Each of the Issuers accepts responsibility for the information contained in this Prospectus and has confirmed to the dealers set forth on the cover page and any new dealer appointed from time to time under the Programme (each a "**Dealer**" and together the "**Dealers**") that this Prospectus contains all information with regard to HeidelbergCement and HC Finance Lux and the Notes which is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Issuers and the rights attaching to the Notes which is material in the context of the Programme, that the information contained in this Prospectus with respect to HeidelbergCement and HC Finance Lux and the Notes is accurate and complete in all material respects and is not misleading, that the opinions and intentions expressed herein with respect to HeidelbergCement and HC Finance Lux and the Notes are honestly held, that there are no other facts with respect to HeidelbergCement and HC Finance Lux or the Notes the omission of which would make this Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect and that the Issuers have made all reasonable enquiries to ascertain all facts material for the purposes aforesaid.

Each of the Issuers has undertaken with the Dealers to publish a supplement to this Prospectus or to publish a new Prospectus if and when the information herein should become materially inaccurate or incomplete or in the event of any significant new factor, material mistake or material inaccuracy relating to the information included in this Prospectus which is capable of affecting the assessment of the Notes and, where approval by the CSSF of any such document is required, upon such approval having been given.

No person has been authorized to give any information which is not contained in or not consistent with this Prospectus or any other information supplied in connection with the Programme and, if given or made, such information must not be relied upon as having been authorized by or on behalf of any Issuer or any of the Dealers.

The offering, sale or delivery of any Notes may not be taken as an implication that the information contained in such documents is accurate and complete subsequent to their respective dates of issue or that there has been no adverse change in the financial condition of the Issuers and the Guarantor since such date or that any other information supplied in connection with the Programme is accurate at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

To the extent permitted by the laws of any relevant jurisdiction, neither the Arranger nor any Dealer nor any person mentioned in this document other than the Issuers accepts any responsibility for the accuracy and completeness of the information contained in this Prospectus or any supplement hereof, or any other document incorporated by reference nor for the information contained in any Final Terms.

The distribution of this Prospectus and any Final Terms and the offering, sale and delivery of Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus or any Final Terms comes

are required to inform themselves about and observe any such restrictions. For a description of the restrictions applicable in the United States of America, the European Economic Area in general, the United Kingdom, Japan, Italy and Singapore, see "*Selling Restrictions*". In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933, as amended, (the "**Securities Act**") and are subject to tax law requirements of the United States of America; subject to certain exceptions, Notes may not be offered, sold or delivered within the United States of America or to U.S. persons.

The Final Terms in respect of any Notes may include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, "**MiFID II**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

If the Final Terms in respect of any Notes include a legend entitled "**Prohibition of Sales to EEA and UK Retail Investors**", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**") or in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

Product classification requirements in Singapore: The Notes are prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

The language of the Prospectus is English. Any part of the Prospectus in the German language constitutes a translation. In respect of the issue of any Tranche (as defined below) of Notes under the Programme, the German text of the Terms and Conditions may be controlling and binding if so specified in the relevant Final Terms. In respect of the Guarantee the German language version of the Guarantee is controlling and binding as to form and content, and all rights and obligations of the Holders and the Guarantor thereunder.

This Prospectus may be used for subsequent offers by the Dealers and/or further financial intermediaries only for the period so specified in the Final Terms for the relevant Tranche of Notes.

Neither this Prospectus nor any Final Terms may be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation.

Neither this Prospectus nor any Final Terms constitute an offer or invitation by or on behalf of the relevant Issuer or the Dealers to any person to subscribe for or to purchase any Notes.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the stabilizing manager(s) (or persons acting on behalf of any stabilizing manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the price of the Notes at a level higher than that which might otherwise prevail. However, stabilization may not necessarily occur. Any stabilization action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilization action or over-allotment must be conducted by the relevant stabilizing manager(s) (or person(s) acting on behalf of any stabilizing manager(s)) in accordance with all applicable laws and rules.

The information on any website included in the Prospectus, except for the website www.bourse.lu in the context of the documents incorporated by reference, do not form part of the Prospectus and has not been scrutinized or approved by the CSSF.

Amounts payable under Floating Rate Notes are calculated by reference to (i) EURIBOR (Euro Interbank Offered Rate) which is provided by the European Money Markets Institute (EMMI) or (ii) LIBOR (London Interbank Offered

Rate) which is provided by the ICE Benchmark Administration Limited (IBA). As at the date of this Prospectus, each of EMMI and IBA appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to Article 36 of the Benchmarks Regulation (Regulation (EU) 2016/1011) ("**BMR**").

Forward-Looking Statements

This Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "*anticipate*", "*believe*", "*could*", "*estimate*", "*expect*", "*intend*", "*may*", "*plan*", "*predict*", "*project*", "*will*" and similar terms and phrases, including references and assumptions. Forward-looking statements in this Prospectus are based on current estimates and assumptions that the Issuers make to the best of their present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including HeidelbergCement Group's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. HeidelbergCement Group's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Prospectus to become inaccurate. GENERAL DESCRIPTION OF THE PROGRAMME AND ISSUE PROCEDURES

I. General Description of the Programme

Under this € 10,000,000,000 Euro Medium Term Note Programme, HeidelbergCement AG and HC Finance Lux may from time to time issue notes (the "**Notes**") to one or more of the following Dealers: Banca IMI S.p.A., Barclays Bank PLC, Barclays Bank Ireland PLC, Bayerische Landesbank, BNP Paribas, BofA Securities Europe SA, Citigroup Global Markets Europe AG, Citigroup Global Markets Limited, Commerzbank Aktiengesellschaft, Crédit Agricole Corporate and Investment Bank, Danske Bank A/S, Deutsche Bank Aktiengesellschaft, ING Bank N. V., J.P. Morgan Securities plc, Landesbank Baden-Württemberg, Landesbank Hessen-Thüringen Girozentrale, Mediobanca - Banca di Credito Finanziario S.p.A., Merrill Lynch International, Morgan Stanley & Co. International plc, Raiffeisen Bank International AG, Skandinaviska Enskilda Banken AB (publ), Standard Chartered Bank AG and any additional Dealer appointed under the Programme from time to time by the Issuer(s), which appointment may be for a specific issue or on an ongoing basis (together, the "**Dealers**").

Deutsche Bank Aktiengesellschaft acts as arranger in respect of the Programme (the "**Arranger**").

The maximum aggregate principal amount of the Notes outstanding at any one time under the Programme will not exceed € 10,000,000,000 (or its equivalent in any other currency). The Issuers may increase the amount of the Programme in accordance with the terms of the Dealer Agreement from time to time.

The Notes issued by HC Finance Lux will have the benefit of the guarantee given by HeidelbergCement AG (the "**Guarantee**"). The Guarantee dated November 18, 2016 constitutes an unconditional, unsecured and unsubordinated obligation of HeidelbergCement AG and ranks *pari passu* with all other unsecured and unsubordinated obligations of HeidelbergCement AG.

Notes may be issued on a continuing basis to one or more of the Dealers. Notes may be distributed by way of public offer or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each tranche ("**Tranche**") will be stated in the relevant final terms (the "**Final Terms**"). Notes may be offered to qualified and non-qualified investors, unless the applicable Final Terms include a legend entitled "*PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS*".

Notes will be issued in Tranches, each Tranche in itself consisting of Notes which are identical in all respects. One or more Tranches, which are expressed to be consolidated and forming a single series and identical in all respects, but having different issue dates, interest commencement dates, issue prices and dates for first interest payments may form a series ("**Series**") of Notes. Further Notes may be issued as part of existing Series. The specific terms of each Tranche (which will be supplemented, where necessary, with supplemental terms and conditions) will be set forth in the applicable Final Terms.

Notes will be issued in such denominations as may be agreed between the relevant Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, € 1,000, and, if in any currency other than euro, an amount in such other currency nearly equivalent to € 1,000 at the time of the issue of the Notes. Subject to any applicable legal or regulatory restrictions, and requirements of relevant central banks, Notes may be issued in euro or any other currency. The Notes will be issued with a maturity of twelve months or more. The Notes will be freely transferable.

Notes may be issued at an issue price which is at par or at a discount to, or premium over, par, as stated in the relevant Final Terms. The issue price for Notes to be issued will be determined at the time of pricing on the basis of a spread which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum spread and may only be confirmed at or above such spread. The resulting spread will be used to determine an issue price, all to correspond to the spread.

The yield for Notes with fixed interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

The Risk Factors included into this Prospectus are limited to risks which are (i) specific to HeidelbergCement AG and HC Finance Lux as Issuers and Guarantor, as the case may be, as well as the Notes, and (ii) are material for taking an informed investment decision. They are presented in a limited number of categories depending on their nature. In each category the most material risk factor is mentioned first.

Under this Prospectus a summary will only be drawn up in relation to an issue of Notes with a denomination of less than € 100,000 (or its equivalent in other currencies). Such an issue-specific summary will be annexed to the applicable Final Terms.

Application has been made to the CSSF, which is the Luxembourg competent authority for the purpose of the Prospectus Regulation for its approval of this Prospectus.

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Prospectus to be admitted to trading on the Luxembourg Stock Exchange's Regulated Market or on the professional segment of the Regulated Market and to be listed on the official list of the Luxembourg Stock Exchange. The Programme provides that Notes may be listed on further stock exchanges, as may be agreed between the relevant Issuer and the relevant Dealer(s) in relation to each issue. Notes may further be issued under the Programme which will not be listed on any stock exchange.

Notes will be accepted for clearing through one or more Clearing Systems as specified in the applicable Final Terms. These systems will comprise those operated by Clearstream Banking AG, Frankfurt am Main, Clearstream Banking S.A., Luxembourg and Euroclear Bank SA/NV. Notes denominated in euro or, as the case may be, such other currency recognized from time to time for the purposes of eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, are intended to be held in a manner, which would allow Eurosystem eligibility. Therefore, these Notes will initially be deposited upon issue with in the case of (i) a new global note either Clearstream Banking S.A., Luxembourg or Euroclear Bank SA/NV as common safekeeper or, (ii) a classical global note Clearstream Banking AG, Frankfurt am Main. It does not necessarily mean that the Notes will be recognized as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

Deutsche Bank Luxembourg S.A. will act as Luxembourg Listing Agent and Deutsche Bank Aktiengesellschaft will act as fiscal agent and paying agent (the "**Fiscal Agent**").

II. Issue Procedures

General

The relevant Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche of Notes (the "**Conditions**"). The Conditions will be constituted by the relevant set of Terms and Conditions of the Notes set forth below (the "**Terms and Conditions**") as further specified by the Final Terms (the "**Final Terms**") as described below.

Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the relevant Issuer to choose between the following Options:

- Option I – Terms and Conditions for Notes with fixed interest rates;
- Option II – Terms and Conditions for Notes with floating interest rates.

Documentation of the Conditions

The relevant Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of the Option I or Option II, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions alone shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be required where the Notes are publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- Alternatively, the Final Terms shall determine which of Option I or Option II and of the respective further options contained in each of Option I and Option II are applicable to the individual issue by referring to the relevant provisions of the relevant set of Terms and Conditions as set out in the Prospectus only. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus attached.

Determination of Options / Completion of Placeholders

The Final Terms shall determine which of the Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I or Option II contains also certain further options

(characterized by indicating the respective optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the text of the relevant set of Terms and Conditions as set out in the Prospectus) as well as placeholders (characterized by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The relevant Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in the Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In the case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

All instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

Controlling Language

As to the controlling language of the respective Conditions, the following applies:

- In the case of Notes (i) offered to the public, in whole or in part, in the Federal Republic of Germany, or (ii) initially distributed, in whole or in part, to non-qualified investors in the Federal Republic of Germany, German will be the controlling language. If, in the event of such offers to the public or distribution to non-qualified investors, however, English is chosen as the controlling language, a German language translation of the Conditions will be available from the principal offices of the Fiscal Agent and the Issuers, as specified on the back cover of this Prospectus.
- In other cases the relevant Issuer will elect either German or English to be the controlling language.

RISK FACTORS

The following is a description of material risks that are specific to HeidelbergCement and HC Finance Lux and/or may affect their respective ability to fulfil their respective obligations under the Notes and the Guarantee and that are material to the Notes issued under the Programme in order to assess the market risk associated with these Notes. Prospective investors should consider these risk factors before deciding whether to purchase Notes issued under the Programme.

Prospective investors should consider all information provided in this Prospectus and consult with their own professional advisers (including their financial, accounting, legal and tax advisers) if they consider it necessary. In addition, investors should be aware that the risks described might combine and thus intensify one another.

RISKS RELATING TO HEIDELBERGCEMENT AG AS ISSUER AND GUARANTOR

The risk factors regarding the Issuer and the Guarantor are presented in the following categories with the most material risk factor presented first in each category depending on their nature:

1. Risks related to the Issuer's and Guarantor's business activities and industry
2. Risks related to the Issuer's and Guarantor's financial situation
3. Legal and regulatory risks
4. Environmental, social and governance risks

1. Risks related to the Issuer's and Guarantor's business activities and industry

Adverse developments in the global economy and construction industry

HC Group is exposed to the economic environment and cyclical trends in the global economy and construction industry. HC Group would be adversely affected by any prolonged contraction in economic activity in local, regional or global economies. Such contractions due to cyclical economic fluctuations, market disruption through instability or crises interrupt normal trade flows and, consequently, economic downturns and periods of prolonged instability often coincide with a decline in business activity. They could negatively impact HC Group's business and results of operations.

A major industry-specific risk is the weather-related impact on sales for building materials, which is mainly due to the seasonal nature of demand. Harsh winters with extremely low temperatures or high precipitation impact construction activity and have a negative effect on the demand for building materials. The same is true for monsoons in some Group countries such as India.

Moreover, adverse weather conditions can materially and adversely affect the business, financial condition and results of operations of HC Group if they occur with unusual intensity, during abnormal periods, or last longer than usual in HC Group's major markets, especially during the normal peak construction periods.

Government-funded building activities as well as political and other external circumstances

Investments in infrastructure such as roads, railways, airports, and waterways fall under public construction. This sector depends largely on national budgets and the implementation of special infrastructure programmes. Relevant risks are connected with fluctuating income, e.g. in countries that export raw materials, or budgetary consolidation, which can lead to cuts in infrastructure investments. On the one hand, noticeable increases due to public projects have a somewhat delayed effect. On the other hand, the scope of the cutbacks and their impact on the demand for building materials cannot be predicted with certainty.

HC Group operates in more than 50 countries around the world and is therefore exposed to political risks, such as nationalization, geopolitical tensions, prohibition of capital transfer, terrorism, war, and unrest. At a number of locations, HC Group cannot rule out certain security risks because of internal political circumstances.

In certain countries, such as Togo, cement prices are regulated by the government. There may also be government intervention in production control, such as the temporary decommissioning orders in China. With regard to Egypt, the new cement capacities introduced by the army impacted the local market and while there are signs for a stabilization and improvement of the situation there is also a risk that the army will further increase competition and disrupt the market.

Exceptional external incidents, such as natural disasters or pandemics, could also negatively impact HC Group's business performance. Liberia and Sierra Leone experienced an Ebola outbreak in 2014, which was only

declared officially over at the end of 2015. Should another outbreak occur, there exists the risk that an adequate amount of raw materials necessary for cement production cannot be imported to these countries. HC Group rates this risk as a high risk with a seldom likelihood and a critical impact.

The spreading of the coronavirus (COVID-19 — Coronavirus SARS-CoV-2) together with any measures aimed at mitigating a further expansion thereof, does already cause significant deterioration in some economies and may have a material adverse effect on the global economy and international financial markets in general and on the markets in which HC Group operates in particular. It is affecting HC Group's production sites including temporary closures and demand for HC Group's products in certain countries (i.e. Italy, France, Spain, the United States, India among others - as per March 2020). The spreading of COVID-19 could also trigger some restrictions regarding cross-border transactions, thereby affecting the procurement of essential input materials to production (including clinker or cement) in other countries, where these are not readily available. At the time of preparation of this Prospectus there is no reliable, quantitative forecast of the COVID-19 impact available.

The aforementioned risks may have material adverse effects on HC Group's business, financial condition and results of operations.

Supply and price risks in the energy markets and CO₂ allowances

HC Group is a significant purchaser of power and fuels for the production and distribution of cement and other related products. The most energy intensive production process within the HC Group is the production of cement. The kilns, used for the production of the intermediate product clinker, consume fuels such as coal, petroleum coke, natural gas, heating oil, or alternative fuels. HC Group's grinding mills also consume large amounts of electricity. Infrastructural bottlenecks with regard to electricity supply are another common risk for HC Group, especially in Africa. The yellow machines in HC Group's quarries across all businesses as well as the on-road transportation of the final product are affected by diesel price movements.

Supply and pricing of these resources are subject to market forces beyond HC Group's control. In addition, regulations relating to power grid costs or to the emissions of carbon dioxide by HC Group's power suppliers could result in increased electricity costs for operations. In some developing countries in which HC Group operates there is the risk that the infrastructure to supply energy is not sufficiently robust to guarantee uninterrupted supply.

In the future it might become necessary to also purchase CO₂ allowances for the production process. If allocations from the respective emission trading jurisdiction are not sufficient to cover HC Group's CO₂ emissions from productions, additional allowances need to be purchased in the market. Allowance prices are subject to market volatility and can increase significantly, which would result in higher costs when CO₂ allowances are purchased.

The aforementioned effects, as well as a significant increase in energy or CO₂ allowance prices not mitigated by long-term supply or hedging agreements could have material adverse effects on HC Group's business, financial condition and results of operations.

Availability and cost of raw materials and additives

HC Group requires a considerable amount of raw materials for cement and aggregates production, which is partly offset by its own high deposits. There is potential for certain risks in particular locations with regard to obtaining mining and operating concessions. Necessary permissions may be refused in the short term or disputes may arise regarding mining fees. Expansions in urbanization of cities across the footprint of HC Group's operations can result in the necessary permits not being renewed which may cause significant problems in the production process including increased transportation costs. Ecological factors and environmental regulations for access to raw material deposits also create a degree of uncertainty. In some regions of the world, for example in West Africa south of the Sahara, raw materials for cement production are so scarce that cement or clinker needs to be imported by sea.

Raw materials and other inputs which HC Group cannot exploit or produce itself are purchased in the market. These include slag, fly ash and other materials for its cement production, cement for use in its ready-mixed concrete and concrete product operations, steel for use in its concrete product and pipe operations and bitumen for use in its asphalt activities. The prices for raw materials are subject to significant cyclical fluctuations and have continuously and at times substantially increased in the recent past. Increases in materials costs, shorter terms of payment and requests for transaction security, such as bank guarantees or surety bonds, have led to increasing procurement costs and may do so in the future. With regard to slag, the concentration of steel producers and excess steel capacities in Europe could reduce the availability of slag in the long term.

In the process of setting prices for its products, HC Group aims to pass on increases in the costs of raw materials to the customers. As most of the products are standardized bulk goods whose price is essentially determined by supply and demand, there is a risk that price increases cannot be passed on or will cause a decline in sales volumes, particularly in markets with excess capacities.

This could negatively affect HC Group's profitability. HC Group would also be materially impaired by disruptions in the availability of such raw materials. All of the aforementioned risks could have material adverse effects on HC Group's business, financial condition and results of operations.

Risks resulting from the substitution of products

Cement, sand, gravel, and hard rock are the basic raw materials for the construction of houses, industrial facilities, and infrastructure throughout the world. Because cement is highly energy- and CO₂-intensive, research projects are being undertaken to develop alternative binders with a more favourable energy and climate footprint.

Employees of HC Group are closely monitoring the development of alternative binders and are actively exploring this area. However, when comparing the current state of knowledge regarding alternative binders with the stringent requirements relating to the processability, durability, and cost-effective production of the binders, HC Group generally does not anticipate that the alternative binders currently being developed will replace traditional cement types on a large scale in the next few years. If the production costs for traditional binders increase dramatically, particularly in mature markets, e.g. as a result of further shortages of government-issued CO₂ emission certificates or significant increases in energy prices, alternative binders could replace traditional binders provided that they fulfil all the aforementioned requirements which would have negative consequences for HC Group's revenue.

In the aggregates business a substitution could take place via increased recycling of construction materials. This effect might be intensified due to stricter requirements for obtaining mining concessions. In the short-term HC Group does not see a high risk arising from the usage of recycled materials.

In addition there is a general risk of concrete being substituted by other materials like steel, glass or wood products. Although in some countries the usage of such alternative building materials is increasing, this is considered to be a low-level risk due to different characteristics and fields of application of the products.

Dependency on qualified personnel in key positions and employees having special technical knowledge

Qualified and motivated personnel is one of the key factors for the further development of HC Group's business, in particular its further technological development and geographic expansion. Competition for such personnel has increased in recent years and in certain cases in the past HC Group was facing challenges in obtaining or retaining the desired personnel. Personnel shortages as well as the loss of important employees could negatively influence HC Group's further business development. In addition, there are risks related to HC Group's dependence on individual persons in key positions, particularly at the level of the Managing Board as well as in the areas of development, distribution, service, production, finance and marketing. The loss of management personnel or employees in key positions would lead to a loss of know-how, or under certain circumstances to the passing on of this know-how to competitors.

If one of the above mentioned risks is realized, this could materially adversely affect HC Group's business, financial condition and results of operations.

Dependency on sound and uninterrupted operations of HC Group's information and communication technology

IT systems support HC Group's global business processes, communication, and also to an increasing extent sales, logistics, and production. The increasing convergence of information technology and operational technology opens up the risk of security breaches due to the integration of areas that were previously kept separate. In the case of existing applications, HC Group is particularly concerned with business-critical resources (e.g. Enterprise-Resource-Planning and logistics applications or net infrastructure). Risks could primarily arise from the unavailability of IT systems and the loss or manipulation of information.

The realization of one or more of these risks could materially adversely affect HC Group's business, financial condition, reputation and results of operations.

Adverse effect of intense competition on HC Group's revenue, profits and market shares

HC Group operates in many markets around the world, and many factors affect the competitive environment HC Group faces in any particular market. The cement, aggregates, ready-mixed concrete and asphalt markets are regional markets that are mainly characterized by regional and local competitive factors, including in particular the number of competitors in a given market, such competitors' degree of vertical integration and pricing policies, the development of regional demand and capacity, the availability and cost of raw materials, other cost impacts, the possible entry of additional competitors in markets, or changes to competitive conditions through increases in imports or first-time imports in markets by competitors. The import risk in particular refers to competitive disadvantages of locations that are subject to CO₂ regulations and easily accessible for imports from countries without CO₂ regulations. Insufficient progress in digitalization efforts could also result in a loss of efficiency and competitiveness. As a consequence of adverse development of any of the aforementioned competitive factors, HC Group may face price, margin or volume declines in the future. Any significant volume, margin or price declines could have material adverse effects on HC Group's results of operations.

Risks relating to acquisitions and participations in joint ventures

HC Group considers part of its strategy to be the acquisition of companies and entering into joint ventures or acquiring other strategic shareholdings in order to expand or complement its product or technology portfolio, or to realize synergies. The acquisition and integration of acquired enterprises and joint ventures involves considerable investments, uncertainties and risks and requires, among other factors, the ability to integrate the newly acquired businesses or joint ventures into the existing operational units and to retain or quickly replace a sufficient number of qualified management personnel, other key employees and persons with the necessary know-how. HC Group may not be able to successfully carry out such integrations or realize planned savings, synergies and/or opportunities for growth originally planned in the context of the acquisition or the joint venture. The purchase price for the acquisition of businesses, joint ventures or other strategic shareholdings may turn out to be excessive, or unforeseen restructuring expenses may be necessary. Therefore, the success of future acquisitions of or shareholdings in companies cannot be guaranteed. Furthermore, HC Group may not be able to identify appropriate candidates for acquisitions or joint ventures or to acquire them or participate in them on attractive terms. This could lead to HC Group falling behind, particularly in terms of regional competition. Anti-trust law could also prove an obstacle to mergers or acquisitions.

Such investments can affect the financing structure and debt level of HC Group and might increase the goodwill position in the consolidated balance sheet. The risk of the impairment of goodwill (or other assets) occurs if the assumed interest rate in an impairment test increases or the predicted cash flows decline which might be triggered by a material economic downturn or unforeseen business and financial developments.

The realization of one or more of the aforementioned risks may have material adverse effects on HC Group's business, financial condition and results of operations.

2. Risks related to the Issuer's and Guarantor's financial situation

Liquidity risk with respect to obtaining funds to finance HC Group's operations and investments

HeidelbergCement has been assigned investment grade ratings from Moody's Deutschland GmbH ("**Moody's**"), Fitch Italia S.p.A. ("**Fitch**") and S&P Global Ratings Europe Limited ("**S&P**"). Deterioration in HC Group's business results and financial condition could have a negative effect on its credit ratings and thereby lead to higher financing costs and difficulties to obtain sufficient funding for its operations. Higher financing costs could have material adverse effects on HC Group's business, financial condition and results of operations.

HC Group is active in the financial markets and issues bonds and commercial papers to fund its operations and investments. In addition, it makes use of bank credit facilities and trade finance programs in various currencies. HeidelbergCement's € 3 billion syndicated credit line dated January 12, 2018, which was maturing after a first extension on January 12, 2024, was further prolonged by all but one lender to January 10, 2025 (such that tranche of € 0.15 billion of the overall amount of € 3 billion is therefore still due on January 12, 2024) and certain other financing agreements of HC Group provide for certain restrictions with respect to HC Group's operational flexibility. In particular, HC Group has to adhere to certain financial ratios (covenants) and general undertakings, allowing the lenders to claim immediate repayment of the outstanding loans if such covenants or undertakings are not satisfied. There is a potential risk that these requirements, particularly in connection with the financial covenants, will not be met in the future. For its operations, HC Group has to provide guarantees in the form of bank guarantees or surety bonds. In case the guarantors or surety providers withdraw their commitment, this could lead to a worsening in the financial position and could have impacts on HC Group's operations.

A breach of financial covenants or a restricted access to financial markets could have a material adverse effect on HC Group's business, financial condition and results of operations.

Currency markets fluctuation risks

HC Group operates in a variety of countries worldwide and therefore is exposed to fluctuations of many currencies, thus giving rise to currency risks, in particular currency translation risks.

Currency translation risk refers to the risk of a change in the value of the currency in which the accounts are maintained, resulting from the translation of positions in the balance sheet and income statement originally expressed in a foreign currency during the course of consolidation. This might lead to lower results in the consolidated income statement and cash flows in the consolidated statement of cash flows as well as lower asset values in the consolidated balance sheet of HC Group's consolidated financial statements.

Currency translation risk can have a material adverse effect on HC Group's business, financial condition and results of operations.

Risks arising from HC Group's pension obligations

HC Group has obligations to current and former employees relating to pensions and other post-employment benefits. HC Group predominantly finances company pension obligations externally through separate plan assets. The plan assets required to cover future pension obligations are actuarially determined using, among

other things, assumptions concerning the expected development of the pension obligations as well as return on plan assets. The plan assets comprise equity and other investments, and the value and returns of these assets may rise or fall with changing market conditions. Declining or even negative returns on these investments and correlations between different asset classes may adversely affect the future fair value of plan assets and could trigger additional contribution requirements to cover future pension obligations. Additional contributions to pension plans may also be triggered by declining interest rates leading to higher present values of future pension liabilities or by changes to local minimum funding requirements prescribed by local statutes or regulations. Sudden requirements to fund pension plans due to adverse market conditions might have a material adverse effect on HC Group's business, financial condition and result of operations.

Insufficiency of HC Group's insurance coverage

HC Group decides on the type and scope of its insurance coverage on the basis of a commercial cost-benefit analysis. As a result of such analysis, HC Group has taken out insurance coverage for risks related to its business operations. However, some business-related risks are not covered by insurance at all and the HC Group's insurance agreements are subject to various exclusions of liability and deductibles in line with standard market practice. There can be no assurance that HC Group will not incur losses or that no claims will be raised which exceed the type or scope of existing insurance coverage. As HC Group operates in locations with increased risks of earthquakes and other natural disasters, insurance coverage might not be sufficient to cover all damages. Environmental claims and liabilities arising out of former activities may not be comprehensively covered by HC Group's insurance policies. If HC Group incurs damage for which there is insufficient insurance coverage or if it cannot obtain insurance coverage for future risks, this could have material adverse effects on HC Group's business, financial condition and results of operations.

3. Legal and regulatory risks

Legal risks regarding governmental investigations (e.g. regarding antitrust laws), and related court proceedings and other litigation

HC Group being active in more than 50 countries around the world is exposed to numerous legal risks, which have realized in the past, e.g. in intense investigations and damage claims relating to actual or alleged antitrust infringements and other disputes of different kind.

Different investigations and litigations are still ongoing in the field of antitrust laws in various countries, including India, Italy, Hungary, Poland, Romania and Spain. The proceedings are at different stages, including court proceedings. In general, the geographic and product markets in which HeidelbergCement, its subsidiaries and affiliates are active vary significantly in terms of the competitive market structure and the nature and extent of their participation in such markets. In certain markets (i) the concentration of cement, concrete and aggregate markets among a few competitors, (ii) the homogeneity of cement, concrete and aggregates and their sensitivity to transportation costs, (iii) the frequent use of restrictive provisions in supply, distribution and license agreements and/or (iv) the practice of supplying competitors and entering into joint venture and/or distribution agreements with competitors and/or their affiliates (potentially giving rise to the allegation of unlawfully coordinating competitors' behavior in the course of such relationships), have and may in the future induce anti-trust authorities in those areas to initiate antitrust investigations or third parties to file antitrust complaints against HeidelbergCement or certain of its subsidiaries and affiliates.

