1. GENERAL DESCRIPTION OF THE PROGRAM

1.1 General

Under this €12,500,000,000 Debt Issuance Program, the relevant Issuer may from time to time issue Notes to one or more of the following dealers: Banca Bilbao Vizcaya Argentaria, S.A., Banco Santander, S.A., Barclays Bank Ireland PLC, BNP Paribas, Commerzbank Aktiengesellschaft, Credit Suisse Securities (Europe) Limited, Credit Suisse Securities Sociedad de Valores S.A., Deutsche Bank Aktiengesellschaft, Goldman Sachs Bank Europe SE, J.P. Morgan AG, and Société Générale, and any additional dealer appointed under the Program from time to time by the Issuer(s), which appointment may be for a specific issue or on an ongoing basis (together, the *Dealers*).

Deutsche Bank Aktiengesellschaft acts as arranger in respect of the Program (the *Arranger*).

BNP Paribas acts as listing agent (the *Listing Agent*).

Deutsche Bank Aktiengesellschaft will act as fiscal agent (the *Fiscal Agent*) and paying agent (the *Paying Agent*).

The maximum aggregate principal amount of the Notes from time to time outstanding under the Program (the *Program Amount*) will not exceed €12,500,000,000 (or nearly equivalent in another currency). The Issuers may increase the Program Amount in accordance with the terms of the dealer agreement (as defined herein) from time to time.

1.2 Issue of Notes

Notes issued by Fresenius Ireland or Fresenius Ireland II will have the benefit of a guarantee (the *Guarantee*) given by Fresenius SE & Co. KGaA. The Guarantee constitutes an irrevocable, unsecured and unsubordinated obligation of the Guarantor ranking *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor.

Notes may be issued on a continuous basis in Tranches, each Tranche consisting of Notes which are identical in all respects. One or more Tranches, which are expressed to be consolidated and forming a single series and are identical in all respects, but which may have different issue dates, interest commencement dates, issue prices and dates for first interest payments may form a series (*Series*) of Notes. Further Notes may be issued as part of existing Series.

Notes will be issued in such denomination as may be agreed between the relevant Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, €1,000, and, if in any currency other than euro, an amount in such other currency of at least €1,000 at the time of the issue of Notes. Subject to any applicable legal or regulatory restrictions, and requirements of relevant central banks, Notes may be issued in euro or any other currency.

Notes may be issued at an issue price, which is at par or at a discount to, or premium over, par, as stated in the relevant Final Terms. The issue price for Notes to be issued will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine an issue price, all to correspond to the yield.

The yield for Notes with fixed interest rates is calculated in accordance with the International Capital Markets Association (the *ICMA*) method and based on the issue price of the Notes. The ICMA method determines the effective interest rate of notes taking into account accrued interest on a daily basis.

The specific terms of each Tranche will be set forth in the applicable Final Terms. The Final Terms of Notes listed on the official list and admitted to trading on the regulated market of the Luxembourg Stock Exchange or publicly offered in the Grand Duchy of Luxembourg will be displayed on the website of the Luxembourg Stock Exchange (www.bourse.lu). In the case of Notes listed on any other stock exchange or publicly offered in one or more member states of the EEA (other than the Grand Duchy of

Luxembourg), the Final Terms will be displayed on the website of Fresenius (www.fresenius.com) under the section “Investor Relations”.

1.3 Distribution of Notes

The Notes are freely transferable in accordance with the rules and regulations of the relevant clearing system and may be offered to qualified and non-qualified investors.

Notes will be issued with a maturity of twelve months or more.

1.4 Listing and Admission to Trading

Application has been made to the Luxembourg Stock Exchange for Notes issued under the Program to be listed on the official list of the Luxembourg Stock Exchange and to be admitted to trading on the regulated market of the Luxembourg Stock Exchange.

The Program provides that Notes may be listed on other or further stock exchanges, as may be agreed between the relevant Issuer and the relevant Dealer(s) in relation to each issue. Notes may further be issued under the Program which will not be listed on any stock exchange.

2. RISK FACTORS

Before deciding to purchase any Notes, investors should carefully review and consider the following risk factors and the other information contained in this Prospectus or incorporated by reference into this Prospectus. The occurrence of one or more of these risks alone or in combination with other circumstances may have a material adverse effect on the business and cash flows, financial condition and results of operations of Fresenius, Fresenius SE & Co. KGaA, Fresenius Ireland or Fresenius Ireland II and may affect Fresenius SE & Co. KGaA's and/or Fresenius Ireland's and/or Fresenius Ireland II's ability to fulfill their obligations under the Notes and the Guarantee, as applicable.

The following description is limited to risk factors which Fresenius SE & Co. KGaA, Fresenius Ireland and Fresenius Ireland II consider to be specific and material. Fresenius SE & Co. KGaA, Fresenius Ireland and Fresenius Ireland II describe only those risk factors they are currently aware of and which could impair their ability to fulfil their respective obligations under the Notes and the Guarantee, as applicable. Investing in the Notes could involve additional risks and uncertainties of which Fresenius SE & Co. KGaA, Fresenius Ireland and Fresenius Ireland II may not be currently aware, or which Fresenius SE & Co. KGaA, Fresenius Ireland and Fresenius Ireland II may currently not consider material on the basis of their regular risk assessments. The risks to which the business of Fresenius is exposed may result in inaccuracies in risk assessments or other forward-looking statements.

The Notes may not be a suitable investment for all investors and each potential investor in the Notes must determine the suitability of the investment in light of its own circumstances and financial condition. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Notes and the Guarantee, the merits and risks of investing in the Notes and the information contained in this Prospectus;*
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;*
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the reference currency of the investor;*
- understand thoroughly the Terms and Conditions and the Guarantee; and*
- be able to evaluate (either alone or with the assistance of a financial adviser) possible scenarios that may affect its investment and its ability to bear the applicable risks.*

2.1 Risks relating to the Fresenius Group's Business and Industry

2.1.1 Overall Economic, Political, Social and Geopolitical Risks

2.1.1.1 Adverse global economic conditions and disruptions in financial markets, in particular those caused by the current global COVID-19 pandemic, could have an adverse effect on our businesses.

Fresenius is dependent on the conditions of the financial markets and the global economy. In order to pursue its business, the Group is reliant on capital, as are our customers and commercial health care insurers. Limited or more expensive access to capital in the financial markets could adversely affect our businesses and profitability. Among other things, the potential decline in, or redirection to other purposes of, federal and state revenues may create additional pressures to contain or reduce reimbursements for our services from public payors around the world, including Medicare and Medicaid in the United States, and other government sponsored programs in the United States and other countries around the world.

In the United States, increasing job losses or changes in the unemployment rate may result in a smaller percentage of our patients being covered by an employer group health plan and a larger percentage being

covered by lower paying Medicare and Medicaid programs. To the extent that payors are negatively impacted by a decline in the economy, we may experience further pressure on prices, a further slowdown in collections, and a reduction in the amounts we expect to collect.

Devaluation of currencies and worsening economic conditions, including inflationary cost increases in various markets in connection with deteriorating country ratings also increase the risk of a goodwill impairment, which could lead to a partial or total goodwill write-off in the affected cash generating units.

In addition, uncertainty in the financial markets could adversely affect the variable interest rates payable under our credit facilities or could make it more difficult to obtain or renew such facilities or to obtain other forms of financing in the future.

The rapid global spread of the COVID-19 pandemic and the measures taken to contain it have led to a substantial deterioration in conditions for the global economy and financial markets have been significantly impacted. This development also had a negative impact on our business and operating result in 2020. We expect further negative effects on our business and operating result in 2021, in particular in the first half of the year. The COVID-19 pandemic may also continue to have adverse effects on our financial condition, liquidity and recoverability of our assets, including goodwill. The COVID-19 pandemic poses significant risks to the health of our patients as well as to our supply chains, our production, the sales of our products and the provision of our services. Negative effects on our business could be caused, for example, by a continued or even higher excess mortality among our dialysis patients, by restrictions on the business activities of our suppliers, customers and ourselves, including our personnel, resulting from regulatory requirements, orders and conditions at regional, national or international level. The unavailability of critical staff, increased costs, for example, from protective measures in our clinics and production sites, and a significant diversion of public health resources away from our products and services to address the COVID-19 pandemic could also negatively impact our business.

U.S. and state governments have taken broad, temporary actions in response to the COVID-19 pandemic that have affected the regulatory and legal environment. These measures include temporary exceptions and changes to certain laws, regulations and government reimbursement and financing programs. For example, the Coronavirus Aid, Relief and Economic Security Act (the **CARES Act**) was passed to mitigate the negative financial impacts of the COVID-19 pandemic, including on the health care sector. Additional funds provided under the CARES Act, as well as other COVID-19-related assistance funds, are providing some financial support to our U.S. business. However, these measures cannot fully offset potential losses and increased costs. And while many of these measures are only in effect for the duration of the public health emergency, it is possible that some of these temporary measures could result in long-term changes that could affect especially Fresenius Medical Care's business, financial position and operational results in ways that cannot be quantified or predicted at this time.

Fresenius Medical Care is furthermore experiencing increased mortality among dialysis patients due to the COVID-19 pandemic. During 2020, the company had already reported on the consequences of COVID-19 with sometimes severe impact of the disease on dialysis patients. This trend accelerated significantly in November and December of 2020, particularly in North America and EMEA (Europe, Middle East and Africa), resulting in an excess mortality of circa 10,000 patients compared to pre-pandemic levels. The accelerated effects of excess mortality caused by COVID-19 are continuing in 2021. Accordingly, we expect a significant adverse annualization effect on the number of dialysis treatments performed. In addition, this will have an impact on the utilization of the clinic infrastructure and, downstream, on supporting business activities. This will have a negative impact on Fresenius Medical Care's sales and earnings figures.

The COVID-19 pandemic has had a significant impact on our hospitals in Germany and Spain, depending on the development of the pandemic at a given time. Spain was heavily affected during the first COVID-19 wave from March to May 2020. A national state of emergency went into effect on March 14, 2020, and hospitals were not allowed to conduct normal operations. In Germany, the first wave was milder, but the German Corona Ordinance prohibited hospitals from handling elective cases. These regulatory measures in both countries had a significant negative impact on our operational results.

In addition, the COVID-19 pandemic response has several additional economic, social and hospital implications. For example, the minimum distance of 1.5 meters between two hospital beds required for

infection control has reduced bed capacity in our hospitals. In addition, travel restrictions have a significant negative effect on the number of international (private) patients in Germany and Spain. In Spain, the weaker economic situation and resulting high unemployment are also leading to fewer privately insured patients. This may continue to have a negative impact on our net assets, financial position and results of operations.

Fresenius Vamed also experienced and continues to experience significant delays and additional costs due to the COVID-19 pandemic in its project business as a result of travel restrictions, restricted supply chains, disrupted project execution and the construction stops imposed.

The impact on all business segments of the Fresenius Group is expected to intensify the longer the COVID-19 pandemic and the measures required to contain it continue, especially considering the newly emerging variants of the virus which increase the uncertainty of the further development of the pandemic.

Any or all of these factors, or other consequences of the continuation, or worsening, of domestic and global economic conditions, which cannot currently be predicted, could adversely affect our businesses and results of operations.

2.1.1.2 Market developments and government actions regarding the sovereign debt crisis in Europe could adversely affect our business, financial condition, results of operations, and liquidity.

Global markets and economic conditions have in the past years repeatedly been negatively impacted by concerns regarding the ability of certain European Union member states and other countries to service their sovereign debt obligations. If the fiscal obligations of these countries continue to exceed their fiscal revenue, taking into account the reactions of the credit and swap markets, the ability of such countries to service their debt in a cost-efficient manner or to meet their other obligations could be impaired. The continued uncertainty over the outcome of various international financial support programs and the possibility that other countries may experience similar financial pressures could further disrupt global markets. In addition, current or worsening economic conditions, including as consequence of the COVID-19 pandemic, could adversely affect the ability of our customers, including governments, to pay for our services, products, and amount spent on health care generally. We have exposure to government obligations, principally for accounts receivable from public health care organizations in such countries. Continued adverse conditions in these countries for an extended period of time could adversely affect collection of our accounts receivable in these countries and require us to re-evaluate the collectability and valuation of our receivables, which could result in credit losses and have a material adverse effect on our business, financial condition, results of operations, and liquidity.

2.1.1.3 We face specific risks from international operations.

Our international operations are subject to a number of risks, including but not limited to the following:

- the economic situation in certain countries could deteriorate or become unstable;
- inflation rates could accelerate and even may require hyperinflation accounting, as we need to apply for Argentina and Lebanon for example;
- fluctuations in exchange rates could adversely affect profitability;
- we could face difficulties in enforcing and collecting accounts receivable under some countries' legal systems;
- we could be negatively impacted by the ability of certain countries to service their sovereign debt obligations;
- local regulations could restrict our ability to obtain a direct ownership interest in health care clinics or other operations;

- political, social, or economic instability, especially in developing and newly industrializing countries, could disrupt our operations;
- the withdrawal of the United Kingdom from the European Union and its possible effects on the tax, tax treaty, currency, operational, legal and regulatory regimes to which our businesses in the region are subject;
- some customers and governments could increase their payment cycles, with resulting adverse effects on our cash flow;
- some countries could impose additional or higher taxes, for example higher corporate taxes in the United States implemented by the Biden Administration, or fees or restrict the import of our products;
- potential increases in tariffs and trade barriers that could result for example from withdrawal by the United States or other countries from unions;
- we could fail to receive or could lose required licenses, certifications, or other regulatory approvals for the operation of subsidiaries or dialysis clinics, production facilities, sale of equipment, products, or services or acquisitions;
- civil unrest, armed conflict, or outbreaks of disease (e.g. pandemics, such as the one caused by COVID-19) in one or more countries in which we have material operations or material product revenue;
- differing labor regulations and difficulty in meeting the global demand for qualified personnel and managing geographically widespread operations;
- different or less robust regulatory regimes controlling the protection of our intellectual property;
- natural disasters, infrastructure disruptions, terrorist attacks, or other unforeseen events; and
- transportation delays or interruptions.

International growth and expansion into emerging markets, such as Asia-Pacific, Latin America, and Africa, could cause us difficulty due to greater regulatory barriers than in the United States or Western Europe, the necessity of adapting to new regulatory systems, and problems related to entering new markets with different economic, social, legal, and political systems and conditions. For example, unstable political conditions or civil unrest could negatively impact our operations and sales in a region or our ability to collect receivables or reimbursements or operate or execute projects in a region. Our Group has, on occasion in the past, been forced to postpone or discontinue certain projects due to the occurrence of events that resulted in an unacceptable level of risk to our personnel, and no assurance can be given that such events will not occur in the future.

In addition, our expanding geographical footprint increases the risk that our hospitals, clinics and manufacturing facilities may be forced to shut down or may be unable to operate at full capacity as a result of natural or other catastrophes. A significant disruption at any of these facilities, even on a short-term basis, could impair our ability to treat patients or to produce and ship our products to the market on a timely basis.

Any one or more of these or other factors could increase our costs, reduce our sales, or disrupt our operations, including our ability to treat patients or produce and ship our products to the market on a timely basis, with possible material adverse effects on our business, financial condition, and results of operations.

2.1.1.4 We face risks and uncertainties from emerging markets.

We intend to expand further in emerging markets, such as Asia-Pacific, Latin America, and Africa. We expect that sales from countries outside of Europe and North America will account for an increasing portion of our sales in the future. Emerging market economies can entail risks not commonly encountered in developed countries. These risks include, but are not limited to, underdeveloped or unstable political, legal and regulatory regimes, inconsistent enforcement of laws and regulations, limited or unreliable infrastructure, and a higher risk of conflict. Any one of these or other factors relating to our operations in emerging markets could increase our costs, reduce our sales, or disrupt our operations, with possible material adverse effects on our business, financial condition, and results of operations.

2.1.2 Risks in the Health Care Sector

2.1.2.1 Changes in reimbursement and/or governmental regulations for health care could materially decrease our sales and operating profit.

We receive reimbursement for our health care services from both public, government-sponsored payors and private, commercial payors. A significant amount of the consolidated revenues of our business segment Fresenius Medical Care results from Medicare and Medicaid reimbursement. For example, in 2020, approximately 32% of Fresenius Medical Care's sales worldwide were attributable to U.S. federally funded health care benefit programs, such as Centers of Medicare and Medicaid Services (*CMS*). The Medicare and Medicaid programs change their payment methodologies and funding from time to time due to changes in legislation, economic conditions, or policy. A reduction in reimbursement rates or reimbursed services could result in significantly lower sales and operational results.

Based on the Budget Control Act of 2011 (*BCA*) Fresenius Medical Care has implemented an end-stage renal disease (ESRD) prospective payment system (PPS), which expanded the scope of the products and services covered by a bundled reimbursement rate. Due to pressure to reduce health care costs, increases in the reimbursement rate by the U.S. government have been limited.

Changes in payment methodologies and funding or payment requirements, in particular any decrease in reimbursement rates or covered services regarding the U.S. Medicare or Medicaid programs could have a material adverse effect on Fresenius Medical Care's business, financial condition, and results of operations.

As part of the PPS, Fresenius Medical Care's dialysis clinics in the United States participate in the Quality Improvement Program (*QIP*). Medicare reimbursement benefits can be reduced by up to 2% based on the previous year's benefits if clinics do not meet the quality standards of the QIP. Underlying quality measures are reviewed, extended, and amended annually by the CMS. A material failure by Fresenius Medical Care to achieve the minimum client quality standards under the QIP could materially and adversely affect business, financial condition, and results of operations. The 2% benefit reduction has been temporarily suspended from May 1, 2020 through March 31, 2021 due to the COVID-19 pandemic. Through its value-based agreements and health insurance products, Fresenius Medical Care assumes the risk of both medical and administrative costs for certain patients in return for fixed periodic payments from governmental and commercial insurers. Fresenius Medical Care currently participates in various value-based programs, including:

- (i) the CMS Comprehensive End-Stage Renal Disease (*ESRD*) Care Model;
- (ii) the treatment choices model for patients with chronic kidney failure (ESRD Treatment Choices Model), which was started on January 1, 2021;
- (iii) the Comprehensive Kidney Care Contracting model; and
- (iv) sub-capitation or shared savings agreements with commercial insurers in which Fresenius Medical Care receives a fixed fee to cover all or a defined portion of the medical costs of a defined population of patients.

CMS relied on authority granted by the Affordable Care Act (*ACA*) to implement the Comprehensive ESRD Care Model and BPCI, which seeks to deliver better health outcomes for ESRD patients while lowering CMS' costs. Although Congress's efforts to date to repeal the ACA have been unsuccessful, further efforts to repeal or revise the ACA, the posture of CMS in the Trump administration toward projects of this sort and litigation seeking the termination of the ACA may affect the project's future prospects in ways which we currently cannot quantify or predict.

The reserves that Fresenius Medical Care establishes for health insurance policy benefits and other contractual rights and benefits are based upon assumptions and judgements concerning a number of factors, including trends in health care costs, expenses, general economic conditions and other factors. To the extent the actual claims experience is less favorable than estimated based on Fresenius Medical Care's underlying assumptions, incurred losses would increase and future earnings could be adversely affected.

Fresenius Medical Care receives reimbursement for the treatment of Medicare patients based upon the ESRD PPS rates as determined by CMS. CMS subjects a base ESRD PPS payment rate to case-mix adjustments that take into account individual patient characteristics. The annually adjusted rates may not provide fully compensating reimbursement for the services or products consumed during service. Pharmaceuticals included within the bundled rate are subjected to increased reimbursement pressure in comparison to the pharmaceuticals currently reimbursed outside the bundle. In some cases, pharmaceuticals that were reimbursed outside of the bundle are transitioned for inclusion within the bundle. Recently, CMS clarified that once any non-oral ESRD-related drug in a category previously considered oral only is approved by the U.S. Food and Drug Administration (*FDA*), such category of drugs will cease to be considered oral only. As a result of this determination, reimbursement for calcimimetics is now included in the ESRD PPS, effective as of January 1, 2018, subject to CMS's payment a "transitional drug add-on payment adjustment" for three years. During this transition period, CMS will not pay outlier payments for these drugs. If Fresenius Medical Care is unable to secure appropriate reimbursement arrangements for the pharmaceuticals it provides in its dialysis clinics, Fresenius Medical Care could experience a material adverse effect on its operating results.

Further, an increased utilization of bundled pharmaceuticals or decreases in reimbursement for pharmaceuticals outside the bundled rate may result in a material adverse impact on Fresenius Medical Care's results of operations. Fresenius Medical Care is also subject to audits and reviews by enforcement authorities, including the FDA, for compliance with applicable drug regulations. These audits or reviews may impact Fresenius Medical Care's participation in Medicare and Medicaid programs, the imposition of potential fines or penalties as well as oversight or recalibration of processes and procedures which may have a material adverse impact on Fresenius Medical Care's business and results of operations.

Fresenius Medical Care's profitability in its value-based agreements and insurance products is dependent in part upon the ability to contract on favorable terms with hospitals, physicians and other health care providers. The failure to maintain or to secure cost-effective health care provider contracts may result in a loss of beneficiaries or higher medical costs, which could adversely affect our business.

Government reimbursement programs generally pay less than private insurance. In addition, Fresenius Medical Care may experience higher write-offs of Medicare deductibles and other amounts due to uninsured and underinsured patients, resulting in an increase in uncollectible accounts. As a result, the payments Fresenius Medical Care receives from private payors generate a substantial portion of the profits Fresenius Medical Care reports. Approximately 36% of Fresenius Medical Care's consolidated health care revenues in the North American Segment were attributable to private payors in 2020.

Any of the following events, among others, could have a material adverse effect on our business, financial condition and results of operations:

- we may be subject to reductions in reimbursement from private payors;
- we may experience a reduction in Fresenius Medical Care's ability to obtain commercially insured patients to utilize our health care services relative to historical levels;

- efforts by private payors to continue to control the cost of and/or the eligibility for access to health care services, in particular relatively to products on and off the health care exchanges established by the ACA;
- a portion of Fresenius Medical Care's business that is currently reimbursed by private insurers or hospitals may become reimbursed by integrated care organizations, which may use payment methodologies that reduce reimbursement for Fresenius Medical Care's services;
- a portion of Fresenius Medical Care's business that is currently reimbursed by private insurers at rates based on our billed charges may become reimbursed under contracts at lower rates; or
- a portion of Fresenius Medical Care's patients who are currently covered by private insurers may elect to transition to government funded reimbursement programs with lower rates for our services, if efforts to restrict or eliminate the charitable funding of patient insurance premiums are successful.

In addition to the foregoing factors, the health care insurance industry is experiencing continuing consolidation among insurers and pharmacy benefit managers. Such consolidation could increase the bargaining power of such private payors vis-à-vis Fresenius Medical Care and adversely affect Fresenius Medical Care's ability to negotiate favorable coverage terms and reimbursement rates.

In addition, our business segment Fresenius Helios derives significant portions of its revenues from government reimbursement programs. A case-based reimbursement system for hospitals (based on diagnosis related groups or **DRG**) was introduced in Germany in 2003 for inpatients. This scheme, which phased in and was fully implemented in 2010, replaced the former composite scheme of mostly departmental per diem payments and a small share of case-based payments. Under the case-based reimbursement system, hospitals receive a flat fee per patient (more exactly for an inpatient case of the patient). The fee takes into account the individual conditions of each patient by evaluating the patient's principal and secondary diagnoses, age, the procedures undertaken on the patient, and the patient's discharge status. Hospitals receive additional payments for some specific services provided based on the procedure. Essentially, the DRG system is aimed at improving hospital efficiency and reducing health care spending. We will closely follow the further regulatory developments relating to the DRG system. As a result of the Nursing Staff Strengthening Act (*Pflegepersonalstärkungsgesetz (PpSG)*) for example, the nursing costs will be excluded from the DRG from 2020. Instead, the costs for patient-oriented nursing care will be fully reimbursed by the health insurance funds via separate nursing budgets. Since 2019, each additional or increased care place at the bed will be completely refinanced by the cost bearers. Beginning in 2021, the inclusion criteria for the long-term care budget will change. The allocation of nursing staff to the care budget is adjusted to the current definitions of "nursing specialist" and "nursing assistant"/"other professions" in the German ordinance on minimum requirements for nursing personnel in hospitals (*Verordnung zur Festlegung von Personaluntergrenzen in pflegeintensiven Bereichen in Krankenhäusern – PpUGV*). For the 2021 care budget, nursing staff costs for direct patient care in bedside wards are included. Helios Germany is reviewing appropriate measures to limit as far as possible the consequences for patients, employees and the Company's economic situation. Further planned statutory regulations on minimum personnel levels in additional hospital departments with beds may further intensify competition for qualified nursing staff. Any changes to governmental regulations and to reimbursement schemes could have a material adverse effect on our business, financial condition, and results of operations.

As a result of the acquisition of IDC Salud Holding S.L.U. (*Quirónsalud*), Fresenius Helios operates hospitals in Spain through Public-Private Partnership contracts (**PPP**). These hospitals are part of the public health care system in Spain. Quirónsalud receives compensation for its services in the form of a per capita lump sum or remuneration for the specific service rendered. Changes to reimbursement schemes could also have a material adverse effect on our business, financial condition, and results of operations.

In connection with the COVID-19 pandemic, Germany has enacted legislation in March 2020 providing the German Federal Government with extensive powers to intervene with health care companies. Specifically, the German Federal Government, following the declaration of an epidemic situation of

nationwide impact, can intervene with the companies' production and sales processes, thereby e.g. temporarily ordering the supply to the public sourcing channels. Similarly, the Spanish government has temporarily obtained the right to direct all hospitals, allowing the healthcare authorities to leverage all available resources to treat COVID-19 infected patients. Such an option is also embedded in the established crisis management plans of many other European countries and it is possible that further or similar measures will be introduced by health authorities in numerous markets in which Fresenius operates to combat the COVID-19 pandemic. While any such measures are currently expected to be limited in time (e.g. the German legislation ceased to apply on February 28, 2021 but was extended thereafter until April 11, 2021 in an unchanged form), they could lead to loss of revenues and profits as compensation by public authorities for mandatorily provided healthcare products and services in fighting the COVID-19 pandemic could be lower than normal market prices.

Reductions in health care spending could also negatively affect the pricing of Fresenius Kabi products.

2.1.2.2 We operate in a highly regulated industry such that the potential for legislative reform provides uncertainty and potential threats to our operating models and results.

The delivery of health care services and products is highly regulated in most of the countries in which we operate. Proposals for legislative reform in these countries are often introduced to improve access to care, address quality of care issues and manage costs of the health care system. The previous U.S. administration had publicly announced its intention to implement significant changes to existing health care programs, including new payment models designed to encourage earlier detection and treatment of kidney disease and to strengthen home dialysis and transplantation. Although efforts to repeal or replace the ACA have not been successful and the current U.S. administration has announced its intention to continue and expand ACA, the constitutionality of this law is currently reviewed. In addition, variations on restructuring the Medicare program into a defined contribution "premium support" model and converting Medicaid funding into "block grants" or per capita arrangement that could provide greater flexibility for states are also under consideration. Changes of this nature could have significant effects on our businesses.

The U.S. administration also announced its decision to end subsidies, known as cost-sharing reduction (**CSR**) payments, to health insurance companies to help pay out-of-pocket costs of low-income Americans, in 2017. Some private insurers have stated that they will need much higher premiums and may withdraw from the insurance exchanges created under the ACA if the subsidies were eliminated. We cannot predict how the ongoing litigation in this regard might be determined. As a result, significant increases in insurance premiums and a reduction in the availability of insurance through such exchanges could reduce the number of Fresenius Medical Care's privately insured patients and shift such patients to Medicare and Medicaid. Because Medicare and Medicaid reimbursement rates are generally lower than the reimbursement rates paid by private insurers, a shift of privately insured patients to Medicare and Medicaid could have a material adverse impact on our business, financial condition and results of operations.

