South Korea	121	91	82
Chile.....	275	235	283
France	84	81	83
Brazil.....	80	82	86
Germany.....	50	31	24
India	29	28	16
Japan	29	22	23
Taiwan	36	38	32
Spain	41	28	31
Bulgaria.....	0	0	5
Greece.....	0	0	1
Mexico	11	14	9
Malaysia.....	18	25	7
Thailand	16	15	7
Vietnam.....	16	5	0
Others.....	40	38	45
Total	1,765	1,684	1,683

The sales to China decreased in 2024 compared to 2023 primarily driven by lower demand related to the slow recovery in the economy of China.

Competition

CODELCO believes that competition in the copper market is based upon price, quality of product and timing of delivery. CODELCO’s products compete with other materials, including aluminum and plastics. CODELCO competes with other mining companies and private individuals in connection with the acquisition of mining concessions and mineral leases and in connection with the recruitment and retention of qualified employees.

Employees

On December 31, 2024, CODELCO employed 15,831 employees as compared to 15,404 employees as of December 31, 2023. CODELCO spent U.S.\$10.8 million during 2024 on staff development and training. On average, a total of 14.14 hours per person of training were held, with 15,831 employees attending multiple courses.

As of December 31, 2024, approximately 95% of CODELCO's employees were covered by collective bargaining agreements with labor unions. Most of these collective bargaining agreements have terms of two to three years.

In 2024, CODELCO successfully reached 25 collective bargaining agreements with unions from different divisions, including Chuquicamata, Radomiro Tomic, Ministro Hales, Salvador, Andina, Ventanas, El Teniente, Gabriela Mistral, and Headquarters. These agreements, each valid for 36 months, cover more than 12,500 employees, accounting for roughly 80% of the total workforce. In 2023, CODELCO negotiated five collective bargaining agreements and in 2022, CODELCO negotiated four collective bargaining agreements and one additional collective bargaining agreement signed in September 2021, with no conflicts or work stoppages. In 2021, CODELCO experienced a 21-day strike involving two labor unions from the Andina Division and 24-day strike involving one labor union also from Andina Division. During the first six months of 2025, CODELCO concluded a collective bargaining agreement with the workers' union of the Gabriela Mistral Division, marking the completion of the company's 2023–2025 collective bargaining cycle. In total, 26 agreements were successfully negotiated—25 during 2024, primarily through early negotiations, and one in the first quarter of 2025—covering more than 12,600 employees across all divisions and Headquarters. These agreements, each valid for 30 to 36 months, collectively represent approximately 80% of CODELCO's total workforce. In March 2024, following the fatal accident that occurred in the Radomiro Tomic division, workers went on strike demanding more safety measures. This closure resulted in an estimated production loss of approximately 30,000 tons. The strike ended after 48 hours upon reaching an agreement with the Company, in which CODELCO committed to implementing and fulfilling a series of concrete actions to improve the safety of workers at the Radomiro Tomic Division. An investigation has been initiated to determine the cause of the accident. For recent information see “Summary—Recent Developments—CODELCO Reached Contract Agreements with Twenty-Five Labor Unions.”

In 2022, CODELCO renewed the Strategic Pact for Chile, initially signed by the presidential administration and the Federation of Copper Workers (FTC) in 2015, which defined four key commitments for the future and the transformation of the company: competitiveness, human capital, sustainability, and diversity and inclusion.

As of September 30, 2025, there were 62,815 employees of regular independent operating contractors and 15,704 employees of contractors involved in the development of CODELCO's investment projects.

CODELCO has experienced material work slowdowns, work stoppages and strikes in the past. Work slowdowns, stoppages and other labor-related events could increase CODELCO's independent contracting costs, which could have a material adverse effect on the business, financial condition, results of operations or prospects of CODELCO. See “Risk Factors—Risks Relating to CODELCO's Operations—Labor disruptions involving CODELCO's employees, or the employees of its independent contractors could affect CODELCO's production levels and costs.” In addition, pursuant to the Labor Code of Chile, CODELCO could be held liable for the payment of labor and social security obligations owed to the employees of independent contractors (or their subcontractors) if the independent contractors (or their subcontractors) do not fulfill those payment obligations. CODELCO has agreed with a Government of Chile agency to provide a framework to facilitate this agency's supervision of the labor and social security obligations owed by the independent contractors to their employees.

As part of its compensation plan, CODELCO offers each employee the opportunity to partially finance the purchase of a first home or to obtain other personal loans granted through each employee's severance plan. Such home loans have a term of up to 15 years, and such personal loans have a term of less than one year. Loans of both kinds provide for interest rates of actual inflation plus a margin of between 1.0% and 5.0%. As of September 30, 2025, an aggregate principal amount of U.S.\$134.9 million of these loans was outstanding.

Number of Employees by Division⁽¹⁾

Divisions	January to December			Variation (%) 2023/2024	January 1 to September 30, 2025
	2022	2023	2024		
Chuquicamata	3,835	3,593	3,935	9.5	3,900
Radomiro Tomic	1,289	1,333	1,459	9.5	1,469
Gabriela Mistral	481	507	495	-2.4	488
Mina Ministro Hales	788	824	820	-0.5	829

Salvador.....	1,491	1,468	1,477	0.6	1,472
Andina.....	1,424	1,449	1,520	4.9	1,560
El Teniente.....	3,838	3,976	3,971	-0.1	3,935
Headquarters.....	784	755	743	-1.6	692
Ventanas.....	769	537	451	-16.0	448
Shared Services (Vice Presidency of Projects)	875	749	821	9.6	781
Internal Auditing.....	43	49	46	-6.1	45
Total.....	15,789	15,404	15,831	2.8	15,140

(1) Average number of employees for the periods presented.

Occupational Health and Safety

CODELCO, through its structural project on occupational safety and health, has established occupational health and safety performance indicators aimed at avoiding serious and fatal accidents and occupational illnesses. In 2025, there were six fatalities involving CODELCO personnel or contractors. For more information, see “Summary—Recent Developments—Fatal accident at El Teniente Division.” This compares to one fatal accident in 2024, two fatalities in 2023, and two fatalities in 2022, all involving either CODELCO personnel or contractors.

The total number of “lost time” accidents in 2022 was 86, and the accident frequency rate was 0.61 accidents per million hours worked. In 2023 “lost time” accidents was 119, and the accident frequency was 0.50 accidents per million hours worked. In 2024 “lost time” accidents was 81, and the accident frequency was 0.54 accidents per million hours worked. As of September 30, 2025, the current total number of “lost time” accidents was 335 and the accident frequency was 0.66 accidents per million hours worked.

Comptroller General of the Republic

During 2017, the Comptroller issued three declarations (Opinions No. 15.759 and No. 18.850, both from 2017, and Final Auditor Report (Informe Final de Auditoria) No. 900/2016, from a 2016 audit) that affect CODELCO. Two of these declarations are opinions related to labor relations that: (i) query whether CODELCO could provide greater benefits to its employees than those currently established by law and (ii) state that, although CODELCO may continue to engage in collective bargaining with its employees, the Comptroller reserves the right to evaluate the amounts agreed upon. The third declaration was the result of an audit report, which maintained that CODELCO was subject to the provisions of the Public Procurement Law (Law No. 19,886) that relates to: (i) the prohibition on contracts between related parties and (ii) the mandatory public tender of contracts through the rules that apply to public services. CODELCO has filed administrative appeals against all three declarations issued, and subsequently filed an action of annulment against the three declarations issued by the Comptroller. The action of annulment was denied and in October 2020 CODELCO appealed the decision. In December 2022, CODELCO withdrew the appeal after signing a joint agreement with the Comptroller that promotes the transparency and protection of integrity, as well as the commercial nature of a State-owned company’s operations as it develops in a competitive market.

CODELCO had estimated a negative effect of approximately U.S.\$100.0 million due to an unfavorable outcome of litigation, caused by the delay in awarding specific contracts and investments and related reduction in production. In December 2022, CODELCO and the Comptroller entered into a collaboration agreement aimed at safeguarding probity and transparency in the operations carried out by CODELCO in the market, ending the dispute with the withdrawal of the lawsuit by CODELCO.

Legal Proceedings

CODELCO is party to various legal proceedings in the ordinary course of business. Other than as disclosed in this offering memorandum, CODELCO is not currently involved in any litigation or arbitration proceeding, including any proceeding that is pending or threatened of which we are aware, which we believe will have, or has had, a material adverse effect on the Company. Other legal proceedings that are pending against or involve us and our subsidiaries are incidental to the conduct of our and their business.

We believe that the ultimate resolution of such other proceedings individually or on an aggregate basis will not have a material adverse effect on our consolidated financial condition or results.

Labor-Related Proceedings

We are involved in several legal actions related to labor claims from unions and, in particular, former employees. These labor disputes relate to working conditions, union practices, wrongful terminations, alleged labor rights violations and discrimination. These are routine litigation cases, and we do not expect these disputes to have a material adverse effect on our financial condition or future results of operations.

Proceedings Related to the Fatal Accident at El Teniente Division

On July 31, 2025, a seismic event occurred at the El Teniente mine, resulting in the tragic loss of six lives. The incident led to the launch of external and internal investigations in connection with the event.

Two complaints in connection with the event have been filed against Andrés Music Garrido, former general manager of the El Teniente Division, Máximo Pacheco Matte, Chairman of the Board of Directors of CODELCO, a representative of Constructora Gardilcic, an independent contractor of CODELCO, and any persons deemed responsible for the incident. The complaints were filed by family members of two deceased workers and allege liability for the tort of homicide for the death of two victims of the accident on behalf of their respective families. Further proceedings are pending as of the date of this offering memorandum. For more information on the accident, see “Summary—Recent Developments—Fatal accident at El Teniente Division.”

Other Proceedings:

In August 2023, CODELCO filed a civil claim in an arbitration process in Chile against Consorcio Belaz Movitec SpA (“CBM”) and its joint debtors, Movimiento de Tierra y Construcción S.A. (“Movitec”) and Sociedad Anónima Abierta Belaz - Compañía Administradora del Holding (“Belaz”), for expenses related to delays, compensation for damages, reimbursement of severance payments and restitution of improperly charged general expenses. CODELCO’s claims amount to approximately Ch\$70,936,507,563 (approximately U.S.\$79.4 million) plus interest. CBM and Movitec filed several counterclaims against CODELCO for compensation for damages, claiming a series of damages resulting from pending payment statements, unpaid change notices, additional resources used in the work, among others. The amount of the counterclaim filed by CBM amounts to Ch\$176,575,220,314 (approximately U.S.\$197.8 million) plus interest. Movitec reserved the determination of the nature and amount of the damages claimed for the stage of enforcement of the judgment. In the arbitration proceedings, the issuance of the expert report requested by the parties remains pending.

Additionally, in early November 2025, Francisco Aninat resigned from his position as arbitrator. The Arbitration and Mediation Center appointed María Teresa Muñoz, a new arbitrator, in January 2026. With this appointment, the arbitration will continue in the procedural stage it was in before the resignation of Francisco Aninat. Accordingly, the parties must now submit their observations to the expert report previously requested by both sides. In connection with an injunction request filed by CBM against CODELCO, the highest courts of justice (the Court of Appeals of Copiapó and the Supreme Court of Chile), have ordered CODELCO to pay Ch\$11,734,559,342 (approximately U.S.\$13.1 million), corresponding to Payment Statement No. 23, and to provision Ch\$4,415,816,192 (approximately U.S.\$4.9 million), plus Ch\$1,026,602,196 (approximately U.S.\$1.2 million, corresponding to taxes and readjustments), in order for CBM to proceed with the demobilization of the equipment, machinery and other assets still located at the El Salvador Division.

In July 2020, the State Defense Council (Consejo de Defensa del Estado, a public entity in charge of defending the Chilean Republic in courts) filed a claim against CODELCO seeking environmental rehabilitation measures for alleged environmental damage to water sources and vegetation surrounding the “Salar de Pedernales” due to surface and underground water use between 1994 and 2017 by CODELCO’s El Salvador Division. On November 16, 2020, CODELCO filed its response, and subsequently the parties to this proceeding agreed to and filed a settlement agreement, which was approved by the Environmental Court. As of the date of this offering memorandum, CODELCO is in compliance with its commitments under such settlement agreement.

In October 2019, CODELCO was served notice of a civil claim filed by relatives of 139 former employees from the Andina Division, alleging that working conditions caused the former employees to contract silicosis claiming compensation on behalf of the former employees. The claim requests compensation in an aggregate amount of approximately U.S.\$15.1 million. A final ruling is still pending.

In July 2019, Ingeniería y Maquinarias Indak Limitada (“Indak”) filed a civil claim against CODELCO for contractual liability and payment of damages, loss of profits, loss of opportunities and moral damages, plus interest thereon, in the amount of approximately Ch\$32,511,347,985 (approximately U.S.\$36.3 million). The trial took place before the Diego de Almagro Court, and in the definitive judgment -dated August 16, 2023- the court accepted CODELCO’s argument pertaining to lack of jurisdiction. The opposing party appealed the decision before the Court of Appeals of Copiapó. The Court upheld the judgment on August 20, 2024, in favor of CODELCO. Indak submitted an appeal based on legal arguments (*casación*) before the Supreme Court. CODELCO, in turn, challenged the admissibility of the appeal. On November 8, 2024, the Supreme Court declared the appeal inadmissible on the grounds of manifest lack of merit.

In April 2018, Trébol Minerals S.A. filed a civil claim against CODELCO’s El Salvador Division claiming payment of unpaid services, damages, loss of profits and moral damages, plus interest thereon, in the amount of approximately U.S.\$10.2 million. On March 25, 2025, the Civil Court of Diego de Almagro issued the first instance final award, ordering CODELCO to pay to Trébol Minerals S.A. Ch\$275,000,000 (approximately U.S.\$300,000 and U.S.\$550,000 considering interest), which is less of 3% of the amount claimed. Both parties filed their appeals before the Court of Appeals of Copiapó. On May 22, 2025, the parties entered into a settlement agreement and mutual release, under which CODELCO agreed to pay 13,500 UF, approximately U.S.\$560,000, in two installments: first, upon certification of the finality of the relevant order (*res judicata*); and second, upon removal of the crushing plant by Trebol Minerals S.A. On June 24, 2025, the court certified the finality of the relevant order, and the first payment was scheduled for June, 2025. However, the second and final payment remains contingent, since Trebol Minerals S.A. has not complied with the obligation to remove the crushing plant. Based on this breach, CODELCO sent a formal notice to Trebol Minerals S.A. which (i) informed that the contractual deadline for the removal of the crushing plant had elapsed, (ii) consequently sought to enforce the late-performance penalty of 6,750 UF (the same amount of the second installment), (iii) notwithstanding the right of CODELCO to initiate the arbitration provided for in the settlement agreement, sought, as a primary claim, a declaration that the crushing plant had been abandoned for more than a decade —indeed in contravention of prior court orders— and that, as a result, CODELCO had acquired title to it, and as a second and subsidiary claim, specific performance of the obligation to remove the crushing plant, both with a claim for compensation for the real damages suffered by CODELCO as a result of Trébol Minerals S.A.’s breach, and (iv) set forth that, in the event that Trébol Minerals S.A. removed the crushing plant, the late-performance penalty of 6,750 UF would be set off against the second installment.

On June 30, 2016, the Union of Independent Workers, along with a group of artisanal fishermen, divers of Caleta de Horcón and other residents of the boroughs of Quintero and Puchuncaví filed a lawsuit before the Second Environmental Court against the Ministry of the Environment and eleven companies located in the industrial area of the Quintero bay, including CODELCO, seeking mitigation, remediation and restoration of alleged environmental damage caused by pollution that has affected the Quintero bay over the past decades. The discovery period has since ended, and a final ruling is pending.

On March 25, 2024, Liebherr Chile SpA (“Liebherr”) filed an arbitration claim against CODELCO, seeking the termination of a certain contract of maintenance services for mining trucks and compensation for damages. Liebherr demands that the contract be terminated due to CODELCO’s alleged breach and requests compensation amounting to Ch\$ 38,014,000,000 (approximately U.S.\$38,000,000), including loss of profits and direct damages for spare parts or stock and labor costs. In its subsidiary claims, Liebherr requests specific performance of the contract. CODELCO has filed a counterclaim requesting that the contract be terminated due to Liebherr’s material breaches and confirming that no pending obligations remain. At present, the arbitral proceedings are at the evidentiary phase. The parties have already submitted their respective documentary evidence, the expert witness hearings offered by each party have been conducted, and the documentary disclosure hearing requested by Liebherr has taken place. In addition, the arbitrator carried out on-site inspections at both Liebherr’s facility located in the northern region of the country—namely, the “La Negra” warehouse—and the company’s warehouse located in Recoleta. Furthermore, the arbitral tribunal appointed DICTUC as the court-appointed expert, and two expert

hearings were held during the month of August, followed by an additional hearing in September. As of the date of this offering memorandum, the expert report to be issued by DICTUC remains outstanding.

On August 22, 2024, the SMA filed two charges against CODELCO's Ministro Hales Division, citing a failure to implement environmental measures related to the Talabre tailings dam. CODELCO has launched a Compliance Program (PdC) with 11 actions totaling U.S.\$42,000,000 to address the issues raised by the SMA. This program advances and strengthens environmental controls for seepage management at the Talabre Tailings Dam, while permanent solutions are implemented through the Environmental Impact Study for the Future Ministro Hales Development Project and the Talabre Thickened Tailings Project. SMA is analyzing the submitted document. A final decision is pending.

In November 2024, the Superintendency of the Environment (*Superintendencia de Medio Ambiente*, or "SMA") filed a charge against CODELCO's Potrerillos Smelter, located in Diego de Almagro, Atacama Region, for failing to implement inline connection of the continuous monitoring system for sulfur dioxide (SO₂) emissions, as required by SMA instructions related to the Supreme Decree No. 28 (2013). The SMA has initiated a sanctioning process in line with Chilean environmental regulations. CODELCO submitted a written statement of defense. A final decision is pending. The sanctions that may be applied by the agency include the revocation of the Environmental Approval Resolutions (*Resolución de Calificación Ambiental* or "RCA"), closure, or fines of up to 5,000 UTAs (approximately U.S.\$4,300,000.00).

In June 2020, the SMA filed charges against CODELCO's Andina Division due to tailings spillage into the El Cobre and Chacabuco Estuaries, not reporting monitoring, not having compromised pools and presenting flow exceedances in discharges. The procedure has been suspended since March 2021. A final decision is pending.

In May 2021, the SMA filed charges against CODELCO's Salvador Division for failure to comply with the condition of handling process water in a closed circuit and late cleaning of sectors affected by spills. SMA decided to sanction CODELCO with a fine monetary penalty currently in the process of legal claim. A final decision is pending.

On May 29, 2023, the Supreme Court of Chile ordered the reopening of review proceedings for RCA No. 275-B/1994, "Long-Term Tailings Disposal System: Ovejería Reservoir Project," to assess the adequacy of the Infiltration Monitoring and Control Plan at the Ovejería Reservoir Project. The Environmental Assessment Service (*Servicio de Evaluación Ambiental*) reopened such proceedings in October 2024 and CODELCO has provided information in connection with the review, as have other public agencies. The Environmental Assessment Service is expected to make its decision in coming months and, as of the date of this offering memorandum, it is expected that the plan will be declared sufficient or, if not, that it should be supplemented with certain actions. No material impact on CODELCO is expected. On November 17, 2025 the Metropolitan Region Environmental Assessment Commission voted in favor of the Environmental Assessment Service's proposal to approve the review, considering the control plan measures to be adequate. A formal resolution is expected to be issued and notified.

In December 2024, the SMA filed charges against CODELCO's El Teniente Division, Ministro Hales Division, and Chuquicamata Division for failing to implement online connection of the continuous monitoring as required by SMA instructions. The three divisions submitted compliance programs, which were accepted by the SMA. The measures were implemented and, as of the date of this offering memorandum, a final resolution from the SMA is pending.

CODELCO believes that it has meritorious defenses against all claims and, accordingly, is vigorously defending its rights and interests in these proceedings.

After unsuccessful attempts to negotiate with the Republic of Ecuador, CODELCO decided to take the following legal actions to ensure its rights in the Llurimagua project:

I. Proceeding under ICSID rules (request for arbitration filed on December 24, 2021):

(a) Parties: Republic of Ecuador and CODELCO. The arbitration began in 2021, after Ecuador ratified the ICSID Treaty.

(b) Legal action: Treaty violation

(c) Status: Suspended in its initial stage. The arbitral tribunal decided to suspend the proceeding until a decision is rendered in an ICC process.

II. Proceedings under ICC rules (request for arbitration filed on April 8, 2021):

(a) Parties: CODELCO, Empresa Nacional Minera del Ecuador (ENAMI EP) and the Republic of Ecuador.

(b) Legal actions: CODELCO claimed specific performance of the agreements and a subsidiary petition for damage compensation.

(c) Status: Award issued and notified. The arbitral court ruled that Ecuador incurred in liability for failing to comply with the obligation to negotiate in good faith the agreements and ordered Ecuador to pay 51% of the costs of advanced exploration and maintenance of the project. By virtue of this award, the court ordered Ecuador and ENAMI to reimburse CODELCO US\$ 25,377,441, corresponding to the costs incurred by CODELCO during Phase 2 of the Agreements in excess of 49% corresponding to its future participation in the associative vehicle as of September 13, 2016, plus the costs of maintaining the Project until the date of issuance of the award with interest plus a fee calculated on the date of payment. According to preliminary calculations, the total amounts under this proceeding would amount to approximately U.S.\$40.0 million.

CODELCO is assessing whether to resume the ICSID arbitration procedure in order to seek compensation for the rest of the damages.

Since September 2024, CODELCO has participated as an injured party in a criminal investigation initiated against former Justice of the Chilean Supreme Court Ángela Vivanco, her partner Víctor Migueles, and attorneys Mario Vargas and Eduardo Lagos. The investigation relates to the alleged commission of bribery and corruption offenses in connection with the processing of an injunction request filed by Consorcio Belaz Movitec SpA (CBM) against CODELCO before the Chilean Supreme Court during 2023–2024. As a result of such judicial proceedings, CODELCO disbursed more than U.S.\$17 million in favor of CBM. While the underlying civil dispute with CBM is currently being resolved through arbitration proceedings, the purpose of this criminal case is to determine the potential criminal liability of the individuals under investigation.

In November 2025, CODELCO formally filed a criminal complaint against the four individuals mentioned above, with the purpose of safeguarding its property rights, actively contributing to the clarification of the investigated facts, and pursuing any liabilities that may arise under applicable Chilean criminal law. CODELCO has provided all relevant information and has cooperated on an ongoing basis with the investigation conducted by the Public Prosecutor's Office. As part of the proceedings, the courts have ordered personal precautionary measures against the defendants, three of whom are currently subject to pre-trial detention, and have also authorized, at CODELCO's request, asset-preservation measures over property owned by the defendants, aimed at securing assets for the potential satisfaction of CODELCO's claims.

The case is currently at the formal investigation stage, with various investigative measures still pending, as well as the final determination of any potential criminal liabilities.

For additional details related to CODELCO's litigation and contingencies and amounts of probable loss with respect to lawsuits and legal actions, see note 31 to the Consolidated Financial Statements.

OVERVIEW OF THE COPPER MARKET

Copper is an internationally traded commodity, the price of which is effectively established on terminal markets including the LME and COMEX. The following table sets forth quarterly average prices for refined copper since 2020 on the LME:

Average Copper Price (£/Pound)		
2020	First Quarter	255.7
	Second Quarter	243.0
	Third Quarter	295.7
	Fourth Quarter	325.1
2021	First Quarter	385.7
	Second Quarter	440.0
	Third Quarter	425.1
	Fourth Quarter	435.6
2022	First Quarter	453.5
	Second Quarter	431.5
	Third Quarter	351.3
	Fourth Quarter	362.9
2023	First Quarter	404.9
	Second Quarter	383.9
	Third Quarter	379.0
	Fourth Quarter	371.3
2024	First Quarter	382.5
	Second Quarter	440.4
	Third Quarter	410.3
	Fourth Quarter	418.1
2025	First Quarter	423.9
	Second Quarter	431.8
	Third Quarter	444.2
	Fourth Quarter	503.5

The following graph compares average market prices for copper and the level of LME, Shanghai Metal Exchange and COMEX inventories from 2000 through September 30, 2025:

Copper Prices and Inventories on Commodities Exchanges

Source: Metal Exchanges: London, COMEX and Shanghai.

Historically, copper prices have been subject to wide fluctuations and are affected by numerous factors, including international economic and political conditions, levels of supply and demand, the availability and costs of substitutes, inventory levels maintained by producers and others and actions of participants in the commodities markets. To a lesser extent, copper prices are also subject to the effects of inventory carrying costs and currency exchange rates. In addition, the market prices of copper have occasionally been subject to rapid short-term changes. See “Risk Factors—Risks Relating to CODELCO’s Operations—CODELCO’s business is highly dependent upon the price of copper.”

Opportunities for Copper

Since 2005, copper prices have experienced significant volatility. LME copper prices averaged 414.9 cents per pound in 2024 compared to 384.5 cents per pound in 2023 and 399.0 cents per pound in 2022. Prices were impacted by slower growth in China during 2022 and 2023, which weighed on global demand. In 2024, prices recovered, supported by supply disruptions and operational challenges among major copper producers. So far in 2025, prices have remained volatile due to persistent supply constraints, rising geopolitical uncertainty, and renewed trade tensions between the United States and China, including uncertainty surrounding potential tariffs. See “Risk Factors—Risks Relating to CODELCO’s Operations—CODELCO’s business is highly dependent upon the price of copper.”

There is also increased general use of copper tubing, particularly in air conditioning systems. The quantity of copper consumed in electrical applications in cars, trains and other vehicles has also increased. In the electricity generation and transmission area, the control of energy losses and a growing concern for higher energy efficiency are factors that have tended to increase demand for copper, becoming the main copper usage. The termination of widespread substitution of aluminum for copper in overhead high-voltage transmission lines also bodes well for the metal’s future.

Historically, demand and supply of copper have demonstrated continued growth during periods of oversupply as well as periods of overconsumption. The following graph shows the historical development of copper supply, demand and stocks in the world from 2000 to 2029 (in thousands of metric tons):

Refined Copper Supply and Demand Worldwide Balance

REGULATORY FRAMEWORK

Overview of the Regulatory Regime

CODELCO is a mining, industrial and commercial state-owned enterprise of indefinite duration with its own legal personality and capital. CODELCO's relationship with the Government of Chile is conducted through the Ministry of Mining. CODELCO was incorporated pursuant to Decree Law No. 1,350 of 1976, as amended by Law 20,392. CODELCO is governed by Decree Law No. 1,350 and by Decree No. 146 of August 12, 1991, as amended (to conform the same with Law 20,392) by Decree No. 3 of January 13, 2012 issued jointly by the Ministries of Finance and Mining, and published in the Official Gazette on July 4, 2012, which sets forth CODELCO's current bylaws, and the general legal framework applicable to private companies regarding public disclosure (rules applicable to publicly held companies), and other applicable regulations. CODELCO's principal corporate purpose is to exercise all rights acquired by Chile pursuant to the nationalization of the Chilean mining industry, namely mining, exploration and the development of mining deposits and other rights belonging to Chile at the time of CODELCO's incorporation in 1976.

CODELCO is subject to the oversight of: (i) the Chilean securities authority, the CMF, on the same terms as publicly held corporations (CODELCO is registered under the Securities Registry No. 785 of the CMF) and (ii) the Chilean Commission of Copper (*Comisión Chilena del Cobre*, or "COCHILCO") or the governmental agencies that, among other authorities, are responsible for examining the compliance with certain regulations applicable to CODELCO's activities and report the relevant findings to its Chief Executive Officer. Furthermore, other government agencies in charge of specific areas, such as taxes and customs, exercise their legal authorities with respect to CODELCO as they do in regard to any other company of the Chilean private sector. The House of Deputies (*Cámara de Diputados*) of the Chilean Congress also maintains an overarching authority to oversee CODELCO in the exercise of its constitutional duties.

Chilean law requires CODELCO to obtain the approval of the Ministry of Finance before it can assume any financial indebtedness and before it can acquire assets outside Chile with financial or payment terms exceeding one year. Although CODELCO is 100% owned by it, the Government of Chile is not legally liable for CODELCO's obligations unless expressly guaranteed by the Government of Chile, nor do such obligations form any part of the direct public debt of the Government of Chile. A constitutional amendment would be required to allow private participation in CODELCO's ownership.

Each year, the Board of Directors must approve the BDP report of the Company for the following three years, subject to the approval of the Ministries of Finance and Mining. This plan must include the annual investment and financing amounts in addition to the annual profits that the Company is estimated to generate during the period. The Ministries of Finance and Mining jointly issue a decree pursuant to which a portion of CODELCO's profit may be allocated by CODELCO to the creation of capitalization and reserve funds.

CODELCO's Board of Directors must also submit its proposed annual budget to the Ministries of Finance and Mining for approval. In addition, Decree Law No. 1,350 requires CODELCO to include as part of its proposed annual budget a debt amortization budget that includes interest and principal payments on CODELCO's debts, including the notes. CODELCO's budget and financial statements are subject to both internal and external controls. CODELCO's Board of Directors is responsible for monitoring its operations, and CODELCO retains independent auditors to audit its consolidated financial statements and an internal comptroller to review its finances, accounting and administration.

CODELCO's Board of Directors approved corporate governance guidelines consistent with its high transparency, probity and accountability standards which: (i) establish limits and controls on the use of resources of the Board of Directors; (ii) implement a transparent and traceable system for the handling of hiring requests, promotions and redundancies of CODELCO's officers and employees; (iii) regulate the relationships between members and management of the Board of Directors with related parties; and (iv) establish guidelines for corporate speakers. CODELCO's Board of Directors also agreed to consider directives that: (i) regulate lobbying activities within CODELCO; (ii) strengthen and reform internal audit systems; and (iii) strengthen policies to avoid any conflicts of interest.

Mining Regulations

Legal framework. CODELCO's exploration, mining, milling, smelting and refining activities are subject to Chilean laws and regulations which are generally applicable to all Chilean companies in the mining sector. The legal framework which regulates CODELCO as a holder of mining concessions is contained in the Chile's Constitution, the Constitutional Law Governing Mining Concessions (Law No. 18,097 of January 21, 1982) and the Mining Code (Law No. 18,248 of October 14, 1983). Under Chilean mining law, the state is the owner of all mineral and fossil substances located in their natural deposit, regardless of who owns the surface land in which such substances are located. Private persons and companies may obtain mining concessions for exploration and exploitation. These concessions are granted by judicial resolutions in accordance with the Mining Code.

Mining concessions are transferable and mortgageable and regulated by the same civil law that regulates real estate rights generally. As a general rule, the owner of a mining concession may occupy as much of the surface land as is necessary for mining activities upon the creation of a mining easement or upon other authorization given by the landowner, such as a lease agreement or an occupation authorization. Mining easements can be obtained by way of direct negotiation with the surface land owner (Voluntary Easement Agreement) or by way of a judicial claim for mining easement filed against the landowner before the relevant court. Regardless of how the mining easement is obtained, the holder and occupier servient estate (the property burdened by the easement) has the right to be compensated for any damages caused by the imposed easements and the mining activities that may affect the property. Exploitation concessions have an indefinite duration. Exploration concessions are granted for four years and may be extended for a maximum of four additional years subject to providing evidence of having undertaken exploration works, having obtained an environmental approval for an exploration project, or having submitted an exploration project for environmental impact assessment. Prior to the expiration of the exploration concession, the owner has priority in applying for exploitation concessions over the area comprised by exploration concessions.

As a result of the amendments introduced by Law No. 21,420, as of January 1, 2025, owners of mining concessions must pay an annual fee equivalent to approximately U.S.\$4.2 per hectare in the case of exploration concessions and approximately U.S.\$7.0 per hectare in the case of exploitation concessions during the first five years of the concession, progressively increasing thereafter until U.S.\$16 per hectare as of the thirty first year of the concession. However, holders of exploitation mining concessions can apply for a reduced license of approximately U.S.\$7 per hectare, by providing evidence to the Geology and Mining National Service (SERNAGEOMIN) of being effectively undertaking mining works on the concession, or that such mining concessions are part of a project that either has an environmental approval or has been submitted for environmental impact assessment. Exploitation fees, within certain limits, may be credited to income taxes originated through the exploitation of the concession. Payments of the annual fees must be made in March of each year. Failure to make the annual fee payments may result in the loss of title to the concession through its auction.

CODELCO owns mining concessions for its exploration and exploitation operations. Some of these concessions were previously held by foreign private mining companies before being transferred to the State of Chile in 1971 pursuant to the nationalization of copper and subsequently to CODELCO upon its incorporation in 1976 (Chuquicamata, Salvador, Andina and El Teniente Divisions). CODELCO's principal and actual mining concessions are those which give rights to the mineral deposits of the Chuquicamata, El Teniente, Andina, Salvador, Radomiro Tomic, Gabriela Mistral and Mina Ministro Hales Divisions. CODELCO's concessions relating to the area that is currently being mined essentially grant an indefinite right to conduct mining operations in that land, provided that annual concession fees are paid. In 2021, CODELCO paid total concession fees of U.S.\$7.28 million and in 2022, CODELCO paid total concession fees of U.S.\$8.01 million. In 2023, CODELCO paid total concession fees of U.S.\$7.92 million, in 2024, CODELCO paid total concession fees of U.S.\$14.9 million and as of September 30, 2025, CODELCO paid concession fees of U.S.\$42.6 million.

Pursuant to the Mining Code, all mining concessions, as well as certain raw materials, assets and other property permanently dedicated to the exploration or extraction of minerals cannot be subject, except in extremely limited circumstances, to an order of attachment. In addition, pursuant to the Constitution, mining concessions corresponding to mining deposits exploited by CODELCO upon its incorporation in 1976 cannot be subject to attachment nor to any act of disposition by CODELCO. As a result, the rights of holders to attach property of CODELCO in the event of a default under the notes would be limited by such provisions. See "Risk Factors—Risks

Relating to the Offering—In case of a default under the notes, the ability of holders to attach property of CODELCO may be limited by Chilean law.”

On February 4, 2022, Law No. 21,420 was enacted, amending the Mining Code in the following matters:

- Increased the duration of an exploration mining concession from two to four years.
- Introduced a new legal framework of annual mining licenses.
- Established new reporting obligations to holders of mining concessions regarding the delivery of geological information. The law provides that upon extinction or at the end of their term (in the case of exploration concessions) or every two years (in the case of exploitation concessions), the holder must submit to the SERNAGEOMIN all the geological information obtained from exploration works performed in them. Fines up to approximately U.S.\$7,500 will be imposed to those who do not deliver the information obtained.
- Introduced the SIRGAS datum regarding the U.T.M. coordinates of the mining concessions. The entry into force of these changes has been postponed until the relevant regulations are enacted.
- On January 26, 2023, Law No. 21,536 was published, which postponed the entry into force of the mining provisions of Law No. 21,420, setting forth that the amendments to the Mining Code introduced by Law No. 21,420 shall enter into force on January 1, 2024, and that all legal terms set forth in said amendments shall begin as of that date.
- On December 30, 2023, Law No. 21,649 was enacted, which amended Law No. 21,420, which in turn amended the Mining Code as of January 1, 2024, and other mining legal provisions in order to generate a more harmonious regulatory framework in line with the practical reality of mining in Chile. Among the main aspects of these provisions are:
 - Regarding exploration mining concessions, Law No. 21,649: (i) keeps the four-year duration of the exploration mining concession (as was amended by Law No. 21,420), (ii) entitles holders of exploration mining concessions to request, for one time, the extension of their exploration mining concessions for an additional period of up to four years, provided that the requirements established by law are met; (iii) determines that the holder of an exploration concession is banned from applying for a new exploration concession over all or part of the same area, as of the date of filing of the relevant claim until one year after its expiration, either by itself or through a third party, penalizing the contravention of its prohibition with the loss of the preferential right to obtain an exploitation mining concession over the area; (iv) establishes a legal procedure to report contraventions of the aforementioned prohibition, providing that a third party, who was successful in obtaining a favorable court decision through this process, may seek an exploration mining concession for the area subject to the reported contravention. This party can also leverage the filing date of the reported exploration mining concession if specific conditions are met; and (v) establishes that mining concessions that expire during 2024, and for which holders intend to extend for another four years, will be extended until December 31, 2024.
 - Regarding mining licenses, Law No. 21,649 modifies the following: (i) it increases the mining license for exploration mining concessions; (ii) it progressively increases the mining license for exploitation mining concessions; (iii) it specifies the conditions under which the holder of an exploitation mining concession is eligible to request a reduced mining license, a requirement to be substantiated annually. These conditions encompass the initiation of ongoing and permanent activities facilitating the continuous development of mining operations and holding mining concessions affiliated with projects that have been granted an Environmental Qualification Resolution or have been submitted for qualification through the Environmental Impact Assessment System, and, for small-scale mining endeavors, eligibility is contingent upon the initiation of the application process for any of the permits referred to in the Mining Safety Regulations; and (iv) it includes a provision to confer a benefit on individuals, legal mining companies (*sociedades legales mineras*), mining cooperatives, and limited

liability individual companies with mining concessions covering less than 500 hectares. This benefit entails the assumption that eligibility for reduced mining licenses extends for a duration of five years, provided that the eligibility conditions outlined in (iii) herein are met.

- Regarding the geological information, Law No. 21,649: (i) considers as confidential information for a period of four years, the geological information provided to the SERNAGEOMIN by holders of mining concessions who have carried out advanced exploration activities, given its strategic and commercially sensitive nature for its owner; (ii) determines the time and manner in which the holder of a mining concession shall deliver a report with the obtained geological information to the SERNAGEOMIN; and (iii) increases the amount of the fine to approximately U.S.\$91,500 (instead of the current U.S.\$7,500 fine) in case of non-compliance with this reporting obligation. This fine could be doubled if the SERNAGEOMIN requires the geological information and it is not provided, along with disqualifying the mining concessionaire from accessing the benefit of the reduced mining license.
- Regarding the change of datum, Law No. 21,649: (i) eliminates all references in the Mining Code to the SIRGAS datum relating U.T.M coordinates, stating that the datum shall be defined in a specific regulation ; (ii) eliminates the cause for expiry of mining concessions due to the lack of registration of the new coordinates in the SIRGAS datum; and (iii) establishes a rule of general application with the procedure by which the transformation of the coordinates of existing concessions shall be carried out if a change of datum is decided in the future, as well as defining that in the event of a change of datum, the registration of the new coordinates shall be done only in the National Registry of Mining Concessions kept by the National Geology and Mining Service (SERNAGEOMIN) and not in the Mines Property Registry kept by the relevant Custodians of Mines, thus facilitating the procedure and avoiding unnecessary costs.
- Regarding possessory actions, Law No. 21,420 introduced an additional provision to article 94 of the Mining Code, stating that holders of mining concessions who submit a new construction complaint must demonstrate that they hold *in rem* rights, such as easements or other legal claims, over the concerned land for the complaint to be accepted, and Law No. 21,649 introduced additional provisions to article 94 of the Mining Code, specifying that the relevant court has the option to order the suspension or cessation of construction activities. This discretion is contingent upon the claimant furnishing evidence of holding an *in rem* right over the land, along with supporting documentation that substantiates the severe and imminent risk associated with not issuing the suspension or cessation order. Law No. 21,649 also provides that in the event of a suspension of the works, the developer has the option of lifting the suspension by providing a bond to cover the costs of demolition or compensation for damages, the amount of which will be determined by the court, and any issues pertaining to the bond will be addressed as a distinct procedural matter; and if a possessory action is filed against the holder of a mining concession, the same rules will apply.

Environmental Regulations

CODELCO's operations are subject to national, regional and local regulations as well as international treaties subscribed by the Government of Chile and enacted as Chilean domestic law regarding the protection of the environment, natural resources and the effect of the environment on human health and safety, including laws and regulations concerning water, air and noise pollution, the handling, disposal and transportation of hazardous waste and occupational health and safety.

The General Environmental Law (Law No. 19,300), enacted in March 1994, as amended, establishes the general environmental legal framework in Chile, including the establishment of a range of environmental management mechanisms known as the Environmental Impact Assessment System (Sistema de Evaluación de Impacto Ambiental), the Emission Standards and the Environmental Quality Standards, among others. Chilean environmental laws and regulations, and its enforcement, have become increasingly stringent since 2010, particularly since January 26, 2010 when Law No. 20,147 was published in the Official Gazette creating: (i) the Ministry of the Environment (*Ministerio del Medio Ambiente*), (ii) the Environmental Assessment Service ; and (iii) the SMA, among other entities. Such amendments of Law No. 20,147 include, among other significant modifications, the creation of a new institutional framework comprised by (i) the Council of Ministers for

Sustainability (*Consejo de Ministros para la Sustentabilidad*); (ii) the Environmental Courts (*Tribunales Ambientales*); and (iii) the Biodiversity and Protected Areas Service (*Servicio de Biodiversidad y Áreas Protegidas*), each of which are in charge of designing, evaluating and enforcing laws and regulations relating to projects and activities that could have an environmental impact. These institutions are fully operational with the exception of the Biodiversity and Protected Areas Service will initiate its operations in February 2026. Recent legal and regulatory changes are likely to impose additional restrictions or costs on CODELCO and also increased fines due to non-compliance with such laws and regulations, relating to environmental litigation and protection of the environment, particularly those related to flora and fauna, wildlife protected areas, water quality standards, air emissions, and soil pollution. Since the Superintendency of the Environment became fully operational on December 28, 2012, infringement of environmental regulations may result in fines of up to approximately U.S.\$9.2 million, the closure of facilities or the revocation of environmental approvals. As described in more detail below, CODELCO incurs, and may be required in the future to incur, substantial capital and operating costs related to environmental compliance. However, many of these costs are inextricably intertwined with the operation of CODELCO's business as a whole.

The General Environmental Law, as complemented by additional regulations, enables the Government of Chile to: (i) bring administrative and judicial proceedings against companies that violate environmental laws; (ii) close non complying facilities; (iii) revoke required operating licenses; (iv) require that companies to submit their projects for environmental evaluation as required by applicable law; and (v) impose sanctions and fines when companies act negligently, recklessly or deliberately in connection with environmental matters. The General Environmental Law also grants citizens the right to bring civil actions against companies that are not in compliance with environmental laws and regulations when such companies have caused "environmental damage," as defined in such law, after such noncompliance has been established by a judicial proceeding.

The General Environmental Law and its regulations regulate the Environmental Impact Assessment System, which has been in effect since April 1997. Article 10 of Law No. 19,300 provides that projects or activities listed therein may only be carried out or modified after a prior assessment of their environmental impact. These projects are of various kinds (i.e. mining, infrastructure, etc.) and may entail relevant environmental impacts, whether by reason of their magnitude, location or the hazards involved. The project owner, either in case of a new project or the modification of an executed one, must submit an Environmental Impact Study or Environmental Impact Declaration depending on the significance of the environmental impacts generated thereof. CODELCO has obtained several Environmental Approval Resolutions (*Resoluciones de Calificación Ambiental* or "RCA") under the Environmental Impact Assessment System.

Environmental Approval Resolutions set forth specific obligations, conditions and measures that must be complied with, and, in addition, new environmental authorizations for future expansions or modifications of current activities may set forth obligations, conditions and measures that entail increased costs. Failure to comply with the applicable environmental regulations and related obligations, conditions and measures can result in civil, administrative, or criminal fines or sanctions, claims for environmental damages, remediation obligations, the revocation of environmental authorizations or the temporary or permanent closure of facilities.

Since 2013, the Superintendency of the Environment has initiated sanctioning proceedings against CODELCO on ten occasions: Two against Ventanas Division (2016 and 2021), two against Salvador Division (2021 and 2024), one against Andina Division (2020), two against Ministro Hales Division (2024), one against Chuquicamata Division (2024) and two against El Teniente Division (2016 and 2024).

- **Ventanas Division:** In one case, a Compliance Program was submitted and approved by the authority, cancelling the charges, while in the other case, CODELCO submitted discharges which were accepted by the authority.
- **Salvador Division:** The first proceeding is being reviewed in court and a decision is still pending, whereas the second one has been initiated on November 4, 2024, and CODELCO submitted its discharges on December 9, 2024. The authority took notice of the defense presented by CODELCO on December 3, 2025.
- **Andina Division:** The proceeding was suspended in 2021.

- **Ministro Hales Division:** A compliance program was submitted on September 10, 2024. CODELCO responded requests for clarification issued by the authority, presenting a consolidated text of the referred compliance program on September 30, 2025, which is now under review of the Superintendency of the Environment. Moreover, the authority initiated a new sanctioning proceeding against Ministro Hales Roaster on December 20, 2024. In this case, a compliance program was submitted and approved, and therefore the proceeding was suspended until CODELCO complies with all the committed actions.
- **El Teniente Division:** In this case, a fine was paid regarding infringements of forestry and soil management plans regarding Carén Tailings Dam. In addition, the authority initiated a new sanctioning proceeding related to Caletones Smelter on December 20, 2024, in which CODELCO submitted a compliance program that was approved, and therefore the proceeding was suspended until CODELCO complies with all the committed actions.
- **Chuquicamata:** The Superintendency of the Environment initiated a sanctioning proceeding against the Chuquicamata Smelter on December 12, 2024. A compliance program submitted by CODELCO was subsequently approved, and therefore the proceeding was suspended until CODELCO complies with all the committed actions.

Sanctioning proceedings suspended due to the approval of a compliance program may be resumed in the event the Superintendency of the Environment deems they were not satisfactorily fulfilled.

CODELCO is constantly being audited by the environmental authority. Such inspections may result in new sanctioning proceedings against CODELCO. Yet sectorial authorities are also entitled to inspect and, if applicable, initiate sanctioning proceedings due to non-compliance with regulations and permits.

Chile has adopted environmental regulations requiring companies operating in Chile, including CODELCO, to undertake programs to reduce, control and/or eliminate certain environmental impacts. CODELCO has undertaken a number of environmental initiatives to comply with such regulations. As of September 30, 2024, CODELCO has implemented a strategic change process in all divisions to manage the aspects and risks associated with environmental matters, under a corporate management system issued by the parent company level, ISO 14001 certified and Copper Mark registered. From 2012 to 2024, CODELCO invested U.S.\$6.4 billion in environmental projects, including the expansion of the Talabre, Ovejería and Pampa Austral Tailings dams in the Chuquicamata, Andina and Salvador Divisions and various projects in Potrerillos smelter in order to comply with the new regulation regarding atmospheric emissions. Additionally, as part of its pollution abatement efforts, CODELCO continues to implement water recovery systems, the costs of which are also budgeted in CODELCO's pollution abatement plan, to conserve resources and minimize pollution of natural water sources.

To protect and improve environmental air quality in the country, the Ministry of the Environment has the authority to declare certain areas to be "latent zones" (*zonas latentes*) or "saturated zones" (*zonas saturadas*). Latent zones are areas in which there exists a high risk of excessive pollution – the pollutant concentration in air water or soil is greater than 80.0% of the corresponding quality standard in a certain area – and in which further emissions are highly restricted. Saturated zones are areas in which an excessive level of pollution already has been reached – the concentration of the air pollutant exceeds 100% of the corresponding quality standard for a pollutant in a certain area – and in which emissions are required to be reduced and mitigation measures are required to be implemented. In connection with the declaration of a latent or saturated zone, the Ministry of the Environment may initiate an investigation and public-consultation process to develop a prevention or decontamination plan, as the case may be. A draft regulation is currently being developed to strengthen the procedures for preparing latent and saturated zone declarations, as well as the procedures for preparing and reviewing prevention and decontamination plans. In addition, Law No. 21,562 on restrictions over environmental assessments of projects placed within latent or saturated zones, published in the Official Gazette on May 29, 2023, establishes that once an area has been declared as latent or saturated, by means of a resolution issued by the Minister of the Environment, provisional measures may be adopted, with due justification, in accordance with the background information considered during the drafting process of the regulation declaring the area as latent or saturated, as well as with the applicable environmental quality standard and the nature and severity of the impact on environmental components and public health, during the period allocated for the preparation of the draft prevention or decontamination plan. Such provisional measures may remain in force until the issuance of the corresponding prevention or decontamination plan and shall be extinguished by

operation of law (*por el solo ministerio de la ley*) upon the publication in the Official Gazette of the decree establishing the respective prevention or decontamination plan. The whole process for the approval of prevention or decontamination plans may take more than two years. Upon publication of either type of plan, emission reduction targets and other environmental remediation actions may be required of specific industries located within the latent or saturated zone. Measures included in the pollution prevention or reduction plans governing CODELCO's operations are subject to change and may become more stringent if compliance with applicable air quality standards is not achieved.

The environmental authority initiated the review of the Chuquicamata, Potrerillos and Caletones decontamination plans. In 2024, the Ministry of the Environment enacted a provisional PM₁₀ decontamination plan for the borough of Calama, which requires dust mitigation efforts for Chuquicamata, Ministro Hales and Radomiro Tomic mines. In parallel, a Permanent Decontamination Plan for the borough of Calama is being prepared, which could result in new and more dust mitigation efforts for these mines. In 2024, CODELCO allocated U.S.\$15.0 million to particulate matter mitigation projects in the Ministro Hales and Radomiro Tomic Divisions, along with an additional U.S.\$300,000 for mitigation measures in the city of Calama. These investments are part of the company's efforts to comply with the established provisional environmental measures.

In 2013, Supreme Decree No. 28 of the Ministry of the Environment, on Emission Standard for Smelting Plants was enacted, which establishes maximum parameters of emission for PM₁₀, SO₂, arsenic (As) and mercury (Hg) generated by smelting plants. Certain aspects of the regulation became effective immediately while other provisions of the new emission standards came into force at a later date—within three years in the case of Ventanas smelter, and within five years in Chuquicamata, Potrerillos and Caletones smelters. CODELCO has fully complied with emissions regulations since 2019, demonstrating its ongoing commitment to environmental standards. This regulation is currently under routine review by the Ministry of the Environment, which is conducted every five years. The revised regulation (Supreme Decree No. 32/2025) is in an advanced stage, and will be signed by the President of the Republic, reviewed by the General Comptroller of the Republic (*Contraloría General de la República*), and published in the Official Gazette, all of which is expected to occur in 2026. CODELCO is currently assessing the investment required to comply with the new regulatory modifications being developed by the authorities. The estimated amount is being determined based on ongoing engineering studies. In this regard, on October 10, 2025, the Supreme Decree No. 9 of the Ministry of the Environment was published in the Official Gazette, establishing primary air quality standards for arsenic. Pursuant to such decree, a monitoring plan will be implemented by such Ministry. Monitoring stations with EMRP-MP 10 or EMRP-MP 2.5, located near emission sources affected by Supreme Decree No. 28 of 2013, must be incorporated into the monitoring plan.

Supreme Decree No. 90/2001 of the General Secretary of the Presidency, which sets forth the standards for discharges of liquid waste into surface water bodies, went into effect in 2006. CODELCO has invested significant amounts to reduce liquid waste emissions to date and expects that it will continue to incur costs related to compliance with Supreme Decree No. 90/2001. In February 2023, a water quality standard was published for the Aconcagua River basin, where the Andina mine operates and discharges liquid waste. In October 2024, a water quality standard was also published for the Quintero – Puchuncaví bay, where Ventanas Refinery operates and discharges liquid waste. Both facilities are studying the implementation of liquid waste recycling effort to achieve zero discharge of liquid waste. In addition, the authorities are developing water quality standards for other water bodies that CODELCO currently or may in the future discharge into, such as the Cachapoal river. Such standards could require CODELCO to incur additional costs to manage liquid waste discharges.

Regulations were enacted in February 2004 governing safety standards for mining operations. Pursuant to these regulations, all mining companies, including CODELCO, were required to provide closure plans for their mining facilities, demonstrating compliance with safety standards. These plans must be updated every five years and must consider the requirements set forth in the environmental authorization issued for the respective facility, if any. SERNAGEOMIN has approved the closure plans CODELCO prepared for all of its facilities.

The current mining closure regulation, Law No. 20,551, which includes health, safety and environmental requirements along with mandatory provisions that require financial guarantees, was enacted in 2011, and became effective in 2012. According to this law, CODELCO and other mining companies in Chile were required to submit an assessment of the closure expenses of all its mines to the SERNAGEOMIN before 2014. Once the assessment of closure expenses was approved, CODELCO had to provide the financial guarantee between the sixth months since

the approval and two-thirds of the project life (less than 20 years), or 15 years of the project life (more than 20 years). CODELCO has obtained the approval of the closure plans for all of its Divisions from SERNAGEOMIN and has provided the financial guarantees in the term established by the law. CODELCO had total provisions amounting to U.S.\$2.2 billion for future decommissioning and site restoration costs primarily related to tailing dams, closures of mine operations and other mining assets, including potential new governmental regulations. Currently, an update of the regulation of tailings dams (Decree No. 248) is taking place and is currently under the review of the General Comptroller of the Republic (*Contraloría General de la República*).

On June 20, 2020, Law No. 21,169 entered into force, which introduced the following amendments to the mine closure regulation, among others: (i) the recognition of policies issued by Chilean insurance companies within the A.1 credit rating category, provided that they are unable to raise exceptions that condition or defer the payment of the indemnity to SERNAGEOMIN; and (ii) the obligation to request SERNAGEOMIN's authorization to make changes or alterations in the identity and validity of the A.1 financial instruments that comprise the guarantee.

On February 1, 2024, the Supreme Decree No. 30/2023 of the Ministry of the Environment was published in the Official Gazette, which amends the Regulations of the Environmental Impact Assessment System (SEIA) in order to adapt such regulations to the requirements of the Framework Law on Climate Change and the Escazú Agreement. The approved modifications include, among others, the following: (i) amendment to the minimum contents of the Environmental Impact Declarations (DIA) and Environmental Impact Studies (EIA). The climate change factor is added transversally in the analysis that the proponents must carry out regarding the impact of their projects on the different components of the environment; (ii) the duty to present a summary of the DIA and that the general background section and the summaries of the DIA and EIA must be written in language understandable to the public, and the names of the projects must clearly reflect the type of project involved; (iii) the possibility of reviewing the RCA is reinforced, which would take place when, during the execution of a project (either if submitted by means of a DIA or EIA), the variables observed in the monitoring plans evolve differently from what was projected, considering the influence of climate change; (iv) a "participatory monitoring" (*monitoreo participativo*) may be included by the proponents in the DIA or EIA, which consists of a process to incorporate the community in the follow-up of the development phases of a project through the delivery of information, reports, training, field visits, among other measures; and (v) the scope of the concept of "environmental burden" is broadened, in order to allow citizen participation in the process of granting DIAs, and for the purposes of analyzing the environmental burdens of a project, nearby communities will be understood as those that are located in or make use of the area where the environmental impacts are manifested. In addition, the term for citizens or organizations to request a citizen participation process within the processing of DIAs is extended from ten to thirty days. As of the date of this offering memorandum, another amendment to the Regulations of the Environmental Impact Assessment System is being processed and is currently under the review of the General Comptroller of the Republic (*Contraloría General de la República*).

In September 2023, Law No. 21,600 was published in the Official Gazette, creating the Biodiversity and Protected Areas Service and the National System of Protected Areas. This law aims to conserve biological diversity and protect the country's natural heritage through the preservation, restoration, and sustainable use of genes, species, and ecosystems. The new regulation aims to incorporate changes for a more unified and effective management of biodiversity and the country's network of protected areas. The Ministry of the Environment is currently working on the development of 13 regulations and the installation of the new Biodiversity and Protected Areas Service, which is currently in the implementation phase and is expected to begin its operations in February 2026. These developments are expected to entail greater requirements in terms of biodiversity and protected areas -including priority sites (*sitios prioritarios*)- for projects falling within their purview.

On September 29, 2025, Law No. 21,770, which set forth a framework law for sectorial permits was published in the Official Gazette (*Ley Marco de Autorizaciones Sectoriales*) (the "Framework Law"). The Framework Law established a general framework for public administrative bodies vested with authority to enable projects of activities subject to regulatory restrictions, and entered into force on September 29, 2025, although many of its provisions are subject to several regulations that are yet to be enacted. Among other provisions, a single authority under the Ministry of Economy will overview all projects' permitting process. It also includes several mechanisms to expedite permitting processes, many of which are essential for mining projects.

Future legislative or regulatory developments, private causes of action or the discovery of new facts relating to environmental matters may impose new restrictions or result in additional costs that may have a material adverse effect on CODELCO's business, financial condition, results of operations or prospects. See "Risk Factors—Risks Relating to CODELCO's Operations—CODELCO's compliance with environmental, health and safety laws may require increased costs, including capital commitments, and non-compliance may subject it to significant penalties, legal liabilities, and detrimental financial, business and reputational impacts. Additionally, delays in receiving environmental and safety permits or related suspensions could impact project development and have an impact on CODELCO's operations and revenue."

Economic Crimes Regulation

On August 17, 2023, Law No. 21,595 on economic crimes and offenses against the environment, was published and later amended by Law No. 21,694, published in the Official Gazette on September 4, 2024 (the "Economic Crimes Law"). This law, *inter alia*, (i) systematizes a series of existing business-related offenses; (ii) creates new environmental crimes, including environmental pollution and negligent or imprudent pollution; (iii) penalizes new offenses based on money laundering; (iv) strengthens existing penalties by excluding from custodial sentences certain benefits that previously allowed economic crime offenders to avoid effective imprisonment, the confiscation of profits and fines; and (v) amends several provisions to the Corporate Criminal Liability Act (Law No. 20,393, of 2009, as amended) by expanding the catalogue of criminal offenses by corporations, easing the requirements to hold them liable, and establishing new penalties.

The implementation of a Crime Prevention Model ("CPM") by CODELCO, prepared in accordance with the requirements set forth in the law, would relieve liability. On the contrary, if a court determines the inexistence or flawed implementation of a CPM, it may appoint a "supervisor" with the power to issue mandatory instructions to CODELCO to ensure proper functioning of the CPM.

Personal Data Protection and Privacy Regulations

Under Chilean law, the main statute governing personal data is Law No. 19,628 on the Protection of Personal Data (as amended) (the "Data Protection Law"). On December 13, 2024, a comprehensive reform was enacted (Law No. 21,719), which modernizes the Chilean framework and aligns it with international standards (including concepts reflected in the European Union's General Data Protection Regulation). Law No. 21,719 will enter into force on December 1, 2026. Until that date, the current Data Protection Law applies, which generally permits processing based on express consent or other legal authorizations and recognizes certain rights (including information, rectification, deletion and blocking) but does not establish a centralized supervisory authority or a comprehensive regime for international data transfers.

Effective December 1, 2026, Law No. 21,719 will introduce a principle-based regime. Among other matters, it: (i) codifies core principles (including lawfulness, purpose limitation, proportionality, data quality, responsibility, transparency, security and confidentiality); (ii) strengthens data subject rights (including access, rectification, deletion, objection, portability, temporary blocking and safeguards regarding automated decision-making); (iii) recognizes multiple legal bases for processing beyond consent (including legal obligation, performance of a contract and legitimate interests, subject to safeguards) and sets more detailed requirements for valid consent (including that it be freely given, specific, informed and unambiguous, with the possibility of withdrawal); (iv) defines and regulates sensitive personal data (including health, biometric and human biological profile data) and provides specific rules for processing personal data of under-aged individuals; (v) establishes controller and processor obligations (including privacy by design and by default, transparency obligations, appropriate technical and organizational security measures, recordkeeping and breach prevention models); (vi) requires notification of personal data security breaches to the data protection authority and, in certain cases, to affected individuals; (vii) mandates data protection impact assessments in specific high-risk scenarios; (viii) contemplates voluntary adoption of certified compliance programs, which may include appointing a data protection officer; and (ix) regulates international data transfers through adequacy decisions, appropriate safeguards (such as model clauses, binding mechanisms and certifications) or limited derogations.

Law No. 21,719 creates a dedicated Data Protection Agency with supervisory and sanctioning powers and establishes public registries (including a National Registry of Sanctions and Compliance). It also introduces a tiered

sanctions regime that classifies infringements as minor, serious or very serious and allows fines of up to 20,000 UTMs (approximately U.S.\$1.6 million), in addition to corrective measures. Recidivism may be sanctioned with fines of up to three times the original amount. For large companies (i.e., entities that do not qualify as small or medium-sized enterprises under Law No. 20,416), the authority may impose the most severe of the previous sanction (tripled amount) or, alternatively, up to 2% of annual revenue for serious infringements and up to 4% for very serious infringements.

Cybersecurity Law and Regulatory Regime

In Chile, the main statute governing cybersecurity is Law No. 21,663 (the “Cybersecurity Framework Law”), enacted in April 2024 and in full force since March 2025. The law establishes the institutional structure, guiding principles and general regulatory framework for organizing, regulating and coordinating cybersecurity actions among State agencies and between such agencies and private entities. It sets minimum requirements for the prevention, resolution and response to cybersecurity incidents and defines powers, duties, and mechanisms for oversight, supervision and accountability. The law applies to: (i) all agencies and entities that form part of the State Administration, and state-owned enterprises; (ii) private entities that provide “essential services,” as defined in Article 4 (including, for example, providers of electricity, telecommunications, water and sanitation, transportation infrastructure, digital services, banking, financial services and payment systems, and healthcare institutions); and (iii) private entities formally designated as “operators of vital importance” (“OVI”) by the National Cybersecurity Agency (*Agencia Nacional de Ciberseguridad*, “ANCI”), pursuant to Article 5 and its regulation approved by Supreme Decree No. 285/2024 of the Ministry of the Interior and Public Security. OVI designation follows a regulatory evaluation led by ANCI with sectoral input and public consultation, and is made by reasoned resolution.

On December 16, 2025, ANCI designated CODELCO as an OVI by Exempt Resolution No. 87, within the first qualification process under Law No. 21,663 and Supreme Decree No. 285/2024.

For providers of essential services and OVIs, the law imposes a general, ongoing security duty to permanently implement technological, organizational, physical and informational measures to prevent, report and resolve cybersecurity incidents, in accordance with ANCI protocols and applicable sectoral standards, aimed at managing risks and mitigating impacts on service continuity and on confidentiality and integrity of information, networks and systems. It also mandates incident reporting to ANCI for cyberattacks and cybersecurity incidents that may have significant effects, following a staged timeline regulated by Supreme Decree No. 295/2024 of the Ministry of the Interior and Public Security: an early warning within three hours of awareness; an update within 72 hours (or within 24 hours for OVIs if delivery of essential services is affected); and a final report within 15 calendar days, with interim reports every 15 days if the incident remains ongoing. OVIs must also notify ANCI of their incident response action plan as soon as adopted and no later than seven calendar days after becoming aware of an incident with significant effects, including minimum elements defined in DS No. 295/2024.

OVIs are subject to enhanced obligations, including implementing an ongoing information security management system (“ISMS”); maintaining records of ISMS actions; developing, certifying and periodically reviewing business continuity and cybersecurity plans (at least every two years, with the possibility of earlier recertification instructed by ANCI for serious supervening reasons); conducting continuous reviews, exercises and drills and informing ANCI upon detection of actions or software that may compromise cybersecurity; promptly containing incidents, including restricting use or access when necessary; obtaining the cybersecurity certifications required by law from ANCI-authorized certification centers (with possible recognition of foreign certifications by reasoned ANCI resolution); informing potentially affected individuals of incidents or attacks when criteria are met and ANCI so requires (particularly where personal data or systems may be seriously compromised or notification is necessary to prevent or manage incidents); ensuring ongoing staff training and cyber-hygiene; and appointing a cybersecurity delegate who interfaces with ANCI and reports directly to senior management.

Breaches of obligations under Law No. 21,663 may result in administrative fines under a tiered regime linked to infringement severity, with fines up to 20,000 UTAs and up to 40,000 UTAs in the case of OVIs.

Enforceability of Obligations

CODELCO's commercial obligations are enforceable in the same manner as those of any privately owned company in Chile. Even though CODELCO is a state-owned enterprise, it is subject to the same laws and regulations applicable to all private Chilean corporations. This principle is consistent with the constitution of 1980, wherein Article 19, No. 21 states that if Chile and its bodies carry out commercial activities, they will be governed by common legislation applicable to private persons, unless a specific law approved by an absolute majority of representatives of the Chilean Congress dictates otherwise. No such law has been passed with respect to CODELCO.

Payment of Obligations

Article 23 of Decree Law No. 1,350 provides that CODELCO has the obligation to return the total proceeds of its exports to Chile, but has no obligation to convert the proceeds to Chilean pesos in excess of its peso requirements. The proceeds from its exports are deposited at the Central Bank of Chile, and withdrawals against such foreign exchange deposits are made to cover CODELCO's expenses. In addition, Article 13 of Decree Law No. 1,350 directs CODELCO to prepare a Loan Amortization Budget which must include the payment of principal of CODELCO's debts and related interest payments, including the notes. This budget, as part of the general budget of CODELCO, is approved annually by joint decree of the Ministry of Mining and the Ministry of Finance and may be amended to meet non-budgeted expenses, in accordance with the terms and conditions of Article 16 of Decree Law No. 1,350. The incurrence of any indebtedness by CODELCO must be authorized by an official letter from the Ministry of Finance. For loans with maturity at issuance of a duration of more than one year, this authorization is required to commence the relevant procedures.

Statutory Documents

The statutory documents of CODELCO are contained in Decree Law No. 1,350 published in the Official Gazette on February 28, 1976, as amended by Law 20,392, and Decree No. 146 published in the Official Gazette on October 25, 1991, as amended (to conform the same with Law 20,392) by Decree No. 3 of January 13, 2012 issued jointly by the Ministries of Finance and Mining, published in the Official Gazette on July 4, 2012. These gazettes may be seen on-line on the Library of the Chilean Congress website (<http://www.bcn.cl/>) or in a booklet that CODELCO will issue upon request, which contains free translations of the regulations into English.

MANAGEMENT

The Board of Directors is primarily responsible for the management and administration of CODELCO. The Board of Directors is composed of nine members, appointed as set forth in Law No. 20,392: (i) three directors are directly appointed by the President of Chile; (ii) four directors are appointed by the President of Chile from a short-list presented by the Council of Senior Public Management (*Consejo de la Alta Dirección Pública*), an entity within the National Civil Service Bureau that advises the President of Chile, ministers and heads of services departments on the appointment of high-ranking public positions; (iii) one director is appointed by the President of Chile from a short-list presented by the *Federación de Trabajadores del Cobre* (FTC); and (iv) one director is appointed by the President of Chile from a short-list presented by both the *Federación de Sindicatos de Supervisores del Cobre* (FESUC) and the *Asociación Nacional de Supervisores del Cobre* (ANSCO). All directors in CODELCO serve four-year terms and may be reelected for new terms. The Board is renewed on a staggered basis and may not be revoked in its entirety.

The Board of Directors is vested with all the management and asset-disposal authority, except to the extent that Chilean law or CODELCO's bylaws establish such authority within the exclusive province of the President of Chile (as discussed below), and other than the authority delegated to the Chief Executive Officer. The main responsibilities of the Board of Directors of CODELCO are to: (i) designate and remove the Chief Executive Officer; (ii) approve and send to the Ministry of Finance an estimate of the revenues and surplus earnings that it will transfer to the Government of Chile in the following year's budget; (iii) prepare the annual budget of CODELCO and send for the approval of the Ministry of Finance; and (iv) approve the BDP report of the Company for the following three-year period.

The President of Chile is vested with authority analogous to that of the shareholders of a corporation (*sociedad anónima*) under Chilean law, which may be delegated in whole or in part to the Ministers of Finance and Mining, jointly. Pursuant to such authority, the President of Chile: (i) participates in the designation of the Board of Directors by designating three directors without external input and by electing six directors on the basis of third-party short-lists; (ii) appoints the Chairman of the Board of Directors; and (iii) may approve and amend the bylaws of the Company, by means of an executive decree issued jointly by the Ministries of Finance and Mining. See "Risk Factors – Risks Relating to CODELCO's Relationship with the Government of Chile."

Senior management and administration of the Company are vested in its Board of Directors and Chief Executive Officer. The Board of Directors is in charge of the ultimate conduct and oversight of the Company. The Chief Executive Officer is named by the Board of Directors and remains in office so long as he/she maintains the confidence of the Board. The Chief Executive Officer is responsible for implementing the resolutions of the Board of Directors and supervising the activities of CODELCO. On August 18, 2023, the Board of Directors of CODELCO appointed Rubén Alvarado Vigar as the new CEO, and he commenced his term on September 1, 2023.

On January 26, 2024, CODELCO announced the appointment of Braim Chiple Cendegui as Vice President of Sales, effective on March 15, 2024, replacing Cristobal Fuenzalida who was Acting Vice President of Sales since December 1, 2023.

On April 1, 2024, CODELCO announced the appointment of Gabriel Méndez Serqueira as Vice President of Corporate Affairs and Sustainability, effective on April 22, 2024, replacing Patricia Provoste who was Acting Vice President of Corporate Affairs and Sustainability since November 01, 2023.

On May 28, 2024, CODELCO announced that Felipe Kilian Polanco will take over as General Manager of its subsidiary Minera Salar Blanco on September 1, 2024. Kilian's responsibilities will include advancing the lithium project in the Maricunga Salar, strengthening community relations, and supporting the indigenous consultation process for expanding the company's Special Lithium Operation Contract (CEOL). His first major task will be to lead the search for a partner for the Maricunga project with Rothschild as advisor, with plans to conclude the selection process in early 2025.

On May 30, 2024, CODELCO announced the resignation of Christian Caviedes as General Manager of Chuquicamata Division, effective on May 31, 2024 and appointed René Galleguillos as interim General Manager

effective the same day. On July 22, 2024, René Galleguillos was appointed as General Manager of Chuquicamata Division, effective on July 23, 2024.

On October 21, 2024, CODELCO announced the nomination of its former CEO, André Sougarret, and former director Juan Enrique Morales to the board of Compañía Minera Teck Quebrada Blanca S.A. (“Quebrada Blanca”).

On January 23, 2025, CODELCO announced the appointment of Julio Díaz Rivera as its new Vice President of Mining Resources, Development, and Innovation. Mr. Díaz previously served as the General Manager of CODELCO’s Radomiro Tomic division. Additionally, Claudia Domínguez Sepúlveda, formerly the Operations General Manager at the Andina division, assumed the role of General Manager at Radomiro Tomic. Both appointments became effective on February 1, 2025.

On April 23, 2025, Chilean President Gabriel Boric appointed Tamara Agnic Martínez, Alfredo Moreno Charme, and Ricardo Calderón Galaz as new members of CODELCO’s Board of Directors. Mrs. Agnic and Mr. Moreno, who replace Isabel Marshall and Pedro Pablo Errázuriz, were selected for four-year terms through the High Public Management System, following a competitive process launched in November 2024 that attracted 232 applicants. Mr. Calderón Galaz was appointed as the representative of CODELCO’s supervisory staff, selected from a five-candidate shortlist jointly submitted by the Federation of Copper Supervisors (FESUC) and the National Association of Copper Supervisors (ANSCO).

On July 7, 2025, CODELCO announced the departure of Christian Toutin as General Manager of the Salvador Division, effective July 8, 2025. Mr. Toutin had held the position since March 2018 and previously served in various roles at the Chuquicamata and El Teniente divisions, including Operations Manager, Safety Manager, and Operations Superintendent. Patricio Viveros López, currently the Plant Manager at the Salvador Division, was appointed as Interim General Manager effective the same day. Mr. Viveros was confirmed as General Manager on September 26, 2025.

On August 11, 2025, CODELCO announced the departure of Andrés Music Garrido as General Manager of the El Teniente Division, effective August 12, 2025, and the appointment of Claudio Sougarret Larroquete, former Operations Manager, as Interim General Manager. Mr. Sougarret was confirmed as General Manager on September 26, 2025.

On September 29, 2025, CODELCO announced the creation of the Vice Presidency of Integration for Andina Operations, effective November 1, 2025. The new position was established to strengthen the implementation of the joint mine plan for the Andina–Los Bronces District, within the framework of the company’s strategic alliance with Anglo American. As of the same date, Gonzalo Lara — currently General Manager of the Ministro Hales Division — will assume the role of Vice President of Integration for Andina Operations. As Interim General Manager of the Ministro Hales Division, CODELCO appointed César Jiménez, currently Concentrator Plant Manager at the same division, effective November 1, 2025.

On October 6, 2025, CODELCO announced the departure of Patricio Véliz as Ethics and Compliance Manager, a position he had held since April 2024. Irene Cosentino, currently Corporate Risk Manager, was appointed Interim Ethics and Compliance Manager effective the same day, while continuing to oversee the corporate risk area.

On January 2, 2026, CODELCO announced the appointment of Marta Herrera Seguel as Ethics and Compliance Manager, effective February 12, 2026. Ms. Herrera was appointed following a selection process led by the Board’s Audit, Compensation and Ethics Committee, which considered both internal and external candidates. Ms. Herrera is a lawyer from the University of Chile and holds a Master of Laws from California Western School of Law. She has more than 20 years of experience in legal, anti-corruption and compliance matters in the public sector and currently serves as Legal Director of the National Institute of Industrial Property (INAPI).

Organizational Structure

Directors and Executive Officers

The following table sets forth the current directors and executive officers of CODELCO and their positions:

<u>Name</u>	<u>Position</u>
Directors⁽¹⁾	
Máximo Pacheco Matte	Chairman ⁽²⁾⁽³⁾
Eduardo Bitrán Colodro	Director ⁽⁴⁾⁽⁶⁾
Ricardo Álvarez Fuentes	Director ⁽⁴⁾⁽⁶⁾
Tamara Agnic Martínez	Director ⁽⁴⁾⁽⁵⁾
Josefina Montenegro Araneda	Director ⁽²⁾⁽³⁾
Alfredo Moreno Charne	Director ⁽⁴⁾⁽⁵⁾
Nelson Cáceres Hernández	Director ⁽³⁾⁽⁷⁾
Ricardo Calderón Galaz	Director ⁽¹⁾⁽⁸⁾
Alejandra Wood Huidobro	Director ⁽²⁾⁽³⁾
Executive Officers	
Rubén Alvarado Vigar	Chief Executive Officer
Alejandro Sanhueza Díaz	Vice President of Finance
Mary Carmen Llano Aranzasti	Vice President – Human Resources
Sebastián Court Benvenuto	Vice President – Strategic and Management Control
Braim Chiple Cendegui	Vice President of Sales
Julio Cuevas Ross	Vice President – Projects
Julio Díaz Rivera	Vice President – Mining Resources and Development Management
Gabriel Méndez Serqueira	Vice President – Corporate Affairs & Sustainability
Mauricio Acuña S	Vice President Procurement
Macarena Vargas Losada	Vice President – Legal
Mauricio Barraza Gallardo	Vice President – Operations
Gonzalo Lara Skiba	Vice President of Integration for Andina Operations
Raúl Puerto Mendoza	General Auditor
Olivar Hernández Giugliano	Head of Finance
René Galleguillos Pallauta	General Manager – Chuquicamata Division
Claudia Domínguez Sepúlveda	General Manager – Radomiro Tomic Division
César Jiménez Soto (interim)	General Manager – Mina Ministro Hales Division
Claudia Cabrera Correa	General Manager – Gabriela Mistral Division
Patricio Viveros López	General Manager – Salvador Division
Ricardo Weishaupt Hidalgo	General Manager – Ventanas Division
Claudio Sougarret Larroquete	General Manager – El Teniente Division
Lindor Quiroga Bugueño	General Manager – Andina Division

-
- (1) Appointed by the President of Chile from a shortlist jointly submitted by the Federation of Copper Supervisors (FESUC) and the National Association of Copper Supervisors (ANSCO).
- (2) Directly appointed by the President of Chile.
- (3) Term expires May 2026.
- (4) Appointed by the President of Chile from a short list presented by the Council of Senior Public Management (*Consejo de la Alta Dirección Pública*).
- (5) Term expires May 2029.
- (6) Term expires May 2027.
- (7) Appointed by the President of Chile from a short list presented by Unions.
- (8) Term expires April 2029.