A proven antitrust law infringement could adversely affect HC Group in a variety of ways. For example, it could result in: (i) the imposition of significant fines by one or more authorities (in the case of the EU Commission and certain EU member states (the number of which will increase due to the implementation of the Directive (EU) 2019/1 due until February 2021), up to a maximum of 10% of an undertaking's worldwide annual group revenue) and (ii) third parties (such as competitors and customers) initiating substantial civil litigation claiming damages caused by anti-competitive practices. In addition, involvement in illegal anti-competitive conduct may give rise to a reputational risk for HC Group and a requirement for HC Group to share assets, business secrets or know-how. Apart from the consequences that may result from any potential involvement in illegal conduct, HC Group may be restricted in its ability to carry out acquisitions due to merger regulations in a certain jurisdiction. Furthermore, compliance with competition laws and regulations may involve significant costs or require changes in business practices that may result in reduced revenue and, accordingly, have a material adverse effect on the business, the results of operations and financial condition of HC Group.

Furthermore, third parties have asserted on occasion, and may in the future assert, damage claims in significant amounts against HC Group based on alleged violations of numerous laws, including antitrust laws, related or unrelated to any actual specific investigation or proceedings. HC Group defends itself vigorously against any claims that it considers as being without merit or even made arbitrarily. Depending on whether a claimant actually goes to court, HC Group's defence against such claims may involve significant legal costs. Should HC Group not be able to recoup such costs from the claimant, this may materially adversely affect its business, results of operations and financial condition.

Finally, in the regular course of business and relating to acquisitions and divestitures, HC Group was and is involved, and may in the future become involved, in investigations, lawsuits, claims and proceedings, including product liability, ownership, corporate, commercial, environmental, health and safety matters and social security claims. Such proceedings may have a material adverse effect on the reputation of the Group. In addition, there can be no assurance that such proceedings will not have a material adverse effect on the asset position, financial condition and results of operations of the Group.

Regulations in and outside of the European Union regarding carbon dioxide emissions

HC Group operates cement plants and other industrial facilities worldwide. Substantial quantities of carbon dioxide (CO₂) are released by HC Group, in particular during cement clinker production. Compliance with existing, new or proposed regulations governing such emissions might lead to a need to reduce such greenhouse gas emissions, to pay carbon-related taxes or levies, to purchase tradable rights to emit from third parties or governmental bodies, or to make other changes to HC Group's business, all of which could result in significant additional costs or could reduce demand for HC Group's products, as regulations and the enforcement of those regulations tend to become more stringent over time. An unfavorable allocation of rights to emit carbon dioxide or other air-emission-related measures could have a material adverse effect on HC Group's business, financial condition and results of operations. In addition, the implementation of the Paris Agreement, adopted under the United Nations Framework Convention on Climate Change in December 2015, could also tighten the climate change laws in different countries and regions, including the EU.

At the beginning of 2005, the EU implemented a "cap and trade system" which set out the legal framework placing a Community-wide limit on the carbon dioxide emissions of certain energy-intensive industries, including cement plants. Under this EU legislation, member states issue tradeable allowances to give affected industrial installations the right to emit a certain amount of carbon dioxide ("**Emission Rights**"). The Community-wide quantity of Emission Rights issued each year will be reduced annually by a linear factor. The industrial installations are obliged to surrender an appropriate amount of Emission Rights to the member states each year for their carbon dioxide emissions. Manufacturing companies, in general, are allocated a certain (but steadily decreasing) amount of Emissions Rights free of charge and have to purchase a significant (and steadily increasing) share of Emission Rights in auctions to cover their carbon dioxide emissions. In addition, failure to surrender a sufficient amount of Emission Rights can lead to significant penalties.

However, the cement industry as well as some other energy-intensive industries have been recognized by the EU as sectors with a significant risk of carbon leakage, i.e., as sectors in which a risk of relocation of plants to countries with less strict climate protection laws exists. As long as an industry is recognized as a sector with a significant risk of carbon leakage, this industry is in general granted a higher share of Emission Rights for free up to a certain benchmark. Should the cement industry not be recognized as a sector with a significant risk of carbon leakage in the future, HC Group would have to purchase additionally significant (and steadily increasing) amounts of Emission Rights to cover its carbon dioxide emissions. This would result in substantial additional costs for HC Group.

Even as long as and to the extent such a recognition is granted and a significant amount of Emission Rights is allocated free of charge to the cement industry, strict benchmarks in combination with the "cross-sectoral correction factor" apply which will probably require HC Group to purchase a steadily increasing share of additional Emission Rights to cover its carbon dioxide emissions in excess of those covered by the Emission Rights allocated for free. Therefore significant additional costs may arise for HC Group and HC Group could suffer a substantial loss in market share to competitors importing cement or clinker from outside the EU, which could have a material adverse effect on HC Group's business, financial condition and results of operations.

Considerable and increasing government attention in the U.S. (both on federal and state level) and Canada (both on federal and province level) is being paid to carbon dioxide and other greenhouse gas emissions. Legislators are considering the adoption of significant new laws and regulators are considering using existing laws to limit greenhouse gas emissions, including carbon dioxide. Any federal or state or provincial legislation, administrative regulation or executive action on climate change could have a material adverse effect on HC Group's business, financial condition and results of operations.

Also in other jurisdictions (for example in Australia, China, Kazakhstan and India), measures to reduce carbon dioxide and other greenhouse gas emissions that could affect HC Group have been introduced recently, are currently being developed or may be developed in the future.

These existing and possible new regulations regarding carbon dioxide and other greenhouse gas emissions, especially any future federal actions in the U.S. and Canada, as well as emission trading systems in China, Australia and Kazakhstan or energy-saving targets in connection with market-based mechanisms in India or any comparable measures in other countries with HC operations could have a material adverse effect on HC Group's business, financial condition and results of operations.

Environmental, health and safety laws and regulations on risks associated with the release of hazardous substances or other contamination of the environment

HC Group's operations are subject to various supranational, national, regional and local laws and regulations relating to the protection of the environment, health and safety. These laws and regulations govern, among other things, (i) the generation, storage, handling, use and transportation of hazardous and non-hazardous materials and wastes (including settlement ponds and other waste impoundments), (ii) the emission and discharge of hazardous materials into the ground, air or water, and (iii) the health and safety of employees. HC Group is also required to obtain and maintain permits from governmental authorities for many of its operations. These laws, regulations and permits are complex, change frequently, are often subject to public review and comment and have tended to become more stringent over time.

Even though HC Group has incurred and will incur significant ordinary course costs to comply with these laws, regulations and permits, there can be no assurance that HC Group's operations will be in compliance with them at all times. A failure to comply could result in governmental fines and other sanctions, the temporary or permanent shutdown of production facilities, third-party claims and/or negative publicity.

Under HC Group's estimates, aggregate costs needed to address non-compliance with environmental and health and safety requirements now in effect or expected to be in effect in the next three years add up to an undiscounted three-digit million € amount in the next five years (which does not include ordinary course costs to comply with environmental and health and safety laws, costs of re-cultivation and costs in connection with soil and groundwater contamination). The capital expenditure plans for environmental/legal issues and for replacement and improvement – both of which include but do not only address environmental regulatory non-compliance issues – add up to an under one-digit billion € amount for 2020 to 2021.

Further, in a number of areas in which HC Group operates, it is increasingly difficult to obtain permits for new sites and to expand existing production sites due to community resistance, and any such resistance can also lead to a delay in obtaining or amending permits that could adversely affect HC Group's on-going operations or any expansion of its operations.

HC Group has incurred and will incur significant costs for capital and operating expenditures to obtain and maintain permits, to comply with these laws and regulations and to address non-compliance issues. Given all of the foregoing, there can be no assurance that future costs and liabilities relating to compliance with environmental and health and safety laws, regulations and permits will not materially adversely affect HC Group's business, financial condition and results of operations.

Environmental laws can provide for environmental liability in case of the release of hazardous substances (including hazardous waste) which contaminate the environment, or which affect human health and safety. These environmental laws, including but not limited to, the U.S. Comprehensive Environmental Response, Compensation and Liability Act ("**CERCLA**"), commonly known as Superfund, imposes liability on the generators of hazardous substances as well as current or previous owners or operators of real property for the cost of investigation, removal and remediation of hazardous substances. These laws often impose liability even if the owner or operator did not know of, or was not responsible for, the release of such hazardous substances. These environmental laws can also result in liability for persons who arrange for hazardous substances to be sent to disposal or treatment facilities when such facilities are found to be contaminated. Such persons can be responsible for clean-up costs even if they never owned or operated the contaminated facility. Liability may be imposed without regard to fault and may be strict, joint and several, so that an HC Group member company may be held responsible for more than its fair share of contamination or other damages, or even for the entire amount. In addition to actions brought by governmental agencies, private plaintiffs may also bring clean-up property damage and personal injury claims arising from the presence, emission or release of hazardous substances.

Many of HC Group's current and past operations are located on sites with long histories of industrial operations, some of which were of a different nature than HC Group's current operations. In addition, HC Group has responsibility for a large number of sites relating to companies HC Group acquired, owned or operated in the past that had businesses and operations unrelated to those presently carried on by HC Group member companies, in particular Beazer East, Inc. (formerly known as Koppers Company, Inc. and acquired by Hanson PLC prior to HC Group's acquisition of Hanson PLC), or for some share of third-party sites to which those "legacy" companies sent waste. Many of these sites have stored or released or still store and release waste materials and used hazardous substances. Such wastes or substances have been and may continue to be a risk of being released into the air, surface water, groundwater, sediments or the ground. These releases can contaminate the property and natural resources, such as groundwater, surface water and wildlife, and can result in related governmental fines or other sanctions, claims, including claims for property damages or personal injury, and a requirement to investigate, clean up or monitor soil, surface water, groundwater, sediments and other media under laws such as CERCLA, the U.S. Resource Conservation and Recovery Act ("**RCRA**") or similar laws.

HC Group's cement operations manage significant quantities of cement kiln dust ("**CKD**"). In the U.S., for example, the Environmental Protection Agency (the "**EPA**") has been evaluating the regulatory status of CKD under RCRA for a number of years. Any obligation to manage CKD as a hazardous waste under RCRA would

result in the need to incur substantial costs. HC Group cannot predict what environmental laws in the U.S. (federal and state level) but also in many other countries relating to CKD will be enacted or adopted in the future or how such future environmental laws or regulations will be administered or interpreted, which may lead to a material adverse effect on HC Group's business, financial condition and results of operations.

As the most relevant single case, a complaint was filed by the City of Emeryville, California, in January 2017 against "Hanson, a British Corporation" (intended for Hanson Building Materials Limited ("**HBML**")) and others outside the HC Group in the U.S. District Court of the Northern District of California. The complaint alleges historic land and groundwater contamination and seeks injunctions, clean-up costs of an estimated US\$ 35-65 million and unspecified damages under CERCLA and RCRA. The contamination is alleged to have been caused by industrial activities at a property in Emeryville in the early and mid-1900s, the liabilities for which were owned by Marchant Calculating Machine Company. Through a series of historic corporate transactions, the liabilities are alleged to have been transferred to a Hanson UK company in the late 1980s and the claimant asserts that HBML should now be deemed liable for such liabilities. Research to date indicates that no Hanson UK company or subsidiary owned or operated at the relevant land at any stage and that no Hanson UK legal entity holds any liabilities. HBML has filed a response to the complaint, defending against the claim on the basis that there are no legitimate grounds for either asserting any personal or specific jurisdiction over HBML or for piercing the corporate veil on the alter ego doctrine. On January 30, 2019, after the parties had conducted limited discovery on jurisdictional issues, the judge issued an order denying HBML's motion to dismiss the complaint for lack of personal jurisdiction. Additional discovery is now underway and HBML continues to defend the claim.

In connection with ongoing operations, several cases of soil and groundwater contamination are also known to HC Group. HC Group estimates costs in connection with such soil and groundwater contamination in a range up to approximately a two-digit million € amount (undiscounted costs).

HC Group makes provisions for environmental liabilities and environmental claims worldwide related to both ongoing and past operations, including legal and other costs on an undiscounted basis. There is a risk that these provisions are not sufficient with respect to the above-mentioned issues. Actual costs could differ materially from HC Group's current estimates due to a range of factors, including: (i) identification of additional sites requiring environmental investigation and/or remediation; (ii) new releases or the discovery of unknown adverse conditions at sites; (iii) development of additional facts at sites, particularly relating to the extent of contamination (including the materialization of remote risks) and any potential or alleged adverse effects on neighboring properties; (iv) third-party claims in excess of estimates; (v) changes to regulatory requirements or investigatory or clean-up standards; (vi) changes in remediation techniques or the length of any ongoing monitoring; (vii) the failure of other responsible parties to pay their share of costs; and (viii) any other significant variations to assumptions made in support of these cost estimates. Any increased costs or any of the developments mentioned above could result in the need to increase the provisions by material amounts and could have a material adverse effect on HC Group's business, financial condition and results of operations.

In addition, at a significant number of HC Group's sites related to ongoing operation, asbestos-containing materials exist which will have to be demolished and disposed of in the future. According to HC Group's estimates, there is a risk of future (long-term) liability in connection with demolition and disposal of asbestos-containing material at these sites which add up to an undiscounted two-digit million € amount (excluding costs in connection with asbestos-related claims from third parties). In case demolition and disposal should be required at a site, the costs to be incurred in this respect will be, in part, incurred over several years. There can be no assurance that actual costs for demolition and disposal do not exceed the costs estimated by HC Group. If such costs are incurred, this could significantly affect HC Group's business, financial condition and results of operations.

Risks associated with asbestos-related claims arising out of former activities in the U.S.

U.S. subsidiaries of HC Group are defendants in a number of lawsuits alleging bodily injury due to exposure to asbestos-containing products. The number of pending claims does not necessarily indicate the probable cost as many claims are ultimately dismissed without payment or are non-malignancy matters that present minimal risk. HC Group accounts for the asbestos claims against its U.S. subsidiaries by providing for those costs of resolution that are both probable and reasonably estimable. HC Group estimates such aggregate, undiscounted and prior-to-insurance costs, to be US\$ 515.1 million (which includes US\$ 344.6 million for legacy of Hanson Permanent Cement, Inc. ("**Hanson Cement**"), and Kaiser Gypsum Company, Inc. ("**Kaiser Gypsum**") asbestos claims estimated over the next eight years and US\$ 170.5 million for all other legacy asbestos claims over the next fifteen years) and has made corresponding provisions. Although future claims are likely to be resolved beyond the fifteen-year provisioning period, HC Group cannot reliably estimate the associated costs of resolution of such future claims. Therefore, no provision has been made to cover these possible liabilities. Several factors could cause actual results to differ from current estimates and expectations, including: (i) adverse trends in the ultimate number of asbestos claims filed against HC Group's U.S. subsidiaries; (ii) increases in the cost of resolving current and future asbestos claims as a result of adverse trends relating to settlement and/or defence costs, dismissal rates and/or judgment amounts, including as a result of an increased percentage of claims being filed in jurisdictions that have historically produced higher jury verdicts; (iii) decreases in the amount of insurance available to cover asbestos claims as a result of adverse changes in the interpretation of insurance policies or

the insolvency of insurers; (iv) the timing of insurance recoveries; (v) the emergence of new trends or legal theories that enlarge the scope of potential claimants; (vi) the impact of bankruptcies of other defendants whose share of the liability may be imposed on HC Group's U.S. subsidiaries under certain state liability laws; (vii) the unpredictable aspects of the U.S. litigation process; (viii) adverse changes in the mix of asbestos-related diseases with respect to which asbestos claims are made against HC Group's U.S. subsidiaries; and (ix) potential legislative changes. Therefore, the liability of HC Group's U.S. subsidiaries for resolving asbestos claims may be materially different from current estimates.

In addition, HC Group's U.S. subsidiaries are subject to the risk of punitive damages in asbestos litigation. One HC Group U.S. subsidiary has been involved in two litigations claiming punitive damages. It is not possible to determine whether these two cases are anomalies in the subsidiary's historic experience of no punitive damage liabilities or represent a trend of increased risk of punitive damages verdicts. Punitive damages are excluded from coverage under the insurance policies of these U.S. subsidiaries and no punitive damages liabilities are assumed in the provision for asbestos liabilities. Such claims might have a material adverse effect on HC Group's business, financial condition and results of operations.

Significant reclamation, re-cultivation and quarry closure obligations which may not be sufficiently covered by provisions and requirement to maintain financial assurances to meet these obligations

HC Group is obligated to reclaim, re-cultivate and occasionally re-nature certain of its production sites and quarries at closure. Based on HC Group's estimates at the time, HC Group makes provisions for obligations relating to re-cultivation. There is a risk that estimated liability resulting from reclamation, re-cultivation and rehabilitation could change and the amount of costs not covered by provisions could increase if the assumptions underlying the estimates are inaccurate, if actual costs vary from assumptions, if the underlying facts change or if governmental requirements change. This could require HC Group to expend greater amounts than anticipated and could have a material adverse effect on HC Group's business, financial condition and results of operations.

In addition, HC Group is required in many jurisdictions to secure certain of its reclamation and closure obligations for its quarries and production sites. HC Group primarily uses reclamation financial assurances (such as bonds, bank guarantees, letters of credit, etc.) to meet these obligations. In the event of a material adverse change in HC Group's financial condition, or in response to economic downturn and volatility and disruption in the credit markets, financial assurance providers may have the right and could decide not to issue or renew the financial assurances, to demand additional collateral upon renewal, or to require HC Group to obtain a discharge of the financial assurance provider's liability under the financial assurances or to provide cash or letters of credit equal to 100% of the amount of the outstanding financial assurances. A failure to maintain or renew, or the inability to acquire or provide a suitable alternative for, reclamation financial assurances and any exercise of rights the financial assurance providers have to require HC Group to discharge the related liability or to provide additional collateral would have a material adverse effect on HC Group's business, financial condition and results of operations.

Risks from changes in taxation and tax audits

HC Group is governed by the tax rules and regulations applicable in the countries in which it is doing business. A change in such rules and regulations may result in higher tax rates or expenses. In addition, changes in tax legislation may have a significant impact on HC Group's tax receivables and tax liabilities as well as on its deferred tax assets and deferred tax liabilities. Future interpretations of these regulations and/or changes in the tax system might have an impact on HC Group's tax liabilities, profitability and business operations. HC Group is regularly audited by the tax authorities of the countries in which it is doing business and it cannot be excluded that such tax audits will lead to additional tax claims that could have a material adverse effect on its business, financial condition, financial position and results of operations. Past and ongoing tax audits have resulted in disputes which might lead to material additional tax charges in future years when resolved to the disadvantage of HC Group. However, HC has sought expert advice and believes it will be successful in sustaining its position.

4. Environmental, social and governance risks

Compliance risks resulting from unethical, criminal or fraudulent behavior and non-compliance with HC Group's integrity policy

HC Group has in place comprehensive business integrity and sanctions compliance policies that are regularly reviewed and updated to comply with current United States of America ("**U.S.**"), European Union ("**EU**") and United Nations ("**UN**") standards. However, unethical, criminal or fraudulent behavior and non-compliance with HC Group's integrity policy due to intentional and/or negligent behavior of employees and/or agents retained by and acting on behalf of HC Group could materially harm HC Group's business, financial position, results of operations, and reputation. Unethical, criminal or negligent behavior and misconduct attributable to HC Group could lead to criminal charges, fines, claims by injured parties, financial loss, and severe reputational damage. This could have a material adverse effect on HC Group's business, financial position and results of operations.

As a company operating globally, including in areas with unstable political environments and sometimes civil unrest, HeidelbergCement AG and other HC Group companies are at risk to be accused of collaborating with one or several of the adverse political groups through its activities and to be drawn into politically motivated litigation alongside other persons and companies being in similar positions. Also governmental actions or war can affect the business. There is no certainty that such material adverse effect will not occur in the future.

Public perception of CO₂ emissions and the environmental impact of HC Group's core business

Due to chemical transformations during the cement clinker production process, significant amounts of CO₂ are generated, besides those caused by the combustion of fossil fuel. Therefore HC Group releases significant amounts of CO₂ to the atmosphere. Despite the reductions of CO₂ emissions from HC there is also a risk that the amounts of CO₂ allowed to be emitted will be further reduced by government regulations in the future. Beside this, reputational risks for an industry or certain products, related to high CO₂ emissions should not be underestimated. This can lead to reduced sales volumes as well as increased production costs due to the implementation of CO₂ emission abatement technologies or the purchase of additional emission rights. These aspects could have material adverse effect on HC Group's business, financial position and results of operations.

RISKS RELATING TO HEIDELBERGCEMENT FINANCE LUXEMBOURG S.A. AS ISSUER

HeidelbergCement Finance Luxembourg S.A.'s operations depend on the ability of HeidelbergCement AG and other members of HC Group to meet their payment obligations under loans provided to them by HeidelbergCement Finance Luxembourg S.A. For the risk factors regarding HeidelbergCement AG, as guarantor and debtor to HeidelbergCement Finance Luxembourg S.A., see the respective separate section above.

RISKS RELATING TO THE NOTES

The risk factors regarding the Notes are presented in the following categories depending on their nature with the most material risk factor presented first in each category:

1. Risks related to the nature of the Notes
2. Risks related to specific Terms and Conditions of the Notes
3. Other related Risks

1. Risks related to the nature of the Notes

Market price risk, in particular with regard to Fixed Rate Notes and Floating Rate Notes

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels or the lack of or excess demand for the relevant type of Notes. The Holders of Notes are therefore exposed to the risk of an unfavorable development of market prices of their Notes, which materializes if the Holders sell the Notes prior to the final maturity of such Notes. If a Holder of Notes decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

In particular, a Holder of Fixed Rate Notes is exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate levels. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Notes, the current interest rate on the capital market ("**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the price of Fixed Rate Notes also changes, but in the opposite direction. If the market interest rate increases, the price of Fixed Rate Notes typically falls, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of Fixed Rate Notes typically increases, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the Holder of Fixed Rate Notes holds such Notes until maturity, changes in the market interest rate are without relevance to such Holder as the Notes will be redeemed at a specified redemption amount, usually the principal amount of such Notes.

A Holder of Floating Rate Notes is particularly exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance. Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Liquidity risk

Application has been made to list Notes on the official list of the Luxembourg Stock exchange and to trade Notes on the Regulated Market "Bourse de Luxembourg" or on the professional segment of the Regulated Market of the Luxembourg Stock Exchange. In addition, the Programme provides that Notes may be listed on other or

further stock exchanges or may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Notes. If the Notes are not listed on any stock exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

2. Risks related to specific Terms and Conditions of the Notes

Risk of early redemption

The applicable Final Terms will indicate whether an Issuer may have the right to call the Notes prior to maturity (optional call right) on one or several dates determined beforehand or whether the Notes will be subject to early redemption upon the occurrence of an event specified in the applicable Final Terms (early redemption event). Furthermore, the Issuer has a right for termination in the case of Floating Rate Notes if a Replacement Rate, an Adjustment Spread, if any, or the Replacement Rate Adjustments cannot be determined following a Rate Replacement Event as set out in the Terms and Conditions. In addition, each Issuer will always have the right to redeem the Notes if the relevant Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions. If the relevant Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower than expected yield. The Issuer can be expected to exercise his optional call right if the yield on comparable Notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable Notes with a lower yield. On the other hand, the Issuer can be expected not to exercise his optional call right if the yield on comparable Notes in the capital market has increased. In this event, an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the relevant Issuer may exercise any optional call right irrespective of market interest rates on a call date. In the case of an event of default specified in § 9(1)(d), § 9(1)(f) and/or § 9(1)(i) of the Terms and Conditions any notice by a Holder declaring Notes due will, unless at the time such notice is received any of the other events specified in § 9(1) of the Terms and Conditions entitling Holders to declare their Notes due has occurred, become effective only when the Fiscal Agent has received such notices from the Holders of at least 10% of the aggregate principal amount of Notes then outstanding. If in relation to any of the events specified in § 9(1)(d), § 9(1)(f) and/or § 9(1)(i) of the Terms and Conditions only Holders representing less than 10% of the outstanding aggregate principal amount of the Notes declare their Notes due, their Notes will not be due and payable and will remain outstanding.

Specific risks regarding Floating Rate Notes linked to EURIBOR or LIBOR

The interest rates of Floating Rate Notes are linked to reference rates such as the Euro Interbank Offered Rate (EURIBOR) or the London Interbank Offered Rate (LIBOR) which are deemed to be "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**") and which are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented.

Key international proposals for reform of Benchmarks include (i) IOSCO's *Principles for Oil Price Reporting Agencies* (October 2012) and *Principles for Financial Benchmarks* (July 2013), (ii) ESMA-EBA's *Principles for the benchmark-setting process* (June 2013), and (iii) the Benchmark Regulation EU 2016/1011 of June 8, 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**"). In addition to the aforementioned reforms, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

Following the implementation of such potential reforms, the manner of administration of Benchmarks may change, with the result that they perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be consequences which cannot be predicted. Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives could have a material adverse effect on the costs of obtaining exposure to a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks. For example, on July 27, 2017, the UK Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR Benchmark after 2021 (the "**FCA Announcement**"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021.

Investors should be aware that, if a Benchmark were discontinued or otherwise unavailable, the rate of interest on Floating Rate Notes which are linked to or which reference such Benchmark will be determined for the relevant

interest period by the fallback provisions applicable to such Notes. The Terms and Conditions of the Notes also provide for certain fallback arrangements in the event that a published Benchmark, such as LIBOR or EURIBOR (including any screen page on which such Benchmark may be published (or any successor page)) becomes unavailable.

In certain circumstances, the ultimate fallback for determining the rate of interest for a particular interest period, may result in the rate of interest for the last preceding interest period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the relevant screen page for the purposes of determining the rate of interest in respect of an interest period.

In addition, due to the uncertainty concerning the availability of a Replacement Rate (as defined in § 3 of the Terms and Conditions in Option II), the relevant further fallback provisions with a view to a Rate Replacement Event (as defined in § 3 of the Terms and Conditions in Option II) may not operate as intended at the relevant time. If a Rate Replacement Event (which, amongst other events, includes the permanent discontinuation of the Benchmark) occurs, fallback arrangements will include the possibility that:

- (i) the relevant rate of interest could be determined by reference to a Replacement Rate determined by (i) the Issuer if in its opinion the Replacement Rate is obvious and as such without any reasonable doubt determinable by an investor that is knowledgeable in the respective type of bonds, such as the Notes, or (ii) failing which, an independent advisor (each the "**Relevant Determining Party**"); and
- (ii) such Replacement Rate may be adjusted (if required) by an Adjustment Spread (as defined in § 3 of the Terms and Conditions in Option II) to be applied to the Replacement Rate in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value between the Issuer and the Holders that would otherwise arise as a result of the replacement of the Benchmark against the Replacement Rate.

However, the Issuer may be unable to appoint an independent advisor at commercially reasonable terms, using reasonable endeavors or the Relevant Determining Party may not be able to determine a Replacement Rate, an Adjustment Spread, if any, or the Rate Replacement Adjustments (as defined in § 3 of the Terms and Conditions in Option II) in accordance with the Terms and Conditions of the Floating Rate Notes. If a Replacement Rate, an Adjustment Spread, if any, or the Rate Replacement Adjustments cannot be determined, the rate of interest for the relevant interest period will be the rate of interest applicable as at the last preceding interest determination date before the occurrence of the Rate Replacement Event, or, where the Rate Replacement Event occurs before the first interest determination date, the rate of interest will be the initial rate of interest. Applying the initial rate of interest, or the rate of interest applicable as at the last preceding interest determination date before the occurrence of the Rate Replacement Event could result in Notes linked to or referencing the relevant Benchmark performing differently (which may include payment of a lower rate of interest) than they would do if the relevant Benchmark were to continue to apply, or if a Replacement Rate could be determined. Ultimately, a failure to determine the Replacement Rate and Adjustment Spread, if any, for the interest period immediately following a Rate Replacement Event will result either in the same Benchmark being applied for the determination of the relevant rates of interest until maturity of the Floating Rate Notes, effectively turning the floating rate of interest into a fixed rate of interest (which will be the case if any attempt to determine a Replacement Rate and Adjustment Spread, if any, prior to each interest determination date fails), or that the Notes will be called by the Issuer at its sole discretion pursuant to § 3 of the Terms and Conditions in Option II. In the case that the same Benchmark will be applied for the determination of the relevant rates of interest until maturity of the Floating Rate Notes, a Holder would no longer participate in any favourable movements of market interest rates, including central banks' key interest rates, that would have been reflected in the relevant Benchmark rate if the Benchmark would not have been discontinued or otherwise been unavailable, and payments of interest under the Floating Rate Notes would be lower than they would have been had the Benchmark not been discontinued or otherwise been unavailable.

Also, even if a Replacement Rate was determined and an Adjustment Spread, if any, was applied to that Replacement Rate, such an Adjustment Spread may not be effective to reduce or eliminate economic prejudice to Holders. The application of an Adjustment Spread, if any, to a Replacement Rate may still result in Floating Rate Notes originally linked to or referencing a Benchmark to perform differently (which may include payment of a lower rate of interest) than they would if the Benchmark were to continue to apply in its current form.

In addition, the Relevant Determining Party may also establish that, consequentially, other amendments to the Terms and Conditions of the Floating Rate Notes are necessary to enable the operation of the Replacement Rate (which may include, without limitation, adjustments to the applicable business day convention, the definition of business day, the interest determination date, the day count fraction and any methodology or definition for obtaining or calculating the Replacement Rate). No consent of the Holders shall be required in connection with effecting any relevant Replacement Rate or any other related adjustments and/or amendments described above.