Further federal or state legislation or regulations may be enacted in the future through a public referendum process in the United States that could substantially modify or reduce the amounts paid for services and products offered by us and our subsidiaries and/or implement new or alternative operating models and payment models that could present more risk to our health care service operations. If successful, ballot initiatives introduced at the state level in the United States can force a vote of all state citizens to directly adopt or reject proposed new legislation. These ballot initiatives require a material commitment of resources by us to participate in public discourse regarding the proposed new legislation underlying the initiatives, which if passed, could further regulate clinic staffing requirements, state inspection requirements and margins on commercial business. State regulation at this level would introduce an unprecedented level of oversight and additional expense at the clinic level which could have a material adverse effect on our business in the impacted states. While there is uncertainty regarding the passage and scope of these ballot initiatives, if some form of restrictive dialysis-related legislation passes at the state level, such action could have a material adverse impact on our business. It is also possible that statutes may be adopted or regulations may be promulgated in the future that impose additional eligibility requirements for participation in the federal and state health care programs. Such new legislation or regulations could, depending upon the detail of the provisions, have adverse effects, possibly material, on our businesses and results of operations.

2.1.2.3 Any material disruption in U.S. federal government operations and funding could have a material adverse effect on our revenues, earnings, cash flows and financial condition.

A substantial portion of our revenues is dependent on federal health care program reimbursement, and any disruptions in federal government operations could have a material adverse effect on our revenues, earnings and cash flows. If the U.S. government defaults on its debt, there could be broad macroeconomic effects that could raise our cost of borrowing funds, and delay or prevent our future growth and expansion. Any future federal government shutdown, U.S. government default on its debt and/or failure of the U.S. government to enact annual appropriations could have a material adverse effect on our revenues, earnings and cash flows. Additionally, disruptions in federal government operations may negatively impact regulatory approvals and guidance that are important to our operations, and create uncertainty about the pace of upcoming health care regulatory developments.

2.1.2.4 In our hospital operations business, we are dependent on contracts with national public health insurance funds as well as government social security insurance authorities and government tax funds.

Most of Fresenius Helios's patients in Germany are insured by public health insurance and social security insurance authorities. Therefore, we are highly dependent on the accreditation of our acute care hospitals which allows for the provision of services to these patients on behalf of, and in return for payment from the statutory health insurers. Hospitals are accredited for such treatment of statutorily insured patients if (i) they have been admitted to the respective state hospital supply plan (*Krankenhausplan*), or (ii) if they have entered into a medical care contract (*Versorgungsvertrag*) with the relevant state associations of statutory health insurers. Should a Fresenius Helios acute care hospital lose the accreditation for the provision of services to statutorily insured patients, or should the hospitals be unable to compensate for lower reimbursement levels, this could have a material adverse effect on our business, financial condition, and results of operations.

In Spain, Quirónsalud operates public-private partnership hospitals that are integrated within the public health care network. The company is assigned responsibility for the publicly insured inhabitants of certain coverage areas and receives remuneration based on capitation or activity performed. Should Quirónsalud lose the concession to operate public-private partnership hospitals, or should Quirónsalud be unable to contract on favorable terms with the government or private health care insurers, or should hospitals be unable to compensate for lower reimbursement rates, this could have a material adverse effect on our business, financial condition, and results of operations.

2.1.2.5 Our efforts to develop and market new and existing products and therapies successfully may fail.

The development of new products and therapies always carries the risk that the goal of commercialization might not be achieved, or might take longer than planned. This is particularly true for the Fresenius Kabi biosimilars products. The development of biosimilar products carries risks, including substantial development costs and the still-developing regulatory and approval processes. Regulatory approval of new products requires comprehensive, cost-intensive preclinical and clinical studies. Furthermore, there is a risk that regulatory authorities either not grant, or delay, product approval, or withdraw an existing approval. In addition, adverse effects of our products that may be discovered after regulatory approval or registration may lead to a partial or complete withdrawal from the market, either due to regulatory actions or our voluntary decision to stop marketing a product. In January 2018, for example, the Coordination Group for Mutual Recognition and Decentralized Procedures – Human (**CMDh**) at the European Medicines Agency (**EMA**) took the position to recommend that drugs containing hydroxyethyl starch (**HES**) be withdrawn from the market. In April 2018, the Standing Committee of the European Commission did not decide according to the EMA's proposal to suspend the market authorizations (**MAs**) for products containing HES and referred the matter back to the PRAC at the EMA. The PRAC upheld its recommendation to suspend the MAs. Subsequently in July 2018, the CMDh took the position to maintain MAs, subject to the implementation of risk minimization efforts. These include controlled distribution to accredited hospitals and/or health care centers, training and direct communication to health care professionals as well as warnings on the packaging. In July 2018, the European Commission approved this position. These required risk-minimization measures for the HES products were initiated in 2019. Based on the results of a consumer study, the effectiveness of the measures will be re-evaluated.

Similar measures could also be taken by authorities in non-EU countries and lead to the suspension or withdrawal of all or part of marketing authorizations in those countries. For example, two regulatory studies are currently underway to evaluate the long-term safety and efficacy of our HES products in surgical and trauma patients. As soon as the results of these studies are available, they will be evaluated by the European authorities. With generic IV drugs, it is also crucial that new products are continually brought to the market in a timely manner. Delays or unanticipated costs in any part of the process or our failure to obtain regulatory approval for our products could have a material adverse effect on our business, financial condition, and results of operations, by restricting or delaying the introduction of new products or therapies.

Furthermore, Fresenius Medical Care as well as Fresenius Kabi are subject to typical patent risks. This includes an inadequate protection by patents of the technologies and products that we developed. Competitors may copy our products without bearing comparable research and development costs.

2.2 Risks relating to the Fresenius Group's Business Operations

2.2.1 Operating Risks

2.2.1.1 A failure of products we manufacture or purchase to meet the quality standards expected by our customers could materially adversely affect our business and reputation.

Our reputation for quality is a key component of our success, and our customers expect our products to meet high standards for quality. Failure of one or more of the products we manufacture or of products we purchase for use in our hospital operations to meet these quality standards could result in decreased sales and a negative impact on our reputation in the markets in which we operate, which could have a material adverse effect on our business, financial condition, and results of operations.

2.2.1.2 We face a number of risks related to our business operations.

Our operational business around the world is exposed to a number of risks and to extensive government regulation, which include, among others:

- the quality, safety, and efficacy of medical and pharmaceutical products, supplies, and therapies;
- the operation and licensing of hospitals, dialysis clinics, and other health care facilities as well as manufacturing facilities and laboratories;
- the planning, construction, equipment, and management of pharmaceutical and medical-technical production facilities;
- the planning, construction, equipping, and management of health care facilities, especially the operation of hospitals, dialysis clinics, and other health care facilities;
- attracting qualified personnel.

2.2.1.3 Significant competition could adversely affect pricing and sales in our business segments and our ability to grow.

We face numerous competitors in each of our four business segments. Some of these competitors possess substantially greater financial, marketing, or research and development resources. In particular, technological innovation has historically been a significant competitive factor in the health care sector. The introduction of new products and services by competitors could render one or more of our products or services less competitive or even obsolete, and thus have a significantly negative impact on future sales, the prices of our products, and our range of service. This includes the introduction of generic or patented drugs by competitors, which may have an impact on sales and operational results. Generally, the health care markets are characterized by price pressure (including from tenders), competition and efforts to contain costs. These factors could result in lower sales and adversely affect our business, financial position and results of operations.

Our Fresenius Medical Care business segment faces numerous competitors in both its health care services business and its dialysis products business, some of which may possess substantial financial, marketing or research and development resources. Competition and especially new competitive developments could materially adversely affect the future pricing and sale of Fresenius Medical Care's products and services. In particular, technological innovation has historically been a significant competitive factor in the dialysis products business.

Our Fresenius Kabi business segment's markets are characterized by price pressure, intense competition, and cost-saving measures in the health care sector. In the U.S. market for generic IV drugs, increased competition, among other things induced by the re-entry of competitors after production halts, could have a material adverse effect on the pricing and sales of our products and services.

In the U.S., Fresenius Kabi sells almost all injectable pharmaceutical products through agreements with group purchasing organizations (*GPOs*) and distributors. The GPOs have also contracted with other manufacturers. The bidding process is very competitive. If Fresenius Kabi does not succeed in fulfilling and maintaining its existing contracts or if new contracts are concluded on less favorable terms, this could have an adverse effect on our operational results.

Similar developments with regard to price pressure in the tender business and increasing competition and price reductions are affecting our business in all major markets in Asia. In China, two Fresenius Kabi products were included in the negotiation round of the National Reimbursement Drug List, the results of which took effect in January 2020 and are expected to lead to a significant decline in prices. Fresenius also expects new rounds of negotiations to be conducted through National Volume Base Procurement for selected high-volume products. This is likely to be the basis of the new pricing model (in addition to provincial competitive bidding) to further contain health care costs in a market in which volumes are steadily growing. This development could have a negative impact on our sales, financial position and operational results.

Our Fresenius Helios business segment is Europe's leading private hospital operator. In the course of its further expansion, e.g. in the private Spanish hospital market, Fresenius Helios may compete with other hospital operators for suitable expansion targets. If consolidation in the private hospital market results in material restraints on Fresenius Helios's future growth, it could have a material adverse effect on our business, financial condition, and results of operations.

In the German market, Helios Germany sees a general trend towards outpatient treatments, which could lead to lower growth in the number of inpatient cases. To counter this trend, Helios Germany is expanding outpatient services offerings in a separate division. If Fresenius Helios is not able to take measures to counter the reduction in admissions, or if such measures are not successful, it could have a material adverse effect on our business, financial condition, and results of operations.

2.2.1.4 We could be adversely affected if we experience shortages of goods or material price increases from our suppliers, or an inability to access new and improved products and technology.

The Group's business is dependent on the reliable supply of several raw materials for production and service purposes. The Group's purchasing strategy is aimed at developing partnerships with strategic suppliers through long-term contracts and at the same time ensuring, where reasonably practicable, that we have at least two sources for all supply and price-critical primary products (dual sourcing, multiple sourcing). To prevent loss of suppliers, we monitor our supplier relationships on a regular basis. Suppliers which are integral to our procurement functions are subject to performance and risk analyses. Through constant market analyses, designed based on demands of supplier relationships and contracts, we seek to mitigate disruptive goods shortages and potential price increases. If the Group is unable to counteract the risk of bottleneck situations at times of limited availability of goods and other materials in spite of its purchasing strategy in combination with ongoing monitoring of market developments, this could result in delays in production and hence have an adverse effect on the Group's results of operations. Similarly, price increases by suppliers and the inability to access new products or technology could also adversely affect the Group's result of operations.

2.2.1.5 If physicians and other referral sources cease referring patients to Fresenius Medical Care's health care service businesses and clinics or cease purchasing or prescribing Fresenius Medical Care's products, our revenues would decrease.

In providing services within its health care business, Fresenius Medical Care is dependent upon patients' choosing Fresenius Medical Care health care facilities as the location for their care. Patients may select a clinic based, in whole or in part, on the recommendation of their physician. Physicians and other clinicians typically consider a number of factors when recommending a particular dialysis facility, pharmacy, physician practice, vascular surgery center or urgent care center to a patient, including the quality of care, the competency of staff, convenient scheduling, and location and physical condition. Physicians may change their recommendations, which may result in the movement of new or existing patients to competing facilities, including facilities established by the physicians themselves. At most of Fresenius Medical Care's facilities, a relatively small number of physicians often account for the referral of all or a significant portion of the patient base. Fresenius Medical Care has no ability to dictate these recommendations and referrals. If a significant number of physicians or other referral sources ceased referring their patients to Fresenius Medical Care's facilities or stop purchasing or prescribing Fresenius Medical Care's dialysis products, this would reduce our health care revenue and could materially adversely affect our overall operations.

2.2.1.6 A change in the way Fresenius Helios conducts business may change how physicians refer patients to our clinics.

Fresenius Helios could receive fewer referrals if its reputation and service to its patients is not perceived to be as good as other local hospitals anymore. Besides, as Fresenius Helios accesses the outpatient market more and more, this may lead to negative reactions by the physicians if perceived as competition to their business, resulting in lower referral rates. Furthermore, if Fresenius Helios focuses its services provided in smaller hospitals to certain indications, physicians may react by not referring patients also in the indications not affected by the new focus of the hospital. These factors could result in lower sales and adversely affect our business, our financial position, and our operational results.

2.2.1.7 Our continued growth will depend upon our ability to attract and retain qualified personnel, such as highly qualified nurses and other medical personnel. Competition for those employees is intense. Moreover, we believe that future success in the service businesses (dialysis clinics, care coordination, and Fresenius Helios' hospitals and other health care facilities) will be significantly dependent on our ability to attract and retain qualified physicians to serve as employees of or consultants to our services businesses. If we are unable to achieve that goal or if doing so requires us to bear increased costs this could adversely impact our growth and results of operations.

Our continued growth in the health care business will depend on our ability to attract and retain qualified personnel, including highly qualified nurses and other medical personnel. Competition for those employees is intense. Shortages for these sought-after employees, such as highly qualified nurses, engineers and research and development personnel, may increase our personnel and recruiting costs and/or impair our reputation for high-quality care or production of technologically advanced products. Moreover, we believe that future success in the business will be significantly dependent on our ability to attract and retain qualified physicians to serve as employees of or consultants to our health care services businesses. Since January 1, 2019, the German hospital market has also been subject to the PpUGV. The PpUGV stipulates minimum staffing levels for nursing personnel in certain areas of the hospital. Further planned statutory regulations on minimum personnel levels in additional hospital departments with beds may further intensify competition for qualified nursing staff. The Spanish hospital market is also currently being seriously affected by a shortage of qualified nursing staff. Due to the COVID-19 pandemic and the resulting additional demand for nurses, public hospitals have hired more nurses at more attractive rates than in the past. Our products business depends on the development of new products, technologies, and treatment concepts to be competitive. Additionally, in recruiting, employing and retaining personnel we may be exposed to risks relating to various labor laws, legislative, union, or other labor-related activities or changes. Further, these factors could preclude us from integrating acquired companies into our operations, which could increase our costs, decrease our productivity and prevent us

from realizing synergies from acquisitions. If we are unable to manage the risks above, then our growth and results of operations could be adversely impacted.

2.2.1.8 Our in-licensing of rights to, or acquisition and commercialization of products might not be successful, and we may never receive any return on our investment in these product candidates.

We may in-license rights to acquire or commercialize products or technologies. Other companies, including those with substantially greater financial and sales and marketing resources, will compete with us to license rights to or acquire or commercialize these products. We may not be able to license rights to or acquire these proprietary or other products or technologies on acceptable terms, if at all. Even if we obtain rights to a product and commit to payment terms, including, in some cases, up-front license payments, we may not be able to generate product sales sufficient to create a profit or otherwise avoid a loss.

A product candidate may fail to result in a commercially successful drug for other reasons, including the possibility that the product candidate may: fail to receive necessary regulatory approvals; be difficult or uneconomical to produce in commercial quantities; be precluded from commercialization by proprietary rights of third parties; or fail to achieve market acceptance.

The marketing strategy, distribution channels, and levels of competition with respect to any licensed or acquired product may be different from those of our current products, and we may not be able to compete favorably in any new product category.

2.2.1.9 We are exposed to product liability, patent infringement, and other claims, which could result in significant costs and liability, which we may not be able to insure on acceptable terms in the future.

Health care companies, including Fresenius, are typically subject to claims alleging negligence, product liability, breach of warranty, malpractice, and other legal theories that may involve large claims and significant defense costs, whether or not liability is ultimately imposed. The products of Fresenius Medical Care and Fresenius Kabi could also be subject to recalls and patent infringement claims, which, in addition to monetary penalties, may restrict our ability to sell or use our products. In addition, Fresenius Helios could be exposed to claims for negligence in the operation of its hospitals or other health care facilities or patient treatment, for example claims relating to hospital-based infectious diseases. Fresenius Vamed could be exposed to claims arising from errors in the planning, construction and equipping of hospitals or other health care facilities or to claims arising from negligence regarding the facility management or the operational management and logistics of hospitals and other health care facilities. We cannot assure that such claims will not be asserted against us, that significant adverse verdicts will not be reached against us for patent infringements or that large scale recalls of our products will not become necessary. In addition, the laws of some of the countries in which we operate provide legal rights to users of pharmaceutical products that could increase the risk of product liability claims. Product liability and patent infringement claims, other actions for negligence or breach of contract, and product recalls or related sanctions could result in significant costs. These costs could have a material adverse effect on our business, financial condition, and results of operations. While personal injury litigation involving Fresenius Medical Care's acid concentrate product was substantially resolved by a settlement consummated in November 2017, Fresenius Medical Care and certain of its insurers are in litigation against each other relating to such insurers' coverage obligations under applicable policies.

While we have been able to obtain liability insurance in the past to partially cover our business risks, we cannot assure that such insurance will be available in the future either on acceptable terms or at all, or that our insurance carriers will not dispute their coverage obligations. In addition, we and our subsidiaries are partially self-insured for: professional, product, and general liability; auto liability; and worker's compensation claims, up to pre-determined levels above which our third-party insurance applies. A successful claim for which we are self-insured or in excess of the limits of our insurance coverage could have a material adverse effect on our business, results of operations, and financial condition. Liability claims, regardless of their merit or eventual outcome, also may have a material adverse effect on our business and reputation, which could in turn reduce our sales and profitability.

2.2.1.10 Third parties may claim that we infringe their proprietary rights and may prevent or delay us from manufacturing and selling some of our new products.

The manufacture, use and sale of new products that are the subject of conflicting patent rights have been the subject of substantial litigation in the pharmaceutical industry. Pharmaceutical companies with patented brand products frequently sue companies that file applications to produce generic equivalents of their patented brand products for alleged patent infringement or other violations of intellectual property rights, which may delay or prevent the entry of such generic products into the market. Also, competing pharmaceutical companies may file lawsuits against us or our strategic partners alleging patent infringement or may file declaratory judgment actions of non-infringement, invalidity, or unenforceability against us relating to our own patents. Such litigation is often costly and time-consuming and could result in a substantial delay in, or prevent the introduction and/or marketing of our products, which could have a material adverse effect on our business, financial condition and results of operations.

2.2.1.11 If our joint ventures violate the law, our business could be adversely affected.

A number of the dialysis clinics and health care centers Fresenius Medical Care operates are owned or managed by joint ventures in which one or more hospitals, physicians, or physician practice groups hold an interest. Physician owners, who are usually nephrologists, may also provide medical director services and physician owners may refer patients to those centers or other centers Fresenius Medical Care owns and operates or to other physicians who refer patients to those centers or other centers Fresenius Medical Care owns and operates. Because Fresenius Medical Care's relationships with physicians are governed by the federal and state anti-kickback statutes, it has structured the joint venture arrangements to comply with many of the criteria for safe harbor protection under the U.S. federal Medicare and Medicaid Fraud and Abuse Amendments of 1977, as amended (the *Anti-Kickback Statute*). However, investments in these joint venture arrangements do not satisfy all elements of such safe harbor. While Fresenius Medical Care has established comprehensive compliance policies, procedures and programs to ensure ethical and compliant joint venture business operations, if one or more of Fresenius Medical Care's joint ventures were found to be in violation of the Anti-Kickback Statute, the U.S. federal Ethics in Patient Referrals Act of 1989 (the *Stark Law*), or other similar laws worldwide, Fresenius Medical Care could be required to restructure or terminate them. Fresenius Medical Care also could be required to repay to Medicare, Medicaid as well as other federal health care programs, amounts received by the joint ventures pursuant to any prohibited referrals, and Fresenius Medical Care could be subject to criminal and monetary penalties and exclusion from Medicare, Medicaid, and other U.S. federal and state health care programs. Imposition of any of these penalties could have a material adverse effect on our business, financial condition and results of operations.

2.2.2 Information Technology Risks

2.2.2.1 If we are unable to protect our information technology security systems against cyber-attacks or prevent other privacy or data security incidents that result in security breaches that disrupt our operations or result in the unintended dissemination of sensitive personal information or proprietary or confidential information, we could be exposed to significant regulatory fines or penalties, liability or reputational damage, or experience a material adverse effect on our results of operations, financial position, and cash flows.

Our processes are growing ever more complex as a result of the Fresenius Group's steady growth and increasing internationalization. Correspondingly, the dependence on information and communication technologies, and on the systems used to structure procedures and – increasingly – harmonize them internationally, intensifies. We routinely process, store and transmit large amounts of data in our operations, including sensitive personal information as well as proprietary or confidential information relating to our business or third parties. We may be subject to breaches of the information technology security systems we use.

The increased integration of IT systems, the integration of digital components and applications into medical technology products and services, and the use of new technologies, such as cloud computing, within our business processes means that cyber incidents could compromise the integrity, or availability of our internal and external systems and misappropriate or compromise sensitive personal information

or proprietary or confidential information, including such information which is stored or transmitted on the systems used by certain of our products, to create system disruptions, cause shutdowns, or deploy viruses, worms, and other malicious software programs that attack our systems. As we increase the amount of sensitive personal information that we store and share digitally, our exposure to these data security and related cyber-attack risks increases, including the risk of undetected attacks, damage, loss or unauthorized disclosure or access, and the cost of attempting to protect against these risks also increases. We have implemented security technologies, processes and procedures to protect our confidential data; however, there are no assurances that such measures will be effective against all types of breaches. For example, Fresenius suffered a deliberate cyber-attack in the second quarter of 2020. Cyber criminals succeeded in infecting some of Fresenius' IT systems with malware and encrypting data stored on these systems. This incident led to temporary interruptions in our IT infrastructure and IT-supported internal processes. In connection with this attack, patient data was stolen from some of Fresenius Medical Care's dialysis centers and made public without authorization. The Company filed criminal charges against the unknown perpetrators and reported the data privacy violation to the responsible data protection authorities. The Company fully cooperates with these authorities. In addition, Fresenius Medical Care informed the patients that were and could be affected by the data theft and its illegal publication.

Any failure to keep our information technology systems and our patients' and customers' sensitive information secure from attack, damage, loss or unauthorized disclosure or access, whether as a result of our action or inaction or that of our business associates or vendors, or the non-compliance with data protection laws, regulations, and standards could adversely affect our competitive position, our reputation and operations and also expose us to mandatory public disclosure requirements, litigation and governmental enforcement proceedings, material fines, penalties and/or remediation costs, and compensatory, special, punitive and statutory damages, consent orders and other adverse actions, any of which could adversely affect our business, results of operations, financial condition or liquidity.

2.2.3 Other Risks

2.2.3.1 Fresenius SE & Co. KGaA relies on distributions from its subsidiaries to meet its payment obligations.

Fresenius SE & Co. KGaA functions as a holding company for our Group, has no material amount of independent operations, and derives substantially all of its consolidated sales from its operating subsidiaries. Consequently, Fresenius SE & Co. KGaA's cash flow and its ability to meet its cash requirements, including its obligations under the Notes or, as applicable, the Guarantee, is dependent upon the profitability and cash flow of its subsidiaries and payments by such subsidiaries to Fresenius SE & Co. KGaA in the form of loans, dividends, fees, rental payments, or otherwise, as well as Fresenius SE & Co. KGaA's own credit arrangements.

The ability of our subsidiaries to make payments to Fresenius SE & Co. KGaA may be restricted by, among other things, applicable corporate and other laws and regulations and by the terms of covenants and restrictions contained in financing agreements to which our subsidiaries are or will be a party. In addition to any limitations on payment to Fresenius SE & Co. KGaA contained in such agreements, any failure to comply with the covenants and restrictions contained in such agreements could trigger defaults under those agreements which could delay or preclude the distribution of dividend payments or any other similar payments to Fresenius SE & Co. KGaA.

Any material reductions in distributions from its subsidiaries may adversely affect Fresenius SE & Co. KGaA's ability to meet its cash requirements, including its obligations under the Notes or, as applicable, the Guarantee.

2.3 Financial Risks relating to the Fresenius Group

2.3.1.1 Our leverage could adversely affect our financial condition, prevent us from fulfilling our debt-service obligations, or prevent us from pursuing certain aspects of our business strategy.

Our indebtedness could adversely affect our financial condition which could, as a result, have significant consequences to our ability to service the Notes. For example, it could: jeopardize the success of our business strategy; increase our vulnerability to general adverse economic conditions; limit our ability to obtain necessary financing to fund future working capital needs, capital expenditures, and other general corporate requirements; require us to dedicate a substantial portion of our cash flow from operations, as well as the proceeds of certain financings and asset dispositions, to payments on our indebtedness, thereby reducing the availability of our cash flow and such proceeds to fund other purposes; limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate; place us at a competitive disadvantage compared to our competitors that have less debt; limit our ability to pursue possible future acquisitions and sell assets; make it more difficult for us to satisfy our obligations under our debt securities, including the Notes; and limit our ability to borrow additional funds.

As a result, our leverage makes us vulnerable to a downturn in the operating performance of our subsidiaries, larger than normal fluctuations or volatility in our cash flow, or a downturn in economic conditions.

Our ability to make payments on and to refinance our indebtedness, including the Notes, will depend on our ability to generate cash in the future, which is dependent on various factors. These factors include governmental and private insurer reimbursement rates for medical treatment and general economic, financial, competitive, legislative, regulatory, and other factors that are beyond our control. If our cash flow is not sufficient to meet our debt service and principal payment requirements, we could be required to refinance our obligations or to dispose of assets in order to meet such requirements. In addition, from time to time we need to refinance our existing debt as and when it matures. In either case, there is no guarantee that we will be able to refinance our existing indebtedness on terms comparable to those governing our existing indebtedness. If our cash flow is not sufficient to meet our debt service and principal payment requirements, or if we are unable to refinance our existing indebtedness on acceptable terms, it could have a material adverse effect on our business, financial condition, or results of operations.

2.3.1.2 Changes in foreign exchange rates could have adverse effects on our financial results and on our ability to repay debt; our hedging efforts may be unsuccessful.

The reporting currency of Fresenius is the euro. However, a significant portion of our sales is denominated in U.S. dollar. Therefore, fluctuations in exchange rates between the euro and other non-euro currencies, primarily the U.S. dollar, will affect the translation of our consolidated financial results into euro and will also affect the value of any distributions that our business segments make to us. Exchange rate changes may also affect our consolidated statement of financial position. Changes in the euro values of our consolidated assets and liabilities resulting from exchange rate movements may cause us to record foreign currency gains and losses. In addition, a significant amount of our consolidated debt from time to time outstanding was denominated in U.S. dollars. Our ability to use cash received in currencies other than the euro or U.S. dollar to service that debt could be adversely affected by changes in exchange rates against the euro or the U.S. dollar.

While we enter into hedging transactions to minimize the effects of certain changes in exchange rates, we cannot assure that such measures will be successful or that our hedging strategy will be effective. If these measures are unsuccessful or our hedging strategy is ineffective, this could increase our costs, reduce our sales or disrupt our operations, with possible material adverse effects on our business, financial condition and results of operations.

2.3.1.3 Our efforts to assure correct and reliable financial reporting may fail.

Numerous measures and internal controls assure the correctness and reliability of accounting processes and financial reporting, and thus preparation of financial statements, consolidated financial statements,

and management reports in compliance with applicable principles. In addition, Fresenius Medical Care is subject to controls of Section 404 of the Sarbanes-Oxley-Act.

2.3.1.4 Our consolidated statement of financial position includes intangible assets, which could become impaired.

The amount of intangible assets, including goodwill, product rights and tradenames represents a considerable part of the total assets of the Fresenius Group. An impairment test of goodwill and other intangible assets with indefinite useful life is performed at least once a year. There is no guarantee that impairments will not occur, particularly in the event of a substantial deterioration of our future prospects or general economic conditions. For example, in 2020, Fresenius Medical Care Latin America recorded a goodwill impairment of €195 million. A significant deterioration in our prospects for the future or in the general economic environment could result in additional depreciation being necessary. If assets are considered to be impaired, impairment charges could have a material adverse effect on our consolidated statement of financial position and results of operations.