There is no family relationship between any director or executive officer and any other director or executive officer. The business address for the executives and directors previously listed is Huérfanos 1270, 6th floor, Santiago, Chile, postal code 8340424. No executive holds a position as an employee outside of CODELCO.

Committees of the Board of Directors

Audit, Benefits and Ethics Committee (Comité de Auditoría, Compensaciones y Ética)

CODELCO's audit, benefits and ethics committee consists of Tamara Agnic Martínez (Chair), Ricardo Álvarez Fuentes (Vice Chair), Eduardo Bitrán Colodro and Alfredo Moreno Charme, who may invite others to assist in its work. The audit, benefits and ethics committee's primary responsibility is to support the Board of Directors by providing and improving internal controls by reviewing transactions with related parties and the work of CODELCO's internal audit department. The committee also analyzes and reviews the work and reports of the external auditors. The committee is also responsible for analyzing observations made by Chilean regulatory entities and for recommending measures to be taken by the management in response. CODELCO's audit, benefits and ethics committee is not subject to the independence and other requirements to which U.S. public companies are subject.

Projects and Investment Committee (Comité de Proyectos y Financiamiento de Inversiones)

The projects and investment committee consists of Ricardo Álvarez Fuentes (Chair), Tamara Agnic Martínez (Vice Chair), Ricardo Calderón Galaz, Alfredo Moreno Charme and Eduardo Bitrán Colodro. This committee analyzes and recommends major mining development projects and financing of these projects.

Management Committee (Comité de Gestión)

The management committee consists of Alfredo Moreno Charme (Chair), Josefina Montenegro Araneda (Vice-Chair), Alejandra Wood Huidobro, Ricardo Álvarez Fuentes and Nelson Cáceres Hernández. The committee is primarily responsible for the management of the Company's divisions and key projects. It also reviews and evaluates the performance of subsidiaries and affiliated companies.

Sustainability Committee (Comité de Sustentabilidad)

The sustainability committee consists of Alejandra Wood Huidobro (Chair), Nelson Cáceres Hernández (Vice-Chair), Tamara Agnic Martínez, Josefina Montenegro Araneda and Ricardo Calderón Galaz. The committee advises the Board of Directors with respect to matters of sustainability, providing assistance to the Board of Directors in the Company's sustainability policies and goals as well as analyzing the efficacy of the Company's policies and management systems in the areas of health, safety and the environment.

Science, Technology and Innovation Committee (Comité de Ciencias, Tecnología e Innovación)

The science, technology and innovation committee consists of Eduardo Bitrán Colodro (Chair), Josefina Montenegro Araneda (Vice-Chair), Ricardo Calderón Galaz, Alejandra Wood Huidobro and Nelson Cáceres Hernández. This committee was formed in 2016 and discusses the challenges facing the corporation with respect to science and technology.

RELATED PARTY TRANSACTIONS

In the ordinary course of its business, CODELCO engages in a variety of transactions on arm's-length terms with certain related parties. For information regarding these transactions, see note 3 to the Consolidated Financial Statements.

In its dealings with Cyprus El Abra Corporation (a subsidiary of Freeport-McMoRan Inc.), the partner in SCM El Abra, CODELCO acts through a subsidiary, as agent. CODELCO does not sell copper to Nordeutsche Affinerie Group, its partner in Deutsche Giessradht GmbH.

Pursuant to Article 147 of the Law No. 18,046 on Corporations (the "Corporations Act"), CODELCO may only enter into operations with related parties if its intent is to benefit the corporate interest, if its price, terms and conditions are consistent with those prevailing in the market when approved, and if it follows certain requirements and procedures established by the law, including the Norma de Carácter General No. 501 published by the CMF on January 8, 2024 (General Rule No. 501, hereinafter "NCG 501"), by virtue of changes made the Chilean Corporations Act by Law No. 21,314 on Market Agents, of 2021. NCG 501 came into effect as of September 1, 2024, and establishes the minimum mentions that general habitual policies must contain and regulates the public disclosure of transactions with related parties ("OPR").

According to Article 146 of the Corporations Act, as amended, OPR of CODELCO include any and all negotiations, acts, contracts or operations in which the Company must take part, as well as:

- (i) one or more related persons to the Company, pursuant to the definition contained in Article 100 of Law No. 18,045 (the "Securities Market Law," as amended);
- (ii) a board member, manager, a main executive or a liquidator of CODELCO, acting directly or on behalf of any persons other than the Company, or their respective spouses or relatives up to the second degree (consanguinity or affinity);
- (iii) a corporation or partnership in which one of the persons mentioned in (ii) above are direct or indirect owners of 10.0% or more of its capital, board members, managers or main executives;
- (iv) those persons specifically established under CODELCO's bylaws or reasonably identified by the Directors' Committee, as applicable, even if the transaction with such persons (a) is not of a relevant amount, (b) is conducted on a regular basis (as per the regularity policy determined by the Board of Directors of CODELCO) or (c) is entered into with a subsidiary of CODELCO in which the Company holds a direct or indirect ownership interest of at least 95.0%; and
- (v) any company in which a board member, manager or main executive of CODELCO has served as a board member, manager, main executive or liquidator, during the last 18 months.

Article 100 of the Securities Market Law provides that the following persons constitute a related party: (i) the other entities of the business conglomerate to which a company belongs; (ii) parents, subsidiaries and equity-method investors and investees of a company; (iii) all directors, managers, officers and liquidators of a company, and their spouses or blood relatives to the second degree, or any entity controlled, directly or indirectly, by any of the abovementioned individuals; (iv) any person that, by their own actions or with other persons under a joint action agreement, may appoint at least one member of the management of a company or controls 10.0% or more of the capital or voting capital of a stock company; and (v) other entities or persons deemed a related party by the CMF.

The rules, requirements and procedures to approve operations with related parties apply both to the operations of CODELCO as well as to those of its subsidiaries, regardless of their legal nature, except for some exemptions set forth in Article 147 of the Corporations Act in which related-party transaction may be executed without the requirements referred to above, with the prior approval of the Board of Directors.

The breach of any of the restrictions on related party transactions will not affect the validity of the transaction. However, CODELCO or the President of Chile may demand from the breaching party, the reimbursement for an amount equivalent to the benefits gained by the breaching party resulting from the transaction. Additionally, CODELCO or the President of Chile may claim damages. Finally, the breaching party bears the burden of proof that the transaction was carried out according to the law.

CODELCO's policy for transactions with related parties is defined and governed by a specific internal regulation created pursuant to general policies established by the Board of Directors and in connection with the guidance provided by Decree Law No. 1,350 and the Corporations Act. CODELCO's internal regulation prescribes the manner in which transactions between CODELCO and related entities must be carried out and provides for sanctions if the requirements of the regulation are not met.

FOREIGN INVESTMENT AND EXCHANGE CONTROLS IN CHILE

As a general matter, the Central Bank of Chile is, among other things, responsible for monetary policies and for exchange controls in Chile. Most Chilean companies must inform the Central Bank of any international issue of bonds and if the proceeds of the issuance are not left abroad, should be brought into Chile through a bank or other participant in the Formal Exchange Market. Article 23 of Decree Law No. 1,350 provides that CODELCO has an obligation to return the total proceeds of its exports to Chile, but has no obligation to convert such proceeds to Chilean pesos beyond its peso requirements. These proceeds from its exports are deposited at the Central Bank of Chile, and withdrawals against such foreign exchange deposits are made to cover CODELCO's expenses. As a result, CODELCO does not require foreign exchange approval in connection with the issuance or placement of, or payments upon the notes. See "Regulatory Framework—Payment of Obligations."

DESCRIPTION OF NOTES

Each series of notes will be issued pursuant to an indenture, dated as of February 5, 2019 (the “base indenture”), among CODELCO and The Bank of New York Mellon, as trustee, paying agent, transfer agent and registrar (the “trustee”), as amended and supplemented by the twelfth supplemental indenture dated September 8, 2023, the thirteenth supplemental indenture dated January 26, 2024, the sixteenth supplemental indenture dated on or about January 30, 2026 and the seventeenth supplemental indenture dated on or about January 30, 2026 (together with the base indenture, the “indenture”), between CODELCO and the trustee.

The following description of certain provisions of the notes and of the indenture is subject to and is qualified in its entirety by reference to the provisions of the notes and the indenture, copies of which will be available for inspection at the office of the trustee at 240 Greenwich Street, New York, New York 10286. CODELCO urges you to read the indenture because it, and not this description, defines your rights as holders of the notes issued under the indenture.

General

Each series of notes will be issued by CODELCO, and CODELCO will be liable therefor and obligated to perform all covenants and agreements to be performed by CODELCO pursuant to each series of notes and the indenture, including the obligations to pay principal, interest and Additional Amounts (as defined below under “Payment of Additional Amounts”), if any. The trustee under the indenture is The Bank of New York Mellon (the “trustee,” which term shall include any successor trustee under the indenture).

The indenture provides for the issuance by CODELCO from time to time of notes in one or more series up to an aggregate principal amount of notes as from time to time may be authorized by CODELCO, subject to all required government authorizations. Notes having the same date of maturity and Interest Payment Dates (as defined below), payable in the same currency, bearing interest at the same rate and the terms of which are otherwise identical, are referred to as a “series.” The notes offered hereby will be issued in two series.

The 2053 notes will be part of the same series as, and will be fungible with and vote together with the 2053 original notes as a single class under the indenture and will have the same terms as those of the 2053 original notes, except that any new 2053 notes issued pursuant to Regulation S under the Securities Act will trade separately under temporary CUSIP, ISIN and common code numbers until the expiration of a 40-day restricted period under Regulation S.

Each series of notes will bear interest at the applicable rates per annum set forth on the cover page of this offering memorandum from (i) in the case of the 2037 notes, the date of issuance and (ii) in the case of the 2053 notes, September 8, 2025, or from the most recent applicable Interest Payment Date (as defined below) to which interest has been paid or provided for. Interest on the 2037 notes will be payable semi-annually in arrears on January 30 and July 30 of each year, beginning on July 30, 2026, or, if any such date is not a Business Day (as defined below), on the next succeeding Business Day (the “2037 Interest Payment Dates”) to the person or persons (each, a “Holder”) in whose name such notes are registered in the Security Register (as defined below) at the close of business on January 15 and July 15, respectively, preceding the applicable Interest Payment Date (each a “2037 Record Date”). Interest on the 2053 notes will be payable semi-annually in arrears on March 8 and September 8 of each year, beginning on March 8, 2026, or, if any such date is not a Business Day (as defined below), on the next succeeding Business Day (the “2053 Interest Payment Dates”, and together with the 2037 Interest Payment Dates, the “Interest Payment Dates”) to the Holder in whose name such notes are registered in the Security Register (as defined below) at the close of business on February 22 and August 24, respectively, preceding the applicable Interest Payment Date (each a “2053 Record Date”). Interest on the notes will be calculated on the basis of a 360-day year of twelve 30-day months. For the purposes hereof, the term “Business Day” means a day on which banks in The City of New York are not authorized or required by law or executive order to be closed.

Moneys paid by CODELCO to the trustee or any paying agent for the payment of principal of (and premium, if any) or interest on any of the notes and remaining unclaimed at the end of two years after the date on which such principal (and premium, if any) or interest shall have become due and payable (whether at maturity, upon call for

redemption or otherwise) shall, together with interest made available for payment thereof, be repaid to CODELCO, whereupon all liability of the trustee or such paying agent with respect to such moneys shall cease.

The 2037 notes will mature on January 30, 2037, and the 2053 notes will mature on September 8, 2053. Neither series of notes will be redeemable prior to maturity except as described below and in the event of certain developments affecting taxation, in that case at a price equal to the outstanding principal amount thereof, together with any Additional Amounts and accrued interest to the redemption date. On the maturity date of any series of notes, CODELCO will be required to pay 100% of the then outstanding principal amount of such series of notes plus accrued and unpaid interest thereon and Additional Amounts, if any.

Ranking

The notes will constitute direct, general, unsecured, unconditional and unsubordinated obligations of CODELCO. The notes rank and will rank without any preference among them and equally with all other unsecured and unsubordinated obligations of CODELCO, other than certain obligations granted preferential treatment pursuant to Chilean law. It is understood that this provision will not be construed so as to require CODELCO to make payments under the notes ratably with payments being made under any other obligations. The indenture contains no restriction on the amount of additional indebtedness which may be incurred by CODELCO or its subsidiaries; however, as set forth under “—Limitation on Liens” below, the indenture contains certain restrictions on the ability of CODELCO and its subsidiaries to incur secured indebtedness.

Registration, Form and Delivery

The trustee will initially act as paying agent, transfer agent and registrar for each series of notes. Each series of notes will be issued upon the closing of this offering in definitive, fully registered form, without coupons, in denominations of U.S.\$200,000 principal amount at maturity and multiples of U.S.\$1,000 in excess thereof. The notes will be exchangeable, and transfers thereof will be registrable, at the office of the registrar for the notes. No charge will be made to holders of the notes in connection with any exchange or registration of transfer, but CODELCO may require payment of a sum sufficient to cover any tax or other governmental charge payable in that connection.

The trustee will maintain at its office in the City of New York, currently located at 240 Greenwich Street, New York, New York 10286, a security register (the “Security Register”) with respect to the notes. The name and address of the registered Holder of each note and the amount of each note will be recorded in the applicable Security Register, and the trustee and CODELCO may treat the person in whose name the note is registered as the owner of such note for all purposes. For so long as each series of notes are represented by one or more Global Notes, the registered owner of a Global Note, in accordance with the terms of the indenture, may be treated at all times and for all purposes by CODELCO and the trustee as the sole owner with respect to such notes, with respect to all payments on the notes and for all other purposes under the terms of the notes and the indenture.

Each series of notes are being offered and sold in connection with the initial offering thereof solely to “qualified institutional buyers,” as that term is defined in Rule 144A under the Securities Act, pursuant to Rule 144A, and in offshore transactions to persons other than “U.S. persons,” as defined in Regulation S under the Securities Act, in reliance on Regulation S. Following the initial offering of the notes, the notes may be resold to qualified institutional buyers pursuant to Rule 144A, non-U.S. persons in reliance on Regulation S and pursuant to Rule 144 under the Securities Act, as described under “Transfer Restrictions.”

The Global Notes

Rule 144A Global Note

Each series of notes offered and sold to qualified institutional buyers pursuant to Rule 144A will initially be issued in the form of one or more registered notes in global form, without interest coupons. The Rule 144A Global Notes will be deposited on the date of the closing of the sale of the notes with, or on behalf of, The Depository Trust Company (“DTC”), and registered in the name of Cede & Co., as nominee of DTC, or will remain in the custody of the trustee as custodian for DTC. Interests in the Rule 144A Global Note will be available for purchase only by qualified institutional buyers.

Regulation S Global Note

Each series of notes offered and sold in offshore transactions to non-U.S. persons in reliance on Regulation S under the Securities Act will initially be issued in the form of one or more registered notes in global form, without interest coupons. The Regulation S Global Notes will be deposited upon issuance with, or on behalf of, a custodian for DTC.

Except as set forth below, each Rule 144A Global Note and the Regulation S Global Note (collectively the “Global Notes”) may be transferred, in whole and not in part, solely to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for notes in physical, certificated form (referred to as “certificated notes”) except in the limited circumstances described below.

The notes will be subject to certain restrictions on transfer and will bear a restrictive legend as set forth under “Transfer Restrictions.”

All interests in the Global Notes are subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream are subject to the procedures and requirements of such systems.

Euroclear and Clearstream will hold interests in the Global Notes on behalf of their participants through customers’ securities accounts in their respective names on the books of their respective depositaries. Such depositaries, in turn, will hold such interests in the Global Notes in customers’ securities accounts in the depositaries’ names on the books of DTC.

Exchanges Among the Global Notes

Prior to the 40th day after the later of the commencement of the offering of the notes and the date of the closing of the sale of the notes (the period through and including the 40th day, the “restricted period”), transfers by an owner of a beneficial interest in the Regulation S Global Note to a transferee who takes delivery of this interest through the corresponding Rule 144A Global Note will be made only in accordance with applicable procedures and upon receipt by the trustee of a written certification from the transferor of the beneficial interest in the form provided in the indenture to the effect that such transfer is being made to a person whom the transferor reasonably believes is a qualified institutional buyer within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A. Such written certification will no longer be required after the expiration of the restricted period.

Transfers by an owner of a beneficial interest in the Rule 144A Global Note to a transferee who takes delivery of such interest through the corresponding Regulation S Global Note, whether before or after the expiration of the restricted period, will be made only upon receipt by the trustee of a certification from the transferor to the effect that such transfer is being made in accordance with Regulation S under the Securities Act.

Any beneficial interest in one of the Global Notes that is transferred to a person who takes delivery in the form of an interest in another Global Note will, upon transfer, cease to be an interest in such Global Note and become an interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to beneficial interests in such other Global Note for as long as it remains such an interest.

Certain Book-Entry Procedures for the Global Notes

The descriptions of the operations and procedures of DTC, Euroclear and Clearstream set forth below are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to change by them from time to time. Neither CODELCO nor the initial purchasers take any responsibility for these operations or procedures, and investors are urged to contact the relevant system or its participants directly to discuss these matters.

DTC has advised CODELCO that it is (i) a limited purpose trust company organized under the laws of the State of New York, (ii) a “banking organization” within the meaning of the New York Banking Law, (iii) a member of the Federal Reserve System, (iv) a “clearing corporation” within the meaning of the Uniform Commercial Code, as amended, and (v) a “clearing agency” registered pursuant to Section 17A of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). DTC was created to hold securities for its participants and facilitates the clearance

and settlement of securities transactions between participants through electronic book-entry changes to the accounts of its participants, thereby eliminating the need for physical transfer and delivery of certificates. DTC's participants include securities brokers and dealers (including the initial purchasers), banks and trust companies, clearing corporations and certain other organizations. Indirect access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies, or indirect participants that clear through or maintain a custodial relationship with a participant, either directly or indirectly. Investors who are not participants may beneficially own securities held by or on behalf of DTC only through participants or indirect participants.

CODELCO expects that pursuant to procedures established by DTC (i) upon deposit of each Global Note, DTC will credit the accounts of participants designated by the initial purchasers with an interest in the Global Note and (ii) ownership of the notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC (with respect to the interests of participants) and the records of participants and the indirect participants (with respect to the interests of persons other than participants).

The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. Accordingly, the ability to transfer interests in the notes represented by a Global Note to such persons may be limited. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of a person having an interest in notes represented by a Global Note to pledge or transfer such interest to persons or entities that do not participate in DTC's system, or to otherwise take actions in respect of such interest, may be affected by the lack of a physical definitive security in respect of such interest.

So long as DTC or its nominee is the registered owner of a Global Note, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the notes represented by the Global Note for all purposes under the indenture. Except as provided below, owners of beneficial interests in a Global Note will not be entitled to have notes represented by such Global Note registered in their names, will not receive or be entitled to receive physical delivery of certificated notes, and will not be considered the owners or holders thereof under the indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee thereunder. Accordingly, each holder owning a beneficial interest in a Global Note must rely on the procedures of DTC and, if such holder is not a participant or an indirect participant, on the procedures of the participant through which such holder owns its interest, to exercise any rights of a holder of notes under the indenture or such Global Note. CODELCO understands that under existing industry practice, in the event that CODELCO requests any action of holders of notes, or a holder that is an owner of a beneficial interest in a Global Note desires to take any action that DTC, as the holder of such Global Note, is entitled to take, DTC would authorize the participants to take such action and the participants would authorize holders owning through such participants to take such action or would otherwise act upon the instruction of such holders. Neither CODELCO nor the trustee will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, notes by DTC, or for maintaining, supervising or reviewing any records of DTC relating to such notes.

Payments with respect to the principal of, premium, if any, and interest on any notes represented by a Global Note registered in the name of DTC or its nominee on the applicable 2037 Record Date or 2053 Record Date will be payable by the trustee to or at the direction of DTC or its nominee in its capacity as the registered holder of the Global Note representing such notes under the indenture. Under the terms of the indenture, CODELCO and the trustee may treat the persons in whose names the notes, including the Global Notes, are registered as the owners thereof for the purpose of receiving payment thereon and for any and all other purposes whatsoever. Accordingly, neither CODELCO nor the trustee has or will have any responsibility or liability for the payment of such amounts to owners of beneficial interests in a Global Note (including principal, premium, if any, and interest). Payments by the participants and the indirect participants to the owners of beneficial interests in a Global Note will be governed by standing instructions and customary industry practice and will be the responsibility of the participants or the indirect participants and DTC.

Transfers between participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds. Transfers between participants in Euroclear or Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the notes, cross-market transfers between the participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository. However, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. Cash received in Euroclear or Clearstream as a result of sales of interest in a global security by or through a Euroclear or Clearstream participant to a participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the Global Notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and such procedures may be discontinued at any time. Neither CODELCO nor the trustee will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Certificated Notes

With respect to each series of notes, if (i) CODELCO notifies the trustee in writing that DTC is no longer willing or able to act as a depository or DTC ceases to be registered as a clearing agency under the Exchange Act and a successor depository is not appointed within 90 days of such notice or cessation; (ii) CODELCO, at its option, notifies the trustee in writing that it elects to cause the issuance of notes in definitive form under the indenture; or (iii) upon the occurrence of certain other events as provided in the indenture, then, upon surrender by DTC of the Global Notes, certificated notes will be issued to each person that DTC identifies as the beneficial owner of the notes represented by the Global Notes. Upon any such issuance, the trustee is required to register such certificated notes in the name of such person or persons (or the nominee of any thereof) and cause the same to be delivered thereto.

Neither CODELCO nor the trustee shall be liable for any delay by DTC or any participant or indirect participant in identifying the beneficial owners of the related notes and CODELCO and the trustee may conclusively rely on, and shall be protected in relying on, instructions from DTC for all purposes (including with respect to the registration and delivery, and the respective principal amounts, of the notes to be issued).

Covenants

CODELCO has agreed to restrictions on its activities for the benefit of holders of the notes. The following restrictions will apply to the notes:

Consolidation, Merger, Conveyance, Sale or Lease

Nothing contained in the indenture prevents CODELCO from consolidating with or merging into another corporation or conveying, transferring or leasing its properties and assets substantially as an entirety to any person, *provided that*: (i) the corporation formed by such consolidation or into which CODELCO is merged or the person which acquires by conveyance or transfer, or which leases, the properties and assets of CODELCO substantially as an entirety is a corporation organized and existing under the laws of Chile and expressly assumes, by supplemental indenture, the due and punctual payment of the principal of and interest and Additional Amounts, if any, on all

outstanding notes and the performance of every covenant in the indenture on the part of CODELCO to be performed or observed; (ii) immediately after giving effect to such transaction no Event of Default (as defined below), and no event which, after notice or lapse of time or both, would become an Event of Default, shall have happened and be continuing; and (iii) CODELCO has delivered to the trustee an officers' certificate and an opinion of counsel, each stating that such consolidation, merger, conveyance, transfer or lease and such supplemental indenture complies with the foregoing provisions relating to such transaction.

Limitation on Liens

Nothing contained in the indenture restricts or prevents CODELCO or any Restricted Subsidiary (as defined below) from incurring any additional indebtedness; *provided* that neither CODELCO nor any Restricted Subsidiary will (i) issue, assume or guarantee any indebtedness for money borrowed ("Debt") if such Debt is secured by a lien upon, or (ii) directly or indirectly secure any outstanding Debt by a lien upon, any Principal Property (as defined below) or upon any shares of stock of, or indebtedness of, any Restricted Subsidiary, now owned or hereafter acquired, without effectively providing that the notes shall be secured equally and ratably with such Debt, except that the foregoing restrictions shall not apply to (i) liens on any Principal Property acquired, constructed or improved after the date of issuance of the notes to secure or provide for the payment of the purchase price or cost of construction or improvements (including costs such as increased costs due to escalation, interest during construction and similar costs) thereof incurred after the date of the issuance of the notes, or existing liens on property acquired, *provided* such liens shall not apply to any property theretofore owned by CODELCO or any Restricted Subsidiary other than theretofore unimproved real property, (ii) liens on any Principal Property or shares of stock or indebtedness acquired from a corporation merged with or into CODELCO or a Restricted Subsidiary, (iii) liens to secure Debt of a Restricted Subsidiary to CODELCO or another Subsidiary, (iv) the sale or other transfer of any interest in property of the character commonly referred to as a "production payment," (v) liens over any property at the time of acquisition of such property by CODELCO or any of its Restricted Subsidiaries which lien was not (or is not) created in connection with such acquisition, (vi) liens in existence on the date of the offering of the notes, (vii) liens on deposits to secure, or any lien otherwise securing, the performance of bids, statutory obligations, surety bonds, appeal bonds, performance bonds and other obligations of a like nature incurred in the ordinary course of business, (viii) liens created on any property to secure Debt incurred in connection with the financing of such property, the repayment of which Debt is to be made from the revenues arising out of, or other proceeds of realization from, such property, with recourse to those revenues and proceeds and other property used in connection with, or forming the subject matter of, such property, but without recourse to any other property of CODELCO or any Restricted Subsidiary and (ix) any extension, renewal or replacement (or successive extensions, renewals or replacements), in whole or in part, of any lien referred to in the foregoing clauses (i) to (iii) or (v), (vi) and (viii), inclusive of any Debt secured thereby, *provided* that the principal amount of Debt so secured thereby shall not exceed the principal amount of Debt so secured at the time of such extension, renewal or replacement and that such extension, renewal or replacement lien shall be limited to all or part of the property which secured the lien extended, renewed or replaced (plus improvements on or additions to such property). Notwithstanding the foregoing, CODELCO and one or more Restricted Subsidiaries may issue, assume or guarantee Debt secured by liens which would otherwise be subject to the foregoing restrictions in an aggregate principal amount which, together with the aggregate outstanding principal amount of all other Debt of CODELCO and its Restricted Subsidiaries that would otherwise be subject to the foregoing restrictions (not including Debt permitted to be secured under clauses (i) through (ix) above) and the aggregate value of the sale-and-lease-back transactions described under "—Limitation on Sale-and-Lease-Back Transactions" below (other than sale-and-lease-back transactions the proceeds of which have been applied as provided in clause (b) under "—Limitation on Sale-and-Lease-Back Transactions" below), does not at the time of issuance, assumption or guarantee thereof exceed 20.0% of Consolidated Net Tangible Assets.

"Consolidated Net Tangible Assets" means the total of all assets (including revaluations thereof as a result of commercial appraisals, price level restatement or otherwise) appearing on the consolidated balance sheet of CODELCO and its Subsidiaries as of the then most recent date filed by CODELCO with the CMF, but excluding goodwill, trade names, trademarks, patents, unamortized debt discount and all other like intangible assets (which term shall not be construed to include such revaluations), less the aggregate of the current liabilities of CODELCO and its Subsidiaries appearing on such balance sheet. The term "Principal Property" means any mineral property, concentrator, smelter, refinery or rod mill located within Chile, of CODELCO or any Subsidiary except any such property, plant or facility which the Board of Directors by resolution declares is not of material importance to the total business conducted by CODELCO and its Subsidiaries as an entity. The term "Subsidiary" means any corporation more than 50.0% of the outstanding voting stock of which is owned, directly or indirectly, by

CODELCO and of which CODELCO has the power to direct the management. The term “Restricted Subsidiary” means (i) any Subsidiary which owns, directly or indirectly, any Principal Property and (ii) any Subsidiary which owns, directly or indirectly, any stock or debt of a Restricted Subsidiary.

Limitation on Sale-and-Lease-Back Transactions

The indenture provides that neither CODELCO nor any Restricted Subsidiary will enter into any arrangement with any person (other than CODELCO or a Restricted Subsidiary), or to which any such person is a party, providing for the leasing to CODELCO or a Restricted Subsidiary for a period of more than three years of any property or assets which has been or is to be sold or transferred by CODELCO or such Restricted Subsidiary to such person or to any person (other than CODELCO or a Restricted Subsidiary) to which funds have been or are to be advanced by such person on the security of the leased property or assets unless either (i) CODELCO or such Restricted Subsidiary would be entitled, pursuant to the provisions described under “—Limitation on Liens” above, to incur Debt in a principal amount equal to or exceeding the value of such sale-and-lease-back transaction, secured by a lien on the property or assets to be leased, without equally and ratably securing the notes, or (ii) CODELCO, during or immediately after the expiration of six months after the effective date of such transaction (whether made by CODELCO or a Restricted Subsidiary), applies to the voluntary retirement of indebtedness of CODELCO (including the notes) maturing by its terms more than one year after the original creation thereof (“Funded Debt”) an amount equal to the value of such transaction, less an amount equal to the sum of (a) the principal amount of notes delivered, within six months after the effective date of such arrangement, to the trustee for retirement and cancellation and (b) the principal amount of other Funded Debt voluntarily retired by CODELCO within such six-month period, in each case excluding retirements of notes and other Funded Debt as a result of conversions or pursuant to mandatory sinking fund or mandatory prepayment provisions or by payment at maturity.

Periodic Reports

CODELCO will furnish, to the noteholders and to prospective purchasers of notes, upon request to the trustee, any information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act so long as the notes are not freely transferable under the Securities Act.

Events of Default

An Event of Default with respect to each series of notes is defined in the indenture as being any of the following (each an “Event of Default”): (i) default for 30 days in payment of any interest on the notes; (ii) default in payment of principal of the notes; (iii) default in the performance, or breach, of any covenant or warranty or obligation of CODELCO in the indenture and continuance of such default or breach for a period of 60 days after written notice is given to CODELCO by the trustee or to CODELCO and the trustee by the holders of at least 33 1/3% in aggregate principal amount of the notes; (iv) default under any bond, debenture, note or other evidence of indebtedness for money borrowed, or under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any indebtedness for money borrowed by CODELCO or any Subsidiary, whether such indebtedness now exists or shall hereafter be created, in an aggregate principal amount exceeding U.S.\$50.0 million (or its equivalent in any other currency or currencies) which default (x) shall constitute the failure to pay any portion of the principal of such indebtedness when due and payable, whether at maturity, upon redemption or acceleration or otherwise, or (y) shall have resulted in such indebtedness becoming or being declared due and payable prior to the date on which it would otherwise become due and payable, in either case, if such default shall continue for more than 30 Business Days and within such 30 Business Days the time for payment of such amount has not been expressly extended (provided that if such default under such indenture or instrument shall be remedied or cured by CODELCO or waived by the holders of such indebtedness, then the event of default with respect to the notes shall be deemed likewise to have been remedied, cured or waived); and (v) certain events of bankruptcy or insolvency of CODELCO or any Significant Subsidiary. “Significant Subsidiary” is defined in the indenture as a Subsidiary, the total assets of which exceed 10.0% of the total assets of CODELCO and its subsidiaries on a consolidated basis as of the end of the most recently completed year. The trustee shall not be charged with knowledge of any Event of Default with respect to the notes unless a written notice of such default or Event of Default shall have been given to an officer of the trustee who has direct responsibility for the administration of the indenture and the notes by CODELCO or any holder of notes.

The indenture provides that (i) if an Event of Default (other than an Event of Default described in clause (v) above) shall have occurred and be continuing with respect to the notes, either the trustee or the holders of not less than 33¹/₃% of the total principal amount of the notes of such series then outstanding may declare the principal of all such outstanding notes and the interest accrued thereon, if any, to be due and payable immediately and (ii) if an Event of Default described in clause (v) above shall have occurred, the principal of all such outstanding notes and the interest accrued thereon, if any, shall become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of such notes. The indenture provides that the notes owned by CODELCO or any of its affiliates shall be deemed not to be outstanding for certain purposes, including declaring the acceleration of the maturity of the notes. Upon the satisfaction by CODELCO of certain conditions, including (i) the payment of all fees and expenses of the trustee, (ii) CODELCO's deposit with the trustee of a sum sufficient to pay all outstanding amounts then due on the applicable notes (other than principal due by virtue of the acceleration) together with interest on such amounts through the date of the deposit and (iii) all Events of Default (other than non-payment of principal that became due by virtue of the acceleration upon the event of default) have been cured or waived, the declaration described in clause (i) of this paragraph may be annulled by the holders of a majority of the total principal amount of the applicable notes then outstanding. Past defaults, other than non-payment of principal, interest and compliance with certain covenants, may be waived by the holders of a majority of the total principal amount of the applicable notes outstanding.

The trustee must give to the holders of the notes notice of all uncured defaults known to it with respect to the notes within 30 days after a Responsible Officer of the trustee has received written notification of such a default (unless such default shall have been cured); *provided, however*, that, except in the case of default in the payment of principal, interest or Additional Amounts, the trustee shall be protected in withholding such notice if it in good faith determines that the withholding of such notice is in the interest of the holders of the notes. "Responsible Officer" is defined in the indenture as any officer of the trustee with direct responsibility for the administration of the indenture and, with respect to a particular corporate trust matter, any other officer to whom such matter is referred because of his knowledge of and familiarity with the particular subject.

No holder of notes may institute any proceeding, judicial or otherwise, under the indenture unless (i) such holder shall have given the trustee written notice of a continuing Event of Default with respect to the notes of that series, (ii) the holders of not less than 33¹/₃% of the total principal amount of the notes of that series then outstanding shall have made written request to the trustee to institute proceedings in respect of the Event of Default, (iii) such holder or holders shall have offered the trustee such reasonable indemnity as the trustee may require, (iv) the trustee shall have failed to institute an action for 60 days thereafter and (v) no inconsistent direction shall have been given to the trustee during such 60-day period by the holders of a majority of the total principal amount of the notes of such series. Such limitations, however, do not apply to any suit instituted by a holder of a note for enforcement of payment of the principal or interest on the notes on or after the respective stated maturity expressed in such notes.

The indenture provides that, subject to the duty of the trustee during default to act with the required standard of care, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any holders of the notes, unless such holders shall have offered to the trustee reasonable indemnity.

CODELCO is required to furnish to the trustee annually a statement as to the performance by CODELCO of certain of its obligations under the indenture and as to any default in such performance.

Payment of Additional Amounts

All payments of principal and stated interest under each series of notes by CODELCO will be made without deduction or withholding for or on account of any present or future taxes, assessments, duties or governmental charges of whatever nature imposed or levied by or on behalf of Chile or any political subdivision or territory or possession thereof or therein (the "Taxing Jurisdiction") unless the withholding or deduction of such taxes, assessments, duties or governmental charges is required by law or regulation or by the official interpretation thereof. In that event, CODELCO will pay to each Holder of a note such additional amounts ("Additional Amounts") as may be necessary in order that each net payment on such note after such deduction or withholding will not be less than the amount provided for in such note to be then due and payable; *provided, however*, that the foregoing obligation to pay Additional Amounts will not apply to:

(i) any tax, assessment, duty or other governmental charge that would not have been so deducted or withheld but for (i) the existence of any present or former connection between the Holder or the beneficial owner of the note (or between a fiduciary, settlor, beneficiary, member or shareholder of, or possessor of a power over, such Holder or beneficial owner, if such Holder or beneficial owner is an estate, trust, partnership or corporation) and the Taxing Jurisdiction imposing such tax, assessment, duty or other governmental charge (including, without limitation, such Holder or beneficial owner (or such fiduciary, settler, beneficiary, member, shareholder or possessor) being or having been a citizen or resident thereof or being or having been engaged in a trade or business or present therein or having, or having had, a permanent establishment therein) other than the mere receipt of payments in respect of a note or the holding or ownership of a note or beneficial interest therein; or (ii) the presentation of a note (where presentation is required) for payment on a date more than 30 days after the date on which such payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later;

(ii) any estate, inheritance, gift, sales, transfer, personal property, capital gains, excise or similar tax, assessment, duty or other governmental charge;

(iii) any tax, assessment, duty or other governmental charge that is payable other than by withholding from payments of (or in respect of) principal of, or any interest on, the notes;

(iv) any tax, assessment, duty or other governmental charge that would not have been imposed but for the failure to comply with certification, information or other reporting requirements concerning the nationality, residence or identity of the Holder or beneficial owner of the note, if compliance is required by statute or by regulation of the Taxing Jurisdiction as a precondition to relief or exemption from all or part of such tax, assessment, duty or other governmental charge, or to a reduction in the applicable tax rate, and proper notice has been sent to the Holder or beneficial owner; or

(v) any combination of items (i), (ii), (iii), and (iv) above.

Nor shall Additional Amounts be paid with respect to any payment of the principal of or any interest on any note to any Holder or beneficial owner that is a fiduciary or partnership or other than the sole beneficial owner of such note to the extent such payment would be required by the laws of the Taxing Jurisdiction to be included in the income for tax purposes of a beneficiary or settlor with respect to such fiduciary or a member of such partnership or a beneficial owner who would not have been entitled to such Additional Amounts had it been a Holder of such note.

If CODELCO pays Additional Amounts in respect of the Chilean withholding tax on payments of interest or premium, if any, made by CODELCO in respect of each series of notes to a Foreign Holder (as defined in “Taxation”) assessed at a rate of 4.0%, and a refund is provided with respect to such withholding tax, CODELCO shall have the right to receive and be entitled to such funds from the relevant Taxing Jurisdiction.

Redemption

CODELCO will not be permitted to redeem the notes before their stated maturity, except as set forth below. The notes will not be entitled to the benefit of any sinking fund—meaning that CODELCO will not deposit money on a regular basis into any separate account to repay your notes. In addition, you will not be entitled to require CODELCO to repurchase your notes from you before the stated maturity.

Optional Redemption

CODELCO may redeem on one or more occasions some or all of the notes before they mature.

Prior to October 30, 2036 (three months prior to their maturity date) (the “2037 Par Call Date”), CODELCO may redeem the 2037 notes at its option, in whole or in part, at any time and from time to time, at a redemption price (expressed as a percentage of principal amount and rounded to three decimal places) equal to the greater of:

(1) (a) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date (assuming the notes matured on the 2037 Par Call Date) on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 20 basis points less (b) interest accrued to the date of redemption, and

(2) 100% of the principal amount of the 2037 notes to be redeemed,

plus, in either case, accrued and unpaid interest thereon to the redemption date.

Prior to March 8, 2053 (six months prior to their maturity date) (the “2053 Par Call Date”), CODELCO may redeem the 2053 notes at its option, in whole or in part, at any time and from time to time, at a redemption price (expressed as a percentage of principal amount and rounded to three decimal places) equal to the greater of:

(1) (a) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date (assuming the notes matured on the 2053 Par Call Date) on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 30 basis points less (b) interest accrued to the date of redemption, and

(2) 100% of the principal amount of the 2053 notes to be redeemed,

plus, in either case, accrued and unpaid interest thereon to the redemption date.

On or after the 2037 Par Call Date and the 2053 Par Call Date, as applicable, CODELCO may redeem each series of the notes, in whole or in part, at any time and from time to time, at a redemption price equal to 100% of the principal amount of the notes being redeemed plus accrued and unpaid interest thereon to the redemption date.

“Treasury Rate” means, with respect to any redemption date, the yield determined by CODELCO in accordance with the following two paragraphs.

The Treasury Rate shall be determined by CODELCO after 4:15 p.m., New York City time (or after such time as yields on U.S. government securities are posted daily by the Board of Governors of the Federal Reserve System), on the third Business Day preceding the redemption date based upon the yield or yields for the most recent day that appear after such time on such day in the most recent statistical release published by the Board of Governors of the Federal Reserve System designated as “Selected Interest Rates (Daily) - H.15” (or any successor designation or publication) (“H.15”) under the caption “U.S. government securities–Treasury constant maturities–Nominal” (or any successor caption or heading). In determining the Treasury Rate, CODELCO shall select, as applicable: (1) the yield for the Treasury constant maturity on H.15 exactly equal to the period from the redemption date to the applicable Par Call Date (the “Remaining Life”); or (2) if there is no such Treasury constant maturity on H.15 exactly equal to the Remaining Life, the two yields – one yield corresponding to the Treasury constant maturity on H.15 immediately shorter than and one yield corresponding to the Treasury constant maturity on H.15 immediately longer than the Remaining Life – and shall interpolate to the applicable Par Call Date on a straight-line basis (using the actual number of days) using such yields and rounding the result to three decimal places; or (3) if there is no such Treasury constant maturity on H.15 shorter than or longer than the Remaining Life, the yield for the single Treasury constant maturity on H.15 closest to the Remaining Life. For purposes of this paragraph, the applicable Treasury constant maturity or maturities on H.15 shall be deemed to have a maturity date equal to the relevant number of months or years, as applicable, of such Treasury constant maturity from the redemption date.

If on the third Business Day preceding the redemption date H.15 or any successor designation or publication is no longer published, CODELCO shall calculate the Treasury Rate based on the rate per annum equal to the semi-annual equivalent yield to maturity at 11:00 a.m., New York City time, on the second Business Day preceding such redemption date of the United States Treasury security maturing on, or with a maturity that is closest to, the Par Call Date, as applicable. If there is no United States Treasury security maturing on the applicable Par Call Date but there are two or more United States Treasury securities with a maturity date equally distant from the applicable Par Call Date, one with a maturity date preceding the applicable Par Call Date and one with a maturity date following the applicable Par Call Date, CODELCO shall select the United States Treasury security with a maturity date preceding the applicable Par Call Date. If there are two or more United States Treasury securities maturing on the applicable

Par Call Date or two or more United States Treasury securities meeting the criteria of the preceding sentence, CODELCO shall select from among these two or more United States Treasury securities the United States Treasury security that is trading closest to par based upon the average of the bid and asked prices for such United States Treasury securities at 11:00 a.m., New York City time. In determining the Treasury Rate in accordance with the terms of this paragraph, the semi-annual yield to maturity of the applicable United States Treasury security shall be based upon the average of the bid and asked prices (expressed as a percentage of principal amount) at 11:00 a.m., New York City time, of such United States Treasury security, and rounded to three decimal places.

CODELCO's actions and determinations in determining the redemption price shall be conclusive and binding for all purposes, absent manifest error. CODELCO will notify the trustee of the redemption price promptly after the calculation thereof and the trustee shall have no duty to determine, or verify the calculation of, the redemption price.

Notice of any redemption will be mailed or electronically delivered (or otherwise transmitted in accordance with the depositary's procedures) at least 10 days but not more than 60 days before the redemption date to each holder of notes to be redeemed. For so long as the notes are listed on the Luxembourg Stock Exchange and the rules of the Euro MTF market so require, CODELCO will cause notices of redemption to be announced through the Luxembourg Stock Exchange.

In the case of a partial redemption, selection of definitive notes for redemption will be made by lot. No notes of a principal amount of U.S.\$1,000 or less will be redeemed in part. If any note in definitive form is to be redeemed in part only, the notice of redemption that relates to such note will state the portion of the principal amount of the note to be redeemed. A new definitive note in a principal amount equal to the unredeemed portion of such note will be issued in the name of the holder of such note upon surrender for cancellation of the original definitive note. For so long as the notes are held by DTC (or another depositary), the redemption of the notes shall be done in accordance with the policies and procedures of the depositary, which may be made on a pro rata pass-through distribution of principal basis.

Unless CODELCO defaults in payment of the redemption price, on and after the redemption date interest will cease to accrue on the notes or portions thereof called for redemption.

Tax Redemption

Each series of notes may be redeemed at the election of CODELCO, in whole, but not in part, by the giving of notice as provided in "—Notices" below (which notice shall be irrevocable), at a price equal to the outstanding principal amount thereof, together with any Additional Amounts and accrued and unpaid interest to the redemption date, if, as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder, including a holding by a court of competent jurisdiction) of the Taxing Jurisdiction, or any change in the official application, administration or interpretation of such laws, regulations or rulings in such Taxing Jurisdiction, CODELCO has or will become obligated to pay Additional Amounts on the applicable notes in excess of the Additional Amounts that would be payable were payments of interest on the notes subject to the 4.0% of Chilean Interest Withholding Tax, as defined below ("Excess Additional Amounts"), and if such change or amendment is announced or becomes effective on or after the date of the agreement to purchase the notes and such obligation cannot be avoided by CODELCO taking measures it considers reasonable and that are available to it (for this purpose, reasonable measures shall not include any change in CODELCO's or any successor's jurisdiction of incorporation or organization or location of its principal executive or registered office); *provided, however*, that no such notice of redemption shall be given earlier than 60 days prior to the earliest date on which CODELCO would be obligated to pay such Excess Additional Amounts, were a payment in respect of the notes then due. Prior to the giving of notice of redemption of such notes, CODELCO will deliver to the trustee an officers' certificate and a written opinion of recognized Chilean counsel independent of CODELCO to the effect that all governmental approvals necessary for CODELCO to effect such redemption, if any, have been or at the time of redemption will be obtained and in full force and effect and that CODELCO is entitled to effect such a redemption, and setting forth in reasonable detail the

circumstances giving rise to such right of redemption. See “Taxation—Chilean Taxation.”

Notices

For so long as the notes are outstanding in global form, notices to be given to holders will be given to the depositary, in accordance with its applicable procedures as in effect from time to time. If notes are issued in individual definitive form, notice to holders of the notes will be given by mail to the addresses of such holders as they appear in the security register. In addition, so long as the notes are listed on the Luxembourg Stock Exchange and the rules of such exchange so require, notices will also be published in a leading newspaper having general circulation in Luxembourg (which is expected to be *Luxemburger Wort*) or on the website of the Luxembourg Stock Exchange (www.luxse.com). Any such notice will be deemed to have been delivered on the date of first publication.

Replacement of Notes

In case of mutilated, destroyed, lost or stolen notes, application for replacement thereof may be made to the trustee or CODELCO. Any such note shall be replaced by the trustee in compliance with such procedures, and on such terms as to evidence and indemnification, as the trustee or CODELCO may require and subject to any applicable law or regulation. All such costs as may be incurred in connection with the replacement of any notes shall be borne by the applicant. Mutilated notes must be surrendered before new ones will be issued.

Modification of the Indenture

CODELCO and the trustee may, without the consent of the holders of notes, amend, waive or supplement the indenture or the notes for certain specified purposes, including among other things: (i) to evidence CODELCO’s succession by another corporation, and the assumption by such party of CODELCO’s obligations; (ii) to add to CODELCO’s covenants or surrender any of its rights or powers for the benefit of all or any series of notes; (iii) to cure any ambiguity, defect or inconsistency in the indenture; (iv) to provide for the issuance of any new series of securities, and/or add to the rights of any holders of any series of notes; (v) to provide for the appointment of a successor trustee; (vi) to add any additional Events of Default for the benefit of any or all series; (vii) to provide for the issuance of securities in bearer form; and (viii) to make any other change to the indenture as shall not adversely affect the interests of any holder of the notes.

In addition, with certain exceptions, the indenture and the notes may be modified by CODELCO and the trustee with the consent of the holders of a majority in aggregate principal amount of the notes of the series affected thereby then outstanding, but no such modification may be made without the consent of the holder of each outstanding note affected by the modification which would:

(i) change the maturity of any principal of, or any premium on, or any installment of interest on, any note, or reduce the principal amount thereof or the rate of interest or any premium (or Additional Amounts, if any) payable thereon, or change the method of computing the amount of principal thereof or interest or premium (or Additional Amounts, if any) payable thereon on any date, or change any place of payment where, or the coin or currency in which, the principal or interest (including Additional Amounts) on any note are payable, or impair the right of holders to institute suit for the enforcement of any such payment on or after the date when due;

(ii) reduce the percentage in aggregate principal amount of outstanding notes of such series, where the consent of holders is required for any such modification or for any waiver of compliance with certain provisions of the indenture or certain defaults thereunder and their consequences provided for in the indenture; or

(iii) modify provisions relating to waiver of certain defaults, waiver of certain covenants and the provisions summarized in this paragraph, including provisions governing the amendment of the indenture, except to increase any such percentage or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding note affected by the modification.

The indenture provides that the notes owned by CODELCO or any of its affiliates shall be deemed not to be outstanding for, among other purposes, consent to any such modification.

Defeasance and Covenant Defeasance

With respect to each series of notes, CODELCO, at its option, at any time upon the satisfaction of certain conditions described below, may elect to be discharged from its obligations with respect to the notes. In general, upon a defeasance, CODELCO shall be deemed to have paid and discharged the entire indebtedness represented by the applicable notes and to have satisfied all of its obligations under such notes, except for: (i) the rights of holders of notes to receive, solely from the trust fund established for such purposes, payments in respect of the principal of, and interest, and Additional Amounts, if any, on the notes when such payments are due; (ii) certain provisions relating to ownership, registration and transfer of the notes; (iii) the covenant relating to the maintenance of an office or agency in New York City, and (iv) certain provisions relating to the rights, powers, trusts, duties and immunities of the trustee.

In addition, CODELCO, at its option, at any time, upon the satisfaction of certain conditions described below, may discharge its obligation to comply with the covenants specified above under “—Consolidation, Merger, Conveyance, Sale or Lease,” “—Limitation on Liens” and “—Limitation on Sale-and-Lease-Back Transactions.” In order to cause a defeasance or covenant defeasance with respect to the notes, CODELCO will be required to (i) deposit funds or obligations issued by the United States in an amount sufficient to provide for the timely payment of principal, interest and all other amounts due under the notes with the trustee, and (ii) satisfy certain other conditions, including delivery to the trustee of an opinion of independent tax counsel of recognized standing to the effect that beneficial owners of notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit and defeasance and will be subject to U.S. federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred. Such opinion of counsel in the case of defeasance must refer to and be based upon a ruling of the U.S. Internal Revenue Service (“IRS”) or a change in applicable U.S. federal income tax law occurring after the date of the indenture.

Governing Law; Submission to Jurisdiction; Sovereign Immunity

The indenture provides that it and the notes will be governed by, and will be construed and interpreted in accordance with, the law of the State of New York. The indenture provides that CODELCO will maintain at all times during the life of the notes an office or agent in the Borough of Manhattan, The City of New York, upon whom process may be served in any action arising out of or based on the notes which may be instituted in the Supreme Court of the State of New York or the United States District Court for the Southern District of New York, in either case in the Borough of Manhattan, The City of New York, by any holder of a note, and CODELCO will expressly accept the jurisdiction of any such court.

To the extent that CODELCO may be entitled, in any jurisdiction in which judicial proceedings may at any time be commenced with respect to the notes, to claim for itself or its revenues or assets any immunity from suit, jurisdiction, attachment in aid or execution of a judgment or prior to a judgment, execution of a judgment or any other legal process with respect to its obligations under the notes, and to the extent that in any such jurisdiction there may be attributed to CODELCO such an immunity (whether or not claimed), CODELCO will irrevocably agree not to claim and will irrevocably waive such immunity to the maximum extent permitted by law.

Article 226 of the Mining Code of Chile prohibits the attachment and judicial sale of a debtor’s mining concessions and installations and other goods permanently dedicated to exploration or extraction of minerals relating to those mining concessions, except with respect to mortgages. However, a debtor may consent to such attachment and sale, *provided* that the consent is given in the same judicial proceeding in which the attachment and sale is sought. The general waiver of immunity by CODELCO in the notes will not be effective with respect to immunity under Article 226. In addition, pursuant to the Constitution, mining concessions corresponding to mining deposits exploited by CODELCO upon its creation in 1976 may not be subject to attachment or to any act of disposition by CODELCO.

Further Issues of Notes

With respect to each series of notes, without the consent of the holders, CODELCO may create and issue additional notes with terms and conditions that are the same (or the same except as to scheduled interest payments prior to the time of issue of the additional notes) as the terms and conditions of such series of notes. CODELCO

may consolidate the additional notes to form a single series with such notes; *provided*, however, that unless such additional notes are issued under a separate CUSIP number, such additional notes must be part of the same “issue” as the outstanding series of notes, issued pursuant to a “qualified reopening” of the outstanding series of notes, or issued with less than a *de minimis* amount of original issue discount, in each case for U.S. federal income tax purposes.

TAXATION

General

The following is a summary of certain Chilean tax and U.S. federal income tax considerations (and certain EU-related tax consequences) relating to the purchase, ownership and disposition of notes. The summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase the notes, and, except to the extent certain EU-related tax consequences are described below, it does not describe any tax consequences arising under the laws of any national, state, or local taxing jurisdiction other than the United States and Chile.

This summary is based on the tax laws of Chile and the United States as in effect on the date of this offering memorandum, as well as regulations, rulings and decisions of Chile and the United States available on or before such date and now in effect, and the provisions of the Treaty (as defined below). All of the foregoing is subject to change, which may apply retroactively and could affect the continued validity of this summary.

Prospective purchasers of the notes should consult their own tax advisors as to the Chilean, United States or other tax consequences of the purchase, ownership and disposition of the notes, taking into account the application of the tax considerations discussed below to their particular situation, as well as the application of state, local, foreign or other tax laws.

Chilean Taxation

The following is a general summary of the material consequences under Chilean tax law, as currently in effect, of an investment in the notes made by a “Foreign Holder.”

On December 19, 2023, the Treaty to Avoid Double Taxation signed between Chile and the United States in 2010 (modified by two reservations in June 2023 by the U.S. Senate) (the “Treaty”), came into force, after the United States notified Chile of the completion of the approval procedure. The Treaty should not provide a more beneficial tax treatment on withholding taxes than the established Chilean domestic law regarding interest payments made under the notes to foreign holders.

For purposes of this summary, the term “Foreign Holder” means (i) an individual not resident or domiciled in Chile or (ii) a legal entity that is not incorporated under the laws of Chile, unless the notes are acquired by or assigned to a branch, agent, representative or a permanent establishment of such entity in Chile. For purposes of Chilean taxation, (a) an individual is a resident of Chile if such individual has remained in Chile, uninterruptedly or not, for a period or periods that in total exceed 183 days within a twelve-month period, and (b) an individual is domiciled in Chile if such individual resides in Chile with the actual or presumptive intention of remaining in Chile notwithstanding the time resided in Chile (the intention will be determined according to factual circumstances such as the acceptance of a long-term employment within Chile or the relocation of one’s family to Chile, if he/she obtains the majority of his/her income in Chile, or if he/she has a principal place of business in Chile).

Under Chile’s Income Tax Law, payments of interest or premium, if any, in respect of the notes to a Foreign Holder will generally be subject to a Chilean withholding tax assessed at a rate of 35.0%. However, interest and premium (analogous to interest) from bonds or debentures issued in foreign or local currency by companies incorporated in Chile (i.e., CODELCO) are subject to a reduced tax rate of 4.0% (the “Chilean Interest Withholding Tax”).

A Foreign Holder will not be subject to any Chilean taxes in respect of payments of principal made by CODELCO with respect to the notes.

As described above, CODELCO has agreed, subject to specific exceptions and limitations, to pay to the holders of notes Additional Amounts in respect of the Chilean Interest Withholding Tax in order that any interest or premium the Foreign Holder receives, net of the Chilean Interest Withholding Tax, equals the amount which would have been received by such Foreign Holder in the absence of such withholding. See “Description of Notes—Payment of Additional Amounts.”

The Income Tax Law provides that a Foreign Holder is subject to income tax on Chilean source income. Chilean source income is defined by the Income Tax Law as income arising from goods located in Chile or activities performed in Chile, regardless of the domicile or residence of the taxpayer. Article 11 of the Income Tax Law also states that bonds and other private or public securities issued in Chile by taxpayers domiciled, resident or established in Chile, such as CODELCO, will be deemed to be located in Chile. Consequently, as the notes are issued outside of Chile, capital gains arising from the disposition of the notes should not be deemed as Chilean source income. Therefore, any capital gains realized by a Foreign Holder on the sale or other disposition of the notes issued outside of Chile should not be subject to any Chilean taxes.

A Foreign Holder will not be liable for estate, gift, inheritance or similar taxes with respect to its holdings unless the notes held by a Foreign Holder are either located in Chile at the time of such Foreign Holder's death, or, if the notes are not located in Chile at the time of a Foreign Holder's death, if such notes were purchased or acquired with funds obtained from Chilean sources.

As a general rule, the issuance of the notes is subject to stamp tax at a rate of 0.066% per month or fraction thereof elapsed between the issuance and the maturity of the notes, calculated over the principal amount of the notes, with a maximum 0.8% stamp tax over the principal amount, which will be payable by CODELCO. If the stamp tax is not paid when due, Chile's stamp tax law imposes penalties (fines, interests, and inflation adjustments), which will also be payable by CODELCO. In addition, until such tax (and any penalty) is paid, Chilean courts would not enforce any action brought with respect to the notes. We have agreed to pay promptly such tax when due.

U.S. Federal Income Taxation

This summary of U.S. federal income tax considerations deals with U.S. Holders (as defined below) that will hold notes as capital assets and whose functional currency is the U.S. dollar. It does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a particular investor's decision to purchase notes and generally does not address the tax treatment of U.S. Holders that may be subject to special tax rules, such as certain banks, tax-exempt entities, partnerships (or entities classified as partnerships for U.S. federal income tax purposes) or partners therein, insurance companies, regulated investment companies, dealers in securities or currencies, traders in securities electing to mark to market, U.S. expatriates, U.S. Holders holding the notes in connection with a trade or business conducted outside the United States, nonresident alien individuals present in the United States for 183 days or more during a taxable year, or persons that will hold notes as part of an integrated investment (including a "straddle") consisting of the notes and one or more other positions. This discussion only addresses holders of notes that acquire such notes in this offering at the applicable price set forth on the first page of this offering memorandum.

As used in this section "—U.S. Federal Income Taxation", the term "U.S. Holder" means a beneficial owner of a note that is a citizen or resident of the United States or a U.S. domestic corporation or that otherwise will be subject to U.S. federal income taxation on a net income basis in respect of the notes.

This summary is based on the U.S. Internal Revenue Code of 1986 (the "Code"), as amended to the date hereof, administrative pronouncements, judicial decisions, final, temporary and proposed Treasury Regulations and the Treaty, changes to any of which subsequent to the date of this offering memorandum may affect the tax consequences described herein. Investors should consult their own tax advisors in determining the tax consequences to them of purchasing, owning, and disposing of the notes, including the application in their particular circumstances of the U.S. federal income tax considerations discussed below, as well as the application of state, local, non-U.S. or other tax laws, the alternative minimum tax or the Medicare tax on net investment income or the special timing rules prescribed under section 451(b) of the Code and possible changes in tax laws.

Qualified Reopening.

For U.S. federal income tax purposes, CODELCO intends to treat the 2053 notes as issued in a "qualified reopening" of the original 2053 notes. Provided such treatment is respected, for U.S. federal income tax purposes, the 2053 notes will be considered to have the same issue price and issue date as the original 2053 notes. The remainder of this discussion assumes that the 2053 notes are treated as having been issued in a "qualified reopening" of the original 2053 notes.

Pre-Reopening Accrued Interest.

The initial offering price for the 2053 notes will include amounts attributable to interest accrued from September 8, 2025, which we call “pre-reopening accrued interest.” Pre-reopening accrued interest will be included in the accrued interest to be paid on the 2053 notes on the first interest payment date after the issuance of the 2053 notes. In accordance with applicable U.S. Treasury regulations, for U.S. federal income tax purposes, we will treat the 2053 notes as having been issued for a price that does not include any pre-reopening accrued interest. We intend to treat the portion of the first stated interest payment equal to the pre-reopening accrued interest as a nontaxable return of such pre-reopening accrued interest and, accordingly, it generally will not be includable in income. U.S. Holders should consult their tax advisors regarding the tax treatment of pre-reopening accrued interest.

Payments of Interest and Additional Amounts.

The gross amount of stated interest and Additional Amounts (i.e., without reduction for Chilean taxes withheld, and not including any amounts representing pre-reopening accrued interest) will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is actually or constructively received in accordance with the U.S. Holder’s method of accounting for U.S. federal income tax purposes. Under the treatment described in “*U.S. Federal Income Taxation—Qualified Reopening*” above, the 2053 notes will not be treated as issued with original issue discount (“OID”) for U.S. federal income tax purposes. In addition, it is expected, and this discussion assumes, that the 2037 notes will be issued without OID for those purposes. In general, however, if the 2037 notes are issued with OID at or above a de minimis threshold, a U.S. Holder will be required to include OID in gross income, as ordinary income, under a “constant-yield method” before the receipt of cash attributable to such income, regardless of the U.S. Holder’s regular method of accounting for U.S. federal income tax purposes.

A U.S. Holder that purchases the 2053 notes at a cost (excluding any amount attributable to pre-reopening accrued interest) greater than the principal amount of the 2053 notes will be considered to have purchased the 2053 notes at a premium, and generally may elect to amortize the premium (as an offset to interest income) using a constant yield method over the remaining term of the 2053 notes. However, because we may redeem the 2053 notes prior to maturity at a premium, special rules apply that may reduce, eliminate or defer the amount of premium that a U.S. Holder may amortize with respect to the 2053 notes. If a U.S. Holder makes the election to amortize premium, it generally will apply to all taxable debt instruments that the U.S. Holder holds during the taxable year for which the election is made, as well as any taxable debt instruments that such U.S. Holder subsequently acquires. In addition, a U.S. Holder may not revoke the election without the consent of the IRS. U.S. Holders that elect to amortize the premium will be required to reduce their adjusted tax basis in the 2053 notes by the amount of premium amortized during their holding period. For U.S. Holders that do not elect to amortize premium, the amount of premium will be included in their adjusted tax basis in the 2053 notes. Therefore, if a U.S. Holder does not elect to amortize premium and holds the 2053 notes to maturity, such U.S. Holder generally will be required to treat the premium as capital loss when the 2053 notes mature.

Subject to generally applicable limitations and conditions, a U.S. Holder may be eligible for credit against such U.S. Holder’s U.S. federal income tax liability for Chilean interest withholding tax. These generally applicable limitations and conditions include requirements adopted by the IRS in regulations promulgated in December 2021 and any Chilean tax will need to satisfy these requirements in order to be eligible to be a creditable tax for a U.S. Holder. In the case of a U.S. Holder that either (i) is eligible for, and properly elects, the benefits of the Treaty, or (ii) consistently elects to apply a modified version of these rules under temporary guidance and complies with specific requirements set forth in such guidance, the Chilean tax on interest generally will be treated as meeting the requirements and therefore as a creditable tax. In the case of all other U.S. Holders, the application of these requirements to the Chilean tax on interest is uncertain and we have not determined whether these requirements have been met. If the Chilean tax is not a creditable tax for a U.S. Holder or the U.S. Holder does not elect to claim a foreign tax credit for any foreign income taxes, the U.S. Holder may be able to deduct the Chilean tax in computing the U.S. Holder’s taxable income for U.S. federal income tax purposes, subject to applicable limitations and requirements. Interest and Additional Amounts will constitute income from sources without the United States and, for U.S. Holders that validly claim foreign tax credits, generally will constitute “passive category income” for foreign tax credit purposes.

The availability and calculation of foreign tax credits and deductions for foreign taxes may depend on a

U.S. Holder's particular circumstances and involve the application of complex rules to those circumstances. The temporary guidance discussed above also indicates that the Treasury and the IRS are considering proposing amendments to the December 2021 regulations and that the temporary guidance can be relied upon until additional guidance is issued that withdraws the temporary guidance. U.S. Holders should consult their own tax advisors regarding the application of these rules to their particular situations.

Taxation of Dispositions. A U.S. Holder will generally recognize taxable gain or loss upon the sale, exchange, redemption or other taxable disposition of the notes in an amount equal to the difference between the amount realized upon such sale, exchange, redemption or other disposition (less any accrued interest and, in the case of a redemption, any Additional Amounts with respect to accrued interest, which will be taxable in the manner described above under “—Payments of Interest and Additional Amounts”) and such U.S. Holder's adjusted tax basis in those notes. A U.S. Holder's adjusted tax basis in a note will generally equal the cost of the note to such Holder (excluding any amount attributable to pre-reopening accrued interest), reduced by amortizable bond premium previously amortized. Such gain or loss will generally be capital gain or loss, and will be long-term capital gain or loss if the notes are held for more than one year. Certain non-corporate U.S. Holders (including individuals) may be eligible for a preferential rate in respect of long-term capital gain. The deduction of capital losses is subject to limitations.

Specified Foreign Financial Asset Reporting. Certain U.S. Holders that own “specified foreign financial assets” with an aggregate value in excess of U.S.\$50,000 on the last day of the taxable year or U.S.\$75,000 at any time during the taxable year are generally required to file an information statement along with their tax returns, currently on IRS Form 8938, with respect to such assets. “Specified foreign financial assets” include any financial accounts held at a non-U.S. financial institution, as well as securities issued by a non-U.S. issuer (which would include the notes) that are not held in accounts maintained by financial institutions. Higher reporting thresholds apply to certain individuals living abroad and to certain married individuals. Regulations extend this reporting requirement to certain entities that are treated as formed or availed of to hold direct or indirect interests in specified foreign financial assets based on certain objective criteria. U.S. Holders who fail to report the required information could be subject to substantial penalties. In addition, the statute of limitations for assessment of tax would be suspended, in whole or part. Prospective investors should consult their own tax advisors concerning the application of these rules to their investment in the notes in their particular circumstances.

Information Reporting and Backup Withholding. Payments of interest and Additional Amounts on the notes and sales or redemption proceeds that are made within the United States or through certain U.S.-related financial intermediaries generally are subject to information reporting and to backup withholding unless the holder is an exempt recipient that, if required, establishes its exemption or in the case of backup withholding, the holder provides a correct taxpayer identification number and certifies that it is not subject to backup withholding.

Any amounts withheld under the backup withholding rules from a payment to a holder generally will be refunded (or credited against such holder's U.S. federal income tax liability, if any), provided the required information is properly furnished to the IRS on a timely basis.

PLAN OF DISTRIBUTION

Subject to the terms and conditions of the purchase agreement among CODELCO, BofA Securities, Inc., Crédit Agricole Securities (USA) Inc., HSBC Securities (USA) Inc., and Santander US Capital Markets LLC, the initial purchasers have severally, and not jointly, agreed to purchase from the Company the following respective principal amounts of notes listed opposite their name below at the initial offering prices set forth on the cover page of this offering memorandum, less commissions:

<u>Initial Purchasers</u>	<u>Principal Amount of 2037 Notes</u>	<u>Principal Amount of 2053 Notes</u>
	(in U.S.\$)	
BofA Securities, Inc.	\$250,000,000	\$62,500,000
Crédit Agricole Securities (USA) Inc.	\$250,000,000	\$62,500,000
HSBC Securities (USA) Inc.	\$250,000,000	\$62,500,000
Santander US Capital Markets LLC	\$250,000,000	\$62,500,000
Total.....	<u>\$1,000,000,000</u>	<u>\$250,000,000</u>

The purchase agreement provides that the obligations of the several initial purchasers to purchase the notes offered hereby are subject to certain conditions precedent and that the initial purchasers will purchase all of the notes offered by this offering memorandum if any of these notes are purchased. The initial purchasers may use any of their affiliates to offer and sell any of the notes. The initial purchasers are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the purchase agreement, such as the receipt by the initial purchasers of officer's certificates and legal opinions. The initial purchasers reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

After the initial offering, the initial purchasers may change the offering price and other selling terms.

CODELCO has agreed to indemnify the initial purchasers against certain liabilities, including liabilities under the Securities Act, and to contribute to payments the initial purchasers may be required to make in respect of any of these liabilities.

The notes have not been registered under the Securities Act. Each initial purchaser has agreed that it will offer or sell the notes only (i) in the United States to qualified institutional buyers in reliance on Rule 144A under the Securities Act or (ii) in offshore transactions in reliance on Regulation S under the Securities Act. The notes being offered and sold pursuant to Regulation S may not be offered, sold or delivered in the United States or to, or for the account or benefit of, any U.S. person, unless the notes are registered under the Securities Act or an exemption from, the registration requirements thereof is available. Resales of the notes are restricted as described under "Transfer Restrictions."

Until forty (40) days after the later of the commencement of the offering and the closing date, any offer or sale of notes within the United States by a broker-dealer (whether or not participating in this offering) may violate the registration requirements of the Securities Act, unless such offer or sale is made pursuant to Rule 144A under the Securities Act or another available exemption from the registration requirements thereof. Terms used above have the meanings given to them by Regulation S and Rule 144A under the Securities Act.

CODELCO has agreed, that for a period of 30 days from the date of the purchase agreement, CODELCO will not, without prior consent of the initial purchasers, offer, sell or contract to sell, or otherwise dispose of (or enter into any transaction which is designed to, or might reasonably be expected to, result in the disposition (whether by actual disposition or effective economic disposition due to cash settlement or otherwise) by CODELCO or any affiliate of CODELCO or any person in privity with CODELCO or any of its affiliates), directly or indirectly, or announce any public or broadly marketed offering of, any U.S. dollar-denominated debt securities issued or guaranteed by CODELCO in the international capital markets (other than the notes).

The original 2053 notes and both series of notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF market of the Luxembourg Stock Exchange. See “General Information—Listing.” The initial purchasers may make a market in the notes after completion of the offering, but will not be obligated to do so and may discontinue any market-making activities at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes or that an active market for the notes will develop. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected. If notes of a series are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

In connection with the offering of each series of notes, the initial purchasers may engage in over-allotment, stabilizing transactions and syndicate covering transactions. Over-allotment involves sales in excess of the offering size, which creates a short position for the initial purchasers. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the initial purchasers engage in stabilizing or syndicate covering transactions, they may discontinue them at any time without notice.

The initial purchasers and their affiliates have performed and may in the future perform certain commercial banking, investment banking or advisory services for us from time to time for which they have received customary fees and expenses. The initial purchasers may, from time to time, continue to engage in transactions with and perform services for us in the ordinary course of their business.

In addition, in the ordinary course of their business activities, the initial purchasers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the initial purchasers or their affiliates that have a lending relationship with us routinely hedge, and certain other of those initial purchasers or their affiliates that have a lending relationship with us may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such initial purchasers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect future trading prices of the notes offered hereby. The initial purchasers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to customer that they acquire, long and/or short positions in such securities and instruments.

These notes have been delivered on January 30, 2026, which is the third business day following the date of pricing of the notes (this settlement cycle being referred to as “T+3”). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in one business day, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes prior to the business day prior to delivery of the notes hereunder will be required, by virtue of the fact that the notes initially may settle in T+3, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade notes prior to the business day before their date of delivery hereunder should consult their own advisor.

Notice to Prospective Investors in the European Economic Area (“EEA”)

The notes are not intended to be offered, sold or otherwise made available to and will not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of:

- (i) a retail client as defined in point (11) of Article 4(1) of “MiFID II”; or

- (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II.

Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the notes or otherwise making them available to retail investors in the EEA, has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Notice to Prospective Investors in the United Kingdom

The notes are not intended to be offered, sold or otherwise made available to and will not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of:

- (i) A retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the “EUWA”; or
- (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the “FSMA”) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA.

Consequently, no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

This offering memorandum is for distribution only to and is directed only at (i) persons who are outside the United Kingdom or (ii) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Order”) or (iii) high net worth companies and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as “relevant persons”). The notes are only available to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire such notes will be engaged in only with relevant persons. Any person who is not a relevant person should not act or rely on this document or any of its contents.

Notice to Prospective Investors in Canada

The notes may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this offering memorandum (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 *Underwriting Conflicts* (“NI 33-105”), the initial purchasers are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Notice to Prospective Investors in Brazil

The offer and sale of the notes have not been and will not be registered with the Brazilian Securities Commission (*comissão de valores mobiliários*, or “CVM”) and, therefore, will not be carried out by any means that would constitute a public offering in Brazil under CVM Resolution No 160, dated 13 July 2022, as amended (“CVM Resolution 160”) or unauthorized distribution under Brazilian laws and regulations. The notes will be authorized for trading on organized non-Brazilian securities markets and may only be offered to Brazilian professional investors (as defined by applicable CVM regulation), who may only acquire the notes through a non-Brazilian account, with settlement outside Brazil in non-Brazilian currency. The trading of the notes on regulated securities markets in Brazil is prohibited.

Notice to Prospective Investors in Hong Kong

The notes may not be offered or sold in Hong Kong by means of any document other than (a) to “professional investors” as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the “SFO”) and any rules made under the SFO Ordinance; or (b) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong or which do not constitute an offer to the public within the meaning of that ordinance; and no advertisement, invitation or document relating to the notes may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to the notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made under that ordinance.

Notice to Prospective Investors in Italy

The offer of the notes has not been registered with the *Commissione Nazionale per le Società e la Borsa* (Italian Securities and Exchange Commission, or the “CONSOB”) pursuant to Italian securities legislation and, accordingly, the notes may not be offered, sold or distributed to the public in the Republic of Italy (“Italy”) nor may copies of this offering memorandum or of any other document relating to the notes be distributed in Italy, except:

- (i) to *investitori qualificati* (qualified investors), as defined in Article 2, paragraph (e) of the Prospectus Regulation as implemented by Article 34-ter of CONSOB Regulation No.11971 of May 14, 1999, as amended from time to time, (the “Issuers Regulation”); or
- (ii) in any other circumstances where an express exemption from compliance with the restrictions on offers to the public applies, as provided under Article 100 of the Italian Legislative Decree No.58 of February 24, 1998, as amended from time to time, (the “Financial Services Act”) and Article 34-ter of the Issuers Regulation.

Moreover, and subject to the foregoing, any offer, sale or delivery of the notes or distribution of copies of this offering memorandum or any other document relating to the notes in Italy under (i) or (ii) above must be:

- (i) made by an investment firm, bank or financial intermediary permitted to conduct such activities in Italy in accordance with the Financial Services Act, CONSOB Regulation No. 16190 of 29 October 2007, as amended from time to time, and Legislative Decree No. 385 of September 1, 1993, as amended from time to time (the “Banking Act”);
- (ii) in compliance with Article 129 of the Banking Act and the implementing guidelines of the Bank of Italy, as amended from time to time, pursuant to which the Bank of Italy may request information on the issue or the offer of securities in Italy; and
- (iii) in compliance with any other applicable laws and regulations or requirement imposed by the Bank of Italy, CONSOB or other Italian authority.