Any such consequences could have a material adverse effect on the value of and return on any such Notes. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant rate could affect the ability of the Issuer to meet its obligations under the Floating Rate Notes or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Floating Rate Notes.

Investors should note that, in the case of a replacement of a Benchmark the Relevant Determining Party will have discretion to adjust the Replacement Rate in the circumstances described above. Any such adjustment could have unexpected commercial consequences and there can be no assurance that, due to the particular circumstances of each Holder, any such adjustment will be favorable to each Holder.

Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method for determining a Benchmark could have an effect on the value of any Notes whose interest is linked to or referencing the relevant Benchmark, investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value or the liquidity of, and the amounts payable under Notes whose rate of interest is linked to a Benchmark.

Currency risk

A holder of a Note denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks.

A change in the value of any foreign currency against the euro, for example, will result in a corresponding change in the euro value of a Note denominated in a currency other than euro and a corresponding change in the euro value of interest and principal payments made in a currency other than in euro in accordance with the terms of such Note. If the underlying exchange rate falls and the value of the euro correspondingly rises, the price of the Note and the value of interest and principal payments made thereunder, expressed in euro, falls.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Resolutions of Holders

Since the Notes provide for meetings of Holders or the taking of votes without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As such majority resolution is binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.

Holders' representative

Since the Notes provide for the appointment of a Holders' Representative, either in the Terms and Conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' Representative who is then exclusively responsible to claim and enforce the rights of all the Holders.

3. Other related risks

Notes may not be a suitable investment for all investors

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behavior of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Notes issued with a specific use of proceeds, such as a Green Bond

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer's intention to apply the proceeds from an issue of those Notes specifically for projects and activities that promote climate-friendly

and other environmental purposes ("**Green Projects**"). Prospective investors should refer to the information set out in the relevant Final Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer that the use of such proceeds for any Green Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental impact of any projects or uses, the subject of or related to, any Green Projects. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any Green Projects will meet any or all investor expectations regarding such "green" or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green Projects.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes and in particular with any Green Projects to fulfil any environmental or sustainability and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, nor shall be deemed to be, incorporated in and/or form part of this Prospectus. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Notes. Any such opinion or certification is only current as of the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight.

In the event that any such Notes are listed or admitted to trading on any dedicated "green", "environmental" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental impact of any projects or uses, the subject of or related to, any Green Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

While it is the intention of the Issuer to apply the proceeds of any Notes so specified for Green Projects in, or substantially in, the manner described in the relevant Final Terms, there can be no assurance that the relevant project(s) or use(s) the subject of, or related to, any Green Projects will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that, accordingly, such proceeds will be totally or partially disbursed for such Green Projects. Nor can there be any assurance that such Green Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Notes.

Any such event or failure to apply the proceeds of any issue of Notes for any Green Projects as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance Green Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

The market value of the Notes could decrease if the creditworthiness of HC Group worsens

If, for example, because of the materialization of any of the risks regarding HeidelbergCement AG, the likelihood that the Issuer will be in a position to fully perform all obligations under the Notes when they fall due decreases, the market value of the Notes will suffer. In addition, even if the likelihood that the Issuer will be in position to fully perform all obligations under the Notes when they fall due actually has not decreased, market participants could nevertheless have a different perception. In addition, the market participants' estimation of the creditworthiness

of corporate debtors in general or debtors operating in the same business as HC Group could adversely change. If any of these risks occurs, third parties would only be willing to purchase Notes for a lower price than before the materialization of said risk. Under these circumstances, the market value of the Notes will decrease.

Changes in accounting standards (IFRS and German Commercial Code (HGB))

HeidelbergCement's consolidated financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU, and the additional requirements of German commercial law pursuant to Section 315e (1) of the German Commercial Code (*Handelsgesetzbuch, HGB*). New or changed accounting standards may lead to adjustments in the relevant HeidelbergCement accounting positions. This might lead to a different perception of the market regarding HeidelbergCement's creditworthiness. As a result, there is a risk that the market value of the Notes might decrease.

No restriction on the amount of debt which HeidelbergCement AG may incur in the future

There is no restriction on the amount of debt which HeidelbergCement AG may issue which ranks equal to the Notes. Any issuance of further debt – to the extent permitted under the Terms and Conditions of the Notes – may reduce the amount recoverable by the Holders upon winding-up or insolvency of the Issuer.

CONSENT TO THE USE OF THE PROSPECTUS

Each Dealer and/or each further financial intermediary subsequently reselling or finally placing Notes issued under the Programme is entitled to use the Prospectus in the Grand Duchy of Luxembourg, in Germany, the Republic of Austria, the Republic of Ireland, the United Kingdom of Great Britain and Northern Ireland and the Netherlands for the subsequent resale or final placement of the relevant Notes during the respective offer period (as determined in the applicable Final Terms) during which subsequent resale or final placement of the relevant Notes can be made, provided however, that the Prospectus is still valid in accordance with Article 12(1) of the Prospectus Regulation. The Issuer accepts responsibility for the information given in this Prospectus also with respect to such subsequent resale or final placement of the relevant Notes.

The Prospectus may only be delivered to potential investors together with all supplements published before such delivery. Any supplement to the Prospectus is available for viewing in electronic form on the website of the Luxembourg Stock Exchange (www.bourse.lu) and on the website of HeidelbergCement Group (www.heidelbergcement.com).

When using the Prospectus, each Dealer and/or relevant further financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions, including with the restrictions specified in the "*PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS*" legend set out on the cover page of the applicable Final Terms, if any.

In the event of an offer being made by a Dealer and/or a further financial intermediary the Dealer and/or the further financial intermediary shall provide information to investors on the terms and conditions of the Notes at the time of that offer.

Any Dealer and/or a further financial intermediary using the Prospectus shall state on its website that it uses the Prospectus in accordance with this consent and the conditions attached to this consent.

HEIDELBERGCEMENT AG

The Business of HC Group

HC Group operates in more than 50 countries on five continents as a vertically integrated, building materials company. The core activities include the production and distribution of cement and aggregates, the two essential raw materials for concrete production. The product range is substantially complemented by downstream ready-mixed concrete and asphalt activities. Furthermore, HC Group offers services such as worldwide trading in cement and coal by sea.

Following the acquisitions of Italcementi S.p.A. ("**Italcementi**"), together with its subsidiaries (the "**Italcementi Group**") in 2016 and Cementir Italia S.p.A. (now registered under the name of Cemitaly S.p.A. ("**Cemitaly**")) and its subsidiaries Cementir Sacci S.p.A. (now registered under the name of Italsacci S.p.A.) and Betontir S.p.A. on January 2, 2018, HC Group has further consolidated its position in the building materials industry. According to its own estimates, HC Group is currently one of the world's leading companies in aggregates and cement with sales of approximately 308 million tonnes and approximately 126 million tonnes respectively as well as ready-mixed concrete with sales of approximately 51 million cubic meters. As of December 31, 2019, HC Group consisted of HeidelbergCement AG as the Group's parent company and 751 fully consolidated subsidiaries in more than 50 countries in which it maintained a total of more than 3,000 locations including joint ventures. In the fiscal year ended December 31, 2019, HC Group generated revenue of € 18.9 billion and result from current operations before depreciation and amortization ("**RCOBD**") amounted to € 3.6 billion. As of December 31, 2019, HC Group had 55,047 employees attributable to continuing operations worldwide.

HC Group reports its different local businesses according to five geographic Group areas:

- **Western and Southern Europe:** Belgium, Germany, France, United Kingdom, Italy, Netherlands, and Spain
- **Northern and Eastern Europe-Central Asia:** Denmark, Iceland, Norway, Sweden, and the Baltic States, as well as the cross-border Nordic Precast Group AB and Mibau Group, Bosnia-Herzegovina, Bulgaria, Croatia, Czechia, Georgia, Greece, Hungary, Kazakhstan, Poland, Romania, Russia and Slovakia
- **North America:** Canada and USA
- **Asia-Pacific:** Bangladesh, Brunei, China, India, Indonesia, Malaysia, Singapore, Thailand, and Australia
- **Africa-Eastern Mediterranean Basin:** Egypt, Benin, Burkina Faso, DR Congo, Gambia, Ghana, Liberia, Morocco, Mauritania (until January 2020), Mozambique, Sierra Leone, South Africa, Tanzania, Togo, as well as Israel, Palestine, and Turkey

The plants in the countries within these Group areas are under country management for the respective country and manufacture and distribute HC Group's various products under responsibility of such country management. The five geographic Group areas are complemented by the Group area Group Services which comprises the trading activities of HC Group ("**HC Trading**"). HC Trading is one of the largest international trading companies for cement and clinker according to HC Group's own estimates. HC Trading is also responsible for purchasing and delivering coal and petroleum coke via sea routes to HC Group's own locations and to other cement companies around the world. Group Services also includes cement and ready-mixed concrete activities in Kuwait.

Within these five geographic Group areas, the business of HC Group is divided into four business lines. In the business lines of the core activities cement and aggregates, HC Group reports on the essential raw materials that are required for the manufacturing of downstream ready-mixed concrete and asphalt activities, which are combined in the third business line. The fourth business line, service-joint ventures-other, primarily covers the activities of the joint ventures. It also includes the building products that are still manufactured in a few countries.

Cement: In its cement business line, as of December 31, 2019, HC Group produces different types of cement in approximately 150 cement and grinding plants including joint ventures for various uses, such as residential or commercial construction and civil engineering. In the fiscal year ended December 31, 2019, HC Group's cement business line generated revenue (including inter-Group areas revenue within business lines) of € 9,118 million.

Aggregates: The product range in the aggregates business line consists of the different forms of aggregates (sand, gravel, crushed rock) mined as of December 31, 2019, from more than 600 sand, gravel and hard rock sites. In the fiscal year ended December 31, 2019, HC Group's aggregates business line generated revenue (including inter-Group areas revenue within business lines) of € 4,110 million.

Ready-Mixed Concrete-Asphalt: The ready-mixed concrete-asphalt business line comprises HC Group's ready-mixed concrete and asphalt activities. The product range consists of a wide range of different types of ready-mixed concrete produced as of December 31, 2019, in over 1,700 plants including joint ventures with various characteristics designed for specific applications and environmental conditions. As of December 31, 2019, asphalt is produced in more than 100 asphalt plants. In the fiscal year ended December 31, 2019, HC Group's

ready-mixed concrete-asphalt business line generated revenue (including inter-Group areas revenue within business lines) of € 5,548 million.

Service-Joint Ventures-Other: The service-joint ventures-other business line primarily covers Group Services as well as the activities of HC Group's joint ventures. Group Services comprise HC Group's global trading activities. The joint ventures include important operations in Turkey, China (including Hong Kong), Hungary, Bosnia-Herzegovina, the USA (Texas Lehigh Cement Company LP), and Australia (Cement Australia). The building products that are still manufactured in some countries are also part of this business line. In the fiscal year ended December 31, 2019, HC Group's service-joint ventures-other business line generated revenue (including inter-Group areas revenue within business lines) of € 2,748 million.

Selected Historical Financial Information Regarding HC Group

The following tables set out the selected historical financial information related to HC Group for the fiscal years ended December 31, 2019 and 2018 derived from the audited consolidated financial statements of HC as of and for the fiscal year ended December 31, 2019 (including the adjusted comparative amounts as of and for the fiscal year ended December 31, 2018), prepared in accordance with the International Financial Reporting Standards of the International Accounting Standards Board (IASB) as adopted by the European Union ("**IFRS**") and the additional requirements of German commercial law pursuant to Section 315e (1) of the German Commercial Code (*Handelsgesetzbuch, HGB*).

The adjustments made by HC Group in its audited consolidated financial statements as of and for the fiscal year ended December 31, 2019 of the comparative amounts as of and for the fiscal year ended December 31, 2018 as described in the notes to the 2019 consolidated financial statements in section "Application of new accounting standards and other changes – Other changes" relate to the improvement of the presentation in the consolidated income statement.

HC Group has changed the way the result from associates is shown. HC Group exclusively holds participations in associates that are engaged in the operating activities of the Group. For this reason, the result from associates is now presented together with the result from joint ventures in the item "Result from equity accounted investments (REI)". Previously, it was reported outside the result from current operations in the now no longer existing result from participations, which was part of the earnings before interest and taxes (EBIT). In the fiscal year ended December 31, 2019, the result from associates came to € 50.5 million (2018: € 42.0 million). The result from other participations previously reported under result from participations is now shown in the financial result.

HC Group has also changed the way in which credit card fees are reported. These expenses, previously reported in the financial result, are now shown under selling and administrative expenses in the other operating expenses. As the fees are almost exclusively incurred in connection with operational payment transactions, reporting these expenses in the result from current operations better reflects the nature of the fees. This reporting change increased both, the selling and administrative expenses and the other financial result for the fiscal year ended December 31, 2018 by € 16.1 million. In the fiscal year ended December 31, 2019, the credit card fees amounted to € 20.3 million.

Overall, the changes described with respect to the comparative amounts for the fiscal year ended December 31, 2018 resulted in an increase in the result from current operations before depreciation and amortization of € 25.9 million, a decrease in the earnings before interest and taxes (EBIT) of € 13.3 million and an increase in the financial result of € 13.3 million.

Where financial information in the following tables is labelled "audited", this means that it has been taken from the above mentioned audited consolidated financial statements of HC AG. The label "unaudited" is used in the following tables to indicate financial information that has not been taken from the audited consolidated financial statements mentioned above but has been derived from HC Group's internal management reporting systems.

Organizational Structure

HeidelbergCement AG is the parent company in HC Group. The consolidated financial statements of HeidelbergCement AG as of and for the fiscal year ended December 31, 2019, included HeidelbergCement AG and 751 fully consolidated subsidiaries. HC Group has adopted a long-term program to rationalize and simplify its complex group structure. In particular, subject to applicable legal and tax requirements, HC Group attempts to reduce the large number of subsidiaries it maintains in a number of jurisdictions, including the U.S. and the U.K. However, although desired for organizational reasons, a merger or other combination or liquidation of subsidiaries may not in all instances be legally permissible, tax and cost efficient and prudent in all other respects.

A condensed overview of HC Group's structure showing the material subsidiaries of HeidelbergCement AG and their position within expanded HC Group is set out below:

Subscribed Share Capital

The subscribed share capital of HeidelbergCement as of December 31, 2019 amounts to € 595,249,431 and is divided into 198,416,477 no-par value ordinary bearer shares, each representing a notional amount of € 3.00 in the share capital. All shares are fully paid in. Each share entitles its owner to one vote at HeidelbergCement AG's Annual General Meeting.

All shares of HeidelbergCement AG are no-par value bearer shares. The entire share capital is represented by a global share certificate which is deposited with Clearstream Banking AG, Frankfurt am Main.

Currently, there are two authorized capitals; namely, the authorization of the Managing Board and Supervisory Board to increase the share capital by issuing new shares in return for cash contributions (Authorized Capital I), and authorization of the Managing Board and Supervisory Board to increase the share capital by issuing new shares in return for contributions in kind (Authorized Capital II). The authorized capitals are described as follows:

The Managing Board is authorized to increase, with the consent of the Supervisory Board, the company's share capital by a total amount of up to € 225 million by issuing new no-par value bearer shares in return for cash contributions on one or more occasions until May 6, 2020 (Authorized Capital I). The shareholders must be granted subscription rights. However, the Managing Board is authorized to exclude, with the consent of the Supervisory Board, the subscription rights of shareholders

- in order to realize residual amounts, and/or
- in so far as it is necessary to grant holders or creditors of the warrants, convertible bonds, profit participation rights or participating bonds that have been issued or will be issued in future by the company or its subordinate Group companies a subscription right for new no-par value shares to the extent to which they would be entitled after exercising the option and/or conversion right and/or fulfilling the option and/or conversion obligation, and/or
- if the issue price of the new shares is not significantly lower than the stock exchange price and the total pro rata amount of share capital attributable to the shares issued subject to the exclusion of the subscription right does not exceed 10% of the company's share capital existing at the time at which this authorization is exercised or – if lower – at the time at which this authorization takes effect; the aforesaid 10% limit should take into account those shares otherwise issued subject to the exclusion of the subscription right during the term of this authorization in application of Section 186(3), sentence 4 of the German Stock Corporation Act (*Aktiengesetz*). New shares will also be credited against the aforesaid 10% limit, which are and must be issued for exercising subscription rights arising from option and/or conversion rights or obligations arising from warrants, convertible bonds, profit participation rights or participating bonds, provided they have been issued subject to the exclusion of the subscription right in corresponding application of Section 186(3), sentence 4 of the German Stock Corporation Act. This limit should also take into account the treasury shares sold subject to the exclusion of the subscription right on the basis of an authorization in application of Section 71(1), no. 8, sentence 5 and Section 186(3), sentence 4 of the German Stock Corporation Act.

The Managing Board is also authorized to increase, with the consent of the Supervisory Board, the company's share capital by a total amount of up to € 24,874,941 by issuing new no-par value bearer shares in return for contributions in kind on one or more occasions until May 6, 2020 (Authorized Capital II). Furthermore, the Managing Board is authorized to exclude, with the consent of the Supervisory Board, the subscription right, provided that the capital increase in return for contributions in kind is performed for the purposes of acquisition of companies, parts of companies, or of participations in companies, or of other assets, or in the context of implementing a dividend in kind/dividend option. In addition, the Managing Board is authorized to exclude, with the consent of the Supervisory Board, the subscription right of shareholders in so far as it is necessary to grant holders or creditors of the warrants, convertible bonds, profit participation rights or participating bonds that have been issued or will be issued in future by the company or its subsidiaries subscription rights for new shares to the extent to which they would be entitled after exercising the option or conversion rights and/or fulfilling the option or conversion obligation. The Managing Board is authorized to determine, with the consent of the Supervisory Board, the further details and implementation of the capital increase, particularly the content of the share rights and the terms of the share issue.

The conditional capital increase is only carried out insofar as the bearers or creditors of option or conversion rights, or those obliged to exercise conversions or options in connection with warrant or convertible bonds, profit-sharing certificates, or participating bonds issued or guaranteed by HeidelbergCement AG, or a Group company of HeidelbergCement AG within the meaning of Section 18 of the German Stock Corporation Act in which HeidelbergCement AG directly or indirectly has a participation of at least 90%, until May 8, 2023 on the basis of the authorization agreed by the Annual General Meeting of May 9, 2018 under agenda item 7 A., make use of their option or conversion rights or, if they are obliged to exercise conversions or options, fulfil their obligation to exercise conversions or options, or, if HeidelbergCement AG exercises an option to grant shares of HeidelbergCement AG in place of all or part of the payment of the monetary amount due, provided that a cash settlement is not granted and no treasury shares or shares of another listed company are used to service this right.

Currently, HeidelbergCement AG has no treasury shares. On May 4, 2016, the Annual General Meeting authorized HC AG to acquire own shares up to May 3, 2021 once or several times, in whole or in partial amounts, up to a total of 10% of the share capital at the time for any permissible purpose within the scope of the legal restrictions. The authorization may not be used for the purpose of trading in own shares. At no time may more than 10% of the respective share capital be attributable to the acquired own shares combined with other shares which HC AG has already acquired and still possesses. The shares may be acquired via the stock exchange or by way of a public purchase offer or by means of a public call for the submission of offers to sell or by issuing rights to sell shares to the shareholders. The own shares acquired on the basis of the authorization will be used by selling them via the stock exchange or in another suitable manner whilst ensuring the equal treatment of the shareholders or for any other purposes permitted by law. Shareholders' subscription rights can be excluded in certain cases.

Risk Policy

HC Group's risk policy is based on the business strategy, which focuses on safeguarding the Group's existence and sustainably increasing its value. Entrepreneurial activity is always forward-looking and therefore subject to certain risks. Identifying risks, understanding them, as well as assessing and reducing them systematically are the responsibility of the Managing Board and a key task for all managers. HC Group classifies various risks on account of its international business activity as acceptable, provided they are consistent with the legal and ethical principles of entrepreneurial activity and are well balanced by the opportunities they present. Opportunity and risk management at HC Group is closely linked by Group-wide planning and monitoring systems.

Corporate Risk Management

The Managing Board is responsible for the scope and organization of the risk management system. The Supervisory Board and its Audit Committee also review the effectiveness of the risk management system on a regular basis. HC Group has installed transparent regulations to govern competences and responsibilities for risk management that are based on the Group's structure. A code of conduct, guidelines, and principles apply across the Group for the implementation of systematic and effective risk management. The standardized internal control and risk management system at HC Group is based on financial resources, operational planning, and the risk management strategy established by the Managing Board. It comprises several components that are carefully coordinated and systematically incorporated into the structure and workflow organization. The essential elements of the risk management system are:

- documentation of the general conditions for a methodical, efficient risk management in a Group guideline. In addition to this Risk Management Guideline, the Group's Code of Business Conduct is concerned with the code of conduct and compliance standards to be observed,
- coordination of risk management in the Group Insurance & Corporate Risk department,
- managers responsible for corporate risk at country level,
- direct information and open communication of quantified risks between the Managing Board and country management,
- standardized and regular reporting at Group and country level.

Financial Risk Management

HC Group is operating in a variety of countries and therefore is exposed to Foreign Exchange ("FX") risk. Currency risks arising as a result of transactions with third parties in FX (transaction risks) are hedged in certain cases using derivative financial instruments with a hedging horizon of up to twelve months. HC Group primarily uses currency swaps and forward exchange contracts for this purpose, as well as currency options in some individual cases.

In general, HC Group does not hedge currency risks arising from converting the financial statements of foreign individual companies or subgroups (translation risks). The associated effects are monitored on a continuous basis. Regular reporting of FX positions for the HC Group ensures that the FX risks are monitored and managed according to Group policies.

Due to its financial structure, HC Group is subject to interest rate risks in the ordinary course of business. Interest rate risks result from potential changes in prevailing market interest rates and therefore increase the financing costs. Also, a change in the present value of fixed-rate instruments and fluctuations in the interest payments for floating rate instruments, which would positively or negatively affect earnings, is likely. To hedge these risks, interest rate swaps and combined interest rate and currency derivatives are used in individual cases.

BUSINESS DESCRIPTION

Market Overview

Economic environment

As a globally active building materials company, HC Group distinguishes four core business lines: cement, aggregates, ready-mixed concrete-asphalt and service-joint ventures-other. The service-joint ventures-other business line primarily covers Group Services, which comprise HC Group's global trading activities, as well as the activities of HC Group's joint ventures. It also includes the building products that are still manufactured in a few countries. According to its own estimates, HC Group is currently one of the world's leading companies in aggregates, cement and ready-mixed concrete and competes with a group of less than ten other major building materials companies as well as many regional businesses.

HC Group's business is affected directly by the cyclical nature of the building materials industry. This cyclical nature applies to all key areas of the construction market including residential and commercial property construction as well as to infrastructure projects. Activity levels and demand from the construction industry vary across regions, and are influenced by national and regional economic factors, such as GDP growth rates, housing starts, construction segments' growth and, to a lesser extent, prevailing long-term interest rates. In addition, fiscal, tax and other policies of national and regional governments have the effect of stimulating or discouraging construction activity. Consequently, HC Group's operations in each of its geographic markets are cyclical, with periods of growth typically followed by downturns.

Key Products of HC Group

HC Group's core activities include the production and distribution of cement and aggregates, the two essential raw materials for the manufacture of concrete. The product range is substantially complemented by downstream ready-mixed concrete and asphalt activities. Furthermore, HC Group offers services such as worldwide trading in cement and coal by sea.

HC Group divides its business activities by product into the following four product business lines:

- Cement,
- Aggregates,
- Ready-mixed concrete and asphalt,
- Service-joint ventures-other.

These four business lines are managed as a vertically integrated business within each of the different Group areas. In this context, cement and aggregates serve as key raw materials for the ready-mixed concrete asphalt business line: the cement business line supplies to a large degree the cement used by HC Group's concrete production facilities which also receive substantial amounts of the aggregates used to produce ready-mixed concrete. Aggregates are also supplied to HC Group's asphalt production.

In addition to these aforementioned product groups, the service-joint-ventures-other business line includes Group Services which comprise the activities of HC Trading, one of the largest international trading companies for cement and clinker. HC Trading is also responsible for purchasing and delivering coal and petroleum coke via sea routes to HC Group's own locations and to other cement companies around the world. Thanks to the global trading network of HC Trading, with employees from 26 countries and key offices at strategically important locations in Malta, Istanbul, Singapore, Shanghai and Dubai, HC Group is able to better control the capacity utilization of its plants and deliver surplus production from one country to another where demand for cement and clinker is higher.

Cement

General market situation

On a global level, the cement markets are characterized by high fragmentation and, thus, a regional or local structure. These different markets are served by a few multinational group companies on the one hand and regional and local producers in various markets around the world on the other hand. Due to the capital intensity of cement production and especially the significant initial capital costs, high transportation costs as well as the high degree of environmental regulation of the industry, few new competitors appear on the markets.

Demand in the cement markets is generally cyclical and influenced by the overall investment climate and, in many countries, climatic conditions and fluctuations. Prices in regional cement markets depend particularly on the trends in energy prices (fuels and electricity) as well as on raw material costs in that region since energy and raw materials costs form a large part of the variable costs of cement production. The dependency on fluctuations of energy prices can be mitigated by the use of longer-term supply contracts and hedging instruments for a part of the energy needs, switching to alternative fuel sources, as well as the implementation of more fuel efficient production processes. In order to succeed in the cement markets, minimizing transportation costs in addition to energy costs is crucial. Due to the shipping costs of cement and its relationship to the product value, cement (depending on the geographical situation and the availability of limestone reserves) is not often delivered over distances of more than 150 to 200 kilometers.

Another decisive competitive factor is access to raw materials (for example, quarries and mining concessions) which varies from market to market. HC Group as well as its competitors have achieved increased vertical integration in the cement business in order to internalize cement demand in mature markets.

The nature of any particular regional cement market is determined primarily by regional rather than global competitive factors. These competitive factors include the number of competitors, pricing policies of competitors, trends in regional demand, the existence of regional sources of raw materials, barriers to entry of additional competitors and competition from imports.

These factors frequently differ among the various regions and countries in which HC Group operates and consequently, the market conditions among various cement markets may vary considerably.

Regional demand for cement is derived from the demand for ready-mixed concrete and concrete related products which, in turn, is dependent on the demand for construction. The construction industry is composed of three major sectors, namely the residential sector, the infrastructure and commercial sector as well as the public sector. The public sector is the most cement-intensive sector, particularly for infrastructure projects such as streets, highways and bridges. In the mature markets a country's cement demand basically follows the respective level of infrastructure and construction spending which is typically closely connected with that country's economic cycle. Furthermore, cement is seen as a mere commodity with the consequence of hardly any differentiation in quality visible. In these markets competition is therefore characterized by the defence of market shares, including through price. However, price is not the only relevant competitive factor. Market shares are also influenced by the reliability of the producer's supply and its service and technical capabilities as well as product quality. In addition, cost leadership is a key factor for success.

HC Group as a competitor

The majority of the world's cement markets are characterized by competition among a small number of global companies and regional and local producers in which the large international cement manufacturers such as LafargeHolcim (Switzerland), HC Group, CRH (Ireland) and CEMEX (Mexico) hold leading market positions in various combinations according to HC Group's own estimates. They compete against each other as well as against regional and local producers in the respective markets. Competition among the named international cement manufacturers is more and more determined by vertical integration focusing on downstream activities within the building materials value chain. In this context, ready-mixed concrete serves as distribution channel for cement and protects the comparatively high cement margins at the same time.

HC Group's most important cement markets in terms of volumes sold are Europe, North America and Indonesia. HC Group is also active in further Asian markets as well as Africa where it has, according to HC Group's own estimates, substantial positions in its main African markets Morocco, Egypt, Ghana, Tanzania and Togo.

Aggregates

Aggregates (sand, gravel and crushed rock) are, like cement, homogenous mass goods and are subject to complex and cost-intensive transportation. Transportation imposes natural delivery limitations so that, for example, due to the shipping costs and their relationship to the product value, aggregates (depending on the location of the nearest site of a competitor) would often not be delivered over distances of more than 80 kilometers. Therefore, the markets for aggregates are local and highly fragmented by character.

The markets for aggregates are in general characterized by a high degree of price competition and competition based on differences in quality is hardly possible. The markets are served by a few multinational group companies on the one hand and a number of independent regional and local producers on the other hand, all competing against each other.

Market for aggregates

Overall, the aggregates industry has faced an on-going consolidation process in recent years. As environmental regulations in many countries constrain new quarry development, the entry barriers for new competitors in the aggregates business remain high and are even increasing. In the aggregates business, access to raw material reserves owned or leased with the respective mining rights and their location as close as possible to the customers and markets is of particular importance. Market participants who have access to their own sources of

raw materials (such as HC Group) have a significant advantage over other participants that do not have access to raw materials and need to buy them from third parties. In addition, the quality of plant operators, their long-time experience and the engineering know-how resulting in optimal plant layouts are the main levers for cost-efficient production processes and therefore substantially add to the competitiveness of the business.

HC Group as a competitor

Based on volumes sold, HC Group believes itself to be currently the world's number one in aggregates. Its main competitors include LafargeHolcim, CEMEX, CRH, Vulcan Materials (U.S.) and Martin Marietta Materials (U.S.).

HC Group's most important aggregates markets in terms of volumes are Europe, North America and Australia. HC Group's main competitors differ from market to market. The Australian market, as well as some European markets, is rather consolidated like the U.K., whereas others are fragmented like Germany.

In the U.S., HC Group faces strong competition from local companies like Vulcan Materials and Martin Marietta (operating only in the U.S.) as well as multi-national companies like CRH, CEMEX and LafargeHolcim.