2.3.1.5 Diverging views of fiscal authorities could require us to make additional tax payments. Additional or higher taxes or fees could be imposed and/or the import or export of our products could be restricted.

We are subject to ongoing tax audits in the United States, Germany, and other jurisdictions. We could potentially receive notices of unfavorable adjustments and disallowances in connection with certain of these audits. If we are unsuccessful in contesting unfavorable determinations, we could be required to make additional tax payments, which could have a material adverse impact on our results of operations and operating cash flow in the relevant reporting period.

Some countries could impose additional or higher taxes or fees or restrict the import or export of our products; this applies in particular to any initiatives by the U.S. administration.

2.3.1.6 Despite our existing indebtedness, we may still be able to incur significantly more debt; this could intensify the risks described above.

Despite our existing indebtedness, we may still be able to incur significantly more debt in the future, provided that such indebtedness does not exceed the limit on indebtedness imposed by our Syndicated Credit Agreement or other financing arrangements, and such indebtedness is permitted to be incurred under certain outstanding bonds of the Company (which were not issued under the Program) and Fresenius US Finance II, Inc. (the *Legacy Bonds*). If additional debt is added to our current debt levels, the related risks that we now face could intensify.

2.3.1.7 Our indebtedness imposes restrictions. If in the case of a breach of such restrictions the indebtedness under the Notes or certain other financing arrangements were to be accelerated, there can be no assurance that our assets would be sufficient to repay in full that indebtedness and the other indebtedness of the Issuers.

Various debt instruments, including the Syndicated Credit Agreement, and the Legacy Bonds contain covenants restricting or limiting our ability to, among other things: incur additional indebtedness; create liens; and merge or consolidate with other entities. All of these limitations are subject to a number of important exceptions and qualifications and most of the covenants contained in the Legacy Bonds are currently suspended and will remain so as long as two of the three ratings assigned to the Legacy Bonds by Moody's Deutschland GmbH (*Moody's*), S&P Global Ratings Europe Limited (*S&P*) and Fitch Ratings Ireland Limited (*Fitch*) are at least BBB- or Baa3 (as the case may be) or higher, or, in each case, the equivalent in respect of rating categories of any rating agencies substituted for S&P, Moody's or Fitch.

In addition, under the Syndicated Credit Agreement, we are obligated to maintain a maximum leverage ratio. In addition, some of our outstanding tranches of *Schuldschein* Loans (*Schuldscheindarlehen*) have similar covenants, although these are currently suspended.

If we breach the covenants of any financing arrangements and are unable to cure the breach (to the extent the breach is capable of being cured) or to obtain a waiver from the lenders (to the extent the covenant is capable of being waived), we would be in default under the terms of such arrangement. A default under any financing arrangements could result in a default under other financing arrangements, including our Legacy Bonds and bonds issued under this Program, could cause lenders under other arrangements to accelerate such financing arrangements, in which case the amounts under those arrangements would become due as well, and could result in the inability to draw amounts under the Syndicated Credit Agreement. If the indebtedness under the Notes or certain other financing arrangements were to be accelerated, there can be no assurance that our assets would be sufficient to repay in full that indebtedness and the other indebtedness of the relevant Issuer.

In addition, the 2012 FMC Credit Agreement and its other major financing arrangements include covenants that require Fresenius Medical Care to maintain a certain financial ratio or to meet other financial tests in order to incur indebtedness. Under the 2012 FMC Credit Agreement, Fresenius Medical Care is obligated to maintain a maximum consolidated leverage ratio. Other covenants in one or more of each of these agreements restrict or have the effect of restricting Fresenius Medical Care's ability to, among other things, dispose of assets, incur debt and create liens. A breach of any of the covenants or conditions of Fresenius Medical Care's financing arrangement could result in a default and acceleration of the debt under the respective arrangement, which could, in turn, lead to additional defaults and acceleration of the debt under other financing arrangements of Fresenius Medical Care and, in some circumstances, of Fresenius.

If, in the case of a breach of such restrictions, the indebtedness under the Notes or certain other financing arrangements were to be accelerated, there can be no assurance that our assets would be sufficient to repay in full that indebtedness and the other indebtedness of the Issuers or, as applicable, the Guarantor.

2.4 Risks from Acquisitions

2.4.1.1 Past and future acquisitions involve inherent uncertainties and risks.

The acquisition and integration of companies carries risks that can adversely affect the assets and liabilities, financial position, and results of operations of Fresenius.

Acquisition processes often include closing conditions, including but not limited to antitrust clearance, fulfilment of representations and warranties and adherence to laws and regulations. Non-compliance with such closing conditions by either party to an acquisition could lead to litigation between the parties, with others and/or claims against Fresenius.

Following an acquisition, the acquired company's structure must be integrated while clarifying legal questions and contractual obligations. Marketing, patient services, quality standards, and logistics must also be unified and, potentially, divergent corporate and management cultures have to be reconciled. During the integration phase, key managers can leave the company and both the course of ongoing business processes and relationships with customers and employees can be harmed. In addition, change of control clauses may be claimed in certain contracts or financial instruments, some of which may be material to the acquired company. The integration process may prove more difficult or require more time and resources than expected and anticipated synergies from the combination might not be realized. Risks can arise from the operations of the newly acquired company that Fresenius regarded as insignificant or was unaware of. An acquisition may also prove to be less beneficial than initially expected. Future acquisitions may be a strain on the finances and management of our business. Moreover, as a consequence of an acquisition Fresenius may become directly or indirectly liable towards third parties, or claims against third parties may turn out to be non-assertible.

2.4.1.2 Our growth depends, in part, on our ability to continue to make acquisitions.

Acquisitions may place a financial burden on us.

The health care industry has experienced significant consolidation in recent years and experiences continuing consolidation. This development could adversely affect our ability to find suitable acquisition targets and to increase future growth and product sales. Additionally, our ability to make future acquisitions depends, in part, on our available financial resources and could be limited by restrictions imposed by competition laws as well as existing credit agreements. For our future acquisitions in our

business segments, we may need to borrow additional debt or assume significant liabilities, either of which might increase our financial leverage and cause the prices of our debt securities to decline and increase our future financing costs. In addition, any financing that we might need for future acquisitions might be available to us only on terms that restrict our business. If we are not able to effect acquisitions on reasonable terms, there could be an adverse effect on our business, financial condition, and results of operations.

We also compete with other companies in seeking suitable acquisition targets, and the continuing consolidation of competitors could affect future growth of our product sales. In addition, our ability to grow might be constrained due to a lack of acquisition targets. If we are not able to continue to effect acquisitions at all or on reasonable terms, this could have an adverse effect on our business, financial condition, and results of operations.

2.5 Compliance and Legal Risks

2.5.1.1 If we do not comply with the health care or other governmental regulations applicable to our businesses, we could be subject to civil or criminal penalties and excluded from government health care reimbursement programs in the United States and other countries, or our authorization to conduct business could be terminated, either of which could result in a material decrease in our sales and operating profit.

Our business and operations around the world are subject to extensive regulations in many jurisdictions and covering a broad range of areas, including but not limited to:

- permits from public authorities and monitoring of clinical and non-clinical research and development activities;
- product releases and regulatory approvals for new products and product modifications;
- checks and reviews by enforcement authorities of compliance with applicable pharmaceutical legislation;
- compliance with due diligence obligations, warranty obligations, and product liability regulations;
- the accurate reporting of and billing for reimbursements by government and private insurers;
- discounting reimbursable pharmaceutical and medical device products and reporting drug prices to government agencies;
- the labelling and designation of products and their marketing;
- compensation of medical personnel and financial arrangements with physicians and other referral sources;
- access to, collection, publication, use, and security of health information and other protected data.; and
- Compliance with ESG (Environmental, Social and Good Governance) laws and regulations.

If Fresenius fails to comply with one or more of these laws or regulations, this may give rise to a number of consequences, including monetary and administrative penalties, increased compliance costs, complete or partial exclusion from governmental reimbursement programs, or a complete or partial curtailment of our authorization to conduct business. Any of these consequences could have a material adverse impact on our business, reputation, financial condition or results of operations.

Our Group's medical devices and pharmaceutical products are subject to detailed, rigorous and frequently changing regulation by the FDA, and numerous other national, supranational, federal and state authorities. In addition, our Group's facilities and procedures and those of its suppliers are subject to periodic inspection by the FDA, the EMA and other regulatory authorities. If an authority detects any deficiencies, we are required to address these issues immediately, such as in the context of the audits at our Melrose Park production facility in the U.S. in 2020. The FDA and comparable regulatory authorities outside the U.S. may suspend, revoke, or adversely amend the authority necessary for manufacture, marketing, or sale of our products and those of our suppliers. Our Group and its suppliers must incur expense and spend time and effort to ensure compliance with these complex regulations, and if such compliance is not maintained, they could be subject to significant adverse administrative and judicial enforcement actions in the future. These possible enforcement actions could include warning letters, injunctions, civil penalties, seizures of our Group's products, and criminal prosecutions as well as dissemination of information to the public about such enforcement actions. These actions could result in, among other things, substantial modifications to our Group's business practices and operations, refunds, a total or partial shutdown of production while the alleged violation is remedied, and withdrawals or suspensions of current products from the market. In addition, there may be the changes in requirements and regulations by regulatory authorities affecting our production processes and leading, for example, to lower production volumes or jeopardizing production during any transition period. Any of these events, together or individually, could disrupt our Group's business and have a material adverse effect on our Group's business, reputation, financial condition and results of operations. Moreover, the FDA may require us to stop marketing certain products which do not have formal FDA approvals. The FDA has increased its efforts to require companies to file and seek FDA approval for unapproved products, and when a product is approved, the FDA has typically increased its effort to remove other unapproved products from the market by issuing notices to companies currently manufacturing these products to cease its distribution of said products.

By virtue of this regulatory environment, our business activities and practices are subject to extensive review by regulatory authorities and private parties, and continuing audits, investigative demands, subpoenas, other inquiries, claims and litigation relating to our or our subsidiaries' compliance with applicable laws and regulations. We may not always be aware that an inquiry or action has begun, particularly in the case of "qui tam" or "whistle-blower" actions brought by private plaintiffs under the U.S. False Claims Act, which are initially filed under seal. Our Group companies are the subject of a number of ongoing actions, including governmental inquiries and civil suits by the U.S. federal government and private plaintiffs. Adverse results in one or more pending actions could have a material adverse effect on our business, financial condition, or results of operations.

In addition, there may be future legislative, administrative or regulatory changes that affect procedures or decision-making for approving medical device or drug products. They may also affect their status as approved products. Any such legislation, regulations or administrative action, if enacted or promulgated, could result in a delay, denial, suspension or revocation of regulatory approval for any of our products.

Any of these events, in combination or alone, could disrupt our Group's business and have a material adverse effect on our Group's business, financial condition and results of operations.

2.5.1.2 We operate in many different jurisdictions and we could be adversely affected by violations of the U.S. Foreign Corrupt Practices Act and worldwide anti-corruption, anti-money laundering or other compliance laws.

The U.S. Foreign Corrupt Practices Act (*FCPA*) and similar worldwide anti-corruption laws generally prohibit companies and their intermediaries from making improper payments to public officials for the purpose of obtaining or retaining business. Our internal policies mandate compliance with these anti-corruption, anti-money laundering and other compliance laws. We operate many facilities throughout the United States and other parts of the world. Our decentralized system has thousands of persons employed by many affiliated companies, and we rely on our management structure, regulatory and legal resources, and effective operation of our compliance program to direct, manage, and monitor the activities of these employees. Despite our training, oversight and compliance programs, there can be no assurance that our internal control policies and procedures will always protect us from deliberate, reckless, or inadvertent acts of our employees or agents that contravene our Group's compliance policies or violate applicable anti-bribery, anti-money laundering or other compliance laws. Our continued expansion, including in developing countries, could increase the risk of such violations in the future.

Fresenius is constantly monitoring the business conduct of its group companies to ensure compliance with anti-corruption, anti-money laundering and other compliance laws and is investigating any potential or actual cases of non-compliance. For example, Fresenius is currently investigating certain payments made by one of its subsidiaries in three Asian countries to assess whether these payments involve breaches of anti-corruption and/or anti-money laundering regulations. Fresenius has taken measures to discontinue the relevant business conduct. It can however not be excluded that Fresenius might become the subject of investigations by authorities with respect to the relevant business conduct and that, if the conduct is found to have involved breaches of anti-corruption and/or anti money laundering regulations, fines may be imposed, third parties may claim damages, and/or that its specific subsidiary might be excluded from contracting with certain counterparties. The amount of any such fines, claims for damages by third parties, and/ or losses in sales cannot currently be determined with any certainty. In addition, there is no assurance that current or future internal investigations by Fresenius will not reveal other instances of actual or potential non-compliance with anti-bribery, anti-money laundering or other compliance laws.

Any violations of these laws, or allegations of such violations, could disrupt our business and result in a material adverse effect on our results of operations or financial condition.

2.5.1.3 We are subject to risks from legal, administrative and arbitration proceedings.

We are, or may become, involved in a number of legal, administrative and arbitration proceedings. These proceedings or potential proceedings could involve substantial claims for damages or other payments, or could seek injunctive relief. Based on a judgment or a settlement agreement, we could be obligated to pay substantial damages or fines, or could force us to act or refrain from a certain action. Our litigation costs and those of third parties (in relation to which we may have to indemnify such third parties) could also be significant.

Legal disputes can take an extended period of time to clarify and it is very difficult to predict their outcome and financial as well as other effects. The realization of any of these risks could have a material adverse effect on our business, financial condition, and results of operations.

2.6 Risks Relating to Fresenius Ireland

2.6.1 *Fresenius Ireland has no material assets or sources of revenue except for claims against other Group companies resulting from intercompany receivables.*

Fresenius Ireland is a wholly owned finance subsidiary of the Company and will on-lend the proceeds from the sale of the Notes under intercompany loans. Fresenius Ireland intends to service and repay the Notes out of the payments it receives under these intercompany loans. Fresenius Ireland has no other material assets or sources of revenue except for its claims under various intercompany receivables. Accordingly, Fresenius Ireland's ability to service and repay the Notes depends on the ability of the counterparties to the intercompany loans to service such indebtedness. Therefore, in meeting its payment obligations under the Notes, Fresenius Ireland is wholly dependent on the profitability and cash flow of the counterparties to the intercompany loans to which it is a party.

2.6.2 *Fresenius Ireland may be subject to Irish examinership procedures.*

Examinership is a procedure available under the Irish Companies Act 2014 (as amended) which facilitates the survival of Irish companies in financial difficulties. If Fresenius Ireland is unable, or likely to be unable, to pay its debts, an Irish court may appoint an examiner to oversee the operations of Fresenius Ireland and to facilitate its survival and the whole or any part of its business as a going concern.

Fresenius Ireland, the directors of Fresenius Ireland, a contingent, prospective or actual creditor of Fresenius Ireland, or shareholders of the holding company of Fresenius Ireland, at the date of presentation of the petition, not less than one-tenth of the voting share capital of Fresenius Ireland are each entitled to petition the court for the appointment of an examiner. If an examiner is appointed to Fresenius Ireland, a protection period, generally not exceeding 100 days, will be imposed so that the examiner can formulate and implement proposals for a compromise or scheme of arrangement with creditors. The examiner, once appointed, has the power to set aside contracts and arrangements entered into by the company after this

appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to this appointment.

During the period of protection, the examiner will compile proposals for a compromise or scheme or arrangement to assist in the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the relevant Irish Court when at least one class of creditors whose interests or claims would be impaired by implementation of the proposals has voted in favor of the proposals and the relevant Irish Court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement and the proposals are not unduly prejudicial to the interests of any interested party. In considering proposals by the examiner, it is likely that secured and unsecured creditors would form separate classes of creditors

During the protection period, any enforcement action by a creditor is prohibited and Fresenius Ireland is prohibited from paying any debts existing at the time of the presentation of the petition to appoint an examiner. The appointment of an examiner may restrict the ability of Fresenius Ireland to make timely payments and the rights of the holders of the Notes (the **Holders**) may be affected by the examiner's exercise of his powers.

2.7 Risks Relating to Fresenius Ireland II

2.7.1 Fresenius Ireland II has no material assets or sources of revenue except for claims against other Group companies resulting from intercompany receivables.

Fresenius Ireland II is a wholly owned finance subsidiary of the Company and will on-lend the proceeds from the sale of the Notes under intercompany loans. Fresenius Ireland II intends to service and repay the Notes out of the payments it receives under these intercompany loans. Fresenius Ireland II has no other material assets or sources of revenue except for its claims under various intercompany receivables. Accordingly, Fresenius Ireland II's ability to service and repay the Notes depends on the ability of the counterparties to the intercompany loans to service such indebtedness. Therefore, in meeting its payment obligations under the Notes, Fresenius Ireland II is wholly dependent on the profitability and cash flow of the counterparties to the intercompany loans to which it is a party.

2.7.2 Fresenius Ireland II may be subject to Irish examinership procedures.

Examinership is a procedure available under the Irish Companies Act 2014 (as amended) which facilitates the survival of Irish companies in financial difficulties. If Fresenius Ireland II is unable, or likely to be unable, to pay its debts, an Irish court may appoint an examiner to oversee the operations of Fresenius Ireland II and to facilitate its survival and the whole or any part of its business as a going concern.

Fresenius Ireland II, the directors of Fresenius Ireland II, a contingent, prospective or actual creditor of Fresenius Ireland II, or shareholders of the holding company of Fresenius Ireland II, at the date of presentation of the petition, not less than one-tenth of the voting share capital of Fresenius Ireland II are each entitled to petition the court for the appointment of an examiner. If an examiner is appointed to Fresenius Ireland II, a protection period, generally not exceeding 100 days, will be imposed so that the examiner can formulate and implement proposals for a compromise or scheme of arrangement with creditors. The examiner, once appointed, has the power to set aside contracts and arrangements entered into by the company after this appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to this appointment.

During the period of protection, the examiner will compile proposals for a compromise or scheme or arrangement to assist in the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the relevant Irish Court when at least one class of creditors whose interests or claims would be impaired by implementation of the proposals has voted in favor of the proposals and the relevant Irish Court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement and the proposals are not unduly prejudicial to the interests of any interested party. In considering proposals by the examiner, it is likely that secured and unsecured creditors would form separate classes of creditors

During the protection period, any enforcement action by a creditor is prohibited and Fresenius Ireland II is prohibited from paying any debts existing at the time of the presentation of the petition to appoint an examiner. The appointment of an examiner may restrict the ability of Fresenius Ireland II to make timely payments and the rights of the Holders may be affected by the examiner's exercise of his powers.

2.8 Risks relating to structural subordination of the Notes and the relevant Issuer's or, as applicable, the Guarantor's solvency

2.8.1 *The Notes are structurally subordinated to other creditors of the Company's subsidiaries.*

Generally, claims of creditors of a subsidiary, including trade creditors, secured creditors, and creditors holding indebtedness and guarantees issued by the subsidiary, will have priority with respect to the assets and earnings of the subsidiary over the claims of creditors of its parent company. However, Holders will have direct claims against the Guarantor itself under the guarantee issued by the Guarantor guaranteeing the Notes on an unsecured basis.

Accordingly, the Notes will be structurally subordinated to all creditors, including trade creditors, of the Guarantor's subsidiaries (including Fresenius Medical Care) other than the Group's financing subsidiaries, incl. Fresenius Ireland and Fresenius Ireland II. Any right of the Guarantor to receive assets of any subsidiary upon the insolvency or liquidation of the subsidiary (and the consequent rights of the Holders to participate in those assets) will be structurally subordinated to the claims of these subsidiary's creditors, except to the extent the Guarantor's claims do not result from (i) its shareholdings, (ii) shareholder loans (or their economic equivalent) subordinated by law, or (iii) contractually subordinated claims, in which case its claims would still be subordinated with respect to any assets of the subsidiary pledged to secure other indebtedness, and any indebtedness of the subsidiary senior to that held by the Guarantor. In addition, holders of secured indebtedness of the Guarantor would have a claim on the assets securing such indebtedness that is prior to the Holders and would have a claim that is *pari passu* with the Holders to the extent the security did not satisfy such indebtedness.

The Notes would be subordinated to any secured debt of the relevant Issuer and the Guarantor to the extent of the value of the assets securing such debt.

2.8.1.1 Although the occurrence of specific change of control events will permit Holders to require redemption or repurchase of the Notes, the relevant Issuer may not be able to redeem or repurchase such Notes.

Upon the occurrence of specific change of control events, the Holders will have the right to require the redemption or repurchase of all or part of their Notes at an amount specified in the Final Terms, plus accrued and unpaid interest. Our ability to redeem or repurchase Notes upon such a change of control event will be limited by our access to funds at the time of the redemption or repurchase. Upon a change of control event, we may be required immediately to repay the outstanding principal, any accrued interest on and any other amounts owed by us under one or more of our bank facilities or other debt. The source of funds for these repayments would be the available cash or cash generated from other sources. However, it cannot be assured that there will be sufficient funds available upon a change of control to make these repayments and any required redemption or repurchases of Notes. In that case, our failure to purchase any of the Notes would constitute an event of default under the Terms and Conditions, which would likely cause a default under other debt obligations.

2.8.1.2 The Notes and the Guarantee could become effectively subordinated to the Group's debt to the extent such debt is secured by assets that are not also securing the Notes.

Although the Terms and Conditions and the Guarantee restrict the Company's and, to the extent legally possible, its subsidiaries' ability to provide asset security for the benefit of other Capital Market Indebtedness without securing the Notes equally, the requirement to provide equal security to the Notes is subject to a number of significant exceptions and carve-outs. To the extent the relevant Issuer or the Guarantor provides asset security for the benefit of other debt without also securing the Notes, the Notes and the Guarantee will be effectively subordinated to such debt to the extent of such assets.

As a result of the foregoing, holders of (present or future) secured debt of the Group may recover disproportionately more on their claims than the Holders in an insolvency, bankruptcy or similar proceeding. The relevant Issuer and the Guarantor may not have sufficient assets remaining to make payments on the Notes or the Guarantee, respectively.

2.8.1.3 The proceeds from the enforcement of the Guarantee may not be sufficient to satisfy the obligations under the Notes.

The Notes will, upon issuance by Fresenius Ireland or Fresenius Ireland II, be guaranteed by the Guarantee as specified in the Terms and Conditions. The amount to be received upon an enforcement of the Guarantee would be dependent on numerous factors affecting the financial situation of the Guarantor at the time of its enforcement, including its other debt obligations. In the event of a foreclosure, liquidation, bankruptcy or similar proceeding, the payments under the Guarantee may not be sufficient to repay the obligations under the Notes.

2.8.1.4 Each Holder might have to enforce its claims in respect of the Guarantee directly against the Guarantor.

The Guarantee in respect of the Notes will constitute a contract for the benefit of the Holders as third-party beneficiaries in accordance with § 328(1) of the German Civil Code (*Bürgerliches Gesetzbuch*). As a consequence, each Holder will have the right to demand payment directly from the Guarantor under the Guarantee and to enforce the Guarantee directly against the Guarantor.

2.8.1.5 German insolvency laws may preclude the recovery of payments due under the Guarantee.

Insolvency proceedings with regard to the Guarantor would most likely be based on and governed by the insolvency laws of Germany, the jurisdiction under which it is organized and in which all of its assets are located.

Under German insolvency law, in particular, an insolvency administrator (*Insolvenzverwalter*) of the Guarantor may avoid (*anfechten*) transactions which are detrimental to insolvency creditors and which were affected prior to the commencement of insolvency proceedings. Such transactions can include the payment of any amounts to the Holders, as well as provision of security for their benefit. The administrator's right to avoid transactions under the German Insolvency Code (*Insolvenzordnung*) can, depending on the circumstances, extend to transactions during a period of up to ten-years prior to the petition for commencement of insolvency proceedings. In the event such transactions were successfully avoided, the Holders would be under an obligation to repay the amounts received plus interest or to waive the security provided (as the case may be). In addition, before the opening of insolvency proceedings, a creditor who has obtained an enforcement order has the right to avoid certain transactions, such as the payment of debt and the granting of security pursuant to the German Code on Avoidance (*Anfechtungsgesetz*). In particular, a transaction (which term includes the provision of security or the payment of debt) may be avoided in the following cases:

- the transaction was entered into by the debtor (i.e., the Guarantor) and is directly detrimental to its insolvency creditors if the transaction was effected (i) during the three-month period prior to the petition for commencement of insolvency proceedings over the assets of the debtor and the debtor was unable to make payments when due at the time of the transaction and the beneficiary of the transaction (i.e., the Holders) had positive knowledge thereof at such time, or (ii) after a petition for the commencement of insolvency proceedings and the beneficiary of the transaction had knowledge of either the debtor's inability to make payments when due or of the petition for commencement of insolvency proceedings at the time of the transaction;
- the transaction was entered into during the ten-year period prior to the petition for the commencement of insolvency proceedings with the debtor's actual intent to disadvantage creditors, provided that the beneficiary of such transaction had positive knowledge of the debtor's intent at the time of the transaction (such knowledge is presumed under German

insolvency laws if the beneficiary knew of the debtor's imminent insolvency and that the transaction constituted a disadvantage for the creditors);

- the transaction granting an insolvency creditor security (including a guarantor) or satisfaction to which such creditor had no right or no right to claim in such manner or at such time it was entered into and such transaction took place (i) within the month prior to the petition for commencement of insolvency proceedings; (ii) within the second or third month preceding such petition and the debtor was unable to make payments when due at the time of such transaction; or (iii) within the second and third month prior to the petition for commencement of insolvency proceedings and the creditor had positive knowledge at the time of the transaction that it was detrimental to the creditors of the debtor; or
- the transaction granting an insolvency creditor security or satisfaction to which such creditor had a right and such transaction took place (i) within the three-month period prior to the petition for the commencement of insolvency proceedings and the debtor was unable to make payments when due at the time of the transaction and the beneficiary of the transaction had positive knowledge thereof at such time, or (ii) following a petition for the commencement of insolvency proceedings and the creditor had positive knowledge of either the debtor's inability to make payments when due or of the petition for commencement of insolvency proceedings at the time of the transaction.

Generally, the Guarantor would be considered unable to make payments when due if it is not able to meet at least 90% of its due financial obligations within a period of three weeks. If their security were avoided or held unenforceable for any other reason, the Holders would cease to have any claim in respect of such security. Any amounts obtained from a transaction that has been avoided would have to be repaid plus interest.

2.8.1.6 Credit ratings may not reflect all risks of an investment in the Notes; they are not recommendations to buy or hold securities, and are subject to revision, suspension, or withdrawal at any time.

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed herein, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell, or hold securities and may be subject to revision, suspension, or withdrawal by the rating agency at any time. No assurance can be given that a credit rating will remain constant for any given period of time or that a credit rating will not be reduced or withdrawn entirely by the credit rating agency if, in its judgment, circumstances so warrant. Any suspension, reduction, or withdrawal of the credit rating assigned to the relevant Notes by one or more of the credit rating agencies may adversely affect the cost and terms and conditions of our financings and could adversely affect the value and trading of such Notes.

2.9 Liquidity Risk

2.9.1.1 There is no active public trading market for the Notes.

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Program to be listed on the official list of the Luxembourg Stock Exchange and to be admitted to trading on the regulated market of the Luxembourg Stock Exchange. However, the Program provides that Notes may be listed on other or further stock exchanges or may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance regarding the future development of a market for the Notes or the ability of Holders to sell their Notes or the price at which Holders may be able to sell their Notes. If such a market were to develop, the Notes could trade at prices that may be higher or lower than the initial offering price depending on many factors, including prevailing interest rates, the Group's operating results, the market for similar securities and other factors, including general economic conditions, performance and prospects, as well as recommendations of securities analysts. The liquidity of, and the trading market for, the Notes may also be adversely affected by declines in the market for debt securities generally. Such a decline may affect any liquidity and trading of the Notes independent of the Group's financial performance and prospects. If Notes are not listed on any exchange, pricing information for such Notes may be more difficult to obtain which may affect the liquidity of the Notes adversely.