Any investor purchasing the notes in this offering is solely responsible for ensuring that any offer or resale of the notes it purchased in the offering occurs in compliance with applicable Italian laws and regulations.

Notice to Prospective Investors in Japan

The notes have not been and will not be registered under the Financial Instruments and Exchange Act, and the notes have not been offered or sold and will not be offered or sold, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan, except as pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Act and any other applicable laws, regulations and ministerial guidelines of Japan.

Notice to Prospective Investors in Singapore

This offering memorandum has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this offering memorandum or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the notes may not be circulated or distributed, nor may the notes be offered or sold, or be made the subject of an invitation for subscription or purchase, of such notes, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275, of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the notes are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- (i) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (ii) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities (as defined in Section 239(1) of the SFA) of that corporation or the beneficiaries’ rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the notes pursuant to an offer made under Section 275 of the SFA, except:

- (i) to an institutional investor under Section 274 of the SFA or to a relevant person (as defined in Section 275(2) of the SFA), or to any person arising from an offer referred to in Section 275(1A), or Section 276(4)(i)(B) of the SFA;
- (ii) where no consideration is or will be given for the transfer;
- (iii) where the transfer is by operation of law;
- (iv) as specified in Section 276(7) of the SFA; or
- (v) as specified in Regulation 32 of the Securities and Futures (Offers of Investments) (Shares and Debentures) Regulations 2005 of Singapore.

Notification under Section 309(B)(1)(c) of the SFA. The Company has determined that the Securities are (A) prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and (B) Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Notice to Prospective Investors in Switzerland

The notes may not be publicly offered, directly or indirectly, in Switzerland within the meaning of the Swiss Financial Services Act (“FinSA”) and no application has or will be made to admit the notes to trading on any trading venue (exchange or multilateral trading facility) in Switzerland. Neither this document nor any other offering or marketing material relating to the notes, constitutes or will constitute a prospectus pursuant to the FinSA, and neither this document nor any other offering or marketing material relating to the notes may be publicly distributed or otherwise made publicly available in Switzerland.

Notice to Prospective Investors in Chile

The notes may not be offered or sold in Chile, directly or indirectly, by means of a “Public Offer” (as defined under Law No. 18,045 and regulations from the CMF). Chilean institutional investors (such as banks, pension funds and insurance companies) are required to comply with specific restrictions relating to the purchase of the notes. Pursuant to Chilean law, a public offering of securities is an offering that is addressed to the general public or to certain specific categories or groups thereof. Considering that the definition of public offering is quite broad, even an offering addressed to a small group of investors may be considered to be addressed to a certain specific category or group of the public and therefore be considered public under applicable law. On June 27, 2012, the CMF issued *Norma de Carácter General* No. 336 (General Rule No. 336, hereinafter “NCG 336”), which is intended to govern the private offering of securities in Chile. NCG 336 provides that the offering of securities that meet the conditions described therein shall not be considered public offerings in Chile and shall be exempted from complying with the general rules applicable to public offerings.

The following information is provided to prospective investors pursuant to NCG 336:

1. Date of commencement of the offer: January 27, 2026. The offer of the notes is subject to CMF rule (*norma de carácter general*) No. 336, dated June 27, 2012, as amended, issued by the CMF.
2. The subject matter of this offer are securities not registered with the securities registry (*registro de valores*) or the foreign securities registry (*registro de valores extranjeros*) kept by the CMF. As a consequence, the notes are not subject to the oversight of the CMF.
3. Since the notes are not registered in Chile, the issuer is not obliged to provide public information about the notes in Chile.
4. The notes shall not be subject to public offering in Chile unless registered with the relevant securities registry kept by the CMF.

Notice to Prospective Investors in China

The notes are not being offered or sold and may not be offered or sold, directly or indirectly, in the People’s Republic of China (the “PRC”) (for such purposes, not including the Hong Kong and Macau Special Administrative Regions or Taiwan), except as permitted by the securities laws of the PRC.

Notice to Prospective Investors in the Dubai International Financial Centre

This offering memorandum relates to an Exempt Offer in accordance with the Markets Rules 2012 of the Dubai Financial Services Authority (“DFSA”). This offering memorandum is intended for distribution only to persons of a type specified in the Markets Rules 2012 of the DFSA. It must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved this offering memorandum nor taken steps to verify the information set forth herein and has no responsibility for this offering memorandum. The notes to which this offering memorandum relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the notes offered should conduct their own due diligence on the notes. If you do not understand the contents of this offering memorandum, you should consult an authorized financial advisor.

Notice to Prospective Investors in Taiwan

The notes have not been and will not be registered with the Financial Supervisory Commission of Taiwan pursuant to relevant securities laws and regulations and the notes may not be sold, issued or offered within Taiwan through a public offering or in a circumstance which constitutes an offer within the meaning of the Securities and Exchange Act of Taiwan requiring registration or approval of the Financial Supervisory Commission of Taiwan. No person or entity in Taiwan has been authorized to offer, sell, give advice regarding or otherwise intermediate the offering and sale of the notes in Taiwan.

Notice to Prospective Investors in the Republic of Korea

The notes have not been and will not be offered, delivered or sold directly or indirectly in Korea or to any resident of Korea except as otherwise permitted under applicable Korean laws and regulations.

TRANSFER RESTRICTIONS

The notes have not been and will not be registered under the Securities Act or with any securities regulatory authority in any jurisdiction and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons except that notes may be offered or sold to (i) Qualified Institutional Buyers (“QIBs”) in reliance upon the exemption from the registration requirement of the Securities Act provided by Rule 144A and (ii) persons other than U.S. persons as such term is defined in Regulation S under the Securities Act (“Foreign Purchasers”) in offshore transactions in reliance upon Regulation S.

Each purchaser of the notes that is not a Foreign Purchaser will be deemed to:

- (i) represent that it is purchasing the notes for its own account or an account with respect to which it exercises sole investment discretion and that it and any such account is a QIB and is aware that the sale to it is being made in reliance on Rule 144A;
- (ii) acknowledge that the notes have not been and will not be registered under the Securities Act or with any securities regulatory authority in any jurisdiction and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except as set forth below;
- (iii) agree that if it should resell or otherwise transfer the securities, it will do so only pursuant to an applicable exemption from, or in a transaction not subject to, the registration requirements of the Securities Act, in each case in accordance with all applicable securities laws of the states of the United States or any other applicable jurisdiction;
- (iv) agree that it will deliver to each person to whom it transfers notes notice of any restrictions on transfer of such notes;
- (v) agree that it is not an “affiliate” (within the meaning of Rule 144 under the Securities Act) of the Bank; and
- (vi) acknowledge that CODELCO, the trustee, the initial purchasers and others will rely upon the truth and accuracy of the foregoing acknowledgments, representations and agreements. If it is acquiring any notes for the account of one or more QIBs, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgments, representations and agreements on behalf of each such account. If any of the acknowledgements, representations or agreements it is deemed to have been made by the purchase of notes is no longer accurate, it will promptly notify CODELCO and the initial purchasers.

Each 144A Global Note will bear the following legend:

THIS NOTE HAS NOT BEEN REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE “**SECURITIES ACT**”) OR ANY STATE SECURITIES LAW. NEITHER THIS NOTE NOR ANY INTEREST OR PARTICIPATION HEREIN MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS EXCEPT AS SET FORTH IN THE FOLLOWING SENTENCE. BY ITS ACQUISITION HEREOF, THE HOLDER (1) REPRESENTS THAT (A) IT AND ANY ACCOUNT FOR WHICH IT IS ACTING IS A “**QUALIFIED INSTITUTIONAL BUYER**” (AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT (“**RULE 144A**”)) AND THAT IT EXERCISES SOLE INVESTMENT DISCRETION WITH RESPECT TO EACH SUCH ACCOUNT OR (B) IT IS A NON-U.S. PERSON OUTSIDE THE UNITED STATES WITHIN THE MEANING OF (OR AN ACCOUNT SATISFYING THE REQUIREMENTS OF PARAGRAPH (k)(2)(i) OF RULE 902 UNDER) REGULATION S UNDER THE SECURITIES ACT, (2) AGREES THAT IT WILL NOT, PRIOR TO THE EXPIRATION OF THE HOLDING PERIOD APPLICABLE TO SALES OF THE NOTES EVIDENCED HEREBY UNDER RULE 144(d) UNDER THE SECURITIES ACT (OR ANY SUCCESSOR PROVISION), OFFER, SELL, PLEDGE OR OTHERWISE TRANSFER SUCH NOTES EXCEPT IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF

THE UNITED STATES OR ANY OTHER APPLICABLE JURISDICTION AND ONLY (A) TO THE ISSUER OR A SUBSIDIARY THEREOF, (B) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT, (C) SO LONG AS THIS NOTE IS ELIGIBLE FOR RESALE PURSUANT TO RULE 144A, TO A PERSON WHOM THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER TO WHOM NOTICE IS GIVEN THAT THE RESALE, PLEDGE OR OTHER TRANSFER IS BEING MADE IN RELIANCE ON RULE 144A, (D) IN AN OFFSHORE TRANSACTION IN ACCORDANCE WITH REGULATION S UNDER THE SECURITIES ACT OR (E) PURSUANT TO AN EXEMPTION FROM REGISTRATION (IF APPLICABLE). PRIOR TO THE REGISTRATION OF ANY TRANSFER IN ACCORDANCE WITH (E) ABOVE, THE COMPANY RESERVES THE RIGHT TO REQUIRE THE DELIVERY OF SUCH LEGAL OPINIONS, CERTIFICATIONS OR OTHER EVIDENCE AS MAY REASONABLY BE REQUIRED IN ORDER TO DETERMINE THAT THE PROPOSED TRANSFER IS BEING MADE IN COMPLIANCE WITH THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS. THIS NOTE IS SUBJECT TO THE RESTRICTIONS ON TRANSFER SET FORTH IN THE INDENTURE REFERRED TO ON THE REVERSE HEREOF. THIS LEGEND WILL BE REMOVED ONLY AT THE OPTION OF THE ISSUER.

Each purchaser of notes that is a Foreign Purchaser will be deemed to:

- (i) represent that it is purchasing the notes for its own account or an account for which it exercises sole investment discretion and that it and any such account is a Foreign Purchaser that is outside the United States and acknowledge that the notes have not been and will not be registered under the Securities Act or with any securities regulatory authority in any jurisdiction and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except as set forth below; and
- (ii) agree that if it should resell or otherwise transfer the notes prior to the expiration of a restricted period (defined as 40 days after the later of the commencement of the offering and the closing date with respect to the notes), it will do so only (a)(1) outside the United States in compliance with Rule 904 under the Securities Act or (2) to a QIB in compliance with Rule 144A, and (b) in accordance with all applicable securities laws of the states of the United States or any other applicable jurisdiction.

Each Regulation S Global Note will bear the following legend:

THIS SECURITY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE “**SECURITIES ACT**”), OR WITH ANY SECURITIES REGULATORY AGENCY IN ANY JURISDICTION, AND, ACCORDINGLY, MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS, EXCEPT PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT OR PURSUANT TO AN EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT OR IN A TRANSACTION NOT SUBJECT TO THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT. THIS SECURITY IS SUBJECT TO THE RESTRICTIONS ON TRANSFER SET FORTH IN THE INDENTURE REFERRED TO ON THE REVERSE HEREOF. PRIOR TO THE EXPIRATION OF A 40-DAY RESTRICTED PERIOD OR SUCH LATER DATE AS THE COMPANY MAY NOTIFY TO THE TRUSTEE, THIS SECURITY, OR ANY BENEFICIAL INTEREST HEREIN, MAY NOT BE RESOLD OR OTHERWISE TRANSFERRED EXCEPT (A)(1) OUTSIDE THE UNITED STATES IN COMPLIANCE WITH RULE 904 UNDER THE SECURITIES ACT OR (2) TO A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE SECURITIES ACT IN COMPLIANCE WITH RULE 144A, AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES OR ANY OTHER APPLICABLE JURISDICTION.

The transfer or exchange of a beneficial interest in a Regulation S Global Note for a beneficial interest in a corresponding 144A Global Note prior to the expiration of the restricted period will be made only in accordance with applicable procedures upon receipt by the trustee of a duly completed certificate from the transferor to the effect that such transfer is being made in accordance with Rule 144A under the Securities Act. Such written certification will no longer be required after the expiration of the restricted period. The transfer or exchange of a beneficial interests in a Rule 144A Global Note for a corresponding beneficial interest in a Regulation S Global Note, whether before or after the expiration of the restricted period, will be made only upon receipt by the trustee of a written certification from the transferor to the effect that such transfer is being made in accordance with Regulation S under the Securities Act.

For so long as the notes are listed on the Luxembourg Stock Exchange, if the notes are ever issued in certificated form:

- Certificated Notes will be delivered by the trustee as described in this offering memorandum and at the offices of the paying agent; and
- holders of notes in certificated form will be able to transfer or exchange their notes at the offices of the transfer agent.

Any resale or other transfer, or attempted resale of other transfer, made other than in compliance with the above stated restrictions shall not be recognized by us.

For further discussion of the requirements (including the presentation of transfer certificates) under the indenture to effect exchanges or transfers of interests in Global Notes, see “Description of Notes—Registration, Form and Delivery—Certain Book-Entry Procedures for the Global Notes.”

We have prepared this offering memorandum solely for use in connection with the offer and sale of the notes outside the United States, for the private placement of the notes in the United States and for the listing on the Luxembourg Stock Exchange. We and the initial purchasers reserve the right to reject any offer to purchase, in whole or in part, for any reason, or to sell less than the amount of notes offered pursuant to Rule 144A under the Securities Act. This offering memorandum does not constitute an offer to any person in the United States other than any QIB under the Securities Act to whom an offer has been made directly by the initial purchasers or an affiliate of the initial purchasers.

Each purchaser of notes must comply with all applicable laws and regulations in force in any jurisdiction in which it purchases, offers or sells notes or possesses or distributes this offering memorandum or any part of it and must obtain any consent, approval or permission required by it for the purchase, offer or sale by it of notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers or resales, and neither the Company nor the initial purchasers shall have any responsibility therefor.

VALIDITY OF THE NOTES

The validity of the notes will be passed upon for CODELCO by Linklaters LLP, New York, New York, United States counsel for CODELCO, and by Carey y Cía. Ltda., Chilean counsel to CODELCO, and for the initial purchasers by Allen Overy Shearman Sterling US LLP, special New York, New York, United States counsel for the initial purchasers, and by Garrigues Chile Limitada, special Chilean counsel for the initial purchasers. Linklaters LLP may rely without independent investigation as to all matters of Chilean law on Carey y Cía. Ltda., and Allen Overy Shearman Sterling US LLP may rely without independent investigation as to all matters of Chilean law on Garrigues Chile Limitada.

INDEPENDENT AUDITORS

The financial statements of CODELCO and its subsidiaries as of and for the years ended December 31, 2024 and 2023, and as of and for the years ended December 31, 2023 and 2022, included in this offering memorandum, have been audited by PricewaterhouseCoopers Consultores, Auditores y Compañía Limitada, independent auditors, as stated in their report appearing herein.

GLOSSARY OF CERTAIN MINING TERMS

Andesite: A fine-grained volcanic rock, usually dark grey in color, with an average composition of 50.0-60.0% sulphur dioxide.

Anode Copper: Blister copper that has undergone further refinement to remove impurities. In an anode furnace, the blister copper is blown with air and a hydrocarbon redundant to upgrade its purity to approximately 99.5% copper. It is then cast into keystone-shaped slabs that are shipped to an electrolytic refinery.

Anodic Slime: A product with a high content of precious metals that settles on the bottom of an electrolytic cell in the copper refinery during the production of copper cathodes. The product is called anode, or anodic, slime due to its muddy appearance. Anode slimes have a high commercial value based on their precious metals content (silver, gold, platinum and palladium).

Blister Copper: Copper that has been cast after passing through a converter. Blister copper is approximately 99.0% copper and takes its name from the “blisters” that form on the surface during cooling.

Breccia: A rock conglomerate made up of highly angular coarse fragments.

Calcopyrite: A combination of copper and iron sulfide with a metallic yellow-gold color, containing 34.7% copper, 30.0% iron and 26.0% sulfur.

Cathode: Copper produced by an electrochemical refining process that has been melted and cast into cakes, billets, wire bars or rods usually weighing approximately 90kg.

Concentration: The process by which crushed and ground ore is separated into metal concentrates and reject material through processes such as flotation. Concentrates are shipped to a smelter for further processing.

Concentrator: A plant where concentration takes place.

Converter: A plant that conducts a principal phase of the smelting process, blowing oxygen-enriched air through, molten metal, causing oxidation and the removal of sulfur and other impurities. In the case of copper, the product of this process is blister copper.

Copper Concentrate: A product of the concentrator usually containing 25.0% to 30.0% copper. It is the raw feed material for smelting.

Copper Grade: The concentration of copper in a given volume of rock, usually expressed as a percentage.

Dacite: A fine-grained volcanic rock similar in composition to andesite but containing a greater abundance of quartz crystals that are frequently visible to the naked eye.

Development: Activities related to the building of infrastructure and the stripping and opening of mineral deposits, commencing when economically recoverable reserves can reasonably be estimated to exist and generally continuing until commercial production begins.

Diorite: A dark, coarsely crystalline igneous rock, similar in composition to granite that is composed principally of silica, alumina, calcium and iron.

Electrolytic Refining: Electrochemical refining of copper anodes. Copper anodes are placed between layers of refined copper sheets in a tank through which an acid copper sulfate solution is circulated. A low voltage current is introduced, causing the transfer of copper from the anodes to the pure copper sheets, and producing 99.98% copper cathodes. Impurities, often containing precious metals, settle to the bottom of the tank.

Electrowinning: The process of directly recovering copper from solution by the action of electric currents.

Exploration: Activities associated with ascertaining the existence, location, extent or quality of a mineral deposit.

Fine Copper: 99.99% pure copper obtained through metallurgical processes.

Flotation: A process of copper concentrate production in which mineral particles attach themselves to the bubbles in an oily froth and rise to the surface, where they are skimmed off. This process is used primarily for the concentration of sulfide ores.

Flux: A high grade silica, which reacts with iron oxides formed during smelting and converting stages to create a molten slag.

Geological Resources (measured, indicated and inferred): Concentrations or occurrences of materials in such form, quantity (tonnage and ore grade) and quality, based on specific geological evidence and knowledge, which allows for the calculation of the amount, ore grade and quality of the material with some level of confidence.

Grade A Copper: Electrolytic copper, in the form of cathodes, that (i) is at least 99.99% pure, (ii) meets the LME's highest standards for copper quality, and (iii) is named in the LME-approved list of brands of Grade A copper.

Indicated Resources (geological or mineral resources): Resources about which CODELCO's knowledge is substantial but less extensive than its knowledge of measured resources.

Inferred Resources (geological or mineral resources): Resources about which CODELCO's knowledge is only indirect.

Intrusion: A geologic processes in which magmatic material flows to the earth's surface through pre-existing rocks.

Leached Capping: An abundant mass of iron oxide concentrated in the upper zones of a porphyry copper deposit.

Leaching: The process of extracting a soluble metallic compound from an ore by selectively dissolving it in a suitable solvent.

Matte: A high density liquid that is produced during the concentrate fusion stage of the pyro-metallurgical process.

Matte Sulfide: A high density liquid containing copper and iron sulfides that is produced of the concentrate fusion stage of the pyro-metallurgical process.

Measured Resources (geological or mineral resources): Resources about which CODELCO's knowledge is both extensive and direct.

Milling: A treatment process in which ore is ground into a fine powder.

Mine: Mines are the source of mineral-bearing material found near the surface or deep in the ground.

Mineral Deposit: A mineralized underground body that has been probed by a sufficient number of closely-spaced drill holes and/or underground sampling measurements to support an estimate of sufficient tonnage and ore grade to warrant further exploration or development. Mineral deposits or mineralized materials do not qualify as commercially minable ore reserves (*i.e.*, proved reserves or probable reserves), as prescribed under standards of the U.S. Bureau of Mines Circular 831 of 1980, until a final and comprehensive economic, technical, and legal feasibility study based upon the test results has been concluded.

Mineral Resources (measured, indicated and inferred): Geological resources about which CODELCO has achieved increased knowledge and which enable CODELCO to generate a long-term mining plan for the exploitation of such resources.

Mineralization: A deposit of rock containing one or more minerals for which the economics of recovery have not yet been established.

Molybdenum: A metallic element, grayish in color, that resembles chromium and tungsten in many properties, and is used especially in strengthening and hardening steel.

Ore: A mineral or aggregate of minerals from which metal can be economically mined or extracted.

Ore Grade: The average amount of metal expressed as a percentage or in ounces per metric ton.

Ore Deposit: Category including all geological resources, mineral resources and ore reserves.

Ore Reserves: The economically mineable part of a mineral resource.

Ounces: Unit of weight. A troy ounce equals 31,103 grams or 1.097 avoirdupois ounces.

Outokumpu Flash Furnace: Pyro-metallurgical technology used to smelt copper concentrate.

Overburden: The alluvium and rock that must be removed in order to expose an ore deposit.

Oxide Ore: Metalliferous minerals altered by weathering, surface waters, and their conversion, partly or wholly, into oxides, carbonates, or sulfates.

Pierce Smith Converter: Horizontal furnace to remove impurities from white metal by oxidation.

Porphyry: Rock with siliceous minerals and fine-medium grained size.

Porphyry-type Ore Body: Deposit of porphyric rocks with economic mineralization.

Probable Ore Reserves: Ore reserves about which CODELCO's knowledge is substantial but less extensive than its knowledge of proved ore reserves.

Proved Ore Reserves: Ore reserves about which CODELCO's knowledge is both extensive and direct. Quantities of proved ore reserves are computed from dimensions revealed in outcrops, trenches, workings or drill holes, and grade and quality are computed from the results of detailed sampling. Sites for inspection, sampling and measurement of proved ore reserves are spaced so closely together, and the geologic character of the ore is so well defined, that its size, shape, depth and mineral content are well established.

Reclamation: The process of restoring mined land to a condition established by applicable law. Reclamation standards vary widely, but usually address issues of ground and surface water, topsoil, final slope gradients, overburden and revegetation.

Refining: The purification of crude metallic substances.

Reverberatory Furnace: A furnace with a shallow hearth and a ceiling that reflects flames toward the hearth or radiates heat toward the surface of the charge.

Rod Mill: A large rotating cylinder in which metal rods are used for grinding ore.

Slag: A residue of the smelting process containing iron and other impurities, which the Company disposes of with its other industrial solid waste.

Smelting: A pyro-metallurgical process in which metal is separated by fusion from those impurities with which it may be chemically combined or physically mixed.

Solvent Extraction: A method of separating one or more substances from a chemical solution by treatment with a suitable organic solvent.

Subvertical: Amount of waste material removed during mining per metric ton of ore extracted in a near-vertical spatial orientation.

Sulfide Ore: Ore characterized by the inclusion of metal in the crystal structure of a sulfide mineral.

Tabular: Having a near-rectangular geometric configuration close to a rectangular shape.

Tailings: Finely ground rock from which valuable minerals have been extracted by concentration.

Teniente Converter: A horizontal rotary furnace into which matte, concentrates and flux are placed, and through which oxygen-rich air is blown to provide sufficient heat to smelt the concentrates. Off-gases are captured and transported to the acid plant.

Teniente Modified Converter: An advanced pyro-metallurgical technology used to smelt copper concentrate.

Ton: A unit of weight. One metric ton equals 2,204.6 pounds. One short ton equals 2,000 pounds. Unless otherwise specified in this document, “tons” refers to metric tons.

Tourmaline: A dark-green hydrosilicate that exists in altered rock zones in some ore deposits.

GENERAL INFORMATION

Authorization

The Ministry of Finance of Chile authorized CODELCO to commence negotiations to issue bonds abroad through Resolution (*Oficio Ordinario*) No. 2,811 dated December 19, 2025. The Ministry of Finance of Chile authorized the issuance of the notes by Resolution No. 51 dated January 12, 2026.

CODELCO's Board of Directors authorized the issuance of the notes in its ordinary session of December 18, 2025 by means of Reserved Agreement No. 58/2025. CODELCO has obtained all other consents and authorizations necessary under Chilean law for the issuance of the notes.

Litigation

CODELCO is not involved in any litigation or arbitration proceeding which is material in the context of the issuance of the notes. CODELCO is not aware of any material litigation or arbitration proceeding that is pending or threatened.

Clearing

CODELCO has applied to have the notes accepted into DTC's book-entry settlement system. The notes have been accepted for clearance through the clearing systems of Euroclear System and Clearstream Banking, S.A. The 2053 notes offered hereby and sold in reliance on Regulation S will have temporary CUSIP and ISIN numbers during a 40-day distribution compliance period commencing on the issue date and ending on March 11, 2026. After such 40-day distribution compliance period, the 2053 notes offered hereby and sold in reliance on Regulation S will have the same CUSIP and ISIN numbers as, and will be fungible with, the original 2053 notes, sold in reliance on Regulation S. The notes offered and sold in reliance on Rule 144A will have, commencing on their date of issuance, the same CUSIP and ISIN numbers as, and will be fungible with, the original 2053 notes, and offered and sold in reliance on Rule 144A. The securities codes for the 2053 notes are:

	CUSIP Number	ISIN Number	Common Code
Rule 144A Global Note	21987B BH0	US21987BBH06	268193766
Regulation S Global Note	P3143N BR4	USP3143NBR46	268193740
	Temporary CUSIP Number	Temporary ISIN Number	Common Code
Regulation S Global Note	P3143N CA0	USP3143NCA02	328913542

The securities codes for the 2037 notes are:

	CUSIP Number	ISIN Number	Common Code
Rule 144A Global Note	21987B BQ0	US21987BBQ05	328913623
Regulation S Global Note	P3143N BZ6	USP3143NBZ61	328913615

Listing

CODELCO's LEI Code is 549300UVMBCBCIPSU170.

CODELCO has initially appointed The Bank of New York Mellon, as trustee, paying agent, transfer agent and registrar.

As long as the notes are listed on the Luxembourg Stock Exchange, you may receive free of charge copies of the following documents at the offices of the listing agent or paying agent on any business day:

- this offering memorandum;
- the indenture attaching the forms of the notes;
- CODELCO's statutory documents;
- English translations of the official letter authorizing the incurrence of indebtedness as issued by the Ministry of Finance; and
- the most recent annual report, including the Audited Annual Consolidated Financial Statements, of CODELCO.

Electronic copies of the indenture may be made available, free of charge, upon reasonable request of any holder of the notes during usual business hours on any weekday (excluding Saturday, Sundays and public holidays) at the offices of the trustee at 240 Greenwich Street, New York, New York 10286.

Financial Position

There has been no material adverse change in CODELCO's financial position and prospects since the date of the last financial information included in the offering memorandum.

CORPORACIÓN NACIONAL DEL COBRE DE CHILE
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
AS OF SEPTEMBER 30, 2025 (UNAUDITED) AND DECEMBER 31, 2024
(Monetary values in thousands of United States dollars,
unless another currency or unit is indicated)

I. GENERAL INFORMATION

1. Corporate information

Corporación Nacional del Cobre de Chile (hereinafter referred to as “Codelco” or the “Corporation”), is, in Management’s opinion, the largest copper producer in the world. Codelco’s most important product is refined copper, primarily in the form of cathodes. The Corporation also produces copper concentrates, blister and anode copper and by-products such as molybdenum, anode slime and sulfuric acid.

The Corporation trades its products based on a policy aimed to sell refined copper to manufacturers or producers of semi-manufactured products.

These products contribute to diverse fields of community development, particularly those intended to improve areas such as public health, energy efficiency, and sustainable development, among others.

The Corporation is registered under Securities Registry No. 785 of the Chilean Commission for the Financial Market (the “CMF”) and is subject to its supervision. According to Article No. 10 of Law No. 20392 (related to the new Corporate Governance of Codelco), such supervision shall be on the same terms as publicly traded companies, notwithstanding the provisions in Decree Law (D.L.) No.1349 of 1976, which created the Comisión Chilena del Cobre (“Chilean Copper Commission”).

Codelco’s head office is in Santiago, Chile, at 1270 Huérfanos Street, telephone number (56-2) 26903000.

Codelco was incorporated through D.L. No. 1350 of 1976, which is the statutory decree applicable to the Corporation. In accordance with the statutory decree, Codelco is a government-owned mining, industrial and commercial company, which is a separate legal entity with its own equity. Codelco Chile currently carries out its mining business through its Chuquicamata, Radomiro Tomic, Ministro Hales, Gabriela Mistral, Salvador, Andina, El Teniente and Ventanas divisions.

The Corporation also carries out similar activities in other mining deposits in association with third parties.

During 2024, the Corporation enters the lithium business with the acquisition of Lithium Power International Limited “LPI”. This acquisition will make the Blanco Project viable through synergies with the Corporation's assets and permits in the Salar de Maricunga, and thus develop a world-class lithium project. Additionally, in May 2024, Codelco signed an association agreement with Sociedad Química y Minera de Chile S.A. (SQM), which

establishes the conditions to implement a public-private partnership for the development of mining, productive and commercial activities related to the exploration and exploitation of certain mining properties located in the Salar de Atacama, Antofagasta Region.

In accordance with letter e) of Article 10 of Law No. 20392, Codelco is governed by its organic standards set forth in Decree Law No. 1350 (D.L. No. 1350) and that of its by-laws, and in matters not covered by them and, insofar as they are compatible and do not contradict the provisions of such standards, by the rules that govern publicly traded companies and the common laws as applicable to them.

In accordance with D.L. No. 1350 Section IV related to the Company's Exchange and Budget Regulations. Codelco's financial activities are conducted following an annual budgeting program that is composed of an Operations Budget, an Investment Budget, and a Debt Amortization Budget.

The income obtained by Codelco in each period is subject to the tax regime established in Article 26 of D.L. N°1,350, which refers to Decree Laws N° 824, on Income Tax, of 1974, and N°2398 (Article 2), of 1978, which are applicable to Codelco. It is also subject to the terms of Law No. 21591 on mining royalties.

According to Law No. 13196, the return on foreign currency of the Corporation's foreign sales (real income), of its copper production, including its by-products, is taxed at 10%. The effectiveness of this obligation for Codelco is specified in the explanatory note in section III. 24 letter c) of this report.

The subsidiaries whose financial statements are included in these interim consolidated financial statements correspond to companies located in Chile and abroad, which are detailed in Note II.2.d.

The associates, all located in Chile, are detailed in the explanatory note in section III.10.

2. Basis of presentation of the consolidated financial statements

The interim consolidated statements of financial position as of September 30, 2025 and the consolidated statements of financial position as of December 31, 2024, the interim consolidated statement of income, comprehensive income for the nine and three-month periods ended September 30, 2025 and 2024, changes in equity and cash flows for the nine-month periods ended September 30, 2025 and 2024 have been prepared in accordance with International Accounting Standard No. 34 (IAS 34) "Interim Financial Reporting", incorporated into the accounting standards of the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (hereinafter "IASB").

These consolidated financial statements include all the information and disclosures required in the annual financial statements.

The interim consolidated financial statements (unaudited) of the Corporation are presented in thousands of United States dollar ("U.S. dollar").

Responsibility for information and estimates made

The Board of Directors of the Corporation has been informed of the information included in these consolidated financial statements and expressly declared its responsibility for the consistent and reliable nature of the information included as of September 30, 2025, which financial statements fully comply with IFRS. These unaudited interim consolidated financial statements as of September 30, 2025 were approved by the Board of Directors at a meeting held on October 30, 2025.

Accounting policies

These unaudited interim consolidated financial statements reflect the financial position of Codelco and subsidiaries as of September 30, 2025 and December 31, 2024, as well as the results of their operations for the nine and three-month periods ended September 30, 2025 and 2024, changes in equity and cash flows for the nine month periods ended September 30, 2025 and 2024, and their related notes, all prepared and presented in accordance with IAS 34 "Interim Financial Reporting", considering the respective presentation regulations of the Financial Market Commission (CMF)".

II. SIGNIFICANT ACCOUNTING POLICIES

1. Critical accounting estimate

In preparing these interim consolidated financial statements (unaudited), the use of certain critical accounting estimates and assumptions that affect the amounts of assets and liabilities recognized as of the date of the financial statements and the amounts of revenue and expenses recognized during the reporting period is required. Such preparation also requires the Corporation's Management to exercise its judgment in the process of applying the Corporation's accounting policies. The areas involving a greater degree of judgment or complexity or areas in which the assumptions and estimates are significant for the consolidated financial statements are described as follows:

- a) **Useful economic lives and residual values of property, plant and equipment:** the useful lives and residual values of property, plant and equipment that are used for calculating depreciation are determined based on technical studies prepared by internal specialists. The technical studies consider specific factors related to the use of assets

Where there are indications that the useful lives of these assets or their residual values may have changed from previous estimates, this should be done using technical estimates to determine the impact of any changes.

- b) **Ore reserves:** the measurements of ore reserves are based on estimates of the ore resources that are legally and economically exploitable and reflect the technical and environmental considerations of the Corporation regarding the amount of resources that could be exploited and sold at prices exceeding the total cost associated with the extraction and processing.

The Corporation applies judgment in determining the ore reserves, and as such, possible changes in these estimates might significantly impact the estimates of net revenues over

time. In addition, these changes might lead to modifications in usage estimates, which might have an effect on depreciation and amortization expense, calculation of stripping cost adjustments, determination of impairment losses, expected future disbursements related to decommissioning and restoration obligations, long term defined benefits plans' accounting and the accounting for financial derivative instruments.

The Corporation estimates its reserves and mineral resources based on the information certified by the Competent Persons internal and external of the Corporation, who are defined and regulated according to Law No. 20235. These estimates correspond to the application of the Certification Code of Ore Reserves, Resources and Exploration, issued by the Mining Committee which was instituted through the law.

Notwithstanding the foregoing, the Corporation periodically reviews its estimation models, supported by experts who, in some divisions, also certify the reserves determined from these models.

- c) **Impairment of non-financial assets:** the Corporation reviews the carrying amount of its non-financial assets to determine whether there is any indication that the carrying amount may not be recoverable. If any such indicator exists, the recoverable amount of the assets is estimated to determine the extent of the impairment loss. In testing impairment, the assets are grouped into cash generating units ("CGUs") to which the assets belong, if applicable. The recoverable amount of these CGUs is calculated as the present value of the expected future cash flows from such assets, considering a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of the assets is lower than their carrying amount, an impairment loss is recognized.

The Corporation defines the CGUs and also estimates the timing and cash flows that such CGUs will generate. Subsequent changes in the grouping of the CGU, or changes in the assumptions supporting the estimates of cash flows or the discount rate, may impact the carrying amounts of the corresponding assets.

Estimates of assumptions influencing the calculation of cash flows, such as the price of copper or treatment charges and refining charges, among others, are determined based on studies conducted by the Corporation using uniform criteria over different periods. Any change in these criteria may have an impact on the recoverable amount of the assets being tested for impairment.

The Corporation has assessed and defined that the CGUs are constituted at the level of each of its current operating divisions, with the exception of the Ventanas Division Smelter and Refinery operations, which are analyzed separately.

In assessing impairment in subsidiaries and associates, the Corporation uses the higher of value in use or fair value less costs to determine the recoverable amount. This recoverable amount may consider elements such as Life of Mine (LOM), reserves and/or mining resources, among others, for mining operation evaluations. In addition, the evaluation may incorporate market variables such as for example, the price of copper and other commodities, cost of production inputs, exchange rates, discount rates and other market information for long-term asset valuation.

- d) Provisions for decommissioning and site restoration costs:** when a disruption is caused by the ongoing development or production of a mining property, an obligation to incur decommissioning and restoration costs arises. Costs are estimated based on a formal closure plan and are reassessed as of each reporting period or as of the date such obligations become known. The initial estimate of decommissioning and site restoration costs is recognized as property, plant, and equipment in accordance with IAS 16, and simultaneously a liability in accordance with IAS 37, is recorded.

For these purposes, a defined list of mine sites, facilities and other equipment are studied under this process, considering the engineering level profile, the cubic meters of assets that will be subject to removal and restoration, weighted by a structure of market prices of goods and services, reflecting the best current knowledge related to carrying out such activities, as well as techniques and more efficient construction procedures to date. In the process of valuation of these activities, the assumptions of the exchange rate for tradable goods and services are made, as well as a discount rate, which considers the time value of money and the risks associated with the liabilities, which is determined based, where applicable, on the currency in which disbursements are expected to be made.

The liability amounts recognized at the end of each reporting date represent management's best estimate of the present value of the future decommissioning and site restoration costs. Changes in the estimate of the liability because of changes in the estimated future costs or in the discount rate are added to or deducted from the respective asset cost. The amount deducted from the cost of the asset shall not exceed its carrying amount. If a decrease in the liability exceeds the carrying amount of the asset, the excess is recognized immediately in profit or loss.

If the adjustment results in an addition to the cost of the asset, Codelco considers whether this is an indicator that the new carrying amount of the asset may not be fully recoverable. If such an indicator exists, Codelco tests the asset for impairment by estimating its recoverable amount, and accounts for any impairment loss in accordance with IAS 36.

Costs arising from the installation of a plant or other site preparation work, discounted to their net present value, are provided for and capitalized at the beginning of each project as soon as the obligation to incur such costs arises. These decommissioning costs are charged to net income over the life of the mine, through depreciation of the corresponding asset. Depreciation expense is included in cost of sales, while the discount in the provision is included in finance costs.

- e) Provisions for employee benefits:** Provisions for employee benefits related to severance payments and health benefits for services rendered by the employees are determined based on actuarial calculations using the projected unit credit method and are recognized in other comprehensive income or s (depending on the accounting standards applicable) on an accrual basis.

The Corporation uses assumptions to determine the best estimate of future obligations related to these benefits. Such estimates, as well as assumptions, are determined by

management using the assistance of external actuaries. These assumptions include demographic assumptions, discount rate and expected salary increases and rotation levels, among other factors.

- f) **Accruals for open invoices:** the Corporation uses information on future copper prices, through which it recognizes adjustments to its revenues and trade receivables, due to the conditions in provisional pricing arrangements. These adjustments are updated monthly, See Notes 2 q) "Revenue from contracts with customers" of Note 2 "Significant accounting policies" below.
- g) **Fair value of derivatives and other financial instruments:** management may use its judgment to choose an adequate and proper valuation method for financial instruments that are not quoted in an active market. In the case of derivative financial instruments, assumptions are based on observable market inputs, adjusted depending on factors specific to the instruments among others.
- h) **Lawsuits and contingencies:** The Corporation assesses the probability of lawsuits and contingency losses on an ongoing basis according to estimates performed by its legal advisors. For cases in which management and the Corporation's legal advisors believe that a loss is not probable of occurring or where probable, may not be estimated reliably, no provisions are recognized. When it is considered more likely than not that a loss is probable and it may be reliably estimated, a provision is recognized.
- i) **Application of IFRS 16:** includes the following:
 - Estimation of the lease term
 - Determine if it is reasonably certain that an extension or termination option will be exercised.
 - Determination of the appropriate rate to discount lease payments.
- j) **Revenue recognition:** the Corporation determines appropriate revenue recognition for its contracts with customers by analyzing the type, terms and conditions of each contract or agreement with a customer.

As part of the analysis, the management must make judgments about whether an agreement or contract is legally enforceable, and whether the agreement includes separate performance obligations. In addition, estimates are required to allocate the total price of the transaction to each performance obligation based on the stand-alone selling price of the promised goods or services underlying each performance obligation. (The Corporation applies the constraint on variable consideration as defined in IFRS 15, if applicable).

- k) **Stripping costs** - Costs incurred in removing mine waste materials (overburden) in open pits that are in production, that provide access to mineral deposits, are recognized in property, plant, and equipment, when the following criteria set out in IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine are met:
 - It is probable that the future economic benefits associated with the stripping activity will flow to the entity.

- It is possible to identify the components of an ore body for which access has been improved because of the stripping activity, and
- The costs relating to that stripping activity can be measured reliably.

The stripping costs are amortized based on the production units of production extracted from the ore body related to the specific stripping activity which generated this amount.

Although the abovementioned estimates have been made based on the best information available as of the date of issuance of these consolidated financial statements, it is possible that new developments could lead the Corporation to modify these estimates in the future. Such modifications, if any, would be adjusted prospectively, recognizing the effects of the change in estimate in future consolidated financial statements, as required by IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors".

On the other hand, the costs of activities for the removal of sterile material during the production stage, whose benefit is realized in the form of produced inventory, must be recognized in accordance with IAS 2.

2. Material accounting policies

a. Period covered - The accompanying consolidated financial statements of Corporación Nacional del Cobre de Chile include the following statements:

- Interim Consolidated Statement of Financial Position as of September 30, 2025 (unaudited) and Consolidated Statement of Financial Position as of December 31, 2024.
- Interim Consolidated Statement of Income (unaudited) for the nine and three-month periods ended September 30, 2025 and 2024.
- Interim Consolidated Statements of Comprehensive Income (unaudited) for nine and the three-month periods ended September 30, 2025 and 2024.
- Interim Consolidated Statements of Changes in Equity (unaudited) for nine-month periods ended September 30, 2025 and 2024.
- Interim Consolidated Statements of Cash Flows (unaudited) for the nine-month periods ended September 30, 2025 and 2024.

b. Basis of preparation - These interim consolidated financial statements (unaudited) of the Corporation as of September 30, 2025 have been prepared in accordance with the instructions of the Commission for the Financial Market which fully comply with International Financial Reporting Standards (IFRS) issued by the IASB.

The consolidated statements of financial position as of December 31, 2024, and the statements of income, equity and cash flows for the nine and three-month period ended September 30, 2024 (unaudited), which are included for comparative purposes, have been prepared in accordance with IFRS as issued by the IASB, on a basis consistent with the basis used for the same period ended September 30, 2025, except for the adoption of new IFRS standards and interpretations adopted by the Corporation as of September 30, 2025, which are disclosed in number 3 "New standards and interpretations adopted by the Corporation" in section II of this report.

These interim consolidated financial statements (unaudited) have been prepared from accounting records held by the Company.

- c. **Functional currency** - The functional currency of Codelco is the U.S. dollar, which is the currency of the primary economic environment in which the Corporation operates and the currency in which it receives its revenues.

The functional currency of subsidiaries, associates, and joint ventures is the currency of the primary economic environment in which those entities operate and the currency in which they receive their revenues. For some subsidiaries and associates that are an extension of the operations of Codelco (entities that are not self-sustaining and whose main transactions are with Codelco); the functional currency is also the U.S. dollar.

The presentation currency of Codelco's interim consolidated financial statements (unaudited) is the U.S. dollar.

- d. **Basis of consolidation** - The financial statements comprise the consolidated statements of the Corporation and its subsidiaries.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Corporation obtains control, and continue to be consolidated until the date such control ceases. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement from the date the Corporation gains control until the date when the Corporation ceases to control the subsidiary.

The annual financial statements of the subsidiaries are prepared for the same reporting period as the Corporation, using consistent accounting policies.

All assets, liabilities, equity, income, expenses, and cash flows related to transactions between consolidated companies are fully eliminated on consolidation. The value of the non-controlling interest of shareholders in equity and in the results of subsidiaries is presented, respectively, as "Non-controlling interests" in the consolidated statement of financial position and "Income (loss) attributable to non-controlling interests" and "Comprehensive income (loss) attributable to non-controlling interests" in the consolidated statements of income.

The following companies have been consolidated:

For the purposes of these interim consolidated financial statements, subsidiaries, associates, acquisitions and disposals are defined as follows:

- **Subsidiaries:** A subsidiary is an entity over which the Corporation has control. Control is exercised if, and only if, the following elements are present: (i) power to govern the operating and financial policies to obtain benefits from their activities; (ii) exposure or rights to the variable returns of these companies; and (iii) ability to use the power to influence the amount of returns.

The Corporation reassesses whether it controls a subsidiary if facts and circumstances indicate that there are changes to one or more of the elements of control listed above.

The interim consolidated financial statements include all assets, liabilities, revenues, expenses, and cash flows of Codelco and its subsidiaries, after eliminating all inter-company balances and transactions.

- **Associates:** An associate is an entity over which Codelco has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the associate but is not control or joint control over those policies.

Codelco's interest ownership in associates is recognized in the consolidated financial statements under the equity method. Under this method, the initial investment is recognized at cost and adjusted thereafter to recognize changes in Codelco's share of the comprehensive income of the associate, less any impairment losses or other changes to the investment in net assets of the associate.

The Corporation adjusts the proportional gains or losses obtained by the associate after acquisition to take into account the effects that may exist in the depreciation of the fair value of the assets considered at the date of acquisition.

- **Acquisitions and disposals:** The result of businesses acquired are incorporated in the consolidated financial statements from the date when control is obtained; the results of businesses sold during the period are included in the consolidated financial statements up to the effective date of disposal. Gains or losses on disposal is the difference between the sale proceeds (net of expenses) and the carrying amount of the net assets attributable to the ownership interest that has been sold (and, where applicable, the associated cumulative translation adjustment).

If control is lost over a subsidiary, the retained ownership interest in the investment will be recognized at its fair value.

At the acquisition date of an investment in a subsidiary, associate or joint venture, any excess of the cost of the investment (consideration transferred) plus the amount of the non-controlling interest in the acquiree plus the fair value of any previously held equity interest in the acquiree, where applicable, over Codelco's share of the net fair value of the identifiable assets and acquired liabilities is recognized as goodwill. Any excess of Codelco's share of the net fair value of the identifiable assets and acquired liabilities over the consideration transferred, after reassessment, is recognized immediately in profit or loss in the period in which the investment is acquired.

- e. **Foreign currency transactions and reporting currency conversion** - Transactions in currencies other than the Corporation's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, foreign currency transactions denominated in foreign currencies are converted at the rates prevailing at that date. Gains and losses due to the effect of foreign currency transactions are included in the consolidated statement of income for the period within "Exchange gains (losses) in foreign currencies".

At the end of the reporting period, monetary assets and liabilities denominated in Unidades de Fomento ("UF") have been denominated in ThUS\$, considering the

exchange rates in effect at the end of each period (9-30-2025: US\$ 41.03; 12-31-2024: US\$ 38.55; 9-30-2024: US\$ 42.23). Expenses and income in local currency have been expressed in dollars at the observed exchange rate, corresponding to the date of the accounting record of each transaction.

The translation of the financial statements of subsidiaries, associates and jointly controlled entities, whose functional currency is different from Codelco's presentation currency, is performed as follows for consolidation purposes:

- Assets and liabilities are converted using the prevailing exchange rate on the reporting date.
- Income and expenses for each statement of income are translated at average exchange rates for the period.
- All resulting exchange differences are recognized in comprehensive income and accumulated in equity under the heading "Reserve on exchange differences on translation".

The exchange rates used in each reporting period were as follows:

Relationship	Closing exchange rates		
	9-30-2025	12-31-2024	9-30-2024
US\$ / CLP	0.00104	0.00100	0.00111
US\$ / GBP	1.34571	1.25345	1.33994
US\$ / BRL	0.18801	0.16189	0.18356
US\$ / EUR	1.17537	1.03896	1.11558
US\$ / AUD	0.66185	0.62212	0.69377
US\$ / HKD	0.12852	0.12880	0.12868
US\$ / RMB	0.14031	0.13672	0.14283

- f. Offsetting balances and transactions** - As a general standard, assets and liabilities, revenue, and expenses, are not offset in the financial statements, except for those cases in which offsetting is required or is allowed by a standard and the presentation reflects the substance of the transaction.

Income or expenses arising from transactions which, for contractual or legal reasons, permit the possibility of offsetting and which the Corporation intends to liquidate for their net value or realize the assets and settle the liabilities simultaneously, are stated net in the statement of income.

- g. Property, plant and equipment and depreciation** - Items of property, plant and equipment are initially recognized at cost. After initial recognition, they are measured at cost, less any accumulated depreciation and any accumulated impairment losses.

The cost of property, plant and equipment includes the costs of expansion, modernization or improvements that represent an increase in productivity, capacity or efficiency, or an increase in the useful life of the assets, and are capitalized as an increase in the cost of the related assets.

The assets included in property, plant and equipment are depreciated, as a general rule, using the units of production method, when the activity performed by the asset is directly attributable to the mine production process. In other cases, a straight-line depreciation criterion is used.

The assets included in property, plant and equipment and certain intangibles (software) are depreciated over their economic useful lives, as described below:

Category	Useful lives
Land	No depreciation
Land on the mine site	Production unit
Buildings	Linear depreciation 20 – 50 years
Buildings in Underground Mine Levels	Level Production Unit
Vehicles	Linear depreciation 3 – 7 years
Plants and Machinery	Production unit
Foundries	Production unit
Refineries	Production unit
Mining Rights	Production unit
Support teams	Production unit
Intangibles - Softwares	Linear depreciation up to 8 years
Open pit and underground development	Production Unit

Estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, and any change in estimates is recognized prospectively.

Additionally, depreciation methods and estimated useful lives of assets, especially plants, facilities and infrastructure may be revised at the end of each year or during the year according to changes in the structure of reserves of the Corporation and productive long-term plans updated as of that date.

This review may be made at any time if the conditions of ore reserves change significantly because of new known information, confirmed, and officially released by the Corporation.

The gain or loss resulting from the disposal or retirement of an asset is calculated as the difference between the price obtained on disposal and the value recorded in the books, recognizing the charge or credit to income for the period.

Construction in progress includes the amounts invested in the construction of property, plant and equipment and in mining development projects. Construction in progress is transferred to assets in operation once the testing period has ended and when they are ready for use; at that point, depreciation begins to be recognized.

Borrowing costs that are directly attributable to the acquisition or construction of assets that require a substantial period before they are ready for use or sale are capitalized as part of the cost of the corresponding items of property, plant, and equipment.

The ore deposits owned by the Corporation are recorded in the accounting records at US\$1. Notwithstanding the above, those reserves and resources acquired as part of

acquisition of entities accounted for as business combinations, are recognized at their fair value.

- h. Intangible assets** - The Corporation initially recognizes these assets at acquisition cost. The cost is amortized systematically over their useful lives, except in the case of assets with indefinite useful lives, which are not amortized, and are assessed for impairment at least once a year and, in any case, whenever there is an indication that impairment may have occurred. At the end of each reporting period, these assets are measured at their cost less any accumulated amortization (when applicable) and any accumulated impairment losses.

The expenditures for the development of Technology and Innovation Projects are recognized as intangible assets at their cost and are considered to have indefinite useful lives. Recognition applies, if and only if, all the following have been demonstrated:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- The intention to complete the intangible asset is to use or sell it;;
- The ability to use or sell the intangible asset;
- That the intangible asset will generate probable future economic benefits;
- The availability of adequate technical, financial, and other resources to complete the development and to use or sell the intangible asset; and
- The disbursement attributable to the intangible asset during its development can be reliably appraised.

Research expenses for technology and innovation projects are recognized in profit or loss when incurred.

- i. Impairment of property, plant and equipment and intangible assets** - Property, plant and equipment and intangible assets with finite useful lives are reviewed for impairment to verify whether there is any indication that the carrying amount may not be recoverable. If such an indication exists, the recoverable amount of the asset is estimated to determine the amount of the impairment to be recorded.

For intangible assets with indefinite useful lives, their recoverable amounts are annually estimated at the end of each reporting period.

When an asset does not generate cash flows that are independent from other assets, Codelco determines the recoverable amount of the CGU to which the asset belongs.

The Corporation has defined each of its divisions as a cash generating unit.

Recoverable amount of an asset is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. On the other hand, the fair value less cost of disposal is usually determined for operational assets considering the Life of Mine ("LOM"), based on a model of discounted cash flows, while the assets not

included in LOM as resources and potential resources to exploit are measured by using a market model of multiples for comparable transactions.

If the recoverable amount of an asset or CGU is estimated to be less than it is carrying amount, an impairment loss is recognized immediately in profit or loss, reducing the carrying amount to its recoverable amount. In the event of a subsequent reversal of the impairment, the carrying amount is increased to the revised estimate of the recoverable amount, but to the extent that it does not exceed the carrying amount that would have been determined had no impairment been previously recognized.

The estimates of future cash flow for a CGU are based on future production forecasts, future prices of basic products and future production costs. Under IAS 36 "Impairment of Assets", there are certain restrictions for future cash flows estimates related to future restructurings and future cost efficiencies. When calculating value in use, it is also necessary to base the calculations on the spot exchange rate at the date of calculation.

- j. Expenditures for exploration and evaluation of mineral resources, mine development and mining operations** - The Corporation has defined an accounting policy for each of these expenditures.

Development expenses for deposits under exploitation whose purpose is to maintain production levels are recognized in profit or loss when incurred.

Exploration and evaluation costs such as: drillings of deposits, including expenses necessary to locate new mineralized areas and engineering studies to determine their potential for commercial exploitation are recognized in profit or loss, normally at the pre-feasibility stage.

Pre-operating and mine development expenses (normally after feasibility engineering is reached) incurred during the execution of a project and until its start-up are capitalized and amortized in relation to the future production of the mine. These costs include stripping of waste material, constructing the mine's infrastructure and other works carried out prior to the production phase.

Finally, costs for defining of new areas or deposit areas in exploitation and of mining operations (PP&E) are recognized in property, plant and equipment and are amortized through profit or loss over the period during which the benefits are obtained.

In accordance with the criteria outlined above, the costs associated with acquired exploration and mining exploitation licenses that are part of a project in the feasibility stage will be classified as property, plant, and equipment. Prior to this stage, these assets will be presented as non-amortizable intangible assets.

- k. Income taxes and deferred taxes** - Codelco and its Chilean subsidiaries recognize annually income taxes based on the net taxable income determined as per the standards established in the Income Tax Law and Article 2 of D.L. 2398, and the Mining Royalty Tax referred to in Law No. 21590. Its foreign subsidiaries recognize income taxes according to the tax regulations of the respective countries.

In addition, Codelco's taxable income in each period is subject to the tax regime established in Article 26 of D.L. No. 1350, and it must pay the encumbrances in March, June, September, and December of each year, based on a provisional tax calculation.

The deferred taxes arising from temporary differences and other events that create differences between the accounting and tax bases of assets and liabilities, are recorded in accordance with the standards established in IAS 12 "Income tax".

Deferred taxes are also recognized for undistributed profits of some subsidiaries and associates, at the remittance tax rate on dividends paid by these companies to the Corporation.

l. Inventories - Inventories are measured at cost when such does not exceed net realizable value. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale (i.e., marketing, sales, and distribution expenses). Costs of inventories are determined according to the following methods:

- **Finished products and products in process:** These inventories are measured at their average production cost determined using the absorption costing method, including labor, depreciation of fixed assets, amortization of intangibles and indirect costs of each period. Inventories of products in process are classified in current and non-current, according to the normal cycle of operation.
- **Materials in warehouse:** These inventories are valued at acquisition cost and the Corporation determines an allowance for obsolescence considering that slow-moving materials in the warehouse remain in stock.
- **Materials in transit:** These inventories are measured at cost incurred at the end of reporting period. Any difference because of an estimate of net realizable value of the inventories lower than its carrying amount is recognized in profit or loss.

m. Dividends - In accordance with Article 6 of D.L. 1350, the Corporation has a mandatory obligation to distribute its net income as presented in the financial statements. The payment obligation is recognized on an accrual basis. (see note 20).

n. Employee benefits - Codelco recognizes a provision for employee benefits when there is a present obligation (legal or constructive) as a result of services rendered by its employees.

The employment contracts stipulate, subject to compliance with certain conditions, the payment of an employee severance indemnity when an employment contract ends. In general, this corresponds to one monthly salary per year of service and considers the components of the final remuneration which are contractually defined as the basis for the indemnity. This employee benefit has been classified as a defined benefit plan.

Codelco has also agreed to post-employment medical care benefits for certain retirees. This employee benefit has been classified as a defined benefit plan.

These plans continue to be unfunded as of September 30, 2025.

The employee severance indemnity and the post-employment medical plan obligations are determined using the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. The defined benefit plan obligations recognized in the statement of financial position represent the present value of the accrued obligations. Actuarial gains and losses are recognized immediately in other comprehensive income and will not be reclassified to profit or loss.

The Corporation's management uses assumptions to determine the best estimate of these benefits. The assumptions include an annual discount rate, expected increases in salaries and turnover rate, among other factors.

In accordance with its operating optimization programs to reduce costs and increase labor productivity by incorporating new current technologies and/or better management practices, the Corporation has established employee retirement programs by amending certain employment contracts or collective union agreements to include benefits encouraging employees to early retire, for which the necessary provisions are made based on the accrued obligation at current value. In case of employee retirement programs which involve multi-year periods, the accrued obligations are updated using a discount rate determined based on financial instruments denominated in the same currency and similar maturities that will be used to pay the obligations.

- o. Provisions for decommissioning and site restoration costs** - The Corporation recognizes a provision for the estimated future costs of decommissioning and restoration of mining projects in development or production when a mining activity causes a disruption under a constructive or legal obligation. Costs are estimated on the basis of a formal closure plan and cost estimates are annually reviewed.

Costs arising from the obligation to dismantle a plant installation or other site preparation work, discounted to their present value, are provided for and capitalized at the beginning of each project or at the origin of the constructive or legal obligation as soon as the obligation to incur such costs arises.

These decommissioning and restoration costs are recorded in income through the depreciation of the asset that gave rise to such cost, and the use of the provision is made when the decommissioning materializes. Subsequent changes in estimates of decommissioning-related liabilities are added to or deducted from the costs of the related assets in the period in which the adjustment is made.

Other restoration costs, outside the scope of IAS 16, Property, Plant and Equipment, are provided for at their present value against operating results and the use of the provision is made in the period in which the restoration work is performed.

The accretion of the discount on a closure liability due to the passage of time is recognized as a finance expense in the statement of income.

- p. Leases** - The Corporation evaluates its contracts at initial application to determine whether they contain a lease. The Corporation recognizes a right-of-use asset and a

corresponding liability for lease with respect to all lease agreements in which Codelco is the lessee, except for short-term leases (defined as a lease with a lease term of twelve months or less) and leases of low-value assets. For these leases, the Corporation recognizes the lease payments as an operating cost on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which the economic benefits of the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that have not been paid at the commencement date, discounted using the interest rate implicit in the lease. If this rate cannot be easily determined, the Corporation uses the incremental borrowing rate.

The incremental rate for loans used by Codelco is determined by estimating the interest rate that the Corporation would have to pay for borrowing the necessary funds to obtain an asset of an equivalent nature similar in value to the right-of-use asset of the respective lease, in a similar economic environment over a similar term.

Lease payments included in the measurement of the lease liability mainly include fixed payments, variable payments that depend on an index or a rate and the exercise price of a purchase option. Variable payments that do not depend on an index or a rate are excluded.

The lease liability is subsequently measured as follows: the carrying amount increased to reflect the interest on the lease liability (using the effective rate method) and the carrying amount is reduced to reflect the lease payments made.

The Corporation revalues the lease liability as to the discount rate (and makes the corresponding adjustments to the asset for respective right of use) through a modified discount rate when:

- There is a change in the term of the lease, or
- There is a change in the assessment of an option to purchase the underlying asset, or
- There is a change in an index or rate which generates a change in cash flows.

Right-of-use assets comprise the amount of the present value of payments not made at the contract inception date, and lease payments made before or up to the inception date, less lease incentives received and any initial direct costs incurred plus other decommissioning and site restoration costs. The right-of-use assets are subsequently measured at cost less accumulated depreciation and accumulated losses due to impairment.

When the Corporation incurs a cost obligation to dismantle or remove a leased asset, restore the location in which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognized and measured in accordance with IAS 37. Costs are included in the corresponding right-of-use asset unless those costs are incurred to produce inventories.

The right-of-use assets are depreciated during the shorter period between the term of the lease and the useful life of the underlying asset. If a lease transfers the ownership of

the underlying asset or the cost of the right-of-use asset reflects that the Corporation expects to exercise its option to purchase, the right-of-use asset is depreciated over the useful life of the underlying asset. Depreciation is made from the start date of the lease.

The Corporation applies IAS 36 to determine if a right-of-use asset is impaired and recognizes any impairment loss identified, as described in the accounting policy for "Property, plant and equipment".

q. Revenue from Contracts with Customers - Revenue is recognized in an amount that reflects the consideration to which the entity expects to be entitled in exchange for transferring goods or services to customers.

- **Sale of mineral goods and / or by-products:** Contracts with customers for the sale of mineral goods and / or by-products include the performance obligation for the delivery of the physical goods and the associated transportation service, at the place agreed with the customers. The Corporation recognizes revenue from the sale of goods when the performance obligation is satisfied according to the shipment or dispatch of the products, in accordance with the agreed conditions, such revenue being subject to variations related to the content and / or sale price at the date of its liquidation. Notwithstanding the foregoing, there are some contracts where the performance obligation is satisfied when there is receipt of the product instead of the buyer's corresponding destination, thus recognizing revenue at the time of said transfer. When services of transport of goods are provided, the Corporation recognizes revenue when the service obligation is satisfied.

Sales that have discounts associated with volume subject to compliance with goals are recognized net, estimating the probability that the volume target will be reached.

Sales contracts include a provisional price at the shipment date. The final price is generally based on the London Metals Exchange ("LME") price. Revenue from sales of copper is measured using estimates of the future spread of metal prices on the LME and/or the spot price at the date of shipment, with subsequent adjustments made upon final pricing recognized as revenue. The terms of sales contracts with customers contain provisional pricing arrangements whereby the selling price for metal concentrate is based on prevailing spot prices on a specified future date after shipment to the customer (the "quotation period"). Consequently, the final price is set at the dates indicated in the contracts. Adjustments to provisional sale prices occur based on movements in quoted market prices on the LME up to the date of final pricing. The period between provisional invoicing and final pricing is typically between one and nine months. Changes in fair value over the quotation period and until final pricing are estimated by reference to forward market prices for applicable metals.

As indicated in the note related to hedging policies in the market of metal derivatives, the Corporation enters into operations in the market of metal derivatives. Gains and losses from those which are fair value hedges contracts are recognized as revenues.

- **Rendering of services:** Additionally, the Corporation recognizes revenue for rendering services, which are mainly related to the processing of minerals bought from third parties. Revenue from rendering of services is recognized when the amounts can be measured reliably and when the services have been provided.
- r. **Derivatives contracts** - Codelco uses derivative financial instruments to reduce the risk of fluctuations in sales prices of its products and of exchange rates.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently measured to their fair value at the end of each reporting period.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated in equity under the item "Cash flow hedge reserve." The gain or loss relating to the ineffective portion is immediately recognized in profit or loss and included in the "Finance cost" or "Finance income" line items, depending on the effect of such ineffectiveness. The amount recognized in comprehensive income is reclassified to income, in the same line in which the effects generated by the hedged item are recorded once the results of the hedged transactions are recorded in the same line or until the maturity date of such transactions.

A hedge is considered highly effective when it meets the requirements of IFRS 9. At the time of discontinuation of the hedge contract or the associated designated accounting and according to the circumstances of each case, the accumulated gain/loss on the derivative instrument remains in equity until the hedge transaction occurs, or if discontinuation is expected to occur, the amount in equity is reclassified to profit or loss.

The total fair value of hedging derivatives is classified as "non-current financial asset or liability", if the remaining maturity of the hedged item is greater than twelve months, and as "current financial asset or liability" if the remaining maturity of the hedged item is less than twelve months.

The derivative contracts held by the Corporation have been entered into to apply the risk hedging policies and are accounted for as indicated below:

- **Hedging policies for exchange rate risk:** The Corporation enters into exchange rate derivatives to hedge exchange rate variations between the U.S. dollar and the currencies of transactions the Corporation undertakes. In accordance with the policies established by the Board of Directors, these hedge transactions are only entered into when there are recognized assets or liabilities, forecasts of highly probable transactions or firm commitments. The Corporation does not enter into derivative transactions for non-hedging purposes.
- **Hedging policies for metal market prices risk:** In accordance with the policies established by the Board of Directors, the Corporation entered into derivative contracts to reduce the inherent risks in the fluctuations of metal prices.

Hedging policies seek to protect expected cash flows from product sales operations by adjusting, when necessary, physical sales contracts to its commercial policy. When the sales commitments are fulfilled and the metal derivative contracts are settled, there is an offset between the results of the sales transactions and the results of hedging using metal derivatives.

Hedging transactions carried out by the Corporation in the metal derivatives market are not undertaken for speculative purposes.

- **Embedded derivatives:** The Corporation has established a procedure that allows for evaluation of the existence of embedded derivatives in financial and non-financial contracts. Where there is an embedded derivative, and the host contract is not a financial instrument and the characteristics and risks of the embedded derivative are not closely related to the host contract, the derivative is required to be recognized separately.
- s. **Segment reporting** - The Corporation has defined its Divisions as its operating segments in accordance with the requirements of IFRS 8, Operating Segments. The mining deposits in operation, where the Corporation conducts its extractive and processing activities are managed by the following Divisions: Chuquicamata, Radomiro Tomic, Ministro Hales, Gabriela Mistral, Salvador, Andina and El Teniente. In addition, the Ventanas Division operates in the refining area. All these Divisions have a separate operational management, which reports to the Chief Executive Officer, through the Vice-President of Operations, respectively. Main revenue and expenses items controlled by the Head Office are allocated to the Divisions.
- t. **Presentation of Financial Statements** - For purposes of IAS 1 Presentation of Financial Statements, the Corporation presents its statement of financial position classified as "current and non-current" and its statements of income "by function" and cash flows using the direct method.
- u. **Current and non-current financial assets** - The Corporation determines the classification of its financial assets at the time of initial recognition and reviews it at each closing date. The classification depends on the business model in which the investments are managed and the contractual characteristics of their cash flows.

The Corporation's financial assets are classified into the following categories:

- **At fair value through profit or loss:**
Initial recognition: This category includes those financial assets that do not qualify in the business model to collect contractual cash flows, nor do such cash flows come exclusively from capital and interest. These instruments are initially recognized at fair value.

Subsequent recognition: Their subsequent recognition is performed at fair value, with any changes in fair value recorded in the Consolidated Statement of Comprehensive Income under the line item "Other gains (losses)."

- **Amortized cost:**

Initial recognition: This category includes those financial assets that qualify in the business model and that are held for the purpose of collecting contractual cash flows and that meet the "Solely Payment of Principal and Interest" (SPPI) criterion. This category includes certain Trade and other current receivables, and the loans included in other non-current financial assets.

Subsequent recognition: These (debt) instruments are subsequently measured at amortized cost using the effective interest method. The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any impairment allowance

Interest income is recognized in profit or loss and is calculated by applying the effective interest rate to the gross carrying amount of a financial asset. For financial assets measured at amortized cost that are not part of a designated hedging relationship, exchange differences are recognized in profit or loss in the "Foreign exchange difference" line item.

- **At fair value through other comprehensive income:**

Initial measurement: Financial assets that meet the criteria "Solely payments of principal and interest" (SPPI) are classified in this category and must be maintained within a business model both to collect the cash flows and to sell the financial assets. These instruments are initially recognized at fair value. In this section, investments in equity instruments are also included.

Subsequent recognition: Their subsequent valuation is at fair value. Interest income calculated using the effective interest rate method, foreign exchange gains and losses, impairment, and dividends are recognized in income. Other net gains and losses are recognized in other comprehensive income. On derecognition, the gains and losses accumulated in comprehensive income while for investments in equity instruments, their reclassification is recorded in retained earnings. Codelco has irrevocably elected to present subsequent changes in the fair value of the investment in equity instruments in other comprehensive income

- v. **Financial liabilities** - Financial liabilities are initially recognized at fair value net of transaction costs. Subsequent to their initial recognition, the valuation of the financial liabilities will depend on their classification, within which the following categories are distinguished:

- **Financial liabilities at fair value through profit or loss:** This category includes financial liabilities defined as held for trading.

Changes in fair value associated with own credit risk are recorded in other comprehensive income unless doing so creates an accounting mismatch.

- **Financial liabilities measured at amortized cost:** This category includes all financial liabilities other than those measured at fair value through profit or loss.

The Corporation includes in this category bonds, obligations and other current payables.

These financial liabilities are measured using the effective interest rate method, recognizing interest expense based on the effective rate.

The method of the effective interest rate corresponds to the method of calculating the amortized cost of a financial liability and the allocation of interest expenses during the corresponding period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate, a shorter period, to the net carrying amount on initial recognition.

Trade and other current payables are financial liabilities that do not explicitly accrue interest and are recognized at their nominal value, which approximates its fair value.

Financial liabilities are derecognized when the liabilities are paid or expire.

- w. Impairment of financial assets** - The Corporation measures the loss allowance at an amount equal to lifetime expected credit losses for certain of its trade receivables. For these, it uses the simplified approach as required under IFRS 9.

The provision matrix is based on the Corporation's historical credit loss experience over the expected life of such trade receivables and is adjusted for forward-looking estimates considering the most relevant macroeconomic factors that affect bad debts.

Other accounts receivable and other financial assets are reviewed using reasonable and sustainable information that is available without cost or disproportionate effort in accordance with IFRS 9 to determine the credit risk of the respective financial assets. A provision for impairment losses on trade receivables and other financial assets is established when there is objective evidence that the amounts due may not be fully recovered.

- x. Statement of cash flows** - The statement of cash flows reflects changes in cash that took place during the period, determined under the direct method. The Corporation has defined the following:
- **Cash flows:** Inflows and outflows of cash or cash equivalents, which are defined as highly liquid investments maturing in less than three months with a low risk of changes in value.
 - **Operating activities:** Are the principal revenue-producing activities of the Corporation and other activities that are not investing or financing activities.
 - **Investing activities:** These are the acquisition and disposal of long-term assets and other investments not included in cash and cash equivalents.
 - **Financing activities:** These are activities that result in changes in the size and composition of net equity and borrowings of the Corporation.

Bank overdrafts are classified as external resources in current liabilities.

- y. **Law No. 13196-** Under this law, the return in foreign currency of sales abroad of the Corporation's actual income from its copper production, including by-products, is taxed at 10%. The amount recognized for this concept is presented in the statement of income within the line item "Other expenses by function". See explanatory note in section III. Note 24 letter c) of this financial statements.
- z. **Cost of sales** - Cost of sales is determined according to the absorption costing method, including the direct and indirect costs, depreciation, amortization and any other expenses directly attributable to the production process.
- aa. **Classification of current and non-current balances** - In the consolidated statement of financial position, the balances are classified according to their maturities, that is, as current for those with a maturity equal to or less than twelve months and as non-current for those with a greater maturity. Where there are obligations whose maturity is less than twelve months, but whose long-term refinancing is insured upon a decision by the Corporation whose intention is to refinance, through credit agreements available unconditionally with long-term maturity, these could be classified as non-current liabilities.

3. New standards and interpretations adopted by the Corporation

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those applied in the preparation of the Corporation's annual consolidated financial statements for the year ended December 31, 2024, except for the adoption of new standards, interpretations and amendments, effective from January 1, 2025, which refer to:

- a) Lack of interchangeability (Amendments to IAS 21). The amendments provide guidance to specify when a currency is interchangeable and how to determine the exchange rate when it is not.

The application of these amendments had no impact on the Corporation's consolidated financial statements but may affect the accounting for future transactions or arrangements.

4. New accounting pronouncements

The following new standards, modifications and interpretations had been issued by the IASB, but their application is not yet mandatory:

New IFRS	Date of mandatory application	Summary
Presentation and disclosures in financial statements IFRS 18.	Applicable for annual periods beginning on or after January 1, 2027.	Not yet approved for use in the EU IFRS 18 includes requirements for all entities applying IFRS for the presentation and disclosure of information in the financial statements.
Subsidiaries without public accountability: Disclosure information IFRS 19.	Applicable for annual periods beginning on or after January 1, 2027.	IFRS 19 specifies the disclosure requirements that a subsidiary may apply instead of the disclosure requirements of other IFRS Accounting Standards.
Amendments to IFRS 9 and IFRS 7 relating to the classification and measurement of financial instruments.	Annual reporting periods beginning on or after January 1, 2026.	Address issues identified during the post-implementation review of the classification and measurement requirements of IFRS 9 Financial Instruments.
Annual Improvements to IFRS Accounting Standards - Volume 11.	Annual reporting periods starting on or after 1 January 2026.	Includes the following amendments: IFRS 1: Hedge accounting by a first-time adopter. IFRS 7: Gain or loss on derecognition. IFRS 7: Disclosure of the deferred difference between fair value and transaction price. IFRS 7: Introduction and disclosures about credit risk. IFRS 9: Derecognition of lessee's lease liabilities. IFRS 9: Transaction price. IFRS 10: Determination of a "de facto agent". IAS 7: Cost method.
Amendments to IFRS 9 and IFRS 7 relating to energy purchase agreements.	Annual reporting periods beginning on or after January 1, 2026.	The amendments are intended to allow entities to include in their financial statement's information that, in the IASB's opinion, more accurately represents contracts that refer to nature-dependent electricity.

Management is currently evaluating the impact of the adoption of these new regulations and modifications. It is not expected to have a significant impact on the consolidated financial statements, with the exception of the application of IFRS 18, which will change the presentation of the Corporation's Consolidated Statements of Income.

III. EXPLANATORY NOTES

1. Cash and cash equivalents

The detail of cash and cash equivalents as of September 30, 2025 and December 31, 2024, is as follows:

Item	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Cash on hand	5,864	114
Bank balances	745,928	447,456
Time Deposits	453,803	219,146
Mutual funds - Money market	19,944	14,104
Total cash and cash equivalents	1,225,539	680,820

Interest on time deposits is recognized on an accrual basis using the contractual interest rate of each of these instruments.

The Corporation does not hold any significant amounts of cash and cash equivalents that have a restriction on use.

Cash and cash equivalents meet the low credit risk exemption under IFRS 9. The classification of time deposits meet the requirements of IAS 7.

2. Trade and other receivables

a) Trade and other receivables

The following table sets forth trade and other receivables balances, with their corresponding expected credit loss provision:

Item	Current		Non-current	
	9-30-2025 ThUS\$	12-31-2024 ThUS\$	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Trade receivables (1)	2,020,377	2,245,617	-	-
Expected Credit Loss provision (3)	(1,428)	(1,596)	-	-
Subtotal trade receivables, net	2,018,949	2,244,021	-	-
Other accounts receivable (2)	476,858	885,367	78,450	79,708
Expected Credit Loss provision (3)	(25,682)	(24,658)	-	-
Other other accounts receivable, net	451,176	860,709	78,450	79,708
Total	2,470,125	3,104,730	78,450	79,708

(1) Trade receivables correspond to the sales of copper and its by-products, those that in general are sold in cash or bank credit notes.