In Europe, competition for HC Group does not only come from these multi-national companies, but also from strong international companies like Asamer Baustoffe, construction companies such as STRABAG and Vinci, and local competitors in each country of the Group areas Western and Southern Europe as well as Northern and Eastern Europe-Central Asia.

In Australia, HC Group's main competitors are LafargeHolcim and Boral.

Ready-mixed concrete and asphalt

Ready-mixed concrete and asphalt are like cement and aggregates homogenous mass goods and are subject to complex and cost intensive transportation. For ready-mixed concrete the hardening process of the product limits its ability to be transported and cuts the transport distance down to about 25-30 kilometers. Therefore, the markets for ready-mixed concrete and asphalt are local and highly fragmented by character.

The markets for these products are in general characterized by a high degree of price competition and competition based on differences in quality is hardly possible. The markets for ready-mixed concrete are served by a few multinational group companies on the one hand and a number of independent regional and local producers on the other hand, all competing against each other.

Market for concrete

In comparison to the market for aggregates, consolidation in the concrete industry is less advanced. The ready-mixed concrete markets are very local and fragmented in character since ready-mixed concrete is produced in liquid form and has to be kept moving during transport to prevent solidification. Therefore, ready-mixed concrete cannot be transported over long distances and must be delivered by truck-mounted transit mixers to consumers within a short period of time. The ready-mixed concrete markets are characterized by low barriers to entry due to less capital intensive production processes often along with easy access to readily available and competitively priced raw materials. This leads to a higher price sensitivity of ready-mixed concrete compared to cement and aggregates. Specific market conditions may also vary strongly within a country. To succeed in these micro-markets, building up a network of ready-mixed concrete facilities located close to the ultimate customers enabling a flexible reaction to changes in demand and price is of key importance. As in the cement business, regional competitive factors are crucial in the concrete business. Concrete, which is produced mainly on the basis of cement and aggregates, is the natural distribution channel for these products. Therefore, HC is focusing on and benefiting from the vertical integration through its ready-mixed activities and those operated in joint ventures with third parties.

Concrete markets, like cement markets, are highly dependent on the business cycle and overall activity of construction and other key factors such as general investment and climatic conditions prevalent in a given market. As a result, concrete markets develop in a highly cyclical manner, similar to the cement markets.

Market for asphalt

The principles discussed for ready-mixed concrete also apply for most hot mix asphalt markets. Like the markets for ready-mixed concrete, the asphalt markets are of a regional and local nature and, thus, rather fragmented. Due to the viscous nature of asphalt, transportation is possible only over short distances in order to prevent the asphalt from solidifying and getting too cold to work with. As the asphalt production process as such does not require a great extent of know-how and can be set up without high initial investment costs, the entry barriers are rather low. Like for ready-mixed concrete, competition is very much influenced by pricing. The access to local supply of raw materials, such as aggregates, sand and bitumen, proves to be essential for competitive production. In this context, it is desirable to locate the plants inside the quarries to reduce the costs of transportation for the aggregates used in asphalt, as they stand for 95% of the total weight of asphalt.

HC Group as a competitor - Ready-mixed concrete

In the opinion of HC Group, the targeted acquisitions in the past as well as the integration of Italcementi Group into HC Group have created one of the world's largest producers of ready-mixed concrete. In 2019, HC Group sold 50.7 million cubic meters of ready-mixed concrete. According to its own estimates, HC Group considers CEMEX, LafargeHolcim and CRH to be its most important competitors. Except for the U.K. and Australia, ready-mixed concrete markets are very fragmented and HC Group faces competition from mostly local competitors.

HC Group as a competitor - Asphalt

Based on volume HC Group believes itself to be one of the four leading companies for the production of asphalt in the world. Most of HC Group's asphalt plants are inside its own quarries which according to its own estimation, gives HC Group a competitive advantage.

In the U.K., the east and west coast of the U.S. and Malaysia, HC Group sees itself as one of the market leaders for asphalt with respect to volumes. In the U.K., HC Group faces competition mostly from multi-national companies like CEMEX, LafargeHolcim and CRH. In the U.S. and Malaysia, HC Group is confronted with mostly local and regional asphalt producers.

Key Business Data by Geographical Area

The following tables show certain key business data for the five geographic Group areas. The respective table shows the sales volumes derived from the HC Group's internal management reporting systems and key segment reporting information as presented in the segment reporting of the audited IFRS consolidated financial statements of HC AG as of and for the fiscal year ended December 31, 2019 (including the respective comparative amounts as of and for the fiscal year ended December 31, 2018).

Western and Southern Europe

The Western and Southern Europe Group area comprises seven countries. In these markets HC Group has, according to its own estimates, strong market positions in cement, aggregates and ready-mixed concrete. Besides, the operations include asphalt activities in the UK as well as precast concrete elements in Germany. The U.K., France and Germany are the three largest market regions in Western and Southern Europe. As part of HC Group's action plan to accelerate the portfolio optimization, HC Group agreed to sell cement plants in the north and centre of Italy. The disposal of the Spoleto cement plant in Umbria to Colacem was completed on April 1, 2019. The sale of the Testi cement plant in Tuscany and two grinding plants in Piedmont to Buzzi Unicem followed on July 1, 2019.

Northern and Eastern Europe-Central Asia

HC Group operates in twenty countries in the Northern and Eastern Europe-Central Asia Group area. In most of these growth markets, HC Group is a market leader in the cement business. The production of aggregates and ready-mixed concrete is also becoming increasingly important. In terms of revenue, Northern Europe is a large market region while Poland and Czechia are HC Group's largest market regions in Eastern Europe-Central Asia. In the course of its portfolio optimization program HC Group sold its business activities in the Ukraine in April 2019.

In the aggregates business line, the main markets of HC Group are located in Northern Europe as well as Czechia and Poland. HC Group also operates aggregates activities in Romania, Hungary, Slovakia, Georgia, Kazakhstan and Greece.

With the exception of Russia and Albania, HC Group has ready-mixed concrete activities in all countries of the Group area, with a dense network of plants. Its main market regions are located in Norway, Sweden, Poland and Czechia.

North America

The United States and Canada form the Group area North America. HC Group considers itself to be one of the leading manufacturers of cement, aggregates and ready-mixed concrete in North America. Asphalt is also manufactured in a few U.S. states, and concrete pipes are produced and distributed in Canada.

The cement, aggregates and ready-mixed concrete-asphalt business lines are organized into four integrated regions: North, South, West and Canada. The concrete pipes operating line in Canada has been assigned to the service-joint venture-other business line after the sale of the building products business line at the end of 2014. HC Group's 50-50 joint venture Texas Lehigh Cement Company LP, headquartered in Austin, Texas, is also included in this business line.

Asia-Pacific

The Asia-Pacific Group area comprises eight Asian countries and Australia. In most of the countries of Asia, HC Group's focus is on cement production. In addition, HC Group operates aggregates and ready-mixed concrete activities in Malaysia, Hong Kong, Indonesia and Thailand.

In Australia, HC Group has, according to its own estimates, significant market positions in ready-mixed concrete and aggregates, with a dense network of production sites. HC Group also holds a 50% participation in the largest cement company in Australia.

Africa-Eastern Mediterranean Basin

HC Group currently operates in 17 countries in the Africa-Eastern Mediterranean Basin Group area. In eleven countries south of the Sahara the Group almost exclusively produces cement. In North Africa, HC Group, according to its own estimates, holds leading market positions and operates production sites in Egypt and Morocco which are among the largest markets in the Group area. Activities in both countries comprise production of cement and ready-mixed concrete, and in Morocco additionally aggregates business.

HC Group's operations in the Eastern Mediterranean Basin are located in Israel and Turkey. In Israel, HC Group mainly produces aggregates and ready-mixed concrete. In Turkey, the joint venture Akçansa is one of the country's leading cement manufacturers according to HC Group's own estimates. In addition, Akçansa also operates ready-mixed concrete and aggregates plants.

RAW MATERIALS

In order to emphasize the key role of raw materials in the company and facilitate the transfer of knowledge and synergy effects beyond national borders, HC Group has combined its geology activities in the cement business across the HC Group at HeidelbergCement Technology Centre ("**HTC**") and for the aggregates business at Competence Centre Materials ("**CCM**").

Securing of mining rights for raw materials

Whilst at a series of production facilities (cement grinding plants, ready-mixed concrete plants, pre-cast concrete plants, asphalt plants, ground granulated blast-furnace slag plants and sand-lime bricks plants) raw materials that already have run through one or more preparation steps are processed further, the raw materials required for production in integrated cement plants (incl. cement clinker plants) and aggregates plants are generally extracted via quarrying work in the first place. Only in exceptional cases significant quantities of raw materials are bought from third party suppliers rather than produced through HC Group's own quarries. However, correcting materials to improve the quality of the raw materials at hand are frequently purchased from third party suppliers.

The long-term secure access to suitable raw materials is a condition precedent for the successful operation of HC Group's cement and aggregates plants. Without sufficient raw materials as a basis, the operation of raw material-quarrying plants is practically infeasible. A plant may fail to extract sufficient raw materials if:

- the raw materials are not available in sufficient quality and volume,
- the quarrying permits and licenses are not granted at all, are not granted for a sufficiently long term or are not granted with sufficient legal certainty

and/or if

- access to the real property where the raw materials are to be found is not possible from a legal perspective or is only possible to a limited extent.

On the other hand, the long-term, legally certain access to high-quality raw materials may give a company critical competitive advantages in the local market in which a plant is located. In particular, in mature markets, public authorities only issue raw material quarrying licenses or permits after a comprehensive review of the relevant environmental aspects, and then frequently only issue their approvals for limited time periods. Once a market participant has obtained a license or permit for raw material quarrying, the market entry of a competitor may become substantially more difficult, impossible or uneconomical.

For this reason, one of the most important tasks and responsibilities of every plant manager, managing director of a HC Group company with raw material quarries and every general manager of a HC Group country is to ensure long-term and ongoing raw material management.

As a first step HC Group must gain knowledge, backed up by geological investigations, of the availability and the quality of the natural mineral deposits that supply the raw materials suitable for processing in HC Group's local plants. In most countries, the second step is the designation of suitable areas as raw material quarrying areas in public plans at a national, regional or local level, followed by early advance planning and execution of a quarrying permit procedure.

The locally responsible managers are supported in this matter at a national or group level by staff function departments of HeidelbergCement. HTC experts provide assistance to the managers responsible for the cement plants, and the CCM experts support the managers responsible for the aggregates plants. This support includes

both securing of raw materials as well as cost-efficient operation of the plants (from the planning of new production facilities via repairs and maintenance of production facilities to purchasing of replacement parts and new production facilities).

The public law authorization for raw material quarrying is, however, only one aspect of ensuring long-term raw material supplies. In addition, the access to the real property where the material to be quarried is located must be ensured by corresponding rights under law ("**mining rights**"). These mining rights can be achieved through purchasing the relevant parcels of land, agreements which grant rights of exploitation in rem or in persona over the relevant parcels of land, the grant of state quarrying concessions over the relevant mineral deposit or any combination of the measures set out above. Both the public law planning and authorization process and the process to ensure access rights to the real property from a legal perspective take place years prior to the intended commencement of quarrying activities in order to remain independent of the then current economic interests of individual site owners and to avoid having to initiate dispossession proceedings against site owners, as is possible in some jurisdictions, unless absolutely necessary. Depending on the situation in the country in question, in some cases the efforts to gain legal access to the real property may have to commence prior to the initiation of the application procedures for the public law authorization or vice versa. However, generally both efforts are commenced simultaneously.

The legal requirements applicable to the existing raw material quarrying licenses/permits under public law vary from country to country, from plant to plant and from quarry to quarry. Typically, they contain regulations on the technical framework conditions of the quarrying work, for the protection of the environment (in particular of flora, fauna, water, air, soil) and the neighbourhood (in particular against emissions of dust, noise and vibrations), and requirements for work safety and for the subsequent use of the quarry areas once the quarrying work has ended. Due to the differences in legal framework conditions in the individual countries where HC Group is active, the content and scope of regulations deviate greatly from each other and cannot be generalized. The same holds true for the time periods for which the public law licenses/permits are issued: whereas in some countries quarrying licenses/permits are issued at the longest for the subsequent 1-5 years, in other countries quarrying licenses/permits may be issued for the next 10-20 years or even for an unlimited period, meaning until the raw materials reserves within the approved quarry area have been exhausted.

Cement

The cement manufacturing process in HC Group's 104 integrated cement plants worldwide basically depends on the following key inputs: raw materials (limestone, clay, marl) for the production of cement clinker, additives (gypsum, blast-furnace slag, fly ash, trass) for the cement grinding process, a considerable quantity of fuel (due to the high burning temperatures), and electric energy (due to the two separate grinding processes). Mining permits for the raw materials are of particular importance.

Since the transportation of raw materials for the production of cement is very cost intensive, cement producers strive to locate their production facilities in close proximity to the required raw materials. The main raw materials used in the clinker manufacturing process are generally mined from quarries that are located in close proximity to HC Group's worldwide cement plants. Only few plants do not have access to own quarries but have long-term contracts to purchase raw materials from other companies.

HC Group also uses sources of alternative raw materials (such as by-products and waste from other industries) in the cement clinker and cement production. In order to ensure the continuous operation of cement plants over a long period of time, the site must have sufficient quantities of raw materials at hand and mining permits (with respect to primary raw materials) with a sufficiently long term. Assuming a constant rate of utilization of the relevant cement plant, the term of a mining permit usually does not cover the entire operational life of a cement plant and the given geological deposits of raw materials.

Aggregates

Aggregates are, in addition to cement and ready-mixed concrete, a fundamental part of HC Group's integrated value chain. Based on sales volumes, HC Group sees itself as one of the world's largest aggregates producers, supplying sand, gravel or crushed stone for applications like ready-mixed concrete, road construction or building products. Aggregates are produced in approximately 630 plants or with marine production vessels in Europe, America, Africa, Asia and Australia. HC Group's leading position as aggregates supplier is based on a very significant aggregates capacity. Substantial raw material deposits are held in all Group areas and are to a large extent located close to attractive urban markets.

INVESTMENTS

Active portfolio management, with disciplined investment activities, formed a significant cornerstone of HC Group's rigid and consistent cash management in the fiscal year ended December 31, 2019. Cash-relevant investments of HC Group totalled € 1,316 million in 2019 (2018: € 1,723 million). Including the increase in

ownership interests in subsidiaries, cash-relevant maintenance and growth investments of HC Group fell to € 1,409 million in 2019 (2018: € 1,749 million). On the other hand, there were cash-relevant divestments of HC Group of € 413 million in 2019 (2018: € 562 million). Including the decrease in ownership interests in subsidiaries, cash-relevant divestments of HC Group totalling € 622 million in 2019 (2018: € 568 million) were recorded. Thanks to the consistent implementation of HC Group's action plan to accelerate the optimization of its portfolio, the cash-relevant net investments of € 907 million in 2019 remained markedly below the planned figure of € 950 million. Including the changes in ownership interests in subsidiaries, the cash-relevant net amount was € 786 million in 2019.

In 2019, € 1,183 million (2018: € 1,061 million) was attributed to HC Group's investments in property, plant and equipment (including intangible assets). On the one hand, investments in property, plant and equipment related to maintenance, optimization, and environmental protection measures at HC Group's production sites. HC Group's investment activities remained focused on improving its environmental protection activities. This includes investment in reducing dust, nitrogen oxide, and sulphur oxide emissions, as well as increasing the use of alternative fuels and alternative raw materials. The Germany Cement Master Plan – an investment programme for the modernization and efficiency improvement of HC Group's cement plants and environmental protection, launched in Germany in 2014 – was largely completed with the commissioning of the new kiln line in Schelklingen. There was also substantial capital spending on the construction of the new headquarters in Heidelberg, the modernization or construction of new production facilities at HC Group's cement plants in the Northern and Eastern Europe-Central Asia Group area and the increase in fuel flexibility at the cement plants in the Africa-Eastern Mediterranean Basin Group area. The upgrading of the Bass Point and Lysterfield quarries in Australia were important projects in the aggregates business line.

On the other hand, HC Group also made targeted investments in 2019 for profitable growth in selected markets, in line with its long-term growth strategy. These included the development of a new aggregates quarry in West Java, Indonesia, the commissioning of a third cement mill at the Kanchpur plant in Bangladesh, and an increase in the kiln capacity in the Democratic Republic of Congo.

Investments of HC Group in financial assets and other business units fell to € 134 million in 2019 (2018: € 663 million). These primarily included the acquisition of the aggregates and ready-mixed concrete activities of Cemex in Central France, an increase in HC Group's shareholding in California Commercial Asphalt in the USA from 50% to 100%, and the acquisition of Emirates Cement, which operates a grinding plant in Bangladesh. In addition, HC Group increased its ownership interests in subsidiaries by € 92 million in 2019 (2018: € 26 million) as part of its portfolio management. This related primarily to the increase in HC Group's shareholding in the Nordic Precast Group in Northern Europe from 60% to 100%.

In 2019, HC Group made further progress in its portfolio optimization, with the divestment of a number of activities that did not form part of the core business or did not meet its return requirements. In addition, HC Group sold 11.3% of the share capital of Ciments du Maroc, the El Minya white cement plant in Egypt, the Spoleto and Testi cement plants and two grinding plants in Italy, Baustoffwerke Dresden in Germany, a grinding plant in southern India, a cement terminal in Sri Lanka, and the business activities in Ukraine. Overall, HC Group made cash-relevant disposals of € 622 million, clearly exceeding its target of € 500 million in the 2019 financial year. HC Group's divestment programme in 2018 and 2019 has therefore already generated proceeds of € 1.2 billion. HC Group is confident of achieving its goal of € 1.5 billion by the end of 2020.

FINANCING

HC Group's financing policy aims to ensure its solvency at all times, limiting the risks associated with financing and optimizing its cost of capital. HC Group preferably meets its external financing needs on the international capital markets.

HC strives to maintain an investment grade rating, which ensures good access to financial and capital markets. HC Group's financing measures are aligned with its operational business planning as well as the group's strategic direction.

Corporate bonds form the basis of HC Group's medium to long-term debt financing. The outstanding bonds are issued in euros with different maturities and are mainly part of the € 10 billion Euro Medium Term Note Programme. The goal is to create a balanced maturity profile, diversify HC Group's investor base and optimize its debt capital financing conditions.

They act in the name and on behalf of the entire Supervisory Board in discharging the tasks assigned to them under the Supervisory Board rules of procedure and by special resolutions adopted by the Supervisory Board. The Supervisory Board has currently formed four committees: the personnel committee, the audit committee, the nomination committee and the arbitration committee. The Supervisory Board may form further committees.

The personnel committee is responsible for:

- preparing the decision of the Supervisory Board concerning the appointment of members of the Managing Board
- preparing the election of the Chairman of the Managing Board
- establishing the Managing Board's remuneration structure as well as the remuneration paid to the individual members of the Managing Board
- making a decision concerning the structuring of the non-remuneration related legal relationships between the company and the members of the Managing Board.

The members of the personnel committee are: Ludwig Merckle (Chairman), Fritz-Jürgen Heckmann, Birgit Jochens, Luka Mucic, Dr. Ines Ploss, Heinz Schmitt, Werner Schraeder and Margret Suckale.

The audit committee inter alia performs the following tasks:

- Obtaining the independence statement of the auditors and the additional services rendered by the auditors and deciding on measures if, during an audit, reasons for a potential exclusion or bias of the auditors arise.
- Dealing, in individual cases, with subjects assigned to it by the Supervisory Board.

The members of the audit committee are: Luka Mucic (Chairman), Ludwig Merckle (Deputy Chairman), Barbara Breuninger, Fritz-Jürgen Heckmann, Peter Riedel, Heinz Schmitt, Werner Schraeder and Margret Suckale. In the fiscal year ended December 31, 2019, the audit committee met two times and held three telephone meetings.

The nomination committee is responsible for putting suitable candidates forward to the Supervisory Board for its proposals for election to be made to the annual general meeting. Its members are: Ludwig Merckle (Chairman), Margret Suckale and Univ.-Prof. Dr. Marion Weissenberger-Eibl as shareholder representatives.

The arbitration committee is responsible for making a proposal to the Supervisory Board for the appointment of members of the Managing Board if the necessary two-thirds majority is not initially achieved. It comprises Univ.-Prof. Dr. Marion Weissenberger-Eibl (Chairwoman), Fritz-Jürgen Heckmann, Heinz Schmitt and Dr. Ines Ploss.

Shareholdings, legal relationships and conflicts of interest

Mr Ludwig Merckle, Ulm/Germany, holds via PH Vermögensverwaltung GmbH, Zossen/Germany, a subsidiary controlled by him, 26.70% of the voting rights (equals 52,974,747 voting rights) in HeidelbergCement AG, according to the notifications available to the company as at the date of this Prospectus in accordance with the German Securities Trading Law (Wertpapierhandelsgesetz). For further details see "Shareholders".

Besides their function as members of the corporate body, the members of the Supervisory Board have not entered into any other material legal relationship with HeidelbergCement AG and have no potential conflicts of interest with regard to their duties vis-à-vis HeidelbergCement AG on the one hand and their private interests or other duties on the other hand, except for Mr. Ludwig Merckle's indirect shareholding in HeidelbergCement. No service agreements exist between HeidelbergCement AG and its subsidiaries on the one hand and one or more members of the Supervisory Board on the other hand, which provide for benefits in the event the service agreement is terminated. No agreements or understandings exist with shareholders, customers, suppliers or other persons, according to which a member of the Supervisory Board was appointed to the Supervisory Board.

MATERIAL CONTRACTS

Control and Profit and Loss Pooling Agreement with HeidelbergCement International Holding GmbH

On March 21, 2002 HeidelbergCement and HeidelbergCement International Holding GmbH ("HCIH") concluded a profit and loss pooling agreement (*Gewinnabführungsvertrag*) under which HCIH is obliged to transfer its profits to HeidelbergCement and HeidelbergCement is obliged to compensate HCIH for any annual deficits, each with effect of January 1, 2002. The contract was changed to a control and profit and loss pooling agreement (*Beherrschungs- und Gewinnabführungsvertrag*) by an amendment that became effective after approval by its own HeidelbergCement shareholders and registration in the commercial register on May 13, 2014. The control and profit and loss pooling agreement can be terminated unilaterally with six months prior notice on December 31 of each year.

Syndicated Facilities Agreement, including Letter of Guarantee Facility

HeidelbergCement's € 3 billion syndicated credit line dated January 12, 2018, maturing after a first extension January 12, 2024 was further prolonged by all but one lender by the use of the second of the two options to prolong the term by one year each to January 10, 2025. A tranche of € 0.15 billion of the overall amount of € 3 billion is therefore still due on January 12, 2024. The syndicated facility agreement ("**SFA**") provides for a multicurrency revolving credit facility in an amount of € 3 billion which may also be utilized by letters of guarantee. The terms of the SFA contain restrictions which may affect the operating flexibility of HC Group. These restrictions

include a financial covenant. Breaches of the contractual undertakings and the agreed financial covenant will in general trigger a right of early termination on the part of the lenders, who will in this case be entitled to demand immediate repayment.

If an individual or a group of individuals acting in concert gain control of HeidelbergCement (change of control event), the lenders under the SFA have a right of early termination which each lender may exercise individually.

REGULATORY ENVIRONMENT

HC Group is subject to various environmental, health and safety and regulatory laws and regulations applicable in the jurisdictions in which it is active.

Overview of environmental regulations

The manufacturing operations of HC Group, including integrated cement plants, cement grinding plants, ready-mixed concrete facilities, pre-cast concrete plants, aggregates facilities, asphalt plants, ground granulated blast-furnace slag plants and sand-lime bricks plants, are subject to various environmental laws and regulations. All countries in which HC Group operates have adopted comprehensive laws, regulations, technical rules and standards concerning environmental protection. They regulate, among other things, air pollution (thresholds for certain air emissions, such as sulphur dioxide, sulphur trioxide, nitrogen dioxide, nitrogen oxide, ammonia, mercury, organics, carbon monoxide, carbon dioxide, heavy metals and dust) and noise as well as vibrations, odour emissions, pollution of, and discharges into, soil, surface water and groundwater, equipment and plant safety, the production, handling, storage and transportation of hazardous materials (including the use of explosives), the treatment and disposal of waste as well as the use of waste as secondary fuel and secondary raw material, mining of raw materials, protection of natural resources and re-cultivation. They can also cover wetlands preservation and protection of endangered species. HC Group is required to obtain and maintain permits from governmental authorities for many of its operations. These laws, regulations and permits are subject to change over time and require the ongoing improvement and retrofitting of plants, equipment and operations, which can at times, require substantial investments. Meeting these regulatory and permit requirements may require HC Group to incur material costs, alter its operations or forego planned business opportunities. In addition, future challenges to HC Group's permits or operations may impose burdensome conditions on its operations and activities.

In addition, in various jurisdictions manufacturing companies are subject to comprehensive liability with regard to preventing and remediating environmental damages (including damages to water and soil but also to protected species and natural habitats) which result from certain activities with potential environmental impact. Under such liabilities, companies may face liability for approved emissions or activities which are not necessarily limited to cases of wilful misconduct.

Implications for HC Group

The operations of HC Group, as well as its ownership and operation of real property, may trigger a range of legal obligations and other environmental risks including the following:

Soil and groundwater contamination

HC Group's current and historical operations include the use of hazardous materials and can otherwise have an impact on the soil and groundwater. In addition, its operations are and at times have been located on sites with long histories of industrial operations and past activities that were of a different nature than HC Group's current activities. As a result, some of HC Group's sites are affected by soil and groundwater contamination, including from the use of settling ponds, septic systems and associated leach fields, surface impoundments or landfills, which are or were situated on or adjacent to the production sites. In some cases, HC Group is obligated to perform further investigation and/or clean-up operations.

Additional contamination of soil and groundwater might be discovered at various sites in the future due to, among other things, the storage of hazardous substances above-ground or underground (for example, storage of heating fuel oil, lubricating oil or fuel at company filling stations), the current or former use of the site or parts thereof as settling ponds, septic systems and associated leach fields, surface impoundments or landfills and the backfilling of quarries with filter dusts. In case of discovery of contamination, HC Group may, as the present owner and/or user of the respective property, be held liable for addressing that contamination. Under the laws of some countries, HC Group could be held responsible even if it did not cause the contamination. In addition, HC Group, as the previous owner, or user, of properties, could be responsible for soil or groundwater contamination that may be discovered in the future at those sites.

Specific risks associated with hazardous substances exist for HC Group in the U.S. CERCLA and similar state laws impose liability for investigation and clean-up of contaminated properties and for damages to natural resources. Under CERCLA, RCRA or similar state laws, strict, joint and several liability may be imposed on waste generators, current and former site owners or operators and others regardless of fault. In addition to actions

brought by governmental agencies, private plaintiffs may also bring clean-up property damage and personal injury claims arising from the presence of hazardous substances on a property. Thus, members of HC Group may be responsible for investigating or remediating sites that it currently owns or operates or that it or a former member of HC Group previously owned or operated as well as sites to which it or a former member of HC Group sent waste material or to which substances have migrated from any of the types of sites listed above, for damages to natural resources and for claims for clean-up property damages or personal injury.

In connection with ongoing operations, several cases of soil and groundwater contamination are known. In addition, environmental contamination exists which relates to sites and companies HC Group acquired, owned or operated in the past that had businesses and operations unrelated to those presently carried on by HC Group, especially Beazer East, Inc. (formerly known as Koppers Company, Inc. and acquired by Hanson prior to HC Group's acquisition of Hanson). For additional information on environmental contamination which relates to current or historical businesses and activities, see "*Risk Factors – Risks Relating to HeidelbergCement AG as Issuer and Guarantor – 3. Legal and regulatory risks – Environmental, health and safety laws and regulations on risks associated with the release of hazardous substances or other contamination of the environment*". For additional information on current environmental contamination claims, see "*– Litigation/Administrative and Governmental Proceedings*".

Emissions (air, noise, odours and vibrations)

All manufacturing operations of HC Group (including excavation of raw materials) are closely connected with dust emissions, noise emissions, vibrations etc. In addition, the production of cement (as a result of the clinker burning process) is also closely connected with air emissions of other pollutants (such as sulphur dioxide, sulphur trioxide, nitrogen dioxide, nitrogen oxide, ammonia, mercury, organics, carbon monoxide, carbon dioxide and heavy metals). All countries in which HC Group operates have adopted comprehensive laws, regulations, technical rules and standards concerning these emissions by setting thresholds for certain emissions. These laws, regulations etc. are subject to change over time, especially by introducing the up-to-date best available techniques (BAT). Therefore, HC Group has in the past been, and will in the future be, required to incur capital and operating costs to maintain or upgrade its operations or facilities to comply with these updated laws, regulations etc.

At some of the plants operated by HC Group, emissions of harmful substances into the air have in the past and may in the future exceed permissible thresholds. Applicable noise thresholds have also been exceeded at some plants of HC Group. These emissions as well as emissions of noxious odours or vibrations may require further investments in improvement for the relevant plants such as installing or upgrading filters and/or implementing noise abatement measures. In addition, HC Group's operations may have difficulty obtaining or maintaining permits and may have to alter its operations in a manner that adversely affects it. For estimated respective costs to address these issues, see "*Risk Factors – Risks Relating to HeidelbergCement AG as Issuer and Guarantor – 3. Legal and regulatory risks – Environmental, health and safety laws and regulations on risks associated with the release of hazardous substances or other contamination of the environment*".

Water and waste water

Water is used in the cement production process only to a minor extent, primarily for the cooling of machines. In the production of concrete and building materials, however, water is an important component of the final products. Therefore, large quantities of water must be available for the production of these materials, and appropriate permits to use the water must be obtained and maintained. At certain HC Group sites, the extraction of water for HC Group's operations can impact the availability of water for neighbouring uses, including residential drinking water wells. In such instances, HC Group could be required to alter its operations or to take certain precautionary measures to protect the local water supply, which measures could cause HC Group to incur significant costs or change its operations in a manner that adversely affects it.