2.10 Market Price and Exchange Rate Risk

2.10.1.1 The development of market prices of the Notes depends on various factors.

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The Holders are therefore exposed to potential unfavorable developments of market prices of their Notes which would be realized if the Holders sell the Notes prior to the final maturity of such Notes. If a Holder decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

2.10.1.2 A Holder of Notes denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes.

A Holder of Notes denominated in a foreign currency (i.e. a currency other than euro) is particularly exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors, such as macro-economic factors, speculative transactions and interventions by central banks and governments. A change in the value of any foreign currency against the euro, for example, will result in a corresponding change in the euro value of Notes denominated in a currency other than euro and a corresponding change in the euro value of interest and principal payments made in a currency other than euro in accordance with the terms of such Notes. If the underlying exchange rate falls and the value of the euro rises correspondingly, the price of the Notes and the value of interest and principal payments made thereunder expressed in euro falls. In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected.

2.11 Risks relating to specific Terms and Conditions of the Notes or associated with Notes with a specific Use of Proceeds

2.11.1.1 The Issuer may redeem the Notes early.

The relevant Issuer will always have the right to redeem the Notes if the relevant Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions. In addition, the applicable Final Terms will indicate if the relevant Issuer has the right to call the Notes prior to maturity (optional call right), among others, (i) at the option of the relevant Issuer for reason of minimal outstanding principal amount, (ii) at the option of the relevant Issuer on any call redemption date(s) at the call redemption amount specified in the Terms and Conditions, (iii) at the option of the relevant Issuer at the make-whole amount specified in the Terms and Conditions, (iv) upon the occurrence of a transaction trigger event at the early redemption amount as specified in the Terms and Conditions, and/or (v) if payments on the Notes are linked to a benchmark and such benchmark is discontinued or otherwise unavailable and it is not possible, in the opinion of the relevant Issuer, to determine a successor benchmark. If the relevant Issuer redeems the Notes prior to maturity, a Holder of such Notes is exposed to the risk that his investment will have a lower than expected yield due to such early redemption and, in addition, Holders would be required to re-invest the funds concerned earlier than expected.

2.11.1.2 Quorum requirement and SchVG risks in case of certain events of default

The Terms and Conditions provide that, in case of certain events of default, any notice declaring the Notes due and payable shall become effective only when the Fiscal Agent has received such default notices from Holders representing at least 25% of the aggregate principal amount of Notes then outstanding. Under the German Act on Debt Securities of 2009 (*Schuldverschreibungsgesetz – SchVG*), even if a default notice is given by a sufficient number of Holders of Notes, this could be rescinded by majority resolution within three months. A simple majority of votes would be sufficient for a resolution on the rescission of such acceleration but, in any case, more Holders would have to consent to a rescission than have delivered default notices.

Holders should be aware that, as a result, they may not be able to accelerate their Notes upon the occurrence of certain events of default, unless the required quorum of Holders delivers default notices and such acceleration is not rescinded by majority resolution of the Holders.

2.11.1.3 The market-value of fixed rate Notes is dependent on market interest rates.

A Holder of a fixed rate Note is exposed to the risk that the price of such Note declines as a result of an increase in the market interest rate. While the nominal interest rate of a fixed rate Note as specified in the applicable Final Terms is fixed during the life of such Note, the current interest rate on the capital market (market interest rate) typically changes on a daily basis. As the market interest rate changes, the price of a fixed rate Note also changes, but in the opposite direction. If the market interest rate increases, the price of a fixed rate Note typically falls, until the yield of such Note is approximately equal to the market interest rate. If the market interest rate falls, the price of a fixed rate Note typically increases, until the yield of such Note is approximately equal to the market interest rate. If the Holder of a fixed rate Note holds such Note until maturity, changes in the market interest rate are without relevance to such Holder as the Note will be redeemed at a specified redemption amount, usually the principal amount of such Note.

2.11.1.4 A Holder of a floating rate Note is exposed to the risk of fluctuating interest rate levels and uncertain interest income.

A Holder of a floating rate Note is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the yield of floating rate Notes in advance. Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Floating rate Notes may be structured to include caps or floors, or any combination of those features. The effect of a cap is that the amount of interest will never rise above and beyond the predetermined cap, so that the Holder will not be able to benefit from any actual favorable development beyond the cap. The yield could therefore be considerably lower than that of similar floating rate Notes without a cap.

2.11.1.5 Risks associated with the reform of EURIBOR and other interest rate benchmarks'

The Euro Interbank Offered Rate (**EURIBOR**) and other interest rates or other types of rates and indices which are deemed "benchmarks" (each a **Benchmark** and together, the **Benchmarks**) have become the subject of regulatory scrutiny and recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such Benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to such a Benchmark.

International proposals for reform of Benchmarks include the Benchmarks Regulation which is fully applicable since 1 January 2018.

The Benchmarks Regulation could have a material impact on Notes linked to a Benchmark, including in any of the following circumstances:

- a rate or index which is a Benchmark may only be used if its administrator obtains authorization or is registered and in case of an administrator which is based in a non-EU jurisdiction, if the administrator's legal benchmark system is considered equivalent (article 30 Benchmarks Regulation), the administrator is recognized (article 32 Benchmarks Regulation) or the Benchmark is endorsed (article 33 Benchmarks Regulation) (subject to applicable transitional provisions). If this is not the case, Notes linked to such Benchmarks could be impacted and might have to be de-listed, adjusted, redeemed prior to maturity or otherwise impacted; and
- the methodology or other terms of the Benchmark could be changed in order to comply with the terms of the Benchmarks Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or

level, and could impact the Notes, including Calculation Agent determination of the rate or level in its discretion.

On 3 July 2019 the Belgian Financial Services and Markets Authority authorized EMMI as the administrator for the EURIBOR. This authorization as an administrator confirms, that the requirements contained in the Benchmarks Regulation regarding the new hybrid methodology for determining the EURIBOR have been met. The EURIBOR hybrid methodology complements the former quote-based determination by a methodology based on, whenever possible, actual transactions. In November 2019 EMMI confirmed that all panel banks successfully have implemented the new hybrid EURIBOR methodology. The European Central Bank is currently consulting regarding a EUR-STR-based fallback for the EURIBOR.

In addition to the aforementioned Benchmarks Regulation, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for floating rate Notes which are linked to such Benchmark will be determined for the relevant period by the fallback provisions applicable to such Notes, which in the end could lead, inter alia, to determination of the applicable interest rate on the basis of another benchmark determined by the Issuer in its discretion, or to a previously available rate of the Benchmark being applied until maturity of the floating rate Notes, effectively turning the floating rate of interest into a fixed rate of interest, or to an early termination of the relevant Notes at the option of the Issuer. Under these fallback provisions, the Benchmark will be substituted, if possible, by a replacement offered interest rate or an alternative offered interest rate determined by the Issuer (possibly after consultation with an independent advisor). If this is not possible, the interest rate for the relevant interest period will be determined on the basis of the offered interest rate that was used for the last preceding interest period and such rate will continue to apply for future interest periods of the Notes until a replacement offered interest rate or an alternative offered interest rate will be determined by the Issuer in accordance with the fallback provisions. In addition, if, in the Issuer's opinion, it is not possible to determine a replacement offered interest rate or an alternative offered interest rate in accordance with the fallback provisions and if the Final Terms so provide, the Issuer will be entitled to call the Notes for redemption at their principal amount, together with interest accrued (if any). Due to the uncertainty concerning the availability of a replacement offered interest rate or an alternative offered interest rate, the relevant further fallback provisions may not operate as intended at the relevant time.

Any changes to a Benchmark as a result of the Benchmarks Regulation or other initiatives, could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method of determining a Benchmark could have an effect on the value of any Notes linked to the relevant Benchmark, investors should be aware that any changes to a relevant Benchmark may have a material adverse effect on the value or liquidity of, and the amounts payable on, floating rate Notes whose rate of interest is linked to such Benchmark.

2.11.1.6 Risks associated with Notes with a specific Use of Proceeds, such as Green Bonds or Sustainability Bonds

The Final Terms relating to any tranche of Notes issued under the Program may provide that it will be the relevant Issuer's intention to apply the proceeds from an offer of those Notes specifically for projects and activities that promote climate friendly and other environmental purposes (**Green Projects**) or specific social purposes (**Social Projects**). Such Notes are hereinafter referred to as sustainability bonds (**Sustainability Bonds**). Prospective investors should have regard to the information set out in the relevant Final Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Sustainability Bonds together with any other investigation such investor deems necessary.

In particular, no assurance is given by the relevant Issuer or, as applicable, the Guarantor that the use of such proceeds for any Green or Social Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in

particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green or Social Projects. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green", "social" or "sustainable" or an equivalently labelled project or as to what precise attributes are required for a particular project to be defined as "green", "social" or "sustainable" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any Green or Social Projects will meet any or all investor expectations regarding such "green", "social", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green or Social Projects. Also, the criteria for what constitutes a Green or Social Project may be changed from time to time.

In connection with the issue of Sustainability Bonds, the relevant Issuer may appoint one or more external provider(s) to provide a sustainability or equivalent evaluation (the **Evaluation**). Such Evaluation is not incorporated in, and does not form part of, this Prospectus. Such Evaluation provides an opinion on certain environmental, social and related sustainability considerations and is not intended to address any credit, market or other aspects of an investment in Sustainability Bonds including without limitation market price, marketability, investor preference or suitability of any security. Such Evaluation is a statement of opinion, not a statement of fact. Such Evaluation is not a recommendation to buy, sell or hold Sustainability Bonds. No assurance is given that such Evaluation correctly assesses the potential environmental or social impact of the issue of Sustainability Bonds or the relevant Issuer generally. Such Evaluation generally is only current as of the date it is released and may be updated, suspended or withdrawn by the relevant provider(s) at any time. Currently, the providers of sustainability or equivalent evaluations are not subject to any specific regulatory regime or other regime or oversight. Prospective investors must determine for themselves the relevance of any Evaluation for the purpose of any investment in Sustainability Bonds. In particular, no assurance or representation is made or given that any such Evaluation reflects any present or future requirements, investment criteria or guidelines which may apply to any investor or its investments. Holders of Sustainability Bonds will have no recourse against the provider(s) of any Evaluation.

In the event that any series of Notes is listed or admitted to trading on any dedicated "green", "environmental", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer, the Dealers or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements with respect to investment criteria or guidelines with which any investor or its investments are required to comply under its own by-laws or other governing rules or investment portfolio mandates. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer, the Dealers or any other person that any such listing or admission to trading will be obtained in respect of any series of Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of that series of Notes.

While it is the intention of the relevant Issuer to apply an amount equivalent to the proceeds of any tranche of Notes so specified for Green Project and/or Social Projects, as applicable, in, or substantially in, the manner described in the relevant Final Terms, there can be no assurance by the relevant Issuer, the Dealers or any other person that the relevant project(s) or use(s) the subject of, or related to, any Green Projects and/or Social Projects will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such Green Projects and/or Social Projects. Nor can there be any assurance by the relevant Issuer, the Dealers or any other person that such Green Projects and/or Social Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or any failure by the relevant Issuer to do so will not give the Holders the right to early terminate the relevant Notes.

Any failure to apply an amount equivalent to the proceeds of any issue of Notes for any Green Projects and/or Social Projects as aforesaid and/or withdrawal of any Evaluation or certification or any such opinion or certification attesting that the relevant Issuer is not complying in whole or in part with any matters for which such Evaluation or certification is opining or certifying on and/or any such Notes no

longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance Green Projects and/or Social Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

2.12 Risks relating to laws and regulations applicable to the Notes

2.12.1.1 Resolutions of Holders

If the Terms and Conditions of Notes provide for meetings of Holders of a series of Notes or the taking of votes without a meeting, the Terms and Conditions of such Notes and the Guarantee may be amended (as proposed or agreed by the relevant Issuer and/or Guarantor) by majority resolution of the Holders of such Notes and any such majority resolution will be binding on all Holders. Any Holder is therefore subject to the risk that its rights against the Issuer under the Terms and Conditions of the relevant series of Notes are amended, reduced or even cancelled by a majority resolution of the Holders. Any such majority resolution will even be binding on Holders who have declared their claims arising from the Notes due and payable based on the occurrence of an event of default but who have not received payment from the Issuer or, as applicable, the Guarantor prior to the amendment taking effect. According to the German Act on Debt Securities of 2009 (Schuldverschreibungsgesetz – *SchVG*), the relevant majority for Holders' resolutions is generally based on votes cast, rather than on the aggregate principal amount of the relevant Notes outstanding. Therefore, any such resolution may effectively be passed with the consent of less than a majority of the aggregate principal amount of the relevant Notes outstanding.

2.12.1.2 Holders' Representative

If the Notes provide that the Holders of a series of Notes are entitled to appoint a Holders' representative (the *Holders' Representative*) by a majority resolution of such Holders or if a Holders' Representative has been appointed in the Terms and Conditions of a series of Notes it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer or, as applicable, the Guarantor, such right passing to the Holders' Representative who is then exclusively responsible to claim and enforce the rights of all the Holders of the relevant series of Notes.

3. PRESENTATION OF FINANCIAL INFORMATION

3.1 General Information

References to “2020” and “2019” (unless otherwise specified) shall refer to the financial years ended December 31, 2020 and 2019, respectively.

The Company’s consolidated financial statements and other financial information contained herein have been prepared in accordance with the International Financial Reporting Standards of the International Accounting Standards Board as adopted by the European Union (*IFRS*) applicable at the relevant date (i.e. the reporting date). We use IFRS to comply with the reporting requirements of the German Commercial Code (*Handelsgesetzbuch*) and other German laws.

The unconsolidated financial statements of Fresenius Ireland and Fresenius Ireland II included in this Prospectus have been prepared in accordance with IFRS. Unless otherwise indicated, our financial information in this Prospectus complies with IFRS applicable at the relevant date (i.e., the reporting date of the respective annual).

As of December 31, 2020, the Company owned 32.23% of the subscribed capital of Fresenius Medical Care AG & Co. KGaA (*FMC AG & Co. KGaA*). FMC AG & Co. KGaA is a German partnership limited by shares. Fresenius Medical Care Management AG, the general partner of FMC AG & Co. KGaA, is a wholly owned subsidiary of the Company. Through this structure, the Company has rights that give Fresenius SE & Co. KGaA the ability to direct the relevant activities and, hence, the earnings of FMC AG & Co. KGaA. Therefore, FMC AG & Co. KGaA is fully consolidated in the consolidated financial statements of the Fresenius Group. However, the Company receives cash flows generated by FMC AG & Co. KGaA only to the extent they are distributed to the Company as dividends or payments under existing agreements, such as rental and service agreements. Dividends are received by the Company only in proportion to its economic interest in FMC AG & Co. KGaA.

Certain numerical data, financial information and market data in this Prospectus are subject to rounding adjustments that were carried out according to customary commercial standards. As a result, the aggregate amounts herein may not correspond in all cases to the data contained in the underlying sources. A dash (“-”) indicates that no data was reported for a specific line item in the relevant financial year or period, while a zero (“0”) is used when the pertinent figure, after rounding, amounts to nil.

3.2 EBIT/ EBITDA

“EBIT” refers to earnings before interest, income taxes and noncontrolling interest.

In this Prospectus, we present EBITDA (adjusted and unadjusted). “EBITDA” refers to operating income (including noncontrolling interests) plus depreciation and amortization. We do not present EBITDA as a measure of our operating results. Our management believes that the presentation of EBITDA is helpful to investors as a measure of our ability to service debt. However, investors should not construe EBITDA as an alternative expression of net income determined in accordance with IFRS or cash flows from operations, investing activities or financing activities as a measure of cash flows.

We show EBITDA for each of our business segments before giving effect to the segment Corporate/Other, to which certain sales and costs are allocated. For this reason, the EBITDA contributions of each of our business segments when added together may add up to more than 100% of our total EBITDA.

The corporate bodies of Management SE are the management board, the supervisory board and the general shareholders' meeting. Management SE has a two-tier management and control system consisting of the management board and the supervisory board. The powers of these bodies are governed by the Regulation (EC) No. 2157/2001, the German Law on Implementation of the Regulation (EC) No. 2157/2001 (*SE-Ausführungsgesetz*), the German Stock Corporation Act (*Aktiengesetz*), the Articles of Association and the rules of procedure of the management board and the supervisory board. The two boards work independently of each other. No one is allowed to be a member of both bodies simultaneously.

The management board of Management SE is responsible for managing Management SE's day-to-day business. The supervisory board of Management SE advises and supervises the management board, in particular the managing of the Company by Management SE, and is responsible for appointing and removing members of the management board. The supervisory board generally may not exercise any management functions. 4.1.5.3 Fresenius SE & Co. KGaA

4.1.5.7 Conflicts of Interest of the Members of the Corporate Bodies

Some members of the Management Board and other members of the Company's management are also members of the management board and/or members of the management of subsidiaries of the Company. Members of the Management Board also serve on the managing bodies of FMC AG & Co. KGaA, Fresenius Kabi AG, Helios Kliniken GmbH and VAMED AG, as well as of the subsidiaries of these companies. Furthermore, some members of supervisory board of Management SE are also members of the supervisory board and/or members of supervisory boards of subsidiaries of the Company.

Although the interests of the Company and its subsidiaries are generally in line with each other, there can be no assurance that conflicts of interests will not arise in certain instances. These potential conflicts of interests could be particularly important in light of the minority ownership of the Company in FMC AG & Co. KGaA. The German Stock Corporation Act and the German Corporate Governance Code contain provisions that aim to protect affected companies from the negative effects of potential conflicts of interest.

Beyond this, there are no potential conflicts of interests between the obligations of the members of the Management Board and the supervisory board of Management SE towards the Company and their private interests or other obligations. As far as the Company is aware, there are no other potential conflicts of interests between the obligations of the members of the supervisory board of the Company towards the Company and their private interests.

4.1.6 Corporate Governance

The German Corporate Governance Code (*Deutsche Corporate Governance Kodex*, the **Corporate Governance Code**) contains recommendations and suggestions for managing and monitoring listed companies in Germany. It is based on internationally and nationally recognized standards for good and responsible corporate governance. The purpose of the Corporate Governance Code is to make the German corporate governance system transparent for investors. The Corporate Governance Code was passed by the Government Commission of the German Corporate Governance Code on February 26, 2002 and was last amended on December 16, 2019. The amended version was published in the Federal Gazette on March 20, 2020.

There is no legal obligation to comply with the recommendations or suggestions of the Corporate Governance Code. However, the German Stock Corporation Act requires that the management board and the supervisory board of a German listed company either declare on an annual basis that the recommendations of the Corporate Governance Code were and will be adhered to or state which recommendations were or will not be followed. This declaration must be available to shareholders on a constant basis. No disclosure is required when companies deviate from the suggestions in the Corporate Governance Code.

The supervisory board of the Company and the Management Board have adopted the following declaration of conformity (*Entsprechenserklärung*) in October and December 2020 and have made it available to shareholders. In accordance with Section 161 of the German Stock Corporation Act

(*Aktiengesetz*), this declaration, as well as past declarations, is available on the Company's website, at www.fresenius.com, under the heading "The Healthcare Group/Management / Corporate Governance":

"The Management Board of the General Partner of Fresenius SE & Co. KGaA, Fresenius Management SE (hereafter the Management Board) and the Supervisory Board of Fresenius SE & Co. KGaA declare that since the issuance of the previous Declaration of Conformity in December 2019, the recommendations of the "Government Commission on the German Corporate Governance Code" published by the Federal Ministry of Justice and Consumer Protection (*Bundesministerium der Justiz und für Verbraucherschutz*) in the official section of the Federal Gazette (*Bundesanzeiger*) (hereafter the Code) in the version of February 7, 2017, and in the version of December 16, 2019 since its publication in the Federal Gazette on March 20, 2020, have been met and that the Code in its version of December 16, 2019 will also be met in the future. Only the following recommendations of the Code in the version of February 7, 2017 and of December 16, 2019, have not and will not be met as explained in the following:

- Code recommendation B. 5 (formerly Code number 5.1.2 paragraph 2 sentence 3): age limits of the Management Board members

Pursuant to the Code recommendation B.5 (formerly Code number 5.1.2 paragraph 2 sentence 3) an age limit is to be specified for members of the Management Board and disclosed in the Corporate Governance Statement.

Fresenius has not yet specified an age limit for members of the Management Board, as this might unduly limit the selection of qualified candidates. Nevertheless, Fresenius intends to examine in detail the introduction of an age limit in 2021.

- Code recommendation C. 2 (formerly Code number 5.4.1 paragraph 2 and paragraph 4): age limit for members of the Supervisory Board

Pursuant to the Code recommendation C.2 (formerly Code number 5.4.1 paragraph 2 and paragraph 4), an age limit is to be specified for members of the Supervisory Board and disclosed in the Corporate Governance Statement.

Fresenius has not yet specified an age limit and a regular limit for the tenure of a member of the Supervisory Board, as this might unduly limit the selection of qualified candidates. Nevertheless, Fresenius intends to examine in detail the introduction of an age limit in 2021.

- Code recommendations G.1 – G.3 and G.6: compensation of the members of the Management Board

The principles, recommendations and suggestions relating to Management Board compensation have been extensively revised. In contrast to the Code, the Act Implementing the Second EU Shareholder Rights Directive (ARUG II) envisages transitional provisions for the implementation of a new compensation system for the Management Board. In order to establish a compensation system for the Management Board that gives balanced consideration to the interests of all parties involved, in line with the statutory transitional provisions, Fresenius has decided to submit a revised compensation system to the Annual General Meeting for approval in 2021. Until such point in time, the existing compensation system will remain in place. In this respect, Fresenius declares (prospectively merely temporary) non-compliance with the Code recommendations G.1 to G.3 and G.6.

- Precautionary statement of non-compliance with regards to the Management Board compensation of Mr. Rice Powell

Management Board member Rice Powell receives his compensation exclusively from Fresenius Medical Care Management AG. Up until the introduction of the new compensation system that took effect on January 1, 2020, there were no caps in place on the compensation at Fresenius Medical Care Management AG for all compensation components and thus for overall compensation. A compensation cap by specific amount is therefore also not included in the corresponding model table of the compensation report. In addition, there was until then no Code-complying severance payment cap in place. For this reason, with regards to Mr. Rice Powell, a precautionary statement of non-compliance with Code numbers 4.2.3

paragraph 2 sentence 6, 4.2.3 paragraph 4 and 4.2.5 paragraph 3 is made with reference to the compensation system of Fresenius Medical Care effective until December 31, 2019.”

4.1.7 Share Capital

As of December 31, 2020, the Company had issued a share capital of €557,540,909.00 represented by 557,540,909 voting ordinary shares, each of which grants one vote in the general shareholders’ meeting of the Company. All shares have been fully paid up.

Based on notices the Company received pursuant to Section 33 et seq. of the German Securities Trading Act (*Wertpapierhandelsgesetz*) until March 15, 2021, no other shareholders held (directly or indirectly) as per the day of the notice, 5% or more of its outstanding voting rights.

KGaA the ability to direct the relevant activities and, hence, the earnings of FMC AG & Co. KGaA. Therefore, FMC AG & Co. KGaA is fully consolidated in the consolidated financial statements of the Fresenius Group. Net income and net assets attributable to other shareholders of FMC AG & Co. KGaA are eliminated and recorded under noncontrolling interest in our consolidated statement of income and consolidated statement of financial position. - (4) EBITDA (earnings before interest, tax, depreciation and amortization expenses) means operating income plus depreciation and amortization and is derived from our operating income determined in accordance with IFRS. EBITDA is the basis for determining compliance with certain covenants contained in our Syndicated Credit Agreement or may be relevant in other major financing arrangements. We are presenting this figure on the basis that investors may find it helpful as a measure of our performance. EBITDA should not be considered to be an alternative to net earnings determined in accordance with IFRS or to cash flow from operations, investing activities or financing activities. In addition, not all funds depicted by EBITDA are available for management's discretionary use. For example, a substantial portion of such funds are subject to contractual restrictions and functional requirements for debt service, to fund necessary capital expenditures and to meet other commitments from time to time. EBITDA, as calculated, may not be comparable to similarly titled measures reported by other companies. EBITDA includes EBITDA of Fresenius Medical Care because we fully consolidate FMC AG & Co. KGaA.
- (5) Net debt includes short-term debt, short-term debt from related parties, current portion of long-term debt, current portion of long-term lease liabilities, current portion of bonds, current portion of convertible bonds, long-term debt less current portion, long-term lease liabilities less current portion, bonds less current portion, convertible bonds less current portion, less cash and cash equivalents.
- (6) In calculating our ratio of net debt to EBITDA, adjusted, our EBITDA, adjusted for the financial years ended December 31, 2020 and December 31, 2019 have been further adjusted to reflect twelve months of EBITDA effect from acquisitions within such period.

EBITDA, adjusted for the year ended December 31, 2020 amounted to €7,141 million. EBITDA, adjusted for the year ended December 31, 2019 amounted to €7,110 million.

At LTM average exchange rates for both net debt and EBITDA.

4.1.13 Trend Information and Significant Changes

The accelerating effects of excess mortality are continuing into 2021 and are expected to have a material impact on Fresenius Medical Care's results and hence on the Group's net income growth. The overall development of the global situation remains uncertain.

Other than that, there has been no material adverse change in the prospects of the Company and no significant change in the financial performance or in the financial position of the Fresenius Group since December 31, 2020.

The European Commission shall publish that updated list in the Official Journal of the European Union within 30 days following such update.

³ According to S&P: “An obligor rated ‘BBB’ has adequate capacity to meet its financial commitments. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments. Ratings from ‘AA’ to ‘CCC’ may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.”

⁴ A credit rating assesses the creditworthiness of an entity and informs an investor therefore about the probability of the entity being able to redeem invested capital. It is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

⁵ Moody's Deutschland GmbH is established in Germany and is registered under the CRA Regulation.

⁶ According to Moody's: “Obligations rated Baa are subject to moderate credit risk. They are considered medium-grade and as such may possess speculative characteristics. Moody's appends numerical modifiers 1, 2, and 3 to the respective rating classification ... The modifier 3 indicates that the obligation ranks in the lower end of its generic rating category.”

⁷ According to Fitch Ratings Limited and Fitch: “‘BBB’ ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity. The modifiers ‘+’ or ‘-’ may be appended to a rating to denote relative status within major rating categories.”

5. BUSINESS OF THE FRESENIUS GROUP

5.1 Overview

The Fresenius Group is a global health care group providing products and services for dialysis, hospitals, and outpatient medical care. In addition, Fresenius focusses on hospital operations. It also manages projects and provides services for hospitals and other health care facilities. The health care sector is one of the world's largest industries. It is relatively insensitive to economic fluctuations compared to other sectors. Major trends affecting the health care sector are: (i) rising medical needs deriving from aging population; (ii) the growing number of chronically ill and multimorbid patients; (iii) stronger demand for innovative products and therapies; (iv) advances in medical technology; (v) the growing health consciousness, which increases the demand for health care services and facilities. In the emerging countries, drivers are: (i) expanding availability and correspondingly greater demand for basic health care and (ii) increasing national incomes and hence higher spending on health care. At the same time, the cost of health care is rising and claiming an ever-increasing share of national income. Health care structures are being reviewed and cost-cutting potential identified in order to contain the steadily rising health care expenditures. However, such measures cannot compensate for the cost pressure. Market-based elements are increasingly being introduced into the health care system to create incentives for cost- and quality-conscious behavior. Overall treatment costs will be reduced through improved quality standards. In addition, ever-greater importance is being placed on disease prevention and innovative reimbursement models linked to treatment quality standards.

The Fresenius Group includes the following four business segments: Fresenius Medical Care, Fresenius Kabi, Fresenius Helios and Fresenius Vamed. All indication of competitive positions or our business segments or product segments in this section are based on our internal estimates (using publicly available data, where possible), unless otherwise indicated.