(2) Other receivables mainly consist of the following items

- Remaining tax credit susceptible to refund VAT and other taxes receivable, amounting to ThUS\$228,633 and ThUS\$632,368 as of September 30, 2025 and December 31, 2024, respectively.
- Receivables owed by the Corporation's personnel, for short-term and long-term current loans of ThUS\$83,810 and ThUS\$72,155 respectively (as of December 31,

2024 ThUS\$115,884 and ThUS\$76,932 respectively), both deducted monthly from their salaries. Mortgage loans granted to the Corporation's personnel amounting to ThUS\$23,082 , which are mainly long-term, are with mortgage guarantees (as of December 31, 2024 ThUS\$22,644).

- Advances to suppliers and contractors, to be deducted from the respective payment statements for ThUS\$116,928 and ThUS\$85,767 as of September 30, 2025 and December 31, 2024, respectively.
- As of September 30, 2025, there are no accounts receivable for maquila services to ENAMI (as of December 31, 2024, these services amounted to ThUS\$1,127). Additionally, in order to complement the commercial commitments between Codelco and ENAMI, the Corporation purchases copper concentrate and by-products and sells cathodes to ENAMI. Both Codelco and ENAMI are companies owned by the State of Chile

(3) The Corporation recognizes an expected credit loss provision based on its expected credit loss model.

The reconciliation of changes in the expected credit loss provision, were as follows:

Item	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Opening balance	26,254	28,617
Increases	856	849
Discharges / applications	-	(3,212)
Movement, subtotal	856	(2,363)
Closing balance	27,110	26,254

The balance of past due but not impaired balances is as follows:

Ageing	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Less than 90 days	2,282	3,024
90 days - 1 year	725	2,214
Over 1 year	1,127	946
Total unprovisioned past-due debt	4,134	6,184

b) Accruals for open sales invoices

The Corporation adjusts its revenues and trade receivable balances, based on future copper prices through the recognition of an accrual for open sales invoices.

When future price of copper is lower than the provisional invoicing price, the accrual is presented in the statement of financial position as follows:

- For those customers that have due balances with the Corporation, the accrual is presented as a deduction from the line item trade and other current receivables.
- For those customers that do not have due balances with the Corporation, the accrual is presented in the line item trade and other current payables.

When the future copper price is higher than the provisional invoicing price, the accrual is added to the line item trade and other current receivables.

In accordance with the above, as of September 30, 2025, a debit balance of ThUS\$197,572. As of December 31, 2024, it was a credit balance of ThUS\$139,383.

As of December 31, 2024, a balance of ThUS\$9,379 from the provision for negative unfinalized invoices, associated with customers who do not maintain balances owed to Codelco, was reclassified to the item Trade payables in current liabilities. Added to the balance presented in the item Trade receivables and other accounts receivable, this results in a net negative provision of ThUS\$148,762.

3. Balances and transactions with related parties

a) Transactions with related persons

In accordance with Law on New Corporate Governance, the members of Codelco's Board are, in terms of transactions with related persons, subject to the provisions of Title XVI of Law on Corporations, which sets the requirements regarding transactions with related parties in publicly traded companies and their subsidiaries).

Notwithstanding the foregoing, pursuant to the provisions of the final paragraph of Article 147 b) of Title XVI, which contains exceptions to the approval process for transactions with related parties, the Corporation has established a general policy over customary transactions (which was communicated through a significant event notice to the CMF), that defines customary transactions as those carried out with its related parties in the normal course of business, which contributes to the social interest and are necessary to the normal development of Codelco's activities.

Likewise, consistent with the referred to above standard, the Corporation has implemented as part of its internal regulatory framework, a specific policy dealing with business between related persons and companies with Codelco's executives. Codelco's Corporate Policy No.18 ("CCP No. 18"), the latest version currently in force, was approved by the Chief Executive Officer and the Board of Directors.

Accordingly, Codelco without the authorization required in CCP No. 18 and of the Board of Directors, as required by Law or by the Corporation by-laws, shall not enter into any contracts or agreements involving one or more Directors, its Chief Executive Officer, the members of Division's Managing Committees, Vice-presidents, General Auditor, Division Chief Executive Officers, Advisors of Senior Management, employees who must make recommendations and/or have the authority to award tenders, assignments of purchases and/or contracting goods and services, and employees in management positions (up to fourth hierarchical level in the organization), including their spouses, children and other relatives up to second degree of relation, with a direct interest, represented by third parties or on behalf of another person. Likewise, CCP No. 18 requires administrators of Corporation's contracts to declare all related persons and disqualify himself/herself if any related persons are involved within the field of his/her job responsibilities.

This prohibition also includes the companies in which such administrators are involved through ownership or management, either directly or through representation of other natural persons or legal entities, as well as those individuals who also have ownership or management in those companies.

The Board of Directors has been informed and approved certain transactions as defined in CCP No. 18.

These operations include those shown in the following table, for the total amounts mentioned, which must be executed within the time periods specified in each contract:

b) Key Management of the Corporation

In accordance with the policy established by the Board of Directors and its related regulations, the transactions with the Directors, the Chief Executive Officer, Vice Presidents, Corporate Auditor, the members of the Divisional Management Committees and Divisional General Managers shall be approved by the Board of Directors.

During the nine and three-month periods ended September 30, 2025 and 2024, the members of the Board of Directors have received the following amounts as per diems, salaries and fees:

Name	Taxpayer ID No.	Country	Nature of relationship	Transaction description	1-1-2025	1-1-2024	7-1-2025	7-1-2024
					9-30-2025 Amount ThUS\$	9-30-2024 Amount ThUS\$	9-30-2025 Amount ThUS\$	9-30-2024 Amount ThUS\$

Tamara Agníc Martínez	7.849.807-2	Chile	Director	Directors fee	38	-	22	-

By Decree Law (DL) No. 70, promulgated on February 5, 2024, established the compensation for the Corporation's Directors. The compensation to Board of Director members is as follows:

- The Directors of Codelco will receive a fixed monthly compensation of Ch\$4,413,071 (four million four hundred thirteen thousand seventy-one Chilean pesos) for meeting attendance. The payment of the monthly compensation requires at least one meeting attendance each month.

b. The Chairman of the Board will receive a fixed monthly compensation of Ch\$8,826,140 (eight million eight hundred and twenty-six thousand one hundred and forty Chilean pesos).

c. Each member of the Directors' Committee, whether the one referred to in Article 50 bis) of Law No. 18046 or another established by the Corporation by-laws, will receive a fixed additional monthly compensation of Ch\$1,471,022 (one million four hundred and seventy-one thousand and twenty-two Chilean pesos) for meeting attendance, regardless of the number of committees of which they are members. In addition, the Chairman of the Directors' Committee will receive a fixed monthly compensation of Ch\$2,942,047 (two million nine hundred and forty-two thousand and forty-seven-pesos Chilean pesos).

d. The compensation established in the legal text is effective for a period of two years, as from June 1, 2024, and will not be adjusted during said period.

The salaries and benefits granted to the Corporation's executives are exclusively governed by the Codelco Executive Salaries and Benefits Manual.

On the other hand, the short-term benefits to key management of the Corporation, paid during the nine-month periods ended September 30, 2025 and 2024, amount to ThUS\$10,700 and ThUS\$8,694 respectively.

During the nine-month periods ended September 30, 2025 and 2024, severance payments and other payments associated with the retirement of Codelco's senior executives were ThUS\$1,284 and ThUS\$1,302, respectively.

There were no payments for other non-current benefits during the nine-month ended September 30, 2025 and 2024, other than those mentioned in the preceding paragraph.

There are no share-based payment plans.

c) Transactions with companies in which Codelco has ownership interest

The Corporation undertakes commercial and financial transactions that are necessary for its activities with its subsidiaries, associates and joint ventures ("related parties"). The financial transactions correspond mainly to loans granted (mercantile current accounts).

Commercial transactions with related companies mainly consist of purchases/sales of products or rendering of services carried out under market conditions and prices, which do not bear any interest or indexation.

The Corporation does not make expected credit loss provision accounts on the main items receivable from its related companies since these have been subscribed with the relevant safeguards in the respective debt agreements.

The detail of accounts receivable and payable between the Corporation and its related parties as of September 30, 2025 and December 31, 2024 is as follows:

Accounts receivable from related entities:

Taxpayer ID No.	Name	Country of origin	Nature of relationship	Currency of readjustment	Current		Non-current

d) Additional information

The purchase/sales of products transactions with Anglo American Sur S.A., are regular business activity transactions to buy/sell copper and other products. On the other hand, there are certain transactions related to the contract entered into with the subsidiary Inversiones Mineras Nueva Acrux SpA (whose non-controlling shareholder is Mitsui) and Anglo American Sur S.A., under which the latter agreed to sell a portion of its annual copper output to said subsidiary.

4. Inventories

Inventories as of September 30, 2025 and December 31, 2024 are detailed as follows:

Item	Current		Non-current	
	9-30-2025 ThUS\$	12-31-2024 ThUS\$	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Finished products	406,228	276,474	-	-
Subtotal finished products, net	406,228	276,474	-	-
Products in process	1,448,866	1,378,734	572,495	536,157
Subtotal products in process, net	1,448,866	1,378,734	572,495	536,157
Materials in warehouse and others	988,780	954,664	-	-
Adjustment for obsolescence provision	(193,705)	(175,195)	-	-
Subtotal materials in warehouse and other, net	795,075	779,469	-	-
Total inventories	2,650,169	2,434,677	572,495	536,157

Inventories recognized in cost of sales during the nine-month periods ended September 30, 2025 and 2024, correspond to finished products and amount to ThUS\$9,792,218 and ThUS\$9,217,249, respectively, which do not consider the cost of processing services of ThUS\$5,537 and ThUS\$14,186, respectively.

During the nine-month periods ended September 30, 2025, US\$45,416 was reclassified from the inventory item for strategic inventories to the property, plant and equipment item. (ThUS\$91,280 as of December 31, 2024).

The reconciliation of changes in the allowance for obsolescence is detailed below:

Movimiento obsolescence provisión	9-30-2025	12-31-2024
	ThUS\$	ThUS\$
Opening balance	(175,195)	(178,191)
(Increase) decrease in provision	(18,510)	2,996
Closing balance	(193,705)	(175,195)

During the nine-month periods ended September 30, 2025 and 2024, inventory adjustments of ThUS\$10,606 and ThUS\$6,852 respectively.

As of September 30, 2025, the net realizable value provision for copper was ThUS\$9,402 with a positive effect on results due to the decrease of the provision amounting to ThUS\$17,201 (positive result of ThUS\$14,778 in 2024). As of December 31, 2024, the balance of the net realizable value provision was ThUS\$26,603.

During the nine-month periods ended September 30, 2025 and 2024, there are no unrealized gains or losses recognized for purchase and sale transactions of inventories with related parties.

As of September 30, 2025 and December 31, 2024, there are no inventories pledged as security for liabilities.

5. Income taxes and deferred taxes

a) Deferred tax assets and liabilities

Deferred taxes are presented in the Statement of Financial Position as follows:

Deferred taxes	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Non-current assets	113,023	102,936
Non-current liabilities	8,972,383	8,716,220
Total deferred taxes, net	8,859,360	8,613,284

The following table shows the deferred tax opening, net, classified as assets or liabilities according to the nature of the temporary differences:

Deferred tax assets	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Provisions	1,528,654	1,693,400
Tax loss	621,968	662,989
Contracts for the right to use assets	21,850	126
Other	7,743	7,245
Total deferred tax assets	2,180,215	2,363,760

Deferred tax liabilities	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Accelerated depreciation	8,432,140	8,457,491
Change in property, plant and equipment	1,696,388	1,603,666
Tax on mining activity	689,601	646,735
Fair value of acquired mineral claims	168,988	168,988
Deferred income taxes of subsidiaries	29,653	26,585
Financial assets measured at fair value through other comprehensive income	(11,050)	38,443
Valuation of severance indemnities	33,855	33,593
Others	-	1,543
Total deferred tax liabilities	11,039,575	10,977,044

b) The effect of deferred taxes recognized in comprehensive income is detailed as follows:

Deferred taxes that affected comprehensive income	9-30-2025 ThUS\$	9-30-2024 ThUS\$
Defined benefit plans	(1,901)	(685)
Cash flow hedge	36,537	11,234

TOTAL INCOME TAX				(101,535)	(167,765)	(115,532)	(384,832)

For the calculation of deferred tax, the Corporation has applied the following taxes rates:

- Income Tax, the Corporation has applied a rate of 25% to calculate deferred income tax and first category income tax. As a state company, the Corporation is classified as those companies of article 14 letter G of the Income Tax Law, incorporated in the Tax Reform Law No. 21210 of February 24, 2020, maintaining the General Regime of Taxation. Meanwhile, the national subsidiaries and associates, by default, have applied the Partially Integrated taxation system with a rate of 27% for both years. Foreign subsidiaries and associates have applied the tax rates in force in their respective countries.
- Additional rate of 40%. Article 2 of Decree Law 2398 establishes an additional 40% income tax rate on the Corporation's taxable income plus the share of retained earnings of companies not organized as corporations or joint stock companies and the dividends actually received from the latter.
- Mining Taxes On August 10, 2023, Law No. 21591 on Mining Royalty was published in the Official Gazette, effective as of January 1, 2024. The law establishes that the mining royalty tax is comprised of two components: The ad valorem component and the mining margin component. The ad valorem component corresponds to 1% of copper sales and applies to miners whose copper sales represent more than 50% of total sales. The mining margin component applies a rate of between 8% and 26% on mining operating margins in the range of 20% to 80%.

Codelco has recognized in its third quarter financial statements the following effects for each component of the Mining Royalty:

- Mining Margin Component: During the nine-month period ended September 30, 2025, an expense of ThUS\$149,023, was determined, which is presented in income tax expense in the income statement, of which ThUS\$42,659 corresponds to the effect of deferred taxes.
- Ad Valorem Component: For the nine-month period ending September 30, 2025, an expense of ThUS\$90,856, was determined, which is presented in other expenses by function in the income statement (see note 24, letter b).

6. Current tax assets and liabilities

The current tax balance is presented net of monthly provisional payments as an asset or liability in Current Taxes determined as indicated in section II. Main accounting policies, 2.k):

Current tax assets	9-30-2025	12-31-2024
	ThUS\$	ThUS\$
Recoverable taxes	2,331	1,814
Total current tax assets	2,331	1,814

Current tax liabilities	9-30-2025	12-31-2024
	ThUS\$	ThUS\$
PPM payable	21,823	14,347
Tax provision	7,225	7,552
Total current tax liabilities	29,048	21,899

Non-current tax assets	9-30-2025	12-31-2024
	ThUS\$	ThUS\$
Non-current tax assets ⁽¹⁾	765,158	788,357
Total non-current tax assets	765,158	788,357

- (1) Non-current tax assets correspond to tax credit balances that the entity expects to recover in future fiscal periods. These assets include tax credits, prepaid taxes, and other recoverable balances from the tax authority, whose realization is not expected to occur in the short term.

7. Property, plant and equipment

- a) The items of property, plant and equipment as of September 30, 2025 and December 31, 2024, are as follows:

- c) The balance of construction in progress is directly associated with the operating activities of the Corporation and relates to the acquisition of equipment for projects in construction and associated costs for their completion.
- d) The Corporation has signed insurance policies to cover the possible risks to which the various property, plant and equipment items are subject, as well as the possible claims that may arise for the period of its activities. Such policies sufficiently cover the risks to which they are subject in Management's opinion.
- e) Capitalized interest costs for the nine-month periods ended September 30, 2025 and 2024, amounted to ThUS\$328,462 and ThUS\$241,425, respectively. The annual capitalization rate was 5.08% and 4.95% at September 30, 2025 and 2024, respectively.
- f) Expenses on exploration and drilling of deposits recognized in profit or loss and the cash outflows disbursed for the same concepts are presented in the following table:

Expenditure on exploration and drilling reservoirs	1-1-2025	1-1-2024
	9-30-2025	9-30-2024
	ThUS\$	ThUS\$
Net income for the period	92,916	54,976
Cash outflows disbursed	73,781	55,394

- g) The detail of "Other assets" under "Property, plant and equipment" is as follows:

Other assets, net	9-30-2025	12-31-2024
	ThUS\$	ThUS\$
White Project Assets (1)	234,814	234,814
Maintenances and other major repairs	52,578	106,621
Other Assets - Calama Plan	7	4,805
Other	8,861	9,388
Other assets, net	296,260	355,628

- (1) Corresponds to the assets acquired in the purchase of the company Lithium Power International Limited in 2024. The value assigned to such assets was determined based on the consideration paid in the purchase transaction, plus transaction costs.

As of September 30, 2025 and December 31, 2024, the costs of acquired exploration and mining exploitation licenses that are part of a project in a pre-feasibility stage are presented under the category of Intangible Assets.

- h) The Corporation currently has no ownership restrictions relating to assets belonging to Property, plant and equipment, except for leased assets whose legal title corresponds to the lessor.
- i) Codelco has not pledged property, plant and equipment as collateral for debt obligations.

8. Leases

8.1 Right-of-use assets

As of September 30, 2025 and December 31, 2024, the breakdown of the right of use asset category is:

Detail	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Right-of-use assets, gross	1,167,463	954,168
Right-of-use assets, accumulated depreciation	723,994	575,719
Total right-of-use assets, net	443,469	378,449

Movements during the nine-month ended September 30, 2025 and year ended December 31, 2024 are as follows:

Reconciliation of changes in Right-of-use Assets	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Opening balance	378,449	390,756
Increases	215,333	158,078
Depreciation	(148,058)	(169,051)
Increase (decrease) due to other changes	(1,781)	(1,333)
Retirements, right-of-use assets	(474)	(1)
Total movements	65,020	(12,307)
Closing balance	443,469	378,449

The composition by asset class is as follows:

Right-of-use assets, net, by asset class	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Buildings	4,272	4,714
Land	192	253
Plant and equipment	185,333	153,979
Fixtures and fittings	6,322	8,031
Motor vehicles	210,631	184,730
Right-of-use assets	36,719	26,742
Total	443,469	378,449

8.2 Liabilities for current and non-current leases

As of September 30, 2025 and December 31, 2024, the payment commitments for leasing operations are summarized in the following table:

Lease Current and Non-current	9-30-2025			12-31-2024		
	Gross ThUS\$	Interest ThUS\$	Net ThUS\$	Gross ThUS\$	Interest ThUS\$	Net ThUS\$
up to 90 days	63,996	(5,665)	58,331	50,766	(4,896)	45,870
more than 90 days up to 1 year	139,556	(13,069)	126,487	105,961	(11,893)	94,068
more than 1 year up to 2 years	114,341	(10,336)	104,005	97,214	(10,104)	87,110
over 2 years up to 3 years	54,923	(5,776)	49,147	48,982	(5,904)	43,078
over 3 years up to 4 years	34,834	(3,388)	31,446	30,791	(3,650)	27,141
over 4 years up to 5 years	21,203	(2,506)	18,697	19,569	(2,564)	17,005
more than 5 years	76,321	(13,603)	62,718	63,317	(6,213)	57,104
Total	505,174	(54,343)	450,831	416,600	(45,224)	371,376

Leasing operations are generated by service contracts, mainly for motor vehicles, plants and equipment and facilities.

The expense related to short-term leases, low-value assets and variable leases not included in the measurement of lease liabilities, during the nine-month ended September 30, 2025 and 2024, is presented in the following table:

Lease expense	1-1-2025	1-1-2024
	9-30-2025 ThUS\$	9-30-2024 ThUS\$
Short-term leases	14,046	13,188
Low value assets	5,505	5,643
Variable leases not included in the measurement of lease liabilities	710,933	699,313
TOTAL	730,484	718,144

9. Intangible Assets other than goodwill

a) The composition of intangible assets other than goodwill is presented below:

Composition of intangible assets	9-30-2025	12-31-2024
	ThUS\$	ThUS\$
Intangible assets with defined useful life, net	38,319	38,889
Intangible assets with indefinite useful life	260,460	260,460
Total	298,779	299,349

b) Statement of Balances:

Intangible Assets	9-30-2025			12-31-2024

a) Associates

Nuevo Cobre S.A.

On November 8, 2023 the strategic association between Codelco and Nuevo Cobre S.A. (Former Agua de la Falda S.A.) was formalized, where the company changes its corporate name.

As of September 30, 2025, Codelco holds a 42.26% ownership interest in Nuevo Cobre S.A, with the remaining 57.74% owned by Minera Rio Tinto.

The corporate purpose of this company is to exploit deposits of copper and other minerals, in the Atacama region of Chile.

Sociedad Contractual Minera El Abra

Sociedad Contractual Minera El Abra was incorporated in 1994. As of September 30, 2025, Codelco holds a 49% ownership interest, with the remaining 51% owned by Cyprus El Abra Corporation, a subsidiary of Freeport-McMoRan Copper & Gold Inc.

The company business activities involve the extraction, production and selling of copper cathodes.

Sociedad Contractual Minera Purén

As of September 30, 2025, Codelco holds a 35% ownership interest, with the remaining 65% owned by Compañía Minera Mantos de Oro.

This company's corporate purpose is to explore, identify, survey, investigate, develop and exploit mining deposits in order to extract, produce and process minerals.

Inca de Oro S.A.

On June 1, 2009, Codelco's Board of Directors approved the incorporation of a new company aimed at conducting studies to enable the continuation of the Inca de Oro Project, with Codelco holding 100% ownership of the shares.

As of September 30, 2025, Codelco holds a 30.60% ownership interest in Inca de Oro S.A. (PanAust IDO Ltda. holds the remaining 69.40%).

Planta Recuperadora de Metales SpA.

On December 3, 2012, Planta Recuperadora Metales SpA was incorporated by Codelco, which held a 100% ownership interest in this company.

In 2014, LS-Nikko Copper Inc. was incorporated into the ownership of this company

As of September 30, 2025, Codelco holds a 34% interest in the capital stock of Planta Recuperadora de Metales SpA, with control remaining with LS-Nikko Copper Inc. based on the elements of control described in the shareholders' agreement.

The principal business activity of the company is the processing of intermediate products of the refining and processing of copper and other metals aiming to recover copper, other metals and other sub products, their transformation to commercial products and the selling and distribution of all classes of goods or inputs derived from such process.

Anglo American Sur S.A.

The principal activities of the Company are the exploration, extraction, exploitation, production, processing and trading of minerals, concentrates, precipitates, copper bars and all metallic and non-metallic minerals, all fossil substances and liquid and gaseous hydrocarbons. This includes the exploration, exploitation and use of all natural energy sources capable of industrial use and the products or by-products obtained, as well as any other related, connected or complementary activities on which the shareholders agree.

As of September 30, 2025, the control of Anglo American Sur S.A. is held by Inversiones Anglo American Sur S.A. with 50.06%, while one of the companies that make up the non-controlling interest is Inversiones Mineras Becrux SpA., which is controlled by Codelco with a 67.80% shareholding, and exercises significant influence over Anglo American Sur S.A. with 29.5%.

On August 24, 2012, Codelco recognized the acquisition of ownership interest in Anglo American Sur S.A. which resulted in the initial recognition of the cost of the investment for ThUS\$6,490,000 that corresponded to the proportionate share (29.5%) of the net fair value of the identifiable assets and liabilities acquired.

In determining the share of the fair value of the identifiable assets and liabilities acquired, the Corporation considered the resources and mineral reserves that could be measured reliably.

Subsequent to its initial recognition, the value of this investment was adjusted due to an impairment loss recorded as of December 31, 2015 and December 31, 2023, in accordance with IAS 36.

Following the adjustments mentioned in the previous paragraph, as of September 30, 2025 and December 31, 2024, no indicators were identified that would require test for additional impairments on the recoverable amount of the investment held in Anglo American Sur S.A.

On September 16, 2025, Codelco and Anglo American signed a definitive agreement to develop a Joint Mining Plan for the Andina and Los Bronces copper operations, as committed to in the Memorandum of Understanding announced in February 2025. This agreement will be valid for 21 years starting in 2030.

Kairos S.A.

As of September 30, 2025, the control of the company lies in Honeywell Chile S.A. which owns 60% of the shares while Codelco owns the remaining 40%.

The purpose of the company is to provide automation and control services for industrial and mining activities and to provide technology and software licenses.

The following tables present the assets and liabilities as of September 30, 2025 and December 31, 2024 of investments in associates, as well as their respective results during

the nine and three-month ended September 30, 2025 and 2024 and the main movements in investments as of that date.

b) Additional information on unrealized profits

Codelco carries out copper purchase and sale operations with Sociedad Contractual Minera El Abra. As of September 30, 2025 and December 31, 2024, the value of finished products under the Inventories caption did not present balances for unrealized profit provision.

As of September 30, 2025 and December 31, 2024, the Corporation maintains a balance for unrealized profits from the purchase of LNG terminal rights of use from Sociedad Contractual Minera El Abra for ThUS\$1,838 and ThUS\$1,960 respectively.

c) Share of profit or loss for the period

The income before taxes, corresponding to the proportion of Anglo American Sur S.A. results recognized for the period ended September 30, 2025, was a profit of ThUS\$32,155 (utility of ThUS\$41,595 for the period ended September 30, 2024). There were no adjustments to said income for the period ended September 30, 2025 and 2024, associated with the fair value of the net assets of this company recognized at the acquisition date, whether due to depreciation, write-offs or other types of adjustments.

11. Subsidiaries

The following tables set forth a detail of assets, liabilities and profit (loss) of the Corporation's subsidiaries, prior to consolidation adjustments:

Assets and liabilities	9-30-2025	12-31-2024
	ThUS\$	ThUS\$
Current assets	510,618	410,797
Non-current assets	3,130,615	3,025,522
Current liabilities	354,905	231,963
Non-current liabilities	629,256	597,111

Profit (loss)	1-1-2025	1-1-2024	7-1-2025	7-1-2024

	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Income	1,179,643	942,050	449,677	258,559
Ordinary expenses and other	(1,168,974)	(918,499)	(436,684)	(275,535)
Profit (Loss) for the period	10,669	23,551	12,993	(16,976)

12. Other non-current financial assets

As of September 30, 2025 and December 31, 2024, the composition of other non-current financial assets is as follows:

Other financial assets, non-current	9-30-2025	12-31-2024
	ThUS\$	ThUS\$
Investment Quebrada Blanca S.A. (1)	503,000	579,127
Investment in shares	1,052	1,012
Other derivatives	3,271	4,136
Other	2,894	3,486
Total	510,217	587,761

- (1) On September 5, 2024, the acquisition of the preferred series B shares held by ENAMI in Compañía Minera Teck Quebrada Blanca S.A. was completed for a total consideration of ThUS\$520,000. As of December 31, 2024, the valuation of this asset was updated to ThUS\$579,127. This increase was recognized within the other comprehensive income, net of its respective deferred taxes, totaling a net increase of ThUS\$20,694.

As of September 30, 2025, the fair value of the investment amounted to ThUS\$503,000. The change in the fair value was recognized in other comprehensive income, net of the corresponding deferred tax liability of ThUS\$26,644.

The Corporation used the discounted cash flow model to estimate the cash projections from distributions to the preferred Series B, based on the Life of Mine. These projections consider production estimates, operating costs, and capital costs as of the acquisition date, along with other market estimates such as mineral prices and a discount rate ranging between 7% and 9%. Additionally, resources not included in the plan, as well as potential resources to be explored, have been valued separately using a market model.

13. Current and non-current financial assets

Current and non-current financial assets included in the statement of financial position are as follows:

Classification in statement of financial position	9-30-2025					
	At fair value through profit or loss	At fair value through other comprehensive income	Amortized cost	Hedging derivatives Metal futures contracts	Cross currency swap	Total financial assets
	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Cash and cash equivalents	19,944	-	1,205,595	-	-	1,225,539
Trade and other current receivable	2,368,730	-	101,395	-	-	2,470,125
Non - current receivable	-	-	78,450	-	-	78,450
Current receivable from relates entities	-	-	7,802	-	-	7,802

TOTAL	1,723,326	579,127	2,279,900	169	64,006	4,646,528

- Fair value through profit or loss: As of September 30, 2025 and December 31, 2024, this category includes unfinished product sales invoices. Section II.2.q.
- Fair value through comprehensive income: This category includes investments in equity instruments (see note 12).
- Amortized cost: It corresponds to financial assets held within a business model whose objective is to hold financial assets to collect contractual cash flows that are solely payments of principal and interest on the principal outstanding. These assets are not quoted in an active market.

The effects on profit or loss recognized for these assets are mainly from financial income and exchange differences from balances denominated in currencies other than the functional currency.

No material impairments were recognized in trade and other receivables.

- Derivatives for Hedging: Corresponds to the balance for changes in the fair value of derivative contracts to cover existing transactions (cash flow hedges) and that affect profit or loss when transactions are settled or when, to the extent required by

accounting standards, a compensation effect is charged (credited) to the income statement. The detail of derivative hedging transactions is included in the Note 30.

As of September 30, 2025 and December 31, 2024 there were no reclassifications between the different categories of financial instruments.

14. Other financial liabilities

Other financial liabilities consist of loans with financial institutions and bond issuance obligations, which are recorded by the Corporation at amortized cost using the effective interest rate method.

The following tables set forth other current/non-current financial liabilities:

Items	9-30-2025

- (1) The financial costs presented in the statement of income include the capitalization of interest, which as of September 30, 2025 and 2024 amount to US\$ 328,462 and US\$ 241,425, respectively.

15. Fair Value of financial assets and liabilities

The fair value of financial assets other than equity instruments approximates their carrying value. Regarding equity instruments, see note 16.

Regarding financial liabilities, the following table shows a comparison as of September 30, 2025 and December 31, 2024 between the carrying amount and the fair value of financial liabilities other than those whose carrying amount is a reasonable approximation of fair value:

Financial liabilities:	Bond obligations		
Comparison book value vs fair value as of:	Accounting treatment for valuation	Book value ThUS\$	Fair value ThUS\$
September 30, 2025	Amortized cost	20,977,225	24,027,270
December 31, 2024	Amortized cost	20,243,130	17,375,235

16. Market value hierarchy for items at market value

Each of the market values calculated for the Corporation's portfolio of financial instruments is supported by a calculation methodology and data inputs. An analysis of each of these methodologies has been carried out to determine to which of the following levels they can be assigned:

- Level 1 corresponds to fair value measurement methodologies using market shares (unadjusted) in active markets to which the Corporation has access at the measurement date and considering identical Assets and Liabilities.
- Level 2 corresponds to fair value measurement methodologies using quoted market price data, not included in Level 1, that are observable for the Assets and Liabilities measured, either directly (prices) or indirectly (derived from prices). For hybrid contracts without finalized price: sales of metals with provisional prices for the period are adjusted to the market price at the end of the period. Gains and losses arising from the market valuation of open sales are recognized through adjustments to revenue in the income statement and to trade accounts receivable in the balance sheet. The forward prices at the end of the period are used for the sales of copper. These forward prices are quoted market prices on the LME. For currency swaps: they are valued using a discounted cash flow analysis valuation model that includes observable credit spreads and using the yield curve applicable over the life of the instruments.
- Level 3 corresponds to fair value measurement methodologies using valuation techniques that include data on the Assets and Liabilities valued, which are not based on significant observable market data.

Based on the methodologies, inputs, and definitions described above, the following market levels have been determined for the Corporation's portfolio of financial instruments held as of September 30, 2025 and December 31, 2024:

Financial assets and liabilities at fair value classified by hierarchy	9-30-2025			
	Level 1 ThUS\$	Level 2 ThUS\$	Level 3 ThUS\$	Total ThUS\$
Financial assets:				
Hybrid contracts with non-finalized price	-	2,368,730	-	2,368,730
Cross currency swap	-	14,172	-	14,172
Mutual funds shares	19,944	-	-	19,944
Metal futures contracts	-	17	-	17
Investment in equity instruments	-	-	503,000	503,000
Financial liabilities:				
Metal futures contracts	-	74,701	-	74,701
Cross currency swap	-	4,613	-	4,613

Financial assets and liabilities at fair value classified by hierarchy	12-31-2024			
	Level 1 ThUS\$	Level 2 ThUS\$	Level 3 ThUS\$	Total ThUS\$
Financial assets:				
Hybrid contracts with non-finalized price	-	1,709,222	-	1,709,222
Cross currency swap	-	64,006	-	64,006
Mutual funds shares	14,104	-	-	14,104
Metal futures contracts	-	169	-	169
Investment in equity instruments	-	-	579,127	579,127
Financial liabilities:				
Metal futures contracts	-	26,200	-	26,200
Cross currency swap	-	18,228	-	18,228

No transfers were made between the different levels of the market hierarchy for the reporting period.

17. Trade and other accounts payable

- a) Details of trade accounts payable, sundry accounts payable and other current accounts payable are shown in the following table:

Item	Current Liabilities	
	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Trade creditors	1,624,349	1,527,544
Payables to employees	24,081	28,814
Withholdings	159,447	105,980
Withholding taxes	23,554	74,126
Other accounts payable	106,844	74,702
Total	1,938,275	1,811,166

Trade creditors mainly include operating accounts payable, and obligations associated with investment projects.

- b) The following is a schedule of maturities of payments to trade creditors as of September 30, 2025 and December 31, 2024:

Creditors with current due date	As of September 30, 2025 Amounts according to payment terms						Total ThUS\$
	Up to 30 days ThUS\$	31 - 60 ThUS\$	61 - 90 ThUS\$	91 - 120 ThUS\$	121 - 365 ThUS\$	366 and over ThUS\$	
Goods	213,319	351	164	3	53	-	213,890
Services	1,260,046	8,068	247	4,751	80	-	1,273,192
Other	26,275	-	-	-	-	-	26,275
Total	1,499,640	8,419	411	4,754	133	-	1,513,357

Suppliers with overdue payments	As of September 30, 2025 Amounts according to payment terms						Total ThUS\$
	Up to 30 days ThUS\$	31 - 60 ThUS\$	61 - 90 ThUS\$	91 - 120 ThUS\$	121 - 365 ThUS\$	366 and over ThUS\$	
Goods	35,901	410	1,538	290	708	2,858	41,705
Services	36,278	5,175	1,962	1,048	3,117	1,179	48,759
Other	657	7,988	117	317	595	10,854	20,528
Total	72,836	13,573	3,617	1,655	4,420	14,891	110,992

Creditors with current due date	As of December 31, 2024 Amounts according to payment terms						Total ThUS\$
	Up to 30 days ThUS\$	31 - 60 ThUS\$	61 - 90 ThUS\$	91 - 120 ThUS\$	121 - 365 ThUS\$	366 and over ThUS\$	
Goods	543,344	252	142	3	74	-	543,815
Services	890,746	8,853	213	5	110	-	899,927
Other	26,520	3	-	-	-	-	26,523
Total	1,460,610	9,108	355	8	184	-	1,470,265

Suppliers with overdue payments	As of December 31, 2024 Amounts according to payment terms						Total ThUS\$
	Up to 30 days ThUS\$	31 - 60 ThUS\$	61 - 90 ThUS\$	91 - 120 ThUS\$	121 - 365 ThUS\$	366 and over ThUS\$	
Goods	33,362	776	283	152	522	4,772	39,867
Services	4,540	3,854	1,450	1,053	1,475	1,341	13,713
Other	26	4	4	1	4	3,660	3,699
Total	37,928	4,634	1,737	1,206	2,001	9,773	57,279

18. Other provisions

The detail of other current and non-current provisions at the dates mentioned is as follows:

Other provisions	Current		Non-current	
	9-30-2025 ThUS\$	12-31-2024 ThUS\$	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Operating (1)	688,729	677,436	-	-
Marketing (2)	52,545	45,772	-	-
Law No. 13196	112,068	1,175	-	-
Other provisions	49,739	41,087	5,542	553
Closure, decommissioning and restoration (3)	-	-	2,132,799	2,182,184
Legal proceedings	-	-	52,111	49,907
Total	903,081	765,470	2,190,452	2,232,644

(1) Corresponds to provisions for purchases and services relating to the operation, not invoiced at the end of the period.

(2) Corresponds to provisions related to sales, which consider freight, stowage and unstowage expenses.

(3) Corresponds to provisions for future closure costs related mainly to tailings dams, closure of mine sites and other assets. This cost value is calculated at discounted present value, using cash flows relating to plans with an evaluation horizon ranging from 10 to 60 years. The rates used to discount future cash flows are calculated based on the Life of Mine "LOM" of each of the operations, distinguishing rates in UF for those obligations in Chilean pesos and rates in U.S. dollars for those obligations in U.S. dollars. These discount rates include the risks associated to the liability being determined, except for those included in the cash flows.

Below is a table with the discount rates used:

Division	9-30-2025		12-31-2024	
	Local Currency Rate	Dollar Currency Rate	Local Currency Rate	Dollar Currency Rate
Gabriela Mistral	2.41%	2.74%	2.42%	3.27%
Andina	2.55%	3.49%	2.04%	3.50%
Ministro Hales	2.55%	3.49%	2.14%	3.50%
Chuquicamata	2.72%	3.69%	2.20%	3.61%
Radomiro Tomic	2.68%	3.60%	2.20%	3.58%
Salvador	2.72%	3.69%	2.20%	3.61%
Teniente	2.84%	3.94%	2.20%	3.72%
Ventanas	2.84%	3.94%	2.20%	3.72%

The Corporation determines and recognizes this liability in accordance with the accounting policy described in Note 2, letter o) of section II on Significant Accounting Policies.

The movement in Other provisions, non-current was as follows:

Movements	1-1-2025 9-30-2025				1-1-2024 12-31-2024			
	Other Provisions, non-current	Provision for site closure	Contingencies	Total	Other Provisions, non-current	Provision for site closure	Contingencies	Total
	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Opening balance	553	2,182,184	49,907	2,232,644	617	2,259,251	72,775	2,332,643
Closing provision adjustment	-	(169,976)	-	(169,976)	-	(4,992)	-	(4,992)
Financial expenses	-	47,559	-	47,559	-	60,459	-	60,459
Payment of liabilities	-	-	(3,366)	(3,366)	-	-	(6,061)	(6,061)
Exchange rate difference	2	79,458	2,016	81,476	(14)	(116,483)	(8,568)	(125,065)
Other increases (decreases)	4,987	(6,426)	3,554	2,115	(50)	(16,051)	(8,239)	(24,340)
Closing balance	5,542	2,132,799	52,111	2,190,452	553	2,182,184	49,907	2,232,644

19. Employee benefits

a) Provisions for post-employment benefits and other long-term benefits

Provision for post-employment benefits mainly corresponds to employee severance indemnities and medical care plans. The provision for severance indemnities recognizes the contractual obligation that the Corporation has with its employees/retirees. The provision for medical care plans recognizes the contractual obligation that the Corporation has with its retirees to cover their medical care costs. Both benefits operate within the regulatory framework set forth in the collective bargaining or other agreements between the Corporation and its employees.

These provisions are recorded in the statement of financial position at the present value of the estimated future obligations. The discount rate used is determined based on the rate of financial instruments corresponding to the same currency in which the obligations will be paid and with similar maturities.

The defined benefit obligations are denominated in Chilean pesos; therefore the Corporation is exposed to foreign exchange rate risk.

The results arising from adjustments and changes in actuarial variables are charged or credited to the statement of comprehensive income for the period in which they occur.

During the nine-month periods ended September 30, 2025, there were no relevant modifications to the post-employment benefit plans.

The following actuarial assumptions were used in the actuarial calculation of the defined benefit plans:

Assumptions	9-30-2025		12-31-2024	
	Retirement plan	Health plan	Retirement plan	Health plan
Annual nominal discount rate	5.21%	5.21%	5.21%	5.21%
Voluntary Annual Turnover Rate for Retirement (Men)	5.10%	5.10%	5.10%	5.10%
Voluntary Annual Turnover Rate for Retirement (Women)	6.00%	6.00%	6.00%	6.00%
Salary Increase (real annual average)	4.35%	-	4.35%	-
Future rate of long-term inflation	3.00%	3.00%	3.00%	3.00%
Expected inflation health care rate	-	5.78%	-	5.78%
Mortality tables used for projections	CB20-RV20	CB20-RV20	CB20-RV20	CB20-RV20
Average duration of future cash flows (years)	9.84	17.21	9.84	17.21
Expected Retirement Age (Men)	62	62	62	62
Expected Retirement Age (Women)	60	60	60	60

The discount rates correspond to the rates in the secondary market of government bonds issued in Chile. The projected annual inflation corresponds to an awareness above the long-term target publicly declared by the Central Bank of Chile and is derived from the market expectation as of December 31, 2024. The rotation rates have been determined after reviewing the Corporation's own experience by studying the cumulative behavior of outflows over the last three years with respect to the current allocations. The expected rate of salary increases has been estimated using the long-term behavior of historical salaries paid by the Corporation. The mortality tables used were those issued by the CMF, which are considered an appropriate representation of the Chilean market given the lack of comparable statistical series to develop independent studies. The financial duration of the liabilities corresponds to the average maturity of the payment flows of the respective defined benefits.

- b) The detail of current and non-current provisions for employment benefits as of the dates mentioned is as follows:

Employee benefits provisions	Current		Non-current	
	9-30-2025	12-31-2024	9-30-2025	12-31-2024
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Employees' collective bargaining agreements	155,566	208,477	-	-
Severance indemnities	31,236	29,337	566,564	541,545
Bonus	53,658	64,715	-	-
Vacation	164,035	159,532	-	-
Medical care programs	525	373	417,352	388,685
Retirement plans (see letter c.)	1,455	7,310	4,744	4,470
Other	23,927	20,803	6,630	6,660
Total	430,402	490,547	995,290	941,360

The reconciliation of the balances of the provisions for post-employment benefits is presented below:

Movements	1-1-2025 9-30-2025		1-1-2024 12-31-2024	
	Retirement plan	Health plan	Retirement plan	Health plan
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Opening balance	570,882	389,058	617,624	452,817
Service cost	65,481	25,020	65,212	25,321
Finance cost	9,384	6,629	13,449	9,760
Paid contributions	(69,761)	(23,219)	(52,178)	(53,561)
Actuarial (gains) losses	(78)	(2,549)	1,308	(4,718)
Subtotal	575,908	394,939	645,415	429,619
Losses (Gains) on foreign exchange rate	21,892	22,938	(74,533)	(40,561)
Closing balance	597,800	417,877	570,882	389,058

The balance of the defined benefit liability as of September 30, 2025, comprises a portion of ThUS\$31,236 and ThUS\$525 for the severance indemnity and the medical care plan, respectively. As of September 31, 2026, a balance of ThUS\$584,501 has been projected for the provision for severance indemnities and ThUS\$412.148 for health benefits. The flows of compensation payments during the next twelve months reach an expected monthly average of ThUS\$2,603 for severance indemnities and ThUS\$44 for health benefit plans.

The technical revaluation of the liability (actuarial gain/loss defined under IAS19) for severance indemnities and health plan benefits as of September 30, 2025 has been performed with a charge to equity, which is broken down into an actuarial gain of ThUS\$78 and of ThUS\$2,549, for severance indemnities and health plans.

The following is a review of the sensitivities of the provisions, when going from a medium scenario to a low or high scenario with unitary percentage variations, respectively, and both effects of reduction or increase on the book balance of these provisions:

Severance benefits for years of service	Low	Medium	High	Reduction	Increase
Financial effect on interest rates	4.96%	5.21%	5.46%	1.46%	-1.41%
Financial effect on the real increase in income	4.10%	4.35%	4.60%	-1.30%	1.33%
Demographic effect of job rotations	4.69%	5.19%	5.69%	-0.07%	0.10%
Demographic effect on mortality tables	-25.00%	CB20-RV20	25.00%	0.00%	0.00%
Health benefits and other	Low	Medium	High	Reduction	Increase
Financial effect on interest rates	4.96%	5.21%	5.46%	2.81%	-2.68%

Demographic effect, planned retirement age	60 / 58	62 / 60	64 / 62	3.78%	-3.63%
Demographic effect on mortality tables	-25.00%	CB20-RV20	25.00%	10.49%	-6.99%

c) Provisions for early retirement plans and termination bonuses

In accordance with its operating optimization programs to reduce costs and increase labor productivity by incorporating new current technologies and/or better management practices, the Corporation has established employee retirement programs by amending certain employment contracts or collective union agreements to include benefits encouraging employees to early retire, for which the necessary provisions are made based on the accrued obligation at current value.

As of September 30, 2025 and December 31, 2024, there is a current balance of ThUS\$1,455 and ThUS\$ 7,310 respectively. Related non-current balances amount to ThUS\$4,744 and ThUS\$4,470 respectively. These amounts have been determined using a discount rate equivalent to that used for calculating employee benefits provisions and whose outstanding balances are part of the balances as of September 30, 2025 and December 31, 2024.

d) Employee benefits expenses

The employee benefit expenses recognized classified by nature are as follows:

Expense by Nature of Employee Benefits	1-1-2025	1-1-2024	7-1-2025	7-1-2024
	9-30-2025	9-30-2024	9-30-2025	9-30-2024
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Benefits - Short term	(1,189,320)	(1,101,996)	(396,196)	(384,346)
Benefits - Post employment	(25,020)	(19,709)	(15,138)	(5,771)
Early retirement plans and conflict termination bonuses	(23,647)	(11,103)	(9,134)	(3,075)
Benefits for years of service	(65,481)	(47,318)	(19,948)	(12,747)
Total	(1,303,468)	(1,180,126)	(440,416)	(405,939)

20. Equity

The Corporation's total equity as of September 30, 2025 is ThUS\$11,220,865 (as of December 31, 2024 ThUS\$11,301,489 and as of September 30, 2024 is ThUS\$11.264.341).

In accordance with article 6 of Decree Law No. 1350 of 1976, it is established that, before March 30 of each year, the Board must approve the Corporation's Business and Development Plan for the next three-year period. Taking that plan as a reference and bearing in mind the Corporation's statement of financial position for the immediately preceding year and aiming to ensure its competitiveness before June 30 of each year the amounts that the Corporation shall allocate to the formation of capitalization and reserve funds will be determined by a reasoned decree of the Ministries of Mining and Treasury.

Net income shown in the Statement of Financial Position, after deducting the amounts referred to in the previous paragraph, shall belong to the State and become part of the Nation's general income.

On June 22, 2022, the Ministry of Finance agreed with the Corporation to a four-year average reinvestment plan of 30% of profits between 2021 and 2024, to contribute to the financing of Codelco's investment plan. Consistent with the above, on the same date, the Ministry of Finance issued exempt decree No. 194 which authorized the Corporation to allocate up to ThUS\$582,750 of the net profits of year 2021 to the formation of capitalization and reserve funds. In accordance with the provisions of exempt decree No. 4 of January 2023, these resources were to be paid from the profits of fiscal years 2022 and 2023, prior to the absorption of advance dividends paid in excess in previous years and the provisional dividends of fiscal year 2022.

On July 17, 2023, the Ministry of Finance issued exempt decree No. 238 which authorized the Corporation to allocate up to ThUS\$103,677 of the net profits of year 2022 to the formation of capitalization and reserve funds. This amount was to be paid from the profits of 2023 and subsequent years until the amount was fully covered.

As of December 31, 2023, a capitalization and reserve fund amounting to ThUS\$345,589 was established, in accordance with Exempt Decree No. 194. As of December 31, 2024, a capitalization and reserve fund amounting to ThUS\$103,677 was established in accordance with Exempt Decree No. 238.

As of September 30, 2025, and December 31, 2024, the Corporation maintains a balance in its favor for dividends paid in prior years that exceeded distributable profits, amounting to ThUS\$373,654. As of September 30, 2025, dividends amounting to US\$200,000 were distributed from the profits of the 2025 fiscal year.

No dividends payable were recognized as of September 30, 2025, and December 31, 2024.

The Consolidated Statement of Changes in Equity presents the movements in the Corporation's equity as of September 30, 2025.

The movement and composition of other equity reserves is presented in the Consolidated Statement of Changes in Equity.

Reclassification adjustments from other comprehensive income to income for the years represented a loss of ThUS\$44,939 and a loss of ThUS\$6,189 during the nine-month periods ended September 30, 2025 and 2024, respectively.

a) Other reserves

Details of other equity reserves are shown in the following table, according to the dates indicated for each case.

Other reserves	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Reserve on exchange differences on translation	(11,862)	(14,693)
Reserve of cash flow hedges	(23,120)	(3,446)
Capitalization fund and reserves	5,411,660	5,411,660
Actuarial results reserve in defined benefit plans	(269,049)	(269,775)
Fixed asset revaluation reserve Law 18110 year 1982	624,567	624,567
Reserve for financial assets measured at fair value with changes in other comprehensive income	(5,950)	20,694
Other reserves	(11,478)	(11,643)
Total other reserves	5,714,768	5,757,364

b) Non-controlling interests

The detail of non-controlling interests, included in total equity and total profit or loss, as of the dates mentioned, is as follows:

Companies	Non-controlling interests		Equity		Profit (Loss)		Profit (Loss)	
	9-30-2025	12-31-2024	9-30-2025	12-31-2024	1-1-2025	1-1-2024	7-1-2025	7-1-2024
	%	%	ThUS\$	ThUS\$	9-30-2025 ThUS\$	9-30-2024 ThUS\$	9-30-2025 ThUS\$	9-30-2024 ThUS\$
Inversiones GacruX SpA	32.20%	32.20%	714,660	701,803	11,428	14,226	5,926	(2,726)
Other	-	-	36	41	(8)	16	(12)	10
Total			714,696	701,844	11,420	14,242	5,914	(2,716)

The percentage of non-controlling interest over equity of Inversiones Mineras BecruX SpA generates a non-controlling interest in the subsidiary Inversiones GacruX SpA. Regarding the latter company, the figures related to its statement of financial position, statement of income and statement of cash flows are as follows:

Assets and liabilities	9-30-2025 ThUS\$	12-31-2024 ThUS\$
Current assets	197,454	134,445
Non-current assets	2,193,853	2,157,262
Current liabilities	173,957	112,058
Non-current liabilities	225,828	223,531

Profit (loss)	1-1-2025	1-1-2024	7-1-2025	7-1-2024
	9-30-2025	9-30-2024	9-30-2025	9-30-2024
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Income	558,153	514,589	210,816	109,280
Ordinary expenses and other	(527,185)	(474,896)	(193,933)	(119,251)
(Loss) gain for the period	30,968	39,693	16,883	(9,971)

Cash flows	1-1-2025	1-1-2024
	9-30-2025	9-30-2024
	ThUS\$	ThUS\$
Net cash flows from (used in) operating activities	26,272	15,807
Net cash flows from (used in) investing activities	311	337
Effects of exchange rate variation on cash and cash equivalents	7	(7)
Cash and cash equivalents at the beginning of the period	15,680	18,201
Cash and cash equivalents at the end of the period	42,270	34,338

21. Revenue

Revenues from ordinary activities for the nine and three-month periods ended September 30, 2025 and 2024, were as follows:

Item	1-1-2025	1-1-2024	7-1-2025	7-1-2024
	9-30-2025	9-30-2024	9-30-2025	9-30-2024
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Revenue from sales of own copper	11,259,017	10,350,070	3,804,517	3,702,892
Revenue from sales of third-party copper	1,053,337	1,024,111	339,901	259,957
Revenue from sales of molybdenum	589,177	516,646	230,687	178,699
Revenue from sales of other products	463,135	434,279	158,530	144,853
Profit (loss) hedge instruments	(135,659)	(10,173)	(64,527)	(2,971)
Total	13,229,007	12,314,933	4,469,108	4,283,430

The Corporation's revenue is recognized at a point in time.

The breakdown of revenue is presented in explanatory note No.26 Operating Segments.

22. Expenses by nature

The items in the Income Statement: Cost of Sales, Administrative Expenses, and Distribution Costs are composed of the following expense concepts presented based on their nature, during the nine and three-month periods ended September 30, 2025, and 2024:

Concepto	1-1-2025	1-1-2024	7-1-2025	7-1-2024
	9-30-2025	9-30-2024	9-30-2025	9-30-2024
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Short-term benefits to employees	(1,189,320)	(1,101,996)	(396,196)	(384,346)
Depreciation (1)	(1,713,558)	(1,652,575)	(572,042)	(588,706)
Amortization	(121)	(135)	(49)	(41)
Raw Materials	(1,923,005)	(1,883,304)	(611,209)	(752,550)
Materials, consumables and others	(5,384,237)	(4,980,764)	(1,886,786)	(1,673,857)
Total	(10,210,241)	(9,618,774)	(3,466,282)	(3,399,500)

- (1) Depreciation includes the expense of Property, plant and equipment and right-of-use assets (see note 7b and note 8.1)

23. Asset impairment

As of September 30, 2025 and 2024, there are no indications of impairments or reversals of impairment for other cash-generating units or affiliates.

24. Other income and expenses

Other income and expenses by function for the nine and three-month periods ended September 30, 2025 and 2024, is detailed below:

a) Other income:

Item	1-1-2025 9-30-2025	1-1-2024 9-30-2024	7-1-2025 9-30-2025	7-1-2024 9-30-2024
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Penalties to suppliers	2,649	6,061	500	1,727

Total fixed indirect costs, low production level	(294,519)	(208,802)	(189,687)	(27,272)

(**) Includes fixed costs for ThUS\$99,286 incurred during the periods of shutdown and recovery of production levels due to the seismic event that occurred on July 31, 2025 in the El Teniente Division.

c) Law No. 13196

Law No. 13196 - Under this law, the return in foreign currency of sales abroad of the Corporation's actual income from its copper production, including by-products, is taxed at 10%.

On September 26, 2019, Law No. 21174 was published, which repeals Law No. 13196 and establishes that the 10% tax (rate still in effect as of September 30, 2025) to the tax benefit provided by the Corporation will subsist for a period of nine years, decreasing from the tenth year 2.5% per year until reaching 0% at the beginning of the thirteenth year.

25. Finance costs

Finance costs during the nine and three-month periods, ended September 30, 2025 and 2024, is detailed below:

Item	1-1-2025	1-1-2024	7-1-2025	7-1-2024
	9-30-2025	9-30-2024	9-30-2025	9-30-2024

Restatement of other non-current provisions	(6,629)	(7,368)	(2,153)	(2,486)
Closing provision update	(47,559)	(45,689)	(16,374)	(15,478)
Other	(73,767)	(67,325)	(20,580)	(22,167)
Total	(698,377)	(686,020)	(231,116)	(220,386)

26. Operating segments

In section II "Significant Accounting Policies", it has been indicated that, for the purposes of IFRS 8, "Operating Segments", these are determined according to the Divisions that comprise Codelco. In addition, the Parent Company's revenues and expenses are distributed among the defined segments.

The mining deposits in operation, where the Corporation conducts its extractive and processing activities are managed by the following Divisions: Chuquicamata, Radomiro Tomic, Ministro Hales, Gabriela Mistral, Salvador, Andina and El Teniente. Ventanas is added to these divisions, which, only in the refining area. All these Divisions have a separate operational management, which reports to the Chief Executive Officer through the Vice-President of Operations. The information on each Division and their corresponding mining deposits is as follows:

Chuquicamata

Types of mine sites: Open pit mines and underground mines

Operating: since 1915

Location: Calama, II Region de Antofagasta. Chile

Products: electro refined and electrowon cathodes and copper concentrate.

Radomiro Tomic

Types of mine sites: Open pit mines

Operating: since 1997

Location: Calama, II Region de Antofagasta. Chile

Products: electrowon copper cathodes and copper concentrate.

Ministro Hales

Types of mine sites: Open pit mines

Operating: since 2014

Location: Calama, II Region de Antofagasta. Chile.

Products: Calcined copper, copper concentrates.

Gabriela Mistral

Types of mine sites: Open pit mines

Operating: since 2008

Location: Calama, II Region de Antofagasta. Chile

Products: Electrolytic (electro-obtained) cathodes.

Salvador

Type of mines: Underground and open pit mines

Operating: since 1926

Location: Salvador, III Region de Atacama. Chile.

Products: Electro refined and electrolytic (electro-obtained) copper cathodes and copper concentrate.

Andina

Type of mines: Underground and open pit mines

Operating: since 1970

Location: Los Andes, V Region de Valparaíso. Chile.

Product: Copper concentrate.

El Teniente

Type of mines: Underground and open pit mines

Operating: since 1905.

Location: Rancagua, VI Region del Libertador General Bernardo O'Higgins. Chile.

Products: copper concentrate and copper anodes.

a) Allocation of Head Office revenue and expenses

Main revenue and expenses items controlled by the Head Office are allocated to the Divisions based on following criteria.

Revenue and Cost of Sales of Head Office commercial transactions

The results from commitments derived from the reception, processing and/or purchase of concentrates from Codelco to Enami are distributed based on the ordinary income of each Division.

Finance Costs

The financial costs are distributed in proportion to the mining project investments made by each Division

Contribution to the Chilean Treasury under Law No. 13196

The amount of the contribution is allocated and accounted for in proportion to the invoiced and recorded amounts for copper and sub-product exports of each Division, that are subject to the surcharge.

Tax income benefit (expense)

Income tax benefit (expense) Corporate income tax under D.L. 2.398 and the Royalty Mining Margin Tax, are allocated based on the income before income taxes of each Division, considering for this purpose the income and expenses allocation criteria of the Head Office and subsidiaries mentioned above.

Other tax expenses are allocated in proportion to the corporate income tax, the Royalty Mining Margin Tax (Specific Tax on Mining Activities until 2023) and tax under D.L. 2.398 of each Division.

b) Transactions between segments

Transactions between segments mainly related to products processing services (or tolling services), are recognized as revenue for the segment rendering the tolling services and as the cost of sales for the segment that receives the service. Such recognition is made in the period in which these services are rendered, as well as its elimination in the consolidated corporate financial statements.

Additionally, the reallocation of the profit and loss assumed by Ventanas Division, associated with the corporate mineral processing contract between Codelco and Enami, in which a distribution is applied based on the revenue of each division is included as a transaction between segments.

c) Cash flows by segments

The operating segments defined by the Corporation, maintains a cash management function which refers mainly to operational activities that need to be covered periodically with funds constituted in each of these segments and whose amounts are not significant in relation to corporate balances of cash and cash equivalents.

Conversely, activities such as obtaining financing, investment and payment of relevant financial obligations are mainly based at the Head Office.

Segments	from 1-1-2025 to 9-30-2025							
	Chuquicamata	R. Tomic	Salvador	Andina	El Teniente	Ventanas	G. Mistral	M. Ha

Total	13,229,007	12,314,933	4,469,108	4,283,430

During the nine and three-month periods ended, September 30, 2025 and 2024, there was no revenue from ordinary activities from transactions with a single customer representing 10 percent or more of the Corporation's revenue from ordinary activities.

27. Exchange difference

Exchange differences during the nine and three-month periods ended, September 30, 2025 and 2024, are as follows:

Profit (loss) from foreign exchange differences recognized in income	1-1-2025	1-1-2024	7-1-2025	7-1-2024
	9-30-2025	9-30-2024	9-30-2025	9-30-2024
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Exchange Rate Difference IAS Provision	(21,892)	14,589	16,340	(26,197)
Exchange Rate Difference Health Plan Provision	(22,938)	750	5,698	(24,948)
Exchange Rate Difference Provision for Mine Closure	(79,458)	3,642	28,391	(60,214)
Exchange Rate Difference Contingencies Provision	(2,016)	2,414	1,372	(2,648)
Exchange Rate Difference Other	(13,953)	47,709	15,021	(22,061)
Total exchange difference	(140,257)	69,104	66,822	(136,068)

28. Statement of cash flows

The following table shows the items that comprise other collections and payments from operating activities in the Statement of Cash Flows:

Other collections from operating activities	1-1-2025	1-1-2024
	9-30-2025	9-30-2024
	ThUS\$	ThUS\$
VAT Refund	2,233,774	1,774,164
VAT and Others	371,998	464,690
Total	2,605,772	2,238,854

Other payments from operating activities	1-1-2025	1-1-2024
	9-30-2025	9-30-2024
	ThUS\$	ThUS\$
Contribution to Chilean treasury Law No.13196	(881,112)	(982,484)
Sales coverages	(139,044)	(20,123)
VAT and other similar taxes paid	(1,653,224)	(1,486,209)
Total	(2,673,380)	(2,488,816)

During the nine-month periods ended September 30, 2025 and 2024, no direct cash capital contributions were received.

29. Risk management

Corporación Nacional del Cobre de Chile has created instances within its organization that seek to generate strategies to minimize the financial risks to which it may be exposed.

The risks to which Codelco is exposed and a brief description of the management procedures that are carried out in each case, are described below.

a. Financial risks

- Exchange rate risk:

According to IFRS 7, exchange rate risk is understood to be the risk that arises from financial instruments that are denominated in foreign currencies, that is, a currency other than the Corporation's functional currency (US dollar).

Codelco's activities that generate this exposure correspond to funding in UF, accounts payable and receivable and provisions in Chilean pesos, other foreign currencies used in its business operations and obligations with employees.

Most transactions in currencies other than US\$ are denominated in Chilean pesos. Also, there is another portion in Euro, which corresponds mainly to a long-term loan issued through the international market, which exchange rate risk is mitigated with hedging instruments (Swap).

Taking into consideration the financial assets and liabilities as of September 30, 2025 as the base, a fluctuation (positive or negative) of 10 Chilean pesos against the U.S. dollar (keeping the other variables constant), could affect profits before taxes by US\$ 32 million in profit or loss, respectively. This result is obtained by identifying the main items (including assets and financial liabilities) denominated in foreign currencies in order to measure the impact on profit or loss that a variation of +/- 10 Chilean pesos would have in terms of US\$, with respect to the closing exchange rate at the end of the reporting period.

There are operating and investment expenses that are subject to price-level restatements associated with inflationary adjustments in the economic environment in which the Corporation operates. The Corporation periodically monitors the effects of these price-level restatements on its results in order to detect unusual situations that could have a significant financial impact.

Based on current conditions, the Corporation has not entered into, nor does it intend to enter into, derivative contracts specifically to hedge the effects discussed in the preceding paragraph.

If financial assets and liabilities are considered as of September 30, 2025, a 1% fluctuation (positive or negative) in the value of UF in Chilean pesos (with all other variables held constant) could affect the pre-tax result by an estimated US\$ 15 million loss or gain, respectively. This result is obtained by identifying the main items affected by exchange differences, both financial assets and liabilities, in order to measure the impact on income that a 1% variation in the value of the UF, used at the date of presentation of the financial statements, would have.

- Interest rate risk:

This risk arises from interest rate fluctuations in Codelco's investment and financing activities. This movement can affect future cash flows or the market value of fixed rate financial instruments.

These rate variations refer to U.S. dollar variations, mostly with respect to the SOFR rate. To manage this risk, Codelco maintains an adequate combination of fixed and variable rate

debt, which is complemented by the possibility of using interest-rate derivatives to meet the strategic guidelines defined by Codelco's Vice-Presidency of Finance.

It is estimated that, based on net debt at September 30, 2025, a one percentage point change in the interest rates of credit financial liabilities subject to variable interest rates would result in a change in annual interest expense of approximately US\$19 million, before taxes. This estimation is made by identifying the liabilities assigned variable interest, accrued at the end of the financial statements, which may vary with a change of one percentage point in variable interest rates.

The concentration of obligations that Codelco maintains at fixed and variable rates at September 30, 2025, corresponds to a total of ThUS\$21,430,143 and ThUS\$3,123,471 respectively.

b. Market risk.

- Commodity price risk:

As a result of its commercial operations and activities, the Corporation's income is mainly exposed to the volatility of copper prices and certain sub-products such as gold and silver.

Copper and molybdenum sales contracts generally establish provisional sales prices at the time of shipment of such products, while the final price will be considered based on a monthly average price determined by the market for future periods. At the reporting date, sales of provisionally priced products are adjusted to fair value and the effect is recorded in the results of operations for the period. Forward prices at the period-end are used for copper sales, while period-end average prices are used for molybdenum concentrate sales due to the absence of an assets futures market. (See Note 2.q) "Income from Activities Ordinary Procedures from Contracts with Customers" of section II "Main Accounting Policies").

As of September 30, 2025, if the future price of copper fluctuates by + / - 5% (with the other variables constant), the result would be +/- US\$ 154 million before taxes as a result of setting the mark to market of sales revenue to provisional prices in effect as of September 30, 2025 (MTMF 299). For the estimate indicated, all of those physical sales contracts were valued according to the monthly average immediately following the close of the financial statements, and proceeds to be estimated regarding what the final settlement price would be if there is a difference of + / - 5% with respect to the future price known to date for this period.

In order to protect cash flow and adjust, where necessary, its sales contracts to its trade policy, the Corporation holds operations in futures markets. At the date of presentation of these financial statements, these contracts are adjusted to fair value, recording this effect, at the settlement date of the hedging transactions as part of net product sales. (See letter r. of section II "Main Accounting Policies")

The Corporation has not entered into any hedging transactions with the specific purpose of hedging the price risk caused by fluctuations in prices of production inputs.

c. Liquidity risk

The Corporation ensures that it has sufficient resources, such as pre-approved credit lines (including refinancing), in order to meet short-term requirements, after considering the necessary working capital for its operations and any other commitments it has.

In this sense, the Corporation maintains resources at its disposal sufficient to meet its obligations, whether in cash, liquid financial instruments or credit facilities.

In addition, the Finance Department constantly monitors the Corporation's cash flow projections based on short- and long-term projections and available financing alternatives. In addition, the Corporation estimates that it has enough headroom to increase the level of borrowing for the normal requirements of its operations and investments established in its development plan.

In this context, according to current existing commitments with creditors, the cash requirements to cover financial liabilities classified by maturity and presented in the statement of financial position are detailed as follows:

Maturity of financial liabilities as of 9-30-2025	Less than 1 year ThUS\$	Between one five years ThUS\$	Over years ThUS\$
Loans from financial entities	477,095	1,169,681	1,929,613
Bonds	619,270	4,272,238	16,085,717
Derivatives	46,779	-	32,535
Other financial liabilities	-	-	105,470
Total	1,143,144	5,441,919	18,153,335

d. Credit risk

This risk comprises the possibility that a third party does not fulfill its contractual obligations, thereby causing a loss for the Corporation.

Given the Corporation's sales policy, principally with cash and advance payments and bank letters of credit, the uncollectible of client debt balances is minimal. This is complemented by the familiarity the Corporation has with its clients and the length of time it has operated with them. Therefore, the credit risk of these transactions is not significant.

The indications with respect to the payment conditions to the Corporation are detailed in every sales contract and the negotiation management is under the charge of the Commercial Vice-Presidency.

In general, the Corporation's other accounts receivable have a high credit quality according to the Corporation's evaluations, based on each debtor's solvency analysis and payment history.

The maximum exposure to credit risk as of September 30, 2025 is represented by the financial asset items presented in the Corporation's Statement of Financial Position.

The Corporation's accounts receivable does not include customers with balances that could be classified as a significant concentration of debt and would represent a material exposure for Codelco. This exposure is distributed among many clients and other counterparties.

In the customer items, the provisions, which are not significant, are included based on the review of the outstanding balances and characteristics of the clients, destined to cover eventual insolvencies.

Explanatory note 2 "Trade and other receivables" shows past due and not provisioned balances.

The Corporation estimates that unimpaired amounts overdue over 30 days are recoverable based on clients' historical payment behavior and their existing credit ratings.

As of September 30, 2025 and December 31, 2024, there are no receivable balances that have been renegotiated.

Codelco works with major banks, which have high national and international ratings, and continually assesses them; therefore, the risk that could affect the availability of the Corporation's funds and financial instruments is not significant.

Also, in some cases, to minimize credit risk, the Corporation has contracted credit insurance policies through which it transfers to third parties the commercial risk associated with some aspects of its business.

During the nine-month periods ended September 30, 2025 and for year ended December 31, 2024, no guarantees have been executed in relation to ensure the collection of third party debt.

Personnel loans mainly relate to mortgage loans, according to programs included in union agreements, which are paid for through payroll discounts.

e. Other relevant risks

In addition to market, credit, and liquidity risks, Codelco has identified other relevant risks that, due to their strategic, operational, or emerging nature, could impact the achievement of business objectives, long-term sustainability, or operational continuity. These risks are systematically monitored through a risk management framework aligned with international best practices, including ISO 31000, ISO 31050, and COSO ERM. Oversight is provided through periodic reviews by the Audit, Compensation, and Ethics Committee, as well as Senior Management. During the period January - September of 2025, monitoring continued on key exogenous variables that may influence the business, such as geopolitical developments, extreme weather events, and global systemic cyberattacks. The risk management program acknowledges that risk appetite and exposure may evolve over time, and actions are taken to respond to such changes in accordance with the prevailing context.

30. Derivatives contracts

The Corporation has entered transactions to hedge cash flows, to minimize the risk of foreign exchange rate variations and sales price variations, detailed as follows:

a. Exchange rate hedge

The Corporation maintains an exposure associated with its foreign exchange hedging operations, the balance of which corresponds to a net deferred tax profit recognized in equity amounting to ThUS\$3,020 as of September 30, 2025.

The following table shows details of the fair value and other information of the financial hedges contracted by the Corporation:

September 30, 2025

Hedged item	Bank	Type of derivative contract	Maturity	Currency	September 30, 2025				
					Hedged item	Financial obligation Hedging instrument	Fair value hedged item	Asset	Amortized cost
					ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$

As of September 30, 2025, the Corporation does not maintain cash deposit guarantee balances for these operations.

The current methodology for valuing currency swaps uses the bootstrapping technique based on mid-swap rates to construct (zero) curves in functional currencies other than the functional currency and US\$, respectively, based on market information.

The notional amounts held by the Corporation for financial derivatives are detailed below:

Notional amount of contracts with final maturity		September 30, 2025						
		Less than 90 days	Over 90 days	Total current	1 to 3 years	3 to 5 years	Over 5 years	Total non-current
Currency								
Currency derivatives	US\$	2,091	422,198	424,289	7,719	7,719	139,429	154,867

Notional amount of contracts with final maturity		December 31, 2024						
		Less than 90 days	Over 90 days	Total current	1 to 3 years	3 to 5 years	Over 5 years	Total non-current
Currency								
Currency derivatives	US\$	227.722	10.969	238.691	428.148	7.719	141.198	577.065

b. Cash flows hedging contracts and commercial policy adjustment

The Corporation trades in the copper, gold and silver derivative markets and records its results upon termination. These results are added to or deducted from sales revenues or to the cost of sales, depending on whether they are hedges of sales or purchase contracts, respectively. As of September 30, 2025, these operations generated a net negative effect on results of ThUS\$139,037 of which ThUS\$135,659 (loss) relates to hedges of physical sales and ThUS\$3,378 (loss) relates to hedges of physical purchases.

b.1. Commercial flexibility operations of copper contracts

Its objective is to adjust the price of sales to the Corporation's sales policy, which is defined according to the London Metal Exchange. As of September 30, 2025, the Corporation has copper derivative transactions associated with 266,490 metric tons of fine copper. These hedging transactions are performed as part of the Corporation's commercial policy.

The contracts in force as of September 30, 2025 show a negative balance of ThUS\$72,920 the final result of which can only be known upon the maturity of these operations, after the offsetting between the hedging operations and the revenues from the sale of the hedged products. In relation to these contracts, as of September 30, 2025, the Corporation does not maintain cash deposit guarantee balances.

The operations settled between January 1 and September 30, 2025 generated a net negative effect on results of ThUS\$135,773 of which ThUS\$134,070 (loss) relates to hedges of physical sales and ThUS\$1,703 (loss) relates to hedges of physical purchases.

b.2. Trade operations of current gold and silver contracts.

As of September 30, 2025, the Corporation holds derivative contracts for gold amounting to MOZT 7,190 and silver amounting to MOZT 86,896.

The contracts in force as of September 30, 2025, show a negative exposure of ThUS\$1,764, the final result of which can only be known upon the maturity of these operations, after the offsetting between hedging operations and the revenues from the sale of the hedged products. These hedging operations have maturities up until March 2026.

In the nine-month period ended September 30, 2025, the Corporation settled gold and silver operations that generated a net negative effect on results of ThUS\$3,264, of which ThUS\$ 1,589 relate to physical sales contracts and ThUS\$ 1,675 relate to physical purchase contracts.

b.3. Cash flow hedging operations backed by future production.

The Corporation has no outstanding transactions as of September 30, 2025, arising from these operations, which protect future cash flows by locking in price levels for the sale of part of its production.

The following tables set forth the maturities of metal hedging activities, as referred to in point b above:

September 30, 2025	Maturity date						Total
	2025 ThUS\$	2026 ThUS\$	2027 ThUS\$	2028 ThUS\$	2029 ThUS\$	Upcoming ThUS\$

31. Contingencies and restrictions

a) Lawsuits and contingencies

There are various lawsuits and legal actions initiated by or against the Corporation, which derive from its operations and the industry in which it operates. In general, these are civil, tax, labor and mining litigations, all related to the Corporation's activities.

In the opinion of Management and its legal advisors, the lawsuits where the Corporation is being sued and could have negative results do not represent significant loss contingencies or cash flows. Codelco defends its rights and makes use of all the corresponding legal and procedural instances and resources.

The most relevant lawsuits filed by Codelco relate to the following matters:

- Tax Proceedings: There is a tax proceeding for liquidation No.141 of tax year 2015 and Exempt Resolution No. 89 of 2016 issued by the Internal Revenue Service (SII), for which the Corporation presented the corresponding appeals, which were received and resolved in favor of the Tax and Customs Courts, a resolution that was appealed by the SII.
- Labor lawsuits: Labor proceedings brought by the workers against the Corporation, regard to occupational diseases, labor accidents and other matters.
- Mining proceedings and others arising from the operation: The Corporation has been participating, and will probably continue to participate, as plaintiff and defendant in given court proceedings involving its mining operation and activities, through which it seeks to exercise certain actions or set up certain defenses in relation to given mining concessions that have been established or are in the process of being established, as well as also with regard to its other activities. These proceedings currently do not involve any given amount and do not have any essential effect on Codelco's development.

As of September 30, 2025, there are arbitration lawsuits pending final judgment, between Codelco and Consorcio Belaz Movitec SpA, and as of today, the arbitral award has not yet been issued.

During the nine-month periods the years ended September 30, 2025 and 2024, there are no lawsuits or other proceedings representing 10 percent or more of the Corporation's total outstanding lawsuits.

At the date of issuance of these interim consolidated financial statements, the Codelco faces various lawsuits and legal actions against it for a total of approximately ThUS\$265,284 corresponding to 964 cases, with an estimated loss amount of ThUS\$52,145. According to the estimate made by the legal advisors of the Corporation, 895 cases, which represent 92.84% of the universe, have associated probable loss results amounting to ThUS\$52,105 (Additionally, with the same probable results, there is 1 cases for ThUS\$6 arising from subsidiaries). There are also 42 cases, representing 4.36% for an amount of ThUS\$21, for which it is less likely than not, that the ruling will be against the Corporation. For the remaining 27 cases, representing 2.80% for an amount of ThUS\$19, the Corporation's legal advisors consider an unfavorable result to be remote.

For litigation with probable loss and its costs, there are the necessary provisions, which are recorded as contingency provisions. (see note No 18)

b) Other commitments .