Waste water is either discharged directly (usually after pre-treatment) into public waters or indirectly into the public sewage system. In individual cases, damage to the sewer pipes has been detected which required repair or replacement measures. However, the investments with respect thereto are not expected to be significant. Further, water laws affect HC Group's operations, especially its aggregates operations, by restricting the discharge of pollutants, including in storm water run-off, into waters and requiring certain permits for discharge.

HC Group has in the past been, and will in the future be, required to incur capital and operating costs to maintain or upgrade its operations or facilities to comply with these laws, regulations and permits. In addition, HC Group's operations have not in the past and may not in the future always be able to remain in full compliance with all obligations under water and wastewater laws and related permit requirements, and as a result, may be subject to compliance orders, fines and penalties, may have difficulty obtaining or maintaining permits and may have to alter its operations in a manner that adversely affects it.

Handling and storage of hazardous substances

Hazardous substances are used regularly at HC Group's sites. Explosive materials are used for the extraction of raw materials in quarries. Other environmentally sensitive substances required for the operation of the sites, such as fuel, heating fuel oil and lubricating oil, are used and stored at HC Group's sites. These substances are usually stored in above-ground or underground tanks.

On some of HC Group's sites, asbestos was used in production processes and in the construction of buildings, including in the production of fibre cement containing asbestos. At present, asbestos used at the sites is usually bound in other materials, such as asbestos-containing cement boards used for heat insulation. The replacement of bound-asbestos is usually not required under environmental laws. If a building is refurbished or demolished, however, or if asbestos containing materials are in a condition that could cause asbestos to become air borne, precautions for the protection of employees must be taken and the material must be properly disposed of. At some of HC Group's sites, asbestos containing materials will have to be demolished and disposed of in the future. According to HC Group's estimates, there is a risk of future (long-term) liability in connection with demolition and disposal of asbestos-containing material at several of HC Group's sites. For respective costs for demolition and disposal, see "*Risk Factors – Risks Relating to HeidelbergCement AG as Issuer and Guarantor – 3. Legal and regulatory risks – Environmental, health and safety laws and regulations on risks associated with the release of hazardous substances or other contamination of the environment*" (see also "*– Litigation/Administrative and Governmental Proceedings*" and "*Risk Factors – Risks Relating to HeidelbergCement AG as Issuer and Guarantor – 3. Legal and regulatory risks – Risks associated with asbestos-related claims arising out of former activities in the U.S.*").

Excavation of raw materials and re-cultivation

For the excavation of raw materials by HC Group, in most countries not only operating permits but also mining rights are required and sometimes royalties have to be paid (see also "*– Raw Materials*"). Raw materials used in the production of cement clinker and aggregates are predominantly excavated from adjacent quarries. After the complete or partial termination of mining activities, it is usually necessary to reclaim, re-cultivate and/or re-nature the respective quarry. Several quarries of HC Group are located in environmentally sensitive areas for which very strict provisions apply to their operation as well as to their reclamation, re-cultivation and renaturation resulting in especially high costs for HC Group. For additional information on reclamation, re-cultivation and renaturation obligations, see "*Risk Factors – Risks Relating to HeidelbergCement AG as Issuer and Guarantor – 3. Legal and regulatory risks – Significant reclamation, re-cultivation and quarry closure obligations which may not be sufficiently covered by provisions and requirement to maintain financial assurances to meet these obligations*".

Environmental risk assessment and sustainability

HC Group executes risk assessment to reduce risks of environmental liability. HC Group has established policies, guidelines and guidance documents for environmental protection which provide practical advice and guidance to the operations from all business lines (e.g. self-assessment questionnaires to rate the environmental performance of production sites). HC Group has committed itself to sustainable development. Therefore, the Global Environmental Sustainability department ("**GES**"), which is responsible for the further advancement and global co-ordination of HC Group's sustainability efforts, supports the implementation of the "HeidelbergCement Sustainability Commitments 2030" ("**SC2030**"), which have been presented in 2017. In 2018, the group-wide roll-out of the goals has been executed and countries have started to develop own specific implementation plans. GES is providing guidance through standardized implementation procedures and follow-up tools. For 2019, the target was to run a first test assessment of the SC2030 target implementation rate with all countries. For 2020 the target mapping process will be officially implemented, so that the first global status report can be prepared. The previously started internal improvement program on CO₂ reduction through improved energy efficiency of the production sites is further continued along with a push for an increased use of alternative fuels and secondary cementitious materials. From 2020 onwards all country management teams are asked to prepare a CO₂ reduction roadmap that will positively influence the environmental performance and the company's overall carbon footprint.

As a clear sign of the success of these efforts, the company has received an A rating from the non-profit organization CDP (formerly known as Carbon Disclosure Project) as the only cement producer world wide. After having achieved a B rating in 2016, HC Group's climate performance of the last three years had received an A rating.

Health and safety regulations

All countries in which HC Group operates have comprehensive laws, regulations and standards in place concerning health and safety protection. These regulations are updated on a constant basis and require improvements of plants, equipment and operation processes which may result in significant costs for HC Group. For a few plants and sites, instances of non-compliance with health and safety requirements have been identified which require HC Group to implement additional measures. The costs to address these issues are included in

HC Group's current estimates for non-compliance costs, see "*Risk Factors – Risks Relating to HeidelbergCement AG as Issuer and Guarantor – 3. Legal and regulatory risks – Environmental, health and safety laws and regulations on risks associated with the release of hazardous substances or other contamination of the environment*".

A group-wide policy for occupational health and safety, supported by group standards have been implemented by HeidelbergCement AG to establish a common standard across HC Group and most plants have developed management systems for occupational health and safety. For 2020/2021, HC Group is focusing on systematically expanding the occupational health and safety measures. HC Group will continue to undertake targeted campaigns to tackle specific accident areas each year and initiate measures that will lead to significant improvements in the medium term.

Climate change law

In various jurisdictions in which HC Group operates, considerable and increasing government attention is being paid to reducing carbon dioxide and other greenhouse gas emissions. All of HC Group's operations produce some amount of carbon dioxide, but its cement production activities are particularly carbon dioxide intensive as carbon dioxide is produced as a natural by-product of the cement manufacturing process when raw materials are decarbonized and converted to clinker. In the EU, especially HC Group's cement plants are subject to emission trading law. Other regions, such as in the U.S., Canada, China and Australia, have implemented or intend to implement climate change laws as well. On December 12, 2015 the 21st Conference of the Parties of the United Nations Framework Convention on Climate Change in Paris adopted a new climate change agreement (the "**Paris Agreement**") to replace the Kyoto Protocol of 1997. The implementation of the Paris Agreement could tighten the climate change laws in the jurisdictions mentioned above. In addition, in connection with international negotiations and especially the Paris Agreement, measures to reduce carbon dioxide and other greenhouse gas emissions that could affect HC Group could be developed in additional jurisdictions (for example in Kazakhstan, India, Indonesia and Thailand, other jurisdictions could follow).

Emission trading law in the EU

Based on the Emission Trading Directive adopted in 2003, the EU has considerably reduced the output of greenhouse gases by the introduction of a trading system for Emission Rights being started in 2005 and mandatory for all industries with high energy consumption levels, including the cement industry. This EU Emission Trading System ("**EU ETS**") places a Community-wide limit on the carbon dioxide emissions of these energy-intensive industries. Under this EU legislation, Member States issue tradeable allowances to give affected industrial installations the right to emit a certain amount of carbon dioxide ("**Emission Rights**"). The industrial installations are obliged to surrender an appropriate amount of Emission Rights to the Member States each year for their carbon dioxide emissions. In addition, failure to surrender a sufficient amount of Emission Rights can lead to significant penalties.

For the third trading period (2013-2020) the EU ETS has been revised by Directive 2009/29/EC and for the fourth trading period (2021-2030) the EU ETS has been revised by Directive (EU) 2018/410. Under this revised emission trading scheme, the Community-wide quantity of Emission Rights issued each year will be reduced annually by a linear factor which was set at 1.74% for the third trading period (2013-2020) and at 2.2% for the fourth trading period (2021-2030).

Manufacturing companies, in general, are allocated a certain (but steadily decreasing) amount of Emissions Rights free of charge and have to purchase a significant (and steadily increasing) share of Emission Rights in auctions to cover their carbon dioxide emissions which results in substantial additional costs for such companies.

For such free allocation, the EU Commission has determined Community-wide ex-ante benchmarks for each sector in its Decision 2011/278/EU for the third trading period (2013-2020) which will be further reduced for the fourth trading period (2021-2030) by a new decision of the EU Commission expected in 2020. These benchmarks are based on most efficient techniques and positions in a sector and result in even stricter caps (compared to previous trading periods) for HC Group's plants.

In addition, from 2013 onwards, full auctioning of Emission Rights has been gradually introduced for the manufacturing sector. The amount of Emission Rights allocated free of charge is generally reduced from 80% in 2013 to 30% in 2020 and will be further reduced from 30% in 2026 to 0% in 2030.

An exemption from auctioning is generally made for energy-intensive sectors which are recognized by the European Commission to have a significant risk of carbon leakage, *i.e.* for sectors in which a risk of relocation of production to countries with less strict climate protection laws exists. For this decision, the European Commission assesses the extent to which it is possible for the sector concerned to pass on the direct and indirect costs (*i.e.* especially increased energy prices) resulting from the revised emission trading system to consumers by increasing product prices without significantly losing market share to less carbon efficient plants outside the EU. The European Commission determined the cement industry as well as some other energy intensive industries to have a significant carbon leakage risk for both the third trading period (2013-2020) and the entire fourth trading

period (2021-2030). The designated sectors including the cement industry will generally be allocated Emission Rights free of charge for the stated periods up to a certain benchmark.

Furthermore, an annually increasing cross-sectoral-correction-factor was implemented by the EU Commission for the third trading period (2013-2020) and might be implemented again for the entire or parts of the fourth trading period (2021-2030). This cross-sectoral-correction-factor further reduces the number of Emission Rights allocated for free. Therefore, the stricter caps applicable to the plants of HC Group in the fourth trading period will probably require HC Group to purchase a steadily increasing share of additional Emission Rights to cover its carbon dioxide emissions in excess of those covered by the Emission Rights allocated for free. Therefore, even as long as and to the extent this exemption from auctioning applies to HC Group, significant additional costs may arise for HC Group in the third trading period.

All HC Group's plants falling under the scope of the EU ETS received final allocation decisions for the third trading period (2013-2020) and have applied for their free allocation in the first phase of the fourth trading period (2021-2025) in due time but are still waiting for their allocation decisions for this phase. Based on the final national lists about allocation volumes per plant for the current third emission trading period, and HC Group's current calculation of its carbon dioxide emissions in this period, HC Group estimates that its overall position for its European plants which are subject to the emissions trading scheme will show a surplus of Emission Rights in the entire third trading period, although some plants expect not to receive sufficient Emission Rights to cover their full carbon dioxide emissions arising from their production. In contrast, based on HC Group's current estimation of both free allocation volumes and carbon dioxide emissions per plant for the fourth trading period, HC Group estimates that its overall position for its European plants which are subject to the EU ETS will show a deficit of Emission Rights in the entire fourth trading period, meaning that most plants expect not to receive sufficient Emission Rights allocated for free to cover their full carbon dioxide emissions arising from their production.

Furthermore, under the EU ETS, a significant increase in indirect costs is expected for HC Group if the price for Emission Rights will increase as a consequence of full auctioning as the rule for the energy sector from 2013 onwards. This will probably result in a significant increase in energy prices in the EU. It is unclear if HC Group will be able to pass on these higher energy costs to customers in the form of price increases.

Currently the EU Commission assesses the consequences of the Paris Agreement in 2018, which might have further effect on the allocations to cement industry. Any further modifications of the EU ETS might result in significant additional costs for HC Group due to stricter caps and further reduction of the share of Emission Rights allocated for free, which would require HC Group to purchase additional Emission Rights. Therefore, HC Group could suffer a substantial loss in market share to competitors outside the EU as a result of legislative developments from 2021 onwards, which could have a material adverse effect on HC Group's business, financial condition and results of operations. HC Group has followed continuously and actively the developments of the EU ETS on both EU and national level to protect its interests.

In general, HC Group believes that with regard to its carbon dioxide emissions in the EU, it is well positioned as compared to its competitors.

In addition, it has to be mentioned that the United Kingdom has left the European Union as of February 1, 2020 but is expected to continue to operate within the EU ETS during the Transition Period until December 31, 2020. It is not yet known what emissions trading arrangements will be in place for the United Kingdom from 2021 onwards.

North American carbon emission laws

In addition, considerable and increasing government attention in the U.S. and Canada is being paid to carbon dioxide and other greenhouse gas emissions. Legislators are considering the passage of significant new laws and regulators are considering using existing laws to limit greenhouse gas emissions, including carbon dioxide. Laws and regulations that are in place or being considered include:

- *Federal legislation.* The White House Administration has not shown any intention to enact new laws or taxes regarding greenhouse gas ("**GHG**") emissions related to climate change and has taken steps to withdraw from the Paris Agreement. It is unlikely that any new legislation dealing with GHG emissions will be enacted in the current session of the U.S. Congress. Any congressional legislation, administrative regulation or executive action on climate change could have a material effect on the operations of HC Group's facilities in the U.S. The House of Representatives is controlled by the Democratic Party and will continue its efforts to advance energy and climate legislation that could be used as a blueprint when the political climate is right to pass such legislation. As an example, the House Energy and Commerce Committee (E&C) released the Clean Future Act (CFA) as a discussion draft that seeks to transition the United States to a 100 percent clean economy by 2050. The bill creates a clean energy standard for the energy sector, a state-based regulatory regime under the Clean Air Act, a government procurement program for construction materials, and invests in technology to achieve its greenhouse gas reduction target.

- Federal regulation.* In December 2013, the United States Environmental Protection Agency ("**EPA**") proposed a rule which affects newly constructed power plants and limits their carbon dioxide emissions (the "**Clean Power Plan Rule**" or "**CPP Rule**"). This CPP Rule was enacted in December 2015 and established CO₂ reductions on existing coal fired power plants and also new CO₂ limits on any new power plants to be constructed. The EPA also proposed rulemaking in June 2014 on existing power plants and set carbon dioxide emission standards. These proposed regulations would have increased energy costs and HC Group may not have been able to pass on such higher energy costs to customers in the form of price increases, having an adverse effect on HC Group's business, financial condition and results of operations. On February 9, 2016, the U.S. Supreme Court stayed the CPP Rule which effectively places the rule on hold until the lawsuits are resolved. The stay currently remains in effect and therefore, the rule remains on hold. In February 2018, EPA proposed a repeal of the CPP Rule and in spring 2018, EPA proposed the Affordable Clean Energy Rule ("**ACE**"), taking the approach that regulations will address GHG emissions within the fence-line under Section 111(d) of the Clean Air Act. A rule under Section 111(d) will set precedent for future regulation of other existing source categories, such as cement plants. In June 2019, EPA finalized the ACE rule, but various states and environmental groups immediately challenged the rule by filing litigation. The rule remains within the Courts.
- State and provincial action.* A growing number of states in the U.S. and provinces in Canada, including those in which HC Group has operations, have adopted measures or are considering adopting measures, sometimes as part of regional initiatives, to reduce carbon dioxide and other greenhouse gas emissions within their jurisdictions, including by requiring reductions on carbon dioxide emissions from cement plants. For example, California enacted the California Global Warming Solutions Act of 2006 (commonly known as AB32) into law in late 2006. AB32 calls for specific emissions reduction measures as well as a cap on greenhouse gas emissions throughout California, including from HC Group's cement plants, and a state-wide reduction of greenhouse gas emissions to 1990 levels by 2020 by establishing a cap and trade program. Industrial facilities with emissions in excess of their free allocation are required to purchase additional allowances through an auction. The requirements under AB32 went into effect beginning on January 1, 2013. There are four trading auctions per calendar year. U.S. subsidiaries of HC Group have not yet participated in any auctions. They are able to comply with the act through use of the current allocations to HC Group's California cement plants and estimate that they will continue to be able to comply using existing allocations through 2020, dependent upon the 2020 production and fuel utilization. It is projected that the HC Group's California cement plants could become short on allocations for the next period (2021-2023). This is based on projected cement production from the three cement plants in California and program policy driven factors that are, at the moment, unknown. These may include a change in the industry benchmark as a result of a regulatory update. Allowance price increases, and allocation availability due to a declining cap, and pressure to make the state "coal free". If HC Group is required to purchase allocations through these auctions in the future, this could have a material adverse effect on HC Group's business, financial condition and results of operations. California's Governor on September 8, 2016 signed into law SB32 (the California Global Warming Solutions Act of 2006: emissions limit), an amendment to California's Health and Safety Code, which establishes a phase 2 cap and trade scheme covering the years from 2020 to 2030 that requires a 40% state-wide reduction of GHG by 2030 (compared to 1990 levels). These CO₂ limits will be more restrictive than AB32. HC Group will continue to monitor potential legislation by states and provinces on GHG emissions in absence of any federal legislation.

In addition, HC Group's operations are or will be impacted by other measures to reduce greenhouse gas emissions that are being imposed already, including the following:

- Canadian federal regulations.* Under Canadian federal legislation, all facilities in Canada emitting 50,000 metric tons or more of GHG per year must report annually to the federal Greenhouse Gas Emissions Reporting Program. Canada is taking a sector-by-sector regulatory approach to reducing GHG emissions, starting with the transportation and coal-fired electricity sectors. Currently there is no federal carbon tax imposed or federal cap and trade system in place. But the Government of Canada proposed a "price on carbon pollution" to start at a minimum of C\$ 10/ton of carbon emissions in 2018 and rise by C\$ 10 a year to reach C\$ 50/ton in 2022. This federal proposal does take into consideration of what each province is currently doing about carbon pollution. Flexibility will be given to the individual provinces on how to implement the carbon pricing. The federal government has set a carbon price nationally for 2018, so provinces must have a program in place recognized as being "equal or better" than the National program for climate change not to fall under the umbrella of the National program. If a province is determined not to have a program in place that is at least equal to the federal program then the Canadian federal government will impose its backstop on that province, such as currently exists for Ontario.
- Canadian provincial regulations.* In *British Columbia*, which includes the Delta cement plant (Vancouver) of HC Group's Canadian subsidiary Lehigh Hanson Materials Limited, the provincial government enacted a carbon tax on fuel consumption that went into effect in 2008. This tax started at C\$ 10/metric ton of carbon dioxide equivalent emissions in 2008 and was gradually increased to C\$ 30/metric ton in July 2012.

In June 2013 the provincial government announced that it concluded a review of the impacts of the tax on British Columbia's economy and that no further rate increases or expansions are planned at this time, but signalled it may conduct a further review as other jurisdictions, especially within North America, introduce similar carbon taxes or carbon pricing. In addition, facilities located in British Columbia and emitting 10,000 metric tons or more of specified GHGs per year are required to report their GHG emissions annually. If the GHG emissions are 25,000 metric tons or more annually, such report must be verified by an accredited verification body. Although, a cap and trade system was also authorized by legislation in British Columbia, the implementation of the cap and trade system has been delayed, and the provincial government has not released the regulatory details of the proposed system nor has it announced a start date. Currently it is unclear when, if ever, the provincial government will take steps to implement a cap and trade system in the province. Currently HC Group and other cement producers in British Columbia are working with the provincial government's Climate Action Secretariat on getting some of the funds back that each company paid in carbon taxes and the Delta cement plant received a refund in 2017. Payment started in 2016 and continues to 2019 provided that HC Group's Delta cement plant meets GHG intensity targets. This incentive program is geared towards reducing GHG as well as using more waste based alternate fuels. However, beginning in 2018, the provincial carbon tax will increase annually by C\$ 5 per metric ton in an effort to meet the federal long-term objective of C\$ 50 per metric ton. Thus, in 2018 the carbon tax was raised to C\$ 35/metric ton, in 2019 it was C\$ 40/metric ton, in 2020 it is C\$ 45/metric ton, and in 2021 the provincial carbon tax will equate to C\$ 50 per metric ton. At the same time in 2018, the province set up the Clean BC Industrial Incentive Program (CIP), which is a part of the Clean BC Program for Industry designed to support and facilitate emission reductions using revenues from the carbon tax being paid by industry (above C\$ 30 per metric ton CO₂). Program details continue to be worked out, but essentially interested industrial sectors reporting under GGIRCA (Greenhouse Gas Industrial Reporting and Control Act) may receive a portion of the incremental carbon tax paid (above C\$ 30 per metric to CO₂ base) if they meet benchmarks in place. The province remains a member of the regional Western Climate Initiative and it is expected that any system to be implemented under the provincial legislation will be developed in compliance with the Western Climate Initiative model.

In *Alberta*, which includes the Edmonton cement plant of HC Group's Canadian subsidiary Lehigh Hanson Materials Limited, existing facilities emitting more than 100,000 metric tons of GHGs per year were required pursuant to the *Specified Gas Emitters Regulation* to reduce their emissions intensity by 12% by December 31, 2007, relative to a baseline calculation calculated and approved as an average emissions intensity over three consecutive years. If existing facilities exceed 88% of the approved baseline in any given year going forward, they must currently contribute C\$ 15 for each metric ton of emissions exceeding the intensity target to Alberta's Climate Change and Emissions Management Fund (the "**Fund**"), or demonstrate an alternate method of compliance such as the purchase of Alberta-based offset credits. Following a review until June 30, 2015, the provincial government of Alberta determined to keep the Specified Gas Emitters Regulation as is without change. This determination keeps also in place the US\$ 30 per ton of coal purchased tax that goes to the Fund. The Fund is used for grants on approved carbon dioxide reduction projects and their pilot demonstrations. This regulation has been extended again until December 31, 2018 (capped at US\$ 30 per ton of coal). Finally, the Specified Gas Emitters Regulation was extended until 2018, but the 2016 report had a reduction target of 15%, meaning that facilities that exceed 85% of the approved baseline, have to contribute C\$ 20/ton of emissions exceeding the intensity target. In 2017 the reduction target was further increased to 20% and the price of carbon was increased to C\$ 30/ton. The Edmonton cement plant's carbon management strategy is in place up until the 2018 reporting period. In 2015 the Edmonton cement plant achieved their reduction target and generated credits that can be retained and applied to future years or sold and retired within the Alberta market. Therefore, since 2015 the plant has not had to pay into the Fund. The Edmonton cement plant projected that they do not meet their reduction target for the year 2017 and will have to pay into the Fund in 2018 for the year 2017. On January 1, 2017 the provincial government of Alberta implemented its Climate Leadership Act, which includes a C\$ 50/ton price of carbon on all fuels. Those facilities already regulated under the existing Alberta rules could apply for an exemption so that they are not double counted. In 2018, the current Specified Gas Emitters Regulation would have expired but the provincial government of Alberta announced a new GHG policy on December 7, 2017. Under new leadership the province implemented a cap and trade scheme. The new policy utilized an Output-Base Allocations ("**OBAs**") calculation methodology. As of January 1, 2018 the OBA benchmark had a value of 785.3 kg of carbon dioxide equivalents per tonne of cement. This benchmark was achieved by the Edmonton cement plant, operated by Lehigh Cement, a division of Lehigh Hanson Materials Limited ("**Lehigh Cement**"), and resulted in the generation of offsets (Emission Performance Credits ("**EPC**")). In 2019, a new version of an OBA legislation called Technology Innovation and Emissions Reduction Regulation (TIER) was implemented. This set a new industry specific high performance benchmark of 0.7757 CO₂/tonne of cement. Even though this benchmark represented a reduction, the Edmonton plant is still expecting to generate significant EPCs for 2019 operations. EPCs have been sold to the market between 2015 and 2018 for a total income of over US\$ 2.8 million. Edmonton's policy and market assessment indicates EPCs will continue to be generated under the existing regulation, so Lehigh Cement expects to continue selling generated EPCs into the market. The expected return for the 2019 EPCs is over US\$ 2 million. Carbon

prices are expected to remain stable in Alberta until 2022, when the province is expected to increase the price of carbon to match the federal price of US\$ 50/tonne.

In *Ontario*, which includes the Picton cement plant formerly operated by Essroc, the provincial government implemented a cap and trade scheme similar to Quebec's in 2017. This cap and trade scheme was linked to California's cap and trade program in late 2017. In November 2016, a registration into the program was required which was done by the Picton cement plant. In 2018, a new provincial government was elected and in July 2018, the cap and trade scheme was terminated in Ontario. The Picton plant was still required to surrender its due allocations and did so by November 1, 2018 to remain in compliance with the older legislation. For 2019, the Picton plant was subject to the Federal backstop scheme which is a straight carbon tax on an output emissions basis. At this time, the Picton plant has registered with the Federal Output Based Pricing System ("**OBPS**") as an identified Energy Intensive Trade Exposed (EITE) sector, which means it will receive 95% free allocation of the sectors national average GHG intensity. Despite the Federal OBPS system having been imposed on the province, the Ontario Provincial Government has developed a provincial program: The Ontario Environmental Performance Standard ("**EPS**") is largely developed from the Federal OBPS program but excludes process emissions from the output calculation methodology. The province is currently undergoing an adequacy review of the EPS program by the Federal Government and have ensured that they would not impose an additional regulation or cost should the Federal program remain. The Picton plant has registered for the EPS program as required and has accounted for the OBPS in the plant variable cost structure.

- *Regional actions.* At the regional level, ten north-eastern and Mid-Atlantic States have formed the Regional Greenhouse Gas Initiative agreement ("**RGGI**"). RGGI calls for signatory states to hold carbon dioxide emissions from power plants constant at current levels from 2009 to 2014, followed by a 2.5% reduction each year from 2015 to 2020. Auctions for carbon dioxide allowances under the program began in September 2008 and occur on a quarterly basis. This has and will in the future result in increased energy costs for HC Group's operations in the states party to RGGI.
- In addition, four western states in the U.S., including California, and two Canadian provinces, including British Columbia, have formed the Western Climate Initiative ("**WCI**"), and six Midwestern states and one Canadian province have formed the Midwestern Greenhouse Gas Reduction Accord ("**MGGRA**"). Both groups have developed detailed recommendations and strategies for their member jurisdictions to reduce GHG emissions, including potential cap and trade systems among member jurisdictions, although it is uncertain whether or when any strategy would be implemented by either group. In particular, although the MGGRA has not been formally suspended, the participating states may no longer be pursuing it. With respect to the WCI, British Columbia has delayed implementation of its proposed cap and trade system, although California and the province of Quebec have implemented cap and trade legislation in their respective jurisdictions based on the WCI model. If implemented, such programs could have an adverse effect on HC Group operations in the participating jurisdictions.

Climate change laws in other countries

Emission trading laws in China

China has announced that it intends to cut its carbon dioxide emissions per unit of GDP by up to 45% by 2020 compared to 2005. In December 2013, Guangdong was the fourth Chinese region to start a pilot emission trading system. The pilot emission trading system is applicable for enterprises from four sectors, including cement plants, and covers more than 50% of Guangdong's GHG emissions which should be capped at 350 million tons of carbon dioxide, according to the local Development and Reform Commission.

China's National Development and Reform Commission ("**NDRC**") has announced the launch of a national carbon market for 2017 as an instrument for achieving a significant reduction in energy consumption and carbon intensity which is mentioned in the 13th Five-Year-Plan (2016-2020). This nation-wide Chinese emission trading system ("**Chinese ETS**") will replace the various regional pilot emission trading systems. About half of the industrial sectors, including the cement industry, will be covered by the Chinese ETS. The Chinese national carbon market will cover approximately twice of the carbon emissions covered by the EU ETS. The Chinese ETS was launched for power plants on December 19, 2017 and will be extended to other industries in the future.

The time table of ETS launch for cement industry or the other industries remains uncertain. Some government officials have indicated that China may have some substantial breakthroughs for establishing the ETS by the end of 2020.

In the past few years, more experience has been gained via the pilot emission trading systems in Shenzhen, Shanghai, Beijing, Guangdong, Tianjin, Hubei and Chongqing. The overall traded value for 2019 reached RMB 770 million of which Guangdong has the highest traded value. Guangdong province is also the first area to test the scheme of combining the allocated free quota (97%) and paid quota (3%).

The implementation of the nation-wide Chinese ETS, as well as the consequences of the Paris Agreement, might result in significant additional costs for HC Group due to strict caps and a reduced share of Emission Rights

allocated for free, which would require HC Group to purchase additional Emission Rights. This could have a material adverse effect on HC Group's business, financial condition and results of operations.

Worth to note that China is using various means to reduce carbon dioxide emissions besides emission trading, e.g. shutting down manufacturing enterprises, and forcing the manufacturing enterprises to reduce coal consumption year by year.

Emission trading law in Australia

The Coalition Government which was re-elected in the 2019 Australian federal election has retained the Kyoto target to reduce GHG emissions in Australia by 5% by 2020 (compared to 2000 levels) and committed to a "nationally determined contribution" for the purposes of the Paris Agreement which includes a GHG emissions reduction target of 26-28% below 2005 levels by 2030.

The centerpiece of the Coalition Government's climate change policy was and remains the Direct Action Plan, which has two components: the Emissions Reduction Fund ("**ERF**") and the Safeguard Mechanism.