5.1.1 *Fresenius Medical Care*

Fresenius Medical Care is the world's leading provider of products and services for individuals with renal diseases, based on publicly reported sales and number of patients treated.

5.1.2 *Fresenius Kabi*

Fresenius Kabi is a leading supplier of intravenously administered generic drugs (*IV drugs*), biosimilar products with a focus on oncology and autoimmune diseases, clinical nutrition, and infusion therapies. In addition, Fresenius Kabi is also a supplier of medical devices and products for transfusion technology.

5.1.3 *Fresenius Helios*

Fresenius Helios is Europe's leading private hospital operator according to publicly reported sales. The company comprises Helios Germany and Helios Spain (Quirónsalud). Helios Germany operates 89 hospitals, around 130 outpatient clinics, 6 prevention centers (as of December 31, 2020) and treats approximately 5.2 million patients annually.

Helios Spain operates 46 hospitals, 70 outpatient clinics and around 300 occupational risk prevention centers (as of December 31, 2020), and treats approximately 15 million patients in Spain and Latin America annually. In addition, Fresenius Helios is active in Latin America with 6 hospitals and as a provider of medical diagnostics.

5.1.4 *Fresenius Vamed*

Fresenius Vamed manages projects and provides services for hospitals and other health care facilities worldwide and is a leading post-acute care provider in central Europe. The portfolio ranges along the entire value chain: from project development, planning and turnkey construction, via maintenance and technical management, to total operational management. The services are aimed at various areas of healthcare, ranging from prevention, acute care, rehabilitation and nursing.

5.2 Our Business

The Fresenius Group has a global presence in more than 100 countries and has an international sales network and maintains more than 90 production sites worldwide. In the year ended December 31, 2020, EBITDA, adjusted of the Fresenius Group was €7,132 million (2019: €7,104 million)¹⁰. The impact of the COVID-19 pandemic had a negative effect of an estimated 2 to 3 percentage points on currency-adjusted sales growth. The Fresenius Group had a sustainable organic sales growth in the past even in a volatile economic environment. Fresenius Medical Care is fully consolidated into the financial statements of the Fresenius Group.

5.2.1 Fresenius Medical Care

Fresenius Medical Care is the world's leading provider of products and services for individuals with renal diseases, based on publicly reported sales and number of patients treated. It provides dialysis care and related services to patients with end-stage renal disease (*ESRD*), as well as other health care services. Fresenius Medical Care develops, manufactures and distributes a wide variety of health care products, which include dialysis and non-dialysis products. Fresenius Medical Care's dialysis products include hemodialysis machines, peritoneal dialysis cyclers, dialyzers, peritoneal dialysis solutions, hemodialysis concentrates, solutions and granulates, bloodlines, renal pharmaceuticals and systems for water treatment. Fresenius Medical Care's non-dialysis products include acute cardiopulmonary and apheresis products. Fresenius Medical Care supplies dialysis clinics it owns, operates or manages with a broad range of products and also sells dialysis products to other dialysis service providers. Fresenius Medical Care describes certain of its other health care services as "Care Coordination".

Care Coordination currently includes, but is not limited to, value and risk-based arrangements, pharmacy services, vascular, cardiovascular and endovascular specialty services as well as ambulatory surgery center services, physician nephrology and cardiology services and ambulant treatment services. All of these Care Coordination services together with dialysis care and related services represent the Fresenius Medical Care's health care services.

Fresenius Medical Care is the world's leading provider of dialysis services with a market share of about 9% based on the number of treated patients. As of December 31, 2020, Fresenius Medical Care provided dialysis treatment to 346,553 patients (345,096 patients as of December 31, 2019) at 4,092 dialysis clinics (3,994 as of December 31, 2019) worldwide, located in approximately 50 countries. In 2020, it provided 53,575,255 dialysis treatments (52,148,107 dialysis treatment in 2019).

In the year ended December 31, 2020, EBITDA of Fresenius Medical Care was €4,090 million (2019: €3,913 million). Although Fresenius Medical Care is fully consolidated in our financial statements, the Company owned approximately 32.2% of the subscribed capital of Fresenius Medical Care at December 31, 2020 and we receive cash flows from it only to the extent that dividends are paid to us and from existing agreements such as rental and service agreements.

The number of dialysis patients worldwide increased by approximately 3% in 2020 (by 6% in 2019).

5.2.1.1 Dialysis Services

Fresenius Medical Care provides dialysis treatment and related laboratory and diagnostic services through its global network of outpatient dialysis clinics. At its clinics, Fresenius Medical Care provides

hemodialysis treatments at individual stations through the use of dialysis machines and disposable products.

As part of the dialysis therapy, Fresenius Medical Care provides a variety of services to ESRD patients at its dialysis clinics in the United States. These services include administering erythropoietin stimulating agents (*ESAs*), which are synthetic engineered hormones that stimulate the production of red blood cells to treat anemia, a medical complication that ESRD patients frequently experience. Fresenius Medical Care administers *ESAs* to most of its patients in the United States. *ESAs* have historically constituted a material portion of Fresenius Medical Care's overall costs of treating its ESRD patients.

Fresenius Medical Care's clinics also offer services for home dialysis patients, the majority of whom receive peritoneal dialysis treatment. For these patients, Fresenius Medical Care provides materials, training and patient support services, including clinical monitoring, follow-up assistance and arranging for delivery of supplies to the patient's residence. With the acquisition of NxStage Medical, Inc (*NxStage*) in 2019, Fresenius Medical Care broadened its offerings of home hemodialysis treatment option. NxStage develops, produces, and markets medical devices for use in home dialysis as well as in the critical care setting.

Fresenius Medical Care also provides dialysis services under contract to hospitals in the United States on an "as needed" basis for hospitalized ESRD patients and for patients suffering from acute kidney failure. Fresenius Medical Care provides services to these patients either at their bedside, using portable dialysis equipment, or at the hospital's dialysis site. Contracts with hospitals provide for payment at negotiated rates that are generally higher than the Medicare reimbursement rates for chronic in-clinic outpatient treatments.

5.2.1.2 Dialysis Products

Based on internal estimates, publicly available market data and Fresenius Medical Care's data of significant competitors, Fresenius Medical Care is the world's largest manufacturer and distributor of equipment and related products for hemodialysis and the second largest manufacturer and distributor of peritoneal dialysis products, measured by publicly reported revenues. Fresenius Medical Care supplies dialysis products to its dialysis clinics and also sells its dialysis products directly and through distributors in around 150 countries. Most of its customers are dialysis clinics. Fresenius Medical Care produces and distributes a wide range of machines and disposables for hemodialysis (*HD*), peritoneal dialysis (*PD*) and critical care, including acute dialysis. Severe COVID-19 cases often cause acute kidney failure, which has significantly increased worldwide demand for dialysis solutions needed to conduct acute dialysis. In 2020, Fresenius Medical Care accelerated the work on the new production line at St. Wendel plant in response to higher demand caused by COVID-19 pandemic. Hence, Fresenius Medical Care was able to put it into operation several months ahead of schedule.

5.2.1.3 Hemodialysis Machines

Fresenius Medical Care's advanced line of hemodialysis machines includes four series. Fresenius Medical Care developed the 4008 and 5008 Series for its markets outside of North America and the 2008 Series for the North American market. In 2016, Fresenius Medical Care introduced the series 6008 with the launch of the 6008 CAREsystem. In January 2019, Fresenius Medical Care launched the 4008A dialysis machine, specifically designed for emerging markets, in various countries, including India.

5.2.1.4 Dialyzers

Dialyzers are specialized filters that remove, toxins and excess water from the blood during dialysis. Fresenius Medical Care estimates that it is the leading worldwide producer of polysulfone dialyzers. Fresenius Medical Care manufactures several series including Hemoflow™, FX class® and its Optiflux® series, the leading dialyzer brand in the U.S.

5.2.1.5 Home Dialysis Products

Peritoneal dialysis

Fresenius Medical Care offers a full line of peritoneal dialysis systems and solutions for continuous ambulatory peritoneal dialysis (**CAPD**), automated peritoneal dialysis (**APD**) and home treatments.

CAPD Therapy: The stay•safe® system has been specifically designed to help patients with their daily self-care CAPD treatment in a safe and convenient way.

APD Therapy: The effectiveness of APD therapy depends on the solution dwell time in the abdomen, the composition of the solution used, the volume of solution and the duration of the treatment, usually approximately 8–10 hours. APD using Fresenius Medical Care's product line, which includes its sleep•safe cycler, sleep•safe harmony cycler and Liberty® cycler, offers a number of benefits to PD patients.

Home hemodialysis

Hemodialysis can also be done by patients in their own home. Home Hemodialysis (**Home HD**) allows patients to dialyze more frequently for shorter periods than in a dialysis clinic and can improve treatment results and quality of life of patients.

Fresenius Medical Care offers two distinct systems that facilitate home hemodialysis. In addition to the 2008K@home, the 5008S CorDiax HD and the 4008S machines mentioned above, it also offers the NxStage® System One™.

5.2.1.6 Acute dialysis

Acute dialysis is intended to provide a full portfolio of proven blood purification therapies for critically ill patients with Acute Kidney Injury, including Continuous Renal Replacement Therapy as well as further treatment options such as therapeutic plasma exchange, carbon dioxide removal and sepsis therapy. Fresenius Medical Care's goal is to provide state-of-the-art therapies supporting impaired kidneys which are easy to operate with a high degree of safety. Its portfolio includes acute dialysis machines, dialysis fluids, hemofilters, plasma filters, adsorbers and a variety of treatment kits and catheters.

5.2.1.7 Other Dialysis Products

Fresenius Medical Care manufactures and/or distributes arterial, venous, single needle and pediatric bloodlines. It produces both liquid and dry dialysate concentrates. Fresenius Medical Care also produces dialysis solutions in bags, including solutions for priming and rinsing hemodialysis bloodlines, as well as connection systems for central concentrate supplies and devices for mixing dialysis solutions and supplying them to hemodialysis machines. Other products include solutions for disinfecting and decalcifying hemodialysis machines, fistula needles, hemodialysis catheters, and products for acute renal treatment.

5.2.1.8 Non-Dialysis Products

Therapeutic apheresis. Within the portfolio of therapeutic apheresis products, Fresenius Medical Care offers extracorporeal therapy options for patients who cannot be sufficiently treated through conventional pharmaceutical regimens. This therapy uses selective absorbers and filters for the cleaning of blood or plasma compartments.

Liver support therapy. With Prometheus®, Fresenius Medical Care offers a combinational system of dialysis modality and plasma apheresis to clean the blood from soluble and non-soluble toxins arising in the context of acute liver failure.

Extracorporeal lung and heart assist therapies. In December 2016, Fresenius Medical Care acquired Xenios AG, a company which focuses on research and innovation of products for extracorporeal heart and lung support, in particular for the indicators of acute respiratory distress syndrome, chronic

obstructive pulmonary disease and cardiogenic shock. The products and therapies performing extracorporeal gas exchange offer a wide range of heart and lung support from partial CO₂ removal up to full oxygenation, supporting, preventing or replacing the need for mechanical ventilation. Xenios AG's Novalung®, a heart and lung support system for the treatment of acute respiratory or cardiopulmonary failure, was approved by the FDA in February 2020 and is the first extracorporeal membrane oxygenation system to be cleared for more than six hours of use as extracorporeal life support.

5.2.1.9 Renal Pharmaceuticals

Fresenius Medical Care continues to acquire and in-license renal pharmaceuticals to improve dialysis treatment for its patients. Below are the primary renal pharmaceuticals Fresenius Medical Care has acquired or for which it has obtained licenses for use.

5.2.1.10 PhosLo®

In November 2006, Fresenius Medical Care acquired PhosLo®, a calcium-based phosphate binder. It has received approval of PhosLo® in selected European countries. In October 2008, a competitive generic phosphate binder was introduced in the U.S. market, which reduced Fresenius Medical Care PhosLo® sales in 2009. In October 2009, Fresenius Medical Care launched an authorized generic version of PhosLo® to compete in the generic calcium acetate market. In April 2011, the FDA approved Fresenius Medical Care's New Drug Application for Phoslyra®, a liquid formulation of PhosLo®, and it continues to commercialize the authorized generic version of calcium acetate as well as Phoslyra® in the U.S. market.

5.2.1.11 Venofer® and Ferinject®

In 2008, Fresenius Medical Care entered into two separate and independent license and distribution agreements, one for certain countries in Europe and the Middle East (with Vifor (International) Ltd. (a subsidiary of Swiss-based Pharma Ltd)) and one for the U.S. (with American Regent, Inc. (formerly Luitpold Pharmaceuticals Inc.)), to market and distribute intravenous iron products, such as Venofer® (iron sucrose) and Ferinject® (ferric carboxymaltose) (outside of the U.S.). Both drugs are used to treat iron deficiency anemia experienced by non-dialysis chronic kidney disease (**CKD**) patients as well as dialysis patients. Venofer® is the leading intravenous iron product worldwide. The first agreement concerns all commercialization activities for these intravenous iron products in the field of dialysis and became effective on January 1, 2009. In North America, a separate license agreement effective November 1, 2008 provides Fresenius Medical Care's subsidiary Fresenius USA Manufacturing Inc. (**FUSA**) with exclusive rights to manufacture and distribute Venofer® to freestanding (non-hospital based) U.S. dialysis facilities and, in addition, grants FUSA similar rights for certain new formulations of the drug. The U.S. license agreement has a term of ten years and includes FUSA extension options. The North American agreement with American Regent was renegotiated in 2018 and the new agreement is effective through December 2023. The international agreement which had a term of 20 years was terminated in 2010 as a consequence of the establishment of VFMC RP.

In December 2010, Fresenius Medical Care announced the expansion of its agreements with Vifor Pharma by forming a new renal pharmaceutical company, Vifor Fresenius Medical Care Renal Pharma Ltd., (**VFMC RP**), with the intention to develop and distribute products to focused on addressing distinct complications and areas of chronic kidney disease; renal anemia management, mineral and bone management, kidney function preservation and improvement, conditions associated with kidney impairment and its treatment; and cardio-renal management. Fresenius Medical Care owns 45% of the company, which is headquartered in Switzerland. Vifor Pharma contributed licenses (or the commercial benefit in the U.S.) to its Venofer® and Ferinject® products for use in the dialysis and pre-dialysis market (CKD stages III to V). Vifor Pharma and its existing key affiliates or partners retain the responsibility for commercialization of both products outside the renal field.

5.2.1.12 Velphoro®

As part of the agreement to create VFMC RP, Vifor Pharma also contributed to the new company the asset (excluding Japan) Velphoro®, a novel iron-based phosphate binder. Fresenius Medical Care North America (**FMCA**) markets the product on behalf of VFMC RP in the U.S. The product for the U.S. market is supplied by an FDA-approved Vifor Pharma manufacturing facility in Switzerland and an

FDA-approved contract manufacturer also located in Switzerland. Velphoro® has been approved in 43 countries and commercially launched in 29 countries worldwide and the VFMCRRP partner Kissei also received approval from the Ministry of Health, Labor and Welfare in Japan during 2015 for the product which is marketed in Japan under the brand name P-TOL.

5.2.1.13 OsvaRen® and Phosphosorb®

In June 2015, Fresenius Medical Care further developed its joint company, VFMCRRP, with Vifor Pharma. In addition to the iron replacement products Ferinject® and Venofer® for use in nephrology indications as well as the phosphate binder Velphoro® in Fresenius Medical Care's shared product portfolio, VFMCRRP acquired nephrology medicines commercialized by Fresenius Medical Care, including the phosphate binders OsvaRen® and Phosphosorb®.

5.2.1.14 Care Coordination

Care Coordination activities within the United States

Care Coordination activities within the United States include (or, where described below, included until the specified dates), but are not limited to, the following services:

Pharmacy Services

Fresenius Medical Care offers pharmacy services, mainly in the U.S. These services include providing renal medications and supplies to the homes of patients or to their dialysis clinic directly from renal pharmacists.

Vascular, cardiovascular and endovascular specialty services as well as ambulatory surgery center services

Fresenius Medical Care operates vascular access centers, mainly in the U.S., as well as develops, owns, and manages specialty outpatient surgery centers for vascular care. A patient receiving hemodialysis must have a vascular access site to enable blood to flow to a dialysis machine for cleansing and to return the newly cleaned blood to the body. Fresenius Medical Care's centers create and coordinate the maintenance of these vascular access sites, helping to ensure maturation before use and good flow of blood. Additionally, Fresenius Medical Care's vascular access services provides both cardiovascular and endovascular specialty services. Cardiovascular procedures are similar to the setting of care and scope of services for vascular access procedures with a focus on treatment for heart disease, while endovascular surgical procedures are minimally invasive and designed to access many regions of the body via major and peripheral blood vessels and assist in both the maintenance of hemodialysis accesses and treatment of peripheral artery disease.

Value and risk-based services Fresenius Medical Care continues to expand its activities in value-based health care contracting. Value based contracting includes shared savings arrangements in which private payors or government programs share the savings from reductions in the overall medical spend of a population under management assuming that certain quality thresholds are also met. Such contracting also includes capitated arrangements and percent-of-premium arrangements in which private payors or government programs credit Fresenius Medical Care periodic, fixed payments based on expected medical expenses of such members. Since capitation arrangements often can be recognized as premium revenue and the full medical premium for ESRD beneficiaries generally is very large, capitation programs can drive significant revenue and, when costs are effectively managed, profit opportunities.

Urgent care services

Prior to February 29, 2020, when Fresenius Medical Care divested its interest in its urgent care business, it operated walk-in clinics focusing on the delivery of ambulatory care in a dedicated medical facility outside of a traditional emergency room. Urgent care centers served patients with a variety of injuries and illnesses requiring immediate care, but not serious enough to require an emergency room visit. In addition to injury and illnesses treatment, its urgent care centers also provided physicals, occupational medicine services, pre-operative exams. Additionally, in 2019, Fresenius Medical Care divested our interest in the MedSpring Urgent Care Centers in Texas, USA.

Physician nephrology and cardiology services

Fresenius Medical Care manages and operates nephrology and cardiology physician practices in the United States.

Care Coordination activities outside the United States

Ambulant treatment services

In 2017, Fresenius Medical Care acquired a majority stake in Cura, a leading operator of day hospitals in Australia. It also operates renal hospitals in China whose service scope includes inpatient and outpatient facilities focused on kidney disease. Additionally, Fresenius Medical Care has care coordination activities in other parts of the region which include comprehensive and specialized health check-ups centers, vascular access, and other chronic treatment services.

5.2.1.15 Markets

To obtain and manage information on the status and development of global, regional and national markets Fresenius Medical Care has developed the Market & Competitor Survey (*MCS*). It uses the MCS within the company as a tool to collect, analyze and communicate current and essential information on the dialysis market, developing trends, its market position, and those of Fresenius Medical Care's competitors. Country-by-country surveys are performed at the end of each calendar year which focus on the total number of patients treated for ESRD, the treatment modalities selected, products used, treatment location and the structure of ESRD patient care providers. All information received is consolidated at a global and regional level and analyzed and reported together with publicly available information published by Fresenius Medical Care's competitors. While Fresenius Medical Care believes the information contained in its surveys and competitor publications to be reliable, the company has not independently verified the data or any assumptions from which the MCS is derived or on which the estimates they contain are based, and it does not make any representation as to the accuracy of such information. Except as otherwise specified herein, all patient and market data in this section have been derived using the MCS.

Fresenius Medical Care estimates that the volume of the global dialysis market (products and services) was €82 billion in 2020 comprising approximately €15 billion of dialysis products and approximately €67 billion of dialysis services (including renal pharmaceuticals). The number of dialysis patients worldwide increased by around 3% in 2020.

Fresenius Medical Care is the world's leading provider of dialysis services with a market share of approximately 9% based on the number of all treated patients worldwide in 2020. Fresenius Medical Care is also the market leader in dialysis products with a 35% worldwide dialysis product market share.

5.2.2 Fresenius Kabi

Fresenius Kabi specializes in the therapy and care of chronically and critically ill patients. Representing 19% of the Group's consolidated sales in 2020 (2019: 20%), Fresenius Kabi has the following segments: intravenously administered generic drugs (*IV drugs*), biosimilar products with a focus on oncology and autoimmune diseases, clinical nutrition, and infusion therapies. In addition, Fresenius Kabi is also a supplier of medical devices and products for transfusion technology. Fresenius Kabi's products cover the full range of patient care: emergency cases, surgery, intensive care, hospital wards, and outpatient care.

Fresenius Kabi increased sales by 1% to €6,976 million in 2020 (2019: €6,919 million), of which 35% were derived in Europe, 34% in North America, 21% in Asia Pacific and 10% in Latin America/ Africa. Currency translation effects decreased sales by 3%. This resulted mainly from the devaluation of the U.S. dollar, the Brazilian real, and the Argentinean peso against the euro. In the year ended December 31, 2020, EBITDA (before revaluations of biosimilar contingent purchase price) of Fresenius Kabi was €1,490 million (2019: €1,573 million).

5.2.2.1 IV Drugs

Fresenius Kabi is one of the leading global suppliers of generic IV drugs. It has a comprehensive product portfolio for the therapy areas of anesthesia, pain-therapy (*analgesics*), infectious diseases, oncology, and critical illness. The portfolio is geared towards the treatment of and care for chronically and critically ill patients. Fresenius Kabi not only manufactures the drugs, but also produces some of the active pharmaceutical ingredients (*API*), and thus covers the entire pharmaceutical value chain – a factor of particular relevance to quality and cost competitiveness.

Fresenius Kabi received marketing authorization from the European Commission in April 2019 for Idacio, an adalimumab biosimilar, for all indications of the reference medicine and subsequently launched its first biosimilar in Europe. In 2020, Fresenius Kabi also received the marketing authorization for several countries in Latin America and Asia Pacific, as well as for Israel and Canada, and prepared the market launches. In addition, Fresenius Kabi has enabled the attending physicians and their patients to receive access to KabiCare, a program designed to train and support physicians and patients with information material on biosimilars, autoimmune diseases, and treatment with Idacio.

In 2020, Fresenius Kabi successfully launched its first generic version of the anti-fungal drug Micafungin on the U.S. market. In addition, Fresenius Kabi also launched its first specialty IV drug, Icatibant, on the U.S. market in 2020. This FDA-approved and cost-effective alternative treatment of acute attacks of hereditary angioedema in adults expands the Company's generic drug portfolio.

In addition, the clinical development of MSB 11455, a biosimilar candidate of pegfilgrastim, was successfully finalized, and the submissions for marketing authorization are under review and approval by the European Medicines Agency and the FDA. Pegfilgrastim stimulates the formation of white blood cells (leukocytes) in certain cancer treatments. MSB 11456 is a biosimilar candidate of tocilizumab, which is used, among other things, in rheumatoid arthritis. The clinical trial for MSB 11456, which was conducted with healthy volunteer test subjects, reached its primary endpoint in 2019, showing bioequivalence with all pharmacokinetic parameters. The pivotal safety and efficacy clinical trial with rheumatoid arthritis patients was started in several countries in 2020.

5.2.2.2 Clinical Nutrition

Fresenius Kabi is a leading provider of clinical nutrition products as well as related medical-technical products and disposables for administering these products. Clinical nutrition provides care for patients who cannot nourish themselves normally or sufficiently. There are two types of clinical nutrition therapy: parenteral nutrition and enteral nutrition. Parenteral nutrition is administered intravenously when the intestinal function is impaired. Enteral nutrition is administered in the form of sip and tube feeds using the gastro-intestinal tract. Fresenius Kabi is one of the few companies worldwide to offer both forms of clinical nutrition.

Parenteral Nutrition

Parenteral nutrition is administered to patients intravenously. Fresenius Kabi has a comprehensive range of products, such as: amino acid solutions, including formulations for pediatric use, standard adult use, dedicated amino acids for patients with specific diseases such as renal insufficiency or hepatic insufficiency (liver disease), and specific amino acids for intensive care; diverse lipid emulsions; glucose products; water and fat soluble vitamins and trace elements; and medical-technical products and disposables for administering parenteral nutrition.

Fresenius Kabi further expanded the market presence of its products for parenteral nutrition. Its three-chamber bags make Fresenius Kabi one of the leading suppliers in the product segment of multi-chamber bags for parenteral nutrition and the market presence of the three-chamber bags is in over 100 countries. In 2020, another main focus of Fresenius Kabi is placed on the use of fish oil in parenteral nutrition.

Enteral Nutrition

Enteral nutrition products are given as sip or tube feeds using the gastro-intestinal tract. Fresenius Kabi's enteral products that are taken orally (oral nutritional supplements) are available in a variety of flavors and textures.

Fresenius Kabi's enteral nutrition products include a range of standard tube and sip feeds with different energy and protein levels with and without fibers for patients with or at risk of malnutrition and other nutrition deficiencies; enteral products for intensive care patients to address increased requirements of certain key nutrients such as glutamine and antioxidants; pediatric enteral nutrition products; disease-specific products for treatment of patients with, for example, renal insufficiency, hepatic insufficiency, diabetes, burns, dysphagia and cancer; and medical-technical products and disposables for administering enteral nutrition. Fresenius Kabi focuses on the development of products with a higher concentration of nutrients to facilitate the complete intake of the necessary amount of nutrients in low volumes for the user. In addition to global product developments, Fresenius Kabi is working on products for markets with high growth potential in Asia-Pacific, especially China.

5.2.2.3 Infusion Therapy

Fresenius Kabi's infusion therapy business offers products for fluid substitution, blood volume replacement and treatment of electrolyte deficiencies. For the administration of these therapies, Fresenius Kabi provides both, the infusion technologies and disposables.

Fresenius Kabi provides a wide range of infusion therapy products, including the following: basic infusion solutions which consist primarily of salts (electrolytes), carbohydrates and water. They are infused when the body water content or electrolyte balance is impaired, as well as in acute need of energy supply and a lack of salt or specific minerals. They also serve as carrier solutions for intravenously administered drugs. In addition, Fresenius Kabi offers a comprehensive range of products in infusion bags and bottles, such as freeflex PVC-free infusion bags and KabiPac plastic bottles.

Furthermore, Fresenius Kabi manufactures blood volume substitution solutions that include hydroxyethyl starch derived from waxy maize. Artificial blood volume replacement products (colloids) are often used to treat patients suffering from hemodynamic instability due to acute blood losses, e.g. resulting from an accident or during surgery.

Fresenius Kabi also provides medical-technical equipment and disposables, such as cannulas, tubes and pumps for administering infusion solutions.

5.2.2.4 Medical Devices/Transfusion Technology

Medical devices are used for the administration of pharmaceuticals and include infusion and nutrition pumps, infusion management systems, anesthesia monitoring, as well as disposables, including infusion sets, extension lines, enteral nutrition tubes and monitoring electrodes. A specific range of these products is designed for pediatric use.

Within transfusion medicine and cell therapies, Fresenius Kabi offers products for the collection of blood components and extracorporeal therapies.

In the transfusion technology product segment, Fresenius Kabi continues to focus on the introduction of the Amicus Blue system and the corresponding Phelix light box in Europe, which can also be used for extracorporeal photopheresis. In 2020, Fresenius Kabi also focused on the finalization of the CUE™ cell processing device, which has been specifically developed for smaller filling quantities and end-use applications in the area of cell therapies. Fresenius Kabi is expected to launch CUE™ in 2021.

5.2.2.5 Production Facilities

Fresenius Kabi operates an international production network with its most important production sites in Germany, Austria, Sweden, the United States, China and India. In addition, Fresenius Kabi has production sites in other European countries, South and Central America, Asia and South Africa.

5.2.2.6 Market

The global market for generic IV drugs, biopharmaceuticals, clinical nutrition, infusion therapy, and medical devices / transfusion technology was worth about €105 billion in 2020 (Market data based on company research and refers to Fresenius Kabi's addressable markets. This is subject to annual volatility

due to currency fluctuations and patent expiries of original drugs in the IV drug market, among other things.)