- i. Law No. 19993 dated December 17, 2004, modified on March 6, 2023, establishing that the Corporation must ensure that the smelting and refining capacity required is maintained, without any restriction and limitation, for treating the products of the small and medium mining sector sent by ENAMI, under the form of toll production or another form agreed upon by the parties.

ii. Obligations with the public for bond issues means that the Corporation must meet certain restrictions related to limits on pledges and leaseback transactions on its principal assets and on its ownership interest in subsidiaries.

The Corporation has complied with these conditions as of September 30, 2025 and 2024.

iii. The Corporation maintains electricity supply contracts with third parties that include take-or-pay clauses, under which it is obligated to pay a minimum amount, regardless of actual energy consumption. These payments are recognized as an expense in the income statement when incurred.

- On January 20, 2010, the Corporation signed two energy supply contracts with Colbún S.A., which includes energy and power sales and purchases for a total of 510 MW of power, for the Andina, El Teniente, Salvador, and Ventanas Divisions.

The contracted power for supplying these Divisions is comprised by two contracts:

- Contract No.1 for 176 MW, current until December 2029.
- Contract No.2 for 334 MW, current until December 2044. This contract is based on energy production from Colbún's Santa María thermal power station. On October 27, 2022, Codelco signed an amendment to the contract which, among other provisions, will allow the replacement of coal-based electricity supply with renewable energy. This transition will be implemented gradually, disengaging from the Santa María Power Plant, and starting January 1, 2026, the contract will provide 1,000 GWh/year of renewable energy.

For the supply of electricity to the Chuquicamata worksite, the following contracts with Engie remain in effect:

- Contract No. 1 (originally signed with CTA), effective since 2012, for a capacity of 80 MW, expiring in 2032.
- Contract No. 2, effective from January 2018 through December 2035, for a capacity of 200 MW.

On May 3, 2024, Codelco signed Amendment No. 5 to Contract No. 1, through which the parties agreed to commercial changes to the contract, along with its decarbonization starting in 2026.

On August 26, 2011, Codelco entered into two electricity supply contracts with AES Andes. The first was for the Ministro Hales Division, for a capacity equivalent to 99 MW, and the second for the Radomiro Tomic worksite, for a maximum capacity of 145 MW. Both contracts are set to expire on July 31, 2028.

In December 2022, the respective agreements were renegotiated and signed. The agreement implies the modification of the original contracts and a new renewable sources contract effective from 2023 to 2040.

On February 28, 2024, Codelco signed three corporate electricity supply contracts based on renewable energy with the companies Atlas Energía Dos SpA, Colbún S.A. and Innergex

Energía Renovable SpA, which start their supply on January 1, 2026 and have a termination date of December 31, 2040. The contract with Atlas Energía Dos is for 375 GWh/year of energy, the contract with Colbún is for 1100 GWh/year of energy and finally the contract with Innergex Energía Renovable is for 350 GWh/year of energy.

On March 14, 2025, Codelco entered into two corporate electricity supply contracts based on renewable energy with GM Developments SpA and GR Power Chile SpA. Both contracts will commence supply on January 1, 2026, and are set to expire on December 31, 2040. The contract with GM Developments SpA covers 1000 GWh/year of energy, while the contract with GR Power Chile SpA covers 550 GWh/year of energy.

- iv. On November 11, 2011, Law No. 20551 was published in the Official Journal, which regulates the tasks and closure of mining facilities. Additionally, on November 22, 2012, the Supreme Decree No. 41 of the Minister of Mining, which approves the Regulations of this Law, was published in the Official Gazette.

This law requires the Corporation, among other requirements, to provide financial guarantees to the State to ensure the implementation of closure plans. It also establishes the obligation to make contributions to a fund which aims to cover the costs of post-closure activities.

The Corporation, in accordance with the regulations, delivered in 2014 to the National Geology and Mining Service (SERNAGEOMIN) the mine closure plans for each of the eight divisions of Codelco. These closure plans were developed under the transitional regime of the Law, specified for mining companies affected by the general application procedure, which are those with extraction capacity > 10,000 tons/month, and that at the date of entry into force of the Law were in operation, and with a closure plan previously approved under the Mining Safety Regulation D.S. No. 132.

All these transitional closure plans were approved in 2015 in accordance with the provisions established in the Law.

In compliance with the updated schedule, Codelco approved in 2021 the updated closure plans for the El Teniente, Radomiro Tomic, Ministro Hales, and Gabriela Mistral Divisions. During 2022, the Corporation obtained approval for the updated closure plans of the Salvador and Andina Divisions. Codelco has provided the corresponding guarantees committed under all approved closure plans, in accordance with their latest effective updates.

As of September 30, 2025, the Corporation has agreed guarantees for an annual amount of UF 89.511.666, to comply with the aforementioned Law No. 20551 (see note No. 32).

- v. On August 24, 2012, Codelco through its subsidiary Inversiones Mineras Nueva Acrux SpA (Nueva Acrux) (whose minority shareholder is Mitsui), signed a contract with Anglo American Sur S.A. Under this contract, Codelco agreed to sell a portion of its annual copper production to the mentioned subsidiary, who in turn agrees to purchase such production.

Such annual portion is determined by the share of Codelco's indirect subsidiary, Inversiones Mineras Becrux SpA (also shared ownership with Mitsui), maintained for the shares of Anglo-American Sur S.A.

In turn, the subsidiary Nueva Acrux agrees to sell to Mitsui, the products purchased under the agreement described in the preceding paragraphs.

The contract expiration will occur when the shareholders agreement of Anglo-American Sur S.A. ends or other events related to the completion of mining activities of the company take place.

- vi. On September 22, 2025, Codelco executed the loan of ThUS\$466,000, following the financing agreement signed on March 28, 2025, with the Japan Bank for International Cooperation. This loan is part of an alliance aimed at ensuring a stable supply of copper concentrates to Japan, with a commitment to ship a cumulative total of at least 240,000 metric tons in three-year rolling periods throughout the loan's duration.

32. Guarantees

The Corporation as a result of its activities has received and given guarantees. The following tables list the main guarantees given to financial institution:

Direct Guarantees provided to Financial Institutions and other

34. Sanctions

As of September 30, 2025 and December 31, 2024, neither Codelco Chile or its Directors and Managers have been sanctioned by the CMF or any other administrative authorities.

35. The environment

Each of Codelco's operations is subject to national, regional and local regulations related to protection of the environment and natural resources, including standards relating to water, air, noise and disposal and transportation of dangerous residues, among others. Chile has introduced environmental regulations that have obligated companies, including Codelco, to carry out programs to reduce, control or eliminate relevant environmental impacts. Codelco has executed and shall continue to execute a series of environmental projects to comply with these regulations.

Pursuant to the Letter of Values approved in 2024, Codelco is governed by a series of internal policies and regulations that frame its commitment to the environment, among which is the Corporate Sustainable Development Policy (2021).

Under a Corporate Environmental Management System, the divisions, structure their efforts in order to comply with the commitments assumed by the corporation's environmental policies, incorporating elements of planning, operating, verifying and reviewing activities. As of September 30, 2025, Codelco is certified under the ISO 14001:2015 Standard, which is applicable to all its divisions.

To comply with the Circular No. 1901 of 2008 of the CMF, the details of the Corporation's main expenditures related to the environment during the periods from January 1 to September 30, 2025 and 2024, respectively, and the projected future expenses are stated below:

36. Subsequent Events

On October 2, 2025, Codelco secured financing as part of its major investment plan by reopening bonds totaling US\$1.4 billion. This transaction involved the reopening of bonds originally issued in January 2025, with maturities of 10 years (CDEL 2035) and 30 years (CDEL 2055), offering yields of 5.393% and 6.230%, respectively.

Management of the Corporation is not aware of any other significant financial or non-financial events that could affect these financial statements, which may have occurred between October 1, 2025, and the issuance date of these interim consolidated financial statements as of October 30, 2025.

INDEPENDENT AUDITOR'S REPORT
(A free translation from the original in Spanish)

Santiago, March 27, 2025

To the President and Directors of
Corporación Nacional del Cobre de Chile

Opinion

We have audited the consolidated financial statements of Corporación Nacional del Cobre de Chile and its subsidiaries, which comprise the consolidated statements of financial position as of December 31, 2024 and 2023, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Corporación Nacional del Cobre de Chile and its subsidiaries as of December 31, 2024 and 2023, and the results of its operations and its cash flows for the years then ended in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audits in accordance with Generally Accepted Auditing Standards in Chile. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Corporación Nacional del Cobre de Chile and its subsidiaries and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Corporación Nacional del Cobre de Chile and its subsidiaries ability to continue as a going concern for at least, but not limited to, twelve months from the end of the reporting period.

Santiago, March 27, 2025
Corporación Nacional del Cobre de Chile
2

Auditor's Responsibilities for the Audit of the consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with Generally Accepted Auditing Standards in Chile will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with Generally Accepted Auditing Standards in Chile, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Corporación Nacional del Cobre de Chile and its subsidiaries internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Corporación Nacional del Cobre de Chile and its subsidiaries ability to continue as a going concern for a reasonable period of time.

Santiago, March 27, 2025
Corporación Nacional del Cobre de Chile
3

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and any internal control significant deficiency and material weakness that we identified during the audit.

CORPORACIÓN NACIONAL DEL COBRE DE CHILE
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2024 AND DECEMBER 31, 2023
(Monetary values in thousands of United States dollars,
unless another currency or unit is indicated)

I. GENERAL INFORMATION

1. Corporate information

Corporación Nacional del Cobre de Chile (hereinafter referred to as “Codelco” or the “Corporation”), is, in Management’s opinion, the largest copper producer in the world. Codelco’s most important product is refined copper, primarily in the form of cathodes. The Corporation also produces copper concentrates, blister and anode copper and by-products such as molybdenum, anode slime and sulfuric acid.

The Corporation trades its products based on a policy aimed to sell refined copper to manufacturers or producers of semi-manufactured products.

These products contribute to diverse fields of community development, particularly those intended to improve areas such as public health, energy efficiency, and sustainable development, among others.

The Corporation is registered under Securities Registry No. 785 of the Chilean Commission for the Financial Market (the “CMF”) and is subject to its supervision. According to Article No. 10 of Law No. 20392 (related to the new Corporate Governance of Codelco), such supervision shall be on the same terms as publicly traded companies, notwithstanding the provisions in Decree Law (D.L.) No.1349 of 1976, which created the Comisión Chilena del Cobre (“Chilean Copper Commission”).

Codelco’s head office is in Santiago, Chile, at 1270 Huérfanos Street, telephone number (56-2) 26903000.

Codelco was incorporated through D.L. No. 1350 of 1976, which is the statutory decree applicable to the Corporation. In accordance with the statutory decree, Codelco is a government-owned mining, industrial and commercial company, which is a separate legal entity with its own equity. Codelco Chile currently carries out its mining business through its Chuquicamata, Radomiro Tomic, Ministro Hales, Gabriela Mistral, Salvador, Andina, El Teniente and Ventanas divisions.

The Corporation also carries out similar activities in other mining deposits in association with third parties.

During 2024, the Corporation enters the lithium business with the acquisition of Lithium Power International Limited “LPI”. This acquisition will make the Blanco Project viable through synergies with the Corporation’s assets and permits in the Salar de Maricunga, and thus

develop a world-class lithium project. Additionally, in May 2024, Codelco signed an association agreement with Sociedad Química y Minera de Chile S.A. (SQM), which establishes the conditions to implement a public-private partnership for the development of mining, productive and commercial activities related to the exploration and exploitation of certain mining properties located in the Salar de Atacama, Antofagasta Region.

In accordance with letter e) of Article 10 of Law No. 20392, Codelco is governed by its organic standards set forth in Decree Law No. 1350 (D.L. No. 1350) and that of its by-laws, and in matters not covered by them and, insofar as they are compatible and do not contradict the provisions of such standards, by the rules that govern publicly traded companies and the common laws as applicable to them.

In accordance with D.L. No. 1350 Section IV related to the Company's Exchange and Budget Regulations. Codelco's financial activities are conducted following an annual budgeting program that is composed of an Operations Budget, an Investment Budget, and a Debt Amortization Budget.

The income obtained by Codelco in each period is subject to the tax regime established in Article 26 of D.L. N°1,350, which refers to Decree Laws N° 824, on Income Tax, of 1974, and N°2398 (Article 2), of 1978, which are applicable to Codelco. It is also subject to the terms of Law No. 20026 of 2005 on Specific Tax on Mining, which was in force until December 31, 2023. As of January 1, 2024, the Corporation will begin to apply Law No. 21591 on mining royalties.

According to Law No. 13196, the return on foreign currency of the Corporation's foreign sales (real income), of its copper production, including its by-products, is taxed at 10%. The effectiveness of this obligation for Codelco is specified in the explanatory note in section III. 24 letter c) of this report.

The subsidiaries whose financial statements are included in these consolidated financial statements correspond to companies located in Chile and abroad, which are detailed in Note II.2.d.

The associates, all located in Chile, are detailed in the explanatory note in section III.9.

2. Basis of presentation of the consolidated financial statements

The consolidated statements of financial position as of December 31, 2024 and 2023, the consolidated statements of income, statements of comprehensive income, statements of changes in equity and cash flows for the years ended December 31, 2024 and 2023 have been prepared in accordance with International Accounting Standard No. 1 (IAS 1) "Presentation of Financial Statements", incorporated in the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (hereinafter "IASB").

These consolidated financial statements include all information and disclosures required in annual financial statements.

The consolidated financial statements of the Corporation are presented in thousands of United States dollar ("U.S. dollar").

Responsibility for information and estimates made

The Board of Directors of the Corporation has been informed of the information included in these consolidated financial statements and expressly declared its responsibility for the consistent and reliable nature of the information included as of December 31, 2024, which financial statements fully comply with IFRS. These consolidated financial statements as of December 31, 2024 were approved by the Board of Directors at a meeting held on March 27, 2025.

Accounting policies

These consolidated financial statements reflect the financial position of Codelco and affiliates as of December 31, 2024 and 2023, as well as the results of their operations, changes in equity and cash flows for the years ended December 31, 2024 and 2023, and their related notes, all prepared and presented in accordance with IAS 1 "Presentation of Financial Statements, considering the respective presentation regulations of the Financial Market Commission (CMF)".

II. SIGNIFICANT ACCOUNTING POLICIES

1. Significant judgments and key estimates

In preparing these consolidated financial statements, the use of certain critical accounting estimates and assumptions that affect the amounts of assets and liabilities recognized as of the date of the financial statements and the amounts of revenue and expenses recognized during the reporting period is required. Such preparation also requires the Corporation's Management to exercise its judgment in the process of applying the Corporation's accounting policies. The areas involving a greater degree of judgment or complexity or areas in which the assumptions and estimates are significant for the consolidated financial statements are described as follows:

- a) Useful economic lives and residual values of property, plant and equipment:** the useful lives and residual values of property, plant and equipment that are used for calculating depreciation are determined based on technical studies prepared by internal specialists. The technical studies consider specific factors related to the use of assets.

Where there are indications that the useful lives of these assets or their residual values may have changed from previous estimates, this should be done using technical estimates to determine the impact of any changes.

- b) **Ore reserves:** the measurements of ore reserves are based on estimates of the ore resources that are legally and economically exploitable and reflect the technical and environmental considerations of the Corporation regarding the amount of resources that could be exploited and sold at prices exceeding the total cost associated with the extraction and processing.

The Corporation applies judgment in determining the ore reserves, and as such, possible changes in these estimates might significantly impact the estimates of net revenues over time. In addition, these changes might lead to modifications in usage estimates, which might have an effect on depreciation and amortization expense, calculation of stripping cost adjustments, determination of impairment losses, expected future disbursements related to decommissioning and restoration obligations, long term defined benefits plans' accounting and the accounting for financial derivative instruments.

The Corporation estimates its reserves and mineral resources based on the information certified by the Competent Persons internal and external of the Corporation, who are defined and regulated according to Law No. 20235. These estimates correspond to the application of the Certification Code of Ore Reserves, Resources and Exploration, issued by the Mining Committee which was instituted through the law.

Notwithstanding the foregoing, the Corporation periodically reviews its estimation models, supported by experts who, in some divisions, also certify the reserves determined from these models.

- c) **Impairment of non-financial assets:** the Corporation reviews the carrying amount of its non-financial assets to determine whether there is any indication that the carrying amount may not be recoverable. If any such indicator exists, the recoverable amount of the assets is estimated to determine the extent of the impairment loss. In testing impairment, the assets are grouped into cash generating units ("CGUs") to which the assets belong, if applicable. The recoverable amount of these CGUs is calculated as the present value of the expected future cash flows from such assets, considering a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of the assets is lower than their carrying amount, an impairment loss is recognized.

The Corporation defines the CGUs and also estimates the timing and cash flows that such CGUs will generate. Subsequent changes in the grouping of the CGU, or changes in the assumptions supporting the estimates of cash flows or the discount rate, may impact the carrying amounts of the corresponding assets.

Estimates of assumptions influencing the calculation of cash flows, such as the price of copper or treatment charges and refining charges, among others, are determined based on studies conducted by the Corporation using uniform criteria over different periods. Any change in these criteria may have an impact on the recoverable amount of the assets being tested for impairment.

The Corporation has assessed and defined that the CGUs are constituted at the level of each of its current operating divisions, with the exception of the Ventanas Division Smelter and Refinery operations, which are analyzed separately.

In assessing impairment in subsidiaries and associates, the Corporation uses the higher of value in use or fair value less costs to determine the recoverable amount. This recoverable amount may consider elements such as Life of Mine (LOM), reserves and/or mining resources, among others, for mining operation evaluations. In addition, the evaluation may incorporate market variables such as for example, the price of copper and other commodities, cost of production inputs, exchange rates, discount rates and other market information for long-term asset valuation.

- d) **Provisions for decommissioning and site restoration costs:** when a disruption is caused by the ongoing development or production of a mining property, an obligation to incur decommissioning and restoration costs arises. Costs are estimated based on a formal closure plan and are reassessed as of each reporting period or as of the date such obligations become known. The initial estimate of decommissioning and site restoration costs is recognized as property, plant, and equipment in accordance with IAS 16, and simultaneously a liability in accordance with IAS 37, is recorded.

For these purposes, a defined list of mine sites, facilities and other equipment are studied under this process, considering the engineering level profile, the cubic meters of assets that will be subject to removal and restoration, weighted by a structure of market prices of goods and services, reflecting the best current knowledge related to carrying out such activities, as well as techniques and more efficient construction procedures to date. In the process of valuation of these activities, the assumptions of the exchange rate for tradable goods and services are made, as well as a discount rate, which considers the time value of money and the risks associated with the liabilities, which is determined based, where applicable, on the currency in which disbursements are expected to be made.

The liability amounts recognized at the end of each reporting date represent management's best estimate of the present value of the future decommissioning and site restoration costs. Changes in the estimate of the liability because of changes in the estimated future costs or in the discount rate are added to or deducted from the respective asset cost. The amount deducted from the cost of the asset shall not exceed its carrying amount. If a decrease in the liability exceeds the carrying amount of the asset, the excess is recognized immediately in profit or loss.

If the adjustment results in an addition to the cost of the asset, Codelco considers whether this is an indicator that the new carrying amount of the asset may not be fully recoverable. If such an indicator exists, Codelco tests the asset for impairment by estimating its recoverable amount, and accounts for any impairment loss in accordance with IAS 36.

Costs arising from the installation of a plant or other site preparation work, discounted to their net present value, are provided for and capitalized at the beginning of each project as soon as the obligation to incur such costs arises. These decommissioning costs are

charged to net income over the life of the mine, through depreciation of the corresponding asset. Depreciation expense is included in cost of sales, while the discount in the provision is included in finance costs.

- e) **Provisions for employee benefits:** Provisions for employee benefits related to severance payments and health benefits for services rendered by the employees are determined based on actuarial calculations using the projected unit credit method and are recognized in other comprehensive income or s (depending on the accounting standards applicable) on an accrual basis

The Corporation uses assumptions to determine the best estimate of future obligations related to these benefits. Such estimates, as well as assumptions, are determined by management using the assistance of external actuaries. These assumptions include demographic assumptions, discount rate and expected salary increases and rotation levels, among other factors.

- f) **Accruals for open invoices:** the Corporation uses information on future copper prices, through which it recognizes adjustments to its revenues and trade receivables, due to the conditions in provisional pricing arrangements. These adjustments are updated monthly, See Notes 2 q) "Revenue from contracts with customers" of Note 2 "Significant accounting policies" below.
- g) **Fair value of derivatives and other financial instruments:** management may use its judgment to choose an adequate and proper valuation method for financial instruments that are not quoted in an active market. In the case of derivative financial instruments, assumptions are based on observable market inputs, adjusted depending on factors specific to the instruments among others.
- h) **Lawsuits and contingencies:** The Corporation assesses the probability of lawsuits and contingency losses on an ongoing basis according to estimates performed by its legal advisors. For cases in which management and the Corporation's legal advisors believe that a loss is not probable of occurring or where probable, may not be estimated reliably, no provisions are recognized. When it is considered more likely than not that a loss is probable and it may be reliably estimated, a provision is recognized.
- i) **Application of IFRS 16:** includes the following:
- Estimation of the lease term
 - Determine if it is reasonably certain that an extension or termination option will be exercised.
 - Determination of the appropriate rate to discount lease payments
- j) **Revenue recognition:** the Corporation determines appropriate revenue recognition for its contracts with customers by analyzing the type, terms and conditions of each contract or agreement with a customer.

As part of the analysis, the management must make judgments about whether an agreement or contract is legally enforceable, and whether the agreement includes separate performance obligations. In addition, estimates are required to allocate the total price of the transaction to each performance obligation based on the stand-alone selling price of the promised goods or services underlying each performance obligation. (The Corporation applies the constraint on variable consideration as defined in IFRS 15, if applicable).

k) Stripping costs - Costs incurred in removing mine waste materials (overburden) in open pits that are in production, that provide access to mineral deposits, are recognized in property, plant, and equipment, when the following criteria set out in IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine are met:

- It is probable that the future economic benefits associated with the stripping activity will flow to the entity.
- It is possible to identify the components of an ore body for which access has been improved because of the stripping activity, and
- The costs relating to that stripping activity can be measured reliably.

The stripping costs are amortized based on the production units of production extracted from the ore body related to the specific stripping activity which generated this amount.

Although the abovementioned estimates have been made based on the best information available as of the date of issuance of these consolidated financial statements, it is possible that new developments could lead the Corporation to modify these estimates in the future. Such modifications, if any, would be adjusted prospectively, recognizing the effects of the change in estimate in future consolidated financial statements, as required by IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors".

On the other hand, the costs of activities for the removal of sterile material during the production stage, whose benefit is realized in the form of produced inventory, must be recognized in accordance with IAS 2.

2. Significant accounting policies

a. Period covered: The accompanying consolidated financial statements of Corporación Nacional del Cobre de Chile include the following statements:

- Consolidated Statement of Financial Position as of December 31, 2024 and 2023.
- Consolidated Statement of Income for the years ended December 31, 2024 and 2023.
- Consolidated Statements of Comprehensive Income for the years ended December 31, 2024 and 2023.
- Consolidated Statements of Changes in Equity for the years ended December 31, 2024 and 2023.
- Consolidated Statements of Cash Flows for the years ended December 31, 2024 and 2023.

- b. Basis of preparation** – These consolidated financial statements of the Corporation as of December 31, 2024 have been prepared in accordance with the instructions of the Commission for the Financial Market which fully comply with International Financial Reporting Standards (IFRS) issued by the IASB.

The consolidated statements of financial position as of December 31, 2023, and the statements of income, equity and cash flows for the year ended December 31, 2023, which are included for comparative purposes, have been prepared in accordance with IFRS as issued by the IASB, on a basis consistent with the basis used for the same period ended December 31, 2024, except for the adoption of new IFRS standards and interpretations adopted by the Corporation as of December 31, 2024, which are disclosed in number 3 "New standards and interpretations adopted by the Corporation" in section II of this report.

These interim consolidated financial statements (unaudited) have been prepared from accounting records held by the Company.

- c. Functional currency** - The functional currency of Codelco is the U.S. dollar, which is the currency of the primary economic environment in which the Corporation operates and the currency in which it receives its revenues.

The functional currency of subsidiaries, associates, and joint ventures is the currency of the primary economic environment in which those entities operate and the currency in which they receive their revenues. For some subsidiaries and associates that are an extension of the operations of Codelco (entities that are not self-sustaining and whose main transactions are with Codelco); the functional currency is also the U.S. dollar.

The presentation currency of Codelco's consolidated financial statements is the U.S. dollar.

- d. Basis of consolidation** - The financial statements comprise the consolidated statements of the Corporation and its subsidiaries.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Corporation obtains control, and continue to be consolidated until the date such control ceases. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement from the date the Corporation gains control until the date when the Corporation ceases to control the subsidiary.

The financial statements of the subsidiaries are prepared for the same reporting period as the Corporation, using consistent accounting policies.

All assets, liabilities, equity, income, expenses, and cash flows related to transactions between consolidated companies are fully eliminated on consolidation. The value of the non-controlling interest of shareholders in equity and in the results of subsidiaries is presented, respectively, as "Non-controlling interests" in the consolidated statement of financial position and "Income (loss) attributable to non-controlling interests" and

"Comprehensive income (loss) attributable to non-controlling interests" in the consolidated statements of income.

The following companies have been consolidated:

Taxpayer ID No.	COMPANY	Country	Functional currency	12-31-2024			12-31-2023

For the purposes of these consolidated financial statements, subsidiaries, associates, acquisitions and disposals are defined as follows:

- **Subsidiaries:** A subsidiary is an entity over which the Corporation has control. Control is exercised if, and only if, the following elements are present: (i) power to govern the operating and financial policies to obtain benefits from their activities; (ii) exposure or rights to the variable returns of these companies; and (iii) ability to use the power to influence the amount of returns.

The Corporation reassesses whether it controls a subsidiary if facts and circumstances indicate that there are changes to one or more of the elements of control listed above.

The consolidated financial statements include all assets, liabilities, revenues, expenses, and cash flows of Codelco and its subsidiaries, after eliminating all inter-company balances and transactions.

- **Associates:** An associate is an entity over which Codelco has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the associate but is not control or joint control over those policies.

Codelco's interest ownership in associates is recognized in the consolidated financial statements under the equity method. Under this method, the initial investment is recognized at cost and adjusted thereafter to recognize changes in Codelco's share of the comprehensive income of the associate, less any impairment losses or other changes to the investment in net assets of the associate.

The Corporation adjusts the proportional gains or losses obtained by the associate after acquisition to take into account the effects that may exist in the depreciation of the fair value of the assets considered at the date of acquisition.

- **Acquisitions and disposals:** The result of businesses acquired are incorporated in the consolidated financial statements from the date when control is obtained; the results of businesses sold during the period are included in the consolidated financial statements up to the effective date of disposal. Gains or losses on disposal is the difference between the sale proceeds (net of expenses) and the carrying amount of the net assets attributable to the ownership interest that has been sold (and, where applicable, the associated cumulative translation adjustment).

If control is lost over a subsidiary, the retained ownership interest in the investment will be recognized at its fair value.

At the acquisition date of an investment in a subsidiary, associate or joint venture, any excess of the cost of the investment (consideration transferred) plus the amount of the non-controlling interest in the acquiree plus the fair value of any previously held equity interest in the acquiree, where applicable, over Codelco's share of the net fair value of the identifiable assets and acquired liabilities is recognized as goodwill. Any excess of Codelco's share of the net fair value of the identifiable assets and acquired liabilities over the consideration transferred, after reassessment, is recognized immediately in profit or loss in the period in which the investment is acquired.

- e. **Foreign currency transactions and reporting currency conversion** - Transactions in currencies other than the Corporation's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, foreign currency transactions denominated in foreign currencies are converted at the rates prevailing at that date. Gains and losses due to the effect of foreign currency transactions are included in the consolidated statement of income for the period within "Exchange gains (losses) in foreign currencies".

At the end of the reporting period, monetary assets and liabilities denominated in Unidades de Fomento ("UF") have been denominated in US\$, considering the exchange rates in effect at the end of each period (12-31-2024: US\$ 38,55; 12-31-2023: US\$ 41.94).

Expenses and income in local currency have been expressed in dollars at the observed exchange rate, corresponding to the date of the accounting record of each transaction.

The translation of the financial statements of subsidiaries, associates and jointly controlled entities, whose functional currency is different from Codelco's presentation currency, is performed as follows for consolidation purposes:

- Assets and liabilities are converted using the prevailing exchange rate on the reporting date.
- Income and expenses for each statement of income are translated at average exchange rates for the period.
- All resulting exchange differences are recognized in comprehensive income and accumulated in equity under the heading "Reserve on exchange differences on translation."

The exchange rates used in each reporting period were as follows:

Relationship	Closing exchange rates	
	12-31-2024	12-31-2023
USD / CLP	0.00100	0.00114
USD / GBP	1.25345	1.27486
USD / BRL	0.16189	0.20613
USD / EURO	1.03896	1.10595
USD / AUD	0.62212	0.68315
USD / HKD	0.12880	0.12803
USD / RMB	0.13672	0.14040

- f. Offsetting balances and transactions** - As a general standard, assets and liabilities, revenue, and expenses, are not offset in the financial statements, except for those cases in which offsetting is required or is allowed by a standard and the presentation reflects the substance of the transaction.

Income or expenses arising from transactions which, for contractual or legal reasons, permit the possibility of offsetting and which the Corporation intends to liquidate for their net value or realize the assets and settle the liabilities simultaneously, are stated net in the statement of income.

- g. Property, plant and equipment and depreciation** - Items of property, plant and equipment are initially recognized at cost. After initial recognition, they are measured at cost, less any accumulated depreciation and any accumulated impairment losses.

The cost of property, plant and equipment includes the costs of expansion, modernization or improvements that represent an increase in productivity, capacity or efficiency, or an

increase in the useful life of the assets, and are capitalized as an increase in the cost of the related assets.

The assets included in property, plant and equipment are depreciated, as a general rule, using the units of production method, when the activity performed by the asset is directly attributable to the mine production process. In other cases, a straight-line depreciation criterion is used.

The assets included in property, plant and equipment and certain intangibles (software) are depreciated over their economic useful lives, as described below:

Category	Useful life
Land	Not depreciated
Land on mine site	Unit of production
Buildings	Straight-line over 20-50 years
Buildings in underground mine levels	Units of production level
Vehicles	Straight-line over 3-7 years
Plant and equipment	Unit of production
Smelters	Unit of production
Refineries	Unit of production
Mining rights	Unit of production
Support equipment	Unit of production
Intangibles - software	Straight-line over 8 years
Open pit and underground mine development	Unit of production

Estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, and any change in estimates is recognized prospectively.

Additionally, depreciation methods and estimated useful lives of assets, especially plants, facilities and infrastructure may be revised at the end of each year or during the year according to changes in the structure of reserves of the Corporation and productive long-term plans updated as of that date.

This review may be made at any time if the conditions of ore reserves change significantly because of new known information, confirmed, and officially released by the Corporation.

The gain or loss resulting from the disposal or retirement of an asset is calculated as the difference between the price obtained on disposal and the value recorded in the books, recognizing the charge or credit to income for the period.

Construction in progress includes the amounts invested in the construction of property, plant and equipment and in mining development projects. Construction in progress is transferred to assets in operation once the testing period has ended and when they are ready for use; at that point, depreciation begins to be recognized.

Borrowing costs that are directly attributable to the acquisition or construction of assets that require a substantial period before they are ready for use or sale are capitalized as part of the cost of the corresponding items of property, plant, and equipment.

The ore deposits owned by the Corporation are recorded in the accounting records at US\$1. Notwithstanding the above, those reserves and resources acquired as part of acquisition of entities accounted for as business combinations, are recognized at their fair value.

- h. Intangible assets** - The Corporation initially recognizes these assets at acquisition cost. The cost is amortized systematically over their useful lives, except in the case of assets with indefinite useful lives, which are not amortized, and are assessed for impairment at least once a year and, in any case, whenever there is an indication that impairment may have occurred. At the end of each reporting period, these assets are measured at their cost less any accumulated amortization (when applicable) and any accumulated impairment losses.

The expenditures for the development of Technology and Innovation Projects are recognized as intangible assets at their cost and are considered to have indefinite useful lives. Recognition applies, if and only if, all the following have been demonstrated:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- The intention to complete the intangible asset to use or sell it;
- The ability to use or sell the intangible asset;
- That the intangible asset will generate probable future economic benefits;
- The availability of adequate technical, financial, and other resources to complete the development and to use or sell the intangible asset; and
- The disbursement attributable to the intangible asset during its development can be reliably appraised

Research expenses for technology and innovation projects are recognized in profit or loss when incurred.

- i. Impairment of property, plant and equipment and intangible assets** - Property, plant and equipment and intangible assets with finite useful lives are reviewed for impairment to verify whether there is any indication that the carrying amount may not be recoverable. If such an indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment to be recorded.

For intangible assets with indefinite useful lives, their recoverable amounts are annually estimated at the end of each reporting period.

When an asset does not generate cash flows that are independent from other assets, Codelco determines the recoverable amount of the CGU to which the asset belongs.

The Corporation has defined each of its divisions as a cash generating unit

Recoverable amount of an asset is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. On the other hand, the fair value less cost of disposal is usually determined for operational assets considering the Life of Mine ("LOM"), based on a model of discounted cash flows, while the assets not included in LOM as resources and potential resources to exploit are measured by using a market model of multiples for comparable transactions.

If the recoverable amount of an asset or CGU is estimated to be less than it is carrying amount, an impairment loss is recognized immediately in profit or loss, reducing the carrying amount to its recoverable amount. In the event of a subsequent reversal of the impairment, the carrying amount is increased to the revised estimate of the recoverable amount, but to the extent that it does not exceed the carrying amount that would have been determined had no impairment been previously recognized.

The estimates of future cash flow for a CGU are based on future production forecasts, future prices of basic products and future production costs. Under IAS 36 "Impairment of Assets", there are certain restrictions for future cash flows estimates related to future restructurings and future cost efficiencies. When calculating value in use, it is also necessary to base the calculations on the spot exchange rate at the date of calculation

- j. Expenditures for exploration and evaluation of mineral resources, mine development and mining operations** - The Corporation has defined an accounting policy for each of these expenditures.

Development expenses for deposits under exploitation whose purpose is to maintain production levels are recognized in profit or loss when incurred.

Exploration and evaluation costs such as: drillings of deposits, including expenses necessary to locate new mineralized areas and engineering studies to determine their potential for commercial exploitation are recognized in profit or loss, normally at the pre-feasibility stage.

Pre-operating and mine development expenses (normally after feasibility engineering is reached) incurred during the execution of a project and until its start-up are capitalized and amortized in relation to the future production of the mine. These costs include stripping of waste material, constructing the mine's infrastructure and other works carried out prior to the production phase.

Finally, costs for defining of new areas or deposit areas in exploitation and of mining operations (PP&E) are recognized in property, plant and equipment and are amortized through profit or loss over the period during which the benefits are obtained.

In accordance with the criteria outlined above, the costs associated with acquired exploration and mining exploitation licenses that are part of a project in the feasibility stage will be classified as property, plant, and equipment. Prior to this stage, these assets will be presented as non-amortizable intangible assets.

- k. Income taxes and deferred taxes** - Codelco and its Chilean subsidiaries recognize annually income taxes based on the net taxable income determined as per the standards established in the Income Tax Law and Article 2 of D.L. 2398, Codelco also recognizes the specific tax on mining activities referred to in Law No 20026 of 2005, until December 31, 2023, and the Mining Royalty Tax referred to in Law No. 21590, as from January 1, 2024. Its foreign subsidiaries recognize income taxes according to the tax regulations of the respective countries.

In addition, Codelco's taxable income in each period is subject to the tax regime established in Article 26 of D.L. No. 1350, and it must pay the encumbrances in March, June, September, and December of each year, based on a provisional tax calculation.

The deferred taxes arising from temporary differences and other events that create differences between the accounting and tax bases of assets and liabilities, are recorded in accordance with the standards established in IAS 12 "Income tax".

Deferred taxes are also recognized for undistributed profits of some subsidiaries and associates, at the remittance tax rate on dividends paid by these companies to the Corporation.

- l. Inventories** - Inventories are measured at cost when such does not exceed net realizable value. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale (i.e., marketing, sales, and distribution expenses). Costs of inventories are determined according to the following methods:
- **Finished products and products in process:** These inventories are measured at their average production cost determined using the absorption costing method, including labor, depreciation of fixed assets, amortization of intangibles and indirect costs of each period. Inventories of products in process are classified in current and non-current, according to the normal cycle of operation
 - **Materials in warehouse:** These inventories are valued at acquisition cost and the Corporation determines an allowance for obsolescence considering that slow-moving materials in the warehouse remain in stock.
 - **Materials in transit:** These inventories are measured at cost incurred at the end of reporting period. Any difference because of an estimate of net realizable value of the inventories lower than its carrying amount is recognized in profit or loss.

- m. Dividends** – In accordance with Article 6 of D.L. 1350, the Corporation has a mandatory obligation to distribute its net income as presented in the financial statements. The payment obligation is recognized on an accrual basis. (see note 20)
- n. Employee benefits** - Codelco recognizes a provision for employee benefits when there is a present obligation (legal or constructive) as a result of services rendered by its employees.

The employment contracts stipulate, subject to compliance with certain conditions, the payment of an employee severance indemnity when an employment contract ends. In general, this corresponds to one monthly salary per year of service and considers the components of the final remuneration which are contractually defined as the basis for the indemnity. This employee benefit has been classified as a defined benefit plan.

Codelco has also agreed to post-employment medical care benefits for certain retirees. This employee benefit has been classified as a defined benefit plan.

These plans continue to be unfunded as of December 31, 2024.

The employee severance indemnity and the post-employment medical plan obligations are determined using the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. The defined benefit plan obligations recognized in the statement of financial position represent the present value of the accrued obligations. Actuarial gains and losses are recognized immediately in other comprehensive income and will not be reclassified to profit or loss.

The Corporation's management uses assumptions to determine the best estimate of these benefits. The assumptions include an annual discount rate, expected increases in salaries and turnover rate, among other factors.

In accordance with its operating optimization programs to reduce costs and increase labor productivity by incorporating new current technologies and/or better management practices, the Corporation has established employee retirement programs by amending certain employment contracts or collective union agreements to include benefits encouraging employees to early retire, for which the necessary provisions are made based on the accrued obligation at current value. In case of employee retirement programs which involve multi-year periods, the accrued obligations are updated using a discount rate determined based on financial instruments denominated in the same currency and similar maturities that will be used to pay the obligations.

- o. Provisions for decommissioning and site restoration costs** - The Corporation recognizes a provision for the estimated future costs of decommissioning and restoration of mining projects in development or production when a mining activity causes a disruption under a constructive or legal obligation. Costs are estimated on the basis of a formal closure plan and cost estimates are annually reviewed.

Costs arising from the obligation to dismantle a plant installation or other site preparation work, discounted to their present value, are provided for and capitalized at the beginning of each project or at the origin of the constructive or legal obligation as soon as the obligation to incur such costs arises.

These decommissioning and restoration costs are recorded in income through the depreciation of the asset that gave rise to such cost, and the use of the provision is made when the decommissioning materializes. Subsequent changes in estimates of decommissioning-related liabilities are added to or deducted from the costs of the related assets in the period in which the adjustment is made.

Other restoration costs, outside the scope of IAS 16, Property, Plant and Equipment, are provided for at their present value against operating results and the use of the provision is made in the period in which the restoration work is performed.

The accretion of the discount on a closure liability due to the passage of time is recognized as a finance expense in the statement of income.

- p. Leases** - The Corporation evaluates its contracts at initial application to determine whether they contain a lease. The Corporation recognizes a right-of-use asset and a corresponding liability for lease with respect to all lease agreements in which Codelco is the lessee, except for short-term leases (defined as a lease with a lease term of twelve months or less) and leases of low-value assets. For these leases, the Corporation recognizes the lease payments as an operating cost on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which the economic benefits of the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that have not been paid at the commencement date, discounted using the interest rate implicit in the lease. If this rate cannot be easily determined, the Corporation uses the incremental borrowing rate.

The incremental rate for loans used by Codelco is determined by estimating the interest rate that the Corporation would have to pay for borrowing the necessary funds to obtain an asset of an equivalent nature similar in value to the right-of-use asset of the respective lease, in a similar economic environment over a similar term.

Lease payments included in the measurement of the lease liability mainly include fixed payments, variable payments that depend on an index or a rate and the exercise price of a purchase option. Variable payments that do not depend on an index or a rate are excluded.

The lease liability is subsequently measured as follows: the carrying amount increased to reflect the interest on the lease liability (using the effective rate method) and the carrying amount is reduced to reflect the lease payments made.

The Corporation revalues the lease liability as to the discount rate (and makes the corresponding adjustments to the asset for respective right of use) through a modified discount rate when:

- There is a change in the term of the lease, or
- There is a change in the assessment of an option to purchase the underlying asset, or
- There is a change in an index or rate which generates a change in cash flows.

Right-of-use assets comprise the amount of the present value of payments not made at the contract inception date, and lease payments made before or up to the inception date, less lease incentives received and any initial direct costs incurred plus other decommissioning and site restoration costs. The right-of-use assets are subsequently measured at cost less accumulated depreciation and accumulated losses due to impairment.

When the Corporation incurs a cost obligation to dismantle or remove a leased asset, restore the location in which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognized and measured in accordance with IAS 37. Costs are included in the corresponding right-of-use asset unless those costs are incurred to produce inventories.

The right-of-use assets are depreciated during the shorter period between the term of the lease and the useful life of the underlying asset. If a lease transfers the ownership of the underlying asset or the cost of the right-of-use asset reflects that the Corporation expects to exercise its option to purchase, the right-of-use asset is depreciated over the useful life of the underlying asset. Depreciation is made from the start date of the lease.

The Corporation applies IAS 36 to determine if a right-of-use asset is impaired and recognizes any impairment loss identified, as described in the accounting policy for "Property, plant and equipment".

q. Revenue from Contracts with Customers - Revenue is recognized in an amount that reflects the consideration to which the entity expects to be entitled in exchange for transferring goods or services to customers.

- **Sale of mineral goods and / or by-products:** Contracts with customers for the sale of mineral goods and / or by-products include the performance obligation for the delivery of the physical goods and the associated transportation service, at the place agreed with the customers. The Corporation recognizes revenue from the sale of goods when the performance obligation is satisfied according to the shipment or dispatch of the products, in accordance with the agreed conditions, such revenue being subject to variations related to the content and / or sale price at the date of its liquidation. Notwithstanding the foregoing, there are some contracts where the performance obligation is satisfied when there is receipt of the product instead of the buyer's corresponding destination, thus recognizing revenue at the time of said

transfer. When services of transport of goods are provided, the Corporation recognizes revenue when the service obligation is satisfied.

Sales that have discounts associated with volume subject to compliance with goals are recognized net, estimating the probability that the volume target will be reached.

Sales contracts include a provisional price at the shipment date. The final price is generally based on the London Metals Exchange ("LME") price. Revenue from sales of copper is measured using estimates of the future spread of metal prices on the LME and/or the *spot* price at the date of shipment, with subsequent adjustments made upon final pricing recognized as revenue. The terms of sales contracts with customers contain provisional pricing arrangements whereby the selling price for metal concentrate is based on prevailing spot prices on a specified future date after shipment to the customer (the "quotation period"). Consequently, the final price is set at the dates indicated in the contracts. Adjustments to provisional sale prices occur based on movements in quoted market prices on the LME up to the date of final pricing. The period between provisional invoicing and final pricing is typically between one and nine months. Changes in fair value over the quotation period and until final pricing are estimated by reference to forward market prices for applicable metals.

As indicated in the note related to hedging policies in the market of metal derivatives, the Corporation enters into operations in the market of metal derivatives. Gains and losses from those which are fair value hedges contracts are recognized as revenues.

- **Rendering of services:** Additionally, the Corporation recognizes revenue for rendering services, which are mainly related to the processing of minerals bought from third parties. Revenue from rendering of services is recognized when the amounts can be measured reliably and when the services have been provided.
- r. **Derivatives contracts** - Codelco uses derivative financial instruments to reduce the risk of fluctuations in sales prices of its products and of exchange rates.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently measured to their fair value at the end of each reporting period.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated in equity under the item "Cash flow hedge reserve." The gain or loss relating to the ineffective portion is immediately recognized in profit or loss and included in the "Finance cost" or "Finance income" line items, depending on the effect of such ineffectiveness. The amount recognized in comprehensive income is reclassified to income, in the same line in which the effects generated by the hedged item are recorded once the results of the hedged transactions are recorded in the same line or until the maturity date of such transactions.

A hedge is considered highly effective when it meets the requirements of IFRS 9. At the time of discontinuation of the hedge contract or the associated designated accounting and according to the circumstances of each case, the accumulated gain/loss on the derivative instrument remains in equity until the hedge transaction occurs, or if discontinuation is expected to occur, the amount in equity is reclassified to profit or loss.

The total fair value of hedging derivatives is classified as “non-current financial asset or liability”, if the remaining maturity of the hedged item is greater than twelve months, and as “current financial asset or liability” if the remaining maturity of the hedged item is less than twelve months.

The derivative contracts held by the Corporation have been entered into to apply the risk hedging policies and are accounted for as indicated below:

- **Hedging policies for exchange rate risk:** The Corporation enters into exchange rate derivatives to hedge exchange rate variations between the U.S. dollar and the currencies of transactions the Corporation undertakes. In accordance with the policies established by the Board of Directors, these hedge transactions are only entered into when there are recognized assets or liabilities, forecasts of highly probable transactions or firm commitments. The Corporation does not enter into derivative transactions for non-hedging purposes.
- **Hedging policies for metal market prices risk:** In accordance with the policies established by the Board of Directors, the Corporation entered into derivative contracts to reduce the inherent risks in the fluctuations of metal prices.

Hedging policies seek to protect expected cash flows from product sales operations by adjusting, when necessary, physical sales contracts to its commercial policy. When the sales commitments are fulfilled and the metal derivative contracts are settled, there is an offset between the results of the sales transactions and the results of hedging using metal derivatives.

Hedging transactions carried out by the Corporation in the metal derivatives market are not undertaken for speculative purposes.

- **Embedded derivatives:** The Corporation has established a procedure that allows for evaluation of the existence of embedded derivatives in financial and non-financial contracts. Where there is an embedded derivative, and the host contract is not a financial instrument and the characteristics and risks of the embedded derivative are not closely related to the host contract, the derivative is required to be recognized separately.
- s. **Segment reporting** - The Corporation has defined its Divisions as its operating segments in accordance with the requirements of IFRS 8, Operating Segments. The mining deposits in operation, where the Corporation conducts its extractive and processing activities are managed by the following Divisions: Chuquicamata, Radomiro Tomic, Ministro Hales,

Gabriela Mistral, Salvador, Andina and El Teniente. In addition, the smelting and refining activities are managed at the Ventanas Division. From June 2023 the Ventanas Division only manages the refining area. All these Divisions have a separate operational management, which reports to the Chief Executive Officer, through the North and South-Central Vice-President of Operations, respectively. Main revenue and expenses items controlled by the Head Office are allocated to the Divisions.

- t. **Presentation of Financial Statements** - For purposes of IAS 1 Presentation of Financial Statements, the Corporation presents its statement of financial position classified as "current and non-current" and its statements of income "by function" and cash flows using the direct method.
- u. **Current and non-current financial assets** - The Corporation determines the classification of its financial assets at the time of initial recognition and reviews it at each closing date. The classification depends on the business model in which the investments are managed and the contractual characteristics of their cash flows.

The Corporation's financial assets are classified into the following categories:

- **At fair value through profit or loss:**
Initial recognition: This category includes those financial assets that do not qualify in the business model to collect contractual cash flows, nor do such cash flows come exclusively from capital and interest. These instruments are initially recognized at fair value.

Subsequent recognition: Their subsequent recognition is at fair value, recording in the consolidated statement of comprehensive income, in the line "Other gains (losses)" any changes in fair value.
- **Amortized cost:**
Initial recognition: This category includes those financial assets that qualify in the business model and that are held for the purpose of collecting contractual cash flows and that meet the "Solely Payment of Principal and Interest" (SPPI) criterion. This category includes certain Trade and other current receivables, and the loans included in other non-current financial assets.

Subsequent recognition: These (debt) instruments are subsequently measured at amortized cost using the effective interest method. The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any impairment allowance.

Interest income is recognized in profit or loss and is calculated by applying the effective interest rate to the gross carrying amount of a financial asset. For financial assets measured at amortized cost that are not part of a designated hedging relationship,

exchange differences are recognized in profit or loss in the "Foreign exchange difference" line item.

- **At fair value through other comprehensive income:**

Initial measurement: Financial assets that meet the criteria "Solely payments of principal and interest" (SPPI) are classified in this category and must be maintained within a business model both to collect the cash flows and to sell the financial assets. These instruments are initially recognized at fair value. In this section, investments in equity instruments are also included.

Subsequent recognition: Their subsequent valuation is at fair value. Interest income calculated using the effective interest rate method, foreign exchange gains and losses, impairment, and dividends are recognized in income. Other net gains and losses are recognized in other comprehensive income. On derecognition, the gains and losses accumulated in comprehensive income while for investments in equity instruments, their reclassification is recorded in retained earnings. Codelco has irrevocably elected to present subsequent changes in the fair value of the investment in equity instruments in other comprehensive income.

v. **Financial liabilities** - Financial liabilities are initially recognized at fair value net of transaction costs. Subsequent to their initial recognition, the valuation of the financial liabilities will depend on their classification, within which the following categories are distinguished:

- **Financial liabilities at fair value through profit or loss:** This category includes financial liabilities defined as held for trading.

Changes in fair value associated with own credit risk are recorded in other comprehensive income unless doing so creates an accounting mismatch.

- **Financial liabilities measured at amortized cost:** This category includes all financial liabilities other than those measured at fair value through profit or loss.

The Corporation includes in this category bonds, obligations and other current payables.

These financial liabilities are measured using the effective interest rate method, recognizing interest expense based on the effective rate.

The method of the effective interest rate corresponds to the method of calculating the amortized cost of a financial liability and the allocation of interest expenses during the corresponding period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate, a shorter period, to the net carrying amount on initial recognition.

Trade and other current payables are financial liabilities that do not explicitly accrue interest and are recognized at their nominal value, which approximates its fair value.

Financial liabilities are derecognized when the liabilities are paid or expire.

- w. Impairment of financial assets** - The Corporation measures the loss allowance at an amount equal to lifetime expected credit losses for certain of its trade receivables. For these, it uses the simplified approach as required under IFRS 9.

The provision matrix is based on the Corporation's historical credit loss experience over the expected life of such trade receivables and is adjusted for forward-looking estimates considering the most relevant macroeconomic factors that affect bad debts.

Other accounts receivable and other financial assets are reviewed using reasonable and sustainable information that is available without cost or disproportionate effort in accordance with IFRS 9 to determine the credit risk of the respective financial assets. A provision for impairment losses on trade receivables and other financial assets is established when there is objective evidence that the amounts due may not be fully recovered.

- x. Statement of cash flows** - The statement of cash flows reflects changes in cash that took place during the period, determined under the direct method. The Corporation has defined the following:
- **Cash flows:** Inflows and outflows of cash or cash equivalents, which are defined as highly liquid investments maturing in less than three months with a low risk of changes in value.
 - **Operating activities:** Are the principal revenue-producing activities of the Corporation and other activities that are not investing or financing activities.
 - **Investing activities:** These are the acquisition and disposal of long-term assets and other investments not included in cash and cash equivalents.
 - **Financing activities:** These are activities that result in changes in the size and composition of net equity and borrowings of the Corporation.

Bank overdrafts are classified as external resources in current liabilities.

- y. Law No. 13196** - Under this law, the return in foreign currency of sales abroad of the Corporation's actual income from its copper production, including by-products, is taxed at 10%. The amount recognized for this concept is presented in the statement of income within the line item "Other expenses by function". See explanatory note in section III. Note 24 letter c) of this financial statements-

- z. Cost of sales** - Cost of sales is determined according to the absorption costing method, including the direct and indirect costs, depreciation, amortization and any other expenses directly attributable to the production process.
- aa. Classification of current and non-current balances** - In the consolidated statement of financial position, the balances are classified according to their maturities, that is, as current for those with a maturity equal to or less than twelve months and as non-current for those with a greater maturity. Where there are obligations whose maturity is less than twelve months, but whose long-term refinancing is insured upon a decision by the Corporation whose intention is to refinance, through credit agreements available unconditionally with long-term maturity, these could be classified as non-current liabilities.

3. New standards and interpretations adopted by the Corporation

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those applied in the preparation of the Corporation's annual consolidated financial statements for the year ended December 31, 2023, except for the adoption of new standards, interpretations and amendments, effective from January 1, 2024, which are:

- a) **Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)**
The amendments aim to promote coherence in applying its requirements by helping companies to determine whether, in the statement of financial position, debts and other liabilities with an uncertain settlement date must be classified as current (maturing or potentially maturing in one year or less) or not current. It is important to note that this amendment must be applied retrospectively and early application is permitted.
- b) **Lease liability on a sale and leaseback (Amendments to IFRS 16)**
The amendment clarifies how a lessee subsequently measures sale and leaseback transactions that meet the requirements of IFRS 15 to be accounted for as a sale.
- c) **Non-current liabilities with covenants (Amendments to IAS 1)**
The amendment clarifies how the conditions that an entity must meet within twelve months after the reporting period affect the classification of a liability.
- d) **Suppliers' financial agreements (Amendments to IAS 7 and IFRS 7)**
The amendments add disclosure requirements and "signaling" within the existing disclosure requirements, which request entities to provide qualitative and quantitative information on suppliers financing arrangements.

The application of these amendments had no impact on the Corporation's consolidated financial statements, but may affect the accounting for future transactions or arrangements.

4. New accounting pronouncements

The following new standards, modifications and interpretations had been issued by the IASB, but their application is not yet mandatory:

New IFRS	Date of mandatory application	Summary
Lack of interchangeability Amendments to IAS 21)	Annual filing and reporting periods beginning on or after January 1, 2025.	Contain guidance to specify when a currency is exchangeable and how to determine the exchange rate when it is not.
Modifications to SASB standards to improve their international applicability	Annual reporting periods beginning on or after January 1, 2025. Will not be approved for use in the EU.	Remove and replace jurisdiction-specific references and definitions in the SASB standards, without materially altering industries, topics or metrics.
Presentation and disclosures in financial statements IFRS 18	Applicable for annual periods beginning on or after January 1, 2027. Not yet approved for use in the EU	Not yet approved for use in the EU IFRS 18 includes requirements for all entities applying IFRS for the presentation and disclosure of information in the financial statements.
Subsidiaries without public accountability: Disclosure information IFRS 19.	Applicable for annual periods beginning on or after January 1, 2027. Not yet approved for use in the EU	IFRS 19 specifies the disclosure requirements that a subsidiary may apply instead of the disclosure requirements of other IFRS Accounting Standards.

Amendments to IFRS 9 and IFRS 7 relating to the classification and measurement of financial instruments.	Annual reporting periods beginning on or after January 1, 2026. Not yet approved for use in the EU	Address issues identified during the post-implementation review of the classification and measurement requirements of IFRS 9 Financial Instruments.
Annual Improvements to IFRS Accounting Standards – Volume 11	Annual reporting periods starting on or after 1 January 2026. Not yet approved for use in the EU.	Includes the following amendments: IFRS 1: Hedge accounting by a first-time adopter. IFRS 7: Gain or loss on derecognition. IFRS 7: Disclosure of the deferred difference between fair value and transaction price. IFRS 7: Introduction and disclosures about credit risk. IFRS 9: Derecognition of lessee's lease liabilities. IFRS 9: Transaction price. IFRS 10: Determination of a "de facto agent". IAS 7: Cost method.

Management is currently evaluating the impact of the adoption of these new regulations and modifications. It is not expected to have a significant impact on the consolidated financial statements.

III. EXPLANATORY NOTES

1. Cash and cash equivalents

The detail of cash and cash equivalents as of December 31, 2024 and 2023, is as follows:

Item	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Cash on hand	114	1,030
Bank balances	447,456	618,501
Time Deposits	219,146	698,085
Mutual funds - Money market	14,104	24,427
Total cash and cash equivalents	680,820	1,342,043

Interest on time deposits is recognized on an accrual basis using the contractual interest rate of each of these instruments.

The Corporation does not hold any significant amounts of cash and cash equivalents that have a restriction on use.

Cash and cash equivalents meet the low credit risk exemption under IFRS 9. The classification of time deposits meet the requirements of 7.

2. Trade and other receivables

a) Trade and other receivables

The following table sets forth trade and other receivables balances, with their corresponding expected credit loss provision:

Item	Current		Non-current	
	12-31-2024 ThUS\$	12-31-2023 ThUS\$	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Trade receivables (1)	2,245,617	2,719,360	-	-
Expected Credit Loss provision (3)	(1,596)	(1,591)	-	-
Subtotal trade receivables, net	2,244,021	2,717,769	-	-
Other accounts receivable (2)	885,367	714,925	79,708	71,272
Expected Credit Loss provision (3)	(24,658)	(27,026)	-	-
Other other accounts receivable, net	860,709	687,899	79,708	71,272
Total	3,104,730	3,405,668	79,708	71,272

(1) Trade receivables correspond to the sales of copper and its by-products, those that in general are sold in cash or bank credit notes.

(2) Other receivables mainly consist of the following items:

- Remaining tax credit susceptible to refund VAT and other taxes receivable, amounting to ThUS\$632,368 and ThUS\$ 414,058 as of December 31, 2024 and 2023, respectively.
- Receivables owed by the Corporation's personnel, for short-term and long-term current loans of ThUS\$115,884 and ThUS\$76,932, respectively (as of December 31, 2023 ThUS\$83,778 and ThUS\$70,079, respectively), both deducted monthly from their salaries. Mortgage loans granted to the Corporation's personnel amounting to ThUS\$22,644, which are mainly long-term, are with mortgage guarantees (as of December 31, 2023 ThUS\$26,604).
- Advances to suppliers and contractors, to be deducted from the respective payment statements for ThUS\$85,767 and ThUS\$117,332 as of December 31, 2024 and 2023, respectively.
- Accounts receivable for factory services to ENAMI. These services for the year 2024 amounted to ThUS\$1,127. Additionally, in order to complement the commercial commitments between Codelco and ENAMI, the Corporation purchases copper concentrate and by-products and sells cathodes to ENAMI. Both Codelco and ENAMI are companies owned by the State of Chile.

(3) The Corporation recognizes an expected credit loss provision based on its expected credit loss model.

The reconciliation of changes in the expected credit loss provision, were as follows:

Item	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Opening balance	28,617	29,129
Increases	849	3,616
Discharges / applications	(3,212)	(4,128)
Movement, subtotal	(2,363)	(512)
Closing balance	26,254	28,617

The balance of past due but not impaired balances is as follows:

Ageing	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Less than 90 days	3,024	6,979
90 days - 1 year	2,214	65
Over 1 year	946	652
Total unprovisioned past-due debt	6,184	7,696

b) Accruals for open sales invoices

The Corporation adjusts its revenues and trade receivable balances, based on future copper prices through the recognition of an accrual for open sales invoices.

When future price of copper is lower than the provisional invoicing price, the accrual is presented in the statement of financial position as follows:

- For those customers that have due balances with the Corporation, the accrual is presented as a deduction from the line item trade and other current receivables.
- For those customers that do not have due balances with the Corporation, the accrual is presented in the line item trade and other current payables.

When the future copper price is higher than the provisional invoicing price, the accrual is added to the line item trade and other current receivables.

In accordance with the above, as of December 31, 2024, a credit balance of ThUS\$ 139,383 for provisions for unfinished sales invoices was recorded in the Trade Receivables and Other Accounts Receivable account. As of December 31, 2023, this account had a debit balance of ThUS\$ 83,778.

As of December 31, 2024 and 2023, the negative provision for unfinished invoices, associated with clients that do not maintain balances owed to Codelco, was reclassified to the Trade payables item of current liabilities, ThUS\$9,379 and ThUS\$1, respectively, which added to the balance presented in the Trade debtors and other accounts receivable item, total a negative net provision of ThUS\$148,762 and ThUS\$83,777, respectively.

3. Balances and transactions with related parties

a) Transactions with related persons

In accordance with Law on New Corporate Governance, the members of Codelco's Board are, in terms of transactions with related persons, subject to the provisions of Title XVI of Law on Corporations, which sets the requirements regarding transactions with related parties in publicly traded companies and their subsidiaries.

Notwithstanding the foregoing, pursuant to the provisions of the final paragraph of Article 147 b) of Title XVI, which contains exceptions to the approval process for transactions with related parties, the Corporation has established a general policy over customary transactions (which was communicated through a significant event notice to the CMF), that defines customary transactions as those carried out with its related parties in the normal course of business, which contributes to the social interest and are necessary to the normal development of Codelco's activities.

Likewise, consistent with the referred to above standard, the Corporation has implemented as part of its internal regulatory framework, a specific policy dealing with business between related persons and companies with Codelco's executives. Codelco's Corporate Policy No.18 ("CCP No. 18"), the latest version currently in force, was approved by the Chief Executive Officer and the Board of Directors.

Accordingly, Codelco without the authorization required in CCP No. 18 and of the Board of Directors, as required by Law or by the Corporation by-laws, shall not enter into any contracts or agreements involving one or more Directors, its Chief Executive Officer, the members of Division's Managing Committees, Vice-presidents, Legal Counsel, General Auditor, Division Chief Executive Officers, Advisors of Senior Management, employees who must make recommendations and/or have the authority to award tenders, assignments of purchases and/or contracting goods and services, and employees in management positions (up to fourth hierarchical level in the organization), including their spouses, children and other relatives up to second degree of relation, with a direct interest, represented by third parties or on behalf of another person. Likewise, CCP No. 18 requires administrators of Corporation's contracts to declare all related persons and disqualify himself/herself if any related persons are involved within the field of his/her job responsibilities.

This prohibition also includes the companies in which such administrators are involved through ownership or management, either directly or through representation of other natural persons or legal entities, as well as those individuals who also have ownership or management in those companies.

The Board of Directors has been informed and approved certain transactions as defined in CCP No. 18.

These operations include those shown in the following table, for the total amounts mentioned, which must be executed within the time periods specified in each contract:

Company	Taxpayer ID No.	Country	Nature of relationship	Transaction description	1-1-2024	1-1-2023

b) Key Management of the Corporation

In accordance with the policy established by the Board of Directors and its related regulations, the transactions with the Directors, the Chief Executive Officer, Vice Presidents, Corporate Auditor, the members of the Divisional Management Committees and Divisional General Managers shall be approved by the Board of Directors.

During the years ended December 31, 2024 and 2023, the members of the Board of Directors have received the following amounts as per diems, salaries and fees:

Name	Taxpayer ID No.	Country	Nature of relationship	Transaction description	1-1-2024	1-1-2023
					12-31-2024 Amount ThUS\$	12-31-2023 Amount ThUS\$
Juan Morales Jaramillo	5.078.923-3	Chile	Director	Directors fee	-	31
Pedro Errázuriz Domínguez	7.051.188-6	Chile	Director	Directors fee	74	84
Patricia Núñez Figueroa	9.761.676-0	Chile	Director	Directors fee	-	14
Máximo Pacheco Matte	6.371.887-4	Chile	Chairman of the Board of directors	Directors fee	112	126
Josefina Montenegro Araneda	10.780.138-3	Chile	Director	Directors fee	74	84
Alejandra Wood Huidobro	7.204.368-5	Chile	Director	Directors fee	74	84
Nelson Cáceres Hernández	14.379.277-3	Chile	Director	Directors fee	74	84
Nelson Cáceres Hernández	14.379.277-3	Chile	Director	Payroll	107	77
Isabel Marshall Lagarrigue	5.664.265-K	Chile	Director	Directors fee	93	84
Eduardo Bitran Colodro	7.950.535-8	Chile	Director	Directors fee	74	70
Ricardo Álvarez Fuentes	6.689.778-8	Chile	Director	Directors fee	74	55

By Decree Law (DL) No. 70, promulgated on February 5, 2024, established the compensation for the Corporation's Directors. The compensation to Board of Director members is as follows:

- The Directors of Codelco will receive a fixed monthly compensation of Ch\$4,413,071 (four million four hundred thirteen thousand seventy-one Chilean pesos) for meeting attendance. The payment of the monthly compensation requires at least one meeting attendance each month.
- The Chairman of the Board will receive a fixed monthly compensation of Ch\$8,826,140 (eight million eight hundred and twenty-six thousand one hundred and forty Chilean pesos).
- Each member of the Directors' Committee, whether the one referred to in Article 50 bis) of Law No. 18046 or another established by the Corporation by-laws, will receive a fixed additional monthly compensation of Ch\$1,471,022 (one million four hundred and seventy-one thousand and twenty-two Chilean pesos) for meeting attendance, regardless of the number of committees of which they are members. In addition, the Chairman of the Directors' Committee will receive a fixed monthly compensation of Ch\$2,942,047 (two million nine hundred and forty-two thousand- and forty-seven-pesos Chilean pesos).
- The compensation established in the legal text is effective for a period of two years, as from March 1, 2024, and will not be adjusted during said period

The salaries and benefits granted to the Corporation's executives are exclusively governed by the Codelco Executive Salaries and Benefits Manual.

On the other hand, the short-term benefits to key management of the Corporation expensed during the years ended December 31, 2024 and 2023, were ThUS\$10,891 and ThUS\$13,603 respectively.

During the years ended December 31, 2024 and 2023, severance payments and other payments associated with the retirement of Codelco's senior executives were ThUS\$1,302 and ThUS\$2,414, respectively.

There were no payments for other non-current benefits during the years ended December 31, 2024 and 2023, other than those mentioned in the preceding paragraph.

There are no share-based payment plans.

c) Transactions with companies in which Codelco has ownership interest

The Corporation undertakes commercial and financial transactions that are necessary for its activities with its subsidiaries, associates and joint ventures ("related parties"). The financial transactions correspond mainly to loans granted (mercantile current accounts).

Commercial transactions with related companies mainly consist of purchases/sales of products or rendering of services carried out under market conditions and prices, which do not bear any interest or indexation.

The Corporation does not make expected credit loss provision accounts on the main items receivable from its related companies since these have been subscribed with the relevant safeguards in the respective debt agreements.

The detail of accounts receivable and payable between the Corporation and its related parties as of December 31, 2024 and December 31, 2023 is as follows:

Accounts receivable from related entities:

Taxpayer ID No.	Name	Country of origin	Nature of relationship	Currency of readjustment	Current		Non-current

d) Additional information

The purchase/sales of products transactions with Anglo American Sur S.A., are regular business activity transactions to buy/sell copper and other products. On the other hand, there are certain transactions related to the contract entered into with the subsidiary Inversiones Mineras Nueva Acrux SpA (whose non-controlling shareholder is Mitsui) and Anglo American Sur S.A., under which the latter agreed to sell a portion of its annual copper output to said subsidiary.

4. Inventories

Inventories as of December 31, 2024 and December 31, 2023 are detailed as follows:

Item	Current		Non-current	
	12-31-2024 ThUS\$	12-31-2023 ThUS\$	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Finished products	276,474	316,986	-	-
Subtotal finished products, net	276,474	316,986	-	-
Products in process	1,378,734	1,294,378	536,157	494,747
Subtotal products in process, net	1,378,734	1,294,378	536,157	494,747
Materials in warehouse and others	954,664	1,022,528	-	-
Adjustment for obsolescence provision	(175,195)	(178,191)	-	-
Subtotal materials in warehouse and other, net	779,469	844,337	-	-
Total inventories	2,434,677	2,455,701	536,157	494,747

Inventories recognized in cost of sales during the years ended December 31, 2024 and 2023, correspond to finished products and amount to ThUS\$12,897,175 and ThUS\$13,240,509 respectively, which do not consider the cost of processing services of ThUS\$8,563 and ThUS\$32,834, respectively.

During the years ended December 31, 2024, US\$91,280 was reclassified from the inventory item for strategic inventories to the property, plant and equipment item. (ThUS\$ 22,978 as of December 31, 2023).

The reconciliation of changes in the allowance for obsolescence is detailed below:

Movement obsolescence provisión	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Opening balance	(178,191)	(172,764)
Decrease (increase) in provision	2,996	(5,427)
Closing balance	(175,195)	(178,191)

During the years ended December 31, 2024 and 2023, inventory adjustments of ThUS\$23,178 and ThUS\$13,248, respectively, were recognized.

As of December 31, 2024, the net realizable value provision for copper was ThUS\$ 26,603, with a positive effect on results due to the reversal of the provision amounting to ThUS\$ 10,043 (positive result of ThUS\$ 17,889 in 2023). As of December 31, 2023, the balance of the net realizable value provision was ThUS\$ 36,646.

As of December 31, 2024 and 2023, there are no unrealized gains or losses recognized for purchase and sale transactions of inventories with related parties.

As of December 31, 2024 and 2023, there are no inventories pledged as security for liabilities.

5. Income taxes and deferred taxes

a) Deferred tax assets and liabilities

Deferred taxes are presented in the Statement of Financial Position as follows:

Deferred taxes	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Non-current assets	102,936	103,530
Non-current liabilities	8,716,220	8,241,800
Total deferred taxes, net	8,613,284	8,138,270

The following table shows the deferred tax opening, net, classified as assets or liabilities according to the nature of the temporary differences:

Deferred tax assets	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Provisions	1,693,400	1,788,284
Tax loss	662,989	576,179
Contracts for the right to use assets	126	11,546
Other	7,245	10,845
Total deferred tax assets	2,363,760	2,386,854

Deferred tax liabilities	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Accelerated depreciation	8,457,491	8,298,087
Change in property, plant and equipment	1,603,666	1,395,155
Tax on mining activity	646,735	605,449
Fair value of acquired mineral claims	168,988	168,959

Specific tax on mining activity			1,527,244			(76,362)	(76,362)
Difference in the rate change in the Mining Margin Royalty art.3 Law 21.591							(228,202)
TOTAL INCOME TAX				176,417	256,205	(38,504)	165,916

For the calculation of deferred tax, the Corporation has applied the following taxes rates:

- Income Tax, the Corporation has applied a rate of 25% to calculate deferred income tax and first category income tax. As a state company, the Corporation is classified as those companies of article 14 letter G of the Income Tax Law, incorporated in the Tax Reform Law No. 21210 of February 24, 2020, maintaining the General Regime of Taxation. Meanwhile, the national subsidiaries and associates, by default, have applied the Partially Integrated taxation system with a rate of 27% for both years. Foreign subsidiaries and associates have applied the tax rates in force in their respective countries.
- Additional rate of 40%. Article 2 of Decree Law 2398 establishes an additional 40% income tax rate on the Corporation's taxable income plus the share of retained earnings of companies not organized as corporations or joint stock companies and the dividends actually received from the latter.

- c. Mining Taxes On August 10, 2023, Law No. 21591 on Mining Royalty was published in the Official Gazette, effective as of January 1, 2024. The law establishes that the new mining royalty tax is comprised of two components: The ad valorem component and the mining margin component. The ad valorem component corresponds to 1% of copper sales and applies to miners whose copper sales represent more than 50% of total sales. The mining margin component applies a rate of between 8% and 26% on mining operating margins in the range of 20% to 80%.

Codelco has recognized in its third quarter financial statements the following effects for each component of the new Mining Royalty:

- Mining Margin Component: For the year 2024, an expense of ThUS\$ 140,603 was determined, which is presented in income tax expense in the income statement, of which ThUS\$ 41,023 corresponds to the effect of deferred taxes.
-
- Ad Valorem Component: For the year 2024, an expense of ThUS\$ 119,354 was determined, which is presented in other expenses by function in the income statement (see note 24, letter b).

6. Current tax assets and liabilities

The current tax balance is presented net of monthly provisional payments as an asset or liability in Current Taxes determined as indicated in section II. Main accounting policies, 2.k):

Current tax assets	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Recoverable taxes	1,814	2,620

- c) The balance of construction in progress is directly associated with the operating activities of the Corporation and relates to the acquisition of equipment for projects in construction and associated costs for their completion.
- d) The Corporation has signed insurance policies to cover the possible risks to which the various property, plant and equipment items are subject, as well as the possible claims that may arise for the period of its activities. Such policies sufficiently cover the risks to which they are subject in Management's opinion.
- e) Capitalized interest costs during the years ended December 31, 2024 and 2023 amounted to ThUS\$332,010 and ThUS\$246,136, respectively. The annual capitalization rate was 4.88% and 4.70% at December 31, 2024 and 2023, respectively.
- f) Expenses on exploration and drilling of deposits recognized in profit or loss and the cash outflows disbursed for the same concepts are presented in the following table:

Expenditure on exploration and drilling reservoirs	1-1-2024 12-31-2024 ThUS\$	1-1-2023 12-31-2023 ThUS\$
Net income for the period	66,548	76,472
Cash outflows disbursed	78,612	77,210

- g) The detail of "Other assets" under "Property, plant and equipment" is as follows:

Other assets, net	12-31-2024 ThUS\$	12-31-2023 ThUS\$
White Project Assets(1)	234,814	-
Maintenances and other major repairs	106,621	66,937
Other Assets - Calama Plan	4,805	16,708
Other	9,388	6,559
Other assets, net	355,628	90,204

- (1) Corresponds to the assets acquired in the purchase of the company Lithium Power International Limited in 2024. The value assigned to such assets was determined based on the consideration paid in the purchase transaction, plus transaction costs.

As of December 31, 2024 and 2023, the costs of acquired exploration and mining exploitation licenses that are part of a project in a pre-feasibility stage are presented under the category of Intangible Assets.

- h) The Corporation currently has no ownership restrictions relating to assets belonging to Property, plant and equipment, except for leased assets whose legal title corresponds to the lessor.
- i) Codelco has not pledged property, plant and equipment as collateral for debt obligations.