The ERF is a scheme in which participants generate carbon credits known as Australian Carbon Credit Units ("**ACCUs**") through projects that result in emissions reduction or carbon abatement, with one ACCU being issued for each ton of abatement. ACCUs are purchased by the Clean Energy Regulator, which was allocated A\$ 2.55 billion for the period 2015-2020. To date, the ERF has purchased 192 million tons of abatement in nine "reverse auctions", at an average price of A\$ 12.02 per ton. Approximately A\$ 237 million of the initial ERF budget allocation remains unspent. In 2019, the ERF was rebadged as the Climate Solutions Fund ("**CSF**") as part of a A\$ 2 billion replenishment to the fund.

The Safeguard Mechanism utilizes the existing framework under the National Greenhouse Energy and Reporting Scheme. It operates as a "baseline and penalty" scheme under which existing and new industrial facilities emitting more than 100,000 metric tons of greenhouse gases have emissions baselines (based on historical emissions, which can be varied if certain criteria are met). If the baseline is exceeded the company controlling the facility's operations must purchase ACCUs to offset excess emissions. Companies that fail to avoid an excess emissions situation may be exposed to a range of discretionary, graduated enforcement options to deter non-compliance, including a final sanction in the form of a civil penalty (the maximum amount being A\$ 1.8 million). The scheme commenced on July 1, 2016. The compliance deadline for each fiscal year is February 28 (following the relevant fiscal year). It is possible that this mechanism may have cost implications for HC Group if HC's facilities trigger the threshold.

The Australian Government completed a review of its climate change policies in December 2017 and no major changes were proposed. A review by independent Australian Government body the Climate Change Authority released in December 2017 also concluded that the ERF is generally operating well overall and no systemic issues were identified. The Climate Change Authority is required to review and report on the ERF every three years. The next review will take place in 2020.

The Climate Change Authority is currently assessing how well Australia is placed to meet its 2030 emissions target under the Paris Agreement. Its recommendations and advice to the Australian Government are due to be released in early 2020.

In late 2019 the Australian Government appointed an expert panel to review the operation of the CSF and provide the Government with recommendations on how the reach of the CSF can be extended. It is expected that the expert panel will make its recommendations to the Government in early 2020.

It is also expected that the Australian Government will undertake a review of the Safeguard Mechanism in 2020. The review will consider the role of the Safeguard Mechanism, including consideration of any updates to rules and regulations, in the context of Australia's progress toward its 2030 Paris Agreement target. The review will also give consideration to when and how international units can be used and under what conditions.

As new initiatives are implemented and as new requirements are imposed to address climate change mitigation or adaptation, HC Group and its customers may be materially adversely affected.

Emission trading law in Kazakhstan

In early 2016, the emission trading system in Kazakhstan, launched in 2013 and applicable for cement plants, was temporarily suspended until 2018. In January 2018 a new National Plan to allocate Emission Rights for 2018-2020 was approved in Kazakhstan which implemented a new system of allocation. In accordance with this new allocation system each company has the choice between two allocation methods. The two modern cement plants of HC Group in Kazakhstan have opted for the allocation method based on benchmarks while the third cement plant operating wet-kilns opted for the allocation method based on historical emissions. After 2020 the Kazakhstan government intends to continue the development of the National Plan, including a further reduction for GHG emissions. Trading of Emission Rights is expected to be implemented in 2020-2021. The restarted emission trading system might result in significant additional costs for HC Group due to stricter caps and a reduced share of Emission Rights allocated for free, which would require HC Group to purchase additional Emission Rights and which could have a material adverse effect on HC Group's business, financial condition and

results of operations especially when it comes to a substantial increase of productivity in the following years from 2021 onwards. For the current period (2018 – 2020) two out of three cement plants almost reached their CO₂ emission trading quota.

Climate change regulation in India

The Indian Perform Achieve and Trade mechanism ("PAT") is a regulatory instrument to reduce specific energy consumption in energy intensive industries (including cement plants) with an associated market based mechanism to enhance the cost effectiveness through certification of excess energy savings which can be traded. The PAT mechanism is linked to India's international commitments to reduce GHG emissions. In the first PAT cycle (2012-2015) the energy reduction targets for cement plants were moderate, but for the second PAT cycle (2016-2019) the energy reduction targets have been tightened. Any further reduction of these targets might result in significant additional costs for HC Group which could have a material adverse effect on HC Group's business, financial condition and results of operations.

LITIGATION/ADMINISTRATIVE AND GOVERNMENTAL PROCEEDINGS

With the exception of regular tax audits HC Group is not aware of any pending or threatened litigation or administrative proceedings, other than those described below and in the section "*RISK FACTORS - RISKS RELATING TO HEIDELBERGCEMENT AG AS ISSUER AND GUARANTOR – 3. Legal and regulatory risks*", which could have any material adverse effects on HC Group's business activities, financial condition or results of operations or had such effects during the last 12 months. The companies in HC Group are involved in a series of court cases, arbitration and administration proceedings in Germany and in its foreign locations. Although the outcome of these proceedings is uncertain, HC Group does not anticipate that an unfavorable outcome of such proceedings would, other than as described below, have a material adverse impact on HC Group's business operations.

Anti-trust proceedings

In 2006, the Polish Competition Authority started an investigation relating to (i) an agreement on the price and other conditions of cement sale in the Polish cement market since the late 1990s, (ii) sharing the cement market and (iii) distribution and exchange of confidential business information. While Górażdże Cement S.A. filed a leniency application, Ekocem Sp. z o.o. filed a motion to close the file claiming that it was not directly active on the market. In early December 2009 the Polish Competition Authority issued a fine against i.a. Górażdże Cement S.A. of approximately € 15 million, which represents 5% of its revenue in 2008 taking into account the leniency application of the company. Ekocem Sp. z o.o. was not fined at all. Górażdże Cement S.A. filed an appeal to the competent court to claim for a reduction of the fine, which reduced the fine to approximately PLN 51.3 million (as of December 31, 2017 approximately € 11.8 million). Górażdże Cement S.A. launched a further appeal, but on March 27, 2018 the Appeal Court confirmed the fine imposed in 2009, which became due and was paid meanwhile. Górażdże Cement S.A. launched a cassation procedure to the Polish Supreme Court, but cannot guarantee it will be successful.

In addition, certain other subsidiaries of HeidelbergCement AG are subject to investigations and proceedings by antitrust and competition authorities in various countries, including India, Hungary, Romania and Spain, which are at different stages including court proceedings. HeidelbergCement AG cannot accurately predict the outcome of pending proceedings or investigations. New fines can be imposed with respect to these proceedings in Romania. The pending proceedings in Hungary, India and Spain are at the appeal stage and the cases in India do not even involve any payment obligations. In all these cases a new fine or a fine increase of more than € 20 million per case is either not possible (due to legal restrictions) or highly unlikely (based on the current knowledge of HeidelbergCement AG).

The geographic and product markets in which HeidelbergCement or certain of its subsidiaries and affiliates are active vary significantly in terms of the competitive market structure and the nature and extent of their participation in such markets. In certain markets (i) the concentration of cement, concrete and aggregate markets among a few competitors, (ii) the homogeneity of cement, concrete and aggregates and their sensitivity to transportation costs, (iii) the frequent use of restrictive provisions in supply, distribution and license agreements and/or (iv) the practice of supplying competitors and entering into joint venture and/or distribution agreements with competitors and/or their affiliates (potentially giving rise to the allegation of unlawfully coordinating competitors' behavior in the course of such relationships), may induce anti-trust authorities in those areas to initiate other anti-trust investigations or third parties to file anti-trust complaints against HeidelbergCement or certain of its subsidiaries and affiliates. HeidelbergCement has clear policies requiring compliance with applicable competition laws. However, there can be no assurance that HeidelbergCement is not a party to agreements that might be found to infringe applicable anti-trust laws in certain jurisdictions.

Lawsuits for damages suffered by customers

In Belgium ORCEM claims provisionally € 134 million civil damages (plus interest) from the 5 addressees of the decisions of the Belgian Competition Authority ("**BCA**") dated August 30, 2013 including HeidelbergCement's Belgian subsidiary S.A. Cimenteries CBR and Italcementi's former subsidiary Compagnie des Ciments Belge S.A., which has meanwhile been sold to a third party that is however indemnified by HeidelbergCement in respect of this claim. BCA found that the cement industry had colluded in a way which was contrary to competition law with regard to the adoption of the new standard for concrete allowing for a partial substitution of cement by GGBS (Ground Granulated Blast-Furnace Slag) in the production of concrete and imposed fines to that effect. Although the BCA decision did not contest the legality of the new standard for concrete and limited the infringement period to October 2003, ORCEM claims that it has not been able to effectively sell its GGBS on the market since 2003 and has incurred additional expenses to defend its interests in this regard. ORCEM requests joint and several condemnations of the defendants, i.e., if successful, ORCEM could request one of them to pay the full amount, who has then the burden and risk to claim appropriate recourse from the other defendants. The procedure regarding the civil claim was suspended pending the appeal procedure regarding the decision of the BCA. On June 30, 2016 the Brussels Court of Appeal annulled the BCA decision; the Belgian Supreme Court confirmed the annulment of the BCA decision on June 22, 2018. The definitive annulment of the BCA decision implies that ORCEM has no competition law infringement decision to rely on and will have to adduce new evidence in support of its claim. It is therefore unlikely that ORCEM will pursue its damages claim. At present, ORCEM has however not yet withdrawn its claim.

HeidelbergCement AG also faces the risk of further civil lawsuits for damages suffered by customers due to alleged excessive cement prices as a result of (the above-mentioned or other) anti-trust infringements including claims already received against its Italian subsidiary Italcementi S.p.A and Cemitaly S.p.A. due to their involvement in the Italian Grey Cement cartel that was fined in 2017.

West African Quarry Limited ("WAQL**") versus Godfred Summabe et al. litigation in Ghana, Africa and AJ Fanj vs WAQL arbitration in Ghana, Africa**

WAQL vs Godfred Summabe et al

In a lawsuit of WAQL in Ghana following a judgement in favour of 4 defendants the judge dismissed all the claims of WAQL and awarded damages against WAQL in the amount of US\$ 13.5 million for loss of profit and certain other amounts. After the awards against WAQL were granted, WAQL applied for stay of execution. The appeal for stay of execution was concluded in February 2016. The appeal court ruled that WAQL should deposit US\$ 3.5 million to the defendants, to be secured by bank guarantee from the defendants. WAQL applied for variation of this amount to US\$ 50,000 but this was rejected. WAQL has appealed to court of appeal. A Garnishee Order was placed on WAQL Bank account. WAQL lodged an application at the Supreme Court to quash such Garnishee Order.

The Supreme Court hearing on Garnishee started on May 17, 2016. The Supreme Court ruled that WAQL should join itself to the Garnishee suit at the High Court. It confirmed the Garnishee in favour of the defendants but subject to a bank guarantee. The assets of WAQL were legally attached on June 9, 2016 (closure of quarries). A motion was filed by the defendants to pierce the corporate veil of WAQL and Ghacem Limited ("**Ghacem**") (the shareholder of WAQL) and also to attach assets of Ghacem and WAQL directors. This motion was heard on October 10, 2016. Another motion was filed by the defendants against the payment of US\$ 3.5 million which was ruled in their favor. After this another motion was filed by the defendants to remove the bank guarantee on the garnishee and the court also ruled in favour of them. WAQL filed two motions: 1) To Court of Appeal and 2) To High Court to suspend judgement debt until the Court of Appeal will rule on the payment of US\$ 3.5 million. First discussions for an out of court settlement have also started.

On October 10, 2016 parties were in court regarding two issues (i) the motion by WAQL to suspend the judgment of July 31, 2015 (the full judgment debt) and (ii) the motion to attach the assets of Ghacem and the Directors of WAQL. The case was adjourned to allow for settlement discussions. After these discussions failed the judge indicated that the motion filed by WAQL to stay execution of the judgement of July 31, 2015 (the full judgement debt) will be heard soon. The court also ruled that until the said WAQL motion is heard, it would not permit the motion on piercing the corporate veil. Finally, on December 19, 2016, the Court of Appeal rejected the application for a stay of execution, saying that it was frivolous and would constitute an abuse of legal procedure. Nevertheless, on January 24, 2017, the High Court dismissed the application of plaintiffs to attach the assets of Ghacem and its directors, and to lift WAQL corporate veil, saying that there had not been any fraud.

Summabe appealed against the decision of the High Court of January 24, 2017. In its ruling of January 18, 2018, the Court of Appeal of Accra upheld the first instance court decision, and dismissed the appeal made by Summabe et al. as unmeritorious.

With respect to the merits of the case, the Court of Appeal gave its ruling on the substantive case on May 24, 2018. The three member panel unanimously ruled in favour of WAQL, setting aside all the Orders of the High Court dated July 31, 2015. The Court of Appeal further ruled that the Defendants should refund monies paid to

them by WAQL, refund assets in their possession and quashed all the awards and costs given to the Defendants in the High Court. Two of the three Defendants have filed an appeal at the Supreme Court, so that the case is still not finalized.

In parallel, on February 19, 2019, Summabe plant Ltd started a new case at the High Court (ordinary jurisdiction) against Ghacem and WAQL, arguing that Ghacem and/or WAQL had caused the loss of Summabe's mining license, and claiming compensation of US\$ 7 million plus general damages. On March 11, 2020 the High Court dismissed the action against Ghacem/WAQL in its entirety and awarded GHS 10,000 against the Plaintiff. Since an appeal is not excluded the case is not yet fully closed.

AJ Fanj vs WAQL

WAQL attempted to negotiate with AJ Fanj to suspend the limestone mining contract pending resolution of the Summabe case. WAQL and AJ Fanj started negotiation but AJ Fanj subsequently pulled out preferring to use the arbitration process, claiming as damages US\$ 9.6 million or alternatively US\$ 26.8 million.

On February 8, 2017, the arbitration management meeting was held. At the meeting, AJ Fanj indicated that it would want Ghacem to be joined to the case. An arbitration hearing was held on May 23, 2017, at which lawyers of Ghacem (a non-signatory to the arbitration clause) filed a preliminary legal objection to the joinder. The sole arbitrator then also gave claimants, AJ Fanj, the possibility to file their response.

On August 2, 2017, the sole arbitrator gave interim awards in favour of WAQL and Ghacem. The sole arbitrator awarded that Ghacem, a non-signatory to the arbitral clause cannot be joined to the arbitration by compulsion. After the interim awards, AJ Fanj appealed to the High Court, which on December 21, 2017, ruled that Ghacem should be joined to the arbitration.

Both counsels for Ghacem and WAQL are appealing against the High Court ruling, these appeals being made, respectively, in front of the Supreme Court (Certiorari) and the Court of Appeal.

The Supreme Court gave its ruling on the Certiorari on May 30, 2018 in favor of Ghacem. The Supreme Court ruled that there were patent errors in the face of the High Court judgement and that the High Court Judge also exceeded his jurisdiction. Hence the Joinder case has been dismissed.

On January 8, 2019, Fanj submitted a "notice of discontinuance with liberty to apply", which means that he is asking the arbitration tribunal to allow the withdrawal of its claim. Yet, at nearly the same time, on January 29, 2019, Fanj has initiated a new procedure against Ghacem for the same matter in front of the High Court (ordinary jurisdiction). This suit basically repeats the claims which were brought up in the arbitration process with WAQL. In its application to dismiss the case, Ghacem argued that AJ Fanj is seeking to re-litigate the issue of who the parties to the suspended limestone mining contract were, and that such issue had been finally determined by the Arbitral Tribunal and the Supreme Court. Ghacem further argued that by starting a new case on grounds that had already been decided, AJ Fanj was also abusing of the court process. The High Court has disagreed with Ghacem application to have the suit dismissed, and rejected its application. Ghacem has appealed to the decision of the High Court in front of the Court of Appeal. Simultaneously with this appeal to have the suit dismissed, the procedure on the substantive case is continuing in front of the High Court.

Lawsuits challenging the privatization process in Egypt

Lawsuits were brought locally by individuals to annul the privatizations of Helwan Cement Company S.A.E. ("**Helwan**") and Tourah Portland Cement Company S.A.E. ("**Tourah**") cement plants, which took place before the control of these companies was acquired by Suez Cement Company S.A.E. ("**Suez Cement**") (of which the Italcementi Group acquired control in 2005). Suez Cement is not involved in the lawsuit for the annulment of the Helwan privatization, since to date only the parties that actually took part in the privatization are involved; they do not include Suez Cement, which acquired Helwan from other private parties, after its privatization. Suez Cement is a party to the Tourah proceedings although, at the time of its privatization, Tourah was controlled and managed by the State of Egypt. Each of these proceedings are still at a stage of first instance judgment, and, as such, a hypothesis regarding the possible outcome of each of the proceedings, or on the impact such outcome may have on the Italcementi Group and how it may safeguard against such outcome, cannot be made at this time. Currently, the proceedings are all suspended waiting the decision of the Constitutional Court of Egypt on the validity of the new law passed by the last government ruling that the privatization lawsuits can be started only by a party to the privatization process. The law applies to all proceeding not yet decided. If the new law is confirmed valid, the above proceedings will be dismissed. The outcome of these constitutional proceedings is however not certain.

Litigation in Egypt and U.S. ("The Globe" case)

In 2002 Helwan allegedly entered into an exclusive agency contract for the export of cement with The Globe Corporation (a company based in California, U.S., today Tahaya Misr Investment Inc., hereinafter "**The Globe**" or "**Tahaya**"). This contract provided for certain commissions and fees in favor of The Globe proportional to the

volume of cement exported, in addition to a minimum guaranteed, as well as a compound rate of weekly interest in case of delayed payments of the aforesaid fees.

In 2011, The Globe filed a suit against Helwan in South Cairo Court seeking for a payment of about US\$ 17 million plus interest of US\$ 3 billion (interest accrued from year 2002). The proceeding was finally terminated by the court in December 2018. The claimant appeal was dismissed in December 2019.

A further Tahaya lawsuit filed in the same case in 2015 in California, U.S. against Helwan, Suez Cement and Italcementi was dismissed with regards to Italcementi and Suez Cement and ended in 2017 without a decision on the merits with regards to Helwan.

In September 2018 Tahaya filed a similar case before the Civil Division of North Cairo Court against Suez Cement Company where Helwan was joined to the proceedings, while attempts are being made to join indirect shareholders HeidelbergCement and Italcementi. The hearings are being repetitively postponed.

In September 2019 Tahaya filed a further similar case before the Cairo Economic Court - Appellate Circuit against Suez Cement and Helwan, which is pending.

The final outcome of this case is still uncertain.

Asbestos litigation in the U.S.

Various of HC Group's U.S. subsidiaries are defendants, typically with other non-affiliated companies, in lawsuits filed in state and federal courts by claimants who allege that they have suffered bodily injury as a result of exposure to asbestos-containing products, the manufacture of which by such subsidiaries ceased, depending on the subsidiary involved, between 1973 and 1984, which was prior to the time that these subsidiaries became members of HC Group. The majority of the claims relate to products and services related to the steel industry and various building materials.

On December 31, 2019, there were approximately 95,960 outstanding claims, an increase of approximately 143 from December 31, 2018. These outstanding claims include over 55,000 matters filed in Ohio that are currently inactive, include approximately 14,000 claims against Hanson Permanente Cement, Inc. ("**Hanson Cement**") and Kaiser Gypsum Company, Inc. ("**Kaiser Gypsum**") that are currently subject to the Bankruptcy Proceeding (see detailed description below), and include new claimants (since December 31, 2018) of approximately 1,542. The number of pending claims (including any newly filed claims) does not necessarily indicate the probable cost as the majority of claims are ultimately dismissed without payment or are non-malignancy matters that present minimal risk. In the last four years, approximately 89% of resolved claims were dismissed without payment. The gross U.S. dollar cost of resolutions, judgments, settlement and defence costs, before insurance, was US\$ 14.9 million including legal fees of US\$ 7.1 million for all of 2018 and US\$ 13.6 million including legal fees of US\$ 6.6 million for all of 2019. Net costs after insurance were US\$ 1.3 million for all of 2018 and US\$ 1.8 million for all of 2019.

HC Group accounts for the asbestos claims against its U.S. subsidiaries by providing for those costs of resolution that are both probable and reasonably estimable. HC Group estimates such aggregate, undiscounted and prior to insurance costs to be US\$ 515.1 million over the next fifteen years, which includes US\$ 344.6 million for legacy Hanson Cement and Kaiser Gypsum asbestos claims estimated over the next eight years and US\$ 170.5 million for all other legacy asbestos claims over the next fifteen years (starting at end of 2016, the U.S. subsidiaries with asbestos liabilities, i.e. Beazer East, Inc. ("**Beazer**") and Amcord, Inc. ("**Amcord**"), adopted a longer fifteen year estimation period for provisioning purposes; however, due to the automatic stay on new claims that came with the prior filing of a Bankruptcy Proceeding for Hanson Cement and Kaiser Gypsum (see detailed description below), the Hanson Cement/Kaiser Gypsum provision was not updated or changed from its value as of the date of the filing of the Bankruptcy Proceeding on September 30, 2016 and thus still reflects the prior eight year estimation period). Although future claims are likely to be resolved beyond the fifteen-year provisioning period, HC Group cannot reliably estimate the associated costs of such future claims. Therefore, no provision has been made to cover these possible liabilities. One of HC Group's subsidiaries is currently involved in an on-going insurance coverage dispute with its insurance providers which could result in increased cash outflows if certain trial court rulings were reversed on appeal and HC Group were then required to assume responsibility for any of the settlement and/or defence costs currently paid by the related insurers under the existing trial court rulings. However, an unfavourable resolution of this dispute would not impact the provision for asbestos claims because the provision does not include any recoveries from the related insurers for this subsidiary. Several factors could cause actual results to differ from current estimates and expectations, including: (i) adverse trends in the ultimate number of asbestos claims filed against HC Group's U.S. subsidiaries; (ii) increases in the cost of resolving current and future asbestos claims as a result of adverse trends relating to settlement and/or defence costs, dismissal rates and/or judgment amounts, including as a result of an increased percentage of claims being filed in jurisdictions that have historically produced higher jury verdicts; (iii) decreases in the amount of insurance available to cover asbestos claims as a result of adverse changes in the interpretation of insurance policies or the insolvency of insurers; (iv) the timing of insurance recoveries; (v) the emergence of new trends or legal theories that enlarge the scope of potential claimants; (vi) the impact of bankruptcies of other defendants whose

share of the liability may be imposed on HC Group's U.S. subsidiaries under certain state liability laws; (vii) the unpredictable aspects of the U.S. litigation process; (viii) adverse changes in the mix of asbestos-related diseases with respect to which asbestos claims are made against HC Group's U.S. subsidiaries; and (ix) potential legislative changes. Therefore, the liability of HC Group's U.S. subsidiaries for resolving asbestos claims may be materially different from current estimates.

On September 30, 2016, Hanson Cement and Kaiser Gypsum filed a voluntary petition in the U.S. Bankruptcy Court for the Western District of North Carolina seeking, among other things, to establish a trust to which all current and future asbestos personal injury claims would be channeled pursuant to section 524(g) of the U.S. Bankruptcy Code ("**Bankruptcy Proceeding**"). As a result of this Bankruptcy Proceeding, Lehigh Hanson, Inc., was required, pursuant to applicable accounting principles, to deconsolidate the two entities from Lehigh Hanson's consolidated financial statements such that these entities are also not included in HC Group's consolidated accounts. As a result of the deconsolidation, the provisions for asbestos that are on the books of Hanson Cement and Kaiser Gypsum and were previously consolidated into the Lehigh Hanson financial balance sheet were removed from the Lehigh Hanson balance sheet, although they remain on the balance sheets of Hanson Cement and Kaiser Gypsum and are separately broken out in the paragraphs above. The Bankruptcy Proceedings remain pending and during such pendency, new asbestos claims may be filed against Hanson Cement or Kaiser Gypsum only if the claimant first signs a form releasing Hanson Cement and/or Kaiser Gypsum of liability for any uninsured portion of a claim (i.e., deductibles and/or punitive damages) and, thus, because insurance also provides a defense for such claims, these new asbestos claims post no financial risk to Hanson Cement or Kaiser Gypsum.

In addition, HC Group's U.S. subsidiaries are subject to the risk of awards of punitive damages in asbestos litigation. For example, in 2011 a U.S. jury in an asbestos trial awarded punitive damages against a HC Group U.S. subsidiary Kaiser Gypsum in the amount of approximately US\$ 4 million. That verdict was appealed to an appellate court, and a decision affirming the verdict was issued in January 2016. The HC Group U.S. subsidiary filed a further appeal to a higher appellate court, which declined to accept the appeal, so the HC Group U.S. subsidiary requested a review by the U.S. Supreme Court. On October 3, 2016, the U.S. Supreme Court issued an order declining to review the case. The US\$ 4 million punitive judgment amount was subject to post-judgment interest at the statutory rate of 10% p.a. and, with interest, amounted to approximately US\$ 6.1 million at the time all appeals were exhausted.

In 2012 another U.S. jury in another asbestos trial returned a punitive damages verdict of approximately US\$ 6 million against the same U.S. subsidiary. However, following the trial, the trial judge dismissed the jury's punitive damage verdict as not supported by the evidence. The claimant in that case appealed the judge's dismissal of that punitive damages verdict, and the matter was settled in 2018 while the appeal was pending, with the resolution involving the plaintiff dropping its appeal as to the punitive damages in return for Kaiser Gypsum's insurers paying that portion of the jury's verdict that was other than punitive damages.

It is not possible to determine whether these two cases are anomalies in the historical experience of no punitive damage liabilities imposed on U.S. subsidiaries or represent a trend of increased risk of punitive damages verdicts. Punitive damages are excluded from coverage under the insurance policies of these U.S. subsidiaries and no punitive damages liabilities are assumed in the provision for asbestos liabilities. A trend of punitive damages verdicts against the U.S. subsidiaries could have a material adverse impact on HC Group's business, financial condition or results of operations.

Asbestos litigation in Italy

Nuova Sacelit S.r.l., a company controlled by HC Group's subsidiary Italcementi, operated from 1946 until early 1990s five sites for the production of asbestos cement building commodities. Actually the company is facing 6 civil claims for damages of claimants who allege that they have suffered bodily injury as a result of exposure to asbestos-containing products, which lead to a cumulative estimated risk of € 0.6 million (plus interest). In addition, the company is also facing 66 cases out of trial leading to a cumulative estimated risk of € 6.3 million (plus interest).

According to assumptions of the involved medical and legal consultants, new cases of bodily injury from asbestos (mesothelioma; lung cancer) could occur until 2030. Due to the dimension of Nuova Sacelit S.r.l. between 10 and 30 new cases are expected.

Environmental contamination claims in the U.S.

HC Group is responsible for addressing environmental contamination at present and former U.S. operating sites, or portions thereof, currently or previously owned and/or leased by current or former acquired HC Group companies that are the subject of claims, investigations, monitoring and/or remediation under CERCLA, the U.S. Federal Resource Conservation and Recovery Act or comparable U.S. state statutes or agreements with third parties. In addition, a number of present and former HC Group operating units (responsibility for which remains with an acquired HC Group entity) have been named as potentially responsible parties (PRPs) at off-site landfills under CERCLA or comparable state statutes.

HC Group makes provisions for environmental obligations related to such sites in the U.S., including legal and other costs on an undiscounted basis. A provision is recorded for costs associated with environmental assessments and remediation efforts when HC Group determines such costs represent a probable loss and are capable of being reasonably estimated. Factors which could cause actual costs to differ materially from HC Group's current estimates and provisions include, but are not limited to: (i) identification of additional sites requiring environmental investigation and/or remediation; (ii) new releases at or the discovery of unknown adverse conditions at sites; (iii) development of additional facts at sites, particularly relating to the extent of the contamination and any potential or alleged adverse effects on neighboring properties; (iv) third party claims in excess of estimates; (v) changes to regulatory requirements or investigatory or clean-up standards; (vi) changes in remediation techniques or the length of any ongoing monitoring; (vii) the failure of other responsible parties to pay their share of the costs and (viii) any other significant variations to assumptions made in support of these cost estimates.

Not all of HC Group's liabilities arising out of historical businesses and activities are covered by indemnity or insurance. Further, with respect to certain liabilities (including some described further below) that are covered by insurance there may be significant limitations on some of that insurance coverage, including (i) self-insured retention amounts, (ii) retrospective premiums, (iii) exclusion of punitive damages and (iv) other defences that have been or may be raised by insurance carriers.

The Bankruptcy Proceeding initiated in 2016 (see "*HeidelbergCement AG — Litigation/Administrative and Governmental Proceeding — Asbestos litigation in the U.S.*") will also address resolution of environmental liabilities that may exist as to Hanson Cement and/or Kaiser Gypsum. The Bankruptcy Court set a bar date of September 12, 2017 for assertion of non-asbestos claims against Hanson Cement and Kaiser Gypsum. The Oregon Department of Environmental Quality ("**ODEQ**") asserted a proof of claim in the Bankruptcy Proceeding against Kaiser Gypsum, and a second proof of claim was filed on ODEQ's behalf against Hanson Cement, each of which asserted ODEQ's right to claim from the Debtors in the Bankruptcy Proceeding some share of environmental cleanup costs that ODEQ estimated at up to US\$ 150 million at and near a manufacturing facility in St. Helens, Oregon, that was formerly owned and operated by Kaiser Gypsum. The amount and validity of ODEQ's claim with respect to this site is subject to challenge and determination in the Bankruptcy Proceeding and in late 2018 Hanson Cement and Kaiser Gypsum filed an objection to ODEQ's claim. In 2019, a settlement was reached with ODEQ whereby, at the time Hanson Cement and Kaiser Gypsum's bankruptcy plan of reorganization is confirmed and becomes effective, ODEQ will be paid US\$ 67 million in return for a complete release and discharge of further liability at the site. Further, it is the position of Hanson Cement and Kaiser Gypsum that the costs of environmental cleanup at this site are subject to insurance coverage under certain historical policies issued to Hanson Cement and which are the subject of insurance coverage litigation filed by Hanson Cement and Kaiser Gypsum and pending in the state courts of the US State of Oregon. Hanson Cement and Kaiser Gypsum have reached settlements in principle with most of these historical insurers whereby, at the time Hanson Cement and Kaiser Gypsum's bankruptcy plan of reorganization is confirmed and becomes effective, the insurers will have funded approximately US\$ 50.1 million to be used to pay, among others, the ODEQ, and the insurers will have received a complete release and discharge for further insurance coverage responsibility in connection with the site.