The global market for generic IV drugs was worth about €38 billion in 2020 (Market definition adjusted: among other items, sales volume of non-patented branded drugs is included). Fresenius Kabi was able to enter additional market segments of the global addressable market due to targeted investments and the expansion of its product portfolio, among others, in the area of complex formulations, liposomal solutions, and prefilled syringes.

The biopharmaceutical market segment is one of the fastest-growing segments in the health care business. The relevant market for the targeted biopharmaceuticals, all in the therapeutic areas of oncology and autoimmune diseases, was worth about €46 billion in 2020 and grew by 6%.

In 2020, the global market for clinical nutrition was worth about €10 billion. In Europe, the market grew by about 3%. In Latin America the clinical nutrition market saw growth of 10%. In Asia-Pacific, the market for enteral nutrition grew by about 9%. The African clinical nutrition market grew by 7%. There is growth potential in clinical nutrition worldwide, because nutrition therapies are often not yet sufficiently used in patient care, although studies have proven their medical and economic benefits. In cases of health- or age-induced nutritional deficiencies, for example, the administration of clinical nutrition can reduce hospital costs through shorter stays.

In 2020, Fresenius Kabi considers its global market for infusion therapy to have been worth about €5 billion slightly below previous year's level. Affected by postponed or canceled elective surgeries due to the COVID-19 pandemic and the reduced demand of blood volume substitutes in Asia-Pacific, the total market showed a slight decline in 2020. In Europe and the U. S., the market for infusion therapies remained stable. In 2020, the global market for medical devices was worth about €4 billion and grew by 5%. The main growth drivers are IT-based solutions that focus on application safety and therapy efficiency. Due to the negative impact of the COVID-19 pandemic on market demand, the global market for transfusion technology is at previous year's level (about €3 billion).

5.2.3 Fresenius Helios

Fresenius Helios is Europe's leading private hospital operator in terms of sales. The company comprises Helios Germany and Helios Spain (Quirónsalud).

Helios Germany operates 89 hospitals, including seven maximum care clinics, and around 130 outpatient clinics and 6 prevention centers. It provides expertise in all areas and at all levels of clinical care. As of December 31, 2020, Helios Germany has approximately 29,451 beds and treats approximately 5.2 million patients (thereof approximately 4.1 million outpatients and 1 million inpatients) annually.

Quirónsalud offers the full spectrum of inpatient and outpatient care in 46 hospitals, 70 outpatient clinics and approximately 300 occupational risk prevention (**ORP**) centers (as of December 31, 2020). Quirónsalud has approximately 8,000 beds and treats approximately 15 million patients (thereof approximately 14.1 million outpatients and 0.9 million inpatients) annually in its hospitals in Spain. In addition, the company is active in Latin America with 6 hospitals and as a provider of medical diagnostics.

Fresenius Helios's business model is based on both organic and inorganic growth. Organic growth is achieved through increases in inpatient admissions and price. In Germany, the so called DRG inflator is the main driver for the price increase for hospital services. In Spain, price increases for private hospitals are individually negotiated with health insurance companies, and for privately operated hospitals in the public system (public-private partnerships or **PPPs**) they are typically linked to an inflation index. Further organic growth potential arises from the opportunity for private hospital operators to expand their networks by building new hospitals, particularly in Spain, and from developing new patient care models, particularly in Germany. To benefit from the trend towards outpatient treatments, Helios Germany is expanding its outpatient services offerings.

In addition, opportunities for inorganic growth arise from potential further consolidation potential, especially in the highly fragmented Spanish private Spanish hospital market and in Latin America. In

Germany, the company selectively seizes inorganic growth opportunities that fit into its strategy of building specialized centers within regional clusters.

In 2020, Fresenius Helios generated 27% of Fresenius's total Group sales (2019: 26%). Fresenius Helios' total sales in 2020 were €9,818 million, up 6% from €9,234 million in 2019. Fresenius Helios' growth is based on the number of admissions and reimbursement rate increases combined with a relatively low bad debt ratio due to the comprehensive insurance coverage of the German population and due to the tax funded public insurance coverage in Spain. In the year ended December 31, 2020, EBITDA of Fresenius Helios was €1,470 million (2019: €1,439 million).

5.2.3.1 Market

The market of acute care hospitals in Germany (total costs, gross of German Hospitals excluding academic research and teaching) was about €105 billion in 2018 (most recent data available on the German hospital market: German Federal Statistics Office, 2018 data; German Hospital Institute (DKI), Krankenhaus Barometer 2020. Market definition by total costs of the German acute care hospitals (gross), less academic research and teaching). Personnel expenses accounted for about 61% of hospital costs, and material costs for 38%. Personnel and material expenses rose by around 4% each.

The admissions in the acute care hospital market were roughly on the previous year's level.

The economic situation of the German hospitals worsened compared with the previous year. About 47% of German hospitals recorded losses in 2020. 24% project to break even, and only 29% expect to be able to generate a profit for the year. In 2019, approximately 46% of the hospitals recorded a profit and 44% reported a loss. The often difficult economic and financial situation of the hospitals is accompanied by significant investment needs driven by medical and technological advances, higher quality requirements, and necessary modernizations. Moreover, the federal states of Germany failed to meet their statutory obligation to provide sufficient financial resources in the past. This results into a continuously increasing investment backlog. The German Hospital Institute (DKI) estimates that the annual investment requirement at German hospitals is at least €6.5 billion (German Hospital Institute (DKI), Krankenhaus Barometer 2020). This is more than two times the funding for investment currently being provided by federal states of Germany.

The change in value figure (DRG inflator) is relevant for the increase in the reimbursement of hospital treatments in Germany and is redetermined each year for the following year. For 2021 it was set at 2.53% (2020: 3.66%).

The private Spanish hospital market volume was about €16 billion in 2019 (Market data based on company research and refers to the addressable market of Quirónsalud. Market definition includes both inpatient and outpatient healthcare services. Market definition includes neither PPPs nor ORPs).

In particular, the increasing number of privately insured patients is opening up growth opportunities for private operators. Private supplemental insurance in Spain is relatively inexpensive. It is required in order to make use of the services in private hospitals. Among other factors, the comparatively short waiting times for scheduled treatments make private hospitals attractive. The opportunity for private hospital operators to expand their networks by building additional new hospitals and outpatient medical centers opens up further potential. Since the Spanish market is highly fragmented, it also has some consolidation potential.

5.2.4 Fresenius Vamed

Fresenius Vamed manages projects and provides services for hospitals and other health care facilities worldwide and is a leading post-acute care provider in Central Europe. Its portfolio ranges from development and planning to the total operational management of health care facilities and providing services to patients. Fresenius Vamed's range of services covers all areas of technical, commercial, and infrastructural facility management as well as the highly specialized areas of medical technology management, sterile services, operational technology, and IT development. In 2020, Fresenius Vamed provided technical facility management services for approximately 820 health care facilities with approximately 207,000 beds worldwide (as of December 31, 2020).

Fresenius Vamed generated 5% of the Fresenius Group's total sales in 2020 (2019: 5%). Fresenius Vamed decreased sales by 6% in 2020 to €2,068 million (2019: €2,206 million), of which 31% were derived in project business and 69% in service business. Regional wise, 88% of sales were in Europe, 4% in Africa, 6% in Asia Pacific and 2% in Latin America. In the year ended December 31, 2020, EBITDA of Fresenius Vamed was €113 million (2019: €205 million).

5.2.4.1 Project Business

The project business comprises the consulting, project development, planning, turnkey construction, and financing management of projects. Fresenius Vamed responds flexibly to clients' local needs, providing custom-tailored solutions all from one source to put the project on the right track in functional, technical, and financial terms. Fresenius Vamed also carries out projects in cooperation with partners and considers itself to be a pioneer in PPP models.

5.2.4.2 Service Business

Fresenius Vamed's range of services covers all areas of technical commercial and infrastructure facility management as well as the highly specialized areas of medical technology management, sterile services, operational technology, and IT development. In 2020, Fresenius Vamed provided technical facility management services for 820 healthcare facilities with 207,000 beds worldwide.

Fresenius Vamed is also responsible for the total operational management of health care facilities, is a leading provider of rehabilitation and care in Central Europe, and builds a bridge between preventive medicine and health tourism with its spa and health resorts.

In addition to offering services for health care facilities worldwide, Fresenius Vamed itself is active as a leading post-acute care provider in Europe, especially in Germany, Austria, Switzerland, and the Czech Republic. In emerging markets, Fresenius Vamed focuses on building and developing health care infrastructure and improving the level of health care.

5.2.4.3 Market

The market for projects and services for hospitals and other health care facilities is very fragmented and was heavily impacted by the COVID-19 pandemic in 2020. Therefore, an overall market size cannot be determined. The market is country-specific and depends, to a large extent, on factors such as public health care policies, government regulation, and levels of privatization, as well as demographics and economic and political conditions.

In markets with established health care systems and mounting cost pressure, the challenge for hospitals and other health care facilities is to increase their efficiency. Here, demand is especially high for sustainable planning and energy-efficient construction, optimized hospital processes, and the outsourcing of medical-technical support services to external specialists.

5.3 Research and Development

Fresenius focuses its R&D efforts on its core competencies in the following areas:

- Dialysis;
- Generic IV drugs;

With a ranking in the second highest category B, the Company is also one of the leading companies in the healthcare sector in the climate and environmental ranking of the Carbon Disclosure Project, an international non-profit organization providing a global environmental disclosure system.

5.6 Investments

In 2020, investments in property, plant and equipment was €2,398 million (2019: €2,463 million). Among the main investments in property, plant and equipment were the modernization of existing, and equipping of new, dialysis clinics at Fresenius Medical Care and the optimization and expansion of production facilities for Fresenius Medical care and for Fresenius Kabi. Investments also included new building and modernization of hospitals at Fresenius Helios. The most significant individual projects were, among other locations, the hospitals in Wiesbaden, Duisburg, Wuppertal, as well as the construction of a proton beam therapy center in Madrid. Total acquisition spending was €902 million in 2020 (2019: €2,623 million), including the acquisition of dialysis clinics at Fresenius Medical Care, already planned acquisition-related milestone payments relating to the acquisition of the biosimilars business of Merck KGaA at Fresenius Kabi, the acquisition of clinics and outpatient clinics in Colombia and the purchase of outpatient clinics in Germany at Fresenius Helios and the purchase of rehabilitation facilities at Fresenius Vamed.

Fresenius continues to target for a Net Debt/EBITDA ratio in a range of 3.0-3.5 (after the adoption of IFRS 16).

In December 2020, Fresenius Helios announced the acquisition of Eugin Group (*Eugin*), one of the leading international fertility groups active in United States, Spain, Brazil, Italy and Sweden. With its 31 clinics and additional 34 sites across 9 countries on 3 continents, Eugin offers a wide spectrum of state-of-the-art services in the field of fertility treatments. With the acquisition of Eugin, Fresenius Helios becomes a leading player in this dynamic growing market and establishes a robust basis for further expansion. Fresenius Helios acquires Eugin at a valuation of €430 million, including approximately €80 million of minority interests and assumed debt. This transaction is, amongst others, subject to regulatory approval by the relevant antitrust authorities and is expected to close in the second quarter of 2021.

5.8 Legal Proceedings

Fresenius is routinely involved in claims, lawsuits, regulatory and tax audits, investigations and other legal matters arising, for the most part, in the ordinary course of its business of providing health care services and products. Legal matters that Fresenius currently deems to be material or noteworthy are described below. Fresenius records its litigation reserves for certain legal proceedings and regulatory matters to the extent that Fresenius determines an unfavorable outcome is probable and the amount of loss can be reasonably estimated. For other matters described below, Fresenius believes that the loss probability is remote and/or the loss or range of possible losses cannot be reasonably estimated at this time. The outcome of litigation and other legal matters is always difficult to predict accurately and outcomes that are not consistent with Fresenius's view of the merits can occur. Fresenius believes that it has valid defenses to the legal matters pending against it and is defending itself vigorously. Nevertheless, it is possible that the resolution of one or more of the legal matters currently pending or threatened could have a material adverse effect on Fresenius's business, results of operations and financial condition.

There are, however, no nor have there been any governmental, legal or arbitration proceedings (which are pending or threatened of which the Issuers are aware) which may have had or have had in the twelve months preceding the date of this Prospectus a material effect on the financial position or profitability of the Issuers other than the following cases:

Beginning in 2012, FMC AG & Co. KGaA received certain communications alleging conduct in countries outside the U.S. that might violate FCPA or other anti-bribery laws. FMC AG & Co. KGaA conducted investigations with the assistance of outside counsel and, in a continuing dialogue, advised the U.S. Securities and Exchange Commission (*SEC*) and the U.S. Department of Justice (*DOJ*) (collectively and interchangeably the *government* or the *government agencies*) about these investigations. The government agencies also conducted their own investigations, in which FMC AG & Co. KGaA cooperated.

In the course of this dialogue, FMC AG & Co. KGaA identified and reported to the government, and took voluntary remedial actions including employee disciplinary actions with respect to, conduct that resulted in the government seeking monetary penalties including disgorgement of profits and other remedies. This conduct revolved principally around FMC AG & Co. KGaA's products business in countries outside the United States.

On March 29, 2019, FMC AG & Co. KGaA entered into a non-prosecution agreement (*NPA*) with the DOJ and a separate agreement with the SEC intended to resolve fully and finally the government's allegations against FMC AG & Co. KGaA arising from the investigations. Both agreements included

terms starting August 2, 2019. The DOJ NPA is scheduled to terminate on August 2, 2022 and the dismissal of the order by the SEC is scheduled to be on November 30, 2022. FMC AG & Co. KGaA paid a combined total in penalties and disgorgement of approximately \$232 million to the government in connection with these agreements. The entire amount paid to the government was reserved for in charges that FMC AG & Co. KGaA recorded in 2017 and 2018 and announced in 2018. As part of the settlement, FMC AG & Co. KGaA agreed to certain self-reporting obligations and to retain an independent compliance monitor. Due to COVID-19 pandemic restrictions, the monitorship program faced certain delays, but FMC-AG & Co. KGaA is working to have all its obligations under the resolution with the government finalized in 2022.

In 2015, FMC AG & Co. KGaA self-reported to the German prosecutor conduct with a potential nexus to Germany and continues to cooperate with government authorities in Germany in their view of the conduct that prompted FMC AG & Co. KGaA's and government investigations.

Since 2012, FMC AG & Co. KGaA has made and continues to make further significant investments in its compliance and financial controls in its compliance, legal and financial organizations. FMC AG & Co. KGaA's remedial actions included separation from those employees responsible for the above-mentioned conduct. FMC AG & Co. KGaA is dealing with post-FCPA review matters on various levels. FMC AG & Co. KGaA continues to be fully committed to compliance with the FCPA and other applicable anti-bribery laws.

On October 30, 2020, Mexico's primary social security and health care agency filed a civil complaint in the United States District Court for the District of Massachusetts (Boston) asserting claims for common law fraud against FMC-AG & Co. KGaA and Fresenius Medical Care Holdings, Inc. (**FMCH**). *See*, 2020 Civ. 11927-IT (E. D. Mass.). The allegations of the complaint rely on FMC-AG & Co. KGaA's resolution under the FCPA. FMCH has been served and is proceeding to defend the litigation, initially by seeking dismissal based on improper venue and lack of jurisdiction. FMC-AG & Co. KGaA has not been served.

Personal injury and related litigation, including litigation by certain state government agencies, involving FMCH acid concentrate product, labelled as GranuFlo® or NaturaLyte®, first arose in 2012. The matters remaining after judicial decisions favorable to FMCH and settlements, including most significantly the settlement in the federal multi-district personal injury litigation consummated in November 2017, do not present material risk. Accordingly, specific reporting on these matters has been discontinued.

FMCH's insurers agreed to the settlement of the acid concentrate personal injury litigation and funded \$220 million of the settlement fund under a reciprocal reservation of rights. FMCH accrued a net expense of \$60 million in connection with the settlement, including legal fees and other anticipated costs. Following the settlement, FMCH's insurers in the AIG group (**AIG**) initiated litigation against FMCH seeking to be indemnified by FMCH for their \$220 million outlay and FMCH initiated litigation against AIG to recover defense and indemnification costs FMCH had borne. *See*, National Union Fire Insurance v. Fresenius Medical Care, 2016 Index No. 653108 (Supreme Court of New York for New York County). Discovery in the litigation is largely complete. AIG abandoned certain of its coverage claims and submitted expert reports on damages asserting that, if AIG prevails on all its remaining claims, it should recover \$60 million. FMCH contests all of AIG's claims and submitted expert reports supporting rights to recover \$108 million from AIG, in addition to the \$220 million already funded. A trial date has not been set in the matter.

In August 2014, FMCH received a subpoena from the United States Attorney's Office (**USAO**) for the District of Maryland inquiring into FMCH's contractual arrangements with hospitals and physicians involving contracts relating to the management of in-patient acute dialysis services. On August 27, 2020, after the USAO declined to pursue the matter by intervening, the United States District Court for Maryland unsealed a 2014 relator's qui tam complaint that gave rise to the investigation. *See*, United States ex rel. Martin Flanagan v. Fresenius Medical Care Holding, Inc., 2014 Civ. 00665 (D. Maryland). The relator has served the complaint and litigation is proceeding. In response to FMCH's motion to dismiss the unsealed complaint, the relator filed an amended complaint on February 5, 2021 making broad allegations about financial relationships between FMCH and nephrologists.

In July 2015, the Attorney General for Hawaii issued a civil complaint under the Hawaii False Claims Act alleging a conspiracy pursuant to which certain Liberty Dialysis (**Liberty**) subsidiaries of FMCH

overbilled Hawaii Medicaid for Liberty's Epogen® administrations to Hawaii Medicaid patients during the period from 2006 through 2010, prior to the time of FMCH's acquisition of Liberty. *See, Hawaii v. Liberty Dialysis – Hawaii, LLC et al. Case No. 15-1-1357-07 (Hawaii 1st Circuit)*. The State of Hawaii alleges that Liberty acted unlawfully by relying on incorrect and unauthorized billing guidance provided to Liberty by Xerox State Healthcare LLC (*Xerox*), which acted as Hawaii's contracted administrator for its Medicaid program reimbursement operations during the relevant period. With discovery concluded, the State of Hawaii has specified that its demands for relief relate to \$7.7 million in overpayments on approximately twenty thousand "claims" submitted by Liberty. After prevailing on motions by Xerox to preclude it from doing so, FMCH is pursuing third-party claims for contribution and indemnification against Xerox. The False Claims Act complaint of the State of Hawaii was filed after Liberty initiated an administrative action challenging the State of Hawaii's recoupment of alleged overpayments from sums currently owed to Liberty. The civil litigation and administrative action are proceeding in parallel. Trial in the civil litigation has been postponed because of COVID-19-related administrative issues and has been rescheduled for January 2022.

On August 31, 2015, FMCH received a subpoena under the False Claims Act from the United States Attorney for the District of Colorado (Denver) inquiring into FMCH's participation in and management of dialysis facility joint ventures in which physicians are partners. FMCH continues to cooperate in the Denver USAO investigation, which has come to focus on purchases and sales of minority interests in ongoing outpatient facilities between FMCH and physician groups.

On November 25, 2015, FMCH received a subpoena under the False Claims Act from the United States Attorney for the Eastern District of New York (Brooklyn) also inquiring into FMCH's involvement in certain dialysis facility joint ventures in New York.

On September 26, 2018, the Brooklyn USAO declined to intervene on the qui tam complaint filed under seal in 2014 that gave rise to this investigation. *See CKD Project LLC v. Fresenius Medical Care, 2014 Civ. 6646 (E.D.N.Y. November 12, 2014)*. The court unsealed the complaint, allowing the relator to serve and proceed on his own. The relator, a special-purpose entity formed by law firms to pursue qui tam proceedings, has served its complaint and litigation is proceeding.

Beginning October 6, 2015, the United States Attorney for the Eastern District of New York (Brooklyn) has led an investigation, through subpoenas issued under the False Claims Act, of utilization and invoicing by FMCH's subsidiary Azura Vascular Care for a period beginning after FMCH's acquisition of American Access Care LLC (AAC) in October 2011. FMCH is cooperating in the Brooklyn USAO investigation. The Brooklyn USAO has indicated that its investigation is nationwide in scope and is focused on whether certain access procedures performed at Azura facility were medically necessary and whether certain physician assistants employed by Azura exceeded their permissible scope of practice. Allegations against AAC arising in districts in Connecticut, Florida and Rhode Island relating to utilization and invoicing were settled in 2015.

On June 30, 2016, FMCH received a subpoena from the United States Attorney for the Northern District of Texas (Dallas) seeking information under the False Claims Act about the use and management of pharmaceuticals including Velphoro®. The investigation encompasses DaVita, Amgen, Sanofi, and other pharmaceutical manufacturers and includes inquiries into whether certain compensation transfers between manufacturers and pharmacy vendors constituted unlawful kickbacks. FMCH understands that this investigation is substantively independent of the \$63.7 million settlement by Davita Rx announced on December 14, 2017 in the matter styled *United States ex rel. See, Gallian v. DaVita Rx, 2016 Civ. 0943 (N.D. Tex.)*. FMCH believes that this investigation is no longer active as to FMCH and will cease reporting on it absent material developments.

On November 18, 2016, FMCH received a subpoena under the False Claims Act from the United States Attorney for the Eastern District of New York (Brooklyn) seeking documents and information relating to the operations of Shiel Medical Laboratory, Inc., which FMCH acquired in October 2013. In the course of cooperating in the investigation and preparing to respond to the subpoena, FMCH identified falsifications and misrepresentations in documents submitted by a Shiel salesperson that relate to the integrity of certain invoices submitted by Shiel for laboratory testing for patients in long term care facilities. On February 21, 2017, FMCH terminated the employee and notified the United States Attorney of the termination and its circumstances. The terminated employee's conduct is expected to result in demands for FMCH to refund overpayments and to pay related penalties under applicable laws, but the

monetary value of such payment demands cannot yet be reasonably estimated. FMCH contends that, under the asset sale provisions of its 2013 Shiel acquisition, it is not responsible for misconduct by the terminated employee or other Shiel employees prior to the date of the acquisition.

The Brooklyn United States Attorney's Office continues to investigate a range of issues involving Shiel, including allegations of improper compensation (kickbacks) to physicians, and has disclosed that multiple sealed qui tam complaints underlie the investigation.

On December 12, 2017, FMCH sold to Quest Diagnostics certain Shiel operations that are the subject of this Brooklyn subpoena, including the misconduct reported to the United States Attorney. Under the Quest Diagnostics sale agreement, FMCH retains responsibility for responding to the Brooklyn investigation and for the liabilities arising from conduct occurring after its 2013 acquisition of Shiel and prior to its sale of Shiel to Quest Diagnostics. FMCH is cooperating in the investigation.

On December 14, 2016, the *CMS*, which administers the federal Medicare program, published an Interim Final Rule (*IFR*) titled "Medicare Program; Conditions for Coverage for End-Stage Renal Disease Facilities-Third Party Payment". The IFR would have amended the Conditions for Coverage for dialysis providers like FMCH and would have effectively enabled insurers to reject premium payments made by or on behalf of patients who received grants for individual market coverage from the American Kidney Fund (*AKF*). The IFR could thus have resulted in those patients losing individual insurance market coverage. The loss of coverage for these patients would have had a material and adverse impact on the operating results of FMCH.

On January 25, 2017, a federal district court in Texas, responsible for litigation initiated by a patient advocacy group and dialysis providers including FMCH preliminarily enjoined CMS from implementing the IFR. *See*, *Dialysis Patient Citizens v. Burwell*, 2017 Civ. 0016 (E.D. Texas, Sherman Div.). The preliminary injunction was based on CMS' failure to follow appropriate notice-and-comment procedures in adopting the IFR. The injunction remains in place and the court retains jurisdiction over the dispute.

On June 22, 2017, CMS requested a stay of proceedings in the litigation pending further rulemaking concerning the IFR. CMS stated, in support of its request, that it expects to publish a Notice of Proposed Rulemaking in the Federal Register and otherwise pursue a notice-and-comment process. Plaintiffs in the litigation, including FMCH, consented to the stay, which was granted by the court on June 27, 2017.

On January 3, 2017, FMCH received a subpoena from the United States Attorney for the District of Massachusetts under the False Claims Act inquiring into FMCH's interactions and relationships with the AKF, including FMCH's charitable contributions to AKF and AKF's financial assistance to patients for insurance premiums. Thereafter, FMCH cooperated in the investigation, the USAO declined to intervene in the relator's qui tam complaint that gave rise to the subpoena. On July 17, 2020, the relator filed a notice of dismissal without serving his complaint or otherwise pursuing his allegations and the court thereafter closed the case. On April 8, 2019, United Healthcare (*United*) initiated arbitration against FMCH alleging that FMCH unlawfully "steered" patients by waiving co-payments and other means away from coverage under government-funded insurance plans including Medicare into United Healthcare's commercial plans, including ACA exchange plans. FMCH denied and contested United's claims. On September 16, 2020, FMCH and United entered a settlement agreement requiring (1) certain amendments to contracts between United and FMCH governing terms and conditions for dialysis treatments to be performed by FMCH for United beneficiaries and (2) dismissal of the arbitrations with each party to bear its own costs and expenses.

In consideration of the prolonged absence of federal government activity, changes in administration, and resolution of the United Healthcare dispute, FMC-AG & Co. KGaA believes that the previously reported matters involving charitable contributions do not present material risk.

In early May 2017, the United States Attorney for the Middle District of Tennessee (Nashville) issued identical subpoenas to FMCH and two subsidiaries under the False Claims Act concerning FMCH's retail pharmaceutical business. The investigation is exploring allegations related to improper inducements to dialysis patients to fill oral prescriptions through FMCH's pharmacy service, improper billing for returned pharmacy products and other allegations similar to those underlying the \$63.7 million settlement by DaVita Rx in Texas announced on December 14, 2017. *See*, *United States ex rel. Gallian*, 2016 Civ. 0943 (N.D. Tex.). FMCH is cooperating in the Nashville investigation.

On March 12, 2018, Vifor Fresenius Medical Care Renal Pharma Ltd. And Vifor Fresenius Medical Care Renal Pharma France S.A.S. (collectively **VFMCRP**) (the joint venture between Galencia (Vifor) and FMC AG & Co. KGaA), filed a complaint for patent infringement against Lupin Atlantis Holding SA and Lupin Pharmaceuticals Inc. (collectively **Lupin**), and Teva Pharmaceuticals USA, Inc. (**Teva**) in the U.S. District Court for the District of Delaware (Case 1:18-cv-00390-MN). The patent infringement action is in response to Lupin and Teva's filings of Abbreviated New Drug Applications (**ANDA**) with the FDA for generic versions of Velphoro®. Velphoro® is protected by patents listed in the FDA's Approved Drug Products with Therapeutic Equivalence Evaluations, also known as the Orange Book. The complaint was filed within the 45-day period provided for under the Hatch-Waxman legislation, and triggered a stay of FDA approval of the ANDAs for 30 months ((specifically, up to July 29, 2020 for Lupin's ANDA; and August 6, 2020 for Teva's ANDA)) In response to another ANDA being filed or for a generic Velphoro®, VFMCRP filed a complaint for patent infringement against Annora Pharma Private Ltd., and Hetero Labs Ltd. (collectively **Annora**), in the U.S. District Court for the District of Delaware on December 17, 2018. The case was settled among the parties, thus terminating the court action on August 4, 2020.

On May 26, 2020, VFMCRP filed a further complaint for patent infringement against Lupin in the U.S. District Court for the District of Delaware (Case No. 1:20-cv-00697-MN) in response to Lupin's ANDA for a generic version of Velphoro® and on the basis of a newly listed patent in the Orange Book. On July 6, 2020, VFMCRP filed an additional complaint for patent infringement against Lupin and Teva in the U.S. District Court for the District of Delaware (Case No. 1:20-cv-00911-MN) in response to the ANDA of Lupin and Teva for generic versions of Velphoro® and on the basis of two newly listed patents in the Orange Book. All cases involving Lupin as defendant were settled among the parties, thus terminating the corresponding court actions on December 18, 2020.