8. Leases

8.1 Right-of-use assets

As of December 31, 2024 and December 31, 2023, the breakdown of the right of use asset category is:

Detail	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Right-of-use assets, gross	954,168	885,908
Right-of-use assets, accumulated depreciation	575,719	495,152
Total right-of-use assets, net	378,449	390,756

Movements for the years ended December 31, 2024 and year ended December 31, 2023 are as follows:

Reconciliation of changes in Right-of-use Assets	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Opening balance	390,756	405,843
Increases	158,078	140,362
Depreciation	(169,051)	(155,088)
Increase (decrease) due to other changes	(1,333)	681
Retirements, right-of-use assets	(1)	(1,042)
Total movements	(12,307)	(15,087)
Closing balance	378,449	390,756

The composition by asset class is as follows:

Right-of-use assets, net, by asset class	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Buildings	4,714	4,039
Land	253	259
Plant and equipment	153,979	185,336
Fixtures and fittings	8,031	5,513
Motor vehicles	184,730	182,193
Right-of-use assets	26,742	13,416
Total	378,449	390,756

8.2 Liabilities for current and non-current leases

As of December 31, 2024 and December 31, 2023, the payment commitments for leasing operations are summarized in the following table:

Lease Current and Non-current	12-31-2024			12-31-2023		
	Gross ThUS\$	Interest ThUS\$	Equity ThUS\$	Gross ThUS\$	Interest ThUS\$	Equity ThUS\$
up to 90 days	50,766	(4,896)	45,870	49,254	(5,482)	43,772
more than 90 days up to 1 year	105,961	(11,893)	94,068	103,977	(14,020)	89,957
more than 1 year up to 2 years	97,214	(10,104)	87,110	111,543	(12,996)	98,547
over 2 years up to 3 years	48,982	(5,904)	43,078	70,506	(8,468)	62,038
over 3 years up to 4 years	30,791	(3,650)	27,141	35,700	(5,819)	29,881
over 4 years up to 5 years	19,569	(2,564)	17,005	20,332	(3,864)	16,468
more than 5 years	63,317	(6,213)	57,104	68,984	(10,874)	58,110
Total	416,600	(45,224)	371,376	460,296	(61,523)	398,773

Leasing operations are generated by service contracts, mainly for motor vehicles, plants and equipment and facilities.

The expense related to short-term leases, low-value assets and variable leases not included in the measurement of lease liabilities, during the years ended December 31, 2024 and 2023, is presented in the following table:

Lease expense	1-1-2024 12-31-2024 ThUS\$	1-1-2023 12-31-2023 ThUS\$
Short-term leases	13,622	14,482
Low value assets	6,521	4,145
Variable leases not included in the measurement of lease liabilities	896,341	966,468
TOTAL	916,484	985,095

9. Intangible Assets other than goodwill

a) The composition of intangible assets other than goodwill is presented below:

Composition of intangible assets	12-31-2024 MUS\$	12-31-2023 MUS\$
Intangible assets with defined useful life, net	38,889	39,632
Intangible assets with indefinite useful life	260,460	260,460
Total	299,349	300,092

b) Statement of Balances:

Intangible Assets	12-31-2024			12-31-2023

d) Additional Information:

As of December 31, 2024 and 2023, the Corporation holds significant intangible assets amounting to MUS\$ 260,000, corresponding to mining properties that became part of Codelco's assets in 2012 as part of the acquisition of shares in Anglo American Sur S.A. (see letter j of section II on Main Accounting Policies).

10. Investments accounted for using the equity method

The value of the investment and the accrued results of investments accounted for using the equity method are presented below:

Associates	Taxpayer ID No.	Currency Functional	Share of		Investment value		Accrued Result	
			12-31-2024 %	12-31-2023 %	12-31-2024 ThUS\$	12-31-2023 ThUS\$	1-1-2024 12-31-2024 ThUS\$	1-1-2023 12-31-2023 ThUS\$

a) Associates

Nuevo Cobre S.A. (Former Agua de la Falda S.A.)

On November 8, 2023 the strategic association between Codelco and Nuevo Cobre S.A. (Former Agua de la Falda S.A.) was formalized, where the company changes its corporate name.

As of December 31, 2024, Codelco holds a 42.26% ownership interest in Nuevo Cobre S.A, with the remaining 57.74% owned by Minera Rio Tinto.

The corporate purpose of this company is to exploit deposits of copper and other minerals, in the Atacama region of Chile.

Sociedad Contractual Minera El Abra

Sociedad Contractual Minera El Abra was incorporated in 1994. As of December 31, 2024, Codelco holds a 49% ownership interest, with the remaining 51% owned by Cyprus El Abra Corporation, a subsidiary of Freeport-McMoRan Copper & Gold Inc.

The company business activities involve the extraction, production and selling of copper cathodes.

Sociedad Contractual Minera Purén

As of December 31, 2024, Codelco holds a 35% ownership interest, with the remaining 65% owned by Compañía Minera Mantos de Oro.

This company's corporate purpose is to explore, identify, survey, investigate, develop and exploit mining deposits in order to extract, produce and process minerals.

Inca de Oro S.A.

On September 1, 2009, Codelco's Board of Directors authorized the incorporation of a new company aimed to develop studies allowing the continuity of the Inca de Oro Project, which is a wholly-owned subsidiary of Codelco.

As of December 31, 2024, Codelco holds a 30.60% ownership interest in this company (PanAust IDO Ltda. has 69.40%).

Planta Recuperadora de Metales SpA

On December 3, 2012, Planta Recuperadora Metales SpA was incorporated by Codelco, which held a 100% ownership interest in this company.

In 2014, LS-Nikko Copper Inc. was incorporated into the ownership of this company.

As of December 31, 2024, Codelco holds a 34% interest in the capital stock of Planta Recuperadora de Metales SpA, with control remaining with LS-Nikko Copper Inc. based on the elements of control described in the shareholders' agreement.

The principal business activity of the company is the processing of intermediate products of the refining and processing of copper and other metals aiming to recover copper, other metals and other sub products, their transformation to commercial products and the selling and distribution of all classes of goods or inputs derived from such process.

Anglo American Sur S.A.

The principal activities of the Company are the exploration, extraction, exploitation, production, processing and trading of minerals, concentrates, precipitates, copper bars and all metallic and non-metallic minerals, all fossil substances and liquid and gaseous hydrocarbons. This includes the exploration, exploitation and use of all natural energy sources capable of industrial use and the products or by-products obtained, as well as any other related, connected or complementary activities on which the shareholders agree.

As of December 31, 2024, the control of Anglo American Sur S.A. is held by Inversiones Anglo American Sur S.A. with 50.06%, while one of the companies that make up the non-controlling interest is Inversiones Mineras Becrux SpA., which is controlled by Codelco with a 67.80% shareholding, and exercises significant influence over Anglo American Sur S.A. with 29.5%

On August 24, 2012, Codelco recognized the acquisition of ownership interest in Anglo American Sur S.A. which resulted in the initial recognition of the cost of the investment for ThUS\$ 6,490,000 that corresponded to the proportionate share (29.5%) of the net fair value of the identifiable assets and liabilities acquired.

In determining the share of the fair value of the identifiable assets and liabilities acquired, the Corporation considered the resources and mineral reserves that could be measured reliably.

Subsequent to its initial recognition, the value of this investment was adjusted due to an impairment loss recognized on December 31, 2015, in accordance with IAS 36.

As of December 31, 2023, the Corporation performed an evaluation of the value of its investment associated with Anglo American Sur S.A. and determined that the recoverable amount of the asset is less than the carrying value recorded, recognizing an impairment of ThUS\$ 522,448 on the identifiable assets of the associate, which is recognized under the line "Equity in earnings (losses) of associates and joint ventures accounted for using equity method" in the statements of comprehensive income for the year 2023. The aforementioned impairment loss resulted from lower projected production and cost performance.

The recoverable amount for impairment purposes mentioned above was calculated using the fair value methodology less costs of disposal. The recoverable amount of the operating units was determined based on the life of mine by using a discounted cash flow model whose main assumptions included ore reserves declared by the associate, copper price, supply costs, foreign exchange rates, discount rate and market information for the long-term asset valuation. The discount rate used was annual rate of 6.77% after taxes. Furthermore, the proven reserves not included in the mining plan (LOM), as well as the probable reserves to explore, have been valued using a multiples market approach for comparable transactions.

Subsequent to the recognition of the equity in earnings (losses) of the associate as detailed above, no indications are observed that would require additional impairment of the recoverable amount of the investment held in Anglo American Sur S.A.

Kairos S.A.

As of December 31, 2024, the control of the company lies in Honeywell Chile S.A. which owns 60% of the shares while Codelco owns the remaining 40%.

The purpose of the company is to provide automation and control services for industrial and mining activities and to provide technology and software licenses.

The following tables present the assets and liabilities as of December 31, 2024 and 2023 of investments in associates, as well as their respective results during the years ended December 31, 2024 and 2023 and the main movements in investments as of that date.

Profit for the period	111,615	34,293

b) Additional information on unrealized profits

Codelco carries out copper purchase and sale operations with Sociedad Contractual Minera El Abra. As of December 31, 2024 and 2023, the value of finished products under the Inventories caption did not present balances for unrealized profit provision.

As of December 31, 2024 and December 31, 2023, the Corporation maintains a balance for unrealized profits from the purchase of LNG terminal rights of use from Sociedad Contractual Minera El Abra for ThUS\$1,960 and ThUS\$2,123 respectively.

c) Share of profit or loss for the period

The income before taxes, corresponding to the proportion of Anglo American Sur S.A. results recognized for the year ended December 31, 2024, was a profit of ThUS\$9,613 (loss of ThUS\$54,897 for the period ended December 31, 2023). There were no

adjustments to said income for the period ended December 31, 2024, associated with the fair value of the net assets of this company recognized at the acquisition date, whether due to depreciation, write-offs or other types of adjustments. For the year 2023, the following effects of lower results were recognized: MUS\$ 8,937 due to the depreciation of the fair value of net assets, a loss of MUS\$ 90,639 for the deferred tax liability associated with the new Royalty Law (Law No. 21.591) impacting the fair values of net assets, and a loss of MUS\$ 522,448 due to impairment evaluation. These adjustments reduce the item "Share of profit (loss) of associates and joint ventures accounted for using the equity method" in the consolidated pre-tax result.

11. Subsidiaries

The following tables set forth a detail of assets, liabilities and profit (loss) of the Corporation's subsidiaries, prior to consolidation adjustments:

Assets and liabilities	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Current assets	410,797	709,889
Non-current assets	3,025,522	2,779,681
Current liabilities	231,963	286,974
Non-current liabilities	597,111	550,036

Profit (loss)	1-1-2024 12-31-2024 ThUS\$	1-1-2023 12-31-2023 ThUS\$
Income	1,245,343	1,378,438
Ordinary expenses and other	(1,272,576)	(2,062,469)
Profit (Loss) for the period	(27,233)	(684,031)

12. Other non-current financial assets

As of December 31, 2024 and 2023, the composition of other non-current financial assets is as follows:

Other financial assets, non-current	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Investment Quebrada Blanca S.A. (1)	579,127	-
Investment in shares	1,012	1,153
Other derivatives	4,136	101,762
Other	3,486	4,521
Total	587,761	107,436

(1) On September 5, 2024, the acquisition of the preferred series B shares held by ENAMI in Compañía Minera Teck Quebrada Blanca SA was completed for a total consideration of ThUS\$520,000. As of December 31, 2024, the valuation of this asset was updated to

- Fair value through comprehensive income: This category includes investments in equity instruments (see note 12).
- Amortized cost: It corresponds to financial assets held within a business model whose objective is to hold financial assets to collect contractual cash flows that are solely payments of principal and interest on the principal outstanding. These assets are not quoted in an active market.

The effects on profit or loss recognized for these assets are mainly from financial income and exchange differences from balances denominated in currencies other than the functional currency.

No material impairments were recognized in trade and other receivables.

- Derivatives for Hedging: Corresponds to the balance for changes in the fair value of derivative contracts to cover existing transactions (cash flow hedges) and that affect profit or loss when transactions are settled or when, to the extent required by accounting standards, a compensation effect is charged (credited) to the income statement. The detail of derivative hedging transactions is included in the Note 30.

As of December 31, 2024 and December 31, 2023 there were no reclassifications between the different categories of financial instruments.

14. Other financial liabilities

Other financial liabilities consist of loans with financial institutions and bond issuance obligations, which are recorded by the Corporation at amortized cost using the effective interest rate method.

The following tables set forth other current/non-current financial liabilities:

Items	12-31-2024

- **Bond obligations:**

On May 10, 2005, the Corporation issued and placed bonds in the domestic market for a nominal amount of UF 6,900,000 of a single series labeled "Series B", which consists of 6,900 bonds for UF 1,000 each. These bonds are payable in a single installment on April 1, 2025, at an annual interest rate of 4% and semi-annual interest payments.

On September 21, 2005, the Corporation issued and placed bonds in the U.S. market under Rule 144-A and Regulation S, for a nominal amount of ThUS\$500,000. These bonds are payable in a single installment on September 21, 2035, at an annual interest rate of 5.6250% and semi-annual interest payments.

On October 19, 2006, the Corporation issued and placed bonds in the U.S. market under Rule 144-A and Regulation S, for a nominal amount of ThUS\$500,000. These bonds are payable in a single installment on October 24, 2036, at an annual interest rate of 6.15% and semi-annual interest payments.

On July 17, 2012, the Corporation issued and placed bonds in the U.S. market, under Rule 144-A and Regulation S, for a total nominal amount of ThUS\$2,000,000, a part of which, was divided into two parts, one of which has already been amortized in 2022, while the other part is due to mature on July 17, 2042, corresponding to an amount of ThUS\$750,000 at an annual interest rate of 4.25%.

On August 13, 2013, the Corporation issued and placed bonds in the U.S. market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$750,000, payable in a single installment on August 13, 2023, at an annual interest rate of 4.5% and semi-annual interest payments. On August 22, 2017, February 12 and February 26, 2019 and October 8 and 22, 2019 principal in the amounts of ThUS\$162,502, ThUS\$228,674 and ThUS\$270, ThUS\$23,128 and ThUS\$555 respectively, was paid. On May 6, 2020, the remaining principal due was increased for a nominal amount of ThUS\$131,000, reaching a total of ThUS\$465,871 with an annual coupon of 4.50%. On December 16, 2020, principal was paid in the amounts of ThUS\$79,688, October 22, 2021 amounting to ThUS\$157,965 and August 13, 2023 for the remaining balance of ThUS\$228,218.

On October 18, 2013, the Corporation issued and placed bonds in the U.S. market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$950,000, payable in a single

installment on October 18, 2043, at an annual interest rate of 5.625% and semi-annual interest payments.

On July 9, 2014, the Corporation issued and placed bonds in the international financial markets, under Rule 144-A and Regulation S, for a nominal of EUR\$600,000,000, payable in a single installment on July 9, 2024, at an annual interest rate of 2.25% and annual interest payments. On October 22, 2021, capital was amortized in the amount of ThEUR\$200,116, reaching a total of ThEUR\$399,884.

On November 4, 2014, the Corporation issued and placed bonds in the U.S. market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$980,000, payable in a single installment on November 4, 2044, at an annual interest rate of 4.875% and semi-annual interest payments.

On September 16, 2015, the Corporation issued and placed bonds in the U.S. market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$2,000,000, payable in a single installment on September 16, 2025, at an annual interest rate of 4.5% and semi-annual interest payments. On August 22, 2017 and February 12, 2019, principal was paid for an amount of ThUS\$378,645 and ThUS\$552,754 respectively. On December 22, 2020, capital was amortized in the amount of ThUS\$392,499. On January 7, 2021, capital was amortized in the amount of ThUS\$5,000. On October 22, 2021, principal was amortized in the amount of ThUS\$273,867, reaching a total amount of ThUS\$397,235.

On August 24, 2016, the Corporation issued and placed bonds in the domestic market for a nominal amount of UF 10,000,000 of a single series labeled "Series C", which consists of 20,000 bonds for UF 500 each. These bonds are payable in a single installment on August 24, 2026, at an annual interest rate of 2.5% and semi-annual interest payments.

On August 1, 2017, the Corporation issued and placed bonds in the North American market, under standard 144-A and Regulation S, for a total nominal amount of ThUS\$ 2,750,000. One portion corresponds to an amount of ThUS\$ 1,500,000, maturing on August 1, 2027 with an annual coupon rate of interest of 3.625% and semi-annual interest. On December 22, 2020 and January 7, 2021, principal was paid in the amount of thUS\$ 227,154 and ThUS\$5,000 respectively. The other portion contemplates a maturity date of August 1, 2047, corresponding to an amount of ThUS\$ 1,250,000 with an annual coupon of 4.5% and semi-annual interest payments.

On May 18, 2018, Codelco issued a bond for US\$600 million with 30-year maturity in the market of Formosa, Taiwan. The bond issued is denominated in US dollars, which will mature on May 18, 2048, had a yield of 4.85% and a prepayment option at the issue value that can be exercised from the fifth year onwards at its par value.

On February 5, 2019, the Corporation issued and placed bonds in the North American market, under Rule 144-A and Regulation S, for a total nominal amount of ThUS\$1,300,000, which maturity will be 5 February 2049 with a coupon of 4.375% per annum and interest payments on a semi-annual basis.

On July 22, 2019, the Corporation made a bond issue and placement, Regulation S, for a nominal amount of AUD \$ 70,000,000, whose maturity will be in a single installment on July 22, 2039, with a coupon of 3.58% annual and interest payment annually.

On August 23, 2019, the Corporation made a bond issue and placement, Regulation S, for a nominal amount of ThUS\$130,000, whose maturity will be in a single installment on August 23, 2029, with a coupon of 2.869% annual and interest payment semiannually.

On September 30, 2019, the Corporation made an issue and placement of bonds in the North American market, under rule 144-A and Regulation S, for a total nominal amount of ThUS\$2,000,000 whose maturity will be, under one tranche, on September 30, 2029 corresponding to an amount of ThUS\$1,100,000 with a 3% annual coupon. The other tranche contemplates a maturity on January 30, 2050, corresponding to an amount of ThUS\$900,000. On January 14, 2020 and October 22, 2021, a capital increase was made for a nominal amount of ThUS\$1,000,000 and ThUS\$780,000, respectively, reaching a total amount of ThUS\$2,680,000 with a coupon of 3.70% per annum.

On November 7, 2019, the Corporation made a bond issue and placement, Regulation S, for a nominal amount of HKD\$ 500,000,000, whose maturity will be in a single installment on November 7, 2034, with a coupon of 2.84% annual and interest payment annually.

On January 14, 2020, the Corporation issued and placed bonds in the North American market, under rule 144-A and Regulation S, for a nominal amount of ThUS \$ 1,000,000, the maturity of which will be in a single installment on 14 January 2030, with a coupon of 3.15% per annum and payment of interest every six months.

On May 6, 2020, the Corporation issued and placed bonds in the North American market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$800,000 whose maturity will be in a single installment on January 15, 2031, with a coupon of 3.75% per annum and interest paid every six months.

On December 14, 2020, the Corporation carried out an issuance and placement of bonds in the North American market, under standard 144-A and Regulation S, for a total nominal amount of ThUS\$500,000 whose maturity will be in a single installment on January 15, 2051, with a coupon of 3.15% per annum and interest payment on a semi-annual basis.

On February 2, 2023, the Corporation issued and placed bonds in the North American market, under Rule 144-A and Regulation S, for a total nominal amount of ThUS\$ 900,000 whose maturity will be in a single installment on February 2, 2033, with a coupon of 5.125% per annum and interest paid every six months.

On September 8, 2023, the Corporation issued bonds in the U.S. market under Rule 144-A and Regulation S for a total nominal amount of ThUS\$2,000,000 maturing on January 8, 2034 for an amount of ThUS\$1,300,000 with a coupon of 5.95% per annum, and on September 8, 2053, for an amount of ThUS\$700,000 with a coupon of 6.30% per annum, which, on January 26, 2024, underwent a capital increase for a nominal amount of ThUS\$ 500,000, reaching a total of ThUS\$ 1,200,000. Both notes contemplate semiannual interest payments.

On January 26, 2024, the Corporation issued and placed bonds in the North American market, under rule 144-A and Regulation S, for a total nominal amount of ThUS \$ 1,500,000, the maturity of which will be in a single installment on 26 January 2036, with a coupon of 6.44% per annum and payment of interest every six months.

As of December 31, 2024 and 2023, the Corporation is not required to comply with any financial covenants related to borrowings from financial institutions and bond obligations.

- ***Financial debt commissions and expenses:***

Transaction costs incurred in obtaining financial resources are deducted from the loan proceeds and are amortized using the effective interest rate.

(1) Financial costs include capitalized interest under IAS 23 of US\$332,010 and US\$246,136 for the years ended December 31, 2024 and 2023, respectively.

15. Fair Value of financial assets and liabilities

The fair value of financial assets other than equity instruments approximates their carrying value. Regarding equity instruments, see note 16.

Regarding financial liabilities, the following table shows a comparison as of December 31, 2024 between the carrying amount and the fair value of financial liabilities other than those whose carrying amount is a reasonable approximation of fair value:

Comparison book value vs fair value As of December 31, 2024	Accounting treatment for valuation	Book value ThUS\$	Fair value ThUS\$
<i>Financial liabilities:</i>			
Bond obligations	Amortized cost	20,243,130	17,375,235

16. Market value hierarchy for items at market value

Each of the market values calculated for the Corporation's portfolio of financial instruments is supported by a calculation methodology and data inputs. An analysis of each of these methodologies has been carried out to determine to which of the following levels they can be assigned:

- Level 1 corresponds to fair value measurement methodologies using market shares (unadjusted) in active markets to which the Corporation has access at the measurement date and considering identical Assets and Liabilities.
- Level 2 corresponds to fair value measurement methodologies using quoted market price data, not included in Level 1, that are observable for the Assets and Liabilities measured, either directly (prices) or indirectly (derived from prices). For hybrid contracts without finalized price: sales of metals with provisional prices for the period are adjusted to the market price at the end of the period. Gains and losses arising from the market valuation of open sales are recognized through adjustments to revenue in the income statement and to trade accounts receivable in the balance sheet. The forward prices at the end of the period are used for the sales of copper. These forward prices are quoted market prices on the LME. For currency swaps: they are valued using a discounted cash flow analysis valuation model that includes observable credit spreads and using the yield curve applicable over the life of the instruments.
- Level 3 corresponds to fair value measurement methodologies using valuation techniques that include data on the Assets and Liabilities valued, which are not based on significant observable market data.

Based on the methodologies, inputs, and definitions described above, the following market levels have been determined for the Corporation's portfolio of financial instruments held as of December 31, 2024:

Financial assets and liabilities at fair value classified by hierarchy	12-31-2024			
	Level 1 ThUS\$	Level 2 ThUS\$	Level 3 ThUS\$	Total ThUS\$
Financial assets:				
Hybrid contracts with non-finalized price	-	1,709,222	-	1,709,222
Cross currency swap	-	64,006	-	64,006
Mutual funds shares	14,104	-	-	14,104
Metal futures contracts	169	-	-	169
Investment in equity instruments (*)	-	-	579,127	579,127
Financial liabilities:				
Metal futures contracts	21,893	4,307	-	26,200
Cross currency swap	-	18,228	-	18,228

No transfers were made between the different levels of the market hierarchy for the reporting period.

17. Trade and other accounts payable

- a. Details of trade accounts payable, sundry accounts payable and other current accounts payable are shown in the following table:

Item	Current Liabilities	
	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Trade creditors	1,527,544	1,552,166
Payables to employees	28,814	22,902
Withholdings	105,980	105,542
Withholding taxes	74,126	24,281
Other accounts payable	74,702	85,001
Total	1,811,166	1,789,892

Trade creditors mainly include operating accounts payable, and obligations associated with investment projects.

- b. The following is a schedule of maturities of payments to trade creditors as of December 31, 2024 and 2023:

As of December 31, 2024		Amounts according to payment terms					
Creditors with current due date	Up to 30 days	31 - 60	61 - 90	91 - 120	121 - 365	366 and over	Total
Goods	543,344	252	142	3	74	-	543,815
Services	890,746	8,853	213	5	110	-	899,927
Other	26,520	3	-	-	-	-	26,523
Total	1,460,610	9,108	355	8	184	-	1,470,265

As of December 31, 2024		Amounts according to payment terms					
Suppliers with overdue payments	Up to 30 days	31 - 60	61 - 90	91 - 120	121 - 365	366 and over	Total
Goods	33,362	776	283	152	522	4,772	39,867
Services	4,540	3,854	1,450	1,053	1,475	1,341	13,713
Other	26	4	4	1	4	3,660	3,699
Total	37,928	4,634	1,737	1,206	2,001	9,773	57,279

As of December 31, 2023		Amounts according to payment terms					
Creditors with current due date	Up to 30 days	31 - 60	61 - 90	91 - 120	121 - 365	366 and over	Total
Goods	653,344	270	125	-	-	-	653,739
Services	719,167	5,645	188	-	-	-	725,000
Other	85,612	851	-	-	-	-	86,463
Total	1,458,123	6,766	313	-	-	-	1,465,202

As of December 31, 2023		Amounts according to payment terms					
Suppliers with overdue payments	Up to 30 days	31 - 60	61 - 90	91 - 120	121 - 365	366 and over	Total
Goods	56,189	1,437	100	87	1,514	1,866	61,193
Services	16,618	1,892	1,067	510	2,149	871	23,107
Other	180	237	347	66	229	1,605	2,664
Total	72,987	3,566	1,514	663	3,892	4,342	86,964

18. Other provisions

The detail of other current and non-current provisions at the dates mentioned is as follows:

Other provisions	Current		Non-current	
	12-31-2024 ThUS\$	12-31-2023 ThUS\$	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Operating (1)	677,436	691,632	-	-
Marketing (2)	45,772	50,127	-	-
Law No. 13196	1,175	111,795	-	-
Law 21591 art.2 Ad valorem	-	-	-	-
Other provisions	41,087	45,935	553	617
Closure, decommissioning and restoration (3)	-	-	2,182,184	2,259,251
Legal proceedings	-	-	49,907	72,775
Total	765,470	899,489	2,232,644	2,332,643

(1) Corresponds to provisions for purchases and services relating to the operation, not invoiced at the end of the period.

(2) Corresponds to provisions related to sales, which consider freight, stowage and unstowage expenses.

(3) Corresponds to provisions for future closure costs related mainly to tailings dams, closure of mine sites and other assets. This cost value is calculated at discounted present value, using cash flows relating to plans with an evaluation horizon ranging from 10 to 60 years. The rates used to discount future cash flows are calculated based on the Life of Mine "LOM" of each of the operations, distinguishing rates in UF for those obligations in Chilean pesos and rates in U.S. dollars for those obligations in U.S. dollars. These discount rates include the risks associated to the liability being determined, except for those included in the cash flows.

Below is a table with the discount rates used:

Division	12-31-2024		12-31-2023	
	Local Currency Rate	Dollar Currency Rate	Local Currency Rate	Dollar Currency Rate
Gabriela Mistral	2.42%	3.27%	2.44%	3.16%
Andina	2.04%	3.50%	2.40%	3.29%
Ministro Hales	2.14%	3.50%	2.14%	3.12%
Chuquicamata	2.20%	3.61%	2.23%	3.17%
Radomiro Tomic	2.20%	3.58%	2.26%	3.19%
Salvador	2.20%	3.61%	2.20%	3.15%
Teniente	2.20%	3.72%	2.14%	3.12%
Ventanas	2.20%	3.72%	2.14%	3.12%

The Corporation determines and recognizes this liability in accordance with the accounting policy described in Note 2, letter o) of section II on Significant Accounting Policies.

The movement in Other provisions, non-current was as follows:

Movements	1-1-2024 12-31-2024				1-1-2023 12-31-2023			
	Other Provisions, non-current ThUS\$	Provision for site closure ThUS\$	Contingencies ThUS\$	Total ThUS\$	Other Provisions, non-current ThUS\$	Provision for site closure ThUS\$	Contingencies ThUS\$	Total ThUS\$
Opening balance	617	2,259,251	72,775	2,332,643	604	2,611,117	68,007	2,679,728
Closing provision adjustment	-	(4,992)	-	(4,992)	-	(426,298)	-	(426,298)
Financial expenses	-	60,459	-	60,459	-	56,617	-	56,617
Payment of liabilities	-	-	(6,061)	(6,061)	-	-	(6,583)	(6,583)
Exchange rate difference	(14)	(116,483)	(8,568)	(125,065)	(3)	35,328	(1,472)	33,853
Other increases (decreases)	(50)	(16,051)	(8,239)	(24,340)	16	(17,513)	12,823	(4,674)
Closing balance	553	2,182,184	49,907	2,232,644	617	2,259,251	72,775	2,332,643

19. Employee benefits

a. Provisions for post-employment benefits and other long-term benefits

Provision for post-employment benefits mainly corresponds to employee severance indemnities and medical care plans. The provision for severance indemnities recognizes the contractual obligation that the Corporation has with its employees/retirees. The provision for medical care plans recognizes the contractual obligation that the Corporation has with its retirees to cover their medical care costs. Both benefits operate within the regulatory framework set forth in the collective bargaining or other agreements between the Corporation and its employees.

These provisions are recorded in the statement of financial position at the present value of the estimated future obligations. The discount rate used is determined based on the rate of financial instruments corresponding to the same currency in which the obligations will be paid and with similar maturities.

The defined benefit obligations are denominated in Chilean pesos; therefore the Corporation is exposed to foreign exchange rate risk.

The results arising from adjustments and changes in actuarial variables are charged or credited to the statement of comprehensive income for the period in which they occur.

During the year ended December 31, 2024, there were no relevant modifications to the post-employment benefit plans.

The following actuarial assumptions were used in the actuarial calculation of the defined benefit plans:

Assumptions	12-31-2024		12-31-2023	
	Retirement plan	Health plan	Retirement plan	Health plan
Annual nominal discount rate	5.21%	5.21%	5.44%	5.44%
Voluntary Annual Turnover Rate for Retirement (Men)	5.10%	5.10%	5.30%	5.30%
Voluntary Annual Turnover Rate for Retirement (Women)	6.00%	6.00%	5.90%	5.90%
Salary Increase (real annual average)	4.35%	-	4.55%	-
Future rate of long-term inflation	3.00%	3.00%	3.00%	3.00%
Expected inflation health care rate	-	5.78%	-	5.78%
Mortality tables used for projections	CB20-RV20	CB20-RV20	CB20-RV20	CB20-RV20
Average duration of future cash flows (years)	9.84	17.21	10.55	17.16
Expected Retirement Age (Men)	62	62	60	60
Expected Retirement Age (Women)	60	60	58	58

The discount rates correspond to the rates in the secondary market of government bonds issued in Chile. The projected annual inflation corresponds to an awareness above the long-term target publicly declared by the Central Bank of Chile and is derived from the market expectation as of December 31, 2024. The rotation rates have been determined after reviewing the Corporation's own experience by studying the cumulative behavior of outflows over the last three years with respect to the current allocations. The expected rate of salary increases has been estimated using the long-term behavior of historical salaries paid by the Corporation. The mortality tables used were those issued by the CMF, which are considered an appropriate representation of the Chilean market given the lack of comparable statistical series to develop independent studies. The financial duration of the liabilities corresponds to the average maturity of the payment flows of the respective defined benefits.

- b. The detail of current and non-current provisions for employment benefits as of the dates mentioned is as follows:

Employee benefits provisions	Current		Non-current	
	12-31-2024	12-31-2023	12-31-2024	12-31-2023
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Employees' collective bargaining agreements	208,477	198,806	-	-
Severance indemnities	29,337	31,425	541,545	586,199
Bonus	64,715	39,209	-	-
Vacation	159,532	176,193	-	-
Medical care programs	373	394	388,685	452,423
Retirement plans (see letter c.)	7,310	13,844	4,470	7,701
Other	20,803	20,869	6,660	7,107
Total	490,547	480,740	941,360	1,053,430

The reconciliation of the balances of the provisions for post-employment benefits is presented below:

Movements	1-1-2024 12-31-2024		1-1-2023 12-31-2023	
	Retirement plan	Health plan	Retirement plan	Health plan
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Opening balance	617,624	452,817	591,173	464,266
Service cost	65,212	25,321	84,657	17,029
Finance cost	13,449	9,760	10,255	8,070
Paid contributions	(52,178)	(53,561)	(88,727)	(46,448)
Actuarial (gains) losses	1,308	(4,718)	34,330	4,112
Subtotal	645,415	429,619	631,688	447,029
(Gains) Losses on foreign exchange rate	(74,533)	(40,561)	(14,064)	5,788
Closing balance	570,882	389,058	617,624	452,817

The balance of the defined benefit liability as of December 31, 2024, comprises a portion of ThUS\$29,337 and ThUS\$373 for the severance indemnity and the medical care plan, respectively. As of December 31, 2025, a balance of ThUS\$614,526 has been projected for the provision for severance indemnities and ThUS\$373,407 for health benefits. The flows of compensation payments during the next twelve months reach an expected monthly average of ThUS\$2,445 for severance indemnities and ThUS\$ 31 for health benefit plans.

The technical revaluation of the liability (actuarial gain/loss defined under IAS19) for severance indemnities and health plan benefits as of December 31, 2024 has been performed with a charge to equity, which is broken down into an actuarial loss of ThUS\$1,308 for severance indemnities and actuarial gain of ThUS\$4,718, for the health plans.

The following is a review of the sensitivities of the provisions, when going from a medium scenario to a low or high scenario with unitary percentage variations, respectively, and both effects of reduction or increase on the book balance of these provisions:

Severance benefits for years of service	Low	Medium	High	Reduction	Increase
Financial effect on interest rates	4.96%	5.21%	5.46%	1.45%	-1.41%
Financial effect on the real increase in income	4.10%	4.35%	4.60%	-1.29%	1.33%
Demographic effect of job rotations	4.69%	5.19%	5.69%	-0.07%	0.10%
Demographic effect on mortality tables	-25.00%	CB20-RV20	25.00%	0.00%	0.00%
Health benefits and other	Bajo	Medio	Alto	Reducción	Aumento
Financial effect on interest rates	4.96%	5.21%	5.46%	2.84%	-2.69%
Financial effect on health inflation	5.28%	5.78%	6.28%	-2.30%	2.40%
Demographic effect, planned retirement age	60 / 58	62 / 60	64 / 62	3.92%	-3.79%
Demographic effect on mortality tables	-25.00%	CB20-RV20	25.00%	10.14%	-6.69%

c) Provisions for early retirement plans and termination bonuses

In accordance with its operating optimization programs to reduce costs and increase labor productivity by incorporating new current technologies and/or better management practices, the Corporation has established employee retirement programs by amending certain employment contracts or collective union agreements to include benefits encouraging employees to early retire, for which the necessary provisions are made based on the accrued obligation at current value.

As of December 31, 2024 and 2023, there is a current balance of ThUS\$7,310 for early retirement and conflict termination bonuses of which ThUS\$ 13,844 respectively. Related non-current balances amount to ThUS\$4,470 and ThUS\$7,701, respectively. These amounts have been determined using a discount rate equivalent to that used for calculating employee benefits provisions and whose outstanding balances are part of the balances as of December 31, 2024 and 2023.

d) Employee benefits expenses

The employee benefit expenses recognized classified by nature are as follows:

Expense by Nature of Employee Benefits	1-1-2024	1-1-2023
	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Benefits - Short term	1,514,241	1,577,757
Benefits - Post employment	25,321	17,029
Early retirement plans and conflict termination bonuses	20,338	33,846
Benefits for years of service	65,212	84,657
Total	1,625,112	1,713,289

20. Equity

The Corporation's total equity as of December 31, 2024 is ThUS\$11,301,489 (as of December 31, 2023 ThUS\$ 11,046,649).

In accordance with article 6 of Decree Law No. 1350 of 1976, it is established that, before March 30 of each year, the Board must approve the Corporation's Business and Development Plan for the next three-year period. Taking that plan as a reference and keeping in mind the Corporation's balance sheet for the immediately preceding year and aiming to ensure its competitiveness before June 30 of each year the amounts that the Corporation shall allocate to the formation of capitalization funds and reserves shall be determined by decree from the Ministries of Mining and Treasury.

Net income shown in the Statement of Financial Position, after deducting the amounts referred to in the previous paragraph, shall belong to the State and become part of the Nation's general income.

On June 22, 2022, the Ministry of Finance agreed with the Corporation to a four-year average reinvestment plan of 30% of profits between 2021 and 2024, which will significantly contribute to the financing of Codelco's investment plan, while considerably reducing its debt requirements. Consistent with the above, on the same date the Ministry of Finance issued exempt decree No. 194 authorizing the Corporation to allocate up to ThUS\$582,750 of the net income from the balance sheet for the year 2021. In accordance with the provisions of exempt decree No. 4 of January 2023, these resources will be paid against the profits of 2022 and 2023, prior to the absorption of the excess of anticipated dividends of previous years and the interim dividends of 2022.

On July 17, 2023, the Ministry of Finance issued exempt decree No. 238 authorizing the Corporation to allocate up to ThUS\$103,677 of the net income shown in the 2022 balance sheet to capitalization and reserve funds, which will be charged against the income for 2023 and subsequent years, until that amount is reached, and the final amount will be determined and recorded once the 2023 accounting period is closed and the final income for the year is known.

As of December 31, 2023, a capitalization and reserve fund has been created amounting to ThUS\$345,589, according to Exempt Decree No. 194, as of December 31, 2024, a capitalization and reserve fund of MUS\$ 103,677 is established in accordance with Exempt Decree No. 238..

As of December 31, 2024, the Corporation has a balance in favor of advance dividends paid in prior years in excess of distributable earnings of ThUS\$373,654. (As of December 31, 2023, the favorable balance was MUS\$ 509,843). As of December 31, 2024 and 2023, there are no dividends payable.

The Consolidated Statement of Changes in Equity discloses the changes in the Corporation's equity.

The movement and composition of other equity reserves is presented in the Consolidated Statement of Changes in Equity.

Reclassification adjustments from other comprehensive income to income for the years meant a loss of ThUS\$7,864 and a profit of ThUS\$620 during years ended December 31, 2024 and 2023, respectively.

a) Other reserves

Details of other equity reserves are shown in the following table, according to the dates indicated for each case.

Other reserves	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Reserve on exchange differences on translation	(14,693)	(8,782)
Reserve of cash flow hedges	(3,446)	(1,095)
Capitalization fund and reserves	5,411,660	5,307,983
Actuarial results reserve in defined benefit plans	(269,775)	(272,779)
Fixed asset revaluation reserve Law 18110 year 1982	624,567	624,567
Reserve for financial assets measured at fair value with changes in other comprehensive income	20,694	-
Other reserves	(11,643)	(9,971)
Total other reserves	5,757,364	5,639,923

b) Non-controlling interests

The detail of non-controlling interests, included in total equity and total profit or loss, as of the dates mentioned, is as follows:

Companies	Non-controlling interests		Equity		Profit	
	12-31-2024	12-31-2023	12-31-2024	12-31-2023	1-1-2024	1-1-2023
	%	%	ThUS\$	ThUS\$	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Inversiones GacruX SpA	32.20%	32.20%	701,803	696,923	4,835	(216,288)
Other	-	-	41	31	15	23
Total			701,844	696,954	4,850	(216,265)

The percentage of non-controlling interest over equity of Inversiones Mineras Becrux SpA generates a non-controlling interest in the subsidiary Inversiones GacruX SpA. Regarding the latter company, the figures related to its statement of financial position, statement of income and statement of cash flows are as follows:

Assets and liabilities	12-31-2024 ThUS\$	12-31-2023 ThUS\$
Current assets	134,445	152,942
Non-current assets	2,157,262	2,147,507
Current liabilities	112,058	135,827
Non-current liabilities	223,531	217,715

Profit (loss)	1-1-2024 12-31-2024 ThUS\$	1-1-2023 12-31-2023 ThUS\$
Income	653,219	674,881
Ordinary expenses and other	(644,147)	(1,351,613)
(Loss) gain for the period	9,072	(676,732)

Cash flows	1-1-2024 12-31-2024 ThUS\$	1-1-2023 12-31-2023 ThUS\$
Net cash flows from (used in) operating activities	(2,928)	16,114
Net cash flows from (used in) investing activities	445	1,806
Net cash flows from (used in) financing activities	-	(8,333)
Effects of exchange rate variation on cash and cash equivalents	(38)	-
Cash and cash equivalents at the beginning of the period	18,201	8,614
Cash and cash equivalents at the end of the period	15,680	18,201

21. Revenue

Revenues from ordinary activities for the years ended December 31, 2024 and 2023, were as follows:

Item	1-1-2024	1-1-2023
	12-31-2024	12-31-2023
	ThUS\$	ThUS\$
Revenue from sales of own copper	14,249,197	13,148,793
Revenue from sales of third-party copper	1,406,827	1,673,066
Revenue from sales of molybdenum	743,320	912,762
Revenue from sales of other products	608,198	654,327
Profit (loss) in futures market	(14,163)	4,281
Total	16,993,379	16,393,229

The Corporation's revenue is recognized at a point in time.

The breakdown of revenue is presented in explanatory note No.26 Operating Segments.

22. Expenses by nature

The items in the Income Statement: Cost of Sales, Administrative Expenses, and Distribution Costs are composed of the following expense concepts presented based on their nature, for the fiscal years ended December 31, 2024, and 2023:

Item	1-1-2024	1-1-2023
	12-31-2024	12-31-2023
	ThUS\$	ThUS\$
Short-term benefits to employees	(1,514,241)	(1,577,757)
Depreciation (1)	(2,266,540)	(2,291,892)
Amortization	(181)	(234)
Raw Materials	(2,605,168)	(2,404,523)
Materials, consumables and others	(7,055,863)	(7,568,596)
Total	(13,441,993)	(13,843,002)

(1) Depreciation includes the expense of Property, plant and equipment and right-of-use assets (see note 7b and note 8.1).

23. Asset impairment

As of December 31, 2024 and 2023, there are no indications of impairments or reversals of impairment for other cash-generating units or affiliates.

24. Other income and expenses

Other income and expenses by function for the years ended December 31, 2024 and 2023, is detailed below:

a. Other income

Item	1-1-2024 12-31-2024 ThUS\$	1-1-2023 12-31-2023 ThUS\$
Penalties to suppliers	7,999	6,846
Delegated Administration	5,472	4,548
Miscellaneous sales (net)	7,061	22,934
Insurance compensation for accidents	39,698	35,019
Provision for Obsolescence of Materials	2,349	374
Other miscellaneous income	18,075	23,318
Total	80,654	93,039

b. Other expenses

Item	1-1-2024 12-31-2024 ThUS\$	1-1-2023 12-31-2023 ThUS\$
Law No. 13196	(1,301,864)	(1,256,339)
Law No. 21591 art.2 Royalty Ad Valorem	(119,354)	-
Research expenses (1)	(198,699)	(156,188)
Bonus for the end of collective bargaining (2)	(348,207)	(24,922)
Closing expense	(2,597)	(15,205)
Expense plan (see to note 18 letter c.)	(20,338)	(33,846)
Write-off of investment projects	(50,219)	(968)
Loss on disposal of fixed assets	(59,944)	(111,097)
Health plans (see to note 18 letter a.)	(25,321)	(17,029)
Conventional indemnity framework agreement	-	(2,697)
Adjustment of inventory	(23,178)	(13,248)
Material obsolescence	(22,309)	(26,861)
Gastos de contingencia	-	(14,723)

Total fixed indirect costs, low production level	(294,837)	(302,671)

c. Law No. 13196

Law No. 13196 - Under this law, the return in foreign currency of sales abroad of the Corporation's actual income from its copper production, including by-products, is taxed at 10%.

On September 26, 2019, Law No. 21174 was published, which repeals Law No. 13196 and establishes that the 10% tax (rate still in effect as of December 31, 2024) to the tax benefit provided by the Corporation will subsist for a period of nine years, decreasing from the tenth year 2.5% per year until reaching 0% at the beginning of the thirteenth year.

25. Finance costs

Finance costs for the years ended December 31, 2024 and 2023, is detailed below

Item	1-1-2024	1-1-2023
	12-31-2024	12-31-2023
	ThUS\$	ThUS\$
Bond interest	(659,958)	(547,293)
Bank loan interest	(77,926)	(70,449)
Restatement of severance indemnity provision	(13,449)	(10,255)
Restatement of other non-current provisions	(9,760)	(8,070)
Closing provision update	(60,460)	(56,617)
Other	(88,858)	(86,226)
Total	(910,411)	(778,910)

26. Operating segments

In section II "Significant Accounting Policies", it has been indicated that, for the purposes of IFRS 8, "Operating Segments", these are determined according to the Divisions that comprise Codelco. In addition, the Parent Company's revenues and expenses are distributed among the defined segments.

The mining deposits in operation, where the Corporation conducts its extractive and processing activities are managed by the following Divisions: Chuquicamata, Radomiro Tomic, Ministro Hales, Gabriela Mistral, Salvador, Andina and El Teniente. Ventanas is added to these divisions, which, until June 2023, operated only in the smelting and refining area and, as of that date, only in the refining area. All these Divisions have a separate operational management, which reports to the Chief Executive Officer through the Vice-President of Operations. The information on each Division and their corresponding mining deposits is as follows:

Chuquicamata

Types of mine sites: Open pit mines and underground mines

Operating: since 1915

Location: Calama, II Region de Antofagasta. Chile

Products: electro refined and electrowon cathodes and copper concentrate

Radomiro Tomic

Types of mine sites: Open pit mines

Operating: since 1997

Location: Calama, II Region de Antofagasta. Chile

Products: electrowon copper cathodes and copper concentrate

Ministro Hales

Types of mine sites: Open pit mines

Operating: since 2014

Location: Calama, II Region de Antofagasta. Chile.

Products: Calcined copper, copper concentrates

Gabriela Mistral

Types of mine sites: Open pit mines

Operating: since 2008

Location: Calama, II Region de Antofagasta. Chile

Products: Electrolytic (electro-obtained) cathodes

Salvador

Type of mines: Underground and open pit mines

Operating: since 1926

Location: Salvador, III Region de Atacama. Chile.

Products: Electro refined and electrolytic (electro-obtained) copper cathodes and copper concentrate.

Andina

Type of mines: Underground and open pit mines

Operating: since 1970

Location: Los Andes, V Region de Valparaíso. Chile.

Product: Copper concentrate

El Teniente

Type of mines: Underground mine

Operating: since 1905.

Location: Rancagua, VI Region del Libertador General Bernardo O'Higgins. Chile.

Products: copper concentrate and copper anodes.

a) Allocation of Head Office revenue and expenses

Main revenue and expenses items controlled by the Head Office are allocated to the Divisions based on following criteria.

Revenue and Cost of Sales of Head Office commercial transactions

- The results from commitments derived from the reception, processing and/or purchase of concentrates from Codelco to Enami are distributed based on the ordinary income of each Division.

Finance Costs

The financial costs are distributed in proportion to the mining project investments made by each Division.

Contribution to the Chilean Treasury under Law No. 13196

- The amount of the contribution is allocated and accounted for in proportion to the invoiced and recorded amounts for copper and sub-product exports of each Division, that are subject to the surcharge.

Tax income benefit (expense)

- Income tax benefit (expense) Corporate income tax under D.L. 2.398 and the Royalty Mining Margin Tax (Specific Tax on Mining Activities until 2023) are allocated based on the income before income taxes of each Division, considering for this purpose the income and expenses allocation criteria of the Head Office and subsidiaries mentioned above.
- Other tax expenses are allocated in proportion to the corporate income tax, the Royalty Mining Margin Tax (Specific Tax on Mining Activities until 2023) and tax under D.L. 2.398 of each Division.

b) Transactions between segments

Transactions between segments mainly related to products processing services (or tolling services), are recognized as revenue for the segment rendering the tolling services and as the cost of sales for the segment that receives the service. Such recognition is made in the period in which these services are rendered, as well as its elimination in the consolidated corporate financial statements.

Additionally, the reallocation of the profit and loss assumed by Ventanas Division, associated with the corporate mineral processing contract between Codelco and Enami, in which a distribution is applied based on the revenue of each division is included as a transaction between segments.

c) Cash flows by segments

The operating segments defined by the Corporation, maintains a cash management function which refers mainly to operational activities that need to be covered periodically with funds constituted in each of these segments and whose amounts are not significant in relation to corporate balances of cash and cash equivalents.

Conversely, activities such as obtaining financing, investment and payment of relevant financial obligations are mainly based at the Head Office.

Total	2,567,682	2,706,265

Other payments from operating activities	1-1-2024 12-31-2024 ThUS\$	1-1-2023 12-31-2023 ThUS\$
Contribution to Chilean treasury Law N°13.196	(1,412,484)	(1,274,126)
Sales coverages	(22,409)	(925)
VAT and other similar taxes paid	(2,034,841)	(2,189,868)
Total	(3,469,734)	(3,464,919)

During the years ended December 31, 2024 and 2023, no direct cash capital contributions were received.

29. Risk management

Corporación Nacional del Cobre de Chile has created instances within its organization that seek to generate strategies to minimize the financial risks to which it may be exposed.

The risks to which Codelco is exposed and a brief description of the management procedures that are carried out in each case, are described below.

a. Financial risks

- Exchange rate risk:

According to IFRS 7, exchange rate risk is understood to be the risk that arises from financial instruments that are denominated in foreign currencies, that is, a currency other than the Corporation's functional currency (US dollar).

Codelco's activities that generate this exposure correspond to funding in UF, accounts payable and receivable and provisions in Chilean pesos, other foreign currencies used in its business operations and obligations with employees.

Most transactions in currencies other than US\$ are denominated in Chilean pesos. Also, there is another portion in Euro, which corresponds mainly to a long-term loan issued through the international market, which exchange rate risk is mitigated with hedging instruments (Swap).

Taking into consideration the financial assets and liabilities as of December 31, 2024 as the base, a fluctuation (positive or negative) of 10 Chilean pesos against the U.S. dollar (keeping the other variables constant), could affect profits before taxes by US\$29 million in profit or loss, respectively. This result is obtained by identifying the main items (including assets and financial liabilities) denominated in foreign currencies in order to measure the impact on profit or loss that a variation of +/- 10 Chilean pesos would have in terms of US\$, with respect to the closing exchange rate at the end of the reporting period.

There are operating and investment expenses that are subject to price-level restatements associated with inflationary adjustments in the economic environment in which the Corporation operates. The Corporation periodically monitors the effects of these price-level restatements on its results in order to detect unusual situations that could have a significant financial impact.

Based on current conditions, the Corporation has not entered into, nor does it intend to enter into, derivative contracts specifically to hedge the effects discussed in the preceding paragraph.

If financial assets and liabilities are considered as of December 31, 2024, a 1% fluctuation (positive or negative) in the value of UF in Chilean pesos (with all other variables held constant) could affect the pre-tax result by an estimated US\$16 million loss or gain, respectively. This result is obtained by identifying the main items affected by exchange differences, both financial assets and liabilities, in order to measure the impact on income that a 1% variation in the value of the UF, used at the date of presentation of the financial statements, would have.

- Interest rate risk

This risk arises from interest rate fluctuations in Codelco's investment and financing activities. This movement can affect future cash flows or the market value of fixed rate financial instruments.

These rate variations refer to U.S. dollar variations, mostly with respect to the LIBOR rate. To manage this risk, Codelco maintains an adequate combination of fixed and variable rate debt, which is complemented by the possibility of using interest-rate derivatives to meet the strategic guidelines defined by Codelco's Vice-Presidency of Finance.

It is estimated that, based on net debt at December 31, 2024, a one percentage point change in the interest rates of credit financial liabilities subject to variable interest rates would result in a change in annual interest expense of approximately US\$15 million, before taxes. This estimation is made by identifying the liabilities assigned variable interest, accrued at the end of the financial statements, which may vary with a change of one percentage point in variable interest rates.

The concentration of obligations that Codelco maintains at fixed and variable rates at December 31, 2024, corresponds to a total of ThUS\$20,243,130 and ThUS\$2,479,433, respectively.

b. Market risk.

- Commodity price risk:

As a result of its commercial operations and activities, the Corporation's income is mainly exposed to the volatility of copper prices and certain sub-products such as gold and silver.

Copper and molybdenum sales contracts generally establish provisional sales prices at the time of shipment of such products, while the final price will be considered based on a monthly average price determined by the market for future periods. At the reporting date, sales of provisionally priced products are adjusted to fair value and the effect is recorded in the results of operations for the period. Forward prices at the period-end are used for copper sales, while period-end average prices are used for molybdenum concentrate sales due to the absence of an assets futures market. (See Note 2.q) "Income from Activities Ordinary Procedures from Contracts with Customers" of section II "Main Accounting Policies").

As of December 31, 2024, if the future price of copper fluctuates by + / - 5% (with the other variables constant), the result would be +/- US\$229 million before taxes as a result of setting the mark to market of sales revenue to provisional prices in effect as of December 31, 2024 (MTMF 519). For the estimate indicated, all of those physical sales contracts were valued according to the monthly average immediately following the close of the financial statements, and proceeds to be estimated regarding what the final settlement price would be if there is a difference of + / - 5% with respect to the future price known to date for this period.

In order to protect cash flow and adjust, where necessary, its sales contracts to its trade policy, the Corporation holds operations in futures markets. At the end of the reporting period, these contracts are adjusted to fair value, recording this effect, at the settlement date of the hedging transactions as part of net product sales.

The Corporation has not entered into any hedging transactions with the specific purpose of hedging the price risk caused by fluctuations in prices of production inputs.

c. Liquidity risk

The Corporation ensures that it has sufficient resources, such as pre-approved credit lines (including refinancing), in order to meet short-term requirements, after considering the necessary working capital for its operations and any other commitments it has.

In this sense, the Corporation maintains resources at its disposal sufficient to meet its obligations, whether in cash, liquid financial instruments or credit facilities.

In addition, the Finance Department constantly monitors the Corporation's cash flow projections based on short- and long-term projections and available financing alternatives. In addition, the Corporation estimates that it has enough headroom to increase the level of borrowing for the normal requirements of its operations and investments established in its development plan.

In this context, according to current existing commitments with creditors, the cash requirements to cover financial liabilities classified by maturity and presented in the statement of financial position are detailed as follows:

Maturity of financial liabilities as of 12-31-2024	Less than 1 year ThUS\$	Between one five years ThUS\$	Over years ThUS\$
Loans from financial entities	518,698	971,570	989,165
Bonds	999,385	3,856,843	15,386,902
Derivatives	24,010	10,669	9,749
Other financial liabilities	-	87,353	-
Total	1,542,093	4,926,435	16,385,816

d. Credit risk

This risk comprises the possibility that a third party does not fulfill its contractual obligations, thereby causing a loss for the Corporation.

Given the Corporation's sales policy, principally with cash and advance payments and bank letters of credit, the uncollectible of client debt balances is minimal. This is complemented by the familiarity the Corporation has with its clients and the length of time it has operated with them. Therefore, the credit risk of these transactions is not significant.

The indications with respect to the payment conditions to the Corporation are detailed in every sales contract and the negotiation management is under the charge of the Commercial Vice-Presidency.

In general, the Corporation's other accounts receivable have a high credit quality according to the Corporation's evaluations, based on each debtor's solvency analysis and payment history.

The maximum exposure to credit risk as of December 31, 2024 is represented by the financial asset items presented in the Corporation's Statement of Financial Position.

The Corporation's accounts receivable does not include customers with balances that could be classified as a significant concentration of debt and would represent a material exposure for Codelco. This exposure is distributed among many clients and other counterparties.

In the customer items, the provisions, which are not significant, are included based on the review of the outstanding balances and characteristics of the clients, destined to cover eventual insolvencies.

Explanatory note 2 "Trade and other receivables" shows past due and not provisioned balances.

The Corporation estimates that unimpaired amounts overdue over 30 days are recoverable based on clients' historical payment behavior and their existing credit ratings.

As of December 31, 2024 and 2023, there are no receivable balances that have been renegotiated.

Codelco works with major banks, which have high national and international ratings, and continually assesses them; therefore, the risk that could affect the availability of the Corporation's funds and financial instruments is not significant.

Also, in some cases, to minimize credit risk, the Corporation has contracted credit insurance policies through which it transfers to third parties the commercial risk associated with some aspects of its business.

During the years ended December 31, 2024 and 2023, no guarantees have been executed in relation to ensure the collection of third party debt.

Personnel loans mainly relate to mortgage loans, according to programs included in union agreements, which are paid for through payroll discounts.

e. Other relevant risks

In addition to managing financial risks, the Corporation, during 2024, has focused efforts on emerging risks to develop the capacity for monitoring and resilience against major exogenous variables that may influence the business, such as geopolitical dynamics, extreme weather events, and global systemic cyberattacks. This capacity will continue to be developed moving forward.

Regarding strategic risks, greater depth has been given to prioritized matters, reinforcing the corporation's strategy to achieve the strategic objectives set for 2030. This is reinforced by the current corporate governance through which systematic reviews are held in corporate risk committees and quarterly board committee meetings.

Our risk management program considers that risk predisposition and risks may change over time, requiring management actions to respond to these changes according to the context. Information regarding the main risks considered by Codelco is included in the Annual Report.

30. Derivatives contracts.

The Corporation has entered transactions to hedge cash flows, to minimize the risk of foreign exchange rate variations and sales price variations, detailed as follows:

a. Exchange rate hedge

The Corporation maintains an exposure associated with its foreign exchange hedging operations, the balance of which corresponds to a net deferred tax profit recognized in equity amounting to ThUS\$ 5,665 as of December 31, 2024.

The following table shows details of the fair value and other information of the financial hedges contracted by the Corporation:

December 31, 2024

Hedged item	Bank	Type of derivative contract	Maturity	Currency	Hedged item ThUS\$	Financial obligation Hedging instrument ThUS\$	Fair value hedged item ThUS\$	Asset ThUS\$	Amortized cost ThUS\$
Bono UF Vcto. 2025	JP Morgan London Branch (Inglaterra)	Swap	04-01-2025	US\$	266,017	208,519	59,871	273,767	(213,896)
Bono UF Vcto. 2026	JP Morgan London Branch (Inglaterra)	Swap	08-24-2026	US\$	385,532	406,212	(10,669)	396,066	(406,735)

Total					1,262,935	1,273,841	(9,148)	1,277,392	(1,286,540)

As of December 31, 2024, the Corporation has no cash collateral balances.

The current methodology for valuing currency swaps uses the bootstrapping technique based on mid-swap rates to construct (zero) curves in functional currencies other than the functional currency and US\$, respectively, based on market information.

The notional amounts held by the Corporation for financial derivatives are detailed below:

December 31, 2024	Notional amount of contracts with final maturity							
	Currency	Less than 90 days	Over 90 days	Total current	1 to 3 years	3 to 5 years	Over 5 years	Total non-current
		MUS\$	MUS\$	MUS\$	MUS\$	MUS\$	MUS\$	MUS\$
Currency derivatives	US\$	227,722	10,969	238,691	428,148	7,719	141,198	577,065

December 31, 2023	Notional amount of contracts with final maturity							
	Currency	Less than 90 days	Over 90 days	Total current	1 to 3 years	3 to 5 years	Over 5 years	Total non-current
		ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Currency derivatives	US\$	19,203	37,793	56,996	1,202,983	7,719	145,057	1,355,759

b. Cash flows hedging contracts and commercial policy adjustment

The Corporation trades in the copper, gold and silver derivative markets and records its results upon termination. These results are added to or deducted from sales revenues. As of December 31, 2024, these operations generated a lower net realized result of ThUS\$20,130.

b.1. Commercial flexibility operations of copper contracts

Its objective is to adjust the price of sales to the Corporation's sales policy, which is defined according to the London Metal Exchange. As of December 31, 2024, the Corporation has copper derivative transactions associated with 268,115 metric tons of fine copper. These hedging transactions are performed as part of the Corporation's commercial policy.

The current contracts as of December 31, 2024, present a negative balance of ThUS\$26,033 and their final result will only be known at their maturity, offsetting the hedging transactions with revenue from the sale of the hedged products.

Operations completed between January 1 and December 31, 2024, generated a net negative effect in results of ThUS\$20,862, corresponding to values for physical sales contracts for a negative amount of ThUS\$14,896 and values for physical purchase contracts for a negative amount of ThUS\$5,966.

b.2. Trade operations of current gold and silver contracts.

As of December 31, 2024, the Corporation has no derivative contracts for gold and silver.

As of December 31, 2024, the Corporation has completed gold and silver operations, which generated a net positive effect on income of ThUS\$733 corresponding to the value of physical sales contracts.

b.3. Cash flow hedging operations backed by future production

The Corporation has no outstanding transactions as of December 31, 2024, arising from these operations, which protect future cash flows by locking in price levels for the sale of part of its production

The following tables set forth the maturities of metal hedging activities, as referred to in point b above:

December 31, 2024		Maturity date					
ThUS\$	2025	2026	2027	2028	2029	Upcoming	Total
Flex com cobre (asset)	168	1	-	-	-	-	169

31. Contingencies and restrictions

a) Lawsuits and contingencies

There are various lawsuits and legal actions initiated by or against the Corporation, which derive from its operations and the industry in which it operates. In general, these are civil, tax, labor and mining litigations, all related to the Corporation's activities.

In the opinion of Management and its legal advisors, the lawsuits where the Corporation is being sued and could have negative results do not represent significant loss contingencies or cash flows. Codelco defends its rights and makes use of all the corresponding legal and procedural instances and resources.

The most relevant lawsuits filed by Codelco relate to the following matters:

- Tax Proceedings: There is a tax proceeding for liquidation No.141 of tax year 2015 and Exempt Resolution No. 89 of 2016 issued by the Internal Revenue Service (SII), for which the Corporation presented the corresponding appeals, which were received and resolved in favor of the Tax and Customs Courts, a resolution that was appealed by the SII.

- Labor lawsuits: Labor proceedings brought by the workers against the Corporation, regard to occupational diseases, labor accidents and other matters.

- Mining proceedings and others arising from the operation: The Corporation has been participating, and will probably continue to participate, as plaintiff and defendant in given court proceedings involving its mining operation and activities, through which it seeks to exercise certain actions or set up certain defenses in relation to given mining concessions that have been established or are in the process of being established, as well as also with regard to its other activities. These proceedings currently do not involve any given amount and do not have any essential effect on Codelco's development.

As of December 31, 2024, there are arbitration lawsuits pending final judgment, between Codelco and Consorcio Belaz Movitec SpA.

During the years ended December 31, 2024 and 2023, there are no lawsuits or other proceedings representing 10 percent or more of the Corporation's total outstanding lawsuits.

At the date of issuance of these consolidated financial statements, the Codelco faces various lawsuits and legal actions against it for a total of approximately ThUS\$389,080 corresponding to 1,037 cases, with an estimated loss amount of ThUS\$50,089. According to the estimate made by the legal advisors of the Corporation, 860 cases, which represent 82.93% of the universe, have associated probable loss results amounting to ThUS\$49,901 (Additionally, with the same probable results, there is 1 cases for ThUS\$6 ThUS arising from subsidiaries). There are also 127 cases, representing 12.25% for an amount of ThUS\$169, for which it is less likely than not, that the ruling will be against the Corporation. For the remaining 50 cases, representing 4.82% for an amount of ThUS\$19, the Corporation's legal advisors consider an unfavorable result to be remote.

For litigation with probable loss and its costs, there are the necessary provisions, which are recorded as contingency provisions.

b) Other commitments.

i. Law No. 19993 dated December 17, 2004, authorized the purchase of the Refinery and Smelter Las Ventanas assets from ENAMI, establishing that the Corporation must ensure that the smelting and refining capacity required is maintained, without any restriction and limitation, for treating the products of the small and medium mining sector sent by ENAMI, under the form of toll production or another form agreed upon by the parties. (See paragraph described in number ix, where the modification of this law is mentioned).

ii. Obligations with the public for bond issues means that the Corporation must meet certain restrictions related to limits on pledges and leaseback transactions on its principal assets and on its ownership interest in subsidiaries.

The Corporation has complied with these conditions as of December 31, 2024 and 2023.

iii. On January 20, 2010, the Corporation signed two energy supply contracts with Colbún S.A., which includes energy and power sales and purchases for a total of 510 MW of power. The contract provides a discount for that unconsumed energy from Codelco's SIC divisions with respect to the amount of contracted power. The discount is equivalent to the value of the sale of that energy on the spot market.

The contracted power for supplying these Divisions is comprised by two contracts:

- Contract No.1 for 176 MW, current until December 2029.
- Contract No.2 for 334 MW, current until December 2044. This contract is based on energy production from Colbún's Santa María thermal power station, which is currently in operation. This plant is coal-fired, and therefore the electric energy tariff rate applied for the energy supplied to Codelco is linked to the price of coal.

Both of these contracts comply with Codelco's long-term energy and power requirements from the SIC of approximately 510 MW.

Through these contracts, which operate through take or pay, the Corporation agrees to pay for the contracted energy and Colbún undertakes to reimburse at market price the energy not consumed by Codelco

On October 27, 2022, Codelco signed an amendment to the contract, which, among other aspects, will allow replacing the coal-based electricity supply with a renewable energy supply. This transformation will be implemented gradually, disassociating from Central Santa María, and as of January 1, 2026 the contract will be for 1,000 GWh/year of renewable energy.

- iv. For the electric power supply of the Chuquicamata's work center, the following contracts are maintained:

For the electric power supply of the Chuquicamata's work center, there are three contracts:

- Contract with Engie for a 15-year term as from January 2010, that is maturing in December 2024, for 200 MW capacity, and another contract for a 200 MW capacity which was signed in January 2018 and will be effective as of January 2025 with maturity in December 2035.
- Contract with CTA effective as from 2012 for 80 MW capacity, maturity in 2032.

On May 3, 2024, Codelco signed amendment No. 5 to the contract with CTA, whereby the parties agree to commercial changes to the contract, along with decarbonization of the contract as of 2026.

- v. On August 26, 2011, Codelco signed two energy supply contracts with AESGener. The first one for the Minister Hales division for a 99 MW capacity and the second contract for the Radomiro Tomic work center, for a maximum capacity of 145 MW. Both contracts will mature in 2028.

In December 2022, the respective agreements were renegotiated and signed. The agreement implies the modification of the original contracts and a new renewable sources contract effective from 2023 to 2040.

- vi. On February 28, 2024, Codelco signed three corporate electricity supply contracts based on renewable energy with the companies Atlas Energía Dos SpA, Colbún S.A. and Innergex Energía Renovable SpA, which start their supply on January 1, 2026 and have a termination date of December 31, 2040. The contract with Atlas Energía Dos is for 375 GWh/year of energy, the contract with Colbún is for 1100 GWh/year of energy and finally the contract with Innergex Energía Renovable is for 350 GWh/year of energy.

- vii. On November 11, 2011, Law No. 20551 was published in the Official Journal, which regulates the tasks and closure of mining facilities. Additionally, on November 22, 2012, the Supreme Decree No. 41 of the Minister of Mining, which approves the Regulations of this Law, was published in the Official Gazette.

This law requires the Corporation, among other requirements, to provide financial guarantees to the State to ensure the implementation of closure plans. It also establishes the obligation to make contributions to a fund which aims to cover the costs of post-closure activities.

The Corporation, in accordance with the regulations, delivered in 2014 to the National Geology and Mining Service (SERNAGEOMIN) the mine closure plans for each of the eight divisions of Codelco. These closure plans were developed under the transitional regime of the Law, specified for mining companies affected by the general application procedure, which are those with extraction capacity > 10,000 tons/month, and that at the date of entry into force of the Law were in operation, and with a closure plan previously approved under the Mining Safety Regulation D.S. No. 132.

All these transitional closure plans were approved in 2015 in accordance with the provisions established in the Law.

The law also established the obligation to update these closure plans, under the conditions of the general regime of the law, which incorporates new and greater requirements for the closure plans, five years after its entry into force, i.e. in 2020 in the case of Codelco. This calendar was brought forward to 2019 due to operational particularities for the Chuquicamata and Ventanas Divisions, and postponed to 2021 by SERNAGEOMIN, due to the COVID19 pandemic for the entire industry, and therefore for all other divisions.

In compliance with this new schedule, Codelco approved in 2021 the updated closure plans for the El Teniente, Radomiro Tomic, Ministro Hales and Gabriela Mistral Divisions, and as of December 31, 2021, the approval of the updated plans for the Salvador and Andina Divisions is in process. During the year 2022, Codelco obtained the approval of the updated closure plans of the Salvador and Andina divisions. The Corporation has provided the corresponding guarantees committed in all the approved closure plans, in accordance with the latest updates in force.

As of December 31, 2024, the Corporation has agreed guarantees for an annual amount of UF 85,903,101 to comply with the aforementioned Law No. 20551 (see note No. 32).

- viii. On August 24, 2012, Codelco through its subsidiary Inversiones Mineras Nueva Acrux SpA (Nueva Acrux) (whose minority shareholder is Mitsui), signed a contract with Anglo American Sur S.A. Under this contract, Codelco agreed to sell a portion of its annual copper production to the mentioned subsidiary, who in turn agrees to purchase such production.

Such annual portion is determined by the share of Codelco's indirect subsidiary, Inversiones Mineras Becrux SpA (also shared ownership with Mitsui), maintained for the shares of Anglo-American Sur S.A.

In turn, the subsidiary Nueva Acrux agrees to sell to Mitsui, the products purchased under the agreement described in the preceding paragraphs.

The contract expiration will occur when the shareholders agreement of Anglo-American Sur S.A. ends or other events related to the completion of mining activities of the company take place.

ix. On June 17, 2022, Codelco's Board of Directors agreed to move forward with preparations to cease operation of the Ventanas Smelter, subject to parliament amending Law No. 19993 within a limited period of time, whose scope referred exclusively to the smelter and not to the refinery or other operations of the Ventanas Division. For this measure to be carried out, it required the amendment and approval by the Executive and the Legislature of Law No. 19993, which obliged the Corporation to smelt the minerals of Empresa Nacional de Minería (ENAMI) at the Ventanas Smelter.

On March 6, 2023, Congress approved the modification of the aforementioned law, allowing this obligation to be fulfilled by other smelters and refineries of Codelco Chile.

Later, in May, the National Geology and Mining Service (Sernageomin) authorized Codelco the temporary closure plan for the Ventanas smelter, which will have an initial duration of two years, extendable for another three, during which time engineering will be developed and permits will be processed to move on to the definitive closure stage, which considers, among other actions, the dismantling of the smelter facilities.

On May 31, 2023, the Ventanas smelter furnaces were shut down.

32. Guarantees

The Corporation as a result of its activities has received and given guarantees.
The following tables list the main guarantees given to financial institutions:

Direct Guarantees provided to Financial Institutions and other						
Creditor of the guarantee	Type of guarantee	31-12-2024				12-31-2023
		Currency	Maturity	Quantity	ThUS\$	ThUS\$
Abogado Procurador Fiscal Carlos Felix	Judicial agreement and settlement	UF	17-mar-25	1	1,157	1,258
Abogado Procurador Fiscal Carlos Felix	Judicial agreement and settlement	CLP	17-mar-25	1	16,368	18,595
Consorcio Aeropuerto Calama	Parking	UF	30-nov-23	1	-	4

34. Sanctions

As of December 31, 2024 and 2023, neither Codelco Chile or its Directors and Managers have been sanctioned by the CMF or any other administrative authorities.

35. The environment

Each of Codelco's operations is subject to national, regional and local regulations related to protection of the environment and natural resources, including standards relating to water, air, noise and disposal and transportation of dangerous residues, among others. Chile has introduced environmental regulations that have obligated companies, including Codelco, to carry out programs to reduce, control or eliminate relevant environmental impacts. Codelco has executed and shall continue to execute a series of environmental projects to comply with these regulations.

Pursuant to the Letter of Values approved in 2024, Codelco is governed by a series of internal policies and regulations that frame its commitment to the environment, among which is the Corporate Sustainable Development Policy (2021).

Under a Corporate Environmental Management System, the divisions, structure their efforts in order to comply with the commitments assumed by the corporation's environmental policies, incorporating elements of planning, operating, verifying and reviewing activities. As of December 31, 2024, Codelco is certified under the ISO 14001:2015 Standard, which is applicable to all its divisions.

To comply with the Circular No. 1901 of 2008 of the CMF, the details of the Corporation's main expenditures related to the environment during the periods from January 1 to December 31, 2024 and 2023, respectively, and the projected future expenses are stated below:

36. Subsequent Events

- On January 8, 2025, it was reported as a material fact that Codelco completed a bond issuance totaling US\$ 1.5 billion. The operation included the placement of new bonds with maturities of 10 years and 30 years, with respective yields of 6.335% and 6.783%. Bank of America, Citi, JP Morgan, and Santander led this placement.

- On February 19, 2025, the Codelco board of directors unanimously approved the signing of a Memorandum of Understanding with Anglo American Sur S.A. ("AAS"), titled "Memorandum of Understanding for the Development of a Joint Project to Increase Mining Production in the Mining District Comprised by División Andina of Codelco and Los Bronces of Anglo American Sur S.A." The content of this agreement is described in the material facts communicated by the Corporation to the Financial Market Commission (CMF) on February 20, 2025, which is publicly accessible information.

The Corporation is evaluating the accounting impacts that this agreement could have once its terms and conditions are finalized.

Management of the Corporation is not aware of other significant events of a financial nature or of any other nature that could affect these financial statements, occurring between January 1, 2025, and the date of issue of these consolidated financial statements as March 27, 2025.

Consolidated Financial Statements as of
December 31, 2023.

INDEPENDENT AUDITOR'S REPORT
(A free translation from the original in Spanish)

Santiago, March 28, 2024

To the President and Directors of
Corporación Nacional del Cobre de Chile

Opinion

We have audited the consolidated financial statements of Corporación Nacional del Cobre de Chile and its subsidiaries (the "Corporation"), which comprise the consolidated statements of financial position as of December 31, 2023 and 2022, and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Corporation as of December 31, 2023 and 2022, and the results of its operations and its cash flows for the years then ended in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audits in accordance with Generally Accepted Auditing Standards in Chile. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Corporation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern for a foreseeable future.

Santiago, March 28, 2024
Corporación Nacional del Cobre de Chile
2

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not guarantee that an audit conducted in accordance with Generally Accepted Auditing Standards in Chile will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with Generally Accepted Auditing Standards in Chile, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and any internal control significant deficiency and material weakness that we identified during the audit.

CORPORACIÓN NACIONAL DEL COBRE DE CHILE
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2023 AND DECEMBER 31, 2022
(Monetary values in thousands of United States dollars,
unless another currency or unit is indicated)

I. GENERAL INFORMATION

1. Corporate information

Corporación Nacional del Cobre de Chile (hereinafter referred to as “Codelco” or the “Corporation”), is, in Management’s opinion, the largest copper producer in the world. Codelco’s most important product is refined copper, primarily in the form of cathodes. The Corporation also produces copper concentrates, blister and anode copper and by-products such as molybdenum, anode slime and sulfuric acid.

The Corporation trades its products based on a policy aimed to sell refined copper to manufacturers or producers of semi-manufactured products.

These products contribute to diverse fields of community development, particularly those intended to improve areas such as public health, energy efficiency, and sustainable development, among others.

The Corporation is registered under Securities Registry No. 785 of the Chilean Commission for the Financial Market (the “CMF”) and is subject to its supervision. According to Article No. 10 of Law No. 20392 (related to the new Corporate Governance of Codelco), such supervision shall be on the same terms as publicly traded companies, notwithstanding the provisions in Decree Law (D.L.) No. 1349 of 1976, which created the Comisión Chilena del Cobre (“Chilean Copper Commission”).

Codelco’s head office is in Santiago, Chile, at 1270 Huérfanos Street, telephone number (56-2) 26903000.