In January 2017, a complaint was filed by the City of Emeryville, California, against "Hanson, a British Corporation" (intended for Hanson Building Materials Limited ("**HBML**")) and others outside the HC Group in the U.S. District Court of the Northern District of California. The complaint alleges historic land and groundwater contamination and seeks injunctions, clean-up costs of an estimated US\$ 35-65 million and unspecified damages under CERCLA and RCRA. The contamination is alleged to have been caused by industrial activities at a property in Emeryville in the early and mid-1900s, the liabilities for which were owned by Marchant Calculating Machine Company. Through a series of historic corporate transactions, the liabilities are alleged to have been transferred to a Hanson UK company in the late 1980s and the claimant asserts that HBML should now be deemed liable for such liabilities. Research to date indicates that no Hanson UK company or subsidiary owned or operated at the relevant land at any stage and that no Hanson UK legal entity holds any liabilities. HBML has filed a response to the complaint, defending against the claim on the basis that there are no legitimate grounds for either asserting any personal or specific jurisdiction over HBML or for piercing the corporate veil on the basis of the alter ego doctrine. On January 30, 2019, after the parties had conducted limited discovery on jurisdictional issues, the judge issued an order denying HBML's motion to dismiss the complaint for lack of personal jurisdiction. Additional discovery is now underway and HBML continues to defend the claim.

Spanish environmental case

On May 14, 2014, further to a lawsuit initiated by a local association, the Court of Málaga issued a decision declaring null and void the Integrated Environmental Permit ("**IEP**") released in 2007 to Sociedad Financiera Y Minera S.A. ("**FYM**"), Italcementi's Spanish subsidiary, to revamp the Málaga plant on the ground that the competent Regional Administration Body wrongly issued the IEP without requiring a prior Environmental Impact Assessment ("**EIA**"). FYM challenged the decision before the Court of Appeal and, in parallel, applied for a new permit through the performance of an EIA which was finally granted by Regional Administration on April 7, 2017. However, this new IEP has been challenged again by the same local association. FYM believes that the claim of

the local association against the new IEP will not be successful. In addition, on October 30, 2017, the High Court of Andalusia annulled the Special Plan (urban planning instrument) that supported the facilities of the Málaga cement plant. The judgment has been appealed by FYM. However, in order to avoid risks and to ensure the legal standing of the Málaga plant, FYM will initiate the procedure for the approval of a new Special Plan. FYM believes that its chances to win the appeal or at least to get the approval for a new Special Plan covering the cement plant area are good. Although FYM believes that ongoing preventive measures will prevent the resolution from causing any material effect on the operations of the plant, a temporary stoppage of operations at the Málaga cement plant is theoretically possible, and therefore cannot be fully excluded which might have a material adverse impact on HC Group's financial condition and results of operations.

Italian environmental cases

In January 2018, four non-governmental organizations (NGOs) and the municipality of Santeramo in Colle (the "**Plaintiffs**") initiated a lawsuit before the administrative court of Potenza challenging the IEP released in November 2017 to the Matera cement plant of Italcementi. The challenged decision includes both the regular renewal of the IEP and the intended increase of the use of alternative fuels in the Matera plant. The plaintiffs also requested the suspension of the effects of the entire IEP during the ongoing lawsuit, but in a first hearing held in March 2018, the judge recommended that the Plaintiffs should withdraw this request. By the end of September 2018, the administrative court rejected the appeal of the NGOs. Just before the deadline at the end of March 2019, two of the four NGOs and the municipality of Santeramo al Colle went on appeal against that court decision and furthermore, they demanded the suspension of the effects of the sentence and of the IEP during the ongoing second degree lawsuit. At the hearing of May 23, 2019, the plaintiffs withdrew the request for the suspension of the effects of the first sentence and asked for a prompt setting of the date for the beginning of the trial. The court rejected the request for the prompt trial and stated that the Court will decide at its own discretion. Next hearing will be fixed within one year. Meanwhile, the Matera cement plant can continue to use the alternative fuels in the increased quantity under the challenged IEP. Notwithstanding the continuing activity, the risk is that after the trial an unfavourable sentence could be handed down by the court.

On September 28, 2017, the public prosecutors of Lecce and Taranto ordered the sequestration of some equipment and areas of the Taranto cement plant of Cemitaly and also of the adjacent steel factory in Taranto delivering slag to Cemitaly's cement plant. The sequestration order was issued because the public prosecutor considers: 1.) slag as waste and not as a by-product and, consequently, considers the delivery of slag from the steel factory to Cemitaly's plant for the production of cement as not being in compliance with laws governing waste disposal. 2.) fly ash as hazardous waste. The competent criminal judge granted an "incidente probatorio" (evidence gathering functional as proof) to establish if slag is waste or a by-product and the hazardous nature of fly ash. During this ongoing court proceeding Cemitaly was temporarily authorized by the court judge to use the slag already delivered by the steel factory for cement production. This temporary authorization expired by the end of May 2018 but the stocked slag exhausted by end of February 2018 and therefore the cement production was stopped for the time being. The Lecce public prosecutor then accepted a petition that was put forward by the lawyers for the defence, acknowledging the conclusions presented by the experts appointed for evidence gathering on first of August 2018 and annulled the precautionary seizure order in September 2018 including the Cemitaly plant. Now fly ash and slag can be used in the cement production. Following the hearing that took place on April 15, 2019 (in order to listen to the experts appointed by the criminal judge), the public prosecutor reserved the right to decide whether to archive the criminal proceeding or to prosecute the 7 Cemitaly employees and the company, in addition to all the others (ENEL and ILVA). On August 30, 2019 the parties (Cemitaly employees and the company) presented their defence. In October 2019 the public prosecutor of Lecce demanded the indictment ("rinvio a giudizio") both for the 7 Cemitaly employees (for illegal trafficking of waste), and for the company, according to legislative decree 231/2001. The public prosecutor demanded the indictment only relating to fly ash that was purchased from ENEL. Slag issue is extracted from the criminal proceeding and will probably be closed by the public prosecutor.

The preliminary hearing of the criminal trial is scheduled for April 8, 2020.

On June 19, 2019, the public prosecutor of Cagliari (Sardinia) notified a decree of inspection to the director of the Samatzai cement plant and to the manager of the related quarries. Investigations for environmental crimes (environmental pollution and non-authorized waste management) are still ongoing. The inspection activities are also ongoing in the quarries and concern the clinker and cement produced in the plant, raw materials, pet coke, waste water, fly ash, waste and collection of analysis done in the plant and in the related quarries. The former director of the plant and the quarry head are under investigation. There is a corporate criminal liability risk for the company (Legislative Decree 231/2001). In June, July, August, September, October 2019 and February 2020 the judicial police sequestered some properties: Three properties of Ital Real Estate S.r.l. (a subsidiary of Italcementi that meanwhile bought some properties of Italcementi) and seven properties of Italcementi are under sequestration measures. But there is no impact on plant operations for that time. On September 4, 2019, the public prosecutor of Cagliari appointed his technical consultant, in order to technically investigate the status of the area. The former director of the plant and the quarry manager appointed their own technical consultant. On October 23 and 24, 2019, a site inspection by the IEP authority took place.

Investigations against one manager of Calcestruzzi (Head of Aggregates), for environmental pollution and non-authorized waste-water discharge, relating to the aggregate plant in quarry Castellaro – Isoverde, supplying COCIV works in Liguria region. On March 29, 2019 some dirty water leaked into a creek. In December 2019 and in February 2020 a similar incident repeated itself for different reasons. There is corporate criminal liability risk for the company (Legislative Decree 231/2001). On January 7, 2020 a part of the waste-water discharge system was sequestered. A discontinuation of the operations cannot be fully excluded.

The Sicilian "Piano regionale di Qualità dell'aria", adopted in 2018 by the Sicily Region and challenged by Italcementi on October 15, 2018 before the administrative court of Palermo, also includes Isola delle Femmine plant. The regional plan foresees emission reductions (in particular NOx and dust) within 2022 and a second step within 2027. On January 23, 2020 the Sicily region notified Italcementi of the start of the IEP review (according to art. 29 *octies* comma 4 lett. d) of 152/2006 Law) including the regional plan measures. These regional measures are difficult to apply to the Isola delle Femmine plant because they require equipment modifications which are difficult to find on the market and whose efficacy is uncertain. In addition, there are high costs of the investment (CAPEX) and the management (OPEX) is involved. The worst risk is that plant activity will end within 2027. Italcementi will challenge the last notification before the court.

OUTLOOK

Assumptions underlying HC Group's outlook

HC Group's business is subject to a multitude of external influencing factors that are beyond its control. These include geopolitical, macroeconomic, and regulatory factors. This outlook is based on the assumption that the global political environment will not undergo any critical changes during the outlook period. In particular, this implies that the tensions between the USA and China and Iran, as well as the political and religious conflicts in the Middle East, will not have a global impact on HC Group's business activity and that there is no fundamental destabilization of the eurozone nor economic distortion as a result of Brexit. The spreading of the coronavirus (COVID-19 – Coronavirus SARS-CoV-2) together with any measures aimed at mitigating a further expansion thereof does already cause significant deterioration in some economies with a negative effect on the overall global economic development. At the time of preparation of this Prospectus, there is no reliable, quantitative forecast of the COVID-19 impact available. Given the current circumstances, a considerable negative impact on economic growth is expected.

Regarding exchange rates, for 2020 HC Group anticipates a slight appreciation in the value of the euro against certain currencies from emerging countries in comparison with 2019.

The European Commission shall publish that update list in the Official Journal of the European Union within 30 days following such update.

⁵ A "BBB-" rating is considered investment grade with expectations of default risk currently low. However, the capacity for payment of financial commitments might be impaired by adverse business and economic conditions.

⁷ An S&P credit rating of BBB- is considered investment grade with adequate capacity to meet financial commitments, but more subject to adverse economic conditions.

HC Group expects energy prices to remain volatile in the outlook period. Uncertainties exist regarding the oil price due to OPEC's production policy, the conflict between the USA and Iran, as well as the economic development of China after the coronavirus outbreak. The latter could also influence the coal price in Asia, in particular. The development of the electricity prices in the EU depends on the coal price as well as on the CO₂ prices in the EU emissions trading system.

Furthermore, HC Group has not taken into account any material changes to balance sheet positions or any associated expense or earnings positions in HC Group's outlook below that may result from changes to macroeconomic parameters, such as discount rates, interest rates, inflation rates, changes to future salary developments, or similar.

General economic development

Due to the fast spreading of the coronavirus (COVID-19 - Coronavirus SARS-CoV-2), the International Monetary Fund ("IMF") has adjusted its January forecast in March 2020. Now, IMF expects negative growth of the global economy in 2020 and recovery in 2021.

Development of the construction industry

The development of economic output is also reflected in the expectations for the construction industry.

Just as the general economic forecasts are subject to uncertainties, so is the development of the construction industry during 2020. Although some markets should develop positively, the actual extent of growth is highly uncertain mostly due to the spreading of the coronavirus. The spreading of the coronavirus (COVID-19 — Coronavirus SARS-CoV-2) together with any measures aimed at mitigating a further expansion thereof, does already cause significant deterioration in some economies in general and on the markets in which HC Group operates in particular. It is affecting HC Group's production sites including temporary closures and demand for HC Group's products in certain countries (i.e. Italy, France, Spain, the US, India among others - as per March 2020). Crucial factors also include local economic development, the amount of public investment, and the development of credit costs for property financing. In the growth markets of the emerging countries, the continuation of solid economic growth plays an important role, as does income available for private residential construction. Political and military conflicts can also influence the development.

Industry development

At the start of 2018, the European Commission approved the reorganization of the EU Emissions Trading System for the fourth trading period from 2021 to 2030. Consequently, HC Group anticipates a further tightening of the allocation of CO₂ emission rights in this period. For the current trading period, which ends in 2020, the entire HeidelbergCement Group has a sufficient number of emission rights also due to the free allocation policy. However, the individual countries have either a surplus or a lack of emission rights.

WÄHRUNG, STÜCKELUNG, FORM UND EIGENTUMSRECHT, DEFINITIONEN

(1) *Währung und Stückelung.* Diese Serie von Schuldverschreibungen der [HeidelbergCement AG] [HeidelbergCement Finance Luxembourg S.A.] (die "**Emittentin**") wird in [festgelegte Währung] (die "**festgelegte Währung**") im Gesamtnennbetrag von [Falls die Globalurkunde eine NGN ist, ist folgendes anwendbar: (vorbehaltlich § 1 Absatz 4)] [Gesamtnennbetrag] (in Worten: [Gesamtnennbetrag in Worten]) am [Begebungstag] (der "**Begebungstag**") in

(2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber.

(3) *Vorläufige Globalurkunde – Austausch.*

- (a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in der festgelegten Stückelung, die durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die Unterschriften ordnungsgemäß bevollmächtigter Vertreter der Emittentin und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.
- (b) Die vorläufige Globalurkunde wird frühestens an einem Tag (der "**Austauschtag**") gegen die Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegt. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß diesem Absatz (b) dieses § 1 Absatz 3 auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, sind nur außerhalb der Vereinigten Staaten (wie in § 6 definiert) zu liefern.

(4) *Clearing System.* Jede Schuldverschreibungen verbriefende Globalurkunde wird von einem oder im Namen eines Clearing Systems verwahrt. Bei Rückzahlung oder einer Zinszahlung bezüglich der durch die Globalurkunde verbrieften Schuldverschreibungen bzw. bei Kauf und Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten über Rückzahlung und Zahlung bzw. Kauf und Löschung bezüglich der Globalurkunde *pro rata* in die Unterlagen der ICSDs eingetragen werden, und dass, nach dieser Eintragung, vom Gesamtnennbetrag der in die Register der ICSDs aufgenommenen und durch die Globalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen abgezogen wird.]

Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden, und die Globalurkunde eine CGN ist, ist folgendes anwendbar

[Falls die vorläufige Globalurkunde eine NGN ist, ist folgendes anwendbar: Bei Austausch eines Anteils von ausschließlich durch eine vorläufige Globalurkunde verbrieft Schuldverschreibungen wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs *pro rata* in die Register der ICSDs aufgenommen werden.]

["**Bezugsperiode**" bezeichnet den Zeitraum ab dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) oder von jedem Zinszahlungstag (einschließlich) bis zum nächsten Zinszahlungstag (ausschließlich).] **[Im Falle eines ersten oder letzten kurzen Zinsberechnungszeitraumes ist folgendes anwendbar:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gilt der **[Fiktiver Zinszahlungstag]** als Zinszahlungstag.] **[Im Falle eines ersten oder letzten langen Zinsberechnungszeitraumes ist folgendes anwendbar:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gelten der **[Fiktive Zinszahlungstage]** als Zinszahlungstage].]

Im Fall der Anpassung des Zinssatzes ist folgendes anwendbar

[(5) *Anpassung des Zinssatzes.*

- (a) Der auf die Schuldverschreibungen zu zahlende Zinssatz wird von Zeit zu Zeit im Fall einer Zinserhöhenden Ratingänderung oder einer Zinssenkenden Ratingänderung (jeweils wie nachstehend definiert) folgendermaßen angepasst:

- (b) diese Verpflichtung nicht durch vernünftige, der Emittentin oder der Garantin zur Verfügung stehende Maßnahmen vermieden werden kann,

wobei eine solche Kündigung nicht früher als 90 Tage vor dem frühestmöglichen Termin erfolgen darf, an dem die Emittentin oder die Garantin verpflichtet wäre, solche zusätzlichen Beträge in Bezug auf die Schuldverschreibungen zu zahlen, falls zu diesem Zeitpunkt eine Zahlung fällig wäre.

Vor Bekanntmachung der Kündigung gemäß diesem § 5 Absatz 2 hat die Emittentin der Emissionsstelle eine Bescheinigung vorzulegen, die von zwei Mitgliedern des Vorstands der Emittentin bzw. von zwei Mitgliedern des Vorstands der Garantin unterzeichnet ist, und die feststellt, dass die Emittentin zur Kündigung berechtigt ist und die Umstände auflistet, aus denen hervorgeht, dass die Voraussetzungen des Kündigungsrechts der Emittentin vorliegen sowie ein Gutachten anerkannter, unabhängiger Rechtsberater darüber, dass die Emittentin oder die Garantin verpflichtet ist oder sein wird, diese zusätzlichen Beträge als Folge einer solchen Änderung oder Ergänzung zu zahlen.

Die gemäß diesem § 5 Absatz 2 gekündigten Schuldverschreibungen werden zu ihrem Rückzahlungsbetrag zurückgezahlt zuzüglich bis zum Rückzahlungstag (ausschließlich) aufgelaufener Zinsen.

"**relevante Steuerjurisdiktion**" bezeichnet die Bundesrepublik Deutschland und das Großherzogtum Luxemburg.]

Im Fall von Schuldverschreibungen, die in Euro denominated sind und die Emittentin das Wahlrecht zur vorzeitigen Rückzahlung zum Vorzeitigen Rückzahlungsbetrag (Call) hat, ist folgendes anwendbar

[(3) *Vorzeitige Rückzahlung nach Wahl der Emittentin.*

- (a) Die Emittentin ist berechtigt, alle ausstehenden Schuldverschreibungen insgesamt oder teilweise, mit einer Kündigungsfrist von mindestens **[Mindestkündigungsfrist]** und höchstens **[Höchstkündigungsfrist]** Tagen zu einem in der Kündigungserklärung bestimmten Tag (der "**Wahl-Rückzahlungstag (Call)**") gegenüber der Emissionsstelle und gemäß § 14 gegenüber den Gläubigern nach ihrer Wahl jederzeit vorzeitig zu kündigen und diese zum Vorzeitigen Rückzahlungsbetrag (Call) zurück zu zahlen.

Der "**Vorzeitige Rückzahlungsbetrag (Call)**" (welcher den Gläubigern gemäß § 14 und der Emissionsstelle mitzuteilen ist) einer Schuldverschreibung entspricht der Summe aus:

- (i) dem Nennbetrag der zurückzuzahlenden Schuldverschreibung; und
- (ii) der Anwendbaren Prämie (wie nachstehend definiert); und
- (iii) etwaigen bis zum Tag der Rückzahlung aufgelaufenen und nicht gezahlten Zinsen.

Der Vorzeitige Rückzahlungsbetrag (Call) wird von der Berechnungsstelle berechnet.

"**Anwendbare Prämie**" bezeichnet die etwaige Differenz zwischen

- (i) dem Barwert zum Tag der Rückzahlung
 - (A) des Nennbetrags der zurückzuzahlenden Schuldverschreibung; zuzüglich
 - (B) aller bis zum Fälligkeitstag (ausschließlich) vorgesehenen und noch fällig werdenden Zinszahlungen, abgezinst mit der Benchmark-Verzinsung zuzüglich **[●]**%, und
- (ii) dem Nennbetrag der Schuldverschreibung zum Tag der Rückzahlung.

Die "**Benchmark Verzinsung**" entspricht der am Rückzahlungs-Berechnungstag bestehenden Rendite bis zur Fälligkeit einer Bundesanleihe der Bundesrepublik Deutschland mit einer festen Laufzeit (wie offiziell bestimmt und in den jeweils zum Rückzahlungs-Berechnungstag zuletzt verfügbaren Finanzinformationen der Bundesrepublik Deutschland veröffentlicht – oder falls solche Finanzinformationen nicht veröffentlicht oder zugänglich sind, wie aus anderen von der Emittentin ordnungsgemäß ausgewählten, öffentlich zugänglichen vergleichbaren Marktdaten ersichtlich), die der Zeitspanne vom Tag der Rückzahlung bis zum Fälligkeitstag am ehesten entspricht. Sollte jedoch diese Zeitspanne vom Tag der Rückzahlung bis zum jeweiligen Fälligkeitstag nicht der Festlaufzeit einer solchen Bundesanleihe der Bundesrepublik Deutschland entsprechen, für die eine wöchentliche Durchschnittsrendite angegeben wird, so ist die Benchmark-Verzinsung im Wege der linearen Interpolation (berechnet auf das nächste Zwölftel eines Jahres) aus den wöchentlichen Durchschnittsrenditen solcher Bundesanleihen der Bundesrepublik Deutschland zu ermitteln, für die solche Renditen angegeben werden. Soweit die Zeitspanne vom Tag der Rückzahlung bis zum Fälligkeitstag geringer als ein Jahr ist, so ist jedoch die wöchentliche Durchschnittsrendite einer tatsächlich gehandelten Bundesanleihe der Bundesrepublik Deutschland angepasst auf eine Festlaufzeit von einem Jahr anzuwenden.

"**Rückzahlungs-Berechnungstag**" ist der sechste Zahltag vor dem Tag, an dem die Schuldverschreibungen infolge eines der in diesem § 5 Absatz 3 genannten Ereignisse zurückgezahlt werden.

- (b) Die Kündigung ist den Gläubigern der Schuldverschreibungen durch die Emittentin gemäß § 14 bekannt zu machen und der Emissionsstelle mindestens 15 Tage vorher zu schicken und sollte zumindest Angaben enthalten über:
- (i) die zurückzuzahlende Serie von Schuldverschreibungen;

- (ii) ob diese Serie ganz oder teilweise zurückgezahlt wird und im letzteren Fall den Gesamtnennbetrag der zurückzuzahlenden Schuldverschreibungen;
 - (iii) den Wahl-Rückzahlungstag (Call)[.]; sowie
 - (iv) den Namen und die Geschäftsstelle der Institution, welche durch die Emittentin als Berechnungsstelle ernannt wurde].
- (c) Die durch eine Globalurkunde verbrieften Schuldverschreibungen werden in Übereinstimmung mit den Regeln des betreffenden Clearing Systems ausgewählt, und eine etwaige teilweise Rückzahlung wird in den Registern von CBL und Euroclear nach deren Ermessen entweder als Pool-Faktor oder als Reduzierung des Gesamtnennbetrags wiedergegeben.]

Falls die Emittentin das Wahlrecht hat, die Schuldverschreibungen vorzeitig zu festgelegten Wahlrückzahlungsbeträgen (Call) zurückzuzahlen, ist folgendes anwendbar

[[4)] Vorzeitige Rückzahlung nach Wahl der Emittentin.

- (a) Die Emittentin kann, nachdem sie gemäß Absatz (b) gekündigt hat, die Schuldverschreibungen insgesamt oder teilweise am/an den Wahl-Rückzahlungstag(en) (Call) oder jederzeit danach bis zum jeweils nachfolgenden Wahl-Rückzahlungstag (ausschließlich) zum/zu den Wahl-Rückzahlungsbetrag/beträgen (Call), wie nachstehend angegeben, nebst etwaigen bis zum jeweiligen Rückzahlungstag (ausschließlich) aufgelaufenen Zinsen zurückzahlen.

- (b) Die Kündigung ist den Gläubigern der Schuldverschreibungen durch die Emittentin gemäß § 14 bekannt zu geben. Sie beinhaltet die folgenden Angaben:
- (i) die zurückzuzahlende Serie von Schuldverschreibungen;
 - (ii) eine Erklärung, ob diese Serie ganz oder teilweise zurückgezahlt wird und im letzteren Fall den Gesamtnennbetrag der zurückzuzahlenden Schuldverschreibungen; und

"Wesentliche Tochtergesellschaft" bezeichnet eine voll konsolidierte Tochtergesellschaft der HeidelbergCement AG, (i) deren Nettoumsatz gemäß ihres geprüften, nicht konsolidierten Jahresabschlusses (bzw. wenn die betreffende Tochtergesellschaft selbst konsolidierte Jahresabschlüsse erstellt, deren konsolidierter Umsatz gemäß ihres geprüften, konsolidierten Jahresabschlusses) (bereinigt um Umsätze innerhalb des HeidelbergCement-Konzerns), der für die Zwecke des letzten geprüften Konzernabschlusses der HeidelbergCement AG benutzt wurde, mindestens fünf Prozent des Gesamtumsatzes der HeidelbergCement AG und deren Konzerntochtergesellschaften auf konsolidierter Basis betragen hat, wie aus dem geprüften, Konzernabschluss der HeidelbergCement AG ersichtlich oder (ii) deren Bilanzsumme gemäß ihrem geprüften, nicht konsolidierten Jahresabschluss (oder wenn die betreffende Konzerntochtergesellschaft selbst konsolidierte Abschlüsse erstellt, deren konsolidierte Bilanzsumme gemäß ihrem konsolidierten, geprüften Jahresabschluss) (bereinigt um Umsätze innerhalb des HeidelbergCement-Konzerns), der für die Zwecke des letzten geprüften, Konzernabschlusses benutzt wurde, mindestens fünf Prozent der konsolidierten Bilanzsumme der HeidelbergCement AG und ihrer konsolidierten Tochtergesellschaften betragen hat, wie aus dem geprüften Konzernabschluss der HeidelbergCement AG ersichtlich. Ein Bericht der Wirtschaftsprüfer der HeidelbergCement AG darüber, ob ihrer Meinung nach eine konsolidierte Tochtergesellschaft zu einem bestimmten Zeitpunkt eine Wesentliche Tochtergesellschaft ist oder war, ist, sofern nicht ein offensichtlicher Irrtum vorliegt, für alle Beteiligten endgültig und bindend.

(2) *Benachrichtigung.* Eine Benachrichtigung, einschließlich einer Kündigung der Schuldverschreibungen gemäß Absatz 1 ("**Kündigungserklärung**"), ist entweder (a) in Textform (z.B. eMail oder Fax) oder schriftlich in deutscher oder englischer Sprache zusammen mit dem Nachweis in Form einer Bescheinigung der Depotbank (wie in § 15 Absatz [3] definiert) oder in einer anderen geeigneten Weise, dass der Benachrichtigende zum Zeitpunkt der Benachrichtigung ein Gläubiger der betreffenden Schuldverschreibung ist, an die bezeichnete Geschäftsstelle der Emissionsstelle zu schicken oder (b) bei seiner Depotbank zur Weiterleitung an die Emittentin über das Clearing System zu erklären.

(3) *Quorum.* In den Fällen gemäß Absatz 1 (a), (b), (c), (e), (g) [(h), (i), und/oder (j)] wird eine Kündigungserklärung, sofern nicht bei deren Eingang zugleich einer der in Absatz 1 (d) und (f) bezeichneten Kündigungsgründe vorliegt, erst wirksam, wenn bei der Emissionsstelle Kündigungserklärungen von Gläubigern im Nennbetrag von mindestens 10% des Gesamtnennbetrages der zu diesem Zeitpunkt noch insgesamt ausstehenden Schuldverschreibungen eingegangen sind.

§ 10

ÄNDERUNG DER ANLEIHEBEDINGUNGEN, GEMEINSAMER VERTRETER, ÄNDERUNG DER GARANTIE

(1) *Änderung der Anleihebedingungen.* Die Gläubiger können entsprechend den Bestimmungen des Gesetzes über Schuldverschreibungen aus Gesamtemissionen (Schuldverschreibungsgesetz - "**SchVG**") durch einen Beschluß mit der in Absatz 2 bestimmten Mehrheit über einen im SchVG zugelassenen Gegenstand eine Änderung der Anleihebedingungen mit der Emittentin vereinbaren. Die Mehrheitsbeschlüsse der Gläubiger sind für alle Gläubiger gleichermaßen verbindlich. Ein Mehrheitsbeschluß der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn, die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

(2) *Mehrheitserfordernisse.* Die Gläubiger entscheiden mit einer Mehrheit von 75 % der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Anleihebedingungen nicht geändert wird und die keinen Gegenstand der § 5 (3) Nr. 1 bis Nr. 8 des SchVG betreffen, bedürfen zu ihrer Wirksamkeit einer einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte.

(3) *Beschlüsse der Gläubiger.* Beschlüsse der Gläubiger werden nach Wahl der Emittentin im Wege der Abstimmung ohne Versammlung nach § 18 SchVG oder einer Gläubigerversammlung nach § 9 SchVG gefasst.

(4) *Leitung der Abstimmung.* Die Abstimmung wird von einem von der Emittentin beauftragten Notar oder, falls der gemeinsame Vertreter zur Abstimmung aufgefordert hat, vom gemeinsamen Vertreter geleitet.

(5) *Stimmrecht.* An Abstimmungen der Gläubiger nimmt jeder Gläubiger nach Maßgabe des Nennwerts oder des rechnerischen Anteils seiner Berechtigung an den ausstehenden Schuldverschreibungen teil.

(6) *Gemeinsamer Vertreter.*

Falls kein gemeinsamer Vertreter in den Anleihebedingungen bestellt wird, ist folgendes anwendbar

[Die Gläubiger können durch Mehrheitsbeschluß zur Wahrnehmung ihrer Rechte einen gemeinsamen Vertreter für alle Gläubiger bestellen.]

Im Fall der Bestellung des gemeinsamen Vertreters in den Anleihebedingungen, ist folgendes anwendbar

[Gemeinsamer Vertreter ist **[Gemeinsamer Vertreter]**. Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.]

Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluß eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluß sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

Im Fall von HC Finance Lux begebenen Schuldverschreibungen ist folgendes anwendbar:

[(7) *Änderung der Garantie.* Die oben aufgeführten auf die Schuldverschreibungen anwendbaren Bestimmungen finden sinngemäß auf die Bestimmungen der Garantie Anwendung.]