On December 17, 2018, FMCH was served with a subpoena under the False Claims Act from the United States Attorney for the District of Colorado (Denver) as part of an investigation of allegations against DaVita, Inc. involving transactions between FMCH and DaVita. The subject transactions include sales and purchases of dialysis facilities, dialysis-related products and pharmaceuticals, including dialysis machines and dialyzers, and contracts for certain administrative services. FMCH is cooperating in the investigation.

On June 28, 2019, certain FMCH subsidiaries filed a complaint against the United States seeking to recover monies owed to them by the United States Department of Defense under the Tricare program, and to preclude Tricare from recouping monies previously paid. *See*, Bio-Medical Applications of Georgia, Inc. et. Al v. United States, CA 19-947, United States Court of Federal Claims. Tricare provides reimbursement for dialysis treatments and other medical care provided to members of the military services, their dependents and retirees. The litigation challenges unpublished administrative actions by Tricare administrators reducing the rate of compensation paid for dialysis treatments provided to Tricare beneficiaries based on recasting or "cross walking" of codes used and followed in invoicing without objection for many years. Tricare administrators have acknowledged the unpublished administrative action and declined to change or abandon it. On July 8, 2020, the U.S. government filed its answer (and confirmed their position). The parties will proceed to discovery. The court has not yet set a date for trial in this matter. FMCH has imposed a constraint on revenue otherwise recognized from the Tricare program that it believes, in consideration of facts currently known, sufficient to account for the risk of litigation.

On May 22, 2020, the CMS issued a final rule that, effective January 1, 2021, removes outpatient dialysis facilities from the time-and-distance standards applicable under the network adequacy rule for Medicare Advantage plans. On June 22, 2020, Dialysis Patient Citizens, a charitable patient advocacy organization, filed a lawsuit on behalf of all dialysis patients to challenge that rule, and on July 13, 2020, FMCH along with two other dialysis providers joined the lawsuit. *See*, Dialysis Patient Citizens, et al. v. Alex Azar, et al., U.S.D.C. D.C. 1:20-cv—01664. The plaintiffs sought to have the final rule regarding outpatient dialysis facilities vacated and to enjoin CMS from enforcing those provisions. On January 19, 2021, the court granted the defendant's motion to dismiss the case without prejudice. On August 21, 2020, FMCH was served with a subpoena from the United States Attorney for the District of Massachusetts requesting information and documents related to urgent care centers that FMCH owned, operated, or controlled as part of its Choice One and Medspring urgent care operations prior to its divestiture of and exit from that line of business in 2018. The subpoena appears to be related to an ongoing investigation of alleged

upcoding in the urgent care industry, which has resulted in certain published settlements under the federal False Claim Act. FMCH is cooperating in the investigation.

In November 2014, Fresenius Kabi Oncology Limited (**FKOL**) received a subpoena from the DOJ, U.S. Attorney for the District of Nevada. The subpoena requests documents in connection with the January 2013 inspection by the FDA of FKOL's plant for active pharmaceutical ingredients in Kalyani, India. That inspection resulted in a warning letter from the FDA in July 2013. The subpoena marks the DOJ's criminal and/or civil investigation in this connection and seeks information from throughout the Fresenius Kabi group. Fresenius Kabi fully cooperated with the governmental investigation. In January 2021, Fresenius Kabi has entered into a final agreement (Plea Agreement) with the DOJ in which Fresenius Kabi undertakes to make a penalty payment of \$50 million. The payment would be made on the basis of an existing accrual. The agreement, which requires formal court sentencing, furthermore, includes other measures to ensure that a misconduct of the nature detected in 2013 will not occur again in future.

On April 24, 2017, Fresenius announced that Fresenius Kabi has agreed to acquire Akorn, Inc. (**Akorn**), a U.S.-based manufacturer and marketer of prescription and over-the-counter pharmaceutical products, for approximately \$4.3 billion, or \$34 per share, plus the prevailing net debt at closing of the transaction. Fresenius conducted an independent investigation, using external experts, into alleged breaches of FDA data integrity requirements relating to product development and other activities at Akorn. Fresenius decided on April 22, 2018 to terminate the merger agreement with Akorn, due to Akorn's failure to fulfill several closing conditions. Fresenius' decision was based on, among other factors, material breaches of FDA data integrity requirements relating to Akorn's operations found during Fresenius' independent investigation. Fresenius offered to delay its decision in order to allow Akorn additional opportunity to complete its own investigation and present any information it wished Fresenius to consider, but Akorn declined that offer. Akorn disagreed with Fresenius' position and filed a lawsuit on April 23, 2018 purporting to enforce the merger agreement. Fresenius filed a counterclaim on April 30, 2018. The trial of the lawsuit took place in the Delaware Court of Chancery from July 9 to 13, 2018 and closing arguments were made on August 23, 2018. On October 1, 2018, the Delaware Court of Chancery ruled in favor of Fresenius in the lawsuit by Akorn against Fresenius for the consummation of the April 2017 merger agreement. Akorn appealed on October 18, 2018 against this ruling to the Delaware Supreme Court. On December 7, 2018, the Delaware Supreme Court, being the highest court and final instance in Delaware, affirmed the ruling of the Delaware Court of Chancery in favor of Fresenius. Fresenius has sued Akorn for damages suffered as a result of lost acquisition expenses. The lawsuit is pending before the Delaware Court of Chancery in the United States but was stayed due to Akorn filing for bankruptcy under Chapter 11 of the United States Bankruptcy Code. In Akorn's bankruptcy plan, Fresenius Kabi was ranked in a class alongside Akorn's shareholders, which is subordinated to that of a general unsecured creditor. Fresenius Kabi's challenge against this classification was unsuccessful. Consequently, recovery would only be available for general unsecured creditors on the basis of Akorn's plans and disclosure, as was approved by the bankruptcy court. This may result in Fresenius Kabi obtaining a very low quota or a complete loss of recovery despite a favorable judgment in the damages proceedings. Fresenius Kabi has thus preserved the issue of reclassification in the event further proceedings in the bankruptcy identify a source of funding for general unsecured claims.

Patent dispute between Fresenius Kabi and Eli Lilly and Company in France and other European countries regarding Eli Lilly and Company's originator product Alimta® and Fresenius Kabi's generic Pemetrexed sold in France and further countries in Europe. The Paris Tribunal has now rendered a decision in favor of Eli Lilly holding Fresenius Kabi France to infringe Eli Lilly and Company's patent and to make a preliminary payment of €28 million for patent infringement and damages due to unfair competition, including lost sales and price decrease. This amount is covered by an existing higher accrual. The final amount of damages is to be determined through parties' negotiations on the basis of actual sales data to be disclosed by Fresenius Kabi and likely to significantly exceed the preliminary minimum payment ordered by the court. Fresenius Kabi France has appealed the judgement.

From time to time, Fresenius Group is a party to or may be threatened with other litigation or arbitration, claims or assessments arising in the ordinary course of its business. Fresenius's management regularly analyzes current information, including, as applicable, the Group's defenses and insurance coverage and, as necessary, provides accruals for probable liabilities for the eventual disposition of these matters.

Fresenius, like other health care providers, insurance plans and suppliers, conducts its operations under intense government regulation and scrutiny. It must comply with regulations which relate to or govern the safety and efficacy of medical products and supplies, the marketing and distribution of such products, the operation of manufacturing facilities, laboratories, hospitals, dialysis clinics and other health care facilities, and environmental and occupational health and safety. With respect to its development, manufacture, marketing and distribution of medical products, if such compliance is not maintained, Fresenius could be subject to significant adverse regulatory actions by the FDA and comparable regulatory authorities outside the United States. These regulatory actions could include warning letters or other enforcement notices from the FDA, and/or comparable foreign regulatory authority, which may require Fresenius to expend significant time and resources in order to implement appropriate corrective actions. If Fresenius does not address matters raised in warning letters or other enforcement notices to the satisfaction of the FDA and/or comparable regulatory authorities outside the United States, these regulatory authorities could take additional actions, including product recalls, injunctions against the distribution of products or operation of manufacturing plants, civil penalties, seizures of Fresenius's products and/or criminal prosecution. FMCH is currently engaged in remediation efforts with respect to one pending FDA warning letter, Fresenius Kabi with respect to two pending FDA warning letters. Fresenius must also comply with the laws of the United States, including the U.S. federal Medicare and Medicaid Fraud and Abuse Amendments of 1977, as amended (the ***Anti-Kickback Statute***), the federal False Claims Act, the federal Ethics in Patient Referrals Act of 1989 (the ***Stark Law***), the federal Civil Monetary Penalties Law and the federal Foreign Corrupt Practices Act as well as other U.S. federal and state fraud and abuse laws. Applicable laws or regulations may be amended, or enforcement agencies or courts may make interpretations that differ from Fresenius's interpretations or the manner in which Fresenius conducts its business. Enforcement has become a high priority for the U.S. federal government and some states of the United States. In addition, the provisions of the False Claims Act authorizing payment of a portion of any recovery to the party bringing the suit encourage private plaintiffs to commence whistleblower actions. By virtue of this regulatory environment, Fresenius's business activities and practices are subject to extensive review by regulatory authorities and private parties, and continuing audits, subpoenas, other inquiries, claims and litigation relating to Fresenius's compliance with applicable laws and regulations. Fresenius may not always be aware that an inquiry or action has begun, particularly in the case of whistleblower actions, which are initially filed under court seal.

Fresenius operates many facilities and handles the personal data (***PD***) of its patients and beneficiaries throughout the United States and other parts of the world, and engages with other business associates to help it carry out its health care activities. In such a decentralized system, it is often difficult to maintain the desired level of oversight and control over the thousands of individuals employed by many affiliated companies and its business associates. On occasion, Fresenius or its business associates may experience a breach under U.S. Health Insurance Portability and Accountability Act Privacy Rule and Security Rules, the EU's General Data Protection Regulation and/or other similar laws (***Data Protection Laws***) when there has been impermissible use, access, or disclosure of unsecured PD or when Fresenius or its business associates neglect to implement the required administrative, technical and physical safeguards of its electronic systems and devices, or a data breach that results in impermissible use, access or disclosure of personal identifying information of its employees, patients and beneficiaries. On those occasions, Fresenius must comply with applicable breach notification requirements.

Fresenius relies upon its management structure, regulatory and legal resources, and the effective operation of its compliance program to direct, manage and monitor the activities of its employees. On occasion, Fresenius may identify instances where employees or other agents deliberately, recklessly or inadvertently contravene Fresenius' policies or violate applicable law. The actions of such persons may subject Fresenius and its subsidiaries to liability under the Anti-Kickback Statute, the Stark Law, the False Claims Act, Data Protection Laws, the Health Information Technology for Economic and Clinical Health Act and the Foreign Corrupt Practices Act, among other laws and comparable state laws or laws of other countries.

Physicians, hospitals and other participants in the health care industry are also subject to a large number of lawsuits alleging professional negligence, malpractice, product liability, worker's compensation or related claims, many of which involve large claims and significant defense costs. Fresenius has been and is currently subject to these suits due to the nature of its business and expects that those types of lawsuits may continue. Although Fresenius maintains insurance at a level, which it believes to be prudent, it cannot assure that the coverage limits will be adequate or that insurance will cover all asserted claims. A successful claim against Fresenius or any of its subsidiaries in excess of insurance coverage could have

a material adverse effect upon Fresenius and the results of its operations. Any claims, regardless of their merit or eventual outcome, could have a material adverse effect on Fresenius's reputation and business.

Fresenius has also had claims asserted against it and has had lawsuits filed against it relating to alleged patent infringements or businesses that Fresenius has acquired or divested. These claims and suits relate both to operation of the businesses and to the acquisition and divestiture transactions. Fresenius has, when appropriate, asserted its own claims, and claims for indemnification. A successful claim against Fresenius or any of its subsidiaries could have a material adverse effect on its business, financial condition, and results of its operations. Any claims, regardless of their merit or eventual outcome, could have a material adverse effect upon Fresenius's reputation and business.

5.9 Recent Events

On February 1, 2021, Fresenius reported that excess mortality of dialysis patients is expected to impact the net income of the Group in the financial year 2021. Based on the then current status of the Group's financial planning process and assuming that the then current burdens and constraints caused by the COVID-19 pandemic will only begin to recede in the second half of the year, Fresenius targets healthy sales growth (in constant currency) and at least broadly stable net income (net income attributable to shareholders of Fresenius SE & Co. KGaA; in constant currency; before any special items and any one-time expenses related to likely efficiency and cost saving programs) year over year in the financial year 2021. The earnings of Fresenius for the financial year 2021 are, hence, expected to be very meaningfully impacted by COVID-19 effects. In particular, as reported on that day by Fresenius Medical Care, the significant acceleration of mortality among dialysis patients due to COVID-19 is expected to have a material impact on Fresenius Medical Care's results and hence on the Fresenius Group's net income (net income attributable to shareholders of Fresenius SE & Co. KGaA; in constant currency; before any special items and any one-time expenses related to likely efficiency and cost saving programs) growth. The then current information and assumptions do not trigger a revision of Fresenius' medium-term growth targets, which were set before the COVID-19 pandemic emerged.

On February 23, 2021, Fresenius issued its final guidance for the financial year 2021. Fresenius targets low-to-mid single digit sales growth (in constant currency) and at least broadly stable net income (net income attributable to shareholders of Fresenius SE & Co. KGaA; in constant currency; before any special items and any one-time expenses related to likely efficiency and cost saving programs) year over year in the financial year 2021.

COVID-19 led and is expected to lead to a shortfall relative to our original expectations for the financial years 2020 and 2021 as well as ongoing incremental uncertainty. Fresenius is planning to launch group-wide strategic efficiency initiatives to further safeguard its medium-term targets and sustainably enhance profitability. These initiatives are expected to consist of operational excellence and cost-saving measures, targeted strengthening of future growth areas and portfolio optimizations. The operational excellence and cost-saving measures are targeted to result in cost-savings of at least €100 million p.a. after tax and minority interest in 2023, with some further potential to increase thereafter. Fresenius anticipates that achieving these sustainable efficiencies will require significant up-front expenses. On average, for the years 2021 to 2023, those expenses are expected to be in the order of magnitude of €100 million p.a. after tax and minority interest.

In connection with the COVID-19 pandemic, the German government enacted the third law of protection of the population in an epidemical situation of national dimension, a follow-up regulation of the COVID-19 Hospital Relief Act (*Krankenhaus-Rettungsschirm*) from March 2020. Under the revised regulation, the local infection rates and the utilization rates in the hospitals' wards were decisive for receiving financial support. This rule ceased to apply on February 28, 2021 but was extended thereafter until April 11, 2021 in an unchanged form. Currently, a draft bill for continued financial support is being assessed by the government.

Further legislation, and amendments to existing legislation, intended to fight the COVID-19 pandemic and its adverse economic consequences can be expected in the markets in which we operate. It is currently not possible to estimate or to quantify any effects of such legislative measures on our business.

On or around March 19, 2021, the Company as guarantor and Fresenius Ireland II as borrower will enter into new bilateral term loan agreements with a maturity of up to 3 years and an aggregate volume of \$500

million. The loans will be used for general corporate purposes and to refinance existing indebtedness (including the existing term loan in U.S. dollars of Fresenius Ireland II).

5.10 Outlook

The health care sector is one of the world's largest industries. It is relatively insensitive to economic fluctuations compared to other sectors. Fresenius expects that the health care sector will continue to grow in the coming years.

Fresenius sees opportunities to benefit from the rising medical needs deriving from aging populations, the growing number of chronically ill and multimorbid patients, stronger demand for innovative products and therapies as well as comprehensive care and advances in medical technology, as well as the still insufficient access to health care in the developing and emerging countries. On the other hand, experts estimate that further financial constraints especially in the public sector could result in more pricing pressure and correspondingly lower revenues for companies in the health care industry. Some countries are experiencing significant financing problems in the health care sector due to the strained public finance situation. Above-average growth opportunities exist not only in the markets of Asia-Pacific but also in Latin America and Africa. Fresenius therefore seeks to strengthen its activities in these regions. Beside expanding regional presences, Fresenius further seeks to broaden its services and products business in its existing markets and to exploit opportunities for potential within its operations for cost-management and efficiency-enhancement measures.

Fresenius Medical Care expects the number of dialysis patients worldwide to continue growing in the coming years. Fresenius Kabi expects the market for generic IV drugs, biopharmaceuticals, clinical nutrition, infusion therapy and medical devices/transfusion technology to continue to grow. In line with market development in Germany, Fresenius Helios sees a trend towards outpatient treatments leading to some pressure on admissions growth in its hospitals. To counter this trend, Helios Germany is expanding its outpatient services offerings. Fresenius Helios expects the private hospital market in Spain to continue to grow. In the market for projects and services for hospitals and other health care facilities as well as in the market for post-acute care services in Europe, Fresenius Vamed expects an increase in demand for projects and services for hospitals and other health care facilities worldwide.

Fresenius expects further adverse effects from COVID-19 on its business and result of operations for 2021. The COVID-19 pandemic may also have adverse effects on our financial condition, liquidity and valuation of assets including goodwill and still entails material risks to our supply chain, our production, the sales of products and delivery of our services. These effects will be exacerbated the longer the COVID-19 pandemic lasts and any improvement in the relevant business environment of Fresenius is heavily dependent on continuously increasing levels of vaccination coverage in Fresenius' relevant markets.

In a dynamic environment, with direct, but also many indirect operational, practical and wider financial consequences of COVID-19 it is, however, currently impossible to precisely quantify any such effects as of the date of the Prospectus.

6. ISSUE PROCEDURES

6.1 General

The relevant Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche (the *Conditions*). The Conditions will be constituted by the Terms and Conditions of the Notes set forth below (the *Terms and Conditions*) as further specified by the provisions of the Final Terms as set out below.

6.2 Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the Issuer to choose among the following Options:

Option I – Terms and Conditions for Notes with fixed interest rates;

Option II – Terms and Conditions for Notes with floating interest rates;

With respect to Fixed Rate Notes, each of Option I A and Option I B is incorporated by reference into this Prospectus for the purpose of a potential increase of Notes outstanding and originally issued prior to the date of this Prospectus.

6.3 Documentation of the Conditions

The Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of Option I or Option II, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions alone shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be used where the Notes are publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- Alternatively, the Final Terms shall determine which of Option I or Option II and of the respective further options contained in each of Option I and Option II are applicable to the individual issue by only referring to the specific sections of the relevant set of Terms and Conditions as set out in the Prospectus. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus attached.

6.4 Determination of Options / Completion of Placeholders

The Final Terms shall determine which of Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I or Option II contains also certain further options (characterized by indicating the optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the text of the relevant set of Terms and Conditions as set out in the Prospectus) as well as placeholders (characterized by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

6.4.1 Determination of Options

The Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the sections of the relevant

set of Terms and Conditions as set out in the Prospectus. If the Final Terms do not replicate or refer to an alternative or optional provision it shall be deemed to be deleted from the Conditions.

6.4.2 Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

In that case, all instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

6.5 Controlling Language

As to controlling language of the respective Conditions, the following applies:

- In the case of Notes (i) publicly offered, in whole or in part, in the Federal Republic of Germany, or (ii) initially distributed, in whole or in part, to non-qualified investors in the Federal Republic of Germany, German will be the controlling language. If, in the event of such public offer or distribution to non-qualified investors, however, English is chosen as the controlling language, a German language translation of the Conditions will be available from the principal offices of the Fiscal Agent and the Issuer as specified on the back of this Prospectus.
- In other cases, the Issuer will elect either German or English to be the controlling language.

7. TERMS AND CONDITIONS OF THE NOTES

The Terms and Conditions of the Notes (the *Terms and Conditions*) are set forth below for two options:

Option I comprises the set of Terms and Conditions that apply to Tranches of Notes with fixed interest rates.

Option II comprises the set of Terms and Conditions that apply to Tranches of Notes with floating interest rates.

The set of Terms and Conditions for each of these Options contains certain further options, which are characterized accordingly by indicating the respective optional provision through instructions and explanatory notes set out in square brackets within the set of Terms and Conditions.

In the Final Terms the Issuer will determine, which of Option I or Option II including certain further options contained therein, respectively, shall apply with respect to an individual issue of Notes, either by replicating the relevant provisions or by referring to the relevant options.

To the extent that, upon the approval of this Prospectus, the Issuer had no knowledge of certain items which are applicable to an individual issue of Notes, this Prospectus contains placeholders set out in square brackets which include the relevant items that will be completed by the Final Terms.

(die *Garantin*)**

zugunsten der Gläubiger der Schuldverschreibungen (die *Schuldverschreibungen*) der

**Fresenius Finance Ireland Public Limited Company, Balbriggan, Co. Dublin,
Irland**

und der

**Fresenius Finance Ireland II Public Limited Company, Balbriggan, Co. Dublin,
Irland**

(jeweils eine *Emittentin*)

**im Rahmen des EUR 12.500.000.000 Debt Issuance Program der Fresenius SE & Co. KGaA, der
Fresenius Finance Ireland Public Limited Company und der Fresenius Finance Ireland II Public
Limited Company
(das *Programm*)**

§ 1

GARANTIE, STATUS

- (1) Die Garantin garantiert hiermit unbedingt und unwiderruflich im Wege eines selbständigen Zahlungsversprechens gegenüber den Gläubigern der im Rahmen des Programms begebenen Schuldverschreibungen (die ***Gläubiger***; die Begriffe "Schuldverschreibungen" und "Gläubiger" beinhalten, soweit sie in dieser Garantie verwendet werden und für die Zwecke dieser Garantie, alle weiteren Schuldverschreibungen, die von der betreffenden Emittentin gemäß § 11(1) der Emissionsbedingungen der Schuldverschreibungen (die ***Emissionsbedingungen***) begeben werden, bzw. alle Gläubiger dieser weiteren Schuldverschreibungen) die ordnungsgemäße und pünktliche Zahlung von Kapital und Zinsen auf die Schuldverschreibungen sowie von jeglichen sonstigen Beträgen, die auf die Schuldverschreibungen zahlbar sind (die ***Garantie***). Diese Garantie ist eine selbständige Garantie, die unabhängig von den Verpflichtungen der betreffenden Emittentin oder der Gesellschaft (mit Ausnahme der Garantin), welche die betreffende Emittentin gemäß § 10 der Emissionsbedingungen ersetzt hat (die ***Nachfolgeschuldnerin***), und unabhängig von der Wirksamkeit und Durchsetzbarkeit der Verpflichtungen der betreffenden Emittentin bzw. der Nachfolgeschuldnerin besteht.
- (2) Der Zweck und das Ziel dieser Garantie ist es sicherzustellen, dass die Gläubiger unter allen Umständen, ob tatsächlicher oder rechtlicher Art, und ungeachtet der Wirksamkeit und

Durchsetzbarkeit der Verpflichtungen der betreffenden Emittentin bzw. der Nachfolgeschuldnerin oder irgendwelcher anderer Gründe, aus denen die betreffende Emittentin bzw. die Nachfolgeschuldnerin eine Zahlung nicht leistet, die gemäß den Emissionsbedingungen an die Gläubiger zu leistenden Zahlungen von Kapital, Zinsen und sonstigen Beträgen bei Fälligkeit der jeweiligen Zahlung gemäß den Emissionsbedingungen erhalten.

- (3) Die Garantin verzichtet hiermit ausdrücklich auf alle der betreffenden Emittentin bzw. einer Nachfolgeschuldnerin zustehenden Einreden (*Einreden des Hauptschuldners*), sowie auf die Einreden, welche aus einem Anfechtungs- oder Aufrechnungsrecht der betreffenden Emittentin bzw. der Nachfolgeschuldnerin in Bezug auf die Schuldverschreibungen entstehen. Dieser Verzicht erstreckt sich nicht auf die Aufrechnungseinrede mit Gegenforderungen, die (i) unbestritten oder (ii) rechtskräftig festgestellt sind.
- (4) Die Garantin stimmt ausdrücklich zu, dass die Garantie unabhängig von anderen Sicherheiten ist, welche im Zusammenhang mit den Schuldverschreibungen bestellt werden, und verzichtet auf alle Rechte, die aus der Freigabe einer solchen anderen Sicherheit entstehen.
- (5) Die Zahlungsverpflichtungen der Garantin aus dieser Garantie werden automatisch fällig und zahlbar, sofern und sobald die betreffende Emittentin bzw. eine Nachfolgeschuldnerin eine Zahlung auf die Schuldverschreibungen nicht bei Fälligkeit der jeweiligen Zahlung gemäß den Emissionsbedingungen leistet.
- (6) Kein Gläubiger ist verpflichtet, vor einer Inanspruchnahme der Garantin aus dieser Garantie gerichtliche Schritte gegen eine Person zu ergreifen, andere Rechte geltend zu machen oder andere Sicherheiten zu verwerten oder Zahlungen von einer Person zu verlangen.
- (7) Die Verbindlichkeiten der Garantin aus dieser Garantie sind mindestens gleichrangig mit allen anderen unbesicherten, nicht nachrangigen Verbindlichkeiten der Garantin, soweit diesen Verbindlichkeiten nicht durch zwingende gesetzliche Bestimmungen ein Vorrang eingeräumt wird.
- (8) Diese Garantie erlischt nach der vollständigen und endgültigen Befriedigung aller nach diesem § 1 garantierten Ansprüche (die **Garantierten Verpflichtungen**). Allerdings entfaltet diese Garantie weiterhin volle Wirksamkeit, wenn eine Garantierte Verpflichtung nur vorübergehend befriedigt wurde oder von einem Insolvenzverwalter angefochten werden kann oder anderweitig abgewendet werden kann.

§ 2

NEGATIVVERPFLICHTUNG

Die Garantin verpflichtet sich, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen der Emissionsstelle zur Verfügung gestellt worden sind, keine Sicherungsrechte an gegenwärtigen oder zukünftigen Teilen ihres Vermögens oder ihres Vermögens insgesamt zur Sicherung der gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten zu bestellen oder fortbestehen zu lassen und soweit rechtlich möglich, zu veranlassen, dass keine ihrer Tochtergesellschaften Sicherungsrechte an gegenwärtigen oder zukünftigen Teilen ihres Vermögens oder ihres Vermögens insgesamt zur Sicherung der gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten bestellt oder fortbestehen lässt, ohne jeweils die Gläubiger zur gleichen Zeit auf gleiche Weise und anteilig an diesen Sicherungsrechten teilhaben zu lassen.

Diese Verpflichtung gilt nicht in Bezug auf Sicherungsrechte, die:

- (i) an gegenwärtigen oder zukünftigen Ansprüchen der Garantin oder Ansprüchen einer ihrer Tochtergesellschaften gegen verbundene Unternehmen im Sinne der §§ 15 f. Aktiengesetz oder gegen Dritte aufgrund von einer Übertragung von Erlösen aus dem Verkauf von Wertpapieren bestehen, soweit diese Sicherheiten zur Sicherung von Verpflichtungen aus diesen durch die Garantin oder durch eine ihrer Tochtergesellschaften ausgegebenen Wertpapieren dienen,
- (ii) an Vermögensgegenständen bestellt sind, die bereits zum Zeitpunkt des Erwerbs des betreffenden Vermögensgegenstandes durch die Garantin oder durch eine ihrer Tochtergesellschaften bestanden oder am Vermögen einer neu erworbenen Gesellschaft bestehen, die Mitglied des Fresenius-Konzerns wird,
- (iii) zum Ausgabebetrag der Schuldverschreibungen bestehen,
- (iv) eine im Zeitpunkt einer Akquisition bestehende Kapitalmarktverbindlichkeit besichern, die infolge der Akquisition eine Verpflichtung der Garantin oder einer Gesellschaft des Fresenius-Konzerns

wird, sofern diese Kapitalmarktverbindlichkeit nicht im Hinblick auf diese Akquisition begründet wurde,

- (v) aufgrund anwendbaren Rechts gesetzlich vorgeschriebene Sicherheiten sind oder solche, deren Bestehen eine Voraussetzung zur Erteilung einer behördlichen Genehmigung sind,
- (vi) im Zusammenhang mit durch die Garantin oder durch eine ihrer Tochtergesellschaften begebenen asset backed securities (ABS) stehen,
- (vii) im Zusammenhang mit durch Zweckgesellschaften begebenen asset backed securities (ABS) stehen, bei denen die Garantin oder eine ihrer Tochtergesellschaften der Originator der zugrundeliegenden Vermögensgegenstände ist,
- (viii) der Erneuerung, Verlängerung oder dem Austausch irgendeiner Sicherheit gemäß vorstehend (i) bis (vii) dienen und
- (ix) Kapitalmarktverbindlichkeiten besichern, deren Kapitalbetrag (bei Aufaddieren auf den Kapitalbetrag sonstiger Kapitalmarktverbindlichkeiten, für die andere Sicherheiten als die nach (i) bis (viii) zulässigen bestehen) EUR 100.000.000 (oder deren jeweiligen Gegenwert in anderen Währungen) nicht überschreitet.