Codelco was incorporated through D.L. No. 1350 of 1976, which is the statutory decree applicable to the Corporation. In accordance with the statutory decree, Codelco is a government-owned mining, industrial and commercial company, which is a separate legal entity with its own equity. Codelco Chile currently carries out its mining business through its Chuquicamata, Radomiro Tomic, Ministro Hales, Gabriela Mistral, Salvador, Andina, El Teniente and Ventanas divisions.

The Corporation also carries out similar activities in other mining deposits in association with third parties.

In accordance with letter e) of Article 10 of Law No. 20392, Codelco is governed by its organic standards set forth in Decree Law No. 1350 (D.L. No. 1350) and that of its by-laws, and in matters not covered by them and, insofar as they are compatible and do not contradict the

provisions of such standards, by the rules that govern publicly traded companies and the common laws as applicable to them.

In accordance with D.L. No. 1350 Section IV related to the Company's Exchange and Budget Regulations. Codelco's financial activities are conducted following an annual budgeting program that is composed of an Operations Budget, an Investment Budget, and a Debt Amortization Budget.

The income obtained by Codelco in each period is subject to the tax regime established in Article 26 of D.L. N°1,350, which refers to Decree Laws N° 824, on Income Tax, of 1974, and N°2,398 (Article 2), of 1978, which are applicable to Codelco. It is also subject to the terms of Law No. 20,026 of 2005 on Specific Tax on Mining, which was in force until December 31, 2023. As of January 1, 2024, the Corporation will begin to apply Law No. 21,591 on mining royalties.

According to Law No. 13196, the return on foreign currency of the Corporation's foreign sales (real income), of its copper production, including its by-products, is taxed at 10% and method of payment and the duration of this obligation for Codelco, which are detailed in Note III.22 letter c) of this report.

The subsidiaries whose financial statements are included in these consolidated financial statements correspond to companies located in Chile and abroad, which are detailed in Note II.2.d.

The associates, all located in Chile, are detailed in the explanatory note in section III.9.

2. Basis of presentation of the consolidated financial statements

The consolidated statements of financial position as of December 31, 2023 and 2022, the consolidated statements of income, statements of comprehensive income, statements of changes in equity and cash flows for the years ended December 31, 2023 and 2022 have been prepared in accordance with International Accounting Standard No. 1 (IAS 1) "Presentation of Financial Statements", incorporated in the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (hereinafter "IASB").

These consolidated financial statements include all information and disclosures required in annual financial statements.

The consolidated financial statements (unaudited) of the Corporation are presented in thousands of United States dollar ("U.S. dollar").

Responsibility for information and estimates made

The Board of Directors of the Corporation has been informed of the information included in these consolidated financial statements (unaudited) and expressly declared its responsibility for the consistent and reliable nature of the information included as of December 31, 2023, which financial statements fully comply with IFRS. These consolidated financial statements as of December 31, 2023 were approved by the Board of Directors at a meeting held on March 28, 2024.

Accounting policies

These consolidated financial statements reflect the financial position of Codelco and affiliates as of December 31, 2023 and 2022, as well as the results of their operations, changes in equity and cash flows for the years ended December 31, 2023 and 2022, and their related notes, all prepared and presented in accordance with IAS 1 "Presentation of Financial Statements, considering the respective presentation regulations of the Financial Market Commission (CMF)".

II. SIGNIFICANT ACCOUNTING POLICIES

1. Significant judgments and key estimates

In preparing these consolidated financial statements, the use of certain critical accounting estimates and assumptions that affect the amounts of assets and liabilities recognized as of the date of the financial statements and the amounts of revenue and expenses recognized during the reporting period is required. Such preparation also requires the Corporation's Management to exercise its judgment in the process of applying the Corporation's accounting policies. The areas involving a greater degree of judgment or complexity or areas in which the assumptions and estimates are significant for the consolidated financial statements are described as follows:

- a) Useful economic lives and residual values of property, plant and equipment:** the useful lives and residual values of property, plant and equipment that are used for calculating depreciation are determined based on technical studies prepared by internal specialists. The technical studies consider specific factors related to the use of assets.

Where there are indications that the useful lives of these assets or their residual values may have changed from previous estimates, this should be done using technical estimates to determine the impact of any changes.

- b) Ore reserves:** the measurements of ore reserves are based on estimates of the ore resources that are legally and economically exploitable and reflect the technical and environmental considerations of the Corporation regarding the amount of resources that could be exploited and sold at prices exceeding the total cost associated with the extraction and processing.

The Corporation applies judgment in determining the ore reserves, and as such, possible changes in these estimates might significantly impact the estimates of net revenues over time. In addition, these changes might lead to modifications in usage estimates, which might have an effect on depreciation and amortization expense, calculation of stripping cost adjustments, determination of impairment losses, expected future disbursements related to decommissioning and restoration obligations, long term defined benefits plans' accounting and the accounting for financial derivative instruments.

The Corporation estimates its reserves and mineral resources based on the information certified by the Competent Persons internal and external of the Corporation, who are defined and regulated according to Law No. 20235. These estimates correspond to the application of the Certification Code of Ore Reserves, Resources and Exploration, issued by the Mining Committee which was instituted through the law.

Notwithstanding the foregoing, the Corporation periodically reviews its estimation models, supported by experts who, in some divisions, also certify the reserves determined from these models.

- c) **Impairment of non-financial assets:** the Corporation reviews the carrying amount of its non-financial assets to determine whether there is any indication that the carrying amount may not be recoverable. If any such indicator exists, the recoverable amount of the assets is estimated to determine the extent of the impairment loss. In testing impairment, the assets are grouped into cash generating units ("CGUs") to which the assets belong, if applicable. The recoverable amount of these CGUs is calculated as the present value of the expected future cash flows from such assets, considering a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of the assets is lower than their carrying amount, an impairment loss is recognized.

The Corporation defines the CGUs and also estimates the timing and cash flows that such CGUs will generate. Subsequent changes in the grouping of the CGU, or changes in the assumptions supporting the estimates of cash flows or the discount rate, may impact the carrying amounts of the corresponding assets.

Estimates of assumptions influencing the calculation of cash flows, such as the price of copper or treatment charges and refining charges, among others, are determined based on studies conducted by the Corporation using uniform criteria over different periods. Any change in these criteria may have an impact on the recoverable amount of the assets being tested for impairment.

The Corporation has assessed and defined that the CGUs are constituted at the level of each of its current operating divisions, with the exception of the Ventanas Division Smelter and Refinery operations, which are analyzed separately.

In assessing impairment in subsidiaries and associates, the Corporation uses the higher of value in use or fair value less costs to determine the recoverable amount. This recoverable amount may consider elements such as Life of Mine (LOM), reserves and/or mining resources, among others, for mining operation evaluations. In addition, the evaluation may incorporate market variables such as for example, the price of copper and other commodities, cost of production inputs, exchange rates, discount rates and other market information for long-term asset valuation.

- d) **Provisions for decommissioning and site restoration costs:** when a disruption is caused by the ongoing development or production of a mining property, an obligation to incur decommissioning and restoration costs arises. Costs are estimated based on a formal closure plan and are reassessed as of each reporting period or as of the date such obligations become known. The initial estimate of decommissioning and site restoration costs is recognized as property, plant, and equipment in accordance with IAS 16, and simultaneously a liability in accordance with IAS 37, is recorded.

For these purposes, a defined list of mine sites, facilities and other equipment are studied under this process, considering the engineering level profile, the cubic meters of assets that will be subject to removal and restoration, weighted by a structure of market prices of goods and services, reflecting the best current knowledge related to carrying out such activities, as well as techniques and more efficient construction procedures to date. In the process of valuation of these activities, the assumptions of the exchange rate for tradable goods and services are made, as well as a discount rate, which considers the time value of money and the risks associated with the liabilities, which is determined based, where applicable, on the currency in which disbursements are expected to be made.

The liability amounts recognized at the end of each reporting date represent management's best estimate of the present value of the future decommissioning and site restoration costs. Changes in the estimate of the liability because of changes in the estimated future costs or in the discount rate are added to or deducted from the respective asset cost. The amount deducted from the cost of the asset shall not exceed its carrying amount. If a decrease in the liability exceeds the carrying amount of the asset, the excess is recognized immediately in profit or loss.

If the adjustment results in an addition to the cost of the asset, Codelco considers whether this is an indicator that the new carrying amount of the asset may not be fully recoverable. If such an indicator exists, Codelco tests the asset for impairment by estimating its recoverable amount, and accounts for any impairment loss in accordance with IAS 36.

Costs arising from the installation of a plant or other site preparation work, discounted to their net present value, are provided for and capitalized at the beginning of each project as soon as the obligation to incur such costs arises. These decommissioning costs are charged to net income over the life of the mine, through depreciation of the corresponding asset. Depreciation expense is included in cost of sales, while the discount in the provision is included in finance costs.

- e) **Provisions for employee benefits:** Provisions for employee benefits related to severance payments and health benefits for services rendered by the employees are determined based on actuarial calculations using the projected unit credit method and are recognized in other comprehensive income or s (depending on the accounting standards applicable) on an accrual basis

The Corporation uses assumptions to determine the best estimate of future obligations related to these benefits. Such estimates, as well as assumptions, are determined by management using the assistance of external actuaries. These assumptions include demographic assumptions, discount rate and expected salary increases and rotation levels, among other factors.

- f) **Accruals for open invoices:** the Corporation uses information on future copper prices, through which it recognizes adjustments to its revenues and trade receivables, due to the conditions in provisional pricing arrangements. These adjustments are updated monthly, See Notes 2 q) "Revenue from contracts with customers" of Note 2 "Significant accounting policies" below.
- g) **Fair value of derivatives and other financial instruments:** management may use its judgment to choose an adequate and proper valuation method for financial instruments that are not quoted in an active market. In the case of derivative financial instruments, assumptions are based on observable market inputs, adjusted depending on factors specific to the instruments among others.
- h) **Lawsuits and contingencies:** The Corporation assesses the probability of lawsuits and contingency losses on an ongoing basis according to estimates performed by its legal advisors. For cases in which management and the Corporation's legal advisors believe that a loss is not probable of occurring or where probable, may not be estimated reliably, no provisions are recognized. When it is considered more likely than not that a loss is probable and it may be reliably estimated, a provision is recognized.
- i) **Application of IFRS 16:** includes the following:
- Estimation of the lease term
 - Determine if it is reasonably certain that an extension or termination option will be exercised.
 - Determination of the appropriate rate to discount lease payments
- j) **Revenue recognition:** the Corporation determines appropriate revenue recognition for its contracts with customers by analyzing the type, terms and conditions of each contract or agreement with a customer.

As part of the analysis, the management must make judgments about whether an agreement or contract is legally enforceable, and whether the agreement includes separate performance obligations. In addition, estimates are required to allocate the total price of the transaction to each performance obligation based on the stand-alone selling price of the promised goods or services underlying each performance obligation. (The

Corporation applies the constraint on variable consideration as defined in IFRS 15, if applicable).

k) Stripping costs - Costs incurred in removing mine waste materials (overburden) in open pits that are in production, that provide access to mineral deposits, are recognized in property, plant, and equipment, when the following criteria set out in IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine are met:

- It is probable that the future economic benefits associated with the stripping activity will flow to the entity.
- It is possible to identify the components of an ore body for which access has been improved because of the stripping activity, and
- The costs relating to that stripping activity can be measured reliably.

The stripping costs are amortized based on the production units of production extracted from the ore body related to the specific stripping activity which generated this amount.

Although the abovementioned estimates have been made based on the best information available as of the date of issuance of these consolidated financial statements (unaudited), it is possible that new developments could lead the Corporation to modify these estimates in the future. Such modifications, if any, would be adjusted prospectively, recognizing the effects of the change in estimate in future consolidated financial statements, as required by IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors".

2. Significant accounting policies

a. Period covered: The accompanying consolidated financial statements of Corporación Nacional del Cobre de Chile include the following statements:

- Consolidated Statement of Financial Position as of December 31, 2023 and 2022.
- Consolidated Statement of Income for the years ended December 31, 2023 and 2022.
- Consolidated Statements of Comprehensive Income for the years ended December 31, 2023 and 2022.
- Consolidated Statements of Changes in Equity for the years ended December 31, 2023 and 2022.
- Consolidated Statements of Cash Flows for the years ended December 31, 2023 and 2022.

b. Basis of preparation – These consolidated financial statements of the Corporation as of December 31, 2023 have been prepared in accordance with the instructions of the Commission for the Financial Market which fully comply with International Financial Reporting Standards (IFRS) issued by the IASB.

The consolidated statements of financial position as of December 31, 2022, and the statements of income and the statements of equity and cash flows for the year ended

December 31, 2022, which are included for comparative purposes, have been prepared in accordance with IFRS as issued by the IASB, on a basis consistent with the basis used for the same period ended December 31, 2023, except for the adoption of new IFRS standards and interpretations adopted by the Corporation as of December 31, 2023, which are disclosed in number 3 "New standards and interpretations adopted by the Corporation" in section II of this report.

These consolidated financial statements have been prepared from accounting records held by the Company.

- c. Functional currency** - The functional currency of Codelco is the U.S. dollar, which is the currency of the primary economic environment in which the Corporation operates and the currency in which it receives its revenues.

The functional currency of subsidiaries, associates, and joint ventures is the currency of the primary economic environment in which those entities operate and the currency in which they receive their revenues. For those subsidiaries and associates that are an extension of the operations of Codelco (entities that are not self-sustaining and whose main transactions are with Codelco); the functional currency is also the U.S. dollar.

The presentation currency of Codelco's consolidated financial statements is the U.S. dollar.

- d. Basis of consolidation** - The financial statements comprise the consolidated statements of the Corporation and its affiliates.

Affiliates are fully consolidated from the date of acquisition, being the date on which the Corporation obtains control, and continue to be consolidated until the date such control ceases. Specifically, income and expenses of an affiliate acquired or disposed of during the year are included in the consolidated statement from the date the Corporation gains control until the date when the Corporation ceases to control the subsidiary.

The financial statements of the affiliates are prepared for the same reporting period as the Corporation, using consistent accounting policies.

All assets, liabilities, equity, income, expenses, and cash flows related to transactions between consolidated companies are fully eliminated on consolidation. The value of the non-controlling interest of shareholders in equity and in the results of affiliates is presented, respectively, as "Non-controlling interests" in the consolidated statement of financial position and "Income (loss) attributable to non-controlling interests" and "Comprehensive income (loss) attributable to non-controlling interests" in the consolidated statements of income.

The following companies have been consolidated:

Taxpayer ID No.	COMPANY	Country	Functional currency	12-31-2023			12-31-2022

77.780.919-9	Minera Tarar SpA	Chile	USD	-	100.00	100.00	-

For the purposes of these consolidated financial statements, affiliates, associates, acquisitions and disposals are defined as follows:

- **Affiliates:** An affiliate is an entity over which the Corporation has control. Control is exercised if, and only if, the following elements are present: (i) power to govern the operating and financial policies to obtain benefits from their activities; (ii) exposure or rights to the variable returns of these companies; and (iii) ability to use the power to influence the amount of returns.

The Corporation reassesses whether it controls an affiliate if facts and circumstances indicate that there are changes to one or more of the elements of control listed above.

The consolidated financial statements include all assets, liabilities, revenues, expenses, and cash flows of Codelco and its affiliates, after eliminating all inter-company balances and transactions.

- **Associates:** An associate is an entity over which Codelco has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the associate but is not control or joint control over those policies.

Codelco's interest ownership in associates is recognized in the consolidated financial statements under the equity method. Under this method, the initial investment is recognized at cost and adjusted thereafter to recognize changes in Codelco's share of the comprehensive income of the associate, less any impairment losses or other changes to the investment in net assets of the associate.

The Corporation adjusts the proportional gains or losses obtained by the associate after acquisition to take into account the effects that may exist in the depreciation of the fair value of the assets considered at the date of acquisition.

- **Acquisitions and disposals:** The result of businesses acquired are incorporated in the consolidated financial statements from the date when control is obtained; the results of businesses sold during the period are included in the consolidated financial statements up to the effective date of disposal. Gains or losses on disposal is the difference between the sale proceeds (net of expenses) and the carrying amount of the net assets attributable to the ownership interest that has been sold (and, where applicable, the associated cumulative translation adjustment).

If control is lost over a subsidiary, the retained ownership interest in the investment will be recognized at its fair value.

At the acquisition date of an investment in a subsidiary, associate or joint venture, any excess of the cost of the investment (consideration transferred) plus the amount of the non-controlling interest in the acquiree plus the fair value of any previously held equity interest in the acquiree, where applicable, over Codelco's share of the net fair value of the identifiable assets and acquired liabilities is recognized as goodwill. Any excess of Codelco's share of the net fair value of the identifiable assets and acquired liabilities over the consideration transferred, after reassessment, is recognized immediately in profit or loss in the period in which the investment is acquired.

- e. **Foreign currency transactions and reporting currency conversion** - Transactions in currencies other than the Corporation's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, foreign currency transactions denominated in foreign currencies are converted at the rates prevailing at that date. Gains and losses due to the effect of foreign currency transactions are included in the consolidated statement of income for the period within "Exchange gains (losses) in foreign currencies".

At the end of the reporting period, monetary assets and liabilities denominated in Unidades de Fomento ("UF") have been denominated in US\$, considering the exchange rates in effect at the end of each period (12-31-2023: US\$ 41.94; 12-31-2022: US\$ 41.02)

Expenses and income in local currency have been expressed in dollars at the observed exchange rate, corresponding to the date of the accounting record of each transaction.

The translation of the financial statements of affiliates associates and jointly controlled entities, whose functional currency is different from Codelco's presentation currency, is performed as follows for consolidation purposes:

- Assets and liabilities are converted using the prevailing exchange rate on the reporting date.
- Income and expenses for each statement of income are translated at average exchange rates for the period.
- All resulting exchange differences are recognized in comprehensive income and accumulated in equity under the heading "Reserve on exchange differences on translation."

The exchange rates used in each reporting period were as follows:

Relationship	Closing exchange rates	
	12-31-2023	12-31-2022
USD / CLP	0.00114	0.00117
USD / GBP	1.27486	1.20802
USD / BRL	0.20613	0.18923
USD / EURO	1.10595	1.07021
USD / AUD	0.68315	0.68120
USD / HKD	0.12803	0.12820
USD / RMB	0.14040	0.14452

- f. Offsetting balances and transactions** - As a general standard, assets and liabilities, revenue, and expenses, are not offset in the financial statements, except for those cases in which offsetting is required or is allowed by a standard and the presentation reflects the substance of the transaction.

Income or expenses arising from transactions which, for contractual or legal reasons, permit the possibility of offsetting and which the Corporation intends to liquidate for their net value or realize the assets and settle the liabilities simultaneously, are stated net in the statement of income.

- g. Property, plant and equipment and depreciation** - Items of property, plant and equipment are initially recognized at cost. After initial recognition, they are measured at cost, less any accumulated depreciation and any accumulated impairment losses.

The cost of property, plant and equipment includes the costs of expansion, modernization or improvements that represent an increase in productivity, capacity or efficiency, or an

increase in the useful life of the assets, and are capitalized as an increase in the cost of the related assets.

The assets included in property, plant and equipment are depreciated, as a general rule, using the units of production method, when the activity performed by the asset is directly attributable to the mine production process. In other cases, a straight-line depreciation criterion is used.

The assets included in property, plant and equipment and certain intangibles (software) are depreciated over their economic useful lives, as described below:

Category	Useful life
Land	Not depreciated
Land on mine site	Unit of production
Buildings	Straight-line over 20-50 years
Buildings in underground mine levels	Units of production level
Vehicles	Straight-line over 3-7 years
Plant and equipment	Unit of production
Smelters	Unit of production
Refineries	Unit of production
Mining rights	Unit of production
Support equipment	Unit of production
Intangibles - software	Straight-line over 8 years
Open pit and underground mine development	Unit of production

Estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, and any change in estimates is recognized prospectively.

Additionally, depreciation methods and estimated useful lives of assets, especially plants, facilities and infrastructure may be revised at the end of each year or during the year according to changes in the structure of reserves of the Corporation and productive long-term plans updated as of that date.

This review may be made at any time if the conditions of ore reserves change significantly because of new known information, confirmed, and officially released by the Corporation.

The gain or loss resulting from the disposal or retirement of an asset is calculated as the difference between the price obtained on disposal and the value recorded in the books, recognizing the charge or credit to income for the period.

Construction in progress includes the amounts invested in the construction of property, plant and equipment and in mining development projects. Construction in progress is transferred to assets in operation once the testing period has ended and when they are ready for use; at that point, depreciation begins to be recognized.

Borrowing costs that are directly attributable to the acquisition or construction of assets that require a substantial period before they are ready for use or sale are capitalized as part of the cost of the corresponding items of property, plant, and equipment.

The ore deposits owned by the Corporation are recorded in the accounting records at US\$1. Notwithstanding the above, those reserves and resources acquired as part of acquisition of entities accounted for as business combinations, are recognized at their fair value.

- h. Intangible assets** - The Corporation initially recognizes these assets at acquisition cost. The cost is amortized systematically over their useful lives, except in the case of assets with indefinite useful lives, which are not amortized, and are assessed for impairment at least once a year and, in any case, whenever there is an indication that impairment may have occurred. At the end of each reporting period, these assets are measured at their cost less any accumulated amortization (when applicable) and any accumulated impairment losses.

The expenditures for the development of Technology and Innovation Projects are recognized as intangible assets at their cost and are considered to have indefinite useful lives. Recognition applies, if and only if, all the following have been demonstrated:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- The intention to complete the intangible asset to use or sell it;
- The ability to use or sell the intangible asset;
- That the intangible asset will generate probable future economic benefits;
- The availability of adequate technical, financial, and other resources to complete the development and to use or sell the intangible asset; and
- The disbursement attributable to the intangible asset during its development can be reliably appraised

Research expenses for technology and innovation projects are recognized in profit or loss when incurred.

- i. Impairment of property, plant and equipment and intangible assets** - Property, plant and equipment and intangible assets with finite useful lives are reviewed for impairment to verify whether there is any indication that the carrying amount may not be recoverable. If such an indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment to be recorded.

For intangible assets with indefinite useful lives, their recoverable amounts are annually estimated at the end of each reporting period.

When an asset does not generate cash flows that are independent from other assets, Codelco determines the recoverable amount of the CGU to which the asset belongs.

The Corporation has defined each of its divisions as a cash generating unit

Recoverable amount of an asset is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. On the other hand, the fair value less cost of disposal is usually determined for operational assets considering the Life of Mine ("LOM"), based on a model of discounted cash flows, while the assets not included in LOM as resources and potential resources to exploit are measured by using a market model of multiples for comparable transactions.

If the recoverable amount of an asset or CGU is estimated to be less than it is carrying amount, an impairment loss is recognized immediately in profit or loss, reducing the carrying amount to its recoverable amount. In the event of a subsequent reversal of the impairment, the carrying amount is increased to the revised estimate of the recoverable amount, but to the extent that it does not exceed the carrying amount that would have been determined had no impairment been previously recognized.

The estimates of future cash flow for a CGU are based on future production forecasts, future prices of basic products and future production costs. Under IAS 36 "Impairment of Assets", there are certain restrictions for future cash flows estimates related to future restructurings and future cost efficiencies. When calculating value in use, it is also necessary to base the calculations on the spot exchange rate at the date of calculation

- j. Expenditures for exploration and evaluation of mineral resources, mine development and mining operations** - The Corporation has defined an accounting policy for each of these expenditures.

Development expenses for deposits under exploitation whose purpose is to maintain production levels are recognized in profit or loss when incurred.

Exploration and evaluation costs such as: drillings of deposits, including expenses necessary to locate new mineralized areas and engineering studies to determine their potential for commercial exploitation are recognized in profit or loss, normally at the pre-feasibility stage.

Pre-operating and mine development expenses (normally after feasibility engineering is reached) incurred during the execution of a project and until its start-up are capitalized and amortized in relation to the future production of the mine. These costs include stripping of waste material, constructing the mine's infrastructure and other works carried out prior to the production phase.

Finally, costs for defining of new areas or deposit areas in exploitation and of mining operations (PP&E) are recognized in property, plant and equipment and are amortized through profit or loss over the period during which the benefits are obtained.

- k. Income taxes and deferred taxes** - Codelco and its Chilean affiliates recognize annually income taxes based on the net taxable income determined as per the standards established in the Income Tax Law and Article 2 of D.L. 2398, Codelco also recognizes the specific tax on mining activities referred to in Law No 20026 of 2005, until December 31, 2023, and the Mining Royalty Tax referred to in Law No. 21,590, as from January 1, 2024. Its foreign affiliates recognize income taxes according to the tax regulations of the respective countries.

In addition, Codelco's taxable income in each period is subject to the tax regime established in Article 26 of D.L. No. 1350, and it must pay the encumbrances in March, June, September, and December of each year, based on a provisional tax calculation.

The deferred taxes arising from temporary differences and other events that create differences between the accounting and tax bases of assets and liabilities, are recorded in accordance with the standards established in IAS 12 "Income tax".

Deferred taxes are also recognized for undistributed profits of subsidiaries and associates, at the remittance tax rate on dividends paid by these companies to the Corporation.

- l. Inventories** - Inventories are measured at cost when such does not exceed net realizable value. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale (i.e., marketing, sales, and distribution expenses). Costs of inventories are determined according to the following methods:

- **Finished products and products in process:** These inventories are measured at their average production cost determined using the absorption costing method, including labor, depreciation of fixed assets, amortization of intangibles and indirect costs of each period. Inventories of products in process are classified in current and non-current, according to the normal cycle of operation
- **Materials in warehouse:** These inventories are valued at acquisition cost and the Corporation determines an allowance for obsolescence considering that slow-moving materials in the warehouse remain in stock.
- **Materials in transit:** These inventories are measured at cost incurred at the end of reporting period. Any difference because of an estimate of net realizable value of the inventories lower than its carrying amount is recognized in profit or loss.

- m. Dividends** – In accordance with Article 6 of D.L. 1350, the Corporation has a mandatory obligation to distribute its net income as presented in the financial statements. The payment obligation is recognized on an accrual basis.

- n. Employee benefits** - Codelco recognizes a provision for employee benefits when there is a present obligation (legal or constructive) as a result of services rendered by its employees.

The employment contracts stipulate, subject to compliance with certain conditions, the payment of an employee severance indemnity when an employment contract ends. In general, this corresponds to one monthly salary per year of service and considers the components of the final remuneration which are contractually defined as the basis for the indemnity. This employee benefit has been classified as a defined benefit plan.

Codelco has also agreed to post-employment medical care benefits for certain retirees. This employee benefit has been classified as a defined benefit plan.

These plans continue to be unfunded as of December 31, 2023.

The employee severance indemnity and the post-employment medical plan obligations are determined using the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. The defined benefit plan obligations recognized in the statement of financial position represent the present value of the accrued obligations. Actuarial gains and losses are recognized immediately in other comprehensive income and will not be reclassified to profit or loss.

The Corporation's management uses assumptions to determine the best estimate of these benefits. The assumptions include an annual discount rate, expected increases in salaries and turnover rate, among other factors.

In accordance with its operating optimization programs to reduce costs and increase labor productivity by incorporating new current technologies and/or better management practices, the Corporation has established employee retirement programs by amending certain employment contracts or collective union agreements to include benefits encouraging employees to early retire, for which the necessary provisions are made based on the accrued obligation at current value. In case of employee retirement programs which involve multi-year periods, the accrued obligations are updated using a discount rate determined based on financial instruments denominated in the same currency and similar maturities that will be used to pay the obligations.

- o. Provisions for decommissioning and site restoration costs** - The Corporation recognizes a provision for the estimated future costs of decommissioning and restoration of mining projects in development or production when a mining activity causes a disruption under a constructive or legal obligation. Costs are estimated on the basis of a formal closure plan and cost estimates are annually reviewed.

Costs arising from the obligation to dismantle a plant installation or other site preparation work, discounted to their present value, are provided for and capitalized at the beginning of each project or at the origin of the constructive or legal obligation as soon as the obligation to incur such costs arises.

These decommissioning and restoration costs are recorded in income through the depreciation of the asset that gave rise to such cost, and the use of the provision is made

when the decommissioning materializes. Subsequent changes in estimates of decommissioning-related liabilities are added to or deducted from the costs of the related assets in the period in which the adjustment is made.

Other restoration costs, outside the scope of IAS 16, Property, Plant and Equipment, are provided for at their present value against operating results and the use of the provision is made in the period in which the restoration work is performed.

The accretion of the discount on a closure liability due to the passage of time is recognized as a finance expense in the statement of income.

- p. Leases** - The Corporation evaluates its contracts at initial application to determine whether they contain a lease. The Corporation recognizes a right-of-use asset and a corresponding liability for lease with respect to all lease agreements in which Codelco is the lessee, except for short-term leases (defined as a lease with a lease term of twelve months or less) and leases of low-value assets. For these leases, the Corporation recognizes the lease payments as an operating cost on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which the economic benefits of the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that have not been paid at the commencement date, discounted using the interest rate implicit in the lease. If this rate cannot be easily determined, the Corporation uses the incremental borrowing rate.

The incremental rate for loans used by Codelco is determined by estimating the interest rate that the Corporation would have to pay for borrowing the necessary funds to obtain an asset of an equivalent nature similar in value to the right-of-use asset of the respective lease, in a similar economic environment over a similar term.

Lease payments included in the measurement of the lease liability mainly include fixed payments, variable payments that depend on an index or a rate and the exercise price of a purchase option. Variable payments that do not depend on an index or a rate are excluded.

The lease liability is subsequently measured as follows: the carrying amount increased to reflect the interest on the lease liability (using the effective rate method) and the carrying amount is reduced to reflect the lease payments made.

The Corporation revalues the lease liability as to the discount rate (and makes the corresponding adjustments to the asset for respective right of use) through a modified discount rate when:

- There is a change in the term of the lease, or
- There is a change in the assessment of an option to purchase the underlying asset, or
- There is a change in an index or rate which generates a change in cash flows.

Right-of-use assets comprise the amount of the present value of payments not made at the contract inception date, and lease payments made before or up to the inception date, less lease incentives received and any initial direct costs incurred plus other decommissioning and site restoration costs. The right-of-use assets are subsequently measured at cost less accumulated depreciation and accumulated losses due to impairment.

When the Corporation incurs a cost obligation to dismantle or remove a leased asset, restore the location in which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognized and measured in accordance with IAS 37. Costs are included in the corresponding right-of-use asset unless those costs are incurred to produce inventories.

The right-of-use assets are depreciated during the shorter period between the term of the lease and the useful life of the underlying asset. If a lease transfers the ownership of the underlying asset or the cost of the right-of-use asset reflects that the Corporation expects to exercise its option to purchase, the right-of-use asset is depreciated over the useful life of the underlying asset. Depreciation is made from the start date of the lease.

The Corporation applies IAS 36 to determine if a right-of-use asset is impaired and recognizes any impairment loss identified, as described in the accounting policy for "Property, plant and equipment".

q. Revenue from Contracts with Customers - Revenue is recognized in an amount that reflects the consideration to which the entity expects to be entitled in exchange for transferring goods or services to customers.

- **Sale of mineral goods and / or by-products:** Contracts with customers for the sale of mineral goods and / or by-products include the performance obligation for the delivery of the physical goods and the associated transportation service, at the place agreed with the customers. The Corporation recognizes revenue from the sale of goods when the performance obligation is satisfied according to the shipment or dispatch of the products, in accordance with the agreed conditions, such revenue being subject to variations related to the content and / or sale price at the date of its liquidation. Notwithstanding the foregoing, there are some contracts where the performance obligation is satisfied when there is receipt of the product instead of the buyer's corresponding destination, thus recognizing revenue at the time of said transfer. When services of transport of goods are provided, the Corporation recognizes revenue when the service obligation is satisfied.

Sales that have discounts associated with volume subject to compliance with goals are recognized net, estimating the probability that the volume target will be reached.

Sales contracts include a provisional price at the shipment date. The final price is generally based on the London Metals Exchange ("LME") price. Revenue from sales

of copper is measured using estimates of the future spread of metal prices on the LME and/or the *spot* price at the date of shipment, with subsequent adjustments made upon final pricing recognized as revenue. The terms of sales contracts with customers contain provisional pricing arrangements whereby the selling price for metal concentrate is based on prevailing spot prices on a specified future date after shipment to the customer (the "quotation period"). Consequently, the final price is set at the dates indicated in the contracts. Adjustments to provisional sale prices occur based on movements in quoted market prices on the LME up to the date of final pricing. The period between provisional invoicing and final pricing is typically between one and nine months. Changes in fair value over the quotation period and until final pricing are estimated by reference to forward market prices for applicable metals.

As indicated in the note related to hedging policies in the market of metal derivatives, the Corporation enters into operations in the market of metal derivatives. Gains and losses from those which are fair value hedges contracts are recognized as revenues.

- **Rendering of services:** Additionally, the Corporation recognizes revenue for rendering services, which are mainly related to the processing of minerals bought from third parties. Revenue from rendering of services is recognized when the amounts can be measured reliably and when the services have been provided.
- r. **Derivatives contracts** - Codelco uses derivative financial instruments to reduce the risk of fluctuations in sales prices of its products and of exchange rates.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently measured to their fair value at the end of each reporting period.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated in equity under the item "Cash flow hedge reserve." The gain or loss relating to the ineffective portion is immediately recognized in profit or loss and included in the "Finance cost" or "Finance income" line items, depending on the effect of such ineffectiveness. The amount recognized in comprehensive income is reclassified to income, in the same line in which the effects generated by the hedged item are recorded once the results of the hedged transactions are recorded in the same line or until the maturity date of such transactions.

A hedge is considered highly effective when it meets the requirements of IFRS 9. At the time of discontinuation of the hedge contract or the associated designated accounting and according to the circumstances of each case, the accumulated gain/loss on the derivative instrument remains in equity until the hedge transaction occurs, or if discontinuation is expected to occur, the amount in equity is reclassified to profit or loss.

The total fair value of hedging derivatives is classified as "non-current financial asset or liability", if the remaining maturity of the hedged item is greater than twelve months, and as

“current financial asset or liability” if the remaining maturity of the hedged item is less than twelve months.

The derivative contracts held by the Corporation have been entered into to apply the risk hedging policies and are accounted for as indicated below:

- **Hedging policies for exchange rate risk:** The Corporation enters into exchange rate derivatives to hedge exchange rate variations between the U.S. dollar and the currencies of transactions the Corporation undertakes. In accordance with the policies established by the Board of Directors, these hedge transactions are only entered into when there are recognized assets or liabilities, forecasts of highly probable transactions or firm commitments. The Corporation does not enter into derivative transactions for non-hedging purposes.
- **Hedging policies for metal market prices risk:** In accordance with the policies established by the Board of Directors, the Corporation entered into derivative contracts to reduce the inherent risks in the fluctuations of metal prices.

Hedging policies seek to protect expected cash flows from product sales operations by adjusting, when necessary, physical sales contracts to its commercial policy. When the sales commitments are fulfilled and the metal derivative contracts are settled, there is an offset between the results of the sales transactions and the results of hedging using metal derivatives.

Hedging transactions carried out by the Corporation in the metal derivatives market are not undertaken for speculative purposes.

- **Embedded derivatives:** The Corporation has established a procedure that allows for evaluation of the existence of embedded derivatives in financial and non-financial contracts. Where there is an embedded derivative, and the host contract is not a financial instrument and the characteristics and risks of the embedded derivative are not closely related to the host contract, the derivative is required to be recognized separately.
- s. Financial information by segment** – The Corporation has defined its Divisions as its operating segments in accordance with the requirements of IFRS 8, Operating Segments. The mining deposits in operation, where the Corporation conducts its extractive and processing activities are managed by the following Divisions: Chuquicamata, Radomiro Tomic, Ministro Hales, Gabriela Mistral, Salvador, Andina and El Teniente. In addition, the smelting and refining activities are managed at the Ventanas Division. From June 2023 the Ventanas Division only manages the refining area. All these Divisions have a separate operational management, which reports to the Chief Executive Officer, through the North and South-Central Vice-President of Operations, respectively. Income and expenses of the Head Office are allocated to the defined operating segments.

- t. **Presentation of Financial Statements** - For purposes of IAS 1 Presentation of Financial Statements, the Corporation presents its statement of financial position classified as "current and non-current" and its statements of income "by function" and cash flows using the direct method.
- u. **Current and non-current financial assets** - The Corporation determines the classification of its financial assets at the time of initial recognition and reviews it at each closing date. The classification depends on the business model in which the investments are managed and the contractual characteristics of their cash flows.

The Corporation's financial assets are classified into the following categories:

- **At fair value through profit or loss:**

Initial recognition: This category includes those financial assets that do not qualify in the business model to collect contractual cash flows, nor do such cash flows come exclusively from capital and interest. These instruments are initially recognized at fair value.

Subsequent recognition: Their subsequent recognition is at fair value, recording in the consolidated statement of comprehensive income, in the line "Other gains (losses)" any changes in fair value.

- **Amortized cost:**

Initial recognition: This category includes those financial assets that qualify in the business model and that are held for the purpose of collecting contractual cash flows and that meet the "Solely Payment of Principal and Interest" (SPPI) criterion. This category includes certain Trade and other current receivables, and the loans included in other non-current financial assets.

Subsequent recognition: These (debt) instruments are subsequently measured at amortized cost using the effective interest method. The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any impairment allowance.

Interest income is recognized in profit or loss and is calculated by applying the effective interest rate to the gross carrying amount of a financial asset. For financial assets measured at amortized cost that are not part of a designated hedging relationship, exchange differences are recognized in profit or loss in the "Foreign exchange difference" line item.

- **At fair value through other comprehensive income:**

Initial measurement: Financial assets that meet the criteria "Solely payments of principal and interest" (SPPI) are classified in this category and must be maintained

within a business model both to collect the cash flows and to sell the financial assets. These instruments are initially recognized at fair value.

Subsequent recognition: Their subsequent valuation is at fair value. Interest income calculated using the effective interest rate method, foreign exchange gains and losses and impairment are recognized in income. Other net gains and losses are recognized in other comprehensive income. On derecognition, the gains and losses accumulated in other comprehensive income for debt instruments are reclassified to income. Codelco did not irrevocably choose to designate any equity financial instruments (assets) at fair value with effect on other comprehensive income.

- v. **Financial liabilities** - Financial liabilities are initially recognized at fair value net of transaction costs. Subsequent to their initial recognition, the valuation of the financial liabilities will depend on their classification, within which the following categories are distinguished:

- **Financial liabilities at fair value through profit or loss:** This category includes financial liabilities defined as held for trading.

Changes in fair value associated with own credit risk are recorded in other comprehensive income unless doing so creates an accounting mismatch.

- **Financial liabilities measured at amortized cost:** This category includes all financial liabilities other than those measured at fair value through profit or loss.

The Corporation includes in this category bonds, obligations and other current payables.

These financial liabilities are measured using the effective interest rate method, recognizing interest expense based on the effective rate.

The method of the effective interest rate corresponds to the method of calculating the amortized cost of a financial liability and the allocation of interest expenses during the corresponding period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate, a shorter period, to the net carrying amount on initial recognition.

Trade and other current payables are financial liabilities that do not explicitly accrue interest and are recognized at their nominal value, which approximates its fair value.

Financial liabilities are derecognized when the liabilities are paid or expire.

- w. **Impairment of financial assets** - The Corporation measures the loss allowance at an amount equal to lifetime expected credit losses for certain of its trade receivables. For these, it uses the simplified approach as required under IFRS 9.

The provision matrix is based on the Corporation's historical credit loss experience over the expected life of such trade receivables and is adjusted for forward-looking estimates considering the most relevant macroeconomic factors that affect bad debts.

Other accounts receivable and other financial assets are reviewed using reasonable and sustainable information that is available without cost or disproportionate effort in accordance with IFRS 9 to determine the credit risk of the respective financial assets. A provision for impairment losses on trade receivables and other financial assets is established when there is objective evidence that the amounts due may not be fully recovered.

- x. **Statement of cash flows** - The statement of cash flows reflects changes in cash that took place during the period, determined under the direct method. The Corporation has defined the following:
- **Cash flows:** Inflows and outflows of cash or cash equivalents, which are defined as highly liquid investments maturing in less than three months with a low risk of changes in value.
 - **Operating activities:** Are the principal revenue-producing activities of the Corporation and other activities that are not investing or financing activities.
 - **Investing activities:** These are the acquisition and disposal of long-term assets and other investments not included in cash and cash equivalents.
 - **Financing activities:** These are activities that result in changes in the size and composition of net equity and borrowings of the Corporation.

Bank overdrafts are classified as external resources in current liabilities.

- y. **Law No. 13196** - Under this law, the return in foreign currency of sales abroad of the Corporation's actual income from its copper production, including by-products, is taxed at 10%. The amount recognized for this concept is presented in the statement of income within the line item "Other expenses by function." (Note III.22 letter c)).
- z. **Cost of sales** - Cost of sales is determined according to the absorption costing method, including the direct and indirect costs, depreciation, amortization and any other expenses directly attributable to the production process.
- aa. **Classification of current and non-current balances** - In the consolidated statement of financial position, the balances are classified according to their maturities, that is, as current for those with a maturity equal to or less than twelve months and as non-current for those with a greater maturity. Where there are obligations whose maturity is less than twelve months, but whose long-term refinancing is insured upon a decision by the Corporation whose intention is to refinance, through credit agreements available unconditionally with long-term maturity, these could be classified as non-current liabilities.

3. New standards and interpretations adopted by the Corporation

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those applied in the preparation of the Corporation's annual consolidated financial statements for the year ended December 31, 2022, except for the adoption of new standards, interpretations and amendments, effective from January 1, 2023, which are:

a) Amendment to IFRS 17

Amends IFRS 17 to address concerns and implementation challenges identified after the publication of IFRS 17 Insurance Contracts in 2017. The main changes include:

- i. Deferral of the date of initial application of IFRS 17 for two years for annual periods beginning on or after January 1, 2023.
- ii. Additional scope exclusion for credit card contracts and similar contracts that provide insurance coverage, as well as optional scope exclusion for loan contracts that transfer significant insurance risk
- iii. Recognition of insurance acquisition cash flows related to expected contract renewals, including transition provisions and guidance for insurance acquisition cash flows recognized in an acquired business.
- iv. Clarification of the application of IFRS 17 in financial statements that permit an accounting policy choice at a reporting entity level
- v. Clarification of the application of the contractual service margin (CSM) attributable to the investment performance service and the investment-related service and changes to the related disclosure requirements
- vi. Extension of risk mitigation option to include reinsurance contracts held and non-financial derivatives
- vii. Amendments to Requiring an entity that at initial recognition recognizes losses on onerous insurance contracts issued to also recognize a gain on reinsurance contracts held
- viii. Simplified presentation of insurance contracts in the statement of financial position for entities to present insurance contract assets and liabilities in the statement of financial position determined using portfolios of insurance contracts rather than groups of insurance contracts
- ix. Additional transition relief for business combinations and additional transition relief for the date of application of the risk mitigation option and the use of the fair value transition approach.

b) Information to disclose on accounting policies. (Amendments to IAS 1 and IFRS 2 document)

The amendments require an entity to disclose its material accounting policies. The additional amendments explain how an entity can identify a material accounting policy. Examples are added of when an accounting policy is likely to be material. To support the amendment, the Board has also developed guidance and examples to explain and

demonstrate the application of the "four-step materiality process" described in the IFRS 2 Practice Statement.

c) Definition of accounting estimates (amendments to IAS 8)

The amendments replace the definition of a change in accounting estimates. According to the new definition, accounting estimates are "monetary amounts in the financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require financial statement items to be measured in a manner that involves measurement uncertainty. The amendments clarify that a change in accounting estimate resulting from new information or new developments is not the correction of an error.

d) Deferred Taxes Related to Assets and Liabilities Arising from a One-Time Transaction. (Amendments to IAS 12)

The amendments clarify that the exemption from initial recognition does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition.

The application of these amendments had no impact on the Corporation's consolidated financial statements, but may affect the accounting for future transactions or arrangements.

4. New accounting pronouncements

The following new standards, amendments and interpretations had been issued by the IASB, but their application is not yet mandatory:

New IFRS	Date of mandatory application	Summary
Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)	Annual periods beginning on or after January 1, 2024	The amendments aim to promote coherence in applying its requirements by helping companies to determine whether, in the statement of financial position, debts and other liabilities with an uncertain settlement date must be classified as current (maturing or potentially maturing in one year or less) or not current. It is important to note that this amendment must be applied retrospectively and early application is permitted.

Initial Application of IFRS 17 and IFRS 9 - Comparative Information (Amendment to IFRS 17)	An entity that chooses to apply the amendment shall apply it when it first applies IFRS 17.	The amendment allows entities applying IFRS 17 and IFRS 9 for the first time to present comparative information on a financial asset as if the classification and measurement requirements of IFRS 9 had been previously applied to that financial asset.
Lease liability on a sale and leaseback (Amendments to IFRS 16)	Annual reporting periods beginning on or after January 1, 2024	The amendment clarifies how a lessee subsequently measures sale and leaseback transactions that meet the requirements of IFRS 15 to be accounted for as a sale.
Non-current liabilities with covenants (Amendments to IAS 1)	Annual reporting periods beginning on or after January 1, 2024	The amendment clarifies how the conditions that an entity must meet within twelve months after the reporting period affect the classification of a liability.
Suppliers' financial agreements (Amendments to IAS 7 and IFRS 7)	Annual reporting periods beginning on or after January 1, 2024	The amendments add disclosure requirements and "signaling" within the existing disclosure requirements, which request entities to provide qualitative and quantitative information on suppliers financing arrangements.

General requirements for disclosure of financial information related to sustainability (IFRS S1)	Annual periods beginning on January 1, 2024 Early application is permitted.	This Standard requires disclosure of information about all risks and opportunities related to sustainability that could reasonably be expected to affect an entity's cash flows, access to finance or cost of capital in the short, medium or long term. For the purposes of this Standard, these risks and opportunities are collectively referred to as "sustainability-related risks and opportunities that could reasonably be expected to affect the entity's prospects". This Standard also prescribes how financial disclosures related to sustainability should be prepared and reported. It establishes general requirements for the content and presentation of those disclosures so that the information disclosed is useful to key users in making decisions related to the provision of resources to the entity.
Climate-related disclosures (IFRS S2)	Annual periods beginning on January 1, 2024 Early application is permitted.	This Standard requires disclosure of information about risks and opportunities related to climate that could reasonably be expected to affect an entity's cash flows, access to finance or cost of capital in the short, medium or long term. For the purposes of this Standard, these risks and opportunities are collectively referred to as "climate-related risks and opportunities that could reasonably be expected to affect the entity's prospects".

Lack of interchangeability Amendments to IAS 21)	Annual filing and reporting periods beginning on or after January 1, 2025. Not yet approved for use in the EU.	The amendments contain guidance to specify when a currency is exchangeable and how to determine the exchange rate when it is not.
Modifications to SASB standards to improve their international applicability	Annual reporting periods beginning on or after January 1, 2025. Will not be approved for use in the EU.	The amendments remove and replace jurisdiction-specific references and definitions in the SASB standards, without materially altering industries, topics or metrics.

Management is currently evaluating the impact of the adoption of these new regulations and modifications. It is not expected to have a significant impact on the consolidated financial statements.

III. EXPLANATORY NOTES

1. Cash and cash equivalents

The detail of cash and cash equivalents as of December 31, 2023 and December 31, 2022, is as follows:

Item	12-31-2023	12-31-2022
	ThUS\$	ThUS\$
Cash on hand	1,030	113
Bank balances	618,501	522,050
Deposits	698,085	477,758
Mutual funds - Money market	24,427	26,806
Total cash and cash equivalents	1,342,043	1,026,727

Interest on time deposits is recognized on an accrual basis using the contractual interest rate of each of these instruments.

The Corporation does not hold any significant amounts of cash and cash equivalents that have a restriction on use.

Cash and cash equivalents meet the low credit risk exemption under IFRS 9. The classification of time deposits complies with the requirements of 7.

2. Trade and other receivables

a) Trade and other receivables

The following table sets forth trade and other receivables balances, with their corresponding allowances for doubtful accounts:

Item	Current		Non-current	
	12-31-2023	12-31-2022	12-31-2023	12-31-2022
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Trade receivables (1)	2,719,360	2,934,533	-	-
Allowance for doubtful accounts (3)	(1,591)	(4,098)	-	-
Subtotal trade receivables, net	2,717,769	2,930,435	-	-
Other accounts receivable (2)	714,925	481,381	71,272	88,906
Allowance for doubtful accounts (3)	(27,026)	(25,031)	-	-
Other other accounts receivable, net	687,899	456,350	71,272	88,906
Total	3,405,668	3,386,785	71,272	88,906

(1) Trade receivables correspond to the sales of copper and its by-products, those that in general are sold in cash or through bank transfers.

(2) Other receivables mainly consist of the following items:

- Remaining tax credit susceptible to refund VAT and other taxes receivable, amounting to ThUS\$ 414,058 and ThUS\$ 216,218 as of December 31, 2023 and December 31, 2022, respectively.
- Receivables owed by the Corporation's personnel, for short-term and long-term current loans of ThUS\$83,778 and ThUS\$70,079, respectively (as of December 31, 2022 ThUS\$99,229 and ThUS\$88,175, respectively), both deducted monthly from their salaries. Mortgage loans granted to the Corporation's personnel amounting to ThUS\$26,604, which are mainly long-term, are backed by mortgage guarantees (as of December 31, 2022 ThUS\$29,320).
- Advances to suppliers and contractors, to be deducted from the respective payment statements for ThUS\$117,332 and ThUS\$101,665 as of December 31, 2023 and December 31, 2022, respectively.
- Accounts receivable for services from the Ventanas Smelter to ENAMI. These services for the third quarter of the year 2023 amounted to ThUS\$14,510. Additionally, in order to complement the commercial commitments between Codelco and ENAMI, the Corporation purchases copper concentrate and by-products and sells cathodes to ENAMI. Both Codelco and ENAMI are companies owned by the State of Chile.

(3) The Corporation recognizes an allowance for doubtful accounts based on its expected credit loss model.

The reconciliation of changes in the allowance for doubtful accounts for the years ended December 31, 2023 and December 31, 2022, were as follows:

Item	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Opening balance	29,129	19,257
Increases	3,616	9,984
Discharges / applications	(4,128)	(112)
Movement, subtotal	(512)	9,872
Closing balance	28,617	29,129

The balance of past due but not impaired balances is as follows:

Ageing	31-12-2023 ThUS\$	31-12-2022 ThUS\$
Less than 90 days	6,979	5,760
90 days - 1 year	65	1,114
Over 1 year	652	206
Total unprovisioned past-due debt	7,696	7,080

b) Accruals for open sales invoices

The Corporation adjusts its revenues and trade receivable balances, based on future copper prices through the recognition of an accrual for open sales invoices.

When future price of copper is lower than the provisional invoicing price, the accrual is presented in the statement of financial position as follows:

- For those customers that have due balances with the Corporation, the accrual is presented as a deduction from the line item trade and other current receivables.
- For those customers that do not have due balances with the Corporation, the accrual is presented in the line item trade and other current payables.

When the future copper price is higher than the provisional invoicing price, the accrual is added to the line item trade and other current receivables.

Accordingly, as of December 31, 2023, a positive provision of ThUS\$83,778 was recorded in the account Trade and other receivables for provisions for unfinished sales invoices. As of December 31, 2022 it was a positive provision of ThUS\$31,327.

As of December 31, 2023, ThUS\$ 1 of negative provision for open invoices associated with customers who do not have balances due to Codelco was reclassified to Trade payables of current liabilities, which added to the balance presented in Trade and other receivables, totaled a net positive provision of ThUS\$ 83,777. As of December 31, 2022, the reclassification of negative unfinished invoices, associated with customers who do not maintain balances due to Codelco, was ThUS\$1,458, which added to the balance presented in Trade and other receivables, totaled a positive net provision of ThUS\$29,869.

3. Balances and transactions with related parties

a) Transactions with related persons

In accordance with Law on New Corporate Governance, the members of Codelco's Board are, in terms of transactions with related persons, subject to the provisions of Title XVI of Law on Corporations, which sets the requirements regarding transactions with related parties in publicly traded companies and their subsidiaries.

Notwithstanding the foregoing, pursuant to the provisions of the final paragraph of Article 147 b) of Title XVI, which contains exceptions to the approval process for transactions with related parties, the Corporation has established a general policy over customary transactions (which was communicated through a significant event notice to the CMF), that defines customary transactions as those carried out with its related parties in the normal course of business, which contributes to the social interest and are necessary to the normal development of Codelco's activities.

Likewise, consistent with the referred to above standard, the Corporation has implemented as part of its internal regulatory framework, a specific policy dealing with business between related persons and companies with Codelco's executives. Codelco's Corporate Policy No.18 ("CCP No. 18"), the latest version currently in force, was approved by the Chief Executive Officer and the Board of Directors.

Accordingly, Codelco without the authorization required in CCP No. 18 and of the Board of Directors, as required by Law or by the Corporation by-laws, shall not enter into any contracts or agreements involving one or more Directors, its Chief Executive Officer, the members of Division's Managing Committees, Vice-presidents, Legal Counsel, General Auditor, Division Chief Executive Officers, Advisors of Senior Management, employees who must make recommendations and/or have the authority to award tenders, assignments of purchases and/or contracting goods and services, and employees in management positions (up to fourth hierarchical level in the organization), including their spouses, children and other relatives up to second degree of relation, with a direct interest, represented by third parties or on behalf of another person. Likewise, CCP No. 18 requires administrators of Corporation's contracts to declare all related persons and disqualify himself/herself if any related persons are involved within the field of his/her job responsibilities.

This prohibition also includes the companies in which such administrators are involved through ownership or management, either directly or through representation of other natural persons or legal entities, as well as those individuals who also have ownership or management in those companies.

The Board of Directors has been informed and approved certain transactions as defined in CCP No. 18.

These operations include those shown in the following table, for the total amounts mentioned, which must be executed within the time periods specified in each contract:

Company	Taxpayer ID No.	Country	Nature of relationship	Transaction description	1-1-2023	1-1-2022

b) Key Management of the Corporation

In accordance with the policy established by the Board of Directors and its related regulations, the transactions with the Directors, the Chief Executive Officer, Vice Presidents, Corporate Auditor, the members of the Divisional Management Committees and Divisional General Managers shall be approved by the Board of Directors.

During the years ended December 31, 2023 and 2022, the members of the Board of Directors have received the following amounts as per diems, salaries and fees:

Name	Taxpayer ID No.	Country	Nature of relationship	Transaction description	1-1-2023	1-1-2022
					12-31-2023 Amount ThUS\$	12-31-2022 Amount ThUS\$

Isabel Marshall Lagarrigue	5.664.265-K	Chile	Director	Directors fee	84	-
Eduardo Bitran Colodro	7.950.535-8	Chile	Director	Directors fee	70	-
Ricardo Álvarez Fuentes	6.689.778-8	Chile	Director	Directors fee	55	-

The Ministry of Finance through Supreme Decree No. 233, dated February 09, 2022, established the compensation for the Corporation's Directors. The compensation to Board of Director members is as follows:

a. The Directors of Codelco will receive a fixed monthly compensation of Ch\$4,413,071 (four million four hundred thirteen thousand seventy-one Chilean pesos) for meeting attendance. The payment of the monthly compensation requires at least one meeting attendance each month.

b. The Chairman of the Board will receive a fixed monthly compensation of Ch\$8,826,140 (eight million eight hundred and twenty-six thousand one hundred and forty Chilean pesos).

c. Each member of the Directors' Committee, whether the one referred to in Article 50 bis) of Law No. 18046 or another established by the Corporation by-laws, will receive a fixed additional monthly compensation of Ch\$1,471,022 (one million four hundred and seventy-one thousand and twenty-two Chilean pesos) for meeting attendance, regardless of the number of committees of which they are members. In addition, the Chairman of the Directors' Committee will receive a fixed monthly compensation of Ch\$2,942,047 (two million nine hundred and forty-two thousand- and forty-seven-pesos Chilean pesos).

d. The compensation established in the legal text is effective for a period of two years, as from March 1, 2022, and will not be adjusted during said period.

On the other hand, the short-term benefits to key management of the Corporation expensed during the years ended December 31, 2023 and 2022, were ThUS\$ 13,603 and ThUS\$ 13,368, respectively.

The methodology to determine the remuneration of key management was approved by the Board of Directors at a meeting held on January 29, 2003.

During the years ended December 31, 2023, severance payments and other payments associated with the retirement of Codelco's senior executives were ThUS\$ 2,414. (For the period January - December 2022 they were ThUS\$ 1,501).

There were no payments for other non-current benefits during the years ended December 31, 2023 and 2022, other than those mentioned in the preceding paragraph.

There are no share-based payment plans.

c) Transactions with companies in which Codelco has ownership interest

The Corporation undertakes commercial and financial transactions that are necessary for its activities with its subsidiaries, associates and joint ventures ("related parties"). The financial transactions correspond mainly to loans granted (mercantile current accounts).

Commercial transactions with related companies mainly consist of purchases/sales of products or rendering of services carried out under market conditions and prices, which do not bear any interest or indexation.

The Corporation does not make allowances for doubtful accounts on the main items receivable from its related companies since these have been subscribed with the relevant safeguards in the respective debt agreements.

The detail of accounts receivable and payable between the Corporation and its related parties as of December 31, 2023 and December 31, 2022 is as follows:

Accounts receivable from related entities:

Taxpayer ID No.	Name	Country of origin	Nature of relationship	Currency of readjustment	Current		Non-current	
					12-31-2023 ThUS\$	12-31-2022 ThUS\$	12-31-2023 ThUS\$	12-31-2022 ThUS\$

d) Additional information

The purchase/sales of products transactions with Anglo American Sur S.A., are regular business activity transactions to buy/sell copper and other products. On the other hand, there are certain transactions related to the contract entered into with the subsidiary Inversiones Mineras Nueva Acrux SpA (whose non-controlling shareholder is Mitsui) and Anglo American Sur S.A., under which the latter agreed to sell a portion of its annual copper output to said subsidiary.

4. Inventories

Inventories as of December 31, 2023 and December 31, 2022 are detailed as follows:

Item	Current		Non-current	
	12-31-2023 ThUS\$	12-31-2022 ThUS\$	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Finished products	316,986	154,351	-	-
Subtotal finished products, net	316,986	154,351	-	-
Products in process	1,294,378	1,425,443	494,747	603,446
Subtotal products in process, net	1,294,378	1,425,443	494,747	603,446
Materials in warehouse and others	1,022,528	893,879	-	-
Adjustment for obsolescence provision	(178,191)	(172,764)	-	-
Subtotal materials in warehouse and other, net	844,337	721,115	-	-
Total inventories	2,455,701	2,300,909	494,747	603,446

Inventories recognized in cost of sales during the years ended December 31, 2023 and 2022, correspond to finished products and amount to ThUS\$13,277,319 and ThUS\$12,262,740 respectively, which do not consider the cost of processing services of ThUS\$24,673 and ThUS\$21,912, respectively.

For the years ended December 31, 2023 and 2022, the Corporation has not reclassified strategic inventories to Property, Plant and Equipment.

The reconciliation of changes in the allowance for obsolescence is detailed below:

Movement obsolescence provision	12-31-2023	12-31-2022
	ThUS\$	ThUS\$
Opening balance	(172,764)	(164,591)
(Decrease) Increase in provision	(5,427)	(8,173)
Closing balance	(178,191)	(172,764)

During years ended December 31, 2023 and 2022, inventory write-offs of ThUS\$13,248 and ThUS\$13,287, respectively, were recognized.

At December 31, 2023 the provision for net realizable value of copper and its effect on income was ThUS\$ 36,645 and a profit of ThUS\$17,889 respectively (loss of ThUS\$45,397 for the same period 2022). As of December 31, 2022, the net realizable value provision was ThUS\$54,535.

As of December 31, 2023 and 2022, there are no unrealized gains or losses recognized for purchase and sale transactions of inventories with related parties.

As of December 31, 2023 and 2022, there are no inventories pledged as security for liabilities.

5. Income taxes and deferred taxes

a) Deferred tax assets and liabilities

Deferred taxes are presented in the Statement of Financial Position as follows:

Deferred taxes	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Non-current assets	103,530	95,705
Non-current liabilities	8,241,800	8,461,928
Total deferred taxes, net	8,138,270	8,366,223

The following table shows the deferred tax opening, net, classified as assets or liabilities according to the nature of the temporary differences:

Deferred tax assets	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Provisions	1,788,284	1,841,045
Tax loss	576,179	117,004
Contracts for the right to use assets	11,546	8,600
Other	10,845	2,416
Total deferred tax assets	2,386,854	1,969,065

Deferred tax liabilities	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Accelerated depreciation	8,298,087	8,087,772
Change in property, plant and equipment	1,395,155	1,637,493
Tax on mining activity	605,449	362,717
Fair value of acquired mineral claims	168,959	169,000
Deferred income taxes of subsidiaries	24,229	19,017
Hedging derivatives	33,113	56,248
Valuation of severance indemnities	132	3,041
Total deferred tax liabilities	10,525,124	10,335,288

b) The effect of deferred taxes recognized in comprehensive income is detailed as follows:

Deferred taxes that affected comprehensive income	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Cash flow hedge	9,148	(65,159)
Defined benefit plans	28,128	5,978
Total deferred taxes that affected comprehensive income	37,276	(59,181)

c) Composition of income tax (expense)

Composition	1-1-2023	1-1-2022
	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Deferred tax effect	190,677	(911,197)
Current tax expense	(24,737)	(222,472)
Others	(24)	(1)
Total income tax (expense)	165,916	(1,133,670)

d) The following table sets forth the reconciliation of the effective tax rate:

Items	12-31-2023						
	Taxable base			Tax Rate			Total ThUS\$
	25% ThUS\$	40% ThUS\$	5.00% ThUS\$	25% ThUS\$	Addit. 40% ThUS\$	5.00% ThUS\$	
Tax effect on income before income taxes	(537,683)	(537,683)	(537,683)	134,421	215,073	26,884	376,378
Tax effect on income before income tax subsidiaries	(219,472)	(219,472)	(219,472)	54,868	87,789	10,974	153,631
Tax effect on consolidated income before income tax	(757,155)	(757,155)	(757,155)	189,289	302,862	37,858	530,009
Permanent differences							
Corporate income tax (25%)	51,489			(12,872)			(12,872)
Specific tax on state-owned companies art. 2° D.L. 2.398 (40%)		116,643			(46,657)		(46,657)
Specific tax on mining activity			1,527,244			(76,362)	(76,362)
Difference in change of rate Royalty Mining Margin art.3 Law 21.591							(228,202)
TOTAL INCOME TAX				176,417	256,205	(38,504)	165,916

Items	12-31-2022						
	Taxable base			Tax Rate			Total ThUS\$
	25% ThUS\$	40% ThUS\$	5.24% ThUS\$	25% ThUS\$	Addit. 40% ThUS\$	5.09% ThUS\$	
Tax effect on income before income taxes	1,472,127	1,472,127	1,472,127	(368,032)	(588,851)	(73,606)	(1,030,489)
Tax effect on income before income tax subsidiaries	23,114	23,114	23,114	(5,779)	(9,246)	(1,156)	(16,181)
Tax effect on consolidated income before income tax	1,495,241	1,495,241	1,495,241	(373,811)	(598,097)	(74,762)	(1,046,670)
Permanent differences							
Corporate income tax (25%)	(164,181)			41,045			41,045
Specific tax on state-owned companies art. 2° D.L. 2.398 (40%)		136,615			(54,646)		(54,646)
Specific tax on mining activity			1,468,004			(73,399)	(73,399)
TOTAL INCOME TAX				(332,766)	(652,743)	(148,161)	(1,133,670)

The Corporation has applied a rate of 25% to calculate deferred income tax and first category income tax. As a state company, the Corporation is classified as those companies of article 14 letter G of the Income Tax Law, incorporated in the Tax Reform Law No. 21210 of February 24, 2020, maintaining the General Regime of Taxation. Meanwhile, the national subsidiaries and associates, by default, have applied the Partially Integrated taxation system with a rate of 27% for both years. Foreign subsidiaries and associates have applied the tax rates in force in their respective countries.

Article 2 of Decree Law No. 2398 establishes an additional 40% income tax rate on the Corporation's taxable income plus the share of retained earnings of companies not organized as corporations or joint stock companies and the dividends actually received from the latter.

On September 2, 2020, Law No. 21256 was published in the Official Journal, for the tax measures that are part of the emergency plan for economic reactivation. According to Article No. 3, added Article No. 23 bis of Law No. 21210, incorporating a temporary depreciation regime that allows full and instant depreciation of fixed assets and that is in force for acquisitions carried out between September 1, 2020, and December 31, 2022. As a state company, the Corporation as a taxpayer that pays taxes based on effective income and complete accounting, availed itself of the indicated benefit as of tax year 2022.

Mining Taxes

On August 10, 2023, Law No. 21,591 on Mining Royalty was published in the Official Gazette, effective as of January 1, 2024.

The law establishes that the new mining royalty tax is comprised of two components: The ad valorem component and the mining margin component. The ad valorem component corresponds to 1% of copper sales and applies to miners whose copper sales represent more than 50% of total sales. The mining margin component applies a rate of between 8% and 26% on mining operating margins in the range of 20% to 80%. The compound base of the mining margin component is determined in a manner similar to the current Specific Tax on Mining Activities (IEAM). For this portion the Corporation will continue to assess deferred taxes. In addition, the regulation establishes a Maximum Potential Tax Burden, which will adjust the Mining Royalty tax, in the event that it exceeds 46.5% of the Adjusted Taxable Mining Operating Income.

A rate of 5% has been determined for the last year of application of the IEAM. Similarly, an average deferred tax reversal rate of 8% has been estimated for the mining margin component of the new Mining Royalty.

The IEAM, contained in the Income Tax Law, is repealed as of January 1, 2024. This is in line with the entry into force of the Mining Royalty, which introduces a new mining taxation as of the same date.

6. Current and non-current tax assets and liabilities

The current tax balance is presented net of monthly provisional payments as an asset or liability in Current Taxes determined as indicated in section II. Main accounting policies, 2.k):

Current tax assets	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Recoverable taxes	2,620	10,226
Total current tax assets	2,620	10,226

Current tax liabilities	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Provisión PPM	11,188	24,315
Tax provision	3,226	1,994
Total current tax liabilities	14,414	26,309

Non-current tax assets	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Non-current tax assets	875,604	748,611
Total non-current tax assets	875,604	748,611

7. Property, plant and equipment

- a) The items of property, plant and equipment as of December 31, 2023 and December 31, 2022, are as follows:

Property, plant and equipment, gross:	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Works in progress	7,851,913	6,426,233

- c) The balance of construction in progress is directly associated with the operating activities of the Corporation and relates to the acquisition of equipment for projects in construction and associated costs for their completion.
- d) The Corporation has signed insurance policies to cover the possible risks to which the various property, plant and equipment items are subject, as well as the possible claims that may arise for the period of its activities. Such policies sufficiently cover the risks to which they are subject in Management's opinion.
- e) Capitalized interest costs during the years ended December 31, 2023 and 2022 amounted to ThUS\$ 246,136 and ThUS\$289,501, respectively. The annual capitalization rate was 4.70% and 4.36% at December 31, 2023 and 2022, respectively.
- f) Expenses on exploration and drilling of deposits recognized in profit or loss and the cash outflows disbursed for the same concepts are presented in the following table:

Expenditure on exploration and drilling reservoirs	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Net income for the period	76,472	59,671
Cash outflows disbursed	77,210	67,904

- g) The detail of "Other assets" under "Property, plant and equipment" is as follows:

Other assets, net	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Mining properties from the purchase of Anglo American Sur S.A	260,000	260,000
Maintenances and other major repairs	66,937	117,569
Other Assets - Calama Plan	16,708	26,388
Other	6,559	4,999
Other assets, net	350,204	408,956

- h) The Corporation currently has no ownership restrictions relating to assets belonging to Property, plant and equipment, except for leased assets whose legal title corresponds to the lessor.
- i) Codelco has not pledged property, plant and equipment as collateral for debt obligations.
- j) In accordance with the provisions of section II. Significant accounting policies 2 i), relating to Impairment of property, plant and equipment and intangibles assets, and as indicated in note 21 Asset impairment, as of December 31, 2022, the Corporation recorded an impairment of the value of the Ventanas Smelter assets in the amount of ThUS\$89,410 before tax.

8. Leases

8.1 Right-of-use assets

As of December 31, 2023 and December 31, 2022, the breakdown of the right of use asset category is:

Detail	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Right-of-use assets, gross	885,908	922,837
Right-of-use assets, accumulated depreciation	495,152	516,994
Total right-of-use assets, net	390,756	405,843

Movements for the years ended December 31, 2023 and year ended December 31, 2022 are as follows:

Reconciliation of changes in Right-of-use Assets (in thousands of US\$)	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Opening balance	405,843	361,539
Increases	140,362	202,426
Depreciation	(155,088)	(150,294)
Increase (decrease) due to other changes	681	(7,447)
Retirements, right-of-use assets	(1,042)	(381)
Total movements	(15,087)	44,304
Closing balance	390,756	405,843

The composition by asset class is as follows:

Right-of-use assets, net, by asset class	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Buildings	4,039	6,248
Land	259	308
Plant and equipment	185,336	174,688
Fixtures and fittings	5,513	5,897
Motor vehicles	182,193	201,874
Right-of-use assets	13,416	16,828
Total	390,756	405,843

8.2 Liabilities for current and non-current leases

As of December 31, 2023 and December 31, 2022, the payment commitments for leasing operations are summarized in the following table:

Lease Current and Non-current	12-31-2023			12-31-2022		
	Gross ThUS\$	Interest ThUS\$	Equity ThUS\$	Gross ThUS\$	Interest ThUS\$	Equity ThUS\$
up to 90 days	49,254	(5,482)	43,772	44,526	(4,674)	39,852
more than 90 days up to 1 year	103,977	(14,020)	89,957	98,947	(13,609)	85,338
more than 1 year up to 2 years	111,543	(12,996)	98,547	106,699	(12,565)	94,134
over 2 years up to 3 years	70,506	(8,468)	62,038	85,401	(9,800)	75,601
over 3 years up to 4 years	35,700	(5,819)	29,881	55,460	(6,642)	48,818
over 4 years up to 5 years	20,332	(3,864)	16,468	27,725	(3,691)	24,034
more than 5 years	68,984	(10,874)	58,110	71,308	(27,216)	44,092
Total	460,296	(61,523)	398,773	490,066	(78,197)	411,869

Leasing operations are generated by service contracts, mainly for facilities, buildings, plants and equipment.

The expense related to short-term leases, low-value assets and variable leases not included in the measurement of lease liabilities, during the years ended periods ended December 31, 2023 and 2022, is presented in the following table:

Lease expense	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Short-term leases	14,482	9,633
Low value assets	4,145	827
Variable leases not included in the measurement of lease liabilities	966,468	908,900
TOTAL	985,095	919,360

9. Investments accounted for using the equity method

The value of the investment and the accrued results of investments accounted for using the equity method are presented below:

Associates	Taxpayer ID No.	Currency Functional	Share of		Investment value		Accrued Result	
			12-31-2023 %	12-31-2022 %	12-31-2023 ThUS\$	12-31-2022 ThUS\$	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Nuevo Cobre S.A. (Ex - Agua de la Falda)	96.801.450-1	USD	42.26%	42.26%	4,769	4,682	(157)	(304)

TOTAL					2,866,698	3,527,323	(658,118)	51,991

a) Associates

Nuevo Cobre S.A. (Former Agua de la Falda S.A.)

On November 8, 2023 the strategic association between Codelco and Nuevo Cobre S.A. (Former Agua de la Falda S.A.) was formalized.

As of December 31, 2023, Codelco holds a 42.26% ownership interest in Nuevo Cobre S.A. (Former Agua de la Falda S.A.), with the remaining 57.74% owned by Minera Rio Tinto.

The corporate purpose of this company is to exploit deposits of gold and other minerals, in the Atacama region of Chile.

Sociedad Contractual Minera El Abra

Sociedad Contractual Minera El Abra was incorporated in 1994. As of December 31, 2023, Codelco holds a 49% ownership interest, with the remaining 51% owned by Cyprus El Abra Corporation, a subsidiary of Freeport-McMoRan Copper & Gold Inc.

The company business activities involve the extraction, production and selling of copper cathodes.

Sociedad Contractual Minera Purén

As of December 31, 2023, Codelco holds a 35% ownership interest, with the remaining 65% owned by Compañía Minera Mantos de Oro.

This company's corporate purpose is to explore, identify, survey, investigate, develop and exploit mining deposits in order to extract, produce and process minerals.

Inca de Oro S.A.

On September 1, 2009, Codelco's Board of Directors authorized the incorporation of a new company aimed to develop studies allowing the continuity of the Inca de Oro Project, which is a wholly-owned subsidiary of Codelco.

December 31, 2023, Codelco holds a 33.85% ownership interest in this company (PanAust IDO Ltda. has 66.15%).

Planta Recuperadora de Metales SpA

On December 3, 2012, Planta Recuperadora Metales SpA was incorporated by Codelco, with 100% ownership held by the Corporation.

In 2014, LS-Nikko Copper Inc. was incorporated into the ownership of this company.

As of December 31, 2023, Codelco holds a 34% interest in the capital stock of Planta Recuperadora de Metales SpA, with control remaining with LS-Nikko Copper Inc. based on the elements of control described in the shareholders' agreement.

The principal business activity of the company is the processing of intermediate products of the refining and processing of copper and other metals aiming to recover copper, other metals and other sub products, their transformation to commercial products and the selling and distribution of all classes of goods or inputs derived from such process.

Anglo American Sur S.A.

The principal activities of the Company are the exploration, extraction, exploitation, production, processing and trading of minerals, concentrates, precipitates, copper bars and all metallic and non-metallic minerals, all fossil substances and liquid and gaseous hydrocarbons. This includes the exploration, exploitation and use of all natural energy sources capable of industrial use and the products or by-products obtained, as well as any other related, connected or complementary activities on which the shareholders agree.

On August 24, 2012, Codelco recognized the acquisition of ownership interest in Anglo American Sur S.A. which resulted in the initial recognition of the cost of the investment for ThUS\$ 6,490,000 that corresponded to the proportionate share (29.5%) of the net fair value of the identifiable assets and liabilities acquired.

In determining the share of the fair value of the identifiable assets and liabilities acquired, the Corporation considered the resources and mineral reserves that could be measured reliably. As part of this updating process, and applying the valuation criteria indicated above, the fair value of the assets acquired and liabilities assumed of Anglo American Sur S.A. as of that date amounted to US\$ 22,646 million, which in the proportion acquired by Inversiones Mineras Becrux SpA (29.5%) results in an investment at fair value of US \$ 6,681 million at the acquisition date.