- (e) die Nachfolgeschuldnerin sich verpflichtet hat, jeden Gläubiger hinsichtlich solcher Steuern, Abgaben oder behördlichen Lasten freizustellen, die einem Gläubiger bezüglich der Ersetzung auferlegt werden; und
- (f) die Emittentin eine Bestätigung bezüglich der betroffenen Rechtsordnungen von anerkannten Rechtsanwälten bei einer dafür beauftragten Stelle verfügbar macht, dass die Bestimmungen in den vorstehenden Unterabsätzen (a), (b), (c), (d) und (e) erfüllt wurden.

Die Anleihebedingungen der Schuldverschreibungen

(Deutsche Fassung)

§ 1

WÄHRUNG, STÜCKELUNG, FORM UND EIGENTUMSRECHT, DEFINITIONEN

(1) *Währung und Stückelung.* Diese Serie von Schuldverschreibungen der [HeidelbergCement AG] [HeidelbergCement Finance Luxembourg S.A.] (die "Emittentin") wird in [festgelegte Währung] (die "festgelegte Währung") im Gesamtnennbetrag von [Falls die Globalurkunde eine NGN ist, ist folgendes anwendbar: (vorbehaltlich § 1 Absatz 4)] [Gesamtnennbetrag] (in Worten: [Gesamtnennbetrag in Worten]) am [Begebungstag] (der "Begebungstag") in einer Stückelung von [festgelegte Stückelung] (die "festgelegte Stückelung") begeben.

(2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber.

(3) *Vorläufige Globalurkunde – Austausch.*

(a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in der festgelegten Stückelung, die durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die Unterschriften ordnungsgemäß bevollmächtigter Vertreter der Emittentin und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.

(b) Die vorläufige Globalurkunde wird frühestens an einem Tag (der "**Austauschtag**") gegen die Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegt. Ein solcher Austausch darf nur nach Vorlage von Bescheinigungen gemäß U.S. Steuerrecht erfolgen, wonach der oder die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind (ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten). Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieft Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß diesem Absatz (b) dieses § 1 Absatz 3 auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, sind nur außerhalb der Vereinigten Staaten (wie in § 6 definiert) zu liefern.

(4) *Clearing System.* Jede Schuldverschreibungen verbrieftende Globalurkunde wird von einem oder im Namen eines Clearing Systems verwahrt. "**Clearing System**" bedeutet folgendes: [Clearstream Banking AG, Neue Börsenstr. 1, 60487 Frankfurt am Main, Bundesrepublik Deutschland ("**CBF**")] [Clearstream Banking S.A., 42 Avenue JF Kennedy, 1855 Luxembourg, Großherzogtum Luxemburg ("**CBL**") und Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brüssel, Belgien ("**Euroclear**"), (CBL and Euroclear jeweils ein "**ICSD**" und zusammen die "**ICSDs**") sowie jeder Funktionsnachfolger.

Im Fall von
Schuldverschreibungen,
die im
Namen der ICSDs

verwahrt werden,
und die
Globalurkunde
eine NGN ist, ist
folgendes
anwendbar

[Die Schuldverschreibungen werden in Form einer new global note ("**NGN**") ausgegeben und von einem common safekeeper im Namen beider ICSDs verwahrt.

Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind maßgeblicher Nachweis über den

Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen, und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bescheinigung mit dem Betrag der so verbrieften Schuldverschreibungen ist ein maßgeblicher Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

Bei Rückzahlung oder einer Zinszahlung bezüglich der durch die Globalurkunde verbrieften Schuldverschreibungen bzw. bei Kauf und Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten über Rückzahlung und Zahlung bzw. Kauf und Löschung bezüglich der Globalurkunde *pro rata* in die Unterlagen der ICSDs eingetragen werden, und dass, nach dieser Eintragung, vom Gesamtnennbetrag der in die Register der ICSDs aufgenommenen und durch die Globalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen abgezogen wird.]

[Falls die vorläufige Globalurkunde eine NGN ist, ist folgendes anwendbar: Bei Austausch eines Anteils von ausschließlich durch eine vorläufige Globalurkunde verbrieft Schuldverschreibungen wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs *pro rata* in die Register der ICSDs aufgenommen werden.]

Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden, und die Globalurkunde eine CGN ist, ist folgendes anwendbar

[Die Schuldverschreibungen werden in Form einer classical global note ("**CGN**") ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt.]

(5) *Gläubiger von Schuldverschreibungen*. "**Gläubiger**" bedeutet jeder Inhaber eines Miteigentumsanteils oder anderen Rechts an den Schuldverschreibungen.

(4) *Mitteilung von Zinssatz und Zinsbetrag*. Die Berechnungsstelle wird veranlassen, dass der für die jeweilige Zinsperiode geltende Zinssatz, Zinsbetrag und

[die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 360.]

Im Fall der Anpassung des Zinssatzes ist folgendes anwendbar

[(8) *Anpassung des Zinssatzes.*

(a) Die auf die Schuldverschreibungen für die jeweiligen Zinsperioden jeweils zu zahlenden Zinssätze werden von Zeit zu Zeit im Fall einer Zinserhöhenden Ratingänderung oder einer Zinssenkenden Ratingänderung (jeweils wie nachstehend definiert) folgendermaßen angepasst:

- (i) vorbehaltlich der nachstehenden Absätze (b) und (c), werden die jeweiligen Zinssätze für die jeweiligen Zinsperioden jeweils um **[●]**% *per annum* mit Wirkung vom ersten Zinszahlungstag (einschließlich) am oder nach dem Tag einer solchen Zinserhöhenden Ratingänderung bis (jedoch ausschließlich) zum Fälligkeitstag (wie nachstehend definiert) (vorbehaltlich der Regelungen im nachstehenden Absatz (ii)) erhöht, falls eine Ratingagentur die Herunterstufung des Ratings der langfristigen erstrangigen unbesicherten Verbindlichkeiten der Emittentin unter BBB- (S&P und Fitch) und/oder Baa3 (Moody's), beziehungsweise eines entsprechenden Werts im Fall ihrer jeweiligen Nachfolgeunternehmen oder

⁽¹¹⁾ Der gesetzliche Verzugszinssatz beträgt für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz, §§ 288 Absatz 1, 247 Absatz 1 BGB.

einer anderen beauftragten Ratingagentur, öffentlich bekannt macht (eine "**Zinserhöhende Ratingänderung**");

- (ii) vorbehaltlich der nachstehenden Absätze (b) und (c), werden die jeweiligen Zinssätze für die jeweiligen Zinsperioden mit Wirkung vom ersten Zinszahlungstag (einschließlich) am oder nach dem Tag einer solchen Zinssenkenden Ratingänderung bis (jedoch ausschließlich) zum Fälligkeitstag (wie nachstehend definiert) nicht mehr gemäß Absatz (i) um jeweils **[●]**% *per annum* erhöht, falls nach einer Zinserhöhenden Ratingänderung eine Ratingagentur die Heraufstufung des Ratings der langfristigen erstrangigen unbesicherten Verbindlichkeiten der Emittentin öffentlich bekannt macht, so dass das Rating BBB- (S&P und Fitch) und/oder Baa3 (Moody's), beziehungsweise eines entsprechenden Werts im Fall ihrer jeweiligen Nachfolgeunternehmen oder einer anderen beauftragten Ratingagentur, oder höher ist (eine "**Zinssenkende Ratingänderung**");

falls mehr als eine Ratingagentur von oder im Namen der Emittentin beauftragt wurde, gilt das niedrigere Rating als maßgeblich für die Zwecke von (i) und (ii) oben.

"**Ratingagentur / Ratingagenturen**" ist / sind jede der Ratingagentur(en) von S&P Global Ratings Europe Limited ("**S&P**"), Moody's Investors Services Limited ("**Moody's**") und Fitch Rating, Inc. ("**Fitch**") und ihre jeweiligen Nachfolgeunternehmen sowie jede andere Ratingagentur von internationalem Rang, die von oder im Namen der Emittentin beauftragt worden ist.

- (b) Falls eine Zinserhöhende Ratingänderung und danach eine Zinssenkende Ratingänderung während derselben Zinsperiode eintreten, wird der auf die Schuldverschreibungen zu zahlende jeweilige Zinssatz infolge dieses Ereignisses weder erhöht noch gesenkt.
- (c) Soweit mehrere Zinserhöhende oder Zinssenkende Ratingveränderungen eintreten, führen jeweils nur der erste Eintritt einer Zinserhöhenden Ratingänderung und einer Zinssenkenden Ratingänderung zu einer Anpassung der jeweiligen Zinssätze.
- (d) Die Emittentin wird sich nach besten Kräften bemühen, ein Rating für langfristige erstrangige unbesicherte Verbindlichkeiten von einer Ratingagentur zu erhalten. Im Fall, dass kein solches Rating von einer Ratingagentur erteilt wird, handelt es sich um eine Zinserhöhende Ratingänderung infolgedessen sich die auf die Schuldverschreibungen für die jeweiligen Zinsperioden jeweils zu zahlenden Zinssätze mit Wirkung vom ersten Zinszahlungstag (einschließlich) am oder nach dem Tag einer solchen Zinserhöhenden Ratingänderung bis (jedoch ausschließlich) zum Fälligkeitstag (wie nachstehend definiert) jeweils um **[●]**% *per annum* erhöhen.
- (e) Die Emittentin wird der Emissionsstelle unverzüglich jede Zinserhöhende oder Zinssenkende Ratingänderung mitteilen und veranlassen, dass der Eintritt einer Zinserhöhenden oder Zinssenkenden Ratingänderung unverzüglich nachdem die Emittentin davon Kenntnis erlangt, jedoch spätestens am siebten darauf folgenden Tag, gemäß § 14 bekannt gemacht wird.]

[(9)](a) *Ersatzrate*. Stellt die Emittentin (in Abstimmung mit der Berechnungstelle) fest, dass vor oder an einem Zinsfestlegungstag ein Ersatzrate-Ereignis eingetreten ist, wird die Jeweilige Festlegende Stelle (i) die Ersatzrate, (ii) die etwaige Anpassungsspanne und (iii) die Ersatzrate-Anpassungen (wie jeweils in § 3[(9)](b)(aa) bis (cc) definiert) zur Bestimmung des Zinssatzes für die auf den Zinsfestlegungstag bezogene Zinsperiode und jede nachfolgende Zinsperiode (vorbehaltlich des nachfolgenden Eintretens etwaiger weiterer Ersatzrate-Ereignisse) festlegen und die Emittentin, sofern relevant, und die Berechnungsstelle darüber informieren. Die Anleihebedingungen gelten mit Wirkung ab dem relevanten Zinsfestlegungstag (einschließlich) als durch die Ersatzrate-Anpassungen geändert (einschließlich einer etwaigen Änderung dieses Zinsfestlegungstags, falls die Ersatzrate-Anpassungen dies so bestimmen). Der Zinssatz ist dann die Ersatzrate (wie nachfolgend definiert) angepasst durch die etwaige Anpassungsspanne [[zuzüglich] [abzüglich] der Marge (wie vorstehend definiert)].

Die Emittentin wird den Gläubigern die Ersatzrate, die etwaige Anpassungsspanne und die Ersatzrate-Anpassungen unverzüglich nach einer solchen Festlegung gemäß § 14 mitteilen. Darüber hinaus wird die Emittentin [das Clearing System] [die gemeinsame Verwahrstelle im Namen beider ICSDs] auffordern, die Anleihebedingungen zu ergänzen oder zu ändern, um die Ersatzrate-Anpassungen wiederzugeben, indem sie der Globalurkunde die vorgelegten Dokumente in geeigneter Weise beifügt.

- (cc) "**Anpassungsspanne**" bezeichnet die Differenz (positiv oder negativ) oder eine Formel oder Methode zur Bestimmung einer solchen Differenz, welche nach Festlegung der Jeweiligen Festlegenden Stelle auf die Ersatzrate anzuwenden ist, um eine Verlagerung des wirtschaftlichen Wertes zwischen der Emittentin und den Gläubigern, die ohne diese Anpassung infolge der Ersetzung des Referenzsatzes durch die Ersatzrate entstehen würde (einschließlich aber nicht ausschließlich infolgedessen, dass die Ersatzrate eine risikofreie Rate ist), soweit sinnvollerweise möglich, zu reduzieren oder

auszuschließen. Bei der Festlegung der Anpassungsspanne sind die Relevanten Leitlinien (wie nachstehend definiert) zu berücksichtigen.

- (dd) "**Jeweilige Festlegende Stelle**" bezeichnet
- (i) die Emittentin, wenn die Ersatzrate ihrer Meinung nach offensichtlich ist und als solches ohne vernünftigen Zweifel durch einen Investor, der hinsichtlich der jeweiligen Art von Schuldverschreibungen, wie beispielsweise diese Schuldverschreibungen, sachkundig ist, bestimmbar ist; oder

- (hh) "**Ersatzrate-Anpassungen**" bezeichnet solche Anpassungen der Anleihebedingungen, die als folgerichtig festgelegt werden, um die Funktion der Ersatzrate zu ermöglichen (wovon unter anderem Anpassungen an der anwendbaren Geschäftstagekonvention, der Definition von Geschäftstag, am Zinsfestlegungstag, am Zinstagequotient oder jeder Methode oder Definition, um die Ersatzrate zu erhalten oder zu berechnen, erfasst sein können). Bei der Festlegung der Ersatzrate-Anpassungen sind die Relevanten Leitlinien (wie vorstehend definiert) zu berücksichtigen.
- (c) *Kündigung*. Können eine Ersatzrate, eine etwaige Anpassungsspanne oder die Ersatzrate-Anpassungen nicht gemäß § 3[(9)](a) und (b) bestimmt werden, ist der Referenzsatz in Bezug auf den relevanten Zinsfestlegungstag der für die zuletzt vorangehende Zinsperiode bestimmte Referenzsatz. Der Rückzahlungsbetrag in Bezug auf jede Schuldverschreibung (der "**Rückzahlungsbetrag**") entspricht dem Nennbetrag der Schuldverschreibung.

§ 5 VORZEITIGE RÜCKZAHLUNG

[PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**") or in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2016/97/EU, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**Prospectus Regulation**"). *Einfügen für Schuldverschreibungen, die nach den Leitlinien zu komplexen Schuldtiteln und strukturierten Einlagen (ESMA/2015/1787) (die "**ESMA Leitlinien**") nicht ESMA komplex sind (also, Schuldverschreibungen deren Anleihebedingungen keine Kündigungsrechte seitens der Emittentin und/oder der Anleihegläubiger enthalten).*

⁽³⁾ Include for notes that are ESMA complex pursuant to the ESMA Guidelines. This list may need to be amended, for example, if advised sales are deemed necessary. If there are advised sales, a determination of suitability and appropriateness will be necessary. In addition, if the Notes constitute "complex" products, pure execution services to retail clients are not permitted without the need to make the determination of appropriateness required under Article 25(3) of MiFID II.

Einfügen im Fall von Schuldverschreibungen, die nach den ESMA Leitlinien ESMA komplex sind. Diese Liste muss gegebenenfalls angepasst werden, z.B. wenn Anlageberatung für erforderlich gehalten wird. Im Fall der Anlageberatung ist die Bestimmung der Geeignetheit und Angemessenheit notwendig. Wenn die Schuldverschreibungen "komplexe" Produkte sind, ist außerdem die bloße Ausführung von Kundenaufträgen von Privatanlegern ohne Bestimmung der Angemessenheit nach Art. 25(3) MiFID II nicht zulässig.

⁽⁴⁾ If there are advised sales, a determination of suitability will be necessary.

Im Fall von Beratungsverkäufen ist eine Angemessenheitsprüfung erforderlich.

²⁰ To be determined in consultation with the Issuer. In the case of Notes in bearer form offered to the public, in whole or in part, in the Federal Republic of Germany, or distributed, in whole or in part, to non-qualified investors in the Federal Republic of Germany, German will be the controlling language. ²² There is no obligation to complete Part II of the Final Terms in its entirety in case of Notes with a Specific Denomination of at least € 100,000 or its equivalent in any other currency, provided that such Notes will not be listed on any regulated market within the European Economic Area. To be completed in consultation with the Issuer.

Es besteht keine Verpflichtung, Teil II der Endgültigen Bedingungen bei Schuldverschreibungen mit einer festgelegten Stückelung von mindestens € 100.000 oder dem Gegenwert in einer anderen Währung vollständig auszufüllen, sofern diese Schuldverschreibungen nicht an einem geregelten Markt innerhalb des Europäischen Wirtschaftsraums zum Handel zugelassen werden. In Absprache mit der Emittentin auszufüllen.

²³ See paragraph "Use of Proceeds" in the Prospectus. If reasons for the offer are different from the disclosure in the Prospectus include those reasons here. Not to be completed in case of Notes with a Specified Denomination of at least EUR 100,000.

Siehe Abschnitt "Use of Proceeds" im Prospekt. Sofern die Gründe für das Angebot von den im Prospekt beschriebenen abweichen, sind die Gründe hier anzugeben. Nicht auszufüllen bei Schuldverschreibungen mit einer festgelegten Stückelung von mindestens EUR 100.000.

Eurosystem eligibility²⁶**EZB-Fähigkeit**

Intended to be held in a manner which would allow Eurosystem eligibility
Soll in EZB-fähiger Weise gehalten werden

[Yes/No]
[Ja/Nein]

[Note that the designation "yes" in the case of an NGN means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognized as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.]

[Whilst the designation is specified as "no" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes in the case of an NGN may then be deposited with one of the ICSDs as common safekeeper. Note that this does not necessarily mean that the Notes will then be recognized as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]

[Es wird darauf hingewiesen, dass "ja" im Fall einer NGN hier lediglich bedeutet, dass die Schuldverschreibungen nach ihrer Begebung bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden; es bedeutet nicht notwendigerweise, dass die Schuldverschreibungen bei ihrer Begebung, zu irgendeinem Zeitpunkt während ihrer Laufzeit oder während ihrer gesamten Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. Eine solche Anerkennung ist abhängig davon, ob die Zulassungskriterien des Eurosystems erfüllt sind.]

[Auch wenn die Bezeichnung mit Datum dieser Endgültigen Bedingungen "nein" lautet, sollten die Zulassungskriterien des Eurosystems sich zukünftig dergestalt ändern, dass die Schuldverschreibungen diese erfüllen können, könnten die Schuldverschreibungen im Fall einer NGN dann bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden. Es wird darauf hingewiesen, dass dies jedoch nicht notwendigerweise bedeutet, dass die Schuldverschreibungen dann zu irgendeinem Zeitpunkt während ihrer Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. Eine solche Anerkennung ist abhängig davon, ob die Zulassungskriterien des Eurosystems erfüllt sind.]

In diesem Fall wird die Garantin außer in den nachstehend aufgeführten Ausnahmefällen diejenigen zusätzlichen Beträge zahlen, die erforderlich sind, damit die an jeden Gläubiger einer Schuldverschreibung aus dieser Garantie zu zahlenden Nettobeträge nach einem solchen Abzug oder Einbehalt den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Gläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht im Hinblick auf Steuern und Abgaben, die:

(a) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die Garantin aus den von ihr zu leistenden Zahlungen von Kapital oder Zinsen einen Abzug oder Einbehalt vornimmt; oder

(b) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Gläubigers zu der Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder

(c) aufgrund (i) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (ii) einer zwischenstaatlichen Vereinbarung über deren Besteuerung, an der die Bundesrepublik Deutschland oder die Europäische Union beteiligt ist, oder (iii) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung oder Vereinbarung umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder

(d) wegen einer Rechtsänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung wirksam wird.

(4) Die Garantin verpflichtet sich und stellt im Hinblick auf ihre Tochterunternehmen sicher (die "**Verpflichtungserklärung**"),

(3) All payments under this Guarantee shall be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of Germany or any political subdivision or any authority thereof or therein having power to tax unless such withholding or deduction is required by law. In such event, the Guarantor shall pay such additional amounts as shall be necessary in order that the net amounts received by the Holder of any Note pursuant to this Guarantee, after such withholding or deduction, shall equal the respective amounts of principal and interest which would otherwise have been receivable by the Holders in the absence of such withholding or deduction; except that no such Additional Amounts shall be payable on account of any taxes or duties which:

(a) are payable by any person acting as custodian bank or collecting agent on behalf of a Holder, or otherwise in any manner which does not constitute a deduction or withholding by the Guarantor from payments of principal or interest made by it, or

(b) are payable by reason of the Holder having, or having had, some personal or business connection with Germany and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, Germany, or

(c) are deducted or withheld pursuant to (i) any European Union Directive or Regulation concerning the taxation of interest income, or (ii) any international treaty or understanding relating to such taxation and to which Germany or the European Union is a party, or (iii) any provision of law implementing, or complying with, or introduced to conform with, such Directive, Regulation, treaty or understanding, or

DESCRIPTION OF RULES REGARDING RESOLUTIONS OF HOLDERS

The Terms and Conditions pertaining to a certain issue of Notes provide that the Holders may agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed in a meeting (*Gläubigerversammlung*) or by taking votes without a meeting. Any such resolution duly adopted by resolution of the Holders shall be binding on each Holder of the respective issue of Notes, irrespective of whether such Holder took part in the vote and whether such Holder voted in favor of or against such resolution.

In addition to the provisions included in the Terms and Conditions of a particular issue of Notes, the rules regarding resolutions of Holders are substantially set out in a Schedule to the Agency Agreement in the German language together with an English translation. If the Notes are for their life represented by Global Notes, the Terms and Conditions of such Notes fully refer to the rules pertaining to resolutions of Holders in the form of such Schedule to the Agency Agreement. Under the German Act on Debt Securities (*Schuldverschreibungsgesetz* – "**SchVG**"), these rules are largely mandatory, although they permit in limited circumstances supplementary provisions set out in the Terms and Conditions.

Resolutions of the Holders with respect to the Notes can be passed in a meeting (*Gläubigerversammlung*) in accordance with § 5 et seqq. SchVG or by way of a vote without a meeting pursuant to § 18 and § 9 et seqq. SchVG (*Abstimmung ohne Versammlung*).

The following is a brief summary of some of the statutory rules regarding the convening and conduct of meetings of Holders and the taking of votes without meetings, the passing and publication of resolutions as well as their implementation and challenge before German courts.

Rules regarding Holders' Meetings

Meetings of Holders may be convened by the Issuer or the Holders' Representative, if any. Meetings of Holders must be convened if one or more Holders holding 5% or more of the outstanding Notes so require for specified reasons permitted by statute.

Meetings may be convened not less than 14 days prior to the date of the meeting. The Terms and Conditions may provide that attendance and exercise of voting rights at the meeting may be made subject to prior registration of Holders. The Terms and Conditions will indicate what proof will be required for attendance and voting at the meeting. The place of the meeting in respect of a German issuer is the place of the issuer's registered office, provided, however, that where the relevant Notes are listed on a stock exchange within the European Union or the European Economic Area, the meeting may be held at the place of such stock exchange.

The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Holder may be represented by proxy. A quorum exists if Holders' representing by value not less than 50% of the outstanding Notes. If the quorum is not reached, a second meeting may be called at which no quorum will be required, provided that where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25% of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. In the case of Notes represented by one or more Global Notes, resolutions which amend or supplement the Terms and Conditions have to be implemented by supplementing or amending the relevant Global Note(s).

In insolvency proceedings instituted in Germany against an Issuer, a Holders' Representative, if appointed, is obliged and exclusively entitled to assert the Holders' rights under the Notes. Any resolutions passed by the Holders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of the statute or the Terms and Conditions, Holders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

Specific Rules regarding Votes without Meeting

In the case of resolutions to be passed by Holders without a meeting, the rules applicable to Holders' Meetings apply *mutatis mutandis* to any taking of votes by Holders without a meeting, subject to certain special provisions. The following summarises such special rules.

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) where a common representative of the Holders (the "**Holders' Representative**") has been appointed, the Holders' Representative if the vote was solicited by the Holders' Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Holders' votes shall set out the period within which votes may be cast. During such voting period, the Holders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Holder's entitlement to cast a vote based on evidence provided by such Holder and shall prepare a list of the Holders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Holders. Within one year following the end of the voting period, each Holder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Holder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, he shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Holder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

TAXATION WARNING

THE TAX LEGISLATION OF THE MEMBER STATE OF PROSPECTIVE PURCHASERS OF NOTES, THE ISSUER'S AND/OR THE GUARANTOR'S COUNTRIES OF INCORPORATION MAY HAVE AN IMPACT ON THE INCOME RECEIVED FROM THE NOTES. PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS APPLICABLE IN GERMANY, THE NETHERLANDS, THE GRAND DUCHY OF LUXEMBOURG, THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND, THE REPUBLIC OF IRELAND, THE REPUBLIC OF AUSTRIA AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS OR OTHERWISE SUBJECT TO TAXATION.

SELLING RESTRICTIONS

General

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that it will comply with all applicable laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes the Prospectus and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuers nor the Guarantor nor any other Dealer shall have any responsibility therefor.

United States of America (the "United States")

- (a) Each Dealer has acknowledged that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act (as defined below). Each Dealer has represented and agreed that it has not offered or sold, and will not offer or sell, any Note constituting part of its allotment within the United States except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, each Dealer further has represented and agreed that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to a Note.
- (b) From and after the time that the Issuer notifies the Dealers in writing that it is no longer able to make the representation set forth in Clause 4(1)(m)(i) of the Amended and Restated Programme Agreement, each Dealer (i) acknowledges that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act; (ii) has represented and agreed that it has not offered and sold any Notes, and will not offer and sell any Notes, (x) as part of its distribution at any time and (y) otherwise until 40 days after the later of the commencement of the offering and closing date, only in accordance with Rule 903 of Regulation S under the Securities Act; and accordingly, (iii) has further represented and agreed that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note, and it and they have complied and will comply with the offering restrictions requirements of Regulation S under the Securities Act; and (iv) has also agreed that, at or prior to confirmation of any sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The securities covered hereby have not been registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons by any person referred to in Rule 903 (b)(2)(iii) (i) as part of its distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the closing date, except in either case in accordance with Regulation S under the Securities Act. Terms used above have the meanings given to them by Regulation S under the Securities Act."

- (c) Each Dealer who has purchased Notes of a Tranche hereunder (or in the case of a sale of a Tranche of Notes issued to or through more than one Dealer, each of such Dealers as to the Notes of such Tranche purchased by or through it or, in the case of a syndicated issue, the relevant Lead Manager) shall determine and notify to the Fiscal Agent the completion of the distribution of the Notes of such Tranche. On the basis of such notification or notifications, the Fiscal Agent agrees to notify such Dealer/Lead Manager of the end of the distribution compliance period with respect to such Tranche.

Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

- (d) Each Dealer has represented and agreed that it has not entered and will not enter into any contractual arrangement with respect to the distribution or delivery of Notes, except with its affiliates or with the prior written consent of the Issuer.
- (e) Notes will be issued in accordance with the provisions of United States Treasury Regulation § 1.163-5(c)(2)(i)(D) (the "**D Rules**"), (or any successor rules in substantially the same form as the D Rules for purposes of Section 4701 of the U.S. Internal Revenue Code) as specified in the applicable Final Terms.

In addition, each Dealer has represented and agreed that:

- (i) except to the extent permitted under the D Rules, (i) it has not offered or sold, and during the restricted period will not offer or sell, Notes to a person who is within the United States or its possessions or to a United States person, and (ii) such Dealer has not delivered and will not deliver within the United States or its possessions Notes that are sold during the restricted period;
- (ii) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
- (iii) if such Dealer is a United States person, it represents that it is acquiring the Notes for purposes of resale in connection with their original issuance and if such Dealer retains Notes for its own account, it will only do so in accordance with the requirements of the D Rules;
- (iv) with respect to each affiliate that acquires from such Dealer Notes for the purposes of offering or selling such Notes during the restricted period, such Dealer either (x) repeats and confirms the representations and agreements contained in sub-clauses (i), (ii) and (iii) on such affiliate's behalf or (y) agrees that it will obtain from such affiliate for the benefit of the Issuer the representations and agreements contained in sub-clauses (i), (ii) and (iii).

Terms used in this paragraph (e) have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.

European Economic Area and the United Kingdom of Great Britain and Northern Ireland ("United Kingdom")

Unless the Final Terms in respect of any Notes specify the "*Prohibition of Sales to EEA and UK Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area or in the United Kingdom. For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - (ii) a customer within the meaning of Directive 2016/97/EU, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Regulation; and
- (b) the expression an "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Final Terms in respect of any Notes specify "*Prohibition of Sales to EEA and UK Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, in relation to each Member State of the European Economic Area and the United Kingdom (each, a "**Relevant State**"), that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant State, except that it may make an offer of such Notes to the public in that Relevant State:

- (a) if the Final Terms in relation to the Notes specify an offer of those Notes other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or

(d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation;

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes, and the expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129, as amended.

United Kingdom of Great Britain and Northern Ireland

Each Dealer has represented and agreed, that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21 (1) of the FSMA does not apply to the Issuer or any Guarantor; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Republic of Italy

The offering of the Notes has not been registered pursuant to Italian securities legislation and, accordingly, no Notes may be offered, sold or delivered, nor may copies of the Base Prospectus or of any other document relating to the Notes be distributed in the Republic of Italy, except:

- (a) to qualified investors (*investitori qualificati*), as defined pursuant to Article 100 of Legislative Decree No. 58 of February 24, 1998, as amended (the "**Financial Services Act**") and Article 34-ter, first paragraph, letter b) of CONSOB Regulation No. 11971 of May 14, 1999, as amended from time to time ("**Regulation No. 11971**"); or
- (b) in other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Financial Services Act and Article 34-ter of Regulation No. 11971.