§ 3

BESTEuerung

Alle in Bezug auf die Garantie zahlbaren Beträge werden ohne Einbehalt oder Abzug an der Quelle für oder wegen gegenwärtiger oder zukünftiger Steuern oder Abgaben gleich welcher Art gezahlt, die von oder im Namen (1) der Bundesrepublik Deutschland oder einer dort zur Steuererhebung ermächtigten Behörde, (2) einer Rechtsordnung, aus der bzw. über die eine Zahlung auf die Garantie geleistet wird, oder einer dort zur Steuererhebung ermächtigten Gebietskörperschaft oder Behörde, und/oder (3) einer anderen Rechtsordnung, in der die zahlende Partei errichtet ist oder anderweitig als gebietsansässig gilt oder im steuerlichen Sinn geschäftlich tätig ist, oder einer dort zur Steuererhebung ermächtigten Gebietskörperschaft oder Behörde (jeweils eine **Relevante Steuerjurisdiktion**) im Wege des Abzugs oder Einhalts auferlegt oder erhoben werden, es sei denn, ein solcher Abzug oder Einbehalt ist gesetzlich vorgeschrieben. In diesem Fall wird die Garantin diejenigen zusätzlichen Beträge (**Zusätzliche Beträge**) zahlen, die erforderlich sind, damit die den Gläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Gläubigern erhalten worden wären; jedoch sind solche Zusätzlichen Beträge nicht zu zahlen in Bezug auf:

- (a) Steuern oder Abgaben, die von einer als Depotbank oder Inkassobeauftragter eines Gläubigers handelnden Person oder auf eine sonstige Weise zu entrichten sind, die keinen Abzug oder Einbehalt von Zahlungen von Kapital oder Zinsen durch die Garantin darstellen; oder
- (b) Zahlungen, die nicht erhoben worden wären, wenn nicht (i) eine gegenwärtige oder ehemalige Beziehung zwischen dem betreffenden Gläubiger (oder einem Treuhänder, Treugeber, Begünstigten, Mitglied oder Gesellschafter dieses Gläubigers oder einer Person, die beherrschenden Einfluss auf diesen Gläubiger hat) und einer Relevanten Steuerjurisdiktion bestehen würde, unter anderem in der Form, dass der betreffende Gläubiger (bzw. Treuhänder, Treugeber, Begünstigte, Mitglied, Gesellschafter oder die Person, die solchen Einfluss hat) Staatsbürger einer Relevanten Steuerjurisdiktion ist oder war oder dort ansässig ist oder war oder als dort ansässig gilt oder galt oder dort ein Gewerbe oder eine Geschäftstätigkeit betreibt oder betrieben hat oder dort eine Betriebsstätte unterhält oder unterhalten hat, mit Ausnahme von Beziehungen, die allein dadurch entstehen, dass ein Gläubiger Ansprüche aus der Garantie erwirbt, hält oder veräußert bzw. eine Zahlung darunter oder in Bezug auf diese erhält oder Ansprüche darauf geltend macht; oder
- (c) Zahlungen an den Gläubiger oder an einen Dritten für den Gläubiger, falls kein Einbehalt oder Abzug hätte erfolgen müssen, wenn die Schuldverschreibung zum Zeitpunkt der fraglichen Zahlung einem Depotkonto bei einer bzw. einem nicht in der Relevanten Steuerjurisdiktion ansässigen Bank, Finanzdienstleistungsinstitut, Wertpapierhandelsunternehmen oder Wertpapierhandelsbank gutgeschrieben gewesen wäre; oder
- (d) falls der Einbehalt oder Abzug gemäß (i) einer Richtlinie oder Verordnung der Europäischen Union zur Zinsbesteuerung oder (ii) einem internationalen Abkommen oder Übereinkommen zu einer solchen Besteuerung, bei dem die Relevante Steuerjurisdiktion oder die Europäische

Union Parteien sind, oder (iii) einem diese Richtlinie oder Verordnung oder dieses Abkommen oder Übereinkommen umsetzenden oder sie befolgenden oder zu ihrer Befolgung erlassenen Gesetz, oder (iv) dem Luxemburger Gesetz vom 23. Dezember 2005 erhoben wird, oder

- (e) soweit der Einbehalt oder Abzug von dem Gläubiger oder von einem Dritten für den Gläubiger zahlbar ist, der einen solchen Einbehalt oder Abzug dadurch rechtmäßigerweise hätte vermindern können (aber nicht vermindert hat), dass er gesetzliche Vorschriften beachtet, oder dafür sorgt, dass Dritte dieses tun, oder dadurch dass er eine Nichtansässigkeitserklärung oder einen ähnlichen Antrag auf Quellensteuerbefreiung gegenüber der am Zahlungsort zuständigen Steuerbehörde; abgibt oder dafür sorgt, dass dies durch einen Dritten erfolgt, oder
- (f) soweit der Einbehalt oder Abzug von dem Gläubiger oder von einem Dritten für den Gläubiger vorzunehmen ist, der einen solchen Einbehalt oder Abzug durch die Bewirkung einer Zahlung über eine andere Zahlstelle in einem Mitgliedsstaat der Europäischen Union, welche nicht zu einem solchen Einbehalt oder Abzug verpflichtet ist, hätte vermindern können, oder
- (g) soweit der Einbehalt oder Abzug für einen Gläubiger oder dessen Rechnung vorzunehmen ist, der Schuldverschreibungen mehr als 30 Tage nach dem Tag, an dem eine Zahlung unter den Schuldverschreibungen fällig und zahlbar wurde bzw., soweit dies später eintritt, nach dem Tag, an dem die Zahlung ordnungsgemäß vorgenommen wurde, vorgelegt hat; oder
- (h) soweit der Einbehalt oder Abzug gemäß §§ 1471 bis 1474 des Internal Revenue Code, jeder gegenwärtigen oder zukünftigen Verordnung oder offiziellen Auslegung davon, jeder Vereinbarung, die gemäß § 1471(b) des Internal Revenue Codes eingegangen wurde oder jeder steuerlichen oder regulatorischen Gesetzgebung, sowie steuerlichen und regulatorischen Gesetzen oder Vorgehensweisen, die nach einem völkerrechtlichen Vertrag, der zur Umsetzung der Bestimmungen des Internal Revenue Codes geschlossen wurde, vorzunehmen ist; oder
- (i) jegliche Kombination der Absätze (a)-(h).

Zudem werden keine Zusätzlichen Beträge im Hinblick auf Zahlungen auf die Garantie an einen Gläubiger gezahlt, welcher die Zahlung als Treuhänder oder Personengesellschaft oder als sonstiger nicht alleiniger wirtschaftlicher Eigentümer erhält, soweit nach den Gesetzen der Relevanten Steuerjurisdiktion(en) eine solche Zahlung für Steuerzwecke dem Einkommen des Begünstigten bzw. Gründers eines Treuhandvermögens oder dem Gesellschafter der Personengesellschaft zugerechnet würde, der jeweils selbst nicht zum Erhalt von Zusätzlichen Beträgen berechtigt gewesen wäre, wenn der Begünstigte, Gründer eines Treuhandvermögens, Gesellschafter oder wirtschaftliche Eigentümer unmittelbarer Gläubiger der Schuldverschreibungen wäre.

Klarstellend wird darauf hingewiesen, dass die in der Bundesrepublik Deutschland aufgrund von zum Begebungstag geltenden Steuergesetzen auf Ebene der Depotbank derzeit erhobene Kapitalertragsteuer und der darauf jeweils anfallende Solidaritätszuschlag keine Steuer oder sonstige Abgabe im oben genannten Sinne sind, für die Zusätzliche Beträge seitens der Garantin zu zahlen wären. **Begebungstag** bezeichnet in Bezug auf eine bestimmte Tranche von Schuldverschreibungen den Begebungstag dieser Schuldverschreibungen.

§ 4 BESCHLÜSSE DER GLÄUBIGER — ÄNDERUNGEN DER GARANTIE

Falls die Emissionsbedingungen Mehrheitsbeschlüsse der Gläubiger im Hinblick auf Änderungen dieser Garantie vorsehen, können die Gläubiger durch einen gemäß § 13 der Emissionsbedingungen gefassten Mehrheitsbeschluss Änderungen dieser Garantie in Bezug auf die betreffenden Schuldverschreibungen zustimmen. Eine Verpflichtung zur Leistung kann für die Gläubiger durch Mehrheitsbeschluss nicht begründet werden.

Mehrheitsbeschlüsse der Gläubiger sind für alle Gläubiger gleichermaßen verbindlich. Ein Mehrheitsbeschluss der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

§ 5
DEFINITIONEN

Begriffe, die in dieser Garantie verwendet werden und in den Emissionsbedingungen definiert sind, haben, soweit in dieser Garantie nicht anders angegeben, dieselbe Bedeutung wie in den Emissionsbedingungen.

§ 6
ANWENDBARES RECHT, GERICHTSSTAND, SPRACHE UND
GERICHTLICHE GELTENDMACHUNG

- (1) Form und Inhalt dieser Garantie sowie die Rechte und Pflichten der Gläubiger und der Garantin bestimmen sich nach deutschem Recht, jeweils unter Ausschluss der Grundsätze des Internationalen Privatrechts.
- (2) Gerichtsstand für sämtliche im Zusammenhang mit dieser Garantie entstehenden Klagen oder sonstigen Verfahren ist Frankfurt am Main.
- (3) Diese Garantie stellt einen Vertrag zugunsten Dritter im Sinne des § 328 Abs. 1 BGB dar, der jedem Gläubiger das Recht gibt, die Erfüllung der in dieser Garantie übernommenen Verpflichtungen unmittelbar von der Garantin zu verlangen und diese Garantie unmittelbar gegen die Garantin durchzusetzen.
- (4) Diese Garantie ist in deutscher Sprache abgefasst und in die englische Sprache übersetzt. Die deutschsprachige Fassung ist verbindlich und allein maßgeblich.
- (5) Jeder Gläubiger von Schuldverschreibungen ist berechtigt, in jedem Rechtsstreit gegen die Garantin oder in jedem Rechtsstreit, in dem der Gläubiger und die Garantin Partei sind, seine Rechte aus dieser Garantie im eigenen Namen auf der Grundlage einer Kopie dieser Garantie, die von einer autorisierten Person der Emissionsstelle bestätigt wurde, ohne Vorlage des Originals der Garantie, zu schützen und geltend zu machen.

(the *Guarantor*)**

for the benefit of the Holders of notes (the *Notes*), issued by

**Fresenius Finance Ireland Public Limited Company, Balbriggan, Co. Dublin,
Ireland**

and

**Fresenius Finance Ireland II Public Limited Company, Balbriggan, Co. Dublin,
Ireland**

(each an *Issuer*)

**under the EUR 12,500,000,000 Debt Issuance Program of Fresenius SE & Co. KGaA, Fresenius
Finance Ireland Public Limited Company and Fresenius Finance Ireland II Public Limited
Company
(the *Program*)**

§ 1

GUARANTEE, STATUS

- (1) The Guarantor hereby unconditionally and irrevocably guarantees by way of an independent payment obligation (*selbständiges Zahlungsversprechen*) to the holders from time to time of any Notes under the Program (the ***Holders*** and the expressions "Notes" and "Holders" as used herein shall, for the purposes of this Guarantee, include any additional Notes issued by the relevant Issuer under § 11(1) of the terms and conditions of the Notes (the ***Terms and Conditions***) and any Holders of any such additional Notes) the due and punctual payment of principal of, and interest on, and any other amounts payable under the Notes (the ***Guarantee***). This Guarantee shall be separate and independent from the obligations of the relevant Issuer or the company (other than the Guarantor) which may have been substituted for the same pursuant to § 10 of the Terms and Conditions (the ***Substitute Debtor***) and shall exist irrespective of the validity and enforceability of the obligations of the relevant Issuer or Substitute Debtor.
- (2) The intent and purpose of this Guarantee is to ensure that the Holders under all circumstances, whether factual or legal, and regardless of the validity and enforceability of the obligations of the relevant Issuer or the Substitute Debtor, or of any other grounds on the basis of which the relevant Issuer or the Substitute Debtor may fail to effect payment, shall receive the amounts payable as principal, interest and other amounts payable to the Holders pursuant to the Terms and Conditions on the due dates as provided for in the Terms and Conditions.

- (3) The Guarantor hereby explicitly waives any personal defenses of the relevant Issuer or any Substitute Debtor (*Einreden des Hauptschuldners*) as well as any defenses arising out of the relevant Issuer's or Substitute Debtor's right of revocation (*Anfechtbarkeit*) or set-off (*Aufrechenbarkeit*) with respect to the Notes. This waiver shall not apply to any defenses relating to any right of set-off with counterclaims that are (i) uncontested (*unbestritten*) or (ii) based on an unappealable (*rechtskräftig festgestellt*) court decision.
- (4) The Guarantor expressly consents to the Guarantee being independent from any other security granted in connection with the Notes and waives any right which might result from the release of any such other security.
- (5) The Guarantor's payment obligations under this Guarantee become automatically due and payable if and when the relevant Issuer or any Substitute Debtor does not make a payment with respect to the Notes when such payment is due and payable pursuant to the Terms and Conditions.
- (6) No Holder will be required to proceed against or enforce any other rights or security or claim payment from any person before claiming from the Guarantor under this Guarantee.
- (7) The obligations of the Guarantor under this Guarantee shall rank at least *pari passu* with all other unsubordinated obligations of the Guarantor, unless such obligations are accorded priority under mandatory provisions of statutory law.
- (8) This Guarantee is discharged upon the full and irrevocable satisfaction of all claims guaranteed pursuant to this § 1 (the **Guaranteed Obligations**). However, if any of the Guaranteed Obligations was only temporarily satisfied or is subject to be set aside by an insolvency administrator (*Anfechtungsrecht*) or can be avoided otherwise, the Guarantee shall continue in full force and effect.

§ 2 NEGATIVE PLEDGE

The Guarantor undertakes, as long as any of the Notes remain outstanding, but only up to the time all amounts of principal and interest have been placed at the disposal of the Fiscal Agent, not to grant or permit to subsist any Security Interest over any or all of its present or future assets, as security for any present or future Capital Market Indebtedness and (ii) to procure, to the extent legally possible, that none of its Subsidiaries will grant or permit to subsist any Security Interest over any or all of its present or future assets, as security for any present or future Capital Market Indebtedness without at the same time having the Holders share equally and ratably in such Security Interest.

This undertaking shall not apply with respect to any Security Interest which:

- (i) is provided over any of the Guarantor's claims or claims of any of its Subsidiaries against any affiliated companies within the meaning of sections 15 et seq. of the German Stock Corporation Act (*Aktiengesetz*) or any third party, which claims exist now or arise at any time in the future, as a result of the passing on of the proceeds from the sale by the issuer of any securities, provided that any such security serves to secure obligations under such securities issued by the Guarantor or by any of its Subsidiaries;
- (ii) is existing on assets at the time of the acquisition thereof by the Guarantor or by any of its Subsidiaries or is existing over assets of a newly acquired company which becomes a member of the Fresenius Group;
- (iii) is existing on the issue date of the Notes;
- (iv) secures Capital Market Indebtedness existing at the time of acquisition that becomes an obligation of the Guarantor or of any company within the Fresenius Group as a consequence of such acquisition, provided that such Capital Market Indebtedness was not created in contemplation of such acquisition;
- (v) is mandatory pursuant to applicable laws or required as a prerequisite for obtaining any governmental approvals;
- (vi) is provided in connection with any issuance of asset backed securities by the Guarantor or by any of its Subsidiaries;
- (vii) is provided in respect of any issuance of asset backed securities made by a special purpose vehicle where the Guarantor or any of its Subsidiaries is the originator of the underlying assets;

- (viii) is provided in connection with the renewal, extension or replacement of any security pursuant to foregoing (i) through (vii); and
- (ix) secures Capital Market Indebtedness the principal amount of which (when aggregated with the principal amount of any other Capital Market Indebtedness which has the benefit of a security other than any permitted under the sub-paragraphs (i) to (viii) above) does not exceed EUR 100,000,000 (or its equivalent in other currencies at any time).

§ 3 TAXATION

All payments of principal and interest made under this Guarantee shall be made free and clear of, and without withholding or deduction for, any present or future taxes or duties of whatever nature imposed or levied by way of deduction or withholding by or on behalf of (1) the Federal Republic of Germany or any authority therein or thereof having power to tax, (2) any jurisdiction from or through which payment on the Guarantee is made, or any political subdivision or governmental authority thereof or therein having the power to tax and/or (3) any other jurisdiction in which the payor is organized or otherwise considered to be resident or doing business for tax purposes, or any political subdivision or governmental authority thereof or therein having the power to tax (each a **Relevant Taxing Jurisdiction**), unless such deduction or withholding is required by law. In that event the Guarantor shall pay such additional amounts (the **Additional Amounts**) as shall result in receipt by the Holders of such amounts as would have been received by them had no such withholding or deduction been required, except that no Additional Amounts shall be payable with respect to:

- (a) taxes or duties which are payable by any Person acting as custodian bank or collecting agent on behalf of a Holder, or otherwise in any manner which does not constitute a deduction or withholding by the Guarantor, as applicable, from payments made by it; or
- (b) payments that would not have been so imposed but for the existence of any present or former connection between such Holder (or between a fiduciary, settlor, beneficiary, member or shareholder of, or a person having a power over, such Holder) and any Relevant Taxing Jurisdiction including, without limitation, such Holder (or such fiduciary, settlor, beneficiary, member, shareholder or person having such a power) being or having been a citizen or resident or treated as a resident of, being or having been engaged in a trade or business in, or having or having had a permanent establishment in, a Relevant Taxing Jurisdiction other than any connections arising solely from a Holder acquiring, holding or disposing of, receiving any payment under or with respect to or enforcing the Guarantee; or
- (c) payments to, or to a third party on behalf of, a Holder where no such withholding or deduction would have been required to be made if the Notes were credited at the time of payment to a securities deposit account with a bank, financial services institution, securities trading business or securities trading bank, in each case outside the Relevant Taxing Jurisdiction; or
- (d) payments where such withholding or deduction is imposed pursuant to (i) any European Union Directive or Regulation concerning the taxation of savings, or (ii) any international treaty or understanding relating to such taxation and to which the Relevant Taxing Jurisdiction or the European Union is a party/are parties, or (iii) any provision of law implementing, or complying with, or introduced to conform with, such Directive, Regulation, treaty or understanding, or (iv) the Luxembourg law of December 23, 2005; or
- (e) payments to the extent such withholding or deduction is payable by or on behalf of a Holder who could lawfully mitigate (but has not so mitigated) such withholding or deduction by complying or procuring that any third party complies with any statutory requirements or by making or procuring that a third party makes a declaration of non-residence or other similar claim for exemption to any tax authority in the place where the payment is effected; or
- (f) payments to the extent such withholding or deduction is payable by or on behalf of a Holder who would have been able to mitigate such withholding or deduction by effecting a payment via another paying agent in a Member State of the European Union, not obliged to withhold or deduct tax; or
- (g) payments to the extent such withholding or deduction is for or on account of the presentation by the Holder of any Note for payment on a date more than 30 days after the date on which such

payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later; or

- (h) payments to the extent such withholding or deduction is required pursuant to Sections 1471 through 1474 of the Internal Revenue Code, any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Internal Revenue Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Internal Revenue Code; or
- (i) any combination of items (a)-(h);

nor shall any Additional Amounts be paid with respect to any payment on the Guarantee to a Holder who is a fiduciary or partnership or who is other than the sole beneficial owner of such payment to the extent such payment would be required by the laws of the Relevant Taxing Jurisdiction to be included in the income, for tax purposes, of a beneficiary or settlor with respect to such fiduciary or a member of such partnership or a beneficial owner who would not have been entitled to such Additional Amounts had such beneficiary, settlor, member or beneficial owner been the Holder of the Note.

For the avoidance of doubt, the withholding tax (*Kapitalertragsteuer*) currently levied in the Federal Republic of Germany at the level of the custodian bank and the solidarity surcharge (*Solidaritätszuschlag*) imposed thereon pursuant to tax law as in effect as of the Issue Date do not constitute a tax or duty as described above in respect of which Additional Amounts would be payable by the Guarantor. **Issue Date** means in respect of a particular issue of Notes, the issue date of such Notes.

§ 4

RESOLUTIONS OF HOLDERS – AMENDMENTS TO THE GUARANTEE

If the Terms and Conditions provide for majority resolutions of Holders in respect of amendments of this Guarantee, the Holders may consent to amendments of this Guarantee by majority resolution passed in accordance with § 13 of the Terms and Conditions with respect to the relevant Notes, provided that no obligation to make any payment or render any other performance shall be imposed on any Holder by majority resolution.

Majority resolutions shall be binding on all Holders. Resolutions which do not provide for identical conditions for all Holders are void, unless Holders who are disadvantaged have expressly consented to their being treated disadvantageously.

§ 5

DEFINITIONS

Unless otherwise defined in this Guarantee, terms used herein and defined in the Terms and Conditions shall have the meaning attributed to them in the Terms and Conditions.

§ 6

APPLICABLE LAW, PLACE OF JURISDICTION, LANGUAGE AND ENFORCEMENT

- (1) This Guarantee, as to form and content, and all rights and obligations of the Holders and the Guarantor, shall be governed by German law without giving effect to the principles of conflicts of law thereof.
- (2) The place of non-exclusive jurisdiction for any action or other legal proceedings or in connection with this Guarantee shall be Frankfurt am Main.
- (3) This Guarantee constitutes a contract for the benefit of the Holders from time to time as third-party beneficiaries in accordance with § 328(1) of the German Civil Code (*Bürgerliches Gesetzbuch*) giving rise to the right of each Holder to require performance of this Guarantee directly from the Guarantor and to enforce this Guarantee directly against the Guarantor.
- (4) This Guarantee is written in the German language and attached hereto is a non-binding English translation.
- (5) Any Holder of Notes may in any proceedings against the Guarantor, or to which such Holder and the Guarantor are parties, protect and enforce in his own name his rights arising under this Guarantee

on the basis of a copy of this Guarantee certified by an authorized person of the Fiscal Agent without presentation of the original Guarantee.

Except as disclosed in the relevant Final Terms, as applicable, the net proceeds of the issue of each Tranche of Notes will be applied by the relevant Issuer to meet part of its general corporate purposes. If in respect of any particular issue there is a particular identified use of proceeds, this will be stated in the relevant Final Terms, as applicable.

11. TAXATION WARNING

THE TAX LEGISLATION OF THE STATE OF RESIDENCE OF A PROSPECTIVE PURCHASER OF NOTES OR OF A JURISDICTION WHERE A PROSPECTIVE PURCHASER IS SUBJECT TO TAXATION AND THE TAX LEGISLATION OF THE ISSUER'S AND/OR THE GUARANTOR'S COUNTRY OF INCORPORATION OR COUNTRY OF RESIDENCE MAY HAVE AN IMPACT ON THE INCOME RECEIVED FROM THE NOTES.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISOR AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE NOTES.

12. SUBSCRIPTION AND SALE

12.1 Underwriting

The Notes may be issued on a continuing basis to one or more of the Dealers specified herein and any additional Dealer appointed under the Program from time to time by the Issuer(s), which appointment may be for a specific issue or on an ongoing basis. Notes may be distributed by way of public offers to qualified investors pursuant to the Prospectus Regulation and/or non-qualified investors, as specified in the relevant Final Terms, or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche of Notes will be stated in the relevant Final Terms.

Notes may be sold from time to time by each Issuer to any one or more of the Dealers. The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, Dealers are set out in a dealer agreement dated on or about March 19, 2021 (the *Dealer Agreement*) and made between the Issuers, the Guarantor and the Dealers. Any such agreement will, *inter alia*, contain provisions dealing with the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase.

The Dealer Agreement provides for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Program or in relation to a particular Tranche of Notes. A subscription agreement (the *Subscription Agreement*) prepared in relation to a particular Tranche of Notes will typically be dated on or about the date of the relevant Final Terms applicable to such Tranche of Notes.

Each Dealer and/or each further financial intermediary subsequently reselling or finally placing the Notes is entitled to use the Prospectus in Luxembourg and Germany or such other Member State whose competent authorities have been notified of the approval of this Prospectus for the subsequent resale or final placement of the relevant Notes during the respective offer period (as determined in the applicable Final Terms) during which subsequent resale or final placement of the relevant Notes can be made, if and to the extent specified in the applicable Final Terms, provided however, that the Prospectus is still valid in accordance with article 11(1) of the Prospectus Regulation. Each Issuer accepts responsibility for the content of the Prospectus and the applicable Final Terms also with respect to such subsequent resale or final placement of the Notes.

Such consent for the subsequent resale or final placement of Notes by the financial intermediaries may be restricted to certain jurisdictions and subject to conditions as stated in the applicable Final Terms.

The Prospectus may only be delivered to potential investors together with all supplements published before such delivery. Any supplement to the Prospectus is available for viewing in electronic form on the website of the Luxembourg Stock Exchange (www.bourse.lu).

When using the Prospectus, each Dealer and/or relevant further financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions, including with the restrictions specified in the "Prohibition of Sales to EEA and UK Retail Investors" legend set out on the cover page of the applicable Final Terms, if any.

In the event of an offer being made by a Dealer and/or a further financial intermediary, the Dealer and/or the further financial intermediary shall provide information to investors on the terms and conditions of the offer at the time the offer is made.

13. GENERAL INFORMATION

13.1 Interests of Natural and Legal Persons involved in the Issue/Offer

Certain of the Dealers and their affiliates may be borrowers from or creditors of the Company, Fresenius Ireland, Fresenius Ireland II and its affiliates. Proceeds from issues under the Program may be used to repay financial liabilities to Dealers.

In addition, certain Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for the Company, Fresenius Ireland, Fresenius Ireland II and its affiliates in the ordinary course of business.

Moreover, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers or Issuers' affiliates or Guarantor's or Guarantor's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuers and the Guarantor routinely hedge their credit exposure to the Issuers consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Program. Any such short positions could adversely affect future trading prices of Notes issued under the Program. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. Interests of persons involved in a specific issue of Notes under the Program will be set out in the relevant Final Terms.

Fresenius SE & Co. KGaA will obtain from time to time all necessary consents, approvals and authorizations in connection with the issue and performance of its obligations under the Notes.

The establishment, increase and update of the Program and the issue of Notes thereunder have been duly authorized by Fresenius Ireland.

Fresenius Ireland will obtain from time to time all necessary consents, approvals and authorizations in connection with the issue and performance of its obligations under the Notes.

The establishment, increase and update of the Program and the issue of Notes thereunder have been duly authorized by Fresenius Ireland II.

Fresenius Ireland II will obtain from time to time all necessary consents, approvals and authorizations in connection with the issue and performance of its obligations under the Notes.