The allocation of the purchase price at fair value between the identifiable assets and liabilities was prepared by management using its best estimate and considering all relevant and available information at the acquisition date of Anglo American Sur S.A.

The Corporation used a discounted cash flows model to estimate cash flow projections, based on the life of mine. These projections were based on estimated production and future prices of minerals, operating costs and capital costs, among other estimates made at the date of acquisition. Additionally, proven and probable resources to explore were not included in the mine plan, therefore, they were valued separately using a market model. Such resources are included in item "Mineral Resources."

As of December 31, 2015, the Corporation identified indicators of impairment in the operating units of Anglo American Sur S.A. Consequently, and with the purpose of making the corresponding adjustments to the investment in this associate, the Corporation estimated its recoverable amount, considering the additional value of the assets identified at the date of acquisition of the investment.

In determining the recoverable amount, the Corporation applied the methodology of fair value less costs of disposal. The recoverable amount of the operating units was determined based on the life of mine by using a discounted cash flow model whose main assumptions included ore reserves declared by the associate, copper price, supply costs, foreign exchange rates, discount rate and market information for the long-term asset valuation. The discount rate used was an annual rate of 8% after taxes.

Furthermore, the resources not included in the mining plan (LOM) have been valued using a multiples market approach for comparable transactions. Such methodology is consistent with the methodologies used at the acquisition date, which is described in the previous paragraph.

As of December 31, 2023, control on Anglo American Sur S.A. is held by Inversiones Anglo American Sur S.A. with 50.06%, while one of the companies that make up the non-controlling interest is Inversiones Mineras Becrux SpA., which is controlled by Codelco with 67.80% of the shares, and which exercises significant influence over Anglo American Sur S.A. with 29.5%.

As of December 31, 2023, the Corporation performed an evaluation of the value of its investment in the associate Anglo American Sur S.A. and determined that the recoverable amount of the asset is less than the carrying value recorded, recognizing an impairment of ThUS\$ 522,448, which is recognized under the caption "Equity in earnings (losses) of associates and joint ventures accounted for using equity method" in the statement of comprehensive income for the year 2023. The aforementioned impairment loss resulted from lower than projected production and cost performance.

The recoverable amount of the investment in the associate was calculated using the fair value methodology less costs of disposal. The recoverable amount of the operating assets was determined based on the life of mine by using a discounted cash flow model whose main assumptions included ore reserves declared by the associate, copper price, supply costs, foreign exchange rates, discount rate and market information for the long-term asset valuation. The discount rate used was an annual rate of 6.77% after taxes. Furthermore, the resources not included in the mining plan (LOM), as well as the potential

resources to explore, have been valued using a multiples market approach for comparable transactions.

Subsequent to the recognition of the equity in earnings (losses) of the associate as detailed above, no indications are observed that would require additional impairment of the recoverable amount of the investment held in Anglo American Sur S.A.

Kairos S.A.

As of December 31, 2023, the control of the company lies in Honeywell Chile S.A. which owns 60% of the shares while Codelco owns the remaining 40%.

The purpose of the company is to provide automation and control services for industrial and mining activities and to provide technology and software licenses.

The following tables present the assets and liabilities as of December 31, 2023 and December 31, 2022 of investments in associates, as well as the main movements and their respective results during the years ended December 31, 2023 and 2022.

b) Additional information on unrealized profits

Codelco carries out copper purchase and sale operations with Sociedad Contractual Minera El Abra. As of December 31, 2023 and 2022, the value of finished products under the Inventories caption did not present balances for unrealized profit provision.

As of December 31, 2023 and 2022, the Corporation has unrealized gains on the purchase of LNG terminal use rights from Sociedad Contractual Minera El Abra. balance of ThUS\$ 2,123 and ThUS\$ 3,920, respectively.

c) Share of profit or loss for the period

The income before tax corresponding to the proportion on the income of Anglo American Sur S.A. recognized for the year ended December 31, 2023 was a loss of ThUS\$ 54,897. Codelco also recognized an adjustment to such income corresponding to the depreciation and write-offs of the fair values of the net assets of such company originated at the acquisition date which resulted in a lower income before tax of ThUS\$ 8,937. In addition, Codelco recognized a loss of ThUS\$90,639 for the deferred tax liability associated with the effect of the new Royalty Law (Law No. 21591)) on the aforementioned fair values of the net assets and an impairment loss of ThUS\$ 522,448. Those adjustments are deducted

from "Equity in earnings (losses) of associates and joint ventures accounted for using the equity method" in the consolidated statement of comprehensive income.

The income before tax corresponding to the proportion on the income of Anglo American Sur S.A. recognized for the year ended December 31, 2022 was a profit of ThUS\$ 52,107 while the adjustment to such income corresponding to the depreciation and write-offs of the fair values of the net assets of such company recognized at the acquisition date, resulted in a lower income before tax of ThUS\$ 9,038 and is being deducted from "Equity in earnings (losses) of associates and joint ventures accounted for using the equity method" in the consolidated statement of comprehensive income.

10. Subsidiaries

The following tables set forth a detail of assets, liabilities and profit (loss) of the Corporation's subsidiaries, prior to consolidation adjustments:

Assets and liabilities	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Current assets	709,889	433,023

TOTAL	2,448,873	2,091,872	87	100,535	4,641,367

As of December 31, 2022, the balance of the caption "Other financial assets, current" includes ThUS\$ 1,315 invested in term deposit instruments with a maturity of more than 90 days.

- Fair value through profit or loss: As of December 31, 2023 and December 31, 2022, this category includes unfinished product sales invoices. Section II.2.g.
- Amortized cost: It corresponds to financial assets held within a business model whose objective is to hold financial assets to collect contractual cash flows that are solely payments of principal and interest on the principal outstanding. These assets are not quoted in an active market.

The effects on profit or loss recognized for these assets are mainly from financial income and exchange differences from balances denominated in currencies other than the functional currency.

No material impairments were recognized in trade and other receivables.

- Derivatives for Hedging: Corresponds to the balance for changes in the fair value of derivative contracts to cover existing transactions (cash flow hedges) and that affect profit or loss when transactions are settled or when, to the extent required by accounting standards, a compensation effect is charged (credited) to the income statement. The detail of derivative hedging transactions is included in the Note 28.

As of December 31, 2023 and December 31, 2022 there were no reclassifications between the different categories of financial instruments.

12. Other financial liabilities

Other financial liabilities consist of loans with financial institutions and bond issuance obligations, which are recorded by the Corporation at amortized cost using the effective interest rate method.

The following tables set forth other current/non-current financial liabilities:

Items	12-31-2023

- **Bond obligations:**

On May 10, 2005, the Corporation issued and placed bonds in the domestic market for a nominal amount of UF 6,900,000 of a single series labeled “Series B”, which consists of 6,900 bonds for UF 1,000 each. These bonds are payable in a single installment on April 1, 2025, at an annual interest rate of 4% and semi-annual interest payments.

On September 21, 2005, the Corporation issued and placed bonds in the U.S. market under Rule 144-A and Regulation S, for a nominal amount of ThUS\$500,000. These bonds are payable in a single installment on September 21, 2035, at an annual interest rate of 5.6250% and semi-annual interest payments.

On October 19, 2006, the Corporation issued and placed bonds in the U.S. market under Rule 144-A and Regulation S, for a nominal amount of ThUS\$500,000. These bonds are payable in a single installment on October 24, 2036, at an annual interest rate of 6.15% and semi-annual interest payments.

On July 17, 2012, the Company issued and placed bonds in the U.S. market under Rule 144-A and Regulation S, for a nominal amount of ThUS\$2,000,000. These bonds are payable in two installments. The first tranche on July 17, 2022 in the amount of ThUS\$1,250,000 at a 3% annual interest rate. Principal repayments of this tranche were made on August 22, 2017 for ThUS\$412,514, February 6, 2019 for ThUS\$314,219, October 8 and 22, 2019 for ThUS\$106,972 and ThUS\$3,820, respectively, December 16, 2020 for ThUS\$83,852 and June 17, 2022 for the remaining final balance. The second tranche matures on July 17, 2042 and is in the amount of ThUS\$750,000 at an annual interest rate of 4.25%.

On August 13, 2013, the Corporation issued and placed bonds in the U.S. market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$750,000, payable in a single installment on August 13, 2023, at an annual interest rate of 4.5% and semi-annual interest payments. On August 22, 2017, February 12 and February 26, 2019 and October 8 and 22, 2019 principal in the amounts of ThUS\$162,502, ThUS\$228,674 and ThUS\$270, ThUS\$23,128 and ThUS\$555 respectively, was paid. On May 6, 2020, the remaining principal due was increased for a nominal amount of ThUS\$131,000, reaching a total of ThUS\$465,871 with an annual coupon of 4.50%. Principal was paid on the amounts of ThUS\$ 79,688 on December 16, 2020, ThUS\$ 157,965 on October 22, 2021 and for the remaining balance of ThUS\$ 228,818 on August 13, 2023.

On October 18, 2013, the Corporation issued and placed bonds in the U.S. market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$950,000, payable in a single installment on October 18, 2043, at an annual interest rate of 5.625% and semi-annual interest payments.

On July 9, 2014, the Corporation issued and placed bonds in the international financial markets, under Rule 144-A and Regulation S, for a nominal of EUR\$600,000,000, payable in a single installment on July 9, 2024, at an annual interest rate of 2.25% and annual interest

payments. On October 22, 2021, capital was amortized in the amount of ThEUR\$200,116, reaching a total of ThEUR\$399,884.

On November 4, 2014, the Corporation issued and placed bonds in the U.S. market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$980,000, payable in a single installment on November 4, 2044, at an annual interest rate of 4.875% and semi-annual interest payments.

On September 16, 2015, the Corporation issued and placed bonds in the U.S. market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$2,000,000, payable in a single installment on September 16, 2025, at an annual interest rate of 4.5% and semi-annual interest payments. On August 22, 2017 and February 12, 2019, principal was paid for an amount of ThUS\$378,655 and ThUS\$552,754 respectively. On December 22, 2020, capital was amortized in the amount of ThUS\$392,499. On January 7, 2021, capital was amortized in the amount of ThUS\$5,000. On October 22, 2021, principal was amortized in the amount of ThUS\$273,867, reaching a total amount of ThUS\$397,235.

On August 24, 2016, the Corporation issued and placed bonds in the domestic market for a nominal amount of UF 10,000,000 of a single series labeled "Series C", which consists of 20,000 bonds for UF 500 each. These bonds are payable in a single installment on August 24, 2026, at an annual interest rate of 2.5% and semi-annual interest payments.

On August 1, 2017, the Corporation issued and placed bonds in the North American market, under standard 144-A and Regulation S, for a total nominal amount of ThUS\$ 2,750,000. One portion corresponds to an amount of ThUS\$ 1,500,000, maturing on August 1, 2027 with an annual coupon rate of interest of 3.625% and semi-annual interest. On December 22, 2020 and January 7, 2021, principal was paid in the amount of thUS\$ 227,154 and ThUS\$5,000 respectively. The other portion contemplates a maturity date of August 1, 2047, corresponding to an amount of ThUS\$ 1,250,000 with an annual coupon of 4.5% and semi-annual interest payments.

On May 18, 2018, Codelco issued a bond for US\$600 million with 30-year maturity in the market of Formosa, Taiwan. The bond issued is denominated in US dollars, had a yield of 4.85% and a prepayment option at the issue value that can be exercised from the fifth year onwards at its par value.

On February 5, 2019, the Corporation issued and placed bonds in the North American market, under Rule 144-A and Regulation S, for a total nominal amount of ThUS\$1,300,000, which maturity will be 5 February 2049 with a coupon of 4.375% per annum and interest payments on a semi-annual basis.

On July 22, 2019, the Corporation made a bond issue and placement, Regulation S, for a nominal amount of AUD \$ 70,000,000, whose maturity will be in a single installment on July 22, 2039, with a coupon of 3.58% annual and interest payment annually.

On August 23, 2019, the Corporation made a bond issue and placement, Regulation S, for a nominal amount of ThUS\$130,000, whose maturity will be in a single installment on August 23, 2029, with a coupon of 2.869% annual and interest payment semiannually.

On September 30, 2019, the Corporation made an issue and placement of bonds in the North American market, under rule 144-A and Regulation S, for a total nominal amount of ThUS\$2,000,000 whose maturity will be, under one tranche, on September 30, 2029 corresponding to an amount of ThUS\$1,100,000 with a 3% annual coupon. The other tranche contemplates a maturity on January 30, 2050, corresponding to an amount of ThUS\$900,000. On January 14, 2020 and October 22, 2021, a capital increase was made for a nominal amount of ThUS\$1,000,000 and ThUS\$780,000, respectively, reaching a total amount of ThUS\$2,780,000 with a coupon of 3.70% per annum.

On November 7, 2019, the Corporation made a bond issue and placement, Regulation S, for a nominal amount of HKD\$ 500,000,000, whose maturity will be in a single installment on November 7, 2034, with a coupon of 2.84% annual and interest payment annually.

On January 14, 2020, the Corporation issued and placed bonds in the North American market, under rule 144-A and Regulation S, for a nominal amount of ThUS \$ 1,000,000, the maturity of which will be in a single installment on 14 January 2030, with a coupon of 3.15% per annum and payment of interest every six months.

On May 6, 2020, the Corporation issued and placed bonds in the North American market, under Rule 144-A and Regulation S, for a nominal amount of ThUS\$800,000 whose maturity will be in a single installment on January 15, 2031, with a coupon of 3.75% per annum and interest paid every six months.

On December 14, 2020, the Corporation carried out an issuance and placement of bonds in the North American market, under standard 144-A and Regulation S, for a total nominal amount of ThUS\$500,000 whose maturity will be in a single installment on January 15, 2051, with a coupon of 3.15% per annum and interest payment on a semi-annual basis.

On February 2, 2023, the Corporation issued and placed bonds in the North American market, under Rule 144-A and Regulation S, for a total nominal amount of ThUS\$ 900,000 whose maturity will be in a single installment on February 2, 2033, with a coupon of 5.125% per annum and interest paid every six months.

On September 8, 2023, the Corporation issued bonds in the U.S. market under Rule 144-A and Regulation S for a total nominal amount of ThUS\$2,000,000 maturing on January 8, 2034 for an amount of ThUS\$1,300,000 with a coupon of 5.95% per annum, and on September 8, 2053, for an amount of ThUS\$700,000 with a coupon of 6.30% per annum. Both notes contemplate semiannual interest payments.

As of December 31, 2023 and 2022, the Corporation is not required to comply with any financial covenants related to borrowings from financial institutions and bond obligations.

- ***Financial debt commissions and expenses:***

Transaction costs incurred in obtaining financial resources are deducted from the loan proceeds and are amortized using the effective interest rate.

Corporación Nacional del Cobre de Chile

- (1) The finance costs consider the capitalization of interest, which, as of December 31, 2023 and 2022, amounted to ThUS\$ 246,136 and ThUS\$ 289,501 respectively.

13. Fair Value of financial assets and liabilities

The carrying amount of financial assets is a reasonable approximation to their fair value, therefore, no additional disclosures are required in accordance with IFRS 7.

Regarding financial liabilities, the following table shows a comparison as of December 31, 2023 between the carrying amount and the fair value of financial liabilities other than those whose carrying amount is a reasonable approximation of fair value:

Comparison book value vs fair value As of December 31, 2023	Accounting treatment for valuation	Book value ThUS\$	Fair value ThUS\$
<i>Financial liabilities:</i>			
Bond obligations	Amortized cost	18,717,055	16,969,626

14. Market value hierarchy for items at market value

Each of the market values calculated for the Corporation's portfolio of financial instruments is supported by a calculation methodology and data inputs. An analysis of each of these methodologies has been carried out to determine to which of the following levels they can be assigned:

- Level 1 corresponds to fair value measurement methodologies using market shares (unadjusted) in active markets to which the Corporation has access at the measurement date and considering identical Assets and Liabilities.
- Level 2 corresponds to fair value measurement methodologies using quoted market price data, not included in Level 1, that are observable for the Assets and Liabilities measured, either directly (prices) or indirectly (derived from prices). For hybrid contracts without finalized price: sales of metals with provisional prices for the period are adjusted to the market price at the end of the period. Gains and losses arising from the market valuation of open sales are recognized through adjustments to revenue in the income statement and to trade accounts receivable in the balance sheet. The forward prices at the end of the period are used for the sales of copper. These forward prices are quoted market prices on the LME. For currency swaps: they are valued using a discounted cash flow analysis valuation model that includes observable credit spreads and using the yield curve applicable over the life of the instruments.
- Level 3 corresponds to fair value measurement methodologies using valuation techniques that include data on the Assets and Liabilities valued, which are not based on significant observable market data.

Based on the methodologies, inputs, and definitions described above, the following market levels have been determined for the Corporation's portfolio of financial instruments held as of December 31, 2023:

Financial assets and liabilities at fair value classified by hierarchy	12-31-2023			
	Level 1 ThUS\$	Level 2 ThUS\$	Level 3 ThUS\$	Total ThUS\$
Financial assets:				
Hybrid contracts with non-finalized price	-	2,081,287	-	2,081,287
Cross currency swap	-	101,760	-	101,760
Mutual funds shares	24,427	-	-	24,427
Metal futures contracts	5	-	-	5
Financial liabilities:				
Metal futures contracts	3,310	1,577	-	4,887
Cross currency swap	-	117,598	-	117,598

here were no transfers between the different levels of market hierarchy for the reporting period.

15. Trade and other accounts payable

- a. Details of trade accounts payable, sundry accounts payable and other current accounts payable are shown in the following table:

Item	Current Liabilities	
	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Trade creditors	1,552,166	1,554,222
Payables to employees	22,902	20,925
Withholdings	105,542	94,742
Withholding taxes	24,281	18,985
Other accounts payable	85,001	90,664
Total	1,789,892	1,779,538

Trade creditors mainly include operating accounts payable, and obligations associated with investment projects.

- b. The following is a schedule of maturities of payments to trade creditors as of December 31, 2023, and December 31, 2022:

As of December 31, 2023		Amounts according to payment terms						Average payment period
Creditors with current due date	Up to 30 days	31 - 60	61 - 90	91 - 120	121 - 365	366 and over	Total	
Goods	653,344	270	125	-	-	-	653,739	16.0
Services	719,167	5,645	188	-	-	-	725,000	18.0
Other	85,612	851	-	-	-	-	86,463	14.0
Total	1,458,123	6,766	313	-	-	-	1,465,202	16.0

As of December 31, 2023		Amounts according to payment terms						Average payment period
Suppliers with overdue payments	Up to 30 days	31 - 60	61 - 90	91 - 120	121 - 365	366 and over	Total	
Goods	56,189	1,437	100	87	1,514	1,866	61,193	145.0
Services	16,618	1,892	1,067	510	2,149	871	23,107	94.0
Other	180	237	347	66	229	1,605	2,664	182.0
Total	72,987	3,566	1,514	663	3,892	4,342	86,964	140.3

As of December 31, 2022		Amounts according to payment terms						Average payment period
Creditors with current due date	Up to 30 days	31 - 60	61 - 90	91 - 120	121 - 365	366 and over	Total	
Goods	690,136	216	87	-	-	-	690,439	15.2
Services	628,575	7,106	131	-	-	-	635,812	16.6
Other	190,525	1,201	13	-	-	-	191,739	11.7
Total	1,509,236	8,523	231	-	-	-	1,517,990	16.5

As of December 31, 2022		Amounts according to payment terms						Average payment period
Suppliers with overdue payments	Up to 30 days	31 - 60	61 - 90	91 - 120	121 - 365	366 and over	Total	
Goods	16,642	509	1,104	712	776	260	20,003	527.3
Services	3,830	2,410	1,230	377	1,524	406	9,777	353.1
Other	218	266	255	253	117	5,343	6,452	480.1
Total	20,690	3,185	2,589	1,342	2,417	6,009	36,232	351.2

16. Other provisions

The detail of other current and non-current provisions at the dates mentioned is as follows:

Other provisions	Current		Non-current	
	12-31-2023 ThUS\$	12-31-2022 ThUS\$	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Sales-related provisions (1)	691,632	575,525	-	-
Operating (2)	50,127	17,554	-	-
Law No. 13196	111,795	129,582	-	-
Other provisions	45,935	39,004	617	604
Closure, decommissioning and restoration (3)	-	-	2,259,251	2,611,117
Legal proceedings	-	-	72,775	68,007
Total	899,489	761,665	2,332,643	2,679,728

(1) Corresponds to provisions for purchases and services relating to the operation, not billed at year-end.

(2) Corresponds to sales-related accruals, which includes charges for freight, loading, and unloading.

(3) Corresponds to provisions for future closure costs related mainly to tailings dams, mine site closures and other assets. This cost value is calculated at discounted present value, using flows associated with plans with an evaluation horizon ranging from 10 to 60 years. The rates used to discount future cash flows are calculated based on the Life of Mine "LOM" of each of the operations, distinguishing rates in UF for those obligations in Chilean pesos and rates in U.S. dollars for those obligations in U.S. dollars. These discount rates include the risks associated with the liability being determined, except those included in the cash flows.

Below is a table with the discount rates used:

Division	12-31-2023		12-31-2022	
	Local Currency Rate	Dollar Currency Rate	Local Currency Rate	Dollar Currency Rate
Gabriela Mistral	2.44%	3.16%	1.65%	2.83%
Andina	2.40%	3.29%	1.65%	2.87%
Ministro Hales	2.14%	3.12%	1.65%	2.87%
Chuquicamata	2.23%	3.17%	1.66%	2.78%
Radomiro Tomic	2.26%	3.19%	1.66%	2.76%
Salvador	2.20%	3.15%	1.66%	2.76%
Teniente	2.14%	3.12%	1.66%	2.69%
Ventanas	2.14%	3.12%	1.66%	2.69%

The Corporation determines and recognizes this liability in accordance with the accounting policy described in Note 2, letter p) on Significant Accounting Policies.

The movement in Other provisions, non-current was as follows:

Movements	1-1-2023 12-31-2023				1-1-2022 12-31-2022			
	Other Provisions, non-current	Provision for site closure	Contingencies	Total	Other Provisions, non-current	Provision for site closure	Contingencies	Total
	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Opening balance	604	2,611,117	68,007	2,679,728	496	2,407,814	49,275	2,457,585
Closing provision adjustment	-	(426,298)	-	(426,298)	-	15,310	-	15,310
Financial expenses	-	56,617	-	56,617	-	47,964	-	47,964
Payment of liabilities	-	-	(6,583)	(6,583)	-	-	(7,024)	(7,024)
Exchange rate difference	(3)	35,328	(1,472)	33,853	(1)	144,921	6,331	151,251
Other increases (decreases)	16	(17,513)	12,823	(4,674)	109	(4,892)	19,425	14,642
Closing balance	617	2,259,251	72,775	2,332,643	604	2,611,117	68,007	2,679,728

17. Employee benefits

a. Provisions for post-employment benefits and other long-term benefits

Provision for post-employment benefits mainly corresponds to employee severance indemnities and medical care plans. The provision for severance indemnities recognizes the contractual obligation that the Corporation has with its employees/retirees. The provision for medical care plans recognizes the contractual obligation that the Corporation has with its retirees to cover their medical care costs. Both benefits operate within the regulatory framework set forth in the collective bargaining or other agreements between the Corporation and its employees.

These provisions are recorded in the statement of financial position at the present value of the estimated future obligations. The discount rate used is determined based on the rate of financial instruments corresponding to the same currency in which the obligations will be paid and with similar maturities.

The defined benefit obligations are denominated in Chilean pesos; therefore the Corporation is exposed to foreign exchange rate risk.

The results arising from adjustments and changes in actuarial variables are charged or credited to the statement of comprehensive income for the period in which they occur.

During the year ended December 31, 2023, there were no relevant modifications to the post-employment benefit plans.

The following actuarial assumptions were used in the actuarial calculation of the defined benefit plans:

Assumptions	12-31-2023		12-31-2022	
	Retirement plan	Health plan	Retirement plan	Health plan
Annual nominal discount rate	5.44%	5.44%	5.33%	5.33%
Voluntary Annual Turnover Rate for Retirement (Men)	5.30%	5.30%	5.10%	5.10%
Voluntary Annual Turnover Rate for Retirement (Women)	5.90%	5.90%	6.00%	6.00%
Salary Increase (real annual average)	4.55%	-	4.64%	-
Future rate of long-term inflation	3.00%	3.00%	3.60%	3.60%
Expected inflation health care rate	-	5.78%	-	6.40%
Mortality tables used for projections	CB20-RV20	CB20-RV20	CB14-RV14	CB14-RV14
Average duration of future cash flows (years)	10.55	17.16	8.50	15.40
Expected Retirement Age (Men)	60	60	60	60
Expected Retirement Age (Women)	58	58	58	58

The discount rates correspond to the rates in the secondary market of government bonds issued in Chile. The projected annual inflation corresponds to an awareness above the long-term target publicly declared by the Central Bank of Chile and is derived from the market expectation as of December 31, 2023. The rotation rates have been determined after reviewing the Corporation's own experience by studying the cumulative behavior of outflows over the last three years with respect to the current allocations. The expected rate of salary increases has been estimated using the long-term behavior of historical salaries paid by the Corporation. The mortality tables used were those issued by the CMF, which are considered an appropriate representation of the Chilean market given the lack of comparable statistical series to develop independent studies. The financial duration of the liabilities corresponds to the average maturity of the payment flows of the respective defined benefits.

- b. The detail of current and non-current provisions for employment benefits as of the dates mentioned is as follows:

Employee benefits provisions	Current		Non-current	
	12-31-2023 ThUS\$	12-31-2022 ThUS\$	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Employees' collective bargaining agreements	198,806	196,256	-	-
Severance indemnities	31,425	29,047	586,199	562,126
Bonus	39,209	60,758	-	-
Vacation	176,193	175,957	-	-
Medical care programs (1)	394	383	452,423	463,883
Retirement plans (2)	13,844	64,654	7,701	7,703
Other	20,869	17,234	7,107	7,405
Total	480,740	544,289	1,053,430	1,041,117

The reconciliation of the balances of the provisions for post-employment benefits is presented below:

Movements	1-1-2023 12-31-2023		1-1-2022 12-31-2022	
	Retirement plan	Health plan	Retirement plan	Health plan
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Opening balance	591,173	464,266	551,491	389,055
Service cost	84,657	17,029	112,489	15,258
Finance cost	10,255	8,070	13,242	9,645
Paid contributions	(88,727)	(46,448)	(30,720)	(49,045)
Actuarial (gains) losses	34,330	4,112	(52,992)	61,862
Subtotal	631,688	447,029	593,510	426,775
(Gains) Losses on foreign exchange rate	(14,064)	5,788	(2,337)	37,491
Closing balance	617,624	452,817	591,173	464,266

The balance of the defined benefit liability as of December 31, 2023, comprises a portion of ThUS\$ 31,425 and ThUS\$ 394 for the severance indemnity and the medical care plan, respectively. As of December 31, 2024, a balance of ThUS\$ 668,758 has been projected for the provision for severance indemnities and ThUS\$ 447,590 for health benefits. The flows of compensation payments during the next twelve months reach an expected monthly average of ThUS\$ 2,619 for severance indemnities and ThUS\$ 33 for health benefit plans.

The technical revaluation of the liability (actuarial gain/loss defined under IAS19) for severance indemnities and health plan benefits as of December 31, 2023 has been performed with a charge to equity, which is broken down into an actuarial gain of ThUS\$ 34,330 for severance indemnities and actuarial loss of ThUS\$ 4,112, for the health plans.

The following is a review of the sensitivities of the provisions, when going from a medium scenario to a low or high scenario with unitary percentage variations, respectively, and both effects of reduction or increase on the book balance of these provisions:

Severance benefits for years of service	Low	Medium	High	Reduction	Increase
Financial effect on interest rates	5.19%	5.44%	5.69%	-1.25%	-1.21%
Financial effect on the real increase in income	4.30%	4.55%	4.80%	-1.09%	1.11%
Demographic effect of job rotations	4.86%	5.36%	5.86%	2.04%	-0.30%
Demographic effect on mortality tables	-25.00%	CB20-RV20	25.00%	0.00%	0.00%
Health benefits and other	Low	Medium	High	Reduction	Increase
Financial effect on interest rates	5.19%	5.44%	5.69%	2.56%	-2.42%
Financial effect on health inflation	5.28%	5.78%	6.28%	-0.20%	0.20%
Demographic effect, planned retirement age	58 / 56	60 / 58	62 / 60	3.79%	-3.75%
Demographic effect on mortality tables	-25.00%	CB20-RV20	25.00%	9.72%	-6.61%

c) Provisions for early retirement plans and termination bonuses

In accordance with its operating optimization programs to reduce costs and increase labor productivity by incorporating new current technologies and/or better management practices, the Corporation has established employee retirement programs by amending certain employment contracts or collective union agreements to include benefits encouraging

employees to early retire, for which the necessary provisions are made based on the accrued obligation at current value.

As of December 31, 2023 and as of December 31, 2022, there is a current balance of ThUS\$ 13,844 for early retirement and conflict termination bonuses of which ThUS\$64,654 respectively. Related non-current balances amount to ThUS\$7,701 and ThUS\$7,703, respectively. These amounts have been determined using a discount rate equivalent to that used for calculating employee benefits provisions and whose outstanding balances are part of the balances as of December 31, 2023 and as of December 31, 2022.

d) Employee benefits expenses

The employee benefit expenses recognized classified by nature are as follows:

Expense by Nature of Employee Benefits	1-1-2023	1-1-2022
	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Benefits - Short term	1,577,757	1,429,458
Benefits - Post employment	17,029	15,258
Early retirement plans and conflict termination bonuses	33,846	72,555
Benefits for years of service	84,657	112,489
Total	1,713,289	1,629,760

18. Equity

The Corporation's total equity as of December 31, 2023 is ThUS\$ 11,046,649 (ThUS\$ 11,654,565 as of December 31, 2022)

In accordance with article 6 of Decree Law No. 1350 of 1976, it is established that, before March 30 of each year, the Board must approve the Corporation's Business and Development Plan for the next three-year period. Taking that plan as a reference and keeping in mind the Corporation's balance sheet for the immediately preceding year and aiming to ensure its competitiveness before June 30 of each year the amounts that the Corporation shall allocate to the formation of capitalization funds and reserves shall be determined by decree from the Ministries of Mining and Treasury.

Net income shown in the Statement of Financial Position, after deducting the amounts referred to in the previous paragraph, shall belong to the State and become part of the Nation's general income.

On June 22, 2022, the Ministry of Finance agreed with the Corporation to a four-year average reinvestment plan of 30% of profits between 2021 and 2024, which will significantly contribute to the financing of Codelco's investment plan, while considerably reducing its debt requirements. Consistent with the above, on the same date the Ministry of Finance issued exempt decree No. 194 authorizing the Corporation to allocate up to ThUS\$582,750 of the net income from the balance sheet for the year 2021. In accordance with the provisions of exempt decree No. 4 of January 2023, these resources will be paid against the profits of 2022 and

2023, prior to the absorption of the excess of anticipated dividends of previous years and the interim dividends of 2022.

On July 17, 2023, the Ministry of Finance issued exempt decree No. 238 authorizing the Corporation to allocate up to ThUS\$103,677 of the net income shown in the 2022 balance sheet to capitalization and reserve funds, which will be charged against the income for 2023 and subsequent years, until that amount is reached, and the final amount will be determined and recorded once the 2023 accounting period is closed and the final income for the year is known.

As of December 31, 2022, a capitalization and reserve fund has been created amounting to ThUS\$345,589. During 2023, no new capitalization and reserve fund was created.

As of December 31, 2023, the Corporation has a balance in favor of advance dividends paid in prior years in excess of distributable earnings of ThUS\$509,843. As of December 31, 2023 and December 31, 2022, there are no dividends payable.

In the months of May and June 2022, dividends totaling ThUS\$ 259,900 have been paid.

The Consolidated Statement of Changes in Equity discloses the changes in the Corporation's equity.

The movement and composition of other equity reserves is presented in the Consolidated Statement of Changes in Equity.

Reclassification adjustments from other comprehensive income to income for the years meant a profit of ThUS\$ 620 and a profit of ThUS\$ 980 during years ended December 31, 2023 and 2022, respectively.

a) Other reserves

Details of other equity reserves are shown in the following table, according to the dates indicated for each case.

Other reserves	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Reserve on exchange differences on translation	(8,782)	(7,030)
Reserve of cash flow hedges	(1,095)	3,831
Capitalization fund and reserves	5,307,983	5,307,983
Actuarial results reserve in defined benefit plans	(272,779)	(262,465)
Fixed asset revaluation reserve Law 18110 year 1982	624,567	624,567
Other reserves	(9,971)	(7,460)
Total other reserves	5,639,923	5,659,426

b) Non-controlling interests

The detail of non-controlling interests, included in total equity and total profit or loss, as of the dates mentioned, is as follows:

Companies	Non-controlling interests		Equity		Profit	
	12-31-2023	12-31-2022	12-31-2023	12-31-2022	1-1-2023 12-31-2023	1-1-2022 12-31-2022
	%	%	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Inversiones GacruX SpA	32.20%	32.20%	696,923	914,073	(216,288)	16,000
Other	-	-	31	10	23	(18)
Total			696,954	914,083	(216,265)	15,982

The percentage of non-controlling interest over equity of Inversiones Mineras Becrux SpA generates a non-controlling interest in the subsidiary Inversiones GacruX SpA. which summarized financial information is as follows:

Assets and liabilities	12-31-2023 ThUS\$	12-31-2022 ThUS\$
Current assets	152,942	159,164
Non-current assets	2,147,507	2,827,107
Current liabilities	135,827	139,792
Non-current liabilities	217,715	220,162

Profit (loss)	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Income	674,881	793,472
Ordinary expenses and other	(1,351,613)	(748,728)
(Loss) gain for the period	(676,732)	44,744

Cash flows	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$

19. Revenue

Revenues from ordinary activities for the years ended December 31, 2023 and 2022, were as follows:

Item	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Revenue from sales of own copper	13,148,793	13,852,816
Revenue from sales of third-party copper	1,673,066	1,639,824
Revenue from sales of molybdenum	912,762	835,881
Revenue from sales of other products	654,327	694,752
Profit (loss) in futures market	4,281	(4,864)
Total	16,393,229	17,018,409

The Corporation's revenue is recognized at a point in time.

The breakdown of revenue is presented in explanatory note No.24 Operating Segments.

20. Expenses by nature

Expenses by nature for the years ended December 31, 2023 and 2022, were as follows:

Item	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Short-term benefits to employees	(1,577,757)	(1,429,458)
Depreciation (1)	(2,291,892)	(2,226,952)
Amortization	(234)	(332)
Raw Materials	(2,404,523)	(2,341,149)
Materials, consumables and others	(7,572,607)	(6,806,225)
Total	(13,847,013)	(12,804,116)

(1) Depreciation includes the expense of Property, plant and equipment and right-of-use assets (see note 7b and note 8.1).

21. Asset impairment

As indicated in note 29 letter b) point x), the corporation made progressed in cease operation of the Ventanas Smelter, which as of December 31, 2021 was part, together with the Ventanas Refinery, of a single cash-generating unit called the Ventanas Division. The Corporation is evaluating the assets of both operations separately, leading to the definition that the Ventanas Smelter and Ventanas Refinery are, as of December 31, 2022, separate cash-generating units under IAS 36.

As of December 31, 2022, the Corporation performed a calculation of the recoverable amount of its Ventanas Smelter cash-generating unit, for purposes of testing the assets associated with the cash-generating unit for impairment. Since such recoverable amount is zero, when compared to the carrying amount of the cash-generating unit's assets of ThUS\$89,410, an

impairment was determined for such amount, which was recorded in Other expenses in the statements of comprehensive income for the year 2022.

The recoverable amount determined corresponds to the value in use using a discount rate of 7.28% per year before taxes. The main variables used to determine the recoverable amount of this asset correspond to the price of rhenium, exchange rates and discount rates.

Also, as of December 31, 2022, the Corporation calculated the recoverable amount of its cash-generating unit related to the Ventanas refinery in order to test the assets associated with such cash-generating unit for impairment. The result of this calculation led to the conclusion that the recoverable amount is higher than the carrying amount of the cash-generating unit's assets and, therefore, there is no impairment loss.

As of December 31, 2023 and 2022, there are no indications of additional impairments or reversals of impairment for other cash-generating units or associates.

22. Other income and expenses

Other income and expenses by function for the years ended December 31, 2023 and 2022, is detailed below:

a. Other income

Item	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Penalties to suppliers	6,846	7,265
Delegated Administration	4,548	3,990
Miscellaneous sales (net)	22,934	21,495
Insurance compensation for accidents	35,019	41
Return of materials	374	945
Other miscellaneous income	23,318	30,995
Total	93,039	64,731

b. Other expenses

Item	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Law No. 13196	(1,256,339)	(1,273,425)
Research expenses (1)	(156,188)	(99,994)
Bonus for the end of collective bargaining (2)	(24,922)	(22,586)
Closing costs	(15,205)	-
Expense plan (see to note 17 letter c.)	(33,846)	(72,555)
Write-off of investment projects	(968)	(2,020)
Loss on disposal of fixed assets	(111,097)	(12,673)
Health plans (see to note 17 letter a.)	(17,029)	(15,258)
Compensation agreement framework agreement	(2,697)	(136,844)
Impairment of assets (note 21)	-	(89,410)
Adjustment of inventory	(13,248)	(13,287)
Material obsolescence	(26,861)	(22,264)
Bad debts customers	-	(59)
Contingency expenses	(14,723)	(26,914)
Fixed indirect costs, low production level (4)	(302,671)	(218,024)
Adjustment severance indemnities (3)	(31,417)	(55,849)
Other expenses	(55,595)	(42,154)
Total	(2,062,806)	(2,103,316)

- (1) Study expenses include exploration expenses (see note 7 letter f), pre-investment studies and research and technological innovation expenses.
- (2) Corresponds to disbursements for the closing of a collective bargaining process, which do not establish a permanence condition.
- (3) Corresponds to the restatement of severance indemnities liabilities associated with the portion earned by employees in prior years.
- (4) Break down by division for this concept is as follows:

División	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Andina	(6,486)	-
Chuquicamata	(73,700)	(132,387)
Ventanas	(24,879)	(38,858)
Ministro Hales	(12,283)	(8,547)
Gabriela Mistral	(3,763)	-
Salvador	(123,489)	(35,136)
Teniente	(58,071)	(3,096)
Total fixed indirect costs, low production level	(302,671)	(218,024)

c. Law No. 13196

Law No. 13196 - Under this law, the return in foreign currency of sales abroad of the Corporation's actual income from its copper production, including by-products, is taxed at 10%.

On January 27, 2017, Law No. 20989, article 3, establishes changes in the application of Law No. 13196 as of January 1, 2018, through which the Corporation will deposit annually, no later than December 15 of each year, the funds established in article 1 in that law.

On September 26, 2019, Law No. 21174 was published, which repeals Law No. 13196 and establishes that the 10% tax to the tax benefit provided by the Corporation will subsist for a period of nine years, decreasing from the tenth year 2.5% per year until reaching 0% at the beginning of the thirteenth year. The validity of this law is as of January 1, 2020, maintaining the payment annually at a date no later than December 15 of each year

On March 23, 2020, the Ministry of Finance issued Ordinary Official Letter No. 843, modifying the payment modality of the resources related to Law No. 13.196 to meet national needs generated by the COVID-19 crisis. Said Official Letter establishes that, as of April 2020, the monthly transfer of the corresponding resources according to their registration shall be made within a term no later than the last day of the month following the month in which they are accounted for.

23. Finance costs

Finance costs for the years ended December 31, 2023 and 2022, are detailed in the following table:

Item	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Bond interest	(547,293)	(412,912)
Bank loan interest	(70,483)	(18,149)
Restatement of severance indemnity provision	(10,255)	(13,242)
Restatement of other non-current provisions	(8,070)	(9,645)
Closing provision update	(56,617)	(47,964)
Other	(86,192)	(67,148)
Total	(778,910)	(569,060)

24. Operating segments

In section II "Significant Accounting Policies", it has been indicated that, for the purposes of IFRS 8, "Operating Segments", these are determined according to the Divisions that comprise Codelco. In addition, the Parent Company's revenues and expenses are distributed among the defined segments.

The mining deposits in operation, where the Corporation conducts its extractive and processing activities are managed by the following Divisions: Chuquicamata, Radomiro Tomic, Ministro Hales, Gabriela Mistral, Salvador, Andina and El Teniente. In addition, the smelting and refining activities are managed at the Ventanas Division and, from June 2023 onwards, in the refining area only. All these Divisions have a separate operational management, which reports to the Chief Executive Officer through the Vice-President of Operations. The information on each Division and their corresponding mining deposits is as follows:

Chuquicamata

Types of mine sites: Open pit mines and underground mines

Operating: since 1915

Location: Calama, II Region de Antofagasta. Chile

Products: electro refined and electrowon cathodes and copper concentrate

Radomiro Tomic

Types of mine sites: Open pit mines

Operating: since 1997

Location: Calama, II Region de Antofagasta. Chile

Products: electrowon copper cathodes and copper concentrate

Ministro Hales

Types of mine sites: Open pit mines

Operating: since 2014

Location: Calama, II Region de Antofagasta. Chile.

Products: Calcined copper, copper concentrates

Gabriela Mistral

Types of mine sites: Open pit mines

Operating: since 2008

Location: Calama, II Region de Antofagasta. Chile

Products: Electrolytic (electro-obtained) cathodes

Salvador

Type of mines: Underground and open pit mines

Operating: since 1926

Location: Salvador, III Region de Atacama. Chile.

Products: Electro refined and electrolytic (electro-obtained) copper cathodes and copper concentrate.

Andina

Type of mines: Underground and open pit mines

Operating: since 1970

Location: Los Andes, V Region de Valparaíso. Chile.

Product: Copper concentrate

El Teniente

Type of mines: Underground mine

Operating: since 1905.

Location: Rancagua, VI Region del Libertador General Bernardo O'Higgins. Chile.

Products: copper concentrate and copper anodes.

a) Allocation of Head Office revenue and expenses

Revenue and expenses controlled by the Head Office are allocated to the Divisions based on following criteria.

The main items are assigned based on the following criteria:

Revenue and Cost of Sales of Head Office commercial transactions

- The allocation to the Divisions is made in proportion to the ordinary income of each of them.

Other income by function

- Other income by function, associated and identified with each Division, is directly allocated.
- Recognition of realized profits and other income by way of subsidiaries are allocated in proportion to the revenues of each Division.
- The remaining other income is allocated in proportion to the aggregate of balances of “other income” and “finance income” of each Division.

Distribution costs

- Expenses associated and identified with each Division are directly allocated.
- Distribution costs of subsidiaries are allocated in proportion to the revenues of each Division.

Administrative expenses

- Expenses associated and identified with each Division are directly allocated.
- Administrative expenses recorded in cost centers associated with the sales function and administrative expenses of subsidiaries are allocated in proportion to the revenues of each Division.
- Administrative expenses recorded in cost centers associated with the supply function are allocated in proportion to inventory balances in warehouse in each Division.
- The remaining administrative expenses are allocated in proportion to operating cash outflows of each Division.

Other expenses, by function

- Other expenses associated and identified with each Division are directly allocated.
- Expenses for pre-investment studies and other expenses by function of subsidiaries are allocated in proportion to the revenues of each Division.

Other Gains

- Other gains associated and identified with each Division are directly allocated.
- Other gains of subsidiaries are allocated in proportion to the revenues of each Division

Finance Income

- Finance income associated and identified with each Division is directly allocated.
- Finance income of subsidiaries is allocated in proportion to the revenues of each Division.
- The remaining finance income is allocated in relation to the operating cash outflows of each Division.

Finance Costs

- Finance costs associated and identified with each Division are directly allocated.
- Finance costs of subsidiaries are allocated in proportion to the revenues of each Division

Share in profit (loss) of associates and joint ventures accounted for using the equity method

- The share in the profits or losses of associates and joint ventures identified with each particular Division is allocated on a straight-line basis.

Foreign exchange differences

- Foreign exchange differences identifiable with each Division are directly allocated.
- Foreign exchange difference of subsidiaries is allocated in proportion to the revenues of each Division.
- The remaining foreign exchange differences are allocated in relation to operating cash outflows of each Division

Contribution to the Chilean Treasury under Law No. 13196

- The amount of the contribution is allocated and accounted for in proportion to the invoiced and recorded amounts for copper and sub-product exports of each Division, that are subject to the surcharge.

Tax income benefit (expense)

- Income tax benefit (expense) Corporate income tax under D.L. 2398 and specific mining tax are allocated based on the income before income taxes of each Division, considering for this purpose the income and expenses allocation criteria of the Head Office and subsidiaries mentioned above.
- Other tax expenses are allocated in proportion to the corporate income tax, specific mining tax and tax under D.L. 2398 of each Division

b) Transactions between segments

Transactions between segments mainly related to products processing services (or tolling services), are recognized as revenue for the segment rendering the tolling services and as the cost of sales for the segment that receives the service. Such recognition is made in the period in which these services are rendered, as well as its elimination in the consolidated corporate financial statements.

Additionally, the reallocation of the profit and loss assumed by Ventanas Division, associated with the corporate mineral processing contract between Codelco and Enami, in which a distribution is applied based on the revenue of each division is included as a transaction between segments.

c) Cash flows by segments

The operating segments defined by the Corporation, maintains a cash management function which refers mainly to operational activities that need to be covered periodically with funds constituted in each of these segments and whose amounts are not significant in relation to corporate balances of cash and cash equivalents.

Conversely, activities such as obtaining financing, investment and payment of relevant financial obligations are mainly based at the Head Office.

Revenues segregated by geographic area are as follows:

Revenue per geographical areas	1-1-2023	1-1-2022
	12-31-2023	12-31-2022
	ThUS\$	ThUS\$
Total revenue from domestic customers	2,002,263	2,414,054
Total revenue from foreign customers	14,390,966	14,604,355
Total	16,393,229	17,018,409

Revenue per geographical areas	1-1-2023	1-1-2022
	12-31-2023	12-31-2022
	ThUS\$	ThUS\$
China	3,030,392	3,280,124
Rest of Asia	3,008,420	3,276,193
Europe	5,362,007	5,289,249
America	4,163,484	4,099,704
Other	828,926	1,073,139
Total	16,393,229	17,018,409

During the years ended December 31, 2023 and 2022, there was no revenue from ordinary activities from transactions with a single customer representing 10 percent or more of the Corporation's revenue from ordinary activities.

25. Exchange difference

Exchange differences for the years ended December 31, 2023 and 2022, are as follows:

Profit (loss) from foreign exchange differences recognized in income	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Exchange Rate Difference IAS Provision	14,064	2,337
Exchange Rate Difference Health Plan Provision	(5,788)	(37,491)
Exchange Rate Difference Provision for Mine Closure	(35,328)	(144,921)
Exchange Rate Difference Contingencies Provision	1,472	(6,331)
Exchange Rate Difference Other	(19,383)	(51,371)
Total exchange difference	(44,963)	(237,777)

26. Statement of cash flows

The following table shows the items that comprise other collections and payments from operating activities in the Statement of Cash Flows:

Other collections from operating activities	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
VAT Refund	2,071,300	1,569,295
Sales hedge	-	-
VAT and Others	634,965	766,601
Total	2,706,265	2,335,896

Other payments from operating activities	1-1-2023 12-31-2023 ThUS\$	1-1-2022 12-31-2022 ThUS\$
Contribution to Chilean treasury Law N°13.196	(1,274,126)	(1,295,352)
Sales coverages	(925)	(1,302)
VAT and other similar taxes paid	(2,189,868)	(1,767,339)
Total	(3,464,919)	(3,063,993)

During the years ended December 31, 2023 and 2022, no direct cash capital contributions were received.

27. Risk management

Corporación Nacional del Cobre de Chile has created instances within its organization that seek to generate strategies to minimize the financial risks to which it may be exposed.

The risks to which Codelco is exposed and a brief description of the management procedures that are carried out in each case, are described below.

a. Financial risks

- Exchange rate risk:

According to IFRS 7, exchange rate risk is understood to be the risk that arises from financial instruments that are denominated in foreign currencies, that is, a currency other than the Corporation's functional currency (US dollar).

Codelco's activities that generate this exposure correspond to funding in UF, accounts payable and receivable and provisions in Chilean pesos, other foreign currencies used in its business operations and obligations with employees.

Most transactions in currencies other than US\$ are denominated in Chilean pesos. Also, there is another portion in Euro, which corresponds mainly to a long-term loan issued through the international market, which exchange rate risk is mitigated with hedging instruments (Swap).

Taking into consideration the financial assets and liabilities as of December 31, 2023 as the base, a fluctuation (positive or negative) of 10 Chilean pesos against the U.S. dollar (keeping the other variables constant), could affect profits before taxes by US\$ 41 million in profit or loss, respectively. This result is obtained by identifying the main items (including assets and financial liabilities) denominated in foreign currencies in order to measure the impact on profit or loss that a variation of +/- 10 Chilean pesos would have in terms of US\$, with respect to the closing exchange rate at the end of the reporting period.

There are operating and investment expenses that are subject to price-level restatements associated with inflationary adjustments in the economic environment in which the Corporation operates. The Corporation periodically monitors the effects of these price-level restatements on its results in order to detect unusual situations that could have a significant financial impact.

Based on current conditions, the Corporation has not entered into, nor does it intend to enter into, derivative contracts specifically to hedge the effects discussed in the preceding paragraph.

If financial assets and liabilities are considered as of December 31, 2023, a 1% fluctuation (positive or negative) in the value of UF in Chilean pesos (with all other variables held constant) could affect the pre-tax result by an estimated US\$ 20 million loss or gain, respectively. This result is obtained by identifying the main items affected by exchange differences, both financial assets and liabilities, in order to measure the impact on income that a 1% variation in the value of the UF, used at the date of presentation of the financial statements, would have.

- Interest rate risk

This risk arises from interest rate fluctuations in Codelco's investment and financing activities. This movement can affect future cash flows or the market value of fixed rate financial instruments.

These rate variations refer to U.S. dollar variations, mostly with respect to the LIBOR rate. To manage this risk, Codelco maintains an adequate combination of fixed and variable rate debt, which is complemented by the possibility of using interest-rate derivatives to meet the strategic guidelines defined by Codelco's Vice-Presidency of Administration and Finance

It is estimated that, based on net debt at December 31, 2023, a one percentage point change in the interest rates of credit financial liabilities subject to variable interest rates would result in a change in annual interest expense of approximately US\$ 14 million, before taxes. This estimation is made by identifying the liabilities assigned variable interest, accrued at the end of the financial statements, which may vary with a change of one percentage point in variable interest rates.

The concentration of obligations that Codelco maintains at fixed and variable rates at December 31, 2023, corresponds to a total of ThUS\$ 18,717,055 and ThUS\$ 1,481,047, respectively.

b. Market risk.

• Commodity price risk:

As a result of its commercial operations and activities, the Corporation's income is mainly exposed to the volatility of copper prices and certain sub-products such as gold and silver.

Copper and molybdenum sales contracts generally establish provisional sales prices at the time of shipment of such products, while the final price will be considered based on a monthly average price determined by the market for future periods. At the reporting date, sales of provisionally priced products are adjusted to fair value and the effect is recorded in the results of operations for the period. Forward prices at the period-end are used for copper sales, while period-end average prices are used for molybdenum concentrate sales due to the absence of an assets futures market. (See Note 2.q) "Income from Activities Ordinary Procedures from Contracts with Customers" of section II "Main Accounting Policies").

As of December 31, 2023, if the future price of copper fluctuates by + / - 5% (with the other variables constant), the result would be +/- US\$231 million before taxes as a result of setting the mark to market of sales revenue to provisional prices in effect as of December 31, 2023 (MTMF 546). For the estimate indicated, all of those physical sales contracts were valued according to the monthly average immediately following the close of the financial statements, and proceeds to be estimated regarding what the final settlement price would be if there is a difference of + / - 5% with respect to the future price known to date for this period

In order to protect cash flow and adjust, where necessary, its sales contracts to its trade policy, the Corporation holds operations in futures markets. At the end of the reporting period, these contracts are adjusted to fair value, recording this effect, at the settlement date of the hedging transactions as part of net product sales.

The Corporation has not entered into any hedging transactions with the specific purpose of hedging the price risk caused by fluctuations in prices of production inputs.

c. Liquidity risk

The Corporation ensures that it has sufficient resources, such as pre-approved credit lines (including refinancing), in order to meet short-term requirements, after considering the necessary working capital for its operations and any other commitments it has.

In this sense, the Corporation maintains resources at its disposal sufficient to meet its obligations, whether in cash, liquid financial instruments or credit facilities.

In addition, the Finance Department constantly monitors the Corporation's cash flow projections based on short- and long-term projections and available financing alternatives. In addition, the Corporation estimates that it has enough headroom to increase the level of borrowing for the normal requirements of its operations and investments established in its development plan.

In this context, according to current existing commitments with creditors, the cash requirements to cover financial liabilities classified by maturity and presented in the statement of financial position are detailed as follows:

Maturity of financial liabilities as of 12-31-2023	Less than 1 year ThUS\$	Between one five years ThUS\$	Over years ThUS\$
Loans from financial entities	16,190	970,896	493,961
Bonds	719,049	3,579,140	14,418,866
Derivatives	116,882	-	5,603
Other financial liabilities	-	80,651	-
Total	852,121	4,630,687	14,918,430

d. Credit risk

This risk comprises the possibility that a third party does not fulfill its contractual obligations, thereby causing a loss for the Corporation.

Given the Corporation's sales policy, principally with cash and advance payments and bank letters of credit, the uncollectible of client debt balances is minimal. This is complemented by the familiarity the Corporation has with its clients and the length of time it has operated with them. Therefore, the credit risk of these transactions is not significant.

The indications with respect to the payment conditions to the Corporation are detailed in every sales contract and the negotiation management is under the charge of the Commercial Vice-Presidency.

In general, the Corporation's other accounts receivable have a high credit quality according to the Corporation's evaluations, based on each debtor's solvency analysis and payment history.

The maximum exposure to credit risk as of December 31, 2023 is represented by the financial asset items presented in the Corporation's Statement of Financial Position.

The Corporation's accounts receivable does not include customers with balances that could be classified as a significant concentration of debt and would represent a material exposure for Codelco. This exposure is distributed among many clients and other counterparties.

In the customer items, the provisions, which are not significant, are included based on the review of the outstanding balances and characteristics of the clients, destined to cover eventual insolvencies.

Explanatory note 2 "Trade and other receivables" shows past due and not provisioned balances.

The Corporation estimates that unimpaired amounts overdue over 30 days are recoverable based on clients' historical payment behavior and their existing credit ratings.

As of December 31, 2023 and 2022, there are no receivable balances that have been renegotiated.

Codelco works with major banks, which have high national and international ratings, and continually assesses them; therefore, the risk that could affect the availability of the Corporation's funds and financial instruments is not significant.

Also, in some cases, to minimize credit risk, the Corporation has contracted credit insurance policies through which it transfers to third parties the commercial risk associated with some aspects of its business.

During the years ended December 31, 2023 and 2022, no guarantees have been executed in relation to ensure the collection of third party debt.

Personnel loans mainly relate to mortgage loans, according to programs included in union agreements, which are paid for through payroll discounts.

e. Other relevant risks

In addition to exposure to financial risks, community relations, environmental, litigation and regulatory proceedings, during 2022 we defined strategic risks as risks or combination of risk events that may threaten the business model in the short or long term, structuring our model in a robust way to face the challenges that become more demanding each year, such as changes in social expectations, infrastructure and human development.

The model designed contemplates risks for at least the next three years and also some that would be relevant for a longer period. It also considers monitoring emerging risks which are permanently monitored by the industry.

Risks are permanently monitored to identify, address and oversee appropriate mitigation actions, with the support of the second line of defense established in Codelco's corporate governance mainly through corporate risk management, working to provide assurance on the status of controls or drive the necessary behavior to achieve the expected status.

These definitions also consider risk appetite as the nature and extent of risk that the Corporation is willing to accept in relation to the achievement of its business and objectives. The above factors in the probability and severity of the consequences of the materialization of a risk in the different areas of its impact.

Our risk management program considers that risk appetite and risks may change over time and may require management actions to respond to changes in the context. Information regarding the main risks considered by Codelco will be included in the Annual Report as of 2022.

28. Derivatives contracts.

The Corporation has entered transactions to hedge cash flows, to minimize the risk of foreign exchange rate variations and sales price variations, detailed as follows:

a. Exchange rate hedge

The Corporation maintains an exposure associated with its foreign exchange hedging operations, the balance of which corresponds to a net deferred tax profit recognized in equity amounting to ThUS\$ 615 as of December 31, 2023.

The following table shows details of the fair value and other information of the financial hedges contracted by the Corporation:

December 31, 2023									
Hedged item	Bank	Type of derivative contract	Maturity	Currency	Hedged item	Financial obligation Hedging instrument	Fair value hedged item	Asset	Amortized cost
					ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Bono UF Vcto. 2025	Credit Suisse (EE.UU.)	Swap	04-01-2025	US\$	289,409	208,519	81,093	298,016	(216,923)

Total					1,233,053	1,273,841	(26,402)	1,248,174	(1,274,576)

As of December 31, 2023, the Corporation has no cash collateral balances.

The current methodology for valuing currency swaps uses the bootstrapping technique based on mid-swap rates to construct (zero) curves in functional currencies other than the functional currency and USD, respectively, based on market information.

The notional amounts held by the Corporation for financial derivatives are detailed below:

December 31, 2023	Notional amount of contracts with final maturity							
	Currency	Less than 90 days	Over 90 days	Total current	1 to 3 years	3 to 5 years	Over 5 years	Total non-current
		MUS\$	MUS\$	MUS\$	MUS\$	MUS\$	MUS\$	MUS\$
Currency derivatives	US\$	19,203	37,793	56,996	1,202,983	7,719	145,057	1,355,759

December 31, 2022	Notional amount of contracts with final maturity							
	Currency	Less than 90 days	Over 90 days	Total current	1 to 3 years	3 to 5 years	Over 5 years	Total non-current
		ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Currency derivatives	US\$	13,156	37,793	50,949	829,643	428,148	148,916	1,406,707

b. Cash flows hedging contracts and commercial policy adjustment

The Corporation trades in the copper, gold and silver derivative markets and records its results upon termination. These results are added to or deducted from sales revenues. As of December 31, 2023, these operations generated a higher net realized result of ThUS\$ 3,338.

b.1. Commercial flexibility operations of copper contracts

Its objective is to adjust the price of sales to the Corporation's sales policy, which is defined according to the London Metal Exchange. As of December 31, 2023, the Corporation has copper derivative transactions associated with 251,025 metric tons of fine copper. These hedging transactions are performed as part of the Corporation's commercial policy.

The current contracts as of December 31, 2023, present a negative balance of ThUS\$ 4,885 and their final result will only be known at their maturity, offsetting the hedging transactions with revenue from the sale of the hedged products.

Operations completed between January 1 and December 31, 2023, generated a net positive effect in results of ThUS\$ 2,803, corresponding to values for physical sales contracts for a positive amount of ThUS\$ 3,746 and values for physical purchase contracts for a negative amount of ThUS\$ 943.

b.2. Trade operations of current gold and silver contracts.

As of December 31, 2023, the Corporation has derivative contracts for gold at ThOZT 574 and for silver at ThOZT 41,317.

The contracts in force as of December 31, 2023 present a positive exposure of ThUS\$ 3, the final result of which can only be known at the expiration of these operations, after the compensation between the hedging operations and the income from the sale of the protected products. These hedging operations expire up to February, 2024.

As of December 31, 2023, the Corporation has completed gold and silver operations, which generated a net positive effect on income of ThUS\$535 corresponding to the value of physical sales contracts.

b.3. Cash flow hedging operations backed by future production

The Corporation has no outstanding transactions as of December 31, 2023, arising from these operations, which protect future cash flows by locking in price levels for the sale of part of its production

The following tables set forth the maturities of metal hedging activities, as referred to in point b above:

December 31, 2023		Maturity date

29. Contingencies and restrictions

a) Lawsuits and contingencies

There are various lawsuits and legal actions initiated by or against the Corporation, which derive from its operations and the industry in which it operates. In general, these are civil, tax, labor and mining litigations, all related to the Corporation's activities.

In the opinion of Management and its legal advisors, the lawsuits where the Corporation is being sued and could have negative results do not represent significant loss contingencies or cash flows. Codelco defends its rights and makes use of all the corresponding legal and procedural instances and resources.

The most relevant lawsuits filed by Codelco relate to the following matters:

- Tax Proceedings: There is a tax proceeding for liquidation No.141 of tax year 2015 and Exempt Resolution No. 89 of 2016 issued by the Internal Revenue Service (SII), for which the Corporation presented the corresponding appeals, which were received and resolved in favor of the Tax and Customs Courts, a resolution that was appealed by the SII.
- Labor lawsuits: Labor proceedings brought by the workers against the Corporation, regard to occupational diseases, labor accidents and other matters.
- Mining proceedings and others arising from the operation: The Corporation has been participating, and will probably continue to participate, as plaintiff and defendant in given court proceedings involving its mining operation and activities, through which it seeks to exercise certain actions or set up certain defenses in relation to given mining concessions that have been established or are in the process of being established, as well as also with regard to its other activities. These proceedings currently do not involve any given amount and do not have any essential effect on Codelco's development.

One of the arbitration lawsuits pending final judgment, as of December 31, 2023, is the one between Codelco and Consorcio Belaz Movitec SpA.

During the year ended December 31, 2023, there are no lawsuits or other proceedings representing 10 percent or more of the Corporation's total outstanding lawsuits.

At the date of issuance of these financial statements, Corporación Nacional del Cobre faces various lawsuits and legal actions against it for a total of approximately ThUS\$ 419,248 corresponding to 1,125 cases for ThUS\$ 73,719. According to the estimate made by the Corporation's legal advisors, there are 921 cases representing 81,87% of the total, on which a loss is probable for an amount of ThUS\$ 72,775. There are also 145 cases, representing 12.89% for an amount of ThUS\$361, on which there is a less than probable likelihood that the Corporation will get an unfavorable sentence. For the remaining 59 cases, representing 5.24% for an amount of ThUS\$583, the Corporation's legal advisors believe that an unfavorable outcome is unlikely.

- Lawsuit under administrative law: On August 2, 2017, a Nullity in Public Law claim was filed in the 25th Civil Court of Santiago against Audit Report No. 900 of 2016, issued by the General Comptrollership of the Republic on May 10, 2017.

Once the discussion and evidence stage concluded, the Santiago Civil Court, on September 11, 2020, delivered its judgment in which it dismissed the annulment action filed by the Corporation, condemning it to the respective costs of said lawsuit.

On October 27, 2020, the Corporation filed appeals and cassation in the form of the sentence of the 25th Civil Court of Santiago, which dismissed the Public Law nullity action filed by the Codelco against Report No. 900 of 2016 of the Comptroller General of the Republic.

In December 2022, the Corporation established a collaboration commitment with the Comptroller General of the Republic (CGR) to reinforce the principle of probity in regulation, applicable to the company regarding operations with related parties, establishing a framework for any contracts with related parties, safeguarding the legal status of the company and its business line, in addition to reinforcing controls for sensitive operations. This agreement with the Comptroller's Office recognizes Codelco's good practices and also improves controls for related party transactions. As a result of this agreement, litigation with the regulator has been terminated.

For litigation with probable loss and its costs, there are the necessary provisions, which are recorded as contingency provisions.

b) Other commitments.

- i. Law No. 19993 dated December 17, 2004, authorized the purchase of the Refinery and Smelter Las Ventanas assets from ENAMI, establishing that the Corporation must ensure that the smelting and refining capacity required is maintained, without any restriction and limitation, for treating the products of the small and medium mining sector sent by ENAMI, under the form of toll production or another form agreed upon by the parties. (See paragraph described in number viii, where the modification of this law is mentioned).
- ii. Obligations with the public for bond issues means that the Corporation must meet certain restrictions related to limits on pledges and leaseback transactions on its principal assets and on its ownership interest in subsidiaries.

The Corporation has complied with these conditions as of December 31, 2023 and 2022.

- iii. On January 20, 2010, the Corporation signed two energy supply contracts with Colbún S.A., which includes energy and power sales and purchases for a total of 510 MW of power. The contract provides a discount for that unconsumed energy from Codelco's SIC divisions with respect to the amount of contracted power. The discount is equivalent to the value of the sale of that energy on the spot market.

The contracted power for supplying these Divisions is comprised by two contracts:

- Contract No.1 for 176 MW, current until December 2029.
- Contract No.2 for 334 MW, current until December 2044. This contract is based on energy production from Colbún's Santa María thermal power station, which is currently in operation. This plant is coal-fired, and therefore the electric energy tariff rate applied for the energy supplied to Codelco is linked to the price of coal.

Both of these contracts comply with Codelco's long-term energy and power requirements from the SIC of approximately 510 MW.

Through these contracts, which operate through take or pay, the Corporation agrees to pay for the contracted energy and Colbún undertakes to reimburse at market price the energy not consumed by Codelco

These contracts have maturity dates in 2029 and 2044.

On October 27, 2022, Codelco signed an amendment to the contract, which, among other aspects, will allow replacing the coal-based electricity supply with a renewable energy supply. This transformation will be implemented gradually, and as of January 1, 2026 the contract will be for 1,000 GWh/year of renewable energy.

- iv. For the electric power supply of the Chuquicamata's work center, the following contracts are maintained:

For the electric power supply of the Chuquicamata's work center, there are three contracts: Engie for a 15-year term from January 2010, that is maturing in December 2024, for 200 MW capacity, and another contract for a 200 MW capacity which was signed in January 2018 and will be effective as of January 2025 with maturity in December 2035. CTA effective from 2012 for 80 MW capacity, maturity in 2032.

- v. On August 26, 2011, Codelco signed two energy supply contracts with AESGener. The first one for the Minister Hales division for a 99 MW capacity and the second contract for the Radomiro Tomic work center, for a maximum capacity of 145 MW. Both contracts will mature in 2028.

In December 2022, the respective agreements were renegotiated and signed. The agreement implies the modification of the original contracts and a new renewable sources contract effective from 2023 to 2040.

- vi. On November 11, 2011, Law No. 20551 was published in the Official Journal, which regulates the tasks and closure of mining facilities. Additionally, on November 22, 2012, the Supreme Decree No. 41 of the Minister of Mining, which approves the Regulations of this Law, was published in the Official Gazette.

This law requires the Corporation, among other requirements, to provide financial guarantees to the State to ensure the implementation of closure plans. It also establishes the obligation to make contributions to a fund which aims to cover the costs of post-closure activities.

The Corporation, in accordance with the regulations, delivered in 2014 to the National Geology and Mining Service (SERNAGEOMIN) the mine closure plans for each of the eight divisions of Codelco. These closure plans were developed under the transitional regime of the Law, specified for mining companies affected by the general application procedure, which are those with extraction capacity > 10,000 tons/month, and that at the date of entry into force of the Law were in operation, and with a closure plan previously approved under the Mining Safety Regulation D.S. No. 132.

All these transitional closure plans were approved in 2015 in accordance with the provisions established in the Law.

The law also established the obligation to update these closure plans, under the conditions of the general regime of the law, which incorporates new and greater requirements for the closure plans, five years after its entry into force, i.e. in 2020 in the case of Codelco. This calendar was brought forward to 2019 due to operational particularities for the Chuquicamata and Ventanas Divisions, and postponed to 2021 by SERNAGEOMIN, due to the COVID19 pandemic for the entire industry, and therefore for all other divisions.

In compliance with this new schedule, Codelco approved in 2021 the updated closure plans for the El Teniente, Radomiro Tomic, Ministro Hales and Gabriela Mistral Divisions, and as of December 31, 2021, the approval of the updated plans for the Salvador and Andina Divisions is in process. During the year 2022, Codelco obtained the approval of the updated closure plans of the Salvador and Andina divisions. The Corporation has provided the corresponding guarantees committed in all the approved closure plans, in accordance with the latest updates in force.

As of December 31, 2023, the Corporation has agreed guarantees for an annual amount of UF 75,079,400 to comply with the aforementioned Law No. 20551 (see note No. 30).

- vii. On August 24, 2012, Codelco through its subsidiary Inversiones Mineras Nueva Acrux SpA (Nueva Acrux) (whose minority shareholder is Mitsui), signed a contract with Anglo American Sur S.A. Under this contract, Codelco agreed to sell a portion of its annual copper production to the mentioned subsidiary, who in turn agrees to purchase such production.

Such annual portion is determined by the share of Codelco's indirect subsidiary, Inversiones Mineras Becrux SpA (also shared ownership with Mitsui), maintained for the shares of Anglo-American Sur S.A.

In turn, the subsidiary Nueva Acrux agrees to sell to Mitsui, the products purchased under the agreement described in the preceding paragraphs.

The contract expiration will occur when the shareholders agreement of Anglo-American Sur S.A. ends or other events related to the completion of mining activities of the company take place.

- viii. On June 17, 2022, Codelco's Board of Directors agreed to move forward with preparations to cease operation of the Ventanas Smelter, subject to parliament amending Law No. 19,993 within a limited period of time, whose scope referred exclusively to the smelter and not to the refinery or other operations of the Ventanas Division. For this measure to be carried out, it

required the amendment and approval by the Executive and the Legislature of Law No. 19,993, which obliged the Corporation to smelt the minerals of Empresa Nacional de Minería (ENAMI) at the Ventanas Smelter.

On March 6, 2023, Congress approved the modification of the aforementioned law, allowing this obligation to be fulfilled by other smelters and refineries of Codelco

Later, in May 2023, the National Geology and Mining Service (Sernageomin) authorized Codelco the temporary closure plan for the Ventanas smelter, which will have an initial duration of two years, extendable for another three, during which time engineering will be developed and permits will be processed to move on to the definitive closure stage, which considers, among other actions, the dismantling of the smelter facilities.

On May 31, 2023, the Ventanas smelter furnaces were shut down.

30. Guarantees

The Corporation as a result of its activities has received and given guarantees. The following tables list the main guarantees given to financial institutions:

Direct Guarantees provided to Financial Institutions and other

32. Sanctions

As of December 31, 2023 and 2022, neither Codelco Chile or its Directors and Managers have been sanctioned by the CMF or any other administrative authorities.

33. The environment

Each of Codelco's operations is subject to national, regional and local regulations related to protection of the environment and natural resources, including standards relating to water, air, noise and disposal and transportation of dangerous residues, among others. Chile has introduced environmental regulations that have obligated companies, including Codelco, to carry out programs to reduce, control or eliminate relevant environmental impacts. Codelco has executed and shall continue to execute a series of environmental projects to comply with these regulations.

Pursuant to the Letter of Values approved in 2010, Codelco is governed by a series of internal policies and regulations that frame its commitment to the environment, among which is the Corporate Sustainable Development Policy (2021).

The environmental management systems of the divisions, structure their efforts in order to comply with the commitments assumed by the corporation's environmental policies, incorporating elements of planning, operating, verifying and reviewing activities. As of December 31, 2023, Codelco is certified under the ISO 14001:2015 Standard, which is applicable to all its divisions.

To comply with the Circular No. 1901 of 2008 of the CMF, the details of the Corporation's main expenditures related to the environment during the periods from January 1 to December 31, 2023 and 2022, respectively, and the projected future expenses are stated below.

34. Subsequent Events

- On January 23, 2024, the shareholders of Lithium Power International (LPI) approved the sale of its shares to the company Salar de Maricunga SpA, a subsidiary of Codelco. The acquisition was authorized by Codelco's board of directors, in line with the National Lithium Strategy announced on April 20, 2023.

According to the timeline, the next step is for the Federal Court of Australia to validate and authorize the closing of the transaction, which is scheduled for February 13. Thus, the definitive completion of the transaction is expected for February 23, 2024.

In view of the above, the Reserved nature of the Fact informed by means of Notes PE-144/2023 dated December 1, 2023 and PE-147/2023, dated December 5, 2023 and extension communicated by means of Note PE-001/2024 dated January 2, 2024 is hereby lifted.

- On January 23, 2024, it is reported as an essential fact that Codelco completed today a successful international bond placement in New York.

The bond placement amounted to US\$ 2,000 million for a 12-year term and the reopening of the 2053 bond, issued on September 8, 2023, with a yield of 6.447% and 6.746%, respectively. The rate represents a spread of 230 and 235 basis points over the U.S. Treasury bond of the equivalent term, respectively. More than 357 orders were received, from 310 investors, with an oversubscription of 3.75 times.

This operation is part of the Corporation's need to finance its long-term investment plan. The issuance was led by BOFA, Citi, JP Morgan and Santander banks.

Accordingly, the Reserved nature of the event reported in Note PE-145/2023 dated December 1, 2023 is lifted.

- On January 25, 2024, in accordance with the provisions of Article 9 and the second paragraph of Article 10 of Law No. 18,045, details of the financing transaction carried out on January 23, 2024 are reported as an essential fact.
- On January 26, 2024, the Corporation informed as an essential fact that Mr. Braim Chiple Cendegui has been appointed as Vice President of Marketing of Codelco, who will assume his position as of March 15, 2024.

On the same date, Mr. Cristóbal Fuenzalida Montero's interim position as Vice President of Marketing was terminated.

- On March 19, 2024, it is reported as an essential fact that Mr. José Sanhueza Reyes, Assistant Vice President, will cease his functions in the Corporation due to voluntary resignation effective that same day.

The aforementioned position is eliminated from the organizational chart of the Corporation, as it has fulfilled its purpose of accompanying the organizational transition that meant the elimination of the Vice-Presidency of Smelting and Refinery.

- On March 20, 2024, as an essential fact, it is reported, in relation to Corporación Nacional del Cobre de Chile ("Codelco") and its businesses, that:

By means of an essential fact dated December 27, 2023, Codelco reported the signing of a memorandum of understanding with Sociedad Química y Minera de Chile S.A. (MOU) for the negotiation of a public-private partnership for the operation, exploration and exploitation of mining properties leased to Corporación de Fomento de la Producción in the Salar de Atacama and the commercialization of the products derived from such exploitation. According to the MOU, the parties would seek to sign the definitive partnership documents no later than March 31, 2024.

On this date, the parties have entered into an amendment to the MOU to establish May 31, 2024 as the new deadline for agreeing and signing the definitive partnership documents, without prejudice to the parties' commitment to attempt to reach a full agreement and signature before that date. It should be reminded that, once the definitive partnership documents have been signed, certain conditions precedent (including those referred to in the MOU) must be met for the partnership to materialize and take effect.

The text of the amended MOU will be available to the public at www.codelco.com.

Management of the Corporation is not aware of other significant events of a financial nature or of any other nature that could affect these financial statements, occurring between January 1, 2024 and the date of issue of these consolidated financial statements as March 28, 2024.
